

## CONFERENCE COMMITTEE REPORTS

**Conf. Com. Rep. 1-14 on S.B. No. 2901**

The purpose of this measure is to facilitate expedient compliance with federal motor carrier safety regulations by amending or deleting statutory provisions containing federal requirements that are currently addressed in the Hawaii Administrative Rules or are otherwise unnecessary.

Your Committee on Conference finds that serious financial penalties can be incurred when a state does not comply with certain federal motor carrier safety regulations. Adopting these regulations by reference in administrative rules is expedient and facilitates accuracy in compliance. When placing these regulations in the Hawaii Revised Statutes, there is a possibility for noncompliance to result when numerous legislative measures are drafted and enacted. To ensure exact compliance and avoid the possibility of a contradiction between rules and statutes, the Department recommends deleting statutes and provisions of the statutes whenever they are addressed in administrative rules or otherwise deemed unnecessary.

Your Committee on Conference has amended this measure by:

- (1) Upon the recommendation of the Department of Transportation to avoid the loss of five percent of the State's federal-aid highway funds, specifying that the exemption from the Motor Carrier Safety Law for passenger carrying vehicles with a gross vehicle weight of 10,000 pounds or less used in car or van pools applies if the vehicles are used to transport less than sixteen individuals; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2901, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2901, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Espero, Kahele, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Espero).

Representatives Yamane, Rhoads, Creagan, Har and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Creagan, Har).

**Conf. Com. Rep. 2-14 on S.B. No. 2657**

The purpose of this measure is to:

- (1) Require a contractor who installs a solar energy device to notify the private entity that installation may void the roofing warranties or guarantees;
- (2) Require a contractor that installs a solar energy device to obtain written approval from the roofing manufacturer and follow written instructions for waterproofing roof penetrations from the roof manufacturer unless the private entity forgoes the roofing warranty or guarantee; and
- (3) Require a roofing contractor that waterproofs roof penetrations related to the installation of a solar energy device to honor the roof warranty or guarantee; provided that if either the roofing contractor's guaranty or the roofing manufacturer's warranty is no longer in effect, the contractor who installs the solar energy device and waterproofs the penetrations shall apply the contractor's or lessor's standard labor and workmanship warranty.

Your Committee on Conference finds that before a solar energy device is installed, homeowners with properties under the control of a homeowners association must first obtain confirmation from the roofing contractor that the installation of a solar energy device by another contractor will not void the existing roof warranty. Since most roofing contractors will not warrant the work of another contractor, this prevents many homeowners from purchasing solar energy devices. This measure will establish procedures and disclaimers for the installation of solar energy devices that will not void roof warranties on common or limited common elements, while addressing the concerns of both roofing and solar energy device contractors.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2657, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2657, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Ihara, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Lee, Kawakami, Lowen, Onishi and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Lowen).

**Conf. Com. Rep. 3-14 on S.B. No. 2134**

The purpose of this measure is to amend various sections of chapter 302A, Hawaii Revised Statutes (HRS), to comply with the requirements of the federal Individuals with Disabilities Education Act.

Your Committee on Conference finds that the United States Court of Appeals for the Ninth Circuit recently held in E.R.K. v. State of Hawaii Department of Education, 728 F.3d 982 (2013), that section 302A-1134(c), HRS, which limits public school attendance to children who are under twenty years of age, violates the federal Individuals with Disabilities Education Act by denying public education to special-needs students aged twenty to twenty-one. This measure is necessary to bring Hawaii's law into compliance with the federal Individuals with Disabilities Education Act.

Your Committee on Conference has amended this measure by making this measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2134, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2134, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Woodson, Ichiyama and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 4-14 on S.B. No. 2768**

The purpose of this measure is to:

- (1) Amend the compulsory education law to make kindergarten mandatory;
- (2) Develop a statewide individualized kindergarten readiness system and establish an individualized kindergarten assessment system; and
- (3) Appropriate funds to the Department of Education to develop the statewide individualized kindergarten readiness system and readiness assessment system.

Your Committee on Conference finds that Hawaii currently does not require that children attend kindergarten, although ninety-seven percent of students eligible to attend do voluntarily enroll in either public or private kindergarten classes. Those who do not attend kindergarten are typically behind their peers in their academic and social development. This measure will enhance the educational achievement of Hawaii's youth by making attendance at a public or private kindergarten mandatory, unless otherwise exempted by law.

Your Committee on Conference finds that parents who choose to home school their child will be allowed to continue to do so under this measure. In addition, this measure will not affect parents who choose to send their child to a private school, where the mandatory kindergarten age may require a child to be five years of age by a certain date that is different than July 31.

Your Committee on Conference has amended this measure by:

- (1) Reinserting section 1 of the S.D. 2 version of this measure to emphasize the importance of early childhood education and the benefit of making kindergarten mandatory;
- (2) Reinserting section 3 of the S.D. 2 version of this measure, which amends section 302A-411, Hawaii Revised Statutes (HRS), to make kindergarten mandatory;
- (3) Further amending section 302A-411, HRS, to clarify that charter schools are not exempt from the requirement to have kindergarten programs;
- (4) Amending section 302A-411, HRS, and section 302A-1132, HRS, to clarify that beginning with the 2014-2015 school year, any parent, guardian, or other person having the responsibility for, or care of, a child who will be at least five years of age on or before July 31 of the school year shall enroll the child in a public school kindergarten unless the child is enrolled at a private school or the child's attendance is otherwise exempt under this section;
- (5) Removing part II of this measure, which would have required the Department of Education to develop a statewide individualized kindergarten readiness system and establish an individualized kindergarten assessment system and appropriated funds to the Department;
- (6) Inserting an effective date of July 1, 2014; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2768, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2768, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige and Kidani.

Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Takumi, Woodson, Aquino, Awana and Matsumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 5-14 on H.B. No. 2560**

The purpose of this measure is to assist child care providers located in agriculturally designated districts in meeting the child care needs of the community by:

- (1) Allowing the continued operation of family child care homes in agriculturally designated districts if located in a farm dwelling; and
- (2) Authorizing caregivers in family child care homes to provide care for one to six, rather than three to six, children unrelated to the caregivers.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2560, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2560, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Nishihara, Espero, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Espero, Kidani).

Representatives Hashem, Carroll, Wooley, Kobayashi and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Carroll, Ward).

**Conf. Com. Rep. 6-14 on S.B. No. 2577**

The purpose of this measure is to require naturopathic physicians to complete a minimum of thirty-five hours of continuing education courses, including a minimum of fifteen hours of continuing education courses in pharmacology, during each licensing renewal biennium beginning December 31, 2017.

Your Committee on Conference finds that naturopathic education focuses primarily on natural treatments, and therefore offers very few contact hours of study on pharmacological treatment of disease. This measure encourages naturopathic physicians to stay up to date on current practices in naturopathy and pharmacology so that they may provide the best care possible to their patients.

Your Committee on Conference has amended this measure by:

- (1) Removing the requirement that the Board of Naturopathic Medicine design standards and methodology for naturopathic physicians to report and track quality metrics and health care outcomes;
- (2) Removing the requirement that the Board of Naturopathic Medicine report on the data collection of quality metrics and health care outcomes to the Legislature;
- (3) Removing the requirement that naturopathic physicians carry medical liability insurance coverage;
- (4) Clarifying that each licensee shall complete continuing education courses prior to every biennial renewal following the December 31, 2017, renewal;
- (5) Making the measure effective upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2577, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2577, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Galuteria, Nishihara and Wakai.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Representatives Belatti, McKelvey, Rhoads, Creagan and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**Conf. Com. Rep. 7-14 on S.B. No. 2589**

The purpose of this measure is to transfer law enforcement functions and authority related to harbors law enforcement from the Department of Transportation to the Department of Public Safety.

Your Committee on Conference finds that the Department of Public Safety, Sheriff Division, would be better suited than the Department of Transportation to perform law enforcement functions relating to harbors. Your Committee on Conference further finds that consolidating harbor law enforcement functions in the Department of Public Safety and requiring harbor police officers to meet state sheriff qualifications will benefit the State by standardizing skill requirements and increasing professionalism.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the transfer is effective July 1, 2016;
- (2) Inserting language to amend section 266-29, Hawaii Revised Statutes, to clarify that effective July 1, 2016, the issuance of citations or notices of infractions of the state harbors civil violations system shall be under the jurisdiction of the Department of Public Safety, and all other functions and responsibilities shall remain with the Department of Transportation;
- (3) Inserting language to amend section 353C-2, Hawaii Revised Statutes, to establish a harbors section within the Department of Public Safety, transfer harbors functions from the Department of Transportation to the Department of Public Safety, and require harbor police officers to meet the same qualifications as sheriffs of the Department of Public Safety; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2589, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2589, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Espero, Ige, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Espero).

Representatives Yamane, Aquino, Takayama, Cullen and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 8-14 on S.B. No. 2809**

The purpose of this measure is to align statutory language regarding utility ratemaking with widely accepted utility ratemaking principles and ratemaking practices already applied in Hawaii.

Your Committee on Conference finds that existing statute allows public utilities to earn a fair return on public utility property that is “actually used or useful” for public utility ratemaking purposes. However, the “used and useful” principle is widely accepted as the regulatory industry standard for determining fair value in ratemaking. Hawaii courts also use “used and useful” when deciding cases or disputes involving Hawaii’s utility ratemaking laws. This measure conforms certain sections in the Hawaii Revised Statutes with practices followed by the Public Utilities Commission and state courts when ruling on dockets and cases involving application of Hawaii’s utility ratemaking laws.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2809, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2809, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, Kawakami, Nishimoto, Lowen, Yamashita and Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, 1 (Yamashita).

**Conf. Com. Rep. 9-14 on H.B. No. 2251**

The purpose of this measure is to ensure that the Housing Loan and Mortgage Program, commonly known as the Hula Mae Multifamily Revenue Bond Program, can continue to finance the development and preservation of affordable rental housing in future years by increasing the Hula Mae Multifamily Revenue Bond Program authorization limit.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2014; and
- (2) Changing the proposed Hula Mae Multifamily Revenue Bond Program revenue bond authorization limit from \$750,000,000 to \$1,000,000,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2251, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2251, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Hashem, Woodson, Jordan and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 10-14 on S.B. No. 2391**

The purpose of this measure is to establish a two-year pilot project to convene one working group on the island of Oahu to identify and implement management strategies for the resolution of user conflicts on public recreational lands.

Your Committee on Conference finds that establishing a working group comprising state, county, and community representatives on the island of Oahu would facilitate the identification of recreational land management solutions that are well suited for the unique challenges faced in the particular site selected to be the focus of the working group.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2391, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2391, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Espero, Dela Cruz, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Evans, Lowen, Kawakami and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 11-14 on S.B. No. 2877**

The purpose of this measure is to clarify that no use permit issued to a corporation or other business entity for a state small boat harbor facility may be transferred unless specifically provided by law. This measure also exempts transfers of stock or interest in a corporation or other business entity between immediate family members solely for the purpose of estate planning purposes from paying the passenger-carrying capacity business transfer fee to the Department of Land and Natural Resources.

Your Committee on Conference finds that this measure seeks to clarify that use permits issued to a corporation or other business entity for a state small boat harbor facility may only be transferred if the corporation or other business entity holds a valid commercial use permit. This measure prevents people from bypassing the waitlist for a regular mooring permit by acquiring a corporation or other business entity holding a regular mooring permit.

Your Committee on Conference has amended this measure by:

- (1) Upon the recommendation of the Attorney General, clarifying the definition of "controlled group" to mean parent-subsidiary corporations, brother-sister corporations, or constructive owner; and
- (2) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2877, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2877, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Dela Cruz, Galuteria, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Evans, Lowen, Hanohano, Say and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Say).

**Conf. Com. Rep. 12-14 on S.B. No. 651**

The purpose of this measure is to:

- (1) Prohibit the Hawaii Public Housing Authority from entering into or renewing any lease, rental agreement, permit, or license, including month-to-month tenancy, effective July 1, 2014, unless the lease, rental agreement, permit, or license prohibits smoking in the public housing project; and
- (2) Authorize the Hawaii Public Housing Authority to terminate any lease, rental agreement, permit, or license for smoking anywhere other than within a designated smoking area of the public housing project when smoking is prohibited.

Your Committee on Conference finds that there are many hazards caused by involuntary exposure to tobacco smoke. The United States Surgeon General has found that there is no safe level or amount of exposure to secondhand smoke.

Your Committee on Conference has amended this measure by:

- (1) Deleting language prohibiting the Hawaii Public Housing Authority from entering into or renewing any lease, rental agreement, permit, or license, including month-to-month tenancy, effective July 1, 2014, unless the lease, rental agreement, permit, or license prohibits smoking in the public housing project;
- (2) Inserting language prohibiting smoking in any public housing project, elder or elderly household, or state low-income housing project, including individual housing units, common areas, community facilities, and areas within twenty feet from each building, entrance, exit, window, and ventilation intake that serves an enclosed or partially enclosed area;
- (3) Requiring that designated smoking areas be at least twenty feet, rather than twenty-five feet, from any building, or any greater distance that would ensure the secondhand smoke does not infiltrate any dwelling unit;
- (4) Inserting language requiring the Authority to place and maintain "No smoking" signage at all entrances and exits of the property and allowing the Authority to display additional signage for the purpose of conspicuous notice;
- (5) Inserting a definition of "common areas";
- (6) Inserting a definition of "smoking";
- (7) Removing the notice provision requiring the Authority to notify a tenant in writing of noncompliance with the smoking prohibition;
- (8) Removing language providing for termination of a lease, rental agreement, permit, or license, including a month-to-month tenancy, and eviction from the dwelling unit if a tenant fails to comply with the smoking prohibition;
- (9) Authorizing termination of the lease, rental agreement, permit, or license and the eviction of a tenant upon a third violation, rather than the first violation, of the smoking prohibition by a resident, a guest who is visiting a resident, or any member of the resident's household; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 651, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 651, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Hee, Green, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Hashem, Rhoads, Ing and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ing).

**Conf. Com. Rep. 13-14 on S.B. No. 2048**

The purpose of this measure is to:

- (1) Amend the definition of "service area" to include "franchise area";
- (2) Authorize the Director of Commerce and Consumer Affairs to designate access organizations in each franchise area;
- (3) Delete the requirement that the Department of Commerce and Consumer Affairs conduct annual management and financial audits of designated public, educational, or governmental access channels; and
- (4) Remove the sunset provision in Act 19, Session Laws of Hawaii 2011.

Your Committee on Conference finds that this measure allows the Director of Commerce and Consumer Affairs to permanently designate an access organization in each franchise area to oversee public, educational, or governmental channels and ensures that the Cable Advisory Committee retains the ability to advise the Director and access organizations on certain matters.

Your Committee on Conference further finds that this measure deletes the requirement that the Department of Commerce and Consumer Affairs conduct annual management and financial audits of designated public, educational, or governmental access organizations, as these organizations are already required to provide annual independently audited financial statements to the Department. However, your Committee on Conference notes that according to the Department of Commerce and Consumer Affairs, the Department still retains the authority and discretion to conduct periodic audits of designated public, educational, or governmental access organizations. The Department of Commerce and Consumer Affairs has also indicated a willingness to mandate periodic management and financial reviews in the contracts with the designated public, educational, or governmental access organizations, thus ensuring sufficient oversight and transparency.

Your Committee on Conference has amended this measure by inserting an effective date of June 29, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2048, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2048, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, none.

Representatives McKelvey, Rhoads, Kawakami, Lee and Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 14-14 on S.B. No. 2742**

The purpose of this measure is to initiate a revolutionary and innovative public and private partnership to be known as the Pacific-Asia Institute for Resilience and Sustainability.

Your Committee on Conference finds that the Pacific-Asia Institute for Resilience and Sustainability is envisioned to provide an opportunity for a new generation of leaders to emerge who have the ability to learn from emerging trends and to meet global challenges. The Institute's multi-disciplinary and multi-sector approach to community resilience addresses a blind spot in the global discourse of how nations and the people in each nation respond to a wave of disruptive change that permeates throughout the world.

Your Committee on Conference has amended this measure by:

- (1) Deleting the creation of a new chapter in statute, and instead enacting the language as session law;
- (2) Deleting references to establishment of the Institute as a nonprofit entity under chapter 414D, Hawaii Revised Statutes;
- (3) Designating the Office of the Lieutenant Governor to act as the State's liaison to assist the Institute in carrying out its duties;
- (4) Making discretionary, rather than mandatory, certain activities of the Institute and the Institute's pursuit of funding from various entities;
- (5) Making the Institute eligible for grants and subsidies under chapter 42F;
- (6) Changing the effective date to upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2742, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2742, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Espero and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Takai, Cullen, Choy and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 15-14 on H.B. No. 452**

The purpose of this measure is to increase protections for voting rights by:

- (1) Prohibiting the inclusion of false information about the time, date, place, or means of voting in any advertisement that is broadcast, televised, circulated, published, distributed, or otherwise communicated; and
- (2) Expanding the offense of election fraud to include any person who knowingly broadcasts, televises, circulates, publishes, distributes, or otherwise communicates, including by electronic means or advertisement, false information about the time, date, place, or means of voting with the purpose of impeding, preventing, or otherwise interfering with the free exercise of the elective franchise.

Your Committee on Conference has amended this measure by:

- (1) Deleting language amending the definition of "advertisement;"
- (2) Clarifying that the amendments made to section 11-391, Hawaii Revised Statutes, regulating advertisements for election purposes, shall take effect immediately upon the passage of this measure and shall supersede amendments to that section previously scheduled to take effect on November 5, 2014, pursuant to Act 112, Session Laws of Hawaii 2013; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 452, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 452, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Brower, Lee and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 16-14 on H.B. No. 1641**

The purpose of this measure is to strengthen the privacy rights of Hawaii residents by:

- (1) Providing that a governmental entity can require a provider of electronic communication service or a provider of remote computing services to disclose the contents of an electronic communication pursuant only to a search warrant;
- (2) Specifying that a provider of electronic communication service or remote computing services is required to disclose a record or other information pertaining to a subscriber to, or customer of, the service, other than the contents of an electronic communication, to a governmental entity only when presented with a court order that seeks the disclosure of transactional records, other than real-time transactional records; and
- (3) Specifying that a governmental entity must demonstrate probable cause to obtain a court order for the disclosure of transactional records.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1641, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1641, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Hee, Ihara, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Representatives Rhoads, Har, Nakashima and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Har).

**Conf. Com. Rep. 17-14 on S.B. No. 2082**

The purpose of this measure is to:

- (1) Clarify that the schedule of fees established in section 501-218(a), Hawaii Revised Statutes, is not intended to be a comprehensive schedule of all fees payable under chapter 501, Hawaii Revised Statutes, relating to Land Court registration; and
- (2) Specifically authorize the Supreme Court of Hawaii, Department of Land and Natural Resources, and Department of Accounting and General Services to revise, amend, add to, or eliminate fees payable under the schedule.

Your Committee on Conference finds that this measure does not attempt to alter or amend the existing schedule of fee items but rather seeks to clarify and establish that the respective branch of government or department may establish and amend, from time to time, its own schedule of fees for the services it performs.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2082, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2082, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Hee, Dela Cruz, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Evans, Rhoads, Lowen, Har, Say and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Har, Say).

**Conf. Com. Rep. 18-14 on S.B. No. 2953**

The purpose of this measure is to allocate to the Department of Hawaiian Home Lands an unspecified amount of the royalties received by the State from geothermal resources located on lands under the jurisdiction of the Department.

Your Committee on Conference finds that although geothermal development in Hawaii has contributed to greater energy diversification of the State, the cultural, health, and environmental concerns related to the development of geothermal energy must be carefully and properly addressed and managed. This measure provides a fair allocation of geothermal mining royalties while providing a needed source of revenue to support the Department of Hawaiian Home Lands' programs, including homestead lot development, loans, and rehabilitation programs, and administration expenses to support these programs.

Your Committee on Conference has amended this measure by:

- (1) Specifying that one hundred percent of the royalties received by the State from geothermal resources located on lands under the jurisdiction of the Department of Hawaiian Home Lands shall be paid to the Department; and
- (2) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2953, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2953, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Shimabukuro, Espero, Dela Cruz and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Espero).

Representatives Evans, Hanohano, Luke, Cullen, Lee and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Lee, Fale).

**Conf. Com. Rep. 19-14 on S.B. No. 3121**

The purpose of this measure is to require legislative approval of any exchange of public land for private land by majority vote of both houses of the Legislature.

Your Committee on Conference finds that existing law subjects any exchange of public land for private land to disapproval by the Legislature by two-thirds vote of either the Senate or the House of Representatives. Your Committee on Conference believes that by requiring legislative approval rather than disapproval, this measure will require an affirmative action of the Legislature in order to approve any public land exchange.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3121, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3121, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Dela Cruz, Galuteria, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Evans, Luke, Lowen, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 20-14 on S.B. No. 2330**

The purpose of this measure is to update the composition, leadership, and meeting requirements of the Kaneohe Bay Regional Council to facilitate the Council's activities for the protection and management of Kaneohe Bay.

Your Committee on Conference finds that the Kaneohe Bay Regional Council has not functioned at optimal capacity in recent years. In fact, your Committee on Conference is aware that it is difficult for the Council to achieve quorum, creating a lack of adequate meetings during which the Council can perform its business. This measure is intended to address that issue as well as other concerns.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Council to hold meetings quarterly, rather than semi-annually, on the status of the implementation of the master plan; and
- (2) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2330, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2330, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Solomon, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hanohano, Kawakami, Ito, Say and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Say).

**Conf. Com. Rep. 21-14 on H.B. No. 737**

The purpose of this measure is to statutorily implement a proposed constitutional amendment that authorizes the State to issue special purpose revenue bonds and use the bond proceeds to assist agricultural enterprises, rather than only agricultural enterprises serving important agricultural lands.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014 and upon ratification of the necessary constitutional amendments by the voters.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 737, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 737, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Wooley, Onishi, Tokioka and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 22-14 on H.B. No. 1814**

The purpose of this measure is to modernize the laws relating to the payment of wages and other compensation by:

- (1) Authorizing employers to pay wages to an employee using a pay card if certain conditions are met;
- (2) Reflecting direct deposit as a current practice in the payment of wages under certain conditions; and
- (3) Holding an employer responsible for any fees incurred due to insufficient funds in the employer's bank account for an electronic transfer of the employee's wages.

Your Committee on Conference has amended this measure by:

- (1) Deleting findings about the groups of employees served by pay cards;
- (2) Specifying that an employer shall not pay wages due to its employees by use of a pay card unless:
  - (A) The employee is given the option of receiving wages by direct deposit, paper check, or pay card before the employee chooses a method of payment;
  - (B) The employer is responsible for fees that have been assessed outside the pay card fee schedule;
  - (C) The pay card allows the employee to make at least three free withdrawals, at least one of which permits withdrawal of the full amount of the employee's net wages on the card during each pay period;
  - (D) The pay card provides the employee with means to access the balance or other account information by telephone free of charge;
  - (E) The pay card provides the employee with a free of charge, readily accessible electronic history of the employee's account transactions covering at least 60 days preceding the date the employee electronically accesses the account;
  - (F) Upon oral or written request or via electronic signature by the employee, the pay card provides the employee with a written history of the account transactions covering at least 60 days prior to the employee's request; and
  - (G) The pay card does not assess an overdraft fee or charge against an employee or the employee's account;
- (3) Specifying that pay card transactions and direct deposits shall be conducted through a federally insured depository institution;
- (4) Allowing an employer to pay wages to an employee by direct deposit to an employee's account; provided that the employee has voluntarily authorized the direct deposit of wages in writing or via electronic signature;
- (5) Changing its effective date to July 1, 2014; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1814, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1814, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Baker and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, McKelvey, Evans, Ing and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Evans).

**Conf. Com. Rep. 23-14 on H.B. No. 2448**

The purpose of this measure is to authorize the Hawaii Housing Finance and Development Corporation to issue bonds to finance the development of infrastructure for land owned by an eligible developer whose housing project approval by the State or a county requires the construction of affordable housing.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2014; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2448, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2448, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Hashem, Woodson, Jordan, Oshiro and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Oshiro).

**Conf. Com. Rep. 24-14 on H.B. No. 1604**

The purpose of this measure is to encourage compliance with campaign finance laws by providing that certificates of election be delivered to a person elected only after the person has:

- (1) Filed reports required under sections 11-331 and 11-333, Hawaii Revised Statutes, rather than expense statements; and
- (2) Paid any fines assessed by the Campaign Spending Commission.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1604, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1604, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 25-14 on H.B. No. 2188**

The purpose of this measure is to repeal the Waiialua Loan and Subsidy Program, Kikala-Keokea Housing Revolving Fund, and Kikala-Keokea Infrastructure Development Fund, which are essentially nonfunctional, and deposit any residual amounts left in either the Program or Funds into the Rental Assistance Revolving Fund or general fund.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2188, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2188, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 26-14 on H.B. No. 2139**

The purpose of this measure is to allow county council members greater communication with the public, while ensuring transparency, by authorizing county councils to hold limited meetings as part of another board or community group meeting, where any number of county council members may attend, subject to certain limitations.

Your Committee on Conference has amended this measure by:

- (1) Accelerating its repeal date to June 30, 2016; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2139, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2139, H.D. 1, S.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 27-14 on H.B. No. 1706**

The purpose of this measure is to deter illegal parking on bicycle lanes and bicycle paths by increasing the minimum penalty for driving or parking a motor vehicle on a bicycle lane or path.

Your Committee on Conference has amended this measure by:

- (1) Making the offense of parking a motor vehicle on a bicycle lane or bicycle path a non-discretionary fine of \$200 that shall be deposited into the State Highway Fund;
- (2) Changing the effective date to July 1, 2014; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1706, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1706, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 28-14 on H.B. No. 1811**

The purpose of this measure is to extend the sunset date of Act 46, Session Laws of Hawaii 2012, to provide the Department of Transportation more time to complete lease or permit negotiations and reach an agreement with airport concessionaires.

Your Committee on Conference has amended this measure by:

- (1) Specifying that Act 46, Session Laws of Hawaii 2012, shall be repealed on July 1, 2015; and
- (2) Changing the effective date to June 30, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1811, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1811, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 29-14 on H.B. No. 1750**

The purpose of this measure is to expand the offense of Violation of Privacy in the First Degree to include knowingly disclosing an image or video of another identifiable person either in the nude or engaging in sexual contact without the consent of the depicted person with intent to harm substantially the depicted person.

Your Committee on Conference has amended this measure by:

- (1) Replacing the term "sexual contact" with "sexual conduct," which expands the range of sexual activities included in the prohibition;
- (2) Clarifying that the exemptions to this offense provide immunity for:

- (A) The distribution of images or videos made of the depicted person while voluntarily nude or voluntarily engaging in sexual conduct in public, or pursuant to a voluntary commercial transaction; and
  - (B) The providers of electronic communication service or remote computing service for images or videos disclosed through the service by another person; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1750, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1750, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Brower, Tsuji and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 30-14 on S.B. No. 2729**

The purpose of this measure is to:

- (1) Amend the fines relating to penalties for violation of the mobile electronic devices law by imposing a fine of not less than \$250 to be deposited into the state highway fund, and a fine of \$400 to be paid to the Director of Finance if the violation occurs in a school zone or construction area; and
- (2) Clarify that a violation is deemed to be a traffic infraction.

After the passage of Act 74, Session Laws of Hawaii 2013, which enacted the mobile electronic devices law (codified as section 291C-137, Hawaii Revised Statutes), the Legislature received numerous public complaints about the onerous burden of requiring violators to make a court appearance. Your Committee on Conference prefers not to force violators to appear in court. Particularly for neighbor islands, a person is likely to have to travel many miles to appear in court and wait for the case to be called, which consumes a whole day's worth of time. According to testimony of the Judiciary on this measure, "Since the inception of the current law there have been 7,184 mobile device cases statewide of which 4,171 cases have been adjudicated. However, in almost 900 of these cases a bench warrant has been issued for those defendants who did not make a court appearance. In some cases where the warrants have been served, defendants have also been convicted of contempt of court for failure to appear. For these cases, defendants have a criminal conviction record which is recorded in the Hawaii Criminal Justice Center's CJIS database."

Your Committee on Conference prefers to allow violators to mail in the fine without a court appearance for persons age eighteen and older, which greatly reduces crowded District Court calendars and avoids the possibility of having a criminal record. Your Committee on Conference finds that a traffic infraction does not require a court appearance under section 291D-3, Hawaii Revised Statutes, unless a violator requests a trial.

Your Committee on Conference has amended this measure by:

- (1) Adding an exemption for drivers of vehicles that are at a complete stop, while the engine is turned off, in a safe location by the side of the road out of the way of traffic;
- (2) Clarifying the definition of "operate" to mean to drive or assume actual physical control of the vehicle upon a public way, street, road, or highway, including operation while temporarily stationary because of traffic, a traffic light, or a stop sign;
- (3) Setting a flat fine of \$250 for a violation;
- (4) Reducing the fine from \$400 to \$300 for violations occurring in a school zone or construction area;
- (5) Specifying that any violation is deemed a traffic infraction, so as to negate the necessity of appearing in court to respond;
- (6) Changing the effective date to July 1, 2014; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee on Conference believes that the flat fine in the measure as amended, will increase revenues that are to be deposited into the state highway fund and the general fund. Thus, this amended measure represents a win-win compromise.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2729, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2729, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Hee, Keith-Agaran, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Yamane, Rhoads, Yamashita and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 31-14 on S.B. No. 2799**

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation Board of Directors to set the salary of the Hawaii Housing Finance and Development Corporation Executive Director; and
- (2) Require the Board to consider altering the Executive Director's benefits package in exchange for a salary that exceeds the salary level of civil service employees.

Your Committee on Conference finds that the salary of the Executive Director of the Hawaii Housing Finance and Development Corporation should be commensurate with the salaries of other executive directors of housing finance agencies nationwide. Allowing the Board of Directors of the Hawaii Housing Finance and Development Corporation to set the salary of the Executive Director will enable the Board to recruit and retain a qualified Executive Director.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to require prior legislative approval by concurrent resolution for the salary set by the Board of Directors of the Hawaii Housing Finance and Development Corporation for the Executive Director;
- (2) Deleting language that would have required the Board of Directors of the Hawaii Housing Finance and Development Corporation to consider the option to withhold or alter the benefits package of the Executive Director in exchange for a salary that exceeds the salary level of civil service employees who are entitled to receive benefits under chapter 76, Hawaii Revised Statutes;
- (3) Deleting language that would have required the Board to submit a report to the Legislature that includes whether the Board exercised its option to withhold or alter the benefits package of the Executive Director and the Board's rationale for its decision following each adjustment to the Executive Director's salary;
- (4) Changing the effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2799, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2799, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Chun Oakland and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Nakashima, Woodson, Takayama and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 32-14 on S.B. No. 2591**

The purpose of this measure is to:

- (1) Require the chief of each county police department to submit a report to the Legislature by January 31 of each year covering misconduct incidents that resulted in suspension or discharge of a police officer during the calendar year immediately prior to the year of the report submission;
- (2) Specify the information each report must contain, including updated information from previous reports;
- (3) Require the chief of each county police department to retain the disciplinary records in accordance with the department's record retention policies or for at least eighteen months after the final report concerning that incident, whichever period is longer; and
- (4) Authorize the disclosure of certain information regarding police officers suspended for one year or more for one incident, in addition to discharged police officers.

Your Committee on Conference finds that for over a decade, the only public information available concerning final suspensions of police officers has been the annual report to the Legislature, required by section 52D-3.5, Hawaii Revised Statutes, yet these reports provide minimal detail. This measure improves the applicability of section 52D-3.5, Hawaii Revised Statutes, and creates a more informed public dialogue about misconduct by police officers while recognizing that the balance of privacy and public interest is not easily defined and is a task better suited to common law.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to specify that information relating to the disciplinary action of a police officer that results in discharge may be disclosed only after ninety days, rather than thirty days, following the issuance of a decision sustaining the discharge;
- (2) Deleting language that would have permitted the disclosure of certain information regarding police officers if suspended for one year or more for one incident; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2591, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2591, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Hee, Gabbard, Ihara and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Brower, Nakashima and Thielen.  
Managers on the part of the House.  
Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Nakashima).

**Conf. Com. Rep. 33-14 on H.B. No. 2401**

The purpose of this measure is to:

- (1) Add a new section to Chapter 514B, Hawaii Revised Statutes, to:
  - (A) Consolidate the documents, records, and information that must be made available to any unit owner; and
  - (B) Specify that these documents, records, and information shall be provided to a unit owner no later than 30 days after the receipt of the unit owner's written request; and
- (2) Make conforming amendments to include the new section in Chapter 514B, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the new section being added to Chapter 514B, Hawaii Revised Statutes, shall apply to condominiums organized under Chapter 514A or 514B, Hawaii Revised Statutes;
- (2) Changing its effective date to July 1, 2014; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2401, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2401, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Hashem, McKelvey, Rhoads, Oshiro, Woodson and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Oshiro, Ward).

**Conf. Com. Rep. 34-14 on S.B. No. 2300**

The purpose of this measure is to authorize the State Fire Council to:

- (1) Establish statewide qualifications and procedures for testing, certifying, and credentialing individuals who perform maintenance and testing of portable fire extinguishers, fire protection systems, and fire alarm systems; provided that the county fire departments may establish and charge reasonable certification fees;
- (2) Develop, implement, and coordinate a statewide system to promote the effective use of fire and life safety resources; and
- (3) Adopt rules pursuant to chapter 91, Hawaii Revised Statutes, for the purposes of section 132-16, Hawaii Revised Statutes.

Your Committee on Conference finds that fire safety systems require routine maintenance to ensure reliable operability when used by fire department personnel and to protect building occupants during emergency situations. Individuals that conduct maintenance testing must be licensed; however, the current exam has not been revised for several years. This measure will allow the State Fire Council to update and establish statewide standards for the maintenance and testing of fire safety systems.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have allowed the State Fire Council to implement a statewide system to encourage the effective use of fire and life safety resources;
- (2) Amending section 1 to reflect the amended findings and purpose of this measure;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2300, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2300, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, McKelvey, Cachola and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 35-14 on H.B. No. 2052**

The purpose of this measure is to increase access to provider orders for life-sustaining treatment (POLST) by:

- (1) Updating references from “physician orders for life-sustaining treatment” to “provider orders for life-sustaining treatment” throughout Chapter 327K, Hawaii Revised Statutes, to accurately reflect that physicians are not the only primary care providers who may sign a POLST form on behalf of a patient;
- (2) Expanding health care provider signatory authority to include advanced practice registered nurses; and
- (3) Correcting inconsistencies over terms used to describe who may sign a POLST form on behalf of a patient.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2052, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2052, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Hee, Baker, Ihara and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

Representatives Belatti, McKelvey, Rhoads, Creagan and Fukumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 36-14 on H.B. No. 2213**

The purpose of this measure is to authorize an unspecified amount for the issuance of special purpose revenue bonds to assist West Maui Hospital Foundation, Inc., to finance the establishment of a hospital in West Maui.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the issuance of special purpose revenue bonds of up to \$50,000,000 for the establishment of a hospital in West Maui; and
- (2) Changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2213, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2213, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Chun Oakland, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Ing, Woodson and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 37-14 on H.B. No. 2304**

The purpose of this measure is to enable the Neurotrauma Advisory Board (Board) to function more efficiently and effectively by, among other things:

- (1) Decreasing the number of members on the Board from 21 members to 11 members;
- (2) Authorizing the Director of Health to appoint to the Board, up to three state and county representatives whose work relates to neurotrauma, to be ex officio, nonvoting members of the Board; and
- (3) Establishing quorum requirements for the Board.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2304, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2304, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, McKelvey, Creagan and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 38-14 on H.B. No. 611**

The purpose of this measure is to protect and promote the public health and safety of minors by:

- (1) Making it unlawful for tanning facility owners, lessees, and operators to allow individuals under the age of 18 to use tanning equipment that tans the skin with electromagnetic radiation; and
- (2) Requiring the Director of Health to impose fines on any person who violates the provisions of this measure.

Your Committee on Conference has amended this measure by:

- (1) Authorizing, rather than requiring, the Director of Health to impose fines on any person who violates the provisions of this measure; and
- (2) Changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 611, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 611, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Hee, Chun Oakland and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Rhoads, Creagan, Oshiro and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Oshiro).

**Conf. Com. Rep. 39-14 on H.B. No. 1723**

The purpose of this measure is to, among other things:

- (1) Require the attending physician, in addition to the administrator, of a psychiatric facility to provide notice of intent to discharge a patient or notice of a patient's admission to voluntary treatment;
- (2) Provide that the notice requirements under section 334-60.7, Hawaii Revised Statutes (HRS), apply only to civil commitments that result directly from legal proceedings under chapters 704 and 706, HRS;
- (3) Require that a certificate of service, in addition to the notice of intent to discharge, be filed with the Family Court and served on those persons whom the order of commitment specifies as entitled to receive notice;
- (4) Allow any person entitled to receive notice to waive this right in writing with the psychiatric facility;
- (5) Increase the time, from three to five calendar days of mailing the notice, in which the administrator or attending physician of the psychiatric facility must discharge or accept the patient for voluntary inpatient treatment;
- (6) Require Family Court to conduct a hearing as soon as possible, prior to termination of a current commitment order, to determine if the patient still meets the criteria for involuntary hospitalization;
- (7) Require a person filing an objection to notify the psychiatric facility by telephone on the date the objection is filed; and
- (8) With respect to patients committed on court order from a criminal proceeding, require the administrator of a psychiatric facility to send a notice of intent to discharge or notice of the patient's admission to voluntary inpatient treatment to the prosecuting attorney of the county from which the person was originally committed, by facsimile or electronically.

Upon consideration, your Committee on Conference has amended this measure by:

- (1) With respect to civil commitments that do not result directly from legal proceedings under chapters 704 and 706, HRS, when the administrator or attending physician of a psychiatric facility contemplates discharge of an involuntary patient, authorizing the administrator or attending physician to assess whether an assisted community treatment plan is indicated and, if so indicated, communicate with an aftercare provider as part of discharge planning;
- (2) Specifying that with regard to notice of intent to discharge a patient under this measure, the requirements and procedures apply to Family Court; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1723, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1723, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Hee, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Rhoads, Carroll and Fukumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Carroll).

**Conf. Com. Rep. 40-14 on H.B. No. 1823**

The purpose of this measure is to provide a process for resolving disputes regarding the fair market value or fair rental value of public land in sale, lease, or repurchase transactions involving the Board of Land and Natural Resources through mediation while preserving the existing remedy of binding arbitration.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2014; and
- (2) Making a technical, nonsubstantive amendment to correct a drafting error in the existing statutory language.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1823, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1823, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Solomon, Hee, Dela Cruz, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

Representatives Evans, McKelvey, Har, Lowen and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Har).

**Conf. Com. Rep. 41-14 on H.B. No. 1926**

The purpose of this measure is to amend various provisions of the Hawaii Penal Code. Specifically, this measure:

- (1) Deletes the conviction of Theft in the First Degree and Promoting Prostitution in the Second Degree from the class C felony offenses enumerated under the law relating to the sentencing of repeat offenders;
- (2) Adds the offenses of Promoting Prostitution in the First Degree, Promoting Prostitution in the Second Degree, and Solicitation of a Minor for Prostitution to the law relating to enhanced sentencing for repeat violent and sexual offenders;
- (3) Limits the law enforcement exemption from the offense of Prostitution to exclude acts involving sexual penetration;
- (4) Creates a safe harbor provision for minors by establishing that minors will not be prosecuted for any prostitution and promoting prostitution offenses if the minor was less than eighteen years of age at the time of the offense and the prostitution offense is the minor's first and only prostitution offense;
- (5) Amends the offense of Solicitation of a Minor for Prostitution by:
  - (A) Including solicitation of a person who represents that person's self as a minor;
  - (B) Increasing the mandatory fines for those convicted under the offense;
  - (C) Providing a law enforcement exemption; and
  - (D) Making it a strict liability offense; and
- (6) Makes Solicitation of a Minor for Prostitution ineligible for deferred acceptance of guilty or no contest pleas.

Your Committee on Conference unequivocally intends the Solicitation of a Minor for Prostitution to be a strict liability offense with regard to the age of the minor. Any specified state of mind listed therein does not apply to the age of a victim solicited under this section. Therefore, a defendant charged under this section may not defend as to the defendant's state of mind concerning the age of the victim, and will be strictly liable with respect to the age of the victim and the attendant circumstance of the victim's age.

Your Committee on Conference has amended this measure by:

- (1) Adding sadomasochistic abuse as an element of the offense of Prostitution;
- (2) Clarifying that the law enforcement exemption from the offense of Prostitution excludes acts of sadomasochistic abuse in addition to acts of sexual penetration;
- (3) Removing the safe harbor provision for minors from prosecution for prostitution and promoting prostitution offenses;

- (4) Amending the offense of Solicitation of a Minor for Prostitution to:
  - (A) Clarify that the offense applies to intentional, knowing, or reckless conduct;
  - (B) Specify that the offense applies to solicitation of a person who represents that person's self as a minor only if that person is a member of a police department, a sheriff, or a law enforcement officer; and
  - (C) Further clarify that the offense is strict liability in regards to age; and
- (5) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1926, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1926, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Galuteria.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Kawakami, Tsuji and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Kawakami).

**Conf. Com. Rep. 42-14 on H.B. No. 2205**

The purpose of this bill is to deter property crime in Hawaii by:

- (1) Providing that for a conviction of habitual property crime, the sentence must be either:
  - (A) A mandatory minimum term of imprisonment of one year; or
  - (B) A term of probation of five years, with conditions to include but not be limited to one year of imprisonment; and
- (2) Making conforming amendments to section 706-606.5, Hawaii Revised Statutes, thereby making sentencing of repeat offenders pursuant to that section inapplicable to the offenses of criminal property damage in the third degree, theft in the third degree, and misdemeanor shoplifting.

Your Committee on Conference has amended this measure by:

- (1) Deleting language amending section 706-606.5, Hawaii Revised Statutes, that would have made sentencing of repeat offenders pursuant to that section inapplicable to the offenses of criminal property damage in the third degree, theft in the third degree, and misdemeanor shoplifting; and
- (2) Clarifying that for a person convicted of habitual property crime, the sentence will be:
  - (A) An indeterminate term of five years, with a minimum term of one year; or
  - (B) For a first conviction only, a term of probation of five years, with conditions to include but not be limited to one year of imprisonment.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2205, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2205, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Lee, Nakashima and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 43-14 on H.B. No. 2243**

The purpose of this measure is to allow qualified entities to request state and national fingerprint-based criminal history record checks on their applicants, employees, and volunteers who provide care for children, vulnerable adults, or individuals with disabilities, and to receive the results of the record checks directly.

Your Committee on Conference has amended this measure by removing language that would have required the waiver allowing the release of criminal history record information:

- (1) To be voluntary; and
- (2) To conform to requirements of the National Child Protection Act of 1993.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2243, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2243, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Chun Oakland, Hee, Green, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Representatives Aquino, Har, Kawakami and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 44-14 on S.B. No. 2687**

The purpose of this measure is to amend section 657-1.8, Hawaii Revised Statutes, by:

- (1) Extending the statutory period from two to four years after April 24, 2012, to allow a victim of child sexual abuse to bring a civil action against the victim's abuser or a legal entity with a duty of care, if the victim is barred from filing a claim due to the expiration of the applicable statute of limitations that was in effect prior to April 24, 2012; and
- (2) Changing the legal standard used by the court to award damages against a legal entity from a finding of gross negligence to a finding of negligence on the part of the legal entity.

Your Committee on Conference finds that child sexual abuse is an epidemic that unfortunately is not adequately addressed because a vast majority of child sexual abuse victims fail to report their sexual assaults to the authorities. Studies have estimated that between sixty to eighty percent of child sexual abuse victims withhold disclosure. Furthermore, studies examining latency in disclosure report an average delay of three to eighteen years.

In response to this issue, the Legislature passed Act 68, Session Laws of Hawaii 2012 (Act 68), to extend the statute of limitations for civil actions brought by a victim of sexual offenses as a minor against the person who committed the act and establish a two-year window to allow a victim of sexual abuse to bring a cause of action if bringing such an action was barred due to the expiration of the statute of limitations that was in effect prior to April 24, 2012. Your Committee on Conference further finds that the two-year window to allow a victim of child sexual abuse to bring a cause of action that is otherwise barred will sunset on April 24, 2014, if legislative action is not taken. This measure provides an opportunity for a victim to file a cause of action if the statute of limitations has lapsed.

Your Committee on Conference has amended this measure by:

- (1) Reinstating the legal standard used by the court to award damages against a legal entity from a finding of negligence to a finding of gross negligence on the part of the legal entity; and
- (2) Changing the effective date from July 1, 2080, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2687, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2687, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Galuteria.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Carroll, Rhoads, Brower and Fukumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Fukumoto).

**Conf. Com. Rep. 45-14 on S.B. No. 2368**

The purpose of this measure is to codify a portion of the Model Protection of Charitable Assets Act (Act) to:

- (1) Require the Attorney General to protect charitable assets, regardless of the form in which they are held;
- (2) Authorize the Attorney General to enforce the application of the charitable asset to prevent or remedy the misapplication, diversion, waste, or breach of duty in management of a charitable asset or commence or intervene in an action to do the same; and
- (3) Authorize the Attorney General to conduct investigations.

Your Committee on Conference finds that this measure codifies section 3 of the Act. One of the major goals of the Act is to articulate the Attorney General's duty to represent the public interest in the protection of charitable assets. The Act declares and clarifies the scope of the Attorney General's duty to protect charitable assets but does not limit the authority or powers that already exist.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date from December 21, 2112, to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2368, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2368, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Rhoads, Morikawa, Belatti, Har and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Belatti, McDermott).

**Conf. Com. Rep. 46-14 on S.B. No. 1015**

The purpose of this measure is to clarify the reciprocity provision under existing law that allows the service of process issued by another state upon a Hawaii recipient. Specifically, this measure:

- (1) Clarifies that the service of process is for the production of records in the actual or constructive possession of that person or business;
- (2) Clarifies that the service of process is based upon a pending criminal investigation or prosecution in that other state;
- (3) Requires that the Hawaii recipient comply with the service of process if the issuing state has a statute authorizing the production of records held by out-of-state persons or businesses;
- (4) Specifies the types of information that the service of process issued by or in another state is required to include; and
- (5) Adds a definition of "Hawaii recipient".

Your Committee on Conference finds that existing law requires an entity located in Hawaii to comply with the criminal process issued by another state as if that process had been issued by a Hawaii court. This measure provides further clarity and addresses several concerns regarding this long-arm service of process statute.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to amend the definition of "recipient" under section 806D-1, Hawaii Revised Statutes, to clarify that a recipient is a person or business that has conducted business or engaged in transactions or activities that occurred at least in part in the state from which process was issued upon whom process is properly served;
- (2) Changing the effective date from July 1, 2050, to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1015, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1015, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, Rhoads, Yamane and McDermott.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 47-14 on S.B. No. 2682**

The purpose of this measure is to:

- (1) Establish that the financial disclosure statements of members of certain state boards, commissions, and agencies are public records and available for inspection and duplication; and
- (2) Limit the income source of the spouse or dependent child of an individual whose financial disclosure statement is a public record to the name and not the address of the business or other qualifying sources of income.

Your Committee on Conference finds that members of the public, especially those who are involved with and may be impacted by a board or commission member's action, are able to identify and raise concerns about possible conflicts of interest. This measure increases public disclosure to assist in identifying possible conflicts of interest among certain board or commission members.

Your Committee on Conference has amended this measure by:

- (1) Deleting the Hawaii Labor Relations Board and Labor and Industrial Relations Appeals Board from the list of a state boards, commissions, and agencies of which the financial disclosure statements of those members are public records and available for inspection and duplication; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2682, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2682, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro, Gabbard, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives McKelvey, Rhoads, Kawakami, Lee and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Kawakami, McDermott).

**Conf. Com. Rep. 48-14 on S.B. No. 2472**

The purpose of this measure is to improve the regulation of occupational therapists and occupational therapy assistants by:

- (1) Establishing an occupational therapy program within the Department of Commerce and Consumer Affairs;
- (2) Establishing licensing requirements for occupational therapists and occupational therapy assistants;
- (3) Requiring all occupational therapy assistants to possess a valid license, effective January 1, 2017; and
- (4) Appropriating funds to implement the occupational therapy program.

Your Committee on Conference finds that licensure of occupational therapists and occupational therapy assistants will protect the public health, safety, and welfare of occupational therapy patients. This measure ensures that occupational therapy will be provided by qualified occupational therapists and occupational therapy assistants in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$70,000; and
- (2) Making the appropriation effective on July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2472, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2472, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Chun Oakland, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, McKelvey, Morikawa, Creagan, Kobayashi and Fukumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Kobayashi).

**Conf. Com. Rep. 49-14 on S.B. No. 1233**

The purpose of this measure is to:

- (1) Require private employers employing fifty or more employees to allow employees to take leaves of absence for organ, bone marrow, or peripheral blood stem cell donations;
- (2) Require employers to restore an employee returning from leave to the same or equivalent position; and
- (3) Establish a private right of action for employees seeking enforcement of provisions.

Your Committee on Conference finds that private employers are not currently required to give employees paid time off for donating organs, bone marrow, or peripheral blood stem cells. Your Committee on Conference further finds that many people in Hawaii who would otherwise donate these vital medical resources delay or altogether refrain from donation because they cannot take time off of work to do so. By requiring employers to allow employees paid time off for organ, bone marrow, and peripheral blood stem cell donation, this measure provides life-saving medical resources to benefit citizens of the State in medical need.

Your Committee on Conference has amended this measure by making the measure effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1233, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1233, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Hee, Gabbard, Ihara and Ruderman.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Nakashima, Morikawa, Carroll, Jordan and Fukumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Carroll).

**Conf. Com. Rep. 50-14 on S.B. No. 2469**

The purpose of this measure is to improve access to health care services in the State by:

- (1) Requiring equivalent insurance reimbursement for services provided by a health care provider to a patient, regardless of whether the service is provided through telehealth or via face-to-face contact between a health care provider and patient;
- (2) Clarifying the definition of "health care provider" for telehealth purposes; and
- (3) Replacing references to "telemedicine" with "telehealth" and clarifying the definition of "telehealth" throughout the Hawaii Revised Statutes.

Your Committee on Conference finds that the effective use of telehealth is vitally important in Hawaii, where many segments of the population, especially on the neighbor islands, face geographical challenges to accessing quality health care. Your Committee on Conference further finds that this measure will assist in the delivery of enhanced statewide health care services, increase access to services, and provide timely information to patients and health care providers.

Your Committee on Conference has amended this measure by:

- (1) Not requiring a second health care provider to accompany the patient when behavioral health services are provided as a condition for reimbursement for a telehealth consultation;
- (2) Requiring reimbursement for behavioral health services provided through telehealth to be equivalent to reimbursement for the same services provided via face-to-face contact between a health care provider and a patient;
- (3) Making the measure effective upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2469, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2469, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Wakai, Baker, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

Representatives Belatti, McKelvey, Nishimoto, Creagan, Woodson and Fukumoto.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 51-14 on S.B. No. 1141**

The purpose of this measure is to:

- (1) Require public agencies with a defendant's medical, mental health, social, police, and juvenile records to release information to the court when the defendant is ordered to submit to a forensic mental health examination in order to expedite the process;
- (2) Amend Penal Code provisions to establish limits to the length of time an individual may remain on conditional release for certain criminal charges and to clarify circumstances under which the conditional release will be tolled; and
- (3) Require the Department of Health to submit a report to the Legislature detailing the number, frequency, and types of criminal offenses and violations committed by defendants discharged from conditional release.

Your Committee on Conference finds that the Governor commissioned a special action team in June 2012 to analyze causes and identify ideas to address the systemic factors contributing to the increased rate of admission and increased length of stay of persons admitted to the Hawaii State Hospital. This measure is the result of the special action team's efforts to improve the State's forensic mental health services.

Your Committee on Conference has amended this measure by:

- (1) Amending the findings section to clarify the purpose of the measure;
- (2) Removing police and expunged records from the types of records that public agencies are required to provide to the court;
- (3) Removing amendments to section 704-411, Hawaii Revised Statutes;
- (4) Removing the limitation of a conditional release to no more than one year for defendants who were charged with minor offenses;
- (5) Removing the tolling of a conditional release of no more than one year due to hospitalization and, in the case of a motion to revoke the conditional release, from the motion filing date to its determination date;
- (6) Removing the reporting requirement for the Department of Health; and
- (7) Inserting an effective date of July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1141, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1141, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Hee, Gabbard, Wakai and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Wakai, Slom).

Representatives Belatti, Aquino, Rhoads, Morikawa and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 52-14 on S.B. No. 2223**

The purpose of this measure is to allow the Family Court to change the name of a minor child of one or more of the parties in a divorce proceeding if the family court determines that the name change is in that child's best interest.

Your Committee on Conference finds that this measure recognizes that a name change of a minor child may be warranted as a result of a divorce by authorizing the Family Court to determine whether changing the name of a minor child is in the best interest of that child.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2080, to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2223, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2223, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Carroll, Rhoads, Ito and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 53-14 on S.B. No. 60**

The purpose of this measure is to afford victims and surviving immediate family members the right to participate in restorative justice processes, if no criminal charges are brought against a person or entity, for the harm suffered by the victim.

Your Committee on Conference finds that research has shown that restorative justice interventions are more effective at reducing repeat crime and recidivism than existing mainstream justice systems. This measure better incorporates the concept of restorative justice into the justice system by requiring notification to victims of crimes and surviving immediate family members regarding their right to participate in the restorative justice process under the basic bill of rights for victims and witnesses under section 801D-4, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required notification of the right to participate in restorative justice processes only if the wrongful act that harmed the victim does not result in criminal charges being brought against a person or entity;
- (2) Changing the effective date from July 1, 2050, to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 60, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 60, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Carroll, Rhoads, Har, Oshiro and Fukumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Har, Oshiro).

**Conf. Com. Rep. 54-14 on H.B. No. 1618**

The purpose of this measure is to assist the Board of Land and Natural Resources in fulfilling its mission to administer state lands and resources by requiring that at least one member of the Board have demonstrated expertise in native Hawaiian traditional and customary practices in accordance with specified educational, work history, or substantial experience criteria.

Your Committee on Conference has amended this measure by making it effective upon approval and applicable to the Board upon its next vacancy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1618, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1618, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Solomon, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Evans, Hanohano, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 55-14 on H.B. No. 2163**

The purpose of this measure is to require the court to balance the interests of parents involved in a divorce proceeding by:

- (1) Requiring the court to consider frequent, continuing, and meaningful contact with each parent when awarding custody of a minor child unless the court finds that one or both parents are unable to act in the best interests of the child;
- (2) Requiring the court to consider any necessary reduction in employment due to the needs of a dependent child and wasting of assets when ordering spousal support and maintenance; and
- (3) Establishing that in the division and distribution of property as a result of a divorce, any value given for a joint investment or asset is presumed to be a joint gift, except when assets are inherited.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the wasting of assets to be considered when ordering spousal support and maintenance applies only to parents; and
- (2) Specifying that the presumption of a joint gift when dividing property as a result of a divorce:
  - (A) Applies only to parents; and
  - (B) Is a rebuttable presumption.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2163, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2163, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Carroll, Rhoads, Kawakami and Fukumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Kawakami).

**Conf. Com. Rep. 56-14 on H.B. No. 2116**

The purpose of this measure is to eliminate sentences of life imprisonment without the possibility of parole for juvenile offenders. Specifically, this measure:

- (1) Amends section 706-656, Hawaii Revised Statutes, relating to imprisonment terms for first and second degree murder and attempted first and second degree murder, to:
  - (A) Apply a sentence of life imprisonment without the possibility of parole to persons eighteen years of age or over at the time of the offense who are convicted of first degree murder or first degree attempted murder; and
  - (B) Require that persons under the age of eighteen years at the time of the offense who are convicted of first degree murder or first degree attempted murder be sentenced to life imprisonment with the possibility of parole;
- (2) Amends section 706-657, Hawaii Revised Statutes, relating to enhanced sentence for second degree murder, to apply the sentencing guidelines under this section to persons eighteen years of age or over at the time of the offense; and
- (3) Amends section 706-669, Hawaii Revised Statutes, relating to the determination of minimum terms of imprisonment, to establish a limit on the minimum term of imprisonment before a prisoner who was less than eighteen years of age at the time of the offense becomes eligible for parole.

Your Committee on Conference has amended this measure by:

- (1) Deleting the amendment to section 706-669, Hawaii Revised Statutes, relating to the determination of minimum terms of imprisonment;
- (2) Changing its effective date to upon its approval and specifying that the measure shall apply to proceedings arising on or after its effective date, and to proceedings that were begun but not concluded before its effective date; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2116, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2116, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Galuteria.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Carroll, Rhoads, Awana and Fukumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Fukumoto).

**Conf. Com. Rep. 57-14 on H.B. No. 2034**

The purpose of this measure is to provide survivors of sexual assault with additional time to engage with the legal system by:

- (1) Extending the statute of limitations for the filing of a civil action for the recovery of damages arising from the sexual abuse of a minor that constituted or would have constituted a criminal sexual offense or criminal child abuse to the later of:
  - (A) The victim attaining the age of fifty-five, rather than twenty-six; or the person who committed the sexual abuse attaining the age of majority; or
  - (B) Three years after the victim discovers or should have discovered that the psychological injury or illness was caused by the sexual abuse;
- (2) Extending the allowable period by five additional years in which a victim of child sexual abuse may bring a civil action against the victim's abuser or an entity, except for the State or counties, if the statute of limitations for filing a civil claim as it existed prior to April 24, 2012, lapsed;
- (3) Clarifying that after April 23, 2014, damages against a legal entity in a sexual assault civil action within the allowable period after the statute of limitations has lapsed shall be awarded only if there is a finding of negligence on the part of the legal entity; and
- (4) Tolling the period of limitation for the criminal prosecution of sexual assault in the first and second degrees against a minor victim and continuous sexual assault of a minor under the age of fourteen until the victim is twenty-five years old.

Your Committee on Conference has amended this measure by:

- (1) Deleting all language applicable to extending or tolling the statute of limitations in civil actions;
- (2) Deleting language tolling the statute of limitations for criminal prosecution of sexual assault against a minor or continuous sexual assault of a minor under the age of fourteen years and inserting language that eliminates the statute of limitations for a criminal prosecution of sexual assault in the first or second degree and continuous sexual assault of a minor under the age of fourteen years; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2034, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2034, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro, Galuteria, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Representatives Carroll, Rhoads, Brower and Fukumoto.

Managers on the part of the House.

Ayes, 4; Ayes with Reservations (Fukumoto). Noes, none. Excused, none.

**Conf. Com. Rep. 58-14 on S.B. No. 2410**

The purpose of this measure is to require each agency that submits a capital improvement project proposal to furnish the Department of Budget and Finance with an estimate of the operational costs for the proposed capital improvement project and all documents that support the estimate of operational costs.

The measure also requires the Department of Budget and Finance to report to the Governor an estimate of the operational costs for each proposed capital improvement project.

Your Committee on Conference finds that agencies that submit a proposal for a capital improvement project are currently not required to include an estimate of operational costs relating to the maintenance and continued operation of a facility project. Your Committee on Conference also finds that operational costs are often significant and can potentially be greater than the cost of development and construction. Your Committee on Conference believes that by requiring agencies to submit an estimate of operational costs for proposed capital improvement projects, this measure will enable the State to make fiscally sound decisions and better prioritize spending on capital improvement projects.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Changing the effective date from July 1, 2030, to upon approval; and
- (2) Making a technical nonsubstantive change for the purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2410, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2410, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani, Chun Oakland, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Yamashita, Morikawa, Nishimoto and Johanson.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Nishimoto).

**Conf. Com. Rep. 59-14 on H.B. No. 1942**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Princeton Energy Group or a related special purpose entity with the financing and refinancing costs relating to the planning, design, and construction of a renewable energy project with energy storage technology on the island of Molokai.

Your Committee on Conference has amended this measure by:

- (1) Identifying Princeton Energy Group's related entity as Ikehu Molokai LLC;
- (2) Changing the effective date to July 1, 2014; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1942, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1942, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Chun Oakland and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Lowen, Hanohano and Thielen.  
Managers on the part of the House.

**Conf. Com. Rep. 60-14 on H.B. No. 2543**

The purpose of this measure is to issue special purpose revenue bonds of up to \$50,000,000 for BioTork Hawaii LLC for the development and operation of a facility to convert agricultural crops and by-products to biofuels and high-protein feed.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2543, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2543, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Gabbard, Kouchi, Dela Cruz and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Thielen).

**Conf. Com. Rep. 61-14 on S.B. No. 2981**

The purpose of this measure is to promote and encourage innovation and entrepreneurship in Hawaii by incorporating those ideals into the policies, objectives, and priority guidelines of the Hawaii State Plan concerning the economy and information technology.

Your Committee on Conference finds that promoting and encouraging innovation and entrepreneurial activities will benefit the State and its economy by facilitating the creation of new businesses in Hawaii and attracting investment from outside the State.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2981, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2981, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Wakai, Ige, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Tsuji, Luke, Cachola, Wooley and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 62-14 on S.B. No. 2895**

The purpose of this measure is to authorize the Department of Taxation to use funds from the tax administration special fund for taxpayer education programs.

Your Committee on Conference finds that this measure will allow the Department of Taxation to use funds from the tax administration special fund to develop, implement, and provide taxpayer education programs, including tax publications. Accordingly, your Committee on Conference believes that the increased support for taxpayer education provided by this measure will encourage and facilitate voluntary compliance with the State's tax laws.

Your Committee on Conference has amended this measure by changing its effective date from July 1, 2030, to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2895, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2895, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Chun Oakland, Kidani, Kouchi and Slom.  
Managers on the part of the Senate.

Representatives Luke, Cullen, Hashem and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 63-14 on S.B. No. 2411**

The purpose of this measure is to repeal references in the Hawaii Revised Statutes to "subsidy" or "subsidies" as a type of funding award that may be made to a private organization or individual for a public purpose.

Your Committee on Conference finds that no substantive difference exists in the Hawaii Revised Statutes between a "grant" and a "subsidy", and that the terms "subsidy" and "subsidies" are therefore unnecessary and potentially confusing and should be deleted. Your Committee on Conference further finds that deleting existing references to this term would make the Hawaii Revised Statutes more clear and concise.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2411, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2411, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Luke, Jordan and Johanson.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 64-14 on S.B. No. 2779**

The purpose of this measure is to specifically authorize the Department of Taxation to release certain otherwise confidential information to the Office of the Auditor in order for the Auditor to conduct its Comprehensive Annual Financial Report of the State.

This measure also requires the Auditor and the Auditor's authorized agents to maintain the confidentiality of the disclosed information.

Your Committee on Conference finds that section 23-5, Hawaii Revised Statutes, authorizes the Auditor to conduct audits of all departments, offices, and agencies of the State and its political subdivisions. Your Committee on Conference notes that concerns have been raised regarding the Department of Taxation's authority to disclose tax returns and other tax records on file with the Department of Taxation that the Auditor requires to conduct the Comprehensive Annual Financial Report of the State. Your Committee on Conference believes that this measure will provide the Department of Taxation with clear authority to disclose tax return information

to the Office of the Auditor for the purposes of conducting the Comprehensive Annual Financial Report of the State, while ensuring that taxpayer information remains confidential.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2779, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2779, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Chun Oakland, Kidani, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Luke, Hashem, Nishimoto and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 65-14 on S.B. No. 2820**

The purpose of this measure is to:

- (1) Implement requirements of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) by:
  - (A) Prohibiting rescission of coverage under a health benefit plan except in cases of fraud, misrepresentation, or failure to make required payments; and
  - (B) Requiring written notice prior to rescission;
- (2) Clarify that companies with general casualty insurance authority can only write accident and health or sickness insurance as incidental or supplemental coverage;
- (3) Clarify the Insurance Commissioner's retention requirements for tax records of surplus lines brokers and independently procured insureds;
- (4) Specify the authority of the Insurance Fraud Investigations Branch to take appropriate action on insurance fraud complaints;
- (5) Include long-term care insurance as part of limited benefit health insurance;
- (6) Ensure that Article 11A of the Insurance Code applies to risk retention captive insurance companies;
- (7) Ensure conformity with the Affordable Care Act by mandating parity between medical and surgical benefits and benefits for alcohol use disorder, substance use disorder, and mental health treatment services and repealing conflicting or obsolete language;
- (8) Make housekeeping amendments to the State's Insurance Code; and
- (9) Make other amendments to conform to National Association of Insurance Commissioners model laws.

Your Committee on Conference finds that this measure streamlines and improves the operations of the Insurance Division of the Department of Commerce and Consumer Affairs, ensures the Insurance Division complies with the Affordable Care Act, and ensures the Insurance Division retains National Association of Insurance Commissioners accreditation.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2014; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2820, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2820, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, McKelvey, Kobayashi, Yamashita and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Yamashita, Matsumoto).

**Conf. Com. Rep. 66-14 on S.B. No. 2288**

The purpose of this measure is to amend or repeal various sections of chapter 302A, Hawaii Revised Statutes (HRS), that:

- (1) Have already been accomplished and are no longer necessary to be codified in statute;
- (2) Impede rather than assist the Department of Education in meeting its core mission;

- (3) Fall under the purview of the Board of Education, such as policy and programmatic decisions;
- (4) Are already covered by federal law and do not require codification in state statute; or
- (5) Are covered by another section of the HRS, Hawaii Administrative Rules, or Board of Education policy.

Your Committee on Conference finds that in 2012, the Legislature passed Act 133, Session Laws of Hawaii 2012 (Act 133), which sought to clarify or resolve conflicting or inconsistent language in different sections of law and to amend or repeal various sections of chapter 302A, HRS. This measure continues to amend or repeal various sections of chapter 302A, HRS, for housekeeping or other purposes.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have defined "license" in section 302A-101, HRS;
- (2) Removing amendments relating to the terms of the members of the Board of Education;
- (3) Removing amendments relating to an employer or prospective employer's authority to refuse to issue and to revoke a teaching or other educational certificate;
- (4) Removing amendments relating to the Hawaii 3R's school repair and maintenance fund;
- (5) Making this measure effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2288, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2288, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Woodson, Say and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 67-14 on S.B. No. 3125**

The purpose of this measure is to require the Auditor to conduct a financial and management audit of the State Foundation on Culture and the Arts.

Your Committee on Conference finds that improvements should be made to the organization and operation of the State Foundation on Culture and the Arts. A financial and management audit will provide guidance to the State Foundation on Culture and the Arts as it clarifies its role and duties and improves operations.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3125, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3125, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Takai, Tokioka, Ito and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 68-14 on S.B. No. 2483**

The purpose of this measure is to:

- (1) Clarify that a condominium board may assess unpaid common expenses against any purchaser who purchases a delinquent unit in a foreclosure; and
- (2) Specify that a condominium board may only fill board vacancies temporarily until the next annual or duly noticed election.

Your Committee on Conference finds that when section 514B-146, Hawaii Revised Statutes, was amended in 2013 to specify that an association's six-month special assessment would be paid upon closing of a foreclosure sale, the term "other purchaser" was inadvertently left out of the amended statute. This measure corrects that error. Your Committee on Conference further finds that this measure will help reduce disputes regarding vacancies on condominium boards by clarifying the procedure for filling these vacancies.

Your Committee on Conference has amended this measure by:

- (1) Making an additional amendment to section 514B-146, Hawaii Revised Statutes, to specify that a condominium association's lien for unpaid assessments is subordinate to real property taxes, rather than all taxes, and updating the purpose section of part I of this measure accordingly; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2483, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2483, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Taniguchi.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives McKelvey, Rhoads, Jordan, Evans, Ito and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Ito, McDermott).

**Conf. Com. Rep. 69-14 on H.B. No. 2009**

The purpose of this measure is to safeguard and protect the State's milk industry by requiring the Milk Control Special fund to have a reserve in an unspecified amount to be used for contingency cost items, including audits, incurred in the administration of the Hawaii Milk Control Act.

Your Committee on Conference has amended this measure by:

- (1) Establishing the minimum reserve amount for contingent cost items at \$300,000; and
- (2) Changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2009, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2009, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kouchi and Wakai.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Wooley, Onishi, Tokioka and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 70-14 on H.B. No. 2288**

The purpose of this measure is to amend the Hawaiian Homes Commission Act to allow the Department of Hawaiian Home Lands to dispose of department-owned or department-controlled improvements or portions thereof on Hawaiian home lands through direct negotiations and at fair market rents for a term not to exceed five years.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2288, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2288, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Solomon, Kidani, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Solomon, Slom).

Representatives Hanohano, Evans, Cullen, Say and Fale.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 71-14 on H.B. No. 2598**

The purpose of this measure is to support public schools in Hawaii by:

- (1) Renaming the Hawaii 3R's School Repair and Maintenance Fund as the Hawaii 3R's School Improvement Fund;
- (2) Requiring the Department of Education to transfer moneys collected pursuant to section 235-102.5(b), Hawaii Revised Statutes, to the Hawaii 3R's School Improvement Fund; and
- (3) Authorizing the Department of Education to transfer any other moneys received in the form of grants and donations for school-level improvements and minor repairs and maintenance to the Hawaii 3R's School Improvement Fund.

Your Committee on Conference has amended the bill by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2598, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2598, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Woodson and Fale.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 72-14 on H.B. No. 866**

The purpose of this measure is to provide for the proper operation and maintenance of critical infrastructure servicing Hawaiian home lands by:

- (1) Affirming the counties' jurisdiction over and responsibility for existing sewer transmission lines and other sewerage facilities servicing Hawaiian home lands and specifying certain operational duties of the counties; and
- (2) Requiring the counties to accept the license or dedication and ownership of any additional sewer transmission lines and sewerage facilities servicing Hawaiian home lands upon demand by the department of Hawaiian home lands, subject to compliance with federal, state, and local environmental, design, and construction requirements.

Your Committee on Conference has amended this measure by specifying that the Department of Hawaiian Home Lands shall be responsible for bringing sewer lines and sewerage facilities into compliance with all applicable environmental, design, and construction requirements prior to acceptance of license or dedication and ownership by the counties.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 866, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 866, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Shimabukuro, Espero, Kidani, English and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Espero).

Representatives Evans, Hanohano, Nishimoto and Fale.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Fale).

**Conf. Com. Rep. 73-14 on H.B. No. 2509**

The purpose of this measure is to appropriate funds to assist communities affected by discarded or abandoned tires by providing funds for programs promoting the removal of abandoned tires that have been illegally dumped from the landscape, including funding county abandoned tire removal programs.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$50,000; and
- (2) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2509, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2509, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Chun Oakland and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, Lowen, Rhoads and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Rhoads).

**Conf. Com. Rep. 74-14 on H.B. No. 1951**

The purpose of this measure is to extend the time within which special purpose revenue bonds may be issued for the design and construction of the seawater air conditioning district cooling system in downtown Honolulu.

Your Committee on Conference has amended this measure by changing its effective date to June 29, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1951, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1951, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Chun Oakland and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Nishimoto, Lee and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 75-14 on H.B. No. 2003**

The purpose of this measure is to appropriate funds to the Department of Defense to establish in chapter 128, Hawaii Revised Statutes, a Hawaii Cybersecurity, Economic, Education, and Infrastructure Security Coordinator (Coordinator) position to coordinate efforts on and recommend improvements to the State's cybersecurity and cyber resiliency.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Coordinator position shall be established in a new chapter of the Hawaii Revised Statutes instead of chapter 128, Hawaii Revised Statutes;
- (2) Specifying that, notwithstanding any law to the contrary, the Coordinator shall develop certain requirements and methods;
- (3) Inserting an appropriation amount of \$200,000;
- (4) Changing the effective date to July 1, 2014; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2003, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2003, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Espero, Kidani, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Representatives McKelvey, Nishimoto, Hashem and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 76-14 on H.B. No. 1564**

The purpose of this measure is to recognize the sacrifices made by the men and women of the armed forces of the United States and continue to honor their memory by properly maintaining the statewide network of veterans' cemeteries. Specifically, this bill requires the counties to obtain approval from the Office of Veterans' Services prior to any action that may negatively impact the State's financial obligation to establish and maintain veterans' cemeteries or imperil the receipt of federal funding for that purpose.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1564, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1564, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takai, Luke, Ito and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 77-14 on H.B. No. 1772**

The purpose of this measure is to increase access to quality health care for veterans of the United States Armed Services by exempting from the General Excise Tax, amounts received by a contractor of the Patient-Centered Community Care Program established by the United States Department of Veterans Affairs for costs or advances to third-party providers pursuant to a contract with the United States.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1772, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1772, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Green, Ige, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives Takai, Belatti, Nishimoto and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 78-14 on H.B. No. 2051**

The purpose of this measure is to continue the work initiated to honor the late U.S. Senator Daniel K. Inouye and the late U.S. Representative Patsy T. Mink through commissioning permanent works of art to honor their legacies and their contributions to the people of Hawaii. Specifically, this measure amends Act 281, Session Laws of Hawaii 2013, by:

- (1) Clarifying that the permanent work of art portraying the life, vision, accomplishments, impact, and legacy of Senator Daniel K. Inouye need not be a three-dimensional work of art;
- (2) Clarifying that the designs for the works of art portraying Senator Daniel K. Inouye and Representative Patsy T. Mink need not include their likeness at some stage of their life;
- (3) Deleting the requirement that the work of art portraying Senator Daniel K. Inouye be installed for unveiling on the second anniversary of his death;
- (4) Appropriating an unspecified sum for the 2013-2015 fiscal biennium to commission the works of art; and
- (5) Changing the expending agency for the funds for the commissioning of artwork from the Department of Accounting and General Services to the State Foundation on Culture and the Arts.

Your Committee on Conference has amended this measure by:

- (1) Reinserting the sum of \$250,000, originally appropriated for each year of the 2013-2015 fiscal biennium, and specifying that this sum be appropriated only for the 2014-2015 fiscal year; and
- (2) Changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2051, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2051, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Takai, Tokioka, Awana and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 79-14 on S.B. No. 3093**

The purpose of this measure is to appropriate funds to the University of Hawaii at Hilo to establish staff positions within the 'Imiloa Astronomy Center and support the University of Hawaii at Hilo's memorandum of understanding with the Revealing Individual Strengths for Excellence (RISE) 21st Century After School Program.

Your Committee on Conference finds that pursuant to S.C.R. No. 132, S.D. 1, Regular Session of 2013, the University of Hawaii at Hilo, through its 'Imiloa Astronomy Center and Division of Academic Affairs, entered into a memorandum of understanding with the RISE 21st Century After School Program, a program that helps underprivileged children of Hawaiian ancestry with life skills, academic success, and career planning. This measure will provide funding to support the University of Hawaii at Hilo's memorandum of understanding with the RISE 21st Century After School Program.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$200,000 to support the University of Hawaii at Hilo's memorandum of understanding with RISE 21st Century After School Program;
- (2) Removing all references to a full time equivalent youth program specialist, a full time equivalent experience director for education programs, curriculum development, supplies, travel, and equipment;
- (3) Inserting an effective date of July 1, 2014; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3093, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3093, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran, Kahele, Thielen and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Choy, Onishi, Ichiyama, Lowen and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Lowen).

**Conf. Com. Rep. 80-14 on S.B. No. 2486**

The purpose of this measure is to amend provisions relating to private guards and individuals acting in a guard capacity by:

- (1) Delaying the continuing education requirement by two years, thereby making the requirement effective prior to the June 30, 2016, renewal cycle;
- (2) Making permanent the registration and licensure requirements for private guards and individuals acting in a guard capacity by repealing the sunset date of Act 208, Session Laws of Hawaii 2010 (Act 208); and
- (3) Exempting loss prevention agents from private guard registration and licensure requirements.

Your Committee on Conference finds that this measure ensures the continued competency and professionalism of private security guards and individuals acting in a guard capacity by repealing the sunset date of Act 208, which requires private security guards and individuals acting in a guard capacity to register as a guard with the Board of Private Detectives and Guards (Board) and meet registration, instruction, and training requirements prior to acting as a guard.

Your Committee on Conference further finds that the Board and the private detective and guard industry concur that four hours of continuing education every two years, including a refresher component on professional image and aloha training, rather than four hours of continuing education each year, is sufficient to refresh guard employees on important training concepts included in the initial eight-hour training curriculum and ensure guard employees keep abreast of current trends in the guard industry.

Your Committee on Conference has amended this measure by:

- (1) Amending the continuing education requirement to four hours every two years, rather than four hours every year;
- (2) Removing language that would have exempted loss prevention agents from private guard registration and licensure requirements;
- (3) Inserting an effective date of June 29, 2014;
- (4) Amending the purpose section; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2486, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2486, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Nishihara and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Nishimoto, Onishi, Tsuji, Yamashita and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Yamashita, Thielen).

**Conf. Com. Rep. 81-14 on S.B. No. 2260**

The purpose of this measure is to:

- (1) Specify that no provision of chapter 104, Hawaii Revised Statutes, may be contravened or set aside by private contract;
- (2) Increase the penalties imposed on a contractor who interferes with or delays a Department of Labor and Industrial Relations investigation to determine compliance with the wages and hours of employees on public works law to \$10,000 per project and \$1,000 per day;
- (3) Hold a general contractor secondarily liable for the payment of back wages assessed against contractors on a public works construction project;
- (4) Specify that any payment of back wages and penalties made by a governmental contracting agency shall not be deemed to be a breach of contract and shall not excuse the contractor from completing the project for the contract price and by the contract completion deadline;

- (5) Specify that a notification of violation shall be final and conclusive unless the contractor files a written notice of appeal with the Director of Labor and Industrial Relations within twenty-one days after a copy was sent to the contractor;
- (6) Through June 30, 2018, increase the suspension period from three to five years for a third violation by a person or firm who violates the state law relating to wages and hours of employees on public works;
- (7) Through June 30, 2018, add a governmental contracting agency and the general contractor, in the case of a suspended subcontractor, as entities that the Director of Labor and Industrial Relations must notify of any suspension order; and
- (8) Through June 30, 2018, require reports to the Legislature from the Department of Labor and Industrial Relations on enforcement information regarding suspensions, back wages, and fines imposed and collected.

Your Committee on Conference finds that when contractors comply with the State's wages and hours of employees on public works law, codified as chapter 104, Hawaii Revised Statutes, there is a level playing field for bidding on state and county projects. This measure assists the Department of Labor and Industrial Relations in enforcing chapter 104, Hawaii Revised Statutes, and encourages contractors to comply with the law.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have held a general contractor secondarily liable for the payment of back wages assessed against contractors on public works construction projects;
- (2) Removing language that specified that any payment of back wages and penalties made by a governmental contracting agency shall not be deemed to be a breach of contract and shall not excuse the contractor from completing a project for the contract price and by the contract completion deadline;
- (3) Removing language that would have increased the suspension period from three to five years for a third violation by a person or firm who violated the state law relating to wages and hours of employees on public works;
- (4) Removing the requirement for the Department of Labor and Industrial Relations to submit reports to the Legislature on enforcement information regarding suspensions, back wages, and fines imposed and collected;
- (5) Inserting an effective date of July 1, 2014, removing the sunset date for various provisions, and noting that this measure shall apply to all contracts entered into on or after the effective date of this measure; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2260, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2260, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee and Taniguchi.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives Nakashima, Yamashita, Cullen and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 82-14 on S.B. No. 3065**

The purpose of this measure is to appropriate funds to investigate the possibility of exchanging state land for land owned by Dole Food Company, Inc., and for costs of executing the exchange.

Your Committee on Conference finds that there is a continuing need to protect and preserve unique natural assets, both for the enjoyment of future generations and to establish base lines for environmental impact. The present system of preserves, sanctuaries, and refuges must be strengthened, and additional areas of land suitable for agriculture and preservation should be set aside.

Your Committee on Conference has amended this measure by:

- (1) Amending findings to more accurately identify the total acreage and sales price of the agricultural and conservation lands owned by Dole Food Company, Inc.;
- (2) Inserting language to require the consideration of the market value of state lands when investigating the possibility of acquiring land owned by Dole Food Company, Inc., through an exchange;
- (3) Changing the source of appropriation from general revenues to the land conservation fund;
- (4) Inserting an appropriation amount of \$500,000 to investigate the possibility of exchanging state land for land owned by Dole Food Company, Inc., and for costs of executing the exchange;
- (5) Inserting language to require the Department of Budget and Finance, as the expending agency, to coordinate with the Department of Accounting and General Services and Department of Land and Natural Resources;
- (6) Changing the effective date to July 1, 2014; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3065, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3065, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Dela Cruz, Solomon, Nishihara, Kidani and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Evans, Luke and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 83-14 on S.B. No. 3042**

The purpose of this measure is to:

- (1) Remove the restriction that a class 14 brewpub licensee manufacture not more than thirty thousand barrels of malt beverages on the licensee's premises during the license year;
- (2) Increase the manufacturing limit for class 16 winery licensees to not more than twenty thousand barrels of wine on the licensee's premises during the license year;
- (3) Establish a new class 18 liquor license class for small craft producer pubs;
- (4) Prohibit brewpub and small craft producer pubs from selling intoxicating liquor purchased from class 1 manufacturer licensees for consumption on the premises; and
- (5) Make conforming amendments relating to liquor license classes and federal labeling and bottling requirements.

Your Committee on Conference finds that this measure removes unnecessarily restrictive limitations on malt beverages manufactured by small breweries and creates a new license class that will enable small producers to diversify their product lines. Your Committee on Conference further finds that this measure supports the growth of small businesses, which will have a positive impact on local economic development.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3042, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3042, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Ige, Wakai and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Slom).

Representatives McKelvey, Luke, Evans, Ing and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 84-14 on S.B. No. 2308**

The purpose of this measure is to appropriate funds to the Department of Public Safety for programs and services that support the children of incarcerated parents and help with family reunification.

Your Committee on Conference finds that providing support to incarcerated and recently released parents and their children helps strengthen families and benefits society by reducing recidivism and improving child development. This measure supports programs and services of the Department that address family core issues and enables the Department to expand its programs and services to all willing inmates who may have children that have been emotionally or behaviorally affected by the incarceration of a parent.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$125,000; and
- (2) Inserting an effective date of July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2308, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2308, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Espero, Kidani, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Aquino, Ing, Takayama and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 85-14 on S.B. No. 2057**

The purpose of this measure is to extend the repeal date and improve the nursing facility sustainability program by:

- (1) Extending the sunset date of the nursing facility sustainability program to June 30, 2015; and
- (2) Appropriating funds out of the nursing facility sustainability program special fund for fiscal year 2014-2015.

Your Committee on Conference finds that nursing facilities are a critical part of the long-term safety net for the State's aging population and that funding the nursing facility sustainability program is necessary to increase the sustainability of nursing facilities in Hawaii. Your Committee on Conference further finds that without an exemption from the central service expenses assessment, the nursing facility sustainability program will have to pay approximately \$500,000 per year, which inhibits the program's ability to sustain nursing facilities and improve services to Medicaid recipients.

Your Committee on Conference has amended this measure by:

- (1) Adding a provision to exempt the nursing facility sustainability program special fund from the central service expenses assessment;
- (2) Inserting an appropriation amount of \$12,000,000;
- (3) Inserting an effective date of June 29, 2014; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2057, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2057, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani, Green, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

Representatives Carroll, Belatti, Kobayashi, Morikawa and Fukumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 86-14 on S.B. No. 2345**

The purpose of this measure is to protect Hawaii's kupuna from financial fraud and abuse by appropriating funds to the Department of Commerce and Consumer Affairs for educational outreach targeted at kupuna, particularly in the areas of indexed annuities, life-settlement annuities, variable annuities, and Ponzi schemes.

Your Committee on Conference finds that elderly citizens are often victimized by sophisticated investment frauds. Fighting fraud and abuse against the elderly is a critical issue in Hawaii due to the State's rapidly growing elderly population. The State is in need of more programs like the investor education program within the Department of Commerce and Consumer Affairs that educate kupuna on how to make wise choices when investing and how to detect financial fraud.

Your Committee on Conference has amended this measure by inserting an appropriation amount of \$50,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2345, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2345, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Baker, Kidani, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Luke, Morikawa, Takayama and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

**Conf. Com. Rep. 87-14 on S.B. No. 2470**

The purpose of this measure is to:

- (1) Designate the Hawaii Health Connector (Connector) as the official State of Hawaii health insurance exchange;
- (2) Establish advisory groups to advise the Connector Board of Directors (Board);
- (3) Create the Hawaii Health Connector Legislative Oversight Council to review the financial and operational plans of the Connector;
- (4) Permit certified insurance agents and brokers to be compensated for enrolling individuals and employers in qualified plans through the Connector;
- (5) Require the Connector Board to submit a sustainability plan to the Oversight Council and the Insurance Commissioner;

- (6) Establish the Hawaii health insurance exchange special fund;
- (7) Expanding the ability of the Connector to generate revenue;
- (8) Amend the membership and composition of the Connector Board; and
- (9) Appropriate funds for the operations of the Connector.

Your Committee on Conference finds that the Hawaii Health Connector is the designated health insurance exchange for the State of Hawaii and is charged with the responsibility of implementing applicable parts of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act). Your Committee on Conference further finds that the successful and efficient operation of the Connector is essential for the State, health insurers, and insured persons in Hawaii to comply with the new requirements of the Affordable Care Act. The sustainability of the Hawaii Health Connector is also critical to ensure the continued applicability of Hawaii's Prepaid Health Care Act.

Your Committee on Conference additionally finds that evolving federal health care regulations and the need for greater transparency and oversight over the Connector necessitate that the State revise the structure of the Connector's Board of Directors and require the Legislature to take a proactive oversight role to monitor the Connector. Finally, your Committee on Conference finds that this measure clarifies the status of the Connector as the official health insurance exchange for the State; provides for greater transparency and legislative oversight in the Connector; and provides for the sustainability of the Connector and, by extension, the Hawaii Prepaid Health Care Act.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have established a consumer, patient business, and health care advisory group, a health insurer advisory group, and an insurance producers advisory group;
- (2) Amending the name of the Hawaii Health Connector Oversight Council to the Connector Legislative Oversight Committee (Oversight Committee) and amending the composition and the duties of the Oversight Committee;
- (3) Requiring the Hawaii Health Connector Board of Directors (Board) to prepare and submit to the Oversight Committee a report with updates on the sustainability plan of the Connector, including specific efforts to reduce costs related to contracted services and other actions; copies of any federal audits; and copies of the annual financial statements of the Connector;
- (4) Clarifying the contents of the sustainability plan the Board must submit to the Oversight Committee, including a detailed sustainability plan that includes a three-year budget projection for the upcoming three fiscal years;
- (5) Removing language that permitted the Board to recommend to the Governor legislative action, if necessary, for the Connector;
- (6) Specifying that Connector-certified insurance agents and brokers are permitted to enroll individuals and employers in qualified plans through the Connector, and noting that if a health insurance plan utilizes and compensates an insurance agent or broker, the Connector shall not be responsible for any compensation to that agent or broker that sells a qualified health plan through the Connector;
- (7) Deleting language that would have established a Hawaii Health Insurance Exchange special fund;
- (8) Requiring the Connector to submit the results of the Connector's annual audit to the Legislature, in addition to the Insurance Commissioner and requiring the annual audit to comply with standard accounting practices for reviewing nonprofit corporations;
- (9) Clarifying the Connector's ability to generate revenue, including permitting the Connector to sell or lease its information technology infrastructure and services to other separate non-Connector programs;
- (10) Amending the membership and composition of the Connector Board, including:
  - (A) Stating that the Board shall be composed of nine voting members and five ex officio members;
  - (B) Removing members representing insurers and dental benefit providers from the Board but permitting the Board to establish a subcommittee of representatives from all providers of health care insurance and dental benefits;
  - (C) Permitting the Board to establish other subcommittees to assist the Connector with implementation of the Affordable Care Act, as appropriate;
  - (D) Clarifying procedures for making appointments and filling vacancies on the Board, including requiring the Board, Speaker of the House of Representatives, and President of the Senate to each submit to the Governor the names of two qualified nominees for each vacant position on the Board;
  - (E) Clarifying the areas of education, training, or professional experience that members of the Board must possess;
  - (F) Requiring all but one of the state agency representatives on the Board to be ex officio nonvoting members and specifying the list of state representatives from which the Governor may designate an official state representative to serve as an ex officio voting member of the Board; and
  - (G) Requiring any changes to the Board structure and governance to be in compliance with federal law;
- (11) Repealing the requirement for the Department of Human Services to determine Medicaid eligibility for purposes of purchasing plans from the Connector;

- (12) Deleting language that would have appropriated: general funds for necessary expenses incurred by members of certain advisory groups; general funds to the Hawaii health insurance exchange special fund; and funds out of the Hawaii health insurance exchange special fund;
- (13) Inserting a general fund appropriation of \$1,500,000 for the operations of the Connector, to be expended by the Department of Commerce and Consumer Affairs; provided that the funds shall be expended only after the Connector amends its articles of incorporation or bylaws to bring the Connector into compliance with section 435H-4, Hawaii Revised Statutes;
- (14) Updating the purpose section;
- (15) Inserting an effective date of July 1, 2014; provided that the provisions in this measure that amend the composition of the Connector Board shall take effect on October 1, 2014; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2470, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2470, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Yamashita, Johanson).

**Conf. Com. Rep. 88-14 on S.B. No. 702**

The purpose of this measure is to combat internet crimes against children by:

- (1) Establishing an internet crimes against children fee, which shall be assessed against a defendant for each felony or misdemeanor conviction of internet crimes against children;
- (2) Establishing an internet crimes against children special fund intended to enable law enforcement to investigate and prosecute such crimes and to assist groups working directly to fight such crimes; and
- (3) Making an appropriation to the internet crimes against children special fund and from the special fund for training and equipment, investigation and prosecution of internet crimes against children, and combatting such crimes.

Your Committee on Conference finds that in 2008, USA Today reported that the Internet Crimes Against Children Task Forces had identified 2,297 unique computers in Hawaii trading sadistic images of infants and toddlers being tied up, tortured, and raped. Due to limited funds, equipment, and training, only a very small percentage of investigative leads related to such crimes are examined every month. Your Committee on Conference finds that imposing a fee on every defendant convicted of a felony or misdemeanor for internet crimes against children will help to establish funding to enhance the investigation and prosecution of such crimes and protect Hawaii's children.

Your Committee on Conference has amended this measure by:

- (1) Inserting an internet crimes against children fee amount of up to \$100 for each felony or misdemeanor conviction for internet crimes against children;
- (2) Inserting an appropriation amount of \$62,500 to be deposited from general revenues into the internet crimes against children special fund and from the special fund for training and equipment, investigation and prosecution of internet crimes against children, and combatting such crimes; and
- (3) Inserting an effective date of July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 702, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 702, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Wakai, Hee, Kidani and Ihara.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

**Conf. Com. Rep. 89-14 on H.B. No. 2611**

The purpose of this measure is to:

- (1) Establish a State Capitol Management Committee to oversee the financing and governance of the Hawaii State Capitol and its grounds and facilities; and

- (2) Appropriate an unspecified amount to be expended by the Department of Accounting and General Services for the establishment and operation of the State Capitol Management Committee.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation; and
- (2) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2611, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2611, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Kidani and Wakai.  
Managers on the part of the Senate.

**Conf. Com. Rep. 90-14 on H.B. No. 1539**

The purpose of this measure is to provide fair opportunities for people on the waiting list to receive Housing Choice Voucher Program (Program) vouchers by requiring the Hawaii Public Housing Authority to automatically terminate the vouchers upon the death or removal from assistance of the last household member, or when the surviving minor of the last household member reaches the age of 21 or 23 if the minor is a full-time student.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the voucher shall be automatically returned to the Hawaii Public Housing Authority upon the death or removal from assistance of the last original household member;
- (2) Requiring legal guardians who care for minors in the household to be eligible for participation in the Program in order to be added to the household for Program purposes; and
- (3) Changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1539, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1539, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani and Slom.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Hashem, Woodson, Kobayashi, Oshiro and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 91-14 on H.B. No. 648**

The purpose of this measure is to repeal or reduce appropriations made in the Regular Session of 2013 to:

- (1) More accurately reflect the expending agencies' expenditure plans for fiscal year 2013-2014; and
- (2) Allow the savings from unexpended and unencumbered funds to be expressly and efficiently identified in the carryover balance for fiscal year 2014-2015 in the state financial plan.

This measure also authorizes the transfer of excess funds from the medicaid investigations recovery fund to the general fund.

Your Committee on Conference has amended this measure by:

- (1) Reducing the amount that the Director of Finance may transfer from the medicaid investigations recovery fund to the general fund from \$1,500,000 to \$1,000,000;
- (2) Authorizing the Director of Finance to transfer funds from the medicaid investigations recovery fund to the general fund in fiscal year 2013-2014 rather than 2014-2015; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 648, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 648, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 92-14 on H.B. No. 2427**

The purpose of this measure is to repeal several unused or inactive non-general funds with very low balances or no activity in recent years.

Your Committee on Conference has amended this measure by making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2427, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2427, H.D. 1, S.D. 1, C.D. 1.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 93-14 on H.B. No. 1931**

The purpose of this measure is to protect Hawaii's macadamia nut industry by preventing the spread of macadamia felted coccid infestations.

Specifically, the measure appropriates funds for:

- (1) The Department of Agriculture; and
- (2) The College of Tropical Agriculture and Human Resources at the University of Hawaii at Manoa,

to research and develop methods for the prevention and treatment of macadamia felted coccid infestations.

Your Committee on Conference finds that the macadamia felted coccid can cause severe damage to macadamia nut trees and that conventional pest control methods have failed to stop the spread of this destructive insect. Accordingly, your Committee on Conference believes that there is a need to appropriate funds to research and develop new pest control methods to prevent macadamia felted coccid from spreading throughout the State and causing costly damage to macadamia nut trees and the macadamia nut industry.

Your Committee on Conference has amended this measure by:

- (1) Inserting the amount of \$360,000 for the appropriation to the Department of Agriculture;
- (2) Deleting the appropriation for the College of Tropical Agriculture and Human Resources;
- (3) Changing the effective date to July 1, 2014; and
- (4) Making technical nonsubstantive amendments for purposes of consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1931, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1931, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 94-14 on H.B. No. 2147**

The purpose of this measure is to provide government agencies with flexibility in the negotiation of concession contracts by allowing exemptions from the public concession bidding process for airport and Stadium Authority contracts for electronic communication services and for advertising ("Concession Exemptions").

Your Committee on Conference has amended this measure by amending its effective date to take effect on approval, provided that the Concession Exemptions sunset on June 30, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2147, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2147, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Ige, Kidani, Wakai and Slom.

**Conf. Com. Rep. 95-14 on H.B. No. 2273**

The purpose of this measure is to:

- (1) Authorize the Motor Vehicle Repair Industry Board to enter into agreements with entities, educational institutions, and other organizations to develop and administer a certification program for motor vehicle mechanics that will ensure that motor vehicle mechanics' knowledge, skills, and abilities are current and in line with industry standards; and
- (2) Allow the Motor Vehicle Repair Industry Board to accept certificates from a national certification program without contracting with the national certification program.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2273, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2273, S.D. 2, C.D. 1.

**Conf. Com. Rep. 96-14 on H.B. No. 1966**

The purpose of this measure is to require the State Auditor to report to the Legislature on the current state of the civil service exemption process and to recommend procedures, guidelines, and criteria to ensure that the exemption process is used appropriately and only in extraordinary circumstances.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1966, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1966, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Ing, Ichiyama and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 97-14 on H.B. No. 2038**

The purpose of this measure is to impose a human trafficking victim services fee upon individuals who are convicted of certain trafficking offenses and to establish a special fund for the fee.

Your Committee on Conference has amended this measure by:

- (1) Inserting the following caps on fee amounts:
  - (A) \$5,000 when the offense is a class A felony;
  - (B) \$2,500 when the offense is a class B felony;
  - (C) \$1,000 when the offense is a class C felony;
  - (D) \$500 when the offense is a misdemeanor; and
  - (E) \$250 when the offense is a petty misdemeanor; and

- (2) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2038, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2038, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Yamashita, Awana and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 98-14 on H.B. No. 2400**

The purpose of this measure is to provide temporary disability benefits to employees who are disabled due to organ donation.

Your Committee on Conference has amended this measure by:

- (1) Deleting the conforming amendment to section 392-6, Hawaii Revised Statutes, regarding the definition of "individual in current employment";
- (2) Changing its effective date to July 1, 2014; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2400, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2400, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, McKelvey, Nishimoto, Har, Hashem, Yamashita and Johanson.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, 1 (Har).

**Conf. Com. Rep. 99-14 on S.B. No. 2346**

The purpose of this measure is to provide necessary services and support programs for the health and well-being of Hawaii's elder population by:

- (1) Appropriating funds to the Department of Health for the kupuna care program, aging and disability resource center, and healthy aging partnership program; and
- (2) Requiring the Executive Office on Aging to conduct a public education and awareness campaign on long-term care and appropriating funds for this purpose.

Your Committee on Conference finds that Hawaii's aging population is increasing at a rapid rate, and programs and services are needed to maintain the health and welfare of Hawaii's seniors and their caregivers. Your Committee on Conference further finds that the most successful programs for aging in place recognize and build upon integrated health and social services. Finally, your Committee on Conference recognizes the importance of educating Hawaii's residents with information about long-term care.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$4,200,000 for the kupuna care program;
- (2) Inserting an appropriation amount of \$1,900,000 for the aging and disability resource center;
- (3) Inserting an appropriation amount of \$476,772 for the healthy aging partnership program;
- (4) Inserting an appropriation amount of \$500,000 for the Executive Office on Aging to conduct a public education and awareness campaign on long-term care; and
- (5) Inserting an effective date of July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2346, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2346, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani, Green, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Luke, Awana, Kobayashi and Fukumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 100-14 on S.B. No. 2542**

The purpose of this measure is to restore the allocation of conveyance tax collections to the rental housing trust fund to fifty percent beginning July 1, 2014.

Your Committee on Conference finds that the creation of more affordable rental housing is critical to Hawaii's future. Rent costs have increased more than forty-five percent in Hawaii since 2005, and almost seventy-five percent of extremely low income households are spending more than half of their income on rent. In addition, rising housing costs are associated with increased homelessness and more local families at risk of becoming homeless. Your Committee on Conference finds that increasing the allocation of conveyance tax collections to the rental housing trust fund to fifty percent will yield significant funds which can be leveraged to build more affordable housing.

Your Committee on Conference has amended this measure by:

- (1) Adding language making this measure supersede any amendments made to Section 247-7, Hawaii Revised Statutes, relating to the allocation of conveyance tax collections, by H.B. No. 2059 or H.B. No. 2101, Regular Session of 2014, if passed by the Legislature during the Regular Session of 2014 in any form;
- (2) Inserting an effective date of July 1, 2014; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2542, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2542, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ige, Keith-Agaran, Kidani and Taniguchi.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

Representatives Hashem, Evans, Nishimoto, Cullen and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 101-14 on S.B. No. 632**

The purpose of this measure is to:

- (1) Establish environmental courts as divisions within the circuit courts to hear proceedings, including certain chapter 91, Hawaii Revised Statutes, proceedings arising from certain environmental laws; and
- (2) Require the Judiciary to report to the Legislature the total number of environmental-related cases filed in the last five years.

Your Committee on Conference finds that environmental disputes are currently dealt with in a variety of courts. This organizational structure inadvertently promotes inconsistent application of the wide variety of environmental laws. The continued maintenance and improvement of Hawaii's environment requires constant vigilance and continued stewardship to ensure its lasting beauty, cleanliness, and uniqueness and the stability of its natural systems, all of which enhance the mental and physical well-being of Hawaii's people.

Your Committee on Conference has amended this measure by:

- (1) Inserting findings related to the urgent need for environmental courts;
- (2) Inserting language to require environmental courts to be created as divisions of district courts in addition to circuit courts;
- (3) Inserting language to require the Chief Justice of the Supreme Court to designate an environmental judge or judges for each circuit and for a district court in each circuit;
- (4) Clarifying that the Chief Justice may temporarily assign an environmental court judge to preside in another circuit when the chief justice determines that the urgency of one or more cases in the circuit court or district court or the volume of the cases in the circuit court or district court so requires;
- (5) Clarifying that issues under the jurisdiction of the environmental courts may be assigned to the environmental courts from both circuit courts and district courts;
- (6) Inserting language to require the Judiciary to convene a working group to make recommendations to the Chief Justice regarding the implementation of environmental courts within the circuit and district courts of the State;
- (7) Clarifying that the term "environmental court" shall be substituted for the term "district court" in specified chapters of the Hawaii Revised Statutes;
- (8) Changing the effective date to July 1, 2015; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 632, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 632, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Hee and Ihara.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Rhoads, Lowen, Ing and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**Conf. Com. Rep. 102-14 on S.B. No. 2054**

The purpose of this measure is to:

- (1) Require health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for screening, diagnosis, and treatment of autism spectrum disorders up to an unspecified maximum benefit and maximum lifetime benefit for individuals under an unspecified age;
- (2) Require the University of Hawaii Economic Research Organization to contract for the performance of an actuarial analysis of the projected costs of providing insurance coverage for screening, diagnosis, and treatment of autism spectrum disorders; and
- (3) Appropriate funds to contract for the performance of the actuarial analysis.

Your Committee on Conference finds that applied behavior analysis is an effective and medically necessary treatment for autism that is supported by many organizations, including the United States Surgeon General, American Academy of Pediatrics, and Autism Society of America. However, many families with autistic children cannot afford the treatments. Your Committee on Conference further finds that an actuarial analysis of the projected costs of providing insurance coverage for autism spectrum disorder treatments will assist the State in determining how best to help families with autistic children.

Your Committee on Conference has amended this measure by:

- (1) Amending the findings section to clarify the purpose of the measure;
- (2) Deleting language that requires health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for autism spectrum disorder treatments;
- (3) Requiring the Insurance Commissioner, instead of the University of Hawaii Economic Research Organization, to contract for the performance of the actuarial analysis and submit a report to the Legislature;
- (4) Inserting an appropriation amount of \$50,000;
- (5) Changing the expending agency to the Department of Commerce and Consumer Affairs, instead of the University of Hawaii;
- (6) Making the measure effective upon approval; provided that the appropriation takes effect on July 1, 2014; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2054, S.D. 3, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2054, S.D. 3, H.D. 3, C.D. 1.

Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 103-14 on S.B. No. 2866**

The purpose of this measure is to make an emergency appropriation to the Hawaii Health Systems Corporation for necessary costs and operations.

Your Committee on Conference finds that the Hawaii Health Systems Corporation requires additional funding to meet the cost of collective bargaining pay raises and unanticipated Medicaid reimbursement cuts. Your Committee on Conference further finds that the Hawaii Health Systems Corporation requires additional funding to pay overdue accounts in the Kauai regions, as well as to continue to provide quality health care services through its hospitals without disrupting patient care.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$15,000,000;
- (2) Making the measure effective upon approval; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2866, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2866, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ige and Ruderman.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Luke, Morikawa, Woodson and Fukumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 104-14 on S.B. No. 2196**

The purpose of this measure is to:

- (1) Re-establish the energy systems development special fund;
- (2) Amend the amount of the environmental response, energy, and food security tax to be deposited into various existing funds;
- (3) Amend the purpose of the hydrogen investment capital special fund to be for the development of hydrogen production, storage, and dispensing infrastructure;
- (4) Require the Director of Finance to deposit an unspecified amount from the revenues of the environmental response, energy, and food security tax into the hydrogen investment capital special fund; and
- (5) Extend the repeal of various allocations of the environmental response, energy, and food security tax from 2015 to 2030.

Your Committee on Conference finds that re-establishing the energy systems development special fund will provide funding to support Hawaii projects important for achieving state energy goals, such as renewable power generation, advanced transportation, energy efficient end-use technologies, and the integration of systems to allow increased renewable use.

Your Committee on Conference has amended this measure by:

- (1) Specifying in the findings that the purpose of this measure is to:
  - (A) Re-establish the energy systems development special fund to be funded in part by revenues collected from the environmental response, energy, and food security tax; and
  - (B) Extend the allocation of revenues collected from the environmental response, energy, and food security tax to various special funds from June 30, 2015, to June 30, 2030;
- (2) Deleting language that would have amended the purpose of the hydrogen investment capital special fund to be for the development of hydrogen production, storage, and dispensing infrastructure;
- (3) Deleting language that would have amended the amount of the environmental response, energy, and food security tax to be deposited into various existing funds;
- (4) Deleting language that would have required the Director of Finance to deposit an unspecified amount from the revenues of the environmental response, energy, and food security tax into the hydrogen investment capital special fund;
- (5) Changing the effective date to July 1, 2014; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2196, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2196, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Nishihara and Ige.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Lee, Luke, Wooley and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Wooley).

**Conf. Com. Rep. 105-14 on S.B. No. 3099**

The purpose of this measure is to:

- (1) Require, rather than permit, hiring to be done in accordance with civil service laws when the State Historic Preservation Division of the Department of Land and Natural Resources hires professional and technical staff; and
- (2) Require any civil service position exemptions created after July 1, 2014, to expire three years after their enactment unless affirmatively extended by the Legislature.

Your Committee on Conference finds that there are inequities between civil service exempt employees and civil service employees. For example, exempt employees do not receive step increases in compensation and are not protected from a reduction-in-force. The Hawaii Government Employees Association has stated that the number of voluntary conversions has been small, and therefore, the conversion process has not been effective. This measure mandates the conversion of exempt positions to civil service positions unless the exemption is extended by the Legislature in order to ensure fair and equitable compensation and benefits for all employees.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2114, to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3099, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3099, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 106-14 on S.B. No. 2365**

The purpose of this measure is to:

- (1) Establish the requirements for the furnishing of all prescription drugs to an employee who sustains a work injury;
- (2) Establish a reimbursement ceiling that does not exceed one hundred forty percent of the average wholesale price set by the original manufacturer of the dispensed prescription drug as identified by its National Drug Code and published in the Red Book: Pharmacy's Fundamental Reference as of the date of dispensing for all prescription drugs, including repackaged and relabeled drugs;
- (3) Require that any prescription drug that is not available at a major retail pharmacy within the State is not reimbursable;
- (4) Establish a reimbursement ceiling for compounded prescription drugs that does not exceed one hundred forty percent of the average wholesale price by gram weight of each underlying prescription drug, set by the original manufacturer of the underlying prescription drug as identified by its National Drug Code and published in the Red Book: Pharmacy's Fundamental Reference as of the date of compounding;
- (5) Require that all pharmaceutical claims submitted for repacked, relabeled, or compounded prescription drugs include the National Drug Code of the original manufacturer;
- (6) Establish a reimbursement ceiling that does not exceed one hundred forty percent of the average wholesale price set by the original manufacturer's National Drug Code number as listed in the Red Book: Pharmacy's Fundamental Reference of the prescription drug that is most closely related to the underlying drug product if the original manufacturer of an underlying drug product used in the repackaged, relabeled, or compounded prescription drugs is not provided or is unknown;
- (7) Require equivalent generic drug products to be substituted for brand name pharmaceuticals unless the prescribing physician certifies that a brand name pharmaceutical is necessary;
- (8) Add a definition of "equivalent generic drug product"; and
- (9) Clarify that the fees for injuries covered by personal injury protection benefits under section 431:10C-308.5, Hawaii Revised Statutes, shall not exceed the charges permissible under section 386-21, Hawaii Revised Statutes, or the new section in chapter 386, Hawaii Revised Statutes

Your Committee on Conference finds that Hawaii's existing reimbursement rates for pharmaceuticals in workers' compensation claims are among the highest in the nation for brand and generic products. Existing administrative rules allow pharmaceuticals to be charged to insurance carriers at up to one hundred forty percent of the average wholesale price listed in the Red Book: Pharmacy's Fundamental Reference. However, existing statute and administrative rules do not address the reimbursement of repackaged, relabeled, or compound medications. As a result, third-party companies are able to buy prescription drugs in bulk; repackaging, relabel, or compound the medications; and attach their own National Drug Code to the repackaged, relabeled, or compound medications with average wholesale prices that are higher than the average wholesale prices of the original manufacturers. Insurance carriers are then billed at one hundred forty percent of the higher average wholesale price, which results in higher charges. This measure clarifies reimbursement rates for repackaged, relabeled, and compounded medications and thereby assists the Department of Labor and Industrial Relations in reducing billing disputes involving the correct payments for prescription repackaged, relabeled, and compounded medications.

Your Committee on Conference has amended this measure by:

- (1) Clarifying in the purpose section that this measure does not restrict and is not intended to restrict the ability of any health provider other than a physician to dispense, bill for, and receive payment for prescription drugs that are reasonably needed as the nature of the injury requires;
- (2) Setting the reimbursement price for all forms of prescription drugs, including repackaged, relabeled, and compounded drugs, at exactly, rather than up to, one hundred forty percent of the average wholesale price set by the original manufacturer of the dispensed prescription drug;

- (3) Allowing the reimbursement price for repackaged, relabeled, and compound prescription drugs to be a lower amount if the employer or carrier, or any entity acting on behalf of the employer or carrier, directly contracts with the provider or the provider's assignee for the lower amount;
- (4) Deleting the language that would have prohibited reimbursement for any prescription drug not available at a major retail pharmacy;
- (5) Changing the effective date from July 1, 2050, to July 1, 2014; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2365, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2365, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Baker and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, McKelvey, Yamashita, Creagan and Johanson.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 107-14 on S.B. No. 2073**

The purpose of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee on Conference finds that on April 17, 2014, the State received notification that an arbitration award regarding the Hawaii Government Employees Association (HGEA) and the employer for collective bargaining unit (6) was issued. In addition, an agreement with HGEA was reached regarding Hawaii Employer-Union Health Benefits Trust Fund employer contributions.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2013-2015, pursuant to the arbitration award and reached agreement;
- (2) Changing the effective date from July 1, 2114, to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2073, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2073, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Shimabukuro.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

**Conf. Com. Rep. 108-14 on S.B. No. 2074**

The purpose of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee on Conference finds that on February 27, 2014, the State received notification of ratification regarding a tentative agreement between the Hawaii Government Employees Association (HGEA) and the employer for collective bargaining unit (9). In addition, an agreement with HGEA was reached regarding Hawaii Employer-Union Health Benefits Trust Fund employer contributions.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2013-2015, pursuant to the agreement reached; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2074, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2074, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 110-14 on H.B. No. 2152**

The purpose of this measure is to stimulate economic growth for the State and continue to develop the state's emerging aerospace sector by:

- (1) Appropriating general funds to support various administrative and general tasks, and specific strategic program initiatives, of the Pacific International Space Center for Exploration Systems; and
- (2) Authorizing the issuance of general obligation bonds to support the development of a research and development park for the Pacific International Space Center for Exploration Systems.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$500,000 to support various administrative and general tasks, and specific strategic program initiatives, of the Pacific International Space Center for Exploration Systems;
- (2) Deleting provisions specifying how the appropriation should be distributed between the administrative and general tasks and the specific program initiatives and allowing the Pacific International Space Center for Exploration Systems to make this determination;
- (3) Deleting provisions authorizing the issuance of general obligation bonds to support the development of a research and development park for the Pacific International Space Center for Exploration Systems;
- (4) Changing its effective date to July 1, 2014; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2152, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2152, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tsuji, Onishi, Ito and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 111-14 on H.B. No. 2464**

The purpose of this measure is to clarify how the important agricultural land qualified agricultural cost tax credit is to be calculated.

Your Committee on Conference has amended this measure by:

- (1) Removing the authorization for taxpayers who filed claims for taxable years ending prior to January 1, 2014, to claim the additional tax credits allowed under this measure; and
- (2) Changing its effective date to apply, upon approval, to taxable years beginning after July 1, 2008.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2464, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2464, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Yamashita, Onishi, Wooley and Johanson.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Wooley).

**Conf. Com. Rep. 112-14 on H.B. No. 1752**

The purpose of this measure is to provide health care to Hawaii residents that are uninsured, underinsured, potential Medicaid enrollees, or Medicaid enrollees by appropriating funds for:

- (1) Community health centers to provide direct health care to uninsured and underinsured patients;
- (2) The restoration of basic adult dental benefits to Medicaid enrollees;
- (3) Outreach and eligibility services for children, families, and individuals at federally qualified health centers;
- (4) The establishment of health homes for Medicaid enrollees as provided in the federal Patient Protection and Affordable Care Act;
- (5) The establishment of health homes for Medicaid enrollees at federally qualified health centers as provided in the Patient Protection and Affordable Care Act; and
- (6) The provision of behavioral health services at federally qualified health centers.

Your Committee on Conference has amended this measure by:

- (1) Deleting appropriations for all services, except the restoration of basic adult dental benefits to Medicaid enrollees;
- (2) Appropriating \$1,500,000 for fiscal year 2014-2015 for the restoration of basic adult dental benefits to Medicaid enrollees, provided that funds will not be expended unless the Department of Human Services obtains federal matching funds;
- (3) Changing its effective date to July 1, 2014; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1752, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1752, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green and Kidani.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Carroll, Belatti, Jordan and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 113-14 on H.B. No. 1993**

The purpose of this measure is to protect minors and other household members from domestic abuse by:

- (1) Requiring police officers to make a reasonable inquiry of the family or household member upon whom the officer believes that physical abuse or harm has been inflicted, and inquire the same of any available witnesses;
- (2) Requiring a police officer to order a person to leave the premises for a period of separation of forty-eight hours, regardless of whether the police officer has reasonable grounds to believe that there is probable danger of further physical abuse or harm being inflicted by one person upon a family or household member; and
- (3) Making the commission of an act of physical abuse in the presence of a family or household member who is less than fourteen years of age a class C felony.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the person ordered by a police officer to leave the premises for a period of separation of forty-eight hours is the person whom the police officer reasonably believes has inflicted the abuse; and

- (2) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1993, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1993, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Carroll, Rhoads, Nishimoto, Kawakami and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Fukumoto).

**Conf. Com. Rep. 114-14 on H.B. No. 2293**

The purpose of this measure is to provide increased access to medical care for Hawaii residents and create more sustainable hospitals by continuing the Hospital Sustainability Program established in 2012. Among other things, this measure:

- (1) Continues the Hospital Sustainability Program by extending its sunset date to June 30, 2015, and the Hospital Sustainability Program Special Fund to December 31, 2015;
- (2) Makes a blank appropriation for the Hospital Sustainability Program Special Fund; and
- (3) Extends the repeal date of the exemptions for the Hospital Sustainability Program Special Fund from assessments for central service expenses and departmental administrative expenses.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$50,000,000 for the Hospital Sustainability Program Special Fund;
- (2) Deleting the extension of the repeal date of exemptions for the Hospital Sustainability Program Special Fund from assessments for central service expenses and departmental administrative expenses; and
- (3) Changing its effective date to June 29, 2014, provided that the appropriation takes effect on July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2293, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2293, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland, Ige, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Carroll, Belatti, Kobayashi, Morikawa and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Kobayashi).

**Conf. Com. Rep. 115-14 on H.B. No. 2490**

The purpose of this measure is to enhance the existing juvenile justice system by instituting the Hawaii Juvenile Justice Working Group's recommendations for juvenile justice reform, including, among other things:

- (1) Requiring the Director of the Office of Youth Services or the Director's designee to develop a comprehensive reentry plan for certain persons committed to the Hawaii Youth Correctional Facility;
- (2) Specifying supervision requirements for children placed on probation pursuant to section 571-48(1)(A), Hawaii Revised Statutes, and requiring that probation officers create a case plan in consultation with the child and the child's parent, legal guardian, or custodian;
- (3) Requiring the Judiciary to adopt guidelines and procedures for the development and application of graduated sanctions, including presumptive sanctions for common violations and incentives for compliance with probation requirements;
- (4) Permitting a child to earn discharge credits to reduce the length of the child's probation term;
- (5) Establishing a statewide juvenile justice interdepartmental cluster to provide coordinated services to certain children under the jurisdiction of the Family Court;
- (6) Specifying factors that the Director of the Office of Youth Services must consider when granting parole;
- (7) Requiring the Executive Director of the Office of Youth Services to submit an annual report to the Board of Family Court Judges and the Hawaii Juvenile Justice State Advisory Council including the number of persons committed to the Executive Director's custody;
- (8) Requiring the Board of Family Court Judges to provide guidelines and procedures necessary to implement a single statewide standardized tool to conduct risk and needs assessments and validation of the tool every five years;

- (9) Requiring probation officers to complete annual training on juvenile justice or probation supervision best practices;
- (10) Requiring intake officers to compile monthly reports indicating the number of cases diverted and the types of alleged offenses precipitating the referral of the child to court;
- (11) Requiring the directors of the family courts of each circuit to establish a framework that includes criteria that probation officers shall use to guide their discretion in providing informal adjustment;
- (12) Requiring the family court to conduct a risk and needs assessment prior to disposition, and authorizing the family court to suspend delinquency proceedings to obtain substance abuse or mental health treatment;
- (13) Requiring a probation officer to refer the child to the Department of Health for a determination of eligibility for services if a risk and needs assessment indicates substance abuse or mental health need;
- (14) Establishing a Juvenile Justice Oversight Advisory Council to oversee implementation of the juvenile justice reforms in this measure and issue reports necessary to evaluate its effectiveness; and
- (15) Making a blank appropriation for juvenile justice system services.

Your Committee on Conference finds that there is a need to improve and enhance the existing juvenile justice system as recommended by the Hawaii Juvenile Justice Working Group. Over the last decade, the number of juvenile offenders in the State confined for nonviolent offenses has risen. When juvenile offenders are confined for nonviolent offenses and placed in secure facilities, the risk of repeat offenses upon their release increases. Furthermore, critical services to reduce delinquency, including mental health and substance abuse treatment, are not sufficiently accessible to the State's youth.

This measure will reform the State's juvenile justice system and protect public safety through targeted juvenile justice reforms, including concentrating secure bed space on serious juvenile offenders; strengthening disposition, adjustment, and the array of services available for juvenile offenders; and establishing the Juvenile Justice Oversight Advisory Council.

Your Committee on Conference also finds that this measure will provide for systematic coordination between the appropriate service providers and government entities, ensuring that evidence-based practices and effective mental health and substance abuse treatments are being tailored to each child's specific needs. Your Committee on Conference further finds that reentry planning would allow youth to safely and effectively transition back into the community.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Executive Director of the Office of Youth Services is responsible for developing reentry plans for youth serving concurrent terms of probation;
- (2) Requiring each Deputy Chief Administrator to:
  - (A) Adopt policies or procedures for implementation of the adopted graduated sanctions and incentives system;
  - (B) Submit an annual report to the Board of Family Court Judges and Hawaii Juvenile Justice State Advisory Council; and
  - (C) Require each probation officer to complete annual training on juvenile justice or probation supervision best practices;
- (3) Amending the membership of the Juvenile Justice Oversight Advisory Council to include two members of the Department of Education, appointed by the Superintendent of Education;
- (4) Appropriating \$1,260,500 for fiscal year 2014-2015 for juvenile justice system services; provided that funds not expended and encumbered by the Hawaii Youth Correctional Facility due to savings from updated services and programs implemented by this measure will not lapse at the end of the fiscal year;
- (6) Amending the effective date to take effect upon July 1, 2014, provided that Section 15 takes effect on October 1, 2014, and Sections 3 and 14 take effect on November 1, 2014, and all apply to delinquent behavior on or after the specified date; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2490, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2490, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Chun Oakland, Espero, Hee, Ige and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Carroll, Creagan, Ing, Awana and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Awana, Thielen).

**Conf. Com. Rep. 116-14 on H.B. No. 238**

The purpose of this measure is to support certain witnesses in criminal proceedings by:

- (1) Increasing the per diem rate for out-of-state witnesses from \$110 to an unspecified amount; and
- (2) Providing an additional unspecified amount as a per diem payment for witnesses traveling from another island within the State who are required to stay overnight.

Your Committee on Conference has amended this measure by:

- (1) Providing that:
  - (A) The per diem rate for out-of-state witnesses will increase to \$145; and
  - (B) The additional per diem payment for witnesses traveling from another island who are required to stay overnight will be \$90; and
- (2) Making the bill effective July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 238, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 238, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Luke, Kawakami and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Kawakami).

**Conf. Com. Rep. 117-14 on H.B. No. 1288**

The purpose of this measure is to address the order of succession to the office of the Lieutenant Governor by:

- (1) Maintaining succession to, first, the Senate President followed by the House Speaker, when the office of the Lieutenant Governor becomes vacant, provided that the individual meets the new qualification of being of the same political party as the Governor;
- (2) Authorizing the Governor to appoint a Lieutenant Governor, who is a member of the same political party as the Governor and otherwise qualified under the Hawaii State Constitution, in the absence of a qualified successor when the office of the Lieutenant Governor becomes vacant; and
- (3) Clarifying the order of succession when the Lieutenant Governor is temporarily absent from the State or is temporarily disabled.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1288, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1288, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Nishimoto, Brower and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 118-14 on H.B. No. 1635**

The purpose of this measure is to require that effective July 1, 2014:

- (1) The salary of the Administrative Director of the Courts be equal to the salary of the Administrative Director of the State; and
- (2) The salary of the Deputy Administrative Director of the Courts be equal to an unspecified percentage of the salary of the Administrative Director of the Courts.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the salary of the Deputy Administrative Director of the Courts shall be equal to 95 percent of the salary of the Administrative Director of the Courts; and
- (2) Making it effective on July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1635, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1635, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Keith-Agaran and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Ing, Belatti and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 119-14 on H.B. No. 2246**

The purpose of this measure is to promote state compliance with federal firearm regulations by:

- (1) Establishing a court-based program for persons who are federally prohibited from possessing a firearm based on previous adjudication as mentally defective or commitment to a mental institution to petition for relief from the federal firearm prohibitor;
- (2) Providing that the court shall grant such a petition for relief when the petitioner can show by a preponderance of the evidence that the petitioner is not likely to act in a manner dangerous to public safety and granting relief is not contrary to the public interest; and
- (3) Requiring the courts to provide information relating to the outcome of such petitions and to involuntary civil commitments to the Hawaii Criminal Justice Data Center for use by law enforcement officials for firearms permitting or registration and for submission to the Federal Bureau of Investigation National Instant Criminal Background Check System (NICS) database for gun control purposes.

Your Committee on Conference has amended this measure by increasing the standard of proof from preponderance of the evidence to clear and convincing evidence for a petitioner to prove that the petitioner will not be likely to act in a manner dangerous to public safety and the granting of relief will not be contrary to public interest in order for the court to grant a petition for relief.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2246, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2246, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Espero, Hee, Chun Oakland and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Rhoads, Ing, Creagan and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 120-14 on H.B. No. 1712**

The purpose of this measure is to:

- (1) Authorize the issuance of general obligation bonds to finance project appropriations contained in Acts of the Legislature for which the means of funding are designated as general obligation bond funds or reimbursable general obligation bond funds; and
- (2) Make a declaration of findings regarding the authorizations as required by the Constitution of the State of Hawaii.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating dates cited in the measure;
- (3) Changing its effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1712, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1712, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto, Yamashita and Johanson.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 121-14 on H.B. No. 1514**

The purpose of this measure is to assist local coffee growers in their effort to control the coffee berry borer beetle by appropriating unspecified amounts for:

- (1) Education and mitigation activities to combat the coffee berry borer; and
- (2) Developing, operating, and implementing a five-year Pesticide Subsidy Program to partially offset the costs of purchasing specified pesticides containing *Beauveria bassiana*, a fungus known to eradicate the coffee berry borer, and hiring a temporary program specialist for the Program.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation for education and mitigation activities to combat the coffee berry borer;
- (2) Appropriating \$500,000 for the Pesticide Subsidy Program;
- (3) Clarifying that under the Program, a single coffee grower can receive subsidies of up to \$600 per year per acre of land in coffee production, but not more than \$9,000 per year;
- (4) Changing its effective date to July 1, 2014; and
- (5) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1514, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1514, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 122-14 on H.B. No. 2179**

The purpose of this measure is to encourage agricultural production and economic growth by limiting the toll that the Board of Agriculture may charge for water provided by the Lower Hamakua Ditch through June 30, 2019.

Your Committee on Conference has amended this measure by:

- (1) Capping the toll at 20 cents per 1,000 gallons of water; and
- (2) Making it effective from July 1, 2015, through June 30, 2025.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2179, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2179, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 123-14 on H.B. No. 1702**

The purpose of this measure is to support those who are being displaced by the Kapalama container terminal project by establishing a capital infrastructure tax credit for taxpayers who invest in tenants displaced by the Kapalama container terminal project.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the capital infrastructure tax credit shall be for taxpayers for capital infrastructure costs that were paid or incurred;
- (2) Clarifying the definition of "capital infrastructure costs" and that it shall not include amounts for which another credit is claimed;
- (3) Removing ship repair from the list of principal businesses in the definition of qualified infrastructure tenant;
- (4) Specifying that the tax credit shall be equal to fifty percent of the capital infrastructure costs paid or incurred by the qualified infrastructure tenant during the taxable year up to a cap of \$2,500,000 in any taxable year;

- (5) Requiring notice from the qualified infrastructure tenant to the taxpayer claiming the credit of the amount of costs that may be claimed;
- (6) Clarifying that the credit shall be determined for a partnership at the entity level;
- (7) Specifying that the tax credit may be recaptured within three years under certain conditions and the recapture percentage based on the credit claimed;
- (8) Changing the effective date to July 1, 2014;
- (9) Removing language pertaining to the inapplicability of section 704(b)(2) of the Internal Revenue Code to allocations of the capital infrastructure tax credit; and
- (10) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1702, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1702, H.D. 2, S.D. 2, C.D. 1.

**Conf. Com. Rep. 124-14 on H.B. No. 2037**

The purpose and intent of this measure is to appropriate funds to the Department of Health for the continued funding of Project Kealahou.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the sum of \$216,000 be appropriated to fund Project Kealahou;
- (2) Changing the effective date to July 1, 2014; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2037, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2037, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 125-14 on H.B. No. 2053**

The purpose of this measure is to address falls and fall-related injuries by elderly persons in the State by:

- (1) Establishing a Fall Prevention and Early Detection Coordinator position within the Department of Health Emergency Medical Services and Injury Prevention System Branch to coordinate the provision of public and private fall prevention and early detection services for the elderly; and
- (2) Appropriating an unspecified amount of funds from the Trauma System Special Fund to establish and fill this position.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$81,985 for Fiscal Year 2014-2015 to establish and fill the Fall Prevention and Early Detection Coordinator position; and
- (2) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2053, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2053, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 126-14 on H.B. No. 2094**

The purpose of this measure is to:

- (1) Extend by five years the repeal date of Act 21, Special Session Laws of Hawaii 2009, which requires home care agencies to be licensed by the Department of Health; and
- (2) Appropriate funds for fiscal year 2014-2015 for the establishment of a full-time permanent position in the Department of Health to facilitate the licensing of home care agencies.

This bill also requires that beginning with fiscal year 2015-2016 and each fiscal year thereafter, the Department of Health is to request funding for the full-time, permanent position established in this measure.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriation amount of \$150,000 for fiscal year 2014-2015 for the establishment of a full-time position in the Department of Health to facilitate the licensing of home care agencies; and
- (2) Changing its effective date to June 29, 2014, and making section 3 of this measure take effect on July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2094, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2094, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Baker, Kidani, Green, Thielen and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Morikawa, Hashem and Fukumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Hashem).

**Conf. Com. Rep. 127-14 on H.B. No. 2224**

The purpose of this measure is to help residents and prospective residents of clean and sober group homes to access a stable, alcohol- and drug-free, home-like living environment in residences that comply with federal, state, and county requirements and minimum quality standards by:

- (1) Establishing a voluntary clean and sober homes registry within the Department of Health to assist persons recovering from substance abuse;
- (2) Amending the relevant statutes on county zoning to delete redundant or obsolete language and to comply with the federal Fair Housing Amendments Act; and
- (3) Appropriating funds for Fiscal Year 2014-2015 for staffing and operating costs to plan, establish, and operate the registry of clean and sober homes.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 for Fiscal Year 2014-2015 for staffing and operating costs to plan, establish, and operate the registry of clean and sober homes; and
- (2) Changing its effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2224, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2224, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Espero, Chun Oakland, Galuteria and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Belatti, McKelvey, Jordan and Fukumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 128-14 on H.B. No. 2581**

The purpose of this measure is to:

- (1) Establish a state innovation waiver task force (task force) to, among other things:

- (A) Develop a health care reform plan that meets requirements for obtaining a state innovation waiver under the federal Patient Protection and Affordable Care Act of 2010;
  - (B) Prepare a draft application for a state innovation waiver, to take effect for plan years beginning on or after January 1, 2017; and
  - (C) Submit two interim reports and one final report of its actions, findings, recommendations, and any proposed legislation, to the Legislature; and
- (2) Appropriating funds for Fiscal Year 2014-2015 for the operations of the task force.

Your Committee on Conference has amended this measure by:

- (1) Changing the composition of the task force membership as follows:
  - (A) Deleting the Director of Commerce and Consumer Affairs and the Chairperson of the Board of Directors of the Hawaii Health Connector from the task force; and
  - (B) Adding the Attorney General and a representative of the Hawaii Primary Care Association to the task force;
- (2) Deleting the appropriation; and
- (3) Changing its effective date to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2581, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2581, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Nishihara.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Belatti, McKelvey, Nishimoto, Lee, Oshiro and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Lee, Nishimoto).

**Conf. Com. Rep. 129-14 on H.B. No. 849**

The purpose of this measure is to update and recodify Hawaii's emergency management laws to conform with nationwide emergency management practices. Among other things, this measure:

- (1) Establishes a Hawaii Emergency Management Agency in the state Department of Defense with the functions and authority currently held by the state Civil Defense Agency;
- (2) Establishes the power and authority of the Director of Hawaii Emergency Management, who will be the Adjutant General, and provide the Director with the functions and authority currently held by the Director of Civil Defense;
- (3) Establishes the Hawaii Advisory Council on Emergency Management to confer with and advise the Governor in emergency management matters, and provides the Advisory Council with responsibilities currently held by the Civil Defense Advisory Council;
- (4) Establishes an Emergency Reserve Corps, to be made up of trained specialists, to support state and county emergency requirements;
- (5) Codifies the existing State Warning Point, which is a physical location where warning systems are continually monitored;
- (6) Codifies and clarifies the mayors' authority for emergency management in their respective counties;
- (7) Establishes county emergency management agencies, each to be under the respective county mayor's direction, with the functions and authority currently held by the local organizations for civil defense;
- (8) Codifies the existing practice that all state and county officials, officers, and employees are considered "emergency workers" subject to the direction of their respective state or county department director during emergencies or disasters;
- (9) Clarifies the Governor's authority for emergency management, and specifies that the Governor may "assume direct operational control" over local emergencies and disasters only during an "emergency period" when a state of emergency has already been declared by the Governor;
- (10) Authorizes the Governor and mayors to delegate their emergency management powers consistent with current civil defense authority and practice;
- (11) Establishes how proclamations are promulgated and terminated consistent with current authority for civil defense proclamations;
- (12) Requires that the proclamations be posted on the applicable state or county emergency management agency website in addition to other means of promulgation, and that they remain posted until terminated;
- (13) Provides definitions of key emergency management terms, such as "critical infrastructure," "emergency," "emergency management," "emergency management functions," and "emergency period"; and

- (14) Repeals chapters on Disaster Relief and the Civil Defense Emergency Act which have been determined to be obsolete with the creation of the Hawaii Emergency Management Agency.

Your Committee on Conference has amended this measure by:

- (1) Establishing a provision that limits the requisition initiated by the Governor or Mayor to a period of 60 days;
- (2) Clarifying the Governor's additional powers in a disaster or emergency period, beyond local control;
- (3) Changing its effective date to July 1, 2014; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 849, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 849, H.D. 2, S.D. 2, C.D. 1.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 130-14 on H.B. No. 2363**

The purpose of this measure is to establish a pilot project to demonstrate the cost-effectiveness of providing a coordinated system of reentry treatment and support services to help nonviolent, low-risk drug offenders transition from jail or prison back into the community.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 for fiscal year 2014-2015 for the reentry pilot project;
- (2) Changing the effective date to July 1, 2014, and the repeal date to June 30, 2016; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2363, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2363, H.D. 2, S.D. 2, C.D. 1.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 131-14 on S.B. No. 2246**

The purpose of this measure is to make an appropriation to satisfy several claims against the State, its officers, or its employees, including claims for legislative relief, judgments against the State, settlements, and other miscellaneous claims.

Your Committee on Conference finds that this measure requests a total of \$1,689,802.03 in appropriations from the general fund to satisfy nineteen claims against the State and a total of \$822,500 in appropriations from the state highway fund to satisfy four claims against the State. The grand total for the twenty-three claims settled in this measure as received by your Committee is \$2,512,302.03. Timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

Your Committee on Conference notes that since this measure was last amended, nine additional claims have been resolved. These nine claims require a total of \$464,324 in appropriations from the general fund.

Accordingly, your Committee on Conference has amended this measure by adding general fund appropriations for nine additional claims totaling \$464,324 to this measure, as requested by the Department of the Attorney General, which increases the grand total amount of appropriations in this measure to \$2,976,626.03 in order to satisfy a total of thirty-two claims against the State, its officers, or its employees.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2246, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2246, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Slom.  
Managers on the part of the Senate.

Representatives Har, Luke, Lee and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 132-14 on S.B. No. 2634**

The purpose of this measure is to promote transparency in lobbying activities by:

- (1) Adding a definition of “lobbying material”; and
- (2) Requiring individuals who spend more than \$750 on lobbying during an expenditure statement period to itemize each expenditure under certain categories and to account for expenditures listed as “other disbursements”.

Your Committee on Conference finds that existing law requires the reporting of total lobbying expenditures but does not require that these expenditures be categorized according to their nature and purpose. This measure provides greater transparency regarding the expenditures that are made by lobbyists and lobbying organizations seeking to influence legislative action by requiring the categorization of lobbying expenditures.

Your Committee on Conference notes that this measure is not intended to redefine the existing definition of lobbying under state law, nor is it intended to expand the types of items considered to be lobbying. Instead, the intent of this measure is to add certain categories to the reporting of such expenses.

Your Committee on Conference has amended this measure by:

- (1) Deleting the proposed definition of “lobbying material”;
- (2) Deleting language that would have required that each item under the category “other disbursements” contain the amount, date, purpose, and recipient of the disbursement; and
- (3) Changing the effective date from July 1, 2030, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2634, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2634, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Ing, Brower and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Brower).

**Conf. Com. Rep. 133-14 on S.B. No. 2609**

The purpose of this measure is to:

- (1) Increase the minimum wage rate to:
  - (A) \$7.75 per hour beginning January 1, 2015;
  - (B) \$8.50 per hour beginning January 1, 2016;
  - (C) \$9.25 per hour beginning January 1, 2017; and
  - (D) \$10.00 per hour beginning January 1, 2018;
- (2) Increase the tip credit to:
  - (A) 50 cents per hour beginning January 1, 2015; and
  - (B) 75 cents per hour beginning January 1, 2016; and
- (3) Establish that beginning January 1, 2015, the combined amount a tipped employee receives in wages and tips must be at least \$7.00 more than the applicable minimum wage in order for an employer to apply the tip credit for the employer’s tipped employee.

Your Committee on Conference finds that the hourly minimum wage in Hawaii has not increased since 2007. Since that time, the cost of living has risen steadily, while worker purchasing power has continued to diminish. In Hawaii, the cost of living is higher than that of much of the rest of the nation, which compels many individuals to work two or more jobs to maintain a basic standard of living. Your Committee on Conference believes that providing minimum wage workers with a higher hourly pay will further the economic recovery of Hawaii and help lift Hawaii’s working poor out of poverty.

Your Committee on Conference has amended this measure by changing the minimum wage rate beginning January 1, 2018, from \$10.00 per hour to \$10.10 per hour.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2609, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2609, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige, Ihara, Kouchi and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Nakashima, Luke, Ichiyama, Nishimoto and Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Nishimoto).

**Conf. Com. Rep. 134-14 on S.B. No. 2821**

The purpose of this measure is to:

- (1) Adopt revisions to the National Association of Insurance Commissioners' model laws on Credit for Reinsurance Model Act, Standard Valuation Law, Standard Nonforfeiture Law for Life Insurance, and Insurance Holding Company System Regulatory Act; and
- (2) Ensure the Insurance Division of the Department of Commerce and Consumer Affairs maintains its accreditation with the National Association of Insurance Commissioners.

Your Committee on Conference finds that the revisions to the State's Insurance Code in this measure are part of the National Association of Insurance Commissioners' Solvency Modernization Initiative, a critical self-examination to update the nation's insurance solvency regulation framework and review international developments regarding insurance supervision, banking supervision, and international accounting standards and their use in the country's insurance regulation.

Your Committee on Conference further finds that the National Association of Insurance Commissioners' financial regulation standards and accreditation program ensure that each state has adequate solvency laws and regulations to protect consumers and guarantee reserve funds. This measure protects consumers in Hawaii and ensures that the Insurance Division of the Department of Commerce and Consumer Affairs retains its accreditation with the National Association of Insurance Commissioners.

Your Committee on Conference has amended this measure by:

- (1) Adding a definition for "domestic insurance holding company system";
- (2) Deleting a definition for "domestic single-state insurer";
- (3) Clarifying that an insurer required to file financial statements of an insurance holding company system upon the request of the Insurance Commissioner may satisfy this request by providing the Commissioner with the most recently filed financial statements of the parent corporation that have been filed with the Securities and Exchange Commission;
- (4) Specifying that the ultimate controlling person of a domestic insurance holding company system, rather than a domestic single-state insurer with specified premium and surplus amounts, shall be exempt from the requirement to file an annual enterprise risk report;
- (5) Clarifying that a domestic insurer and a domestic insurance holding company system are exempt from certain standards and management requirements related to the board of directors of a domestic insurer under certain circumstances;
- (6) Permitting the Insurance Commissioner to examine any insurer registered under section 431:11-105, Hawaii Revised Statutes, as reasonably necessary to ascertain the financial condition of the insurer, subject to certain limitations;
- (7) Specifying the obligation of persons to attend as a witness pursuant to a subpoena;
- (8) Inserting an effective date of July 1, 2014; provided that part I of this measure shall take effect on January 1, 2015; provided further that part IV of this measure shall take effect on January 1, 2016; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2821, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2821, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Keith-Agaran, Taniguchi and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Representatives McKelvey, Nishimoto, Tokioka, Tsuji and McDermott.

