

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1 on H.B. No. 952

The purpose of this measure is to facilitate investigations of public contractor violations of wage and hour requirements by:

- (1) Requiring that the name of the complainant be withheld from the employer unless prior permission to release the name is given by the complainant;
- (2) Providing for a three year time limit from the time that wages or overtime compensation were due to initiate a claim; and
- (3) Limiting the scope of the investigation to the three year period preceding the filing of the claim.

Your Committee on Conference amended this measure by removing the provisions that:

- (1) Provided for a three year time limit from the time that wages or overtime compensation were due to initiate a claim; and
- (2) Limited the scope of the investigation to the three year period preceding the filing of the claim.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 952, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 952, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Rhoads, Johanson and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 2 on H.B. No. 287

The purpose of this measure is to broaden the exception from public disclosure for government records under the Uniform Information Practices Act to include records whose disclosure would create a substantial and demonstrable risk of physical harm to an individual.

Your Committee on Conference has amended this measure to make it take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 287, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 287, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Takayama and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 3 on S.B. No. 1049

The purpose of this measure is to:

- (1) Prohibit the Department of Health from approving an electronic device manufacturer's recycling plan if the plan provides an electronic device owner with only a mail-back option from returning a covered electronic device to the electronic manufacturer for recycling; and
- (2) Authorize the approval of the recycling plan of an electronic device manufacturer of exclusively mobile covered electronic devices whose products are voluntarily accepted at no charge by at least fifty retail locations in the State if the plan documents these locations.

Your Committee on Conference finds that electronic waste is one of the fastest growing waste streams in the State. As technology advances and more electronic products are produced and consumed by the public, the generation of electronic waste is expected to increase. Providing only a mail-back option to return a covered electronic device to the electronic manufacturer for recycling is prohibitively expensive and time consuming for consumers and businesses. Implementation of this measure will increase electronic waste recycling and further the State's goal of waste reduction.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1049, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1049, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Green, Galuteria, Ihara and Wakai.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Representatives Lee, Lowen, Yamane and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Yamane).

Conf. Com. Rep. 4 on S.B. No. 878

The purpose of this measure is to:

- (1) Authorize the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems; and
- (2) Define "composting toilet".

Your Committee on Conference finds that the existing flush and septic systems in certain areas of the State are ill-suited due to geographic challenges and scarce water supplies. These areas present formidable engineering challenges including proximity to the ocean, hard volcanic rock, and groundwater just two feet below the surface. Composting toilets are a viable alternative in areas that are inaccessible to municipal water systems. Authorizing the counties to approve the installation and use of composting toilets will improve the health and welfare of the State.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 878, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 878, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Green, English, Riviere and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (English).

Representatives Lee, Lowen, Ing and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 5 on S.B. No. 419

The purpose of this measure is to allow neighborhood board members to attend meetings or presentations located on Oahu without violating the Sunshine Law, under certain conditions.

Your Committee on Conference finds that there have been widespread complaints regarding the inability of neighborhood board members to attend informational events due to the Sunshine Law. Under section 92-82, Hawaii Revised Statutes, if at least a number that constitutes a quorum of neighborhood board members attends any meetings or presentations open to the public, those members in attendance may be in violation of the Sunshine Law. Implementation of this measure will allow neighborhood board members to attend meetings or presentations without violating the Sunshine Law, under certain conditions, and increase communication between neighborhood board members and constituents.

Your Committee on Conference has amended this measure by removing language that:

- (1) Restricts neighborhood board members who attend meetings or presentations pursuant to this measure from further discussing any board business; and
- (2) Requires neighborhood board members to report their attendance and the matters presented that related to official board business at the meeting or presentation at the next duly noticed meeting of the neighborhood board.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 419, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 419, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran, Ihara, Thielen and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Thielen, Slom).

Representatives Rhoads, Brower and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 6 on S.B. No. 1096

The purpose of this measure is to ensure that electric utilities serving as billing and collection agents in a purely pass-through capacity for any on-bill financing or repayment program are exempt from certain state or county taxes and state laws regulating financial institutions, escrow depositories, and collection agencies.

Your Committee on Conference finds that electric utilities serving as billing and collection agents for an on-bill program serve in a pass-through capacity for any and all monies collected and remitted while participating in the on-bill program. Accordingly, electric utilities who serve as billing and collection agents and function in a pass-through capacity are not raising revenue from monies collected and remitted while participating in an on-bill program. Your Committee on Conference further finds that levying of revenue-related taxes or imposing other financial regulations on an electric utility participating in a pass-through capacity in an on-bill program would create additional costs for the utility, which could be passed on to ratepayers. This measure eliminates these additional costs but does not impact other fees or taxes imposed on other amounts received in the normal course of operations by an electric utility.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1096, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1096, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Harimoto and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, Woodson, Lowen, Evans and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Evans).

Conf. Com. Rep. 7 on H.B. No. 858

The purpose of this measure is to:

- (1) Permit the early termination of residential rental agreements in cases of domestic violence; and
- (2) Specify additional procedures under the residential landlord-tenant code for instances of domestic violence.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to November 1, 2015; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 858, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 858, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Shimabukuro, Thielen and Slom.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives McKelvey, Rhoads, Har, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Har, McDermott).

