

## SPECIAL COMMITTEE REPORTS

**Spec. Com. Rep. No. 1**

Your Committee on Credentials begs leave to report that it has examined the Certificates of Election of the Senate of the Twenty-Seventh Legislature of the State of Hawaii, Regular Session of 2013, and finds that the following persons have been legally elected and are fully qualified to sit as members of the Senate.

The newly elected Senators whose respective terms of office will expire on November 4, 2014, are:

First Senatorial District

Gilbert Kahele

Third Senatorial District

Joshua Green, M.D.

Fourth Senatorial District

Malama Solomon

Sixth Senatorial District

Rosalyn H. Baker

Seventh Senatorial District

Jamie Kalani English

Twelfth Senatorial District

Brickwood Galuteria

Sixteenth Senatorial District

David Y. Ige

Seventeenth Senatorial District

Clarence Nishihara

Eighteenth Senatorial District

Michelle N. Kidani

Twenty-First Senatorial District

Maile Shimabukuro

Twenty-Third Senatorial District

Clayton Hee

Twenty-Fourth Senatorial District

Jill N. Tokuda

The newly elected Senators whose respective terms of office will expire on November 1, 2016, are:

Second Senatorial District

Russell Ruderman

Eighth Senatorial District

Ronald D. Kouchi

Ninth Senatorial District

Samuel Slom

Tenth Senatorial District

Les Ihara, Jr.

Eleventh Senatorial District

Brian T. Taniguchi

Thirteenth Senatorial District

Suzanne Chun Oakland

Fourteenth Senatorial District

Donna Mercado Kim

Fifteenth Senatorial District

Glenn Wakai

Nineteenth Senatorial District

Will Espero

Twentieth Senatorial District

Mike Gabbard

Twenty-Second Senatorial District

Donovan Dela Cruz

Twenty-Fifth Senatorial District

Laura Thielen

Your Committee on Credentials further reports that it has received Governor's Message No. 502 and has examined the credentials of The Honorable Gilbert Samuel Coloma Keith Agaran and finds that he is fully qualified to fill the vacancy in the Senate, Fifth District, created by the resignation of Shan S. Tsutsui for the Twenty-Seventh Legislature of the State of Hawaii, Regular Session of 2013, whose term of office will expire on November 4, 2014.

Signed by Senators Brickwood Galuteria, Sam Slom, Les Ihara, Jr., and Jill N. Tokuda, members of the Committee.

**Spec. Com. Rep. No. 2**

Your Special Committee on Accountability - 02, begs leave to report as follows:

The purpose and intent of this report is to set forth the findings and recommendations of the Special Committee on Accountability – 02 regarding the oversight, accountability, and transparency of the operational and financial management of the University of Hawaii System, including but not limited to the University of Hawaii's Athletic Department.

**I. Background on the Special Committee on Accountability – 02 and Informational Briefings**

On August 29, 2012, pursuant to Senate Rule 20,<sup>1</sup> the Senate President appointed a Senate Special Committee on Accountability (Committee) to conduct an informational briefing or briefings, as may be necessary, to review the oversight, accountability, and transparency of the operational and financial management of the University of Hawaii System, including but not limited to the University of Hawaii's Athletic Department.

The following members were appointed to your Committee:

Senator Donna Mercado Kim, Chair;  
 Senator Jill Tokuda, Vice-Chair;  
 Senator Ronald Kouchi;  
 Senator Les Ihara; and  
 Senator Sam Slom

Other members of the Senate were invited to attend your Committee's informational briefings.

Your Committee invited the following persons to provide testimony:

Eric K. Martinson, University of Hawaii Board of Regents, Chair  
 Carl A. Carlson, Jr., University of Hawaii Board of Regents, Vice-Chair;  
 James H.Q. Lee, University of Hawaii Board of Regents, Vice-Chair;  
 Coralie Chun Matayoshi, University Board of Regents, Member;  
 M.R.C. Greenwood, University of Hawaii, President;  
 Tom Apple, University of Hawaii at Manoa, Chancellor;  
 Virginia Hinshaw,<sup>2</sup> University of Hawaii at Manoa, Former Chancellor;  
 James Donovan, University of Hawaii at Manoa, Director of External Affairs and Community Relations (Former Athletic Director);

<sup>1</sup> Senate Rule 20 states:

The President may appoint a Special Committee on Accountability which shall conduct informational briefings on matters referred to it by Senate Leadership or investigative matters referred to it by single house or concurrent resolutions. The committee shall be composed of not more than five members, unless otherwise ordered by the Senate, and include a member or members of the minority party. The President shall appoint the committee's vice-chair, who may change from time to time, to represent the standing committee having primary jurisdiction over the subject matter referred to the special committee. All requirements of standing committees shall apply to the committee.

<sup>2</sup> Ms. Hinshaw was unable to attend the Committee's informational briefings but did provide answers to the Committee's questions electronically. A copy of Ms. Hinshaw's response is available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 3, 2012).

Richard Sheriff, University of Hawaii at Manoa, Manager of the Stan Sheriff Center;  
 Dennis W. Chong Kee, Cades Schutte LLLP (Cades)  
 Calvert G. Chipchase,<sup>3</sup> Cades  
 Robert Katz, Torkildson, Katz, Moore, Hetherington & Harris (Torkildson Firm)  
 Bob Peyton,<sup>4</sup> Bob Peyton Entertainment, an Entertainment Corporation and BPE Productions, Inc.

In addition, your Committee requested that the Board of Regents (BOR), University of Hawaii (University), and its attorneys provide your Committee with certain information and documents.<sup>5</sup>

Your Committee held informational briefings on September 24, 2012, and October 2, 2012. No oral public testimony was permitted; however written testimony was accepted by your Committee.<sup>6</sup> Your Committee received testimony from numerous members of University's faculty, staff, and students, as well as members of the community.

Your Committee's informational briefings were recorded and broadcast live by Olelo. Those recordings will serve as the official record of the informational briefings.<sup>7</sup>

During the informational briefings, your Committee focused on two areas of concern:

- (1) The failed Stevie Wonder Concert<sup>8</sup> and its aftermath, including the reassignment of Donovan from Athletic Director to his current position as Director of External Affairs and Community Relations; and
- (2) Oversight and transparency of the University's fiscal and operational administration, including the role of the BOR.

While your Committee recognizes that the University has general autonomy over its internal affairs, the Legislature has the exclusive jurisdiction to identify laws of statewide concern, which would presumably apply to the University, and the Senate has advice and consent authority and responsibility for the Governor's appointments to the Board of Regents of the University.<sup>9</sup> Your Committee is deeply concerned that the failed Stevie Wonder Concert and its aftermath have caused tremendous public backlash against the University and have tarnished the University's reputation within the State and at the national level. Your Committee Chair had hoped that the BOR would address these issues and concerns openly on its own; however, due to the BOR's failure to do so, the public outcry for answers and accountability from the University, and direct appeals to Senators for a fair and objective analysis of the University's operations and policies, your Committee finds that informational briefings were a necessary effort to restore public trust and confidence in the University by establishing greater transparency and accountability.

## II. Discussion and Findings

In conducting its informational briefings and reviewing the materials provided by the University, your Committee found a number of common themes, concerns, and recurring problems within the University.

### A. University Administration, Personnel, and the Failed Stevie Wonder Benefit Concert

#### 1. Loss of Initial \$200,000 Deposit

##### a. Facilities Use Agreement

In March 2012, Rich Sheriff (Sheriff) was approached by local promoter Bob Peyton (Peyton), head of Bob Peyton Entertainment, and Entertainment Corporation and BPE Productions, Inc., about the possibility of holding a concert at the Stan Sheriff Center (Center).<sup>10</sup>

After some negotiation, the University entered into a Facilities Use Agreement to hold a Stevie Wonder Concert (Concert) at the Center.<sup>11</sup> The Concert was to be a fundraising benefit for the University's Athletic Department.<sup>12</sup>

<sup>3</sup> Mr. Chipchase did not participate in the informational briefings.

<sup>4</sup> Mr. Peyton expressed his interest in speaking with the Committee but was unable to attend the Committee's information briefings due to hospitalization.

<sup>5</sup> Copies of all the documents turned over to the Committee are available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 3, 2012).

<sup>6</sup> Copies of the written testimony submitted to the Committee are available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 3, 2012).

<sup>7</sup> Recordings of the informational briefings are available online at [http://olelo.granicus.com/ViewPublisher.php?view\\_id=13](http://olelo.granicus.com/ViewPublisher.php?view_id=13) (last visited on October 25, 2012), SCA02 Briefing 9/24/12 and SCA02 Briefing 10/2/12.

<sup>8</sup> Refer to the Report of Factfinders Regarding the Stevie Wonder Benefit Concert dated August 21, 2012, from Dennis W. Chong Kee and Calvert G. Chipchase to James H.Q. Lee, Vice-Chair of the University of Hawaii Board of Regents, and M.R.C. Greenwood, President of the University of Hawaii System (Factfinders Report). A redacted version of the Factfinder Report and its Attachments are available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012).

<sup>9</sup> See Article X, Section 6, Hawaii State Constitution.

<sup>10</sup> See Factfinders Report at 16.

<sup>11</sup> *Id.* at 2.

<sup>12</sup> *Id.* at 2. Your Committee questions how much the University's Athletic Department would have really benefited from the Concert since the University was reducing the rental fees it would collect for the use of the Center. Under the hybrid agreement proposed by Sheriff, the rental fee would be reduced to seventy-five percent of the net revenues or ten percent of the gross revenues, whichever was greater. What the Athletic Department would actually have made from the Concert depended highly on ticket sales. See Attachment 43 to the Factfinders Report, available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 15, 2012), Factfinders Report-Attachments (9-24-12), University-831-839.

**b. Pre-Sale of Tickets**

Tickets for the Concert were to be pre-sold beginning on June 23, 2012,<sup>13</sup> and the revenue collected from the pre-sold tickets, an amount of \$225,000, was to be used to confirm Stevie Wonder for the Concert.<sup>14</sup>

To protect the University, the Facilities Use Agreement required cancellation insurance and that the University be named as an additional insured.<sup>15</sup> Proof of insurance was supposed to be provided to the University before the pre-sale of tickets commenced.<sup>16</sup> Insurance that would have met the requirements of the Facilities Use Agreement was never obtained.<sup>17</sup>

For reasons that remain unclear, the University started pre-selling tickets to the Concert even though proper cancellation insurance had not been procured.<sup>18</sup> Nobody at the University seemed to have questioned the decision to go forward with ticket sales even though no insurance was in place.<sup>19</sup>

**c. Wiring of the Deposit**

Once the required amount was reached through the pre-sale of tickets, the University was to pay the deposit to Peyton. As testified to at the informational briefings, at the request of Peyton, the payee of the deposit was later changed to Epic Talent, LLC (Epic), the alleged booking agent with which Peyton had been working.<sup>20</sup> In order to meet the deadline to pay the deposit and upon pressure from Peyton, a decision was made to make the deposit via wire transfer to Epic.<sup>21</sup>

A Requisition Form for \$200,000, Wire Transfer Form, Authorization for Payment Form, and proforma invoice were all filled out by various University personnel.<sup>22</sup> The wire transfer request caught the attention of an employee of the Disbursing Office because it was for a prepayment of a large amount of money by wire transfer. In the employee's eight years in the Disbursing Office, he had not seen a University department make that large of a payment to secure a performer or use a wire transfer to secure a performer.<sup>23</sup> However, on June 26, 2012, the wire transfer for the deposit went out.<sup>24</sup>

**d. Cancellation of the Concert**

On July 9 and 10, 2012, the University was contacted by representatives of Creative Artists Agency (CAA), who identified themselves as exclusive agents of Stevie Wonder.<sup>25</sup> CAA informed the University that Epic had no authority to book concerts for Stevie Wonder and that Stevie Wonder was not available for the Concert.<sup>26</sup>

On July 10, 2012, the University cancelled the concert and began refunding purchases of approximately 6,000 tickets.<sup>27</sup>

**e. Lack of Oversight, Due Diligence, and Communication**

Your Committee finds that the lack of oversight and communication among members of the University's Athletic Department, Office of General Counsel, and Disbursing Office contributed to the failure of the Stevie Wonder Benefit Concert and the loss of \$200,000 in deposit money.

In reviewing the Factfinders Report and its attachments, and during the course of questioning testifiers, your Committee is concerned about the lack of due diligence by the University prior to entering into the Facilities Use Agreement, prior to the pre-sale of tickets, and prior to the wiring of the deposit.

As demonstrated in the Factfinders report and testimony to your Committee, the University staff that was involved with the Concert all seemed to believe that it was someone else's responsibility to conduct due diligence and to make sure the University was protected.

While Donovan, who is responsible for the oversight of the Athletic Department, approved going forward with the Concert and had a chance to review the Facilities Use Agreement, he failed to provide any other oversight and left Sheriff to "handle it".<sup>28</sup> Sheriff relayed to your Committee that he was merely the communicator between the University and Peyton and left everything else up to his supervisors. Sheriff's direct supervisors did not provide any oversight.<sup>29</sup> Nobody at the University conducted any due diligence to

<sup>13</sup> See Timeline of Events, available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last viewed on October 25, 2012), Briefing Materials (9-24-12).

<sup>14</sup> See Factfinders Report at 2, 22, 24. Your Committee received testimony at the informational briefings that the initial deposit was for \$225,000; however Peyton agreed to borrow and put up a binder in the amount of \$50,000 (\$25,000 for the initial deposit and \$25,000 for the subsequent deposit of \$200,000).

<sup>17</sup> *Id.* at 37.

<sup>18</sup> *Id.* at 4.

<sup>19</sup> *Id.* at 28.

<sup>20</sup> *Id.* at 27.

<sup>21</sup> *Id.* at 29.

<sup>22</sup> *Id.* at 30.

<sup>23</sup> *Id.* at 31.

<sup>24</sup> *Id.* at 32.

<sup>25</sup> *Id.* at 5. Your Committee notes that while CAA represented that it was the exclusive agent for Stevie Wonder, other information and statements in the Factfinders Report appear to contradict this. See, e.g., *id.* at 38.

<sup>26</sup> *Id.* at 5.

<sup>27</sup> *Id.* at 39.

<sup>28</sup> *Id.* at 3, 5, 18.

<sup>29</sup> *Id.* at 5.

determine whether Epic was an authorized agent for Stevie Wonder.<sup>30</sup> Nobody took responsibility for allowing the pre-sale of tickets to go forward despite the fact that proper insurance was not in place.<sup>31</sup>

It appears to your Committee that so long as the Office of General Counsel had looked at the Facilities Use Agreement, many testifiers believed no further due diligence was needed.<sup>32</sup> Furthermore, there may have been confusion or misrepresentation regarding the extent of the Office of General Counsel's involvement in the process of organizing the Concert, which may have led some to believe no further due diligence was necessary.<sup>33</sup> Associate General Counsel Ryan Akamine believed his role was only to suggest terms and make sure the wording of the Facilities Use Agreement was legal and not to check whether the promoter and booking agent were legitimate.<sup>34</sup>

Staff in the Disbursing Office relied on others, believing they were only responsible for disbursing the funds if there was proper paperwork and the money was available.<sup>35</sup> As raised during the informational briefings, certain fiscal policies, like the two-day waiting period for wire transfers, were waived. No one made an effort to ensure that the money was being wired to an escrow account with appropriate escrow instructions, so the deposit was ultimately wired to a third party with whom the University did not have a contract.<sup>36</sup> Nobody ensured the terms of the Facilities Use Agreement were being followed.<sup>37</sup>

President Greenwood and Howard Todo, Vice President of Budget and Finance and Chief Financial Officer, first learned about the Concert at different points in time. Upon becoming aware of the Concert, neither one of them followed up on the specifics pertaining to the Concert because they merely hoped that the Concert would take place and that it would be successful.<sup>38</sup> President Greenwood testified to your Committee that at a meeting on July 2, 2012, she asked Todo to investigate the Concert situation further; however in his testimony to the Factfinders, Todo disputes that he received such a request from President Greenwood at that time.<sup>39</sup> Todo testified to the Factfinders that it was not until his attendance at a meeting on July 10, 2012, that he first learned of the Concert problems. Subsequently, President Greenwood asked Todo to track the \$200,000 to see whether it could be recovered, which was also after representatives of CAA contacted the University about the unauthorized Concert.<sup>40</sup>

It appears to your Committee that while each department played a part in trying to help make the Concert happen, the key players within the various departments were not communicating with each other to stop the transaction when certain components were not in place, such as the insurance, and they were relying on others to ensure that all the bases were covered, particularly the legitimacy of the payee.

Ultimately, your Committee finds that those persons in the highest authority over their respective portions of the University failed to perform their oversight duties. For example, Donovan, as Athletic Director, failed to ensure that those working under him conducted the necessary due diligence before entering into the Facilities Agreement and before going forward with the pre-sale of tickets. Hinshaw, who was the Manoa Chancellor at the time, failed to provide oversight over the Athletic Department despite the uniqueness of the Concert. President Greenwood, who is responsible for the entire University System, failed to ensure that checks and balances were in place to ensure the Manoa administration's oversight system was adequate and working. Lastly, the BOR failed to provide sufficient oversight and governance control over the University System.

Despite President Greenwood's claims to your Committee that the University was the victim of a "sophisticated" scam, your Committee believes that there were many opportunities for the University to take a step back and to stop the Concert prior to wiring the \$200,000 deposit. Regardless of the fact that federal authorities have issued an indictment against two defendants in the scam,<sup>41</sup> your Committee believes that proper oversight, due diligence, and communication among University administration and personnel would have presented an adequate number of opportunities to prevent the loss of the \$200,000 deposit. This does not appear to be a "sophisticated" scam. This appears to be a case where any reasonable person doing due diligence could have discovered that it was highly questionable as to whether Epic was a legitimate booking agent for Stevie Wonder.<sup>42</sup> Ultimately, the University's failure to conduct due diligence on this business transaction placed the University in a vulnerable position to be scammed.

## 2. The Aftermath

### a. Press Conference and Fact Finding

On July 11, 2012, one day after the Concert was canceled, the University held a press conference and announced that Donovan and

<sup>42</sup> At the October 2, 2012, information briefing Senator Sлом reported to the Committee that he had travelled to Florida to investigate Epic. See also, Zimmerman, Malia and Dooley, Jim. "On the Trail of the University of Hawaii's Missing \$200,000 . . . in Florida." *Hawaii Reporter*. September 26, 2012, available at <http://www.hawaiireporter.com/following-the-trail-of-the-university-of-hawaiiis-missing-200000-to-north-carolina/123> (last visited on October 16, 2012).

Sheriff were put on paid administrative leave while the University conducted an investigation into the failed Concert.<sup>43</sup>

The University hired Cades to conduct a fact finding investigation of the Concert.<sup>44</sup> However, Cades used attorneys, rather than licensed investigators, who took statements but did not challenge or otherwise qualify the statements and did not even take statements from President Greenwood or General Counsel Darolyn Lendio.

#### **b. Negotiation and Settlement**

On July 16, 2012, Donovan's attorney contacted the University and demanded that Donovan be reinstated as Athletic Director or Donovan would take appropriate legal action.<sup>45</sup> The University then engaged former Attorney General Mark Bennett, currently with the law firm Starn O'Toole Marcus & Fisher, for an amount of up to \$75,000, to negotiate with Donovan.<sup>46</sup>

On August 12, 2012, the University announced that Sheriff and Donovan had been cleared of any wrongdoing, that Sheriff would be reinstated, and that Donovan would be reassigned to a newly created marketing and branding position within the Office of the Chancellor with a salary of \$211,000 per year for three years, despite the fact that the title and job description for this position had not yet been fully developed.<sup>47</sup> At the time, Donovan had approximately eight months left on his contract as Athletic Director.

At the September 24, 2012, informational briefing, when questioned about the removal of Donovan as Athletic Director and the creation of Donovan's new position, President Greenwood testified several times that she received political pressure to keep Donovan as Athletic Director. President Greenwood testified that she was advised by the Governor, who had received input from the Senate President and Speaker of the House of Representatives, that she should keep Donovan as the Athletic Director; however she did not believe that keeping Donovan as the Athletic Director was in the best interest of the University.<sup>48</sup>

#### **c. Fiscal Implications of the Failed Concert**

According to testimony presented at the informational briefings, since Donovan's reassignment, the University has begun the process of hiring a search firm for the price of up to \$90,000 to conduct the search for a new Athletic Director.

In addition, in response to the failed Concert, the BOR has hired KMH, LLP (KMH), for \$50,000 to conduct a review of the University's operational and financial processes.

Your Committee finds that the failure of the Stevie Wonder Concert will likely cost the University and the taxpayers an estimated \$1.1 million at a minimum.<sup>49</sup> The costs incurred by the University include the loss of the initial \$200,000 deposit, costs related to the ticket sales, cost of the Factfinders Report, costs for attorneys to represent the University, payment of Donovan's attorney's fees, Donovan's new salary of \$211,000 per year for three years, cost of a search firm to assist with the hiring of a new Athletic Director, and the costs incurred by the BOR's hiring of KMH to conduct an external audit.<sup>50</sup> Your Committee is also concerned about the BOR and the University administration's penchant for hiring outside legal counsel and others in the aftermath of the failed Concert, in particular, whether the costs of these services are necessary and sufficiently justified.

Your Committee is concerned about the fiscal impact the Concert and its aftermath will have on the University. While some may argue that in the grand scheme of things, \$1.1 million is a small amount of funds for an institution as large as the University, much of these costs could have been avoided had the University done its due diligence and protected the interests of the University in setting up the Concert or appropriately used all of its internal resources that were available, such as the staff of the Office of General Counsel and

<sup>43</sup> A copy of the July 11, 2012, letter from Chancellor Tom Apple to James Donovan is available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Briefing Materials (9-24-12), University-3137-38.

<sup>44</sup> See Cades Contract, available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Briefing Materials (9-24-12), University-3118-36.

<sup>45</sup> A copy of the July 16, 2012, letter from Donovan's attorney David Simmons to President M.R.C. Greenwood and Chancellor Tom Apple is available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Briefing Materials (9-24-12).

<sup>46</sup> See documents bated stamped University-3330 through 3347, turned over as part of the University's Response to Senator Kim's Sept. 26 Information and Document Request, available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 10, 2012).

<sup>47</sup> A copy of the Memorandum and Agreement between Donovan and the University (Memorandum and Agreement) is available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 10, 2012), Briefing Materials (9-24-12).

<sup>48</sup> On September 24, 2012, the Governor issued the following statement in response to President Greenwood's testimony:

I stated very clearly to President Greenwood that my sole concern was for fairness and even-handedness. I based this concern as the Governor as well as an alumnus and supporter of the University of Hawai'i. I also stressed that any and all decisions made in the wake of the concert failure ensure that all responsible parties be held to account.

The Governor's statement is available at <http://hawaii.gov/gov/newsroom/press-releases/governor-statement-on-senate-hearing> (last visited on November 7, 2012). While the Committee makes no finding on President Greenwood's claim that she was under political pressure to keep Donovan as Athletic Director, your Committee believes that any perceived political pressure does not excuse or mitigate the University's actions, including the actions of President Greenwood, in the way it handled the aftermath of the failed Concert.

<sup>49</sup> A detailed breakdown of the costs used by your Committee to reach the estimated total is available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Senate Committee Running Total Cost. Your Committee had requested that the University provide an estimate total of costs; however the University failed to fully respond to this request and when it did respond on October 2, 2012, its response was incomplete and failed to take into account several significant costs.

<sup>50</sup> *Id.*

the University's internal auditors. The costs the University has incurred as a result of the failed Concert affect the University's budget and may negatively impact the University's ability to provide its students with the classes they need to graduate in a timely manner – a goal the University has focused on with its Hawaii Graduation Initiative and “15 to Finish” campaign.

## **B. Oversight and Transparency**

Your Committee is also greatly concerned about the BOR and the University administration's lack of transparency and openness in the aftermath of the failed Concert.

### **1. Open Meetings and Sunshine Law Concerns**

Through the informational briefings, your Committee finds that at times, the BOR appears to have conducted its meetings with a lack of transparency, including the way it handled the aftermath of the failed Concert. For example, during the informational briefings your Committee learned that there was discussion at the July 19, 2012, BOR meeting about the Factfinders Report; however there is nothing on the July 19, 2012, BOR agenda that would provide proper public notice that this issue would be discussed.<sup>51</sup> The agenda makes absolutely no reference to the Concert or any related subject matter.

At the August 22, 2012, BOR meeting, the BOR met for seven hours in Executive Session. Testimony at the informational briefings suggests that the majority of the discussion related to whether the Factfinders Report should be made public. While some of the discussion by the BOR may have been appropriate for an Executive Session, your Committee maintains that much of the discussion could have been held in public yet the BOR did not conduct any discussion relating to the Concert or its aftermath in a public forum.

Your Committee is also concerned about testimony that the BOR Chair, Vice-Chairs, President, and Chancellor Apple have had discussions outside of properly noticed public meetings that do not fall within the permissible interactions set forth in section 92-2.5, Hawaii Revised Statutes (HRS). The BOR Chair and Vice-Chairs have testified to your Committee that they sought advice from the Office of Information Practices (OIP) and believed these communications with the President to be permissible; however, as discussed during the October 2, 2012, informational briefing, your Committee has received informal advice from OIP that such conversations are not permissible under Hawaii's Sunshine Law.<sup>52</sup> Therefore, your Committee finds that members of the BOR may have engaged in conversations, meetings, or both, outside of properly noticed public meetings in violation of Hawaii's Sunshine Law.

Your Committee also finds that the BOR may have taken official action outside a properly noticed public meeting when the former BOR Chair unilaterally transferred authority to President Greenwood to represent the University in the Mountain West Conference. At the informational briefings, your Committee Chair questioned the BOR Chair and Vice-Chairs on how the decision was made to transfer authority from the University of Hawaii at Manoa Chancellor to President Greenwood as the University's representative in the Mountain West Conference. After looking through the BOR's agendas and minutes for the past two years, your Committee Chair could not find any official action taken by the BOR to transfer this authority. Instead, it appears that former BOR Chair Howard Karr unilaterally made the decision to transfer authority to President Greenwood rather than place this decision on the agenda for public discussion and decision making.<sup>53</sup> Your Committee is concerned that such unilateral action may contradict the spirit and intent of Hawaii's Sunshine Law.<sup>54</sup> It is your Committee's hope that such important decision making is not kept from public discourse through unilateral action by the BOR's leadership.

### **2. Open Records Concerns**

In addition, your Committee finds that the University administration may have improperly redacted documents for your Committee's review in violation of Hawaii's Open Records Law.

First, your Committee is concerned about the blanket redaction of the Factfinders Report. At the September 24, 2012, informational briefing, counsel for the University testified that a blanket redaction was done to the Factfinders Report. Counsel also admitted that certain names that should not have been redacted were inadvertently redacted. As raised during the October 2, 2012, informational briefing, your Committee received an informal opinion from OIP that blanket redactions violate Chapter 92F, HRS, Hawaii's Open Records Law. Your Committee has requested that OIP go through the Factfinders Report to make a determination if the University properly redacted the document in compliance with the Open Records Law.<sup>55</sup>

Second, your Committee is concerned that the University has provided your Committee with redacted public documents when it appears that these documents should not have been redacted at all. Your Committee requested the University to provide your Committee with copies of all employee buyout and severance packages for the last twelve years. In response to this request, the University turned over documents that were redacted.<sup>56</sup> As discussed during the October 2, 2012, informational briefing, several of

<sup>51</sup> The BOR Meeting Agendas and Minutes are available at <http://www.hawaii.edu/offices/bor/archive/index.php> (last visited on October 5, 2012).

<sup>52</sup> OIP did acknowledge that the BOR may have been acting in good faith but also may have confused two different possible courses of action or otherwise misremembered OIP's advice.

<sup>53</sup> See documents bated stamped University-2801 through 2802, turned over as part of the University's Response to Senator Kim's Sept. 26 Information and Document Request available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 9, 2012). Your Committee has also requested that the BOR provide the Committee with the specific BOR policy that would allow the former BOR Chair to take unilateral action outside of a properly noticed public meeting.

<sup>54</sup> Your Committee is also concerned that the National Collegiate Athletic Association (NCAA) requires that the Chancellor of the University of Hawaii at Manoa and not the President of the University of Hawaii System to represent the University of Hawaii at Manoa in the Mountain West Conference.

<sup>55</sup> The University provided the Committee with unredacted copies of the Factfinders Report but specifically requested that the Committee not publically release them. The Committee has chosen to honor this request until it receives an opinion from OIP despite Jeffrey Harris' (Torkildson Firm) statement to your Committee on October 2, 2012: “if you disagree with us about the redactions, release them, don't argue with me about our redactions.”

<sup>56</sup> Copies of these documents are available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Buyouts-Severance Packages.

these documents were public documents and this fact was clearly stated within the context of the documents. As your Committee stated at the October 2, 2012, informational briefing, OIP had provided general advice that several of these documents were public documents that should not have been redacted. At the October 2, 2012, informational briefing, the University, through its legal counsel, could not provide sufficient justification to your Committee as to why these public documents had been redacted.

### C. Accountability

Your Committee finds that greater accountability is needed to address not only the failure of the Concert but how the University handled the aftermath of the failed Concert.

#### 1. Inadequate Communication with Stakeholders

Your Committee is especially concerned about how the University administration handled the placement of Donovan and Sheriff on administrative leave during the fact finding investigation by Cades. As raised during the informational briefings, your Committee has serious questions as to whether it was proper for the University to make a public announcement and disregard the privacy interests of Donovan and Sheriff, especially in light of the fact that this likely contributed to the settlement agreement between the University and Donovan. The University also failed to give your Committee a justifiable reason why others who were involved with the Concert were not similarly placed on leave while the investigation was taking place.

In addition, your Committee seriously questions why the BOR did not play a more active role in communicating with the public after acknowledging the cancellation of the Concert. The active role could have entailed assisting with providing satisfactory answers or explanations for the failed Concert and taking a more serious and timely look at the way the University's administration handled the aftermath of the failed Concert.

#### 2. Corrective Actions

At the informational briefings, the President expressed that the University was still looking into the Concert and assured your Committee that although no one had been terminated by the University, there would be consequences. The President also testified that the unusual autonomy and authority granted to the Athletics Department was withdrawn. The President also testified that the job description of the Center's Manager was rewritten to lessen the Manager's power in order to avoid any similar mishaps in the future.

Your Committee also recognizes the BOR Chair's testimony that the Concert, as well as its aftermath, will be addressed by the BOR as part of the President, Chancellor, and General Counsel's personnel evaluations.

While your Committee appreciates these efforts, it is your Committee's hope that the BOR and the University's administration will hold appropriate departments and personnel within the University more accountable for their respective actions to ensure that an incident like the failed Concert never happens again.

### D. Operational Management

#### 1. Failure to Follow BOR Policies

Your Committee finds that the BOR failed to follow its own policies when it did not approve the Memorandum and Agreement (Agreement)<sup>57</sup> between Donovan and the University prior to its execution.

During the informational briefings, your Committee raised the concern that the Agreement between Donovan and the University, whereby Donovan was reassigned from Athletic Director to a new position within the Chancellor's Office, did not follow BOR Policies Section 8-1 because the BOR did not approve the Agreement.<sup>58</sup> Several members of the BOR testified that they were advised

<sup>57</sup> A copy of the Memorandum and Agreement between Donovan and the University (Memorandum and Agreement) is available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 10, 2012), Briefing Materials (9-24-12).

<sup>58</sup> Section 8-1 of BOR Policies provides in relevant part:

#### a. General:

Except as otherwise provided herein, the President is authorized to approve, sign, and execute contracts and settlements of claims in accordance with law and Board policy. . . . Should it be determined, in consultation with the Board, that a contract or settlement is anticipated to have a significant impact on policies, programs, or operations; or result in potential institutional liability the prior approval of the Board shall be required regardless of amount and source of funding. The President may delegate authority for the approval, acceptance, signing, and execution of contracts and settlements to other University officials.

\* \* \*

#### d. Settlement Agreements:

All settlement agreements recommended by the University's General Counsel involving payments of \$500,000 or less, or involving workers' compensation claims in any amount and which do not contravene Board policy and do not have a significant impact on policies, programs or operations, shall be approved by the President or the President's designee. Agreements which are anticipated to require changes in Board policies and/or have significant impact on policy, programs, or operations and/or where the Board is named as a party to a suit, shall require the prior approval of the Board regardless of amount. All settlement agreements exceeding \$500,000, except for settlement of workers' compensation claims, shall require the approval of the Board. This requirement may not be circumvented by subdivision of the total amount of the settlement claim. All settlements requiring Board approval shall include a signature line for the Board. (emphasis added)

by the Office of General Counsel<sup>59</sup> that it was not a settlement agreement that required BOR approval. However, your Committee received a letter from the Department of the Attorney General finding that the Agreement was in fact a settlement agreement “because it is an arms length agreement that was negotiated through legal counsel and resolved a legal dispute” and required the BOR’s approval because it also met other criteria specified in Section 8-1 of the BOR Policies.<sup>60</sup> The opinion concludes:

Thus, Mr. Donovan waived and released his claims against the University in exchange for both the payment of his attorney’s fees and his reassignment to a new position and the salary he is to be paid. He did not waive his claims against the University in exchange for the payment of his attorney’s fees alone and the amount the University is to pay under the settlement agreement is both the \$30,000 for Mr. Donovan’s attorney’s fees and his annual salary of \$211,200 for 3 years. As a result, as a settlement agreement exceeding \$500,000, the Jim Donovan settlement agreement required the approval of the BOR according to the BOR’s policies.<sup>61</sup>

The failure of the BOR to approve the Agreement with Donovan was not the only time it appears that the BOR has failed to follow its own policies. Testimony during the October 2, 2012, informational briefing also showed that the BOR did not follow its own policies when it approved the paid professional improvement leave request of former Chancellor Hinshaw. As discussed at the briefing, Chancellor Hinshaw was granted up to ten months of professional improvement leave.<sup>62</sup> However, under BOR policy she was not entitled to any such leave because she had not been serving the University for a period of at least six years.<sup>63</sup> In addition, even if Hinshaw was entitled to any professional improvement leave, she would not have been entitled to the ten months granted by the BOR because BOR policy provides that such leave be paid for one month for every year of service.<sup>64</sup> This would have required Hinshaw to have worked for the University for at least ten years. For whatever reason, the BOR made an exception to its policies and allowed Hinshaw to take professional improvement leave, as well as granting her a tenured position while still paying her at the Chancellor level.

At the October 2, 2012, informational briefing your Committee received testimony that the BOR was told by President Greenwood that if it did not approve the request for Chancellor Hinshaw’s paid professional improvement leave, there might be a lawsuit. In addition, according to testimony presented at the October 2, 2012, informational briefing, at least one Regent questioned the BOR policy requiring the BOR to approve a higher pay level for those granted professional improvement leave.

The BOR made yet another exception to its policies when it approved a five-year contract for Chancellor Apple. During the October 2, 2012, informational briefing, your Committee received testimony that Chancellor Apple’s five-year contract was an exception to BOR policy, which allows for initial appointments of three years.<sup>65</sup> Your Committee also received testimony that at least one member of the BOR felt she had no choice but to approve Chancellor Apple’s five-year contract, which provided for automatic tenure and a salary of about \$102,000 more than that of the previous Chancellor. Since the President had selected and negotiated a package deal with Chancellor Apple, at least one member of the BOR felt that the BOR could not change the terms of the package but could only accept or reject the package. The BOR appears to have accepted President Greenwood’s decision to select and negotiate with Chancellor Apple without requesting information on or considering any of the other candidates.

There appears to be a pattern in which the BOR waives its own policies, resulting in greater costs for the University. While your Committee recognizes the BOR’s authority to create its own policies, your Committee questions why such policies are in place and whether the policies are appropriate when it appears that the BOR either is unfamiliar with its own policies or simply chooses to waive or not follow them on several occasions despite significant fiscal consequences.

## 2. Roles and Responsibilities

Your Committee finds that there is concern about the perceived roles and responsibilities of the BOR and the President, as well as the seeming lack of clear lines of authority between the BOR and the President.

---

<sup>59</sup> Your Committee is concerned about the fact that the Office of General Counsel provided the BOR with advice and counsel regarding the Agreement when the University represented to the Committee that the reason the Torkildson Firm and Bennett were hired to deal with matters relating to the Concert and its aftermath was because the Office of General Counsel had a conflict of interest based on its involvement with the Concert.

<sup>60</sup> See Letter dated October 1, 2012, addressed to The Honorable Donna Mercado Kim from Russell A. Suzuki, First Deputy Attorney General. This letter is available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Briefing Materials (10-2-12).

<sup>61</sup> *Id.*

<sup>62</sup> See Letter dated January 11, 2012, from M.R.C. Greenwood, President, to Eric K. Martinson, Chairperson, Board of Regents, turned over as part of the University’s Response to Senator Kim’s Sept. 26 Information and Document Request available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 17, 2012), University-3162-3165.

<sup>63</sup> BOR Policies Section 9-12, Part IV.D states, in relevant part:

Leave may be granted for periods up to twelve (12) months at full pay or twelve (12) months at half pay after six (6) years of full-time continuous service, including creditable service in other Board classifications with total months earned at the rate of one (1) month for each year, up to twelve (12) years of service. Leaves of shorter duration may be granted at the rate of one (1) month of leave for each year of executive or managerial service, after six (6) years of full-time continuous service up to twelve (12) years, including creditable service in other Board of Regents classifications. The total short duration leave taken with pay should not exceed that provided for regular professional improvement leave.

<sup>64</sup> *Id.*

<sup>65</sup> See also, Letter dated May 9, 2012, from M.R.C. Greenwood, President, to Eric K. Martinson, Chairperson, Board of Regents, available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last viewed on October 17, 2012), Briefing Materials (10-2-12); see also, BOR Policies Section 9-12, Part II.C.1.a.

The BOR is charged with responsibility over the general management and control of Hawaii's only public institution of higher learning.<sup>66</sup> In confirming the individual Regents to the BOR, the Senate expects the BOR to be diligent in its duties and responsibilities and to question the University's administration when necessary to ensure any actions taken are in the best interest of the University and in furtherance of the University's mission. In questioning the President and certain members of the BOR, it became clear to your Committee that there are serious questions concerning the BOR's independence from the President. For example, during the informational briefings, your Committee discovered that the BOR learned about the University's Agreement with Donovan only one day before the University went public with the information.<sup>67</sup> In addition, your Committee heard testimony that the BOR did not question the Agreement between the University and Donovan. One Regent expressed that she felt that the BOR had no choice but to support the Agreement after the fact or it would be a breach of contract on the University's part. It appears that the University did not seek input or approval from the full BOR before entering into the Agreement.<sup>68</sup>

Your Committee is concerned that the BOR is not given adequate information or time to fully discuss the facts and all available options before voting on important issues. Instead, there appears to be a pattern that BOR decisions are predetermined or made for the BOR ahead of time so that individual Regents have little choice but to go along with the recommendations presented to them.

While your Committee appreciates the efforts of the BOR, it emphasizes that the BOR is the governing body of the University System. The BOR should take an active role in deliberating and making decisions on recommendations made by the University's administration. As part of governing the University System, the BOR should question and hold the University administration accountable when the University's administration takes action that is detrimental to the University. Your Committee is especially concerned about cases where the University administration does not present the BOR with decisions that should be made or approved by the BOR or otherwise fails to provide the BOR with sufficient information to make well-informed decisions. The BOR is charged with holding the University's administration accountable; it should not merely approve all of the University administration's recommendations without conducting its own due diligence.

#### **E. Fiscal Management**

In conducting informational briefings and reviewing the documents provided by the University, it has become apparent to your Committee that the University must examine its fiscal management procedures to ensure that the expenditures of public funds are justified and done in accordance with procurement law.

##### **1. Cost Control and Procurement Concerns**

As discussed earlier, the failed Concert will likely cost the University approximately \$1.1 million dollars at a minimum. First, part of this cost is up to \$90,000 to hire a search firm to assist with the hiring of a new Athletic Director.<sup>69</sup> Your Committee is concerned about the fact that Chancellor Apple sought an exemption to hire a search firm for \$90,000 before members of the search committee, which ultimately would make a decision on whether or not to hire a search firm, had been named. Your Committee is even more troubled by the fact that Chancellor Apple initially denied that this was the case at the October 2, 2012, informational briefing until presented with executed documentation to the contrary.

Second, your Committee has learned through testimony and through its request for documents from the University that from March 2011 through May 2012, the University has spent over \$2.2 million on outside legal counsel. This does not include the \$1.2 million a year budgeted for the Office of General Counsel or costs for outside legal counsel as a result of the failed Concert. For example, the University contracted with former Attorney General Bennett for up to \$75,000 worth of services to negotiate the University's Agreement with Donovan. The University also contracted with Cades for an amount of \$50,000 for its Factfinders Report.<sup>70</sup>

When your Committee questioned the procurement procedures that were followed in contracting with Cades for the Factfinders Report, President Greenwood testified that the University did not have to follow state procurement laws for this matter because the Cades contract fell within an "expert witness exemption." However, as your Committee noted during the September 24, 2012, informational briefing, the State Procurement Office has advised your Committee that Cades is not considered an expert witness and no exemption would apply.

Also extremely concerning to your Committee is the fact that the Torkildson Firm has subcontracted or otherwise consulted with Hoakea Communications, a public relations firm with an existing \$25,000 contract with the Research Corporation of the University of Hawaii (RCUH), to assist the University in dealing with public relations issues stemming from your Committee's informational briefings.<sup>71</sup> It is your Committee's understanding that as part of its scope of duties, Hoakea Communications asked business leaders and others in the community to request that your Committee not hold its informational briefings. Regardless of whether this was considered a subcontract or a consultation, your Committee questions whether it is a proper use of public funds for a public relations firm to be hired to try to stop your Committee from holding informational briefings to seek answers about the failed Concert and examine fiscal and operational issues at the University, especially where the University has its own public relations personnel on staff

<sup>66</sup> See attached State of Hawaii University of Hawaii Organization Chart, available online at <http://hawaii.gov/budget/executivesupplementalbudget/supplementalbudget> (last visited on October 26, 2012), DETAILS OF THE OPERATING AND CAPITAL BUDGET – by Department, p. 918.

<sup>67</sup> Members of the BOR testified that the BOR learned that the University's settlement with Donovan had been executed one day before it was made public.

<sup>68</sup> The BOR did not take any official action on the settlement agreement.

<sup>69</sup> Your Committee acknowledges testimony that the University is trying to raise the \$90,000 through private donations; however your Committee still finds the \$90,000 to be an additional cost, especially if the University is unable to raise adequate funds through private donations.

<sup>70</sup> See Cades Contract, available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Briefing Materials (9-24-12), University-3118-36.

<sup>71</sup> Kerr, Keoki, "EXCLUSIVE: To help 43 PR staff, UH hired 2 consultants for \$150,000." *HawaiiNewsNow*. September 27, 2012, available at <http://www.hawaiinewsnow.com/story/19662107/besides-43-public-relations-staff-uh-hired-2-pr-consultants-for-150k?clienttype=printable> (last viewed on October 15, 2012).

with a budget of \$1.2 million.<sup>72</sup> Your Committee has serious questions as to when Hoakea Communications began assisting the University in the aftermath of the Concert and whether it was improperly using its contract with RCUH to engage in a separate scope of work for the University.<sup>73</sup> Your Committee's concerns are compounded by the fact that neither the justification nor the cost for subcontracting Hoakea Communications for this matter has been provided to your Committee.

Your Committee is concerned about the large amounts of money being spent by the University for outside legal and consultant services and hopes the BOR ensures that outside legal counsel and consulting services for which public funds are being spent are justified, effective, and properly procured.

## 2. Quality of Services Procured

In addition, your Committee questions whether the University received quality services for the \$50,000 fee. As noted above, Cades took statements of individuals but did not check the veracity of these statements or address several instances of conflicting statements. In addition, Cades did not question or request statements from President Greenwood or General Counsel Lendio. Chong-Kee testified that he did not believe that President Greenwood was an appropriate witness even though President Greenwood ultimately has oversight over the University's administration. Your Committee disagrees with the fact finders' judgment that President Greenwood was an inappropriate witness: the omission of statements from key administrators such as President Greenwood and General Counsel Lendio, who supervised those directly involved in the Concert, was a major oversight by Cades. Your Committee questions whether the University could have saved at least \$50,000 by allowing the Honolulu Police Department to take witness statements and conduct an investigation.<sup>74</sup>

The University has also contracted with the Torkildson Firm in an amount up to \$25,000 to redact documents and respond to your Committee's request for information. Katz testified before your Committee that the amount the University could ultimately be billed by the Torkildson Firm is more than \$25,000. Your Committee is concerned as to whether the University received legal services worth at least \$25,000. Your Committee's understanding is that the Torkildson Firm was hired to assist the University with responding to the Committee based on its knowledge of privacy laws; however it appears that the Torkildson Firm may not have even considered the law. While the Torkildson Firm testified that the University's Human Resources Department, and not the Torkildson Firm, actually redacted the buyout and severance package documents, your Committee questions why the Torkildson Firm, hired as legal counsel to assist the University in responding to the Committee's request for documents, including the buyout and severance package documents, did not correct any erroneous redactions made by the University or advise the University of potential violations of Hawaii's Open Records Law.

Your Committee also questions the Torkildson Firm's quality of representation in responding to the Committee's request for a running total of how much the Concert and its aftermath has cost the University.<sup>75</sup> The University's answer to your Committee's request was inadequate and not responsive to the question.<sup>76</sup> During the October 2, 2012, informational briefing, when questioned by the Committee about the response, the Torkildson Firm represented that the question was unclear and that they did not understand what the Committee was asking for. Your Committee disagrees with the Torkildson Firm's recharacterization of the question asked by your Committee. On the contrary, your Committee believes that the question was clear and easily understood by a reasonable person and therefore raises the possibility that the Torkildson Firm was instead withholding information from your Committee and the public.<sup>77</sup>

<sup>72</sup> Id.

<sup>73</sup> Your Committee raises this issue because Hoakea Communications has gone on public record stating that it had helped the University in the aftermath of the Concert for two and a half months prior to the end of September 2012, but that its subcontract with the Torkildson Firm started in August 2012. See id.

<sup>74</sup> Your Committee notes that during the September 24, 2012, informational briefing, when asked whether the University made a report to the Honolulu Police Department (HPD) after it was learned the \$200,000 deposit was missing, President Greenwood responded, "Absolutely. We talked directly with law enforcement." However, your Committee contacted the HPD, which confirmed that it was never contacted by the University on this matter. HPD stated that had it been contacted, it would have investigated and taken witness statements. In addition, HPD also stated that if there had been an out-of-state nexus, HPD would have contacted the Federal Bureau of Investigation or Secret Service. See Letter dated September 25, 2012, from Chair Donna Mercado Kim to Chief of Police Louis Kealoha, Letter dated September 27, 2012, from Chief of Police Kealoha to Chair Mercado Kim, available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 15, 2012), Briefing Materials (10-2-12).

<sup>75</sup> See University's Response to Senator Kim's Sept. 26 Information and Document Request available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 5, 2012). Question 1 of the Sept. 26 Information and Document Request asked for:

A complete breakdown of the running total of costs incurred by the University of Hawaii relating to the failed Stevie Wonder Benefit Concert and other relevant costs. Other relevant costs shall include but not be limited to all costs associated with legal services provided, public relations services, and any other services rendered to assist in the preparation and participation in the September 24th and October 2nd informational briefings of this Committee; provided that cost estimates shall be included where actual billings or detailed expenses are not yet available[.]

<sup>76</sup> Id. In response to that question, the Torkildson Firm responded that:

The Agreement for Services produced on Sept. 20, 2012, gave an estimate of 'not to exceed \$25,000' for services and provided a procedure for change orders and price adjustments, if and when circumstances justify them.

<sup>77</sup> Your Committee notes that this same request was made during the September 24, 2012, informational briefing. At that time, no one from the Torkildson Firm or the University asked for clarification of the request or gave any indication that the request was not understood.

### 3. Contract Buyouts

Your Committee also finds that the University should re-examine its practice of providing lucrative buyouts for the termination of executive employment contracts.

Your Committee received documents from the University showing that in the past twelve years, it has paid over \$2.5 million to former executives and coaches in contract buyouts.<sup>78</sup> Some of these buyouts include:

- (1) More than \$1 million to former President Evan Dobbelle;
- (2) \$600,000 to former University Head Football Coach Greg McMackin; and
- (3) \$312,000 to former Athletic Director Herman Frazier.<sup>79</sup>

The University's practice of buying out contracts appears to reward individuals for inadequate performance. Your Committee believes that the University should only consider such buyout provisions under extreme circumstances and that such consideration should first be heavily scrutinized. Your Committee further believes that the University should not be sending the message that it rewards individuals for failing to achieve the obligations of their contract, failing to meet certain standards, or failing to perform certain jobs satisfactorily.

#### F. BOR Operational and Financial Control Improvement Advisory Task Group

Your Committee recognizes that the BOR has approved the creation of an Operational and Financial Control Improvement Advisory Task Group (Task Group). According to the BOR, "[t]he purpose and primary function of the . . . Task Group . . . is to oversee, provide input, monitor activities, and guide the scope of an evaluation and improvement initiative specific to the significant operational and financial processes and related internal controls of the University of Hawai'i. . . ."<sup>80</sup>

Phase One of the Task Group's work will focus on "an assessment and evaluation of the operational and financial processes that resulted in the failed Stevie Wonder transaction."<sup>81</sup> Phase Two will include a review of the University's "operational and financial processes and controls on a system wide basis" as well as making a determination "if the University's current policies (Board, Executive, and Administrative) require clarification and revision with respect to the assignment of responsibility, delegation of authority, and accountability for duties performed by University personnel."<sup>82</sup> A possible Phase Three would look at "comparing higher education operational and financial process 'best practices' to those currently in place at the University."<sup>83</sup>

It is your Committee's understanding that the University has engaged the external audit services of KMH to conduct the evaluation.<sup>84</sup> Since KMH has previously done work for the University and may do work for the University in the future, your Committee notes potentially conflicting interests for KMH: If KMH's assessment reflects negatively on the University or generates findings or recommendations with which the University disagrees, KMH's potential future contracts with the University may be jeopardized. As such, your Committee hopes that KMH can maintain its independence and objectivity during its external evaluation of the University's operational and fiscal practices.

Your Committee also has concerns regarding whether the private sector members of the Task Group may have a conflict of interest since several of these individuals work for accounting firms that have either done work for the University, are currently doing work for the University, or will likely do work for the University in the future.<sup>85</sup> Your Committee hopes these individuals can maintain their independence while participating in the Task Group's work.

Your Committee is also concerned about testimony that members of the Task Group were required to sign a Confidentiality Covenant requiring that they not disclose certain information or face potential civil and criminal penalties. Your Committee questions whether the Confidentiality Covenant is legal and enforceable<sup>86</sup> and, regardless of enforceability, whether a consequence of the Confidentiality Covenant will be to discourage Regents from disclosing any information, including information that is not protected by law from disclosure. As such, your Committee Chair requested an opinion from the Attorney General and guidance from OIP on this matter.

The Attorney General found that while the confidentiality covenant "may not be per se illegal, it is likely to be unenforceable under Hawai'i law to the extent that it is overly broad and inconsistent with the public policy of transparency and accountability declared under HRS chapters 92 and 92F."<sup>87</sup>

Lastly, your Committee looks forward to receiving reports and updates on the findings and outcomes of the Task Group and KMH and hopes that the University will make this evaluation process as open and transparent as possible.

<sup>78</sup> Copies of these documents are available at <http://www.capitol.hawaii.gov/specialcommittee.aspx?comm=SCA02> (last visited on October 4, 2012), Buyouts-Severance Packages.

<sup>82</sup> *Id.*

<sup>83</sup> *Id.*

<sup>84</sup> *Id.*

<sup>85</sup> *Id.*

<sup>86</sup> At the October 2, 2012, informational briefing, Vice-Chair Lee testified that he did not know if the Confidentiality Covenant was enforceable.

<sup>87</sup> See Letter dated October 19, 2012, addressed to The Honorable Donna Mercado Kim from Russell A. Suzuki, First Deputy Attorney General.

**III. Recommendations**

Based on the discussion and findings above, your Committee recommends that:

- (1) A request be made to the Legislative Auditor to conduct a financial and management audit of the University System to specifically address the issues and concerns raised by your Committee;
- (2) The legislative committees with jurisdiction over the University determine whether the issues raised by your Committee can be addressed through legislation during the 2013 Regular Session and consider adopting such legislation, including but not limited to whether the process by which the members of the BOR are selected should be amended;
- (3) The legislative committees with jurisdiction over procurement consider examining whether the University improperly used procurement exemptions for services related to legal, consulting, and public relations service contracts or agreements, including but not limited to the University's use of the expert witness exemption in contracting Cades to conduct its fact finding investigation of the failed Concert;<sup>88</sup>
- (4) The BOR undertake a thorough review of its policies and procedures to:
  - (A) Provide clarity over the role and responsibilities of the BOR, President, and Chancellors;
  - (B) Ensure clear lines of authority between the BOR, President, and the individual Chancellors;
  - (C) Ensure that the policies and procedures facilitate the University's mission; and
  - (D) Determine whether the Office of General Counsel should report directly to the BOR while also providing legal services to the University's administration, rather than reporting to the BOR and the University's administration;
- (5) The BOR report to the Committee on the steps taken to complete recommendation (4) and the outcomes of the BOR's review pursuant to recommendation (4);
- (6) The BOR receive training on its policies and procedures;
- (7) The BOR receive annual training on Chapter 92, HRS, Hawaii's Sunshine Law, and Chapter 92F, Hawaii's Open Records Law, in order to ensure openness and transparency;
- (8) The BOR work with OIP to address all concerns raised by your Committee relating to Chapters 92 and 92F, HRS, and correct any violations, including the re-issuing of all documents requested by your Committee with the appropriate redactions, if any;
- (9) The BOR increase its public discussion of important issues during public meetings, to the extent that those discussions are permitted by law, by encouraging individual Regents to state their positions and explain their votes on agenda items;
- (10) Following a meeting in executive session, the BOR report in open session on its discussions in executive session, to the maximum extent permitted by law;
- (11) The BOR improve the thoroughness and clarity of its meeting minutes;
- (12) As part of providing greater openness and public participation, the BOR explore allowing a public comment process as part of the President's evaluation;
- (13) After the completion of the BOR Task Group's work, the BOR submit potential legislation for consideration to:
  - (A) Improve the University's fiscal transparency;
  - (B) Hold appropriate departments and personnel within the University more accountable for their respective actions; and
  - (C) Improve and streamline the University's operational management;
- (14) After the completion of the BOR Task Group's work, the BOR consider external monitoring measures such as follow-up auditing by the Legislative Auditor or the hiring of a master to ensure that the recommendations of the Task Group, KMH, the Legislative Auditor, or others, as appropriate, are implemented in a timely and proper manner;
- (15) Each campus of the University make available on its website an annual statement which itemizes how the campus spends the revenues generated from student tuition in carrying out the operations of each campus, including but not limited to costs of instruction, facilities maintenance, payroll for executive personnel, and payroll for non-executive personnel;
- (16) The BOR submit to your Committee a detailed breakdown of the following:
  - (A) Cost of staffing the Office of General Counsel for the 2012-2013 fiscal year;
  - (B) Projected cost of staffing the Office of General Counsel for the 2013-2014 fiscal year;
  - (C) Amount the University has spent to procure outside legal counsel for the 2012-2013 fiscal year;
  - (D) Projected cost to the University to procure outside legal counsel for the 2013-2014 fiscal year;
  - (E) Cost of staffing the public relations departments of all campuses of the University System for the 2012-2013 fiscal year;

---

<sup>88</sup> At the September 24, 2012, information briefing, President Greenwood testified that the University used the expert witness exemption in hiring Cades to conduct its fact finding investigation.

- 
- (F) Projected cost of staffing the public relations departments of all campuses of the University System for the 2013-2014 fiscal year;
  - (G) Amount the University has spent to procure outside public relations services for the 2012-2013 fiscal year, including any public relations services procured through RCUH; and
  - (H) Projected cost to the University to procure outside public relations services for the 2013-2014 fiscal year, including any public relations services to be procured through RCUH;
- (17) The BOR provide your Committee with the guidelines used by the BOR and the University administration for reviewing all outside legal counsel and public relations contracts, including those public relations contracts procured through RCUH, and determining that the deliverables for those contracts are met; and
- (18) The BOR and the University develop and report to the Committee a plan of action to improve the negative image of the University as a result of the failed Concert, its aftermath, and the findings that have resulted from the Committee's informational briefings; provided that no additional public relations expenses are incurred by the University in carrying out this recommendation.

#### **IV. Conclusion**

Your Committee believes that the recommendations presented above are a starting point for increasing accountability and transparency over the operational and financial management of the University System, as well as a step toward restoring public trust in Hawaii's only public, taxpayer-supported institution of higher learning.

Signed by Senator Donna Mercado Kim, Chair, on behalf of the Committee.

## CONFERENCE COMMITTEE REPORTS

**Conf. Com. Rep. 1 on S.B. No. 1084**

The purpose of this measure is propose an amendment to article X, section 1, of the Hawaii State Constitution to permit the appropriation of public funds for private early childhood education programs to help the State meet its goal of providing an early education system for the children of Hawaii.

Your Committee on Conference finds that high quality early learning programs that are affordable and accessible for all children are critically important for ensuring the success of Hawaii's keiki. In addition, significant, long-term benefits realized through investments in high-quality, early learning systems have been proven through decades of research. Hawaii is one of only eleven states that does not publicly fund early education.

Your Committee on Conference recognizes the need to form public-private partnerships to provide Hawaii's keiki with high-quality early childhood education. This measure will authorize the implementation of S.B. No. 1095, C.D. 1 (2013), to allow the Office on Early Learning to contract with private early learning education programs, which have been the primary providers for early education in our State. This program will assist more children in establishing a solid foundation for success in school and life.

Your Committee on Conference notes that the Department of the Attorney General has affirmed that this measure gives the Legislature the power to determine, by law, the requirements the State may place on private early learning education programs who participate in the State's early education system to ensure that all provisions of the state and federal constitutions and all state and federal laws are followed.

Your Committee on Conference has amended this measure by making it effective upon compliance with article XVII, section 3, of the Constitution of the State of Hawaii.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1084, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1084, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Shimabukuro, Ige, Ihara and Kidani.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Representatives Takumi, Rhoads, Luke, Ohno and Cheape.

Managers on the part of the House.

Ayes, 5; Ayes with Reservations (Cheape). Noes, none. Excused, none.

**Conf. Com. Rep. 2 on S.B. No. 1083**

The purpose of this measure is to control school bus vendor costs by exempting contracts for transportation services for school children from wage certification requirements.

Your Committee on Conference finds that the wage certification requirement has made it difficult for bus vendors to make competitive bids to provide transportation services to the Department of Education. Removing this requirement will stimulate competitive bidding, which will help to reduce escalating transportation costs.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1083, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1083, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz, Kidani, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

Representatives Takumi, Ing, Takai and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 3 on S.B. No. 48**

The purpose of this measure is amend section 205A-62, Hawaii Revised Statutes, to remove the Department of Education from the list of state agencies with responsibilities relating to marine and coastal zone management.

Your Committee on Conference finds that the Department of Education is required to participate in a number of different boards, commissions, advisory groups, and task forces. These obligations are in addition to its primary duties and may at times absorb time and energy that the Department could otherwise spend advancing its core mission of providing primary education to over 177,000 of Hawaii's keiki.

Your Committee on Conference has amended this measure by reinserting language from this measure as introduced, which removes a representative of the Department of Education from the membership of the Aerospace Advisory Committee.

However, your Committee on Conference notes the Department of Education's willingness to continue to assist the Aerospace Advisory Committee by providing guidance or entering into partnerships to help the Aerospace Advisory Committee promote aerospace development within the State.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 48, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 48, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Espero, Green, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Representatives Takumi, Hanohano, Tsuji, Ohno and Fale.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 4 on S.B. No. 1082**

The purpose of this measure is to repeal statutory language specifying considerations and procedures the Department of Education must follow when contracting for student transportation.

Your Committee on Conference finds that student transportation costs have escalated in recent years. In November 2012, the Student Bus Transportation Study Final Report commissioned by the Department of Education found that, among other things, statutory requirements on contract terms hindered the Department's ability to maximize its resources and set contractual terms to help control escalating costs. This measure will allow the Department of Education greater flexibility in setting contract terms and defining student transportation eligibility parameters to improve delivery of services and contain rising costs.

Your Committee on Conference has amended this measure to make it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1082, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1082, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Takumi, Ing, Takai and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 5 on S.B. No. 328**

The purpose of this measure is to amend the residential landlord-tenant code to allow a landlord to add to a security deposit an additional amount to pay for damages caused by any animal, other than an assistance animal, allowed to reside in the premises pursuant to a rental agreement.

Your Committee on Conference finds that the existing landlord-tenant code permits a landlord to collect a security deposit in an amount not to exceed one month's rent. Because of the current limit on security deposits, many landlords refuse to rent to pet owners. Your Committee on Conference further finds that this measure would permit the use of pet deposits in rental agreements, thus ensuring that landlords will be compensated for any damage done to a rental unit by a pet animal. This measure also acknowledges that landlords are not permitted to require a security deposit for an assistance animal for a person with a disability, thus conforming to federal and state fair housing laws.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a landlord may collect an additional amount to pay for damages caused by any pet animal, rather than any animal, allowed to reside in the premises pursuant to the rental agreement;
- (2) Clarifying that the additional security deposit for a pet animal shall not be required from any tenant who does not have a pet animal, rather than requiring an additional security deposit for any animal that resides in the premises; and
- (3) Inserting an effective date of upon approval; provided that section 1 of this measure shall apply to all rental agreements entered into on or after November 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 328, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 328, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Rhoads, Brower and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 6 on S.B. No. 502**

The purpose of this measure is to establish a uniform standard of document disclosure for condominium projects, cooperative housing corporations, and other community associations.

Your Committee on Conference finds that establishing a uniform standard of document disclosure for sales of real property involving condominiums, cooperative housing corporations, and community associations will benefit buyers, sellers, and real estate licensees by clarifying which documents and information must be disclosed during sales of real property subject to a recorded declaration.

Your Committee on Conference further finds that the real estate industry needs additional time to make necessary changes to any applicable real estate transaction forms, including the seller's disclosure statement and purchase contract, and conduct the necessary training and education related to the implementation of the new uniform standard of document disclosure as required by this measure. Providing the real estate industry with additional time to update forms and conduct training and education will ensure that buyers and sellers in a real estate transaction have accurate and updated real estate forms and have the opportunity to better understand any changes to the disclosure process.

Accordingly, your Committee on Conference has amended this measure by inserting an effective date of November 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 502, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 502, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Kawakami and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 7 on S.B. No. 507**

The purpose of this measure is to create notice requirements for regular annual meetings and special meetings of a planned community association.

Your Committee on Conference finds that it is appropriate and reasonable for a planned community association to provide notice to its members for specific association meetings. Accordingly, this measure ensures that all members of a planned community association receive notice of any regular annual meeting or special meeting of the association by specifying requirements for the means and content of meeting notices.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the notice requirements under this measure shall be provided to association members by two or more specified means;
- (2) Inserting the posting of the meeting notice in its entirety to the association's website as one of the allowed means of providing written notice to association members; and
- (3) Inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 507, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 507, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Cabanilla, McKelvey, Jordan and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 8 on S.B. No. 1066**

The purpose of this measure is to clarify, amend, and correct errors in Hawaii's securities law.

Your Committee on Conference finds that the Hawaii Uniform Securities Act, codified as chapter 485A, Hawaii Revised Statutes, contains some errors and inconsistencies. This measure corrects and clarifies these errors and inconsistencies and has been reviewed by interested stakeholders in the securities industry, including the Securities Section of the Hawaii State Bar Association, the Securities Industry Financial Markets Association, the Financial Planners Association, and the Bankers Association.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1066, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1066, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nishimoto, Har and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Har).

**Conf. Com. Rep. 9 on S.B. No. 84**

The purpose of this measure is to amend the definition of “public housing project” to correspond to the federal Department of Housing and Urban Development’s definition of housing that may be administered by the Hawaii Public Housing Authority; provided that state low-income housing projects are excluded from the definition.

Your Committee on Conference finds that the current definition of the term “public housing project” in section 356D-1, Hawaii Revised Statutes, is inaccurate and overly limiting for the purposes of the federal low-income public housing program. Under the United States Department of Housing and Urban Development regulations, public housing agencies are authorized to administer a variety of federally assisted housing beyond simply “public housing”. Since the Hawaii Public Housing Authority is the only public housing agency in the State, the definition of “public housing” should correspond to the Department of Housing and Urban Development’s definition of housing that may be administered by a public housing agency.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 84, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 84, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green, Kidani, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Representatives Cabanilla, Woodson, Carroll and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 10 on S.B. No. 960**

The purpose of this measure is to establish a notice of postponement or cancellation of sale requirement under part IA, chapter 667, Hawaii Revised Statutes, relating to judicial foreclosures.

Your Committee on Conference finds that pursuant to Act 48, Session Laws of Hawaii 2011, the foreclosing mortgagee in a nonjudicial foreclosure is legally required to provide notice of the postponement or cancellation of the public sale to specific persons. It is prohibited conduct for a foreclosing mortgagee to fail to notify identified persons and entities of the postponement or cancellation of a nonjudicial foreclosure sale. Although the protections relating to the postponement or cancellation of sale apply to nonjudicial foreclosures, there is not a similar requirement for judicial foreclosures under part IA, chapter 667, Hawaii Revised Statutes.

Your Committee on Conference further finds that this measure applies the existing protections for nonjudicial foreclosures to mortgagors and borrowers involved in the judicial foreclosure process. The timely notice required by this measure is intended to help homeowners avoid severe financial penalties which could result from a cancelled foreclosure sale the homeowner knew nothing about.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 960, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 960, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee, Ihara, Wakai and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

Representatives McKelvey, Rhoads, Kawakami and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 11 on S.B. No. 1196**

The purpose of this measure is to enhance enforcement of state tax law by making receipt and record keeping requirements applicable to all taxpayers who conduct business transactions under the general excise tax law, instead of only those who conduct more than ten taxable business transactions per day. The measure provides an exception for casual sales.

Your Committee on Conference finds that under existing law, taxpayers can claim they have not conducted more than ten daily transactions, regardless of the number of actual transactions, and thus are exempt from the record keeping requirements for all cash-based business transactions conducted each day. Removing the exemption will ensure that cash-based businesses more accurately document all transactions, other than casual sales. Your Committee on Conference believes that this measure will assist the Department of Taxation in effectively enforcing the State's tax laws.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1196, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1196, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani and Kouchi.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Tsuji, Tokioka, Onishi and Cheape.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 12 on S.B. No. 1207**

The purpose and intent of this measure is to exempt all work involving submerged lands used for state commercial harbor purposes from the permit and site plan approval requirements for lands within the conservation district.

Your Committee on Conference finds that the exemption provided by this measure allows the Harbors Division of the Department of Transportation to plan and more effectively and efficiently implement projects in a timely manner to meet the growing needs of the maritime industry. The "just in time" cargo system for Hawaii is dependent upon the state commercial harbors system, as ninety-eight percent of imported goods pass through harbors. Significant impacts to facility operations and delivery of goods can occur if necessary capital projects are not completed or harbor facilities are not maintained or rehabilitated in a timely manner due to unnecessary permit delays.

Your Committee on Conference has amended this measure by:

- (1) Deleting references to state and federal laws or regulations applicable to the United States Army Corps of Engineers;
- (2) Deleting the language requiring that the exemption be applicable to expedite any maintenance work to rehabilitate and upgrade the State's existing commercial harbors system; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1207, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1207, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Solomon, Dela Cruz, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Representatives Yamane, Evans, Aquino and Cheape.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 13 on S.B. No. 995**

The purpose of this measure is to recognize the expanding responsibilities and size of the Agricultural Resource Management Division of the Department of Agriculture by altering the position title of the engineering program manager to the engineering program administrator.

Your Committee on Conference finds that the Agricultural Resource Management Division has expanded significantly since its inception in 1987 and has become the largest land program within the Department of Agriculture. Despite the growth of the Division, however, the managing framework has remained the same. Changing the engineering program manager position to the engineering program administrator position will reflect the increased responsibilities and scope of the Agricultural Resource Management Division and align the position with similar positions within the Department of Agriculture.

This measure has been amended by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 995, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 995, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Solomon, Kouchi, Thielen and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Evans, Lowen and Cheape.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 14 on H.B. No. 1207**

The purpose of this measure is to maintain sufficient oversight of the State's Medicaid Program during the implementation of the federal Patient Protection and Affordable Care Act of 2010 by requiring the Department of Human Services to submit interim reports to the Legislature prior to the Regular Sessions of 2015, and 2016, and a final report to the Legislature prior to the Regular Session of 2017 on its program integrity compliance with the federal Patient Protection and Affordable Care Act of 2010 as it relates to Medicaid managed care, fee-for-service, and the children's health insurance program for fiscal years 2013-2014, 2014-2015, and 2015-2016.

Your Committee has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1207, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1207, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green and Taniguchi.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Green).

Representatives Carroll, Jordan and Fukumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 15 on S.B. No. 3**

The purpose of this measure is to establish a system of nonpartisan primary and general elections for the selection of Office of Hawaiian Affairs Board of Trustees members.

Your Committee on Conference finds that historically, there has been a large pool of Office of Hawaiian Affairs Board of Trustees candidates competing in the general election, resulting in a wide dispersion of votes. Implementing a primary election process will narrow the pool of trustee candidates in the general election and ensure a more democratic process.

Your Committee on Conference has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Hee, Shimabukuro, Ihara and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Representatives Hanohano, Rhoads, Coffman and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 16 on S.B. No. 407**

The purpose of this measure is to amend statutory provisions relating to the composition and quorum of island burial councils.

Your Committee on Conference finds that some island burial councils are unable to fill certain council seats or unable to make quorum for various reasons. It is necessary to amend the statutory provisions relating to the island burial councils to ensure that island burial councils are sufficiently staffed and able to make critical decisions relating to the care of iwi kupuna. Among other things, your Committee on Conference seeks to ensure that the amendments made by this measure will not affect the validity of decisions being made by current council members.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that a member of each council shall include at least one representative "for" each geographic region rather than "from" each geographic region;
- (2) Requiring that a representative from the Kona geographic region on Oahu be included on the Oahu council;

- (3) Clarifying that regional representatives should be selected based on the representatives' understanding of the culture, history, burial beliefs, customs, and practices of native Hawaiians in the region they each represent;
- (4) Deleting the requirement that each list of nominees submitted by the Department of Land and Natural Resources and Office of Hawaiian Affairs to the Governor to fill vacancies on the councils includes at least two qualified nominees for each vacant seat;
- (5) Specifying that the decisions and other actions of each holdover member's council shall not be subject to challenge on the basis that the requirement in section 6E-43.5(a), Hawaii Revised Statutes, that each council include a member who represents each geographic region of the council, has not been met;
- (6) Making the measure effective upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 407, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 407, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Kidani, Keith-Agaran, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Hanohano, Cullen, Evans and Fale.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Evans).

**Conf. Com. Rep. 17 on H.B. No. 1405**

The purpose of this measure is to:

- (1) Require the Public Utilities Commission to include a summary of the power purchase agreements in effect during the fiscal year in its annual report to the Governor; and
- (2) Clarify the use of the public benefits fee under section 269-121, Hawaii Revised Statutes, to support clean energy technology, demand response technology, and energy use reduction, and demand-side management infrastructure.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1405, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1405, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, Kawakami, Lowen and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

**Conf. Com. Rep. 18 on H.B. No. 1203**

The purpose of this bill is to provide qualifying criteria to assist with the selection of the Adjutant General and also give preference to candidates with direct experience in supervising or participating in the various state programs that are under the purview of the Hawaii Department of Defense. Specifically, this measure:

- (1) Requires that, in order to serve, continue to serve, or be appointed to serve as Adjutant General an individual must:
  - (A) Hold or have held a commission of at least an 0-5, federally recognized as such, in the National Guard of the armed forces of any state or territory of the United States, or in the armed forces of the United States or a reserve component thereof; and
  - (B) Have served as a commissioned officer in one or more of the armed forces of the United States for a total of at least ten years;
- (2) Provides a first preference for appointment to the position of Adjutant General to a commissioned officer who possesses at least five years of service as an active commissioned officer in the Hawaii National Guard, whether Army, Air, or both;
- (3) Provides a second preference for appointment to the position of Adjutant General to a commissioned officer who has served as an active commissioned officer in the National Guard of the armed forces of any state or territory of the United States, over a commissioned officer in the Armed Forces of the United States or a reserve component thereof; and
- (4) Exempts the sitting Adjutant General from the provisions of paragraphs (1) to (3) above.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date from January 1, 2050, to upon its approval; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1203, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1203, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, none.

Representatives Takai, Ito and Ward.

Managers on the part of the House.

Ayes, 3; Ayes with Reservations (Ward). Noes, none. Excused, none.

**Conf. Com. Rep. 19 on H.B. No. 235**

The purpose of this measure is to expand the definition of “victim” under the crime victim restitution laws to include duly incorporated humane societies or duly incorporated societies for the prevention of cruelty to animals, contracted with the county or State, in order to provide such societies with restitution for reasonable and verified losses suffered.

Your Committee on Conference has amended this measure to provide that duly incorporated humane societies or duly incorporated societies for the prevention of cruelty to animals, contracted with the county or State, shall not receive restitution as a victim for costs that have already been contracted and provided for by the counties or State.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 235, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 235, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Wooley, McKelvey, Har and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Har).

**Conf. Com. Rep. 20 on S.B. No. 1118**

The purpose of this measure is to authorize the Hawaii Public Housing Authority Board of Directors to set the salaries, none of which shall exceed the Governor’s salary, of the Hawaii Public Housing Authority Executive Director, Executive Assistant, Chief Financial Management Advisor, Property Management Branch Chief, Chief Planner, and Redevelopment Officer.

Your Committee on Conference finds that the Hawaii Public Housing Authority, including the salaries of Authority employees, is funded primarily through federal funding or rental receipts. Existing state law establishing the salaries of key employees inhibits the hiring of qualified personnel with skills and expertise that would assist the Authority in fulfilling its duties and responsibilities. Not only will this measure enable the Authority to attract and retain qualified personnel, it will allow the Authority’s Board of Directors to satisfy federal requirements, including providing certification to the federal Department of Housing and Urban Development that the salary of the executive director was established pursuant to a mandatory comparable salary study.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1118, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1118, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Espero, Green, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Representatives Cabanilla, Nakashima, Woodson, Jordan and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 21 on S.B. No. 1070**

The purpose of this measure is to:

- (1) Authorize the Commissioner of Financial Institutions to examine and investigate licensees and other persons subject to the mortgage servicer law; and
- (2) Adjust fees for mortgage servicer applications and renewals.

Your Committee on Conference finds that the Commissioner of Financial Institutions regulates mortgage servicers who relay residential mortgage loan payments from a borrower to the owner of the loan or to other third parties, pursuant to the terms of service. This measure enables the Commissioner of Financial Institutions to have the necessary tools to protect consumers and conduct meaningful examinations and investigations of mortgage servicers. This measure also ensures the availability of adequate resources for the effective and expeditious licensing of mortgage servicers, which will promote the interests of consumers and businesses.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Commissioner of Financial Institutions may access, receive, and use specific items deemed relevant by the Commissioner in the Commissioner's investigation or examination of a mortgage servicer;
- (2) Requiring payment of the license renewal fee of \$425, at least four weeks prior to the renewal period for licensure for the following year; and
- (3) Inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1070, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1070, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Galuteria.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nishimoto, Evans and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 22 on S.B. No. 1071**

The purpose of this measure is to:

- (1) Modernize the State's financial institutions law, codified as chapter 412, Hawaii Revised Statutes; and
- (2) Adjust fees for financial institutions to reflect the additional regulation and monitoring required of the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee on Conference finds that the last comprehensive review of the State's financial institutions law was in 1993. This measure modernizes the financial institution law to reflect changes in federal laws over the last twenty years, including changes required by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. This measure also strengthens and clarifies the Commissioner of Financial Institutions' powers to administer and enforce chapter 412, Hawaii Revised Statutes, and adjusts fees to reflect additional regulatory requirements and monitoring required for specific licensees.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1071, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1071, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Galuteria.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nishimoto, Evans and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 23 on S.B. No. 1077**

The purpose of this measure is to:

- (1) Repeal the owner-builder exemption for industrial and commercial construction;
- (2) Set forth additional construction, employment, and other requirements for owners and lessees with an owner-builder exemption;
- (3) Prohibit owners and lessees with an owner-builder exemption from being eligible to recover from the contractors recovery fund; and
- (4) Amend penalties for noncompliance with owner-builder exemption requirements.

Your Committee on Conference finds that the owner-builder exemption under chapter 444, Hawaii Revised Statutes, authorizes owner-builders to perform their own improvements and construction without being required to obtain a contractor's license. However, owners often obtain owner-builder permits without having full knowledge of the risks and responsibilities that they assume. For example, owner-builders who hire unlicensed individuals to perform work act as the employer and must comply with employer insurance and tax requirements and follow applicable safety regulations and building codes. Owner-builders who hire subcontractors must hire licensed subcontractors.

Your Committee on Conference further finds that this measure clarifies the responsibilities that are required of owner-builders and improves the ability of the Regulated Industries Complaints Office to investigate possible violations of laws pertaining to owner-builders, thus promoting safety, improving the quality of construction in Hawaii, and reducing unreported cash transactions.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1077, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1077, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Evans, Wooley, McKelvey, Lee and Cheape.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Lee, Wooley).

**Conf. Com. Rep. 24 on S.B. No. 1265**

The purpose of this measure is to specify that an owner's agreement to locate and recover property that is presumed abandoned, shall be unenforceable and may be subject to an action to reduce the compensation amount if the agreement provides for compensation exceeding twenty-five percent of the total value of the property.

Your Committee on Conference finds that Act 229, Session Laws of Hawaii 2012, limited compensation for the recovery of property presumed abandoned to ten percent of the total value of the property. Your Committee on Conference further finds that there are valid reasons for establishing a maximum fee structure for professional unclaimed property locators. However, the existing ten percent limit on compensation for recovery creates a barrier for members of the public who wish to hire an attorney to assist with the recovery of unclaimed funds or property. This measure therefore increases the amount of enforceable compensation allowed from ten to twenty-five percent of the total value of the property for all owner's agreements, including agreements with attorneys, to locate, deliver, recover, or assist in the recovery of property that is presumed abandoned.

Your Committee on Conference finds that a cap of twenty-five percent of the total value of the property for owner's agreements to locate and recover property ensures that members of the public are able to retain attorneys to handle the claims process, while also ensuring that the overall fees associated with this process remain at reasonable levels.

Your Committee on Conference also finds that there is merit in allowing judicial discretion to approve owner's agreements with attorneys that provide for compensation that exceeds twenty-five percent, if the agreement is with an attorney to maintain an action in Circuit Court.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting language to specify that an owner's agreement with an attorney to file a claim as to identified property or contest the administrator's denial of a claim is exempt from the application of the entire section 523A-25, Hawaii Revised Statutes;
- (2) Inserting language to specify that an owner's agreement with an attorney to maintain an action in Circuit Court under section 523A-16, Hawaii Revised Statutes, may provide for compensation that exceeds twenty-five percent of the total value of the property only upon approval of the court; and
- (3) Inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1265, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1265, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Shimabukuro, Ihara, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

Representatives McKelvey, Rhoads, Nishimoto, Ito and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 25 on H.B. No. 848**

The purpose of this measure is to ensure Hawaii's insurance laws are in compliance with federal health insurance laws by:

- (1) Establishing a uniform network adequacy standard for all health insurers doing business in Hawaii;

- (2) Amending the definition of "small business" for consistency with the federal Public Health Service Act, Health Insurance Portability and Accountability Act of 1996, and Patient Protection and Affordable Care Act; and
- (3) Applying licensing requirements for insurance producers to health maintenance organizations and mutual benefit societies.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions that applied licensing requirements for insurance producers to health maintenance organizations and mutual benefit societies;
- (2) Deleting the requirement that an unaccredited managed care plan be a new entrant to the State in order to demonstrate network adequacy through submitting to the Insurance Commissioner a plan to become accredited by a national accreditation organization;
- (3) Changing its effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 848, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 848, H.D. 2, S.D. 1, C.D. 1.

**Conf. Com. Rep. 26 on H.B. No. 673**

The purpose of this measure is to better address the potential public health and environmental issues related to restricted use pesticides by requiring the Department of Agriculture to publish on its website the public information contained in all restricted use pesticide records, reports, or forms submitted to the Department.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Legislative Reference Bureau to conduct a study on pesticides that includes other states' reporting requirements for certain pesticides;
- (2) Amending its purpose section to conform to its substantive provisions; and
- (3) Changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 673, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 673, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 27 on H.B. No. 587**

The purpose of this bill is to strengthen Hawaii's law protecting family or household members from physical abuse.

Specifically, this measure:

- (1) Amends the Hawaii penal code to include persons in a dating relationship as family or household members when considering the offense of abuse of family or household members;
- (2) Increases the period of separation from twenty-four to forty-eight hours that a police officer is required to order a person to stay away from a family or household member if the police officer has reasonable grounds to believe that a family or household member is in probable danger of further physical abuse or harm being inflicted by the person; and
- (3) Specifies that the forty-eight hour period of separation referred to in paragraph (2) shall be enlarged and extended to 4:30 p.m. on the first day following a weekend or legal holiday if the incident occurs on such a day.

Your Committee on Conference has amended this measure by changing its effective date from July 1, 2050, to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 587, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 587, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 31 on H.B. No. 560**

The purpose of this bill is to help improve sustainability, increase food self-sufficiency, and provide those living in housing projects with life skills through the development of urban gardening programs in housing projects. Specifically, this measure authorizes the Hawaii Housing Finance and Development Corporation and the Hawaii Community Development Authority, in consultation with the College of Tropical Agriculture and Human Resources of the University of Hawaii at Manoa, to encourage the development of housing projects that incorporate urban gardening programs by providing incentives.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date from July 1, 2050, to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 560, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 560, H.D. 1, S.D. 1, C.D. 1.

Senators Dela Cruz, Taniguchi, Kouchi, Ige and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Cabanilla, Tsuji, Carroll and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 32 on H.B. No. 87**

The purpose of this bill is to ensure public safety at public housing projects. Specifically, this measure:

- (1) Broadens the offense of criminal trespass in the first degree to include a person who enters or remains unlawfully in or upon the premises of any public housing project after a reasonable warning or request to leave by housing authorities or a law enforcement officer;
- (2) Stipulates that a person who enters or remains unlawfully on public housing project premises after hours shall be guilty of a petty misdemeanor for the first violation and a misdemeanor for a second or subsequent violation;
- (3) Clarifies that the warning or request to leave is not necessary between 10:00 p.m. and 5:00 a.m. at any public housing project that is closed to the public during those hours and has signs of a certain size and placement to provide sufficient notice of the closure; and
- (4) Defines housing authorities.

Your Committee on Conference has amended this measure by:

- (1) Downgrading the specified conduct and circumstances that would have constituted the offense of criminal trespass in the first degree, a misdemeanor, to criminal trespass in the second degree, a petty misdemeanor;
- (2) Clarifying that a police officer, rather than a law enforcement officer, may issue the warning or request to a person to leave the housing project;
- (3) Retaining language providing that no warning or request is necessary when the public housing project is closed and there is signage of a certain size and placement to provide sufficient notice of the closure and placing this language under the offense of criminal trespass in the second degree;
- (4) Placing the definition of housing authorities under the offense of criminal trespass in the second degree; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 87, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 87, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Hee, Gabbard, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Taniguchi).

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 33 on H.B. No. 888**

The purpose of this measure is to provide a more streamlined process for the disposal of property that has been abandoned on or seized in or around any state low-income housing project.

Among other things, this measure:

- (1) Authorizes the Hawaii Public Housing Authority to dispose of abandoned or seized property:
  - (A) That has an estimated value of \$500 or more per item via public auction after public notice; and
  - (B) That has an estimated value of less than \$500 per item as determined by the Hawaii Public Housing Authority without public notice;
- (2) Enables the owner of the abandoned or seized property to repossess the property prior to disposition of the property if the owner provides proof of entitlement and settles all amounts and debts owed to the Hawaii Public Housing Authority; and
- (3) Repeals the current process for disposing of abandoned property left in or about any state low-income housing project through public auction.

Upon consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the provision that limited the remedies available to the owners of abandoned or seized property;
- (2) Placing the language creating the new process in a new statutory section and repealing, rather than amending, the statutory section containing the current process for disposition;
- (3) Changing its effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 888, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 888, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Hee, Espero, Kahele and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Cabanilla, Woodson, Tokioka and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 34 on H.B. No. 1381**

The purpose of this bill is to assist Hawaii's servicemen and servicewomen, and their spouses, when determining qualifications for an occupational license. Specifically, this measure:

- (1) Allows professional and vocational licensing authorities to license nonresident spouses of service members by endorsement or reciprocity if the nonresident military spouse is the spouse of a military member who is a member in good standing in the active or a reserve component of any of the armed forces of the United States and has orders issued by the United States Department of Defense to be stationed in Hawaii for a duration of at least one year;
- (2) Specifies that professional and vocational licensing authorities that consider relevant education, training, or service of a military veteran applicant and determine whether the applicant meets or exceeds the requirements for licensure in Hawaii shall accept the results of the passage of a national or regional exam accepted by statute or rule in the specific licensing area or the equivalent as determined by the licensing authority; and
- (3) Requires a military spouse seeking licensure to provide a certificate or evidence satisfactory to the professional and vocational licensing authority of having passed a national or regional exam or the equivalent to the licensing authority.

Your Committee on Conference has amended this measure by:

- (1) Expanding the ability of the professional and vocational licensing authority to issue licenses by endorsement or reciprocity, as well as temporary licenses, to any military spouse meeting certain specified requirements rather than limiting this provision to nonresident military spouses;
- (2) Specifying that licenses issued to a military spouse by endorsement or reciprocity shall be valid for the same period of time as licenses issued pursuant to Hawaii's laws for the particular profession for which licensure by endorsement or reciprocity is being sought;
- (3) Specifying that a military spouse shall not hold a license by endorsement or reciprocity for a period exceeding five years in the aggregate; and
- (4) Deleting language that:
  - (A) Specified that professional and vocational licensing authorities that consider relevant education, training, or service of a military veteran applicant and determine whether the applicant meets or exceeds the requirements for licensure in Hawaii shall accept the results of the passage of a national or regional exam accepted by statute or rule in the specific licensing area or the equivalent as determined by the licensing authority; and
  - (B) Required a military spouse seeking licensure to provide a certificate or evidence satisfactory to the professional and vocational licensing authority of having passed a national or regional exam or the equivalent to the licensing authority.

Technical, nonsubstantive amendments were also made for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1381, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1381, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Baker, Green, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Representatives Takai, McKelvey, Cachola, Choy and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 35 on H.B. No. 656**

The purpose of this measure is to effectively harness new or improved approaches, concepts, and initiatives that have the potential to have a positive impact on the cost and quality of health care in the State by temporarily establishing within the Office of the Governor, the Health Care Transformation Program that is specially targeted to initiate a statewide health care transformation.

This measure also requires the Governor to submit a progress report containing the status of the Health Care Transformation Program and a final report on the Health Care Transformation Program, including findings, recommendations, and any proposed legislation, to the Legislature prior to the convening of the 2014 Regular Session and the 2015 Regular Session, respectively.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2013; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 656, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 656, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Chun Oakland, Thielen and Wakai.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

Representatives Belatti, McKelvey, Morikawa and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 36 on H.B. No. 423**

The purpose of this measure is to separate statutes relating to the deregistration of fee time share interests and the voluntary deregistration of fee non-time share interests from the Land Court system in order to make permanent the deregistration and transfer to the jurisdiction of the Bureau of Conveyances of fee time share interests while preserving the current repeal date of December 31, 2014, for voluntary deregistration and transfer of fee non-time share interests.

Your Committee on Conference has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 423, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 423, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Evans, McKelvey, Rhoads, Coffman and Cheape.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 37 on S.B. No. 239**

The purpose of this measure is to:

- (1) Repeal chapter 317, Hawaii Revised Statutes (HRS), and move the statutory provisions relating to the annual conference of secondary school students to chapter 302A, HRS, relating to education;
- (2) Replace the Governor's authority to appoint members of the student conference committee with that of the Superintendent of Education and the Hawaii Association of Independent Schools;

- (3) Repeal the provision requiring that certain members of the Legislature and the Department of Education be included in the membership of the student conference advisory committee and instead require the Department of Education to maintain guidelines and procedures for establishing the advisory committee;
- (4) Repeal the three-day limit for the annual conference and provide that the conference is subject to program and funding limitations; and
- (5) Repeal the requirement for an evaluation report on conference proceedings.

Your Committee on Conference finds that the Student Conference Committee provides secondary students with the opportunity to learn valuable skills and connect with and learn from other secondary school students. In addition, it provides a forum for secondary school students to share their thoughts and concerns on issues that impact their schools and communities.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 239, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 239, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Takumi, Ing, Takai and Fale.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Takai).

**Conf. Com. Rep. 38 on S.B. No. 505**

The purpose of this measure is to support and encourage the use of mediation to settle condominium related disputes by:

- (1) Adding support for mediation of condominium related disputes as an educational purpose eligible to be funded by the Condominium Education Trust Fund;
- (2) Beginning with the July 1, 2015, biennium registration, establishing an additional annual Condominium Education Trust Fund fee dedicated to supporting mediation of condominium related disputes; and
- (3) Requiring the Real Estate Commission to make adjustments to the Condominium Education Trust Fund prior to July 1, 2015, to ensure that adequate funds are available for mediation of condominium related disputes.

Your Committee on Conference finds that mediation can be a consumer friendly way of resolving condominium related disputes. This measure dedicates a portion of the fees paid into the Condominium Education Trust Fund to support mediation of condominium related disputes, which will directly benefit the entire condominium community. This measure also ensures that condominium owners have access to the services of professionally trained mediators with extensive subject matter expertise, including retired judges and individuals with appropriate professional mediation training.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 505, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 505, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Galuteria and Ige.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives McKelvey, Nishimoto, Brower and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 39 on S.B. No. 1214**

The purpose of this measure is to:

- (1) Abolish the Commission on Transportation;
- (2) Authorize the counties to adopt ordinances to authorize the respective county police department or agent to apply a wheel boot to any motor vehicle for any parking violation and to collect a county fine to apply or remove the wheel boot; and
- (3) Prohibit a person other than a person authorized by the county or the registered owner of a vehicle from applying a wheel boot to the vehicle.

Your Committee on Conference finds that the Commission on Transportation was created as an advisory committee to the Department of Transportation and is no longer necessary. Abolishing the Commission on Transportation will streamline the operations of the Department.

Your Committee on Conference further finds that enforcement of parking violations is ineffective if the violator fails to pay a parking fine without other penalty. Authorizing the police to apply a wheel boot as an additional penalty would require the payment of a fee in order to remove the wheel boot.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to prohibit a person or entity, including any county police department or agent, from applying or causing to be applied, a wheel boot to a motor vehicle located on any public or private street, roadway, or highway, as applicable, or on any public or private property, as applicable;
- (2) Deleting the language authorizing the counties to adopt ordinances to authorize the county police department or agent to apply wheel boots and collect a fine to apply and remove a wheel boot; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1214, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1214, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Baker, Espero, Gabbard, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4; Ayes with Reservations (Espero). Noes, none. Excused, 2 (Gabbard, Slom).

Representatives Yamane, Yamashita, Ichiyama and Cheape.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Cheape).

**Conf. Com. Rep. 40 on S.B. No. 1209**

The purpose and intent of this measure is to:

- (1) Repeal language prohibiting persons from parking or placing a vehicle on a structure on any highway to sell from the vehicle certain items, thereby creating a hazardous condition or public nuisance;
- (2) Insert language prohibiting persons from occupying any highway or parking or placing a vehicle on a structure on any highway to sell any product, service, merchandise, food, or solicitation; and
- (3) Authorize the Director of Transportation, in the case of state highways, to issue a written permit, subject to any terms and conditions imposed by the Director, authorizing the applicant to vend in the airspace, as that term is defined in federal law, of the State's interstate highway system.

Your Committee on Conference finds that this measure allows the Department of Transportation flexibility to ensure that enforcement of the statute against unauthorized vending activities in the airspace is consistent with federal law, because federal law regulates this matter.

Your Committee on Conference has amended this measure by:

- (1) Reinstating language that prohibits persons from parking or placing a vehicle on a structure on any highway to sell from the vehicle certain items, thereby creating a hazardous condition or public nuisance; and
- (2) Deleting language that prohibits persons from occupying any highway or parking or placing a vehicle on a structure on any highway to sell any product, service, merchandise, food, or solicitation.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1209, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1209, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Baker, Dela Cruz, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Yamane, Yamashita and Ichiyama.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 41 on S.B. No. 1161**

The purpose of this measure is to:

- (1) Allow a court to issue an income withholding order for payment of fines imposed on a vessel owner for violations of laws regarding abandoned vessels and establish procedures for the execution of the order; and
- (2) Clarify that all costs and expenses associated with the impoundment of an unauthorized vessel by the Department of Land and Natural Resources shall be borne by the vessel owner and specify circumstances under which no vessel registration shall be renewed or transferred.

Your Committee on Conference finds that in the case of a vessel owner who is in violation of mooring within a state small boat harbor or offshore mooring area, the vessel owner should have a continuing obligation to pay for the consequences.

Under existing law, the burden, along with the costs and expenses of impoundment and disposal of all unauthorized vessels, is on the Department of Land and Natural Resources when a vessel owner does not repossess an impounded vessel prior to disposition. The process is costly and time-consuming for the Department. The State is also not entitled to recover mooring fees incurred by the vessel owner prior to impoundment.

Your Committee on Conference has amended this measure by:

- (1) Deleting all references to the income withholding order by the court;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1161, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1161, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, English, Kouchi, Dela Cruz, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Slom).

Representatives Yamane, Hanohano, Yamashita, Ichiyama and Cheape.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Cheape).

**Conf. Com. Rep. 42 on S.B. No. 1339**

The purpose of this measure is to establish a definition of rural that would protect existing programs in remote areas of the State, such as the critical access hospital designation for Kahuku Medical Center, and expand opportunities for other communities that are designated as rural within the State but do not otherwise meet federal definitions to qualify as such.

Your Committee on Conference finds that the 2010 Census determined that Oahu no longer contains any areas that federally qualify as rural. This endangers Kahuku Medical Center's designation as a critical access hospital and disqualifies all communities on Oahu from participating in federal rural programs. Since 2010, rural communities in Hawaii have qualified for \$1,890,000 in federal grants from the Health Resources and Services Administration's Office of Rural Health Policy alone, with about half going to Oahu. With the release of the latest census figures, communities on Oahu no longer qualify for these and other federal programs. While the federal definitions of rural will keep some communities from participating in federal programs, there are several federal programs that recognize state definitions of rural. This measure establishes a state definition of rural that would protect existing programs in remote areas of the State.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1339, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1339, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Kouchi, Nishihara, Dela Cruz, Ige, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Ige, Slom).

**Conf. Com. Rep. 43 on S.B. No. 1025**

The purpose of this measure is to update the Hula Mae Single Family Mortgage Loan program by:

- (1) Allowing broader program participation by potential homeowners;
- (2) Adding down payment and other cost assistance as a program feature; and
- (3) Making housekeeping and conforming amendments.

Your Committee on Conference finds that the Hula Mae Single Family Mortgage Loan program is a mortgage loan program for families of low and moderate income that was initiated by the Legislature in 1979. The program's intent is to deliver low interest mortgage loans to families and individuals who cannot qualify in the conventional market.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2013; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1025, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1025, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Dela Cruz, Baker, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

Representatives Cabanilla, McKelvey, Woodson, Jordan and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 44 on S.B. No. 933**

The purpose of this measure is to make permanent the state general excise tax exclusion for the amounts received by a managed care support contractor of the TRICARE program for the actual cost or advancement to third-party health care providers, pursuant to a contract with the United States for the administration of the TRICARE program.

Your Committee on Conference finds that the TRICARE program is a federal government program that provides health care services to over nine million Americans, composed of active duty, reserve, and retired members of the United States uniformed services, their family members, and survivors, including approximately one hundred fifty thousand current and former service members and their family members who reside in Hawaii. The TRICARE program contracts with third-party administrators, known as "managed care support contractors," to establish and maintain networks of TRICARE-authorized civilian health care providers in various regions of the United States. On behalf of the United States Department of Defense, managed care support contractors make advances to health care providers, including doctors, hospitals, and other providers, for costs of health care services provided to TRICARE beneficiaries. The United States Department of Defense reimburses managed care support contractors for the actual cost or advancement made to third-party health care providers.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Extending the state general excise tax exclusion for five years, rather than making the exclusion permanent; and
- (2) Changing the effective date from July 1, 2050, to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 933, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 933, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Espero, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Takai, Belatti, Luke, Takayama and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 45 on S.B. No. 586**

The purpose of this measure is to provide, under certain circumstances, an exemption from building code requirements and an expansion of existing building permit exemptions for nonresidential buildings or structures, including indigenous Hawaiian hale, on commercial farms and ranches located outside the urban district.

Your Committee on Conference finds that nonresidential building code requirements are financially and logistically burdensome to farming and ranching operations despite the minimal risk that these structures pose to public safety. Although Act 114, Session Laws of Hawaii 2012, exempts nonresidential agricultural and aquaculture buildings and structures from the building permit requirements, farmers and ranchers are still discouraged from expanding their farming operations due to the onerous building code requirements. The agricultural exemptions provided by this measure will ease the financial and administrative burden on farmers and ranchers and encourage agricultural diversification and self-sufficiency.

Your Conference on Committee has amended this measure by:

- (1) Removing the requirement that each county establish a list of agricultural buildings and structures that are exempt from existing building permit and code requirements;
- (2) Removing the county's discretion to determine which buildings and structures are exempt from building permit and building code requirements by requiring that all buildings and structures specified be exempt from building permits and, in certain cases, building code requirements;
- (3) Amending the term "agricultural building or aquacultural building" to "agricultural building" and clarifying that the definition of agricultural building includes a nonresidential building or structure built for agricultural or aquacultural purposes;
- (4) Specifying that buildings or structures used to store pesticides or other hazardous material are not exempt from building permit or code requirements unless they are stored in accordance with federal and state law;

- (5) Providing that failure to comply with the conditions set forth in section 46-88, Hawaii Revised Statutes, shall result in penalties consistent with county building department provisions;
- (6) Inserting an effective date of July 1, 2013; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 586, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 586, S.D. 1, H.D. 2, C.D. 1.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Slom).

Representatives Wooley, Evans, McKelvey, Onishi and Cheape.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 46 on S.B. No. 697**

The purpose of this measure is to enhance the continuity of the Hawaii Aerospace Advisory Committee by extending the terms of committee members from two to four years.

Your Committee on Conference finds that extending the terms of service for members of the Hawaii Aerospace Advisory Committee will enable committee members to establish stronger working relationships and enhance the continuity of discourse among members, as well as reduce the administrative efforts required to maintain appropriate representation on the committee.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 697, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 697, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Chun Oakland and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Takayama, Tokioka and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 47 on S.B. No. 88**

The purpose of this measure is to prohibit the possessing or keeping open liquor containers in the common areas in state and federal public housing projects, with certain exceptions.

Your Committee on Conference finds that state law prohibits the consumption of intoxicating liquors on public sidewalks, including any sidewalk within a public housing project as defined in sections 356D-1 and 356D-91, Hawaii Revised Statutes, and in common areas of public housing projects. However, this prohibition can be difficult to enforce since it is limited by the word "consumption", requiring that either a law enforcement officer visibly observe a perpetrator in the action of imbibing intoxicating liquor or a witness be willing to testify to visibly observing a perpetrator in the action of imbibing intoxicating liquor. By broadening the prohibition to possession of open intoxicating liquor containers, the requirement of physically observing a perpetrator in the act of imbibing in order to support prosecution is removed, making violations easier to report and enforce.

Your Committee on Conference has amended this measure by:

- (1) Removing exemptions that would have allowed possession of a liquor container within a public housing project if the container was being transported to or from certain locations and was sealed or closed with a cork or lid; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 88, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 88, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Espero, Kidani, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Cabanilla, Rhoads, Jordan and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 48 on S.B. No. 1067**

The purpose of this measure is to:

- (1) Update the escrow depositories law to more realistically address the current responsibilities and operations of escrow depositories; and
- (2) Adjust fees for escrow depositories to reflect the risk based approach of supervision and the additional regulation and monitoring required of the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee on Conference finds that the last significant revision to the State's escrow depositories law, codified as chapter 449, Hawaii Revised Statutes, was more than twenty-five years ago. Today's escrow depositories are handling larger and more sophisticated financial transactions, and certain changes to the escrow depositories law are therefore needed to better regulate the industry and protect consumers. Your Committee on Conference further finds that this measure provides the Division of Financial Institutions with meaningful tools and needed funding to oversee and regulate the escrow depository industry and safeguard the rights of the public.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have defined the term "examination and investigation", as this term does not appear elsewhere in this measure or in chapter 449, Hawaii Revised Statutes;
- (2) Inserting an effective date of upon approval; provided that sections 4, 7, and 8 of this measure shall take effect on January 1, 2014; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1067, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1067, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee, Kouchi and Ige.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Hee).

Representatives McKelvey, Nishimoto, Kawakami and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Kawakami).

**Conf. Com. Rep. 49 on S.B. No. 1042**

The purpose of this measure is to improve the Public Utilities Commission's ability to respond and adapt to the changing regulatory environment by:

- (1) Clarifying its authority to hire professional and other staff; and
- (2) Repealing existing legislatively-imposed permanent and temporary staff position descriptions.

Your Committee on Conference finds that the increased demand for energy and technological advancements in generating renewable energy, as well as changes in the delivery of other public utilities, requires the Public Utilities Commission to have a modernized and sophisticated workforce to carry out its increasingly complex regulatory functions. This measure allows the Chairperson of the Public Utilities Commission the flexibility to identify, design, and fill the positions necessary to steward the State through these dynamic and challenging technology-driven times.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1042, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1042, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee, Espero, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives McKelvey, Nishimoto, Belatti and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 50 on S.B. No. 1068**

The purpose of this measure is to:

- (1) Authorize the Commissioner of Financial Institutions of the Department of Commerce and Consumer Affairs to require money transmitters to register with NMLS;
- (2) Establish procedures for a licensed money transmitter to surrender its license; and
- (3) Amend the bond requirement, fee structure for services provided by the Division of Financial Institutions, and the fine for violations of money transmitter regulations.

Your Committee on Conference finds that the Money Transmitter Act, codified as chapter 489D, Hawaii Revised Statutes, was originally enacted in 2006 to protect consumers of money transmission services and prevent money transmission from being used to facilitate illegal activities. This measure enables the Commissioner of Financial Institutions of the Department of Commerce and Consumer Affairs to more effectively enforce the money transmitters law and more appropriately supervise, regulate, and examine licensees. This measure also ensures that the Commissioner of Financial Institutions has sufficient funds to effectively regulate the money transmitter industry.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1068, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1068, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee, Espero, Ihara and Taniguchi.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Espero, Ihara).

Representatives Tsuji, McKelvey, Tokioka, Brower and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Thielen).

**Conf. Com. Rep. 51 on H.B. No. 1132**

The purpose of this measure is to:

- (1) Require state employees specified under section 84-17(c), Hawaii Revised Statutes, except for state legislators to file a disclosure of financial interest statement with the Hawaii State Ethics Commission between January 1 and May 31 of each year; and
- (2) Require state legislators to file a disclosure of financial interest statement with the Hawaii State Ethics Commission between January 1 and January 31 of each year.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1132, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1132, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Brower, Tsuji and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 52 on H.B. No. 1287**

The purpose of this measure is to help ensure that age-restricted goods and services are not purchased by underage individuals by specifying that the machine-readable zone of an individual's Hawaii identification card or driver's license may be scanned to verify, if the business has a reasonable doubt, that the individual has reached the minimum age required to purchase the age-restricted goods or services, rather than to verify that the individual has reached eighteen years of age or older.

Your Committee on Conference has amended this measure by:

- (1) Inserting a sunset date of July 31, 2014; and
- (2) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1287, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1287, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Nishihara, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Representatives Rhoads, Har, Tsuji and Cheape.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Har).

**Conf. Com. Rep. 53 on H.B. No. 785**

The purpose of this measure is to:

- (1) Require the Native Hawaiian Roll Commission (Commission), in cooperation with the Office of Hawaiian Affairs, to submit an annual report to the Legislature beginning with the Regular Session of 2014, including the status of the preparation of the Native Hawaiian Roll, the Commission's expenditures, and the concerns or recommendations of the Commission;
- (2) Clarify that the Commission is responsible for including individuals who meet the ancestry requirements of Kamehameha Schools or of any Hawaiian registry program of the Office of Hawaiian Affairs on the Native Hawaiian Roll as "qualified Native Hawaiians";
- (3) Specify that the Commission shall include on the Native Hawaiian Roll and extend all rights and recognitions of other members of the Native Hawaiian Roll to any person already registered with the State as a certified Hawaiian or Native Hawaii through the Office of Hawaiian Affairs; and
- (4) Eliminate the directive from Act 195, Session Laws of Hawaii 2011, relating to the recognition of Native Hawaiians as Hawaii's indigenous people, that the Hawaiian Homes Commission Act, 1920, be amended in accordance with Act 195.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have required the Commission, in cooperation with the Office of Hawaiian Affairs, to submit an annual report to the Legislature;
- (2) Clarifying that an individual included on the Native Hawaiian Roll and treated as other members of the Native Hawaiian Roll based on that individual's previous registration with the State as a certified Hawaiian or Native Hawaiian through the Office of Hawaiian Affairs shall have that registration verified by the production of relevant Office of Hawaiian Affairs records;
- (3) Reinstating the directive in Act 195, Session Laws of Hawaii, to amend the Hawaiian Homes Commission Act, 1920, to accomplish the purposes of Act 195; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 785, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 785, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Gabbard.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Rhoads, Carroll and Thielen.  
Managers on the part of the House.  
Ayes, 2. Noes, 1 (Thielen). Excused, none.

**Conf. Com. Rep. 54 on H.B. No. 622**

The purpose of this measure is to protect the freedom of the press by:

- (1) Making permanent the news media privilege; and
- (2) Clarifying and defining the applicability of the privilege.

Your Committee on Conference has amended this measure by:

- (1) Reinstating the provision that extends the privilege to unpublished information obtained or prepared by certain persons while employed or professionally associated in the course of gathering, receiving, or processing information for communication to the public;
- (2) Removing the news-media-privilege exception with respect to defendants in criminal cases who have a constitutional right to the information sought, because any constitutional right such defendants have will prevail over the statute, thus making it unnecessary to amend the existing privilege; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 622, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 622, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro, Gabbard, Ihara and Slom.  
Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Gabbard, Ihara).

Representatives Rhoads, Belatti, Lee and Thielen.  
Managers on the part of the House.  
Ayes, 2. Noes, 1 (Thielen). Excused, 1 (Lee).

**Conf. Com. Rep. 55 on H.B. No. 32**

The purpose of this measure is to ensure equity in the election process by requiring the chief election officer, beginning with the next full two-year election cycle, to place candidate names on the ballot in alphabetical order beginning with a letter drawn by lot prior to each election cycle.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 32, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 32, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Gabbard.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Tsuji and Thielen.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Tsuji).

**Conf. Com. Rep. 56 on H.B. No. 31**

The purpose of this bill is to amend the offense of disorderly conduct.

Your Committee on Conference has amended this measure by:

- (1) Including in the offense of disorderly conduct lying down at a bus stop shelter or other bus stop structure in a manner that impedes or obstructs the use of or access to the bus stop;
- (2) Establishing a \$50 fine for this specific offense; and
- (3) Changing its effective date from July 1, 2050, to January 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 31, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 31, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Belatti, Brower and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 57 on H.B. No. 21**

The purpose of this measure is to:

- (1) Permit the board of directors of a condominium association to collect a six-month special assessment from the mortgagee or other purchaser of a unit with a recorded lien for delinquent common assessments; and
- (2) Specify how excess rental income received by a condominium association after a foreclosure proceeding shall be paid to existing lien holders.

Your Committee on Conference finds that the costs of default in a condominium are substantially born by condominium associations and non-defaulting unit owners and mortgagors in the affected communities. The lending industry also has an interest in preserving the value of the condominium projects that make up part of the lending industry's collateral.

Your Committee on Conference further finds that because there are legitimate but competing issues relating to common assessments, the needs of the lending industry and condominium associations and non-defaulting unit owners must be appropriately balanced when attempting to create a priority lien for common assessments. This measure achieves this balance by providing condominium associations and non-defaulting unit owners with relief while also addressing interests of the lending industry.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the board of directors of a condominium association may specially assess the amount of the unpaid regular monthly common assessments for common expenses against a mortgagee, rather than a mortgagee or other purchaser of a unit;
- (2) Clarifying that any excess rental income received by a condominium association after a foreclosure proceeding shall be applied to the benefit of the unit owner;

- (3) Clarifying that excess rental income includes any net income received by the association after a court has issued a final judgment determining the priority of a senior mortgagee and after paying, crediting, or reimbursing the association or a third party; and
- (4) Inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 21, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 21, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Rhoads, Yamane and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 58 on H.B. No. 635**

The purpose of this measure is to expedite the approval process for broadband-related permits while maintaining utility pole public safety standards by:

- (1) Requiring the State and the counties to approve, approve with modification, or disapprove all broadband-related permits within specified timeframes to avoid automatic approval of broadband permit applications;
- (2) Specifying that applicants shall comply with all applicable safety and engineering requirements relating to broadband-related infrastructure; and
- (3) Ensuring that the Federal Communications Commission and the Public Utilities Commission have authority over utility pole weight capacity limits.

Your Committee on Conference has amended this measure by:

- (1) Adding a State automatic approval provision for applications for broadband facilities within the conservation district if not approved, approved with modification, or disapproved within one hundred forty-five days;
- (2) Removing specific State and county automatic approval provisions for applications for broadband facilities for the protective subzones of the conservation district if not approved, approved with modification, or disapproved within ninety days;
- (3) Removing specific State and county automatic approval provisions for conservation district use applications for broadband facilities, and related provisions, if not approved, approved with modification, or disapproved within one hundred twenty days;
- (4) Changing its effective date to January 1, 2014; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 635, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 635, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Hee, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, McKelvey, Choy, Yamashita and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 59 on S.B. No. 1176**

The purpose of this measure is to improve the parole system in Hawaii by:

- (1) Allowing certain individuals who serve on the panel that nominates Hawaii Paroling Authority members to select designees to represent them on the panel;
- (2) Requiring the release of parole hearing decisions within thirty days after the hearing; and
- (3) Establishing how quorum is determined for action on matters before the Hawaii Paroling Authority.

Your Committee on Conference finds that the Hawaii Paroling Authority nomination panel includes the Chief Justice of the Hawaii Supreme Court, Director of Public Safety, President of the Bar Association of Hawaii, a representative designated by the head of the Interfaith Alliance Hawaii, a member of the public, and President of the Hawaii Chapter of the National Association of Social Workers. The panel is responsible for vetting the list of applicants, conducting interviews, and submitting not less than three names per vacancy for the Governor's consideration. Your Committee on Conference further finds that this work averages three to five full days of meetings – a schedule that is often impractical for individuals in high level positions to regularly attend and still complete their

existing work responsibilities. This measure permits the Chief Justice, Director of Public Safety, and Presidents of the Hawaii State Bar Association and Hawaii Chapter of the National Association of Social Workers to appoint designees to represent their organizations at these meetings to ensure the timely nomination of new members.

Your Committee on Conference has amended this measure by:

- (1) Inserting language stating that if it is determined immediately preceding or during the course of a hearing that a sitting panel member must be recused due to a conflict of interest or illness, the panel may proceed with two members for quorum; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1176, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1176, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, Rhoads, Ing and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 60 on S.B. No. 1073**

The purpose of this measure is to:

- (1) Establish certification and financial solvency requirements for dental service corporations; and
- (2) Repeal chapters 423 and 448D, Hawaii Revised Statutes.

Your Committee on Conference finds that under the federal Patient Protection and Affordable Care Act, beginning in 2014, stand-alone dental plans will be able to be sold through Hawaii's health insurance exchange, known as the Hawaii Health Connector. However, certain licensing requirements must be met prior to selling a stand-alone dental plan on the Hawaii Health Connector.

Your Committee on Conference further finds that this measure establishes a regulatory framework, compatible with the federal Patient Protection and Affordable Care Act, for dental service corporations in their provision or arrangement of dental insurance plans. Your Committee on Conference additionally finds that this measure refers to "dental service corporations" rather than "dental insurers"; however, there is already a chapter in the Hawaii Revised Statutes titled "Dental Service Corporations". Therefore, amendments to the terms in this measure are necessary to avoid a conflict with the existing chapter 423, Hawaii Revised Statutes, relating to dental service corporations.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Amending the title of the new chapter to "Dental Insurers", to avoid a conflict with chapter 423, "Dental Service Corporations", and making conforming substitutions of the term "dental service corporation" with the term "dental insurer" throughout the measure;
- (2) Clarifying the definitions of "dental insurer" and "insolvent" or "insolvency" and inserting a definition of "dental service corporation";
- (3) Clarifying that persons applying to the Insurance Commissioner for a certificate of authority to establish and operate a dental insurer must be in compliance with the new chapter established by this measure and chapter 423, Hawaii Revised Statutes;
- (4) Replacing the phrase "certificate of authority" with "charter of incorporation" as it relates to an existing dental service corporation whose application to the Insurance Commissioner for establishment of a dental insurer has been denied, as dental service corporations do not have certificates of authority;
- (5) Specifying that a dental insurer whose certificate of authority has been revoked shall proceed to wind up its affairs and shall conduct no further business;
- (6) Clarifying that the Insurance Commissioner may levy an administrative fine upon a dental insurer in an amount not less than \$500 and not more than \$50,000;
- (7) Removing language that stated the new chapter established by this measure shall not apply to an insurer or dental service corporation licensed and regulated pursuant to the insurance code or the new chapter except with respect to its dental service corporation activities authorized and regulated pursuant to the new chapter, to avoid confusion as to applicable laws;
- (8) Regarding solicitation of enrollees by a dental insurer, replacing the term "health professionals" with the term "providers", to avoid confusion as to applicable laws;
- (9) Removing language that would have repealed chapters 423 and 448D, Hawaii Revised Statutes;
- (10) Inserting an effective date of July 1, 2013; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1073, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1073, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Belatti, McKelvey, Cabanilla and Fukumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Cabanilla).

**Conf. Com. Rep. 61 on S.B. No. 6**

The purpose of this measure is to prohibit the use of certain cruel or lethal methods for the control of animals. Specifically, this measure:

- (1) Requires dogs or cats that are captured or killed in a snare or certain traps to be reported to a county animal control officer;
- (2) Establishes an animal cruelty offense for the use of steel-jawed leg-hold traps or the use of snares, conibear, and foot- or leg-hold traps in residential or other prohibited areas;
- (3) Establishes the offense as a misdemeanor; and
- (4) Provides certain exemptions for activities carried out by state and federal agencies.

Your Committee on Conference finds that this measure allows for the use of appropriate tools to control feral animals, such as pigs, goats, sheep, deer, and wild cattle, where there is a potential for these animals to damage natural resource areas. At the same time, this measure establishes reasonable additional protections for pet animals in residential areas, where they are most likely to be inadvertently caught if certain animal control tools are employed.

Your Committee on Conference has amended this measure by deleting the exemption for state or federal employees for the use of steel-jawed leg-hold traps but retaining the exemption for state or federal employees to use snares, conibear traps, and foot- or leg-hold traps in residential or other prohibited areas for certain purposes.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 6, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 6, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Kawakami and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 62 on S.B. No. 9**

The purpose of this measure is to:

- (1) Prohibit persons convicted of cruelty to animals in the first degree from possessing or owning any pet animal or equine animal for a minimum of five years from the date of conviction;
- (2) Authorize the court to prohibit persons convicted of cruelty to animals in the second degree from possessing or owning any pet animal or equine animal for a minimum of one year from the date of conviction; and
- (3) Clarify for the offenses of cruelty to animals in the first and second degrees that a person includes an individual, any type of business entity, or any other legal entity.

Your Committee on Conference finds that this measure is based on the concept that defendants convicted of cruelty to animals in the first or second degree should no longer be afforded the privilege of owning a pet animal or equine animal.

Your Committee on Conference has amended this measure by:

- (1) Deleting section 3, which would have authorized the court to prohibit persons convicted of cruelty to animals in the second degree from possessing or owning any pet animal or equine animal for a minimum of one year from the date of conviction;
- (2) Amending the purpose section to reflect the deletion of section 3;
- (3) Changing the effective date from July 1, 2112, to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 9, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 9, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Rhoads, Tsuji and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 63 on S.B. No. 31**

The purpose of this measure is to clarify the information required in and the deadline for filing of noncandidate committee reports. Specifically, this measure:

- (1) Separates noncandidate committee contributions that are required to be disclosed and filed in preliminary, final, and supplemental noncandidate committee reports into contributions received and contributions made;
- (2) Requires noncandidate committee reports to disclose, for an independent expenditure, the name of the candidate supported or opposed by the expenditure and whether the expenditure supports or opposes the candidate; and
- (3) Requires the January supplemental noncandidate committee reports to be filed annually.

Your Committee on Conference finds that by separating the reporting of contributions into contributions received and contributions made by noncandidate committees, this measure will align with the practice that noncandidate committees make and receive contributions and report them. This separation promotes transparency of spending for independent expenditures. Your Committee on Conference further finds that amending the frequency of filing supplemental noncandidate committee reports more clearly aligns the law with the present practice of filing a supplemental report every year.

Your Committee on Conference has amended this measure by changing the effective date from January 1, 2100, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 31, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 31, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Lee and Thielen.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Lee).

**Conf. Com. Rep. 64 on S.B. No. 192**

The purpose of this measure is to discourage the demand for prostitution in Hawaii through stronger deterrents. Specifically, this measure:

- (1) Establishes an offense of solicitation of a minor for prostitution as a class C felony for offenders eighteen years of age or older;
- (2) Adds the offenses of promoting prostitution, solicitation of a minor for prostitution, habitual solicitation of prostitution, and solicitation of prostitution near schools and public parks under the State's forfeiture laws;
- (3) Amends the definition of "sexual offense" under the sexual offender registry laws to include solicitation of a minor who is less than eighteen years of age for prostitution; and
- (4) Clarifies that the offense of solicitation of a minor for prostitution is a tier one offense under the sex offender registry laws.

Your Committee on Conference finds that this measure strengthens the laws and penalties for crimes that exploit children subjected to prostitution. Furthermore, by amending the State's forfeiture and sexual offender registry laws, this measure discourages individuals from engaging in solicitation of prostitution.

Your Committee on Conference has amended this measure by:

- (1) Adding language from this measure, as introduced, that:
  - (A) Establishes mandatory fines for a person convicted of the offense of solicitation of a minor for prostitution;
  - (B) Increases the statute of limitations to bring a cause of action for coercion into prostitution from two to six years; and
  - (C) Clarifies the minimum and maximum fine for a person convicted of committing the offense of prostitution; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 192, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 192, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Brower, Kawakami and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Brower).

**Conf. Com. Rep. 65 on S.B. No. 890**

The purpose of this measure is to allow the Chief Justice to appoint an acting member to serve on the Hawaii Labor Relations Board in the event that a regular board member is temporarily unable to act due to recusal.

Your Committee on Conference finds that existing law requires three members to serve on the Hawaii Labor Relations Board to ensure that collective bargaining is conducted in accordance with collective bargaining laws. Any action taken by the Board is done by simple majority. However, in the event that a board member recuses on a case, and the remaining board members cannot agree, the Board may be deadlocked and unable to act. This measure addresses the tiebreaker situation by allowing the Chief Justice to appoint an acting board member to serve on the Board for the case in which the recusal occurred.

Your Committee on Conference has amended this measure by adopting the language submitted by the House Conferees that:

- (1) Reinstates the Governor as the individual who may appoint an acting member to serve on the Hawaii Labor Relations Board in the event that a regular board member is temporarily unable to act due to recusal or illness;
- (2) Requires the Governor, when selecting an appointee to serve as an acting member, to first consider persons included on a list of names submitted by employee organizations, if the regular member is the representative of management or labor, and by public employers, if the regular member is the representative of management;
- (3) Changes the effective date from July 1, 2113, to upon approval; and
- (4) Makes technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 890, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 890, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Hashem and Johanson.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Johanson).

**Conf. Com. Rep. 66 on S.B. No. 966**

The purpose of this measure is to adopt the Uniform Mediation Act, which provides a comprehensive law for privileges and confidentiality in mediation. Specifically, this measure:

- (1) Establishes a privilege of confidentiality for mediators and participants that prohibits the disclosure of mediation communication from being subject to discovery or admissible as evidence;
- (2) Allows the parties to the mediation to waive the privilege and provides certain exceptions to the privilege, including the types of information the mediator may disclose;
- (3) Requires the disclosure of known conflicts of interest by the mediator and, upon request, the disclosure of the mediator's qualifications; and
- (4) Promotes autonomy by authorizing the parties to decide matters that can be set by agreement.

Your Committee on Conference finds that mediation is a process by which a third party facilitates communication and negotiation between parties to a dispute to assist them in reaching a voluntary agreement resolving that dispute. Currently, mediation communication is covered by Rule 408, Hawaii Rules of Evidence. This measure establishes a privilege that provides significantly more protection for mediation communications than the existing rule of evidence.

Your Committee on Conference has amended this measure by deleting language from the definition of "mediation" that specifies that mediation does not include hooponopono, ifoga, or other similar, traditional or customary dispute resolution practices.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 966, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 966, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Belatti and Thielen.  
Managers on the part of the House.  
Ayes, 2. Noes, 1 (Thielen). Excused, none.

**Conf. Com. Rep. 67 on H.B. No. 652**

The purpose of this bill is to improve access to medications and pharmacy services in underserved or remote areas by permitting the operation of remote dispensing pharmacies without causing operational challenges for nearby retail pharmacies. Specifically, this bill:

- (1) Prohibits new remote dispensing pharmacies from operating within ten miles of any pharmacy, excepting remote dispensing pharmacies in operation prior to the effective date of this measure and specific federally-qualified health centers; and
- (2) Extending sunset date of Hawaii's remote pharmacy dispensary law established by Act 212, Session Laws of Hawaii 2008, to January 1, 2016.

Your Committee on Conference has amended this measure by:

- (1) Prohibiting remote dispensing pharmacies from operating within the State rather than simply prohibiting remote dispensing pharmacies from operating within a ten mile radius of an existing pharmacy; and
- (2) Exempting existing remote dispensing pharmacies operated by the Waianae Coast Comprehensive Health Center in Nanakuli and Waianae from the prohibition in paragraph (1) until June 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 652, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 652, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Kouchi, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Kouchi, Slom).

Representatives Belatti, McKelvey, Morikawa and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 68 on H.B. No. 25**

The purpose of this measure is to improve the foreclosure process by:

- (1) Allowing a condominium or planned-community association, as a junior lienholder, to commence or continue a nonjudicial foreclosure action on a property subject to a judicial foreclosure even if the lender has filed for foreclosure; and
- (2) Preserving the right of owner-occupants to require the foreclosing mortgagee to participate in the dispute-resolution process in situations in which an association forecloses on residential real property occupied by one or more owner-occupant mortgagors for whom the unit is and has been the person's primary residence for a continuous period of not less than 200 days immediately preceding the date on which the notice is served and the mortgagee subsequently forecloses its lien on the same property.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2013; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 25, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 25, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Rhoads, Cullen and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 69 on H.B. No. 62**

The purpose of this measure is to protect the privacy of individual health information by prohibiting pharmacy benefits managers from using an individual's health information for the purpose of marketing, selling or disseminating an individual's health information, or directly contacting an individual by any means for the purpose of marketing pharmacies owned by the pharmacy benefits manager in the absence of medical necessity, the express permission of the individual, and, where applicable, the express permission of the relevant employee benefit plan, health benefit plan, or managed care plan.

Your Committee on Conference has amended this measure by:

- (1) Specifying that a pharmacy benefits manager shall not directly contact an individual by any means for the purposes of marketing pharmacy benefits manager-owned pharmacies without express written permission unless the contact is medically necessary to the health and safety of the individual;
- (2) Specifying that an individual may freely revoke the affirmative opt in to the sale or dissemination of health information at any time;
- (3) Adding definitions for “affiliated” and “health information”; and
- (4) Specifying that the effective date of this measure shall be upon approval and the measure shall apply to all plans and contracts issued, renewed, modified, altered, or amended on or after such effective date.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 62, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 62, H.D. 2, S.D. 2, C.D.1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Galuteria, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Representatives Belatti, McKelvey, Evans, Morikawa and Fukumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 70 on H.B. No. 1187**

The purpose of this measure is to address the issue of human trafficking, including the protection of children by:

- (1) Designating the month of January as “Human Trafficking Awareness Month”; and
- (2) Expanding the definitions of “child abuse or neglect” in the State’s child abuse law and “harm” in the State’s Child Protection Act by adding as circumstances of “child abuse or neglect” and “harm”:
  - (A) Acts that constitute the offense of promoting prostitution in the first degree; and
  - (B) Occurrences where a child is a victim of labor trafficking.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the offense of promoting prostitution in the first degree is where the offender advances or profits from prostitution of a person less than 18 years old; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1187, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1187, S.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 71 on H.B. No. 398**

The purpose of this measure is to:

- (1) Require child care facilities, including family child care homes, group child care centers, and group child care homes; and infant and toddler child care centers that care for children less than one year of age to develop, maintain, and implement safe sleep policies, in accordance with rules adopted by the Department of Human Services, to prevent sudden unexpected infant deaths and sudden infant death syndrome; and
- (2) Establish a working group to review issues relating to the transition of oversight of home and community-based facilities from the Department of Human Services to the Department of Health, including the submittal of a report of the working group’s findings and recommendations to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Deleting the Part I of the measure that required child facilities, centers, and homes, to develop, maintain, and implement safe sleep policy procedures;
- (2) Inserting the number of representatives to participate in the working group from community care foster family homes, adult residential care homes, adult day care centers, developmental disabilities domiciliary homes, adult foster homes, and licensed case management agencies;

- (3) Changing its effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 398, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 398, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 72 on H.B. No. 1137**

The purpose of this measure is to clarify the qualifications for court-appointed child custody evaluators and enhance protections for parties affected by a child custody evaluator's determinations, including:

- (1) Specifying the types of licensed individuals who may serve as court-appointed child custody evaluators and setting forth the circumstances under which unlicensed individuals may be appointed;
- (2) Requiring the judiciary to maintain an accessible registry of qualified child custody evaluators; and
- (3) Establishing procedures allowing for complaints regarding court-appointed child custody evaluators.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1137, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1137, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Carroll, Rhoads, Kobayashi, Ito and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 73 on H.B. No. 951**

The purpose of this measure is to clarify the service of process within the State by:

- (1) Directing the Department of Public Safety to maintain a list of independent process servers to serve specified civil process within the State;
- (2) Statutorily authorizing the independent civil process servers from the Department of Public Safety's list to serve specified types of civil legal process and to collect fees for such service;
- (3) Removing the power of the court to authorize persons to effect service of process by court rule or otherwise;
- (4) Shielding the Department of Public Safety, the State, and any agencies, officers, or employees from responsibility or liability for the conduct of any independent civil process server placed on the list; and
- (5) Specifying that an independent civil process server placed on the Department of Public Safety's list shall not be considered a law enforcement officer, sheriff or deputy sheriff, or employee or agent of the State.

Your Committee on Conference has amended this measure by:

- (1) Adding orders to show cause pursuant to chapter 633, Hawaii Revised Statutes, and writs of attachment or execution pursuant to chapter 651, Hawaii Revised Statutes, to the types of civil process that independent civil process servers are authorized to process;
- (2) Clarifying that independent civil process servers are included in those who may seize goods, chattels, and property pursuant to a writ of replevin or attachment under chapter 634, Hawaii Revised Statutes, or in execution of a bond pursuant to chapter 654, Hawaii Revised Statutes;
- (3) Specifying that the Department of Public Safety and the State are not responsible or liable for the conduct in the course of service of writs of attachment or execution pursuant to chapter 651, Hawaii Revised Statutes, of any independent civil process server placed on the list;

- (4) Clarifying that the inclusion of independent civil process servers in the persons authorized to process writs of attachment or execution shall not be construed to make an independent civil process server a law enforcement officer, sheriff or deputy sheriff, or employee or agent of the State;
- (5) Requiring the Department of Public Safety to convene a working group to:
  - (A) Define and delineate process server duties and responsibilities;
  - (B) Create a registration process for process servers;
  - (C) Examine the licensing requirements of and jurisdictional concerns with the private process server industry in the State; and
  - (D) Address other relevant issues; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 951, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 951, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 74 on S.B. No. 978**

The purpose of this measure is to establish that cruelty to animals in the second degree is a class C felony when the offense involves twenty-five or more pet animals in any one instance.

Your Committee on Conference finds that in a recent animal cruelty case, the judge sentenced the former manager of a dog breeding facility to six months in jail for one hundred fifty-three counts of animal cruelty. However, the defendant did not serve his jail sentence because the defendant was released from custody for time served while waiting for trial. This measure elevates the penalty for the offense of cruelty to animals in the second degree from a misdemeanor to a class C felony when the offense involves twenty-five or more pet animals in any one instance to ensure that defendants who are convicted of animal cruelty involving multiple pet animals serve time in jail.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to amend section 706-620, Hawaii Revised Statutes, to prohibit sentencing a defendant to a term of probation if the defendant is convicted of cruelty to animals in the first or second degree involving ten or more pet animals;
- (2) Establishing that cruelty to animals in the second degree is a class C felony if the offense involves ten or more, rather than twenty-five, pet animals in any one instance; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 978, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 978, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 75 on S.B. No. 19**

The purpose of this measure is to exempt from the definition of "public utility" persons who own, control, operate, or manage renewable energy systems on their property and provide, sell, or transmit electricity generated by those systems to tenants or lessees on the property, under certain conditions.

Your Committee on Conference finds that this measure provides an opportunity for renters to be able to benefit from the cost savings of renewable energy systems, such as solar photovoltaic systems, without having to incur the cost of installing the systems themselves. This measure also provides landlords with investment opportunities that could ultimately benefit landlords and tenants. Your Committee on Conference also finds that tenants and lessees may not have bargaining power equal to that of landlords and lessors, necessitating disclosure and rate requirements in leases that are protective of tenants and lessees.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the purpose section of the measure to reflect the intent to provide for disclosures in the lease agreement for the protection of the lessees or tenants;
- (2) Inserting a provision requiring any interconnection to be maintained with an electric public utility to preserve the lessees' or tenants' ability to be served by an electric utility;
- (3) Inserting a provision prohibiting owners and lessors from using the electric public utility's transmission or distribution lines to provide, sell, or transmit electricity to lessees or tenants;
- (4) Clarifying language restricting the rate charged to tenants and lessees to a rate no greater than the effective rate charged per kilowatt hour from the applicable electric utility schedule filed with the Public Utilities Commission;
- (5) Adding language to prohibit lease agreements from abrogating any terms or conditions of applicable tariffs for termination of services for non-payment of electric utility services or rules regarding health, safety, and welfare;
- (6) Requiring specific disclosures regarding rate information in any lease agreement between lessors and tenants;
- (7) Inserting a provision to preclude energy wheeling; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 19, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 19, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Kawakami, Lowen and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 76 on S.B. No. 535**

The purpose of this measure is to extend certain basic labor rights and protections to domestic workers. Specifically, this measure:

- (1) Prohibits an employer from discharging or discriminating against an individual employed as a domestic in compensation or in terms, conditions, or privileges of employment because of that individual's race, sex including gender identity or expression, sexual orientation, age, religion, color, ancestry, disability, or marital status;
- (2) Applies the wage and hour laws under chapter 387, Hawaii Revised Statutes, to domestic workers except for individuals employed in domestic services on a casual basis and individuals providing companionship services for the aged or infirm; and
- (3) Adds definitions of "casual basis", "companionship services for the aged or infirm", and "domestic service" to the wage and hour laws under chapter 387, Hawaii Revised Statutes.

Your Committee on Conference finds that domestic workers provide services for a family other than their own within that family's home. The duties of a domestic worker depend on the employment relationship between the domestic worker and the domestic worker's employer. Duties may include cleaning; laundry; shopping; cooking; or child, senior, or pet care. Many domestic workers are hired under private agreements that do not afford basic legal employment rights and protections. This measure extends certain basic labor rights and protections to domestic workers.

Your Committee on Conference has amended this measure by:

- (1) Adopting the language suggested by the Hawaii Civil Rights Commission and the Department of Labor and Industrial Relations regarding the provision that prohibits discrimination of individuals employed as domestics to exclude from this protection the act of discharging a domestic worker; and
- (2) Changing the effective date from July 1, 2113, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 535, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 535, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Gabbard.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Tsuji, Rhoads, Hashem and Johanson.  
Managers on the part of the House.  
Ayes, 5; Ayes with Reservations (Johanson). Noes, none. Excused, none.

**Conf. Com. Rep. 77 on S.B. No. 310**

The purpose of this measure is to:

- (1) Establish an assisted community treatment program in lieu of the involuntary outpatient treatment program for severely mentally ill individuals who meet specified criteria; and
- (2) Amend procedures for determination of order to and discharge from a treatment program.

Your Committee on Conference finds that there are serious problems of high incarceration and hospitalization rates of those with severe mental illness. Assisted community treatment provides an opportunity for people with serious mental illness to be treated in the least restrictive setting and reduces the trend toward criminalizing mental illness.

Your Committee on Conference further finds that obtaining and analyzing information from providers about persons under assisted community treatment is beneficial for providers and people with serious mental illness.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have created a new section related to confidentiality of records, files, and orders for assisted community treatment;
- (2) Inserting language that subjects an order for assisted community treatment to the provisions of the Health Care Privacy Harmonization Act, codified as chapter 323B, Hawaii Revised Statutes;
- (3) Deleting language that would have required the State to reimburse a private hospital for services rendered to a subject of a petition who is uninsured;
- (4) Specifying that the subject of an order is fully discharged from assisted community treatment if no objection is filed prior to the intended date of discharge, rather than within five days of the mailing of notice;
- (5) Inserting language that requires treating providers wishing to file a petition for assisted community treatment to gather information related to MH-1s and hospitalization of persons who are under an order to treat;
- (6) Inserting language that requires an entity designated by the Department of Health to gather information from treating providers related to MH-1s and hospitalization of persons who are under an order to treat and submit an annual report to the Legislature no later than twenty days prior to the convening of every regular session beginning with the Regular Session of 2015;
- (7) Changing the effective date to January 1, 2014;
- (8) Inserting a repeal date of July 1, 2020;
- (9) Inserting language that prohibits state-operated providers from filing a petition for assisted community treatment until after July 1, 2015;
- (10) Inserting language that allows any private provider wishing to file a petition for assisted community treatment to do so after January 1, 2014; provided that the provider uses its own resources and the petitioner is to be the designated mental health program;
- (11) Inserting language that allows any interested party wishing to file a petition for assisted community treatment to do so after January 1, 2014; provided that the party uses its own resources and the designated mental health program is a private provider; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 310, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 310, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland, Hee, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Belatti, Aquino, Rhoads, Jordan and Fukumoto.

Managers on the part of the House.

**Conf. Com. Rep. 78 on S.B. No. 655**

The purpose of this measure is to allow health care professionals to dispense or prescribe medication, without examination, to the partners of patients diagnosed as having a sexually transmitted disease recommended by the Centers for Disease Control and Prevention for expedited partner therapy.

Your Committee on Conference finds that many patients who have been diagnosed with sexually transmitted diseases, including chlamydia and gonorrhea, have sexual partners who refuse to seek treatment. To prevent reinfection, your Committee on Conference finds that adequate treatment of sexually transmitted diseases should include treatment of sexual partners.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 655, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 655, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker and Solomon.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Solomon).

Representatives Belatti, McKelvey, Wooley, Kobayashi and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**Conf. Com. Rep. 79 on S.B. No. 548**

The purpose of this measure is to exempt from the licensing requirement any commissioned medical officer employed by the U.S. Department of Defense, who is credentialed by Tripler Army Medical Center, while providing direct telemedicine support or services to neighbor island beneficiaries within a Hawaii National Guard armory on the island of Kauai, Hawaii, Molokai, or Maui.

Your Committee on Conference finds that enhanced medical services for National Guard armories on the islands of Kauai, Hawaii, Molokai, and Maui will have a direct and long-term impact for health care accessibility for neighbor island beneficiaries. Your Committee on Conference further finds that this measure will support service members who seek healthcare services at Hawaii National Guard armories and ensure that they will be able to receive telemedicine support by qualified healthcare personnel.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to amend section 465-3, Hawaii Revised Statutes, to exempt psychologists employed by the U.S. Department of Defense from licensing requirements while providing direct telemedicine support or services to Hawaii National Guard armories on the island of Kauai, Hawaii, Molokai, or Maui if they are credentialed by Tripler Army Medical Center;
- (2) Making the measure effective upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 548, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 548, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Green, Wakai, Baker and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Takai, Belatti, McKelvey, Ito and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 80 on S.B. No. 94**

The purpose of this measure is to provide for the appointment of a House of Representatives member and a Senate member to serve as alternate members on the Hawaii Interagency Council on Homelessness in the absence of the House and Senate member, respectively.

Your Committee on Conference finds that the Hawaii Interagency Council on Homelessness has been established to gather diverse government entities, as well as representatives from the homeless coalitions and business, faith-based, and other organizations.

Your Committee on Conference further finds that the mission of the Hawaii Public Housing Authority is to provide safe, decent, sanitary, and affordable housing to extremely low income Hawaii residents, some of whom are homeless or on the brink of homelessness. As such, adding a representative of the Authority to the membership of the Hawaii Interagency Council on Homelessness would improve the effectiveness and efficiency of the Council.

Your Committee on Conference has amended this measure by:

- (1) Adding a representative of the Hawaii Public Housing Authority to the membership of the Hawaii Interagency Council on Homelessness;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 94, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 94, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Cabanilla, Woodson, Carroll and Ward.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 81 on S.B. No. 102**

The purpose of this measure is to require financial institutions to report instances of suspected financial abuse of an elder directly to the appropriate county police department and Department of Human Services.

Your Committee on Conference finds that elder financial exploitation is a growing problem in Hawaii. Financial abuse of elders is frequently accompanied by physical and emotional abuse. It is a complex problem with criminal and social components that speak to the need of a multidisciplinary solution. The reporting of financial exploitation through the most appropriate and efficient channel and the resulting timeliness of the investigation are crucial to the protection of assets as well as the health and safety of the victim.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the definition of "financial abuse"; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 102, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 102, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Espero, Baker, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Kouchi, Slom).

Representatives Carroll, McKelvey, Kobayashi, Jordan and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**Conf. Com. Rep. 82 on S.B. No. 345**

The purpose of this measure is to update fees associated with the licensing of portable electronics insurance vendors to align these fees more closely with similar licensing fees in other jurisdictions.

Your Committee on Conference finds that raising the fees for portable electronics insurance vendors is appropriate given that the licenses cover the activities of the vendor and its employees. Your Committee on Conference further finds that the resulting fee structure is consistent with that in place in other states.

Your Committee on Conference has amended this measure by:

- (1) Inserting a fee amount of \$5,000 for the issuance of the initial portable electronics limited lines license and \$2,500 per year for the initial or renewal term; and
- (2) Making the measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 345, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 345, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Chun Oakland, Nishihara and Taniguchi.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Representatives Tsuji, Takayama, Cachola and Cheape.  
Managers on the part of the House.  
Ayes, 4; Ayes with Reservations (Cheape). Noes, none. Excused, none.

**Conf. Com. Rep. 83 on S.B. No. 997**

The purpose of this measure is to enable the Department of Accounting and General Services to address the management of the State Archives and protection of electronic records of enduring value by:

- (1) Clarifying the duties of the State Archivist;
- (2) Establishing the state archives preservation and long-term access special fund;
- (3) Establishing a state archives preservation fee for each document filed or registered by the public with a governmental entity and listed as permanent; and
- (4) Requiring all fees collected by the State Archives to be deposited into the state archives preservation and long-term access special fund.