**Conf. Com. Rep. 135-14 on S.B. No. 2478**

The purpose of this measure is to:

- (1) Update the scope of practice for chiropractic to reflect standards, practices, and terminology accepted by the National Board of Chiropractic Examiners; and
- (2) Limit employer liability for chiropractic treatment under the Workers' Compensation Law.

Your Committee on Conference finds that this measure updates the scope of practice for chiropractic in conformity to the standards of practice accepted by the National Board of Chiropractic Examiners. This measure therefore enables the scope of practice for chiropractors in Hawaii to reflect standards of care, practices, and terminology that are aligned with nationally recognized practice parameters and will enable chiropractic licensees to keep abreast with advances in health care and the chiropractic profession.

Your Committee on Conference notes that because this measure is intended to focus on scope of practice for chiropractic, provisions in this measure relating to Hawaii's Workers' Compensation Law should be removed.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that specified the number of treatments and treatment cost rate and number of x-rays and x-ray cost rate allowed under the Workers' Compensation Law for chiropractic treatment;
- (2) Clarifying that chiropractic is the system of specific adjustment or manipulation of the joints and tissues, including by the application of physiotherapeutic methods;
- (3) Clarifying that the scope of chiropractic shall be limited to those diagnostic and treatment services and procedures that have been taught by a chiropractic college accredited by an accrediting organization recognized by the United States Department of Education and approved by the Board of Chiropractic Examiners;
- (4) Clarifying the treatments that chiropractic licensees may use to examine, analyze, and diagnose the human body;
- (5) Specifying that chiropractic licensees may use the methods of examination for diagnosis and analysis taught by a chiropractic college accredited by an accrediting organization recognized by the United States Department of Education and approved by the Board of Chiropractic Examiners;
- (6) Prohibiting a person who has not complied with the requirements of chapter 442, Hawaii Revised Statutes, from using the title "chiropractic physician" to suggest that the person is engaged in the practice of chiropractic, and removing the prohibition on the use of the term "physician" by a chiropractic licensee;
- (7) Inserting an effective date of upon approval; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2478, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2478, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives Belatti, McKelvey, Morikawa, Creagan, Jordan and McDermott.

Ayes, 4. Noes, 1 (Creagan). Excused, 1 (McDermott).

**Conf. Com. Rep. 136-14 on S.B. No. 2948**

The purpose of this measure is to:

- (1) Transition the Public Utilities Commission (Commission) from its administrative placement within the Department of Budget and Finance to a semi-autonomous agency that is administratively attached to the Department of Commerce and Consumer Affairs;
- (2) Increase the compensation of the Chairperson and Commissioners of the Commission;
- (3) Clarify that notwithstanding section 26-35, Hawaii Revised Statutes, the Commission has authority concerning standard administrative practices, including operational expenditures and the hiring of personnel;
- (4) Enable the Chairperson of the Commission to appoint, employ, and dismiss all officers and employees under the Commission, including an executive officer, who shall be responsible for managing the operations of the commission;
- (5) Enable the Chairperson of the Commission to appoint, employ, and dismiss a fiscal officer and a personnel officer, with or without regard to the civil service law, to further support the administrative activities of the Commission;
- (6) Establish the position of Executive Director of the Division of Consumer Advocacy, which shall be the Consumer Advocate; and
- (7) Appropriate funds to assist with the transition of the Commission and for the hiring of an executive officer, a fiscal officer, and a personnel officer within the Commission.

Your Committee on Conference finds that the statutory responsibility of the Commission, which is currently administratively attached to the Department of Budget and Finance, requires a unique organizational structure and specialized staff. This measure transfers the Commission from the Department of Budget and Finance to the Department of Commerce and Consumer Affairs, a state department whose mission is more closely aligned with the mission of the Public Utilities Commission. Your Committee on Conference further finds that placing the Commission under the Department of Commerce and Consumer Affairs, for administrative

purposes only, will also facilitate the Commission's goal of self-reliance by permitting the Commission to obtain and allocate its resources more efficiently.

Your Committee on Conference additionally finds that this measure ensures a smooth transition for the Commission from the Department of Budget and Finance to the Department of Commerce and Consumer Affairs, enables the Commission to carry out its various regulatory responsibilities in a more efficient manner, addresses the role of the Consumer Advocate, and ensures that important decisions relating to public utilities continue to be made in the public interest.

Your Committee on Conference has amended this measure by:

- (1) Removing references to the Commission as a semi-autonomous agency and specifying that the Commission shall be placed, for administrative purposes only, within the Department of Commerce and Consumer Affairs;
- (2) Clarifying the limitations of the Department of Commerce and Consumer Affairs in affecting the Commission's day to day operations;
- (3) Removing language that would have increased the compensation of the Chairperson and Commissioners of the Commission, beginning July 1, 2014;
- (4) Creating a direct line of communication between the Commission and the Governor or Legislature, unless otherwise agreed to by the Chairperson of the Commission and the Department of Commerce and Consumer Affairs;
- (5) Increasing the balance that may be retained in the Public Utilities Commission special fund at the end of each fiscal year, from \$1,000,000 to \$4,000,000;
- (6) Changing the appropriation in this measure from an unspecified amount to \$450,000, to effectuate the transfer of the Commission and for the hiring of an executive officer, fiscal officer, and personnel officer;
- (7) Enabling the Department of Budget and Finance to transfer positions and funds for the Commission to the Commission or the Department of Commerce and Consumer Affairs;
- (8) Clarifying provisions related to the preservation of Commission rules, policies, procedures, and similar material; deeds, leases, contracts, and other related documents; costs and expenses; and the transition period associated with the transfer of the Commission from the Department of Budget and Finance to the Department of Commerce and Consumer Affairs;
- (9) Updating the purpose section;
- (10) Inserting an effective date of July 1, 2014; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2948, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2948, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nishimoto, Har, Kawakami, Lee and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Har, McDermott).

**Conf. Com. Rep. 137-14 on S.B. No. 2581**

The purpose of this measure is to:

- (1) Modify the composition, quorum requirement, and duties of the State Building Code Council;
- (2) Amend the state building code, including the clarification of terminology, code adoption process, and staggering of code adoptions;
- (3) Prohibit the State Building Code Council from adopting provisions in the Hawaii state building codes that conflict with laws governing contractors; and
- (4) Appropriate funds to the Department of Accounting and General Services for the State Building Code Council and staff to carry out their duties and functions, including operating costs and staff salaries.

Your Committee on Conference finds that modern building codes are necessary to protect the citizens of Hawaii. In 2012, the State Building Code Council recommended an updated series of codes to be established as the new Hawaii State Building Code. However, due to a lack of funding, the process was never completed. This measure addresses the importance of the State Building Code Council's composition and duties to benefit the integrity of the code adoption process and appropriates funds to support the State Building Code Council's efforts to adopt a uniform set of statewide building codes and consistent standards.

Your Committee on Conference notes that while this measure requires the State Building Code Council to update the Hawaii state building codes and standards at least once every six years, the Council is encouraged to monitor updates to national building codes and propose changes more frequently if necessary.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the State Building Code Council member representing the Building Industry Association of Hawaii or the General Contractors Association of Hawaii shall serve alternating four-year terms between the two organizations, with the first four-year term to be served by the member representing the Building Industry Association of Hawaii;
- (2) Requiring, rather than permitting, the State Building Code Council to adopt, amend, or update Hawaii state building codes and standards on a staggered schedule, provided that any adoption, amendment, or update of any code occurs at least once every six years and is based upon an evaluation of the utility of the code or standard at the time each respective edition is published;
- (3) Inserting an appropriation amount of \$136,676;
- (4) Inserting an effective date of July, 1, 2014; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2581, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2581, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Dela Cruz, Kouchi, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Luke, Kawakami, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Yamashita).

**Conf. Com. Rep. 138-14 on S.B. No. 2583**

The purpose of this measure is to appropriate funds for a National Aeronautics and Space Administration and Pacific International Space Center for Exploration Systems engineering assessment of a proposal to establish a laser optical communications ground station in Hawaii, leading to infrastructure construction beginning in 2016, contingent on a dollar-for-dollar match of funds from the National Aeronautics and Space Administration.

Your Committee on Conference finds that space laser technology has the potential to support laser communications between spacecraft and Earth, provide ten to one hundred times higher data rates than traditional radio frequency systems with the same mass and power, and stimulate the State's economy through the creation of high-tech jobs. Your Committee on Conference further finds that the National Aeronautics and Space Administration conducted a detailed statistical analysis of weather patterns and identified Hawaii as the best site in the United States to establish the first laser optical communications ground station.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000; and
- (2) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2583, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2583, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tsuji, Takayama, Ito and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 139-14 on S.B. No. 2315**

The purpose of this measure is to appropriate funds for the Department of Public Safety to provide substance abuse treatment services to the inmates of the Halawa Correctional Facility.

Your Committee on Conference finds that a substantial number of inmates incarcerated at Halawa Correctional Facility have significant substance abuse problems. However, the Halawa Correctional Facility lacks the resources to provide substance abuse treatment services to inmates who need the services. This measure appropriates funds to increase the availability of substance abuse treatment services at Halawa Correctional Facility.

Your Committee on Conference has amended this measure by:

- (1) Specifying an appropriation amount of \$110,000;
- (2) Changing the effective date to July 1, 2014; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2315, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2315, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, Ing, Takayama and McDermott.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 140-14 on H.B. No. 2590**

The purpose of this measure is to increase voter participation in elections by permitting late voter registration at absentee polling places beginning in 2016, and authorizing late voter registration at precinct polling places on Election Day beginning in 2018.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the requirements of the late voter registration application process by:
  - (A) Specifying that the signed affidavit submitted by a person wishing to register shall be a sworn affirmation, which shall include an acknowledgement that providing false information may result in a class C felony;
  - (B) Deleting the requirement that the registration clerk demand evidence of residency of any person wishing to register to vote, and instead authorizing the registration clerk to accept the person's allegation of residency as prima facie evidence, unless it is contested by a qualified voter; and
  - (C) Allowing the registration clerk to demand substantiating evidence as to information contained in an application, other than an allegation of residency;
- (2) Inserting an appropriation amount of \$100,000 for the counties to implement the measure's voter registration provisions;
- (3) Making all sections of the measure, except for the late registration and registration at absentee polling places sections, effective on July 1, 2014; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2590, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2590, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Ing, Creagan and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Thielen).

**Conf. Com. Rep. 141-14 on H.B. No. 1714**

The purpose of this measure is to address the effects of climate change adaptation through 2050 to protect the State's economy, health, environment, and way of life by:

- (1) Establishing an Interagency Sea Level Rise Vulnerability and Adaptation Committee within the Department of Land and Natural Resources to develop a sea level rise vulnerability and adaptation report for the State;
- (2) Requiring the Office of Planning to develop, monitor, and evaluate statewide strategic climate adaptation plans and actionable policy recommendations; and
- (3) Appropriating funds to the Office of Planning and Department of Land and Natural Resources for the purposes of this measure.

Your Committee on Conference has amended this measure by:

- (1) Renaming the Interagency Sea Level Rise Vulnerability and Adaptation Committee as the "Interagency Climate Adaptation Committee" (Committee);
- (2) Specifying that the Committee shall be jointly headed by the Chairperson of the Board of Land and Natural Resources, or the Chairperson's designee, and the Director of the Office of Planning, or the Director's designee; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1714, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1714, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Gabbard, Solomon and Ige.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Ige).

Representatives Lee, Luke, Evans, Lowen and Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Evans, Thielen).

**Conf. Com. Rep. 142-14 on H.B. No. 1943**

The purpose of this measure is to eliminate technical and economic barriers that prevent customer-generators from interconnecting to the Hawaii electric grid in a timely manner by:

- (1) Amending the Public Utilities Commission principles regarding the modernization of the electric grid;
- (2) Requiring the Public Utilities Commission to initiate regulatory actions no later than July 1, 2014, to address upgrades to the Hawaii electric system for the anticipated growth of customer generation; and
- (3) Appropriating funds to the Public Utilities Commission and the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs for the costs of the regulatory actions initiated by the Commission.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the principles associated with the modernization of the electric grid;
- (2) Removing the provisions regarding the funding and commencement of a regulatory action by the Public Utilities Commission to address the technical, policy, and economic issues associated with the modernization of the electric grid;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1943, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1943, H.D. 2, S.D. 2, C.D. 1.

Senators Gabbard, Baker, Ige, Kouchi and Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Lee, Kawakami, Nishimoto, Yamashita and Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 143-14 on H.B. No. 1652**

The purpose of this measure is to support the University of Hawaii at Hilo College of Pharmacy by:

- (1) Establishing a five-year pilot program under which the University of Hawaii at Hilo College of Pharmacy will be financially and managerially autonomous;
- (2) Establishing the University of Hawaii at Hilo College of Pharmacy Special Fund;
- (3) Requiring, on January 1, 2015, and January 1 of each of the four years thereafter, the University of Hawaii at Hilo to report to the Legislature on the moneys in the University of Hawaii at Hilo College of Pharmacy Special Fund, including deposits, expenditures, and other transactions;
- (4) Requiring the College of Pharmacy at the University of Hawaii at Hilo to submit an annual financial and management report to the Board of Regents of the University of Hawaii, Governor, and Legislature at least 20 days prior to the convening of each regular session of the Legislature, commencing with the Regular Session of 2015 and ending with the Regular Session of 2019;
- (5) Requiring the University of Hawaii System to perform a program evaluation to consider whether the College of Pharmacy should be continued; and
- (6) Making an unspecified appropriation for the University of Hawaii at Hilo College of Pharmacy.

Your Committee on Conference has amended the bill by:

- (1) Establishing a seven-member University of Hawaii at Hilo College of Pharmacy Board of Governors, which will serve in an advisory capacity to the Chancellor of the University of Hawaii at Hilo and will report to the University of Hawaii Board of Regents and the Chancellor of the University of Hawaii at Hilo;
- (2) Codifying the establishment of the University of Hawaii at Hilo College of Pharmacy Pilot Program and University of Hawaii at Hilo College of Pharmacy Special Fund;

- (3) Beginning on January 1, 2015, requiring the University of Hawaii at Hilo College of Pharmacy Board of Governors to report semi-annually to the Legislature on the moneys in the University of Hawaii at Hilo College of Pharmacy Special Fund;
- (4) Specifying that the University of Hawaii Board of Regents, rather than the University of Hawaii System, must perform a program evaluation to consider whether the College of Pharmacy should be continued;
- (5) Providing that if the University of Hawaii Board of Regents finds, as a result of its program evaluation, that the University of Hawaii at Hilo College of Pharmacy meets the criteria for success and sustainability, then the terms and conditions of the pilot program must be adopted and implemented as the operational structure for the College of Pharmacy;
- (6) Deleting the appropriation;
- (7) Changing its effective date to July 1, 2014, and establishing a sunset date of June 30, 2019; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee notes that funding for the construction of facilities for the University of Hawaii at Hilo College of Pharmacy has been appropriated in the Executive Budget bill, H.B. No. 1700, H.D. 1, S.D. 1, C.D. 1.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1652, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1652, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Ige, Espero, Kahele and Kidani.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Kidani).

Representatives Choy, Luke, Cullen, Ichiyama, Tsuji and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Tsuji).

**Conf. Com. Rep. 144-14 on H.B. No. 2434**

The purpose and intent of this measure is to specify uses for transient accommodations tax revenues.

Specifically, this measure:

- (1) Specifies that transient accommodations tax revenues allocated pursuant to section 237D-6.5(b)(4), Hawaii Revised Statutes, shall only be allocated and expended by agreement of the Board of Land and Natural Resources and the Hawaii Tourism Authority in accordance with the Hawaii Tourism Authority strategic plan; and
- (2) Allocates \$3,000,000 of transient accommodation tax revenue to the special land and development fund.

Your Committee on Conference finds that a historic opportunity exists to acquire a conservation easement on lands at Turtle Bay on Oahu that would preserve in perpetuity public access to pristine oceanfront land that represent one of the finest examples of our State's natural beauty. The easement can be acquired by using transient accommodations tax revenue made available by refinancing the Hawaii Convention Center debt and thereby reducing the annual appropriation to the convention center enterprise special fund necessary to service that debt.

Accordingly, your Committee on Conference has amended this measure by deleting the amendments proposed in the Senate Draft 2 and inserting provisions that require the refinancing of the convention center debt and using the savings to acquire the conservation easement and provide \$3,500,000 of additional revenue to the general fund.

More specifically, your Committee on Conference has amended this measure by deleting its contents and replacing it with language that:

- (1) Requires the Hawaii Tourism Authority to obtain an appraisal and perform due diligence on the proposed conservation easement and property rights;
- (2) Authorizes the Hawaii Tourism Authority to issue \$40,000,000 in revenue bonds and to use those proceeds to acquire a conservation easement for lands at Turtle Bay on Oahu;
- (3) Establishes the Turtle Bay conservation easement special fund;
- (4) Annually allocates transient accommodations tax revenues of \$3,000,000 to the Turtle Bay conservation easement special fund for the Hawaii Tourism Authority to fund the debt service on the revenue bonds;
- (5) Reduces the transient accommodations tax revenue allocation to the convention center enterprise special fund from \$33,000,000 to \$26,500,000;
- (6) Provides an additional \$3,500,000 in transient accommodations tax revenue to the general fund;
- (7) Requires the Hawaii Tourism Authority and the Department of Budget and Finance to restructure the convention center debt owed to the Department of Budget and Finance to accommodate an annual payment of not more than \$16,500,000;
- (8) Establishes that if the debt restructuring cannot be achieved in accordance with certain financial benchmarks, then no moneys shall be expended; and
- (9) Inserts a provision that declares that the provisions of the measure are not severable.

Your Committee on Conference notes that, upon the retirement of the debt incurred to acquire the conservation easement at Turtle Bay, the continued application of the financing mechanism established by this measure will result in an additional \$3,500,000 being deposited into the general fund.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2434, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2434, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Kahele, Solomon, Ige, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Brower, Luke, Evans and Fale.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 145-14 on H.B. No. 1671**

The purpose of this measure is to change the amount of transient accommodations tax revenues allocated to the counties from \$93,000,000 to an unspecified percentage of revenues collected.

Your Committee on Conference finds that the Legislature, in enacting Act 161, Session Laws of Hawaii 2013, established a cap of \$93,000,000 on the amount of transient accommodations tax revenues allocated to the counties. Your Committee on Conference believes that increasing the maximum amount of transient accommodations tax revenues allocated to the counties will allow the counties to better provide for public safety, parks, road maintenance, and visitor-related services.

However, your Committee on Conference believes that a study to determine the appropriate division of duties and responsibilities to provide public services should be conducted before permanently establishing the transient accommodations tax revenue allocations between the State and counties. In light of this belief, your Committee on Conference has amended this measure by:

- (1) Changing the amount of transient accommodations tax revenues to be allocated to the counties from an unspecified percentage to \$103,000,000 for fiscal year 2014-2015, \$103,000,000 for fiscal year 2015-2016, and \$93,000,000 for each fiscal year thereafter;
- (2) Establishing a working group to evaluate the division of duties and responsibilities between the State and counties relating to the provision of public services and recommend the appropriate amount of transient accommodations tax revenues to be allocated to the counties; and
- (3) Changing the effective date to July 1, 2014.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1671, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1671, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Espero, Ige, Galuteria and Kidani.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Espero).

Representatives Brower, Luke, Cachola and Johanson.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 146-14 on H.B. No. 1692**

The purpose and intent of this measure is to adopt the recommendations made by the Auditor in Report No. 13-09 to improve the efficiency, transparency, and accountability of the Hawaii Tourism Authority.

Specifically, this measure:

- (1) Requires the Authority's tourism marketing plan to be a single, comprehensive document;
- (2) Defines the "Hawaii brand" as the programs that collectively differentiate the Hawaii experience from other destinations;
- (3) Requires the Hawaii Tourism Authority to have a permanent, strong focus on Hawaii brand management, rather than marketing and promotion;
- (4) Authorizes the Hawaii Tourism Authority to withhold competitively sensitive information from public disclosure; and
- (5) Requires the Hawaii Tourism Authority to include its tourism marketing plan along with program and expenditure information in its annual report to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Removing the requirement that the Hawaii Tourism Authority include its tourism marketing plan in its annual report to the Legislature; and

(2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1692, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1692, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Ige, Ihara, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Brower, Luke, Cachola and Fale.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Fale).

**Conf. Com. Rep. 147-14 on H.B. No. 1638**

The conference draft of the Judiciary supplemental budget adjusts the Judiciary's appropriation for fiscal year 2014-2015 by adding \$2,568,954 in general funds. The Judiciary's request was to add \$4,785,804 in general funds.

Your Committee on Conference approves \$334,788 in general funds requested for judges' salary increases, as recommended by the Commission on Salaries and authorized by the 2013 Legislature.

Your Committee on Conference also approves \$26,906 in general funds to fund the additional salary amounts for the Administrative Director and Deputy Administrative Director of the Courts. Approval of this funding provides for salary compensation levels comparable to that of other state officials whose salaries have been systematically adjusted for pay increases and changes in the cost of living over the years.

Your Committee on Conference also approves \$281,314 in general funds to upgrade the recording equipment in fourteen courtrooms at the Ronald T.Y. Moon Judiciary Complex in Kapolei. Updating the current Jefferson Audio Visual System (JAVS) hardware and software is necessary to maintain operations throughout the complex and improve the quality of services for members of the public and Judiciary staff.

Your Committee on Conference also approves two special duty officers and \$147,600 in general funds for the Third Circuit. This position authorization will provide dedicated special duty police officers at both the Kona Family Court and Kona Circuit Court to address the ongoing sheriff staffing problems at the facilities.

Your Committee on Conference also approves \$300,000 in general funds to provide purchase of service funding for juvenile and adult client services. Purchase of service funds will aid in providing the treatment and program services necessary to reduce recidivism among juvenile and adult offenders.

Your Committee on Conference also approves \$94,900 in general funds to replace the Children's Justice Center interview recording equipment state-wide. The highest priority of the Center is to provide a familiar and neutral facility to interview child abuse victims and crime witnesses. Thus far, the Center has interviewed over twenty-five thousand child abuse victims, primarily victims of sexual abuse and sexual assault. It is imperative for the Center to have reliable equipment to record these types of interviews.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1638, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1638, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Ige and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Luke, Nishimoto and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 148-14 on H.B. No. 1700**

**PART I. OVERVIEW**

Your Committee on Conference has approved an executive supplemental budget bill that reduces the appropriation amounts requested by the Administration. The Conference Draft appropriates \$159,239,203 in all funds, inclusive of \$65,709,287 in general funds, for fiscal year 2014-2015. The Conference Draft also reduces the appropriation of all funds for fiscal year 2013-2014 by \$92,507,527, the majority of which comprises general funds. The following table displays the results of your Committee on Conference's actions.

	Fiscal Year 2013-2014		Fiscal Year 2014-2015	
	All Funds	Gen. Funds	All Funds	Gen. Funds
Executive Supplemental Request (Including Governor's Messages)	(53,414,636)	(53,417,636)	273,612,110	200,154,616
Conference Draft Appropriation Adjustment	(39,092,891)	(38,814,391)	(114,372,907)	(134,445,329)
Net Change	(92,507,527)	(92,232,027)	159,239,203	65,709,287

Your Committee on Conference emphasizes that the total general fund *reduction* to the supplemental budget request in fiscal years 2013-2014 and 2014-2015 exceeds \$173 million.

In the interest of full disclosure, however, your Committee on Conference notes that a portion of the \$134.4 million general fund reduction in fiscal year 2014-2015 is derived from programs that your Committee intends to fund through separate bills. Reductions have been made from supplemental budget requests for the Hawaii Invasive Species Council, Kupuna Care, and other senior citizens programs. Appropriations for those programs are included in joint majority package bills (S.B. No. 2343/H.B. No. 1716 and S.B. No. 2346/H.B. No. 1713).

The net change of the Conference Draft results in an executive budget for fiscal biennium 2013-2015 of the following:

	Fiscal Year 2013-2014		Fiscal Year 2014-2015	
	All Funds	Gen. Funds	All Funds	Gen. Funds
2013 Exec. Budget Act 134	11,819,318,188	6,036,556,466	11,988,000,674	6,123,494,985
Net Change of Conference Draft	(92,507,527)	(92,232,027)	159,239,203	65,709,287
Total Appropriation	11,726,810,661	5,944,324,439	12,147,239,877	6,189,204,272

**PART II. STATE'S FISCAL SITUATION**

Your Committee on Conference finds that the expectations of state departments and other parties requesting funds from the Legislature are unrealistic in light of the State's fiscal situation. Fiscal year 2012-2013 ended with a carryover balance of \$844,000,000. This was a cumulative result of four years of austere budgets, revenue changes, furloughs, and layoffs. Sacrifices were made by everyone -- families, businesses, and government. The ending balance for fiscal year 2012-2013 was already being used to fund expenses such as collective bargaining and other fixed cost increases before deliberations began on the supplemental budget in December 2013.

On March 11, 2014, the Council on Revenues reduced revenue projections for the current and next fiscal bienniums. The following table displays the differences between the Council's tax revenue and Department of Budget and Finance's non-tax revenue projections of March 11, 2014, and January 7, 2014, and the cumulative impact of the reduced revenue projections.

COUNCIL ON REVENUES' TAX REVENUES & DEPARTMENT OF BUDGET AND FINANCE'S NON-TAX REVENUES (03/11/14)							
	FY12-13	FY13-14	FY14-15	FY15-16	FY16-17	FY17-18	FY18-19
COR & B&F 03/11/14	6,233.0	6,133.5	6,360.0	6,643.6	7,009.3	7,409.3	7,784.6
COR & B&F 01/07/14	6,233.0	6,323.0	6,662.3	7,128.5	7,512.0	7,939.2	8,349.2
DIFFERENCE	0.0	(189.5)	(302.3)	(484.9)	(502.7)	(529.9)	(564.6)
<b>CUMULATIVE IMPACT (Sum of the Differences of Previous Years)</b>	NA	(189.5)	(491.8)	(976.7)	(1,479.4)	(2,009.3)	(2,573.9)

When compared against the Council on Revenues' January 7, 2014, projection, the table indicates that general fund revenues now available for state budgets are \$189,500,000 less in fiscal year 2013-2014 and \$491,800,000 less in fiscal year 2014-2015.

Despite these fiscal challenges, as stewards of the taxpayers' money, your Committee on Conference has an obligation to spend wisely on today's needs while ensuring that there are sufficient funds to address future challenges. Your Committee on Conference commits to the following:

- (1) Maintaining contributions to pay the other post-employment benefits unfunded liability according to the schedule set forth in Act 268, Session Laws of Hawaii 2013; and
- (2) Supporting budget reserves of at least \$200,000,000 by the end of fiscal year 2013-2014, growing to over \$270,000,000 by the end of fiscal year 2014-2015.

Your Committee on Conference recognizes that the current unprecedented budget surplus was the result of a collective effort. As a result, the State finds itself in a unique position to:

- (1) Continue the work done a year ago in the biennium budget to provide stability to the State's overall financial outlook;

- (2) Strengthen core programs;
- (3) Increase transparency in how taxpayer money is spent; and
- (4) Strategically plan for the long term through the supplemental budget.

Your Committee on Conference has approved this bill with general fund appropriations of much less than those requested in the Administration's initial proposal. Your Committee on Conference has done so after reviewing the different priorities of the Senate and House, the departments, and the community. Your Committee on Conference is satisfied that the programs and projects funded in this bill are all deserving of legislative support. In sum, your Committee on Conference finds that this bill represents a balance among the needs of the beneficiaries of state government, the availability of projected future revenues, and the preservation of adequate reserves.

Your Committee on Conference notes that, due to the projected reduction of the general fund tax revenue growth rates, the State's financial plan will show negative revenues over expenditures annually at least through fiscal year 2016-2017. The State will avoid violating the constitutional requirement for a balanced operating budget, however, by drawing down carefully on the \$844,000,000 ending balance.

### PART III. OPERATING BUDGET

#### Accounting and General Services

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$1,260,229 in general funds and adding \$731,357 in non-general funds. The Administration's supplemental budget request was to add \$9,974,039 in general funds and \$652,384 in non-general funds.

Your Committee on Conference approves one position and \$87,071 in general funds for school repair and maintenance on the neighbor islands. The position will be stationed in West Hawaii to manage and maintain service level agreement performance requirements. Remaining funds will provide for two existing positions for plumbing work orders and to reduce the backlog of repairs and projects at school facilities.

Your Committee on Conference also approves \$366,846 in general funds for utilities to cover projected shortfalls at the Hawaii and Maui Central Services District Offices. Recurring increases in electricity, sewer, and water rates have caused the cost of utilities to outpace custodial budgets. This appropriation provides the necessary funding to meet escalating utility costs and prevent operational deficiencies that could impact the health and safety of the public and staff.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$378,973 in special funds for salaries in Information Management and Technology Services (AGS130/EG);
- (2) Adding \$200,000 in federal funds for Statewide Voter Registration System (AGS879/OA); and
- (3) Adding one position and \$92,400 in special funds for State Archives Preservation (AGS111/DA).

#### Agriculture

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2013-2014 by reducing \$25,000 in general funds and for fiscal year 2014-2015 by adding \$346,309 in general funds and \$1,456,608 in non-general funds. The Administration's supplemental budget request was to add \$4,163,080 in general funds and \$1,219,940 in non-general funds for 2014-2015.

Your Committee on Conference approves four positions and \$96,309 in general funds to address concerns on pesticide use. Three positions will conduct pesticide inspections, maintain pesticide surveillance activities, and provide pesticide education services to help communities understand the requirements of pesticides regulations. One position will assist in the preparation of enforcement actions to ensure compliance with laws governing the use of pesticides. To further supplement the pesticide regulatory capability, your Committee on Conference approves \$400,000 in revolving funds for operating and maintenance costs in the Pesticides Branch.

Your Committee on Conference also approves \$250,000 in general funds for vacation payouts to promote "truth in budgeting." The funds may be used only to pay the accumulated vacation compensation owed to employees leaving the Department of Agriculture. This is intended to obviate the need for the department to keep positions vacant for a certain period in order to use the savings for vacation payouts.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$410,000 in interdepartmental transfer funds for positions formerly paid with Department of Transportation special funds in Animal Disease Control (AGR132/DC);
- (2) Adding \$265,000 in revolving funds for vehicles and equipment for Molokai Irrigation System in Agricultural Resource Management (AGR141/HA); and
- (3) Adding \$420,000 in revolving funds for payroll shortfall and expenditures for new land, infrastructure, and facilities in Agribusiness Development and Research (AGR161/KA).

#### Attorney General

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$940,982 in general funds and \$1,011,216 in non-general funds. The Administration's supplemental budget request was to add \$5,330,019 in general funds and \$2,126,113 in non-general funds.

Your Committee on Conference approves six positions and \$452,330 in interdepartmental transfer funds for the Tax Team for the Delinquent Tax Collection Project. The Tax Team of two deputy attorneys general and four legal assistants will enforce established and recorded tax liens and work on other tax recovery cases.

Your Committee on Conference also approves two positions, \$365,296 in special funds, and \$35,000 in general funds to regulate charitable societies and to relocate the Charities Unit of the Tax and Charities Division. The addition of one deputy attorney general and one legal assistant will provide oversight for over two thousand eight hundred registered charitable organizations. The relocation of the Unit will accommodate the Unit's growth as the number of registered charitable organizations increases.

Your Committee on Conference also approves two positions and \$216,870 in interdepartmental transfer funds to establish deputy attorney general positions that will serve the Department of Education and the Office of Information Management Technology.

Your Committee on Conference also approves one position and \$31,568 in general funds for the Internet Crimes Against Children (ICAC) Task Force. The ICAC Task Force investigates and prosecutes internet crimes that target children and increases public awareness of the dangers of online predators.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$280,000 in general funds for vacation payouts to promote "truth in budgeting" (ATG100). See the discussion of the concept under the "Agriculture" section;
- (2) Adding \$800,000 in other federal funds for anticipated federal awards in State Criminal Justice Information and Identification (ATG231/BC); and
- (3) Adding \$200,000 in general funds for the Automated Fingerprint Identification System (AFIS) upgrade and lease financing in State Criminal Justice Information and Identification (ATG231/BA).

#### Budget and Finance

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2013-2014 by reducing \$64,617,636 in general funds and adding \$3,000 in non-general funds and for fiscal year 2014-2015 by reducing \$30,807,969 in general funds and adding \$1,158,894 in non-general funds. The Administration's supplemental budget request was to reduce \$53,417,636 in general funds and add \$3,000 in non-general funds for fiscal year 2013-2014 and reduce \$25,586,719 in general funds and add \$1,246,619 in non-general funds for fiscal year 2014-2015.

Your Committee on Conference approves \$15,185,356 in general funds for fiscal year 2013-2014 and \$15,292,859 in general funds for fiscal year 2014-2015 for pension accumulation and Social Security/Medicare payments. These appropriations provide for mandatory retirement contributions for individuals employed by the State, the Department of Education, and the University of Hawaii.

Your Committee on Conference also approves \$5,476,009 in general funds for fiscal year 2014-2015 for health premium payments for active employees, as proposed in Governor's Messages submitted to the Legislature after the convening of the 2014 Regular Session.

Your Committee on Conference also approves \$64,806 in general funds for charter school collective bargaining supplemental agreements. The department did not provide this amount to charter schools because of a calculation error. Although this amount was requested under EDN600, your Committee on Conference has more appropriately placed the appropriation under BUF101.

Your Committee on Conference also approves two positions and \$81,420 in general funds for the Office of the Public Defender. The two additional positions will support the Public Defenders in specialty, District, Family, and Circuit Courts.

#### Business, Economic Development, and Tourism

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$715,665 in general funds and \$58,453,098 in non-general funds. The Administration's supplemental budget request was to add \$15,774,353 in general funds and \$64,574,288 in non-general funds.

Your Committee on Conference approves \$500,000 in special funds for new energy technologies to support clean energy goals pursuant to section 269-92, Hawaii Revised Statutes. These funds will leverage federal and private resources for use as investment capital for companies within the Energy Excelsior, through a non-profit organization.

Your Committee on Conference also approves \$50,000,000 in special funds from Green Energy Market Securitization (GEMS) bond proceeds for the purposes of the Hawaii Green Infrastructure Loan Program, in accordance with section 196-65, Hawaii Revised Statutes. This increases the amount of GEMS bond proceeds available for deployment as green infrastructure loans to a total of \$150,000,000 in fiscal year 2014-2015. Utilization of the proceeds will expand the loan program to make green infrastructure installations accessible and affordable to more of Hawaii's underserved ratepayers, achieve measurable cost savings, and further Hawaii's clean energy goals.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$250,000 in general funds for the Beijing and Taipei state offices in Strategic Marketing and Support (BED100/SM);
- (2) Adding \$100,000 in general funds for the creative lab accelerator program in Creative Industries (BED105/CI);
- (3) Adding \$475,000 in special funds for subject matter expertise for advancement of renewable energy projects in Environment and Energy Development (BED120/SI); and
- (4) Adding \$250,000 in special funds for subject matter expertise and technical services for Public Utilities Commission docket activities and stakeholder support in Environment and Energy Development (BED120/SI).

Commerce and Consumer Affairs

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$3,829,348 in non-general funds. The Administration's supplemental budget request was to add \$95,045 in general funds and \$3,644,670 in non-general funds.

Your Committee on Conference approves \$700,000 in special funds for consultants to handle new and complex issues affecting renewable energy initiatives. The consultants will offer additional analysis intended to expedite and facilitate actions critical to Hawaii's utility regulatory efforts.

Your Committee on Conference also approves six positions and \$481,124 in special funds for oversight of health plans for the Hawaii Health Connector. Three positions will assist with reviewing premium rates, and three positions will assist with reviewing the qualifications of health plans for the Hawaii Health Connector.

Your Committee on Conference also approves \$175,000 in special funds to migrate the department's e-mail system from a server-based Lotus Notes platform to a cloud-based Microsoft system. This switch is intended to standardize systems among all departments and agencies.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding two positions and \$263,796 in special funds for the Hawaii Post-Secondary Education Authorization Program (CCA107/1A);
- (2) Adding \$110,000 in trust funds to cover claims and other expenses from the mortgage loan recovery fund in the Division of Financial Institutions (CCA104/BA); and
- (3) Adding \$2,000,000 in trust funds for transfer to the Department of Labor and Industrial Relations for a capital improvement program grant awarded in 2013 to the Hawaii Public Television Foundation (CCA102/FA).

Defense

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$2,535,641 in general funds and \$2,477,549 in non-general funds. The Administration's supplemental budget request was to add \$1,884,484 in general funds and \$2,541,356 in non-general funds.

Your Committee on Conference approves \$629,295 in general funds and \$967,083 in federal funds for electricity in the Kalaheo area to cover a projected shortfall. The funds will alleviate increasing electricity costs at Hawaii Army National Guard facilities.

In anticipation of increased real estate and maintenance costs, including costs for grounds, refuse, custodial contracts, and supplies, your Committee on Conference also approves \$602,346 in general funds and \$1,807,041 in federal funds for utilities and custodial services at the three new buildings on the Hawaii Air National Guard campus.

Your Committee on Conference also approves two positions and \$227,200 in federal funds for the Homeland Security Office to coordinate security planning and preparedness activities with all agencies. The positions will oversee the monitoring of threats, evaluation of response exercises, and the administration of planning and preparedness grants.

Your Committee on Conference also approves \$104,000 in general funds for equipment at the Keaukaha Military Reservation Building. Since the building is scheduled for occupancy in May 2014, the furnishings will provide essential safety features and a nurturing environment for the attending cadets of the Youth Challenge Academy.

Your Committee on Conference also approves \$1,000,000 in general funds for mitigation of hazardous situations pursuant to section 128-10.3, Hawaii Revised Statutes. The funds are intended to eliminate or mitigate the threat that hazardous natural conditions pose to residents, such as unstable or overgrown trees.

Education

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2013-2014 by reducing \$127,576 in general funds and for fiscal year 2014-2015 by adding \$41,534,247 in general funds and \$2,004,550 in non-general funds. The Administration's supplemental budget request was to add \$42,271,421 in general funds and \$1,888,850 in non-general funds for fiscal year 2014-2015.

Regular Education

Your Committee on Conference approves \$15,000,000 in general funds for the Weighted Student Formula (WSF) in School-Based Budgeting. These funds go directly to schools to provide resources for students. Your Committee reiterates its intent that all funds appropriated for the WSF be expended at the discretion of principals and that the use of the funds shall not be directed by the central office, district, or complex.

Your Committee on Conference also approves \$9,000,000 in general funds to account for a projected shortfall in the department's utilities budget. This funding will pay for utility shortfalls that resulted from overly optimistic energy savings assumptions for fiscal year 2014-2015 under the department's proposed Energy Efficiency and Sustainability Master Plan. Pilot installations of photovoltaic systems at a number of schools were delayed due to interconnection circuit problems that prevented Hawaiian Electric from issuing net energy metering agreements.

Your Committee on Conference also approves \$3,664,694 in general funds to provide special education services to qualifying students up to age twenty-two. On August 28, 2013, the federal Ninth Circuit Court of Appeals ruled that the Individuals with Disabilities Education Act (IDEA) prohibited the State of Hawaii from restricting special education services eligibility to qualifying individuals up to age twenty. This funding will be used to provide a free appropriate public education for eligible students with special needs in compliance with the court ruling.

Your Committee on Conference also approves twenty-one temporary positions and \$1,925,472 in general funds to implement the Strive-HI performance system. Strive-HI is the foundation of Hawaii's Elementary and Secondary Education Act (ESEA) Waiver, which replaces the No Child Left Behind Act (NCLB). The funds and positions appropriated will be used to form Complex Area Support Teams (CAST) that serve schools designated as "Focus" and "Priority" under the new Strive-HI classification. Focus and Priority schools are those that struggle to meet the educational standards outlined in the State's ESEA Waiver.

Your Committee on Conference also approves \$2,000,000 in general funds for the restoration of school athletics programs. State funding for athletic programs has been significantly reduced from fiscal year 2008-2009 when \$13,337,483 was allocated for student sports. Currently, fiscal year 2014-2015 allocates \$9,193,798 for athletic programs. Reductions in athletic program funding have created additional challenges for neighbor island schools as athletes must travel to compete. Funding cuts have forced athletic teams to maintain smaller rosters, attend fewer events, and use worn equipment. It has also led to a loss of forty department-wide athletics staff positions. This appropriation will help restore funding to historically budgeted levels.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$600,000 in general funds for the Educator Evaluation System to measure teacher effectiveness (EDN200/GD);
- (2) Adding \$256,000 in general funds for statewide teacher induction and mentoring (EDN300/KO);
- (3) Adding \$579,208 in general funds for the Professional Development Management System (PDE3) annual subscription in the State Administration (EDN300/KO); and
- (4) Adding \$200,000 in general funds for Alternate Teacher Route Contracts, including Teach for America (EDN300/KD).

#### *Public Libraries*

Your Committee on Conference approves \$600,000 in general funds to support operational expenses for fiber optic connectivity at all public libraries. Through Broadband Technology Opportunities Program (BTOP) grants, the Hawaii State Public Library System has installed a high speed broadband connectivity network that provides public access computing to users statewide. This appropriation will allow the Library System to purchase necessary computer equipment to complete the BTOP initiative and will fund the necessary telecommunication expenses.

Your Committee on Conference also approves \$685,000 in general funds for increased electricity costs at all Hawaii State Public Libraries. Over the last six years, rate increases have caused a shortfall in the electricity budget that the Public Library System will no longer be able to accommodate with its current operating budget.

#### *Charter Schools*

Your Committee on Conference approves three positions, \$2,004,550 in federal funds, and \$62,000 in general funds for the Public Charter Schools' federal program support staff and federal grants. Most of the federal funds received by the State Public Charter School Commission will be transferred directly to the schools.

Your Committee on Conference also approves \$800,000 in general funds for the State Public Charter School Commission's operating and administrative costs. This additional appropriation is on top of the per pupil allocation and will allow schools to retain more resources for students during fiscal year 2014-2015. To supplement the allocation, a proviso allows the Commission to transfer, if necessary, up to \$560,000 from the per pupil allocation to pay for its operating and administrative costs.

Your Committee on Conference also approves \$134,802 in general funds for per pupil funding for charter school students, which is scaled to match allocations provided to the Department of Education for non-charter public school students. This amount was calculated using general fund amounts appropriated by the Conference Draft for EDN100, EDN200, EDN300, and EDN400 for fiscal year 2014-2015 and projected student enrollment for the Department of Education and charter schools. The Commission provided an updated projected enrollment of 10,922 students for the 2014-2015 school year, which is a decrease from the 11,350 student projection that provided the basis for the supplemental budget request. Based on these figures, the Conference Draft provides an average general fund amount for each charter school and regular education student of \$6,263. This increases the average general fund amount for each student for the 2014-2015 school year from the amount of \$6,046 that was calculated during the prior Regular Session.

#### *Early Learning*

The Conference Draft approves \$3,000,000 in general funds for a school readiness program under EDN700 (Early Learning) by establishing twenty-one pre-kindergarten classrooms on Department of Education campuses. This appropriation is intended to allow an estimated four hundred twenty children to attend pre-kindergarten classes in a statewide pilot partnership between the Department of Education and the Executive Office on Early Learning.

#### Hawaiian Home Lands

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by reducing \$146,259,466 in non-general funds. The Administration's supplemental budget request was to add \$5,387,204 in general funds and reduce \$160,976,957 in non-general funds.

Your Committee on Conference finds it prudent to wait for the outcome of pending court proceedings to determine what constitutes "sufficient sums" for the department's administrative and operating expenses. Accordingly, the Legislature has appropriated \$9,632,000 in general funds annually for the 2013-2015 fiscal biennium. As such, the findings on pages 19 and 20 in Conference Committee Report No. 105 for H.B. No. 200, H.D. 1, S.D. 1, C.D. 1, 2013 (enacted as Act 134, Session Laws of Hawaii 2013) are hereby incorporated by reference.

Your Committee on Conference notes that it has approved the reduction of \$146.2 million of the trust fund appropriation for the Department of Hawaiian Home Lands for fiscal year 2014-2015, but denied the reduction of another \$10.8 million for salaries, fringe

benefits, and other current expenses. In essence, your Committee on Conference provides in the Conference Draft a net trust fund appropriation for fiscal year 2014-2015 of \$10.8 million for 81.00 positions and their associated current expenses. Your Committee on Conference does not intend that the \$10.8 million net trust fund appropriation be construed as a ceiling that prohibits the department from expending trust funds above that amount for programs and projects to fulfill its duties. Your Committee on Conference finds that the department has the authority to expend trust funds at its discretion. Your Committee on Conference does not intend to intrude into that authority, but has maintained the appropriation of trust funds for personnel in order to display legislative intent regarding the funding of the department's personnel and other current expenses.

#### Health

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2013-2014 by reducing \$100,000 in general funds and for fiscal year 2014-2015 by adding \$2,760,296 in general funds and reducing \$2,153,227 in non-general funds. The Administration's supplemental budget request was to add \$32,549,582 in general funds and reduce \$2,439,857 in non-general funds for fiscal year 2014-2015.

Your Committee on Conference approves \$1,183,384 in general funds for the home- and community-based services waiver program administered by the department's Developmental Disabilities Division. This funding is to address a deficit caused by fiscal year 2011-2012 program review reductions and adjust for projected growth rates and increased service requirements mandated under the Makin Settlement Agreement.

Your Committee on Conference also approves \$1,232,495 in general funds for Early Intervention Section purchase of services contracts. The state Early Intervention Section (EIS) is a federal and state mandated program that provides services to support the development of infants and toddlers from birth to three years of age. As a result of prior year reductions-in-force, the EIS program increased purchase of service (POS) contract expenditures to maintain services impacted by the loss of staff. This has caused recurring deficits in the program's POS funding since fiscal year 2011-2012. The Conference Draft addresses a projected shortfall in fiscal year 2014-2015 and prevents an unlawful diminution of services that may result from insufficient funding.

Your Committee on Conference also approves \$750,000 in general funds for statewide health information exchange infrastructure advancement. This funding will be used to support health information technology priorities, including the department's Hawaii health emergency syndromic surveillance system and the Hawaii health information exchange fiscal year 2014-2015 operations.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$354,504 in general funds for the State's share of intermediate care facilities in Developmental Disabilities State Match for Title XIX Programs (HTH501/CN); and
- (2) Adding \$797,000 in other federal funds for upgrades to the Hawaii criminal background check system in Health Care Assurance (HTH720/MP).

To support community-based programs designed to provide services for all elder persons in the State, your Committee on Conference supports appropriations through joint majority package bills, S.B. No. 2346/H.B. No. 1713, that include additional funds for kupuna care and other programs.

#### *Hawaii Health Systems Corporation*

Your Committee on Conference approves \$5,000,000 in general funds for fiscal year 2014-2015 for the Hawaii Health Systems Corporation (HHSC). The appropriation is intended to mitigate HHSC's operating budget shortfall caused by federal sequestration and reimbursement reductions, collective bargaining costs, and other factors. Your Committee on Conference notes that it intends to provide HHSC with an additional \$15,000,000 in general funds through S.B. No. 2866, as an emergency appropriation for fiscal year 2013-2014.

Your Committee on Conference also approves \$2,000,000 in general funds to continue the HHSC residency program in fiscal year 2014-2015. Administered by Hilo Medical Center, the primary care training program will help increase the number of physicians available within the State. This funding is intended to address the significant shortage of primary care providers at Hawaii hospitals.

#### Human Services

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2013-2014 by reducing \$6,386,815 in general funds and for fiscal year 2014-2015 by adding \$16,012,818 in general funds and \$76,682,907 in non-general funds. The Administration's supplemental budget request was to add \$42,205,825 in general funds and \$81,339,887 in non-general funds for fiscal year 2014-2015.

Your Committee on Conference approves \$1,500,000 in general funds to continue the homeless program's Housing First initiative in fiscal year 2014-2015. These funds will be used in conjunction with the Substance Abuse Mental Health Services Administration grant to allow a greater percentage of program resources to go to direct housing costs. This will provide funding for the third year of the Housing First initiative and is expected to afford transitional housing support and stability services to chronic homeless individuals throughout the State.

Your Committee on Conference also approves \$5,546,076 in general funds and \$2,956,860 in federal funds to adjust monthly foster board rates to the three-tier aged-based system and funding levels cited in the United States Department of Agriculture's report, *Expenditure on Children by Families*. The report finds that the monthly cost of raising a child in the urban Western region averages \$576 for children aged 0-5; \$650 for children aged 6-11; and \$676 for youth aged 12-21. Hawaii's monthly foster care board rate is currently \$529.

Your Committee on Conference also approves \$500,000 in general funds for the Resources for Enrichment, Athletics, Culture, and Health Initiative (REACH). This funding will continue the REACH pilot project to provide a framework for intermediate school after-school programs that do not receive federal funding through the Uniting Peer Learning, Integrating New Knowledge program.

Your Committee on Conference also approves the transfer of four positions and \$9,191,840 in general funds from the Department of Health's Adult Mental Health Division to the Department of Human Services' MedQuest Division, to consolidate payments and services for adults with severe and persistent mental illness (SMI) who are Medicaid eligible. The consolidation of the payments and provision of these services under MedQuest draws an additional \$2,015,055 in federal matching funds. This will provide more resources to broaden and improve Medicaid-eligible SMI services. Further, administration under a single agency facilitates service continuity and simplifies access to service providers and case management for eligible beneficiaries.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$273,752 in general funds for utility rate increases at Kalaeloa shelters in Homeless Programs (HMS224/HS);
- (2) Adding \$147,147 in general funds for the adult protective services best practices model in Adult and Community Care Services (HMS601/TA);
- (3) Adding \$260,000 in general funds and \$260,000 in federal funds for an Asset Verification System for aged, blind, and disabled services in General Support for Health Care Payments (HMS902/IA);
- (4) Adding \$500,000 in general funds for social security advocacy services in General Support for Self-Sufficiency Services (HMS903/FA); and
- (5) Adding \$300,000 in federal funds for outreach services to families and individuals who may qualify for benefits under the Supplemental Nutrition Assistance Program in General Support for Self-Sufficiency Services (HMS903/FA).

#### Labor and Industrial Relations

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$1,947,838 in general funds and reducing \$33,504,565 in non-general funds. The Administration's supplemental budget request was to add \$896,963 in general funds and reduce \$33,522,368 in non-general funds.

Your Committee on Conference approves two positions, \$22,065 in general funds, and \$31,341 in federal funds for the Hawaii Occupational Safety and Health program (HIOSH) to mitigate persistent staffing challenges associated with maintaining staff levels and inspection quotas of federally required benchmarks. Minimal staffing and elevated attrition rates create a constant risk for HIOSH to fall below benchmarks in the event of a vacancy. These two positions will provide the staffing and operational capacity required for HIOSH to remain in compliance with federal requirements and regain the desirable 18(e) status of the Occupational Safety and Health Act of 1970, to retain the program under state purview.

Your Committee on Conference also approves \$200,000 in general funds for vacation payouts to promote "truth-in-budgeting." See the discussion of this concept under the "Agriculture" section.

#### Land and Natural Resources

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$2,761,983 in general funds and \$15,335,697 in non-general funds. The Administration's supplemental budget request was to add \$13,688,226 in general funds and \$12,337,261 in non-general funds.

Your Committee on Conference approves \$4,000,000 in general funds and special funds for the State's 2016 bid to host the International Union for Conservation of Nature Congress (IUCN). This is an international convention regarding sustainable resource management, climate change, and nature conservation. If awarded the bid, Honolulu will be the first city in the United States to host the IUCN.

Your Committee on Conference also approves twelve temporary positions and \$800,000 in general funds for the Community Fisheries Program. The funds will support the Maui program and expand the program to Hawaii, Kauai, and Oahu. The program has shown results in reducing ocean-related violations on Maui as well as expanding community educational outreach.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$1,300,000 in special funds for information management system redesign and upgrade in Public Land Management (LNR101);
- (2) Adding \$500,000 in special funds for Kauai fire mitigation and reforestation in Forestry Resources Management and Development (LNR172/DA);
- (3) Adding \$577,000 in general funds for personal services, current operating expenses, and equipment in Conservation and Resource Enforcement (LNR405);
- (4) Adding \$1,000,000 in the special funds for Natural Resource Management Protection (LNR407/NA); and
- (5) Adding \$700,000 in special funds for park projects in Parks Administration (LNR806/FI).

The Conference Draft does not include \$1,000,000 in general funds for the Hawaii Invasive Species Council. Your Committee on Conference prefers to appropriate additional funds for the Council through a separate joint majority package bill, S.B. No. 2343/H.B. No. 1716.

#### Public Safety

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2013-2014 by reducing \$20,500,000 in general funds and for fiscal year 2014-2015 by reducing \$195,590 in general funds and adding \$127,116 in

non-general funds. The Administration's supplemental budget request for fiscal year 2014-2015 was to add \$4,099,594 in general funds and \$527,116 in non-general funds.

Your Committee on Conference approves twenty positions and \$786,718 in general funds for mental health care in correctional centers. The State was previously subject to a federal Department of Justice settlement dictating the necessary level of mental health care to be provided at Oahu Community Correctional Center. These positions will bring the remainder of the State's correctional facilities up to national standards for mental health treatment and reduce the State's liability in providing a minimum level of care.

Your Committee on Conference also approves sixteen positions and \$415,888 in general funds for suicide and hospital watch at two correctional facilities on Oahu. These positions will provide dedicated adult corrections officers to reduce suicides and provide proper security for inmate hospital visits. Dedicated hospital and suicide watch officers will significantly reduce overtime expenses incurred by the department.

Your Committee on Conference also approves \$2,000,000 in general funds for the Justice Reinvestment Initiative and other program costs in General Administration.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$270,000 in general funds for security camera surveillance systems at Oahu, Kauai, and Halawa Community Correctional Centers;
- (2) Adding \$125,000 in general funds for central building emergency exit doors in Maui Community Correctional Center (PSD406/EH);
- (3) Adding \$148,500 in general funds for replacement body armor in Sheriff's Division (PSD503/CC); and
- (4) Adding \$200,000 in special funds for the Statewide Automated Victims Information and Notification System in General Administration (PSD900/EA).

#### Taxation

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2013-2014 by reducing \$475,000 in general funds and for fiscal year 2014-2015 by adding \$787,826 in general funds. The Administration's supplemental budget request was to add \$1,107,028 in general funds for fiscal year 2014-2015.

Your Committee on Conference approves \$223,656 in general funds for fourteen positions in various tax compliance offices across the State. Half a year of funding for these positions is currently appropriated. This amount will provide for a full year of salary funding for the positions.

Your Committee on Conference also approves \$440,000 in general funds to pay for the costs incurred by the Attorney General's Collection Section on behalf of the department. Under the Memorandum of Understanding with the Attorney General dated May 23, 2013, the department is obligated to pay for the additional costs in order to pursue collection litigation.

Your Committee on Conference also approves \$36,546 in general funds for two Delinquent Tax Collection Assistants, one for the Hawaii District Office and the other for the Kauai District Office. These positions will improve the ability of the offices to handle workloads and increase revenue collection goals.

#### Transportation

The Conference Draft of the executive supplemental budget adjusts the department's appropriation for fiscal year 2014-2015 by adding \$28,424,984 in non-general funds. The Administration's supplemental budget request was to add \$27,660,892 in non-general funds.

#### *Airports*

Your Committee on Conference approves \$6,000,000 in special funds for routine maintenance of the baggage handling and explosives detection system at the Honolulu International Airport and Kahului Airport. The system is required by the Transportation Security Administration (TSA). Improvements will include distribution of electrical power to the lobbies and existing outbound baggage conveyor system and additional system controls to allow TSA to automatically operate and monitor the bags from the on-screen resolution room.

Your Committee on Conference also approves \$4,000,000 in special funds for pavement-marking rehabilitation at eight airports. Maintaining the pavement markings is a requirement of the Federal Aviation Administration. The funds will provide human resources and equipment to address areas of failure.

Your Committee on Conference also approves \$7,359,000 in special funds to purchase additional Wiki Wiki buses to accommodate international passengers waiting to be transported to the United States Customs and Border Protection at Honolulu International Airport.

#### *Harbors*

Your Committee on Conference approves \$1,500,000 in special funds for Honolulu Harbor and Kalaeloa Harbor to expand the storm drain cleaning and pollution control program on Oahu and another \$1,300,000 in special funds for other expenses that may be incurred under the federal Clean Water Act.

Your Committee on Conference also approves six positions and \$958,028 in special funds in Harbors Administration to assist with existing clean water regulations. One position in the environmental section will coordinate the Storm Water Management program and ensure compliance with small municipal separate storm water permitting. Two positions in property management will manage statewide commercial harbors systems transactions and inventories. Three positions in the short-range planning unit will assist with

Geographic Information System (GIS) development, environmental review compliance of capital improvement program projects, and review of legislation. In addition to providing funding for the aforementioned positions, funding is provided for a geographic information system for the harbors division.

#### *Highways*

Your Committee on Conference approves \$1,000,000 in special funds to repair all restroom facilities in Aliiimoku Hale. Restrooms at the facility are over fifty years old, and remediation of unsanitary conditions is necessary to ensure the health and safety of occupants.

Your Committee on Conference also approves \$3,300,000 in special funds to implement the Highways Division FAST Accounting System. Through a contract with Ciber, the completion of the new system will address significant limitations in the present accounting system.

Your Committee on Conference also approves \$3,000,000 in special funds to establish a national pollutant discharge elimination system and municipal separate storm water system permit for Maui District. Identified as an urbanized area since May 2013, Kahului, Maui, is under the purview of the Clean Water Act, which mandates a storm water management plan to minimize pollutant discharge.

#### University of Hawaii

The Conference Draft of the executive supplemental budget adjusts the University's appropriation for fiscal year 2014-2015 by adding \$24,855,000 in general funds and \$83,270,000 in non-general funds. The Administration's supplemental budget request was to add \$37,526,775 in general funds and \$70,143,000 in non-general funds.

Your Committee on Conference approves \$14,000,000 in special funds and \$19,500,000 in general funds associated with collective bargaining costs of the University of Hawaii Professional Assembly. Additional general fund support will significantly relieve the University's reliance on tuition dollars and will help to ward off future tuition increases for university students.

Your Committee on Conference approves eighty-nine positions and \$4,000,000 in general funds for the University of Hawaii-West Oahu campus to support continued enrollment growth. The campus provides access to the underserved populations in the Leeward, North Shore, and Central Oahu areas and Native Hawaiian communities. The campus has not received the general fund support it needs to operate effectively. The positions and funds are critical for the University to ensure that its students, faculty, and staff have the necessary academic, student services, and facilities support for a quality four-year baccalaureate education.

Your Committee on Conference also approves \$1,000,000 in general funds for outcome-based funding for the Community Colleges. The funding is intended to be distributed to community college campuses that meet certain metrics and incentivize the campuses to improve.

The Conference Draft also makes other significant adjustments, including the following:

- (1) Adding \$45,970,000 in special funds and \$9,200,000 in revolving funds for various programs in University of Hawaii, Manoa (UOH100/AA);
- (2) Adding \$9,350,000 in special funds for various programs in University of Hawaii, John A. Burns School of Medicine (UOH110/PP);
- (3) Adding \$2,000,000 in special funds for various programs in University of Hawaii, Hilo (UOH210/MM); and
- (4) Adding fifty positions funded by general funds for the University of Hawaii, Community Colleges (UOH800).

#### **PART IV. CAPITAL IMPROVEMENTS PROGRAM BUDGET**

Your Committee on Conference finds that the State's economic situation is not what was anticipated and revenues have not increased as projected. In the first year of the 2013-2015 fiscal biennium, the focus was on infusing funds into the economy to create jobs and rebuild our aging infrastructure. However the importance of supporting capital improvement projects that will help diversify our economy has never been greater, along with the need for streamlining government operations and allocating financial resources in a manner more reflective of the current economic landscape.

Due to the current drop in projected revenues, as well as previous strategic investments in capital improvement program projects, your Committee on Conference took a more studied approach to the capital improvement program appropriations. Accordingly, your Committee on Conference, after carefully considering the current economy along with the proposals, needs, and priorities of the Administration and the departments, has provided a total of \$955,256,000 for fiscal year 2013-2014 and \$1,372,592,000 for fiscal year 2014-2015 for projects funded by general obligation bonds and \$5,094,070,000 in fiscal biennium 2013-2015 for projects funded by all means of financing. It should be noted that the appropriations for fiscal year 2014-2015 include a lapse and reauthorization of \$399,000,000 of general obligation bonds to recapitalize the state educational facilities improvement fund, as requested by the Administration.

While developing the capital improvement program budget, your Committee on Conference recognized the need to address the repair and maintenance and health and safety project backlogs that continue to plague the State's agencies and departments. Your Committee on Conference believes that this capital improvement program budget addresses the most basic necessities of many state facilities while remaining cautiously optimistic about the future growth and technological advancement of state operations.

Highlights of the capital improvement program budget for the biennium includes \$698,241,000 in total biennium appropriations for the Department of Education to address school improvements, upgrades, and renovations. Over \$110,000,000 was appropriated to the Hawaii Health Systems Corporation for critical repairs and upgrades for the state hospital system, as well as \$11,500,000 to protect our vital watershed areas.

Your Committee on Conference has approved \$389,994,000 to help the University of Hawaii address the needs of campus facilities and programs statewide. Of those funds, \$157,000,000 has been designated for capital renewal and deferred maintenance and health and safety projects for facilities statewide. Furthermore, your Committee on Conference sought to invest in university programs by appropriating \$33,000,000 for the Daniel K. Inouye College of Pharmacy facility at the University of Hawaii-Hilo, as well as \$28,800,000 for University of Hawaii-West Oahu's Allied Health and Administration Building.

Your Committee on Conference has also taken the first step toward creating a consolidated state department facility to be coordinated by the Department of Accounting and General Services. This facility will increase departmental efficiency and collaboration and will decrease general fund expenditures for private lease expenses. To achieve this end, \$15,000,000 was appropriated for the planning and design of the Liliha Civic Center.

Your Committee on Conference believes that the capital improvement projects within this budget will help the State to maintain the long-term viability of its current facilities, while also laying the foundation for the State to improve its operating efficiency through technological and physical infrastructure development and modernization.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1700, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1700, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Chun Oakland, Dela Cruz, English, Espero, Kahele, Keith-Agaran, Kidani, Kouchi, Ruderman, Thielen and Tokuda.

Managers on the part of the Senate.

Ayes, 12. Noes, none. Excused, none.

Representatives Luke, Cullen, Hashem, Ing, Jordan, Kobayashi, Lowen, Morikawa, Nishimoto, Onishi, Takayama, Tokioka, Woodson, Yamashita, Fukumoto, Johanson and Ward.

Managers on the part of the House.

Ayes, 17. Noes, none. Excused, none.

#### **Conf. Com. Rep. 149-14 on H.B. No. 748**

The purpose of this measure is to propose an amendment to Article VII, section 12, of the Constitution of the State of Hawaii to authorize the State to issue special purpose revenue bonds and use the bond proceeds to assist agricultural enterprises on any type of land instead of only on important agricultural lands.

Your Committee on Conference has amended this measure by changing its effective date to make it effective upon compliance with Article XVII, section 3, of the Constitution of the State of Hawaii.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 748, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 748, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Hee, Kouchi, Dela Cruz and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Hee).

Representatives Wooley, Rhoads, Onishi and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### **Conf. Com. Rep. 150-14 on H.B. No. 1745**

The purpose of this measure is to, among other things:

- (1) Authorize the State Public Charter School Commission (Commission) to assess fees on non-state entities and individuals to help cover its operating costs;
- (2) Require that a charter applicant comply with pre-opening criteria set by the charter school authorizer before becoming an entity of the State, by entering into and executing a charter contract to open a school;
- (3) Clarify that during the start-up period, a pre-opening charter school that is a conversion charter school is a separate entity of the State than the department school from which it is converting;
- (4) Clarify that pre-opening charter schools, unless otherwise exempted by the charter school authorizer:
  - (A) Shall not be entitled to receive funding under section 302D-26, 302D-28, 302D-29, or 302D-29.5, Hawaii Revised Statutes (HRS);
  - (B) Shall not employ employees other than independent contractors; and
  - (C) Shall not be subject to the performance framework requirements of section 302D-16, HRS;
- (5) Clarify that a charter school, along with its respective governing board, that has a current charter contract from its authorizer may operate as a charter school and receive public funds;

- (6) Clarify that the charter contract of a pre-opening charter school is void if the charter school fails to meet pre-opening criteria within the start-up period;
- (7) Specify that legislatively appropriated funding for the Commission is independent of funding for charter schools;
- (8) Allow charter school authorizers to negotiate and execute charter contracts with approved charter applicants and existing charter schools;
- (9) Amend annual reporting requirements for charter school authorizers and the Board of Education;
- (10) Require members of a charter school authorizer, including members of the Commission, to disclose a list of all charter schools in which the member has previously been an employee, governing board member, vendor, contractor, agent, or representative;
- (11) Amend requirements for service on a governing board, for the conduct of meetings by a governing board, and for notice of meetings by a governing board;
- (12) Repeal the authorization for the formation of a conversion charter school by an existing Hawaiian language immersion program;
- (13) Provide for the reconstitution of governing boards of charter schools under exigent circumstances;
- (14) Allow charter school authorizers to direct a governing board and charter school to take appropriate action to immediately address serious health and safety issues that may exist at a charter school; and
- (15) Make other housekeeping and conforming amendments.

Your Committee on Conference finds that in 2012, the Legislature passed Act 130, Session Laws of Hawaii 2012 (Act 130), which established a new charter school law that created a comprehensive governance structure for Hawaii's charter school system with clear lines of authority and accountability to foster improved student outcomes. As a result of Act 130, Hawaii's charter school system leapt to fourteenth place in the National Alliance for Public Charter Schools' rankings. This measure builds on the progress made by Act 130, while addressing outstanding issues and making other amendments for clarity.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the requirement for separate legislative appropriations for the Commission shall begin with the 2015-2016 fiscal year;
- (2) Adding language to require the Commission to submit a report to the Chairs of the Senate Committee on Ways and Means, Senate Committee on Education, House Committee on Finance, and House Committee on Education, on the Commission's staffing and operational expenditures by the twentieth day after the Commission submits its 2015-2016 budget request to the Governor or December 1, 2014, whichever is earlier;
- (3) Inserting an effective date of July 1, 2014; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1745, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1745, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige and Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Ing and Fale.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 151-14 on H.B. No. 1796**

The purpose of this measure is to promote the safety and well-being of students, staff, and others by prohibiting the use of seclusion, chemical restraint, and mechanical restraint and limiting the use of physical restraint in public schools.

Your Committee on Conference has amended the bill by, among other things:

- (1) Removing the prohibition against the imposition of physical restraint that is contraindicated based on the student's disability, health care needs, or medical or psychiatric condition, as documented in a health care directive or medical management plan, a behavior intervention plan, an individual education program, or an individualized family service plan (as defined in Section 602 of the Individuals with Disabilities Education Act, (20 U.S.C. 1401)), or plan developed pursuant to Section 504 of the Rehabilitation Act of 1973;
- (2) Amending the frequency and content of the written information that parents and legal guardians of students receive regarding the use of restraint in public schools;
- (3) Requiring the Department of Education to make information relating to policies and procedures available on its website;
- (4) Requiring the Department of Education to post changes on its website immediately, if policy or procedural changes related to restraint are made during the school year;

- (5) Requiring an annual, rather than quarterly, review of data on students at each public school who were restrained;
- (6) Establishing definitions for “behavior intervention plan”, “emergency situation”, and “positive behavioral supports and interventions”;
- (7) Amending the frequency and content the Department of Education’s reports to the Legislature;
- (8) Requiring the Department of Education to update the Senate Committee on Education and House of Representatives Committee on Education no later than 20 days prior to the convening of the Regular Session of 2017 on the Department of Education’s policy and procedures on the use of restraint in public schools;
- (9) Appropriating \$250,000 to provide resources for training and data accountability;
- (10) Changing its effective date to upon its approval; provided that:
  - (A) Sections 2 and 3 of the bill take effect on August 1, 2016; and
  - (B) Section 6 of the bill takes effect on July 1, 2014; and
- (11) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1796, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1796, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Hee, Kidani, Ruderman and Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Representatives Takumi, Rhoads, Luke and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 152-14 on H.B. No. 2257**

The purpose of this measure is to provide the Board of Education with greater flexibility to establish the salary of the Superintendent of Education to attract and retain exemplary individuals to support a strong statewide public education system by:

- (1) Adjusting the salary cap on the Superintendent’s position; and
- (2) Subjecting the Superintendent to an annual performance evaluation based on outcomes determined by the Board of Education.

Your Committee on Conference has amended the bill by:

- (1) Setting the salary cap on the Superintendent’s position at \$250,000;
- (2) Providing that the Superintendent is subject to an annual performance evaluation in alignment with other employee evaluations within the Department of Education and based on outcomes determined by the Board of Education, but not prohibiting the Board of Education from conditioning a portion of the salary on performance;
- (3) Changing its effective date to upon its approval;
- (4) Establishing a sunset date of June 30, 2024;
- (5) Providing that any contracts entered into prior to June 30, 2024, will remain in effect for the duration of the contract; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2257, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2257, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige and Kidani.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Nakashima, Nishimoto and Fale.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

## STANDING COMMITTEE REPORTS

**SCRep. 2001 Agriculture on S.B. No. 2078**

The purpose and intent of this measure is to clarify that condominium property regimes located on agricultural lands shall not place any restrictions on agricultural uses or activities permitted on those lands pursuant to chapter 205, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau Federation, Hawaii Real Estate Commission, Hawaii Association of REALTORS, and one individual. Your Committee received testimony in opposition to this measure from Babes Against Biotech.

Your Committee finds that the Department of Agriculture is receiving complaints from occupants of condominium property regimes whose agricultural activities are being restricted by private agreements contained in the condominium declaration, maps, bylaws, or other documents. For example, some regimes are restricting the types of crops planted by its occupants, or the days and times when farming equipment may be used by its occupants. Your Committee concludes that this measure is necessary to clarify that all agricultural activities and uses permitted by law shall be permitted on agricultural lands occupied by a condominium property regime. Your Committee notes that there was some confusion at the hearing as to why condominium projects would be built on agricultural lands. Your Committee would like to clarify that condominium property regimes on agricultural lands are generally not high-rise structures typically found in urban areas. Instead, condominiums property regimes on agricultural lands usually consist of single family homes placed on separate lots. This type of arrangement is used when a large parcel of agricultural land cannot be subdivided and sold in smaller parcels due to state and county zoning laws.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2078, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2078, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Thielen).

**SCRep. 2002 Education on S.B. No. 2134**

The purpose and intent of this measure is to amend various sections of chapter 302A, Hawaii Revised Statutes, to comply with the requirements of the federal Individuals with Disabilities Education Act.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Disability Rights Center, Community Children's Council of Hawaii, and Special Education Advisory Council.

Your Committee finds that the United States Court of Appeals for the Ninth Circuit recently held in *E.R.K. v. State of Hawaii Department of Education*, 728 F.3d 982 (2013), that section 302A 1134(c), Hawaii Revised Statutes, which limits public school attendance to children who are twenty years of age or younger, violated the federal Individuals with Disabilities Education Act by denying public education to special-needs students aged twenty to twenty-one. This measure is necessary to bring Hawaii's law into compliance with the requirements of the federal Individuals with Disabilities Education Act.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2134 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2003 Education on S.B. No. 2425**

The purpose and intent of this measure is to:

- (1) Rename the Hawaii 3R's school repair and maintenance fund as the Hawaii 3R's school improvement fund; and
- (2) Require the transfer of monies collected pursuant to section 235-102.5(b), Hawaii Revised Statutes, and any other monies received in the form of grants and donations for school-level improvement and minor repairs and maintenance to the Hawaii 3R's school improvement fund.

Your Committee received testimony in support of this measure from the Department of Education, Hawaiian Electric Company, Hawaii 3R's, and one individual.

Your Committee finds that for more than a decade, Hawaii 3R's provided a valuable service of bringing much needed improvements to the public schools. Section 235-102.5(b), Hawaii Revised Statutes, enables taxpayers to elect to make donations toward the school-level minor repairs and maintenance special fund by checking off a box on their individual income tax return. When passed, the section was intended to facilitate funding for the repair and maintenance of Hawaii's public schools. This measure ensures that the monies received through the taxpayer-elected donations are transferred to Hawaii 3R's for the continued improvement of Hawaii's schools.

This measure also recognizes Hawaii 3R's changing role in building a greater sense of community around the schools it assists and allows monies to be applied to projects that facilitate a broader array of educational purposes.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2425 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2004 Human Services on S.B. No. 2337**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the low-income housing tax credit loan program in order to support low-income housing development.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of Housing and Community Development, County of Hawaii; Hawaii Association of REALTORS; Blueprint for Change; Hawaii Primary Care Association; Community Alliance for Mental Health; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is a critical need for low-income housing in the State and that the construction industry is in need of alternative financing mechanisms that would enable it to sustain and complete low-income housing projects. This measure supports the development of low-income housing by supporting the low-income housing tax credit loan program, which provides owners of certain low-income buildings a no-interest loan for a percentage of the cash value of the state low-income housing tax credit in lieu of claiming the credit.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2005 Human Services on S.B. No. 2534**

The purpose and intent of this measure is to assist homeless families and individuals in the State by establishing the Hale Kokua program within the Department of Human Services.

Your Committee received testimony in support of this measure from the Community Alliance for Mental Health, Blueprint for Change, Hawaii Primary Care Association, and one individual. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that homelessness continues to be one of the primary challenges in the State. The Hale Kokua program, which provided incentives and assistance to property owners who set aside existing dwelling units to rent to families or individuals classified as employed but homeless, was originally established in 1992 but was repealed in 2010. This measure reestablishes the Hale Kokua program to encourage property owners to make dwelling units available for homeless individuals and families who are employed.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2534, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2534, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2006 Human Services on S.B. No. 2541**

The purpose and intent of this measure is to provide funding to the Hawaii Public Housing Authority for the redevelopment of its administrative offices on School Street and for the design and construction of an elderly-only housing complex at the same location.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Community Alliance for Mental Health.

According to the Hawaii Public Housing Authority, all of its elderly housing properties include non-elderly tenants with disabilities, and converting existing public housing properties to elderly-only housing involves an administratively burdensome process due to United States Department of Housing and Urban Development requirements. Your Committee finds that funding the construction of new elderly-only housing units will help the Authority meet the increasing need for elderly housing in the State and enable elderly people to age in place with fellow elderly people. Your Committee also finds that funding redevelopment of the Authority's administrative offices at the same location as the new elderly-only housing complex will enhance the Authority's capacity to meet the needs of the State's elderly population that will be residing at the new elderly-only complex.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2541 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2007 Human Services on S.B. No. 2544**

The purpose and intent of this measure is to allow only original household members to retain a federal housing voucher under the Hawaii Public Housing Authority's housing choice voucher program.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Institute for Human Services, Blueprint for Change, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Community Alliance for Mental Health.

Your Committee finds that the housing choice voucher program currently allows individuals who receive a housing voucher to keep the voucher or pass it along to family members or friends even when the original household members no longer live in the household. This measure prevents family members and friends from inheriting housing vouchers and thereby circumventing the waitlist for a housing voucher by requiring original household members to return their voucher when all original members no longer live in the household. The measure allows minors who survive the original household member and were added to the household to retain the voucher until the last minor reaches the age of twenty-one.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2544, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2544, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2008 Human Services on S.B. No. 2266**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the rental housing trust fund and the dwelling unit revolving fund in order to support affordable rental housing development and infrastructure development.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Housing Finance and Development Corporation, The Chamber of Commerce of Hawaii, Catholic Charities Hawaii, Community Alliance for Mental Health, Partners in Care, PHOCUSED, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Association of REALTORS, Hawaii Primary Care Association, Blueprint for Change, Land Use Research Foundation of Hawaii, Living Life Source Foundation, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

According to the 2011 Hawaii Housing Planning Survey, there is a need for more than 13,000 rental units by 2016 for households at or below eighty percent of the area median income. Testimony on this measure indicates that almost seventy-five percent of extremely low income households pay more than half of their income for rent. Your Committee finds that there is a serious need to develop affordable rental housing in Hawaii to meet the needs of individuals and families who are homeless or at risk of becoming homeless. Your Committee also finds that investing in housing development has a substantial economic impact, and that the allocation of \$100,000,000 to the rental housing trust fund would lead to the creation of approximately 1,000 jobs in Hawaii. In addition, funding the dwelling unit revolving fund allows for infrastructure improvements that are needed to develop new affordable housing statewide.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2266 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2009 Human Services on S.B. No. 2286**

The purpose and intent of this measure is to prohibit persons or agencies that provide services to homeless individuals from knowingly requesting or requiring, or aiding and abetting another person in requesting or requiring, the individuals to purchase goods or food stamps on their electronic benefits transfer card or through other public assistance programs in exchange for the services.

Your Committee received testimony in support of this measure from the Community Alliance for Mental Health, Blueprint for Change, and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that it would be beneficial to prohibit homeless service providers from requesting or requiring their clients to pay for benefits using their electronic benefits transfer card or through other means of public assistance in exchange for receiving services. However, your Committee notes that the prevalence of these practices in Hawaii is unclear and may require further review.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2286, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2286, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kidani).

**SCRep. 2010 Human Services on S.B. No. 2545**

The purpose and intent of this measure is to enable families to establish a savings account for their children who were born in Hawaii or reside in Hawaii.

Your Committee received testimony in support of this measure from Blueprint for Change, Hawaii JumpStart Coalition for Personal Financial Literacy, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that it is important to help families start saving at birth for their children's futures. Thirty-four percent of Hawaii's middle class families are asset poor. Children's savings accounts are a recognized tool for assisting families with building meaningful savings for their children while learning about money and finance. Your Committee recognizes that HI529, Hawaii's college savings program administered by the Department of Budget and Finance, already exists to assist families with saving for higher education and that it would not be beneficial for children's savings accounts to compete with the existing program.

Accordingly, your Committee has amended this measure by:

- (1) Amending the authorized uses for monies in the savings accounts to no longer include paying for higher education; and
- (2) Making amendments to section 1 to reflect the amended purpose of the measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2545, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2545, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2011 Agriculture on S.B. No. 109**

The purpose and intent of this measure is to amend the law relating to agriculture.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to appropriate funds to support the development and implementation of additional tools and education and outreach to stop the spread and establishment of little fire ants as follows:

- (1) \$1,000,000 to the Department of Agriculture to establish and implement tools to control and eradicate little fire ants in Hawaii;
- (2) \$800,000 to the Pacific Cooperative Studies Unit of the University of Hawaii for the establishment of an island-based canine detection team on each county to assist in the detection of little fire ants and other high priority invasive species as determined by each county; and
- (3) \$350,000 to the Pacific Cooperative Studies Unit of the University of Hawaii for public outreach and education efforts related to the control and eradication of little fire ants in Hawaii.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 109, as amended herein, and recommends that it be recommitted to the Committee on Agriculture, in the form attached hereto as S.B. No. 109, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, English, Slom).

**SCRep. 2012 Agriculture on S.B. No. 2291**

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to fund agricultural research conducted by the Hawaii Farm Bureau Federation to demonstrate to the United States Food and Drug Administration that Hawaii's farmers can comply with the food safety requirements of the Food Safety Modernization Act using alternative, less burdensome methods.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Farm Bureau Federation; Hawaii Cattlemen's Council, Inc.; Alexander & Baldwin, Inc.; and Hawaii Aquaculture and Aquaponics Association. Your Committee received comments on this measure from two individuals.

Your Committee finds that the United States Food and Drug Administration will soon formalize stricter food safety regulations for agriculture under the Food Safety Modernization Act. The anticipated regulations are expected to cost Hawaii farmers a substantial amount of money and threaten the State's efforts to increase agricultural sustainability. The Food Safety Modernization Act, however, will allow the use of alternative farming methods if these methods are scientifically shown to be as safe as the Food and Drug Administration's prescribed procedures. Therefore, research must be conducted to demonstrate that the less expensive and traditional farming procedures used by Hawaii farmers are safe and acceptable to the Food and Drug Administration. Unfortunately, small farms in Hawaii do not have the financial means to conduct research themselves or to comply with the Food Safety Modernization Act. Your Committee concludes that establishing alternative food safety procedures that are appropriate for small farms in Hawaii given the climatic, biological, and economic conditions unique to Hawaii is necessary to sustain local agriculture while ensuring that Hawaii farmers are in compliance with federal laws.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, English, Slom).

**SCRep. 2013     Agriculture on S.B. No. 2293**

The purpose and intent of this measure is to fund the livestock revitalization program for an additional year.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Farm Bureau Federation; Hawaii Cattlemen's Council, Inc.; Hawaii Farmers Union United; and six individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the livestock industry's greatest challenge is the rising cost of feed for livestock production. Many Hawaii producers have gone out of business primarily due to the rising cost of feed, resulting in increased food costs for Hawaii residents, and many remaining livestock producers are threatened with closure due to the rising cost of feed. The livestock revitalization program reimburses qualified livestock producers for a percentage of their feed costs. Your Committee concludes that subsidizing feed costs is necessary to encourage local food production, decrease food costs, and increase the State's food sustainability.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2293 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen, Wakai). Noes, none. Excused, 3 (Dela Cruz, English, Slom).

**SCRep. 2014     Agriculture on S.B. No. 2679**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the planning and designing of phase II renovations to the Kamuela Vacuum Cooling Plant.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau Federation, and two individuals.

Your Committee finds that the Kamuela Vacuum Cooling Plant is operated by the Kamuela Farmers Cooperative and the Department of Agriculture to cool down locally grown vegetables before they are shipped to market. The facility processes approximately seven million pounds of produce annually and is an effective means to increase the shelf life of a wide variety of produce. Unfortunately, the Kamuela Vacuum Cooling Plant is nearly thirty years old and in desperate need of repair. Your Committee concludes that the facility's cooling and electrical systems must be repaired or upgraded to facilitate the continued integrity, expansion, and diversification of locally grown produce.

Your Committee has amended this measure by clarifying that the expending agency for the appropriation is the Department of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2679, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2679, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, English, Slom).

**SCRep. 2015     Health on S.B. No. 2579**

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds and to appropriate funds for the Department of Health to develop a secure inpatient psychiatric facility in which services can be provided for the mentally ill who need stricter security, and for inmates and detainees who need a higher level of mental health care.

Your Committee received testimony in support of this measure from the Department of Health; Department of Public Safety; Department of the Prosecuting Attorney, City and County of Honolulu; Hawaii Disability Rights Center; Hawaii Government Employees Association; Community Alliance for Mental Health; and two individuals.

Your Committee finds that the Hawaii State Hospital is not equipped to be a forensic facility and lacks the capacity to serve the current needs of its patients. Your Committee further finds that the State needs a secure inpatient psychiatric facility in order to promote greater safety for patients, staff, and the public. A separate facility would appropriately house populations of mentally ill patients who need stricter security, as well as inmates and detainees who require a higher level of mental health care, with well-trained staff operating at a sensible ratio to the patients.

Your Committee has amended this measure by:

- (1) Adding language to require the Department of Health to establish a task force to study the needs of the populations that will be served by the inpatient psychiatric facility, develop a coordinated interagency action plan to implement services, and submit the interagency action plan to the Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that providing mental health campus facilities, rather than a hospital setting only, would encourage the compassionate care of patients.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2579, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2579, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2016 Health on S.B. No. 2065**

The purpose and intent of this measure is to:

- (1) Convene a task force to collect relevant data on the number of elective pre-term deliveries in Hawaii;
- (2) Require the task force to develop approaches and measures for addressing the number of elective pre-term deliveries, if the task force determines that the number may pose a public health threat;
- (3) Require the task force to collect data to determine whether a point-of-care newborn screening program is needed in Hawaii; and
- (4) Require the task force to report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Health and Healthcare Association of Hawaii.

Your Committee finds that the ability to prevent infant deaths and address long-standing disparities in infant mortality rates between population groups is necessary to protect the health and well-being of the community. Your Committee further finds that the collection of data on elective pre-term deliveries and point-of-care newborn screening is critical to inform policy and program interventions.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2065 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2017 Health on S.B. No. 2064**

The purpose and intent of this measure is to authorize up to twenty visits for psychological and psychiatric services over a sixty-day period for medical rehabilitation of injured employees covered under workers' compensation.

Your Committee received testimony in support of this measure from the Work Injury Medical Association of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development and Hawaii Insurers Council.

Your Committee finds that providing injured employees with psychological or psychiatric services can help prevent addiction, drug diversion, chronic pain, post-traumatic stress disorder, major depressive disorder, and other psychological and psychiatric issues.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2064 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2018 Health on S.B. No. 2032**

The purpose and intent of this measure is to:

- (1) Add intentionally or knowingly causing bodily injury to medical services providers to assault in the second degree offense; and
- (2) Expand the protections under the offense to include medical services providers that work in medical clinics and federally qualified health centers.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, The Queen's Health Systems, Kaiser Permanente, Hawaii Association of Professional Nurses, Hawaii Pacific Health, Kahi Mohala Behavioral Health, and four individuals.

Your Committee finds that health care workers have faced increased risks of job-related violence in recent years. Given the increased risk of serious assaults occurring in health care settings, your Committee further finds that the legal protections currently afforded to health care workers in emergency departments should be extended to medical services providers in medical clinics and federally qualified health centers.

Your Committee has amended this measure by expanding the protections under the offense to include unlicensed medical professionals and other medical staff involved in the direct care of patients.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2032, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2032, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2019 Health on S.B. No. 2349**

The purpose and intent of this measure is to provide funding for a statewide pilot program to treat chronic, substance-dependent adults.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, Hawaii Substance Abuse Coalition, Community Alliance for Mental Health, and three individuals.

Your Committee finds that helping individuals with substance abuse dependencies receive the care they need will improve public health and reduce health care costs. Your Committee further finds that substance abuse is a leading cause of preventable hospitalization and homelessness. The provision of timely, intensive treatment for substance-dependent individuals will minimize the overutilization of expensive emergency and medical services, saving millions of dollars.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2349 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Nishihara).

**SCRep. 2020 Health on S.B. No. 2348**

The purpose and intent of this measure is to appropriate funds to establish two special emergency medical response vehicle units to be based in the Puna and Makalei areas on the island of Hawaii, including acquisition of vehicles, equipment, and personnel costs for state-certified emergency medical service personnel.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Fire Department; American Medical Response, Hawaii County; and three individuals.

Your Committee finds that there are increasing demands for emergency medical services on the island of Hawaii, particularly in Puna and Makalei. Given the growing volume of 911 requests, total land area of these districts, time to access remote populations, and transport distance to the nearest hospital, the total time to complete a transport can be close to two hours before an ambulance unit becomes available in the district after it is dispatched. Your Committee further finds that emergency medical situations are time sensitive, and rapid response by emergency medical service providers often makes the difference between life and death.

Your Committee notes that the cost to operate an advanced life support ambulance in these districts is approximately \$1,000,000 per year. Your Committee further notes that one of the vehicles that will serve as an advanced life support ambulance will be donated; therefore, only one ambulance will be purchased using the appropriation funds.

Your Committee has amended this measure by appropriating funds to establish and fund the operation of two advanced life support ambulances, instead of special emergency medical response vehicle units, and making conforming amendments throughout the measure accordingly.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2348, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2021 (Majority) Health on S.B. No. 2570**

The purpose and intent of this measure is to require a warning label for all food products containing aspartame that are offered for sale or distribution in the State.

Your Committee received testimony in support of this measure from Babes Against Biotech and six individuals. Your Committee received testimony in opposition to this measure from the Department of Health; Hawaii Food Industry Association; Ajinomoto North America, Inc.; American Beverage Association; and one individual. Your Committee received comments on this measure from the Calorie Control Council.

Your Committee finds that consuming high levels of the artificial sweetener, aspartame, has been associated with serious health ailments, including diabetes, headaches, vision deficiencies, high blood pressure, heart disease, leukemia, lymphoma, and tumors. This measure will help individuals make informed decisions when purchasing food products containing aspartame.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2570 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Baker). Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 2022 Health on S.B. No. 2052**

The purpose and intent of this measure is to establish a rule of evidence to exclude the admissibility of medical apologies to prove liability.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, Healthcare Association of Hawaii, Hawaii Pacific Health, and Hawaii Association of Professional Nurses. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that health care providers should be permitted to express compassion, apology, and other benevolent acts without fear of their statements or acts being used as evidence of liability when a patient experiences adverse outcomes. This measure will improve communications between health care providers and patients and reduce unnecessary litigation.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2052, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2052, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2023 Health on S.B. No. 2736**

The purpose and intent of this measure is to establish labeling requirements for any food or raw agricultural commodity sold in the State that contains genetically engineered material, or was produced with genetically engineered material, with certain exceptions for restaurants and retail establishments.

Your Committee received testimony in support of this measure from the Kauai County Council; Hawaiian Sustainability Foundation; Pacific Alliance to Stop Slavery; Life of the Land; Emerald Isle Properties; Kilauea Paint and Feed Store; Dad's Granola, LLC; Island Breath; Hawaii Government Employees Association; Progressive Democrats of Hawaii; Democratic Party of Hawaii; Kona Hawaiian Civic Club; IMUAlliance; Hawaiian Affairs Caucus; Babes Against Biotech; and several individuals. Your Committee received testimony in opposition to this measure from the Department of Health; Maui County Farm Bureau; Hawaii Food Industry Association; Hawaiian Sustainability Foundation; Monsanto Hawaii; Hawaii Cattlemen's Council, Inc.; David S. De Luz Sr., and Enterprises Inc.; 4 Ag Hawaii; Hawaii Crop Improvement Association; Hawaii Farm Bureau Federation; and several individuals. Your Committee received comments on this measure from the Department of Agriculture and two individuals.

Your Committee finds that there are growing concerns that genetically engineered material is harmful to public health and the environment. Your Committee further finds that a large percentage of the population supports the right to know which food products contain genetically engineered material and prefers to make informed decisions when purchasing food.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2736 and recommends that it pass Second Reading and be referred to the Committees on Commerce and Consumer Protection and Agriculture and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Baker). Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2024 Commerce and Consumer Protection on S.B. No. 2260**

The purpose and intent of this measure is to assist the Department of Labor and Industrial Relations in enforcement of prevailing wage law under chapter 104, Hawaii Revised Statutes, by:

- (1) Increasing the length of suspension from three years to five years;
- (2) Clarifying the effective date of suspension; and
- (3) Specifying that suspension for falsification of records or delay or interference with an investigation is immediate.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Accounting and General Services; International Brotherhood of Electrical Workers, Local 1186, AFL-CIO; Hawaii Laborers' Union; and The Pacific Resource Partnership. Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Hawaii Regional Council of Carpenters.

Your Committee finds that under chapter 104, Hawaii Revised Statutes, the suspension period for a third violation of prevailing wage law, falsification of records, or delay or interference with an investigation is three years. Due to the length of time needed for an investigation and the due process procedures available for a contractor, the Department of Labor and Industrial Relations has found that a contractor could delay these proceedings to the point that a three year suspension period is of little consequence. Your Committee further finds that this measure assists the Department of Labor and Industrial Relations in enforcing the prevailing wage law and encourages contractors to comply with the law by ensuring that a contractor who deliberately violates the law will serve a suspension period that acts as more of a deterrent.

Your Committee notes that it is clear from testimony received that the Department of Labor and Industrial Relations needs more staff to effectively administer the prevailing wage law. Although staffing of the Department of Labor and Industrial Relations is beyond the purview of your Committee, your Committee believes it is important to note this issue for additional consideration by your Committee on Judiciary and Labor.

Your Committee has amended this measure by:

- (1) Clarifying the effective date of suspension for a third violation of prevailing wage law by a person or firm;
- (2) Specifying who the Director of Labor and Industrial Relations shall notify of any suspension order;
- (3) Inserting a sunset date of June 30, 2018;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2260, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2260, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Nishihara).

**SCRep. 2025 (Majority) Commerce and Consumer Protection on S.B. No. 2497**

The purpose and intent of this measure is to increase the:

- (1) License fee for persons engaged as a wholesaler or dealer of cigarettes or tobacco products from \$2.50 to an unspecified amount; and
- (2) Retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and other tobacco products from \$20 to an unspecified amount.

Your Committee received testimony in support of this measure from the Coalition for a Tobacco-Free Hawai'i and American Cancer Society Cancer Action Network. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance. Your Committee received comments on this measure from the Department of Health and Department of Taxation.

Your Committee finds that, when compared to other states, Hawaii's tobacco licensing fees are among the lowest in the country. Hawaii's license fee for a wholesaler or dealer has not increased since 1995, and the State is one of only two that charge a wholesaler or dealer less than a retailer for a license. According to the Department of Taxation, in Fiscal Year 2013, the State received only \$505 in wholesale license fees and \$30,827.50 in retail permits. In comparison, the tobacco industry spends \$26,900,000 a year in marketing their products in Hawaii.

Your Committee further finds that tobacco retailer licensing is an effective tool for limiting the negative public health consequences of tobacco use by ensuring that wholesalers, dealers, and retailers comply with responsible sales practices. Wholesaler, dealer, and retail licenses with adequate annual fees provide the necessary resources for administrative costs and enforcement of tax laws. In many states, these fees also serve as important strategies for limiting youth access to tobacco.

Your Committee also finds that increasing tobacco licensing and permit fees and requiring money from the fees to support smoking cessation programs in the State will help decrease access to tobacco by minors, prevent initiation of tobacco use, and ensure continued tobacco regulation and enforcement of relevant tax laws.

Accordingly, your Committee has amended this measure by:

- (1) Amending the license fee for persons engaged as a wholesaler or dealer of cigarettes or tobacco products from an unspecified amount to \$250;
- (2) Amending the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and other tobacco products from an unspecified amount to \$50; and
- (3) Specifying that revenue from the license and permit fees shall be used to support smoking cessation programs in the State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2497, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 2026 Commerce and Consumer Protection on S.B. No. 2758**

The purpose and intent of this measure is to require the interest and other monies earned on the principal of the Hurricane Reserve Trust Fund to be deposited into the trust fund instead of being diverted into the general fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Department of Defense, State Civil Defense; and two individuals. Your Committee received comments on this measure from the Hawaii Hurricane Relief Fund.

Your Committee finds that the current Administration has set a targeted objective that the State have formal reserves equal to at least ten percent of general fund revenues. Your Committee further finds that this measure commits interest that is earned on funds already held in reserves, which is a prudent and rational approach that should help the State meet its targeted objective sooner.

Your Committee additionally finds that although the Hurricane Reserve Trust Fund is currently operationally dormant, there is a large amount of risk exposure faced by the trust fund when it is operational. Incorporating a sunset date into this measure will ensure the Legislature's ability to revisit this matter in the future, should the need arise.

Accordingly, your Committee has amended this measure by inserting a sunset date of June 30, 2019.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2758, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2758, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2027 Commerce and Consumer Protection on S.B. No. 2229**

The purpose and intent of this measure is to:

- (1) Establish the Uniform Power of Attorney Act, which defines the levels of authority granted in a power of attorney to the principal's agent, requires an agent to act in good faith and within the scope of authority of a power of attorney, and provides sample documents to be used to create a power of attorney; and
- (2) Repeal chapter 551D, Hawaii Revised Statutes, relating to the Uniform Durable Power of Attorney Act.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Office of the Prosecuting Attorney, County of Hawaii; Commission to Promote Uniform Legislation; and AARP Hawaii. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that powers of attorney are essential tools for delegating authority to others to effectively plan for incapacity, including the ability for a person to handle the financial matters of another. However, a 2002 national study of durable powers of attorney revealed the need to address numerous issues not contemplated in the original Uniform Durable Power of Attorney Act, codified in Hawaii as chapter 551D, Hawaii Revised Statutes. In response to these concerns and as a way to promote uniformity on issues on which the Uniform Durable Power of Attorney Act was silent, the National Conference of Commissioners on Uniform State Laws developed the model Uniform Power of Attorney Act (2006). By 2013, the Uniform Power of Attorney Act had been enacted in thirteen states and one territory.

Your Committee further finds that this measure is based on the model Uniform Power of Attorney Act, which codifies state power of attorney legislative trends and collective best practices and strikes a balance between the need for flexibility and acceptance of an agent's authority and the need to prevent and redress financial abuse. This measure preserves the durable power of attorney as a low-cost and flexible form of surrogate financial decision making in the event of incapacity, encourages acceptance of powers of attorney by third persons, safeguards incapacitated principals, and provides clearer guidelines for agents.

Your Committee has heard testimony that this measure may create unintended consequences for families who use powers of attorney for the care of minors and disabled adults. Accordingly, amendments to this measure are necessary to exempt powers of attorney regarding the care of a minor or a disabled adult.

Your Committee has also heard the concerns of the Judiciary that this measure does not specify what court a person may petition to construe a power of attorney, review an agent's conduct, or grant appropriate relief. Your Committee notes that this measure is based on a model law intended for uniform enactment throughout the country, which is why a particular court may not have been specified. However, your Committee finds that this issue merits further consideration and requests that your Committee on Judiciary and Labor further examine the concerns raised by the Judiciary on this measure.

Your Committee has amended this measure by:

- (1) Specifying that the uniform power of attorney created by this measure shall not apply to a power created by a legal parent or legal guardian that places the care of a minor or disabled adult under another person; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2229, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2229, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2028 Energy and Environment on S.B. No. 2279**

The purpose and intent of this measure is to establish a task force to study the feasibility of a photovoltaic waste recycling program.

Your Committee received testimony in support of this measure from the Hawaii Solar Energy Association and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Public Utilities Commission.

Your Committee finds that over the past few decades, production of energy through the use of photovoltaic technology has increased. The past ten years have seen the largest growth in demand for photovoltaic modules, with a rate of thirty-five percent in 2010 and predicted rates of twenty percent or more through 2015.

Your Committee further finds that photovoltaic panels have a life expectancy of up to thirty years, and panels that were installed in the 1990s will start filling waste bins within the next few years. However, photovoltaic panels and other products have many recoverable materials for reuse. The creation of a task force to study the issue of photovoltaic waste and recycling has potential environmental, financial, health, and social impacts for companies and consumers.

Your Committee has amended this measure by:

- (1) Establishing the photovoltaic waste recycling task force within the Department of Health, instead of the Department of Business, Economic Development, and Tourism, for administrative purposes;
- (2) Including the Director of Health, instead of the Director of Business, Economic Development, and Tourism, as a member of the task force;

- (3) Extending the deadline by which the task force shall report its findings and recommendations to the Legislature to no later than twenty days prior to the convening of the Regular Session of 2016;
- (4) Extending the sunset date of the task force to June 30, 2016; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2279, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2279, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 2029 Energy and Environment on S.B. No. 2858**

The purpose and intent of this measure is to establish an Office of Environmental Information Management within the Department of Health.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Health; Office of Environmental Quality Control; Hawaii Government Employees Association; and one individual.

Your Committee finds that the quality of the environment is important to the welfare of the people of Hawaii as is the economy of the State. Furthermore, there is an increasing demand for the collection of state environmental data and its dissemination to the public, to the regulated and permitted community, and to the United States Environmental Protection Agency. The development of specialized environmental information management systems can greatly assist the Department of Health's Environmental Health Administration to provide timely and comprehensive environmental information to the public, increase efficiency, and make more informed decisions to better protect the environment.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2858 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 2030 (Majority) Energy and Environment on S.B. No. 2931**

The purpose and intent of this measure is to amend the advance disposal fee for glass containers to a tiered structure based on the interior volume of the glass container.

Your Committee received testimony in support of this measure from the City and County of Honolulu, County of Maui Department of Environmental Management, Reynolds Recycling, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Wine Institute, Hawaii Liquor Wholesalers Association, Southern Wine and Spirits of Hawaii, and forty-six individuals. Your Committee received comments on this measure from the Department of Health, Tax Foundation of Hawaii, and twelve individuals.

Your Committee finds that the cost of recycling glass containers far exceeds the revenue that the State receives through the advance disposal fee, which is imposed on sealed glass containers that are not glass deposit beverage containers. The result is a shortfall in payment for glass recycling or stoppages in the recycling of glass containers.

Your Committee further finds that the advance disposal fee of 1.5 cents per glass container has not been increased since it was established on September 1, 1994. Also, there is a huge disparity in weight between small glass containers and larger glass containers, which cost more to recycle.

Your Committee has amended this measure by:

- (1) Adding additional findings to section 1 based on information received from the Department of Health, counties, and recyclers; and
- (2) Inserting language requesting that the State Auditor audit the advance disposal fee program at the earliest opportunity and again five years later and submit the results to the Legislature.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2931, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2931, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 2031 Human Services on S.B. No. 2267**

The purpose and intent of this measure is to provide funding for micro apartment housing units.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Housing Finance and Development Corporation, Catholic Charities Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Blueprint for Change, Hawaii Primary Care Association, Community Alliance for Mental Health, and two individuals.

Your Committee finds that there is a housing crisis in Hawaii and that affordable housing is a serious concern for many residents. According to a 2011 Hawaii Housing Planning Study, up to 50,000 new housing units will need to be built by 2016 to meet the new demand generated by changing demographics and economic conditions. This measure addresses the housing crisis by authorizing funds for the development of micro apartment housing units. Micro apartments can address the permanent housing needs of very low income households at a more efficient cost, as the per unit construction cost is about \$150,000 as opposed to the average rental unit that costs \$300,000 to construct. Your Committee received testimony indicating that micro apartment housing units can help Hawaii's efforts to end homelessness as well. Eighty-one percent of households experiencing homelessness are single individuals, and micro apartments are popular for Housing First programs, which are evidence-based practices that provide permanent housing and support services to people who have been chronically homeless.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2267 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2032 Human Services on S.B. No. 2442**

The purpose and intent of this measure is to appropriate \$100,000,000 for the rental housing trust fund in order to support affordable rental housing development including projects with micro units, family units, and elder housing units.

Your Committee received testimony in support of this measure from the Department of Human Services; Hawaii Housing Finance and Development Corporation; Office of Housing and Community Development, County of Hawaii; The Chamber of Commerce of Hawaii; Hawaii Primary Care Association; Partners in Care; Catholic Charities Hawaii; PHOCUSED; Hawaii Appleseed Center for Law and Economic Justice; Institute for Human Services; Community Alliance for Mental Health; Blueprint for Change; Living Life Source Foundation; RMA Sales; and two individuals.

According to a 2011 Center for Housing Policy report, Honolulu was tied for being the least affordable city for renters nationwide. Honolulu has also been ranked the third most expensive city for rentals. The 2011 Hawaii Housing Planning Study found that there is a need for more than 13,000 rental units by 2016 for households below eighty percent of the area median income. Your Committee finds that there is a pressing need to develop safe, decent, and affordable rental housing in Hawaii to meet the needs of individuals and families who are homeless or at risk of becoming homeless because they earn too much to qualify for low income housing programs yet earn too little to afford market rate housing. Your Committee also finds that investing in housing development has a substantial economic impact, and that the appropriation of \$100,000,000 to the rental housing trust fund would create approximately six hundred new affordable housing units, two hundred fifty of which would be permanent micro apartment units for very low income households. In addition, the allocation has the potential to generate approximately one thousand jobs in Hawaii.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2442 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2033 Human Services on S.B. No. 2525**

The purpose and intent of this measure is to establish a Medicaid buy-in program that encourages individuals with disabilities to gain employment while maintaining their health care services.

Your Committee received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, Hawaii Association of the Blind, Lanakila Pacific, Ohana Health Plan, Hawaii Primary Care Association, Community Alliance for Mental Health, Hawaii Disability Rights Center, and three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that it is beneficial to individuals and society for persons with disabilities who are interested in working to be employed. Employment not only benefits the individuals' self-esteem, but it also contributes to their self-sufficiency and independence, puts money back into the economy, and is a better use of state resources. Data from the United States Bureau of Labor Statistics indicates that in 2012 only 17.8 percent of people with disabilities were employed compared to 63.9 percent of people without disabilities. According to testimony on this measure, many people with disabilities want to work but worry that doing so could jeopardize their health coverage.

Your Committee finds that Hawaii is one of only five states in the country that has not yet formed a Medicaid buy-in program to allow persons with disabilities to work and move out of poverty. In 2012, a joint legislative task force was formed pursuant to Act 200, Session Laws of Hawaii 2012, to explore the possibility of implementing a Medicaid buy-in program for working individuals with disabilities based on Hawaii's Medicaid income and asset limits subject to approval of the federal Centers for Medicare and Medicaid Services. The Medicaid Buy-In Task Force has provided input for this measure, which your Committee has found useful in formulating its recommendation regarding this measure.

Your Committee has amended this measure by:

- (1) Amending the eligibility requirements and qualifications for the Medicaid buy-in program;
- (2) Removing the requirement that the program be evaluated periodically by the Department of Human Services with the assistance of the University of Hawaii;

- (3) Specifying that the Department of Human Services may establish an enrollment limit for the program; provided that it is not less than two hundred individuals;
- (4) Deleting the definition for “medicaid buy-in program for disabled workers”;
- (5) Amending the progress reporting requirement of the Department of Human Services by deleting any required assistance from the University of Hawaii, extending the deadline for the report by one year, and requiring the report to include resources needed to implement the Medicaid buy-in program;
- (6) Removing the appropriation to establish the Medicaid buy-in program;
- (7) Making the appropriation for outreach and training related to the Medicaid buy-in program to the University of Hawaii Center on Disability Studies, rather than to the Department of Human Services, and removing the evaluation of progress of the outreach and training programs as one of the purposes of the appropriated funds; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2525, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2525, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2034 Transportation and International Affairs on S.B. No. 2903**

The purpose and intent of this measure is to make an emergency appropriation to replace security funds that were used to cover the costs associated with the operations and maintenance of the outbound baggage handling and explosive detection systems.

Your Committee received testimony in support of this measure from the Department of Transportation and Airlines Committee of Hawaii.

Your Committee finds that new baggage handling and explosive detection systems were installed by the State at Honolulu International Airport to move the baggage screening from the ticket lobbies to the baggage make-up areas. The new systems require an operations and maintenance contract to ensure trouble-free movement of baggage from the ticket lobbies to the aircraft in time for its departure. This critical service provides system troubleshooting, repairs, and manufacturer’s recommended maintenance to the baggage handling and explosive detection systems that is beyond the capabilities of state staff. The new equipment is required by federal regulations so that all checked baggage is screened for explosives and other hazardous materials prior to placement on the aircraft. The cost to carry out these new procedures was unanticipated by the Department because the airlines previously absorbed the cost of operating and maintaining the new baggage screening process. To address the unanticipated costs, a contract was funded using funds from the fiscal year 2013-2014 security appropriation, since the system performs a security function.

Your Committee finds that security funding should be replaced immediately to prevent interruption of critical security services at Honolulu International Airport, especially as the security contract expires on February 15, 2014.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2903 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2035 Education on S.B. No. 2136**

The purpose and intent of this measure is to make clarifying amendments to various sections of chapter 302A, Hawaii Revised Statutes, by clearly defining the terms “attend”, “attendance”, “enroll”, and “enrollment” as those terms are used in practice by the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that clarity is needed in regard to the use of the terms “attend”, “attendance”, “enroll”, and “enrollment” in the Hawaii Revised Statutes so that the terms match the way those terms are used in practice by the Department of Education.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2136, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2036 (Majority) Judiciary and Labor on S.B. No. 2073**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. According to the Department of Budget and Finance, continuation of the arbitration hearing for bargaining unit (6) is scheduled for February 3-5, 2014. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2014 Regular Session.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2073 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Solomon).

**SCRep. 2037 (Majority) Judiciary and Labor on S.B. No. 2074**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, University of Hawaii System, and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (9) are currently in progress. According to the Department of Budget and Finance, an arbitration hearing for collective bargaining unit (9) is scheduled for February 11 to 14, 2014. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2014 Regular Session.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2074 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Solomon).

**SCRep. 2038 (Majority) Judiciary and Labor on S.B. No. 2075**

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (14) and their excluded counterparts for fiscal biennium 2013-2015.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. The Department of Budget and Finance submitted comments.

Your Committee finds that Act 137, Session Laws of Hawaii 2013, established a new collective bargaining unit (14) to represent state law enforcement officers and state and county ocean safety and water safety officers. Although this new bargaining unit has yet to be formed, this measure provides a legislative vehicle that can be used if an agreement is reached prior to the end of the 2014 Regular Session. Your Committee notes that collective bargaining unit (14) members are covered under contracts for collective bargaining units (3) and (4) and their excluded counterparts until the new bargaining unit is formed and an agreement is reached.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2075 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Solomon).

**SCRep. 2039 (Majority) Judiciary and Labor on S.B. No. 1065**

The purpose and intent of this measure is to provide a legislative vehicle for an emergency appropriation to fund public sector collective bargaining cost items for salary adjustments and other cost adjustments for public employees in collective bargaining unit (11) and their excluded counterparts for fiscal biennium 2011-2013.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Fire Fighters Association, IAFF Local 1463, AFL-CIO.

Your Committee finds that after more than two years of negotiation and arbitration proceedings, the arbitration panel issued an award on November 15, 2013. This award includes changes to a number of sections of the collective bargaining contract and salary and benefit adjustments for collective bargaining unit (11). This measure provides a legislative vehicle to effectuate the terms and conditions of the arbitrated award for public employees in collective bargaining unit (11).

Although the arbitrated award costs have already been included in the Fiscal Year 2015 Executive Supplemental Budget, your Committee notes that the Governor's Office is expected to issue the appropriate emergency appropriation declaration to cover the arbitrated award costs.

Your Committee has amended this measure by adopting the suggested language submitted by the Department of Budget and Finance that:

- (1) Changes the title for program ID BUF 101 from “program planning, analysis, budgeting” to “departmental administration and budget division” to reflect the appropriate program ID title;
- (2) Changes the fiscal biennium from 2011-2013 to 2013-2015;
- (3) Adds appropriations for employer contribution amounts to cover Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for public employees in collective bargaining unit (11) and their excluded counterparts for fiscal biennium 2013-2015;
- (4) Inserts specified amounts for collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (11) and their excluded counterparts for fiscal biennium 2013-2015; and
- (5) Makes technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1065, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1065, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Gabbard, Solomon).

**SCRep. 2040 Judiciary and Labor on S.B. No. 2246**

The purpose and intent of this measure is to make an appropriation to satisfy several claims against the State, its officers, or its employees, including claims for legislative relief, judgments against the State, settlements, and other miscellaneous claims.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one individual.

This measure requests a total of \$170,365.59 in appropriations from the general fund to satisfy five claims against the State and a total of \$90,000 in appropriations from the state highway fund to satisfy two claims against the State. The grand total for the seven claims settled in this measure as received by your Committee is \$260,365.59. Timely passage of this measure will minimize the State’s obligation to pay interest on those amounts.

Your Committee notes the written testimony submitted by Department of the Attorney General, which requests the addition of two new claims that have been resolved since this measure was introduced. These two additions require a total of \$423,285.13 in appropriations from the general fund.

Your Committee has amended this measure by adding general fund appropriations for two settlement claims totaling \$423,285.13 to this measure, as requested by the Department of the Attorney General, which increases the grand total amount of appropriations in this measure to \$683,650.72 in order to satisfy a total of nine claims against the State, its officers, or its employees.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2246, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2246, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Gabbard, Solomon).

**SCRep. 2041 Commerce and Consumer Protection on S.B. No. 2076**

The purpose and intent of this measure is to clarify that the intent to deprive another of property, under the offense of unlicensed contractor fraud, may be formed before or after a person obtains or exerts control over the property of another.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, City and County of Honolulu Department of the Prosecuting Attorney, and Contractors License Board.

Your Committee finds that under existing law, the offense of unlicensed contractor fraud requires a person’s intent to deprive to exist while engaged in unlicensed contractor activities. However, the law is unclear whether that intent must also exist before that person obtains control over a victim’s property.

Your Committee further finds that this measure removes this ambiguity by clarifying that the intent to deprive may be formed before or after a person obtains control over the victim’s property, provided that the person is engaged in unlicensed contractor activities at that time. Your Committee additionally finds that this measure will assist law enforcement efforts to prosecute the offense of unlicensed contractor fraud.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2076 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2042 Commerce and Consumer Protection on S.B. No. 2825**

The purpose and intent of this measure is to amend Hawaii’s Mortgage Rescue Fraud Prevention Act by:

- (1) Clarifying the definition of “distressed property consultant”; and

- (2) Specifying that only attorneys licensed to practice law in the State of Hawaii are exempt from the definition of “distressed property consultant”.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and Hawaii Credit Union League.

Your Committee finds that the amendments in this measure pertaining to the definition of “distressed property consultant” will assist the Office of Consumer Protection’s enforcement of the Mortgage Rescue Fraud Prevention Act, codified as chapter 480E, Hawaii Revised Statutes, against all persons who were involved in a mortgage rescue scheme.

Your Committee further finds that persons who have provided services to distressed property owners have attempted to evade compliance with chapter 480E, Hawaii Revised Statutes, by claiming they are not distressed property consultants or that they fall under the chapter’s attorney exemption because they are, or performed services in connection with, out-of-state attorneys. This measure makes it clear that only attorneys licensed to practice law in the State of Hawaii fall under the attorney exemption in chapter 480E, Hawaii Revised Statutes, ensures compliance with federal regulations, and ensures that all attorneys performing distressed property consulting in the State are subject to the Hawaii Rules of Professional Conduct.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2825 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2043 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2192**

The purpose and intent of this measure is to require medical facilities, prior to filing for bankruptcy, to inform all current and former patients by written notice that they are entitled to a copy of their medical records at no charge and to provide a paper or electronic copy of the medical records within thirty or sixty days after the request depending upon the location of the records.

Your Committees received testimony in support of this measure from two individuals.

Your Committees find that since individuals are responsible for decisions respecting their own health care, they should possess a concomitant right of access to complete information respecting their condition and care provided. Your Committees further find that individuals should not have to endure a long and expensive process to obtain medical records after a medical facility declares bankruptcy. This measure will help ensure that medical records are readily available to patients and new care providers.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2192 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2044 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2352**

The purpose and intent of this measure is to require:

- (1) The attending physician, in addition to the administrator, of a psychiatric facility to provide notice of intent to discharge a patient or notice of a patient’s admission to voluntary treatment;
- (2) The notice of intent to discharge a patient or notice of a patient’s admission to voluntary treatment to be sent only for civil commitments as a direct result of legal proceedings;
- (3) Notice to be served by mail at the person’s last known address;
- (4) Persons entitled to receive notice to be allowed to waive the right in writing with the psychiatric facility; and
- (5) Courts to conduct hearings within seventy-two hours, and prior to the termination of a current commitment, to determine if the patient still meets the criteria for involuntary hospitalization.

Your Committees received testimony in support of this measure from the Department of Health; Department of the Prosecuting Attorney, City and County of Honolulu; Healthcare Association of Hawaii; Hawaii Association of Professional Nurses; The Queen’s Health Systems; E Malama Kakou; and Hawaii Pacific Health. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Judiciary, State of Hawaii and Hawaii Health Systems Corporation.

Your Committees find that patients are remaining involuntarily committed to hospitals due to the difficulty of obtaining a court hearing and order, even after the patient is ready to be discharged. Your Committees further find that while these patients remain involuntarily committed, hospitals are forced to use precious resources that could serve other patients in need. This measure streamlines the notification process prior to discharge of a patient civilly committed pursuant to criminal statutes, thereby allowing for a simplified discharge process, while safeguarding the right of individuals who require notification of the patients’ discharge to object.

Your Committees have amended this measure by:

- (1) Expanding the notice requirements to apply to all civil commitments as a direct result of legal proceedings under chapters 704 and 706, Hawaii Revised Statutes; and
- (2) Requiring notice to be served on the appropriate prosecuting attorney in addition to persons entitled to receive notice pursuant to the order of commitment.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2352, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2352, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2045 Commerce and Consumer Protection on S.B. No. 2250**

The purpose and intent of this measure is to:

- (1) Require certain disclosures on collection boxes by for-profit and nonprofit organizations;
- (2) Facilitate electronic registration and reporting by registered professional solicitors;
- (3) Clarify existing law regulating charitable sales promotions by commercial co-venturers; and
- (4) Make other technical or housekeeping amendments to chapter 467B, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure provides greater protections for consumers and donors by requiring new disclosure requirements at collection bins operated by for-profit and nonprofit organizations. This measure also facilitates the Attorney General's transition to electronic registration systems and provides greater clarity to registered charitable organizations, commercial co-venturers, and professional solicitors.

Your Committee further finds that all professional solicitors are for-profit entities or enterprises; therefore, the amendment in this measure to the definition of "professional solicitor" is not necessary. Your Committee additionally finds that the Attorney General is not authorized under section 467B-2.5, Hawaii Revised Statutes, to grant extensions for filing of financial reports; therefore, language in this measure granting such extensions is also unnecessary.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that professional solicitors shall be classified as for-profit organizations for the purposes of collection box disclosures;
- (2) Deleting language that would have amended the definition of "professional solicitor";
- (3) Deleting language referring to an extension of time for filing of financial reports;
- (4) Clarifying that the fine of \$20 for failure to file a financial report shall be imposed for each day during which the violation occurs or continues; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2250, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2250, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2046 Judiciary and Labor on S.B. No. 2026**

The purpose and intent of this measure is to prohibit the slaughtering or trafficking of dogs or cats for human consumption.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, The Humane Society of the United States, Hawaiian Humane Society, Hawaii Cattlemen's Council, Oahu Society for the Prevention of Cruelty to Animals, West Hawaii Humane Society, and thirty individuals.

Your Committee finds that despite the enactment of several animal cruelty offenses in Hawaii, local humane societies, law enforcement agencies, and animal protection groups continue to receive reports of dogs and cats being trafficked or slaughtered for human consumption. Some of these cases involved dogs and cats that were stolen or lost or acquired via online advertisements. Unlike existing federal and state laws that regulate farm animals that are bred and sold for consumption, the United States Department of Agriculture and Hawaii Department of Agriculture do not recognize or regulate the slaughter or sale of dogs and cats for human consumption. This measure strengthens Hawaii's animal cruelty laws by creating the offense of cruelty to animals by slaughtering or trafficking dogs or cats for human consumption.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Prosecuting Attorney of the City and County of Honolulu that amends the definition of “pet animal” under chapter 711, Hawaii Revised Statutes, to apply to any dog or cat rather than only dogs or cats that are not bred for consumption; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2026, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2026, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Solomon).

**SCRep. 2047      Judiciary and Labor on S.B. No. 2072**

The purpose and intent of this measure is to specify the manner of serving a summons within the State for a civil action.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Financial Services Association, Hawaii Bankers Association, Hawaii Credit Union League, and Collection Law Section of the Hawaii State Bar Association.

Your Committee finds that a summons is a notice that is attached to a civil complaint filed by a plaintiff against a defendant. A summons will either require a defendant to file a written answer to the complaint within twenty days after service of the summons or appear in court on a date and time specified to answer the complaint. However, service of process laws do not provide for the service of a summons by certified, registered, or express mail in all types of civil actions when the defendant cannot be personally served. This measure provides a comprehensive and consistent approach for service of summons in these situations by specifying the manner of serving a summons within the State for a civil action, thereby ensuring that the due process rights of the defendants and the interests of the plaintiffs are satisfied in a timely and accountable manner.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2072 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Solomon).

**SCRep. 2048      Judiciary and Labor on S.B. No. 2128**

The purpose and intent of this measure is to:

- (1) Provide guidelines and limitations for the post-conviction retention of biological evidence by the police, prosecuting attorney, laboratories, or courts; and
- (2) Establish procedures for agencies to dispose of retained evidence and for defendants to file objections to proposed disposals.

Your Committee received testimony in support of this measure from the Judiciary, Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Office of the Prosecuting Attorney of the County of Kauai, Police Department of the County of Hawaii, Police Department of the County of Maui, Police Department of the County of Kauai, and the Police Chiefs of Hawaii Association. Testimony in opposition to this measure was submitted by the Office of the Public Defender and Community Alliance on Prisons.

Your Committee finds that the existing law regarding the retention of biological evidence is broad and requires agencies to retain all evidence that may contain biological evidence in any case that results in a conviction regardless of whether the biological evidence is relevant to the case. Testimony submitted in support of this measure indicates that the existing requirements for the retention of biological evidence have caused storage problems statewide. This measure establishes reasonable guidelines for the retention of post-conviction biological evidence to address statewide evidence storage issues while preserving a defendant’s ability to file objections to a proposed disposal of biological evidence.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2128 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6; Ayes with Reservations (Ihara, Shimabukuro). Noes, none. Excused, 1 (Solomon).

**SCRep. 2049      Commerce and Consumer Protection on S.B. No. 2465**

The purpose and intent of this measure is to require psychologists in the State to complete a minimum of eighteen credit hours of continuing education courses during each licensing renewal biennium, beginning July 1, 2016.

Your Committee received testimony in support of this measure from the Board of Psychology; National Association of Social Workers, Hawai‘i Chapter; Hawai‘i Psychological Association; Hawaii Medical Association; and five individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii is one of only six jurisdictions that do not currently require continuing education credits for psychologists. Because psychology is a science, the field of psychology is constantly transforming and developing. It is therefore

essential that psychologists continue to stay current with emergent practices and knowledge in the psychology profession throughout their careers.

Your Committee further finds that the continuing education requirements in this measure will ensure that licensed psychologists in Hawaii maintain their professional competency and keep abreast of the latest developments in the field of psychology.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2465, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2465, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2050 Commerce and Consumer Protection on S.B. No. 2466**

The purpose and intent of this measure is to require licensed marriage and family therapists in Hawaii to complete a minimum of forty-five credit hours of continuing education courses during each licensing renewal triennium, beginning January 1, 2017.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs; National Association of Social Workers, Hawai'i Chapter; and twenty individuals.

Your Committee finds that Hawaii is one of only two states that do not currently require continuing education credits for licensed marriage and family therapists. Continuing education ensures that licensed marriage and family therapists have access to best practices and innovations in the marriage and family therapy field and can continue to provide quality services to a wide array of clients. Your Committee finds that the continuing education requirements in this measure will therefore ensure that licensed marriage and family therapists in Hawaii maintain their professional competency and keep abreast of the latest developments in the marriage and family therapy profession.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2466 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2051 Agriculture on S.B. No. 2110**

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to hire an additional three inspector positions to oversee and regulate pesticide use in Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture; County of Kauai; Maui County Council; Kauai County Council; Hawaii Cattlemen's Council, Inc.; Hawaii Farm Bureau Federation; Babes Against Biotech; Environmental Caucus of the Democratic Party of Hawaii; DuPont Pioneer; and three individuals. Your Committee received testimony in opposition to this measure from Hawaii Crop Improvement Association, Maui County Farm Bureau, and one individual. Your Committee received comments on this measure from four individuals.

Your Committee finds that pesticide use regulation is a major concern for Hawaii residents and affects the public health, safety, and welfare of Hawaii residents. Unfortunately, due to the recent fiscal crisis and a significant budgetary shortfall, the State eliminated key personnel positions needed to regulate pesticide use in 2010. As a consequence, the remaining inspectors are too overworked to ensure that the minimum standards for pesticide use are met. It is vital that pesticide use inspector positions be restored so that pesticide use is properly regulated in the State.

Accordingly, your Committee has amended this measure by:

- (1) Appropriating the funds for the additional pesticide use inspector positions from the pesticide use revolving fund, rather than the general fund;
- (2) Changing the effective date to July 1, 2014, to coincide with the beginning of the fiscal year; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2110, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (English, Wakai).

**SCRep. 2052 Energy and Environment on S.B. No. 2179**

The purpose and intent of this measure is to prohibit any declaration, bylaws, or binding agreement from preventing a person who owns a unit in a condominium structure of not more than three stories in height from installing a solar energy device.

Your Committee received testimony in support of this measure from the Hawaii Solar Energy Association and Blue Planet Foundation. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that clean energy choices are not fairly and equally accessible to those who live in low-rise condominiums. Homeowners living in condominiums under control of a homeowner's association who are interested in installing a solar energy device may be stalled due to the potential conflict with their homeowner's association. In order to allow more people to participate in Hawaii's clean energy future, barriers need to be removed and rules set in place to allow Hawaii residents to install clean energy technologies.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2179 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2053 (Joint) Energy and Environment and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2182**

The purpose and intent of this measure is to:

- (1) Clarify that the solid waste management surcharge applies to solid waste shipped outside the State for disposal;
- (2) Clarify that the solid waste management structure applies to solid waste disposed of at waste-to-energy facilities; and
- (3) Increase the solid waste management surcharge using a tiered structure commensurate with the impact of the means of disposal on the Department of Health.

Your Committees received testimony in support of this measure from the Department of Health and City and County of Honolulu Department of Environmental Services. Your Committees received testimony in opposition to this measure from the Building Industry Association of Hawaii, The Chamber of Commerce of Hawaii, and General Contractors Association of Hawaii.

Your Committees find that two major issues face the solid waste regulatory program: the need for additional funding and addressing the evolving waste management field and its changing technologies. In 2013, the solid waste regulatory program oversaw the management of over two million tons of waste, managed nearly two hundred complaints, issued nearly one hundred warning letters and nine enforcement actions, and responded to over nine hundred public inquiries. Despite a growing workload for the program, however, the solid waste management surcharge, the program's primary funding source, has not increased in over sixteen years.

Your Committees further find that there are waste-to-energy facilities that are proposing to use new technologies to which the current solid waste management surcharge does not apply. Modifications to the surcharge are necessary since these facilities are permitted and regulated by the solid waste program.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2182 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2054 (Joint) Energy and Environment and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2111**

The purpose and intent of this measure is to require new duplexes to include a solar water heater system in order to receive a building permit and clarify that gas variance requirements apply only to the ultimate occupant of the dwelling unit.

Your Committees received testimony in support of this measure from the Hawaii Solar Energy Association and Blue Planet Foundation. Your Committees received testimony in opposition to this measure from Hawaii Gas and one individual. Your Committees received comments on this measure from two individuals.

Your Committees find that the installation of solar water heaters on new single-family and duplex homes is one of the most cost-effective and efficient ways to remove Hawaii's families' dependence on fossil fuels. A conventional electric water tank accounts for thirty to thirty-five percent of a household's electric bill. It is estimated that by relying on the sun for ninety percent of a household's hot water demand, a family could save enough money to pay for the solar water heater system in three to five years.

Your Committees further find that in 2008 the Legislature passed Act 204, Session Laws of Hawaii 2008, requiring solar water heaters on new single-family homes. However, Act 204 allows variances, such as for tankless gas water heaters, under vague and unjustified circumstances such that the purpose of Act 204 is being thwarted in many instances.

Your Committees have amended this measure by:

- (1) Deleting language to allow a variance application for a demand water heater device to be accepted only if submitted by an architect or mechanical engineer who attests that the demand water heater device is installed;
- (2) Deleting language that would have established a gas variance if the applicant met certain conditions;
- (3) Inserting language to establish a gas variance on the basis of the home having a gas-tankless instantaneous water heater only if:

- (A) The water heater has been approved by Underwriters Laboratories, Inc.;
  - (B) The applicant signs an affidavit that the applicant has read a flyer issued by the Department of Business, Economic Development, and Tourism showing the life cycle costs comparisons of a solar water heater and a gas-tankless instantaneous water heater; and
  - (C) The applicant will be the buyer of the new dwelling unit; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2111, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2111, S.D. 1, and be referred to the Committee on Economic Development, Government Operations and Housing.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2055 Energy and Environment on S.B. No. 2651**

The purpose and intent of this measure is to establish fines beginning January 1, 2015, for owners of places of public accommodation with at least one hundred parking spaces that do not provide at least one parking space exclusively for electric vehicles and equipped with a charging system.

Your Committee received testimony in support of this measure from the Hawaiian Electric Vehicle Network, Big Island Electric Vehicle Association, Maui Electric Vehicle Alliance, Oponnect Hawaii, Electrical Solutions Company, and eleven individuals. Your Committee received testimony in opposition to this measure from the County of Maui Office of Economic Development and Maui County Department of Parks and Recreation. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and three individuals.

Your Committee finds that Act 89, Session Laws of Hawaii 2012, requires places of public accommodation that have more than one hundred parking stalls open to the public to have one parking space exclusively for an electric vehicle and be equipped with an electric vehicle charger. However, many businesses have failed to comply with Act 89. Enforcement, including penalties and procedures, need to be in place to ensure that electric vehicle owners have a parking space available that can also charge their vehicles.

Your Committee has amended this measure by:

- (1) Applying the requirements of this measure to owners of parking facilities instead of owners of places of public accommodation;
- (2) Amending the penalty amounts and deleting language that would have created subsequent violations every thirty days;
- (3) Inserting language to allow an owner of a parking facility to comply within 120 days after a violation to avoid being cited for another violation; and
- (4) Deleting the definition of "place of public accommodation" and inserting language that defines "parking facility".

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2651, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2651, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2056 (Majority) Energy and Environment on S.B. No. 2685**

The purpose and intent of this measure is to impose a surcharge of \$1 per tire on any tire retailer or wholesaler who installs a replacement tire on a motor vehicle in the State after September 30, 2014.

Your Committee received testimony in opposition to this measure from the Hawaii Automobile Dealers Association and one individual. Your Committee received comments on this measure from the Department of Health and Tax Foundation of Hawaii.

Your Committee finds that discarded motor vehicle tires continue to blight Hawaii's neighborhoods, particularly in rural and isolated areas. With the repeal of the motor vehicle tire surcharge, the Department of Health lost a vital source of funding to promote tire recovery and prevent illegal dumping, and the subsequent personnel and operating budget cuts have made it difficult to address this critical issue. Re-establishing the surcharge will not prevent current improper tire disposal practices, but coupled with monitoring and enforcement from the Department of Health, the surcharge may help county governments and community groups alleviate the situation.

Your Committee has amended this measure by:

- (1) Inserting language to establish a special account within the environmental management fund into which shall be deposited revenues generated from the motor vehicle tire surcharge;

- (2) Inserting language to require funds from the special account to be used for county or county-sponsored tire recycling programs;
- (3) Inserting language related to administrative procedures for the distribution of funds from the special account for tire recycling; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2685, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 2057 (Joint) Energy and Environment and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2920**

The purpose and intent of this measure is to establish and appropriate funds for a little fire ant pilot project to research solutions for addressing the little fire ant threat in Hawaii.

Your Committees received testimony in support of this measure from the Hawai'i County Council, Oahu Invasive Species Committee, Hawaii Farm Bureau, Maui Invasive Species Committee, Pacific Biodiesel Technologies, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Agriculture, Nature Conservancy of Hawaii, and Hawaii Pest Control Association.

Your Committees find that the *Wasmannia auropunctata*, known as the little fire ant, threatens native biodiversity, alters tropical ecosystems, impairs human health, impedes tourism, diminishes agricultural productivity, mars horticulture sales, and accordingly ranks among the world's worst invasive species. Human behaviors and habitats allow the little fire ant to move quickly, disperse widely, grow to high densities, and inhabit locations not otherwise possible. Hawaii's tropical climate is ideally suited for little fire ant establishment and growth. As of 2013, the little fire ant has been recorded on the islands of Kauai, Maui, Oahu, and Hawaii.

Your Committees further find that research is needed to assess the long-term impacts of little fire ants in Hawaii and to ascertain the economic and social benefit from greater public investment in prevention and control.

Your Committees note and concur with the testimony of the Department of Land and Natural Resources expressing support for this measure, provided that this measure does not replace or adversely impact appropriations for other priorities in the executive budget supplemental request related to invasive species.

Your Committees also find that the issue on whether this measure constitutes special legislation raises concerns that merit further consideration and request that your Committee on Ways and Means further examine this issue to determine whether a grant-in-aid to the County of Hawaii or other means of financing for the little fire ant pilot project would be more appropriate.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2920, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2920, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2058 Judiciary and Labor on S.B. No. 2118**

The purpose and intent of this measure is to:

- (1) Require a candidate who exceeds the voluntary expenditure limit to notify the Office of Elections instead of the Chief Election Officer, among other persons, by telephone and writing on the day the expenditure limit is exceeded;
- (2) Repeal the requirement that candidates provide notice to all contributors within thirty days of exceeding the voluntary expenditure limit and that contributions to the candidate no longer qualify for a state income tax deduction; and
- (3) Repeal the law that allows a Hawaii resident to claim a state income tax deduction for contributions to a candidate who files an affidavit agreeing to limit expenditures and does not exceed the voluntary expenditure limit.

Your Committee received testimony in support of this measure from the Office of Elections and Campaign Spending Commission.

Your Committee finds that this measure makes housekeeping amendments to be consistent with existing campaign finance laws. Requiring candidates who exceed their voluntary expenditure limits to notify the Office of Elections instead of the Chief Election Officer is consistent with the existing requirement that a candidate notify the Campaign Spending Commission rather than the Commission's executive director. Furthermore, Act 59, Session Laws of Hawaii 2010, repealed the state income tax deduction for persons who made contributions to a candidate who agreed to abide by expenditure limits. Thus, repealing the requirements relating to this state income tax deduction updates existing campaign finance laws accordingly.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2118 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Solomon).

**SCRep. 2059 (Majority) Judiciary and Labor on S.B. No. 2609**

The purpose and intent of this measure is to:

- (1) Increase the minimum wage rate to:
  - (A) \$8.20 per hour beginning on January 1, 2015;
  - (B) \$9.15 per hour beginning on January 1, 2016; and
  - (C) \$10.10 per hour beginning on January 1, 2017;
- (2) Repeal the tip credit;
- (3) Authorize the Department of Labor and Industrial Relations to adjust the minimum hourly wage to the nearest 5 cents based on the Honolulu region consumer price index beginning on September 30, 2017, and on September 30 of each year thereafter to take effect on the following January 1; and
- (4) Require that if the adjustment based on the Honolulu region consumer price index results in a lower minimum wage rate, the minimum wage rate will not decrease and remain at the most recently established minimum wage rate.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Labor and Industrial Relations; Department of Human Services; Hawaii State Commission on the Status of Women; Democratic Party of Hawaii; Pacific Alliance to Stop Slavery; International Brotherhood of Boilermakers Local 627 Hawaii; Hawaii Catholic Conference; League of Women Voters of Hawaii; Inlandboatmen's Union of the Pacific, Hawaii Region; HPBS, Inc.; Catholic Charities Hawaii; Seafarers International Union; Hawaii State AFL-CIO; University of Hawaii Professional Assembly; Hawaii Regional Council of Carpenters; International Organization of Masters, Mates and Pilots; Hawaii Ports Maritime Council; PHOCUSED; Marine Engineers' Beneficial Association, AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; Americans for Democratic Action/Hawaii; Screen Actors Guild – American Federation of Television and Radio Artists, Hawaii Local; International Longshore and Warehouse Union Local 142; Hawaii Alliance for Community-Based Economic Development; Community Alliance on Prisons; Pride At Work Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Partners In Care; Hawaii Appleseed Center for Law and Economic Justice; UNITE HERE Local 5; Sailors Union of the Pacific; Asian Pacific American Labor Alliance, AFL-CIO; Kauai Community Alliance; Marine Firemen's Union, Honolulu Branch; Progressive Democrats of Hawaii; National Association of Social Workers, Hawaii Chapter; Hawaii Primary Care Association; Hawaiian Community Assets; Citizens for Equal Rights; Women's Caucus of the Democratic Party of Hawaii; Labor Caucus of the Democratic Party of Hawaii; Dr. Martin Luther King, Jr. Coalition Hawaii; Life of the Land; Hawaii Women's Coalition; Rainbow Family 808; Gay, Lesbian, Bisexual, and Transgender Caucus of the Democratic Party of Hawaii; Honolulu Pride; Ironworkers Stabilization Fund; Hawaii Alliance for Retired Americans; and forty-seven individuals.

Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association; National Federation of Independent Business Hawaii; Hawaii Petroleum, Inc.; The Chamber of Commerce of Hawaii; R&R Restaurants, Inc.; TS Restaurants; Hula Grill; Keoki's Paradise; Duke's Canoe Club Kauai; Duke's Beach House Maui; Kimo's Restaurant; Leilani's on the Beach; Duke's Canoe Club Waikiki; Times Supermarket; Smart Business Hawaii; Hawaii Restaurant Association; Island Princess; Foodland Supermarket Ltd.; Food Pantry Ltd.; Coffee Pacific LLC; and five individuals.

Your Committee received comments on this measure from the Hawaii State Teachers Association and one individual.

MINIMUM WAGE INCREASE

Your Committee finds that the minimum wage rate in Hawaii was last amended in 2007 and has remained at \$7.25 per hour for the last seven years. The Department of Labor and Industrial Relations testified that the average weekly earnings have increased sixteen percent since 2007, but zero percent for minimum wage workers. In comparison, as of January 1, 2014, twenty other states have higher minimum wage rates than Hawaii's rate, including Washington with the highest minimum wage rate in the nation at \$9.32 per hour.

According to the United States Census Bureau, Hawaii's poverty rate of 17.3 percent makes Hawaii the ninth poorest state in the nation. A single parent with one child with a minimum wage job earns \$15,080 per year, if this individual works forty hours per week for fifty-two weeks per year. This is \$2,770 or sixteen percent below the 2013 federal poverty guidelines for a family of two. As a result, many families earning wages at or below the minimum wage rate receive various types of public assistance, including food stamps, Medicaid, and free or reduced priced school meals for children. A study indicates that economists on both sides of the issue agree that raising the minimum wage reduces poverty.