Conf. Com. Rep. 8 on H.B. No. 1075

The purpose of this measure is to ensure that the people of the State have continued access to health care services in areas served by regional systems of the Hawaii Health Systems Corporation (HHSC). Specifically, this measure authorizes HHSC's Maui Regional System to negotiate an agreement with a private entity to transfer the exclusive right to conduct ongoing business at one or more of its facilities, including Maui Memorial Medical Center, Kula Hospital and Clinic, and Lanai Community Hospital, to a nonprofit management entity that is wholly-owned by a private entity.

Your Committee on Conference has amended this measure to delineate the process whereby the Maui Regional System would enter into a public-private partnership with one or more private entities, or their nonprofit management entities, to transfer the right and responsibility to manage, operate, and provide health care services in Maui Regional System facilities. In addition, this measure takes steps to protect employees affected by the transfer. Among other things, this measure:

- (1) Clarifies that a private entity involved in such a transfer must be authorized to transact business in the State and must:
 - (A) Have a Certificate of Need from the State Health Planning Development Agency to operate one or more licensed hospitals in the State; or
 - (B) Be the sole member of a nonprofit management entity that has obtained a Certificate of Need from the State Health Planning Development Agency to operate one or more licensed hospitals in the State;
- (2) Amends the negotiation process for the transition of the Maui Regional System, including a requirement for the submission of statements of interest by an interested private entity or its nonprofit management entity and the changing of the parties required for the negotiation;
- (3) Establishes new standards and timelines for the State's ongoing oversight and control over the management and operation of the Maui Regional System as it is transferred to a new private entity or its nonprofit management entity;

- (4) Establishes provisions for the protection of employees currently employed by a transferred facility, including minimum employment requirements, the preservation of earned benefits, and collective bargaining agreement planning aimed at tempering the adverse effects of potential layoffs;
- (5) Requires that the Governor report to the Legislature on the progress of the transfer of facilities;
- (6) Changes its effective date to take effect upon its approval; provided that the amendment made to section 89-8.5, Hawaii Revised Statutes, shall be repealed one year after the transfer completion date specified in an agreement negotiated and entered into under chapter 323F, part , Hawaii Revised Statutes, and section 89-8.5, Hawaii Revised Statutes, shall be reenacted in the form in which it read on the day prior to the effective date of this Act; and
- (7) Makes technical, nonsubstantive amendments, as well as conforming amendments throughout, for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1075, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1075, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Keith-Agaran, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Nakashima, Luke, Yamashita and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 9 on H.B. No. 119

The purpose of this measure is to encourage and assist individuals and families to save private funds to support individuals with disabilities by:

- (1) Requiring the Director of Finance to establish the Hawaii ABLE Savings Program (Program) to provide for individual, private savings accounts to support individuals with disabilities; and
- (2) Establishing the Hawaii ABLE Savings Program Trust Fund to support the Program.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2015; and
- (2) Making a technical, nonsubstantive amendment for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 119, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 119, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Riviere, Dela Cruz, Green and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Representatives Belatti, Kobayashi, Morikawa and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 10 on H.B. No. 1090

The purpose of this measure is to stimulate economic development in Hawaii's technology business sector by:

- (1) Prohibiting the use of noncompete and nonsolicit clauses in any employment contract, post-employment contract, or separation agreement for an employee of a technology business; and
- (2) Stipulating that if an employment contract contains a noncompete or nonsolicit clause relating to an employee of a technology business, the clause shall be void and of no force and effect.

Employment restrictive covenants such as non-compete or non-solicit clauses are often contained in employment-related contracts, particularly in the technology sector. These restrictive covenants effectively prevent an individual from working at an organization with which a former employer competes or does business. Your Committee on Conference finds that these restrictive covenants impede the development of businesses within the State by limiting skilled workers' mobility within the State, forcing many of these workers to seek employment in other jurisdictions, and requiring local businesses to solicit skilled workers from outside of the State. Eliminating non-compete and non-solicit clauses for employees of the technology business sector will stimulate Hawaii's economy by preserving and providing jobs for employees in this sector and by providing opportunities for these employees to establish new companies and new job opportunities in the State.

However, your Committee on Conference notes concerns raised about the broad application this measure may have and has amended this measure by narrowing the scope of the prohibition on non-compete and non-solicit clauses relating to an employee of a technology business to employment contracts only.

Technical, nonsubstantive amendments have also been made for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1090, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1090, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Keith-Agaran, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Kawakami, McKelvey, Rhoads, Kong, Takayama and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 11 on H.B. No. 623

The purpose of this measure is to further reduce Hawaii's dependence on imported fossil fuels and promote the growth of the State's renewable energy industry by:

- (1) Increasing renewable portfolio standards for electric utilities to 30 percent by December 31, 2020; 70 percent by December 31, 2040; and 100 percent by December 31, 2050;
- (2) Providing as an event or circumstance that is outside an electric utility company's reasonable control, the inability to acquire sufficient renewable electrical energy to meet the 2040 and 2050 renewable portfolio standard goals in a manner that is beneficial to Hawaii's economy in relation to comparable fossil fuel resources; and
- (3) Requiring the Public Utilities Commission to include the impact of renewable portfolio standards, if any, on the energy prices offered by renewable energy developers and the cost of fossil fuel volatility in its renewable portfolio standards study and report to the Legislature.