Your Committee has amended this measure by:

- (1) Inserting a state archives preservation fee amount of \$1; and

- (2) Inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 997, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 997, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Nishihara, Kidani, Ige and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives McKelvey, Luke, Kawakami and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 84 on S.B. No. 1003**

The purpose of this measure is to authorize the Chief Information Officer to conduct security audits, which may include on-site audits and reviews of written security procedures and documented practices, of all executive branch agencies regarding the protection of government information and data communication infrastructure and to direct remedial actions as necessary.

Your Committee on Conference finds that protecting government databases and data communications from intrusions and theft will help to protect the public from the negative impacts of identity theft. Your Committee on Conference further finds that authorizing the Chief Information Officer to conduct security audits will support existing state cyber security activities.

Your Committee on Conference has amended this measure by:

- (1) Inserting language prohibiting the disclosure of information protected under federal or state law, including confidential tax information, during a security audit conducted by private firms contracted by the Chief Information Officer; and
- (2) Making the measure effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1003, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1003, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Nishihara, Chun Oakland, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Representatives Tsuji, Takayama, Choy and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 85 on S.B. No. 993**

The purpose of this measure is to expand the Department of Agriculture's agricultural loan program by adding farm innovation loans and expanding eligibility for new farmer loans.

Your Committee on Conference finds that there is a need to encourage younger generations to enter into the agricultural field if Hawaii is going to increase its food security and sustainability. Currently, the approximate age of farmers in Hawaii is fifty-nine years old. By expanding eligibility for new farmer loans and expanding new farmer loans to include farm innovation loans, this measure will incentivize and encourage young farmers to enter the agricultural field. By creating loans for farm innovation, this measure will also encourage current farmers to experiment with new crops and techniques to improve agricultural diversity and efficiency.

Your Committee on Conference has amended this measure by:

- (1) Removing the establishment of a low interest biosecurity loan program to assist the livestock industry and deleting all references to class I biosecurity project loans, including the definition of "biosecurity";
- (2) Inserting an effective date of July 1, 2013; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 993, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 993, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kouchi, Ige, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Wooley, Tsuji, Onishi, Ohno and Cheape.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Ohno, Tsuji).

**Conf. Com. Rep. 86 on S.B. No. 1360**

The purpose of this measure to make permanent the general excise tax exemptions for:

- (1) Amounts received by submanagers of homeowner and community associations for reimbursement of common expenses; and
- (2) Amounts received by hotel operators and suboperators from their operator, owner, or timeshare association to pay employee costs.

Your Committee on Conference finds that allowing the lapse of general excise tax exemptions enacted by Act 239, Session Laws of Hawaii 2007, as amended, will unfairly burden housing consumers and employees by increasing common expenses and decreasing employee wages and benefits. Your Committee on Conference further finds that condominium submanagers, timeshare associations, and hotel suboperators are in similar situations to hotel and condominium operators when they receive funds and should be taxed similarly. This measure will ensure the consistent and equitable application of the tax law for similarly situated taxpayers.

Your Committee on Conference has amended this measure by:

- (1) Repealing the \$400,000 cap on the aggregate amount of the tax exemption effective December 31, 2012;
- (2) Providing that the repeal for the aggregate cap shall apply to taxable years beginning after December 31, 2012; and
- (3) Making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1360, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1360, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Baker, Kidani, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Representatives Luke, Ing, Nishimoto and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 87 on S.B. No. 757**

The purpose of this measure is to:

- (1) Appropriate funds to the Department of Education and the University of Hawaii to operate and implement the Future Farmers of America and 4-H programs;
- (2) Amend public land classifications to add taro lands for wetland cultivation as a fourth class of intensive agricultural use lands;
- (3) Define taro lands and include retention of supporting structures for taro fields in the list of permitted uses for certain agricultural lands; and
- (4) Add the growth and perpetuation of all traditional Hawaiian crops to agricultural objectives in the state plan.

Your Committee on Conference finds that the State must encourage younger generations to become farmers and ranchers if it is going to improve the State's agricultural sustainability. This is especially important in Hawaii due to the fact that the average age of farmers in Hawaii is approximately fifty-nine years old. This measure appropriates funds to the Future Farmers of America to encourage youth to pursue agricultural careers.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$75,000 to the Department of Education to fund the Future Farmers of America program and applying the appropriation to fiscal year 2013-2014;
- (2) Removing appropriations for and reference to the 4-H program;
- (3) Removing Part II of this measure, which would have:
  - (A) Amended public land classifications to add taro lands for wetland cultivation as a fourth class of intensive agricultural use lands;
  - (B) Defined taro lands and included retention of supporting structures for taro fields in the list of permitted uses for certain agricultural lands; and
  - (C) Added the growth and perpetuation of all traditional Hawaiian crops to agricultural objectives in the state plan;
- (4) Inserting an effective date of July 1, 2013; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 757, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 757, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kouchi, English, Ige and Tokuda.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Ige, Tokuda).

Representatives Wooley, Onishi, Brower and Cheape.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Brower).

**Conf. Com. Rep. 88 on S.B. No. 305**

The purpose of this measure is to:

- (1) Specify that the Hawaii Public Housing Authority is not authorized to develop public land in a conservation district;
- (2) Authorize the Hawaii Public Housing Authority to develop public housing projects; and
- (3) Authorize the Hawaii Public Housing Authority to develop commercial and industrial properties in connection with the development of public housing dwelling units.

Your Committee on Conference finds that the Hawaii Public Housing Authority is allowed to develop several different classes of land, such as public land in agricultural districts and certain federal lands. This measure would provide the Hawaii Public Housing Authority with more development options to further serve the low-income residents of Hawaii and benefit the surrounding communities in which those properties are situated.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have required the Hawaii Public Housing Authority to adopt rules to determine qualifications for developers and contractors in the development of public housing projects;
- (2) Adding language to allow the Hawaii Public Housing Authority to sell or lease properties if it determines that the uses will be an integral part of the public housing development or a benefit to the community;
- (3) Removing language that would have required the Hawaii Public Housing Authority to adopt rules related to the designation of the uses of properties and the rate at which the properties can be leased;
- (4) Specifying that the net proceeds of all sales, in addition to leases, of properties, less costs to the Hawaii Public Housing Authority, shall be deposited in the public housing revolving fund; and
- (5) Changing the effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 305, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 305, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Espero, Green, Kahele and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Kahele, Slom).

Representatives Cabanilla, Evans, Woodson, Belatti and Cheape.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Belatti, Cheape).

**Conf. Com. Rep. 89 on S.B. No. 1336**

The purpose of this measure is to support access to acute, long-term, and emergency medical care in our State, particularly in rural areas, by temporarily designating Kahuku Medical Center as a rural hospital to enable the Medical Center to maintain its status as a critical access hospital.

Your Committee on Conference finds that rural hospitals are essential components of the State's health care system. Maintaining acute, long-term, and emergency services in areas like the North Shore of Oahu is essential to ensure access to health care among community residents and timely access to emergent care for visitors. The loss of Kahuku Medical Center's designation as a critical access hospital would endanger its ability to provide these services to residents and visitors on the North Shore.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2013; and
- (2) Inserting a repeal date of June 30, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1336, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1336, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green, Kidani, Ige and Slom.  
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Belatti, Morikawa, Carroll and Fukumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 90 on S.B. No. 1074**

The purpose of this measure is to:

- (1) Regulate physical therapist assistants by limiting the use of certain titles and requiring licensure prior to practicing in the State;
- (2) Add a physical therapist assistant to the Board of Physical Therapy to replace the physician member; and
- (3) Appropriate funds from the Compliance Resolution Fund to implement the licensure of physical therapist assistants.

Your Committee on Conference finds that physical therapist assistants are health care providers who deliver physical therapy services under the direction and supervision of physical therapists. Your Committee on Conference further finds that physical therapist assistants must meet specific educational requirements and be licensed in order to provide services that are reimbursed by Medicare and/or Medicaid. The lack of licensure by physical therapy assistants has an impact on these reimbursements.

Your Committee on Conference additionally finds that Hawaii is the only state in the country that does not regulate physical therapy assistants. This measure protects the public and ensures consumer safety by regulating the practice of physical therapist assistants and requiring physical therapist assistants to receive appropriate education and training to practice in the State.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of “physical therapy” or “physical therapy services”;
- (2) Inserting an appropriation amount of \$40,000 out of the Compliance Resolution Fund for fiscal year 2014-2015 to implement the licensure of physical therapist assistants;
- (3) Inserting an effective date of upon approval; provided that:
  - (A) The Board of Physical Therapy shall adopt rules pursuant to section 461J-5, Hawaii Revised Statutes, implementing the licensure requirement under this measure no later than December 1, 2014;
  - (B) A physical therapist assistant may practice without a license until November 30, 2014, or the effective date of rules implementing licensure requirements by the Board of Physical Therapy, whichever occurs first; and
  - (C) The appropriation section shall take effect on July 1, 2014; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee on Conference notes that the Department of Commerce and Consumer Affairs has indicated it will post the commencement date of the application period for physical therapist assistants, as required by this measure, on its website.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1074, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1074, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Kahele, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Taniguchi).

Representatives McKelvey, Belatti, Morikawa, Yamane and Fukumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Yamane).

**Conf. Com. Rep. 91 on S.B. No. 458**

The purpose of this measure is to modify the funding resources for public school facilities by repealing the state educational facilities improvement special fund (special fund) on July 1, 2023.

In addition, this measure facilitates the repeal of the Special Fund by:

- (1) Immediately repealing the required deposit of a portion of certain general excise tax revenues into the special fund;
- (2) Limiting expenditures from the special fund to projects authorized by the Legislature for fiscal years ending prior to July 1, 2014;
- (3) Providing that lease payments made from the lease payments for schools account within the special fund pursuant to financing agreements shall only be made for financing agreements entered into prior to July 1, 2013;
- (4) Repealing statutory provisions exempting the special fund from the payment of central service and administrative expenses; and
- (5) Repealing the statutory provision authorizing the Department of Education to enter into financing agreements in accordance with the special fund.

Your Committee on Conference finds that the state educational facilities improvement special fund was established by Act 368, Session Laws of Hawaii 1989, and was designed to provide a consistent source of funding for public school facilities from general excise tax revenues and proceeds from the sale of general obligation bonds. Over the years, capital improvement projects for public school facilities have generally been funded by monies in the special fund that are subsequently fully capitalized through the issuance of general obligation bonds. In light of this arrangement, this measure repeals the special fund to allow the Department of Education's capital improvement projects to be funded directly with general obligation bonds.

Your Committee on Conference has amended this measure by limiting expenditures from the special fund to projects authorized by the Legislature for fiscal years ending prior to July 1, 2016, rather than July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 458, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 458, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Takumi, Luke, Nishimoto and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 92 on S.B. No. 1087**

The purpose of this measure is to establish a regulatory financing structure that authorizes the Public Utilities Commission and the Department of Business, Economic Development, and Tourism to acquire and provide low-cost financing, to be deployed through a financing program to make green infrastructure installations accessible and affordable for Hawaii's consumers; achieve measurable cost savings; and achieve our State's clean energy goals.

Specifically, this measure:

- (1) Establishes the Hawaii Green Infrastructure Loan Program;
- (2) Establishes the Hawaii Green Infrastructure Authority within the Department of Business, Economic Development, and Tourism;
- (3) Authorizes the creation of green infrastructure property consisting of all property, rights, and interests of the Hawaii Green Infrastructure Loan Program, which shall vest in the Department of Business, Economic Development, and Tourism for the purpose of securing bond amounts payable under the Loan Program, and other financing costs;
- (4) Establishes the Hawaii Green Infrastructure Bond Fund to be administered by the Department of Business, Economic Development, and Tourism and to receive proceeds of the Green Infrastructure Fee and Green Infrastructure property;
- (5) Establishes the Hawaii Green Infrastructure Special Fund to receive proceeds of the Loan Program and other monies and to be expended on the operations of the Loan Program, including through credits to electric utility customers for reimbursement of excess Green Infrastructure Charge collected;
- (6) Authorizes the Department of Business, Economic Development, and Tourism to issue up to \$200,000,000 in revenue bonds to establish and administer the Hawaii Green Infrastructure Loan Program;
- (7) Appropriates unspecified amounts for fiscal years 2013—2014 and 2014—2015 to the Department of Business, Economic Development, and Tourism out of the Hawaii Green Infrastructure Special Fund; and
- (8) Appropriates unspecified amounts for fiscal years 2013—2014 and 2014—2015 to the Department of Business, Economic Development, and Tourism out of the Hawaii Green Infrastructure Bond Fund.

Your Committee on Conference finds that significant investment in infrastructure must be made to achieve the State's goals of energy self-sufficiency and greater energy security and diversification, and to support the achievement of the Renewable Portfolio Standards and Energy Efficiency Portfolio Standards. Your Committee on Conference further recognizes that these green infrastructure installations will support Hawaii's evolving energy market and ecosystem and provide affordable and accessible energy options for Hawaii's consumers.

Your Committee on Conference further finds that up-front costs of green infrastructure equipment are a barrier preventing many electric utility customers from investing in these installations and benefiting by achieving lower energy costs. Existing programs may not serve the entire spectrum of the consumer market, particularly those consumers who lack access to capital or who cannot afford these up-front costs, thereby creating an underserved market. This measure will establish a means of acquiring and providing alternative low-cost financing to underserved markets, enabling the installation of green infrastructure equipment in those markets.

Your Committee on Conference notes its concerns that there may be technical barriers to reaching higher penetration levels of intermittent power while maintaining acceptable reliability and safety standards for all electric ratepayers. Thus, it is important to continue to consider a diverse portfolio of energy options while also continuing to pursue ways to integrate increased levels of intermittent power onto the grid.

Your Committee on Conference also notes that because of the quickly evolving energy market, it will be important to evaluate the effectiveness and reach of these programs, including their effectiveness in reaching underserved markets. The study will determine if the allowable use of program proceeds shall be expanded or revised in order to best serve all of Hawaii's consumers and achieve our

State's energy goals. This study will also look into new types of energy technologies and existing energy technologies not included in the initial implementation of the loan program that may be available to provide affordable energy options. It will be important to ensure the Loan Program has enough time to provide meaningful data and analysis on these issues in order to provide recommendations on how to best revise the loan program.

Your Committee on Conference has amended this measure by:

- (1) Adding language to further articulate the intent of the measure to support Hawaii's evolving energy market to provide affordable and accessible energy options for consumers;
- (2) Specifying an appropriation amount of \$100,000,000 from the Hawaii Green Infrastructure Special Fund for fiscal years 2013-2014 and 2014-2015;
- (3) Specifying an appropriation amount of \$10,000,000 from the Hawaii Green Infrastructure Bond Fund for fiscal years 2013-2014 and 2014-2015;
- (4) Requiring the Hawaii Green Infrastructure Authority to conduct a study during the 2015 calendar year on the effectiveness and affordability of its activities and programs, and submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016; and
- (5) Making this measure effective upon its approval; provided that the appropriations shall be effective on July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1087, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1087, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Gabbard, Baker, Ige and Kouchi.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Lee, McKelvey, Luke, Cullen and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 93 on S.B. No. 1340**

The purpose of this measure is to establish the young adult voluntary foster care program to care for and supervise eligible foster youth until the age of twenty-one.

Your Committee on Conference finds that foster youth who age out of the foster care system at age eighteen often do not have the financial, emotional, or housing support from their biological family. Without family support or the resources to provide for the basic necessities in life, many of these former foster youths may not have the financial means to attend school. There is a need to support these former foster youths to ensure their success and transition into society. Providing foster care support to these former foster youths while attending school would enable them to focus on academic success and career development instead of worrying about housing, food, and other basic needs.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to allow young adults to waive their right to be present at court hearings and reviews;
- (2) Deleting language that would have appropriated funds to child protective services;
- (3) Deleting language that would have appropriated funds for child protective services payments; and
- (4) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1340, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1340, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Espero, Hee, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Carroll, Rhoads, Kobayashi, Belatti and Fukumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Belatti).

**Conf. Com. Rep. 94 on S.B. No. 1069**

The purpose of this measure is to:

- (1) Clarify licensure requirements for mortgage loan originators and mortgage loan originator companies, and for mortgage servicer companies that conduct mortgage loan origination activities;
- (2) Adjust fees for mortgage loan origination licensees; and

- (3) Establish fees for mortgage servicer companies that conduct mortgage loan origination activities.

Your Committee on Conference finds that this measure enhances the regulation of licensees under chapter 454F, Hawaii Revised Statutes, the Secure and Fair Enforcement for Mortgage Licensing Act. Your Committee on Conference further finds that in addition to clarifying the law regulating mortgage loan origination activities, this measure provides an adjusted licensing fee schedule to help ensure that the Division of Financial Institutions of the Department of Commerce and Consumer Affairs can continue to provide oversight and services for consumers and the mortgage loan origination industry.

Your Committee on Conference is encouraged by the communication between the parties affected by this measure. It is your Committee on Conference's hope that the relevant data continues to be shared. Your Committee on Conference therefore encourages the Division of Financial Institutions to provide more statistical information in the Department of Commerce and Consumer Affairs' annual report to the Legislature, such as the balance, revenues, and expenditures of the Mortgage Loan Recovery Fund.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a mortgage loan originator company shall pay a processing fee of \$35 for each control person and deleting the exemption for certain control persons;
- (2) Requiring an initial application fee of \$600 for a mortgage servicer company seeking a license to do business in Hawaii;
- (3) Removing the reporting requirement for the Commissioner of Financial Institutions detailing the implementation of Act 32, Special Session Laws of Hawaii 2009;
- (4) Inserting an effective date of upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1069, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1069, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Galuteria.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Galuteria).

Representatives McKelvey, Nishimoto and Evans.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 95 on S.B. No. 1388**

The purpose of this measure is to clarify:

- (1) The composition of the membership of the Board of Directors of the Research Corporation of the University of Hawaii (RCUH);
- (2) The role of RCUH and its Board of Directors;
- (3) The relationship between the Board of Directors and the University of Hawaii System;
- (4) The authorization of the Board of Directors with respect to the employment of an Executive Director; and
- (5) The authorization of RCUH with respect to construction contracts.

Your Committee on Conference finds that the fundamental mission of RCUH is to support the research and training programs of the University of Hawaii System and to enhance research, development, and training generally in Hawaii. However, concerns have been raised as to whether RCUH and its Board of Directors have been given a broader range of authority and flexibility than originally intended. This measure clarifies the role of RCUH and its Board of Directors, as well as the relationship between the Board of Directors and the University of Hawaii System.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1388, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1388, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Dela Cruz, Hee, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Choy, Luke, Nakashima and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 96 on S.B. No. 1221**

The purpose of this measure is to appropriate funds to the University of Hawaii at Hilo to hire a program coordinator and a technical support staff member for an international flight training center and associated aeronautical training programs at the University of Hawaii at Hilo and Hawaii Community College.

Your Committee on Conference finds that pursuant to Senate Concurrent Resolution No. 156, S.D. 1, adopted during the Regular Session of 2012, the Legislature urged the creation of an exploratory committee to consider the establishment of an international flight training center and associated aeronautical training programs at the University of Hawaii at Hilo and Hawaii Community College.

Your Committee on Conference further finds that this measure will provide funding to complete the necessary studies and planning for the programs' future implementation.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the program coordinator and technical support staff member shall work in conjunction with the state aviation community;
- (2) Inserting an appropriation amount of \$100,000 for fiscal year 2013-2014 only; and
- (3) Making this measure effective on July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1221, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1221, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Espero, Kidani, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Choy, Nishimoto, Nakashima and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 97 on S.B. No. 606**

The purpose of this measure is to provide funds for the University of Hawaii to pay student employee salaries at new or expanded worksites on each campus and for full-time equivalent support staff for the Vice Chancellor for Students at the University of Hawaii at Manoa.

Your Committee on Conference finds that the hiring of students at the various campuses within the University of Hawaii System is beneficial to the University and the students. Students who work on campus tend to perform better academically than those who work off-campus.

Your Committee on Conference further finds that many students depend on part-time work while enrolled in school. The University of Hawaii at Manoa spends approximately \$22,000,000 to hire and employ students, yet more than 2,500 students could not find an on-campus job during the most recently completed semester. This measure will increase student employment throughout the University of Hawaii System, improve the financial status of students, and improve students' academic performance.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 for fiscal year 2013-2014;
- (2) Removing the unspecified appropriation for fiscal year 2014-2015;
- (3) Removing authorization for the Vice Chancellor for Students at the University of Hawaii at Manoa to hire an unspecified number of full-time equivalent (FTE) support staff;
- (4) Authorizing, rather than mandating, that funding priority be given to students employed for university programs supporting access, retention, and diversity over other student employees;
- (5) Making this measure effective on July 1, 2013; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 606, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 606, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kidani, Kahele, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Choy, Luke, Takai and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 98 on S.B. No. 563**

The purpose of this measure is to:

- (1) Reconstitute the form and function of the Candidate Advisory Council of the Board of Regents of the University of Hawaii (Candidate Advisory Council);
- (2) Specify factors the Senate must consider in determining whether to confirm a nominee to the Board of Regents; and
- (3) Specify the process by which the Board of Regents shall elect its chair and vice chairperson.

Since the passage of Act 56, Session Laws of Hawaii 2007, to implement the amendments to article X, section 6, of the Hawaii State Constitution, your Committee on Conference finds that while the Candidate Advisory Council has nominated several outstanding appointees to the Board of Regents, a number of issues have arisen from the method of Regent selection that has hampered the work of the Candidate Advisory Council and led to questions regarding the final selection of appointees during the Senate confirmation process. The most recent example is the Senate's rejection of two of the Governor's nominees to the Board of Regents during the Regular Session of 2011. As such, the form and function of the Candidate Advisory Council need to be reconstituted to increase the Governor's ability to appoint qualified individuals to serve as Regents and effectively lead the University of Hawaii System.

Your Committee on Conference further finds that in confirming members of the Board of Regents, the Senate should consider the combination of abilities, breadth of experiences, and characteristics of the Board of Regents as a whole.

Your Committee on Conference has amended this measure by:

- (1) Administratively attaching the Candidate Advisory Council to the University of Hawaii;
- (2) Removing the requirement that the Candidate Advisory Council require Board of Regents candidates and members of their immediate families to disclose family relationships with University of Hawaii employees;
- (3) Providing the Candidate Advisory Council sixty days, rather than thirty days, to initiate the recruitment and evaluation of candidates for vacancies on the Board of Regents;
- (4) Increasing the number of Candidate Advisory Council members who shall be appointed by the Governor from four to five;
- (5) Removing the requirement that one member of the Candidate Advisory Council be a representative of the University of Hawaii Alumni Association;
- (6) Clarifying that the term of the member of the Candidate Advisory Council representing the Association of Emeritus Regents of the University of Hawaii (Association of Emeritus Regents) shall run concurrently with the term of the appointing Chair of the Association;
- (7) Removing the requirement that one member of the Candidate Advisory Council be a student;
- (8) Encouraging the Governor, President of the Senate, and Speaker of the House of Representatives to appoint full-time students and University of Hawaii alumni, in addition to faculty and staff, to the Candidate Advisory Council;
- (9) Providing that if a full-time student is appointed to the Candidate Advisory Council, the student shall have been enrolled as a full-time student for at least three consecutive semesters and shall serve a term of two years;
- (10) Clarifying that the members of the Candidate Advisory Council appointed by the President of the Senate and Speaker of the House of Representatives shall serve a term of four years;
- (11) Clarifying that the members of the Candidate Advisory Council appointed by the Governor shall serve a term of four years; provided that the appointments shall run concurrently with the term of the appointing Governor;
- (12) Specifying that the members of the Candidate Advisory Council whose terms have expired may continue as holdover members until a successor is appointed, subject to certain restrictions;
- (13) Clarifying that a vacancy on the Candidate Advisory Council during a term shall be filled for the remainder of the unexpired term by the appointing authority who appointed the member who created the vacancy;
- (14) Clarifying that the voting members, rather than all members, shall elect the chairperson of the Candidate Advisory Council;
- (15) Clarifying that a concurrence of a majority of the voting members of the Candidate Advisory Council, rather than all of its members, shall be necessary to validate any action taken by the Candidate Advisory Council;
- (16) Requiring the Candidate Advisory Council to meet annually and at all other times necessary;
- (17) Exempting the Candidate Advisory Council from the requirements of Hawaii's Sunshine Law in part I of chapter 92, Hawaii Revised Statutes;
- (18) Deleting the requirement that the Governor remove members of the Board of Regents only for cause;
- (19) Requiring the Board of Regents to elect a chairperson and one or more vice-chairpersons, rather than just one vice-chairperson, at its first meeting after June 30 of each year;
- (20) Clarifying the method by which each seat of the Candidate Advisory Council shall be filled once the terms of the members of the Candidate Advisory Council serving on the effective date of this measure have expired;
- (21) Making this measure effective upon its approval; and
- (22) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

It is the intent of your Committee on Conference that the current member of the Regents Candidate Advisory Council selected by the Chairperson of the Association of Emeritus Regents shall continue to serve as a voting member until that member's current term expires, after which time the member representing the Association of Emeritus Regents shall become a nonvoting member.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 563, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 563, S.D. 3, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kidani, Ige, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Choy, Luke, Nishimoto and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 99 on S.B. No. 326**

The purpose of this measure is to establish and appropriate funds for a Good Agricultural Practices Task Force to identify and develop good agricultural practices and preventative measure guidelines in the food supply system to improve the overall safety of locally grown food.

Your Committee on Conference finds that food safety is vital to improving food production and food security in the State. This measure seeks to develop strategies to ensure safe food throughout the farm-to-consumer food supply system in order to mitigate health and food safety risks and increase consumer confidence in locally produced food.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that appropriated an unspecified amount of funds for administrative costs associated with the Good Agricultural Practices Task Force; and
- (2) Inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 326, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 326, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kouchi, Ige, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Wooley, Belatti, Onishi, Cachola and Cheape.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Belatti).

**Conf. Com. Rep. 100 on H.B. No. 762**

The purpose of this bill is to protect and preserve historic Washington Place, a center of social and political life in the Hawaiian Islands for over a century. Specifically, this measure:

- (1) Statutorily establishes the Department of Accounting and General Services as the agency responsible for preserving and protecting Washington Place, including the grounds and the historic residence situated on its premises;
- (2) Establishes the Washington Place Trust Fund (Fund) to pay for the administration, operation, management, and maintenance of Washington Place;
- (3) Prohibits moneys in the Fund from being transferred to the general fund or any other fund in the state treasury; and
- (4) Provides that all unencumbered and unexpended moneys in excess of an unspecified amount remaining on balance in the Fund at the close of June 30 of each year must lapse to the credit of the general fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provisions requiring that unencumbered and unexpended moneys from the Fund lapse to the credit of the general fund;
- (2) Changing its effective date to July 1, 2013; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 762, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 762, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 101 on H.B. No. 536**

The purpose of this measure is to allow the Hawaii Public Housing Authority to refuse to select any applicant for, or terminate the tenancy of an individual residing in, state low-income housing if the applicant, tenant, or a household member owns or acquires a home within the State.

Your Committee on Conference has amended this measure by:

- (1) Specifying that parents of disabled veterans shall not use the veteran status of their adult child as a basis for a housing or tenant preference;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 536, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 536, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 103 on H.B. No. 1136**

The purpose of this bill is to appropriate an unspecified amount for the Hawaii Civil Air Patrol for fiscal years 2013-2014 and 2014-2015.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$150,000 for the Hawaii Civil Air Patrol for fiscal year 2013-2014, rather than fiscal years 2013-2014 and 2014-2015; and
- (2) Changing its effective date from July 1, 2150, to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1136, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1136, H.D. 2, S.D. 1, C.D. 1.

**Conf. Com. Rep. 104 on H.B. No. 1279**

The purpose of this bill is to provide matching funds for competitively bid program expenses incurred for reintegration support, job training, employment placement, and case management for incarcerated persons who are reentering the community.

Your Committee on Conference has amended this measure by:

- (1) Deleting all references to matching funds;
- (2) Authorizing the Department of Labor and Industrial Relations until June 30, 2014, to receive monetary donations and to expend the moneys collected for reintegration of offenders;
- (3) Inserting an appropriation amount of \$250,000 for fiscal year 2013-2014 for expenses incurred for reintegration support, job training, employment placement, and case management, including through programs in partnership with the Department of Public Safety, for incarcerated persons who are reentering the community;
- (4) Changing its effective date from July 1, 2075, to July 1, 2013; and
- (5) Making technical amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1279, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1279, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 105 on H.B. No. 200**

**I. INTRODUCTION**

As submitted to the Legislature prior to the start of the 2013 Regular Session, the proposed general fund portion of the executive budget exceeded the revenue forecast of the Council on Revenues on an annual basis. The state general fund financial plan relied upon a carryover balance and revenue measures that the Legislature was not certain to adopt. As would be expected of any household or business, your Committee on Conference carefully scrutinized expenses in an effort to avoid a budget that could not be supported by realistic operating revenues.

Your Committee on Conference was conservative in its approach to fiscal matters and has successfully controlled growth in the budget. About \$253,000,000 was reduced from the Governor's general fund budget request over the upcoming fiscal biennium. As the economy begins to recover, your Committee on Conference's priority is to build a solid financial base upon which the State and its citizens may prosper.

In developing a measured budget for the executive branch of government for fiscal biennium 2013-2015, your Committee on Conference continued its adherence to the following principles:

- Support the State's core functions, including programs that provide services for those most in need;
- Make strategic investments in people and programs that encourage economic growth and lower future costs; and
- Support long-term planning and accountability efforts to fundamentally change the character and delivery of government services.

Although your Committee on Conference has substantially reduced the Governor's budget request, it still provided needed resources for education, important safety net programs, environmental protection, and modernization of the State's information technology infrastructure.

**II. ECONOMIC OUTLOOK**

While lingering concerns remain, economic data have generally been positive. Unemployment continues to decline, the housing market continues to improve, and financial markets have rallied to all-time highs. However, the effects of the federal budget sequestration, the congressional budget paralysis, and a potential European fiscal crisis are largely unknown. Sequestration is of particular concern, given its likely far-reaching impact and uncertainty on how programs, as well as the local economy, will ultimately be impacted.

The Congressional Budget Office (CBO), which produces ten-year economic forecasts for the congressional budget committees, expects economic growth to remain slow this year as gradual improvements to the economy will be offset by scheduled budgetary changes. CBO projects that the nation's real gross domestic product will grow by just 1.4 per cent this year, as measured by the change from the fourth quarter of 2012, and by 3.4 per cent next year due to improving economic factors. CBO also forecasts that the national unemployment rate will remain near 7.5 per cent through 2014 and will eventually fall to 5.5 per cent by the end of 2017.

The Federal Reserve, which is tasked with setting the United States' monetary policy, stated that they will continue to stimulate the economy and keep interest rates at exceptionally low levels until the unemployment rate falls to 6.5 per cent. Continued stimulation by the Federal Reserve, coupled with sluggish short-term growth forecasts, indicates that significant risks still exist and will continue to exist for the next couple of years.

Hawaii's economy is also experiencing positive growth, largely driven by a continued surge in the visitor industry. The Hawaii visitor industry experienced a 9.6 per cent growth in arrivals and an 18.5 per cent increase in visitor spending in 2012 compared to 2011, according to the Department of Business, Economic Development, and Tourism (DBEDT).

### III. GENERAL FUND REVENUE OUTLOOK

By law, the Council on Revenues (COR) reports its latest tax revenue forecast to the Governor and Legislature on June 1, September 10, January 10, and March 15 of each year. State revenues come primarily from the general excise tax and the state income tax. Similar to last year, COR has made significant forecast changes.

At the September 6, 2012, meeting, COR lowered their forecast for fiscal year 2012-2013 tax revenue growth from 5.3 per cent to 4.9 per cent, citing the reassessment of the cost of renewable energy tax credits as the basis for the decrease. COR subsequently raised their forecast at the January 3, 2013, meeting, from 4.9 per cent to 5.1 per cent, mainly citing a strong visitor industry and expansion in the overall economy.

At the most recent meeting on March 13, 2013, COR raised their fiscal year 2012-2013 forecast from 5.1 per cent to 6.7 per cent, in addition to raising their forecasts for fiscal years 2013-2014 and 2014-2015. COR based the revisions on the strong visitor industry and growth of the economy. The latest change in COR projections adds approximately \$343,000,000 in general fund revenues to the 2012-2013 fiscal year and the 2013-2015 fiscal biennium.

Your Committee on Conference notes, however, that COR also warned of potential adverse effects from sequestration relating to the federal Budget Control Act of 2011. Moreover, your Committee on Conference prefers to take a conservative approach in its assumption of future revenue growth and the funding of new programs that will require annual resources.

### IV. REDUCING UNFUNDED LIABILITIES

Over the past several years, the State has made significant progress on addressing the unfunded liability of the Employees' Retirement System (ERS). Measures taken to address this issue include reducing benefits for new employees, increasing the contributions made by new employees, establishing disincentives for spiking of benefits, and providing additional funding for the ERS. The State is now on a course that will allow it to fully resolve this liability.

Your Committee on Conference is also committed to addressing the other major unfunded liability of the State -- health benefits costs for public sector employees and retirees. An appropriation to prefund Other Post Employment Benefits (OPEB) will demonstrate the State's commitment to address the unfunded liability of the Employer-Union Health Benefits Trust Fund (EUTF).

Your Committee on Conference firmly believes that paying down the State's unfunded liabilities must be a priority, and not treated as a discretionary expense.

### V. BUDGET OVERVIEW

As adjusted for governor's message items, the Governor's general fund budget request adds \$526,000,000 for fiscal year 2013-2014 and \$693,000,000 for fiscal year 2014-2015. While these are significant sums, large portions are non-discretionary in nature.

The budget request includes \$78,000,000 each year to restore previously reduced labor costs. This amount represents the five per cent reduction in compensation that state workers have endured, but does not include funding of potential additional collective bargaining costs.

This cost and others, such as debt service, health premiums, retirement benefits, Medicaid, federal budget sequestration mitigation, and the State's first payments for its share of the EUTF's unfunded liability, amount to \$384,000,000 for fiscal year 2013-2014 and \$524,000,000 for fiscal year 2014-2015, or nearly three quarters of the Governor's general fund budget request.

The Governor also requested funds for several significant initiatives. Over the fiscal biennium, these initiatives include over \$60,000,000 for the Office of Information Management Technology, \$32,000,000 for an early learning program, and \$29,000,000 for a 1:1 digital device per student strategy. Many other requests were also made to restore or strengthen government services.

Your Committee on Conference evaluated the Governor's requests and funded those costs that pertain to core state functions, support programs for those in need, encourage economic growth, and lower future costs.

Your Committee on Conference does not support a budgeting philosophy that asserts that departments are entitled to base funding levels. Excess moneys from existing appropriations, and lower priority purposes, should be budgeted for higher-priority programs and services on a statewide basis. Budgetary accountability and transparency for the public regarding how and where state funds are expended is of critical importance to your Committee on Conference. Your Committee on Conference firmly believes that the communication of these expenditures to the Legislature is an integral step in the budgeting process.

In addition, total vacancies across all state departments represent \$168,000,000 in all sources of funds. These funds remain with the departments for their use. Your Committee on Conference does not condone the practice of holding positions vacant to utilize the funds for other purposes. Shifting of budgeted funds and development of budget details that do not accurately depict expected costs have and continue to frustrate the efforts of the Legislature.

Accordingly, your Committee on Conference made several significant adjustments, notably for the Departments of the Attorney General and Public Safety, that reflect the Committee's desire to budget funds in the manner that they are expected to be used. Through reduction of vacant positions, your Committee on Conference finds that it has already changed the budgeting behavior of the various departments. Your Committee on Conference appreciates the departments that, on their own initiative, volunteered to trade off

positions to keep those they felt were essential. Your Committee on Conference looks forward to continued efforts by the departments towards accountability and transparency in the budgeting process.

## VI. DEPARTMENT HIGHLIGHTS

### Human Services

Your Committee on Conference has taken the sensible approach of restoring and allocating funds for programs and operations that provide needed services and generate the most social benefit among Hawaii residents. The Department of Human Services has reported that, despite growth trends in Hawaii's economy overall, many of the State's assistance programs continue to experience increased enrollment, and the demand for services has left many of the Department's divisions operating beyond capacity.

The Department's Benefit, Employment, and Support Services Division programs reported a 2.8 per cent enrollment increase in Temporary Assistance for Needy Families (TANF) and Temporary Assistance for Other Needy Families (TAONF) and a 4.8 per cent enrollment increase in general assistance beneficiaries. In fiscal year 2011-2012, the Med-QUEST Division reported enrollment increases of five per cent. Your Committee on Conference understands that many of the services and resources provided by the Department constitute a critical safety net for Hawaii's most vulnerable population and is mindful of its duty to provide adequate resources for human services programs.

Homelessness in Hawaii has been a major concern in recent years. The Department's Homeless Services program has implemented a Housing First initiative to address chronic homelessness through a rapid transition to housing and has sought to enhance available shelters by means of asset management and contract review. In support of the Administration's efforts and for the continued piloting of the Housing First program, your Committee on Conference has provided positions and \$997,806 in fiscal year 2013-2014 and \$595,612 in fiscal year 2014-2015 in general funds to address homelessness throughout the State.

Your Committee on Conference is committed to investing in Hawaii's youth and is mindful of the need to provide avenues of care for all children. Without proper programmatic support, outreach, and infrastructure, a child in need is more likely to experience hunger and homelessness and is statistically more likely to engage in criminal behavior. To address these concerns, your Committee on Conference has provided \$1,088,790 in fiscal year 2014-2015 to support the Voluntary Foster Care to Twenty-One project. Your Committee on Conference believes this program will successfully help foster children aged eighteen to twenty-one to gradually transition out of foster care and become financially stable and productive members of the community. Further, your Committee on Conference has also provided \$400,000 in general funds to expand the Youth Community Service Centers pilot program. These facilities will continue to provide alternatives to incarceration and reduce recidivism among juvenile offenders.

Rising national health care costs lead to higher Medicaid costs to the State and inevitably reduce funding available for other priorities in Hawaii's overall fiscal plan. More than thirteen per cent of the executive branch's general fund expenditures is devoted to capitation payments, and with the expansion of coverage through the Affordable Care Act (ACA), that percentage may rise. Your Committee on Conference understands that the high cost of health care is a national issue. Without a national solution to implement industry controls, the State must either fund the cost of care or sacrifice services. However, your Committee on Conference notes that Hawaii offers a Medicaid benefits package that is among the nation's most generous.

Your Committee on Conference finds growth in Medicaid without an accompanying effort in managing costs to be unsustainable. Your Committee on Conference recognizes that managed care payments for QUEST and QUEST Expanded Access in the state Medicaid program should be funded and appreciates the Department's efforts to thoroughly vet enrollment and capitation rate projections; however, your Committee on Conference would like to allow the Legislature an opportunity to address these untenable cost increases over the interim. To this end, your Committee on Conference has provided general funds in accordance with the Department's request for Medicaid health care payments for fiscal year 2013-2014 only, in the amount of \$43,153,802. For fiscal year 2014-2015, your Committee on Conference has provided an adjusted general fund amount of \$76,744,627 to encourage cost management initiatives and give the State time to more thoroughly evaluate the necessary funding for Medicaid health care payments in fiscal year 2014-2015.

Your Committee on Conference is also aware of the need to address the increases in enrollment levels and additional coverage requirements that come under ACA. The Department has identified a number of cost drivers and projects enrollment increases of roughly forty-six thousand individuals as a direct result of ACA. Further, under ACA, states will be required to reimburse primary care physicians for one hundred per cent of Medicaid costs, in contrast to the sixty per cent paid by Hawaii prior to ACA. While the federal government has agreed to fund the entire forty per cent increase through fiscal year 2013-2014, thereafter, the State must pay a fifty per cent share of the one hundred per cent Medicaid reimbursement to primary care physicians. Your Committee on Conference recognizes these imminent health care changes and associated costs; however, your Committee on Conference is also particularly aware of the variability with which the timing and rates of cost increases under ACA may occur. As such, your Committee on Conference has provided the Department's requested amount of \$20,195,448 in fiscal year 2013-2014 and the adjusted amount of \$25,203,267 in fiscal year 2014-2015 for the general fund portions of ACA related health care costs.

Your Committee on Conference acknowledges the Department's good faith efforts to restore reimbursements in acute care facilities and proactively implement seriously mentally ill client services, which would be mandated under ACA, in order to phase in additional coverage costs in the Med-QUEST Division. To this end, your Committee on Conference has provided for expenditures from the hospitals and nursing facilities sustainability special funds to supplement general and federal funds for these purposes.

Your Committee on Conference supports the Department's goals to provide timely service delivery and improve access to resources. Accordingly, your Committee on Conference has provided positions and funding throughout the Department to manage processing backlogs, restore critical personnel, and expedite the transformation and integration of information technology solutions, including \$1,500,000 in general funds and \$7,500,000 in federal funds for the Med-QUEST integrated eligibility system.

### Health

Your Committee on Conference acknowledges the Department of Health's role in providing health care and services to protect the well-being of people in Hawaii.

Your Committee on Conference recognizes the significance of caring for our kupuna and is aware of the need for a single, coordinated system of information and access for our elderly and disabled population. Your Committee on Conference recognizes the improvements that the Executive Office on Aging has made to our existing aging and disability resource centers in becoming fully-functional under federal standards. For example, the aging and disability center on Maui has recently become fully-functional by federal standards, with the other counties scheduled to follow shortly. Your Committee on Conference understands that the completion of this effort is dependent upon continued funding and, therefore, has provided \$1,400,000 in general funds to support this initiative.

Your Committee on Conference is also aware of the Hawaii's Long-Term Commission's recommendation to establish a public long-term care insurance program, to be funded primarily through premiums rather than general fund revenues. Therefore, your Committee on Conference has provided \$380,000 in general funds in fiscal year 2013-2014 for the Executive Office on Aging to conduct the necessary actuarial analysis to provide future design details for a public long-term care program for the working population.

The Department's Developmental Disabilities Division oversees the waiver program that provides home and community based services to individuals with a developmental disability. Your Committee on Conference is aware of the waiver program's difficulty in meeting the state matching fund requirement for federal Medicaid funds, especially in adhering to prior lawsuit settlements, which require a reasonable pace of new admissions into the waiver program. In addition, your Committee on Conference is cognizant of the federal government's concern over this program's state funding shortage and the risk of losing Medicaid funds if the program is not supported with additional state funds. As such, your Committee on Conference has provided \$1,500,000 in general funds for the waiver program. Further, your Committee on Conference has provided \$640,000 in fiscal year 2013-2014 and \$350,000 in fiscal year 2014-2015 in general funds to better reflect the program's portion of costs for shared contracts with the Department of Human Services.

Your Committee on Conference further finds that the Developmental Disabilities Division does not currently have an electronic health records system that meets privacy safeguard standards and reporting requirements as mandated by the Affordable Care Act. Your Committee on Conference understands that compliance with these requirements must be met by 2016 to avoid reduced federal reimbursements. Therefore, your Committee on Conference has provided \$1,000,000 in general funds in fiscal year 2013-2014 for the development and implementation of an electronic health records system that will meet federal requirements.

Your Committee on Conference understands how crucial it is to provide children with a safe, encouraging environment in which to develop, as well as to identify those children with developmental delays so that appropriate services can be provided. To this end, the Department's Early Intervention Program conducts comprehensive multi-disciplinary developmental evaluations for children and provides necessary services through community providers. Since this program was reduced during the economic downturn, it has faced a recurring deficit in serving Hawaii's special needs keiki. As such, your Committee on Conference has provided \$1,271,698 in general funds in fiscal year 2013-2014 to assist children with special health needs. To ensure a positive environment for childhood growth and development, your Committee on Conference supports the continued use of tobacco settlement special funds for the Home Visitation Program, formerly known as Healthy Start, that provides parenting and childhood health services and, therefore, has provided \$3,000,000 of those funds for this purpose.

Due to the closure of Hawaii Medical Center's hospitals in December 2011, the Department's emergency ambulance program has been tasked with meeting an increased demand for services. In an effort to continue to support growing emergency medical transportation needs, your Committee on Conference has provided \$1,300,000 in general funds in fiscal year 2013-2014 and \$1,000,000 in special funds in fiscal year 2014-2015 to reflect the increase in cigarette tax revenue to the Department. In view of the cigarette tax increase from .0075 cents per cigarette to .0125 cents that will revert to the Department effective July 1, 2013, your Committee on Conference has also provided for additional expenditures of \$5,300,000 for the state comprehensive trauma system and \$3,750,000 for community health centers in special funds.

Your Committee on Conference recognizes the importance of monitoring disease-carrying vectors for the betterment of State public health. Further, your Committee on Conference is cognizant of the reduction of these services during times of fiscal constraint. As such, your Committee on Conference has provided positions and \$73,920 in general funds in fiscal year 2013-2014 and \$147,840 in general funds in fiscal year 2014-2015 to increase vector surveillance at state ports of entry. In addition, your Committee on Conference has provided positions and \$223,771 in special funds in fiscal year 2013-2014 and \$480,804 in special funds in fiscal year 2014-2015 to improve sanitation health services inspection rates for food establishments throughout the State.

Your Committee on Conference supports efforts to improve health care coordination and increase access for all of Hawaii's residents. The Hawaii Health Information Exchange is a non-profit organization designated by the State to build the statewide health information exchange. Your Committee on Conference is cognizant that their five-year funding contract will be coming to an end, despite the vast amount of work ahead in improving Hawaii's health care information system. As such, your Committee on Conference has provided \$1,000,000 in general funds in fiscal year 2013-2014 to support the organization's efforts towards improving the State's health information technology. Your Committee on Conference has also provided positions and \$53,000 in general funds and \$961,250 in federal funds in fiscal year 2013-2014, and \$165,830 in general funds in fiscal year 2014-2015 for the Healthcare Transformation Initiative in the Office of the Governor. This initiative will help the State implement components of the ACA, as well as identify strategies to improve the delivery of healthcare in the State.

#### Hawaii Health Systems Corporation

Your Committee on Conference recognizes the Hawaii Health Systems Corporation's (HHSC) role as a principal health care provider for Hawaii's most vulnerable citizens and visitors, especially those on the neighbor islands. HHSC is under increasing pressure as health care costs continue to rise while federal and private reimbursement rates decline.

Hale Makemae is a program housed in Kula Hospital in Maui. It is the State's only twenty-four-hour long-term care facility for medically fragile, severely physically disabled, and developmentally disabled patients on the islands of Hawaii, Maui, and Oahu. These patients are bedbound and unable to participate in activities of daily living without trained assistance. In support of expanding the unique services at Hale Makemae, your Committee on Conference has provided \$800,000 in general funds for each year of the

2013-2015 fiscal biennium. These funds will be used to double the program's patient intake and subsidize a recurring operating deficit caused by unreimbursed Medicaid costs.

Further, in consideration of providing funds to maintain operations at HHSC hospitals, your Committee on Conference has provided \$1,000,000 in special funds for the operational deficit in Alii Community Care and Roselani Place. Roselani Place provides care to elderly individuals who need help with daily tasks but do not need the restrictive and full-time health care services of a nursing home.

#### University of Hawaii

The University of Hawaii system is the State's premier institution for higher education, a nationally recognized research university and a local economic driver.

Your Committee on Conference understands that the University system is experiencing unprecedented increases in enrollment; however, your Committee on Conference is concerned about the University's decision to continuously increase tuition without a clear nexus between the increases in tuition and the quality of education for students. Furthermore, your Committee on Conference remains unsettled by the University's salary determination process for its top executive and managerial staff, as well as its lack of financial transparency and accountability. Your Committee on Conference believes in the potential of the University to be an internationally recognized place of learning and sincerely hopes that bettering the educational experience for its students is the primary focus for the University when making decisions.

The University of Hawaii West Oahu (UHWO) opened its new Kapolei campus in Fall 2012. Your Committee on Conference supports UHWO's goal of raising the educational and economic attainment levels in the West Oahu region. Your Committee on Conference recognizes that with the initial opening, UHWO focused on providing academic and curriculum options for incoming students. Now that the campus is operational, your Committee on Conference recognizes the need to provide support for the campus and, therefore, has provided positions and \$3,000,000 in general funds.

Your Committee on Conference recognizes that the University of Hawaii Community Colleges play an indispensable role in providing post-secondary educational opportunities for those wanting to pursue higher education or specific technical skills. As such, your Committee on Conference realizes the importance of keeping community college tuitions low to provide more prospective post-secondary students with an alternative path to higher education. Your Committee on Conference also understands that unlike four-year institutions that have a larger student population, the community colleges lack the enrollment concentrations that would enable them to generate sufficient tuition revenues to meet their operational needs and, consequently, may not be as well-equipped in comparison. Therefore, your Committee on Conference has provided \$4,000,000 in general funds in fiscal year 2013-2014 and \$2,000,000 in general funds in fiscal year 2014-2015 for the operating expenses of community colleges statewide.

The Academy for Creative Media empowers students to express their stories through multiple digital media platforms within a context of cultural and aesthetic value. In support of expansion of the Academy's film and digital media programs statewide, your Committee on Conference has provided positions and \$2,086,371 in general funds to build capacity for workforce growth and to support the growing needs of multi-media industries.

In addition, your Committee on Conference has provided positions and \$400,000 for the 'Ulu'ulu: Henry Ku'ualoha Giugni Moving Image Archive of Hawaii, which preserves film and videotape related to Hawaiian history and culture.

Your Committee on Conference recognizes the importance of tracking Hawaii's students to capture, analyze, and use student data from pre-school to high school, college, and the workforce. To this end, your Committee on Conference has provided \$100,000 for fiscal year 2013-2014 and \$200,000 for fiscal year 2014-2015 in general funds for the statewide longitudinal data system.

Your Committee on Conference acknowledges the significance of Science, Technology, Engineering and Math (STEM) initiatives at the University of Hawaii. Further, your Committee on Conference supports the University's role of advancing STEM education through outreach to pre-college students. Therefore, your Committee on Conference has provided positions and \$1,500,000 in general funds for STEM initiatives, which include supporting the Fostering Inspiration and Relevance through Science and Technology Pre-Academy. This program provides Hawaii's middle-school students in both regular education and charter schools statewide with hands-on, interactive learning opportunities across STEM subjects, which allow them to develop critical thinking skills to address real-world problems.

#### Education

Your Committee on Conference remains concerned with the Department of Education's management of state funds and resources in relation to its ability to meet the new assessments under the Common Core State Standards (CCSS), which were adopted by the Board of Education in June 2010. The new CCSS assessments are scheduled for implementation in the 2014-2015 school year.

Under Act 89, Session Laws of Hawaii 1996, the Legislature determined that the traditional centralized school system was not the best model to meet the needs of Hawaii's diverse student population. Thus, Act 89 began a systemic reform that envisioned "top-down support for bottom-up reforms" to provide individual schools with the flexibility and autonomy to develop and implement alternative administrative and instructional frameworks that would lead to better quality education and higher student performance. The Legislature's intent was to empower each school to be directly accountable for student achievement and "to put students first."

Although your Committee on Conference is encouraged by the Department's efforts to achieve the objectives of Act 89, your Committee on Conference finds that the Department is still mired in bureaucratic inertia. The Department's responses to your Committee on Conference's requests for information were reiterations of the inadequate information contained on budget forms and references to complying with the Department of Budget and Finance's budget instructions. While your Committee on Conference understands that the Department submits its budget in accordance with certain instructions, legislative review and oversight dictate that your Committee on Conference asks the probing and practical questions to determine what the funds will be used for and whether such use is appropriate under law, rule, or policy.

Your Committee on Conference has grave concerns with the Department's ability to monitor and track its resources. Your Committee on Conference requested a breakdown by categorical program of the appropriations reported by the Department that comprise the seventy per cent of appropriations that are supposed to be expended by principals pursuant to section 302A-1301(b), Hawaii Revised Statutes. However, your Committee on Conference was informed that it would take some time to compile because such a report is not usually prepared by the Department's budget branch.

Your Committee on Conference also requested a report of all temporary positions established by the Department under section 302A-1116, Hawaii Revised Statutes, which requires that each temporary position created by the Department not exceed a one year term. The law also requires the Department to report the creation of all temporary positions to the Department of Budget and Finance. Your Committee on Conference was advised that the Department has created approximately one thousand temporary positions, with many continuing from year to year. However, the Department has never reported any of these positions to the Department of Budget and Finance since the enactment of the law in 1996. Your Committee on Conference finds these actions, or lack thereof, disturbing.

Your Committee on Conference further notes the recent audit of the Department's \$92,000,000 food services program and its findings that mirror the audit of the student transportation program:

- (1) Unclear ownership of the food purchasing and meal payment collections processes;
- (2) Lack of oversight, monitoring, and accountability of purchases;
- (3) Insufficient controls in the payment collection process;
- (4) Lack of current and comprehensive purchasing policies and procedures;
- (5) Lack of technology in menu planning, ordering, and inventory;
- (6) Systemic failure to follow internal procedures regarding the completion and retention of required forms and supporting documentation; and
- (7) Undefined methods for staffing school kitchens, thus rendering the process susceptible to manipulation.

If the Department is unable to efficiently provide such essential services as school lunches and bus transportation, the latter of which is estimated to face an \$8,000,000 shortfall in each year of the fiscal biennium, how can it instill confidence that it will efficiently manage new programs such as the 1:1 digital device per student strategy in meeting the new CCSS assessments?

Your Committee on Conference's adjustments to the Department's budget reflect these ongoing concerns.

Your Committee on Conference acknowledges that public schools will be required to meet the new assessments under the CCSS in the coming 2014-2015 school year and that, under the recently negotiated employment contract, teachers' compensation will be tied, in part, to the assessment results. However, your Committee on Conference is hard pressed in finding that the 1:1 digital device per student strategy is the best means of meeting the CCSS assessments.

Your Committee on Conference is aware that Hawaii is one of twenty-five states in the SMARTER Balanced Assessment consortium of states. Your Committee on Conference requested information on what the other states in the consortium were doing to meet the CCSS assessment requirements and was provided with information on seven states. Although all seven states had employed computers or laptops in a 1:1 initiative, none of the states had done so specifically in response to meeting the CCSS assessments as Hawaii proposes to do. It appears premature for the Department to commit such resources and staff time to an initiative that is being pursued by only a handful of states on an anecdotal basis.

Your Committee on Conference has denied the Department's request for \$7,125,000 for fiscal year 2013-2014 and \$22,250,000 for fiscal year 2014-2015 for the 1:1 digital device per student strategy. Because of the concerns with implementation of the program, your Committee on Conference has instead provided \$8,219,659 for fiscal year 2013-2014, which the Department will use to undertake a pilot program.

Your Committee on Conference also has provided \$1,000,000 for the development of assessments in the Hawaiian language for Hawaiian language immersion students to more accurately measure their academic achievement. Your Committee on Conference strongly encourages the Board of Education to consult with Aha Kauleo, the University of Hawaii, the Office of Hawaiian Affairs, Kamehameha Schools, and other relevant organizations in the development grade specific assessments.

As one of the fundamental precepts of Act 89, your Committee on Conference maintains that state funds are best spent at the school level under the direction of principals. Your Committee on Conference further believes that any federal impact aid funds received by the State should be used at the school level to directly benefit students. Although your Committee on Conference understands that the Department proposes to move federal impact aid funds from the classroom to school support and replace it with general funds, your Committee on Conference would rather apply such federal dollars directly to the schools and classrooms.

To this end, your Committee on Conference has provided \$10,000,000 in federal funds for each fiscal year for weighted student formula (WSF), \$40,000,000 in federal funds for each fiscal year for regular instruction, and \$3,600,000 in federal funds for each fiscal year for special education in regular schools. Your Committee on Conference rejects the Department's proposal to add \$45,980,154 in federal funds in fiscal year 2013-2014 and \$46,774,111 in federal funds in fiscal year 2014-2015 for various programs in the school support program. The Department's proposal funds ancillary services, not direct classroom instruction. Your Committee on Conference's approach maintains use of federal impact aid funds only for school-based budgeting and special education.

Your Committee on Conference has also provided \$12,857,918 in general funds in fiscal year 2013-2014 for WSF to support student learning at our schools.

Your Committee on Conference acknowledges the Department's efforts to address problems with student transportation services. Your Committee on Conference remains optimistic that the Department will be able to break the cycle of tiered, non-competitive contracts, establish internal controls and accountability, and develop greater expertise and ownership within the Student Transportation

Division. Your Committee on Conference, however, is mindful that the Department remains less than forthcoming with information. In the initial phases of budget development, it was revealed that there was an \$8,000,000 shortfall and that the Department planned to use federal impact aid funds currently programmed for school based budgeting to cover the shortfall. Your Committee on Conference accepts this proposal for fiscal year 2013-2014 only, with the expectation that the Department will have made meaningful changes in the way it negotiates and contracts for transportation services by fiscal year 2014-2015 and will not require further funds to cover shortfalls. Your Committee on Conference further notes that this Legislature has passed specific measures intended to remove impediments and give the Department greater leeway in negotiating and contracting with transportation providers. This will allow the Department to leverage these statutory changes so as to engender greater competition, which will result in lower costs and a more efficient transportation system.

#### Early Learning

Your Committee on Conference supports early education for Hawaii's keiki and acknowledges that, with the upcoming change to the entrance age for kindergarten students, services will need to be made available for the estimated 3,472 unserved late-born four-year olds. Your Committee on Conference has provided \$315,000 in general funds for the Executive Office on Early Learning. However, your Committee on Conference has concerns as to how many families of these unserved four-year olds will actually seek day care services and whether the projected service capacity can be achieved.

To assist in the transition of the program, your Committee on Conference has provided one temporary position and \$125,000 in federal funds for both fiscal years for the Head Start coordinator to work on early learning program coordination.

#### Charter Schools

Funding for charter schools is premised on the concept of providing operating funds in an amount equal to that provided for regular education students on a per pupil basis. Your Committee on Conference has provided \$1,074,881,407 in fiscal year 2013-2014 and \$1,043,025,951 in fiscal year 2014-2015 in general funds for all regular education cost categories to the Department of Education. This amount does not include funding for special education services and adult education. The Department has projected regular education enrollments of 175,868 students for fiscal year 2013-2014 and 172,493 for fiscal year 2014-2015, which does not include the Department's projected 5,100 junior kindergarten students. This equates to a funding amount of \$6,111.86 per student for fiscal year 2013-2014 and \$6,046.77 for fiscal year 2014-2015.

Your Committee on Conference used projected student enrollment figures provided by charter schools of 10,541 for fiscal year 2013-2014 and 11,254 for fiscal year 2014-2015 in its calculation of an appropriate funding level. Under use of these enrollment figures, the charter schools' general fund appropriations must be \$64,428,297 for fiscal year 2013-2014 and \$68,392,955 for fiscal year 2014-2015 to achieve a per pupil funding amount equal to regular education students. Thus, your Committee on Conference has adjusted the executive budget request to add \$127,557 in fiscal year 2013-2014 and \$3,752,771 in fiscal year 2014-2015 in general funds to achieve this end.

Projected student enrollment and comparable funding for charter school and regular education students remains an ongoing concern. Counts can fluctuate dramatically, as evidenced by the inclusion of the student-count from five new charter schools, their removal from the count, the reinstatement of two schools, and then the removal of one school due to a deferred opening. Your Committee on Conference finds that the requirement under 302D-28(c), Hawaii Revised Statutes, that the Director of Finance make an appropriate adjustment based upon actual student enrollment effectively accounts for the imprecise student enrollment projections and provides each agency with comparable non-facility funding.

#### Libraries

Your Committee on Conference finds that services provided by public libraries reach a broad spectrum of the population and are an invaluable public resource. Further, your Committee on Conference remains mindful of the need to modernize public library services to keep pace with advancements in technology and to update and maintain the circulated materials. Accordingly, your Committee on Conference has provided \$700,000 in general funds for fiscal year 2013-2014 for the purchase of books, e-book subscriptions, and other circulated materials.

#### Hawaiian Home Lands

In 1978, the following provisions were added to article XII, section 1 of the State Constitution:

The proceeds and income from Hawaiian home lands shall be used only in accordance with the terms and spirit of such Act. The legislature shall make sufficient sums available for the following purposes: (1) development of home, agriculture, farm and ranch lots; (2) home, agriculture, aquaculture, farm and ranch loans; (3) rehabilitation projects to include, but not limited to, educational, economic, political, social and cultural processes by which the general welfare and conditions of native Hawaiians are thereby improved; (4) the administration and operating budget of the department of Hawaiian home lands; in furtherance of (1), (2), (3) and (4) herein, by appropriating the same in the manner provided by law.

In 2007, *Nelson v. Young*, Civil No. 07-1-1663-08 BIA, a suit for declaratory and injunctive relief was filed in the First Circuit Court against the Director of Finance and the Hawaiian Homes Commission (Commission). The Attorney General has provided your Committee on Conference with information regarding the lawsuit. The Committee on Conference understands that plaintiffs asked the court to declare that the Commission and the Director are required to budget and request, and the Legislature is required to appropriate, "sufficient sums" to enable the Department of Hawaiian Home Lands (DHHL) to fulfill each of the four purposes set out in the 1978 addition to article XII, section 1 of the State Constitution. Your Committee on Conference further understands that plaintiffs also asked the court to prospectively enjoin the Commission from entering into general leases of the "available lands," and to instead require that the Commission rely solely on "sufficient sums" appropriated by the Legislature to fund its implementation of the Hawaiian Homes Commission Act (HHCA), 1920, enacted by Congress. Under the HHCA, receipts from general leases are the principal source of funding for DHHL's homesteading and other programs.

After concluding that the political question doctrine prevented the court from judging the plaintiffs' claims, the circuit court dismissed the plaintiffs' complaint and entered judgment in favor of the Director of Finance and the Hawaiian Homes Commission. The plaintiffs appealed the judgment to the Intermediate Court of Appeals (ICA). The ICA concluded that the plaintiffs' demand for legislative funding for all four constitutionally specified purposes was not barred by the political question doctrine. It vacated the circuit court's judgment and remanded the case back to the circuit court to determine what constituted "sufficient sums." The Director of Finance petitioned the Hawaii Supreme Court to review the ICA's decision; the Hawaiian Homes Commission did not file an appeal.

The ICA's judgment was affirmed in part, and vacated in part, by the Hawaii Supreme Court. *Nelson v. Young*, 127 Haw. 185, 277 P.3d 279 (2012). The Supreme Court ruled that a court could determine what constituted "sufficient sums" for DHHL's administrative and operating expenses only, but not for the other enumerated purposes. The Supreme Court held, "[i]t is clear that the constitutional delegates intended to require appropriation of 'sufficient sums' to relieve DHHL of the burden of general leasing its lands to generate administrative and operating funds, and to that end, they identified the minimum funding necessary for such expenses." 127 Haw. at 203, 277 P.3d at 297. With respect to that amount, the Court stated, "[a]t a minimum, funding at or above the \$1,300,000 to \$1,600,000 envisioned in 1978 [presumably . . . adjusted to reflect the impact of factors such as inflation or increased collective bargaining costs] would be required." *Id.*

Your Committee on Conference understands that the case will be remanded to the circuit court to determine what constitutes "sufficient sums" for DHHL's administrative and operating expenses, as soon as the Supreme Court rules upon the plaintiffs' counsels' motion for attorneys' fees and costs on appeal.

Your Committee on Conference does not wish to intrude upon or influence the pending court proceedings. However, your Committee on Conference recognizes that administrative and operating costs will be incurred and that both DHHL and the Governor have included requests for general fund appropriations for DHHL's administrative and operating expenses for the 2013-2015 fiscal biennium. As such, your Committee on Conference has provided \$9,632,000 in general funds for DHHL's administrative and operating expenses.

#### Accounting and General Services

One important function of the Department of Accounting and General Services is the timely production of the State's comprehensive annual financial report (CAFR). Due to publication delays that negatively impacted state bond ratings, the Department was authorized to hire a private accounting firm in fiscal year 2011-2012. However, your Committee on Conference recognizes the cost-savings and enhanced oversight that can be achieved by producing the CAFR in-house. As such, your Committee on Conference has provided positions and \$96,724 in fiscal year 2013-2014 and \$49,048 in fiscal year 2014-2015 in general funds to transition the responsibility back to the Department.

Your Committee on Conference understands the vital importance of preserving historical documents for ensured access in the future. Therefore, your Committee on Conference has provided \$262,500 in general funds in fiscal year 2013-2014 and \$325,090 in special funds in fiscal year 2014-2015 for the digital archives project at the Hawaii State Archives.

In order to ensure the State's assets and liabilities are adequately protected, proper insurance coverage is essential. Risk is present in the delivery of all government services and is coupled with costlier litigation and complex intergovernmental risk pools. The State is challenged with unique risks and a significant scope of coverage that could affect budgetary stability and potentially result in catastrophic financial losses. Your Committee on Conference understands the importance of a comprehensive risk management plan and has provided \$4,700,000 in general funds for property, liability, and crime insurance coverage over fiscal biennium 2013-2015.

#### Office of Information Management and Technology

The Office of Information Management and Technology (OIMT) has laid the groundwork to transform the use of technology throughout the State. OIMT strives to make access to state government more responsive and secure while enhancing service delivery to both the public and government employees. The administration continues to promote the State's information technology infrastructure needs as a high priority.

The Information Resource Management Transformation Strategic Plan has outlined the specific projects necessary to enhance security, privacy, and governance. Your Committee on Conference understands how crucial it is to continue to support OIMT as the Plan enters the implementation phase. Your Committee on Conference also recognizes the need to revolutionize information technology within the State. In support of these efforts, your Committee on Conference has provided positions and \$18,811,090 in fiscal year 2013-2014 and \$14,358,110 in fiscal year 2014-2015 in general funds to launch the strategic plan.

#### Budget and Finance

Fixed costs for debt service, the Employees' Retirement System (ERS), and health benefit payments comprise nearly one-third of the State's total general fund budget. These components require annual adjustments based upon assumptions for interest rates, payroll increases, and membership growth, which are beyond your Committee on Conference's ability to modify on a near term basis.

Your Committee on Conference recognizes that the State's positive fiscal condition is the result of financial prudence exhibited over the last two years. As previously indicated, your Committee on Conference is mindful of the opportunity to address the State's growing unfunded liability for Other Post-Employment Benefits (OPEB). As such, your Committee on Conference has provided \$100,000,000 in fiscal year 2013-2014 and \$117,400,000 in fiscal year 2014-2015 in general funds to begin prefunding OPEB. Although your Committee on Conference is aware that these amounts are not fully reflective of the proposed thirty year amortization schedule, your Committee on Conference finds this to be a necessary step toward reducing the State's unfunded OPEB liabilities.

Your Committee on Conference also requests the Director of Finance to explore ways to assess non-general funds for the reasonable and equitable portion of the unfunded liability of retirees whose salaries were paid from the non-general funds.

Your Committee on Conference finds that paying the additional amounts of the ERS unfunded liability attributable to spiking with new general fund appropriations will not encourage state agencies to deter the activity. Thus, your Committee on Conference has provided \$2,000,000 in fiscal year 2013-2014 and \$4,000,000 in fiscal year 2014-2015 in interdepartmental transfers from state agencies to make payments for the ERS unfunded liability attributable to employees spiking their pension benefits. Your Committee on Conference has directed the Director of Finance to transfer the funds based upon an assessment.

Your Committee on Conference acknowledges the Public Utilities Commission's operational efficiencies despite its limited office space. Your Committee on Conference has provided \$3,980,000 of the Commission's revenue surplus to be reinvested in the form of office expansion and renovation for the Commission.

#### Public Safety

Your Committee on Conference understands that economic conditions have caused a significant rise in energy costs. Despite efforts to reduce energy usage, increases in electricity and utility rates have driven utility costs beyond the Department of Public Safety's authorized budget. Thus, to accommodate cost increases, your Committee on Conference has transferred \$3,312,295 in fiscal year 2013-2014 and \$3,491,253 in fiscal year 2014-2015 in general funds from the Department's administration program account to several facilities for rising energy and sewer costs. Outdated security and rising food costs have also adversely impacted the Department's budget. Your Committee on Conference understands the need for improved safety measures and healthy meal options. Therefore, your Committee on Conference has provided \$1,046,338 in fiscal year 2013-2014 and \$945,751 in fiscal year 2014-2015 in general funds for updated cameras, phone systems, and food services.

Your Committee on Conference recognizes the need for the visual presence of deputy sheriffs in public buildings as a deterrent to potential problems. In particular, the presence of deputy sheriffs to provide security in the State's courthouses is necessary to protect the public and ensure the safe and efficient operations of the Judiciary. Your Committee on Conference notes that significant safety and security threats were identified throughout public access points for several judiciary facilities. As a result, Your Committee on Conference has provided positions and \$321,518 in fiscal year 2013-2014 and \$528,313 in fiscal year 2014-2015 in general funds for the provision of security in Oahu, Hawaii, and Maui courts.

Your Committee on Conference understands the importance of restoring prison services and returning inmates to Hawaii. The Department seeks to transform the current correctional system in an effort to lower recidivism rates while providing mental health and career services. Your Committee on Conference supports the Justice Reinvestment Initiative and has provided for the transfer of \$4,337,824 in fiscal year 2013-2014 and \$7,258,243 in fiscal year 2014-2015 in general funds from non-state facilities to local facilities to reopen the Kulani Correctional Facility and facilitate the transition of inmates and services back to Hawaii.

#### Land and Natural Resources

The Department of Land and Natural Resources is committed to protecting, conserving, and managing Hawaii's unique and limited natural, cultural, and historic resources.

Your Committee on Conference recognizes the Department's efforts in maintaining Hawaii's most valuable assets. Hawaii's fresh water supply is not inexhaustible and is susceptible to local and global environmental changes. As such, it requires prudent management and protection. The Department launched the *Rain Follows the Forest Initiative* last year, which identifies and protects high priority watershed areas. With the Legislature's support, the Department was able to protect and maintain over one hundred sixty thousand acres of watersheds in fiscal year 2012-2013. In order to continue this initiative, your Committee on Conference has provided positions and \$3,500,000 in general funds in fiscal year 2013-2014 to increase watershed protection throughout the State.

Invasive species are extremely detrimental to Hawaii's native ecosystems and natural resources. Your Committee on Conference is aware of the increase in invasive species over the past two years, including the increasing population of axis deer and fire ants on the Big Island and Maui, and the first detection of mongooses on Kauai, which previously served as a seabird refuge. Your Committee on Conference is also cognizant of the fiscal need to control invasive species now, to avoid exponentially increased costs of addressing invasive species damage in the future. Therefore, your Committee on Conference has provided \$750,000 in general funds to the Hawaii Invasive Species Council. These funds will be used as part of a competitive grant funding process for invasive species prevention, control, and outreach. In addition, your Committee on Conference is conscious of the growing invasive algae problem in Kaneohe Bay and the Department's recent success in combating the algae with the introduction of indigenous sea urchins. As such, your Committee on Conference has provided \$229,932 in general funds to continue the Department's Super Sucker project that removes the invasive algae from Kaneohe Bay.

Your Committee on Conference is mindful of the Department's efforts to accommodate the increase in visitors to Hawaii's State Parks, despite limited funding. Therefore, your Committee on Conference has provided \$442,000 in general funds for the State Parks Division's recurring payroll deficit and \$300,000 in general funds for rising electricity costs. Your Committee on Conference has also provided \$500,000 in fiscal year 2013-2014 and \$1,000,000 in fiscal year 2014-2015 in special funds for the State Parks Division to utilize their revenues from state park fee increases. In addition, your Committee on Conference has provided maintenance positions for the new Diamond Head Linear Park and Kauai District State Parks, to be funded with these increased fee revenues.

Your Committee on Conference is aware of the Department resorting to state parks special funds to fund required lifeguard services, at the expense of parks' repair and maintenance. Thus, your Committee on Conference has provided \$200,000 in general funds to support lifeguard services throughout the State. Your Committee on Conference has also provided \$100,000 in fiscal year 2013-2014 for land appraisals and other studies at Turtle Bay on the island of Oahu.

Hawaii's State Historic Preservation Division works to preserve Hawaii's rare historical and cultural sites. Your Committee on Conference is cognizant of the Division's recent federal review and the resulting corrective action plan requiring the Division to maintain a minimum staffing level, among other stipulations, in order to avoid federal funding decreases. As such, your Committee on Conference has provided positions and \$122,448 in general funds to support federally required positions, as well as \$62,400 in fiscal year 2013-2014 and \$44,900 in fiscal year 2014-2014 in special funds for the Division to upgrade its computer systems in compliance with federal equipment requirements.

Your Committee on Conference is aware of the recurring payroll shortage in recreational fisheries and the potential to exponentially increase federal funds with minimal state matching funds. Therefore, your Committee on Conference has provided \$150,000 in general funds that will generate an additional \$450,000 in federal funds to allow the program to meet payroll and perform various statewide projects, such as stocking rainbow trout for the Kokee Fishing area on Kauai, maintaining and constructing artificial reefs, and continuing Maui-Oahu marine resource assessments.

#### Agriculture

Agriculture is an integral part of Hawaii's economy. Your Committee on Conference is aware that the Department of Agriculture's primary responsibilities are to promote agricultural sustainability and protect the State from invasive species. Your Committee on Conference is dedicated to promoting self-sufficiency, conserving resources, and preventing the introduction and proliferation of invasive species in the State.

Your Committee on Conference recognizes the need to attract farmers and ranchers to ensure a sustainable and secure future for the State's food supply. Therefore, your Committee on Conference has provided \$750,000 in general funds in fiscal year 2014-2015 for low interest rate loans and to enhance Hawaii's locally grown food sources and reduce our dependence on imported food.

Your Committee on Conference acknowledges the progress made by the Department's Agricultural Resource Management Division and the need to supplement existing operations in order to accommodate the Division's growing list of capital improvement projects for irrigation systems and agricultural parks. As such, your Committee on Conference has provided engineer positions and funding to enhance operational capacity and focus on improvements to pastures and the expansion of the Kunia irrigation system.

Your Committee on Conference is conscious of the threat of invasive species to the State and supports the Department's efforts to improve awareness, interception, and enforcement practices. To this end, your Committee on Conference has provided positions and \$505,098 in fiscal year 2013-2014 and \$639,196 in fiscal year 2014-2015 in general funds for plant, pest, and bio control programs and \$215,568 in general funds for the Maui Plant Quarantine Inspector positions, where federal funding was recently reduced. Further, your Committee on Conference has provided positions and \$162,540 in general funds for the Detector Dog Program in Honolulu Airport to intercept illegal invasive species.

#### Business, Economic Development, and Tourism

As a public entity, the State has the unique capacity to develop policies and strategies and make investments that promote job growth, industry development, and financial stability to the benefit of all Hawaii's citizens. Your Committee on Conference supports the Department of Business, Economic Development, and Tourism's efforts to generate long term economic stability through strategic multi-industry investments, business community outreach and development, and the maximization of federal funds.

The Department has identified key investment opportunities over the upcoming fiscal biennium that are expected to help promote and sustain positive growth trends throughout the economy. Through strategic implementations of business incubators and accelerators, international tradeshows, and partnerships with innovative industries, the Department has demonstrated Hawaii's potential as a strong, productive leader in a globally-competitive market. As such, your Committee on Conference has provided funds to targeted areas that are expected to augment and maximize the Department's efforts. Among these general funded investments are: \$50,000 in fiscal year 2013-2014 for the Hawaii fashion industry; \$175,877 in fiscal year 2013-2014 and \$250,000 in fiscal year 2014-2015 for the Small Business State Trade Export Promotion program, which will receive a federal match of \$1,000,000; \$75,000 in fiscal year 2013-2014 for the operation of the Beijing and Taipei out of state offices; and \$100,000 for economic studies to track consumer trends and industry growth in Hawaii.

While the tourism industry continues to grow, your Committee on Conference is aware that the State is approaching visitor capacity. However, your Committee on Conference is also cognizant of various emerging industries that have already experienced or anticipate significant growth potential. Clean energy has proven to be a primary area of growth and activity in Hawaii's economy. Still on track to achieve Hawaii's seventy per cent clean energy goal by 2030, Hawaii has already ranked among the top three states in the nation for solar water heaters and performance contracting per capita, power purchase agreements, cumulative installed photovoltaic capacity per capita, and clean energy job growth. In support of continuing these positive trends, as well as to mitigate the risk of the State's tourism industry reaching a plateau, your Committee on Conference has provided \$1,855,000 in special funds and \$10,468,000 in other federal funds for clean energy initiatives and continued public private partnerships to develop advanced low emission and zero emission vehicles centered on electric drive technologies.

Your Committee on Conference is also mindful of the growing interest, support, and progress of aerospace projects and technologies and recognizes the importance of timely investment in a potentially landmark industry. To this end, and in accordance with the foresight of prior legislative bodies, your Committee on Conference has provided general funds to allow for continued operations of the Challenger Center Hawaii and Pacific International Space Center for Exploration Systems in the amount of \$248,656 and \$400,000, respectively.

Prior year reductions to the Department's budget and personnel resources continue to inhibit the Department's ability to capitalize on investment opportunities and perform various statutorily mandated duties in a timely manner. Your Committee on Conference recognizes the need to address these operational deficiencies and has worked with the Department to restore critical positions and target strategic investments. To this end, your Committee on Conference has provided positions in various divisions to support operational efficiency and oversight throughout the Department. Your Committee on Conference expects that with these added positions, the Department can accommodate the growing private sector demand for services, such as land use petitions and film permits, and utilize additional administrative and clerical support to diminish internal inefficiencies.

#### Commerce and Consumer Affairs

Your Committee on Conference recognizes the Department of Commerce and Consumer Affairs' role in delivering consumer protection services, including consumer education outreach and commerce regulation. Your Committee on Conference is concerned about unlicensed contracting and advocates education as a way to mitigate this concern. As such, your Committee on Conference has

provided \$612,922 in special funds for the Mortgage Foreclosure Dispute Resolution Program and \$150,000 in special funds to support consumer education campaigns over the 2013-2015 fiscal biennium.

#### Attorney General

Your Committee on Conference is aware that the federal government has decreased the percentage of federal funds that the Department of Human Services (DHS) may use to compensate the Department of the Attorney General for representation in Title IV-E cases from thirty-one per cent to twenty-five per cent. To better serve the Division, your Committee on Conference recognizes that the ability to manage more Title IV-E cases requires the Family Law Division to lease a space in closer proximity to the Family Law Court in Kapolei, Oahu. To this end, your Committee on Conference has provided \$145,000 in general funds for lease payments in the new Kapolei location.

Your Committee on Conference recognizes the importance of providing services to victims of crime. Therefore, your Committee on Conference has provided \$200,000 in fiscal year 2013-2014 in general funds to collect, compile, and disseminate timely and accurate restitution information to victims throughout the State. Your Committee on Conference is also cognizant of the fact that a substantial and disproportionate number of serious crimes are committed by repeat offenders. Your Committee on Conference wishes to assist in creating a safer community by focusing prosecution on repeat and violent offenders. In order to better protect the public from repeat offenders and to provide services and counseling to crime victims, your Committee on Conference has provided \$850,000 in general funds for the Career Criminal Prosecution Program and Victim Witness Program.

Your Committee on Conference has provided \$127,000 in fiscal year 2013-2014 and \$200,000 in fiscal year 2014-2015 in general funds for maintenance and operating costs for the Automated Fingerprint Identification System, which is essential to the operations of law enforcement and is used on-site by law-enforcement agents to conduct criminal background checks using both fingerprints and photo identification.

#### Taxation

Your Committee on Conference understands that in order to enhance the State's tax revenue stream, it is essential to modernize the tax system. Currently, the Department of Taxation lacks the tools necessary to efficiently collect proceeds that fund important state programs. Therefore, your Committee on Conference has provided positions and \$1,572,070 in fiscal year 2013-2014 and \$4,062,808 in fiscal year 2014-2015 in general funds to expedite the modernization. This funding will improve the State's ability to effectively manage tax collection and streamline operations to ultimately improve service delivery, access, and returns processing in the State's tax system.

#### Transportation

Your Committee on Conference understands the significance of managing the State's public airports, commercial harbors, and highways. Your Committee on Conference has provided funds for debt service payments for both the airports special fund and harbors special fund. This will allow for modernization and refurbishment of airport and harbor facilities across the State. Your Committee on Conference has also provided \$87,000,000 in special funds in fiscal year 2014-2015 for various special repair and maintenance projects across the State's airports, harbors, and roadways.

The Aloha Tower Development Corporation has presented complicated issues for your Committee on Conference in the past. As the partnership with Hawaii Pacific University continues to develop, your Committee on Conference supports this long-awaited movement toward committed investment in Aloha Tower by adding an administrative professional to manage the project. Your Committee on Conference has also approved special funds for a consulting contract for a Highways State Safety Oversight Agency that will work with the new rail-safety oversight officer at the Honolulu Authority for Rapid Transit on the Honolulu Rail Transit project.

Your Committee on Conference recognizes that airports are the primary means for travelers entering and leaving the State and that the Honolulu International Airport receives the bulk of incoming overseas travelers. Your Committee on Conference is dedicated to ensuring that the initial reception and last impression of travelers passing through Hawaii's airports is positive. For this purpose, your Committee on Conference has provided thirty-two janitorial positions and \$755,153 in fiscal year 2013-2014 and \$1,510,306 in fiscal year 2014-2015 in special funds to ensure that the Honolulu International Airport is well-maintained and instills a lasting impression of aloha.

#### Defense

Your Committee on Conference is aware of the positive impact tuition assistance programs can make for Hawaii National Guard service members. As such, your Committee on Conference has provided \$100,000 in general funds to support recruitment and retention by means of reimbursing service members for post-secondary education costs.

Your Committee on Conference acknowledges the importance of caring for our veterans. Therefore, your Committee on Conference has provided five additional Veterans Services Counselors and \$474,196 in general funds to support veterans across the State.

#### Labor and Industrial Relations

Your Committee on Conference recognizes that prior year reductions have greatly affected the day-to-day operations of the Disability Compensation Division (DCD). Current staffing levels have limited the Division's ability to meet its duties, as described in Act 206, Session Laws of Hawaii 2011, resulting in worker's compensation claim decisions taking up to four months. The Division also faces an increasing number of cases for temporary disability insurance claims. It is the priority of your Committee on Conference to reduce the growing backlog of DCD cases and help the Department of Labor and Industrial Relations address these pressing cases for the State. To this end, your Committee on Conference has provided positions and \$244,000 in fiscal year 2013-2014 and \$488,000 in fiscal year 2014-2015 in general funds to alleviate the backlog of disability compensation cases.

Human Resources Development

Your Committee on Conference understands the need for adequate staffing to fulfill departmental responsibilities. The Department of Human Resources Development has struggled to complete timely and effective recruitment actions as a result of significant budget cuts in prior years. Therefore, your Committee on Conference has provided positions and \$104,826 in fiscal year 2013-2014 and \$190,452 in fiscal year 2014-2015 in general funds to address these deficiencies and alleviate the vacancy backlog throughout the State.

Your Committee on Conference is aware of the rising cost and occurrence of workers' compensation claims as well as the Department of Human Resources Development's responsibility to pay such claims to injured state employees as required by state law. To this end, your Committee on Conference has provided \$457,000 in fiscal year 2013-2014 and \$545,000 in fiscal year 2014-2015 in general funds for these obligations.

**VII. CAPITAL IMPROVEMENTS PROGRAM**

Your Committee on Conference finds that the State's economic outlook continues to improve steadily. The infusion and investments made in state facilities over the past biennium has contributed to overall savings for our residents and has produced a steady increase in job creation for the construction industry as well. However, despite the increase in revenue collections and strengthening fiscal year ending balances, your Committee on Conference acknowledges that construction and service industries have not yet returned to pre-recession levels. Your Committee on Conference recognizes the need to support a sustained capital improvement program that will diversify the State's economy, while streamlining government operations in a responsible manner.

Accordingly, your Committee on Conference has provided \$980,506,000 in general obligation and general obligation reimbursable bonds and \$2,246,060,000 in all means of financing for fiscal year 2013-2014; and \$387,346,000 in general obligation bonds and \$843,817,000 in all means of financing in fiscal year 2014-2015.

While developing the capital improvement project budget, your Committee on Conference recognized the need to address the repair and maintenance and health and safety project backlogs that continue to plague the State's agencies and departments. Your Committee on Conference believes that this capital improvement project budget addresses the most basic necessities of many state facilities and remains cautiously optimistic about the future growth and technological advancement of state operations.

Highlights of the capital improvement project budget for the biennium include over \$454,009,000 in appropriations for the Department of Education to address school improvements, upgrades, and renovations. Appropriations for the Department of Education include funding for critical issues at many existing school campuses, such as the modernization project at Farrington High School. In addition, your Committee on Conference acknowledges the importance of investing in the future needs of the State's keiki and thus has provided funding for a number of new schools across the State, including East Kapolei Middle School, East Kapolei High School and Kihei High School.

To help the University of Hawaii address the needs of campus facilities statewide, your Committee on Conference has approved over \$233,094,000. Of those funds, \$30,000,000 has been designated for renovations and improvements of Snyder Hall at the University of Hawaii Manoa campus and \$50,000,000 has been designated for capital renewal and deferred maintenance of facilities statewide. Furthermore, your Committee on Conference sought to invest in the community college system by appropriating \$38,213,000 for the new advanced technology and training center at the Honolulu Community College, as well as \$10,000,000 for minor capital improvement projects for all community college facilities.

Your Committee on Conference has continuing concerns for the State's transportation infrastructure, which is a vital component of the State's long-term economic viability. Investment in airports, harbors, and highways is necessary to address the continued influx of visitors, the efficient transport of goods within and without the State, and the day-to-day needs of our residents. Your Committee on Conference has demonstrated its commitment to transportation projects by appropriating, for fiscal biennium 2013-2015, \$1,275,747,000 for the Department of Transportation, including \$299,696,000 for state highways on every island.

Your Committee on Conference believes that the capital improvement projects within this budget will help the State to maintain the long-term viability of its current facilities, while also laying the foundation for the State to improve its operating efficiency through technological infrastructure development and modernization.

**VIII. CONCLUSION**

Your Committee on Conference has adjusted the Governor's operating budget request by providing through this measure:

- (1) \$6,036,556,466 in general funds and \$11,819,318,188 in all means of financing for fiscal year 2013-2014; and
- (2) \$6,123,494,985 in general funds and \$11,988,000,674 in all means of financing for fiscal year 2014-2015.

Your Committee on Conference has also made numerous technical nonsubstantive amendments for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 200, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 200, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani, Chun Oakland, Dela Cruz, English, Espero, Kahele, Keith-Agaran, Kouchi, Ruderman, Thielen, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 13; Ayes with Reservations (Slom). Noes, none. Excused, none.

Representatives Luke, Cullen, Hashem, Ing, Jordan, Kobayashi, Lowen, Morikawa, Nishimoto, Onishi, Takayama, Tokioka, Woodson, Yamashita, Fukumoto, Johanson and Ward.

Managers on the part of the House.

Ayes, 17. Noes, none. Excused, none.

**Conf. Com. Rep. 106 on H.B. No. 222**

Your Committee on Conference recognizes the significance of the services and advocacy that the Office of Hawaiian Affairs (OHA) provides its beneficiaries and acknowledges the need to ensure that OHA has sufficient resources to continue these services.

Your Committee on Conference has provided \$250,000 in general funds and \$250,000 in trust funds for 'Oiwai Television, Hawaii's first and only Native Hawaiian television station. Your Committee on Conference is cognizant of OHA's focus on educational enrichment programs in the community, especially for Native Hawaiian K-12 programs. As such, your Committee on Conference has provided \$134,430 in general funds and \$134,430 in trust funds for OHA to enhance academic services for its beneficiaries. Your Committee on Conference understands the importance of health care and making health services accessible. To this end, your Committee on Conference has provided \$400,000 in general funds and \$400,000 in trust funds in fiscal year 2013-2014 for OHA's direct health services and prevention programs.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 222, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 222, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Ige, Keith-Agaran, Hee and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Hanohano, Luke, Nishimoto and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 107 on H.B. No. 197**

The purpose of this bill is to appropriate funds for the operating budget and capital improvement project budget of the Judiciary for the 2013-2015 fiscal biennium.

In concert with the decision to restore the five per cent labor savings reduction to agencies statewide, your Committee on Conference has provided \$4,134,343 in general funds to the Judiciary to restore funds for labor costs. In addition, your Committee notes that scheduled pay increases for judges as called for by the 2006 Commission on Salaries were previously deferred. Your Committee on Conference is now able to restore judges' salaries to the amounts scheduled for fiscal year 2013-2014 by the Commission on Salaries. As such, your Committee on Conference has provided \$4,465,777 in general funds to restore judges' salaries in various judiciary programs.

Your Committee on Conference is cognizant of the need to reinvest in judiciary programs that partner with private and nonprofit providers to administer assessments, treatment, counseling, and shelter services. Investments in these services reduce recidivism and corresponding incarceration costs as well as increase accessibility to court resources for domestic violence victims and drug court offenders, juveniles and adults alike. To this end, your Committee on Conference has provided \$718,438 in general funds to restore funding for purchase of service contracts in the Judiciary.

Your Committee on Conference also supports the public-private partnerships between the Judiciary and the community, particularly the Hawaii Children's Justice Centers (Centers). These programs bring together professionals to coordinate their activities and investigations of child abuse and neglect. Lack of professional support and neighbor island outreach for forensic specialist services at the Centers have resulted in many child victims going without timely assessment and returning home to face abuse and neglect. To address these problems, your Committee on Conference has provided \$95,652 in fiscal year 2013-2014 and \$186,804 in fiscal year 2014-2015 in general funds to support neighbor island Children Justice Centers in the upcoming biennium.

Your Committee on Conference is aware of the high demand for legal services for Hawaii's vulnerable populations. The Judiciary works with the legal community to provide subsidized court services to those who cannot afford to pay on their own. Act 180, Session Laws of Hawaii 2011, included a provision that increased surcharges for various court services in calendar year 2012, which was intended to increase funds available for deposit into the Indigent Legal Assistance Fund (Fund) and expand the Judiciary's capacity to provide low- and moderate income residents with additional access to legal services. However, the lack of a concurrent increase in the Fund's expenditure ceiling has resulted in the Judiciary's inability to expend the additional moneys for their intended purpose. To address this administrative anomaly, your Committee on Conference has authorized a special fund expenditure of an additional \$1,000,000 from the Indigent Legal Assistance Fund.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 197, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 197, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige, Kouchi, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Representatives Rhoads, Luke, Nishimoto and Johanson.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 108 on H.B. No. 471**

The purpose of this measure is to address light pollution issues and preserve the quality of the night sky by extending the term of the temporary Starlight Reserve advisory committee for an additional year from June 30, 2013, to June 30, 2014.

Your Committee on Conference has amended this measure by:

- (1) Extending the term of the temporary Starlight Reserve advisory committee for an additional year, from June 30, 2014, to June 30, 2015, for a total two-year extension; and
- (2) Changing its effective date to June 29, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 471, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 471, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Espero, English, Green and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Representatives Tsuji, Takayama, Cachola and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 109 on H.B. No. 653**

The purpose of this measure is to support the construction and renovation of health care facilities by authorizing the Department of Budget and Finance to issue \$175,000,000 in special purpose revenue bonds to assist Hawai'i Pacific Health with the construction or renovation of health care facilities.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the special purpose revenue bonds in the bill relate to not-for-profit corporations that provide health care facilities to the general public; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 653, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 653, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Morikawa, Kobayashi and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 110 on H.B. No. 928**

The purpose of this measure is to clarify that certain funds of the Department of Labor and Industrial Relations are trust funds. More specifically, this measure renames the following funds as trust funds:

- (1) The unemployment compensation fund, established pursuant to section 383-121, Hawaii Revised Statutes (HRS);
- (2) The special compensation fund, established pursuant to section 386-151, HRS;
- (3) The special fund for disability benefits, established pursuant to section 392-61, HRS; and
- (4) The special premium supplementation fund, established pursuant to section 393-41, HRS.

Your Committee on Conference has amended this measure by:

- (1) Changing references to "legislative auditor" to "state auditor";
- (2) Making conforming amendments to sections 36-27(a) and 36-30(a), HRS, to remove references to the unemployment compensation fund since these sections refer specifically to special funds; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 928, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 928, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kouchi, Keith-Agaran, Kidani and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Representatives Nakashima, Hashem, Yamashita and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 111 on H.B. No. 977**

The purpose of this measure is to increase highway safety by conforming state law with recent changes to federal regulations relating to commercial driver licensing. More specifically, this measure provides for a commercial learner's permit and implements various other changes to enhance the commercial driver license program.

Your Committee on Conference has amended this measure by:

- (1) Requiring all commercial driver's licenses that are surrendered to be shredded;
- (2) Requiring the examiner of drivers to accept test scores of a Hawaii commercial learner's permit holder under specified conditions; and
- (3) Clarifying the circumstances under which a Hawaii commercial driver's license shall be issued.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 977, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 977, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Espero, Ige, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Kahele).

Representatives Yamane, McKelvey, Har, Ito, Nakashima and Cheape.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Har, Nakashima).

**Conf. Com. Rep. 112 on H.B. No. 218**

The purpose of this measure is to enhance the Corrections Population Management Commission's capacity to examine the issue of the disproportionate number of Native Hawaiians in the criminal justice system by adding two new members to the Commission as follows:

- (1) The Administrator of the Office of Hawaiian Affairs; and
- (2) A member of the public who is knowledgeable on issues relating to the criminal justice system and has substantial experience or expertise in traditional Native Hawaii practices.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 218, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 218, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Galuteria, Chun Oakland, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Hanohano, Aquino, Cullen, Ing and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ing).

**Conf. Com. Rep. 113 on H.B. No. 1430**

The purpose of this measure is to appropriate unspecified sums for the establishment and operation of a comprehensive service center for the deaf, hard of hearing, and deaf-blind.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$400,000 for fiscal year 2013-2014 and deleting the appropriation amount for fiscal year 2014-2015; and
- (2) Changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1430, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1430, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani, Green, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Carroll, Kobayashi, Tokioka and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 114 on H.B. No. 424**

The purpose of this measure is authorize the Governor to appoint commissioners of deeds to administer oaths, take acknowledgements, and take proofs of execution outside of the United States in connection with the execution of conveyance documents relating to time shares.

This measure also:

- (1) Requires commissioners of deeds to provide a written notice to each person whose signature is witnessed or acknowledged by the commissioner;
- (2) Establishes bonding requirements, penalties, and liabilities for commissioners of deeds; and
- (3) Appropriates unspecified funds for expenses incurred by the Office of the Lieutenant Governor related to administrative requirements for the commissioners of deeds program.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the appropriation amount out of the general revenues of the State of Hawaii shall be \$60,000 or so much thereof as may be necessary for fiscal years 2013-2014 and 2014-2015 for expenses incurred by the Office of the Lieutenant Governor related to establishing and administering the commissioners of deeds program;
- (2) Specifying that this measure shall take effect on July 1, 2013; provided that the Governor shall appoint commissioners no later than July 1, 2014; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 424, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 424, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Nishimoto, Evans and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 115 on H.B. No. 632**

The purpose and intent of this measure is to require executive departments to share data with the public.

Specifically, this measure:

- (1) Requires executive departments to use reasonable efforts to make appropriate and existing electronic data sets available to the public through the State's open data portal;
- (2) Absolves the State of liability for deficient or inaccurate information contained in the data sets, except for instances involving gross negligence, wilful and wanton misconduct, or intentional misconduct;
- (3) Authorizes the Chief Information Officer to license the data sets that are on the open data website to third parties to copy, display, distribute, or create derivative works;
- (4) Requires the Chief Information Officer to establish data set policies and procedures; and
- (5) Appropriates unspecified funds for the establishment of positions to promote open data and for open data coordinators for departments and agencies.

Your Committee on Conference has amended this measure by:

- (1) Specifying that this Act is not intended to limit or expand a person's ability to access a public record under Chapter 92F, Hawaii Revised Statutes;
- (2) Amending the definition of "data set" to exclude any data that is protected from disclosure under applicable federal or state law, or contract, or data that is proprietary;
- (3) Deleting the definition of "open data";

- (4) Specifying that disclosure of a data set shall be consistent with Chapter 92F, Hawaii Revised Statutes, and other state and federal laws related to security and privacy;
- (5) Specifying that standards to determine which data sets are appropriate for online disclosure developed by the Chief Information Officer and Office of Information Practices shall not require departments to post information that is otherwise required to be disclosed under Chapter 92F, Hawaii Revised Statutes, but is personally identifiable information that may pose a personal or public security risk, is of minimal public interest, or is otherwise inappropriate for online disclosure as part of a data set;
- (6) Inserting an appropriation amount of \$100,000 for fiscal years 2013-2014 and 2014-2015 for the Office of Information Practices to establish one full-time equivalent position to promote open data pursuant to this Act;
- (7) Deleting language appropriating funds for departments and agencies to provide open data coordinators;
- (8) Changing the effective date of this measure to July 1, 2013; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 632, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 632, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Hee, Chun Oakland, Ihara and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives McKelvey, Tsuji, Cullen, Brower and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 116 on H.B. No. 1396**

The purpose of this bill is to preserve, perpetuate, and share the legacy of Americans of Japanese ancestry who served in the armed forces of the United States, as well as those who were detained in internment camps, during World War II. Specifically, this measure:

- (1) Appropriates an unspecified amount to the University of Hawaii at West Oahu for the planning, design, and construction of the Nisei Veterans Legacy Center;
- (2) Requires the University of Hawaii at West Oahu to report to the 2014 Legislature on the status of the Nisei Veterans Legacy Center, including the status of public and private grants or donations;
- (3) Appropriates an unspecified amount to continue the work of the Honouliuli Park Site Project Advisory Group;
- (4) Requires the Honouliuli Park Site Project Advisory Group to report to the 2014 Legislature on the Group's recommendations to leverage funding for a Honouliuli Internment Site educational resource center and the status of designating the Honouliuli internment prisoner of war camp site and associated sites as part of the United States National Park Service; and
- (5) Conditions the expenditure of all appropriations in the measure on the funds being matched by private or public grants or donations.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$150,000 for Fiscal Year 2013-2014 to the University of Hawaii at West Oahu to be used only for the planning and design of the Nisei Veterans Legacy Center and not for construction;
- (2) Deleting all provisions and references relating to the Honouliuli Internment Site and Honouliuli Park Site Project Advisory Group;
- (3) Changing its effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1396, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1396, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Solomon, Chun Oakland, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

Representatives Takai, Choy, Cullen, Ito and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 117 on H.B. No. 114**

The purpose of this measure is to ensure the effective management of the University of Hawaii's facilities and fiscal resources by, among other things:

- (1) Temporarily requiring the Administrator of the State Procurement Office, rather than the President of the University, to be the chief procurement officer for the University of Hawaii for construction procurements;
- (2) Temporarily requiring all procurements for construction, other than those for repair and maintenance, to be supervised by the Department of Accounting and General Services on behalf of the Board of Regents; and
- (3) Statutorily establishing an Independent Audit Committee within the Board of Regents.

This measure also appropriates an unspecified amount in general revenues to the Department of Accounting and General Services for additional staff positions to supervise assigned University of Hawaii construction projects for new buildings.

Your Committee on Conference recognizes that the Administrator of the State Procurement Office currently acts as the chief procurement officer for many executive branch departments and believes that the Office has the expertise to oversee the University's construction projects, including the use of professional services.

Your Committee on Conference also finds that by designating the Administrator as the chief procurement officer for construction projects and professional services, the Administrator will have the ability to review procurement procedures. It is the intent of your Committee on Conference to provide the Administrator with the broadest flexibility to carry out the purposes of this measure.

In addition, it is the intent of your Committee on Conference that the University work with the Department of Accounting and General Services to ensure that the procurement process is faithfully adhered to and that sound judgment is used in the selection of professional services and public fund expenditures. Your Committee on Conference recognizes that the Department of Accounting and General Services has the expertise and experience to assist the University with its procurement of professional services. Your Committee realizes, however, that repair and maintenance is most efficiently executed outside the purview of this measure.

Your Committee on Conference realizes that transferring every aspect of construction projects to the Department of Accounting and General Services may be premature at this time and that an assessment of resources and capacity should be made prior to committing to such a transfer.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Permitting the President of the University of Hawaii to continue to serve as the chief procurement officer for construction procurements for professional services determined by both the University and the Department of Accounting and General Services to be for repair and maintenance;
- (2) Deleting the requirement that construction procurement, including consultant services, with specified exceptions, be subject to the supervision of the Department of Accounting and General Services;
- (3) Requiring procurements for professional services for construction projects to be coordinated with the Department of Accounting and General Services, with the exception of those procurements determined by both the University and the Department to be professional services for repair and maintenance;
- (4) Exempting the Independent Audit Committee from the Administrative Procedure and Sunshine Laws to the extent that the Committee is engaged in discussions or proceedings arising from an investigation by the Committee relating to potentially actionable civil or criminal conduct;
- (5) Narrowing the Independent Audit Committee's responsibility to review complaints related to accounting and auditing to those the Committee deems necessary for review;
- (6) Deleting the appropriation to the Department of Accounting and General Services for additional staff positions to supervise assigned University of Hawaii construction projects for new buildings;
- (7) Changing its effective date to July 1, 2013, and removing the two-year sunset requirement; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 114, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 114, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Dela Cruz, Ige, Kahele, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 2 (Kouchi, Slom).

Representatives Choy, Luke, Nakashima and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 118 on H.B. No. 430**

The purpose of this measure is to exempt deductible charitable contributions from the temporary limit on the amount of itemized tax deductions claimable by certain taxpayers.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 430, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 430, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Keith-Agaran, Kidani, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto, Yamashita and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Yamashita).

**Conf. Com. Rep. 119 on H.B. No. 1263**

The purpose of this measure is to protect Hawaii's agricultural industry by appropriating two fiscal years of funding to operate and maintain the East Kauai Irrigation System.

Your Committee on Conference has amended this measure by:

- (1) Inserting a one-year appropriation of \$75,000 for improvements to the East Kauai Irrigation System;
- (2) Including a one-year appropriation of \$45,000 for improvements to the Peekauai Ditch Irrigation System, also known as Menehune Ditch, and all appurtenances thereto;
- (3) Changing its effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1263, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1263, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Solomon, Kouchi, Ige and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Wooley, Evans, Onishi, Cachola and Cheape.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Cachola).

**Conf. Com. Rep. 120 on H.B. No. 775**

The purpose of this measure is to appropriate funds to satisfy claims against the State or its officers or employees for the overpayment of taxes, or for refunds, reimbursements, payments of judgments or settlements, or other liabilities.

Your Committee on Conference has amended this measure by adding two new claims against the State as follows:

- (1) Gilchrist v. Kimoto, et al., Civil No. 12-13-00147 SOM-BMK, USDC, in the amount of \$14,000.00; and
- (2) Evelyn Cho in the amount of \$1,628.33.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 775, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 775, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Slom.

Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, none.

Representatives Rhoads, Cullen, Carroll and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 121 on H.B. No. 1068**

The purpose of this measure is to promote services for victims of human trafficking by:

- (1) Requiring certain establishments to post and keep posted information regarding the National Human Trafficking Resource Center Hotline in a conspicuous place near the establishment's primary public entrance or another area where posters and notices are customarily posted;
- (2) Defining the term "establishment" to mean a place of employment that:
  - (A) Holds a liquor dispenser license or cabaret license;

- (B) Is a hospital emergency room;
  - (C) Is a massage therapy establishment; or
  - (D) Is a farm operation employing five or more persons; and
- (3) Establishing a fine for the wilful and knowing failure, neglect, or refusal to post the required information.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that certain employers shall post and keep posted the National Human Trafficking Resource Center Hotline required notice in a place readily accessible to employees;
- (2) Limiting the posting requirement to employers that:
  - (A) Hold a liquor dispenser license or cabaret license;
  - (B) Maintain a massage therapy establishment that employs five or more people; or
  - (C) Employ one or more erotic or nude massagers or erotic or nude dancers;
- (3) Eliminates the Department of Labor and Industrial Relations' authorization to contract with State or county agencies to implement or enforce the notice requirements relating to human trafficking;
- (4) Changing its effective date to January 1, 2014; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1068, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1068, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Hee, Espero, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Wooley, McKelvey, Cabanilla, Cachola, Carroll and Thielen.

Managers on the part of the House.

**Conf. Com. Rep. 122 on H.B. No. 1424**

The purpose of this measure is to require the Department of Land and Natural Resources to engage in efforts to acquire the parcel of land located at Lipoa Point and to ensure, to the maximum extent possible, that the seller of the lands uses the proceeds of the sale to benefit the pension plan of retirees of the Maui Land and Pineapple Company, Inc.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Department of Land and Natural Resources is required to engage to acquire the parcel of land located at Lipoa Point;
- (2) Deleting the reference to the Land Conservation Fund, section 173A-5(i), Hawaii Revised Statutes;
- (3) Specifying that the Department of Land and Natural Resources shall ensure, to the maximum extent practicable, that the proceeds from the sale of the lands are used to benefit the pension plan of retirees of the Maui Land and Pineapple Company, Inc.;
- (4) Providing that the provisions of the bill shall not be construed to obligate the State for the pension fund liabilities; and
- (5) Changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1424, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1424, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Kouchi, Dela Cruz, Ige and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kouchi, Slom).\*

\*On April 30, 2013, Senator Kouchi noted a correction to the record of votes, which reads as follows:

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Hanohano, Evans, Cullen, Coffman and Fale.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 123 on H.B. No. 266**

The purpose of this measure is to enhance language access in Hawaii for those individuals whose primary language is not English. Specifically, this bill:

- (1) Requires the Office of Language Access, in collaboration with other state agencies, to implement a Multilingual Website Pilot Project that will improve language access to information provided online for limited English proficient persons seeking information about government and government-funded services in the State of Hawaii;
- (2) Requires the Executive Director of the Office of Language Access to administer a Statewide Language Access Resource Center that will address the interpretation and translation needs of the State;
- (3) Authorizes the Executive Director of the Office of Language Access to hire personnel necessary to staff the Statewide Language Access Resource Center and to administer the multilingual website;
- (4) Establishes minimum staffing requirements for staffing of the Statewide Language Access Resource Center and administration of the multilingual website, and requiring that bilingual personnel be used to the extent possible;
- (5) Requires the Executive Director of the Office of Language Access to consult with the Office of Information Management and Technology in developing the multilingual website; and
- (6) Appropriates unspecified amounts for the Statewide Language Access Resource Center and the Multilingual Website Pilot Project.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$170,000 for fiscal year 2013-2014 and \$170,000 for fiscal year 2014-2015 for the Statewide Language Access Resource Center;
- (2) Appropriating \$80,000 for fiscal year 2013-2014 and \$80,000 for fiscal year 2014-2015 for the Multilingual Website Pilot Project;
- (3) Changing its effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 266, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 266, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani, Green, Ige and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Morikawa, Jordan and Fukumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 124 on H.B. No. 672**

The purpose of this measure is to reduce the number of minors and youth who smoke by:

- (1) Prohibiting the sale of electronic smoking devices to minors and the purchase of these items by minors; and
- (2) Requiring retailers to sell tobacco products only in a direct face-to-face exchange between the retailer and consumer, except for retail tobacco stores, bars, or establishments where the minimum age for admission is eighteen.

Your Committee on Conference has amended this measure by:

- (1) Exempting duty-free sales enterprises selling duty-free merchandise from the requirement that retailers sell tobacco products only in a direct, face-to-face exchange;
- (2) Changing its effective date to upon approval, provided that the requirement that certain retailers sell tobacco products only in a face-to-face exchange takes effect on July 1, 2014; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 672, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 672, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Galuteria, Nishihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

Representatives Belatti, McKelvey, Onishi, Brower and Fukumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Brower, Onishi).

**Conf. Com. Rep. 125 on H.B. No. 1147**

The purpose of this measure is to encourage transparency in the elections process by:

- (1) Requiring noncandidate committees that make only independent expenditures to identify certain top contributors in their advertisements, while providing an exemption for any radio or television advertisement of such short duration that the identification of top contributors would constitute a hardship;
- (2) Clarifying that all fines collected for the failure to file candidate or noncandidate committee reports, or for the filing of substantially defective or deficient reports shall be deposited into the general fund;
- (3) Requiring all reports filed with the Campaign Spending Commission to be made publicly available on the Commission's website in a searchable database;
- (4) Expanding the information regarding contributions and expenditures required to be disclosed in noncandidate committee reports;
- (5) Requiring noncandidate committees making only independent expenditures to certify that no expenditures have been coordinated with a candidate, candidate committee, or any agent thereof;
- (6) Establishing reporting requirements for late expenditures made shortly before an election;
- (7) Expanding the information required to be included in statements of information filed for electioneering communications;
- (8) Broadening the definition of "electioneering communication" to include any advertisement that is published by electronic means;
- (9) Amending disclosure requirements for advertisements; and
- (10) Repealing corporate campaign contribution reporting requirements that are redundant with filing requirements for noncandidate committees, which are made applicable to corporations by this measure.

Your Committee on Conference finds that additional disclosure of information regarding election campaign contributions and expenditures is necessary due to the recent decision of the United States Supreme Court in *Citizens United v. Federal Election Commission*, 558 U.S. 310 (2010), and subsequent case law. These decisions have led to the proliferation of SuperPACS, noncandidate committees who make only independent expenditures, and their virtually unlimited spending in the political arena.

Hawaii's experience in the most recent election cycle, when SuperPACs were formed and enormous quantities were expended on campaign advertising aiming to influence voters, demonstrates the need to amend the state's campaign finance laws in order to give the public access to information about who is influencing elections. Many of the noncandidate committees that certified to the state Campaign Spending Commission that they were making only independent expenditures during the 2012 election had contributors who contributed very large sums of money, at or above \$10,000 from each contributor in the aggregate. Further, many had contributors who contributed over \$50,000, \$100,000, and \$150,000. These numbers are quite significant in light of the fact that many of Hawaii's electoral races cover small areas or constituencies.

Current law requires only that the name of the SuperPAC, which can be meaningless or misleading, be disclosed in a campaign advertisement. This level of disclosure is inadequate to provide the electorate with information showing the true source of the funds behind the advertising seeking to influence their vote at the time the advertisement reaches the public. The additional reporting requirement for campaign advertisements creates more effective disclosure by requiring the disclosure of top contributors to big money SuperPACs in the advertisements themselves, so that the true funding sources are made transparent to the public.

Accordingly, your Committee on Conference has amended the measure by:

- (1) Clarifying that where a noncandidate committee that makes only independent expenditures has more than three top contributors who contributed in equal amounts, the noncandidate committee may select which of the top contributors to identify;
- (2) Changing the effective date to November 5, 2014; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1147, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1147, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Cullen, Takayama and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 126 on S.B. No. 593**

The purpose of this measure is to:

- (1) Expand the livestock feed subsidies program to include milking goats, goats raised for meat, sheep, lambs, fish, and crustaceans;
- (2) Create a livestock feed developer subsidy; and
- (3) Appropriate funds for the Livestock Revitalization Program.

Your Committee on Conference finds that the cost of feed for livestock production in Hawaii constitutes up to seventy percent of total production costs, a significant amount more than production costs for mainland producers. Many livestock farms have gone out of business, primarily due to the rising cost of feed and the farms' inability to compete with mainland suppliers. To improve Hawaii's self-sufficiency, this measure provides financial assistance to livestock producers to maintain and stabilize the livestock industry in the State.

Your Committee on Conference has amended this measure by:

- (1) Removing language establishing grant subsidies for qualified feed developers in chapter 155D, Hawaii Revised Statutes, and deleting all reference to qualified feed developer grants, including a new definition for qualified feed developer and an appropriation for qualified feed developer grants;
- (2) Inserting an appropriation amount of \$1,500,000 to the Agricultural Development Division of the Department of Agriculture for livestock feed subsidies and administrative costs of the Livestock Revitalization Program and deleting the appropriation for fiscal year 2014-2015;
- (3) Removing the \$250,000 per year cap on grants to qualified producers;
- (4) Inserting an effective date of July 1, 2013; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 593, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 593, S.D. 2, H.D. 1, C.D. 1.

Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Takayama).

#### **Conf. Com. Rep. 127 on S.B. No. 614**

The purpose of this measure is to appropriate funds for the Comptroller and the State Foundation on Culture and the Arts to commission permanent works of art to honor the late United States Senator Daniel K. Inouye and the late United States Representative Patsy T. Mink.

Your Committee on Conference finds that commissioning works of art to honor the accomplishments and contributions of the late Senator Inouye and the late Representative Mink will perpetuate their legacies and inspire future generations in Hawaii. Your Committee on Conference further finds that works of art portraying Senator Inouye and Representative Mink will properly honor the memories of these extraordinary individuals.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have specified the locations at which the works of art honoring Senator Inouye and Representative Mink are to be installed;
- (2) Inserting an appropriation amount of \$250,000 for the works of art; and
- (3) Inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 614, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 614, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Nishihara, Kouchi, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Takai, Takayama, Brower and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Brower).

#### **Conf. Com. Rep. 128 on S.B. No. 635**

The purpose of this measure is to protect law enforcement animals in the line of duty. Specifically, this measure:

- (1) Creates the offense of cruelty to a law enforcement animal in the first and second degrees;
- (2) Establishes penalties; and
- (3) Provides exceptions to the offenses, affirmative defenses, and restitution to certain affected parties.

Your Committee on Conference finds that law enforcement animals are an integral part of Hawaii's law enforcement and corrections agencies and are hand-selected and highly trained for their jobs. These animals diligently work side-by-side with law enforcement officers, deputies, and other personnel and should be afforded special protections. This measure protects law enforcement animals in the line of duty.

Your Committee on Conference has amended this measure by adopting the H.D. 1 version of this measure which:

- (1) Adds the definition of "law enforcement animal" to section 711-1110, Hawaii Revised Statutes;
- (2) Amends section 711-1109.4, Hawaii Revised Statutes, to include recklessly causing substantial bodily injury to or death of any law enforcement animal under the offense of causing injury or death to a service dog; rename the offense; provide certain exceptions to this offense; establish that a violation is a class C felony; provide restitution; and establish an affirmative defense;
- (3) Amends section 711-1109.5, Hawaii Revised Statutes, to include intentionally or knowingly striking, beating, kicking, stabbing, shooting, or administering any type of harmful substance or poison to a law enforcement animal under the offense of intentional interference with the use of a service dog; rename the offense; provide certain exceptions to this offense; establish that a violation is a misdemeanor; and provide restitution; and
- (4) Inserts an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 635, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 635, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Ito, Ing, Takumi and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Takumi, McDermott).

**Conf. Com. Rep. 129 on S.B. No. 82**

The purpose of this measure is to:

- (1) Authorize the Hawaii Public Housing Authority to receive, use, and dispose of property and sell real property subject to legislative approval;
- (2) Authorize the Authority to receive gifted property to benefit public housing residents under certain conditions;
- (3) Authorize the Authority to engage the services of volunteers; and
- (4) Require the Legislature to establish federal and state low-income housing preferences for tenant eligibility in any contract for financial assistance and preferences for tenant selection by the Hawaii Public Housing Authority, other than those established by federal law.

Your Committee on Conference finds that projects that assist the Hawaii Public Housing Authority in rehabilitating vacant units need physical labor, electrical wiring, and plumbing. Many volunteers come to the Authority to improve their community by creating projects and rehabilitating vacant units. These projects contribute to positive community relations as well as provide needed housing for individuals.

Your Committee on Conference further finds that the Hawaii Public Housing Authority selects tenants upon the basis of those greatest in need but that greater direction to the Hawaii Public Housing Authority is needed to determine the availability of units for applicants with and without preferences.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have required the Legislature to determine any preferences not established pursuant to federal law in regard to tenant eligibility or preference in a contract for financial assistance with the Hawaii Public Housing Authority;
- (2) Removing language that would have required the Legislature to establish any preferences except for any preferences established by federal law in regard to housing and tenant selection by the Hawaii Public Housing Authority;
- (3) Inserting language that requires the Hawaii Public Housing Authority to make available not less than fifty percent of available federal and state low-income housing units for applicants without preference and up to fifty percent of available federal and state low-income housing units for applicants with preference;
- (4) Changing the effective date to July 1, 2013; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 82, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 82, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani, Ige, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Taniguchi).

Representatives Cabanilla, Woodson, Carroll and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 130 on S.B. No. 946**

The purpose of this measure is to establish proactive measures to reduce the unfunded liabilities of the State and counties for employee health benefit obligations.

More specifically, this measure:

- (1) Convenes and makes an unspecified appropriation in fiscal year 2013-2014 to a Hawaii employer-union health benefits trust fund task force that is placed within the Department of Budget and Finance to examine the unfunded liability of the Hawaii employer-union health benefits trust fund (EUTF);
- (2) Establishes the Hawaii employer-union health benefits trust fund captive insurance company (captive insurance company) to provide its subscribers with a means of financing and managing their contractual obligations to provide health insurance, group life insurance, and other benefits to their employees;
- (3) Establishes a board of trustees to govern the captive insurance company whose trustees are appointed by the Governor to represent retirees, employee-beneficiaries, public employers, and the counties;
- (4) Establishes a Hawaii employer-union health benefits trust fund captive insurance company fund within the Department of Budget and Finance to provide public employee-beneficiaries and their beneficiaries with health and other benefit plans;
- (5) Establishes a Hawaii employer-union health benefits trust fund captive insurance company reserve account within the Department of Budget and Finance to be used as a reserve against or to pay future costs of providing health and other benefit plans;
- (6) Establishes a Hawaii employer-union health benefits trust fund captive insurance company minimum capital and surplus account within the Department of Budget and Finance to hold the minimum capital and surplus amounts established by the Insurance Commissioner; and
- (7) Repeals the EUTF, and transfers its rights, powers, functions, and duties to the captive insurance company.

After careful deliberation, your Committee on Conference has amended this measure by:

- (1) Reorganizing the measure by eliminating the designation of parts and making the title of the former part II that established the captive insurance company and the accompanying preamble applicable to the entire measure;
- (2) Clarifying that one of the primary purposes of the captive insurance company is to provide the public employers, rather than subscribers, with a means of financing and managing their contractual obligations to provide health insurance, group life insurance, and other benefits to their employees;
- (3) Replacing the administrator of the captive insurance company with an attorney-in-fact and deleting provisions relating to the powers and duties of the administrator;
- (4) Specifying that the trustee who represents the counties shall be recommended by the Hawaii Association of Counties;
- (5) Replacing the voting method of one vote per group of trustees with the voting method of one vote per individual trustee;
- (6) Renaming the Hawaii employer-union health benefits trust fund captive insurance company reserve account as the Hawaii employer-union health benefits trust fund captive insurance company rate stabilization reserves and deleting the initial balance requirements, the authorization to cover catastrophic health events, and other specified powers;
- (7) Deleting the Hawaii employer-union health benefits trust fund captive insurance company minimum capital and surplus account;
- (8) Establishing the Hawaii employer-union health benefits trust fund captive insurance company other post employment benefits reserve fund within the Department of Budget and Finance to be used as a reserve for the future costs of providing other post employment benefits to retirees and their beneficiaries when there are insufficient moneys to cover current claims in the Hawaii employer-union health benefits trust fund captive insurance company fund;
- (9) Requiring employers to make annual required contributions, as determined by the board of trustees, to the Hawaii employer-union health benefits trust fund captive insurance company other post employment benefits reserve fund;
- (10) Establishing a schedule of annual required contributions, notwithstanding the determinations by the board of trustees, for the six-year fiscal period from 2013-2014 to 2018-2019;

- (11) Authorizing the Director of Finance to retain transient accommodations tax revenues and other sources of revenues to supplement payments for counties that fall short of paying their annual required contributions;
- (12) Changing the effective date to July 1, 2013; and
- (13) Making technical nonsubstantive amendments for the purposes of clarity, style, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 946, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 946, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige, Baker and Kouchi.  
Managers on the part of the Senate.  
Ayes, 3. Noes, 1 (Baker). Excused, none.

**Conf. Com. Rep. 131 on S.B. No. 1349**

The purpose of this measure is to support and foster the growth of jobs in the research and development industry in Hawaii. More specifically, this measure:

- (1) Reestablishes the income tax credit for qualified research activities that applies to taxable years December 31, 2013, to December 31, 2017;
- (2) Requires the Department of Business, Economic Development, and Tourism to conduct studies to measure the effectiveness of the tax credit and submit reports to the Legislature; and
- (3) Updates certain provisions of the income tax credit for qualified research activities to conform to section 41 of the Internal Revenue Code.

Your Committee on Conference finds that the reestablishment of the qualified research activities tax credit will allow Hawaii research and development companies to remain competitive with mainland companies and generate and sustain lucrative high technology jobs in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to ensure consistency between the calculation of the amount of the tax credit under section 41 of the Internal Revenue Code, the application of the federal tax provisions in section 41 of the Internal Revenue Code, and the requirement that a business claim a federal tax credit for the same qualified research activities under section 41 of the Internal Revenue Code;
- (2) Limiting the federal tax provisions in section 41 of the Internal Revenue Code to expenses incurred for qualified research activities after December 31, 2012;
- (3) Limiting the tax credit to taxable years from December 31, 2012, to December 31, 2019;
- (4) Making the measure effective on July 1, 2013; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1349, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1349, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Luke, Choy and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 132 on S.B. No. 1057**

The purpose of this measure is to establish employer contribution amounts for plan years 2011-2012 and 2012-2013 for Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for the employees of collective bargaining unit (10) and their excluded counterparts.

Your Committee on Conference finds that the State and the exclusive representative of collective bargaining unit (9) reached an impasse concerning Hawaii Employer-Union Health Benefits Trust Fund employer contributions for plan years 2011-2012 and 2012-2013. Therefore, pursuant to section 89-11(g), Hawaii Revised Statutes, after consideration of recommendations by both parties, the Legislature was tasked with establishing the contribution amounts by enactment. Your Committee on Conference acknowledges that

the State recommended contributions at fifty per cent for the employer contribution level for collective bargaining unit (9) and their excluded counterparts.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Adding sections that provide employer contribution amounts for Employer-Union Health Benefits Trust Fund health benefit plan premiums for plan years 2011-2012 and 2012-2013 for employees in collective bargaining unit (9) and their excluded counterparts;
- (2) Inserting specific dollar amounts that establish the employer contribution level;
- (3) Changing the effective date to upon approval; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1057, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1057, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige, Shimabukuro, Kouchi and Thielen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kouchi, Thielen).

**Conf. Com. Rep. 133 on S.B. No. 1094**

The purpose of this measure is to recapitalize the State's fiscal reserves by transferring an unspecified amount from general funds to the emergency and budget reserve fund.

Your Committee on Conference finds that in 2008, during the economic downturn, the State was compelled to enact a number of cost-saving measures. Your Committee on Conference recognizes that the use of the emergency and budget reserve fund and the Hawaii hurricane relief fund allowed the State to avoid undertaking even greater spending reductions and revenue enhancement measures. Your Committee on Conference believes that recapitalizing the fiscal reserves for the State is essential to safeguard the future economic well-being of the State.

Your Committee on Conference amended this measure by:

- (1) Inserting an appropriation amount of \$50,000,000;
- (2) Changing the fiscal year of the appropriation from fiscal year 2014-2015 to fiscal year 2013-2014;
- (3) Changing the effective date to July 1, 2013; and
- (4) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1094, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1094, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Chun Oakland, Kidani, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Luke, Ing, Nishimoto and Johanson.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ing).

**Conf. Com. Rep. 134 on S.B. No. 1206**

The purpose of this measure is to clarify that the authority of the Director of Taxation includes the collection and general administration of all taxes.

Your Committee on Conference finds that section 231-13, Hawaii Revised Statutes, could be clearer as to whether the Director of Taxation is authorized to collect and administer all taxes or only delinquent taxes. Your Committee on Conference further finds that this measure sufficiently clarifies that the Department of Taxation is authorized to administer and collect all taxes, including delinquent taxes, which will facilitate greater effectiveness and efficiency in the operation of the Department.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Taxation to submit reports to the Legislature regarding contracts entered into under section 231-13, Hawaii Revised Statutes, as amended by this measure, and the effect of this measure on the assessment, enforcement, and collection of taxes; and
- (2) Changing the effective date to "upon approval" and adding a sunset date of June 30, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1206, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1206, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani, Kouchi, Thielen and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto and Fukumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 135 on S.B. No. 1280**

The purpose of this measure is to encourage the development of efficient energy systems in Hawaii by authorizing the issuance of special purpose revenue bonds to assist Kona SWAC, LLC, in constructing a portion of a seawater air conditioning district cooling system.

Your Committee on Conference finds that Kona SWAC, LLC, seeks to develop a seawater air conditioning solution for Kona that precludes the need to cool water with electricity and instead uses seawater for cooling. Your Committee on Conference believes that finding and developing new and innovative technologies that decrease the State's dependence on oil continue to be in the public interest. Accordingly, your Committee on Conference finds that assisting in the financing for the construction of a portion of the seawater air conditioning district cooling system to serve Kona and nearby areas on the island of Hawaii furthers the State's interest in developing new and efficient energy systems.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Department of Budget and Finance is authorized to issue special purpose revenue bonds in a total amount not to exceed \$40,000,000; and
- (2) Changing the effective date from July 1, 2050, to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1280, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1280, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kouchi, Ige, Kahele and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Tokioka, Ohno and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 136 on H.B. No. 353**

The purpose of this measure is to appropriate unspecified funds to control and contain damage caused by the coffee berry borer and for research to develop new methods of preventing and treating infestations.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriation amount of \$250,000 for fiscal year 2013-2014 and the same sum for fiscal year 2014-2015 to research and develop methods for the prevention and treatment of coffee berry borer infestations;
- (2) Inserting the appropriation amount of \$300,000 for fiscal year 2013-2014 to fund coffee berry borer infestation damage control and mitigation efforts;
- (3) Changing the expending agency of the appropriation for fiscal year 2013-2014 to fund coffee berry borer infestation damage control and mitigation efforts from the University of Hawaii to the Department of Agriculture;
- (4) Specifying that all amounts appropriated pursuant to this measure shall not be expended unless matched on a dollar-for-dollar basis; and
- (5) Changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 353, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 353, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Ige, Kouchi, Kahele and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Luke, Lowen, Onishi, Wooley and Cheape.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Wooley).

**Conf. Com. Rep. 137 on H.B. No. 763**

The purpose of this measure is to streamline the operations of the State Building Code Council and the application of the State Building Code by:

- (1) Amending the composition and authority of the Council;
- (2) Specifying the required content of the Building Code and allowable amendment; and
- (3) Making an appropriation to fund efforts by the Council to create a uniform State Building code.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation;
- (2) Changing its effective date to July 1, 2013; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 763, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 763, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Chun Oakland, Galuteria, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Evans, Lowen, Hashem and Cheape.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 138 on H.B. No. 988**

The purpose of this measure is to support the operations of an environmental disaster standby and response facility in the State that has the capacity to undertake the recovery and rehabilitation of native wildlife that are sickened, injured, or contaminated as a result of an oil or fuel related disaster in the State by authorizing expenditures for that purpose from the Environmental Response Revolving Fund.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 988, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 988, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Solomon, Chun Oakland, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

Representatives Evans, Lee, Lowen, Kawakami and Thielen.  
Managers on the part of the House.

**Conf. Com. Rep. 139 on H.B. No. 417**

The purpose of this measure is to address the shortage of primary care providers in the State by appropriating funds for the interdisciplinary Hawaii Health Systems Corporation Primary Care Training Program at Hilo Medical Center.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,800,000 for fiscal year 2013-2014 and deleting the appropriation for fiscal year 2014-2015; and
- (2) Changing its effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 417, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 417, H.D. 2, S.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 140 on H.B. No. 908**

The purpose of this measure is to improve the health and well-being of women, children, and families at risk for adverse health and safety concerns by establishing a program within the Department of Health for hospital-based screening and home visiting services for newborns' families.

Your Committee on Conference has amended this measure by:

- (1) Changing the funding source from general funds to the Hawaii Tobacco Settlement Special Fund;
- (2) Inserting the appropriation amount of \$3,000,000 for fiscal year 2012-2013 to carry out the purposes of this measure; and
- (3) Changing its effective date to June 30, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 908, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 908, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 141 on H.B. No. 820**

The purpose of this measure is to provide a legislative vehicle to fund pending public sector bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee on Conference has amended this measure by:

- (1) Inserting specified sums to fund salary adjustments and other cost adjustments for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2013-2015;
- (2) Amending the funding sources for the salary adjustments and other cost adjustments for employees in collective bargaining unit (5) and their excluded counterparts;
- (3) Providing for specified sums to fund the Hawaii Employer-Union Health Benefits Trust Fund costs for employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2013-2015;
- (4) Changing its effective date to July 1, 2013; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 820, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 820, S.D. 1, C.D. 1.

**Conf. Com. Rep. 142 on H.B. No. 816**

The purpose of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustment and other cost adjustments for public employees in collective bargaining unit (1) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee on Conference has amended this measure by:

- (1) Inserting additional funding sources and specified sums for collective bargaining cost items for unit (1) and its excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for collective bargaining unit (1) for fiscal biennium 2013-2015;
- (2) Changing its effective date to July 1, 2013; and

- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 816, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 816, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Takumi).

**Conf. Com. Rep. 143 on H.B. No. 749**

The purpose of this measure is to increase the State's agricultural self-sufficiency and the attractiveness and opportunities for an agricultural education and livelihood by establishing the Hawaii Agriculture Workforce Advisory Board within the Department of Labor and Industrial Relations to, among other things, develop partnerships and engage in activities to further the development of the agricultural workforce in the State.

This measure also appropriates an unspecified amount in general revenues to the Department of Labor and Industrial Relations to assist in the establishment and support of the Hawaii Agriculture Workforce Advisory Board.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the farming community representative will serve for a two-year term;
- (2) Specifying that the Hawaii Agriculture Workforce Advisory Board is not subject to the provisions of section 26-34, Hawaii Revised Statutes, including the selection and terms of members of boards and commissions;
- (3) Requiring the Hawaii Agriculture Workforce Advisory Board to advise the Department of Labor and Industrial Relations on the development of partnerships and other specified activities to further the development of the agricultural workforce in the State, rather than engage in such activities itself;
- (4) Specifying that members of the Hawaii Agriculture Workforce Advisory Board will serve without compensation, but that the farming community representative will be reimbursed for those necessary expenses incurred during the performance of the representative's duties;
- (5) Deleting the appropriation to the Department of Labor and Industrial Relations to assist in the establishment and support of the Hawaii Agriculture Workforce Advisory Board;
- (6) Changing its effective date to upon approval; and
- (7) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 749, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 749, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Nakashima, Wooley, Hashem, Takumi and Cheape.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Takumi).

**Conf. Com. Rep. 144 on H.B. No. 546**

The purpose of this measure is to reduce the unfunded liability of the Hawaii Employer-Union Health Benefits Trust Fund (EUTF).

More specifically, this measure:

- (1) Convenes and appropriates funds for a task force placed within the Department of Budget and Finance to examine the unfunded liability of the EUTF;
- (2) Requires, rather than authorizes, the Board of Trustees of the EUTF to establish a separate trust fund to receive employer contributions to prefund other post-employment health and other benefit plan costs for retirees and their beneficiaries;
- (3) Requires public employers to pay actuarially-determined, annual required contributions to the trust fund;
- (4) Uses general excise tax revenues and transient accommodations tax revenues or other sources of revenue to supplement deficient payments by state public employers and county public employers, respectively;
- (5) Requires full payments of the annual required contribution commencing with fiscal year 2018-2019, with a transitional schedule of payments commencing with fiscal year 2014-2015; and

- (6) Requires and appropriates funds for the Director of Finance to develop an implementation plan with regard to:
  - (A) The sharing of investment information, advice, and services between the Employees' Retirement System and the EUTF for the investment of moneys in the separate trust fund; and
  - (B) Procedures for the receipt of payments from county public employers into the separate trust fund.

After careful deliberation, your Committee on Conference has amended this measure by:

- (1) Specifying the amounts of the appropriations for both the task force and the implementation plan;
- (2) Changing the effective date to July 1, 2013; and
- (3) Making technical nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 546, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 546, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 145 on H.B. No. 120**

The purpose of this measure is to enhance public access to information collected by the Department of Health regarding its inspections of state-licensed care facilities by, among other things:

- (1) Requiring the Department of Health to post on its website electronic copies of reports for all inspections it performs of state-licensed facilities specified in the measure;
- (2) Establishing a Working Group on Licensed Care Facilities to develop an inspection form to be posted online with information that is fair to the care home operators and useful to the public;
- (3) Requiring the Working Group to report its findings and recommendations to the Legislature prior to the 2014 Regular Session; and
- (4) Appropriating unspecified amounts for each year of the 2013-2015 fiscal biennium to fund equipment, website and database development, and staff support.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the representatives from major caregiver provider groups that may be invited by the Director of Health to participate in the Working Group must be representatives of specified types of state-licensed care facilities;
- (2) Inserting the appropriation amount of \$74,000 for each year of the 2013-2015 fiscal biennium to fund computer equipment, website and database development, and staff support;
- (3) Specifying that the appropriation includes funding for two full-time equivalent positions (2.0 FTE);
- (4) Changing its effective date to July 1, 2013; and
- (5) Making a technical, nonsubstantive amendment for clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 120, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 120, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green, Espero, Taniguchi and Thielen.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Carroll, McKelvey, Morikawa, Cabanilla, Jordan and Fukumoto.  
Managers on the part of the House.  
Ayes, 7. Noes, none. Excused, none.

**Conf. Com. Rep. 146 on S.B. No. 1194**

The purpose of this measure is to adjust the transient accommodations tax rate and the disposition of the transient accommodations tax revenues. Among other things, this measure:

- (1) Specifies new transient accommodations tax rates as follows:

- (A) 8.25 percent for the period beginning on July 1, 2009, to June 30, 2010;
  - (B) 9.25 percent for the period beginning on July 1, 2010, to June 30, 2013; and
  - (C) 7.25 percent for the period beginning on July 1, 2013, and thereafter;
- (2) Repeals the additional transient accommodations tax imposed by Act 61, Session Laws of Hawaii 2009;
  - (3) Repeals the daily transient accommodations tax for complimentary accommodations; and
  - (4) Makes permanent the caps on the transient accommodations tax revenue distributions to the tourism special fund and the counties.

Your Committee on Conference finds that allowing the transient accommodations tax rate to fall to 7.25 percent beginning on July 1, 2013, would deprive the general fund of needed tax revenues. According to the Department of Budget and Finance, retaining a 9.25 percent tax rate is a key component to ensuring that the State's general fund financial plan remains balanced beyond the fiscal biennium 2013-2015. Your Committee on Conference further finds that the State requires a consistent amount of funds to effectively market itself in a competitive tourist industry, to maintain tourist attractions, and to enhance the visitor experience.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Making permanent the 9.25 percent tax on the gross rental or gross rental proceeds derived from furnishing transient accommodations;
- (2) Allocating \$33,000,000, rather than 17.3 percent, of the transient accommodations tax revenue to the convention center enterprise special fund and repealing the language that required revenues collected in excess of \$33,000,000 to be deposited into the general fund;
- (3) Allocating \$82,000,000, rather than 34.2 percent, of the transient accommodations tax revenue to the tourism special fund, repealing the language specifying that the revenues be for tourism promotion and visitor industry research, and repealing the language that placed a \$71,000,000 per fiscal year cap on revenues to be deposited into the tourism special fund until June 30, 2015;
- (4) Repealing the \$1,000,000 allocation to the state parks special fund and special land development fund;
- (5) Allocating \$1,000,000 of the \$82,000,000 allocated to the tourism special fund for the operation of a Hawaiian center and the Museum of Hawaiian Music and Dance at the Hawaii Convention Center;
- (6) Allocating \$93,000,000, rather than 44.8 percent, of the transient accommodations tax revenue to the counties and repealing the \$93,000,000 cap on the amount to be transferred to the counties;
- (7) Allocating \$3,000,000 of the excess revenue from the transient accommodations tax deposited into the general fund for natural resources important to the visitor industry, facilities, and public lands connected with enhancing the visitor experience; provided that these funds shall be expended by mutual agreement of the Board of Land and Natural Resources and the Board of Directors of the Hawaii Tourism Authority;
- (8) Changing the effective date to July 1, 2013; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1194, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1194, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Keith-Agaran, Ige, Kidani and Kouchi.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

Representatives Luke, Brower, Nishimoto and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 147 on S.B. No. 1092**

The purpose of this measure is to make a general fund appropriation for fiscal year 2014-2015 to recapitalize the hurricane reserve trust fund.

Your Committee on Conference finds that the hurricane reserve trust fund has declined over the last decade from approximately \$220,000,000 to \$20,000,000. Your Committee on Conference further finds that, as the State continues its economic recovery, an accelerated recapitalization of the trust fund is prudent and fiscally sound.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the amount of the appropriation is \$50,000,000;
- (2) Changing the fiscal year of the appropriation from fiscal year 2014-2015 to fiscal year 2013-2014;
- (3) Changing the effective date from July 1, 2030, to July 1, 2013; and

- (4) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1092, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1092, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Galuteria, Kidani and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto, Woodson and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 148 on S.B. No. 498**

The purpose of this measure is to address the emergency medical service needs of the residents of West and South Maui by appropriating funds for a twenty-four-hour, seven-days-a-week, special emergency medical response vehicle unit to be based in the Maalaea area on Maui, which will include a vehicle, equipment, and personnel costs for twenty-four-hour, seven-days-a-week staffing by state-certified emergency medical service personnel.

Your Committee on Conference finds that the populations of West and South Maui have significantly increased over time, resulting in an increase of calls for emergency medical services from these communities. Your Committee on Conference believes it is necessary and prudent to expand emergency medical response services, reduce response times, and increase the chances of a positive outcome for the residents of these communities.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$600,000 out of the emergency medical services special fund to fund the vehicle unit and appropriate staffing for fiscal years 2013-2014 and 2014-2015; and
- (2) Changing the effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 498, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 498, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland and Slom.

Managers on the part of the Senate.

Representatives Belatti, Morikawa, Woodson and Fukumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 149 on S.B. No. 867**

The purpose of this measure is to amend the law relating to state and county contributions to the Hawaii Employer-Union Health Benefits Trust Fund. Specifically, this measure:

- (1) Repeals provisions relating to the base monthly contributions for health benefit plans paid by the State and counties for retired public employees;
- (2) Repeals the requirement that the base monthly composite monthly contributions be adjusted annually and the method for calculating the contributions; and
- (3) Makes conforming amendments to applicable sections of the law relating to the Hawaii Employer-Union Health Benefits Trust Fund to reflect the amendments under this measure.

Your Committee on Conference finds that under existing law, retired state and county employees receive a base monthly contribution health premium benefit, the amount of which depends on the date that the retired employee entered the public employment system. The base monthly contribution formula provides an upper threshold parameter used by the Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees to determine the health benefit plans for retired state and county employees. This base monthly contribution serves as a cap on the amount that the public employers are required to pay for medical, prescription drug, dental, and vision premiums. This cap could potentially become a problem if a carrier exceeds the base monthly contribution premium for non-Medicare retirees, which could cause the out-of-pocket costs to the non-Medicare retirees to increase thereby diminishing the accrued retirees' health benefits, which violates article XVI, section 2, of the Hawaii State Constitution. This measure eliminates this cap to address the potential diminishment of accrued benefits of retired public employees.

Your Committee on Conference has amended this measure by adopting the S.D. 2 version, which provides an unspecified base monthly contribution amount for supplemental Medicare and non-Medicare two-party plans and sets forth the required state and county base monthly contribution for other retiree health benefit plans as unspecified amounts beginning January 1, 2014, and amending it further by:

- (1) Adding specified base monthly contribution amounts for each employee-beneficiary enrolled in supplemental Medicare self plans, supplemental Medicare two-party plans, supplemental Medicare family plans, non-Medicare self plans, non-Medicare two-party plans, and non-Medicare family plans based on one hundred percent of the employer contribution amounts for these plans as of January 1, 2013, plus five percent; and
- (2) Changing the effective date to January 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 867, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 867, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige, Kouchi, Thielen and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Hashem, Yamashita and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 150 on S.B. No. 46**

The purpose of this measure is to bring Hawaii into compliance with Title IV of the Higher Education Act of 1965, as amended, by establishing a post-secondary education authorization program within the Department of Commerce and Consumer Affairs (DCCA) and creating the framework for authorizing private post-secondary educational institutions in the State.