Furthermore, the Department of Labor and Industrial Relations testified that since 2002, the minimum wage rate has increased four times and on each of these occasions, the number of jobs increased by an average of 2.2 percent over the next twelve months after the minimum wage rate increased. For example, a total of fifteen thousand seven hundred jobs were added to Hawaii's economy twelve months following the minimum wage increase in 2002 and a total of fifteen thousand jobs were added in the twelve months following the minimum wage increase in 2006.

Therefore, by raising the minimum wage rate by 95 cents per year for the next three years to achieve a minimum wage rate of \$10.10 per hour beginning January 1, 2017, this measure will boost the State's economy, improve the quality of life for minimum wage workers, and increase the number of jobs available.

Your Committee recognizes the written testimony submitted in opposition to this measure that increasing Hawaii's minimum wage rate in 95-cent increments over a three year period may pose a financial burden on businesses. However, your Committee notes that the United States Senate is currently deliberating a measure that proposes to raise the federal minimum wage rate to \$10.10 per hour over the span of three years. Furthermore, during the State of the Union Address on January 27, 2014, President Obama stated his intention to use his executive power to increase the minimum wage rate to \$10.10 per hour for workers on new government contracts. Thus, raising the minimum wage rate to \$10.10 per hour for Hawaii would mirror the changes proposed in the federal minimum wage rate.

#### MINIMUM WAGE ADJUSTED BASED ON THE CONSUMER PRICE INDEX

Your Committee finds that the low minimum wage rate is exacerbated by Hawaii's high cost of living. According to the Missouri Economic Resource and Information Center, Hawaii continues to have the highest cost of living as of the third quarter of 2013. However, the lack of increase in Hawaii's minimum wage fails to correlate with Hawaii's rising cost of living. Furthermore, according to the Massachusetts Institute of Technology's minimum wage calendar for the City and County of Honolulu, the minimum wage rate should be \$12.91 for a single individual and \$25.83 for a single parent with one child. However, Hawaii's existing minimum wage rate remains at \$7.25 per hour.

The Department of Labor and Industrial Relations testified that of the twenty states that have a higher minimum wage rate than Hawaii, thirteen of these states index their minimum wage rate to inflation so that the real value of the minimum wage does not fall every year. For example, Washington's minimum wage rate at \$9.32 per hour is twenty-nine percent higher than Hawaii's minimum wage rate, but Washington's cost of living is fifty-five percent lower than Hawaii's cost of living.

Your Committee notes the written testimony in opposition to this measure that indicate that adjusting the minimum wage rate based on a price index may cause difficulties for businesses to create budgets in advance because the price index is unpredictable. However, your Committee strongly believes that adjusting the minimum hourly wage to the nearest 5 cents based on the Honolulu region consumer price index will more accurately reflect Hawaii's economic changes, provide a mechanism to keep up with the cost of inflation, provide employers with more predictable and gradual increases in the minimum wage rate over time, and avoid continual review by the Legislature. Furthermore, this measure requires that if the adjustment based on the Honolulu region consumer price index results in a lower minimum wage rate, the minimum wage rate will not decrease and remain at the most recently established minimum wage rate. Thus, this requirement preserves the purchasing power of minimum wage workers and helps to lift minimum wage workers and their families out of poverty.

#### REPEAL OF THE TIP CREDIT

Your Committee finds that the tip credit has made Hawaii's service industry workers particularly vulnerable due to the varying levels of customer tips, which supplement wages that are lower than the minimum wage rate. According to the Department of Labor and Industrial Relations, the average tip worker in Hawaii earns approximately \$9.87 per hour including tips and that tipped workers are more likely to live under the federal poverty guidelines. This measure repeals the tip credit to treat all workers equally.

Your Committee notes that written testimony was submitted which opposed the repeal of the tip credit and instead proposed that the tip credit be increased. However, data submitted to your Committee indicates that participation by employers is low enough that no undue harm will result in the elimination of the tip credit.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2609 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Ihara).

#### **SCRep. 2060      Judiciary and Labor on S.B. No. 2120**

The purpose and intent of this measure is to exempt contributions from a candidate's immediate family members from the law relating to contribution limits instead of the law that prohibits contributions from state and county contractors.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that this measure conforms the law relating to campaign contributions by a candidate's immediate family to the campaign finance laws prior to the codification of Act 211, Session Laws of Hawaii 2010.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2120 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Solomon).

#### **SCRep. 2061      Judiciary and Labor on S.B. No. 2249**

The purpose and intent of this measure is to conform the agency meeting agenda requirements under the Sunshine Law for proposed administrative rulemaking to the agency meeting agenda requirements under administrative rulemaking laws.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Business, Economic Development, and Tourism; and Office of Information Practices.

Your Committee finds that the laws relating to administrative rulemaking require an agency to give public notice of any proposed adoption, amendment, or repeal of administrative rules. When the agency is a board that is subject to the Sunshine Law under chapter 92, Hawaii Revised Statutes, and wishes to discuss the proposed rules during a public meeting, the board is also required to follow the public notice requirements under the Sunshine Law.

As the Office of Information Practices notes in testimony, the notice requirements under administrative rulemaking laws and the notice requirements under the Sunshine Law rely upon different assumptions. Notice requirements under administrative rulemaking laws focus on providing the public with information on how to obtain or view the text of the proposed adoption, amendment, or repeal of administrative rules and therefore require only general descriptions of the topic of the proposed rule adoption, amendment, or repeal in the agenda. On the other hand, notice requirements under the Sunshine Law imply that the agenda itself must provide notice of all necessary information because the reader is not assumed to have access to additional information, such as the actual text of the proposed adoption, amendment, or repeal of administrative rules. To prevent challenges of not satisfying notice requirements under the Sunshine Law, some agencies have been attaching the entire text of their proposed rules to the agenda, creating a burden on public agencies and frustrating the purpose of a meeting agenda.

This measure is necessary to enable the satisfaction of notice requirements under administrative rulemaking laws to also satisfy notice requirements under the Sunshine Law for agenda items relating to administrative rulemaking.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2249, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Solomon).

**SCRep. 2062 Judiciary and Labor on S.B. No. 2253**

The purpose and intent of this measure is to:

- (1) Create the offense of refusal or failure to provide specimen for forensic identification in the second degree as a misdemeanor for the negligent or reckless refusal or failure to provide a specimen for forensic identification; and
- (2) Amend the offense of refusal or failure to provide specimen for forensic identification under section 844D-111, Hawaii Revised Statutes, by:
  - (A) Changing the name of the offense to refusal or failure to provide specimen for forensic identification in the first degree; and
  - (B) Grading the offense as a class C felony for the intentional or knowing refusal or failure to provide a specimen for forensic identification.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Public Safety, Police Department of the County of Maui, and Police Department of the City and County of Honolulu.

Your Committee finds that all individuals who are convicted of a felony offense are required to submit DNA samples for the purpose of establishing a DNA database that can be used to solve crimes, including cold cases, and exonerate the innocent. Under existing law, if a convicted felon refuses to provide a DNA sample, the only mechanism to obtain compliance is the threat of being prosecuted for a negligent or reckless violation of the offense of refusal or failure to provide specimen for forensic identification under section 844D-111, Hawaii Revised Statutes. By establishing two separate offenses and grades of penalties for the failure or refusal to comply with forensic identification requirements, this measure will allow for more effective enforcement of DNA sample collection requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2253, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2253, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Solomon).

**SCRep. 2063 (Joint) Agriculture and Higher Education on S.B. No. 2455**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii College of Tropical Agriculture and Human Resources to operate and implement the 4-H program.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawaii College of Tropical Agriculture and Human Resources; Hawaii Cattlemen's Council, Inc.; 4 Ag Hawaii; Hawaii Farm Bureau Federation; and one individual.

Your Committees find that cultivating a new generation of farmers and ranchers is vital to Hawaii's agricultural economy and sustainability. The 4-H program works directly with volunteer farmers and ranchers to inspire youth to pursue agricultural endeavors and to become future leaders in the agricultural industry. Accordingly, supporting the 4-H program is vital to the State's future.

Your Committees believe that an appropriation of approximately \$120,000 would be necessary for the University of Hawaii to broaden the reach and impact of the 4-H program in various communities of each county.

As affirmed by the records of votes of the members of your Committees on Agriculture and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2455 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 6. Noes, none. Excused, 1 (Wakai).

Higher Education

Ayes, 4. Noes, none. Excused, 3 (Ige, Keith-Agaran, Tokuda).

**SCRep. 2064 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2021**

The purpose and intent of this measure is to:

- (1) Establish the offense of resisting arrest in the first degree for a person who intentionally prevents a law enforcement officer from effecting an arrest by either removing or attempting to remove a firearm from the law enforcement officer; and
- (2) Amend the existing resisting arrest misdemeanor offense to resisting arrest in the second degree.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Police Department, City and County of Honolulu; Police Department, County of Hawaii; and Police Department, County of Maui.

Your Committee finds that law enforcement officers face inherent dangers during arrest situations. For example, when an offender attempts to or succeeds in removing a law enforcement officer's firearm to facilitate an arrest, the public and law enforcement officers are at great risk for serious injury or death. However, Hawaii's existing penal code does not adequately address these dangerous situations. Your Committee finds that establishing the offense of resisting arrest in the first degree and amending the existing arrest misdemeanor offense to resisting arrest in the second degree will have long-term deterrent effects, as well as create a safer working environment for law enforcement officers and the public.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2021 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2065 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2258**

The purpose and intent of this measure is to protect liquor commission investigators engaged in the performance of their duties by establishing knowingly or intentionally causing bodily injury to liquor commission investigators while performing their job duties as assault in the second degree.

Your Committee received testimony in support of this measure from the Liquor Commission, City and County of Honolulu; Department of Liquor Control, County of Hawaii; and Department of Liquor Control, County of Kauai.

Your Committee finds that similar to other public safety individuals, liquor commission investigators often work in environments where there is a risk of assault. As liquor commission investigators frequently work alone in alcohol-fueled environments, your Committee finds it necessary to include liquor commission investigators who are performing their job duties in the class of public safety persons protected from the offense of assault in the second degree.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2258 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2066 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2309**

The purpose and intent of this measure is to appropriate funds for the establishment and implementation of a residential reentry facility and day reporting program for criminal offenders, including offenders in the work furlough program.

Your Committee received testimony in support of this measure from the Department of Public Safety and Hawaii Substance Abuse Coalition. Your Committee received comments on this measure from the City and County of Honolulu Department of the Prosecuting Attorney.

Your Committee finds that the State has an extensive problem with recidivism and prison capacity. Reentry programs house offenders in transitional environments while they learn to reengage with the community and learn how to confront the many obstacles in their path to successful reintegration. To alleviate the State's problems with recidivism and to meet the needs of adult offenders, this

measure appropriates funds for the Department of Public Safety to establish and implement a residential reentry facility and day reporting program for criminal offenders, including offenders in the work furlough program.

Your Committee has amended this measure by:

- (1) Adding language to the purpose section to clarify that offenders in the work furlough program may be residents of the reentry facility and day reporting program;
- (2) Adding language to authorize the issuance of general obligation bonds and amending the source of funding to general obligation bond proceeds; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2309, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2309, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2067 (Joint) Public Safety, Intergovernmental and Military Affairs and Human Services on S.B. No. 2310**

The purpose and intent of this measure is to give immediate notice of escape of a prisoner who is a domestic violence offender to each victim of the domestic violence and individuals protected by a restraining order against the escapee.

Your Committees received testimony in support of this measure from the Department of Public Safety, Domestic Violence Action Center, and one individual. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of the Prosecuting Attorney.

Your Committees find that an escaped prisoner may return to the residence of one or more victims. If a domestic violence victim or an individual protected by a restraining order is able to receive notice of the escape, it will assist the individual in seeking safety.

Your Committees have amended this measure by:

- (1) Adding language requiring the Department of Public Safety to work with county victim assistance offices to give notice to victims; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2310, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2310, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Human Services  
Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2068 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2367**

The purpose and intent of this measure is to:

- (1) Clarify persons or businesses that may be served criminal process under Hawaii law;
- (2) Specify circumstances under which certain persons or businesses located in Hawaii may be served criminal process issued by or in another state; and
- (3) Specify information the service of process issued by or in another state must include.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Police Department, City and County of Honolulu; and Department of the Attorney General.

Your Committee finds that Act 325, Session Laws of Hawaii 2012, codified as chapter 806D, Hawaii Revised Statutes, created a criminal long arm statute to authorize Hawaii courts to order the production of records, including electronic records, held by entities outside of the State for criminal matters. Prior to the enactment of chapter 806D, Hawaii Revised Statutes, out-of-state entities could not be compelled to comply with service of process in criminal matters issued by Hawaii courts. However, as the Department of the Attorney General notes in testimony, several issues have arisen out of this law, including a lack of a nexus requirement between a Hawaii recipient of process and the service-issuing state, confusion regarding the use of certain terms, and the potential for other states to issue process in an attempt to compel government agencies to disclose protected records. Your Committee finds that this measure is necessary to correct these issues and improve the application of the criminal process records law.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2367, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2367, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2069 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2592**

The purpose and intent of this measure is to:

- (1) Require the Department of Public Safety to establish a two-year diversion and reentry pilot project with no more than one hundred offenders, subject to a thorough initial screening and monitoring;
- (2) Require the service providers to collect data from the pilot project and submit a status report to the Department of Public Safety every six months for evaluation of the project's effectiveness; and
- (3) Make an appropriation for the diversion and reentry pilot project.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Substance Abuse Coalition, Community Alliance on Prisons, and the Salvation Army Addiction Treatment Services. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that the State's community correction centers are overcrowded. There are over one hundred forty drug offenders who are classified as low-risk inmates. Furthermore, fifty percent of the State's prisoners are dependent on drugs, yet less than twenty percent receive formal treatment while incarcerated.

Your Committee further finds that structured community-based treatment programs produce measurable outcomes and enable nonviolent offenders to transition into the community and achieve self-sufficiency. The diversion and reentry pilot project will establish an alternative to incarceration by diverting nonviolent offenders with substance-abuse issues from incarceration into a coordinated system of community-based treatment programs, resulting in long-term savings, a reduction in the prison population, and a reduction in recidivism among nonviolent drug offenders.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2592 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2070 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2884**

The purpose and intent of this measure is to:

- (1) Require the furnishing of funds by the Hawaii Paroling Authority to certain persons for immediate needs upon discharge or parole to be contingent upon legislative appropriations specifically for that purpose;
- (2) Clarify circumstances under which the Hawaii Paroling Authority may grant early discharges; and
- (3) Provide discretion to the Hawaii Paroling Authority to grant complete pardons for paroled prisoners who have been paroled for at least five years.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, Department of the Prosecuting Attorney of the City and County of Honolulu, and Community Alliance on Prisons.

Your Committee finds that when offenders are discharged from the correctional system, they often do not have any money. This measure will address the problem by providing funds to offenders who have undergone a commitment or sentence of more than one year and are exiting the correctional system or being discharged from parole.

Your Committee additionally finds that the Hawaii Paroling Authority is required to conduct a pardon investigation of every offender who has been on parole for at least five years, regardless of their adjustment to the community, current parole violation status, criminal history, or outstanding restitution that may be owed. Your Committee finds that the Hawaii Paroling Authority should have discretion in considering a complete pardon of these offenders.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2884, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2884, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2071 Human Services on S.B. No. 2265**

The purpose and intent of this measure is to appropriate funds to improve the existing public housing stock and increase the supply of public housing units in the State.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Hawaii Primary Care Association, Community Alliance for Mental Health, and Blueprint for Change.

Your Committee finds that the Hawaii Public Housing Authority continues to be underfunded by the United States Department of Housing and Urban Development, and has extensive and growing capital needs. According to the Authority, approximately \$462,000,000 is needed for capital improvements to its aging housing stock. In addition, as indicated in the 2011 Hawaii Housing Planning Study, the State needs approximately 50,000 new units by 2016 to meet the growing demand for housing, of which 19,000 units are for sale and rental units needed for household income levels of eighty percent or below the area median income for the State. This measure addresses the Authority's capital needs by allocating \$50,000,000 to improve existing public housing stock and increase the supply of public housing units.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2265 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2072 Human Services on S.B. No. 2840**

The purpose and intent of this measure is to allow the Department of Human Services to draw from other funds appropriated to the Department in the event the general assistance appropriation is insufficient to maintain general assistance benefits payments.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that it is important for the Department to have the flexibility to transfer surplus funds between various programs to ensure that the general assistance program sustains adequate funding. Your Committee further finds that the general assistance program is the primary source of temporary cash assistance for individuals in Hawaii who have suffered a temporary illness or injury that prevents them from working, or who have permanent disabilities and are awaiting permanent federal disability benefits. The general assistance program is a block grant program and, therefore, the maximum allowance a recipient can receive depends on the amount appropriated by the Legislature and the number of general assistance recipients.

In previous years, the monthly general assistance allowance has dropped as low as \$234 due to high caseloads and insufficient funding. Consequently, the Department has had to request emergency appropriations. This measure provides more stability and more reasonable monthly allocations for individuals who need temporary assistance by allowing the Department to transfer surplus funds from other programs to the general assistance program. This measure requires the Department to be transparent regarding the use of its appropriations by submitting to the Legislature a report detailing the funds and calculations used.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2840 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2073 Human Services on S.B. No. 2841**

The purpose and intent of this measure is to establish the interim assistance reimbursement special fund into which interim assistance reimbursements received from the Social Security Administration will be deposited for repayment of state-funded financial assistance programs so that the Department of Human Services can expend the interim assistance reimbursement funds for state-funded financial assistance programs.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that, as a result of the length of time it takes for a determination of Supplemental Security Income to be made, the Department of Human Services does not receive interim assistance reimbursements from the Social Security Administration for state-funded benefits paid to social security income applicants during the same fiscal year in which the benefits are paid. As a result, each year a significant amount of the interim assistance reimbursements received by the Department lapse into the general fund, and the Department is unable to use the funds for its state-funded financial assistance programs, which have been underfunded for many years. When the state-funded assistance programs are underfunded, monthly benefits to families already living far below poverty levels are reduced, families are threatened with homelessness, and the Department is forced to request emergency appropriations. This measure allows the state-funded financial assistance programs to remain more adequately funded with money that otherwise lapses into the general fund due to the timing of the Department's receipt of interim assistance reimbursements from the prior fiscal year. The reimbursements will be deposited into the interim assistance reimbursement special fund and used by the Department for its state-funded financial assistance programs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2841 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2074 (Majority) Human Services on S.B. No. 2395**

The purpose and intent of this measure is to deter crimes against the homeless by requiring mandatory minimum terms of imprisonment for certain felonies and extended terms of imprisonment for certain felonies that are committed against an individual or family that the defendant knew or reasonably should have known was homeless.

Your Committee received testimony in support of this measure from the Institute for Human Services, Blueprint for Change, Community Alliance for Mental Health, and one individual. Your Committee received comments on this measure from Hawaii Appleseed Center for Law and Economic Justice and one individual.

Your Committee finds that recent acts of violence against unsheltered homeless individuals demonstrate a need for more protection for Hawaii's homeless population. In the last couple of months, three homeless, unsheltered men between the ages of thirty and eighty-three were murdered on the streets of Oahu. Your Committee further finds that it is important to highlight the vulnerability of the homeless who are unsheltered, as those are the individuals being targeted and victimized.

Your Committee agrees with the amendments suggested by the Institute for Human Services and Hawaii Appleseed Center for Law and Economic Justice to include the unsheltered homeless as a protected class of crime victims under hate crime sentencing. This amendment would not only acknowledge the underlying discrimination that is believed to have incited the recent acts of violence against the homeless, but also recognize the widespread fear of being targeted that these acts instill in Hawaii's unsheltered homeless population.

Your Committee has amended this measure by:

- (1) Removing language making certain felonies committed against the homeless subject to mandatory minimum terms of imprisonment without the possibility of parole;
- (2) Adding language to specify that extended terms of imprisonment for certain crimes committed against a homeless person or family are applicable only if the homeless person or family is in an unsheltered state;
- (3) Adding language to include unsheltered homeless as a class of victims for which a defendant may be subject to extended terms of imprisonment as a hate crime offender;
- (4) Defining "unsheltered homeless" as an individual or family who has a primary night-time residence that is a public or private place not designed for or ordinarily used as sleeping accommodations for human beings; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2395, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, 1 (Slom). Excused, 1 (Kidani).

**SCRep. 2075 Human Services on S.B. No. 2842**

The purpose and intent of this measure is to appropriate \$6,020,727 in general funds as an emergency appropriation to the Department of Human Services for general support for health care payments to address the funding shortfall in the Medicaid program resulting from a delay in reimbursement.

Your Committee received testimony in support of this measure from the Department of Human Services, Community Alliance for Mental Health, and one individual. Your Committee received comments on this measure from the Hawaii Health Connector.

Your Committee finds that the Department provided services and funding to the Hawaii Health Connector to develop components of the health insurance exchange required by the Patient Protection and Affordable Care Act. The services and funding provided, along with a mandatory 5.25 percent cost allocation for the Medicaid Kauhale On-Line Eligibility Assistance system, were paid for with general funds with the understanding that the Hawaii Health Connector would reimburse the Department through the Hawaii Health Connector's own federal funds. As of November 1, 2013, the costs owed to the Department totaled \$6,020,727. While encumbered, the Department is unable to use these funds for other purposes and cannot fund its core operations.

Your Committee received testimony from the Department of Human Services indicating that, since the original emergency appropriation request, the Hawaii Health Connector has reimbursed the Department for some of the services and monies provided by the Department. Your Committee finds that the Department has been reimbursed for the following:

- (1) Work performed that would have allowed Connector system functionality so individuals could browse for and select qualified health plans for both Medicaid and the Connector at the same time;
- (2) Work performed on the transition necessary to revise the Connector system to separate the browsing and selection functions for Medicaid and the Connector when the design was changed; and
- (3) Work performed to allow the Connector to interface with the state data services hub.

Accordingly, your Committee has amended this measure by:

- (1) Adding language reflecting the services and corresponding amounts for which the Department of Human Services has recently been reimbursed;
- (2) Amending the appropriation to \$4,854,037 to reflect the \$1,166,690 the Department has recently received from the Hawaii Health Connector; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2842, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2842, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2076 Human Services on S.B. No. 2845**

The purpose and intent of this measure is to authorize the Director of Human Services to appoint and employ professional staff, not subject to civil service law, when the Director determines that the services to be performed are unique and essential to the execution of the state medical assistance programs.

Your Committee received testimony in support of this measure from the Department of Human Services. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association and one individual.

Your Committee finds that it is challenging for the Department to recruit, hire, and compensate high level managerial and professional staff to manage critical functions of the \$1,800,000,000 medical assistance programs. State civil service system requirements make it very difficult to recruit qualified individuals with the requisite knowledge for specialized positions within the complex medical assistance programs and offer them competitive salaries.

Your Committee finds that the Department needs some flexibility in its hiring ability and salary range options so that the Department can attract qualified applicants to fill important positions within the medical assistance programs. However, your Committee also acknowledges the concern regarding the proliferation of positions that are exempt from civil service law. Your Committee believes that a collaborative effort should be made to find a more permanent solution to the challenge the Department faces in being able to recruit qualified candidates and offer competitive salaries for high level positions.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2845, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2077 Human Services on S.B. No. 2846**

The purpose and intent of this measure is to support the effective management of the Department of Human Services' diverse and complex programs affecting poor and vulnerable adults and children statewide by restoring the second deputy director position.

Your Committee received testimony in support of this measure from the Department of Human Services and Department of Human Resources Development. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Department of Human Services is an extremely large and complex department, and that an additional deputy director position will assist the director tremendously in managing the resources of the agency. The Department has the largest operating budget of any state department and the fifth largest staff of any department. The Department is critical to serving the State's needy adults and children, and the programs that serve such populations are complex and driven by unique state and federal laws, rules, and regulations. The breadth of knowledge required to effectively manage all of the Department's programs and funds is extremely difficult to develop, and each of the Department's programs require specialized leadership and expertise. It is particularly critical that the Department's budget of over \$2,500,000,000 is spent on programs that are run well and comply with federal and state laws and regulations so that tax dollars are well spent and programs serve the community as intended. The second deputy director position was eliminated in 1994 due to the poor economy, and this measure restores a critical position to assist the director in effectively managing this invaluable department.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2846, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2846, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2078 (Joint) Human Services and Health on S.B. No. 2535**

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Health for substance abuse treatment, mental health support services, and clean and sober housing services;
- (2) Appropriate funds for a rental assistance program;
- (3) Appropriate funds to the Department of Human Services to continue to administer Housing First programs for chronically homeless individuals and reestablish the homeless prevention and rapid re-housing program;

- (4) Appropriate matching funds for the federal continuum of care permanent supportive housing programs to provide rental assistance in connection with supportive services;
- (5) Appropriate funds for innovative temporary housing solutions related to the homeless assistance working group's findings and recommendations; and
- (6) Transfer the homeless assistance working group from the Department of Human Services to the Legislature.

Your Committees received testimony in support of this measure from the Department of Human Services; City Council, City and County of Honolulu; Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Economic Justice; PHOCUSED; Kauai Community Alliance; Pacific Alliance to Stop Slavery; Waikiki Health; Community Alliance for Mental Health; Partners in Care; Hawaii Primary Care Association; Witt Counseling Service; and one individual. Your Committees received comments on this measure from the Department of Health and one individual.

Your Committees find that homelessness is a complex and growing challenge in Hawaii, and that addressing the issue requires a multi-faceted approach. Your Committees recognize that stable housing is a critical component in the continuum of substance abuse treatment and recovery. In addition, it is important to assist homeless families and those in transitional housing that seek permanent rental housing by providing rent subsidies that make permanent housing affordable.

Your Committees further find that Housing First programs are essential to moving chronically homeless individuals into permanent housing with wrap-around services. Your Committees note their support of the request in the Executive Supplemental Budget submitted by the Governor for \$1,500,000 for continuation of the Housing First program.

Your Committees also find that providing matching funds for federally funded continuum of care permanent supportive housing programs would enable over six hundred disabled homeless to be re-integrated into the community and maintain housing. Finally, your Committees note the value of innovative temporary housing solutions.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2535, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2535, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2079 (Joint) Human Services and Health on S.B. No. 2264**

The purpose and intent of this measure is to enable caregivers to provide competent post-hospital care to their loved ones, at minimal cost to taxpayers, by:

- (1) Allowing a patient the opportunity, upon entry to a hospital, to designate a caregiver;
- (2) Requiring hospitals to notify and meet with the designated caregiver to discuss the patient's plan of care; and
- (3) Requiring hospitals to instruct the designated caregiver in after-care tasks upon a patient's discharge.

Your Committees received testimony in support of this measure from the AARP Hawaii, Healthcare Association of Hawaii, Hawaii Family Caregiver Coalition, Hawaii Primary Care Association, International Longshore and Warehouse Union Local 142 Hawaii, and seven individuals.

Your Committees find that there are approximately 247,000 unpaid family caregivers in Hawaii that serve as the backbone and support for Hawaii's aging residents and those with physical or cognitive limitations. These caregivers provide services that are valued annually at \$2,000,000,000. In addition, unpaid caregivers help prevent unnecessary hospital readmissions by providing adequate care for their family members and loved ones. Each year, \$17,000,000,000 in Medicare funds is spent on unnecessary hospital readmissions, and Hawaii's hospitals are subject to federal financial penalties due to excessive readmissions.

Your Committees further find that the role of unpaid caregivers is expanding to include medical and nursing tasks that historically were only provided in hospitals and nursing homes or by home care professionals. The tasks most commonly performed by caregivers are medication management, help with assistive mobility devices, preparing food for special diets, and wound care. This measure recognizes the importance of unpaid caregivers and their need for adequate training and support.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2264, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2264, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Human Services  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Health  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2080 (Joint) Human Services and Health on S.B. No. 2531**

The purpose and intent of this measure is to support a coordinated statewide effort to prevent and reduce the impact of falls among older adults by establishing a fall prevention and early detection coordinator position within the Emergency Medical Services and Injury Prevention System Branch of the Department of Health.

Your Committees received testimony in support of this measure from the Department of Health, Executive Office on Aging, Hawaii Primary Care Association, International Longshore and Warehouse Union Local 142 Hawaii, and one individual.

Your Committees find that falls are by far the leading cause of fatal injuries, injury-related hospitalizations, and emergency medical services attended injuries among adults sixty-five years of age and older in Hawaii. Direct medical costs for fall and fall-related injuries among older adults amount to almost \$95,000,000 each year, and the amount doubles when including the costs of rehabilitation and long term care. Your Committees further find that access to fall prevention services and programs would significantly reduce these costs as well as minimize suffering and death of Hawaii's aging adults. Currently there are insufficient resources to develop a statewide approach to reduce and promptly detect falls among the elderly. A position within the Department of Health's Emergency Medical Services and Injury Prevention System Branch is needed to establish and maintain a program dedicated to fall prevention and detection efforts.

Your Committees have amended this measure by:

- (1) Amending the amount of funds appropriated out of the trauma system special fund from \$78,555 to \$81,985 to reflect the recently adjusted salary rate for state employees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2531, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2531, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Health  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2081 (Joint) Economic Development, Government Operations and Housing and Transportation and International Affairs and Agriculture on S.B. No. 2020**

The purpose and intent of this measure is to establish an agricultural foreign-trade zone and specify its boundaries, jurisdiction, and benefits.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation, Hawai'i Farm Bureau, and Sugarland Growers, Inc. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and one individual.

Your Committees find that foreign-trade zones are secure areas under United States Customs and Border Protection supervision that are located in or near ports of entry into Customs and Border Protection territory. However, as far as the provision of certain economic benefits, foreign-trade zones are generally considered outside of Customs and Border Protection territory. Essentially, foreign and domestic merchandise may be moved into foreign-trade zones for legal operations in order to receive benefits such as control over the timing of imposition of certain taxes and duty and control over the rates of certain taxes and duty imposed, high level of security and therefore protection against theft for merchandise stored in the foreign-trade zone, and satisfaction of certain exportation requirements imposed by law. Your Committees find that an agricultural foreign-trade zone in the State can assist agricultural businesses with warehouse savings, import and export resources, manufacturing incentives, and export financing.

Your Committees have amended this measure by:

- (1) Removing the parcel of land identified by tax map key 7-1-002-099 from the agricultural foreign-trade zone and inserting the parcel of land identified by tax map key 7-1-002-009; and
- (2) Making technical amendments to the listing of the tax map keys.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing, Transportation and International Affairs, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2020, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2020, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture  
Ayes, 5. Noes, none. Excused, 2 (Kouchi, Wakai).

**SCRep. 2082 Hawaiian Affairs on S.B. No. 2268**

The purpose and intent of this measure is to require a portion of the general excise tax to be deposited into the Hawaiian home administration account for operational expenses of the Department of Hawaiian Home Lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Auamo I Na Alaka'i, and Waimanalo Hawaiian Homes Association. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds the Department of Hawaiian Home Lands has lacked sufficient funding from the State for its operational expenses since 1960. Allocating a set sum of money from general excise tax revenues to the Hawaiian home administration account will ensure that the Department's operational expenses are appropriately and consistently funded.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2268, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2268, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2083 Hawaiian Affairs on S.B. No. 2254**

The purpose and intent of this measure is to:

- (1) Establish a candidate advisory council to present nominees to the Governor for the appointment of individuals to serve on the Hawaiian Homes Commission;
- (2) Require all members of the Hawaiian Homes Commission to be of Hawaiian ancestry; and
- (3) Require the members of the commission, rather than the Governor, to select a chairperson from among the members of the commission to serve a one-year term commencing on July 1 and expiring on June 30.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Auamo I Na Alaka'i, and Waimanalo Hawaiian Homes Association. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that, recently, the Department of Hawaiian Home Lands has attracted increased scrutiny for program deficiencies uncovered by the press as well as departmental audits. As a consequence, certain communities, including those of Hawaiian ancestry, are wary of the selection process for Hawaiian Homes commissioners, including the chairperson. This measure assures that all commissioners selected for the Hawaiian Homes Commission, including the chairperson, are vetted and approved by a broad range of stakeholders and beneficiaries, rather than only the Governor and Senate.

Your Committee has amended this measure by:

- (1) Requiring one member, rather than two members, of the candidate advisory council to be appointed by the Sovereign Councils of the Hawaiian Homelands Assembly;
- (2) Requiring one member of the candidate advisory council to be appointed by Auamo I Na Alaka'i;
- (3) Requiring one member of the candidate advisory council to be appointed by the Association of Hawaiian Civic Clubs;
- (4) Requiring two members, rather than one member, of the candidate advisory council to be appointed by the Hawaiian Homes Commission;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2254, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2254, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2084 Commerce and Consumer Protection on S.B. No. 2819**

The purpose and intent of this measure is to require all managed care plans to provide health insurance premium information to the Insurance Commissioner upon request and to require the Insurance Commissioner to publish representative annual premiums annually.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, Hawai'i Primary Care Association, and one individual.

Your Committee finds that the Insurance Commissioner is able to collect and create motor vehicle and home insurance premium comparison sheets that enable the public to shop for and compare these policies. This measure establishes similar requirements for the submission of health insurance premium information to the Insurance Commissioner and requires the Insurance Commissioner to publish representative premium information annually and electronically, such as through a premium comparison sheet for health insurance premiums.

Your Committee further finds that the federal Patient Protection and Affordable Care Act of 2010 mandates individuals to acquire health care coverage or face a penalty. The State's Prepaid Health Care Act also requires many employers to provide prepaid health care plans to certain types of employees. This measure affords individuals and small businesses the opportunity to review and compare health premiums from all health insurers, thereby helping Hawaii consumers make informed decisions when purchasing required health insurance.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2085 Commerce and Consumer Protection on S.B. No. 2386**

The purpose and intent of this measure is to establish the offense of advertising the sale of stolen property.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs Office of Consumer Protection and one individual.

Your Committee finds that victims of property theft often find their belongings advertised for sale in various locations such as the Internet. This measure would criminalize the advertisement of stolen property and would make the advertisement for the sale of such stolen property equivalent to the same grade of offense as theft of the property advertised for sale. Your Committee further finds that this measure will afford additional protection to consumers by reducing the occurrence of stolen goods being advertised for sale.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2386, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2386, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2086 Commerce and Consumer Protection on S.B. No. 2817**

The purpose and intent of this measure is to amend the Secure and Fair Enforcement for Mortgage Licensing Act by:

- (1) Adding or amending various definitions for clarity;
- (2) Deleting exemptions for individuals facilitating mortgage loans for family members and family property;
- (3) Clarifying requirements for branch managers;
- (4) Requiring mortgage loan originator companies to be open during regular business hours to the public and for examination or investigation by the Commissioner of Financial Institutions;
- (5) Excluding certain information included in NMLS from confidentiality provisions of the law; and
- (6) Making various housekeeping amendments for clarity.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawaii Financial Services Association. Your Committee received comments on this measure from the Hawaii Association of Mortgage Professionals.

Your Committee finds that in recent years, numerous changes have been made to chapter 454F, Hawaii Revised Statutes, the Secure and Fair Enforcement for Mortgage Licensing Act. This measure is primarily a housekeeping measure that brings consistency to the recent amendments made to that chapter.

Your Committee further finds that under chapter 454F, Hawaii Revised Statutes, there are separate licenses for mortgage loan originator companies and mortgage loan originators. Your Committee has heard the concerns about single business owners who are mortgage loan originators and mortgage loan originator companies but are being asked to pay the company license fee and the individual license fee. Your Committee therefore finds that amendments are necessary to address the duplication of fees paid by these single business owners and clearly reflect the Division of Financial Institutions' interpretation of who constitutes a sole proprietorship.

Your Committee additionally finds that this measure requires mortgage loan originator companies and mortgage servicer companies to be in good standing with the Business Registration Division of the Department of Commerce and Consumer Affairs. However, the Business Registration Division does not issue certificates of good standing for trade names used by sole proprietorships. Therefore, amendments to this requirement are necessary.

Your Committee has amended this measure by:

- (1) Clarifying the definition of “offers or negotiates terms of a residential mortgage loan”;
- (2) Adding a definition of “sole proprietorship” to better reflect the situation where a mortgage loan origination company is owned and operated by a single business owner that is also a mortgage loan originator and deleting language that would have added a new definition of “sole proprietor”;
- (3) Deleting language that stated a mortgage loan originator company or mortgage servicer company had to be in good standing with the Business Registration Division of the Department of Commerce and Consumer Affairs;
- (4) Clarifying the requirements for mortgage loan originator companies to be open for business during posted business hours;
- (5) Clarifying the authority of the Commissioner of Financial Institutions or the Commissioner’s authorized representatives to conduct an examination or investigation of a mortgage loan originator company during regular business hours; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2817, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2817, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2087 Commerce and Consumer Protection on S.B. No. 2482**

The purpose and intent of this measure is to clarify the parties that a homeowners association can serve through publication, after a hearing before a judge, in a nonjudicial foreclosure proceeding.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs Office of Consumer Protection; Collection Law Section of the Hawaii State Bar Association; Hawaii Council of Associations of Apartment Owners; Hawaii First, Inc.; and one individual.

Your Committee finds that under section 667-92, Hawaii Revised Statutes, an association is required to serve its notice of default and intention to nonjudicially foreclose on certain parties. If an association cannot find the unit owner, it may go to court to ask for permission to serve the owner by publication. However, section 667-92, Hawaii Revised Statutes, has been interpreted in some cases to not specifically allow an association to serve any other potential defendants, such as defunct lenders or long lost judgment holders, by publication if these entities or individuals cannot be found. This prevents the association’s nonjudicial foreclosure from going forward, and the financial and time saving benefits of the nonjudicial foreclosure process are lost.

Your Committee finds that this measure addresses this concern by allowing a judge to approve service of certain other missing defendants by publication so an association’s nonjudicial foreclosure can continue. In doing so, this measure also supports the intent of chapter 667, part VI, Hawaii Revised Statutes, which is to provide associations with a means to foreclose nonjudicially without having to resort to the expensive and time-consuming judicial foreclosure process.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2482 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2088 Commerce and Consumer Protection on S.B. No. 2483**

The purpose and intent of this measure is to clarify that:

- (1) A condominium association’s lien is subordinate to real property taxes, rather than all taxes; and
- (2) A condominium association may assess unpaid common fees against a purchaser, in addition to a mortgagee, who purchases a delinquent unit in a judicial or nonjudicial power of sale foreclosure.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs Office of Consumer Protection; Collection Law Section of the Hawaii State Bar Association; Hawaii Council of Associations of Apartment Owners; Community Associations Institute, Hawaii Chapter; Hawaii First, Inc.; and one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that this measure clarifies two aspects of the State’s condominium law relating to liens. First, this measure clarifies that only real property tax liens, not all tax liens, take priority to a condominium association’s lien. The priority of an association’s lien exists because the association pays for maintenance and many of the services that add value to the unit against which the association claims its lien. This is similar to the principle that gives priority to real property taxes, namely that real property taxes provide many of the services that add value to the property for which the real property taxes are paid.

Secondly, your Committee finds that Act 196, Session Laws of Hawaii 2013, amended section 514B-146, Hawaii Revised Statutes, to specify that an association’s six-month special assessment would be paid upon closing of a foreclosure sale. Although mortgagees were added as eligible purchasers for these special assessments, the phrase “or other purchaser” was inadvertently left out of the amended statute. This measure corrects this error and clarifies the Legislature’s original intent with the enactment of Act 196.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2483 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2089 Judiciary and Labor on S.B. No. 2123**

The purpose and intent of this measure is to promote impartiality in independent medical examinations and permanent impairment rating processes and potentially reduce the number of workers' compensation medical disputes by:

- (1) Requiring independent medical examinations and permanent impairment examinations for workers' compensation claims to be performed by physicians mutually agreed upon by employers and employees; and
- (2) Allowing the use of an out-of-state physician to perform independent medical examinations and permanent impairment examinations under certain conditions.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State AFL-CIO; International Longshore and Warehouse Union, Local 142; Work Injury Medical Association of Hawaii; and two individuals. Testimony in opposition to this measure was submitted by the Department of Human Resources Development; Building Industry Association-Hawaii; Hawaii Insurers Council; General Contractors Association of Hawaii; Property Casualty Insurers Association of America; Hawaiian Electric Company, Inc.; National Federation of Independent Business; Society for Human Resource Management, Hawaii Chapter; Hawaii Pacific Health; and Island Princess.

Your Committee finds that under existing law, an employee, whenever ordered by the Director of Labor and Industrial Relations, is required to submit to a medical examination related to a workers' compensation claim by a duly qualified physician designated and paid for by the employer. However, the physician's impartiality is often questioned because the physician is selected and paid for by the employer. This measure establishes a process by which the physician who is to perform an independent medical examination and permanent impairment rating examination is selected by mutual agreement between the employer and injured employee.

Your Committee notes that the companion to this measure, H.B. No. 1961 (2014), is currently moving through the legislative process. The amendments recommended to H.B. No. 1961 by the House Committee on Labor alter the process proposed by this measure for determining the physician when the employer and employee initially fail to reach a mutual agreement. Your Committee believes that both processes merit further discussion as these two measures move through the legislative process.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2123, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2090 (Majority) Judiciary and Labor on S.B. No. 2261**

The purpose and intent of this measure is to assist the Department of Labor and Industrial Relations in its enforcement of the laws relating to wages and hours on public works. Specifically, this measure:

- (1) Prohibits private agreements from contravening or setting aside any requirement under chapter 104, Hawaii Revised Statutes;
- (2) Adds a definition of "contractor";
- (3) Authorizes government contracting agencies to withhold further payments from a contractor if a subcontractor or agent of the contractor or subcontractor interferes with or delays an investigation conducted by the Department of Labor and Industrial Relations;
- (4) Increases the prevailing wage penalty from \$1,000 per project and \$100 per day to \$10,000 per project and \$1,000 per day, respectively;
- (5) Clarifies that general contractors are secondarily liable for payment of back wages and penalties imposed on any of their subcontractors; and
- (6) Requires notifications of violations to be final and conclusive unless within twenty days after a copy is sent to the contractor, the contractor files a written notice of appeal.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Accounting and General Services; Hawaii State AFL-CIO, International Brotherhood of Electrical Workers, Local Union 1186; and one individual. Testimony in opposition to this measure was submitted by the Associated Builders and Contractors, Inc., Hawaii Chapter; Building Industry Association-Hawaii; and General Contractors Association of Hawaii.

Your Committee finds that this measure assists the Department of Labor and Industrial Relations in its enforcement of the laws relating to wages and hours on public works and encourages contractors to comply with these laws. The Department of Labor and Industrial Relations testified that compliance creates a level playing field for contractors to bid on state and county projects and that better enforcement mechanisms protect workers' rights and benefits.

First, the Department of Labor and Industrial Relations testified that contractors often contend that their employees agreed under a private agreement to be paid wages lower than the wage rate required by law. This measure prohibits such private agreements from contravening or setting aside any requirement under chapter 104, Hawaii Revised Statutes. Second, this measure adds a definition of “contractor” to chapter 104, Hawaii Revised Statutes, to clarify that a contractor includes a general contractor or subcontractor. Third, this measure increases the penalty amounts for violations per day and per project to compel compliance. The Department testified that the existing penalty amounts do not reflect the importance of compliance, especially when many of the projects investigated are large projects in the multi-million dollar range. Fourth, this measure clarifies that general contractors are secondarily liable for payment of back wages and penalties imposed on any of their subcontractors to ensure that their subcontractors are also in compliance with the requirements of the law. Fifth, this measure requires notifications of violations to be final and conclusive unless within twenty days after a copy is sent to the contractor, the contractor files a written notice of appeal. The Department testified that requiring notifications will allow the Department to avoid having to re-open cases when contractors assert their right to appeal because they contend that they did not receive a notification.

Your Committee has amended this measure by adopting the amendments suggested by the Department of Labor and Industrial Relations to:

- (1) Amend the definition of “contractor” and make a conforming amendment to be consistent with this amended definition; and
- (2) Amend the language that makes a general contractor secondarily liable for its subcontractor to avoid conflicts with prompt payment requirements that may pose problems for the Department to obtain withheld funds.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2261, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2261, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Ihara).

#### **SCRep. 2091 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2351**

The purpose and intent of this measure is to:

- (1) Require primary care physicians and pediatricians to administer an annual body mass index measurement to children, beginning at the age of two years old, and report the data to the Department of Health; and
- (2) Establish mandatory insurance coverage for body mass indexing for patients from age two to eighteen.

Your Committees received testimony in support of this measure from the Department of Health and two individuals. Your Committees received comments on this measure from one individual.

Your Committees find that childhood obesity often leads to health problems such as diabetes, high blood pressure, and high cholesterol. This measure enables physicians to detect and address obesity problems at an early age, while engaging families and children with their physicians.

Your Committees find that the Hawaii Health Information Exchange (Exchange) is a 501(c)(3) non-profit organization established by Hawaii’s leading health care stakeholders to improve health care delivery across the State through a seamless, effective, and secure health information exchange. As the state-designated entity for implementing the statewide health information exchange that will ultimately feed into the nationwide eHealth Exchange technology network, the Exchange has received federal grant monies to implement and operationalize comprehensive statewide health information exchange services within and beyond the State. The Exchange started connecting health care providers to its network in 2012 and has connected over six hundred users and one hundred eighty physician practices, rural pharmacies, and large health care providers. Your Committees find that the data reporting requirement proposed by this measure would be duplicative to the efforts of the Exchange and could be better effectuated through incorporation into the existing efforts of the Exchange.

Your Committees have amended this measure by:

- (1) Requiring physicians and pediatricians to collaborate via statewide health insurance claims data to annually report anonymous age and body mass index statistics to the Hawaii Health Information Exchange, rather than requiring them to report the data to the Department of Health; and
- (2) Making a technical amendment to section 1 to reflect the amended purpose of the measure.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2351, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2351, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Nishihara).

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Nishihara).

#### **SCRep. 2092 Energy and Environment on S.B. No. 2181**

The purpose and intent of this measure is to increase the renewable portfolio standards to seventy percent by 2040 and one hundred percent by 2050.

Your Committee received testimony in support of this measure from the Sierra Club of Hawaii, Life of the Land, Blue Planet Foundation, Hawaii Solar Energy Association, Hawaii Renewable Energy Alliance, and Hawaiian Electric Company, Inc. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; and Public Utilities Commission.

Your Committee finds that Hawaii pays the highest electricity prices in the United States, and its gasoline costs are among the highest in the country. Reducing the State's fossil fuel dependence and the consequent price volatility, as well as attaining energy security and independence are critical.

Your Committee further finds that the current renewable portfolio standard was established by Act 155, Session Laws of Hawaii 2009. Act 155 set targets through 2030, mandating that forty percent of each electric utility company's net electricity sales will come from renewable sources by December 31, 2030. More importantly, this target remains achievable. For 2012, Hawaii Electric Light Company, Inc., reported that renewable generation accounted for approximately forty-seven percent of electricity sales, while Maui Electric Company, Limited, reported approximately twenty-one percent, Hawaiian Electric Company reported approximately eight percent, and Kauai Island Utility Cooperative reported approximately nine percent. In the interest of energy security and energy independence for Hawaii, it is time to articulate the next step and provide guidance for long-term energy planning by establishing renewable portfolio standards to be achieved by 2040 and 2050.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2181 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2093 (Joint) Higher Education and Agriculture on S.B. No. 2039**

The purpose and intent of this measure is to make an appropriation to the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources Cooperative Extension Service to improve education regarding agricultural sciences and food safety.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawaii at Manoa College of Tropical Agriculture and Human Resources, and Hawai'i Farm Bureau Federation.

Your Committees find that the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources (UH CTAHR) Cooperative Extension Service has been assisting and training farmers in Hawaii for over one hundred years. UH CTAHR's Cooperative Extension Service provides educational workshops and courses covering topics in agriculture, home economics, family living, Hawaii 4-H and other youth activities, nutrition, and health.

This measure will support the Cooperative Extension Service's efforts to provide important educational and informational resources regarding agricultural sciences and food safety while UH CTAHR explores additional, long-term sources of funding.

In addition, in light of the federal Food Safety Modernization Act, which was signed into law in 2011, UH CTAHR's Cooperative Extension Service will serve an important role in helping local farmers navigate the federal law and ensure food safety and security in Hawaii. UH CTAHR's Cooperative Extension Service helps train farmers in production and practices that will ensure the safety of the food they produce without unreasonably increasing production costs.

If this measure is considered for passage by your Committee on Ways and Means, your Committees note that UH CTAHR has indicated a need for \$520,000 to fund the following positions:

- (1) One full-time equivalent (1.0 FTE) permanent livestock agent in Maui County;
- (2) One full-time equivalent (1.0 FTE) permanent food crops agent in the City and County of Honolulu;
- (3) One full-time equivalent (1.0 FTE) permanent sustainable agricultural agent in Hawaii County; and
- (4) One full-time equivalent (1.0 FTE) permanent sustainable agricultural agent in Kauai County.

Your Committees ask that these funds be allowed to lapse in two years, rather than one.

As this measure moves forward, your Committees also encourage consideration of additional amendments to this measure to authorize UH CTAHR's Cooperative Extension Service to establish an on-farm mentoring program to provide statewide and island-specific mentoring to teach farmers about methods to improve soil health by using whole system practices.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2039 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education

Ayes, 4. Noes, none. Excused, 3 (Ige, Keith-Agaran, Tokuda).

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, English, Wakai).

**SCRep. 2094 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2308**

The purpose and intent of this measure is to appropriate \$250,000 to the Department of Public Safety for programs and services that support the children of incarcerated parents and help with family reunification.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Youth Services Network, Hawaii Primary Care Association, and Community Alliance on Prisons.

Your Committees find that children of incarcerated parents are seven times more likely to enter the juvenile or adult correctional systems themselves and are at increased risk of abuse and neglect, having mental problems, and having difficulty in school. Your Committees also find that prisoners who have regular contact with their children are less likely to violate prison rules, more likely to take advantage of rehabilitation and educational opportunities in prison, and have higher chances of successful reintegration into the community. This measure supports programs and services of the Department of Public Safety that address family core issues and enables the Department to expand its programs and services to all willing inmates who may have children that have been emotionally or behaviorally affected by the incarceration of a parent.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2308 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2095 Human Services on S.B. No. 2542**

The purpose and intent of this measure is to restore the allocation of conveyance tax collections to the rental housing trust fund to fifty percent.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Housing Finance and Development Corporation, Partners in Care, Catholic Charities Hawaii, Institute for Human Services, Blueprint for Change, Hawaii Appleseed Center for Law and Economic Justice, PHOCUSED, Hawaii Association of REALTORS, Land Use Research Foundation of Hawaii, Community Alliance for Mental Health, and two individuals. Your Committee received testimony in opposition to this measure from The Chamber of Commerce of Hawaii and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the creation of more affordable rental housing is critical to Hawaii's future. Rent costs have increased more than forty-five percent in Hawaii since 2005, and almost seventy-five percent of extremely low income households are spending more than half of their income on rent. Rising housing costs are associated with increased homelessness and families at risk of becoming homeless, with almost fourteen thousand individuals in the State experiencing homelessness or being at risk of losing their housing during the 2012 fiscal year. Your Committee further finds that restoring funding to the rental housing trust fund to fifty percent of state conveyance tax collections will increase the amount of funds available to be leveraged to build more affordable housing. Testimony on this measure indicates that increasing the allocation of conveyance tax collections to the rental housing trust fund to fifty percent would yield an additional \$10,800,000 per year.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2542 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2096 Human Services on S.B. No. 2318**

The purpose and intent of this measure is to:

- (1) Prohibit family courts from awarding a person custody of or visitation with a child if the person has been convicted of incest and the child was conceived as a result of that violation; and
- (2) Authorize the family courts to terminate parental rights, with respect to a child, of a natural father who has been convicted of incest and the child was conceived as a result of the incest.

Your Committee received testimony in support of this measure from the Sex Abuse Treatment Center and one individual.

Your Committee finds that state law does not prevent a natural father from claiming paternity rights and obtaining custody of or visitation with a child conceived as a result of incest. The father is afforded the same rights as any other father despite the incest committed against the victim-mother. Consequently, any natural father may assert paternity rights, including custody and visitation, forcing a victim-mother to confront the natural father on a recurring basis while raising a child conceived as the result of incest. These circumstances provide opportunities for the perpetrator to assert power and control again over the victim-mother by using the child.

Your Committee has amended this measure by making technical, nonsubstantive amendments, including inserting a savings clause, for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2318, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2097 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2420**

The purpose and intent of this measure is to authorize the State and counties to perform national criminal history record checks on certain categories of current and prospective employees, volunteers, and contractors.

Your Committees received testimony in support of this measure from the Department of Human Resources Development; Department of Human Resources, City and County of Honolulu; Police Department, City and County of Honolulu; Department of Transportation Services, City and County of Honolulu; and Honolulu Emergency Services Department, City and County of Honolulu. Your Committees received comments on this measure from the Hawaii Civil Rights Commission.

Your Committees find that it is important for employers to be able to determine the employment suitability of current and prospective employees. Certain job duties and responsibilities make the need to determine employment suitability particularly crucial and may warrant additional evaluation of the current or prospective employee. One tool that is useful to assess employment suitability is criminal history record checks. This measure authorizes the State and counties to access criminal history record information for additional groups of employees and prospective employees.

Your Committees also find that the provisions of the measure authorizing criminal history record checks prior to the State or county making an employment offer may extend such authority to too many types of prospective employees. Testimony received on this measure indicates that permitting pre-offer criminal history record checks for prospective employees related to traffic management positions and systems analyst positions would result in overly broad exceptions to the requirements and limitations imposed on employer inquiries into, and consideration of, conviction records.

Accordingly, your Committees have amended this measure by:

- (1) Removing language that authorized criminal history record checks prior to an employment offer, and exemption from the ten year look-back period, for prospective employees who require unescorted access to traffic management equipment and related secured areas as well as prospective systems analysts involved in an agency's information technology operation who have access to sensitive information;
- (2) Adding language that authorizes the State, in addition to the counties, to perform criminal history record checks on employees and prospective employees whose positions involve the handling or use of firearms for other than law enforcement purposes or whose positions are involved in an agency's information technology operation and responsibilities and have access to sensitive information;
- (3) Changing the effective date to July 1, 2014, to effectuate certain language in section 846-2.7(b), Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2420, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2420, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Human Services  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2098 (Joint) Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2540**

The purpose and intent of this measure is to assist low income and homeless individuals and families in obtaining affordable rental housing by establishing a rental deposit loan program within the Hawaii Housing Finance and Development Corporation.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; City Council, City and County of Honolulu; Hawaii Appleseed Center for Law and Economic Justice; Housing Hawaii; Community Alliance for Mental Health; Citizens for Equal Rights; Hawaii Substance Abuse Coalition; and three individuals. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that one of the major barriers encountered by low income individuals and families who desire to move or who are residing in transitional or temporary housing and seek permanent housing is the necessity of paying a security deposit and first month's rent. This barrier is profound in Hawaii, as twenty-two percent of the State's families qualify as working poor. A recent survey found that there are approximately 85,000 households in the State that are two or three paychecks away from becoming homeless. In addition, testimony on this measure indicates that many families desire to move closer to work but cannot afford to do so due to the costs of moving. Your Committees find that a rental deposit loan program that assists with payment of security deposits and first month's rent for struggling low income residents will help the State's poor in obtaining adequate and stable permanent rental housing.

Your Committees have amended this measure by:

- (1) Amending language relating to the administration of the rental deposit loan program so that it no longer requires contracting with counties, and instead requires the Hawaii Housing Finance and Development Corporation to contract with nonprofit agencies pursuant to chapter 103F, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2540, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2540, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2099      Judiciary and Labor on S.B. No. 3038**

The purpose and intent of this measure is to:

- (1) Clarify that when selecting an appointee to serve as an acting member of the Hawaii Labor Relations Board during the temporary absence from the State, temporary inability to act, or illness of any regular member, the Governor shall first consider persons included on a list of names submitted by employee organizations if the regular member is the representative of labor; and
- (2) Require that all parties to a hearing before the Hawaii Labor Relations Board be provided written notice of a hearing by first class mail or by electronic service through a company designated by the board.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board.

Your Committee finds that this measure clarifies that an employee organization is allowed to submit names to the Governor for consideration if a regular Hawaii Labor Relations Board member who is temporarily unable to serve is the representative of labor, rather than a representative of management or labor.

Your Committee further finds that existing law requires that all parties to a Hawaii Labor Relations Board hearing be provided written notice by first class mail. The Hawaii Labor Relations Board testified that beginning on February 17, 2014, the board plans to offer an electronic filing service to parties. Parties who register with this service agree to be served electronically through this system, while parties who do not register will be served by first class mail. This measure effectuates under law the board's plans to serve notice electronically, through a company that is designated by the board, to parties who wish to register with the electronic filing system.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3038 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2100      Energy and Environment on S.B. No. 2195**

The purpose and intent of this measure is to:

- (1) Require the Department of Taxation, in collaboration with the Department of Business, Economic Development, and Tourism, to submit a joint report to the Legislature each year that is related to tax credits for renewable energy technology properties, the total cost to the State of the renewable energy tax credits, and the estimated economic benefit of the renewable energy tax credits for each of the previous four taxable years; and
- (2) Appropriate funds to assist each respective department in submitting the joint report.

Your Committee received testimony in support of this measure from the Hawaii Solar Energy Association, Hawaii Renewable Energy Alliance, and Ulupono Initiative. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that because renewable energy is important for Hawaii's clean energy goals and economy, the Legislature requires factual information on the fiscal impact of tax credits related to renewable energy in the past years in order to evaluate the effectiveness of such tax credits and to properly compare projections for future years resulting from proposed changes to such tax credits. The lack of this information for tax credits taken for renewable energy technology properties has created an information gap between departments and concerned stakeholders. With the Department of Taxation providing the cost figures and the Department of Business, Economic Development, and Tourism providing the benefit calculations, all stakeholders will be better informed of the costs and benefits related to renewable energy through the reporting requirement proposed by this measure.

Your Committee has amended this measure by:

- (1) Adding language to clarify that the joint report shall include the number of renewable energy technology properties that have qualified for a tax credit in each of the previous four taxable years for which data is available;
- (2) Deleting language that would have required the joint report to include the total cost of the tax credit to the State during the past four taxable years by type of tax credit relating to investment or production; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2195, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2195, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2101 Human Services on S.B. No. 2269**

The purpose and intent of this measure is to require the Hawaii Public Housing Authority to designate a resident manager at each federal public housing complex and state low-income public housing project.

Your Committee received testimony in support of this measure from the Community Alliance for Mental Health and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Public Housing Authority.

Your Committee finds that having a resident manager on site at public housing locations would be helpful for residents as well as the general atmosphere of public housing. Your Committee heard the testimony of the Hawaii Public Housing Authority expressing concerns that the Authority does not have the resources to hire a resident manager at each public housing property, and that such a program would cost over \$6,500,000 per year and would likely require increasing rent at state low-income public housing. Your Committee finds that the intent of this measure is not to financially burden the Authority or increase rent for Hawaii's low-income families.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language that allows the Authority to establish a work study program with the University of Hawaii School of Social Work that may be implemented at each public housing complex and state low-income public housing project.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2269, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2269, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2102 (Majority) Commerce and Consumer Protection on S.B. No. 2810**

The purpose and intent of this measure is to allow for more flexibility in the use of the State's One Call Center funding collected from civil penalties.

Your Committee received testimony in support of this measure from the Public Utilities Commission and Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Building Industry Association of Hawaii.

Your Committee finds that the One Call Center helps reduce the possibility of unintended damage to underground facilities, providing a valuable service for utilities, ratepayers, and the excavating community in Hawaii. Although the Public Utilities Commission is able to collect civil penalties for violations of Hawaii's One Call Center law, pursuant to existing law, these penalty amounts may only be used to educate the operating and excavating community in Hawaii and reduce the One Call Center's operating costs.

Your Committee further finds that this measure permits the Public Utilities Commission to utilize the collected penalties with more flexibility, thereby benefitting the One Call Center and the State's excavators beyond the limitations of the existing law and simplifying the process for expenditure of One Call Center penalty amounts.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2810 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Taniguchi).

**SCRep. 2103 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2302**

The purpose and intent of this measure is to:

- (1) Amend fireworks prohibitions and exceptions;
- (2) Create two exceptions to the fireworks prohibitions for movie productions and for those authorized to dispose of or test consumer fireworks; and
- (3) Add definitions and requirements for permanent and temporary consumer fireworks storage facilities, based on nationally recognized standards and applicable county building or fire codes.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Hawaii County Fire Department, Kauai Fire Department, Maui Fire Department, and the Hawaii Fire Chiefs Association.

Your Committee finds that the potential danger or damage from the public's use, transportation, and storage of fireworks is so great that those activities need to be closely scrutinized. This measure will ensure the safety of the general public and the first responder community by adding definitions for permanent and temporary consumer fireworks storage facilities based on nationally recognized standards for safety and best industry practices to protect life and property; creating two exceptions to the fireworks prohibitions for movie productions and for those authorized to dispose or test consumer fireworks; and requiring permanent and temporary fireworks storage buildings to comply with applicable local codes or nationally recognized standards.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2302 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2104 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2303**

The purpose and intent of this measure is to increase the fireworks display permit fee, which authorizes licensed pyrotechnicians to conduct aerial fireworks and indoor fireworks for theatrical purposes, from \$110 to \$300.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Hawaii County Fire Department, Kauai Fire Department, and Maui Fire Department.

Your Committee finds that the process to approve a fireworks display permit is important to ensure public safety and property protection. The fireworks display permit fee has remained the same for thirteen years, yet the administrative costs to process, review, and approve permit applications have increased. This measure will address the rise in processing costs by raising the fireworks display permit fee from \$110 to \$300.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2303 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2105 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2305**

The purpose and intent of this measure is to:

- (1) Appropriate funds to the State Department of Defense Civil Defense Division to assemble twenty-five civilian community teams; and
- (2) Hire a coordinator to help establish and provide administrative oversight of and train the civilian community teams.

Your Committee received testimony in support of this measure from the State Department of Defense Civil Defense Division and the Hawaii Wing Civil Air Patrol.

Your Committee finds that trained community citizens are imperative to any civil defense plan. Community civilians are a great asset in assisting in disaster response, as they live in their communities and can quickly provide needed response and recovery support. With proper training and knowledge, community civilians can provide first response support to local, state, and federal civil defense staff and help prepare their communities for emergency situations.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2106 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2307**

The purpose and intent of this measure is to:

- (1) Require a parole hearing and validated risk assessment for inmates who have not been released upon completion of a set minimum term or received an earlier release date;
- (2) Allow supervised release on parole eighteen months prior to the expiration of the maximum term for Class A felonies, twelve months prior to the expiration of the maximum term for Class B felonies, and six months prior to the expiration of the maximum term for Class C felonies; and
- (3) Provide the Hawaii Paroling Authority with discretion to deny supervised parole prior to the expiration of a maximum sentence for certain inmates.

Your Committee received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, and Hawaii Paroling Authority. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that inmates who are released at the end of their maximum term of incarceration with no supervision recidivate at a higher rate than inmates placed on parole. This measure will address the problem by providing the Hawaii Paroling Authority the discretion to grant inmates supervised parole prior to the expiration of their maximum term, thereby affording inmates a supervised transition rather than simply being released from prison directly into the community.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2307 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2107 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2583**

The purpose and intent of this measure is to appropriate funds for a National Aeronautics and Space Administration and Pacific International Space Center for Exploration Systems engineering assessment of a proposal to establish a laser optical communications ground station in Hawaii, with infrastructure construction beginning in 2016, contingent on a dollar-for-dollar match of funds from the National Aeronautics and Space Administration.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawaii Hilo; Hawaii County Council; Pacific International Space Center for Exploration Systems; Ferraro Choi; Paragon Space Development Corporation; and eleven individuals.

Your Committee finds that space laser technology has the potential to support laser communications between spacecraft and Earth, provide ten to one hundred times higher data rates than traditional radio frequency systems with the same mass and power, and stimulate the State's economy through the creation of high-tech jobs. Your Committee further finds that the National Aeronautics and Space Administration conducted a detailed statistical analysis of weather patterns and identified Hawaii as the best site in the United States to establish the first laser optical communications ground station.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2583 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2108 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2584**

The purpose and intent of this measure is to appropriate funds to the Pacific International Space Center for Exploration Systems to support planetary sustainability technology demonstrations and university-based competitions, contingent on a dollar-for-dollar match from the State of California.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawaii Hilo; Ferraro Choi; Pacific International Space Center for Exploration Systems; Paragon Space Development Corporation; and ten individuals.

Your Committee finds that the Pacific International Space Center for Exploration Systems stimulates the economic growth for the State, promoting the establishment and growth of new sustainable and green industries, associated jobs, workforce development, internships, and science, technology, engineering, and mathematics education programs.

Your Committee further finds that the State's remote geographic location and unique natural resources provide an ideal location to research, test, and validate basaltic construction modules, three dimensional laser printing technology, renewable energy systems, and advanced water reclamation. This measure will fund the Pacific International Space Center for Exploration Systems' planetary sustainability technologies initiative, securing a leadership role for the State in the maturation of these pioneering technologies and advancing the future well-being of the State.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2584 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2109 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2605**

The purpose and intent of this measure is to appropriate funds to the Department of Defense to support operational mission readiness activities of the Hawaii Wing of the Civil Air Patrol, including facility maintenance, not funded by the National Civil Air Patrol.

Your Committee received testimony in support of this measure from the State Department of Defense Civil Defense Division, Department of Defense, Hawaii Wing Civil Air Patrol, Hawaii Chapter (HI-1) of the National Association for Uniformed Services, and one individual.

Your Committee finds that the Hawaii Wing of the Civil Air Patrol provides assistance with homeland security, aerospace education, cadet programs, and emergency services that include search and rescues missions, disaster relief, and tsunami warnings to coastal and remote areas. As such, the Hawaii Wing of the Civil Air Patrol is critical to the State's emergency management agencies. This measure ensures that the Hawaii Wing of the Civil Air Patrol can continue its critical services in emergency management.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2605 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2110 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2585**

The purpose and intent of this measure is to appropriate funds to the Pacific International Space Center for Exploration Systems to support administrative and general tasks, strategic program initiatives, and the preliminary development of the Pacific International Space Center for Exploration Systems' research and development park.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawaii Hilo; Ferraro Choi; Paragon Space Development Corporation; and thirteen individuals.

Your Committee finds that pursuant to Act 169, Session Laws of Hawaii 2012, and Act 273, Session Laws of Hawaii 2013, codified in chapter 201, Hawaii Revised Statutes, the Pacific International Space Center for Exploration Systems was established to support the development of a world-class center of excellence in Hawaii and to facilitate the design, testing, and validation of new space technologies, securing a leadership role for the State in the maturation of these pioneering technologies. Accordingly, this measure will further fund the Pacific International Space Center for Exploration Systems' operations, planetary sustainability technologies initiatives, and the development of the aerospace research and development park.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2585, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2585, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2111 Education on S.B. No. 2518**

The purpose and intent of this measure is to:

- (1) Authorize the State Public Charter School Commission (Commission) to assess fees to help offset its operating costs;
- (2) Clarify the legal status of an approved charter applicant;
- (3) Require an appropriation to be made to the Commission separate from, and in addition to, any appropriation made for facilities or per-pupil funding; and
- (4) Make various amendments to the charter school law for clarity and consistency.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Hawaii Public Charter Schools Network, Ho'okako'o Corporation, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that in 2012, the Legislature passed Act 130, Session Laws of Hawaii 2012 (Act 130), which established a new charter school law that created a solid governance structure for Hawaii's charter school system with clear lines of authority and accountability to foster improved student outcomes. As a result of Act 130, Hawaii's charter school system leapt to fourteenth place in the National Alliance for Public Charter Schools' rankings. This measure builds on the progress made by Act 130, while addressing outstanding issues relating to funding for the Commission.

Your Committee recognizes that improving Hawaii's charter schools is a work in progress that will evolve as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Adding language to clarify that the Commission may assess fees to non-state entities and individuals to help cover its costs;
- (2) Adding language to clarify that a charter school authorizer has the power to make and execute contracts and other instruments necessary and convenient to carry out its duties and functions;
- (3) Clarifying that public meeting notices, agendas, and minutes and lists of governing board members and officers shall be posted in a public area in the charter school's office and on the charter school's website, rather than the office and website of the governing board, respectively;
- (4) Adding language to clarify that a charter school's governing board has the power to make and execute contracts and other instruments necessary and convenient to carry out its duties and functions;
- (5) Deleting language that would have repealed the requirement for the setting of annual performance targets by each charter school in conjunction with its authorizer to meet applicable federal, state, and authorizer expectations;
- (6) Changing the effective date to on July 1, 2014; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Commission and various charter school stakeholders are meeting to discuss the requirement for the setting of annual performance targets by each charter school in conjunction with its authorizer. If this measure is considered for passage by your Committee on Ways and Means, it may wish to take into consideration the outcome of these discussions and, if appropriate, amend this measure accordingly.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2518, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2518, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2112 Education on S.B. No. 2826**

The purpose and intent of this measure is to implement, upon its ratification, the amendment to article X, section 1, of the Hawaii State Constitution, as proposed in Senate Bill No. 1084, Regular Session of 2013, by establishing a statewide early education program consisting of providers of high-quality early education delivered in either of Hawaii's two official languages to assist families in establishing a solid foundation for success in school so that children enter kindergarten prepared and graduate from high school ready for college and a career.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; Department of Education; Department of Human Services; Department of Public Safety; University of Hawaii System; University of Hawaii at Manoa College of Education; Kualapu'u School; Kamaile Academy; Hawaii Association of Independent Schools; Protecting Hawaii's Ohana, Children, Under Served, Elderly and Disabled; Ho'okāko'o Corporation; KCAA Preschools of Hawai'i; Kamehameha Schools; Good Beginnings Alliance; Institute for Native Pacific Education and Culture; The Chamber of Commerce of Hawaii; Legislative Committee of the Democratic Party of Hawai'i; Parents and Children Together; Kama'aina Kids; Hawai'i Primary Care Association; Child & Family Service; Hawai'i Association for the Education of Young Children; Hui for Excellence in Education; Community Children's Council of Hawaii; The Pacific Resource Partnership; Hawai'i P-20 Partnerships for Education; Seagull Schools; Hawaii Chapter of the National Association of School Psychologists; and eighty-one individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association and IMU Alliance. Your Committee received comments on this measure from the American Civil Liberties Union of Hawaii.

Your Committee finds that high quality early learning programs that are affordable and accessible for all children are critically important for ensuring the success of Hawaii's keiki.

Your Committee recognizes the need to form public-private partnerships to provide Hawaii's keiki with high-quality early childhood education. Private, community-based early learning programs have been the mainstay providers for quality early education in our State for many years. This measure, which will be implemented upon the ratification of an amendment to article X, section 1, of the Hawaii State Constitution, will allow the Executive Office on Early Learning to contract with private early learning education programs. This measure, along with appropriate funding, will help provide access to quality early learning programs for eighty-five percent of four-year olds by 2018 and will assist more children in establishing a solid foundation for success in school and life.

Your Committee stresses that this measure does not implement a voucher system in any way and that any private providers who contract with the Executive Office on Early Learning will be required to follow all state and federal laws, including but not limited to the Establishment Clause of the First Amendment to the United States Constitution; article 1, section 4, of the Hawaii State Constitution; and anti-discrimination laws.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2826 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2113 Education on S.B. No. 2975**

The purpose and intent of this measure is to appropriate funds to the Executive Office on Early Learning to enter into contracts with third party providers for family child interaction learning programs.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Department of Education, Department of Human Services, University of Hawaii at Manoa College of Education, Hawaii Association of Independent Schools, Good Beginnings Alliance, Institute for Native Pacific Education and Culture, Hawai'i Primary Care Association, Hawai'i Association for the Education of Young Children, Kamehameha Schools, Hui for Excellence in Education, Community Children's Council of Hawaii, The Chamber of Commerce of Hawaii, and one hundred sixty-three individuals. Your Committee received comments on this measure from the Hawaii State Teachers Association and American Civil Liberties Union of Hawai'i.

Your Committee finds that family and child interaction programs provide opportunities for parents and caregivers to participate with their child in learning opportunities. These programs also serve to educate parents and caregivers on how to encourage their child's learning at home. These programs are an integral part of the State's goal of providing a mixed-delivery early education learning system to ensure school readiness of Hawaii's children prior to entering kindergarten.

If this measure is considered for passage by your Committee on Ways and Means, your Committee notes the Executive Office on Early Learning has requested that \$1,000,000 be appropriated for the purposes of this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2975 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2114 Health on S.B. No. 2869**

The purpose and intent of this measure is to protect the confidentiality of developmental disability and mental health information, while allowing reasonable use and disclosure as provided by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

Your Committee received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, and Community Alliance for Mental Health.

Your Committee finds that allowing the reasonable use and disclosure of health records may benefit individuals, while ensuring the safety of the general public, by sharing information for purposes of treatment, payment, or health care operations. This measure allows health care providers that hold developmental disability and mental health records to share and access health care information using the HIPAA privacy rule, rather than the stricter and lesser known state laws.

Your Committee has amended this measure by:

- (1) Adding a new section to chapter 333F, Hawaii Revised Statutes, in which to more appropriately place the proposed amendments to section 333E-6, Hawaii Revised Statutes, that pertain to certificates, applications, records, and reports made for purposes of chapter 333F, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2869, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2115 (Majority) Judiciary and Labor on S.B. No. 2816**

The purpose and intent of this measure is to appropriate a specified amount from the general fund to support employment costs for University of Hawaii collective bargaining unit (7) and their excluded counterparts for fiscal year 2014-2015.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawaii System; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; University of Hawaii Professional Assembly; and one individual.

Your Committee finds that the general fund appropriation requested in this measure represents the restoration of general funds for faculty salaries that were reduced during the recession as well as for the modest three percent salary increases that were negotiated for each year of fiscal biennium 2013-2015.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2816, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Shimabukuro).

**SCRep. 2116 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2589**

The purpose and intent of this measure is to transfer the law enforcement functions of the Harbors Division of the Department of Transportation to the Department of Public Safety, effective July 1, 2016.

Your Committees received testimony in support of this measure from the Department of Transportation and Department of Public Safety. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Department of Public Safety, Sheriff Division, would be better suited than the Department of Transportation to perform law enforcement functions relating to harbors.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2589, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2589, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs  
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Solomon).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Baker, Green).

**SCRep. 2117 Energy and Environment on S.B. No. 2197**

The purpose and intent of this measure is to:

- (1) Establish a renewable fuels production income tax credit; and
- (2) Repeal the ethanol facility tax credit.

Your Committee received testimony in support of this measure from the Ulupono Initiative; Renewable Energy Action Coalition of Hawaii; Blue Planet Foundation; Hawaii Renewable Energy Alliance; Hawaii BioEnergy, LLC; Pacific Biodiesel Technologies; Extended Horizons; and thirty individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Department of the Attorney General; and Tax Foundation of Hawaii.

Your Committee finds that in recent years, Hawaii has seen significant growth in renewable energy adoption moving the State toward its renewable energy goals. However, while Hawaii locally produces about fourteen percent renewable electricity, far less than one percent of the renewable fuels are used.

Your Committee further finds that Hawaii is far behind in achieving its renewable goals for transportation, as transportation fuels account for about two-thirds of all the energy consumed in Hawaii and nearly all of Hawaii's energy for transportation comes from imported fuels. Without renewable fuel production from sources indigenous to Hawaii, the State will have virtually no fuel available for critical transportation needs if and when imported fuels stop flowing to Hawaii.

Your Committee has amended this measure by:

- (1) Adding a severability clause in light of commerce clause issues raised by the Attorney General; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2197, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2118 Agriculture on S.B. No. 3023**

The purpose and intent of this measure is to make an appropriation for the research, development, and marketing of 'ulu, or breadfruit.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawaii College of Tropical Agriculture and Human Resources, Agribusiness Development Corporation, and two individuals.

Your Committee finds that breadfruit, or 'ulu, is a traditional Hawaiian crop with unrecognized potential as an agricultural commodity. It is rich in nutritional content, can be easily grown in Hawaii, and can be used to create gluten-free products. By supporting development of an 'ulu industry, this measure will help revive the harvesting of 'ulu and create a valuable commercial crop that will increase food security and self-sufficiency in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3023, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3023, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 2119 (Joint) Agriculture and Commerce and Consumer Protection on S.B. No. 2913**

The purpose and intent of this measure is to apply the offense of false labeling of Hawaii-grown coffee to:

- (1) All Hawaii-grown coffee, rather than only Hawaii-grown green coffee, cherry coffee, or parchment coffee; and
- (2) Any coffee that is mislabeled in regards to the grade standard requirements of rules adopted under chapter 147, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation; Hawaii Coffee Association; Onouli Farm, LLC; Hawaii Coffee Growers Association; Greenwell Farms; Kau Coffee Mill, LLC; and six individuals. Your Committees received comments on this measure from the Department of Agriculture and one individual.

Your Committees find that Act 328, Session Laws of Hawaii 2012, established stricter criminal penalties for falsely labeled Hawaii-grown cherry, parchment, and green coffee with regard to geographic origin. Unfortunately, the shortage of Hawaii-grown coffee caused by the coffee berry borer has increased the temptation to engage in coffee counterfeiting. Therefore, stricter penalties are

required for the mislabeling of all Hawaii-grown coffee, including roasted coffee, as well as for the mislabeling of grade standard requirements.

Your Committees note that grade standard requirements under rules adopted under chapter 147, Hawaii Revised Statutes, are referenced in section 2 of this measure because chapter 4-143, Hawaii Administrative Rules, specifies standards for various grades of coffee. Your Committees' intent is for any labeling of Hawaii-grown coffee that violates these grade standards to constitute the offense of false labeling of Hawaii-grown coffee, as proposed by this measure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2913 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2120 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2615**

The purpose and intent of this measure is to:

- (1) Expand the offender database to require DNA collection from all persons arrested for the commission of a violent felony offense; and
- (2) Provide for the expungement of a DNA record, in certain circumstances.

Your Committee received testimony in support of this measure from the Department of Public Safety, Maui Police Department, Department of the Prosecuting Attorney of the City and County of Honolulu, and DNA Saves. Your Committee received testimony in opposition to this measure from the Department of the Attorney General and Honolulu Police Department.

Your Committee finds that DNA collection is important in confirming the arrestee's identity; providing background information that increases the safety of staff, the detainee population, and the new detainee; identifying the correct perpetrator and exonerating the innocent; creating more efficient investigative practices; and reducing law enforcement costs. Currently, almost thirty states, the federal government, and the Department of Defense are authorized to collect DNA samples from arrestees.

Your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Establish a new section in chapter 844D, Hawaii Revised Statutes, to require DNA collection from all persons arrested for the commission or attempted commission of a felony offense involving a violent crime and to establish collection responsibilities of the arresting authority;
- (2) Amend section 831-3.2, Hawaii Revised Statutes, to provide for the expungement of arrestee DNA;
- (3) Amend section 844D-71, Hawaii Revised Statutes, to restrict the applicability of that section to expungement of DNA samples, specimens, and profiles provided by arrestees pursuant to the new section in chapter 844D, Hawaii Revised Statutes;
- (4) Amend sections 844D-83(a), 844D-113(a)(1), and 844D-(114)(a)(1), Hawaii Revised Statutes, to include the unauthorized use of samples or profiles of individuals arrested for violent felony offenses;
- (5) Insert an appropriation to cover expenses of DNA collection and analysis;
- (6) Change the effective date to January 1, 2015, with the appropriation effective on July 1, 2014; and
- (7) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2615, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

**SCRep. 2121 (Joint) Public Safety, Intergovernmental and Military Affairs and Economic Development, Government Operations and Housing on S.B. No. 2581**

The purpose and intent of this measure is to:

- (1) Modify the composition, quorum requirement, and duties of the State Building Code Council;
- (2) Amend the state building code, including the clarification of terminology, code adoption process, and staggering of code adoptions;
- (3) Prohibit the State Building Code Council from adopting provisions in the Hawaii state building codes that conflict with laws governing contractors; and
- (4) Appropriate funds to the Department of Accounting and General Services for the State Building Code Council and staff to carry out their duties and functions, including operating costs and staff salaries.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Health; Department of Defense State Civil Defense; Department of Accounting and General Services; Department of Planning and Permitting of the City and County of Honolulu; Hawaii State Fire Council; Honolulu Fire Department; Department of Fire and Public Safety of the County of Maui; Kauai Fire Department; Building Industry Association of Hawaii; State Building Code Council; Structural Engineers Association of Hawaii; Laborers' International Union of North America Local 368; Insurance Institute for Business and Home Safety; International Code Council; Pacific Resource Partnership; Local Jobs for Local People; General Contractors Association of Hawaii; American Institute of Architects; and one individual. Your Committees received testimony in opposition to this measure from the American Chemistry Council. Your Committees received comments on this measure from the Hawaii Building and Construction Trades Council.

Your Committees find that modern building codes are necessary to protect the citizens of Hawaii. In 2012, the State Building Code Council recommended an updated series of codes to be established as the new Hawaii State Building Code. However, due to a lack of funding, the process was never completed. This measure addresses the importance of the State Building Code Council's composition and duties to benefit the integrity of the code adoption process and appropriates funds to support the State Building Code Council's efforts to adopt a uniform set of statewide building codes and consistent standards.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2581, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2581, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 6. Noes, none. Excused, 1 (English).

**SCRep. 2122 (Majority) Transportation and International Affairs on S.B. No. 172**

The purpose and intent of this measure is to amend the law relating to counties.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to establish the County of Niihau as a separate county from the County of Kauai, under the jurisdiction and control of the Department of Land and Natural Resources.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 172, as amended herein, and recommends that it be recommitted to the Committee on Transportation and International Affairs, in the form attached hereto as S.B. No. 172, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, 1 (Kouchi). Excused, 1 (Slom).

**SCRep. 2123 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2300**

The purpose and intent of this measure is to:

- (1) Authorize the State Fire Council to establish statewide qualifications, testing, and credentialing that conform with the adopted state fire code and nationally recognized standards, for individuals conducting maintenance and testing of fire extinguishers and fire protection and fire alarm systems; and
- (2) Authorize the State Fire Council to implement statewide memoranda of understanding and agreements for the effective use of fire and life safety resources.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Hawaii County Fire Department, Kauai Fire Department, and Maui Fire Department.

Your Committee finds that fire extinguishers and fire protection and fire alarm systems require routine maintenance to ensure reliable operability when used by fire department personnel and to protect building occupants during emergency situations. Individuals that conduct maintenance testing must be licensed; however, the current exam has not been revised for several years. This measure will allow the State Fire Council to implement statewide memoranda promoting fire and life safety resources and to update and establish statewide qualifications, testing, and credentialing standards for maintenance and testing of fire safety systems.

Your Committee has amended this measure as suggested by the State Fire Council, Honolulu Fire Department, Hawaii County Fire Department, Kauai Fire Department, and Maui Fire Department by adding language allowing the State Fire Council to establish statewide qualifications, testing, certification, and credentialing that conform with the adopted state fire code and nationally recognized standards for individuals who conduct maintenance testing of fire safety systems.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2300, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as S.B. No. 2300, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2124 Commerce and Consumer Protection on S.B. No. 2048**

The purpose and intent of this measure is to remove the sunset provision in Act 19, Session Laws of Hawaii 2011, thereby permanently allowing the Director of Commerce and Consumer Affairs to designate an access organization to oversee public, educational, and governmental channels.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Akakū: Maui Community Television, and sixteen individuals.

Your Committee finds that Act 19, Session Laws of Hawaii 2011, authorized the Director of Commerce and Consumer Affairs to designate public, educational, and governmental access organizations without going through the public procurement process and requirements. The State's efforts to safeguard the public electronic spectrum on cable has enabled the establishment of successful public, educational, and governmental access channels on cable systems in each county. This measure will permanently allow the Director to designate an access organization to oversee public, educational, and governmental channels and will also ensure that the Cable Advisory Committee continues to be able to advise the Director and access organizations on certain matters.

Your Committee further finds that Act 19 also requires the Department of Commerce and Consumer Affairs to conduct annual management and financial audits of designated public, educational, and governmental access organizations. Codified as section 440G-8.3(h), Hawaii Revised Statutes, this requirement is in addition to the annual independently audited financial statements that these organizations are already required to provide to the Department. Your Committee concludes that this requirement should be repealed, as it is a duplicative expense for the Department and an unnecessary use of subscribers' fees.

Your Committee has amended this measure by:

- (1) Repealing the requirement that the Department of Commerce and Consumer Affairs conduct annual management and financial audits of designated public, educational, or governmental access channels;
- (2) Updating the purpose section of this measure for clarity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2048, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2125 Commerce and Consumer Protection on S.B. No. 2484**

The purpose and intent of this measure is to provide a remedy for community associations to recover unpaid assessments for a share of common expenses up to the time of a grant or conveyance of property.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners; Community Associations Institute, Hawaii Chapter; and two individuals.

Your Committee finds that escrow companies and other interested parties are usually aware of a lien of a condominium association. However, it is not uncommon for escrow companies and other interested parties to handle the sale of a non-condominium, planned community association unit and overlook the collection of the association's unpaid assessments for the unit. Your Committee further finds that this measure addresses these concerns by adopting existing language on voluntary sales from state condominium law into chapter 421J, Hawaii Revised Statutes, the planned community association chapter. By doing so, this measure will clarify the responsibilities of a planned community association, unit owners, the buyer, and escrow officers in a voluntary conveyance and protect the interests of the planned community association and the purchasers of a unit governed by a planned community association.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2484 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2126 (Joint) Agriculture and Economic Development, Government Operations and Housing on S.B. No. 2296**

The purpose and intent of this measure is to:

- (1) Authorize the Department of Agriculture to select qualified applicants as back-up lessees when disposing of certain agricultural or non-agricultural park lands through the sealed bidding process; and
- (2) Authorize the Department to negotiate with a back-up lessee in the event the highest offering bidder or lessee fails to finalize a lease with the Department for any reason.

Your Committees received testimony in support of this measure from the Department of Agriculture.

Your Committees find that it takes a significant amount of time and work for the Department of Agriculture to select awardees for its agricultural leases through the sealed bidding process. Unfortunately, once an awardee is selected, awardees often cannot finalize the lease for various reasons and the Department must restart the sealed bidding process from the beginning. This measure will save the Department significant time and energy by allowing the Department to select back-up lessees in the event the initial awardee fails to finalize a lease.

Your Committees have amended this measure by:

- (1) Clarifying that the purpose of this measure is to allow the Department of Agriculture to create an alternative list of qualified applicants to lease agricultural lands in the event an initial awardee fails to complete the lease process;
- (2) Conforming the eligibility criteria for lessees of agricultural park lands with that of lessees of non-agricultural park lands by, among other things:
  - (A) Removing the requirement that a lease applicant, or applicant's spouse, must not own agriculturally zoned land of twenty-five acres or more in the State; and
  - (B) Inserting the requirement that the lease applicant must be determined by the Department to have a beneficial impact on agriculture;
- (3) Moving the language authorizing back-up lessees for non-agricultural park leases from section 166E-8, Hawaii Revised Statutes, to section 166E-11, Hawaii Revised Statutes, relating to lease negotiations; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2296, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2296, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 6. Noes, none. Excused, 1 (Wakai).

Economic Development, Government Operations and Housing

Ayes, 4. Noes, none. Excused, 3 (Baker, Chun Oakland, Wakai).

**SCRep. 2127 (Joint) Human Services and Health and Commerce and Consumer Protection on S.B. No. 2228**

The purpose and intent of this measure is to:

- (1) Establish a Fall Prevention and Early Detection Coordinator position within the Department of Health;
- (2) Remove civil service and collective bargaining hiring requirements for the Alzheimer's Disease and Related Dementia Services Coordinator;
- (3) Appropriate funds for the Alzheimer's Disease and Related Dementia Services Coordinator and various kupuna programs and senior centers;
- (4) Establish within the Executive Office on Aging and appropriate funds for an education and awareness campaign on long-term care;
- (5) Establish and appropriate funds for a permanent prevention of elder abuse and fraud position within the Executive Office on Aging; and
- (6) Appropriate funds for awareness and education of elder abuse, neglect, and fraud.

Your Committees received testimony in support of this measure from the Department of Health; Department of Commerce and Consumer Affairs; Executive Office on Aging; Office of the Mayor, City and County of Honolulu; Department of the Prosecuting Attorney, City and County of Honolulu; Maui County Office on Aging; Policy Advisory Board for Elder Affairs; AARP Hawaii; Catholic Charities Hawaii; Lanakila Meals on Wheels; Child and Family Service; Hawaii Family Caregiver Coalition; Injury Prevention Advisory Committee; Project Dana; Hawaii Fall Prevention Consortium; Moiliili Community Center; American Council of Life Insurers; Hawaii Healthy Aging Partnership; and fifty-two individuals. Your Committees received comments on this measure from the Hawaii Government Employees Association.

Your Committees find that it is important to support the needs of Hawaii's increasing elderly population. Among the elderly in Hawaii, falls are the leading cause of fatal injuries and injury-related hospitalizations. Hospital costs associated with falls total over \$65,000,000 each year. Your Committees further find that additional funding is needed to expand education and resources for not only fall prevention services, but also kupuna care and senior centers, elder abuse and fraud prevention services, and long-term care services.

Your Committees have heard the testimony of the Hawaii Government Employees Association expressing concern that this measure, by making the Alzheimer's Disease and Related Services Coordinator position exempt from civil service and collective bargaining laws, unnecessarily expands the number of exempt employees and is inconsistent with the purpose of the civil service law. Your Committees find that this issue raises concerns that merit further consideration.

Your Committees have amended this measure by:

- (1) Changing the appropriation amount for the kupuna care program from \$9,000,000 to \$4,200,000;

- (2) Changing the appropriation amount for the aging and disability resource center from \$1,900,000 to \$427,937 to reflect the balance that the counties need to continue their aging and disability resource center operations and management information systems;
- (3) Removing the language that would have created and appropriated funds for a prevention of elder abuse and fraud position within the Executive Office on Aging, and replacing it with language that establishes an Elder Justice Coordinator position and duties of the Coordinator and appropriates \$70,000 for that purpose;
- (4) Removing the appropriation for awareness and education of elder abuse, neglect, and fraud;
- (5) Adding language establishing and appropriating funds for a Long-Term Support and Services System and Resource Development Coordinator within the Executive Office on Aging and establishing duties of the Coordinator; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services, Health, and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2228, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2228, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2128 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2582**

The purpose and intent of this measure is to:

- (1) Require the Chief of Police to implement the International Association of Chiefs of Police Aviation Committee's "Recommended Guidelines for the use of Unmanned Aircraft";
- (2) Prohibit the installation of or the carrying of weapons aboard an unmanned aircraft system that is used for commercial purposes and is flown across or above the State;
- (3) Authorize the granting of search warrants to conduct aerial surveillance of specified persons or their properties without their consent while limiting the use of data obtained from unmanned aircraft systems without a search warrant; and
- (4) Establish as a violation of privacy in the second degree the intentional use of a model aircraft or unmanned aircraft system operated for commercial or business purposes to track a specific, identifiable person without the person's consent, except in the execution of a public duty or as authorized by law.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received testimony in opposition to this measure from the Honolulu Police Department. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Department of Defense; International Ventures Associates; and American Civil Liberties Union of Hawai'i.

Your Committees find that the use of unmanned aircraft systems in non-military applications can be very beneficial but can also pose significant risks if their capabilities are not thoroughly understood and controlled appropriately. This measure strikes a balance between the use of advanced technology for the general public good and protection of privacy.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2582 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs

Ayes, 8; Ayes with Reservations (Kahale, Keith-Agaran). Noes, none. Excused, 1 (Gabbard).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 2129 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2608**

The purpose and intent of this measure is to make it unlawful for any law enforcement agency, state or local public agency, person, or entity to use an unmanned aircraft to gather information, including but not limited to images, photographs, or recordings, except under specified circumstances.

Your Committees received testimony in support of this measure from the Department of Transportation and American Civil Liberties Union of Hawai'i. Your Committees received testimony in opposition to this measure from the Honolulu Police Department,

The Nature Conservancy, Filipino Law Students Association, and Hawai'i Farm Bureau. Your Committees received comments on this measure from the State Department of Defense; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and International Ventures Associates.

Your Committees find that unmanned aircraft technology is rapidly developing. Public Law 112-95 (2012) requires the Federal Aviation Administration to "accelerate the integration of civil unmanned aircraft systems into the national airspace system". While unmanned aircraft technology offers more efficient and cost saving methods to gather information, this new and innovative technology may also provide opportunities for abuse. While recognizing the progressive opportunities that unmanned aircrafts provide, your Committees also recognize the duty to protect Hawaii residents from threats to their constitutional right to privacy.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2608, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2608, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2130 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2730**

The purpose and intent of this measure is to establish driver licensing reciprocity privileges between Hawaii and foreign countries under certain conditions and to repeal the current statute regarding the Driver's License Reciprocity Committee.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received testimony in opposition to this measure from the Maui Police Department. Your Committees received comments on this measure from the Department of Customer Services of the City and County of Honolulu.

Your Committees find that as a gateway location between East and West, Hawaii is an international gathering place where peoples from all over the world migrate to live, work, and attend school. Hawaii residents also migrate to other countries for the same purposes. The ability to drive is critical to the quality of life in Hawaii and in many other countries. This measure facilitates the ability to drive by providing driver licensing reciprocity with other countries under specified conditions.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2730 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs  
Ayes, 8. Noes, none. Excused, 1 (Gabbard).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 2131 Commerce and Consumer Protection on S.B. No. 2822**

The purpose and intent of this measure is to authorize the Department of Commerce and Consumer Affairs to conduct criminal history record checks on real estate appraiser license applicants, as required by federal law.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, and one individual.

Your Committee finds that pursuant to Title XI of the federal Financial Institutions Reform, Recovery and Enforcement Act of 1989, the Appraiser Qualifications Board has the authority to establish the qualification criteria for state licensing, certification, and recertification of real property appraisers. Your Committee further finds that the Appraiser Qualifications Board has adopted a requirement that all candidates for real property appraiser credentials must undergo background screening, a requirement that each state must implement no later than January 1, 2015. This measure permits the Department of Commerce and Consumer Affairs to conduct criminal background checks on real estate appraiser license applicants, thereby complying with federal law.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2822, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2822, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2132 Commerce and Consumer Protection on S.B. No. 2494**

The purpose and intent of this measure is to ensure personal injury protection benefits remain consistent with prepaid health care plans by clearly specifying requirements for the reimbursement of drugs, supplies, and materials.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council and GEICO. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs; Automated HealthCare Solutions, LLC; Work Injury Medical Association of Hawaii; and two individuals. Your Committee received comments on this measure from the Hawaii Medical Service Association.

Your Committee finds that this measure is intended to provide a clear understanding relating to the prescription, delivery, and payment of drugs, supplies, and materials. However, your Committee has heard the concerns that this measure may cause problems for the State's overall insurance system. Specifically, your Committee has heard testimony that personal injury protection benefits are tied into the motor vehicle insurance and workers' compensation supplemental medical fee schedules, and not to the individual reimbursement tables of multiple prepaid health care plans.

Your Committee respects and appreciates these concerns but believes that a method to contain costs, curtail overprescription, and discourage price gouging of drugs, supplies, and materials will ultimately benefit consumers and policyholders in the State; therefore, your Committee believes that this issue merits additional consideration by your Committee on Ways and Means.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2494, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2133 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 2857**

The purpose and intent of this measure is to amend the electronic device and television recycling program.

Your Committees received testimony in support of this measure from the Department of Health, City and County of Honolulu Department of Environmental Services, Ulupono Initiative, and Sierra Club of Hawaii. Your Committees received testimony in opposition to this measure from the Consumer Electronics Association. Your Committees received comments on this measure from Sims Recycling Solutions.

Your Committees find that the Electronic Waste and Television Recycling and Recovery Act is an important part of Hawaii's solid waste management system. In the current system, many businesses are allowed to create a mail-back only option to recycle their electronic products. Mail-back only programs involve shipping electronic goods back to the original manufacturer located outside of Hawaii. The effect of this is that many residents end up not recycling. In particular, this mail-back only policy is detrimental on the neighbor islands where some companies implement a mail-back only policy and no alternative for recycling. Making the recycling of electronic devices and televisions easier by implementing manufacturer recycling obligations and requirements will ensure convenient recycling for the public.

Your Committees have amended this measure by:

- (1) Inserting language to establish a penalty for any electronic device manufacturer and television manufacturer that falls short of its recycling obligations for the year as established by the Department of Health;
- (2) Inserting language to allow covered electronic devices and covered televisions collected from the five least populated islands with populations greater than 1,000 to count twice as much toward a manufacturer's recycling obligations for the year than covered electronic devices and covered televisions collected from the most populous island;
- (3) Amending language to require a manufacturer recycling plan to provide for various scheduled collection services based on the population of the island for every inhabited island with a population greater than 1,000;
- (4) Amending language to establish penalties if the department determines, after two revisions, that a manufacturer recycling plan is still insufficient; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2857, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2857, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2134 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 2934**

The purpose and intent of this measure is to establish the Hawaii community-based renewable energy program to make the benefits of renewable energy more accessible to a greater number of Hawaii residents.

Your Committees received testimony in support of this measure from Blue Planet Foundation, Sierra Club of Hawaii, Hawaii Solar Energy Association, Inter-Island Solar Supply, SolarCity, and three individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Public Utilities Commission; and Hawaii Electric Company, Inc.

Your Committees find that localized renewable energy generation has become increasingly attainable for all types of customers over the past several years. However, despite residential solar energy use statewide doubling in 2012, many individuals and households are currently unable to directly participate in renewable energy because of their location, building type, access to the electric utility grid, and other impediments.

Your Committees further find that creating a community-based renewable energy tariff structure will increase access to renewable generation, however your Committees also caution that this measure may have unintended program design consequences that would require future and untimely statutory amendments resulting in implementation barriers.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting language to allow the Public Utilities Commission to establish community-based renewable energy tariffs on services provided to customers by an electric utility for the purpose of encouraging the widespread adoption of cost-competitive renewable energy technology in the State; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2934, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2934, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2135 (Joint) Energy and Environment and Economic Development, Government Operations and Housing on S.B. No. 2198**

The purpose and intent of this measure is to establish a renewable fuels task force to perform a feasibility study involving locally produced renewable fuels and report its findings and recommendations to the Legislature.

Your Committees received testimony in support of this measure from the Hawaii Renewable Energy Alliance and Alliance of Automobile Manufacturers. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the intent of the ten percent ethanol requirement enacted by Act 257, Session Laws of Hawaii 1997, and codified as section 486J-10, Hawaii Revised Statutes, is to provide energy independence from foreign oil, reduce statewide gasoline consumption, and establish industrial plants to produce ethanol locally. Despite several planned ethanol plants and an abundance of vacant sugar cane land, no plants have been built, leaving the intent of Act 257 unfulfilled. Further investigation and study are needed since different requirements for diesel fuel may be necessary, as gasoline with ethanol or other biofuels are not an equal substitute for biodiesel because of mechanical and warranty issues involved with diesel engines.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2198 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Economic Development, Government Operations and Housing

Ayes, 6. Noes, none. Excused, 1 (Baker).

**SCRep. 2136 (Joint) Energy and Environment and Economic Development, Government Operations and Housing on S.B. No. 2801**

The purpose and intent of this measure is to condition the acceptance of a variance from the mandatory solar water heating requirement for single-family dwellings for a demand water heater device upon certification of the demand water heater by a North American certification organization, including the Canadian Standards Association International; Air-Conditioning, Heating, and Refrigeration Institute; or Gas Appliance Manufacturers Association Certification Program.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Solar Energy Association.

Your Committees find that certification requirements for the gas tankless, on-demand water heater option for a solar water heating system variance application should be revised; specifically, only gas tankless, on-demand water heaters that are certified by a North American certification organization should be eligible for the variance, for quality assurance and consumer protection purposes.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2801 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 6. Noes, none. Excused, 1 (Baker).

**SCRep. 2137 (Joint/Majority) Economic Development, Government Operations and Housing and Agriculture on S.B. No. 2397**

The purpose and intent of this measure is to create an agricultural technology park under the High Technology Development Corporation.

Your Committees received testimony in support of this measure from the Department of Agriculture, High Technology Development Corporation, Hawaii Farm Bureau Federation, and one individual.

Your Committees find that technology applications have greatly assisted farmers with various tasks. These tools monitor irrigation systems, mapping, grazing, pest management, harvest, weather, and fertilizer applications, all in real-time. These sophisticated technologies also have additional benefits in material cost, labor, and fuel savings, as the farmer can refer to electronic files rather than driving out to a specific field. Moreover, as the federal government moves forward with the FDA Food Safety Modernization Act, technological applications will be needed to assist farmers in tracking which crops were planted in which fields, soil types, and irrigation control.

Your Committees further find that former agricultural industrial lands of the Galbraith Trust have infrastructure and warehouses to support food safety, packaging, and processing, and to store produce farmed on the nearby lands. As such, an agricultural technology park can be planned and designed on these lands in consultation with various agencies, such as the City and County of Honolulu's Department of Planning and Permitting and Department of Environmental Services, to comply with the most current Wahiawa community town and master plan and Wahiawa urban design plan. After processes and technologies are updated to align with federal regulations, this state-owned land can provide the setting for bridging the agricultural and technology gap, while providing agritourism benefits.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2397, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2397, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 4; Ayes with Reservations (Baker). Noes, 1 (Thielen). Excused, 2 (Chun Oakland, Wakai).

Agriculture

Ayes, 5. Noes, 1 (Thielen). Excused, 1 (Wakai).

**SCRep. 2138 Human Services on S.B. No. 2188**

The purpose and intent of this measure is to provide adoptees who have attained eighteen years of age unfettered access to the adoptees' adoption records.

Your Committee received testimony in support of this measure from twelve individuals. Your Committee received comments on this measure from the Department of the Attorney General and two individuals.

Your Committee finds that Hawaii's adoption record law conditions access to adoption records on birthparent approval, which is a significant hurdle for adoptees to overcome. Historically, adoptees' access to adoption records was limited due to the prevailing idea that adopted children were better off if they were unaware of their adoption. Current research indicates that the secrecy surrounding adoption actually has detrimental effects on adoptees. Your Committee recognizes the substantial interest that adoptees have in learning their familial history. However, your Committee heard testimony expressing constitutional right to privacy concerns about this measure and finds that the concerns raised merit further consideration.

Therefore, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2188, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2139 Human Services on S.B. No. 2507**

The purpose and intent of this measure is to afford greater protection to persons sixty years of age or older who are victims of crime by establishing mandatory minimum prison terms for certain offenses committed against persons sixty years of age or older.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu. Your Committee received testimony in opposition to this measure from the Community Alliance on Prisons.

Your Committee finds that it is important to protect Hawaii's aging population from becoming targets of financial crimes such as theft, identity theft, and robbery. Existing law holds criminals accountable for causing serious or substantial bodily injury to persons sixty years of age or older, but does not provide enhanced consequences for offenders who prey financially on or commit other types of offenses against individuals whom the defendant knows or reasonably should know are sixty years of age or older.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2507, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2507, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2140 Human Services on S.B. No. 149**

The purpose and intent of this measure is to amend the law relating to human services.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amended this measure by deleting its contents and replacing it with language to appropriate funds to the Department of Human Services so that aging and disabled individuals on Medicaid can continue to receive necessary long-term care services.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 149, as amended herein, and recommends that it be recommitted to the Committee on Human Services, in the form attached hereto as S.B. No. 149, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2141 Water and Land on S.B. No. 180**

The purpose and intent of this measure is to amend the law relating to ocean management.

Prior to a hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing them with language to vest in the village elder who is domiciled on Niihau exclusive konohiki rights.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 180, as amended herein, and recommends that it be recommitted to the Committee on Water and Land, in the form attached hereto as S.B. No. 180, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Shimabukuro, Taniguchi).

**SCRep. 2142 Water and Land on S.B. No. 3003**

The purpose and intent of this measure is to amend the law relating to land.

Prior to a hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to establish the County of Niihau under the jurisdiction of the Department of Land and Natural Resources.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3003, as amended herein, and recommends that it be recommitted to the Committee on Water and Land, in the form attached hereto as S.B. No. 3003, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ruderman, Slom). Noes, none. Excused, 3 (Dela Cruz, Shimabukuro, Taniguchi).

**SCRep. 2143 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2138**

The purpose and intent of this measure is to amend the definition of “neighborhood electric vehicle” as used in chapter 291C, Hawaii Revised Statutes, to mean, among other things, that the vehicle has a fully laden weight as specified by the manufacturer of less than 3,000, rather than 1,800, and that the vehicle is designed to carry a maximum of six, rather than four, persons.

Your Committees received testimony in support of this measure from the Department of Transportation and Department of Business, Economic Development, and Tourism. Your Committees received comments on this measure from the City and County of Honolulu Department of Customer Services.

Your Committees find that the use of electric vehicles is gradually increasing in Hawaii. Therefore, laws need to keep abreast with the latest developments in electric vehicles.

Your Committees have amended this measure by:

- (1) Aligning the definitions of the term “neighborhood electric vehicle” in sections 286-2 and 291C-1, Hawaii Revised Statutes, by:
  - (A) For the definition in section 286-2, Hawaii Revised Statutes, increasing the maximum gross vehicle weight rating requirement to 3,000 pounds; and
  - (B) For the definition in section 291C-1, Hawaii Revised Statutes, deleting the requirement regarding the maximum number of passengers the vehicle is designed to carry, amending the requirement regarding number of wheels in contact with the ground, and amending the weight rating requirement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2138, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2138, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs

Ayes, 8. Noes, none. Excused, 1 (Gabbard).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 2144 Human Services on S.B. No. 2057**

The purpose and intent of this measure is to:

- (1) Extend the sunset date of the nursing facility sustainability program to December 31, 2015;
- (2) Appropriate funds out of the nursing facility sustainability program special fund for fiscal year 2014-2015; and
- (3) Exempt the nursing facility sustainability program special fund from the central service expenses assessment.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Human Services, Hawaii Health Systems Corporation, Healthcare Association of Hawaii, and Hawaii Long Term Care Association.

Your Committee finds that funding the nursing facility sustainability program is necessary to increase the sustainability of nursing facilities in Hawaii and that nursing facilities are a critical part of the long-term safety net for the State’s aging population. Your Committee further finds that without the exemption provided by this measure, the nursing facility sustainability program will have to pay approximately \$500,000 per year in central service expenses assessments, which inhibits the program’s ability to sustain nursing facilities and improve services to Medicaid recipients.

Your Committee has amended this measure by amending session law language to ensure that all necessary provisions related to the nursing facility sustainability program special fund, including provisions related to monies deposited into the fund, are extended to December 31, 2015.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2057, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2057, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2145 Human Services on S.B. No. 2848**

The purpose and intent of this measure is to provide a child friendly process of hearing notification to children in child protection cases to avoid children being served the summons by a law enforcement officer.

Your Committee received testimony in support of this measure from the Department of Human Services and Department of the Attorney General. Your Committee received comments on this measure from the Judiciary, State of Hawaii.

Your Committee finds that it is not in the best interests of children who are parties to child protection cases to be served a summons by a law enforcement officer. When the Child Protective Act was amended by Act 135, Session Laws of Hawaii 2010, an oversight occurred that requires children to be served with a summons by a law enforcement officer. Your Committee finds that it is less intimidating and more therapeutic for children to receive notice of the petition, the date and time of the initial hearing, and the child's right to participate in the hearing through notification by the Department of Human Services.

Your Committee has amended this measure by:

- (1) Adding language requiring the Department of Human Services to provide notice to children in child protection hearings a minimum of twenty-four hours prior to the time set forth in the summons for a temporary foster custody hearing and a minimum of forty-eight hours prior to the time set forth in the summons for any other hearing; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2848, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2848, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2146 (Joint) Human Services and Education on S.B. No. 2441**

The purpose and intent of this measure is to provide a standardized framework and funding for after-school programs in public middle and intermediate schools by establishing the resources for enrichment, athletics, culture, and health (or R.E.A.C.H.) program within the Office of Youth Services.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Education, Board of Education, Office of Youth Services, Mililani Middle School, Molokai Middle School, Waiakea Intermediate School, Hana High and Elementary, Reach Out Hawaii, Oceanic Time Warner Cable, Pacific Links Hawaii, Island Insurance Companies, Hawaii Youth Services Network, After-School All-Stars Hawaii, Maui Economic Development Board, Hui for Excellence in Education, Hawaii Council on Physical Activity and Nutrition, Boys and Girls Club of Hawaii, and eleven individuals.

Your Committees find that the creation of a state-subsidized after-school program for middle and intermediate public school students is important to the future of Hawaii's keiki and the welfare of the State as a whole. More than one-fourth of children are left alone and unsupervised after school, and data indicates that juvenile violence peaks in the after-school hours on school days. In addition, Hawaii's dropout rate has reached over sixteen percent, and nearly half of high school drop outs report feeling that they started high school ill-prepared.

Your Committees find that middle and intermediate school years are a pivotal time for children, and high-quality after-school programs can lead to improved school attendance, better behavior, and better academic performance. It is important to keep children engaged in positive after-school activities because disconnected youth are more likely to become part of the juvenile justice system, and research indicates that each disconnected youth costs taxpayers nearly \$14,000 per year. In contrast, after-school programs keep children engaged in positive activities and on a path toward graduation and productive futures.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2441, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2441, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Education

Ayes, 3. Noes, none. Excused, 2 (Ruderman, Slom).

**SCRep. 2147 (Joint) Human Services and Education on S.B. No. 2234**

The purpose and intent of this measure is to repeal the child care licensing exemption for child care programs licensed by the Hawaii Council of Private Schools.

Your Committees received testimony in support of this measure from the Hawaii Association for the Education of Young Children. Your Committees received testimony in opposition to this measure from the Executive Office on Early Learning, Department of Human Services, and Hawaii Association of Independent Schools.

Your Committees find that it is important to ensure that child care programs and early childhood programs meet health and safety standards so that Hawaii's young children receive safe and quality care. Your Committees heard testimony from the Department of Human Services and Hawaii Association of Independent Schools expressing strong concerns that this measure would defeat collaborative efforts that have made significant progress toward implementation of Act 163, Session Laws of Hawaii 2012, and Act 140, Session Laws of Hawaii 2013, which this measure would repeal. The Department also testified that it does not have the resources to implement and staff the tasks that would be required if this measure is passed.

Your Committees have amended this measure by:

- (1) Inserting an appropriation of an unspecified amount to the Department of Human Services; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

If this measure is considered for passage by your Committee on Ways and Means, the Department of Human Services is expected to provide information regarding the amount of resources necessary to carry out the purposes of this measure and fund one full-time equivalent position (1.0 FTE).

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2234, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2234, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Education

Ayes, 3. Noes, none. Excused, 2 (Ruderman, Slom).

**SCRep. 2148 Education on S.B. No. 2288**

The purpose and intent of this measure is to amend or repeal various sections of chapter 302A, Hawaii Revised Statutes (HRS), that:

- (1) Have already been accomplished and are no longer necessary to be codified in statute;
- (2) Impede rather than assist the Department of Education in meeting its core mission;
- (3) Fall under the purview of the Board of Education, such as policy and programmatic decisions;
- (4) Are already mandated by federal law and do not require codification in state statute; or
- (5) Are covered by another section of the HRS, Hawaii Administrative Rules, or Board of Education policy.

Your Committee received testimony in support of this measure from the Department of Education and League of Women Voters Hawaii.

Your Committee finds that in 2012, the Legislature passed Act 133, Session Laws of Hawaii 2012 (Act 133), which sought to clarify or resolve conflicting or inconsistent language in different sections of law and to amend or repeal various sections of chapter 302A, HRS. This measure continues to amend or repeal various sections of chapter 302A, HRS, for housekeeping or other purposes.

Your Committee has amended this measure by:

- (1) Adding language to require the Department of Education to post certain information annually on its website rather than repealing the requirement that the Department submit various reports to the Legislature, Governor, and Board of Education;
- (2) Removing language that made the selection of a student representative to each school community council from the elementary and middle school levels optional rather than mandatory; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2288, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2149 Education on S.B. No. 2977**

The purpose and intent of this measure is to create a five-year pilot project within the Department of Education authorizing the Department to contract for the design, planning, and installation of fourth generation modular design buildings to maximize resources and better meet the growing and changing needs of Hawaii's public school campuses.

Your Committee received testimony in support of this measure from the Department of Education and one individual.

Your Committee finds that the needs and enrollment in Hawaii's public schools have shifted and changed over time. Many schools are at capacity and do not have the facilities to adequately handle continued growth, while others struggle to find space to deliver needed programs and services.

Your Committee further finds that fourth generation modular design building systems, such as the Sprout Space classrooms designed by the company Perkins+Will, are designed to enhance student learning by incorporating sustainable green building strategies that reduce energy costs, reduce construction costs, provide flexibility, and create healthier learning environments. This measure authorizes the Department of Education to pursue options for similar fourth general modular design building systems for Hawaii's public schools.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

If this measure is considered for passage by your Committee on Ways and Means, your Committee has asked the Department of Education to provide information on the amount of funding it will need to carry out the pilot project.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2977, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2977, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2150 Technology and the Arts on S.B. no. 2547**

The purpose and intent of this measure is to:

- (1) Establish a temporary Fiftieth Anniversary of the State Foundation on Culture and the Arts Commission within the Office of the Governor to plan and coordinate the public celebration of the fiftieth anniversary of the State Foundation on Culture and the Arts; and
- (2) Make an appropriation to the Office of the Governor to be used by the Fiftieth Anniversary of the State Foundation on Culture and the Arts Commission.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds there are various program activities to be planned and scheduled to celebrate and commemorate the fiftieth anniversary of the State Foundation on Culture and the Arts. This measure appropriates funds to allow a temporary Commission to coordinate the celebration.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2547 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2151 Technology and the Arts on S.B. No. 2598**

The purpose and intent of this measure is to establish the Hawaii Commission on African American History and Culture to recognize the contributions of and educate Hawaii's citizens on the African American people in Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Dr. Martin Luther King, Jr. Coalition; Prince Hall Grand Lodge of Hawaii; Baham-Goldsborough Hawaii Chapter of Tuskegee Airman, Inc.; and five individuals.

Your Committee finds that African American people have contributed significantly to all phases of Hawaii's development. Recognition of the contributions of the African American people and their culture is important to the promotion and awareness of Hawaii's diverse and multicultural society.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2598 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2152 (Majority) Judiciary and Labor on S.B. No. 2366**

The purpose and intent of this measure is to increase the guaranteed monthly compensation amount of an employee from \$2,000 to \$5,000, at which amount the employee will be exempt from minimum wage, overtime, and recordkeeping requirements under the wage and hour laws.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Testimony in opposition to this measure was submitted by the Hawaii Food Industry Association, The Chamber of Commerce of Hawaii, and Island Princess.

Your Committee finds that the wage and hour laws were established to safeguard existing minimum wage and maximum hour standards to maintain the health, efficiency, and general wellbeing of workers. Under existing law, an individual who receives a guaranteed compensation of \$2,000 or more per month is excluded from the wage and hour laws, enabling the employer, if subject to the wage and hour laws, to mandate the individual to work an unlimited number of hours without having to pay the individual overtime. Since the \$2,000 guaranteed compensation threshold amount was established, increases in the minimum wage rate have resulted in the guaranteed compensation amount being closer to the monthly compensation of a minimum wage worker who is covered under the wage and hour laws. This measure raises the threshold amount for guaranteed compensation to more closely align with increases in the minimum wage rate and inflation.

Your Committee recognizes the concerns raised in the written testimony that the increase in the guaranteed compensation amount is too large and sudden and may impose heavy financial burdens on businesses. Your Committee also notes that the guaranteed compensation threshold amount proposed under this measure could more closely reflect the increases in the minimum wage rate and inflation. The Department of Labor and Industrial Relations testified that the \$2,000 guaranteed compensation threshold amount was enacted in 2002, when the minimum wage rate was \$5.75 per hour and increased to \$6.25 per hour on January 1, 2003. The minimum wage rate is currently \$7.25 per hour. Also since 2002, the consumer price index has increased thirty percent. Thus, the \$2,000 guaranteed compensation threshold amount is approximately \$2,590 in 2013 dollars. Rather than setting a fixed guaranteed compensation threshold amount, the Department proposed a mechanism that would maintain consistency with minimum wage and inflation over time without the need for frequent legislative intervention. This mechanism determines the guaranteed compensation

threshold by multiplying the minimum wage by 320. Three hundred twenty represents the current exemption amount (\$2,000) divided by \$6.25, which was the minimum wage increase going into effect the last time this exemption was increased in 2002.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language proposed by the Department of Labor and Industrial Relations that establishes the guaranteed compensation amount by multiplying the minimum wage rate by three hundred twenty, which retains the same proportion of the existing guaranteed compensation threshold amount to the applicable minimum wage (\$2,000:\$6.25); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2366, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2366, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Ihara).

**SCRep. 2153 Commerce and Consumer Protection on S.B. No. 2948**

The purpose and intent of this measure is to clarify the Public Utilities Commission's authority concerning standard administrative practices, including operational expenditures and the hiring of personnel.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaii Energy Policy Forum, Hawaii Renewable Energy Alliance, Life of the Land, and one individual.

Your Committee finds that the Public Utilities Commission is undergoing a major transition due to increased work complexity and program responsibilities, particularly in the area of energy regulation. A streamlined administrative process that clearly defines the authority of the Commission's Chairperson to make decisions on hiring and operational expenditures is therefore necessary. Your Committee further finds that this measure will help avoid future ambiguity regarding the Commission's autonomy and ability to hire appropriate personnel and make necessary expenditures, thereby enabling the Commission to carry out its various regulatory responsibilities within a legislatively approved budget.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2948 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2154 Commerce and Consumer Protection on S.B. No. 2924**

The purpose and intent of this measure is to increase the balance that may be retained in the public utilities commission special fund at the end of each fiscal year.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaii Energy Policy Forum, Hawaii Renewable Energy Alliance, Blue Planet Foundation, Friends of Lana'i, and one individual.

Your Committee finds that the public utilities commission special fund is the primary source of funding for the operations of the Public Utilities Commission and the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs. Since fiscal year 2009, the amount of transfers from the public utilities commission special fund to the State's general fund has averaged approximately \$11,200,000 per year. Your Committee recognizes the benefits these transfers provide to the State but notes that the funds collected under the public utility fee are derived from public utility company revenues and are paid directly by ratepayers for the purpose of providing regulatory oversight.

Your Committee further finds that dedicating a higher portion of the public utilities commission special fund to support the operations of the Public Utilities Commission and the Division of Consumer Advocacy would be advantageous for the State, especially in light of the increasing complexity and size of the Public Utilities Commission's workload. Your Committee also finds that raising the public utilities commission special fund carryover balance will also help with encumbering of contracts, which both agencies must rely on in an era of increasingly technical electricity regulation. This measure therefore enables the Public Utilities Commission and the Division of Consumer Advocacy to fulfill their respective statutory duties.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2924 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2155 Commerce and Consumer Protection on S.B. No. 2821**

The purpose and intent of this measure is to:

- (1) Adopt revisions to the National Association of Insurance Commissioners model laws on Credit for Reinsurance Model Act, Standard Valuation Law, Standard Nonforfeiture Law for Life Insurance, and Insurance Holding Company System Regulatory Act; and

- (2) Ensure the Insurance Division of the Department of Commerce and Consumer Affairs maintains its accreditation with the National Association of Insurance Commissioners.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, USAA, Lloyd's of London, Reinsurance Association of America, American Council of Life Insurers, and one individual. Your Committee received comments on this measure from the Office of Information Practices and National Association of Mutual Insurance Companies.

Your Committee finds that the revisions to the State's Insurance Code in this measure are part of the National Association of Insurance Commissioners' Solvency Modernization Initiative, a critical self-examination to update the nation's insurance solvency regulation framework and review international developments regarding insurance supervision, banking supervision, and international accounting standards and their use in the country's insurance regulation. The Solvency Modernization Initiative focuses on key issues, including capital requirements, governance and risk management, group supervision, statutory accounting and financial reporting, and reinsurance.

Your Committee further finds that the National Association of Insurance Commissioners' financial regulation standards and accreditation program ensure that each state has adequate solvency laws and regulations to protect consumers and guarantee reserve funds. This measure will therefore help protect consumers in Hawaii and ensure that the Insurance Division of the Department of Commerce and Consumer Affairs retains its accreditation with the National Association of Insurance Commissioners.

Your Committee has amended this measure by:

- (1) Clarifying that documents, materials, or other information that are already confidential by law and privileged shall not be disclosable under chapter 92F, Hawaii Revised Statutes, rather than not subject to the requirements of chapter 92F, Hawaii Revised Statutes;
- (2) Clarifying that disciplinary action by the Insurance Commissioner against an appointed actuary, rather than against a qualified actuary, shall be defined in regulations, to conform to the National Association of Insurance Commissioners Standard Valuation Law;
- (3) Specifying that the nonforfeiture interest rate for life insurance policies issued prior to the operative date of the valuation manual shall not be less than four percent, to conform to the National Association of Insurance Commissioners Standard Nonforfeiture Law for Life Insurance;
- (4) Clarifying corporate confidentiality language pertaining to insurance holding company systems, to conform to the National Association of Insurance Commissioners Insurance Holding Company System Regulatory Act; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2821, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2821, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2156 (Joint/Majority) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 2761**

The purpose and intent of this measure is to:

- (1) Specify that a government agency does not assume ownership or jurisdiction over a disputed road solely through maintenance or repair activities;
- (2) Authorize the State to quitclaim ownership of roads in favor of counties; and
- (3) Establish necessary funding for the maintenance and repair of disputed roads through the authorization of an additional county surcharge on state tax.

Your Committees received testimony in support of this measure from the Department of Transportation and Department of Public Works of the County of Kauai. Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committees received comments on this measure from the Department of Taxation, Department of Land and Natural Resources, and Tax Foundation of Hawaii.

Your Committees find that government agencies have been reluctant to assume maintenance responsibilities on "roads in limbo" as a precaution against liability since maintenance could be interpreted as assuming jurisdiction or ownership of the disputed road. Ownership usually implies liability for injury and damages arising out of the condition of the property. This measure addresses that reluctance by providing that a government agency that undertakes such maintenance or repair shall not be deemed to have assumed ownership or jurisdiction over the road solely because of such action.

Your Committees further find that allowing the counties to adopt ordinances to levy a one-half percent surcharge on state general excise and use taxes for the purpose of maintenance or repair of disputed roads satisfies the constitutional requirement of article VIII, section 5, of the Hawaii State Constitution that requires the State to share in the cost of new mandated programs to the counties.

It is the intent of your Committees that counties may adopt ordinances under this measure only if they have not adopted ordinances pursuant to section 46-16.8, Hawaii Revised Statutes, relating to county surcharge on state tax.

Your Committees have amended this measure by:

- (1) Authorizing the county surcharge on state tax for only those counties that have not adopted an ordinance pursuant to section 46-16.8, Hawaii Revised Statutes, and making conforming amendments to delete references to the surcharge as an additional surcharge;
- (2) Setting the county surcharge at a uniform rate of one-half percent of all gross proceeds and gross income taxable under the general excise tax and use tax laws;
- (3) Amending the authorized use of surcharges received by a county from operating costs of public transportation within the county for public transportation systems to maintenance and repair costs of disputed roads; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs, Public Safety, Intergovernmental and Military Affairs, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2761, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2761, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2157 Transportation and International Affairs on S.B. No. 2732**

The purpose and intent of this measure is to set a minimum fine of \$100 for driving or parking a vehicle on a bicycle lane or bicycle pathway.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Transportation Services of the City and County of Honolulu, and one individual.

Section 291C-123, Hawaii Revised Statutes, establishes a maximum fine of \$500, but a minimum fine of \$35 is usually ticketed by an enforcing officer for driving or parking a vehicle on a bicycle lane or pathway. Your Committee finds that obstruction of bicycle lanes and bicycle paths by motorists is a real and present danger and poses a safety hazard to bicyclists and to neighborhoods. Accordingly, the intent of your Committee is to deter illegal parking upon bicycle lanes and bicycle paths by statutorily imposing a minimum fine of \$100 for those respective offenses.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2732, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2732, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Espero, Solomon, Slom).

**SCRep. 2158 Transportation and International Affairs on S.B. No. 2726**

The purpose and intent of this measure is to allow an all-terrain vehicle (ATV) to be driven on a street if the ATV is being used as farm equipment, if the operator holds a current category (3) license or a commercial driver's license, and if the operator and passengers wear safety helmets secured with a chin strap.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc.; Hamakua County Farm Bureau; Hawaii's Agricultural Partnerships; and one individual. Your Committee received testimony in opposition to this measure from the Department of Transportation, Honolulu Police Department, and Maui Police Department.

Your Committee finds that the regulation of ATVs is a matter of public safety. According to the United States Consumer Product Safety Commission, an estimated 135,100 ATV-related injuries were treated in hospital emergency rooms nationwide in 2008. In addition, there were 9,633 reported deaths between 1982 and 2008, with fourteen of those deaths occurring in Hawaii. Your Committee believes that the use of ATVs is particularly dangerous for minors.

Your Committee was informed in testimony that a new type of agricultural equipment being used is the utility-terrain vehicle. Many farms and ranches are split up by public roads. Utility-terrain vehicles make it possible for farmers and ranchers to drive from one part of the farm or ranch to another part, which is either across the road or within a mile or two. Using the same piece of equipment in the field to travel on a street from one part of the farm or ranch to another is a matter of practicality and convenience to farmers and ranchers.

Your Committee has amended this measure by:

- (1) Applying this measure to "utility-terrain vehicles" in addition to ATVs and defining the term "utility-terrain vehicle"; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2726, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2726, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Espero, Solomon, Slom).

**SCRep. 2159 Transportation and International Affairs on S.B. No. 2727**

The purpose and intent of this measure is to extend the sunset date of Act 46, Session Laws of Hawaii 2012, to authorize the Department of Transportation to extend the term of an airport concession, and to modify and amend the terms of any concession contracts, leases, and permits in exchange for revenue-enhancing improvements that are made or paid for by the concession.

Your Committee received testimony in support of this measure from the Department of Transportation; Airport Concessionaires Committee; HMSHost; Island Shoppers, Inc.; and GRL Corporation.

Act 46, Session Laws of Hawaii 2012, provides the Department of Transportation with the authority and discretion to reach an agreement with an airport concessionaire to extend the term of the concession and to modify and amend terms of any concession contract, lease, or permit in exchange for revenue-enhancing improvements that are made or paid for by the concessionaire. Act 46 expires on July 1, 2014.

Your Committee finds that modernization and improvements at Hawaii's airport concessions have not kept pace with passenger needs and demands. A recent study by the State indicates that various areas at our public airports are lacking in concession space by as much as forty percent, and that Hawaii's public airports are not maximizing concession revenues. It is important that the Department of Transportation and concessionaires work together in achieving the improvements contemplated in an expeditious but fair and equitable manner, including amendments extending the term of a concession lease or permit at the Department of Transportation's discretion.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2727, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2727, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Espero, Solomon, Slom).

**SCRep. 2160 (Majority) Transportation and International Affairs on S.B. No. 2729**

The purpose and intent of this measure is to:

- (1) Prohibit the operation of a motor vehicle while using a mobile electronic device held in a person's hand for making or receiving a non-emergency call, texting, or receiving a text message;
- (2) Add exemptions to the prohibition;
- (3) Amend the penalties for violations; and
- (4) Deem a violation to be a traffic infraction.

Your Committee received testimony in support of this measure from Honda of North America, Inc., and thirteen individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation, County of Hawai'i Police Department, City and County of Honolulu Police Department, Office of the Prosecuting Attorney of the County of Kaua'i, Safe Community of Maui, and one individual. Your Committee received comments on this measure from the State Judiciary.

After the passage of Act 74, Session Laws of Hawaii 2013, which enacted the mobile electronic devices law (codified as section 291C-137, Hawaii Revised Statutes), the Legislature received numerous complaints from the public about the vagueness and ambiguity of the law and the onerous burden of requiring violators to make a court appearance. Particularly for neighbor islands, a person is likely to have to travel many miles to appear in court and wait for the case to be called, which consumes a whole day's worth of time. According to testimony of the Judiciary on this measure, "Since the inception of the current law there have been 7,184 mobile device cases statewide of which 4,171 cases have been adjudicated. However, in almost 900 of these cases a bench warrant has been issued for those defendants who did not make a court appearance. In some cases where the warrants have been served, defendants have also been convicted of contempt of court for failure to appear. For these cases, defendants have a criminal conviction record which is recorded in the Hawaii Criminal Justice Center's CJIS database."

Your Committee finds that it was never the intent of the Legislature that violators be forced to appear in court rather than mailing in the fine without a court appearance as allowed under chapter 291D, Hawaii Revised Statutes, relating to adjudication of traffic violations. Your Committee further finds that the existing law is fraught with traps for those who use mobile electronic devices in situations that are within the realm of safe driving to a reasonable person.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2729, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2729, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Gabbard). Excused, 4 (Dela Cruz, Espero, Solomon, Slom).

**SCRep. 2161 Transportation and International Affairs on S.B. No. 2488**

The purpose and intent of this measure is to appropriate funds for the traffic signal capital improvement project at the intersection of Piilani Highway and Kulanihakoī Street in Kihei, Maui.

Your Committee received testimony in support of this measure from the Maui Research & Technology Park, Maui Economic Development Board, Kihei High School Action Team, and three individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that there have been numerous traffic accidents and near-accidents at the intersection of Piilani Highway and Kulanihakoī Street in Kihei, Maui. According to the Maui Police Department, between January 1, 2012, and December 31, 2013, there were six major crashes, defined as crashes with injuries or property damage greater than \$3,000, or both, at this intersection. There were also five minor crashes, defined as crashes with no injuries and property damage less than \$3,000, during this time at the same intersection.

The intersection of Piilani Highway and Kulanihakoī Street will also be the entrance to the new high school in Kihei, scheduled to open in 2018. Kihei is one of Maui's fastest growing communities in the State and with the construction, development, and opening of the high school, it is more important than ever to make traffic safety, bus safety, and pedestrian safety in this area a top priority. The plan, design, and construction of a traffic signal at the intersection of Piilani Highway and Kulanihakoī Street will help prevent future congestion and ensure traffic, bus, and pedestrian safety.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2488 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Espero, Solomon, Slom).

**SCRep. 2162 Education on S.B. No. 2516**

The purpose and intent of this measure is to appropriate funds to the State Public Charter School Commission (Commission) to support its facilities pilot project.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Kamehameha Schools, Ho'okako'o Corporation, Hawaiian Education Council, Hawaii Public Charter Schools Network, School for Examining Essential Questions of Sustainability, Hawaii Academy of Arts and Science Public Charter School, Ke Kula 'O Nāwahīokalani'ōpu'u Iki, and thirty-seven individuals.

Your Committee finds that funding for facilities at Hawaii's charter schools has been a long standing issue that needs creative solutions. The Commission has created a pilot project for the allocation of funds to various charter schools for small scale facilities projects based, in part, on the need and performance of the charter schools. The Commission has currently allocated \$680,000 of federal impact aid for this pilot project, and if it keeps to its proposed timeline, the Commission would be able to vet first round projects prior to any general funds being released, should this measure pass. This measure will provide additional support to the pilot project to assist charter schools with their facilities needs, understanding that these funds are more flexible and can take into account a range of situations from lease rent to capital campaigns.

Your Committee has amended this measure by inserting an appropriation amount of \$1,200,000 based on the Commission's oral testimony that the original amount of federal impact aid the Commission had set aside for the facilities pilot project was \$1,200,000.

Your Committee notes that the Commission is awaiting an opinion by the Attorney General on whether the Commission can use federal impact aid for its facilities pilot project. Your Committee has asked the Commission to inform your Committee and any committees that may subsequently consider this measure as soon as it receives the Attorney General's opinion on this issue.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2516, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2516, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2163 Education on S.B. No. 2517**

The purpose and intent of this measure is to:

- (1) Authorize the State Public Charter School Commission (Commission) to request the issuance of general obligation bonds from the Director of Finance and to allocate the proceeds thereof for the design, planning, construction, repair, and maintenance of public charter school facilities;
- (2) Create a working group comprising of the Chair of the Commission, Executive Director of the Commission, Director of Finance, Chair of the Senate Committee on Ways and Means, and Chair of the House of Representatives Committee on Finance, or their designees; and
- (3) Task the working group with determining the criteria for and prioritization of the allocation of the proceeds of any issuance of general obligation bonds for public charter school facilities, based in part on the performance and need of the public charter schools.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Kamehameha Schools, Hawai'i Public Charter School Network, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Kama'aha Education Initiative.

Your Committee finds that funding for facilities at Hawaii's charter schools has been a long standing issue that needs creative solutions. Throughout the summer and fall of 2013, key stakeholders from the charter school community, Board of Education, Department of Education, Department of Budget and Finance, Governor's Office, and Legislature met as an informal working group to develop innovative and unique approaches to address a number of funding challenges faced by charter schools.

This measure will provide the Commission and charter schools with a means of financing the design, planning, construction, repair, and maintenance of charter school facilities in a way that is responsive to charter schools' performance and needs. This measure also involves the relevant financial stakeholders in helping to determine the criteria for and the prioritization of the allocation of bond revenues for public charter school facilities.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$5,000,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2517, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2164 Education on S.B. No. 2236**

The purpose and intent of this measure is to authorize the Executive Office on Early Learning (Office) to enter into agreements with the Department of Education and charter schools for use of vacant or underutilized classrooms as public preschool classrooms.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; Department of Human Services; Department of Education; Kamaile Academy Public Charter School; Kualapu'u Public Conversion Charter School; Hawaii Association of Independent Schools; Good Beginnings Alliance; Ho'okako'o Corporation; Institute for Native Pacific Education and Culture; Kamehameha Schools; Hawai'i Association for the Education of Young Children; Hui for Excellence in Education; Hawaii Primary Care Association; The Chamber of Commerce of Hawaii; Legislation Committee of the Democratic Party of Hawaii; IMUAlliance; Ka HULI Mua, LLC; Hawaii State Teachers Association; and eighty-five individuals.

Your Committee finds that the significant, long-term benefits realized through investments in high-quality, early learning systems have been proven through decades of research. The Department of Education and charter schools may have facilities and highly qualified professionals that can provide Hawaii's children with access to public preschools. This measure will direct the Office to enter into agreements with the Department of Education and charter schools to provide students with the opportunity to attend a public preschool and ensure greater school readiness prior to entering kindergarten. In many of our communities, public preschools will play a critical role as part of a mixed delivery system given the lack of access to private preschool providers.

The Office has already identified thirty-two classrooms in thirty schools statewide to operate public preschool programs. These programs will be staffed by Department of Education teachers and staff and will serve approximately six hundred forty children. The Office estimates that the thirty-two classrooms will require \$4,500,000 in funding.

Your Committee further finds that several charter schools have space available to operate public preschool programs. The Office estimates that to operate five public preschool programs in charter schools, it will need \$754,000 in funding.

Your Committee has amended this measure by:

- (1) Clarifying that the Office may enter into contracts with the Department of Education and charter schools for the use of available classrooms, rather than requiring the classrooms to be vacant or underutilized;
- (2) Adding language requiring the Office to enter into contracts with no more than five charter schools for the use of available classrooms for public preschool programs through June 30, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2236, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 2165 Education on S.B. No. 2421**

The purpose and intent of this measure is to:

- (1) Establish two interagency working groups to allow the Department of Education and Department of Accounting and General Services, and the Department of Education and Department of Health, respectively, to discuss various issues relating to Act 51, Session Laws of Hawaii 2004 (Act 51); and

- (2) Appropriate funds to the Department of Accounting and General Services for additional positions for school facilities repair and maintenance on the islands of Maui, Hawaii, and Kauai.

Your Committee received testimony in support of this measure from the Department of Education; Department of Accounting and General Services; Department of Health; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that Act 51 sought to revamp education in Hawaii by, in part, creating an interagency working group to develop plans for transferring certain rights, powers, functions, duties, and resources from various state departments to the Department of Education. The interagency working group ceased to exist on June 30, 2007.

Your Committee further finds that re-establishment of interagency working groups will help address various issues that either have not been fully resolved since Act 51 or have arisen as a result of the transferring of certain rights, powers, functions, duties, and resources from various state departments to the Department of Education. Many of these issues and concerns, as well as the need for additional repair and maintenance support on the neighbor islands, arose from discussions that took place during the 2013 interim when the Chair of your Committee on Education toured the State's fifteen complex areas to meet with and listen to the principals and staff.

Your Committee has amended this measure by:

- (1) Inserting an appropriation in the amount of \$180,000 to the Department of Education for the establishment of the interagency working groups and to fund two full-time equivalent (2.0 FTE) positions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2421, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2166 (Joint) Human Services and Higher Education on S.B. No. 3034**

The purpose and intent of this measure is to appropriate \$353,176 to restore the Hawaii Child Welfare Education Collaboration in order to assist with the recruitment and training of graduate students from the University of Hawaii Myron B. Thompson School of Social Work for child welfare positions at the Department of Human Services.

Your Committees received testimony in support of this measure from the Department of Human Services; University of Hawaii System; National Association of Social Workers, Hawaii Chapter; Family Programs Hawaii; and eleven individuals.

Your Committees find that the Department of Human Services is in serious need of experienced child welfare workers. As of December 2013, child welfare services had sixty-four vacant positions, and the Department is concerned about an increasing shortage of experienced workers due to impending retirements.

Your Committees further find that the University of Hawaii Myron B. Thompson School of Social Work and Department of Human Services have a history of collaboration and partnership in successfully recruiting and training social work students to work in the child welfare field in Hawaii. Between 1998 and 2008, the Hawaii Child Welfare Education Collaboration was successful and produced one hundred graduates, twenty-five of which are still employed at the Department in child welfare services positions.

Your Committees encourage the Legislature to consider funding the Hawaii Child Welfare Education Collaboration for a minimum of three years to ensure that child welfare workers are supported through the completion of their Master of Social Work program. Funding for three years will support the full-time students who complete the program in two years and the part-time students who require three years to complete the program.