Your Committee on Conference has amended the measure by:

- (1) Adjusting the renewable portfolio standards for electric utilities to 100 percent by December 31, 2045; and
- (2) Providing as an event or circumstance that is outside an electric utility company's reasonable control, the inability to acquire sufficient renewable electrical energy to meet the renewable portfolio standard goals beyond 2030 in a manner that is beneficial to Hawaii's economy in relation to comparable fossil fuel resources.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 623, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 623, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Galuteria, Ihara and Tokuda.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Representatives Lee, Nishimoto, Lowen and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 12 on S.B. No. 17

The purpose of this measure is to clarify that the required disclosure of documents relating to restrictions or conditions, including unrecorded rules or guidelines, by a seller for residential real property that is subject to restrictions or conditions on use applies to documents relating to restrictions or conditions within a seller's actual or constructive knowledge or control and all documents subject to disclosure under section 514B-154.5, Hawaii Revised Statutes.

Your Committee on Conference finds that chapter 508D, Hawaii Revised Statutes, was amended in 2013 to, among other things, establish a uniform standard of disclosure for consumers and real estate licensees involved in planned community association, condominium project, and cooperative housing corporation transactions. Your Committee on Conference further finds that this measure is intended to clarify the required disclosure of documents by a seller for residential real property that is subject to restrictions or conditions on use.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the required disclosure of documents by a seller for residential real property that is subject to restrictions or conditions on use applies to documents relating to restrictions or conditions in a manner consistent with and subject to the seller's duty of good faith as provided for under section 508D-9, Hawaii Revised Statutes; and
- (2) Updating the purpose section.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 17, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 17, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives McKelvey, Rhoads, Woodson and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 13 on S.B. No. 1094

The purpose of this measure is to make various updates to title 24, Hawaii Revised Statutes, relating to insurance, including:

- (1) Making fees consistent for applications and services provided by the Insurance Division of the Department of Commerce and Consumer Affairs to certain groups and insurers;
- (2) Enabling the Insurance Division to recover certain administrative costs associated with the applications process and services provided by the Division;
- (3) Prohibiting rerating of rates approved by the Insurance Commissioner;
- (4) Permitting the suspension, revocation, or denial of a mutual benefit society's certificate of authority under certain conditions; and
- (5) Making other housekeeping and conforming amendments.

Your Committee on Conference finds that this measure makes fees under title 24, Hawaii Revised Statutes, consistent for applications and services provided by the Insurance Division of the Department of Commerce and Consumer Affairs to purchasing groups, foreign risk retention groups, insurers subject to chapter 431, Hawaii Revised Statutes, fraternal benefit societies, mutual benefit societies, health maintenance organizations, and dental insurers. This measure also enables the Insurance Division to recover certain administrative costs associated with the applications process and services provided by the Division. Your Committee on Conference further finds that this measure specifies that rerating of rates approved by the Insurance Commissioner is prohibited; permits the suspension, revocation, or denial of a mutual benefit society's certificate of authority under certain conditions; and makes other conforming or housekeeping amendments within title 24, Hawaii Revised Statutes, for clarity and consistency.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1094, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1094, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda and Taniguchi.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Cachola, Oshiro, Woodson and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Oshiro).

Conf. Com. Rep. 14 on S.B. No. 1177

The purpose of this measure is to address the Auditor's findings contained in Report No. 14-11, "Audit of the Hawaii State Foundation on Culture and the Arts," by appropriating funds to establish four full-time equivalent positions (4.0 FTE) with the Hawaii State Foundation on Culture and the Arts (Foundation).

Your Committee on Conference finds that the Foundation is responsible for a collection of nearly six thousand three hundred pieces of art and approximately \$3,000,000 per year in revenue from the works of art special fund. Your Committee on Conference further finds that a recent audit of the Foundation found it needs to improve its management to ensure the accountability, accessibility, and protection of these important assets and resources.

Your Committee on Conference notes that adequate staffing is critical to the performance of these duties and other strategic goals of the Foundation. Your Committee on Conference understands the challenge of promptly establishing additional staff positions to fulfill the necessary and crucial duties of an organization. The continuance of staff positions is also a critical factor in the successful operation of the Foundation, achievement of its goals, and the preservation of art as a central part of life for the people of Hawaii.

Your Committee on Conference has amended this measure by inserting an appropriation amount of \$113,663 for fiscal year 2015-2016 and \$227,325 for fiscal year 2016-2017 to establish four full-time equivalent positions (4.0 FTE) with the Foundation.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1177, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1177, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Inouye, English, Harimoto and Wakai.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Ito, Luke, Ohno and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 15 on S.B. No. 868

The purpose of this measure is to:

- (1) Authorize each county liquor commission to regulate dancing on licensed premises; and
- (2) Require each county liquor commission that regulates dancing to adopt or amend rules regarding dancing in premises licensed to sell liquor for consumption thereon and define the term "dancing", no later than October 1, 2015.

Your Committee on Conference finds that this measure will provide each county liquor commission with the authority to regulate dancing on licensed premises and require each county liquor commission that regulates dancing to adopt or amend rules regarding dancing in premises licensed to sell liquor. Implementation of this measure will enable county liquor commissions to provide patrons with an understanding of and guidelines regarding any implemented dancing regulations.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 868, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 868, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Baker, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Kawakami, McKelvey, Yamashita, Kobayashi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Kobayashi).