Your Committee on Conference finds that in October 2010, the United States Department of Education issued new regulations for programs authorized under Title IV of the Higher Education Act of 1965, as amended, to hold programs accountable for preparing students for gainful employment, protect students from misleading recruiting practices, ensure that only eligible students receive financial aid, and strengthen federal aid programs.

Your Committee on Conference further finds that the State was unable to satisfy all of the requirements of the Higher Education Act of 1965, as amended, relating to state authorization by the July 1, 2011, deadline. However, the United States Department of Education provided the opportunity for states and institutions to receive an extension to July 1, 2013, for certain regulations. The State must proactively examine the requirements of the Higher Education Act of 1965, as amended, and ensure state compliance.

In fiscal year 2011, roughly 63,000 students in Hawaii received more than \$283,000,000 in federal funds under Title IV of the Higher Education Act of 1965, as amended. It is imperative that Hawaii does not jeopardize the receipt of federal funds under Title IV of the Higher Education Act of 1965, as amended.

Your Committee on Conference understands that this measure is a major departure from the status quo and will require granting DCCA the flexibility necessary to get the state authorization program up and running as quickly as possible.

Your Committee on Conference notes that once DCCA has the program in place, the following issues may need to be addressed further:

- (1) Whether the required surety bond amount should be amended to specify that the alternative amount be no more than six months' worth of the maximum prepaid tuition and fees of a private college or university; and
- (2) Determining what entity should be responsible for all prepaid, unearned tuition and fees, student loans, Pell grants, and other student financial aid assistance if an authorized private college or university ceases operation.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of "accredited" by reverting to the definition in the S.D. 1 version of this measure;
- (2) Deleting the definition of "nationally recognized accrediting agency";
- (3) Amending the definitions of "private college or university" and "seminary" or "religious training institution" for purposes of clarity and consistency;
- (4) Authorizing the Director of Commerce and Consumer Affairs (Director) to appoint one or more advisory committees to assist DCCA;
- (5) Clarifying that the Director may establish the types and amount of fees DCCA may assess in order to carry out the purposes of the new chapter;
- (6) Clarifying that in order to award degrees in the State, all private colleges and universities, seminaries, and religious training institutions operating in the State on the effective date of this measure shall be authorized no later than July 1, 2014;
- (7) Removing language relating to the issuance of certificates of authorization as proof of authorization;
- (8) Clarifying that failure to maintain accreditation and to meet or maintain the requirements of financial integrity shall be grounds for the Director to refuse to reauthorize, reinstate or restore, or to deny, revoke, suspend, or condition any authorization;
- (9) Clarifying that DCCA may contract with a third party for the storage or maintenance of any records required to be deposited with DCCA;
- (10) Increasing the surety bond amount from \$5,000 to \$50,000;

- (11) Clarifying that the two-year restriction on complaints shall not apply to complaints related to obtaining transcripts;
- (12) Removing language requiring DCCA to be responsible for all prepaid, unearned tuition and fees, student loans, Pell grants, and other student financial aid assistance if an authorized private college or university ceases operation;
- (13) Specifying that any institution applying for authorization shall be required to pay the authorization fee;
- (14) Authorizing DCCA to adopt interim rules, subject to certain requirements;
- (15) Removing the repeal of the Post-Secondary Education Commission in chapter 304A, part VII, subpart C, Hawaii Revised Statutes;
- (16) Authorizing rather than mandating DCCA to hire an implementation coordinator or team to assist with the implementation of this measure;
- (17) Specifying that the implementation coordinator or team may assist the Director in establishing a staffing structure and recruiting staff necessary to carry out the purposes of this measure;
- (18) Appropriating \$400,000 to DCCA for fiscal year 2013-2014 only for the purpose of contracting an implementation coordinator or team;
- (19) Removing the authorization for three full-time equivalent (3.0 FTE) permanent positions;
- (20) Adding additional reporting requirements for DCCA and asking that DCCA report back to the Legislature prior to the Regular Session of 2015 in addition to its report prior to the Regular Session of 2014;
- (21) Making this measure effective upon its approval; provided that part IV of this measure shall take effect on July 1, 2013; and
- (22) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 46, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 46, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Baker, Ige, Tokuda and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Ichiyama, McKelvey, Nishimoto, Aquino and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Aquino).

**Conf. Com. Rep. 151 on S.B. No. 722**

The purpose of this measure is to require the Department of Accounting and General Services to coordinate efforts to establish a complete inventory of state-owned or managed public buildings, facilities, and sites on lands of the public land trust.

Act 54, Session Laws of Hawaii 2011, establishes a comprehensive information system for public lands to be used for the inventory and maintenance of information relating to the public land trust, also known as ceded lands, and other state lands. All state and county agencies are directed to assist the Department of Land and Natural Resources in facilitating the establishment of the comprehensive information system for public lands.

Your Committee on Conference finds that the inventory required to be taken and information to be maintained are important tools to assist the State to manage its assets. Insufficient information on underutilized public facilities exacerbates lost revenues for the State, so it is important that all state and county agencies work together to ensure that state facilities are used to their fullest potential.

It is not the intent of your Committee on Conference that this measure be interpreted as requiring the Department of Land and Natural Resources to transfer hardware, if such transfer would impose undue hardship on the Department's State Lands Information Management System (SLIMS), which is an essential tool of the Department to manage lands under its jurisdiction. Your Committee on Conference emphasizes that, what is important is that the information be transferred in a suitable format.

Your Committee on Conference has amended this measure by:

- (1) Specifying in the purpose section that the purpose of this measure is to require the Department of Land and Natural Resources to expand the scope of the comprehensive information system and adding to the purpose section a reference to the lands of the public land trust described in section 5(f) of the Admission Act and article XII, section 4, of the Hawaii State Constitution;
- (2) Inserting language to require the Department of Accounting and General Services to incorporate the inventory of public buildings, facilities, and sites together with the public land trust inventory and the public land trust information system;
- (3) Inserting language to require all state agencies to transfer to the Department of Accounting and General Services all programs and hardware associated with the inventory;
- (4) Inserting an appropriation amount of \$250,000 for fiscal year 2013-2014 only for the Department of Accounting and General Services to coordinate the inventory of public buildings, facilities, and sites and for the creation of a comprehensive system for asset management;
- (5) Changing the effective date to July 1, 2013; and

- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 722, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 722, S.D. 2, H.D. 1, C.D. 1.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Lee).

**Conf. Com. Rep. 152 on S.B. No. 5**

The purpose of this measure is to provide fair compensation to lessees when a withdrawal or taking by the State of land leased for intensive agricultural or pastoral uses renders the land unusable for the lessees' original intended purposes.

Your Committee on Conference finds that the Department of Land and Natural Resources established conservation easements on approximately six thousand acres of lands, originally leased for pasture or special livestock use, in order to widen Saddle Road in the County of Hawaii. As a result, the lessee ranchers were prevented from grazing cattle and effectively deprived of their use of the land.

Although the Department reduced the lease rent in proportion to the taking of the land, the lessees received no other compensation. Existing law also provides no other method of compensation. However, the lessees are still required by their leases to maintain insurance on the land and pay taxes for the land they cannot use for the specific purpose for which it was originally leased. As a result, several lessees reduced their herd size and have been unable to mitigate the long-term, fixed costs associated with operating a ranch in the way they anticipated when the lease was negotiated. Thus, the lessees have experienced financial hardship for an extended period of time that is not sufficiently mitigated by a reduction in their lease rent.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 5, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 5, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Kouchi, Dela Cruz, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Onishi).

**Conf. Com. Rep. 153 on S.B. No. 244**

The purpose of this measure is to:

- (1) Require charter schools to complete an annual independent financial audit;
- (2) Require the State Public Charter School Commission (Charter School Commission) to develop procedures for conducting criminal history checks of persons who are employed or seeking employment in any position that places them in close proximity to children;
- (3) Specify when a charter school may use criminal history information to terminate or deny employment;
- (4) Specify charter school enrollment requirements;
- (5) Authorize the Charter School Commission to request facilities funding for charter schools as part of its annual budget request;
- (6) Amend the definition of "employee" under chapter 84, Hawaii Revised Statutes (HRS), to include any person under an employment contract to serve as chief executive officer, chief administrative officer, executive director, or designated head of a charter school;
- (7) Require Charter School Commission members to disclose to the Commission a list of all charter schools in which the member is an employee, governing board member, vendor, contractor, agent, or representative and disqualify members from voting on or participating in the discussion of such matters;
- (8) Authorize the Charter School Commission to hire employees without regard to chapters 76 and 89, Hawaii Revised Statutes;
- (9) Remove the requirement that a nonprofit organization that governs a conversion charter school make minimum annual contributions to the charter school; and

(10) Make other amendments to chapter 302D, HRS, for the purposes of clarity and consistency.

Your Committee on Conference finds that Hawaii's charter schools are ranked each year by the National Alliance for Public Charter Schools (NAPCS). In 2011, Hawaii's ranking fell from thirty-fourth place to thirty-fifth place, out of a total of forty-two states.

Your Committee on Conference further finds that in 2012, the Legislature passed Act 130, Session Laws of Hawaii 2012 (Act 130), which established a new charter school law that created a solid governance structure for Hawaii's charter school system with clear lines of authority and accountability to foster improved student outcomes. As a result of Act 130, Hawaii's charter school system leapt to fourteenth place in NAPCS' rankings. This measure continues to build on the progress made by Act 130.

Your Committee on Conference has amended this measure by:

- (1) Deleting the expansion of the definition of "employee" in section 84-3, HRS, to include any person under an employment contract to serve as the chief executive officer, chief administrative officer, executive director, or designated head of a charter school;
- (2) Removing language which provided that funds distributed to public charter schools are considered expended upon distribution;
- (3) Specifying when a charter school or charter school's governing board, in consultation with the Hawaii State Ethics Commission, must adopt standards of conduct to apply to the chief executive officer, chief administrative officer, executive director, or designated head of the charter school;
- (4) Making this measure effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 244, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 244, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 154 on S.B. No. 877**

The purpose of this measure is to establish procedures for the Hawaii Labor Relations Board to conduct appeals and authorize the Board to notify parties of a hearing using first class mail.

Your Committee on Conference finds that this measure sets forth the procedures for the Hawaii Labor Relations Board to conduct appeals hearings. Your Committee on Conference further finds that existing law requires the Hawaii Labor Relations Board to use registered or certified mail to provide notice to parties of a hearing. This measure would permit the Board to more efficiently allocate resources by using first class mail instead.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 877, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 877, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro, Ige, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Nakashima, Hashem and Ing.

Managers on the part of the House.

**Conf. Com. Rep. 155 on S.B. No. 908**

The purpose of this measure is to appropriate funds for fiscal biennium 2011-2013 for public employees in collective bargaining unit (9) and for employees excluded from collective bargaining that are in the same compensation plans as those officers and employees within collective bargaining unit (9).

Your Committee on Conference finds that this measure is necessary to serve as the legislative vehicle to appropriate funds to cover collective bargaining costs and other cost items that have been awarded through arbitration.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Clarifying that the measure is an emergency appropriation measure that qualifies for immediate passage;

- (2) Clarifying that the appropriations are necessary to fund the salary increases and wage related costs contained in the arbitrated settlement for certain public employees;
- (3) Clarifying the sources of funding;
- (4) Limiting the appropriations contained in the measure to only fiscal year 2012-2013 and inserting specific amounts;
- (5) Highlighting the amount appropriated for the Department of Education;
- (6) Adding a lapse date of June 30, 2013, for all funds appropriated or authorized by this measure;
- (7) Changing the effective date to "upon approval" and deleting language on retroactive application to July 1, 2011; and
- (8) Making technical nonsubstantive amendments for the purposes of clarity, style, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 908, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 908, S.D. 1, H.D. 1, C.D. 1.

#### **Conf. Com. Rep. 156 on S.B. No. 551**

The purpose of this measure is to recognize the sacrifices and contributions of veterans from Hawaii by requiring the Office of Veterans Services, with the assistance of the Department of Accounting and General Services, Department of Defense, and State Historic Preservation Division, to develop plans to establish a memorial honoring the veterans of the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation New Dawn, Operation Enduring Freedom, Global War on Terrorism, Homeland Defense, and Operation Noble Eagle, and those who have protected our borders by land, sea, and air.

Your Committee on Conference finds that veterans from Hawaii deserve recognition for their valiant service during recent conflicts, specifically the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation New Dawn, and Operation Enduring Freedom. Your Committee on Conference further finds that it is important to recognize service members who engaged in the Global War on Terrorism, Homeland Defense, and Operation Noble Eagle, as well as those who have protected our borders by land, sea, and air. This measure honors the courage and sacrifices of these veterans.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 551, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 551, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kidani, Ige, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Takai, Takayama, Ito and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### **Conf. Com. Rep. 157 on S.B. No. 680**

The purpose of this measure is to establish the operational infrastructure to help ensure the health and safety of the people of Hawaii by:

- (1) Creating a homeland security law and establishing within the State Department of Defense an Office of Homeland Security to be headed by the Director of Homeland Security, who is the Adjutant General;
- (2) Specifying actions the Director of Homeland Security is authorized to make, including preparing comprehensive plans and programs for homeland security and defense; developing and maintaining a list of critical infrastructure; fostering coordination on security matters with all nations of the Pacific region to the extent permitted under federal law; and soliciting and managing funds; and
- (3) Authorizing the establishment of county organizations for homeland security.

Your Committee on Conference finds that state departments and agencies are currently performing many missions and tasks to combat terrorism and support homeland security requirements without underlying statutory authority. Your Committee on Conference further finds that this measure will establish an office of homeland security to provide a comprehensive program to protect Hawaii's residents, infrastructure, and government from terrorism and attacks.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 680, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 680, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Ige, English, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**Conf. Com. Rep. 158 on S.B. No. 1256**

The purpose of this measure is to appropriate funds to the Pacific International Space Center for Exploration Systems (PISCES) for personnel costs and to support its operations and purchase equipment, which will encourage the development and expansion of the aerospace, robotics, and related industries in Hawaii.

Your Committee on Conference finds that the field of aerospace has the potential to provide significant economic development, high-paying jobs, and economic diversification for the island of Hawaii and the State. Your Committee on Conference further finds that PISCES is a prominent component of the State's aerospace industry development strategy and can help promote Hawaii's strategically ideal location for space exploration.

Your Committee on Conference has amended this measure by:

- (1) Adding a new section to chapter 201, Hawaii Revised Statutes, requiring PISCES to submit an annual report to the Legislature;
- (2) Inserting an appropriation amount of \$400,000;
- (3) Changing the effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1256, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1256, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 159 on S.B. No. 23**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Kaiuli Energy, LLC, in the planning, design, and construction of a seawater air conditioning district cooling facility and chilled water distribution system.

Your Committee on Conference finds that there is broad support for the development of efficient energy systems in Hawaii. Kaiuli Energy, LLC, proposes to build a seawater air conditioning facility to serve Waikiki and nearby areas on the island of Oahu. Your Committee on Conference further finds that issuance of special purpose revenue bonds to assist Kaiuli Energy, LLC, in pursuing this project will further the State's interest in developing efficient energy systems in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Inserting a special purpose revenue bond issuance limit of \$200,000,000; and
- (2) Inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 23, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 23, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kouchi, Ige, Kahele and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 160 on S.B. No. 1133**

The purpose of this measure is to repeal the dietary supplement beverage container exemption for the deposit beverage container program but exempt containers of liquid deemed to be the sole item of a meal or diet.

Your Committee on Conference finds that along with milk, drugs, medical foods, and infant formula, dietary supplements have been excluded from the deposit beverage container program. Hawaii statute cites federal Food and Drug Administration regulations in defining “dietary supplement”. However, the Food and Drug Administration does not vigorously regulate the dietary supplement industry. This approach gives manufacturers nearly free reign to unilaterally define a product as a dietary supplement or not.

Your Committee on Conference further finds that the ambiguity of regulations for dietary supplements makes it difficult for the deposit beverage container program to make consistent eligibility determinations on potential dietary supplements for Hawaii’s program. These difficulties are frustrating to the deposit beverage container program and beverage distributors because of the disproportionate time and effort involved in making a proper determination. Removing the “dietary supplement” exemption will facilitate more consistent eligibility determinations.

Your Committee on Conference has amended this measure by:

- (1) Amending the dietary supplement exemption, rather than repealing it, to exempt a single serving of one ounce or less of a dietary supplement, as defined in the Dietary Supplement Health and Education Act of 1994 (P.L. 103-417);
- (2) Clarifying that a liquid that is deemed to be the sole item of a meal or diet is exempt if the Department of Health deems the liquid to be the sole item of a meal or diet; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1133, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1133, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Chun Oakland, Ihara, Keith-Agaran and Ruderman.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Lee, McKelvey, Lowen, Kawakami and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 161 on H.B. No. 65**

The purpose of this measure is to:

- (1) Allow beneficiaries of prescription drug benefit plans to opt out of the requirement to purchase prescription drugs from a mail order pharmacy and, as an alternative, choose to purchase prescription drugs from a pharmacy within the pharmacy benefit manager’s retail pharmacy network;
- (2) Prohibit a pharmacy benefit manager from restricting a beneficiary’s choice of pharmacy from which to purchase prescription drugs if the pharmacy is within the network; and
- (3) Require affected entities to report to the Legislature prior to the Regular Session of 2018.

Your Committee on Conference finds that many pharmacy benefit managers and other prescription drug benefit plan providers impose certain requirements, including the requirement for beneficiaries to purchase prescription drugs from a mail order pharmacy. This mail order requirement can create significant hardships on beneficiaries, especially in rural areas, and may prevent beneficiaries from promptly obtaining urgently needed prescription drugs. Furthermore, many beneficiaries trust and rely on face-to-face interactions with their local community pharmacists, who are more familiar with a beneficiary’s medical history and who can better assist with any questions relating to other prescription drugs, over-the-counter medications, or potentially dangerous drug interactions.

Your Committee on Conference further finds that mandating mail order prescription drug purchases denies beneficiaries of this important interaction, takes away consumer choice, and can create hardship. In comparison, the implementation of this measure is intended to enhance consumer choice related to prescription benefits delivery for the State’s residents by allowing beneficiaries to opt out of mandatory mail order provisions. This measure is also intended to increase competition in the marketplace, foster better utilization of community pharmacists who communicate important prescription drug information and assist in managing the health of consumers, while remaining cost neutral to plans and beneficiaries.

Your Committee on Conference notes that nothing in this measure is intended to interfere with existing incentive programs sponsored by health plans and health maintenance organizations that are designed to encourage wellness and healthy behaviors. Rather, this measure is necessary to ensure that Hawaii continues to have a robust network of pharmacies to serve and provide choices to prescription drug benefit plan beneficiaries in the State.

Your Committee on Conference has amended this measure by:

- (1) Adding a definition for “retail community pharmacy”;
- (2) Permitting an otherwise qualified retail community pharmacy that requests to enter into a contractual retail pharmacy network agreement accepting certain standard terms, conditions, formularies, or requirements to be considered part of a pharmacy

- benefit manager's retail pharmacy network, for purposes of a beneficiary's right to choose where to purchase covered prescription drugs;
- (3) Clarifying that it is a violation for specified entities to refuse to accept an otherwise qualified retail community pharmacy as part of a pharmacy benefit manager's retail pharmacy network;
  - (4) Specifying that a contractual retail pharmacy network agreement between a retail community pharmacy and specified entities shall be renewed annually unless agreed to by the parties, and permitting specified entities to appeal a retail community pharmacy's qualifications with the Insurance Commissioner;
  - (5) Permitting the Insurance Commissioner to determine the standards and requirements necessary for a retail community pharmacy to be deemed otherwise qualified;
  - (6) Clarifying that if a retail community pharmacy enters into a contractual retail pharmacy network agreement, specified entities shall permit beneficiaries to fill any covered prescription that may be obtained by mail order at any pharmacy of the beneficiary's choice within the pharmacy benefit manager's retail pharmacy network;
  - (7) Clarifying that specific entities who have entered into a contractual retail pharmacy network agreement with a retail community pharmacy are prohibited from imposing certain terms, conditions, or requirements on prescriptions, beneficiaries, or the use of services of a retail community pharmacy;
  - (8) Requiring specific entities to file an annual report with the Insurance Commissioner disclosing certain amounts, terms, and conditions associated with a prescription drug benefit plan for the preceding calendar year, and requiring the Insurance Commissioner to review and examine records supporting the accuracy and completeness of the report;
  - (9) Clarifying violations, penalties, and appeals under the new chapter established by this measure;
  - (10) Permitting the Insurance Commissioner to adopt rules to implement the requirements of the new chapter established by this measure;
  - (11) Clarifying that a Hawaii employer-union health benefits trust fund health benefits plan shall permit each beneficiary to fill any covered prescription in accordance with the new chapter created by this measure;
  - (12) Clarifying that specific entities are required to submit a report to the Legislature no later than twenty days prior to the Regular Sessions of 2014 and 2015, rather than the Regular Session of 2018, and clarifying the scope of the reports;
  - (13) Specifying that this measure shall not apply to contracts negotiated between pharmacy benefit managers and community retail pharmacies with a rural pharmacy designation pursuant to federal law;
  - (14) Amending the purpose section for clarity;
  - (15) Inserting an effective date of upon approval and specifying that this measure applies to all prescription drug benefit plans issued, renewed, modified, altered, or amended on or after such effective date; and
  - (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 65, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 65, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee, Ige, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 162 on S.B. No. 69**

The purpose of this measure is to promote gun safety and enhance registration requirements for firearms brought into the State by:

- (1) Extending the time period for registering a firearm that is brought into the State by an individual from three days to five days after the arrival of the individual or the firearm, whichever is later;
- (2) Requiring county police departments to fingerprint, photograph, and perform background checks on individuals arriving in Hawaii with a firearm procured out-of-state when that firearm is registered in the State;
- (3) Allowing the fingerprint and photograph requirement to be waived if the individual's fingerprints and photograph were already on file with the police department;
- (4) Authorizing fees to be assessed for conducting a fingerprint check on an individual registering a firearm brought into Hawaii; and
- (5) Appropriating funds for the counties to implement this measure.

Your Committee on Conference finds that individuals registering firearms obtained in or imported into Hawaii must obtain a permit and undergo a background check. This measure closes a loophole in Hawaii's firearms law, which currently does not require individuals who bring into Hawaii firearms procured outside of the State to undergo a background check.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 69, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 69, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kouchi, Green, Ige and Kahele.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Aquino, Rhoads, Ing, Ichiyama and Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 163 on S.B. No. 106**

The purpose of this measure is to:

- (1) Establish and fund a position for an Alzheimer's disease and related dementia services coordinator;
- (2) Appropriate funds for programs and services that support the State's elderly population; and
- (3) Establish a task force on mobility management to make recommendations on establishing a transportation framework to assist elders and individuals with disabilities with transportation needs in rural communities.

Your Committee on Conference finds that keeping seniors healthy and at home is the most cost-effective manner to address the needs of one of Hawaii's most valuable societal resources. The increasing numbers of the aging population will also mean that the incidence of Alzheimer's disease and related disorders will rise. In order to effectively plan and implement statewide services to seniors and caregivers, coordination at the state level is necessary to maximize resources.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have appropriated funds for the aging and disability resource center;
- (2) Deleting language that would have appropriated funds for various senior centers;
- (3) Inserting an appropriation amount of \$70,000 to establish and fill an Alzheimer's disease and related dementia services coordinator position for fiscal year 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (4) Inserting an appropriation amount of \$3,600,000 for the kupuna care program for fiscal year 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (5) Inserting an appropriation amount of \$300,000 for the healthy aging partnership program of the Department of Health's Executive Office on Aging for fiscal year 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (6) Clarifying that the task force on mobility management shall make recommendations on establishing a transportation framework to assist elders and individuals with disabilities with transportation needs in each county;
- (7) Clarifying that the mobility management master plan developed by the task force shall include a transportation service component that utilizes transportation resources of nonprofit organizations that are willing to participate in a vehicle-sharing network to provide transportation services to assist elders and individuals with disabilities in each county;
- (8) Adding service providers from two counties, consumer representatives from counties not represented by service providers, and representatives of the business community to the membership of the task force on mobility management;
- (9) Clarifying that task force members may be reimbursed for reasonable expenses incurred for serving on the task force;
- (10) Inserting an appropriation amount of \$30,000 for the staffing, operations, and convening of the task force on mobility management for fiscal years 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (11) Changing the effective date to July 1, 2013; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 106, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 106, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 164 on S.B. No. 911**

The purpose of this measure is to appropriate funds for fiscal biennium 2013-2015 for all collective bargaining costs items for officers and employees within collective bargaining unit (13) and their excluded counterparts.

Your Committee on Conference finds that this measure is necessary to serve as a legislative vehicle to appropriate moneys to fund these costs.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Replacing its entire contents with an appropriation to the Hawaii Health Systems Corporation for each year of fiscal biennium 2013-2015 to subsidize employment costs; and
- (2) Changing the effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 911, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 911, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 165 on S.B. No. 895**

The purpose of this measure is to appropriate funds for the Hawaii Employer-Union Health Benefits Trust Fund costs for officers and employees within collective bargaining unit (2) and their excluded counterparts.

Your Committee on Conference finds that this measure is necessary to serve as a legislative vehicle to appropriate moneys to fund these costs.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Broadening the scope of the appropriations to include all collective bargaining cost items, including wage and salary increases;
- (2) Inserting appropriate amounts for collective bargaining unit (2);
- (3) Adding appropriations for collective bargaining units (3) and (4); and
- (4) Inserting additional means of financing categories to accurately reflect from which source of funding moneys will be appropriated or authorized;
- (5) Changing the effective date to July 1, 2013; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 895, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 895, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 166 on S.B. No. 902**

The purpose of this measure is to appropriate funds for Hawaii Employer-Union Health Benefits Trust Fund costs in the agreement negotiated with the exclusive bargaining representative for the public employees in bargaining unit (8) and their excluded counterparts belonging to the same compensation plans for fiscal biennium 2013-2015.

Your Committee on Conference finds that this measure is necessary to provide a legislative vehicle to fund the aforementioned cost items.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Adding new sections to appropriate funds for salary increases;
- (2) Inserting specific amounts and additional means of financing categories from which moneys are appropriated or authorized to be used for the purposes of the measure; and
- (3) Changing the effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 902, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 902, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 167 on S.B. No. 909**

The purpose of this measure is to appropriate funds for Hawaii Employer-Union Health Benefits Trust Fund costs contained in the agreement negotiated with the exclusive bargaining representative for the public employees in bargaining unit (13) and their excluded counterparts belonging to the same compensation plans for fiscal biennium 2013-2015.

Your Committee on Conference finds that this measure is necessary to provide a legislative vehicle to fund the aforementioned cost items.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Adding additional sections to appropriate funds for salary increases;
- (2) Inserting funding provisions for collective bargaining cost items for state employees in collective bargaining unit (13), and their excluded counterparts, who are assigned to the Judiciary and Hawaii Health Systems Corporation;
- (3) Earmarking amounts appropriated to the Department of Education for its employees;
- (4) Inserting specific amounts and additional means of financing categories from which moneys are appropriated or authorized to be used for the purposes of this measure; and
- (5) Changing the effective date to July 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 909, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 909, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 168 on S.B. No. 532**

The purpose of this measure is to require employers to provide a reasonable break time and location shielded from view and intrusion by coworkers and the public for breastfeeding employees to express milk in order to maintain milk supply and continue breastfeeding.

Your Committee on Conference finds that in Hawaii, over ninety percent of new mothers, which is much higher than the national average, intend to breastfeed their babies. The American Academy of Pediatrics and many other similar professional organizations recommend that infants within the first six months of life be given only breastmilk for nourishment. However, six months after birth, only about sixteen percent of the infants in Hawaii are exclusively breastfed, which is a little more than the thirteen percent national average. The Surgeon General addressed this public health problem by issuing a call to action in support of breastfeeding that included hospitals and healthcare practices, family and societal attitudes, and support in the workplace. This measure enables the State to respond to this call to action by requiring an employer to make reasonable efforts to provide a clean location for breastfeeding employees to express breastmilk in privacy.

Your Committee on Conference has amended this measure by:

- (1) Adopting the suggestions made by Breastfeeding Hawaii and the Department of Labor and Industrial Relations, which:
  - (A) Delete the definition of "person";
  - (B) Make conforming amendments to replace the term "person" with the term "individual" or "employee";

- (C) Specify that an employer with fewer than twenty employees is exempt from the requirement of making reasonable efforts to provide a clean location for breastfeeding employees to express breastmilk in privacy if the employer can show that the requirement would impose an undue hardship; and
  - (D) Specify that a defendant shall be fined \$500 for each violation of failing to provide a clean location for breastfeeding employees to express breastmilk in privacy; and
- (2) Changing the effective date from July 1, 2113, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 532, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 532, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 169 on S.B. No. 1124**

The purpose of this measure is to authorize the Department of Health to expend fees from the dietitian licensure special fund to offset the expenses incurred relating to the licensing of dietitians.

Your Committee on Conference finds that the Department of Health incurs significant expenses through its administration of the dietitian licensure program, which was implemented in August 2012 and issued twelve dietitian licenses as of November 30, 2012, with more applications being processed. It is necessary to authorize the Department of Health to expend monies annually from the dietitian licensure special fund to offset expenses incurred through the administration of this program.

Your Committee on Conference has amended this measure by:

- (1) Inserting an amount of \$30,000 as the ceiling for monies from the dietitian licensure special fund that may be used during any fiscal year for activities associated with administering the licensure program;
- (2) Inserting a threshold amount of \$35,000, above which any excess monies in the dietitian licensure special fund as of June 30 of each fiscal year shall be deposited into the general fund; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1124, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1124, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Chun Oakland, Solomon and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 170 on S.B. No. 237**

The purpose of this measure is to authorize the Board of Education (Board) and Department of Education to facilitate the redevelopment of public school lands by cooperating with private enterprises, the various components of federal, state, and county governments, and the public in order to generate income to improve existing facilities and build schools to twenty-first century standards.

Your Committee on Conference finds that many school facilities are in dire need of repair, maintenance, and improvement of systems and infrastructure to meet twenty-first century challenges in technology and education. Looking at ways to responsibly utilize our existing lands and facilities to generate alternative sources of revenue to repair, maintain, and build twenty-first century schools is not a new concept in other states and jurisdictions, but one that must be explored cautiously through a well defined "proof of concept" here in Hawaii.

As such, your Committee on Conference has provided a well-defined framework within which the Department of Education can assess the merits and benefits of such a concept, while developing a process for community engagement and the potential for long-term viability.

Your Committee on Conference further finds that a community-based policy and planning approach will be critical to the success of the pilot program. Your Committee on Conference believes that a pilot project will serve as "proof in concept" to test and evaluate development, design, and financial models, while giving communities the opportunity to provide input and to better understand the concept of community-centered twenty-first century schools.

Your Committee on Conference has amended this measure by adopting the S.B.237, S.D. 2 version of this measure, which establishes a pilot project for the development of public school lands.

Your Committee on Conference further amended this measure by:

- (1) Placing the pilot program under the Department of Education rather than the Office of the Lieutenant Governor;
- (2) Specifying that the Board may identify and select up to five public school land sites as candidates for participation in the pilot program;
- (3) Requiring the Board to hold at least one public meeting in each affected community;
- (4) Requiring the Board to consult with the county if the site identified and selected by the Board is on county land;
- (5) Specifying that the Department of Education may lease public school land for no more than three public school land sites identified and selected by the Board;
- (6) Clarifying that leases entered into under the pilot program may be extended under section 171-36, Hawaii Revised Statutes (HRS);
- (7) Requiring that if any redevelopment involves any nonschool purposes, the redevelopment shall:
  - (A) Comply with county plans, ordinances, and zoning and development codes; and
  - (B) Acquire all required government approvals and permits;
- (8) Specifying that the Department of Education may work with and receive assistance from any other department or agency in carrying out the pilot program;
- (9) Specifying that any lease entered into by the Department of Education pursuant to this measure shall be fully executed no later than five years from the effective date of this measure;
- (10) Establishing the school facilities subaccount under section 304A-1148, HRS, rather than the school facilities special fund, into which all proceeds generated from the lease of public school lands shall be deposited;
- (11) Requiring that the Department of Education report to the Legislature no later than twenty days prior to each regular session until the completion of each project;
- (12) Adding additional reporting requirements for the Department of Education;
- (13) Inserting an appropriation amount of \$100,000 to the Department of Education to carry out the purposes of this measure;
- (14) Inserting an effective date of July 1, 2013, and deleting the sunset date for the pilot program; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 237, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 237, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 171 on S.B. No. 1093**

The purpose of this measure is to more adequately prepare Hawaii's children for success in school by establishing a school readiness program as part of the State's early learning system.

Your Committee on Conference finds that high quality early learning programs that are affordable and accessible for children are critically important for ensuring the success of Hawaii's keiki. Developing a robust school readiness program is foundational as Hawaii works toward an early learning system for our youngest of keiki. This measure will reaffirm the Legislature's commitment to early learning by establishing a statewide school readiness program.

Your Committee on Conference further finds that currently, the Department of Human Services administers a child care assistance program called preschool open doors, whose purpose is to contribute to school readiness for children in the year prior to entering kindergarten.

Your Committee on Conference has amended this measure by:

- (1) Establishing the preschool open doors program as the statewide school readiness program within the Department of Human Services rather than the Executive Office on Early Learning;
- (2) Requiring that the preschool open doors program providers conduct school readiness assessments;

- (3) Deleting language prohibiting the program from providing instructional services that supplant or duplicate the academic program of any public or private school established to comply with section 302A-1132, Hawaii Revised Statutes;
- (4) Clarifying that the preschool open doors program service is subject to the availability of funds;
- (5) Removing the requirement that the preschool open doors program's sliding fee scale for copayment by parents or guardians be based on fulfillment of family participation requirements;
- (6) Removing the requirements relating to contracting with eligible providers of school readiness services;
- (7) Authorizing the Department of Human Services to adopt interim administrative rules without regard to chapter 91 or 201M, Hawaii Revised Statutes, subject to certain requirements;
- (8) Requiring the Department of Human Services to report to the Legislature information regarding the preschool open doors program, prior to the Regular Sessions of 2014 and 2015;
- (9) Inserting an appropriation of \$720,000 for fiscal year 2013-2014 and \$440,000 for fiscal year 2014-2015 to the Department of Human Services to establish three temporary positions and to contract services for the purposes of implementing the preschool open doors program as the statewide school readiness program;
- (10) Inserting an appropriation of \$6,000,000 for fiscal year 2014-2015 to the Department of Human Services for subsidies for the preschool open doors program;
- (11) Making this measure effective upon its approval; provided that the appropriations shall take effect on July 1, 2013; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee on Conference notes that this measure codifies the Department of Human Services' existing preschool open doors program but establishes a more rigorous program and stresses the importance of school readiness.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1093, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1093, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Takumi, Luke, Ohno and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 172 on S.B. No. 515**

The purpose of this measure is to:

- (1) Appropriate funds to:
  - (A) The Department of Human Services to assist families experiencing and at risk of experiencing homelessness with housing placement and employment services;
  - (B) The Department of Health to provide clean and sober housing support services;
  - (C) The Department of Human Services to support the State's Housing First Program for chronically homeless individuals in the State; and
  - (D) The Department of Human Services to provide matching funds for the United States Department of Housing and Urban Development's Shelter Plus Care Program;
- (2) Establish and appropriate funds for the Return-to-Home Program, a voluntary assistance program to provide eligible homeless individuals with assistance in being reunited with family and relatives in the individual's home state outside of Hawaii;
- (3) Authorize and appropriate funds for the designation of temporary nighttime parking lots as safe overnight locations for homeless persons to live and sleep in their motor vehicles that would otherwise be parked on private or public roads or property; and
- (4) Appropriate funds to the Department of Human Services to establish safe haven campsites, with and without durational restrictions, for persons who are homeless.

Your Committee on Conference finds that homelessness is a complex issue that requires continuous resources and coordinated efforts at all levels. Homeless persons face a myriad of issues, including mental illness, substance abuse, loss of employment and income, and lack of affordable housing. New and innovative solutions are needed to help homeless persons in Hawaii, and appropriate funding for programs and services tailored to address these issues is essential.

Your Committee on Conference further finds that more information and data are needed to find solutions that will best serve the various homeless communities in the State. A working group comprised of representatives from diverse backgrounds and experiences can provide the insight that is needed to help address homelessness in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have appropriated funds for the Homeless Programs Office of the Department of Human Services to assist families experiencing and at risk of experiencing homelessness with housing placement and employment services;
- (2) Inserting an appropriation amount of \$300,000 for substance abuse treatment and mental health support services for individuals who are homeless or at risk of becoming homeless for fiscal year 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (3) Inserting an appropriation amount of \$200,000 for clean and sober housing support services to be administered by the Alcohol and Drug Abuse Division of the Department of Health for fiscal year 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (4) Inserting language for an appropriation of \$1,000,000 for fiscal year 2013-2014 for a rental assistance program for homeless working individuals and their families who are ready to rent permanent housing to obtain and maintain permanent housing; provided that certain criteria are met related to maximum subsidy and a household's adjusted gross income;
- (5) Inserting an appropriation amount of \$750,000 for the Department of Human Services to continue to administer housing first programs for chronically homeless individuals in the State for fiscal year 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (6) Inserting findings related to the United States Department of Housing and Urban Development's homelessness prevention and rapid re-housing program;
- (7) Inserting language for an appropriation of \$150,000 for the homelessness prevention and rapid re-housing program for fiscal year 2013-2014;
- (8) Inserting an appropriation amount of \$400,000 for matching funds for the shelter plus care program of the United States Department of Housing and Urban Development for fiscal years 2013-2014 and deleting the appropriation for fiscal year 2014-2015;
- (9) Specifying that the return-to-home program shall be a three-year pilot program, rather than a permanent program, that provides eligible homeless individuals with assistance in being reunited with family and relatives in the individual's home state;
- (10) Deleting language that would have established and appropriated funds for the return-to-home special fund;
- (11) Inserting language for an appropriation of \$100,000 for implementation of the return-to-home pilot program, including all program costs and hiring of necessary staff, for fiscal year 2013-2014;
- (12) Deleting language that would have authorized the Department of Human Services, in consultation with the counties, the Hawaii Community Development Authority, and public or private homeless assistance programs, to develop temporary nighttime parking lots to provide safe overnight locations for homeless individuals to sleep in their vehicles;
- (13) Deleting language that would have appropriated funds for the designation of temporary nighttime parking lots to provide safe overnight locations for homeless individuals who live and sleep in their motor vehicles;
- (14) Deleting language that would have appropriated funds to establish two types of safe haven programs, one with durational restrictions and one without, for persons who are homeless, using designated surplus or available open or vacant locations owned by the State;
- (15) Inserting language to establish a homeless assistance working group to work within each local neighborhood in each county to identify, plan, and implement housing options for homeless persons in each local community by December 31, 2013, that reflect shared responsibility for addressing homelessness in Hawaii;
- (16) Inserting language for an appropriation of \$100,000 for fiscal year 2013-2014 for the construction and demonstration of innovative temporary housing solutions as they relate to the working group's findings and recommendations;
- (17) Changing the effective date to July 1, 2013;
- (18) Adding an effective date of no later than December 31, 2013, for the return-to-home pilot program; and
- (19) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 515, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 515, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green, Kidani, Ige and Taniguchi.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Kidani).

Representatives Carroll, Cabanilla, Luke, Morikawa and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Cabanilla).

**Conf. Com. Rep. 173 on S.B. No. 403**

The purpose of this measure is to, among other things:

- (1) Provide that the interest on revenue bonds issued by the Board of Trustees of the Office of Hawaiian Affairs is exempt from gross income for federal income tax purposes;
- (2) Authorize the Office of Hawaiian Affairs to issue revenue bonds to fund loan programs;
- (3) Clarify that the term “office project” or “project” may include projects undertaken by the Office of Hawaiian Affairs in cooperation with other governmental entities or private individuals or organizations; and
- (4) Allow the Board of Trustees of the Office of Hawaiian Affairs to refund outstanding bonds without further authorization from the Legislature.

Your Committee on Conference finds that by expanding the Office of Hawaiian Affairs’ authority to issue revenue bonds, this measure enables the Office of Hawaiian Affairs to finance additional types of projects for its Kakaako properties, fund renovation and equipment acquisitions, and pursue new projects without significant delays caused by the need for legislative authorization. This measure also aligns the Office of Hawaiian Affairs’ revenue bond financing authority with that of other state agencies.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 403, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 403, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Keith-Agaran, Kidani, Ige and Kouchi.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Kouchi).

Representatives Hanohano, Cullen, Lee and Fale.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Lee).

**Conf. Com. Rep. 174 on S.B. No. 642**

The purpose of this measure is to amend the medical use of marijuana law to address the concerns of Hawaii’s seriously ill patients.

Your Conference on Committee has amended this measure by:

- (1) Deleting part I to remove all provisions related to the placement of tobacco products;
- (2) Deleting section 4, relating to transfers of marijuana and limitation of marijuana plants grown;
- (3) Deleting the amendment to section 329-121, Hawaii Revised Statutes (HRS), that would have added a new definition of “reimbursement;”
- (4) Amending the definition of “adequate supply” in section 329-121, HRS, to change the number of ounces of usable marijuana allowed to each qualifying patient to four ounces;
- (5) Amending the definition of “medical use” in section 329-121, Hawaii Revised Statutes, to delete the specification that the term “distribution” is limited to the transfer of marijuana and paraphernalia among qualifying patients and primary caregivers;
- (6) Amending section 329-122(a)(3), HRS, to allow the medical use of marijuana if the amount of marijuana possessed by the qualifying patient does not exceed an “adequate supply;”
- (7) Amending section 329-123(a), HRS, to make mandatory, rather than discretionary, rule making by the Department of Health to mandate all written certifications to comply with a designated form completed by or on behalf of a qualifying patient;
- (8) Amending section 329-123(a), HRS, to amend requirements for the designated form required by Department of Health rules, including the requirement that the qualifying patient shall list the address of the location where the marijuana is grown and that the address shall be listed on the registry card issued by the Department of Health;
- (9) Amending section 329-123(a), HRS, to require the certifying physician to be the qualifying patient’s primary care physician;
- (10) Amending section 329-123(a), HRS, to honor all current active medical marijuana permits through their expiration dates;
- (11) Amending section 329-123(b), HRS, to require the Department of Health to charge an annual fee of \$35 for patient registration certification;
- (12) Amending section 329-123(c), HRS, to limit primary caregivers to caring for only one qualifying patient;
- (13) Amending section 329-123(d), HRS, to allow law enforcement agencies to immediately verify a qualifying patient’s registration status twenty-four hours a day, seven days a week;
- (14) Deleting part III of this measure, which would have transferred the medical use of marijuana program from the Department of Public Safety to the Department of Health;
- (15) Changing the effective date to January 2, 2015; and

- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 642, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 642, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Ige, Hee and Gabbard.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Hee).

Representatives Belatti, McKelvey, Lee, Luke, Brower and Fukumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Luke).

**Conf. Com. Rep. 175 on H.B. No. 1374**

The purpose of this measure is to improve the expenditure of taxpayer dollars by revising the public procurement code to permit the past performance of bidders to be considered when awarding contracts by:

- (1) Providing that the evaluation factors for competitive sealed bidding include applicable past performance on projects of similar scope for public agencies; and
- (2) For competitive sealed proposals, allowing for the consideration of offerors' applicable past performance on projects of similar scope for public agencies.

Your Committee on Conference has amended this measure by:

- (1) Removing provisions that explicitly permit past performance to be factored into the awarding of contracts;
- (2) Providing that the use of competitive sealed bids is just one of several different methods of source selection, rather than the default method;
- (3) Changing its effective date to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1374, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1374, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Kouchi, Baker, English and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Nishimoto, Brower and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 176 on H.B. No. 144**

The purpose of this measure is to, among other things, consolidate and clarify the laws relating to professional employer organizations (PEO) to ensure that only business entities that qualify as PEOs and meet the statutory requirements under Chapter 373L, Hawaii Revised Statutes, can be eligible for a state general excise tax waiver, under section 237-24.7, Hawaii Revised Statutes.

Your Committee on Conference recognizes that many businesses currently operate under various names and forms of professional employer agreements with client companies, making it difficult to recognize any meaningful distinctions between these similarly structured organizations. Your Committee on Conference finds that this measure more narrowly defines "professional employer organization" to facilitate the initial vetting of PEOs in the registration process. Furthermore, it is your Committee on Conference's intent that agencies enforcing other employment laws may independently determine under the applicable definitions in those laws whether the PEO, the client company, or both can be held liable for violations of those other employment laws.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that the PEO must be responsible for providing its employees' statutory benefits by complying with the unemployment insurance, workers' compensation, temporary disability insurance, and prepaid health care laws for all workers performing services pursuant to the professional employer agreement between the PEO and the client company and shall provide notice of such to covered employees;
- (2) Removing language requiring the Director of Labor and Industrial Relations to establish rules regarding fees and other requirements for PEOs pursuant to Chapter 91, Hawaii Revised Statutes;
- (3) Amending the General Excise Tax exemption for professional employer organizations to account for the repeal of Chapter 373K, Hawaii Revised Statutes;
- (4) Providing clarifying language regarding the bond or letter of credit requirement;

- (5) Appropriating \$13,000 of general funds for fiscal year 2013-2014 to the Department of Labor and Industrial Relations to carry out the purpose of this measure;
- (6) Changing its effective date to July 1, 2013; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 144, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 144, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, McKelvey, Hashem, Yamane and Johanson.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 177 on H.B. No. 833**

The purpose of this measure is to make an emergency appropriation for fiscal year 2012-2013 for collective bargaining cost items for officers and employees in collective bargaining unit (10) and their excluded counterparts.

Pursuant to requirements set forth in Article VII, Section 9, of the Hawaii State Constitution, the Governor, in Governor's Message No. 212 to the Legislature, requested immediate consideration and passage of this bill by the Legislature to address the expected cost of the arbitration settlement for collective bargaining unit (10).

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 833, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 833, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke, Takumi and Johanson.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Takumi).

**Conf. Com. Rep. 178 on H.B. No. 668**

The purpose of this measure is to transfer administration of the State's medical marijuana program from the Department of Public Safety to the Department of Health, including by establishing the means for the Department of Health to collect program fees and expend amounts collected for purposes of program administration.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions establishing and directing the activities of the medical marijuana transition advisory group and instead placing joint responsibility for planning for and implementing the transfer of administrative responsibility for the medical marijuana program with the Department of Public Safety and the Department of Health;
- (2) Clarifying that the newly-created fund to allow the Department of Health to collect and expend medical marijuana program fees is a special fund;
- (3) Requiring, rather than permitting, the Department of Health to collect registration fees from both registered medical marijuana program patients and primary caregivers;
- (4) Providing for an orderly and graduated transfer of administrative responsibility for medical marijuana program fees from the Department of Public Safety to the Department of Health, including by making an appropriation to the Department of Health from the newly-created Medical Marijuana Registry Special Fund;
- (5) Requiring the Department of Public Safety and Department of Health to submit a joint report on the transfer of the medical marijuana program to the Legislature prior to both the 2014 and 2015 regular sessions;
- (6) Changing its effective date to upon approval; and
- (7) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 668, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 668, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Espero, Hee, Chun Oakland and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Belatti, Aquino, Morikawa, Kobayashi and Fukumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Aquino).

**Conf. Com. Rep. 179 on H.B. No. 51**

The purpose of this measure is to:

- (1) Authorize the issuance of general obligation bonds to finance project appropriations contained in Acts of the Legislature for which the means of funding are designated as general obligation bond funds or reimbursable general obligation bond funds; and
- (2) Make a declaration of findings regarding the authorizations as required by the Constitution of the State of Hawaii.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee finds that the total amount of principal and interest estimated for the general obligation bonds authorized under this measure, and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit of the State to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance; and
- (2) Making technical, nonsubstantive amendments for purposes of style and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 51, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 51, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Nishimoto and Johanson.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 180 on H.B. No. 726**

The purpose of this measure is to encourage growth in the film and digital media industry by, among other things:

- (1) Extending the motion picture, digital media, and film production income tax credit until 2023;
- (2) Increasing the percentage of qualified production costs that constitutes the motion picture, digital media, and film production income tax credit applies by an unspecified amount;
- (3) Increasing the motion picture, digital media, and film production income tax credit cap to \$12,000,000;
- (4) Establishing a media infrastructure project tax credit; and
- (5) Requiring the Department of Taxation, in collaboration with the Department of Business, Economic Development, and Tourism to prepare a cost-benefit analysis and submit an annual report to the Legislature on the effectiveness of the media infrastructure tax credit.

Your Committee on Conference has amended this measure by:

- (1) Removing the media infrastructure tax credit and the reporting requirement pursuant to the media infrastructure tax credit;
- (2) Providing that the motion picture, digital media, and film production income tax credit amount increase from fifteen percent of qualified production costs to twenty percent in a county with a population of over 700,000, and from twenty percent of qualified production costs to twenty five percent in a county with a population of 700,000 or less;
- (3) Increasing the motion picture, digital media, and film production income tax credit cap to \$15,000,000;
- (4) Establishing that qualified production costs reported to the Department of Business, Economic Development, and Tourism by a taxpayer claiming the motion picture, digital media, and film production income tax credit be reported to the Legislature in non-aggregated form and redacted to preserve the confidentiality of the taxpayer;
- (5) Providing that Internet-only distributions qualify as "digital media" for purposes of the motion picture, digital media, and film production income tax credit;

- (6) Clarifying that a “qualified production” does not include news for purposes of the motion picture, digital media, and film production income tax credit;
- (7) Providing that rentals and fees for use of state and county facilities and locations that are not subject to general excise tax or income tax qualify as “qualified production costs” for purposes of the motion picture, digital media, and film production income tax credit;
- (8) Providing that government-imposed fines, penalties, or interest that are incurred by a qualified production within the state are not “qualified production costs” for purposes of the motion picture, digital media, and film production income tax credit;
- (9) Extending the motion picture, digital media, and film production income tax credit until 2019, instead of 2023;
- (10) Requiring the Department of Business, Economic Development, and Tourism to submit an annual report to the Legislature with a cost benefit analysis of the motion picture, digital media, and film production income tax credit;
- (11) Changing its effective date to July 1, 2013; and
- (12) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 726, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 726, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 181 on H.B. No. 697**

The purpose of this bill is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums and other cost-adjustments for officers and employees of specified legislative agencies.

Your Committee on Conference has amended this measure by:

- (1) Inserting cost-adjustment amounts for officers and employees of specified legislative agencies;
- (2) Adding the House of Representatives and the Senate to the list of legislative agencies;
- (3) Changing its effective date from July 1, 2050, to July 1, 2013; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 697, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 697, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Luke, Nishimoto and Johanson.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Nishimoto).

**Conf. Com. Rep. 182 on H.B. No. 152**

The purpose of this measure is to facilitate and ensure appropriate adjustments to the workers’ compensation medical fee schedule.

More specifically, this measure:

- (1) Requires the Auditor to help the Director of Labor and Industrial Relations make administrative adjustments to the medical fee schedule by:
  - (A) Identifying those medical or health care services or procedures for which fee adjustments are necessary to ensure that injured employees have better access to treatment;
  - (B) Identifying a methodology for conducting the statistically valid surveys of prevailing charges that are necessary for adjustment of the fees; and
  - (C) Recommending adjusted fees to the Director after applying the methodology;
- (2) Makes available to the Director a limited opportunity to expedite the adjustment of fees identified by the Auditor;

- (3) Requires the Auditor to recommend to the Director and Legislature a formalized process for the mandatory periodic review of the adequacy of the medical fee schedule; and
- (4) Appropriates an unspecified sum to the Auditor to assist the Director of Labor and Industrial Relations.

Your Committee on Conference recognizes that the workers' compensation medical fee schedules are complex. Your Committee on Conference believes that this measure provides a thoughtful and deliberate process for making specific adjustments to the workers' compensation medical fee schedules that avoids the unintended consequences that might flow from an across-the-board adjustment.

Upon further consideration, your Committee on Conference has amended the measure by:

- (1) Specifying that the Auditor shall transmit any recommendations to the Director of Labor and Industrial Relations no later than June 1, 2014;
- (2) Specifying that, only between June 1, 2014, and January 1, 2015, the Director of Labor and Industrial Relations shall be authorized to adjust the fees for medical or health services or procedures identified by the Auditor as requiring adjustment, without the necessity of complying with the rule making procedures under chapter 91, Hawaii Revised Statutes; and
- (3) Inserting \$150,000 as the amount to be appropriated to the Auditor.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 152, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 152, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Nakashima, Hashem, Takumi and Johanson.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Johanson).

**Conf. Com. Rep. 183 on H.B. No. 858**

The purpose of this measure is to provide the funding and the coordination to reinvigorate state efforts to fuel an innovation economy and advance research innovation and commercialization.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$6,000,000 for fiscal year 2013-2014 from the general fund;
- (2) Deleting the requirement that a certain amount of the appropriation be reserved and expended for program development, program management, and oversight of program awardees;
- (3) Deleting the appropriation from the Hawaii Strategic Development Corporation Revolving Fund;
- (4) Changing its effective date to July 1, 2013, upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 858, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 858, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Ige, English, Kouchi and Wakai.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Tsuji, McKelvey, Luke, Cachola, Choy and Ward.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

## STANDING COMMITTEE REPORTS

**SCRep. 1            Judiciary and Labor on Jud. Com. No. 1**

Recommending that the Senate advise and consent to the nomination of the following:

DISTRICT FAMILY COURT OF THE FIRST CIRCUIT, STATE OF HAWAII

J.C. No. 1            KEVIN A. SOUZA, for a term to expire in six years.

Your Committee has reviewed the resume and statements submitted by the appointee and finds Kevin A. Souza to possess the requisite qualifications to be appointed to the District Family Court of the First Circuit, State of Hawaii.

Testimony in support of the appointment of Mr. Souza was submitted by the State of Hawaii Organization of Police Officers and twenty-six private individuals. Comments were submitted by the Board of Directors of the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of District Family Court Judge, First Circuit, based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, health, and ability to perform the responsibilities and duties required of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified".

Judge Souza earned his Bachelor of Arts degree in Political Science from Brigham Young University where he played football and was recognized as a Western Athletic Conference Scholar Athlete for four consecutive years. Prior to entering law school, he was awarded an East-West Center Fellowship specializing in International Law at the University of Hawaii. He later earned his Doctorate of Jurisprudence from the William S. Richardson School of Law at the University of Hawaii at Manoa where he was awarded the American Jurisprudence Award for achieving the top grade in his first year Torts class and was a member of the Phi Delta Phi Legal Fraternity.

Judge Souza currently is a sole proprietor of his own private law practice specializing in criminal defense, family practice, and civil litigation. Also, he is currently serving a one-year term as a Per Diem District Family Court Judge of the First Circuit and as a panelist on the Medical Claims Conciliation Panels where he reviews and renders findings and advisory opinions on the issues of liability and damages in medical tort claims against health care providers.

Prior to establishing his own private practice, Judge Souza served as the Chief of Staff for the Honorable James "Duke" R. Aiona, Lieutenant Governor of the State of Hawaii. In this position, he coordinated and managed all day-to-day operations of the Lieutenant Governor's office, including overseeing all office personnel matters, developing and managing a multi-million dollar budget, and coordinating and directing all major office initiatives. He also served as a liaison between the Lieutenant Governor and government agencies and community organizations. Prior to serving as Chief of Staff for the Lieutenant Governor, he served as a senior trial attorney for the Office of the Public Defender where his practice focused primarily on representing accused indigent people in criminal cases within the jurisdiction of Hawaii District and Circuit Courts.

Judge Souza is licensed to practice law in Hawaii and is active in the community. He currently serves as Board Chairperson and Board Member of the Honolulu Community Action Program, a private nonprofit human services agency with the mission to alleviate poverty throughout Honolulu. He also serves as a Board Member of the Ho'okua'aina Foundation and previously served as a Board Member of the Native Hawaiian Chamber of Commerce.

Testimony in support of Judge Souza's appointment commends his experience in the private and public sectors. He has comprehensive knowledge of insurance defense, civil, commercial and real estate litigation, banking law, collections, foreclosures, and personal injury cases due to his years specializing in these areas while in private practice and working years as a Deputy Public Defender. As a Per Diem Family Court Judge, he impressed attorneys who have appeared before him with his judicial temperament and exercise of fairness to both sides. In his courtroom, he demonstrates sincere concern for the families appearing before him and communicates his awareness of the difficulties these families may experience while engaged in the family court process, especially in divorce or child protection cases. He displays strong independent judgment, integrity, honesty, acute analytical skill, a deep awareness of the issues, and compassion. His experience in the public and private sectors as well as his strong communication skills will serve him well on the Family Court bench.

As such, your Committee finds that, based on testimony submitted on his behalf, Judge Kevin A. Souza has the experience, temperament, judiciousness, and other competencies to be a District Family Court Judge. He has a good sense of where the equities, rights, and responsibilities lie in a case, which is essential for a District Family Court Judge.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 2            Judiciary and Labor on Gov. Msg. No. 501**

Your Committee on Judiciary and Labor, to which was referred Governor's Message No. 501, submitting for study and consideration the appointment of:

CIRCUIT COURT OF THE FIRST CIRCUIT, STATE OF HAWAII

G.M. No. 501 DEAN E. OCHIAI, for a term to expire in ten years

Your Committee has reviewed the resume, personal history, experience, and statements submitted by the appointee and finds Judge Dean E. Ochiai to possess the requisite qualifications to be appointed to the Circuit Court of the First Circuit, State of Hawaii.

Your Committee received testimony in support of the appointment of Judge Dean E. Ochiai to the position of Circuit Court Judge of the First Circuit from the Honorable Neil Abercrombie, Governor of the State of Hawaii; and twelve private individuals. Comments were submitted by the Board of Directors of the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of Circuit Court Judge, First Circuit, based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, health, and ability to perform the responsibilities and duties required of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified".

Judge Dean E. Ochiai received his Bachelor of Business Administration degree, with distinction, from the University of Hawaii at Manoa, and his Doctorate of Jurisprudence from the University of California, Hastings College of the Law. He currently serves as a District Court Judge of the First Circuit adjudicating all civil and criminal matters within the jurisdiction of the District Court. In civil actions, he handles small and regular claims, including landlord and tenant matters, and presides over settlement conferences. In criminal actions, he handles all matters relating to traffic infractions and violations, which range from parking violations to driving under the influence cases, and other criminal matters involving property, drugs, and crimes against persons.

Prior to his appointment to the District Court bench, Judge Ochiai served as a Vice President and Managing Attorney with First Insurance Company of Hawaii, Ltd., where he was the chief trial counsel responsible for the overall management, construction, recruitment, staffing, employee evaluation, training and mentoring, active litigation, and operations of the legal department. Budgeting, negotiating, and managing of the internal operations of the company were key components of that position. Prior to his position with First Insurance Company, he served as the senior trial attorney with the Department of the Corporation Counsel of the City and County of Honolulu. In this position, he handled major complex tort, contract, construction claim, infrastructure, and geotechnical cases. Judge Ochiai also previously served as an associate attorney with Damon Key Char and Bocken, where he concentrated his practice in commercial and construction litigation, as well as a Deputy Prosecuting Attorney with the City and County of Honolulu Department of the Prosecuting Attorney.

Judge Ochiai has also been involved in the legal community, including as a member of the Hawaii Supreme Court Attorneys Disciplinary Board, Hawaii Supreme Court Judicial Arbitration Commission, and Supreme Court Committee on Pattern Civil Jury Instructions, among others. He has also served small nonprofit organizations by being a volunteer instructor for the Castle Colleagues, a program for early child care nonprofit entities, and the Weinberg Fellows, a program for social services nonprofit entities, in the areas of insurance and risk management.

Testimony submitted in support of Judge Ochiai's appointment commend his broad legal background and exemplary judicial temperament. As a District Court Judge, he has tried thirty-nine jury trials, more than three hundred non-jury trials, arbitrations, mediations, and settlements, and has monitored over two thousand civil actions since his appointment in 2011. In court, he always treats litigants and their attorneys with respect, compliments counsel for their diligence when warranted, and disposes of cases in an expeditious and fair manner. Many testifiers observed that Judge Ochiai has a wide and deep range of courtroom experience that includes criminal experience gained as a prosecutor and varied civil experiences obtained through his work with the Corporation Counsel and in private practice. He possesses strong legal analytical skills, good command of the facts in the cases being decided, solid communication skills, and even temperament. His broad experience prior to serving on the bench and experience gained as a District Court Judge will give Judge Ochiai a solid legal and judicial base in the criminal and civil cases that are within the jurisdiction of the Circuit Court.

Your Committee finds that, based on the testimony submitted on his behalf, Judge Dean E. Ochiai has the experience, temperament, judiciousness, and other competencies to be a Circuit Court Judge, and has a good sense of where the equities, rights, and responsibilities lie in a case, which is essential for a Circuit Court Judge.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 3 Transportation and International Affairs on S.B. No. 475**

The purpose and intent of this measure is to authorize the Department of Transportation to issue harbor revenue bonds for certain harbor capital improvement projects.

Your Committee received testimony in support of this measure from the Department of Transportation, ILWU Local 142, Ocean Tourism Coalition, and two individuals.

Act 200, Session Laws of Hawaii 2008, authorized the Department of Transportation to issue harbor revenue bonds for harbor capital improvements authorized by Act 200 for certain specified capital improvement projects. The capital improvements were part of the commercial harbors modernization plan. Act 200 also placed into statute the harbors modernization plan which was then repealed by Act 152, Session Laws of Hawaii 2011.

Your Committee finds that the appropriations for capital improvement projects in Act 200 were not released and the funding has since lapsed. Act 200 lapsed all funds unencumbered as of June 30, 2012. The only legislative recourse is to continue to reintroduce this measure until the appropriations are released.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 475 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, none.

**SCRep. 4 Transportation and International Affairs on S.B. No. 726**

The purpose and intent of this measure is to require the rental motor vehicle surcharge tax for car-sharing organizations to be prorated at 12.5 cents per hour for rentals of less than six hours and at existing per day rates for each rental of six hours or longer.

Your Committee received testimony in support of this measure from the Department of Transportation; EAN Holdings, LLC; and two individuals. Comments were received from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that car-sharing is a green transportation innovation that significantly reduces vehicle miles traveled, oil imports, greenhouse gas emissions, and household transportation costs for Hawaii residents. Car-sharing is a fairly new transportation innovation in the United States that has emerged only in the last ten years. It is essentially membership-based hourly car rental. Unlike traditional car rentals, however, car-sharing is not aimed at tourists or individuals who are getting personal vehicles repaired. Car-sharing members are people who either cannot afford to or prefer not to own their own vehicles but occasionally need access to vehicles to run errands. Car-sharing enables them to enjoy the benefits of automobile access without the high fixed costs and other concerns that come with car ownership.

Your Committee has amended this measure by exempting car-sharing organizations from the rental motor vehicle surcharge tax entirely.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 726, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 726, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, none.

**SCRep. 5 Transportation and International Affairs on S.B. No. 337**

The purpose and intent of this measure is to prohibit the use of certain types of wheels that are considered to be dangerous.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and Hawaii Transportation Association. Testimony in opposition was received from Pacific Power Products.

Your Committee finds that "dangerous wheels" on vehicles have a propensity to cause vehicle accidents that result in severe injury and property damage. Dangerous wheels are designed with parts that extend past the rim, using aftermarket parts that are added to manufacturers' otherwise standard wheels. Existing laws do not address dangerous wheels.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "dangerous wheels" upon the recommendation of the Honolulu Police Department; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 337, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, none.

**SCRep. 6 Human Services on S.B. No. 83**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to retain dwelling units in housing projects for lease or rent to nonprofit organizations and government agencies and to provide for the development of community facilities for lease or rent to nonprofit organizations and government agencies.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, the Community Alliance for Mental Health, and one individual.

Your Committee finds that the Hawaii Public Housing Authority works with the United States Department of Housing and Urban Development, the State Legislature, and nonprofit service providers to meet the needs of Hawaii's most vulnerable populations, such as the elderly, disabled, and extremely low-income households. Services such as social self-sufficiency classes and job training used to be administered by the Hawaii Public Housing Authority in asset management projects and were previously funded through a grant from the Department of Housing and Urban Development. However, the Hawaii Public Housing Authority no longer receives this funding and is trying to find creative ways to provide these nonprofit services to residents once again.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 83 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 7 Human Services on S.B. No. 86**

The purpose and intent of this measure is to move the state income tax and obligations exemption for public housing agencies from the laws governing the Hawaii Housing Finance and Development Corporation to the laws governing the Hawaii Public Housing Authority and correct a reference to a section of the United States Housing Act of 1937.

Your Committee received testimony in support of this measure from the Department of Human Services and the Hawaii Public Housing Authority. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the United States Housing Act of 1937, as amended, provides for public housing agencies to issue obligations secured by a variety of United States Department of Housing and Urban Development funds to finance the development of low-income housing projects. The Housing Act further provides that any such obligations, including interest thereon, that are issued by a public housing agency, and any income derived by the public housing agency from such projects, are exempt from all taxation imposed by the United States. Current state laws provide that such obligations and income should also be exempt from all taxation imposed by the State. Your Committee further finds that this measure corrects the misplacement of the statute providing the exemption, which was caused when the Hawaii Housing Finance and Development Corporation and the Hawaii Public Housing Authority bifurcated on July 5, 2005.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 86 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 8 Human Services on S.B. No. 87**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to contract with a corporation for management and other support services when the Authority determines it is unable to perform these services.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Testimony in opposition to this measure was received by the State Procurement Office and the Hawaii Government Employees Association.

Your Committee finds that although existing law allows the Hawaii Public Housing Authority to designate corporate agents to hire private property management companies to manage asset management projects, this measure clarifies that authority and provides the Authority with greater flexibility to further assist the neediest individuals, families, elders, and disabled individuals with acquiring public housing and services that are currently unavailable to them.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 87 and recommends that it pass Second Reading and be referred to the Committee on Economic Development, Government Operations and Housing.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Kidani).

**SCRep. 9 Human Services on S.B. No. 90**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to adopt policies, regulations, standards, procedures, and rental agreements for its federal programs in the manner prescribed by the federal government; provided that federal laws, rules, and regulation prevails in the case of conflicts between state and federal laws, rules, and regulations.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Testimony in opposition to this measure was received by the Drug Policy Forum of Hawaii.

Your Committee finds that under current Hawaii laws, the Hawaii Public Housing Authority can adopt administrative rules governing its federal programs in accordance with chapter 91, Hawaii Revised Statutes. The Hawaii Public Housing Authority's federal programs are additionally subject to extensive regulation by federal laws, rules, regulations, contracts, notices, memoranda, and other instruments issued by the United States Department of Housing and Urban Development. These federal regulations are applicable to all public housing agencies nationwide and can require amendments to, adoption of, and repeal of any administrative policies and procedures of a public housing agency.

Your Committee also finds that federal requirements for public housing agencies more than adequately protect the interests of the public and ensure accountability and resident and public involvement in the adoption, amendment, or modification of program rules and regulations. The imposition of additional state requirements may unnecessarily delay and burden the administration of the Authority's programs.

Your Committee has heard the testimony expressing concerns about medicinal marijuana because of the differences between federal and state laws. The Hawaii Public Housing Authority already has administrative rules that allow for reasonable accommodations for residents; however, your Committee finds that this issue raises concerns that merit further consideration by your Committee on Judiciary and Labor.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 90, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 90, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kidani).

**SCRep. 10 Human Services on S.B. No. 91**

The purpose and intent of this measure is to appropriate funds for the state rent supplement program for homeless working individuals or families who are ready to rent permanent housing in order to obtain and maintain permanent housing.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, the Hawaii Appleseed Center for Law and Economic Justice, Catholic Charities Hawaii, The Institute for Human Services, PHOCUSED, the Partners in Development Foundation, the Community Alliance for Mental Health, and the Hawaii Substance Abuse Coalition.

Your Committee finds that working families and individuals have income to pay rent, but the income is often not sufficient to pay the full market rent. For many homeless people, waiting for public housing seems to be the only option, since it would provide a very low cost rent. However, waitlists for this housing are very long. With help from a shallow subsidy, working families may be able to more quickly move out of homelessness.

Your Committee has amended this measure by:

- (1) Inserting an appropriation for an unspecified amount to the Department of Human Services to hire and train one program specialist to monitor the state rent supplement program and to contract out the implementation of the state rent supplement program statewide;
- (2) Changing the expending agency to the Department of Human Services;
- (3) Specifying that the monitoring of the program by the program specialist shall commence no later than January 1, 2014, to provide the Department of Human Services sufficient time to hire and train the program specialist; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 91, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 91, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kidani).

**SCRep. 11 Human Services on S.B. No. 92**

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to continue to administer Housing First programs for chronically homeless individuals in the State.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law and Economic Justice, Catholic Charities Hawaii, the Drug Policy Forum of Hawaii, Partners in Care, PHOCUSED, the Partners in Development Foundation, and the Community Alliance for Mental Health. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Housing First program has proven its success in many states as a way to more effectively address the chronically homeless. These homeless are often the most visible homeless, living in our neighborhoods, doorways, and under bridges. These persons experience homelessness over a long period of time and incur very significant public costs. Housing First assists them to gain permanent housing and then provides the services needed to keep them in housing and successfully transition off the streets.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$1,000,000 to \$1,500,000 to reflect the amount requested by the Department of Human Services in the Governor's proposed Executive Budget; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 92, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 92, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 12 Human Services on S.B. No. 305**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to develop public housing projects and to develop commercial and industrial properties in connection with the development of public housing dwelling units.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and the Community Alliance for Mental Health.

Your Committee finds that under current state laws, the Hawaii Public Housing Authority is allowed to develop several different classes of land, such as public land in agricultural districts and certain federal lands. This measure would enable the Hawaii Public Housing Authority to provide more development options to further serve the low-income residents of Hawaii and benefit the surrounding communities in which those properties are situated.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 305 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 13 Human Services on S.B. No. 728**

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds for the construction of the Senior Residence at Piikoi, an affordable senior rental housing project on Oahu.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority; the Hawaii Housing Finance and Development Corporation; the Pacific Housing Assistance Corporation; and Alexander and Baldwin, Inc.

Your Committee finds that with the aging of Hawaii's population, the need for affordable rental housing becomes especially acute for senior citizens. Nearly twenty-nine percent of Hawaii's population is over fifty years of age. Facing challenging economic conditions, the ability to meet monthly housing expenses is a constant and growing concern for senior renters.

Your Committee has amended this measure by:

- (1) Changing the description of the land on which the Senior Residence at Piikoi will be situated from state-owned leased land to gifted land; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 728, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 728, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 14 Health on S.B. No. 198**

The purpose and intent of this measure is to amend section 457-8.5, Hawaii Revised Statutes, to recognize and adopt the National Council of State Boards of Nursing's consensus model by clarifying language relating to advanced practice registered nurse educational requirements.

Your Committee received testimony in support of this measure from the University of Hawaii at Manoa School of Nursing and Dental Hygiene, the University of Hawaii at Hilo School of Nursing, Hawai'i Pacific Health, Hawaii Long Term Care Association, The Queen's Health Systems, Hawai'i State Center for Nursing, Blood Bank of Hawaii, Healthcare Association of Hawaii, the American Organization of Nurse Executives Hawaii Chapter, the Hawai'i Association of Professional Nurses, the Board of Nursing, and nine individuals.

Your Committee finds that under existing state law, advanced practice registered nurses may only be recognized if they receive a master's degree in certain nursing fields. This precludes recognition of nurses who earn a Doctor of Nursing Practice degree and other nationally recognized clinical doctorates in nursing, which directly impacts Doctor of Nursing Practice graduates of the University of Hawaii at Manoa School of Nursing and the University of Hawaii at Hilo School of Nursing. Your Committee further finds that it is necessary to expand the State's recognition of nurses who complete an accredited graduate-level education program preparing the nurse for one of the recognized advanced practice registered nurse roles  certified registered nurse anesthetist, nurse midwife, clinical nurse specialist, and nurse  regardless of whether the program leads to a master's degree.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 198 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 15 Health on S.B. No. 527**

The purpose and intent of this measure is to appropriate funds for the comprehensive breast and cervical cancer control program.

Your Committee received testimony in support of this measure from the Department of Health, The Queen's Medical Health Systems, Planned Parenthood of Hawaii, the Hawaii Medical Association, and the Cancer Action Network.

Your Committee finds that breast cancer is the most common cancer among women in Hawaii and is currently the second leading cause of cancer deaths among women. Although breast cancer is not preventable, regular mammograms and clinical breast examinations are critical to early detection and improved survival. Cervical cancer, on the other hand, is preventable and can be detected early through regular screening. This measure provides necessary funding for the comprehensive breast and cervical cancer

control program to continue the critical screening, diagnostic, and treatment services that improve and save the lives of over 1,000 women every year.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 527 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 16 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 531**

The purpose and intent of this measure is to require businesses licensed under chapter 281, Hawaii Revised Statutes, to post signs warning of the risks of birth defects for women drinking alcohol during pregnancy.

Your Committees received testimony in support of this measure from the Department of Health, Health Mothers Healthy Babies Coalition, March of Dimes Hawaii Chapter, and the Malama Family Recovery Center. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the use of alcohol by women during pregnancy can cause birth defects and fetal alcohol spectrum disorders, including physical, mental, behavioral, and learning disabilities. Your Committees further find that warnings regarding these risks should be posted in all premises licensed to sell liquor under chapter 281, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 531 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 17 Commerce and Consumer Protection on S.B. No. 891**

The purpose and intent of this measure is to improve the regulation of notaries by:

- (1) Clarifying the information required to be on notary seals; and
- (2) Authorizing the Attorney General to adjust notary commission and renewal fees and establish and adjust other fees relating to the regulation of notaries through the adoption of administrative rules.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure requires a notary public to include the notary public's unique commission number on the notary public's stamp or seal. This requirement will help deter the fraudulent use of notary stamps or seals, assist in ascertaining and tracking the correct notary public, and locate a specific notary public's record books.

Your Committee further finds that fees associated with notary commission and renewal have not increased since 1998. However, the number of notaries in the State has significantly increased over the years, along with a rising number of complaints against notaries and requests for copies of entries in notary record books relating to disputed or litigated transactions.

Your Committee also finds that this measure allows fees related to the regulation of notaries public to be established and adjusted upon the adoption of administrative rules. The Department of the Attorney General has spent significant time overseeing the State's notary program, and the flexibility afforded to the Department by this measure will enable continued improvements to the processing of applications and renewals; research and timely responses to inquiries, requests, and complaints; and general regulation of notary practice and conduct.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 891 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 18 Commerce and Consumer Protection on S.B. No. 503**

The purpose and intent of this measure is to permanently prohibit private transfer fees by eliminating the sunset date of Act 169, Session Laws of Hawaii 2010.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS and Hawaii Land Title Association.

Your Committee finds that private transfer fees are fees imposed by private parties, through deed restrictions or covenants, on transferees of real property in connection with future conveyances of the property. Private transfer fees may be imposed as part of a new housing development on the initial and subsequent purchasers of a property.

Your Committee further finds that if left unregulated, private transfer fees may be misused or create significant barriers to homeownership. The Legislature passed Act 169, Session Laws of Hawaii 2010, in response to concerns over private transfer fees and their potential negative impacts on homeownership and property values. Your Committee additionally finds that as of 2011, thirty-six states have either banned or placed conditions on the use of private transfer fees. Accordingly, your Committee concludes that a permanent prohibition on the use of private transfer fees in the State is appropriate.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 503 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 19 Commerce and Consumer Protection on S.B. No. 499**

The purpose and intent of this measure is to adopt the Uniform Partition of Heirs Property Act, which establishes procedures and remedies for use in actions for partition of real property involving heirs property.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation.

Your Committee finds that in 2010, the Uniform Law Commission promulgated the Uniform Partition of Heirs Property Act to provide a fair solution to the risks posed to those who own heirs property, which is real property held in tenancy in common that meets certain requirements.

Your Committee further finds that this measure does not displace existing partition law for non-heirs property, nor does it prohibit a party from petitioning for partition by sale or apply to situations where there is a written agreement relating to property partition. Rather, this measure establishes a hierarchy of remedies designed to protect a family's property holdings and real property wealth for partition actions involving heirs property. Your Committee also finds that this measure provides cotenants with many of the rights and protections found in private agreements governing the partition of tenancy in common property.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 499 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 20 Agriculture on S.B. No. 593**

The purpose and intent of this measure is to subsidize livestock feed costs for qualified producers of milk, including goat milk, pork, eggs, poultry, beef, sheep and lamb meat, fish, and crustaceans.

Your Committee received testimony in support of this measure from the Department of Agriculture, Kauai Kunana Dairy, 4 Ag Hawaii, the Local Food Coalition, Hawaii Aquaculture and Aquaponics Association, Hawaii Cattlemen's Council, Lani's Goats, Hawaii Farm Bureau Foundation, Ulupono Initiative, and one individual. Your Committee received testimony in opposition to this measure from Animal Rights Hawaii.

Your Committee finds that livestock feed costs can constitute up to seventy percent of total production costs. Due to the prolonged drought in the State and on the mainland, feed costs are skyrocketing. Providing subsidies to the livestock industry will prevent farm closures; promote investment in modern equipment to expand and improve livestock production; and promote development of new markets and products. Subsidies will improve the economic viability of local agriculture and increase food security.

Your Committee has amended this measure by:

- (1) Clarifying that the subsidy applies to qualified producers who produce fish and crustaceans farmed by aquacultural practices;
- (2) Disallowing a subsidy within a fiscal quarter to a qualified producer where the herd size falls below thirty sheep or lambs in the applicable fiscal quarter;
- (3) Capping the subsidy for feed costs for sheep, lambs, fish, and crustaceans at fifty percent of the respective feed costs;
- (4) Prohibiting reimbursement of feed cost to qualified producers when the amount of reimbursement will result in an annual profit of more than eight percent for sheep, lamb meat, or seafood producers; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 593, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 593, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6; Ayes with Reservations (Thielen, Wakai). Noes, none. Excused, 1 (Slom).

**SCRep. 21 Agriculture on S.B. No. 326**

The purpose and intent of this measure is to establish a good agricultural practices task force to identify good agricultural practices and preventative measure guidelines in the food supply system to improve the overall safety of locally grown food.

Your Committee received testimony in support of this measure from the Department of Agriculture, Land Use Research Foundation of Hawaii, Lani's Goats, Hawaii Farm Bureau Federation, and one individual.

Your Committee finds that good agricultural practices that will improve the safety of locally grown food are vital to the safety and security of the State and to the economic viability of local agriculture. Your Committee also finds that the federal Food Safety Modernization Act was recently enacted and the federal government is in the process of issuing regulations that will affect Hawaii's agricultural practices. The good agricultural practices task force will develop preventative measures and guidelines to improve food safety in Hawaii and will also provide a platform for the State to address the pending federal regulations.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 326 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 22          Agriculture on S.B. No. 524**

The purpose and intent of this measure is to establish state planning and policy objectives for the economy and fund programs that will increase the demand for and access to locally grown food to improve Hawaii's food self-sufficiency.

Your Committee received testimony in support of this measure from the Department of Agriculture, College of Tropical Agriculture and Human Resources at the University of Hawaii at Manoa, Land Use Research Foundation of Hawaii, Lani's Goats, the League of Women Voters of Hawaii, Hawaii Aquaculture and Aquaponics Association, Hawaii Farm Bureau Federation, and one individual.

Your Committee finds that this measure will implement the recommendations made in the 2012 report issued by the Office of Planning and the Department of Agriculture titled "Increased Food Security and Food Self-Sufficiency Strategy: A State Strategic/Functional Plan Prepared in Accordance with HRS Chapter 226 Hawaii State Plan and the Hawaii Comprehensive Economic Development Strategy." This measure will provide the necessary funding to implement programs that increase access to locally grown foods, increase the demand for production of locally grown foods, and provide the institutional support needed to promote and improve food self-sufficiency in Hawaii.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 524 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 23          Human Services on S.B. No. 94**

The purpose and intent of this measure is to add the Executive Director of the Hawaii Public Housing Authority to the Hawaii Interagency Council on Homelessness.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Health, Catholic Charities Hawaii, The Institute for Human Services, Community Alliance for Mental Health, and one individual. Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that homelessness is growing in Hawaii. This complex issue requires greater collaboration and coordination on strategic initiatives if we are to end homelessness in Hawaii. The Hawaii Interagency Council on Homelessness has been established to gather diverse government entities, as well as representatives from the homeless coalitions and business, faith-based, and other organizations. The mission of the Hawaii Public Housing Authority is to provide safe, decent, sanitary, and affordable housing to extremely low income Hawaii residents, some of whom are homeless or on the brink of homelessness. As such, adding the Executive Director of the Authority to the membership of the Hawaii Interagency Council on Homelessness would improve the effectiveness and efficiency of the Council.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 94 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 24          Commerce and Consumer Protection on S.B. No. 8**

The purpose and intent of this measure is to:

- (1) Prohibit the owner of an animal, and the owner's employees, from performing surgical procedures on the animal without being licensed as a veterinarian;
- (2) Establish that intentionally or knowingly performing any surgical procedure on a pet animal by any person not licensed as a veterinarian is a class C felony; and
- (3) Specify that accepted veterinary practices and cropping or docking as customarily practiced shall not be considered cruelty to animals in the first degree if performed by a licensed veterinarian.

Your Committee received testimony in support of this measure from The Humane Society of the United States, Hawaiian Humane Society, Hawaii Island Humane Society, West Hawaii Humane Society, Hawaii Veterinary Medical Association, Equine 808 Horse Rescue, and twenty-one individuals. Your Committee received testimony in opposition to this measure from The Pet Hale and six individuals. Your Committee received comments on this measure from the Board of Veterinary Examiners.

Your Committee finds that surgical procedures, including surgical birth, ear cropping, tail docking, dewclaw removal, and debarking, are extremely painful to a pet animal if performed improperly by someone other than a licensed veterinarian. Serious infection, shock, and even death of a pet animal can result when these procedures are performed by non-veterinarians.

Your Committee further finds that pet animals that undergo these surgical procedures require proper pre- and post-operative care and anesthesia to reduce complications, blood loss, and distress. This measure therefore promotes the humane treatment of pet animals by ensuring that pet animals undergoing surgical procedures will do so under the care of an appropriately licensed veterinarian.

Your Committee has amended this measure by:

- (1) Specifying that the prohibited conduct referenced in this measure is the performance of surgical procedures by the owner of a pet animal and the owner's employees on the pet animal, where "pet animal" has the same definition as in section 711-1100, Hawaii Revised Statutes; and
- (2) Specifying that the surgical procedures on pet animals referenced in this measure include dewclaw removal.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 8, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 8, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 25 Commerce and Consumer Protection on S.B. No. 341**

The purpose and intent of this measure is to:

- (1) Determine the priority of the persons who may direct the disposition of a decedent's remains and the arrangements for funeral goods and services;
- (2) Permit funeral establishments, cemeteries, mortuaries, and crematories to rely and act upon written directions from the decedent or persons who have the right of disposition without liability; and
- (3) Permit funeral establishments, cemeteries, mortuaries, and crematories to control the disposition and dispose of a decedent's remains in certain circumstances.

Your Committee received testimony in support of this measure from Hawaii Funeral and Cemetery Association, Inc.; Mililani Group, Inc.; Oahu Cemetery Association; Leeward Funeral Home; Hosoi Garden Mortuary, Inc.; Hawaiian Memorial Life Plan, Ltd.; and Dodo Mortuary, Inc. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that funeral establishments, cemeteries, mortuaries, and crematories are often approached by persons who had a relationship to a decedent and who wish to direct or assist with the disposition of the decedent's remains. In a best case scenario, the decedent's wishes regarding disposition are indicated in a written instrument, the establishments have a record of the decedent's wishes, and there is no contrary wish of any surviving person. However, in some situations, the decedent may not have provided written direction for disposition or there may be a dispute amongst the decedent's survivors over the decedent's wishes.

Your Committee further finds that forty-eight states have enacted legislation that specifies the priority of persons who may control the disposition of a decedent's remains or the arrangements for funeral goods and services. This measure permits Hawaii to join these other states by clearly establishing the priority of the persons who may control the disposition of a decedent's remains and the arrangements for funeral goods and services, and providing certainty for funeral establishments, cemeteries, mortuaries, and crematories to take direction from these persons and promptly provide needed services.

Your Committee has amended this measure by:

- (1) Clarifying that a funeral establishment, cemetery, mortuary, or crematory may, rather than shall, rely on and act according to the instructions of the first of two or more persons in the same priority class to make funeral and disposition arrangements, under certain conditions;
- (2) Clarifying that the immunity for good faith reliance established in this measure shall not apply to gross negligence, intentional, willful, or wanton conduct; and
- (3) Making a conforming amendment to the purpose section for clarity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 341, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 341, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 26 (Joint) Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs on S.B. No. 382**

The purpose and intent of this measure is to permit the County of Hawaii to appropriate the county's share of fuel tax revenue for the maintenance of substandard private subdivision roads that are used by the public.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawaii, Maui County Department of Public Works, Friends of Puna's Future, Marooned Farms LLC, Kopua Farmlots, Hawaiian Shores Community

Association, Hawaiian Paradise Park, and numerous individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that growing populations served by private subdivision roads present the counties with serious safety and economic concerns. Although these roads are accessed by the general public, they are maintained by private citizens or not maintained at all, rendering the roads impassable. This measure would give the County of Hawaii the flexibility to use fuel tax revenue to improve private subdivision road conditions, ensuring the safe passage of residents, visitors, emergency service vehicles, and school buses.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 382 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Transportation and International Affairs  
Ayes, 6; Ayes with Reservations (Kouchi). Noes, none. Excused, 3 (Gabbard, Solomon, Slom).

**SCRep. 27 (Joint) Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs on S.B. No. 539**

The purpose and intent of this measure is to exempt certain totally and permanently disabled veterans from paying motor vehicle registration expenses.

Your Committees received testimony in support of this measure from the State Office of Veterans' Services; the City and County of Honolulu Division of Motor Vehicle, Licensing, and Permits; and several individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that it is necessary to give back to veterans who have served valiantly in support of and sacrifice to the United States. Furthermore, the nature of veterans' disabilities often will not allow them to pursue paid employment, and their fixed income generally falls short of their cost of living. The exemption of certain totally and permanently disabled veterans from paying motor vehicle registration expenses will improve the quality of life for the veterans and their dependents.

Your Committees have amended this measure by:

- (1) Deleting the honorable discharge eligibility requirement for the exemption and specifying instead that a veteran who is discharged from the United States uniformed armed forces is eligible except if dishonorably discharged; and
- (2) Excluding vehicles used for commercial purposes and more than one vehicle of a disabled veteran from the exemption.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 539, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 539, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Transportation and International Affairs  
Ayes, 6. Noes, none. Excused, 3 (Gabbard, Solomon, Slom).

**SCRep. 28 Human Services on S.B. No. 916**

The purpose and intent of this measure is to:

- (1) Establish that if a protective order is issued to prevent sexual offenses or child abuse or a recurrence of such acts that would constitute a felony between family or household members or if a licensed mental health professional submits an affidavit made under oath or under penalty of perjury to a court stating that the person suffers from instances of extreme psychological abuse, the court shall issue a permanent protective order; and
- (2) Amend the definition of domestic abuse to include sexual offenses or child abuse committed by one family or household member against another family or household member, regardless of the age of either member.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Judiciary, Hawaii State Coalition Against Domestic Violence, and Domestic Violence Action Center.

Your Committee has heard testimony of the Judiciary expressing concerns that:

- (1) This measure does not appear to add any new remedy, as current procedures appear to work in the petitioners' interests;
- (2) This measure deprives petitioners of their ability to make decisions about their civil action and their lives;
- (3) There may be unintended and unforeseen consequences because of the measure's specifics; and

- (4) Unless the defendant agrees to the court's reliance on an affidavit, the court will be unable to follow this measure because of due process problems.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 916, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 916, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 29 Human Services on S.B. No. 815**

The purpose and intent of this measure is to appropriate funds for the Honolulu Zero to Three Court for various program purposes.

Your Committee received testimony in support of this measure from the Judiciary. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that in 2008, the family court started the Zero to Three Court in response to increasing scientific evidence that supported a finding that babies and toddlers are neurologically compromised by dysfunctional family dynamics even if they are not directly physically harmed, resulting in long lasting compromised behaviors and learning disorders, early intervention is effective in preventing or alleviating these problems, and there are proven techniques that can help many of these babies and toddlers. This measure will enable the Zero to Three Court to continue providing essential services to babies and families until more sustainable state funding can be secured.

Your Committee has amended this measure by changing the expending agency from the Department of Human Services to the Judiciary.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 815, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 30 Human Services on S.B. No. 529**

The purpose and intent of this measure is to:

- (1) Prohibit family courts from awarding a person custody of or visitation with a child if the person has been convicted of rape or sexual assault and the child was conceived as a result of that violation; and
- (2) Authorize the family courts to terminate parental rights, with respect to a child, of a natural father who has been convicted of rape or sexual assault and the child was conceived as a result of the rape or sexual assault.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women and the Sex Abuse Treatment Center.

Your Committee finds that state law does not prevent a natural father from claiming paternity rights and obtaining custody of or visitation with a child conceived as a result of sexual assault or rape. The father is afforded the same rights as any other father despite the sexual assault or rape against the victim-mother because Hawaii does not have a law restricting or terminating those rights. Consequently, any natural father may assert paternity rights, including custody and visitation, forcing a victim-mother to confront the natural father on a recurring basis while raising a child conceived from a sexual assault or rape.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 529 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 31 Human Services on S.B. No. 392**

The purpose and intent of this measure is to establish the interagency coordinating body for youth and family programs within the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Education; the Hawaii National Guard Youth Challenge Academy; and Hale Opio Kauai, Inc. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that as many private organizations collaborate to benefit their target populations, state agencies should similarly make a collective and synergistic impact by utilizing their collective resources in a more intentional and informed manner through a coordinating body for youth and family programs. This effort would result in each state agency having more knowledge of services that are being provided and by whom and should lead to youth and families having more knowledge and access to a comprehensive and coordinated array of services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 32 Human Services on S.B. No. 303**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and the appropriation of funds into the rental assistance revolving fund for purposes of expanding the rental assistance program.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, the Hawaii Public Housing Authority, the Hawaii Association of REALTORS, the Hawaii Appleseed Center for Law and Economic Justice, the Pacific Housing Assistance Corporation, Catholic Charities Hawaii, and the International Longshore and Warehouse Union 142 Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the rental assistance revolving fund targets funding to low-income families as they enter housing. Even more important, new funding would support the development of new affordable buildings that could offer this project-based, not tenant-based, subsidy. The average subsidy is between \$175 and \$250 per month. Your Committee further finds that this subsidy makes it possible for families to be financially stable and keep their unit over time; this in turn strengthens the financial viability of affordability of affordable housing projects, which are in short supply.

Your Committee has heard the testimony of the Department of Budget and Finance expressing concerns that federal tax law requires that tax-exempt general obligation bond proceeds be used to finance projects that serve public purposes. As it appears that private entities will derive the benefit of the rental housing trust fund, tax-exempt general obligation bond proceeds cannot be used for this purpose. The State would need to issue taxable general obligation bonds at a higher cost in order to allow the rental housing trust fund to provide financing to private entities. Your Committee finds that this issue raises concerns that merit further consideration by your Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 303 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kidani).

**SCRep. 33 (Majority) Human Services on S.B. No. 302**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for deposit into the rental housing trust fund to finance affordable rental housing development.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, the Hawaii Public Housing Authority, Catholic Charities Hawaii, the Hawaii Association of REALTORS, the Hawaii Appleseed Center for Law and Economic Justice, the Pacific Housing Assistance Corporation, the International Longshore and Warehouse Union Local 142 Hawaii, and the Community Alliance for Mental Health. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that as of June 30, 2012, 4,250 rental units had been created or were underway with the assistance of the rental housing trust fund and other leveraged funding. The rental housing trust fund has many more applications than can be funded with the current funds. In fiscal year 2012, the rental housing trust fund received \$37,000,000 in project requests but was only able to commit \$20,700,000 for four out of the nine projects due to limited resources. Your Committee further finds that the Hawaii Housing Finance and Development Corporation has the ability to quickly and efficiently utilize appropriations through the rental housing trust fund.

Your Committee has heard the testimony of the Department of Budget and Finance expressing concerns that federal tax law requires that tax-exempt general obligation bond proceeds be used to finance projects that serve public purposes. As it appears that private entities will derive the benefit of the rental housing trust fund, tax-exempt general obligation bond proceeds cannot be used for this purpose. The State would need to issue taxable general obligation bonds at a higher cost in order to allow the rental housing trust fund to provide financing to private entities. Your Committee finds that this issue raises concerns that merit further consideration by your Committee on Ways and Means.

Your Committee has amended this measure by inserting a general obligation bond authorization amount and appropriation amount of \$30,000,000 for fiscal years 2013-2014 and 2014-2015.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 302, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Kidani).

**SCRep. 34 Human Services on S.B. No. 107**

The purpose and intent of this measure is to create the Hawaii kupuna trust fund, which comprises public and private funding for meeting the outstanding and future needs of the elderly and dependent adult population.

Your Committee received testimony in support of this measure from the Executive Office on Aging, the County of Hawaii Office on Aging, the Community Alliance for Mental Health, and one individual.

Your Committee finds that Americans with multiple, chronic health conditions and increased rates of disability in old age are living longer now than in the past. Furthermore, the aging of the population in Hawaii guarantees that there will be a greater need for long term care in the future. Between 2007 and 2030, the population aged eighty-five and older, which has the greatest need for long term care, will increase by almost two-thirds.

Your Committee has amended this measure by:

- (1) Deleting the definition of "dependent adult", adding a definition for "vulnerable adult", and replacing references to "dependent adult" with "vulnerable adult" for consistency with existing statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 107, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 35 (Majority) Human Services on S.B. No. 85**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to establish the resident programs and services trust fund, to be administered by the Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, the Community Alliance for Mental Health, and one individual. Testimony in opposition to this measure was received by the Department of Budget and Finance and the State Procurement Office. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the establishment of a resident programs and services trust fund by the Hawaii Public Housing Authority will significantly improve the ability of the Authority to ensure that the tenants of public housing receive much needed resident programs and services, such as family self-sufficiency programs, employment training and opportunities, and education- and health-related services, that will not only improve their quality of life, but also assist the tenants in transitioning out of public housing.

Your Committee has amended this measure by:

- (1) Specifying that the education- and health-related programs and services that may be funded by the resident programs and services trust fund shall be those deemed appropriate by the Authority, thereby allowing the agency the flexibility to include other uses of the fund when future programs and services might arise; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 85, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 85, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Kidani).

**SCRep. 36 Human Services on S.B. No. 82**

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Public Housing Authority to sell, lease, rent, hold, maintain, use, and operate certain properties;
- (2) Authorize the Authority to receive all gifts; provided that they benefit public housing residents; provided further that the acceptance of gifts with an estimated value of \$1,000 or more shall be approved or confirmed by the Board of Directors of the Authority;
- (3) Authorize the Authority to use volunteer services; and
- (4) Exempt the Authority from various state laws for the use of volunteer services.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and one individual.

Your Committee finds that projects that assist the Hawaii Public Housing Authority in rehabilitating vacant units need physical labor, electrical wiring, and plumbing. The Hawaii Public Housing Authority is lacking in these areas.

Your Committee further finds that many volunteers come to the Hawaii Public Housing Authority to improve their community by creating projects and rehabilitating vacant units. These projects contribute to positive community relations as well as provide needed housing for individuals.

However, your Committee finds that on many occasions, people and organizations have been turned away from the Hawaii Public Housing Authority due to conflicts with Hawaii's ethics and volunteer services laws. Gifts, such as gallons of paint, maintenance equipment, and lumber, are items that would truly make a difference in the living environment for the tenants rather than personally benefit the Hawaii Public Housing Authority Board or staff.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 82 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 37 Human Services on S.B. No. 59**

The purpose and intent of this measure is to increase the monthly board rate distributed by the Department of Human Services for foster care services for children.

Your Committee received testimony in support of this measure from the Department of Human Services; the Hawaii Youth Services Network; Hale Opio Kauai, Inc.; Family Programs Hawaii; and twenty-six individuals.

Your Committee finds that the Department of Human Services has not raised the monthly board rate for foster care services since 1990. The current monthly board rate in Hawaii of \$529 for all children regardless of age is insufficient, due to increased costs for food, housing, utilities, clothing, and other necessities.

Your Committee has heard testimony of the Department of Human Services expressing concerns about the fiscal impact of increasing the monthly board rate for foster care services for children. The Department of Human Services estimates that if the board rate were to be raised by \$75 per month, an additional \$5,298,300 per year in state general funds would need to be appropriated. Your Committee finds that this issue merits further consideration and requests that your Committee on Ways and Means further examine this issue.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 59 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 38 Health on S.B. No. 657**

The purpose and intent of this measure is to protect medical service providers, not just emergency medical service providers, from bodily injury in the performance of their duties.

Your Committee received testimony in support of this measure from Kaiser Permanente, Hawaii Medical Association, and one individual.

Your Committee finds that current law provides protection against bodily injury to health care personnel in hospital emergency rooms. This measure will expand the scope of protection beyond hospital emergency rooms to include the entire hospital, medical clinics, and federally qualified health centers.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 657 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 39 (Majority) Health on S.B. No. 654**

The purpose and intent of this measure is to mandate health insurance coverage for treatments related to the cessation of tobacco use and inform policyholders about the availability of the new coverage.

Your Committee received testimony in support of this measure from the Department of Health, American Heart Association, and Kaiser Permanente. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that cigarette smoking is a significant cause of preventable disease and death in Hawaii. Approximately 176,000 adults in Hawaii report being current smokers. This measure will assist smokers in ending their addiction by improving their access to smoking cessation programs.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 654 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 40 Health on S.B. No. 641**

The purpose and intent of this measure is to make an appropriation from general revenues as a grant to the Kahi Mohala Behavioral Health Center for the establishment of an adult psychiatric crisis unit.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, Kahi Mohala Behavioral Health, and Community Alliance for Mental Health.

Your Committee finds that Kahi Mohala Behavioral Health is Hawaii's only free standing, community-based, nonprofit psychiatric hospital. The creation of an adult psychiatric crisis unit and expansion of facilities at Kahi Mohala's Behavioral Health will help address limited capacity for people who are mentally ill, suffering from substance abuse, or are otherwise in need of care or treatment.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 641 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 41 (Joint) Health and Human Services on S.B. No. 199**

The purpose and intent of this measure is to establish a colorectal screening pilot program to increase awareness of colorectal cancer and promote the early detection of colorectal cancer.

Your Committees received testimony in support of this measure from the Hawaii Medical Association and the American Cancer Society Cancer Action Network. Your Committees received testimony in opposition to this measure from the Department of Human Services.

Your Committees find that colorectal cancer is the second leading cancer-related cause of death of men and women in the United States. The colorectal screening pilot program created by this measure will increase awareness of colorectal cancer and increase the chances of detecting colorectal cancer in individuals who are at greater risk for colorectal cancer, thereby improving their chances of survival.

Your Committees have amended this measure by:

- (1) Extending the sunset date of the pilot program to June 30, 2017;
- (2) Making a conforming amendment to extend the Department of Health's reporting requirement; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 199, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 199, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Human Services  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 42 (Joint) Health and Human Services on S.B. No. 310**

The purpose and intent of this measure is to reduce hospitalization and incarceration of persons with severe mental illness through the establishment of an assisted community treatment program.

Your Committees received testimony in support of this measure from the Department of Public Safety; State Council on Mental Health; Mental Health America of Hawaii; Institute for Human Services, Inc.; Hawaii Catholic Conference; Helping Hands Hawaii; Hawaii Substance Abuse Coalition; National Alliance on Mental Illness; Institute for Human Services; and two individuals. Your Committees received testimony in opposition to this measure from the Department of Health and one individual. Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that there are serious problems of high incarceration and hospitalization rates of those with severe mental illness. Assisted community treatment provides an opportunity for people with serious mental illness to be treated in the least restrictive setting and reduces the trend toward criminalizing mental illness.

Your Committees have amended this measure by:

- (1) Deleting all references to services provided in correctional facilities, as assisted community treatment is an outpatient program;
- (2) Changing all references from "gravely disabled" to "obviously ill";
- (3) Changing the court ordered commitment period from twenty-four to forty-eight hours; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 310, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 310, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 43 Human Services on S.B. No. 200**

The purpose and intent of this measure is to require licensed social workers to complete a minimum of fifteen credit hours of continuing education courses for the licensing renewal period beginning July 1, 2013, through June 30, 2016, and forty-five credit hours of continuing education courses during each licensing renewal period, for the period beginning July 1, 2016, and thereafter.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii State Commission on the Status of Women; Hawaii Psychological Association; Hawaii Youth Services Network; National Association of Social Workers, Hawaii Chapter; National Association of Social Workers, Hawaii Chapter; and thirty-four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that social workers need to be up-to-date on the latest developments in their field. It is important that licensed social workers have access to the best practices and innovations in the field of social work and can continue to provide quality services to an array of clients. Your Committee further finds that every state except Colorado and Hawaii has continuing education requirements for social workers. Social workers provide critical services in prevention, intervention, and treatment to a broad spectrum of clientele, including vulnerable women, children, elderly, and families, who are often dealing with challenges such as gender-based violence, access to healthcare and issues around death and dying, and many other issues that intersect with gender in unique ways.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 200 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 44 Human Services on S.B. No. 923**

The purpose and intent of this measure is to appropriate funds as a grant to Network Enterprises, Inc. to establish a maintenance program that provides employment for persons with disabilities, unemployed veterans, public housing residents, and socially and economically disadvantaged people in need of employment.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority; Network Enterprises, Inc.; and two individuals.

Your Committee finds that Network Enterprises, Inc. is a non-profit community rehabilitation program that provides vocational rehabilitation, job training, job placement, and support services for persons in Hawaii with physical, social, economic, and intellectual challenges. Network Enterprises, Inc. is requesting funding to be used for the establishment of a maintenance component that will provide temporary and transitional employment and training services for clients. Currently, Network Enterprises, Inc. does not have an in-house transitional component, which is an important and much needed step to competitive employment and self-sufficiency. Your Committee further finds that Network Enterprises, Inc. does not have the resources to establish this program without the help of state funding. This program will go a long way in providing meaningful employment and training for some of Hawaii's neediest individuals.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 923 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 45 Human Services on S.B. No. 391**

The purpose and intent of this measure is to:

- (1) Require the Office of Youth Services to coordinate a two-year safe places for youth pilot program, which will coordinate a network of safe places where youth can access safety and obtain advice, guidance, programs, and services; and
- (2) Establish and appropriate funds for the position of safe places for youth program coordinator.

Your Committee received testimony in support of this measure from the Department of Education; Office of Youth Services; Hale Opiu Kauai, Inc.; Community Alliance for Mental Health; Hawaii Youth Services Network; Planned Parenthood of Hawaii; Blueprint for Change; and three individuals.

Your Committee finds that Hawaii is one of the safest and healthiest places in the nation for children and youth. However, many of Hawaii's youth are not immune to daily threats to their health and safety. Every year, youth run away from homes where abuse, neglect, and domestic violence are commonplace, or from schools where intolerable bullying becomes a major barrier to educational achievement. Without access to safe places, youth in these situations are vulnerable and may be victimized by predatory adults who lure them into consuming alcohol, substance abuse, or prostitution.

Your Committee has amended this measure by:

- (1) Including behavioral health counseling and education among the services and programs to be provided by the safe places for youth pilot program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 391, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 46 (Joint) Human Services and Health on S.B. No. 52**

The purpose and intent of this measure is to establish and fund a Coordinator for Active Aging within the Executive Office on Aging, who is to be appointed by the Director of the Executive Office on Aging.

Your Committees received testimony in support of this measure from the Executive Office on Aging, Maui County Executive Office on Aging, Policy Advisory Board for Elder Affairs, and International Longshore and Warehouse Union Local 142.

Your Committees find that census projections indicate that the senior population in Hawaii will almost double between 2010 and 2020 with the highest percentage increase occurring in those over the age of eighty-five. In order to minimize the potential financial strain on the State of providing in-home services to elders, proactive efforts are required now. Although the life span of our population is generally increasing, overall healthy living is not necessarily the norm. The aging network has recognized for several years the need to establish a coordinated effort to support seniors in maintaining health for those who remain healthy and in improving health for those exhibiting chronic illness. As the senior population grows, the likelihood that funding can keep pace with increasing numbers of elders is low. Therefore, initiatives must begin now to focus on ways to increase the emphasis on comprehensive and coordinated plans to assist seniors in remaining as physically, mentally, and spiritually healthy as possible.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 52 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Human Services  
Ayes, 3. Noes, none. Excused, 2 (Green, Kidani).  
Health  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 47 (Joint) Human Services and Health on S.B. No. 400**

The purpose and intent of this measure is to require child care facilities, family child care homes, group child care centers, group child care homes, and infant and toddler child care centers that care for children one year of age or younger to develop, maintain, and implement safe sleep policies to prevent sudden unexpected infant deaths and sudden infant death syndrome.

Your Committees received testimony in support of this measure from Child and Family Service, Malama Family Recover Center, March of Dimes, and seven individuals. Your Committees received testimony in opposition to this measure from the Department of Human Services.

Your Committees find that sudden unexpected infant death is a broad term that refers to the sudden death of an infant less than one year of age where the specific cause of death is not immediately obvious prior to investigation. According to the Centers for Disease Control and Prevention, more than 4,500 sudden unexpected infant deaths occur in the United States every year. The specific cause of death may include but not be limited to sudden infant death syndrome, infection, accidental suffocation, poisoning or overdose, or metabolic disorders. Sudden infant death syndrome, the sudden death of an infant less than one year of age where the death cannot be explained even after a thorough investigation is conducted, accounts for half of the sudden unexpected infant deaths that occur in the United States every year and is the leading cause of death among infants one year of age or younger.

Your Committees further find that sudden unexpected infant deaths and sudden infant death syndrome are preventable through safe sleep policies that address causes of death that are associated with sudden unexpected infant deaths, such as accidental suffocation, and incorporate elements of the Sudden Unexpected Infant Death Initiative. However, Hawaii is one of nine states that do not regulate the proper sleep positions of infants and toddlers under the care of child care centers or family care homes.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 400 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.  
Human Services  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kidani).  
Health  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 48 (Joint) Human Services and Health on S.B. No. 515**

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Homeless Programs Office of the Department of Human Services and the rental housing trust fund;
- (2) Appropriate funds to the Department of Health for substance abuse treatment, mental health support services, and clean and sober housing services, and to the Department of Human Services for matching funds for shelter plus care grants;

- (3) Appropriate funds for a rental assistance program;
- (4) Appropriate funds to the Hawaii Public Housing Authority to continue to administer housing first programs for chronically homeless individuals and to reestablish the homeless prevention and rapid re-housing program;
- (5) Appropriate funds out of the rental housing trust fund for loans or grants for rental housing projects; and
- (6) Appropriate matching funds for the federal shelter plus care program to provide rental assistance in connection with supportive services.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Public Housing Authority, Hawaii Housing Finance and Development Corporation, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Substance Abuse Coalition, Helping Hands Hawaii, Community Alliance for Mental Health, and Catholic Charities Hawaii. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that homelessness continues to be one of the State's most significant and challenging social problems. According to a recent report, 14,200 homeless individuals were served through shelter and outreach programs in fiscal year 2011. Of these individuals, 9,781 resided in the City and County of Honolulu. Homeless service providers estimate that 6,000 homeless people in the State need shelter each night.

Your Committees further find that homelessness is a complex issue that requires continuous resources and coordinated efforts at all levels. Homeless persons face a myriad of issues, including mental illness, substance abuse, loss of employment and income, and lack of affordable housing. Appropriate funding for programs and services tailored to address these issues is essential.

Your Committees also find that housing first programs are a collaborative effort between the Department of Human Services and the United States Department of Housing and Urban Development that provides housing and support services for chronically homeless individuals, including those who have an addiction or mental illness, or both.

Your Committees further find that the housing first programs in the State closely resemble the requirements of the United States Housing and Urban Development shelter plus care program and the Veterans Administration veteran's assisted supportive housing voucher program for homeless veterans. In its December 2011 report to the Legislature pursuant to section 346-378, Hawaii Revised Statutes, the Department of Human Services reported that the State has 650 permanent housing placements plus support services through the shelter plus care and veteran's assisted supportive housing voucher programs.

Your Committees also find that the purpose of the United States Housing and Urban Development's homelessness prevention and rapid re-housing program was to provide economically distressed households and individuals with financial and other assistance to prevent them from becoming homeless and help those who are experiencing homelessness to be quickly re-housed and stabilized. The funds under this program were intended to target individuals and families who would be homeless but for this assistance. The Department of Human Services administered the homelessness prevention and rapid re-housing program to provide homelessness prevention and housing assistance to all eligible individuals and households who apply through contracted organizations. The funds from the program provided for a variety of assistance, including short-term or medium-term rental assistance and housing relocation, and stabilization services, such as mediation, security or utility deposits, utility payments, moving cost assistance, and case management.

Your Committees further find that the shelter plus care program of the United States Department of Housing and Urban Development provides rental assistance in connection with supportive services. The program provides a variety of permanent housing choices, accompanied by a range of supportive services funded through other sources. The program assists hard-to-serve homeless individuals with disabilities and their families. These individuals primarily include those with serious mental illness, chronic problems with alcohol and drugs, and HIV, AIDS, or related diseases.

Your Committees have amended this measure by:

- (1) Changing the source of the appropriation for the rental housing trust fund from general revenues to general obligation bonds;
- (2) Changing the expending agency for the appropriation for the rental assistance program from the Hawaii Public Housing Authority to the Department of Human Services; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 515, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 515, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 49 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 309**

The purpose and intent of this measure is to require health insurance policies and contracts issued after December 31, 2013, to provide coverage for the cost of hearing aids in their base plans.

Your Committees received testimony in support of this measure from the Hawaii Medical Service Association, ILWU Local 142, and two individuals. Your Committees received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that according to the National Institutes of Health, an estimated one-third of Americans between the ages of sixty-five and seventy-five and around one-half of those older than seventy-five have some degree of hearing loss. In addition, a 2005 study by the Better Hearing Institute estimated that untreated hearing loss resulted in a loss of income per household of up to \$12,000 per year. Your Committees further find that according to the Lions Club, the cost of a custom low- to mid-level analog or digital hearing aid begins around \$2,000 or less, and around \$3,000 and higher for a high-end hearing aid. Medicare and most private insurance companies do not cover the cost of hearing aids through their base health care coverage. As a result, it is not unusual for people with hearing loss to choose not to purchase hearing aids because these expensive devices are not covered by insurance.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 309, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 309, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Green, Kidani).

Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 50 Energy and Environment on S.B. No. 23**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Kaiuli Energy, LLC, in the planning, design, and construction of a seawater air conditioning district cooling facility and chilled water distribution system.

Your Committee received testimony in support of this measure from Ulupono Initiative, Blue Planet Foundation, Hilton Hawaii, High Technology Development Corporation, Makai Ocean Engineering, and Kaiuli Energy, LLC. Your Committee received testimony in opposition to this measure from Life of the Land and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is broad support for the development of efficient energy systems in Hawaii. Kaiuli Energy, LLC, proposes to build a seawater air conditioning facility to serve Waikiki and nearby areas on the island of Oahu. Your Committee finds that issuance of special purpose revenue bonds to assist Kaiuli Energy, LLC, in pursuing this project will further the State's interest in developing efficient energy systems in Hawaii.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 23 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 51 (Majority) Health on S.B. No. 42**

The purpose and intent of this measure is to appropriate funds for the Adult Mental Health Division's Hawaii certified peer specialist program.

Your Committee received testimony in support of this measure from the Community Alliance for Mental Health and Hawaii Substance Abuse Coalition. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that certified peer specialists have self-identified as having received or are receiving mental health or co-occurring disorder services in their personal recovery process and therefore perform a unique role in assisting the recovery of other individuals diagnosed with mental illness or co-occurring disorders. Your Committee finds that it is necessary to appropriate funds to support and promote the certified peer specialist program.

Your Committee has amended this measure by inserting an effective date of January 1, 2030, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 42, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 42, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 52 (Majority) Health on S.B. No. 526**

The purpose and intent of this measure is to ensure that victims of sexual assault are provided information about and access to emergency contraception when receiving emergency medical care at Hawaii's hospitals for sexual assaults.

Your Committee received testimony in support of this measure from the Department of Health, Department of Human Services, Hawaii State Commission on the Status of Women, Department of the Prosecuting Attorney for the City and County of Honolulu, Sex

Abuse Treatment Center, American Congress of Obstetricians and Gynecologists, Gay Lesbian Bisexual and Transgender Caucus of the Democratic Party of Hawaii, League of Women Voters, Planned Parenthood of Hawaii, Hawaii Women Lawyers, Hawaii Medical Association, Hawaii Rehabilitation Counseling Association, and seven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Catholic Conference.

Your Committee finds that the physical and emotional trauma suffered by victims is compounded by the possibility of an unwanted pregnancy as a result of the rape. The average rate of pregnancy resulting from rape is between five and eight percent with an estimated thirty-two thousand rape-related pregnancies occurring each year in the United States.

Your Committee further finds that emergency contraception is not an abortion pill, nor does it cause any abortive process to take place; rather, it is a safe and effective means of preventing pregnancy after a sexual assault. The provision of emergency contraception to victims of sexual assault is the most widely recognized and accepted standard of care for sexual assault patients. Accordingly, your Committee finds that victims of sexual assault should be provided information about and access to emergency contraception when receiving emergency medical care at Hawaii's hospitals for sexual assaults.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2030, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 526, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 526, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 53 (Majority Health on S.B. No. 660)**

The purpose and intent of this measure is to appropriate \$10,000,000 for statewide drug and alcohol treatment efforts.

Your Committee received testimony in support of this measure from the Community Alliance for Mental Health and the Hawaii Substance Abuse Coalition. Your Committee received comments on this measure from one individual.

Your Committee finds that due to funding cutbacks in prior years, many drug and alcohol treatment centers have closed, leaving a significant number of persons unable to receive affordable treatment for drug and alcohol addictions. Your Committee finds that only 3.9 percent of people who have a drug or alcohol addiction get treatment. Your Committee finds that extensive studies have shown that drug and alcohol treatment saves \$4 in health care costs for every \$1 spent for treatment.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 660 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 54 Health on S.B. No. 661**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds for Hawai'i Pacific Health for the construction or renovation of health care facilities.

Your Committee received testimony in support of this measure from Hawai'i Pacific Health and the Healthcare Association of Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the capital raised by this measure will allow the construction and renovation of health care facilities at Kapiolani Medical Center for Women & Children without an appropriation or expenditure of state funds.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 661 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 55 Health on S.B. No. 664**

The purpose and intent of this measure is to provide critical funding for the Hawaii Health Systems Corporation primary care training program to alleviate the shortage of primary care providers in the State.

Your Committee received testimony in support of this measure from the County of Hawaii Office of the Mayor, Hawaii Health Systems Corporation, University of Hawaii School of Nursing and Dental Hygiene, Hilo Medical Center, The Queen's Health Systems, Hilo Medical Center Foundation, Japanese Chamber of Commerce, North Hawaii Community Hospital, Hawaii Island Healthcare Alliance, and ten individuals.

Your Committee finds that the State is facing a severe shortage of healthcare providers. Your Committee further finds that the Hawaii Health Systems Corporation primary care training program is an effective way to reduce the impact of the shortage of primary care providers and improve access to healthcare throughout the State.

Your Committee has amended this measure by:

- (1) Deleting the references to the appropriation as a grant pursuant to chapter 42F, Hawaii Revised Statutes; and
- (2) Changing the expending agency to the Hawaii Health Systems Corporation.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 664, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 56 (Joint/Majority) Human Services and Economic Development, Government Operations and Housing and Commerce and Consumer Protection on S.B. No. 1025**

The purpose and intent of this measure is to update the Hula Mae Single Family mortgage loan program to allow for broader program participation by potential homeowners, add downpayment assistance as a program feature, and make housekeeping and conforming amendments.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and Hawaii Association of REALTORS. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Hula Mae Single Family program is a mortgage loan program for families of low and moderate income that was initiated by the Legislature in 1979. The program's intent is to deliver low interest rate mortgage loans to families and individuals who cannot qualify in the conventional market. Your Committees further find that this measure will allow more households to qualify for the loan program, offer downpayment assistance as an optional feature of Hula Mae Single Family program loans, and delete obsolete statutory provisions relating to two inactive programs, the Loans to Lenders and Purchase of Existing Loans programs.

As affirmed by the records of votes of the members of your Committees on Human Services and Economic Development, Government Operations and Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1025 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Green, Kidani).

Economic Development, Government Operations and Housing

Ayes, 6. Noes, none. Excused, 1 (Slom).

Commerce and Consumer Protection

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 57 (Majority) Judiciary and Labor on S.B. No. 906**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2013-2015.

Prior to the hearing on this measure, a proposed S.D. 1 was prepared and made available for public review. The proposed S.D. 1 amends this measure by:

- (1) Changing references to collective bargaining unit (9) to collective bargaining unit (3); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (3) are currently in progress. The proposed S.D. 1 provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by adopting the proposed S.D. 1 and amending it further by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 906, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 906, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 58 (Majority) Judiciary and Labor on S.B. No. 897**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (4) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 897, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 897, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 59 (Majority) Judiciary and Labor on S.B. No. 899**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 899, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 899, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 60 (Majority) Judiciary and Labor on S.B. No. 902**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (8) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 902, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 902, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 61 (Majority) Judiciary and Labor on S.B. No. 905**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (9) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 905, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 905, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 62 (Majority) Judiciary and Labor on S.B. No. 909**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (13) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (13) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 909, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 909, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 63 (Majority) Judiciary and Labor on S.B. No. 904**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2011-2013.

Your Committee did not receive testimony regarding this measure.

Your Committee finds that the registered professional nurses under collective bargaining unit (9) did not ratify their 2011-2013 collective bargaining agreements. If an arbitration panel decides in favor of the nurses, funds may be necessary to cover any cost adjustments as a result of the arbitration award issued. This measure serves as a legislative vehicle for funds to be appropriated.

Your Committee has amended this measure by:

- (1) Establishing that the funds appropriated by this measure shall apply retroactively to July 1, 2011; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 904, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 904, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 64 (Majority) Judiciary and Labor on S.B. No. 908**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2011-2013.

Your Committee did not receive testimony regarding this measure.

Your Committee finds that the registered professional nurses under collective bargaining unit (9) did not ratify their 2011-2013 collective bargaining agreements. If an arbitration panel decides in favor of the nurses, funds may be necessary to cover any cost adjustments as a result of the arbitration award issued. This measure serves as a legislative vehicle for funds to be appropriated.

Your Committee has amended this measure by:

- (1) Establishing that the funds appropriated or authorized shall apply retroactively to July 1, 2011; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 908, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 908, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 65 (Majority) Judiciary and Labor on S.B. No. 903**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (8) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 903 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 66 (Majority) Judiciary and Labor on S.B. No. 895**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (2) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (2) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 895, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 895, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 67 (Majority) Judiciary and Labor on S.B. No. 896**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustment and other cost adjustments for public employees in collective bargaining unit (2) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (2) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 896, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 896, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 68 (Majority) Judiciary and Labor on S.B. No. 910**

The purpose and intent of this measure is to provide a legislative vehicle to appropriate unspecified employer contribution amounts for Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (13) and their excluded counterparts for fiscal biennium 2013-2015.

Prior to the hearing on this measure, a proposed S.D. 1 was prepared and made available for public review. The proposed S.D. 1 amends this measure by deleting its contents and inserting language that appropriates funds for fiscal biennium 2013-2015 for collective bargaining cost items for public employees in collective bargaining unit (3) and for employees excluded from collective bargaining that are on the same compensation plans as those officers and employees within collective bargaining unit (3).

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (3) are currently in progress. The proposed S.D. 1 provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by adopting the proposed S.D. 1 and amending it further by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 910, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 910, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 69 (Majority) Judiciary and Labor on S.B. No. 898**

The purpose and intent of this measure is to provide a vehicle to fund pending public sector collective bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (4) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 898, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 70 (Majority) Judiciary and Labor on S.B. No. 901**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 901, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 901, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 71 (Majority) Judiciary and Labor on S.B. No. 907**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (9) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 907, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 907, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 72 (Majority) Judiciary and Labor on S.B. No. 911**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (13) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (13) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2013 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 911, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 911, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 73 (Joint) Agriculture and Water and Land on S.B. No. 715**

The purpose and intent of this measure is to facilitate leases between the Department of Agriculture and the Agribusiness Development Corporation by:

- (1) Authorizing the Department of Agriculture to directly negotiate and enter into leases with the Agribusiness Development Corporation; and
- (2) Exempting the Agribusiness Development Corporation from non-agricultural park lands lease qualifications.

Your Committees received testimony in support of this measure from the Department of Agriculture and the Agribusiness Development Corporation. Your Committees received testimony in opposition to this measure from Puna Pono Alliance and two individuals.

Your Committees find that facilitating leases between the Department of Agriculture and the Agribusiness Development Corporation will assist in developing the long-term productive use of public lands for agricultural purposes.

Your Committees have amended this measure by:

- (1) Requiring that the leases entered into between the Agribusiness Development Corporation and the Department of Agriculture be approved by the Board of Agriculture; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 715, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 715, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture  
Ayes, 6. Noes, none. Excused, 1 (Slom).

Water and Land  
Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

**SCRep. 74 (Joint) Agriculture and Water and Land on S.B. No. 327**

The purpose and intent of this measure is to establish and codify in the Hawaii State Planning Act a state policy to buy local produce and support local agriculture.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of Planning, and the Land Use Research Foundation.

Your Committees find that a policy commitment regarding the consumption of locally grown products is critical to improving food security and self-sufficiency in Hawaii. Supporting locally grown food will improve residents' health and increase revenues for struggling local farmers.

By recommendation of the Office of Planning, your Committees have amended this measure by broadening the goal of increasing locally grown food purchases to include increasing purchases by businesses to ensure that the policy commitment to increase locally grown food purchases is targeted to the broadest spectrum of consumers.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 327, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 327, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 6. Noes, none. Excused, 1 (Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

**SCRep. 75 (Joint) Agriculture and Water and Land on S.B. No. 1358**

The purpose and intent of this measure is to authorize general obligation bonds to make improvements to the Molokai Irrigation System.

Your Committees received testimony in support of this measure from the Department of Agriculture, Molokai Chamber of Commerce, Molokai Ranch, Monsanto Molokai, Molokai Farm Bureau, Hawaii Farm Bureau Federation, and four individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Molokai Irrigation System is the only agricultural water source on Molokai and is critical to Molokai's agriculture community and agricultural commerce. The Molokai Irrigation System is currently underutilized and needs repairs to operate at its full capacity to increase the supply of irrigation water. In the past three years, drought conditions have exacerbated the low supply of irrigation water on Molokai and have led to significant water use restrictions that have had a direct economic effect on the Molokai community. In the past three years, ninety jobs have been lost due to the drought's economic impact. Improving the Molokai Irrigation System and increasing the supply of irrigation water would significantly improve the agricultural economy and create an estimated one hundred thirty new jobs on Molokai alone.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1358 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 6. Noes, none. Excused, 1 (Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

**SCRep. 76 (Joint) Human Services and Health on S.B. No. 54**

The purpose and intent of this measure is to allow the Policy Advisory Board for Elder Affairs to grant members lifetime membership, which includes all the rights and privileges of a regular member, upon approval by all regular members of the Board.

Your Committees received testimony in support of this measure from the County of Hawaii Office of Aging and one individual. Your Committees received comments on this measure from the Executive Office on Aging and the International Longshore and Warehouse Union Local 142.

Your Committees find that current lifetime non ex officio members of the Policy Advisory Board for Elder Affairs are not granted all of the privileges of regular membership, including the right to vote. These lifetime members are honored and respected members of the aging community and deserve to be treated as full members of the Board.

Your Committees have amended this measure by:

- (1) Clarifying the procedures of the Policy Advisory Board for Elder Affairs to grant lifetime membership to non ex officio members; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 54, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 54, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Green, Kidani).

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 77 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 44**

The purpose and intent of this measure is to add the definition of "law enforcement officer" and to change references of "police officer" to "law enforcement officer" in sections of the Hawaii Revised Statutes relating to emergency hospital admission and involuntary hospitalization.

Your Committees received testimony in support of this measure from the Department of Health; Department of Public Safety; Institute for Human Services, Inc.; Community Alliance for Mental Health; and one individual.

Your Committees find that section 334-59, Hawaii Revised Statutes, currently only applies to county police officers and that this measure is necessary to allow all law enforcement officers to utilize section 334-59, Hawaii Revised Statutes. Your Committees further find that advanced practice registered nurses are fully qualified to determine a person's mental health status and whether the person poses a safety risk and should therefore be authorized under section 334-59, Hawaii Revised Statutes, to do so.

Your Committees have amended this measure by:

- (1) Adding advanced practice registered nurse to the list of mental health professionals qualified to diagnose mental illness under section 334-59, Hawaii Revised Statutes; and
- (2) Making a technical nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 44, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 44, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 78 (Joint) Agriculture and Water and Land on S.B. No. 995**

The purpose and intent of this measure is to change the position title of the engineering program manager to the engineering program administrator to recognize the increased responsibilities and size of the Agricultural Resource Management Division of the Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Agriculture, Limtiaco Consulting Group, Hawaii Farm Bureau Federation, and Ulupono Initiative.

Your Committees find that the Agricultural Resource Management Division has significantly grown since the Legislature determined the need for an irrigation water development program. Since this time, the Agricultural Resource Management Division has gone from overseeing \$2,000,000 in projects to overseeing \$100,000,000 in projects and has become the largest land program within the Department of Agriculture. Due to the increased responsibilities and scope of the Agricultural Resource Management Division, changing the engineering program manager position to the engineering program administrator position would bring the position in line with other similar positions within the Department of Agriculture.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 995 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 6. Noes, none. Excused, 1 (Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

**SCRep. 79 (Majority) Health on S.B. No. 655**

The purpose and intent of this measure is to allow physicians to prescribe medication, without examination, to the partner of a patient who has been diagnosed as having chlamydia or gonorrhea.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii State Commission on the Status of Women, Hawaii Rehabilitation Counseling Association, Hawaii Affiliate of the American College of Nurse Midwives, Hawaii Medical Association, American Congress of Obstetricians and Gynecologists, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that many patients who have been diagnosed with sexually transmitted diseases have sexual partners who refuse to seek treatment. Your Committee finds that thirty-two states already have laws allowing expedited partner therapy, which allows physicians to prescribe medication for partners of a patient diagnosed with sexually transmitted disease without first examining them. Your Committee finds that the practice of expedited partner therapy will greatly reduce the incidence of sexually transmitted diseases in the State.

Your Committee has amended this measure by:

- (1) Changing all references from “partner” to “partners” to allow for multiple prescriptions to be issued to more than one partner of a patient, if medically necessary;
- (2) Amending the definition of “sexually transmitted disease” to mean any sexually transmitted disease recommended by the Centers for Disease Control and Prevention for expedited partner therapy including but not limited to chlamydia, gonorrhea, and human immunodeficiency virus;
- (3) Changing references from “single-dose antibiotic therapy” to “antibiotic therapy” to allow the physician to prescribe what is medically necessary;
- (4) Amending certain specifics to be included on the information sheet, making them subject to the recommendation of the Centers for Disease Control and Prevention; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 655, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 655, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 80 Health on S.B. No. 498**

The purpose and intent of this measure is to appropriate funds to establish a twenty-four-hour, seven-days-a-week, special emergency medical response vehicle unit to be based in the Maalaea area on Maui, including acquisition of a vehicle, equipment, and personnel costs for twenty-four-hour, seven-days-a-week staffing by a paramedic trained in advanced life support.

Your Committee received testimony in support of this measure from the Department of Health and fifty-two individuals.

Your Committee finds that the population of West and South Maui has significantly increased over the years, which has corresponded with a steady increase of approximately one thousand calls per year for emergency medical services. Your Committee further finds that the population growth and increase in call volume in West and South Maui affect the timely response capabilities of the two ambulances that serve residents in these districts, especially if emergency medical services must respond from an “out-of-district” location. Your Committee also finds that a new special emergency medical response vehicle unit will help reduce death and disability among residents and visitors on the island of Maui by supporting the two existing ambulance units in each of the busiest regions of West and South Maui, as well as by being available to assist Central Maui.

Your Committee has amended this measure by:

- (1) Changing all references from “paramedic trained in advanced life support” to “state licensed paramedic” at the request of the Department of Health; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 498, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 498, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 81 Health on S.B. No. 761**

The purpose and intent of this measure is to provide a grant to North Hawaii Community Hospital to address the severe shortage of primary healthcare providers.

Your Committee received testimony in support of this measure from North Hawaii Community Hospital, Hawaii Medical Association, Healthcare Association of Hawaii, and one individual.

Your Committee finds that there is a severe shortage of primary healthcare providers in the State. North Hawaii Community Hospital, a rural community hospital, provides crucial services to meet these needs. However, North Hawaii Community Hospital has recently suffered a \$1,000,000 decrease in funding due to a change in the methodology for determining Medicare reimbursement for low-volume hospitals. Your Committee notes that North Hawaii Community Hospital has indicated it will timely submit a 42F grant application to the appropriate legislative standing committees.

Your Committee has amended this measure by inserting an effective date of January 1, 2030, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 761, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 761, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 82 Health on S.B. No. 945**

The purpose and intent of this measure is to allow condominium associations and cooperative housing corporations to adopt rules to prohibit smoking in units, common elements, or limited common elements.

Your Committee received testimony in support of this measure from the Coalition for a Tobacco-Free Hawaii. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance and four individuals. Your Committee received comments on this measure from the Hawaii Chapter of the Community Associations Institute.

Your Committee finds that secondhand smoke is dangerous and can be extremely harmful to human health. Your Committee further finds that owners' property rights must be respected.

Your Committee has amended this measure by requiring a majority of tenant shareholders or owners, as appropriate, to approve a smoking prohibition in dwelling units, common elements, or limited common elements before a condominium association or cooperative housing corporation is authorized to adopt any rule prohibiting smoking.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 945, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 945, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 83            Transportation and International Affairs on S.B. No. 1213**

The purpose and intent of this measure is to allow the State Department of Transportation Highways Division to collect an equitable compensation from franchise utility companies for the use of the state right of way.

Your Committee received testimony in support of this measure from the Department of Transportation. Testimony in opposition to this measure was received from the Office of the Mayor of the City and County of Honolulu, Department of Budget and Fiscal Services of the City and County of Honolulu, and County of Hawaii Finance Department.

Your Committee finds that franchise utility companies currently pay less than two and one-half percent of their gross receipts to the counties for their use and occupancy of the county road systems. However, the Department of Transportation is responsible for the removal, relocation, replacement, or reconstruction of the franchise utility companies' systems that impact a highway project.

Your Committee has amended this measure by:

- (1) Dividing the public utility franchise tax collected equally between the county and the Department of Transportation Highways Division; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1213, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Gabbard, Kouchi, Slom).

**SCRep. 84            Transportation and International Affairs on S.B. No. 479**

The purpose and intent of this measure is to increase the number of members of the Metropolitan Planning Organization Policy Committee from thirteen to fourteen.

Your Committee received testimony in support of this measure from the Department of Transportation; Office of the Mayor of the City and County of Honolulu; Department of Transportation Services of the City and County of Honolulu; and one individual.

According to testimony of the Department of Transportation, the amendment to the composition of the Metropolitan Planning Organization Policy Committee is required by federal law pursuant to Public Law 112-141, the Moving Ahead for Progress in the 21st Century Act.

Your Committee finds that in the coming years, Honolulu's mass transit system will be an integral component of the county's transportation infrastructure. The Executive Director of the Honolulu Authority for Rapid Transportation, or the director of an authority for rapid/mass transportation on any island, will have an important role in contributing to planning and implementation of the Metropolitan Planning Organization's major programs.

Your Committee has amended this measure by clarifying, on the recommendation of the Director of Transportation, that the additional member shall be the director of the authority for rapid/mass transportation, or successor agency thereof, that operates public transportation on that island.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 479, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 479, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Gabbard, Kouchi, Slom).

**SCRep. 85            Public Safety, Intergovernmental and Military Affairs on S.B. No. 71**

The purpose and intent of this measure is to make an appropriation to the Department of Public Safety to contract with community-based non-profit organizations to provide education, mentoring, restorative circles, farming, artisan skills, cognitive behavioral therapy, and cultural healing services to inmates and former inmates.

Your Committee received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, American Civil Liberties Union of Hawaii, Going Home Consortium, Drug Policy Forum of Hawaii, Hawaii Coalition for Health, National Association of Reformed Criminals, and one individual.

Your Committee finds that community-based organizations with an interest in assisting incarcerated persons have been instrumental in providing services and programs on a contractual and voluntary basis to rehabilitate and educate the prison population. Providing rehabilitation and re-entry programs to Hawaii's inmates has lowered recidivism rates, which makes communities safer. Sufficient resources must be invested in community-based non-profit organizations that provide important services to inmates and former inmates.

Your Committee has amended this measure by:

- (1) Replacing the term "cognitive restructuring" with "cognitive behavioral therapy";
- (2) Adding education as a program offered;
- (3) Clarifying that the references to inmates and former inmates mean inmates and former inmates who are under the custody and control of the Department of Public Safety or the Hawaii Paroling Authority; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 71, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 71, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 86 Public Safety, Intergovernmental and Military Affairs on S.B. No. 72**

The purpose and intent of this measure is to require the Department of Public Safety to assess and refer inmates to the Hawaii Paroling Authority for possible medical release.

Your Committee received testimony in support of this measure from the Department of Public Safety, Office of the Public Defender, Community Alliance on Prisons, American Civil Liberties Union of Hawaii, and four individuals.

Your Committee finds that compassionate medical release programs for inmates provide relief to prison systems dealing with an increasingly older population subject to more medical issues and higher treatment costs. Releasing inmates who are found to pose no or little risk to public safety could save the State millions of dollars in health care costs, relieve prison overcrowding, and offer a more dignified and humane death to those who would otherwise die in prison.

Under the medical release program proposed by this measure, inmates will be considered for medical release at the request of the Director of Public Safety, inmate, or the inmate's representative, if the inmate meets specified criteria. The Hawaii Paroling Authority is required to grant or deny the request after a hearing, set reasonable conditions on an inmate's medical release, and promptly order an inmate returned to custody to await a revocation hearing if the Hawaii Paroling Authority receives credible information that an inmate has failed to comply with any reasonable conditions of medical release.

Your Committee has amended this measure by:

- (1) Making the medical release program a three-year pilot program;
- (2) Changing the effective date to July 1, 2013; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 72, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 72, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 87 Public Safety, Intergovernmental and Military Affairs on S.B. No. 77**

The purpose and intent of this measure is to specify the number of members of the Hawaii Paroling Authority that are required to establish a quorum to allow the Authority to take official action on its matters.

Your Committee received testimony in support of this measure from the Department of Public Safety and Community Alliance on Prisons. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Act 139, Session Laws of Hawaii 2012, increased the members of the Hawaii Paroling Authority from a chairperson and two part-time members to a chairperson and four part-time members. This section was intended to allow part-time board members to rotate duties, but it does not clearly establish a quorum to effectuate board actions.

Your Committee has amended this measure by deleting the amendments made to section 353-61(b), Hawaii Revised Statutes, and inserting language from S.B. No. 1178 (2013), section 1, which requires the Hawaii Paroling Authority to entitle a prisoner to a hearing before a panel of three of its members, which shall act by a majority, unless a sitting member of that panel must be recused due to a conflict of interest, in which case the panel may proceed with two members.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 77, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 77, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 88 (Majority) Public Safety, Intergovernmental and Military Affairs on S.B. No. 506**

The purpose and intent of this measure is to require licensing authorities to consider relevant education, training, or service completed by service members and permits authorities to issue a license by endorsement or reciprocity in certain situations.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, The Chamber of Commerce of Hawaii, State Office of Veterans' Services, Oahu Veterans Center, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Dental Association, Hawaii Association of Public Accountants, and numerous individuals. Your Committee received comments on this measure from the Office of the Deputy Undersecretary of Defense.

Your Committee finds that service members who move to Hawaii with a professional license from another state encounter obstacles to entering the work force. Service members often face delays when applying for a license in Hawaii, even though they may meet requirements through education and training received while on active duty. This measure supports transitioning service members and reflects the desire of the President of the United States in making the employment of military veterans a top priority.

Your Committee has amended this measure by inserting an effective date of July 1, 2020, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 506, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Green). Excused, 1 (Slom).

**SCRep. 89 Public Safety, Intergovernmental and Military Affairs on S.B. No. 546**

The purpose and intent of this measure is to allow an employee with a family member in the United States Armed Forces who is on active duty or notified of a call to active duty, to use family leave for certain activities for which an employee may take military family leave under federal law.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Department of Labor and Industrial Relations, The Chamber of Commerce of Hawaii, State Office of Veterans' Services, Oahu Veterans Council, and theStrategist.

Your Committee finds that the United States asks its service members to be ready to respond to the nation's needs quickly, and there are many processes that must be accomplished prior to departure, including financial arrangements and powers of attorney. This measure ensures that service members' families can make all arrangements necessary when the service member is asked to serve the United States.

Your Committee has amended this measure by providing employers with a mechanism to certify the validity of requests for military family leave.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 546, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 546, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 90 Public Safety, Intergovernmental and Military Affairs on S.B. No. 551**

The purpose and intent of this measure is to direct the Office of Veterans' Affairs, with the assistance of the Department of Accounting and General Services and the Department of Defense, to develop a plan to establish a memorial honoring the veterans of the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation Enduring Freedom, and Operation New Dawn.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, State Historic Preservation Division of the Department of Land and Natural Resources, State Office of Veterans' Services, Oahu Veterans Center, and two individuals.

Your Committee finds that the sacrifices of the members of the United States Armed Forces have preserved the freedom and security enjoyed by U.S. citizens. It is fitting and necessary to give visible recognition in the form of a memorial to the contributions of veterans from Hawaii who served in the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation Enduring Freedom, and Operation New Dawn.

Your Committee has amended this measure by broadening the potential site of the memorial from the State Capitol to the historical district of Honolulu, due to concerns regarding the limited space and integrity of the Capitol design.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 551, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 91 Public Safety, Intergovernmental and Military Affairs on S.B. No. 576**

The purpose and intent of this measure is to require a financial and management audit of the Department of Public Safety commissary operations and commissary operations of out-of-state commissaries where Hawaii inmates are confined.

Your Committee received testimony in support of this measure from the Department of Public Safety and Community Alliance on Prisons. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that commissaries at state correctional facilities provide an opportunity for inmates to purchase goods for personal use, but the prices of those goods are higher than those found in public retail stores. This measure requires the Auditor to conduct an audit of the operations of the commissaries to determine if the markups are excessive.

Your Committee has amended this measure by:

- (1) Authorizing only a financial audit of the commissary operations of out-of-state contracted correctional facilities where Hawaii inmates are confined, based on information obtained pursuant to contract, as the Department of Public Safety's contract with out-of-state correctional facilities does not permit a management audit; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 576, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 92 Public Safety, Intergovernmental and Military Affairs on S.B. No. 705**

The purpose and intent of this measure is to offer release on supervised parole to eligible inmates prior to the expiration of their maximum sentence.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, Crime Victim Compensation Commission, Community Alliance on Prisons, and one individual. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney and The Council of State Governments Justice Center.

Your Committee finds that Hawaii inmates considered at risk for committing new offenses increasingly have been released from prison without any supervision. These offenders tend to recidivate at a higher rate than inmates placed on parole. Communities will benefit if certain offenders are released prior to the expiration of their maximum sentence and supervised for a period of time under post-release programs.

Your Committee has amended this measure by:

- (1) Restoring the repealed section 706-670(5), Hawaii Revised Statutes;
- (2) Requiring a parole hearing to perform a validated risk assessment and determine if an offender qualifies for supervised parole prior to the expiration of a maximum sentence;
- (3) Allowing the Hawaii Paroling Authority the discretion to not grant supervised parole prior to the expiration of a maximum sentence for certain offenders; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 705, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 705, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 93 Public Safety, Intergovernmental and Military Affairs on S.B. No. 74**

The purpose and intent of this measure is to:

- (1) Permit committed persons to create and place for sale approved products and crafts;
- (2) Allocate the proceeds from sales to rehabilitation programs, the crime victim compensation special fund, and the committed person's account; and

- (3) Require the Department of Public Safety to study other states' practices on the making and sale of crafts by inmates and report findings to the Legislature.