Your Committees have amended this measure by:

- (1) Clarifying the Legislature's understanding and intent that the minimum employment requirement for participants of the program, if restored pursuant to this measure, will be three years, rather than two years, after graduation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3034, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3034, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Human Services  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).  
Higher Education  
Ayes, 4. Noes, none. Excused, 3 (Ige, Tokuda, Slom).

**SCRep. 2167 (Joint) Human Services and Hawaiian Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2533**

The purpose and intent of this measure is to:

- (1) Appropriate funds to improve and increase existing public housing stock;

- (2) Finance affordable rental housing and infrastructure development by authorizing the issuance of general obligation bonds and appropriating funds for deposit into the rental housing trust fund and the dwelling unit revolving fund;
- (3) Appropriate funds for the construction of micro apartment housing units;
- (4) Appropriate funds to build housing for beneficiaries on homestead land; and
- (5) Appropriate funds to build affordable housing projects for veterans.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, The Chamber of Commerce of Hawaii, Partners in Care, Catholic Charities Hawaii, Hawaii Catholic Conference, Institute for Human Services, Building Industry Association of Hawaii, Hawaii Substance Abuse Coalition, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Primary Care Association, PHOCUSED, Community Alliance for Mental Health, and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that there is a severe shortage of affordable housing in Hawaii, and the shortage places an immense strain on lower-income households. According to the 2011 Hawaii Housing Planning Study, 50,000 new housing units need to be built by 2016 to meet the demand generated by changing demographics and economic conditions. In addition, many families are threatened with homelessness, as seventy-five percent of extremely low-income households spend more than half of their income on rent. Your Committees further find that, in addition to increasing the supply and quality of public and affordable housing stock, this measure would create jobs, reduce homelessness, and allow low-income families to spend more of their income on essentials such as food and medical care.

As affirmed by the records of votes of the members of your Committees on Human Services, Hawaiian Affairs, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2533 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 2168 (Majority) Water and Land on S.B. No. 2770**

The purpose and intent of this measure is to ensure continued community participation in the preservation and protection of Kawainui after the completion of the master plan update process, by establishing the Kawainui Advisory Council and making an appropriation to support the work of the council.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Pacific American Foundation, and one individual. Your Committee received testimony in opposition to this measure from the Kailua Neighborhood Board, Hawaii's Thousand Friends, Hawaii Audubon Society, and Windward Ahupua'a Alliance.

Kawainui encompasses approximately eight hundred thirty acres of land in Kailua, Oahu, and is the State's largest remaining wetland and an ecological and cultural treasure of statewide interest. It has been identified by the United States Fish and Wildlife Service as a primary habitat for endemic and endangered Native Hawaiian birds such as the 'alae ke'oke'o, 'alae 'ula, ae'o, and koloa maoli. In 2005, the Ramsar Convention on Wetlands designated the Kawainui-Hamakua Complex as a wetland of international importance in part due to the wetlands' relationship to surrounding cultural sites. In 2011, the Department of Land and Natural Resources began to hold public meetings to discuss a draft of the revised master plan for Kawainui.

Your Committee finds that this measure ensures continued community participation in the preservation and protection of Kawainui after the completion of the master plan update process by establishing the Kawainui Advisory Council to facilitate implementation of the master plan, enhance community education and cultural awareness of Kawainui, and protect and preserve Kawainui's resources.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2770 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ihara, Thielen). Noes, 1 (Ruderman). Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2169 Water and Land on S.B. No. 3077**

The purpose and intent of this measure is to make an appropriation for the capital improvement project at Maalaea Small Boat Harbor for the replacement of wooden finger piers along the south mole at the harbor, including the demolition of the existing piers and steel piles, installation of new aluminum framed piers, and new composite plastic fingering.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Mayor of Maui County, Maui Dive Shop, Ocean Tourism Coalition, and six individuals.

Your Committee finds that initial construction for the Maalaea Small Boat Harbor was in 1952, and the harbor was built for recreational and commercial fishing vessels. In fiscal year 2013, the harbor had over \$960,000 in revenues, with 75 percent of revenues from commercial operators, and it is the highest grossing harbor in Maui County and the third highest statewide.

Your Committee further finds that the heavily-used Maalaea Small Boat Harbor on Maui serves as a vital connection to recreational and commercial ocean activities. It is therefore important to keep this small boat harbor in good working condition. Unfortunately, the finger piers located along the south mole at Maalaea Small Boat Harbor are badly deteriorated and beyond repair. Replacement of the wooden finger piers is necessary to ensure the continued support of the commercial operators who use and depend on access to the Maalaea Small Boat Harbor.

The Department of Land and Natural Resources estimates that \$4,000,000 is needed to replace seventeen wooden finger piers and associated concrete piles along the south mole of the harbor, where most of the large capacity commercial tour operators are located.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3077 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2170 Water and Land on S.B. No. 3090**

The purpose and intent of this measure is to make an appropriation to implement a statewide hunter education program and to develop shooting ranges.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Rifle Association, Hawaii Sportsmen Alliance, Babooze Bowstrings, Hawaii Hunting Association, and ten individuals.

The hunter education program provides a standardized hunter education curriculum throughout the State of Hawaii. At present, funding for the program comes exclusively from federal special funds through the Pittman-Robertson Wildlife Conservation Act, and these funds are used for program costs including lease rent, common area maintenance for program offices, utility costs, training materials and manuals, and ground and air transportation. Special funds are also used for shooting range development projects already in progress throughout the State.

Your Committee finds that this measure is intended to implement a statewide hunter education program and shooting range development, including lease rent and common area maintenance for program offices; utility costs; training materials and manuals; ground and air transportation costs; and other related program expenses.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3090 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2171 Water and Land on S.B. No. 2295**

The purpose and intent of this measure is to make an appropriation to the Hawaii Association of Conservation Districts to assist with its staffing and operating costs to provide time for the districts to develop sustainable funding mechanisms.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Department of Health, Hawaii Farm Bureau Federation, Hawaii Association of Conservation Districts, Hawai'i Farm Bureau, Monsanto Co., Central Maui Soil and Water Conservation District, Kau Soil and Water Conservation District, Hawaii Cattlemens Council, Maui Cattle Company, DuPont Pioneer, Hawaii Aquaculture & Aquaponics Association, Maui County Farm Bureau, Hamakua County Farm Bureau, Hawaii Crop Improvement Association, Hawaii Agriculture Research Center, Hawaii Agricultural Partnerships, and ten individuals.

The Hawaii Association of Conservation Districts, through coordination, facilitation, and partnerships, assists government agencies in identifying and implementing culturally-sensitive projects and practices to ensure the protection of Hawaii's environment. The Hawaii Association of Conservation Districts is composed of sixteen districts representing every community on all major islands of Hawaii. Chapter 180, Hawaii Revised Statutes, authorizes the soil and water conservation districts to operate as government subdivisions to educate the public and construct and maintain conservation projects and programs in Hawaii. Each of the sixteen districts is governed by five volunteer directors and is supported by staff. The Department of Land and Natural Resources provides administration and maintains oversight authority of the soil and water conservation districts.

Your Committee finds that agriculture in Hawaii is rapidly evolving. Many new farmers are immigrants who commonly are unfamiliar with United States laws. Educational assistance, including education about conservation measures, will be important to ensure that these new farmers and ranchers adopt good environmental stewardship as a core value while seeking economic viability.

Your Committee has amended this measure by inserting an appropriation amount of \$210,000.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2295, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2172 Water and Land on S.B. No. 2677**

The purpose and intent of this measure is to appropriate funds for a grant to Hawaii County as the State's share of joint funding with Hawaii County for improvements to the Waimea District/Regional Park on the island of Hawaii.

Your Committee received testimony in support of this measure from the Mayor of Maui County, Waimea District Park Builders, and fifty-four individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that Waimea is a growing sports community. As of last March, there was a twenty-three percent increase in participation in the County of Hawaii's parks and recreation sports community, which is already active in soccer, football, baseball, little league, softball, rugby, basketball, volleyball, frisbee, and T-ball. Despite Waimea's vibrant sports community, the district currently has only one small five-acre park in the middle of town. It has one softball field and two small practice fields. Women's softball, men's softball, senior softball, little league from T-ball to seniors, football, soccer, and rugby all share the same field.

The Waimea community has long been lacking in active playing fields for various sports, and for more than twenty years, the community has been promised a park to help all the sports organizations and non-profits to congregate. Without sufficient facilities, the park lacks space to support the increase of youth and adult sports programs, and lacks a county gym to support these many youth and adult team sports. Waimea residents have sought new and better park facilities to keep their children and youth active and engaged in healthy, positive activities and to provide recreational opportunities for seniors and families.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2677, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2173 Water and Land on S.B. No. 2678**

The purpose and intent of this measure is to appropriate funds for the aha moku advisory committee and community education on the administrative structure of the aha moku system and on natural and cultural resource management.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, and one individual.

The Aha Moku Advisory Committee was created pursuant to Act 288, Session Laws of Hawaii 2012, codified as section 171-4.5, Hawaii Revised Statutes. Act 288 states, in part:

“The legislature finds that, over the past two hundred years, Hawaii has experienced extensive changes. These changes include the deterioration of the Hawaiian culture, language, values, and land tenure system, which have in part resulted in the over-development of the coastline, alteration of fresh water streams, destruction of life-giving watersheds, decimation of the coral reefs, and the decline of endemic marine and terrestrial species.

\*\*\*

In conclusion, it was agreed that statutes, ordinances, and a framework for community consultation using the Hawaiian perspective and traditional methods such as the ahupuaa management system are needed, and the aha moku system should be established.”

Your Committee has amended this measure on the recommendation of the Department of Land and Natural Resources by:

- (1) Consolidating the two appropriations into one appropriation for the aha moku advisory committee and inserting an appropriation amount of \$110,000, allocating \$75,000 for administration and \$35,000 for community education; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2678, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2678, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2174 Water and Land on S.B. No. 3026**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriates funds for design, plans, and construction of the Waimea-Paauilo watershed project.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Hawaii Sportsmen Alliance, Hawaii Cattlemen's Council, Maui Cattle Company, Mauna Kea Soil and Water Conservation District, Hawaii Agriculture Research Center, Hawaii Agricultural Partnerships, Ulupono Initiative, and seven individuals.

The Waimea-Paauilo watershed is approximately 143,000 acres and is located in the northeast part of the island of Hawaii. Your Committee finds that the major problem with the Waimea-Paauilo watershed is inadequate water supply due to insufficient agricultural water storage reservoirs and a water collection system with high seepage losses. The distribution systems are inadequate for the agricultural enterprises in the watershed area. The Waimea-Paauilo watershed project would improve agricultural water management through more efficient irrigation and livestock water distribution systems and protect the soil resources base by facilitating improved pasture management. The production of crops would be improved since the project would help alleviate the drought conditions on the island of Hawaii.

Your Committee has amended this measure by:

- (1) Changing the expending agency from the Department of Land and Natural Resources to the Department of Agriculture, as the Waimea irrigation system is owned, operated, and maintained by the Department of Agriculture; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3026, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3026, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2175 Water and Land on S.B. No. 3063**

The purpose and intent of this measure is to make an appropriation for the purchase of land in Waipio Valley from the Bernice Pauahi Bishop Museum.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and the Bernice Pauahi Bishop Museum. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Waipio Valley in the district of Hamakua, island of Hawaii, possesses cultural, historic, and natural resources that are of high value to the State. These resources are central to the historic, cultural, and natural identity of the State of Hawaii, and protection and management of these resources will benefit the people of Hawaii.

Your Committee further finds that the acquisition of privately owned lands or interests in lands in Waipio Valley would enhance public access to and permanent protection of these resources. Your Committee also finds that active management of the resources in Waipio Valley is necessary to protect them against overuse, invasive species, and other threats to their continued existence.

Your Committee has amended this measure on the recommendation of the Department of Land and Natural Resources by:

- (1) Adding language to:
  - (A) Require the Department to establish a working group with designated members to develop an action plan that explores and identifies important natural, cultural, and historic resources for protection at Waipio Valley and identifies conservation options for the protection of these resources; and
  - (B) Require the working group to submit a final action plan to the Legislature prior to the 2015 Regular Session; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3063, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3063, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2176 Commerce and Consumer Protection on S.B. No. 2820**

The purpose and intent of this measure is to streamline and improve the operations of the Insurance Division of the Department of Commerce and Consumer Affairs and ensure that the Insurance Division retains its accreditation with the National Association of Insurance Commissioners and complies with the federal Patient Protection and Affordable Care Act of 2010.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual. Your Committee received testimony in opposition to this measure from the American Council of Life Insurers. Your Committee received comments on this measure from the Hawaii Medical Service Association.

Your Committee finds that this measure will streamline operations within the Insurance Division of the Department of Commerce and Consumer Affairs, improve administrative efficiency, ensure the Insurance Division retains National Association of Insurance Commissioners accreditation, and reduce confusion and inefficiency in the implementation of Hawaii's insurance laws.

Your Committee further finds that this measure prohibits rescission of coverage under a health benefit plan except in cases of fraud or intentional misrepresentation of material fact and requires written notice prior to rescission, in conformity with the Affordable Care Act. Your Committee notes that federal regulations further clarify that if a health benefit plan is terminated due to nonpayment of premiums, a qualified health plan must establish a standard policy for the termination of coverage. Accordingly, amendments to this measure are necessary to incorporate these requirements.

Although your Committee has heard the concerns that this measure subjects long-term care insurance to all of article 10A of the State's Insurance Code, your Committee notes that this measure narrowly applies sixteen out of seventy sections of article 10A to long-term care insurance. The application of these specific sections of article 10A to long-term care insurance is the most effective route to ensuring consumer protections and includes common sense regulations, most of which are already generally followed by long-term care insurers. Furthermore, article 10H of the State's Insurance Code and the National Association of Insurance Commissioners Long-Term Care Insurance Model Act, on which article 10H is based, make it clear in their scope that entities subject to article 10H or the Model Act must comply with other applicable insurance laws that are not in conflict with the provisions in article 10H.

Your Committee additionally finds that this measure repeals most of chapter 431M, Hawaii Revised Statutes, relating to mental health and alcohol and drug abuse treatment insurance benefits. Your Committee has heard testimony that this repeal is due to the

federal mental health parity provisions of the Affordable Care Act. However, this is a substantial change to the State's Insurance Code that raises questions about parity between mental health and substance abuse benefits and medical benefits. Your Committee believes that more time is needed to reconcile what the Affordable Care Act says about mental health parity and its effects on Hawaii's mental health and substance abuse treatment benefits. Therefore, your Committee concludes that language in this measure repealing sections of chapter 431M, Hawaii Revised Statutes, should be removed.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that nonpayment of premiums or contributions may trigger rescission of coverage; provided that a qualified health plan must develop a standard policy and meet other requirements for the termination of coverage due to nonpayment;
- (2) Clarifying that accident and health or sickness insurance, when issued as an incidental coverage with or supplemental to liability insurance, is included in the definition of general casualty insurance;
- (3) Removing language that would have repealed most of chapter 431M, Hawaii Revised Statutes, relating to mental health and alcohol and drug abuse treatment insurance benefits; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2820, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2820, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2177 Commerce and Consumer Protection on S.B. No. 2958**

The purpose and intent of this measure is to shift the burden of proof from the claimant to the alleged violator in instances where the alleged violator registers a domain name that consists solely of the claimant's legal name or a name that is otherwise commonly used to identify the claimant if the claimant demonstrates with reasonable certainty the potential of immediate and irreparable harm through misuse of the domain name.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee has heard testimony that the shift in the burden of proof proposed by this measure raises serious due process concerns and potential federal preemption issues under the federal Anticybersquatting Consumer Protection Act. Your Committee understands and appreciates these concerns and concludes that language shifting the burden of proof from the claimant to the alleged violator should be removed from this measure.

Your Committee has also heard testimony that provisions under chapter 481B, part II, Hawaii Revised Statutes, relating to civil liability for bad faith registration of a domain name, determining bad faith intent, and the good faith exception only apply to living persons, rather than applying to the broader definition of "persons" under chapter 481B, part II, Hawaii Revised Statutes, which includes individuals and business entities. Your Committee further finds that businesses that are victims of online bad faith registration of a domain name have no recourse under this existing chapter. Therefore, amendments are necessary to change references from "living person" to "person", thereby ensuring that individuals and business entities are protected from bad faith actors.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that a person who in bad faith registers a domain name of another person, rather than another living person, shall be liable in a civil action;
- (2) Specifying that in a civil action for bad faith registration of a domain name, a court may consider an alleged violator's registration of multiple domain names the alleged violator knew were identical or confusingly similar to the name of another person, rather than another living person;
- (3) Removing language that would have shifted the burden of proof from the claimant to the alleged violator in instances where the alleged violator registers a domain name that consists solely of the claimant's legal name or a name that is otherwise commonly used to identify the claimant and removing language that would have required the claimant to demonstrate with reasonable certainty the potential of immediate and irreparable harm through misuse of the domain name;
- (4) Clarifying that the good faith exception to registration of a domain name shall apply to persons who in good faith register a domain name consisting of the name of another person, rather than another living person;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2958, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2958, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2178 (Joint) Commerce and Consumer Protection and Public Safety, Intergovernmental and Military Affairs on S.B. No. 3042**

The purpose and intent of this measure is to:

- (1) Remove the requirement that a class 14 brewpub licensee manufacture not more than thirty thousand barrels of malt beverages on the licensee's premises during the license year; and
- (2) Establish a new class 18 liquor license class for small craft producer pubs.

Your Committees received testimony in support of this measure from Maui Brewing Co. Your Committees received comments on this measure from the City and County of Honolulu Liquor Commission, Southern Wine & Spirits of Hawaii, and Hawaii Liquor Wholesalers Association.

Your Committees find that this measure eliminates the thirty thousand barrel production cap for a class 14 brewpub licensee. Your Committees note that the Brewers Association defines a small brewer as one with an annual production of six million barrels or less; therefore the existing thirty thousand barrel limit was unnecessarily restrictive.

Your Committees further find that class 14 brewpub licensees under existing law and class 18 small craft producer pub licensees proposed by this measure are able to purchase liquor directly from other manufacturers. Your Committees have heard the concerns that this creates an unfair competitive advantage over certain other liquor license classes who must purchase liquor only from licensed wholesalers. Amendments to this measure addressing this issue are therefore necessary.

Your Committees additionally find that the class 18 license class proposed by this measure has a production limit of twenty thousand barrels of wine. Your Committees note that this limit is double the production limit for a class 16 winery license. Amendments to this measure are therefore necessary to eliminate this inconsistency.

Accordingly, your Committees have amended this measure by:

- (1) Specifying that a class 14 brewpub licensee and a class 18 small craft producer pub licensee may sell intoxicating liquor purchased from a wholesale dealer licensee, rather than from manufacturer and wholesale dealer licensees;
- (2) Clarifying that a class 18 small craft producer pub licensee shall manufacture no more than ten thousand barrels of wine in a license year; and
- (3) Making a technical, nonsubstantive amendment to correct a formatting error.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3042, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3042, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2179 Energy and Environment on S.B. No. 2178**

The purpose and intent of this measure is to:

- (1) Prohibit any binding agreement from preventing the installation of clotheslines in any residential dwelling, apartment, condominium, or townhouse, regardless of whether the installer owns the dwelling; and
- (2) Define a reasonable restriction on the placement and use of clotheslines as any restriction that is necessary to protect public health and safety, buildings from damage, historic or aesthetic values, and shorelines under certain circumstances.

Your Committee received testimony in support of this measure from Blue Planet Foundation, Sierra Club of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Public Housing Authority, Community Association Institute, Hawai'i Association of REALTORS, and two individuals.

Your Committee finds that because of Hawaii's climate, Hawaii homeowners often have the choice to save money and save energy by using a clothesline to dry their clothes. Electric clothes dryers can cost a consumer upwards of ten percent of their household's energy demand. Reducing the use of clothes dryers could substantially decrease the amount of fossil fuel electricity that Hawaii's households require.

Your Committee further finds that many homeowner associations have restrictions on the use of clotheslines. These restrictions do not allow many homeowners the choice of saving money and energy to dry their clothes.

Your Committee has amended this measure by:

- (1) Clarifying that the installation of clotheslines is permitted only for owners of a residential dwelling, apartment, condominium, or townhouse;
- (2) Inserting language to clarify that a private entity may adopt rules related to the use of clotheslines on the premises of apartments and condominiums, in addition to residential dwellings and townhouses; and

- (3) Inserting language to allow a private entity to restrict the placement and use of clotheslines on a balcony or lanai to no higher than the exterior wall or railing of the balcony or lanai for multi-story apartments or condominiums.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2178, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2180 Energy and Environment on S.B. No. 2652**

The purpose and intent of this measure is to:

- (1) Establish association rules for the placement of solar energy devices in the absence of such rules adopted by a private entity, including homeowners associations, community associations, condominium associations, and cooperatives; and
- (2) Make permanent the prohibition on requiring an encumbrance on title for the replacement of any solar energy device.

Your Committee received testimony in support of this measure from the Hawaii PV Coalition, Hawaii Solar Energy Association, and Blue Planet Foundation. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that condominium associations, community associations, and homeowner associations have been required since December 31, 2006, to adopt rules that provide for the placement of solar energy devices under section 196-7, Hawaii Revised Statutes. However, many homeowner associations have yet to draft rules, creating confusion and preventing their members from installing solar energy devices.

Your Committee has amended this measure by:

- (1) Amending language to specify that the default rules apply to the placement of solar energy devices not on common elements or limited common elements of private entities;
- (2) Inserting language to require the homeowner to obtain prior approval from the private entity; provided that the private entity cannot deny approval on the basis of not having adopted rules relating to the placement of solar energy devices;
- (3) Deleting language that would have required the solar energy device to be installed in accordance with relevant laws and rules, as the language was unnecessary;
- (4) Deleting language that would have required all exterior interconnecting components to be minimized;
- (5) Deleting language that would have required an agreement between an owner and each successor owner with rules related to equipment necessary to complete the installation of the solar energy device that is placed on a common element or limited common element; and
- (6) Inserting language to clarify that the default rules shall be superseded when a private entity adopts its own rules.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2652, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2652, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2181 Energy and Environment on S.B. No. 2657**

The purpose and intent of this measure is to transfer the responsibility for the warranty of the area of a roof on which a solar energy device has been installed from the roofing contractor to the solar contractor that installs the solar energy device.

Your Committee received testimony in support of this measure from Hawaii Solar Energy Association, Hawaii PV Coalition, Sierra Club of Hawaii, and R & R Solar Supply. Your Committee received testimony in opposition to this measure from Roofing Contractors Association of Hawaii.

Your Committee finds that currently, a homeowner who wants to install a solar system on the homeowner's roof must obtain confirmation in writing from the company that issued the warranty for the roof that the installation of the solar energy device will not void the roof warranty. This requirement serves as a difficult obstacle, especially for homeowners whose properties fall under the control of a homeowner's association, since most roofing contractors are not willing to warranty the work of another contractor. This also creates a frustrating position for the homeowner, who is unable to obtain confirmation from the roofing contractor and, thus, cannot install a solar energy device.

Your Committee has amended this measure by deleting the amendments made to section 196-7, Hawaii Revised Statutes, and inserting language in the same section to specify that:

- (1) A contractor that installs a solar energy device on a roof that is under an existing roof warranty or guarantee shall notify the private entity that installation might void the roofing guarantees or warranties;
- (2) The private entity can either:

- (A) Forgo the roofing warranty or guarantee in writing, which the contractor installing a solar energy device shall obtain; or
- (B) Not forgo the roofing warranty or guarantee, which then requires the contractor installing the solar energy device to obtain written approval from the roofing manufacturer and follow written instructions for waterproofing roof penetrations from the roofing manufacturer or coordinate waterproofing with the contractor that issued the guarantee or warranty;
- (3) If waterproofing for roof penetrations related to the installation of a solar energy device is done by the roofing manufacturer that issued the existing roof guarantee or warranty, the roof warranty or guarantee shall remain valid;
- (4) If the contractor installing the solar energy device waterproofs the roof penetrations, the contractor's standard labor and workmanship warranty shall apply to the penetrations; and
- (5) The homeowner shall provide the private entity with a copy of the applicable guarantee or warranty related to the installation of a solar energy device.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2657, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2657, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2182 Commerce and Consumer Protection on S.B. No. 2502**

The purpose and intent of this measure is to:

- (1) Establish registration requirements for veterinary technicians; and
- (2) Require the Board of Veterinary Examiners to adopt rules for the regulation of veterinary technicians.

Your Committee received testimony in support of this measure from the Hawaii Veterinary Medical Association, Pacific Pet Alliance, and one individual. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Board of Veterinary Examiners, The Humane Society of the United States – Hawaii, and Animal Haven.

Your Committee finds that this measure creates a new chapter for the registration of veterinary technicians. Your Committee has heard the concerns that this measure does not adequately set forth the qualifications or the scope of practice of a veterinary technician, does not contain specific provisions on the issue of supervision by a licensed veterinarian, and does not enumerate the types of conduct that would give rise to disciplinary action. Your Committee appreciates these concerns and concludes that amendments to this measure are necessary to clarify the registration, education, and other requirements for the regulation of veterinary technicians.

Your Committee further finds that the Board of Veterinary Examiners issues licenses to veterinarians under chapter 471, Hawaii Revised Statutes, while this measure would instead require the Board to issue registrations to veterinary technicians under a new chapter of the Hawaii Revised Statutes. Your Committee concludes that it is more appropriate for the regulation of veterinarians and veterinary technicians to be within the same chapter; therefore amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by deleting its contents and inserting similar language regulating veterinary technicians. Specifically, this measure was amended by:

- (1) Deleting language that would have established a new chapter in the Hawaii Revised Statutes relating to veterinary technicians;
- (2) Establishing registration requirements for veterinary technicians within chapter 471, Hawaii Revised Statutes, and further amending chapter 471, Hawaii Revised Statutes, by:
  - (A) Requiring the Board of Veterinary Examiners, beginning July 1, 2018, to issue certificates of registration to engage in the practice of veterinary technology as veterinary technicians to applicants who meet specified requirements;
  - (B) Adding new definitions related to veterinary technicians and the practice of veterinary technology;
  - (C) Prohibiting persons from practicing veterinary technology or using certain titles without having a valid unrevoked registration from the Board of Veterinary Examiners;
  - (D) Specifying exceptions to the registration requirements;
  - (E) Specifying education and application requirements for veterinary technicians;
  - (F) Specifying the grounds for refusal to grant and revocation or suspension of registration; and
  - (G) Clarifying that the existing hearing and penalty provisions of chapter 471, Hawaii Revised Statutes, also apply to veterinary technicians;
- (3) Updating the purpose section for clarity;
- (4) Changing the effective date to July 1, 2014; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that section 26H-6, Hawaii Revised Statutes, requires previously unregulated professions and vocations to be referred to the State Auditor for a sunrise analysis and that veterinary technician is one such unregulated profession. Although your

Committee understands that a concurrent resolution requesting a sunrise analysis needs to be adopted and referred to the Auditor before this amended measure can be adopted by the Legislature, it is your Committee's intent that this amended measure provide a solid basis to be used for the State Auditor's sunrise analysis.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2502, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2183 Hawaiian Affairs on S.B. No. 2986**

The purpose and intent of this measure is to amend the law relating to the Hawaiian language.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Establish the Hawaiian Language University at the University of Hawaii at Hilo; and
- (2) Transfer the rights, powers, duties, and functions of the Hawaiian Language College at the University of Hawaii at Hilo to the Hawaiian Language University.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2986, as amended herein, and recommends that it be recommitted to the Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 2986, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2184 Agriculture on S.B. No. 111**

The purpose and intent of this measure is to amend the law relating to agriculture.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language requiring the Board of Agriculture to create labeling requirements for all agricultural commodities in Hawaii, beginning on July 1, 2015.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 111, as amended herein, and recommends that it be recommitted to the Committee on Agriculture, in the form attached hereto as S.B. No. 111, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Slom).

**SCRep. 2185 Agriculture on S.B. No. 112**

The purpose and intent of this measure is to amend the law relating to agriculture.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Establish within the state treasury a special fund to be known as the Whitmore project facility revenue bond special fund into which the proceeds of revenue bonds shall be deposited for the Agribusiness Development Corporation to purchase certain parcels of land from Dole Food Company, Inc.; and
- (2) Appropriate funds out of the Whitmore project facility revenue bond special fund to acquire certain lands from Dole Food Company, Inc.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 112, as amended herein, and recommends that it be recommitted to the Committee on Agriculture, in the form attached hereto as S.B. No. 112, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Slom).

**SCRep. 2186 Judiciary and Labor on S.B. No. 2126**

The purpose and intent of this measure is to allow newly-elected members of Hawaii's congressional delegation to accumulate seniority in Congress more quickly than other newly-elected congressional members representing other states by requiring the Governor to immediately appoint the congressional member-elect, other than the incumbent member, when the incumbent member vacates the office after the general election, but prior to the expiration of the incumbent member's term.

Your Committee received testimony in support of this measure from one individual. Comments on this measure was submitted by the Department of the Attorney General, Office of Elections, League of Women Voters of Hawaii, and one individual.

Your Committee finds that the United States Congress operates under a seniority system that grants a variety of privileges to its members who have served the longest. These privileges include congressional committee assignments and the awarding of committee chair positions. This measure allows Hawaii's congressional members to gain a slight seniority advantage in Congress by requiring the Governor to appoint the congressional member-elect, other than the incumbent member, to fill the congressional seat if the incumbent member vacates office after a general election, but before the expiration of the incumbent member's term.

Your Committee recognizes the concerns raised in written testimony. The Department of the Attorney General testified that the procedure that requires the Governor to fill a vacancy caused by an incumbent member of the United States House of Representatives vacating office is inconsistent with Article I, Section 2, Clause 4 of the United States Constitution. The United States Constitution requires such vacancies to be filled by election. The Department noted that existing law is consistent with the United States Constitution because the law requires that a special election be held to fill a vacancy in the United States House of Representatives and recommended that section 3 of this measure be deleted.

Furthermore, regarding section 2 of this measure, which proposes a procedure for the Governor to fill a vacancy caused by an incumbent member of the United States Senate leaving office, the Department of the Attorney General testified that existing law is silent and does not address a situation where a vacancy occurs after a general election when a candidate other than the incumbent has already been elected to assume office at the expiration of the incumbent's term. Although the Department testified that providing a procedure for the Governor to appoint the member-elect to the vacant Senate seat appeared to be consistent with the United States Constitution, it suggested the language be amended to clarify that the appointment be for the remainder of the incumbent member's unexpired term.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Department of the Attorney General to:
  - (A) Delete section 3 of this measure, which would have required the Governor to fill a United States House of Representative vacancy caused by the incumbent member vacating office, because this language appears to be inconsistent with the United States Constitution; and
  - (B) Add language to the procedure for the Governor to appoint the member-elect to a vacant United States Senate seat caused by the incumbent member vacating office to clarify that the appointment be for the remainder of the incumbent member's unexpired term; and
- (2) Making technical, nonsubstantive amendments to the purpose section of this measure for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2126, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ihara).

**SCRep. 2187 Ways and Means on S.B. No. 2808**

The purpose and intent of this measure is to reduce the maximum fee that a non-attorney may receive when entering into an agreement to locate unclaimed property from 25 per cent to 10 per cent of the total value of the property.

The Department of Budget and Finance provided testimony in support of the measure.

Your Committee finds that lowering the maximum fee for non-attorneys, who do not provide legal services, from 25 per cent to 10 per cent of the total value of the property is reasonable and protects the interests of the owners or claimants.

Your Committee has amended this measure by:

- (1) Requiring that any person who enters into an agreement with an owner or claimant to locate, deliver, recover, or assist in the recovery of property notify the owner or claimant in writing, prior to entering into an agreement, that the State does not impose a fee to file for unclaimed property; and
- (2) Making technical nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2808, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2808, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2188 Ways and Means on S.B. No. 2895**

The purpose and intent of this measure is to authorize the Department of Taxation to use funds from the tax administrative special fund for taxpayer education programs.

The Department of Taxation provided testimony in support of this measure. The Tax Foundation of Hawaii provided comments on this measure.

Your Committee finds that taxpayer education is an essential element of the effort to increase voluntary taxpayer compliance with the State's tax laws. Greater and more accurate voluntary compliance will significantly assist the Department of Taxation in its mission to enforce the State's tax laws.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2895, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2895, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kouchi, Tokuda).

**SCRep. 2189 Ways and Means on S.B. No. 2893**

The purpose and intent of this measure is to create trust fund liability for taxes that are passed on as taxes owed by the taxpayer for a transaction.

The Department of Taxation provided testimony in support of this measure. The Tax Foundation of Hawaii provided comments on this measure.

Your Committee finds that businesses are administratively allowed to pass on certain taxes to consumers. However, businesses do not always remit the entirety of those amounts to the State, either in an attempt to avoid paying taxes or because they dispute their liability for the taxes owed. This measure will therefore expedite the resolution of tax disputes in cases where the taxes are passed on to the consumer.

Your Committee has amended this measure by:

- (1) Clarifying that the taxpayer's trust fund liability is reduced by amounts collected but returned to their sources; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2893, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2893, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Thielen, Slom). Noes, none. Excused, 2 (Kouchi, Tokuda).

**SCRep. 2190 Ways and Means on S.B. No. 2887**

The purpose and intent of this measure is to conform the State's estate and generation-skipping transfer tax law to the Internal Revenue Code of 1986, as amended as of December 31, 2013, and to close a loophole that allows a decedent to avoid estate and generation-skipping transfer taxes.

The Department of Taxation provided testimony in support of this measure. The Tax Foundation of Hawaii provided comments on this measure.

Your Committee finds that conforming chapter 236E, Hawaii Revised Statutes, to the Internal Revenue Code of 1986, as amended as of December 31, 2013, regarding estate taxes, will facilitate taxpayer compliance with the state and federal tax codes. Your Committee further finds that amending the definition of "applicable exclusion amount" will close a loophole that currently allows a decedent to avoid estate and generation-skipping transfer taxes by gifting away property as late as on the eve of death.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2887, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2887, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2191 Ways and Means on H.B. No. 2353**

The purpose and intent of this measure is to make an emergency appropriation to the Department of Transportation Airports Division to fund unanticipated costs incurred during fiscal year 2013-2014 for the operations and maintenance of the outbound baggage handling and explosive detection systems at the Honolulu International Airport.

The Department of Transportation and the Airlines Committee of Hawaii submitted testimony in support of this measure. One individual submitted testimony in opposition of this measure.

Your Committee finds that the Department of Transportation recently expended security funds for costs associated with the outbound baggage handling and explosive detection system. This expenditure created a budget shortfall for the Department of Transportation, which now requires an emergency appropriation of \$5,000,000 to maintain a TSA-approved security posture at Honolulu International Airport through the remainder of the fiscal year as required by federal regulation.

Your Committee has amended this measure by:

- (1) Requiring the Department of Transportation to submit a report to the Legislature that includes:

- (A) Detailed security expenditures at state airports during fiscal year 2013-2014;
  - (B) Detailed expenditures of the funds that were used by the Department of Transportation during fiscal year 2013-2014, including baggage handling and security contract information, which created the need for the emergency appropriation in this measure; and
  - (C) An explanation of the purposes of each expenditure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2353, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2353, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Dela Cruz, Ruderman).

**SCRep. 2192 Ways and Means on S.B. No. 2545**

The purpose and intent of this measure is to establish a universal children's savings account program administered by the Department of Budget and Finance to enable families to establish savings accounts for their children.

This measure also establishes and appropriates funds for the universal children's savings account trust fund.

Your Committee received written comments in support of the measure from Hawaiian Community Assets, Inc., and the Hawaii Credit Union League. The Department of Budget and Finance and the Department of the Attorney General submitted written comments.

Your Committee finds that this measure makes an appropriation for the universal children's savings account trust fund from funds received by the State pursuant to the joint state-federal mortgage servicing settlement. This measure also requires the State to provide a dollar-for-dollar match for settlement funds deposited into the trust fund. However, the Attorney General has indicated that permissible uses of the settlement funds are restricted by federal court consent judgments to services for those who are, have been, or may be affected by mortgage loan proceedings, including housing and financial counseling, public education, mediation, dispute resolution, and enforcement of laws and agreements protecting the rights of homeowners and lessees. Hence, according to the Attorney General, the settlement funds cannot be used for the purposes of this measure as received by your Committee without violating the federal court consent judgments.

Accordingly, your Committee has amended this measure by:

- (1) Deleting all references in this measure to the funds received by the State pursuant to the joint state-federal mortgage servicing settlement, and changing the appropriation for the universal children's savings account trust fund to general funds; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2545, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2545, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2193 Tourism on S.B. No. 2431**

The purpose and intent of this measure is to amend exceptions to the Hawaii Tourism Authority, under certain conditions, from the supervision of accounts by the Comptroller, requirements for publication of consolidated financial statements, and approval of business and accounting forms.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority.

Your Committee finds that Act 58, Session Laws of Hawaii 2004, was enacted to enhance the operational effectiveness and efficiency of the Hawaii Tourism Authority. This measure will improve the efficiency of the Hawaii Tourism Authority's operations and allow the Authority to execute its financial transactions in a timely manner.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2431 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

**SCRep. 2194 Tourism on S.B. No. 2968**

The purpose and intent of this measure is to provide a tax credit for hotel construction and renovation costs for taxable years beginning on January 1, 2015, and ending on December 31, 2020, against income taxes and transient accommodations taxes.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, Hilton Grand Vacations Club, Hawaii Lodging and Tourism Association, American Resort Development Association, Wyndham Vacation Ownership, Maui Hotel and Lodging Association, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that tourism is Hawaii's principal industry, with visitor expenditures estimated to be over \$15,000,000,000 in 2013. Your Committee further finds that investment incentives will revitalize the Hawaii tourism product, which includes physical infrastructure and hotel facilities. This measure will improve Hawaii's economy by encouraging hotel construction and renovation, which will create jobs and increase visitor spending in the long run.

Your Committee has amended this measure by:

- (1) Removing the application of the tax credit against the transient accommodations tax under chapter 237D, Hawaii Revised Statutes;
- (2) Authorizing the income tax credit for taxable years beginning on or after January 1, 2015, and ending on or before December 31, 2019;
- (3) Removing the requirement that the construction or renovation costs be incurred after June 30, 2014, and before July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2968, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2968, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

**SCRep. 2195 Tourism on S.B. No. 2426**

The purpose and intent of this measure is to require:

- (1) The Hawaii Tourism Authority's marketing plan to be a single, comprehensive document; and
- (2) The Hawaii Tourism Authority to submit a complete and detailed report of the results of the progress of its marketing plan toward achieving the Hawaii Tourism Authority's strategic plan goals as part of its annual report to the Governor and Legislature.

Your Committee received testimony in support of this measure from the State Auditor. Your Committee received comments on this measure from the Hawaii Tourism Authority.

Your Committee finds that according to the State Auditor's 2013 report entitled "Audit of Major Contracts and Agreements of the Hawaii Tourism Authority", the Hawaii Tourism Authority's marketing plan is dispersed, unwieldy, and falls short of statutory requirements. This measure responds to the State Auditor's findings by ensuring that the Hawaii Tourism Authority's marketing plan is a single, comprehensive document and clarifying the Hawaii Tourism Authority's reporting requirements.

Your Committee has amended this measure by:

- (1) Inserting language to clarify the Hawaii Tourism Authority's powers and responsibilities, including requiring the Hawaii Tourism Authority to have a permanent, strong focus on brand management;
- (2) Requiring the Hawaii Tourism Authority's tourism marketing plan to include certain guidance from the Authority to qualified organizations contracted to implement promotional and marketing programs that build and promote the Hawaii brand;
- (3) Adding a definition of "Hawaii brand";
- (4) Inserting language to permit the Authority to withhold from public disclosure competitively sensitive information under certain circumstances;
- (5) Requiring the Hawaii Tourism Authority to additionally include, as part of its annual report, descriptions and evaluations of programs funded and any recommendations of the Authority; and
- (6) Making housekeeping amendments throughout chapter 201B, Hawaii Revised Statutes and section 237D-6.5, Hawaii Revised Statutes; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2426, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2426, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

**SCRep. 2196 Human Services on S.B. No. 2835**

The purpose and intent of this measure is to bring tax relief to Hawaii's low-income senior residents by tripling the low-income household renters income tax credit for each taxpayer who is sixty-five years of age or older.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Human Services, Department of Taxation, Hawaii Primary Care Association, and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that a large portion of Hawaii's population, including many seniors, are dependent on fixed incomes to survive. The receipt of monetary benefits through tax relief efforts can assist residents in living a more healthy and independent lifestyle. Your Committee heard testimony expressing concern that this measure provides relief only to individuals age sixty-five and older despite the fact that many people of all ages struggle to make ends meet.

Your Committee has amended this measure by:

- (1) Removing the age limit on the tax credit so that the credit applies to all renters with an adjusted gross income of less than \$30,000 who have paid more than \$1,000 in rent during a taxable year;
- (2) Changing the tax credit to double instead of triple the tax credit;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2835, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2835, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2197 Human Services on S.B. No. 2434**

The purpose and intent of this measure is to authorize the Executive Office on Aging to establish an Alzheimer's disease and related dementia services program to support individuals with Alzheimer's disease and their families.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Hawaii Government Employees Association, Hawaii Primary Care Association, International Longshore and Warehouse Union Local 142 Hawaii, Community Alliance for Mental Health, and two individuals.

Your Committee finds that as Hawaii's aging population continues to increase at a rapid rate, so will the number of individuals with Alzheimer's disease and other related dementia. The greatest risk factor for Alzheimer's disease and dementia is age. It is projected that by 2025, the number of people in Hawaii age sixty-five and over who will be diagnosed with dementia will be 34,000, which is an increase of forty-eight percent from 2010. Your Committee received testimony on this measure indicating that nonprofit agencies in the State are already providing the services that would be performed by the Alzheimer's disease and related dementia services program proposed by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Removing the language that would have authorized the Alzheimer's disease and related dementia services program;
- (2) Adding language to establish goals for the Alzheimer's Disease and Related Dementia Services Coordinator;
- (3) Inserting an appropriation of \$75,000 for one full-time equivalent (1.00 FTE) position within the Executive Office on Aging to assist the Alzheimer's Disease and Related Dementia Services Coordinator with information and referrals, counseling, education, support groups, and safety services;
- (4) Changing the effective date to July 1, 2014; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2434, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2434, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2198 Human Services on S.B. No. 2346**

The purpose and intent of this measure is to appropriate funds to provide ongoing financial support to healthy aging programs and services, including a public education and awareness campaign on long-term care to be conducted by the Executive Office on Aging.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Department of Community Services, City and County of Honolulu; Policy Advisory Board for Elder Affairs; Hawaii Government Employees Association; AARP Hawaii; American Council of Life Insurers; Catholic Charities Hawaii; Hawaii Primary Care Association; Hawaii Alliance for Retired Americans; International Longshore and Warehouse Union Local 142 Hawaii; Project Dana; and twenty-nine individuals.

Your Committee finds that Hawaii's aging population is increasing at a rapid rate, and programs and services are needed to maintain the health and welfare of Hawaii's seniors and their caregivers. By 2035, Hawaii's population of residents age sixty and older is projected to be thirty percent of the total population. Your Committee further finds that the most successful programs for aging in place recognize and build upon integrated health and social services. Finally, your Committee recognizes the importance of educating Hawaii's residents with information about long-term care, including the different types of long-term care and long-term care providers, the statistical risk of requiring long-term care, and the associated costs, so that residents are motivated to provide for their own or family members' long-term care needs.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount for the aging and disability resource center from \$1,900,000 to \$427,937 to reflect the balance needed for continued operations and the management information systems for the statewide aging and disability resource center system; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2346, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2199 (Joint) Hawaiian Affairs and Technology and the Arts on S.B. No. 469**

The purpose and intent of this measure is to:

- (1) Designate the month of February as “Ōlelo Hawai‘i Month” to celebrate and encourage the use of Hawaiian Language;
- (2) Require that all letterheads, documents, symbols, and emblems of the State and other political subdivisions include accurate and appropriate Hawaiian names and words, beginning January 1, 2014;
- (3) Establish references for accurate, appropriate, and authentic Hawaiian names and words;
- (4) Clarify that the full text of bills and other official documents are not required to be written in Hawaiian and that misspelled or incorrectly punctuated Hawaiian words and names shall not invalidate the documents or render them unenforceable; and
- (5) Clarify that no cause of action shall arise against the State, any county, or any state or county agency, official, or employee for any Hawaiian names and words that are misspelled or incorrectly punctuated.

Your Committees received testimony in support of this measure from the Department of the Attorney General. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that the State officially recognized the Hawaiian language as one of its official languages in 1978, and the Legislature has since supported efforts to incorporate the Hawaiian language into official state writings, emblems, and signs. The use of proper Hawaiian macrons and glottal stops not only shows the deserved respect for the Hawaiian language, but also fully comports with the intent and purpose of the Hawaii State Constitution to promote the study of Hawaiian culture, history, and language.

Your Committees have amended this measure by inserting the contents of H.B. No. 109, H.D. 3, S.D. 1 (2013), as recommended by the Department of the Attorney General. Specifically, this measure is amended by:

- (1) Removing language designating the month of February as “Ōlelo Hawai‘i Month;”
- (2) Requiring that only letterheads, and not documents, that are prepared by or for state or county agencies or officials include proper Hawaiian spelling and punctuation;
- (3) Requiring that that all letterheads, symbols, and emblems of the State and other political subdivisions include accurate and appropriate Hawaiian names and language, beginning on January 1, 2015, rather than January 1, 2014;
- (4) Removing “Place Names of Hawaii”, by Mary Kawena Pukui, Samuel H. Elbert, and Esther T. Mookini, as a reference for accurate, appropriate, and authentic Hawaiian names and words;
- (5) Removing language clarifying that incorrectly punctuated Hawaiian words or names within a document or letterhead shall not invalidate the document or render it unenforceable;
- (6) Removing language clarifying that no cause of action shall arise against the State, any county, or any state or county agency, official, or employee for any Hawaiian names and words that are misspelled or incorrectly punctuated;
- (7) Removing language clarifying that the full text of bills and other official documents are not required to be written in Hawaiian;
- (8) Removing those sections of the measure that are written in the Hawaiian language only;
- (9) Changing the effective date to July 1, 2014; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 469, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 469, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Technology and the Arts  
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2200 Hawaiian Affairs on S.B. No. 320**

The purpose and intent of this measure is to require Native Hawaiian remains in the possession of the State whose provenience is unknown, or in other special circumstances, to be reinterred annually on the island of Kaho'olawe.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs and Association of Hawaiian Civic Clubs. Your Committee received comments on this measure from the Department of Land and Natural Resources and Protect Kaho'olawe 'Ohana.

Your Committee finds that the State is in possession of numerous Native Hawaiian remains with unknown origins. Because the State does not know where these remains originated and there is no policy or rule dictating where they should be reinterred, the remains are languishing in storage facilities. Your Committee finds that these remains should be respectfully reinterred as soon as possible but understand that many Native Hawaiian advocacy groups have significant concerns regarding the reinterment process.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Establish a working group to create a process to select and reinter Native Hawaiian remains in the possession of the State, whose provenience is unknown, or in other special circumstances, on the island of Kaho'olawe; and
- (2) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 320, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2201 (Joint) Hawaiian Affairs and Technology and the Arts on S.B. No. 234**

The purpose and intent of this measure is to establish a task force to develop additional procedures and protocols in the event a lineal or cultural descendant of Native Hawaiian skeletal remains that are interred at a burial site cannot be established.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and Association of Hawaiian Civic Clubs.

Your Committees find that island burial councils are responsible for identifying the cultural and lineal descendants of Native Hawaiian remains, or iwi, and must execute burial treatment plans to best preserve the iwi. Often times, however, the burial councils cannot establish the iwi's lineal or cultural descendants and must defer a decision on the treatment of the iwi, causing significant delays to the development project, and also the preservation of the iwi. This measure seeks to ultimately establish additional procedures for the burial councils to follow when the lineal or cultural descendants are unknown so that a burial treatment plan can be completed as soon as possible.

Your Committees have amended this measure by:

- (1) Removing language suggesting that Kaho'olawe be considered as an alternate burial site for Native Hawaiian remains with no lineal or cultural descendants;
- (2) Clarifying that the task force shall consider options, in alignment with Native Hawaiian burial practices, for preservation in place and reburial when necessary;
- (3) Requiring the task force to submit a report of its findings and recommendations to the Legislature and the Governor no later than twenty days prior to the Regular Session of 2015, rather than 2014;
- (4) Clarifying that the task force will cease to exist on June 30, 2015, rather than June 30, 2014; and
- (5) Changing the effective date to July 1, 2014.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 234, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 234, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Technology and the Arts  
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2202 (Joint) Hawaiian Affairs and Human Services and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2836**

The purpose and intent of this measure is to make permanent certain provisions for affordable housing credits for Hawaiian homelands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaii Primary Care Association, and Community Alliance for Mental Health. Your Committees received testimony in opposition to this measure from the City and County of Honolulu's Department of Planning and Permitting and Kauai County Housing Agency.

Your Committees find that affordable housing credits afforded the Department of Hawaiian Home Lands since the passage of Act 141, Session Laws of Hawaii 2009, have resulted in successful private-public partnerships between the Department and developers to develop homestead lots. Extending the provision of affordable housing tax credits to the Department will help the Department further develop its affordable housing inventory and fulfill its obligation to its beneficiaries.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Human Services, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2836 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2203 (Joint) Hawaiian Affairs and Public Safety, Intergovernmental and Military Affairs on H.B. No. 866**

The purpose and intent of this measure is to:

- (1) Clarify the counties' ownership of and responsibility for certain existing sewer systems and facilities servicing Hawaiian home lands; and
- (2) Require the counties to accept dedication or license of and responsibility for certain other sewer systems and facilities servicing Hawaiian home lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Office of Hawaiian Affairs, and Ko'olaupoko Hawaiian Civic Club. Your Committees received testimony in opposition to this measure from the City and County of Honolulu's Department of Environmental Services.

Your Committees find that the counties are uniquely positioned to operate, improve, repair, maintain, and replace sewer transmission lines and other sewerage facilities. Although the counties developed and maintained certain sewer systems on Hawaiian home lands, the counties are not taking responsibility for the upkeep of these sewer systems. This measure ensures that the counties will operate and maintain certain sewer systems servicing Hawaiian home lands, allowing the Department of Hawaiian Home Lands to focus its efforts on developing new homes for its beneficiaries.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 866, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 866, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2204 (Joint/Majority) Agriculture and Higher Education and Judiciary and Labor on S.B. No. 2454**

The purpose and intent of this measure is to establish a task force to determine whether a state-established regulatory regime should be established to address the agricultural use of genetically modified organisms.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawaii, Hawaii Farm Bureau Federation, Hawaii Crop Improvement Association, and The Chamber of Commerce of Hawaii. Your Committees received testimony in opposition to this measure from IMUAlliance and five individuals. Your Committees received comments on this measure from Babes Against Biotech.

Your Committees find that the use of genetically modified organisms is a polarizing issue for Hawaii residents. Differing views and emotions surrounding the issue make it difficult for lawmakers to determine a prudent and responsible way to address the public's concerns regarding the use, regulation, or prohibition of genetically modified organisms. Accordingly, this measure brings together different stakeholders to examine the issue in a deliberate and objective manner.

After hearing testimony, your Committees note that the task force may want to include additional stakeholders such as papaya farmers, organic farmers, and small farmers growing genetically modified crops.

Your Committees have amended this measure by:

- (1) Replacing the Dean of the University of Hawaii College of Tropical Agriculture and Human Resources with the Vice President for Research and Innovation at the University of Hawaii, as a member and chairperson of the task force;

- (2) Clarifying that the task force should develop recommendations for state regulations regarding genetically modified organisms only if the task force deems a regulatory regime necessary;
- (3) Providing the task force with discretion to add additional members to the task force; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture, Higher Education, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2454, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2454, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2205      Agriculture on S.B. No. 2433**

The purpose and intent of this measure is to require that all agricultural products sold at farmers' markets be displayed with a label or sign containing an identity statement declaring the products' geographic origin.

Your Committee received testimony in support of this measure from the Hawaii Farmers Union United and eight individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture. Your Committee received comments on this measure from the Hawaii Farm Bureau Federation.

Your Committee finds that farmers' markets establish and maintain connections between consumers and local farms, while increasing the production and consumption of local foods. There have been instances, however, where consumers assumed they were purchasing local produce at a farmers' market, only to find out later that the produce was imported and bought from wholesalers. This measure ensures that consumers know the geographic origin of all agricultural products sold at farmers' markets.

Your Committee expressed concern that requiring vendors to label their products and to keep records for two years would be prohibitively expensive for some vendors. However, your Committee notes that the intent of this measure is not to require vendors to purchase expensive signs and labels. This measure only requires that the identity statement be reasonably sized and conspicuously displayed - a handwritten sign on notebook paper would be sufficient to satisfy the intent behind this measure. Your Committee, however, believes that requiring vendors to keep records for two years is overly burdensome.

Accordingly, your Committee has amended this measure by removing language requiring farmers' market vendors to maintain records on the volume and geographic origin of products sold and any other records required by the Department of Agriculture, for at least two years.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2433, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2433, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 2206      (Joint) Agriculture and Higher Education and Economic Development, Government Operations and Housing on S.B. No. 2400**

The purpose and intent of this measure is to require the Agribusiness Development Corporation and the University of Hawaii College of Tropical Agriculture and Human Resources to design a program that identifies emerging crops and productive uses for lands managed by the Agribusiness Development Corporation and prepares a workforce to cultivate these lands.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation, University of Hawaii College of Tropical Agriculture and Human Resources, Hawaii Farmers Union United, Hawaii Agriculture Research Center, Hawaii Farm Bureau Federation, and eight individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that maximizing agricultural productivity is crucial to improving Hawaii's economy and food security. By identifying niche crops and assisting new farmers in developing new businesses, the program proposed by this measure will provide long-term career opportunities for Hawaii's farmers and maximize the value of agricultural lands.

Your Committees expressed concern that the Department of Agriculture and the Agribusiness Development Corporation were not working together to maximize the efficient use of state agricultural assets to support a growing diversified agricultural economy. Your Committees conclude that the Agribusiness Development Corporation and the Department of Agriculture should coordinate strategies, in addition to the proposed program, to maximize state agricultural assets under their management and the efficient delivery of agricultural programs and services. Similarly, your Committees conclude that the Agribusiness Development Corporation, Department of Agriculture, and University of Hawaii College of Tropical Agriculture and Human Resources should coordinate strategies to provide technical support to farmers to maximize efficiency and productivity.

Accordingly, your Committees have amended this measure by:

- (1) Adding language to:
  - (A) Require the Agribusiness Development Corporation and Department of Agriculture to develop a coordinated strategy to lease state agricultural lands in a manner that will provide opportunities for new, small, mid-size, and large farms to maximize production in a cost-efficient manner;
  - (B) Require the Agribusiness Development Corporation and Department of Agriculture to develop a coordinated strategy to use state lands, facilities, and infrastructure to support emerging and specialty crops and maximize agricultural development;
  - (C) Require the Agribusiness Development Corporation, Department of Agriculture, and University of Hawaii College of Tropical Agriculture and Human Resources to coordinate and provide technical support to farmers to identify emerging crops, including specialty crops particularly suited to a particular area to optimize diversified agricultural production on state lands, and to support and cultivate successful agricultural businesses;
- (2) Deleting inaccurate findings from section 1; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture, Higher Education, and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2400, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2400, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 2207      Agriculture on S.B. No. 3059**

The purpose and intent of this measure is to increase the important agricultural land qualified agricultural cost tax credit in certain situations.

Your Committee received testimony in support of this measure from the Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Department of Agriculture, Department of Taxation, and Tax Foundation of Hawaii.

The important agricultural land qualified agricultural cost tax credit was enacted to incentivize landowners to designate agricultural lands as important agricultural lands. Since the credit's enactment, 101,000 acres have been designated as important agricultural lands in Hawaii. Your Committee concludes that increasing the tax credit will incentivize more landowners to designate their lands as important agricultural lands.

Some members of your Committee are concerned, however, that the increase in tax credits will be a windfall to those landowners who have already designated their lands as important agricultural lands because they will be able to receive the greater tax credit retroactively. This concerns some members of your Committee because the purpose of the tax credit is to incentivize landowners to designate their lands as important agricultural lands, rather than to reward landowners who already designated their lands as important agricultural lands. In contrast, other members of your Committee believe that not allowing the increased tax credit to be applied retroactively will punish those landowners who already designated their lands as important agricultural lands. Moreover, landowners who are thinking about designating their lands as important agricultural lands may wait to make the designation if they anticipate the Legislature will increase the tax credit even more in the future. Your Committee concluded that this issue would be better addressed by your Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3059 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 2208      Public Safety, Intergovernmental and Military Affairs on S.B. No. 3119**

The purpose and intent of this measure is to appropriate funds for the establishment of rehabilitative programs at Kulani Correctional Facility.

Your Committee received testimony in support of this measure from the Department of Public Safety; Sovereign Councils of the Hawaiian Homelands Assembly; Community Alliance on Prisons; Hawaii Peace and Justice; Feed the Children; Dream Navigator LLC; WSRSL; United Public Workers, AFSCME, Local 646, AFL-CIO; and twenty-two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from two individuals.

Your Committee finds that Act 117, Session Laws of Hawaii 2012, authorized correctional rehabilitative programs at Kulani Correctional Facility. This measure provides the resources necessary to implement those programs. Your Committee further recognizes that the creation of a pu'uhonua, or wellness center, that reestablishes highly recognized native Hawaiian cultural practices will help restore the overall well-being of persons, families, and the native Hawaiian community.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3119 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Baker).

**SCRep. 2209 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2885**

The purpose and intent of this measure is to allow the Director of Public Safety to recruit qualified candidates for appointment to the positions of Mental Health Branch Administrator and Mental Health Section Administrators without regard to civil service laws.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in 2008, the Department of Public Safety entered into a settlement agreement with the United States Department of Justice to improve mental health services available to persons incarcerated at the Oahu Community Correctional Center. Since that time, substantial improvements have been made, including the creation of additional positions to manage mental health services statewide. However, it has been a challenge to fill these positions with qualified individuals due to the unique nature of providing health services within the correctional setting. This measure will allow the Director of Public Safety more flexibility in appointing a Mental Health Branch Administrator and Mental Health Section Administrators.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2885 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 2210 (Majority) Public Safety, Intergovernmental and Military Affairs on S.B. No. 2591**

The purpose and intent of this measure is to:

- (1) Require the chief of each county police department to submit an annual report to the Legislature by January 31 of each year covering misconduct incidents that resulted in suspension or discharge of a police officer from the calendar year immediately prior to the year of the report submission;
- (2) Specify the information each report must contain, including updated information from previous reports; and
- (3) Require the county police departments to retain the disciplinary records in accordance with their respective record retention policies or for at least six months, whichever period is longer.

Your Committee received testimony in support of this measure from the Civil Beat Law Center for the Public Interest and one individual. Your Committee received testimony in opposition to this measure from the State of Hawaii Police Officers Union.

Your Committee finds that for over a decade, the only public information available concerning final suspensions of police officers has been the annual report to the Legislature, required by section 52D-3.5, Hawaii Revised Statutes; however, these reports provide minimal detail. This measure improves the applicability of section 52D-3.5, Hawaii Revised Statutes, and creates a more informed public dialogue about misconduct by police officers.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2591 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Baker).

**SCRep. 2211 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2401**

The purpose and intent of this measure is to provide protection to abuse victims by extending the period of separation that a law enforcement officer shall order when there is suspicion of physical abuse or harm to 4:30 p.m. on the second business day following the weekend or legal holiday if:

- (1) The forty-eight hour period of separation expires on any Saturday, Sunday, or legal holiday; or
- (2) The incident occurs after 12:00 p.m. on any Friday, or on any Saturday, Sunday, or legal holiday.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Department of the Prosecuting Attorney of the County of Kauai, Honolulu Police Department, Maui Police Department, and one individual.

Your Committee finds that the intent of the forty-eight hour period of separation is to keep the abuser away from the victim and give the victim time to get a restraining order and find a safe shelter. An abuse victim does not receive the benefit of the forty-eight hour separation period if an abuse happens over the weekend or on a holiday, as all government agencies and many private organizations are

closed. This measure will give abuse victims additional time to get help and legal protection by extending the period of separation that a law enforcement officer shall order under specified circumstances.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2401 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2212 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2315**

The purpose and intent of this measure is to appropriate funds for the Department of Public Safety to provide substance abuse treatment services to the inmates of the Halawa Correctional Facility.

Your Committee received testimony in support of this measure from the Department of Public Safety; Hawaii Substance Abuse Coalition; and Community Alliance on Prisons.

Your Committee finds that a substantial number of inmates incarcerated at Halawa Correctional Facility have significant substance abuse problems. However, the Halawa Correctional Facility lacks the resources to provide substance abuse treatment services to inmates who need the services. This measure appropriates funds to increase the availability of substance abuse treatment services at Halawa Correctional Facility.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2315 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2213 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2313**

The purpose and intent of this measure is to ensure that Deputy Sheriff recruits will be able to perform essential functions of the position by:

- (1) Implementing a sophisticated pre-employment psychological evaluation to screen Deputy Sheriff recruits; and
- (2) Appropriating funds for the Department of Public Safety to perform the psychological testing of Deputy Sheriff recruits.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that the State entrusts Deputy Sheriffs with tremendous authority. The work experience can be highly stressful, physically and mentally, but the Deputy Sheriffs must be able to make appropriate decisions under difficult circumstances. This measure will help ensure that Deputy Sheriff recruits will be able to perform essential functions of the position, securing the safety of the public and fellow officers, by providing the resources necessary for the Department of Public Safety to develop and implement pre-employment psychological screening.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2313 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 2214 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2113**

The purpose and intent of this measure is to repeal the requirement that the County of Kauai contract with the Kauai Humane Society for the seizure and impoundment of unlicensed dogs and related actions.

Your Committee received testimony in support of this measure from the Kauai Humane Society; Animal Haven; and one individual.

Your Committee finds that the County of Kauai is mandated to contract with the Kauai Humane Society regarding the seizure and impoundment of unlicensed dogs. Due to a lack of funding, the Kauai Humane Society is faced with decreased operational hours, making the requirements set forth in section 143-16, Hawaii Revised Statutes, difficult to fulfill. This measure will prevent statutory violations through the repeal of the requirement that the County of Kauai contract with the Kauai Humane Society.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2113 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2215 Commerce and Consumer Protection on S.B. No. 2809**

The purpose and intent of this measure is to amend Hawaii's utility ratemaking laws to allow utilities to earn a fair return on utility property that is used and useful.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Public Utilities Commission; and Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawaiian Electric Company, Inc.

Your Committee finds that existing statute allows public utilities to earn a fair return on public utility property that is “used or useful” for public utility ratemaking purposes. However, the “used and useful” principle is widely accepted as the regulatory industry standard for determining fair value in ratemaking. Hawaii courts, including the Hawaii Supreme Court, also use “used and useful” when deciding cases or disputes involving Hawaii’s utility ratemaking laws. This measure conforms Hawaii statutes with practices followed by the Public Utilities Commission and state courts when ruling on dockets and cases involving application of Hawaii’s utility ratemaking laws.

Your Committee has heard the concerns raised in testimony that changing the statutory language from “used or useful” to “used and useful” may create uncertainty about how to treat and manage certain utility property. Your Committee notes that the intent of this measure is to provide guidance to the Public Utilities Commission and create consistency with best regulatory practices throughout the country. Therefore, it is appropriate to add a purpose section to this measure to better explain its intent.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a purpose section clarifying that this measure aligns statutory language regarding utility ratemaking with widely accepted utility ratemaking principles and ratemaking practices already applied in Hawaii and is prospective in nature and clarifying that specific application of this measure should be left to the discretion of the Public Utilities Commission; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2809, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2809, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2216 (Joint) Energy and Environment and Agriculture on S.B. No. 2196**

The purpose and intent of this measure is to:

- (1) Re-establish the energy systems development special fund;
- (2) Increase the amount of the environmental response, energy, and food security tax to be deposited into the environmental response revolving fund, energy security special fund, and agricultural development and food security special fund; and
- (3) Extend the repeal of various allocations of the environmental response, energy, and food security tax from June 30, 2015, to June 30, 2030.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; Department of Health; Public Utilities Commission; Hawai‘i Natural Energy Institute; County of Kauai Office of Economic Development; Hawaii Renewable Energy Alliance; Renewable Energy Action Coalition of Hawaii; Ulupono Initiative; Nature Conservancy; Hawai‘i Energy Policy Forum; Sierra Club of Hawaii; Hawai‘i Green Growth; Blue Planet Foundation; and one individual. Your Committees received testimony in opposition to this measure from The Chamber of Commerce of Hawaii and one individual. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committees find that the energy systems development special fund sunset in June 2013, returning the 10 cent tax on each barrel of petroleum product imported in Hawaii to the general fund. Re-establishing the energy systems development special fund will provide funding to support Hawaii projects important for achieving state energy goals, such as renewable power generation, advanced transportation, energy efficient end-use technologies, and the integration of systems to allow increased renewable use.

Your Committees further find that the environmental response, energy, and food security tax funds vital sustainability measures to help make Hawaii more self-sufficient. This tax was designed to support critical investments in clean energy, local agricultural production, and environmental response; reduce the State’s dependence on imported fossil fuels and food products; and support environmental activities and programs. The environmental response, energy, and food security tax further represents a balanced approach to public policy where an increase in fossil fuel consumption would generate more funding in these initiatives. During difficult economic times, the fund was intended to be diverted only temporarily toward the general fund. However, the fund has yet to be restored to its original purpose of environmental restoration.

Your Committees have amended this measure by:

- (1) Further increasing the amount of environmental response, energy, and food security tax deposited into the environmental response revolving fund from 10 cents to 15 cents;
- (2) Decreasing the amount of tax deposited into the energy security special fund from 42.5 cents to 25 cents;
- (3) Decreasing the amount of tax deposited into the agricultural development and food security special fund from 42.5 cents to 25 cents; and
- (4) Extending the sunset date to June 30, 2030, for the deposit of a portion of the environmental response, energy, and food security tax into the:
  - (A) Environmental response revolving fund;

(B) Energy security special fund, including an extension of certain uses of monies in that fund and reporting related to that fund; and

(C) Agricultural development and food security special fund.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2196, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2196, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Agriculture  
Ayes, 5. Noes, none. Excused, 2 (Thielen, Slom).

**SCRep. 2217 (Joint) Energy and Environment and Agriculture on S.B. No. 2658**

The purpose and intent of this measure is to:

- (1) Require that solar energy facilities on agricultural lands with an overall productivity rating of class B or C occupy up to thirty, rather than ten, percent of the acreage of the parcel or two or more adjacent parcels having met certain county requirements; provided that the area occupied by the solar energy facilities in excess of twenty acres shall only be made available for agricultural activities compatible with the solar energy facilities; and
- (2) Require that solar energy facilities be removed from the land within twelve months when the facilities are no longer in operation.

Your Committees received testimony in support of this measure from the Hawaii Renewable Energy Alliance, The Pacific Resource Partnership, Blue Planet Foundation, Tin Roof Ranch, First Wind Solar Group, and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; Land Use Commission; and Office of Planning.

Your Committees find that renewable energy development is essential to Hawaii's energy security. Allowing solar energy facilities within the agricultural district furthers and is consistent with the purposes, standards, and criteria of uses within agricultural lands, while increasing Hawaii's energy self-sufficiency and food security.

Your Committees have amended this measure by:

- (1) Clarifying that where the area occupied by a solar energy facility within an agricultural district with an overall productivity rating of class B or C is in excess of twenty acres, the area shall be made available for agricultural activities that are compatible with the solar energy facilities at a lease rate that is at least fifty percent below fair market rent for comparable properties; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2658, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2658, S.D. 1, and be referred to the Committee on Water and Land.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Agriculture  
Ayes, 5. Noes, none. Excused, 2 (Thielen, Slom).

**SCRep. 2218 (Joint) Energy and Environment and Economic Development, Government Operations and Housing on S.B. No. 2804**

The purpose and intent of this measure is to provide that:

- (1) Agencies entering into energy performance contracts receive sufficient budget appropriations and have access to financing options to sustain their energy performance contract projects and energy and maintenance costs;
- (2) An energy performance contract has a maximum term of twenty-five years, including the construction period; and
- (3) Agencies implementing performance contracts provide annual reports to the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Department of Accounting and General Services.

Your Committees find that energy performance contracting offers significant opportunities for agencies to improve their facilities and operations. Energy performance contracting is a method of paying for facility improvements using energy and operational savings through a contracting vehicle that provides an opportunity to install more efficient equipment, address deferred maintenance, use

renewable energy technologies, and reduce operational costs. More importantly, state agencies have seen the value of using energy performance contracting to improve the energy efficiency of their facilities, thereby addressing deferred maintenance and achieving reduced facility life cycle operating costs.

Your Committees have amended this measure by:

- (1) Amending language to define the term “annual cost savings”, rather than “energy cost savings”; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2804, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2804, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Economic Development, Government Operations and Housing

Ayes, 6. Noes, none. Excused, 1 (Baker).

**SCRep. 2219 (Joint) Education and Health on S.B. No. 2422**

The purpose and intent of this measure is to:

- (1) Allow Department of Education employees and agents to volunteer to administer epinephrine to a student in anaphylactic shock;
- (2) Require the Department of Health to provide proper instruction and training to every employee or agent who volunteers to administer glucagon or epinephrine;
- (3) Require a student’s parent or guardian to provide the Department of Education with written authorization for auto-injectable epinephrine and to supply auto-injectable epinephrine supplies to administer the epinephrine; and
- (4) Make an appropriation for required instruction, training, and related expenses.

Your Committees received testimony in support of this measure from the Department of Education; Department of Health; Hawaii Disability Rights Center; Special Education Advisory Council; Community Children’s Councils; Mylan, Inc.; and Witt Counseling Services. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice and one individual.

Your Committees find that this measure is necessary to clarify that Department of Education employees and agents may volunteer to administer epinephrine to a student in anaphylactic shock.

Your Committees further find that it is imperative that Department of Education employees and agents who volunteer to administer epinephrine to a student in anaphylactic shock are given proper instruction on the administration of epinephrine.

Your Committees have amended this measure by:

- (1) Removing the requirement that the Department of Health provide instruction and training to Department of Education employees and agents who volunteer to administer glucagon and epinephrine;
- (2) Inserting language requiring the Department of Education employees and agents who volunteer to administer glucagon and epinephrine to receive instruction by a qualified health care professional overseen by the Department of Health;
- (3) Reinserting the definition of a “qualified health care professional”;
- (4) Inserting an appropriation amount of \$350,000 to the Department of Education;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2422, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2422, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2220 (Joint) Education and Health on S.B. No. 2235**

The purpose and intent of this measure is to require children to undergo a physical examination prior to attending kindergarten, sixth grade, and ninth grade beginning with the 2015-2016 school year.

Your Committees received testimony in support of this measure from the University of Hawaii John A. Burns School of Medicine, Hawai'i Pacific Health, American Diabetes Association, Hawaii Chapter of the American Academy of Pediatrics, Hawai'i Primary Care Association, Waianae Coast Comprehensive Health Center, and four individuals. Your Committees received testimony in opposition to this measure from the Department of Education. Your Committees received comments on this measure from the Department of Health, Office of Hawaiian Affairs, and one individual.

Your Committees find that currently, children are required to undergo a physical examination only prior to attending school in Hawaii for the first time, unless they play sports. Back-to-school checkups are often the only visit most children and teenagers have with their doctors. Requiring children to undergo a physical examination will promote greater wellness for Hawaii's school children. In addition, the federal Patient Protection and Affordable Care Act mandates insurance coverage for regular child wellness exams.

Your Committees recognize the concerns raised by the Department of Education that mandating students to undergo a physical examination before they may attend kindergarten, sixth, and ninth grades, may serve as a deterrent to some for maintaining continuous enrollment and attendance.

Accordingly, your Committees have amended this measure by:

- (1) Requiring a child to undergo a physical examination within twelve months before or after attendance in the seventh grade, rather than prior to attendance in kindergarten, sixth, and ninth grades; provided that a child must undergo a physical examination prior to attending school for the first time in the State;
- (2) Deleting language regarding the submission of certain documentation to allow provisional attendance while in the process of undergoing a physical examination for seventh grade attendance;
- (3) Adding language to specify that documentation showing that the required physical examination has been completed shall be submitted to the appropriate school official prior to the child's completion of seventh grade, rather than prior to three months after the date of attendance;
- (4) Deleting language that would have exempted children who are subject to the physical examination requirement for seventh grade attendance from the physical examination requirement for first-time school attendance in the State, thereby requiring documentation showing completion of the physical examination to be submitted prior to completion of seventh grade in the former case and no later than three months after a child's first attendance in school in the latter case;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

If this measure is considered for passage by your Committee on Ways and Means, your Committees note that the Department of Education has indicated it will need funding in the amount of \$1,600,000 and fifty-five full-time equivalent (55.0 FTE) positions to carry out the purposes of this measure.

In addition, if this measure is considered for passage by your Committee on Ways and Means, your Committees request an examination of whether immunization requirements should be similarly amended to allow a child to receive the required immunizations within twelve months before or after school attendance.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2235, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2235, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2221 (Joint) Human Services and Economic Development, Government Operations and Housing on S.B. No. 2543**

The purpose and intent of this measure is to establish the homeownership revolving fund to pay the debt service for a dwelling purchased by households whose income does not exceed eighty percent of the area median income, with reimbursement at zero percent interest for the first sixty months and on a graduated scale thereafter.

Your Committees received testimony in support of this measure from Habitat for Humanity Maui, Community Alliance for Mental Health, and Hawaii Habitat for Humanity Association. Your Committees received comments on this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committees find that encouraging homeownership is beneficial to society because homeownership provides shelter and stability to families and fosters involvement in community life. Your Committees heard testimony expressing concern that this measure may allow individuals to become homeowners before they are prepared for the responsibilities of owning and sustaining a home. In addition, testimony submitted to your Committees indicates that the homeownership revolving fund may not be adequately self-sustaining and, therefore, may not comply with statutory requirements.

Accordingly, your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B.

No. 2543, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2543, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

Economic Development, Government Operations and Housing

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Wakai).

**SCRep. 2222 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 2029**

The purpose and intent of this measure is to:

- (1) Increase the minimum age to purchase tobacco products, including electronic smoking devices, from eighteen to twenty-one;
- (2) Prohibit the sale or furnishing of tobacco or an electronic smoking device to a person under twenty-one; and
- (3) Make conforming amendments regarding minimum age to enter certain premises.

Your Committees received testimony in support of this measure from the Department of Health; Police Department, City and County of Honolulu; The Queen's Health Systems; American Cancer Society; Hawaii Primary Care Association; Coalition for a Tobacco-Free Hawaii; American Lung Association; and several individuals. Your Committees received testimony in opposition to this measure from Volcano Fine Electronic Cigarettes, Hawaii Smokers Alliance, and one individual.

Your Committees find that tobacco use is the leading cause of preventable disease, disability, and death in Hawaii. Your Committees further find that tobacco companies actively target young adults between the ages of eighteen and twenty-one, because it is a critical time period when young adults transition from experimentation to addiction. Additionally, more than nine in ten people start smoking before the age of twenty-one.

Your Committees have amended this measure by:

- (1) Clarifying that the tobacco restrictions apply to persons born on or after July 1, 1996, until the day of their twenty-first birthday; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2029, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2029, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 4; Ayes with Reservations (Nishihara, Wakai). Noes, 1 (Slom). Excused, none.

**SCRep. 2223 Health on S.B. No. 2849**

The purpose and intent of this measure is to authorize the Department of Health to create permanent or temporary privacy officer and security officer positions, which shall be exempt from civil service requirements.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association.

Your Committee finds that the Health Insurance Portability and Accountability Act of 1996 introduced rigorous national privacy and security standards to assure that personal health information remains confidential. Your Committee further finds that the privacy officer and security officer positions are necessary to help meet these standards, and they will work in tandem to manage the Department of Health's risks associated with any unauthorized acquisition, access, use, or disclosure of protected health information that compromises the security or privacy of the information.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2849, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2849, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2224 Health on S.B. No. 2227**

The purpose and intent of this measure is to:

- (1) Increase access to provider orders for life-sustaining treatment by updating references from "physician orders for life-sustaining treatment" to "provider orders for life-sustaining treatment" throughout chapter 327K, Hawaii Revised Statutes;

- (2) Expand health care provider signatory authority to include advanced practice registered nurses; and
- (3) Correct inconsistencies over terms used to describe who may sign a provider order for life-sustaining treatment form on behalf of a patient.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Healthcare Association of Hawaii, Hawaii State Center for Nursing, The Queen's Health Systems, American Association of Nurse Practitioners, Kokua Mau, Hawaii Medical Service Association, Hawaii Association of Professional Nurses, Hawaii Pacific Health, Hospice Hawaii, and several individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the use of provider orders for life-sustaining treatment, commonly referred to as POLST, is a holistic method of planning for end-of-life care with a specific set of medical orders to ensure that patients' wishes are honored. Your Committee further finds that expanding signatory authority to include advanced practice registered nurses will promote efficiency, assist with a timely completion of provider orders for life-sustaining treatment for patients, and expand access to health care professionals who may sign provider orders for life-sustaining treatment, which will be highly beneficial for individuals living in rural areas and neighbor islands.

Your Committee notes that the intent of this measure is to encourage meaningful dialogue between patients, or their designated surrogates, and health care providers.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2227 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2225 Health on S.B. No. 2866**

The purpose and intent of this measure is to make an emergency appropriation to support the functions of the Hawaii Health Systems Corporation and its regions.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Community Alliance for Mental Health, and one individual.

Your Committee finds that due to state restrictions on appropriations over the past few years, the Hawaii Health Systems Corporation currently has dangerously low levels of funding and high levels of accounts payable. Your Committee further finds that without an emergency appropriation, Hawaii Health Systems Corporation's health care operations will be severely impacted, and the impact will place the health care of the residents and visitors of the State in jeopardy.

Your Committee has amended this measure by:

- (1) Increasing the appropriation amount from \$15,500,000 to \$18,200,000; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2866, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2866, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2226 Health on S.B. No. 2045**

The purpose and intent of this measure is to:

- (1) Establish a Hawaii colorectal cancer screening awareness pilot program using the Hawaii comprehensive breast and cervical cancer control program as a model; and
- (2) Appropriate funds for the first year of the pilot program.

Your Committee received testimony in support of this measure from the Department of Health, American Cancer Society, The Queen's Health Systems, and six individuals.

Your Committee finds that colorectal cancer, often referred to as colon cancer, is a dangerous and deadly cancer that affects approximately nine hundred people in Hawaii each year. Your Committee further finds that a screening program for colorectal cancer will increase detections of cancers at an early state, improving chances for survival and decreasing mortality rates.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2045, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2045, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2227 Health on S.B. No. 2447**

The purpose and intent of this measure is to make an appropriation of \$100,000 to the Department of Health for the comprehensive breast and cervical cancer control program.

Your Committee received testimony in support of this measure from the Department of Health, American Cancer Society, The Queen's Health Systems, Planned Parenthood, and four individuals.

Your Committee finds that the Department of Health's breast and cervical cancer control program provides critical screening and early detection services to women who are at risk, uninsured, underinsured, and rarely or never screened. Your Committee further finds that maintaining adequate funding will preserve a vital safety net for thousands of women in Hawaii who lack access to essential screening, diagnostic, and treatment services.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2447, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2447, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2228 Health on S.B. No. 2855**

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health for the provision of services provided by the Developmental Disabilities Division for adults and children living in Hawaii as citizens of Compact of Free Association (COFA) countries who are eligible to receive those services.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Disability Rights Center, Community Alliance for Mental Health, and State Council on Developmental Disabilities.

Your Committee finds that COFA citizens must be provided community-based services with one hundred percent state funding from the Department of Health to comply with a federal court directive. Your Committee further finds that this new development requires the Department of Health to provide home and community-based services to forty-seven newly eligible individuals, creating the necessity for the emergency appropriation proposed by this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2855, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2855, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2229 Health on S.B. No. 2854**

The purpose and intent of this measure is to decrease the total number of members on the Neurotrama Advisory Board from twenty-one to at least eleven members, while maintaining representation of nearly all existing parties.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that a smaller number of members on the Neurotrama Advisory Board will allow the Board to achieve quorum on a regular basis, which will improve its effectiveness and capacity to assist the Department of Health. Your Committee further finds that this measure is necessary to remove member representation from the Spinal Cord Injury Association, which is no longer in operation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2854, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2854, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2230 Health on S.B. No. 2490**

The purpose and intent of this measure is to:

- (1) Require licensed registered nurses and licensed practical nurses to submit evidence of continuing competency at each renewal period, beginning with the June 30, 2015, licensing biennium;
- (2) Set requirements for continuing competency for licensed registered nurses and licensed practical nurses; and
- (3) Require each licensee to keep and maintain records showing that continuing competency has been completed.

Your Committee received testimony in support of this measure from the University of Hawaii at Manoa School of Nursing, Hawaii Medical Association, Hawaii Pacific Health, Hawaii State Center for Nursing, Pali Momi Medical Center, and seven individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Board of Nursing.

Your Committee finds that nurses are critical to health care reform. Your Committee further finds that continuing education plays a significant role in nursing professionals' ongoing development. This measure encourages nurses to embrace lifelong learning as an essential key to delivering safe, high quality patient care.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2490, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2231 Health on S.B. No. 2237**

The purpose and intent of this measure is to appropriate funds for the interdisciplinary Hawaii Health Systems Corporation primary care training program at Maui Memorial Medical Center.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Community Alliance for Mental Health, Hawaii Medical Association, Healthcare Association of Hawaii, Maui Memorial Medical Center, Hawaii Primary Care Association, Work Injury Medical Association of Hawaii, and one individual.

Your Committee finds that the State faces a severe shortage of health care providers. Your Committee further finds that increasing the potential pool of physicians and other health care providers is an important step toward addressing Hawaii's worsening shortage of physicians. This measure supports a process to elevate the standard of medical care within Hawaii's communities, as well as a pathway for the development of new medical providers to take the place of the doctors who will be retiring over the next decade.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2237 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2232 Health on S.B. No. 3091**

The purpose and intent of this measure is to appropriate funds for the interdisciplinary Hawaii Health Systems Corporation primary care training program at Hilo Medical Center.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Hawaii; Hawaii County Council; Kona-Kohala Chamber of Commerce; Hawaii Healthcare Association; Hawaii Health Systems Corporation; Hawaii Medical Association; Healthcare Association of Hawaii; Hawaii Primary Care Association; Ka'u Hospital; Japanese Chamber of Commerce and Industry; Hilo Medical Center Foundation; Hawaii Medical Association; Community Alliance for Mental Health; Hastings and Pleadwell, LLC; Hawaii Island Family Medicine Residency; and several individuals.

Your Committee finds that the island of Hawaii continues to face a severe physician shortage, with projections suggesting that the physician shortage will dramatically worsen in the next five years as many doctors retire. Your Committee further finds that a recent study estimates that Hawaii County needs one hundred fifty more doctors to provide an adequate level of access to health care. This measure will help relieve the acute physician shortage across the State, especially in rural areas.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3091 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2233 Health on S.B. No. 2107**

The purpose and intent of this measure is to appropriate funds for the Hawaii Health Systems Corporation primary care training program at the Hilo Medical Center.

Your Committee received testimony in support of this measure from the Office of the Mayor, County Hawaii; County Council, County of Maui; Hawaii County Council; Hawaii State Association of Counties; Healthcare Association of Hawaii; Hawaii Health Systems Corporation; West Hawaii Regional Board of the Hawaii Health Systems Corporation; Japanese Chamber of Commerce and Industry; Hilo Medical Center Foundation; Hawaii Medical Association; Community Alliance for Mental Health; Hastings and Pleadwell; Hilo Medical Center; Hawaii Island Chamber of Commerce; Hawaii Island Family Medicine Residency; Hawaii Association of Professional Nurses; and several individuals.

Your Committee finds that the State and the island of Hawaii face a severe physician shortage, with a recent study estimating that Hawaii County needs one hundred fifty more doctors to provide an adequate level of health care to residents. Your Committee further finds that the primary care training program will help to address the shortage of primary health care providers in the State. This

measure will improve health care options for thousands of patients and provide a model to meet the growing need for physicians in underserved areas.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2107 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2234 (Joint) Health and Human Services on S.B. No. 2449**

The purpose and intent of this measure is to appropriate \$50,000 for the continued funding of Project Kealahou, a program that promotes community-based, individualized services for at-risk adolescent girls.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Youth Services, Community Alliance on Prisons, Hawaii Public Policy Advocates, YWCA of Oahu, and two individuals.

Your Committees find that Project Kealahou provides mental health and family support services to adolescent girls who have experienced trauma and are housed within the Child and Adolescent Mental Health Division of the Department of Health. Your Committees further find that Project Kealahou is currently funded through a federal grant that will be phased out. This measure will allow this effective program to continue to provide therapy and education to the girls and their families, while reducing the risks of suicide, violence, and future involvement in the criminal justice systems.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2449 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Human Services  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2235 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2587**

The purpose and intent of this measure is to:

- (1) Establish a voluntary registry for clean and sober homes within the Department of Health by July 1, 2015;
- (2) Appropriate funds to establish the registry;
- (3) Amend county zoning statutes to comply with the federal Fair Housing Amendments Act;
- (4) Repeal definitions for terms that are defined elsewhere in the Hawaii Revised Statutes, are not used, or will be codified elsewhere in the Hawaii Revised Statutes; and
- (5) Exclude clean and sober homes from the Residential Landlord-Tenant Code.

Your Committees received testimony in support of this measure from the Department of Public Safety; Department of Health; Planning Department, County of Hawaii; City Department of Planning and Permitting, City and County of Honolulu; Hawaii Substance Abuse Coalition; Institute for Human Services; Life of the Land; and four individuals.

Your Committees find that clean and sober homes and halfway houses provide housing for individuals who struggle with substance abuse, including those who may have mental health issues, as they transition from treatment programs into the community. This measure promotes access to an alcohol- and drug-free home environment in residences that are in compliance with county, state, and federal requirements and quality standards.

Your Committees note that the estimated cost to establish the registry for clean and sober homes is \$435,000.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2587 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Nishihara).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

**SCRep. 2236 (Joint/Majority) Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.C.R. No. 5**

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to work with construction industry representatives to review the prerequisites for obtaining permit approval for developments at the state and county levels.

Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that a coordinated effort between all levels of government and the private sector is necessary to expedite a sluggish and duplicative approval process for construction projects. For over twenty years, the State and counties have imposed financial requirements, such as community facilities district financing, impact fees, and infrastructure construction, on developers as prerequisites to obtaining approval for developments. As a result of these financial impositions, infrastructure construction costs may rise, and construction sometimes remains unfinished. Therefore, it is necessary to understand the effects of imposing prerequisites on the cost of construction and development, including the effect upon the communities where development has been directed.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 5 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 5; Ayes with Reservations (Chun Oakland, Slom). Noes, 1 (Thielen). Excused, 1 (English).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

**SCRep. 2237 (Joint/Majority) Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.R. No. 5**

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to work with construction industry representatives to review the prerequisites for obtaining permit approval for developments at the state and county levels.

Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that a coordinated effort between all levels of government and the private sector is necessary to expedite a sluggish and duplicative approval process for construction projects. For over twenty years, the State and counties have imposed financial requirements, such as community facilities district financing, impact fees, and infrastructure construction, on developers as prerequisites to obtaining approval for developments. As a result of these financial impositions, infrastructure construction costs may rise, and construction sometimes remains unfinished. Therefore, it is necessary to understand the effects of imposing prerequisites on the cost of construction and development, including the effect upon the communities where development has been directed.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 5 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

**SCRep. 2238 Health on S.B. No. 2121**

The purpose and intent of this measure is to permit insured patients to assign insurance reimbursement for dental services directly to their dentist of choice.

Your Committee received testimony in support of this measure from the Hawaii Dental Association and nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association and Hawaii Dental Service.

Your Committee finds that the accessibility and affordability of proper dental services are continuing problems in the State. Your Committee further finds that the current restrictions regarding assignment of reimbursement for dental services discourage and limit patients' right to choose their own dentist. This measure reduces some barriers for the people of this State to receive proper dental care and services.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2121, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Baker). Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2239 Health on S.B. No. 2492**

The purpose and intent of this measure is to improve patient access to medical care by amending several sections of the Hawaii Revised Statutes to clarify the circumstances under which advanced practice registered nurses may practice their profession to the fullest extent of their training and education.

Your Committee received testimony in support of this measure from the University of Hawaii at Manoa School of Nursing, Hawaii Pacific Health, Disability and Communication Access Board, Hawaii Association of Professional Nurses, Pali Momi Medical Center, Hawaii State Center for Nursing, American Association of Nurse Practitioners, Hawaii State Center for Nursing, The Queen's Health Systems, and several individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Nursing.

Your Committee finds that certain sections within the Hawaii Revised Statutes omit advanced practice registered nurses from the definitions or designations of health care entities who may provide health care, prescribe drugs, or sign forms. Your Committee further finds that advanced practice registered nurses provide a wide variety of health care services and are recognized as participating primary health care providers for insurance purposes. This measure will enable improved access to health care services, expedite the processing of paperwork, and provide optimal care at the initial point of access for patients across the State, especially in rural and underserved areas.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2492, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2492, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2240 Health on S.B. No. 2067**

The purpose and intent of this measure is to establish that it is prohibited under the Hawaii Food, Drug, and Cosmetic Act to sell, deliver for sale, hold for sale, or offer for sale any dietary supplement that does not conform to federal good manufacturing practices for dietary supplements.

Your Committee received testimony in support of this measure from The Queen's Health Systems. Your Committee received testimony in opposition to this measure from the Department of Health and three individuals.

Your Committee finds that there is an unprecedented number of patients presenting with acute liver failure in the State. Your Committee further finds that these patients were previously healthy before taking a certain weight loss and performance enhancing supplement. To prevent similar situations in the future, this measure provides additional safety assessments of dietary supplements to improve the public health.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that it is important to begin to explore the Department of Health's capacity to examine dietary supplements imported into the State. Your Committee further notes that the Department of Health would have to develop new protocols regarding dietary supplements to undertake this task.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2067, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2067, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Chun Oakland, Nishihara).

**SCRep. 2241 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2561**

The purpose and intent of this measure is to:

- (1) Permit the establishment of a cottage food industry in Hawaii;
- (2) Establish registration and permitting requirements for cottage food operations;
- (3) Establish two classes of cottage food operations – class A to engage only in direct sales of cottage food products, and class B to engage in direct and indirect sales of cottage food products;
- (4) Establish an approved cottage food products list and procedures for the addition to or deletion from the list; and
- (5) Establish labeling requirements, prohibitions, and inspection procedures for cottage food operations.

Your Committees received testimony in support of this measure from the Local Food Coalition and several individuals. Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees find that permitting the increased development of the local cottage food industry will increase the use of local foods in small scale, value-added products. This measure supports Hawaii's local farmers and ranchers, while encouraging the consumption of locally grown foods.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2561, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2561, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Public Safety, Intergovernmental and Military Affairs

Ayes, 4; Ayes with Reservations (Baker, Slom). Noes, none. Excused, 1 (Galuteria).

**SCRep. 2242 Health on S.B. No. 2573**

The purpose and intent of this measure is to:

- (1) Prohibit the manufacture, sale, or distribution of child care products and toys for young children that contain Bisphenol-A or phthalates beginning on January 1, 2015;
- (2) Require manufacturers to choose safe alternatives;
- (3) Prohibit the use of packages and packaging containing lead, cadmium, mercury, and hexavalent chromium beginning on January 1, 2015; and
- (4) Prohibit the Hawaii Health Systems Corporation from purchasing and using vinyl intravenous solution bags and vinyl tubing beginning on January 1, 2015.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Toy Industry Association, Inc. and American Chemistry Council.

Your Committee finds that hazardous chemicals in consumer products pose unnecessary health risks to individuals, communities, workers, and the environment. Your Committee further finds that materials containing vinyl, lead, cadmium, mercury, and hexavalent chromium may release highly toxic chemicals and pollutants. This measure encourages the use of safer alternatives for packages, packaging, intravenous solution bags, and tubing.

Your Committee has amended this measure by:

- (1) Deleting provisions that would have placed restrictions on the manufacture, sale, and distribution of child care products and toys for young children that contain Bisphenol-A or phthalates; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2573, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2573, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Nishihara).

**SCRep. 2243 Health on S.B. No. 2381**

The purpose and intent of this measure is to exempt the preparation of food for charitable, noncommercial purposes from certain Department of Health food safety requirements if certain conditions are met.

Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that the shared values of the residents of Hawaii are deeply rooted in community and assistance for the common good, and that regulations governing charitable activities should be structured to encourage people's desire to pursue charitable practices. Your Committee further finds that food can be prepared in a safe manner utilizing the kitchens, barbeques, and traditional cultural techniques throughout the State, without the same regulation as food prepared for commercial purposes, and provided to struggling individuals and families.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2381, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2381, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2244 Health on S.B. No. 2577**

The purpose and intent of this measure is to require:

- (1) Naturopathic practitioners to fulfill the same education, examination, and training requirements as physicians or osteopathic physicians licensed under chapter 453, Hawaii Revised Statutes, prior to the prescription, administration, or dispensing of any item on the naturopathic formulary; and
- (2) Authorization from the Department of Commerce and Consumer Affairs for any naturopathic physician wishing to prescribe, administer, or dispense any item on the naturopathic formulary.

Your Committee received testimony in support of this measure from the Hawaii Medical Association and Healthcare Association of Hawaii. Your Committee received testimony in opposition to this measure from Sakoda Construction, LLC, and several individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Naturopathic Medicine, and one individual.

Your Committee finds that naturopathic education focuses primarily on natural treatments, and therefore offers very few contact hours of study on pharmacological treatment of disease. Your Committee further finds that the current naturopathic formulary include psychoactive agents, cardiovascular and respiratory drugs, and medical gas, which can have unpredictable effects on patients. This measure takes safety precautions by restricting the formulary for naturopathic practitioners, in recognition of the fact that naturopathic education differs from that received within allopathic or osteopathic medical schools and has fewer standards and requirements for training in the use of allopathic or osteopathic treatment modalities.

Your Committee has amended this measure by:

- (1) Removing the requirement that a naturopathic physician shall fulfill the same education, examination, and training requirements as physicians or osteopathic physicians licensed under chapter 453, Hawaii Revised Statutes, in order to qualify for prescription privileges;
- (2) Requiring naturopathic physicians to complete fifteen hours of continuing medical education in pharmacology annually in order to qualify for prescription privileges;
- (3) Requiring naturopathic physicians to submit proof of completing the continuing medical education in pharmacology to the Board of Naturopathic Medicine;
- (4) Requiring naturopathic physicians to maintain a collegial relationship with a prescribing physician licensed under chapter 453, Hawaii Revised Statutes, to qualify for prescription privileges;
- (5) Requiring the prescribing physician to perform a quarterly review of the list of naturopathic formulary items that have been prescribed by the naturopathic physician and address any concern regarding naturopathic formulary and amounts prescribed with the prescribing naturopathic physician and the Board of Naturopathic Medicine;
- (6) Restricting naturopathic physicians to prescribe only items under categories 1-7 of the naturopathic formulary effective August 9, 2013, and as may be subsequently amended;
- (7) Requiring naturopathic physicians to submit a monthly report to the Board of Naturopathic Medicine that lists the type and number of each prescription of naturopathic formulary prescribed by the naturopathic physician during the preceding month;
- (8) Requiring the Board of Naturopathic Medicine to provide to the Legislature an annual report of prescription data;
- (9) Inserting an effective date of July 1, 2014, and a sunset date of June 30, 2016; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2577, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2577, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Chun Oakland, Nishihara).

**SCRep. 2245 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2221**

The purpose and intent of this measure is to:

- (1) Make it unlawful for tanning facilities and operators to allow use of tanning equipment by anyone under the age of eighteen; and
- (2) Require all tanning facilities and operators to provide written notice, post warning signs, and meet certain requirements relating to the safe operation of tanning equipment.

Your Committees received testimony in support of this measure from the Department of Health, AIM at Melanoma, American Cancer Society, American Academy of Dermatology Association, and six individuals.

Your Committees find that the World Health Organization labeled ultraviolet (UV) radiation from tanning devices as carcinogenic to humans. Your Committees further find that research indicates that tanning before the age of thirty-five increases the risk of melanoma by fifty-nine percent.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2221, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2221, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection

Ayes, 5. Noes, none. Excused, none.

**SCRep. 2246 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 2054**

The purpose and intent of this measure is to require health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for autism spectrum disorder treatments.

Your Committees received testimony in support of this measure from the Department of Health; State Council on Developmental Disabilities; Hawaiian Association for Behavior Analysis No Ka Oi, Inc.; Autism Society of Hawaii; Community Alliance for Mental Health; Hawaii Disability Rights Center; Autism Speaks; Community Children's Council of Hawaii; UNITE HERE Local 5; Hilopa'a Family to Family Health Information Center; Malama Pono Autism Center; Easter Seals Hawaii; and several individuals. Your Committees received testimony in opposition to this measure from Kaiser Permanente Hawaii. Your Committees received comments on this measure from the Department of Human Resources Development, Department of Commerce and Consumer Affairs, Office of Information Practices, Hawaii Medical Service Association, American Council of Life Insurers, The Chamber of Commerce of Hawaii, and one individual.

Your Committees find that autism spectrum disorder treatments, including applied behavior analysis, are essential and have the potential to change the lives of children with autism. Your Committees further find that no child with autism in Hawaii should be denied proper treatment due solely to the cost of the treatment.

Your Committees have amended this measure by:

- (1) Requiring coverage for autism spectrum disorder treatments under insurance policies, contracts, plans, or agreements that are issued or renewed in the State after July 1, 2014;
- (2) Exempting Medicaid plans from the mandatory coverage proposed by this measure;
- (3) Providing insurers with more flexibility to deliver notice of the requirements of this measure to policyholders;
- (4) Requiring the notice to policyholders to be transmitted within calendar year 2014;
- (5) Requiring the adjustment of the maximum benefit for inflation to begin after December 31, 2015;
- (6) Requiring the Insurance Commissioner to hold public meetings pursuant to section 91-3(a), Hawaii Revised Statutes, before adjusting the maximum benefit;
- (7) Requiring copayment, deductible, and coinsurance provisions of the coverage to be no less favorable than those of "substantially all" other medical services;
- (8) Allowing general discretion to all insurers to determine when to request a review of the treatment;
- (9) Excluding accident-only, specified disease, hospital indemnity, qualified health plans as defined in Section 1301 of the Patient Protection and Affordable Care Act, Medicare supplement, disability income, long-term care, or other limited benefit hospital insurance policies from the mandatory autism spectrum disorder coverage requirements;
- (10) Removing references to the term "pervasive developmental disorder" and to diagnostic criteria described in the Diagnostic and Statistical Manual of Mental Disorders;
- (11) Requiring coverage for applied behavior analysis to include the services of the personnel who work under the supervision of the board certified behavior analyst or the licensed psychologist overseeing the program;
- (12) Amending the definition of "applied behavior analysis";
- (13) Adding a definition for "board certified behavior analyst";
- (14) Inserting a severability clause;
- (15) Inserting an effective date of July 1, 2014; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that board certified behavior analyst qualifications include at least a Master's degree from an accredited institution in behavior analysis or natural science, education, human services, engineering, medicine, or a field related to behavior analysis and approved by the Behavior Analyst Certification Board.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2054, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2054, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

Commerce and Consumer Protection  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 2247 Health on S.B. No. 2827**

The purpose and intent of this measure is to:

- (1) Establish the Office of Health Care Transformation within the State Health Planning and Development Agency;
- (2) Change the name of the State Health Planning and Development Agency to the Hawaii Health Care Planning and Policy Authority; and
- (3) Establish the health care transformation special fund.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Health, and Hawaii Medical Service Association. Your Committee received testimony in opposition to this measure from the Hawaii Health Authority, Community Alliance for Mental Health, and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the State's health care system needs a sustained transformation effort that addresses all facets of health care, including a renewed emphasis on quality and best practices, more care coordination, consumer engagement, a more diverse workforce, effective use of health-related data, and payment reforms. Your Committee further finds that creating a permanent state agency to facilitate health care transformation is needed to carry out the plan.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2827, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2827, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Chun Oakland). Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2248 Judiciary and Labor on S.B. No. 2704**

The purpose and intent of this measure is to amend the prevailing wage law to allow for payment of overtime compensation on public works contracts to exceed time and a half.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Plumbers and Fitters UA Local Union 675, and Hawaii Operating Engineers Industry Stabilization Fund.

Your Committee finds that overtime compensation for public works is based on one and one-half times the laborer's or mechanic's basic hourly rate of pay plus the cost to an employer of furnishing a laborer or mechanic with fringe benefits. This measure provides flexibility to the payment of overtime to allow overtime compensation to exceed time and a half.

According to the Department of Labor and Industrial Relations, this measure only affects contractors with collective bargaining agreements to pay their employees at more than time and a half for all hours worked over an eight-hour day, weekends, and holidays, if specified in the agreement. A non-union contractor would be under no obligation to pay more than the time and a half. In response to the disparity that would be caused by this measure between the rates for union and non-union contractors, the Department proposed amendments to your Committee.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Labor and Industrial Relations that establishes the rate for overtime compensation as the rate specified in a collective bargaining agreement if the basic hourly rate is based on such agreement, to create parity between a union contractor and non-union contractor; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2704, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2704, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 2249 Judiciary and Labor on S.B. No. 2368**

The purpose and intent of this measure is to codify a portion of the Model Protection of Charitable Assets Act to authorize the Attorney General to protect charitable assets, enforce the application of the charitable asset to prevent or remedy the misapplication, diversion, waste, or breach of duty in management of a charitable asset, and conduct investigations.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Commission to Promote Uniform Legislation.

Your Committee finds that this measure codifies section 3 of the Model Protection of Charitable Assets Act (Act). One of the major goals of the Act is to articulate the Attorney General's duty to represent the public interest in the protection of charitable assets. The Act declares and clarifies the scope of the Attorney General's duty to protect charitable assets but does not limit the authority or powers that already exist. The Department of the Attorney General testified that most of the other sections of the Act are already contained in chapters 28 and 467B, Hawaii Revised Statutes. Therefore, this measure codifies only one section of the Act.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2368 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 2250      Judiciary and Labor on S.B. No. 2813**

The purpose and intent of this measure is to allow the Employees' Retirement System to retain or dispose of real estate acquired by the Employees' Retirement System by foreclosure, in the enforcement of security, or in satisfaction of debts in the same manner as the System's other investments in interest in real property.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that existing law requires the Board of Trustees of the Employees' Retirement System to sell real estate acquired by foreclosure, in the enforcement of security, or in satisfaction of debts within five years after acquisition unless extended by the Governor. The Employees' Retirement System testified that there are no restrictions on the holding period for the other real estate investments of the System. This measure repeals the holding period for real estate acquired through foreclosure, enforcement of security, or in satisfaction of debts to allow the Board to make long-range plans for the affected property that are necessary for the prudent management of the real estate portfolio.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2813 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 2251      Judiciary and Labor on S.B. No. 2383**

The purpose and intent of this measure is to add the offense of unauthorized entry into motor vehicle in the first degree to the list of offenses for which repeat offenders are subject to mandatory minimum imprisonment sentencing.

Your Committee received testimony in support of this measure from seven individuals.

Your Committee finds that there are a number of neighborhoods that are experiencing an increase in motor vehicle break-ins. Although the offense of unauthorized entry into motor vehicle in the first degree is a class C felony, the penalty does not appear to be effective in serving as a deterrent to repeating this offense or other offenses. This measure will create a stronger deterrent by adding the offense of unauthorized entry into motor vehicle in the first degree to the law relating to mandatory minimum imprisonment sentencing for repeat offenders.

Your Committee has amended this measure by:

- (1) Moving the placement of sections 134-7, 134-8, 134-9, and 708-839.55, Hawaii Revised Statutes, to place the enumerated class C felonies in numerical order;
- (2) Deleting the reference to section 712-1203, Hawaii Revised Statutes, relating to promoting prostitution in the second degree from the list of enumerated class C felonies because this offense is a class B felony;
- (3) Deleting the reference to section 708-831, Hawaii Revised Statutes, relating to theft in the first degree as amended by Act 68, Session Laws of Hawaii 1981, from the list of enumerated class C felonies because this specific offense is no longer applicable under section 706-606.5(2)(e), Hawaii Revised Statutes, which applies the repeat offender mandatory minimum sentencing law when the instant felony offense was committed within five years after a prior felony conviction that was for a class C felony;
- (4) Making technical amendments to the titles of certain enumerated class C felonies to correct the titles or appropriately describe these offenses; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2383, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 2252      Judiciary and Labor on S.B. No. 2923**

The purpose and intent of this measure is to implement the recommendations of Auditor's Report No. 13-10 by:

- (1) Requiring the Director of Labor and Industrial Relations to update the workers' compensation medical fee schedule annually;

- (2) Authorizing the Director of Labor and Industrial Relations to establish a maximum allowable fee ceiling that is higher than one hundred ten percent of fees prescribed in the Medicare Resource Based Relative Value Scale (Medicare fee schedule) applicable for Hawaii;
- (3) Appropriating an unspecified amount for fiscal year 2014-2015 for two full-time equivalent positions for the Department of Labor and Industrial Relations;
- (4) Appropriating an unspecified amount for fiscal year 2014-2015 for the Department of Labor and Industrial Relations to contract for the performance of an analysis of the impact this measure will have on workers' compensation claimants' access to appropriate treatment; and
- (5) Establishing a sunset date of June 30, 2019.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Office of the Auditor; Hawaii Medical Association; International Longshore and Warehouse Union, Local 142; Work Injury Medical Association of Hawaii; Rainbow Family 808; and one individual. Testimony in opposition to this measure was submitted by the Hawaii Insurers Council, The Chamber of Commerce of Hawaii, and Property Casualty Insurers Association of America. Your Committee received comments on this measure from the Department of Human Resources Development; Department of Human Resources, City and County of Honolulu; and one individual.

Your Committee finds that the liability of an employer for medical care, services, and supplies is limited to charges up to one hundred ten percent of the federal Medicare fee schedule applicable to Hawaii. The Director of Labor and Industrial Relations uses the Medicare fee schedule to determine the charges for medical care and services in workers' compensation claims and is required to update the fee schedules at least once every three years. This fee adjustment has resulted in fewer and fewer physicians choosing to treat injured workers, especially on the neighbor islands.

Your Committee further finds that Act 97, Session Laws of Hawaii 2013, requested the Auditor to assist the Department of Labor and Industrial Relations to create a methodology to administratively adjust the State's workers' compensation medical fee schedule. The purpose of this methodology is to identify health care services for which fee adjustments are needed and provide injured employees with better access to treatment.

As a result, the Auditor made several recommendations under Auditor's Report No. 13-10 for the Department of Labor and Industrial Relations, including the adoption of a methodology that collects and analyzes transacted current procedural terminology code data and the establishment of a second maximum allowable fee ceiling that would only be applicable to Evaluation and Management (E/M) medical services that have been identified by stakeholders as applicable to workers' compensation cases. Furthermore, the Auditor proposed several actions for consideration by the Legislature, including empowering the Director of Labor and Industrial Relations to establish a maximum allowable fee ceiling for eligible E/M codes. This measure implements the recommendations made by the Auditor.

Your Committee notes that the Auditor clarified that the unspecified appropriation requested in this measure for the performance of an analysis of impact of this measure is intended to provide replacement funds if the funds previously appropriated under Act 97, Session Laws of Hawaii 2013, lapse prior to the effective date of this measure.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language suggested by the Auditor in response to the comments from the Department of Human Resources of the City and County of Honolulu, which moves the language authorizing the Director of Labor and Industrial Relations to establish a maximum allowable fee ceiling that is higher than one hundred ten percent of fees prescribed in the Medicare fee schedule to a more appropriate part of section 386-21(c), Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2923, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2923, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 2253 (Joint) Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 3054**

The purpose and intent of this measure is to require the Board of Directors of the High Technology Development Corporation to create a public safety technology park.

Your Committees received testimony in support of this measure from Castle & Cooke Hawaii. Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Housing Finance and Development Corporation, and High Technology Development Corporation.

Your Committees find that Hurricanes Katrina and Sandy are major teaching moments for the public safety community. The storms proved that when dealing with a natural hazard, we should expect the unexpected. Hazards of both hurricanes included inland flooding, high winds, and high waves – hazards Hawaii has and can continue to expect with future storm systems.

Your Committees further find that the State currently has facilities that are aging and located in inundation zones. Natural hazards, such as tsunamis, pose threats to these hubs. Recognizing the importance of accessibility and cost, the State needs to set forth a plan to

relocate public safety services located within and nearby inundation zones to a centralized non-inundation zone area. Additionally, a central public safety facility will provide direct access to highways and be in proximity to hospital and military services and assistance.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3054, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3054, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 6. Noes, none. Excused, 1 (English).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2254 Economic Development, Government Operations and Housing on S.B. No. 2079**

The purpose and intent of this measure is to:

- (1) Require film productions to comply with federal, state, and county laws and work with the Hawaii Film Office and any appropriate state or county agency if a film production takes place on state or county property, in order to be eligible for the motion pictures, digital media, and film production income tax credit; and
- (2) Prohibit unscripted or reality television programming from qualifying for the motion pictures, digital media, and film production income tax credit.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Department of Land and Natural Resources has dealt with film productions who have engaged in film production without proper permits, violating state laws and administrative rules. Promoting greater compliance with state laws and rules will serve to encourage closer collaboration between the Department of Land and Natural Resources, other regulatory agencies such as the State Film Office, and motion picture, digital media, and film production companies.

Your Committee has amended this measure by:

- (1) Deleting language that specifies certain types of laws with which the production must comply;
- (2) Inserting language that prohibits qualified production costs that have been financed with state funds from qualifying for motion pictures, digital media, and film production tax credits after July 1, 2014; and
- (3) Inserting language that prohibits soft-scripted television programming from qualifying for the motion pictures, digital media, and film production tax credit.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2079, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2255 Economic Development, Government Operations and Housing on S.B. No. 2277**

The purpose and intent of this measure is to:

- (1) Require a state agency that is required to report to the Legislature to provide written notice to the President of the Senate and Speaker of the House of Representatives in cases where it cannot meet the deadline;
- (2) Allow the Legislature to reduce a state agency's budget in cases where an appropriation was made to assist the state agency with the report and the agency fails to report to the Legislature on time or fails to provide proper notice that the agency cannot meet the reporting deadline; and
- (3) Require state agencies to provide the Legislature with a detailed list of any and all reports due one week prior to the reports' due date.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that state agencies are required to submit reports to the Legislature pursuant to relevant statutes, budget bill provisions, and other types of legislation. This measure holds agencies accountable for submitting these reports in a timely manner while assisting the Legislature in keeping track of reports, in part, by requiring prior notice if a state agency is unable to meet a reporting deadline.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2277 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2256 Economic Development, Government Operations and Housing on S.B. No. 2751**

The purpose and intent of this measure is to exempt the operation of concessions for wireless and communication services and for advertising from the public concession bidding process.

Your Committee received testimony in support of this measure from the Department of Transportation and Airport Concessionaires Committee. Your Committee received testimony in opposition to this measure from ShakaNet, Inc.

Your Committee finds that the rapid development of technology has altered the way in which advertising and sales are rendered. Similarly, communications technology evolves quickly to accommodate changing needs for connectivity and compatibility with personal hardware. As such, flexible procedures are needed within government contracts to ensure efficiency and best economic results.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2751, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2751, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2257 Economic Development, Government Operations and Housing on S.B. No. 2799**

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation Board of Directors to set the salary of the Hawaii Housing Finance and Development Corporation Executive Director.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation is the primary state agency charged with overseeing affordable housing finance and development in Hawaii. This is accomplished by working in partnership with residents, government agencies, financiers, and for-profit and non-profit developers.

Your Committee further finds that the Executive Director of the Hawaii Housing Finance and Development Corporation, who oversees several key affordable housing programs, including the low-income housing tax credit, rental housing trust fund, and Hula Mae single and multi-family revenue bond programs, has the lowest salary of all state housing finance agencies nationwide. Your Committee believes that allowing the Hawaii Housing Finance and Development Corporation Board of Directors to adequately compensate the Executive Director will enable the Hawaii Housing Finance and Development Corporation to attract and retain an individual that will lead agency staff toward fulfilling the mission of increasing and preserving the supply of workforce and affordable housing statewide.

Your Committee has amended this measure by inserting language to specify a salary cap of a blank amount for the Hawaii Housing Finance and Development Corporation Executive Director.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2799, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2799, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2258 Economic Development, Government Operations and Housing on S.B. No. 3082**

The purpose and intent of this measure is to establish an income tax credit for taxpayers who incur certain expenses for manufacturing products in Hawaii beginning after December 31, 2014.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; Hawaii Strategic Development Corporation; Hawaii Food Industry Association; Cut Collective; Hawaii Food Manufacturers Association; Green Ohana Recycling; The Chamber of Commerce of Hawaii; ALLISON IZU, LLC; KYD, Inc.; Oceanit; and three individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that a diversified economy and a business-friendly tax climate are key factors in keeping unemployment low. Allowing current manufacturers in the State to grow their businesses can open the door for even more production in Hawaii and reduce Hawaii's reliance on imported goods, which currently account for over ninety percent of the State's products. Importing less and producing more can have wide reaching, positive impacts for manufacturers and consumers.

Your Committee has amended this measure by:

- (1) Inserting language to specify that qualified manufacturer costs eligible for the tax credit proposed by this measure do not include any costs claimed under another income tax credit;
- (2) Clarifying that the distribution and share of the qualified manufacturing costs tax credit shall be determined by Section 704 of the Internal Revenue Code;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3082, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2259 (Joint) Economic Development, Government Operations and Housing and Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2436**

The purpose and intent of this measure is to establish the Transit-oriented Development Advisory Committee to make recommendations about sustainable development projects close to transit.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Honolulu Authority for Rapid Transportation, The Pacific Resource Partnership, and General Contractors Association of Hawaii. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the careful coordination of transit and development is critical, so that each can optimally enhance the other. Transit-oriented development presents an opportunity not only for “a project at a station”, but for a full-fledged transit-centered community. A transit corridor that offers an advantageous mix of uses can be used to integrate a number of separate activity nodes, particularly when the various uses are close together, are easily accessible, and support each other.

Your Committees have amended this measure by:

- (1) Amending the language to allow the Transit-Oriented Development Advisory Committee to select the chair of the committee;
- (2) Inserting language to require the Transit-Oriented Development Advisory Committee to take into consideration the City and County of Honolulu Department of Planning and Permitting’s neighborhood transit-oriented development plans; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing, Transportation and International Affairs, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2436, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2436, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Baker, Chun Oakland, Wakai).

Transportation and International Affairs  
Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Gabbard, Solomon).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

**SCRep. 2260 (Joint/Majority) Economic Development, Government Operations and Housing and Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2437**

The purpose and intent of this measure is to require all state agencies within one-half mile of proposed rail stations to enter into memoranda of understanding with each other and convene working groups that include representatives of the Honolulu Authority for Rapid Transportation to determine how the transit station will meet workforce housing demand and contribute to transit ridership and to identify emerging industry and industry growth opportunities.

Your Committees received testimony in support of this measure from the Stadium Authority, Honolulu Authority for Rapid Transportation, The Pacific Resource Partnership, General Contractors Association of Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committees received comments on this measure from the Department of Accounting and General Services and Department of Land and Natural Resources.

Your Committees find that the State owns significant amounts of land around the proposed rail transit stations in Honolulu. It is important that these surrounding lands are analyzed for the impact the transit stations will have on the various communities, particularly in areas of workforce and housing.

Your Committees have amended this measure by:

- (1) Inserting language to clarify that any memoranda of understanding established between state agencies pursuant to this measure is not in lieu of any regulatory function; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing, Transportation and International Affairs, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2437, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2437, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 3. Noes, 1 (Slom). Excused, 3 (Baker, Chun Oakland, Wakai).

Transportation and International Affairs  
Ayes, 6. Noes, 1 (Slom). Excused, 2 (Gabbard, Solomon).

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Green).

**SCRep. 2261 (Joint) Economic Development, Government Operations and Housing and Human Services on S.B. No. 2399**

The purpose and intent of this measure is to create a geriatric research and technology park under the High Technology Development Corporation.

Your Committees received testimony in support of this measure from the Community Alliance for Mental Health. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation and High Technology Development Corporation.

Your Committees find that since 2000, Hawaii's elderly population, those aged sixty-five and older, grew slightly faster than the national growth rate. Since statehood, Hawaii's proportion of elderly to total population has increased three-fold, from roughly five percent in 1960 to fifteen percent in 2012. During this same period, the elderly segment of the nation's population only increased from nine percent to fourteen percent.

Your Committees further find that Wahiawa provides one of the top senior care service programs. Aged to Perfection is an adult day care center that provides elders with social activities, meals, and general supervision. This program draws attention from interns from top universities across the country, including the University of Hawaii, University of Southern California, and University of Arizona. As such, a geriatric research and technology park can be planned and designed in central Oahu in consultation with various entities, such as the Aging and Disability Resource Center, Aged to Perfection Hawaii, and Hawaii Housing Finance and Development Corporation, to comply with the most current Wahiawa community town and master plan and Wahiawa urban design plan. Establishing an economic hub for the geriatric industry may attract new businesses and technologies to provide jobs for central Oahu communities, as well as products and services for neighboring geriatric facilities and programs.

Your Committees have amended this measure by:

- (1) Inserting language to require that the planning and design of the geriatric research and technology park comply with community and town master plans and urban design plans; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2399, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2399, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 4. Noes, none. Excused, 3 (Baker, English, Wakai).

Human Services  
Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

**SCRep. 2262 Economic Development, Government Operations and Housing on S.B. No. 2776**

The purpose and intent of this measure is to require the Board of Directors of the High Technology Development Corporation to establish a creative film and media park and designate certain properties to be included in the park.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i at West O'ahu; and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and High Technology Development Corporation.

Your Committee finds that the State's production resources and educational programs, including the ongoing development of the University of Hawai'i at West O'ahu and the Searider Productions program at Waianae High School, provide a genuine opportunity to foster a film production industry that benefits the State and the community. The influx of film companies has also reinvigorated this sector of the State's economy. If a geographic area is dedicated for a film and media park to promote growth in the business of

creative media and film, high school graduates who studied in programs such as the Searider Productions program would have an opportunity to obtain employment in their field within the State.

Your Committee further finds that a creative film and media park would attract international investments in film and media production that would enable the creation of facilities and employment and the development of workforce housing.

Your Committee has amended this measure by:

- (1) Inserting language to specify that any planning and designs of the park shall be coordinated with the University of Hawai'i at West O'ahu; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2776, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2776, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2263 (Joint/Majority) Economic Development, Government Operations and Housing and Water and Land on S.B. No. 3066**

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for the Public-Private Finance Initiative; and
- (2) Require the Public-Private Finance Initiative to initiate a pilot project.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and one individual. Your Committees received testimony in opposition to this measure from the League of Women Voters of Hawaii. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that these are difficult economic times for all levels of government, as public service demands for an increasing population put pressure on revenue resources. The State faces the challenge of balancing its budget while addressing escalating infrastructure and service needs. Due to insufficient funding and postponed maintenance, these daily demands continue to increase. Creating a partnership agency to collaborate with all state agencies and private sector entities may help deliver services and facilities more effectively.

Your Committees further find that public-private partnerships give governmental entities an additional tool to deliver infrastructure through the ability to finance the design and construction of a building with a private developer. According to stakeholders with public-private partnership experience in other countries, one of the most remarkable differences with public-private partnership government buildings is that "the buildings always look new". This demonstrates a notable advantage to public-private partnerships for government property owners, where maintenance and operations are contractually mandated and integrated.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3066, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3066, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 4; Ayes with Reservations (Slom). Noes, 1 (Thielen). Excused, 2 (Baker, Wakai).

Water and Land

Ayes, 6; Ayes with Reservations (Ruderman, Slom). Noes, 1 (Thielen). Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2264 Economic Development, Government Operations and Housing on S.B. No. 2510**

The purpose and intent of this measure is to establish a four-year irrigation water conservation best practices pilot program.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Department of Land and Natural Resources; Hawaii Chapter of the American Society of Landscape Architects; Hawai'i Farm Bureau Federation; Irrigation Hawaii, Ltd.; and one individual.

Your Committee finds that the pilot project will assist the State with water conservation by requiring the Department of Accounting and General Services to implement irrigation water conservation best practices, as established by the Landscape Industry Council of Hawaii, to improve the efficiency of landscape irrigation installments at state facilities through low cost, practical measures.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2510 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2265 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2938**

The purpose and intent of this measure is to create a more efficient firearms registration process for firearm owners and registration officials by requiring each county to establish an online firearms registration process, to be implemented by July 1, 2015.

Your Committee received testimony in support of this measure from the Hawaii Rifle Association; Babooze Bowstrings; and twenty-eight individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department; County of Hawaii Police Department; and seven individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the current firearms registration process is inefficient, requiring several visits to county police stations, wasting time and money. The establishment of an online firearms registration process will streamline the registration process. However, your Committee learned through testimony that this measure would create the need for a separate system and interface, as each county has its own individual system; require a stand-alone system for the Honolulu Police Department; and require funding.

Therefore, your Committee has amended this measure by:

- (1) Eliminating the requirement that each county establish an online firearms registration process;
- (2) Adding language to require the Department of the Attorney General, in collaboration with the county police departments, to establish a statewide online firearms registration process;
- (3) Adding language requiring the Department of the Attorney General and the county police departments to work together to create and implement a statewide online firearms registration process by July 1, 2015;
- (4) Appropriating funds to establish and implement a statewide online firearms registration system, to be expended by the Department of the Attorney General;
- (5) Changing the effective date to July 1, 2014; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2938, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2938, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 2266 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2882**

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes, to make it consistent with amendments to federal law on controlled substances, as required under chapter 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety and the Honolulu Police Department.

Your Committee finds that this measure is necessary to make Hawaii's Uniform Controlled Substance Act, chapter 329, Hawaii Revised Statutes, consistent with changes to federal law.

Your Committee has amended this measure by:

- (1) Inserting language to amend section 329-18, Hawaii Revised Statutes, by adding a new federally scheduled controlled substance to make that section consistent with amendments to federal law on controlled substances; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2882, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2882, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2267 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2644**

The purpose and intent of this measure is to protect the public health and safety of Puna residents through the appropriation of funds for a grant-in-aid to the Hawaii County Fire Department to add an emergency medical services unit equipped with advanced life support.

Your Committee received testimony in support of this measure from the Hawaii Fire Department of the County of Hawaii; United Public Workers AFSCME, Local 646, AFL-CIO; Kalani Oceanside Retreat; Puna Community Medical Center; Hawaii Sustainable Community Alliance; and fourteen individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that access to primary health care in Puna is challenging for the community, since many primary care services are as much as thirty miles away for many residents. As a result, many of Hawaii County Fire Department's medic units are occupied by or diverted to cover the Puna district, at times leaving Hilo without adequate emergency medical services. Over recent years, there has been an increase in 911 calls from the Puna district without a commensurate increase in emergency medical services

for the district. This measure appropriates funds for a grant-in-aid to the Hawaii County Fire Department to add an advanced life support ambulance/medic unit to serve the Puna district.

Your Committee has amended this measure by:

- (1) Clarifying that the funds appropriated are for an additional advanced life support ambulance/medic unit to serve the Puna district; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2644, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2644, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2268 (Joint) Public Safety, Intergovernmental and Military Affairs and Water and Land on S.B. No. 2590**

The purpose and intent of this measure is to prohibit state and county employees who are authorized to carry firearms from carrying a firearm while consuming alcohol or within an unspecified number of hours of consuming alcohol or after ingesting prescription medications that would impair judgment or physical response of the employees while carrying a firearm.

Your Committees received testimony in support of this measure from the Department of Public Safety; Department of Land and Natural Resources; and Hawaii Rifle Association. Your Committees received testimony in opposition to this measure from the Police Chiefs of Hawaii Association; Maui Police Department; and one individual. Your Committees received comments on this measure from the State of Hawaii Organization of Police Officers and one individual.

Your Committees find that the consumption of alcohol or certain prescription medications can impair the judgment and physical response of state or county employees who are authorized to carry a firearm, thereby decreasing public safety. However, there are occasions where state or county employees may be compelled to consume small amounts of alcohol or drugs to develop intelligence or evidence.

Your Committees have amended this measure accordingly by:

- (1) Adding language to create an exemption for state and county employees who are taking part in an official criminal surveillance or undercover operation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2590, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2590, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

Water and Land  
Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Dela Cruz, Shimabukuro, Taniguchi).

**SCRep. 2269 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2588**

The purpose and intent of this measure is to:

- (1) Create the offense of unsworn falsification to a law enforcement officer; and
- (2) Establish a penalty of not less than a misdemeanor.

Your Committee received testimony in support of this measure from the Honolulu Police Department and the Maui Police Department. Your Committee received testimony in opposition to this measure from Babooze Bowstrings and one individual.

Your Committee finds that when a person deliberately provides a false statement or document to a law enforcement officer during an investigation, these statements or documents cause delays in an investigation by diverting attention and resources from actual leads in the investigation to an individual having nothing to do with the crime, allowing the suspect to flee. Hawaii's penal code does not adequately address these types of situations. This measure will ensure that investigations are completed without undue delay due to intentionally false statements or documents intended to hinder the investigation.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2588, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2588, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 2270 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2526**

The purpose and intent of this measure is to require the identification of a central location for a permanent headquarters for the Sheriff Division by December 31, 2014.

Your Committee received testimony in support of this measure from the Department of Public Safety and one individual.

Your Committee finds that the Sheriff Division has never had a permanent or centrally located headquarters. A central, permanent headquarters for the Sheriff Division will enable the state sheriffs to carry out their duties to the best of their abilities when serving the health, safety, and welfare of all people in this State.

Your Committee has amended this measure by:

- (1) Changing the effective date to December 31, 2015, to allow for the selection of a central location for a Sheriff Division headquarters through a comprehensive examination of existing available structures, staff space requirements, and operational needs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2526, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2526, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Baker).

**SCRep. 2271 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2380**

The purpose and intent of this measure is to increase the number of qualified registered voters in Hawaii by requiring all applicants for a new or renewed driver's license, provisional license, instructional permit, or civil identification card, who are eligible to vote, to automatically be registered to vote.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the County Clerk Elections Division, County of Kauai; Office of the County Clerk, County of Maui; Common Cause Hawaii; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Customer Services of the City and County of Honolulu; and League of Women Voters.

Your Committee finds a need to establish a voter registration process that encourages qualified individuals to make the decision to register to vote. The National Voter Registration Act requires all motor vehicle driver's license applications to serve as applications of voter registration, unless the applicant fails to sign the voter registration application. Therefore, all driver's license and civil identification card applications incorporate an affidavit on application for voter registration. This measure will increase voter registration by streamlining the administrative processing of voter registration applications, while complying with the National Voter Registration Act.

Your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Require an affidavit on application for voter registration to be part of a civil identification card application and driver's license application;
- (2) Require a civil identification card or driver's license applicant to fill out the affidavit on application for voter registration unless the applicant clearly indicates that the applicant does not wish to register to vote;
- (3) Require the Examiner of Drivers to process driver's license and civil identification card applications only after the applicant either clearly indicates on the affidavit on application for voter registration that the applicant does not wish to register to vote or completes the affidavit;
- (4) Require the Examiner of Drivers to electronically transmit voter registration information to the county clerks within five days of the submittal of the affidavit;
- (5) Specify administrative requirements for the processing of the voter registration information;
- (6) Appropriate funds to the Department of Transportation to make the necessary changes to the Department's system and the statewide voter registration system to provide for the electronic transmission, receipt, and processing of voter registration information; and
- (7) Insert an effective date of July 1, 2014; provided that the opt-out voter registration provisions take effect on January 1, 2016.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2380, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2380, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2272 (Joint) Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs on S.B. No. 2301**

The purpose and intent of this measure is to increase the health and safety of the community and the State's first responders by:

- (1) Requiring shippers to notify the fire chief as to where fireworks shipments imported into the State or between counties are to be distributed;
- (2) Defining the term "redistribution" to clarify shipment notification requirements; and
- (3) Clarifying that labels on certain fireworks shall be at least nine square inches.

Your Committees received testimony in support of this measure from the State Fire Council, Honolulu Police Department, Hawaii County Fire Department, Maui County Fire Department, Kauai Fire Department, and one individual.

Your Committees find that transporting fireworks to, from, and within the State requires the use of multiple methods of interstate and intrastate transportation. It is essential to the health and safety of the community and the State's first responders that the importation of fireworks shipments be thoroughly accounted for and reported. Under the existing law, there are no notification requirements for those transporting fireworks. This measure is necessary to clarify shippers' responsibilities and notification requirements.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2301 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Transportation and International Affairs  
Ayes, 8. Noes, none. Excused, 1 (Gabbard).

**SCRep. 2273 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2147**

The purpose and intent of this measure is to create and implement the Silver Alert program to alert the public of any missing senior citizen with an impaired mental condition, to be operated concurrently with the MAILE/AMBER Alert program.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities and four individuals. Your Committee received testimony in opposition to this measure from the Department of Defense State Civil Defense Division and the Honolulu Police Department. Your Committee received comments on this measure from one individual.

Your Committee finds that there are senior citizens who are very vulnerable when they become disoriented and wander from their surroundings due to dementia, Alzheimer's disease, traumatic brain injury, or some other condition. The MAILE/AMBER Alert program has been effective in alerting the public of a missing child, and a Silver Alert program will similarly provide an operative means of alerting the public of a missing senior citizen.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2147, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2147, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2274 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2050**

The purpose and intent of this measure is to provide that owners of previously registered firearms in this State shall not be subject to the existing permit waiting period when seeking a permit for the acquisition of another firearm.

Your Committee received testimony in support of this measure from the Hawaii Rifle Association; National Rifle Association; Babooze Bowstrings; and forty-four individuals. Your Committee received testimony in opposition to this measure from the Honolulu Fire Department. Your Committee received comments on this measure from one individual.

Your Committee finds that subjecting owners of previously registered firearms to a waiting period when seeking a permit to obtain another firearm is unnecessary.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (2) Making a technical amendment to correct a formatting error.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2050, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2050, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Baker). Noes, none. Excused, none.

**SCRep. 2275 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2049**

The purpose and intent of this measure is to:

- (1) Require the owner of a dog that attacks certain animals or damages property while on the property without consent to be liable for injuries or destruction of the animals and the property; and
- (2) Exempt owners of certain animals that cause injuries or destruction of property while defending themselves against an attack by another dog.

Your Committee received testimony in support of this measure from the Pacific Pet Alliance and one individual. Your Committee received testimony in opposition to this measure from the Hawaiian Humane Society. Your Committee received comments on this measure from the American Kennel Club.

Your Committee finds that dog owners need to be responsible for their dogs' conduct. This measure will require the owner of an attacking dog to be liable for unprovoked injuries or destruction caused by the dog, including the injury or destruction of certain animals, on public or private property, without the consent of the owner.

Your Committee has amended this measure by:

- (1) Adding language that limits the applicability of section 142-74, Hawaii Revised Statutes, to dogs that attack without provocation; and
- (2) Clarifying that the exemption from section 142-74, Hawaii Revised Statutes, applies to owners of certain animals that cause injuries or destruction of property while defending themselves against an attack by another animal.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2049, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2049, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

**SCRep. 2276 (Joint) Energy and Environment and Water and Land on S.B. No. 2343**

The purpose and intent of this measure is to appropriate funds to the Hawaii Invasive Species Council for invasive species prevention, control, outreach, research, and planning.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Office of Planning, Maui Invasive Species Committee, Hawai'i Green Growth, Nature Conservancy, Hawaii Farm Bureau, Enterprise Honolulu, Sierra Club of Hawaii, and one individual.

Your Committees find that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is the single greatest threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. Immediate action is needed to mitigate the threats and impacts of invasive species.

Your Committees further find that pests already cause millions of dollars in crop losses, the extinction of native species, the destruction of native forests, and the spread of disease, but many more harmful pests now threaten to invade Hawaii and wreak further damage. For example, a 2010 study by Shwiff, et al., found that if brown tree snakes were introduced to Hawaii, the cost to the State in lost tourism, health costs, and damage to power infrastructure could total \$2,140,000,000 per year. Stopping the influx of new pests and containing their spread is essential to Hawaii's current and future well-being.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2343 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

Water and Land  
Ayes, 7. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 2277 Transportation and International Affairs on S.B. No. 2728**

The purpose and intent of this measure is to clarify that the Legislature has the authority to determine a public trail.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, Land Use Commission, Hawaii Trail and Mountain Club, and Monsanto. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs, Kaua'i County Council, Office of the County Clerk, Public Access Trails Hawaii, Kahea, Ho'okipa Network-Kaua'i, and sixty-three individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that The Highways Act of 1892 determined by statute which public rights-of-ways and trails are public highways. Furthermore, chapter 198D, Hawaii Revised Statutes, relating to the Hawaii Statewide Trail and Access System, establishes

the statutory framework within which appropriate access to trails is to be determined. It is the intent of your Committee to clarify the historical background and existing law on the process for determining appropriate trail use and management. It is not the intent of your Committee to interfere with or to change the existing statutory procedures under chapter 198D, Hawaii Revised Statutes, or to in any way diminish the authority of the Department of Land and Natural Resources in this regard. However, your Committee believes that this measure sheds light on disputes arising from public access to trails.

Your Committee has amended this measure by clarifying that the designation of a public trail shall be as provided by law.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2728, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2728, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Gabbard, Kahele). Noes, none. Excused, 3 (Espero, Kouchi, Solomon).

**SCRep. 2278 (Joint) Health and Human Services on S.B. No. 2853**

The purpose and intent of this measure is to:

- (1) Prohibit legal guardians, trustees, and relatives from continuing to care for individuals with intellectual or developmental disabilities in a certified foster home;
- (2) Define “related” as related by blood or marriage or having a legal relationship;
- (3) Permit minors with intellectual or developmental disabilities to age in place under certain conditions; and
- (4) Clarify that certified adult foster homes with dual certification shall not exceed a total of three individuals with intellectual or developmental disabilities.

Your Committees received testimony in support of this measure from the Department of Health and State Council on Developmental Disabilities. Your Committees received testimony in opposition to this measure from the Hawaii Disability Rights Center.

Your Committees find that this measure is necessary to clarify the requirements of certification of adult foster homes for individuals with intellectual or developmental disabilities. Your Committees further find that adding a definition of “related” provides much needed clarity for existing and potential certified caregivers in order to understand the requirements for certification. This measure permits a foster boarding home for minors with intellectual or developmental disabilities to be dually certified, which will enable individuals to age in place and remain in their home.

Your Committees have amended this measure by:

- (1) Inserting language to grandfather in all certified adult foster homes dually certified as foster boarding homes and in existence as of the effective date of this measure;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2853, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2853, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2279 (Joint) Health and Human Services on S.B. No. 2056**

The purpose and intent of this measure is to:

- (1) Amend Act 217, Session Laws of Hawaii 2012, as amended by Act 141, Session Laws of Hawaii 2013, to continue the hospital sustainability program by extending the sunset date of the Act;
- (2) Update the referral dates relating to the hospital sustainability program;
- (3) Revise the funding amount for the hospital sustainability program for fiscal year 2014-2015; and
- (4) Exempt the hospital sustainability program special fund from central services expenses assessed under section 36-27, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, The Queen’s Health Systems, The Chamber of Commerce of Hawaii, and Hawaii Pacific Health. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that health care provider reimbursements are declining at the federal and state levels, making it necessary for health care providers to find innovative ways to generate revenues to offset the decline in reimbursements. Your Committees further find that since the sustainability fee program was put into place, public hospitals have been able to fully utilize their certified public

expenditures to the maximum extent possible for their exclusive benefit as a means of continuing financing for their operating deficits. This measure ensures that any monies received in fees are only used to increase the sustainability of hospitals in Hawaii and to benefit Medicaid program recipients.

Your Committees have amended this measure by amending session law language to ensure that all necessary provisions related to the hospital sustainability program special fund, including provisions related to monies deposited into the fund, are extended to December 31, 2015.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2056, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2056, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2280 Higher Education on S.B. No. 2077**

The purpose and intent of this measure is to appropriate funds for renovation and equipment for a value-added food production and business incubation facility located in the former campus cafeteria kitchen of the University of Hawaii Maui College, known as the Maui Food Innovation Center.

Your Committee received testimony in support of this measure from the University of Hawaii Community Colleges; University of Hawaii Maui College; Hawaii Strategic Development Corporation; Hawaii Technology Development Corporation; Hawaii Food Manufacturers Association; Food Spectrum, LLC; Whole Foods Market; and two individuals.

Your Committee finds that the renovation and equipping of the Maui Food Innovation Center would improve the economic stability and capacity of farmers, ranchers, and fishermen; agricultural cooperatives; food entrepreneurs; existing small and midsized food companies; retail and food service establishments; Native Hawaiian cultural agriculture; and community food programs by providing access to research and development capabilities, food business planning, market research, quality assurance and food safety, product and process development, and other services not currently available in Maui County.

Your Committee further finds that the Maui Food Innovation Center will also build on the Maui Culinary Academy program at the University of Hawaii Maui College by providing faculty and students with opportunities for applied research, experiential learning, and workforce development and training within an expanding and evolving food industry.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2077 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2281 Higher Education on S.B. No. 2287**

The purpose and intent of this measure is to:

- (1) Repeal the requirement that a private college or university show that it maintains profitability as a means of demonstrating financial integrity to the Department of Commerce and Consumer Affairs at the time of its application for authorization; and
- (2) Repeal section 304A-3153, Hawaii Revised Statutes, relating to procedures for complaints to the University of Hawaii concerning institutions of higher learning in the State.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the University of Hawai'i System.