Conf. Com. Rep. 16 on H.B. No. 261

The purpose of this measure is to:

- (1) Require health insurers, mutual benefit societies, and health maintenance organizations to post and update information on drug formularies via a public website and through a toll-free number; and
- (2) Establish a formulary accessibility working group to be appointed and administered by the Insurance Commissioner to make recommendations for a standard formulary template.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2015; and
- (2) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 261, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 261, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Kouchi, Ruderman and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ruderman, Slom).

Representatives Belatti, McKelvey, Kobayashi, Hashem and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 17 on H.B. No. 538

The purpose of this bill is to assist victims of domestic violence by:

- (1) Requiring all wireless telecommunications service providers to release victims of documented domestic violence from shared wireless plans involving their abuser, upon written request with evidence of domestic violence as documented by a valid police report; and
- (2) Authorizing the family court to issue an order requiring wireless telecommunications service providers to:
 - (A) Transfer the billing authority and all rights to the wireless numbers of a shared wireless plan to a petitioner, provided that the petitioner is not the account holder; or
 - (B) Remove or release a petitioner from a shared wireless plan and assign a substitute telephone number or numbers.

Your Committee on Conference has amended this bill by:

- (1) Permitting the use of an order for protection granted pursuant to chapter 586, Hawaii Revised Statutes, or a signed affidavit from a licensed medical or mental health care provider, employee of a court acting within the scope of their employment, or social worker as documentary evidence of domestic violence; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 538, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 538, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Shimabukuro, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Morikawa, McKelvey, Rhoads, San Buenaventura and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 18 on S.B. No. 464

The purpose of this measure is to require:

- (1) Clear and conspicuous disclosure of a continuous service clause for a product or service and the procedure for cancellation;
- (2) Persons charging a consumer's credit or debit card or account for an automatic renewal or a continuous service to obtain affirmative consent from the affected consumer and an acknowledgment regarding terms, cancellation policy, and the cancellation procedure;
- (3) Free trial offers to clearly and conspicuously disclose the right of the consumer to cancel before payment is made and the cancellation procedure; and
- (4) Clear and conspicuous notice of any material change to the terms of an automatic renewal or continuous service offer.

Your Committee on Conference finds that automatic renewal and continuous service offers may be problematic for consumers if there is inadequate disclosure of material terms, informed consent is not obtained prior to billing or charging a consumer for goods or services, or an effective method of cancellation is not provided. Your Committee on Conference further finds that clear disclosure of all terms and conditions in a consumer contract and affirmative consent on behalf of a consumer, prior to being charged for automatic renewal or continuous service offers, are important aspects of consumer protection. Accordingly, this measure enhances the regulation of automatic renewal and continuous service clauses and ensures adequate safeguards for Hawaii consumers subject to these clauses.

Your Committee on Conference has amended this measure by:

- (1) Specifying that a person making automatic renewal or continuous service offers pursuant to a consumer contract must include certain information for the consumer;
- (2) In the case of a material change in the terms of the automatic renewal or continuous service offer, requiring clear and conspicuous notice of the material change and information on how to cancel in a manner that can be retained by the consumer prior to the implementation of the material change;
- (3) Amending the exempt entities to include a telecommunications provider subject to chapter 269, Hawaii Revised Statutes, and a cable operator subject to chapter 440G or 440J, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2015; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 464, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 464, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Rhoads, Brower and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 19 on S.B. No. 1316

The purpose of this measure is to:

- (1) Establish a working group to examine the issues regarding requests to the board of directors of an association of apartment owners, condominium association, cooperative housing corporation, or planned community association for the installation of electric vehicle charging systems; and

- (2) Require the working group, with the assistance of the Legislative Reference Bureau, to report its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016.

Your Committee on Conference finds that electric vehicles reduce fossil fuel consumption and are gradually becoming more popular in the State. As the demand for electric vehicles grows, so does the demand for electric vehicle charging systems. Examining the issues regarding resident requests for the installation of electric vehicle charging systems will increase the likelihood of residents having the ability to choose more efficient transportation solutions in the future and further the State's clean energy goals.

Your Committee on Conference has amended this measure by:

- (1) Modifying the composition of the working group by adding a representative from the Building Industry Association of Hawaii, a representative from Hawaiian Electric Company, and two representatives from Hawaii EV Partnership and deleting two representatives from EV Structure;
- (2) Clarifying that the Legislative Reference Bureau's role is to assist the working group with its final report and prepare any proposed legislation; and
- (3) Inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1316, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1316, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, McKelvey, Lowen and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Lowen).

Conf. Com. Rep. 20 on S.B. No. 971

The purpose of this measure is to ensure that certain eligible rental housing projects will remain affordable for certain minimum periods in order to be certified for exemption from general excise taxes.

Your Committee on Conference finds that encouraging private sector investment and construction of rental housing for Hawaii's families is critical. By setting minimum affordability terms for rental housing projects, this measure will ensure that any improvements to a rental housing project that is exempt from the general excise tax will accrue to the benefit of lower income households for a period commensurate with the extent of the improvements.

Your Committee on Conference has amended this measure by:

- (1) Specifying that this measure shall apply to projects with an initial certification date after June 30, 2015; and
- (2) Inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 971, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 971, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Riviere, Green, Ruderman and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Representatives Hashem, Kobayashi, Jordan and Fukumoto Chang.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Jordan).