Your Committee received testimony in support of this measure from the Department of Public Safety, Crime Victim Compensation Commission, Community Alliance on Prisons, American Civil Liberties Union of Hawaii, Drug Policy Forum of Hawaii, and one individual.

Your Committee finds that the development of cost-efficient and effective programs aimed at reducing recidivism help to alleviate overcrowding in Hawaii's prisons and rehabilitate committed persons. This measure will encourage incarcerated persons to develop marketable skills and prepare them for successful reentry into society and the workforce upon their release. Furthermore, this program will help support victim restitution because twenty-five percent of sales will be deposited into the crime victim compensation fund.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 74 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 94 Public Safety, Intergovernmental and Military Affairs on S.B. No. 204**

The purpose and intent of this measure is to appropriate funds for state programs related to the reintegration of offenders into the general population.

Your Committee received testimony in support of this measure from the Department of Public Safety; Office of Community Services, Department of Labor and Industrial Relations; Community Alliance on Prisons; Hawaii Substance Abuse Coalition; American Civil Liberties Union of Hawaii; Drug Policy Forum of Hawaii; National Association of Reformed Criminals; and one individual.

Your Committee finds that programs specifically designed to assist the offender population in transitioning to the community in a safe, responsible manner are strengthened through partnerships between the Department of Public Safety and private organizations. Providing matching funds for holistic treatment and support services designed to enable participants from the ex-offender population to achieve self-sufficiency are important in supporting the reintegration of offenders into the general population. Funding reintegration programs for related costs such as job training, employment placement, and case management demonstrates Hawaii's commitment to improving outcomes for individuals upon release from prison.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 204 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 95 Public Safety, Intergovernmental and Military Affairs on S.B. No. 210**

The purpose and intent of this measure is to prohibit assessment of a fee for registration of a bicycle or moped that is gifted within ninety days of issuance of the original certificate of registration.

Your Committee received testimony in support of this measure from the Hawaii Bicycling League and one individual.

Your Committee finds that the purchaser of a bicycle or moped signs a registration form at the place of purchase. Under existing laws, the receiver of the gifted bicycle or moped must then re-register the bicycle or moped in the receiver's own name and pay a re-registration fee. This measure allows the gift receiver to reregister the bicycle or moped for no additional cost, thereby removing an unintended double charge in the bicycle registration system.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 210 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 96 Public Safety, Intergovernmental and Military Affairs on S.B. No. 540**

The purpose and intent of this measure is to make permanent provisions relating to residency requirements for the burial of Armed Services members and their dependents in veterans cemeteries.

Your Committee received testimony in support of this measure from the State Office of Veterans' Services, Oahu Veterans Council, and three individuals.

Your Committee notes that under this measure, eligible veterans, service members, and their dependents shall continue to be buried in the veterans' cemeteries in the counties of Hawaii, Kauai, and Maui without meeting specific residency requirements. This measure is important to ensure our veterans and military personnel who serve the United States have a local place to rest in peace.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 540 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 97 Public Safety, Intergovernmental and Military Affairs on S.B. No. 541**

The purpose and intent of this measure is to exempt federal veterans' disability benefits from seizure to enforce a court judgment, except for certain child and spousal support cases.

Your Committee received testimony in support of this measure from the Office of Veterans Services, State of Hawaii; Oahu Veterans Council; and two individuals.

Your Committee finds disabled veterans often live on their disability income, which generally falls short of necessary expenses. Veterans' permanent disabilities often do not allow them to pursue gainful or supplemental employment. Providing an exemption for permanently disabled veterans' benefits from seizure by creditors will improve the quality of life for veterans.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 541 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 98 Public Safety, Intergovernmental and Military Affairs on S.B. No. 680**

The purpose and intent of this measure is to enact a homeland security law to establish a state Homeland Security Office within the Department of Defense and authorize the establishment of county organizations for homeland security.

Your Committee received testimony in support of this measure from the Adjutant General, State of Hawaii Department of Defense; Civil Defense Advisory Council; Civil Defense Agency, County of Hawaii; Department of Emergency Management, City and County of Honolulu; Honolulu Police Department, City and County of Honolulu; State Fire Council of the Department of Labor and Industrial Relations, State of Hawaii; Department of Fire and Public Safety, County of Maui; and several individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that state departments and agencies are performing many missions and tasks to combat terrorism and support homeland security requirements without underlying statutory authority or enabling legislation. This measure authorizes the counties to establish organizations for homeland security and requires the State to organize these efforts through the establishment of an office dedicated to providing security and responding to terrorism and other threats.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 680 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 99 Public Safety, Intergovernmental and Military Affairs on S.B. No. 697**

The purpose and intent of this measure is to extend the term of members of the Aerospace Advisory Committee from two to four years.

Your Committee received testimony in support of this measure from former Governor George Ariyoshi and the Department of Business, Economic Development, and Tourism.

Your Committee finds that extending the terms of service for members of the Aerospace Advisory Committee will enable committee members to establish stronger working relationships and enhance the continuity of discourse among members, as well as reduce the administrative efforts required to maintain appropriate representation on the committee.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 697 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 100 Public Safety, Intergovernmental and Military Affairs on S.B. No. 965**

The purpose and intent of this measure is to establish qualifications for nonresident military spouses eligible for expedited procedures for professional and vocational licensing by endorsement or reciprocity, and temporary licensing.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and The Chamber of Commerce of Hawaii. Your Committee received comments on this measure from the Office of the Deputy Assistant Secretary of Defense.

Your Committee finds many spouses accompany their service member spouse on military duty assignments. This measure simplifies and expedites the employment of trained, educated, and highly qualified military spouses while establishing requirements for nonresident military spouses to maintain licenses and requires reporting of changes in status or circumstances that may affect licensure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 965 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 101 Economic Development, Government Operations and Housing on S.B. No. 741**

The purpose and intent of this measure is to limit the prohibition on the sale of lands within the Kakaako Community Development District to those lands situated in the makai portion of the district and to require the Hawaii Community Development Authority to make cost-benefit analyses of the selling and purchasing of certain properties situated within the mauka area of the district.

Your Committee received testimony in support of this measure from the Executive Director of the Hawaii Community Development Authority and Capitol Consultants of Hawaii, LLP.

Your Committee finds that existing law effectively prohibits the selling or assignment of any land within the Kakaako Community Development District, making it difficult for the Authority to fully develop and enhance the value and potential of lands within the district. This measure will enhance the Authority's ability to develop a vibrant community in the mauka portion of the district while still maintaining effective protections against the sale or assignment of such lands. Your Committee also finds that this measure will help identify properties in the mauka area of the district that may better effectuate the development of a vibrant community by being sold or assigned.

Your Committee has amended this measure by:

- (1) Inserting language that more precisely describes the lands within the Kakaako Community Development District that are subject to statutory prohibition against sale or assignment; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 741, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 741, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

**SCRep. 102 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 955**

The purpose and intent of this measure is to extend the period in which an owner of a new car is exempted from obtaining a certificate of vehicle inspection from two years to three years from the date of purchase.

Your Committees received testimony in support of this measure from the Department of Transportation and EAN Holdings, LLC. Testimony in opposition to this measure was received from Aloha Shell Service and two individuals.

Your Committees find that new cars sold within the State of Hawaii are typically covered under warranties lasting a minimum of three years or thirty-six thousand miles. As Hawaii drivers do not typically exceed thirty-six thousand miles within two or even three years of purchasing a new car, requiring drivers to obtain a certificate of inspection within two years of purchasing a new car imposes an undue burden on new car drivers and is not in the best interest of the State.

Your Committees have amended this measure by:

- (1) Requiring a certificate of inspection to be obtained once every twenty-four months for all vehicles;
- (2) Clarifying the purpose section accordingly; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 955, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 955, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs  
Ayes, 6; Ayes with Reservations (Kahele). Noes, none. Excused, 3 (Dela Cruz, Gabbard, Kouchi).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3; Ayes with Reservations (Galuteria). Noes, none. Excused, 2 (Baker, Green).

**SCRep. 103 Transportation and International Affairs on S.B. No. 1214**

The purpose and intent of this measure is to repeal the Commission on Transportation in the Department of Transportation.

Your committee received testimony in support of this measure from the Department of Transportation. Testimony in opposition to this measure was received from the State Commission on Transportation and one individual.

Your Committee finds that the Commission on Transportation, created in 1961 as an advisory committee to the Department of Transportation, is no longer necessary. The only statutory function of the Commission is to sit in an advisory capacity to the Director of Transportation on matters within the jurisdiction of the Department of Transportation. Repeal of the Commission is intended to streamline the operations of the Department of Transportation without negative impact to the public.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1214 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Espero). Noes, none. Excused, 4 (Dela Cruz, Gabbard, Kouchi, Slom).

**SCRep. 104 Transportation and International Affairs on S.B. No. 914**

The purpose and intent of this measure is to create a new chapter to authorize the Governor to appoint commissioners to administer oaths, take acknowledgments, and proofs of execution outside of the United States in connection with the execution of conveyance documents relating to a timeshare interest, any property subject to a time share plan, or the operation of a time share plan covering any property located within the State.

Your Committee received testimony in support of this measure from Wyndham Vacation Ownership, Starwood Vacation Ownership, Disney Vacation Development, and American Resort Development Association.

Your Committee finds that deeds of timeshare interests in Hawaii timeshare plans must be notarized in order to be recordable. Typically, this is not a problem for deeds signed in Hawaii or in other states; however it can pose a problem in jurisdictions outside of the United States in which notaries public are not common.

This measure would help streamline the process for consumers who are located abroad and wish to purchase a time share property in Hawaii. The Commissioner of Deeds could then take acknowledgments and proofs of execution of the consumer's signature on all necessary paperwork and enable the document to be properly recorded in accordance with Hawaii law.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Gabbard, Kouchi, Slom).

**SCRep. 105 Human Services on S.B. No. 106**

The purpose and intent of this measure is to:

- (1) Establish and fund a position for an Alzheimer's disease and related dementia services coordinator within the Executive Office on Aging; and
- (2) Appropriate funds for programs and services that support the State's elderly population.

Your Committee received testimony in support of this measure from the Executive Office on Aging, State Council on Developmental Disabilities, County of Hawaii Office on Aging, Maui County Office on Aging, City and County of Honolulu Department of Community Services, PABEA, AARP Hawaii, Westside Service Provider Network, PHOCUSED, Lanakila Pacific, Hawaii Alliance for Retired Americans, Community Alliance for Mental Health, Healthy Aging Partnership, International Longshore and Warehouse Union Local 142 Hawaii, Catholic Charities Hawai'i, Project Dana, and eighty-three individuals.

Your Committee finds that census projections indicate that the senior population in Hawaii will almost double between 2010 and 2020, with the highest percentage increase occurring in those over the age of eighty-five. In order to minimize the potential financial strain of the burgeoning aging population on the State, proactive efforts are required now. Keeping seniors healthy and at home is the most cost-effective manner to address the needs of one of Hawaii's most valuable societal resources. The increasing numbers of the aging population will also mean that the incidence of Alzheimer's disease and related disorders will rise. In order to effectively plan and implement statewide services to seniors and caregivers, coordination at the state level is necessary to maximize resources.

Your Committee further finds that aging and disability resource centers are intended to streamline access to long-term supports and services for older adults, persons with disabilities, and caregivers. The centers are a navigational tool that connects individuals to appropriate long-term care options. On April 16, 2012, the Maui County Office on Aging was the first county in the state to implement the fully functioning aging and disability resource center model. Since then, the Maui County Office on Aging has successfully improved operations through standardization of tools and performance standards, ensured that older adults and persons with disabilities can make informed choices about how to meet their long-term care needs, received a fee-for-service award from federal initiatives, and helped Maui residents keep their loved ones in the community by building programs that support the spirit of 'ohana.

Your Committee also finds that despite these efforts, Hawaii ranks forty-first in ability to access long-term care through an aging and disability resource center. The vision of the Executive Office on Aging is to establish aging and disability resource centers in every community that serve as highly visible and trusted places where people with disabilities of all ages can find information on the full range of long-term support options and can access a single point of entry to public long-term support programs and benefits. The aging and disability resource centers need to be properly resourced and funded to make the centers an effective single point of entry for individuals seeking information on their long-term care options.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 106 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 106 (Joint) Human Services and Health on S.B. No. 358**

The purpose and intent of this measure is to require the Department of Health and the Department of Human Services to post on their respective websites reports of all inspections in which a violation was discovered at certain care facilities by January 1, 2015.

Your Committees received testimony in support of this measure from the Department of Health, Executive Office on Aging, State Council on Developmental Disabilities, ILWU Local 142, Policy Advisory Board for Elder Affairs, and twelve individuals. Your Committees received testimony in opposition to this measure from the United Group of Home Operators. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that the Department of Health is responsible for licensing, certifying, and monitoring several types of care facilities. Although the department performs inspections to ensure a standard of quality of these facilities using state monies, the public currently cannot easily access the information contained in the inspection reports. The public would benefit from greater access to information on the quality and conditions of care facilities in Hawaii. At least twenty-seven states already have websites that provide evaluations of care facilities.

Your Committees have heard testimony expressing concerns about how long a violation should stay on the website and whether or not these violations should be archived on the website. Your Committees find that this issue raises a concern that merits further consideration and request that your Committee on Ways and Means further examine this issue raised by the testifiers on this measure.

Your Committees have amended this measure by:

- (1) Removing the applicability of this measure to the Department of Human Services to be consistent with Act 93, Session Laws of Hawaii 2012, which transfers the licensing and certification functions for adult day care centers, community care foster family homes, and the community care case management agencies from the Department of Human Services to the Department of Health effective July 1, 2014;
- (2) Adding adult day care centers and community care foster family homes to the list of state-licensed care facilities for which the Department of Health performs inspections and posts its reports on its website;
- (3) Requiring the Department of Health to include on its website all evaluations, not just those in which a violation is discovered, of all inspections of care facilities; and
- (4) Limiting the posting on the website of a violation report for a care facility to three years, after which the report will be removed from the website.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 358, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 358, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 4. Noes, none. Excused, 1 (Kidani).

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 107 Economic Development, Government Operations and Housing on S.B. No. 1028**

The purpose and intent of this measure is to require notices of public hearings for:

- (1) An amendment to certain community development rules of the Hawaii Community Development Authority to be published statewide; and
- (2) The acceptance of a developer's proposal to develop lands under the Authority's control to be published county-wide in the affected county.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and the Executive Director of the Hawaii Community Development Authority.

Your Committee finds that there is ambiguity in existing statute regarding the type of publication in which the Hawaii Community Development Authority must publish public notice of its decision-making hearings. This measure allows the Hawaii Community Development Authority to publish notice of its decision-making hearings in an efficient manner that ensures sufficient notice to the proper audiences.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1028 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

**SCRep. 108 Human Services on S.B. No. 306**

The purpose and intent of this measure is to extend the termination date of the Medicaid buy-in task force to June 30, 2014, and require submission of an interim and final report by the task force.

Your Committee received testimony in support of this measure from the Department of Human Services, State Council on Developmental Disabilities, Community Alliance for Mental Health, and one individual.

Your Committee finds that the community is concerned that as Medicaid recipients become employed, their increased income would make them ineligible for Medicaid. Two major issues for Medicaid recipients becoming gainfully employed are affordability of individual health insurance policies and coverage of certain benefits, specifically specialized behavioral health services and home- and community-based services.

Your Committee further finds that the Patient Protection and Affordable Care Act creates a new avenue for individuals to access affordable health insurance, which is subsidized based on income. The amount of premiums paid for qualified health plans purchased through the health insurance exchange is expected to be less than premiums paid in the majority of Medicaid buy-in programs. However, individuals covered by Medicaid are not eligible for federal subsidies through the health insurance exchange, and determination of eligibility for Medicare does not consider need-based criteria.

Your Committee also finds that certain benefits are not included in the qualified health plan's benchmark benefit package or covered by Medicare. Disabled individuals have communicated that the benefits of greatest concern are specialized behavioral health services for individuals with a serious mental illness and home- and community-based services for individuals who need a nursing facility level of care. Therefore, the goal is to provide affordable access to these services while maximizing federal funding.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 306, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 306, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 109 Human Services on S.B. No. 1102**

The purpose and intent of this measure is to make an emergency appropriation of \$43,000,000 for fiscal year 2012-2013 out of the hospital sustainability program special fund to be used in accordance with the purposes of the hospital sustainability program special fund, including the reimbursement of monies advanced in fiscal year 2012-2013 from the health care payments program.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that the hospital sustainability program was established through Act 217, Session Laws of Hawaii 2012. The program allows the Department of Human Services to assess fees on hospitals and utilize the monies received to draw down federal dollars for supplemental payments to hospitals in order to help offset their uncompensated care.

Your Committee further finds that the Department of Human Services has used monies out of Medicaid's health care payments program to make the supplemental payments so that payments to the private hospitals would not be delayed. Without the authorization to expend monies out of the hospital sustainability program special fund, the Department Human Services will not be able to continue making supplemental payments to hospitals and will face a shortfall for the monies it advanced in good faith and in the spirit of the intent of Act 217, Session Laws of Hawaii 2012.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1102 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 110 Human Services on S.B. No. 1103**

The purpose and intent of this measure is to make an emergency appropriation of \$12,000,000 for fiscal year 2012-2013 out of the nursing facility sustainability program special fund to be used in accordance with the purposes of the nursing facility sustainability program special fund, including the reimbursement of monies advanced for those purposes in fiscal year 2012-2013 from the health care payments program.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Long Term Care Association, and Healthcare Association of Hawaii.

Your Committee finds that the nursing facility sustainability program was established through Act 156, Session Laws of Hawaii 2012. The program allows the Department of Human Services to assess fees on nursing facilities and utilize monies received to draw down federal dollars for supplemental payments to the nursing facilities to help offset their uncompensated care.

Your Committee further finds that the Department of Human Services has used monies out of Medicaid's health care payments program to make the supplemental payments so that payments to nursing facilities would not be delayed. Without the authorization to expend monies out of the nursing facility sustainability program special fund, the Department of Human Services will not be able to continue making supplemental payments to nursing facilities and will face a shortfall for the monies it advanced in good faith and in the spirit of the intent of Act 156, Session Laws of Hawaii 2012.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1103 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 111 Human Services on S.B. No. 1100**

The purpose and intent of this measure is to allow the Department of Human Services to draw from other funds appropriated to the Department to make general assistance benefits payments.

Your Committee received testimony in support of this measure from the Department of Human Services, Legal Aid Society of Hawaii, and two individuals.

Your Committee finds that general assistance is a program that provides financial assistance to disabled adults without children. The limited assistance that the program provides can be critical to helping a disabled adult maintain housing or get access to basic necessities. General assistance also provides a critical bridge for disabled adults who are seeking Social Security disability assistance. Upon award of Social Security assistance, the State is repaid for the general assistance paid to the disabled adult.

Your Committee further finds that because general assistance is a block grant, assistance levels are determined based on the number of people in the community needing assistance. As these numbers rise, the assistance amount is reduced. The amount set for this year was \$319 per month; however, it will be reduced to \$298 per month effective February 1, 2013, because of the caseload. The general assistance program is the safety net for many individuals. Without it, far more people would be facing homelessness without critical assistance to get themselves back on their feet.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1100 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 112 Transportation and International Affairs on S.B. No. 1209**

The purpose and intent of this measure is to:

- (1) Clarify the types of vending activities that are prohibited on state highways; and
- (2) Authorize the Director of Transportation to issue a written permit authorizing an applicant to vend in the airspace above a highway.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the amendments proposed by this measure to section 264-101(a), Hawaii Revised Statutes, go too far and could possibly interfere with the selling of articles and food along the highways, streets, and roads of the State, especially on the neighbor islands where it is typical for vendors to regularly sell food and crafts along streets and roads.

Your Committee has been informed by the Department of Transportation that the amendments proposed by this measure to section 264-101(b), Hawaii Revised Statutes, are intended to address the peculiar situation of the United States post office station situated under Lunalilo Freeway in Makiki. Apparently federal law prohibits such vending in the airspace under the Lunalilo Freeway unless a state permit is issued.

Your Committee has amended this measure by deleting all amendments to section 264-101(a), Hawaii Revised Statutes, leaving that subsection unamended.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1209, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1209, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Gabbard, Kouchi, Slom).

**SCRep. 113 (Majority) Energy and the Environment on S.B. No. 1131**

The purpose and intent of this measure is to establish a tiered glass advanced disposal fee system based on the capacity of a glass container.

Your Committee received testimony in support of this measure from the Department of Health; Department of Environmental Services; Conservation Council of Hawaii; Sierra Club, Hawaii Chapter; and Zero Waste Kauai. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Retail Merchants of Hawaii, Tax Foundation of Hawaii, Distilled Spirits Council of the United States, Wine Institute, and The Legislative Center.

Your Committee finds that the glass advance disposal fee program was created as a state program in 1994. Under the program, the Department of Health collects a fee of 1.5 cents per container from the distributors of non-deposit glass containers sold in the State. The majority of the funds are passed to the counties in amounts proportional to population for the operation of glass buyback programs.

Your Committee further finds that glass recycling lags behind other materials because of its lower material value and the fact that its higher density leads to higher shipping costs. In an effort to increase glass recycling volumes, the City and County of Honolulu increased its payout rate in fiscal year 2011-2012. The higher subsidy rate had the intended effect of increasing the amount of glass collected, due in part to the increased availability of glass recycling opportunities for the general public. For the majority of the program's existence, collections have focused nearly exclusively on the commercial sector. However, the higher payout rate encouraged recyclers to begin offering collection to the general public. The increased collections forced the City and County of Honolulu to reduce the payout rate mid-year so that funds could last the duration of the fiscal year. Without sufficient funding support for non-deposit containers through a subsidy program, the opportunities for glass recycling are very limited.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1131, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 114 Energy and the Environment on S.B. No. 1130**

The purpose and intent of this measure is to restore the exemption from the central services fee assessment for the deposit beverage container deposit special fund.

Your Committee received testimony in support of this measure from the Department of Health; Conservation Council for Hawaii; Hawaii Food Industry Association; and Sierra Club, Hawaii Chapter.

Your Committee finds that when creating the deposit beverage container program, the Legislature provided an exemption from the Department of Accounting and General Services central services fee for the deposit beverage container's special fund. The central services fee is assessed on special funds administered by the Department of Accounting and General Services. The exemption for the deposit beverage container program was repealed by the Legislature in 2009.

Your Committee further finds that the central services fee should not be applied to the deposit revenues, as they are designated for redemptions to consumers. The bulk of the deposit beverage container program's revenue comes from deposits it collects on new beverage containers. These deposits are maintained in the program's account until they are paid out to consumers when used containers are redeemed. Your Committee also finds that annual central services fee assessments range from \$2,500,000 to \$3,000,000 and have been a significant drain on the program's reserve fund. Statute allows raising the 1 cent container fee to 1.5 cents when the redemption rate reaches seventy percent. The Department of Health deferred this increase four times since the redemption rate reached seventy percent in 2008, as the Department was able to operate the program on reserve funds. However, as fiscal year 2013-2014 projections indicate a negative fund balance, the program is forced to increase the container fee.

Your Committee has amended this measure by:

- (1) Adding a clause in the effective date to ensure that the exemption from the central services fee assessment for the deposit beverage container deposit special fund is not repealed on June 30, 2015, as a result of Act 79, Session Laws of Hawaii 2009; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1130, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 115 (Majority) Energy and the Environment on S.B. No. 1133**

The purpose and intent of this measure is to remove the exemption for dietary supplements from the deposit beverage container program.

Your Committee received testimony in support of this measure from the Department of Health; Conservation Council of Hawaii; Sierra Club, Hawaii Chapter; and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association.

Your Committee finds that along with milk, drugs, medical foods, and infant formula, dietary supplements have been excluded from the deposit beverage container program. Hawaii statute cites federal Food and Drug Administration regulations in defining "dietary supplement". However, the Food and Drug Administration does not vigorously regulate the dietary supplement industry. This approach gives manufacturers nearly free reign to unilaterally define a product as a dietary supplement or not.

Your Committee further finds that the ambiguity of regulations for dietary supplements makes it difficult for the deposit beverage container program to make consistent eligibility determinations on potential dietary supplements for Hawaii's program. These difficulties are frustrating to the deposit beverage container program and beverage distributors because of the disproportionate time and effort involved in making a proper determination. Deleting the "dietary supplement" exemption will facilitate more consistent eligibility determinations.

Your Committee expresses concerns about dietary supplements in containers of one fluid ounce or less and whether those containers can be in compliance. Your Committee finds that this concern merits further consideration and requests that your Committee on Ways and Means further examine this issue.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1133, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 116 Energy and the Environment on S.B. No. 1280**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Kona SWAC, LLC, in constructing part of a seawater air conditioning district cooling system.

Your Committee received testimony in support of this measure from the Blue Planet Foundation and Kona SWAC, LLC. Your Committee received testimony in opposition to this measure from Life of the Land and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that air conditioning is a voracious consumer of electricity. On Oahu, the cooling of commercial buildings year-round is responsible for about twenty percent of the island's electricity demand. The percentage of electricity devoted to cooling is even higher in resort areas. Kona SWAC, LLC, seeks to develop a seawater air conditioning solution for Kona that precludes the need to cool water with electricity, which stands to save substantial amounts of electricity annually.

Your Committee further finds that the Keahole Airport Terminal Modernization Program's environmental assessment already includes plans for a seawater air conditioning system connecting to the Natural Energy Laboratory of Hawaii Authority pipeline to service the airport terminal and the Ellison S. Onizuka Space Center. Future growth of the seawater air conditioning system beyond the Keahole Airport would potentially include the University of Hawaii Center West Hawaii campus, planned mixed-use developments along Queen Kaahumanu Highway, and existing industrial parks.

Your Committee has heard the testimony of the Department of Budget and Finance and recommends that Kona SWAC, LLC, submit to your Committee, no later than April 12, 2013, letters from the Department of Business, Economic Development, and Tourism and Department of Budget and Finance stating that each department has received and reviewed Kona SWAC's business plan without rendering an opinion.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1280, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1280, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 117 Commerce and Consumer Protection on S.B. No. 120**

The purpose and intent of this measure is to amend the law relating to public utilities.

Your Committee has amended this measure by deleting its contents and replacing it with language that authorizes the Public Utilities Commission to establish a policy to implement economic incentives and cost recovery regulatory mechanisms to induce and accelerate electric utilities' cost reduction efforts, encourage greater utilization of renewable energy, accelerate the retirement of utility fossil generation, and increase investments to modernize the State's electrical grids.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 120, as amended herein, and recommends that it be recommitted to the Committee on Commerce and Consumer Protection, in the form attached hereto as S.B. No. 120, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 118 Education on S.B. No. 242**

The purpose and intent of this measure is to require that the compensation of vice principals of adult and community education schools be payable over a twelve-month period without proration.

Your Committee received testimony in support of this measure from McKinley Community School for Adults, Hawai'i Educational Policy Center, and four individuals. Your Committee received testimony in opposition to this measure from the Department of Education and one individual.

Your Committee finds that adult and community education schools, like multi-track schools, operate during the entire year on a trimester system. This measure will allow vice principals of adult and community education schools to be compensated for the administrative responsibilities and duties they are currently performing over a twelve-month period, including the supervision of twelve-month staff assigned at each campus, and serving as their schools' academic officers in the administration of tests.

While your Committee understands the concerns raised by the Department of Education pertaining to the equal treatment of all public employees within a collective bargaining unit, as this measure moves forward, your Committee encourages the Department to continue working with the Department of the Attorney General to address those concerns. It is the hope of your Committee that both short- and long-term staffing strategies can be identified to support the adult and community education schools, which are clearly unique within the public education system and serve students year-round.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 242, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 242, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 119 Education on S.B. No. 458**

The purpose and intent of this measure is to:

- (1) Remove the requirement that general excise tax revenues be deposited into the state educational facilities improvement special fund;
- (2) Limit expenditures from the state educational facilities improvement special fund to projects authorized by the Legislature for fiscal years ending prior to July 1, 2014;
- (3) Limit lease payments required by financing agreements paid from the state educational facilities improvement special fund to lease payments required by financing agreements entered into prior to July 1, 2013; and
- (4) Repeal the state educational facilities improvement special fund on July 1, 2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance. Your Committee received testimony in opposition to this measure from the Department of Education. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the state educational facilities improvement special fund was first established pursuant to Act 368, Session Laws of Hawaii 1989. Over the years, capital improvement projects for Department of Education facilities have generally been authorized and funded with state educational facilities improvement special fund monies, which are then capitalized through general obligation bond revenue.

While your Committee recognizes the opposing concerns raised by the Department of Education and the Department of Budget and Finance, your Committee encourages further discussion on the necessity of retaining the state educational facilities improvement special fund.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 458, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 458, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 120 (Joint) Education and Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 243**

The purpose and intent of this measure is to transfer the Hawaii 3Ts school technology laboratories fund from the Department of Education to the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Department of Education. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the Hawaii 3Ts school technology laboratories fund may be more appropriately placed within the Department of Business, Economic Development, and Tourism, rather than the Department of Education.

Your Committees note that as this measure moves forward, the Committee on Ways and Means may wish to look into the possibility of placing the Hawaii 3Ts school technology laboratories fund under the authority of the Hawaii Technology Development Corporation, rather than the Economic Development Alliance of Hawaii, Inc., because the Hawaii Technology Development Corporation may be a more appropriate fit for the Hawaii 3Ts school technology laboratories fund and is currently administratively attached to the Department of Business, Economic Development, and Tourism.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 243 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Ruderman).

Economic Development, Government Operations and Housing  
Ayes, 4. Noes, none. Excused, 3 (Baker, Chun Oakland, English).

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 121 Public Safety, Intergovernmental and Military Affairs on S.B. No. 892**

The purpose and intent of this measure is to expand the offenses of assault against a law enforcement officer in the first and second degrees to include assaults against firefighters and water safety officers.

Your Committee received testimony in support of this measure from the Hawaii Fire Fighters Association and the Hawaii Bicycling League.

Your Committee finds that there have been reported incidents of assaults against fire fighters and water safety officers, who are often first responders. This measure provides fire fighters and water safety officers with an additional measure of protection in the line of duty.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 892 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 122 Public Safety, Intergovernmental and Military Affairs on S.B. No. 791**

The purpose and intent of this measure is to provide an income tax exemption for military service members on active duty who are serving outside the State pursuant to military orders.

Your Committee received testimony in support of this measure from the Department of Taxation, Oahu Veterans Center, and three individuals. Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that this measure helps to alleviate the financial hardships encountered by service members and their dependents when the service members are called to serve their country, often far away from their homes and families.

Your Committee has amended this measure by:

- (1) Deleting the word "resident" so that the measure treats resident and non-resident service members the same, thereby avoiding a possible constitutional challenge; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 791, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 791, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 123 Ways and Means on S.B. No. 188**

The purpose and intent of this measure is to amend the law relating to taxation.

Your Committee has amended this measure by inserting language to curtail tobacco use among adolescents and young adults and increase state tax revenue as a result of in-state cigar sales by:

- (1) Adding a new definition of "premium cigar" and repealing the definition of "large cigar;" and
- (2) Increasing the tax rate on sales of certain tobacco products.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 188, as amended herein, and recommends that it be recommitted to the Committee on Ways and Means, in the form attached hereto as S.B. No. 188, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Chun Oakland, Dela Cruz).

**SCRep. 124 Commerce and Consumer Protection on S.B. No. 328**

The purpose and intent of this measure is to:

- (1) Permit a landlord to hold a tenant's security deposit for the purpose of paying for damages caused by an animal residing in the premises pursuant to the rental agreement; and
- (2) Authorize a landlord, as a condition of a rental agreement, to add to the security deposit an amount for an animal to reside in the premises pursuant to the rental agreement.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, West Hawaii Humane Society, Hawai'i Association of REALTORS, Equine 808 Horse Rescue, and twenty-five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawai'i Civil Rights Commission and the Disability and Communication Access Board.

Your Committee finds that the current landlord-tenant code permits a landlord to collect a security deposit in an amount not to exceed one month's rent. Because of the current limit on security deposits, many landlords refuse to rent to pet owners. Your

Committee further finds that this measure would permit the use of pet deposits in rental agreements, thus ensuring that landlords will be compensated for any damage done to a rental unit by a pet animal. In addition to addressing potential financial concerns of landlords related to pet animals in rental units, this measure will also permit more pet-friendly rental opportunities.

Your Committee additionally finds that federal and state fair housing laws require landlords and other housing providers to provide reasonable accommodations for a person with a disability, including the use of an assistance animal. Assistance animals are not pets; rather they are animals that work, perform tasks, or provide assistance or support for the benefit of a person with a disability. Because landlords are not permitted to require a fee or security deposit as a condition of allowing a tenant to keep an assistance animal, an amendment to this measure is necessary.

Your Committee notes that rental agreement forms need time to be updated in conformance with the requirements of this measure, therefore an amendment to the effective date of this measure is also necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the amendments related to security deposits permitted by this measure are for pet animals;
- (2) Clarifying that no landlord shall require a security deposit for an assistance animal that is a reasonable accommodation for a tenant with a disability; and
- (3) Inserting a provision into the effective date of this measure to specify that section 1 of this measure shall apply to all rental agreements entered into on or after November 1, 2013.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 328, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Taniguchi, Slom).

**SCRep. 125 Public Safety, Intergovernmental and Military Affairs on S.B. No. 839**

The purpose and intent of this measure is to:

- (1) Amend the reporting deadline for annual police department reports regarding incidents of misconduct of police officers and specify that the reporting period is January 1 to December 31 of the previous year; and
- (2) Require the annual police department reports to include descriptions of each incident of police misconduct reported.

Your Committee received testimony in support of this measure from Media Council Hawaii and the Society of Professional Journalists, Hawaii Chapter.

Your Committee finds that the detailed disclosure of police misconduct reports to the Legislature increases government transparency and accountability for members of Hawaii's police forces. Furthermore, delaying the reporting deadline to January 31 of each year and specifying a reporting period of January 1 to December 31 of the previous year should ensure that annual reports do not leave out information on incidents that occurred during the month of December.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 839 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 126 Ways and Means on H.B. No. 26**

The purpose and intent of this measure is to appropriate funds to provide for the expenses of the legislative branch of the State.

Specifically, this measure appropriates funds for the House of Representatives, the Senate, and the legislative service agencies comprising the Auditor, the Legislative Reference Bureau, the Ombudsman, and the State Ethics Commission.

Your Committee received testimony in support of this measure from the Auditor, the State Ethics Commission, the Ombudsman, and a concerned citizen. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the appropriations made under this measure reflect fiscally prudent amounts that are necessary to defray the expenses of the Legislature and the legislative service agencies for the 2013-2014 fiscal year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 26, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kahele).

**SCRep. 127 Human Services on S.B. No. 1116**

The purpose and intent of this measure is to expand the definition of "public housing project", "housing project", or "complex" to include all potential properties that could be managed by a public housing agency under United States Department of Housing and Urban Development regulations.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Public Housing Authority, and Community Alliance for Mental Health.

Your Committee finds that current state law uses an inaccurate and overly limiting definition of the term “public housing project” for the purposes of the federal low-income public housing program. Under the United States Department of Housing and Urban Development regulations, public housing agencies are authorized to administer a variety of federally assisted housing beyond simply “public housing”. Since the Hawaii Public Housing Authority is the only public housing agency in Hawaii, the definition of public housing should correspond to the Department of Housing and Urban Development’s definition of housing to enable the Authority to administer any of the housing programs that fall under that definition.

Your Committee further finds that current state law uses the term “federal low-rent public housing program”, which does not accurately reflect the program as being income-based. The term “low-income public housing” is based on the Department of Housing and Urban Development income limits and not controlled rents. By linking the statutory definition to the Department of Housing and Urban Development rule, any expansion or addition of federally assisted housing options to the Department of Housing and Urban Development rule would be incorporated into the Hawaii Public Housing Authority’s program administration.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1116, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 128 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 939**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to process terminations of tenancy or evictions from the federal low-income public housing program pursuant to the residential landlord-tenant code rather than by providing a grievance hearing, when permitted by the federal government.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committees received testimony in opposition to this measure from the American Civil Liberties Union of Hawaii.

Your Committees find that state law requires the Hawaii Public Housing Authority to provide a grievance hearing in all eviction actions involving the Authority’s federal low-income housing program. This requirement is generally consistent with the United States Department of Housing and Urban Development regulations, although federal regulations provide exceptions that permit proceeding with the eviction directly in certain limited circumstances. Your Committees further find that there have been numerous occasions where tenants have committed criminal acts that have put the health, safety, and lives of other tenants and non-tenants at risk. Domestic violence, including the use of guns, has occurred multiple times at the Authority’s asset management projects. The Authority believes that these, and other serious criminal actions, do not need grievance hearings when executing eviction actions.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 939 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.  
  
Human Services  
Ayes, 3. Noes, none. Excused, 2 (Green, Kidani).  
  
Commerce and Consumer Protection  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 129 Human Services on S.B. No. 944**

The purpose and intent of this measure is to prohibit the possession of open intoxicating liquor containers on any common area of a public housing project.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that state law prohibits the consumption of intoxicating liquors on public sidewalks, including any sidewalk within a public housing project as defined in sections 356D-1 and 356D-91, Hawaii Revised Statutes, and in common areas of public housing projects. However, this prohibition can be difficult to enforce since it is limited by the word “consumption”, requiring that either a police officer visibly observe a perpetrator in the action of imbibing intoxicating liquor or a witness be willing to testify to visibly observing a perpetrator in the action of imbibing intoxicating liquor. By broadening the prohibition to possession of open intoxicating liquor containers, the requirement of physically observing a perpetrator in the act of imbibing in order to support prosecution is removed, making violations easier to report and enforce.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 944 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 130 Health on S.B. No. 137**

The purpose and intent of this measure is to amend the law relating to health.

Your Committee has amended this measure by deleting its contents and replacing it with language that appropriates an unspecified amount of money to the Department of Health for the establishment of one full-time equivalent permanent position in the Department of Health to facilitate licensing of home care agencies.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 137, as amended herein, and recommends that it be recommitted to the Committee on Health, in the form attached hereto as S.B. No. 137, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 131 Health on S.B. No. 138**

The purpose and intent of this measure is to amend the law relating to health.

Your Committee has amended this measure by deleting its contents and replacing it with language that authorizes the issuance of general obligation bonds and appropriates funds for the planning, design, and construction of a new health care facility for the Kaheleaulani Native Hawaiian health program in north Hawaii.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 138, as amended herein, and recommends that it be recommitted to the Committee on Health, in the form attached hereto as S.B. No. 138, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 132 (Joint) Education and Judiciary and Labor on S.B. No. 1084**

The purpose and intent of this measure is to propose an amendment to article X, section 1, of the Hawaii State Constitution to permit the appropriation of public funds for private early childhood education programs to help the State meet its goal of providing an early education system for the children of Hawaii.

Your Committees received testimony in support of this measure from the Governor, Department of Human Services, Department of Education, Department of the Attorney General, Department of Health, Department of the Prosecuting Attorney of the City and County of Honolulu, Child & Family Service, Hawai'i Association for the Education of Young Children, Kamehameha Schools, Chaminade University of Honolulu, Hawaii Business Roundtable Incorporated, IMUAlliance, Community Children's Council of Hawaii, Hawaii State Parent Teacher Student Association, Special Education Advisory Council, Harold K.L. Castle Foundation, Hawaii Association of Independent Schools, and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association, League of Women Voters of Hawaii, and two individuals. Your Committees received comments on this measure from the Good Beginnings Alliance.

Your Committees find that high quality early learning programs that are affordable and accessible for all children are critically important for ensuring the success of Hawaii's keiki. In addition, significant, long-term benefits realized through investments in high-quality, early learning systems have been proven through decades of research. Hawaii is one of only eleven states that does not publicly fund early education.

Your Committees recognize the need to form public-private partnerships to provide Hawaii's keiki with high-quality early childhood education. This measure will authorize the implementation of S.B. No. 1095, S.D. 1 (2013) to allow the Office on Early Learning to contract with private early learning education programs, which have been the primary providers for early education in our State. This program will assist more children in establishing a solid foundation for success in school and life.

Your Committees note that the Department of the Attorney General has affirmed that this measure gives the Legislature the power to determine, by law, the requirements the State may place on private early learning education programs who participate in the State's early education system to ensure that all state laws are followed.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1084 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Judiciary and Labor  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 133 (Majority) Education on S.B. No. 1095**

The purpose and intent of this measure is to implement an amendment to article X, section 1, of the Hawaii State Constitution, upon its ratification, permitting the appropriation of public funds for private early childhood education programs by establishing a statewide early learning childhood education consisting providers of high-quality early childhood education.

Your Committee received testimony in support of this measure from the Governor; Department of Education; Department of Human Services; Department of the Attorney General; Department of Health; University of Hawai'i System; Hawaii Teacher Standards Board; KCAA Preschools of Hawai'i; Imua Family Services; Child & Family Service; Parents and Children Together; Good Beginnings Alliance; Community Children's Council of Hawaii; Hawaii State Parent Teacher Student Association; Protecting Hawaii's Ohana, Children, Under Served, Elderly and Disabled; Hawaii Business Roundtable; Kamehameha Schools; Hawai'i Association for the Education of Young Children; Westside Service Provider Network; Hui for Excellence in Education; Hawaii Association of Independent Schools; Chaminade University of Honolulu; and twenty-nine individuals. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that high quality early learning programs that are affordable and accessible for all children are critically important for ensuring the success of Hawaii's keiki. In addition, significant, long-term benefits realized through investments in high-quality, early learning systems have been proven through decades of research. Hawaii is one of only eleven states that does not publicly fund early education.

Your Committee recognizes the need to form public-private partnerships to provide Hawaii's keiki with high-quality early childhood education. This measure, which will be implemented upon the ratification of an amendment to article X, section 1, of the Hawaii State Constitution, will allow the Office on Early Learning to contract with private early learning education programs, which have been the mainstay providers for early education in our State. This program will assist more children in establishing a solid foundation for success in school and life.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1095, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1095, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Shimabukuro).

**SCRep. 134 Commerce and Consumer Protection on S.B. No. 214**

The purpose and intent of this measure is to authorize the Director of Finance to provide location efficient mortgage loans to purchasers of residential premises in urban districts.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawaii Housing Finance and Development Corporation currently issues mortgage revenue bonds to administer the Hula Mae program. Your Committee further finds that because the Hawaii Housing Finance and Development Corporation currently works with local lending institutions for their Hula Mae program, it would be more appropriate to have the Hawaii Housing Finance and Development Corporation, rather than the Director of Finance, administer the location efficient mortgage loan program.

Accordingly, your Committee has amended this measure by:

- (1) Establishing the location efficient mortgage loan program as a new part in chapter 201H, Hawaii Revised Statutes, rather than chapter 207, Hawaii Revised Statutes, and making conforming amendments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 214, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 135 Commerce and Consumer Protection on S.B. No. 1070**

The purpose and intent of this measure is to:

- (1) Authorize the Commissioner of Financial Institutions to conduct examinations and investigations; and
- (2) Adjust fees for mortgage servicer licensees registering through the NMLS system used by the Division of Financial Institutions.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that the need for meaningful mortgage servicer oversight is evident from the failure of the country's mortgage loan systems and the 2012 National Mortgage Settlement, a landmark \$25,000,000,000 joint federal-state agreement with the nation's five largest mortgage servicers over foreclosure fraud and abuses. As a result of these events, there has been a reevaluation of

laws at the state and federal government levels in an effort to address breakdowns in the mortgage service industry and better protect consumers.

Your Committee further finds that although eighty-eight percent of Hawaii mortgage loans are paid on time, the other twelve percent are considered delinquent. Because homes are at stake, it is imperative for the Commissioner of Financial Institutions to have the tools to protect consumers and conduct meaningful examinations and investigations of mortgage servicers. This measure provides the Commissioner with this authority and the ability to cooperate with other states in joint examinations of licensees operating in more than one state.

Your Committee additionally finds that the Division of Financial Institutions has indicated that the fee changes proposed by this measure are based on the Division's need to appropriately carry out its mission. The Division is responsible for the licensure, examination, and supervision of state-chartered and licensed banks, trust companies, savings and loan associations, financial services loan companies, credit unions, escrow depositories, money transmitters, mortgage servicers, mortgage loan originators, and mortgage loan originator companies. It is the only entity that monitors the regulatory compliance, safety, and soundness of these industries; the federal government does not provide this oversight.

The Division of Financial Institutions has also indicated that a guiding principle of the Division is to ensure that revenues from each program are sufficient to cover the Division's costs of operating that program. Unfortunately, the mortgage servicer program ran a deficit of \$86,765 in fiscal year 2011 and a deficit of \$173,942 in fiscal year 2012. It is therefore clear that the mortgage servicer program is fiscally unsustainable under the existing fee schedules set by chapter 454M, Hawaii Revised Statutes.

Your Committee concludes that the fee changes proposed by this measure are necessary and appropriate and will enable the Division of Financial Institutions to continue to carry out its legislatively mandated duties.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1070, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 136 (Majority) Commerce and Consumer Protection on S.B. No. 1069**

The purpose and intent of this measure is to:

- (1) Clarify licensure requirements for licensees under the Secure and Fair Enforcement for Mortgage Licensing Act, chapter 454F, Hawaii Revised Statutes;
- (2) Adjust fees for mortgage loan originator licensees; and
- (3) Establish fees for mortgage servicer companies that conduct mortgage loan origination activities.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Hawaii Association of Mortgage Brokers.

Your Committee finds that this measure substitutes references from the "Nationwide Mortgage Licensing System" to "NMLS", in recognition of NMLS's name change and expansion of services beyond mortgage loan origination industries; makes numerous housekeeping and clarification amendments to chapter 454F, Hawaii Revised Statutes; and strengthens educational requirements for mortgage loan originators. Your Committee further finds that the amendments proposed by this measure are designed to keep state law current with federal law and guidelines.

Your Committee additionally finds that this measure adjusts fees for mortgage loan originators, mortgage loan originator companies, and exempt sponsoring mortgage loan originator companies and establishes fees for mortgage servicer companies that conduct mortgage loan origination activities. The fee adjustments in this measure are necessary to reflect the additional state and federal regulatory requirements and increased supervision now required for these licensees.

Your Committee also finds that the Division of Financial Institutions has indicated that the fee changes proposed by this measure are based on the Division's need to appropriately carry out its mission. The Division is responsible for the licensure, examination, and supervision of state-chartered and licensed banks, trust companies, savings and loan associations, financial services loan companies, credit unions, escrow depositories, money transmitters, mortgage servicers, mortgage loan originators, and mortgage loan originator companies. It is the only entity that monitors the regulatory compliance, safety, and soundness of these industries; the federal government does not provide this oversight.

The Division of Financial Institutions has also indicated that a guiding principle of the Division is to ensure that revenues from each program are sufficient to cover the Division's costs of operating that program. Unfortunately, the mortgage loan origination program ran deficits of more than \$250,000 in the past two fiscal years. It is therefore clear that the mortgage loan origination program is fiscally unsustainable under the existing fee schedules set out in the Hawaii Revised Statutes.

The Division estimates additional revenues of \$10,000 a year, based on the provisions in this measure that adjust and establish fees for the mortgage loan originator industry. The additional fee revenues proposed by this measure, combined with the Division's share of the franchise tax, will help close the deficit in the Division's mortgage loan originator program.

Your Committee notes that representatives of the mortgage loan origination industry met with the Commissioner of Financial Institutions in 2012 and agreed to the fee adjustments for their industry as set out in this measure. Your Committee concludes that the

fee changes proposed by this measure are necessary and appropriate and will enable the Division of Financial Institutions to continue to carry out its legislatively mandated duties.

Your Committee has amended this measure by:

- (1) Making technical, nonsubstantive amendments that amend sections 412:9-501(b); 454F-2.5; 454F-4(a), (c), (e), and (f); 454F-4.9; 454F-6(b) through (e); 454F-9(b), (c), (d), and (g); 454F-14; 454F-17; and 454F-23, Hawaii Revised Statutes, by substituting the word "NMLS" wherever the words "the Nationwide Mortgage Licensing System", or similar term, appears, as the context requires; and
- (2) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1069, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1069, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 137 Commerce and Consumer Protection on S.B. No. 968**

The purpose and intent of this measure is to specify the term "general circulation" as it refers to a newspaper for purposes of service by publication in a civil action.

Your Committee received testimony in support of this measure from the Hawaii Financial Services Association, Mortgage Bankers Association of Hawaii, and one individual.

Your Committee finds that the cost for publication of summons has continued to rise in recent years. These costs are usually passed on to the consumer. Your Committee further finds that this measure specifies that "general circulation" newspapers must be distributed at least weekly, along with other requirements. Currently, only daily newspapers are considered by the courts to be of general circulation. The amendments proposed by this measure will give parties to a lawsuit more inexpensive options when publishing summons.

Your Committee additionally finds that as technology advances and more people have access to the Internet, state agencies and departments will begin to move more toward online documents, notices, and publications. Your Committee notes that the Department of Commerce and Consumer Affairs has a website for the electronic publication of notices of public sale for foreclosed properties. The Department's website was created to address some of the issues associated with the rising cost of publishing foreclosure notices, and your Committee concludes that expanding this website to cover electronic service of publication would be an appropriate way to address the rising cost associated with service of publication and increase access to publication of summons.

Accordingly, your Committee has amended this measure by:

- (1) Permitting a summons for service by publication in a civil action to be published on a state website maintained by the Department of Commerce and Consumer Affairs; and
- (2) Amending the purpose section of this measure for consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 968, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 968, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 138 (Joint) Tourism and Hawaiian Affairs and Commerce and Consumer Protection on S.B. No. 1360**

The purpose and intent of this measure is to extend permanently the general excise tax exemption for:

- (1) Funds received by submanagers of associations of apartment owners of condominiums or nonprofit homeowners or community associations for reimbursement of common expenses;
- (2) Funds received by a hotel operator from a timeshare association to pay employee expenses; and
- (3) Funds received by a hotel suboperator from the owner or operator of a hotel or timeshare association, to pay employee expenses.

Your Committees received testimony in support of this measure from Wyndham Vacation Ownership, Outrigger Enterprise Group, Hawaii Association of REALTORS, Hawaii Chapter Community Associations Institute, Hawaii Lodging and Tourism Association, and one individual. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that allowing the lapse of general excise tax exemptions enacted by Act 239, Session Laws of Hawaii 2007, as amended, will unfairly burden consumers and employees by increasing common expenses and decreasing employee wages and benefits. Your Committees further find that this measure will make permanent a tax exemption to transactions that are similar to certain transactions that are already exempt. Condominium submanagers, timeshare associations, and hotel suboperators are in similar situations to hotel and condominium operators when they receive funds and should be taxed similarly. This measure will ensure the consistent and uniform application of the tax law for taxpayers in similar situations.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1360 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and Hawaiian Affairs  
Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

Commerce and Consumer Protection  
Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

**SCRep. 139      Tourism and Hawaiian Affairs on S.B. No. 488**

The purpose and intent of this measure is to authorize the Hawaii Tourism Authority to disburse grants for the development of visitor industry products and programs.

Your Committee received testimony in support of this measure from the Hawaii Tourism Association.

Your Committee finds that the Hawaii Tourism Authority is encouraged to enter into contracts and agreements for the development of visitor industry products and programs. In 2012, the Hawaii Tourism Authority provided support for 24 major festivals and events, 104 county enrichment programs, and 20 community projects that improved visitor experiences. Although currently procured through contracts, your Committee finds that the funds provided to these events and programs would be more appropriately characterized as grants. Along with less paperwork, grants will allow community organizations to receive funds for programs upfront, as opposed to backend payments pursuant to contracts. Providing the Hawaii Tourism Authority with grant authority will allow both parties to better characterize the agreement and reduce the administrative burden to the community organizations providing these important programs.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 488 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 1 (Hee).

**SCRep. 140      (Joint) Health and Commerce and Consumer Protection on S.B. No. 1124**

The purpose and intent of this measure is to authorize the Department of Health to expend fees from the dietitian licensure special fund to offset expenses relating to the licensure of dietitians.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Dietetic Association, Family Voices, Hiliopaa Family to Family Information Center, and one individual.

Your Committees find that the Department of Health incurs significant expenses through its administration of the dietitian licensure program, which was implemented in August 2012 and issued twelve dietitian licenses as of November 30, 2012, with more applications being processed. Your Committees find it necessary to authorize the Department of Health to expend up to \$30,000 annually from the dietitian licensure special fund to offset expenses incurred through the administration of this program.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1124 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Commerce and Consumer Protection  
Ayes, 4. Noes, none. Excused, 3 (Nishihara, Solomon, Taniguchi).

**SCRep. 141      (Joint) Health and Commerce and Consumer Protection on S.B. No. 668**

The purpose and intent of this measure is to require coverage of and treatment for autism spectrum disorders.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Hawaii Medical Association, Special Education Advisory Council, Community Children's Council of Hawaii, Family Voices of Hawaii, Hawaii Disability Rights Center, Community Alliance for Mental Health, Hawaii Autism Foundation, and twenty-five individuals. Your Committees received comments on this measure from the Department of Health, Department of Commerce and Consumer Affairs, and Autism Behavior Consulting Group, Inc.

Your Committees find that autism spectrum disorders are affecting more children every year. Your Committees also find that many families in the State are unable to receive treatment and services for their children with autism spectrum disorders because their insurance policies do not provide coverage for these disorders. Your Committees further find that requiring coverage for autism spectrum disorders in every health insurance policy issued in the State will allow families with children with autism spectrum disorders to receive critical treatments and services.

Your Committees find that the Insurance Commissioner will be responsible for publishing the adjusted maximum benefit annually. Your Committees further find that because the maximum benefit will be established in the Hawaii Revised Statutes, any changes to the maximum benefit should be made by amending the appropriate statutes and should not be made by the Insurance Commissioner without public comment. Your Committees note that the addition of a new mandated coverage may trigger section 1311(d)(3) of the

federal Patient Protection and Affordable Care Act, which requires states to defray the additional cost of any benefits in excess of the essential health benefits of the State's qualified health plan.

Your Committees have amended this measure by:

- (1) Specifying that the accident and health or sickness insurance policies and hospital or medical service plans covered by this measure are individual and group policies and plans;
- (2) Inserting a maximum lifetime benefit of \$300,000 for an individual to receive behavioral health treatment;
- (3) Including social workers in the definition of "treatment for autism spectrum disorders" as professionals qualified to diagnose autism spectrum disorders;
- (4) Inserting an effective date of January 1, 2030, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 668, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 668, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Commerce and Consumer Protection

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 142 (Joint) Commerce and Consumer Protection and Tourism and Hawaiian Affairs on S.B. No. 500**

The purpose and intent of this measure is to:

- (1) Clarify that an association's duty to report to the Department of Taxation is limited to the relevant information an association actually receives from a transient accommodation operator; and
- (2) Limit the fines imposed on an association while also holding an owner or operator of a transient accommodation accountable for failure to report.

Your Committees received testimony in support of this measure from the Department of Taxation, Community Associations Institute Hawaii Chapter, and three individuals. Your Committees received comments on this measure from the Hawaii Association of Vacation Rental Managers.

Your Committees find that concerns have been raised about Act 326, Session Laws of Hawaii 2012 (Act 326), and whether it could be read to suggest that associations have an affirmative duty to investigate the actions of association members and determine whether those members were engaged in any taxable conduct. This measure amends Act 326 to clarify that associations do not have an affirmative duty to collect information on owners in an association who may be operating transient accommodations. This measure also amends the penalty provisions in Act 326 to a civil fine of up to \$2,500.

Your Committees note that a similar measure, S.B. No. 1186 (Regular Session of 2013), which was heard by your Committees, also amends Act 326 by replacing the criminal penalty provisions with civil fines. Testimony received by your Committees on S.B. No. 1186 indicated that amendments to Act 326 were necessary because existing criminal penalty language in the Act created an inconsistency with section 231-35, Hawaii Revised Statutes. Your Committees further find that the imposition of a \$1,000 civil penalty, as proposed by S.B. No. 1186, is more appropriate than criminal penalties and should be sufficient to bring operators of transient accommodations into compliance with the State's transient accommodations tax law.

Your Committees additionally find that it is appropriate to combine the language contained in this measure with the amendments to the penalty provisions of Act 326 as suggested by S.B. No. 1186, and note that this measure is preferable because of its broader title.

Accordingly, your Committees have amended this measure by:

- (1) Modifying penalties for wilfully failing to supply information required under section 237D- (b), (c), and (e), Hawaii Revised Statutes, established by section 2 of Act 326, from criminal penalties to civil penalties and specifying that the civil penalties shall be imposed no more than once per year;
- (2) Requiring nongovernmental entities to provide the Department of Taxation with the name, address, and contact information of local contacts designated by operators, in addition to the relevant information received by operators;
- (3) Specifying that a nongovernmental entity's duty to report shall be limited to relevant information and the name, address, and contact information of local contacts, if any, received from operators; and
- (4) Amending the purpose section of this measure for clarity.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 500, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 500, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

Tourism and Hawaiian Affairs  
Ayes, 6. Noes, none. Excused, 2 (Hee, Slom).

**SCRep. 143 Human Services on S.B. No. 58**

The purpose and intent of this measure is to establish and provide appropriations for a statewide language access resource center and multilingual website pilot project to be administered by the Office of Language Access.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Office of Language Access, Hawaii Public Housing Authority, Hawaii Civil Rights Commission, Catholic Charities Hawaii, Congress of Visayan Organizations, Hawaii Hispanic News, Latin Chamber of Commerce, Hawaii State Coalition Against Domestic Violence, Hawaii Interpreter Action Network, Maui Learning LLC, and twenty-two individuals.

Your Committee finds that despite the inception of Hawaii's language access law and the Office of Language Access, there are still major challenges in Hawaii regarding agency compliance, such as the lack of a comprehensive and centralized system or structure in Hawaii to identify qualified language interpreters and translators and the lack of multilingual websites that can help limited English proficient persons access needed information from state agencies in their own language. Ironically, Hawaii has a dearth of competent language interpreters and translators available to assist limited English proficient individuals. Your Committee further finds that a language access resource center will benefit agencies, interpreters, translators, and the limited English proficient population alike since it addresses the problem of supply and demand of interpreters and translators, increases and improves the number and quality of language service providers, and provides Hawaii's limited English proficient population a better means to access state and state-funded services.

Your Committee has amended this measure by:

- (1) Including updated statistics regarding limited English proficient persons;
- (2) Broadening the credentials and qualifications of language interpreters and translators that must be listed on a publicly available roster;
- (3) Inserting an appropriation amount of \$400,000 to establish a statewide language access resource center and \$190,000 to establish a multilingual website pilot project;
- (4) Inserting an end date of June 30, 2016, for the multilingual website pilot project;
- (5) Requiring the Office of Language Access to submit a report regarding the pilot project to the Legislature no later than twenty days prior to the convening of the Regular Session of 2017; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 58, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 58, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 144 Human Services on S.B. No. 148**

The purpose and intent of this measure is to amend the law relating to human services.

Your Committee has amended this measure by deleting its contents and replacing it with language to appropriate monies to establish and operate a comprehensive service center for the deaf, hard of hearing, and deaf-blind.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 148, as amended herein, and recommends that it be recommitted to the Committee on Human Services, in the form attached hereto as S.B. No. 148, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 145 Human Services on S.B. No. 1099**

The purpose and intent of this measure is to eliminate the asset limit for the Temporary Assistance for Needy Families program.

Your Committee received testimony in support of this measure from the Department of Human Services; Office of Community Services; Office of Hawaiian Affairs; University of Hawaii Bridge to Hope; Hawaii State Commission on the Status of Women; Hawaii Alliance for Community-Based Economic Development; Legal Aid Society of Hawaii; Hawaii Women's Coalition; Community Alliance for Mental Health; Goodwill Industries of Hawaii; American Civil Liberties Union of Hawaii; American Association of University Women, Windward Branch; and one individual.

Your Committee finds that asset limitations for public benefit programs have discouraged low-income families from accumulating assets that allow them to successfully transition from poverty to self-sufficiency. The Temporary Assistance for Needy Families program has a work requirement and promotes self-reliance, responsibility, and family stability. The federal government gives states the flexibility to raise or eliminate their asset tests for most applicants. Eliminating the asset limit would encourage families to build

assets and establish a safety net so they can continue to work toward self-sufficiency and prevent their reliance on public benefit assistance programs.

Your Committee further finds that there has been significant national discourse regarding asset limits for public benefit assistance recipients, and the Corporation for Enterprise Development has recommended eliminating the asset test. Alabama, Louisiana, Maryland, Ohio, and Virginia have completely eliminated asset tests for Temporary Assistance for Needy Families recipients. Research shows that most applicants to Temporary Assistance for Needy Families programs have very few assets, and in other states, eliminating asset tests greatly simplifies program administration without significantly increasing caseloads.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1099, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1099, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 146 Human Services on S.B. No. 1101**

The purpose and intent of this measure is to:

- (1) Establish the interim assistance reimbursement special fund into which interim assistance reimbursements received from the Social Security Administration are deposited for repayment of state-funded financial assistance provided under the general assistance, aged, blind, and disabled, or Temporary Assistance for Needy Families programs for recipients who are retroactively approved for supplemental security income; and
- (2) Authorize the Department of Human Services to expend the funds for state-funded financial assistance programs.

Your Committee received testimony in support of this measure from the Department of Human Services and Legal Aid Society of Hawaii.

Your Committee finds that state-funded financial assistance is paid to qualified general assistance, assistance to the aged, blind, and disabled, and Temporary Assistance for Needy Families program recipients while their applications for supplemental security income is pending a determination with the federal Social Security Administration. If the supplemental security income is retroactively approved, the Social Security Administration reimburses Hawaii for the state-funded assistance provided.

Your Committee further finds that the determination for supplemental security income may take several months or years if a supplemental security income appeal is filed. Consequently, the interim assistance reimbursements may not be received for the fiscal year in which the state-funded benefits were paid. The Department of Human Services is not allowed to retain interim assistance reimbursements received for a prior fiscal year and instead is required to deposit the interim assistance reimbursements into the state treasury. To stabilize payments to beneficiaries at a minimum benefit amount and to reduce the future need for emergency appropriations for the general assistance program, the Department of Human Services must be allowed to retain the interim assistance reimbursements from prior fiscal years in an interim assistance reimbursement special account to be used by the Department of Human Services for state-funded financial assistance programs.

Your Committee has amended this measure by:

- (1) Requiring, rather than allowing, the use of monies in the interim assistance reimbursement special fund for state-funded financial assistance payments and programs that support and assist recipients to qualify for supplemental security income; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1101, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 147 (Joint/Majority) Education and Human Services on S.B. No. 1093**

The purpose and intent of this measure is to establish a school readiness program as a major component of the early learning system established pursuant to section 302L-2, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Governor; Department of Education; Department of Human Services; Department of the Attorney General; Department of Health; University of Hawai'i System; Hawaii Teacher Standards Board; KCAA Preschools of Hawai'i; Imua Family Services; Child & Family Service; Hawaii Baptist Early Education Association; Good Beginnings Alliance; Community Children's Council of Hawaii; Hawai'i State Parent Teacher Student Association; Protecting Hawai'i's Ohana, Children, Under Served, Elderly and Disabled; Hawaii Business Roundtable, Inc.; Kamehameha Schools; Hawai'i Association for the Education of Young Children; Westside Service Provider Network; Special Education Advisory Council; Hui for Excellence in Education; Hawaii Association of Independent Schools; Chaminade University of Honolulu; and twenty-nine individuals. Your Committees received testimony in opposition to this measure from four individuals. Your Committees received comments on this measure from Kama'aina Kids.

Your Committees find that high quality early learning programs that are affordable and accessible for all children are critically important for ensuring the success of Hawaii's keiki. In addition, the significant, long-term benefits realized through investments in high-quality, early learning systems have been established through decades of research.

In 2012, the Legislature passed Act 178, Session Laws of Hawaii 2012, which, in part, established the Executive Office on Early Learning. This measure will reaffirm the Legislature's commitment to early learning by establishing a statewide school readiness program administered by the Executive Office on Early Learning and delivered through contracts with Department of Human Services-licensed child care providers and the Department of Education.

This measure will also provide services to a gap group of children who will no longer be eligible for kindergarten beginning in 2014 due to the change in the minimum kindergarten entry age. This measure will help ensure that this cohort of children will be ready for school by providing them with a developmentally appropriate experience to prepare them physically, cognitively, linguistically, socially, and emotionally prior to beginning the public education provided by the Department of Education.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1093, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1093, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 148 Education on S.B. No. 49**

The purpose and intent of this measure is to amend or repeal various sections of chapter 302A, Hawaii Revised Statutes (HRS), that:

- (1) Have already been accomplished and are no longer necessary to be codified in statute;
- (2) Impede rather than assist the Department of Education in meeting its core mission;
- (3) Fall under the purview of the Board of Education, such as policy and programmatic decisions;
- (4) Are already mandated by federal law and do not require codification in state statute; or
- (5) Are covered by another section of the HRS, Hawaii Administrative Rules, or Board of Education policy.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Teacher Standards Board, Hawai'i Educational Policy Center, and IMUAlliance. Your Committee received late testimony in opposition to this measure from the Hawaii Government Employees Association, HGEA AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Budget of Finance.

Your Committee finds that, the Legislature passed Act 133, Session Laws of Hawaii 2012 (Act 133), which sought to clarify or resolve conflicting or inconsistent language in different sections of law and to amend or repeal various sections of chapter 302A, HRS. This measure continues to amend or repeal various sections of chapter 302A, HRS, for housekeeping or other purposes.

Your Committee further finds that, similarly to Act 133, the statutory revisions proposed by this measure do not diminish the role of the Legislature in overseeing the Department of Education and holding it accountable for the educational success of students but rather seeks to place certain decision making authority within the most appropriate body.

In addition, your Committee notes that deleting outdated or duplicative sections of chapter 302A, HRS, does not in any way suggest that the Department of Education does not have proper legal authority to implement those programs or activities covered by those deleted sections. Rather, the Legislature is placing decision making authority over those certain programs and activities at the proper level, whether at the policy making level or the administrative level.

Your Committee also notes the concern of the Hawaii Government Employee Association that the amendment and repeal of certain sections in this measure might create some ambiguity as to the role of principals, however your Committee believes that this matter should be left for resolution in collective bargaining negotiations and may be more appropriately placed under the purview of the Board of Education.

Your Committee has amended this measure by:

- (1) Deleting the definition of "admit" or "admitted";
- (2) Amending the definition of "attend" or "attendance" to mean that a student is physically present in school after enrollment;
- (3) Deleting the definition of "certificate";
- (4) Amending the definition of "enroll" or "enrollment" to mean a student has met all of the Department of Education's requirements for entrance and is formally put on a school's roll;
- (5) Amending the definition of "license" to clarify that a license:

- (A) Indicates the subject area and grade level for which a teacher has met all licensure requirements and is qualified to teach, and authorizes the licensee to teach in the State; and
- (B) Does not apply to the term "license" as it is used in sections 302A-425, 302A-426, and 302A-427, HRS;
- (6) Making conforming amendments to sections 302A-1145, 302A-1154, 302A-1155, 302A-1159, and 302A-1161, HRS, to account for the deletion of the definition of "admit" or "admitted" and the revisions to the definitions of "attend" or "attendance" and "enroll" or "enrollment";
- (7) Repealing sections 302A-601.5, 302A-602, 302A-602.5, and 302A-603, HRS, relating to certificates and licensing;
- (8) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (9) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 49, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 49, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 149 Human Services on S.B. No. 1237**

The purpose and intent of this measure is to:

- (1) Extend the sunset date of Act 156, Session Laws of Hawaii 2012, relating to the nursing facility sustainability fee program, to June 30, 2014, and make conforming amendments; and
- (2) Increase the cap for the nursing facility sustainability fee to twelve percent of net patient service revenue.

Your Committee received testimony in opposition to this measure from the Department of Human Services. Your Committee received comments on this measure from the Hawaii Long Term Care Association.

Your Committee finds that Act 156, Session Laws of Hawaii 2012 (Act 156), established the nursing facility sustainability program. This program leverages available federal funding for the Department of Human Services to make supplemental payments to nursing facilities to help offset their uncompensated care costs and thereby increases the sustainability of Hawaii's long-term care facilities.

Your Committee further finds that S.B. No. 1111, Regular Session of 2013, is the product of collaboration among the Department of Human Services, Healthcare Association of Hawaii, and Hawaii Long Term Care Association that, among other things, extends the nursing facility sustainability fee program to June 30, 2014, maintains the four percent cap on the nursing facility sustainability fee, updates certain dates referenced in Act 156, and appropriates funds out of the nursing facility sustainability program special fund.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language from S.B. No. 1111; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1237, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 150 (Majority) Tourism and Hawaiian Affairs on S.B. No. 1194**

The purpose and intent of this measure is to:

- (1) Eliminate the sunset of the transient accommodations tax rate of 9.25 percent;
- (2) Decrease the allocation of transient accommodations tax revenues to the convention center enterprise special fund, tourism special fund, and counties and make the allocations permanent; and
- (3) Eliminate the daily \$10 transient accommodations tax for complimentary accommodations.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of Budget and Finance, and Hawaii Tourism Authority. Your Committee received testimony in opposition to this measure from the Maui County Council, County of Hawaii Office of the Mayor, Hawaii Council of Mayors, Maui Chamber of Commerce, Outrigger Enterprises Group, Hawaii Lodging and Tourism Association, The Chamber of Commerce of Hawaii, and VIP Foodservice. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that allowing the transient accommodations tax rate to return to 7.25 percent would take needed funds from the general fund. According to the Department of Budget and Finance, retaining a 9.25 percent tax rate is a key component to ensuring that the State's general fund financial plan remains balanced beyond the fiscal biennium 2013-2015. Your Committee further finds that despite recent growth in the tourist industry, Hawaii must continue to develop tourist programs and incentives so that Hawaii remains competitive in the global tourism market.

Accordingly, your Committee has amended this measure by:

- (1) Decreasing the percentage of transient accommodations tax revenues allocated to the tourism special fund but repealing the temporary \$71,000,000-per-fiscal-year limit on transient accommodations tax revenues that may be deposited into the tourism special fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1194, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kidani). Noes, 1 (Slom). Excused, 1 (Hee).

**SCRep. 151 (Majority) Tourism and Hawaiian Affairs on S.B. No. 1202**

The purpose and intent of this measure is to:

- (1) Eliminate the sunset of the transient accommodations tax rate of 9.25 percent and raise the rate to 11.25 percent beginning July 1, 2013;
- (2) Decrease the allocations of the transient accommodations tax to the convention center enterprise special fund, tourism special fund, and the counties and makes these allocations permanent; and
- (3) Repeal provisions imposing a daily tax of \$10 on complimentary rooms.

Your Committee received testimony in support of this measure from the Department of Taxation and Department of Budget and Finance. Your Committee received testimony in opposition to this measure from the Hawaii Tourism Authority, County of Hawaii Office of the Mayor, County Council of Maui, Outrigger Enterprises Group, Hawaii Lodging and Tourism Association, Starwood Hotel and Resorts, Maui Chamber of Commerce, The Chamber of Commerce of Hawaii, and VIP Foodservice. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that allowing the transient accommodations tax rate to fall to 7.25 percent will deprive the State of needed funds. Hawaii already has a hotel tax rate lower than that of many other high volume visitor destinations in the United States. Your Committee further finds that an 11.25 percent tax rate will provide needed stability in the State's budget moving forward and will potentially assist in establishing necessary state fiscal reserves. The Department of Budget and Finance views this measure as a vehicle to begin discussions about long term funding mechanisms that will increase state revenues.

Your Committee has also heard the concerns raised by those opposed to this measure. Many testifiers, including the Hawaii Tourism Authority, believe the proposed tax increase will diminish Hawaii's ability to compete in the global tourism market and will further injure Hawaii's economy. Some counties also expressed concerns that the measure does not allocate enough funds to the counties, which bear the brunt of the costs related to the tourism industry. After discussion, your Committee concludes that the long terms effects of this measure on the State's economy and budget are more appropriately addressed by the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1202 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Keith-Agaran, Kidani). Noes, 1 (Slom). Excused, 1 (Hee).

**SCRep. 152 (Joint) Water and Land and Energy and the Environment on S.B. No. 319**

The purpose and intent of this measure is to allow the use of thrill craft to conduct ocean cleanup, as authorized by rules of the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Marine and Coastal Zone Advocacy Council (Ke Kahu O Na Kumu Wai), and one individual.

Your Committees find that with the advance of technology, thrill crafts, also known as personal watercrafts, have become a valuable tool when dealing with issues in the near shore waters of the State. These watercrafts are used by lifeguards, search and rescue units, and state agencies to operate in very shallow water without little threat to natural resources.

Your Committees recognize that thrill craft can be a very effective tool to clean up debris in near shore waters, such as pervasive plastic bags, and particularly with the anticipated onslaught of various sized debris from the 2012 Japan tsunami. However, your Committees are concerned that the use of thrill craft may inordinately interfere with the activities of fisherman who earn their living fishing in the same waters in which thrill craft operate. For this reason, your Committees note that their intent in recommending passage of this measure is that the Department of Land and Natural Resources incorporate into its rules an accommodation for fishermen and seek their input accordingly in the rule-making process.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 319 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 7. Noes, none. Excused, none.

Energy and Environment  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 153 (Joint) Water and Land and Energy and the Environment on S.B. No. 454**

The purpose and intent of this measure is to encourage the widespread reuse of gray water, for water conservation purposes, in accordance with the conditions applied by the Department of Health for the use of gray water for irrigation purposes.

Your Committees received testimony in support of this measure from the Department of Health, Department of Land and Natural Resources, Kula Community Association, and five individuals. Your Committees received comments on this measure from Earth Justice, Plumbing & Mechanical Contractors Association of Hawaii, and one individual.

Your Committees find that the use of gray water for landscape irrigation purposes should be increased in the interests of fresh or potable water conservation.

Your Committees have amended this measure by:

- (1) Deleting references to residential units;
- (2) Deleting the restrictions on the use of gray water;
- (3) Requiring all use of gray water to conform to the latest edition of the Uniform Plumbing Code;
- (4) Redefining "gray water" and placing the definition in the definitions section of the chapter rather than in section 342D-70, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the amended measure defines gray water in a manner that protects the public health and safety.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 454, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 454, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land

Energy and Environment  
Ayes, 4. Noes, none. Excused, 1 (Chun Oakland).

**SCRep. 154 Water and Land on S.B. No. 1162**

The purpose and intent of this measure is to make permanent Act 160, Session Laws of Hawaii 2010 (Act 160), which would otherwise sunset on June 30, 2013.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, Hawaii Association of REALTORS, and two individuals.

Act 160 requires landowners in shoreline areas to ensure that public transit beach corridors are passable and free from human-induced, enhanced, or unmaintained vegetation that blocks transit. Landowners that induce or allow their vegetation to grow below the shoreline are asked to remove or trim the vegetation. When landowners fail to comply, Act 160 allows the Department of Land and Natural Resources to issue a notice of violation to the landowner, assess penalties, and charge landowners for the cost of removal if the landowner fails to remove an obstruction.

Your Committee finds that coastal vegetation is an integral part of the native ecosystem and can provide an important ecological and environmental function, including coastal flood mitigation. However, when certain species of coastal vegetation are allowed to grow unfettered in an urban beach environment, they may create community-wide problems. Coastal vegetation that extends seaward of its natural range can impede public access by creating a barrier at the fragile intersection of submerged and fast lands. Moving vegetative barriers inland allows homeowners to maintain the privacy barriers they have grown accustomed to, while fostering healthy shoreline access and beach use on a heavily used urban beach.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1162 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Ihara, Thielen).

**SCRep. 155 Water and Land on S.B. No. 803**

The purpose and intent of this measure is to establish a one-year irrigation water conservation best management practices pilot program, under which the Department of Accounting and General Services, Department of Transportation, and Department of Land and Natural Resources shall implement irrigation water conservation best management practices, as established by the Landscape Industry Council of Hawaii, to improve the efficiency of all existing and new landscape irrigation installations through low cost, practical measures.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Department of Accounting and General Services, Board of Water Supply of the City and County of Honolulu,

Landscape Industry Association, Irrigation Hawaii Limited, Aloha Arborist Association, Landscape Industry Council of Hawaii, and one individual.

The landscape irrigation conservation best management practices established by the Landscape Industry Council of Hawaii were developed in close consultation with landscape professionals across the State and are recognized nationally as industry standards.

According to testimony, it is estimated that an average family household uses fifty percent of its total water consumption for outdoor purposes. Of that fifty percent, the Environmental Protection Agency estimates an average of fifty percent of outdoor water use is for irrigation.

Your Committee finds that through the proper installation, maintenance, and operation of irrigation systems using best management practices, precious groundwater supplies, including forested watersheds, can be preserved for future generations.

Your Committee has amended this measure by:

- (1) Extending the pilot program from one to two years;
- (2) Changing the reporting deadline to the Legislature from twenty days prior to the convening of the 2015 Regular Session to twenty days prior to the convening of the 2016 Regular Session to address the testimony of the Department of Accounting and General Services that the earlier due date would necessitate more funding; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 803, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 803, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Ihara, Thielen).

**SCRep. 156 Water and Land on S.B. No. 1164**

The purpose and intent of this measure is to provide the Board of Land and Natural Resources the discretion to grant easements for less than fair market value in regard to encroaching structures of an oceanfront property that were authorized and constructed landward of the shoreline but are now located seaward of the shoreline, due to the dynamic nature of the location of the shoreline.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, and one individual. Testimony in opposition to this measure was received from three individuals.

In *County of Hawaii v. Sotomura*, 55 Haw. 176, 517 P.2d 57 (1973), the Hawaii Supreme Court held that "land below the high water mark, like flowing water, is a natural resource owned by the state subject to, but in some sense in trust for, the enjoyment of certain public rights." As a result of this ruling, any structures located seaward of the shoreline location as determined by the Department of Land and Natural Resources would be considered encroachments upon public land and require an easement to be obtained from the Department.

Easements granted by the Board of Land and Natural Resources under the circumstances described above require the easement holder to compensate the Department at fair market value of the easement. This measure would allow the compensation to be at less than fair market value, which is only fair to the easement holder since the easement is non-exclusive and can vary with changes in the shoreline.

Your Committee has amended this measure by:

- (1) Rewording the special shoreline encroachment easements provision, on the recommendation of the Department of Land and Natural Resources; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1164, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1164, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Ihara, Thielen).

**SCRep. 157 Commerce and Consumer Protection on S.B. No. 505**

The purpose and intent of this measure is to specify that a percentage of fees paid into the condominium education trust fund shall be used to support mediation of condominium related disputes.

Your Committee received testimony in support of this measure from the Community Associations Institute Hawaii Chapter, Mediation Center of the Pacific, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Real Estate Commission. Your Committee received comments on this measure from the Hawaii State Judiciary and one individual.

Your Committee finds that mediation can be a consumer friendly way of resolving condominium related disputes. However, the lack of subsidized mediation programs may discourage individuals from seeking access to mediation services. Your Committee further finds that condominium associations and developers in the State pay into the condominium education trust fund through periodic registration fees. Dedicating a portion of the fees paid into the condominium education trust fund to support mediation of

condominium related disputes will directly benefit the entire condominium community. This will also ensure that condominium owners have access to the services of high quality mediators, including retired judges, who have extensive subject matter expertise.

Your Committee also finds that providing a robust mediation opportunity for condominium owners throughout the State should be encouraged, as it is a useful way of resolving condominium related disputes before adversarial legal action is considered.

Your Committee has amended this measure by:

- (1) Adding support for mediation of condominium related disputes as one of the educational purposes that shall be supported by the condominium education trust fund;
- (2) Beginning with the July 1, 2015, biennium registration, imposing an additional annual condominium education trust fund fee dedicated to supporting mediation of condominium related disputes and specifying the total fee payable into the condominium education trust fund;
- (3) Requiring the Real Estate Commission to make adjustments to the condominium education trust fund to ensure adequate funds are available for mediation of condominium related disputes and any mediation requests are fully accommodated prior to the commencement of the additional annual condominium education trust fund fee;
- (4) Specifying that the Department of Commerce and Consumer Affairs Professional and Vocational Licensing Division's budget ceiling shall be amended to reflect the additional annual condominium education trust fund fee;
- (5) Specifying that as of June 30 of every odd-numbered year, any unexpended amounts of the additional fees paid into the condominium education trust fund and dedicated to supporting mediation of condominium related disputes shall be used to support other educational purposes;
- (6) Updating section 1 of this measure to reflect its amended purpose;
- (7) Inserting an effective date of July 1, 2013; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 505, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 505, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Taniguchi, Slom).

**SCRep. 158 Commerce and Consumer Protection on S.B. No. 1071**

The purpose and intent of this measure is to:

- (1) Modernize the State's financial institutions law, codified as chapter 412, Hawaii Revised Statutes; and
- (2) Adjust fees for financial institutions to reflect the additional regulation and monitoring required of the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs, Hawaii Financial Services Associations, and Hawaii Bankers Association.

Your Committee finds that the last comprehensive review of the State's financial institutions law was in 1993. This measure modernizes the financial institution law to reflect changes in federal laws over the last twenty years, including changes required by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. This measure also strengthens and clarifies the Commissioner of Financial Institution's powers to administer and enforce chapter 412, Hawaii Revised Statutes.

Your Committee further finds that as a result of federal laws enacted and amended over recent years, the Division of Financial Institutions is now required to exercise heightened supervision, regulation, and examination over state chartered financial institutions. This measure therefore adjusts fees to reflect the additional regulatory requirements and monitoring required for specific licensees.

Your Committee notes that the Commissioner of Financial Institutions met with the representatives of the financial institutions industry in the summer of 2012 for the purpose of reviewing and modernizing the State's banking laws to reflect changes in federal law. This measure is the result of those meetings.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1071, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1071, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 159 (Joint) Water and Land and Economic Development, Government Operations and Housing on S.B. No. 1026**

The purpose and intent of this measure is to:

- (1) Issue and serve an order to a party to show cause why a property should not revert to its former land use classification or be changed to a more appropriate classification; or

- (2) Modify the conditions or impose new conditions on the party to ensure compliance with a decision and order of the Commission,

if the party has not substantially commenced use of the land in accordance with representations made to the Commission or has not substantially complied with conditions imposed.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; and Land Use Commission. Your Committees received testimony in opposition to this measure from Hawaii's Thousand Friends, Sierra Club Hawaii Chapter, and one individual.

Recent cases have shown that violations often occur or are brought to the attention of the Commission many years after an original order is granted by the Commission. In certain circumstances, reversion of the land back to its original classification may make no sense given what has occurred in surrounding areas or may be unfair to a petitioner who has already invested considerable capital in a project. Your Committees find that this measure provides the Commission with more efficient and varied methods of dealing with situations where landowners violate the conditions contained in a decision and order.

As affirmed by the records of votes of the members of your Committees on Water and Land and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1026 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

**SCRep. 160 (Joint/Majority) Water and Land and Economic Development, Government Operations and Housing on S.B. No. 1275**

The purpose and intent of this measure is to grant the Kaho'olawe Island Reserve Commission (Commission) a permanent procurement exemption for the procurement of food or fuel products necessary for the Commission to carry out the purposes of chapter 6K, Hawaii Revised Statutes, relating to the Kaho'olawe Island Reserve law.

Your Committees received testimony in support of this measure from the Kaho'olawe Island Reserve Commission.

Your Committees find that strict adherence to procurement code requirements is frequently not practicable for the Commission or advantageous to the State.

Act 159, Session Laws of Hawaii 2010, provided a temporary procurement exemption to the Commission. The exemption sunsets on July 1, 2013. Your Committees find that the uniqueness of the Commission's work necessitates a procurement exemption. For example, personnel and cargo are typically transported between Maui and Kaho'olawe by boat, and helicopter transportation is used only sparingly due to its high cost. Both methods of transportation involve several variables, including the weather, mechanical functions, and personnel availability. Additionally, both methods of transportation have size and weight limitations for their cargo. The Commission's requirements for fuel products are also unique in the State, as the Commission takes delivery and transports its own fuel supplies in multiple forms, such as bulk and barrel, which are not currently provided by the state contracted fuel provider. Furthermore, food vendor prices change weekly, if not more frequently, and the Commission's food orders change weekly in terms of products and quantities ordered.

Purchasing flexibility under the current temporary exemption has allowed the Commission to make the most cost effective and healthiest selections of local produce when available. Testimony of the Commission indicates that it has been able to reduce waste by purchasing smaller quantities on sale or at reduced prices, whereas purchasing from the state price list would entail larger bulk orders tailored for much larger institutions and operations.

As affirmed by the records of votes of the members of your Committees on Water and Land and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1275 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 5; Ayes with Reservations (Chun Oakland). Noes, 1 (Slom). Excused, 1 (Thielen).

**SCRep. 161 (Joint) Water and Land and Economic Development, Government Operations and Housing on S.B. No. 1027**

The purpose and intent of this measure is to:

- (1) Specify that a development by a state agency on state land within the special management area need not obtain a permit or shoreline setback variance, if the development meets certain requirements; and
- (2) Allow state agencies with developments on state land to either self certify compliance with the coastal zone management law, obtain a federal consistency concurrence pursuant to federal regulations, or continue to go through the special management area permitting and shoreline setback variance processes if they prefer.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Planning; Department of Business, Economic Development, and Tourism; The Chamber of Commerce of Hawaii; BIA-Hawaii; Marine and Coastal Zone Advocacy Council (Ke Kahu O Na Kumu Wai), and Indigenous Consultants, LLC. Your Committees received testimony in opposition to this measure from four individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that state consistency review and certification will help the State expeditiously deliver capital improvement projects and repair and maintenance projects without sacrificing coastal resources.

This measure provides a streamlined review process for development by a state agency on state land within the special management area, in place of a county approved special management area permit and shoreline setback variance. The special management area permitting system, managed by the counties and overseen by the Office of Planning, is part of the federally approved Hawaii coastal zone management program. The special management area permitting process involves public hearings by the county planning commissions or the Honolulu City Council and may involve contested case hearings.

As affirmed by the records of votes of the members of your Committees on Water and Land and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1027 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Thielen).

Economic Development, Government Operations and Housing

Ayes, 6. Noes, none. Excused, 1 (Thielen).

**SCRep. 162 (Joint) Water and Land and Agriculture on S.B. No. 5**

The purpose and intent of this measure is to provide fair compensation to lessees when a withdrawal or taking of leased land renders the land unusable for the lessees' original intended purposes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Ulupono Initiative, Local Foods Coalition, and Hawaii Farm Bureau Federation.

Your Committees find that the Department of Land and Natural Resources established conservation easements on approximately six thousand acres of lands, originally leased for pasture or special livestock use, in order to widen Saddle Road in the County of Hawaii. As a result, the lessee ranchers were prevented from grazing cattle and effectively deprived of their use of the land.

Although the Department reduced the lease rent in proportion to the taking of the land, the lessees received no other compensation. Existing law provides no other method of compensation. However, the lessees are still required by their leases to maintain insurance on the land and pay taxes for the land they cannot use for the specific purpose for which it was originally leased. As a result, several lessees reduced their herd and have been unable to mitigate the long-term, fixed costs associated with operating a ranch in the way they anticipated when the lease was negotiated. Thus, the lessees have experienced financial hardship for an extended period of time that is not sufficiently mitigated by a reduction in their lease rent.

S.B. No. 2951, S.D. 2, H.D. 2, C.D. 1, Regular Session of 2010, attempted to address this issue by providing fair compensation when leased public land for agricultural or pastoral uses is withdrawn, condemned, or taken for public purposes. Although this measure passed the Legislature, it was vetoed by the Governor on the grounds that the bill "disproportionately and inappropriately compensates these lessees of public lands above other lessees of State lands."

Your Committees believe that rent reduction is insufficient, especially if the lessor fails to recognize that the law is designed to take into account a lessee's original intended purpose for leasing the land. This measure is necessary to provide more equitable relief to lessees of public lands in partial takings or condemnations where the lessee is prevented from using the lands as originally intended.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 5 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

Agriculture

Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 163 (Joint) Water and Land and Agriculture on S.B. No. 1339**

The purpose and intent of this measure is to establish a definition of rural that would protect existing programs in remote areas of the State, such as the critical access hospital designation for Kahuku Medical Center, and expand opportunities for other communities that are designated as rural within the State but do not otherwise meet federal definitions to qualify as such.

Your Committees received testimony in support of this measure from Kahuku Medical Center and two individuals.

Your Committees find that the 2010 Census determined that Oahu no longer contains any areas that federally qualify as rural. This endangers Kahuku Medical Center's designation as a critical access hospital and disqualifies all communities on Oahu from participating in federal rural programs. Since 2010, rural communities in Hawaii have qualified for \$1,890,000 in federal grants from

the Health Resources and Services Administration's Office of Rural Health Policy alone, with about half going to Oahu. With the release of the latest census figures, communities on Oahu no longer qualify for these and other federal programs.

While the federal definitions of rural will keep some communities from participating in federal programs, there are several federal programs that recognize state definitions of rural. This measure establishes a state definition of rural that would protect existing programs in remote areas of the State.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1339 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

Agriculture

Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 164 (Majority) Commerce and Consumer Protection on S.B. No. 22**

The purpose and intent of this measure is to clarify that the sale, transfer, or exchange of stock in an entity whose assets include real property located in Hawaii is a conveyance of realty subject to the conveyance tax when the sale, transfer, or exchange of stock is executed with an unrelated entity or individual.

Your Committee received testimony in support of this measure from the Nature Conservancy of Hawai'i, Catholic Charities Hawai'i, Housing Hawaii, The Trust for Public Land, and Hawai'i Appleseed Center for Law and Economic Justice. Your Committee received testimony in opposition to this measure from Hawaiian Electric Industries, Inc.; The Chamber of Commerce of Hawaii; Land Use Research Foundation of Hawaii; NAIOP Hawaii; and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Department of Taxation; Alexander and Baldwin, Inc.; and Tax Foundation of Hawaii.

Your Committee finds that it is reasonable for transfers of realty via the sale, transfer, or exchange of stock to be subject to the State's conveyance tax, just as direct transfers of real estate via purchase and sale agreements are subject to the conveyance tax. The amendments proposed by this measure would close a loophole in the conveyance tax law and provide additional funds for critical areas that receive appropriations from conveyance tax proceeds, including affordable housing development, land preservation, and watershed conservation.

Your Committee has heard the concerns about this measure related to its potential effects on affordable housing development and its retroactive applicability and concludes that amendments are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that it is the value of the realty that is transferred in a sale, transfer, or exchange of stock that will be assessed a conveyance tax;
- (2) Specifying that the conveyance tax shall be based upon the lesser of the most recent county real property tax assessed value of the realty or, if available, a current qualified appraisal by a licensed real estate appraiser in the State;
- (3) Providing for exceptions for sales or transfers between subsidiaries of the same parent entity and between partners engaged in qualified affordable rental housing development;
- (4) Requiring a certificate of conveyance to be filed for stock transfers that affect realty;
- (5) Removing the retroactive provision in the effective date and inserting an effective date of July 1, 2013;
- (6) Amending the purpose section for clarity; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 22, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 22, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Solomon, Slom). Excused, none.

**SCRep. 165 Commerce and Consumer Protection on S.B. No. 508**

The purpose and intent of this measure is to allow a condominium or homeowner association, as a junior lienholder, to commence or continue a nonjudicial foreclosure action on a property subject to a judicial foreclosure until a foreclosure commissioner is appointed by the Circuit Court.

Your Committee received testimony in support of this measure from the Community Associations Institute, Hawaii Council of Associations of Apartment Owners, and one individual. Your Committee received comments on this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that under Hawaii's current foreclosure law, an association cannot foreclose nonjudicially if a lender is foreclosing. Even if an association has already begun a nonjudicial foreclosure before the lender begins the foreclosure, that association's nonjudicial foreclosure must be put on hold or converted to a judicial foreclosure. The judicial foreclosure process can experience significant delays, during which time a property can fall into a state of disrepair, which negatively affects neighboring

properties and the community as a whole. This measure provides associations and their surrounding communities with a mechanism to mitigate the damage, neglect, and loss of revenue or value that results from the extended time that is currently required for a mortgagee to judicially foreclose on a property.

Your Committee further finds that this measure may have the unintended consequence of accelerating foreclosures by mortgagees. The removal of an owner-occupant may make the nonjudicial foreclosure process under part II of chapter 667, Hawaii Revised Statutes, more attractive to mortgagees who are currently foreclosing by action via part IA of chapter 667, Hawaii Revised Statutes. Because there would be no owner-occupant resident at the time the foreclosing mortgagee initiated a foreclosure pursuant to section 667-22, Hawaii Revised Statutes, the foreclosure would not be subject to the dispute resolution provisions in part V of chapter 667, Hawaii Revised Statutes. Your Committee concludes that amendments to address this unintended consequence are necessary.

Your Committee additionally finds that this measure seeks to prevent anyone conducting a nonjudicial foreclosure from continuing once a foreclosure commissioner is appointed. However, your Committee notes that proposed amendments are unnecessary. Because a judicial foreclosure is a judicial proceeding, there will be a judge available at all times to prevent a nonjudicial foreclosure from interfering in the judicial foreclosure proceeding. Your Committee concludes that amendments to address this language are also necessary.

Accordingly, your Committee has amended this measure by:

- (1) Removing unnecessary existing language and proposed amendments about staying the foreclosure process during the pendency of a circuit court foreclosure action;
- (2) Clarifying that if an association forecloses on residential real property that is occupied by owner-occupants mortgagors and the mortgagee subsequently forecloses its lien on the same property, then the owner-occupants shall retain their right to require the foreclosing mortgagee to participate in the dispute resolution process under part V, chapter 667, Hawaii Revised Statutes;
- (3) Amending the purpose section for clarity; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 508, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 508, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 166 Commerce and Consumer Protection on S.B. No. 631**

The purpose and intent of this measure is to provide immunity from civil liability for trained installers and inspectors of automotive child passenger restraint devices.

Your Committee received testimony in support of this measure from State Farm Mutual Automobile Insurance Company; Hawaii Chapter, American Physical Therapy Association; and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that child passenger safety technicians provide education to parents and caregivers regarding the proper installation of child restraints. The valuable information and instruction provided by these technicians can help decrease the number of injuries sustained by children in motor vehicle accidents. This measure encourages certified child passenger safety technicians to assist others in the proper use and installation of child passenger restraint systems.

Your Committee has amended this measure by:

- (1) Clarifying that the immunity provided for in this measure shall not apply to gross negligence or intentional, willful, or wanton conduct; and
- (2) Inserting an effective date of July 1, 2030, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 631, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 631, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 167 Agriculture on S.B. No. 974**

The purpose and intent of this measure is to authorize the State to issue special purpose revenue bonds to benefit agricultural enterprises, effective upon the ratification of a constitutional amendment authorizing the State to issue special purpose revenue bonds for agricultural enterprises.

Your Committee received testimony in support of this measure from Hawaii Cattlemen's Council; Hui O Malama Aina; Alexander and Baldwin, Inc.; and Ulupono Initiative. Your Committee received comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that major infrastructure requirements such as irrigation systems, roads and utilities, and agricultural processing facilities play a critical role in the survival of many agricultural businesses. This measure will provide important financial support for Hawaii's agricultural operations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 974, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 974, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 168      Agriculture on S.B. No. 595**

The purpose and intent of this measure is to exempt amounts received from the loading, transportation, and unloading of milk, poultry, eggs, poultry carcasses, or poultry meat to be consumed in the State, whether processed in the State or imported, and aquaculture or aquaponic products to be consumed in the State, whether processed in the State or imported, from the general excise tax.

Your Committee received testimony in support of this measure from 4 Ag Hawaii, Local Food Coalition, Hawaii Aquaculture and Aquaponics Association, Hawaii Cattlemen's Council, Hawaii Food Industry Association, Ulupono Initiative, and one individual. Your Committee received testimony in opposition to this measure from Animal Rights Hawaii. Your Committee received comments on this measure from the Department of Agriculture, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that although amounts received from the loading, transportation, and unloading of certain agricultural commodities shipped between islands are already exempt from the general excise tax, milk, poultry, eggs, poultry carcasses, poultry meat, and aquaculture and aquaponic products do not share a similar exemption, although they are equally important to the State's agricultural economy. In 2009, the State received only \$6,100 in general excise tax revenues for the items affected by this measure. Expanding the current general excise tax exemption to additional agricultural commodities will help alleviate financial strains on livestock producers and improve the State's agricultural self-sufficiency and food security without a significant negative impact on the State's tax revenue.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 595 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6; Ayes with Reservations (English, Thielen, Slom). Noes, none. Excused, 1 (Wakai).

**SCRep. 169      Agriculture on S.B. No. 585**

The purpose and intent of this measure is to amend the important agricultural land qualified agricultural cost tax credit by:

- (1) Clarifying the amount of the credit;
- (2) Repealing the requirement that qualified agricultural costs be reduced by the amount of funds received from the irrigation repair and maintenance special fund; and
- (3) Repealing the filing deadline to claim credits.

Your Committee received testimony in support of this measure from Hui O Malama Aina, Maui County Farm Bureau, and Alexander and Baldwin, Inc. Your Committee received testimony in opposition to this measure from Animal Rights Hawaii. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that incentives to landowners and farmers to conduct agricultural activities on important agricultural lands are not only mandated by law but vital to the agricultural and economic future of the State. This measure clarifies and strengthens provisions in the important agricultural land qualified agricultural cost tax credit law and serves as a stimulus to encourage owners and farmers to expand their operations and enhance their operating efficiencies.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 585 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 170      Agriculture on S.B. No. 757**

The purpose and intent of this measure is to:

- (1) Appropriate funds to continue the livestock revitalization program;
- (2) Adjust the amount of subsidy received under the program to the lesser of \$200,000 per year or fifteen percent of food costs incurred per year for production of poultry products, milk, or pigs and beef cattle raised and slaughtered in Hawaii for local consumption; and
- (3) Require funds for the program to be expended from the agricultural development and food security special fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Hawaii Farm Bureau Federation; and Kauai Cattlemen's Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that local farmers and livestock producers are struggling with growing feed costs due in large part to drought conditions in the State and on the Mainland. Your Committee further finds that increased feed costs are threatening the closure of the few livestock producers left in Hawaii and that sustaining livestock production is vital to the State's food security and self-sufficiency.

Your Committee concluded that a subsidy should be granted to similarly situated producers of protein products and has amended this measure by:

- (1) Extending the livestock subsidy to include feed costs incurred by qualified producers of goat milk with a herd not less than twenty-five lactating milking goats per fiscal quarter;
- (2) Extending the livestock subsidy to include feed costs incurred by qualified producers of sheep or lamb that are grown, slaughtered, processed, and marketed in the State with annual sales of not fewer than thirty sheep or lambs; provided that the herd shall not fall below thirty sheep per fiscal quarter;
- (3) Extending the livestock subsidy to include feed costs incurred by qualified producers of fish or crustaceans, farmed by aquacultural practices, with current annual sales of not less than two thousand pounds; provided that sales shall not fall below five hundred pounds per fiscal quarter;
- (4) Prohibiting reimbursement of feed costs to qualified producers when the amount of reimbursement will result in an annual profit of more than eight percent for sheep, lamb meat, or seafood producers; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 757, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Wakai). Noes, none. Excused, 1 (Slom).

**SCRep. 171 Public Safety, Intergovernmental and Military Affairs on S.B. No. 78**

The purpose and intent of this measure is to create the offense of resisting arrest in the first degree as a class C felony if a person intentionally prevents a law enforcement officer acting under color of the law enforcement officer's official authority from effecting an arrest by removing or attempting to remove a firearm from the person of a law enforcement officer.

Your Committee received testimony in support of this measure from the Criminal Investigation Unit of the Honolulu Police Department, City and County of Honolulu; County of Hawaii Police Department; and Hawaii Rifle Association.

Your Committee finds that this measure addresses situations in which law enforcement officers engage in a physical struggle with an individual and the individual attempts to remove the officer's firearm. Anyone who would knowingly attempt to disarm a law enforcement officer who is acting under the color of official authority has displayed malicious conduct and poses an immediate threat not only to the officer, but also to other persons in the area. This measure discourages individuals from resisting the actions of law enforcement officers while the officers are making an arrest.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 78 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 172 Public Safety, Intergovernmental and Military Affairs on S.B. No. 835**

The purpose and intent of this measure is to authorize the Judicial Council to nominate persons for appointment to a county ethics commission; provided that the county's charter or ordinance requires members of the commission to be appointed from nominations made by the Judicial Council.

Your Committee received testimony in support of this measure from the League of Women Voters, Common Cause Hawaii, and one individual.

Your Committee finds that each member of the Hawaii State Ethics Commission is appointed by the Governor from a panel of ten persons nominated by the Judicial Council. The Hawaii Supreme Court appoints members of the Judicial Council, which does not presently include legislators. In contrast, members of each of the county ethics commissions are appointed by the Mayor of the county and confirmed by the county or city council, both of which are subject to oversight by the particular county ethics commission.

Article XIV of the Hawaii State Constitution provides in pertinent part: "Each code of ethics shall be administered by a separate ethics commission . . . The members of ethics commissions shall be prohibited from taking an active part in political management or in political campaigns. Ethics commissioners shall be selected in a manner which assures their independence and impartiality."

This measure affords the counties the same opportunity the State has been given, to assure the independence and impartiality of their respective ethics commissions, by authorizing the State's Judicial Council to nominate persons for appointment to a county ethics commission.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 835 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 173 (Joint) Public Safety, Intergovernmental and Military Affairs and Economic Development, Government Operations and Housing on S.B. No. 930**

The purpose and intent of this measure is to appropriate funds to support the investigative stage of the Pacific International Space Center for Exploration Systems (PISCES) Sustainable Concrete Initiative, contingent upon a dollar-for-dollar match from other sources.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii County Council; PISCES Board of Directors; International Ventures, Associates; Near Earth; Hawaii Aerospace Advisory Committee; Near Earth; Shackleton Energy Company; and six individuals.

Your Committees find that PISCES is an economic driver for the Island of Hawaii that promotes the establishment and growth of new sustainable and green industries along with associated jobs, workforce development, internships, and science, technology, engineering, and math (STEM) education programs.

In addition to enabling three dimensional concrete printing technology, the work being done on developing various basaltic concrete binding methods holds amazing potential for creating advanced manufacturing jobs and inexpensive building options in Hawaii. The proposed PISCES Sustainable Concrete Initiative is an important step toward realizing this potential, providing an investment in the future of Hawaii and its economy by offering a self-sufficient and in-situ source of concrete for local applications.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 930 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Economic Development, Government Operations and Housing  
Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

**SCRep. 174 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1256**

The purpose and intent of this measure is to appropriate funds to support operations of and the purchase of equipment required to support the Pacific International Space Center for Exploration Systems (PISCES).

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Land Use Research Foundation of Hawaii; University of Hawaii System; Hawaii Aerospace Advisory Committee; Aerospace States Association; Oahu Economic Development Board; East Hawaii Community Development Corporation; Shackleton Energy Company; Ontario Drive and Gear; and eight individuals.

Your Committee finds that PISCES was established to leverage Hawaii's substantial assets and capabilities in the space industry to advance the national space program and provide unique opportunities to expand and diversify technology-based enterprise and education statewide. The goal for PISCES is to develop a world-class center of excellence in Hawaii that can facilitate the design, testing, and validation of new technologies to support robotic and human missions to space, and in so doing serve as an economic driver for the Island of Hawaii that will promote the establishment and growth of new sustainable and green industries along with associated jobs, workforce development, internships, and science, technology, engineering, and math (STEM) education programs.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1256 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 175 Public Safety, Intergovernmental and Military Affairs on S.B. No. 437**

The purpose and intent of this measure is to authorize the liquor commissions to conduct alcohol abuse treatment and prevention activities and include license fees as a funding mechanism for the treatment and activities.

Your Committee received testimony in support of this measure from the County Council, County of Maui; the Hawaii Substance Abuse Coalition; and two individuals. Your Committee received testimony in opposition to this measure from the Honolulu Liquor Commission and the Hawaii Food Industry Association.

Your Committee finds that the prevention of alcohol abuse is a critically important public need and that effective programs to address alcohol abuse require adequate funding; therefore, it is appropriate to allocate revenues generated from liquor license fees to programs designed to prevent and treat alcohol abuse.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 437, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 437, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 176      Judiciary and Labor on S.B. No. 883**

The purpose and intent of this measure is to make a housekeeping amendment to the public sector collective bargaining law.

Prior to the hearing on this measure, your Committee made available a proposed S.D. 1 for review and comment. The proposed S.D. 1 amends this measure by deleting its contents and inserting language to establish a separate collective bargaining unit for first responders, including state law enforcement officers and state and county ocean safety and water safety officers.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Public Safety; Department of Land and Natural Resources; Honolulu Emergency Services Department, City and County of Honolulu; Kaua'i Fire Department, County of Kaua'i; Ocean Safety Bureau, Kaua'i Fire Department; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; North Shore Lifeguard Association; Hawaiian Lifeguard Association; Outrigger Hotels Hawaii; and fifty-seven private individuals.

Your Committee finds that state law enforcement, ocean safety, and water safety officers are highly trained and competent emergency first responders. State sheriffs and ocean safety and water safety officers employed by the State or counties currently belong to collective bargaining units (3) and (4) for white collar employees and white collar supervisors, respectively. Bargaining unit (3) is the largest of all of the thirteen bargaining units in the State and comprises a broad and heterogeneous membership. The membership size and diversity of professions included in this bargaining unit increase the complexity and ability to address the specialized needs of state sheriffs and ocean safety and water safety officers. By establishing a separate bargaining unit for these officers, the proposed S.D. 1 will enable these officers to more easily address any specialized needs of these officers with the employer, including fitness and equipment requirements, and improve salaries, benefits, and working conditions.

Your Committee has amended this measure by adopting the proposed S.D. 1 and amending it further by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 883, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 883, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ihara).

**SCRep. 177      Judiciary and Labor on S.B. No. 868**

The purpose and intent of this measure is to:

- (1) Assist in streamlining the notification process by requiring the Hawaii Labor Relations Board to provide written notice of a hearing to all parties by first class mail at least fifteen days before the date of a scheduled hearing; and
- (2) Make housekeeping amendments to the law relating to the scope of negotiations between the public employer and the exclusive representative to conform to existing law.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Office of Collective Bargaining. Testimony in opposition to this measure was submitted by the University of Hawaii Professional Assembly and one private individual.

Your Committee finds that the Hawaii Labor Relations Board currently uses registered or certified mail to provide notice to interested parties of a scheduled hearing. The Department of Labor and Industrial Relations testified that requiring the Board to provide notice via first class mail will permit the Board to more efficiently allocate resources. The money from the postage savings could be used by the Board to develop an electronic filing system. However, your Committee questions how much will be saved by switching to first class mail from registered or certified mail. Furthermore, your Committee has concerns that this measure may have unintended legal consequences on the Board and the hearing process by changing the method of delivery. Thus, your Committee has requested that the Department of Labor and Industrial Relations provide to the Committee on Ways and Means the expected cost savings and any foreseeable legal impacts this measure may have.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 868, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 868, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 178      Judiciary and Labor on S.B. No. 889**

The purpose and intent of this measure is to clarify that when the State prevails in a court action, the Attorney General is allowed an award of attorney's fees and litigation costs but not to the Attorney General personally.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that some courts have misinterpreted section 28-6, Hawaii Revised Statutes, and have refused to award attorney's fees to the State or the Department of the Attorney General when the State prevails in a lawsuit and a deputy attorney general requests an award of attorney's fees. The purpose of section 28-6, Hawaii Revised Statutes, is to prohibit the Attorney General

and deputy attorneys general from being compensated for performing a task that is already a part of their official duties and for which they receive a salary. However, existing law was not meant to prevent the State or the department from recovering attorney's fees in lawsuits in which the State prevails. Accordingly, this measure allows the department an award of attorney's fees when the State prevails in a lawsuit and clarifies that the Attorney General shall not personally receive a fee or reward. Your Committee notes its intent that the attorney's fees awarded to the department shall be consistent with the amount of awards to other interested parties.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 889, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 889, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 179      Judiciary and Labor on S.B. No. 414**

The purpose and intent of this measure is to establish licensing requirements for commercial dog breeders and ensure that the dogs under the custody and control of commercial dog breeders are provided minimum standards of care.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Hawaiian Humane Society; Hawaii Island Humane Society; The Humane Society of the United States; Best Friends Animal Society; and twenty-one private individuals. Testimony in opposition to this measure was submitted by the Department of Commerce and Consumer Affairs, American Kennel Club, Pet Industry Joint Advisory Council, Golden Retriever Club of Hawaii, Golden Retriever Club of Hawaii Rescue and Breeder Referral Program, Hawaiian Chinese Shar-Pei Club, and fourteen private individuals. Three private individuals submitted comments.

Your Committee finds that profit-driven breeding is prevalent in Hawaii. According to the Hawaii Data Book 2011, the pet industry amounts to nearly \$96,000,000 a year. A recent internal tracking of puppy sales on Oahu conducted by the Hawaiian Humane Society found that between June 2012 and December 2012, there were 1,689 puppies advertised on three popular internet sales websites, which amounted to over \$1,700,000 in sales. Your Committee further finds that because of this type of financial motivation, the puppy industry should be regulated to not only protect dogs, but also to protect consumers. Unfortunately, existing state and federal laws regarding the care and husbandry of dogs inadequately regulate large-scale breeding facilities in Hawaii.

Your Committee notes that the language in S.B. No. 2494, S.D. 1 (Regular Session of 2012) is similar to the language in this measure and also notes two differences that make the language in S.B. No. 2494, S.D. 1 (2012) preferable to this measure. First, this measure prohibits any person from owning, maintaining, or otherwise having custody or control of more than fifty dogs with intact sexual organs over the age of six months at any time while S.B. No. 2494, S.D. 1 (2012) prohibits any person from owning, possessing, controlling, or otherwise having charge or custody of more than thirty dogs with intact sexual organs over the age of one year at any time.

Second, this measure requires a commercial dog breeder to provide certain minimum standards of care if the commercial dog breeder has custody or control of more than ten female dogs with intact sexual organs over the age of six months for the purpose of breeding those female dogs and selling the female dogs' offspring. S.B. No. 2494, S.D. 1 (2012) requires any person who owns or possesses more than ten dogs, male or female, over the age of four months with intact sexual organs to provide certain minimum standards of care to each dog. Your Committee notes that a City and County of Honolulu ordinance limits owners to no more than ten dogs over the age of four months per household on residential zoned property. Accordingly, your Committee further finds that the minimum standards of care requirement under S.B. No. 2494, S.D. 1 (2012) that applies to owners with more than ten dogs over the age of four months with intact sexual organs per premise is consistent with the City and County of Honolulu ordinance.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with language in S.B. No. 2494, S.D. 1 (Regular Session 2012) to:
  - (A) Establish a standard of care for dogs to ensure proper treatment of dogs and the dogs' offspring by prohibiting the ownership or custody of more than thirty dogs over the age of one year with intact sexual organs, at any time; requiring owners of ten or more dogs over the age of four months with intact sexual organs to meet minimum standards of care to ensure the proper treatment and care of the dogs and the dogs' offspring and maintain specific written records of each dog for a specified period; prohibiting certain types of dogs to be placed in the same enclosure; and establishing penalties; and
  - (B) Ensure every dog under a dog breeder's care is provided a minimum standard of care by requiring the licensing of dog breeders; authorizing each county the flexibility to assess the county's own situation, and determine the need for and develop appropriate rules for housing and treatment of dogs by dog breeders, if necessary; requiring each county or its contracted local humane society to assess appropriate license fees for dog breeders and to pursue civil penalties for noncompliance; and authorizing a county agent or its contracted designees to inspect a dog breeder licensee's premises unannounced and during regular business hours; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 414, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 414, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Shimabukuro, Sлом). Noes, none. Excused, none.

**SCRep. 180      Judiciary and Labor on S.B. No. 1010**

The purpose and intent of this measure is to modify the law that prohibits the Attorney General, First Deputy, and other deputies from engaging in the private practice of law by allowing deputy attorneys general, other than the Attorney General's First Deputy, to provide pro bono services to the community at the Attorney General's discretion.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Hawaii Access to Justice Commission. Comments were submitted by the Hawaii State Ethics Commission.

Your Committee finds that under the Hawaii Rules of Professional Conduct, every attorney is responsible for providing legal services to those individuals who are unable to pay. This rule assures that more individuals are afforded access to justice. Currently, deputy attorneys general are prohibited from providing pro bono services because existing law requires them to devote their entire time and attention to the duties of their respective offices and ensure that the legal matters of the State are properly and promptly addressed. This measure will increase delivery of legal services to low income Hawaii residents by allowing more attorneys to provide pro bono legal services.

Your Committee notes that the Hawaii State Ethics Commission is concerned that this measure conflicts with the laws relating to conflicts of interest under the State Ethics Code. The State Ethics Code prohibits a deputy attorney general from working on a matter in the deputy attorney general's official capacity. Furthermore, the Commission expressed to your Committee that authorizing the Attorney General the sole discretion to determine who may receive pro bono legal services from deputy attorneys general and for whom state resources may be expended may be inconsistent with the intent of the fair treatment law under the State Ethics Code. The Department of the Attorney General and the State Ethics Commission agreed that referencing rule 6.1 of the Hawaii Rules of Professional Conduct to specify the types of pro bono activities for which the Department of the Attorney General's resources may be used in providing pro bono legal services was sufficient in alleviating the Commission's fair treatment concerns.

Accordingly, your Committee has amended this measure by:

- (1) Adopting language suggested by the Hawaii State Ethics Commission that limits the types of pro bono legal services that may be provided to services that do not reasonably create a conflict of interest and requires the Attorney General to make certain considerations when determining whether to allow a deputy to provide pro bono legal services;
- (2) Adding a reference to rule 6.1 of the Hawaii Rules of Professional Conduct to specify the types of pro bono legal services and activities for which the Department of the Attorney General's resources may be used in providing pro bono legal services;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion on this matter; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1010, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1010, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 181      (Majority) Judiciary and Labor on S.B. No. 1263**

The purpose and intent of this measure is to provide an opportunity for all employees who work more than a total of five hours a day to rest and eat by:

- (1) Prohibiting employers from requiring any employee to work more than a total of five hours a day without at least thirty minutes for a meal break, with certain exceptions;
- (2) Imposing penalties on employers who fail to provide meal breaks; and
- (3) Clarifying that the employer's liability is based on an employee's regular wage at the time the infraction occurred.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Plumbers and Fitters, Local 675; International Longshore and Warehouse Union, Local 142; and one private individual. Testimony in opposition to this measure was submitted by the Retail Merchants of Hawaii, The Chamber of Commerce of Hawaii, Building Industry Association of Hawaii, Hawaii Business League, Outrigger Hotels of Hawaii, Hawaii Credit Union League, Society for Human Resource Management – Hawaii Chapter, and one private individual.

Your Committee finds that under existing law, employers are required to provide minor workers who are at least fourteen years old but under the age of sixteen an interval of at least thirty consecutive minutes for a rest or lunch period for no more than five continuous hours of work. However, employers are not required by law to provide their employees sixteen years of age or older any meal or rest period, no matter how many consecutive hours their employees may be required to work. Meal breaks offer employees the opportunity to eat and rest in order to recharge and sustain them through the remainder of their work day.

The Department of Labor and Industrial Relations indicated in its written testimony that twenty-two other states or jurisdictions require employers to provide their employees meal periods, while seven states require employers to provide rest periods to their employees. This measure aligns Hawaii with other state laws by requiring employers, under certain circumstances, to provide meal breaks for any employee who works more than five consecutive hours and imposes penalties on employers who fail to provide meal breaks when applicable.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1263, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1263, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Slom). Excused, none.

**SCRep. 182      Judiciary and Labor on S.B. No. 30**

The purpose and intent of this measure is to make various amendments to the campaign finance laws. Specifically, this measure:

- (1) Requires candidates to file the affidavits stating voluntary agreement to abide by spending limits at the time nomination papers are filed; and
- (2) Increases the prosecuting attorney's voluntary campaign expenditure limit.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and two private individuals.

Your Committee finds that this measure makes a couple of housekeeping amendments to the campaign finance laws. This measure requires candidates to file affidavits to voluntarily abide by statutory expenditure limitations no later than the deadline to file nomination papers. This proposed amendment will allow Campaign Spending Commission staff to better implement the partial financing program and achieve compliance with state election laws.

Furthermore, this measure corrects a statutory deletion that resulted in placing the prosecuting attorney in a lower expenditure category. The commission testified that placing the prosecuting attorney in a lower expenditure seemed unreasonable given the fact that the prosecuting attorney is a county-wide office. The proposed amendment increases the campaign expenditure amount of a publicly financed prosecuting attorney candidate by placing the prosecuting attorney under the same category as state senators, state representatives, and county council members participating in the partial public financing program.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 30 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 183      (Majority) Judiciary and Labor on S.B. No. 34**

The purpose and intent of this measure is to amend the law that sets forth guidelines and limitations for appropriate government authorities in making adjustments for their respective public employees excluded from collective bargaining. Specifically, this measure requires that across-the-board wage increases or reductions, step movement, or employer contributions for health benefits adjustments for public employees excluded from collective bargaining in the excluded managerial compensation plan are at least equal to the adjustments provided under collective bargaining agreements to employees in the collective bargaining unit from which the excluded employees in the managerial compensation plan are excluded.

Your Committee received testimony in support of this measure from the Hawaii Fire Fighters Association, IAFF Local 1463, AFL-CIO.

Your Committee finds that existing law does not provide enough guidance or limitations on how government entities may make adjustments for their respective excluded employees who are in the excluded managerial compensation plan. This measure establishes limitations and prevents the application of all the terms of a respective collective bargaining agreement with respect to across-the-board wage increases or reductions and changes in health and retirement benefits to excluded employees in the managerial compensation plan.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 34 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Gabbard).

**SCRep. 184      Judiciary and Labor on S.B. No. 856**

The purpose and intent of this measure is to recognize Fred Korematsu and his commitment to preserving civil liberties by establishing January 30 of each year as "Fred Korematsu Day".

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Korematsu Institute for Civil Rights and Education, American Civil Liberties Union of Hawaii, Japanese Cultural Center of Hawai'i, Hawai'i Council for the Humanities, and five private individuals.

Your Committee finds that Fred Korematsu is an American civil rights hero who refused to comply with Executive Order 9066 that mandated the incarceration of one hundred twenty thousand people of Japanese ancestry in 1942. After he was arrested and convicted for defying the executive order, Mr. Korematsu appealed his case to the United States Supreme Court. The Supreme Court ruled against him and held that the internment of Japanese-Americans was a military necessity. In 1983, Mr. Korematsu re-opened his case,

and his conviction was overturned in federal court based on subsequently discovered evidence that the government hid evidence from the Supreme Court that showed that Japanese-Americans did not commit any acts of treason to justify mass evacuation, incarceration, and exclusion. In 1998, Mr. Korematsu was awarded the Presidential Medal of Freedom, the nation's highest civilian honor.

In 2010, California established January 30 of every year as "Fred Korematsu Day of Civil Liberties and the Constitution", making it the first permanent day named after an Asian American in United States history. Similarly, this measure establishes January 30 of every year as "Fred Korematsu Day" to celebrate, honor, and encourage public education and awareness of Fred Korematsu and his commitment to preserving civil liberties.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 856 and recommends that it pass Second Reading and be referred to the Committee on Technology and the Arts.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 185      Judiciary and Labor on S.B. No. 878**

The purpose and intent of this measure is to clarify the authority of an arbitrator to award costs in arbitration proceedings.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice.

Your Committee finds that existing law allows an arbitrator to award attorney's fees and other reasonable expenses relating to arbitration. However, there is confusion as to whether "expenses of arbitration" has the same meaning as "costs" because "costs" has its own distinct meaning that is traditionally used and applied by the courts. This measure adds the term "costs" to comply with the more traditional meaning used by the courts, which includes costs such as deposition transcripts, witness fees, copying costs, and similar expenditures.

Your Committee further finds that existing law authorizes an arbitrator to award attorney's fees and other expenses in a civil action involving the same claim or by the agreement of the parties to the arbitration proceeding. This measure changes the term "same claim" to "similar claim" to recognize that arbitration procedures are more flexible in addressing a wider range of disputes and issues than the courts and provide arbitrators the same discretion as judges to award costs when appropriate.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 878 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 186      Judiciary and Labor on S.B. No. 879**

The purpose and intent of this measure is to increase the per diem payments of out-of-state witnesses in criminal cases to support and encourage out-of-state witnesses to return to Hawaii to participate in the prosecution of those cases.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission; Hawai'i Tourism Authority; Department of the Prosecuting Attorney, City and County of Honolulu; and Victim/Witness Assistance Division, Department of the Prosecuting Attorney, County of Maui.

Your Committee finds that the last time the Legislature increased the per diem payment for out-of-state witnesses was in 1989. This amount is no longer sufficient for out-of-state witnesses to pay for their personal expenses, such as for food and lodging, and discourages or prevents out-of-state witnesses from returning to the State to testify against offenders. Furthermore, the per diem amount for witnesses who are required to travel to and stay overnight on another island to attend a state court is also insufficient. Increasing the per diem payment for out-of-state witnesses from \$110 to \$145 per day and providing an additional \$90 per day for witnesses who are required to travel and stay overnight on another island will support and encourage out-of-state witnesses to testify and facilitate the prosecution of important criminal cases.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 879 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 187      Judiciary and Labor on S.B. No. 1014**

The purpose and intent of this measure is to create a more complete and reliable DNA database by establishing that any person who refuses or fails to provide any required blood specimen, buccal swab sample, or print impression for forensic identification shall be guilty of a class C felony.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, County of Maui; Police Department, County of Maui; and Police Department, County of Hawai'i. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that all defendants convicted of a felony offense are required to submit a DNA sample for the purpose of establishing a DNA database that can be used to solve crimes, including cold cases, and to exonerate the innocent. Under existing law, a defendant commits the offense of refusal or failure to provide specimen for forensic identification if the defendant intentionally or knowingly refuses or fails to provide any blood specimens, buccal swab samples, or print impressions after receiving written notice of

the requirement. However, if a defendant refuses or fails to comply with the law, the only mechanism to obtain compliance is the threat of a misdemeanor for a negligent or reckless violation. This measure repeals the misdemeanor penalty and establishes a class C felony to align the intentional or knowing action of noncompliance with the appropriate penalty.

However, your Committee questions whether elevating the state of mind element to intentionally or knowingly rather than negligently or recklessly will cause more defendants to submit specimens for forensic identification. Your Committee is concerned that elevating the state of mind element to intentionally or knowingly may instead make it more difficult to prosecute the offense of refusal or failure to provide specimens for forensic identification.

Accordingly, your Committee has amended this measure by:

- (1) Reinstating the language that makes it a misdemeanor for any person who negligently or recklessly fails to comply with submitting a specimen for forensic identification;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1014, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1014, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 188      Judiciary and Labor on S.B. No. 1015**

The purpose and intent of this measure is to clarify the reciprocity provision under existing law that allows the service of process issued by another state upon a Hawaii recipient. Specifically, this measure clarifies that:

- (1) The service of process may be upon a person or business, but not a government agency;
- (2) The service of process is for the production of records;
- (3) The service of process shall be based upon a pending criminal investigation or prosecution; and
- (4) The person or business being served has conducted business or engaged in transactions occurring at least in part in the issuing state.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Police Department, County of Hawai'i; Police Department, City and County of Honolulu; and Police Department, County of Maui.

Your Committee finds that existing law requires an entity located in Hawaii to comply with the criminal process issued by another state as if that process had been issued by a Hawaii court. This law creates reciprocity between Hawaii and other states to make access to records relating to a criminal matter a two-way street. However, the Department of the Attorney General raised three concerns in its written testimony regarding the language under existing law.

First, the Department is concerned that the reciprocity provision may be interpreted as allowing someone from another state to issue process to try to compel a state agency in Hawaii to disclose government records. This measure clarifies that a recipient in Hawaii may be a person or business, but not a government agency.

Second, according to the Department of the Attorney General, the term "criminal process" appears to be misplaced and confusing because this term is defined under section 806D-1, Hawaii Revised Statutes, as a process issued pursuant to the Hawaii Penal Code, Hawaii Rules of Penal Procedure, or signed by a Hawaii district or circuit court judge. However, process issued in another state cannot be issued pursuant to Hawaii law or signed by a Hawaii judge. This measure clarifies that the service of process is for the production of records that shall be based upon a pending criminal investigation or prosecution.

Third, the reciprocity provision does not appear to require that the Hawaii recipient have a nexus to the issuing state that is requesting the Hawaii recipient's records. This measure clarifies that the person or entity being served has conducted business or engaged in transactions occurring at least in part in the issuing state.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1015, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1015, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 189      Transportation and International Affairs on S.B. No. 4**

The purpose and intent of this measure is to require all front and back seat passengers to be restrained by a seat belt assembly or child passenger restraint while the motor vehicle is being operating upon any public highway.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Health, Honolulu Police Department, Mothers Against Drunk Driving, Injury Prevention Advisory Committee, State Farm, and the State Highway Safety Council.

Your Committee finds that there is a need for all motor vehicle occupants to be restrained by a seat belt or child passenger restraint while riding in a motor vehicle being operated on any public roadway. Seat belt restraints for all occupants increases the safety of all motor vehicle occupants by as much as forty-five percent, according to the National Highway Traffic Safety Administration. Seat belts are one of the most effective safety features and have saved the lives of thousands of motor vehicle occupants.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 190 (Majority) Transportation and International Affairs on S.B. No. 574**

The purpose and intent of this measure is to authorize the court to order posting of a bond equal to the market value of the vehicle used in the commission of an excessive speeding offense within five years of two prior convictions for excessive speeding, with return of the bond contingent on certain conditions.

Your Committee received testimony in support of this measure from the Department of Transportation. Testimony in opposition to this measure was received from one individual. Comments on this measure were received from Enterprise.

Your Committee finds that the penalty of posting a bond would be a significant deterrent for a person who has committed the violation of excessive speeding more than twice within five years. The deterrent reduce the risk of death, serious injury, and property damage on Hawaii's highways.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 574 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, 1 (Slom). Excused, 1 (Dela Cruz).

**SCRep. 191 (Majority) Transportation and International Affairs on S.B. No. 484**

The purpose and intent of this measure is to:

- (1) Require applicants for category 2 (motorcycle and motor scooter) licenses to designate whether the applicant elects to wear a safety helmet with a chin strap at all times when operating the vehicle;
- (2) Establish a rate and minimum county vehicle weight tax on motorcycles and motor scooters for owners of motorcycles and motor scooters electing to wear safety helmets, which shall be the same as provided for passenger vehicles, under certain conditions;
- (3) Establish a rate and minimum county vehicle weight tax on motorcycles and motor scooters for owners who cannot prove that they elected to wear a safety helmet which shall be double the tax for passenger vehicles;
- (4) Clarify penalties for failure to wear safety helmet for drivers electing to wear safety helmet; and
- (5) Require the county councils to determine increased application fees for instruction permits, provisional licenses, and driver's licenses for applicants who do not elect, on the application, to wear a safety helmet at all times when operating a motorcycle or motor scooter.

Your Committee received testimony in support of this measure from the Department of Health, Examiner of Drivers, Mothers Against Drunk Driving, Injury Prevention Advisory Committee, Maui Memorial Medical Center, The Queen's Medical Center, and fifteen individuals. Testimony in opposition was received from the Honolulu Police Department, Street Bikers United of Hawaii and of Maui, Foundation Motorcycle Club, and numerous individuals. Comments were received from four individuals.

Your Committee finds that this measure offers a financial incentive to riders who elect on driver's license applications that they will wear a helmet when operating their motorcycle or motor scooter. This measure focuses on increasing helmet usage by encouraging the positive choice of wearing a safety helmet to protect riders from death and injury.

Your Committee has considered various methods and incentives to motivate motorcycle and motor scooter riders to use safety helmets, other than making the use of safety helmets mandatory. Instead of taking a punitive approach by doubling the motor vehicle weight tax and application fee for instruction permits, provisional licenses, and driver's licenses, your Committee believes a compassionate approach is to simply provide a discount for those who elect to wear safety helmets.

Your Committee has amended this measure by:

- (1) Further enhancing the incentive for motorcycle and motor scooter owners to elect to wear a safety helmet by providing an additional discount of \$50 to the rate and minimum county vehicle tax for motorcycles and motor scooters;
- (2) Deleting the increased rate and minimum county vehicle tax for motorcycle and motor scooters owners who cannot prove that they have elected to wear a safety helmet;

- (3) Deleting the mandated additional fee for instruction permits, provisional licenses, and driver's licenses for applicants who do not elect to wear a safety helmet; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 484, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 484, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Keith-Agaran, Solomon). Noes, 2 (Gabbard, Slom). Excused, 1 (Dela Cruz).

**SCRep. 192 (Majority) Transportation and International Affairs on S.B. No. 1309**

The purpose and intent of this measure is to require helmet use for individuals under the age of eighteen operating or riding motorcycles, motor scooters, mopeds, and all-terrain vehicles; and to require persons engaging in the business of renting these vehicles to furnish a safety helmet to renters under the age of eighteen of motorcycles, motor scooters, mopeds, and all-terrain vehicles who will drive or ride on these vehicles. This measure also defines "all-terrain vehicle" and "safety helmet".

Your Committee received testimony in support of this measure from the Department of Health, Honolulu Police Department, The Queen's Medical Center, and six individuals. Testimony in opposition to this measure was received from one individual.

Your Committee finds that traumatic brain injury affects a large number of people in our State, including children. According to testimony of The Queen's Medical Center, in 2010 more than one-third of those treated in the emergency department for traumatic brain injury were eighteen years and younger. Of the patients seen at The Queen's Medical Center who are involved in motorcycle and moped crashes, less than forty percent wear a helmet. Because of this, more patients die or are permanently incapacitated from head trauma than would occur if all or nearly all of them wore a helmet at the time of their crash.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1309, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1309, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Keith-Agaran). Noes, 1 (Slom). Excused, 1 (Dela Cruz).

**SCRep. 193 Commerce and Consumer Protection on S.B. No. 960**

The purpose and intent of this measure is to establish that it is a prohibited practice for a foreclosing mortgagee or foreclosing association to cancel a public sale at any time before the date of the public sale without written notification of the cancellation delivered to the mortgagor, the borrower, and other specified persons.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and Community Associations Institute Hawaii Chapter.

Your Committee finds that pursuant to Act 48, Session Laws of Hawaii 2011, the foreclosing mortgagee in a nonjudicial foreclosure is legally required to provide notice of the postponement or cancellation of the public sale to specific persons. It is prohibited conduct for a foreclosing mortgagee to fail to notify identified persons and entities of the postponement or cancellation of a nonjudicial foreclosure sale. Your Committee further finds that amendments are necessary because the suggested language proposed by this measure replicates existing notice requirements for nonjudicial foreclosures.

However, your Committee additionally finds that although the protections relating to the postponement or cancellation of sale apply to nonjudicial foreclosures, there is not a similar requirement for judicial foreclosures under part IA, chapter 667, Hawaii Revised Statutes. Your Committee therefore concludes that these existing protections for nonjudicial foreclosures should also apply to mortgagors and borrowers involved in the judicial foreclosure process.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that establishes a notice of postponement or cancellation of sale requirement under part IA, chapter 667, Hawaii Revised Statutes, relating to judicial foreclosures;
- (2) Removing language that would have required foreclosing mortgagees in a nonjudicial foreclosure to provide notice of the postponement or cancellation of a public sale to specific persons, as this requirement is already imposed on a foreclosing mortgagee under sections 667-28 and 667-97, Hawaii Revised Statutes;
- (3) Amending the purpose section for clarity; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 960, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 960, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 194 Commerce and Consumer Protection on S.B. No. 1074**

The purpose and intent of this measure is to:

- (1) Regulate physical therapist assistants by limiting the use of certain titles and requiring licensure prior to practicing in the State;
- (2) Ensure physical therapist assistants have the appropriate education and training background;
- (3) Add a physical therapist assistant to the composition of the Board of Physical Therapy of the Department of Commerce and Consumer Affairs; and
- (4) Appropriate funds out of the compliance resolution fund to implement the licensure of physical therapist assistants.

Your Committee received testimony in support of this measure from the American Physical Therapy Association; Hawaii Chapter of the American Physical Therapy Association; The Queen's Medical Center; Occupational Therapy Association of Hawaii; Ho'okahi Leo, Physical Therapist Assistants of Hawaii; Tripler Army Medical Center, Pain Clinic; and nineteen individuals.

Your Committee finds that physical therapist assistants are health care providers who deliver physical therapy services under the direction and supervision of physical therapists. Currently, Hawaii is the only state in the country that does not regulate physical therapy assistants.

Your Committee further finds that the Auditor's Office conducted a sunrise review in 1995 on a proposal to regulate physical therapy assistants, pursuant to section 26H-6, Hawaii Revised Statutes. The Auditor's report concluded there was no need for regulation and cited little potential harm to the public because the small number of physical therapy assistants practicing in Hawaii could only work under the supervision of a physical therapist. However, since that time, the scope of physical therapy practice has expanded and the number of physical therapy assistants practicing in Hawaii has increased.

Your Committee additionally finds that physical therapy assistants work in a variety of practice settings, including hospitals, private practices, schools, and home health, and work with different patient populations, including children and the elderly. Because some treatment provided by physical therapy assistants could cause harm to patients if not done correctly, your Committee concludes that licensure for physical therapy assistants is needed in the State to protect the public and ensure consumer safety.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1074, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1074, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 195 Commerce and Consumer Protection on S.B. No. 1370**

The purpose and intent of this measure is to:

- (1) Expand the application of mandatory mortgage foreclosure dispute resolution by requiring mortgagees, at the mortgagor's election, to participate in mediation to avoid foreclosure or mitigate damages from foreclosure prior to filing a judicial foreclosure action for property that has been the mortgagor's primary residence for a specified period; and
- (2) Apply the dispute resolution requirement to judicial foreclosure actions filed prior to the effective date of this measure and pending an initial court hearing.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Hawaii Community Assets, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association, Hawaii Financial Services Association, Mortgage Bankers Association of Hawaii, and Hawaii Credit Union League.

Your Committee finds that the Legislature has previously expressed a desire for dispute resolution combined with the assistance of a United States Department of Housing and Urban Development (HUD)-certified housing counselor to be available for homeowners facing foreclosure. Foreclosure mediation has been highly successful in Connecticut, Nevada, and other states and can assist homeowners and loan holders or servicers reach agreements involving loan modification or other loss mitigation. These agreements can therefore avoid foreclosure and unnecessary expense and delay.

Your Committee further finds that although mortgage foreclosure dispute resolution is available upon request in non-judicial foreclosures, mortgagees have instead chosen to pursue judicial foreclosure. Although mediation in a judicial foreclosure may be ordered in the discretion of the court, only the Third Circuit, on the Island of Hawaii, has a dedicated foreclosure mediation program. This foreclosure mediation program now reports a high rate of success in foreclosure actions, which has in turn helped alleviate the pressure on the Third Circuit's civil docket. Your Committee additionally finds although the Hawaii Access to Justice Commission has strongly recommended that the Hawaii Supreme Court retain, improve, and expand the Judiciary's foreclosure mediation program, it has not yet expanded beyond the Third Circuit.

Your Committee also finds that there is emerging evidence that the availability of HUD-certified counselors in foreclosure dispute resolution programs is one of the most, if not the most, important factors in the ability of homeowners to navigate mediation programs and achieve optimal results. The report, released by the Department of Justice Access to Justice Initiative, states there is ample evidence to suggest HUD-certified housing counselors are successful in the majority of cases in obtaining some form of loss mitigation help for distressed homeowners and thereby avoiding foreclosure.

Another recent outcome study from HUD found that nearly seventy percent of the homeowners who received counseling from a HUD-certified counselor obtained a mortgage remedy and fifty-six percent were able to become current on their mortgages. Giving homeowners the option of pre-foreclosure dispute resolution through the mortgage foreclosure dispute resolution program coupled with assistance from a HUD-certified counselor will help reduce the number of cases filed in the judicial system and conserve valuable judicial resources.

This measure will ensure mortgage foreclosure dispute resolution is equally available for nonjudicial and judicial foreclosures. This gives all mortgagors facing foreclosure in Hawaii an equal opportunity to have a specifically trained mediator who can offer assistance regarding the mortgagor's financial situation and any available options. Your Committee concludes that this measure will benefit mortgagors and mortgagees by shortening the overall foreclosure process and reducing strain on the judicial system.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1370, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1370, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Wakai, Slom). Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 196 Commerce and Consumer Protection on S.B. No. 1092, S.D. 1**

The purpose and intent of this measure is to make a general fund appropriation of \$25,000,000 for fiscal year 2014-2015 to recapitalize the hurricane reserve trust fund.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Commerce and Consumer Affairs, and Hawaii Hurricane Relief Fund Board of Directors.

Your Committee finds that this measure will recapitalize the Hawaii Hurricane Relief Fund's hurricane reserve trust fund. When the Hawaii Hurricane Relief Fund ceased operations in 2002, there was approximately \$200,000,000 in the hurricane reserve trust fund. Over the years, the hurricane reserve trust fund has been reduced to \$20,000,000.

Your Committee further finds that recapitalization of the hurricane reserve trust fund will permit the Hawaii Hurricane Relief Fund to quickly restart if necessary following a hurricane, as monies will be available to purchase reinsurance. It will also permit the Hawaii Hurricane Relief Fund to improve its claims-paying ability in the event the Hawaii Hurricane Relief Fund needs to pay out under its hurricane insurance policies.

Your Committee has amended this measure by:

- (1) Replacing the appropriation of \$25,000,000 with a blank appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1092, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 197 Commerce and Consumer Protection on S.B. No. 915**

The purpose and intent of this measure is to make part II of chapter 501, Hawaii Revised Statutes, relating to land recordings and deregistration of fee simple timeshare interests, permanent by repealing the applicable sunset provision in section 21 of Act 120, Session Laws of Hawaii 2009.

Your Committee received testimony in support of this measure from the American Resort Development Association, Wyndham Vacation Ownership, and SVO Pacific, Inc. Your Committee received comments on this measure from the Hawaii State Judiciary and one individual.

Your Committee finds that Act 120, Session Laws of Hawaii 2009, deregistered fee simple time share transactions from the Land Court system and established a procedure to move these transactions to the regular system in the Bureau of Conveyances.

Your Committee further finds that the number of owners of a fee simple time share range from hundreds to thousands, with each owner holding a percentage interest in the time share property. The removal of fee simple time share transactions from the Land Court has eliminated the need to issue a certificate of title for each fee simple time share unit for each owner, significantly streamlined the registration process for fee simple timeshare interests, and has eased the backlog of recordings at the Land Court. Repealing the applicable sunset provision of Act 120, Session Laws of Hawaii 2009, as provided by this measure, will therefore continue the streamlining process and ease the backlog of registering fee simple timeshare interests in the Land Court system permanently.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 915 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 198 Commerce and Consumer Protection on S.B. No. 1108**

The purpose and intent of this measure is to allow the Directors of Commerce and Consumer Affairs, Health, Human Services, and Labor and Industrial Relations to delegate voting authority to their designees for a specified meeting or meetings of the Hawaii Health Insurance Exchange.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Health, Department of Human Services, and Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Hawaii Primary Care Association.

Your Committee finds that because the Hawaii Health Insurance Exchange, also known as the Hawaii Health Connector, was established as a Hawaii nonprofit corporation, more specific language is required regarding designees for the directors of state agencies who serve as ex-officio voting members of the Board of Directors of the Hawaii Health Connector. This measure provides the necessary flexibility for the directors of state agencies to voice their votes through their designees when they are unable to attend meetings of the Board of Directors, ensures that a voting quorum can be met, and facilitates the timely development and implementation of the Hawaii Health Insurance Exchange.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1108 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 199 Education on S.B. No. 239, S.D. 1**

The purpose and intent of this measure is to, among other things:

- (1) Move the framework for establishing an annual conference of secondary school students from chapter 317, Hawaii Revised Statutes, to chapter 302A, Hawaii Revised Statutes; and
- (2) Remove the Governor's authority to appoint members of the Student Conference Committee.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Student Council, and seven individuals.