Your Committee finds that the Legislature passed Act 180, Session Laws of Hawaii 2013, identifying the Department of Commerce and Consumer Affairs as the state entity that would perform the regulatory functions of authorizing post-secondary institutions and handling complaints against such institutions. This measure will add greater clarity to what is required of private colleges and universities with regard to demonstrating financial integrity when applying for authorization and will minimize redundancy in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2287 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2282 Higher Education on S.B. No. 2489**

The purpose and intent of this measure is to:

- (1) Amend the composition of the Hawaii State Center for Nursing Advisory Board (Advisory Board) by decreasing the number of voting members on the Advisory Board to nine;

- (2) Amend the membership of the Advisory Board to better facilitate the Hawaii State Center for Nursing's mission;
- (3) Clarify term limits and appointments of members to the Advisory Board; and
- (4) Amend certain powers and duties of the Advisory Board.

Your Committee received testimony in support of this measure from the Hawaii State Center for Nursing; Prime Care Services Hawaii, Incorporated; and ten individuals. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that as the nursing profession transforms to meet a changing health care landscape, the ongoing process of developing a strategic plan requires the Hawaii State Center for Nursing to have an active, engaged Advisory Board with members capable of addressing workforce issues in a timely manner.

Your Committee further finds that the six labor organization positions on the Advisory Board have not been filled for many years. This has impeded the Advisory Board's ability to attain quorum for its monthly meetings and access relevant expertise. This situation has also prevented prospective candidates from sitting on the Advisory Board and sharing expertise in relevant areas such as nursing practice, research, education, administration, and financing care.

This measure will amend the composition of the Advisory Board to align itself more closely with other national nursing workforce centers and encourage collaboration of persons with the technical expertise, knowledge, and experience needed to assist the Hawaii State Center for Nursing fulfill its mission.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2489, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2489, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2283 Higher Education on S.B. No. 3092**

The purpose and intent of this measure is to appropriate funds for a program coordinator and technical support staff member to complete the necessary planning required for an international flight training center and associated aeronautical training programs at the University of Hawaii at Hilo and Hawaii Community College.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo, Hawai'i Community College, Office of the Mayor of the County of Hawai'i, County of Hawai'i Department of Research and Development, and eight individuals.

Your Committee finds that pursuant to Act 272, Session Laws of Hawaii 2013 (Act 272), \$100,000 was appropriated for fiscal year 2013-2014 for a program coordinator and technical support staff member for the potential establishment of an international flight training center and associated aeronautical training programs at the University of Hawaii at Hilo and Hawaii Community College.

The program coordinator and technical support staff member were tasked with determining the demand and financial viability of the proposed aeronautical programs. In addition, they were tasked with conducting the necessary planning and studies, as well as completing the draft authorization to plan, for the Chancellors of the University of Hawaii at Hilo and Hawaii Community College for the proposed aeronautical training programs.

Your Committee further finds that the draft authorization to plan has been completed and is ready for submittal to the University of Hawaii System Council of Chief Academic Officers, as well as the Board of Regents of the University of Hawaii.

This measure will provide continued support for the establishment of an international flight training center and associated aeronautical training programs at the University of Hawaii at Hilo and Hawaii Community College.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3092, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Kidani). Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2284 Higher Education on S.B. No. 2906**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to pay student employees at new or expanded worksites on each campus.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Associated Students of the University of Hawai'i at Manoa, and eight individuals.

Your Committee finds that hiring students at universities benefits both the students and the university. Hired students have the ability to earn income as they are learning from their jobs either on campus or off campus. Many campus programs are highly dependent on entry-level, as well as experienced and specialized, flexible staff. At the University of Hawaii, approximately four thousand students work an average of twelve hours per week while enrolled as full-time students. These student employees depend on

part-time work to help pay for tuition fees and educational and living expenses. This measure will appropriate funds to the University of Hawaii to pay student employees at new or expanded worksites on each campus.

Your Committee has amended this measure by inserting an appropriation amount of \$500,000.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2906, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2906, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2285 Higher Education on S.B. No. 2550**

The purpose and intent of this measure is to create a five-year pilot project at the Daniel K. Inouye College of Pharmacy at the University of Hawaii at Hilo to ensure the financial self-sufficiency of the College.

Your Committee received testimony in support of this measure from the Hawai'i Island Chamber of Commerce and five individuals. Your Committee received testimony in opposition to the measure from the Department of the Attorney General. Your Committee received comments on this measure from the University of Hawai'i System, Department of Budget and Finance, Daniel K. Inouye College of Pharmacy at the University of Hawaii at Hilo, Friends of the Daniel K. Inouye College of Pharmacy, and two individuals.

Your Committee finds that the Daniel K. Inouye College of Pharmacy at the University of Hawaii at Hilo (College of Pharmacy) should operate with financial and managerial autonomy from the University of Hawaii System. This measure allows for this autonomy by creating a five-year pilot program that requires a determination in 2018 of whether the College of Pharmacy should be continued based on whether it is able to fiscally sustain its operations.

Your Committee has amended this measure by:

- (1) Removing language creating the Board of Governors of the College of Pharmacy;
- (2) Adding language to clarify the University of Hawaii at Hilo College of Pharmacy special fund reporting requirements and allowing the University of Hawaii to report once a year rather than semi-annually;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2550, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2550, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Keith-Agaran, Kidani). Noes, none. Excused, 3 (Ige, Tokuda, Slom).

**SCRep. 2286 Higher Education on S.B. No. 2551**

The purpose and intent of this measure is to repeal the University of Hawaii tuition and fees special fund on July 1, 2014, and transfer the remaining unencumbered balance into the general fund.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the University of Hawai'i System, Associated Students of the University of Hawai'i at Manoa, and fifteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the University of Hawaii currently uses monies in the tuition and fees special fund for capital improvement projects that do not generate revenue. Your Committee finds that this is an inappropriate use of these funds and that this measure reflects your Committee's intent to restrict the use of these funds for this purpose.

Your Committee has amended this measure by:

- (1) Delaying the repeal of the University of Hawaii tuition and fees special fund and the transfer of the remaining unencumbered balance into the general fund until July 1, 2017, and June 30, 2017, respectively;
- (2) Inserting language that takes effect on July 1, 2014, to prohibit the University of Hawaii from using monies in the tuition and fees special fund for purposes related to university projects, university systems, or networks or any combination thereof, constructed or maintained through revenue bonds issued by the University of Hawaii; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2551, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2551, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Keith-Agaran, Kidani). Noes, none. Excused, 3 (Ige, Tokuda, Slom).

**SCRep. 2287 Higher Education on S.B. No. 2552**

The purpose and intent of this measure is to repeal the University of Hawaii's program budget execution exemptions.

Your Committee received testimony in opposition to this measure from the University of Hawai'i System. Your Committee received comments on this measure from the Department of the Attorney General and the Department of Budget and Finance.

Your Committee finds that laws concerning the budgetary process of state funds are laws of statewide concern.

Your Committee has amended this measure by:

- (1) Adding language to clarify that laws relating to the budgetary process involving state funds are laws of statewide concern; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2552, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2552, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 3 (Ige, Tokuda, Slom).

**SCRep. 2288 (Majority) Higher Education on S.B. No. 2555**

The purpose and intent of this measure is to repeal the University of Hawaii's authority to issue revenue bonds.

Your Committee received testimony in opposition to this measure from the University of Hawai'i System. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the University of Hawaii currently uses monies in the tuition and fees special fund as a revenue source for capital improvement projects that do not generate their own revenues. Your Committee disagrees with the use of these monies for that purpose.

Your Committee has amended this measure by:

- (1) Removing language repealing the University of Hawaii's authority to issue revenue bonds;
- (2) Inserting language prohibiting the University of Hawaii from using monies in the tuition and fees special fund for purposes related to university projects, university systems, or networks or any combination thereof, constructed or maintained through revenue bonds issued by the University of Hawaii; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2555, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2555, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Keith-Agaran). Noes, 1 (Kidani). Excused, 3 (Ige, Tokuda, Slom).

**SCRep. 2289 (Joint) Higher Education and Water and Land on S.B. No. 2907**

The purpose and intent of this measure is to transfer certain undeveloped land previously planned for use for the University of Hawaii West Oahu from the University of Hawaii to the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committees received testimony in opposition to this measure from the University of Hawaii.

Your Committees find that in 1999, 991 acres of land were transferred by the State to the University of Hawaii for its planned West Oahu campus. As these parcels of land have not been developed and the University of Hawaii does not have a plan in place to develop these parcels, your Committees believe ownership should be transferred to the Department of Land and Natural Resources.

Your Committees have amended this measure by:

- (1) Inserting the tax map key numbers to properly identify the specific parcels to be transferred from the University of Hawaii to the Department of Land and Natural Resources;
- (2) Clarifying that the fee title ownership of the specific parcels, rather than the custody and control, shall be transferred from the University of Hawaii to the Department of Land and Natural Resources; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2907, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2907, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2290 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2391**

The purpose and intent of this measure is to establish a two-year pilot project to resolve user conflicts on public recreational lands by convening one working group within each county to identify and implement management strategies through the execution of a written agreement between interested parties, and to make an appropriation for the pilot project.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committees find that more than eight million people visited Hawaii in 2013, and the Hawaii Tourism Authority has projected that there will be nearly nine million visitors in 2014. The United Nations World Tourism Organization further projects a fifty percent increase in global tourism by 2020. Moreover, a more active visitor population combined with the use of social media by visitors and the tourism industry will likely result in greater numbers of people exploring a wider variety of the State's public lands for recreational purposes.

Your Committees believe that as Hawaii's population and visitor base have grown, there have been more conflicts over public recreational resources. The informal agreements that were used in the past to resolve these conflicts are no longer working. In many places across our islands, these conflicts have existed for years without resolution. The shared jurisdiction over these public lands often stymies solutions. Conflicts in a small coastal area may span a county park, state unencumbered beach land, aquatic resources, a historic site, and a county road accessed off a state highway. No single agency, or division of an agency, is able to resolve such conflicts on its own.

A working group would facilitate the identification of recreational land management solutions that are better suited for the unique challenges faced in the various sites that are currently the subject of user conflicts.

Your Committees have amended this measure by:

- (1) Scaling down the pilot project to one project, through one working group, on the island of Oahu only;
- (2) Providing that the two at-large community representatives of the working group be invited by the Governor;
- (3) Deleting the appropriation; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2391, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2391, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2291 (Joint) Water and Land and Judiciary and Labor on S.B. No. 2876**

The purpose and intent of this measure is to propose a constitutional amendment to authorize the State to issue special purpose revenue bonds and use the proceeds from the bonds to assist dam and reservoir owners.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Farm Bureau, Land Use Research Foundation, Department of Budget and Finance, and Alexander & Baldwin, Inc. Your Committees received comments on this measure from Hamakua County Farm Bureau.

Your Committees find that the implementation of the Dam and Reservoir Safety Act of 2007, codified as chapter 179D, part II, Hawaii Revised Statutes, mandates dam and reservoir owners to bring their dams and reservoirs into compliance. Over eighty percent of the dams in Hawaii were constructed before 1940 to support the sugarcane plantations. Due to the age of these facilities and deferred maintenance due to demise of the sugar industry, without needed safety improvements, many dams could pose risks to life and property when they fail. Depending on the extent of the required improvements, some dam and reservoir owners may not have the resources to fund these improvements.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2876, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2876, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 2292 (Joint) Water and Land and Judiciary and Labor on S.B. No. 3097**

The purpose and intent of this measure is to allow a prevailing private party plaintiff seeking injunctive relief against a defendant for any violation of the historic preservation laws or administrative rules adopted pursuant to those laws to recover reasonable attorney's fees and litigation costs from the defendant, including the state and counties.

Your Committees received testimony in support of this measure from the Historic Hawai'i Foundation. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that in cases where the State does not enforce historic preservation laws, it falls to private parties to seek protection for historic and cultural resources and redress for any injury inflicted on them. The appropriate method to address these violations and injuries is through the courts; however, bringing a claim, restraining order, or petition for injunctive relief can be very costly. Attorney's fees and litigation costs serve as a barrier to access the courts and so become a hindrance in seeking justice. This measure addresses this issue by providing a mechanism by which successful plaintiffs may recover fees and costs when seeking to ensure that historic preservation laws are followed.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3097, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3097, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

**SCRep. 2293 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2116**

The purpose and intent of this measure is to make permanent the liability exception for county lifeguards for damages caused by dangerous natural conditions when certain warning signs are posted.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of the Attorney General, Department of the Corporation Counsel of the City and County of Honolulu, Department of Emergency Services of the City and County of Honolulu, Mayor of the County of Maui, Mayor of the County of Kauai, Mayor of the County of Hawai'i, Kaua'i Fire Department, Hawai'i Fire Department, County of Maui Department of Fire and Public Safety, Hawaii State Fire Council, Honolulu Fire Department, Hawaiian Lifeguard Association, Kaua'i Chamber of Commerce, Kauai Lifeguard Association, Hawaii Government Employees Association, and eight individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committees find that since the passage of legislation in the form of Act 82, Sessions Laws of Hawaii 2003 (Act 82), and in the ensuing eleven years, the Department of Land and Natural Resources has initiated a comprehensive sign program that is deployed statewide in public recreational areas associated with parks and wilderness trails. These actions have resulted in a variety of critical outcomes and now institutionalized management practices. The public has become accustomed to seeing the uniform, standard signs warning of potential exposure to hazardous natural conditions at managed trailheads and park entrances, in addition to at the actual point of exposure.

This sign program strikes the balance between the government's duty to warn and the public's responsibility to heed that warning and make an informed choice, before engaging in recreational activity.

Your Committees have amended this measure by:

- (1) On the recommendation of the Attorney General, deleting its contents and inserting the contents of S.B. No. 1007, S.D. 2, Proposed H.D. 1 (Regular Session of 2014), which makes Act 82 permanent and additionally extends the conclusive presumption of signage as legally adequate warning of dangerous non-natural conditions on unimproved public lands;
- (2) Changing the effective date to June 29, 2014; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2116, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2116, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Shimabukuro, Taniguchi).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2294 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2108**

The purpose and intent of this measure is to make permanent the civil liability protection for government agencies regarding their duty to warn of dangers on improved public lands and for county lifeguards.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of the Attorney General, Department of the Corporation Counsel of the City and County of Honolulu, Department of Emergency Services of the City and County of Honolulu, Mayor of the County of Maui, Mayor of the County of Kauai, Mayor of the County of Hawai'i, Kaua'i Fire Department, Hawai'i Fire Department, County of Maui Department of Fire and Public Safety, Hawaii State Fire Council, Honolulu Fire Department, Hawaiian Lifeguard Association, Kaua'i Chamber of Commerce, Kauai Lifeguard Association, Hawaii Government Employees Association, and eight individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committees find that since the passage of legislation in the form of Act 82, Session Laws of Hawaii 2003 (Act 82), and in the ensuing eleven years, the Department of Land and Natural Resources has initiated a comprehensive sign program that is deployed statewide in public recreational areas associated with parks and wilderness trails. These actions have resulted in a variety of critical outcomes and now institutionalized management practices. The public has become accustomed to seeing the uniform, standard signs warning of potential exposure to hazardous natural conditions at managed trailheads and park entrances, in addition to at the actual point of exposure.

This sign program strikes the balance between the government's duty to warn and the public's responsibility to heed that warning and make an informed choice, before engaging in recreational activity.

Act 170, Session Laws of Hawaii 2002, provides liability protection for counties and county lifeguards while providing rescue, resuscitative, or other lifeguard services. Your Committees find that the State does not have lifeguards but contracts with the counties for lifeguard services at its state parks. Liability concerns had prevented some counties from participating. Act 170 cleared up these concerns and allowed the State to contract with all counties for lifeguard services at state beach parks. If Act 170 is allowed to sunset, the risk is that counties may pull out of the program.

Your Committees have amended this measure by:

- (1) On the recommendation of the Attorney General, deleting its contents and inserting the contents of S.B. No. 1007, S.D. 2, Proposed H.D. 1 (Regular Session of 2014), which makes Act 82 permanent and additionally extends the conclusive presumption of signage as legally adequate warning of dangerous non-natural conditions on unimproved public lands; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2108, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2108, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2296 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 2124**

The purpose and intent of this measure is to rehabilitate the natural populations of all Hawaiian opihi species and establish a new direction for the management of the fishery.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Aha Moku Advisory Committee, Nature Conservancy, Association of Hawaiian Civic Clubs, and twelve individuals. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from one individual.

Your Committees find that in the past century, there was a ten-fold decline in the amount of opihi available in markets, and the average amount of opihi has further been halved in the past forty years. The people of Hawaii, opihi harvesters, university scientists, and marine resource managers agree that the popularity of opihi as a delicacy has led to overharvesting statewide and the decline of natural populations. Notably, the island of Oahu has been hit especially hard, where *Cellana exarata* and *Cellana sandwicensis* are rare, and *Cellana talcosa* is functionally absent.

The key to increasing the sustainable harvest of opihi populations is protecting a portion of the populations so that they may reproduce and create the next generation. Fisheries replenishment and management areas are promising management tools to protect breeding populations, while allowing harvest in unprotected areas.

Your Committees' intent is to increase long-term standing-stock opihi abundance, as well as the amount of opihi available for consumption or use by the people of Hawaii.

Your Committees have amended this measure by:

- (1) Deleting the possession of an instrument for harvesting or taking opihi as one of three objects that if possessed simultaneously would constitute unlawful activity pursuant to this measure;
- (2) Clarifying that any person may take or harvest opihi from coastal areas or nearshore waters of the State from June 1 to August 30 and from December 1 through January 31; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2124, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2124, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Shimabukuro, Thielen, Slom).

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2297 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 2743**

The purpose and intent of this measure is to utilize a portion of state conveyance tax revenue to replenish the Kaho'olawe rehabilitation trust fund to be used for the long-term rehabilitation and maintenance of the Kaho'olawe island reserve.

Your Committees received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, County of Maui Department of Planning, Office of Hawaiian Affairs, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Protect Kaho'olawe Ohana, and twelve individuals. Your Committees received comments from the Tax Foundation of Hawaii and one individual.

Your Committees find that the Kaho'olawe Island Reserve Commission is funded predominantly by a trust fund created in 1994 during the federal unexploded ordnance cleanup of Kaho'olawe. Though considerable, the federal appropriation totaling approximately \$44,000,000 over a period of several years was not substantial enough to establish a sustainable endowment for the long-term restoration of Kaho'olawe. In the past ten years, the Kaho'olawe Island Reserve Commission has been able to develop innovative restoration projects in the extremely harsh conditions of Kaho'olawe that will serve as the foundation for the future restoration of the reserve.

In 2013, the Kaho'olawe Island Reserve Commission embarked on the development of a 2026 strategic plan for Kaho'olawe, marking fifty years of occupation of Kaho'olawe by the people of Hawaii. This strategic plan will address the future restoration, management, and uses of Kaho'olawe for the State, the people of Hawaii, and possibly a future sovereign Native Hawaiian entity.

Auditor's Report No. 13-06, Audit of the Kaho'olawe Rehabilitation Trust Fund, reported that the trust fund will be depleted by 2016. Your Committees find it necessary to utilize a portion of state conveyance tax revenue to replenish the Kaho'olawe rehabilitation trust fund to be used for the long-term rehabilitation and maintenance of the island reserve.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2743, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2743, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, 4 (Dela Cruz, Shimabukuro, Thielen, Slom).

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2298 (Joint) Water and Land and Energy and Environment on S.B. No. 2664**

The purpose and intent of this measure is to promote renewable energy in Hawaii by:

- (1) Providing that all penalties, fees, and costs established and collected by the Department of Land and Natural Resources shall be deposited in the special land and development fund;
- (2) Including geothermal resources within the definition of a renewable energy producer; and
- (3) Clarifying the permitting procedures for regulators and renewable energy developers considering geothermal development.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Indigenous Consultants, LLC; and Waimanalo Hawaiian Homes Association.

Existing statutes do not classify geothermal resources as part of the definition of "renewable energy producer". Your Committees find that adding this designation would provide greater equity between geothermal resources and other renewable energy sources such as wind, solar, hydropower, or biomass. Existing statutes pertaining to the regulation and management of mineral resources need updates to provide clarity and reduce ambiguities. The identification and elimination of conflicts in statutory language and procedures would reduce barriers and eliminate ambiguities that could pose potential delays to geothermal exploration and development and facilitate the disposition and regulation of the use and management of mineral resources. Such clarification and updates will assist the Department of Land and Natural Resources in working toward meeting goals of the Hawaii Clean Energy Initiative.

Your Committees have amended this measure by:

- (1) Deleting the amendment to the definition of "geothermal resources" on the recommendation of Indigenous Consultants, LLC, which stated in testimony that the existing definition provides for the use of steam or direct agricultural uses such as hot house and aquaponic applications that do not generate electricity or draw out geothermal water or brine; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2664, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2664, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 7; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Taniguchi, Slom).

Ayes, 3; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2299 (Joint) Water and Land and Higher Education on S.B. No. 2676**

The purpose and intent of this measure is to repeal the exemption from legislative approval for sales of non-ceded lands conveyed to the University of Hawaii after December 31, 1989, to which the University of Hawaii holds title.

Your Committees received testimony in opposition to this measure from the University of Hawaii System.

Your Committees find that the intent of Act 56, Session Laws of Hawaii 2010, which enacted the amendment to section 171-64.7(b), Hawaii Revised Statutes, being repealed by this measure, was for the exemption to apply only to the West Oahu campus as evidenced by the language of Senate Standing Committee Report No. 2975, Regular Session of 2010, on H.B. No. 2561, S.D. 1, which reads, in part:

"Your Committees find that the Campbell Estate gifted non-ceded lands to the University of Hawaii for the specific purpose of building the West Oahu campus, with the condition that construction begin by December 31, 2011 or the land

reverts to the Campbell Estate. Portions of the gifted land surrounding the proposed campus are to be sold to expedite the financing of the construction of the new campus, however, the legislative approval process may cause delays in these sales thus resulting in the condition not being met.”

According to testimony of the University of Hawaii System on this measure:

“The University’s current focus is on ground leasing opportunities of its lands surrounding the West O’ahu campus. The University may consider other options that may include land sales with the intent that the proceeds would be applied against outstanding revenue bonds or loans, resulting in reducing its current debt service obligations within UH West Oahu’s operating budget.

Should the University be required to obtain the Legislature’s approval, the timely closing of any land transaction may be jeopardized, especially when the Legislature is in recess.”

Your Committees believe that the University of Hawaii should be subject to the same legislative approval process when disposing of state lands as the Department of Land and Natural Resources, which also has occasion to expedite the transfer of state land.

Your Committees have amended this measure by adding the provisions of S.B. No. 2553, Regular Session of 2014, as conforming amendments to require legislative approval for the sale or gifting of the subject lands by the University of Hawaii.

As affirmed by the records of votes of the members of your Committees on Water and Land and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2676, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2676, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2300 Water and Land on S.B. No. 2511**

The purpose and intent of this measure is to make an appropriation for the establishment of a watershed initiatives program within the Department of Land and Natural Resources to plan, monitor, and execute watershed initiatives.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from The Nature Conservancy.

Your Committee finds that forests are essential to providing water at affordable rates. Hawaii’s native forests absorb moisture from rainfall and passing clouds that condense on the thick vegetation and can increase groundwater supply by up to fifty percent. However, over half of these forests have already been lost to invasive species, causing extensive water loss across landscapes. Your Committee believes that our forests are an enormous economic asset that unfortunately continues to degrade at an increasing pace.

The Department of Land and Natural Resources leverages funding and capacity by partnering with other land managers and agencies to protect priority watershed forests across county, state, federal, and private lands. This is made possible by supporting projects implemented by organizations such as the eleven statewide watershed partnerships and the invasive species committees that work across landowner boundaries. This model has provided the Department flexibility to most effectively afford landscape-level watershed protection, in addition to supporting projects implemented by civil service employees on state land.

Your Committee finds that funding under this measure would support the Department’s “The Rain Follows the Forest Watershed Initiative” to implement on-the-ground actions needed to stabilize Hawaii’s water sources. The initiative seeks to double the acreage of protected watershed forests by 2021.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

**SCRep. 2301 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 2125**

The purpose and intent of this measure is to prohibit a person from taking, attempting to take, or possessing aquatic life in state marine waters, within two miles of the shoreline of an island with a total population between one hundred and five hundred individuals, and to prohibit a person from engaging in fish feeding in state marine waters, within two miles of the shoreline of the island.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Aha Moku Advisory Committee; Association of Hawaiian Civic Clubs; Hawaii Fishermen’s Alliance for Conservation and Tradition, Inc.; and sixty-four individuals. Your Committees received testimony in opposition to this measure from five individuals. Your Committees received comments from the Office of Hawaiian Affairs and two individuals. Your Committees wish to note for the record the presence at the hearing on this measure of approximately twenty-five Ni’ihau residents who testified in Hawaiian and English in support and sang a Hawaiian chant.

Your Committees find that Hawaii’s fisheries have historically provided a critical source of physical, cultural, and spiritual sustenance for the inhabitants of the Hawaiian islands. Prior to Western contact, these fisheries were sustainably harvested for

centuries through traditional Hawaiian management strategies of strict, place-based kapu and community-based stewardship of the ocean and its resources.

The relatively recent application of Western economic and environmental philosophies, including the commercialization of fishery stocks and the disruption of ecological cycles through land development, stream diversions, pollution, overfishing, and irresponsible fishing practices, has contributed to a substantial and ongoing decline in the health of our nearshore ocean environment. However, cultural kīpuka continue to exist within Hawaii's relatively isolated rural areas where communities maintain traditional lifestyles, values, and a reliance on nearshore fisheries and other natural resources. The island of Ni'ihau is one such kīpuka. However, visitors from outside the Ni'ihau community are capable of traveling great distances in the pursuit of fish and seek to exploit the abundant resources of Ni'ihau for commercial or other purposes.

Your Committees find that Ni'ihau residents practice traditional Native Hawaiian fishing using throw nets and spears in contrast to modern fishing practices using high speed motor boats, scuba gear, and global positioning systems. Ni'ihau is perhaps the last bastion in the State of native Hawaiian fishing practices. Your Committees believe that it is important to preserve and perpetuate Native Hawaiian cultural practices that go back for hundreds of years and many generations.

Your Committees find that the people of Ni'ihau are in many ways the victim of modernization. They do not seek this measure for their own advantage. The people of Ni'ihau are not engaged in commercial fishing ventures and do not seek their own economic gain through this measure. They do seek to preserve their way of life, including subsistence fishing. Your Committees further find that the fish stocks around Ni'ihau are dwindling, which threatens the food supply for people who practice subsistence fishing. This measure is pivotal to preserving and perpetuating fish stocks and more than one thousand years of old Ni'ihau seashore culture.

Your Committees have amended this measure by:

- (1) Applying the prohibitions under this measure to any island with a total population of less than five hundred individuals; and
- (2) Inserting language to additionally prohibit any person, except an individual currently domiciled on the island or accompanied by an individual currently domiciled on the island, from operating a tour boat, vessel, or jet ski, or riding a surfboard, kayak, zodiac, or other pleasure or recreational craft on the island.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2125, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2125, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2302 (Joint) Hawaiian Affairs and Technology and the Arts on S.B. No. 317**

The purpose and intent of this measure is to re-designate the second Monday of October from "Discoverers' Day" to "Indigenous Peoples' Day."

Your Committees received testimony in support of this measure from the Association of Hawaiian Civic Clubs, University of Hawaii at Manoa's Department of Ethnic Studies, and five individuals.

Your Committees find that the State should celebrate Polynesian voyagers who truly founded the Hawaiian islands, rather than the European discoverers who subjected the islands to colonization, exploitation, and human rights violations. Therefore, your Committees conclude that the second Monday in October shall be known as "Indigenous Peoples' Day," rather than "Discoverers' Day," to celebrate and honor the Native Hawaiians who originally inhabited the Hawaiian islands and survived the indignities of European "discovery".

Your Committees have amended this measure by:

- (1) Clarifying that Indigenous Peoples' Day shall be in recognition of the Polynesian founders, rather than discoverers, of the Hawaiian islands;
- (2) Clarifying that Indigenous Peoples' Day shall be in recognition of the countless indigenous peoples who perished worldwide as a result of confrontations between indigenous peoples and Europeans, along with the survival of their descendants; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 317, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 317, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts

Ayes, 3; Ayes with Reservations (Ihara). Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2303 Education on S.B. No. 2137**

The purpose and intent of this measure is to clarify the maximum number of consecutive terms that members of the Board of Education may serve.

Your Committee did not receive any testimony on this measure.

Your Committee finds that this measure clarifies that the terms of the members of the Board of Education are governed by section 302A-123, Hawaii Revised Statutes (HRS), rather than section 26-34, HRS.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2137 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ruderman).

**SCRep. 2304 (Majority) Health on S.C.R. No. 3**

The purpose and intent of this measure is to urge the Department of Taxation to amend the hearing examination section of Form N-172 to include individuals with Meniere's disease.

Your Committee received testimony in opposition to this measure from the Department of Taxation.

Your Committee finds that in order to apply for a state income tax deduction for deaf persons, individuals with impaired hearing must have a licensed medical professional certify their impairment using Form N-172, Claim for Tax Exemption by Person with Impaired Sight or Hearing or by Totally Disabled Person and Physician's Certification. Your Committee further finds that the current method of determining the level of hearing impairment does not take into account individuals with hearing that is distorted due to Meniere's disease because their hearing threshold for any given frequency may be well within the criteria on Form N-172.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 3 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 2305 (Majority) Health on S.R. No. 4**

The purpose and intent of this measure is to urge the Department of Taxation to amend the hearing examination section of Form N-172 to include individuals with Meniere's disease.

Your Committee received testimony in opposition to this measure from the Department of Taxation.

Your Committee finds that in order to apply for a state income tax deduction for deaf persons, individuals with impaired hearing must have a licensed medical professional certify their impairment using Form N-172, Claim for Tax Exemption by Person with Impaired Sight or Hearing or by Totally Disabled Person and Physician's Certification. Your Committee further finds that the current method of determining the level of hearing impairment does not take into account individuals with hearing that is distorted due to Meniere's disease because their hearing threshold for any given frequency may be well within the criteria on Form N-172.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 4 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 2306 Health on S.B. No. 2035**

The purpose and intent of this measure is to:

- (1) Replace the position of Executive Director of the Hawaii Health Authority with a Chair position; and
- (2) Appropriate funds for operating expenses of the Authority.

Your Committee received testimony in support of this measure from four individuals.

Your Committee finds that the Hawaii Health Authority is responsible for overall health planning for the State. Your Committee further finds that a \$300,000 appropriation will support the mission of the Hawaii Health Authority to provide universal health care to Hawaii's citizens and enhance Hawaii's health care delivery system.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2035, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2035, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Baker, Slom). Noes, none. Excused, 1 (Nishihara).

**SCRep. 2307 (Joint) Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 2832**

The purpose and intent of this measure is to:

- (1) Allow the High Technology Development Corporation to provide grants up to fifty percent of the amount of the federal award or contract to any business in Hawaii that receives federal small business innovation research Phase II or III awards or contracts; and
- (2) Increase the ceiling on any single transfer of funds from the Hawaii capital loan revolving fund from \$100,000 to \$500,000.

Your Committees received testimony in support of this measure from the Office of the Governor, High Technology Development Corporation, Oceanit, The Chamber of Commerce of Hawaii, TeraSys Technologies, and Spectrum Photonics, Inc.

Your Committees find that the technology industry in Hawaii has grown over the past ten years and has made strides toward diversifying Hawaii's economy. Companies that are developing cutting edge technologies rely on federal support through the Small Business Innovation Research Grant program, which encourages and funds early stage ideas and innovations. Great ideas emerge from this early stage funding, and these ideas and technologies are vetted and entered into competitions at a national level. However, with the level of funding that is provided in a small business innovation research Phase I grant, there is barely enough money to demonstrate proof-of-concept for a technology. Follow-up funding is essential to move the technology toward prototyping, customer interface, and development.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2832, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2832, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 6. Noes, none. Excused, 1 (Baker).

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2308 Education on S.B. No. 2331**

The purpose and intent of this measure is to:

- (1) Define the term "license" to clarify that teacher licenses are issued by the Hawaii Teacher Standards Board;
- (2) Repeal the authority of employers or prospective employers to refuse to issue a teaching or other educational certificate or revoke a teaching or other educational certificate from certain persons under certain conditions;
- (3) Make clarifying amendments to the membership requirements of the Hawaii Teacher Standards Board;
- (4) Clarify that charter schools fall under the purview of the Hawaii Teacher Standards Board; and
- (5) Make housekeeping and other conforming amendments related to the Hawaii Teacher Standards Board.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Teacher Standards Board, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the State Public Charter School Commission.

Your Committee finds that this measure clarifies the membership of the Hawaii Teacher Standards Board to make it clear that all interested constituent groups may submit nominations for the Governor's consideration. This will help ensure representation from diverse groups in Hawaii's educational system, diverse populations, and various geographic areas.

Your Committee further finds that this measure clearly articulates and reinforces that charter schools fall under the purview of the Hawaii Teacher Standards Board. However, as this measure moves forward, your Committee notes that clarification may be needed on the roles and responsibilities of the State Public Charter School Commission and the individual charter schools as they relate to teachers.

Your Committee has amended this measure by:

- (1) Adding language to clarify that an employer or respective employer may refuse to issue and may revoke a certificate for school administrators under certain conditions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2331, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2331, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2309 Education on S.B. No. 3083**

The purpose and intent of this measure is to appropriate funds for and authorize additional full-time equivalent permanent or temporary positions for the Department of Education's school athletics program.

Your Committee received testimony in support of this measure from the Department of Education; United Public Workers, AFSCME, Local 646, AFL-CIO; ILWU Local 142; Athletic Directors and Coaches Association of Hawaii; Pūlama Lāna'i; Hawaii State Teachers Association; and twenty-five individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that as a result of the recession of 2008, the Department of Education's school athletics program suffered serious cut backs in funding and positions. School athletics is an important part of many public school children's lives and teaches teamwork, sportsmanship, and commitment. This measure will help restore resources to the Department of Education's school athletics program.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Education is authorized to create, fill, and fund additional coaching and assistant coaching positions, rather than full-time equivalent permanent or temporary positions; and
- (2) Inserting an appropriation amount of \$2,000,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3083, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3083, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2310 Education on S.B. No. 2763**

The purpose and intent of this measure is to require the Board of Education to allow public testimony on items not on a public meeting agenda if certain requirements are met.

Your Committee received testimony in support of this measure from the Special Education Advisory Council, Community Children's Council, Americans for Democratic Action, League of Women Voters, Hawaii State Teachers Association, and fourteen individuals. Your Committee received comments on this measure from the Board of Education and the Office of Information Practices.

Your Committee finds that the Office of Information Practices raised several concerns with this measure. First, while the Board of Education may allow testimony on items that are not on its meeting agenda, members of the Board of Education may not engage in any discussion of issues raised during this type of testimony without violating the Sunshine Law, chapter 92, Hawaii Revised Statutes. In addition, if public testimony is allowed on items that are not on a meeting agenda, other interested parties may not be present at the board meeting to hear what others have to say about a particular issue and will not be able to share their own views because they did not have any notice that a particular issue would be raised.

Your Committee further finds that the Board of Education's community meetings may be a more appropriate venue for people to voice their opinions and concerns on a number of issues that may not be on the Board of Education's meeting agendas. Your Committee notes that while existing law requires the Board of Education to hold not less than one community meeting in each county annually, the Board of Education has conducted fifteen community meetings throughout the State over the last two years.

It should also be noted that during this same period, the nine volunteer members of the Board of Education have visited over two hundred schools, attended over four hundred stakeholder meetings statewide, and held one hundred sixty-nine committee and Board meetings. The Board of Education has also established "Chair Office Hours", which takes place twice a month, usually between 4:30 p.m. and 5:30 p.m. following the Board meetings, to allow individuals and Department of Education employees to express their concerns. In addition, the Board of Education has created an independent hotline with an audit trail so persons who wish to remain anonymous can voice their concerns anonymously.

Your Committee has amended this measure by:

- (1) Increasing the number of community meetings the Board of Education must hold annually from one per county to a total of six, provided that at least one meeting is held per county;
- (2) Placing the language requiring the Board of Education to allow public testimony on any matter not on the agenda in session law rather than codifying the requirement in the Hawaii Revised Statutes;
- (3) Clarifying that public testimony on matters not on the Board of Education's meeting agenda shall be placed at the end of the agenda;
- (4) Repealing the requirement that the Board of Education allow public testimony on any matter not on the agenda on June 30, 2019;
- (5) Requiring the Board of Education to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015 on its efforts to amend its policies to include an open forum at the end of its meeting agendas; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2763, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2763, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ruderman).

**SCRep. 2311 Education on S.B. No. 2768**

The purpose and intent of this measure is to:

- (1) Beginning with the 2014-2015 school year, make kindergarten attendance mandatory for children who will be at least five years of age on July 31 of the school year;
- (2) Require the Department of Education, in collaboration with the Executive Office on Early Learning, to develop a uniform statewide individualized kindergarten readiness program;
- (3) Establish an individualized kindergarten readiness assessment system within the Department of Education to replace the Hawaii State School Readiness Assessment with more meaningful, individualized data, and reduce the need for and cost of assessments that individual schools are purchasing or developing; and
- (4) Make an appropriation to the Department of Education for the administration, training, technology, and support necessary for the establishment of the individualized kindergarten readiness assessment system and to establish four full-time equivalent (4.0 FTE) positions for professional development and training of kindergarten teachers.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Department of Education, Department of Human Services, University of Hawaii at Manoa College of Education, Good Beginnings Alliance, Institute for Native Pacific Education and Culture, Hawai'i Association for the Education of Young Children, The Chamber of Commerce of Hawaii, Hawaii State AFL-CIO, KCAA Preschools of Hawai'i, Hui for Excellence in Education, IMUAlliance, Hawaii State Teachers Association, Hawai'i P-20 Partnerships for Education, and ten individuals. Your Committee received testimony in opposition to this measure from the League of Women Voters Hawaii and one individual.

Your Committee finds that many studies show the importance of early childhood education. Currently, Hawaii does not require that children attend kindergarten, although ninety-seven percent of students eligible to attend do voluntarily enroll in either public or private kindergarten classes. Those who do not attend kindergarten are typically behind their peers in their academic and social development. This measure will enhance the educational achievement of Hawaii's youth by making attendance at a public or private kindergarten mandatory, unless otherwise exempted by law.

Your Committee further finds that a uniform kindergarten assessment process can provide valuable feedback to early learning programs engaged in quality and culturally responsive early learning efforts and can assist parents and families in better understanding their child's learning and development. Understanding the needs of individual children will help ensure that all children are on track for continued learning and growth.

Your Committee notes that parents who choose to home school their children will be allowed to continue to do so under this measure.

Your Committee has amended this measure by:

- (1) Increasing the appropriation to the Department of Education from \$450,000 to \$870,000 for the increased support necessary for establishment of the assessment system, specifically for the hiring of substitute teachers that will be needed as teachers undergo the training and professional development required pursuant to this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2768, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2768, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Gabbard). Noes, none. Excused, 1 (Slom).

**SCRep. 2312 Education on S.B. No. 2446**

The purpose and intent of this measure is to require the Department of Education to name the new public high school in Kihei, Maui, in honor of the late United States Representative Patsy Takemoto Mink.

Your Committee received testimony in support of this measure from the University of Hawaii System; Hawaii State Commission on the Status of Women; YWCA of Oahu; Hawai'i Friends of Civil Rights; ILWU Local 142; United Public Workers, AFSCME, Local 646, AFL-CIO; and eighteen individuals, many of whom were students testifying through the Senate's Videoconference Pilot Project. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the accomplishments of the late United States Representative Patsy Takemoto Mink left a lasting impression on the people of Hawaii. Among her many accomplishments, Representative Mink is perhaps most recognized for spearheading legislation that would become known as Title IX of the Education Amendments of 1972, which bared discrimination based on sex in educational programs receiving federal funds. Title IX created numerous professional and athletic opportunities that were previously denied to women. This measure will provide an appropriate memorial to recognize and honor Representative Mink's legacy.

As this measure moves forward, it should be noted that a Kihei High School already exists on Maui. In 2001, the South Maui Learning Ohana founded Kihei Public Charter School and began accepting high school students. Currently, the school has two campuses, one serving children in kindergarten through eighth grade, and the other serving children in grades nine through twelve. This school is commonly referred to as Kihei High School and the Free Application for Federal Student Aid recognizes Kihei Public Charter School as Kihei High School.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2446 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2313 (Majority) Education on S.B. No. 2806**

The purpose and intent of this measure is to increase the salary cap of the Superintendent of Education from \$150,000 to \$250,000 a year.

Your Committee received testimony in support of this measure from the Board of Education, Kaneohe Ranch, Hawaii Association of Independent Schools, Hawaii Business Roundtable, and Hui for Excellence in Education. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the salary of the Superintendent of Education has not been adjusted since 2001. The Superintendent of Education's current salary is well below national norms. In addition, at least four public school principals under the Superintendent of Education currently make as much, or more, than the Superintendent. This measure adjusts the salary cap of the Superintendent of Education based upon a comprehensive review of similar positions and responsibilities for superintendents in comparable school districts in the United States.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2806 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 2. Noes, 1 (Slom). Excused, 2 (Gabbard, Ruderman).

**SCRep. 2314 (Joint) Agriculture and Energy and Environment on S.B. No. 2458**

The purpose and intent of this measure is to appropriate funds for the biosecurity program within the Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Maui Invasive Species Committee, Democratic Party of Hawaii, The Nature Conservancy, and one individual. Your Committees received comments on this measure from Abel Freight Services, Inc.

Your Committees find that invasive species, including weeds, insects, snakes, and other pests, are one of the greatest security threats to Hawaii's economy, agriculture, and natural environment. Unfortunately, the State is currently struggling to control a number of invasive species that have already spread through the islands, including the little fire ant and coqui frog. Due to Hawaii's favorable climate conditions and limited competition, non-native species find Hawaii an ideal environment in which to thrive. Preventing the introduction of non-native species, however, is exponentially more economical than eradicating non-native species once they are already established in Hawaii. Your Committees conclude that ensuring the biosecurity program is fully funded is essential to preventing the introduction and proliferation of harmful invasive species.

One testifier raised concerns that the funds appropriated to the biosecurity program would be used to construct a single biosecurity facility, which would create a pest inspection monopoly in the State, and increase food costs to the Hawaii consumer. Your Committees note that a representative from the Department of Agriculture assured your Committees that the appropriation in this measure is not earmarked to construct one single biosecurity facility, but rather may be used for a number of biosecurity activities. The representative further assured your Committees that the Department will be meeting with interested stakeholders regarding this issue next week.

As affirmed by the records of votes of the members of your Committees on Agriculture and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2458 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Agriculture  
Ayes, 5. Noes, none. Excused, 2 (Thielen, Slom).  
Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2315 (Joint) Agriculture and Energy and Environment on S.B. No. 2347**

The purpose and intent of this measure is to:

- (1) Require that nursery stock is treated for the eradication of pests prior to the sale or transport of the nursery stock within the State;
- (2) Limit the exception to possess, propagate, sell, transfer, or harbor prohibited animals to those being used for scientific research;

- (3) Require an element of gross negligence, rather than intent, for a violation of section 150A-6(3) or (4), Hawaii Revised Statutes, relating to the importation of certain animals, plants, or equipment that is harmful to agriculture, horticulture, animals, public health, or natural resources;
- (4) Eliminate the element of intent to propagate, sell, or release from the penalty for transporting, harboring, or importing prohibited animals or restricted plants, animals, or microorganisms without a permit;
- (5) Eliminate the element of intent to propagate, sell, or release from the penalty for importing, possessing, harboring, transferring, or transporting any designated pest; and
- (6) Clarify that treatment of certified and non-certified nursery stock shall be at the risk and expense of the owner or persons in charge or in possession of the nursery stock at the time of treatment, unless otherwise provided.

Your Committees received testimony in support of this measure from the Maui Invasive Species Committee and four individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Agriculture, and one individual.

Your Committees find that pests, such as the coqui frog and little fire ant, are threatening Hawaii's delicate ecosystem and must be controlled. This measure requires that pests be eradicated before they are sold or transported in the State so that destructive pests are not able to infest the Hawaiian islands.

Your Committees have amended this measure by:

- (1) Clarifying that coqui frogs and little fire ants, in addition to any other pests designated for eradication and control by the Department of Agriculture's rules and section 141-3, Hawaii Revised Statutes, must be eradicated from nursery stock prior to sale or transport within the State;
- (2) Clarifying that only pest-infested nursery stock must be treated for the eradication of pests prior to sale or transport within the State;
- (3) Clarifying that nurseries or landscapers who fail to treat nursery stock for the eradication of pests shall be responsible at their own expense for eradicating pests from infested properties where proof of sale or placement of their nursery stock has been made and any other nursery stock on the affected properties that are infested by the transported nursery stock;
- (4) Removing language that would have limited the exception to the possession of prohibited animals to only animals used for scientific research; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2347, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2347, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5; Ayes with Reservations (Kouchi). Noes, none. Excused, 2 (Thielen, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2316 (Joint) Agriculture and Energy and Environment on S.B. No. 2435**

The purpose and intent of this measure is to:

- (1) Give preference to monies deposited into the agricultural development and food security special fund as a portion of the environmental response, energy, and food security tax for the acquisition of real property for agricultural production; and
- (2) Increase the allocation of the environmental response, energy, and food security tax to the agricultural development and food security special fund.

Your Committees received comments on this measure from the Department of Agriculture, Tax Foundation of Hawaii, and Babes Against Biotech.

Your Committees find that Hawaii imports about eighty-five percent of its food. To promote diversified agriculture and thereby increase agricultural self-sufficiency, it is vital that the State purchase and safeguard agricultural lands for agricultural production.

Your Committees have amended this measure by:

- (1) Removing language that increases the allocation of the environmental response, energy, and food security tax to the agricultural development and food security special fund because this adjustment is better fulfilled by S.B. No. 2196, Regular Session of 2014; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2435, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2435, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Thielen, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2317 (Joint) Agriculture and Energy and Environment on S.B. No. 2970**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist BioTork Hawaii, LLC (BioTork), with the planning, permitting, design, construction, equipping, and operation of a facility to convert agricultural crops and byproducts to biofuels and feed.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; BioTork Hawaii, LLC; and one individual. Your Committees received testimony in opposition to this measure from two individuals.

The high cost of energy and livestock feed are significant barriers to food security and sustainability in Hawaii. BioTork's proposal to convert agricultural crops and byproducts such as albizia, sweet potatoes, papaya, and molasses to biofuels and high protein feed would be a boon to Hawaii's agricultural economy. Therefore, your Committees support this measure.

Your Committees note that they are requesting BioTork to submit letters to your Committees that they received from the Department of Business, Economic Development, and Tourism and the Department of Budget and Finance confirming the receipt of and review of BioTork's business plan. Your Committees are not requiring that these agencies provide approval or render a conclusion regarding the business plan in the letters; however, the letters must be received by your Committees by April 11, 2014, prior to the start of Conference hearings.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2970, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2970, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Thielen, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2318 Technology and the Arts on S.B. No. 2617**

The purpose and intent of this measure is to:

- (1) Amend the criteria for the works of art to be commissioned to honor the late United States Senator Daniel K. Inouye and the late United States Representative Patsy T. Mink;
- (2) Amend the appropriation amount to an adequate sum for each year of the 2013-2015 fiscal biennium; and
- (3) Change the expending agency from the Department of Accounting and General Services to the State Foundation on Culture and the Arts.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the creation of permanent works of art to tribute to the late United States Senator Daniel K. Inouye and the late United States Representative Patsy T. Mink are in the early design stages of development. Your Committee further finds that the State Foundation on Culture and the Arts appears to be better suited for overseeing these tasks and since the works of art are only in their infancy of the design stage, a sufficient appropriation amount is not yet known.

Your Committee requests that if your Committee on Ways and Means decides to hold a hearing on this measure, that it look further into determining a sufficient amount to appropriate to the State Foundation on Culture and the Arts to adequately provide a tribute to Senator Daniel K. Inouye and Representative Patsy T. Mink in fulfilling the requirements of this measure.

Your Committee has amended this measure accordingly by removing the appropriation amount of "an adequate sum" and replacing it with an unspecified amount.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2617, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2617, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2319 Technology and the Arts on S.B. No. 2384**

The purpose and intent of this measure is to establish theft of certain personal electronic devices that may be used to store or retrieve personal information as theft in the second degree.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and one individual.

Your Committee finds that thieves often target computers and other electronic devices to gain access to private and financial information that can cause great damage to an individual. This measure broadens the offense of theft in the second degree to include theft of certain personal electronic devices.

Your Committee has amended this measure by deleting all items that, if stolen, would have constituted theft in the second degree under this measure and adding language to establish theft of a computer, as defined in section 708-890, Hawaii Revised Statutes, as theft in the second degree.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2384, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2320 Technology and the Arts on S.B. No. 2375**

The purpose and intent of this measure is to protect a person from having a sexual representation distributed without the person's consent by establishing a misdemeanor criminal offense of unlawful distribution of sexual representation.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Pacific Alliance to Stop Slavery; IMUAlliance; and two individuals.

Your Committee finds that rapidly accelerating technology has made it easy to access and disseminate intimate images, videos, and recordings. Unfortunately, after a relationship ends, individuals sometimes try to hurt their former partner by publishing intimate images or recordings on the Internet. These acts violate the privacy of an individual whose image is distributed or made available through the Internet and can cause emotional distress, physical harm, academic challenges, and workplace difficulties. Currently, there is no criminal offense that covers these acts; therefore, this measure will impose meaningful consequences on perpetrators who distribute private images with the intent to substantially harm the depicted person.

Your Committee has amended this measure by deleting its contents and inserting language that amends section 711-1110.9, Hawaii Revised Statutes, to establish the act of knowingly disclosing an image of another identifiable person in the nude or engaging in sexual activity, without the depicted person's consent, with intent to substantially harm the depicted person with respect to that person's health, safety, business, calling, career, financial condition, reputation, or personal relationships, as an offense of violation of privacy in the first degree.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2375, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2375, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2321 Technology and the Arts on S.B. No. 2289**

The purpose and intent of this measure is to improve the ability of boards and commissions to make meeting notices readily available to the public by:

- (1) Requiring meeting notices to include an internet web address for instructions on submitting testimony for a meeting;
- (2) Allowing boards and commissions to provide notice of a meeting by either first class mail or electronic means, including electronic mail and text messaging;
- (3) Requiring boards and commissions to provide instructions and contact information for persons to request to be included on the list for notification of meetings to be sent via postal mail or electronic means; and
- (4) Specifying that any person who fails to properly send meeting notices by postal mail or electronic means or fails to send meeting notices in a timely manner shall be subject to penalties.

Your Committee received testimony in support of this measure from the Office of Information Practices; Hawaii Public Housing Authority; Hawaii Strategic Development Corporation; League of Women Voters; and one individual. Your Committee received comments on this measure from the University of Hawaii Board of Regents.

Your Committee finds that boards and commissions have a duty to ensure that meeting notices are readily available to the public under the Sunshine Law, chapter 92, Hawaii Revised Statutes. Existing law requires notice to be sent by postal mail; however, with postage becoming more cost prohibitive and more members of the public relying on receiving mail through electronic means, electronic mailing of meeting notices is a more efficient and effective alternative to conventional mail. This measure will improve the ability of boards and commissions, of all sizes and a variety of resources, to make meeting notices readily available to the public.

Your Committee has amended this measure by:

- (1) Eliminating the requirement that meeting notices must include internet addresses;
- (2) Eliminating the requirement that boards and commissions must provide instructions and contact information for persons to request to be included on the notification list;
- (3) Eliminating the provision allowing boards and commissions to send meeting notices by text messaging;
- (4) Eliminating the penalty provision;
- (5) Amending section 1 to reflect the amended purpose of this measure; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2289, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2289, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2322 Technology and the Arts on S.B. No. 3125**

The purpose and intent of this measure is to require the Auditor to conduct a financial and management audit of the State Foundation on Culture and the Arts.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Association of Hawaiian Civic Clubs, and three individuals.

Your Committee finds that improvements should be made to the organization and operation of the State Foundation on Culture and the Arts. A financial and management audit will provide guidance to the State Foundation on Culture and the Arts as it clarifies its role and duties and improves operations.

Your Committee has amended this measure by additionally requiring the Auditor to determine best management practices for the State Foundation on Culture and the Arts.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3125, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3125, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2323 Health on S.B. No. 2660**

The purpose and intent of this measure is to allow authorized health care providers to prescribe and authorized entities to provide and administer epinephrine auto-injectors in emergencies and under certain conditions.

Your Committee received testimony in support of this measure from Mylan, Inc. Your Committee received testimony in opposition to this measure from the Department of Health and Hawaii Association for Justice.

Your Committee finds that an estimated one out of thirteen children in the United States has a food allergy, which can sometimes lead to a life-threatening allergic reaction. Your Committee further finds that immediate access to epinephrine auto-injectors can be the difference between life and death. This measure increases access to epinephrine auto-injectors, which will help prevent tragedies from occurring in Hawaii.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2660, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2660, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

**SCRep. 2324 (Joint) Health and Technology and the Arts on S.B. No. 2469**

The purpose and intent of this measure is to:

- (1) Require reimbursement for services provided through telehealth to be equivalent to reimbursement for the same services provided via face-to-face contact between a health care provider and a patient;
- (2) Clarify that a health care provider of telehealth includes primary care providers, mental health providers, and oral health providers; and
- (3) Amend references from “telemedicine” to “telehealth” throughout the Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Office of the Governor, Department of Health, State Council on Developmental Disabilities, Healthcare Association of Hawaii, Hawaii State Center for Nursing, Community Alliance for Mental Health, The Queen's Health Systems, Hawaii Medical Association, Hawaii Health Systems Corporation, American Association of Nurse Practitioners, Witt Counseling Service, Hawaii Association of Professional Nurses, Hawaii Pacific Health, and several individuals. Your Committees received comments on this measure from the Department of Human Services, Hawaii Medical Board, and Hawaii Medical Service Association.

Your Committees find that the effective use of telehealth is essential to improve access to care in Hawaii, where the island geography presents the State with unique challenges. This measure will assist in the delivery of enhanced statewide health care services, increase access to services, and provide timely information to patients and health care providers.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2469, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2469, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

Technology and the Arts

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2325 (Joint) Health and Technology and the Arts on S.B. No. 2571**

The purpose and intent of this measure is to require all cellular telephones, including refurbished and remanufactured cellular telephones, sold or leased by a retailer in the State to bear a label that warns consumers of the potential dangers of electromagnetic radiation emitted by cellular telephones.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from CTIA – The Wireless Association and one individual.

Your Committees find that the expanding use of cellular telephones has resulted in concerns over the potential dangers of human exposure to electromagnetic radiation emitted by cellular telephones. Your Committees further find that there is increased concern about the long-term effect of electromagnetic radiation exposure on children and pregnant women. This measure makes consumers aware of the potential health dangers that have been linked to the electromagnetic radiation emitted by cellular telephones.

Your Committees have amended this measure by:

- (1) Amending the required warning label to read, "To reduce exposure to radiation that may be hazardous to your health, please follow the enclosed product safety guidelines."; and
- (2) Amending section 1 to reflect the amended purpose of this measure.

As affirmed by the records of votes of the members of your Committees on Health and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2571, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2571, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 1 (Slom).

Technology and the Arts

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2326 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2496**

The purpose and intent of this measure is to:

- (1) Impose an excise tax equal to eight-five percent of the wholesale price of any tobacco product, other than large cigars, sold by a wholesaler or dealer on and after January 1, 2015, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (2) Require any increase in the excise tax rate imposed on cigarettes or little cigars on or after January 1, 2015, to trigger an automatic excise tax increase on other tobacco products on or after January 1, 2015; and
- (3) Require the additional monies collected under the excise tax to be deposited to the credit of the Hawaii cancer research special fund.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Primary Care Association, University of Hawaii System, American Lung Association, American Cancer Society, Coalition for a Tobacco-Free Hawaii, and several individuals. Your Committees received testimony in opposition to this measure from the Hawaii Smokers Alliance and one individual. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that the tax on other tobacco products is currently lower than the tax on cigarettes, even though they are similarly addictive and dangerous, and are concerned that consumers may be more likely to purchase tobacco products as the price of cigarettes increases without a comparable increase in the price of tobacco products. Your Committees further find that other tobacco products present significant health risks leading to cancer, heart disease, respiratory illnesses, and other serious diseases.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2496, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2496, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

Commerce and Consumer Protection

Ayes, 3. Noes, none. Excused, 2 (Wakai, Slom).

**SCRep. 2327 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 2495**

The purpose and intent of this measure is to regulate electronic smoking devices by:

- (1) Requiring wholesalers, dealers, and retailers of electronic smoking devices to obtain a license from the Department of Health;
- (2) Amending Hawaii's anti-smoking statute to prohibit the use of electronic smoking devices in places open to the public and places of employment; and
- (3) Clarifying that the sale, distribution, or display of electronic smoking devices is restricted in the same manner as cigarettes and other tobacco products.

Your Committees received testimony in support of this measure from the Department of Health, American Heart Association, American Cancer Society Cancer Action Network, Coalition for a Tobacco-free Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from Volcano Fine Electronic Cigarettes, Black Lava Vape, Hawaii Smokers Alliance, Vapors Anonymous, and sixteen individuals. Your Committees received comments on this measure from the Hawaii Food Industry Association and HI Vapor Emporium.

Your Committee finds that in *Sottera, Inc. v. Food & Drug Admin.*, the United States Court of Appeals for the District of Columbia Circuit held that electronic cigarettes and other products made or derived from tobacco can be regulated as "tobacco products" under the federal Family Smoking Prevention and Tobacco Control Act of 2009. However, the federal Food and Drug Administration has not yet exercised its regulatory authority over electronic smoking devices. Your Committee further finds that electronic smoking devices are manufactured without regulatory oversight or quality control. This is especially troubling because the safety of electronic smoking devices has not yet been fully studied.

Your Committees have heard the concerns that the Department of Health lacks the capacity and fiscal resources to conduct electronic smoking device licensing and enforcement as proposed by this measure. Your Committees understand and appreciate these concerns and note that the Department of Taxation licenses and enforces the sale of cigarettes and other tobacco products under the existing chapter 245, Hawaii Revised Statutes, the cigarette tax and tobacco tax law. Your Committees conclude it is more appropriate to amend this measure to include electronic smoking devices under chapter 245, Hawaii Revised Statutes, thereby providing the Department of Taxation with the authority to issue licenses and permits and tax these products.

Your Committees further find that by including electronic smoking devices under the existing definition of "tobacco products" in section 245-1, Hawaii Revised Statutes, the licensing and permitting requirements for tobacco products under chapter 245, Hawaii Revised Statutes, will now apply to electronic smoking devices. This includes the licensing requirements for wholesalers and dealers under section 245-2, Hawaii Revised Statutes, and the retail tobacco permitting requirements of section 245-2.5, Hawaii Revised Statutes.

Your Committees additionally find that the licensing and permit fees under chapter 245, Hawaii Revised Statutes, should be increased. When compared to other states, Hawaii's tobacco licensing fees are among the lowest in the country. Hawaii's license fee for a wholesaler or dealer has not increased since 1995, and the State is one of only two that charge a wholesaler or dealer less than a retailer for a license. Accordingly, amendments to this measure are necessary.

Your Committees also find that amendments to this measure are needed to establish an excise tax on electronic smoking device kits, nicotine cartridges, and nicotine refills. Your Committees note that other states have extremely high tax rates on tobacco products, including electronic smoking devices. For instance, Minnesota taxes tobacco products and electronic smoking devices at ninety-five percent. Your Committees believe that the Hawaii tax rate on these products should be somewhere between ten and fifty percent, but have concluded that the excise tax rate on electronic smoking devices and related products should be left unspecified at this time, so as to encourage further discussion on this issue.

Finally, your Committees have heard testimony that electronic smoking devices are not distributed to potential customers, but rather sampled. Amendments are therefore necessary to clarify that the sampling of tobacco products, including electronic smoking devices, is prohibited.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have established a new chapter in the Hawaii Revised Statutes for the regulation of electronic smoking devices;
- (2) Including electronic smoking devices within the definition of “tobacco products” under chapter 245, Hawaii Revised Statutes, thereby:
  - (A) Subjecting wholesalers and dealers of electronic smoking devices to the same licensing requirements as wholesalers and dealers of cigarettes and other tobacco products; and
  - (B) Subjecting retailers of electronic smoking devices to the same permitting requirements as retailers of cigarettes and other tobacco products;
- (3) Increasing the license fee for persons engaged as a wholesaler or dealer of cigarettes or tobacco products, including electronic smoking devices, from \$2.50 to \$250;
- (4) Increasing the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes or tobacco products, including electronic smoking devices, from \$20 to \$50;
- (5) Establishing an excise tax on electronic smoking devices of an unspecified percent of the wholesale price of each electronic smoking device kit, electronic smoking device nicotine cartridge, or electronic smoking device nicotine refill sold, used, or possessed by a wholesaler or dealer on or after October 1, 2014;
- (6) Amending the definitions of “smoke” or “smoking” and “electronic smoking devices” and adding a new definition of “tobacco products” under chapter 328J, Hawaii Revised Statutes, that includes electronic smoking devices;
- (7) Clarifying that the sale, distribution, sampling, or display of tobacco products, including electronic smoking devices, and the distribution of promotional materials, or coupons redeemable for promotional materials, for tobacco products, including electronic smoking devices, are restricted in the same manner as cigarettes and other tobacco products;
- (8) Updating the purpose section for clarity;
- (9) Changing the effective date to upon approval; provided that the license and permit fees and excise tax proposed by this measure shall take effect on January 1, 2015; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that this amended measure is intended to strike a balance between public health and smoking cessation and legitimate business interests. It is your Committees’ intent for there to be an ongoing dialogue regarding the excise tax rate for electronic smoking devices. Your Committees note that this amended measure is not intended to create a hardship for businesses, but it is important to find common ground in the regulation of electronic smoking devices, while working toward smoking cessation amongst Hawaii residents.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2495, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2495, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

**SCRep. 2328 (Joint/Majority Health and Commerce and Consumer Protection on S.B. No. 2909**

The purpose and intent of this measure is to:

- (1) Provide insurance coverage for three in vitro fertilization cycles or a live birth;
- (2) Remove the requirement that the patient’s oocytes be fertilized with sperm from the patient’s spouse;
- (3) Remove the requirement that the patient’s spouse have a history of infertility;
- (4) Provide insurance coverage for patients who have a history of infertility of twelve months if thirty-five years or younger, or six months if thirty-six years or older;
- (5) Expand the medical conditions associated with infertility to include ovulatory dysfunction and diminished ovarian reserve; and
- (6) Add a definition of infertility.

Your Committees received testimony in support of this measure from Kaiser Permanente; Hawaii Health Systems Corporation; Advanced Reproductive Medicine and Gynecology of Hawaii, Inc.; Fertility Institute of Hawaii; and eight individuals. Your Committees received testimony in opposition to this measure from The Chamber of Commerce of Hawaii, Hawaii Catholic Conference, and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Hawaii Medical Service Association, and one individual.

Your Committees find that infertility is a medical condition that impairs and substantially limits an individual's major life activity of reproduction. This measure provides equality for all women who are diagnosed with infertility by requiring non-discriminatory coverage and ensuring quality of care in the diagnosis and treatment of infertility.

Your Committees have amended this measure by:

- (1) Removing the categorization of the in vitro fertilization coverage as a "lifetime" benefit;
- (2) Removing language in the purpose section regarding religious exemptions, as the exemption is not included or addressed in the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2909, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2909, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2329 Judiciary and Labor on S.B. No. 3099**

The purpose and intent of this measure is to:

- (1) Amend various sections of the Hawaii Revised Statutes, to require the conversion of civil service exempt positions to civil service positions to conform to Act 253, Session Laws of Hawaii 2000, and Act 300, Session Laws of Hawaii 2006; and
- (2) Require any civil service exempt position created after July 1, 2014, to expire after three years of its enactment unless affirmatively extended by the Legislature.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSME Local 152, AFL-CIO; Society of Hawaiian Archaeology; and three individuals. Testimony in opposition to this measure was submitted by the Department of Human Resources Development, Department of Commerce and Consumer Affairs, and Department of Land and Natural Resources.

Your Committee finds that inequities exist between civil service exempt employees and civil service employees. For example, exempt employees do not receive step movements in compensation, are precluded from earning overtime compensation, and are not protected from a reduction-in-force. The Department of Human Resources Development testified that a memorandum of agreement allows departments to provide their civil service exempt employees the option to convert their positions to civil service positions. However, the Hawaii Government Employees Association testified that this voluntary conversion process is not effective because the number of conversions over the past several years has been small. This measure mandates the conversion of exempt positions to civil service positions in several departments.

Your Committee recognizes the testimony submitted in opposition to this measure that the elimination of exempt positions may cause a number of valued employees to leave state employment because the resultant level of compensation will not be comparable to the compensation of similar positions in the private sector. Eliminating exempt positions may also pose difficulties in recruiting employees to fill positions that require specialized skills. Your Committee notes that there are several measures currently moving through the legislative process that require different departments to initiate the conversion of exempt positions to civil service positions. Thus, your Committee believes that it is more appropriate for each department to be discussed separately to uniquely consider the qualifications of the positions required to perform the functions of each department.

However, your Committee notes that the State Historic Preservation Division of the Department of Land and Natural Resources has begun to convert a number of its exempt positions to civil service positions, and your Committee believes that this conversion process should continue. The Hawaii Government Employees Association testified that conversion would affect approximately twenty to twenty-five positions. Your Committee further believes that the language requiring any civil service exempt position created after July 1, 2014, to expire after three years of its enactment unless affirmatively extended by the Legislature should be retained in this measure to discourage departments from creating additional civil service exempt positions.

Your Committee has amended this measure by:

- (1) Deleting all sections that require various departments to convert exempt positions to civil service positions, except for the sections that relate to:
  - (A) The State Historic Preservation Division of the Department of Land and Natural Resources; and
  - (B) The expiration of any civil service exempt positions created after July 1, 2014, unless affirmatively extended by the Legislature;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3099, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3099, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Solomon, Slom). Noes, none. Excused, none.

**SCRep. 2330 (Joint) Higher Education and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2131**

The purpose and intent of this measure is to require the Board of Regents of the University of Hawaii (Board of Regents) to waive the nonresident tuition and fee differential for veterans of the United States Air Force, Army, Coast Guard, Marine Corps, and Navy, who were honorably discharged.

Your Committees received testimony in support of this measure from the University of Hawai'i System, The Chamber of Commerce of Hawaii, Hawai'i Alliance of Student Veterans, Young Democrats of Hawaii, Young Democrats of Maui County, and eleven individuals. Your Committees received comments on this measure from the Department of the Attorney General and one individual.

Your Committees find that this measure addresses an issue of statewide concern. The Board of Regents' current policies do not offer a waiver of the nonresident tuition differential to veterans who are honorably discharged from active duty within the State of Hawaii or for those veterans who want to come to the State to attend the University of Hawaii.

Your Committees further find that a number of states currently have laws that waive certain residency requirements to allow veterans to attend state universities in states other than their state of residency upon separating from the military. Allowing a waiver of the nonresident tuition differential to veterans will expand veterans' educational opportunities by allowing them to attend college within the University of Hawaii System at the resident tuition rate.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2131, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2131, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education

Ayes, 5. Noes, none. Excused, 2 (Ige, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2331 Higher Education on S.B. No. 3106**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for various improvements to University of Hawaii facilities.

Your Committee received testimony in support of this measure from the University of Hawai'i System, University of Hawai'i at Manoa College of Engineering, KAI Hawaii, University of Hawai'i at Manoa Student Recreation Services, The Limtiaco Consulting Group, Associated Students of the University of Hawai'i at Manoa, and one individual.

Your Committee finds that this measure will address the need for repair and maintenance and other improvements to University of Hawaii facilities.

Your Committee has amended this measure by:

- (1) Amending the language authorizing the issuance of general obligation bonds and appropriation of funds for Item A, the Magoon Research Facility, by specifying that the purpose is for the plans and design for the construction of the Manoa Learning Exchange at the Magoon Research Facility;
- (2) Inserting the following appropriation amounts for the construction of the Manoa Learning Exchange at the Magoon Research Facility:
  - (A) \$1,100,000 for plans; and
  - (B) \$1,500,000 for design; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3106, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kidani). Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2332 Higher Education on S.B. No. 2326**

The purpose and intent of this measure is to prohibit the Board of Regents of the University of Hawaii (Board of Regents) from meeting in executive session for the purposes of reviewing the performance of or discussing the finalists to be hired for the University of Hawaii System President or campus Chancellors.

Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that this measure seeks to ensure openness and accountability in reviewing the performance of or discussing the finalists to be hired for the University of Hawaii System President or campus Chancellors. However, your Committee recognizes the potential chilling effect of such open discussions regarding finalists to be hired as the University of Hawaii System President or a campus Chancellor on potential candidates for those positions.

Accordingly, your Committee has amended this measure by removing language prohibiting the Board of Regents from discussing in executive session the finalists to be hired as the University of Hawaii System President or a campus Chancellor.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2326, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2326, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2333 Higher Education on S.B. No. 2905**

The purpose and intent of this measure is to appropriate funds to the Office of Student Equity, Excellence, and Diversity at the University of Hawaii at Manoa to fund five part-time graduate assistant and student employee (2.5 FTE) positions to conduct and disseminate research relating to Asian American and Pacific Islander students in higher education, and to provide direct services to undergraduate and graduate students interested in diversity careers in student affairs and higher education.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Filipino American Citizens League; Filipino Coalition for Solidarity; National Federation of Filipino American Associations Region 12; Nursing Advocates and Mentors, Inc.; and fifteen individuals.

Your Committee finds that there is a need for research to address the underrepresentation of Asian Americans and Pacific Islanders in higher education institutions. This measure will provide the Office of Student Equity, Excellence, and Diversity at the University of Hawaii at Manoa with resources to support undergraduate and graduate students interested in diversity careers in student affairs and higher education.

If this measure is considered for passage by your Committee on Ways and Means, your Committee notes that the University of Hawaii has indicated the need for \$190,000 in funding.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2905 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Ige, Kidani, Slom).

**SCRep. 2334 Higher Education on S.B. No. 3093**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii at Hilo to establish staff positions within the 'Imiloa Astronomy Center and support the University of Hawaii at Hilo's memorandum of understanding with the Revealing Individual Strengths for Excellence (RISE) 21st Century After School Program.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo, Revealing Individual Strengths for Excellence 21st Century After School Program, and five individuals.

Your Committee finds that pursuant to S.C.R. No. 132, S.D. 1, Regular Session of 2013, the University of Hawaii at Hilo, through its 'Imiloa Astronomy Center and Division of Academic Affairs, entered into a memorandum of understanding with the RISE 21st Century After School Program, a program that helps underprivileged children of Hawaiian ancestry with life skills, achieving academic success, and career planning. This measure will provide funding and positions to support the University of Hawaii at Hilo's memorandum of understanding with RISE 21st Century After School Program.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3093 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Ige, Kidani, Slom).

**SCRep. 2335 (Joint) Public Safety, Intergovernmental and Military Affairs and Health on S.B. No. 2350**

The purpose and intent of this measure is to clarify that the amounts received by a contractor of the patient-centered community care program for the costs or advancement to third party health care providers, pursuant to a contract with the United States Department of Veterans Affairs for the administration of the patient-centered community care program, are excluded from the state general excise tax.

Your Committees received testimony in support of this measure from the Department of Taxation and TriWest Healthcare Alliance Inc. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that there is a need to support health care administrators and to avoid increasing the costs of health care services delivered through the patient-centered community care program. It is necessary to clarify that the amounts received by a contractor of the patient-centered community care program are not subject to the state general excise tax.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2350, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2350, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

**SCRep. 2336 (Joint) Public Safety, Intergovernmental and Military Affairs and Health and Human Services on S.B. No. 2603**

The purpose and intent of this measure is to address the shortage of long-term care beds and services available to qualified veterans by authorizing the issuance of general obligation bonds and appropriating funds, contingent upon the receipt of federal funds, for the construction of a one hundred seventy-three bed long-term care facility for veterans.

Your Committees received testimony in support of this measure from the Department of Defense State Civil Defense Division, State Office of Veterans Services, Hawaii Health Systems Corporation, Hawaii Health Systems Corporation Oahu Region, Healthcare Association of Hawaii, and four individuals.

Your Committees find that there is an increasing need for long-term care resources and services for our veterans. The State's veteran population is expected to continue to grow with the drawdown of troops in Iraq, the forthcoming pullout from Afghanistan, and more military members attaining veteran status. Even with the success of the Yukio Okutsu State Veterans Home in Hilo, a second facility is needed to address the serious shortfall of long-term care beds for veterans. This measure authorizes the issuance of general obligation bonds and appropriates funds for the construction of a second long-term care facility that will greatly expand access to quality long-term care for Hawaii's veterans.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs, Health, and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2603 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Health  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Nishihara).

Human Services  
Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

**SCRep. 2337 (Joint) Public Safety, Intergovernmental and Military Affairs and Technology and the Arts on S.B. No. 2936**

The purpose and intent of this measure is to require the Department of Public Safety to form a temporary working group to:

- (1) Analyze the Capitol District security infrastructure;
- (2) Develop a plan, including a timeline and funding requirements, to create an integrated camera surveillance system for the Capitol District; and
- (3) Provide a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015.

Your Committees received testimony in support of this measure from the Department of Public Safety, Department of Accounting and General Services, State Office of Information Management and Technology, and one individual.

Your Committees find that the current security systems in place for facilities in the Capitol District are generally not used to prevent criminal activity from occurring, but are rather a reactionary system. A working group will evaluate the Capitol District security infrastructure and develop a plan to create an integrated camera surveillance system to assist in the security of the historical Capitol District.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2936 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2338 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2962**

The purpose and intent of this measure is to allow members of a county council to jointly attend any meetings or presentations without violating the Sunshine Law as long as the meeting or presentation is open to the public.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the Office of Information Practices, League of Women Voters, and Common Cause Hawaii.

Your Committee finds that as elected officials, it is the job of county council members to find out how people in the community feel about policy issues and to become educated on those issues. However, under section 92-2.5(e), Hawaii Revised Statutes, if more than a quorum of county council members attend any meetings or presentations open to the public, they may be in violation of the Sunshine Law. This measure will increase communication between county council members and their constituents, while providing public protection against inadequate notice of discussions by county council members in which or by which people may be interested or affected.

Your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Describe the legislature's findings and the purpose of the measure in accordance with the amendments;
- (2) Through June 30, 2018, allow any number of county council members to attend and hold a limited public meeting to discuss council business, as the guest of a board or community group holding its own meeting;
- (3) Provide that notice of the limited meeting meets the requirements of section 92-7, Hawaii Revised Statutes;
- (4) Require a board or community group that is subject to part I, chapter 92, Hawaii Revised Statutes, holding a meeting that a county council is attending, to meet the requirements of part I, chapter 92, Hawaii Revised Statutes;
- (5) Restrict limited meetings of a county council to no more than one per month for any one board or community group;
- (6) Require all limited meetings to be held in the State;
- (7) Provide that limited meetings shall not be held to circumvent part I, chapter 92; and
- (8) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2962, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2962, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2339 Energy and Environment on S.B. No. 632**

The purpose and intent of this measure is to:

- (1) Establish environmental courts as divisions within the circuit courts to hear all proceedings, including certain chapter 91, Hawaii Revised Statutes, proceedings arising from environmental laws; and
- (2) Require the Judiciary to report to the Legislature on the total number of environmental-related cases filed in the last five years.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Americans for Democratic Action, Keep the Hawaiian Islands Beautiful, International Coastal Cleanup, Lani-Kailua Outdoor Circle, and sixteen individuals. Your Committee received testimony in opposition to this measure from the Building Industry Association of Hawaii and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Judiciary and Office of Planning.

Your Committee finds that environmental disputes are currently dealt with in a variety of courts. This organizational structure inadvertently promotes inconsistent application of the wide variety of environmental laws. The continued maintenance and improvement of Hawaii's environment requires constant vigilance and continued stewardship to ensure its lasting beauty, cleanliness, and uniqueness and the stability of its natural systems, all of which enhance the mental and physical well-being of Hawaii's people.

Your Committee has amended this measure by:

- (1) Clarifying the exclusive jurisdiction of the environmental courts to include proceedings related to:
  - (A) Environmental response;
  - (B) Litter control;
  - (C) E-waste recycling;
  - (D) Solid waste;
  - (E) Safe drinking water;
  - (F) Air pollution control;

- (G) Ozone layer protection;
  - (H) Water pollution;
  - (I) Nonpoint source pollution;
  - (J) Noise pollution;
  - (K) Integrated waste management;
  - (L) Solid waste pollution;
  - (M) Special wastes recycling;
  - (N) Hazardous waste;
  - (O) Underground storage tanks;
  - (P) Asbestos and lead;
  - (Q) Environmental Impact Statements; and
  - (R) Uniform Environmental Covenants Act;
- (2) Amending the deadline by which the Judiciary is required to report findings to the Legislature to twenty days prior to the convening of the Regular Session of 2015;
  - (3) Clarifying that the term “environmental court”, or the like, shall be substituted in only the chapters in which the environmental courts have exclusive jurisdiction;
  - (4) Inserting an effective date of January 1, 2015, to give the Judiciary some time to implement this measure; and
  - (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 632, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 632, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2340 Energy and Environment on S.B. No. 2702**

The purpose and intent of this measure is to extend the authorization of the issuance of special purpose revenue bonds to Honolulu Seawater Air Conditioning, LLC, for an additional five years for the purpose of design and construction of a seawater air conditioning district cooling system in downtown Honolulu.

Your Committee received testimony in support of this measure from Honolulu Seawater Air Conditioning and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the downtown Honolulu seawater air conditioning project will service approximately 14,000,000 square feet of downtown building space. In addition to the compelling environmental and renewal energy benefits associated with deep water cooling, the project will generate close to \$250,000,000 in construction spending and create more than 1,500 construction jobs from 2014 through 2016. This project will also establish Hawaii as a leading authority on the development and installation of seawater air conditioning systems throughout the Asia-Pacific region.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Department of Budget and Finance to issue special purpose revenue bonds to Honolulu Seawater Air Conditioning, LLC, subsequent to June 30, 2019; and
- (2) Inserting an effective date of June 29, 2014.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2702, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2702, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2341 Energy and Environment on S.B. No. 2754**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Princeton Energy Group or a related special purpose entity with the financing of the planning, design, and construction of a renewable energy project with energy storage technology on the island of Molokai.

Your Committee received testimony in support of this measure from the Ulupono Initiative, Sierra Club of Hawaii, EnerVault, Royal Contracting Company, Molokai Ranch, Princeton Energy Group, and sixty-one individuals. Your Committee received testimony in opposition to this measure from I Aloha Molokai and one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Maui County Mayor's Office, and one individual.

Your Committee finds that support for the development of renewable energy projects in Hawaii, which is geographically isolated from sources of oil, continues to be in the public interest. This is especially true given the high cost of electricity in Hawaii, particularly on the island of Molokai.

Your Committee further finds that Princeton Energy Group is engaged in the planning, design, and construction process to develop a multi-megawatt renewable energy project with energy storage technology near Kaunakakai to exclusively serve the island of Molokai. The issuance of special purpose revenue bonds and refunding special revenue bonds under this measure to assist Princeton Energy Group in the planning, design, and construction of its renewable energy project will make the development of such a project more economically feasible and provide numerous benefits.

Your Committee requests that the applicant of the special purpose revenue bonds submit to your Committee by April 11, 2014, copies of letters from the Department of Business, Economic Development, and Tourism and Department of Budget and Finance stating that the agencies have received and reviewed the applicant's business plan; provided that the agencies are not required to give approval or render a conclusion in the letter. Furthermore, your Committee urges the applicant to do further outreach with the community to share their plans.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2754, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2754, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2342 (Joint) Technology and the Arts and Commerce and Consumer Protection on S.B. No. 2791**

The purpose and intent of this measure is to address issues that have arisen due to the use of new technology by making the following criminal offenses applicable to electronic or digital statements, documents, or records:

- (1) Falsifying business records;
- (2) Obtaining a government-issued identification document under false pretenses in the first degree;
- (3) Obtaining a government-issued identification document under false pretenses in the second degree;
- (4) Tampering with a government record; and
- (5) Unsworn falsification to authorities.

Your Committees received testimony in support of this measure from the Department of the Attorney General.

Your Committees find that with current technology, many transactions are handled electronically and records are often kept in electronic or digital form. In 2000, Hawaii adopted the Uniform Electronic Transactions Act, chapter 489E, Hawaii Revised Statutes, to recognize the need to establish the legal validity of electronic records, signatures, and contracts. However, criminal offenses have not been updated to take into account the prevalent use of new technology and the consequent use of new technology to commit a variety of crimes. This measure protects consumers by making relevant criminal offenses applicable to electronic or digital statements, documents, or records.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2791 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Commerce and Consumer Protection  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2343 Human Services on S.B. No. 2211**

The purpose and intent of this measure is to establish a five-year safe places for youth pilot program that will coordinate a network of safe places where youth can access safety and obtain advice, guidance, programs, and services.

Your Committee received testimony in support of this measure from the Office of Youth Services, Hawaii Youth Services Network, Partners in Care, Institute for Human Services, Planned Parenthood of Hawaii, Hale Kipa, Community Alliance for Mental Health, Blueprint for Change, Hawaii Interagency on Homelessness, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii Association for Justice.

Your Committee finds that, without safe places, Hawaii's youth who run away from violent homes or intolerable bullying at school are vulnerable and may be victimized by predatory adults who lure them into alcohol and substance abuse or prostitution. At the 2012 Children and Youth Summit, youth expressed that one of their highest priorities is to address the lack of safe places where they can have fun without the fear of being harassed, bullied, or pressured by other youth or adults. The youth expressed interest in being able to access youth-specific guidance and services, including counseling for suicide prevention, teen pregnancy prevention, tobacco cessation, and alcohol and substance abuse support.

Your Committee has heard the testimony of the Hawaii Association for Justice expressing concern that this measure does not encourage responsible behavior because it absolves providers who provide services to youth in safe places from liability for negligent acts. In response, the Office of Youth Services testified that it requires all providers of youth services to have extended liability insurance.

Your Committee has amended this measure by:

- (1) Clarifying that a provider's determination to provide services to a consenting minor after assessment is a determination that the minor does not pose a danger to the minor's self or to other persons at the safe place;
- (2) Adding language requiring that a minor be at least fourteen years of age to consent to the provider and related services at a safe place;
- (3) Amending the definition of "minor" or "youth" to mean a person less than eighteen years of age; and
- (4) Defining "young adult" to mean a person less than twenty-one years of age.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2211, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2211, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2344 (Majority) Transportation and International Affairs on S.B. No. 2731**

The purpose and intent of this measure is to establish a car-sharing vehicle surcharge tax.

Your Committee received testimony in support of this measure from the Department of Transportation, City and County of Honolulu Department of Planning and Permitting, City and County of Honolulu Department of Transportation Services, Car2Go, Ulupono Initiative, Hawaii Energy Policy Forum, and two individuals. Your Committee received testimony in opposition to this measure from Enterprise Rent-A-Car. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that car-sharing is a green transportation innovation that can significantly reduce vehicle miles traveled, oil imports, greenhouse gas emissions, and household transportation costs for Hawaii residents. Car-sharing is a fairly new transportation innovation in the United States that has emerged only in the last ten years. Unlike traditional car rentals, car-sharing is not aimed at tourists or individuals who are getting a personal vehicle repaired. Car-sharing is generally rented by the minute or by the hour, rather than by the day. Car-sharing members are persons who either cannot afford to or prefer not to own their own vehicles but occasionally need access to vehicles to run errands. Car-sharing enables them to enjoy the benefits of automobile access without the high fixed costs and other concerns that come with car ownership.

Your Committee has amended this measure by:

- (1) Making the surcharge tax pro rata on an hourly basis with a per day charge;
- (2) Exempting car-sharing organizations that are registered with the Director of Taxation and subject to the car-sharing vehicle surcharge tax from the rental motor vehicle surcharge tax and tour vehicle surcharge tax; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2731, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2731, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, 1 (Slom). Excused, 2 (Gabbard, Kouchi).

**SCRep. 2345 Transportation and International Affairs on S.B. No. 2898**

The purpose and intent of this measure is to amend or delete statutes containing federal commercial driver's licensing requirements that are addressed in Hawaii Administrative Rules.

Your Committee received testimony in support of this measure from the Department of Transportation, City and County of Honolulu Department of Customer Services, and Hawaii Transportation Association.

Your Committee finds that serious financial penalties can be incurred when a state does not comply with certain federal motor carrier safety regulations. Adopting these regulations by reference in administrative rules is expedient and ensures exact compliance. When placing these regulations in the Hawaii Revised Statutes, there is a possibility for noncompliance to result when numerous legislative measures are drafted and enacted.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2898, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2898, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 2 (Gabbard, Kouchi).

**SCRep. 2346 (Joint) Transportation and International Affairs and Higher Education on S.B. No. 3062**

The purpose and intent of this measure is to require the Department of Transportation and the University of Hawaii to complete negotiations and execute an agreement no later than July 1, 2015, to relocate the University of Hawaii Marine Center, and to terminate the current lease at that time if no agreement is reached.

Your Committees received testimony in support of this measure from the Department of Transportation and the Hawaii Harbors Users Group. Your Committees received testimony in opposition to this measure from the University of Hawai'i at Mānoa and one individual.

The University of Hawaii Marine Center comprises seventeen acres that include harbor frontage under a gratis lease with the Department of Transportation. Your Committees find that the land is essential to the development of the Kapalama containment terminal project. This area is the sole remaining harbor lands that can be redeveloped for maritime use to meet the current and future expansion demands to ensure and preserve Hawaii's economic prosperity and quality of life.

The Department of Transportation and University of Hawaii are currently operating under a long-term lease at gratis which has an unexpired term of twenty-four years. The Department has previously committed to extending the lease terms to thirty-five years. However, if the relocation negotiations for the University of Hawaii Marine Center that have taken place over the past seven years are amicably resolved for both parties, then the Department would be willing to cancel the lease. H.C.R. No. 266, H.D. 1, Regular Session of 2006, which was adopted by both houses, requested the Department of Transportation and the University of Hawaii "to collaborate, on a priority basis, to effectuate the relocation of UH Marine Center". The Department is currently planning and designing a new terminal facility for the site and has incurred costly expenses associated with plans and design. Meanwhile, the Department has agreed to fund \$17,000,000 for the relocation of the Marine Center.

Your Committees understand that both parties are negotiating in earnest at the present time to come to an agreement. Your Committees intend that those negotiations continue and are hopeful that an agreement can be consummated soon.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3062 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs  
Ayes, 7. Noes, none. Excused, 2 (Espero, Gabbard).

Higher Education  
Ayes, 6. Noes, none. Excused, 1 (Ige).

**SCRep. 2347 (Joint/Majority) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2324**

The purpose and intent of this measure is to establish an annual electric vehicle user fee, fifty percent of which shall be deposited in the state highway fund and fifty percent of which shall be deposited in the appropriate county highway fund.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Customer Services of the City and County of Honolulu; EAN Holdings, LLC; and Tax Foundation of Hawaii.

Your Committees find that taxes on gasoline and diesel fuels are currently one of the main means of funding the repair and maintenance of state and county roadways in the State. For example, the owner of a vehicle in the City and County of Honolulu that drives 12,500 miles per year at thirty miles per gallon of fuel will pay approximately \$140 in combined state and county fuel taxes. On the other hand, owners of electric vehicles pay substantially less in taxes than owners of conventional gasoline and diesel vehicles because they do not need to purchase liquid fuel for their vehicles, yet electric vehicles also contribute to wear and tear of state and county roads.

As technological advances improve the fuel economy of all motor vehicles, it will be necessary to establish a vehicle miles-traveled tax to replace the liquid fuel tax. In the interest of fairness, your Committees believe it is appropriate to create an electric vehicle user fee to offset the difference in taxes as an interim measure until a suitable mechanism for collecting a vehicle miles-traveled tax can be implemented.

Your Committees have amended this measure by:

- (1) Requiring that the electric vehicle user fee be deposited entirely into the state highway fund;
- (2) Authorizing lessors of rental motor vehicles to pass on a portion of the electric vehicle user fee actually paid on the vehicle being rented to a lessee; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2324, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2324, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs  
Ayes, 7. Noes, 1 (Slom). Excused, 1 (Gabbard).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2348 (Joint) Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2329**

The purpose and intent of this measure is to clarify that minors who apply for a provisional license or driver's license may have requirements waived if a substantially similar requirement has been met in another state.

Your Committees received testimony in support of this measure from the Department of Transportation and two individuals. Your Committees received testimony in opposition to this measure from Mothers Against Drunk Driving Hawaii and the State Highway Safety Council. Your Committees received comments on this measure from the City and County of Honolulu, Department of Customer Services.

Your Committees find that every state has enacted provisional driver's license laws. Fairness dictates that full faith and credit be given to other states' laws that are comparable to our own laws.

Your Committees have amended this measure by deleting its contents and inserting language that:

- (1) Amends section 286-108(c), Hawaii Revised Statutes, relating to waiving an actual demonstration of ability to operate a motor vehicle, on the recommendation of the Department of Transportation;
- (2) Requires the Department of Transportation to implement this measure immediately upon approval without the necessity of completing the adoption of administrative rules so that the administrative rules do not delay the implementation of this measure; and
- (3) Makes technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2329, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2329, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs  
Ayes, 8. Noes, none. Excused, 1 (Gabbard).

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2349 (Joint) Water and Land and Judiciary and Labor on S.B. No. 2248**

The purpose and intent of this measure is to make permanent Act 82, Session Laws of Hawaii 2003, as amended (Act 82), relating to the limitations of liability for public entities based on the duty to warn of dangers on public lands.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of the Attorney General, Department of the Corporation Counsel of the City and County of Honolulu, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committees find that since the passage of legislation in the form of Act 82 and in the ensuing eleven years, the Department of Land and Natural Resources has initiated a comprehensive sign program that is deployed statewide in public recreational areas associated with parks and wilderness trails. These actions have resulted in a variety of critical outcomes and now institutionalized management practices. The public has become accustomed to seeing the uniform, standard signs warning of potential exposure to hazardous natural conditions at managed trailheads and park entrances, in addition to at the actual point of exposure.

This sign program strikes the balance between the government's duty to warn and the public's responsibility to heed that warning and make an informed choice, before engaging in recreational activity.

Your Committees have amended this measure by:

- (1) On the recommendation of the Attorney General, deleting its contents and inserting the contents of S.B. No. 1007, S.D. 2, Proposed H.D. 1 (Regular Session of 2014), which makes Act 82 permanent and additionally extends the conclusive presumption of signage as legally adequate warning of dangerous non-natural conditions on unimproved public lands; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2248, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2248, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land  
Ayes, 6; Ayes with Reservations (Shimabukuro). Noes, none. Excused, 3 (Dela Cruz, Galuteria, Taniguchi).

Judiciary and Labor  
Ayes, 5; Ayes with Reservations (Shimabukuro). Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 2350 (Joint) Water and Land and Transportation and International Affairs on S.B. No. 3035**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for planning and construction of the Laniakea state wayside park on the North Shore of Oahu.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Surfriider Foundation, Kamehameha Schools, and nine individuals.

Your Committees find that beach-front construction, land reclamation, and increased tourism are examples of actions that continue to negatively affect Laniakea Beach on the North Shore of Oahu. Your Committees are particularly concerned about the erosion of the shoreline of Laniakea Beach. Your Committees believe that an emergency situation exists on Laniakea Beach as a result of recent high surf, high wind, and drenching rain, as revetments and beach hardening measures are failing to protect the North Shore. Your Committees also find that this problem is not limited to Oahu's North Shore and is of statewide concern. As far as Oahu is concerned, the Department of Transportation needs to place Kamehameha Highway back onto the Hawaii Statewide Transportation Improvement program as the first step to make improvements to the highway a priority. The Hawaii Statewide Transportation Improvement program provides a multi-year listing of state and county projects and identifies those projects slated for federal funding. It is a multi-modal transportation improvement program that is developed utilizing existing transportation plans and policies and current highway, transit, and transportation programming processes. The program delineates the funding categories and the federal and local share required for each project. The program is operated in cooperation with the Oahu Metropolitan Planning Organization.

Your Committees find that although the proposed Laniakea state wayside park is largely independent of the realignment of Kamehameha Highway at Laniakea Beach, the Department of Transportation should plan for the creation of the Laniakea state wayside park and work the park into its realignment plans if possible. Your Committees agree with the testimony of the Department of Transportation, which states, "After the actions associated with roadway alignment and disposition are confirmed and initiated, there could be meaningful discussion between the Department, the Fish and Wildlife Service, and the City and County of Honolulu on the best management policy and infrastructure to enhance protection of the Hawaii green sea turtle and service the public in its desire to view and experience this popular species."

Your Committees note the testimony of the Kamehameha Schools that it will cooperate with the Department of Transportation in planning for and realigning Kamehameha Highway as well as the development of a Laniakea state wayside park.

Your Committees have amended this measure by:

- (1) Deleting sections 1, 2, and 4, which reference Laniakea state wayside park;
- (2) Adding an appropriate purpose section;
- (3) Adding language to authorize the issuance of general obligation bonds and appropriate funds to the Department of Transportation to plan for and realign Kamehameha Highway mauka of Laniakea Beach on the North Shore of Oahu; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3035, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3035, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Kouchi, Slom).

**SCRep. 2351 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2274**

The purpose and intent of this measure is to promote the Hawaii 2050 sustainability plan and ensure the development of innovative, responsible, and sustainable practices that are vital to Hawaii's future by establishing a sustainable living research permit.

Your Committees received testimony in support of this measure from the Hawaii Sustainable Community Alliance and six individuals. Your Committees received comments on this measure from the Department of Agriculture and one individual.

Your Committees find that populations are increasing while resources are decreasing. The result is a need for more sustainable and environmentally appropriate living. Sustainable and environmentally appropriate living is presently inhibited due to zoning regulations that control and regulate conventional development. Some innovations for more sustainable development can only be researched and tested from outside the confines of our existing mechanisms.

The short-range goal of sustainable research sites is to develop sustainable resources and practices such as community resource sharing, natural or recycled building materials, thermal and solar heating or cooling systems, renewable power generation, water harvesting, contained sewage treatment systems, and food production. The long-term goal of these sites is to develop research that will contribute to emergency preparedness development in Hawaii and to further the intentions of the Hawaii 2050 sustainability plan.

Your Committees note the concerns expressed by the Department of Agriculture that while it supports efforts to increase food production and promote agricultural education, the Department is uncertain as to the role and magnitude that agricultural activities and uses will have in these "sustainable living research sites". The Department's concern is that these sites may evolve into urban-like areas over time. The Department recommends that the counties, as they develop their ordinances and rules for sustainable living

research site permits, carefully scrutinize land uses and activities proposed in this measure that are not specifically related to agricultural production and activities.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2274 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6; Ayes with Reservations (Ihara). Noes, none. Excused, 3 (Dela Cruz, Shimabukuro, Taniguchi).

Public Safety, Intergovernmental and Military Affairs

**SCRep. 2352 Human Services on S.B. No. 2800**

The purpose and intent of this measure is to ensure that the hula mae multifamily bond program can continue to finance the development and preservation of affordable rental housing in future years by increasing the hula mae multifamily revenue bond authorization to \$1,000,000,000.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and Hawaii Association of REALTORS.

Your Committee finds that the housing loan and mortgage program, commonly known as the hula mae multifamily revenue bond program, is one effective way to address the affordable housing crisis that continues to plague the State. Since its inception, the hula mae multifamily program has provided \$418,244,699 in revenue bond proceeds to assist in the financing of 3,172 units statewide. Your Committee finds that there is a need for increased revenue bond authorization for this program. In 2013, the total dollar value of requests for hula mae multifamily financing exceeded the balance amount.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2800 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

**SCRep. 2353 Human Services on S.B. No. 2206**

The purpose and intent of this measure is to provide relief for low-income individuals by:

- (1) Establishing a state earned income tax credit and low-income tax credit; and
- (2) Updating the low-income household renters credit and the refundable food/excise tax credit.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii State Commission on the Status of Women, Aloha United Way, Americans for Democratic Action, Catholic Charities Hawaii, Hawaii Alliance for Community-Based Economic Development, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Catholic Conference, Hawaii Primary Care Association, Hawaii State Democratic Women's Caucus, Helping Hands Hawaii, League of Women Voters, National Community Tax Coalition, Partners in Care, PHOCUSED, UNITE HERE Local 5 Hawaii, International Longshore and Warehouse Union Local 142 Hawaii, and five individuals. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that it is important to provide relief for Hawaii's working and low-income individuals and families, as Hawaii is one of the poorest states in the nation, has an extremely high cost of living, and taxes the low-income population heavily compared to other states. Your Committee recognizes the concerns expressed about this measure, including the difficulty of enforcement and the unknown revenue loss that the measure would cost the State.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Provide a general excise tax exemption for food; and
- (2) Insert an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2206, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2206, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2354 Judiciary and Labor on S.B. No. 2959**

The purpose and intent of this measure is to prohibit nepotism in state government by:

- (1) Prohibiting a public official or public employee from appointing, employing, promoting, or advancing a relative within an agency over which the public official or public employee exercises control or the relative of another public official or employee employed by or exercising control over the same agency except under circumstances where the relative is highly qualified;

- (2) Prohibiting legislators from appointing, employing, or voting to confirm a relative;
- (3) Establishing that if a public official recommends a relative or refers a relative for consideration by a public official or public employee standing lower in the chain of command, then it is presumed that the public official or public employee advocated for the appointment, employment, promotion, or advancement of the relative;
- (4) Creating definitions of “agency”, “chain of command”, “public employee”, “public official”, and “relative”; and
- (5) Making the prohibition on nepotism applicable to justices and judges.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and one individual. Testimony in opposition to this measure was submitted by the Department of Human Resources Development.

Your Committee finds that this measure addresses the lack of laws prohibiting nepotism in state government hiring practices. Nepotism causes the appearance of favoritism and preferential treatment that erodes public confidence in government.

Your Committee recognizes the concerns raised by the Department of Human Resources Development that the language in this measure fails to adequately recognize the broad and extended relationships within Hawaii’s unique community, which extend beyond blood relationships or relationships by marriage. The Department also testified to your Committee that implementing this measure may conflict with existing hiring procedures and employment laws and deter the recruitment of qualified employees. However, your Committee asserts that the intended focus of this measure is to prohibit a public official or public employee who is authorized to hire from appointing, employing, promoting, or advancing a relative or recommending to another person to hire the public official’s or public employee’s relative. This measure is not intended to discourage relatives of public officials or public employees from applying for jobs in the same agency in which the public official or public employee is employed.

Additionally, the Hawaii State Ethics Commission raised concerns that the language in this measure is too broad and may pose enforcement problems for the Commission. The Commission suggested language from S.B. No. 434 (2013), which prohibits a legislator or public employee from naming, appointing, or hiring a relative to public office or employment. The Commission explained that this language is narrower than the language in this measure and is clearer, is easier to enforce, and addresses what the Commission understands to be the most common instances of nepotism that may be occurring in state employment. The Commission further suggested language that provides an exception for the temporary employment of a relative in the event of an emergency, such as a natural disaster.

Accordingly, your Committee has amended this measure by adopting the language suggested by the Hawaii State Ethics Commission to delete the contents of this measure and:

- (1) Insert language from S.B. No. 434 (2013), that prohibits a legislator or public employee from naming, appointing, or hiring a relative to public office or employment and amends this language further to:
  - (A) Clarify that a legislator or employee is prohibited from advocating for, employing, promoting, supervising, or advancing any relative to public office or employment; and
  - (B) Add reciprocal beneficiaries to the list of relationships that qualify as a legislator’s or employee’s relative;
- (2) Insert language that allows the Director of Human Resources Development, Administrative Director of the Courts, and Senate President and Speaker of the House of Representatives to prescribe rules for each respective branch or house for the temporary employment of relatives in the event of any emergency as a result of a natural disaster or similar unforeseen event or circumstance; and
- (3) Insert an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2959, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2959, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Solomon).

#### **SCRep. 2355 Transportation and International Affairs on S.B. No. 2901**

The purpose and intent of this measure is to amend or delete any statutes or provisions containing federal requirements that are currently addressed in Hawaii Administrative Rules or otherwise deemed unnecessary.

Your Committee received testimony in support of this measure from the Department of Transportation and the Hawaii Transportation Association.

Your Committee finds that serious financial penalties can be incurred when a state does not comply with certain federal motor carrier safety regulations. Adopting these regulations by reference in administrative rules is expedient and ensures exact compliance. When placing these regulations in the Hawaii Revised Statutes, there is a possibility for noncompliance to result when numerous legislative measures are drafted and enacted. To ensure exact compliance and avoid the possibility of a contradiction between rules and statutes, the Department recommends deleting statutes and provisions of the statutes whenever they are addressed in administrative rules or otherwise deemed unnecessary.

Your Committee has amended this measure by:

- (1) On the recommendation of the Department of Transportation to bring the State into compliance as soon as possible with federal mandates, retaining section 286-202.6, Hawaii Revised Statutes, and making amendments to subsection (a) to conform to federal regulations; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2901, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2901, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 2 (Gabbard, Kouchi).

**SCRep. 2356 (Majority) Commerce and Consumer Protection on S.B. No. 3041**

The purpose and intent of this measure is to apply a reduced gallonage tax on draft beer and beer other than draft beer brewed or produced by a small brewery or brewpub, still wine and sparkling wine produced by a small winery, and distilled spirits produced by a small manufacturer.

Your Committee received testimony in support of this measure from Manulele Distillers, LLC; Island Distillers; Haleakala Distillers; Maui Brewing Co.; and two individuals. Your Committee received testimony in opposition to this measure from the Wine Institute and Anheuser Busch Companies, LLC. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has extremely high costs of production and some of the highest liquor taxes in the nation, which act as a disincentive to manufacturing in the State and hinder competitive capability. Your Committee further finds that this measure is intended to support the growing craft beverage industry in Hawaii, promote manufacturing jobs, and encourage the growth of small businesses.

Your Committee has heard the concerns that, depending on the gallonage limit defining a small winery, the tax reductions in this measure could have a significant negative impact on state revenue, as over ninety percent of wineries in the country produce less than fifty thousand cases of wine a year. Your Committee understands these concerns and notes that amending the application of the small winery and small manufacturer tax rates proposed by this measure to apply to state-based small wineries and small manufacturers may raise constitutional concerns. In light of these concerns, your Committee finds that this measure should be narrowed to apply only to small breweries or brewpubs.

Your Committee has also heard the concerns that the proposed new tax rate for small breweries and brewpubs gives an unfair advantage over larger brewers that are taxed at a current rate of 93 cents per wine gallon on beer other than draft beer. It is your Committee's understanding that the federal government provides a lower tax rate for small breweries and brewpubs, although the federal rate is not as low as the rate proposed by this measure. Your Committee finds that a tax rate for small breweries or brewpubs that is approximately fifty percent less than the existing rate for beer other than draft beer is more appropriate than the 23 cents per wine gallon tax proposed by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Deleting definitions for "small manufacturer" and "small winery";
- (2) Establishing a tax rate of 47 cents, rather than 23 cents, per wine gallon on draft beer and beer other than draft beer that are brewed or produced by a small brewery or brewpub;
- (3) Deleting language that would have established a tax rate of 59 cents per wine gallon on still wine and sparkling wine produced by a small winery and a tax rate of \$2.57 per wine gallon on distilled spirits produced by a small manufacturer;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3041, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3041, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 2. Noes, 1 (Slom). Excused, 2 (Nishihara, Wakai).

**SCRep. 2357 (Majority) Commerce and Consumer Protection on S.B. No. 3050**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii health connector sustainability trust account; and
- (2) Authorize the Insurance Commissioner to levy a Hawaii health connector sustainability fee on all issuers selling plans inside and outside the Hawaii health insurance exchange.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association. Your Committee received comments on this measure from the Office of the Governor, Hawai'i Health Connector, Hawai'i Primary Care Association, American Family Life Assurance Company of Columbus, The Chamber of Commerce of Hawaii, AARP, and Tax Foundation of Hawaii.

Your Committee finds that the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) mandates state health insurance exchanges to be self-sustaining beginning in January 2015. This measure attempts to create a sustainable funding method for Hawaii's health insurance exchange by imposing an assessment based on the number of individuals covered by each insurer. Your Committee further finds that a fee based on premiums would better accommodate cost inflation over time, rather than a fee based on covered lives.

Your Committee additionally finds that it should be clarified in statute that the Hawaii Health Connector is the designated State of Hawaii health insurance exchange for purposes of the Affordable Care Act. This will address any constitutional concerns that might be raised under article VII, section 4, of the Hawaii State Constitution, relating to appropriations of public monies to private parties.

Your Committee also finds that it would be more appropriate to establish a funding mechanism for Hawaii Health Connector sustainability within chapter 435H, Hawaii Revised Statutes, relating to the Hawaii health insurance exchange, rather than establishing a new section within article 2 of the Insurance Code. Your Committee concludes that a surcharge collected by the Insurance Commissioner and appropriated to the Hawaii Health Connector by the Legislature, pursuant to a fully documented budget request, will help ensure accountability and transparency of the Hawaii Health Connector as the Connector moves toward its goal of long-term sustainability.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established the Hawaii health connector sustainability trust account within the compliance resolution fund and would have authorized the Insurance Commissioner to levy a Hawaii health connector sustainability fee on all issuers selling plans inside and outside of the Hawaii health insurance exchange;
- (2) Establishing the Hawaii health insurance exchange special fund, administered by the Department of Commerce and Consumer Affairs, to be used for the financial support of the Hawaii health insurance exchange and to ensure the sustainability of the Hawaii health insurance exchange;
- (3) Beginning January 1, 2015, assessing a Hawaii health insurance exchange surcharge of .345 percent of the premiums derived from the sale of comprehensive medical insurance plans, including dental plans, in the State, to be deposited into the Hawaii health insurance exchange special fund;
- (4) Requiring the Board of Directors of the Hawaii Health Connector to prepare and submit to the Legislature a fully documented biennial budget request for the Connector;
- (5) Annually appropriating the funds collected from the Hawaii health insurance exchange surcharge to the Hawaii health insurance exchange, pursuant to the documented budget request demonstrating the need for and use of the surcharge for Hawaii Health Connector sustainability;
- (6) Specifying that not more than \$15,000,000 shall be allocated to the Hawaii health insurance exchange in any calendar year, but providing that the Legislature may increase this ceiling through adoption of a subsequent budget request from the Hawaii Health connector;
- (7) Clarifying the status of the Hawaii Health Connector as the designated health insurance exchange for the State;
- (8) Clarifying that the Hawaii Health Connector must submit the results of the Connector's annual audit to the Legislature;
- (9) Specifying that funding for the Hawaii Health Connector may include appropriations from the Legislature via the Hawaii health insurance exchange surcharge, but noting that the current two percent surcharge authorized by the Connector shall cease to be collected once the Hawaii health insurance exchange surcharge is instituted;
- (10) Amending the purpose section for clarity; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that because this measure assesses a surcharge on all comprehensive medical plans in the State, more plans and individuals are covered under the surcharge. The result is a much lower surcharge than the two percent surcharge currently levied by the Hawaii Health Connector and a level playing field that promotes competition and ensures equity amongst health insurance issuers. This amended measure also promotes additional accountability and transparency for the Hawaii Health Connector.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3050, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3050, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Nishihara, Wakai). Noes, 1 (Slom). Excused, 1 (Taniguchi).

**SCRep. 2358 (Majority) Commerce and Consumer Protection on S.B. No. 2376**

The purpose and intent of this measure is to prohibit advertisements for massage, relaxation, spa, escort, or body rubs from including certain types of pictures and referring to the personal physical qualities of a person other than the hands, wrists, and forearms.

Your Committee received testimony in support of this measure from The Pacific Alliance to Stop Slavery; IMUAlliance; The Wayne Foundation, Inc.; Courage Worldwide Hawaii; and fifteen individuals. Your Committee received comments on this measure from the Board of Massage Therapy.

Your Committee finds that in today's world, the Internet has become the predominant vehicle for advertising black market services, including sex-trafficking. Your Committee further finds that approximately three hundred advertisements publicizing Hawaii-based prostitution are posted online every day. This measure addresses this troubling problem by prohibiting certain references in advertisements for massage, relaxation, spa, escort services, and body rubs and targeting the third-party publishers or producers of these advertisements.

However, your Committee has heard the concerns that this measure contains language that is very similar to certain paragraphs in section 452-23(a), Hawaii Revised Statutes. In 1998, the Department of the Attorney General opined that language in section 452-

23(a), Hawaii Revised Statutes, was overly broad and infringed upon commercial speech rights afforded by the First Amendment. Amendments are therefore necessary to narrow the restrictions imposed under this measure.

Accordingly, your Committee has amended this measure by:

- (1) Prohibiting advertisements or directories that include images depicting any person being advertised as a massage therapist, relaxation therapist, or escort in a nude or semi-nude condition, rather than prohibiting pictures depicting any personal physical qualities other than the hands, wrists, and forearms of a person advertised as a massage therapist or relaxation therapist;
- (2) Prohibiting advertisements that refer to the intimate areas of persons advertised as a massage therapist, relaxation therapist, or escort, rather than prohibiting advertisements that refer to any personal physical qualities of these persons;
- (3) Prohibiting publishers or producers of advertising mediums from publishing or broadcasting advertisements or listings for escorts or escort services that do not comply with the requirements of this measure;
- (4) Specifying that publishers or producers who obtain an agreement from an escort that the escort will not advertise in violation of state or federal law are entitled to a rebuttable presumption of compliance;
- (5) Inserting the new definitions proposed by this measure into section 712-1210, Hawaii Revised Statutes, rather than a new section under part II, chapter 712, Hawaii Revised Statutes;
- (6) Adding definitions of “escort”, “escort service”, “intimate areas”, and “semi-nude”;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the restrictions in this amended measure have been narrowed in an attempt to address First Amendment commercial free speech rights. Your Committee acknowledges that the Department of the Attorney General may still have constitutional concerns regarding this amended measure and therefore requests your Committee on Judiciary and Labor to further examine this issue.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2376, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2376, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Taniguchi).

**SCRep. 2359 (Joint) Human Services and Economic Development, Government Operations and Housing on S.B. No. 2539**

The purpose and intent of this measure is to authorize the Hawaii Community Development Authority to sell or assign fee simple interest in certain Kakaako Community Development District lands with respect to reserved housing, without legislative approval, under certain conditions, and to fee simple interest to eligible owners.

Your Committees received testimony in support of this measure from Kakaako United, Community Alliance for Mental Health, and one individual. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs and two individuals. Your Committees received comments on this measure from the Hawaii Community Development Authority.

Your Committees find that one part of a larger solution to affordable housing is allowing the Hawaii Community Development Authority to sell reserved housing without legislative approval and in fee simple under certain conditions. The intent of this measure is to allow expeditious turnaround by the Authority of reserved housing and to ensure that housing remains affordable for low-income or reserved housing income levels. Your Committees heard testimony expressing concern about the buy-back terms and the provision that requires the reserved housing to remain affordable in perpetuity. Your Committees believe that the buy-back period should be ten years instead of five years, and that this measure deserves additional exploration.

Your Committees have amended this measure by:

- (1) Adding language with respect to reserved housing that references the Hawaii Community Development Authority to more accurately reflect the title of the measure;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2539, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2539, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Human Services  
Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

Economic Development, Government Operations and Housing  
Ayes, 4. Noes, none. Excused, 3 (Baker, English, Wakai).

**SCRep. 2360 Transportation and International Affairs on S.B. No. 2902**

The purpose and intent of this measure is to expand the authority of the Director of Transportation over required motor vehicle and motor carrier vehicle inspections in the State.

Your Committee received testimony in support of this measure from the Department of Transportation, City and County of Honolulu Department of Customer Services, Hawaii Transportation Association, and Motor and Equipment Manufacturers Association.

Your Committee finds that as time passes, the need to upgrade the methods and procedures of state motor vehicle and motor carrier vehicle inspections arises. The current system of making changes to the inspection programs is inefficient, as a measure needs to be introduced in the Legislature every time a change in inspection fees is required.

In addition to authorizing the Director of Transportation to establish inspection-related fees and costs by administrative rule, rather than setting the fees and costs in statute, this measure also deletes the requirement for insurance information, except the expiration date, to be placed on an inspection certificate. With the implementation of an electronic inspection form program, digital images of insurance cards can be made and stored by inspection stations. The image can easily be retrieved if an inspector is suspected of not checking the card or accepting a fraudulent card. Putting only the expiration date on the inspection certificate will minimize the data entry required by inspectors while providing the most important data on the certificate.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2902 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Gabbard, Kouchi).

**SCRep. 2361 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2944**

The purpose and intent of this measure is to authorize counties to issue permits for educational retreats to benefit local residents and provide various instructional programs, including programs related to nature, culture, wellness, and sustainable living.

Your Committee received testimony in support of this measure from Kalani Honua, Kalani Oceanside Retreat, and three individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that educational retreats that provide various instructional programs help communities by increasing food production and building sustainable rural economies. These educational retreats provide for a community's needs for energy, employment opportunities, education, recreation, safety, supplies, and services. Accordingly, this measure expands and furthers educational retreat properties, programs, and facilities by creating the Kupuna Retreat Education Act for Teaching Ecology and providing counties with the authority to issue educational retreat permits.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2944 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2362 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2597**

The purpose and intent of this measure is to appropriate funds for the planning, design, and construction of a memorial honoring the veterans of the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation Enduring Freedom, Operation New Dawn, Global War on Terrorism, Homeland Defense, and Operation Noble Eagle, and those who have protected our borders by land, sea, and air and replicas on each neighbor island.

Your Committee received testimony in support of this measure from the Department of Defense State Civil Defense Division; State Office of Veterans Services; MOAA Hawaii Chapter; Military Officers Association of America, Hawaii Chapter; and four individuals.

Your Committee finds that the Legislature enacted Act 139, Session Laws of Hawaii 2013, directing the development of a plan to establish a war memorial. Consequently, the Gulf War Memorial task force collected data and proposed site selection for the memorial. Accordingly, this measure appropriates the funds to build and establish a memorial and replica memorials on each neighbor island, as recommended by the Gulf War Memorial task force.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2597 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 2363 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2270**

The purpose and intent of this measure is to confer upon a property owner a private right of action to file suit directly in circuit court to enforce zoning violations on neighboring properties that directly affect them.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS.

Your Committee finds that counties may not be able to take action to investigate and enforce every operation that violates county zoning ordinances. The lack of enforcement of zoning laws imposes a burden on neighboring property owners, which is an unfair imposition on their quality of life. This measure seeks to improve the application of section 46-4, Hawaii Revised Statutes, and provide aggrieved property owners with a private right of action to enforce zoning violations in court, without having to wait until relevant issues are resolved by an administrative body first or exhaust administrative remedies first.

Your Committee has amended this measure by inserting an effective date of July 1, 2020, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2270, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2270, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2364 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2897**

The purpose and intent of this measure is to:

- (1) Clarify that Department of Taxation criminal investigators who are subject to civil service laws, also have police powers; and
- (2) Provide that the civil service exemption for criminal investigators is discretionary, rather than mandatory.

Your Committee received testimony in support of this measure from the Department of Taxation and Hawaii Government Employees Association. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that section 231-4.3, Hawaii Revised Statutes, only grants police powers to civil service exempt criminal investigators. However, the Department of Taxation's criminal investigation unit supervisor is a civil service employee. This measure clarifies that all of the Department's criminal investigators, including those who are civil service employees, have police powers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2897, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2897, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2365 (Joint/Majority) Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs on S.B. No. 2935**

The purpose and intent of this measure is to:

- (1) Specify the acceptable identifying documents that driver's license applicants may produce to obtain a license if they are ineligible to receive a social security number; and
- (2) Authorize the Examiner of Drivers to license applicants who produce these documents.

Your Committees received testimony in support of this measure from the Department of Human Services; Community Alliance on Prisons; UNITE HERE Local 5; Hawaii Catholic Conference; Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Economic Justice; HawaiiPacific.org; PHOCUSED; Women Helping Women; Hawaii Conference of the United Church of Christ; Waikiki Health; Hawaii Coalition for Immigration Reform; American Immigration Lawyers Association-Hawaii Chapter; Immigrant Services Division of Maui County; and seven individuals. Your Committees received testimony in opposition to this measure from the Department of Customer Services of the City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Honolulu Police Department; Maui Police Department; and Hawaii Police Department. Your Committees received comments on this measure from the Department of Transportation, Hawaii Civil Rights Commission, and Hawaii Insurers Council.

Your Committees find that under sections 286-111(d) and (e), Hawaii Revised Statutes, a driver's license applicant must furnish a social security number or, in the alternative, provide a letter from the Social Security Administration stating that the applicant is not eligible to receive a social security number. Those requirements mean that many people cannot immediately apply for a driver's license, including some immigrants. Many of Hawaii's low-income families have an undocumented adult family member who is unable to safely and legally assist in driving and transporting other family members to work, school, or the grocery store, or in responding to emergencies. This measure will increase access to driver's licenses and ensure that Hawaii's roads are safer by requiring all drivers to pass a written test and driving test on the rules of the road.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Establish a new section in chapter 286, Hawaii Revised Statutes, to allow the Examiner of Drivers to issue driver's licenses or instruction permits with a unique identifier to individuals who are unable to submit proof that their presence in the United States is authorized under federal law, if certain criteria are met;
- (2) Provide the Director of Transportation with authority to adopt rules to carry out the purposes of the new section in chapter 286, Hawaii Revised Statutes;

- (3) Require the Examiner of Drivers to accept various types of documentation as proof of a person's identity and Hawaii residency;
- (4) Require driver's licenses and instruction permits with a unique identifier to be clearly distinguishable from the Hawaii driver's licenses and instruction permits and to be used solely for driving;
- (5) Require the Examiner of Drivers to modify a driver's license with a unique identifier if the United States Department of Homeland Security determines that a driver's license issued pursuant to this measure does not satisfy federal requirements;
- (6) Establish that the inability to obtain a driver's license pursuant to this measure does not negate the legal requirement of every driver in this State to obey the motor vehicle laws;
- (7) Make it a violation to discriminate against individuals simply because they have a driver's license with a unique identifier;
- (8) Restrict information collected pursuant to this measure from being a part of the public record or disclosed by the Examiner of Drivers, except as provided by law;
- (9) Specify that driver's licenses with a unique identifier may not be used to determine a person's citizenship or immigration status as a basis for a criminal investigation, arrest, or detention;
- (10) Allow for the Examiner of Drivers to determine and collect a separate fee from individuals issued driver's licenses with a unique identifier, to offset reasonable administrative costs of implementing the requirements of this measure; and
- (11) Insert an effective date of September 1, 2014.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2935, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2935, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Green).

Transportation and International Affairs  
Ayes, 8. Noes, none. Excused, 1 (Slom).

**SCRep. 2366 (Joint) Public Safety, Intergovernmental and Military Affairs and Higher Education on S.B. No. 3053**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii unmanned aerial systems test site Chief Operating Officer position, who will manage the operations of the Hawaii unmanned aerial systems test sites and serve on the Pan-Pacific Unmanned Aerial Systems Test Range Complex management team;
- (2) Establish an advisory board to oversee and manage unmanned aerial systems test site operations; and
- (3) Appropriate \$470,000 to the University of Hawaii to staff and operate Hawaii's unmanned aerial systems test site activities.

Your Committees received testimony in support of this measure from the Department of Transportation; Department of Business, Economic Development, and Tourism; Hawaii Aerospace Advisory Committee; University of Hawaii; Niihau Ranch; and eight individuals.

Your Committees find that there is a need to safely integrate unmanned aerial systems into national air space and Hawaii offers many unique qualities to support these operations. Your Committees further find that the Federal Aviation Administration, at the direction of the United States Congress, designated Hawaii, in partnership with Alaska and Oregon, as one of six national unmanned aerial test sites to research and develop unmanned aerial systems operating standards and regulations. Accordingly, this measure will fund the staffing and operating costs of Hawaii unmanned aerial systems test site activities and establish leadership positions to oversee and manage operations, thereby securing a prominent role for the State in this pioneering technology.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3053, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3053, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4. Noes, none. Excused, 1 (Green).

Higher Education  
Ayes, 5. Noes, none. Excused, 2 (Ige, Slom).

**SCRep. 2367 (Joint/Majority) Public Safety, Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.B. No. 3103**

The purpose and intent of this measure is to ensure equitable contributions to the funding of 911 systems by:

- (1) Imposing a single, statewide enhanced 911 surcharge upon the consumer's retail purchase of a prepaid wireless telecommunications service, to be collected at the point of sale;
- (2) Defining the term "prepaid wireless telecommunications service";
- (3) Amending the definition of "prepaid connection" to exclude the sale of a prepaid wireless telecommunications service; and
- (4) Requiring the Enhanced 911 Board to include at least one representative from a prepaid wireless telecommunications service provider.

Your Committees received testimony in support of this measure from the Enhanced 911 Board and Maui Police Department. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association, CITA – The Wireless Association, AT&T, and the Retail Merchants of Hawaii. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that prepaid wireless consumers have the same access to emergency 911 services from their wireless devices as wireless consumers on term contracts. Yet, prepaid wireless consumers receive this benefit without having to pay the enhanced 911 surcharge that is imposed on wireless consumers with term contracts. This measure ensures equitable contributions to the funding of 911 systems from consumers of prepaid wireless telecommunications services.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Establish a new section in chapter 138, Hawaii Revised Statutes, to require a prepaid wireless E911 surcharge of 66 cents on each retail prepaid connection transaction at the point of sale, to be stated on an invoice, receipt, or other similar document that is provided to the consumer by the seller or otherwise disclosed to the consumer;
- (2) Provide that the prepaid wireless E911 surcharge is the liability of the consumer;
- (3) Allow sellers to deduct and retain three percent of the prepaid wireless E911 surcharges that are collected and require the seller to remit all remaining surcharges collected to eHawaii.gov;
- (4) Allow eHawaii.gov to retain up to two percent of the remitted prepaid wireless E911 surcharges collected to cover the costs of administering the prepaid wireless E911 charges and require eHawaii.gov to transfer all remaining remitted surcharges to the enhanced E911 fund within thirty days;
- (5) Provide the seller with discretion to not apply the prepaid wireless E911 surcharge to a transaction of a minimal amount of prepaid wireless telecommunications service sold with a prepaid wireless device for a singly, non-itemized price;
- (6) Provide that audit and appeal procedures applicable to retailers under the general excise tax law shall apply to prepaid wireless E911 surcharges and that section 138-9, Hawaii Revised Statutes, shall apply to providers and sellers of prepaid wireless telecommunications service;
- (7) Require eHawaii.gov to establish procedures by which a seller of prepaid wireless telecommunications service may document that a sale is not a retail transaction;
- (8) Establish that the prepaid wireless E911 surcharge shall be the only funding obligation imposed on prepaid wireless telecommunications service within the State for enhanced 911 service costs;
- (9) Amend section 138-1, Hawaii Revised Statutes, to include new definitions; and
- (10) Insert an effective date of January 1, 2015.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3103, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3103, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

Commerce and Consumer Protection  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 2368 (Joint) Human Services and Health on S.B. No. 2009**

The purpose and intent of this measure is to provide quality, cost-effective health care for Hawaii residents who are uninsured, newly uninsured, underinsured, potential Medicaid enrollees, or Medicaid enrollees.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Primary Care Association, Lanai Community Health Center, Malama I Ke Ola Health Center, Hamakua Health Center, Waianae Coast Comprehensive Health Center, Waimanalo Health Center, Waikiki Health, Hooola Lahui Hawaii, Community Alliance for Mental Health, Hawaii Pacific Health, and six individuals. Your Committees received comments on this measure from the Department of Human Services and two individuals.

Your Committees find that community health centers serve the State's uninsured, underinsured, and low-income population, in addition to one-fourth of the State's Medicaid members, through a patient-centered delivery system. In 2012, community health centers saved the health care system \$182,000,000 by providing timely, effective care and care management that reduced unnecessary emergency room, inpatient, and specialty utilization. Your Committees further find that funding is needed to synchronize the trajectory of community health center growth with Hawaii's implementation of the federal Patient Protection and Affordable Care Act. It is in the State's interest to ensure access to primary, behavioral, dental, and preventative health care for all of its residents. Your Committees support the funding requests in the Executive Supplemental Budget submitted by the Governor for adult dental benefits for Medicaid enrollees, out-stationed eligibility workers, and the health homes program under Medicaid.

Your Committees have received testimony on this measure regarding funding for health homes. Your Committees find that this measure appropriates \$2,000,000 out of general revenues for both private providers and federally qualified community health centers to establish health care homes. Additionally, the measure appropriates \$2,000,000 from the community health centers special fund to establish health care homes at federally qualified community health centers. Your Committees further find that the intent of this measure is to draw down maximum federal funds, which due to the 90 percent - 10 percent match are expected to be \$18,000,000 to match the appropriation from general revenues for health care homes, and \$18,000,000 to match the appropriation from the community health centers special fund for health care homes at federally qualified community health centers.

Your Committees have amended this measure by:

- (1) Amending the amount of funds appropriated for basic adult dental benefits to Medicaid enrollees from \$4,800,000 to \$4,000,000 because it will take time to re-establish the program and, therefore, a full year of operating funds is not necessary;
- (2) Amending the amount of funds appropriated for outreach and eligibility services from \$800,000 to \$320,000 to reflect the Department of Human Services' request in the Executive Supplemental Budget that includes federal matching funds;
- (3) Changing the appropriation amount for the establishment of health homes under Medicaid services from \$2,000,000 to \$2,016,000 to reflect the Department of Human Services' request in the Executive Supplemental Budget; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2009, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2009, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 4. Noes, none. Excused, 1 (Slom).

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2369 Education on S.B. No. 2423**

The purpose and intent of this measure is to:

- (1) Authorize the Department of Education to accept gifts or donations on behalf of the Department, individual schools, or school complexes and based on criteria established by the Board of Education; and
- (2) Allow schools and classes to participate in fundraising or charitable activities, in conjunction with a 501(c)(3) tax-exempt organization, under certain circumstances and based on criteria established by the Board of Education.

Your Committee received testimony in support of this measure from the Department of Education and Hawaii Association of Independent Schools. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission. Your Committee received comments on this measure from the Hui for Excellence in Education.

Your Committee finds that it is important that students and schools are able to partner with charitable community organizations to foster civic engagement and service learning. School or class participation in fundraising and charitable activities engages students and allows them to work alongside staff, parents, and community members to ensure long lasting and meaningful contributions to their schools, communities, and organizations.

Your Committee further finds that partnerships and project-based learning experiences like these are also aligned with the Board of Education's Policy 2109 (Character Education) and the Department of Education's community contributor general learner outcomes, and recognizes that teaching students to be ethical and moral citizens cannot be done through textbooks.

Your Committee notes that all employees of the Department of Education are subject to the State Ethics Code and all individuals and entities that contract, volunteer, or otherwise participate in activities with the Department of Education are held accountable under the Board of Education's Policy 1200-1.41 (Employee, Contractor, and Volunteer Ethics and Conflict of Interest Policy), which has recently been audited and reviewed.

Your Committee also notes that this measure allows classes and schools to participate in fundraising or charitable activities in conjunction with charitable organizations only when it is part of a school project that benefits student learning. In addition, this measure tasks the Board of Education to develop the proper criteria and guidelines that schools and classes must follow when participating in such activities.

Your Committee has amended this measure by:

- (1) Removing language authorizing the Department of Education to accept gifts or donations, as this is allowed in other sections of the Hawaii Revised Statutes (HRS);
- (2) Inserting language to require that charitable organizations with which a school or class may partner for fundraising and charitable activities be registered as a charitable organization under section 467B-2.1, HRS, or be exempt from registering under that section; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2423, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2423, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ruderman).

**SCRep. 2370 Education on S.B. No. 2424**

The purpose and intent of this measure is to require the Department of Education and the Department of Accounting and General Services to develop a master strategy for cooling all public school facilities and to address related factors.

Your Committee received testimony in support of this measure from the Department of Education, Department of Accounting and General Services, Hawaii State Teachers Association, IMUAlliance, Hawaii Bicycling League, and two individuals.

Your Committee clearly stated at the hearing on this measure that while this measure does not currently have an appropriation amount for air conditioning in schools, nothing precludes the Legislature from including an appropriation in the supplemental budget measure, given the appropriation request for \$25,000,000. This would, in fact, be preferable to passage of a \$25,000,000 appropriation in this measure, especially given the fact that such an appropriation measure would be constitutionally prohibited from passing Final Reading in the Legislature prior to the transmittal of the supplemental budget to the Governor.

Your Committee finds that a key factor in influencing a student's ability to learn is the student's learning environment. Many schools in Hawaii lack air conditioning or proper ventilation, which results in classrooms and facilities that are overheated. This measure tasks the Department of Education and Department of Accounting and General Services to develop a master strategy for cooling, taking a comprehensive look at a number of factors, including but not limited to the current facility needs, projected long-term repair and maintenance, and applicable electrical and environmental standards to address this issue so that public schools can provide a more comfortable environment that is conducive to student learning.

Recognizing that renewable energy technologies must be a part of the master strategy and understanding the Legislature's sense of urgency and need for good data going forward, your Committee has amended this measure by:

- (1) Requiring the Department of Education and the Department of Accounting and General Services to consult with the Hawaii State Energy Office of the Department of Business, Economic Development, and Tourism and the Hawaii Natural Energy Institute of the University of Hawaii in developing the master strategy for cooling all public school facilities;
- (2) Requiring the departments' joint report to the Legislature to include:
  - (A) A timeline, including dates and prioritization schedules, for the implementation of the master strategy for cooling all public school facilities;
  - (B) Discussion on the capacity, infrastructure, and funding needs of the Department of Education in implementing the master strategy for cooling all public school facilities; and
  - (C) Discussion on how the master strategy for cooling all public school facilities complements and overlaps with the Department of Education's overall facilities master plan and sustainability efforts; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

If this measure is considered for passage by your Committee on Ways and Means, it is your Committee's hope that any request for resources to support the Department of Education in meeting the requirements of this measure will be given favorable consideration.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2424, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2424, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2371 Education on S.B. No. 2922**

The purpose and intent of this measure is to:

- (1) Lengthen the school year from one hundred eighty days to one hundred ninety days beginning with the 2015-2016 school year; and
- (2) Discontinue the requirements for the minimum number of instructional hours effective at the end of the 2014-2015 school year.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from IMUAlliance. Your Committee received comments on this measure from the Department of Education and Hawaii State Teachers Association.

Your Committee finds that lengthening the school year from one hundred eighty days to one hundred ninety days will result in increased costs for the Department of Education, as multiple employees, including teachers, administrators, educational assistants, school health aides, security attendants, and school food services personnel will be impacted. It should also be noted that teachers and other school personnel currently work for one hundred ninety days per their contracts, and any increase in student instructional days would need to account for the ten professional development days currently allotted in the contracts. The Department of Education will not be able to meet the requirements of this measure without appropriate resources.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation to the Department of Education in an unspecified amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2922, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2922, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2372      Agriculture on S.B. No. 2294**

The purpose and intent of this measure is to issue general obligation bonds and appropriate funds for the purpose of making capital improvements to irrigation systems in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Farmers Union United; Hawaii Farm Bureau Federation; Hawaii Cattlemen's Council, Inc.; and five individuals. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that many irrigation systems throughout the State are antiquated and have deteriorated over time. Farmers and ranchers depend on these irrigation systems for their operations. For a sustainable agricultural industry, it is imperative that farmers have a reliable source of water.

Your Committee has amended this measure by clarifying that the funding provided by this measure is not only for making capital improvements to irrigation systems, but also for making capital improvements to associated agricultural management facilities, and making a conforming amendment to the purpose section.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2294, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2294, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, English, Slom).

**SCRep. 2373      (Joint) Agriculture and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2175**

The purpose and intent of this measure is to:

- (1) Authorize the growing of industrial hemp for certain purposes under specified conditions;
- (2) Establish an advisory group to make recommendations to the Chairperson of the Board of Agriculture on all matters pertaining to the cultivation of industrial hemp;
- (3) Require a report and opinion from the Attorney General regarding certain reported incidents and the authorization of this measure pursuant to federal law, respectively; and
- (4) Require a report from the industrial hemp advisory group, in consultation with the Hemp Industrial Association, regarding the economic impacts of industrial hemp cultivation by January 1, 2019, or four years after this measure is authorized under federal law, whichever is later.

Your Committees received testimony in support of this measure from the Kona Chapter of Hawaii Farmers Union United; Artel, Inc.; Pacific Biodiesel Technologies; Vote Hemp; Paradise Action Women's Alliance; Hawaii Sustainable Community Alliance; Green Futures and Hawaiian Standard; Hui 'O Malama 'Aina; and seventy-six individuals. Your Committees received testimony in opposition to this measure from the Honolulu Police Department and two individuals. Your Committees received comments on this measure from the Department of Agriculture and two individuals.

Your Committees find that industrial hemp products are a \$500,000,000 industry in the United States. Hemp fibers are used to make thousands of different items, including fabrics, yarns, carpeting, home furnishings, construction materials, foods, body-care products, and auto parts. Although it is a variety of Cannabis, industrial hemp is genetically distinct from the psychoactive marijuana plant and requires different cultivation practices. However, due to its close relationship to the psychoactive variety of the plant, it has been illegal for cultivation in the United States until recently. Fortunately, earlier this month, President Obama signed a farm bill legalizing hemp production for research purposes by state agriculture departments and colleges and universities.

Your Committees further find that industrial hemp would be highly useful in Hawaii for the purpose of remediating toxic soil and as an efficient feedstock for biofuel. In fact, the University of Hawaii, College of Tropical Agriculture and Human Resources, is prepared

to conduct a research project that studies hemp remediation and biofuel production. This type of research project is now authorized by federal law, making the current measure legalizing industrial hemp cultivation largely unnecessary.

Accordingly, your Committees have amended this measure by deleting its contents and inserting language that:

- (1) Authorizes the Dean of the College of Tropical Agriculture and Human Resources at the University of Hawaii at Manoa to establish a two-year industrial hemp remediation and biofuel research program; and
- (2) Requires the Dean to submit a final report to the Legislature twenty days prior to the convening of the 2016 Regular Session.

As affirmed by the records of votes of the members of your Committees on Agriculture and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2175, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2175, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Wakai).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

**SCRep. 2374 (Joint) Agriculture and Water and Land on S.B. No. 2038**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii College of Tropical Agriculture and Human Resources, to address issues that relate to farming sufficiency in conservation, water and energy management, soil science, and food safety.

Your Committees received testimony in support of this measure from the University of Hawaii College of Tropical Agricultural and Human Resources and one individual.

Your Committees find that there are two major areas of concern to the agricultural sector and the public. The first concern is organic agriculture and soil health. The second concern is good agricultural practices and food safety. The additional funds provided by this measure will address both areas of concern by supporting research to address organic pest management needs, training in safe and effective organic farming techniques, pesticide safety training, and the food safety coaching program. Improving organic agriculture and food safety practices will greatly benefit the State's agricultural industry and bolster consumer confidence in the quality and safety of agricultural products.

Your Committees have amended this measure by inserting an appropriation amount of \$730,000 for the University of Hawaii College of Tropical Agriculture and Human Resources to address issues that relate to farming sufficiency in conservation, water and energy management, soil science, and food safety.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2038, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2038, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Water and Land

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Ihara, Slom).

**SCRep. 2375 (Joint) Agriculture and Water and Land on S.B. No. 2292**

The purpose and intent of this measure is to provide funding to construct the necessary irrigation infrastructure on the former Galbraith Estate lands now owned by the State.

Your Committees received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Hawaii Farm Bureau Federation, Local Food Coalition, Land Use Research Foundation of Hawaii, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance and one individual.

Your Committees find that Hawaii's agricultural industry is one of the most important economic sectors in the State. The State recently acquired one of Oahu's largest tracts of undeveloped land, known as the Galbraith Estate, that has the potential to significantly increase local agricultural production. This land, however, had been developed for large agricultural operations and requires funding for the construction of appropriate irrigation systems to support a diversity of smaller agricultural operations. Your Committees find that funding infrastructure improvements on the former Galbraith Estate will attract a diversity of businesses to the land and will increase our food self-sufficiency and agricultural economy.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2292 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, English, Slom).

**SCRep. 2376 (Joint) Higher Education and Energy and Environment on S.B. No. 3016**

The purpose and intent of this measure is to require the University of Hawaii Sea Grant College Program to submit a report to the Legislature updating its 1996 report on oil spills and the potential effect on Hawaii.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that in 1996, the University of Hawaii Sea Grant College Program issued a report, "Hawaii's Readiness to Prevent and Respond to Oil Spills". The report has not been updated since it was first released.

The recent molasses spill in Honolulu Harbor highlights the need to update the report and prepare a spill prevention plan for the State. This measure requires the University of Hawaii Sea Grant College Program to submit to the Legislature an update of its 1996 report and provides the necessary resources to the Sea Grant College Program.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3016 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2377 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2472**

The purpose and intent of this measure is to improve the regulation of occupational therapists and occupational therapy assistants by establishing an occupational therapy program and licensing requirements for occupational therapists and occupational therapy assistants.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, The Queen's Health Systems, American Occupational Therapy Practice, Hawaii Athletic Trainers' Association, Occupational Therapy Association of Hawaii, Kaiser Permanente, CHART Rehabilitation of Hawaii, Kuakini Health System, Hawaii Pacific Health, and several individuals.

Your Committees find that Hawaii is the only state that does not currently license occupational therapists and is one of three remaining states that do not license occupational therapist assistants. Your Committees further find that licensure will safeguard public health and provide the highest quality of occupational therapy services in Hawaii.