Conf. Com. Rep. 21 on S.B. No. 521

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds in an amount up to \$45,000,000 to Waimea Nui Community Development Corporation, a private not-for-profit corporation, for the planning, acquisition, and construction of agriculture, renewable energy, and educational facilities.

Your Committee on Conference finds that the Waimea Nui Community Development Corporation is a Native Hawaiian non-profit organization operating in the South Kohala district of the Island of Hawaii and has developed a comprehensive agriculture and renewable energy enterprise, open to the entire Kohala region, that directly contributes to the State's economy and security through local food and energy production. Therefore, your Committee on Conference finds that the issuance of special purpose revenue bonds to the Waimea Nui Community Development Corporation is in the public interest and for the public health, safety, and general welfare.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 521, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 521, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tsuji, Yamane, Cullen, Evans and Pouha.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 22 on H.B. No. 87

The purpose of this measure is to:

- (1) Require independent civil process servers to provide additional documentation of relevant training, general excise tax license, and bond or errors and omissions insurance to be placed on the Director of Public Safety's list of qualified civil process servers;
- (2) Shield process servers performing their duties from prosecution under criminal trespass statutes when they enter premises that are not secured by a fence or a locked gate; and
- (3) Make permanent Act 116, Session Laws of Hawaii 2013, relating to persons authorized to serve legal process.

Your Committee on Conference has amended this measure to:

- (1) Delete the documentation of relevant training and bond or errors and omissions insurance from the requirements to be placed on the Director of Public Safety's list of qualified civil process servers;
- (2) Extend the effective date of Act 116, Session Laws of Hawaii 2013, relating to persons authorized to serve legal process, to June 30, 2020; and
- (3) Make technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 87, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 87, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Brower, San Buenaventura and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 23 on H.B. No. 179

The purpose of this measure is to specify that the forwarding address for absentee ballots to be permanently mailed shall be the mailing address in the county that is contained in the voter's registration. A voter seeking to have permanent absentee ballots forwarded to another address shall reapply for an absentee ballot.

Your Committee on Conference has amended this measure to remove the clarifying provision that the forwarding mailing address is required to be in the county that is contained in the voter's registration. Instead, the forwarding mailing address shall be the voter's in-state mailing address.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 179, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 179, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Brower, San Buenaventura and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 24 on S.B. No. 508

The purpose of this measure is to require noncandidate committee preliminary reports to be filed on October 1 of a general election year in addition to filing ten calendar days prior to a general, primary, special, or nonpartisan election.

Your Committee on Conference finds that existing law requires noncandidate committees to file preliminary reports ten days prior to the general election. However, with the increased use of absentee voting, including mail-in absentee ballots that are cast well before the ten day filing deadline, voters do not have access to the amount of money noncandidate committees spend on ballot initiatives or opposing or supporting candidates. This measure requires an additional, earlier filing deadline for preliminary reports that disclose noncandidate committee expenditures to allow voters to “follow the money” regarding candidates and issues on the ballot.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 508, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 508, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, DeCoite, Tokioka and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tokioka).

Conf. Com. Rep. 25 on S.B. No. 569

The purpose of this measure is to amend the offense of theft in the second degree to:

- (1) Increase the threshold value of property or services from \$300 to \$750; and
- (2) Require a two percent annual increase of the threshold value of property or services, rounded up to the nearest dollar, beginning on January 1, 2017, and increasing on January 1 of each year thereafter.

Your Committee on Conference finds that the last time the threshold value of property or services under the offense of theft in the second degree increased was in 1986. Prices of consumer items have substantially increased since 1986. This measure updates the threshold value of property or services under the offense of theft in the second degree to better reflect the rise in prices of consumer items.

Your Committee on Conference has amended this measure by deleting language that requires a two percent annual increase of the threshold value of property or services beginning on January 1, 2017, and on January 1 of each year thereafter.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 569, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 569, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Espero, Ihara, Shimabukuro and Thielen.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Rhoads, San Buenaventura and Takayama.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 26 on H.B. No. 888

The purpose of this measure is to make it a petty misdemeanor for an intoxicated person to recklessly possess and discharge a loaded firearm in a public place. The person who appears to be intoxicated shall be subject to a breath or blood test by a law enforcement officer.

Your Committee on Conference has amended this measure by:

- (1) Deleting discharge of the firearm in a public place as required elements of the offense;
- (2) Removing the provision that a person who appears to be intoxicated shall be subject to a breath or blood test by a law enforcement officer;
- (3) Establishing objective standards by which a person is considered intoxicated; and
- (4) Making this measure take effect on July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 888, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 888, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran, Galuteria, Ihara and Thielen.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

Representatives Rhoads, Takayama and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 27 on S.B. No. 717

The purpose of this measure is to:

- (1) Increase the membership of the Petroleum Advisory Council to include a representative of the biofuel industry and a representative of the biotechnology industry;
- (2) Require the Petroleum Advisory Council to study the impacts Hawaii's ethanol requirement has had on the State and the effects of repealing this requirement; and
- (3) Require the Petroleum Advisory Council to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016.