Your Committee finds that the Student Conference Committee provides secondary students with the opportunity to learn valuable skills and connect with and learn from other secondary school students. In addition, it provides a forum for secondary students to share their thoughts and concerns on issues that impact their schools and communities.

Your Committee further finds that this measure reflects an improved framework for the Student Conference Committee and the role of the Student Conference Advisory Committee.

Your Committee has amended this measure by:

- (1) Adding language to specify that the public school members of the Student Conference Committee shall be selected by the Superintendent or the Superintendent's designee;
- (2) Adding language to specify that members of the Student Conference Committee from schools represented by the Hawaii Association of Independent Schools shall be selected by a representative of the Hawaii Association of Independent Schools; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 239, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

**SCRep. 200 Education on S.B. No. 237, S.D. 1**

The purpose and intent of this measure is to establish a three-year pilot program within the Office of the Lieutenant Governor to allow for the limited lease of public school lands and facilities under the authority of the Department of Education in order to generate revenue from certain uses that are for public purposes, such as workforce housing, to build and retrofit twenty-first century schools and create more school-centered communities.

Your Committee received testimony in support of this measure from the Governor, Department of Education, Hawaii Association of Independent Schools, Hawaii Institute for Public Affairs, Building Industry Association of Hawaii, Hawai'i Educational Policy Center, The Chamber of Commerce of Hawaii, Hui for Excellence in Education, IMUAlliance, American Society of Civil Engineers Hawaii Section, Harold K.L. Castle Foundation, The Learning Coalition, and four individuals. Your Committee received testimony in opposition to this measure from Life of the Land, Puna Pono Alliance, and six individuals. Your Committee received comments on this measure from the League of Women Voters, Parents for Public Schools of Hawai'i, Sierra Club Hawai'i Chapter, and Windward Ahupua'a Alliance.

Your Committee finds that many school facilities are in dire need of repair, maintenance, and improvement of systems and infrastructure to meet twenty-first century challenges in technology and education. This measure proposes a pilot project as one option

to capture revenues from currently unused or underutilized public school lands that may yield much-needed revenues for Hawaii's schools after redevelopment.

Your Committee further finds that a community-based policy and planning approach will be critical to the success of the pilot program. A three-year pilot project will serve as "proof in concept" to test and evaluate development, design, and financial models, while giving communities the opportunity to provide input and to better understand the concept of community-centered twenty-first century schools.

Your Committee notes that this measure does not exempt the pilot project from procurement requirements and specifically requires that requests for proposals and request for information guidelines be followed. This measure also allows for a leasehold premium based on a competitive bid process.

Lastly, your Committee echoes the testimony it received regarding the need for appropriate funding to be given to the Office of the Lieutenant Governor in order to carry out the public school lands pilot program.

Your Committee has amended this measure by:

- (1) Authorizing the Board of Education to identify and select the potential sites for participation in the pilot program;
- (2) Clarifying that the Board of Education shall be subject to chapter 92, Hawaii Revised Statutes, and shall foster school and community engagement during the identification and selection process;
- (3) Specifying the information that shall be required in the Lieutenant Governor's report to the Legislature, including a summary of the school and community engagement efforts undertaken or that will be undertaken by the Lieutenant Governor and Department of Education in carrying out the public school lands pilot program; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 237, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 201 Education on S.B. No. 573, S.D. 1**

The purpose and intent of this measure is to authorize a state income tax credit for certain expenses paid or incurred by school teachers during the taxable year.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, IMUAlliance, and one individual. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and Hawaii Government Employees Association AFSCME Local 152, AFL-CIO.

Your Committee finds that teachers often pay out of their own pocket for materials to provide more creative ways to be effective in the classroom.

Your Committee notes the concerns of the Department of Taxation that based on an extension of certain federal tax deductions allowed for elementary and secondary school teachers, under the 2012 American Taxpayer Relief Act, this measure may allow teachers to receive duplicate tax benefits for the same expenditures.

Your Committee also notes the request of several testifiers to examine whether the tax credit should be expanded to cover certain expenses incurred by educational assistants, vice principals, principals, and public service librarians employed by the Hawaii State Public Library System.

Your Committee has amended this measure by:

- (1) Decreasing the maximum amount of the tax credit from \$500 to \$250; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 573, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 573, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

**SCRep. 202 (Joint) Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 474, S.D. 1**

The purpose and intent of this measure is to require the State and counties to accept duplicate original copies of documents for filing in lieu of the original document.

Your Committees did not receive any testimony on this measure.

Your Committees find that this measure will improve and streamline the process for filing documents with the State and counties without adversely affecting the need for authentic documents.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 474, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 474, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 203 (Joint) Economic Development, Government Operations and Housing and Human Services on S.B. No. 809, S.D. 1**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the construction and improvement of low- and moderate-income housing throughout the State.

Your Committees received testimony in support of this measure from the Community Alliance for Mental Health. Your Committees received comments on this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committees find that the State continues to have a great need for affordable housing and that the issuance of general obligation bonds is needed to fund the development and rehabilitation of low- and moderate-income housing at various projects throughout the State, some of which are on private land.

The Department of Budget and Finance submitted written testimony commenting that under federal law, tax-exempt general obligation bond proceeds cannot be used to finance projects on private land and that taxable general obligation bonds will be required. The Department of Budget and Finance also commented that appropriations for debt service on the taxable general obligation bonds are also necessary, as public funding is not available in the Executive Budget.

Your Committees have amended this measure by:

- (1) Authorizing the issuance of taxable general obligation bonds;
- (2) Making an appropriation from general funds in the amount of \$21,000,000 for fiscal years 2013-1014 and 2014-2015 for debt service on the taxable general obligation bonds; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 809, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 809, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 4. Noes, none. Excused, 3 (Baker, English, Wakai).

Human Services  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 204 Economic Development, Government Operations and Housing on S.B. No. 21, S.D. 1**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and make appropriations to the Department of Accounting and General Services for the repair and maintenance of the State Capitol reflecting pools.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Department of Land and Natural Resources; Historic Hawai'i Foundation; Roth Ecological Design International, LLC; and one individual.

Your Committee finds that although the State Capitol reflecting pools are character-defining features of the State Capitol that contribute to its historic significance, the pools are in dire need of repair and maintenance. They are plagued by persistent algae growth, and water in the pools become stagnant over time due to inadequate filtration and have a propensity to leak into the underlying chamber level below. This measure will develop and implement a plan that will address long-term concerns about the repair and maintenance of the pools while ensuring the historic integrity of the Capitol is preserved.

Your Committee inquired about whether water circulated through the reflecting pools may be used for other purposes, such as irrigation, and is awaiting a response from the Department of Accounting and General Services.

Your Committee has amended this measure by:

- (1) Deleting references to the use of a natural filtration system using aquatic plants for bioremediation and replacing them with language giving the Department of Accounting and General Services flexibility to choose the type of filtration method to be used; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 21, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 21, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

**SCRep. 205 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 312**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to enter into agreements with the Department of Public Safety to provide security services to protect the residents, staff, buildings, and lands of the Authority.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committees received comments on this measure from the Department of Public Safety.

Your Committees find that when the federal Weed and Seed Initiative was in effect at Mayor Wright homes public housing complex several years ago, residents saw a significant improvement in their neighborhood. However, the conditions in public housing, of which Mayor Wright homes public housing complex is one example, have since deteriorated. The complex has been the site of shootings and disturbances between the tenants and their neighbors. In addition, there have been several instances of public drunkenness and excessive noise in the complex.

Your Committees further find that the Department of Public Safety does not currently have the infrastructure or personnel to provide the additional services for security of the residents, staff, buildings, and lands of the Hawaii Public Housing Authority. However, the Authority's ability to reimburse the cost of additional deputy sheriff positions and required equipment to provide these services, as proposed in this measure, will allow for this partnership to provide for the safety and security of those in public housing projects.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 312 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 206 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 814**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to allow law enforcement officers who would not otherwise be eligible to occupy a state low-income public housing project to reside in a state low-income public housing unit for the purpose of increasing security and safety for the public housing development residents.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Public Housing Authority, and Community Alliance for Mental Health.

Your Committees find that current federal law allows law enforcement officers to reside in Hawaii's federal low-income public housing communities. However, there is no state law that would allow law enforcement officers to reside in state low-income public housing. By allowing law enforcement officers to reside in state low-income public housing communities, these law enforcement officers would greatly reduce criminal activity on the Hawaii Public Housing Authority's properties through immediate arrest and prosecution capacity, thereby increasing the safety of state low-income public housing communities.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 814 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 207 (Joint) Education and Judiciary and Labor on S.B. No. 419, S.D. 1**

The purpose and intent of this measure is to appropriate funds as a grant to the Department of Education for two additional alternative schools to facilitate the ongoing education of juveniles involved in the justice system.

Your Committees received testimony in support of this measure from the Department of Education, Office of Youth Services, Prosecuting Attorney of the City and County of Honolulu, and Hawaii State Teachers Association. Your Committees received comments on this measure from the Hawaii National Guard Youth Challenge Academy and one individual.

Your Committees find that the Department of Education's High Core Program serves students who are identified by their home schools as severely alienated or at-risk. The goal of the High Core Program is to reduce and prevent student dropouts in the school district. In addition to academics, the High Core Program helps these at-risk students develop appropriate socioemotional competencies and other self-development through guidance and counseling activities.

This measure appropriates funds to allow the Department of Education to replicate similar alternative schools in the Leeward and Honolulu districts.

Your Committees have amended this measure by:

- (1) Specifying that the alternative schools shall service at-risk students from all the secondary schools in the respective school districts, who are referred by their home school after all school level resources have been utilized;
- (2) Requiring the alternative schools to offer a variety of programs to meet the students' needs;
- (3) Specifying the criteria that shall be used in identifying participants for the alternative schools;
- (4) Deleting references to "grant-in-aid";
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 419, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 419, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 208 (Joint) Education and Judiciary and Labor on S.B. No. 562, S.D. 1**

The purpose and intent of this measure is to prohibit certain employers from discharging or otherwise discriminating against an employee who is a parent, guardian, or grandparent having custody of one or more children in kindergarten or grades one through twelve for taking time off to participate in the employee's children's school activities; provided that certain requirements are met.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii State Parent Teacher Association, Community Children's Council, Filipino American Citizens League, Hui for Excellence in Education, Special Education Advisory Council, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Human Resources Development and two individuals. Your Committees received comments on this measure from the Department of Labor and Industrial Relations and The Chamber of Commerce of Hawaii.

Your Committees find that it is crucial that parents be involved in their children's education. Evidence shows that parent involvement improves student achievement. With the constant demand on working families and the need to promote stability and economic security in the home, both parents should have the option of taking leave from their employment for purposes related to their children's education.

Your Committees further find that twelve states currently require employers to allow time for employees to participate in their children's education with California being the most progressive, giving parents who work for businesses with twenty-five or more employees up to forty hours per year to participate in their children's school activities.

However, your Committees believe that further examination into requiring employers to allow time for employees to participate in their children's education is warranted.

Accordingly, your Committees have amended this measure by:

- (1) Deleting sections 2, 3, 4, and 5 of this measure, thereby removing the requirement that employers allow a parent, guardian, or grandparent having custody of one or more children in kindergarten or grades one through twelve to take time off to participate in the employee's children's school activities;
- (2) Inserting language to require the Legislative Reference Bureau to conduct a study on family school leave that examines the feasibility and potential impact of requiring employers to allow parents and guardians of school-aged children to take leave from their employment to participate in their children's educational activities; provided, in part, that the Legislative Reference Bureau shall work with the Department of Labor and Industrial Relations, The Chamber of Commerce of Hawaii, and interested stakeholders, including but not limited to the Hui for Excellence in Education and Hawaii Parent Teacher Student Association, in conducting the study;
- (3) Inserting language to require the Legislative Reference Bureau to submit a report to the Legislature; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 562, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 562, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 5. Noes, none. Excused, none.

**SCRep. 209 (Joint) Commerce and Consumer Protection and Technology and the Arts on S.B. No. 1259, S.D. 1**

The purpose and intent of this measure is to clarify that a license applicant does not have a significant privacy interest in records that show relevant experience, trade examination results, or adequate bonding and makes this information contained in government records subject to disclosure.

Your Committees received testimony in support of this measure from the Iron Workers Stabilization Fund. Your Committees received testimony in opposition to this measure from the Records and Identification Division of the Honolulu Police Department. Your Committees received comments on this measure from the Office of Information Practices.

Your Committees find that this measure clarifies that individuals do not have significant privacy interests in certain records relating to licensing requirements. Because an individual does not have a significant privacy interest in this licensing information, it is public information.

Your Committees further find that this measure amends the Uniform Information Practices Act (Modified), codified as chapter 92F, Hawaii Revised Statutes, by providing that “notwithstanding any law to the contrary”, the disclosure of a record shall not constitute a clearly unwarranted invasion of personal privacy if the public interest in disclosure outweighs the privacy interest. However, your Committees additionally find that this suggested amendment creates conflicts between the Uniform Information Practices Act and other statutes and an inconsistency within the Uniform Information Practices Act itself and should be removed.

Your Committees also find that amendments are necessary to ensure that the proposed exclusions about licensing information pertain only to individuals who currently hold valid licenses, similar to the existing requirements about licensees in the Uniform Information Practices Act.

Accordingly, your Committees have amended this measure by:

- (1) Removing language that would have amended subsection 92F-14(a), Hawaii Revised Statutes;
- (2) Specifying that the licensing information proposed to be excluded from an individual’s significant privacy interest applies to licensees only; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1259, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1259, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

**SCRep. 210 (Joint) Commerce and Consumer Protection and Technology and the Arts on S.B. No. 1040**

The purpose and intent of this measure is to require the Public Utilities Commission to consider the value of improving electrical generation, transmission, and distribution systems and infrastructure through the use of advanced grid modernization technology throughout the State.

Your Committees received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawaiian Electric Company, Inc.; Sierra Club, Hawaii Chapter; and Blue Planet Foundation. Your Committees received testimony in opposition to this measure from Life of the Land.

Your Committees find that this measure provides clear direction to the Public Utilities Commission with respect to grid infrastructure improvements and gives the Public Utilities Commission legislative guidance to consider the implementation of advanced grid modernization technologies as it carries out its duties.

Your Committees further find that advanced grid modernization technologies can provide system operators and consumers with multiple benefits, including improved grid communications, electric system reliability, and operational efficiencies. Smart grid technologies, which are included in advanced grid modernization technology, are also highly critical early stage technologies that can enable the State to meet the renewable portfolio standards requirements under the Hawaii Clean Energy Initiative. This measure ensures that the Public Utilities Commission considers the value of these technologies as a means of improving the State’s electric system.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1040 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 7. Noes, none. Excused, none.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 211 (Joint) Commerce and Consumer Protection and Technology and the Arts on S.B. No. 511**

The purpose and intent of this measure is to clarify the relationship between the Uniform Commercial Code article 4A and the federal Electronic Fund Transfer Act.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Commission to Promote Uniform Legislation.

Your Committees find that article 4A of the Uniform Commercial Code, codified as chapter 490:4A, Hawaii Revised Statutes, was originally drafted to govern transfers between commercial parties. At that time, the federal Electronic Funds Transfer Act only governed consumer wire transfers. Because the Uniform Commercial Code section 4A-108 was drafted based on the Electronic Funds Transfer Act's original scope, it excludes any funds transfer governed in any part by the Electronic Funds Transfer Act.

Your Committees further find that amendments made to the Electronic Funds Transfer Act by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 will cause the Electronic Funds Transfer Act to govern a broader category of remittance transfers even if they are not electronic funds transfers under the Electronic Funds Transfer Act. Under the current Uniform Commercial Code section 4A-108, certain types of remittance transfers will not be subject to either Uniform Commercial Code article 4A or the rules applicable to electronic funds transfers under the Electronic Funds Transfer Act. The amendments proposed by this measure are necessary to eliminate the gap in the governing law between the Uniform Commercial Code article 4A and the Electronic Funds Transfer Act.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 511 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 212 (Joint) Economic Development, Government Operations and Housing and Water and Land on S.B. No. 707, S.D. 1**

The purpose and intent of this measure is to establish a state smart growth public infrastructure policy that requires the Department of Transportation, Department of Education, Department of Health, Department of Accounting and General Services, University of Hawaii, Hawaii Public Housing Authority, and Department of Land and Natural Resources to ensure that their public infrastructure projects meet certain criteria.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which repeals exemptions to various statutory requirements presently held by the Department of Hawaiian Home Lands, Agribusiness Development Corporation, Public Land Development Corporation, Hawaii Tourism Authority, Hawaii Housing Finance and Development Corporation, Hawaii Community Development Authority, Aloha Tower Development Corporation, High Technology Development Corporation, Hawaii Strategic Development Corporation, Natural Energy Laboratory of Hawaii Authority, Research Corporation of the University of Hawaii, and Hawaii Public Housing Authority, and repeals the Public Land Development Corporation.

Your Committees received testimony in support of the proposed S.D. 1 from the Sierra Club, Outdoor Circle, Life of the Land, and one individual. Your Committees received testimony in opposition to the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; Office of Planning; Department of Hawaiian Home Lands; Department of Defense; Natural Energy Laboratory of Hawaii Authority; Hawaii Strategic Development Corporation; University of Hawaii; Hawaii Tourism Authority; Hawaii Lodging and Tourism Association; High Technology Development Corporation; Research Corporation of the University of Hawaii; Hawaii Community Development Authority; Agribusiness Development Corporation; and Department of Transportation. Your Committees received comments on the proposed S.D. 1 from the Department of Land and Natural Resources; Unite Here! Local Hawaii; League of Women Voters; and six individuals.

Your Committees find that the State needs a comprehensive and integrated approach to utilizing its assets and working with the private sector to expand economic growth in Hawaii. Avoiding duplication in processes and the costs associated with duplicative efforts is imperative. The State has developed a number of corporations and agencies over the past forty years, but there is insufficient coordination among these entities. This has resulted in numerous siloed agencies that operate independently, creating inefficiencies in government. The Department of Land and Natural Resources and other agencies find that existing corporations and agencies are limited in their scope and capabilities, and the lack of coordination and integration prevents them from effectively generating economic growth in Hawaii.

Your Committees further find that the State needs to address critical aging infrastructure issues through upgrades and repairs and lay a solid foundation for new developments. One of the most effective tools in achieving this goal is partnerships between the Department of Land and Natural Resources and federal agencies, counties, or private parties. The Public Land Development

Corporation was intended to facilitate these partnerships. However, strong opposition to the development of state lands and natural resources, including energy resources which could make the State less dependent on outside sources for food and energy, has impeded the work of the Public Land Development Corporation.

Given the need for integrated government approaches critical infrastructural improvements, and strong foundations for economic growth, your Committees recognize the need for further discussion about how to best coordinate and integrate the efforts of government and the private sector to expand economic growth. Your Committees believe that if the Public Land Development Corporation is not the answer, a potential solution may be another corporation or agency such as a Native Hawaiian Economic Development Corporation, which would pursue economic undertakings for native Hawaiians.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Repeal chapter 171C, Hawaii Revised Statutes, the Public Land Development Corporation;
- (2) Make conforming amendments that remove all references in the Hawaii Revised Statutes and Session Laws of Hawaii to the Public Land Development Corporation;
- (3) Return any remaining funds of the Public Land Development Corporation from prior appropriations; and
- (4) Transfer the two positions created by Act 55, Session Laws of Hawaii 2011, to the Department of Land and Natural Resources.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 707, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 707, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 213 Commerce and Consumer Protection on S.B. No. 1021, S.D. 1**

The purpose and intent of this measure is to clearly provide that directors of a nonprofit corporation shall have access to the books and records of the corporation to the extent reasonably related to their duties.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawai'i Alliance of Nonprofit Organizations, and Aloha Society of Association Executives.

Your Committee finds that at common law, directors of corporations have an absolute right of access to corporate records. Although sections of the Hawaii Revised Statutes create a judicially enforceable right for members of membership-based nonprofit corporations to inspect the books and records of the corporation, there is no comparable provision that a director shall have the same reasonable access.

Your Committee further finds that this measure authorizes directors of a nonprofit corporation to have access to corporate records for proper purposes. This ensures meaningful self regulation by directors of the corporation and allows directors to adhere to their statutory duty of care.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1021, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1021, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 214 Commerce and Consumer Protection on S.B. No. 1078, S.D. 1**

The purpose and intent of this measure is to authorize the Hawaii Medical Board to:

- (1) Summarily suspend a license; and
- (2) Require a licensee to submit to a mental or physical examination.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Hawaii Medical Association, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that the Hawaii Medical Board and the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs have implemented a number of initiatives to improve investigation and handling of complaints against physicians and enhance protection of the State's healthcare consumers. One such consumer protection proceeding is the ability for a licensing authority to summarily suspend a professional license. Your Committee further finds that although licensing authorities are currently able to summarily suspend many different types of licensees, this measure tailors the process for summary suspension to more appropriately address proceedings for physician licensees.

Your Committee additionally finds that this measure will permit the Hawaii Medical Board to remain current with the enforcement and disciplinary proceedings available in other states. Licensing authorities may summarily suspend a license pending disciplinary action in approximately forty-five other states, and may order a licensee to submit to a physical and mental examination in approximately thirty-nine other states.

Your Committee notes that due to Hawaii's small network of professionals, it may be difficult for licensees to come forward with information that could indicate a fellow licensee may be guilty of unprofessional conduct or may be impaired. Your Committee concludes that language providing immunity for these situations should be included in this measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the authorization in this measure to summarily suspend a license, hold hearings, and determine if a licensee is able to practice medicine with reasonable skill and safety to patients is provided to the Hawaii Medical Board, rather than the Hawaii Medical Board or its delegates;
- (2) Deleting the authority of the Hawaii Medical Board to summarily suspend a license upon a specific determination that failure to do so would result in misrepresentation upon consumers;
- (3) Specifying that a hearing to show cause why an order of summary suspension should be terminated must be held within seven, rather than ten, business days of receipt of a licensee's request for the hearing;
- (4) Requiring that an order summarily suspending a license shall remain in effect no longer than thirty business days;
- (5) Providing for additional immunities that specify any person licensed by the Hawaii Medical Board who provides information to the Board indicating that a Board licensee may be guilty of unprofessional conduct or may be impaired because of drug or alcohol abuse or mental illness shall not be liable for any damages in any civil action based on the communication; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1078, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 215 Energy and Environment on S.B. No. 612, S.D. 1**

The purpose and intent of this measure is to require agreements to purchase geothermal and non-fossil fuel energy to contain provisions that provide independent power producers with compensation for excessive curtailment.

Your Committee received testimony in support of this measure from Blue Planet Foundation, Hawaii Solar Energy Association, Life of the Land, Sierra Club Hawaii Chapter, and Indigenous Consultants LLC. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committee received comments on this measure from the Public Utilities Commission and First Wind.

Your Committee finds that the promotion of renewable energy production within the State is essential to the security and stability of Hawaii. Energy costs in Hawaii are among the highest in the nation and independent producers of renewable energy are one of the keys to reducing energy costs and promoting energy independence. Your Committee further finds that independent, renewable energy producers may overstate their prices if they have an expectation of being curtailed by the electric utility without compensation for the curtailment. This measure will require electric utilities to provide compensation to independent producers of renewable energy for excessive curtailment, thereby promoting energy independence and furthering the State's economic and energy security.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 612, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 216 Energy and Environment on S.B. No. 19**

The purpose and intent of this measure is to:

- (1) Exempt landlords and lessors who install renewable energy systems on their property and provide or sell power generated from the renewable energy system to an electric utility or lessee or tenant from the definition of "public utility"; and
- (2) Require that the rate schedule charged to the lessee or tenant for the power generated by the renewable energy system is fixed by the lease agreement.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Blue Planet Foundation; Hawaii PV Coalition; Carmel Partners; Forest City Hawaii Residential, Inc.; Castle and Cooke Hawaii; Distributed Energy Partners; and five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Building Industry Association Hawaii.

Your Committee finds that this measure will exempt landlords who install renewable energy systems from the onerous requirements imposed on public utilities and will serve as an incentive for landlords to adopt renewable energy systems and assist the State in meeting its clean energy objectives. Your Committee further finds that this measure will protect tenants by requiring landlords to fix renewable electricity rates in lease agreements.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 19 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 217 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 988**

The purpose and intent of this measure is to require landlords and lessors of commercial real property to provide disclosure of energy costs to prospective tenants prior to execution of the rental agreement and, upon failure to do so, allow lessees to terminate the rental agreement without liability.

Your Committees received testimony in support of this measure from Sierra Club Hawaii Chapter and Blue Planet Foundation. Your Committees received testimony in opposition to this measure from the Land Use Research Foundation.

Your Committees find that currently landlords and lessors of commercial real property are not required to disclose energy costs to prospective tenants and find that energy costs in the State are among the highest in the nation. Your Committees find that prospective tenants of commercial real property have a right to know the energy costs associated with the rental of a commercial real property space prior to entering into a rental agreement in order to make a fully informed decision.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 988 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Nishihara, Solomon, Taniguchi).

**SCRep. 218 Water and Land on S.B. No. 760**

The purpose and intent of this measure is to make a grant-in-aid to the County of Hawaii for the costs of improvements to Waimea District/Regional Park, to be funded jointly with the County of Hawaii.

Your Committee received testimony in support of this measure from the County of Hawaii Office of the Mayor; County of Hawaii Parks and Recreation Department; Waimea District Builders; Gold Coast Little League Softball; Waimea Table Tennis Club; The Christopher Nance Children's Foundation; North Hawaii Little League; Ho'oNani Place, LLC; Horizon Automotive; North Hawaii Little League; and approximately two hundred individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the population of the Waimea community has nearly tripled in the last twenty or more years and the community has no parks comparable to other communities on the Big Island, although property taxes tend to be higher than normal with the Mauna Kea telescope and other new developments and housing in the district. Additionally, there are three high schools and four middle schools in the region, which is populated by about eight thousand people.

Waimea is also a growing sports community. As of last March, there was a twenty-three percent increase in the County of Hawaii's parks and recreation sports community, which is already active in soccer, football, baseball, little league, softball, rugby, basketball, baseball, volleyball, frisbee, and T-ball. Despite Waimea's vibrant sports community, the district currently has only one small five-acre park in the middle of town. It has one softball field and two small practice fields. Women's softball, men's softball, senior softball, little league from T-ball to seniors, football, soccer, and rugby all share the same field.

The Waimea community has long been lacking in active playing fields for various sports, and for more than twenty years, the community has been promised a park to help all the sports organizations and non-profits to congregate. Without sufficient facilities, it does not have enough space to support the increase of youth and adult sports programs, nor does it have a county gym to support these many youth and adult team sports. Users of the five-acre park often have to change the configuration of a field by moving bases, take out or put back the pitcher's mound, or add or remove striping in the outfield. Often when the ball field is being used by the strong hitting leagues, the practice fields cannot be used for safety reasons. Vehicular parking in and around this small park is very limited. Patrons end up parking in the residential area and walking across busy streets to get to the park. Residents have also had to drive over an hour to host their sporting and community events in another town because the small park cannot accommodate all the groups.

Waimea residents have sought new and better park facilities to keep their children and youth active and engaged in healthy, positive activities and to provide recreational opportunities for seniors and families. A lack of sufficient facilities impacts the children and youth by limiting constructive social activities during non-school hours. Participation in sports is known to save many youth from juvenile delinquency and drug addiction, which are on the rise on the Big Island.

In response to the Waimea community's need, the county of Hawaii has undertaken the construction of improvements to the Waimea District/Regional Park. The Mayor of Hawaii County proposes to jointly fund the project with the State and has committed \$5,975,000 in county funds to the project. This measure will provide the State's portion of funding for the construction of

infrastructure – water, sewer, drainage and power; park access roads; parking lot; drainage dike treatment; one regulation football field; one regulation soccer/rugby field; and one comfort station. The master plan includes active sports fields along with a gymnasium or covered all-weather courts. Land has been set aside by Parker Ranch as part of a condition of zoning.

Your Committee finds that the community benefits of construction and improvements to the Waimea District/Regional Park include meeting growing recreational needs of the community; serving the recreational needs of all ages; consolidating competing field use of the variety of sports, such as baseball, soccer, rugby, and football, into the district park while retaining the existing park for softball and casual park recreation; furnishing a gathering area for youth to enable them to achieve a healthier lifestyle and to lower juvenile delinquency rates; and hosting island-wide and statewide athletic events.

Your Committee further finds that young people are gaining an increasing amount of freedom in many places, and this is often a contributing factor to juvenile delinquency. Instead of leaving young and impressionable minds to their own devices, participation in extracurricular activities can keep youth away from negative influences and teach them valuable characteristics such as commitment and teamwork. An active athletic culture can also go far to reduce obesity. The Waimea community and the County of Hawaii are anxiously awaiting construction of the park, and your Committee believes that the impact of this funding measure will be immeasurable in terms of the social and economic gains to the residents and children of Waimea.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 760 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Ihara, Thielen).

**SCRep. 219 Water and Land on S.B. No. 51, S.D. 1**

The purpose and intent of this measure is to appropriate funds for the construction of amenities included in the Sand Island Ocean Recreation Park master plan and to appropriate funds to the State Parks Division of the Department of Land and Natural Resources for general management and administration costs.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that state planning in Hawaii needs to be more proactive and comprehensive and more adequately take into account the long-term consequences of plans and decisions.

Long-term planning is aimed at meeting future needs, usually estimated by extrapolation of present or known needs and projecting future desirable scenarios. Comprehensive planning describes a process that determines community goals and aspirations in terms of long-term community development. The outcome of comprehensive planning is a plan which dictates public policy in terms of transportation, utilities, land use, recreation, and housing. Comprehensive plans typically encompass large geographical areas, a broad range of topics, and a long-term time horizon.

Your Committee believes that the appropriation in this measure for the construction of amenities included in the Sand Island Ocean Recreation Park master plan should be a long-term comprehensive master plan.

Your Committee has amended this measure by:

- (1) Adding a purpose section to express legislative preference for planning to take a comprehensive, long-term approach instead of piecemeal, short-term, reactive planning;
- (2) Clarifying that the appropriation for Sand Island is for the construction of amenities to be included in a long-term comprehensive master plan for Sand Island;
- (3) Requiring the Department of Land and Natural Resources and the Sand Island Business Association to negotiate an even, fair, and equitable exchange of Sand Island Industrial Park property for other private properties, to be completed on or before June 30, 2014, and to report their progress in negotiating the exchange quarterly to the Legislature;
- (4) Changing the effective date to upon approval, except for the appropriation sections, which shall be effective on July 1, 2013; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 51, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 51, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Ihara, Thielen).

**SCRep. 220 Water and Land on S.B. No. 894, S.D. 1**

The purpose and intent of this measure is to appropriate funds and to authorize the Governor, or the Governor's designee, to continue efforts to acquire certain unimproved lands surrounding a resort property located in Kahuku, Oahu.

Your Committee received testimony in support of this measure from the North Shore Community Land Trust, Trust for Public Land, Hawaii's Thousand Friends, Defend Oahu Coalition, and approximately 243 individuals. Your Committee received testimony in opposition to this measure from Oak Tree Capital Management LLC; McCorriston, Miller, Mukai, MacKinnon LLP; and numerous individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

The subject property under negotiation includes the unimproved lands adjacent to the Turtle Bay Hotel and Resort. The subject matter of this measure dates back to the latter years of the previous administration as part of an effort to purchase and protect precious natural resource lands from development. Despite two separate attempts to acquire the land, nothing has been successfully completed, and the purchase is still pending.

Your Committee finds that it is in the public's best interest to protect and preserve Hawaii's historic and cultural heritage. The proposed expansion of the property located in the ahupuaa of Hana Kaeo in Kahuku on the Island of Oahu is contrary to this public interest. Your Committee believes that it is in the public's best interest to continue efforts to acquire the property for preservation by purchasing those lands by means of a voluntary agreement if possible, reserving the right to obtain it by eminent domain if necessary.

Your Committee heard lengthy testimony from interested persons and entities for and against this measure. Oak Tree presented the Committee with the latest update of its development plans. Residents who live in the North Shore area and appeared to testify were generally supportive of the development as an economic development stimulus to the largely rural and undeveloped area. Other residents oppose development on the grounds that the North Shore represents perhaps the last area of undeveloped country land on Oahu.

Your Committee is impressed with the community involvement and input on this issue and can see both sides of the argument. On the one hand, a cogent argument can be made that the Turtle Bay Hotel and Resort is the only major economic stimulus for the area in the form of employment and future affordable housing. On the other hand, the slogan "keep the country country" has merit, particularly when considering the potentially disruptive impact of the expansion on rural lifestyles, particularly impacts of traffic congestion and the undeniable demands on infrastructure improvements such as roads and sewers.

Your Committee is cognizant that residents of the North Shore prefer to live in a rural environment and live there by choice rather than by circumstance. However, the North Shore represents perhaps the last bastion of developable land, which makes the North Shore the symbolic lightning rod on the issue of development and tourism, particularly considering the State's limited industrial potential and its disproportionate reliance on tax revenues.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 894, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 894, S.D. 1, and be referred to the Committees on Judiciary and Labor and Tourism and Hawaiian Affairs and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Ihara, Thielen).

**SCRep. 221 (Joint) Public Safety, Intergovernmental and Military Affairs and Technology and the Arts on S.B. No. 67, S.D. 1**

The purpose and intent of this measure is to:

- (1) Create procedural and administrative requirements for law enforcement agencies for eyewitness identifications of suspects in criminal investigations; and
- (2) Grant a defendant the right to challenge any eyewitness identification to be used at trial in a pretrial evidentiary hearing.

Your Committees received testimony in support of this measure from the Community Alliance on Prisons, American Civil Liberties Union of Hawaii, Hawaii Women's Coalition, and one individual. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; the Criminal Investigation Division, Honolulu Police Department, City and County of Honolulu; and the Police Department, County of Hawaii.

Your Committees find that mistaken eyewitness identification has been shown to have contributed to the wrongful conviction in approximately seventy-five percent of the nation's two hundred eighty-nine exonerations. Over the past thirty years, a large body of peer-reviewed, scientific research and practice has emerged showing that simple systemic changes in administering eyewitness identification procedures can greatly improve the accuracy of eyewitness identifications. Your Committees further find that more accurate eyewitness identifications increase the ability of police and prosecutors to convict the guilty and protect the innocent. The people of Hawaii will benefit from the improvement of the accuracy of eyewitness identifications.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2020, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 67, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 67, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Green).

Technology and the Arts

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 222 Public Safety, Intergovernmental and Military Affairs on S.B. No. 442, S.D. 1**

The purpose and intent of this measure is to establish a misdemeanor offense of promoting intoxicating liquor to a person under the age of twenty-one for recklessly: selling, offering to sell, influencing the sale, service, delivery, or giving of intoxicating liquor to a person under 21 years or permitting a person under 21 years to possess intoxicating liquor while on property under a liquor licensee's control.

Your Committee received testimony in support of this measure from the Honolulu Police Department, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; and Department of Liquor Control, County of Maui. Your Committee received testimony in opposition to this measure from the Honolulu Liquor Commission.

Your Committee finds that the consumption of liquor by minors continues to be a significant public health issue. The goal of this measure is to ensure that those selling, serving, delivering, or giving intoxicating liquor verify the date of birth of the person receiving the intoxicating liquor, resulting in increased compliance with liquor laws. This measure lowers the standard of care expected from licensees when serving liquor to those of questionable age, from that of knowingly to recklessly, which eases the burden of proof in prosecuting this offense.

Your Committee has amended this measure by deleting its contents and inserting language from H.B. 1060 (Regular Session of 2013), which:

- (1) Amends the existing offense of promoting intoxicating liquor to a person under the age of twenty-one under section 712-1250.5, Hawaii Revised Statutes, to change the state of mind element from "knowingly" to "recklessly"; and
- (2) Amends section 281-78, Hawaii Revised Statutes, to specify that any liquor licensee or its employee that sells, serves, or furnishes any liquor to a minor or allows a minor to consume any liquor shall be guilty of the offense of promoting intoxicating liquor to a person under the age of twenty-one under section 712-1250.5, Hawaii Revised Statutes; and
- (3) Contains a savings clause.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 442, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 223 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1224, S.D. 1**

The purpose and intent of this measure is to require counties to adopt reasonable standards to allow the construction of one single-family dwelling unit and one accessory dwelling unit on each lot where a residential dwelling unit is permitted.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law and Economic Justice. Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting, City and County of Honolulu. Your Committee received comments on this measure from the County Council, County of Maui.

Your Committee finds that Hawaii's housing costs exceed the national average. The severe affordable housing shortfall has contributed to Hawaii's homelessness rate, which is the third highest among the states. Hawaii's affordable housing crisis requires creative solutions, such as accessory dwelling units. Accessory dwelling units are growing in popularity, and in many cities they are a key component of the city's affordable housing plan. Permitting the construction of accessory dwelling units on land that has already been developed for residential use is an efficient, inexpensive, and sustainable way to create more affordable housing.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2020, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1224, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1224, S.D. 1, and be referred to the Committee on Economic Development, Government Operations and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 224 Public Safety, Intergovernmental and Military Affairs on S.B. No. 855**

The purpose and intent of this measure is to clarify the authority of counties to adopt by ordinance gambling laws that do not conflict with state laws.

Your Committee received testimony in support of this measure from the Hawaii Family Forum, Hawaii Catholic Conference, Hawaii Coalition Against Legalized Gambling, and one individual.

Your Committee finds that Hawaii and Utah are the only two states in the nation where all forms of gambling remain illegal. County governments in Hawaii can effectively prevent gambling in their counties by enacting and enforcing zoning, licensing, and

consumer protection laws. This measure would allow counties to control, deter, or otherwise affect gambling by ordinance in accordance with state law.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 225 Public Safety, Intergovernmental and Military Affairs on S.B. No. 987**

The purpose and intent of this measure is to require the assessment of impact fees prior to issuance of a water meter and require that impact fees be collected in full before or upon issuance of the water meter.

Your Committee received testimony in support of this measure from the Department of Water, County of Kauai.

Your Committee finds that the current timing of collection of impact fees for water meters in certain counties, such as Kauai, does not allow sufficient flexibility for planning or to account for changes that may be made up until the time the water meters are installed.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 987 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 226 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1175**

The purpose and intent of this measure is to:

- (1) Update chapter 329, Hawaii Revised Statutes, to make it consistent with amendments in federal law on controlled substances;
- (2) Amend section 329-14, Hawaii Revised Statutes, to add new controlled substances emergency scheduled by the State under section 329-11, Hawaii Revised Statutes; and
- (3) Amend section 329-75(h), Hawaii Revised Statutes, to limit the penalty to violations of section 329-75(g), Hawaii Revised Statutes, relating to pseudoephedrine.

Your Committee received testimony in support of this measure from the Department of Public Safety and the Honolulu Police Department, City and County of Honolulu.

Your Committee finds that due to the growing problem of synthetic hallucinogenic substances being developed for sale to the public as “herbal incense” or “bath salts” in the State, the Department of Public Safety’s Narcotics Enforcement Division, as well as the Federal Drug Administration, have attempted to protect the public by placing in schedule the ever-increasing number of synthetic cannabinoids and cathinones labeled as “not for human consumption” but sold in retail shops with the promise of powerful hallucinogenic legal highs. Last year, state and county law enforcement began discovering a new synthetic cannabinoid being sold throughout the State, UR-144 Tetramethylcyclopropanoylindole, which this measure adds to section 329-14, Hawaii Revised Statutes. This measure also amends section 329-75(h), Hawaii Revised Statutes, to update the corresponding penalties for sales of products, mixtures, or preparations containing pseudoephedrine in order to protect Hawaii’s residents. Your Committee finds that these updates to Hawaii’s Uniform Controlled Substances Act are in the interest of public health and safety.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1175 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 227 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1180**

The purpose and intent of this measure is to require the Department of Public Safety to:

- (1) Make certain considerations when determining whether a substance should be emergency scheduled; and
- (2) Post a public notice at the State Capitol, in the Office of the Lieutenant Governor, and on the Department’s website thirty days prior to the effective date of any emergency scheduling of a substance.

Your Committee received testimony in support of this measure from the Department of Public Safety and the Department of the Attorney General.

Your Committee finds that section 329-11(e), Hawaii Revised Statutes, permits the Administrator of the Narcotics Enforcement Division of the Department of Public Safety (NED) to place new drugs into the controlled substances schedules on an emergency basis but does not presently contain clear notices provisions. The emergency scheduling provision is important because it allows law enforcement to combat new “designer” drugs that are constantly being created in order to skirt the Uniform Controlled Substances Act.

This measure will require the NED Administrator to provide thirty days’ notice to the public before emergency scheduling goes into effect and clarify where notice is to be posted. The measure also clarifies which factors the Administrator must consider in determining whether to add certain drugs to the controlled substance schedules via the emergency scheduling process. These amendments are necessary to address legal requirements of notice, due process, and delegation powers.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1180 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 228 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1287**

The purpose and intent of this measure is to:

- (1) Establish an employer income tax credit for taxpayers who maintain employee insurance coverage for National Guard members for the duration of the National Guard members' active duty;
- (2) Expand the powers of the Governor and Governor's designee in calling the National Guard into active duty;
- (3) Allow the Adjutant General to order the National Guard and other components of the militia into active service for nonemergency purposes that are necessary and attendant to the mission of the Department of Defense; and
- (4) Expand the rights granted to National Guard members to incorporate rights granted under the Servicemembers Civil Relief Act and the Uniformed Services Employment and Reemployment Rights Act.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that existing law does not require employers to provide insurance coverage for employees who take leave for a purpose other than personal medical reasons. This measure reduces the burden on employers if they choose to maintain an employee's insurance coverage when that employee is ordered to active duty in the National Guard.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 229 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1328**

The purpose and intent of this measure is to appropriate funds to the Department of Defense (DOD) for the civil air patrol.

Your Committee received testimony in support of this measure from the Hawaii Wing Civil Air Patrol and nine individuals.

Your Committee finds that an appropriation to DOD for civil air patrol will support efforts to provide training in search and rescue activities, perform tsunami warning missions, offer aerospace education to cadets, and perform community service. The funds provided to DOD will assure that Hawaii has trained pilots, observers, and scanners who can respond to emergencies.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1328 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 230 Human Services on S.B. No. 308, S.D. 1**

The purpose and intent of this measure is to appropriate monies for a grant to establish and operate a comprehensive service center for the deaf, hard of hearing, and deaf-blind.

Your Committee received testimony in support of this measure from the Department of Human Services, Disability and Communication Access Board, Deaf and Hard of Hearing Advisory Board, Deaf Ala Moana Food Group, and twenty individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that a center providing comprehensive services for deaf, hard of hearing, and deaf-blind individuals in Hawaii has been the dream of the deaf community in Hawaii since 1972. The creation of a comprehensive service center is intended to promote individual growth, social awareness, productivity, and equality by empowering deaf, hard of hearing, and deaf-blind persons to be full participants in Hawaii's overall community. Your Committee further finds that the Department of Human Services Division of Vocational Rehabilitation is in the process of establishing a comprehensive service center for clients they serve. Members of the deaf, hard of hearing, and deaf-blind community who are not clients of Vocational Rehabilitation will not be able to participate in center services. This measure will allow the comprehensive service center to serve the entire community of deaf, hard of hearing, and deaf-blind people so that they may all benefit from the center.

Your Committee has amended this measure by:

- (1) Identifying in greater detail the individuals who will benefit from a comprehensive service center;
- (2) Changing the appropriation type from 42F grants to general fund appropriations;
- (3) Inserting an appropriation amount of \$300,000 to the Department of Human Services to establish the comprehensive service center;

- (4) Inserting an appropriation amount of \$300,000 to the Department of Human Services to operate the comprehensive center; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 308, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 308, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 231 Human Services on S.B. No. 390, S.D. 1**

The purpose and intent of this measure is to appropriate funds for the social services programs formerly funded under the temporary assistance for needy families program.

Your Committee received testimony in support of this measure from the Department of Education; the Office of Community Services; the Hawaii Youth Services Network; KEY Project; the Hawaii State Coalition Against Domestic Violence; Hale Opio Kauai, Inc.; HACBED; the Community Alliance for Mental Health; Women Helping Women; and Planned Parenthood of Hawaii. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that it is imperative that the State address the conditions that keep our citizens in poverty or push them toward poverty. Teen pregnancy, illiteracy, and lack of family cohesion are three areas that can be targeted through the reinstatement of funding to programs that arm participants with the skills and abilities necessary to change behaviors and develop self-sufficiency.

Your Committee further finds that UPLINK is an after-school program for middle-school students in Hawaii that keeps youth actively involved in their school and community, allows youth to exercise daily, explores academic and career opportunities for youth, teaches youth how to prepare healthy meals, keeps youth engaged in positive activities, and reduces opportunities to engage in negative lifestyle choices. The focus of the program, as mandated by the Department of Human Services, is to provide a safe and nurturing environment to those immediate hours after school, from 2:30 to 5:30 p.m., when students may be tempted to engage in "risky" behaviors. UPLINK accepts all students who want to participate and whose parents have registered them for the program at their individual schools.

Your Committee further finds that UPLINK encourages students to make sound decisions in regards to sexual activity and drugs, learn how to be respectful of others, nurture relationships, develop competencies that can be carried into later experiences, and make contributions to the community. In five years, no middle school pregnancies have occurred among students participating in the program. The program also provides academic and remediation support to students in grades six, seven, and eight, providing optional high interest activities that focus on developing positive character traits in what schools refer to as the 5C's: character, confidence, competence, connection, and contribution. Fourteen of the schools reported that students in the program passed all their classes in the ninety to one hundred percent range.

Your Committee has amended this measure by deleting its contents and inserting language to describe the UPLINK program and its funding needs and appropriate an unspecified amount of funds to the Department of Human Services for non-school hour positive youth programs, an UPLINK administrator in the Department of Education, and other UPLINK staffing needs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 390, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 232 Agriculture on S.B. No. 591, S.D. 1**

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to fund capital improvements on the former Galbraith Estate property.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, Office of Hawaiian Affairs, Hawaii Farm Bureau Federation, Local Food Coalition, Ulupono Initiative, and Hawaii Cattleman's Council. Your Committee received comments from the Department of Budget and Finance.

Your Committee finds that this measure will provide the capital necessary to make improvements and develop the Galbraith Estate land recently acquired by the State for agricultural endeavors.

Your Committee has amended this measure by clarifying that the State acquired over 1,700 acres of land from the Galbraith Estate, 1,207 acres of which was acquired by the Department of Agriculture and the rest of which was acquired by the Office of Hawaiian Affairs.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 591, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 591, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Slom).

**SCRep. 233 Agriculture on S.B. No. 737, S.D. 1**

The purpose and intent of this measure is to establish a farmers' market operator license to ensure that greater than fifty percent of vendors in farmers' markets sell food, farm produce, or flowers prepared, grown, or produced in Hawaii.

Your Committee received testimony in support of this measure from Hui O Malama Aina and one individual. Your Committee received testimony in opposition to this measure from the Ala Moana Farmers Market, Haleiwa Farmers Market, and three individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that consumers generally recognize farmers' markets as a venue where vendors sell locally produced or prepared food or agricultural products. In some farmers' markets throughout the State, however, vendors are selling imported agricultural products or products bought from wholesalers, which misleads consumers who believe they are purchasing locally grown products from a farmer. Your Committee further finds that requiring farmers' market operators to be licensed and to ensure that fifty percent of the market's vendors sell locally produced items will be difficult to monitor and enforce and will place a strain on the Department of Agriculture.

Your Committee concludes, however, that truth-in-advertising in farmers' markets is an important public concern and has amended this measure by:

- (1) Removing the farmers' market operator's licensing requirement;
- (2) Removing the requirement that fifty percent of vendors at farmers' markets sell locally grown food and products;
- (3) Requiring that all agricultural products sold at farmers' markets are displayed with a sign or label containing an identity statement declaring the products' geographic origin; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 737, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 737, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 234      Agriculture on S.B. No. 1283, S.D. 1**

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to finance improvements to the Kekaha ditch system, East Kauai irrigation system, Ka'u irrigation system, and Waiahole irrigation system.

Your Committee received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Hawaii Farm Bureau Federation, Local Food Coalition, and Hawaii Cattlemen's Council. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that these funds are necessary to maintain and improve the State's critical irrigation systems to ensure a reliable supply of water for crops.

Your Committee has amended this measure by:

- (1) Appropriating funds from the State's general fund, rather than general obligation bonds, to improve the Kekaha ditch system and East Kauai irrigation system; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1283, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1283, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Slom).

**SCRep. 235      (Joint) Agriculture and Economic Development, Government Operations and Housing on S.B. No. 733, S.D. 1**

The purpose and intent of this measure is to permit the Agribusiness Development Corporation to purchase bonds issued by county or state agencies.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that permitting the Agribusiness Development Corporation to purchase bonds issued by a county or state agency will provide financial flexibility to use funds to support the economic health and stability of the Corporation.

Your Committees further find that permitting the Agribusiness Development Corporation to invest funds as needed to earn income while the funds are idle will also benefit the Corporation.

Accordingly, your Committees have amended this measure by:

- (1) Adding language permitting the Agribusiness Development Corporation to invest any funds held in reserves or sinking funds, or any funds not required for immediate disbursement, in such investments as may be lawful for fiduciaries in the State; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 733, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 733, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 6; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Dela Cruz).

Economic Development, Government Operations and Housing

Ayes, 5. Noes, none. Excused, 2 (English, Wakai).

**SCRep. 236 (Joint) Agriculture and Public Safety, Intergovernmental and Military Affairs on S.B. No. 681, S.D. 1**

The purpose and intent of this measure is to establish a temporary food security task force in the Department of Agriculture to develop an emergency food plan that addresses certain food security issues.

Your Committees received testimony in support of this measure from the Hawaii Organic Farming Association, Hui O Malama Aina, Hawaii Crop Improvement Association, and five individuals. Your Committees received testimony in opposition to this measure from nine individuals. Your Committees received comments on this measure from the Department of Agriculture and one individual.

Your Committees find that the State must be prepared for a catastrophic event that could prevent cargo ships or aircrafts from reaching the State. For the health and safety of its citizens, the task force is necessary to identify an emergency food plan to feed the State should the State become isolated from the rest of the world.

After discussion, your Committees concluded that the Executive Director of the National Disaster Preparedness Training Center at the University of Hawaii would be better suited to act as Chairperson of the task force.

Your Committees have amended this measure by:

- (1) Placing the task force in the National Disaster Preparedness Training Center at the University of Hawaii for administrative purposes;
- (2) Naming the Executive Director of the National Disaster Preparedness Training Center at the University of Hawaii, or the Executive Director's designee, as Chairperson of the task force;
- (3) Retaining the Chairperson of the Board of Agriculture as a member, rather than the Chairperson, of the task force; and
- (4) Adding the Hawaii Organic Farming Association; Hawaii Longline Association; Taro Security and Purity Task Force; Hawaii Aquaculture and Aquaponics Association; and Hawaii Crop Improvement Association as invited members of the task force.

As affirmed by the records of votes of the members of your Committees on Agriculture and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 681, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 681, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Wakai).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 237 (Joint) Agriculture and Education and Higher Education on S.B. No. 592, S.D. 1**

The purpose and intent of this measure is to appropriate funds to operate and implement the Future Farmers of America and 4-H programs.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawaii 4-H Livestock Association, Kohala Center, Lahainaluna Future Farmers of America, Hawaii Association of Independent Schools, Hui O Malama Aina, Hawaii Farm Bureau Federation, Local Food Coalition, Ulupono Initiative, Hawaii Cattlemen's Council, National Future Farmers of America Organization, and four individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawaii and one individual.

Your Committees find that it is imperative that the State engage youth in agricultural education programs, such as 4-H and Future Farmers of America, to promote interest in agricultural endeavors. This is exceptionally critical at this time given that the average age of farmers in the State is approximately sixty years, and promoting the next generation of farmers is a critical step toward increasing Hawaii's self-sustainability and food resiliency.

After discussion, Your Committees recommend that if your Committee on Ways and Means elect to schedule this measure for a hearing that they solicit comments from the Department of Education and the University of Hawaii regarding the amount of funds needed and the feasibility of the agencies to implement the foregoing programs. Your Committees are concerned that the appropriation expended for these two programs will be insufficient to fulfill this measure's mandate.

Your Committees have amended this measure by:

- (1) Deleting the specific appropriation amounts in sections 2 and 3 of the measure;
- (2) Specifying in section 2 that the appropriation is for the Department of Education to fund the Future Farmers of America program only;

- (3) Specifying in section 3 that the appropriation is for the University of Hawaii College of Tropical Agriculture and Human Resources to fund the 4-H program only; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 592, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 592, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

Higher Education

Ayes, 7. Noes, none. Excused, none.

**SCRep. 238 Technology and the Arts on S.B. No. 997, S.D. 1**

The purpose and intent of this measure is to clarify the duties of the State Archivist, to enable the Department of Accounting and General Services to address the management of the digital archives and protection of electronic records of enduring value, and to establish the state archives preservation and long-term access special fund.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that as a centralized repository of records requiring long-term preservation and access, the digital archives will reduce costs by eliminating duplicated services; deliver better services to the public by centralizing access to archival digital records; assist agencies in addressing the difficulty of the long-term preservation of digital records; and provide greater accountability and transparency by preserving digital records in a trustworthy repository following international standards. The digital archives will enable the State Archives to fulfill its statutory mandate to properly administer a records management program that includes records created digitally, and to ensure their ongoing preservation for future generations.

Your Committee has amended this measure by:

- (1) Adding definitions of “disposition”, “enduring value”, “preservation”, “records”, and “records retention and disposition schedule”;
- (2) Inserting a state archives preservation fee amount of \$1;
- (3) Clarifying that the state archives preservation fee shall be assessed on documents that are listed on an authorized records retention and disposition schedule as permanent;
- (4) Specifying that the state archives preservation fee shall be used, among other things, to keep electronic records of documents accessible; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 997, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 997, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 239 Technology and the Arts on S.B. No. 1281, S.D. 1**

The purpose and intent of this measure is to make an appropriation for operating expenses of the Kahilu Theatre in Waimea, Hawaii, in the form of a grant from the State Foundation on Culture and the Arts.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts, Waimea Middle Public Conversion Charter School, and numerous individuals.

Your Committee finds that funding for the Kahilu Theatre was discontinued last year due to the economic recession, forcing management to close its doors. The Kahilu Theatre is highly valued by the community since it functioned as both a presenter of professional performing arts events, including music, dance, and theatre, and as a producing organization for youth productions. The arts and music education provided through the Kahilu Theatre is very important to the local public school children because there are insufficient arts and music education opportunities in their schools.

Your Committee has amended this measure by:

- (1) Deleting the specific amount of the appropriation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1281, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1281, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Tokuda).

**SCRep. 240 (Joint) Economic Development, Government Operations and Housing and Commerce and Consumer Protection on S.B. No. 504, S.D. 1**

The purpose and intent of this measure is to prohibit clauses requiring design professionals to defend governmental bodies in procurement contracts that are exclusively for the services of design professionals unless the liability arises from the design professional's fault.

Your Committees received testimony in support of this measure from the American Society of Civil Engineers; American Council of Engineering Companies; Limtiaco Consulting Group; Group 70 International; Insurance Factors; Hilo Direct Consultants, LLC; Architectural Diagnostics, Ltd.; Island Pacific Architecture, Inc.; Wiss, Janney, Elstner Associates, Inc.; Sarwar Structural Engineering Consulting Services; Engineering Concepts, Inc.; Inatsuka Engineering, LLC; Kennedy/Jenks Consultants; Wesley R. Segawa and Associates, Inc.; Kauahikua & Chun; URS Corporation; KAI Hawaii, Inc.; Belt Collins Hawaii, LLC; SSFM International, Inc.; HDR Engineering, Inc.; Austin, Tsutsumi & Associates, Inc.; Shimokawa Nakamura, Inc.; Weston Solutions, Inc.; Bills Engineering, Inc.; Riehm Owensby Planners Architects; Shimabukuro, Endo & Yoshizaki, Inc.; Design Partners Incorporated; Luersen Architects, Inc.; ECS, Inc.; Design Partners Incorporated; Santo Engineers, LLC; HiArch, LLC; AKTA, Ltd.; Yogi Kwong Engineers, LLC; Makai Ocean Engineering, Inc.; Helber Hastert & Fee Planners, Inc.; Fukunaga & Associates, Inc.; WSP Hawaii, Inc.; Shigemura, Lau, Sakanishi, Higuchi and Associates, Inc.; Miyabara Associates, LLC; Thermal Engineering Corporation; Hirata & Associates, Inc.; Akinaka & Associates, Ltd.; Brown and Caldwell; and two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Insurer's Council and the General Contractors Association of Hawaii. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that existing law permits clauses in procurement contracts of \$1,000,000 or more that require design professionals to defend governmental bodies for the liability of others such as contractors and subcontractors. Large contracts are typically in excess of \$1,000,000, but even projects that are less than \$1,000,000 can reach or exceed \$1,000,000 due to amendments to the contract.

Your Committees find that design professional liability insurance only covers damages or injuries caused by a design professional's negligence and will not advance the cost of defending other parties before the negligence of the design professional is established or cover damages caused by other parties. Thus, the design professional is placed in the position of having to pay upfront to defend the governmental body for the liability of others out of the design professional's own pocket. Moreover, unlike contractors or subcontractors, design professionals may be held personally liable because they hold personal licenses.

These risks are often unacceptable for smaller design professional firms in Hawaii, which are not in a position to self-insure or to bear the risk. Your Committees received testimony that due to these risks, smaller local firms have declined to work on government contracts of \$1,000,000 or more.

Your Committees find that the existing law poses unreasonable risks to design professionals and discourages them from working on government contracts. This results in less choice and competition, adversely affecting the long-term interests of the State and the public. This measure will redress the problem by prohibiting defense clauses in any government procurement contract exclusively for the services of design professionals unless the liability arises from the design professional's negligence or fault.

Your Committees have amended this measure by:

- (1) Amending the definition of a "governmental body" to exclude business entities retained or contracted by a public entity to manage or administer a contract for the entity; and
- (2) Making technical, nonsubstantive amendments to section 1 to reflect that the measure pertains to defense, rather than indemnification, clauses in government procurement contracts.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 504, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 504, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 6. Noes, none. Excused, 1 (English).

Commerce and Consumer Protection  
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

**SCRep. 241 (Joint) Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 1234**

The purpose and intent of this measure is to:

- (1) Repeal part III of Act 240, Session Laws of Hawaii 2012, which repealed the High Technology Innovation Corporation (HTIC); and
- (2) Exempt HTIC from chapter 103D, Hawaii Revised Statutes, the Hawaii Public Procurement Code.

Your Committees received testimony in support of this measure from the High Technology Development Corporation and High Technology Innovation Corporation.

Your Committees find that HTIC was established as a not-for-profit corporate body to leverage its tax deductible status and serve as a vehicle to receive donations from the private sector. This provides access to new forms of funding usually not available to state agencies, such as foundation monies and donations from businesses previously assisted by the High Technology Development Corporation. Further, HTIC can serve as an entity to house a proof of concept center, a significant objective of the Governor's HI Growth Initiative.

HTIC's structure combined with the HI Growth Initiative will more easily allow private and public community resources to be pooled, leverage each others' strengths, and coordinate efforts toward the growth and development of the commercial high technology industry in Hawaii. HTIC can also be used to foster inter-agency collaboration and allow for a more holistic approach to economic development.

Your Committees further find that exempting HTIC from the procurement code will aid it in facilitating more public-private funding opportunities.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1234 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

Technology and the Arts  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Tokuda).

**SCRep. 242 (Joint) Education and Transportation and International Affairs on S.B. No. 1082**

The purpose and intent of this measure is to repeal statutory language specifying considerations and provisions the Department of Education must follow when contracting for student transportation.

Your Committees received testimony in support of this measure from the Department of Education and one individual. Your Committees received comments on this measure from the Office of the Auditor.

Your Committees find that student transportation costs have escalated in recent years. In November 2012, the Student Bus Transportation Study Final Report commissioned by the Department of Education found that, among other things, statutory requirements on contract terms hindered the Department's ability to maximize its resources and set contractual terms to help control escalating costs. This measure will allow the Department of Education greater flexibility in setting contract terms and defining student transportation eligibility parameters to improve delivery of services and contain rising costs.

As affirmed by the records of votes of the members of your Committees on Education and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1082 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Transportation and International Affairs  
Ayes, 8; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 1 (Slom).

**SCRep. 243 (Joint) Education and Economic Development, Government Operations and Housing on S.B. No. 1083**

The purpose and intent of this measure is to amend section 103-55(c), Hawaii Revised Statutes, to make wage certification inapplicable to contracts to provide transportation services for school children.

Your Committees received testimony in support of this measure from the Department of Education and one individual.

Your Committees find that student transportation costs have escalated in recent years. In November 2012, the Student Bus Transportation Study Final Report commissioned by the Department of Education found that, among other things, statutory compensation requirements on transportation contracting services have a direct impact on the costs and efficiency of the Department of Education's transportation systems because they establish a minimum bus driver salary. This measure will allow school bus vendors to compete for student transportation contracts without the constraint of complying with labor cost requirements, which would generate significant savings for the State.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1083 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education  
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

Economic Development, Government Operations and Housing

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Wakai).

**SCRep. 244 Technology and the Arts on S.B. No. 1001**

The purpose and intent of this measure is to replace the Comptroller with the Chief Information Officer (CIO) as a member of the Enhanced 911 Board.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Office of Information Management and Technology, and T-Mobile.

Your Committee finds that the Enhanced 911 Board was created to oversee the implementation of Enhanced 911 service by wireless and Voice over Internet Protocol connection service providers and the public safety answering points. The Board's duties include collecting assessments from the connection service providers and overseeing disbursements to public safety answering points to upgrade and maintain the Enhanced 911 system, which is vital to identify and locate 911 callers. Now that the State has a full-time CIO to provide the overall direction and vision for information technology, having the CIO as a member of the Enhanced 911 Board aligns the Board's responsibilities with the State's strategic vision.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1001 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Tokuda).

**SCRep. 245 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1230**

The purpose and intent of this measure is to expand the exceptions on the use of a government motor vehicle for personal use to include an officer or employee of any county board of water supply, rather than only the Board of Water Supply of the City and County of Honolulu.

Your Committee received testimony in support of this measure from the Department of Water, County of Kauai.

Your Committee finds that county employees on neighbor islands should not be treated differently than county employees in Honolulu when operating government motor vehicles under personal use exceptions. This measure provides the employees of the various boards of water supply with a more equitable government motor vehicle policy.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 246 Commerce and Consumer Protection on S.B. No. 1079**

The purpose and intent of this measure is to:

- (1) Amend the definition of "small employer" in the Insurance Code; and
- (2) Apply producer licensing requirements to insurers, health maintenance organizations, and mutual benefit societies.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, Hawai'i Primary Care Association, and Board of Directors of the Hawai'i Health Connector.

Your Committee finds that this measure will make Hawaii's insurance laws consistent with the federal Health Insurance Portability and Accountability Act of 1996 and the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act).

Your Committee further finds that small employers will be able to buy health insurance from the Hawaii health insurance exchange, known as the Hawaii Health Connector, starting in 2014. "Small employer" is currently defined in the Hawaii Revised Statutes as an employer who employs between one and fifty employees. In 2016, under the Affordable Care Act, the definition of "small business" will expand to one hundred employees or fewer. This measure conforms the state definition of "small employer" to the Affordable Care Act's definition of "small business" and therefore ensures broader participation in the Hawaii Health Connector. Your Committee notes that discrepancies currently exist within the federal law itself and between federal and state laws with respect to the definition of an "employee". However, federal regulations to resolve these discrepancies are anticipated to be finalized this spring, and any potential impact on this measure can hopefully be resolved at that time.

Your Committee additionally finds that under the Affordable Care Act, health insurers will be able to offer health insurance through the Hawaii Health Connector. For the protection of the public, this measure requires health insurance producers who sell health insurance to be licensed the same way other insurance producers are licensed.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 247 Commerce and Consumer Protection on S.B. No. 1075**

The purpose and intent of this measure is to mandate that physical therapists practicing in Hawaii obtain a minimum number of continuing competence units and submit evidence of continuing competence at every renewal period, beginning with the December 31, 2016, renewal period.

Your Committee received testimony in support of this measure from the Board of Physical Therapy and Hawaii Chapter of the American Physical Therapy Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that physical therapy is a dynamic health care profession. Your Committee further finds that physical therapists have an increasing role in the public health arena and play a vital role in the development of standards of practice and health care policies. In today's world of quickly changing health care, consumers and patients have the right to assume and expect that their health care provider's current license indicates competence to practice.

Your Committee additionally finds that Hawaii is one of only three states that do not statutorily authorize the state boards of physical therapy to require continuing education or continuing competence of its licensees. This measure requires physical therapist licensees to accumulate thirty units of approved continuing competence in each two-year license cycle. This requirement ensures that physical therapists will remain current in the profession and will practice in a safe, ethical, and legal manner.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1075 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 248 Commerce and Consumer Protection on S.B. No. 423**

The purpose and intent of this measure is to amend references to the "American College of Obstetric and Gynecology" to "American College of Obstetricians and Gynecologists".

Your Committee received testimony in support of this measure from the Office of the Auditor.

Your Committee finds that this measure makes technical nonsubstantive amendments in two sections of the Hawaii Revised Statutes that incorrectly reference the "American College of Obstetric and Gynecology". Your Committee notes that the correct name of the organization that issues guidelines for in vitro fertilization clinics is the "American College of Obstetricians and Gynecologists".

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 423 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 249 (Joint) Education and Public Safety, Intergovernmental and Military Affairs on S.B. No. 48**

The purpose and intent of this measure is to remove:

- (1) A representative from the Department of Education from the membership of the Aerospace Advisory Committee; and
- (2) The Department of Education from the list of state agencies with responsibilities relating to marine and coastal zone management.

Your Committees received testimony in support of this measure from the Department of Education. Your Committees received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism; and five individuals. Your Committees received comments on this measure from Enterprise Honolulu and one individual.

Your Committees find that the Department of Education is required to participate in a number of different boards, commissions, advisory groups, and task forces. These obligations are in addition to and may at times absorb time and energy that the Department could otherwise spend advancing its core mission of providing primary education to over 177,000 of Hawaii's keiki.

However, your Committees note the Department of Education's willingness to continue to assist the Aerospace Advisory Committee by providing guidance or entering into partnerships to help the Aerospace Advisory Committee promote aerospace development within the State.

As affirmed by the records of votes of the members of your Committees on Education and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 48 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
  
Education  
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).  
  
Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 250 Commerce and Consumer Protection on S.B. No. 913, S.D. 1**

The purpose and intent of this measure is to:

- (1) Require a time share plan's disclosure of the financial obligation of the purchaser to consist of a statement that the purchaser is obligated to pay the initial price in the purchase agreement and a list or description of any additional charges;
- (2) Clarify that a sales or acquisition agent is not required to provide any promotional device or instrument to a prospective purchaser prior to making a sales presentation; and
- (3) Repeal the prohibition on selling, offering to sell, advertising for sale, or otherwise offering to give away any tourist activity with the purpose of inducing a person to purchase a time share plan or to attend a time share marketing event.

Your Committee received testimony in support of this measure from the American Resort Development Association and Wyndham Vacation Ownership. Your Committee received testimony in opposition to this measure from the Activities & Attractions Association of Hawaii, Jack Harter Helicopters, and Fair Wind Cruises. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure eliminates the requirement for a time share developer to provide a price list in the disclosure statement that must be filed with the Department of Commerce and Consumer Affairs. Hawaii is one of only two states that require this type of filing, and this requirement is cumbersome for developers as a price list may change on a weekly basis, from one transaction to another, or during negotiations. Your Committee further finds that because the actual price a purchaser pays for a time share interval may not be the price listed in the disclosure statement, requiring a price list in the disclosure statement does not necessarily provide a purchaser with accurate information. This measure amends requirements for the disclosure statement while still providing a prospective purchaser adequate disclosure of their financial obligation.

Your Committee has heard the concerns over the amendment in this measure that would permit timeshare sellers to offer activities at a reduced price to prospective purchasers in exchange for attendance at a timeshare marketing event. Existing law prohibits the sale of tours below the net cost of the activities provided to the time share entity. Removing this prohibition may result in an unfair trade advantage for those entities willing to deeply discount attractions or activities.

Your Committee notes that the intent of this measure was to increase operational efficiencies in the time share industry. It was not intended to undermine the abilities of tour operators, sales agencies, or providers of visitor activities and attractions to regulate ticket prices for their own tours, activities, or attractions. Therefore, amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Removing the repeal on the prohibition on selling, offering to sell, advertising for sale, or otherwise offering to give away any tourist activity with the purpose of inducing a person to purchase a time share plan or to attend a time share marketing event; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 913, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 913, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 251 Commerce and Consumer Protection on S.B. No. 507, S.D. 1**

The purpose and intent of this measure is to create notice requirements for meetings of a planned community association or its board of directors.

Your Committee received testimony in opposition to this measure from Community Associations Institute Hawaii Chapter and four individuals.

Your Committee finds that this measure would impose a fourteen-day notice requirement for any meeting of an association or its board of directors. Your Committee has heard the concerns that the meeting requirements under this measure may set a higher standard for community associations than is currently imposed for condominium associations. Your Committee also understands that the board of directors and committees of a planned community association may need the flexibility to make decisions on an immediate basis for emergency operation matters or litigation-related issues.

Your Committee is sympathetic to these concerns but concludes that it is appropriate and reasonable for a planned community association to provide notice to its members for specific association meetings.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the notice requirement under this measure shall apply to regular annual meetings or special meetings of an association, rather than any meeting of an association or its board of directors;
- (2) Specifying that written notice shall also include any proposal for a special assessment, unless the authority for a special assessment is otherwise provided for in the association's governing documents;
- (3) Clarifying that the requirements of this measure shall not be interpreted to apply to any board meetings or committee meetings of a planned community association;
- (4) Updating the purpose section for clarity; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure is the result of a compromise with interested stakeholders.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 507, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 507, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 252 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 456, S.D. 1**

The purpose and intent of this measure is to transfer in fee simple Mauna Kea State Recreational Area from the Department of Land and Natural Resources to the County of Hawaii on January 1, 2014.

Your Committees received testimony in support of this measure from the County of Hawaii. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the jurisdiction over the Mauna Kea State Recreational Area, which is located on the Island of Hawaii, should rightfully rest with the County of Hawaii as the more appropriate government administrative entity. According to testimony of the Department of Land and Natural Resources, the State and the County of Hawaii had previously worked to develop agreements to effectuate this transfer in 2010.

Your Committees note that this measure includes transfer of jurisdiction provisions to address concerns raised in testimony. It is not the intent of your Committees that this measure in any way impinge upon or interfere with the operations, funding, and activities of the Mauna Kea Observatories.

Your Committees have amended this measure by inserting the tax map key number of the property to be transferred.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 456, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 456, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land  
Ayes, 4; Ayes with Reservations (Shimabukuro). Noes, none. Excused, 3 (Ihara, Ruderman, Thielen).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 253 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 1170, S.D. 1**

The purpose and intent of this measure is to provide alternative civil enforcement options that may be utilized by the Board of Land and Natural Resources in the processing of natural and cultural resource violation cases.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Indigenous Consultant LLC/Innovations Development Group, and Nature Conservancy. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Society for Hawaiian Archeology.

Currently, under section 171-6, Hawaii Revised Statutes, the Board of Land and Natural Resources may levy administrative fines and order encroachment removal and damage restoration for violations of natural and cultural resource laws and regulations. Your Committees find that in many cases the use of these means may not be feasible or optimal.

This measure provides flexibility to the Department of Land and Natural Resources and resource law violators. According to the Department of Land and Natural Resources, the community services in remedial or non-remedial actions responding to resource violations will be imposed only with the prior consent of all the parties involved and will not incur any potential liabilities to the State. This measure encourages parties to voluntarily come into compliance and to proactively address the violations in every way possible and available to them. It will also promote the Department's efficiency by saving the time and cost otherwise needed in enforcement actions. Further, it will promote the participation of various community-based non-profit organizations in partnering with the Department on resource protection and management projects.

Your Committees have amended this measure by:

- (1) Requiring the Board of Land and Natural Resources to adopt rules to implement each of the additional powers contained in this measure to address concerns raised at the hearing on this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1170, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1170, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land  
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Thielen).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Judiciary and Labor  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ihara).

**SCRep. 254 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1361**

The purpose and intent of this measure is to transfer in fee simple certain property located adjacent to or near Banyan Drive in Hilo, Hawaii, to the County of Hawaii on January 1, 2014.

Your Committees received comments on this measure from the Department of Land and Natural Resources and County of Hawaii. Your Committees received testimony in opposition to this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaii.

Your Committees find that the jurisdiction over the Banyan Drive properties located on the Island of Hawaii should rightfully rest with the County of Hawaii as the more appropriate government administrative entity.

Your Committees note that Banyan Drive itself was transferred to the County of Hawaii by Land Office Deed dated July 16, 1969, according to records of the Department of Land and Natural Resources.

Your Committees have amended this measure by:

- (1) Authorizing the transfer of the subject properties as a legislative mandate, rather than through an executive order issued by the Governor;
- (2) Identifying the specific properties along Banyan Drive to be transferred to the County of Hawaii; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1361, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1361, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land  
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Thielen).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 255 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 1007**

The purpose of this Act is to amend Act 82, Session Laws of Hawaii 2003 (Act 82), relating to public land liability, to amend and clarify the definition of "improved public lands."

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of the Attorney General, Corporation Counsel of the City and County of Honolulu, and eleven individuals. Your Committees received testimony in opposition to this measure from Hawaii Association for Justice.

Act 82 established a process in which the State and counties are provided protection from liability on improved public lands when certain requirements are met. This measure ensures that the intent of the Legislature to limit the liability of the State, as well as to preserve the natural beauty of the parks for the use and enjoyment of the public, is accomplished. This measure balances the State's interest in posting warnings at developed and maintained locations where it expects public access against the competing interest of preserving access to the natural beauty of the undeveloped areas of the park system by limiting the State's liability consistent therewith.

Act 82 as currently written, does not distinguish between parks and trails constructed, owned, and maintained by the State and counties and other lands that, although part of the state park system, are unimproved and not maintained by the State or counties. This measure would clarify that the State or counties do not have a duty to warn of dangerous natural conditions on public land that is part of the park system if the land is unimproved and not developed or maintained by the State or county.

This measure also defines and excludes "voluntary trails" from the definition of "improved public lands" since these unofficial trails and routes are created by members of the public without the knowledge or permission of the State or counties.

Your Committees have amended this measure by:

- (1) Deleting the reference to public beach park in the definition of "improved public lands" on the recommendation of the Corporation Counsel of the City and County of Honolulu; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1007, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1007, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Thielen).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Judiciary and Labor

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ihara).

**SCRep. 256 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 102**

The purpose and intent of this measure is to:

- (1) Require a financial institution to report suspected financial abuse against an elder to the appropriate county police department, rather than the Department of Human Services, under certain conditions immediately by telephone and then followed by a written report sent via electronic mail;
- (2) Repeal the Department of Human Services as the contact agency responsible for determining whether the Department has jurisdiction over the elder involved; and
- (3) Require all financial institutions to develop and implement a training program for their employees regarding the reporting requirements for suspected financial abuse of an elder.

Your Committees received testimony in support of this measure from the Department of Human Services, Executive Office on Aging, Hawaii Credit Union League, and Hawaii Bankers Association. Your Committees received testimony in opposition to this measure from the Honolulu Police Department.

Your Committees find that elder financial exploitation is a growing problem in Hawaii. Financial abuse of elders is frequently accompanied by physical and emotional abuse. It is a complex problem with criminal and social components that speak to the need of a multidisciplinary solution. The reporting of financial exploitation through the most appropriate and efficient channel and the resulting timeliness of the investigation are crucial to the protection of assets as well as the health and safety of the victim.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting language from S.B. No. 1098, which:
  - (A) Requires financial institutions to report suspected financial abuse against an elder to the appropriate county police department, rather than the Department of Human Services, immediately by telephone, or as soon as practicably possible, and by written report sent within two business days; and
  - (B) Amends the definition of "financial abuse" to mean to take, appropriate, obtain, or retain, or assist in taking, appropriating, obtaining, or retaining, real or personal property of an elder adult by any means, including undue influence, for a wrongful purpose or with intent to defraud the elder adult; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 102, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 102, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 257 (Majority) Energy and Environment on S.B. No. 1143**

The purpose and intent of this measure is to:

- (1) Establish the environmental review special fund;
- (2) Establish fees to enhance the activities of the Office of Environmental Quality Control;
- (3) Authorize the Office to expend monies out of the environmental review special fund;
- (4) Support and maintain technology systems for the Office;
- (5) Support outreach, training, education, and research regarding environmental stewardship; and
- (6) Provide for the hiring of adequate staff for the Office.

Your Committee received testimony in support of this measure from the Environmental Council; Office of Hawaiian Affairs; and Sierra Club, Hawaii Chapter. Your Committee received testimony in opposition to this measure from The Chamber of Commerce of Hawaii and Building Industry Association of Hawaii.

Your Committee finds that general fund appropriations have not kept pace with the expanding workload of the Office of Environmental Quality Control, which has resulted in longer wait times for public and private projects. Operations are further hampered by an outdated information technology infrastructure.

Your Committee further finds that the establishment of fees, rule-making authority, and a special fund will provide a revenue stream that roughly correlates with demand and creates enhanced flexibility to meet evolving needs as sensitivity to environmental impacts grow.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1143, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 258 Public Safety, Intergovernmental and Military Affairs on Gov. Msg. No. 582**

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF PUBLIC SAFETY

G.M. No. 582 THEODORE I. SAKAI, for a term to expire 12/1/2014

Your Committee has reviewed the personal history, experience, and statements submitted by the nominee and finds Theodore I. Sakai to possess the requisite qualifications to be appointed to the position of Director of Public Safety.

Your Committee received testimony in support of the appointment of Theodore I. Sakai from the Governor; United States Attorney, District of Hawaii; United States Marshal Service; Department of the Attorney General; Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; Department of Human Resources Development; Department of Health; Department of Transportation; Department of Defense; Department of Land and Natural Resources; Hawaii Paroling Authority; Office of Information Management and Technology; Office of Hawaiian Affairs; Maui County Council; Maui Economic Opportunity, Inc.; United Public Workers; Going Home Consortium; Department of Corrections, Commonwealth of Virginia; Office for Social Ministry; Good Beginnings Alliance; and numerous individuals.

Theodore I. Sakai received his Bachelor of Arts degree in Political Science and his Master of Business Administration degree from the University of Hawaii at Manoa. Mr. Sakai has worked continuously in the criminal justice field for over forty-three years. Mr. Sakai has served as the interim Director of Public Safety since June 1, 2012, when he was appointed by the Governor. He previously served as the Director of Public Safety from 1998 to 2002.

As Director, Mr. Sakai's accomplishments include reducing the level of brutality in Hawaii's correctional facilities; fostering interagency collaboration around issues of substance abuse treatment, intermediate sanctions, and mentally ill offenders; establishing working relationships with community groups on the neighbor islands; implementing a management accountability system within the Department of Public Safety; reducing overtime by twenty-seven percent while base salaries increased; and reducing salary overpayments to virtually zero.

Mr. Sakai has held several other positions with the Department of Public Safety over the years, including Program Planning Office Administrator, Corrections Division Administrator, Correctional Program Services Administrator, Chief of Staff for the Director, Deputy Director for Corrections, Administrative Assistant to the Director, and Warden of the Waiawa Correctional Facility. Prior to his appointment as Director of Public Safety, Mr. Sakai served as a probation officer for the First Circuit Court.

In addition to his work for the State, Mr. Sakai has also been involved with non-profit work. He served as the Executive Director of a non-profit agency that provided a variety of services to criminal offenders. His work experience includes acting as a consultant to the Going Home Consortium and the Good Beginnings Alliance for the "Supporting Keiki of Incarcerated Parents" program. Mr. Sakai also served as the co-chair of the Task Force on Children of Incarcerated Parents. Mr. Sakai is currently a member of the Board of Directors of the Hawaiian Legacy Foundation, Read to Me International, and Hawaii Council for the Humanities.

Testimony submitted in support of Mr. Sakai's appointment commend his knowledge in, experience in, and skill set to improve and address public safety issues in Hawaii. Many testifiers observed that Mr. Sakai has a wide and deep range of professional experience gained through working for the Department of Public Safety. Several testifiers noted that Mr. Sakai has worked hard to protect the safety of Hawaii's communities by reducing recidivism and encouraging inmates to participate in available programs. Your Committee finds that Mr. Sakai is a true professional and epitomizes the modern corrections administrator who strives to provide progressive and humane care for inmates, while at the same time protecting the public safety.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

**SCRep. 259 Commerce and Consumer Protection on S.B. No. 198**

The purpose and intent of this measure is to amend section 457-8.5, Hawaii Revised Statutes, to recognize and adopt the National Council of State Boards of Nursing's consensus model by clarifying language relating to advanced practice registered nurse educational requirements.

Your Committee received testimony in support of this measure from the Hawaii State Center for Nursing; University of Hawai'i at Manoa School of Nursing and Dental Hygiene; University of Hawai'i at Hilo School of Nursing; University of Hawai'i Maui College Nursing Program; The Queen's Medical Center; St. Francis Healthcare System of Hawaii; Healthcare Association of Hawaii; Hawai'i Pacific Health; Pali Momi Medical Center; Prime Care Services Hawaii, Inc.; Hawai'i Association of Professional Nurses; American Organization of Nurse Executives, Hawai'i Chapter; and sixteen individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the State Board of Nursing.

Your Committee finds that under existing state law, advanced practice registered nurses may only be recognized if they receive a master's degree in certain nursing fields. This precludes recognition of nurses who earn a Doctor of Nursing Practice degree and other nationally recognized clinical doctorates in nursing, which directly impacts Doctor of Nursing Practice graduates of the University of Hawaii at Manoa School of Nursing and the University of Hawaii at Hilo School of Nursing. The master's degree requirement also impedes other states' advanced practice registered nurses with clinical doctorates from practicing in the State.

Your Committee further finds that every state except Hawaii accepts a graduate degree instead of a master's degree for advanced practice registered nurse licensure and certification. This measure will bring Hawaii into alignment with the rest of the country and with the National Council of State Boards of Nursing's consensus model for advanced practice registered nurses.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 198 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 260 Commerce and Consumer Protection on S.B. No. 531**

The purpose and intent of this measure is to require premises with liquor licenses to have a sign posted on or about the premises, including but not limited to the women's restroom, that provides customers with a warning of the risks of birth defects and fetal alcohol spectrum disorders for women drinking alcohol during pregnancy.

Your Committee received testimony in support of this measure from the Department of Health, March of Dimes Foundation Hawaii Chapter, and Family Voices of Hawai'i. Your Committee received testimony in opposition to this measure from the Hawaii Bar Owners Association. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that fetal alcohol syndrome disorder is the umbrella term used to describe a range of disorders caused by prenatal alcohol exposure. Your Committee further finds that alcohol exposure during pregnancy produces the most serious neurobehavioral effects in a fetus. There is no known safe amount of alcohol or safe time to drink alcohol during pregnancy.

Your Committee additionally finds that fetal alcohol syndrome disorder is preventable. Prevention starts with awareness that drinking alcohol during pregnancy is associated with increased risks of having a child with life-long disabilities. Several studies have shown that alcohol warning signs raise awareness about the risk of drinking during pregnancy and may reduce alcohol consumption among light to moderate drinkers.

Your Committee notes that because the amendments proposed by this measure relate to advertisements and signs upon licensed liquor establishments, they are outside of the Comptroller's jurisdiction. Amendments to this measure are therefore needed to preserve the existing authority of the county liquor commissions over advertisements and signs in or about licensed premises.

Accordingly, your Committee has amended this measure by:

- (1) Replacing all references to the term "comptroller" with the term "liquor commission"; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 531, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 531, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 261 (Joint) Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 695**

The purpose and intent of this measure is to allow privately funded industrial hemp research to be conducted in Hawaii under certain conditions.

Your Committees received testimony in support of this measure from the Drug Policy Action Group and one individual. Your Committees received testimony in opposition to this measure from the Department of Public Safety, Honolulu Police Department, and Maui Police Department. Your Committees received comments on this measure from the Office of Information Practices.

Your Committees find that Act 305, Session Laws of Hawaii 1999, allowed privately funded industrial hemp research to be conducted in Hawaii subject to certain conditions. Act 305 was allowed to sunset on June 30, 2005. This measure will again allow privately funded industrial hemp research to be conducted in Hawaii under certain conditions. Your Committees find that hemp has

been and continues to be used for industrial purposes and that there is a need for hemp research. This measure will be economically beneficial to the State while still providing the necessary security safeguards to prevent the illegal growing of marijuana.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 695 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 262 Technology and the Arts on S.B. No. 614**

The purpose and intent of this measure is to appropriate funds for the Comptroller and the State Foundation on Culture and the Arts to commission permanent works of art to honor the late U.S. Senator Daniel K. Inouye and the late U.S. Representative Patsy T. Mink.

Your Committee received testimony in support of this measure from the State Foundation of Culture and the Arts.

Your Committee finds that the contributions of the late U.S. Senator Daniel K. Inouye and the late U.S. Representative Patsy T. Mink to the people of Hawaii merit works of art to honor their legacies. This measure honors the memory of the late U.S. Senator Inouye and the late U.S. Representative Mink by portraying their legacies in perpetuity to inspire current and future generations.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 263 Technology and the Arts on S.B. No. 679**

The purpose and intent of this measure is to appropriate funds to the Department of Accounting and General Services for the State Foundation on Culture and the Arts to support the Artists in the Schools program.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committee finds all public schools, including charter schools, are eligible to apply to the State Foundation on Culture and the Arts for grants for artist residencies. The Artists in the Schools program increases opportunities for arts education and experiences, as well as using art form to support other core curriculum areas, such as language arts, math, social studies, and science.

Your Committee has amended this measure by deleting the appropriations that were to alleviate the impact of previous reductions in general fund appropriations to the State Foundation on Culture and the Arts and to the educational efforts in cultural preservation through partnerships with the Edith Kanaka'ole Foundation, University of Hawaii Center for Biographical Research, PBS Hawaii, and the Maui Arts and Cultural Center.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 679, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 679, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 264 Technology and the Arts on S.B. No. 1003**

The purpose and intent of this measure is to authorize the Chief Information Officer to conduct or cause to be conducted security audits, which may include reviews of physical security practices, of all executive government agencies regarding the protection of government databases and data communications and to direct remedial actions as necessary.

Your Committee received testimony in support of this measure from the Office of Information Management and Technology, Department of Human Resources Development, Department of Accounting and General Services, Department of Transportation, and Referentia Systems.

Your Committee finds that protecting Hawaii's information and data is a top concern in today's cyber world. The Office of Information Management and Technology has developed a comprehensive business and information technology/information resource management transformation plan and has identified security and privacy as one of the plan's top ten initiatives. The Office plans to provide a singular vision for information assurance and data protection, unify cyber security and information practices statewide, and implement best practices. Your Committee finds that the authority of the Chief Information Officer should be expanded to ensure the security of state government information and the data communications infrastructure from unauthorized uses, intrusions, or other security threats.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1003, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 265 (Joint) Technology and the Arts and Public Safety, Intergovernmental and Military Affairs on S.B. No. 941**

The purpose and intent of this measure is to require the State and counties to approve, approve with modification, or disapprove all broadband-related permits within sixty business days of submitting a permit application and a fee and to specify that the application will be automatically approved if there is no action taken on the sixty-first day.

Your Committees received testimony in support of this measure from the Public Utilities Commission; Department of Commerce and Consumer Affairs; Department of Land and Natural Resources; Hawaiian Electric Company, Inc.; and Hawaiian Telecom.

Your Committees find this measure supports the deployment of high-speed broadband infrastructure in Hawaii and streamlines the permit application process under the State's broadband initiative.

Your Committees have amended this measure by:

- (1) Extending the maximum processing time from sixty business days to one hundred twenty business days, allowing a more reasonable timeframe to complete an adequate review of proposed projects;
- (2) Deleting language that exempts the State and counties from any liability on account of actions or results from reviewing, approving, modifying, or disapproving a broadband-related permit application;
- (3) Requiring that a public utility shall use reasonable efforts to comply with all applicable safety and engineering requirements relating to the installation, improvement, construction, or development of infrastructure relating to broadband service or broadband technology;
- (4) Clarifying that the development of broadband service infrastructure, as referenced in the definition of "broadband-related permits", is limited to the landing of an undersea communications cables, not all undersea cables; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 941, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 941, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts

Ayes, 3; Ayes with Reservations (Tokuda). Noes, none. Excused, 2 (Gabbard, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

**SCRep. 266 (Joint) Water and Land and Judiciary and Labor on S.B. No. 1168**

The purpose and intent of this measure is to clarify under the State Tort Liability Act that no public entity or public employee shall be liable to any person for injury or damage sustained on government land when engaged in mountain climbing, rock climbing, rappelling, and bouldering.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, State Attorney General, Access Fund, and Change.org. Your Committees received testimony in opposition to this measure from Hawaii Association for Justice and numerous individuals.

Your Committees find that there has been an increasing trend in public recreation throughout the United States and Hawaii to pursue the activities of bouldering, rock climbing, rappelling, and related activities that require special skills and equipment and specific geologic features with unique qualities. The Department of Land and Natural Resources has jurisdiction of approximately two million acres of land and does not have the staff to monitor all potential locations of rock climbing, which could literally be anywhere in any park. The mountain and rock climbing areas are often in remote areas, sometimes only accessible through private property. It would not be possible, feasible, or desirable for the State to erect fences, post signs, or limit access to all of the potential remote and unmanaged areas that members of the public may use to engage in climbing activities.

Because of the dangers inherent in climbing activities, injuries and accidents are inevitable, and the State will continually be open to lawsuits. Without this measure, the best option following an accident or injury is often to permanently close off the area and prevent any access by the public because there is no other way for the State to eliminate risk of injury. This is a disservice to the public. The preferred action is not to close off sites, prohibit access, and impose fines when the public access a prohibited area; however, there may not be much choice if the State can be sued for every injury that occurs as a result of these climbing activities.

Your Committees have amended this measure by:

- (1) Defining rock climbing using the definition of the United States National Park Service and defining bouldering; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1168, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1168, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, none.

**SCRep. 267 (Joint) Economic Development, Government Operations and Housing and Water and Land on S.B. No. 747**

The purpose and intent of this measure is to improve ocean recreation safety for the public and establish fair standards for all parasail and thrill craft permit holders.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Roberts Hawaii; Diamond Head Parasail and Watersports; Pacific Ocean Sports, LLC dba Hawaiian Ocean Thrills; and six individuals. Your Committees received testimony in opposition to this measure from the Ocean Tourism Coalition and UFO Chuting of Hawaii, Inc.

Your Committees find that the definition of “thrill craft” under the boating laws in chapter 200, Hawaii Revised Statutes, does not cover certain newer types of thrill craft, including one similar to a jet ski known as an “aqua quad.” This has resulted in the use of unregulated thrill craft in ocean recreation areas, which poses a safety issue for ocean users and potential concerns for the environment. This measure amends the definition of a thrill craft to cover these newer types of thrill craft.

Your Committees also find that existing laws regulating commercial parasailing operations allow a parasail permit holder to operate one parasail vessel per permit. However, the Department of Land and Natural Resources testified that one operator has been operating one parasail vessel while flying its passengers engaged in parasailing, with a second vessel standing by ready to operate as soon as the first vessel has completed flying its passengers. Although the operator is using only one parasail vessel at a time for flying passengers per permit, the operator is effectively operating more than one parasail vessel at a time under one permit, raising safety concerns as well as concerns about an imbalanced playing field amongst parasail permit holders. Your Committees find it necessary to clarify that the operation of more than one parasail vessel in state waters, regardless of whether both vessels are being actively operated for flying passengers, is prohibited under a single permit.

Your Committees have amended this measure by adding language to:

- (1) Specify that the operation of more than one parasail vessel in state waters at any given time under one permit is prohibited; and
- (2) Limit this restriction to counties with populations of 700,000 or more.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 747, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 747, S.D. 1, and be referred to the Committee on Ways and Means.

**SCRep. 268 (Joint) Commerce and Consumer Protection and Transportation and International Affairs on S.B. No. 495**

The purpose and intent of this measure is to implement the recommendations of the Insurance Verification Working Group, including:

- (1) Establishing a working group to assist in development of requests for proposals and vendor selection for a motor vehicle insurance verification program;
- (2) Establishing a special fund to fund the development and operation of a motor vehicle insurance verification program and requiring a portion of certain monies to be deposited into the special fund;
- (3) Increasing the annual motor vehicle registration fee;
- (4) Removing duplicative and unnecessary requirements for insurance identification cards and safety inspection requirements; and
- (5) Removing judges’ discretionary authority to suspend a fine for failure to have insurance if a defendant later obtains insurance.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Judiciary, State of Hawaii; Division of Motor Vehicle, Licensing and Permits Administration, City and County of Honolulu; Honolulu Police Department, Traffic Division; Hawaii Insurers Council; and Property Casualty Insurers Association of America. Your Committees received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company and GEICO. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that this measure implements the recommendations of the Insurance Verification Working Group, which was convened by the State Insurance Commissioner pursuant to Senate Concurrent Resolution No. 97, S.D. 1, Regular Session of 2012. In

formulating its recommendations, the Insurance Verification Working Group held eight public meetings, gathered information about insurance verification systems established in other states, and reviewed civil and criminal statutory provisions pertaining to uninsured motorists.

Your Committees further find that this measure contains many of the ideas the Insurance Verification Working Group vetted and discussed during the public meetings. This measure also establishes a working group to assist with the development of a web-based system to track insured vehicles, increases fines for violators, and contains other cost effective and efficient means to identify uninsured motorists in Hawaii.

Your Committees have amended this measure by:

- (1) Specifying that the working group shall be attached to the Department of Commerce and Consumer Affairs;
- (2) Specifying that the motor vehicle insurance verification program shall adhere to industry standards as prescribed by the Insurance Industry Committee on Motor Vehicle Administration;
- (3) Requiring the working group to provide recommendations on ways to exclude commercial vehicles from the motor vehicle insurance verification program and an alternative means of reporting requirements for small insurers;
- (4) Deleting language that would have established the motor vehicle insurance verification special fund and required a portion of certain monies to be deposited into the special fund, and instead requiring the allocated portion of motor vehicle registration fees to be deposited to the credit of the compliance resolution fund and the allocated portion of fines to be deposited into the general fund;
- (5) Restoring judges' discretionary authority to suspend a fine for failure to have insurance if a defendant later obtains insurance; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 495, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 495, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 269 (Joint) Tourism and Hawaiian Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1097**

The purpose and intent of this measure is to clarify and confirm the counties' ownership of and responsibility for certain existing sewer transmission lines and facilities servicing Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Office of Hawaiian Affairs, Sovereign Councils of the Hawaiian Homelands Assembly, Papakolea Community Development Corporation, and two individuals. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Environmental Services.

Your Committees find that certain counties do not accept responsibility for maintaining or repairing the sewer systems located on Hawaiian home lands despite the fact that residents on Hawaiian home lands pay the same utility fees as residents outside of Hawaiian home lands who receive repair and maintenance services from the counties. Accordingly, your Committees find that this measure is necessary to clarify that the counties are responsible for repairing and maintaining sewer systems located on Hawaiian home lands.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1097 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 270 Transportation and International Affairs on S.B. No. 444**

The purpose and intent of this measure is to expand the definition of "habitual operator of a vehicle while under the influence of an intoxicant" to include persons with a conviction within the last ten years of the offense of habitually operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Office of the Maui Prosecuting Attorney, Maui Police Department, and Mothers Against Drunk Driving. Your Committee received testimony in opposition to this measure from the State Public Defender and one individual.

Your Committee finds that under existing law, a person has the status of a habitual operator of a vehicle while under the influence of an intoxicant if the person was convicted three or more times within ten years for offenses of operating a vehicle under the influence of an intoxicant prior to conviction of the instant offense. This measure makes one or more convictions of habitually operating a vehicle while under the influence punishable to the same extent as three or more prior convictions of operating a vehicle under the influence of an intoxicant. The intent of this measure is to tighten the laws on drunk driving and to close a possible loophole.

Your Committee has amended this measure by clarifying the language, on recommendation of the Maui Prosecuting Attorney.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 444, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 444, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Slom).

**SCRep. 271 (Majority) Judiciary and Labor on S.B. No. 381**

The purpose and intent of this measure is to:

- (1) Limit the number of certified candidates that the Campaign Spending Commission certifies to participate in the pilot comprehensive public funding for elections to the Hawaii council program under Act 244, Session Laws of Hawaii 2008 (Act 244); and
- (2) Amend the formula for computing the base amount of public funding for the primary and general elections by using the average amount spent by the winning candidates in the previous two elections for every district, rather than the same district, reduced by ten percent.

The Campaign Spending Commission submitted comments on this measure.

Your Committee finds that the pilot comprehensive public funding for elections to the Hawaii council program under Act 244 tests the viability of comprehensive public funding of elections by limiting comprehensive public funding to a single county for three election years. According to the testimony submitted by the Campaign Spending Commission, in 2010 and 2012, only eight candidates were funded under Act 244 during each election year. In anticipation that this measure may increase participation in the pilot program, the Commission requested an appropriation to fund the pilot program.

Furthermore, the Commission commented that this measure provides certified candidates with the same amount of public funding no matter which district they run in rather than in the same district of the winning candidate in the previous two elections. Under this measure, the base amount of public funding for the 2014 elections for certified candidates in all districts will be \$13,106.10 for the primary election and \$3,237.97 for the general election.

Your Committee believes that the possible fiscal impact of this measure merits further discussion by your Committee on Ways and Means if that Committee chooses to schedule this measure for a hearing.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 381, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 381, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Gabbard).

**SCRep. 272 (Majority) Judiciary and Labor on S.B. No. 1288**

The purpose and intent of this measure is to allow an employee to use family leave time to care for a sibling with a serious health condition.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; International Longshore and Warehouse Union, Local 142; and three private individuals. Testimony in opposition to this measure was submitted by the Department of Public Safety, Department of Human Resources Development, The Chamber of Commerce of Hawaii, and Society of Human Resource Management – Hawaii Chapter.

Your Committee finds that employees are entitled to a total of four weeks of family leave during any calendar year upon the birth of a child of the employee, upon the employee's adoption of a child, or to care for the employee's child, spouse or reciprocal beneficiary, or parent with a serious health condition. However, taking family leave to care for a sibling is not a covered benefit. By extending employees' authorization to take family leave to care for a sibling with a serious health condition, this measure exemplifies Hawaii's rich tradition of ohana and caring for family members.

However, the Department of Public Safety testified that this measure may significantly impact the Department's operations because a significant percentage of its staff is already on family leave. Extending family leave to employees to care for their siblings may further increase the amount of family leave privileges exercised by staff thereby impacting the Department's twenty-four-hours, seven-days-a-week operational requirements. Furthermore, the Department of Human Resources Development testified that operations with limited resources will likely incur an increase in overtime costs in order to maintain their level of service to the public. Your Committee believes that this issue and its potential fiscal impact merit further discussion by your Committee on Ways and Means.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1288, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 273 (Majority) Judiciary and Labor on S.B. No. 854**

The purpose and intent of this measure is to require all state residents to vote by mail in all elections. Specifically, this measure:

- (1) Requires the Office of Elections to develop and implement a statewide voting modernization program that requires all registered voters to vote by mail starting in 2016 for all elections held in the State;
- (2) Requires the Office of Elections to determine the sufficient number of polling places to be made available on election day to accommodate voters without a permanent address, provide for election day voter registration and voting, and receive ballots that are deposited by voters in lieu of mail delivery;
- (3) Requires the Office of Elections to submit a written report to the Legislature prior to the convening of the 2014 Regular Session regarding the status of program implementation, any operational problems, and any proposed legislation; and
- (4) Appropriates a specified sum for fiscal years 2013-2014 and 2014-2015 to be expended by the Office of Elections to implement a statewide voting modernization program.

Your Committee received testimony in support of this measure from the League of Women Voters, American Civil Liberties Union of Hawaii, and two private individuals. Testimony in opposition to this measure was submitted by five private individuals. Your Committee received comments on this measure from the Office of Elections; Office of the County Clerk, County of Hawai'i; Office of the County Clerk, County of Maui; and Office of the County Clerk, County of Kaua'i.

Your Committee finds that Hawaii has a hybrid voting system, whereby voting in person and voting by mail are allowed. This measure would require voters to vote by mail for all elections held in the State, while still providing certain means for people who cannot vote by mail, choose not to return their ballots by mail, or are not registered to vote as of election day to vote on election day. Voting by mail will encourage and increase active participation in the electoral process, especially for individuals who find it difficult to get to the polls on election day due to family, work, or other obligations.

However, your Committee notes the comments submitted by the County Clerks of Hawaii, Maui, and Kauai who indicated in written testimony that establishing a vote-by-mail process may be difficult to implement. Identifying and implementing an efficient, expeditious, and cost-effective process for handling the huge volume of outgoing and incoming mail pieces will be a challenge that may require a complete overhaul of their current operations. Furthermore, the County Clerks indicated their concerns that allowing for election day voter registration may place an additional burden on poll workers who are volunteers and may not be experienced in resolving issues regarding voter residency. Lastly, the Office of the County Clerk of the County of Hawaii questioned whether the specified appropriation amount is sufficient to hire personnel and acquire the processing space and equipment necessary to implement voting by mail statewide for all elections beginning in 2016.

Therefore, your Committee believes that this measure is cost prohibitive and has serious concerns about whether it is feasible to implement a statewide mail-in voting program without sufficient funding and limited resources. However, your Committee believes that the dialogue regarding funding feasibility should be continued by your Committee on Ways and Means if that Committee chooses to schedule this measure for a hearing.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 854, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 854, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Gabbard).

**SCRep. 274 (Majority) Judiciary and Labor on S.B. No. 1057**

The purpose and intent of this measure is to provide employer contribution amounts for plan years 2011-2012 and 2012-2013 for Hawaii employer-union health benefits trust fund health benefit plan premiums for the employees of collective bargaining unit (10) and their excluded counterparts.

Prior to the hearing on this measure, your Committee posted a proposed S.D. 1 for review and comment. The proposed S.D. 1 amends this measure by:

- (1) Inserting specific monthly employer contribution amounts for each employee-beneficiary with zero, one, or two or more dependent-beneficiaries;
- (2) Inserting a specific amount that each employee-beneficiary enrolled in the trust fund group life insurance plan is required to pay per month to reflect one hundred percent of the monthly premium and administrative fees; and
- (3) Applying these amounts retroactively to July 1, 2011.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the public employer and the exclusive representative for collective bargaining unit (10) were at an impasse in collective bargaining negotiations regarding contribution amounts for plan years 2011-2012 and 2012-2013 for Hawaii employer-union health benefits trust fund health benefit plan premiums for the employees of collective bargaining unit (10) and their excluded counterparts. Because an agreement could not be reached regarding the employer contribution amounts to the trust fund, the public employer is required by law to submit its recommendation for contributions to the Legislature. This proposed S.D. 1 establishes the public employer's recommended contributions designed to effectuate fifty percent employer contribution levels for collective bargaining unit (10) and their excluded counterparts. These rates are identical for employees in other collective bargaining units under existing collective bargaining agreements.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1057, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1057, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 275      Judiciary and Labor on S.B. No. 1249**

The purpose and intent of this measure is to clarify the law relating to trustee compensation. Specifically, this measure:

- (1) Allows the trustee and beneficiaries to agree on a higher compensation without requiring the approval of the court;
- (2) Entitles corporate trustees to fees under their published fee schedules instead of the fee schedule under statute;
- (3) Establishes a tiered annual principal fee that decreases for larger estates and makes adjustments for inflation;
- (4) Clarifies who is entitled to inception and termination fees, how and when these fees are calculated, and when these fees are to be paid; and
- (5) Allows the trustee and beneficiaries to agree on special service fees without seeking court approval.

Your Committee received testimony in support of this measure from the individual attorney members serving on the Judiciary's Committee on the Uniform Probate Code and Probate Court Practices.

Your Committee finds that many Hawaii residents have revocable living trusts to help manage their affairs if they become incapacitated and provide for the disposition of their assets at death. While the settlor of a revocable trust usually serves as trustee until incapacity or death, the trust document designates successor trustees who will then manage the assets for the settlor and the settlor's beneficiaries. Most trusts provide that the trustee is entitled to reasonable compensation but do not specify a dollar amount or other formula to determine reasonable compensation.

The compensation set forth under existing law is deemed to be reasonable. However, while the settlor and trustee may negotiate for higher compensation, the beneficiaries of an irrevocable trust are not allowed to do the same. This measure allows the trustee and beneficiaries to agree on a higher compensation without requiring the approval of the court, thereby reducing the need for court intervention.

Second, the statutory fee schedule under existing law may not be appropriate for a corporate trustee that has various departments and staff providing trust services. Because there is competition in the marketplace, the reasonableness of a corporate trustee's fees can be determined by the market where the consumer is able to use another trust company if the consumer determines that a corporate trustee's charge for services is too high. This measure entitles corporate trustees to fees under their published fee schedules instead of the fee schedule under statute.

Third, under existing law, a trustee is entitled to a one-half percent annual principal fee on all assets no matter the size of the estate and does not include an inflation provision. This measure provides a tiered annual principal fee that decreases as the estate becomes larger. The annual principal fee is also adjusted for inflation.

Fourth, existing law provides for a one percent inception fee and a one percent termination fee. There have been many disputes regarding who is entitled to these fees, how and when these fees are calculated, and when these fees are to be paid. This measure clarifies that the one percent inception fee is to be paid to the first non-settlor trustee and to the first new trustee of any other trust created after the settlor's death or under the terms of the administrative trust in order to prevent payment of multiple inception fees to multiple successor trustees. Furthermore, this measure clarifies that the one percent termination fee is based upon the value of the trust assets as of the date the trust instrument states that the trust terminates; not as of the date the final trust distribution is made.

Lastly, existing law requires court approval of all special service fees. A trustee is entitled to extra fees for special services, such as preparing tax returns, buying or selling real estate, and handling litigation. This measure allows the trustee and beneficiaries to agree on special service fees without seeking court approval, thereby reducing the need for court intervention.

Your Committee has amended this measure by adopting the amendments proposed by the individual attorney members serving on the Judiciary's Committee on the Uniform Probate Code and Probate Court Practices by:

- (1) Clarifying that the tiered annual principal fee schedule is in ascending order by size of the trust;
- (2) Inserting an effective date of January 1, 2014, to recognize that most trusts account on a calendar year basis; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1249, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 276 (Majority) Judiciary and Labor on S.B. No. 885**

The purpose and intent of this measure is to provide a dispute resolution mechanism to address the employer share of contributions to the Hawaii Employer-Union Health Benefits Trust Fund. Specifically, this measure:

- (1) Authorizes parties to use arbitration to resolve impasses or disputes relating to the State and counties' contributions to the Hawaii Employer-Union Health Benefits Trust Fund;
- (2) Repeals the procedures parties are required to follow after an arbitration panel issues a decision and the understanding that members of collective bargaining units are prohibited from striking on the issue of State and county contributions to the Hawaii Employer-Union Health Benefits Trust Fund; and
- (3) Makes housekeeping amendments relating to the scope of negotiations.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and Hawaii Fire Fighters Association. Testimony in opposition to this measure was submitted by the Department of the Attorney General, University of Hawaii System, and one private individual.

Your Committee finds that existing law lacks a dispute resolution mechanism to address the employer share of contributions to the Hawaii Employer-Union Health Benefits Trust Fund. Under existing law, if the employer and exclusive representative cannot agree on the employer contribution amount, the pro rata share is determined by the Legislature while all other negotiable items can proceed to impasse under law. This measure allows for the employer contribution disputes to be inclusively resolved under impasse procedures and subsequently by either interest arbitration or strike, depending on the collective bargaining unit involved in the impasse.

However, your Committee is concerned about the fiscal impact this measure may have on the State's budget, as amounts of contributions to health benefits comprise a substantial portion of the State's overall budget. Furthermore, this measure increases the likelihood of variability in the Hawaii Employer-Union Health Benefits Trust Fund contribution amounts for all public employees due to the involvement of multiple arbitration panels from different collective bargaining units subject to interest arbitration. As such, your Committee believes these fiscal concerns merit further discussion by your Committee on Ways and Means if that Committee chooses to schedule this measure for a hearing.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 885, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 885, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 277 (Joint) Education and Judiciary and Labor on S.B. No. 244**

The purpose and intent of this measure is to:

- (1) Require charter schools to complete an annual independent financial audit;
- (2) Require the State Public Charter School Commission (Charter School Commission) to develop procedures for conducting criminal history checks of persons who are employed or seeking employment in any position that places them in close proximity to children;
- (3) Specify charter school enrollment requirements;
- (4) Specify when a charter school may use criminal history information to terminate or deny employment;
- (5) Require Charter School Commission members to disclose to the Commission a list of all charter schools in which the member is an employee, governing board member, vendor, contractor, agent, or representative and disqualifies members from voting on or participating in the discussion of such matters;
- (6) Authorize the Charter School Commission to hire employees without regard to chapters 76 and 89, Hawaii Revised Statutes;
- (7) Remove the requirement that a nonprofit organization that governs a conversion charter school make minimum annual contributions to the charter school; and
- (8) Make other amendments to chapter 302D, Hawaii Revised Statutes (HRS), for the purposes of clarity and consistency.

Your Committees received testimony in support of this measure from the National Association of Charter School Authorizers and two individuals. Your Committees received comments on this measure from the Charter School Commission, Hawaii State Ethics

Commission, Hawaii Public Charter Schools Network, 'Aha Pūnana Leo, Ho'okako'o Corporation, Kanu o ka 'Āina Learning 'Ohana, West Hawai'i Explorations Academy, and one individual.

Your Committees find that Hawaii's charter schools are ranked each year by the National Alliance for Public Charter Schools (NAPCS). In 2011, Hawaii's ranking fell from thirty-fourth place to thirty-fifth place, out of a total of forty-two states.

Your Committees further find that in 2012, the Legislature passed Act 130, Session Laws of Hawaii 2012 (Act 130), which established a new charter school law that created a solid governance structure for Hawaii's charter school system with clear lines of authority and accountability to foster improved student outcomes. As a result of Act 130, Hawaii's charter school system leapt to fourteenth place in NAPCS' rankings. This measure continues to build on the progress made by Act 130.

Your Committees note several of the testifiers' concerns with allowing charter schools to carry over only five percent of appropriated funds, although this is what is currently allowed for the Department of Education's public schools. One of the concerns raised is the time it takes for charter schools to receive certain funds and the ability to expend these funds in a timely manner. It is your Committees' hope that the Department of Education and the Department of Budget and Finance will continue to seek ways to ensure the timely and equitable distribution of both federal and general funds to the charter schools so that this will no longer be an issue.

Your Committees understand the concerns raised by several of the testifiers over the cost of the required annual financial audit. Your Committees note that Act 130 allows charter schools to retain the two percent of the total allocation of general funds for the charter schools to pay the salaries and operating expenses of the Charter School Administrative Office. Your Committees believe that this will allow charter schools greater flexibility to engage charter school support organizations, such as the Hawaii Charter School Network, and pull together to take advantage of the economies of scale in procuring annual audits.

Your Committees also understand the concerns raised over tying per-pupil funding to compulsory education, as several of the charter schools have junior kindergarten programs that are not covered by the compulsory education law. However, your Committees note that pursuant to Act 178, Session Laws of Hawaii 2012, public junior kindergarten programs will be repealed on July 1, 2014.

Your Committees recognize that continuing to improve Hawaii's charter schools is a work in progress that will evolve as this measure moves through the legislative process.

Your Committees have amended this measure by:

- (1) Inserting language giving the Charter School Commission authority to adopt rules under chapter 91, HRS, to administer and implement chapter 302D, HRS, unless otherwise provided by law; provided that the Board of Education maintains exclusive rule making authority over state educational policy;
- (2) Inserting language to authorize the Charter School Commission to request facilities funding for charter schools as part of its annual budget request to the Legislature; provided that:
  - (A) The Governor may impose restrictions or reductions on appropriations similar to those imposed on other public schools; and
  - (B) Nothing shall limit the ability of the Director of Finance to modify or amend any allotment pursuant to chapter 37, HRS;
- (3) Inserting language requiring the Charter School Commission to develop criteria for the distribution of facilities funding to the charter schools; provided that the criteria shall include but not be limited to distribution based on the need and performance of charter schools;
- (4) Amending the definition of "public school" in section 302A-101, HRS, to clarify that the term includes charter schools governed by chapter 302D, HRS, rather than charter schools chartered by the Board of Education;
- (5) Removing language restricting per-pupil funding to students covered under the compulsory education law in section 302A-1132, HRS;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 244, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 244, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 278 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 571**

The purpose and intent of this measure is to allow a county that has established a surcharge on state taxes, as an alternative to the ten percent deduction for administrative costs, to reimburse the State for any costs incurred or expended by the State to assist that county to plan for a rapid transit system, including costs of transportation planning and historic preservation.

Your Committees received testimony in support of this measure from the Office of the City and County of Honolulu Mayor and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

According to testimony of the Department of Taxation:

- (1) If the Honolulu Authority for Rapid Transportation is granted authority to collect the surcharge, taxpayers would need to complete, file, and remit excise taxes separately to the State and the City and County of Honolulu, which could result in added expenses to taxpayers and delays in collection;
- (2) The Department will not be able to implement the changes contained in this measure when this measure is approved; and
- (3) The Department anticipates commencing the development of a tax system modernization project before the end of the year. The project is the Department's highest priority and will require all available staff resources. Implementing the changes to remove the application of the surcharge from their current computer system and processes will be difficult at this time.

Your Committees are cognizant that the City and County of Honolulu was given the choice of assessing, collecting, and enforcing the surcharge at the time of hearings on Act 247, Session Laws of Hawaii 2005, which established the surcharge. The City and County of Honolulu preferred the State to administer the program due to a lack of county resources and expertise in collecting excise taxes. Hearings on this measure produced no testimony that the City and County of Honolulu has since developed that capability.

The amount of revenue collected from the ten percent deduction for administrative expenses in 2012 came to \$21,200,000 according to the Mayor of the City and County of Honolulu. However, testimony of the Department of Taxation indicated a significantly lesser amount. Immediate and accurate figures were not available. Your Committees believe that there needs to be a reasonable balance between the amount required by the City and County of Honolulu and the amount of actual administrative costs to the State in assisting the City and County to collect the surcharge.

Your Committees have amended this measure by:

- (1) Deleting the alternative for a county reimbursement for state costs for planning a locally preferred alternative to a mass transit project;
- (2) Deleting the provision that requires the Honolulu Authority for Rapid Transportation to collect the surcharge on state tax and reimburse the State for costs incurred or expended by the State to assist the City and County of Honolulu to plan for a rapid transit system;
- (3) Specifying that the State's automatic deduction of the gross proceeds of a county's surcharge on state tax shall be six percent, rather than ten percent; provided that if the costs of assessment, collection, and disposition of the county surcharge on state tax increase, the State is authorized to amend its deduction, by adoption of administrative rules, to a percentage no greater than ten percent; and
- (4) Inserting an effective date to July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 571, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 571, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 279 (Majority) Judiciary and Labor on S.B. No. 867**

The purpose and intent of this measure is to ensure that retired public employees are provided health benefits at the level promised at the time these retirees entered the public employment system. Specifically, this measure:

- (1) Repeals provisions relating to the base monthly contributions for health benefit plans paid by the State and counties for retired public employees;
- (2) Repeals the requirements that the base composite monthly contribution be adjusted annually and the method of calculation; and
- (3) Makes conforming amendments to applicable sections of the law relating to the Hawaii Employer-Union Health Benefits Trust Fund to reflect the amendments under this measure.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; University of Hawaii Professional Assembly; and Hawaii Fire Fighters Association, IAFF Local 1463, AFL-CIO. Testimony in opposition to this measure was submitted by the Department of Budget and Finance.

Your Committee finds that under existing law, retired state and county employees receive a base monthly contribution health premium benefit, the amount of which depends on the date that the retired employee entered the public employment system. The base monthly contribution formula provides an upper threshold parameter used by the Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees to determine the health benefit plans for retired state and county employees. This base monthly contribution serves as a cap on the amount that the public employers are required to pay for medical, prescription drug, dental, and vision premiums. The

Hawaii Government Employees Association testified that this cap became an issue on July 1, 2012, when a carrier exceeded the base monthly contribution premium for non-Medicare retirees. If the carrier had not lowered its premium, the out-of-pocket costs to the non-Medicare retirees would have increased thereby diminishing the accrued retirees' health benefits. This measure eliminates this cap to address the potential diminishment of accrued benefits of retired public employees.

According to the written testimony submitted by the Department of Budget and Finance, the Department cited that cost is a significant consideration in the design of a health benefit plan and removing the base monthly contribution cap could potentially lead to the development of unsustainable retiree health benefits plans. Furthermore, the Department indicated that the base monthly contribution formula is one of the factors used by the actuary in determining the unfunded other post-employment benefit liability under the Hawaii Employer-Union Health Benefits Trust Fund. The Department advised that repealing the formula could result in an increase of the trust fund's unfunded liability, which is \$16,300,000,000 for all state and county jurisdictions, with the State's portion of the unfunded liability at \$13,600,000,000.

In addition to the concerns raised by the Department of Labor and Industrial Relations, your Committee has concerns regarding any conflicts with the federal Patient Protection and Affordable Care Act, commonly known as Obamacare, and notes the ongoing lawsuit in federal court regarding this federal health care law. Furthermore, your Committee has questions as to whether this measure conflicts with or resolves issues regarding the state constitutional provision that prohibits the diminishment or impairment of retired public employees' accrued benefits. As such, your Committee believes that this measure deserves further discussion by your Committee on Ways and Means.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 867, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 867, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Slom). Excused, none.

**SCRep. 280 (Majority) Judiciary and Labor on S.B. No. 332**

The purpose and intent of this measure is to protect employees by requiring employers to provide their employees with specific wage information at the time of hiring and on pay statements and to expand the criminal and civil penalties available for enforcement purposes.

Subsequent to the initial hearing on this measure, your Committee posted a proposed S.D. 1 for review and comment. The proposed S.D. 1 amends this measure by deleting its contents and replacing it with language from S.B. No. 1148 (Regular Session of 2013). Specifically, this proposed S.D. 1 requires employers to:

- (1) Provide employees with specific wage and employer information in employees' pay records; and
- (2) Maintain accurate and timely wage recordkeeping.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Labor and Industrial Relations and International Longshore and Warehouse Union, Local 142.

Your Committee finds that existing law requires employers to provide basic pay information on their employees' pay statements. This proposed S.D. 1 provides greater transparency and clarity to employees regarding their wages, rates, and hours and makes it easier for employers to budget finances. Furthermore, this proposed S.D. 1 will provide clear information to the employee to ensure that the appropriate employer is addressed in the event of a dispute.

Your Committee has amended this measure by adopting the proposed S.D. 1 and amending it further by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 332, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 332, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 281 Judiciary and Labor on S.B. No. 874**

The purpose and intent of this measure is to clarify that the duly qualified impartial physician appointed by the Director of Labor and Industrial Relations to examine an injured employee is a physician whose specialty is appropriate for the injury being examined for a workers' compensation claim.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Work Injury Medical Association of Hawaii, Hawaii Medical Association, and Plumbers and Fitters Union, Local 675. The Department of Human Resources Development submitted comments.

Your Committee finds that existing law does not specify that a physician appointed by the Director of Labor and Industrial Relations must be a physician whose specialty is appropriate for the injury being examined. This measure provides that a physician knowledgeable in the injury of the claimant will examine the claimant and creates greater efficiencies in the workers' compensation process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 874 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 282      Agriculture on S.B. No. 993**

The purpose and intent of this measure is to modify the new farmer loan program under the Department of Agriculture to promote the development of innovative technologies and new farm enterprises.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee finds that a major concern regarding the sustainability of agriculture in Hawaii is a lack of agricultural entrepreneurs. This is especially pressing due to the fact that the average age of a farm operator in Hawaii is approximately 59 years. This measure will provide the needed capital for new farmers to start farming operations or to farmers interested in testing new crops or techniques.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 993, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 993, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 283      Agriculture on S.B. No. 992**

The purpose and intent of this measure is to establish a low interest biosecurity loan program to assist livestock and poultry operations by mitigating the costs associated with installing biosecurity measures as required by federal programs.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Cattlemen's Council, Ulupono Initiative, and one individual.

Your Committee finds that biosecurity measures serve to protect the health of poultry and livestock from diseases, pests, and pathogens by reducing their introduction into farm operations and subsequently, the food supply. Federal programs have been trending toward increased infrastructure requirements for livestock and poultry programs; however, these requirements impose financial burdens on livestock and poultry farmers. This measure will help ease that financial burden by authorizing the issuance of biosecurity project loans to qualified farmers through the Department of Agriculture's agricultural loan program.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 992, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 284      Agriculture on S.B. No. 937**

The purpose and intent of this measure is to:

- (1) Establish a statewide food resiliency initiative that is recognized and supported by the Legislature and will achieve measurable goals of food self-sufficiency in a reasonable timeframe;
- (2) Establish a Food Resiliency Branch in the Department of Agriculture to coordinate, promote, and implement the food resiliency initiative according to the initiative's stated benchmarks and goals;
- (3) Establish a task force to set forth the specific benchmarks for the food resiliency initiative to achieve and a time in which to achieve those benchmarks; and
- (4) Provide adequate resources to support the food resiliency initiative.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council, League of Women Voters, and one individual. Your Committee received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committee finds that Hawaii is dangerously dependent on imported food. It is estimated that Hawaii's current inventory of fresh produce would supply consumers in Hawaii for no more than ten days. The State's reliance on out-of-state sources of food places residents at risk of food shortages in the event of natural disasters, economic disruption, and other external factors beyond the State's control. Your Committee further finds that an increase in the production and sale of Hawaii-grown agricultural commodities would contribute to the economy and create a significant number of jobs. It is estimated that increasing the amount of locally grown food by as little as ten percent would keep hundreds of millions of dollars circulating within Hawaii's economy and create thousands of new jobs. Finally, your Committee finds that increased availability of local food typically ensures access to fresher, later-picked

produce with greater vitamin content and higher nutritional value. Therefore, increasing Hawaii's inventory of locally produced food will improve residents' health.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 937, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 937, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 285 Agriculture on S.B. No. 754**

The purpose and intent of this measure is to make an appropriation for the Agribusiness Development Corporation to purchase certain agricultural lands.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation and Hawaii Cattlemen's Council. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that acquiring and developing agricultural lands is vital to the Agribusiness Development Corporation's mission and assists the State by promoting diversified agricultural enterprises on idle lands. Your Committee understands that funding from this measure will go toward acquiring lands being sold in Central Oahu and the North Shore by Dole Foods Company to ensure that these lands are kept for agricultural uses in perpetuity.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 754, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 754, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 286 Agriculture on S.B. No. 753**

The purpose and intent of this measure is to:

- (1) Authorize the Department of Agriculture to lease or dispose of lands to the Agribusiness Development Corporation; and
- (2) Exempt non-agricultural park lands disposed to the Agribusiness Development Corporation from certain lease requirements required by law.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawaii Cattlemen's Council.

Your Committee finds that allowing the Department of Agriculture to enter into leases with the Agribusiness Development Corporation will promote agricultural growth and will help the State reduce its reliance on imported food.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 753, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 753, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 287 Agriculture on S.B. No. 752**

The purpose and intent of this measure is to:

- (1) Establish the agricultural land acquisition special fund for the purchase of agricultural land by the Agribusiness Development Corporation for the protection of agricultural lands, public land banking, promotion of farm ownership, and agricultural diversity;
- (2) Allocate an unspecified portion of the environmental response, energy, and food security tax to be deposited into the special fund; and
- (3) Require the Agribusiness Development Corporation to report annually to the Legislature summarizing all expenditures of special fund monies.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation and Hawaii Cattlemen's Council. Your Committee received comments on this measure from the Department of Agriculture and Tax Foundation of Hawaii.

Your Committee finds that protecting agricultural lands and promoting farm ownership and agricultural diversity are vital to the State's economic sustainability and food resiliency. This measure will provide necessary funds to assist the Agribusiness Development Corporation in its mission to protect and promote farm lands.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 752 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 288 Agriculture on S.B. No. 709**

The purpose and intent of this measure is to:

- (1) Increase the Agribusiness Development Corporation's limit on investments in qualified securities of any one enterprise from \$500,000 to \$3,000,000; and
- (2) Allow more than \$3,000,000 to be invested in the securities of any one enterprise if the Corporation finds, after its initial investment, that additional investments in that enterprise are required to protect the initial investment of the Corporation.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation and Hawaii Cattlemen's Council.

Your Committee finds that this measure will authorize the Agribusiness Development Corporation to make grants and loans and to provide other monetary forms of assistance to carry out its mission. Among other things, this measure will provide struggling farmers with the needed capital to improve and modernize facilities to meet food safety standards and improve self-sufficiency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 709 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 289 Technology and the Arts on S.B. No. 998**

The purpose and intent of this measure is to designate the Department of Accounting and General Services as the entity responsible for management and operations of Washington Place and to establish a trust fund for its operations.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that effective July 1, 2012, the Legislature transferred the funding for the management and operations of Washington Place to the Department of Accounting and General Services under Act 106, Session Laws of Hawaii 2012, and this measure is necessary to codify the transfer of management and operations of Washington Place.

Your Committee further finds that any revenue or rent received from the use of Washington Place is currently being deposited into the general fund. The proposed trust fund is necessary to allow all revenue from rent, concessions, donations, and other monies to be deposited directly into a fund to help aid the Department of Accounting and General Services maintain and repair the historic site.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 998 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Tokuda).

**SCRep. 290 (Joint/Majority) Technology and the Arts and Commerce and Consumer Protection on S.B. No. 345**

The purpose and intent of this measure is to amend the fees related to portable electronics insurance licenses to align with similar licensing fees in other jurisdictions. Specifically, this measure increases the initial portable electronics limited lines license fee to \$5,000 and the additional license fee to \$2,500 per year for the initial or renewal term.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Asurion.

Your Committees find that portable electronics insurance licenses allow vendors to operate from multiple locations and supervise the sale of insurance by unlicensed individual employees. Act 321, Session Laws of Hawaii 2012, enacted a regulatory scheme governing the sale of portable electronics insurance by creating a licensing framework under which the retailer holds a license that authorizes its employees to sell insurance products on the retailer's behalf. This model is consistent with national trends with respect to the regulation of this product as it creates an efficient and fair licensing framework. One of the differences between the law that was enacted in Hawaii and that of other states is that Hawaii has significantly lower fees for licensure.

Each year, only a handful of portable electronics insurance licenses are issued or renewed, but the Department of Commerce and Consumer Affairs carries the burden of maintaining a separate license category for those few license holders. It is appropriate to offset departmental costs of such maintenance and oversight with higher license fees. This measure increases the license and renewal fees similarly to limited lines motor vehicle rental company producer's license fees and annual licensing fees for all services for regularly licensed limited line motor vehicle rental company producers.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 345 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Tokuda).

Commerce and Consumer Protection  
Ayes, 6. Noes, 1 (Slom). Excused, none.

**SCRep. 291 (Joint) Technology and the Arts and Higher Education on S.B. No. 1273**

The purpose and intent of this measure is to make an appropriation to establish the system-wide, statewide Academy for Creative Media (ACM) within the University of Hawaii to award certificates and degrees emphasizing narrative storytelling through a unique program in indigenous filmmaking.

Your Committees received testimony in support of this measure from the University of Hawaii System; Department of Business, Economic Development, and Tourism; and Academy for Creative Media.

Your Committees find that ACM was formally approved by the University of Hawaii Board of Regents in 2003 as a progressive program that recognizes the talent of students in developing creative media and the promise of a new and vibrant industry for Hawaii. This measure seeks to codify the successful ACM Manoa program, which has been teaching the art of digital media and filmmaking for the past decade.

Prior to the program's establishment, students sought film or digital media education outside the State, often furthering their careers on the mainland or abroad rather than in Hawaii. Today the ACM Manoa program ranks among the fastest growing majors in the history of the University of Hawaii System and has more candidates for classes than can be accommodated. Your Committees further find that extending the educational opportunities statewide can be a powerful incentive for workforce development.

Your Committees have amended this measure by:

- (1) Deleting the specific dollar amount of the appropriation requested, which was \$2,129,967; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1273, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1273, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Higher Education  
Ayes, 5. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 292 Water and Land on S.B. No. 1342**

The purpose and intent of this measure is to authorize the forfeiture of any property used or taken in any violation of laws or rules that is charged as a petty misdemeanor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Pacific Alliance to Stop Slavery, and one individual. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawai'i and one individual.

Your Committee finds that most of Hawaii's laws and administrative rules relating to the protection of our natural, cultural, historical, and recreational resources carry a penalty of either a misdemeanor or petty misdemeanor offense. Frequently, these penalties are not a sufficient deterrent, and violations are often committed by the same individuals even after fines or other sanctions are ordered by our courts. The use of asset forfeiture as an enforcement tool will allow the Department of Land and Natural Resources to take action against incessant violators of our resource laws by depriving violators of the means used to commit or facilitate the violation, or which are the proceeds derived from the violation. The use of asset forfeiture in petty misdemeanor cases strengthens the ability of the Department of Land and Natural Resources to protect Hawaii's precious resources to the fullest extent possible.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1342 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

**SCRep. 293 (Joint) Water and Land and Agriculture on S.B. No. 708**

The purpose and intent of this measure is to require the Legacy Land Conservation Commission to recommend agricultural lands, including arable areas and areas containing existing agricultural infrastructure, as the top priority for acquisition under the legacy land conservation program.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Conservation Council for Hawaii, Historic Hawaii Foundation, and The Nature Conservancy.

Your Committees find that the legacy land conservation program is an important state program for funding the acquisition and protection of threatened resources, including lands that are important for a variety of natural, cultural, historic, scenic, recreational, and societal values. Lands valued for agricultural production comprise the nine resource types covered by the program.

Based upon testimony on this measure, your Committees find that ranking in priority from highest to lowest the lands that should be acquired for the legacy land conservation program may not be in the best interests to other lands not given priority although important in and of themselves.

Your Committees have amended this measure by deleting its contents and inserting language to amend section 173A-4, Hawaii Revised Statutes, to:

- (1) Repeal the requirement that state and county agencies and nonprofit land conservation organizations that receive legacy land funding must provide easements, deed restrictions, or covenants to county and federal natural resource conservation agencies;
- (2) Require as a condition of the receipt of legacy land funding that the Board of Land and Natural Resources be an owner of any conservation or agricultural easement, deed restriction, or covenant;
- (3) Authorize the Board of Land and Natural Resources or any land conservation organization or state agency required to be provided an easement, deed restriction, or covenant to grant an exemption; and
- (4) Require state agencies to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, to implement section 173A-4, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 708, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 708, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 294 (Joint) Public Safety, Intergovernmental and Military Affairs and Health and Technology and the Arts on S.B. No. 548**

The purpose and intent of this measure is to exempt from the licensing requirement to practice medicine in the State any commissioned medical officer or commissioned or civilian behavioral health professional employed by the U.S. Department of Defense, who is credentialed by Tripler Army Medical Center, while providing direct telemedicine support or services to neighbor island beneficiaries within a Hawaii National Guard armory on the islands of Kauai, Hawaii, Molokai, or Maui.

Your Committees received testimony in support of this measure from the Department of Defense, State of Hawaii; Oahu Veterans Center; Maui Veterans Council; Community Alliance for Mental Health; and one individual. Your Committees received comments on this measure from the Hawaii Medical Board.

Your Committees find that enhanced medical services for National Guard armories on the islands of Kauai, Hawaii, Molokai, and Maui will have a direct and long term impact for health care accessibility for neighbor island beneficiaries. This measure will improve mental health counseling and services for armed service members serving our nation.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Health and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 548 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

**SCRep. 295 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 1009**

The purpose and intent of this measure is to make permanent Act 170, Session Laws of Hawaii 2002 (Act 170), which shields county lifeguards from liability, with certain exceptions, by repealing the sunset date.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of Land and Natural Resources; State Fire Council; Kauai Fire Department; Department of the Corporation Council, City and County of Honolulu; Honolulu Emergency Services Department, City and County of Honolulu; Department of Fire and Public Safety, County of

Maui; County Council, County of Maui; Hawaii Fire Department, County of Hawaii; and Hawaiian Lifeguard Association. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committees find that the liability protections afforded to lifeguards under Act 170 will sunset on June 30, 2014. Act 170 provides liability protection for lifeguard services on the beach or in the ocean, except for gross negligence or wanton acts or omissions.

This limited liability protection is necessary because in the past, certain counties would not provide lifeguard services at state beach parks due to the fear of potential liability that might ensue. Your Committees find that Act 170 has created a climate in which lifeguard services can be provided by the counties without fear of liability, and therefore, it is a life-saving measure that should be made permanent.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2020, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1009, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1009, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Green).

Judiciary and Labor  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 296 Public Safety, Intergovernmental and Military Affairs on S.B. No. 777**

The purpose and intent of this measure is to specify additional acts that constitute the offense of impersonation of a law enforcement officer.

Your Committee received testimony in support of this measure from the Honolulu Police Department, City and County of Honolulu; and Hawaii Rifle Association.

Your Committee finds that the expansion of the offense of impersonating a law enforcement officer to include violent or harmful acts will improve the public safety of our communities.

Your Committee has amended this measure by:

- (1) Clarifying that the offense of impersonating a law enforcement officer in the first degree requires the perpetrator to pretend to be a law enforcement officer, be armed with a firearm, and threaten violence to another by an immediate show of force, threaten or attempt to confiscate or damage property of another, or threaten or attempt to exercise dominion or control over another;
- (2) Deleting subsection (b), which would have included intentionally or knowingly causing another person to apprehend a harmful or offensive contact under the offense of impersonating a law enforcement officer in the first degree;
- (3) Inserting a savings clause; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 777, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 297 Human Services on S.B. No. 103**

The purpose and intent of this measure is to require the Executive Office on Aging of the Department of Health to conduct an education and awareness campaign on long term care and have the campaign independently evaluated for effectiveness.

Your Committee received testimony in support of this measure from the Executive Office on Aging, County of Hawaii Office on Aging, Policy Advisory Board for Elder Affairs, Community Alliance for Mental Health, AARP Hawaii, International Longshore and Warehouse Union Local 142 Hawaii, Hawaii Alliance for Retired Americans, and one individual.

Your Committee finds that Americans with multiple, chronic health conditions and increased rates of disability in old age are living longer now than in the past. Furthermore, there will be a greater need for long term care in the future as Hawaii's population ages. Between 2007 and 2030, the population aged eighty-five and older, which has the greatest need for long term care, will increase by almost two-thirds. However, many people in Hawaii lack sufficient knowledge or are misinformed about the need for and cost of long term care. Your Committee finds that this measure will improve the ability of people in Hawaii to adequately plan for their long term care needs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 103 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 298 (Joint) Human Services and Health on S.B. No. 1336**

The purpose and intent of this measure is to designate the Kahuku Medical Center as a rural health clinic and critical access hospital.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Kahuku Medical Center, Hawaii Primary Care Association, and one individual. Your Committees received testimony in opposition to this measure from the Ko'olauloa Community Health and Wellness Center, Inc.

Your Committees find that rural hospitals are essential components of the State's health care system. Maintaining acute, long-term, and emergency services in areas like the North Shore of Oahu is essential to ensure access to health care among community residents and timely access to emergent care for visitors. The loss of Kahuku Medical Center's designation as a critical access hospital would endanger its ability to provide these services to residents and visitors on the North Shore.

Your Committees have amended this measure by clarifying that this measure designates Kahuku Medical Center as a rural hospital, rather than as a rural health clinic and critical access hospital.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1336, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1336, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Human Services  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).  
Health  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 299 Human Services on S.B. No. 1340**

The purpose and intent of this measure is to allow former foster care youths who are attending an institution of higher education as full-time students to stay in the foster care system until the age of twenty-three.

Your Committee received testimony in support of this measure from the Hawaii Foster Youth Coalition and three individuals. Testimony in opposition of this measure was submitted by the Department of Human Services.

Your Committee finds that foster youth who are evicted at age eighteen often do not have the financial, emotional, or housing support from their biological family. A 2001 study to identify the transition needs of foster youth in Oahu and East Hawaii found that twenty percent of foster youth aged eighteen to twenty-four were homeless within a year and that an additional forty-three percent were at risk of becoming homeless.

Your Committee further finds that due to the unfortunate nature of their situation, many former foster youths who are attending an institution of higher education find it difficult to adjust and transition to life after being in the foster care system because they often lack a support system. Without family support or the resources to provide for the basic necessities in life, many of these former foster youths may not have the financial means to attend school. There is a need to support these former foster youths to ensure their success and transition into society and that providing foster care support to these former foster youths while attending school would enable them to focus on academic success and career development instead of worrying about housing, food, and other basic needs.

Your Committee has amended this measure by deleting its contents and inserting language from S.B. No. 1104 (Regular Session of 2013), which establishes the young adult voluntary foster care program to care for and supervise eligible foster youth until their twenty-first birthdays, and further amending the measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1340, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1340, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 300 Human Services on S.B. No. 1226**

The purpose and intent of this measure is to:

- (1) Clarify the appointment requirements and qualifications for child custody evaluators;
- (2) Require the courts to establish a complaint process for child custody evaluators; and
- (3) Reserve the appointment of a child custody evaluator for the conducting of an investigation and analysis of the best interest of the child regarding disputed custody and visitation issues in complex cases where there is a possible risk to children; provided

that the court shall not order such an evaluation unless there is credible information regarding possible harm to the child or impairment of parental duties.

Your Committee received testimony in support of this measure from the Law Office of John Kirimitsu and seven individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that Act 149, Session Laws of Hawaii 2008, requires the court to define the requirements to be a court-appointed child custody evaluator; the standards of practice, ethics, policies, and procedures required of court-appointed child custody evaluators in the performance of their duties for all courts; and the powers of the courts over child custody evaluators to effectuate the best interests of a child in a contested custody dispute. Act 149 further provides that where there is no child custody evaluator available that meets the requirements and standards, or any child custody evaluator to serve indigent parties, the court may appoint a person otherwise willing and available.

Your Committee further finds that actions for divorce, separation, annulment, separate maintenance, or any other proceeding where there is at issue a dispute as to the custody of a minor child allow the family court, during the pendency of the action, at the final hearing, or any time during the minority of the child, to make an order for the custody of the minor child as may seem necessary or proper. For this purpose, section 571-46, Hawaii Revised Statutes, allows the court to appoint a child custody evaluator to investigate and report concerning the care, welfare, and custody of any minor child of the parties, or any party to produce an expert, whose skill, insight, knowledge, or experience is such that the person's or expert's testimony is relevant to a just and reasonable determination of what is for the best physical, mental, moral, and spiritual well-being of the child whose custody is at issue.

Your Committee also finds that Act 149 needs clarification in the interests of expediting the establishment of a system of child custody evaluators in order to ensure competent evidence and a fair determination of awarding child custody.

Your Committee has amended this measure by:

- (1) Specifying that the Judiciary, rather than the court, shall maintain a publicly accessible registry of child custody evaluators;
- (2) Requiring professionals who are willing and able to perform child custody evaluations to be responsible for providing the Judiciary with relevant information;
- (3) Requiring the Judiciary, rather than the court, to establish a complaint process regarding child custody evaluators appointed by the court and making a conforming amendment;
- (4) Requiring the Judiciary to also refer complaints to the appropriate licensing or certifying authority and submit to the Legislature an annual report on the complaints received; and
- (5) Deleting the language that reserved the appointment of a child custody evaluator, rather than a guardian ad litem, for investigation and analysis of disputed custody and visitation issues in complex cases and that prohibited the court from ordering such an evaluation unless there is credible information regarding possible harm to the child or impairment of parental abilities.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1226, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Green). Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 301 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1106**

The purpose and intent of this measure is to allow a child care program licensed by the United States Department of Defense and the Hawaii Council of Private Schools to be exempt from licensing by the Department of Human Services; provided that the child care program licensed by the Hawaii Council of Private Schools must apply and show evidence that the licensing standards of the Council meet or exceed the licensing standards of the Department of Human Services; provided further that the standards include a monitoring system that ensures compliance with the standards.