Your Committees have amended this measure by:

- (1) Clarifying the powers and duties of the Director of Commerce and Consumer Affairs (Director);
- (2) Requiring licensing for occupational therapy assistants as of January 1, 2017;
- (3) Requiring occupational therapy assistants to complete certain educational, field work, and examination licensing requirements;
- (4) Removing distinctions between permanent and temporary licenses;
- (5) Specifying that each active occupational therapist registration shall become an active occupational therapist license with renewal effective December 31, 2014;
- (6) Requiring the Director to treat any pending application for an occupational therapist registration as an application for licensure effective January 1, 2015;
- (7) Permitting the revocation or suspension of a license for violation of chapter 436B, Hawaii Revised Statutes, or any rule or order of the Director;
- (8) Amending, rather than repealing, section 457G-1.5, Hawaii Revised Statutes, to insert the description of the practice of occupational therapy;
- (9) Amending, rather than repealing, section 457G-2, Hawaii Revised Statutes, to insert the qualifications of foreign-trained persons for licensure as occupational therapists;
- (10) Inserting language to amend the penalties for violations of chapter 457G, Hawaii Revised Statutes;
- (11) Inserting an appropriation for implementation of the occupational therapists licensure program, including hiring of necessary personnel;
- (12) Inserting an effective date of July 1, 2014;
- (13) Amending the purpose section to reflect these changes; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2472, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2472, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection

Ayes, 5. Noes, none. Excused, none.

**SCRep. 2378 (Joint) Health and Judiciary and Labor on S.B. No. 3095**

The purpose and intent of this measure is to:

- (1) Designate a portion of the Hawaii State Hospital as a forensic facility; and
- (2) Appropriate funds to the Department of Health to cover any necessary expenses resulting from the designation.

Your Committees received testimony in support of this measure from the Department of Health; Department of Public Safety; Hawaii Government Employees Association; Hawaii Disability Rights Center; United Public Workers, AFSCME, Local 646; and one individual.

Your Committees find that the conditions at the Hawaii State Hospital have raised concerns regarding hospital worker safety and patient care. Your Committees further find that a forensic facility would appropriately house the forensic population with well-trained staff operating at a sensible ratio to patients. This measure provides a level of security that will assist in the prevention of staff assaults and enhance the mental health services provided to the forensic patient population.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3095 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Ihara, Shimabukuro, Solomon).

**SCRep. 2379 (Joint/Majority) Health and Judiciary and Labor on S.B. No. 2859**

The purpose and intent of this measure is to increase administrative penalties for violations of chapter 321, Hawaii Revised Statutes, and rules adopted pursuant to this chapter.

Your Committees received testimony in support of this measure from the Department of Health and one individual. Your Committees received testimony in opposition to this measure from The Chamber of Commerce of Hawaii, Hawaii Food Industry Association, and Hawaii Restaurant Association.

Your Committees find that the administrative penalty for violations of chapter 321, Hawaii Revised Statutes, has not been increased in nearly thirty years. Consequently, this penalty does not have the necessary impact to force violators of departmental rules to rapidly correct major violations.

Your Committees further find that the maximum penalty of \$10,000 per day per violation, proposed by this measure, provides the Department of Health with the ability to better scale the severity of the violation to the final penalty amount. Violations of lesser severity will be assessed lower penalties, while egregious violations will be assessed the maximum penalty. This measure also provides parity with the maximum penalties available under chapter 328, Hawaii Revised Statutes, part of which provides regulatory authority over food manufacturers, distributors, and retailers.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2859 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, 1 (Slom). Excused, none.

Judiciary and Labor

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Shimabukuro, Solomon).

**SCRep. 2380 Health on S.B. No. 3064**

The purpose and intent of this measure is to:

- (1) Allow for the transition of the Hawaii Health Systems Corporation, a regional system, to a nonprofit hospital corporation incorporated in Hawaii before January 1, 2000;
- (2) Require the nonprofit hospital corporation to maintain equivalent services in acquired regions for no less than five years; and

- (3) Require the State to continue to be responsible for certain liabilities of the Corporation related to collective bargaining contracts negotiated by the State before the effective date of this measure.

Your Committee received testimony in support of this measure from the Office of the Governor; Hawaii Health Systems Corporation; Hawaii Health Systems Corporation, West Kauai Region; Hawaii Health Systems Corporation, Maui Region; Hawaii Health Systems Corporation, East Hawaii Region; Hilo Medical Center; Maui Memorial Medical Center; Hawaii Health Systems Corporation, East Hawaii Regional Board; Hawaii Health Systems Corporation, West Hawaii Regional Board; ILWU Local 142; Pradeepta Chowdhury M.D., LLC; and several individuals.

Your Committee finds that the current structure of the Hawaii Health Systems Corporation is not sustainable for the long-term delivery of quality health care services for residents, especially those on neighbor islands. Your Committee further finds that the shortage of physicians is growing in Hawaii, with critical services in jeopardy. This measure provides a major transformation to the State's health care system to improve the standard of care in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3064, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3064, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 2381 (Joint) Human Services and Judiciary and Labor on S.B. No. 2256**

The purpose and intent of this measure is to aid victimized and exploited juvenile prostitutes by creating a specialty juvenile prostitution court as a pilot program.

Your Committees received testimony in support of this measure from the Judiciary, Pacific Alliance to Stop Slavery, IMUAlliance, Courage Worldwide Hawaii, Courage House Hawaii, and forty-two individuals. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committees find that, too often, sex-trafficking victims are re-traumatized by the criminal justice system, branded as juvenile offenders, and treated as though their crimes were self-motivated. Your Committees further find that it is crucial to provide aid to vulnerable youth when they first become trapped in the subculture of prostitution because adult prostitutes often were troubled youth who remained victimized and trapped by the subculture of the street, by those who control their activities, and by a lack of other skills and economic resources. This measure seeks to provide vulnerable youth who have become trapped in the subculture of prostitution by providing rehabilitative, educational, vocational, medical, and psychological services to ensure that the youth have every opportunity to overcome crimes committed against their person and to lead successful adult lives.

Your Committees have amended this measure by:

- (1) Adding language to clarify that the juvenile prostitution court will have authority over non-violent offenses committed by a juvenile during the period of victimization of the juvenile in the promotion of prostitution;
- (2) Deleting language that would have required the Chief Justice and senior judge of the Family Court to select the assigned judge for the juvenile prostitution court;
- (3) Amending language to allow, rather than mandate, certain support services and resources for the juvenile prostitution court;
- (4) Substituting the word "juveniles" for the word "offenders" throughout the measure because the term "offenders" is most often used to apply to adults, and substituting the word "juveniles" for the word "victims" where appropriate;
- (5) Deleting language that would have required the resource coordinator and on-site child advocate to be licensed as social workers;
- (6) Inserting language authorizing the court to contract with victim services organizations to implement the juvenile prostitution court;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2256, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2256, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3; Ayes with Reservations (Kidani, Slom). Noes, none. Excused, 2 (Green, Taniguchi).

Judiciary and Labor

Ayes, 5; Ayes with Reservations (Solomon, Slom). Noes, none. Excused, 2 (Galuteria, Ihara).

**SCRep. 2382 (Joint) Economic Development, Government Operations and Housing and Energy and Environment on S.B. No. 2703**

The purpose and intent of this measure is to enable the production of air conditioning in an area or district from a seawater air conditioning cooling system to qualify as an “eligible business activity” and benefit from the State’s enterprise zones program.

Your Committees received testimony in support of this measure from the Honolulu Seawater Air Conditioning, LLC; and one individual. Your Committees received comments on this measure from the Department of Taxation and Department of Business, Economic Development, and Tourism.

Your Committees find that seawater air conditioning district cooling systems help to reduce the State’s dependence on fossil fuels and help the State’s economy. The twenty-five-thousand-ton seawater air conditioning district cooling system under development for downtown Honolulu can potentially reduce Oahu’s dependence on imported oil. The development of this system will generate millions of dollars in construction-project spending and create a significant amount of long-term, gainful employment.

Your Committees have amended this measure by inserting language in the purpose section to reference all seawater air conditioning district cooling systems instead of only the downtown Honolulu seawater air conditioning project.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2703, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2703, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 7. Noes, none. Excused, none.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2383 (Joint) Economic Development, Government Operations and Housing and Energy and Environment on S.B. No. 2764**

The purpose and intent of this measure is to expand eligible business activity in the state enterprise zones to include the development of various types of renewable energy by sustainable business corporations.

Your Committees received testimony in support of this measure from The Chamber of Commerce of Hawaii; Hawaiian Electric Vehicle Network; Maui Venture Consulting, LLC; and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Department of Taxation; Tax Foundation of Hawaii; and RevoluSun.

Your Committees find that sustainable business corporations engaged in the development or production of renewable energy will stimulate business, agricultural, and industrial growth in areas that will result in neighborhood revitalization. The addition of other forms of renewable resources to the state enterprise zone program is consistent with currently approved business activities, which include wind energy production. Furthermore, state enterprise zone tax incentives and regulatory flexibility will help attract renewable energy businesses and further the State’s renewable energy goals.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2764, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2764, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 6. Noes, none. Excused, 1 (English).

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2384 (Joint) Economic Development, Government Operations and Housing and Energy and Environment on S.B. No. 3027**

The purpose and intent of this measure is to:

- (1) Allow the Energy Resources Coordinator and Governor to designate areas as energy zones; and
- (2) Provide a state business tax credit to qualifying businesses in energy zones.

Your Committees received testimony in support of this measure from Indigenous Consultants, LLC; and Kaiuli Energy. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committees find that the Hawaii Clean Energy Initiative looks to meet seventy percent of Hawaii's energy needs by 2030 through energy efficiency and renewable energy. By exercising more energy efficiency and better harnessing local energy supplies, the Hawaii Clean Energy Initiative strives to work with public and private organizations at the national, state, county, and grassroots levels to achieve several key objectives, including fostering and demonstrating innovation in the use of clean energy technologies, creative financing, and public policy to accelerate Hawaii's transition to clean energy.

Your Committees further find that for the Hawaii Clean Energy Initiative to optimize working relationships with private organizations toward its goals, there are certain areas in the State that need the particular attention of government to help attract private sector investment. These incentives will encourage the development, growth, and expansion of the private sector, a cornerstone of our society that the people of the State have grown to depend on for their health, safety, and welfare.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3027, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3027, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2385 Economic Development, Government Operations and Housing on S.B. No. 2928**

The purpose and intent of this measure is to require the Hawaii Community Development Authority to assign at least three members, but less than the number of members that would constitute a quorum, to attend every scheduled public input session.

Your Committee received comments on this measure from the Office of Information Practices and one individual.

Your Committee finds that the Hawaii Community Development Authority schedules supplemental hearings on weekday nights and weekend days to promote community outreach and dialogue and receive testimony. A court reporter prepares a verbatim transcript of all testimony received, and this transcript is provided to the Authority. Furthermore, the public and affected community are given opportunities through these supplemental hearings to provide testimony and engage in a dialogue with Authority staff in a setting that promotes engagement.

Your Committee further finds that this measure would require at least three members to attend every community engagement, including supplemental hearings. A lack of available Authority members could limit the scheduling of supplemental hearings and consequently deter, rather than promote, community engagement.

Your Committee has amended this measure by:

- (1) Deleting the requirement that at least three members attend every scheduled community engagement session; and
- (2) Inserting language to require the Hawaii Community Development Authority to create a permitted interaction group to attend all public input sessions.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2928, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2928, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2386 (Joint/Majority) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2222**

The purpose and intent of this measure is to prohibit the sale, offering for sale, or distribution of any flavored tobacco product, including menthol products and electronic smoking devices, within the State beginning on January 1, 2015.

Your Committees received testimony in support of this measure from the Department of Health, American Lung Association of the Mountain Pacific, The Queen's Health Systems, Coalition for a Tobacco-Free Hawai'i, REAL: Hawaii Youth Movement Exposing the Tobacco Industry, and numerous individuals. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association; Cigar Association of America, Inc.; Hawaii Smokers Alliance; Aloha Petroleum, Ltd.; ABC Stores; Minit Stop Stores; Volcano Fine Electric Cigarettes; Vaping Dragon; and numerous individuals.

Your Committees find that public health experts have expressed concerns over the growing popularity of flavored tobacco products. Youth are attracted to flavored tobacco products because these products are cheap, sweet, and sold in a variety of kid-friendly flavors. Flavors can mask the natural harshness and taste of tobacco, which makes flavored tobacco products easier to use and increases their appeal among new users.

Your Committees further find that nationwide, menthol cigarette use among smokers is more common among young people, those aged twelve through twenty-five, than among older age groups. Hawaii's overall menthol use is higher than any other state, and menthol cigarettes are a popular choice among the State's youth, Asian-Americans, and Native Hawaiians. Your Committees additionally find that a report from the federal Food and Drug Administration's Tobacco Products Scientific Advisory Committee

indicated that menthol cigarettes cause smoking initiation among youth and young adults, lead to greater addiction, and make it more difficult for smokers to quit.

Your Committees have heard the concerns expressed in testimony about including electronic smoking devices within the flavored tobacco products prohibited by this measure. It is your Committees' understanding that not all refill cartridges for electronic smoking devices contain nicotine. Some refill cartridges contain flavor only, although users of electronic smoking devices typically use these flavor cartridges in conjunction with nicotine. Nicotine is a poison and highly addictive, and your Committees are especially concerned about the potential for increased youth experimentation with electronic smoking devices containing nicotine that could lead to life-long nicotine addiction.

Although your Committees find that regulation over electronic smoking devices is needed, your Committees acknowledge that this measure may not be the best vehicle to achieve this regulation. Your Committees find that this measure should be limited to a prohibition on flavored tobacco products, including menthol, but note that regulation of electronic smoking devices will be considered via another measure.

Accordingly, your Committees have amended this measure by:

- (1) Deleting a definition of "electronic smoking device" and making conforming amendments to the definitions of "component part" and "tobacco product"; and
- (2) Amending the purpose section for clarity.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2222, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2222, S.D. 1, and be referred to the Committee on Ways and Means.

**SCRep. 2387 (Joint) Human Services and Energy and Environment on S.B. No. 2509**

The purpose and intent of this measure is to clarify that the Hawaii Public Housing Authority is authorized to contract with private businesses to remove food waste and green waste from public housing projects.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority and two individuals.

Your Committees find that an effective way to increase environmental sustainability is to diminish the need for landfills by diverting food waste and green waste from landfills to composting and energy production. Your Committees further find that the Hawaii Public Housing Authority currently recycles in a variety of ways including composting and using mulch and wood chips to soak up old paint. This measure allows the Authority to contract with private businesses to remove food and green waste if the Authority's waste quantities become too burdensome.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2509, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2509, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Green, Taniguchi).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2388 (Joint) Transportation and International Affairs and Water and Land and Hawaiian Affairs on S.B. No. 2747**

The purpose and intent of this measure is to require the Department of Transportation, Department of Hawaiian Home Lands, and Department of Land and Natural Resources to submit to the counties certain information on parcels located within a subdivision.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, Department of Hawaiian Home Lands, County of Hawaii Department of Finance, County of Maui Department of Finance, and one individual.

Your Committees find that section 264-43, Hawaii Revised Statutes, which exempts the Department of Transportation from county subdivision ordinances in acquiring, subdividing, consolidating, maintaining, and administering the state highway system, poses problems for counties. For example, section 3.48.010(F) of the Maui County Code provides in pertinent part: "The director [of finance] shall provide for the County maps drawn to appropriate scale, showing all parcels, blocks, lots, or other divisions of land based upon ownership, and their areas or dimensions, numbered or otherwise designated in a systematic manner for convenience of

identification, valuation, and assessment.” The exemption makes it difficult for Maui County to maintain accurate records of subdivision parcel ownership, since the Department of Transportation is not required to furnish any information to Maui County about parcels that may have been transferred by the Department to private owners or vice versa.

The Department of Hawaiian Home Lands and the Department of Land and Natural Resources pose similar problems as the Department of Transportation to the counties in their respective land transactions in subdivisions.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs, Water and Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2747 and recommend that it pass Second Reading and be referred to the Committee on Public Safety, Intergovernmental and Military Affairs.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs

Ayes, 7; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 2 (Dela Cruz, Slom).

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2389 (Joint) Water and Land and Energy and Environment on S.B. No. 2062**

The purpose and intent of this measure is to make an appropriation for the identification, establishment, and management of natural area reserves related to watershed protection and the acquisition of private lands for new natural area reserves related to watershed protection.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, Hawai'i Green Growth, and one individual.

Your Committees find that forests are essential to provide water at affordable rates. Hawaii's native forests absorb moisture from rainfall and passing clouds that condense on the thick vegetation and can increase groundwater supply by up to fifty percent. However, over half of these forests have already been lost to invasive species, causing extensive water loss across landscapes. Clearly, our forests are enormous economic assets. Just as clearly, their degradation is ongoing and accelerating.

The longer Hawaii waits to take significant action to halt this destruction, the higher the costs will be to reverse the damage and ensure our future water supply for current and future generations. In addition to increasing fresh water supplies, the protection of forests prevents erosion that muddies beaches, coral reefs, and fisheries. Forests reduce Hawaii's greenhouse gas emissions and mitigate many damaging impacts from climate change. Protection sustains the native plants and animals unique to our islands and sacred to the Hawaiian culture.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2062 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 7. Noes, none. Excused, 2 (Taniguchi, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2390 (Joint) Water and Land and Judiciary and Labor on S.B. No. 2082**

The purpose and intent of this measure is to authorize revisions, amendments, additions, and deletions to the fee schedule for services provided by the Office of the Registrar of the Land Court, Assistant Registrars of the Bureau of Conveyances, and State Land Surveyor to be established by the Supreme Court by rule of court, by the Department of Land and Natural Resources by administrative rules, and by the Department of Accounting and General Services by administrative rules, respectively.

Your Committees received testimony in support of this measure from the Judiciary, Department of Land and Natural Resources, and Department of Accounting and General Services.

Your Committees find that this measure does not attempt to alter or amend the existing schedule of fee items but rather seeks to clarify and establish that the respective branch of government or department may establish and amend, from time to time, its own schedule of fees for the services it performs.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2082 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Galuteria, Taniguchi).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 2391 Water and Land on S.B. No. 3121**

The purpose and intent of this measure is to amend the legislative disapproval requirement for any exchange of public land for private land to instead be a requirement for legislative approval subject to approval by a majority vote in both houses.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs and Office of Hawaiian Affairs. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure removes confusion and inconsistency in the statutes. By restating the proposition in the positive as “approval”, rather than in the negative “disapproval”, will no longer be a source of confusion when the Legislature votes on these matters.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3121 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Ruderman, Slom).

**SCRep. 2392 (Joint) Water and Land and Hawaiian Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2953**

The purpose and intent of this measure is to require that if geothermal resources that are located on lands under the jurisdiction of the Department of Hawaiian Home Lands are mined, twenty percent of all royalties received by the State shall be paid to the county in which the geothermal resources are located, and twenty percent shall be paid to the Department of Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Department of Hawaiian Home Lands. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committees find that although geothermal development in Hawaii has contributed to greater energy diversification of the State, the cultural, health, and environmental concerns related to the development of geothermal energy must be carefully and properly addressed and managed.

Your Committees find that this measure provides a fair allocation of geothermal mining royalties while providing a needed source of revenue to support the Department of Hawaiian Home Lands’ programs including homestead lot development, loans, and rehabilitation programs, and administration expenses to support these programs.

As affirmed by the records of votes of the members of your Committees on Water and Land, Hawaiian Affairs, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2953 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2393 (Joint) Water and Land and Judiciary and Labor on S.B. No. 2966**

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to provide for non-binding mediation of disputes regarding the fair market value of public lands in transactions involving the purchase, lease, or repurchase of the public lands and the fair market rental of public lands under lease when rentals are reopened, and also preserves the option of binding arbitration to resolve disputes when the mediation process fails to do so.

Your Committees received testimony in support of this measure from the Hilo Bay Printing Co., Ltd.; Citizens for Fair Valuation; and one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that mediation is an effective method of resolving disputes that should be made available to resolve disputes regarding the fair market value or fair market rental of public lands in transactions involving the Board of Land and Natural Resources and private purchasers, owners, or leaseholders. The present statutory framework for the arbitration of such disputes is cumbersome and does not provide the parties an opportunity to work collaboratively toward mutual solutions to disputes.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2966 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6; Ayes with Reservations (Thielen). Noes, none. Excused, 3 (Dela Cruz, Galuteria, Taniguchi).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 2394 Water and Land on S.B. No. 2415**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to develop and Office of Planning to approve a master plan for Ala Wai Harbor.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that the development of Ala Wai Harbor has been an issue for at least the past twenty years. The Ala Wai Harbor is a gateway location for Waikiki and should be a standalone visitor attraction in itself. Your Committee believes that the time has come for the formation of a comprehensive master plan for the development of Ala Wai Harbor by an outside entity having the professional expertise, knowledge, and experience in planning harbor facilities.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of \$1,500,000 for the preparation of a comprehensive master plan for the development of Ala Wai Harbor, to be done on a contract basis with a private entity;
- (2) Extending the deadline for completion of the comprehensive master plan to October 1, 2015;
- (3) Requiring the Office of Planning to assist the Department of Land and Natural Resources and the contracted private entity in the preparation of the comprehensive master plan by providing information and advice, and deleting all other obligations of the Office of State Planning under this measure;
- (4) Changing the effective date to July 1, 2014; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

If your Committee on Ways and Means is to consider passage of this measure, your Committee requests that consideration be made to determine whether the appropriation should come from general revenues, the harbor special fund, or a combination of both and, if a combination, the appropriate apportionment of percentages, such as fifty-fifty.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2415, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2415, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Ruderman, Slom).

**SCRep. 2395 (Joint) Water and Land and Energy and Environment on S.B. No. 2940**

The purpose and intent of this measure is to prohibit hydraulic fracturing and the collection, transport, storage, processing, or discharge of wastewater from hydraulic fracturing.

Your Committees received testimony in support of this measure from Kanaka Maoli o Puna, Hawaii Sustainable Community Alliance, Malu Aina, Paradise Action Womens Alliance, MoveOn.org, and numerous individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Indigenous Consultants LLC; Innovations Development Group; Hu'ena Power; and three individuals. Your Committees received comments on this measure from one individual.

Your Committees find that natural gas extraction may have negative consequences for the environment in which it takes place, as does all fossil fuel extraction. Fracking also releases carbon into the atmosphere, which contributes to global climate change. There is also evidence that fracking may contaminate the drinking water supply.

However, testimony on this measure indicates that there are no fracking operations anywhere in the State at this time, and there has never been any in the past. The soil composition of the Hawaiian islands, being porous in nature from lava formations, is unsuitable for fracking. Your Committees are concerned that this measure may be interpreted as prohibiting "drilling" in relation to geothermal resources, which is not the intent of your Committees.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2940, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2940, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 8. Noes, none. Excused, 1 (Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

**SCRep. 2396 (Joint) Water and Land and Higher Education on S.B. No. 3036**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii sea grant college program to conduct a study and create a North Shore beach management plan for the North Shore of Oahu.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, University of Hawai'i System, Kamehameha Schools, and eleven individuals. Your Committees received comments on this measure from two individuals.

Your Committees find that long-term protection of the northwest-facing North Shore beaches from Haleiwa to Kahuku, which are subject to a common wave regime and share common beach erosion characteristics, requires a comprehensive assessment and modern management plan that recognizes the risks of climate change and sea level rise. The large number of government, business, private, and community entities involved in the North Shore would benefit from participating in the development and implementation of a comprehensive beach management plan for this vulnerable area.

In 2010, the University of Hawaii sea grant college program successfully produced a beach and dune management plan for Kailua Beach, which provided an extensive analysis of the current state of this important beach and recommended management measures for federal, state, and local government, as well as community partners, in response to threats such as climate change and sea level rise. This study serves as a useful prototype for the implementation of beach management plans at other locations and demonstrates the effectiveness of location-specific beach management policies and practices, which the North Shore would greatly benefit from.

Your Committees find that the time for studies has since long passed and the time for actual planning is here. Your Committees are mindful that planning should be based on past studies, and testimony indicated that there is a plethora of past studies on the issue of erosion and sediment transport. Your Committees find that in order to expedite the planning, the focus should be on a smaller, highly used area of Sunset Beach to Waimea Bay.

Your Committees note that many years ago, Hawaiians warned of the dangers of building on the shoreline and urged that building occur mauka of the highway. The results of ignoring this admonition are evident in this measure.

Your Committees have amended this measure by:

- (1) Requiring the beach management plan to cover the area from Sunset Beach to Waimea Bay;
- (2) Deleting references to "study";
- (3) Deleting references to bike path planning, although the University of Hawaii may include this in the plan;
- (4) Deleting references to the green sea turtle;
- (5) Deleting section 4, as it is unnecessary;
- (6) Adding recommendations of the Department of Land and Natural Resources and University of Hawaii regarding the scope of the plan; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3036, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3036, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

Higher Education

Ayes, 4. Noes, none. Excused, 3 (Ige, Kidani, Tokuda).

**SCRep. 2397 (Joint) Water and Land and Energy and Environment on S.B. No. 2663**

The purpose and intent of this measure is to:

- (1) Require the use of an area or site within the conservation district for geothermal resources development to be governed by the Board of Land and Natural Resources (BLNR);
- (2) Authorize the counties to issue geothermal resource permits to allow geothermal resources development in an agricultural, rural, or urban district, even if the development is not considered a permissible use under the applicable county zoning ordinances or general plan, under certain conditions;
- (3) Clarify the permitting procedures for regulators and renewable energy developers considering geothermal resources development;
- (4) Include developers of geothermal resources under the definition of "renewable energy producer" in chapter 171, Hawaii Revised Statutes (HRS), to authorize the BLNR to lease or renew leases of public lands to geothermal resources developers without public auction, under certain conditions;
- (5) Reserve mineral rights for all minerals in, on, or under reserved lands to the State;
- (6) Require any renewable energy producer proposing to undertake mining operations to submit an application to the BLNR for a mining lease on state lands and set requirements for the BLNR to grant such an application;
- (7) Increase the maximum amount of fines for violations of chapter 182, HRS, or any rule adopted pursuant thereto;
- (8) Authorize the BLNR to set, charge, and collect administrative fines or bring legal action to recover administrative fines, fees, and costs or payment for damages resulting from a violation of chapter 182, HRS, or any rule adopted pursuant thereto; and

- (9) Require all penalties, fees, and costs established and collected by the Department of Land and Natural Resources to be deposited into the special land and development fund.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Indigenous Consultants LLC; Innovations Development Group; Hu'ena Power; Waimanalo Hawaiian Homes Association; Kapolei Community Development Corporation; and two individuals. Your Committees received testimony in opposition to this measure from Life of the Land, Puna Pono Alliance, and numerous individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that geothermal energy development and production is overseen by a variety of agencies. Most of these agencies are without sufficient resources and wherewithal to enforce proper oversight. This array of competing jurisdictional purviews is a hodgepodge and does not serve the interests of the counties, the State, or the public. The State has preempted much of the County of Hawaii's previous control over when, where, and how geothermal development might take place.

Your Committees believe that current law on geothermal development is in conflict. Act 97, Session Laws of Hawaii 2012 (Act 97), severely restricted geothermal development mainly by repealing county authority over geothermal development. Yet, current law in section 46-19, Hawaii Revised Statutes, provides for the development of alternative energy resources. That section states, "*Each of the counties may participate in the development of alternative energy resources defined as geothermal, solar, wind, ocean power, biomass and solid wastes in joint venture with an end user or public utility pursuant to a plan for the direct utilization of the energy sources by an end user or public utility; provided that should a joint-venture partner not be available the counties may proceed with the development of alternate energy resources for their own consumption or for the furtherance of a plan for direct utilization by an end user or public utility.*" (emphasis added)

Also, in the same year Act 97 was enacted, Act 193, Session Laws of Hawaii 2012, amended section 226-18, Hawaii Revised Statutes, relating to energy objectives of the Hawaii State Planning Act to read, "To further achieve the energy objectives, *it shall be the policy of this State to . . . [p]romote the development of indigenous geothermal energy resources* that are located on public trust land as an affordable and reliable source of firm power for Hawaii." (emphasis added)

Finally, your Committees believe that purchasing fossil fuel from out-of-state is not pono and costs the State dearly. The monies could be better spent to improve the quality of life in Hawaii.

Your Committees has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2663, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2663, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 8; Ayes with Reservations (Ihara, Ruderman, Shimabukuro, Thielen). Noes, none. Excused, 1 (Slom).

Energy and Environment

Ayes, 3; Ayes with Reservations (Ihara, Ruderman). Noes, none. Excused, 2 (Chun Oakland, Slom).

#### **SCRep. 2398 Energy and Environment on S.B. No. 3008**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Anaergia Inc. with the development of facilities for renewable non-fossil fuel energy production in Maui.

Your Committee received testimony in support of this measure from the Maui County Department of Environmental Management, Ulupono Initiative, and Anaergia Services, LLC. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that support for the development of renewable and efficient energy systems in the State, which is geographically isolated from sources of oil, continues to be in the public interest. Anaergia Inc. is a global leader in offering sustainable solutions for the generation of renewable energy and the conversion of waste to resources.

Your Committee further finds that Anaergia Inc. proposes to build, own, and operate a material recovery facility to recover recyclable materials like plastic, paper, and glass; an anaerobic digester to convert organics like municipal sludge and food waste to renewable natural gas and compost; and a facility to convert energy crops into renewable natural gas or renewable electricity.

Your Committee requests that the applicant of the special purpose revenue bonds submit to your Committee by April 11, 2014, copies of letters from the Department of Business, Economic Development, and Tourism and Department of Budget and Finance stating that the agencies have received and reviewed the applicant's business plan; provided that the agencies are not required to give approval or render a conclusion in the letter.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3008, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2399 Energy and Environment on S.B. No. 2856**

The purpose and intent of this measure is to appropriate funds for environmental health programs through the environmental response revolving fund.

Your Committee received testimony in support of this measure from the Department of Health and one individual.

Your Committee finds that the Department of Health receives 5 cents from the \$1.05 tax levied on barrels of crude oil imported into the State. These monies are deposited into the environmental response revolving fund, which supports oil spill response and environmental clean ups to protect Hawaii's beaches from oil pollution and protect Hawaii's visitors and residents from chemical contamination.

Your Committee further finds that the environmental response revolving fund balance is dangerously low due to reduced consumption of crude oil, while the demand for hazard evaluation and response has increased in recent years due to events like the Tohoku earthquake and tsunami, Honolulu Harbor molasses spill, and several ground soil contaminations. A one-time appropriation of general funds will bridge the funding gap to meet the needs of the immediate future.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2856, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2856, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2400 Energy and Environment on S.B. No. 2756**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist a processing enterprise to process sewage to create sewage derived fuel.

Your Committee received testimony in support of this measure from LYON Associates, Inc., and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the growth of the State's population increases the amount of sewage. Waste treatment is becoming increasingly expensive for the State and the counties.

The current technology of burning fossil fuels to produce electricity contributes immensely to climate change and global warming. An alternative technology processes sewage by drying it and extracting solids therefrom to produce a product that can be burned to produce energy. The energy produced in this manner is environmentally friendly and renewable.

Your Committee requests that the applicant of the special purpose revenue bonds submit to your Committee by April 11, 2014, copies of letters from the Department of Business, Economic Development, and Tourism and Department of Budget and Finance stating that the agencies have received and reviewed the applicant's business plan; provided that the agencies are not required to give approval or render a conclusion in the letter.

Your Committee has amended this measure by:

- (1) Specifying that the Department of Budget and Finance is authorized to issue special purpose revenue bonds to assist Clean Communities, LLC, a Hawaii limited liability company;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2756, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2756, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2401 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 2656**

The purpose and intent of this measure is to require the Public Utilities Commission to:

- (1) Adopt rules for improved accessibility to safely and reliably connect to the Hawaii electric system for any person, business, or entity on the Hawaii electric system; and
- (2) Initiate a proceeding no later than July 1, 2014, to discuss upgrades to the Hawaii electric system and the use of advanced grid modernization technology for anticipated growth of customer generation.

Your Committees received testimony in support of this measure from the Renewable Energy Action Coalition of Hawaii; Hawaii Sustainable Community Alliance; League of Women Voters of Hawaii; Hawaii PV Coalition; Hawaii Solar Energy Association; The Alliance for Solar Choice; Blue Planet Foundation; Hawaii Renewable Energy Alliance; Earthjustice; The Pacific Resource Partnership; Sierra Club of Hawaii; Inter-Island Solar Supply; Hawaii Energy Connection; RevoluSun; SolarCity; Sunrun; Hawaii Health Services, Inc.; Capital Electric and Energy Solutions; R & R Solar Supply; Rising Sun Solar; and one hundred ninety-five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received

comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Public Utilities Commission; Life of the Land; Hawaiian Electric; and two individuals.

Your Committees find that the increasing deployment of customer generation in Hawaii is in the public interest, lessening Hawaii's dependence on imported oil, creating thousands of jobs, fostering billions of dollars of economic activity, and giving tens of thousands of households and businesses access to reasonably priced electricity. Customer generation will play a major role in supplying the State's future electricity needs and meeting clean energy goals. Additionally, appropriate investments in energy storage and smart grid improvements are vital to achieve Hawaii's robust clean energy goals.

Your Committees further find that technical and economic barriers are preventing Hawaii customer-generators from interconnecting to the Hawaii electric system in a timely manner. If these technical and economic barriers are not addressed, a number of undesirable scenarios may result, including irreparable loss of jobs in the nascent solar industry and an ever increasing number of Hawaii residents disconnecting from the Hawaii electric system. Several technical, policy, and economic issues need to be addressed in trying to move forward in modernizing Hawaii's electricity grid.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Require the Public Utilities Commission to commence a proceeding by July 1, 2014, to address the technical, policy, and economic issues associated with the modernization of Hawaii's electricity grid and consider:
  - (A) Development of a diverse portfolio of renewable energy resources;
  - (B) Expanded options for customers to manage their energy use;
  - (C) The manner in which distributed generation shall be allowed access to grid interconnection without discriminatory terms, with fair and reasonable rates; and
  - (D) Providing fair payment for grid services provided to customers and fair compensation to customers for services provided to the grid by distributed generation;
- (2) Require the Public Utilities Commission to submit a report of its findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016;
- (3) Exempt the Public Utilities Commission and Division of Consumer Advocacy from procurement procedures of any professional services needed to conduct the proceeding pursuant to this measure;
- (4) Insert an appropriation of \$750,000 for fiscal year 2014-2015 for the Public Utilities Commission to conduct the proceeding pursuant to this measure;
- (5) Insert an appropriation of \$750,000 for fiscal year 2014-2015 for the Division of Consumer Advocacy to represent the interests of all consumers in the course of the proceeding pursuant to this measure; and
- (6) Insert an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2656, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2656, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

Commerce and Consumer Protection  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Taniguchi).

**SCRep. 2402 (Joint) Energy and Environment and Water and Land on S.B. No. 2344**

The purpose and intent of this measure is to:

- (1) Address climate change adaptation by establishing an Interagency Climate Council, headed by the Sustainability Coordinator, with the task of implementing a general state policy to address climate change through 2050; and
- (2) Require the Sustainability Coordinator to create initial reports identifying expected climate impacts;
- (3) Require the Office of Planning to establish and implement strategic climate adaptation plans and policy recommendations based on the reports by the Sustainability Coordinator; and
- (4) Appropriate funds to assist the Sustainability Coordinator and Interagency Climate Council.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Health; State Sustainability Coordinator; Office of Planning; University of Hawaii; Nature Conservancy; Democratic Party of Hawaii; Life of the Land; Disaster Resilience, LLC; and two individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Building Industry Association of Hawaii, Windward Ahupua'a Alliance, The Chamber of Commerce of Hawaii, and two individuals.

Your Committees find that climate change is the paramount challenge of this century, posing both an urgent and long-term threat to the State's economy, sustainability, security, and way of life. Rising sea levels will increase coastal flooding and erosion, damaging coastal ecosystems and infrastructure and affecting agriculture, tourism, military bases, and other industries. Threats to the traditional

lifestyles of indigenous communities may include destruction of coastal artifacts and structures and reduced availability of traditional food sources and subsistence fisheries, which will make it difficult for Pacific Island communities to sustain their connection with a defined place and their unique set of customs, beliefs, and languages.

Your Committees further find that beach erosion, drought, and rising temperature are already having measurable impacts on Hawaii and are expected to accelerate in the years to come. With beaches continuing to erode, rain continuing to diminish, and sea levels projected to rise one foot by 2050 and three feet by 2100, Hawaii is highly vulnerable. The State needs to adapt to the effects of climate change, particularly sea level rise, before they grow beyond our ability to prevent the worst impacts on our economy, environment, and way of life.

Your Committees have amended this measure by:

- (1) Deleting language that would have established the Interagency Climate Council;
- (2) Inserting language to establish an Interagency Sea Level Rise Vulnerability and Adaptation Committee within the Department of Land and Natural Resources;
- (3) Inserting language to require the Interagency Sea Level Rise Vulnerability and Adaptation Committee to submit a sea level rise vulnerability and adaptation report for Hawaii through the year 2050 by December 31, 2017;
- (4) Inserting language to specify additional members of the Interagency Sea Level Rise Vulnerability and Adaptation Committee;
- (5) Inserting language related to the formulation of the sea level rise vulnerability and adaptation report;
- (6) Inserting language to require the Interagency Sea Level Rise Vulnerability and Adaptation Committee to reevaluate the sea level rise vulnerability and adaptation report every five years;
- (7) Amending the Office of Planning's duties to require the Office to conduct plans and studies and prepare reports to:
  - (A) Develop, monitor, and evaluate strategic climate adaptation plans and actionable policy recommendations addressing expected statewide climate change impacts;
  - (B) Provide planning and policy guidance and assistance to state and county agencies regarding climate change; and
  - (C) Publish its findings, recommendations, and progress reports on actions taken no later than December 31, 2017, and its annual report to the Governor and Legislature;
- (8) Amending the appropriation to the Office of Planning by changing the appropriation amount to \$58,874, for one full-time equivalent (FTE) position and resources to carry out the purposes of this measure;
- (9) Inserting an appropriation to provide the Department of Land and Natural Resources with staffing, including one full-time equivalent (FTE) position, and resources to carry out the purposes of this measure;
- (10) Amending language that would have appropriated funds to the Office of the Governor to appropriate \$400,000 to assist the Department of Land and Natural Resources in researching and developing a coordinated, multidisciplinary sea level rise vulnerability and adaptation report;
- (11) Amending language that would have appropriated funds to the Office of the Governor to appropriate \$50,000 to the Office of Planning to carry out its duties pursuant to this measure; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2344, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2344, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

Water and Land  
Ayes, 7. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 2403 (Joint) Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 2981**

The purpose and intent of this measure is to amend state plan policies, objectives, and priority guidelines to promote and encourage innovative activity in the economy.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Office of Information Management and Technology; High Technology Development Corporation; Hawaii Strategic Development Corporation; and The Chamber of Commerce of Hawaii.

Your Committees find that there is a strategic need to develop new growth sectors for the State's economy to be globally competitive. With regard to telecommunications and information technology, broadband and wireless communication capability, infrastructure, and advancement will play crucial roles in innovating Hawaii's economy. Planning a framework that prioritizes and coordinates Hawaii's efforts to develop new growth sectors, such as telecommunications and information technology, will encourage innovative activity and entrepreneurship.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2981, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2981, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2404 (Joint) Economic Development, Government Operations and Housing and Technology and the Arts on S.B. No. 2419**

The purpose and intent of this measure is to require the Board of Directors of the High Technology Development Corporation to develop a sports-technology district and designate certain properties to be included in the district.

Your Committees received testimony in support of this measure from the Stadium Authority and The Chamber of Commerce of Hawaii. Your Committees received comments on this measure from the Department of Land and Natural Resources, Hawaii Housing Finance and Development Corporation, and High Technology Development Corporation.

Your Committees find that other cities have created hubs centered on sports and technology to foster innovation and facilitate economic growth. A sports-technology district will encourage sports-technology companies to relocate to the district; promote building and facility reuse to create jobs and workforce housing options near Aloha Stadium; provide a variety of commercial, residential, and athletic options for a wide range of people; and inspire a community identity that promotes sports activity and technology.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Require the Stadium Authority to work with the High Technology Development Corporation, Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, Department of Education, and all other state agencies within a one-half mile radius of the proposed Aloha Stadium rail station to develop a regional plan for a sports-technology district; and
- (2) Require the Stadium Authority to submit its plan, findings, and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2419, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2419, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing  
Ayes, 4. Noes, none. Excused, 3 (Baker, Chun Oakland, Thielen).

Technology and the Arts  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Tokuda).

**SCRep. 2405 Economic Development, Government Operations and Housing on S.B. No. 2322**

The purpose and intent of this measure is to:

- (1) Create a capital infrastructure tax credit for tenants who are displaced by the Kapalama container terminal project;
- (2) Allow banks and other financial corporations the ability to claim the capital infrastructure tax credit;
- (3) Allow allocations of the capital infrastructure tax credit to a partner under a partnership agreement even if the allocation does not have substantial economic effect; and
- (4) Reestablish the technology infrastructure renovation tax credit for taxable years beginning after December 31, 2013, and ending on December 31, 2019.

Your Committee received testimony in support of this measure from The Chamber of Commerce of Hawaii, Pacific Shipyards International, and ninety-three individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Transportation, and Tax Foundation of Hawaii.

Your Committee finds that the development of a new overseas container terminal and piers at the lower Kapalama military reservation site requires improvements on fast and submerged lands associated with piers twenty-four through twenty-eight to accommodate maritime dependent operators at Kapalama who are to be evicted and displaced. The total cost for the proposed master plan at the Kapalama site is estimated to be \$243,000,000, which is being financed entirely by the State through revenue bonds and revenues from harbor tariffs and leases. None of these funds, however, will go toward assisting displaced maritime and waterfront dependent tenants of the Kapalama site. The displaced tenants will be relocated to various piers that have limited infrastructure,

facilities, and utilities. These tenants must find ways to finance not only their move, but also significant capital improvements to state-owned land.

Your Committee has amended this measure by:

- (1) Inserting a definition for “capital infrastructure costs”;
- (2) Inserting language to recapture an unspecified amount of the tax credit claimed under this measure if the qualified infrastructure tenant does not meet certain conditions at the close of any taxable year;
- (3) Deleting language related to the applicability of the capital infrastructure tax credit to banks and other financial corporations, as section 241-6, Hawaii Revised Statutes, already authorizes all provisions of chapter 235, Hawaii Revised Statutes, not inconsistent with chapter 235 and applicable to banks and other financial institutions subject to chapter 241, Hawaii Revised Statutes, to be applicable to the taxes imposed by chapter 235;
- (4) Inserting language to clarify that the technology infrastructure renovation tax credit is being reestablished and will be available, through this reestablishment, for taxable years beginning after December 31, 2013, and ending on December 31, 2019;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2322, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2322, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2406 Economic Development, Government Operations and Housing on S.B. No. 2558**

The purpose and intent of this measure is to establish the enhanced use lease program to allow state agencies and departments to rent or lease underutilized property or facilities to private partners in return for in-kind services or cash in lieu of rent.

Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that the United States has used enhanced use leases for funding construction or renovation on federal property by allowing a private partner to lease underutilized property and pay rent in the form of cash or in-kind services. The advantages to the private partner include establishment in a convenient location and the opportunity to provide sole-source services and products in lieu of rent for the lease. Additionally, the advantages for the federal agency offering the enhanced use lease include the possibility of fast-tracking alterations, repairs, or new construction so that the improved space becomes available for lease, and the receipt of in-kind considerations or cash to no less than the fair market value of the property as rent by the private partner.

Your Committee further finds that a state enhanced use lease program has the potential to unleash captive value from property or facilities, reduce operation and maintenance requirements, attract tenants who are synergistic with the mission of the agency or department, provide cash or an in-kind funding source for needed and unfunded projects, stimulate local economy, and improve community relations. In addition, enhanced use leases benefit the community through job creation, economic stimulus, potential tax revenues, and the potential to fulfill the objectives of the local jurisdiction.

Your Committee has heard testimony of the Department of Accounting and General Services expressing concerns related to the payments made by the state agency to the developer for performing the “in-kind” services and the responsibilities of the state agency for procuring a developer for the master lease agreement, particularly in regard to lacking the jurisdictional authority to administering the master lease agreement and collecting fair market rent from tenants. Your Committee finds that these issues raise concerns that merit further consideration and requests that your Committee on Ways and Means further examine those issues and concerns if your Committee on Ways and Means considers passage of this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2558, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2558, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2407 Economic Development, Government Operations and Housing on S.B. No. 2697**

The purpose and intent of this measure is to:

- (1) Amend the procedures of the Hawaii Community Development Authority to require additional public notice and public input for development projects and rule changes;
- (2) Establish additional requirements for the Hawaii Community Development Authority before granting approval for development projects; and

- (3) Create an appeal process for the actions and decisions of the Hawaii Community Development Authority.

Your Committee received testimony in support of this measure from the Historic Hawaii Foundation; Malama Makaha; UNITE HERE, Local 5; Hawaii's Thousand Friends; and forty-five individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Construction Alliance, The Howard Hughes Corporation, and Laborers' International Union of North America Local 368. Your Committee received comments on this measure from the Department of the Attorney General; The Chamber of Commerce of Hawaii; Building Industry Association of Hawaii; The Pacific Resource Partnership; Kamehameha Schools; Alexander & Baldwin, Inc.; Hawaii Regional Council of Carpenters; and three individuals.

Your Committee finds that the Legislature established the Hawaii Community Development Authority in 1976 as a public entity to plan new and innovative forms of urban redevelopment and renewal to meet certain community needs, especially the provision of low- and moderate-income housing located in residential and mixed-use areas with sufficient public facilities and services. To ensure that comprehensive and coordinated development plans were executed by and for the community, the Authority was explicitly required to engage affected communities in area development plans and projects.

Your Committee further finds that development projects that do not comply either with legislative goals or the applicable development plans established for community development districts have been permitted, sometimes on an accelerated basis. The approval processes for proposed projects also lack accountability and transparency which are to the detriment of the communities affected.

Your Committee has amended this measure by:

- (1) Inserting language to require the Hawaii Community Development Authority to hold at least one public hearing for each proposed project in the evening or on the weekend;
- (2) Inserting language to require the Hawaii Community Development Authority to give ten-day notice to the public for at least one of its public hearings for each proposed project;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2697, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2697, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Baker).

**SCRep. 2408 (Joint) Economic Development, Government Operations and Housing and Water and Land and Agriculture on S.B. No. 3065**

The purpose and intent of this measure is to:

- (1) Require the State to exchange certain lands for certain agricultural and conservation lands owned by the Dole Food Company, Inc., then transfer the acquired lands to various state agencies;
- (2) Expand the Kalaeloa Community Development District;
- (3) Establish the Whitmore project facility revenue bond special fund into which proceeds from revenue bonds shall be deposited for purchasing certain parcels of land from Dole Food Company, Inc.; and
- (4) Appropriate funds to acquire the specified lands owned by Dole Food Company, Inc.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation, Hawaii Rifle Association, Wahiawa Community and Business Association, The Trust for Public Land, Dole Food Company Hawaii, and two individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Land and Natural Resources, and Office of Hawaiian Affairs. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Hawaiian Home Lands, Hawaii Housing Finance and Development Corporation, University of Hawaii System, and University of Hawaii Board of Regents.

Your Committees find that in December of 2012, the State purchased 1,750 acres of agricultural land in central Oahu. Surrounding these lands are approximately twenty thousand acres of agricultural and conservation lands owned by Dole Food Company, Inc. These lands have been listed for sale at \$175,000,000.

Your Committees further find that there is a continuing need to protect and preserve unique natural assets, both for the enjoyment of future generations and to establish base lines for environmental impact. The present system of preserves, sanctuaries, and refuges must be strengthened, and additional areas of land suitable for agriculture and preservation should be set aside. These additional areas of land may contain rare species of plants and animals, portions of the State's major watershed areas, and prime agricultural lands.

Your Committees have amended this measure by:

- (1) Amending language in the findings to clarify that the purpose of this measure is to appropriate funds to investigate the possibility of exchanging state land for certain lands owned by Dole Food Company, Inc., and for costs of executing the exchange if appropriate state land is found;
- (2) Deleting language that would have required the State to exchange lands for certain agricultural and conservation lands owned by Dole Food Company, Inc.;

- (3) Deleting language that would have expanded the Kalaeloa Community Development District;
- (4) Deleting language that would have established the Whitmore project facility revenue bond special fund;
- (5) Deleting language that would have appropriated funds out of the Whitmore project facility revenue bond special fund to acquire certain lands from Dole Food Company, Inc.;
- (6) Inserting language to appropriate general revenues for fiscal year 2014-2015 to investigate the possibility of acquiring certain lands owned by Dole Food Company, Inc., and for costs of executing the exchange; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing, Water and Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3065, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3065, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture  
Ayes, 6. Noes, none. Excused, 1 (Wakai).

**SCRep. 2409 (Joint) Economic Development, Government Operations and Housing and Commerce and Consumer Protection on S.B. No. 2463**

The purpose and intent of this measure is to prohibit governmental procurement contracts of any amount that are exclusively for the services of contractors, engineers, architects, surveyors, or landscape architects, from requiring the person to defend the governmental body against liability not arising from the contractor's own negligence or fault; provided that the contractor may still be required to indemnify and hold harmless the governmental body from claims arising out of or resulting from the negligent, reckless, or wrongful acts, errors, or omissions of the contractor, engineer, architect, surveyor, or landscape architect.

Your Committees received testimony in support of this measure from the American Council of Engineering Companies of Hawaii; Building Industry Association of Hawaii; General Contractors Association of Hawaii; Subcontractors Association of Hawaii; American Society of Civil Engineers; Sam O. Hirata, Inc.; Brown and Caldwell; Yogi Kwong Engineers, LLC; Healy Tibbitts Builders, Inc.; Gary, Hong, Nojima and Associates, Inc.; Waltz Engineering, Inc.; The Limtiaco Consulting Group, Inc.; Pacific Geotechnical Engineers, Inc.; S & M Sakamoto, Inc.; and one individual. Your Committees received testimony in opposition to this measure from the State Procurement Office and Hawaii Insurers Council. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that contracts for public works often include a duty to defend clause, requiring the contractor to defend governmental entities before the contractor's negligence or fault is determined. Public works often involve large risks due to site circumstances, public environmental concerns, and high public usage. Highways and public buildings have necessarily long service lives relative to other services procured, thereby increasing the contractor risk beyond that of other government contracts.

Your Committees further find that although some state and county agencies recognize the negative implications of the duty to defend clause and have removed it, inconsistency among agencies and departments still exists. This clause is detrimental in the long term by negatively affecting competition for contracts and innovation.

Your Committees have amended this measure by:

- (1) Inserting findings to clarify that for higher limits, the insurance industry does not provide reasonable coverage for another party's defense costs if the design professional is not negligent; thus, design professionals would not be burdened with the duty to defend and do not require the protections proposed by this measure;
- (2) Amending language in the findings to clarify that the purpose of this measure is to provide certain limits on the duty to defend for persons licensed under chapter 444, Hawaii Revised Statutes;
- (3) Deleting amendments that would have prohibited duty to defend clauses in government procurement contracts that are exclusively for the services of a person licensed under chapter 444 or 464, Hawaii Revised Statutes;
- (4) Inserting language that provides that beginning July 1, 2014, the requirement for persons licensed under chapter 444, Hawaii Revised Statutes, to defend the governmental body, or its officers, employees, or agents, from claims arising out of the contractor's performance under the contract shall not extend beyond the expiration of the time limitation in section 657-8, Hawaii Revised Statutes;
- (5) Inserting language to specify that no person licensed under chapter 464, Hawaii Revised Statutes, that has agreed in any contract to defend a governmental body shall be required to defend the governmental body in a lawsuit filed more than ten years beyond the owner's final acceptance of the project;
- (6) Deleting language that defined "governmental body";
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and

(8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2463, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2463, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2410 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 2004**

The purpose and intent of this measure is to allow the home care licensing program to begin operation by extending the sunset date of Act 21, First Special Session Laws of Hawaii 2009, by five years to June 30, 2019.

Your Committees received testimony in support of this measure from the Department of Health and Healthcare Association of Hawaii. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that home care agencies are essential to assisting Hawaii's growing population of elderly individuals with aging at home. Home care agencies help ensure Hawaii's kupuna are kept safe. Therefore, the public must be assured that home care agencies are meeting minimum standards when delivering care. Your Committees further find that Act 21, First Special Session Laws of Hawaii 2009, was enacted to require home care agencies to be licensed, and the Department of Health's draft rules for implementation of licensing are in the last stages of the approval process.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2004 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2411 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 2005**

The purpose and intent of this measure is to establish initial funding to begin the licensing process for home care agencies by appropriating \$150,000 to the Department of Health for one full-time equivalent (1.00 FTE) permanent position.

Your Committees received testimony in support of this measure from the Department of Health and Healthcare Association of Hawaii.

Your Committees find that the majority of the growing elderly population prefers to age at home. Your Committees further find that it is important to safeguard this population and ensure the safety of individuals receiving care in their home, by licensing home care agencies. Your Committees received testimony from the Department of Health expressing concern that the full-time position created by this measure would be funded through special funds and should instead be funded through general revenues.

Your Committees have amended this measure by adding language to clarify that it is not the Legislature's intent that the position in the Department of Health to facilitate licensing of home care agencies be funded by monies in the office of health care assurance special fund.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2005, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2005, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2412 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 2345**

The purpose and intent of this measure is to support and protect Hawaii's kupuna by appropriating \$50,000 to the Office of the Securities Commissioner for the continued operation of the investor education program targeted to kupuna.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual.

Your Committees find that elderly citizens are often victimized by consumer and financial fraud such as identity theft, investment fraud, and health care fraud. Your Committees further find that fighting abuse and fraud against the elderly presents unique challenges in Hawaii because the State's population is aging much faster than the national average and Hawaii's kupuna population is more diverse than in any other state. The investor education program within the Department of Commerce and Consumer Affairs provides kupuna with education and outreach, including information about how to make wise choices when investing and how to detect financial fraud.

Your Committees have amended this measure by:

- (1) Expanding the scope of the appropriation to include investor and other related financial programs to allow the Department of Commerce and Consumer Affairs more flexibility in educating Hawaii's kupuna about fraudulent investment schemes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2345, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2345, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2413 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 2479**

The purpose and intent of this measure is to require Med-QUEST and Medicaid to cover the cost of chiropractic services, limited to twenty-four visits per calendar year.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association, Hawaii State Chiropractic Association, and four individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that chiropractic care has been demonstrated to help directly target many health conditions. Your Committees further find that more than twenty-five states include chiropractic care in their Medicaid programs, and the Centers for Medicare and Medicaid Services list chiropractic as a pre-approved service for Medicaid.

Your Committees have amended this measure by substituting the term "QUEST Integration" for all references to QUEST to reflect the combination of two programs within the Department of Human Services.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2479, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2479, S.D. 1, and be referred to the Committee on Ways and Means.

**SCRep. 2414 (Joint) Human Services and Economic Development, Government Operations and Housing on S.B. No. 2538**

The purpose and intent of this measure is to establish the Hawaii home loan guarantee program to assist residents who have a steady, low or modest income, and yet are unable to obtain conventional financing to obtain a home loan.

Your Committees received testimony in support of this measure from the City Council of the City and County of Honolulu, and Community Alliance for Mental Health. Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Housing Finance and Development Corporation, and Blueprint for Change.

Your Committees find that helping individuals and families move out of rental housing and into homeownership is valuable for individuals and families, and also for society as it frees up spaces in rental and public housing. Your Committees heard testimony expressing concern that this measure does not go far enough to help low-income families who have adequate, dependable income and an acceptable credit history obtain home loans.

Your Committees have amended this measure by:

- (1) Creating a direct home loan program rather than a home loan guarantee program by specifically:
  - (A) Establishing home loans that come directly from the Hawaii Housing Finance and Development Corporation;
  - (B) Requiring qualified applicants to have low or very low income and defining those terms;
  - (C) Extending the term of the loan to at least thirty-three years, and allowing for a thirty-eight year term for borrowers with incomes below sixty percent of the area median income who cannot afford a thirty-three year term;

- (D) Establishing that interest rates are to be determined by the Corporation and must be based on the individual or family's income;
- (E) Requiring qualified applicants to refinance their loans in the private market when household income increases substantially or home equity becomes significant; and
- (F) Amending terms and restrictions for the home loans;
- (2) Changing the home loan guarantee revolving fund to the direct home loan special fund;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2538, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2538, S.D. 1, and be referred to the Committee on Ways and Means.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Wakai).

**SCRep. 2415 Human Services on S.B. No. 2798**

The purpose and intent of this measure is to increase the Attorney General's ability to prosecute medical assistance recipient fraud.

Your Committee received testimony in support of this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that the Attorney General's ability to prosecute medical assistance fraud aids in the recovery of restitution and serves as a deterrent to recipient fraud. Many incidents of fraud are not discovered until after the statute of limitation has expired. This measure strengthens the State's ability to seek restitution, extends the statute of limitations to three years after discovery of the offense but within six years after commission of the offense, and clarifies the authority to prosecute for information submitted electronically.

Your Committee has amended this measure by:

- (1) Specifying that the restitution to be paid applies to convictions under section 346-43.5(a)(1), Hawaii Revised Statutes, in addition to convictions under section 346-43.5(a)(2), Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2798, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2798, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2416 Education on S.B. No. 2139**

The purpose and intent of this measure is to:

- (1) Apply the requirements for all public secondary schools to implement a school year that includes nine hundred ninety student instructional hours to all school years beginning with the 2014-2015 school year;
- (2) Repeal the requirement that by the 2016-2018 school years, all public schools implement a school year of one hundred eighty days and one thousand eighty student instructional hours for elementary and secondary school grades; and
- (3) Clarify that the definition of "student instructional hours" shall be determined by the Board of Education.

Your Committee received testimony in support of this measure from the Department of Education, IMUAlliance, and two individuals. Your Committee received testimony in opposition to this measure from the Hui for Excellence in Education, Hawaii State Teachers Association, and three individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that currently, to comply with the requirement that a school year include one thousand eighty student instructional hours, most secondary schools would need to add on average five minutes per class period. It is unknown at this time what benefit this limited increase would be when weighed against the increased operational costs the Department of Education would incur from such a change, including additional compensation for teachers and increases in utility costs.

Your Committee also concurs with the Department of Education's finding that the important issue that Act 167, Session Laws of Hawaii 2010, and Act 52, Session Laws of Hawaii 2011, have raised is the equity of learning time for students, especially given the fact that there has been as much as a two month difference in time between secondary schools, and this must be balanced with a focus on quality use of time and student results.

Your Committee further finds that another pertinent issue is providing clarity on the definition of “student instructional hours”. For example, some schools require students to work on projects that include a number of hours of self-directed work but require little classroom time, so such time may not be counted toward instructional hours. In addition, many students and teachers engage in afterschool activities that are instructional in nature but may not count toward instructional time because they occur outside of the classroom.

By delegating the authority to define student instructional hours to the Board of Education, schools will be provided with the requested flexibility necessary for scheduling purposes, while at the same time increasing access to those teachable moments where students learn best.

Your Committee has amended this measure by:

- (1) Inserting language to require the Board of Education to consult with the exclusive representatives of the appropriate bargaining units in defining “student instructional hours”;
- (2) Making a conforming amendment, deleting the requirement for submission of a plan by the Department of Education to implement, beginning with the 2018-2019 school year, a school year of one hundred ninety days at certain schools;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2139, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2417 (Joint) Education and Higher Education on S.B. No. 2610**

The purpose and intent of this measure is to require, by the end of the 2015-2016 school year, that:

- (1) Every public school, charter school, and the University of Hawaii have one automated external defibrillator (AED) situated in a permanent location on campus;
- (2) Public schools and charter schools that have athletic trainers, as well as the University of Hawaii, have an additional AED available at every sporting event;
- (3) Athletic trainers be trained and certified on the use of AEDs; and
- (4) Public schools and charter schools that do not have athletic trainers have at least two faculty members at every sporting event who are trained and certified on the use of AEDs.

Your Committees received testimony in support of this measure from the United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Association of Independent Schools; and twenty-two individuals. Your Committees received testimony in opposition to this measure from the Department of Education. Your Committees received comments on this measure from the American Heart Association, AED Institute, Hawaii Athletic Trainers Association, and one individual.

Your Committees find that AEDs are an important tool in responding to emergency situations. In addition, your Committees find that AEDs have been used on several occasions over the past few years to save the lives of student athletes, teachers, athletic coaches, and spectators of sporting events.

Your Committees recognize the concerns raised by the Department of Education as to the fiscal and practical implications this measure will have. In addition, your Committees note that as middle school athletic programs continue to grow and expand, the implications of this measure and concussion awareness education will need to be examined further.

Your Committees have amended this measure by:

- (1) Placing the language for all AED-related requirements for public schools, charter schools, and the University of Hawaii in session law rather than codifying these requirements in the Hawaii Revised Statutes;
- (2) Removing language requiring that AEDs be checked for readiness after every use and at least once every thirty days;
- (3) Inserting an appropriation of \$2,200,000 to the Department of Education for the purchase and maintenance of AEDs and for related training;
- (4) Inserting an appropriation for an unspecified amount to the University of Hawaii for the purchase and maintenance of AEDs and for related training;
- (5) Establishing a working group consisting of representatives from the Department of Education, University of Hawaii System, and any interested stakeholder groups, and requiring the working group to develop policies, procedures, and best practices related to the use of AEDs, as well as to develop a model school emergency response plan for distribution and implementation at all public schools, charter schools, and University of Hawaii campuses;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2610, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2610, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

Higher Education

Ayes, 5. Noes, none. Excused, 2 (Ige, Kidani).

**SCRep. 2418 (Majority) Tourism on S.B. No. 2774**

The purpose and intent of this measure is to:

- (1) Establish a tax on annual destination club dues apportioned to the State; and
- (2) Require destination club membership plan managers to register with the Department of Taxation and keep records of annual destination club dues apportioned to the State.

Your Committee received testimony in support of this measure from Exclusive Resorts. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that destination clubs, which have a fundamentally unique business model, own various properties in multiple states or countries. These clubs provide their members, who pay membership dues, with the right to use or occupy the destination club's facilities in the various locations, although members do not own any interest in those facilities.

Your Committee further finds that the Hawaii Intermediate Court of Appeals recently ruled that destination clubs are not time share plans as defined and governed by chapter 514E, Hawaii Revised Statutes. Therefore, destination clubs are subject to the State's general excise tax under chapter 237, Hawaii Revised Statutes, but not subject to the transient accommodations tax imposed under chapter 237D, Hawaii Revised Statutes. This measure ensures that destination clubs that own facilities in Hawaii are subject to chapter 237D, Hawaii Revised Statutes, in a fair and equitable manner.

Your Committee additionally finds that amendments to the formula used to tax annual destination club dues are necessary, to ensure that the tax treatment of destination clubs is similar to other transient accommodations operators.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "annual destination club dues apportioned to the State" to mean the total amount of initiation and annual dues received by the destination club organization each year, divided by the number of units around the world, multiplied by the number of units in Hawaii;
- (2) Clarifying that the formula used to tax annual destination club dues apportioned to the State shall be seven percent of seventy-five percent of the annual destination club dues apportioned to any destination club unit located in the State, divided by 365, multiplied by the number of nights the accommodation is occupied during the taxable year, and requiring that the seven percent tax shall also be levied and assessed on seventy-five percent of any additional amounts received by the destination club in exchange for furnishing the destination club unit; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2774, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2774, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ige).

**SCRep. 2419 (Joint) Tourism and Water and Land on S.B. No. 2430**

The purpose and intent of this measure is to allocate \$3,000,000 of the transient accommodations tax revenues to the special land and development fund for the protection, improvement, and construction of natural resources and facilities associated with the visitor experience.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Tourism Authority, Historic Hawaii Foundation, and one individual. Your Committees received testimony in opposition to this measure from the Tax Foundation of Hawaii.

Your Committees find that the special land and development fund helps to protect, preserve, and enhance the State's natural resources and facilities, which are important to the visitor industry. This measure invests in Hawaii's great legacy and irreplaceable treasures, including natural, historic, and cultural attractions.

Your Committees have amended this measure by:

- (1) Increasing the allocation to \$12,000,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2430, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2430, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism

Ayes, 3. Noes, none. Excused, 2 (Ige, Ihara).

Water and Land

Ayes, 6. Noes, none. Excused, 3 (Ihara, Shimabukuro, Taniguchi).

**SCRep. 2420 (Joint) Tourism and Water and Land on S.B. No. 3024**

The purpose and intent of this measure is to:

- (1) Increase the amount of excess transient accommodations tax revenues allocated for certain purposes subject to the mutual agreement of the Board of Land and Natural Resources and the Board of Directors of the Hawaii Tourism Authority in accordance with the Hawaii Tourism Authority strategic plan to \$10,000,000; and
- (2) Allocate \$5,000,000 of the \$10,000,000 to the Division of Conservation and Resource Enforcement.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Division of Conservation and Resource Enforcement, West Hawaii; Nature Conservancy; Maui Tomorrow; Native Hawaiian Leadership Program; Puako Community Association; Big Island Bird Hunters; Malama Maunaloa; Kauai Planning and Action Alliance; Humane Society of the United States – Hawaii Office; Hawaii State Bodysurfing Association; and several individuals. Your Committees received testimony in opposition to this measure from the Hawaii Tourism Authority. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that Hawaii's globally unique environment is among the top reasons that visitors from all over the world come to the State. This measure supports the protection, preservation, and enhancement of natural and cultural resources important to the tourism industry.

Your Committees have amended this measure by:

- (1) Amending sections 171-19(a), 184-3.4(a), and 198D-2(b) and (d), Hawaii Revised Statutes, to enable the Department of Land and Natural Resources to more quickly and efficiently use the transient accommodations tax revenues allocated, subject to the mutual agreement of the Board of Land and Natural Resources and the Board of Directors of the Hawaii Tourism Authority in accordance with the Hawaii Tourism Authority Strategic Plan, through the special land and development fund for purposes such as management of public lands, state parks, and trails and trail accesses;
- (2) Inserting language to additionally authorize the allocation of those transient accommodations tax revenues through the special land and development fund to the beach restoration special fund and the conservation and resources enforcement special fund;
- (3) Making the measure effective upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that if your Committee on Ways and Means considers this measure for passage it may want to consider raising the budget ceiling on the special land and development fund so that the Division of Conservation and Resource Enforcement may access the appropriated funds.

As affirmed by the records of votes of the members of your Committees on Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3024, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3024, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism

Ayes, 3. Noes, none. Excused, 2 (Ige, Ihara).

Water and Land

Ayes, 6. Noes, none. Excused, 3 (Ihara, Ruderman, Taniguchi).

**SCRep. 2421 (Joint) Tourism and Economic Development, Government Operations and Housing on S.B. No. 3081**

The purpose and intent of this measure is to:

- (1) Establish an innovative business interaction program under the Hawaii Tourism Authority;
- (2) Increase the amount of transient accommodation tax revenues to be deposited into the tourism special fund, with the increase to be used for the innovative business interaction program; and
- (3) Increase the amount of transient accommodation tax revenues to be deposited into a subaccount of the tourism special fund for a safety and security budget in accordance with the Hawaii Tourism Strategic Plan 2005-2015.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Tourism Authority; Hawaii Strategic Development Corporation; Hawaii Open Data; Oceanit; and three individuals. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that innovative business growth in Hawaii requires that relationships be established between investors and innovative talent. To accomplish this, opportunities for capital and talent to interact must be provided. This measure promotes economic growth by establishing an innovative business interaction program to increase the opportunity for interaction between business investors and innovative talent.

As affirmed by the records of votes of the members of your Committees on Tourism and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3081 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism

Ayes, 3. Noes, none. Excused, 2 (Ige, Ihara).

Economic Development, Government Operations and Housing

Ayes, 4. Noes, none. Excused, 3 (Baker, Chun Oakland, Thielen).

**SCRep. 2422 (Majority) Transportation and International Affairs on S.B. No. 2742**

The purpose and intent of this measure is to initiate a revolutionary and innovative public and private partnership to be known as the Pacific-Asia Institute for Resilience and Sustainability.

Your Committee received testimony in support of this measure from the Department of Defense; Global Partnerships Forum of the United Nations; Solutions Engineering Hawaii; Robertson Foundation for Government; and nine individuals. Your Committee received comments on this measure from the State Office of Planning.

Your Committee finds that the Pacific-Asia Institute for Resilience and Sustainability provides an opportunity for a new generation of leaders to emerge who have the ability to learn from emerging trends and meet global challenges. The Institute's multi-disciplinary and multi-sector approach to community resilience addresses a blind spot in the global discourse of how nations and peoples respond to a wave of disruptive change that permeates the world.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2742 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, 2 (Gabbard, Kouchi).

**SCRep. 2423 (Joint) Transportation and International Affairs and Technology and the Arts on S.B. No. 2042**

The purpose and intent of this measure is to establish a Puerto Rican Exchange Commission to coordinate a cultural exchange program between Hawaii and Puerto Rico to honor and recognize the contributions of the Puerto Rican people and commemorate the arrival of the Puerto Ricans to Hawaii.

Your Committees received testimony in support of this measure from the Iolani Palace Executive Director. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from one individual.

Your Committees find that since the arrival of the first Puerto Ricans in Hawaii on December 23, 1900, the Puerto Rican people have contributed significantly to all phases of Hawaii's development. The rich culture and proud heritage of the Puerto Rican people have been and continue to be positive influences upon life in Hawaii. Recognition of the contributions of the Puerto Rican people and their culture is important to promotion and awareness of Hawaii's diverse and multicultural society.

Your Committees note that there is a considerable amount of cultural similarities between Hawaii and Puerto Rico and that there are activities that have already been established and are ongoing to celebrate and encourage cultural exchanges between Hawaii and Puerto Rico. For example, the Puerto Rican nationalist art movement shares common themes with Hawaiian sovereignty art. The Puerto Rican Heritage Society of Hawaii is dedicated to the preservation and perpetuation of knowledge of the history, culture, and arts of the Puerto Ricans in Hawaii. Hawaii's Plantation Village hosted a "Puerto Rican Day on the Plantation" on April 10, 2010, as part of its ongoing "Relive the Plantation Days" cultural program.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2042 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and International Affairs

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Keith-Agaran, Solomon, Slom).

Technology and the Arts

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2424 (Joint) Technology and the Arts and Higher Education on S.B. No. 2624**

The purpose and intent of this measure is to improve the State's science and technology industries by establishing the Hawaii High Impact Center for Commercialization in the University of Hawaii's Office of the Vice President for Research and Innovation.

Your Committees received testimony in support of this measure from the University of Hawaii and Oceanit. Your Committees received comments on this measure from the Hawaii Strategic Development Corporation.

Your Committees find that to be successful in the twenty-first century global economy, the State must be a leader in science, technology development, technology transfer, and commercialization. In recent years, the State has made significant progress, but more growth is necessary to further the State's science and technology industries. This measure advances the State's successful science and technology industries through the establishment of the Hawaii High Impact Center for Commercialization.

Your Committees have amended this measure by:

- (1) Establishing the provisions of this measure as a new section in chapter 304A, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2624, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2624, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Higher Education

Ayes, 4. Noes, none. Excused, 3 (Ige, Kidani, Tokuda).

**SCRep. 2425 (Joint) Technology and the Arts and Commerce and Consumer Protection on S.B. No. 3126**

The purpose and intent of this measure is to encourage the development of technology businesses in Hawaii by prohibiting businesses from using noncompete agreements and restrictive covenants that forbid post-employment competition of their employees, except in certain situations.

Your Committees received testimony in support of this measure from twelve individuals. Your Committees received comments on this measure from the High Technology Development Corporation.

Your Committees find that post-employment restrictive covenants impede the development of businesses in Hawaii by driving skilled workers, including technology employees and licensed physicians, to other jurisdictions and by requiring local businesses to solicit from out of the State. Hawaii's regional success depends upon a mobile workforce that remains committed to our community, and this measure will encourage the formation of new businesses and competition.

Your Committees have amended this measure by:

- (1) Adding language to apply the prohibition on noncompete agreements and restrictive covenants that forbid post-employment competition to licensed physicians;
- (2) Inserting a definition for "licensed physician"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3126, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3126, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts

Ayes, 4. Noes, none. Excused, 1 (Slom).

Commerce and Consumer Protection

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2426 Technology and the Arts on S.B. No. 2620**

The purpose and intent of this measure is to:

- (1) Authorize additional purposes for the expenditure of funds from the works of art special fund; and
- (2) Provide that no new works of art may be acquired at any time when less than eighty percent of the State's inventory of works of art is on display.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation; Department of Accounting and General Services; Department of Budget and Finance; Hawaii Government Employees Association; AFSCME Local 152, AFL-CIO; American Institute of Architects; Na Mea Hawaii/Puuhonua Society/ii gallery; and thirty-seven individuals. Your Committee received comments on this measure from two individuals.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language to establish a new section in chapter 9, Hawaii Revised Statutes, to allow works of art that are acquired using monies from the works of art special fund to be displayed and maintained in public buildings, including federal and county buildings; and

- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2620, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2620, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

**SCRep. 2427 Economic Development, Government Operations and Housing on S.B. No. 2698**

The purpose and intent of this measure is to:

- (1) Establish an appeal process for persons adversely affected by an action or decision of the Hawaii Community Development Authority; and
- (2) Require additional public notice, public input, and studies prior to the Authority's approval of development projects.

Your Committee received testimony in support of this measure from UNITE HERE, Local 5; Malama Makaha; and 44 individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Construction Alliance, Plumbers and Fitters UA Local 675, and Hawaii Laborers' Union. Your Committee received comments on this measure from the Department of the Attorney General; The Chamber of Commerce of Hawaii; Kamehameha Schools; The Pacific Resource Partnership; Alexander & Baldwin, Inc.; Hawaii Regional Council of Carpenters; and three individuals.

Your Committee finds that the Legislature established the Hawaii Community Development Authority in 1976 as a public entity to plan new and innovative forms of urban redevelopment and renewal to meet certain community needs, especially the provision of low- and moderate-income housing located in residential and mixed-use areas with sufficient public facilities and services. To ensure that comprehensive and coordinated development plans were executed by and for the community, the Authority was explicitly required to engage affected communities in area development plans and projects.

Your Committee further finds that development projects that do not comply either with legislative goals or the applicable development plans established for community development districts have been permitted, sometimes on an accelerated basis. The approval processes for proposed projects also lack accountability and transparency which are to the detriment of the communities affected.

Your Committee has amended this measure by:

- (1) Amending language to allow a person adversely affected by an action or decision of the Hawaii Community Development Authority to file a petition for reconsideration, instead of a contested case proceeding, within thirty days of the action or decision and have the option for judicial review; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2698, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2698, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Baker).

**SCRep. 2428 Economic Development, Government Operations and Housing on S.B. No. 2696**

The purpose and intent of this measure is to:

- (1) Establish development restrictions for the Kakaako Community Development District; and
- (2) Prohibit the Hawaii Community Development Authority from approving a development permit without first conducting a project eligibility review for adequacy of infrastructure facilities and from granting any variance, exemption, or modification with respect to maximum floor area ratio.

Your Committee received testimony in support of this measure from Malu Aina, Malama Makaha, and forty-nine individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Construction Alliance, Plumbers and Fitters UA Local 675, The Howard Hughes Corporation, Laborers' International Union of North American Local 368, and one individual. Your Committee received comments on this measure from the Department of the Attorney General; Kamehameha Schools; The Pacific Resource Partnership; Hawaii's Thousand Friends; Alexander & Baldwin, Inc.; Hawaii Regional Council of Carpenters; and three individuals.

Your Committee finds that the Legislature established the Hawaii Community Development Authority in 1976 as a public entity to plan new and innovative forms of urban redevelopment and renewal to meet certain community needs, especially the provision of low- and moderate-income housing located in residential and mixed-use areas with sufficient public facilities and services. To ensure that comprehensive and coordinated development plans were executed by and for the community, the Authority was explicitly required to engage affected communities in area development plans and projects.

Your Committee further finds that community development plans should be implemented in recognition of existing uses and according to minimum requirements for good planning and design to preserve public health and safety, ensure access to sufficient public services, and avoid unintended effects on public resources and the human environment. Community development plans are

intended to be adopted in consideration of community engagement and, once adopted, are intended to be strictly followed, particularly in regard to density, infrastructure, and affordable housing requirements.

Your Committee has amended this measure by:

- (1) Inserting language to require an applicant seeking a development permit to contact any relevant county and state agencies to determine infrastructure needs and solicit the agencies' findings and recommendations;
- (2) Inserting language to allow machine rooms, rooftop utilities, and architectural features of a building or structure to exceed the 400-foot height restriction;
- (3) Inserting a savings clause;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2696, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2696, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Baker).

**SCRep. 2429 (Joint) Health and Energy and Environment on S.B. No. 3049**

The purpose and intent of this measure is to:

- (1) Require the Department of Health to implement a pilot program to monitor radiation levels in certain items over the next five years and post periodic reports on its website;
- (2) Appropriate funds for equipment acquisition, staff training, and website development relating to the radiation monitoring pilot project; and
- (3) Require the Department of Health to submit a report of its findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019.

Your Committees received testimony in support of this measure from the Kohala Center of the Hawaii Island School Garden Network, Puna Pono Alliance, Malu 'Aina, Witt Counseling Service, and several individuals.

Your Committees find that the nuclear event in Fukushima, Japan, on March 11, 2011, continues to be an ongoing event that causes concern about levels of radiation in the Pacific. Your Committees further find that monitoring radiation levels in the Hawaiian islands is necessary to measure the levels of impact that the Fukushima nuclear disaster may have had on the environment, public health, and food supply.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3049, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3049, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

Energy and Environment

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2430 (Joint/Majority) Health and Judiciary and Labor on S.B. No. 2521**

The purpose and intent of this measure is to:

- (1) Deem foods, including raw agricultural commodities, processed food, and seed or seed stock, as misbranded if they have been genetically engineered and that fact is not disclosed through labeling;
- (2) Require the Department of Health to adopt rules to carry out the labeling;
- (3) Provide a penalty for violations; and
- (4) Authorize private civil enforcement.

Your Committees received testimony in support of this measure from IMUAlliance, Hawaii Farmers Union, Olinda Organic Farm, PASS - Pacific Alliance to Stop Slavery, Babes Against Biotech, Moms on a Mission Hui, Seeds of Truth, and several individuals. Your Committees received testimony in opposition to this measure from the Department of Health; The Chamber of Commerce Hawaii; Monsanto Hawaii; Hawaii Food Industry Association; Hawaii Crop Improvement Association; Hawaii Farm Bureau; Hawaii Cattlemen's Council, Inc.; PonoHolo Ranch, Ltd.; 4Ag Hawaii; and two individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that there are growing concerns about foods that have been genetically engineered, which may pose hazards to environmental and public health. Your Committees further find that consumers have a right to know if the products they purchase include genetically engineered ingredients. This measure allows consumers to make informed choices about the products and food they buy in Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2521, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2521, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Baker, Nishihara).

Judiciary and Labor

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Shimabukuro, Solomon).

**SCRep. 2431 Health on S.B. No. 2058**

The purpose and intent of this measure is to make an appropriation for the implementation and administration of the Hawaii Health Corps loan repayment program.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawaii System, Hawaii Medical Association, Hawaii Primary Care Association, and several individuals.

Your Committee finds that the Hawaii Health Corps loan repayment program will assist health care providers to pay back their student loans in exchange for their commitment to work in a health profession shortage area in Hawaii for two years. Your Committee further finds that by working in underserved areas, these health care providers make a difference in communities where they are needed the most. By supporting the loan repayment program, this measure improves the chance that new health care providers will practice, and continue to practice, in Hawaii.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the initial appropriation amount was \$1,000,000. Your Committee further notes that any appropriated monies will receive matching funds from the federal government.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2058, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2058, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Nishihara, Slom). Noes, none. Excused, 2 (Baker, Chun Oakland).

**SCRep. 2432 (Joint) Health and Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2569**

The purpose and intent of this measure is to:

- (1) Establish a Home Birth Safety Board to adopt rules and protocols for home birth providers;
- (2) Require home birth providers to be licensed beginning on July 1, 2015;
- (3) Require home birth providers to meet minimum educational and training requirements;
- (4) Require the Home Birth Safety Board to investigate complaints concerning violations of its rules and to take disciplinary action when necessary;
- (5) Limit home births to clients with normal, low-risk pregnancies;
- (6) Require licensed home birth providers to use informed consent agreements with their clients; and
- (7) Require licensed home birth providers to follow record keeping and reporting requirements.

Your Committees received testimony in support of this measure from the Hawaii Medical Association, American Congress of Obstetricians and Gynecologists, Hawaii State Center for Nursing, and six individuals. Your Committees received testimony in opposition to this measure from the American College of Nurse-Midwives, Hawaii Association for Justice, Hawaii Association of Professional Nurses, Healthy Mothers Healthy Babies Coalition of Hawaii, and four individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Board of Nursing; Home Birth Kauai; Board of Naturopathic Medicine; and two individuals.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which is substantially similar but, among other differences, narrows the scope of providers to whom the measure applies. Specifically, the proposed S.D. 1:

- (1) Establishes a Home Birth Board to adopt rules and protocols for midwives and licensure of midwives;
- (2) Requires midwives to be licensed and meet minimum educational and training requirements;
- (3) Requires the Home Birth Board to investigate complaints concerning violations of its rules and to take disciplinary action when necessary;
- (4) Limits home births to clients with low-risk pregnancies;
- (5) Requires licensed midwives to use informed consent agreements with their clients; and
- (6) Requires licensed midwives to follow record keeping and reporting requirements.

Your Committees received testimony in support of the proposed S.D. 1 from the Hawaii Medical Association, American Congress of Obstetricians and Gynecologists, Kapiolani Medical Center for Women and Children, and several individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from the Office of Hawaiian Affairs, Hawaii State Center for Nursing, Midwives' Alliance of Hawaii, The MOM Hui, Home Birth Kauai, Healthy Mothers Healthy Babies Coalition of Hawaii, and several individuals. Your Committees received comments on the proposed S.D. 1 from the Department of Commerce and Consumer Affairs; Professional and Vocational Licensing Division, Department of Commerce and Consumer Affairs; American College of Nurse-Midwives; Midwives Alliance of North America; and three individuals.

Your Committees find that some families choose to birth at home for personal, traditional, cultural, or spiritual reasons. Your Committees further find that families have a right to make personal medical decisions in consultation with a health care provider of their choice. This measure encourages home birth practitioners, the medical community, public officials, and members of the public to come together to share their valuable perspectives and engage in discourse about home birth in Hawaii, with the goal of improving home birth experiences across the State.

Your Committees have amended this measure by deleting its contents and inserting language to;

- (1) Establish the home birth task force;
- (2) Require the task force to convene no less than once a month and include neighbor island representation;
- (3) Suggest issues to be addressed by the task force;
- (4) Require the task force to report its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015;
- (5) Make an appropriation to fund the convening and operations of the home birth task force; and
- (6) Insert an effective date of July 1, 2014.

As affirmed by the records of votes of the members of your Committees on Health, Commerce and Consumer Protection, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2569, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2569, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2433 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 2661**

The purpose and intent of this measure is to establish a Hawaiian home lands water permit fee, in addition to the water permit fee required under section 174C-61, Hawaii Revised Statutes, for the withdrawal or use of water beneath the surface of Hawaiian home lands and require the Hawaiian home lands water permit fees collected to be deposited into the Hawaiian home operating fund.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that any additional source of revenue for the Department of Hawaiian Home Lands will assist the department in fulfilling its obligation to its beneficiaries. A water permit is especially appropriate due to the diminishing revenues the department is receiving from its share of state receipts derived from water licenses pursuant to article XII of the state constitution. The increased funds will be used for construction, operation, and maintenance of revenue-producing improvements intended to serve occupants of Hawaiian home lands.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2661, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2661, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2434 Judiciary and Labor on S.B. No. 1038**

The purpose and intent of this measure is to amend chapter 88, Hawaii Revised Statutes (chapter 88), to:

- (1) Establish that certain terms referencing a marital relationship under chapter 88, include civil union partners and civil unions unless the recognition of a civil union as a marriage conflicts with the requirements for the Employees' Retirement System to be a tax-qualified plan under the Internal Revenue Code; and
- (2) Make conforming amendments under chapter 88 to repeal specific references to civil unions that are superfluous.

Your Committee did not receive any testimony on this measure.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting language to:

- (1) Require the Employees' Retirement System to forfeit the employer's contribution and interest portion of retirement benefits upon a member's final conviction of or pleading guilty or nolo contendere to a felony;
- (2) Establish that the forfeiture of retirement benefits does not include a member's contributions to the System or vested retirement benefits;
- (3) Apply forfeiture of benefits to members who leave active employment if the conviction or plea is for a felony committed while the member was an employee and the felony committed includes bribery, corruption, forgery, perjury, or any other crime related to the duties of the member's employment; and
- (4) Establish procedures for the forfeiture of retirement benefits.

Your Committee received comments on the proposed S.D. 1 from the Employees' Retirement System.

Your Committee finds that reports of government employees convicted of felony crimes related to the duties of the employees' jobs, such as stealing money from their places of employment, erode the public's confidence in state and county government. The proposed S.D. 1 requires the Employees' Retirement System to forfeit the employer's contribution and interest portion of retirement benefits upon a member's final conviction of or pleading guilty or nolo contendere to a felony.

However, your Committee has concerns whether the forfeiture of retirement benefits is unconstitutional. Specifically, article XVI, section 2, of the Hawaii State Constitution states, "Membership in any employees' retirement system of the State or any political subdivision thereof shall be a contractual relationship, the accrued benefits of which shall not be diminished or impaired." As a result, the Employees' Retirement System testified to your Committee that after its submission of written testimony on the proposed S.D. 1, the Board of Trustees of the Employees' Retirement System convened a meeting and developed language to address the constitutional concerns in the proposed S.D. 1 and other concerns raised in the System's submitted written testimony.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language suggested by the Employees' Retirement System to:

- (1) Allow the court to decree a forfeiture by the member, former member, or retirant of all or a portion of any retirement benefit that the member, former member, or retirant may otherwise be entitled to if a member, former member, or retirant is convicted of a felony and the court finds that the felony is related to the employment of the member, former member, or retirant by the State or any county;
- (2) Specify that the retirement benefits of the member, former member, or retirant subject to forfeiture include interest, hypothetical account balance (in excess of the amount representing any employee contributions made by or on behalf of the member, former member, or retirant), pension, annuity, or retirement allowance; and
- (3) Require the Employees' Retirement System to comply with the court order and suspend or deny payment to the member, former member, or retirant as provided in the order unless a certified order requires the System to resume payments or quash or reverse the decree of forfeiture.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1038, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1038, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 2435 Judiciary and Labor on S.B. No. 2081**

The purpose and intent of this measure is to:

- (1) Require the salary of the Administrative Director of the Courts to be equal to the salary of the Administrative Director of the State; and

- (2) Require the salary of the Deputy Administrative Director of the Courts to be equal to ninety-five percent of the salary of the Administrative Director of the Courts.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that when the voters ratified the constitutional amendment and the Legislature passed the implementing legislation that created the Commission on Salaries, the positions of Administrative Director of the Courts and Deputy Administrative Director of the Courts were inadvertently left out. As a result, the Judiciary testified that these two positions were left without a mechanism to review and determine their salaries. This measure corrects this inadvertent omission by setting the salaries of the Administrative Director of the Courts and Deputy Administrative Director of the Courts at the Executive Branch's tier 1 salary level, which is most similar in scope and function to the Judiciary's administrative officers.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2081 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 2436 (Majority) Judiciary and Labor on S.B. No. 2127**

The purpose and intent of this measure is to provide an incentive for injured workers to return to part-time work by requiring employers to make timely payment of temporary partial disability benefits to their injured workers. Specifically, this measure:

- (1) Imposes a penalty on an employer or insurance carrier who does not pay an employee temporary partial disability benefits within fourteen calendar days after the end of the employee's customary workweek;
- (2) Requires that such penalty is due and payable to the employee without the necessity of an order or decision from the Director of Labor and Industrial Relations; and
- (3) Clarifies that an eligibility determination for disability benefits shall be based on the employee's entire record and that failure of the attending physician to certify the dates of disability in a specialized form shall not disqualify the employee from disability benefits.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii Injured Worker Association; International Longshore and Warehouse Union, Local 142; and three individuals. Testimony in opposition to this measure was submitted by the Department of Human Resources Development; Department of Accounting and General Services; Hawaiian Electric Co., Inc.; The Chamber of Commerce of Hawaii; National Association of Mutual Insurance Companies; Hawaii Insurers Council; Building Industry Association – Hawaii; and Property Casualty Insurers Association of America.

Your Committee finds that existing law imposes a penalty on an employer or insurance carrier for nonpayment of temporary total disability benefits but does not impose penalties for nonpayment of temporary partial disability benefits. The Department of Labor and Industrial Relations testified that one of the underlying policies in workers' compensation is to encourage an injured employee to promptly return to work. However, existing law discourages an injured worker to return because it is uncertain whether temporary partial disability benefits will be paid in a timely manner. This measure provides an incentive for injured workers to return to part-time work by requiring employers to make timely payment of temporary partial disability benefits to their injured workers.

Your Committee recognizes the testimony received in opposition to this measure that requiring temporary partial disability benefits to be paid within fourteen days imposes a hardship for the employer. The Department of Human Resources Development testified that determining temporary partial disability benefits requires a complicated calculation that takes into account the employee's earnings in a given partial duty week, the employee's weekly earnings before the work injury, and a percentage of the difference between the two. Furthermore, the Department of Accounting and General Services testified that its current payroll system is limited to processing payroll on two scheduled pay days. As a result, processing of payment takes longer than the required fourteen-day period. While your Committee strongly believes that timely payment of temporary partial disability benefits should be encouraged to allow employees to return to work, your Committee recognizes that the criteria to determine a workweek should be clarified. Furthermore, your Committee also recognizes the concerns regarding eligibility determination for disability benefits and availability of a treating physician for certification. As a result, your Committee requested the Department of Labor and Industrial Relations, Department of Human Resources Development, and other stakeholders to develop language that would address the concerns raised in testimony on this measure.

Accordingly, your Committee has amended this measure by adopting the language developed by the Department of Labor and Industrial Relations, Department of Human Resources Development, and other stakeholders to:

- (1) Clarify that an employer is imposed a penalty if the employer fails to pay an employee temporary partial disability benefits within fourteen calendar after the end of the employee's workweek as defined under section 387-1, Hawaii Revised Statutes;
- (2) Add that a nonpayment of disability benefits is excused if the employer or insurance carrier was unable to make payment due to conditions over which the employer or insurance carrier had no control, including compliance with public employment pay periods;
- (3) Clarify that an eligibility determination for temporary total or partial disability benefits depends on a determination by the employee's primary care physician's certification of the employee's dates of disability or by an examination of the employee's entire available medical records by another physician in the event the employee's primary care physician is not available;
- (4) Establish that failure of the employee's primary care physician to certify the dates of disability in an interim report does not automatically disqualify the employee from disability benefits;

- (5) Allow contemporaneous certification to be waived and retroactive certification of disability to be allowed under certain conditions;
- (6) Insert an effective date of July 1, 2050, to encourage further discussion; and
- (7) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2127, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

**SCRep. 2437 (Joint) Judiciary and Labor and Higher Education on S.B. No. 2255**

The purpose and intent of this measure is to increase low- and moderate-income individuals' access to justice and encourage and provide incentives for law school graduates to pursue public interest work in Hawaii by:

- (1) Establishing the Hawaii justice league program to be administered by the University of Hawaii William S. Richardson School of Law (UH School of Law) and specifying duties and responsibilities of the UH School of Law to administer the Hawaii justice league program;
- (2) Establishing the Hawaii justice league loan repayment assistance program within the Hawaii justice league program to be administered by the UH School of Law to provide loan repayments to lawyers who agree to serve for at least five consecutive years as a lawyer pursuing public interest work in Hawaii;
- (3) Establishing criteria for the Hawaii justice league loan repayment assistance program for participation, eligibility, selection, and obligation;
- (4) Authorizing the UH School of Law to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, but exempt such rulemaking from public notice and public hearing requirements;
- (5) Establishing the Hawaii justice league revolving fund to be administered by the UH School of Law for the purposes of implementing the Hawaii justice league program and Hawaii justice league loan repayment assistance program and specifying the sources of funding required to be deposited into the fund;
- (6) Requiring the UH School of Law to implement the Hawaii justice league program no later than June 30, 2015, and requiring the Dean of the UH School of Law to report to the Legislature regarding the status of the Hawaii justice league program prior to each regular session beginning with the Regular Session of 2016;
- (7) Appropriating an unspecified amount from the general fund for fiscal year 2014-2015 for deposit into the Hawaii justice league revolving fund; and
- (8) Appropriating an unspecified amount from the Hawaii justice league revolving fund for fiscal year 2014-2015 for the purposes of establishing and administering the Hawaii justice league program.

Your Committees received testimony in support of this measure from the Hawaii Access to Justice Commission, Hawaii Appleseed Center for Law and Economic Justice, Community Alliance on Prisons, Student Bar Association of the University of Hawaii William S. Richardson School of Law, Students for Public Outreach and Civic Education, and thirty-five individuals. Your Committees received comments on this measure from the Department of Budget and Finance and University of Hawaii William S. Richardson School of Law.

Your Committees find that according to a study conducted in 2007, four out of five low-income Hawaii residents do not have their legal needs met and that legal service providers are only able to assist one in three individuals who contact them for assistance. The Hawaii Access to Justice Commission testified that to increase the delivery of legal services to low-income Hawaii residents, more resources, including attorneys who practice public interest law, are needed.

Your Committees further find that many law students enter law school with the desire and passion to assist the public through public interest work. However, the chief barrier that deters these individuals from pursuing public interest work is the financial reality of paying off their student loan obligations. As a result, many law school graduates forego a career in public interest work for legal opportunities that offer higher financial incentives in the private sector. This measure increases the number of public interest attorneys in Hawaii by lessening a portion of law students' financial burdens through a loan repayment program.

However, your Committees recognize that for a loan repayment program to have a long-term impact on public interest work and thereby increase low- and moderate-income individuals' access to justice, the sources of funding for the Hawaii justice league revolving fund should be sustainable to avoid continual requests to the Legislature for funding. Your Committees find that a possible sustainable source of funding includes the interest earned or accrued on seed monies deposited into the fund. Preliminary projections indicate that the interest earned from a deposit of \$10,000,000 in seed money at approximately four percent interest could provide loan repayments to approximately forty eligible loan repayment program participants per year. Furthermore, your Committees recognize that the Student Bar Association of the University of Hawaii William S. Richardson School of Law are in ongoing discussions with the University of Hawaii Board of Regents to authorize the use of a portion of tuition monies for purposes of maintaining a loan repayment program and believes that this sustainable source of funding should be further explored. Lastly, your Committees believe that other alternative sustainable sources of funding for the loan repayment program merit further consideration by your Committee on Ways and Means.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that loan repayments will be provided to lawyers who agree to serve for a maximum of five years as a lawyer pursuing public interest work in Hawaii to conform with the definition of "loan repayment";
- (2) Changing the Hawaii justice league revolving fund to the Hawaii justice league special fund to appropriately reflect the specific purpose of this fund, which is to provide loan repayments;
- (3) Adding that monies in the Hawaii justice league special fund may include deposits from the University of Hawaii tuition and fees special fund;
- (4) Specifying the amount of \$10,000,000 to be appropriated out of the general fund for fiscal year 2014-2015 for deposit into the Hawaii justice league special fund to serve as seed money for the Hawaii justice league program to use the interest earned from this amount for the loan repayment program;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2255, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2255, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Higher Education

Ayes, 4. Noes, none. Excused, 3 (Ige, Keith-Agaran, Tokuda).

**SCRep. 2438 (Majority) Judiciary and Labor on S.B. No. 2259**

The purpose and intent of this measure is to amend the collective bargaining laws to:

- (1) Prohibit parties in arbitration from including in their final positions any proposals that were not previously submitted in writing before impasse and about which an impasse in collective bargaining has not been reached; and
- (2) Authorize the arbitration panel to decide whether final positions comply with all requirements and which proposals may be considered for inclusion in the final agreement.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Testimony in opposition to this measure was submitted by the Department of the Attorney General, Department of Budget and Finance, Department of Education, University of Hawaii, Office of Collective Bargaining, Hawaii Health Systems Corporation, and Department of Human Resources of the City and County of Honolulu.

Your Committee finds that this measure clarifies the procedures for final positions in arbitration proceedings by prohibiting parties in arbitration from including in their final positions any proposals that were not previously submitted in writing before impasse and about which an impasse in collective bargaining has not been reached. Furthermore, the Hawaii Government Employees Association testified that this measure creates a cost-effective dispute resolution mechanism to determine whether final positions can be included in the final agreement by authorizing the arbitration panel, rather than the Hawaii Labor Relations Board, to make such a determination. However, your Committee notes the concerns raised by a number of state and county entities who serve as public employers and believes that this measure merits further discussion as it moves through the legislative process.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2259, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Solomon). Noes, 1 (Slom). Excused, none.

**SCRep. 2439 Judiciary and Labor on S.B. No. 2365**

The purpose and intent of this measure is to amend the law relating to the furnishing of medical care, services, and supplies under workers' compensation claims by:

- (1) Specifying requirements for the furnishing of drugs in addition to medical care, services, and supplies to an employee who sustains a work injury;
- (2) Establishing a reimbursement ceiling that does not exceed one hundred forty percent of the average wholesale price set by the original manufacturer of the prescription drug as identified by its National Drug Code and published in the Red Book: Pharmacy's Fundamental Reference as of the date of dispensing for all prescription drugs, including repackaged and relabeled drugs;
- (3) Requiring that any prescription drug not available at a major retail pharmacy is not reimbursable unless specifically approved by the Director of Labor and Industrial Relations through administrative rules;

- (4) Adding the definition of “major retail pharmacy”;
- (5) Establishing a reimbursement ceiling that does not exceed one hundred forty percent of the average wholesale price by gram weight set by the original manufacturer of the prescription drug as identified by its National Drug Code and published in the Red Book: Pharmacy’s Fundamental Reference as of the date of compounding for each underlying prescription drug contained in compounded medications;
- (6) Requiring that all pharmaceutical claims submitted for repacked or relabeled prescription medications include the National Drug Code of the original manufacturer; and
- (7) Establishing a reimbursement ceiling that does not exceed one hundred forty percent of the average wholesale price set by the original manufacturer of the prescription drug as identified by its National Drug Code and published in the Red Book: Pharmacy’s Fundamental Reference that is most closely related to the underlying prescription drug if the original manufacturer of an underlying prescription drug used in the repackaged or relabeled prescription drugs or compounded medications is unknown.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Human Resources Development; Department of Human Resources, City and County of Honolulu; Hawaii Insurers Council; Property Casualty Insurers Association of America; The Chamber of Commerce of Hawaii; Government Employees Insurance Company; Automated HealthCare Solutions; and Work Injury Medical Association of Hawaii.

Your Committee finds that Hawaii’s existing reimbursement rates for pharmaceuticals in workers’ compensation claims are among the highest in the nation for brand and generic products. Existing administrative rules allow pharmaceuticals to be charged to insurance carriers at up to one hundred forty percent of the average wholesale price listed in the Red Book: Pharmacy’s Fundamental Reference. However, existing law and administrative rules do not address the reimbursement of repackaged, relabeled, or compounded medications. As a result, third-party companies are able to buy prescription drugs in bulk; repackage, relabel, or compound the medications; and attach their own National Drug Code to the repackaged, relabeled, or compounded medications with average wholesale prices that are higher than the average wholesale prices of the original manufacturers. Insurance carriers are then billed at one hundred forty percent of the higher average wholesale price, which results in higher charges.

Establishing a reimbursement ceiling for repackaged, relabeled, or compound medications at one hundred forty percent of the average wholesale price set by the original manufacturer will assist in reducing the State’s costs for workers’ compensation claims related to medical care, services, drugs, and supplies. The Department of Labor and Industrial Relations testified that it is currently handling over two thousand workers’ compensation disputes related to repackaged medications. This measure will assist the Department in reducing the number of these disputes.

Your Committee has amended this measure by adopting the language suggested by the Department of Labor and Industrial Relations and Automated Health Care Solutions to:

- (1) Set the reimbursement price for repackaged, relabeled, and compound prescription drugs at exactly, rather than up to, one hundred forty percent of the average wholesale price set by the original manufacturer of the prescription drug;
- (2) Adopt the Medi-Span Master Drug Database as the official prescription medication pricing source book rather than the Red Book: Pharmacy’s Fundamental Reference because Medi-Span is a more widely used and comprehensive source;
- (3) Clarify that the reimbursement price for repackaged or relabeled prescription drugs is set at the date of purchase rather than date of dispensing;
- (4) Allow the reimbursement price for repackaged, relabeled, and compound prescription drugs to be a lower amount if the employer or carrier, or any entity acting on behalf of the employer or carrier, directly contracts with the provider or the provider’s assignee;
- (5) Delete the language that would have prohibited reimbursement for any prescription drug not available at a major retail pharmacy unless specifically approved by the Director of Labor and Industrial Relations through administrative rules and replace it with language that allows the Director to limit the reimbursement of a specific prescription drug that is not available at a major retail pharmacy;
- (6) Insert language to set the reimbursement price for over the counter medications dispensed by a licensed practitioner at one hundred twenty percent of the average wholesale price set by the original manufacturer of the dispensed prescription drug as identified by its National Drug Code and published in the Medi-Span Master Drug Database as of the date of purchase by the provider of service;
- (7) Allow the reimbursement price for over the counter medications dispensed by a licensed practitioner to be a lower amount if the employer or carrier, or any entity acting on behalf of the employer or carrier, directly contracts with the provider or the provider’s assignee; and
- (8) Require generic pharmaceuticals to be substituted for brand name pharmaceuticals unless the prescribing physician certifies that a brand name pharmaceutical is necessary.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2365, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2365, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 2440 (Joint) Judiciary and Labor and Commerce and Consumer Protection on S.B. No. 2477**

The purpose and intent of this measure is to authorize the use of a master certificate of title for common interest communities to simplify and streamline the operation of the Land Court. Specifically, this measure:

- (1) Establishes procedures for a master certificate of title for the Assistant Registrar of the Land Court to carry out upon the recording of a declaration creating a common interest community;
- (2) Establishes procedures for a master certificate of title for the Assistant Registrar to carry out upon the recording of an amendment or supplement to the governing documents of an existing common interest community;
- (3) Establishes the effect of a master certificate of title of a common interest community;
- (4) Sets the requirements for the contents of a master certificate of title of a common interest community; and
- (5) Adds definitions of "association", "common interest community", "governing documents", "master certificate of title", and "unit".

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Community Association Institute, and five individuals. The Judiciary submitted comments.

Your Committees find that existing law requires that any amendment to the documents governing a condominium or planned community shall be noted on the certificate of title for each unit. This is a costly and time-consuming process for the Land Court. This measure authorizes the use of a master certificate of title for common interest communities to list encumbrances of general application and eliminates the need to change the certificate of title for each unit to reflect any changes in the encumbrances of general application. As a result, the certificates of title for each unit will cross reference the master certificate of title.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2477 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Solomon).

Commerce and Consumer Protection

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Wakai).

**SCRep. 2441 Judiciary and Labor on S.B. No. 2916**

The purpose and intent of this measure is to require, rather than allow, the Employees' Retirement System to require any department or agency of the State or counties to furnish to the System certain payroll and personnel transaction information, including any changes or errors in payments that require correcting or updating.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that this measure specifies that, in addition to allocating payments to the periods in which payments are earned and specifying the purpose or nature of the payments, public employers are required to indicate any changes or errors in payments that require correcting or updating. The Employees' Retirement System testified that its personnel and payroll file formats are configured to accept corrections, adjustments, and updated information, but a number of public employers do not use this capability, which results in delays in the processing of retirement benefits.

Your Committee notes the suggested language submitted by the Employees' Retirement System that imposes penalties on public employers who fail to submit the required information.

Accordingly, your Committee has amended this measure, as suggested by the Employees' Retirement System, by:

- (1) Clarifying that the furnishing of certain payroll and personnel transaction information is required of all departments and agencies of the State or counties;
- (2) Providing that if a department or agency fails to provide the information, the State or county is required to pay to the System, on the first day of the following fiscal year in which the failure occurred, in an amount equal to the employer contributions payable by the State pursuant to section 88-124, Hawaii Revised Statutes, or by the county pursuant to section 88-126, Hawaii Revised Statutes;
- (3) Providing that if the required payment is not made on the first day of the fiscal year, any unpaid amounts shall bear interest and any subsequent payments shall be applied first to accrued interest and then to the required payment;
- (4) Inserting an effective date of July 1, 2016; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2916, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2916, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Ihara, Sлом).

**SCRep. 2442 (Joint/Majority) Judiciary and Labor and Transportation and International Affairs on S.B. No. 3039**

The purpose and intent of this measure is to:

- (1) Establish the wage and hour for public works projects special fund to assist the Department of Labor and Industrial Relations in enforcing Hawaii's wage and hour law on public construction projects;
- (2) Require state departments that receive appropriations of capital improvement project funds to transfer a percentage of those appropriations into the wage and hour for public works projects special fund;
- (3) Require the Department of Labor and Industrial Relations to provide an annual status report of the wage and hour for public works projects special fund to the Legislature; and
- (4) Create additional labor enforcement specialist IV positions within the Department of Labor and Industrial Relations to enforce Hawaii's wage and hour law and appropriate a specified amount for these positions.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Accounting and General Services, Hawaii Operating Engineers Industry Stabilization Fund, Hawaii Regional Council of Carpenters, Hawaii Laborers-Employers Cooperation and Education Trust, The Pacific Resource Partnership, and Building Industry Association – Hawaii. The General Contractors Association of Hawaii and Tax Foundation of Hawaii submitted comments.

Your Committees find that public works construction projects face issues involving adherence to wage and hour laws. With the large amount of capital the State spends on various projects annually, your Committees believe that it is imperative for wage and hour laws to be strictly enforced. This measure establishes the wage and hour for public works projects special fund to assist the Department of Labor and Industrial Relations in enforcing Hawaii's wage and hour law on public construction projects.

However, your Committees have concerns regarding the cost and necessity of establishing a special fund and believe that it is more appropriate for the Department of Labor and Industrial Relations to attain additional investigators to enforce wage and hour laws. The Department testified that its Wage Standards Division currently has four investigators who are qualified to conduct public works investigations. Your Committees find that the specified amount appropriated for two additional labor enforcement specialist IV positions appears to be insufficient to cover salary and benefits.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 2, which would have established the wage and hour for public works projects special fund and making conforming amendments to reflect this deletion;
- (2) Changing the appropriation amount from \$85,241 to \$200,000 to establish two full-time equivalent labor law enforcement specialist IV positions; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3039, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3039, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Ihara, Shimabukuro).

Transportation and International Affairs

Ayes, 7. Noes, none. Excused, 2 (Espero, Slom).

**SCRep. 2443 Technology and the Arts on S.B. No. 2095**

The purpose and intent of this measure is to increase the privacy rights of individuals and simplify the standards by which law enforcement is able to access certain information by:

- (1) Requiring a search warrant in order to compel disclosure to a government entity of the contents of electronic communications, regardless of whether the communications were held in storage or not, how long the communications have existed, or if the communications are classified as retrieved or unretrieved; and
- (2) Requiring a court order in order to compel disclosure to a government entity of non real-time, or historical, transactional records and requiring the court order to issue only if the governmental entity demonstrates probable cause that the records sought constitute a crime or are relevant to a legitimate law enforcement inquiry.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Office of the Prosecuting Attorney of the County of Kauai.

Your Committee finds that users of electronic communication services and remote storage providers have various privacy rights. Existing law requires law enforcement to obtain a court order before having access to retrieved electronic mail and electronic mail that has been held in storage for more than one hundred eighty days. Furthermore, probable cause must be shown for the issuance of a court order to access transactional records. This measure provides even greater privacy protection for individuals by requiring a search warrant for disclosure of electronic communications and streamlines the criteria that law enforcement must satisfy to access certain information, without unduly interfering with law enforcement's need to investigate criminal activity.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2095 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2444 Technology and the Arts on S.B. No. 2097**

The purpose and intent of this measure is to amend the definition of “pen register” to include devices that record or decode impulses that identify the numbers dialed or transmitted through cell phones and other communication devices.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kauai, and the Honolulu Police Department.

Your Committee finds that the current definition of “pen register”, as defined in section 808-41, Hawaii Revised Statutes, was adopted in the 1980s and still refers to numbers dialed on a landline. This measure makes the definition of “pen register” technology neutral and more applicable to current forms of communication, without changing any standards or burdens of proof that law enforcement must satisfy to obtain an order to use pen registers.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2097 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2445 (Joint/Majority) Human Services and Judiciary and Labor on S.B. No. 3076**

The purpose and intent of this measure is to enable independent direct support providers to engage in limited collective bargaining with the State.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association. Your Committees received testimony in opposition to this measure from the Office of Collective Bargaining and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Hawaii Labor Relations Board.

Your Committees find that this measure recognizes independent direct support providers’ right to organize and establishes the framework for independent direct support providers to unionize. Your Committees received testimony from the Hawaii Labor Relations Board expressing that the Board would need additional resources to carry out this measure. Specifically, the Board indicated that it would need an additional attorney and paralegal and an appropriation to fund transcripts, witness fees, and mileage fees. Your Committees find that this concern regarding resources merits further consideration as this measure moves through the legislative process.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3076, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3076, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Human Services  
Ayes, 2. Noes, 1 (Slom). Excused, 2 (Kidani, Taniguchi).  
Judiciary and Labor  
Ayes, 4. Noes, 1 (Slom). Excused, 2 (Galuteria, Ihara).

**SCRep. 2446 Human Services on S.B. No. 2772**

The purpose and intent of this measure is to support foster care providers by increasing the minimum monthly foster care basic board rate and the foster care maximum difficulty of care rate.

Your Committee received testimony in support of this measure from the Department of Human Services; Catholic Charities Hawaii; EPIC Ohana, Inc.; Family Programs Hawaii; Hale Opio Kauai, Inc.; Hawaii Foster Youth Coalition; Hawaii Youth Services Network; National Association of Social Workers, Hawaii Chapter; YMCA of Honolulu; HI H.O.P.E.S.; Hawaii Appleseed Center for Law and Economic Justice; and ten individuals.

Your Committee finds that it is time to increase the rate of monthly board payments and monthly difficulty of care rate payments for foster families. The current rate of \$529 per month has not been changed for over two decades, and is not enough to meet the needs of children in foster care considering the increasing costs of rent and living expenses in Hawaii. Your Committee further finds that the recruitment of foster families has become increasingly challenging for agencies, and it is important to be able to reasonably compensate the families for the living expenses of the children for whom they care.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2772, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 2447 Human Services on S.B. No. 651**

The purpose and intent of this measure is to prohibit smoking in and around public housing projects and state low-income housing projects under the jurisdiction of the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Department of Health, Coalition for a Tobacco-Free Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from three individuals.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Adding language that prohibits smoking in any elder or elderly household;
- (2) Adding language that prohibits smoking in all common areas, community facilities, and within twenty feet from any entrance, exit, window, and ventilation intake that serves an enclosed or partially enclosed area of public housing projects and state low-income housing projects;
- (3) Removing language requiring the Hawaii Public Housing Authority to designate one or more permissible smoking areas;
- (4) Inserting language requiring the Hawaii Public Housing Authority to place and maintain "No smoking" signage at all entrances and exits of the property;
- (5) Expanding the definition of "common areas"; and
- (6) Expanding the definition of "smoking" to include the use of electronic smoking devices.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Health, Coalition for a Tobacco-Free Hawaii, and four individuals. Your Committee received testimony in opposition to this measure from Volcano Fine Electric Cigarettes, and three individuals. Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that there are many hazards caused by involuntary exposure to tobacco smoke, including lung cancer, coronary heart disease, and stroke. In addition, secondhand smoke can cause lung problems, ear infections, asthma, and sudden infant death syndrome. The United States Surgeon General has found that there is no safe level or amount of exposure to secondhand smoke. Your Committee received testimony expressing concern about the lack of designated smoking areas in the measure and the fact that electronic smoking devices are included in the measure's definition of smoking. Your Committee finds that the effects of electronic smoking devices are not well established.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Adding language authorizing the Hawaii Public Housing Authority to designate permissible smoking areas;
- (2) Adding language requiring the Authority to place and maintain "No smoking" signage at any appropriate location; and
- (3) Removing the reference to electronic smoking devices.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 651, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Green, Taniguchi).

**SCRep. 2448 Energy and Environment on S.B. No. 2933**

The purpose and intent of this measure is to establish an energy storage tax credit for utility scale renewable energy storage property.

Your Committee received testimony in support of this measure from the Renewable Energy Action Coalition of Hawaii, Ulupono Initiative, Blue Planet Foundation, Hawaii Renewable Energy Alliance, Princeton Energy Group, Molokai Ranch, Sempra USGP, Royal Contracting Company, Solar Power Systems International, and fifteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Department of the Attorney General; Department of Taxation; Department of Business, Economic Development, and Tourism; Tax Foundation of Hawaii; Hawaiian Electric Company; and one individual.

Your Committee finds that energy storage is a key component of a modern, smart electrical grid and can help to maximize the use of indigenous renewable energy. Hawaii has successfully utilized a renewable energy tax credit to foster a sustainable local renewable energy industry responsible for creating jobs, catalyzing statewide energy savings, improving our environment, and reducing greenhouse gas emissions.

Your Committee expressed concerns about the environmental impacts of this measure, specifically relating to the disposal of energy storage batteries. Your Committee finds that this issue raises concerns that merit further consideration.

Your Committee has amended this measure by:

- (1) Changing references from “utility scale renewable energy storage property” to “utility scale energy storage property”;
- (2) Clarifying that an energy storage tax credit can be claimed for each utility scale energy storage property:
  - (A) That is used primarily to store electricity;
  - (B) For which the taxpayer enters into an agreement with an electric utility after June 30, 2014, and on or before December 31, 2020; and
  - (C) That is installed and first placed in service by a taxpayer during a taxable year after December 31, 2014, and on or before December 31, 2024;
- (3) Deleting language that established limits for megawatt-hour of energy storage capacity;
- (4) Deleting language that would have allowed the tax credit to be claimed as a utilization credit;
- (5) Inserting language to require a taxpayer to obtain certification from the Department of Business, Economic Development, and Tourism that verifies that the taxpayer has control of the site of the proposed project;
- (6) Inserting language to require the Department of Business, Economic Development, and Tourism to cease certifying tax credits for the year when the aggregate tax credit certifications for the year reaches \$20,000,000; provided that the queue of remaining projects awaiting certification shall carry over to the following year;
- (7) Inserting language to require a taxpayer, within twelve months of receiving certification for a project, to provide the Department of Business, Economic Development, and Tourism with evidence that the taxpayer has invested into the project an amount equal to at least five percent of the amount of the taxpayer’s projected cumulative tax credits; provided that the Department shall rescind the certification of a taxpayer for noncompliance;
- (8) Inserting language to require the Department of Business, Economic Development, and Tourism to notify the Department of Taxation of all certifications and rescissions of certifications pursuant to this measure;
- (9) Deleting language relating to eligibility of association owners under chapter 421I, 421J, 514A, or 514B, Hawaii Revised Statutes, to claim the tax credit pursuant to this measure;
- (10) Clarifying that no public sector agency shall qualify for the tax credit pursuant to this measure;
- (11) Clarifying that the joint report by the Department of Taxation, in collaboration with the Department of Business, Economic Development, and Tourism, include only the following estimated economic benefits attributable to the tax credit:
  - (A) Jobs created in the energy storage field;
  - (B) Jobs created in the renewable energy generation field;
  - (C) General excise and income tax revenue generated; and
  - (D) Monetization of the benefits of increased grid stability;
- (12) Amending the definition of “basis” to not exclude costs for energy storage equipment required by an electric utility for interconnection of a renewable energy generation facility;
- (13) Inserting a definition for “certification”;
- (14) Deleting the definition for “electricity generated from renewable sources”;
- (15) Amending the definition of “energy storage capacity” to include the amount of electricity measured in megawatts;
- (16) Inserting language to require that utility scale energy storage property shall have an energy storage capacity of at least one megawatt of power or one megawatt-hour of energy storage;
- (17) Inserting an effective date of July, 1, 2014;
- (18) Clarifying that the tax credits shall apply to taxable years beginning after December 31, 2014; and
- (19) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2933, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2933, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2449 (Joint) Human Services and Health and Economic Development, Government Operations and Housing on S.B. No. 2031**

The purpose and intent of this measure is to require vendors who have been awarded contracts through the Centers for Medicare and Medicaid Services durable medical equipment, prosthetics, orthotics, and supplies bidding program to provide supplies to the residents of the State to have a physical presence in Hawaii.

Your Committees received testimony in support of this measure from the Healthcare Association of Hawaii, The Queen's Health Systems, and two individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Human Services, and Hawaii Medical Service Association.

Your Committees find that the Medicare Modernization Act of 2003 established requirements for a new competitive bidding program for certain durable medical equipment, prosthetics, orthotics, and supplies. Under the program, suppliers compete to become Medicare contract suppliers by submitting bids to furnish certain items in competitive bidding areas. The Centers for Medicare and Medicaid Services awards contracts to enough suppliers to meet beneficiary demand for the bid items. Your Committees received testimony on this measure from the Department of the Attorney General expressing concern that this measure may be preempted by federal regulation that allows state regulation of durable medical equipment suppliers only through licensing requirements. The Healthcare Association of Hawaii provided your Committees with suggested language to address the concerns raised by the Department of the Attorney General.

Accordingly, your Committees have amended this measure by adopting the language submitted to your Committees by the Healthcare Association of Hawaii. Specifically, that language amends this measure by:

- (1) Deleting its contents and inserting language that:
  - (A) Requires all suppliers of durable medical equipment in the State to be licensed;
  - (B) Establishes licensing requirements, which include maintaining an appropriate physical location within the State and complying with all federal regulations pertaining to the sale of durable medical equipment and all state legal requirements for a business engaged in the sale of goods in the State;
  - (C) Defines "appropriate physical location", which requires having a physical facility within the State, visible signage, and posted hours of operation; and
  - (D) Establishes a process for reporting violations and complaints against durable medical equipment suppliers; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services, Health, and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2031, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2031, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs and Majority Leader on behalf of the Committees.

Economic Development, Government Operations and Housing

Ayes, 5. Noes, none. Excused, 2 (Baker, Chun Oakland).

**SCRep. 2450 Human Services on S.B. No. 2792**

The purpose and intent of this measure is to allow qualified entities to request state and national fingerprint-based criminal history record checks on their applicants, employees, and volunteers who provide care for children, vulnerable adults, or individuals with disabilities, and to receive the results directly.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Human Services.

Your Committee finds that Section 5119a of the National Child Protection Act, Public Law No. 103-209, as amended, authorizes public, private, nonprofit, or for-profit entities to submit requests for fingerprint-based criminal history record checks on their applicants, employees, and volunteers who provide care to children, vulnerable adults, or individuals with disabilities. Generally, an authorized government agency must receive the results and make the suitability determination. However, other jurisdictions have been permitted to provide the information directly to a non-government agency upon receipt of a waiver from the individual on whom the criminal history record check is being run. This measure will bring the State in line with other jurisdictions and make complete and up-to-date criminal history records available to qualifying entities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2792, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2792, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2451 Human Services on S.B. No. 2160**

The purpose and intent of this measure is to protect children by establishing that it is a class C felony for a caregiver to fail to report the death or disappearance of a child to law enforcement or to provide false information to law enforcement authorities about a missing child.

Your Committee received testimony in support of this measure from the National Association of Social Workers, Hawai'i Chapter; Maui Family Support Services; and Ho'oukaika Partnership.

Your Committee finds that according to the United States Department of Justice, over a period of one year approximately 797,500 children under eighteen were reported missing. Your Committee further finds that because outcomes for missing children are usually negative, there is a need for caregivers to promptly report missing children. Furthermore, contacting authorities after the death of a child can lead to the immediate investigation of the circumstances of the child's death, which may prevent injury to other children associated with the deceased child. This measure therefore protects the rights of children and encourages the immediate response of a caregiver regarding reporting the disappearance or death of a child.

Your Committee has amended this measure by inserting savings and severability clauses and making other technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2160, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2452 Technology and the Arts on S.B. No. 2094**

The purpose and intent of this measure is to:

- (1) Redefine the offense of computer damage in the first degree as intentionally causing or attempting to cause damage to a critical infrastructure computer;
- (2) Increase the grade of the offense of computer damage in the first degree to a class A felony;
- (3) Redefine the offense of computer damage in the second degree as knowingly causing the transmission of a program, information, code, or command, and thereby knowingly causing other damage; or intentionally accessing a computer, computer system, or computer network without authorization, and thereby knowingly causing damage;
- (4) Increase the grade of the offense of computer damage in the second degree to a class B felony;
- (5) Create a new offense of computer damage in the third degree as knowingly accessing a computer, computer system, or computer network without authorization and recklessly causing damage;
- (6) Establish the offense of computer damage in the third degree as a class C felony; and
- (7) Define "critical infrastructure computer".

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, and Office of the Prosecuting Attorney of the County of Kauai.

Your Committee finds that existing law only applies when a perpetrator uses one computer to damage another computer, such as by hacking or transmitting a computer virus. However, greater protections are needed for critical infrastructure computers, as damage to these computers jeopardize public health, safety, and security, regardless of how the damage occurs. This measure is necessary to provide further protection by creating a new offense of damage to critical infrastructure computers and redefining the current offenses of computer damage in the first and second degree accordingly.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2094, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2453 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2215**

The purpose and intent of this measure is to encourage responsible decisions and increase public safety by establishing limited immunity for individuals who seek medical assistance for victims of alcohol or drug-related overdoses or for themselves during an alcohol or drug-related overdose emergency.

Your Committee received testimony in support of this measure from the Department of Health; Community Alliance on Prisons; CHOW Project; Drug Policy Action Group; Medical Amnesty Initiative; and six individuals.

Your Committee finds that overdoses have increased, becoming a leading mechanism of injury-related mortality in Hawaii. The threat of criminal punishment often causes individuals to hesitate from taking necessary action in emergency overdose situations. Medical amnesty policies encourage individuals to make responsible decisions by shielding them from punishment when they seek medical attention during an emergency involving alcohol or controlled substances. Medical amnesty is a life-saving policy and is in

the best interest of the public's health, safety, and welfare. Accordingly, this measure enables individuals to make life-saving decisions by establishing limited immunity for individuals who seek medical assistance for themselves or others during an overdose emergency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2215 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2454 Public Safety, Intergovernmental and Military Affairs on S.B. No. 2358**

The purpose and intent of this measure is to:

- (1) Decriminalize the intentional or knowing possession of one ounce or less of marijuana; and
- (2) Establish a civil violation for possession of one ounce or less of marijuana that is subject to a fine of not more than \$100.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawaii; Community Alliance on Prisons; Religion of Jesus Church; and twenty-nine individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General; Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; Hawaii Police Department; Maui Police Department; Coalition for a Drug-Free Hawaii; and eight individuals. Your Committee received comments on this measure from the Judiciary and three individuals.

Your Committee finds that there is increasing public and federal support for the decriminalization of marijuana. On August 29, 2013, a United States Department of Justice Memorandum for United States Attorneys deemphasized federal enforcement of federal drug laws concerning marijuana as long as marijuana activity does not threaten the federal government's enforcement priorities and stresses that enforcement of state laws by local law enforcement authority should be the "primary means of addressing marijuana-related activity." Your Committee further finds that studies indicate that stricter drug policies might actually lead to an increase in crime. In accordance with the current science and attitude toward marijuana, this measure decriminalizes the intentional or knowing possession of one ounce or less of marijuana.

Your Committee has amended this measure by:

- (1) Amending a first time violation for possession of one ounce or less of marijuana from no more than \$100 to exactly \$100;
- (2) Establishing a fine of \$250 for a second violation for possession of one ounce or less of marijuana;
- (3) Establishing a fine of \$500 for a third or subsequent violation for possession of one ounce or less of marijuana; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2358, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2358, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2455 Public Safety, Intergovernmental and Military Affairs on S.B. No. 3094**

The purpose and intent of this measure is to allow each county to impose and enforce liens upon premises served for unpaid water or sewer charges in excess of a certain amount after an opportunity to be heard under chapter 91, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Environmental Management, County of Hawaii; Water Board, County of Hawaii; Department of Water Supply, County of Hawaii; and the Department of Water, County of Kauai. Your Committee received testimony in opposition to this measure from the Department of Environmental Services of the City and County of Honolulu. Your Committee received comments on this measure from the Board of Water Supply.

Your Committee finds that counties must go through a lengthy process to collect unpaid water and sewer bills. The current process requires letters, payment plans, phone calls, and a court action. In many cases, the value of the time and resources required to collect on a past due account exceeds the amount actually owed.

Your Committee further finds that the existing authorization of each county to take over the State existing waterworks system may burden ratepayers and counties with the additional costs to maintain, improve, enlarge, and develop a state water system.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the dollar threshold of unpaid water or sewer charges that had to be exceeded before a county could impose and enforce liens upon premises served for the unpaid water or sewer charges; and
- (2) Repealing the authority of each county to take over from the State existing waterworks systems and sewer systems and to enlarge, develop, and improve the same.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3094, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Green).

**SCRep. 2456 (Joint) Hawaiian Affairs and Economic Development, Government Operations and Housing on S.B. No. 3122**

The purpose and intent of this measure is to:

- (1) Require that the Office of Hawaiian Affairs conduct a public hearing regarding any plan or proposal for any residential development in Kakaako prior to submission of the plan or proposal to the Hawaii Community Development Authority (HCDA) and approval of the plan or proposal by HCDA; and
- (2) Exempt the Office of Hawaiian Affairs' Kakaako lands from the requirements of section 206E-12, Hawaii Revised Statutes, regarding the dedication of public facilities by developers as a condition of developing real property pursuant to the community development plan.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Oahu Council of the Association of Hawaiian Civic Club, Association of Hawaiian Civic Clubs, King Kamehameha HCC, Pearl Harbor Hawaiian Civic Club, Ko'olaupoko Hawaiian Civic Club, Kuakini Hawaiian Civic Club of Kona, Ho'okipa Network - Kauai, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Council for Native Hawaiian Advancement, and forty-one individuals. Your Committees received testimony in opposition to this measure from the Kanehili Cultural Hui, Friends of Kewalos, Hawaii's Thousand Friends, Community Planning Advisory Council, and fifty-five individuals. Your Committees received comments on this measure from the Attorney General and four individuals.

Your Committees find that, in 2012, the Office of Hawaiian Affairs was awarded ten parcels of land in Kakaako to settle certain claims against the State. The ten parcels in Kakaako were appraised at \$200,000,000. In order for the Office of Hawaiian Affairs to realize the full value of these lands, the Office of Hawaiian Affairs must have the ability to construct residential developments. In 2006, however, the Legislature banned residential development in the Kakaako Makai area in response to community concerns regarding preserving open space. Based on these continued community concerns, your Committees believe that six of the ten parcels awarded to the Office of Hawaiian Affairs along the Kewalo Basin waterfront and the site of the Office of Hawaiian Affairs' former homeless shelter on the waterfront should not be authorized for residential development. The remaining lots, however, should be available for residential use. Your Committees conclude that this compromise strikes a balance between the concerns of the community and Native Hawaiian entitlements.

Your Committees note that testimony from the Office of the Attorney General contended that the authorization of residential use on the Office of Hawaiian Affairs' lands in Kakaako may violate the state constitution. However, your Committees are not persuaded by the arguments made by the Office of the Attorney General.

Accordingly, your Committees have amended this measure by:

- (1) Authorizing residential development on only those Kakaako parcels owned by the Office of Hawaiian Affairs, identified as tax map keys 2-1-15-61, 2-1-58-6, 2-1-60-4, 2-1-60-5, and 2-1-60-6;
- (2) Requiring that the applicant for residential development on those parcels, rather than the Office of Hawaiian Affairs, hold a public hearing prior to submitting plans or proposals to HCDA;
- (3) Requiring that the applicant for residential development, rather than the Office of Hawaiian Affairs, consider all written and oral submissions from the public hearing prior to submitting any plan or proposal for residential development to HCDA;
- (4) Inserting language to require HCDA to hold a public hearing prior to approving any plan or proposal for residential development;
- (5) Inserting language to require HCDA to consider all written and oral submissions from the applicant's public hearings, as well as its own public hearings, prior to approving any plan or proposal for residential development in Kakaako;
- (6) Inserting language to establish a height limit of four hundred feet for two Kakaako parcels owned by the Office of Hawaiian Affairs identified as tax map keys 2-1-15-61 and 2-1-58-6;
- (7) Inserting language to establish a Kakaako makai association fee to be collected from all residential owners in Kakaako on parcels identified as tax map keys 2-1-15-61, 2-1-58-6, 2-1-60-4, 2-1-60-5, and 2-1-60-6;
- (8) Inserting language to establish a Kakaako makai special account within the Hawaii community development revolving fund to be used to fund various services and projects, including but not limited to maintenance, improvements, free public parking for park users, public beach access, security, and parks and open spaces, for the Kakaako Community Development District makai of Ala Moana Boulevard and between Kewalo Basin and the foreign trade zone;
- (9) Removing amendments to section 1-28.5, Hawaii Revised Statutes, relating to the definition of government agency, for the purpose of clarity; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3122, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3122, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Majority Leader and Chair on behalf of the Committees.

Hawaiian Affairs

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Hee).

Economic Development, Government Operations and Housing

Ayes, 5; Ayes with Reservations (Chun Oakland, Slom). Noes, none. Excused, 2 (Baker, Thielen).

**SCRep. 2457 Ways and Means on S.B. No. 2890**

The purpose and intent of this measure is to clarify that references to the term “estate taxes” in the Internal Revenue Code (IRC), when used to make certain provisions of the IRC operative for the purposes of applying state income tax, refer to both the estate and generation-skipping tax imposed by chapter 236E, Hawaii Revised Statutes (HRS), and the estate and transfer tax imposed by chapter 236D, HRS.

The Department of Taxation submitted testimony in support of the measure. The Tax Foundation of Hawaii submitted comments on the measure.

Your Committee finds that under current state law that makes the IRC operative for the purposes of applying state income tax, the law specifies the terms in the IRC that are to be substituted with terms used in state law. As currently written, section 235-3, HRS, only allows for the estate and transfer tax imposed by chapter 236D, HRS, to be substituted for the term “estate taxes” in the IRC when using the IRC provisions to apply the state version of estate taxes. However, the Legislature established the generation-skipping transfer tax under chapter 236E, HRS, during the Regular Session of 2012. Your Committee finds that this measure clarifies that references to estate taxes when applying IRC provisions relating to estate taxes shall include both the estate and transfer tax under chapter 236D, HRS, and the generation-skipping transfer tax under chapter 236E, HRS.

Your Committee has amended this measure by:

- (1) Applying the measure retroactively to January 26, 2012, when chapter 236E, HRS, became applicable; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2890, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2890, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Tokuda).

**SCRep. 2458 Ways and Means on S.B. No. 2410**

The purpose and intent of this measure is to require each agency that submits a capital improvement project proposal to furnish the Department of Budget and Finance with an estimate of the operational costs for the proposed capital improvement project.

The measure also requires the Department of Budget and Finance to report to the Governor an estimate of the operational costs for each proposed capital improvement project.

The Department of Budget and Finance provided comments on this measure.

Your Committee finds that agencies that submit a proposal for a capital improvement project are currently not required to include an estimate of operational costs relating to the maintenance and continued operation of a facility or project. However, operational costs are often significant and at times are even more than the cost of development and construction. Your Committee believes that by requiring agencies to submit an estimate of operational costs, this measure will permit the State to make more fiscally sound decisions and better prioritize spending on capital improvement projects.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2410, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2459 Ways and Means on S.B. No. 2153**

The purpose and intent of this measure is to require an evaluation of all state tax expenditures.

More specifically, this measure:

- (1) Requires the Department of Taxation to provide an annual report on tax expenditures to the Legislature on or before September 15th of each odd-numbered year; and
- (2) Requires legislation establishing new tax expenditures to include certain specified provisions.

The Department of Taxation and the Tax Foundation of Hawaii provided comments on the measure.

Your Committee finds that an evaluation of all state tax expenditures would better enable the Legislature to make fiscally-sound and effective spending decisions. Your Committee also finds that the Department of Taxation currently administers fourteen types of taxes

and that a significant amount of time and resources will be required by the Department to implement the necessary changes to the current tax forms and the Department's computer system to capture, analyze, and produce the data required by this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date from July 1, 2014, to July 1, 2017, to allow the Department of Taxation sufficient time to begin capturing and analyzing data for the purposes of this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2153, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Tokuda).

**SCRep. 2460 (Joint) Water and Land and Economic Development, Government Operations and Housing on S.B. No. 2803**

The purpose and intent of this measure is to make permanent the exemption from the prohibition on the operation of thrill craft in state waters for film production permit holders, authorized government personnel conducting operations approved by the Department of Land and Natural Resources, and ocean cleanup purposes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Department of Business, Economic Development, and Tourism.

Your Committees find that as a filming location, Hawaii has a global reputation for world renowned surf, pristine waters, and expert water safety men and women who support this industry. The use of jet skis for film shoots is normally limited to use for water safety, picture vessels, transport of cast and crew members, and camera positioning. According to testimony of the Department of Business, Economic Development, and Tourism, there have been no reported complaints received by the Department of Land and Natural Resources or the Hawaii Film Office for use of thrill crafts for film production, nor were there any incidents of environmental damage or business disruptions.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2803, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2803, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

Economic Development, Government Operations and Housing

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2461 (Majority) Ways and Means on S.B. No. 1065**

The purpose and intent of this measure is to make emergency appropriations to fund salary increases as well as other collective bargaining cost items for collective bargaining unit (11), as well as their excluded counterparts for fiscal biennium 2013-2015, pursuant to the collective bargaining agreement between public employers and collective bargaining unit (11).

Your Committee received written comments in support of this measure from the Department of Budget and Finance and the Hawaii Fire Fighters Association.

Your Committee finds that emergency appropriations are needed for public employers to comply with the terms of the agreement negotiated between public employers and collective bargaining unit (11).

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1065, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, 1 (Slom). Excused, 1 (Tokuda).

**SCRep. 2462 Ways and Means on S.B. No. 2337**

The purpose and intent of this measure is to provide funding for the low-income housing tax credit loan program through revenues derived from the issuance of general obligation bonds.

Your Committee received written comments in support of the measure from the Hawaii Housing Finance and Development Corporation, Community Alliance for Mental Health, and General Contractors Association of Hawaii. The Department of Budget and Finance submitted written comments on the measure.

Your Committee finds that Act 158, Session Laws of Hawaii 2011, established a low-income housing tax credit loan program, which allows owners of qualified low-income buildings to receive an interest-free loan from the State in lieu of claiming the low-income housing tax credit under section 235-110.8, Hawaii Revised Statutes. Your Committee believes that funding the loan program

through revenues derived from an issuance of general obligation bonds is appropriate and will help address the need for low-income housing in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2337, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2463 Hawaiian Affairs on S.B. No. 2989**

The purpose and intent of this measure is to amend the law relating to the Native Hawaiian Roll Commission.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language specifying that the Office of Hawaiian Affairs shall serve as the repository for the roll of qualified native Hawaiians, including all documents, records, and files associated with the roll, once the Native Hawaiian Roll Commission is dissolved.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2989, as amended herein, and recommends that it be recommitted to the Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 2989, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2464 (Joint) Hawaiian Affairs and Technology and the Arts on S.B. No. 233**

The purpose and intent of this measure is to change the inscription dates on Queen Liliuokalani's statue to the dates of her coronation and death.

Your Committees received testimony in support of this measure from the State Foundation on Culture and the Arts and the Association of Hawaiian Civic Clubs. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from one individual.

The memorial statue of Queen Liliuokalani on the grounds of the State Capitol is a symbol and tribute to the Hawaiian Kingdom. Although Queen Liliuokalani never relinquished the throne, the inscription on the statue displays the date of Queen Liliuokalani's reign from the date of her coronation to the date of the wrongful and illegal overthrow of the Kingdom of Hawaii. To honor and respect Queen Liliuokalani's memory, the statue should reflect that Queen Liliuokalani reigned from the date of her coronation to the date of her death on November 11, 1917.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 233 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Hawaiian Affairs  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).  
Technology and the Arts  
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

**SCRep. 2465 Human Services on S.B. No. 2718**

The purpose and intent of this measure is to amend the law relating to the Hawaii Children's Trust Fund.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that:

- (1) Amends and establishes new responsibilities and members for the Hawaii Children's Trust Fund Advisory Board;
- (2) Amends the responsibilities of the Hawaii Children's Trust Fund Coalition; and
- (3) Repeals the Hawaii Children's Trust Fund Advisory Committee.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2718, as amended herein, and recommends that it be recommitted to the Committee on Human Services, in the form attached hereto as S.B. No. 2718, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

**SCRep. 2466 Commerce and Consumer Protection on S.B. No. 2470**

The purpose and intent of this measure is to:

- (1) Lower the number of members on the Board of Directors of the Hawaii Health Connector to twelve, with a maximum of nine total voting members;
- (2) Remove members representing insurers and dental benefit providers from the Board;
- (3) Require all but one of the state agency representatives on the Board to be ex officio nonvoting members; and
- (4) Establish procedures for filling vacancies on the Board.

Your Committee received testimony in support of this measure from AARP; Community Alliance for Mental Health; Advantage Insurance Services, Inc.; and one individual. Your Committee received testimony in opposition to this measure from The Chamber of Commerce of Hawaii. Your Committee received comments on this measure from the Office of the Governor, Hawai'i Health Connector, and Hawai'i Primary Care Association.

Your Committee finds that this year will be a particularly important time for the Hawaii Health Connector as the Connector continues to improve operations, seeks stability, contemplates options for sustainability, and adapts to evolving requirements under the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act). To best accomplish these objectives, the Board of Directors of the Hawaii Health Connector must be as efficient as possible.