Your Committee on Conference finds that since 2006, Hawaii has required that gasoline sold in the State include ten percent ethanol. However, despite dozens of biomass, biodiesel, and ethanol facilities that have been proposed for Hawaii, no ethanol plants currently exist in the State. The requirement of blending ethanol into Hawaii's gasoline does not produce any economic benefit for the State, and the import of ethanol creates an economic burden for state residents. The repeal of the ethanol gasoline requirement will ensure that any added costs associated with ethanol blending will not affect gasoline price and supply.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the S.D. 1 version, which repeals the requirement that gasoline sold in the State for use in motor vehicles include ten percent ethanol; and
- (2) Changing the effective date to December 31, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 717, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 717, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, Aquino, McKelvey, Nakashima and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Aquino, Nakashima).

Conf. Com. Rep. 28 on S.B. No. 831

The purpose of this measure is to align the requirements for establishing start-up and conversion charter schools, and to make housekeeping amendments to chapter 302D, Hawaii Revised Statutes.

Your Committee on Conference finds that certain amendments are necessary to make incremental but important improvements to chapter 302D, Hawaii Revised Statutes, relating to public charter schools. This measure strengthens Hawaii's public charter school system by making necessary housekeeping amendments and addressing concerns regarding enrollment preferences for educationally disadvantaged students and students enrolled in charter schools that are slated for closure.

Your Committee on Conference has amended this measure by:

- (1) Making discretionary, rather than mandatory, public charter school enrollment or waitlist priority for students enrolled in a public charter school who have received notice that their school is closing or facing charter revocation;
- (2) Deleting a provision that would have required the Department of Education to submit a notice of possible availability of a department school or notice of vacancy of a department school to the Board of Education regardless of whether the Department of Education has elected to use the department school to support education programs;
- (3) Making this measure effective upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 831, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 831, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Harimoto, Dela Cruz, Riviere and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Riviere, Slom).

Representatives Takumi, DeCoite, Kong, Ohno and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 29 on S.B. No. 871

The purpose of this measure is to:

- (1) Authorize the Director of Transportation (Director) to grant reciprocal licensing privileges to an adult driver who holds a license from another jurisdiction under certain conditions;
- (2) Require the Director to publish on the Department of Transportation's public website a list of the countries for which reciprocal operating privileges have been extended and those that have been withdrawn;
- (3) Authorize the Director to require an applicant for reciprocal licensing privileges to provide translation of the license and documents from the other jurisdiction if those documents are in languages other than Hawaiian or English;
- (4) Make conforming amendments to reflect reciprocal licensing privileges for other jurisdictions;
- (5) Allow for the waiver of actual demonstration of ability to operate a motor vehicle for a person with reciprocal licensing privileges; and
- (6) Repeal the Driver's License Reciprocity Committee.

Your Committee on Conference finds that the ability to drive adds to a person's quality of life and facilitates earning a livelihood in Hawaii and in many other countries. This measure furthers the ability to drive by providing driver's license reciprocity with other countries under specified conditions.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that reciprocal licensing privileges may be granted by the Director to a person who holds a license from another country or state; and
- (2) Inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 871, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 871, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, English, Ihara, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Aquino, Tokioka, Rhoads, San Buenaventura and Tupola.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 30 on S.B. No. 223

The purpose of this measure is to:

- (1) Add "emergency guardian" and substitute "temporary guardian" with "temporary substitute guardian" under the types of guardian the public guardian is authorized to serve as;
- (2) Prohibit the Office of the Public Guardian from petitioning for its own appointment as guardian of the person for an incapacitated person; and
- (3) Authorize the court to allow the Office of the Public Guardian to manage a ward's financial assets where no conservatorship is in effect, provided that if a conservatorship comes into effect for the ward, the public guardian's financial powers related to the ward shall be terminated.

Your Committee on Conference finds that for the past ten years, the Office of the Public Guardian has declined to petition the court for its own appointment due to the potential for conflicts of interest. This measure codifies this practice by prohibiting the Office of the Public Guardian from petitioning for its own appointment while allowing private and public entities and the Department of Human Services to petition for the Office of the Public Guardian's appointment as guardian pursuant to section 560:5-304, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by clarifying that if a conservatorship comes into effect for the ward, the public guardian shall not have or exercise any financial powers that have been granted to the conservator for the duration of the conservatorship rather than terminating the public guardian's financial powers related to the ward.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 223, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 223, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 31 on S.B. No. 756

The purpose of this measure is to:

- (1) Establish a mortgage license exemption for a seller of real property who offers or negotiates terms of a residential mortgage loan, agreement of sale, purchase money mortgage, rent-to-own agreement, or other loan that is secured by the seller's own real property and for which the seller is the mortgagee or lender and the buyer is the mortgagor or borrower; and
- (2) Specify the qualifications that must be met for a seller-financed license exemption, including specific interest rate, repayment schedule, and disclosure requirements and requiring the use of judicial or non-judicial foreclosure proceedings in the event of a default.