Your Committees received testimony in support of this measure from the Department of Human Services and Executive Office on Early Learning. Testimony in opposition to this measure was submitted by the Hawaii Association for the Education of Young Children. Your Committees received comments on this measure from the Hawaii Association of Independent Schools.

Your Committees find that the kindergartens, schools, or child care programs to be exempted in this measure are already licensed or certified by the United States Department of Defense and located on federal property. The licensing and certification standards of the United States Department of Defense exceed the Department of Human Services' standards.

Your Committees further find that the Department of Human Services does not have jurisdiction over child care programs located on federal property. It is an administrative burden for the Department of Human Services to also license these programs that are already licensed or certified by another entity.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1106, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1106, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Human Services

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 302 Human Services on S.B. No. 518**

The purpose and intent of this measure is to prohibit the Hawaii Public Housing Authority, when selecting tenants, from considering a prospective tenant's conviction for a minor crime that occurred five years or more before the application date; provided that the Authority may consider any conviction involving criminal drug-related offenses, violent criminal activity, sexual offenses, or alcohol abuse.

Your Committee received testimony in support of this measure from Legal Aid Society of Hawaii, Community Alliance for Mental Health, Hawaii Appleseed Center for Law and Economic Justice, and one individual. Testimony in opposition on this measure was submitted by the Hawaii Public Housing Authority and American Civil Liberties Union of Hawaii.

Your Committee finds that public housing agencies are allowed to consider criminal activity that would threaten the health, safety, or right to peaceful enjoyment on the premises by other residents or would threaten the health and safety of the public housing agency or staff. However, automatic denials against broad categories of applicants with criminal records are particularly vulnerable to fair housing challenges. Fair housing concerns include whether a public housing agency criminal history policy has a disparate impact based on an applicant's race. Because certain racial minorities have disproportionately more contact with the criminal justice system than the general population, housing policies that ban people with criminal records adversely affects those racial minority groups.

Your Committee further finds that policies must consider an applicant's individual attributes and the time, nature, and extent of the applicant's conduct, including the seriousness of the offense. Many applicants for housing will have histories that include information that may be considered adverse. Public housing agencies need a policy on how to respond to such adverse information. The policy should address how, when, and under what circumstances mitigating factors will be considered. Consideration may be given to evidence of rehabilitation, the applicant's willingness to participate in social service programs, and other factors indicating favorable future conduct.

Your Committee has heard testimony expressing concerns about policies regarding individuals committing multiple offenses that are petty misdemeanors. Your Committee finds that this issue merits further consideration and requests that your Committee on Judiciary and Labor further examine this issue.

Your Committee has amended this measure by:

- (1) Clarifying that this measure applies to the selection of elderly and disabled tenants; and
- (2) Amending the types of offenses that the Hawaii Public Housing Authority may consider when selecting elderly and disabled tenants by:
  - (A) Adding evictions and any violation of an order of restraint, trespassing, domestic abuse, or any crime that includes weapon involvement; and
  - (B) Deleting violations involving drug-related or violent criminal activity, sexual offences, or alcohol abuse.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 518, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 518, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 303 (Joint) Education and Health on S.B. No. 240**

The purpose and intent of this measure is to:

- (1) Require the Department of Health, in consultation with the University of Hawaii School of Nursing and Dental Hygiene, to provide training and clinical direction to school health aides; and
- (2) Repeal section 302A-708, Hawaii Revised Statutes, which requires the Department of Education to provide career pathways development and training opportunities to school health aides in the Department of Education's school health services field.

Your Committees received testimony in support of this measure from the Department of Education; University of Hawai'i at Mānoa School of Nursing and Dental Hygiene; Community Children's Council of Hawaii; Special Education Advisory Council; and one individual. Your Committees received testimony in opposition to this measure from the Department of Health and two individuals. Your Committees received comments from the Hawaii Government Employees Association AFSCME Local 152, AFL-CIO.

Your Committees find that there is an ongoing need for timely and appropriate training for school health aides.

Your Committees note that the Department of Education and Department of Health have started a dialogue on training school health aides, and it is the hope of your Committees that they will continue to work together to come to an agreement on this important issue.

Your Committees have amended this measure by:

- (1) Adding language to require the Department of Education and the Department of Health to enter into a memorandum of understanding on the issue of training for school health aides;
- (2) Requiring that a copy of the memorandum of understanding be provided to the Legislature no later than twenty days prior to the convening of the Regular Session of 2014;
- (3) Providing for the repeal of section 1, which requires the Department of Health, in consultation with the University of Hawaii School of Nursing and Dental Hygiene, to provide training and clinical direction to school health aides, on June 30, 2014; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 240, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 240, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 304 (Joint) Education and Health on S.B. No. 241**

The purpose and intent of this measure is to:

- (1) Allow Department of Education employees and agents to volunteer to administer epinephrine to a student in anaphylactic shock;
- (2) Require the Department of Health to provide proper instruction and training to every Department of Education employee or agent who volunteers to administer glucagon and epinephrine; and
- (3) Require a student's parent or guardian to provide the Department of Education with written authorization for auto-injectable epinephrine and to supply injectable epinephrine supplies to administer the epinephrine.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii Disability Rights Center, Community Children's Council of Hawaii, Special Education Advisory Council, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii State Employees Association AFSCME Local 152, AFL-CIO. Your Committees received comments on this measure from the Department of Health.

Your Committees find that this measure is necessary to clarify that Department of Education employees and agents may volunteer to administer epinephrine to a student in anaphylactic shock.

Your Committees also recognize that the Department of Education and Department of Health have been working together on the issue of providing proper instruction and training to every Department of Education employee or agent who volunteers to administer glucagon and epinephrine. Your Committees encourage the departments to continue to their dialogue and work toward entering a memorandum of understanding to address the training issue.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 241, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 241, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 305 (Joint/Majority) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs and Technology and the Arts on S.B. No. 693**

The purpose and intent of this Act is to establish a three-year pilot photo red light imaging detector system program to improve enforcement of the traffic signal laws in all counties with a population in excess of 600,000 and make an appropriation for the implementation and operation of the program.

Your Committees received testimony in support of this measure from the Department of Transportation, State Highway Safety Council, Mothers Against Drunk Driving, Hawaii Bicycling League, ThinkTech Hawaii, Safe Community of Maui, and two individuals. Your Committees received testimony in opposition to this measure from the State Public Defender, American Civil Liberties Union of Hawai'i, Hawaii Transportation Association, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and one individual.

Your Committees find that the prevalence of drivers violating Hawaii's traffic laws, especially on the island of Oahu, has become intolerable, particularly drivers who run red lights. These violations endanger the lives of motorists and pedestrians and compound the already hazardous conditions on Hawaii's roads and highways. It has become increasingly common to hear reports of hit-and-run

drivers who have run over children or the elderly. Disregarding traffic signals has also been the common denominator in recent highly publicized motor vehicle crashes that have claimed lives.

Photo red light imaging detector systems are mechanical and impersonal. Many jurisdictions have banned automated traffic enforcement on constitutional grounds because there is no certifiable witness to the violation and the driver is not positively identified. With photo red light imaging detector systems, a camera is positioned at intersections where red light violations are a major cause of collisions and serves as a twenty-four hour deterrent. Sensors are buried under a crosswalk and lead to a self-contained camera system mounted on a nearby structure. When a vehicle enters the intersection and the traffic light is red, the camera takes a telephoto color picture of the rear of the car, capturing the license plate. A second wide-angle photograph captures the entire intersection, including other traffic.

Your Committees have amended this measure by:

- (1) Deleting the establishment of the photo red light imaging detector program account within the general fund and specifying instead that all revenues from fines for violation of the photo red light imaging detector system shall be deposited into the general fund;
- (2) Deleting the appropriation for implementation and operation of the pilot photo red light imaging detector system program;
- (3) Inserting language relating to highway safety to:
  - (A) Amend section 249-7(b), Hawaii Revised Statutes, to require that motorcycles have a license plate displayed on the front as well as on the back of the motorcycle (mopeds are not required to have license plates); and
  - (B) Amend section 291C-32(a), Hawaii Revised Statutes, to require the length of the steady yellow indication to be sufficient to allow trucks to pass through the intersection before a steady red indication commences;
- (4) Clarifying the purpose section to conform to the amendments;
- (5) Inserting an effective date to July 1, 2050, to encourage further discussions in this matter; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 693, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 693, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 306 (Majority) Health on S.B. No. 1307**

The purpose and intent of this measure is to amend the tax on tobacco products, other than large cigars, to an unspecified rate.

Your Committee received testimony in support of this measure from the American Cancer Society Cancer Action Network. Your Committee received testimony in opposition to this measure from Glory Investments and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that a variety of tobacco products are currently taxed at rates lower than cigarettes, which may create a substitution effect. This measure amends the tax on tobacco products, other than large cigars, sold by a wholesaler or dealer beginning on September 30, 2013. Your Committee notes that as this measure moves forward, the specific amount of the tax will need to be determined.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 307 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1255**

The purpose and intent of this measure is to appropriate general funds to the Department of Health to demolish the Ewa Beach fire facility and construct a Leadership in Energy and Environmental Design (LEED) certified emergency medical services facility at the same location.

Your Committees received testimony in support of this measure from the Department of Health and United Public Workers. Your Committees received comments on this measure from the American Chemistry Council.

Your Committees find that with the relocation of Honolulu fire engine twenty-four, which serviced Ewa Beach, emergency response times to Ewa Beach have been negatively impacted. Your Committees find that the prior location of Honolulu fire engine twenty-four is ideal for an ambulance service and that by triangulating emergency first responders and emergency medical services, emergency response times and service to Ewa Beach would be improved. Therefore, your Committees find it necessary to appropriate funds for the demolition of the Ewa Beach fire facility and the construction of a LEED certified emergency medical services facility at the same location.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1255 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

**SCRep. 308 (Majority) Health on S.B. No. 1127**

The purpose and intent of this measure is to:

- (1) Amend section 709-908, Hawaii Revised Statutes, to add a definition of “electronic smoking device”;
- (2) Prohibit the selling or furnishing of electronic smoking devices to persons under eighteen years of age;
- (3) Prohibit persons under eighteen years of age from purchasing electronic smoking devices; and
- (4) Require the inclusion of a statement regarding the prohibition of the sale of electronic smoking devices to persons under the age of eighteen years on signage required on or near a vending machine, point of sale, or other location where tobacco is sold.

Your Committee received testimony in support of this measure from the Department of Health, Coalition for a Tobacco-Free Hawaii, VOLCANO Fine Electronic Cigarettes, and forty individuals. Your Committee received testimony in opposition to this measure from twenty-seven individuals.

Your Committee finds that electronic smoking devices have become increasingly prevalent and widely available, with some marketers of electronic cigarettes actively targeting minors. This measure will make Hawaii one of several states that prohibit the sale of electronic smoking devices to minors.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1127 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 309 Health on S.B. No. 984**

The purpose and intent of this measure is to appropriate funds as a grant pursuant to chapter 42F, Hawaii Revised Statutes, to Pacific Renal Care Foundation.

Your Committee received testimony in support of this measure from the Pacific Renal Care Foundation.

Your Committee finds that there are currently 156,000 Hawaii residents suffering from chronic kidney disease and over 3,000 patients receiving life-sustaining dialysis treatment throughout the State. Your Committee further finds that according to the National Kidney Foundation, these statistics indicate an incidence of this disease in Hawaii that is higher than the national average. This measure provides needed funding to slow the progression of chronic kidney disease through prevention and wellness outreach programs.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 984 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 310 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 981**

The purpose and intent of this measure is to authorize the Department of Health to provide public health statistics records to law enforcement officers for evidence in criminal investigations.

Your Committees received testimony in support of this measure from the Department of the Attorney General, City and County of Honolulu Department of the Prosecuting Attorney, City and County of Kauai Department of the Prosecuting Attorney, Honolulu Police Department, and County of Hawaii Police Department.

Your Committees find that law enforcement officers cannot generally obtain public health statistics records during investigations without a court order. The process of obtaining a court order for these records is time consuming and can often delay investigations involving physical evidence, safety of victims, availability of witnesses, or the ability to locate suspects. Your Committees find that

this delay negatively impacts criminal investigations in the State by threatening the safety of victims and others, compromising physical evidence, and delaying apprehension of suspects.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 981 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

**SCRep. 311 Health on S.B. No. 665**

The purpose and intent of this measure is to appropriate funds to address the shortage of primary care physicians in the State through a comprehensive primary care workforce development plan that addresses the critical areas of health care provider loan repayment, diversity programs, and primary care workforce expansion.

Your Committee received testimony in support of this measure from the John A. Burns School of Medicine, The Queen's Medical Center, Hawaii Medical Association, Papa Ola Lokahi, Hawaii Academy of Family Physicians, Hawaii Pacific Health, and sixty-one individuals. Your Committee received comments on this measure from four individuals.

Your Committee finds that Hawaii has a shortage of physicians compared to similar populations throughout the United States. Studies of the physician workforce in Hawaii demonstrate extreme shortages of primary care specialties, most notably in rural areas. Rising demand on the health care system in Hawaii due to population growth, aging, and the prevalence of chronic disease calls for an increase in the existing physician base. Access to a personal physician has been shown to decrease morbidity and mortality while controlling health care costs through early detection and careful management of chronic disease and deferral of unnecessary hospital admission and emergency room visits.

Your Committee further finds that physicians tend to remain and practice where they train. If bright medical students leave Hawaii to train elsewhere, they are less likely to return and practice in Hawaii. Strong evidence suggests that if medical school and residency are completed by medical students in Hawaii, eighty-five percent of those medical students will remain and practice as physicians in Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 312 Health on S.B. No. 662**

The purpose and intent of this measure is to appropriate funds to support the Hawaii Health Corps.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, Papa Ola Lokahi, and one individual.

Your Committee finds that the State is currently facing a shortage of health care providers. This measure will help extend health care services to rural and other underserved areas in the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 313 (Majority) Health on S.B. No. 645**

The purpose and intent of this measure is to:

- (1) Repeal the general excise tax exclusion for dealers who hold a permit to sell liquor;
- (2) Repeal the use tax exclusion on intoxicating liquor; and
- (3) Amend the gallonage liquor taxes and designate a percentage of revenue from those taxes to be paid to the community health centers special fund and the trauma system special fund.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Primary Care Association, Mothers Against Drunk Driving Hawaii, Ho'ola Lāhui Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Distilled Spirits Council of the United States; Hawaii Food Industry Association; Creekside Lounge, Inc.; and Anheuser Busch Companies.

Your Committee finds that almost half of all fatal traffic accidents in Hawaii involve an alcohol-impaired driver. A number of studies have shown that increasing the cost of alcoholic beverages is the best way to reduce the incidence of alcohol-related traffic

fatalities. Your Committee further finds that studies have also shown that increasing the cost of alcoholic beverages lowers rates of cirrhosis, sexually-transmitted diseases, and other health risks.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 645 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 314 (Majority) Health on S.B. No. 642**

The purpose and intent of this measure is to require cigarettes and tobacco products to be stored for sale behind a counter in certain establishments.

Your Committee received testimony in support of this measure from fifteen individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the tobacco industry spends more than \$12,000,000,000 annually on advertising and marketing its products in the United States. Each year, tobacco companies spend over \$42,000,000 promoting their brands in stores throughout Hawaii. The National Cancer Institute has reported that the total weight of evidence from multiple studies demonstrates a causal relationship between tobacco advertising and promotion and increased tobacco use.

Your Committee further finds that retail stores are given incentives to place tobacco advertisements and products in strategic locations near the cash register, known as a point-of-sale, or in self-service displays. Research indicates the presence of these products and advertisements may stimulate impulse purchases. Furthermore, a 2009 study found that frequent visits to stores selling tobacco and a greater awareness of cigarettes sold in stores increased the likelihood of teenagers being susceptible to initiating smoking, experimenting with smoking, or becoming smokers.

Your Committee has heard testimony expressing a concern that there are some remaining questions about the constitutionality of this measure. Your Committee finds that this issue merits further consideration and requests that your Committee on Commerce and Consumer Protection further examine this issue if they choose to schedule this measure for a hearing.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 642 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 315 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1254**

The purpose and intent of this measure is to appropriate funds to increase the on-call availability of emergency medical services and ambulance services in Ewa Beach.

Your Committees received testimony in support of this measure from the Department of Health; Honolulu Emergency Services Department, Emergency Medical Services Division, City and County of Honolulu; The Queen's Health Systems; United Public Workers; and one individual.

Your Committees find that the closure of Hawaii Medical Center hospitals has jeopardized access to emergency medical care for thousands of Oahu residents. The City and County of Honolulu Emergency Medical Services Division has been burdened with a need to respond to a greater number of emergency calls from Ewa Beach for transport to emergency rooms elsewhere on Oahu, and this increased demand threatens emergency service responders' ability to adequately serve the Ewa Beach community. Your Committees find it necessary to appropriate funds to the Department of Health to assist the City and County of Honolulu Emergency Medical Services Division with expanding emergency medical services and ambulance services in Ewa Beach.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1254 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

**SCRep. 316 Health on S.B. No. 1337**

The purpose and intent of this measure is to amend the definition of "something of value" to clarify that participation in health wellness programs is not considered gambling or lottery participation under the Hawaii Penal Code.

Your Committee received testimony in support of this measure from The Chamber of Commerce of Hawaii. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Police Department and County of Hawaii Police Department.

Your Committee finds that preventative health care is important not only for individuals' personal wellbeing, but also for the health care system of the State as a whole. Preventative health care assists health consumers in maintaining good health and helps them avoid

debilitating and costly diseases and conditions that might otherwise affect them without preventative health care. Your Committee notes that while these goals are laudable, there have been concerns that such programs run afoul of the State's gambling and lottery statutes. Because wellness programs promote the health of Hawaii's citizens and save the health care system significant sums of money annually, your Committee finds it necessary to amend the Hawaii Penal Code to clarify that wellness programs do not constitute gambling or lottery participation.

Your Committee has amended this measure by:

- (1) Amending the purpose section to clarify the Act's intent to exclude wellness programs from the definition of "gambling" and "something of value";
- (2) Inserting language to amend the definition of "gambling" to exclude payment for or participation in wellness programs sponsored by group health plans, accident and health or sickness insurers, mutual benefit societies, and health maintenance organizations in the State;
- (3) Amending the definition of "something of value" to exclude payment for or participation in wellness programs sponsored by group health plans, accident and health or sickness insurers, mutual benefit societies, and health maintenance organizations in the State; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1337, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 317 Health on S.B. No. 1139**

The purpose and intent of this measure is to establish a statewide hospital-based early identification and home visiting system to enhance health and safety outcomes, prevent child abuse and neglect, and appropriate funds to the Department of Health to administer the program.

Your Committee received testimony in support of this measure from the Department of Health; Executive Office on Early Learning; Home Instruction for Parents of Preschool Youngsters; Catholic Charities Hawaii; Child and Family Service; National Association of Social Workers Hawaii; Keiki O Ka Aina Family Learning Centers; and 34 individuals.

Your Committee finds that home visiting is an effective prevention strategy used by states and communities to improve the health and well-being of women, children, and families at risk for adverse health and safety concerns. Early investment in home visiting programs has been shown to reduce costs associated with foster care placements, hospitalizations, emergency room visits, unintended pregnancies, and other costly preventable outcomes. Your Committee finds that the establishment of a home visiting program in Hawaii will position the Department of Health to participate in the federal home visiting grant program and thereby improve the health and safety of eligible Hawaii families.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1139, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 318 Health on S.B. No. 608**

The purpose and intent of this measure is to require the Hawaii Medical Board to:

- (1) Set content standards for physician continuing education regarding prevention and treatment of chronic disease through changes in nutrition and lifestyle;
- (2) Disseminate information regarding the prevention and treatment of chronic disease by the application of changes in nutrition and lifestyle behavior; and
- (3) Convene a working group to discuss nutrition and lifestyle behavior for the treatment and prevention of chronic disease at a Board meeting before July 1, 2016.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that it is estimated that the health care costs for chronic disease treatment account for over seventy-five percent of national health expenditures. Your Committee further finds that many of the problems associated with chronic disease could be alleviated with a change in diet. However, your Committee also finds that nutrition counseling is not extensively taught in medical schools. This measure addresses the important issues of nutrition and lifestyle behavioral change by requiring the Hawaii Medical Board to set content standards for continuing education, disseminate relevant information, and assemble a working group to discuss the treatment and prevention of chronic disease through changes in nutrition and lifestyle.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 608, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 608, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 319 Technology and the Arts on S.B. No. 1000**

The purpose and intent of this measure is to designate the Chief Information Officer or the Chief Information Officer's designee to serve on and chair the Access Hawaii Committee.

Your Committee received testimony in support of this measure from the Office of Information Management and Technology, Department of Accounting and General Services, State of Hawaii Judiciary, and Hawaii Open Data.

Your Committee finds that the Access Hawaii Committee was established to oversee Hawaii's internet portal activities. Now that Hawaii has a full-time Chief Information Officer to provide the overall direction and vision for information technology, naming the Chief Information Officer as chair of the Access Hawaii Committee aligns the Committee's responsibilities with the State's strategic plan.

Your Committee has amended this measure by:

- (1) Requiring the Portal Manager's annual financial reports to be included in the annual report to the Legislature and public; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1000, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1000, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 320 (Joint) Public Safety, Intergovernmental and Military Affairs and Tourism and Hawaiian Affairs on S.B. No. 404**

The purpose and intent of this measure is to add the Administrator of the Office of Hawaiian Affairs and one member of the public who is knowledgeable about issues relating to the criminal justice system and has substantial experience or expertise in traditional Native Hawaiian practices to the Corrections Population Management Commission.

Your Committees received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, Community Alliance on Prisons, Association of Hawaiian Civic Clubs, and three individuals. Your Committees received comments on this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that in 2011, the Legislature established a task force to formulate policies and procedures to eliminate the disproportionate representation of Native Hawaiians in Hawaii's criminal justice system. The Corrections Population Management Commission, which is administratively attached to the Department of Public Safety, is an appropriate agency to conduct this examination because the Commission is devoted to finding solutions to improve Hawaii's criminal justice system. By including the Administrator of the Office of Hawaiian Affairs and a member of the public who is well-versed in Native Hawaiian traditions in the Commission, this measure will ensure that the active voice of the Native Hawaiian community is heard when addressing criminal justice policies and programs.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 404 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Tourism and Hawaiian Affairs  
Ayes, 6. Noes, none. Excused, 2 (Hee, Slom).

**SCRep. 321 Judiciary and Labor on S.B. No. 886**

The purpose and intent of this measure is to propose a constitutional amendment to raise the mandatory retirement age for state judges and justices from seventy to eighty years of age.

Your Committee received testimony in support of this measure from the Department of the Attorney General; International Longshore and Warehouse Union, Local 142; and League of Women Voters of Hawaii. Testimony in opposition to this measure was submitted by the Department of the Prosecuting Attorney, City and County of Honolulu; and one private individual. The Office of the Public Defender submitted comments.

Your Committee finds that there are a number of judges and justices who are willing and able to serve on the bench past the mandatory retirement age of seventy. While your Committee recognizes that a mandatory retirement age ensures continued opportunities to serve on the bench, it believes that judges and justices who are willing and able to serve should be allowed to do so until the age of eighty.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 886 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard). Noes, none. Excused, none.

**SCRep. 322      Judiciary and Labor on S.B. No. 870**

The purpose and intent of this measure is to place limitations on the parental discipline defense while maintaining a parent's general right to safeguard and promote the welfare of a child by:

- (1) Specifying types of force that are presumed unjustifiable; and
- (2) Altering the state of mind requirement with respect to other types of force to impose a requirement that the force used does not intentionally, knowingly, recklessly, or negligently create a risk of causing substantial bodily injury, disfigurement, extreme pain or mental distress, or neurological damage.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kaua'i; and IMUA Alliance. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that the parental discipline defense is intended to limit the amount of force that parents and guardians can legally use in disciplining their children to the extent that the force is reasonable or moderate. However, according to the Department of the Prosecuting Attorney of the City and County of Honolulu, courts and attorneys have struggled with properly interpreting and applying the parental discipline defense. This measure clarifies the parental discipline defense by specifying the types of force that are not appropriate for the purpose of safeguarding or promoting the welfare of a minor.

Your Committee notes the concerns raised by the Office of the Public Defender with respect to the vagueness in applying the limitations to the parental discipline defense, which may potentially cause confusion among litigants in court. Furthermore, creating an irrebuttable presumption relating to certain types of force takes the decisions away from the trier of fact and adds an element of strict liability to the defense. The Office testified that the decision on whether a form of corporal punishment is permissible under the parental discipline defense should be appropriately made by a jury.

In balancing the need to clarify the parental discipline defense with the concern that creating an irrebuttable presumption may result in unintended legal consequences, your Committee further finds that this measure should be amended to create a rebuttable presumption regarding the specified types of physical force. A rebuttable presumption gives particular effect to certain group of facts in absence of further evidence and shifts the burden of proof to the defendant to show evidence to contradict the facts presumed. Your Committee believes that the types of force specified under this measure merit further discussion as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Establishing a rebuttable presumption that specified types of physical force when used to discipline minors are not justified;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 870, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 870, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 323      Judiciary and Labor on S.B. No. 880**

The purpose and intent of this measure is to require the court to impose a mandatory minimum term of imprisonment without the possibility of parole or probation for a person convicted of certain acts of sexual assault against a minor under the age of twelve years.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Police Department, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kaua'i; IMU Alliance; and two private individuals. Testimony in opposition to this measure was submitted by the Office of the Public Defender and American Civil Liberties Union of Hawai'i.

Your Committee finds that according to the "Sexual Assault Victims in Honolulu, A Statistical Profile", during the eleven-year period between 1990 and 2001, the Sex Abuse Treatment Center assisted an average of four hundred sixty victims per year in Honolulu, with almost one-third of the victims under the age of twelve. Specifically, of the approximately four hundred sixty victims each year, 18.8 percent of the victims are between the ages of zero and five, and 13.7 percent of the victims are between the ages of six to eleven. This measure helps to curb sexual assault on minors in Hawaii by creating mandatory minimum terms of imprisonment for any person convicted of sexual assault in the first, second, or third degree where the victim was subjected to sexual penetration. The Department of the Prosecuting Attorney of the City and County of Honolulu clarified that this measure is focused on offenders who are

convicted of certain sexual offenses that involve sexual penetration of a minor under the age of twelve and excludes statutory sexual offenses and sexual offenses solely involving sexual contact.

The Office of the Public Defender and the Department of the Prosecuting Attorney of the City and County of Honolulu have differing opinions on certain issues in this measure. Your Committee notes the concern raised by the Office of the Public Defender that this measure may force more child victims to go through a trial where they will be required to relive the sexual assault in a public setting in the presence of their perpetrator. However, the Department of the Prosecuting Attorney of the City and County of Honolulu testified that deputy prosecutors are trained to prepare child victims to testify in court and that the experience to testify against their perpetrator can be an empowering experience for them.

The Office of the Public Defender testified that the Hawaii Paroling Authority should continue to bear the responsibility to assess each case and determine the minimum and maximum terms for a convicted felon to serve. Furthermore, in cases where the defendant is charged with a class B or class C felony, the chance of serving probation in lieu of imprisonment is an incentive for the defendant to plead guilty thereby expediting a resolution. The defendant may also be required under the terms of probation to receive certain program services. A convicted felon serving a minimum mandatory prison sentence is not eligible for these types of programs. However, the Department of the Prosecuting Attorney of the City and County of Honolulu testified that defendants charged with certain acts of sexual assault against a minor under the age of twelve do not deserve probation for the type and nature of the crime committed.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 880, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 880, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 324      Judiciary and Labor on S.B. No. 890**

The purpose and intent of this measure is to allow the Governor to appoint an acting member to serve on the Hawaii Labor Relations Board in the event that a regular board member is temporarily unable to act due to recusal.

Your Committee received testimony in support of this measure from the Department of the Attorney General, University of Hawaii Professional Assembly, and one private individual.

Your Committee finds that existing law requires three members to serve on the Hawaii Labor Relations Board to ensure that collective bargaining is conducted in accordance with collective bargaining laws. Any action taken by the Board is done by simple majority. However, in the event that a board member recuses the member's self and the remaining board members cannot agree, the Board may be deadlocked and unable to act. This measure addresses the elimination of a tiebreaker by allowing the Governor to appoint an acting board member to serve on the Board in the event that a regular board member is unable to act upon a matter due to recusal.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by a private individual that clarifies that the acting member appointed due to a regular board member's recusal shall be appointed for the case in which the recusal occurred and that the acting member's appointment terminates when a final decision is filed or the case is withdrawn;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 890, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 890, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 325      Judiciary and Labor on S.B. No. 1016**

The purpose and intent of this measure is to update the covered offender registration law to clarify provisions, address issues that have arisen in the implementation of the covered offender registration law, and continue efforts in complying with the federal Sex Offender Registration and Notification Act. Specifically, this measure:

- (1) Makes several amendments to the definitions section of the covered offender registration law by:
  - (A) Defining foreign convictions and tribal convictions to comply with the federal requirements under the Sex Offender Registration and Notification Act;
  - (B) Defining "attorney general", "chief of police", and "out-of-state conviction" for clarity purposes;
  - (C) Defining "permanent residence" and "temporary residence" for purposes of clarifying covered offender registration requirements and specifying that a permanent residence or temporary residence does not include a motor vehicle;

- (D) Amending the definition of “conviction” to clarify that for purposes of covered offender registration, a conviction occurs on the date the judgment is entered;
  - (E) Amending the definitions of “crime against minors” and “sexual offense” to include comparable foreign and tribal convictions to comply with the requirements under the federal Sex Offender Registration and Notification Act, and further amending the definition of “sexual offense” to include any convictions for offenses from other jurisdictions that subjected the offender to covered offender registration and notification in the jurisdiction of the conviction; and
  - (F) Repealing the definitions of “mental abnormality”, “personality disorder”, and “predatory” as these terms are no longer applicable;
- (2) Makes several amendments to the registration requirements law by:
- (A) Clarifying that covered offenders, whether or not residents of Hawaii, who remain in Hawaii for more than ten days or for an aggregate period exceeding thirty days in one calendar year, are required to register with the Attorney General;
  - (B) Repealing the provision that requires covered offenders from other jurisdictions, who were subject to registration or public notification requirements in the other jurisdiction, to register in Hawaii to conform to the proposed amendments under this measure; and
  - (C) Clarifying the registration information required of a covered offender regarding the place of residence;
- (3) Amends the law relating to the duties upon discharge, parole, or release of a covered offender to clarify that the court’s responsibility to advise a covered offender of the registration requirements and to start the registration process begins after sentencing and the entry of a judgment;
- (4) Makes several amendments to the periodic verification of registration information law by:
- (A) Requiring covered offenders who register permanent residence addresses to which mail can be delivered, or a permanent residence with a registered post office box, to verify their registration information every ninety days;
  - (B) Requiring covered offenders who register a temporary residence address, a description of a place with no mailing address, no place of residence, or a permanent address to which the United States Postal Service will not deliver mail to report once a month to the Chief of Police to verify their registration information; and
  - (C) Repealing the provision that refers to a violation of the covered offender registration law if the covered offender fails to mail the periodic verification form to the Attorney General within ten days after receipt of the form in order to avoid a conflict with other existing sections of the covered offender registration law;
- (5) Amends requirements regarding registering a change in registration information in order to conform to the proposed amendments made to the periodic verification of registration information requirements under this measure;
- (6) Makes several amendments to the law relating to the failure to comply with covered offender registration requirements by:
- (A) Creating a new offense for those covered offenders who register a temporary address or no address and fail to report once a month to the Chief of Police to verify the registration information;
  - (B) Creating a new offense for those covered offenders who are required to report once a month to the Chief of Police and fail to disclose every location where the covered offender has slept in the previous month; and
  - (C) Adding an affirmative defense for a covered offender who fails to comply with registration requirements if the covered offender was in custody or civilly committed; and
- (7) Makes several amendments to the termination of registration requirements by:
- (A) Amending tier 3, tier 2, and tier 1 offenses to include the proposed amendments relating to covered foreign and tribal offenses under this measure; and
  - (B) Creating a residual category under the tier 1 offenses to categorize any covered offenses that are not clearly included within the existing tiered offenses classification.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, County of Maui; Police Department, County of Maui; Police Department, County of Hawai‘i; Police Department, City and County of Honolulu; and The Sex Abuse Treatment Center. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that this measure will facilitate the State in becoming an active and effective participant in the nationwide network of state sex offender registries that are created to protect the public. The Department of the Attorney General indicated in its written testimony that this measure has the unanimous support of the Hawaii Law Enforcement Coalition comprised of the chiefs of police of all four counties, the prosecuting attorneys of all four counties, the Attorney General, and the United States Attorney for the District of Hawaii.

However, your Committee notes the concerns raised by the Office of the Public Defender. The Office expressed the following concerns regarding excluding motor vehicles from the definitions of “permanent residence” and “temporary residence”; using the term “federally recognized” to define a tribal conviction; confusing language relating to federal, military, out of state, tribal, or foreign convictions; requiring covered offenders who are homeless to report in person to the Chief of Police once a month; making it a violation for these same homeless covered offenders who fail to report once a month every location where the covered offenders slept in the previous month; and creating an affirmative defense to a violation that the covered offender was either in custody or was judicially committed.

Your Committee worked with the Department of the Attorney General and Office of the Public Defender to discuss the concerns that the Office indicated and develop language that both entities could agree upon. Your Committee notes that they were able to agree on language to resolve all but one concern regarding excluding motor vehicles as a permanent or temporary residence. The Office believes that residing in a motor vehicle should not deny a covered offender a permanent or temporary resident status. However, the Department indicated that because a motor vehicle allows a covered offender to move to various locations at any time, this movement makes it more difficult to keep track of these covered offenders. Your Committee agrees with the Office but recognizes the reasons presented by the Department.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language agreed upon by the Department of the Attorney General and Office of the Public Defender, which:
  - (A) Clarifies that a tribal conviction means a conviction by a tribal court of an Indian tribe recognized by the government of the United States rather than a tribal court of a federally recognized Indian tribe;
  - (B) Deletes confusing language relating to federal, military, out of state, tribal, or foreign convictions under the definition of “sexual offense”;
  - (C) Requires covered offenders who register a temporary residence address, a description of a place with no mailing address, or no place of residence to report to the Chief of Police to verify their registration information during the first week of the months of January, April, July, and October of every year rather than once every month;
  - (D) Deletes the violation for covered offenders with a temporary residence or no residence who fail to report once a month every location where the covered offenders slept in the previous month; and
  - (E) Amends language that creates an affirmative defense for a covered offender who fails to comply with registration requirements if the covered offender was in custody or civilly committed to clarify that if the defendant intends to rely on this defense, the defendant is required to file a pretrial motion and notify the prosecutor and court;
- (2) Adopting the language developed by the Office of the Public Defender that deletes the exclusion of a motor vehicle under the definitions of “permanent residence” and “temporary residence”;
- (3) Making conforming amendments to the definition of “registration information” and section 806-83(a), Hawaii Revised Statutes, to properly account for the amendments made to the covered offender registration law;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1016, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

#### **SCRep. 326 Commerce and Consumer Protection on S.B. No. 1072**

The purpose and intent of this measure is to update the Insurance Code by streamlining and improving the operations of the Insurance Division of the Department of Commerce and Consumer Affairs and ensuring that the Insurance Division retains its accreditation with the National Association of Insurance Commissioners.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii Captive Insurance Council; Artex Risk Solution, Inc.; and Strategic Risk Solutions, Inc. Your Committee received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company and National Association of Mutual Insurance Companies. Your Committee received comments on this measure from the American Council of Life Insurers.

Your Committee finds that this measure updates the Insurance Code and includes amendments to certain provisions of the Insurance Code that relate to risk retention captive insurance companies domiciled in Hawaii under the State’s captive insurance law. This will permit the State to maintain its accredited status with the National Association of Insurance Commissioners.

Your Committee has heard the concerns that the ten-day deadline to request an administrative hearing, as proposed by this measure, may be an impractical time frame within which insurers can review all the implications of a regulatory decision. Your Committee notes that the Insurance Division currently provides parties with reasonable time to request a hearing in accordance with the Hawaii Administrative Procedures Act, chapter 91, Hawaii Revised Statutes. Your Committee concludes that because insurers may have difficulties finalizing an application for a hearing on a complicated regulatory issue within a ten-day period, the flexibility of a reasonable time to request a hearing would be more appropriate.

Your Committee also finds that an amendment to this measure is necessary to include the applicability of section 431:3-408, Hawaii Revised Statutes, to risk retention captive insurance companies. This section of the Hawaii Revised Statutes is an important component of the National Association of Insurance Commissioner’s model act relating to risk-based capital and relates to the confidentiality of risk-based capital reports and related documents.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have established a ten-day deadline to request an administrative hearing under section 431:2-308(d), Hawaii Revised Statutes;

- (2) Clarifying that the Insurance Code provisions made applicable to risk retention captive insurance companies by this measure also include section 431:3-408, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1072, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1072, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 327 Commerce and Consumer Protection on S.B. No. 1073**

The purpose and intent of this measure is to establish the licensing and regulation of dental service corporations under the Insurance Commissioner.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawaii Dental Association.

Your Committee finds that under the federal Patient Protection and Affordable Care Act, beginning in 2014, all health plans will include a pediatric dental component. Your Committee further finds that stand alone dental plans will be able to be sold through Hawaii's health insurance exchange, known as the Hawaii Health Connector. However, a dental insurer must be licensed prior to selling a stand alone dental plan on the Hawaii Health Connector. This measure creates a licensing requirement for dental insurers to enable the dental insurers to sell dental plans on the Connector, places dental insurers under insurance regulation, and establishes financial solvency oversight for consumer protection.

Your Committee has heard the concerns that this measure would repeal the existing statutory authority for the formation and corporate structure of dental service corporations in the State. Your Committee therefore concludes that amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Amending the title of the new chapter to "Dental Insurers", to avoid a conflict with chapter 423, "Dental Service Corporations", and making conforming substitutions for the term "dental service corporation" with the term "dental insurer";
- (2) Specifying that dental insurers are required to adopt provisions for the coordination of benefits;
- (3) Removing language that would have repealed chapters 423 and 448D, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure is the result of a compromise between the Insurance Division of the Department of Commerce and Consumer Affairs and interested stakeholders.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1073, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1073, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 328 Commerce and Consumer Protection on S.B. No. 1261**

The purpose and intent of this measure is to apply a reduced gallonage tax on the first sixty thousand barrels of beer brewed or produced per year by a small brewery or brewpub in the State.

Your Committee received testimony in support of this measure from Maui Brewing Co. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's local brewers, those brewers that brew one hundred percent of their product in Hawaii, account for less than two percent of all beer sold in Hawaii. Your Committee further finds that the extremely high cost of production and manufacturing, in comparison to production and manufacturing on the mainland, has made it increasingly difficult for local Hawaii brewers to grow and remain competitive.

Your Committee additionally finds that this measure will support the growing craft beverage industry in Hawaii, promote manufacturing jobs, and encourage the growth of small businesses. A lower gallonage tax on small breweries and brewpubs will reduce the tax bill for small breweries and brewpubs, while also creating an incentive for these companies to grow their companies locally and become more competitive with brewers on the mainland. Other states with thriving craft beverage industries, including Oregon, Colorado, and Washington, have had success with reduced gallonage tax rates and subsequent job growth. Your Committee also finds that this measure should be viewed as an investment for job creation and promotion of manufacturing in Hawaii.

Your Committee has heard the concerns that this measure will impose additional administrative costs on the Department of Taxation. The modified tax treatment proposed by this measure will require the Department of Taxation to distinguish between small and large brewers, closely track the amounts of beer brewed, and apply two rates of tax to some brewers. Your Committee concludes that amendments to this measure are necessary to place the lower tax rate within the existing liquor tax structure. This will maintain the current structure and operation of the liquor tax and avoid additional administrative burdens on the Department of Taxation.

Your Committee also concludes that amendments to the definition of “small brewery or brewpub” are necessary to clarify that the lower tax rate will apply only to a “small brewery or brewpub”, which is defined as a brewery or brewery pub that brews or produces sixty thousand barrels of beer or less per taxable year. These amendments are necessary to avoid two rates of tax on some brewers and any potential Commerce Clause issues.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of “small brewery or brewpub”;
- (2) Establishing a tax rate within the existing liquor tax structure under section 244D-4(a), Hawaii Revised Statutes, of twenty-three cents per wine gallon on draft beer and beer other than draft beer that is brewed or produced by a small brewery or brewpub, rather than creating a new section related to tax and small breweries and brewpubs in chapter 244D, Hawaii Revised Statutes, and making conforming amendments; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1261, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1261, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 329 (Joint) Water and Land and Tourism and Hawaiian Affairs on S.B. No. 568**

The purpose and intent of this measure is to repeal the maximum allowable taking of one gallon per person per day of sand, dead coral, coral rubble, rocks, soil, or other marine deposits from the shoreline area or seaward of the shoreline, except for materials inadvertently taken, and exempts responses to public emergencies and disasters, as well as traditional cultural practices.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and three individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Hawaii’s beach sand sources are diminishing daily due to erosion, inappropriate shoreline armoring, and illegal sand mining. If residents want sand for household uses, they can purchase inland sand deposits or manufactured sand from various commercial sources. The amount of sand alone that can be pilfered, even at one gallon per day each by several individuals repeatedly, is staggering. By disallowing the intentional taking of up to one gallon of sand and other marine deposits per person per day, this measure protects marine deposits as precious natural resources.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 568 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Water and Land  
Ayes, 4. Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

Tourism and Hawaiian Affairs  
Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

**SCRep. 330 (Joint) Water and Land and Tourism and Hawaiian Affairs on S.B. No. 1169**

The purpose and intent of this measure is to clarify the offenses for which property is subject to forfeiture under chapter 6K, Hawaii Revised Statutes, relating to the Kaho’olawe Island Reserve, including any activity prohibited by rules of the island reserve and any violation of rules regulating fishing in waters within the island reserve, and to clarify that property seized pursuant to conservation and resources enforcement actions may be forfeited and disposed of as provided by law.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Kaho’olawe Island Reserve Commission, and Office of Hawaiian Affairs. Your Committees received testimony in opposition to this measure from the Ocean Tourism Coalition. Your Committees received comments on this measure from the Attorney General.

Your Committees find that this measure serves as a deterrent to conservation and natural resource violations, thus strengthening the enforcement powers of the Department of Land and Natural Resources and protecting the natural resources of the island reserve.

Your Committees agree with the concerns expressed by the Ocean Tourism Coalition that forfeiture is not intended to be used for inadvertent acts or emergency entries onto the island reserve.

Your Committees have amended this measure by:

- (1) Clarifying that this measure does not apply to violations of rules regulating fishing in waters within the island reserve by persons or vessels within one nautical mile of the boundaries of the island reserve, on the recommendation of the Kaho’olawe Island Reserve Commission; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1169, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1169, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 4. Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

Tourism and Hawaiian Affairs

Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

**SCRep. 331 (Joint) Water and Land and Tourism and Hawaiian Affairs on S.B. No. 1371**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to accommodate the mooring of native Hawaiian canoes owned by nonprofit entities and used for educational purposes in small boat harbors, insofar as practicable.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Association of Hawaiian Civic Clubs, and one individual.

Your Committees find that the traditional native Hawaiian practice of using native Hawaiian canoes needs to be preserved and perpetuated in the interests of promulgating the native Hawaiian culture. Mooring of native Hawaiian canoes in small boat harbors is a practical necessity, especially for a nonprofit entity operating native Hawaiian canoes for educational purposes.

Your Committees have amended this measure by:

- (1) Deleting the phrase "insofar as practicable," which may severely limit the availability of moorings; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1371, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1371, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 4. Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

Tourism and Hawaiian Affairs

Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

**SCRep. 332 (Joint) Water and Land and Transportation and International Affairs on S.B. No. 1161**

The purpose and intent of this measure is to clarify that all costs and expenses associated with the impoundment of an unauthorized vessel by the Department of Land and Natural Resources shall be borne by the vessel owner and to specify circumstances under which no vessel registration shall be renewed or transferred.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources.

Under existing law, the burden, along with the costs and expenses of impoundment and disposal of all unauthorized vessels, is on the Department of Land and Natural Resources when a vessel owner does not repossess an impounded vessel prior to disposition. The process is costly and time-consuming for the Department. The State is also not entitled to recover mooring fees incurred by the vessel owner prior to impoundment.

Your Committees find that that in the case of a vessel owner who is in violation of mooring within a state small boat harbor or offshore mooring area, the vessel owner should have a continuing obligation to pay for the consequences.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1161, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1161, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

Transportation and International Affairs

Ayes, 7. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 333 Water and Land on S.B. No. 1372**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the Department Of Land and Natural Resources, in consultation with Hawaiian Islands Land Trust, to engage in efforts to acquire the parcel of land located at Lipoa Point.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and seven individuals.

Your Committee finds that Lipoa Point-Honolua on the island of Maui is one of the most iconic landmarks in Hawaii. Honolua is rich in marine resources and historical and archaeological sites and is one of the most popular recreational areas for locals and tourists alike, offering some of the best snorkeling and surfing conditions on the island of Maui. Nationally recognized as a marine preserve, it has attracted federal funding and programs for having some of the highest fish assemblage characteristics of all the Hawaiian islands. Additionally, Honolua is considered to have one of the most diverse, unique, and abundant reef formations, providing a habitat for rare coral species.

According to testimony of the Department of Land and Natural Resources, Maui Land and Pineapple Company, Inc., is a willing seller, and the Hawaiian Islands Land Trust is hiring an appraiser to provide a letter of appraisal and eventually a full appraisal of the subject property. Hawaiian Islands Land Trust intends to apply for state grant funding for the due diligence process. The Department is continuing discussions with the Hawaiian Islands Land Trust regarding the acquisition of the subject property subject to approval of the Board of Land and Natural Resources under section 171-30, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Mandating the Department of Land and Natural Resources to invite participation of the appropriate government agencies and nonprofit organizations to achieve the acquisition and protection of Lipoa Point through collaborative partnerships; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1372, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

**SCRep. 334 (Majority) Public Safety, Intergovernmental and Military Affairs on S.B. No. 69**

The purpose and intent of this measure is to make an appropriation to the county police departments to establish gun buy-back programs with the goal of reducing the number of firearms in the community.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Office of the Prosecuting Attorney, Hawaii County; Police Department, County of Kauai; and two individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association, Hawaii Rifle Association, Valley Isle Sport Shooters, and numerous individuals.

Your Committee finds that under existing law, a person arriving in the State with a firearm is required to register the firearm, but no permit process or background check is required. Therefore, individuals who might have been prohibited from acquiring a firearm in Hawaii can acquire a firearm outside of Hawaii, where a permit process or extensive background check may not be required, then possess and be considered registered firearm owners after registering with the county police department. Your Committee finds that an amendment to this measure is necessary to close this loophole by requiring individuals arriving in the State with firearms to undergo a background check before registering a firearm with the county police department.

Your Committee has amended this measure accordingly by:

- (1) Deleting the appropriation for the establishment of a gun buy-back program;
- (2) Inserting language to require county police departments to fingerprint, photograph, and perform background checks on individuals who wish to register a firearm that was procured out-of-state, with certain exceptions; authorize the police departments to assess a fee for conducting a fingerprint check in connection with the registration; and specifying the amount of the fee;
- (3) Inserting language to appropriate a total of \$200,000 to the county police departments to develop various gun safety programs, including gun safety education and training; extensive background checks for mental health concerns for certain individuals wishing to register guns; and gun buy-back programs;
- (4) Amending section 1 of this measure to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 69, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 69, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Baker).

**SCRep. 335 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 75**

The purpose and intent of this measure is to:

- (1) Require the Department of Public Safety to establish a two-year Hawaii's opportunity parole with enforcement pilot program for no more than twenty inmates to be subject to high-intensity parole supervision;
- (2) Require the Hawaii Paroling Authority to report to the Legislature regarding the parole pilot program; and
- (3) Make an appropriation for the parole pilot program.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, and Community Alliance on Prisons.

Your Committees find that probationers often fail to appear for scheduled appointments with their probation officers, decline to take mandatory drug tests, or test positive for illegal drug use. Studies show that as many as half of all probationers break the law again.

The parole pilot program would replicate the successful Hawaii's Opportunity Probation with Enforcement (HOPE) program, which was instituted in 2004 to impose sanctions for each probation violation. The HOPE program has reduced recidivism and has made a large contribution to reducing the prison population.

Your Committees have amended this measure by replacing the Department of Public Safety with the Hawaii Paroling Authority as the entity that will establish and administer the parole pilot program.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 75, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 75, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

Judiciary and Labor  
Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 336 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1179**

The purpose and intent of this measure is to:

- (1) Provide for the filing of a petition for involuntary medical treatment in either the district or circuit court;
- (2) Allow a licensed physician or psychologist to file a declaration, as an alternative to an affidavit;
- (3) Expand the court's ability to continue the hearing on the petition for good cause;
- (4) Give the court more flexibility in deciding when a guardian ad litem is necessary;
- (5) Increase the time within which a person must be examined by a licensed physician or psychologist from two days to five days prior to filing of the petition;
- (6) Amend the list of persons who must be notified of the petition; and
- (7) Clarify the effective expiration date of the order for persons who return to custody after release.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of the Attorney General.

Your Committee finds that this measure allows for a more efficient and responsive court process, enabling medical staff in various correctional facilities to provide critical and necessary medical treatment in a more timely fashion. This measure will help to improve the mental and physical status of inmates. Furthermore, this measure expedites the notification process by restricting notification to those parties whom the inmate has designated as their emergency contact or their legal guardian while in the custody of the Department of Public Safety.

Your Committee has amended this measure by:

- (1) Deleting the word "shelter" from the definition of "Danger of physical harm to self"; and
- (2) Making technical, nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1179, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 337 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1181**

The purpose and intent of this measure is to:

- (1) Add child support payments as obligations for inmates on furlough who are employed; and
- (2) Specify the percentage of earnings that shall be deducted to satisfy outstanding orders regarding restitution, crime victim compensation, other fees and fines, and child support and reimbursement to the State for the cost of room and board.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of the Attorney General, and one individual.

Your Committee finds that child support orders are not included in statute as financial obligations for committed persons on furlough who are employed outside of the correctional facility. However, the Department of the Attorney General testified that

limiting the amount of net monthly earnings or amount ordered that can be withheld for child support orders to thirty percent may cause the State to be noncompliant with federal law.

Your Committee has amended this measure accordingly by:

- (1) Deleting the language limiting the amount of child support to be paid at thirty percent of the net monthly earnings or the amount ordered, whichever is less, and deleting the definition of "net income"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1181, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 338 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1183**

The purpose and intent of this measure is to:

- (1) Require intake service centers to provide pretrial bail reports to the courts on adult offenders that are consented to by the defendant or that are ordered by the court;
- (2) Provide statutory authority to the courts to treat information contained in the pretrial bail reports as confidential; and
- (3) Repeal the intake service centers' duty to assist in the conduct of presentence assessments on adult offenders and the preparation of presentence reports when requested by the courts.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that this measure provides clear language in identifying the intake service centers' core responsibility in providing bail reports to the court. This measure will allow courts to receive detailed information, such as the defendant's medical, mental health, and substance abuse history, to assist with pretrial release decision-making. This measure will also protect defendants from having the confidential information contained in these reports made public, thereby exposing them to potential identity theft.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1183, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1183, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 339 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 1068**

The purpose and intent of this measure is to:

- (1) Authorize the Commissioner of Financial Institutions of the Department of Commerce and Consumer Affairs to require money transmitters to register with NMLS;
- (2) Establish procedures for a licensed money transmitter to surrender its license; and
- (3) Amend the bond requirement, fee structure for services provided by the Division of Financial Institutions of the Department of Commerce and Consumer Affairs for the regulation of money transmitters, and the fine for violations of money transmitter regulations.

Your Committees received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committees find that the Money Transmitter Act, codified as chapter 489D, Hawaii Revised Statutes, was originally enacted in 2006 to protect consumers of money transmission services and prevent money transmission from being used to facilitate illegal activities. This measure will enable the Commissioner of Financial Institutions of the Department of Commerce and Consumer Affairs to more effectively enforce the money transmitters law and more appropriately supervise, regulate, and examine licensees.

Your Committees further find that money transmitters in Hawaii post an initial surety bond, letter of credit, or similar security device in the amount of \$1,000. Hawaii's security device level is the lowest in the country. This measure increases the required security device to \$10,000 for the first twelve months of licensure, which realistically reflects the risk associated with new money transmitter companies and is consistent with levels required by other states.

Your Committees additionally find that the Division of Financial Institutions regulates forty-two money transmitters in the State. The Division of Financial Institutions has indicated that examinations on all money transmitters have not yet been completed because of the need for additional funding and staff. The Division has also indicated that the fee changes proposed by this measure are based on the Division's need to appropriately carry out its mission. The Division is responsible for the licensure, examination, and supervision of state-chartered and licensed banks, trust companies, savings and loan associations, financial services loan companies, credit unions, escrow depositories, money transmitters, mortgage servicers, mortgage loan originators, and mortgage loan originator

companies. It is the only entity that monitors the regulatory compliance, safety, and soundness of these industries; the federal government does not provide this oversight.

The Division of Financial Institutions has further indicated that a guiding principle of the Division is to ensure that revenues from each program are sufficient to cover the Division's costs of operating that program. Unfortunately, the money transmitter program ran a deficit of \$66,675 in fiscal year 2011. The program had a surplus of \$18,941 in fiscal year 2012, which when applied to the fiscal year 2011 deficit, resulted in a two-year shortfall of \$47,734. It is therefore clear that the money transmitter program is fiscally unsustainable under the existing fee schedules set by chapter 489D, Hawaii Revised Statutes.

Your Committees conclude that the fee changes proposed by this measure are necessary and appropriate and will enable the Division of Financial Institutions to continue to carry out its legislatively mandated duties.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1068, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1068, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 340 (Joint) Tourism and Hawaiian Affairs and Water and Land on S.B. No. 402**

The purpose and intent of this measure is to authorize the Office of Hawaiian Affairs to conduct a financial review of the State's compliance with section 5 of Act 178, Session Laws of Hawaii 2006.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and Association of Hawaiian Civic Clubs. Your Committees received comments on this measure from the Department of the Attorney General and Department of Land and Natural Resources.

Your Committees find that all state agencies that use or manage public trust land must report revenues generated from the use of that land pursuant to Act 178, Session Laws of Hawaii 2006. For the first time since Act 178 was enacted, in 2012, all state agencies identified as managing public trust land provided an accounting of revenues generated. Gaps in the information produced, however, show reporting discrepancies and produce questions supporting the need for an audit.

Your Committees have amended this measure by:

- (1) Requiring that all requests to state agencies for information related to the financial review conducted pursuant to this measure shall be responded to within thirty days of the request; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 402, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 402, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and Hawaiian Affairs  
Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

Water and Land  
Ayes, 4. Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

**SCRep. 341 (Joint) Energy and Environment and Public Safety, Intergovernmental and Military Affairs on S.B. No. 16**

The purpose and intent of this measure is to:

- (1) Require the appropriate county permitting agency, rather than the Energy Resources Coordinator, to receive and process applications for variances for the solar water heating system requirement for building permits;
- (2) Require each respective county council to establish procedures and standards by which its respective county permitting agency approves, approves with conditions, or disapproves variances; and
- (3) Clarify existing solar water heater variance application procedures.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Association of Realtors; Sierra Club Hawaii Chapter; Blue Planet Foundation; and one individual. Your Committees received testimony in opposition to this measure from the County of Maui, Hawaii Gas, and one individual.

Your Committees find that county permitting agencies, rather than the state Energy Resources Coordinator, should have the responsibility to process solar water heating system variance applications because the county permitting agencies are closer to the particular conditions of the various geographic regions and climatic peculiarities of their respective counties.

Your Committees have amended this measure by:

- (1) Changing the term “variance” to “waiver” wherever it is used throughout the Act;
- (2) Authorizing the counties, rather than licensed architects and mechanical engineers, to set criteria for granting waivers; and
- (3) Clarifying the standards for demand water heaters.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 16, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 16, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 342 (Joint) Energy and Environment and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1132**

The purpose and intent of this measure is to:

- (1) Clarify that the solid waste management surcharge applies to solid waste shipped outside the State for disposal;
- (2) Clarify that the solid waste management surcharge applies to waste disposed of at waste-to-energy facilities; and
- (3) Increase the solid waste management surcharge using a tiered structure commensurate with the impact of the means of disposal on the Department of Health.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that the solid waste disposal surcharge has not been raised since 1997, despite a growing workload for program staff and a twenty-five per cent reduction in staff. Your Committees note that currently the solid waste disposal surcharge is not collected on the solid waste disposed at waste-to-energy facilities or shipped out of the State for disposal, despite the fact that the Department of Health permits and regulates these facilities. Your Committees find it necessary to increase the solid waste disposal surcharge to fund the Department of Health’s regulatory oversight of these facilities, and further find it necessary to apply the surcharge to those facilities that are currently excluded from its application to fund the regulatory oversight those facilities require.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1132 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 343 Energy and Environment on S.B. No. 15**

The purpose and intent of this measure is to repeal the ten percent ethanol gasoline content requirement and require instead that biofuels account for ten percent of all liquid fuels for motor vehicles sold by a distributor.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Renewable Energy Alliance; Pacific Biodiesel; Big Island Biodiesel; Marine Source, LLC; and one individual. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from Western States Petroleum Association.

Your Committee finds that the original intent of Act 257, Session Laws of Hawaii 1997, was to require that gasoline sold in the State contained ten percent ethanol to meet the State’s goals of energy independence from foreign oil, improvement of Hawaii’s natural environment, and establishment of locally produced ethanol. Your Committee finds that despite several planned ethanol plants, no plants have been built, leaving the State to depend on costly imported ethanol to meet the ethanol mandate.

Your Committee further finds that the natural environment of Hawaii offers the opportunity and potential to grow and use high-yield agricultural crops to produce a wide array of biofuels that can be manufactured into a cleaner burning substitute for ethanol in gasoline. Your Committee finds that the production and use of locally produced biofuels will assist the State in meeting its goals of energy independence from foreign oil, environmental improvement, and the establishment of local production facilities.

Your Committee has amended this measure by:

- (1) Changing the requirement that all distributors of liquid fuels in the State ensure that biofuels account for ten percent of their sales to a requirement that liquid fuels sold in the State for motor vehicle use contain at least five percent biofuels by volume, with exceptions as provided by the Director of Business, Economic Development, and Tourism;
- (2) Changing the reporting requirements of fuel distributors;
- (3) Changing the definition of “biofuel”; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 15, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 15, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 344 Energy and Environment on S.B. No. 615**

The purpose and intent of this measure is to prohibit the sale of genetically engineered fish or genetically engineered fish products in the State beginning January 1, 2014, unless appropriately labeled as genetically engineered or produced or partially produced with genetic engineering.

Your Committee received testimony in support of this measure from Label It Hawaii; Hawaii Organic Farming Association; Ililani Media; Asia-Pacific Center for Regenerative Design; Seeds of Truth; Haiku Aina Permaculture Initiative; Hawaii Wildlife Fund; GMO Free Maui; GMO Free Oahu; GMO Free Big Island; Sierra Club, Hawaii Chapter; GMO Free Kauai; Hawaii SEED; Down to Earth Organic and Natural; Mehana Consulting; Hawaii Organic Farming Association; and seventy-nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Hawaii Crop Improvement Association, Hawaii Aquaculture and Aquaponics Association, and one individual. Your Committee received comments on this measure from Animal Rights Hawaii, Lanalani Farm, and three individuals.

Your Committee finds that more than thirty-five species of genetically engineered fish are under experimental development. These fish are engineered with various traits intended to, for example, give the fish the ability to grow more rapidly or resist certain diseases. In 2002, a committee of the National Academy of Sciences released a report on the potential risks and benefits of genetically engineered animals. The report found that salmon genetically engineered to grow more rapidly raised unique concerns, including the risk of negatively impacting populations of wild salmon. If genetically engineered fish escape containment they could pose additional environmental risks to stressed wild fish populations and coastal ecosystems by, among other things, imposing new competitive pressures for food and space, interfering with effective breeding and reproduction, and spreading disease.

Your Committee further finds that concerns about genetically engineered food include but are not limited to human health risks, negative environmental impacts on wildlife and ecosystems, and religious, ethical, and cultural dietary restrictions.

Your Committee further finds that proper labeling of genetically engineered food is a significant concern in Hawaii. In addition to locally grown food, Hawaii imports and consumes significant quantities of food from the mainland and from foreign countries. Given the potential sale of genetically engineered food, labeling of genetically engineered food should be addressed immediately. Hawaii’s citizens have the right to know whether the food they purchase are produced with genetic engineering so they can make informed purchasing decisions. Accurate and truthful labeling describing whether or not food is genetically engineered is the easiest and most protective practice, and it would provide additional transparency in the State’s food supply chain so that individuals can protect their health and Hawaii’s environment.

Your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Prohibit the sale, offering for sale, or distribution of any genetically engineered whole food intended for human consumption within the State unless the genetically engineered whole food is labeled as such;
- (2) Specify labeling requirements;
- (3) Create exemptions for certain foods; and
- (4) Add definitions for “genetically engineered” and “genetically engineered whole food”.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 615, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 345 Energy and Environment on S.B. No. 17**

The purpose and intent of this measure is to levy the environmental response, energy, and food security tax on all liquid and gaseous fuels.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Health; Hawaii Natural Energy Institute; Conservation Council for Hawaii; Sierra Club Hawaii Chapter; Blue Planet Foundation; Ililani Media; and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

The environmental response revolving fund is used to respond to and clean up hazardous materials released into the environment, protect state waters, and regulate solid and hazardous wastes. Your Committee notes that due to a variety of factors, there has been a steady decrease in the balance of the environmental response revolving fund. Your Committee finds that due to significant strains put on the environment from natural gas and coal importation and use in the State, it is necessary to extend application of the environmental response, energy, and food security tax to all liquid, gaseous, and solid fossil fuels, including natural gas and coal, to ensure that all fossil fuels are adequately taxed to fund appropriate environmental response and protection.

Your Committee has amended this measure by:

- (1) Adding a definition of “fossil fuel,” which includes all gaseous, liquid, or solid fossil fuels;
- (2) Taxing gaseous fossil fuels at 12 cents per 1,000 cubic feet and coal at \$4 per short ton, with certain exceptions, and making conforming amendments;
- (3) Amending the allocations of the environmental response, energy, and food tax collected to the environmental response revolving fund, energy security special fund, energy systems development special fund, and agricultural development and food security special fund;
- (4) Deleting the repeal date of the portion of Act 253, Session Laws of Hawaii 2007, as amended, that established chapter 304A, part IV, subpart N, Hawaii Revised Statutes, relating to the Hawaii Natural Energy Institute, and section 304A-2169, Hawaii Revised Statutes, relating to the energy systems development special fund; and
- (5) Appropriating monies out of the:
  - (A) Energy security special fund;
  - (B) Agricultural development and food security special fund; and
  - (C) Environmental response revolving fund.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 17, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 17, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 346 Energy and Environment on S.B. No. 623**

The purpose and intent of this measure is to:

- (1) Establish tax credits for solar energy property, wind energy property, competitive bid solar energy property, and wind energy property that is not part of a larger competitive bid wind energy property; and
- (2) Require the Department of Taxation and Department of Business, Economic Development, and Tourism to report tax credits claimed under section 235-12.5, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Ulupono Initiative, Hawaii Solar Energy Association, Sunetric and two individuals. Your Committee received testimony in opposition to this measure from Sierra Club Hawaii Chapter, Energy Industries, Inter-Island Solar Electric, and two individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, SunRun, Hawaii PV Coalition, SunPower, Revolusun, Kairos Energy Capital, First Wind, and Rising Sun Solar Electric.

Your Committee finds that allowing tax credits for a portion of the cost of installing solar and wind energy systems promotes the State’s goals of energy independence from foreign oil and local renewable energy production. Your Committee notes, however, that the tax credits, as currently structured, have proved costly to the state treasury while not promoting renewable energy investment as the original statute intended. Your Committee finds that it is necessary to alter the tax credit structure to promote a more balanced approach that expands some credits while limiting costs to the State.

Your Committee has amended this measure by:

- (1) Raising the tax credit cap for solar energy property to \$500 per unit for multi-family residential property;
- (2) Altering tax credits for residential and non-utility-scale energy properties that step-down over time;
- (3) Altering tax credits for solar energy properties one megawatt and above;
- (4) Changing “solar or wind energy system” to “solar or wind energy property”;
- (5) Allowing certain solar and wind properties to keep existing tax credits if certain requirements are met;
- (6) Allowing condominium owners, cooperative housing corporations, and planned community associations to claim the tax credits under this measure;
- (7) Disallowing tax credits to certain organizations exempt from tax under section 501(a) of the Internal Revenue Code; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 623, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 623, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 347 Energy and Environment on S.B. No. 101**

The purpose and intent of this measure is to eliminate required increases to an agency's budget for energy expenditures in proportion to increases in the agency's overall budget during the term of a performance contract or project payment.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; and Department of Budget and Finance.

Your Committee finds that this measure is a housekeeping measure to eliminate the requirement that an agency's energy budget rise in proportion to any increase in the agency's overall budget for the duration of an energy efficiency retrofitting performance contract or payment term. Your Committee finds that providing energy budget increases to agencies without regard to need is unnecessary.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 101 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 348 (Joint/Majority) Energy and Environment and Commerce and Consumer Protection on S.B. No. 620**

The purpose and intent of this measure is to require food service businesses to provide customers with an option to use compostable or reusable food containers provided by the restaurant for food.

Your Committees received testimony in support of this measure from Styrophobia, Sierra Club Hawaii Chapter, Surfrider Foundation, Sustainable Coastlines Hawaii, and seventeen individuals.

Your Committees received testimony in opposition to this measure from Hawaii Food Industry Association, American Chemistry Council, and one hundred individuals. Your Committees received comments on this measure from Down to Earth and one individual.

Your Committees find that many food service businesses in Hawaii use expanded polystyrene foam food containers for food that is taken out by customers. Your Committees find that expanded polystyrene foam food service containers are made from thermoplastic petrochemical materials containing styrene and may leach styrene into food that comes into contact with the containers, posing potential health hazards for people eating food carried in these containers.

Your Committees find that expanded polystyrene foam food containers do not biodegrade and, because of their expanded size, take up significant space in landfills. Your Committees note the popular support for alternative, compostable food service containers, but also recognize that there is no viable, commercial composting facility in the State. Because of these challenges, your Committees find it necessary to examine alternatives for non-compostable food service containers that may be used in place of expanded polystyrene foam food service containers.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 620, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 620, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 4. Noes, 1 (Slom). Excused, none.

Commerce and Consumer Protection  
Ayes, 3. Noes, 1 (Slom). Excused, 3 (Nishihara, Solomon, Taniguchi).

**SCRep. 349 Health on S.B. No. 637**

The purpose and intent of this measure is to require a product warning label on all food products containing aspartame that are offered for sale or distribution in the State.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Health, Hawaii Food Industry Association, Hawaii Restaurant Association, and one individual. Your Committee received comments on this measure from the American Beverage Association, Calorie Control Council, and International Food Information Council.

Your Committee finds that the artificial sweetener aspartame has been the subject of several controversies since the United States Food and Drug Administration first approved it in 1981. This measure addresses this issue by requiring a product warning label for aspartame on all food products offered for sale or distribution in the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 637 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Baker, Slom). Noes, none. Excused, none.

**SCRep. 350 Health on S.B. No. 138**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and make an appropriation for the planning, design, and construction of a new health care facility for the Kaheleaulani Native Hawaiian health program in North Hawaii.

The Department of Budget and Finance submitted comments.

Your Committee finds that in 2011, the North Hawaii Community Hospital established the Kaheleaulani Native Hawaiian health program to address the unmet medical needs of the Native Hawaiian population of North Hawaii. This measure provides funding for a new health care facility for the Kaheleaulani Native Hawaiian health program.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 138, S.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 351 Health on S.B. No. 640**

The purpose and intent of this measure is to:

- (1) Prohibit the manufacture, sale, or distribution of child care products and toys for young children that contain bisphenol-A or phthalates beginning on January 1, 2014;
- (2) Require manufacturers to choose safe alternatives for bisphenol-A or phthalates for child care products and toys for young children;
- (3) Prohibit the use of packages and packaging containing lead, cadmium, mercury, and hexavalent chromium beginning on January 1, 2014; and
- (4) Prohibit the Hawaii Health Systems Corporation from purchasing and using vinyl intravenous solution bags and vinyl tubing beginning on January 1, 2014.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from the American Chemistry Council.

Your Committee finds that there is a need to protect young children from exposure to phthalates and bisphenol-A, persistent and potentially toxic compounds. In July 2012, the United States Food and Drug Administration banned the use of bisphenol-A in infant feeding bottles and spill-proof cups. Previously, the National Toxicology Program at the National Institutes of Health and the Food and Drug Administration have expressed some concern about the potential effects of bisphenol-A on the brain, behavior, and prostate gland in fetuses, infants, and young children. The American Medical Association recently developed a policy supporting industry action to stop producing baby bottles and infant feeding cups containing bisphenol-A and supports a ban on the sale of such products.

Your Committee further finds that amounts of cadmium, lead, mercury, and hexavalent chromium from packaging are entering the municipal solid waste stream and ending up in landfills and incinerators. Nineteen states have already enacted legislation against toxics in packaging.

Your Committee has heard testimony expressing the advantages of including the additives in children's products, which allows the products to harden and over time become unbreakable to help prevent injury and reduce choking hazards for children. Others are concerned about the health impacts from the additives to children's products. Your Committee finds that this issue raises concerns and merits further consideration and requests that your Committee on Commerce and Consumer Protection further examine those concerns if it chooses to schedule this measure for a hearing.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 640, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 640, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Baker, Nishihara, Slom). Noes, none. Excused, none.

**SCRep. 352 (Majority) Health on S.B. No. 964**

The purpose and intent of this measure is to prohibit dental service organizations, mutual benefit societies, and health maintenance organizations from setting or recommending fees for services provided by a dentist unless they are covered services.

Your Committee received testimony in support of this measure from thirty-three individuals. Your Committee received testimony in opposition to this measure from Hawaii Dental Service, International Longshore and Warehouse Union Local 142, and Hawaii Medical Services Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that certain dental service insurance providers require that participating dentists agree to set fees for all services, including those not covered by the dental service plan. Your Committee finds that these requirements limit the amounts that dentists can charge for non-covered services, often resulting in dentists refusing to offer necessary services to patients because any cost above the provider's set fee is not recoverable by the dentist. Your Committee further finds that this practice forces patients to seek non-participating dentists to perform necessary procedures to the financial detriment of participating dentists. In order to protect dental patients and dentists throughout the State, your Committee finds it necessary to prohibit dental service insurance providers from setting fees for dental services not covered by a dental service plan.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 964, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 964, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Nishihara). Noes, 2 (Baker, Slom). Excused, none.

**SCRep. 353 Health on S.B. No. 1141**

The purpose and intent of this measure is to:

- (1) Establish a one-year limit on the length of time an individual may remain on conditional release if charged with a misdemeanor, petty misdemeanor, or violation;
- (2) Clarify under what circumstances the one-year conditional release status may be tolled pending an individual's hospitalization; and
- (3) Require public agencies in possession of information related to a defendant's fitness to proceed to provide the information to the court.

Your Committee received testimony in support of this measure from the Department of Health and Judiciary. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Office of the Prosecuting Attorney for the County of Kaua'i.

Your Committee finds that the Governor commissioned a special action team in June 2012 to analyze causes and identify ideas to address the systematic factors contributing to the increased rate of admission and increased length of stay of persons admitted to the Hawaii State Hospital. This measure is the result of the special team's efforts to improve the State's forensic mental health services.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 354 Health on S.B. No. 1233**

The purpose and intent of this measure is to require private employers of fifty or more employees to allow employees to take paid leaves of absence for organ, bone marrow, and peripheral blood stem cell donation.

Your Committee received testimony in support of this measure from the National Kidney Foundation of Hawaii, Hawaii Bone Marrow Donor Registry, and four individuals.

Your Committee finds that private employers are not currently required to give employees paid time off for donating organs, bone marrow, or peripheral blood stem cells. Your Committee finds that many people in the State who would otherwise donate these vital medical resources delay or altogether refrain from donation because they cannot take time off of work to do so. Your Committee finds that legislation requiring employers to allow employees paid time off for organ, bone marrow, and peripheral blood stem cell donation is necessary to provide life-saving medical resources to benefit citizens of the State in medical need.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1233 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 355 (Majority) Health on S.B. No. 652**

The purpose and intent of this measure is to reduce the number of minors and youth who smoke or begin smoking by restricting the placement of tobacco for sale and tobacco advertising.

Your Committee received testimony in support of this measure from eight individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Hawaii Food Industry Association, and over seven hundred individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that the tobacco industry spends billions of dollars annually on advertising and marketing its products in the United States. Restrictions on mass media advertising of tobacco have forced tobacco companies to use retail establishments as their primary advertising venues. Your Committee finds that retail stores are given incentives to place tobacco advertisements and products in strategic locations near the cash register, known as point-of-sale displays.

Your Committee also finds that there is a well-documented connection between youth exposure to tobacco advertising and youth tobacco initiation. Your Committee further finds that an essential component of reducing the number of minors who smoke is reducing their exposure to tobacco advertisements.

Your Committee has amended this measure by:

- (1) Removing the provision prohibiting tobacco advertising from being placed within twenty-five feet of children's products, toys, cookies, candy, ice cream, gum, or snacks;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 652, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Chun Oakland). Noes, 1 (Slom). Excused, none.

**SCRep. 356 Health on S.B. No. 1308**

The purpose and intent of this measure is to establish a new rule of evidence that allows expressions of apology or compassion and other benevolent acts to be made by health care providers without fear of these statements or acts being used as evidence to prove liability for any claim arising out of an adverse medical outcome.

Your Committee received testimony in support of this measure from the Hawaii Medical Association. Testimony in opposition to this measure was submitted by the Hawaii Association for Justice.

Your Committee finds that rule 409.5 of the Hawaii Rules of Evidence allows an individual or entity to express sympathy and condolence concerning the consequences of an event in which the declarant was a participant without the expression being used to establish liability. However, this rule does not specifically protect communication that amounts to an apology, which could be admissible as evidence to establish liability, or communication with a health care provider regarding the consequences of an unanticipated medical care outcome involving pain, suffering, or death.

Testimony submitted by the Hawaii Medical Association indicated that thirty-four states have enacted apology laws that protect expressions of apology made by health care providers from being used as evidence to prove liability. The Hawaii Medical Association also cited studies that indicate that when doctors apologize for adverse medical outcomes, patients are less likely to litigate, thereby reducing the number of malpractice claims and reducing litigation costs. This measure protects communication that amounts to an apology made by a health care provider so that these statements may be made without fear of being used to prove liability.

Your Committee notes the concerns raised by the Hawaii Association for Justice that this measure should be first submitted to the Judiciary's Standing Committee on Evidence, which possesses the expertise, responsibility, and institutional knowledge needed for consideration of changes to the rules of evidence like this measure proposes. Your Committee further notes the discussion with the Hawaii Medical Association and Hawaii Association for Justice regarding the different types of expressions that could be made by a health care provider and encourages this discussion to continue with your Committee on Judiciary and Labor if that committee chooses to schedule this measure for a hearing.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the word "fault" as one of the expressions that could be made by a health care provider concerning an unanticipated medical care outcome;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1308, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1308, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 357 (Joint) Health and Technology and the Arts on S.B. No. 972**

The purpose and intent of this measure is to amend the Uniform Controlled Substances Act in chapter 329, Hawaii Revised Statutes, by:

- (1) Adding definitions consistent with federal law;

- (2) Clarifying the conditions for electronic transmittal of prescriptions; and
- (3) Adding and clarifying violations of prohibited acts.

Your Committees received testimony in support of this measure from Kaiser Permanente Hawaii and CVS Caremark. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that on March 31, 2010, the Drug Enforcement Administration published in the Federal Register its rule "Electronic Prescriptions for Controlled Substances", which became effective on June 1, 2010, and which revises the Drug Enforcement Administration's regulations to provide practitioners with the option of writing prescriptions for controlled substances electronically. The regulations also permit pharmacies to receive, dispense, and archive these electronic prescriptions for controlled substances. These new regulations do not mandate that practitioners prescribe controlled substances using only electronic prescriptions, nor do these new regulations require pharmacies to accept only electronic prescriptions for controlled substances for dispensing. The use of electronic prescriptions for controlled substances is voluntary on the part of the practitioners and pharmacies. Electronic prescriptions for controlled substances may be conveyed electronically; provided that the electronic prescription and the pharmacy application meet the Drug Enforcement Administration's and state's requirements.

Your Committees further find that by allowing practitioners to electronically prescribe controlled substances and to convey the prescription directly to the pharmacy of the patient's choice, it will provide practitioners with a safer, more secure, and more timely means to prescribe controlled substances in addition to the conventional means of prescribing controlled substances.

As affirmed by the records of votes of the members of your Committees on Health and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 972 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

**SCRep. 358 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1240**

The purpose and intent of this measure is to ensure pediatric dental benefits are included in all medical plans offered through the Hawaii Health Connector.

Your Committees received testimony in support of this measure from Hawaii Medical Service Association, Hawaii Primary Care Association, and one individual. Your Committees received testimony in opposition to this measure from Hawaii Dental Service. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that failure to prevent dental problems has long-term adverse health effects that are costly to families and the health care system in Hawaii as a whole. Without regular preventative dental services, dental care for many children is postponed until symptoms become so acute that treatment is sought in hospital emergency departments, which drives up health care costs statewide.

Your Committees also find that medical insurance is a strong predictor of access to dental care, and uninsured children are 2.5 times less likely than insured children to receive dental care. Children from families without dental insurance are three times more likely to have dental needs than children with public or private insurance. Your Committees further find that requiring individuals under age nineteen to purchase pediatric dental coverage inside the insurance exchange will ensure that the majority of Hawaii's children will enjoy dental benefits, reducing long-term health problems for Hawaii's keiki and driving down costs for the entire health care system.

Your Committees have amended this measure by:

- (1) Amending the purpose section to clarify the intent;
- (2) Deleting the section amending the definition of "qualified plan" in section 435H-1, Hawaii Revised Statutes;
- (3) Adding a new section to chapter 435H, Hawaii Revised Statutes, requiring the Hawaii Health Connector to ensure that all individuals under the age of nineteen purchase health benefits that include pediatric dental coverage; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1240, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1240, S.D. 1, and be referred to the Committee on Ways and Means.

**SCRep. 359 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1227**

The purpose and intent of this measure is to require certain insurance contracts and plans to provide coverage for rehabilitative therapies and services beginning January 1, 2014, to treat brain injuries, including coverage of cognitive and neurocognitive therapy,

neurobehavioral and neuropsychological testing or treatment, and necessary post-acute transition services or community reintegration activities for a period of at least six months from the date an injury occurred.

Your Committees received testimony in support of this measure from the Department of Health, Rehabilitation Hospital of the Pacific, Family Voices, and three individuals. Your Committees received testimony in opposition to this measure from Hawaii Medical Service Association. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that traumatic brain injury is a leading cause of death and disability among children and young adults. Unfortunately, traumatic brain injury survivors face a long rehabilitation process that may not be covered by certain health benefit plans. Requiring coverage of cognitive rehabilitative services will ensure timely treatment of traumatic brain injury that is vital to the recovery process, as it impacts personal safety, functional independence, productive living, psychological health, and social interaction.

Your Committees have amended this measure by:

- (1) Requiring that insurance providers cover the costs of rehabilitative therapies and services for individuals with traumatic brain injuries for twenty years, as opposed to six months, from the date the acquired brain injury occurred;
- (2) Inserting a \$300,000 lifetime cap on the requirement of insurance providers to cover rehabilitative therapies and services related to traumatic brain injury;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1227, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1227, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 360 (Joint) Health and Human Services on S.B. No. 105**

The purpose and intent of this measure is to prevent injury to the elderly through the establishment of a statewide fall prevention and early detection program to detect and reduce falls among the elderly.

Your Committees received testimony in support of this measure from the Department of Health; Maui County Office on Aging; Stay at Home Modifications, LLC; and one individual.

Your Committees find that in 2011, there were 5,719 emergency room visits and 1,868 hospitalizations for falls by the elderly in Hawaii. It is estimated that over thirty percent of the elderly fall annually. As the number of elderly increases, it is anticipated that the number of fall-related injuries by the elderly requiring hospital treatment will increase by approximately three percent annually. Your Committees find that the establishment of a statewide fall prevention and early detection program will greatly aid in reducing falls by the elderly.

Your Committees have amended this measure by:

- (1) Making the establishment of the statewide fall prevention and early detection program by the Department of Health mandatory rather than discretionary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 105, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 105, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 361 (Joint) Health and Human Services on S.B. No. 43**

The purpose and intent of this measure is to:

- (1) Require the Adult Mental Health Division of the Department of Health to provide services to people with a qualifying diagnosis, including services that are not covered by an insurance policy held by or for the benefit of the individual who seeks services; and

- (2) Appropriate funds for mental health services for adults, adolescents, and children that were eliminated or reduced in the past two years and substance abuse treatment and mental health support services for individuals who are homeless or at risk of becoming homeless.

Your Committees received testimony in support of this measure from the Hawaii Disability Rights Center, Hawaii Substance Abuse Coalition, and Community Alliance for Mental Health. Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees find that in recent years the Department of Health has decreased the amount and types of mental health services it provides. This reduction in services has resulted in considerable suffering and even death. This measure will restore services that have been eliminated or reduced by mandating coverage for certain illnesses and making appropriations to restore mental health services.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2030, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 43, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 43, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 362 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 1357**

The purpose and intent of this measure is to enable government agencies to maintain roads whose ownership and jurisdiction are in dispute between the State and the counties without incurring liability or assuming ownership or jurisdiction over those roads.

Your Committees received testimony in support of this measure from the Attorney General; Department of Transportation; Department of Land and Natural Resources; County of Maui, Department of Public Works; County of Hawaii, Department of Public Works; County of Kauai, Department of Public Works; and two individuals. Testimony in opposition to this measure was received from the Hawaii Association for Justice.

Your Committees find that the safety of residents traveling over roads whose ownership and jurisdiction are in dispute between the State and the counties, commonly known as "roads in limbo", is affected by the lack of any maintenance of such roads. Government agencies are unwilling to maintain these roads because the maintenance activities may be construed as assuming ownership and jurisdiction over the disputed roads, and the government agency may be subject to liability due to the maintenance activities.

Your Committees have amended this measure on the recommendation of the County of Maui Department of Public Works by:

- (1) Providing that if a county accepts by resolution the dedication of a road whose ownership is in dispute between the county and the State, the county shall not be liable to any person for injury or damage sustained while that person is using that road for a period of ten years following the acceptance of that road by resolution;
- (2) Clarifying the title of the section to conform to the amendment; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1357, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1357, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 363 Commerce and Consumer Protection on S.B. No. 598**

The purpose and intent of this measure is to:

- (1) Require the Department of Commerce and Consumer Affairs to regulate the check cashing industry through registration requirements;
- (2) Exempt fees and interest received by check cashers for deferred deposit transactions from general excise taxes; and

- (3) Limit the monetary amounts that can be transacted and the annual percentage rate charged by check cashers.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs; Money Service Centers of Hawaii, Inc.; Dollar Financial Group, Inc.; Community Financial Services Association of America; and one individual. Your Committee received comments on this measure from the Department of Taxation and one individual.

Your Committee finds that this measure would require registration and licensing of check cashers with the Department of Commerce and Consumer Affairs. However, your Committee further finds that given the proliferation of internet-based payday lending operations, permitting the registration and licensing of these operations will not afford increased consumer protections for Hawaii consumers. Rather, a registering and licensing requirement may encourage unscrupulous predatory lenders to enter the Hawaii market and prey on customers who lack the financial savvy to fully appreciate the implications of the debt they are assuming.

Your Committee additionally finds that although a registration and licensing system for check cashers may not be appropriate because of the difficulties associated with enforcement, there are some aspects of this measure that contain valuable consumer protection provisions. Therefore, amendments to this measure are necessary.

Your Committee has heard the concerns regarding the thirty-six percent annual percentage rate cap compared to the fifteen percent fee on deferred deposits transactions. Your Committee believes this issue merits further discussion and encourages continued dialogue between the check cashing industry and the Office of Consumer Protection as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Deleting language that would have required a check casher to register with the Department of Commerce and Consumer Affairs, exempted amounts received by check cashers for deferred deposit transactions from the general excise tax, and inserted a new definition for "director";
- (2) Clarifying that financial and credit counseling are to be obtained from an approved Hawaii-based budget and credit counseling agency;
- (3) Clarifying that all cumulative fees charged for a deferred deposit transaction shall be expressed as an annual percentage rate not to exceed thirty-six percent;
- (4) Removing language that would have increased the fee for a dishonored check from \$20 to \$30;
- (5) Establishing certain requirements for payment plans on deferred deposit transactions under the existing section 480F-4, Hawaii Revised Statutes, rather than as a new section in chapter 480F, Hawaii Revised Statutes;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 598, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 598, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 364 Commerce and Consumer Protection on S.B. No. 1077**

The purpose and intent of this measure is to set forth specific responsibilities of and protections for owner-builders exempted from licensing and other requirements under chapter 444, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Contractors License Board, The Pacific Resource Partnership, General Contractors Association of Hawaii, Building Industry Association of Hawaii, Subcontractors Association of Hawaii, and Complete Construction Services Corp. Your Committee received testimony in opposition to this measure from the Hawaii Farm Bureau Federation. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that currently, owners or lessees of real property may qualify for an owner-builder exemption under chapter 444, Hawaii Revised Statutes, if the owners build or improve certain buildings or structures on the property for their own use. Owners or lessees who seek to qualify for this exemption must register for the exemption and sign a disclosure statement that sets forth the responsibilities of the owner-builder. However, your Committee further finds that owner-builders often obtain owner-builder permits without full knowledge of the responsibilities and risks they assume. This measure sets forth specific requirements for owner-builders so the owner-builders will know exactly what is required of them. This measure will also strengthen the Regulated Industries Complaints Office's ability to monitor and prosecute violations involving owner-builder construction projects.

Your Committee has heard the concerns that this measure may impact the low-risk nonresidential farm structures that were previously exempted from permitting requirements under Act 114, Session Laws of Hawaii 2012. Amendments are therefore necessary to address these concerns and clarify that the owner-builder exemption does not apply to specific agricultural buildings and structures.

Your Committee has amended this measure by:

- (1) Specifying that an owner or lessee exempted under the owner-builder exemption is not eligible to recover from the contractors recovery fund;

- (2) Specifying that the owner-builder exemption does not apply to agricultural buildings, structures, or appurtenances thereto that do not require a building permit or are exempted from the building code;
- (3) Clarifying that the disclosure requirements for licensed contractors will apply prior to entering into a contract with a homeowner, including an owner-builder, or at the time a homeowner, including an owner-builder, signs a contract involving home construction or improvements; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1077, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 365 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 1042**

The purpose and intent of this measure is to:

- (1) Amend the description of Public Utilities Commission staff under section 269-3, Hawaii Revised Statutes; and
- (2) Repeal Public Utilities Commission position descriptions contained in Act 177, Session Laws of Hawaii 2007.

Your Committees received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaii Energy Policy Forum, and one individual.

Your Committees find that Act 177, Session Laws of Hawaii 2007 (Act 177), which authorized the reorganization of the Public Utilities Commission, mandated specific position descriptions for Commission staff based on the Commission's needs at that time. Your Committees further find that major strides in clean energy policy and programs have been made since Act 177 was enacted. Although these changes have been beneficial for Hawaii's clean energy future, the restrictions in Act 177 have made it very difficult for the Commission to recruit appropriate personnel to satisfy its current regulatory needs. This measure supports the Commission's efforts to identify, design, and fill the positions needed to modernize and transform the Commission and will enable the Commission to meet the needs of a rapidly changing regulatory environment.

Your Committees additionally find that the Public Utilities Commission has recently received guidance from the Department of Human Resources Development on how to further improve the flexibility of the Commission in its recruitment and staffing efforts. Therefore, amendments to this measure are necessary.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the Chairperson of the Public Utilities Commission may appoint, and at pleasure dismiss, a chief administrator and attorneys who shall be exempt from chapter 76, Hawaii Revised Statutes;
- (2) Clarifying that the Chairperson of the Public Utilities Commission may appoint other staff with or without regard to chapter 76, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1042, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1042, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Commerce and Consumer Protection  
Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).  
Judiciary and Labor  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 366 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 1067**

The purpose and intent of this measure is to:

- (1) Update the escrow depositories law to more realistically address the current responsibilities and operations of escrow depositories;
- (2) Authorize the Commissioner of Financial Institutions of the Department of Commerce and Consumer Affairs to investigate and conduct hearings on possible violations of the escrow depositories law; and
- (3) Provide remedies to stop unlawful actions that would endanger the public.

Your Committees received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs. Your Committees received comments on this measure from the Hawaii Escrow Association.

Your Committees find that the last significant revision to the State's escrow depositories law, codified as chapter 449, Hawaii Revised Statutes, was more than twenty-five years ago. Today's escrow depositories are handling larger and more sophisticated financial transactions, and certain changes to the escrow depositories law are therefore needed to better regulate the industry and

protect consumers. Your Committees further find that the Commissioner of Financial Institutions and representatives from the escrow depository industry met during the summer and fall of 2012 to discuss modernization amendments for the escrow depository industry that would be mutually beneficial to the industry and the State.

According to testimony received by your Committees, the escrow depository representatives and the Commissioner of Financial Institutions have not reached consensus in all areas but have reached consensus on the increased bonding requirements and certain fee schedule changes proposed by this measure.

Your Committees additionally find that the Division of Financial Institutions has indicated that the fee changes proposed by this measure are based on the Division's need to appropriately carry out its mission. The Division has also indicated that a guiding principle of the Division is to ensure that revenues from each program are sufficient to cover the Division's costs of operating that program. Unfortunately, the escrow depositories program ran a deficit of \$199,339 in fiscal year 2011 and a deficit of \$250,459 in fiscal year 2012. It is therefore clear that the escrow depositories program is fiscally unsustainable under the existing fee schedules set by chapter 449, Hawaii Revised Statutes. Your Committees note that representatives from the industry have agreed to support most, but not all, of the fee increases proposed by this measure. Further discussion on this topic is therefore needed.

Your Committees have heard the concerns regarding certain provisions in this measure that increase the Commissioner of Financial Institutions' power, regulatory authority, and enforcement provisions. Your Committees understand that although consensus language on these areas has not yet been reached, the interested parties are willing to work together through further discussions.

Your Committees have amended this measure by:

- (1) Replacing the \$5,000 fee for filing and investigation of an escrow depository's application for license with an unspecified amount;
- (2) Removing language that would have permitted the Commissioner of Financial Institutions to charge or bill an escrow depository in connection with an investigation;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that this amended measure represents a work in progress between the Division of Financial Institutions and escrow depositories licensed in the State. Although there has been some agreement between the parties, there are still aspects of this measure that require further dialogue and compromise. Your Committees strongly encourage both parties to use this amended measure as a means to encourage dialogue and continue discussions as the measure moves through the Legislature.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1067, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1067, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

Judiciary and Labor  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 367 (Joint) Agriculture and Economic Development, Government Operations and Housing on S.B. No. 991**

The purpose and intent of this measure is to exempt the purchase of fresh meats, fresh produce, animals, and plants by any governmental body from the Hawaii Public Procurement Code.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of Planning, State Procurement Office, Department of Education, Hawaii Farm Bureau Federation, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Cattlemen's Council, Hawaii Association of Independent Schools, and Ulupono Initiative.

Your Committees find that the Hawaii Public Procurement Code unreasonably hampers government agencies' efforts to buy fresh meats, fresh produce, animals, and plants. Allowing state agencies to more easily procure locally grown products is critical to an effective campaign to increase the State's food security and food self-sufficiency; therefore, these items should be exempt from the procurement code.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 991, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 991, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 368 Technology and the Arts on S.B. No. 207**

The purpose and intent of this measure is to prohibit employers from requiring employees and applicants for employment to disclose their personal social media usernames or passwords, divulge information in personal social media, or access personal social media in the presence of the employer.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission, American Civil Liberties Union of Hawaii, Ililani Media, and three individuals. Your Committee received testimony in opposition to this measure from the American Council of Life Insurers. Your Committee received comments on this measure from The Chamber of Commerce of Hawaii.

Your Committee finds that a growing number of employers are asking their employees or job applicants to disclose their user names and passwords for private internet or web-based accounts. This measure prohibits this practice and protects the privacy rights for applicants and employees with regard to their personal social media accounts. Your Committee finds that private activities that would never be intruded upon offline should not receive less privacy protection simply because they take place online.

Your Committee has amended this measure by:

- (1) Substituting the phrase “personal media” for “social media”;
- (2) Substituting the phrase “personal account” for “personal social media” and adding a definition for “personal account”;
- (3) Providing an exception for employers who have received specific information about an employee’s use of a personal account for business purposes to ensure compliance with applicable laws, regulatory requirements, or prohibitions against business-related employee misconduct;
- (4) Providing an exception for employers who have specific information about the unauthorized transfer of the employers’ proprietary information, confidential information, or financial data to an employee’s personal account;
- (5) Providing immunity for employers from any liability resulting from their failure to request or require that an employee or applicant disclose a username or password for the purpose of accessing the employee’s or applicant’s personal account; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 207, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 207, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 369 Technology and the Arts on S.B. No. 448**

The purpose and intent of this measure is to:

- (1) Require agencies to make reasonable efforts to make data sets available to the public;
- (2) Absolve the State for liability for deficiencies or incomplete data; and
- (3) Require the Chief Information Officer to enact rules to address making data sets available to the public.

Your Committee received testimony in support of this measure from the Office of Information Management and Technology, Office of Information Practices, Hawaii Open Data, Hawaii Health Information Corporation, and three individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that open and free electronic access to public data builds trust among citizens by making government more transparent with the sharing of information. Open data also encourages innovation with developers as they create applications from the information available to address specific needs of the community. This measure will drive civic engagement and create the infrastructure needed to support Hawaii’s software development industry.

Your Committee has amended this measure by:

- (1) Adding a purpose and intent section;
- (2) Changing the phrase “agency data set” to “electronic data set”;
- (3) Clarifying that electronic data sets shall be made available through [data.hawaii.gov](http://data.hawaii.gov);
- (4) Clarifying that departments are not required to create new electronic data sets or make data sets available upon demand;
- (5) Clarifying that no personally identifiable information shall be posted online unless the posting has been consented to by the individual or is necessary to fulfill the lawful purposes or duties of the department;
- (6) Specifying that the measure is referring specifically to executive branch departments, not all government departments;
- (7) Adding definitions for “data” and “open data” and amending the definition of “data set”;
- (8) Clarifying that the State does not warrant the data sets’ fitness for any particular use and shall not be liable for any deficiencies in any data set except where the State’s conduct would constitute gross negligence, willful or wanton misconduct, or intentional misconduct;

- (9) Requiring the Chief Information Officer, in consultation with the Director of the Office of Information Practices, to develop policies and procedures to implement the open data initiative, rather than requiring the Director of the Office of Information Practices to adopt rules to make data sets available to the public;
- (10) Adding an appropriation for additional staff to promote open data pursuant to this measure and chapter 92F, Hawaii Revised Statutes, the Uniform Information Practices Act (Modified);
- (11) Changing the effective date to July 1, 2013; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 448, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 448, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 370      Technology and the Arts on S.B. No. 369**

The purpose and intent of this measure is to:

- (1) Require both chambers of the legislature to implement rules to permit residents to present testimony through audiovisual technology; and
- (2) Appropriate funds to establish audiovisual technology throughout the State to enable neighbor island residents to present oral testimony at legislative committee hearings.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Hawaii County Council, Hawaii Shores Community Association, Green Color Technologies, and seven individuals.

Your Committee finds that the utilization of audiovisual technology promotes equal access and invites greater participation in the legislative process, which is the cornerstone of democracy. Additionally, the use of videoconferencing saves Hawaii residents on neighbor islands time and money because they incur significant costs to travel to Honolulu to provide testimony in person.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 369 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 371      (Joint) Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 483**

The purpose and intent of this measure is to facilitate the timely processing of applications for business or development-related permits, licenses, or approvals by amending section 91-13.5, Hawaii Revised Statutes, to require state agencies to comply with county rules specifying a maximum time period to grant or deny a business or development-related permit, license, or approval.

Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that under existing law, some state agencies have established maximum time periods in which to grant or deny a business or development-related permit, license, or approval that conflict with county rules establishing maximum time periods to grant or deny a business or development-related permit, license, or approval. This situation results in considerable delay and inefficiency in obtaining business or development-related permits, licenses, or approvals. This measure is intended to reduce this delay and inefficiency by requiring state agencies to comply with county rules establishing a maximum time period in which to grant or deny a business or development-related permit, license, or approval, if any such rules have been adopted by the county.

Your Committees have amended this measure by clarifying that where a county agency has not adopted rules specifying a maximum time period in which to grant or deny a business or development-related permit, license, or approval and a state agency has done so, the time period under state law shall prevail.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 483, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 483, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 372 Health on S.B. No. 1348**

The purpose and intent of this measure is to establish a comprehensive, three-tiered stroke system of care throughout the State and create requirements for the measuring, reporting, and monitoring of stroke care performance through data collection and creation of a stroke database.

Your Committee received testimony in support of this measure from Kaiser Permanente, The Queen's Medical Center, American Stroke Association, Pali Momi Medical Center, Straub Clinic and Hospital, and two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that stroke is the leading cause of chronic disability among adults in the State. Rapid identification, diagnosis, and treatment of stroke can improve outcomes for stroke patients. Your Committee finds that Hawaii does not presently have an adequate and effective system of statewide stroke care that emphasizes rapid assessment and triage of stroke patients.

Your Committee notes the testimony of Chris McLachlin, the television color commentator for University of Hawaii volleyball games, who suffered a stroke while traveling in California. Mr. McLachlin testified that he was saved by the fact that a friend immediately recognized that he was suffering a stroke and that he happened to fall ill a short distance from two stroke treatment hospitals. Because Mr. McLachlin received immediate treatment, doctors were able to save Mr. McLachlin's life and reverse the paralysis he suffered. Your Committee finds that in order to provide the best medical outcomes for Hawaii's stroke victims, it is necessary to establish a tiered stroke treatment system throughout the State to provide immediate and responsive diagnosis and treatment of strokes.

Your Committee has amended this measure by:

- (1) Changing the effective date to upon its approval; provided that this measure is fully implemented by July 1, 2015; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1348, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 373 Tourism and Hawaiian Affairs on S.B. No. 3**

The purpose and intent of this measure is to provide for the election of the Office of Hawaiian Affairs board members through a system of nonpartisan primary and general elections to begin with the 2014 elections.

Your Committee received testimony in support of this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaii and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General, Office of Hawaiian Affairs, Office of Elections, and Office of the County Clerk of the County of Kauai.

Your Committee finds that the absence of a primary election for the members of the Board of Trustees of the Office of Hawaiian Affairs causes a large pool of trustee candidates competing for only a few positions in the general election. A primary election process for the Board of Trustees will serve to narrow the pool of trustee candidates in the general election, limit the significant dispersion of votes that often occurs due to the large pool of candidates, and ensure a more democratic process.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Solomon). Noes, none. Excused, 3 (Hee, Kahele, Slom).

**SCRep. 374 Tourism and Hawaiian Affairs on S.B. No. 408**

The purpose and intent of this measure is to appropriate funds for the Office of Hawaiian Affairs for the 2013-2015 fiscal biennium.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Oahu Council Association of Hawaiian Civic Clubs, Alu Like, and one individual.

The primary purpose of the Office of Hawaiian Affairs general funds request to the State of Hawaii is to provide services and assistance to Native Hawaiians in the areas of social services, legal services, education, health improvement program services, and leverage opportunities. Statistics show that Native Hawaiians are among the highest ranking ethnic groups with cardiovascular disease, obesity, and diabetes. Accordingly, the Office of Hawaiian Affairs has initiated a new strategic priority to reduce the rate of obesity of Native Hawaiians from 49.3 percent to 35 percent by 2018. Primarily to provide these health improvement program services, the Office of Hawaiian Affairs is requesting an additional amount of funds from the Legislature this biennium and intends to create partnerships and agreements with other state agencies to leverage these funds.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 408 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Hee, Kahele, Slom).

**SCRep. 375 Tourism and Hawaiian Affairs on S.B. No. 236**

The purpose and intent of this measure is to require that all letterheads, documents, symbols, and emblems of the State and counties include accurate and appropriate Hawaiian names and language when they require replacement or reprinting or otherwise require revision.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, Hawaii Tourism Authority, Association of Hawaiian Civic Clubs, Kewalo Hawaiian Homestead Community Association, and three individuals. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure ensures the constitutionally- and ethically-mandated preservation of the Hawaiian language and culture by requiring that state and county documents, letterheads, symbols, and emblems, when newly created, replaced, or reprinted, contain the accurate, appropriate, and authentic Hawaiian names and language. Your Committee is concerned, however, about the scope of this requirement and that it may be burdensome to require every document within an agency to be converted accordingly.

Therefore, your Committee has amended this measure by deleting the requirement that all documents prepared by or for state or county agency officials contain accurate, appropriate, and authentic Hawaiian names and words and making conforming amendments. The measure retains the requirement for accurate, appropriate, and authentic Hawaiian names and words for letterheads, emblems, and symbols.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 236, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kidani). Noes, none. Excused, 3 (Hee, Kahele, Slom).

**SCRep. 376 (Joint) Tourism and Hawaiian Affairs and Water and Land on S.B. No. 497**

The purpose and intent of this measure is to appropriate matching funds for the environmental impact statement associated with the planned beach nourishment project at Kaanapali Beach on the island of Maui.

Your Committees received testimony in support of this measure from the Hawaii Tourism Authority; Hyatt Regency Maui Resort Spa; Maui Hotel and Lodging Association; Classic Resorts; and Kaanapali Operations Association, Inc. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that Kaanapali Beach is experiencing chronic and episodic erosion, which has caused more than thirty-five feet of beach loss in some areas along Kaanapali Beach since 1988. Furthermore, the economic value of Kaanapali Beach is significant; visitors to Kaanapali Beach contribute over \$2,000,000,000 to the State and Maui County economies. Your Committees find that restoration of Kaanapali Beach is necessary to preserve a vital environmental, recreational, economic, and cultural resource for residents and visitors on the island of Maui. Accordingly, your Committees conclude that this measure should be approved so long as the funds expended for the beach nourishment project at Kaanapali beach are matched dollar-for-dollar with private funds.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 497, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 497, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and Hawaiian Affairs

Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

Water and Land

Ayes, 4. Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

**SCRep. 377 (Joint) Health and Human Services on S.B. No. 936**

The purpose and intent of this measure is to continue the hospital sustainability program by:

- (1) Amending Act 217, Session Laws of Hawaii 2012, to extend the sunset date to June 30, 2014, update the referral dates within its provisions, and make other housekeeping amendments for clarity and consistency; and
- (2) Appropriating a specified amount from the hospital facility sustainability program special fund for fiscal year 2013-2014 to be used for purposes consistent with the special fund.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, The Queen's Health Systems, and Healthcare Association of Hawaii.

Your Committees find that the hospital sustainability program levies a fee on nongovernmental hospitals based on their patient revenues and uses the revenue from the provider fee to leverage federal funds, thereby increasing the realization of Medicaid dollars. The cost of the fee is promised back to providers through an increase in the Medicaid reimbursement rate for their patient treatment and services. The provider fee stabilizes declining Medicaid payments and slows the erosion of access to care for those beneficiaries

served by the program. This measure extends the hospital sustainability program to increase sustainable hospitals and access to necessary medical care.

Your Committees prefer the language in S.B. No. 1110 (Regular Session of 2013), which is substantively identical to this measure.

Accordingly, your Committees have amended this measure by deleting its contents and replacing it with language from S.B. No. 1110 (2013) and further amending the measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 936, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 936, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 378 (Joint/Majority) Health and Judiciary and Labor on S.B. No. 875**

The purpose and intent of this measure is to:

- (1) Require independent medical examinations and permanent impairment rating examinations for workers' compensation claims to be performed by physicians mutually agreed upon by employers and employees or appointed by the Director of Labor and Industrial Relations until June 30, 2018;
- (2) Allow for the use of an out-of-state physician under certain conditions and until June 30, 2018; and
- (3) Appropriate funds to the Department of Labor and Industrial Relations to establish three full-time equivalent (3.0 FTE) permanent workers' compensation hearings officer positions and two full-time equivalent (2.0 FTE) permanent office assistant positions in the disability compensation division.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committees received testimony in opposition to this measure from Dole Food Co., Hawaii; South Pacific Steel; The Queen's Health Systems; Ralph S. Inouye Co., Ltd.; John Mullen & Co., Inc.; and three individuals.

Your Committees find that this measure will bring a greater assurance of impartiality in the independent medical examination and permanent impairment rating processes and has the potential to reduce the number of workers' compensation medical disputes.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 875, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 875, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, 1 (Slom). Excused, none.

Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Slom).

**SCRep. 379 (Joint) Health and Judiciary and Labor on S.B. No. 666**

The purpose and intent of this measure is to establish an emergency services patient advocate program to provide assistance to and advocate on behalf of patients receiving emergency medical care.

Your Committees received testimony in support of this measure from the Community Alliance for Mental Health and two individuals. Your Committees received testimony in opposition to this measure from the Department of Health and Kaiser Permanente Hawaii.

Your Committees find that sick and vulnerable patients and their family members can become overwhelmed during a medical emergency. Many patients are unaware of their rights regarding the treatment and care they receive from their emergency room physicians. Your Committees find it is commonplace that many patients or their family members may disagree with the diagnosis or treatment plan provided by their emergency room physician, but feel forced to accept the treatment plan because they are unaware of how to effectively exercise their right to secure appropriate and available emergency medical care.

Your Committees note the emotional and moving testimony of former state legislator Fred Rohlfling, whose wife of thirty years died after an emergency room physician missed her diagnosis and discharged Mrs. Rohlfling against Mr. Rohlfling's wishes. Your Committees find that it is necessary to establish an emergency services patient advocate program to provide assistance to and advocate on behalf of patients receiving emergency medical treatment. Your Committees further find, however, that a mandated, statewide patient advocate program would be extremely costly and is not feasible at present.

Your Committees have amended this measure by deleting all of the substantive sections of the Act relating to the emergency services patient advocate program except for the section:

- (1) Directing the Department of Health to establish an emergency services patient advocate program, as the codification of the program may serve as a framework for future legislation to expand the program statewide; and
- (2) Requiring the Department of Health to adopt rules related to the program.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 666, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 666, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 380 (Joint/Majority) Health and Judiciary and Labor on S.B. No. 1109**

The purpose and intent of this measure is to establish uniform hospital standards for the care of female sexual assault victims and ensure that, when receiving emergency medical care, female sexual assault victims are:

- (1) Informed about emergency contraception; and
- (2) Given access to emergency contraception.

Your Committees received testimony in support of this measure from the Department of Human Services; Hawaii State Commission on the Status of Women; Sex Abuse Treatment Center; Hawaii Women's Coalition; Hawai'i State Democratic Women's Caucus; Domestic Violence Action Center; Hawaii Medical Association; Community Alliance on Prisons; Healthy Mothers Health Babies; American Association of University Women - Windward Oahu Branch; and thirty individuals. Your Committees received testimony in opposition to this measure from the Hawaii Catholic Conference and one individual.

Your Committees find that sexual violence against women remains a significant public health issue in Hawaii. Your Committees received testimony that, according to a recent report of the Attorney General of the State of Hawaii, there were three hundred forty-three reported cases of forcible rape in Hawaii in 2011 and that, according to the U.S. Department of Justice, sixty-five percent of rapes and sexual assaults between 2006 and 2010 went unreported. Your Committees received testimony from the Department of Human Services that the average rate of pregnancy resulting from rape is between five and eight percent, with an estimated thirty-two thousand rape-related pregnancies in the U.S. Your Committees also received testimony that pregnancy prevention is a time sensitive issue, as emergency contraception is most effective when taken within seventy-two hours of a sexual assault.

Your Committees received testimony that the American Medical Association and the American College of Obstetricians and Gynecologists support and endorse a policy that sexual assault victims be informed about and provided emergency contraception, and sixteen states have adopted legislation requiring hospital emergency rooms to provide sexual assault victims information about and access to emergency contraception.

Your Committees find that Hawaii has no standard policy or law regarding the provision of emergency contraception information and services to female sexual assault victims in hospital emergency rooms. While some hospitals provide information about emergency contraception or provide emergency contraception to sexual assault victims, others do not.

Your Committees believe that it is important to establish uniform hospital standards in Hawaii that require hospital emergency rooms to provide female sexual assault victims with information about and access to emergency contraception.

Your Committees have amended this measure by:

- (1) Clarifying that hospital staff that do not provide emergency medical care shall not provide information about emergency contraception to a female sexual assault victim or orally inform a female sexual assault victim of the option to receive emergency contraception at the hospital; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1109, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1109, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, 1 (Slom). Excused, none.

Judiciary and Labor

Ayes, 3. Noes, 1 (Gabbard). Excused, 1 (Slom).

**SCRep. 381 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 457**

The purpose and intent of this measure is to transfer in fee simple Hapuna Beach Park from the Department of Land and Natural Resources to the County of Hawaii on January 1, 2014.

Your Committees received testimony in support of this measure from the County of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that the jurisdiction over Hapuna Beach Park, which is located on the island of Hawaii, should rightfully rest with the County of Hawaii as the more appropriate government administrative entity. According to testimony of the Department of Land and Natural Resources, the State and the County of Hawaii had previously worked to develop agreements to effectuate this transfer in 2010. Your Committees note that this measure includes transfer of jurisdiction provisions to address concerns raised in testimony.

Your Committees have amended this measure by inserting the tax map key number of the property to be transferred.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 457, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 457, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Thielen).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 382 (Joint) Water and Land and Tourism and Hawaiian Affairs and Economic Development, Government Operations and Housing on S.B. No. 722**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to expand the scope of the comprehensive information system established pursuant to Act 54, Session Laws of Hawaii 2011 (Act 54), to inventory and maintain information about the lands of the public land trust described in section 5(f) of the Admission Act and article XII, section 4, of the Hawaii State Constitution to include public facilities, thereby creating a comprehensive asset management system for public lands and facilities.

Prior to the hearing on this measure, your Committees posted a proposed S.D. 1 to require the Department of Accounting and General Services, rather than the Department of Land and Natural Resources, as the appropriate agency to establish the inventory of public facilities.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Land and Natural Resources and the Department of Accounting and General Services.

Act 54 is intended to facilitate the establishment of a comprehensive information system to inventory and maintain information about the lands of the public land trust described in section 5(f) of the Admission Act and article XII, section 4, of the Hawaii State Constitution. The Department of Land and Natural Resources has already collected a substantial amount of information about lands that are in the public land trust and established a database of information about these lands. The focus of Act 54 is the further study or review of the trust status of those lands to which other state agencies hold title and the disposition of those lands. This study or review enables the Department of Land and Natural Resources to verify the accuracy of or make amendments to the trust status of those lands as indicated in the existing database.

Your Committees find that the inventory required to be taken and information to be maintained are important tools to assist the State to manage its assets. However, insufficient information on underutilized public facilities exacerbates lost revenues for the State, so it is important that all state and county agencies work together to ensure that state facilities are also included in a comprehensive asset management system for public lands and facilities.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by requiring state agencies to transfer programs and hardware associated with the inventory to the Department of Accounting and General Services.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Hawaiian Affairs and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 722, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 722, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 383 (Joint) Water and Land and Tourism and Hawaiian Affairs on S.B. No. 950**

The purpose and intent of this measure is to reallocate the portions of transient accommodations tax revenue deposited into the tourism special fund for deposit into the state parks special fund, special land and development fund, and conservation and resources enforcement special fund.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Tourism Authority. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that additional funding for state parks, the Na Ala Hele trail and access program, and the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources provides greater natural resource protection for future generations. According to testimony of the Department of Land and Natural Resources, transient accommodations tax revenues received by the Department have allowed it to make significant improvements to the parks and trails for the benefit of the public.

Your Committees believe that the funding under this measure should not be the sole source of revenues for the Department of Land and Natural Resources or the Hawaii Tourism Authority. Other entities that benefit from this measure include the counties and the federal government, and the private sector.

Your Committees note that state government and private entities may have been at odds because of the tendency for people and interest groups to work in silos rather than through an integrated and coordinated effort toward the greater common good. Approaches to problem solving need to be more collaborative in order to achieve a more efficient, effective, and productive government that is fair and equitable to all people of Hawaii.

Your Committees have amended this measure by:

- (1) Requiring transient accommodations tax revenues deposited into the special land and development fund to be expended subject to the mutual agreement of the Board of Land and Natural Resources and the Board of Directors of the Hawaii Tourism Authority and in accordance with the Hawaii Tourism Authority strategic plan;
- (2) Repealing the \$71,000,000 cap on transient accommodations tax revenues deposited into the tourism special fund and reducing the allocation to the tourism special fund from 34.2 percent to 23.4 percent;
- (3) Deleting the language authorizing expenditure of portions of the transient accommodations tax revenues deposited into the tourism special fund for development and implementation of initiatives to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii;
- (4) Deleting the language that would have deposited a portion of transient accommodations tax revenue into the conservation and resources enforcement special fund and making a conforming amendment;
- (5) Amending the allocation of transient accommodations tax revenues to the state parks special fund and special land and development fund by specifying that one percent of transient accommodations tax collections, up to \$4,000,000, shall be deposited as follows:
  - (A) \$2,000,000 into the state parks special fund, with certain conditions on expenditures of those funds; and
  - (B) The amount in excess of \$2,000,000 into the special land and development fund, specifying authorized uses for those funds;
- (6) Inserting language to transfer \$400,000, out of the amounts deposited into the special land and development fund pursuant to this measure for fiscal year 2013-2014, to the beach restoration special fund and appropriating those funds as matching funds for the environmental impact statement associated with the planned beach nourishment project at Kaanapali Beach on the island of Maui;
- (7) Requiring the Department of Land and Natural Resources and the Hawaii Tourism Authority to seek additional or supplemental funding from the counties, the federal government, and private entities to accomplish the purposes of this Act; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 950, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 950, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 3 (Ruderman, Thielen, Slom).

Tourism and Hawaiian Affairs

Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

**SCRep. 384 (Joint/Majority) Economic Development, Government Operations and Housing and Energy and Environment on S.B. No. 1030**

The purpose and intent of this measure is to make an emergency appropriation of \$145,000 from the energy security special fund to staff and support the Hawaii Refinery Task Force.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the closure of Tesoro Hawaii's Kapolei refinery and the uncertain future of Hawaii's remaining Chevron refinery create significant concerns to the State regarding its supply of refined fossil fuels. Supporting the task force will help the State

prepare for changes in Hawaii's fuel supply system and will provide the necessary funding for administration of the task force, studies, and assessments.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1030 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Baker, Wakai).

Energy and Environment

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 385 (Joint) Technology and the Arts and Economic Development, Government Operations and Housing on S.B. No. 961**

The purpose and intent of this measure is to:

- (1) Require departments and agencies to share information to improve government operations unless otherwise prohibited by law;
- (2) Require the Chief Information Officer to oversee the sharing of the information; and
- (3) Appropriate funds for departments and agencies to share information to improve government operations.

Your Committees received testimony in support of this measure from the Office of Information Management and Technology.

Your Committees find that information created and maintained by the State is public property for the benefit of Hawaii's residents. This measure creates an environment to increase the sharing of information among departments and agencies, which will benefit the State and its residents by improving decision-making, supporting business process improvement, reducing redundancy, minimizing errors, and creating a more responsive service to the needs of citizens.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 961 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts

Ayes, 4. Noes, none. Excused, 1 (Slom).

Economic Development, Government Operations and Housing

Ayes, 4. Noes, none. Excused, 3 (Baker, Chun Oakland, English).

**SCRep. 386 (Majority) Human Services on S.B. No. 301**

The purpose and intent of this measure is to establish a refundable state earned income tax credit, require the Department of Human Services to provide financial education to applicants for and recipients of temporary assistance for needy families, and appropriate funds for financial education and tax workshops.

Your Committee received testimony in support of this measure from the Office of Community Services, Hawaii Alliance for Community-Based Economic Development, Catholic Charities Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Goodwill Industries of Hawaii, PHOCUSED, Partners in Care, Partners in Development Foundation, International Longshore and Warehouse Union Local 142 Hawaii, and two individuals. Your Committee received testimony from the Department of Human Services that supports the intent of this measure. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that one-third of Hawaii's middle class families are asset poor, lacking the resources to subsist at the poverty level for three months in the absence of a source of income. Assets are necessary to provide financial security during economically difficult times, create economic opportunities, and improve future generations' quality of life.

Your Committee further finds that financial education and tax workshops are important to ensure that those most in need will have the necessary skills to take advantage of tax policies and begin building assets. The tools and strategies from financial education and tax workshops will empower families by helping them control their financial situation and increase their overall self-sufficiency and resiliency.

Your Committee further finds that in 2010, the Hawaii state asset building and financial education task force submitted recommendations to the Legislature, which included implementing tax policies that make work pay, improving financial education, helping people start businesses, helping people become homeowners, and removing barriers to asset building.

Your Committee has heard testimony of the Department of Taxation expressing concerns regarding the estimated cost for Hawaii earned income tax credit. Estimates show that:

- (1) Ten percent of the federal earned income tax credit will equal \$25,100,000;
- (2) Fifteen percent of the federal earned income tax credit will equal \$37,700,000; and
- (3) Twenty percent of the federal earned income tax credit will equal \$50,200,000.

Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Ways and Means further examine those issues and concerns raised by the testifiers on this measure.

Your Committee has amended this measure by:

- (1) Explicitly specifying in state law that certain federal regulations apply to tax return preparers, as the Internal Revenue Service recently lost a challenge regarding the application of certain regulations to tax return preparers and has ceased to apply those requirements to them;
- (2) Deleting sections 3 and 4 of the measure, which would have required and funded the Department of Human Services to provide financial education to applicants for and recipients of Temporary Assistance for Needy Families;
- (3) Changing the source of appropriations for Hawaii Alliance for Community-Based Economic Development to provide tax workshops and financial education from general funds to grants; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 301, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Kidani).

**SCRep. 387 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 104**

The purpose and intent of this measure is to require the Director of the Executive Office on Aging to contract for the performance of an actuarial analysis for a limited, mandatory, public long term care insurance program for the State's working population.

Your Committees received testimony in support of this measure from the Executive Office on Aging, County of Hawaii Office on Aging, AARP Hawaii, Policy Advisory Board for Elder Affairs, ILWU Local 142, and six individuals. Your Committees received testimony in opposition to this measure from the National Association of Insurance and Financial Advisors.

Your Committees find that Hawaii's population is aging rapidly. There were approximately 206,000 people over sixty-five years old in Hawaii in 2012. That number will increase by sixty-one percent to 331,000 in 2032. This increase in the aging population will create an increase in need for long term care. Approximately sixty-nine percent of people who turned sixty-five in 2005 will need long term care before they die.

Your Committees further find that Hawaii long term care costs are among the highest in the nation and unaffordable by most Hawaii residents, as only twelve percent of Hawaii residents over forty have a long term care insurance policy. In response to long term care issues, the Long-term Care Commission submitted its recommendations to the Legislature on January 18, 2012. The Commission recommended a limited mandatory public long care insurance program for employees as a viable way to increase funding for the expanding need for long term care services, which would provide persons meeting the vesting period with a limited but meaningful benefit should they need long term care. No other option considered would raise revenue for long term care and provide coverage to the vast majority of residents.

Your Committees have amended this measure by:

- (1) Changing references from the "public long term care insurance program" to the "public long term care financing program";
- (2) Adding language to require the Director of the Executive Office on Aging to contract for a feasibility study to design a limited, mandatory public long term care financing program for the State;
- (3) Applying the specific requirements for what information shall be included under the actuarial analysis to the feasibility study instead;
- (4) Adding additional policy options that may be analyzed as part of the feasibility study for a limited, mandatory, public long term care financing program;
- (5) Amending the specific requirements for what information shall be analyzed as part of the actuarial analysis to include:
  - (A) Cost projections of the various policy options; and
  - (B) The amount of the mandatory tax required to implement a mandatory long term care financing program in the State;
- (6) Requiring the feasibility study to be completed and submitted to the Director of the Executive Office on Aging by June 30, 2014, and included in the Director's report to the Legislature;
- (7) Inserting language to include the feasibility study, along with the actuarial analysis, as the purpose of the appropriation; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 104, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 104, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Green, Kidani).

Commerce and Consumer Protection

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Solomon).

**SCRep. 388 (Joint/Majority) Human Services and Technology and the Arts and Judiciary and Labor on S.B. No. 702**

The purpose and intent of this measure is to:

- (1) Establish an internet crimes against children fee upon each felony or misdemeanor conviction;
- (2) Require deposit of the fees into an internet crimes against children special fund to provide training and resources for local law enforcement agencies' and investigators' use in investigating and prosecuting internet crimes against children; and
- (3) Establish an internet crimes against children advisory committee.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of Public Safety; Department of the Prosecuting Attorney, County of Maui; Cyberspace Child Protection Campaign; PROTECT; and two individuals. Your Committees received comments from the Department of Budget and Finance.

Your Committees find that in 2008, USA Today reported that the Internet Crimes Against Children Task Forces had identified 2,297 unique computers in Hawaii trading sadistic images of infants and toddlers being tied up, tortured, and raped. Due to a lack of dedicated resources, only about two percent of known child exploitation offenders are being investigated. Most of these victims are abused by people in their own circle of trust, such as parents, relatives, neighbors, or friends, and most wait for a rescue that will never come due to a sheer lack of resources and manpower.

Your Committees have amended this measure by:

- (1) Expanding the list of offenses that constitute "internet crimes against children";
- (2) Clarifying the purpose for the imposition of internet crimes against children fees;
- (3) Changing the expending agency of the internet crimes against children special fund from the Department of Public Safety to the Department of the Attorney General and making a conforming amendment;
- (4) Deleting provisions that would have established an internet crimes against children advisory committee; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Technology and the Arts and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 702, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 702, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 389 (Joint) Technology and the Arts and Economic Development, Government Operations and Housing on S.B. No. 473**

The purpose and intent of this measure is to:

- (1) Clarify that electronic copies shall be construed in the same manner as an original document for purposes of Chapter 1, Hawaii Revised Statutes; and
- (2) Require that electronic copies are acceptable for all purposes as intended by the particular statute that references an original document or like terms, unless otherwise provided by that statute.

Your Committees received testimony in support of this measure from the Judiciary; Office of Management and Technology; and Department of the Corporation Counsel, City and County of Honolulu. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the intent of this measure aligns with the State's Business and Information Technology/Information Resource Management Transformation Plan to move toward increased and improved electronic record keeping as outlined in the Digital Records Plan. Your Committees further find that it can be useful and economical to use electronic copies in place of paper copies of documents.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 473 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Economic Development, Government Operations and Housing  
Ayes, 4. Noes, none. Excused, 3 (Baker, Chun Oakland, English).

**SCRep. 390 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1315**

The purpose and intent of this measure is to permit officers of the Department of Homeland Security's Federal Protective Service (FPS) to make arrests without a warrant under certain conditions.

Your Committee received testimony in support of this measure from FPS and one individual. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawaii.

Your Committee finds that FPS is the uniformed and investigative law enforcement component of the Department of Homeland Security. FPS provides police services to federally owned, leased, or occupied properties and investigates crimes that affect those properties and personnel.

In order to take action related to a state violation that occurs on federal property, FPS is currently required to devote resources to respond to and investigate the incident, then request that local police also devote resources to respond, investigate, and assume responsibility for the incident. This duplicity is a drain on resources and taxpayer dollars, particularly when it is the primary mission of FPS to carry out this function.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1315 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 391 (Joint) Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1304**

The purpose and intent of this measure is to:

- (1) Establish smart growth planning districts, create a comprehensive application process to apply for mixed-use qualified projects, and establish the transit-oriented redevelopment district program; and
- (2) Allow for the floor area from designated sending areas to be transferred to smart growth planning districts.

Prior to the hearing on this measure, your Committees posted for public review a proposed S.D. 1 to authorize the issuance of general obligation bonds in the sum of \$500,000,000 and to make an appropriation to the City and County of Honolulu for sewer infrastructure improvements.

Your Committees received testimony in support of the proposed S.D. 1 from the Mayor of the City and County of Honolulu, Department of Environmental Services, The Pacific Resource Partnership, Building Industry Association of Hawaii, The Chamber of Commerce of Hawaii, and two individuals.

Your Committees find that the City and County of Honolulu has an aging infrastructure that continues to deteriorate each day. Honolulu has some of the oldest sewer infrastructure in the State, especially in the urban core areas. Some of its oldest existing sewer lines were originally installed before statehood.

The City and County of Honolulu has approximately 2,100 miles of sewer lines that range in age from new to over 80 years old. It is constantly necessary to upgrade these sewer lines to ensure effective and safe operation, improve reliability, and provide necessary capacity for the community.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by deleting the specific dollar amount for the appropriation.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1304, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1304, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Economic Development, Government Operations and Housing  
Ayes, 5. Noes, none. Excused, 2 (Chun Oakland, English).  
Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 392 (Joint) Energy and Environment and Economic Development, Government Operations and Housing on S.B. No. 318**

The purpose and intent of this measure is to ensure that labeling on plastic carryout bags about their impact on the environment is consistent with uniform and recognized standards.

Your Committees received testimony in support of this measure from Island Plastic Bags, Inc., and one individual. Your Committees received testimony in opposition to this measure from the Retail Merchants of Hawaii. Your Committees received comments on this measure from the Hawaii Food Industry Association.

Your Committees find that environmental marketing claims on plastic carryout bag labels, whether explicit or implied, should be substantiated by competent and reliable evidence to prevent deceiving or misleading consumers about the environmental impact of plastic carryout bags. For consumers to have accurate and useful information about the environmental impact of plastic carryout bags, environmental marketing claims should adhere to uniform and recognized standards, such as those standard specifications established by ASTM International.

Your Committees have amended this measure by:

- (1) Amending the definition of “reusable bag” to mean a bag with handles that is specifically designed and manufactured for multiple reuse and is made of cloth or other machine-washable fabric or durable material suitable for reuse, including plastic that is at least 2.25 mils thick;
- (2) Adds to the labeling requirement a requirement that the plastic carryout bag be labeled, marked, or tagged with the manufacturer’s name and ASTM International standard specification that the bag meets;
- (3) Deleting the compliance requirement that a manufacturer or supplier must submit to the public, upon request, information demonstrating that the labeling of plastic carryout bags sold complies with this measure;
- (4) Inserting a compliance requirement that as a condition precedent to selling a plastic carryout bag labeled as “compostable”, “biodegradable”, or “degradable”, the manufacturer or supplier of the plastic carryout bag shall submit to the Department of Health sufficient documentation to satisfactorily demonstrate that the plastic carryout bag meets the most current applicable ASTM International standard specification; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 318, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 318, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Economic Development, Government Operations and Housing

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 393 (Joint) Water and Land and Tourism and Hawaiian Affairs and Higher Education on S.B. No. 755**

The purpose and intent of this measure is to repeal the exemption from legislative approval for sales of non-ceded lands conveyed to the University of Hawaii after December 31, 1989, to which the University of Hawaii holds title.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and two individuals. Your Committees received testimony in opposition to this measure from the University of Hawaii System.

Your Committees find that the intent of Act 56, Session Laws of Hawaii 2010, which enacted the amendment to section 171-64.7(b), Hawaii Revised Statutes, being repealed by this measure, was for the exemption to apply only to the West Oahu campus as evidenced by the language of Senate Standing Committee Report No. 2975, Regular Session of 2010, on H.B. No. 2561, S.D. 1, which reads in part: “Your Committees find that the Campbell Estate gifted non-ceded lands to the University of Hawaii for the specific purpose of building the West Oahu campus, with the condition that construction begin by December 31, 2011 or the land reverts to the Campbell Estate. Portions of the gifted land surrounding the proposed campus are to be sold to expedite the financing of the construction of the new campus, however, the legislative approval process may cause delays in these sales thus resulting in the condition not being met.”

According to testimony, the West Oahu campus has been largely built out, and the threat of reversion of the land to the Campbell Estate no longer exists. Therefore, the exemption is no longer necessary.

Your Committees further find that legislative approval for the alienation of public lands is in the public interest and should not be circumvented by statutory exemptions given to any department or agency. Testimony indicated that the University of Hawaii may hold title to other public lands surrounding other campuses that could be sold by the University without legislative approval. This measure is intended to repeal that ability.

Your Committees have amended this measure by:

- (1) Inserting language to exempt from legislative approval two identified portions of the lands controlled by the University of Hawaii that could be sold for the benefit of the West Oahu campus;
- (2) Inserting language to repeal the exemption for the lots for the West Oahu campus on July 1, 2016, which should provide sufficient time for West Oahu to complete its land development; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Hawaiian Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 755, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 755, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 7. Noes, none. Excused, none.

Tourism and Hawaiian Affairs

Ayes, 5. Noes, none. Excused, 3 (Hee, Keith-Agaran, Kidani).

Higher Education

Ayes, 5. Noes, none. Excused, 2 (Ige, Tokuda).

**SCRep. 394 Health on S.B. No. 689**

The purpose and intent of this measure is to clarify that the medical use of marijuana is consistent with the Pain Patient's Bill of Rights in chapter 327H, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from The Libertarian Party of Hawaii, Big Island Americans for Safe Access, The Drug Policy Forum of Hawai'i, American Civil Liberties Union of Hawai'i, The Drug Policy Action Group, and thirty-six individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department.

Your Committee finds that the Pain Patient's Bill of Rights focuses largely on patient access issues relating to opiate medications. This measure incorporates medical marijuana into the Pain Patient's Bill of Rights and affirms the right of patients to use medical marijuana for pain control.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 689 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 395 Health on S.B. No. 137**

The purpose and intent of this measure is to appropriate an unspecified amount to the Department of Health to create one full-time position in the Department to facilitate licensing of home care agencies.

Your Committee received testimony in support of this measure from the Department of Health and Healthcare Association of Hawaii.

Your Committee finds that home care agencies employ workers who assist a growing number of older adults and those with chronic illnesses or disabilities. Home care workers are referred to by a variety of job titles, including certified nursing assistants, care assistants, and home care aides. They make it possible for people with functional limitations to remain at home in a comfortable, familiar environment by providing a wide range of assistance with the activities of daily living.

Your Committee further finds that in 2009, the Legislature passed Act 21, Special Session Laws of Hawaii 2009. The purpose of Act 21 is to protect consumers of home care services by requiring home care agencies to be licensed. The Department of Health is collaborating with home care agencies, consumer advocates, and other stakeholders to draft the administrative rules needed to implement licensing. The licensing fees charged to home care agencies will cover administrative costs associated with licensing, but initial funding is needed to start the licensing process so that fees can be collected.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 137, S.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 396 Health on S.B. No. 1306**

The purpose and intent of this measure is to permit the regional systems of the Hawaii Health Systems Corporation and their health facilities to transition to non-public status.

Your Committee received testimony in support of this measure from the Maui Region Hawaii Health Systems Corporation, Banner Health, and numerous individuals. Your Committee received testimony in opposition to this measure from the United Public Workers, AFSCME, Local 646, AFL-CIO and numerous individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Health Systems Corporation.

Your Committee finds that the Hawaii Health Systems Corporation continues to face financial challenges, including increased operating and capital improvement costs, budget shortfalls, budgetary restrictions, and declining government and third-party subsidies. Your Committee further finds that declining subsidies and deteriorating infrastructure will inevitably affect quality of care. These challenges require innovative alternatives, including exploration of a public-private partnership and a transition into a non-public entity, that can help improve and enhance the delivery of health care throughout the State. This measure therefore advances the State's commitment to providing high quality health care by allowing the regional systems of the Hawaii Health Systems Corporation and their health facilities to transition to non-public status.

Your Committee has amended this measure by:

- (1) Specifying that a transition to non-public status shall only occur upon approval by:
  - (A) An affirmative vote of both houses of the Legislature, through concurrent resolution;
  - (B) The regional system board; and
  - (C) Boards in whose region or regions the health facility assets are located;
- (2) Revising language that specified that the employees of the new entity, unless the new entity was a municipal facility, and the private entity shall be exempt from chapters 76, 87A, 88, and 89, Hawaii Revised Statutes, and in no event shall the employees of the new entity or the private entity be considered as employees of the State;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1306, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1306, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Chun Oakland). Noes, none. Excused, none.

**SCRep. 397 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 932**

The purpose and intent of this measure is to:

- (1) Prohibit any person who is a danger to self or danger to others from possessing, having custody or control of, receiving, purchasing, or attempting to receive or purchase firearms or other dangerous or deadly weapons;
- (2) Create a reporting system for persons who seriously threaten a readily identifiable person or persons to a mental health professional;
- (3) Require the Department of Public Safety to create a database and list of persons prohibited from possessing, having custody or control of, receiving, purchasing, or attempting to receive or purchase firearms and other dangerous or deadly weapons, which will be accessible to law enforcement, mental health professionals, and sellers of firearms;
- (4) Require the Department to make a list of persons whose license for firearms or other dangerous or deadly weapons has been revoked; and
- (5) Exempt any communication under this measure from applicable privileges.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of Health, Department of Public Safety, and five individuals. Your Committees received testimony in opposition to this measure from the National Rifle Association, Hawaii; Hawaii Rifle Association; Community Alliance for Mental Health; and one hundred thirty-eight individuals. Your Committees received comments on this measure from Mental Health America of Hawaii and three individuals.

Your Committees find that Hawaii is very restrictive in its firearm permits and sale of automatic weapons. State law prohibits ownership or possession of firearms for a person who has been acquitted of a crime on the grounds of mental disease, disorder, or defect or has been diagnosed as having a significant behavioral, emotional, or mental disorder, and for a person who has been diagnosed as having a significant behavioral, emotional, or mental disorder as defined by the American Psychiatric Association. Also, the Adult Mental Health Division has in place operating procedures for firearms screening in collaboration with the county police departments. However, the precautionary measures that are needed that relate to mental health and firearms deserve more consideration.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Establish a mental health and firearms task force to:
  - (A) Research current state laws, both locally and nationally, relating to mental health and firearms; and
  - (B) Based on findings, recommend legislation to address the issue of mental health and firearms;
- (2) Designate members of the task force; and
- (3) Require the task force to submit a report of findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 932, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 932, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 398 (Joint) Health and Commerce and Consumer Protection on S.B. No. 667**

The purpose and intent of this measure is to regulate pharmacy benefit management companies in Hawaii. Specifically, this measure:

- (1) Requires the registration of and regulates the practices of pharmacy benefit management companies beginning on January 1, 2014; and
- (2) Authorizes periodic audits of pharmacies that submit claims to pharmacy benefit management companies.

Your Committees received testimony in support of this measure from three individuals. Testimony in opposition to this measure was submitted by the Hawaii Medical Service Association, CVS Caremark Corporation, and Pharmaceutical Research and Manufacturers of America.

Your Committees find that pharmacy benefit management companies provide prescription drug services on behalf of plan sponsors, including self-insured employers, insurers, unions, mutual benefit societies, and health maintenance organizations. As part of these services, pharmacy benefit management companies act as intermediaries that negotiate services and costs with pharmacies and rebate earnings with pharmaceutical companies. This measure regulates pharmacy benefit management companies to ensure financial reliability, regulate the licensing of pharmacy benefit management companies, prevent predatory pricing, and mandate disclosure of drug costs and financial contracts.

Your Committees note the following concerns raised in the written testimony submitted in opposition to this measure. The Hawaii Medical Service Association raised concerns that this measure implies that pharmacy benefit management companies dictate pharmacy benefits, such as restrictive network, mandatory mail order, and copayments, but employer groups and other payers are the entities that make these benefits design decisions, not pharmacy benefit management companies. CVS Caremark Corporation testified that by regulating pharmacy benefit management companies, this measure may open the door to fraud, abuse, and wasteful spending in health care.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the provisions that:
  - (A) Requires pharmacy benefit management companies to register with the Insurance Commissioner by January 1, 2014;
  - (B) Require an auditing entity to conduct an audit of the records of a pharmacy for claims submitted for payments after July 1, 2013, in accordance with specified criteria;
  - (C) Require each pharmacy benefit management company to make available to its enrollees specified information;
  - (D) Prohibit certain activities committed by a pharmacy benefit management company; and
  - (E) Establish penalties;
- (2) Clarifying that the Insurance Commissioner is required to consult with the Board of Pharmacy in adopting rules to implement this measure;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 667, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 667, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 399 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1241**

The purpose and intent of this measure is to amend section 480-11(d), Hawaii Revised Statutes, to exclude from unfair competition and anti-trust law, certain discussions between health care providers or facilities, managed care plans, government agencies, or health care related organizations, under certain circumstances.

Your Committees received testimony in support of this measure from the Healthcare Association of Hawaii and Hawaii Medical Service Association. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that developing uniform administrative standards and procedures will enhance the quality of health care in Hawaii. Such standards include pre-authorization forms, drug formularies, credentialing forms, quality metrics, and patient demographic information. In the development of these standards, it is important to encourage discussion and agreements among health care providers, insurers, and other health care organizations. Since antitrust laws are likely to have a dampening effect on such discussions, this measure will facilitate collaborative efforts among Hawaii's health care providers and other relevant health care entities and assist them in improving health care quality while controlling costs.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Describe in a findings and purpose section the importance of developing and implementing strategies and rules directed at improving the quality and cost-effectiveness of the health care delivery system in the State;
- (2) Establish the health care transformation program within the Department of Commerce and Consumer Affairs whose principal mission is to plan, develop, and implement initiatives and policies directed at improving the quality and cost-effectiveness of the health care delivery system in the State and ensuring that Hawaii residents and visitors have access to high quality and cost effective health care;
- (3) Specify the types of strategies that the Department shall develop in regard to the health care transformation program;
- (4) Allow the Department to informally consult with any stakeholder or subject matter expert in order to facilitate the development and monitor the effectiveness of any strategies or to facilitate the adoption or monitor the effectiveness of any rules to implement the strategies;
- (5) Require the Director of Commerce and Consumer Affairs to submit a report of strategies and findings to the Legislature no later than twenty days prior to the convening of the Regular Session of 2014; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1241, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1241, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, none.

Commerce and Consumer Protection

**SCRep. 400 Health on S.B. No. 1238**

The purpose and intent of this measure is to, among other things, establish the maternal mortality review committee to conduct comprehensive reviews on maternal deaths in Hawaii.

Your Committee received testimony in support of this measure from the Hawai'i Women's Coalition, Planned Parenthood of Hawaii, American Congress of Obstetricians and Gynecologists, and eleven individuals.

Your Committee finds that Hawaii is one of only fourteen states that do not have an active maternal mortality review committee. This measure will establish a group to conduct comprehensive reviews of maternal deaths in the State for the purpose of identifying factors associated with maternal deaths and improving services for women in the State.