Your Committee further finds that the insurer and dental benefit provider representatives currently serving on the Board of Directors for the Hawaii Health Connector have been a valuable resource to the Connector. As the Connector moves into the full implementation phase required by the Affordable Care Act, the need for recusal due to potential conflict of interest may increase for these representatives. Rather than having these Board members continue to recuse themselves, as is required under the Connector's strict conflict of interest rules, it is more efficient to establish a subcommittee of insurer and dental benefit provider representatives to offer assistance and insurance expertise to the Connector.

Your Committee additionally finds that this measure proposes a similar solution for the state agency representatives. Your Committee notes that the Offices of Healthcare Transformation and Information Management and Technology are integral to the implementing aspects of the Affordable Care Act in Hawaii. Rather than adding representatives from these offices to the number of ex officio members on the Board, your Committee finds amendments to this measure are necessary that would authorize the Governor to designate an official voting member of the Board from among various state agencies and offices.

Your Committee has amended this measure by:

- (1) Specifying that the list of state representatives from which the Governor may designate the official state representative on the Board of Directors of the Hawaii Health Connector includes representatives from the Office of Healthcare Transformation and the Office of Information Management and Technology;
- (2) Requiring the Governor to notify the Chair of the Board of Directors regarding the selection of the designated voting and nonvoting state representative members of the Board;
- (3) Clarifying that the designated ex officio members of the board shall serve during their entire term of office or until the Governor names a replacement;
- (4) Amending the purpose section for clarity;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2470, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2467 Water and Land on S.B. No. 2330**

The purpose and intent of this measure is to:

- (1) Remove the Superintendent of Education from the Kaneohe Bay Regional Council;
- (2) Delete the requirements that the Chairperson of the Council be a nongovernmental member and that the Chairperson may not serve more than 2 consecutive years;
- (3) Delete the requirement that the Council hold annual hearings until 1999 on the status of the master plan; and
- (4) Require the Council to review and report on the continued relevance and need for changes in its powers, duties, and functions as codified in section 200D-3, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Ko'olau Foundation; Ko'olaupoko Hawaiian Civic Club; Kako'o 'Oiwī; and one individual. Your Committee received comments on this measure from two individuals.

Your Committee finds that the Kaneohe Bay Regional Council, for one reason or another, has not functioned at optimal capacity in recent years. In fact, your Committee heard testimony that it is difficult for the Council to have a quorum and so meetings are few. This measure is intended to address that issue as well as other concerns.

Your Committee has amended this measure on the recommendation of the Department of Land and Natural Resources by:

- (1) Replacing the Council member from the Aquatic Resources Division with the Administrator of the Aquatic Resources Division, who shall also serve as Chairperson of the Council;
- (2) Requiring quarterly meetings of the Council on the status and implementation of the master plan and deleting the reference to the Hawaii Institute of Marine Biology; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2330, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2330, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Ruderman).

**SCRep. 2468 Water and Land on S.B. No. 2877**

The purpose and intent of this measure is to clarify that no use permit for a state small boat harbor facility may be transferred unless specifically provided by law.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from Ocean Tourism Coalition, Maui Dive Shop, and Fair Wind Cruises.

Your Committee finds that this measure seeks to clarify that use permits issued to a corporation or other business entity for a state small boat harbor facility may only be transferred if the corporation or other business entity holds a valid commercial use permit. This measure prevents people from bypassing the waitlist for a regular mooring permit by acquiring a corporation or other business entity holding a regular mooring permit.

Your Committee has amended this measure on the recommendation of the Department of Land and Natural Resources (DLNR) by:

- (1) Defining the terms “control” and “transfer”;
- (2) Exempting transfers of stock or interest in a corporation or other business entity between immediate family members solely for estate planning purposes from paying the DLNR a business transfer fee; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2877, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2877, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Ruderman).

**SCRep. 2469 (Joint) Water and Land and Energy and Environment on S.B. No. 2878**

The purpose and intent of this measure is to recognize in statute the State’s role in co-managing the Hawaiian Islands Humpback Whale National Marine Sanctuary.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, and ten individuals.

Your Committees find that the Hawaiian Islands Humpback Whale National Marine Sanctuary (Sanctuary) has been co-managed by the National Oceanic and Atmospheric Administration and the Department of Land and Natural Resources through a compact agreement since 1998. The Sanctuary has achieved many successes over the last fifteen years, including disentangling nearly twenty humpback whales, conducting cutting-edge research, and developing nationally recognized education and outreach programs. However, recognition of the State’s co-management of the Sanctuary has never been formally established under state law. State recognition of co-management is critical to maintain state sovereignty and to underscore the State’s commitment to co-management over the long term.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2878, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2878, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Water and Land  
Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Galuteria, Taniguchi).  
Energy and Environment  
Ayes, 4. Noes, none. Excused, 1 (Chun Oakland).

**SCRep. 2470 Water and Land on S.B. No. 2879**

The purpose and intent of this measure is to recognize in state law the State's role in co-managing the Papahānaumokuākea Marine National Monument.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Aha Moku Advisory Committee.

Your Committee finds that on June 15, 2006, the Northwestern Hawaiian Islands National Marine Monument was established by Presidential Proclamation 8031 under the authority of the U.S. Antiquities Act (16 U.S.C. 431-433). The State of Hawaii, National Oceanic and Atmospheric Administration, and United States Fish and Wildlife Service, were named as the Co-Trustees for the area. State recognition of the State's role in co-management and underlying responsibilities for the area is critical to maintain state sovereignty and to underscore the State's commitment to the resources of the Papahānaumokuākea Marine National Monument over the long term.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2879 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Ruderman).

**SCRep. 2471 Ways and Means on S.B. No. 2807**

The purpose and intent of this measure is to increase the balance remaining in the unclaimed property trust fund at the end of each fiscal year from \$1,300,000 to \$4,000,000 to adequately pay claims and administrative expenses.

The Department of Budget and Finance submitted testimony in support of the measure.

Your Committee finds that the substantial increase in claims of unclaimed property prompts the need to increase the unclaimed property trust fund balance at the end of each fiscal year to meet the demands of viable claims.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2807 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2472 Ways and Means on S.B. No. 2829**

The purpose and intent of this measure is to appropriate general funds to the emergency and budget reserve fund now that the State is emerging from a very challenging economic period.

The Department of Budget and Finance and the Hawaii Primary Care Association submitted testimony in support of the measure.

Your Committee finds that it is prudent and fiscally sound to accelerate the recapitalization of the State's emergency and budget reserve fund now that the economy is improving.

Your Committee has amended this measure by changing the amount of the appropriation to an unspecified sum.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2829, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2829, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2473 Ways and Means on S.B. No. 2411**

The purpose and intent of this measure is to repeal references in the Hawaii Revised Statutes to "subsidy" or "subsidies" as a type of funding award that may be made to a private organization or individual for a public purpose.

No testimony was submitted regarding this measure.

Your Committee finds that no substantive difference exists in the Hawaii Revised Statutes between a "grant" and a "subsidy", and that the term "subsidy" is therefore unnecessary.

Your Committee also finds that there are sections of the Hawaii Revised Statutes that contain the term "subsidy" or "subsidies" that are not included in this measure. For purposes of consistency, your Committee has amended this measure to include those additional sections that contain the term "subsidy" or "subsidies".

Specifically, the measure was amended to make conforming amendments to:

- (1) Section 6E-2, the definition of "project";
- (2) The title of chapter 42F;
- (3) Section 46-15.1(c)(3);
- (4) Section 103-53(e)(3);

- (5) Section 103F-409(b);
- (6) Section 261-6(g);
- (7) Section 302D-28(d);
- (8) Section 321-442(a); and
- (9) Section 352D-6(12).

With regard to the amendment to section 352D-6(12), Hawaii Revised Statutes, your Committee also amended a reference to chapter 42D, Hawaii Revised Statutes, which was repealed in 1998, and replaced it with a reference to chapter 103F, Hawaii Revised Statutes, which is the current law governing health and human services purchases of services.

Finally, your Committee has amended the measure to provide that the amendment to section 46-15.1(c), Hawaii Revised Statutes, shall not be repealed when the section is reenacted on June 30, 2015, pursuant to section 3 of Act 141, Session Laws of Hawaii 2009.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2411, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2474 (Joint) Water and Land and Energy and Environment and Hawaiian Affairs on S.B. No. 2875**

The purpose and intent of this measure is to require the Endangered Species Recovery Committee to include a person possessing a background in native Hawaiian traditional and customary practices.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and four individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that currently, nearly all of the boards and commissions under the Department of Land and Natural Resources require a member with a background in native Hawaiian traditional and customary practices. As the Department is obligated under the Hawaii State Constitution, state law, and case law to preserve and protect the exercise of traditional and customary native Hawaiian rights, it would provide great value to include on the Endangered Species Recovery Committee a person with expertise in this area to provide guidance on natural resource protection and management decisions.

As affirmed by the records of votes of the members of your Committees on Water and Land, Energy and Environment, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2875 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land  
Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Ihara, Taniguchi).

Energy and Environment  
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Ihara).

Hawaiian Affairs  
Ayes, 3. Noes, none. Excused, 2 (Hee, Kidani).

**SCRep. 2475 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 2874**

The purpose and intent of this measure is to require at least one member of the Board of Land and Natural Resources to have a background in native Hawaiian traditional and customary practices.

Your Committees received testimony in support of this measure from the Board of Land and Natural Resources and three individuals.

Your Committees find that the Department of Land and Natural Resources, as a state agency, is obligated under the state constitution, state law, and case law to preserve and protect the exercise of traditional and customary native Hawaiian rights. Requiring one member of the Board of Land and Natural Resources to have a background in native Hawaiian traditional and customary practices supports this obligation.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2874 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land  
Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Ruderman, Taniguchi).

Hawaiian Affairs  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 2476 Commerce and Consumer Protection on S.B. No. 2478**

The purpose and intent of this measure is to update the scope of practice for chiropractic to reflect standards, practices, and terminology accepted by the National Board of Chiropractic Examiners.

Your Committee received testimony in support of this measure from the Board of Chiropractic Examiners and Hawaii State Chiropractic Association. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association, Hawaii Insurers Council, and Hawaii Chapter of the American Physical Therapy Association.

Your Committee finds that this measure updates the scope of practice for chiropractic in conformity to the standards of practice set by accredited colleges, National Board Exams, and Hawaii Administrative Rules governing chiropractic practice in Hawaii. This measure therefore enables the scope of practice for chiropractors in Hawaii to reflect standards of care, practices, and terminology that are aligned with nationally recognized practice parameters and keep abreast with advances in health care and the chiropractic profession.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2478 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2477 Commerce and Consumer Protection on S.B. No. 2491**

The purpose and intent of this measure is to replace references to advanced practice registered nurse recognition in the Hawaii Revised Statutes with advanced practice registered nurse licensure.

Your Committee received testimony in support of this measure from the Board of Nursing, Hawaii Association of Professional Nurses, Hawaii State Center for Nursing, American Association of Nurse Practitioners, and six individuals.

Your Committee finds that Hawaii was one of the first states in the country to adopt the Consensus Model for advanced practice registered nurses, which provides guidance for states to adopt uniformity in the regulation of advanced practice registered nurse roles. However, to fully align with the Consensus Model, references in the Hawaii Revised Statutes must be changed from advanced practice registered nurse recognition to advanced practice registered nurse licensure.

Your Committee further finds that as long as regulatory requirements and language differ from state to state, each state border represents an obstacle to portability, potentially preventing access to professionals and access to care. Your Committee additionally finds that this measure does not affect existing advanced practice registered nurse licensure or relicensure requirements. Rather, this measure aligns Hawaii's statutes with national standards and is necessary to prevent obstacles to portability for Hawaii advanced practice registered nurses who choose to practice in another state.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2491 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2478 Commerce and Consumer Protection on S.B. No. 2818**

The purpose and intent of this measure is to change the annual license renewal date for mortgage servicers from June 30 to December 31 of each calendar year.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure conforms Hawaii's renewal date for mortgage servicers to NMLS, a nationwide system for state licensing and registration of state-licensed mortgage servicers and other financial service providers. NMLS only allows renewals on December 31 of each year and cannot accommodate a mid-year renewal period. Your Committee further finds that consistency with NMLS will save time and paperwork for the mortgage servicer industry and the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2818 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2479 Commerce and Consumer Protection on S.B. No. 2476**

The purpose and intent of this measure is to:

- (1) Require real estate appraisers acting as arbitrators to record arbitration awards; findings of fact, rationale, and information regarding the evidence; and any supplementary, dissenting, or explanatory opinions with the Bureau of Conveyances within ninety days of the determination of the award and its notification to the parties; and
- (2) Specify that no agreement between the parties or the appraisers acting as arbitrators may preclude or deny the recordation of the award, the record of the award, or any supplementary, dissenting, or explanatory opinions.

Your Committee received testimony in support of this measure from the Citizens for Fair Valuation; McCully Works, Inc.; Bacon-Universal Company, Inc.; Mutual Plumbing Supply Co., Inc.; Pacific Jobbers Warehouse, Inc.; and three individuals. Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii.

Your Committee finds that Act 227, Session Laws of Hawaii 2011 (Act 227), was intended to require real estate appraisers, when acting as arbitrators in long-term ground lease rent valuations, to provide relevant data related to the findings of fact and methodologies employed to support their conclusions, within the record of the award. Act 227 was intended to bring data, openness, and transparency to a market controlled by few landlords and very few commercial and industrial appraisers.

Unfortunately, since the enactment of Act 227, many appraisers acting as arbitrators have required confidentiality clauses to be added to submission agreements, which govern arbitration between the parties. These confidentiality clauses frustrate the legislative intent of Act 227. Your Committee further finds that the development of an open market valuation process requires that these arbitration awards, records of awards, and related supporting materials must be public records.

Your Committee further finds that this measure does not change existing lease agreements and therefore is not in violation of the Contracts Clause of the United States Constitution. Rather, this measure requires appraisers acting as arbitrators to file arbitration reports with the Bureau of Conveyances, thereby allowing public access to data that has previously been kept solely in the hands of those who control the land.

Your Committee additionally finds that Act 227 requires appraisers in arbitration proceedings to certify compliance with the most current Uniform Standards of Professional Appraisal Practice (USPAP). Your Committee notes that USPAP has an exception to its confidentiality rule, which provides that an appraiser must not disclose confidential information to anyone other than "third parties as may be authorized by due process of law." Act 227's requirement for appraisers acting as arbitrators to report the basis of an award would therefore fall under this exception permitted by USPAP.

Your Committee also finds that amendments to this measure are needed to better ensure the openness and transparency originally contemplated by Act 227.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 466K-6, Hawaii Revised Statutes, rather than adding a new section to chapter 466K, Hawaii Revised Statutes, and further amending section 466K-6, Hawaii Revised Statutes, by:
  - (A) Requiring arbitration awards, records of awards, and related supporting materials to be public records;
  - (B) Clarifying that real estate appraisers named or appointed as an arbitrator in a submission agreement to appraise or arbitrate entered into after July 1, 2014, shall record with the Bureau of Conveyances all arbitration awards; records of awards, if separately issued; and any supplementary, dissenting, or explanatory opinions on awards within ninety days of the notification of the determination of the award to the parties;
  - (C) Clarifying that recording requirements for records of and related to arbitration awards shall not be precluded or denied through agreement between the parties or arbitrators; and
  - (D) Specifying that failure to comply with recording requirements is a violation of real estate appraiser license or certification requirements;
- (2) Amending the purpose section for clarity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2476, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2476, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2480 Commerce and Consumer Protection on S.B. No. 2467**

The purpose and intent of this measure is to conform the definition of "podiatric medicine" to national standards regarding diagnosis and treatment of the foot and ankle.

Your Committee received testimony in support of this measure from the Hawaii State Medical Board, Podiatry Advisory Committee; Hawaii Podiatric Medical Association; Maui Medical Group, Inc.; Aloha Surgical Center; and twenty-eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association and three individuals. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that podiatrists have extensive training, experience, and qualifications to perform all levels of foot, ankle, and lower leg surgery. However, Hawaii's existing scope of practice for podiatrists was formulated over twenty years ago and does not adequately reflect the advanced surgical training that practicing podiatrists receive in the treatment of foot and ankle disorders. Your Committee further finds that forty-five states permit podiatrists to perform surgery on ankles, including the surgical treatment of ankle fractures.

Your Committee additionally finds that this measure enables podiatrists in Hawaii to perform to the full extent of their skills, training, and ability and allows podiatrists to provide the best continuity of care for their patients. Updating the scope of practice for podiatrists also ensures that patients, especially those in rural areas or on the neighbor islands, who suffer from lower extremity ailments have better access to highly-qualified health care providers trained in the treatment of disorders of the foot and ankle. Your Committee also finds that this measure will strengthen the practice of podiatric medicine and surgery in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2467 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2481 (Majority) Ways and Means on S.B. No. 2841**

The purpose and intent of this measure is to establish an Interim Assistance Reimbursement Special Fund, into which interim assistance reimbursements from the federal Social Security Administration shall be deposited for reimbursements for state-funded financial assistance payments for recipients who are retroactively approved for federal Supplemental Security Income.

Your Committee received written comments in support of this measure from the Department of Human Services.

Your Committee finds that section 346-57, Hawaii Revised Statutes, authorizes the Department of Human Services to make loans to applicants of federal Supplemental Security Income. If Supplemental Security Income is approved, the federal Social Security Administration retroactively reimburses the Department for the state-funded assistance provided. Your Committee also finds that it may take several months or years before a determination of Supplemental Security Income may be made. As a result, the Department often does not receive interim assistance reimbursements from the Social Security Administration for state-funded benefits paid to social security income applicants during the same fiscal year in which the benefits are paid. Because the Department is not allowed to retain interim assistance reimbursements received for a prior fiscal year, a significant amount of the interim assistance reimbursements received by the Department lapses into the general fund. The lapsing of these reimbursements has led to an underfunding of state-funded financial assistance programs. Your Committee further finds that this measure would ensure state-funded financial assistance programs remain more adequately funded, by utilizing moneys that would otherwise lapse into the general fund.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2841, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2841, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2482 Ways and Means on S.B. No. 2308**

The purpose and intent of this measure is to appropriate funds for programs and services for children of incarcerated parents and to assist former inmates with reuniting with their families.

Your Committee received written comments in support of this measure from the Department of Public Safety, Community Alliance on Prisons, Hawaii Youth Services Network, and four individuals.

Your Committee finds that providing support to incarcerated and recently released parents and their children helps strengthen families and benefits society by reducing recidivism and improving child development.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2308, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2308, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2483 Ways and Means on S.B. No. 2541**

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority to redevelop the Hawaii Public Housing Authority's administrative offices and to design and construct an elderly-only housing complex at the Hawaii Public Housing Authority's 1002 North School Street location.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority and the Community Alliance for Mental Health.

Your Committee finds that, currently, the Hawaii Public Housing Authority does not operate any elderly-only facility and that there is an increasing need for elderly housing within the State. This measure will allow the Hawaii Public Housing Authority to establish an elderly-only housing complex to help address that need.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Changing the appropriation amount to an unspecified sum; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2541, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2541, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2484 Ways and Means on S.B. No. 2348**

The purpose and intent of this measure is to help increase the likelihood of successful health outcomes for individuals in need of emergency medical care by appropriating funds to establish two life support ambulances, to be based in the Puna and Makalei areas on the island of Hawaii.

Your Committee finds that providing these additional ambulances would help reduce death and disability among residents and visitors to the island of Hawaii by facilitating timely responses to emergencies and by reducing the potential for paramedic fatigue that can result in dangerous errors.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2348, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2348, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2485 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2574**

The purpose and intent of this measure is to permit board certified pain specialist physicians to prescribe medical marijuana beginning January 2, 2015.

Your Committees received testimony in support of this measure from the Hawaii Medical Association, Hawaii Sustainable Alliance, Ho'okipa Network – Kauai, and several individuals. Your Committees received testimony in opposition to this measure from the Drug Action Policy Group, Community Alliance on Prisons, Big Island Americans for Safe Access, and four individuals. Your Committees received comments on this measure from the Department of Health; Police Department, County of Maui; and several individuals.

Your Committees find that it is difficult for many individuals to obtain a primary care physician in Hawaii, particularly on the neighbor islands. Due to a shortage of primary care physicians in some areas, individuals who are benefitting from medical marijuana find it difficult to continue to receive a medical recommendation, as do untreated individuals who may benefit from medical marijuana. Furthermore, some insurance providers and physicians are prevented from recommending medical marijuana under federal regulations. This measure expands the number of qualified professionals who may prescribe medical marijuana in Hawaii, which will help patients across the State.

Your Committees have amended this measure by:

- (1) Additionally permitting ophthalmologists, oncologists, and board certified palliative care physicians to prescribe medical marijuana beginning on January 2, 2015;
- (2) Adding a definition of primary care physician;
- (3) Changing the effective date to January 2, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2574, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2574, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Health  
Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2486 (Joint) Agriculture and Water and Land and Hawaiian Affairs on S.B. No. 2241**

The purpose and intent of this measure is to prohibit the Board of Land and Natural Resources, in declaring residential development areas and acquiring lands therein, from disturbing lands and infrastructure used or to be used for wetland taro growing, including ancient wetland taro lands and structural elements of ancient taro-growing systems.

Your Committees received testimony in support of this measure from the Taro Security and Purity Task Force, Hui 'O Malama 'Aina, Pesticide Action Network North America, Seeds of Truth, Kaaawa Community Association, Paradise Action Women's Alliance, Center for Food Safety, Waihuena Farm, Hawaii Sustainable Community Alliance, and fifty-two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Hawaii Farmers Union United.

Your Committees find that taro is a high-yielding, nutrient-rich crop that is intertwined with the Hawaiian culture and has the potential to significantly increase the State's food security. As a result, the taro security and purity task force established under Act 211, Session Laws of Hawaii 2008, recommends improved protections for taro lands.

Your Committees, however, have concerns about this measure's effectiveness. Some committee members are concerned that this measure does not go far enough in protecting taro lands. They would like to see specific parcels of land identified and designated by the Department of Land and Natural Resources for taro production purposes only. Other committee members are concerned that although this measure protects taro lands from development, it does not ensure that these lands have a sufficient water source, which is vital to successful taro production. One committee member noted that, if taro lands do have an adequate water source, the land may require a federal exemption from the Clean Water Act, which may be a significant financial and administrative burden on taro farmers. As this measure moves forward in the legislative process, your Committees would like this measure to specify the parcels of land that are to be protected considering the lands' nexus with water and other practical concerns.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture, Water and Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2241, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2241, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**Agriculture**

Ayes, 6. Noes, none. Excused, 1 (Slom).

**Water and Land**

**Hawaiian Affairs**

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

**SCRep. 2487 Water and Land on S.B. No. 180**

The purpose and intent of this measure is to amend section 187A-23, Hawaii Revised Statutes, to vest in the village elder who is domiciled on Niihau exclusive konohiki rights and to make clarifying amendments to the duties and powers of the konohiki.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs and eight individuals. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition and seven individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that Niihau has approximately one hundred thirty permanent inhabitants, nearly all of whom are Native Hawaiians who live in the island's main settlement of Pu'uwai. They support themselves largely by subsistence fishing and farming, in the manner of the ancient Hawaiians. Residents speak the Hawaiian language as their first language to help preserve Hawaiian culture and tradition. Niihau is perhaps the last remaining vestige of that Native Hawaiian culture and tradition. The translation of the term "konohiki" is headman of an ahupua'a land division under the chief. The konohiki traditionally controlled land or fishing rights under the control of the konohiki, also referred to as konohiki rights.

Elizabeth McHutchison Sinclair (1800–1892) purchased Niihau and parts of Kauai from Kamehameha V in 1864. Private ownership passed on to her descendants, the Robinson family. In 1915, Sinclair's grandson Aubrey Robinson closed the island to most visitors. Even relatives of the inhabitants could visit only by special permission. Upon Aubrey's death in 1939, the island passed to his son Aylmer, and in 1968 to Aylmer's youngest brother Lester. Upon Lester's wife's death, the island passed to Lester's sons, Bruce and Keith Robinson, the current co-owners.

Your Committee finds that section 187A-23, Hawaii Revised Statutes, recognizes konohiki rights. This Act fulfills the intent of Kamehameha V in deeding Niihau to Elizabeth McHutchison Sinclair, that she and her heirs manage the island as private property. In effect, this measure is conferring on the Robinson family the same powers and privileges that King Kamehameha V bestowed on them and their heirs.

Your Committee also finds that this measure facilitates Native Hawaiian recognition as provided in statute under chapter 10H, Hawaii Revised Statutes, relating to Native Hawaiian recognition. Specifically, section 10H-1, Hawaii Revised Statutes, provides: "The Native Hawaiian people are hereby recognized as the only indigenous, aboriginal, maoli people of Hawaii."

Your Committee wishes to comment that this measure is a work in progress and by recommending it for passage on Second Reading, your Committee intends for the discussions to continue.

Your Committee has amended this measure by:

- (1) Inserting a purpose section;
- (2) Establishing konohiki rights for Niihau as a separate chapter in the Hawaii Revised Statutes, rather than amending section 187A-23, Hawaii Revised Statutes;
- (3) Specifying that an individual, rather than an adult kupuna, may be vested with konohiki rights on Niihau;
- (4) Specifying that the konohiki of Niihau shall be selected by the Chairperson of the Board of Land and Natural Resources in consultation with the private owner of Niihau;
- (5) Extending the fishing grounds of Niihau subject to konohiki rights from the distance of one geographical mile seaward of the beach at low watermark to the distance of two geographical miles seaward of the shoreline;
- (6) Specifying that vested fishing rights of the private fishery shall be established by rules adopted by the Department of Land and Natural Resources, rather than pursuant to proceedings in conformity with the Organic Act;
- (7) Amending the rights of the konohiki of Niihau to delete language relating to the exclusive right of the konohiki to take certain species or aquatic life set apart by the konohiki; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 180, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 180, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen, Slom). Noes, none. Excused, 4 (Dela Cruz, Ihara, Ruderman, Taniguchi).

**SCRep. 2488 Commerce and Consumer Protection on S.B. No. 2486**

The purpose and intent of this measure is to amend various provisions relating to private guards and individuals acting in a guard capacity by:

- (1) Reducing the continuing education requirement to four hours every two years;
- (2) Delaying the continuing education requirement to prior to the June 30, 2016, renewal cycle; and
- (3) Making permanent the registration and licensure requirements for private guards and individuals acting in a guard capacity by repealing the sunset date of Act 208, Session Laws of Hawaii 2010 (Act 208).

Your Committee received testimony in support of this measure from the Board of Private Detectives and Guards, Hawaii Council of Associations of Apartment Owners, and one individual. Your Committee received testimony in opposition to this measure from Transcend, Inc.; Rainbow Family 808; and five individuals.

Your Committee finds that Act 208, was intended to ensure the competency and professionalism of private security guards and individuals acting in a guard capacity by requiring these individuals to register as a guard with the Board of Private Detectives and Guards and meet new registration, instruction, and training requirements prior to acting as a guard.

Your Committee further finds that, thanks to the hard work of the Board of Private Detectives and Guards, approximately 9,000 guard employees were registered in 2013. Because initial registration of these individuals includes an educational component, the 9,000 newly registered guard employees have recently completed mandatory training. Your Committee notes that this measure does not affect the mandatory training private security guards and individuals acting in a guard capacity must undergo prior to registration with the board. Rather, this measure preserves the continuing education requirement, but delays it until June 30, 2016, thus providing sufficient time for its development, administration, and implementation.

Your Committee additionally finds that the board and the private detective and guard industry concur that four hours of continuing education every two years, as proposed by this measure, is sufficient to refresh guard employees on important training concepts included in the initial eight-hour training curriculum and ensure that guard employees are kept abreast of current trends in the guard industry.

Your Committee has heard the concerns raised in testimony that Act 208 does not impose liability on employers for hiring or using unregistered guards. Your Committee understands these concerns but notes that the Board of Private Detectives and Guards has jurisdiction over guard agencies, not private employers such as hotels or retail establishments. Furthermore, although the Regulated Industries Complaints Office has the ability to investigate an employer that hires or uses unregistered individuals acting as security guards or in a guard capacity, such investigation may be beyond the scope of the board's duties. Nevertheless, your Committee requests the board to consider these issues raised in testimony and, if appropriate, consider the adoption of rules to address these concerns.

Finally, your Committee notes that because the continuing education requirements for private detectives and guards are scheduled to go into effect June 30, 2014, an amendment to the effective date of this measure is needed.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of June 29, 2014; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2486, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2486, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2489 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2475**

The purpose and intent of this measure is to clarify that a contractor licensee who aids and abets an unlicensed contractor may be subject to additional discipline by the Contractors License Board.

Your Committees received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Contractors License Board, Subcontractors Association of Hawaii, Building Industry Association of Hawaii, Hawaii Island Contractors' Association, and Hawaii Laborers' Union.

Your Committees find that the Contractors License Board has determined that aiding and abetting an unlicensed contractor under section 444-9.3, Hawaii Revised Statutes, only applies to criminal conduct and penalties and is outside the scope of administrative proceedings. Since aiding and abetting conduct often occurs outside of a contract, the Regulated Industries Complaints Office is unable to administratively prosecute violations of section 444-9.3, Hawaii Revised Statutes, as written.

Your Committees further find that this measure enables the Regulated Industries Complaints Office to pursue, and authorizes the Contractors License Board to take, disciplinary action against contractor licensees who aid and abet unlicensed contractors. This measure will also enhance enforcement and consumer protection efforts by dissuading licensed contractors from recommending unlicensed contractors to unwitting consumers.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2475 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Judiciary and Labor  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 2490 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2233**

The purpose and intent of this measure is to:

- (1) Extend the sunset date of Act 119, Session Laws of Hawaii 2013, relating to the deregistration of fee non-time share interests; and
- (2) Clarify the actions taken after a certificate of title for a fee time share interest is deregistered and marked cancelled by the Assistant Registrar.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Department of Land and Natural Resources, and McCorriston Miller Mukai MacKinnon LLP. Your Committees received comments on this measure from the Hawaii State Judiciary.

Your Committees find that although there have not been a large number of requests for deregistration of real property from the Land Court, over the past three years it has become apparent that the voluntary registration process originally set up by Act 120, Session Laws of Hawaii 2009, has certain issues that need to be addressed, including notice to persons or entities who may have an interest in land to be deregistered, the effect of deregistration on condominium property regimes, and the coordination of the deregistration process between the Bureau of Conveyances, the Office of the Registrar of the Land Court, and the state land surveyor. Your Committees further find that since the passage of Act 119, Session Laws of Hawaii 2013, an informal working group has been discussing these issues. This measure permits voluntary deregistration of fee non-time share interests to continue while the working group furthers its discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2233 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Judiciary and Labor  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 2491 Commerce and Consumer Protection on S.B. No. 2033**

The purpose and intent of this measure is to make technical, nonsubstantive amendments to the rulemaking authority of the Board of Dental Examiners.

Your Committee received testimony in support of this measure from the Board of Dental Examiners.

Your Committee finds that this measure makes nonsubstantive changes to section 448-6, Hawaii Revised Statutes, by specifying that the Board of Dental Examiners shall adopt rules pursuant to chapter 91, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2033 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2492      Judiciary and Labor on S.B. No. 2223**

The purpose and intent of this measure is to allow a family court to change the name of a minor child in a divorce proceeding of the parents if the child was the victim of child sexual abuse by either parent or if the court determines that the name change is in the best interests of the child when there has been no conviction of a parent for sexual abuse.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Sex Abuse Treatment Center, Rainbow Family 808, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that child abuse can have long-term impacts. The Sex Abuse Treatment Center testified that survivors of child abuse may experience emotions, such as fear, guilt, anger, and confusion, well after the sexual abuse occurred. Survivors may also experience a loss of self-esteem or depression and anxiety and may be at high risk for suicide, eating disorders, substance abuse, and difficulties in maintaining relationships. The Sex Abuse Treatment Center also testified that in cases of intrafamilial sexual abuse, the effects can be even more pervasive for the survivor because the abuse was perpetrated by a person who should have been a caretaker and protector of the survivor rather than one who hurt, violated, or exploited the survivor. This measure allows a family court to change the name of a minor child in a divorce proceeding, so that the minor child's name at the time of the sexual abuse does not serve as a constant reminder of the sexual abuse. However, your Committee suggests that in making such a finding, the court consider names that have a genealogical link to the minor as a means to assist in any future efforts to reunify the family.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2223 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 2493      Judiciary and Labor on S.B. No. 2687**

The purpose and intent of this measure is to allow a victim of child sexual abuse to bring a civil action against the victim's abuser or an entity, except for the State or counties, when the entity was grossly negligent, if the statute of limitations for filing a civil claim has lapsed and the victim has not yet attained the age of fifty-five.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, The Sex Abuse Treatment Center, Rainbow Family 808.com, and nine individuals. Testimony in opposition to this measure was submitted by the Department of the Attorney General and Hawaii Catholic Conference. Your Committee received comments on this measure from two individuals.

Your Committee finds that child sexual abuse is an epidemic that unfortunately is not adequately addressed because a vast majority of child sexual abuse victims fail to report their sexual assaults to the authorities. The Sex Abuse Treatment Center testified that many children do not disclose sexual abuse immediately. Studies have estimated that between sixty to eighty percent of child sexual abuse victims withhold disclosure. Furthermore, studies examining latency in disclosure report an average delay of three to eighteen years.

In response to this epidemic, the Legislature passed Act 68, Session Laws of Hawaii 2012 (Act 68), to extend the statute of limitations for civil actions brought by a victim of sexual offenses as a minor against the person who committed the act and establish a two-year window to allow a victim of sexual abuse to bring a cause of action if bringing such an action was barred due to the expiration of the statute of limitations that was in effect prior to April 24, 2012. Your Committee further finds that the two-year window to allow a victim of child sexual abuse to bring a cause of action that is otherwise barred will sunset on April 24, 2014, if legislative action is not taken. This measure extends this window for a victim to file a cause of action if the statute of limitations has lapsed and the victim has not yet attained the age of fifty-five.

Your Committee notes the concerns raised by the Department of the Attorney General that extending the two-year window to when the victim attains the age of fifty-five could severely prejudice the defendants in a lawsuit who may not be the accused perpetrator and an entity that is subject to the law. The Department explained that this extension could potentially allow a victim to bring a cause of action more than four decades after the sexual assault occurred during which time memories fade, witnesses move or pass away, and documents are lost or destroyed. Thus, the Department testified that the two-year window was a reasonable period of time to allow victims the opportunity to have a second chance to file a claim that they were otherwise barred from filing and the two-year window should sunset. However, your Committee recognizes that it may take years, sometimes decades, for victims of child sexual abuse to develop the strength and courage to report incidences of child sexual abuse. Therefore, extending the window to when the victim attains the age of fifty-five provides additional time for a victim of child sexual abuse to come forward.

Your Committee further notes the concerns raised by the Department of the Attorney General that this measure could potentially result in the filing of false claims, especially when the supporting evidence may no longer be available or memories of the incident have faded. However, your Committee strongly believes that Act 68, codified under section 657-1.8, Hawaii Revised Statutes, provides adequate mechanisms and procedures to prevent false claims, including requiring the filing of a certificate of merit to the court that sets forth in reasonable detail the facts and opinions relied upon to conclude that there is a reasonable basis to believe that the

plaintiff was subject to sexual abuse as a child and allowing the defendant to recover attorney's fees if the court determines that a false accusation was made with no basis in fact and with malicious intent.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Hawaii State Commission on the Status of Women to change the standard used by the court to award damages against a legal entity, except for the State or counties, from a finding of gross negligence to a finding of negligence on the part of the legal entity;
- (2) Adopting the language suggested by an individual to prohibit the court, plaintiff, or certain individuals from being required to disclose the contents of the sealed certificate of merit that is filed with the court;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2687, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2687, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Solomon). Noes, none. Excused, 1 (Slom).

**SCRep. 2494 Commerce and Consumer Protection on S.B. No. 2480**

The purpose and intent of this measure is to:

- (1) Allow prospective purchasers of time share interests to receive printed or electronic copies of the time share plan disclosure statement; and
- (2) Simplify the renewal requirements for developers by clarifying the information the developers must submit; and
- (3) Eliminate requirements that developers provide title insurance and title reports and file financial statements.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, American Resort Development Association Hawaii, Wyndham Vacation Ownership, and Starwood Vacation Ownership.

Your Committee finds that with the rise of electronic commerce and social media, many consumers and buyers prefer electronic media to print versions of the same documents. This measure modernizes Hawaii's time share statute and enables buyers to choose whether to receive the time share disclosure statement on paper or in digital form.

Your Committee further finds that this measure also updates and streamlines the biennial renewal requirements for developers. Developers are currently required to submit a title report, which can be voluminous and costly, for all unsold inventory and a current financial statement along with their renewal applications. The information in the title report regarding unsold inventory is already provided in a certified statement by the developer, which the Department of Commerce and Consumer Affairs is able to rely on. Your Committee additionally finds that this measure removes the requirement that a financial statement be submitted with a renewal application, thereby making this portion of the developer renewal process consistent with the Professional and Vocational Licensing Division's other licensing areas.

Your Committee has amended this measure by:

- (1) Amending the required language of the separate writing informing prospective purchasers that they have a seven day right of rescission to more clearly remind purchasers to read the disclosure statement before the seven-day rescission period expires;
- (2) Requiring developers to include the total number of registered time share interests in each unit and the total number of registered points in each property in an application for renewal of a developer registration; and
- (3) Making an amendment to the purpose section for clarity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2480, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2480, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2495 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2623**

The purpose and intent of this measure is to void provisions in a franchise agreement with a Hawaii franchise that restricts the pre-dispute forum selection to a jurisdiction outside of Hawaii.

Your Committees received testimony in support of this measure from The Chamber of Commerce of Hawaii, Edible Arrangements Manoa, and two individuals. Your Committees received comments on this measure from the Business Registration Division of the Department of Commerce and Consumer Affairs.

Your Committees find that many current franchise agreements include clauses that require franchisees to travel to the franchisor's venue to resolve franchise-related disputes. Given Hawaii's geographic isolation from other states, the imposition of a mainland forum selection clause is impractical and creates a significant hardship for local franchise owners. A Hawaii-based franchisee is put at a great

disadvantage because of the expense of traveling to the mainland for resolution due to these forum selection clauses, which often dictate whether and how a Hawaii-based franchisee is able to obtain relief.

Your Committees further find that this measure does not mandate that all disputes be heard in Hawaii. Rather, it corrects an injustice to local franchisees by ensuring that Hawaii remains a forum selection option for claims arising under or relating to a franchise or the business dealings of a franchise in the State. This measure provides an opportunity for Hawaii-based franchisees to reduce costs, increase efficiency, and seek relief in a convenient forum.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2623, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2623, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection

Judiciary and Labor

Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, none.

**SCRep. 2496 Commerce and Consumer Protection on S.B. No. 2481**

The purpose and intent of this measure is to:

- (1) Eliminate the requirement that a manager of a foreign time share plan register in Hawaii as a time share plan manager;
- (2) Require the disclosure statement for an offering of a time share plan to disclose that the manager of a foreign time share plan is not registered in Hawaii;
- (3) Recognize that an association of time share owners may be any kind of nonprofit or not-for-profit entity; and
- (4) Make housekeeping amendments.

Your Committee received testimony in support of this measure from the American Resort Development Association Hawaii, Wyndham Vacation Ownership, and Starwood Vacation Ownership. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that as the time share industry has grown, the ownership and management of time share developments has diversified. Existing law requires managers of foreign time share plans to register in Hawaii as a time share manager, despite not doing business in Hawaii. Your Committee further finds that this measure eliminates the requirement that a manager of a foreign time share plan register in Hawaii. This measure also addresses consumer protection via a notice in the disclosure statement for time share units located outside the State that a time share plan manager is not registered in Hawaii. However, your Committee finds that, as written, this proposed notice language is overly broad and would exempt out-of-state plan managers from any regulation under Hawaii law. An amendment clarifying this notice language is therefore needed.

Your Committee also finds that when Hawaii's time share law was enacted, nonprofit corporations were the most appropriate corporate structure for time share associations. As the time share industry has evolved, however, new types of business organizational structures have developed that are also appropriate for governance of a time share association. This measure reflects the current practices for the time share industry and recognizes that an association of time share owners may be any kind of nonprofit or not-for-profit entity.

Your Committee has amended this measure by:

- (1) Amending the disclosure statement for time share units located outside the State to clarify that a plan manager is exempt only from registering under Hawaii's time share law; and
- (2) Making an amendment to the purpose section for clarity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2481, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2481, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2497 (Joint/Majority) Energy and Environment and Economic Development, Government Operations and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 2199**

The purpose and intent of this measure is to prohibit the issuance of building permits beginning January 1, 2016, for new residential single-family dwellings without wiring for electric vehicle charging systems that provide level two charging or 240 volt alternating current charging.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Americans for Democratic Action/Hawaii; Blue Planet Foundation; Sierra Club of Hawaii; General Motors, LLC; and two individuals. Your Committees received testimony in opposition to this measure from Castle & Cooke Hawai'i, The Chamber of Commerce of Hawaii, Hawaii Association of REALTORS, Building Industry Association of Hawaii, and three individuals.

Your Committees find that the pre-wiring of a new single-family home for an electric vehicle charging system is relatively inexpensive compared to the costs of retrofitting the property. Also, pre-wiring would encourage residents of newly constructed homes to purchase and drive electric vehicles, which will reduce consumption of gasoline and assist in Hawaii's clean energy goals.

Your Committees have amended this measure by:

- (1) Amending language to prohibit the issuance of a building permit for a new single-family dwelling that is part of a master tract or part of a bulk application for five single-family dwellings or more if the building plan for the dwelling does not include dedicated wiring for an electric vehicle charging system;
- (2) Inserting language to allow a county permitting agency to waive the pre-wiring requirement of this measure if:
  - (A) The new single-family dwelling lacks a garage or carport or electrical service to a garage or carport; or
  - (B) The agency determines that there is some other design-related barrier that prevents the building plan from fulfilling the requirements of this measure; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy and Environment, Economic Development, Government Operations and Housing, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2199, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2199, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Baker, Green).

**SCRep. 2498 Commerce and Consumer Protection on S.B. No. 2487**

The purpose and intent of this measure is to repeal chapter 201M, Hawaii Revised Statutes, the Small Business Regulatory Flexibility Act.

Your Committee received testimony in opposition to this measure from the Small Business Regulatory Review Board, The Chamber of Commerce of Hawaii, Building Industry Association of Hawaii, Hawaii Business League, Hawaii Farm Bureau Federation, Hawaii Cattlemen's Council, and two individuals.

Your Committee finds that the Small Business Regulatory Review Board, established pursuant to chapter 201M, Hawaii Revised Statutes, has not been functioning as originally envisioned. Although the Board's role is to look at the impact of rules on small businesses, your Committee is concerned that the Board as a whole may need additional clarification or training on the application of existing laws and administrative rules.

Although your Committee has expressed concerns over the functioning of the Small Business Regulatory Review Board, your Committee also finds that the underlying mission of the Board remains important for small businesses in Hawaii. Your Committee therefore concludes that additional training and clearer understanding of the role of board members should be required to help the Board operate as originally envisioned. Clarifying the contents of the Board's annual report to the Legislature will also enable the Legislature to better monitor the Board's performance.

Additionally, rather than an immediate repeal of the Small Business Regulatory Review Board and chapter 201M, Hawaii Revised Statutes, your Committee finds that a five-year sunset date for the board and chapter 201M, Hawaii Revised Statutes, is more appropriate. This sunset date will enable a future Legislature to review the board's performance after the effective date of this measure.

Finally, your Committee notes that for the Board to operate effectively it must be better supported by the Department of Business, Economic Development, and Tourism.

Your Committee has amended this measure by:

- (1) Specifying that members of the Small Business Regulatory Review Board must receive training by the division of the Department of the Attorney General that oversees the State's boards and commissions, to ensure that the members have a clear understanding of the role of board members and the parameters of the members' role, including the hierarchy of the Hawaii Revised Statutes and the Hawaii Administrative Rules;
- (2) Clarifying the contents of the annual report that the Small Business Regulatory Review Board must submit to the Legislature, including:
  - (A) The impact or effect any rule adopted by a state agency would have on small businesses;

- (B) Any action taken by the Board in response to any requests from small business owners for review of rules adopted by state agencies; and
- (C) The outcome of any action taken by the Board in response to requests from small business owners;
- (3) Updating the purpose section for clarity;
- (4) Inserting a sunset date of June 30, 2019, for the Small Business Regulatory Review Board and chapter 201M, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2487, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2487, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2499 Commerce and Consumer Protection on S.B. No. 2468**

The purpose and intent of this measure is to adopt the national standard of a minimum of twenty-four months in an accredited podiatric residency prior to licensure as a podiatrist, beginning on January 1, 2015.

Your Committee received testimony in support of this measure from the Hawaii Podiatric Medical Association; Maui Medical Group, Inc.; Board of Directors of Maui Medical Group, Inc.; Podiatry Advisory Committee for the Hawaii Medical Board; and twelve individuals. Your Committee received comments on this measure from the Hawaii Medical Board and The Legislative Center.

Your Committee finds that forty-four states mandate residency requirements of either twelve or twenty-four months prior to an applicant obtaining a license to practice podiatric medicine. This measure requires a minimum of twenty-four months in an accredited podiatric residency prior to obtaining a license to practice podiatric medicine in Hawaii.

Your Committee further finds that in the past, podiatry residencies varied from one to three years in length. However, in 2011, the Council on Podiatric Medical Education formally increased the national residency standard for podiatrists to a thirty-six month residency program to provide uniform and consistent training amongst all graduating podiatric surgeons. The twenty-four month residency requirement in this measure will cover podiatrists who completed a shorter podiatry residency prior to the uniform adoption of the thirty-six month residency requirement.

However, your Committee has heard concerns that the residency requirements in this measure may not account for doctors of podiatric medicine who have been in active practice for a number of years but may have only been required to complete twelve months of a podiatric residency at the time of their initial licensure. Amendments to this measure are therefore necessary to clarify requirements for licensure of out-of-state podiatrists who completed less than twenty-four months of podiatric residency and seek to be licensed in Hawaii after the effective date of this measure.

Your Committee has amended this measure by:

- (1) Clarifying that an applicant for a license to practice podiatric medicine in Hawaii who graduated from an approved college before January 1, 2004, shall:
  - (A) Have completed at least twelve months in an accredited podiatric residency;
  - (B) Have at least ten years of active licensed experience in podiatric medicine in another state; and
  - (C) Hold a current, unencumbered license in podiatric medicine in another state; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that this amended measure is intended to clarify licensure requirements for out-of-state podiatrists seeking initial licensure in Hawaii. This amended measure will not affect podiatrists currently licensed and practicing podiatric medicine in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2468, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2468, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2500 Judiciary and Labor on S.B. No. 2076**

The purpose and intent of this measure is to clarify that the intent to deprive another of property, under the offense of unlicensed contractor fraud, may be formed before or after a person obtains or exerts control over the property of another.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Department of the Prosecuting Attorney of the City and County of Honolulu, and Contractors License Board.

Your Committee finds that under existing law, the offense of unlicensed contractor fraud requires a person's intent to deprive to exist while engaged in unlicensed contractor activities. However, the law is unclear whether that intent must also exist before that person obtains control over a victim's property. This measure removes this ambiguity by clarifying that the intent to deprive may be

formed before or after a person obtains control over the victim's property, provided that the person is engaged in unlicensed contractor activities at that time. Your Committee further finds that this measure will assist law enforcement efforts to prosecute the offense of unlicensed contractor fraud.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2076 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2501 Commerce and Consumer Protection on S.B. No. 2302**

The purpose and intent of this measure is to:

- (1) Add definitions and requirements for permanent and temporary consumer fireworks storage facilities; and
- (2) Amend fireworks prohibitions and exceptions to those fireworks prohibitions.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council; Honolulu Fire Department; Kauai Fire Department; and County of Maui, Department of Fire and Public Safety.

Your Committee finds that fireworks can be an extremely dangerous product. Fireworks also present potential dangers during its transport and storage. To ensure the safety of the general public and the first responder community, this measure adds definitions for permanent and temporary consumer fireworks storage facilities based on nationally recognized standards for safety and best industry practices to protect life and property; creates two exceptions to the fireworks prohibitions for movie productions and for those authorized to dispose or test consumer fireworks; and requires permanent and temporary fireworks storage buildings to comply with applicable local codes or nationally recognized standards.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2302 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2502 Commerce and Consumer Protection on S.B. No. 2287**

The purpose and intent of this measure is to:

- (1) Repeal the requirement that a private college or university show that it maintains profitability as a means of demonstrating financial integrity to the Department of Commerce and Consumer Affairs at the time of its application for authorization; and
- (2) Repeal section 304A-3153, Hawaii Revised Statutes, relating to procedures for complaints to the University of Hawaii concerning institutions of higher learning in the State.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs Hawaii Post-Secondary Education Authorization Program and University of Hawai'i System. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 180, Session Laws of Hawaii 2013, identified the Department of Commerce and Consumer Affairs as the state entity that would perform the regulatory functions of authorizing post-secondary institutions and handling complaints against such institutions. This measure adds greater clarity to what is required of private colleges and universities with regard to demonstrating financial integrity when applying for authorization and minimizes redundancy in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2287 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 2503 Commerce and Consumer Protection on S.B. No. 2801**

The purpose and intent of this measure is to condition the acceptance of a variance from the mandatory solar water heating requirement for single-family dwellings for a demand water heater device upon approval of the demand water heater by a North American certification organization, including the Canadian Standards Association International; Air-Conditioning, Heating, and Refrigeration Institute; or Gas Appliance Manufacturers Association Certification Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Solar Energy Association.

Your Committee finds that an existing exemption from the mandatory solar water heating requirement for single-family dwellings allows for a gas tankless water heater, which must be approved by Underwriter Laboratories, Inc. However, Underwriter Laboratories, Inc. does not list specific product or model numbers of all tankless products. This measure replaces a reference to Underwriter Laboratories, Inc., with references to North American certification organizations that test, evaluate, and certify gas tankless water heaters and lists specific products and models that are certified, thereby enabling consumers to make a more informed choice regarding their selections of gas tankless water heaters.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2801 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Wakai).

**SCRep. 2504 Commerce and Consumer Protection on S.B. No. 2301**

The purpose and intent of this measure is to:

- (1) Require shippers to notify the fire chief as to where fireworks shipments imported into the State or between counties are to be distributed;
- (2) Define the term “redistribution” to clarify shipment notification requirements; and
- (3) Clarify that labels on certain fireworks shall be at least nine square inches.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council; Honolulu Fire Department; Kauai Fire Department; and County of Maui, Department of Fire and Public Safety.

Your Committee finds that transporting fireworks to, from, and within the State requires the use of multiple methods of interstate and intrastate transportation. To ensure the health and safety of the community and the State’s first responders, the importation of fireworks shipments must be thoroughly accounted for and reported. However, under the existing law, there are no notification requirements for those transporting fireworks. This measure is therefore necessary to clarify shippers’ responsibilities and notification requirements.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2301 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2505 Commerce and Consumer Protection on S.B. No. 2492**

The purpose and intent of this measure is to improve patient access to medical care by clarifying the circumstances under which advanced practice registered nurses may practice their profession to the fullest extent of their training and education.

Your Committee received testimony in support of this measure from the Board of Nursing, Disability and Communication Access Board, Pali Momi Medical Center, Hawai‘i Pacific Health, American Association of Nurse Practitioners, and eight individuals.

Your Committee finds that advanced practice registered nurses provide a wide variety of health care services and are recognized as participating primary health care providers for insurance purposes under the State’s Insurance Code. However, certain sections within the Hawaii Revised Statutes omit advanced practice registered nurses from the definitions or designations of health care entities who may provide health care, prescribe drugs, or sign forms. These obsolete or outdated statutes create barriers to consumer access to high quality health care provided by advanced practice registered nurses. Your Committee further finds that this measure amends these obsolete or outdated statutes, thereby enabling advanced practice registered nurses to provide quality health care to patients to the full extent of their education and training.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2492, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 2506 Commerce and Consumer Protection on S.B. No. 2078**

The purpose and intent of this measure is to clarify that condominium property regimes located on agricultural lands shall not place any restrictions on agricultural uses or activities permitted on those lands pursuant to chapter 205, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Real Estate Commission, and Hawaii Association of REALTORS.

Your Committee finds that the Department of Agriculture has received complaints from occupants of condominium property regimes whose agricultural uses and activities are being restricted by private agreements contained in the condominium declaration, maps, bylaws, or other documents. For example, some regimes are restricting the types of crops planted by its occupants, or the days and times when farming equipment may be used by its occupants.

Your Committee further finds that this measure enables an owner to farm on the owner’s property, if located on agricultural lands, by clarifying that all agricultural uses and activities permitted by law shall be permitted on agricultural lands occupied by a condominium property regime. This measure also enables a potential purchaser to be better informed by requiring a condominium developer to disclose in the developer’s public report that there are no restrictions or prohibitions disallowing agricultural uses and activities permitted by law.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2078, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 2507 Judiciary and Labor on S.B. No. 2482**

The purpose and intent of this measure is to clarify the parties that a homeowners association can serve through publication, after a hearing before a judge, in a nonjudicial foreclosure proceeding.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that under section 667-92, Hawaii Revised Statutes, an association is required to serve its notice of default and intention to nonjudicially foreclose on certain parties. If an association cannot find the unit owner, it may go to court to ask for permission to serve the owner by publication. However, section 667-92, Hawaii Revised Statutes, has been interpreted in some cases to not specifically allow an association to serve any other potential defendants, such as defunct lenders or long lost judgment holders, by publication if these entities or individuals cannot be found. Those in actions prevent the association's nonjudicial foreclosure from going forward, and the financial and time saving benefits of the nonjudicial foreclosure process are lost. This measure addresses that concern by allowing a judge to approve service of certain other missing defendants by publication so an association's nonjudicial foreclosure can continue. In doing so, this measure also supports the intent of chapter 667, part VI, Hawaii Revised Statutes, which is to provide associations with a means to foreclose nonjudicially without having to resort to the expensive and time-consuming judicial foreclosure process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2482 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Sлом).

**SCRep. 2508 Ways and Means on S.B. No. 2455**

The purpose and intent of this measure is to support local agriculture by appropriating moneys for the 4-H program to help educate young people and encourage them to pursue careers in agriculture.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau Federation.

Your Committee finds that it is important to provide young people with opportunities to gain experience, skills, and ambition to pursue careers in agriculture and that the 4-H program furthers these goals.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2455, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2455, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2509 Commerce and Consumer Protection on S.B. No. 2489**

The purpose and intent of this measure is to:

- (1) Amend the composition of the Hawaii State Center for Nursing Advisory Board (Advisory Board) by decreasing the number of voting members on the Advisory Board to nine;
- (2) Amend the membership of the Advisory Board to better facilitate the Hawaii State Center for Nursing's mission;
- (3) Clarify term limits and appointments of members to the Advisory Board; and
- (4) Amend certain powers and duties of the Advisory Board.

Your Committee received testimony in support of this measure from the American Association of Nurse Practitioners and one individual. Your Committee received comments on this measure from the Board of Nursing and Healthcare Association of Hawaii.

Your Committee finds that as the nursing profession transforms to meet a changing health care landscape, the ongoing process of developing a strategic plan requires the Hawaii State Center for Nursing to have an active, engaged Advisory Board with members capable of addressing workforce issues in a timely manner.

Your Committee further finds that this measure amends the composition of the Advisory Board to align itself more closely with other national nursing workforce centers and encourages collaboration of persons with the technical expertise, knowledge, and experience needed to assist the Hawaii State Center for Nursing with its mission.

Your Committee notes that the Board of Nursing indicated in testimony that, due to the Board of Nursing's collaborative working relationship with the Hawaii State Center for Nursing, it is not necessary for the Board of Nursing to have a position on the Advisory Committee. In addition, other testimony received by your Committee indicated that individuals with expertise in workforce issues or who represent acute care providers in the health care community would be helpful assets to the Advisory Board.

Accordingly, your Committee has amended this measure by:

- (1) Removing the representative from the Board of Nursing as a voting member of the Advisory Board;
- (2) Increasing the number of non-nurse voting members of the advisory board from three to four and specifying that these members' background or experience may also include workforce or representation of hospitals and acute care hospitals in the State; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2489, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2489, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 2510 Commerce and Consumer Protection on S.B. No. 2469**

The purpose and intent of this measure is to:

- (1) Require reimbursement for services provided through telehealth to be equivalent to reimbursement for the same services provided via face-to-face contact between a health care provider and a patient;
- (2) Clarify that a health care provider of telehealth includes primary care providers, mental health providers, and oral health providers, such as physicians and osteopathic physicians, advanced practice registered nurses, psychologists, and dentists; and
- (3) Amend references to “telemedicine” in the Hawaii Revised Statutes to “telehealth” for consistency.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Hawaii Medical Service Association, Healthcare Association of Hawaii, Hawaii Medical Association, Hawaii Association of Health Plans, and six individuals. Your Committee received comments on this measure from the Department of Human Services and Hawaii Medical Board.

Your Committee finds that the effective use of telehealth is vitally important in Hawaii, where many segments of the population, especially on the neighbor islands, face geographical challenges to accessing quality health care. Your Committee further finds that this measure will assist in the delivery of enhanced statewide health care services, increase access to services, and provide timely information to patients and health care providers.

Your Committee has amended this measure by:

- (1) Making a nonsubstantive clarifying amendment regarding the provider-patient relationship for telehealth reimbursement purposes;
- (2) Changing its effective date to upon approval; and
- (3) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2469, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2469, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2511 Commerce and Consumer Protection on S.B. No. 2898**

The purpose and intent of this measure is to amend or delete statutes containing federal commercial driver’s licensing requirements that are addressed in Hawaii Administrative Rules.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Customer Services.

Your Committee finds that serious financial penalties can be incurred when a state does not comply with certain federal motor carrier safety regulations. This measure adopts regulations by reference to Hawaii Administrative Rules, thereby ensuring exact compliance with relevant federal regulations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2898, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2898, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 2512 Commerce and Consumer Protection on S.B. No. 2331**

The purpose and intent of this measure is to:

- (1) Define the term “license” to clarify that teacher licenses are issued by the Hawaii Teacher Standards Board;
- (2) Clarify the authority of employers or prospective employers to refuse to issue a certificate for school administrators or revoke a certificate for school administrators under certain circumstances;
- (3) Makes clarifying amendments to the membership requirements for the Hawaii Teacher Standards Board;
- (4) Clarify that charter schools fall under the purview of the requirements of the Hawaii Teacher Standards Board; and
- (5) Make housekeeping and conforming amendments related to the Hawaii Teacher Standards Board.

Your Committee received testimony in support of this measure from the Hawaii Teacher Standards Board and State Public Charter School Commission. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association.

Your Committee finds that this measure clarifies the membership of the Hawaii Teacher Standards Board to make it clear that all interested constituent groups may submit nominations for the Governor's consideration. This will help ensure representation from diverse groups in Hawaii's educational system, diverse populations, and various geographic areas. This measure also reinforces the authority of the Hawaii Teacher Standards Board to require all public school teachers in the State to hold a current, valid, teaching license and monitor the emergency hire process when licensed teachers are not available.

Your Committee further finds that, within the charter school sector, employer powers and duties of the individual charter schools are separate from the oversight powers and duties of the State Public Charter School Commission. However, this measure does not differentiate between these functions. Amendments to this measure are therefore necessary to clarify certain powers and duties of the Department of Education, State Public Charter School Commission, and individual charter schools.

Your Committee has amended this measure by:

- (1) Inserting a definition of "department school";
- (2) Specifying that one teacher member on the Hawaii Teacher Standards Board shall be engaged in teaching at a Hawaii public charter school at the time of appointment;
- (3) Clarifying the respective employer powers and duties of the Department of Education and the individual charter schools, the oversight powers and duties of the Department and the Commission, and the duty of the Department, Commission, and individual charter schools to provide certain information to the Hawaii Teacher Standards Board;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2331, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2331, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 2513      Judiciary and Labor on S.B. No. 2882**

The purpose and intent of this measure is to update the Uniform Controlled Substances Act under chapter 329, Hawaii Revised Statutes, to make it consistent with amendments to federal law on controlled substances, as required under state law.

Your Committee received testimony in support of this measure from the Department of Public Safety, Police Department of the City and County of Honolulu, and one individual.

Your Committee finds that this measure amends the Uniform Controlled Substances Act to reflect changes in federal law and to make our state statutes consistent with federal law. The Department of Public Safety testified that there is a growing problem of synthetic hallucinogenic substances being developed for sale to the public as herbal incense, bath salts, plant food, or legal highs in the State and around the country. These synthetic hallucinogenic substances are labeled as "not for human consumption", but are readily available for sale in retail shops. As a result, the Department's Narcotics Enforcement Division and the federal Drug Enforcement Administration are seeking to protect the public by making these synthetic hallucinogenic substances illegal to sell or possess and classifying them as Schedule I controlled substances.

Your Committee has amended this measure by adopting the language suggested by the Department of Public Safety to add four substances to the Schedule I controlled substances list under section 329-14(g), Hawaii Revised Statutes, that were emergency scheduled by the federal government on February 10, 2014.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2882, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2882, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Galuteria).

**SCRep. 2514      Judiciary and Labor on S.B. No. 2869**

The purpose and intent of this measure is to protect the confidentiality of developmental disability and mental health information while allowing reasonable use and disclosure as provided by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

Your Committee received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, and one individual.

Your Committee finds that allowing the reasonable use and disclosure of health records may benefit individuals, while ensuring the safety of the general public, by sharing information for purposes of treatment, payment, or health care operations. This measure allows health care providers that hold developmental disability and mental health records to share and access health care information using the HIPAA privacy rule, rather than the stricter and lesser known state laws.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2869, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2869, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Galuteria).

**SCRep. 2515      Judiciary and Labor on S.B. No. 2021**

The purpose and intent of this measure is to provide a greater deterrent to committing the offense of resisting arrest by:

- (1) Establishing the offense of resisting arrest in the first degree as a class C felony if a person intentionally prevents a law enforcement officer acting under the color of the law enforcement officer's official authority from effecting an arrest by removing or attempting to remove a firearm from the person of a law enforcement officer; and
- (2) Amending the existing resisting arrest offense to resisting arrest in the second degree.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Rifle Association, and one individual. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that law enforcement officers face inherent dangers during arrest situations. For example, when an offender attempts to or succeeds in removing a law enforcement officer's firearm, the public and law enforcement officer are at great risk for serious injury or death. However, existing laws do not adequately address these dangerous situations. This measure addresses law enforcement officer safety and provides a long-term deterrent by establishing the offense of resisting arrest in the first degree and amending the existing resisting arrest misdemeanor offense to resisting arrest in the second degree.

Your Committee notes the concerns raised by the Office of the Public Defender that creating a higher penalty for resisting arrest could be subject to abuse by the arresting law enforcement officer. For example, the proposed offense of resisting arrest in the first degree could be asserted by a police officer to cover up an incidence of police brutality. However, your Committee believes that the court is the appropriate venue and the jury is the appropriate body to determine whether the offense was committed by the defendant, with the prosecuting attorney having the burden of proof.

Your Committee further notes that the Office of the Public Defender asserts that this measure is unnecessary while the Department of the Prosecuting Attorney of the City and County of Honolulu asserts that this measure is necessary to protect law enforcement officers in the line of duty. As a result, your Committee requested both entities to submit compelling data to assist in determining the necessity of this measure.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2021, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2021, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6; Ayes with Reservations (Solomon, Slom). Noes, none. Excused, 1 (Gabbard).

**SCRep. 2516      Judiciary and Labor on S.B. No. 2260**

The purpose and intent of this measure is to assist the Department of Labor and Industrial Relations in the enforcement of the prevailing wage law under chapter 104, Hawaii Revised Statutes, by:

- (1) Increasing the suspension period from three to five years for a third violation of a person or firm who violates the state law relating to wages and hours of employees on public works;
- (2) Clarifying that the effective date of suspension is on the later of the twenty-first day after the sending of the notification or violation or the issuance of a decision of an appeal;
- (3) Specifying that suspension for falsification of records or delay or interference with an investigation is immediate for a period of five years; and
- (4) Adding a governmental contracting agency and the general contractor, in the case of a suspended subcontractor, as entities that the Director of Labor and Industrial Relations is required to notify of any suspension order.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Accounting and General Services; Plumbers and Fitters UA, Local 675; The Pacific Resource Partnership; and one individual. Testimony in opposition to this measure was submitted by the General Contractors Association of Hawaii.

Your Committee finds that under chapter 104, Hawaii Revised Statutes, the suspension period for a third violation of prevailing wage law, falsification of records, or delay or interference with an investigation is three years. Due to the length of time needed for an investigation and the due process procedures available for a contractor, the Department of Labor and Industrial Relations testified that a contractor could delay these proceedings to the point that a three year suspension period is of little consequence. This measure assists the Department of Labor and Industrial Relations in enforcing the prevailing wage law and encourages contractors to comply with the law by ensuring that a contractor who deliberately violates the law will serve a suspension period that acts as more of a deterrent.

Your Committee notes the concerns raised by the General Contractors Association of Hawaii that the real problem is the lengthy process for conducting and completing an investigation and adjudication of a properly filed appeal, which an increase in the suspension period from three to five years does not appropriately address. The General Contractors Association of Hawaii suggested the Department of Labor and Industrial Relations needs additional labor law enforcement specialists to speed up investigations. Your Committee further notes that S.B. No. 3039, S.D. 1 (2014) creates additional labor enforcement specialist IV positions within the Department of Labor and Industrial Relations to enforce Hawaii's wage and hour law and appropriates a specified amount for these positions. Your Committee believes that this measure and S.B. No. 3039, as amended, should be considered together to assist the Department in enforcing the prevailing wage law as these two measures move through the legislative process.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the General Contractors Association of Hawaii to clarify that the first, second, or third violation refers to each investigation involving one or more projects, rather than each project, in which a contractor has failed to comply; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2260, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2260, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 2517 Judiciary and Labor on S.B. No. 2250**

The purpose and intent of this measure is to:

- (1) Require certain disclosures on collections boxes used for donations of salvageable personal property by for-profit and nonprofit organizations;
- (2) Clarify the registration requirements for Hawaii domiciled charitable organizations and by nonprofits covered by the Internal Revenue Service Group Exemption Ruling;
- (3) Authorize the Attorney General to require electronic financial reporting by professional solicitors;
- (4) Impose a fee for late financial reports by professional solicitors;
- (5) Amend the time within which commercial co-venturers are required to provide a final accounting to a charitable organization; and
- (6) Make other technical and housekeeping amendments to chapter 467B, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Hawaiian Humane Society and Hawaii Alliance of Nonprofit Organizations.

Your Committee finds that this measure provides greater protections for consumers and donors by establishing new disclosure requirements at collection bins operated by for-profit and nonprofit organizations. This measure also facilitates the Attorney General's transition to electronic registration systems and provides greater clarity to registered charitable organizations, commercial co-venturers, and professional solicitors.

Your Committee notes the testimony submitted by the Department of the Attorney General that suggests further clarification is necessary regarding the required collection box disclosures in this measure, especially with respect to collections boxes by professional solicitors. The Department also testified that the collection box disclosure requirements were intended to apply to three different types of organizations that may own and operate collection boxes, including charities that are granted tax exempt status under Section 501(3)(c) of the Internal Revenue Code, professional solicitors that are for-profit entities paid to solicit donations for a charity, and for-profit organizations that collect and sell used personal property for non-charitable purposes. The Department also testified that the fee for a late financial report by a professional solicitor should be amended to provide an initial fine and an additional fine for each day the violation continues.

Your Committee also notes the concerns raised by the Hawaiian Humane Society and Hawaii Alliance of Nonprofit Organizations regarding the impracticality of the thirty-day timeframe within which a commercial co-venturer must provide a final accounting to a charitable organization after the end of the charitable sales promotion. The Hawaii Alliance of Nonprofit Organizations also commented that nonprofits, businesses, and the public are in need of additional education and awareness regarding commercial co-venturer laws. Your Committee appreciates the cooperation from the Department of the Attorney General in agreeing to extend the timeframe to submit a final accounting from thirty days to ninety days as well as organize and provide education and awareness opportunities regarding the laws relating to commercial co-venturers.

Your Committee has amended this measure by adopting the language suggested by the Department of the Attorney General and Hawaiian Humane Society to:

- (1) Amend the collection box disclosure requirements by:
  - (A) Specifying disclosure requirements for collection boxes owned and operated by charitable organizations exempt from income tax under Section 501(3)(c) of the Internal Revenue Code, professional solicitors, and for-profit organizations that are not professional solicitors or organizations that are not charitable organization exempt from income tax;
  - (B) Deleting language that specifies that professional solicitors shall be classified as for-profit organizations, for purposes of clarity and consistency; and

- (C) Adding language that requires every charitable organization or professional solicitor owning or operating a collection box to register with the Department of the Attorney General;
- (2) Impose fees for a late financial report by a professional solicitor, including an initial fine of \$100 and an additional fine of \$20 for each day the violation continues;
  - (3) Extend the timeframe for a commercial co-venturer to submit a final accounting to a charitable organization from thirty days to ninety days after the end of the charitable sales promotion; and
  - (4) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2250, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2250, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Gabbard).

**SCRep. 2518 Commerce and Consumer Protection on S.B. No. 2657**

The purpose and intent of this measure is to require:

- (1) A contractor that installs a solar energy device on a roof that is a common element or limited common element to notify the private entity that installation might void the roofing warranties or guarantees and obtain written approval from the roofing manufacturer and follow written instructions for waterproofing roof penetrations from the roofing manufacturer, unless the private entity forgoes the roofing warranty or guarantee;
- (2) A roofing contractor that waterproofs roof penetrations related to the installation of a solar energy device to honor the roof warranty or guarantee; and
- (3) The solar energy device contractor's standard labor and workmanship warranty to apply to roof penetrations if the contractor waterproofs the penetrations.

Your Committee received testimony in support of this measure from the Community Association Institute, Hawaii Chapter; Roofing Contractors Association of Hawaii; Hawaii Solar Energy Association; Apollo Kauai; and one individual. Your Committee received testimony in opposition to this measure from the Hawaiiana Management Company, Ltd.

Your Committee finds that under existing statute, a homeowner who wants to install a solar system on the homeowner's roof must obtain confirmation in writing from the company that issued the warranty for the roof that the installation of the solar energy device will not void the roof warranty. This requirement can be a roadblock for homeowners whose properties fall under the control of a homeowner's association, since most roofing contractors are not willing to warranty the work of another contractor. This also creates a frustrating position for the homeowner, who is unable to obtain confirmation from the roofing contractor and is therefore unable to install a solar energy device.

Your Committee further finds that this measure creates a compromise by which a solar energy device contractor may warranty the contractor's own work, with certain notice and approval requirements. However, your Committee has heard the concerns that certain language in this measure that applies a standard labor and workmanship warranty to roof penetrations may have unintended consequences for existing roof warranties. An amendment to this measure is therefore necessary to clarify responsibility for a leaky roof caused by penetrations when a roofing warranty has lapsed at the time a solar energy device is installed.

Accordingly, your Committee has amended this measure to clarify that, for purposes of penetrations for the installation of a solar energy device, if either the roofing contractor's guaranty or the roofing manufacturer's warranty is no longer in effect, then the contractor who installs the solar energy device and waterproofs the penetrations shall apply the contractor's or lessor's standard labor and workmanship warranty.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2657, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2657, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 2519 (Joint) Hawaiian Affairs and Judiciary and Labor on S.B. No. 2839**

The purpose and intent of this measure is to repeal the directive to amend the Hawaiian Homes Commission Act, 1920, as amended (Hawaiian Homes Commission Act), to accomplish the purposes of Act 195, Session Laws of Hawaii 2011 (Act 195).

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Office of Hawaiian Affairs, and Association of Hawaiian Civic Clubs.

Your Committees find that Act 195 created a Native Hawaiian Roll Commission to prepare and maintain a roll of qualified Native Hawaiians in anticipation of the development of a reorganized Native Hawaiian entity and ultimately, federal recognition of Native Hawaiians. Section 3 of Act 195 requires that the Hawaiian Homes Commission Act be amended, subject to the approval by Congress, if necessary, to accomplish the purposes of Act 195. Some beneficiaries of the Department of Hawaiian Home Lands find this directive suspicious because it does not clarify what amendments to the Hawaiian Homes Commission Act are required. Your Committees conclude that this directive is confusing and altogether unnecessary and should be removed from Act 195.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2839, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2839, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2520 (Joint) Public Safety, Intergovernmental and Military Affairs and Energy and Environment on S.B. No. 2749**

The purpose and intent of this measure is to allow the use of individual wastewater systems as an on-site means of wastewater disposal in lieu of county operated wastewater treatment works, regardless of proximity to a county wastewater treatment system.

Your Committees received testimony in support of this measure from the General Contractors Association of Hawaii, Pūlama Lāna‘i, Pae ‘Āina Communications, Hana Ranch; and three individuals. Your Committees received testimony in opposition to this measure from the Department of Health, Department of Environmental Services of the City and County of Honolulu, County of Hawaii Department of Environmental Management, County of Maui Department of Environmental Management, and three individuals.

Your Committees find that wastewater treatment systems are not always environmentally, geographically, or economically feasible for all communities or households. Furthermore, there are communities that are confronted with a water shortage issue. This measure will enable these communities and households to conserve water, improve water quality, enrich soil, and provide an appropriate alternative to county wastewater treatment systems.

Your Committees have amended this measure by:

- (1) Requiring counties to authorize the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems, rather than authorize the use of individual wastewater treatment systems in lieu of wastewater treatment works; and
- (2) Defining “composting toilet” as a toilet that uses no water or very little water and uses natural processes to treat waste.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2749, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2749, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Baker, Green).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Ruderman).

**SCRep. 2521 Commerce and Consumer Protection on S.B. No. 3127**

The purpose and intent of this measure is to:

- (1) Establish provisions for condominium association annual meetings and quorum requirements; and
- (2) Provide that condominium associations may call for the review and discharge of a managing agent hired by the association upon a majority vote by the association members present.

Your Committee received testimony in support of this measure from Hawaii First; Community Associations Institute, Hawaii Legislative Action Committee; and two individuals. Your Committee received testimony in opposition to this measure from American Resort Development Association-Hawaii and Starwood Vacation Ownership. Your Committee received comments on this measure from the Hawai‘i State Association of Parliamentarians.

Your Committee finds that the two most important issues typically addressed at the annual meeting of a condominium association are the election of directors and adoption of a mandatory tax resolution. However, many condominium associations have been unable to conduct these annual ownership meetings because of quorum requirements. If an association is unable to obtain a quorum, a condominium board may wait another year before scheduling the next meeting. During that time, an association may not be able to approve its tax resolution, which could lead to a future tax liability of the association, and directors whose terms have expired may serve an additional rollover term on the board without standing for reelection. This measure provides a mechanism to ensure that the annual meeting of a condominium association will occur each year.

Your Committee further finds that this measure permits a condominium association to call for the review and discharge of a managing agent hired by the association upon a majority vote by the association members present. However, your Committee finds that association boards are mandated to administer an association’s property and manage those who are hired to handle the day-to-day

functions of the association. Accordingly, it is more appropriate for the board of an association, rather than the association itself, to be given the responsibility for the hiring and discharging of a managing agent. Amendments to this measure are therefore necessary.

Your Committee has heard the concerns that time share projects that are owned and operated by major hospitality brands have an affiliate of the brand owner who serves as a managing agent of the condominium. If the managing agent is discharged, then a time share project will no longer be branded as a major hospitality brand resort, which could result in all of the owners of a time share project losing their rights to participate in the vacation club associated with the hospitality brand. Amendments addressing these concerns are therefore necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that if an association is unable to obtain a quorum at the association's first annual meeting, the association shall continue the meeting at least once for no more than ninety days;
- (2) Deleting language that would have amended the powers of an association to include the review and discharge of a managing agent hired by the association, upon a majority vote by the association members present;
- (3) Specifying that the board of an association managed by a managing agent shall have the authority to employ and terminate a managing agent, subject to a vote of a majority of the unit owners at an association meeting;
- (4) Specifying that a project in which a majority of the units have been submitted to one or more vacation plans, or in which one or more units have been submitted to a vacation plan established by the developer of the project or by an affiliate of the developers, shall be exempt from the provisions of this measure relating to the employment and termination of a managing agent; and
- (5) Inserting definitions for "majority of the units" and "vacation plan".

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3127, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 2522 Technology and the Arts on S.B. No. 3107**

The purpose and intent of this measure is to establish and designate the ukulele as the official instrument of the State.

Your Committee received testimony in support of this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committee finds that throughout the history of Hawaii, music has played an integral part in the lives of its people. The ukulele was popularized by Hawaiian royalty, plantation workers, and musicians. The popularity of ukulele music continues to grow throughout Hawaii, the mainland, and beyond. This measure recognizes the ukulele and its history in Hawaii.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3107, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Tokuda).

**SCRep. 2523 (Joint) Public Safety, Intergovernmental and Military Affairs and Tourism on S.B. No. 3074**

The purpose and intent of this measure is to eliminate the requirement that a hotel have a kitchen and dining room, where meals are regularly prepared and served to hotel guests and other customers, to qualify for a hotel class liquor license.

Your Committees received testimony in support of this measure from the Liquor Commission of the City and County of Honolulu.

Your Committees find that there is a trend in modern hotel practice for certain properties to forego maintaining a hotel kitchen and dining room unless needed by an established banquet business. Instead, these properties rely on separately licensed restaurants to provide meal service for hotel guests. This measure will conform legal requirements to modern business practice and hospitality trends.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3074 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Tourism  
Ayes, 4. Noes, none. Excused, 1 (Ige).

**SCRep. 2524 (Joint) Public Safety, Intergovernmental and Military Affairs and Technology and the Arts on S.B. No. 3046**

The purpose and intent of this measure is to designate the last Sunday in September as “Gold Star Family Day” to honor family members of the men and women who gave their lives to their country while serving with the United States Armed Forces in time of war or during a period of hostilities.

Your Committees received testimony in support of this measure from the State Office of Veterans Services; The Chamber of Commerce of Hawaii; Hawaii Catholic Conference; Hawaii Family Forum; National Association for Uniformed Services, Hawaii Chapter; and three individuals.

Your Committees find that on June 23, 1936, a joint Congressional resolution designated the last Sunday in September as “Gold Star Mother’s Day” to honor the mothers of men and women who gave their lives for their country while serving in the United States Armed Forces. In September 2009, President Barack Obama renamed the day as “Gold Star Mother’s and Family Day”, including family members as part of the honorees. Seven states have already enacted legislation to recognize this day. This measure honors the families of those United States Armed Forces members who have bravely sacrificed their lives for their country.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Technology and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3046 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs  
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Technology and the Arts  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Tokuda).

**SCRep. 2525 Judiciary and Labor on S.B. No. 2080**

The purpose and intent of this measure is to clarify the scope of the Uniform Mediation Act.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that the Uniform Mediation Act under chapter 658H, Hawaii Revised Statutes, does not apply to a mediation conducted by a judge who might make a ruling on a case. The Judiciary testified that in reviewing the impact of the Uniform Mediation Act on existing court rules and procedures, it found instances where a judge may be assigned to a particular case but who will not issue a ruling in the case. For example, in circuit court, a presiding judge may enlist another judge to conduct a settlement conference in the pending court case. While these types of settlement conferences are usually not considered mediation, the Judiciary expressed concern that the broad language of the Uniform Mediation Act may include these types of settlement conferences as mediation. This measure clarifies the scope of the Uniform Mediation Act by excluding mediation conducted by a judge on a case.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2080 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Galuteria, Solomon).

**SCRep. 2526 Education on Gov. Msg. Nos. 506 and 507**

Recommending that the Senate advise and consent to the nominations of the following:

**BOARD OF EDUCATION**

G.M. No. 506 GRANT CHUN, for a term to expire 6-30-2014; and

G.M. No. 507 GRANT CHUN, for a term to expire 6-30-2017

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Grant Chun to possess the requisite qualifications to be nominated to the Board of Education.

Your Committee received testimony in support of the nomination of Grant Chun from the Office of the Lieutenant Governor; Board of Education; Hui for Excellence in Education; Maui Economic Development Board, Inc.; and thirty-nine individuals.

Your Committee finds that Grant Chun received his Bachelor’s degree in political science and public relations from the University of Southern California. He went on to receive his Juris Doctorate from the University of California Hastings College of the Law.

Mr. Chun worked as an attorney in private practice for many years prior to serving as the Managing Director of the County of Maui from January 1999 to December 2002. He currently serves as the Vice President of A&B Properties, Inc.

Mr. Chun is actively involved in his community, volunteering his time on numerous boards of various organizations. He also served on the Maui Regional Board of the Hawaii Health Systems Corporation and serves on the Maui Economic Development Board.

Mr. Chun testified that he believes the Board of Education must focus on: inspiring change and evolution in education and providing excellent learning environments for students; ensuring that budgets, resources, and facilities are provided to assist educators in effectively educating students; and making sure that benchmarks set for schools and students are achievable, realistic, and meaningful.

Mr. Chun further testified that he is most interested in serving on the Board of Education's Finance and Infrastructure Standing Committee and Audit Standing Committee. His professional background provides him with a unique perspective on these particular areas and issues.

Mr. Chun also testified that he believes that community engagement in the formation of educational policy is essential, especially on the neighbor islands. Mr. Chun testified that his relationships and one-on-one conversations with members of the community are extremely important. He will continue to build relationships with the community, engage them in educational issues, and give people confidence that he will represent Maui well on the Board of Education.

Mr. Chun's professional background and dedication to his community give him the skills and insight necessary to be an effective member of the Board of Education.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ruderman, Slom).

**SCRep. 2527 Health on Gov. Msg. No. 560**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF CERTIFICATION OF PUBLIC WATER SYSTEM OPERATORS

G.M. No. 560 ERIC OKAZAKI, for a term to expire 6-30-2017

Your Committee has reviewed the personal history and resume submitted by the nominee and finds Eric Okazaki to possess the requisite qualifications to be nominated to the Board of Certification of Public Water System Operators.

Your Committee received testimony in support of the nomination of Mr. Okazaki from the Department of Health.

Mr. Okazaki received a Bachelor of Science degree in Agriculture Science from the University of Hawaii at Manoa. He also attended Electronics School at Sheppard Air Force Base.

Mr. Okazaki currently serves as Vice President of Operations at the Pural Water Specialty Company, Inc., where he has over fifteen years of experience in the management of operations of private water systems. Prior to his current position, Mr. Okazaki served as the Water System Manager for ten years at the Department of Water Supply, County of Maui, where he was responsible for managing all potable water from wells and surface water sources.

In addition to his thirty-two years of experience in the water industry, Mr. Okazaki is certified as a Distribution System Operator and Water Treatment Plant Operator, both at the highest grade level. Mr. Okazaki is dedicated to his profession and the certification of drinking water system operators. Your Committee finds that Mr. Okazaki would be a significant asset to the Board of Certification of Public Water System Operators based on his knowledge, professional experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2528 Health on Gov. Msg. Nos. 562 and 563**

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON MENTAL HEALTH

G.M. No. 562 SANDRA SIMMS, for a term to expire 6-30-2018; and

G.M. No. 563 BENJAMIN PARK, for a term to expire 6-30-2015

Your Committee has reviewed the personal histories and resumes submitted by the nominees and finds Sandra Simms and Benjamin Park to possess the requisite qualifications to be nominated to the State Council on Mental Health.

SANDRA SIMMS

Your Committee received testimony in support of the nomination of Ms. Simms from the Department of Health and two individuals.

Your Committee notes that Ms. Simms received a Juris Doctor degree from DePaul University and a Bachelor of Arts degree in Sociology and Political Science from the University of Illinois.

Ms. Simms is a retired judge with many years of experience in the legal system. She was appointed to the District Court of the First District of Hawaii in 1991, becoming the first African American female judge in the State. In 1994, Ms. Simms was appointed to the position of Circuit Court Judge for the First Judicial Circuit of Hawaii. As a trial judge, she presided over matters involving domestic violence, restraining orders, civil proceedings, and felony jury trials.

Most recently, Ms. Simms was named Adjunct Lecturer in Criminal Justice Studies at Chaminade University. Additionally, Ms. Simms is a member of the distinguished panel of neutrals for Dispute Prevention Resolution, a private alternative dispute resolution

firm in Honolulu. She also serves on the Hawaii State Board of Bar Examiners. Ms. Simms has given numerous presentations to assist community organizations, schools, and forums obtain a better understanding about the judicial system.

Your Committee notes that Ms. Simms has demonstrated significant dedication to public service, as evidenced by her exemplary service as the Second Vice-Chair of the State Council on Mental Health. Ms. Simms brings a wealth of knowledge and experience in the areas of mental health, substance abuse, and the legal system to the State Council on Mental Health. Your Committee finds that Ms. Simms is highly qualified for reappointment to the State Council on Mental Health based on her knowledge, professional experience, and commitment to public service.

#### BENJAMIN PARK

Your Committee received testimony in support of the nomination of Mr. Park from the Department of Health and two individuals.

Your Committee notes that Mr. Park received a Bachelor of Arts degree in U.S. History from the University of Hawaii at Manoa.

Mr. Park currently serves as a Planner in the Planning and Evaluation Office of the Hawaii Public Housing Authority. In this position, Mr. Park maintains regular communications with legislators, including writing and submitting testimony for bills on behalf of the Executive Director of the Hawaii Public Housing Authority. Mr. Park also works with the Board of Directors of the Hawaii Public Housing Authority and other agencies to coordinate community events and meetings.

Mr. Park's past professional experience includes working for the House of Representatives, where he served as the Administrative Services Manager to Majority Leaders Pono Chong and Blake Oshiro, as well as the Office Manager for Representative Scott Saiki. Mr. Park is respected by his colleagues, as evidenced by comments submitted by Representative Mark Hashem, who testified that Mr. Park "is a highly intelligent, people-oriented, and responsive individual who quickly grasps issues, thinks objectively to solve problems, and works well with people to communicate and get things done." Your Committee finds that Mr. Park's knowledge, experience, and dedication to mental health and public housing issues qualify him for appointment to the State Council on Mental Health.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 2529 Health on Gov. Msg. No. 578**

Recommending that the Senate advise and consent to the nomination of the following:

#### DIRECTOR OF THE DEPARTMENT OF HEALTH

G.M. No. 578 LINDA ROSEN, for a term to expire 12-1-2014

Your Committee has reviewed the personal history and resume submitted by the nominee and finds Dr. Linda Rosen to possess the requisite qualifications to be nominated as the Director of Health.

Your Committee received testimony in support of the nomination of Dr. Rosen from the Governor's Office; Department of Health; Department of Land and Natural Resources; Department of Transportation; Department of Defense; State Council on Developmental Disabilities; Hawaii Pacific Health; The Queen's Health Systems; Mental Health America of Hawaii; Hawaii Public Health Association; Wilcox Memorial Hospital; Kapiolani Medical Center; Straub Clinic and Hospital; Pali Momi Medical Center; American Health Association/American Stroke Association; Kaiser Permanente; United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Health Systems Corporation; West Hawaii Regional Board, Hawaii Health Systems Corporation; Keiki Injury Prevention Coalition; Hawaii Disability Rights Center; American Congress of Obstetricians and Gynecologists; American Medical Response; Hawaii Medical Association; Hawaii Health Information Corporation; Rehabilitation Hospital of the Pacific; Injury Prevention Advisory Committee; Domestic Violence Action Center; Hawaii Emergency Physicians Associated; Life Foundation; and several individuals.

Dr. Rosen received a Doctor of Medicine degree from the Baylor College of Medicine and a Master's degree in Public Health from Johns Hopkins Bloomberg School of Public Health. She received a Bachelor of Arts degree in Biology from the University of California at Los Angeles. Dr. Rosen is board certified in pediatrics and pediatric emergency medicine.

Your Committee finds that, consistent with the exemplary comments submitted on her behalf, Dr. Rosen has distinguished herself in various roles at the Department of Health over the past fourteen years and has a broad understanding of many aspects of health care and public health. She has demonstrated excellent leadership skills in her current position as the Chief of the Emergency Medical Services and Injury Prevention Systems Branch of the Department of Health. Prior to this position, Dr. Rosen served as Deputy Director of the Department of Health.

Dr. Rosen strives for a collaborative approach to public health and insists on the highest quality of service. She has a clinical background, a passion for the health of the community, and a deep understanding of providers and consumers of health care. Dr. Rosen's experience, management abilities, and professional relationships are needed in the Department of Health to continue moving the State forward to eliminate health disparities and implement a public health agenda.

Dr. Rosen is admired and respected by many colleagues and friends, as evidenced by comments submitted by state agencies, hospitals, not-for-profit organizations, medical professionals, and the public. Beth Giesting, the Healthcare Transformation Coordinator of the Office of the Governor, testified, "I admire Dr. Rosen's empathy and quick understanding but most of all I appreciate her willingness and energy for taking action to address problems."

Your Committee finds that Dr. Rosen's familiarity with the Department of Health, along with her experience as a pediatrician and extensive work in the emergency and critical care fields, will provide her with the necessary foundation and background to lead the Department of Health. Your Committee further finds that the legacy of the late Director of Health, Loretta Fuddy, and Dr. Rosen's approach to health care will complement each other very well. Dr. Rosen looks forward to honoring the previous Director of Health by moving public health initiatives forward for the benefit and interest of Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 2530 Commerce and Consumer Protection on S.B. No. 2577**

The purpose and intent of this measure is to:

- (1) Require naturopathic physicians to qualify for prescription privileges by completing fifteen hours of pharmacology continuing medical education annually and maintaining a collegial relationship with a prescribing physician licensed under chapter 453, Hawaii Revised Statutes;
- (2) Restrict naturopathic physicians to prescribe only items under categories 1-7 of the naturopathic formulary effective August 9, 2013, and as may be subsequently amended;
- (3) Require naturopathic physicians to provide a monthly report to the Board of Naturopathic Medicine that lists the type and number of each prescription of naturopathic formulary prescribed; and
- (4) Require the Board of Naturopathic Medicine to annually report prescription data to the Legislature.

Your Committee received testimony in support of this measure from the Hawaii Medical Association. Your Committee received testimony in opposition to this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Board of Naturopathic Medicine, and several hundred individuals.

Your Committee finds that this measure requires naturopathic physicians to maintain a collegial relationship with a prescribing physician prior to qualifying for prescription privileges. However, the Board of Naturopathic Medicine indicated in testimony that all naturopathic physicians are qualified to prescribe from the naturopathic formulary without a collegial relationship with a medical doctor. Your Committee further finds that although naturopathic physicians prefer to choose natural therapies, naturopathic physicians are also trained to use pharmaceutical drugs when it is in the best interest of the patient.

Your Committee also finds that this measure restricts naturopathic physicians to prescribe only certain items of the naturopathic formulary. However, the Board of Naturopathic Medicine developed the naturopathic formulary in concert with other states that have a long history of naturopathic physician prescribing rights and a good safety record. Your Committee additionally finds that the Board of Naturopathic Medicine has indicated that it is not aware of any complaints pertaining to patient harm due to prescribing from the naturopathic formulary.

Your Committee has heard testimony that the Board of Naturopathic Medicine does not require continuing education based on a 1987 report from the State Auditor, which found such continuing education requirements to be unnecessary. Your Committee notes that although continuing education for naturopathic physicians may not have been appropriate at the time, almost thirty years have passed since the State Auditor's report. Because the field of health care is rapidly expanding and evolving, the State is now asking all health care licensees to keep up with continuing education requirements.

Although amendments are necessary to remove language that narrows naturopathic physicians' prescription privileges, restricts the naturopathic formulary, and requires reports related to prescriptions by naturopathic physicians, your Committee concludes that it is appropriate for naturopathic physicians to comply with continuing education requirements as a condition of licensure, similar to other licensed health care professionals in the State.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language that:

- (1) Adds a definition of "continuing education courses" to chapter 455, Hawaii Revised Statutes;
- (2) Requires naturopathic physicians to complete a minimum of thirty-five hours of continuing education courses, including a minimum of fifteen hours of pharmacology, during each licensing renewal biennium, beginning December 31, 2017;
- (3) Specifies that first time naturopathic physician licensees are exempt from the continuing education requirement for their first license renewal;
- (4) Specifies requirements for proof of compliance with the continuing education requirements;
- (5) Clarifies the disciplinary powers of the Board of Naturopathic Medicine regarding compliance with continuing education; and
- (6) Inserts an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2577, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2577, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Taniguchi).

**SCRep. 2531 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2175**

The purpose and intent of this measure is to:

- (1) Authorize the Dean of the College of Tropical Agriculture and Human Resources at the University of Hawaii at Manoa to establish a two-year industrial hemp remediation and biofuel research program; and
- (2) Permit the Dean of the College of Tropical Agriculture and Human Resources to submit a final report to the Legislature prior to the convening of the Regular Session of 2016.

Your Committees received testimony in support of this measure from Pacific Biodiesel Technologies, Vote Hemp, Hawaiian Standard and Green Futures, and thirty-six individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that industrial hemp products are an estimated \$500,000,000 industry in the United States. Hemp fibers are used to make thousands of different items, including fabrics, yarns, carpeting, home furnishings, construction materials, foods, body-care products, and auto parts. However, due to industrial hemp's close relationship to the psychoactive variety of the Cannabis plant, it has been illegal for cultivation in the United States until recently. Fortunately, Section 7606 of the United States Agricultural Act of 2014 authorizes state agriculture departments and colleges and universities to conduct hemp research.

Your Committees further find that although industrial hemp is a variety of the Cannabis plant, it is genetically distinct from the psychoactive Cannabis plant and requires different cultivation practices. The Agricultural Act of 2014 and states that have removed barriers to the production of industrial hemp have defined industrial hemp to make it clear that this crop is not the same as marijuana, which contains a much higher concentration of delta-9 tetrahydrocannabinol. Your Committees therefore conclude that a definition of industrial hemp should be added to this measure.

Accordingly, your Committees have amended this measure by:

- (1) Inserting a definition of "industrial hemp"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2175, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2175, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Judiciary and Labor  
Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 2532 Judiciary and Labor on S.B. No. 2229**

The purpose and intent of this measure is to:

- (1) Establish the Uniform Power of Attorney Act, which defines the levels of authority granted in a power of attorney to the principal's agent, requires an agent to act in good faith and within the scope of authority of a power of attorney, and provides sample documents to be used to create a power of attorney; and
- (2) Repeal chapter 551D, Hawaii Revised Statutes, relating to the Uniform Durable Power of Attorney Act.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation and AARP Hawaii.

Your Committee finds that powers of attorney are essential tools for delegating authority to others to effectively plan for incapacity, including the ability for a person to handle the financial matters of another. However, a 2002 national study of durable powers of attorney revealed the need to address numerous issues not contemplated in the original Uniform Durable Power of Attorney Act, codified in Hawaii as chapter 551D, Hawaii Revised Statutes. In response to these concerns and as a way to promote uniformity on issues on which the Uniform Durable Power of Attorney Act was silent, the National Conference of Commissioners on Uniform State Laws developed the model Uniform Power of Attorney Act (2006). By 2013, the Uniform Power of Attorney Act had been enacted in thirteen states and one territory.

Your Committee further finds that this measure is based on the model Uniform Power of Attorney Act, which codifies state power of attorney legislative trends and collective best practices and strikes a balance between the need for flexibility and acceptance of an agent's authority and the need to prevent and redress financial abuse. This measure preserves the durable power of attorney as a low-cost and flexible form of surrogate financial decision making in the event of incapacity, encourages acceptance of powers of attorney by third persons, safeguards incapacitated principals, and provides clearer guidelines for agents.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Commission to Promote Uniform Legislation to:
  - (A) Clarify that if an agent breaches a fiduciary duty, then the agent remains liable for the full amount of damages caused by the breach;
  - (B) Clarify that conferring the power of attorney to an agent includes other broadly worded authority in a general power of attorney signed prior to the effective date of this measure; and

(C) Delete from the power of attorney statutory form the check box for gifts under the grant of general authority as gifts are covered under the grant of specific authority; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2229, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2229, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Galuteria, Solomon).

**SCRep. 2533 Judiciary and Labor on S.B. No. 2352**

The purpose and intent of this measure is to streamline the notification process prior to the discharge of a patient civilly committed. Specifically, this measure:

- (1) Requires the administrator or attending physician of a psychiatric facility to provide notice of intent to discharge a patient or patient's admission to voluntary treatment;
- (2) Applies section 334-60.7, Hawaii Revised Statutes, to only civil commitments as a direct result of legal proceedings;
- (3) Requires the notice of intent to discharge or patient's admission to voluntary treatment to be served by mail to the appropriate prosecuting attorney and at the person's last known address, unless the person waives this right in writing;
- (4) Increases from three to five days the period of time after mailing of the notice within which an objection must be filed or the administrator or attending physician shall discharge or accept the patient for voluntary inpatient treatment; and
- (5) Requires courts to conduct hearings within seventy-two hours, and prior to the termination of the current commitment order, to determine if the patient still meets the criteria for involuntary hospitalization.

Your Committee received testimony in support of this measure from the Department of Health; Healthcare Association of Hawaii; United Public Workers, AFSCME Local 646, AFL-CIO; The Queen's Health Systems; and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that patients are remaining involuntarily committed to hospitals due to the difficulty of obtaining a court hearing and order, even after the patient is ready to be discharged. Your Committee further finds that while these patients remain involuntarily committed, hospitals are forced to use precious resources that could serve other patients in need. This measure streamlines the notification process prior to discharge of a patient civilly committed pursuant to criminal statutes, thereby allowing for a simplified discharge process, while safeguarding the right of individuals who require notification of the patient's discharge to object.

Your Committee has amended this measure by adopting the language suggested by the Department of the Attorney General to:

- (1) Clarify that the notice of intent to discharge and a certificate of service shall be filed with the family court and served by mail to the person's last known address and sent to the prosecuting attorney of the county from which the person was originally committed, by facsimile or electronically, for the sole purpose of victim notification;
- (2) Clarify that an objection can be filed within five calendar days;
- (3) Specify that a court is required to conduct a hearing as soon as possible, rather than within seventy-two hours, to determine if the patient still meets the criteria for involuntary hospitalization;
- (4) Require a person filing an objection to notify the psychiatric facility by telephone on the date of the filing of the objection;
- (5) Amend section 334-76, Hawaii Revised Statutes, to require an administrator of a psychiatric facility with respect to patients committed on court order from a criminal proceeding to send a notice of the intent to discharge or patient's admission to voluntary inpatient treatment by mail to the person's last known address and to the prosecuting attorney of the county from which the person was originally committed by facsimile or electronically; and
- (6) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2352, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2352, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Solomon).

**SCRep. 2534 Judiciary and Labor on S.B. No. 2031**

The purpose and intent of this measure is to establish state licensing requirements for vendors participating in the competitive bidding program for durable medical equipment, prosthetics, orthotics, and supplies established by Section 302 of the Medicare Modernization Act of 2003.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, The Queen's Health Systems, and one individual. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Hawaii Association of Health Plans, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Medicare Modernization Act of 2003 established requirements for a new competitive bidding program for certain durable medical equipment, prosthetics, orthotics, and supplies. Under the program, suppliers compete to become Medicare contract suppliers by submitting bids to furnish certain items in competitive bidding areas. The Centers for Medicare and Medicaid Services awards contracts to enough suppliers to meet beneficiary demand for the bid items. However, according to the Healthcare Association of Hawaii, Medicare beneficiaries in Hawaii are experiencing a reduction in access to quality care as a result of the change in the way Medicare purchases durable medical equipment. Only thirteen of the ninety-seven vendors that were selected to supply the State with durable medical equipment under round two of the competitive bidding program are located within the State. As a result, Medicare beneficiaries face considerable delays in obtaining necessary durable medical equipment, which increases costs and impacts the beneficiary's quality of life. This measure establishes a state licensing program for vendors participating in the competitive bidding program to require durable medical equipment suppliers to be licensed in Hawaii to ensure that Medicare beneficiaries are provided access to timely, local services.

Your Committee notes the concerns raised in the testimony submitted by the Department of Commerce and Consumer Affairs that this measure is too vague to implement and the Department lacks the subject matter expertise regarding the Medicare durable medical equipment competitive bidding program. Furthermore, the testimony submitted by the Hawaii Medical Service Association raised a concern that this measure may bar vendors who elect not to participate in the competitive bid program from licensure, thus removing them from the marketplace. However, your Committee further notes the requests from the stakeholders for additional time to meet and develop language to address the concerns raised in submitted testimony.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the original language of this measure as introduced to require vendors who have been awarded contracts through the Centers for Medicare and Medicaid Services durable medical equipment, prosthetics, orthotics, and supplies bidding program to provide supplies to the residents of the State to have a physical presence in Hawaii. Your Committee has retained the effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2031, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2031, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 2535 (Majority) Judiciary and Labor on S.B. No. 2629**

The purpose and intent of this measure is to require an additional reporting period for lobbyists to cover the period in which the Legislature convenes a special session. Specifically, this measure:

- (1) Requires persons who engage in lobbying, spend \$750 or more to influence legislative action or a ballot issue, or who employ one or more lobbyists to influence legislative action or a ballot issue ninety days prior to the convening of a special session or through sine die of that special session, or both, to file a statement of expenditures with the Hawaii State Ethics Commission within ten days of sine die of that special session;
- (2) Amends the definition of "lobbyist" to include persons who lobby in excess of five hours in any month during the ninety days prior to the convening of a special session or through sine die of that special session, or both, or who spends more than \$750 lobbying during that same period; and
- (3) Makes various conforming amendments to chapter 97, Hawaii Revised Statutes, to reflect the reporting requirements for lobbying during a special session of the Legislature.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, and four individuals. Your Committee received testimony in opposition to this measure from Hawaii Family Advocates. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that existing law requires lobbyists and lobbying organizations who meet certain criteria to file lobbying expenditure and contribution statements to the Hawaii State Ethics Commission three times per year. Two reporting periods, January 1 through the last day of February and March 1 through April 30, cover expenditures and contributions made during a regular legislative session while the third reporting period, May 1 through December 31, covers the legislative interim and any special session that the Legislature may convene. Since this report is due on January 31 of each year, any expenditures and contributions relating to a legislative action considered during a special session may be reported months after such lobbying activities occurred. By requiring persons who engage in lobbying ninety days prior to the convening of a special session or through sine die of that special session, or both, to file a statement of expenditures with the Hawaii State Ethics Commission within ten days of sine die of that special session, this measure will provide more timely reporting of lobbying expenditures and contributions and promote greater transparency.

Your Committee notes the concerns raised by the Hawaii State Ethics Commission that the language in this measure is unclear regarding the time period that a statement of expenditure covers and whether the reporting requirements apply to matters that are unrelated to the special session. Furthermore, the Commission testified that creating a new and separate section to require the filing of expenditure statements of persons who engage in lobbying before and during a special session of the Legislature is unnecessary. Lastly, the Commission raised concerns that requiring a lobbyist or lobbying organization to file a statement of expenditures within ten days after sine die of a special session is not feasible and may increase requests to the Commission for an extension of the reporting deadline.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the contents of this measure and inserting language suggested by the Hawaii State Ethics Commission to amend section 97-3, Hawaii Revised Statutes, to:

- (A) Require persons who engage in lobbying during any special session to file a statement of expenditures with the Hawaii State Ethics Commission; and
- (B) Require the statement of expenditures to cover the period from May 1 through sine die of a special session of the Legislature and only include expenditures and contributions that relate to each legislative action considered during that special session;
- (2) Requiring the statement of expenditures that covers the period from May 1 through sine die of a special session of the Legislature to be filed within thirty days after sine die of that special session;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2629, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2629, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, 2 (Galuteria, Solomon).

**SCRep. 2536 Ways and Means on S.B. No. 2779**

The purpose and intent of this measure is to specifically authorize the Auditor to obtain tax return information necessary for conducting the Comprehensive Annual Financial Report audit of the State.

This measure also requires the Auditor and the Auditor's authorized agents to maintain the confidentiality of tax return information obtained under this measure.

The Department of Accounting and General Services, Department of Budget and Finance, and the Office of the Auditor testified in support of this measure. The Department of Taxation orally testified in support of the measure. The Department of the Attorney General and the Tax Foundation of Hawaii submitted comments.

Your Committee finds section 23-5, Hawaii Revised Statutes, authorizes the Auditor to conduct audits of all departments, offices, and agencies of the State and its political subdivisions. However, questions have been raised regarding the Auditor's authority to review tax returns and other tax records on file with the Department of Taxation that the Auditor requires to conduct the Comprehensive Annual Financial Report audit of the State. This measure will provide the Auditor with clear authority to access relevant and necessary tax return information for financial audits of the State, while ensuring that taxpayer information will remain confidential.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2779, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2779, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2537 (Majority) Ways and Means on H.B. No. 2281**

The purpose and intent of this measure is to make an emergency appropriation to the Office of the Governor to fund:

- (1) Dues to the National Governor's Association;
- (2) Vacation payouts for staff who are no longer employed by the Office of the Governor; and
- (3) Expenses incurred as a result of the Governor's participation in the Presidential Climate Change Taskforce.

The Office of the Governor submitted testimony in support of this measure. One individual submitted testimony in opposition to this measure.

Your Committee finds that, pursuant to the requirements set forth in Article VII, section 9, of the Hawaii State Constitution, the Governor requested immediate consideration and passage of this measure. Your Committee also finds these funds are necessary for the effective and efficient operations of the Office of the Governor.

Your Committee has amended this measure by changing the appropriation amount to an unspecified sum to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2281, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2281, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11; Ayes with Reservations (Thielen). Noes, 1 (Slom). Excused, 1 (English).

**SCRep. 2538 Ways and Means on S.B. No. 2321**

The purpose and intent of this measure is to provide that unclaimed cash of less than \$100 per apparent owner in the unclaimed property trust fund is to be automatically deposited into the general fund after the expiration of certain periods of time from the date of deposit into the trust fund, based upon the amount of cash.

The Department of Budget and Finance provided comments on this measure.

Your Committee finds that section 523A-26(d), Hawaii Revised Statutes, already provides that all unencumbered and unexpended funds in excess of \$1,300,000 on balance in the unclaimed property trust fund on June 30 of each year shall lapse to the credit of the general fund. In addition, this measure as received by your Committee does not specify its applicability to funds deposited into the unclaimed property trust fund prior to the effective date of this measure.

Accordingly, your Committee has amended this measure by replacing its contents with provisions that require claims for funds of any amount less than \$100 in the unclaimed property trust fund to be filed within ten years of the deposit of the funds into the trust fund. The application of the ten-year time period commences on July 1, 2014, for funds already deposited into the trust fund prior to that date. On or after July 1, 2014, the ten-year time period will commence from the date of deposit of the funds into the trust fund. At the expiration of the ten-year time period, unclaimed funds that are subject to this measure will escheat to the State and be transferred to the general fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2321, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2321, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2539 Ways and Means on S.B. No. 2896**

The purpose and intent of this measure is to clarify that wholesale sales of tangible personal property are subject to the one-half of one per cent general excise tax rate.

The Department of Taxation submitted testimony in support of this measure. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that section 3 of Act 135, Session Laws of Hawaii 2003, inadvertently repealed the one-half of one per cent general excise tax rate imposed upon the wholesale sale of tangible personal property. This measure addresses the inadvertent repeal and clarifies that the proper general excise tax rate imposed upon the wholesale sale of tangible personal property is one-half of one per cent.

Your Committee has amended this measure by:

- (1) Removing reference to the general excise tax exemption provided under section 237-29.55, Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2896, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2896, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2540 (Majority) Ways and Means on S.B. No. 2886**

The purpose and intent of this measure is update state income tax law to conform to changes made to the Internal Revenue Code in calendar year 2013.

The Department of Taxation provided testimony in support of this measure. The Tax Foundation of Hawaii provided comments on this measure.

Your Committee finds that this measure is the annual tax conformity bill submitted by the Department of Taxation pursuant to section 235-2.5, Hawaii Revised Statutes, to maintain state income tax conformity with the federal Internal Revenue Code by adopting changes made during the previous year that are appropriate for Hawaii law.

Your Committee has amended this measure by:

- (1) Removing language intended to disallow a deduction under section 275 of the Internal Revenue Code if a taxpayer has taken the credit allowed under section 235-55, Hawaii Revised Statutes;
- (2) Adding language to disallow the deduction under section 164(a)(3) of the Internal Revenue Code for amounts for which the credit under section 235-55, Hawaii Revised Statutes, has been claimed; and
- (3) Making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2886, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2886, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Slom). Excused, 1 (Dela Cruz).

**SCRep. 2541      Ways and Means on S.B. No. 2323**

The purpose and intent of this measure is to clarify the method of calculating the state tax credit for research activities by qualified high technology businesses, including by specifying that credit for all qualified research expenses may be taken without regard to the amount of expenses for previous years.

The Department of Business, Economic Development, and Tourism; the High Technology Development Corporation; The Chamber of Commerce of Hawaii; Navatek; Pacific Marine and Supply; Oceanit; and twenty-five individuals testified in support of this measure. The Department of Taxation opposed this measure. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that Act 270, Session Laws of Hawaii 2013, requires the Department of Business, Economic Development, and Tourism to administer an annual survey of high technology businesses that claim the tax credit for research activities. The information from the survey will be used to profile the companies that claim the tax credit and incorporated into annual reports to the Legislature that will provide descriptive statistics and measure the effectiveness of the tax credit. Your Committee notes that the Department of Business, Economic Development, and Tourism has indicated that it may lack the resources necessary to administer the survey and fulfill the reporting requirements, particularly in view of various proposals in separate legislation currently being considered that may place additional responsibilities on the Department for the administration of the tax credit.

Accordingly, your Committee has amended this measure by:

- (1) Appropriating moneys for the Department of Business, Economic Development, and Tourism to establish one full-time, permanent compliance specialist position to assist with the administration of the tax credit;
- (2) Changing the effective date to July 1, 2050, to encourage further discussion on this measure; and
- (3) Making technical nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2323, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 2542      (Majority) Ways and Means on S.B. No. 2205**

The purpose and intent of this measure is to establish a state earned income tax credit.

The Hawaii State Commission on the Status of Women; Aloha United Way; Catholic Charities Hawaii; Community Alliance on Prisons; Goodwill Industries of Hawaii, Inc.; Hawaii Alliance for Community-Based Economic Development; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Catholic Conference; ILWU Local 142; National Community Tax Coalition; Partners In Care; and five individuals submitted testimony in support of this measure. The Department of Taxation; Tax Foundation of Hawaii; and one individual submitted comments on the measure.

Your Committee finds that this measure is intended to provide additional resources to economically disadvantaged taxpayers by establishing a refundable state earned income tax credit equal to ten per cent of the federal earned income tax credit allowed under section 32 of the Internal Revenue Code.

Your Committee notes that the Department of Taxation had serious concerns regarding the following:

- (1) The Department has difficulty with compliance enforcement of refundable tax credits because they create an incentive and opportunity for fraud; whereas nonrefundable tax credits limit the incentive for fraud because they only benefit taxpayers to the extent of their tax liability;
- (2) Refunds are generally paid before a complete review of each return is done;
- (3) The Department would have no way to obtain the information necessary to independently determine whether a claim for a federal earned income tax credit is proper, prior to issuing a state tax refund;
- (4) There is very little chance that the Department would be able to recover refunds that are issued on fraudulent or improper claims;
- (5) The Department lacks sufficient data matching capabilities to identify and prevent improper claims from being refunded; and
- (6) Despite its extensive data matching capabilities, the Internal Revenue Service still experiences a twenty-one to twenty-five per cent error rate of improper claims for the federal earned income tax credit being filed and paid. Therefore, if the state earned income tax credit is based upon the federal earned income tax credit, it would be expected that the State's error rate will be as high, if not higher than the federal error rate.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2205, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2205, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, 1 (Slom). Excused, none.

**SCRep. 2543 (Joint) Health and Commerce and Consumer Protection and Ways and Means on S.B. No. 2194**

The purpose and intent of this measure is to:

- (1) Require the Department of Health to require birthing facilities to perform a critical congenital heart defect screening using pulse oximetry on every newborn in its care prior to discharge from the birthing facility;
- (2) Make an exception for parents, guardians, or other persons having custody or control of the child who object to pulse oximetry screening on the grounds that the tests conflict with their religious tenets and beliefs, and written objection is made a part of the infant's medical record;
- (3) Require the Department of Health to adopt rules as necessary to effectuate the program for newborn critical congenital heart defect screening using pulse oximetry; and
- (4) Make an appropriation to support a program for newborn critical congenital heart defect screening using pulse oximetry.

Your Committees received testimony in support of this measure from the Department of Health, American Heart Association, Kapiolani Medical Center for Women and Children, Kaiser Permanente, American Congress of Obstetricians and Gynecologists, March of Dimes, American Academy of Pediatrics, The Queen's Health Systems, and three individuals.

Your Committees find that congenital heart defects are structural abnormalities of the heart that are present at birth and are the number one killer of infants with birth defects. Congenital heart disease is the most common serious birth defect, occurring in one out of four hundred births in Hawaii and accounting for more deaths than any other malformation. Unfortunately, more than half of patients with a missed diagnosis of critical congenital heart disease will die at home or in an emergency room before their heart disease is recognized.

Your Committees further find that pulse oximetry is a simple, non-invasive test that helps identify more than ninety percent of heart defects in newborns. This measure ensures that Hawaii families are provided with the most recent standard of care for newborn health screenings.

Your Committees have amended this measure by:

- (1) Requiring birthing facilities to follow procedures, in addition to pulse oximetry tests, as specified by the guidelines of the American Academy of Pediatrics;
- (2) Deleting the provision mandating the Department of Health to require each birthing facility to perform critical congenital heart defect screenings;
- (3) Deleting the provision mandating that the person in charge of each institution caring for newborn infants and the responsible physician attending the birth of a newborn, or the person assisting the birth of a child not attended by a physician, ensure that every infant in the person's care be tested for congenital heart defects through pulse oximetry screening;
- (4) Deleting the provision mandating the Department of Health to adopt rules as necessary to effectuate the purposes of this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the initial investment in the equipment used for pulse oximetry screening may be costly for some birthing facilities, the subsequent costs of pulse oximetry screening are estimated at below \$4 per baby. In fact, Kapiolani Medical Center estimates its cost to implement the screening using reusable equipment at \$1 per baby. Your Committees further note that it is pertinent to discuss whether this measure may be applied to the home birth setting, since home birth practitioners may not have access to the necessary equipment for pulse oximetry screening.

As affirmed by the records of votes of the members of your Committees on Health, Commerce and Consumer Protection, and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2194, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2194, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2544 (Joint/Majority) Commerce and Consumer Protection and Health on S.B. No. 2501**

The purpose and intent of this measure is to:

- (1) Change the name of the Board of Dental Examiners to "Board of Dentistry and Dental Hygiene"; and
- (2) Beginning July 1, 2015, decrease the number of members on the Board from twelve to eleven members; require four members of the Board to be licensed, practicing dental hygienists; require at least one of the practicing dentist members to have a background in public health dentistry or a license in community service dentistry; and prohibit members of the Board from being in any way connected with or having financial interest in any dental examination company.

Your Committees received testimony in support of this measure from the Hawaii Dental Hygienists Association and ten individuals. Your Committees received testimony in opposition to this measure from the Hawaii Dental Association and nineteen individuals. Your Committees received comments on this measure from the Board of Dental Examiners.

Your Committees find that this measure changes the name of the Board of Dental Examiners to the Board of Dentistry and Dental Hygiene (Board). Your Committees find that this change is an appropriate reflection of the Board's function, as it regulates dentists and dental hygienists within the State.

Your Committees have heard testimony that changing the current composition of the Board is needed to ensure that the unique perspectives of dental hygienists are adequately represented. Your Committees have also heard testimony that changing the composition of the Board is not needed, as the current Board composition is within the national average for dentist and dental hygienist representation. Your Committees acknowledge these differing viewpoints and conclude that, for now, the number of dentist members on the Board should remain at eight and the number of dental hygienist members should be increased to three. However, your Committees note that this measure is a work in progress. Your Committees also note that since the role of the Board is to serve the interests of the public and ensure consumer safety, any changes in composition to the Board should be made with consumer protection in mind.

Your Committees have also heard testimony that the Board is an active member of the Central Regional Dental Testing Service and the Northeast Regional Board of Dental Examiners. Board members also serve as examiners, officers, and committee members for these testing agencies. The requirement in this measure that no member of the Board be connected with a dental examination company may therefore be problematic, as most of the Board members would be ineligible to serve on the Board. To address this issue, your Committees conclude that the Board should develop a conflict of interest policy regarding Board member participation with dental examination companies and report back to the Legislature on the status of this policy prior to the Regular Session of 2015.

Finally, your Committees note that although continuing discussion on this measure is needed, the change in composition of Board members is not intended to take effect until July 1, 2015.

Accordingly, your Committees have amended this measure by:

- (1) Increasing the number of members on the Board of Dentistry and Dental Hygiene from twelve to thirteen members, rather than decreasing the number of members from twelve to eleven;
- (2) Removing language that would have decreased the number of dentist members on the Board;
- (3) Requiring three members of the Board to be licensed, practicing dental hygienists;
- (4) Requiring the Board to develop a conflict of interest policy regarding Board member participation with dental examination companies that may provide examinations for Hawaii dentists and report to the Legislature on the status of this policy no later than twenty days prior to the convening of the Regular Session of 2015, rather than prohibiting members of the Board from being connected in any way to a dental examination company;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2501, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2501, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2545 (Joint) Human Services and Economic Development, Government Operations and Housing on S.B. No. 2699**

The purpose and intent of this measure is to require the Hawaii Community Development Authority to impose minimum restrictions on reserved housing and workforce housing in accordance with the restrictions imposed by the City and County of Honolulu.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association, Kakaako United, Free Access Coalition, Malama Makaha, and twenty-seven individuals. Your Committees received testimony in opposition to this measure from The Pacific Resource Partnership; Howard Hughes Corporation; Downtown Capital LLC; Marcus and Associates, Inc.; and one individual. Your Committees received comments on this measure from the Department of the Attorney General, Hawaii Community Development Authority, Kamehameha Schools, and Land Use Research Foundation of Hawaii.

Your Committees find that the Hawaii Community Development Authority was established to fulfill unmet community needs, including the lack of suitable affordable housing. However, as Hawaii's need for affordable housing has grown, the Authority has only added a limited amount of affordable housing, and over ninety percent of the units under consideration for approval by the Authority are not affordable housing units. Furthermore, the Authority's definitions of reserved housing and workforce housing are contrary to the Department of Housing and Urban Development's definition of "low- or moderate-income" housing.

Your Committees further find that the Authority's policies stand in contrast to the objectives of the City and County of Honolulu, which currently requires affordable housing units for new developments to comprise at least ten percent of units priced below eighty percent of area median income and twenty percent of units priced below one hundred twenty percent of area median income, and

imposes strict prohibitions against reselling or renting homes at market rates over a fixed buyback period. The result in Kakaako is that the Authority has failed to adopt policies that encourage affordable housing, and instead has drawn development to Kakaako that, were it to occur elsewhere in Honolulu, would be required to provide affordable housing.

Your Committees have received testimony on this measure expressing concern about the workforce housing provision and that this measure does not provide a viable solution for affordable housing for middle-class residents who do not qualify for subsidized housing yet may have difficulty obtaining financing. Your Committees recognize the concerns raised and that it is an ongoing challenge for the State to find affordable housing solutions. Your Committees encourage all interested groups to continue to work together and with the Legislature to find creative and effective housing solutions for all income levels in Hawaii.

Your Committees have amended this measure by:

- (1) Removing language from sections 206E-5 and 206E-15, Hawaii Revised Statutes (HRS), that was repetitive and unnecessary;
- (2) Removing an imprecise reference to section 206E-101, HRS, to avoid confusion;
- (3) Removing the definition of “workforce housing” because it is not used in chapter 206E, HRS, and is therefore unnecessary;
- (4) Adding language to the definition of “reserved housing” to specifically reference the City and County of Honolulu’s Amendment of Affordable Housing Rules for Unilateral Agreements that was adopted February 12, 2010;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Economic Development, Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2699, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2699, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 4; Ayes with Reservations (Kidani, Taniguchi, Slom). Noes, none. Excused, 1 (Green).

Economic Development, Government Operations and Housing

Ayes, 5; Ayes with Reservations (Dela Cruz, English, Slom). Noes, none. Excused, 2 (Baker, Wakai).

**SCRep. 2546 Ways and Means on H.B. No. 2650**

The purpose and intent of this measure is to appropriate funds for the expenses of the Legislature, the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, and the Hawaii State Ethics Commission.

The Office of the Auditor, the State Ethics Commission, and the Office of the Ombudsman testified in support of this measure. The Legislative Reference Bureau submitted comments on this measure.

Your Committee finds that this measure appropriates sufficient funds to defray necessary expenses of the Senate and House of Representatives along with funds necessary to support the operations of the legislative service agencies and the Hawaii State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2650, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2547 (Joint) Hawaiian Affairs and Health on S.B. No. 2103**

The purpose and intent of this measure is to amend the Hawaii State Planning Act’s objectives and policies for health to include the identification of social determinants of health to reduce health disparities among Native Hawaiians, other Pacific Islanders, and Filipinos.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Office of Hawaiian Affairs, Center for Hawaiian Sovereignty Studies, Hawaii Appleseed Center for Law and Economic Justice, Kaiser Permanente, Hawaii Primary Care Association, Waimanalo Health Center, HealthyPacific.org, Kookia Kalihi Valley Comprehensive Family Services, Waianae Coast Comprehensive Health Center, and fifteen individuals.

Your Committees find that social determinants are the single most important factor in individual and population health outcomes. An October 2013 report, “Assessment and Priorities for Health & Well-Being in Native Hawaiians & Other Pacific Peoples”, by the John A. Burns School of Medicine, identified a number of social determinants of health among Native Hawaiians, other Pacific Islanders, and Filipinos, who typically have disparate health outcomes compared to the rest of the state population. It is imperative that the State address these social determinants of health to improve the health and well-being of Native Hawaiians, Pacific Islanders, and Filipinos.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2103 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Health

Ayes, 5. Noes, none. Excused, none.

**SCRep. 2548 Ways and Means on S.B. No. 2208**

The purpose and intent of this measure is to provide tax relief to low-income households by increasing the adjusted gross income threshold and the income tax credit for low-income household renters. The measure also provides a formula for increasing those amounts each taxable year.

The Hawaii Alliance for Community-Based Economic Development; the Hawaii Appleseed Center for Law and Economic Justice; Aloha United Way; Hawaii Primary Care Association; Partners in Care; Goodwill Industries of Hawaii; Protecting Hawaii's Ohana, Children, Under Served, Elderly and Disabled; Catholic Charities Hawaii; Community Alliance on Prisons; and seven individuals submitted testimony in support of the measure. The Department of Taxation; the Tax Foundation of Hawaii; and one individual submitted comments.

Your Committee notes that the income threshold to qualify for the low-income household renters tax credit has not increased since 1989 and the amount of the renters tax credit has not increased since 1981. At the current income threshold and tax credit amount, many households that are at risk of falling into poverty do not qualify for the tax credit and those that do qualify, do not receive a tax credit of any significant amount. Your Committee finds that increasing both the low-income household renters income threshold and the tax credit amount will provide low-income household renters with meaningful tax relief.

Your Committee has amended this measure by:

- (1) Deleting the provision requiring annual adjustments of the low-income household renters income threshold and the tax credit amount based on the Consumer Price Index;
- (2) Changing the adjusted gross income threshold and the tax credit to unspecified amounts;
- (3) Changing the effective date to July 1, 2050, to encourage further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2208, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 2549 Ways and Means on S.B. No. 3109**

The purpose and intent of this measure is to change the date of remitting for general excise tax payments from the twentieth day to the last day of the calendar month following the month in which the taxes accrue.

The Hawaii Business League and the Chamber of Commerce of Hawaii provided testimony in support of this measure. The Department of Taxation provided testimony in opposition to this measure. The Tax Foundation of Hawaii commented on the measure.

Your Committee finds that changing the filing date for general excise taxes from the twentieth day to the last day of the applicable calendar month will provide taxpayers with sufficient time to prepare the necessary paperwork to timely remit their general excise tax payments, which will ultimately increase the number of timely filings.

Your Committee has amended this measure by changing the effective date to January 1, 2050, for taxable years beginning after December 31, 2016, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3109, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 2550 Ways and Means on S.B. No. 2202**

The purpose and intent of this measure is to amend the refundable food/excise tax credit by updating its adjusted gross income threshold and tax credit amounts and tying future tax credit amounts to the Consumer Price Index.

Your Committee received testimony in support of this measure from Hawaii Appleseed Center for Law and Economic Justice, Hawaii Alliance for Community-Based Development, Goodwill Industries of Hawaii, Aloha United Way, Catholic Charities Hawaii, Partners in Care, ILWU Local 142, and six individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that for low-income people, the general excise tax imposes the greatest tax burden. The refundable food/excise tax credit provides a key means to promote financial stability, as well as a more equitable tax system. Your Committee notes, however, that the amount of the tax credit has not been adjusted for inflation since 2007.

Your Committee has amended this measure by:

- (1) Removing provisions that tie the tax credit amounts to the Consumer Price Index;
- (2) Changing the adjusted gross income threshold and tax credit amounts to unspecified figures;
- (3) Deleting the requirement that a person claiming the qualified exemption shall have physically resided in the State for more than nine months during the taxable year; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2202, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 2551 Ways and Means on S.B. No. 2113**

The purpose and intent of this measure is to repeal the requirement that the County of Kauai contract with the Kauai Humane Society for the seizure and impoundment of unlicensed dogs and related actions.

Your Committee received written comments in support of this measure from two Kauai County Council Members and Animal Haven.

Your Committee finds the County of Kauai is mandated by section 146-16, Hawaii Revised Statutes, to contract with the Kauai Humane Society regarding the seizure and impoundment of unlicensed dogs. However, compliance with section 146-16, Hawaii Revised Statutes, has become increasingly difficult due to a decrease in operational hours at the Kauai Humane Society as a result of budget constraints. Accordingly, this measure will avert statutory violations by repealing the requirement that the County of Kauai contract with the Kauai Humane Society.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2113 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2552 Ways and Means on S.B. No. 2343**

The purpose and intent of this measure is to appropriate moneys to the Hawaii Invasive Species Council, through the Department of Land and Natural Resources, for invasive species prevention, control, outreach, research, and planning.

Your Committee received written comments in support of this measure from the Mayor of the County of Maui, the County Council of the County of Maui, the Nature Conservancy, Hawaii Green Growth, Hawaii Farm Bureau Federation, and three individuals. Written comments on this measure were submitted by the Department of Agriculture and the Office of Planning.

Your Committee finds that invasive species, such as insects, disease-bearing organisms, snakes, weeds, and other pests are one of the greatest threats to Hawaii's economy and natural environment as well as to the health and lifestyle of Hawaii's people. Your Committee further finds that appropriate measures are needed to control the invasion of these species and mitigate any future damage.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2343 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (English, Keith-Agaran).

**SCRep. 2553 Ways and Means on S.B. No. 2702**

The purpose and intent of this measure is to extend the time period that authorizes the Department of Budget and Finance to issue special purposes revenue bonds to assist in the construction of a seawater air conditioning project on Oahu.

Honolulu Seawater Air Conditioning LLC, and one individual submitted written comments in support of this measure. The Department of Budget and Finance submitted written comments on this measure.

Your Committee finds that disruptions in financial markets over the past few years have led to the postponement of the Oahu seawater air conditioning construction project. Extending the time period that authorizes the Department of Budget and Finance to issue \$77,000,000 in special purpose revenue bonds for an additional five years will provide Honolulu Seawater Air Conditioning, LLC, with the time necessary to use proceeds from the bonds to construct a seawater air conditioning district cooling system on Oahu.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2702, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Keith-Agaran, Kouchi).

**SCRep. 2554 (Majority) Ways and Means on S.B. No. 2344**

The purpose and intent of this measure is to address the effects of climate change and protect Hawaii's economy, health, environment, and way of life.

Specifically, this measure:

- (1) Establishes an interagency Sea Level Rise Vulnerability and Adaptation Committee, attached to the Department of Land and Natural Resources for administrative purposes, to develop a report examining Hawaii's vulnerability to sea level rise, and possibilities for adaptation, through the year 2050;
- (2) Requires the Office of Planning to coordinate the development of a statewide climate adaptation plan and to use the Sea Level Rise Vulnerability and Adaptation Committee's report as a basis for addressing other climate threats and climate change adaptation priorities identified in Act 286, Session Laws of Hawaii 2012; and
- (3) Appropriates funds and creates positions to carry out these duties.

Written comments in support were submitted by the Office of Planning, the Department of Land and Natural Resources, the Chamber of Commerce of Hawaii, the Sierra Club of Hawaii, and one individual. Written comments were submitted by the Department of Health.

Your Committee finds that climate change is an enormous challenge facing Hawaii. Shoreline erosion, drought, and rising temperatures are impacting Hawaii and are expected to accelerate in the future. Your Committee believes that this measure will assist in addressing and mitigating the long-term threats of climate change to the State's economy, security, and way of life.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2344, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Slom). Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2555 (Majority Ways and Means on S.B. No. 2855)**

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health to provide Compact of Free Association individuals with developmental disabilities with the services required by law for the remainder of fiscal year 2013-2014.

The Department of Health State Council on Developmental Disabilities and one individual submitted written comments in support of this measure.

Your Committee finds that pursuant to court order, the State must provide the services mandated by chapter 333F, Hawaii Revised Statutes, to various individuals from the Compact of Free Association population. This emergency appropriation will provide services for forty-seven individuals. Your Committee further finds that without this appropriation, the Department of Health will be forced to use other funds, thereby adversely affecting individuals receiving Medicaid Title XIX program services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2855, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Kidani). Noes, 1 (Slom). Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2556 Ways and Means on S.B. No. 2603**

The purpose of this measure is to support the construction of a veterans long-term care facility by authorizing the issuance of general obligation bonds.

No written comments were received by your Committee on this measure.

Your Committee finds that an additional veterans long-term care facility in Hawaii will provide additional necessary care to veterans, their spouses, and other eligible individuals. The facility will also provide an economic boost to Hawaii by creating jobs and purchasing supplies for facility operation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2603 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2557 (Majority Ways and Means on S.B. No. 2234)**

The purpose and intent of this measure is to repeal the child care licensing exemption for child care programs that are licensed by the Hawaii Council of Private Schools.

Additionally, this measure appropriates funds to the Department of Human Services to license private child care programs.

The Department of Human Services, the Executive Office on Early Learning, and the Hawaii Association for the Education of Young Children submitted written comments in support of the measure.

Your Committee finds that the repeal of the licensing exemption will ensure that all children in early childhood programs that serve children up to kindergarten will be required to meet the health and safety licensing standards of the Department of Human Services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2234, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Thielen). Noes, 1 (Slom). Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2558      Ways and Means on S.B. No. 2039**

The purpose and intent of this measure is to make an appropriation for the University of Hawaii, College of Tropical Agriculture and Human Resources cooperative extension service.

Written comments in support were submitted by the Hawaii Farm Bureau Federation, Hawaii Cattlemen's Council, Hawaii Farmers Union United, Hui 'O Malama 'Aina, and one individual.

Your Committee finds that this appropriation will improve education regarding agricultural sciences and food safety.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2039 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2559      Health on Gov. Msg. Nos. 564 and 566**

Recommending that the Senate advise and consent to the nominations of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, HAWAII SERVICE AREA BOARD

G.M. No. 564 ALICE BRATTON, for a term to expire 6-30-2018; and

G.M. No. 566 FRANCES ELAINE LYONS, for a term to expire 6-30-2018

Your Committee has reviewed the personal histories and resumes submitted by the nominees and finds Alice Bratton and Frances Elaine Lyons to possess the requisite qualifications to be nominated to the Mental Health and Substance Abuse, Hawaii Service Area Board.

ALICE BRATTON

Your Committee received testimony in support of the nomination of Ms. Bratton from the Department of Health.

Your Committee notes that Ms. Bratton received a Master of Arts degree in Teaching from the School for International Training and a Bachelor's degree in Social Work from the Indiana University School of Social Services.

Ms. Bratton currently serves as a Parent Partner for Hawaii Families as Allies, where she is responsible for providing support to families with children who have emotional or behavioral challenges by providing workshops and support groups. Additionally, she collaborates with a variety of community stakeholders to facilitate trainings and networking for families and service providers.

Prior to this position, Ms. Bratton worked as a Team Leader for Ohana Quake Outreach, where she was responsible for the training and supervision of outreach teams providing psychological first aid and referrals in Waimea and Kona. Ms. Bratton has worked as a counselor in private practice, as well as in a residential group home for emotionally disturbed adolescent girls.

Your Committee notes that Ms. Bratton has demonstrated significant dedication to mental health issues through her background, affiliations, training, and outreach programs. Your Committee finds that Ms. Bratton has been nominated to the Mental Health and Substance Abuse, Hawaii Service Area Board, based on her knowledge, professional experience, and commitment to public service.

FRANCES ELAINE LYONS

Your Committee received testimony in support of the nomination of Ms. Lyons from the Department of Health.

Your Committee notes that Ms. Lyons received an Associate's degree in Management from Quincy College, and also studied Management at Northeastern University. Ms. Lyons currently serves as a Grant Writer for the East Hawaii Cultural Center in Hilo, where she researches funding sources for arts, cultural, and Hawaii heritage grants, and writes and submits proposals to foundations and funding sources.

Ms. Lyons has a solid background in organizational and administrative management. She is familiar with complex reports and spreadsheets related to corporate objectives and client specific requests, ensuring confidentiality of sensitive information. Ms. Lyons offers more than ten years of proven administrative, operations, communication, meeting planning, organizational, and multitasking experience.

Your Committee finds that Ms. Lyons' knowledge and experience in the corporate business environment will assist the Mental Health and Substance Abuse, Hawaii Service Area Board, in determining policy and planning for the needs of consumers living with mental illness. Your Committee further finds that Ms. Lyons has the experience, competency, and dedication to be a member of the Mental Health and Substance Abuse, Hawaii Service Area Board.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2560      Health on Gov. Msg. No. 567**

Recommending that the Senate advise and consent to the nomination of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, OAHU SERVICE AREA BOARD

G.M. No. 567 PATRICK BROWN, for a term to expire 6-30-2018

Your Committee has reviewed the personal history and resume submitted by the nominee and finds Patrick Brown to possess the requisite qualifications to be nominated to the Mental Health and Substance Abuse, Oahu Service Area Board.

Your Committee received testimony in support of the nomination of Dr. Brown from the Department of Health.

Your Committee notes that Dr. Brown holds a Doctor of Philosophy and is retired from the federal government with thirty years of service. Dr. Brown served as a member of the Senior Executive Service with the U.S. Agency for International Development. Prior to this position, Dr. Brown served as a civilian employee of the Department of the Navy at Pearl Harbor Naval Shipyard and Human Resources Manager at the Marine Corps Base Hawaii.

Dr. Brown is the parent of an adult child who struggles with alcoholism and mental illness. In order to assist his child, Dr. Brown has researched both illnesses and acquainted himself with resources available for the management of addiction and mental illness. Dr. Brown co-authored a book for families with a member struggling with addiction.

Your Committee further notes that Dr. Brown has demonstrated significant dedication to public service, as evidenced by his work with Catholic Charities' Na Ohana Pulama, a program which cares for children who have not been able to succeed in normal foster care programs. Additionally, Dr. Brown and his wife have provided a home for three children in this program. Your Committee finds that Dr. Brown has been nominated to the Mental Health and Substance Abuse, Oahu Service Area Board, based on his knowledge, experience, and commitment to serving individuals struggling with mental health and substance abuse issues.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 2561 (Joint) Human Services and Hawaiian Affairs and Economic Development, Government Operations and Housing on S.C.R. No. 2**

The purpose and intent of this measure is to encourage the development of sustainable, multi-generational, mixed income, and mixed use housing.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaii Public Housing Authority, Hawaii Housing Finance and Development Corporation, and three individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Hawaii Community Development Authority.

Your Committees find that the affordable housing crisis in Hawaii calls for the development of various types of housing for a range of income brackets. Your Committees further find that multi-generational households are common in this State, and that there is a need for mixed use housing developments that limit sprawl and reduce transportation-related energy costs.

Your Committees encourage the Hawaii Public Housing Authority, Department of Hawaiian Home Lands, Hawaii Housing Finance and Development Corporation, and Hawaii Community Development Authority to brief the Legislature during the 2015 Regular Session about their progress in building affordable housing. Specifically, the four entities should plan to provide tangible, detailed data regarding their development of sustainable, multi-generational, mixed income, and mixed use housing.

As affirmed by the records of votes of the members of your Committees on Human Services, Hawaiian Affairs, and Economic Development, Government Operations and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 2 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Economic Development, Government Operations and Housing

Ayes, 5. Noes, none. Excused, 2 (Baker, English).

**SCRep. 2562 Commerce and Consumer Protection on S.B. No. 2490**

The purpose and intent of this measure is to:

- (1) Require licensed registered nurses and licensed practical nurses to submit evidence of continuing competency at each renewal period, beginning with the June 30, 2015, licensing biennium;
- (2) Set requirements for continuing competency for licensed registered nurses and licensed practical nurses; and
- (3) Require each licensee to keep and maintain records showing that continuing competency has been completed.

Your Committee received testimony in support of this measure from Pali Momi Medical Center, Hawai'i Pacific Health, and one individual. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and Board of Nursing.

Your Committee finds that continuing competence is the ongoing application of knowledge and the decision making, psychomotor, and interpersonal skills expected of licensed nurses within a specific practice setting, which results in nursing care that contributes to the health and welfare of clients served. This measure encourages licensed registered nurses and licensed practical nurses to embrace lifelong learning as an essential key to delivering safe, high quality patient care.