Your Committee on Conference finds that owner financing is a useful tool in the credit market, as it expands the pool of potential buyers for owners and gives buyers an opportunity to make a purchase that may otherwise have been out of reach, particularly if the buyers are unable to qualify for a traditional mortgage loan. Seller financing can also assist in intra-family transactions and transfers of property. Accordingly, this measure is intended to establish a mortgage license exemption for a seller to engage in seller financing, if certain conditions are met.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the mortgage license exemption proposed by this measure is for a seller of real property who offers or negotiates terms of a residential mortgage loan that is financed by the seller and secured by the seller's own real property;
- (2) Clarifying the eligibility criteria for sellers to qualify for the exemption, including removing criteria related to reasonable ability to repay, certain fixed or adjustable interest rates, repayment schedules, the use of judicial or non-judicial foreclosure proceedings, and the ability of the director to act on behalf of a buyer for enforcement purposes;
- (3) Clarifying the terms of the financing that the seller must disclose to the buyer;
- (4) Requiring the seller to provide the buyer with a disclaimer, to be initialed by the buyer, regarding the terms of the financing;
- (5) Updating the purpose section;
- (6) Inserting an effective date of upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 756, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 756, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Woodson, Rhoads, Yamane and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Yamane, McDermott).

Conf. Com. Rep. 32 on H.B. No. 436

The purpose of this measure is to promote highway safety by requiring approaching vehicles to slow and change lanes when nearing Sheriff Division vehicles, Hawaii Emergency Management Agency vehicles, Civil Defense vehicles, Department of Transportation Harbors Division vehicles, Department of Land and Natural Resources Division of Conservation and Resources Enforcement vehicles, and county emergency management vehicles that are stopped for official duties, by amending the definition of "emergency vehicle" in the statewide traffic code to include these vehicles.

Public safety and emergency personnel are responsible for the protection and safety of the general public. These individuals often find themselves being placed in harm's way, especially when involved with incidents on the roadway. Your Committee on Conference finds that this measure is necessary to increase the safety of these personnel when they are stopped on a roadway conducting official business.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date from January 7, 2059, to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 436, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 436, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Espero, Keith-Agaran, Dela Cruz and Slom.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

Representatives Aquino, Takayama, San Buenaventura, Har, LoPresti and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Har, Tupola).

Conf. Com. Rep. 33 on H.B. No. 1273

The purpose of this measure is to achieve the State's goals of energy security, energy independence, and food security by permitting the development of hydroelectric facilities in agricultural districts with a productivity rating of class A or B; provided that the facility and its appurtenances:

- (1) Have a hydroelectric generating capacity of not more than 500 kilowatts;
- (2) Comply with the State Water Code;
- (3) Are accessory to agricultural activities on agricultural land for agricultural use only; and
- (4) Do not adversely impact the use of agricultural land or the availability of surface or ground water for uses on all parcels served thereby.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2015.

A technical, nonsubstantive amendment was also made for clarity, style, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1273, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1273, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Gabbard, Baker, Thielen and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Representatives Tsuji, Lee, McKelvey, Woodson and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 34 on H.B. No. 391

The purpose of this measure is to amend Hawaii's prevailing wage law to ensure that laborers and mechanics working on public works projects receive fair wages. Specifically, this measure:

- (1) Allows overtime compensation to exceed time and one-half and specifies that if the Department of Labor and Industrial Relations determines that a prevailing wage is defined by collective bargaining, overtime will be at rates set by the applicable collective bargaining agreement; and
- (2) Specifies that overtime compensation and other premium pay rates are those rates specified by an applicable collective bargaining agreement when the basic hourly rate is established by a collective bargaining agreement.

Your Committee on Conference has amended this measure by:

- (1) Including a savings clause to preserve any rights and duties that have matured, penalties that were incurred, and proceedings that were begun before the effective date of this measure; and
- (2) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 391, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 391, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda, Gabbard, Ihara and Shimabukuro.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Representatives Nakashima, Keohokalole, Aquino and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Aquino).

Conf. Com. Rep. 35 on H.B. No. 894

The purpose of this measure is to provide the Enhanced 911 Board (Board) the authority to employ staff.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Board to employ an executive director that would be exempt from civil service and collective bargaining laws;
- (2) Changing the effective date to July 1, 2015; and

- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 894, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 894, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran, English, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Nakashima, McKelvey, Luke, Woodson and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 36 on H.B. No. 1268

The purpose of this measure is to help facilitate eligible, injured public employees to return to work as soon as possible and in a cost-effective manner by requiring those public employees to participate in the public employer's return to work program to receive vocational rehabilitation services under the workers' compensation law.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1268, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1268, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Inouye, Espero, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Nakashima, Keohokalole, San Buenaventura and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 37 on H.B. No. 707

The purpose of this measure is to repeal and abolish the following non-general funds and accounts:

- (1) Cancer Detection Development Revolving Fund;
- (2) Hawaii Criminal Justice Commission Trust Account;
- (3) Preservation of Endangered Plants Trust Account;
- (4) State DOD Physical Amelioration Donation Trust Fund; and
- (5) UH Wellness Center – Operating Account.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2015; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 707, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 707, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English, Harimoto, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (English).

Representatives Jordan, Kobayashi and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 38 on H.B. No. 15

The purpose of this measure is to:

- (1) Clarify the composition of the Elections Commission;
- (2) Clarify that the Chairperson of the Elections Commission serves at-will and may be removed by a two-thirds vote of the commissioners;

- (3) Clarify the term limits of the members of the Elections Commission, including the Chairperson;
- (4) Provide a process for holdovers when the term of the Chairperson or a commission member expires and a selection has not been made; and
- (5) Create a statewide standard for the distribution of absentee ballots.