Your Committee has amended this measure by:

- (1) Adding a definition of "director" to mean the Director of Health;
- (2) Amending the definition of the term "maternal mortality" to include "pregnancy-related death", "pregnancy-associated death", and "pregnancy-associated, but not pregnancy-related death";
- (3) Changing all references from "maternal mortality review committee" to "maternal mortality review panel";
- (4) Requiring the Director of Health to consult with various stakeholder groups in selecting the members of the maternal mortality review panel;
- (5) Amending the composition of the maternal mortality review panel to provide more specificity in the number of members and the entities or organizations to be represented, including:
  - (A) Two members from the Hawaii Section of the American Congress of Obstetricians and Gynecologists, one of whom shall be a generalist and one of whom shall be a maternal fetal medicine specialist;
  - (B) One member from the Hawaii Chapter of the American Academy of Pediatrics, specializing in neonatology;
  - (C) One member from the Hawaii Medical Association;
  - (D) One member from the Hawaii Chapter of the American College of Nurse Midwives;
  - (E) One member from the Hawaii Section of the Association of Women's Health, Obstetric and Neonatal Nurses;
  - (F) The head of the Department of Health's Maternal and Child Health Branch, or a designee;
  - (G) An epidemiologist from the Department of Health with experience analyzing perinatal data, or a designee;
  - (H) A representative of community mental health centers; and
  - (I) A member of the public;
- (6) Increasing the number of years each member of the maternal mortality review panel may serve from two to three years and specifying that the member's terms shall be staggered;

- (7) Adding language to specify that in addition to conducting comprehensive, multidisciplinary reviews of maternal mortality, members of the maternal mortality review panel shall be responsible for disseminating panel recommendations to the members' respective institutions and professional organizations, as applicable, subject to certain requirements;
- (8) Amending language requiring the Director of Health, in collaboration with the maternal mortality review panel, to submit an annual report to the Chairs of the Senate and House Committees on Health, rather than to the Legislature;
- (9) Adding language clarifying that the maternal mortality review panel shall not have the power to:
  - (A) Call witnesses or take testimony for any individual involved in the investigation of a maternal death; or
  - (B) Enforce any public health standard or criminal law or otherwise participate in any legal proceeding, except in certain circumstances;
- (10) Adding language making the maternal mortality review panel's proceedings, records, and opinions confidential, unless otherwise provided by law;
- (11) Adding language specifying that members of the maternal mortality review panel shall not be questioned in civil or criminal proceedings regarding information presented in or opinions formed during a meeting of the panel, unless otherwise required by law;
- (12) Adding language requiring health care providers, health care facilities, clinic, laboratories, medical records departments, and state offices, agencies, and departments to report all maternal mortality events to the Director of Health and the maternal mortality review panel;
- (13) Adding language giving the Director of Health authority to acquire any information necessary to ensure that the maternal mortality review panel's records are accurate and complete;
- (14) Adding language specifying when the Director of Health may acquire and retain individually identifiable information; provided that such information on individuals shall be removed before the information is reviewed by the maternal mortality review panel;
- (15) Adding language prohibiting the chair of the maternal mortality review panel from acquiring or retaining any individually identifiable information;
- (16) Adding language requiring that if a root cause analysis of a maternal mortality event has been completed, the findings of the analysis be provided to the maternal mortality review panel;
- (17) Adding a definition for "individually identifiable information" to include vital records; hospital discharge data; prenatal, fetal, pediatric, or infant medical records; hospital or clinic records; laboratory reports; records of fetal deaths or induced terminations of pregnancies; and autopsy reports;
- (18) Requiring the Director of Health, with the advice and recommendation of a majority of the members of the maternal mortality review panel, to adopt rules relating to:
  - (A) The system for identifying and reporting maternal mortality events to the Director of Health;
  - (B) The form and manner thorough which the maternal mortality review panel may acquire information;
  - (C) The protocol to be used in contacting a family member of the deceased woman for a discussion of the maternal mortality event, including allowing family members to delay or refuse such a discussion; and
  - (D) Ensuring the confidentiality of all individuals and facilities involved in the maternal mortality review panel's review of maternal mortality events;
- (19) Reinstating references to the perinatal mortality study committee of the Hawaii Medical Association in sections 324-1 and 324-2, Hawaii Revised Statutes, relating to protected information and restrictions on the identification of persons studied for the purpose of reducing morbidity and mortality; and
- (20) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1238, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 401 (Majority) Judiciary and Labor on S.B. No. 331**

The purpose and intent of this measure is to increase the minimum wage in accordance with the cost of inflation on an annual basis. Specifically, this measure:

- (1) Increases the minimum wage to \$8.25 per hour starting on July 1, 2013;
- (2) Increases the minimum wage to \$8.75 per hour starting on July 1, 2014, and ending on June 30, 2015; and
- (3) Authorizes the Department of Labor and Industrial Relations to adjust the minimum hourly wage in accordance with the consumer price index starting on July 1, 2015.

Prior to the hearing on this measure, your Committee posted a proposed S.D. 1 for review and comment. The proposed S.D. 1 amends this measure by increasing the minimum wage in increments of fifty cents over a three year period. Specifically, the proposed S.D. 1:

- (1) Increases the minimum wage to \$8.25 per hour starting on July 1, 2013;
- (2) Increases the minimum wage to \$8.75 per hour starting on July 1, 2014;
- (3) Increases the minimum wage to \$9.25 starting on July 1, 2015, and ending on June 30, 2016; and
- (4) Authorizes the Department of Labor and Industrial Relations to adjust the minimum hourly wage in accordance with the consumer price index starting on July 1, 2016.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Human Services; American Civil Liberties Union of Hawaii; Hawaii Appleseed Center for Law and Economic Justice; United Public Workers, AFSCME Local 646, AFL-CIO; Pride At Work Hawaii; Hawaii Catholic Conference; Hawaii State AFL-CIO; The Pacific Resource Partnership; International Longshore and Warehouse Union, Local 142; American Income Life Insurance Company; Unite Here Local 5; and two private individuals. Testimony in opposition to this measure was submitted by the Retail Merchants of Hawaii; Ito En (USA) Inc.; Dole Food Co. Hawaii; The Hawaii Business League; Foodland Supermarket Ltd.; The Libertarian Party of Hawaii; Pacific Quest; The Chamber of Commerce of Hawaii; NFIB Hawaii; Hawaii Restaurant Association; and two private individuals. The Department of Human Resources Development submitted comments.

Your Committee finds that the last time the minimum wage was increased was in 2007 and has not been raised in accordance with cost of living increases. According to the Department of Labor and Industrial Relations, as of January 1, 2013, twenty states or jurisdictions had a higher minimum wage than Hawaii, with ten of these states indexing their minimum wage to inflation so that the real value of the minimum wage does not fall below the rate of inflation every year.

The proposed S.D. 1 increases the State's minimum wage in an increment of fifty cents per hour over a three year period. Furthermore, authorizing the Department of Labor and Industrial Relations to adjust the minimum hourly wage in accordance with the consumer price index starting on July 1, 2016, provides a mechanism to ensure that the minimum wage keeps up with the cost of inflation.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Specifying that the Department of Labor and Industrial Relations is authorized to adjust the minimum hourly wage in accordance with the consumer price index beginning on September 30, 2015, rather than September 30, 2016;
- (2) Adopting the suggestion made by the Department of Labor and Industrial Relations to delete language regarding the calculation of an adjusted minimum wage that the Department believes is unnecessary; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 331, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 331, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

#### **SCRep. 402      Judiciary and Labor on S.B. No. 873**

The purpose and intent of this measure is to enhance collection of payments pursuant to a court order of judgment for restitution in a criminal matter. Specifically, this measure:

- (1) Creates standards and procedures for income withholding for purposes of enforcing restitution orders to ensure that an offender pays restitution;
- (2) Amends the definition of "debt" under the laws relating to the recovery of money owed to the State to include court-ordered restitution subject to civil enforcement;
- (3) Removes the court's authority to revoke restitution once ordered to ensure that the crime victim is paid restitution in full;
- (4) Requires that any bail posted by a defendant is applied toward payment of any court-ordered restitution in the same case; and
- (5) Extends victims' access to adult probation records for crime victims to track restitution payments, outstanding balances, and dates of compliance for the purpose of enforcing restitution orders.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission; Department of the Prosecuting Attorney, City and County of Honolulu; and Office of the Prosecuting Attorney, County of Kaua'i. Testimony in opposition to this measure was submitted by the Judiciary, Department of the Attorney General, and Office of the Public Defender.

Your Committee finds that victim restitution is a crime victim's right that is intended to address the physical, emotional, psychological, social, and financial impacts of a crime. According to the written testimony submitted by the Crime Victim Compensation Commission, the failure to collect court-ordered restitution while an offender is "on status" (incarcerated, on parole, or on probation) is a long standing problem and that crime victims often lack the effective means to collect restitution once the offender is "off status" (no longer incarcerated, on parole, or on probation). The Commission noted that once an offender is "off status", the only tool available to a crime victim is civil enforcement, but only if the offender has significant assets and the crime victim has the financial resources to hire an attorney. This measure facilitates the payment of restitution to crime victims.

Your Committee notes the concerns raised in the written testimony submitted by the Judiciary and Department of the Attorney General. The Judiciary indicated that this measure will result in a significant increase in workload for the court's programs and without appropriate resources the Judiciary will be unable to carry out this measure. Furthermore, the Department of the Attorney General indicated that this measure could potentially conflict with the federal requirement under the Social Security Act that withholding for support collection is given priority over any other legal process under state law against the same income. The Department warned that noncompliance with the federal law could jeopardize federal welfare funding and the federal funding of the child support enforcement programs for the State.

Your Committee further notes that this measure is similar to H.B. No. 234 (Regular Session of 2013) and that the Department of the Prosecuting Attorney of the City and County of Honolulu prefers the amendments made under H.B. No. 234, H.D. 1, with additional amendments.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the suggested language from the Department of the Prosecuting Attorney of the City and County of Honolulu to:
  - (A) Clarify in the title of the new section that creates standards and procedures for income withholding for purposes of enforcing restitution orders that income withholding is for payment of restitution;
  - (B) Make conforming amendments for the purposes of consistency that change references from "working days" to "business days" and change references from "agency" to "court";
  - (C) Clarify that any order made pursuant to chapter 576E, Hawaii Revised Statutes, has first priority over an income withholding order for payment of restitution;
  - (D) Amend the definition of "income" to delete unemployment compensation, disability benefits, or return of contributions and interest on any entitlement to money from the United States government and add fees and bonuses as sources of qualified income;
  - (E) Require a defendant who changes employer when an income withholding order is in effect to notify and provide the clerk of the court with the new employer's contact information within five business days of the change;
  - (F) Add the definition of "employer"; and
  - (G) Appropriate an unspecified amount for fiscal years 2013-2014 and 2014-2015 to the Judiciary for the purpose of enhancing restitution collection and the hiring of any necessary staff to implement this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 873, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 873, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Slom).

**SCRep. 403 (Joint) Higher Education and Judiciary and Labor on S.B. No. 1385**

The purpose and intent of this measure is to require the Board of Regents of the University of Hawaii (Board of Regents) to undergo training on the Board of Regents' policies and procedures; chapter 92, Hawaii Revised Statutes (HRS), Hawaii's sunshine law; and chapter 92F, HRS, Hawaii's open records laws.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Board of Regents and Office of Information Practices.

Your Committees find that on August 29, 2012, pursuant to Senate Rule 20, the Senate President appointed a Senate Special Committee on Accountability (Special Committee) to conduct informational briefings to review the oversight, accountability, and transparency of the operational and financial management of the University of Hawaii System.

The Special Committee found, among other things, that members of the Board would benefit from receiving training to better understand its own policies and procedures as well as training on Hawaii's sunshine and open records laws. This measure will ensure that members of the Board receive the necessary training.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1385 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 2 (Ige, Tokuda).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 404 (Joint) Higher Education and Technology and the Arts on S.B. No. 460**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii for the hiring of one full-time equivalent librarian position for the Okinawan collection at the University of Hawaii at Manoa library.

Your Committees received testimony in support of this measure from the University of Hawaii System and three individuals.

Your Committees find that the collection of Okinawa-related literature and resources at the University of Hawaii at Manoa is the largest and most comprehensive collection outside of Japan. This measure will allow the University of Hawaii at Manoa to hire one full-time librarian to oversee and further develop the collection.

Your Committees note that the position to be funded by this measure will require approximately \$60,000 plus fringe benefits.

As affirmed by the records of votes of the members of your Committees on Higher Education and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 460 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education

Ayes, 5. Noes, none. Excused, 2 (Tokuda, Slom).

Technology and the Arts

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 405 (Joint) Higher Education and Technology and the Arts on S.B. No. 678**

The purpose and intent of this measure is to appropriate funds to support the activities of the 'Ulu'ulu: Henry Ku'ualoha Giugni Moving Image Archive of Hawai'i (Moving Image Archive).

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i West O'ahu; Nā Maka o ka 'Āina; and two individuals.

Your Committees find that the Moving Image Archive is the State's official archive for moving images and is dedicated to the care, preservation, and digitization of film and videotape related to the history and culture of Hawaii.

Your Committees note that the Moving Image Archive will need approximately \$400,000 for assistance to carry out its mission.

Your Committees have amended this measure by:

- (1) Deleting the specific dollar amount to be appropriated by this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 678, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 678, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 406 (Joint) Higher Education and Commerce and Consumer Protection on S.B. No. 46**

The purpose and intent of this measure is to create the framework for authorizing private post-secondary educational institutions in the State in order to comply with regulations authorized under Title VI of the Higher Education Act of 1965, as amended.

Your Committees received testimony in support of this measure from the Governor, University of Hawai'i System, Hawaii Pacific University, Chaminade University of Honolulu, University of Phoenix, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Commerce and Consumer Protection, and Heald College.

Your Committees find that in October 2010, the United States Department of Education issued new regulations for programs authorized under Title IV of the Higher Education Act of 1965, as amended, to hold programs accountable for preparing students for gainful employment, protect students from misleading recruiting practices, ensure that only eligible students receive financial aid, and strengthen federal aid programs.

Your Committees further find that the State was unable to satisfy all of the requirements of the Higher Education Act of 1965, as amended, relating to state authorization by the July 1, 2011, deadline. However, the United States Department of Education provided the opportunity for states and institutions to receive an extension to July 1, 2013, for certain regulations. The State must proactively examine the requirements of the Higher Education Act of 1965, as amended, and ensure state compliance.

In fiscal year 2011, roughly 63,000 students in Hawaii received more than \$283,000,000 in federal funds under Title IV of the Higher Education Act of 1965, as amended. It is imperative that Hawaii does not jeopardize the receipt of federal funds under Title IV of the Higher Education Act of 1965, as amended.

Your Committees note that as this measure moves forward, the initial fee for authorization will need to be established. There is a broad range of fees established in other states that authorize post-secondary educational institutions. As this measure moves forward, the Committees would recommend looking at the fee schedule established by Colorado.

Your Committees have amended this measure by:

- (1) Revising the purpose section to, among other things, emphasize the importance of complying with the Higher Education Act of 1965, as amended;
- (2) Clarifying that the definition of “physical presence” includes providing an office space for either instructional or non-instructional staff;
- (3) Clarifying that to be considered a bona fide religious post-secondary educational institution, under the definition of “seminary” or “religious training institution”, an institution must be exempt from property taxes under state law;
- (4) Adding language to make unaccredited post-secondary institutions that are currently governed by chapter 446E, Hawaii Revised Statutes, subject to the requirements of this measure and treated as private colleges or universities beginning on July 1, 2015;
- (5) Clarifying that in order for private colleges, universities, seminaries, and religious training institutions to operate in the State, they must either meet the requirements of state authorization or be party to a reciprocity agreement to which the State is a member;
- (6) Adding language to require that a private college or university notify the Department of Commerce and Consumer Affairs within thirty days of any material information related to the institution’s accrediting body regarding the institution’s accreditation status;
- (7) Requiring that a private college, university, seminary, or religious institution provide the Department of Commerce and Consumer Affairs with a copy of its enrollment agreement, if applicable, in accordance with its reauthorization schedule rather than annually;
- (8) Repealing chapter 446E, Hawaii Revised Statutes, on July 1, 2015;
- (9) Requiring the State Post-Secondary Education Commission to submit a report to the Legislature; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 46, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 46, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 407 (Joint) Higher Education and Economic Development, Government Operations and Housing and Judiciary and Labor on S.B. No. 1388**

The purpose and intent of this measure is to:

- (1) Reduce the number of members of the Board of Directors of the Research Corporation of the University of Hawaii (RCUH) from ten to eight members;
- (2) Reduce the number of members of the Board of Regents of the University of Hawaii (Board of Regents) who must be members of the Board of Directors of RCUH from five to two members and makes them subject to the advice and consent of the Senate;
- (3) Specify the qualifications of the five members of the Board of Directors of RCUH to be selected by the Governor;
- (4) Add the Vice President for Research of the University of Hawaii System as an ex officio member of the Board of Directors of RCUH;
- (5) Provide that RCUH’s exemption from the procurement requirements of chapter 103D, Hawaii Revised Statutes (HRS), applies only for contracts that are directly related to research, and contracts for investigations, training, and studies that are directly related to research, with a total maximum estimated value of an unspecified dollar amount;
- (6) Remove the University of Hawaii President’s authority to serve as the President of RCUH;
- (7) Authorize the Board of Directors of RCUH to employ an Executive Director whose salary is capped at the salary of the highest paid head of a department within the Executive Branch;
- (8) Authorize the Executive Director of RCUH, rather than the Board of Directors, to hire and oversee necessary officers and employees; and
- (9) Specify that the Board of Directors of RCUH shall not engage in the daily management and operation of RCUH.

Your Committees received testimony in opposition to this measure from the University of Hawai‘i System, RCUH, and five individuals. Your Committees received comments on this measure from the Institution for Astronomy and one individual.

Your Committees find that concerns have been raised as to whether RCUH and its Board of Directors have been given a broader range of authority and flexibility than originally intended. Specifically, your Committees are concerned that RCUH’s exemptions from

certain state laws were used for the construction of the University of Hawaii West Oahu in areas that were clearly instructional and not related in any way to research.

Your Committees further find that this measure will clarify the role of RCUH and its Board of Directors, as well as the relationship between the Board of Directors and the University of Hawaii System.

Your Committees note the testimony of the Board of Directors of RCUH that it should maintain authority to hire staff and determine staff responsibilities and salaries. Your Committees believe it should be the Board of Directors of RCUH to provide oversight and governance and that the Executive Director should be responsible for the daily management and operations of RCUH. The testimony of RCUH assured your Committees that RCUH's Bylaws clearly provide for this separation of powers between the Board of Directors and the Executive Director over the daily management and operations of RCUH.

Your Committees have amended this measure by:

- (1) Deleting language making the two members of the Board of Regents selected to serve on the Board of Directors of RCUH subject to the advice and consent of the Senate;
- (2) Deleting language limiting RCUH's exemption from the procurement requirements of chapter 103D, HRS, only to contracts that are directly related to research, and contracts for investigations, training, and studies that are directly related to research, with a total estimated value of an unspecified dollar amount or less, and inserting language prohibiting RCUH's use of its procurement exemption for construction contracts for which the total estimated value of state funds to be used is an unspecified amount or more;
- (3) Amending the restriction on the Executive Director's salary to provide that the Executive Director's salary shall not be more than two times greater than the salary of the highest paid head of a department within the Executive Branch, rather than not greater than that of the highest paid department head;
- (4) Deleting language that transferred the authority of the Board of Directors of RCUH to hire, oversee, and grant benefits for officers and employees to the Executive Director;
- (5) Deleting language specifying that the Board of Directors of RCUH shall not engage in the daily management and operation of RCUH; and
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Government Operations and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1388, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1388, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education

Ayes, 5. Noes, none. Excused, 2 (Ige, Tokuda).

Economic Development, Government Operations and Housing

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

Judiciary and Labor

Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

**SCRep. 408 (Joint) Higher Education and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1221**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to hire a program coordinator and a technical support staff member for the proposed international flight training center and degree program at the University of Hawaii at Hilo and Hawaii Community College.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; County of Hawai'i; University of Hawai'i at Hilo; University of Hawai'i at Manoa Hawai'i Space Grant Consortium; Hawai'i Community College; Iron Workers Stabilization Fund; and twenty-four individuals.

Your Committees find that pursuant to Senate Concurrent Resolution No. 156, S.D. 1, adopted during the Regular Session of 2012, the Legislature urged the creation of an exploratory committee to consider the establishment of an international flight training center and associated aeronautical training programs at the University of Hawaii at Hilo and Hawaii Community College.

Your Committees further find that this measure will provide the needed funding to complete the necessary studies and planning for the programs' future implementation.

The University of Hawaii estimates that it will need \$221,863 per fiscal year to hire a program coordinator and a technical support staff member, as well as for other personal services. The estimated overhead costs are \$128,137 per fiscal year. It is the University's hope that these amounts will be a one-time cost for the program and that the necessary studies and planning can be completed in one year.

Your Committees have amended this measure by:

- (1) Deleting the specific dollar amount to be appropriated by this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1221, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1221, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education

Ayes, 4. Noes, none. Excused, 3 (Ige, Tokuda, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 409 Higher Education on S.B. No. 453**

The purpose and intent of this measure is to propose an amendment to article X, section 6, of the Hawaii State Constitution to repeal the requirement that the Governor make appointments to the Board of Regents of the University of Hawaii from pools of qualified candidates presented to the Governor by the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Candidate Advisory Council).

Your Committee received testimony in support of this measure from the Office of the Governor and University of Hawaii Professional Assembly. Your Committee received testimony in opposition to this measure from the Candidate Advisory Council and the Graduate Student Organization of the University of Hawaii.

Your Committee finds that it has become clear that the Governor will not be able to adequately select nominees to the Board of Regents unless the Governor has more control and involvement in the recruitment and selection process. Your Committee believes that it is appropriate to reassess and seriously consider repealing the Candidate Advisory Council. This measure will allow voters to consider whether the Candidate Advisory Council should no longer be constitutionally mandated.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 453 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 410 Higher Education on S.B. No. 1386**

The purpose and intent of this measure is to require members of the Board of Regents of the University of Hawaii to file an annual disclosure of financial interests with the Hawaii State Ethics Commission that will be a public record and available for inspection and duplication.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission and one individual.

Your Committee finds that a large number of employees and officers of the State are required to file an annual disclosure of financial interests with the Hawaii State Ethics Commission. As members of the entity that governs the only public institution of higher learning in the State, members of the Board of Regents should similarly be required to file a disclosure of financial interests that is public record in order to help deter conflicts of interest and promote greater openness and transparency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1386 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 411 Higher Education on S.B. No. 1387**

The purpose and intent of this measure is to give the Governor the authority to reject the list of nominees to the Board of Regents of the University of Hawaii (Board of Regents) presented by the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Candidate Advisory Council) and require the Candidate Advisory Council to provide another list of nominees to the Governor within sixty days.

Your Committee received testimony in opposition to this measure from the University of Hawaii Professional Assembly. Your Committee received comments on this measure from the Office of the Governor, Candidate Advisory Council, and one individual.

Your Committee finds that allowing the Governor to reject the list of nominees and requiring the Candidate Advisory Council to present the Governor with another list within sixty days will increase the Governor's ability to appoint highly qualified individuals to serve as Regents and effectively lead the University of Hawaii System.

Your Committee has amended this measure by:

- (1) Adding language to provide that each member shall serve for the duration of the term of the member's appointing authority, up to a maximum of four years per term; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1387, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1387, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 412 Higher Education on S.B. No. 380**

The purpose and intent of this measure is to appropriate funds for the College of Agriculture, Forestry, and Natural Resource Management of the University of Hawaii at Hilo to conduct a needs assessment for a potential learning center project in Puna on the island of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo; College of Agriculture, Forestry, and Natural Resource Management at the University of Hawai'i at Hilo; Hawaiian Shores Community Association; Hawaii Island School Garden Network; Ho'oulu Lahu'i, Inc.; Global Ecology Foundation; and ten individuals.

Your Committee finds that the College of Agriculture, Forestry, and Natural Resource Management of the University of Hawaii at Hilo is exploring a higher education learning center project in the district of Puna, Hawaii, to identify educational and training needs and design a business incubator to support job growth in the district. The initial focus will be on outreach and conducting a needs assessment. This measure will provide the necessary funds to get the project off the ground.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 380, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 380, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Ige, Keith-Agaran, Tokuda).

**SCRep. 413 Higher Education on S.B. No. 452**

The purpose and intent of this measure is to reestablish the Governor's authority to nominate and, with the advice and consent of the Senate, appoint the members of the Board of Regents of the University of Hawaii (Board of Regents) by repealing the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Candidate Advisory Council), effective upon ratification of an amendment to article X, section 6, of the Hawaii State Constitution that repeals provisions related to the Candidate Advisory Council.

Your Committee received testimony in support of this measure from the Office of the Governor, University of Hawaii Professional Assembly, and one individual. Your Committee received testimony in opposition to this measure from the Candidate Advisory Council and three individuals.

Since the passage of Act 56, Session Laws of Hawaii 2007, to implement the amendments to article X, section 6, of the Hawaii State Constitution, your Committee finds that while the Candidate Advisory Council has nominated several outstanding appointees to the Board of Regents, a number of issues have arisen regarding the method of Regent selection that has hampered the work of the Candidate Advisory Council and led to questions regarding the final selection of appointees during the Senate confirmation process. The latest example is the Senate's rejection of two of the Governor's nominees to the Board of Regents during the Regular Session of 2011.

Your Committee further finds that the Governor will not be able to adequately select nominees to the Board of Regents unless the Governor has more control and involvement in the recruitment and selection process. Your Committee believes that it is appropriate to reassess and seriously consider repealing the Candidate Advisory Council.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 452, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 452, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 414 Higher Education on S.B. No. 563**

The purpose and intent of this measure is to amend the form and function of the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Candidate Advisory Council).

Your Committee received testimony in support of this measure from the Office of the Governor. Your Committee received testimony in opposition to this measure from the Candidate Advisory Council, University of Hawaii Professional Assembly, and Graduate Student Organization of the University of Hawai'i at Mānoa.

Since the passage of Act 56, Session Laws of Hawaii 2007, to implement the amendments to article X, section 6 of the Hawaii State Constitution, your Committee finds that while the Candidate Advisory Council has nominated several outstanding appointees to the Board of Regents, a number of issues have arisen from the method of Regent selection that has hampered the work of the Candidate Advisory Council and led to questions regarding the final selection of appointees during the Senate confirmation process. The most recent example is the Senate's rejection of two of the Governor's nominees to the Board of Regents during the Regular Session of 2011.

Your Committee further finds that on August 29, 2012, pursuant to Senate Rule 20, the Senate President appointed a Senate Special Committee on Accountability (Special Committee) to conduct informational briefings to review the oversight, accountability, and transparency of the operational and financial management of the University of Hawaii System.

During the informational briefings, the Special Committee focused on, among other things, the oversight and transparency of the University's fiscal and operational administration, including the role of the Board of Regents. The informational briefings reaffirmed the importance of granting the Governor the authority to select and appoint Regents on the basis of how each Regent's individual strengths will add to and complement the overall quality of the Board of Regents. It has become clear that the Governor will not be able to adequately select nominees to the Board of Regents unless the Governor has more control and involvement in the recruitment and selection process.

As such, the form and function of the Candidate Advisory Council needs to be reconstituted to increase the Governor's ability to appoint qualified individuals to serve as Regents and effectively lead the University of Hawaii System.

Lastly, your Committee notes that this measure temporarily places the Candidate Advisory Council within the Office of the Governor but does not specify how long it is to remain there. As this measure moves forward, consideration should be given to providing a specified time limit for which the Candidate Advisory Council shall remain in the Office of the Governor. In addition, the possibility of permanently placing the Candidate Advisory Council within the University of Hawaii should be examined.

Your Committee has amended this measure by:

- (1) Removing language in the purpose section relating to the Special Committee;
- (2) Increasing the membership of the Candidate Advisory Council from five to seven members and making conforming amendments;
- (3) Requiring that one member of the Candidate Advisory Council be a student who has been enrolled in the University of Hawaii System as a full-time student for at least three consecutive semesters;
- (4) Adding language to encourage the Governor to appoint members of the University's faculty and staff to the Candidate Advisory Council; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 563, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 563, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 415 Higher Education on S.B. No. 624**

The purpose and intent of this measure is to specify that no more than ten percent of the monies deposited in the University of Hawaii tuition and fees special fund shall be expended on administrative costs of the University and that at least ninety percent of the monies shall be expended on student education programs.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the University of Hawaii.

Your Committee finds that the majority of tuition and fees collected by the University of Hawaii should benefit the students at their individual campuses.

Your Committee has amended this measure by:

- (1) Removing the requirement that no more than ten percent of the monies deposited in the University of Hawaii tuition and fees special fund be expended on administrative costs and at least ninety percent of the monies be expended on student education programs, and making conforming amendments; and
- (2) Inserting language prohibiting the expenditure of monies in the University of Hawaii tuition and fees special fund on administrative salaries at the University.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 624, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 624, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 416 Higher Education on S.B. No. 967**

The purpose and intent of this measure is to require the Board of Regents of the University of Hawaii (Board of Regents) to submit to the Legislature for approval salary proposals that are equal to, or in excess of, two times the Governor's salary.

Your Committee received testimony in opposition to this measure from the University of Hawaii System.

Your Committee finds that the prudent use of public funds is a matter of statewide concern. In addition, there is concern about the number of employees within the University of Hawaii System whose salaries are in excess of that of the Governor. According to the University, thirty-three employees currently fall under this category.

Your Committee recognizes the concerns raised by the University of Hawaii System that requiring approval from the Legislature for a specific candidate may hurt the University's ability to be competitive in its hiring.

Your Committee has amended this measure by:

- (1) Amending language to require legislative approval for a salary range, rather than a specific salary, proposed by the Board of Regents that is equal to or in excess of twice that of the Governor, and making conforming amendments;
- (2) Inserting language to require legislative approval prior to recruitment for any position for which the Board of Regents wishes to prescribe a certain salary range that is equal to or in excess of twice that of the Governor;
- (3) Removing language that required certain information to be provided in the concurrent resolution for each applicant;
- (4) Removing the requirement that the Board of Regents receive approval by at a least two-thirds majority vote of both houses of the Legislature; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 967, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Tokuda). Noes, none. Excused, none.

**SCRep. 417 Higher Education on S.B. No. 606**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to pay student employee salaries at new or expanded worksites on each campus and for three full-time equivalent support staff for the Vice Chancellor for Students at the University of Hawaii at Manoa.

Your Committee received testimony in support of this measure from the University of Hawaii System, University of Hawaii at Manoa, and seven individuals.

Your Committee finds that the hiring of students at the various campuses within the University of Hawaii System is beneficial to the University and the students. In addition, many students depend on part-time work while enrolled in school.

While your Committee supports the creation of more jobs for students, it is concerned as to whether the University of Hawaii will be able to sustain the increase in student employment if the minimum wage is increased.

Your Committee has amended this measure by:

- (1) Deleting the specific number of full-time equivalent support staff for the Vice Chancellor for Students at the University of Hawaii at Manoa to be funded by this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 606, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kidani). Noes, none. Excused, 2 (Ige, Slom).

**SCRep. 418 Higher Education on S.B. No. 490**

The purpose and intent of this measure is to require:

- (1) The Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and State Board of Nursing to collaborate with the Center for Nursing to enable the Center to obtain nursing-related data;
- (2) The Professional and Vocational Licensing Division to provide the Center for Nursing with various types of information through a memorandum of understanding; and
- (3) The completion of a survey developed by the Center for Nursing as part of the licensure renewal requirements of chapter 457, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the School of Nursing and Dental Hygiene at the University of Hawaii at Manoa, Hawai'i State Center for Nursing, St. Francis Healthcare System of Hawaii, Blood Bank of Hawaii, American Organization of Nurse Executives Hawaii Chapter, Hawai'i Pacific Health, and eighteen individuals. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and one individual.

Your Committee finds that effective workforce planning and policy making require better data collection and an improved information infrastructure. The Center for Nursing's surveys related to nursing programs, registered nurses, and licensed practical nurses are a valuable way to collect nursing-related data.

Your Committee understands the concerns raised in the testimony but believes that this measure deserves further consideration. In addition, your Committee would like to allow the Board of Nursing the opportunity to review and address this measure at the Board's next public meeting, as it has not yet had a chance to collectively do so.

As such, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 490, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kidani). Noes, none. Excused, 2 (Ige, Slom).

**SCRep. 419 (Joint) Agriculture and Education on S.B. No. 564**

The purpose and intent of this measure is to:

- (1) Establish a farm-to-school program in the Department of Agriculture; and
- (2) Establish a task force within the Department of Agriculture to examine the feasibility of establishing school gardens and creating a Hawaii-grown fresh fruit and vegetable program and to advise the Department of Agriculture in the creation and implementation of the farm-to-school program.

Your Committees received testimony in support of this measure from the Hawaii Academy of Arts and Science, Kohala Center, Hawaii Association of Independent Schools, Kauai School Garden Network, Hui O Malama Aina, Hawaii Farm Bureau Federation, Hawaii Organic Farming Association, and two individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that a statewide agricultural strategic plan for a farm-to-school program will improve student engagement in agriculture and food sustainability. After discussion, however, your Committees concluded that a working group is needed to evaluate how locally-grown produce can be utilized by all state agencies, not just the Department of Education.

Accordingly, your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Establish a locally-grown produce working group until June 30, 2015, within the Department of Agriculture to develop the parameters of and implement a demonstration model in which a state facility utilizes locally-grown produce for consumption and to advise the Department of Agriculture on the feasibility of implementing the demonstration model at other state facilities; and
- (2) Make an appropriation to the Department of Agriculture to develop and implement the working group's demonstration model to utilize locally-grown produce at a state facility.

As affirmed by the records of votes of the members of your Committees on Agriculture and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 564, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 564, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Thielen, Wakai, Slom).

Education

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 420 (Majority) Health on S.B. No. 492**

The purpose and intent of this measure is to:

- (1) Impose an excise tax equal to \$3.20 per net ounce of tobacco of each article or item of tobacco products, other than large cigars; and
- (2) Require the additional monies collected under the excise tax to be deposited to the credit of the Hawaii cancer research special fund.

Your Committee received testimony in support of this measure from the Cancer Action Network and nine individuals. Your Committee received testimony in opposition to this measure from the Cigar Association of America, Inc., and three individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that increases in cigarette taxes induce smokers to quit or find cheaper means to continue using tobacco. Taxes on cigarettes are intended to encourage smokers to quit which means lower costs in tobacco-related medical expenses.

Your Committee believes that this measure as written may not address the growing number of roll-your-own tobacco shops, which advertise the sale of cigarettes at lower prices than for traditional cigarettes. These roll-you-own cigarette shops effectively circumvent the cigarette tax by selling loose tobacco, which is taxed at a lower rate, then allowing customers to make their own cigarettes.

Your Committee has amended this measure by:

- (1) Deleting the provision imposing an excise tax equal to \$3.20 per net ounce of tobacco;
- (2) Inserting language to impose an excise tax equal to one hundred two percent of the wholesale price of any tobacco product, other than large cigars, sold by a wholesaler or dealer on and after January 1, 2014, whether or not sold at wholesale, or if not

sold then at the same rate upon the use by the wholesaler or dealer and allocating the entire amount received to the Hawaii cancer research special fund; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 492, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 492, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 421 (Joint/Majority) Health and Judiciary and Labor on S.B. No. 1085**

The purpose and intent of this measure is to discourage excessive consumption of sugar-sweetened beverages and prevent obesity by:

- (1) Imposing a fee on sugar-sweetened beverages sold in the State; and
- (2) Establishing the obesity prevention special fund to support obesity prevention programs.

Your Committees received testimony in support of this measure from the Governor; Department of Public Safety; Department of Human Resources Development; Department of Education; City Council, City and County of Honolulu; College of Health Sciences and Social Welfare, University of Hawaii at Manoa; Child and Family Service; Hawaii Association of Independent Schools; Pioneering Healthier Communities Leadership Team; and nine individuals. Your Committees received testimony in opposition to this measure from the American Beverage Association; Hawaii Food Industry Association; Ito En (USA) Inc.; International Longshore and Warehouse Union, Local 142; and five individuals.

Your Committees find that childhood obesity increased by thirty-eight percent in Hawaii between 1999 and 2009, while adult obesity more than doubled between 1996 and 2011. Obesity-related medical expenditures in Hawaii were calculated to be over \$470,000 in 2009 and are continuing to increase. Sugar-sweetened beverages have been identified by many scientific studies as a major contributor to the costly obesity epidemic.

Your Committees find that a fee on sugar-sweetened beverages will have beneficial fiscal and health impacts. Economic disincentives are among the most effective tools to change behavior, as tobacco taxes have demonstrated. This measure is an initial step to decrease obesity-related health problems, including diabetes, heart disease, sleep apnea, and orthopedic issues.

Your Committees have amended this measure by:

- (1) Amending the definition of "sugar-sweetened beverage" to include soy milk and rice milk;
- (2) Renaming the obesity prevention special fund as the obesity and chronic disease prevention special fund and making conforming amendments;
- (3) Designating non-school hour programs that support opportunities for physical activity and nutritional education as one of the authorized uses of monies from the obesity and chronic disease prevention special fund;
- (4) Designating \$250,000 per year of monies in the obesity and chronic disease prevention special fund to be allocated to each federally qualified community health center for preventative clinical services directly related to obesity-related chronic disease;
- (5) Inserting language from S.B. No. 1145 (Regular Session of 2013), to establish the Hawaii Interagency Obesity Prevention Council to address child and adult obesity in Hawaii;
- (6) Inserting an appropriation from the obesity and chronic disease prevention special fund to the department of health to support child and adult obesity and chronic disease prevention programs; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1085, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1085, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4; Ayes with Reservations (Nishihara). Noes, 1 (Slom). Excused, none.

Judiciary and Labor

Ayes, 3. Noes, 1 (Gabbard). Excused, 1 (Slom).

**SCRep. 422 (Joint) Technology and the Arts and Water and Land on S.B. No. 1317**

The purpose and intent of this measure is to:

- (1) Make an appropriation for the planning, design, and construction of the Nisei Veterans Legacy Center and Honouliuli Internment Camp Educational Center, subject to the matching of state funds; and
- (2) Allow the value of in-kind donations to be calculated in the matching amount, subject to verification by the Director of Finance.

Your Committees received testimony in support of this measure from the University of Hawaii West Oahu, Hawaii Civil Rights Commission, Japanese Cultural Center of Hawaii, Japanese American Citizens League, Japan-America Society of Hawaii, and numerous individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that a Nisei Veterans Legacy Center would preserve, perpetuate, and share the legacy of the Americans of Japanese ancestry who served in the United States Armed Forces in World War II. The establishment of a Nisei Veterans Legacy Center would create a facility dedicated to researching, interpreting, and preserving the history of the Nisei veterans to develop a deeper understanding of these soldiers who fought valiantly against the Axis powers while having to combat racial prejudice and discrimination at home. Locating a Nisei Veterans Legacy Center in West Oahu would complement academic and research programs offered at the University of Hawaii, such as the Center for Labor Education and Research's Archives and the Henry Giugni film collection.

Your Committees further find that the Honouliuli Internment Camp is a major historical site located on property currently owned by Monsanto in West Oahu. The United States National Park Service, Japanese Cultural Center of Hawaii, University of Hawaii – West Oahu, the State of Hawaii, Monsanto, and other stakeholders are working to preserve and share the existing remnants of the internment camp through a planned educational center and memorial. In 2012, the Legislature established a Honouliuli advisory group to develop recommendations to help develop this site with government and private resources, and the group continues to meet.

Your Committees have amended this measure by:

- (1) Deleting the specific appropriation amount and leaving the appropriation amounts blank;
- (2) Deleting the general appropriation language and creating two separate appropriations for fiscal years 2013-2014 and 2014-2015: one appropriation for the Nisei Veterans Legacy Center and one appropriation for the Honouliuli Park Site Project;
- (3) Requiring that the Advisory Group created by Act 235, Session Laws of Hawaii 2012, report to the legislature no later than twenty days prior to the convening of the Regular Session of 2014 on the status of the Honouliuli Park Site Project, including funding;
- (4) Requiring that the Department of Land and Natural Resources report to the legislature no later than twenty days prior to the convening of the Regular Session of 2014 on the status of the Nisei Veterans Legacy Center, including funding; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1317, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1317, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Water and Land  
Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 423 (Joint) Higher Education and Judiciary and Labor on S.B. No. 1384**

The purpose and intent of this measure is to:

- (1) Limit the Board of Regents of the University of Hawaii (Board) to appointing one General Counsel;
- (2) Require the Board to have direct oversight over the General Counsel and prohibit the Board from delegating this responsibility to the University of Hawaii President;
- (3) Require the General Counsel to report directly to the Board;
- (4) Allow the Board to contract with independent attorneys only where the General Counsel and Attorney General each acknowledge a lack of sufficient expertise; and
- (5) Require contracted attorneys to consult with and work in conjunction with the Attorney General.

Your Committees received testimony in opposition to this measure from the Board of Regents and University of Hawai'i System. Your Committees received comments on this measure from the University of Hawaii Professional Assembly.

Your Committees find that concerns have been raised about the amount of money that the University of Hawaii has spent on contracts with outside legal counsel. Your Committees find that outside counsel should be reserved for cases where the General Counsel and the Attorney General lack the expertise necessary to represent the University of Hawaii.

As this measure moves forward, your Committees request your Committee on Ways and Means to consider:

- (1) Removing all line items in the University of Hawaii budget for attorneys within the Office of the General Counsel, except for the General Counsel position; and
- (2) Transferring any attorneys currently serving within the Office of the General Counsel to the Department of the Attorney General on the effective date of this measure.

In considering the transfer of any attorney currently serving within the Office of General Counsel to the Department of the Attorney General, your Committees clarify that this transfer is not intended to be a lateral transfer of the employee but rather a transfer of responsibilities of the attorneys within the Office of the General Counsel to the Department of the Attorney General.

Your Committees also note that the General Counsel oversees seven attorneys and is paid an annual salary of \$235,248. In comparison, the Attorney General, who oversees approximately 185 attorneys within the Department of the Attorney General, is paid an annual salary of \$120,442.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the Board is authorized to fix the compensation of the one attorney serving as General Counsel at a salary not exceeding the salary of the Attorney General;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1384, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1384, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education

Ayes, 5. Noes, none. Excused, 2 (Ige, Tokuda).

Judiciary and Labor

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ihara).

**SCRep. 424 (Joint) Tourism and Hawaiian Affairs and Judiciary and Labor on S.B. No. 10**

The purpose and intent of this measure is to allow the Hawaiian Homes Commission and the Department of Hawaiian Home Lands to retain independent legal counsel.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; West Hawaii Hawaiian Homes Commission; Council for Native Hawaiian Advancement; and three individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General.

Your Committees find that there are circumstances where the interests of the State and the Department of Hawaiian Home Lands may be adversarial and that it is vital and necessary to the Hawaiian Homes Commissions' fiduciary duties to retain independent counsel.

After discussion, your Committees have amended this measure by:

- (1) Inserting language to clarify that independent counsel may be hired to represent the Hawaiian Homes Commission or the Department of Hawaiian Home Lands when their interests conflict with the State;
- (2) Inserting language to specify that funds paid to legal counsel representing the Hawaiian Homes Commission and the Department of Hawaiian Home Lands come from the State; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 10, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 10, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and Hawaiian Affairs

Ayes, 6. Noes, none. Excused, 2 (Kidani, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 425 (Joint) Public Safety, Intergovernmental and Military Affairs and Economic Development, Government Operations and Housing on S.B. No. 1285**

The purpose and intent of this measure is to:

- (1) Grant immunity to state and county agencies and employees from liability for injury or damage to persons or property arising out of hazardous recreational activities; and
- (2) Specify the recreational activities giving rise to injury or damages from which private landowners are granted limited liability under current law.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of Land and Natural Resources; City and County of Honolulu, Department of the Corporation Counsel; City and County Of Honolulu,

Department of Parks and Recreation; Access Fund, and numerous individuals. Your Committees received testimony in opposition to this measure from Hawaii Association for Justice.

Your Committees find that due to Hawaii's thriving tourist industry and its abundant opportunities for recreation, hazardous recreational activities impose a significant liability concern to the counties and State. This measure limits the State's unfettered liability for injuries and accidents that it cannot control or prevent and relies on those engaging in these activities to exercise personal responsibility and to assume the risk of what they know to be an inherently dangerous activity. Your Committees further find that this measure does not absolve the State or counties of any and all liability regardless of any actions by the State or the counties or its employees. The State and counties will remain liable for injury or damages caused by their own negligent, reckless, or grossly negligent acts.

Your Committees heard testimony from the Access Fund, a national advocacy organization that keeps rock climbing areas open and conserves the climbing environment. According to the Access Fund, the insurance for rock climbing sites like Mokuleia could cost between \$2,000 to \$5,000. The Access Fund suggested that the State could provide this insurance by entering into a management agreement with the Access Fund who would provide a grant to the State; by procuring an insurance policy itself to cover only specific rock climbing areas; or by instituting an annual fee for individuals who wish to pursue hazardous recreational activities that will cover the State's insurance expenses.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1285, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1285, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Green).

Economic Development, Government Operations and Housing  
Ayes, 5. Noes, none. Excused, 2 (English, Wakai).

**SCRep. 426 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1182**

The purpose and intent of this measure is to update the Hawaii Revised Statutes to permit law enforcement officers and other persons authorized by the courts to serve legal process.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received testimony in opposition to this measure from the Judiciary.

Your Committee finds that process servers play an important role in facilitating a timely judicial process and protecting public safety. By permitting more individuals who are duly authorized and qualified to serve legal process, this measure will improve efficiency and timeliness of the process. However, your Committee also finds that the duties of process servers need more clarification by the Department of Public Safety.

Your Committee has amended this measure by:

- (1) Establishing a working group to define and delineate the duties and responsibilities of process servers under the jurisdiction of the Department of Public Safety; create a process to obtain certification for the Sheriff Division from the Commission on Accreditation for Law Enforcement Agencies, Inc., to ensure that proper law enforcement policies and procedures are enacted and followed; create a process of registration for process servicers in the State; and address other issues deemed relevant by the working group or by the Department of Public Safety;
- (2) Deleting references to "other person authorized by the court" from those persons permitted to serve process; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1182, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1182, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 427 Public Safety, Intergovernmental and Military Affairs on S.B. No. 213**

The purpose and intent of this measure is to:

- (1) Reconfigure the membership of the State Building Code Council by eliminating members from the Department of Health and Department of Labor and Industrial Relations and adding members from the Building Industry Association of Hawaii, General Contractors Association, Hawaii Construction Alliance, and Subcontractors' Association of Hawaii;
- (2) Change the requirements for a quorum from six to seven; and

(3) Eliminate the Council's obligation to consult with private sector representatives regarding construction practices and training.

Your Committee received testimony in support of this measure from the State Fire Council; Kauai Fire Department; Department of Fire and Public Safety, County of Maui; Building Industry Association; Associated Builders and Contractors, Inc.; American Institute of Architects; American Council of Engineering Companies of Hawaii; International Code Council; General Contractors Association of Hawaii; and The Pacific Resource Partnership. Your Committee received testimony in opposition to this measure from the Department of Defense; Structural Engineers Association of Hawaii; Local Union No. 126, International Union of Elevator Constructors; and the Ironworkers Stabilization Fund. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Department of Labor and Industrial Relations.

Your Committee finds that Act 82, Session Laws of Hawaii 2007, established the adoption of a uniform set of statewide building codes to apply consistent standards and the State Building Code Council. However, unlike more than half of the states that have a building code council, Hawaii's building code council does not have any representatives from the construction industry and building trades. This measure reconfigures the membership of the State Building Code Council to increase construction industry and building trade representation.

Your Committee has amended this measure by:

- (1) Adding to the State Building Code Council one representative each from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; Hawaii Building and Construction Trades Council; and American Council of Engineering Companies;
- (2) Making an appropriation to support the work of the State Building Code Council; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 213, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

#### **SCRep. 428 Economic Development, Government Operations and Housing on S.B. No. 718**

The purpose and intent of this measure is to establish an infrastructure program within the Hawaii Housing Finance and Development Corporation to make grants and provide assistance to municipalities for infrastructure projects on public land.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Make an appropriation to the Hawaii Strategic Development Corporation to implement a HI Growth Initiative to establish an innovation ecosystem that supports high-growth businesses and creates jobs; and
- (2) Authorize the Department of Business, Economic Development, and Tourism to develop, enter into, and implement inter-agency working agreements with its attached state entities without entering into a memorandum of understanding or memorandum of agreement.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; Hawaii Strategic Development Corporation; University of Hawaii; High Technology Development Corporation; Nalukai Foundation; Hawaii Food Industry Association; Hawaii Venture Capital Association; The Chamber of Commerce of Hawaii; the AKAMA Foundation; AKAMA Capital, LLC; Hawaii Innovation Alliance; StartupHui, LLC; People Bridge, Inc.; Phakeakai, LLC; TruTag Technologies, Inc.; Hawaii's Angels; Blue Startups; Sakai Ventures; Enterprise Honolulu, Oahu Economic Development Board; Creative Market Labs, Inc.; Hyperspective Studios, Inc; Academy for Creative Media; Kinetiq Labs; Startup Hawaii; Hawaii Fashion Incubator; HiBEAM; and fourteen individuals.

Your Committee finds that if Hawaii is to remain competitive in the global economy, it is necessary to reinvigorate state efforts to fuel an innovation economy. This measure will accomplish that goal by enabling the Hawaii Strategic Development Corporation to implement the HI Growth Initiative, an investment program that will enable entrepreneurs to build businesses and create jobs in Hawaii.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the proposed S.D. 1 by:

- (1) Deleting part II of the proposed S.D. 1, which would have permitted the Department of Business, Economic Development, and Tourism to enter into working agreements with its attached state entities without entering into a memorandum of understanding or memorandum of agreement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 718, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 718, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Chun Oakland, English).

**SCRep. 429 Economic Development, Government Operations and Housing on S.B. No. 1002**

The purpose and intent of this measure is to make housekeeping amendments to delete references to the Kapolei Recreational Sports Complex from the Stadium Authority's statutory purview.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and Stadium Authority.

Your Committee finds that under existing law, the Stadium Authority is responsible for the maintenance, operation, management, and promotion of the Kapolei Recreational Sports Complex. However, in October 2006, the property on which the Kapolei Recreational Sports Complex was originally planned to be built was transferred to the Department of Hawaiian Home Lands. Subsequently, the Department negotiated a lease with a development firm to construct a mixed use regional shopping center that is scheduled to break ground in 2013. This measure deletes statutory requirements for the Stadium Authority to submit an annual special fund report and its responsibilities relating to the Kapolei Recreational Sports Complex, as these requirements are obsolete.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1002, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chun Oakland, English).

**SCRep. 430 (Joint) Tourism and Hawaiian Affairs and Technology and the Arts on S.B. No. 235**

The purpose and intent of this measure is to:

- (1) Add a member to the King Kamehameha Celebration Commission to represent the Daughters of Hawaii;
- (2) Change the representation of the appointed, non-organization representatives on the King Kamehameha Celebration Commission from residents of the islands of Kauai, Maui, Molokai, and Hawaii to residents of the counties of Kauai, Maui, and Hawaii;
- (3) Repeal the King Kamehameha Celebration Commission's authority to appoint an arts program specialist and instead authorize the Commission to appoint an executive director; and
- (4) Require the executive director's and clerk typist's salaries to be provided, in part, by the State.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, King Kamehameha Celebration Commission, Royal Order of Kamehameha, Association of Hawaiian Civic Clubs, Hawaiian Affairs Caucus of the Democratic Party, Kalaimoku Group, Malama Lio Hawaii 'Ahahui Po'o, Hale O Na Ali'i O Hawai'i 'Ahahui Po'o, Makaha Hawaiian Civic Club, and five individuals.

The King Kamehameha Celebration honors the legacy of King Kamehameha and the culture of the Native Hawaiians. Your Committee finds that the King Kamehameha Celebration is a signature event that is attended by thousands of residents and visitors across the islands. The changes proposed by this measure will enhance the management, effectiveness, and stability of the King Kamehameha Celebration Commission and will assist the members in fulfilling their fiduciary duties.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 235 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and Hawaiian Affairs

Ayes, 7. Noes, none. Excused, 1 (Slom).

Technology and the Arts

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 431 Tourism and Hawaiian Affairs on S.B. No. 403**

The purpose and intent of this measure is to:

- (1) Authorize the Office of Hawaiian Affairs to issue revenue bonds to fund loan programs;
- (2) Broaden the definition of construction to encompass the acquisition, purchase, reconstruction, improvement, betterment, or extension of a project; and
- (3) Authorize the Office of Hawaiian Affairs to issue refund bonds without further authorization by the Legislature.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Oahu Council Association of Hawaiian Civic Clubs, and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure will provide the Office of Hawaiian Affairs with the flexibility to issue bonds, refund bonds, and provide loans in the same way that other state agencies are able to do so pursuant to chapter 39, Hawaii Revised Statutes.

This measure will provide the Office of Hawaiian Affairs with additional funding opportunities to pursue new types of projects, such as the development of its Kakaako properties.

Your Committee has amended this measure by:

- (1) Exempting the property and revenue from any loan program operated by the Office of Hawaiian Affairs from state, county, and municipal taxes and assessments;
- (2) Providing for the federal tax-exempt status of interest on revenue bonds issued by the Office of Hawaiian Affairs;
- (3) Replacing the word “nongovernmental” with the word “private” in the definitions of “loan program” and “office project” or “project” under section 10-21, Hawaii Revised Statutes, to clarify that nongovernmental individuals or organizations means private individuals or organizations; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 403, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 403, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kidani, Solomon). Noes, none. Excused, 3 (Hee, Kahele, Slom).

**SCRep. 432 (Joint) Tourism and Hawaiian Affairs and Judiciary and Labor on S.B. No. 406**

The purpose and intent of this measure is to require certain state councils, boards, and commissions administering resources and programs that directly impact native Hawaiian rights and resources to complete a training course in native Hawaiian and Hawaiian rights.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; Department of Hawaiian Home Lands; West Hawaii Hawaiian Homes Commission; Association of Hawaiian Civic Clubs; Koolau Foundation; Community Alliance of Prisons; and one individual. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that it is imperative that members of councils, boards, and commissions that administer programs and resources that affect native Hawaiians and Hawaiians are cognizant of the members’ fiduciary duties with respect to protecting and preserving native Hawaiian and Hawaiian resources and rights. Your Committees conclude, however, that members of councils, boards, and commissions that administer those programs, rather than the Office of Hawaiian Affairs, are primarily responsible for being adequately trained and knowledgeable in the protection and preservation of native Hawaiian and Hawaiian resources and rights.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the members of councils, boards, and commissions that administer programs and resources that affect native Hawaiians and Hawaiian resources and rights to contract with the Office of Hawaiian Affairs, or a third party approved by the Office of Hawaiian Affairs, to administer the training program;
- (2) Authorizing the Office of Hawaiian Affairs, or the approved third party, to provide notification that the training course is mandatory and to charge fees to training course attendees to reimburse the Office of Hawaiian Affairs for costs expended to develop and administer the course;
- (3) Deleting the requirement that the training course be conducted at least twice per calendar year;
- (4) Requiring new members of councils, boards, and commissions to complete a training course within one year, as opposed to six months of their official appointment date;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 406, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 406, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and Hawaiian Affairs

Ayes, 6. Noes, none. Excused, 2 (Kahele, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 433 (Joint) Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 1349**

The purpose and intent of this measure is to re-establish the income tax credit for qualified research activities conducted in the State that was codified as section 235-110.91, Hawaii Revised Statutes, and that sunset on December 31, 2010. The measure also includes a reporting mechanism to measure the effectiveness of the tax credit.

Your Committees received testimony in support of this measure from Pukoa Scientific; Oceanit Laboratories, Inc.; Navatek, Ltd.; Makai Ocean Engineering, Inc.; and one individual. Your Committees received comments on this measure from the Department of Taxation; Hawaii Strategic Development Corporation; High Technology Development Corporation; and the Tax Foundation of Hawaii.

Your Committees received testimony that the qualified research activities tax credit is important to the success of local research and high technology companies as it allowed these companies to remain competitive with mainland companies. The tax credit also fostered job growth and encouraged the purchase of goods and services in Hawaii. Re-enacting the tax credit will allow local companies to remain competitive and create more high technology jobs in Hawaii.

Your Committees have amended this measure by:

- (1) Clarifying that Internal Revenue Code sections 41 and 208C are operative for purposes of the re-enacted tax credit section;
- (2) Deleting the definition of “basic research”;
- (3) Amending the definition of a “qualified high technology business”;
- (4) Amending the definition of “qualified research”;
- (5) Adding a definition for “qualified research expenses”;
- (6) Adding additional information that shall be included in the annual survey;
- (7) Requiring the Department of Business, Economic Development, and Tourism, instead of the Director of Taxation, to conduct a survey of electronic forms and study users of the tax credit and report the results to the Legislature; and
- (8) Re-establishing the qualified research activities tax credit through December 31, 2017, rather than December 31, 2015.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1349, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1349, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 434 (Majority) Economic Development, Government Operations and Housing on S.B. No. 215**

The purpose and intent of this measure is to encourage businesses to expand or locate their operations in Hawaii by establishing a growing economy tax credit.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to establish the Public-Private Partnership Authority within the Department of Business, Economic Development, and Tourism. The Public-Private Partnership Authority is intended to administer, coordinate, and provide leadership for the financing, improvement, or enhancement of appropriate state-owned facilities, operations, and property. The proposed S.D. 1 also establishes two pilot projects and makes an unspecified appropriation for the Public-Private Partnership Authority.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; Department of Education; Office of the Mayor - County of Maui; Indigenous Consultants, LLC; Innovations Development Group Hawaii; The Pacific Resource Partnership; Hawaii Building & Construction Trades Council, AFL-CIO; Windward Ahupua'a Alliance and two individuals. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance and one individual. Your Committee received comments on this measure from the City and County of Honolulu, Department of Planning and Permitting; Sierra Club; and The Chamber of Commerce of Hawaii.

Your Committee finds that careful coordination and cooperation between state agencies and private sector entities is required to create successful public-private partnerships. The Public-Private Partnership Authority is a vehicle to ensure such coordination and cooperation. The Public-Private Partnership Authority is not intended to develop properties but to facilitate coordination between state agencies and private entities in an efficient manner that still ensures that the State's resources are properly maintained.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the proposed S.D. 1 by:

- (1) Clarifying that the Public-Private Partnership Authority is intended to facilitate cooperation among state agencies and the public sector, not develop properties;
- (2) Removing an exclusion for state parks under the definition of a project, and including not-for-profit organizations under the definition of a qualified person;
- (3) Revising the structure and composition of the Public-Private Partnership Authority's Board of Directors by providing that one member shall be the Ahu Moku Advisory Committee member from the moku of any Public-Private Partnership Authority project in order to ensure that the Board has a member with experience and knowledge of native Hawaiian resource management practices;

- (4) Removing the Public-Private Partnership Authority's authority to grant options to purchase any project or renew any lease entered into in connection with any project;
- (5) Allowing the counties to waive zoning ordinances by ordinance or memorandum of agreement for a project prior to project construction;
- (6) Addressing any concerns about the Public-Private Partnership Authority's ability to transfer or develop public land by clarifying and more explicitly stating that the Public-Private Partnership Authority shall comply with all state laws;
- (7) Removing provisions relating to the establishment of a school facilities special fund;
- (8) Changing the location of the film production facility pilot project to be initiated from Kapolei to the most populous island of a county with a population between 100,000 and 150,000;
- (9) Allowing the establishment of pilot projects, in addition to the film production facility and main-street project, for educational purposes or to stimulate economic development and job creation;
- (10) Removing language specifying that certain state agencies and a branch of government would participate in the pilot projects; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 215, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 215, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Thielen, Slom). Excused, 2 (Chun Oakland, English).

**SCRep. 435 (Joint/Majority) Economic Development, Government Operations and Housing and Water and Land on S.B. No. 751**

The purpose and intent of this measure is to establish an Urban Growth Commission within the Land Use Commission to set standards necessary to mitigate the adverse impact of development on communities within urban growth boundaries.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committees received testimony in opposition to this measure from the City and County of Honolulu, Department of Planning and Permitting.

Your Committees find that there is a need to establish, at the state level, uniform standards for the proper management of urban growth. This measure will ensure that any adverse impacts of development within urban areas are limited to the greatest extent possible.

Your Committees have amended this measure by changing the agency that the Urban Growth Commission is placed in for administrative purposes to the Office of Planning.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 751, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 751, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 436 (Joint) Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 750**

The purpose and intent of this measure is to stimulate further growth in the media industry in Hawaii by creating a tax credit for the development of qualified media infrastructure projects.

Your Committees received testimony in support of this measure from the Mayor of the County of Maui; NBC Universal Media, LLC; SHM Partners/Film Studio Group; and Island Film Group. Your Committees received testimony in opposition to this measure from the Tax Foundation of Hawaii and two individuals. Your Committees received comments on this measure from the Department of Taxation.

Your Committees received testimony that despite ongoing efforts to develop a post production facility in Hawaii, no such facility exists. Consequently, most, if not all, post production work by studios filming in Hawaii is sent to the mainland. Your Committees received testimony that if post production facilities existed in Hawaii, post production work would remain in Hawaii, and the facilities would make Hawaii a more attractive location for studios to film.

Your Committees are concerned, however, that the State has already made significant efforts and expended considerable resources to attract and support film studios. Your Committees are also concerned that a studio may begin a digital media infrastructure project,

obtain tax credits for the project, but fail to complete the project. Your Committees believe that the measure requires a means to recoup some of the tax credit to discourage this practice.

Your Committees have amended this measure by:

- (1) Deleting the purpose section;
- (2) Deleting all references to film production tax credits;
- (3) Changing the location requirement for qualified media infrastructure projects from projects in any county of the State to projects in West Oahu or on the most populous island in a county with a population between 100,000 and 175,000;
- (4) Inserting language providing for the recapture of digital media infrastructure tax credits taken by a taxpayer in the event that the taxpayer begins but fails to complete a digital media infrastructure; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 750, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 750, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 437 (Joint/Majority) Economic Development, Government Operations and Housing and Energy and Environment and Commerce and Consumer Protection on S.B. No. 1087**

The purpose and intent of this measure is to establish a regulatory financing structure that authorizes the Public Utilities Commission and the Department of Business, Economic Development, and Tourism to provide low-cost loans for green infrastructure equipment to achieve measureable cost savings and achieve Hawaii's clean energy goals.

Your Committees received testimony in support of this measure from the Governor; Department of Budget and Finance; Department of Commerce and Consumer Affairs Division of Consumer Advocacy; Public Utilities Commission; Department of Business, Economic Development, and Tourism (DBEDT); Hawaii Regional Council of Carpenters; The Pacific Resource Partnership; Environmental Defense Fund; Blue Planet Foundation; Ulupono Initiative; Hawaii Electric Company; and Sierra Club Hawai'i Chapter. Your Committees received testimony in opposition to this measure from the State Procurement Office.

Your Committees find that significant investment must be made to achieve the State's goals of energy self-sufficiency, greater energy security and diversification, and to support the achievement of the Renewable Standards and Energy Portfolio Standards.

Your Committees further find that up-front costs of green infrastructure equipment are a barrier preventing many electric utility customers from investing in these infrastructures. This measure will establish a means of acquiring and providing alternative low-cost financing to enable the installation of green infrastructure equipment.

Your Committees have amended this measure by:

- (1) Amending various definitions to add clarity and to further articulate implementation of this measure;
- (2) Adding language to further define the functions, powers, and duties of the Hawaii Green Infrastructure Authority;
- (3) Adding language to clarify the types of funds that may be deposited into the Hawaii green infrastructure special fund and for what purposes the funds in the special fund may be used;
- (4) Adding language specifying that if monies in the Hawaii green infrastructure special fund are transferred back to an electric utility in order to credit a customer, the monies are not to be considered the revenue of the electric utility and shall not be taxable;
- (5) Adding language setting out the processes and procedures for the Hawaii green infrastructure loan program;
- (6) Adding language to require the Hawaii Green Infrastructure Authority to report to the Legislature annually;
- (7) Adding language to clarify that the green infrastructure fee shall become effective upon the issuance of the green infrastructure bonds;
- (8) Adding language to clarify the findings required for issuance of green infrastructure financing orders and information required to be included in the orders;
- (9) Adding language requiring, rather than allowing, the Public Utilities Commission to give DBEDT flexibility in establishing the terms and conditions for green infrastructure bonds;
- (10) Adding language requiring the creation of a lien on green infrastructure property with the issuance of a green infrastructure bond;
- (11) Adding language requiring the Public Utilities Commission to ensure all reasonable costs incurred by electric utilities to implement green infrastructure fees are recoverable as part of the electric utilities' revenue requirement;

- (12) Adding language clarifying when the Public Utilities Commission may reduce, impair, postpone, rescind, alter, or terminate the green infrastructure fee;
- (13) Removing language relating to the creation, perfection, and enforcement of any security interest to secure payment on green infrastructure bonds, amounts payable under any ancillary agreement, and other financing costs;
- (14) Clarifying that the green infrastructure fee and charge are exempt from county taxes and surcharges as well as various state taxes and surcharges;
- (15) Removing language relating to the validity, enforceability, attachment, perfection, priority, and exercise of remedies with respect to the transfer of green infrastructure property under a financing order, or creation of a security interest in any such property, green infrastructure fee, green infrastructure charge, or financial order;
- (16) Adding language creating the Hawaii green infrastructure bond fund into which all proceeds of green infrastructure fees and green infrastructure property will be paid, as well as specifying other fund requirements;
- (17) Clarifying that for purposes of section 39-51, Hawaii Revised Statutes, undertaking includes the financing of the Hawaii green infrastructure loan program through the issuance of green infrastructure revenue bonds;
- (18) Removing language relating to the lien and security interest in the green infrastructure fee, green infrastructure property, and green infrastructure charge and green infrastructure security interest;
- (19) Adding language requiring the Public Utilities Commission to submit an annual report to the Governor on its activities during the preceding fiscal year;
- (20) Adding language to clarify that the public benefits fee shall be used to support clean energy technology, demand response technology, and energy use reduction;
- (21) Adding language to authorize the Public Utilities Commission to create a utility-wide nonbypassable surcharge, which shall be deposited in the green infrastructure bond fund;
- (22) Adding language relating to the green infrastructure fee being included with the public benefits fee as one line item on the electric utility bill when the bill contains a public benefits fee if so provided in the financing order;
- (23) Adding language to clarify that the Public Utilities Commission shall investigate an on-bill financing program that would allow an electric utility company customer to purchase or acquire a clean energy technology, demand response technology, and energy use reduction and demand side management device;
- (24) Adding language relating to the Public Utilities Commission implementing an on-bill financing program by decision and order or by rules;
- (25) Appropriating \$100,000,000 for the issuance of Hawaii green infrastructure loans;
- (26) Appropriating \$10,000,000 for the issuance of Hawaii green infrastructure bonds; and
- (27) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1087, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1087, S.D. 1, and be referred to the Committee on Ways and Means.

**SCRep. 438 (Joint/Majority) Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 463**

The purpose and intent of this measure is to strengthen the film industry in Hawaii by:

- (1) Extending the motion picture, digital media, and film production income tax credit for an additional seven years from 2016 to 2023;
- (2) Increasing the amount of the tax credit from fifteen percent to twenty percent in a county with a population over 700,000, and from twenty percent to twenty-five percent for counties with a population of 700,000 or less; and
- (3) Removing the cap on total tax credits that may be claimed for a qualified production.

Your Committees received testimony in support of this measure from NBC Universal Media, LLC; Island Film Group; and one individual. Your Committees received testimony in opposition to this measure from the Mayor of the County of Maui.

Your Committees received testimony that the amount of film production income tax credits available to a studio is a significant factor in its decision about where to shoot a film. Your Committees received testimony that other states, even some with longstanding relationships with film studios, are increasing the amount of tax credits they make available to studios to entice them to locate or remain in those states. Your Committees received testimony that if the State fails to raise the level of tax credits it makes available to studios, the State may struggle to continue attracting studios.

Your Committees also received testimony that despite ongoing efforts to develop a post production facility in Hawaii, no such facility exists. Consequently, most, if not all, post production work by studios filming in Hawaii is sent to the mainland. Your Committees received testimony that if post production facilities existed in Hawaii, post production work would remain in Hawaii, and the facilities would make Hawaii a more attractive location for studios to film.

Your Committees are concerned, however, that the State has already made significant efforts and expended considerable resources to attract and support film studios. Your Committees are also concerned that a studio may begin a media infrastructure project, obtain tax credits for the project, but then fail to complete the project. Your Committees believe that this measure requires a means to recoup some of the tax credit to discourage this practice.

Your Committees have amended this measure by:

- (1) Revising and expanding its purpose section;
- (2) Inserting language to establish a media infrastructure project tax credit;
- (3) Creating a reporting requirement for taxpayers claiming a media infrastructure tax credit;
- (4) Creating a Hawaii Film Office special fund, with funds from application fees to be deposited into the fund and funds expended to manage infrastructure development credits and the program;
- (5) Allowing the State to recapture media infrastructure tax credits where a studio begins but fails to complete a media infrastructure project;
- (6) Changing the effective date to upon approval and applying to taxable years beginning after December 31, 2012; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 463, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 463, S.D. 1, and be referred to the Committee on Ways and Means.

Ayes, 3. Noes, 1 (Sлом). Excused, 1 (Tokuda).

**SCRep. 439 (Joint) Energy and Environment and Judiciary and Labor on S.B. No. 1135**

The purpose and intent of this measure is to revise and expand the State's electronic waste and television recycling program to include a majority of electrically powered appliances and devices, excluding large appliances.

Your Committees received testimony in support of this measure from the Department of Health, County of Hawaii Department of Environmental Management, Recycle Hawaii, and two individuals. Your Committees received testimony in opposition to this measure from Toy Industry Association, Inc.; Consumer Electronics Association; Association of Home Appliance Manufacturers; Custom Electronic Design and Installation Association; Air Conditioning, Heating, and Refrigeration Institute; Hawaiian Hope; and Whirlpool Corporation. Your Committees received comments on this measure from Makita US, Inc.; Black and Decker, Inc.; Robert Bosch Tool Corporation; Techtronic Industries Company; and one individual.

Your Committees find that the State has not come close to meeting its recycling and reuse goals, and many parts of the current electronic waste and television recycling program are not working as planned. In 2012, a taskforce including manufacturers, retailers, recyclers, trade groups, and government agencies was convened to study the program and propose legislation that would correct the deficiencies of the current program and make Hawaii a leader in recycling and environmental protection. This measure is the result of that effort.

After the initial hearing on this measure, major stakeholders met to discuss ways to improve this measure to assist the State in meeting its recycling and reuse goals and make Hawaii a national leader in environmental protection. Accordingly, your Committees have amended this measure by deleting its contents and inserting language that:

- (1) Creates a new registration and reporting system, which includes a mandated recycling plan for electronic device manufacturers and representative organizations;
- (2) Sets mandatory collection and recycling goals for manufacturers of electronic devices and representative organizations, requiring the reuse or recycling of an increasing percentage of products sold in previous years;
- (3) Requires records of sales of electronic devices and amounts of recycled and reused items;
- (4) Creates reporting, record keeping, and registration requirements for collectors of recycled and reused electronic devices;
- (5) Grants the Director of Health specific authority to enforce the program; and

- (6) Creates a collaborative programmatic framework for the State to work with the counties in implementing the program.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1135, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1135, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 440 Energy and Environment on S.B. No. 64**

The purpose and intent of this measure is to require the Public Utilities Commission to publish contracts, including price information, for the purchase of renewable energy by energy utilities on a publicly-accessible portion of the Commission's website, with certain exceptions.

Your Committee received testimony in support of this measure from Life of the Land and nine individuals. Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Public Utilities Commission; and Hawaiian Electric Company, Inc.

Your Committee finds that all Public Utilities Commission records, including power purchase contracts and related information, are already publicly accessible through its Document Management System, which is accessible via the Commission's website. The Hawaiian Electric Companies also provide price information for wind and solar photovoltaic power purchase agreements on the Document Management System.

Your Committee further finds that although an important goal of the Commission is to make the regulatory process more transparent and available to all interested parties, the Commission's Document Management System can be difficult to navigate for someone unfamiliar with the Commission's proceedings.

Your Committee additionally finds that an appropriate alternative that encourages transparency while minimizing the impact on the Commission's resources is to require the Commission's annual report to include summary information on all power purchase agreements in effect during the fiscal period of the annual report. Your Committee notes that the Commission's annual report is available on the Commission's website and is a repository for a wide range of analytical and comparative data presented in a user-friendly format.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Public Utilities Commission to include in its annual report summary information on all power purchase agreements in effect during the fiscal period of the annual report as an interim measure;
- (2) Delaying implementation of the requirement that the Public Utilities Commission publish all contracts for the purchase of nonfossil fuel generated energy by a public utility on a publicly-accessible portion of the commission's website until July 1, 2016, to give the commission time to make its Document Management System more user-friendly for the general public; and
- (3) Amending the purpose section for consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 64, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 64, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 441 Commerce and Consumer Protection on S.B. No. 510**

The purpose and intent of this measure is to:

- (1) Repeal chapter 373K, Hawaii Revised Statutes; and
- (2) Clarify professional employer organization responsibilities with respect to meeting the statutory requirements of the repealed chapter 373K, Hawaii Revised Statutes, and the nexus between the registration of professional employer organizations and qualification for the state general excise tax exemption.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and ALTRES, Inc. Your Committee received testimony in opposition to this measure from Professional Administrative Co-Employers. Your Committee received comments on this measure from the Department of Taxation; Employer Services Assurance Corporation; ProService Hawaii; Hawaii Association of Professional Employer Organizations; Talent HR Solutions LLC; Hawaii Human Resources, Inc.; Dunhill Professional Staffing of Hawaii; OneSource, Inc.; and Tax Foundation of Hawaii.

Your Committee finds that chapter 373K, Hawaii Revised Statutes, was codified in 2007 to allow professional employer organizations to become eligible for the general excise tax exemption under section 237-24.75, Hawaii Revised Statutes. Chapter 373L, Hawaii Revised Statutes, was codified in 2010 to regulate the professional employer organization business by enforcing regulation and bonding requirements. Your Committee further finds that effective implementation of both chapters has been hampered

by incompatible and ambiguous language. This measure is intended to enhance implementation of the professional employer organization laws by clarifying inconsistencies between two separate but interrelated chapters of the Hawaii Revised Statutes and limit regulatory controls to those critical to maintaining the integrity of the professional employer organization industry.

Your Committee additionally finds that professional employer organizations should be effectively regulated to protect clients, employees, taxing authorities, insurers, and the professional employer organization industry. Ensuring financial responsibility and solvency is just as important in the professional employer industry as it is in banking, insurance, and other industries that aggregate client cash flow and assume fiduciary responsibility.

Your Committee is therefore encouraged by the discussions that have occurred on this measure and is pleased to note that all interested stakeholders are committed to working together to ensure consumer protection and healthy industry competition. Although your Committee heard a similar measure, S.B. No. 813, Relating to Professional Employer Organizations, a consensus was reached amongst the interested stakeholders that the current measure was the more appropriate vehicle.

Your Committee has heard the concerns about the current bond requirement under chapter 373L, Hawaii Revised Statutes. Although your Committee concludes that a scalable bonding requirement is more appropriate for this measure, your Committee disagrees with the assumption that a bond fee is a barrier to entry into the marketplace. Your Committee notes that a nationally-licensed surety only brokerage company, Alpha Surety and Insurance Brokerage, which is licensed to do business in Hawaii, has indicated to your Committee that it provides surety bonds for professional employer organizations at a cost of one to two percent of the face value of the bond. Your Committee notes that a bond of \$25,000 could therefore be obtained for as little as \$250. Your Committee has communicated this information to the interested stakeholders during discussions and finds this to be an entirely reasonable amount.

Your Committee has also heard testimony expressing concern that this measure eliminates provisions for auditing financial statements. After much discussion, your Committee concludes that language eliminating audited financial statements should remain in this measure.

Your Committee also finds that this measure will ensure that all professional employer organizations are appropriately registered with the Department of Labor and Industrial Relations and have all applicable certificates of authority from the Department of Commerce and Consumer Affairs. This measure also ensures that the general excise tax exemption offered by the Department of Taxation is only available to the professional employer organizations that have complied with all necessary requirements under chapter 373L, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Clarifying that notification to the Department of Labor and Industrial Relations shall be given within twenty-one business days of the initiation of a professional employer agreement and within twenty-one business days of the termination of an agreement;
- (2) Requiring professional employer organizations, as a condition of registering with the Department of Labor and Industrial Relations, to include a copy of the Internal Revenue Service Form W-3, Transmittal of Wage and Tax Statements, filed with the federal government, to be used to calculate total payroll for purposes of obtaining a bond;
- (3) Specifying that a copy of the Internal Revenue Service Form W-3 shall be submitted to the Department of Labor and Industrial Relations on an annual basis no later than June 30 of each year and requiring the professional employer organization to obtain a new bond under specific circumstances;
- (4) Requiring professional employer organizations to post a surety bond that is based on the previous year's certified total payroll of the professional employer organization, based on the amount reported on the Internal Revenue Service Form W-3, and determined by a sliding bond scale; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the language in this amended measure is the result of an agreement between interested parties, including the Department of Labor and Industrial Relations and the small and large professional employer organizations currently doing business in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 510, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 510, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 442 (Joint/Majority) Water and Land and Energy and Environment on S.B. No. 1166**

The purpose and intent of this measure is to increase the conveyance tax on certain real estate transactions and to direct an additional ten percent of conveyance tax proceeds to the natural area reserve fund for watershed protection and invasive species control.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Taxation, The Trust for Public Land, Hawaii Appleseed Law and Economic Justice, Coordinating Group on Alien Pests Species, Catholic Charities Hawaii, Conservation Council for Hawaii, The Nature Conservancy, Hawaii Green Growth Initiative, and nine individuals. Your Committees received testimony in opposition to this measure from The Chamber of Commerce of Hawaii, Hawaii Association of REALTORS, NAIOP Commercial and Real Estate Development Association, Building Industry Association-Hawaii, Animal Rights Hawaii, and two individuals.

Your Committees find that the development, sale, and improvement of real estate in Hawaii puts additional pressure on watersheds, Hawaii's water resources, and watershed recharge areas. Over the years, enormous amounts have been invested in the development and sale of real estate in Hawaii, and continued investment in real estate sales and development is helping to lift the economy out of recession. Yet, a comparatively minor investment in protecting the natural resources could also drive the economy and provide economic benefits. While watershed protection is one of many authorized beneficiaries of the natural area reserve fund, additional funding is needed as Hawaii's watershed health declines.

Your Committees further find that over half of Hawaii's watersheds have been lost and immediate action is needed to secure Hawaii's water supply. Hotter, drier conditions and damaged watershed forests are escalating the costs and conflicts over water. Protecting forest watersheds is a very cost effective and efficient way to absorb rainwater and replenish ground water. Your Committees believe that it makes sense to spend a portion of conveyance tax revenue on protecting these natural resources.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1166 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

**SCRep. 443 Human Services on S.B. No. 148**

The purpose and intent of this measure is to appropriate monies to establish and operate a comprehensive service center for the deaf, hard of hearing, and deaf-blind.

Your Committee received testimony in support of this measure from the Department of Human Services, Deaf and Hard of Hearing Advisory Board, Aloha State Association of the Deaf, and twenty-one individuals.

Your Committee finds that a center providing comprehensive services for deaf, hard of hearing, and deaf-blind individuals in Hawaii has been the dream of the deaf community in Hawaii since 1972. The creation of a comprehensive service center is intended to promote individual growth, social awareness, productivity, and equality by empowering deaf, hard of hearing, and deaf-blind persons to be full participants in Hawaii's overall community. The target population for the comprehensive service center is about ten percent of the 260,000 people who are deaf, hard of hearing, and deaf-blind, according to the 2012 Disability Statistics Compendium in the State of Hawaii.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 148, S.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 444 Human Services on S.B. No. 1118**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority Board of Directors to set the salaries of the Executive Director, Executive Assistant, and other key management personnel subject to federal limitations.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Hawaii Public Housing Authority Board of Directors.

Your Committee finds that the Hawaii Public Housing Authority is eighty-six percent federally funded and that over ninety-five percent of the salaries at the Authority are federally funded or funded through rental receipts. Because of this, the United States Department of Housing and Urban Development has mandated that public housing agency boards across the nation be responsible in governing their respective public housing agencies. Existing state law authorizes the Authority to employ personnel, including an Executive Director and an Executive Assistant and dictates the cap on compensation provided for each position. This is not consistent with the Department of Housing and Urban Development's guidelines, which require the Board to, among other things, establish the salary of the Executive Director in accordance with a mandatory comparable salary study.

Your Committee further finds that the Hawaii Public Housing Authority is one of the largest public housing agencies in the nation, which requires that the Authority employ experienced and talented individuals to manage over 6,000 units in the State's low-income public housing communities. Having a salary limited to eighty-five percent of that of the Director of Human Resources Development severely inhibits the ability of the Board to recruit and retain qualified personnel with the necessary skills and experience to run a public housing agency of this size.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1118 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 445 (Joint) Human Services and Judiciary and Labor on S.B. No. 1112**

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to:

- (1) Delete delinquent accounts receivable records for state low-income public housing projects that have been delinquent at least ninety days; and
- (2) Assign delinquent accounts to a collection agency.

Your Committees received testimony in support of this measure from the Department of Human Services and Hawaii Public Housing Authority.

Your Committees find that existing law allows the Hawaii Public Housing Authority to delete from its accounts receivable the records of delinquent accounts for vacated units within the federal low-income public housing program that have been delinquent for over ninety days and allow those delinquent accounts to be assigned to a collection agency.

Your Committees further find that unless this measure is enacted, due to the fact that there are no similar statutory provisions for the administration of the state low-income public housing program, any account receivable must be delinquent for more than two years and meet the requirements of section 40-82, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1112 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Judiciary and Labor

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 446 (Joint) Human Services and Health on S.B. No. 322**

The purpose and intent of this measure is to appropriate funds as a grant to Best Buddies Hawaii to support its Hawaii chapters and to provide services to youth with intellectual and developmental disabilities.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Best Buddies International, Best Buddies Hawaii, and fifteen individuals. Your Committees received comments on this measure from one individual.

Your Committees find that Best Buddies International is a non-profit organization that was founded in 1989 whose mission is to establish a global volunteer movement that creates opportunities for one-to-one friendships, integrated employment, and leadership development for people with intellectual and developmental disabilities. Best Buddies Hawaii is a non-profit organization and the designated state affiliate of Best Buddies International. Best Buddies Hawaii is dedicated to fostering the social integration of individuals with intellectual and developmental disabilities. Best Buddies Hawaii serves 556 participants with and without intellectual and developmental disabilities in thirteen schools in Hawaii by involving parents, siblings, and friends, thereby positively impacting the lives of over 5,560 people in the State.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 322 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 447 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 943**

The purpose and intent of this measure is to broaden the offense of criminal trespass in the first degree to include a person who enters or remains unlawfully in or upon the premises of a public housing project after a reasonable request or warning to leave by housing authorities or a police officer, excluding an invited guest, unless the invited guest is violating a law or public housing project rule.

Your Committees received testimony in support of this measure from the Department of the Attorney General and Hawaii Public Housing Authority. Your Committees received testimony in opposition to this measure from the American Civil Liberties Union of Hawaii.

Your Committees find that the Hawaii Public Housing Authority continues to make improvements to security measures at many of the high risk housing projects, including the addition of fences, security fences, and photo identification cards for tenants. Enacting this measure will significantly improve the ability of the Authority to ensure a secure, livable community for residents. Meanwhile, the Authority will continue to work with local law enforcement and security personnel to refine policies and procedures to effectively keep residents safe and secure.

Your Committees have amended this measure by:

- (1) Changing references from "police officer" to "law enforcement officer";

- (2) Specifying that an alleged violation of law or administrative rules shall serve as the basis for housing authorities and law enforcement officers to issue reasonable warnings or requests to leave, the violation of which constitutes the offense of criminal trespass in the first degree; and
- (3) Removing language relating to a warning or request to leave not being necessary between 10:00 p.m. and 5:00 a.m. whether a person is not an invited guest and deleting the definition of "invited guest" as a conforming amendment.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 943, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 943, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 448 Commerce and Consumer Protection on S.B. No. 1235**

The purpose and intent of this measure is to require the Department of Commerce and Consumer Affairs to allocate the revenues derived from cable franchise fees to specific entities by specified percentages.

Your Committee received testimony in support of this measure from 'Aha Pūnana Leo, Inc.; Ka Haka 'Ūla Ke 'elikōlani, Hawaiian Language College at the University of Hawai'i at Hilo; Makauila, Inc.; Ke Kula Niihau O Kekaha Learning Center PCS; Kamehameha Schools; World Indigenous Television Broadcasters Network; Māori Television; Aboriginal Peoples Television Network; Norwegian Broadcasting Corporation Sápmi; MG ALBA; and numerous individuals. Your Committee received testimony in opposition to this measure from the Cable Television Division of the Department of Commerce and Consumer Affairs; University of Hawai'i; Honolulu City Council; Maui County Council; Kaua'i Chamber of Commerce; 'Ōlele Community Media; Hawai'i Association of Independent Schools; Hawaii Educational Networking Consortium; Ho'ike: Kauai Community Television; Viet-Nam Today Vision; Community Alliance on Prisons; Valley Isle Marine Center; Life of the Land; and numerous individuals. Your Committee received comments on this measure from the Department of Education, Office of Hawaiian Affairs, and Akakū: Maui Community Television.

Your Committee finds that the cable franchise fee is intended to provide funding for the non-commercial production and broadcast of video by public, education institutions, and government agencies. This measure would allocate the revenues collected from the cable franchise fees to increase the production and distribution of Hawaiian language broadcast media.

Your Committee has heard the concerns that the mandatory distributions in this measure would severally reduce the State's ability to provide for and support the State's institutional network, the State's broadband objectives, and the ability of the Department of Commerce and Consumer Affairs to advocate and protect consumers' interests in state and federal proceedings. The mandatory distributions in this measure would also reduce funding for other public, education, and government access programs across the State.

Your Committee notes that the testimony received in opposition to this measure was not opposed to the increased production and distribution of Hawaiian language content on television. Rather, the concerns raised in opposition were in regard to the financial consequences for other public, education, and government access programs. Your Committee understands these concerns. Your Committee also wishes to emphasize the importance of the Hawaiian language revitalization movement. The continued production and distribution of high-quality multimedia content is necessary and important, but your Committee finds that additional guidance is needed to determine the most appropriate way to provide long-term sustainable funding for a cable channel dedicated to Hawaiian language and perspective. Therefore, amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Director of Commerce and Consumer Affairs to work with various interested stakeholders and assess the best method to ensure dedicated funding for the development of a Hawaiian television channel and consider the potential funding source to be included in the revenues derived from the cable television franchise fees collected pursuant to chapter 440G, Hawaii Revised Statutes;
- (2) Requiring the Director of Commerce and Consumer Affairs to report findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2014;
- (3) Removing language that would have required the Department of Commerce and Consumer Affairs to allocate revenues derived from cable franchise fees to specific entities by specified percentages;
- (4) Inserting a blank appropriation amount to provide funding for a grant pursuant to chapter 42F, Hawaii Revised Statutes, to 'Oiwī TV for the production and distribution of Hawaiian language content on cable television;
- (5) Amending the purpose section for consistency;
- (6) Changing the effective date to July 1, 2013; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the appropriation to 'Oiwī TV is estimated to be between \$250,000 and \$500,000 out of the Cable Television Division of the Department of Commerce and Consumer Affairs.

Your Committee also notes that the Office of Hawaiian Affairs is an interested stakeholder for purposes of this amended measure. Your Committee therefore respectfully requests your Committee on Ways and Means to consider the possibility of the Office of

Hawaiian Affairs providing matching funds to 'Oiwi TV for the production and distribution of Hawaiian language content on cable television.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1235, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 449 Health on S.B. No. 394**

The purpose and intent of this measure is to establish limited immunity for individuals who seek medical assistance for victims of drug-related overdoses.

Your Committee received testimony in support of this measure from the Hawaii Women's Coalition; Drug Policy Forum; CHOW Project; Community Alliance on Prisons; American Civil Liberties Union of Hawaii; Harm Reduction Hawaii; Medicine Buddha and Bodhisattvas; and nine individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Police Department.

Your Committee finds that many people who experience a drug overdose, or who witness a friend experiencing a drug overdose, delay seeking medical assistance out of fear of prosecution. This delay often can result in serious negative medical outcomes or death for the person experiencing the overdose. Your Committee finds that medical amnesty is a life-saving policy that immunizes persons seeking medical assistance from criminal liability in order to ensure that medical attention is immediately sought for anyone experiencing a drug overdose.

Your Committee notes the concern of the City and County of Honolulu Police Department that this measure may potentially provide immunity to drug traffickers and finds that amendments to limit immunity to specific possession-related sections of chapter 712, Hawaii Revised Statutes, are necessary. Your Committee finds that medical amnesty makes medical safety paramount in situations where someone is experiencing an overdose and promotes a policy that is beneficial to people of the State.

Your Committee has amended this measure by:

- (1) Changing the application of the limited immunity from all of part IV of chapter 712, Hawaii Revised Statutes, to only sections 712-1241(a), 712-1242(a) and (b), 712-1243, 712-1244(a) and (b), 712-1245(a) and (b), 712-1246, 712-1246.5, 712-1247(a), (b), (e), and (g), and 712-1248(a) to (c), Hawaii Revised Statutes;
- (2) Amending the condition that evidence of the specific violation was gained as a result of the person's drug-related overdose and the person's need for medical assistance to a condition that evidence of the specific violation was gained solely as a result of the person's seeking medical assistance;
- (3) Specifying that this measure shall not apply to a prosecution where a person who sought medical assistance distributed drugs to the drug-related overdose victim; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 394, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 394, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 450 (Joint/Majority) Health and Judiciary and Labor on S.B. No. 876**

The purpose and intent of this measure is to:

- (1) Authorize an employer and provider of services to notify the Director of Labor and Industrial Relations in the event of a reasonable disagreement relating to specific medical services charges relating to workers' compensation claims;
- (2) Require that the notice of dispute is made in writing and that the parties negotiate during the thirty-one calendar days following the date of the notice of dispute to the Director;
- (3) Authorize the Director of Labor and Industrial Relations to render an administrative decision without a hearing in the event the parties fail to reach an agreement within the thirty-one-day negotiation period; and
- (4) Provide that the administrative decision rendered by the Director of Labor and Industrial Relations is final and nonappealable.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association. Your Committees received testimony in opposition to this measure from Solera Integrated Medical Solutions and Property Casualty Insurers Association of America.

Your Committees find that this measure offers a necessary informal dispute resolution process for disputes between an employer and service provider relating to workers' compensation claims. Your Committees have concerns, however, regarding this measure's service fee and the inability of an employer or service provider to appeal the Director's decision. Accordingly, your Committees have amended this measure by:

- (1) Lowering the service fee assessed to either or both parties who fail to negotiate in good faith from \$500 to \$250;

- (2) Mandating that the administrative decision rendered by the Director of Labor and Industrial Relations shall be appealable to the Appellate Board for ninety days after the administrative decision is issued and thereafter to the Intermediate Appellate Court, subject to chapter 602, Hawaii Revised Statutes; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 876, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 876, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, 1 (Slom). Excused, none.

Judiciary and Labor

Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Slom).

**SCRep. 451 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 650**

The purpose and intent of this measure is to prohibit physicians, nurses, and pharmacists from:

- (1) Prescribing long-acting opioid painkillers in emergency rooms;
- (2) Prescribing more than a three-day supply of any other opioid painkillers in emergency rooms; and
- (3) Refilling prescriptions for opioid painkillers that have been lost, stolen, or destroyed,

with certain exceptions.

Your Committees received testimony in support of this measure from the Department of Public Safety, Kaiser Permanente Hawaii, and Hawaii Medical Service Association. Your Committees received testimony in opposition to this measure from The Queen's Health Systems, Hawaii Medical Association, and American Academy of Pain Management.

Your Committees find that this measure will help deter pharmaceutical controlled substance abuses from visiting hospital emergency rooms in an attempt to fraudulently obtain large amounts of controlled substances. Your Committees also suggests that physicians and nurses should be required to attend continuing medical education training on opioid distribution.

Your Committees have amended this measure by:

- (1) Replacing "pharmacist" with "physician's assistant" in this measure because pharmacists are already not authorized to prescribe opioids;
- (2) Adding MS contin, oxycontin, and fentanyl to the list of long-acting opioid painkillers prohibited from being prescribed in emergency rooms;
- (3) Prohibiting prescriptions for more than a seven-day supply, as opposed to a three-day supply, of opioids other than long-acting opioids in emergency rooms; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 650, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 650, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

Commerce and Consumer Protection

Ayes, 3. Noes, 1 (Slom). Excused, 3 (Nishihara, Solomon, Taniguchi).

**SCRep. 452 (Joint) Health and Education and Commerce and Consumer Protection on S.B. No. 343**

The purpose and intent of this measure is to:

- (1) Require the Director of Health to participate in the national oral health surveillance system, a national database managed by the federal Centers for Disease Control and Prevention and the Association of State and Territorial Dental Directors;
- (2) Permit dental hygienists to apply preventative sealants in a school-based dental sealant program, in consultation with a licensed dentist or a federally qualified health care facility;
- (3) Require the department of health to establish and administer a school-based dental sealant program in a high-need demonstration school;
- (4) Require the Department of Health to report to the Legislature about the Department's efforts to prioritize prevention of tooth decay amongst the State's children; and

- (5) Appropriate funds to establish and administer a school-based dental sealant program in a high-need demonstration school, including plans to implement the program on a statewide level.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Kokua Kalihi Valley Community Health Center, American Dental Hygienists Association, and seven individuals. Your Committees received testimony in opposition to this measure from the Hawaii Dental Association and one individual. Your Committees received comments on this measure from the Department of Health, Board of Dental Examiners, and three individuals.

Your Committees find that the application of preventative sealants to children's teeth is an effective way to prevent tooth decay. In a recent report by the Pew Center on the States, "Falling Short: Most States Lag on Dental Sealants," Hawaii was one of five states to receive an "F" rating and received only one out of a possible eleven points. Your Committees further find that Hawaii is one of eight states with the most restrictions on dental hygienists, the primary practitioners who apply dental sealants in school-based programs.

Your Committees note that there was concern expressed at the hearing that dental hygienists applying dental sealants should have their work overseen by a licensed dentist. To that end, your Committees find that dental hygienists can safely apply dental sealants when their work is done in consultation with a licensed dentist. Because it is imperative that steps be taken to immediately improve the dental health of Hawaii's children, your Committees find it necessary to permit dental hygienists to apply dental sealants at all federally qualified health centers as well.

Your Committees have amended this measure by:

- (1) Requiring dental hygienists to apply preventative sealants in consultation with a licensed dentist;
- (2) Permitting dental hygienists to apply preventative sealants in federally qualified health centers;
- (3) Changing the effective date to January 1, 2054, to encourage further discussion; provided that the measure shall be repealed on January 1, 2057; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Education and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 343, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 343, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

Education

Commerce and Consumer Protection

Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 453      Ways and Means on S.B. No. 707**

The purpose and intent of this measure is to repeal chapter 171C, Hawaii Revised Statutes, relating to the Public Land Development Corporation.

In addition, the measure also:

- (1) Deposits unexpended and unencumbered funds appropriated to the Department of Land and Natural Resources pursuant to Act 55, Session Laws of Hawaii 2011, into the land conservation fund;
- (2) Deposits unexpended and unencumbered proceeds in the stadium facilities special fund and the school facilities special fund into the general fund; and
- (3) Transfers the planner and project-related development specialist hired pursuant to Act 55, Session Laws of Hawaii 2011, to the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from Activities & Attractions Association of Hawaii, Life of the Land, Outdoor Circle, Island Breath, and fourteen individuals. Your Committee received written comments in opposition to this measure from the Hawaii Department of Defense. The Department of Land and Natural Resources, Puna Pono Alliance, and one individual submitted written comments.

Your Committee finds that the community has expressed significant concerns regarding the establishment of the Public Land Development Corporation. Of specific concern has been the exemptions granted to the Corporation, which effectively authorize the Corporation to bypass county plans and subdivision and zoning codes. Although the Corporation's intended purpose of spurring economic development and improving recreational opportunities by utilizing public lands is commendable, your Committee believes that the Corporation has been granted excessive powers without sufficient safeguards. Accordingly, your Committee finds that, at this time, it is in the public's best interest to repeal the legislation that established the Public Land Development Corporation.

Your Committee has amended this measure by:

- (1) Clarifying that the executive director, in addition to the planner and project-development specialist hired pursuant to Act 55, Session Laws of Hawaii 2011, shall be transferred to the Department of Land and Natural Resources;

- (2) Providing for the transfer of assets made, used, acquired, or held by the Public Land Development Corporation to the Department of Land and Natural Resources; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 707, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 707, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 454      Tourism and Hawaiian Affairs on S.B. No. 170**

The purpose and intent of this measure is to amend the law relating to tourism.

Your Committee has amended this measure by deleting its contents and replacing it with language that will expand the powers and duties of the Hawaii Tourism Authority to include perpetuating the uniqueness of the native Hawaiian culture and community and the importance of the native Hawaiian culture and community to the quality of the visitor experience by ensuring that:

- (1) Native Hawaiian culture is accurately portrayed by the visitor industry;
- (2) Cultural practitioners and cultural sites that give value to Hawaii's heritage are supported; and
- (3) A native Hawaiian cultural education and training program is provided for the visitor industry workforce having direct contact with visitors.

As this measure moves forward during the legislative process, your Committee encourages the Hawaii Tourism Authority to submit testimony addressing the feasibility and implementation of a native Hawaiian cultural education and training program for the visitor industry workforce having direct contact with visitors.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 170, as amended herein, and recommends that it be recommitted to the Committee on Tourism and Hawaiian Affairs, in the form attached hereto as S.B. No. 170, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 1 (Hee).

**SCRep. 455      (Joint/Majority) Transportation and International Affairs and Water and Land on S.B. No. 1207**

The purpose and intent of this measure is to exempt all work involving submerged lands used for state commercial harbor purposes from the permit and site plan approval requirements for lands within the conservation district.

Your Committees received testimony in support of this measure from the Department of Transportation and one individual. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Sierra Club, Marine Resource Council, and one individual. Your Committees received comments on this measure from The Chamber of Commerce of Hawaii and the Building Industry Association of Hawaii.

Your Committees find that the exemption provided by this measure allows the Harbors Division of the Department of Transportation to plan and more effectively and efficiently implement projects in a timely manner to meet the growing needs of the maritime industry. The "just in time" cargo system for Hawaii is dependent upon the state commercial harbors system, as ninety-eight percent of imported goods pass through harbors. Significant impacts to facility operations and delivery of goods can occur if necessary capital projects are not completed or harbor facilities are not maintained or rehabilitated in a timely manner due to unnecessary permit delays.

Your Committees also find that sufficient oversight already exists for submerged lands within the state commercial harbors system for the preservation of the ecosystem, flora, and fauna under existing state and federal environmental laws.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1207 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs

Water and Land  
Ayes, 4; Ayes with Reservations (Shimabukuro). Noes, 1 (Thielen). Excused, 2 (Ihara, Slom).

**SCRep. 456      Commerce and Consumer Protection on S.B. No. 633**

The purpose and intent of this measure is to clarify that the value of work performed by an unlicensed contractor shall not offset the value of the property for purposes of determining whether an act constitutes unlicensed contractor fraud and if so, in what degree.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Department of the Prosecuting Attorney, County of Maui.

Your Committee finds that a contract by an unlicensed contractor is illegal. For unlicensed contractor fraud in the first and second degrees, there are minimum thresholds for the total value of the property over which a person obtains control, which must be met in order for the act to constitute those offenses. By permitting an offset of the value of work illegally performed by an unlicensed contractor, the value of the property is less likely to meet the threshold necessary to constitute the offenses. This measure makes it clear that no offset should be applied when calculating the property value for these offenses.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 633 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 457 (Majority) Economic Development, Government Operations and Housing on S.B. No. 123**

The purpose and intent of this measure is to amend the laws relating to economic development.

Your Committee has amended this measure by deleting its contents and inserting language to amend the Hawaiian Homes Commission Act, 1920, as amended, to establish a Native Hawaiian corporation under the Department of Hawaiian Home Lands to manage "available lands" under the Hawaiian Homes Commission Act, "ceded lands" under the Admissions Act, and other lands to which Native Hawaiians and Hawaiians may be entitled, to be referred to collectively as "Native Hawaiian lands".

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 123, as amended herein, and recommends that it be recommitted to the Committee on Economic Development, Government Operations and Housing, in the form attached hereto as S.B. No. 123, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, 1 (Thielen). Excused, none.

**SCRep. 458 (Majority) Tourism and Hawaiian Affairs on S.B. No. 168**

The purpose and intent of this measure is to amend the law relating to Hawaiian affairs.

Your Committee has amended this measure by deleting its contents and replacing it with language that authorizes the Department of Hawaiian Home Lands to enter into public-private partnership agreements with individuals or private entities to create revenue for the Department of Hawaiian Home Lands.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Tourism and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 168, as amended herein, and recommends that it be recommitted to the Committee on Tourism and Hawaiian Affairs, in the form attached hereto as S.B. No. 168, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, 3 (Hee, Kidani, Shimabukuro).

**SCRep. 459 Commerce and Consumer Protection on S.B. No. 120**

The purpose and intent of this measure is to authorize the Public Utilities Commission to establish a policy to implement economic incentives and cost recovery regulatory mechanisms to induce and accelerate electric utilities' cost reduction efforts, encourage greater utilization of renewable energy, accelerate the retirement of utility fossil generation, and increase investments to modernize the State's electrical grids.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawaiian Electric Company, Inc.; and Blue Planet Foundation.

Your Committee finds that this measure gives policy guidance to incentivize Hawaii's electric utility companies to make needed reforms that attain lower electricity rates and achieve Hawaii's clean energy objectives. The various mechanisms in this measure also represent regulatory tools that make the State's transition to an affordable clean energy-focused system mutually beneficial to electric utilities and ratepayers. Your Committee further finds that this measure allows the Public Utilities Commission sufficient flexibility to evaluate, select, and tailor the best set of incentive mechanisms to transform Hawaii's electric industry and achieve an affordable clean energy future.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 120, S.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 460 Commerce and Consumer Protection on S.B. No. 1066**

The purpose and intent of this measure is to clarify, amend, and correct errors in Hawaii's securities law.

Your Committee received testimony in support of this measure from the Business Registration Division of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the American Council of Life Insurers.

Your Committee finds that the Hawaii Uniform Securities Act, codified as chapter 485A, Hawaii Revised Statutes, contains some errors and inconsistencies. This measure corrects and clarifies these errors and inconsistencies and has been reviewed by interested stakeholders in the securities industry, including the Securities Section of the Hawaii Bar Association, the Securities Industry Financial Markets Association, the Financial Planners Association, and the Bankers Association.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 461 (Majority) Commerce and Consumer Protection on S.B. No. 470**

The purpose and intent of this measure is to prohibit retailers from imposing credit card surcharges in certain instances.

Your Committee received testimony in support of this measure from the Hawaii Credit Union League, Hawaii Bankers Association, and five individuals. Your Committee received comments on this measure from the Hawaii Food Industry Association and Retail Merchants of Hawaii.

Your Committee finds that credit cards have become an increasingly convenient method of payment. Assessing a surcharge or checkout fee on a credit card purchase may discourage and prevent some customers from using their credit cards. Your Committee further finds that consumers should not be penalized for using credit cards and should have the option to choose whatever payment device works best for them. Your Committee also finds that ten states currently prohibit credit card surcharges. This measure permits Hawaii to join in with those other states that have instituted a ban on surcharges.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 470, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Taniguchi).

**SCRep. 462 Commerce and Consumer Protection on S.B. No. 1020**

The purpose and intent of this measure is to:

- (1) Extend reporting requirements to commercial co-venturers;
- (2) Allow penalties to be imposed on commercial co-venturers who fail to comply with reporting requirements; and
- (3) Clarify the exemption from registration for organizations who receive less than \$25,000 in annual contributions.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that commercial co-venturers are for-profit businesses who conduct cause-related marketing that benefit charitable organizations. Existing reporting requirements, record keeping, and remedial provisions under chapter 467B, Hawaii Revised Statutes, do not presently apply to commercial co-venturers. This measure imposes these reporting and recordkeeping requirements on commercial co-venturers and therefore ensures that charitable organizations that benefit from these commercial sales promotions have consented to the promotions. This measure also ensures that charitable organizations and the Attorney General have access to information related to a commercial co-venturer marketing event.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "professional solicitor";
- (2) Deleting language that required charitable organizations to use a uniform registration statement developed by the National Association of State Charity Officials;
- (3) Clarifying that audited financial statements submitted by registered charities to the Attorney General are confidential information;
- (4) Clarifying that exemptions from registration for charitable organizations that normally receive less than \$25,000 in annual contributions will be based on the organization's average contributions for the immediately preceding three fiscal years;
- (5) Specifying that a late filing fee of \$20 per day with a cap of \$1,000 will be imposed on professional solicitors and fundraising counsel who fail to timely renew their registrations; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1020, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1020, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 463 Ways and Means on S.B. No. 1033**

The purpose and intent of this measure is to require the premiums received from the sale of general obligation bonds to be used for eligible capital expenditures pursuant to section 39-2, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the current law only allows the premiums received from the sale of general obligation bonds to be deposited into the general fund of the State. This measure would allow these premiums to alternatively be used to finance eligible capital expenditures, pursuant to section 39-2, Hawaii Revised Statutes, including the construction or improvement of various public facilities, elementary and secondary schools, community colleges, university facilities, and other purposes approved by the Legislature. Your Committee finds that this measure provides for more funding options and greater spending flexibility and allows the Department of Budget and Finance to incur less debt while being able to meet funding requirements for necessary capital improvement projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 464 Ways and Means on S.B. No. 1298**

The purpose and intent of this measure is to require that projected operating costs of all capital improvements be included in the six-year program and financial plan.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the projected costs of many capital improvement projects do not include projected operating costs. This lack of critical information detrimentally affects the Legislature's decision making process. This measure would require the inclusion of projected operating costs for all capital improvements in the six-year program and financial plan, permitting improved financial planning and stewardship of state funds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Kahele, Kouchi, Tokuda).

**SCRep. 465 Ways and Means on S.B. No. 1185**

The purpose and intent of this measure is to recast the definition of nonprofit organization to reflect the inapplicability of certain provisions of the general excise tax law, rather than basing the qualification of the organization on provisions of the federal income tax law.

The Department of Taxation submitted testimony in support of this measure. Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that sections 237-9.3 and 237-41.5, Hawaii Revised Statutes, currently define "nonprofit organization" by making specific reference to sections of the Internal Revenue Code. However, these references are not consistent with section 237-23, Hawaii Revised Statutes, which sets forth the entities that are exempt from general excise tax. Your Committee finds that amending the definition of nonprofit organization for consistency with section 237-23, Hawaii Revised Statutes, will provide necessary clarity in application of general excise tax exemptions.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1185, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1185, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 466 Ways and Means on S.B. No. 1191**

The purpose and intent of this measure is to expedite the resolution of tax disputes.

More specifically, this measure allows for the establishment of up to three boards of review per taxation district and allows members of one board to be temporarily assigned to another board within the same taxation district for purposes of establishing and maintaining a quorum.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that although the members of the tax boards of review are dedicated volunteers, many of whom have full-time jobs, there are more than two hundred cases pending before the Oahu board of review. Additional boards of review are needed to address the backlog of cases and reduce the time taxpayers must wait to resolve their tax disputes. This measure resolves those issues by authorizing the creation of up to three boards of review in a taxation district and provides the flexibility to assign review board members to other boards, as needed.

Your Committee has amended this measure by:

- (1) Deleting section 3 as unnecessary; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1191, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1191, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 467 (Majority) Ways and Means on S.B. No. 1193**

The purpose and intent of this measure is to eliminate the general excise tax exemption for liquor, tobacco, and food sold to any person or common carrier in interstate or foreign commerce for consumption out of state.

Your Committee received testimony in support of this measure from the Department of Taxation. The North West and Canada Cruise Association testified in opposition to the measure. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that the tax exemption provided by section 237-24.3(2)(C), Hawaii Revised Statutes, was intended to incentivize the purchase of food from local agricultural sources. However, in its present form, the exemption applies to any person selling any food to common carriers for consumption out of state. Your Committee finds that this broad exemption should be eliminated because it defeats the original purpose of the exemption and provides an unnecessary tax break to common carriers and the catering companies that serve those common carriers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1193, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Kahele, Tokuda).

**SCRep. 468 (Majority) Ways and Means on S.B. No. 948**

The purpose and intent of this measure is to implement Hawaii's participation in the national Streamlined Sales and Use Tax Agreement by:

- (1) Amending Hawaii's tax laws to allow the State to participate in the national Streamlined Sales and Use Tax Agreement; and
- (2) Creating a committee to oversee the Department of Taxation's implementation and administration of, and compliance with, the Streamlined Sales and Use Tax Agreement.

Your Committee received testimony in support of this measure from the Retail Merchants of Hawaii, Walgreens Co., Hawaii Association of Realtors, Hawaii Appleseed Center for Law and Economic Justice, and Chamber of Commerce of Hawaii.

Your Committee received testimony in opposition to this measure from the Department of Taxation, and one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure allows the State to collect taxes on the sale of goods and services conducted via the Internet without placing additional burdens on interstate commerce, thereby "leveling the playing field" between local and out-of-state retailers. Your Committee also finds that the State's participation in the Streamlined Sales and Use Tax Agreement has the potential to achieve more efficient sales, excise, and use tax administration between participating states, as well as improved tax compliance by interstate vendors.

Your Committee has amended this measure by:

- (1) Amending the effective date to July 1, 2050, to promote further discussion of the measure; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 948, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 948, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Kahele, Tokuda).

**SCRep. 469 Commerce and Consumer Protection on S.B. No. 1043**

The purpose and intent of this measure is to authorize the Public Utilities Commission to examine all information relating to power purchase agreements under review by the Commission, including the examination of power purchase agreement-relevant cost information of independent power producers.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawaiian Electric Company, Inc.; Blue Planet Foundation; and nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Renewable Energy Alliance.

Your Committee finds that in recent years, the cost to produce solar photovoltaic panels and wind turbines has significantly decreased. On the mainland, power purchase agreement prices for solar and wind projects have declined as production costs decreased and efficiencies increased. However, Hawaii has not seen a similar decrease in power purchase agreement prices for solar and wind projects.

Your Committee further finds that this measure provides access to documentation that will facilitate the review of power purchase agreements and enable regulators to determine if power purchase agreement pricing for renewable energy products is just, reasonable, and in the consumers' best interest. This measure also enables the Public Utilities Commission and the Division of Consumer Advocacy to determine what is causing the disparity in power purchase agreement prices for renewable energy projects in Hawaii, as compared to the mainland.

Your Committee notes that this measure enables the Public Utilities Commission to make the best possible decisions on power purchase agreements. This measure does not, nor is it intended to, take down or regulate independent power producers.

Your Committee has amended this measure by:

- (1) Specifying that the Public Utilities Commission and the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs are authorized to examine all information relating to power purchase agreements under review by the Commission and the Division of Consumer Advocacy and making conforming amendments to the purpose section; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1043, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1043, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 470 Commerce and Consumer Protection on S.B. No. 502**

The purpose and intent of this measure is to establish a uniform standard for disclosure for condominium projects, cooperative housing corporations, and other community associations.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS.

Your Committee finds that under existing law, because there are several definitions of a planned community association, the nature and extent of document disclosures required of the seller is uncertain. A seller who has property that falls within the definition of a planned community is also required under chapter 508D, Hawaii Revised Statutes, to provide prospective buyers with planned community association declaration and association documents at the time of the disclosure statement.

Your Committee further finds that sellers may not know whether their property is subject to a planned community regime and may not have the requisite documents during the early stages of the transaction when initial disclosures are provided. Your Committee has heard testimony that sellers are occasionally unaware their property is located in a planned community regime if the planned community is loosely planned or not well organized. In these situations, the first indication that a property is subject to planned community governance may be upon receipt of the title report. This measure addresses these concerns by clarifying the documentation that is subject to disclosure, focusing upon the recorded restrictions that affect the property, and requiring a list of documents that must be disclosed under chapter 508D, Hawaii Revised Statutes.

Your Committee notes that this measure provides for a right of rescission by the buyer upon receipt of a current title report. The right of rescission in this measure would cover situations where a prospective buyer of a property does not discover the property is subject to planned community governance until receipt of the title report. The prospective buyer would then have fifteen days to rescind the real estate purchase contract. Your Committee also notes that the right of rescission in this measure is in addition to rights of rescission set forth in sections 508D-5, 508D-6, and 508D-13, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 502, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 471 Commerce and Consumer Protection on S.B. No. 1039**

The purpose and intent of this measure is to require the Public Utilities Commission to include its Public Utilities Commission special fund report as an update in its annual report to the Legislature required under section 269-5, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Public Utilities Commission.

Your Committee finds that this measure will make the Public Utilities Commission's reporting process more efficient for future legislative sessions. This measure permits all pertinent information regarding the Commission's finances and functions for a given fiscal year, including progress of the State's principal clean energy standards, to be contained and submitted within one comprehensive document.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1039 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 472 Education on S.B. No. 238**

The purpose and intent of this measure is to amend the definition of "student instructional hours" for elementary and secondary schools.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Association of Independent Schools, Hui for Excellence in Education, and IMUAlliance. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association and Hawaii Educational Policy Center.

Your Committee finds that the definition of "student instructional hours" provided for in this measure will give the Department of Education greater flexibility and focus the discussion of instructional time around students and increasing access and opportunities to those teachable moments where students learn best. It will also help to improve instruction and increase student engagement by encouraging project-based learning, technology-assisted learning, and all other activities to which a general learner outcome is attached.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 238 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

**SCRep. 473 (Joint) Water and Land and Tourism and Hawaiian Affairs on S.B. No. 1172**

The purpose and intent of this measure is to amend the composition of the Natural Area Reserves System Commission by adding a member possessing a background in native Hawaiian traditional and customary practices and removing the Superintendent of Education as a member.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and seven individuals.

Your Committees find that having an individual with a background in native Hawaiian traditional and customary practices on the Natural Area Reserves System Commission will improve the effectiveness of the Commission in overseeing and advising on the management of cultural and archaeological resources within the natural area reserves. According to the Department of Land and Natural Resources, it consulted with the Department of Education and received no reservation or opposition to removing the Superintendent of Education from the membership of the Commission.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1172 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
  
Water and Land  
Ayes, 4. Noes, none. Excused, 3 (Ruderman, Thielen, Slom).  
  
Tourism and Hawaiian Affairs  
Ayes, 5. Noes, none. Excused, 3 (Hee, Kidani, Slom).

**SCRep. 474 (Joint) Tourism and Hawaiian Affairs and Technology and the Arts on S.B. No. 409**

The purpose and intent of this measure is to designate the month of February as "Olelo Hawai'i Month" to celebrate and encourage the use of Hawaiian language.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Association of Hawaiian Civic Clubs, and two individuals.

Your Committees find that the Hawaiian language community has long considered February "Hawaiian Language Month" and, in years past, successfully advocated for gubernatorial proclamations designating February as Hawaiian Language Month. This measure will codify this ceremonial designation in statute to make every February 'Olelo Hawai'i Month to help perpetuate and encourage the use of 'Olelo Hawai'i.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and Hawaiian Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 409, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 409, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Tourism and Hawaiian Affairs  
Ayes, 7. Noes, none. Excused, 1 (Slom).

Technology and the Arts  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 475 Human Services on Gov. Msg. No. 535**

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION ON FATHERHOOD

G.M. No. 535 MICHAEL DIAS, for a term to expire 6-30-2016

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Michael Dias to possess the requisite qualifications to be nominated to the Commission on Fatherhood.

Your Committee received testimony in support of Michael Dias from the Department of Human Services.

Mr. Dias earned a Bachelor's degree in Social Science and English with a Hawaiian Studies Minor from the University of Hawaii at Hilo. He is currently an Employment Specialist with Alu Like, Inc., in Hilo, Hawaii. He has previously served two consecutive terms on the State Commission on Fatherhood, ending on June 30, 2011. After taking a break for about a year, he was asked to apply again, which he did in June 2012, and began another term in August 2012 on an interim basis.

Mr. Dias' background includes serving as a Father Involvement Specialist with Alu Like, Inc.'s Ho'okahua Early Childhood Department. His duties included developing and implementing program activities for fathers in Ho'okahua programs, researching local and national programs on fatherhood, facilitating fatherhood groups, and collaborating with other agencies. Mr. Dias also developed a Hawaiian culture-based curriculum for fathers and made presentations at national and local conference workshops. He also has an extensive background working with native Hawaiian young children from when he was a part-time instructor and program coordinator in a program run by the University of Hawaii at Hilo.

Mr. Dias has enjoyed working with other talented and committed State Commission on Fatherhood commissioners over the years and is very familiar with the many issues concerning fathers and their importance to the family and community. As a member of the State Commission on Fatherhood, he has consistently attended the commission meetings, provided input, and followed up on necessary tasks. He has also served as a resource for the Commission and the community on resources for fathers and fatherhood programs, and he plans to continue to fulfill these roles and responsibilities.

Mr. Dias is a proud father of biological, step-, and hanai children and is familiar with the issues, challenges, and joys of manhood and fatherhood. Your Committee finds that Mr. Dias' past experiences on the State Commission on Fatherhood, as well as his continuing commitment to issues relating to fatherhood, will be great assets to the Commission.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 476 Human Services on Gov. Msg. Nos. 536, 537, and 594**

Recommending that the Senate advise and consent to the nominations of the following:

STATE REHABILITATION COUNCIL

G.M. No. 536 JONATHAN CHUN, for a term to expire 6-30-2013;

G.M. No. 537 JONATHAN CHUN, for a term to expire 6-30-2016; and

G.M. No. 594 ANN LEMKE, for a term to expire 6-30-2016

Your Committee has reviewed the personal histories, work experience, and resumes submitted by the nominees and finds Jonathan Chun and Ann Lemke to possess the requisite qualifications to be nominated to the State Rehabilitation Council.

JONATHAN CHUN

Your Committee received testimony in support of the nomination of Jonathan Chun from the Department of Human Services.

Your Committee finds that Mr. Chun will provide representation to the State Rehabilitation Council for business and labor and Kauai County.

Mr. Chun brings to the Council over thirty years of legal practice experience as an attorney in the public and private sectors. He is currently the managing partner of Belles Graham Proudfoot Wilson and Chun, LLP, on the island of Kauai. Mr. Chun's work has included being a volunteer on the Work Force Development Council, representing the County of Kauai.

Your Committee finds that through Mr. Chun's years of work on employment issues in the Hawaii labor market, he brings a wealth of experience and networking possibilities to the Council.

ANN LEMKE

Your Committee received testimony in support of the nomination of Ann Lemke from the Department of Human Services.

Ms. Lemke is an individual with a lifetime of experience in the employment and independent living of individuals with disabilities, both professionally and personally. She has been actively involved in the development and running of programs for the independent lives of people with disabilities since 1980. Ms. Lemke is currently a professor at Windward Community College and is a Disability Specialist and Admissions Coordinator. She is also the President of the "Anuenue" Chapter of the Hawaii National Federation of the Blind.

Your Committee finds that Ms. Lemke's vast knowledge, education, and work with individuals in a variety of disabilities will be assets to the State Rehabilitation Council.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 477 Commerce and Consumer Protection on S.B. No. 1076**

The purpose and intent of this measure is to:

- (1) Clarify the requirements for Hawaii acupuncture licensees who graduate from an accredited doctoral program in acupuncture and Oriental medicine and intend to use the title of "Doctor of Acupuncture";
- (2) Repeal the requirement for the Board of Acupuncture to approve advanced programs of study; and
- (3) Require licensees who graduate from foreign institutions to submit their educational credentials to a Board of Acupuncture approved and designated professional evaluator.

Your Committee received testimony in support of this measure from the Board of Acupuncture, Hawaii Oriental Medicine and Acupuncture Association, Institute of Clinical Acupuncture and Oriental Medicine, and one individual.

Your Committee finds that existing law allows acupuncture licensees to complete either an accredited program or a program approved by the Board of Acupuncture as the basis to use the title "Doctor of Acupuncture" or designation "D.Ac." Until recently, there was no available accredited doctoral program; therefore the only way a licensee could meet this requirement was to apply to the Board for approval of the program studied by the licensee. However, in 2002, an accredited doctoral program was developed by the Accreditation Commission for Acupuncture and Oriental Medicine, the national accrediting body for United States acupuncture and Oriental Medicine schools. Your Committee further finds that this measure repeals the Board's authority to approve advanced programs of study, as it is more appropriate for the Board to defer to and rely upon the Accreditation Commission for Acupuncture and Oriental Medicine to accredit and approve doctoral programs of study.

Your Committee has heard testimony about the possibility for the Doctor of Acupuncture and Oriental Medicine degree to be referenced in this measure. Your Committee understands that the Doctor of Acupuncture and Oriental Medicine degree is conferred upon a student who graduates from an accredited doctoral program in acupuncture and Oriental medicine and should not necessarily be confused with a title or designation indicating licensure in Hawaii. As the intent of this measure is to ensure acupuncture licensees complete accredited doctoral programs and to repeal a specific Board of Acupuncture requirement, incorporating a reference to the Doctor of Acupuncture and Oriental Medicine degree is not appropriate at this time. However, your Committee also understands that the Board of Acupuncture is open to additional discussions on this topic at future meetings.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 478 Public Safety, Intergovernmental and Military Affairs on S.B. No. 727**

The purpose and intent of this measure is to expressly authorize the enactment of county ordinances deemed necessary to protect property and preserve the order and security of the county and its inhabitants on any subject not inconsistent with the intent of state or

federal statutes, rules, or regulations that do not disclose an intent that the statute, rule, or regulation be exclusive or uniform throughout the State.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council, Molokai Chamber of Commerce, Kapala IT, and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Corporation Counsel of the City and County of Honolulu.

Your Committee finds that businesses face unnecessary challenges and burdens when county governments implement ordinances that conflict with accepted federal or state laws. This measure promotes uniformity and consistency between county ordinances with state and federal statutes, rules, or regulations, which is necessary to ensure that businesses are able to effectively navigate expansion and growth across the State.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 727 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 479 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1177**

The purpose and intent of this measure is to replace the Reentry Coordinator with the Director of Public Safety as an ex officio nonvoting member of the Reentry Commission.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that the 2012 amendments to Act 24, Special Session Laws of Hawaii 2009, revised the membership of the Reentry Commission and included as an ex officio nonvoting member the "Reentry Coordinator." This identified position is temporary and is not endowed with the authority to make commitments for the Department of Public Safety; the Director of Public Safety is the ultimate authority for the Department. Therefore, your Committee finds that the Director of Public Safety is in the best position to represent the Department and to make commitments more efficiently, moving the Reentry Commission's work forward.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1177 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 480 Public Safety, Intergovernmental and Military Affairs on S.B. No. 212**

The purpose and intent of this measure is to:

- (1) Allow the counties six, rather than two, years to adopt their amendments to the state building code; and
- (2) Permit the counties to apply their most recently adopted building code until the new amendments are adopted and use the state building code as a reference during the six-year timeframe.

Your Committee received testimony in support of this measure from the Building Industry Association of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Defense; Kauai Fire Department; Department of Fire and Public Safety, County of Maui; Plumbing and Mechanical Contractors Association of Hawaii; Structural Engineers Association of Hawaii; American Chemistry Council; International Association of Plumbing and Mechanical Officials; and International Code Council. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; American Institute of Architects; and American Council of Engineering Companies of Hawaii.

Your Committee finds that the purpose of building codes is to establish minimum acceptable standards necessary for preserving the public health, safety, and welfare and for protecting property. The development and updating of appropriate uniform building codes that can withstand the unique threats and hazards of Hawaii are critical in protecting our citizens. Currently, most states update their building codes every three years to ensure that the most up-to-date safety practices, innovations in energy efficiency, and other practical advances in construction are incorporated into the building codes. In the interest of public safety, your Committee finds that counties should likewise be required to adopt their amendments to the model code within three years after the State Building Code Council adopts the State Building Code.

Your Committee has amended this measure by changing the timeframe from six to three years for counties to adopt the statewide model building code and making conforming amendments.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 212, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 481 Public Safety, Intergovernmental and Military Affairs on S.B. No. 682**

The purpose and intent of this measure is to:

- (1) Clarify the authority of the county fire chiefs to examine building plans or documentation, or both, for certain types of projects to ensure that they are in compliance with the fire code and fire and life safety standards; and
- (2) Require the approval of plans and specifications and issuance of permits before work may begin.

Your Committee received testimony in support of this measure from the Kauai Fire Department. Your Committee received testimony in opposition to this measure from the Building Industry Association of Hawaii, Hawaii Farm Bureau Federation, BKA Builders, and Complete Construction.

Your Committee finds that a thorough review of construction plans is necessary to ensure compliance with the fire code and fire and life safety standards. Your Committee further finds that section 132-9, Hawaii Revised Statutes, uses language that was applicable over thirty years ago and that building occupancies and classifications have since changed. This measure is necessary to update the law and broaden the authority of the county fire chiefs to inspect plans and documentation for any type of building, structure, or facility in the interest of public safety.

Your Committee has amended this measure by:

- (1) Clarifying that the required plans or documentation, or both, are required for construction, alteration, rehabilitation or addition to any facility, rather than any property, and to a change in use of structure, rather than property;
- (2) Permitting work to begin as soon as the necessary permits are issued by the jurisdiction having authority, without requiring the approval of the county fire chief, because each county fire chief's authority varies depending on agreements with building officials; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 682, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 682, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 482 Human Services on Gov. Msg. No. 623**

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION ON FATHERHOOD

G.M. No. 623 SHANNON CARRIER, for a term to expire 6-30-2016

Your Committee has reviewed the personal history and statements submitted by the nominee and finds Shannon Carrier to possess the requisite qualifications to be nominated to the Commission on Fatherhood.

Your Committee received testimony in support of the nomination of Shannon Carrier from the Department of Human Services and two individuals.

Mr. Carrier is currently employed as the Director of Ohana Support Services with the Maui Family Support Services, a non-profit organization in Maui that helps families with family strengthening programs and activities. As Director, Mr. Carrier is responsible for developing and implementing outreach plans to engage fathers, facilitating a safe group for parenting teens and young adults, and providing education and support services for fathers and male caregivers.

Mr. Carrier has worked with fathers and families for over twenty years. For the past six years, he has been involved in mentoring, teaching, and assisting men in their role as fathers.

Mr. Carrier indicated in his personal statement that he hopes to represent Maui County fathers and families and their unique needs. He also wants to see fatherhood involvement set as a priority and increased understanding of the critical role fathers play in the family and community.

Mr. Carrier is a proud father of four daughters and is familiar with the issues, challenges, and joys of fatherhood.

Your Committee finds that Mr. Carrier's past experiences, as well as his continuing commitment to issues relating to fatherhood, will be great assets to the Commission.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

**SCRep. 483 Human Services on Gov. Msg. Nos. 624 and 625**

Recommending that the Senate advise and consent to the nominations of the following:

POLICY ADVISORY BOARD FOR ELDER AFFAIRS

G.M. No. 624 SUZIE SCHULBERG, for a term to expire 6-30-2017; and

G.M. No. 625 SARAH YUAN, for a term to expire 6-30-2017

Your Committee has reviewed the personal histories and statements submitted by the nominees and finds Suzie Schulberg and Sarah Yuan to possess the requisite qualifications to be nominated to the Policy Advisory Board for Elder Affairs.

#### SUZIE SCHULBERG

Your Committee received testimony in support of Suzie Schulberg from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, Hawaii Long Term Care Association, and one individual.

Ms. Schulberg is currently the Chief Operating Officer at 15 Craigside and has eleven years of experience in long term care administration, including development, construction, and pre-selling an \$86,000,000 bond-financed continuing care retirement community in Nuuanu. Ms. Schulberg was a 2010 Pacific Century Fellow and holds a Graduate certificate in Gerontology, a Master of Business Administration, and a Bachelor's degree in History.

Ms. Schulberg indicated in her personal statement that she hopes to work with other members of the Board to learn, share, and collaborate on initiatives and ideas that will continue to address and strengthen the welfare of Hawaii's older adults, their caregivers, and their families.

Your Committee finds that Ms. Schulberg's past experiences with Hawaii's aging population, as well as her continuing commitment to issues relating to elders, will be great assets to the Board.

#### SARAH YUAN

Your Committee received testimony in support of the nomination of Sarah Yuan from the Executive Office on Aging; Policy Advisory Board for Elder Affairs; University of Hawaii, Kapiolani Community College Kupuna Education Center; and six individuals.

Ms. Yuan is currently an Associate Specialist at the University of Hawaii Center on the Family and is well-known for developing Hawaii's Aging Data Center. Ms. Yuan earned a Doctorate and Master's degree in Sociology, certificates in Sampling Program for Survey Statisticians and Population Studies, and a Master's degree in Applied Social Research. Ms. Yuan has over twenty-five peer-reviewed and technical publications and was an award recipient for the 2010 Hawaii Pacific Gerontological Society's Research and Teaching Award. She specializes in medical sociology, demography of aging, homelessness, community needs assessments, and program evaluation.

Ms. Yuan indicated in her personal statement that she hopes to use her expertise in research and statistics to bring empirical data and credible information to the discussion to facilitate informed decision making. She believes she can contribute to the data-driven decision making process that will improve the accountability, efficiency, and effectiveness in meeting Hawaii's needs for the rapidly growing older adult population.

Your Committee finds that Ms. Yuan's past experiences in research of elder affairs, as well as her continuing commitment to issues relating to elders, will be great assets to the Board.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

#### **SCRep. 484 Human Services on Gov. Msg. Nos. 626, 627, and 628**

Recommending that the Senate advise and consent to the nominations of the following:

#### STATE REHABILITATION COUNCIL

G.M. No. 626 FRANCINE KENYON, for a term to expire 6-30-2016;

G.M. No. 627 GRETCHEN LAWSON, for a term to expire 6-30-2015; and

G.M. No. 628 ROBERT WALL, for a term to expire 6-30-2016

Your Committee has reviewed the personal histories and statements submitted by the nominees and finds Francine Kenyon, Gretchen Lawson, and Robert Wall to possess the requisite qualifications to be nominated to the State Rehabilitation Council.

#### FRANCINE KENYON

Your Committee received testimony in support of the nomination of Francine Kenyon from the Department of Human Services, Disability and Communication Access Board, and three individuals.

Ms. Kenyon currently works as a Recreation Assistant in the City and County of Honolulu Parks and Recreation Therapeutic Unit, which fosters independence and encourages full participation of children, youth, and adults with disabilities in recreational activities and programs. She also served as Coordinator of the Hawaii State Coordinating Council on Deafness. She is currently a member of the Deaf and Hard of Hearing Advisory Board and serves as their Legislative Chairperson.

Ms. Kenyon indicated in her personal statement that she hopes to enhance better vocational rehabilitation services for those who are deaf, hard of hearing, and deaf-blind in order for them to be financially and socially independent. With over forty years of advocacy and education related to deaf, hard of hearing, and deaf-blind issues, Ms. Kenyon continues to seek out opportunities to serve her peers with disabilities.

Your Committee finds that Ms. Kenyon's experiences with the Hawaii State Coordinating Council on Deafness and Deaf and Hard of Hearing Advisory Board, as well as her continuing commitment to issues relating to the deaf, hard of hearing, and deaf-blind, will be great assets to the Council.

GRETCHEN LAWSON

Your Committee received testimony in support of the nomination of Gretchen Lawson from the Department of Human Services.

Ms. Lawson is the current Chair of the State Rehabilitation Council and has been a strong participant during her first three year term. She is active in the County of Hawaii as a professional in the field of vocational rehabilitation as the Executive Director of the ARC of Kona, an organization that provides employment services for people with disabilities. She also brings valuable insight to the Council and represents community rehabilitation service providers and the County of Hawaii on the Council.

Ms. Lawson has over eighteen years of experience in Hawaii as a service provider and contractor working with the Division of Vocational Rehabilitation. She also has educational credentials in Speech Pathology, Audiology, and Education.

Ms. Lawson indicated in her personal statement that she hopes to lead the Council to greater involvement as a partner in ensuring quality service delivery to the Council's target population.

Your Committee finds that Ms. Lawson's past experiences as Chair of the Council, as well as her continuing commitment to issues relating to vocational rehabilitation, will be great assets to the Council.

ROBERT WALL

Your Committee received testimony in support of the nomination of Robert Wall from the Department of Human Services, Hawaii Disability Rights Center, and one individual.

Mr. Wall is currently the Legislative Advocate for the Community Alliance for Mental Health, an organization that he helped establish. He has also worked with the Health Homes State Plan Options Collaborative, Hawaii Disability Rights Protection and Advocacy for Persons with Mental Illness Council, and Board of Directors with Mental Health America of Hawaii.

Mr. Wall indicated in his personal statement that he has accumulated a clear understanding of the goals and processes of the Patient Protection and Affordable Care Act and has a good working relationship with the Health and Human Services Committees for the State House and Senate.

Your Committee finds that Mr. Wall's personal and professional experience with people with disabilities, as well as his continuing commitment to issues relating to people with disabilities and homelessness, will be great assets to the Council.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

**SCRep. 485 Public Safety, Intergovernmental and Military Affairs on S.B. No. 464**

The purpose and intent of this measure is to authorize county liquor commissions to prescribe, by rules, limitations on licensed premises regarding the expression and conduct of patrons in the premises.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawaii and nine individuals. Your Committee received testimony in opposition to this measure from the Liquor Commission, City and County of Honolulu and Department of Liquor Control, County of Maui.

Your Committee finds that the County of Maui passed an ordinance that prohibits dancing in bars and restaurants that serve alcohol unless the dancing takes place on a designated dance floor. However, the ordinance fails to define dancing and leaves business owners and patrons without notice as to what movements would be considered "dancing." This measure requires county liquor commissions to prescribe by rule any limitations on licensed premises regarding dance, including a definition of "dancing" to avoid vagueness and ambiguity.

Your Committee has amended this measure by:

- (1) Changing the description of the regulated behavior from "expression and conduct of patrons" to "dancing";
- (2) Requiring only those county liquor commissions that choose to regulate dancing to adopt or amend rules regarding dancing; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 464, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 464, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 486      Judiciary and Labor on S.B. No. 32**

The purpose and intent of this measure is to enact the Uniform Electronic Legal Material Act. Specifically, this measure establishes requirements and standards in the event that government agencies that are official publishers of certain publications, rules, or decisions elect to publish those publications, rules, or decisions solely in electronic form.

Your Committee received testimony in support of this measure from the Judiciary, Commission to Promote Uniform Legislation, and one individual.

Your Committee finds that state governments are increasingly publishing laws, statutes, agency rules, and court rules and decisions online. Although electronic publication of legal material has facilitated public access to the material, it has also raised concerns regarding authentication and preservation of the electronic legal materials. This measure requires an official publishing agency to provide a means of authenticating that the electronic contents are unaltered and preserved in electronic or print form and accessible for use by the public on a permanent basis. The Commission to Promote Uniform Legislation clarified to your Committee that this measure does not require the electronic publication of any materials, but rather applies if one of the official publishing agencies elects to publish one of the specified legal publications solely in electronic form.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 32 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 487      Judiciary and Labor on S.B. No. 978**

The purpose and intent of this measure is to impose a mandatory sentence of one year of imprisonment on a defendant convicted of cruelty to animals in the second degree involving five or more pet animals in any one instance.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, Humane Society of the United States-Hawaii, and two private individuals. Testimony in opposition to this measure was submitted by the Office of the Public Defender and one private individual.

Your Committee finds that in a recent animal cruelty case, the judge sentenced the former manager of a Waimanalo dog breeding facility to six months in jail for one hundred fifty-three counts of animal cruelty. However, the defendant was released from custody for time served while waiting for trial. This measure ensures that defendants convicted of multiple counts of cruelty to animals in the second degree serve time for the crimes committed.

Your Committee notes the concerns raised by the Office of the Public Defender that the outcome of a single case should not be the impetus to propose changes to the criminal justice system. However, your Committee believes that this measure represents a clear message that animal cruelty is an intolerable criminal act.

In addition, your Committee clarified that this measure is not intended to give pet animals a higher priority over criminal acts committed against five or more individuals in any one instance. Your Committee further notes that S.B. No. 421 (Regular Session of 2013) provides the same mandatory sentence of one year of imprisonment on a defendant who is convicted of certain criminal acts committed against five or more individuals or pet animals.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 978 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 488      (Majority) Judiciary and Labor on S.B. No. 2**

The purpose and intent of this measure is to include the use of a simulated firearm in the offenses of terroristic threatening in the first degree and robbery in the first degree.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Police Department, City and County of Honolulu; Police Department, County of Hawai'i; and Police Department, County of Maui. Testimony in opposition to this measure was submitted by the Office of the Public Defender and two private individuals.

Your Committee finds that simulated firearms are becoming increasingly difficult to discern from real firearms and as a result, simulated firearms are being used to commit serious criminal offenses. The victims in these crimes believe that the weapons are real and are terrorized when threatened with one. The Police Department of the City and County of Honolulu testified that in the last four years, there have been at least thirty-five robbery cases and forty-two cases that amount to terroristic threatening except for the use of a simulated firearm. However, under existing law, if the weapon is not a real firearm, the suspect cannot be charged with the higher offense of robbery in the first degree or terroristic threatening in the first degree and the charges are reduced to misdemeanors. This measure adds the use of a simulated firearm in the offenses of terroristic threatening in the first degree and robbery in the first degree.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Slom). Excused, none.

**SCRep. 489      Judiciary and Labor on S.B. No. 888**

The purpose and intent of this measure is to amend section 576D-16, Hawaii Revised Statutes, relating to an employer's duty to report new hires, to bring the Child Support Enforcement Agency into compliance with federal law.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that the federal Trade Adjustment Assistance Extension Act of 2011 amended the Social Security Act by adding a definition of the type of employees that are to be reported to the state directory of new hires. This change went into effect on April 21, 2012, and requires that all states comply with this new federal mandate by including new hire reporting language. Accordingly, this measure amends section 576D-16, Hawaii Revised Statutes, by adding a definition of new hires, as required under federal law, to include an employee who has not previously been employed by the employer or was previously employed by the employer but has been separated from the prior employment for at least sixty consecutive days.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 888 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 490      Judiciary and Labor on S.B. No. 31**

The purpose and intent of this measure is to clarify the information required in and the deadline for filing of noncandidate committee reports. Specifically, this measure:

- (1) Separates noncandidate committee contributions that are required to be disclosed and filed in preliminary, final, and supplemental noncandidate committee reports into contributions received and contributions made; and
- (2) Amends the January deadline for filing supplemental noncandidate committee reports.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Americans for Democratic Action/Hawaii, and one individual.

Your Committee finds that by separating the reporting of contributions into contributions received and contributions made by noncandidate committees, this measure will align with the practice that noncandidate committees make and receive contributions and report them. This separation promotes transparency of spending on independent expenditures.

Your Committee further finds that amending the January deadline for filing supplemental noncandidate committee reports more clearly aligns the law with the present practice of filing a supplemental report every year. The Campaign Spending Commission testified that without this amendment, the Commission may not be able to require the filing of the January supplemental report in an election year, thereby leaving a one-year gap (July 1 of a nonelection year to June 30 of an election year) in reporting by a noncandidate committee.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 31 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 491      Judiciary and Labor on S.B. No. 329**

The purpose and intent of this measure is to support charitable and nonprofit animal shelter and rescue organizations that care for animals in need. Specifically, this measure:

- (1) Exempts from civil liability any charitable or nonprofit organization for providing shelter or subsistence to any animal in need; and
- (2) Exempts from civil liability any person who donates goods, food, materials, or services to a charitable or nonprofit organization for the purpose of providing shelter or subsistence to any animal in need.

Your Committee received testimony in support of this measure from the Humane Society of the United States-Hawaii, Hui Pono Holoholona, and one individual.

There are many charitable and nonprofit animal shelters and rescue organizations that in good faith provide shelter or proper means of subsistence to any animal in need as part of its bona fide and customary charitable activities. Your Committee finds that these organizations provide an important service that should not be discouraged due to fear that their acts could potentially be subject to civil liability. This measure encourages charitable and nonprofit animal shelters and rescue organizations to continue to provide services without the fear of liability in caring for animals in good faith.

Your Committee further finds that many of these animal shelters and rescue organizations run entirely on donations with much of their work performed by volunteers. One of the major expenses of these organizations is the cost of supplies to care for animals. This measure will encourage individuals and businesses to donate necessary items to local animal shelters and rescue organizations without the fear of liability related to the items they donated.

Your Committee notes that this measure is similar to section 663-10.6, Hawaii Revised Statutes, which exempts from civil liability charitable or nonprofit organizations that provide shelter and subsistence to the needy and exempts any person from civil liability for

donating goods, food, materials, and services to the charitable or nonprofit organization for injuries and damages resulting from the donation.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 329, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 492 (Majority) Judiciary and Labor on S.B. No. 893**

The purpose and intent of this measure is to retroactively exempt members and designees or representatives of members of task forces that existed on or after June 3, 2010, from certain provisions of the Code of Ethics.