Your Committee has heard the concerns from the Professional and Vocational Licensing Division and the Board of Nursing about the staffing and funding needed to implement the continuing competence requirements proposed by this measure. Your Committee understands these concerns and concludes the continuing competence requirements should be delayed until June 30, 2017. Your Committee is confident that these requirements can be adequately implemented by that time without overburdening either the Board of Nursing or the Professional and Vocational Licensing Division. However, to better ensure the successful implementation of this measure, your Committee finds that the Department of Commerce and Consumer Affairs should work in collaboration with the Center for Nursing and convene a stakeholder group to address any outstanding issues associated with this measure.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the continuing competence requirements for licensed registered nurses and licensed practical nurses shall take effect beginning with the June 30, 2017, licensing biennium;
- (2) Requiring the Department of Commerce and Consumer Affairs, in collaboration with the Center for Nursing, to convene a stakeholder group to address any outstanding issues associated with the implementation of the continuing competence requirements pursuant to this measure and report to the Legislature no later than twenty days prior to the convening of the Regular Sessions of 2015 and 2016;
- (3) Inserting an effective date of July 1, 2014; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2490, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2490, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2563 Ways and Means on S.B. No. 3042**

The purpose and intent of this measure is to amend the State's liquor licensing laws to reflect the changing nature of alcoholic beverage production and sales.

Specifically, the measure:

- (1) Establishes a new class 18 liquor license for small craft producer pubs; and
- (2) Removes restrictions on the amount of malt beverages that a class 14 brewpub licensee may manufacture on its premises.

Hawaiian Craft Brewers Guild and Maui Brewing Company submitted written comments in support of the measure.

Your Committee finds that this measure will remove unnecessarily restrictive limitations on breweries and will open up the ability for small producers to diversify their product lines.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3042, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3042, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2564 (Majority) Ways and Means on S.B. No. 2073**

The purpose of this measure is to appropriate unspecified amounts, for fiscal years 2013-2015, to fund salary increases, collective bargaining cost items, Hawaii Employer-Union Health Benefits Trust Fund costs, and other cost adjustments for officers and employees within collective bargaining unit (6)(educational officers) and their excluded counterparts.

Your Committee received written comments in support of the measure from the Hawaii Government Employees Association. The Department of Budget and Finance submitted written comments on this measure.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. This measure provides a legislative vehicle to fund collective bargaining costs for officers and employees within collective bargaining unit (6), along with state officers and employees who are excluded from collective bargaining, but who belong to the same compensation plans as the officers and employees within collective bargaining unit (6), if an agreement is reached or an arbitration award is issued prior to the end of the 2014 Regular Session.

Your Committee has amended this measure by making a technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2073, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2073, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Slom). Excused, 1 (Keith-Agaran).

**SCRep. 2565 Ways and Means on S.B. No. 2305**

The purpose and intent of this measure is to authorize and appropriate funds for the state Department of Defense's Civil Defense agency to assemble civilian community teams in each state senatorial district and to hire a coordinator to ensure the proper training of the civilian community teams.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that trained community civilians are essential to any civil defense plan. With proper training and knowledge, civilians can assist communities in preparing for emergency situations and provide first response support.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of the civilian community teams is to provide community assistance in disaster relief as defined in section 127-1, Hawaii Revised Statutes;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to encourage further discussion; and
- (4) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2305, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2566 Ways and Means on S.B. No. 2466**

The purpose and intent of this measure is to require licensed marriage and family therapists to complete a minimum of forty-five hours of continuing education courses during each licensing triennium subsequent to their first license renewal.

The National Association of Social Workers and four concerned individuals submitted written comments in support of this measure. The Department of Commerce and Consumer Affairs submitted written comments on this measure.

Your Committee finds that this measure will ensure that licensed marriage and family therapists will maintain their professional competency and keep abreast of the latest developments in their profession. As a result of this measure, Hawaii will no longer be one of two remaining states that do not require continuing education as part of its marriage and family therapist licensing laws.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, in order to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2466, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2466, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2567 Ways and Means on S.B. No. 2198**

The purpose and intent of this measure is to create a task force within the Department of Business, Economic Development, and Tourism to perform a feasibility study and propose legislation related to locally produced fuels.

Specifically, the measure requires the task force to study and propose legislation relating to:

- (1) Requiring locally produced renewable fuels to account for at least ten per cent of a distributor's annual sales of fuels for motor vehicles; and
- (2) Requiring the mixture of up to five per cent of locally produced biofuels in diesel fuels.

Your Committee received written comments in support of the measure from the Alliance of Automobile Manufacturers and two individuals. The Department of Business, Economic Development, and Tourism submitted written comments.

Your Committee finds that creating a task force to study the feasibility of requiring fuel sales to include locally produced renewable fuels and biofuels, and to propose related legislation, would advance the State's goals of decreasing dependence on foreign oil, reducing gasoline consumption, and producing fuels locally.

Your Committee has amended this measure by:

- (1) Clarifying that representatives of private organizations shall be invited, rather than required, to participate on the task force;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2198, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2198, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Keith-Agaran).

**SCRep. 2568 Ways and Means on S.B. No. 2293**

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture to reimburse qualified producers for a percentage of their farm's feed expenses and to provide moneys for the administrative costs of the Livestock Revitalization Program.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau Federation.

Your Committee finds that the rising cost of livestock production and the closure of local dairy and egg farms have significantly contributed to the decline of the livestock industry in Hawaii. This has resulted in an increased dependence on mainland products and limited options for acquiring locally produced milk, eggs, poultry, and seafood products. Your Committee further finds that reimbursing qualified producers for a percentage of their farm's feed expenses will help revitalize the livestock industry and lower the cost of locally produced products.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of the appropriation is to reimburse qualified producers for their feed expenses pursuant to chapter 155D, Hawaii Revised Statutes, and for the administrative costs of the livestock revitalization program;
- (2) Changing the appropriation amount to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2293, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2293, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2569 Ways and Means on S.B. No. 2948**

The purpose and intent of this measure is to clarify the authority of the chairperson of the Public Utilities Commission regarding ministerial duties, including operational expenditures, and the hiring and retention of personnel.

Your Committee received written comments in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii Energy Policy Forum, and one individual. Your Committee received written comments on this measure from the Public Utilities Commission.

Your Committee finds that the Commission faces exceptional challenges in recruiting and maintaining the specialized staff that is needed to provide expertise in technology, economic policy, and law. This measure will help the Commission to efficiently address issues regarding the hiring and retention of personnel. Your Committee further finds that this measure will help to avoid possible ambiguity regarding the Commission's autonomy and ability to make necessary expenditures in order to carry out its various responsibilities.

Your Committee has amended this measure by:

- (1) Clarifying that the review and approval of operational expenditures under the agreed upon threshold will be under the exclusive authority of the chairperson of the Public Utilities Commission, and that any expenditures above the threshold may be reviewed and approved by the Director of Finance;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2948, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2948, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2570 (Majority) Ways and Means on S.B. No. 2437**

The purpose and intent of this measure is to require state agencies to coordinate with the Honolulu Authority for Rapid Transportation to address workforce housing and transit ridership.

Specifically, the measure requires:

- (1) All state agencies owning property or facilities within one-half mile of each proposed rail transit station to enter into memoranda of understanding with each other and convene working groups that include the Honolulu Authority for Rapid Transportation; and
- (2) Each working group to submit an annual report to the legislature examining how each rail transit station will help meet the demand for workforce housing, affect transit ridership, and create economic diversification and growth opportunities.

Your Committee received no written comments on the measure.

Your Committee finds that there is a need to examine how state agencies situated around each proposed rail transit station will be affected by the rail transit project and how the agencies can contribute to meeting the State's goals of increasing workforce housing, public transit ridership, and economic diversification and growth.

Your Committee has amended this measure by:

- (1) Clarifying that participation in the working groups shall be required of all state agencies owning land in proximity to proposed rail stations;
- (2) Clarifying that the working groups shall be disbanded upon the completion of the rail transit project;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2437, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2437, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Slom). Excused, 2 (Keith-Agaran, Kouchi).

**SCRep. 2571 Ways and Means on S.B. No. 2431**

The purpose and intent of this measure is to make permanent certain provisions of Act 58, Session Laws of Hawaii 2004, relating to the Hawaii Tourism Authority.

Specifically, the measure makes permanent:

- (1) The Hawaii Tourism Authority's exemption from the supervision of accounts by the Comptroller;
- (2) The Comptroller's authority to request from the Hawaii Tourism Authority information for the preparation of statements of income and expenditure by funds; and
- (3) The Hawaii Tourism Authority's exemption from the Comptroller's review and approval of business and accounting forms.

Your Committee received written comments in support of the measure from the Hawaii Tourism Authority.

Your Committee finds that Act 58, Session Laws of Hawaii 2004, was enacted to enhance the effectiveness and efficiency of the Hawaii Tourism Authority. Your Committee believes that, by making various provisions of Act 58 permanent, this measure will allow the Authority to continue operating efficiently and to execute its financial transactions in a timely manner.

Your Committee has amended this measure by:

- (1) Deleting the reenactment language for sections 201B-2 and 201B-11, Hawaii Revised Statutes, as unnecessary, given that the amendments made to those sections by Act 58, Session Laws of Hawaii 2004, are being made permanent by this measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2431, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2431, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2572 Ways and Means on S.B. No. 2294**

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to finance capital improvements for various irrigation systems and associated agricultural management facilities throughout the State.

Your Committee received no written comments on the measure.

Your Committee finds that to ensure a reliable source of water for Hawaii's agricultural enterprises, it is imperative to provide funding sufficient to maintain and improve the State's irrigation systems. Many existing irrigation systems are antiquated and have atrophied over a period of decades. The repair and maintenance of these systems is vital to a sustainable agricultural industry.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2294, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2294, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2573      Judiciary and Labor on S.B. No. 3126**

The purpose and intent of this measure is to prohibit businesses from using noncompete agreements and restrictive covenants that forbid post-employment competition of their employees of a technology business or licensed physicians, except in certain situations.

Your Committee received testimony in support of this measure from the Department of Education, Department of Information Technology of the City and County of Honolulu, Hawaii Medical Association, and seven individuals. Your Committee received comments on this measure from the High Technology Development Corporation.

Your Committee finds that post-employment restrictive covenants impede the development of businesses in Hawaii by driving skilled workers, including technology employees and licensed physicians, to other jurisdictions and by requiring local businesses to solicit from out of the State. Hawaii's regional success depends upon a mobile workforce that remains committed to our community, and this measure will encourage the formation of new businesses and competition.

Your Committee has amended this measure by clarifying the types of employment contracts and agreements that certain noncompete or nonsolicit clauses that are prohibited from applying to licensed physicians or employees of technology businesses.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3126, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3126, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2574      Judiciary and Labor on S.B. No. 2913**

The purpose and intent of this measure is to apply the offense of false labeling of Hawaii-grown coffee to:

- (1) All Hawaii-grown coffee, rather than only Hawaii-grown green coffee, cherry coffee, or parchment coffee; and
- (2) Any coffee that is mislabeled in regard to the grade standard requirements of rules adopted under chapter 147, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Farm Bureau; Hawaii Coffee Association; Hawaii Coffee Growers Association; Greenwell Farms; Dole Waialua Estate Coffee and Chocolates; Kona Mountain Coffee, LLC; and four individuals.

Your Committee finds that Act 328, Session Laws of Hawaii 2012, established stricter criminal penalties for falsely labeled Hawaii-grown cherry, parchment, and green coffee with regard to geographic origin. Unfortunately, the shortage of Hawaii-grown coffee caused by the coffee berry borer has increased the temptation to engage in coffee counterfeiting. Therefore, this measure applies the offense of false labeling of Hawaii-grown coffee to all types of Hawaii-grown coffee and specifies that the offense includes Hawaii-grown coffee that is falsely labeled with regard to the grade standard requirements.

Your Committee has amended this measure by adopting the language suggested by the Department of Agriculture to:

- (1) Reinstate language that applies the offense of false labeling of Hawaii-grown coffee to green coffee, cherry coffee, and parchment coffee and additionally applying the offense to false labeling of natural coffee, roasted coffee, and instant coffee;
- (2) Clarify that Hawaii-grown coffee may be falsely labeled with regard to geographic origin, grade standard classification, or use of geographic origin in the labeling of roasted or instant coffee if the green coffee beans used in the roasted or instant coffee do not meet grade standard classifications;
- (3) Reinstate the definitions of "cherry coffee", "green coffee", and "parchment coffee";
- (4) Add definitions of "instant coffee", "natural coffee", and "roasted coffee"; and
- (5) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2913, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2575     Judiciary and Labor on S.B. No. 2763**

The purpose and intent of this measure is to:

- (1) Require the Board of Education to hold no less than six community meetings each year; provided that at least one meeting shall be held in each county;
- (2) Require the Board of Education to allow an open forum for public testimony on items not on a public meeting agenda if certain requirements are met;
- (3) Sunset the open forum requirement on June 30, 2019; and
- (4) Require the Board of Education to report to the Legislature prior to the convening of the Regular Session of 2015 on its efforts to amend its policies to include an open forum at the end of its meeting agenda.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Community Children's Council of Hawaii; Special Education Advisory Council; and six individuals. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that this measure increases the opportunities for all stakeholders to effectively communicate with the Board of Education. However, your Committee notes the concerns raised by the Office of Information Practices regarding the open forum requirement that allows the Board of Education to allow public testimony on items that are not on a public meeting agenda under certain conditions. The Office of Information Practices testified that these open forum opportunities could be used to intentionally subvert the spirit of the Sunshine Law and may cause delays and difficulties for the Board of Education to conduct its necessary business.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2763, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2763, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2576     (Joint) Public Safety, Intergovernmental and Military Affairs and Ways and Means on S.B. No. 2620**

The purpose and intent of this measure is to allow works of art that are acquired using monies from the works of art special fund to be exhibited and maintained in public buildings, including federal, state, and county buildings.

Your Committees received testimony in support of this measure from the State Foundation on Culture and the Arts and one individual. Your Committees received testimony in opposition to this measure from the Department of Transportation and American Institute of Architects.

Your Committees find that allowing works of art that are procured by monies from the works of art special fund to be displayed in public buildings will increase appreciation for art and broaden the viewing audience, particularly for the neighbor islands.

Your Committees note the concerns expressed by the Department of Transportation that any capital improvement construction appropriation contributed by the Department of Transportation's Airports Division to the works of art special fund that is not solely used to enhance airport facilities would be considered a "revenue diversion", in violation of the Federal Aviation Administration's regulations.

Accordingly, your Committees have amended this measure by inserting an effective date of July 1, 2020, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2620, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2620, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Ways and Means

Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Ruderman).

**SCRep. 2577     Commerce and Consumer Protection on S.B. No. 2365**

The purpose and intent of this measure is to limit the reimbursement payments of prescription medications, including relabeled or repackaged prescription medications, in workers' compensation claims.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Human Resources Development; City and County of Honolulu, Department of Human Resources; The Chamber of Commerce of Hawaii; Hawaii Medical Association; Hawaii Insurers Council; Hawaiian Electric Company, Inc.; and Property Casualty Insurers Association of America. Your Committee received comments on this measure from Automated HealthCare Solutions and Work Injury Medical Association of Hawaii.

Your Committee finds that Hawaii's existing reimbursement rates for pharmaceuticals in workers' compensation claims are among the highest in the nation for brand and generic products. Existing administrative rules allow pharmaceuticals to be charged to insurance carriers at up to one hundred forty percent of the average wholesale price listed in the Red Book: Pharmacy's Fundamental Reference. However, existing statute and administrative rules do not address the reimbursement of repackaged, relabeled, or compound medications. As a result, third-party companies are able to buy prescription drugs in bulk; repack, relabel, or compound the medications; and attach their own National Drug Code to the repackaged, relabeled, or compound medications with average wholesale prices that are higher than the average wholesale prices of the original manufacturers. Insurance carriers are then billed at one hundred forty percent of the higher average wholesale price, which results in higher charges.

Your Committee further finds that this measure clarifies reimbursement rates for repackaged, relabeled, and compounded medications. Until recently, the Department of Labor and Industrial Relations was handling over two thousand billing disputes involving the correct payments for prescription repackaged, relabeled, and compounded medications. Clarifying these reimbursement rates will assist the Department in reducing the amount of these billing disputes.

Your Committee has amended this measure by moving the provisions limiting reimbursement payments of prescription medication from section 386-21, Hawaii Revised Statutes, to a new section in chapter 386, Hawaii Revised Statutes, and further amending this measure by:

- (1) Setting the payment for all forms of prescription drugs and compounded medications and the reimbursement for all pharmaceutical claims for repackaged or relabeled drugs or compound medications at an unspecified percentage of the average wholesale price, rather than at one hundred forty percent of the average wholesale price;
- (2) Specifying that payment for a prescription drug that is not available at a retail pharmacy within the State shall not be reimbursable;
- (3) Removing language that stated the Director of Labor and Industrial Relations may limit reimbursement of a specific prescription drug not available at a major retail pharmacy and deleting a definition of "major retail pharmacy";
- (4) Removing language that stated reimbursement for over the counter medications dispensed by a licensed practitioner shall be one hundred twenty percent of the average wholesale price set by the original manufacturer of the dispensed prescription drug;
- (5) Adding a definition of "equivalent generic drug product";
- (6) Inserting language to clarify that the fees for injuries covered by personal injury protection benefits under section 431:10C-308.5, Hawaii Revised Statutes, shall not exceed the charges permissible under section 386-21, Hawaii Revised Statutes, or the new section in chapter 386, Hawaii Revised Statutes;
- (7) Updating the purpose section for clarity;
- (9) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2365, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2365, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

**SCRep. 2578      Judiciary and Labor on S.B. No. 2347**

The purpose and intent of this measure is to prevent the spread of pests across the State by:

- (1) Requiring nursery stock that is infested with certain pests to be treated for eradication of pests before the sale or transport of the nursery stock from one island to another island within the State or intransit;
- (2) Requiring an element of gross negligence, rather than intent, for a violation of section 150A-6(3) or (4), Hawaii Revised Statutes, relating to the importation, possession, or transportation of certain animals, plants, or equipment that is harmful to agriculture, horticulture, animals, public health, or natural resources; and
- (3) Eliminating the element of intent to propagate, sell, or release from the penalty for transporting, harboring, or importing prohibited animals or restricted plants, animals, or microorganisms without a permit and from the penalty for importing, possessing, harboring, transferring, or transporting any designated pest.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, Oahu Invasive Species Committee, Maui Invasive Species Committee, Molokai/Maui Invasive Species Committee, Airlines Committee of Hawaii, Outrigger Hotels Hawaii, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Farm Bureau; Hawaii Export Nursery Association; Hawaii Floriculture and Nursery Association; Kauai Nursery & Landscaping, Inc.; and four individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of the Attorney General.

Your Committee finds that pests, such as the coqui frog and little fire ant, are threatening Hawaii's delicate ecosystem and must be controlled. This measure requires that pests be eradicated before they are sold or transported in the State so that destructive pests are not able to infest the Hawaiian islands.

Your Committee notes the concerns raised by the Department of the Attorney General regarding requiring the criminal state of mind of gross negligence for a person violating section 150A-6(3) or (4), Hawaii Revised Statutes, and eliminating the intent to propagate, sell, or release with regard to prohibited animals and restricted plants. However, your Committee recognizes the pervasive problem of

pest infestation in Hawaii and the potential economic, environmental, and public health problems that such infestations may cause if not adequately controlled or prevented. Thus, your Committee believes that the issue regarding mens rea merits further discussion as this measure moves through the legislative process and encourages the Department of the Attorney General to develop language that would address the Department's concerns.

Your Committee further notes that this measure addresses pest eradication of nursery stock, but believes that a comprehensive intransland quarantine program is necessary to control the continued reintroduction of pests. Thus, your Committee believes that inserting certain parts of S.B. No. 2607 (2014), into this measure will assist the Department of Agriculture in providing a more comprehensive pest prevention and eradication program across the State.

Your Committee has amended this measure by:

- (1) Inserting certain sections of S.B. No. 2607 (2014), to establish a comprehensive intransland quarantine program to control the spread of pests within the State that:
  - (A) Prohibits a person from moving any regulated article intrastate from any quarantined area;
  - (B) Specifies the types of regulated articles that are prohibited from intrastate movement;
  - (C) Requires the Department of Agriculture to quarantine each portion of the State that is infested and sets guidelines for the Department to designate and terminate designation of quarantined areas;
  - (D) Establishes conditions for the movement of regulated articles from quarantined areas that are established by the Department of Agriculture;
  - (E) Authorizes an inspector to issue a certificate or limited permit for the intrastate movement of a regulated article approved under a compliance agreement if certain conditions are met;
  - (F) Requires the Department of Agriculture to develop and implement a comprehensive and effective interisland quarantine program, including the use of compliance agreements patterned after specific federal regulations;
  - (G) Allows any person who grows, handles, or moves regulated articles intrastate to enter into a compliance agreement with the Department of Agriculture;
  - (H) Authorizes an inspector to cancel any certificate, limited permit, or compliance agreement in the event of noncompliance by the holder of a certificate or limited permit or person who entered into a compliance agreement, and allows such person to appeal the cancellation of the certificate, limited permit, or compliance agreement;
  - (I) Establishes requirements for the attachment and disposition of the certificates and limited permits;
  - (J) Establishes within the Department of Agriculture a little fire ant and coqui frog detection, control, exclusion, and enforcement programs for nurseries producing containerized plants to keep nurseries free of the little fire ant and coqui frog and provide a basis to certify containerized nursery stock for intrastate movement;
  - (K) Establishes requirements and procedures for the little fire ant and coqui frog detection, control, exclusion, and enforcement programs for nurseries producing containerized plants;
  - (L) Authorizes the counties to establish their own requirements by ordinance to prevent the introduction of infested, regulated articles that are consistent with law and rules until the Department of Agriculture implements this measure; and
  - (M) Establishes a fine equal to the value of shipment of \$10,000, whichever is greater, for any person who moves infested regulated articles intrastate; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2347, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2347, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2579      Judiciary and Labor on S.B. No. 2726**

The purpose and intent of this measure is to:

- (1) Require an all-terrain vehicle (ATV) or utility-terrain vehicle (UTV) to be operated if:
  - (A) The ATV or UTV is used as farm equipment;
  - (B) The ATV or UTV is operated on a street in conjunction with use as farm equipment;
  - (C) The operator holds a current category (3) license or a commercial driver's license; and
  - (D) The operator and passengers wear safety helmets secured with a chin strap;
- (2) Add definitions of "all-terrain vehicle", "farm equipment", and "utility-terrain vehicle"; and
- (3) Establish a fine of \$250 for a violation.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau, Maui County Farm Bureau, and Hawaii Cattlemen's Council, Inc. Your Committee received testimony in opposition to this measure from the Department of Transportation; Police Department, City and County of Honolulu; and Police Department, County of Maui.

Your Committee finds that ATVs and UTVs are important vehicles for farmers and ranchers to traverse through rough terrain. Since farms and ranches are often separated by sections of public roadways, this measure allows ATVs and UTVs to be operated as farm equipment on streets while establishing operating guidelines to ensure safety.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Hawaii Cattlemen's Council to add that the ATV or UTV shall be:
  - (A) Driven on streets that are no more than two lanes with posted speed limits of no more than thirty-five miles per hour;
  - (B) Used to travel between properties zoned for agriculture;
  - (C) Used in counties with populations of less than five hundred thousand residents; and
  - (D) Driven on streets during daylight hours;
- (2) Allowing, rather than requiring, for the operation of an ATV and UTV as farm equipment on a street; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2726, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2726, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Solomon).

**SCRep. 2580      Judiciary and Labor on S.B. No. 2608**

The purpose and intent of this measure is to:

- (1) Make it unlawful for any law enforcement agency, state or local public agency, person, or entity to use an unmanned aircraft to gather information, including but not limited to images, photographs, or recordings, except under specified circumstances; and
- (2) Requires all law enforcement agencies using unmanned aircrafts and the courts to report on their activities relating to unmanned aircrafts.

Your Committee received testimony in support of this measure from the Department of Transportation, American Civil Liberties Union of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc.; The Nature Conservancy; Hawaii Farm Bureau; Hawaii Goes Fishing; and thirty-one individuals. Your Committee received comments on this measure from the Department of Defense; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Remote Control Flight Leadership Initiative; and one individual.

Your Committee finds that unmanned aircraft technology is rapidly developing. The Federal Aviation Administration Modernization and Reform Act of 2012 (Public Law 112-95 (2012)) requires the Federal Aviation Administration (FAA) to "accelerate the integration of civil unmanned aircraft systems into the national airspace system". Unmanned aircraft technology offers more efficient and cost saving methods to gather information, but this new and innovative technology may also provide opportunities for abuse. While recognizing the progressive opportunities that unmanned aircrafts provide, your Committee also recognizes the duty to protect Hawaii residents from threats to their constitutional right to privacy. This measure ensures that unmanned aircraft technology is used strictly to assist or benefit Hawaii residents and not used in a manner that will impede their right to privacy.

Your Committee notes the concerns raised in written testimony that this measure may prohibit the use of model aircraft for hobby and recreational purposes. Written testimony indicates that the FAA Modernization and Reform Act recognizes and provides an exemption for the use of model aircrafts. Accordingly, your Committee believes that this measure should exclude model aircrafts that are used for hobby or recreational purposes.

Your Committee further notes the concerns raised in written testimony that this measure may prohibit the use of unmanned aircrafts to capture images or photos to be used for commercial purposes. An exemption was requested for persons who use unmanned aircrafts for commercial purposes. However, your Committee recognizes that the FAA has been mandated by the United States Congress to research and develop a regulatory scheme for the commercial use of unmanned aircrafts. As a result, your Committee believes that it would be prudent to wait for the findings from the FAA before regulating the commercial use of unmanned aircrafts, in order to align state law with federal law.

Your Committee has amended this measure by:

- (1) Amending the purpose section to acknowledge that the FAA has been mandated by the United States Congress to research and develop a regulatory scheme for the commercial use of unmanned aircrafts and it is the intent of the Legislature to wait for the findings from the FAA before regulating the commercial use of unmanned aircrafts;
- (2) Adding a definition of "model aircraft";
- (3) Limiting the scope of and clarifying the prohibited use of unmanned aircrafts to law enforcement agencies or state or local public agencies that use unmanned aircrafts to conduct surveillance, including but not limited to capturing images, photographs, or recordings;
- (4) Exempting the use of model aircrafts for hobby or recreational purposes from the prohibition;

- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2608, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2608, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Galuteria).

**SCRep. 2581 Judiciary and Labor on S.B. No. 2591**

The purpose and intent of this measure is to:

- (1) Require the chief of each county police department to submit a report to the Legislature by January 31 of each year covering misconduct incidents that resulted in suspension or discharge of a police officer during the calendar year immediately prior to the year of the report submission;
- (2) Specify the information each report must contain, including updated information from previous reports; and
- (3) Require the county police departments to retain the disciplinary records in accordance with their respective record retention policies or for at least six months after the final report concerning that incident, whichever period is longer.

Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that for over a decade, the only public information available concerning final suspensions of police officers has been the annual report to the Legislature, required by section 52D-3.5, Hawaii Revised Statutes. However, these reports provide minimal detail. This measure improves the applicability of section 52D-3.5, Hawaii Revised Statutes, and creates a more informed public dialogue about misconduct by police officers.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2591, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2591, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 2582 Judiciary and Labor on S.B. No. 2270**

The purpose and intent of this measure is to confer on a property owner a private right of action and allows the property owner to file suit directly in circuit court to enforce zoning violations on neighboring properties that directly affect them.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Mayor, County of Maui; Planning Department, County of Kauai; Department of Planning and Permitting, City and County of Honolulu; Planning Department, County of Hawaii; Department of Planning, County of Maui; Hawaii Association of REALTORS; and Hawaii Rifle Association.

Your Committee finds that counties may not be able to take action to investigate and enforce every operation that violates county zoning ordinances. The lack of enforcement of zoning laws imposes a burden on neighboring property owners, which is an unfair imposition on their quality of life. This measure seeks to improve the application of section 46-4, Hawaii Revised Statutes, and provide aggrieved property owners with a private right of action to enforce zoning violations in court, without having to wait until relevant issues are resolved by an administrative body first or exhaust administrative remedies first.

Your Committee notes the concerns raised in written testimony in opposition to this measure that allowing a property owner a private right of action to enforce zoning violations has the potential to create situations that may pit neighbor against neighbor and could lead to abuse by neighbors. Thus, your Committee believes that the scope of the private right of action be limited to enforce zoning violations related to transient vacation rentals on neighboring properties.

Accordingly, your Committee has amended this measure by:

- (1) Limiting the scope of a property owner's private right of action to the enforcement of zoning violations related to transient vacation rentals on a neighboring property that directly affect the property owner;
- (2) Allowing the court to award attorney's fees and other reasonable expenses incurred to the prevailing party of the private right of action; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2270, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2270, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Galuteria, Solomon).

**SCRep. 2583      Judiciary and Labor on S.B. No. 2064**

The purpose and intent of this measure is to entitle injured employees to up to twenty visits for psychological and psychiatric services under workers' compensation and require such visits to take place over a sixty-day period.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO; and Work Injury Medical Association of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development; Department of Labor and Industrial Relations; Department of Human Resources, City and County of Honolulu; Hawaii Insurers Council; The Chamber of Commerce of Hawaii; and Hawaiian Electric Company Inc.

Your Committee finds that providing injured employees with psychological or psychiatric services can help prevent addiction, drug diversion, chronic pain, post-traumatic stress disorder, major depressive disorder, and other psychological and psychiatric issues. However, your Committee notes the concerns raised by the Department of Human Resources Development that allowing up to twenty visits for psychological and psychiatric services over a sixty-day period is costly and would require the Department to increase its reserves to account for such costs. Furthermore, the Department of Labor and Industrial Relations testified that existing administrative rules allow physicians, including psychiatrists and psychologists, an initial fifteen treatments of the injury during the first sixty calendar days without prior authorization. If the physician believes that additional treatment is warranted, the physician is required to submit a treatment plan to the employer or carrier to request up to fifteen additional treatments within a one hundred twenty calendar day period.

Accordingly, your Committee has amended this measure by:

- (1) Changing the number of visits for psychological and psychiatric services under workers' compensation from twenty visits to seventeen visits over a sixty-day period;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2064, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2064, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 2584      Judiciary and Labor on S.B. No. 2032**

The purpose and intent of this measure is to:

- (1) Add intentionally or knowingly causing bodily injury to medical services providers to the offense of assault in the second degree; and
- (2) Expand the protections under the offense of assault in the second degree to include medical services providers who work in medical clinics and federally qualified health centers.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association; The Queen's Health Systems; Kaiser Permanente Hawaii; Healthcare Association of Hawaii; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that health care workers have faced increased risks of job-related violence in recent years. Given the increased risk of serious assaults occurring in health care settings, your Committee further finds that the legal protections currently afforded to health care workers in emergency departments should be extended to medical services providers in medical clinics and federally qualified health centers. In light of the recent reports of health care workers sustaining injury at work, your Committee requested the Healthcare Association of Hawaii to submit data to support the necessity of this measure.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2032, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2032, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Gabbard).

**SCRep. 2585      Judiciary and Labor on S.B. No. 651**

The purpose and intent of this measure is to prohibit smoking in and around public housing projects and state low-income housing projects under the jurisdiction of the Hawaii Public Housing Authority and in and around elder or elderly households.

Your Committee received testimony in support of this measure from the Department of Health, Coalition for a Tobacco-Free Hawaii, and five individuals. Testimony in opposition to this measure was submitted by thirteen individuals. Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that there are many hazards caused by involuntary exposure to tobacco smoke, including lung cancer, coronary heart disease, and stroke. In addition, secondhand smoke can cause lung problems, ear infections, asthma, and sudden infant death syndrome. The United States Surgeon General has found that there is no safe level or amount of exposure to secondhand smoke.

This measure assists in providing secondhand smoke-free environments for families by prohibiting smoking in and around public housing projects, state low-income housing projects, and elder or elderly households.

Your Committee has amended this measure by adopting language suggested by an individual to include sidewalks in the definition of "common areas".

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 651, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2586 Judiciary and Labor on S.B. No. 632**

The purpose and intent of this measure is to:

- (1) Establish environmental courts as divisions within the circuit courts to hear all proceedings, including certain chapter 91, Hawaii Revised Statutes, proceedings arising from environmental laws; and
- (2) Require the Judiciary to report to the Legislature prior to the Regular Session of 2015 on the total number of environmental-related cases filed in the last five years.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Americans for Democratic Action/Hawaii, International Coastal Cleanup, Keep America Beautiful, Keep the Hawaiian Islands Beautiful, Waianae Coast Neighborhood Board No. 24, The Outdoor Circle, and eleven individuals. Testimony in opposition to this measure was submitted by the Land Use Research Foundation of Hawaii, General Contractors Association of Hawaii, Hawaii Farm Bureau, and The Chamber of Commerce of Hawaii. Your Committee received comments on this measure from the Judiciary, Department of Land and Natural Resources, Office of Planning, and one individual.

Your Committee finds that environmental disputes are currently dealt with in a variety of courts. This organizational structure inadvertently promotes inefficiency and inconsistent application of the wide variety of environmental laws. The continued maintenance and improvement of Hawaii's environment require constant vigilance and continued stewardship to ensure its lasting beauty, cleanliness, and uniqueness and the stability of its natural systems, all of which enhance the mental and physical well-being of Hawaii's people.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Land and Natural Resources to include within the jurisdiction of the environmental court those proceedings arising under chapters 6D, 6E, and 6K, and title 12 of the Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 632, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 632, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2587 Judiciary and Labor on S.B. No. 72**

The purpose and intent of this measure is to establish a medical or compassionate release pilot program for certain ill, disabled, and geriatric inmates who pose a low risk to public safety. Specifically, this measure:

- (1) Requires the Department of Public Safety to assess and refer inmates to the Hawaii Paroling Authority for possible medical release;
- (2) Allows an inmate to be considered for medical release at the request of the Director of Public Safety, the inmate, or the inmate's representative if the inmate meets specified criteria;
- (3) Requires the Hawaii Paroling Authority to:
  - (A) Grant or deny the request after a hearing;
  - (B) Set reasonable conditions on an inmate's medical release; and
  - (C) Promptly order an inmate to be returned to custody to await a revocation hearing if the Authority receives credible information that an inmate has failed to comply with any reasonable conditions of medical release; and
- (4) Sunsets the pilot program on June 30, 2016.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawaii, Community Alliance on Prisons, The Drug Policy Action Group, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Hawaii Paroling Authority and Hawaii Substance Abuse Coalition.

Your Committee finds that compassionate medical release programs for inmates provide relief to prison systems dealing with an increasingly older population subject to more medical issues and higher treatment costs. Releasing inmates who are found to pose no

or little risk to public safety could save the State millions of dollars in health care costs, relieve prison overcrowding, and offer a more dignified and humane death to those who would otherwise die in prison.

Your Committee notes the concerns raised in the written testimony submitted by the Department of Public Safety regarding the language in this measure that requires the Director of Public Safety to appoint an advocate to act on behalf of any inmate who requests medical release and who is unable, due to incapacitation or debilitation, to advocate on the inmate's own behalf. The Department testified that requiring the appointment of an advocate is unnecessary because the Department has physicians to make release recommendations under such conditions. Furthermore, this measure requires the Department to submit a medical release report to the Hawaii Paroling Authority within twenty days of receiving a request for medical release. The Department testified that due to the limited number of physicians, the twenty-day timeframe to submit a medical release report is not feasible. Lastly, the Hawaii Paroling Authority testified that it already has an existing administrative process to hear requests for medical release and that the required hearing proposed in this measure is duplicative and unnecessary.

Accordingly, your Committee has amended this measure by:

- (1) Extending the time period within which the Department of Public Safety must submit a medical release report to the Hawaii Paroling Authority from twenty days to forty-five days;
- (2) Adopting the suggestion made by the Hawaii Paroling Authority to delete language that requires the Authority to conduct a hearing on all requests for medical release;
- (3) Adopting the suggestion made by the Department of Public Safety to delete the language that requires the Director of Public Safety to appoint an advocate to act on behalf of any inmate who requests medical release and who is incapacitated or debilitated and therefore cannot advocate on the inmate's own behalf;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 72, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 72, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 2588      Judiciary and Labor on S.B. No. 2822**

The purpose and intent of this measure is to authorize the Department of Commerce and Consumer Affairs to conduct criminal history record checks on real estate appraiser license applicants, as required by federal law.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, and one individual.

Your Committee finds that pursuant to Title XI of the federal Financial Institutions Reform, Recovery and Enforcement Act of 1989, the Appraiser Qualifications Board has the authority to establish the qualification criteria for state licensing, certification, and recertification of real property appraisers. Your Committee further finds that the Appraiser Qualifications Board has adopted a requirement that all candidates for real property appraiser credentials must undergo background screening, a requirement that each state must implement no later than January 1, 2015. This measure permits the Department of Commerce and Consumer Affairs to conduct criminal background checks on real estate appraiser license applicants, thereby complying with federal law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2822, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Solomon).

**SCRep. 2589      Judiciary and Labor on S.B. No. 2420**

The purpose and intent of this measure is to allow the State and counties to perform criminal history record checks on:

- (1) Employees, prospective employees, volunteers, and contractors whose positions allow them unescorted access to secured areas and equipment related to a traffic management center;
- (2) Employees and prospective employees whose positions involve the handling or use of firearms for other than law enforcement purposes; and
- (3) Current and prospective systems analysts and others involved in an agency's information technology operation whose positions allow them access to proprietary, confidential, or sensitive information.

Your Committee received testimony in support of this measure from the Department of Human Resources Development; Department of Transportation; Department of Human Resources, City and County of Honolulu; Police Department, City and County of Honolulu; and Hawaii Rifle Association. Your Committee received comments on this measure from the Hawaii Civil Rights Commission.

Your Committee finds that it is important for employers to be able to determine the employment suitability of current and prospective employees. Certain job duties and responsibilities make the need to determine employment suitability particularly crucial and may warrant additional evaluation of the current or prospective employee. One tool that is useful to assess employment suitability

is criminal history record checks. This measure authorizes the State and counties to access criminal history record information for additional groups of employees and prospective employees.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2420, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Solomon).

**SCRep. 2590 Judiciary and Labor on S.B. No. 2386**

The purpose and intent of this measure is to:

- (1) Establish the offense of advertising the sale of stolen property; and
- (2) Make conforming amendments to section 708-834, Hawaii Revised Statutes, to include the offense of advertising the sale of stolen property and make other clarifying amendments.

Your Committee received testimony in support of this measure from seven individuals.

Your Committee finds that victims of property theft often find their belongings advertised for sale in various locations such as the Internet. This measure would criminalize the advertisement of stolen property and would make the advertisement for the sale of such stolen property equivalent to the grade of offense as theft of the property advertised for sale. Your Committee further finds that this measure will afford additional protection to consumers by reducing the occurrence of stolen goods being advertised for sale.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2386, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Galuteria, Solomon).

**SCRep. 2591 Judiciary and Labor on S.B. No. 2367**

The purpose and intent of this measure is to clarify chapter 806D, Hawaii Revised Statutes, by:

- (1) Amending the definition of "recipient" to clarify that an out-of-state recipient who is issued criminal process must have conducted business or engaged in transactions or activities occurring at least in part in Hawaii;
- (2) Clarifying that criminal process issued by or in another state:
  - (A) May be served upon a person or business located in Hawaii, but not a government agency;
  - (B) Is for the production of records in the actual or constructive possession of that person or business located in Hawaii; and
  - (C) Is based on a pending criminal investigation or prosecution in that other state;
- (3) Specifying the circumstances under which certain persons or businesses located in Hawaii may be served criminal process issued by or in another state; and
- (4) Specifying the information the service of criminal process issued by or in another state must include.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; and Police Department, City and County of Honolulu.

Your Committee finds that Act 325, Session Laws of Hawaii 2012, codified as chapter 806D, Hawaii Revised Statutes, created a criminal long arm statute to authorize Hawaii courts to order the production of records, including electronic records, held by entities outside of the State for criminal matters. Prior to the enactment of chapter 806D, Hawaii Revised Statutes, out-of-state entities could not be compelled to comply with service of process in criminal matters issued by Hawaii courts. However, as the Department of the Attorney General notes in testimony, several issues have arisen out of this law, including a lack of a nexus requirement between a Hawaii recipient of process and the service-issuing state, confusion regarding the use of certain terms, and the potential for other states to issue process in an attempt to compel government agencies to disclose protected records. This measure corrects these issues and improves the application of the criminal process records law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2367, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Galuteria).

**SCRep. 2592 (Joint/Majority) Economic Development, Government Operations and Housing and Water and Land and Agriculture and Ways and Means on S.B. No. 112**

The purpose and intent of this measure is to:

- (1) Establish the Whitmore project facility revenue bond special fund into which proceeds from revenue bonds shall be deposited for purchasing certain parcels of land from Dole Food Company, Inc.; and
- (2) Appropriate funds to acquire certain lands from Dole Food Company, Inc.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation; The Trust for Public Land; Wahiawa Community and Business Association; Hawaii Agriculture Research Center; Hawaii Cattlemen's Council;

Sugarland Growers, Inc.; Hawaii Farm Bureau; and one individual. Your Committees received testimony in opposition to this measure from five individuals.

Your Committees find that there is a need to further develop a centralized hub for agricultural operations in central Oahu that includes commercial farming, packing, processing, workforce housing, food safety, education, marketing, agro-tourism, manufacturing, and other related activities. Furthermore, the purchase of certain lands in central Oahu from Dole Food Company, Inc., will provide the State with prime agricultural land, watershed lands that produce drinking water, lands that are the scenic gateway to the North Shore, and lands that are an important habitat for dozens of endangered and threatened plant and animal species.

As affirmed by the records of votes of the members of your Committees on Economic Development, Government Operations and Housing, Water and Land, Agriculture, and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 112, S.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Economic Development, Government Operations and Housing

Water and Land  
Ayes, 8. Noes, 1 (Slom). Excused, none.

Agriculture  
Ayes, 5. Noes, 1 (Slom). Excused, 1 (English).

Ways and Means  
Ayes, 11. Noes, 1 (Slom). Excused, 1 (English).

**SCRep. 2593      Judiciary and Labor on S.B. No. 2408**

The purpose and intent of this measure is to amend the offense of habitually operating a vehicle under the influence of an intoxicant by:

- (1) Including within the definition of “habitual operator of a vehicle while under the influence of an intoxicant”, violators who are convicted one or more times for offenses of habitually operating a vehicle while under the influence of an intoxicant; and
- (2) Amending the definition of “convicted three or more times for offenses of operating a vehicle under the influence”.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; Police Department, County of Maui; Police Department, City and County of Honolulu; and one individual. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that under existing law, a prior felony conviction for habitually operating a vehicle under the influence of an intoxicant (HOVUII) under section 291E-61.5, Hawaii Revised Statutes, is treated the same as a prior petty misdemeanor conviction for operating a vehicle under the influence of an intoxicant (OVUII) under section 291E-61, Hawaii Revised Statutes, for the purposes of triggering a subsequent HOVUII charge. As a result, a loophole exists when an individual committing the offense of OVUII after being convicted of the offense of HOVUII, within ten years of the current offense, may not have the same status as a habitual operator of a vehicle while under the influence of an intoxicant unless there were at least two more convictions of HOVUII, OVUII, or a combination of both within the applicable ten year period. Accordingly, this measure assists in the appropriate enforcement and oversight of these offenses and ensures that the definition of “habitual operator of a vehicle while under the influence of an intoxicant” accurately reflects the intent of the law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2408 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2594      (Majority) Judiciary and Labor on S.B. No. 2881**

The purpose and intent of this measure is to repeal the sunset date of a provision that exempts government agencies from making government records available to or responding to duplicative requests made by the same person under certain conditions.

Your Committee received testimony in support of this measure from the Department of the Business, Economic Development, and Tourism; Department of Health; and Office of Information Practices. Your Committee received comments on this measure from one individual.

Your Committee finds that prior to July 2010, the Uniform Information Practices Act did not provide an exception to a government agency’s obligation to respond to a public record request made pursuant to chapter 92F, Hawaii Revised Statutes, even if the government agency had already responded to the same request one or more times. The Office of Information Practices testified that duplicative requests made by a single person are a longstanding source of frustration for government agencies. For example, the Department of Health received a high volume of duplicative requests relating to President Obama’s birth certificate. As a result, Act 100, Session Laws of Hawaii 2010 (Act 100), provided government agencies an exemption from responding to duplicative record requests from the same person if the government agency already properly responded to the same or substantially similar record requests by the same person within the past year and the government agency’s response remained unchanged. Act 100 is scheduled to sunset on July 1, 2014.

The Office of Information Practices testified that during the three-and-a-half years that Act 100 has been in effect, the Office is not aware of any significant negative effects on a record requester's ability to obtain access to government records. Furthermore, the Office is not aware of any appeals involving a complaint about a government agency's use of this exception. Thus, this measure repeals the sunset date of the exception to make this exception permanent.

Your Committee notes the comments made by an individual regarding limiting the scope of the exception to non-Hawaii residents only and thus allowing Hawaii residents to send duplicative requests for government records. This individual testified that in *McBurney v. Young*, 133 U.S. 1709 (2012), the United States Supreme Court held that Virginia's citizens-only Freedom of Information Act provision did not violate the Privileges and Immunities Clause and the Dormant Commerce Clause. Your Committee believes that the idea of applying the duplicative request exception to non-Hawaii residents merits further discussion as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by inserting an effective date of June 30, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2881, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2881, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, 2 (Galuteria, Solomon).

**SCRep. 2595      Judiciary and Labor on S.B. No. 2682**

The purpose and intent of this measure is to require public disclosure of financial disclosure statements filed by paid state board or commission members who have original terms of office for a period exceeding one year, have functions that are not solely advisory, and serve on boards or commissions that are authorized to approve contracts or expenditures valued at more than \$1,000,000.

Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission. The Hawaii Strategic Development Corporation and Public Utilities Commission submitted comments.

Your Committee finds that this measure increases public disclosure to identify conflicts of interest. The Hawaii State Ethics Commission testified that there are approximately one thousand eight hundred state employees and members of state boards and commissions that are required to file annual financial disclosure statements with the Commission. Of this total, approximately one hundred eighty employees' disclosure statements are required to be made available for public inspection and duplication. Due to the sheer volume of these filings, the Commission testified that its ability to identify potential conflicts of interest is limited. As a result, members of the public, especially those who are involved with and may be impacted by a board or commission member's action, are best able to identify and raise concerns about possible conflicts of interest.

Your Committee recognizes the concerns raised by the Hawaii State Ethics Commission that the language in this measure is unclear. The Commission testified that it is unsure as to which boards are intended to be captured by this measure because there are only three state boards and commissions whose members are paid. Furthermore, the Commission was unaware as to which, if any, of these boards or commissions are authorized to expend \$1,000,000 or more. As a result, the Commission recommended that this measure specifically identify the boards or commissions by title.

Accordingly, your Committee has amended this measure by requiring the financial disclosure statements of the commissioners of the Public Utilities Commission to be made available for public inspection and duplication.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2682, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2682, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Slom).

**SCRep. 2596      Judiciary and Labor on S.B. No. 2634**

The purpose and intent of this measure is to provide greater transparency by requiring individuals who spend more than \$750 on lobbying during an expenditure statement period to categorize each expenditure by dollar amount and describe the nature and purpose of each expenditure, as determined by the Hawaii State Ethics Commission.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, League of Women Voters of Hawaii, Common Cause Hawaii, and nine individuals.

Your Committee finds that existing law requires the reporting of total lobbying expenditures but does not require that these expenditures be categorized according to their nature and purpose. This measure provides greater transparency regarding the expenditures that are made by lobbyists and lobbying organizations seeking to influence legislative action by requiring the categorization of lobbying expenditures.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Hawaii State Ethics Commission to clarify that each expenditure of a lobbyist or lobbying organization filing an expenditure statement be itemized in specified categories; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2634, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2634, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 2597 Judiciary and Labor on S.B. No. 2452**

The purpose and intent of this measure is to exempt breastfeeding mothers or mothers who are expressing milk from jury duty for up to one year from the time the mother began breastfeeding the child.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; The American Congress of Obstetricians and Gynecologists, Hawaii Chapter; Hawaii Women's Coalition; Healthy Mothers Healthy Babies Coalition of Hawaii; Hawaii Affiliate of the American College of Nurse-Midwives; Planned Parenthood of Hawaii; Breastfeeding Hawaii; Hawaii Dietetic Association; and five individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that according to the Hawaii State Commission on the Status of Women, only one in five children in Hawaii are exclusively breastfed within the first six months of life as recommended by the American Academy of Pediatrics. The World Health Organization recommends that children be exclusively breastfed up to the age of six months then continue to be breastfed up to two years of age to reduce risk of infectious diseases, asthma, allergies, certain childhood cancers, obesity, and diabetes. Furthermore, the Commission testified that twelve states in addition to Puerto Rico have laws that exempt breastfeeding women from jury duty. This measure will allow breastfeeding mothers the opportunity and choice to be exempt from serving jury duty.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2452 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

**SCRep. 2598 (Joint) Technology and the Arts and Water and Land on S.B. No. 2633**

The purpose and intent of this measure is to amend the definition of "historic property" by adding the additional requirement that property shall meet the criteria or possess the characteristics to be entered into the Hawaii Register of Historic Places.

Your Committees received testimony in support of this measure from the Building Industry Association of Hawaii, The Chamber of Commerce Hawaii, Historic Hawaii Foundation, and two individuals. Your Committees received comments on this measure from the Society for Hawaiian Archaeology and Office of Hawaiian Affairs.

Your Committees find that there is a value in preserving and developing the historic and cultural property within the State. Under the existing law, "historic property" includes "any building, structure, object, district, area, or site, including heiau and underwater site, which is over fifty years old." As a result of this broad definition that assumes age is equivalent to historic importance, there are many private residences that must undergo a historic preservation review. This has led to late and outstanding regulatory reviews by the State Historic Preservation Division. This measure seeks to reduce excessive delays and allow the State Historic Preservation Division to focus on residences that are worthy to be placed on the Hawaii Register of Historic Places.

Your Committees have amended this measure by deleting the revised definition of "historic property" and instead inserting language to amend the definition to exclude any private residence that has not been entered, or nominated by the owner of the residence for entry, onto the Hawaii Register of Historic Places.

As affirmed by the records of votes of the members of your Committees on Technology and the Arts and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2633, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2633, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Technology and the Arts

Water and Land

Ayes, 6; Ayes with Reservations (Thielen). Noes, none. Excused, 3 (Dela Cruz, Solomon, Taniguchi).

**SCRep. 2599 (Joint) Public Safety, Intergovernmental and Military Affairs and Water and Land and Ways and Means on S.B. No. 3003**

The purpose and intent of this measure is to establish the County of Niihau under the jurisdiction of the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from three individuals. Your Committees received testimony in opposition to this measure from the Ho'okipa Network – Kauai, Ocean Users and Holoholo Charters, and eight individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of the Attorney General, and one individual.

Your Committees find that Niihau is unique from the rest of the State. In 1959, Niihau was the only island to vote against statehood and Niihau's owners and residents, who primarily speak Hawaiian, are nearly all descendants of natural-born citizens of the Kingdom

of Hawaii. Niihau is confronted with different issues, including concerns regarding fishing rights along the shoreline and the payment and expenditure of property taxes.

Your Committees received testimony from the owners of Niihau expressing concerns that they pay property taxes to the County of Kauai, yet the residents of Niihau do not receive, nor do they ask for, any services in exchange for the property taxes paid. Your Committees find that this issue raises concerns that merit further consideration and that a review of the issues surrounding the establishment of the County of Niihau will be beneficial.

Your Committees have amended this measure by:

- (1) Inserting language to establish a temporary working group in the Department of Land and Natural Resources to examine the issues surrounding the establishment of the County of Niihau and requiring the submittal of a report to the Legislature;
- (2) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs, Water and Land, and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3003, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3003, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2600 (Joint) Agriculture and Commerce and Consumer Protection and Ways and Means on S.B. No. 111**

The purpose and intent of this measure is to require the Board of Agriculture to create labeling requirements through administrative rulemaking for all agricultural commodities in Hawaii beginning July 1, 2015.

Your Committees received testimony in opposition to this measure from Hawaii Farmers Union United, Kanalani Ohana Farm, GMO Free Hawaii, and thirty-eight individuals. Your Committees received comments on this measure from the Department of Agriculture and Hawaii Food Industry Association.

Prior to holding a hearing on this measure, your Committees made available for public review a proposed S.D. 2, which amends this measure by:

- (1) Clarifying that the measure applies to “made in Hawaii” labeling requirements and that rules adopted by the Board of Agriculture relating to “made in Hawaii” labeling requirements shall have the force and effect of law and shall not supersede any state law regarding “made in Hawaii” labeling requirements for agricultural commodities enacted prior to the effective date of this measure;
- (2) Defining ““made in Hawaii” labeling requirements” as the written, printed, or graphic matter on or attached to an agricultural commodity or any of its containers or wrappers that uses the phrase “made in Hawaii” or “produced in Hawaii” or that by any other means represents the geographic origin of the agricultural commodity as being from any place within the State;
- (3) Clarifying that the Department of Agriculture may make rules defining “made in Hawaii” labeling requirements, rather than all labeling requirements, of all agricultural commodities;
- (4) Removing language that would have deleted sections 486-120.5 and 486-120.6, Hawaii Revised Statutes, relating to labeling requirements for macadamia nuts and Hawaii grown roasted or instant coffee;
- (5) Clarifying that “made in Hawaii” labeling requirements adopted by the Board of Agriculture beginning on July 1, 2015, shall apply to fresh and processed agricultural commodities destined for shipment by commercial exporters to points outside the State; and
- (6) Clarifying that section 486-119, Hawaii Revised Statutes, relating to Hawaii-made and Hawaii-processed product labels, shall not apply to the “made in Hawaii” labeling requirements of agricultural commodities determined by the Board of Agriculture through rules.

Your Committees received testimony in support of the proposed S.D. 2 from one individual. Your Committees received testimony in opposition to the proposed S.D. 2 from Kona Coffee Farmers Association, Kona Coffee Association, and five individuals.

Your Committees find that Hawaii-made macadamia nuts and coffees are popular and coveted agriculture commodities that must be safeguarded from consumer fraud and confusion. Although the Legislature has passed laws regulating “made in Hawaii” labels on macadamia nuts and coffees, the Legislature is now receiving requests to pass similar legislation for a number of other specialty crops and agricultural commodities that are grown in Hawaii. Each one of these agricultural commodities requires different “made in Hawaii” labeling requirements and needs to be individually analyzed and assessed. Because this process is time-consuming and requires agricultural expertise, your Committees find that “made in Hawaii” labeling requirements would be better created by the Department of Agriculture through its rulemaking authority.

Members of the public expressed concerns that this measure would override the statutory labeling requirements that are already in effect for agricultural commodities such as macadamia nuts and coffees. Your Committees note the public's concerns and are adopting the proposed S.D. 2 to, among other things, clarify that statutory "made in Hawaii" labeling requirements shall supersede any rules adopted by the Board of Agriculture. In other words, those labeling requirements required by sections 486-120.5 and 486-120.6, Hawaii Revised Statutes, relating to labeling requirements for macadamia nuts and Hawaii grown roasted or instant coffee, shall not be removed or altered by this measure. As for those agricultural commodities not yet regulated by statute, your Committees find that the Board of Agriculture can create "made in Hawaii" labeling requirements more quickly and efficiently than the Legislature and should be given the authority to do so.

Accordingly, your Committees have amended this measure by adopting the proposed S.D. 2 and further amending the measure by:

- (1) Clarifying that retailers, distributors, farmers, producers, and producer-distributors that sell agricultural commodities for purchase or consumption by consumers may, rather than shall, be subject to "made in Hawaii" labeling requirements pursuant to law or adopted by the Board of Agriculture through rules;
- (2) Clarifying that "made in Hawaii" labeling requirements of all agricultural commodities may, rather than shall, be determined by the Board of Agriculture through rules adopted pursuant to Chapter 91, Hawaii Revised Statutes;
- (3) Inserting an appropriation for an unspecified amount to the Department of Agriculture to create "made in Hawaii" labeling requirements for agricultural commodities in Hawaii; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture, Commerce and Consumer Protection, and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 111, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 111, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2601 (Joint) Human Services and Judiciary and Labor on S.B. No. 3012**

The purpose and intent of this measure is to require health care providers to provide medical records free of charge for the purposes of claims or appeals related to a proceeding under any provision of the Social Security Act or for state assistance under the aged, blind, and disabled program.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Healthcare Association of Hawaii, Hawaii Medical Association, and The Queen's Health Systems.

Your Committees find that, under existing law, a health care provider may charge a reasonable amount for the service of providing copies of patient records, but the determination of a reasonable amount does not factor in the patient's economic status or the patient's specific need for the records. Your Committees further find that, by regulation, individuals who qualify for benefits under the Social Security Act or the state aged, blind, and disabled program have almost no income. This measure improves this population's access to personal medical records, which serves the public good and is important for a patient's medical treatment and potential disability application. Your Committees received testimony on this measure expressing concern that providing the medical records at no cost would be too burdensome.

Your Committees have amended this measure by:

- (1) Changing the language to allow health care providers to provide medical records at no cost or to charge a flat fee of \$15.60, or the amount currently approved by the Social Security Administration, whichever amount is greater, for copies of medical records necessary to support a claim or appeal under the Social Security Act;
- (2) Deleting references to a patient's attorney or a patient's authorized representative regarding the option to charge either the flat fee or amount approved by the Social Security Administration to support claims or appeals under the Social Security Act, and to not charge otherwise, for copies of medical records;
- (3) Removing language referencing the state aged, blind, and disabled program; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3012, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3012, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Human Services

Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

Judiciary and Labor  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 2602 (Joint) Human Services and Health on S.B. No. 2718**

The purpose and intent of this measure is to:

- (1) Amend and establish new responsibilities and members for the Hawaii Children's Trust Fund Advisory Board;
- (2) Amend the responsibilities of the Hawaii Children's Trust Fund Coalition; and
- (3) Eliminate the Hawaii Children's Trust Fund Advisory Committee.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Children's Trust Fund, Hawaii Community Foundation, and four individuals.

Your Committees find that the Hawaii Children's Trust Fund provides important input into state planning of child abuse and neglect efforts. Your Committees further find that the Hawaii Children's Trust Fund's decision making and collaboration will be strengthened by clarifying the roles and responsibilities among participating public and private partners through a shift in structure.

Your Committees have amended this measure by:

- (1) Adding language making the Hawaii Children's Trust Fund Advisory Board responsible for advising the Department of Health on matters involving the prevention of child abuse and neglect;
- (2) Adding language making the Hawaii Children's Trust Fund Advisory Board responsible for establishing protocols to foster communication with the Hawaii Children's Trust Fund Coalition on priorities and decisions of the Advisory Board;
- (3) Inserting language requiring that one member of the Hawaii Children's Trust Fund Advisory Board be a representative of the Family Health Services Division of the Department of Health; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that as this measure advances through the legislative process, the following proposed amendments also be considered for adoption:

- (1) Establishing duration of terms, possibly four-year terms, for members of the Hawaii Children's Trust Fund Advisory Board;
- (2) Establishing staggered terms for transitioning members of the Hawaii Children's Trust Fund Advisory Board;
- (3) Determining whether the Hawaii Children's Trust Fund Advisory Board is subject to or exempt from Sunshine Law requirements;
- (4) Changing the name of the Hawaii Children's Trust Fund Advisory Board to the Hawaii Children's Trust Fund Board;
- (5) Adding language to section 350B-4(b)(12), Hawaii Revised Statutes, to include on the Hawaii Children's Trust Fund Advisory Board representatives from Molokai and Lanai, and a second representative from the County of Hawaii so that there is one representative from the East area of Hawaii and another representative from the West area of Hawaii; and
- (6) Changing the wording in section 350B-4(b)(13), Hawaii Revised Statutes, to reference a "parent or consumer advocate" instead of "survivors of child abuse and neglect".

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2718, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2718, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Human Services

Health  
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 2603 (Joint) Human Services and Ways and Means on S.B. No. 149**

The purpose and intent of this measure is to appropriate funds for necessary long-term care services for aging and disabled individuals on Medicaid.

Your Committees received testimony in support of this measure from the Department of Community Services, City and County of Honolulu; Maui County Office on Aging; Catholic Charities Hawaii; Lanakila Pacific; AARP Hawaii; Community Alliance for Mental Health; PHOCUSED; and three individuals. Your Committees received comments on this measure from the Department of Human Services and Executive Office on Aging.

Your Committees find that, as of November 2013, long-term care services for Medicaid beneficiaries are no longer covered by kupuna care or Older Americans Act funds. As a result, hundreds of individuals on the island of Oahu are at risk of losing necessary long-term care services. Your Committees received testimony expressing concern that the funds appropriated in this measure are appropriated to the Department of Human Services instead of the Executive Office on Aging.

Accordingly, your Committees have amended this measure by:

- (1) Adding language that authorizes the Department of Human Services to transfer the appropriated funds to the Executive Office on Aging; provided that the funds are not co-mingled with kupuna care funds;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 149, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 149, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2604 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 451**

The purpose and intent of this measure is to repeal the exclusion of owners or operators of aerial transportation enterprises from the definition of a public utility.

Your Committees did not receive any testimony on this measure.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that:

- (1) Specifies that the Public Utilities Commission is an autonomous agency of the State to be transferred from the Department of Budget and Finance and assigned, for administrative purposes only, to the Department of Commerce and Consumer Affairs;
- (2) Increases the compensation of the Chair and Commissioners of the Public Utilities Commission;
- (3) Clarifies the Public Utilities Commission's authority concerning standard administrative practices, including operational expenditures and the hiring of personnel;
- (4) Enables the Chair of the Public Utilities Commission to appoint and employ an Executive Officer to assist with managing the operations of the Commission;
- (5) Specifies that the Executive Director of the Division of Consumer Advocacy shall be the Consumer Advocate in hearings before the Public Utilities Commission; and
- (6) Appropriates funds for the hiring of the Executive Officer within the Public Utilities Commission.

Your Committees received testimony in support of the proposed S.D. 1 from the Office of the Governor; Department of Budget and Finance; Department of Commerce and Consumer Affairs; Public Utilities Commission; Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; County of Maui, Office of the Mayor; Hawaii Renewable Energy Alliance; Hawai'i Energy Policy Forum; Hawaii Solar Energy Association; Kauai Chamber of Commerce; Life of the Land; Ulupono Initiative; and Puna Pono Alliance. Your Committees received testimony in opposition to the proposed S.D. 1 from Common Cause Hawaii and League of Women Voters of Hawaii.

Your Committees find that the Public Utilities Commission has historically faced challenges in obtaining sufficient resources, in terms of funds for operational requirements and the hiring and retention of personnel. Given the requirements associated with various ongoing initiatives, including renewable energy, energy efficiency, and liquefied natural gas, having a Commission that is able to access needed resources and hire necessary personnel to analyze and support these initiatives is essential.

Your Committees further find that attaching agencies to state departments for administrative purposes is a reflection of the strategic nature and purpose of that agency within the entire department. The statutory responsibility of the Public Utilities Commission, which is currently administratively attached to the Department of Budget and Finance, requires a unique organizational structure and specialized staff and should therefore be administratively attached to a department whose own operational functions more closely align with the operational mission and strategic focus of the Commission. Because the mission of the Department of Commerce and Consumer Affairs is more closely aligned with the mission of the Public Utilities Commission, attaching the Commission to the Department of Commerce and Consumer Affairs for administrative purposes will assist the Commission in obtaining sufficient resources to fulfill the Commission's ever-expanding role in utility policymaking and regulation.

Your Committees additionally find that the proposed S.D. 1 ensures that the Public Utilities Commission is able to request consultation and support from the Department of Commerce and Consumer Affairs, while ensuring the administrative autonomy of the Commission. For the Commission to function effectively, it must have clear authority to manage its own day-to-day operations and functions, without undue interference. The proposed S.D. 1 will help avoid future ambiguity regarding the Commission's autonomy and ability to hire appropriate personnel and make necessary expenditures, thereby enabling the Commission to carry out its various regulatory responsibilities within a legislatively approved budget.

Your Committees also find that the creation of an Executive Officer, as described in the proposed S.D. 1, would be invaluable to the Public Utilities Commission. An Executive Officer would allow the Chairperson of the Commission to focus on the responsibilities of deliberating and making decisions on docketed matters, rather than on overseeing the Commission's day-to-day operational matters. This additional management position is also needed in light of the increasing size and complexity of the Commission's workload.

Your Committees further find that for all practical purposes, the Executive Director of the Division of Consumer Advocacy has been delegated the role of Consumer Advocate in Commission proceedings and acts on behalf of the Director of Commerce and Consumer Affairs. This represents a logical delegation of responsibilities by the Director of Commerce and Consumer Affairs, given the specialized expertise and knowledge required to represent consumers in matters of utilities regulation. The proposed S.D. 1 therefore adopts what is and has been common practice for the Consumer Advocate. Designating the Consumer Advocate Executive Director as the Consumer Advocate also creates an organizational structure and firewall that will allow the Commission to be administratively attached to the Department of Commerce and Consumer Affairs without creating conflicts of interest with the Division of Consumer Advocacy.

Your Committees conclude that the proposed S.D. 1 will enable the Public Utilities Commission to carry out its various regulatory responsibilities in a more efficient manner. However, your Committees understand that additional discussion is needed and request the Chairperson of the Public Utilities Commission and the Director of Commerce and Consumer Affairs to continue their dialogue to ensure a smooth transition of the Public Utilities Commission, including defining any services mutually agreed to be provided to the Public Utilities Commission by the Department of Commerce and Consumer Affairs, and any additional enabling legislation that should be considered by the legislature.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the proposed S.D. 1 by:

- (1) Amending the compensation of the Chairperson and Commissioners of the Commission to an unspecified percent;
- (2) Clarifying provisions relating to the creation of the Executive Officer position;
- (3) Specifying that the appropriation in this measure is to assist with the transition of the Public Utilities Commission and to enable the Chairperson of the Commission to appoint and employ an Executive Officer;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 451, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 451, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2605 Ways and Means on S.B. No. 2519**

The purpose and intent of this measure is to change the computation of the general fund expenditure ceiling to use the previous fiscal year's general fund appropriation as the base, instead of the previous fiscal year's general fund expenditure ceiling, to establish a more realistic limit for general fund expenditures.

The Department of Budget and Finance and the Tax Foundation of Hawaii submitted comments on the measure.

Your Committee finds that the general fund expenditure ceiling has grown significantly since fiscal year 1978-1979 to the point that it no longer provides a practical limit on general fund appropriations. Your Committee also finds that if the formula proposed in the measure is applied to the past ten years of general fund appropriations, general fund appropriations would have exceeded the general fund expenditure ceiling in certain fiscal years.

Your Committee further finds that retaining the current formula, but recalibrating the ceiling to use the fiscal year 2014-2015 general fund appropriation as the base, instead of fiscal year 1978-1979, will establish a realistic appropriation limit compatible with historical data.

Your Committee has amended this measure by:

- (1) Establishing the fiscal year 2014-2015 general fund appropriation as the new base for calculating the general fund appropriation ceiling for fiscal year 2015-2016;
- (2) Using the previous fiscal year's expenditure ceiling as the base to calculate each fiscal year's expenditure ceiling, beginning with fiscal year 2016-2017;
- (3) Adding a new section requiring the Director of Finance to determine if the estimated expenditure ceiling exceeds the current fiscal year's general fund appropriation by greater than ten per cent and, if so, to include that determination in the Director's communications to the Governor, Chief Justice, Legislature, and public; and
- (4) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2519, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2519, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2606 (Joint/Majority) Agriculture and Public Safety, Intergovernmental and Military Affairs and Water and Land on S.B. No. 2777**

The purpose and intent of this measure is to:

- (1) Clarify that section 205-5, Hawaii Revised Statutes, relating to zoning requirements, and any ordinance, rule, or regulation adopted in accordance with this section, applies to lands not within the forest reserve boundaries; and
- (2) Clarify that land uses described in section 205-2, Hawaii Revised Statutes, relating to agricultural lands, shall be permitted without further limitations or restrictions, rather than as determined by the Land Use Commission.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation and Hawaii Cattlemen's Council, Inc. Your Committees received testimony in opposition to this measure from the Hawaii County Council; Kona Hawaii Farmers Union United; Americans for Democratic Action; Ho'okipa Network Kauai; Kauai Kunana Dairy; Seeds of Truth; Malu 'Aina; Pesticide Action Network; MOM Hui; Life of the Land; Kanalani Ohana Farm; GMO Free Hawaii; Ka Lei Maile Ali'i Hawaiian Civic Club; Rancho Aloha; Beyond Organic Consulting, Inc.; Kolo Kai Organic Farm, LLC; Cann Farm Hawaii; Puna Pono Alliance; Hawaii's Thousand Friends; and more than 280 individuals. Your Committees received comments on this measure from the Department of the Attorney General and Department of Agriculture.

Your Committees find that the original intent of this measure was to allow Hawaii farmers to conduct agricultural-based commercial operations in agricultural districts. Although Act 113, Session Laws of Hawaii 2012, was enacted to allow agricultural-based commercial operations in agricultural districts, some farmers are still not allowed to conduct such operations on their farms because the Land Use Commission has deferred to counties that have stricter rules than the State regarding commercial operations on agricultural lands.

Despite the intent of this measure, your Committees find that the language of the measure has caused some members of the public to be concerned that this measure is altogether usurping the counties' authority to regulate or restrict land use on agricultural lands. Your Committees understand the public's concern and emphasize that the intent of this measure was not to usurp the counties' authority, but rather to allow certain agricultural-based commercial operations on agricultural lands, as originally intended in Act 113.

Accordingly, your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Prohibit the Land Use Commission and counties from restricting agricultural-based commercial operations that are authorized under sections 205-2(d)(15) and 205-4.5(a)(9), Hawaii Revised Statutes, in agricultural districts; and
- (2) Insert an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture, Public Safety, Intergovernmental and Military Affairs, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2777, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2777, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**Agriculture**

Ayes, 7; Ayes with Reservations (Ihara, Thielen). Noes, 1 (Ruderman). Excused, 1 (Taniguchi).

**SCRep. 2607 (Joint) Agriculture and Energy and Environment on S.B. No. 2775**

The purpose and intent of this measure is to allow solar energy facilities on agricultural lands with soil classified as overall productivity rating class A, so long as the facilities:

- (1) Do not occupy more than five per cent of the acreage of the parcel, or five acres of land, whichever is lesser;
- (2) Do not materially interfere with farm operations; and
- (3) Cause no more than a minimal adverse impact on existing or potential agricultural uses of the land.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Agriculture Research Center; Hawaii Cattlemen's Council, Inc.; Hawaii Farm Bureau Federation; and four individuals. Your Committees received comments on this measure from the Office of Planning, Land Use Commission, and Department of Agriculture.

Your Committees find that using renewable energy sources to support agricultural activities is important to the State's agricultural industry, environment, and sustainability. Your Committees have concerns, however, about allowing solar energy facilities on prime class A agricultural lands, which make up only 3.1 percent of the state agricultural district. As a compromise, your Committees conclude that solar facilities should be allowed on class A lands, but only on field roads that are used for vehicular traffic. With this compromise, no prime agricultural land will be sacrificed for solar energy facilities, and the State can increase its renewable energy sustainability efforts.

Accordingly, your Committees have amended this measure by deleting its contents and inserting language to allow solar energy facilities on agricultural lands with soil classified as overall productivity rating class A, if the solar energy facilities are located on a paved or unpaved road that is established by December 31, 2013, and the road allows for vehicular traffic.

As this measure moves forward in the legislative process, your Committees request consideration of the Land Use Commission's testimony to subject solar energy facilities on class A, B, and C agricultural lands to the state special permit process.

As affirmed by the records of votes of the members of your Committees on Agriculture and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2775, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2775, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

**SCRep. 2608 Judiciary and Labor on S.B. No. 2128**

The purpose and intent of this measure is to:

- (1) Provide guidelines and limitations for the post-conviction retention of biological evidence by the police, prosecuting attorney, laboratories, or courts; and
- (2) Establish procedures for agencies to dispose of retained evidence and for defendants to file objections to proposed disposals.

Your Committee received testimony in support of this measure from the Judiciary. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Hawaii Innocence Project of the University of Hawaii William S. Richardson School of Law.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting language to:

- (1) Require custodial agencies that retain evidence to retain evidence if:
  - (A) The evidence is related to the investigation or prosecution of a case in which there has been a judgment of conviction for certain specified felonies; and
  - (B) Contains biological evidence that could be used for DNA analysis to establish identity of the person who committed the offense or exclude a person from the group of persons who could have committed the offense;
- (2) Allow an agency to dispose of evidence related to the investigation or prosecution of a case in which there has been a judgment of conviction for any felony other than the specified felony crimes if:
  - (A) The agency files a notification of the proposed disposal of the evidence with the court;
  - (B) The filed notification is served upon specified individuals or entities;
  - (C) The filed notification contains certain information;
  - (D) The court schedules a hearing if the defendant files a statement of objection; and
  - (E) The court issues an order to allow the agency to dispose of the evidence;
- (3) Allow the court to order an agency to retain evidence until the exhaustion of all appeals or the completion of any sentence if the evidence is related to the investigation or prosecution of a case in which there has been a judgment of conviction for any felony other than certain felony crimes; and
- (4) Add definitions of "agency" and "biological evidence".

Your Committee received testimony in support of the proposed S.D. 1 from the Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Police Chiefs of Hawaii Association; and Police Department, County of Maui. Your Committee received testimony in opposition to the proposed S.D. 1 from the Office of the Public Defender, Community Alliance on Prisons, and one individual. Your Committee received comments on the proposed S.D. 1 from the Judiciary and Department of the Attorney General.

Your Committee finds that the existing law regarding the retention of biological evidence is broad and requires agencies to retain all evidence that may contain biological evidence in any case that results in a conviction, regardless of whether the biological evidence is relevant to the case. The proposed S.D. 1 establishes reasonable guidelines for the retention of post-conviction biological evidence to address statewide evidence storage issues while preserving a defendant's ability to file objections to a proposed disposal of biological evidence.

Your Committee notes the concerns raised in written testimony from the Office of the Public Defender and a criminal defense attorney that the proposed S.D. 1 substantially narrows the retention of biological evidence law by protecting against the destruction of biological evidence for a list of only several specified felonies and significantly minimizes the current scope of the law pertaining to evidence that definitely contains biological evidence. Thus, testimony in opposition contends that the proposed S.D. 1 is unnecessary because the existing retention of biological evidence law provides clear and comprehensive protection.

Your Committee further notes that according to the national Innocence Project website, there have been 312 post-conviction DNA exonerations in the United States since 1989. Furthermore, in 153 of those exoneration cases, the true suspects or perpetrators were identified as a result. Testimony submitted by a criminal defense attorney indicated that in 2011, the Hawaii Innocence Project used

DNA evidence to successfully obtain a circuit court order vacating the conviction of a defendant. In 1992, Alvin Jardine III of Maui was convicted of four counts of first degree sexual assault, three counts of attempted first degree sexual assault, and one count each of kidnapping and first degree burglary. He was sentenced to thirty-five years of imprisonment. The Hawaii Innocence Project presented to the circuit court in Maui a tablecloth with DNA evidence that excluded the defendant as the perpetrator. This tablecloth was the only tangible piece of evidence that the police did not destroy. The criminal defense attorney testified that the proposed S.D. 1 will unnecessarily and unreasonably hinder the ability of the Hawaii Innocence Project and other defense attorneys in Hawaii to challenge wrongful and unjust convictions in other Hawaii cases involving DNA evidence.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and amending it further to:

- (1) Adopt the language suggested by the Department of the Attorney General by:
  - (A) Broadening the requirement to retain biological evidence that is related to the investigation or prosecution of a case in which there has been a judgment of conviction for all felonies rather than certain specified felonies;
  - (B) Clarifying that the court may allow an agency to dispose of the retained biological evidence if the defendant does not file an objection to the proposed disposal within ninety days; and
  - (C) Deleting the prosecuting attorney as a recipient of notification of the proposed disposal of evidence;
- (2) Adopt the language suggested by a criminal defense attorney by:
  - (A) Applying the retention of biological evidence requirement to evidence that may contain, rather than definitely contains biological evidence;
  - (B) Adding that evidence retained may contain biological evidence that can be used for DNA analysis to create a reasonable doubt about the identity of the person who committed the offense for which there was a judgment of conviction;
  - (C) Requiring retained biological evidence related to a judgment of conviction for a felony to be retained until the exhaustion of all appeals and any collateral proceedings or the completion of the sentence, whichever occurs later; and
  - (D) Requiring an agency to attempt personal service before it can mail a notification to the defendant's last known address upon a reasonable documented good faith attempt for personal service;
- (3) Allow an agency to dispose of evidence related to the judgment of conviction for any felony before the expiration of all appeals or any collateral proceedings or completion of any sentence, whichever occurs later, if:
  - (A) Pursuant to a court order;
  - (B) The agency files a notification of the proposed disposal of the evidence with the court;
  - (C) The filed notification is served upon specified individuals or entities;
  - (D) The filed notification contains certain information; and
  - (E) Either the defendant does not file an objection or the defendant does file an objection and the court, after a hearing, issues an order to allow the agency to dispose of the evidence;
- (4) Adopt the language suggested by the Hawaii Innocence Project to add the Hawaii Innocence Project and any additional persons the agency deems necessary as recipients of the notification of the proposed disposal of evidence;
- (5) Require the court to schedule a hearing on the objection if a defendant files a statement of objection, and notify the department or agency that prosecuted the case of the hearing; and
- (6) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2128, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2128, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Shimabukuro). Noes, none. Excused, 2 (Solomon, Slom).

**SCRep. 2609 Water and Land on S.B. No. 2658**

The purpose and intent of this measure is to enable the complementary uses of utility scale solar energy generation and local food production on agricultural land with an overall productivity rating of class B or C, by:

- (1) Requiring that solar facilities on agricultural lands with an overall productivity rating of class B or C occupy up to thirty, rather than ten, percent of the acreage of the parcel or two or more adjacent parcels having met the applicable county requirements for the joint development or joint lot use of those parcels; provided that the area occupied by the solar facilities in excess of twenty acres shall only be made available for agricultural activities compatible with the solar energy facilities at a lease rate that is at least fifty percent below fair market rent for comparable properties; and
- (2) Requiring that solar energy facilities be removed from the land within twelve months when the facilities are no longer in operation.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; Blue Planet Foundation; First Wind Solar Group; and two individuals. Your Committee received comments on this measure from the Office of Planning and Land Use Commission.

Your Committee finds that the State's energy policy seeks to make the best use of Hawaii's land and resources by balancing technical, economic, environmental, and cultural considerations. This measure supports the advancement of renewable energy development that simultaneously benefits and encourages on-site agricultural activities.

Your Committee further finds that solar energy is currently a bright spot in Hawaii's progress toward energy independence. Increasing the amounts of affordable renewable solar energy will power our lifestyles and economy. The dual use of the agricultural lands as provided in this measure, which may include the growing of crops or grazing of livestock, provides increased value from land. Further, energy generation can improve the viability of land for agriculture by providing infrastructure and subsidizing land costs for complementary agricultural uses.

Your Committee's utmost concern is to preserve the agricultural use of prime agricultural land. As this measure proposes the first actual combined use of agriculture and solar energy, your Committee requests the Land Use Commission to build in adequate conditions into the special use permit to ensure that agricultural activities are genuinely compatible with solar energy operations, as well as to protect against agricultural land being used as a "gentleman's farm". The testimony on this measure was unclear as to what happens to the solar facility if a sheep farmer, for example, goes out of business in two years after the special use permit is issued. Thus, your Committee believes that this measure needs to be revisited after adequate time has elapsed to evaluate its efficacy.

Your Committee has amended this measure by:

- (1) Amending sections 205-2(d)(6)(B) and 205-4.5(a)(20), Hawaii Revised Statutes, to require a special use permit for the placement of solar energy facilities on class B or C agricultural lands;
- (2) Deleting language in section 205-2(d)(6)(B), Hawaii Revised Statutes, that would have increased the maximum portion of land that could be occupied by a solar energy facility placed on class B or C agricultural lands and deleting references to adjacent parcels and joint development;
- (3) Amending sections 205-2(d)(6)(B) and 205-4.5(a)(20), Hawaii Revised Statutes, to require the entire area, rather than an area in excess of twenty acres, occupied by a solar energy facility to be made available for compatible agricultural activities and to define "agricultural activities";
- (4) Amending section 205-4.5(a)(20), Hawaii Revised Statutes, by deleting the cap on the portion of land that can be occupied by a solar energy facility placed on class B agricultural lands and deleting references to adjacent parcels and joint development;
- (5) Adding a sunset date of July 1, 2020, to allow the Legislature to review the efficacy of the combined use of agriculture and solar energy on agricultural lands proposed by this measure; and
- (6) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2658, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2658, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Ihara, Ruderman, Thielen). Noes, none. Excused, none.

#### **SCRep. 2610 Ways and Means on S.B. No. 2131**

The purpose and intent of this measure is to require the Board of Regents of the University of Hawaii to waive the nonresident tuition and fee differential for veterans of the United States Air Force, Army, Coast Guard, Marine Corps, and Navy who were honorably discharged, regardless of their actual state of residence.

Your Committee received written comments in support of this measure from Veterans of Foreign Wars, two Hawaii Alliance of Student Veterans, and one individual. Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that veterans provide a valuable service to the country and the State and often forego educational opportunities during their service. Your Committee further finds that waiving the nonresident tuition and fee differential at the University of Hawaii for veterans will help to expand veterans' educational opportunities and give them the same opportunity that residents have to access the University's educational resources.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2131, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2131, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

#### **SCRep. 2611 Ways and Means on S.B. No. 2221**

The purpose and intent of this measure is to protect the public from health risks associated with skin tanning equipment.

Specifically, this measure:

- (1) Makes it unlawful for tanning facilities and operators in the State to allow the use of tanning equipment by anyone under the age of eighteen; and

- (2) Requires all tanning facilities and operators in the State to provide written notice and post warning signs regarding health and safety risks associated with ultraviolet light; and to meet certain requirements related to the safe operation of tanning equipment.

Your Committee received written comments in support of the measure from the American Cancer Society Cancer Action Network, Hawaii Skin Cancer Coalition, Aim at Melanoma, and one individual.

Your Committee finds that many physicians and scientists warn that health risks associated with skin tanning include sunburn, premature aging, skin cancer, retinal damage, formation of cataracts, suppression of the immune system, and damage to the vascular system. Statutory requirements on warning signage, operation of tanning equipment, and restriction on use will help protect the public, especially minors, from overexposure to ultra-violet radiation.

Your Committee has amended this measure by:

- (1) Including a definition of “tanning bed”;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2221, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2221, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2612 Ways and Means on S.B. No. 2531**

The purpose and intent of this measure is to establish a Fall Prevention and Early Detection Coordinator position within the Emergency Medical Services and Injury Prevention System Branch of the Department of Health to coordinate the provision of public and private fall prevention and early detection services for the elderly.

The measure also appropriates \$81,985 to establish and fill the Fall Prevention and Early Detection Coordinator position.

One individual submitted written comments in support of this measure.

Your Committee finds that fall prevention is critical to the safety and well-being of the State’s elderly residents, which is the fastest-growing segment of Hawaii’s population. Your Committee also finds that early detection of fall occurrences would reduce medical costs and suffering by expediting treatment, minimizing serious long-term consequences, reducing the extent of injury, and in some instances, avoiding death. Your Committee believes that the Fall Prevention and Early Detection Coordinator position established by this measure will serve as a focal point for statewide injury prevention and detection efforts to ensure multidisciplinary support, coordination of prevention and detection efforts, and continuity of implementation and accountability.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2531, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2531, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2613 (Majority) Ways and Means on S.B. No. 2496**

The purpose and intent of this measure is to deter the use of tobacco in Hawaii.

More specifically, this measure:

- (1) Imposes an excise tax equal to eighty-five per cent of the wholesale price of any tobacco product, other than large cigars, sold by a wholesaler or dealer on and after January 1, 2015, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (2) Requires any subsequent increase in the excise tax rate imposed on cigarettes or little cigars to trigger an automatic excise tax increase on other tobacco products; and
- (3) Requires the moneys collected under the excise tax on tobacco products to be deposited to the credit of the Hawaii cancer research special fund.

Your Committee received written comments in support of this measure from the University of Hawaii Cancer Center, American Cancer Society Cancer Action Network, American Lung Association of the Mountain Pacific, Coalition for a Tobacco-Free Hawaii, Hawaii Primary Care Association, and twenty-two individuals. Written comments in opposition to the measure were received from Black Lava Vape and four individuals. The Department of Taxation and the Tax Foundation of Hawaii submitted written comments on the measure.

Your Committee finds that tobacco use is the single most preventable cause of disease, disability, and death in the United States. Tobacco products are addictive and inherently dangerous, causing many different types of cancer, heart disease, and other serious illnesses. Therefore, the State has a substantial interest in reducing the number of individuals, especially adolescents, who use tobacco products. Your Committee further finds that tobacco products other than cigarettes are currently taxed at a lower rate than cigarettes, even though their use carries similar health risks. Your Committee believes that raising the tax on tobacco products will encourage tobacco users to quit, sustain cessation, prevent youth initiation, and reduce consumption among those who continue to use tobacco.

Your Committee has amended this measure by:

- (1) Changing the amount of the tax to an unspecified amount; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2496, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2496, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Espero, Kahele). Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2614 Ways and Means on S.B. No. 2477**

The purpose and intent of this measure is to authorize the use of a master certificate of title for common interest communities, which will permit certificates of title for individual units to incorporate by reference the encumbrances on the master certificate of title.

Your Committee received written comments in support of this measure from the Community Association Institute. The Judiciary submitted written comments on the measure.

Your Committee finds that under the current Land Court system, any amendment to the documents governing a condominium or planned community must be noted on the certificate of title for each unit. Your Committee believes that eliminating the need to change the certificate of title for each individual unit to reflect any changes in the encumbrances of general application to the condominium or planned community will simplify and streamline the operation of the Land Court.

Your Committee has amended this measure by:

- (1) Changing the effective date from upon approval to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2477, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2477, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Dela Cruz, Kouchi, Ruderman, Tokuda).

**SCRep. 2615 Ways and Means on S.B. No. 2472**

The purpose and intent of this measure is to require licensure, rather than registration, of occupational therapists and to also require licensure for occupational therapy assistants.

Your Committee received written comments in support of the measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, the Rehabilitation Hospital of the Pacific, the Occupational Therapy Association of Hawaii, the outpatient staff at the Rehabilitation Hospital of the Pacific, and one individual.

Your Committee finds that licensure of occupational therapists and their assistants will provide the highest form of government regulation to protect the health, safety, and welfare of the public.

Your Committee has amended this measure by:

- (1) Changing the penalty amount for violations of the occupational therapy law to an unspecified figure;
- (2) Changing the effective date to July 1, 2050, to facilitate discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2472, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2472, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2616 Ways and Means on S.B. No. 2400**

The purpose and intent of this measure is to establish programs and coordinated efforts to identify emerging and promising agricultural crops and necessary resources to promote new agricultural industries, maximize agricultural uses of state lands and facilities, and prepare and support agricultural entrepreneurs and workers.

Written comments in support were submitted by the Agribusiness Development Corporation, the University of Hawaii System, the Hawaii Farm Bureau Federation, the Wahiawa Community and Business Association, and two individuals. Written comments in opposition were submitted by the Hawaii County Council Member representing the Ninth Council District.

Your Committee finds that agriculture is vital to Hawaii's economy and that this measure will create a program to maximize agricultural production and prepare entrepreneurs and workers for the industry's future.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2400, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2400, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2617 Ways and Means on S.B. No. 2442**

The purpose and intent of this measure is to fund construction of affordable rental housing projects, including micro units, family units, and elder housing units, to meet the housing needs of the people of Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; the County of Hawaii Office of Housing and Community Development; the Institute for Human Services; Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Economic Justice; Partners in Care; the Community Alliance for Mental Health; and the Living Life Source Foundation.

Your Committee notes that seventy-five per cent of extremely low income households spend over half their income on rent and that eighty-one per cent of homeless households are single individuals. Your Committee finds that the promotion of small and low cost micro-units for individuals and couples will help create additional affordable housing while freeing up larger units for households with more cohabitating individuals. Your Committee further finds that an appropriation to the Rental Housing Trust Fund will help fulfill Hawaii's need for thirteen thousand affordable rental units by 2016.

Your Committee has amended this measure by:

- (1) Establishing a maximum floor area for a micro unit designation;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to encourage further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2442, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2442, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Tokuda).

**SCRep. 2618 Ways and Means on S.B. No. 2435**

The purpose and intent of this measure is to give preference to using any moneys deposited into the agricultural development and food security special fund from the environmental response, energy, and food security tax to acquire real property for agricultural production or processing activities.

Your Committee received written comments in support of the measure from one individual. The Department of Agriculture submitted written comments.

Your Committee finds that the Hawaii's overreliance on imported foods has threatened the State's food sustainability and economy. Your Committee also notes that the Legislature has made efforts to ensure that local agriculture has necessary resources, such as access and leases to land, infrastructure, and water. Your Committee believes that by giving a preference for the use of moneys to acquire real property for agricultural production or processing activities, this measure furthers the Hawaii constitution's mandate that the State conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency, and ensure the availability of agriculturally suitable lands.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2435, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Thielen, Slom). Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2619 Ways and Means on S.B. No. 2279**

The purpose and intent of this measure is to establish a task force to study the feasibility of creating a recycling program for photovoltaic waste and to develop methods to address the expected increase in photovoltaic waste.

Your Committee received written comments in support of the measure from the Hawaii Solar Energy Association and one individual. The Department of Health and the Public Utilities Commission submitted written comments on this measure.

Your Committee finds that photovoltaic systems have a useful life of approximately twenty to thirty years. With the recent growth of residential and commercial photovoltaic installations, photovoltaic waste will place a strain on Hawaii's disposal services in the coming decades. Your Committee finds that this measure is a proactive approach to address and develop solutions to a foreseeable problem.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to encourage further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2279, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2279, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Keith-Agaran).

**SCRep. 2620 Ways and Means on S.B. No. 2292**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to be expended by the Agribusiness Development Corporation for irrigation infrastructure at the former Galbraith Estate.

Your Committee received written comments in support of this measure from the Agribusiness Development Corporation, the Hawaii Farm Bureau Federation, the Local Food Coalition, and the Land Use Research Foundation of Hawaii. The Department of Budget and Finance submitted written comments on the measure.

Your Committee finds that the State recently acquired large tracts of undeveloped land from the Galbraith Estate for agricultural use. Infrastructure for smaller agricultural operations is now needed.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2292, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2292, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2621 Ways and Means on S.B. No. 2296**

The purpose and intent of this measure is to authorize the Department of Agriculture to select qualified applicants as back-up lessees when disposing of certain agricultural or non-agricultural park lands through the sealed bidding process.

The measure also authorizes the Department of Agriculture to negotiate with or offer leases to back-up lessees if the highest offering lessee fails to finalize a lease or satisfy conditions of the award.

Your Committee received written comments in support of the measure from the Board of Agriculture.

Your Committee finds that the awarding of agricultural leases through sealed bidding is a time-consuming process for the Department of Agriculture. Your Committee further finds that when an awardee fails to finalize a lease, the Department is currently required to restart the sealed bidding process. Your Committee believes that by authorizing the Department to select qualified applicants as back-up lessees, this measure will save the Department significant time and resources in awarding agricultural leases.

Your Committee has amended this measure by:

- (1) Changing the effective date July 1, 2050; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2296, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2296, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2622 (Majority) Ways and Means on S.B. No. 2303**

The purpose and intent of this measure is to increase the fireworks display permit fee, which authorizes licensed pyrotechnicians to conduct outdoor aerial fireworks and indoor fireworks for theatrical purposes, from \$110 to \$300.

Your Committee received written comments in support of this measure from the County of Maui Department of Fire and Public Safety, the Kauai Fire Department, and the Hawaii State Fire Council. Written comments in opposition were received from one individual.

Your Committee finds that the fireworks display permit fee has remained the same for thirteen years, but the cost to process, review, and approve permits has increased. This measure will address the increase in processing costs by raising the fireworks display permit fee.

Your Committee has amended this measure by:

- (1) Changing the permit fee increase to an unspecified amount; and
- (2) Changing its effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2303, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2303, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Slom). Excused, 1 (English).

**SCRep. 2623 Ways and Means on S.B. No. 2315**

The purpose and intent of this measure is to make an appropriation to provide substance abuse treatment services to inmates of the Halawa Correctional Facility.

Written comments in support were submitted by the Community Alliance on Prisons, Hawaii Substance Abuse Coalition, and two individuals.

Your Committee finds that many inmates of the Halawa Correctional Facility have substance abuse problems and would benefit from treatment services that are not currently available. This measure appropriates funds to be used to provide the needed treatment services.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2315, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2315, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2624 (Majority) Ways and Means on S.B. No. 2324**

The purpose and intent of this measure is to establish an annual electric vehicle user fee to help fund the repair and maintenance of state and county roadways.

Your Committee received written comments in support of this measure from the Department of Transportation. The City and County of Honolulu Department of Customer Services submitted written comments in opposition to this measure. The Department of Business, Economic Development, and Tourism; Tax Foundation of Hawaii; and the Alliance of Automobile Manufacturers submitted written comments.

Your Committee finds that fuel taxes are one of the main sources of funding for the repair and maintenance of public roads. A typical gasoline fueled vehicle owner pays approximately \$140 in state and county fuel taxes annually. While owners of electric vehicles also use the roads, they do not purchase gasoline or diesel fuel and, consequently, pay less taxes to repair and maintain public roads. Your Committee finds that imposing an annual electric vehicle user fee and depositing those moneys into the state highway fund will allocate a portion of roadway repair and maintenance costs to electric vehicle owners.

Your Committee has amended this measure by:

- (1) Inserting a new section that amends section 248-8, Hawaii Revised Statutes, to authorize the state highway fund to accept deposits of electric vehicle user fees;
- (2) Changing the amount of the electric vehicle user fee to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to encourage further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2324, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2324, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11; Ayes with Reservations (Ruderman). Noes, 1 (Slom). Excused, 1 (Dela Cruz).

**SCRep. 2625 Ways and Means on S.B. No. 2346**

The purpose and intent of this measure is to provide funding for various programs that benefit the State's elder population.

Specifically, the measure appropriates moneys for:

- (1) Collaborative programs between health care and social service agencies that support Hawaii's senior citizens; and
- (2) A public education and awareness campaign on long-term care.

Your Committee received written comments in support of this measure from the Executive Office on Aging, the Department of Community Services of the City and County of Honolulu, Office on Aging of the County of Maui, Catholic Charities Hawaii, ILWU Local 142, Aloha United Way, American Council of Life Insurers, AARP, and five individuals.

Your Committee finds that Hawaii's senior citizen population will grow exponentially within the next twenty years. Community-based programs that serve older adults will need to be adequately funded to keep pace with the increase in demand for those programs.

Your Committee further finds that many adults in Hawaii lack sufficient information on long-term care, and as a result, they risk being unprepared for their long-term care needs or those of their family members. Accordingly, your Committee finds that this measure will support community-based programs that serve seniors and efforts to raise public awareness of long-term care issues.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2346, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 2626 Ways and Means on S.B. No. 2349**

The purpose and intent of this measure is to establish a pilot program within the Department of Health to provide treatment services to adults with chronic substance abuse problems.

Your Committee received written comments in support of this measure from the Hawaii Substance Abuse Coalition, Community Alliance for Mental Health, and one individual.

Your Committee finds that recent cutbacks in community health services have resulted in dramatic increases in emergency services for individuals with severe substance abuse problems. Your Committee recognizes that a small percentage of consumers of medical services account for a majority of all medical costs, largely due to preventable or inappropriate use of emergency medical care. Your Committee also acknowledges that substance abuse is a leading cause of preventable hospitalization. Your Committee finds that a pilot program to treat adults with chronic substance abuse issues and provide them with support services will reduce the State's long-term medical costs and provide substance-dependent adults with the help they need to become productive members of society.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to encourage further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2349, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2349, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (English, Keith-Agaran).

**SCRep. 2627 Ways and Means on S.B. No. 2350**

The purpose and intent of this measure is to clarify that the amounts received by a contractor of the Patient-Centered Community Care program for the costs or advancement to third party health care providers, pursuant to a contract with the United States Department of Veterans Affairs for the administration of the Patient-Centered Community Care program, are excluded from the state general excise tax.

Your Committee received written comments in support of this measure from TriWest Healthcare Alliance, Inc. The Department of Taxation and the Tax Foundation of Hawaii submitted written comments on the measure.

Your Committee finds that the purpose and mission of the Patient-Centered Community Care program of the United States Department of Veterans Affairs (VA) is to ensure access to high quality, low-cost health care services for veterans. Your Committee believes that this is crucial to ensuring military readiness, national defense, and the safety and welfare of the residents of the State. The VA works with a contractor who will establish and maintain regional networks of health care providers in various regions of the United States by spring of 2014. On behalf of the VA, the contractor will make advances to health care providers, including doctors, hospitals, and other providers, for costs of health care services provided to veterans under the Patient-Centered Community Care program. Using the federal Medicare payment schedule, established by the Centers for Medicare and Medicaid Services, the VA will reimburse the contractor for the costs or advancements made to third party health care providers. Your Committee also finds that some uncertainty may exist about whether the amounts received by a contractor of the Patient-Centered Community Care program for the

cost or advancement to third party health care providers, on behalf of the federal government, are subject to the state general excise tax. Your Committee believes that this measure will clarify that these amounts are exempt from the state general excise tax.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2350, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2350, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2628 (Majority) Ways and Means on S.B. No. 2351**

The purpose and intent of this measure is to increase awareness of childhood obesity by requiring health care providers to perform annual body mass index measurements on children and requiring insurers to cover the costs of the procedure.

More specifically, the measure:

- (1) Requires primary physicians and pediatricians to provide an annual body mass index measurement to every patient from age two to eighteen years and anonymously report age and body mass index statistics to the Hawaii Health Information Exchange;
- (2) Requires all individual or group health insurance policies to provide coverage for annual body mass index measurements; and
- (3) Requires all health plan contracts issued or renewed in Hawaii after January 1, 2015, to cover expenses related to body mass index measurements.

Your Committee received written comments in support of this measure from one individual. Written comments on this measure were submitted by the Health Resources Administration, Department of Health.

Your Committee finds that childhood obesity is a serious medical condition that affects many of Hawaii's children and adolescents. Childhood obesity often leads to health problems, such as diabetes, high blood pressure, and high cholesterol. Your Committee further finds that accurate monitoring of a child's body mass index measurement can reduce the risk of childhood obesity and other health-related problems associated with childhood obesity.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2351, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11; Ayes with Reservations (Kidani). Noes, 1 (Slom). Excused, 1 (Keith-Agaran).

**SCRep. 2629 Ways and Means on S.B. No. 2383**

The purpose and intent of this measure is to require a mandatory minimum period of imprisonment without possibility of parole for any person who is convicted for and has a prior conviction or prior convictions for unauthorized entry into a motor vehicle in the first degree.

Your Committee received no written comments on this measure.

Your Committee finds that the unauthorized entry into motor vehicles is a growing problem in Hawaii and that certain communities in Hawaii have been particularly affected. Your Committee further finds that imposing a mandatory minimum period of imprisonment for anyone who is convicted for and has a prior conviction or prior convictions for unauthorized entry into a motor vehicle in the first degree, will help to deter repeat offenders.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2383, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Kouchi, Ruderman).

**SCRep. 2630 Ways and Means on S.B. No. 2391**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to establish a two-year pilot project in which a working group is convened on the island of Oahu to identify and implement management strategies for the resolution of user conflicts on public recreational lands.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, as Hawaii's resident and visitor populations have increased, there have been more conflicts over the shared use of public recreational lands. Your Committee further finds that the shared jurisdiction over these public recreational lands often renders single agencies incapable of resolving the conflicts on their own. Your Committee believes that by establishing a working group comprising appropriate state, county, and community representatives, this measure will facilitate the identification of management solutions for the shared use of public recreational lands.

Your Committee has amended this measure by:

- (1) Clarifying that only one working group shall be established pursuant to the measure;
- (2) Clarifying that membership on the working group shall include one representative from each appropriate state and City and County of Honolulu agency that has partial jurisdiction over the subject site and users involved in the conflict; and
- (3) Changing the effective date from July 1, 2014, to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2391, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2391, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2631 Ways and Means on S.B. No. 2397**

The purpose and intent of this measure is to require the High Technology Development Corporation (HTDC) to establish an agricultural technology park.

In establishing the agricultural technology park, the HTDC is charged with the following responsibilities:

- (1) Securing investments in agricultural state facilities;
- (2) Providing jobs for rural communities;
- (3) Supporting agricultural tourism; and
- (4) Promoting agricultural products.

Your Committee received written comments in support of this measure from Sugarland Growers and one individual. The Department of Agriculture and the High Technology Development Corporation submitted written comments.

Your Committee finds that an agricultural technology park will encourage agricultural innovation and support businesses in the agriculture industry. Your Committee further notes that the High Technology Development Corporation has requested funding for the resources necessary to establish the technology park.

Accordingly, your Committee has amended this measure by:

- (1) Appropriating an unspecified amount of funds for the establishment of the agricultural technology park;
- (2) Clarifying that the purpose of the agricultural technology park includes building relationships and promoting collaboration between the agricultural and technology sectors to assist farmers and provide them with tools to succeed in the modern world;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2397, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (English, Keith-Agaran).

**SCRep. 2632 Ways and Means on S.B. No. 2906**

The purpose and intent of this measure is to make an appropriation for the University of Hawaii to pay student employee salaries at new or expanded worksites of each university campus.

Your Committee received written comments in support of the measure from the University of Hawaii System and one individual.

Your Committee finds that hiring student workers at universities benefits both the students and the university by allowing students to earn an income while they learn. This measure will increase opportunities for student employment by providing additional funds for student employee salaries at new or expanded university worksites.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2906, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2906, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2633 Ways and Means on S.B. No. 2970**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Biotork Hawaii, LLC, in establishing an operation to convert agricultural crops and by-products to biofuels and feed.

Your Committee received written comments in support of this measure from two individuals. One individual submitted written comments in opposition to this measure. The Department of Budget and Finance and the Department of Agriculture submitted written comments on this measure.

Your Committee finds that energy and livestock feed costs are significant expenses for Hawaii farmers. Providing assistance for Biotork Hawaii, LLC, to implement a facility to convert agricultural crops and by-products to biofuels and high protein feed will help Hawaii advance agricultural and energy initiatives while promoting sustainability and self-sufficiency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2970, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2634 Ways and Means on S.B. No. 3008**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Anaergia Inc. with the development of facilities for renewable non-fossil fuel energy production on Maui.

Your Committee received written comments in support of this measure from Ulupono Initiative. Written comments in opposition to this measure were received from Zero Waste Campaign Maui and two individuals. Written comments were received from the Department of Budget and Finance.

Your Committee finds that the development of facilities for renewable non-fossil fuel energy production on Maui will contribute to the State's goals of achieving energy independence from sources of oil, encouraging local renewable energy production, creating jobs, and reducing the State's municipal solid waste.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2635 Ways and Means on S.B. No. 3023**

The purpose and intent of this measure is to appropriate moneys to the Agribusiness Development Corporation for the research, development, and marketing of the breadfruit, commonly known as 'ulu.

Your Committee received written comments in support of this measure from the Department of Agriculture and the Association of Hawaiian Civic Clubs.

The 'ulu has traditionally been a source of subsistence for Hawaii's people. Your Committee finds that with further research on various 'ulu production methods and techniques, 'ulu has the potential to become a major crop in Hawaii and in the mainland market.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3023, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3023, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2636 Ways and Means on S.B. No. 2934**

The purpose and intent of this measure is to authorize the Public Utilities Commission to establish community-based renewable energy tariffs by which electric utility customers may own portions of a renewable energy facility that sells energy to the utility.

Your Committee received written comments in support of the measure from Hawaiian Electric Company, Blue Planet Foundation, Inter-Island Solar Supply, and one individual. The Department of Commerce and Consumer Affairs Division of Consumer Advocacy, Department of Business, Economic Development, and Tourism, and Public Utilities Commission submitted written comments on the measure.

Your Committee finds that properly designed community-based renewable tariffs have the potential to provide significant energy cost-savings to a large segment of the community that has not been able to directly participate in the clean energy economy.

Your Committee has amended this measure by clarifying that the term tariff applies to a renewable energy facility without respect to the physical siting or interconnection of that renewable energy facility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2934, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2934, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (English, Keith-Agaran).

**SCRep. 2637 (Majority) Ways and Means on S.B. No. 2853**

The purpose and intent of this measure is to clarify the conditions for certification as an adult foster home by specifically prohibiting relationships between caregivers and foster adults by blood, marriage, legal guardianship, or other legal relationship.

This measure also modifies the conditions under which a certified foster boarding home for children may also become a certified adult foster home, to allow foster children to age in place, and prohibits a certified adult foster home from becoming dually certified as a certified foster boarding home.

Your Committee received written comments in support of the measure from the State Council on Developmental Disabilities. The Hawaii Disability Rights Center submitted written comments in opposition to the measure.

Your Committee finds that this measure clarifies the conditions for certification of adult foster homes for individuals with developmental or intellectual disabilities.

Your Committee notes its concern that this measure will prohibit relatives from becoming certified as certified adult foster caregivers for family members with developmental or intellectual disabilities. Your Committee urges that serious consideration be given to permitting family members to become certified adult foster caregivers, by identifying an alternative certification method that ensures family members with developmental disabilities have access to an advocate who can protect the family member's right of self-determination.

Your Committee has amended this measure by:

- (1) Transferring the amendment made to the law relating to the prohibition against a certified adult foster home also becoming a certified foster board home from the chapter governing the Department of Health to the chapter governing the Department of Human Services; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2853, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2853, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9; Ayes with Reservations (Espero, Kaele, Ruderman). Noes, 1 (Slom). Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2638 Ways and Means on S.B. No. 3091**

The purpose and intent of this measure is to address the shortage of primary care providers in the State by appropriating funds for the interdisciplinary Hawaii Health Systems Corporation primary care training program at Hilo Medical Center.

Your Committee received written comments in support of this measure from the Hawaii Health Systems Corporation, Office of the Mayor of the County of Hawaii, Hawaii Medical Association, Hilo Medical Center Foundation, Hawaii Island Healthcare Alliance, Community Alliance for Mental Health, Japanese Chamber of Commerce and Industry, six members of the Hawaii State Teachers Association-Retired -- Hawaii Chapter, and nine individuals.

Your Committee finds that the island of Hawaii continues to face a severe physician shortage. Your Committee further finds that projections suggest that the physician shortage will dramatically worsen in the next five years as many doctors retire from practice. This is expected to create a dire need for more physicians to ensure an adequate level of health care. Your Committee believes that supporting the interdisciplinary Hawaii Health Systems Corporation primary care training program at Hilo Medical Center will allow the program to continue to train new primary care providers and help ease the physician shortage on the island of Hawaii and in rural areas across the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3091, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3091, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2639 (Majority) Ways and Means on S.B. No. 2074**

The purpose of this measure is to appropriate unspecified amounts, for fiscal years 2013-2015, to fund salary increases, collective bargaining cost items, Hawaii employer-union health benefits trust fund costs, and other cost adjustments for officers and employees within collective bargaining unit (9) (registered professional nurses) and their excluded counterparts.

Your Committee received written comments in support of the measure from the Hawaii Government Employees Association and the University of Hawaii System. The Department of Health and the Department of Budget and Finance submitted written comments on this measure.

Your Committee finds that negotiations for collective bargaining agreements for bargaining unit (9) are currently in progress. This measure provides a legislative vehicle to fund collective bargaining costs for officers and employees in collective bargaining unit (9), along with state officers and employees who are excluded from collective bargaining, but belong to the same compensation plans as those officers and employees in collective bargaining unit (9), if an agreement is reached or an arbitration award is issued prior to the end of the 2014 Regular Session.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2074, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2074, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Slom). Excused, 1 (Keith-Agaran).

**SCRep. 2640 (Majority) Ways and Means on S.B. No. 2075**

The purpose of this measure is to appropriate unspecified amounts for fiscal years 2013-2015, to fund salary increases, collective bargaining cost items, Hawaii Employer-Union Health Benefits Trust Fund costs, and other cost adjustments for officers and employees within collective bargaining unit (14) (state law enforcement officers, and state and county ocean safety and water safety officers) and their excluded counterparts.

Your Committee received written comments in support of the measure from the Hawaii Government Employees Association. The Department of Budget and Finance submitted written comments on this measure.

Your Committee finds that collective bargaining unit (14) has not yet been formed. This measure provides a legislative vehicle to fund collective bargaining costs for officers and employees in collective bargaining unit (14), along with state officers and employees who are excluded from collective bargaining, but belong to the same compensation plans as those officers and employees in collective bargaining unit (14).

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2075 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Slom). Excused, 1 (Keith-Agaran).

**SCRep. 2641 Ways and Means on S.B. No. 2077**

The purpose and intent of this measure is to appropriate funds for renovation and equipment for the Maui Food Innovation Center, to be located in the former campus cafeteria at the University of Hawaii Maui College.

Your Committee received written comments in support of this measure from the Hawaii Strategic Development Corporation, High Technology Development Corporation, Hawaii Farm Bureau Federation, and Maui County Farm Bureau.

Your Committee finds that establishing the Maui Food Innovation Center would improve the economic stability and capacity of many different food providers in the local community, including farmers, ranchers, and fishermen; agricultural cooperatives; food entrepreneurs; small and mid-sized food companies; retail and food service establishments; Native Hawaiian cultural agriculture; and community food programs, by providing access to research and development, food business planning, quality assurance and food safety, product and process development, and other services not presently available.

Your Committee also finds that the Maui Food Innovation Center will help to further develop the Maui Culinary Academy program at the University of Hawaii Maui College.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,700,000 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2077, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2077, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kouchi).

**SCRep. 2642 Ways and Means on S.B. No. 2081**

The purpose and intent of this measure is to align the salaries of the Administrative Director of the Courts and the Deputy Administrative Director of the Courts with their executive branch counterparts.

Your Committee received written comments in support of this measure from the Judiciary.

Your Committee finds that tying the amount of the Administrative Director of the Courts' salary to the salary of the Administrative Director of the State, and establishing that the Deputy Administrative Director of the Courts' salary shall be ninety-five per cent of the Administrative Director of the Courts' salary is reasonable, since these positions perform similar functions to their executive branch counterparts for a co-equal branch of state government. Your Committee also finds that establishing a method to set the salaries of the Administrative Director of the Courts and the Deputy Administrative Director of the Courts will encourage the hiring and retention of qualified persons in these positions.

Your Committee has amended this measure by:

- (1) Changing the salary of the Deputy Administrative Director of the Courts to be equal to an unspecified percentage of the salary of the Administrative Director of the Courts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2081, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2081, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Kouchi, Ruderman).

**SCRep. 2643 (Majority) Ways and Means on S.B. No. 2082**

The purpose and intent of this measure is to clarify that the schedule of fees established in section 501-218(a), Hawaii Revised Statutes, is not intended to be a comprehensive schedule of all fees payable under chapter 501, Hawaii Revised Statutes, relating to Land Court registration.

Specifically, the measure authorizes the Supreme Court of Hawaii, Department of Land and Natural Resources, and Department of Accounting and General Services to revise, amend, add to, or eliminate fees payable under the schedule.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services and the Judiciary.

Your Committee finds that section 501-218, Hawaii Revised Statutes, currently authorizes the Supreme Court of Hawaii to amend or add to the schedule of fees in that section but does not specify how the amendments shall be made. Your Committee believes that this measure clarifies that the Supreme Court of Hawaii, by rule of the court, may revise, amend, add to, eliminate, or prescribe any additional fees under the schedule.

Your Committee has amended this measure by:

- (1) Deleting the provision authorizing the Department of Land and Natural Resources to revise, add to, or eliminate fees payable under the schedule;
- (2) Deleting the provision authorizing the Department of Accounting and General Services to revise, amend, add to, or eliminate fees payable under the schedule;
- (3) Deleting portions of the purpose section that refer to the Departments of Land and Natural Resources and Accounting and General Services to reflect the amended purpose of the measure;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2082, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2082, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Slom). Excused, 2 (English, Kouchi).

**SCRep. 2644 Ways and Means on S.B. No. 2195**

The purpose and intent of this measure is to require the Department of Taxation, in collaboration with the Department of Business, Economic Development, and Tourism, to submit a joint annual report to the Legislature that relates to renewable energy tax credits.

Specifically, this measure:

- (1) Requires that the report include the number of renewable energy technology properties that have qualified for a renewable tax energy credit, the total cost to the State of renewable energy tax credits, and the estimated economic benefit of renewable energy tax credits; and
- (2) Appropriates moneys to the Department of Taxation and the Department of Business, Economic Development, and Tourism for the costs to prepare and submit the joint report to the Legislature relating to renewable energy tax credits.

Your Committee received written comments in support of this measure from Hawaii Renewable Energy Alliance, Hawaii Solar Energy Association, and two individuals. Written comments on this measure were submitted by the Department of Taxation and the Department of Business, Economic Development, and Tourism.

Your Committee finds that in order to effectively evaluate the fiscal impact of tax credits, the Legislature needs a detailed factual report from the Department of Taxation and the Department of Business, Economic Development, and Tourism on the fiscal impact of renewable energy tax credits.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified sums;
- (2) Requiring the Department of Taxation to submit any proposed legislation to amend this Act to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015;
- (3) Changing the effective date to July 1, 2017, to provide the Department of Taxation with adequate time to implement this measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2195, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2195, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Keith-Agaran, Kouchi).

**SCRep. 2645 (Majority) Ways and Means on S.B. No. 2196**

The purpose and intent of this measure is to facilitate alternative energy research and production in the State.

Specifically, the measure:

- (1) Re-establishes the energy systems development special fund;
- (2) Increases the amount of the environmental response, energy, and food security tax to be deposited into the environmental response revolving fund, energy security special fund, and agricultural development and food security special fund; and
- (3) Extends various allocations of the environmental response, energy, and food security tax to June 30, 2030.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism, Department of Agriculture, Hawaii Natural Energy Institute, Renewable Energy Action Coalition of Hawaii, Blue Planet Foundation, The Nature Conservancy, and two individuals. Your Committee received written comments in opposition to this measure from one individual. The Department of Taxation, Department of Budget and Finance, Department of Health, and the Public Utilities Commission submitted written comments on the measure.

Your Committee finds that this measure will ensure dedicated funding for the State to meet its long-term clean energy goals and support efforts to develop food self-sufficiency and prepare for an environmental response.

Your Committee has amended this measure by:

- (1) Changing the amounts of the environmental response, energy, and food security tax on each barrel to be deposited into the environmental response revolving fund, energy security special fund, and agricultural development and food security special fund, respectively, to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making nonsubstantive technical amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2196, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2196, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Keith-Agaran, Kouchi).

**SCRep. 2646 (Majority) Ways and Means on S.B. No. 2222**

The purpose and intent of this measure is to prohibit the sale or distribution of any flavored tobacco products, including menthol tobacco products, within the State.

Your Committee received written comments in support of this measure from the Coalition for Tobacco-Free Hawaii and one hundred sixty-nine individuals. Written comments in opposition were received from the Hawaii Food Industry Association, ABC Stores, Hawaii Smokers Alliance, Hawaii Royal Trading Company, Hawaii Island Cigars Inc., and eighteen individuals. The Department of Health submitted written comments on the measure.

Your Committee finds that flavored tobacco products, including menthol tobacco products, pose a substantial health risk to Hawaii's citizens, particularly children and teenagers.

Your Committee has amended this measure by:

- (1) Adding a definition for “distribute”, “distributes”, and “distribution”;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2222, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2222, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2647 Ways and Means on S.B. No. 2248**

The purpose and intent of this measure is to amend Act 82, Session Laws of Hawaii 2003, to make permanent the liability protections provided by warning signs for outdoor recreation on improved public lands.

The measure also extends those same protections to warning signs for dangerous non-natural conditions on unimproved public lands.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and the Hawaii Government Employees Association. Written comments in opposition were received from the Hawaii Association for Justice.

Your Committee finds that Hawaii is a prime destination for tourists. Your Committee believes that there must be a balance between the responsibilities of recreational users of public lands and the liability limits of the State and counties. Your Committee further finds that the posting of warning signs satisfies the State and a county’s duty to warn the public of dangerous conditions on improved public lands. Your Committee further finds that the same requirements for warning signs should also satisfy the State’s duty to warn of dangerous non-natural conditions on unimproved public lands.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2248, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2248, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2648 Ways and Means on S.B. No. 2035**

The purpose and intent of this measure is to:

- (1) Clarify that the chair, rather than the executive director, will be selected by the members of the Hawaii Health Authority from among their members; and
- (2) Appropriate funds for the operating expenses of the Hawaii Health Authority.

No written comments were received by your Committee on this measure.

Your Committee finds that the mission of the Hawaii Health Authority is the provision of universal health care for Hawaii’s citizens. This measure appropriates funds to support the Authority’s efforts and corrects a technical error in statute regarding the proper title of the head of the Authority.

Your Committee has amended this measure by changing the appropriation to an unspecified amount.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2035, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2035, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2649 Ways and Means on S.B. No. 2042**

The purpose and intent of this measure is to establish the Puerto Rican Exchange Commission (Commission).

The duties of the Commission include:

- (1) Coordinating cultural exchange events between Hawaii and Puerto Rico;
- (2) Recognizing the contributions of the Puerto Rican people to Hawaii; and
- (3) Commemorating the arrival of the first Puerto Ricans to Hawaii.

The measure also appropriates an unspecified amount for developing, planning, and coordinating various programs and events as part of a cultural exchange program with Puerto Rico and for the construction of a monument to commemorate the arrival of the first Puerto Rican people in Hawaii.

Your Committee did not receive written comments on this measure.

Your Committee finds that since the arrival of the first Puerto Ricans in Hawaii on December 23, 1900, their rich culture and proud heritage have contributed to all phases of Hawaii's development. Your Committee believes that by honoring and recognizing the contributions of the Puerto Rican people and their culture to Hawaii, this measure will promote and bring awareness to Hawaii's diverse and multicultural society.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2042 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Kahele, Kouchi).

**SCRep. 2650 Ways and Means on S.B. No. 2045**

The purpose and intent of this measure is to establish and appropriate funds for a two-year colorectal cancer screening awareness pilot program to be administered by the Department of Health in collaboration with the Department of Human Services.

Your Committee received written comments in support of this measure from the American Cancer Society Cancer Action Network, the Hawaii Medical Association, and one individual.

Your Committee finds that a screening program will increase detections of colorectal cancer at an early state, which in turn improves chances for survival and decreases mortality rates.

Your Committee has amended this measure by:

- (1) Clarifying that the contents of the report to the Legislature shall also include the efficacy of the pilot program, as well as fund expenditures;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2045, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2045, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2651 (Majority) Ways and Means on S.B. No. 2054**

The purpose and intent of this measure is to require insurers, mutual benefit societies, and health maintenance organizations to provide coverage for the treatment of autism spectrum disorders up to a maximum benefit of \$50,000 per year and \$300,000 per lifetime, with adjustments for inflation.

Your Committee received written comments in support of this measure from the Department of Health Special Education Advisory Council, Unite HERE Local 5 Hawaii, Kaiser Permanente Hawaii, Hawaii Medical Association, Hawaii Disability Rights Center, Autism Speaks, and fifteen individuals. Your Committee received written comments in opposition to this measure from the Hawaii Medical Service Association and Hawaii Association of Health Plans. Written comments were submitted by the Department of Commerce and Consumer Affairs, Department of Human Services, and two individuals.

Your Committee finds that applied behavior analysis is an effective and medically necessary treatment for autism that is supported by many organizations, including the United States Surgeon General, the American Academy of Pediatrics, and the Autism Society of America. However, many families with autistic children cannot afford the treatments. Your Committee finds that requiring health insurance coverage for autism spectrum disorder treatments will provide children and adults with access to necessary treatments, without unduly burdening families with significantly increased health care costs.

Your Committee has amended this measure by:

- (1) Specifying that the index to be used to adjust the maximum benefit for inflation is the Consumer Price Index for urban Honolulu;
- (2) Removing the requirement that insurers include as many board certified behavior analysts in their provider network as there are qualified licensed psychologists in their network of approved providers of applied behavior analysis;
- (3) Correcting the term "board certified behavior analyst;"\_and
- (4) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2054, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2054, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2652 Ways and Means on S.B. No. 2056**

The purpose and intent of this measure is to extend the sunset date of the Hospital Sustainability Program established by Act 217, Session Laws of Hawaii 2012.

The measure also:

- (1) Updates the referral dates relating to the program;
- (2) Exempts the program special fund from the assessment of central services expenses; and
- (3) Appropriates \$50,000,000 out of the program special fund.

The Department of Human Services, Chamber of Commerce of Hawaii, and Hawaii Primary Care Association submitted written comments in support of the measure.

Your Committee finds that under the Hospital Sustainability Program, fees levied on non-governmental hospitals are used to leverage federal funds and increase the reimbursement to hospitals, with a greater benefit to those providing proportionately more services to Medicaid recipients and the uninsured. Your Committee believes that by extending the program, this measure will help improve the sustainability of hospitals in Hawaii and ensure access to health care for Medicaid recipients.

Your Committee has amended this measure by:

- (1) Decreasing the inpatient hospital sustainability fee from 2.365 to 2.175 per cent of net inpatient hospital service revenue;
- (2) Increasing the net outpatient revenue threshold for exemption from outpatient hospital sustainability fees from \$42,500,000 to \$45,000,000;
- (3) Changing to an unspecified sum the amount of direct payments from the Hospital Sustainability Program Special Fund made to private hospitals to cover uncompensated care costs;
- (4) Changing the appropriation to an unspecified sum;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2056, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2056, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2653 Ways and Means on S.B. No. 2058**

The purpose and intent of this measure is to appropriate moneys for the implementation and administration of the Hawaii Health Corps' Hawaii Rural Health Care Provider Loan Repayment Program.

Your Committee received written comments in support of this measure from the Department of Public Safety, the Puna Community Medical Center, the Hawaii Health Systems Corporation, the Hawaii Medical Association, the Hawaii Primary Care Association, the Koolauloa Health Center, and eight individuals.

Your Committee finds that the State's shortage of primary health care providers threatens the health of Hawaii's residents and affects state health care costs. Your Committee also finds that the increasingly high cost of education leads many health care professionals to seek jobs in urban areas that provide higher incomes, which has resulted in rural areas becoming medically underserved. Your Committee believes that by appropriating moneys for the Hawaii Health Corps' Hawaii Rural Health Care Provider Loan Repayment Program, this measure will help ensure that all of Hawaii's people have access to quality health care by encouraging health care professionals to practice in the most underserved areas in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date from July 1, 2014, to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2058, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2058, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Dela Cruz, Espero, Kouchi, Tokuda).

**SCRep. 2654 (Majority) Ways and Means on S.B. No. 2857**

The purpose and intent of this measure is to strengthen the Electronic Waste and Television Recycling and Recovery Act.

Specifically, this measure establishes recycling obligations for manufacturers of electronic devices and televisions based upon the weight of products sold in the State and imposes penalties for noncompliance with recycling obligations and recycling plans.

Your Committee received written comments in opposition of the measure from the Consumer Electronics Association. The Environmental Health Administration of the Department of Health submitted written comments on the measure.

Your Committee finds that this measure will create reasonable goals for manufacturers' recycling programs, ensure reasonably convenient recycling options for the public, and institute penalties for under-performing or non-performing programs.

Your Committee has amended this measure by:

- (1) Changing the penalty amounts to unspecified figures;
- (2) Changing the effective date to July 1, 2050, in order to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2857, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2857, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (English, Keith-Agaran).

**SCRep. 2655 (Majority) Ways and Means on S.B. No. 2866**

The purpose and intent of this measure is to make an emergency appropriation to the Hawaii Health Systems Corporation for its necessary costs and operations.

Your Committee received no written comments on this measure.

Your Committee finds that the Hawaii Health Systems Corporation requires additional funding to meet the cost of collective bargaining pay raises and unanticipated Medicaid reimbursement cuts. Your Committee also finds that the Hawaii Health Systems Corporation requires additional funding to pay overdue accounts in the Kauai region, as well as to continue to provide quality healthcare services, through its hospitals, without disrupting patient care.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2866, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Thielen). Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2656 Ways and Means on S.B. No. 3026**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the design, planning, and construction of the Waimea-Paauilo watershed project.

Your Committee received written comments in support of this measure from the Department of Agriculture and the Ulupono Initiative. One individual submitted written comments in opposition to this measure.

The Waimea-Paauilo watershed is approximately 143,000 acres and is located on the island of Hawaii. Your Committee finds that a major problem with the Waimea-Paauilo watershed is an inadequate water supply caused by insufficient agricultural water storage reservoirs and a faulty water collection system. Your Committee believes that the Waimea-Paauilo watershed project would improve agricultural water management by building a more efficient irrigation and livestock water distribution system. Your Committee also anticipates that crop production would be improved because the project will help alleviate drought conditions on the island of Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3026, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3026, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, English).

**SCRep. 2657 Ways and Means on S.B. No. 3053**

The purpose and intent of this measure is to safely integrate the use of unmanned aerial systems.

Specifically, this measure:

- (1) Establishes an advisory board to oversee and manage unmanned aerial systems test site operations;
- (2) Establishes the Hawaii unmanned aerial systems test site chief operating officer position to manage the operations of the Hawaii unmanned aerial systems test sites and serve on the Pan-Pacific Unmanned Aerial Systems Test Range Complex management team; and
- (3) Appropriates \$470,000 to the University of Hawaii to staff and operate Hawaii's unmanned aerial systems test site activities.

Your Committee received written comments in support of this measure from the Department of Transportation, State of Hawaii Department of Defense, Department of Business, Economic Development, and Tourism, University of Hawaii Research and Innovation, University of Hawaii at Hilo, McDowell Group Study, and two individuals. One individual submitted written comments on the measure.

Your Committee finds that there is a need to safely integrate unmanned aerial systems into national air space and Hawaii offers many unique qualities to support these operations. Your Committee further finds that the Federal Aviation Administration, at the direction of the United States Congress, designated Hawaii, in partnership with Alaska and Oregon, as one of six national unmanned aerial test sites to research and develop unmanned aerial systems operating standards and regulations. Unmanned aerial systems research and development represents an emerging \$70 billion industry that will help launch the next generation of aviation technologies. By establishing a dedicated team to oversee and manage these operations in Hawaii, we will be able to participate as both a major contributor to and beneficiary of this global enterprise.

Your Committee has amended this measure by:

- (1) Exempting the chief operating officer position from the civil service system;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3053, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3053, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2658      Ways and Means on S.B. No. 2810**

The purpose and intent of this measure is to give the Public Utilities Commission more flexibility in the use of funds collected from civil penalties imposed by the Commission in its administration of the State's One Call Center.

Your Committee received written comments in support of this measure from the Public Utilities Commission and the Department of Commerce and Consumer Affairs.

Your Committee finds that the One Call Center is a valuable service to utilities, ratepayers, and the excavating community in Hawaii. The center helps to reduce the possibility of unintended damage to underground facilities, and thereby improving utility service reliability. This measure will allow the Public Utilities Commission more flexibility, and discretionary use, of the collected penalties.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2810 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (English).

**SCRep. 2659      Ways and Means on S.B. No. 2617**

The purpose and intent of this measure is to appropriate moneys to the State Foundation on Culture and the Arts for the commission of works of art commemorating the late United States Senator Daniel K. Inouye and the late United States Representative Patsy T. Mink and to amend existing criteria for the commission of these works of art pursuant to Act 281, Session Laws of Hawaii 2013.

Your Committee received no written comments on this measure.

Your Committee finds that the late United States Senator Daniel K. Inouye and the late United States Representative Patsy T. Mink were influential leaders in the development and history of Hawaii, and therefore, they should be honored and remembered through works of art that portray their life, vision, accomplishments, impact, and legacy.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2617, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2617, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2660      Ways and Means on S.B. No. 3082**

The purpose and intent of this measure is to promote manufacturing in Hawaii.

More specifically, this measure establishes a temporary income tax credit for taxpayers who incur certain expenses for manufacturing products in Hawaii.

Your Committee received written comments in support of the measure from the Department of Business, Economic Development, and Tourism; Hawaii Strategic Development Corporation; High Technology Development Corporation; The Chamber of Commerce of Hawaii; Hawaii Farm Bureau Federation; Hawaii Food Industry Association; K. Yamada Distributors; and Meadow Gold Dairies. The Department of Taxation submitted written comments on the measure.

Your Committee finds that there is a need for Hawaii to develop and support its manufacturing industry. This is evidenced by the fact that Hawaii imports over ninety per cent of the products consumed in the State each year. Your Committee also finds that there is a great demand outside the State for products that are made in Hawaii. Your Committee believes that this measure will assist in the development of manufacturing in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the amount of the tax credit and the cap amount to unspecified amounts; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3082, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3082, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kouchi).

**SCRep. 2661 (Majority) Ways and Means on S.B. No. 2840**

The purpose and intent of this measure is to provide flexibility to the Department of Human Services by allowing it to draw from other funds appropriated to the Department to offset budget shortfalls for general assistance benefit payments caused by an increase in the number of general assistance recipients.

The Department of Human Services submitted written comments in support of the measure.

Your Committee finds that under current law, as additional beneficiaries are added to the general assistance program, the monthly payments to each recipient must be reduced or the Department of Human Services must request an emergency appropriation from the Legislature. Your Committee notes that over the past few years, general assistance payments have ranged from \$353 to \$234 per month. Providing the Department of Human Services with the authority to reallocate funds will provide general assistance beneficiaries with a more stable monthly benefit payment without requiring the Department to request an emergency appropriation from the Legislature.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to encourage further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2840, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2840, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2662 (Majority) Ways and Means on S.B. No. 2846**

The purpose and intent of this measure is to restore within the Department of Human Services a second Deputy Director position to be in charge of welfare or other functions within the Department as assigned by the Director of Human Services.

The Department of Human Services submitted written comments in support of the measure.

Your Committee finds that the Department of Human Services serves vulnerable and needy adults and children statewide and is responsible for diverse and complex programs. The Department also manages significant federal and state funds and processes a vast amount of information. Your Committee notes that the Department currently has only one Deputy Director because economic difficulties prompted the Legislature in 1994 to eliminate the second Deputy Director position. Your Committee believes that by restoring a second Deputy Director position, this measure will enable the Department to more effectively manage its various programs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the issue; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2846, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2846, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2663 Ways and Means on S.B. No. 2854**

The purpose and intent of this measure is to change the composition of the Neurotrauma Advisory Board.

Specifically, the measure:

- (1) Modifies the composition of the Neurotrauma Advisory Board by decreasing the total number of board members from twenty-one to at least eleven members;

- (2) Allows the Director of Health to appoint up to three state and county representatives whose work relates to neurotrauma to be ex officio, nonvoting members of the board; and
- (3) Removes from the board two members of the Spinal Cord Association and two representatives for persons with stroke, and adds to the board one member representing the American Stroke Association.

This measure also clarifies the requirements of a quorum of the board and valid board actions.

Your Committee received written comments in support of this measure from the American Stroke Association.

Your Committee finds that reducing the number of members on the Neurotrauma Advisory Board will improve its ability to attain quorum on a regular basis and enhance its ability to advise the Department of Health effectively.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2854, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Kouchi).

**SCRep. 2664 Ways and Means on S.B. No. 2856**

The purpose and intent of this measure is to appropriate moneys into the environmental response revolving fund for response actions and preparedness, including removal and remedial actions, consistent with the purpose of the environmental response revolving fund.

Your Committee received written comments in support of this measure from one individual. Written comments on this measure were submitted by the Department of Health.

Your Committee finds that appropriating moneys to the environmental response revolving fund will ensure that prompt action is taken to deal with hazardous material spills and releases.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2856, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2856, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Dela Cruz, Keith-Agaran, Kouchi, Tokuda).

**SCRep. 2665 Ways and Means on S.B. No. 2902**

The purpose and intent of this measure is to increase the efficiency of the motor vehicle inspection program overseen by the Department of Transportation.

Specifically, this measure:

- (1) Expands the authority of the Director of Transportation over required motor vehicle and motor carrier vehicle inspections by allowing the Director to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, to adjust the costs for inspections and fees collected from inspection stations;
- (2) Reduces the amount of insurance information required on an inspection certificate;
- (3) Repeals provisions allowing an inspection station to replace an unexpired inspection sticker issued by the station without re-inspecting the vehicle if the sticker was lost, stolen, or destroyed; and
- (4) Repeals provisions establishing the maximum allowable fee for each safety inspection performed.

Your Committee received written comments in support of this measure from the Department of Transportation. The Department of Customer Services of the City and County of Honolulu submitted written comments on the measure.

Your Committee finds that the current system of regulating motor vehicle inspections needs to be improved because legislation is required before inspection fees can be adjusted, and certain insurance information currently required on inspection certificates can instead be stored on computers for easy retrieval. Your Committee further finds that requiring that a vehicle be inspected before an inspection sticker that is lost, stolen, or destroyed can be replaced will help to promote vehicle safety.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2902, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2902, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Dela Cruz).

**SCRep. 2666      Ways and Means on S.B. No. 2488**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate the bond revenues for a traffic signal improvement project in Kihei, Maui.

Your Committee received no written comments on the measure.

Your Committee finds that there have been numerous accidents and near-accidents at the intersection of Piilani Highway and Kulanihako'i Street in Kihei, Maui, where the entrance to a new high school is planned. The planning, design, and construction of a traffic signal at this intersection will help ensure safety and prevent future congestion.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2488, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2488, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2667      Ways and Means on S.B. No. 2447**

The purpose and intent of this measure is to appropriate moneys to the Department of Health for the Comprehensive Breast and Cervical Cancer Control Program.

Your Committee received written comments in support of this measure from the American Cancer Society Cancer Action Network and one individual.

Your Committee finds that the Comprehensive Breast and Cervical Cancer Control Program provides valuable screening for breast and cervical cancer to women in Hawaii. Early diagnosis of breast and cervical cancer can help women to seek the appropriate treatment needed, as well as identify any risk factors that may contribute to breast and cervical cancer.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2447, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2447, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Keith-Agaran).

**SCRep. 2668      Ways and Means on S.B. No. 2446**

The purpose and intent of this measure is to require the Department of Education to name the new public high school in Kihei, Maui, as established by Act 134, Session Laws of Hawaii, 2013, the "Patsy Takemoto Mink High School" in honor of the late United States Representative Patsy T. Mink.

Your Committee did not receive any written comments on this measure.

Your Committee finds that former United States Representative Patsy T. Mink left an impressive legacy in Hawaii. One of her most notable accomplishments was the spearheading of legislation that would later be known as Title IX of the Education Amendments of 1972, which prohibited discrimination based upon gender in educational programs receiving federal funding. Title IX has provided innumerable educational and athletic opportunities to young women that were not previously available.

Your Committee has amended this measure by:

- (1) Requiring the Board of Education, rather than the Department of Education, to name the new high school in Kihei, Maui after former United States Representative Patsy T. Mink;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2446, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2446, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12; Ayes with Reservations (Slom). Noes, none. Excused, 1 (English).

**SCRep. 2669 Ways and Means on S.B. No. 2449**

The purpose and intent of this measure is to appropriate funds for the continued funding of Project Kealahou, a program that promotes community-based, individualized services in serving at-risk adolescent girls who have experienced significant trauma in their lives.

Your Committee received written comments in support of this measure from the Behavioral Health Services Administration of the Department of Health, the Judiciary, the Hawaii Youth Services Network, the Community Alliance on Prisons, Family Programs Hawaii, and six individuals.

Your Committee finds that Project Kealahou is a six-year, federally-funded project developed by the Child and Adolescent Mental Health Division of the Department of Health that provides invaluable support services to adolescent girls who have experienced significant trauma in their lives. Your Committee further finds that the federal grant that funds Project Kealahou will be phased out. This measure will allow the project to continue its mission to provide adolescent girls with vital community-based, individualized, culturally and linguistically competent, family-driven, youth-guided, and evidence-based services.

Your Committee has amended this measure by changing:

- (1) The appropriation to an unspecified amount; and
- (2) The effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2449, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2449, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2670 Ways and Means on S.B. No. 2236**

The purpose and intent of this measure is to authorize the Executive Office on Early Learning (Office) to enter into agreements with the Department of Education or charter schools to use available classrooms for public preschool classrooms in the State.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning; Department of Human Services; University of Hawaii at Manoa, College of Education; Early Learning Advisory Board; Hawaii P-20; Samuel N. and Mary Castle Foundation; Hawaii Association for the Education of Young Children; PHOCUSED - Protecting Hawaii's Ohana, Children, Under Served, Elderly and Disabled; Kamehameha Schools; and two individuals.

Your Committee finds that there is a great need for a high-quality preschool program for children and families for whom such a program is not available. Research has shown that investing in high-quality early childhood education will result in higher levels of educational attainment and stronger social and economic well-being. This measure will allow the Executive Office on Early Learning to provide more four-year-olds with access to preschool by using available Department of Education and charter school classrooms.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2236, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2236, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 2671 Ways and Means on S.B. No. 2265**

The purpose and intent of this measure is to appropriate funds to improve the existing public housing stock and increase the supply of available public housing units.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that the Hawaii Public Housing Authority's public housing stock has extensive and growing capital needs that have been under-funded by the United States Department of Housing and Urban Development and that there is a pressing need for additional housing units.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2265, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2265, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

**SCRep. 2672      Ways and Means on S.B. No. 2266**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and deposit the revenues generated therefrom into the rental housing trust fund and the dwelling unit revolving fund to develop affordable housing and related infrastructure and improvements.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation; the Office of Housing and Community Development; Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Economic Justice; Partners in Care; and one individual. Your Committee received written comments on this measure from the Department of Budget and Finance.