Your Committee received testimony in support of this measure from the Hawaii Bankers Association, Hawaii Financial Services Association, Hawaii Credit Union League, and two individuals. Testimony in opposition to this measure was submitted by the Hawaii State Ethics Commission and League of Women Voters. The Department of the Attorney General submitted comments.

Your Committee finds that Act 162, Session Laws of Hawaii 2010 (Act 162), which was enacted on June 3, 2010, established the mortgage foreclosure task force. Of the seventeen members of the task force, eleven of the members were from specific organizations, including private organizations, trade associations, and government entities, whose representation was expressly required by Act 162. In May 2011, the Hawaii State Ethics Commission advised all of the members of this task force that the Code of Ethics prohibited the members from lobbying on legislative measures proposed by the task force, for pay, on behalf of the private organizations of which some of the members represented.

Your Committee notes that Act 208, Session Laws of Hawaii 2012 (Act 208), amended section 84-14, Hawaii Revised Statutes, among other sections of the Code of Ethics, to exempt members of state task forces from certain requirements, restrictions, and prohibitions of the Code of Ethics. However, Act 208 did not apply retroactively to cover task forces, including the mortgage foreclosure task force, that existed prior to the effective date of Act 208. This measure retroactively exempts members and designees or representatives of members of task forces that existed on or after June 3, 2010, from certain conflicts of interest provisions of the Code of Ethics.

Your Committee further notes the discussion during the public hearing regarding this measure with the Executive Director and former Executive Director of the Hawaii State Ethics Commission. The Executive Director testified that this measure specifically applies to a single task force that no longer exists and suggested that this retroactive application is not a reasonable or prudent exercise of legislative power. Testimony also indicates that the purpose of this measure is to protect a single member of the mortgage foreclosure task force. The Executive Director purported that this member continued lobbying activities on bills reflecting the mortgage foreclosure task force recommendations during the Regular Session of 2012 on behalf of the member's private client despite the Commission's clear advice that these actions may violate the Code of Ethics. The Executive Director testified that this measure rewards an individual for repeatedly and intentionally ignoring and defying the Commission's advice and sets a precedent that allows state employees, legislators, and board members to seek retroactive amendments to excuse ethic code violations.

However, the former Executive Director of the Hawaii State Ethics Commission, testifying as a private individual, strongly supported this measure to correct a misinterpretation and misapplication of the Code of Ethics by the Commission. While Act 208 was enacted to address the Commission's misinterpretation and misapplication of the law to task forces, particularly section 84-14, Hawaii Revised Statutes, the former Executive Director believes that Act 208 should have applied retroactively to include the mortgage foreclosure task force. The former Executive Director noted to your Committee that the Commission has a statute of limitations of six years under section 84-31(a)(6), Hawaii Revised Statutes, starting from the time of the alleged violation to file or accept a charge against a legislator or state employee, and investigate and take appropriate action. Thus, the members of the mortgage foreclosure task force as well as other task forces established prior to the enactment of Act 208 on July 3, 2012, may still be in jeopardy of being found by the Commission of being in violation of the Code of the Ethics based on the Commission's May 2011 interpretation and application of section 84-14, Hawaii Revised Statutes.

Your Committee does not find the testimony from the Hawaii State Ethics Commission compelling. Your Committee notes that the May 2011 advisory from the Commission to the members of the mortgage foreclosure task force created a disincentive for individuals to serve on task forces in general. The Legislature, Governor, and other state agencies and officials rely on the technical or experiential information that task force members from the community possess and are willing to offer, especially when government entities do not possess or cannot readily obtain such information. Your Committee believes that members from the community who possess the necessary information and expertise serve a vital role and should be afforded the opportunity to serve on task forces without fear that their participation or affiliation with the private sector may violate the Code of Ethics.

Accordingly, the purpose of Act 208 was to allow individuals that possess specific knowledge and expertise an opportunity to serve the State. Specifically, Act 208 allows individuals to serve as members of a task force that is convened on a temporary basis by the legislative or executive branch to study an issue, make recommendations, or offer advice on a specific subject by exempting these individuals from certain requirements, restrictions, and prohibitions of the State's Code of Ethics. Thus, while the Hawaii State Ethics Commission's advisory in May 2011 to the mortgage foreclosure task force may have been the impetus for Act 208, your Committee believes that this measure furthers the purposes of Act 208 rather than creating an exemption for a specific task force, as the Hawaii State Ethics Commission suggests. For further clarity, the Department of the Attorney General suggested to your Committee that section 1 of this measure be deleted to avoid specifying and referencing the mortgage foreclosure task force.

Your Committee is also concerned that if this measure is not applied retroactively, the members of the task forces established prior to the enactment of Act 208 may still be in jeopardy of violating the Code of Ethics pursuant to the six-year statute of limitations for the Commission to file a charge. This is particularly troubling in light of the former Executive Director testifying about the frequency

of cases relating to conflicts of interest allegations brought to or filed by the Commission and that the Executive Director of the Hawaii State Ethics Commission would not comment on whether the Commission has any plans to bring a cause of action against a particular task force member. Your Committee believes this measure would prevent such causes of action from being brought to or filed by the Commission rather than reward a particular individual for possibly violating the Code of Ethics, as the Hawaii State Ethics Commission suggests.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the recommendation made by the Department of the Attorney General during the hearing to delete section 1 to clarify that the retroactive date applies to all members or representatives of a member of any task force existing on or after June 3, 2010;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 893, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 893, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 2 (Ihara, Slom). Excused, none.

**SCRep. 493 (Majority Judiciary and Labor on S.B. No. 535**

The purpose and intent of this measure is to:

- (1) Extend basic labor rights and protections to domestic workers by:
  - (A) Amending the Hawaii Employment Relations Act under chapter 377, Hawaii Revised Statutes, to establish hours of labor for domestic workers and define causal basis employment and domestic worker;
  - (B) Amending chapter 378, Hawaii Revised Statutes, to amend the definition of “employment” and prohibit the employment practice of discriminating against domestic workers;
  - (C) Amending the workers’ compensation law under chapter 386, Hawaii Revised Statutes, to include service of domestic workers under the definition of “employment”; and
  - (D) Amending the wage and hour law under chapter 387, Hawaii Revised Statutes, to exclude individuals employed in domestic service in or about the home of the individuals’ employer on a casual basis; and
- (2) Direct the Department of Labor and Industrial Relations to submit a written report to the Legislature regarding the feasibility of allowing domestic workers to organize for the purposes of collective bargaining.

Your Committee received testimony in support of this measure from the Hawai’i Civil Rights Commission, Hawaii State Commission on the Status of Women, Hawaii Labor Relations Board, and American Civil Liberties Union of Hawai’i, and one individual. The Department of Labor and Industrial Relations submitted comments.

Your Committee finds that domestic workers provide services for a family other than their own within that family’s home. The duties of a domestic worker depend on the employment relationship between the domestic worker and the domestic worker’s employer. Duties may include cleaning, laundry, shopping, cooking, or child, senior, or pet care. Many domestic workers are hired under a private agreement that does not afford the basic legal employment rights and protections that guarantee minimum wage or basic work conditions, such as overtime pay, meal and rest breaks, or civil rights protections against abuse and harassment. This measure provides domestic workers a basic bill of employment rights and explores the feasibility of allowing domestic workers to organize under collective bargaining.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Hawaii Civil Rights Commission that:
  - (A) Deletes the provisions that prohibit an employer from engaging in unwelcome sexual advances toward a domestic worker or subject a domestic worker to unwelcome harassment and inserts language that prohibits an employer from discharging from employment or discriminating against a domestic worker based on the domestic worker’s race, sex, sexual orientation, age, religion, color, ancestry, disability, or marital status; and
  - (B) Makes conforming amendments to reflect these amendments;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 535, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 535, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Slom). Excused, none.

**SCRep. 494      Judiciary and Labor on S.B. No. 877**

The purpose and intent of this measure is to establish the procedures for the Hawaii Labor Relations Board to conduct appeals and authorize the Board to notify parties of a hearing using first class mail.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial and Relations.

Your Committee finds that this measure sets forth the procedures for the Hawaii Labor Relations Board to conduct appeals. As this measure moves through the legislative process, your Committee encourages the Department of Labor and Industrial Relations to develop language to define "contemptuous behavior" as used in to this measure.

Your Committee further finds that existing law requires the Hawaii Labor Relations Board to use registered or certified mail to provide notice to parties of a hearing. This measure would permit the Board to more efficiently allocate resources.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 877, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 877, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Gabbard).

**SCRep. 495      Judiciary and Labor on S.B. No. 6**

The purpose and intent of this measure is to prohibit the use of certain cruel or lethal methods for the control of animals. Specifically, this measure:

- (1) Requires dogs or cats that are captured or killed in a snare or trap to be reported to a county animal control officer;
- (2) Establishes an animal cruelty offense for the use of steel-jawed leg-hold traps or the use of snares, conibear, and foot- or leg-hold traps in residential or other prohibited areas;
- (3) Establishes the offense as a misdemeanor; and
- (4) Provides exemptions for activities carried out by state and federal agencies.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, West Hawaii Humane Society, Hawaii Island Humane Society, The Humane Society of the United States, The Nature Conservancy, Wild Bird Rehab Haven, Hui Pono Holoholona, Equine 808 Horse Rescue, and twenty-two private individuals. Animal Rights Hawaii submitted comments.

Your Committee finds that this measure allows for the use of appropriate tools to control feral animals, such as pigs, goats, sheep, deer, and wild cattle, where there is a potential for these animals to damage natural resource areas. At the same time, this measure establishes reasonable additional protections for pet animals in residential areas, where they are most likely to be inadvertently caught if certain animal control tools are employed.

Your Committee has amended this measure by:

- (1) Amending section 1 to include that one of the purposes is to require the reporting of dogs and cats that are captured or killed in a snare or trap;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 6, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 6, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 496      Judiciary and Labor on S.B. No. 68**

The purpose and intent of this measure is to grant a court the discretion to sentence a defendant convicted of a class B or class C felony drug case to an indeterminate term of imprisonment except for certain crime convictions.

Your Committee received testimony in support of this measure from the Office of the Public Defender, American Civil Liberties Union of Hawaii, and Community Alliance on Prisons. Testimony in opposition to this measure was submitted by the Department of the Prosecuting Attorney, County of Maui and Police Department, City and County of Honolulu.

Your Committee finds that state mandatory minimum sentencing laws are being challenged across the nation because these laws mandate longer prison sentences regardless of whether the sentencing court believes the punishment is appropriate based on the circumstances and facts of the case. Studies show that mandatory minimum sentencing of drug users causes an increase in incarceration costs and have a disproportionate impact on women and certain racial and ethnic groups. This measure grants the sentencing court the discretion to sentence a defendant convicted of a class B or class C felony drug case to a prison sentence of a length appropriate to the defendant's particular offense and underlying circumstances.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Office of the Public Defender to:
  - (A) Exclude promoting a dangerous drug in the second degree, promoting a harmful drug in the second degree, commercial promotion of marijuana in the second degree, and promoting a controlled substance through a minor from the list of drug offenses subject to the sentencing court's discretion; and
  - (B) Make conforming amendments to reflect these excluded specific drug offenses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 68, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 68, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 497      Judiciary and Labor on S.B. No. 9**

The purpose and intent of this measure is to prohibit persons convicted of cruelty to animals in the first or second degree from possessing, owning, or residing with any pet animal for not less than a specified number of years from the date of conviction.

Your Committee received testimony in support of this measure from the Police Department, City and County of Honolulu; Hawaiian Humane Society; The Humane Society of the United States; West Hawaii Humane Society; Hui Pono Holoholona; Equine 808 Horse Rescue; Animal Rights Hawaii; and twenty-eight private individuals. Testimony in opposition to this measure was submitted by the Office of the Public Defender. The Department of the Attorney General and two private individuals submitted comments.

Your Committee finds that this measure ensures that defendants convicted of cruelty to animals in the first or second degree should no longer be afforded the privilege of owning a pet animal.

Your Committee notes the concerns raised by the Office of the Public Defender and the Department of the Attorney General. The Office of the Public Defender testified that this measure is inconsistent with section 711-1110.5, Hawaii Revised Statutes, relating to the forfeiture of animals upon the conviction of cruelty to animals in the first or second degree, among other animal cruelty offenses. Under the surrender and forfeiture of animals law, the court has the discretion to determine whether to order the defendant to surrender or forfeit the animal, which is contrary to this measure. Furthermore, the Office of the Public Defender testified that this measure may potentially force households to choose between the convicted defendant and pet animal if the court allows the pet animal to remain at the residence. Lastly, the Department of the Attorney General indicated that this measure may have unintended consequences.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 9, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 9, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 498      Judiciary and Labor on S.B. No. 872**

The purpose and intent of this measure is to amend the definition of "victim" in section 706-646, Hawaii Revised Statutes, to include any duly incorporated humane society or society for the prevention of cruelty to animals that impounds, holds, or receives custody of a pet animal pursuant to sections 711-1109.1, 711-1109.2, and 711-1110.5, Hawaii Revised Statutes, for the purposes of the collection of restitution.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kaua'i; Humane Society of the United States-Hawaii; and one private individual. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that in a recent decision, the Circuit Court of the First Circuit denied restitution to the Hawaiian Humane Society for their expenses incurred in caring for one hundred fifty-three dogs previously subjected to animal cruelty in the second degree. The court held that the Hawaiian Humane Society was not a government agency or a "direct victim" of the crime committed. Although the Hawaiian Humane Society assumed care of these animals and became the legal owner of all one hundred fifty-three dogs upon forfeiture proceedings, the court held that it was not the "actual owner" and was not entitled to restitution under section 706-646, Hawaii Revised Statutes. This measure provides clear language to allow any duly incorporated humane society contracted with the counties to receive restitution for expenses incurred when caring for an animal as a result of animal forfeiture or impoundment.

Your Committee notes the concerns raised by the Office of the Public Defender that adding a duly incorporated humane society contracted with the counties as a victim of a crime entitled to restitution is inappropriate. While the Office applauded agencies that care for distressed animals, caring for animals does not make that agency a victim of a crime in the legal sense. Instead, these agencies have an opportunity to seek monetary damages in civil court.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 872, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 872, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 499 Commerce and Consumer Protection on S.B. No. 1045**

The purpose and intent of this measure is to:

- (1) Direct the Public Utilities Commission and the Division of Consumer Advocacy to specifically consider the ownership structure and interests of an electric cooperative; and
- (2) Authorize the Public Utilities Commission to waive or exempt an electric cooperative operating in the State from compliance with chapter 269, Hawaii Revised Statutes, as well as any other applicable charters, franchises, rules, decisions, orders, or other laws.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, Kauai Island Utility Cooperative, and nine individuals. Your Committee received testimony in opposition to this measure from Blue Planet Foundation.

Your Committee finds that chapter 269, Hawaii Revised Statutes, is structured to provide regulatory oversight of investor-owned electric utilities. Although electric utility cooperatives are member-owned and operate on a not-for-profit basis, existing law does not provide any exceptions for these cooperatives. This measure provides the necessary exemptions for electric utility cooperatives, while also providing adequate protection to the cooperative's members/owners by requiring a cooperative to apply for a waiver or exemption to the Public Utilities Commission.

Your Committee further finds that this measure is not intended to permit the Public Utilities Commission to utilize its discretionary authority to usurp statewide clean energy policy mandates. Rather, this measure is intended to permit the Commission to apply its discretionary authority judiciously in certain situations where existing laws, such as methodologies in the regulation of utility rates or ratemaking procedures, may not directly apply to the cooperative structure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that this measure is not intended to exempt electric cooperatives from statutory statewide clean energy policy mandates, such as the State's Renewable Portfolio Standards and Energy Efficiency Portfolio Standards; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1045, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1045, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 500 (Majority) Ways and Means on S.B. No. 98**

The purpose and intent of this measure is to reduce the income tax liability of low-income taxpayers.

More specifically, this measure establishes an income tax credit that:

- (1) Reduces a person's income tax liability to zero if the person's federal adjusted gross income falls below federal poverty guidelines; or
- (2) Reduces a person's income tax liability by fifty per cent if the person's federal adjusted gross income falls between one hundred per cent and one hundred twenty-five per cent of federal poverty guidelines.

Your Committee received testimony in support of this measure from the Hawaii Alliance for Community-Based Economic Development, Catholic Charities Hawaii, PHOCUSED, Hawaii Appleseed Center for Law and Economic Justice, and Partners In Care - Oahu.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that, in comparison to states that impose an income tax, the income threshold at which a state resident becomes subject to the Hawaii income tax is one of the lowest in the nation. This measure establishes a tax credit to provide a means of reducing or eliminating the income tax liability of low-income taxpayers. However, your Committee also finds that, as currently drafted, the new tax credit requires significant additional calculations and steps that would make it more difficult to claim the credit or evaluate the validity of a claim for the credit.

Your Committee has amended this measure by:

- (1) Deleting the provision establishing a new income tax credit and replacing it with a provision that amends the existing refundable food/excise tax credit (section 235-55.85, Hawaii Revised Statutes) to serve as a nonrefundable low income tax credit that is not based on federal poverty guidelines;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

- (3) Making technical nonsubstantive amendments for purposes of style and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 98, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Slom). Excused, 2 (Kahele, Tokuda).

**SCRep. 501 Ways and Means on S.B. No. 1192**

The purpose and intent of this measure is to increase the amount of time that the Department of Taxation has within which to sell property that has been seized due to a failure of the taxpayer to pay the tax delinquency. Additionally, this measure provides for a tolling of the time period if any party commences an action concerning the seized property.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that under existing law, the Department of Taxation is required to operate within an unrealistic time frame to sell property that has been seized for the non-payment of taxes. Moreover, if a party claims to be the true owner of the property and makes a claim to the seized property, a court determination must be made on the matter before any sale can occur. By the time any determination has been made, the time for selling the property under the existing law will have passed, and the Department must start the sale process all over again. The net result is that the seizing and selling of property is not a viable option for the Department. Accordingly, your Committee finds that the time periods established by this measure will allow the Department of Taxation to effectively conduct sales of property that have been seized for non-payment of taxes.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, conformity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1192, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 502 Ways and Means on S.B. No. 1187**

The purpose and intent of this measure is to authorize the Department of Taxation to determine when it is reasonable to deem a delinquent tax uncollectible.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, currently, the Department of Taxation must wait at least two years until it may declare a delinquent tax to be uncollectible. This measure will authorize the Department to use a reasonableness standard instead of the two-year waiting period when declaring an account to be uncollectible. The Department will be able to consider extrinsic factors such as the taxpayer's financial condition, inability to locate the taxpayer, collection costs, the taxpayer's health, and the taxpayer's future income prospects when making its determination. Your Committee believes that this measure will allow the Department to prioritize those delinquent accounts that will likely generate the greatest recovery for the State, while deeming as uncollectible those accounts with collection costs that will exceed the expected recovery.

Your Committee has amended this measure by:

- (1) Clarifying that, upon approval, the measure will be retroactive to January 1, 2013; and
- (2) Making numerous technical nonsubstantive amendments for the purposes of clarity, conformity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1187, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 503 Ways and Means on S.B. No. 1091**

The purpose and intent of this measure is to exempt charitable contributions from the itemized deduction cap amounts established by Act 97, Session Laws of Hawaii 2011.

Your Committee received testimony in support of this measure from the Office of the Governor; the Department of Taxation; the Department of Budget and Finance; Hawaii Substance Abuse Coalition; Lahaina Arts Association; Diamond Head Theatre; Hawaii Community Foundation; Hawaii Alliance of Nonprofit Organizations; Institute for Human Services; Maui Family YMCA; Bank of Hawaii; Honolulu Museum of Art; Catholic Charities Hawaii; American Cancer Society Cancer Action Network; University of Hawaii Foundation; Aloha United Way; PBS Hawaii; Hawaii Arts Alliance; the Conservation Council for Hawaii; The Nature Conservancy; Goodwill Industries of Hawaii, Inc.; Kilauea Drama and Entertainment Network; and fifteen individuals.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Act 97, Session Laws of Hawaii 2011, established temporary cap amounts on itemized deductions for state income tax purposes. Your Committee recognizes that the limitation on itemized deductions has resulted in a disincentive for taxpayers to contribute to charitable organizations. This disincentive has caused a significant reduction in funding for charitable organizations throughout the State. Your Committee further finds that this measure restores the incentive for taxpayers to make contributions to charitable organizations.

Your Committee has amended this measure by:

- (1) Making clarifying amendments to the provision exempting charitable contributions from the cap amounts on itemized deductions;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for style and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1091, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 504      Ways and Means on S.B. No. 1174**

The purpose and intent of this measure is to make emergency appropriations for costs associated with the operations of the Office of the Lieutenant Governor for fiscal year 2012-2013.

More specifically, this measure appropriates:

- (1) \$131,759 to be used by the Office of the Lieutenant Governor for personnel expenses;
- (2) \$85,653 for the purpose of providing protective services to the Lieutenant Governor; and
- (3) \$105,000 for the planning, design, and construction for costs related to the operations of the Office of the Lieutenant Governor.

Your Committee received testimony in support of this measure from Office of the Governor, Office of the Lieutenant Governor, and Department of Accounting and General Services.

Your Committee finds that the recent appointment of Senator Brian Schatz to the United States Senate and the subsequent succession of former Senate President Shan S. Tsutsui to the Office of the Lieutenant Governor resulted in unanticipated costs. Upon Lieutenant Governor Tsutsui's acceptance of office, Governor Abercrombie authorized the establishment of an additional Lieutenant Governor's Office on the island of Maui to allow the Lieutenant Governor to conduct official business on his island of residence and support the Governor's vision of a non-Oahu centric administration.

Your Committee finds that the current budget for fiscal year 2012-2013 for the Office of the Lieutenant Governor does not provide sufficient funds to establish and staff an additional Lieutenant Governor's office, train and provide protection on Maui for the Lieutenant Governor, or fund other operational costs relating to the Office of the Lieutenant Governor. Your Committee therefore finds that additional funding for the unanticipated costs of the Office of the Lieutenant Governor is necessary to enable Lieutenant Governor Tsutsui to perform his obligations and duties.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to be used by the Office of the Lieutenant Governor from \$131,759 to \$126,690; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1174, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1174, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 505      (Majority) Ways and Means on S.B. No. 1184**

The purpose and intent of this measure is to conform the state income tax law to the Internal Revenue Code.

Prior to the public hearing on this measure, your Committee circulated for review and comment a proposed draft of this measure. The proposed draft amended the measure by deleting its contents and replacing them with conforming amendments to the state income tax law that are based on amendments made to the Internal Revenue Code from January 1, 2012, to January 2, 2013.

Your Committee received testimony in support of the proposed draft from the Department of Taxation.

Your Committee received comments on the proposed draft from the Tax Foundation of Hawaii.

Your Committee finds that the annual income tax conformity measure usually adopts the Internal Revenue Code as it exists on the last day of the preceding calendar year. However, due to protracted negotiations, the American Taxpayer Relief Act of 2012 was not signed into law until January 2, 2013. Your Committee further finds that the provisions of the proposed draft serve to ensure that all amendments to sections of the Internal Revenue Code that are operative for state purposes are updated.

Your Committee has amended this measure by replacing its contents with the contents of the proposed draft.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1184, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1184, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Kahele, Tokuda).

**SCRep. 506 (Joint) Agriculture and Public Safety, Intergovernmental and Military Affairs on S.B. No. 586**

The purpose and intent of this measure is to provide, under certain circumstances, an exemption from building code and permit requirements for nonresidential buildings or structures on commercial farms and ranches located outside the urban district.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation, Local Food Coalition, East Oahu County Farm Bureau, Maui Cattlemen's Association, Land Use Research Foundation of Hawaii, Orchid Growers of Hawaii, W.H. Shipman Limited, Hui O Malama Aina, Hawaii Aquaculture and Aquaponics Association, Primavera Aquaponics, Ulupono Initiative, and seven individuals. Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial Relations, County of Maui Department of Public Works, City and County of Honolulu Department of Planning and Permitting, and Historic Hawaii Foundation. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that current county building code and state building requirements are designed for commercial and residential buildings in urban areas and are not applicable to farm structures such as greenhouses, storage sheds, and fish tanks that pose little safety risk to the public. Your Committees further find that building code requirements are financially and logistically burdensome to farming and ranching operations and deter agricultural development and expansion. Your Committees conclude that the agricultural exemptions provided by this measure will significantly ease the financial and administrative burden on farmers and ranchers with minimal risk to the public safety.

Your Committees have amended this measure by inserting language ensuring that section 46-88(a), Hawaii Revised Statutes, trumps conflicting state laws.

As affirmed by the records of votes of the members of your Committees on Agriculture and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 586, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 586, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Thielen, Wakai, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 507 Ways and Means on S.B. No. 1206**

The purpose and intent of this measure is to clarify that the authority of the Director of Taxation includes the collection and general administration of all taxes.

The Department of Taxation submitted testimony in support of this measure. Your Committee received comments on this measure from Tax Foundation of Hawaii and a private citizen.

Your Committee finds that section 231-13, Hawaii Revised Statutes, is unclear as to whether it authorizes the Director of Taxation to collect and administer all taxes or only delinquent taxes. Your Committee further finds that the measure clarifies that the Department of Taxation shall be responsible for collecting and administering all taxes, including delinquent taxes, and authorizes third party compensation from taxes recovered from a taxpayer, which will provide for the more effective and efficient operation of the Department of Taxation.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1206, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1206, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Kahele, Kouchi, Tokuda).

**SCRep. 508 Technology and the Arts on S.B. No. 775**

The purpose and intent of this measure is to designate the Hawaiian hoary bat as the official state land mammal.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Conservation Council for Hawaii; Bat Conservation International; The Nature Conservancy; Humane Society of the United States, Hawaii Chapter; Livable Hawaii Kai Hui; and eight individuals.

Your Committee finds that the Hawaiian hoary bat, also known as Ōpeʻapeʻa, is Hawaii's only endemic land mammal. On October 13, 1970, the Hawaiian hoary bat was added to the United States Fish and Wildlife List of Endangered Species. This measure is necessary to raise awareness of the Hawaiian hoary bat as an endangered species and engender awareness of this uniquely Hawaiian land mammal.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 775 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Tokuda).

**SCRep. 509 Commerce and Consumer Protection on S.B. No. 200**

The purpose and intent of this measure is to require licensed social workers to complete a minimum of fifteen credit hours of continuing education courses for the licensing renewal period beginning July 1, 2013, through June 30, 2016, and forty-five credit hours of continuing education courses during each licensing renewal period beginning July 1, 2016, and thereafter.

Your Committee received testimony in support of this measure from the National Association of Social Workers, Hawaii Chapter; Hawaii Psychological Association; and nine individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that social workers need to be up-to-date on the latest developments in their field. It is important that licensed social workers have access to the best practices and innovations in the field of social work and can continue to provide quality services to an array of clients.

Your Committee further finds that every state except Colorado and Hawaii has continuing education requirements for social workers. Social workers provide critical services in prevention, intervention, and treatment to a broad spectrum of clientele, including vulnerable women, children, elderly, and families, who are often dealing with challenges such as gender-based violence, access to health care, issues relating to death and dying, and many other issues that intersect with gender in unique ways.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 200 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 510 Commerce and Consumer Protection on S.B. No. 608**

The purpose and intent of this measure is to:

- (1) Set content standards for physician continuing education regarding prevention and treatment of chronic disease through changes in nutrition and lifestyle;
- (2) Disseminate information regarding the prevention and treatment of chronic disease by the application of changes in nutrition and lifestyle behavior; and
- (3) Convene a working group to discuss nutrition and lifestyle behavior for the treatment and prevention of chronic disease at a Hawaii Medical Board meeting before July 1, 2016.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that seven out of ten deaths among Americans each year are from chronic diseases, and it is estimated that health care costs for chronic disease treatment account for over seventy-five percent of national health care expenditures. According to the World Health Organization, diet is a major factor in the cause of chronic diseases, but more than one-half of graduating medical students report that the time dedicated to nutrition instruction is inadequate. Your Committee finds that this measure is necessary to address the issues of nutrition and lifestyle behavioral change by requiring the Hawaii Medical Board to set content standards for continuing education, disseminate relevant information, and assemble a working group to discuss the treatment and prevention of chronic disease through changes in nutrition and lifestyle.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 608, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Taniguchi).

**SCRep. 511 (Majority) Commerce and Consumer Protection on S.B. No. 642**

The purpose and intent of this measure is to reduce the number of children and teenagers in Hawaii who smoke by requiring that tobacco products, including cigarettes, be stored for sale behind a counter in certain retail establishments.

Your Committee received testimony in support of this measure from the Coalition for a Tobacco Free Hawaii and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that tobacco products are the leading cause of preventable disease and death. Tobacco companies spend over \$42,000,000 per year on advertising for tobacco products in Hawaii. Retail stores, among others, are given incentives to place

tobacco advertisements and products in locations near cash registers to entice teenagers to experiment with smoking and stimulate impulse purchases.

Your Committee also finds that the World Health Organization has endorsed a ban of retail tobacco product displays as an effective method of reducing tobacco use, and the prohibition of self-service tobacco displays has been adopted or considered in a number of states.

Your Committee heard testimony that this measure may affect the ability of the Tobacco Enforcement Unit of the Department of the Attorney General to ascertain whether cigarettes are properly stamped with tax stamps and whether cigarettes are approved for sale in the State. However, your Committee is confident that the Department of the Attorney General will still be able to carry out its duties and notes that the Department of the Attorney General has been highly capable in enforcing similar issues related to liquor sales. Your Committee also notes that other states with laws placing tobacco products behind the counter have not experienced an adverse tax enforcement impact.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 642 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Solomon). Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 512 Commerce and Consumer Protection on S.B. No. 972**

The purpose and intent of this measure is to amend the Uniform Controlled Substances Act by:

- (1) Adding definitions of “electronic prescription”, “electronic prescription application”, and “electronic signature” to be consistent with federal law;
- (2) Adding conditions for the transmittal of prescriptions electronically by the practitioner to a pharmacy for schedule II, III, IV, or V controlled substances; and
- (3) Clarifying the prohibited acts involving electronic prescriptions.

Your Committee received testimony in support of this measure from CVS Caremark, Kaiser Permanente, Walgreens, Hawaii Medical Association, and one individual.

Your Committee finds that this measure allows prescribers who are registered and authorized to prescribe controlled substances, to electronically prescribe and electronically convey prescriptions for controlled substances listed in schedules II, III, IV, and V to a pharmacy of the patient’s choice. The electronic conveyance of prescriptions from prescribers to pharmacists provides a safer, more secure, and timely means to prescribe controlled substances in addition to the traditional method of providing the patient with a handwritten prescription.

Your Committee further finds that this measure eliminates or greatly reduces forgeries, lost prescription documents, and illegible handwriting, which contribute to medication errors, wasted time, and increased frustration for patients who need these medicines.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 972 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 513 Ways and Means on S.B. No. 891**

The purpose and intent of this measure is to improve the regulation of notaries by:

- (1) Requiring a notary public to include the notary public’s commission number on the notary public’s stamp or seal; and
- (2) Authorizing the Attorney General, by rulemaking, to adjust fees for the issuance and renewal of the original commission and to establish and adjust other fees.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee finds that inclusion of the notary public’s commission number on the notary public’s stamp or seal will serve numerous purposes, including the deterrence of fraudulent use of notary stamps or seals, ascertaining the identity of the notary public, tracking the notary public, and assisting in locating the record books of the notary public. In addition, establishing and adjusting fees through rulemaking will allow the Attorney General to adequately fund the notary public program without having to seek a statutory amendment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 891 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kouchi).

**SCRep. 514 Ways and Means on S.B. No. 1025**

The purpose and intent of this measure is to update the Hula Mae Single Family Mortgage Loan Program law to be consistent with federal law.

Specifically, the measure:

- (1) Allows broader program participation by potential homeowners;
- (2) Adds downpayment assistance as a program feature; and
- (3) Deletes statutory provisions relating to the inactive loans to lenders and purchases of existing loans programs.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and the Hawaii Housing Finance and Development Corporation. Your Committee received written comments on this measure from the Hawaii Association of Realtors.

Your Committee finds that affordable housing is still beyond the reach of many families, and not only the indigent and working poor. This measure will promote home ownership by allowing more households to obtain Hula Mae single family home loans.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1025 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 515 Technology and the Arts on S.B. No. 856**

The purpose and intent of this measure is to recognize Fred Korematsu and his commitment to preserving civil liberties by establishing January 30 of each year as "Fred Korematsu Day".

Your Committee received testimony in support of this measure from the American Civil Liberties Union, Hawaii Civil Rights Commission, Japanese American Citizens League, and numerous individuals.

Your Committee finds that Fred Korematsu is an American civil rights hero who refused to comply with Executive Order 9066 that mandated the incarceration of one hundred twenty thousand people of Japanese ancestry in 1942. After he was arrested and convicted for defying the executive order, Mr. Korematsu appealed his case to the United States Supreme Court. The Supreme Court ruled against him and held that the internment of Japanese-Americans was a military necessity.

In 1983, Mr. Korematsu reopened his case, and his conviction was overturned in federal court based on subsequently discovered evidence that the government hid evidence from the Supreme Court which showed that Japanese-Americans did not commit any acts of treason to justify mass evacuation, incarceration, and exclusion. In 1998, Mr. Korematsu was awarded the Presidential Medal of Freedom, the nation's highest civilian honor.

In 2010, California established January 30 of every year as "Fred Korematsu Day of Civil Liberties and the Constitution", making it the first permanent day named after an Asian American in United States history. Similarly, this measure establishes January 30 of every year as "Fred Korematsu Day" to celebrate, honor, and encourage public education and awareness of Fred Korematsu and his commitment to preserving civil liberties.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 856 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Tokuda).

**SCRep. 516 Commerce and Consumer Protection on S.B. No. 1106**

The purpose and intent of this measure is to allow a child care program licensed by the United States Department of Defense or the Hawaii Council of Private Schools to be exempt from licensing by the Department of Human Services; provided that the child care program licensed by the Hawaii Council of Private Schools must apply and show evidence that the licensing standards of the Council meet or exceed the licensing standards of the Department of Human Services for a comparable program, including a monitoring component.

Your Committee received testimony in support of this measure from the Department of Human Services and Hawaii Association of Independent Schools. Your Committee received testimony in opposition to this measure from the Hawaii Association for the Education of Young Children.

Your Committee finds that certain child care programs to be exempted under this measure are already licensed or certified by the United States Department of Defense, whose standards exceed the standards of the Department of Human Services.

For those child care programs licensed by the Hawaii Council of Private Schools, your Committee finds that this measure provides adequate protections to ensure that these child care programs meet or exceed the licensing standards of the Department of Human Services.

Your Committee has amended this measure by inserting an effective date of July 1, 2013.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1106, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1106, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 517 Ways and Means on S.B. No. 498**

The purpose and intent of this measure is to appropriate funds out of the emergency medical services special fund to establish and fund a Maalaea-based special emergency medical response unit on the island of Maui.

Your Committee received written comments in support of this measure from the Hawaii State Rural Health Association and the Healthcare Association of Hawaii.

Your Committee finds that the population in south and west Maui has grown rapidly in recent years, resulting in a significant increase in calls for emergency medical services. However, there are now only two ambulances that serve the residents of these districts, and it may take over forty-five minutes to reach the hospital if the ambulance is responding from an out-of-district location. Therefore, your Committee finds that funding an additional Maalaea-based special response vehicle will reduce critical response times and improve the chances of a good outcome for injured individuals.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified sum;
- (2) Changing the effective date from July 1, 2013, to July 1, 2050, to encourage further discussion on the matter; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 498, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 498, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 518 Ways and Means on S.B. No. 23**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to Kaiuli Energy, LLC.

More specifically, this measure assists with the financing of the planning, design, and construction of a seawater air conditioning district cooling facility and chilled water distribution system proposed by Kaiuli Energy, LLC.

Your Committee received written comments in support of this measure from the High Technology Development Corporation, Makai Ocean Engineering, Inc., Kaiuli Energy, and Ulupono Initiative.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that Kaiuli Energy, LLC, proposes to build a seawater air conditioning district cooling system to service Waikiki and nearby areas on Oahu using deep cold seawater as a source of cooling. Your Committee finds that the alternative method for cooling air will decrease energy usage in the serviced areas. Accordingly, your Committee finds that it is in the State's interest to assist in the financing of the project.

Your Committee has amended this measure by making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 23, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 23, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kouchi).

**SCRep. 519 Ways and Means on S.B. No. 1100**

The purpose and intent of this measure is to authorize the Department of Human Services to draw from other funds appropriated to the Department to maintain the level of General Assistance benefits payments set at the beginning of each fiscal year for the entire fiscal year.

Your Committee received written comments in support of this measure from the Department of Human Services.

Your Committee finds that the General Assistance Program of the Department of Human Services provides financial assistance to disabled individuals without minor dependents. Because the General Assistance Program is a block grant program involving a fixed amount, assistance levels are determined at the beginning of the fiscal year based on the number of people in the community who require assistance. If the number of General Assistance recipients rises, the amount of assistance per recipient must be reduced.

Your Committee also finds that, in fiscal year 2011-2012, an increase in the Department's General Assistance caseload necessitated an emergency appropriation by the Legislature to prevent a severe reduction in the benefit payment amount afforded to program recipients. In the current fiscal year, a projected rise in the General Assistance caseload has already prompted a reduction in the benefit payment amount. Your Committee further finds that this measure will permit the Department of Human Services to utilize savings from other programs, when necessary, to stabilize payment levels and eliminate the need to request emergency appropriations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1100, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1100, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 520 Commerce and Consumer Protection on S.B. No. 102**

The purpose and intent of this measure is to require financial institutions to report instances of suspected financial abuse of an elder directly to the appropriate county police department instead of the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Bankers Association, Hawaii Credit Union League, and one individual. Your Committee received testimony in opposition to this measure from the Maui Police Department. Your Committee received comments on this measure from the John A. Burns School of Medicine at the University of Hawai'i.

Your Committee finds that elder financial exploitation is a growing problem in Hawaii. Although this measure requires financial institutions to report instances of suspected financial abuse of an elder to the appropriate county police department, your Committee further finds that it will be more efficient and effective to require a dual system of reporting to the Department of Human Services and the appropriate county police department.

Your Committee additionally finds that the Department of Human Services and interested financial institutions have been engaged in ongoing discussions on this measure. Consensus language has been reached by the interested parties, which would require the mandatory reporting of suspected financial abuse of elders by the financial institutions to the Department of Human Services and the appropriate county police departments. Amendments to this measure to incorporate this consensus language are therefore necessary.

Accordingly, your Committee has amended this measure by:

- (1) Requiring suspected financial abuse to be reported to the Department of Human Services in addition to the appropriate county police department;
- (2) Requiring the Department of Human Services to proceed in accordance with chapter 346, Hawaii Revised Statutes, upon notification by a financial institution of suspected financial abuse and a determination of the Department's jurisdiction over the elder;
- (3) Requiring the county police department to proceed with a criminal investigation in a timely manner upon notification by a financial institution of suspected financial abuse; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 102, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 102, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 521 Commerce and Consumer Protection on S.B. No. 400**

The purpose and intent of this measure is to require child care facilities, including family child care homes, group child care centers, and group child care homes, and infant and toddler child care centers that care for children one year of age or younger to develop, maintain, and implement safe sleep policies to prevent sudden unexpected infant deaths and sudden infant death syndrome.

Your Committee received testimony in support of this measure from the March of Dimes Foundation and two individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that sudden unexpected infant death is a broad term that refers to the sudden death of an infant less than one year of age where the specific cause of death is not immediately obvious prior to investigation. Sudden infant death syndrome is the sudden death of an infant less than one year of age where the death cannot be explained even after a thorough investigation. It is the leading cause of death in babies between one month and one year of age and babies between two and four months old are the most vulnerable to sudden infant death syndrome. Your Committee further finds that the American Academy of Pediatrics reports that one in five deaths from sudden infant death syndrome occurs while an infant is in the care of someone other than a parent. This measure ensures that all registered or licensed child care providers in Hawaii will have policies in place to maintain safe sleep environments for infants.

Your Committee has amended this measure by:

- (1) Clarifying that all child care facilities shall implement and maintain a written safe sleep policy in accordance with any rules that may be adopted by the Department of Human Services to implement the provisions of the new section in chapter 346, Hawaii Revised Statutes; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 400, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 400, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 522 Commerce and Consumer Protection on S.B. No. 490**

The purpose and intent of this measure is to require:

- (1) The Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and State Board of Nursing to collaborate with the Center for Nursing to enable the Center to obtain nursing-related data;
- (2) The Professional and Vocational Licensing Division to provide the Center for Nursing with various types of information through a memorandum of understanding; and
- (3) The completion of a survey developed by the Center for Nursing as part of the licensure renewal requirements of chapter 457, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawai'i State Center for Nursing, University of Hawai'i at Manoa School of Nursing and Dental Hygiene, University of Hawaii at Hilo School of Nursing, University of Hawai'i Maui College, Healthcare Association of Hawaii, Castle Medical Center, Hawai'i Pacific Health, American Association of Nurse Practitioners, Hawai'i Association of Professional Nurses, and six individuals. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Hawaii State Board of Nursing, and one individual.

Your Committee finds that this measure requires the Hawaii State Board of Nursing and the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs to provide nurse license contact information to the Hawaii State Center for Nursing. This will enable the Center for Nursing to contact nurses and obtain workforce data to be used to determine the current and future trends of the nursing workforce. This measure will also ensure that nurses licensed in Hawaii are able to contribute to and receive information on practice and regulatory changes, state and federal initiatives, and nursing research, thus promoting quality nursing care throughout the State.

Your Committee has heard the concerns raised in the testimony regarding nursing-related data, the memorandum of understanding between the Professional and Vocational Licensing Division and the Hawaii State Center for Nursing, and other issues. Your Committee notes that the term "nursing-related data" can be further delineated in the memorandum of understanding. Other concerns raised by the Professional and Vocational Licensing Division can be addressed through the memorandum of understanding, which should also be used to establish additional details relating to the parameters of this measure with the laws applicable to both the Professional and Vocational Licensing Division and the Center for Nursing.

Your Committee is encouraged by the continuing dialogue between the Professional and Vocational Licensing Division, Hawaii State Board of Nursing, and Hawaii State Center for Nursing. Certain amendments to this measure are therefore necessary as a product of the collaborative efforts between these entities.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that a survey developed and deemed necessary by the Center for Nursing shall be requested, rather than required, as part of the license renewal process for nurses;
- (2) Amending certain duties to be included in the memorandum of understanding to be responsibilities of the Center for Nursing, rather than of the Professional and Vocational Licensing Division;
- (3) Removing potentially misleading language that stated the Center for Nursing shall abide by the requirements of chapter 92F, Hawaii Revised Statutes, as the Center for Nursing is already governed by the requirements of this chapter; and
- (4) Amending the purpose section for clarity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 490, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Taniguchi).

**SCRep. 523 Commerce and Consumer Protection on S.B. No. 506**

The purpose and intent of this measure is to:

- (1) Clarify that licensing authorities shall consider relevant education, training, or service completed by service members;
- (2) Specify which service members are subject to these provisions;
- (3) Permit licensure by endorsement or licensure by reciprocity in certain situations for service members;
- (4) Permit issuance of a temporary license if certain requirements are met; and
- (5) Require the licensing authority to expedite consideration of the application and issuance of a license by endorsement, license by reciprocity, or temporary license to a qualified service member.

Prior to the hearing on this measure, your Committee made available for public review a proposed S.D. 2 of this measure. The proposed S.D. 2 deleted the substantive provisions of this measure and inserted language to:

- (1) Clarify that licensing authorities that consider relevant education, training, or service of a military veteran applicant and determine the applicant meets or exceeds the requirements for licensure in Hawaii shall not then require the applicant to take a national or regional exam;
- (2) Amend the purpose section for clarity; and
- (3) Change the effective date to July 1, 2013.

Your Committee received testimony in support of the proposed S.D. 2 from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to the proposed S.D. 2 from the Hawaii Dental Association, Hawaii Society of Professional Engineers, Hawaii Association of Public Accountants, Hawaii Society of Certified Public Accountants, and thirty-one individuals. Your Committee received comments on the proposed S.D. 2 from the American Institute of Architects.

Your Committee finds that when Act 248, Session Laws of Hawaii 2012 (Act 248), was enacted, the intent was to allow the licensing authorities in Hawaii to consider military education, training, or service that was equivalent to civilian education, training, or service. This proposed S.D. 2 was not intended to circumvent any of the existing licensing standards for the different licensing authorities in the State. Rather, the proposed S.D. 2 is intended to provide additional clarity to Act 248. The proposed S.D. 2 is also intended to demonstrate Hawaii's continuing commitment to the nationwide effort to facilitate military veterans' transition to post-service employment, including those military veterans who are from Hawaii and wish to find post-service employment in their home state.

Your Committee has heard the concerns that the proposed S.D. 2 would exempt certain military veteran applicants from having to take a national or regional exam. Your Committee is aware that examination requirements are specific to each licensing authority and represent a key component of the licensing process for various professions and vocations in the State. Because required examinations are different for each licensing authority, certain statutes and rules specific to each licensing area need to be taken into account. Amendments to this measure are therefore needed to address specific concerns raised in testimony.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 2 and further amending the measure by:

- (1) Clarifying that licensing authorities that consider relevant education, training, or service of a military veteran applicant and determine the applicant meets or exceeds the requirements for licensure in Hawaii shall accept the results of the passage of a national or regional exam accepted by statute or rule in the specific licensing area or the equivalent as determined by the licensing authority;
- (2) Requiring a certificate or other evidence satisfactory to the licensing authority of having passed a national or regional exam or the equivalent to be provided to the licensing authority; and
- (3) Amending the purpose section for consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 506, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Solomon, Taniguchi, Slom).

**SCRep. 524 Commerce and Consumer Protection on S.B. No. 19**

The purpose and intent of this measure is to:

- (1) Exempt landlords and lessors who install renewable energy systems on their property and provide or sell power generated from the renewable energy system to an electric utility or lessee or tenant from the definition of "public utility"; and
- (2) Require that the rate schedule charged to the lessee or tenant for the power generated by the renewable energy system is fixed by the lease agreement.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Distributed Energy Partners; NAIOP Hawaii; Hawaiian Electric Company, Inc.; Blue Planet Foundation; Sierra Club, Hawai'i Chapter; Hawai'i Association of REALTORS; Forest City Hawaii; Carmel Partners; GSF, LLC; and thirteen individuals. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that this measure provides an opportunity for renters to be able to benefit from the cost-savings of renewable energy systems, such as solar photovoltaic systems, without having to incur the cost of installing the systems themselves. This measure also provides landlords with investment opportunities that could ultimately benefit landlords and tenants.

Your Committee has heard the concerns that this measure may introduce the potential for wheeling energy. In situations where a landlord or lessor is located on the same or contiguous property, but is separately metered from the tenants to the electric utility's system, the utility would be required to wheel electrical energy between the landlord or lessor and the tenant through the utilities distribution system. Because wheeling is a complex process that raises many issues, amendments to this measure are necessary.

Your Committee has also heard the concerns that tenants and lessees who may not have bargaining power equal to that of landlords and lessors may not receive the appropriate cost-savings benefits contemplated by this measure. Amendments to this measure are therefore necessary to ensure adequate protection for tenants and lessees.

Accordingly, your Committee has amended this measure by:

- (1) Addressing the potential problems of wheeling energy by requiring renewable energy systems to be limited to properties where the owner or lessor and the tenant are served by the same utility meter and service connections;
- (2) Specifying that tenants and lessees shall not be required to pay their respective landlords or lessors an amount that exceeds the rate charged by the electric utility; and

- (3) Specifying that any disputes over the rate schedule charged to the lessee or tenant for the power generated by the renewable energy system shall be resolved pursuant to the provisions of the lease agreement or chapter 521, Hawaii Revised Statutes, as applicable.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 19, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 19, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Solomon, Taniguchi, Slom).

**SCRep. 525 (Majority) Commerce and Consumer Protection on S.B. No. 652**

The purpose and intent of this measure is to:

- (1) Restrict the placement of and advertisements for cigarettes and tobacco products, with certain exceptions;
- (2) Include electronic cigarettes under the definition of “tobacco” and “tobacco products”; and
- (3) Prohibit the sale of electronic cigarettes to minor and the purchase of electronic cigarettes by minors.

Your Committee received testimony in support of this measure from the Coalition for a Tobacco-Free Hawai‘i and thirty-five individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General and three individuals. Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that smoking and tobacco use remain Hawaii’s and the nation’s leading cause of preventable morbidity and mortality. Tobacco companies spend millions of dollars each year in Hawaii on advertising, marketing, and promotions to attract “replacement smokers.” Every year, approximately 1,500 Hawaii youth become new daily smokers.

Your Committee further finds that tobacco products are usually located on the counter at the point of sale in most convenience stores, where they are easily accessible. Research has shown that preventing the display of tobacco products leads to a decrease in the number of children and youth experimenting with and becoming addicted to tobacco products.

Your Committee has heard the concerns that there are potential constitutional issues associated with the advertising placement restrictions in this measure. Your Committee concludes that a task force should be convened to explore these issues and other concerns related to advertising and placement of cigarettes and other tobacco products. Therefore, amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have restricted the placement of and advertisements for cigarettes and tobacco products, with certain exceptions;
- (2) Specifying that it shall be unlawful to sell or furnish tobacco in any shape or form, including chewing tobacco, snuff, and electronic cigarettes, to a minor under eighteen years of age;
- (3) Requiring the Department of Health to convene the Smoking Prevention Among Children and Youth Task Force to develop potential legislation that addresses concerns related to advertising and product placement promoting or encouraging the purchase or use of cigarettes or other tobacco products by children and youth;
- (4) Requiring the Smoking Prevention Among Children and Youth Task Force to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2014;
- (5) Amending the purpose section for clarity; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 652, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Solomon). Noes, 1 (Slom). Excused, 2 (Nishihara, Taniguchi).

**SCRep. 526 Commerce and Consumer Protection on S.B. No. 914**

The purpose and intent of this measure is to authorize the Governor to appoint commissioners of deeds to administer oaths, take acknowledgements, and take proofs of execution outside of the United States in connection with the execution of conveyance documents relating to a timeshare interest, any property subject to a time share plan, or the operation of a time share plan covering any property located within the State.

Your Committee received testimony in support of this measure from Disney Vacation Development, Inc.; SVO Pacific, Inc.; Wyndham Vacation Ownership; and American Resort Development Association – Hawaii.

Your Committee finds that deeds of timeshare interests in Hawaii timeshare plans must be notarized in order to be recordable. Although this is not typically a problem for deeds signed in Hawaii or in other states, it can pose a problem in jurisdictions outside of the United States in which notaries public are not common. Furthermore, the existing process for recordation of deeds signed outside the United States is cumbersome and can be expensive.

This measure helps streamline the process for consumers who are located abroad and wish to purchase a time share property in Hawaii by authorizing the Governor to appoint commissioners of deeds. This measure permits a commissioner of deeds to take acknowledgements and proofs of execution of a consumer's signature on all necessary paperwork and enables the document to be properly recorded in accordance with Hawaii law. This will facilitate the sale of timeshare units located in Hawaii and benefit Hawaii properties and businesses.

Your Committee has received language from the time share industry that offers greater consumer protection, including notice requirements, bonding, and liability issues. Your Committee concludes that amendments to this measure are necessary to incorporate these consumer protections.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the new chapter on time share commissioners of deeds shall not be construed as repealing or amending chapter 502, Hawaii Revised Statutes;
- (2) Requiring a commissioner of deeds to provide consumers a written notice informing consumers they may have rights under Hawaii law; and allowing the Lieutenant Governor to establish penalties by rule for failure of a commissioner to provide written notice;
- (3) Establishing bonding requirements for commissioners of deeds;
- (4) Specifying liabilities and limitations on liabilities for commissioners of deeds; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 914, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Solomon, Taniguchi, Slom).

**SCRep. 527 Commerce and Consumer Protection on S.B. No. 1209**

The purpose and intent of this measure is to authorize the Director of Transportation, upon application, to issue a written permit authorizing an applicant to vend in the airspace above a state highway.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that this measure specifically addresses the types of vending activities that are prohibited on state highways. This measure authorizes the Director of Transportation to make exceptions to section 264-101, Hawaii Revised Statutes, for certain activities within the interstate airspace pursuant to a written permit, subject to terms and conditions that are in the best interest of the State. This measure also ensures that legal provisions in the enforcement against unauthorized vending activities are consistent with certain county ordinances.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1209, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Solomon, Taniguchi, Slom).

**SCRep. 528 Judiciary and Labor on S.B. No. 4**

The purpose and intent of this measure is to require all front and back seat passengers to be restrained by a seat belt assembly or child passenger restraint while the motor vehicle is being operated upon any public highway.

Your Committee received testimony in support of this measure from the Department of Health; Department of Transportation; Police Department, City and County of Honolulu; Police Department, County of Maui; Mothers Against Drunk Driving Hawaii; State Farm Mutual Automobile Insurance Company; and eight individuals. Testimony in opposition to this measure was submitted by two individuals.

Your Committee finds that there is a need for all motor vehicle occupants to be restrained by a seat belt or child passenger restraint while riding in a motor vehicle being operated on any public roadway. Existing law requires passengers up to age seventeen to wear seat belts in the back seat. According to the National Highway Traffic Safety Administration, seat belt restraints for all occupants increase the safety of all motor vehicle occupants by as much as forty-five percent. Seat belts are one of the most effective safety features and have saved the lives of thousands of motor vehicle occupants.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 529 Judiciary and Labor on S.B. No. 442**

The purpose and intent of this measure is to:

- (1) Amend the misdemeanor offense of promoting intoxicating liquor to a person under twenty-one years of age to apply to person who recklessly, rather than knowingly, commits the offense; and

- (2) Apply the offense to liquor licensees who provide liquor to any minor or allow a minor to consume liquor.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, County of Maui; Police Department, County of Maui; Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kaua'i; Liquor Commission, City and County of Honolulu; and Police Department, City and County of Honolulu. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that this measure will change the level of intent to satisfy the elements of this law from knowingly to recklessly. Your Committee believes that this measure will help increase compliance with the law by necessitating identification checks, at minimum, for those that hold liquor licenses as well as hold accountable those persons who allow or influence the sale, possession, or consumption of alcohol to a person under the age of twenty-one.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ihara).

**SCRep. 530      Judiciary and Labor on S.B. No. 453**

The purpose and intent of this measure is to propose an amendment to article X, section 6, of the Hawaii State Constitution to repeal the requirement that the Governor make appointments to the Board of Regents of the University of Hawaii from pools of qualified candidates presented to the Governor by the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Candidate Advisory Council).

Your Committee received testimony in support of this measure from the Policy Office of the Governor. Testimony in opposition to this measure was submitted by the University of Hawaii Regents Candidate Advisory Council.

Your Committee finds that it has become clear that the Governor will not be able to adequately select nominees to the Board of Regents unless the Governor has more control and involvement in the recruitment and selection process. Your Committee believes that it is appropriate to reassess and seriously consider repealing the Candidate Advisory Council. This measure will allow voters to consider whether the Candidate Advisory Council should no longer be constitutionally mandated and authorize the Governor to make appointments as provided by law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 453 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 531      Judiciary and Labor on S.B. No. 1179**

The purpose and intent of this measure is to modify existing law relating to court orders to provide medical treatment for inmates and detainees in correctional facilities. Specifically, this measure:

- (1) Adds definitions of "danger of physical harm to others" and "danger of physical harm to self";
- (2) Provides for the filing of a petition for involuntary medical treatment in either the district or circuit court;
- (3) Allows for a declaration to be filed with the petition as an alternative to an affidavit;
- (4) Changes the time within which a person must be examined from two to five days prior to the filing of a petition;
- (5) Amends the list of persons who are required to be notified of the hearing on the petition;
- (6) Expands the court's ability to continue the hearing on the petition for good cause;
- (7) Provides the court greater flexibility in determining when a guardian ad litem is necessary; and
- (8) Clarifies the effective expiration date of the order for persons who return to custody after release.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of the Attorney General.

Your Committee finds that this measure allows for a more efficient and responsive court process, enabling medical staff in various correctional facilities to provide critical and necessary medical treatment in a more timely fashion. This measure will help to improve the mental and physical status of inmates. Furthermore, this measure expedites the notification process by restricting notification to those parties whom the inmate has designated as an emergency contact or legal guardian while in the custody of the Department of Public Safety.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1179, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 532      Judiciary and Labor on S.B. No. 8**

The purpose and intent of this measure is to:

- (1) Prohibit the owner of a pet animal and the owner's employees from performing any surgical procedure, including but not limited to surgical birth, ear cropping, tail docking, dewclaw removal, and debarking on the pet animal without being licensed as a veterinarian;
- (2) Establish that intentionally or knowingly performing any surgical procedure, including but not limited to surgical birth, ear cropping, tail docking, dewclaw removal, and debarking, on a pet animal by any person not licensed as a veterinarian is a class C felony; and
- (3) Specify that accepted veterinary practices and cropping or docking as customarily practiced shall not be considered cruelty to animals in the first degree if performed by a veterinarian licensed under chapter 471, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, The Humane Society of the United States, Hawaii Veterinary Medical Association, West Hawaii Humane Society, and fifty-seven individuals. Testimony in opposition to this measure was submitted by eight individuals. Your Committee received comments on this measure from the Board of Veterinary Examiners; Last Resort Dog Rescue, LLC; and two individuals.

Your Committee finds that surgical procedures, including surgical birth, ear cropping, tail docking, dewclaw removal, and debarking, are extremely painful to a pet animal if performed improperly by someone other than a licensed veterinarian. Serious infection, shock, and even death of a pet animal can result when these procedures are performed by non-veterinarians.

Your Committee further finds that pet animals that undergo these surgical procedures require proper pre- and post-operative care and anesthesia to reduce complications, blood loss, and distress. This measure therefore promotes the humane treatment of pet animals by ensuring that pet animals undergoing surgical procedures will do so under the care of an appropriately licensed veterinarian.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 8, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 533      Judiciary and Labor on S.B. No. 1180**

The purpose and intent of this measure is to require the Department of Public Safety to:

- (1) Make certain considerations when determining whether a substance should be emergency scheduled; and
- (2) Post a public notice at the State Capitol, in the Office of the Lieutenant Governor, and on the Department's website thirty days prior to the effective date of any emergency scheduling of a substance.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of the Attorney General.

Your Committee finds that section 329-11(e), Hawaii Revised Statutes, permits the Administrator of the Narcotics Enforcement Division of the Department of Public Safety (NED) to place new drugs into the controlled substances schedules on an emergency basis but does not presently contain clear notice provisions. The emergency scheduling provision is important because it allows law enforcement to combat new "designer" drugs that are constantly being created in order to skirt the Uniform Controlled Substances Act.

This measure will require the NED Administrator to provide thirty days' notice to the public before emergency scheduling goes into effect and clarify where notice is to be posted. The measure also clarifies which factors the Administrator must consider in determining whether to add certain drugs to the controlled substance schedules via the emergency scheduling process. These amendments are necessary to address legal requirements of notice, due process, and delegation powers.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1180 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 534      Education on Gov. Msg. Nos. 615, 616, and 617**

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I TEACHER STANDARDS BOARD

- G.M. No. 615    LOUISE CAYETANO, for a term to expire 6-30-2016;  
G.M. No. 616    JUSTIN MEW, for a term to expire 6-30-2016; and  
G.M. No. 617    FELICIA VILLALOBOS, for a term to expire 6-30-2016

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Louise Cayetano, Justin Mew, and Felicia Villalobos to possess the requisite qualifications to be nominated to the Hawai'i Teacher Standards Board.

LOUISE CAYETANO

Your Committee received testimony in support of the nomination of Louise Cayetano from the Governor, Hawaii State Teachers Association, and five individuals.

Ms. Cayetano attended the University of Hawai'i at Manoa and Central Washington State University. She is currently a fifth grade teacher at Mayor Joseph J. Fern Elementary School in Honolulu. Ms. Cayetano previously taught at Leihoku Elementary School and Lanakila Elementary School.

Ms. Cayetano has served as a member of the Hawaii Science Teachers Association and the Executive Board of the Hawaii State Teachers Association. She has also served as a board member of the Alliance for Drama Education and is a member of the Hawaii Epsilon Chapter of Alpha Delta Kappa.

Ms. Cayetano has been successful in working with the University of Hawaii to earn Fern Elementary the technological tools, such as videoconferencing equipment, to allow her students to form partnerships with schools in Samoa and Japan. Ms. Cayetano was also instrumental in bringing the Asian, European, Pacific Language foreign language program to Fern Elementary. Ms. Cayetano is constantly looking for ways to provide her students with broader educational opportunities.

Ms. Cayetano currently serves as a member of the Hawai'i Teacher Standards Board.

Ms. Cayetano expressed to your Committee that she wishes to continue serving on the Hawai'i Teacher Standards Board because she believes that all students deserve highly qualified teachers who can provide them with the necessary skills to become productive citizens.

Ms. Cayetano expressed to your Committee that it is important that the Board foster more connectivity with teachers in smaller communities and rural areas.

#### JUSTIN MEW

Your Committee received testimony in support of the nomination of Justin Mew from the Governor and seven individuals.

Your Committee finds that Mr. Mew received his Bachelor's degree in Education and Master's degrees in Secondary Education and Educational Administration from the University of Hawai'i.

Mr. Mew is currently the Principal of Niu Valley Middle School. He previously served as the Principal of Aina Haina Elementary School, Vice Principal of Moanalua Intermediate School, Vice Principal of Aiea Intermediate School, and as a State Science Education Specialist.

Mr. Mew has received numerous awards and accolades and was named the Hawaii State Middle School Principal of the Year in 2011. In 2012, Mr. Mew was named Educator of the Year by Hawaii Smart Business.

Mr. Mew is a current member of the Hawai'i Teacher Standards Board and provides the Hawai'i Teacher Standards Board with the perspective of a sitting principal and a trained/certified teacher intake interviewer for the Department of Education. These roles have given Mr. Mew the experience of evaluating teachers for hiring and continued employment.

As a current member of the Hawai'i Teacher Standards Board, Mr. Mew has been integral in helping to develop the Hawaii Teacher Standards Board's strategic plan for 2011-2015.

Mr. Mew stressed to your Committee the importance of having highly qualified and highly effective teachers in the classroom in order to support maximum student learning and growth. It is Mr. Mew's belief that there is a direct correlation between teacher quality and student achievement. As such, Mr. Mew sees the responsibilities of the Hawai'i Teacher Standards Board to include establishing strong licensure standards and policies, prepare teachers for licensing, and screening out those who do not meet the standards.

Your Committee believes that Mr. Mew will continue to bring valuable experience, knowledge, and leadership to the Hawai'i Teacher Standards Board.

#### FELICIA VILLALOBOS

Your Committee received testimony in support of the nomination of Felicia Villalobos from the Governor, Hawaii State Teachers Association, and six individual.

Your Committee finds that Ms. Villalobos received a Bachelor's degree in Liberal Studies from California State University at Fresno. She went on to receive a Master's degree in Education from the University of Hawai'i at Manoa.

Ms. Villalobos has served as an elementary school teacher for the past ten years and is currently a first grade teacher at Wilcox Elementary on the Island of Kaua'i.

Ms. Villalobos also serves as a mentor to student teachers at the University of Hawai'i at Manoa and is a Hawaii delegate to the National Education Association.

Ms. Villalobos testified that as a member of the Hawai'i Teacher Standards Board, she has helped to facilitate a stronger line of communication between the Board and teachers on Kaua'i, where Ms. Villalobos resides. Most recently, Ms. Villalobos has worked with the Homegrown Teacher Program on Kaua'i to inform new teachers on the island of the role of the Hawai'i Teacher Standards Board and teacher licensing requirements.

Your Committee finds that Ms. Villalobos' commitment and passion for education continue to make her an outstanding asset to the Hawai'i Teacher Standards Board.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ruderman).

**SCRep. 535      Judiciary and Labor on S.B. No. 960**

The purpose and intent of this measure is to establish a notice of postponement or cancellation of sale requirement under part IA, chapter 667, Hawaii Revised Statutes, relating to judicial foreclosures.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Community Associations Institute Hawaii Chapter, and one individual.

Your Committee finds that pursuant to Act 48, Session Laws of Hawaii 2011, the foreclosing mortgagee in a nonjudicial foreclosure is legally required to provide notice of the postponement or cancellation of the public sale to specific persons. It is prohibited conduct for a foreclosing mortgagee to fail to notify identified persons and entities of the postponement or cancellation of a nonjudicial foreclosure sale. Although the protections relating to the postponement or cancellation of sale apply to nonjudicial foreclosures, there is not a similar requirement for judicial foreclosures under part IA, chapter 667, Hawaii Revised Statutes. This measure applies the existing protections for nonjudicial foreclosures to mortgagors and borrowers involved in the judicial foreclosure process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 960, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 536      Judiciary and Labor on S.B. No. 1183**

The purpose and intent of this measure is to:

- (1) Require intake service centers to provide pretrial bail reports to the courts on adult offenders that are consented to by the defendant or that are ordered by the court;
- (2) Provide statutory authority to the courts to treat information contained in the pretrial bail reports as confidential; and
- (3) Repeal the intake service centers' duty to assist in the conduct of presentence assessments on adult offenders and the preparation of presentence reports when requested by the courts.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that this measure provides clear language identifying the intake service centers' core responsibility in providing bail reports to the court. This measure will allow courts to receive detailed information, such as the defendant's medical, mental health, and substance abuse history, to assist with pretrial release decision-making. This measure will also protect defendants from having the confidential information contained in these reports made public, thereby exposing them to potential identity theft.

Your Committee has amended this measure by:

- (1) Adopting the amendment suggested by the Department of Public Safety to delete language relating to pretrial assessment on adult offenders that are consented to by the defendant or that are ordered by the court under section 353-10(a)(3)(A), Hawaii Revised Statutes;
- (2) Adding an amendment to section 14 of Act 139, Session Laws of Hawaii 2012, to change the form of section 353-10, Hawaii Revised Statutes, among other sections, that will be effective upon reenactment of that section pursuant to section 14 of Act 139, Session Laws of Hawaii 2012;
- (3) Adding language to ensure that the amendments made to section 353-10, Hawaii Revised Statutes, by this measure will not be repealed on July 1, 2018, pursuant to section 14 of Act 139, Session Laws of Hawaii 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1183, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1183, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 537      Judiciary and Labor on S.B. No. 341**

The purpose and intent of this measure is to:

- (1) Determine the priority of the persons who may direct the disposition of a decedent's remains and the arrangements for funeral goods and services;
- (2) Permit funeral establishments, cemeteries, mortuaries, and crematories to rely and act upon written directions from the decedent or persons who have the right of disposition without liability, with certain exceptions; and
- (3) Permit funeral establishments, cemeteries, mortuaries, and crematories to control the disposition and dispose of a decedent's remains in certain circumstances.

Your Committee received testimony in support of this measure from the Mililani Group, Inc.; Leeward Funeral Home; Oahu Cemetery Association; Hawaii Funeral and Cemetery Association, Inc.; Hawaiian Memorial Life Plan, Ltd.; Hosoi Garden Mortuary, Inc.; Hawaii Association for Justice; and one individual.

Your Committee finds that funeral establishments, cemeteries, mortuaries, and crematories are often approached by persons who had a relationship to a decedent and who wish to direct or assist with the disposition of the decedent's remains. In a best case scenario, the decedent's wishes regarding disposition are indicated in a written instrument, the establishments have a record of the decedent's wishes, and there is no contrary wish of any surviving person. However, in some situations, the decedent may not have provided written directions for disposition or there may be a dispute amongst the decedent's survivors over the decedent's wishes.

Your Committee further finds that forty-eight states have enacted legislation that specifies the priority of persons who may control the disposition of a decedent's remains or the arrangements for funeral goods and services. This measure permits Hawaii to join these other states by clearly establishing the priority of the persons who may control the disposition of a decedent's remains and the arrangements for funeral goods and services, and providing certainty for funeral establishments, cemeteries, mortuaries, and crematories to take direction from these persons and promptly provide needed services.

Your Committee has amended this measure by:

- (1) Clarifying that immunity from civil and criminal liability applies only to establishments or persons who reasonably rely in good faith upon the instructions of an individual claiming the right of disposition; and
- (2) Deleting language that specifies that the immunity does not apply to gross negligence or intentional, willful, or wanton conduct.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 341, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 341, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 538 Commerce and Consumer Protection on S.B. No. 512**

The purpose and intent of this measure is to provide an exception to the licensing requirements for electrical contractors in situations when an electric utility must hire contractors licensed in another state to assist with high voltage work.

Your Committee received testimony in support of this measure from the Hawaiian Electric Company, Inc. Your Committee received testimony in opposition to this measure from the Contractors License Board; Board of Electricians and Plumbers; International Brotherhood of Electrical Workers, Local Union 1186; and Hawaii Building and Construction Trades Council, AFL-CIO.

Your Committee finds that most in-state electrical workers are only experienced in low voltage work that is common in most homes and commercial buildings. High voltage work requires additional skills, training, tools, and equipment. Your Committee further finds that in an emergency situation, an electric utility may need to contract with qualified out-of-state high voltage workers to safely assist the utility with activities including storm restoration, complex maintenance, and repair work.

Your Committee has heard the concerns that this measure, as introduced, exempts out-of-state electrical contractors from chapter 448E, Hawaii Revised Statutes, at any time. Your Committee additionally finds that amendments to this measure are necessary to provide a very narrow exemption to the licensing requirements for specific individuals in situations where an electric utility must contract with qualified out-of-state individuals to work with high voltage.

Your Committee understands that the International Brotherhood of Electrical Workers, Local Union 1186, is beginning an apprenticeship program for high voltage work, which should alleviate the need to contract with out-of-state workers trained in high voltage. Your Committee concludes that a sunset provision for this measure is necessary. The sunset provision will allow an electric utility to contract with qualified out-of-state high voltage workers in emergency situations until in-state workers are appropriately trained through a high voltage apprenticeship program.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have provided an exception for electrical contractors retained by a public utility to perform high voltage electrical work, including emergency repair or maintenance work, from the licensing requirements of chapter 448E, Hawaii Revised Statutes, and section 444-9.5, Hawaii Revised Statutes;
- (2) Inserting language that provides a limited exemption to the licensing requirements for certain individuals in situations where an electric utility must contract with qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in Hawaii but are deemed qualified and authorized to perform high voltage work by another jurisdiction in the United States;
- (3) Amending the purpose section for clarity;
- (4) Amending its effective date to include a repeal date of June 30, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 512, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 512, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Solomon). Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 539 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 1265**

The purpose and intent of this measure is to exempt an owner's agreement with an attorney to file a claim as to identified property or contest the administrator's denial of a claim from the application of the entire section 523A-25, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Collection Law Section of the Hawaii State Bar Association.

Your Committees find that Act 229, Session Laws of Hawaii 2012, limited compensation for the recovery of property presumed abandoned to ten percent of the total value of the property. Your Committees further find that the majority of property held by the Department of Budget and Finance is valued at less than \$5,000. If any difficulties are encountered when attempting to release property from the Department of Budget and Finance, the cost to hire an attorney will increase beyond the ten percent limit in all but the largest of cases. The ten percent limit on compensation for recovery therefore creates a barrier for members of the public who wish to hire an attorney to assist with the recovery of unclaimed funds or property.

Your Committees understand that there are valid reasons for establishing a maximum ten percent fee structure for professional unclaimed property locators. Your Committees also understand the potential barriers to the public that result from extending the ten percent limit on compensation to attorneys. However, your Committees believe that it is more appropriate to increase the limit on compensation for attorneys to twenty-five percent of the total value of the property, rather than completely removing the limit on compensation. Amendments to this measure are therefore necessary to ensure that members of the public are still able to retain attorneys to handle the claims process, while also ensuring that attorneys' fees for this process remain at reasonable levels.

Accordingly, your Committees have amended this measure by:

- (1) Specifying that an owner's agreement with an attorney to file a claim or contest the denial of a claim and that provides for compensation shall not exceed twenty-five percent of the total value of the property; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1265, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1265, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

Judiciary and Labor  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 540 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 88**

The purpose and intent of this measure is to:

- (1) Prohibit possessing or keeping any bottle, can, or other receptacle containing any intoxicating liquor that has been opened, has a broken seal, or the contents of which have been partially removed while on any sidewalk or common area within a public housing project; and
- (2) Add "state low-income housing project" to the definition of public housing project for purposes of liquor control.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority and one individual.

Your Committees find that state law prohibits the consumption of intoxicating liquors on public sidewalks, including any sidewalk within a public housing project as defined in sections 356D-1 and 356D-91, Hawaii Revised Statutes, and in common areas of public housing projects. However, this prohibition can be difficult to enforce since it is limited by the word "consumption", requiring that either a law enforcement officer visibly observe a perpetrator in the action of imbibing intoxicating liquor or a witness be willing to testify to visibly observing a perpetrator in the action of imbibing intoxicating liquor. By broadening the prohibition to possession of open intoxicating liquor containers, the requirement of physically observing a perpetrator in the act of imbibing in order to support prosecution is removed, making violations easier to report and enforce.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 88, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 88, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Human Services

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 541      Judiciary and Labor on S.B. No. 223**

The purpose and intent of this measure is to allow voters to vote for declared candidates other than those listed on the preprinted ballot through a write-in voting procedure.

Prior to the hearing on this measure, your Committee posted a proposed S.D. 1 for review and comment. The proposed S.D. 1 amends this measure by deleting its contents and inserting language to:

- (1) Clarify that the chairperson of a political party, and not an officer of the party, may make an objection to the validity of nomination papers;
- (2) Require the publication on state or county websites of a list of all candidates within twenty-four hours of the close of the filing deadline for nomination papers;
- (3) Establish requirements for notice to the candidate of any objections and withdrawal of objections;
- (4) Establish that an objection is not subject to judicial review or review by an election officer and that a candidate may run as an independent candidate if the objection is not withdrawn; and
- (5) Delete the requirement for a political party to file a complaint in circuit court for prompt determination of an objection regarding a candidate who is not a member of that political party.

Your Committee received testimony in support of the proposed S.D. 1 from the Democratic Party of Hawaii, Gay, Lesbian, Bisexual and Transgender Caucus of the Democratic Party of Hawaii, and one individual. Testimony in opposition to this measure was submitted by the Department of the Attorney General. The Office of Elections and Office of the County Clerk, County of Kauai submitted comments on this measure.

Your Committee finds that under existing law, if an officer of a political party objects to a candidate because the candidate is not a member of the party pursuant to that party's rules, an officer of that party is required to file a complaint in circuit court for a judge to render a decision on the objection. The Democratic Party of Hawaii testified that during the previous two general election periods, the party encountered several situations where candidates' affiliation or eligibility as bona fide registered members of the Democratic Party were questionable or deemed unqualified in accordance with the constitution and bylaws of the Democratic Party. The Chairperson of the Democratic Party of Hawaii testified that seeking court action on these matters as required by law is expensive and time consuming. Thus, the Party decided not to seek court action regarding their objection to these candidates. The Chairperson added that the required court action does not authorize the award of attorney's fees and costs to the prevailing party, which would offset the costs for filing an objection with the circuit court. This proposed S.D. 1 will help to ensure partisan candidates for public offices are eligible and supported by their respective political parties without incurring legal expenses and delays caused by a mandated court action.

Your Committee notes the following comments and concerns submitted by the Office of Elections and Department of the Attorney General regarding the proposed S.D. 1. First, the Office of Elections testified that the proposed deadline of seven business days for a political party chairperson to file an objection and the additional fourteen calendar days to decide if the objection will be withdrawn does not permit the Office of Elections sufficient time to meet its obligations to print and mail out ballots in a timely manner to military and overseas voters as well as in-state voters. The Office of Elections requested that the time provisions be reduced to seven calendar days for the objection to be made by the political party chairperson and the decision to withdraw the objection be made within seven calendar days of the date of the initial objection. Furthermore, the Office requested that the political party chairperson be required to immediately send by electronic transmission the notice of objection or withdrawal of objection directly to the Office of Elections.

Second, the Office of Elections indicated in its testimony that the proposed S.D. 1 appeared to automatically allow a candidate to be an independent candidate. The Department of the Attorney General testified that it is unclear whether this means that a candidate may run as an independent party candidate or as a candidate for any other political party of the candidate's choosing. If it means that the candidate may only run as an independent party candidate, the Department indicated that this proposed S.D. 1 may violate the First Amendment right to free association and therefore be unconstitutional.

Lastly, the Office of Elections and Department of the Attorney General testified regarding their concerns of lack of judicial review or review by an election officer when a political party files an objection.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and amending it further by:

- (1) Deleting the deadline of seven business days for a political party chairperson to file an objection and then an additional fourteen calendar days to decide if the objection will be withdrawn and inserting language that:
  - (A) Requires the objection by the political party chairperson to be made within seven calendar days and the decision to withdraw the objection to be made within seven calendar days of the date of the initial objection; and
  - (B) Requires the political party chairperson to immediately send by electronic transmission the notice of objection or withdrawal of objection directly to the Chief Election Officer or county clerk;
- (2) Requiring that the objection be subject to judicial review or review by the Chief Election Officer;
- (3) Deleting the language that allows a candidate to run as an independent candidate;
- (4) Allowing the prevailing party in a judicial review of the objection to be entitled to attorney's fees and costs; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 542      Judiciary and Labor on S.B. No. 853**

The purpose and intent of this measure is to specify that the Elections Commission is responsible for providing oversight of the Chief Election Officer.

Your Committee received testimony in support of this measure from Common Cause Hawaii and one individual. The Office of the County Clerk, County of Kauai and Office of the County Clerk, County of Maui submitted comments.

Your Committee finds that existing law allows the Elections Commission to hire and advise the Chief Election Officer but does not empower the Commission to take disciplinary action toward the Chief Election Officer, if necessary. This measure specifies that the Elections Commission is responsible for providing oversight of the Chief Election Officer.

Your Committee supports the intent of this measure but questions whether specifying that the Commission is responsible for oversight of the Chief Election Officer is duplicative of the Commission's responsibility to advise the Chief Election Officer.

Accordingly, your Committee has amended this measure by deleting the language that specifies that the Elections Commission is responsible for providing oversight of the Chief Election Officer and replacing it with language that requires the Commission to conduct a performance evaluation of the Chief Election Officer after each election and submit a written report of the evaluation to the Legislature within ninety days of the certification of the election results.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 853, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 853, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 543      Judiciary and Labor on S.B. No. 858**

The purpose and intent of this measure is to clarify the Legislature's intent that no board or commission member who has failed to receive the advice and consent of the Senate shall continue in office as a holdover member.

Your Committee received testimony in support of this measure from the Sierra Club and two individuals. The Department of the Attorney General submitted comments on this measure.

Your Committee finds that existing law provides that no person shall be appointed consecutively to more than two terms as a member of the same board or commission, provided that membership on any board or commission must not exceed eight consecutive years. This measure clarifies that it is the Legislature's intent that no person who has failed to receive the advice and consent of the Senate shall continue in office as a holdover member.

Your Committee notes the concerns raised by the Department of the Attorney General that the language in this measure could leave a board without its full complement of members for the balance of the legislative session during which a holdover member's confirmation is rejected.

Your Committee has amended this measure by:

- (1) Adopting the language proposed by the Department of the Attorney General that allows a person whose reappointment to a second consecutive term fails to receive the consent of the Senate to continue in office as a holdover member only until the Senate adjourns sine die;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 858, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 544      Judiciary and Labor on S.B. No. 827**

The purpose and intent of this measure is to provide adequate safeguards to preserve the integrity of ballots to ensure fairness to all voters and minimize the opportunity for fraud. Specifically, this measure prohibits any candidate from physically handling or possessing the voter registration form, voter ballot, or absentee ballot of another voter before or during the election.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, IMUAlliance, and two individuals. The Office of Elections and Office of the County Clerk, County of Kauai submitted comments on this measure.

This measure makes it a misdemeanor for a candidate to physically handle or possess the voter registration form, voter ballot, or absentee ballot of another person. Your Committee notes that the Office of Elections raised questions regarding the nuances of what constitutes a violation under this measure. Your Committee clarifies that the conduct prohibited under this measure only applies to candidates and should not be interpreted to include campaign workers, political parties, or other organizations or individuals who may support a candidate. Your Committee believes that such a broad interpretation would unnecessarily inhibit individuals or groups from

providing assistance to voters and could serve as an unintended barrier for voters from obtaining the assistance they require to participate in the electoral system.

Your Committee has amended this measure by:

- (1) Adding a request for absentee ballot form to the list of items that a candidate is prohibited from physically handling or possessing;
- (2) Substituting the term “voter ballot” with “polling place ballot” to appropriately distinguish this item from an absentee ballot; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 827, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 827, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 545 (Joint) Agriculture and Health and Commerce and Consumer Protection on S.B. No. 482**

The purpose and intent of this measure is to encourage beekeeping operations in the State by exempting home-based agricultural producers of honey from processing honey in a certified honey house or food processing establishment, or be required to obtain a permit from the Department of Health, if the producer, among other things:

- (1) Sells less than five hundred, rather than fifty, gallons of honey a year;
- (2) Sells the honey directly to a retail store that sells the honey directly to consumers; and
- (3) Labels each container with the statement, “Honey should not be consumed by infants under one year of age”.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Health, Big Island Beekeepers Association, Hawaii Farm Bureau Federation, and nineteen individuals. Your Committees received testimony in opposition to this measure from the Hawaii Beekeepers’ Association and two individuals. Your Committees received comments on this measure from two individuals.

Your Committees find that honeybees, as a primary pollinator of food crops, have a significant impact on agriculture in Hawaii. Hawaii’s annual Farm Gate Sales from bee-pollinated crops is valued at \$212,800,000. Unfortunately, vital honeybee populations are declining at a rapid rate due to the arrival of varroa mites, nosema, and small hive beetles. Your Committees further find that small and large beekeeper operations are responsible for millions of healthy, pollinating bees throughout the State. Small beekeepers, however, experience significant barriers to beekeeping due to administrative and bureaucratic requirements. Your Committees conclude that this measure is needed to sustain small beekeeping operations to ensure an adequate supply of honeybees throughout the State.

The Department of Health requested that this measure be amended to, among other things, require honey producers to attend a Department of Health approved food safety workshop. At the hearing, your Committees received assurances from the Department of Health that food safety workshops, already taking place, will continue to take place on each island, including Molokai and Lanai, at no charge to honey producers.

Accordingly, your Committees have amended this measure by:

- (1) Requiring those honey producers seeking an exemption from honey processing requirements to attend a Department of Health approved food safety workshop and pass the food safety certification exam;
- (2) Requiring those honey producers seeking an exemption from honey processing requirements to keep honey production volume and honey product distribution records for at least two years, and to make these records available to the Department of Health; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture, Health, and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 482, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 482, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Thielen).

Health

Ayes, 4. Noes, none. Excused, 1 (Chun Oakland).

Commerce and Consumer Protection

Ayes, 5. Noes, none. Excused, 2 (Solomon, Taniguchi).

**SCRep. 546 (Joint) Health and Education on S.B. No. 1138**

The purpose and intent of this measure is to authorize the Department of Health to adopt, amend, or repeal rules to establish a list of specific vaccines and to adopt, amend, or repeal, as rules, the immunization recommendations of the United States Department of Health and Human Services, Advisory Committee on Immunization Practices, as they apply to the list of specific vaccines, ensuring that immunizations required, and the manner and frequency of their administration, conform with currently recognized standard medical practices.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Medical Association, Hawaii Academy of Physician Assistants, Walgreens, National Council of Asian Pacific Islander Physicians, and Hawaii Immunization Coalition. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that according to the Centers for Disease Control and Prevention, vaccines are a safe, efficient, and cost-effective way to protect against vaccine-preventable diseases. Vaccinating a population saves health care dollars and assists each year in preventing millions of cases of vaccine-preventable diseases nationwide. This measure will allow the Department of Health the flexibility to adopt nationally accepted standards of practice with regard to vaccines and will help accomplish the adequate administration of vaccines to meet an important public health need.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1138 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 3. Noes, none. Excused, 2 (Baker, Chun Oakland).

Education

Ayes, 3. Noes, none. Excused, 2 (Ruderman, Shimabukuro).

**SCRep. 547 Judiciary and Labor on S.B. No. 192**

The purpose and intent of this measure is to discourage the demand for prostitution in Hawaii through stronger deterrents. Specifically, this measure:

- (1) Establishes an offense of solicitation of a minor for prostitution as a class C felony;
- (2) Increases the statute of limitations to bring a cause of action for coercion into prostitution from two to six years;
- (3) Clarifies the minimum and maximum fine for a person convicted of committing the offense of prostitution;
- (4) Adds the offenses of promoting prostitution, solicitation of a minor for prostitution, habitual solicitation of prostitution, and solicitation of prostitution near schools and public parks under the State's forfeiture laws; and
- (5) Amends the definition of "sexual offense" under the sexual offender registry laws to include acts that consist of the solicitation of a minor who is less than eighteen years of age for prostitution.

Your Committee received testimony in support of this measure from the Office of Community Services; Department of the Prosecuting Attorney, City and County of Honolulu; Police Department, City and County of Honolulu; IMUAlliance; Pacific Alliance to Stop Slavery; Courage House Hawai'i; Equality Now; and twenty-seven individuals.

Your Committee finds that this measure strengthens the laws and penalties for crimes that exploit children subjected to prostitution. Your Committee recognizes that victims of prostitution may continue to experience physical and mental trauma long after the commission of the crime. This measure allows these victims additional time to seek assistance without relinquishing their right to seek justice by extending the statute of limitations to bring a cause of action from two to six years. Lastly, by amending the State's forfeiture and sexual offender registry laws, this measure discourages individuals from engaging in solicitation of prostitution.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 548 Judiciary and Labor on S.B. No. 966**

The purpose and intent of this measure is to adopt the Uniform Mediation Act that provides a comprehensive law for privileges and confidentiality in mediation. Specifically, this measure:

- (1) Establishes a privilege of confidentiality for mediators and participants that prohibits the disclosure of mediation communication from being subject to discovery or admissible as evidence;
- (2) Allows the parties to the mediation to waive the privilege and provides certain exceptions to the privilege, including the types of information the mediator may disclose;
- (3) Requires the disclosure of known conflicts of interest by the mediator and, upon request, the disclosure of the mediator's qualifications; and
- (4) Promotes autonomy by authorizing the parties to decide matters that can be set by agreement.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation; The Mediation Center of the Pacific, Inc.; West Hawaii Mediation Center; Honolulu Board of REALTORS; Hawai'i Association of REALTORS; and three individuals. The Judiciary submitted comments on this measure.

Your Committee finds that mediation is a process by which a third party facilitates communication and negotiation between parties to a dispute to assist them in reaching a voluntary agreement resolving that dispute. Currently, mediation communication is covered by Rule 408, Hawaii Rules of Evidence. This measure establishes a privilege that provides significantly more protection for mediation communications than the existing rule of evidence.

Your Committee notes the testimony submitted by the Commission to Promote Uniform Legislation clarifies that this measure does not apply to collective bargaining disputes, certain judicial settlement conferences, or mediation involving parties who are all minors. The Commission also notes that the Uniform Mediation Act has been adopted by eleven jurisdictions and is currently being considered for adoption in two other states.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 966 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 549      Judiciary and Labor on S.B. No. 1036**

The purpose and intent of this measure is to:

- (1) Authorize the Board of Trustees of the Employees' Retirements System, through its administrator, to appoint one or more investment officers to the Employees' Retirement System Investment Office; and
- (2) Change the Administrator's title from "Administrator of the Employees' Retirement System" to "Executive Director of the Employees' Retirement System".

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Board of Trustees of the Employees' Retirement System.

Your Committee finds that the successful investment of the funds of the Employees' Retirement System (ERS) is one of the foundations to the longevity and stability of the system. The system currently has over \$12,000,000,000 in domestic and international investments, and decisions made by the ERS Board of Trustees concerning these investments are critical to the current and future funding of the ERS, which had an unfunded actuarial accrued liability of \$8,400,000,000 as of June 30, 2012.

The ERS' investment staff currently consists of a Chief Investment Officer and an Investment Specialist, which is inadequate given the uncertainty and complexity of the modern financial markets and the need for the Board of Trustees to be provided with ongoing tactical and strategic insights into the risk-return trade-offs of multiple asset class investments. This measure will authorize the Board of Trustees of the ERS, through its administrator, to appoint one or more investment officers to the ERS Investment Office to ensure that the system's investment portfolio is best positioned to meet its asset goals and reduce the ERS' unfunded liability. The in-house knowledge and expertise can also save up to \$1,000,000 in annual research, analytics, transition, monitoring, and other functions that would ordinarily be paid to consultants. Furthermore, this measure changes the ERS Administrator's title to "Executive Director" to be consistent with the title of the administrative heads of other governmental agencies and other public pension funds.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1036 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 550      Commerce and Consumer Protection on S.B. No. 1293**

The purpose and intent of this measure is to require any person applying for a license as an electrical contractor, pole and line contractor, high voltage electrical contractor, or electronic systems contractor to possess a trade license to perform electrical work in the State.

Your Committee received testimony in support of this measure from the Electrical Contractors Association of Hawaii; International Brotherhood of Electrical Workers, Local Union 1186; Hawaii Building and Construction Trades Council, AFL-CIO; and D. Suehiro Electric, Inc. Your Committee received testimony in opposition to this measure from the Hawaiian Electric Company, Inc.; Building Industry Association of Hawaii; and Custom Electronic Design & Installation Association. Your Committee received comments on this measure from the Contractors License Board and Hawaiian Telecom.

Your Committee finds that this measure fixes a loophole in the existing electrical contractor licensing law. For instance, electrical contractors in Hawaii must pass a state-required test to manage an electrical contracting company and the requirements to receive an electrical contracting license to run a business are different from the requirements to receive a journey worker electrician license to perform or supervise the electrical field work. Proper supervision and technical decisions of electrical work comes with proper training and competency in the electrical trade that is obtained through the electrician's licensing process.

Your Committee further finds that electrical work may pose hazards related to public and worker safety. This measure ensures that individuals applying to be licensed as electrical contractors, pole and line contractors, high voltage electrical contractors, or electronic systems contractors will be required to demonstrate the appropriate electrical worker knowledge and training.

Your Committee additionally finds that public utilities are granted an exemption from chapter 448E, Hawaii Revised Statutes. For consistency, your Committee concludes that a similar exemption from the licensing requirements of this measure is needed.

Accordingly, your Committee has amended this measure by providing that all employees of a public utility within the State under a franchise or charter granted by the State which is regulated by the Public Utilities Commission and community antennae television company, while so employed, shall be exempt from the licensing requirements proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1293, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1293, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 551 Commerce and Consumer Protection on S.B. No. 1258**

The purpose and intent of this measure is to require real estate appraisers, acting as arbitrators, to record arbitration awards, the records of the awards, if separately issued, and any supplementary, dissenting, or explanatory opinions with the Bureau of Conveyances within ninety days of the determination of the award and its notification to the parties.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners; Citizens For Fair Valuation; Hilo Bay Printing Co., Ltd.; Pacific Jobbers Warehouse, Inc.; Grace Pacific Corporation; Bacon Universal Company, Inc.; Earle M. Alexander, Ltd.; Sofos Realty Corporation; Mutual Plumbing Supply Co., Inc.; Ginoza Realty, Inc.; JN Group, Inc.; and thirty-three individuals. Your Committee received testimony in opposition to this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs; Appraisal Institute, Hawaii Chapter; and Land Use Research Foundation.

Your Committee finds that Act 227, Session Laws of Hawaii 2011 (Act 227), was intended to require real estate appraisers, when acting as arbitrators in long-term ground lease rent valuations, to provide relevant data related to the findings of fact and methodologies employed to support their conclusions, within the record of the award. Act 227 was intended to bring data, openness, and transparency to a market controlled by few landlords and very few commercial and industrial appraisers. Unfortunately, since the enactment of Act 227, many real estate appraisers when acting as arbitrators have required participants in an arbitration to agree to confidentiality agreements that limit the disclosure of the arbitration award details and processes. Your Committee further finds that these agreements frustrate the legislative intent of Act 227 and constrain the development of an open market valuation process.

Your Committee additionally finds that Act 227 requires appraisers in arbitration proceedings to certify compliance with the most current Uniform Standards of Professional Appraisal Practice (USPAP). Although your Committee has heard testimony that this measure might be in conflict with USPAP's ethical rule, your Committee notes that USPAP has a jurisdictional exception rule that "provides a saving or severability clause intended to preserve the balance of USPAP if compliance with one or more of its parts is precluded by the law or regulation of a jurisdiction. When an appraiser properly follows this Rule in disregarding a part of USPAP, there is no violation of USPAP."

Your Committee also finds that because the USPAP rule of jurisdictional exception applies to this measure, there is no ethical conflict with USPAP. Your Committee notes that in subsequent conversations between the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and interested stakeholders, the Professional and Vocational Licensing Division indicated it would be withdrawing its opposition to this measure based on further review of the USPAP.

Your Committee concludes that this measure supports the openness and transparency originally contemplated by Act 227 by requiring the recordation of arbitration data with the Bureau of Conveyances.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1258, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 552 (Majority) Ways and Means on S.B. No. 97**

The purpose and intent of this measure is to apply the conveyance tax to transfers of entity ownership when the transfer of entity ownership is essentially equivalent to the sale of an interest in real property.

Your Committee received testimony in support of this measure from Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Economic Justice; the Trust for Public Land; The Nature Conservancy; and the Sierra Club, Hawaii Chapter.

Your Committee received testimony in opposition to this measure from the Chamber of Commerce of Hawaii; the Land Use Research Foundation of Hawaii; the Building Industry Association of Hawaii; and NAIOP Hawaii.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; the Department of Taxation; the Tax Foundation of Hawaii; and Alexander & Baldwin, Inc.

Your Committee finds that the transfer of ownership of a business entity is comparable to the sale of an interest in real property held by the entity. However, under existing law, when an interest in real property is conveyed via the transfer of a controlling interest in the business entity that owns the real property, the conveyance is not subject to the conveyance tax. Your Committee believes that all transfers of possession or use of real property should be subject to the same conveyance tax obligations.

Your Committee has amended this measure by:

- (1) Providing that the conveyance tax shall apply to the transfer of entity ownership as a result of a series of transfers or acquisitions that occur within any twenty-four-month period, rather than any twelve-month-period;
- (2) Deleting the provision that stated that the conveyance tax shall not apply to “[a]ny transfer or acquisition that consists of the change in identity or form of ownership of an entity where there is no change in the beneficial ownership, including transfers to an entity wholly owned, directly or indirectly, by the same common ownership as the transferor”;
- (3) Clarifying the method of determining the value of the transfer of a controlling interest;
- (4) Deleting the requirement that the Director of Taxation adopt rules for determining the value of the realty being transferred as the result of the transfer of a controlling interest;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 97, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 97, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Slom). Excused, 2 (Kahele, Tokuda).

**SCRep. 553      Ways and Means on S.B. No. 188**

The purpose and intent of this measure is to revise the excise tax rates for certain tobacco products by:

- (1) Replacing the definition of “large cigar” with a new definition of “premium cigar”;
- (2) Effective January 1, 2014, raising the excise tax on tobacco products other than premium cigars, little cigars, and cigarettes.

Your Committee received testimony in support of this measure from the Hawaii Cigar Association, Cigar Rights of America, Shiroma’s Wine and More, and numerous individuals.

Your Committee received testimony in opposition to this measure from the Department of Health, Cigar Association of America, Inc., American Cancer Society Cancer Action Network, Coalition for a Tobacco Free Hawaii, and numerous individuals.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the current ad valorem tax imposed on a percentage of the wholesale price of cigars has made it difficult for Hawaii’s cigar industry to compete with mail-order competitors that sell cigars in Hawaii without paying state taxes and whose customers do not file usage taxes. By revising state tobacco product excise tax rates, this measure provides an opportunity to promote the local economy by helping Hawaii’s cigar retailers to compete with mail-order businesses.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the amendment raising the excise tax on tobacco products other than premium cigars, little cigars, and cigarettes;
- (2) Effective January 1, 2014, applying a per-unit excise tax of fifty cents for each premium cigar of any length that is sold, used, or possessed by a wholesaler or dealer;
- (3) Changing the effective date to July 1, 2050, to encourage further discussion on this measure; and
- (4) Making technical nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 188, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 188, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 554      Ways and Means on S.B. No. 350**

The purpose and intent of this measure is to amend the date of filing for monthly, quarterly, and semiannual general excise tax returns from the twentieth day of the month to the last day of the month.

Your Committee received testimony in support of this measure from the Retail Merchants of Hawaii, Chamber of Commerce of Hawaii, Hawaii Business League, and two individuals.

Your Committee received testimony in opposition to this measure from the Department of Taxation and one individual.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Act 196, Session Laws of Hawaii 2009, required the filing and payment of general excise taxes on the twentieth day of the month following the business activity to help address the State’s revenue shortfall at that time. This change resulted in difficulties for many taxpayers who found the twenty-day period insufficient to reconcile financial records in time to meet the new deadline. Accordingly, your Committee finds that changing the filing and payment due date from the twentieth day of the

month to the last day of the month would assist taxpayers in filing their general excise tax returns on a timely basis by providing additional days to gather the necessary financial information and documents.

Your Committee is aware that the Department of Taxation has concerns about the filing and payment due dates set forth in this measure and will continue to work with the Department to establish a date that the Department deems reasonable and will be most efficient for taxpayers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to promote further discussion on the matter; and
- (2) Amending the starting applicable taxable year from July 1, 2013, to December 31, 2016.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 350, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 555 Ways and Means on S.B. No. 1094**

The purpose and intent of this measure is to recapitalize the Emergency and Budget Reserve Fund.

More specifically, this measure appropriates \$25,000,000 from general funds to the Emergency and Budget Reserve Fund for fiscal year 2014-2015.

Your Committee received testimony in support of this measure from the Office of the Governor, the Department of Budget and Finance, and Catholic Charities of Hawaii.

Your Committee finds that sufficient fiscal reserves are critical to sustain the State through difficult economic times and that, in 2008 during the economic downturn, the State was forced to enact many cost-saving measures including downsizing many programs and services, hiring freezes, and furloughs. Your Committee recognizes that the use of the Emergency and Budget Reserve Fund and the Hawaii Hurricane Relief Fund during the economic recession prevented even greater spending reductions and revenue enhancement measures and enabled continued delivery of services to the State's most vulnerable population. Your Committee therefore finds that recapitalizing the fiscal reserves for the State is essential to safeguard the future economic well-being of the State.

Your Committee has amended this measure by:

- (1) Changing all sums to unspecified amounts to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1094, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 556 Ways and Means on S.B. No. 1188**

The purpose and intent of this measure is to make technical, nonsubstantive corrections to the Estate and Generation-Skipping Transfer Tax Reform Act to make clear that a decedent who was in a civil union or recognized equivalent under the laws of the State would have the amount of any transfer tax due to the State computed as if the civil union or recognized equivalent were recognized as a marriage under the Internal Revenue Code.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Act 220, Session Laws of Hawaii 2012, enacted the Estate and Generation-Skipping Transfer Tax Reform Act, designated as chapter 236E, Hawaii Revised Statutes, that established the estate and generation-skipping transfer taxes based on the valuations, deduction, and expenses allowed for federal transfer tax purposes, but with tax rates independent of the federal transfer taxes. Your Committee also finds that this measure makes technical corrections to ensure that the provisions of the Estate and Generation-Skipping Transfer Tax Reform Act apply to decedents in a civil union or recognized equivalent as they apply to decedents of a marriage.

Your Committee has amended this measure by:

- (1) Clarifying that the measure makes amendments to chapter 236E, Hawaii Revised Statutes, rather than Act 220, Session Laws of Hawaii 2012;
- (2) Making corrections to accurately reflect the text of sections 236E-6 and 236E-7, Hawaii Revised Statutes; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1188, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 557      Ways and Means on S.B. No. 1190**

The purpose and intent of this measure is to treat imported contracting consistently under the use tax and general excise tax laws.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the use tax is designed to complement the general excise tax, and generally, items should be taxed similarly under both tax laws. However, confusion exists regarding the tax treatment of imported contracting. This measure would clarify that imported contracting is subject to a general excise tax at the rate of four per cent, unless exempt from the tax because the gross proceeds received by the contractor are subject to the general excise tax as a contractor.

Your Committee has amended this measure by:

- (1) Moving language limiting the exemption under section 238-2.3(1)(C), Hawaii Revised Statutes, to amounts the contractor could have deducted for payments to subcontractors from the effective date section of the measure to Section 2 of the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1190, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1190, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 558      (Majority) Ways and Means on S.B. No. 1196**

The purpose and intent of this measure is to require businesses to record all cash-based transactions, except casual sales.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Section 231-96, Hawaii Revised Statutes, requires a person who conducts more than ten taxable business transactions per day to offer a receipt or other record of the transaction and maintain a record of all business transactions conducted each day. However, your Committee finds that it is possible for taxpayers to conduct less than ten business transactions per day or simply state that the taxpayer has conducted less than ten transactions per day, thereby avoiding the requirement to provide a receipt of the transaction and keep a contemporaneously generated record of the transactions for each day. Accordingly, your Committee believes that it is necessary to require all taxpayers who conduct cash transactions, with the exception of casual sales, to offer a receipt or other record of the transaction and to maintain a contemporaneously generated record of all business transactions conducted each day.

Your Committee notes that casual sales or isolated sale transactions involving tangible personal property by a person do not require a general excise tax license and therefore are not subject to the provisions of this measure.

Your Committee has amended this measure by:

- (1) Amending the effective date to July 1, 2050, to facilitate continuing discussion on the measure; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1196, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 8; Ayes with Reservations (Thielen). Noes, 2 (Ruderman, Slom). Excused, 3 (Kahele, Kouchi, Tokuda).

**SCRep. 559      Ways and Means on S.B. No. 1197**

The purpose and intent of this measure is to make permanent the special enforcement section of the Department of Taxation.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Act 134, Session Laws of Hawaii 2009, established a special enforcement section of the Department of Taxation to investigate "cash-based" businesses for tax evasion and to educate the small business community about their tax obligations. Your Committee finds that this special enforcement section has been instrumental in educating local businesses about their tax obligations and has generated almost \$1,000,000 in taxes for the State and that this is especially important in a state with an economy that is mostly composed of small businesses. Accordingly, your Committee finds that making the special enforcement section of the Department of Taxation permanent would continue to provide a valuable enforcement and education tool for the State and for the small business community.

Your Committee has amended this measure by making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1197, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Kahele, Kouchi, Tokuda).

**SCRep. 560 Ways and Means on S.B. No. 1203**

The purpose and intent of this measure is to amend the estate and generation-skipping transfer tax law to comply with recent amendments to the Internal Revenue Code.

Prior to the public hearing on this measure, your Committee circulated for review and comment, and received testimony on, a Proposed S.D. 1.

The proposed S.D. 1 amended this measure by deleting its contents and replacing them with amendments to sections 236E-3 and 236E-4, Hawaii Revised Statutes, that account for amendments to the Internal Revenue Code made on January 2, 2013.

Your Committee received testimony in support of this measure from The Department of Taxation and the Chamber of Commerce of Hawaii. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that due to protracted “fiscal cliff” negotiations, amendments to the Internal Revenue Code were not enacted before the end of the year and, instead, were enacted on January 2, 2013. To reflect the stated intent of section 236E-5, Hawaii Revised Statutes, the estate and generation-skipping transfer tax law should apply the version of the Internal Revenue Code as amended on January 2, 2013. Your Committee further finds that these amendments will facilitate compliance with the tax code by taxpayers and application by the Department of Taxation.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1203, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kahele, Tokuda).

**SCRep. 561 Judiciary and Labor on S.B. No. 194**

The purpose and intent of this measure is to exclude certain offenses from eligibility to be granted a deferred acceptance of guilty plea, including:

- (1) A defendant who has been charged with a petty misdemeanor offense and has been previously granted deferred acceptance of guilty plea status for a prior felony, misdemeanor, or petty misdemeanor for which the term of deferral has not yet expired; and
- (2) The offense charged is prostitution, street solicitation of prostitution, solicitation of prostitution near schools or public parks, or habitual solicitation of prostitution.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Equality Now; Courage House Hawai‘i; Pacific Alliance to Stop Slavery; IMUAlliance; and seven individuals. Testimony in opposition to this measure was submitted by the Office of the Public Defender and one individual.

Your Committee finds that existing law does not provide a limit to the number of times a defendant may be granted a deferred acceptance of guilty plea for petty misdemeanor offenses. The Department of the Prosecuting Attorney of the City and County of Honolulu indicated in written testimony that while petty misdemeanors are considered the lowest level of criminal offenses, these offenses are still considered criminal and include offenses such as harassment, criminal property damage in the fourth degree, theft in the fourth degree, and prostitution. This measure provides that a defendant is not granted a deferred acceptance of guilty plea when the defendant is charged with a petty misdemeanor offense and was previously granted deferred acceptance of guilty plea status for a prior felony, misdemeanor, or petty misdemeanor for which the term of deferral has not yet expired.

Your Committee further finds that this measure will strengthen laws to combat domestic minor sex trafficking by excluding certain prostitution violations from eligibility to be granted a deferred acceptance of guilty plea.

During the public hearing of this measure, your Committee raised a question as to whether status offenders, as defined under section 571-2, Hawaii Revised Statutes, should be excluded from eligibility to be granted a deferred acceptance of guilty plea. Subsequently, your Committee researched this matter and consulted with the Department of the Prosecuting Attorney of the City and County of Honolulu and Office of the Public Defender. Your Committee determined that status offenders are under the jurisdiction of the Family Court pursuant to section 571-11(2)(B), (C), or (D), Hawaii Revised Statutes, to determine the case and take any action accordingly. Thus, amending this measure to exclude status offenders from eligibility to be granted a deferred acceptance of guilty plea is not necessary.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 194, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 562 Human Services on S.B. No. 84**

The purpose and intent of this measure is to expand the scope of the definition of “public housing project” to include any housing project controlled or managed by the Hawaii Public Housing Authority pursuant to federally assisted housing.

Your Committee received testimony in support of this measure from the Department of Human Services, the Hawaii Public Housing Authority, the Community Alliance for Mental Health, and one individual. Testimony in opposition to this measure was received from the Subcontractors Association of Hawaii.

Your Committee finds that the current definition of the term “public housing project” in section 356D-1 Hawaii Revised Statutes, is inaccurate and overly limiting for the purposes of the federal low-income public housing program. Under the United States Department of Housing and Urban Development regulations, public housing agencies are authorized to administer a variety of federally assisted housing beyond simply “public housing”. Since the Hawaii Public Housing Authority is the only public housing agency in the State, the definition of “public housing” should correspond to the Department of Housing and Urban Development’s definition of housing that may be administered by a public housing agency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 84 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 563 Ways and Means on S.B. No. 190**

The purpose and intent of this measure is to enhance legislative scrutiny of special funds and revolving funds.

Specifically, this measure:

- (1) Amends criteria to be used by the Auditor in analyzing proposed and existing special or revolving funds;
- (2) Requires the Auditor periodically to review special funds, as well as revolving and trust funds, of designated agencies; and
- (3) Amends or repeals various special or revolving funds and transfers the balances of repealed funds to the general fund.

Prior to the hearing on Senate Bill No. 190, your Committee distributed a proposed Senate Draft 1. The proposed draft deleted provisions amending or repealing various special and revolving funds but retained the provisions relating to the criteria to be used in the review of proposed and existing special and revolving funds.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and the Office of the Auditor.

The Hawaii Primary Case Association and ten individuals submitted testimony in opposition of this measure.

The Department of Health, Office of Hawaiian Affairs, High Technology Development Corporation, and Tax Foundation of Hawaii submitted written comments on this measure.

Your Committee finds special and revolving funds should only be used for their intended purposes and not for other programs. Accordingly, your Committee believes that this measure will provide more specific criteria for the Auditor’s review of proposed new special and revolving funds, which will result in providing the Legislature with essential information relating to the appropriateness of the proposed special and revolving funds. Clarified criteria for establishing and continuing special and revolving funds will ensure that these funds are used appropriately.

Your Committee has amended this measure by adopting the proposed Senate Draft 1, with further technical nonsubstantive amendments made for the purposes of clarity, conformity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 190, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 190, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Kahele, Kouchi, Tokuda).

**SCRep. 564 Commerce and Consumer Protection on S.B. No. 41**

The purpose and intent of this measure is to clarify the activities custodians or caretakers may engage in under chapter 467, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii Association of Vacation Rental Managers; Prince Properties, Inc.; Hawaiian Dream Properties; Abbey Vacation Rentals; Waikoloa Vacation Rental Management, Inc.; Condominium Rentals Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs; Real Estate Commission; Timberline Land Co. Hawaii, LLC; and thirty-three individuals. Your Committee received comments on this measure from the Hawai’i Association of REALTORS; Rental By Owner Awareness Association; Sunshine & Rainbows, LLC; and two individuals.

Your Committee finds that this measure is intended to clarify the activities custodians or caretakers may engage in under chapter 467, Hawaii Revised Statutes. However, your Committee has heard the concerns that this measure as drafted may be confusing and may be contradictory to the current licensing law requiring a real estate license to lease, rent, or manage property. To address these issues, your Committee concludes this measure should be amended to clarify the role of a local contact for a transient

accommodation pursuant to Act 326, Session Laws of Hawaii 2012 (Act 326). Act 326 requires operators of transient accommodations to provide a local contact whenever an operator is not located on the island where a transient accommodation is located.

Your Committee further finds that interested stakeholders have worked together to reach a consensus on the role of a local contact, including what a local contact can and cannot do. The consensus language clarifies that the role of a local contact is limited, and any services other than those allowed under Act 326 can constitute unlicensed real estate activity.

Your Committee additionally finds that the Regulated Industries Complaints Office is working on an informational handout in conjunction with the Department of Taxation that will be available to assist transient accommodation operators determine if they need to hire a real estate licensee. Your Committee is encouraged by the collaborative efforts of all interested stakeholders and concludes that the consensus language suggested by the stakeholders is an excellent provision that will assist owners of transient accommodations who are not located on the same island as their transient accommodation.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that clarified the activities custodians or caretakers may engage in under chapter 467, Hawaii Revised Statutes;
- (2) Inserting language that clarifies the role of a local contact for operators of transient accommodations under Act 326, Session Laws of Hawaii 2012;
- (3) Amending the purpose section for clarity; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 41, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 41, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 565      Judiciary and Labor on S.B. No. 1233**

The purpose and intent of this measure is to require private employers of fifty or more employees to allow employees to take paid leaves of absence for organ, bone marrow, and peripheral blood stem cell donation.

Your Committee received testimony in support of this measure from The Queen's Health Systems; United Public Workers, AFSCME Local 646, AFL-CIO; and eleven individuals. Testimony in opposition to this measure was submitted by one individual.

Your Committee finds that private employers are not currently required to give employees paid time off for donating organs, bone marrow, or peripheral blood stem cells. Your Committee further finds that many people in the State who would otherwise donate these vital medical resources delay or altogether refrain from donation because they cannot take time off of work to do so. By requiring employers to allow employees paid time off for organ, bone marrow, and peripheral blood stem cell donation, this measure provides life-saving medical resources to benefit citizens of the State in medical need.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1233 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 566      Commerce and Consumer Protection on S.B. No. 965**

The purpose and intent of this measure is to establish:

- (1) Qualifications for nonresident military spouses eligible for expedited procedures for professional and vocational licensing by endorsement or reciprocity, and temporary licensing; and
- (2) Requirements for nonresident military spouses to maintain licenses and report changes in status or circumstances that may affect licensure.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and The Chamber of Commerce of Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds many military spouses accompany their service member spouses on military duty assignments. Your Committee further finds that this measure tracks efforts led by the current Presidential Administration to simplify and expedite the employment of trained, educated, and highly qualified military spouses who accompany their service member spouses on military duty assignments. Your Committee also finds that this measure, as introduced, requires an otherwise qualified military spouse to have been stationed in Hawaii for at least one year, thus delaying the certification process by at least one year. Amendments to this measure are therefore necessary to clarify this language.

Accordingly, your Committee has amended this measure by clarifying that the qualifications for a "nonresident military spouse" include being married to a service member spouse who is stationed in Hawaii pursuant to military permanent change of station orders issued by the United States Department of Defense.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 965, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 965, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 567 Commerce and Consumer Protection on S.B. No. 945**

The purpose and intent of this measure is to allow condominium associations and cooperative housing corporations to adopt rules to prohibit smoking in units, common elements, or limited common elements if a majority of the tenant shareholders or owners approved the smoking prohibition.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Council of Associations of Apartment Owners and two individuals. Your Committee received comments on this measure from the Community Associations Institute, Hawaii Chapter and Coalition for a Tobacco-Free Hawai'i.

Your Committee finds that in 2010, the United States Surgeon General noted that any level of exposure to secondhand smoke is dangerous and can be harmful. Your Committee further finds that residents who live in multi-unit housing can be negatively affected by secondhand smoke exposure from other residents. Your Committee additionally finds that this measure would allow condominium associations and cooperative housing corporations to regulate smoking within and outside of individual units.

However, your Committee has heard concerns that although this measure requires a majority of shareholder or owner approval to prohibit smoking outside of individual units, condominium boards of directors are already authorized to regulate the use of common elements and limited common elements. Your Committee has also heard testimony that section 328J-3(13), Hawaii Revised Statutes, limits smoking in certain common areas of buildings, including apartments, condominiums, multifamily dwellings, and other multiple-unit residential facilities. Your Committee concludes that this measure should be amended to apply to chapter 514A, Hawaii Revised Statutes, as well as chapters 421I and 514B, Hawaii Revised Statutes. Your Committee also concludes that this measure should be amended to preserve and maintain the existing authority of shareholders and condominium boards of directors. Your Committee also finds that amendments to this measure are necessary to provide smokers with a commercially reasonable time to sell their units or apartments after a cooperative housing corporation, association of apartment owners, or condominium association adopts a prohibition on smoking.

Accordingly, your Committee has amended this measure by:

- (1) Allowing cooperative housing corporations, associations of apartment owners, and condominium associations to adopt rules to prohibit smoking in units or apartments if a majority of the tenant shareholders or owners approved the smoking prohibition; provided that a rule to prohibit smoking shall not become effective sooner than one hundred eighty days after the prohibition is approved;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 945, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 945, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 568 Ways and Means on S.B. No. 82**

The purpose and intent of this measure is to clarify the powers of and authorize the Hawaii Public Housing Authority (Authority) to receive all gifts that benefit public housing residents.

More specifically, this measure:

- (1) Authorizes the Authority to sell, lease, rent, hold, maintain, use, and operate any property in support of its purposes, power, and programs;
- (2) Requires that the acceptance of gifts valued over \$1,000 be approved or confirmed by the Authority's board of directors; and
- (3) Exempts the Authority from the requirements of chapters 76, 89, 90, 103, and 103D, Hawaii Revised Statutes, regarding the use of volunteer services.

Your Committee finds that authorizing the Hawaii Public Housing Authority to accept gifts that benefit the residents served by the Authority will enhance living conditions for the residents and improve the quality of the living units. Your Committee also finds that the exemption from the laws that govern the use of volunteers will allow the Authority more flexibility in recruiting and retaining volunteers for community development projects. Accordingly, your Committee believes that this measure will improve the community and help rehabilitate public housing units.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 82, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 82, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 569      Ways and Means on S.B. No. 204**

The purpose and intent of this measure is to fund holistic treatment and support and transition services for the ex-offender population.

More specifically, this measure appropriates funds for fiscal year 2014-2015 to incentivize and match funds for programs that are specifically designed to help offenders transition safely back into the community.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Community Alliance On Prisons, and nine individuals.

Your Committee finds that the reintegration of ex-offenders into the general population is a process and that programs that assist in this transition improve the chances of a smoother, more successful return to the community. The successful reintegration of ex-offenders benefits the community and reduces recidivism. Your Committee further finds that providing matching funds for programs that assist in the transition of ex-offenders will increase employment rates for ex-offenders, incentivize partnership and investment in these programs, and improve the general welfare of the State.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriation shall be expended only upon the commitment of private or public matching funds; and
- (2) Making a technical nonsubstantive amendment for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 204, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 204, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 570      Ways and Means on S.B. No. 326**

The purpose and intent of this measure is to mitigate health and food risks in the food production process.

More specifically, this measure establishes and appropriates funds for a task force to identify and develop good agricultural practices and preventative measure guidelines to ensure safe food throughout the farm-to-consumer food supply system.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau Federation.

Your Committee finds that food safety is an important concern for the State, and it is critical to ensure that the process of food production is as safe as possible. Your Committee also finds that the task force established in this measure would identify and develop the agricultural practices necessary to address the food safety and health concerns of consumers in the State.

Your Committee has amended this measure by:

- (1) Providing for representatives from the wholesale distribution, manufacturing, retail, hotel, and restaurant industries to serve as members of the task force;
- (2) Changing the appropriation for task force administrative costs to an unspecified amount;
- (3) Changing the dissolution date of the task force from December 31, 2013, to July 1, 2014, to facilitate participation of the task force during the 2014 Regular Session;
- (4) Changing the effective date, to July 1, 2050, to further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 326, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 326, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kouchi).

**SCRep. 571      (Majority) Ways and Means on S.B. No. 345**

The purpose and intent of this measure is to bring license fees of vendors of portable electronics insurance into line with the fees charged in other jurisdictions.

Your Committee received written comments in support of this measure from Asurion and one individual. Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the fee amendments proposed by this measure are appropriate, given that the licenses in question cover the activities of both the vendor and its employees and the resulting fee structure is consistent with that in place in other states.

Your Committee has amended this measure by:

- (1) Changing the amounts of the license fees to unspecified amounts; and

- (2) Changing the effective date to July 1, 2050, in order to promote continued discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 345, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 345, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, 1 (Slom). Excused, none.

**SCRep. 572 Ways and Means on S.B. No. 497**

The purpose and intent of this measure is to appropriate matching funds from the beach restoration special fund to finance the costs of the environmental impact statement associated with the planned beach nourishment project at Kaanapali Beach on Maui.

Your Committee received written comments in support of this measure from Lyon.Us.com. Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that the ongoing Kaanapali Beach nourishment project will require the preparation of an environmental impact statement estimated to cost \$800,000 of which the private sector is committed to providing \$400,000.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate continued discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 497, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kahele, Kouchi).

**SCRep. 573 Ways and Means on S.B. No. 564**

The purpose and intent of this measure is to establish a Hawaii-grown Produce Working Group to develop and implement a demonstration model in which a state facility utilizes Hawaii-grown produce for consumption.

In addition, the measure also:

- (1) Requires the working group to report its findings and recommendations to the Legislature; and
- (2) Appropriates an unspecified sum for the working group to develop and implement the demonstration model.

Your Committee received written comments in support of this measure from the Kohala Center - Hawaii Island School Garden Network, Hawaii Association of Independent Schools, and Hawaii Farm Bureau Federation.

Your Committee finds that increasing the consumption of Hawaii-grown produce will help ensure the availability of fresh, high quality produce by establishing agriculture as a driving economic force in the State. Your Committee believes that the Hawaii-grown Produce Working Group established by this measure will help the Legislature evaluate how locally-grown produce can be utilized at state facilities throughout the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 564, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 564, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (English, Kahele, Kouchi).

**SCRep. 574 Ways and Means on S.B. No. 661**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaii Pacific Health in financing the construction or renovation of its health care facilities.

Your Committee received written comments in support of this measure from Healthcare Association of Hawaii and Hawaii Pacific Health.

Your Committee received written comment on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii Pacific Health is a non-profit health care system consisting of four hospitals in the State. Hawaii Pacific Health is the State's largest health care provider and provides services to the general public. Accordingly, your Committee believes that assistance in financing the construction or renovation of its health care facilities is in the State's interest to maintain and improve the quality of health care services.

Your Committee has amended this measure by specifying a total amount not to exceed \$175,000,000 for the issuance of special purpose revenue bonds to Hawaii Pacific Health.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 661, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 661, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 575      Ways and Means on S.B. No. 726**

The purpose and intent of this measure is to exempt car-sharing organizations from the rental motor vehicle surcharge tax.

Your Committee received written comments in support of this measure from Hertz Corporation and two concerned individuals.

Your Committee received written comments in opposition to this measure from the Department of Transportation.

Your Committee received written comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that car-sharing organizations offer an environmentally and traffic friendly alternative to mass motor vehicle ownership. These organizations allow members, many of whom cannot afford or prefer not to own a motor vehicle, access to motor vehicles from the organization's fleet on a short-term basis, often hourly. This arrangement reduces greenhouse gas emissions and traffic congestion by encouraging car-sharing as an alternative to car ownership.

Your Committee has amended this measure by:

- (1) Defining a car-sharing organization as an organization that:
  - (A) Operates, exclusively, a qualified fleet of vehicles primarily for hourly rental;
  - (B) Charges an annual membership separately from other charges;
  - (C) Provides self service, fully automated access to its qualified fleet exclusively to its members;
  - (D) Does not require a separate written agreement for each use of a vehicle in the qualified fleet;
  - (E) Clarifies that the hourly fee includes fuel, insurance, maintenance, and other costs;
  - (F) Limits member use of the qualified fleet to no more than twelve hours per day; and
  - (G) Requires vehicles to be returned to the point of rental;
- (2) Defining the term "qualified fleet of vehicles" by requiring, among other things, that the fleet include an unspecified percentage of hybrid electric, plug-in hybrid electric, and electric vehicles;
- (3) Requiring car-sharing organizations that seek rental motor vehicle surcharge tax exempt status to submit and have approved by the Department of Taxation an application that shows compliance with all of the requirements of a car-sharing organization;
- (4) Authorizing the Department of Taxation to require the car-sharing organization to submit an electronic report of all exempt income derived from the operation of the organization;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure, including discussion on the percentage of vehicles that must be hybrid electric, plug-in hybrid electric, and electric to meet the requirements of a qualified fleet; and
- (6) Making technical nonsubstantive amendments for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 726, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 726, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 576      Ways and Means on S.B. No. 1339**

The purpose and intent of this measure is to qualify areas in the State as rural for purposes of participation in federal programs that accept state definitions of a rural area.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs.

Your Committee finds that while federal definitions of a "rural area" preclude many communities from participating in federal programs, several other federal programs recognize state definitions of a "rural area" for purposes of participation in those programs. This measure will ensure that many of the State's culturally significant rural communities will continue to receive federal funds for services critical to their continued existence and prosperity.

Your Committee has amended this measure by changing the effective date to July 1, 2050, in order to facilitate continued discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1339, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1339, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kouchi).

**SCRep. 577 Ways and Means on S.B. No. 1357**

The purpose of this measure is to provide protection from liability for government agencies maintaining or repairing a road whose ownership or jurisdiction is subject to dispute between the State and a county.

Specifically, the measure:

- (1) Provides government agencies that maintain or repair a disputed road with immunity from liability for injury or damage sustained from use of the road;
- (2) Provides that government agencies are not to be deemed to have assumed ownership or jurisdiction over disputed roads by virtue of the maintenance or repair activities; and
- (3) Provides counties that accept, by resolution, the dedication of a disputed road with immunity from liability for injury or damage sustained from use of the road for a period of ten years following the county's acceptance of the road.

Your Committee finds that this measure will protect state and county agencies from liability for their maintenance or repair of disputed roads, while allowing the agencies to work on resolving ownership issues over the roads.

Your Committee has amended this measure by:

- (1) Changing the reference to "government agency" in the new section established in chapter 662, Hawaii Revised Statutes, relating to state tort liability, to "state agency," which is defined in section 662-1, Hawaii Revised Statutes;
- (2) Moving the provision regarding the liability of counties for dedicated roads from the new section relating to state tort liability to section 46-15.9, Hawaii Revised Statutes, relating to county activities on disputed roads;
- (3) Changing the effective date to July 1, 2050, to encourage further discussion on this measure; and
- (4) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1357, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1357, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 578 (Majority) Judiciary and Labor on S.B. No. 1337**

The purpose and intent of this measure is to amend the definitions of "gambling" and "something of value" to clarify that participation in health wellness programs is not considered gambling or lottery participation under the Hawaii Penal Code.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association and The Chamber of Commerce of Hawaii. Testimony in opposition to this measure was submitted by the Department of the Attorney General and Police Department, City and County of Honolulu.

Your Committee finds that preventative health care is important not only for individuals' personal wellbeing, but also for the health care system of the State as a whole. Preventative health care assists health consumers in maintaining good health and helps them avoid debilitating and costly diseases and conditions that might otherwise affect them. Your Committee notes that while these goals are laudable, there have been concerns that such programs run afoul of the State's statutes prohibiting gambling or lotteries. Because wellness programs promote the health of Hawaii's citizens and save the health care system significant sums of money annually, your Committee finds it necessary to amend the Hawaii Penal Code to clarify that wellness programs do not constitute gambling or lottery participation.

Your Committee notes the concerns raised by the Department of the Attorney General that this measure is unnecessary and could potentially carve out an excessively broad exception to the State's gambling laws. However, your Committee finds that this measure is necessary to ensure that state gambling and lottery laws do not hinder health wellness programs that encourage healthy behavior.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to clarify that participation in health wellness programs is excluded from the definition of "something of value" only if the wellness program does not constitute gambling, as defined in section 712-1220(4), Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1337, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1337, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 2 (Ihara, Slom). Excused, none.

**SCRep. 579      Judiciary and Labor on S.B. No. 452**

The purpose and intent of this measure is to reestablish the Governor's authority to nominate and, with the advice and consent of the Senate, appoint the members of the Board of Regents of the University of Hawaii (Board of Regents) by repealing the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Candidate Advisory Council), effective upon ratification of an amendment to article X, section 6, of the Hawaii State Constitution that repeals provisions related to the Candidate Advisory Council.

Your Committee received testimony in support of this measure from the Policy Office of the Governor. Testimony in opposition to this measure was submitted by the University of Hawaii Regents Candidate Advisory Council.

Since the passage of Act 56, Session Laws of Hawaii 2007, to implement the amendments to article X, section 6, of the Hawaii State Constitution, your Committee finds that while the Candidate Advisory Council has nominated several outstanding appointees to the Board of Regents, a number of issues have arisen regarding the method of Regent selection that has hampered the work of the Candidate Advisory Council and led to questions regarding the final selection of appointees during the Senate confirmation process. The latest example is the Senate's rejection of two of the Governor's nominees to the Board of Regents during the Regular Session of 2011.

Your Committee further finds that the Governor will not be able to adequately select nominees to the Board of Regents unless the Governor has more control and involvement in the recruitment and selection process. Your Committee believes that it is appropriate to reassess and seriously consider repealing the Candidate Advisory Council.

Your Committee has amended this measure by:

- (1) Authorizing the Board of Regents to elect one vice-chairperson, rather than up to two vice-chairpersons; and
- (2) Amending the timing of election and term dates of the Board of Regents' chairperson and vice-chairperson.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 452, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 452, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 580      Judiciary and Labor on S.B. No. 499**

The purpose and intent of this measure is to adopt the Uniform Partition of Heirs Property Act, which establishes procedures and remedies for use in actions for partition of real property involving heirs property.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation. The Judiciary and one individual submitted comments on this measure.

Your Committee finds that in 2010, the Uniform Law Commission promulgated the Uniform Partition of Heirs Property Act to provide a fair solution to the risks posed to those who own heirs property, which is real property held in tenancy in common that meets certain requirements. Your Committee notes that this measure does not displace existing partition law for non-heirs property, nor does it prohibit a party from petitioning for partition by sale or apply to situations where there is a written agreement relating to property partition. Rather, this measure establishes a hierarchy of remedies designed to protect a family's property holdings and real property wealth for partition actions involving heirs property. Your Committee further finds that this measure provides cotenants with many of the rights and protections found in private agreements governing the partition of tenancy in common property.

Your Committee notes the concerns raised by the Judiciary regarding this measure placing full responsibility on the court to provide notice of appraisal, notice of fair market value, and notice to cotenants under certain circumstances. The Judiciary testified that generally the parties in a civil case are responsible for giving notice, and the court determines whether the notice requirement is satisfied. Your Committee requested that the Judiciary and Commission to Promote Uniform Legislation develop language to address the Judiciary's concerns regarding the notice requirements under this measure.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language submitted by the Judiciary that replaces the court with other parties to be responsible for providing notice, such as the movant for determination or appraiser, and specifies the receiving parties;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 499, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 499, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 581      Judiciary and Labor on S.B. No. 529**

The purpose and intent of this measure is to:

- (1) Prohibit family courts from awarding a person custody of or visitation with a child if the person has been convicted of rape or sexual assault and the child was conceived as a result of that offense; and

- (2) Authorize the family courts to terminate parental rights, with respect to a child, of a natural father who has been convicted of rape or sexual assault and the child was conceived as a result of the rape or sexual assault.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Sex Abuse Treatment Center, and two individuals.

Your Committee finds that state law does not prevent a natural father from claiming paternity rights and obtaining custody of or visitation with a child conceived as a result of sexual assault or rape. The father is afforded the same rights as any other father despite the sexual assault or rape against the victim-mother because Hawaii does not have a law restricting or terminating those rights. Consequently, any natural father may assert paternity rights, including custody and visitation, forcing a victim-mother to confront the natural father on a recurring basis while raising a child conceived from a sexual assault or rape.

Your Committee notes that a child could be conceived as a result of a rape or sexual assault committed by a female. Thus, the natural father could be the victim of a rape or sexual assault committed by the natural mother. Upon the request of your Committee, the Sex Abuse Treatment Center developed language to apply this measure to a natural parent rather than a natural father to recognize that a mother or father could be a victim of a rape or sexual assault out of which a child was conceived.

Your Committee has amended this measure by:

- (1) Adopting the language developed by the Sex Abuse Treatment Center to:
  - (A) Specify that family courts may deny custody or visitation rights or terminate the parental rights of a natural parent, rather than father, who is convicted of rape or sexual assault if the child was conceived as a result of the rape or sexual assault;
  - (B) Specify that the convicted natural parent is still obligated to support the child if custody or visitation rights are denied or parental rights are terminated;
  - (C) Allow the court to order the convicted natural parent to pay child support;
  - (D) Specify that this measure does not apply to a convicted natural parent and custodial natural parent who cohabitate and establish a mutual custodial environment for the child conceived as a result of the rape or sexual assault after the date of conviction; and
  - (E) Allow the custodial natural parent to petition the court to allow the convicted natural parent custody or visitation rights or reinstate the convicted natural parent's parental rights; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 529, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 529, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 582 Commerce and Consumer Protection on S.B. No. 548**

The purpose and intent of this measure is to exempt from the licensing requirement to practice medicine in the State any commissioned medical officer or commissioned or civilian behavioral health professional employed by the U.S. Department of Defense, who is credentialed by Tripler Army Medical Center, while providing direct telemedicine support or services to neighbor island beneficiaries within a Hawaii National Guard armory on the islands of Kauai, Hawaii, Molokai, or Maui.

Your Committee received testimony in support of this measure from the Hawaii Medical Board. Your Committee received comments on this measure from the Hawaii Board of Psychology.

Your Committee finds that enhanced medical services for National Guard armories on the islands of Kauai, Hawaii, Molokai, and Maui will have a direct and long term impact for health care accessibility for neighbor island beneficiaries. Your Committee further finds that the exemptions under this measure are limited to physicians and osteopathic physicians. However, existing sections under the Insurance Code permit telehealth services by other health providers. Civilian behavioral health providers who are licensed as marriage and family therapists, mental health counselors, and psychologists and who are employed by the Department of Defense and credentialed by Tripler Army Medical Center should also be able to provide telemedicine services to neighbor island beneficiaries within a Hawaii National Guard armory. Amendments to this measure are therefore necessary to ensure that neighbor island beneficiaries within a Hawaii National Guard armory have access to the full range of credentialed personnel offering behavioral health services.

Accordingly, your Committee has amended this measure by:

- (1) Exempting from licensing requirements civilian behavioral health professionals who are otherwise licensed as marriage and family therapists under chapter 451J, Hawaii Revised Statutes; mental health counselors under chapter 453D, Hawaii Revised Statutes; or psychologists under chapter 465, Hawaii Revised Statutes, and who are employed by the Department of Defense and credentialed by Tripler Army Medical Center; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 548, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 548, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Taniguchi).

**SCRep. 583 Commerce and Consumer Protection on S.B. No. 654**

The purpose and intent of this measure is to:

- (1) Mandate health insurance coverage for tobacco use cessation treatments; and
- (2) Require insurers to provide policyholders or subscribers information about tobacco use cessation treatment coverage.

Your Committee received testimony in support of this measure from the Department of Health, American Heart Association, American Cancer Society Cancer Action Network, Kaiser Permanente, Coalition for a Tobacco-Free Hawai'i, Hawaii State Center for Nursing, and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that cigarette smoking is the leading cause of preventable disease and preventable death in the United States. In Hawaii, tobacco use claims 1,100 lives each year and creates \$360,000,000 in annual health care costs. Despite significant gains in tobacco prevention and control, approximately 176,000 adults in Hawaii report being current smokers.

Your Committee further finds that nicotine addiction is treatable. Data shows that most smokers want to quit, and covering treatment improves the chances that a person will quit smoking. This measure ensures that all insurance providers in Hawaii will guarantee comprehensive coverage of evidence-based tobacco cessation treatment, thus saving lives and money.

Your Committee also finds that the United States Public Health Services Clinical Practice Guideline on Treating Tobacco Use and Dependence recommends individual, group, and telephone counseling as effective methods of tobacco dependence counseling. An amendment to this measure is necessary to specify that these methods of counseling shall be covered. Additionally, the United States Preventive Services Task Force recommends that a combination therapy of counseling and medications is more effective at increasing cessation rates than either component alone. An amendment to this measure is necessary to also incorporate pharmacotherapy coverage, as recommended by the Preventive Services Task Force.

Your Committee additionally finds that beginning in 2014, the federal Patient Protection and Affordable Care Act will require private insurers to provide coverage for tobacco use cessation treatment. However, it could take several years before all policies reflect mandated tobacco cessation services. Therefore, an amendment to this measure is necessary to clarify that all health plans in Hawaii must provide cessation benefits, including those that are grandfathered in under the Patient Protection and Affordable Care Act.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that notwithstanding section 23-51, Hawaii Revised Statutes, or any mandates for tobacco use cessation coverage required by the federal Patient Protection and Affordable Care Act, P.L. 111-148, all insurers in the State shall provide coverage for tobacco use cessation treatment;
- (2) Specifying that tobacco use cessation coverage shall include group, private, or telephone counseling;
- (3) Specifying that tobacco use cessation coverage shall also include pharmacotherapy, meaning those products identified for cessation use and listed by the United States Preventive Services Task Force, including prescription and over-the-counter nicotine replacement medications and non-nicotine cessation medications; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 654, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 654, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 584 Ways and Means on S.B. No. 1371**

The purpose and intent of this measure is to provide mooring space in small boat harbors for Native Hawaiian canoes used for nonprofit educational purposes.

More specifically, this measure requires the Department of Land and Natural Resources to accommodate, in all state small boat harbors, the mooring of Native Hawaiian canoes owned or leased by a nonprofit entity and operated for educational purposes. The measure also requires the nonprofit entity to verify its educational activities.

Your Committee received written comments in support of this measure from one concerned individual.

Your Committee finds that the study of Hawaiian culture is required by the Hawaii Constitution and that the use of canoes has always been an essential part of Hawaiian culture. This measure would promote the study of Hawaiian culture through the use of Native Hawaiian canoes.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1371, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1371, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kouchi).

**SCRep. 585      Ways and Means on S.B. No. 1317**

The purpose and intent of this measure is to secure the legacy of Nisei veterans and preserve the site of the Honouliuli internment camp.

More specifically, this measure:

- (1) Appropriates funds for the planning, design, and construction of the Nisei Veterans Legacy Center; provided that matching funds are provided;
- (2) Requires the Department of Land and Natural Resources to report to the Legislature on the status of the Nisei Veterans Legacy Center, including funding;
- (3) Appropriates funds for the continued maintenance, support, and work of the Honouliuli Park Site Project Advisory Group for the Honouliuli Internment Camp Educational Center; provided that matching funds are provided; and
- (4) Requires the Honouliuli Park Site Project Advisory group to submit a report to the Legislature regarding the recommendations and status of the Honouliuli Internment site.

Your Committee received written comments in support of this measure from the 442<sup>nd</sup> Veterans Club, the University of Hawaii-West Oahu, and thirty-seven individuals.

Your Committee finds that a Nisei Veterans Legacy Center and the Honouliuli Internment Camp Education Center would preserve, perpetuate, and share the legacy and history of the Japanese-Americans who served in the United States Armed Forces during World War II. Your Committee also finds that the Legacy Center and the Education Center would complement academic and research programs offered at the University of Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date from July 1, 2013, to July 1, 2050, to encourage further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1317, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 586      (Majority) Ways and Means on S.B. No. 1275**

The purpose and intent of this measure is to grant the Kaho'olawe Island Reserve Commission a permanent exemption from chapter 103D, Hawaii Revised Statutes, for the procurement of food or fuel products necessary for the Commission to carry out the purposes of chapter 6K, Hawaii Revised Statutes, relating to the Kaho'olawe Island Reserve.

Your Committee received written comments in opposition to this measure from the State Procurement Office.

Your Committee finds that the Kaho'olawe Island Reserve Commission faces unique challenges in carrying out its statutory responsibilities to preserve and protect the Kaho'olawe Island Reserve. These include difficulty in acquiring and transporting cargo, food, and fuel to the island. Your Committee finds that the additional flexibility provided by this measure is necessary and appropriate for the Kaho'olawe Island Reserve Commission to fulfill its mission under chapter 6K, Hawaii Revised Statutes.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1275, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1275, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Slom). Excused, 1 (Kouchi).

**SCRep. 587      Ways and Means on S.B. No. 1273**

The purpose and intent of this measure is to establish a University of Hawaii system-wide academy for creative media that shall award certificates and degrees emphasizing narrative storytelling through a unique program in indigenous filmmaking.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; and one concerned individual.

Your Committee received written comments on this measure from the University of Hawaii System.

Your Committee finds that the academy for creative media was formally approved by the University of Hawaii Board of Regents in 2003 to promote the development of creative media and a new industry in the State. This measure will codify the successful academy for creative media Manoa program, which has been teaching the art of digital media and filmmaking for the past decade.

Your Committee has amended this measure by:

- (1) Clarifying that the term "board" refers to the Board of Regents; and

(2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1273, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1273, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 588 Ways and Means on S.B. No. 1221**

The purpose and intent of this measure is to foster growth in the aeronautics industry in the State.

More specifically, this measure appropriates an unspecified amount to the University of Hawaii for the hiring of a program coordinator and technical support staff member to complete the planning and studies required for the international flight training center and the proposed aeronautical training program.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Hawaii, the Department of Business, Economic Development and Tourism, the Department of Defense, the Hawaii County Council-District 3, the University of Hawaii at Hilo, and eight individuals.

Your Committee received written comments on this measure from two individuals.

Your Committee finds that in 2012, the Legislature established an exploratory committee that was tasked to determine if an international flight training center should be established in the State. The exploratory committee proposed three pilot programs: the professional helicopter pilot program, the unmanned aircraft systems pilot program, and the professional airplane pilot program. The exploratory committee also recommended that the Legislature appropriate funds to hire a program coordinator and a technical support staff member to conduct and draft the necessary planning and studies required for these pilot programs. Accordingly, your Committee finds that this measure supports the growth of the aeronautics industry in the State.

Your Committee has amended this measure by changing the effective date from July 1, 2013, to July 1, 2050, to promote further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1221, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1221, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kouchi).

**SCRep. 589 (Majority) Ways and Means on S.B. No. 1131**

The purpose and intent of this measure is to establish a tiered glass advance disposal fee based on the capacity of the glass container.

Your Committee received written comments in support of this measure from the Department of Health; Department of Environmental Services, City and County of Honolulu; and Department of Public Works, County of Kauai.

Your Committee received written comments in opposition to this measure from the Distilled Spirits Council of the United States; Hawaii Food Industry Association; and Retail Merchants of Hawaii.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure will increase the glass advance disposal fee and thus enable the Department of Health to increase funding to all counties to bolster their glass recycling efforts.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1131, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 590 (Majority) Ways and Means on S.B. No. 1101**

The purpose and intent of this measure is to stabilize payments to general assistance recipients and reduce the need for emergency appropriations.

More specifically, this measure:

- (1) Establishes the interim assistance reimbursement special fund into which interim assistance reimbursements from the Social Security Administration shall be deposited as reimbursements for state-funded financial assistance payments made to recipients pending approval for federal supplemental security income; and