Your Committee on Conference has amended this measure to:

- (1) Delete the provisions which:
 - (A) Clarify the composition of the Elections Commission;
 - (B) Specify the at-will employment status and the process for the removal of the Chairperson;
 - (C) Clarify the term limits of the members of the Elections Commission; and
 - (D) Provide a process for holdovers;
- (2) Specify that the Chief Election Officer is an at-will employee; and
- (3) Require the Elections Commission to:
 - (A) Provide written notification of any removal of the Chief Election Officer, including a statement of the reason for removal;
 - (B) Conduct a performance evaluation of the Chief Election Officer within two months after the date a general election is certified; and
 - (C) Hold a public hearing on the performance of the Chief Election Officer and consider the information gathered at the hearing when deliberating the reappointment of the Chief Election Officer.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 15, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 15, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Gabbard, Ihara, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

Representatives Rhoads, Brower, San Buenaventura and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 39 on S.B. No. 1131

The purpose of this measure is to:

- (1) Update the Uniform Controlled Substances Act, chapter 329, Hawaii Revised Statutes, for consistency with amendments in federal law on controlled substances;
- (2) Add a new synthetic cathinone and eight new synthetic cannabinoids to section 329-14, Hawaii Revised Statutes;
- (3) Amend section 329-16(b), Hawaii Revised Statutes, to remove certain opium and opiate compounds and their respective salts from the Schedule II narcotic drugs; and
- (4) Amend section 329-20, Hawaii Revised Statutes, to add new controlled substances that have been federally scheduled, as required under section 329-11, Hawaii Revised Statutes.

Your Committee on Conference finds that this measure amends Hawaii's Uniform Controlled Substances Act, codified as chapter 329, Hawaii Revised Statutes, to be consistent with changes in federal law and any emergency scheduling actions taken by the Narcotics Enforcement Division Administrator, as required by section 329-11, Hawaii Revised Statutes. Your Committee on Conference further finds that there is a growing problem in the State of new synthetic hallucinogenic substances being offered for sale to the public as herbal incense, bath salts, plant food, or legal highs. Numerous adverse effects have been reported from these new synthetic cathinones and synthetic cannabinoids, including seizures, coma, agitation, convulsions, and, in some cases, death.

Your Committee on Conference has amended this measure by:

- (1) Deleting language removing certain opium and opiate compounds and their respective salts from the Schedule II narcotic drugs;
- (2) Inserting an effective date of upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1131, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1131, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Belatti, San Buenaventura, Hashem and Fukumoto Chang.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 40 on S.B. No. 265

The purpose of this measure is to:

- (1) Amend the offense of promoting prostitution in the first degree by:
 - (A) Replacing “promoting prostitution in the first degree” with “sex trafficking”;
 - (B) Establishing that a person commits the offense of sex trafficking if the person knowingly advances prostitution by compelling or inducing a person to engage in prostitution or profits from such conduct by another under certain coercive circumstances, or advances or profits from prostitution of a person less than eighteen years old; and
 - (C) Making conforming amendments to reflect the change from “promoting prostitution in the first degree” to “sex trafficking”;
- (2) Include the offense of sex trafficking in the Department of the Attorney General’s statewide witness program;
- (3) Include the offense of sex trafficking in the list of violent crimes for which victims may be eligible for criminal injury compensation;
- (4) Amend portions of certain sections, subsections, and a definition in chapter 663J, Hawaii Revised Statutes, relating to civil liability in specific cases of coercion into prostitution;
- (5) Remove the statute of limitations for the offense of sex trafficking;
- (6) Amend the title of part I of chapter 712, Hawaii Revised Statutes, to include sex trafficking;
- (7) Amend the penalty for the offense of prostitution by:
 - (A) Establishing a class C felony if a person who paid, agreed to pay, or offered to pay a fee to engage in sexual conduct with another person did so in reckless disregard of the fact that the other person was or is a victim of sex trafficking; and
 - (B) Establishing a violation if the person who engaged in, or agreed or offered to engage in, sexual conduct with another person for a fee was less than eighteen years of age at the time of the offense;
- (8) Amend the offense of promoting prostitution in the second degree by:
 - (A) Replacing “promoting prostitution in the second degree” with “promoting prostitution”; and
 - (B) Clarifying that a person commits the offense of promoting prostitution if the person knowingly advances or profits from prostitution of a person eighteen years of age or older;
- (9) Specify that a motion to vacate a conviction of certain prostitution offenses under section 712-1209.6, Hawaii Revised Statutes, does not apply to the offense of sex trafficking and add a definition of “victim of trafficking” to that section;
- (10) Include the offense of sex trafficking in the list of covered offenses for which property is subject to forfeiture;
- (11) Add the offense of sex trafficking to the list of crimes for which an order to intercept wire, oral, or electronic communications is permitted;
- (12) Make a conforming amendment to section 846E-10(c), Hawaii Revised Statutes, relating to tier 2 offenses for the registration of sex offenders; and
- (13) Include the offense of sex trafficking in the list of offenses to which deferred acceptance of guilty plea or nolo contendere plea does not apply.

Your Committee on Conference finds that national organizations have rated Hawaii highly for its laws against sex trafficking. Hawaii received the top “Tier One” rating by Polaris in its 2014 state reports. Only eleven other states have received this rating. However, your Committee on Conference further finds that the existing laws relating to prostitution and promoting prostitution may not be suitable to address certain circumstances in which coercion or other inability to consent is present. This measure uses the existing framework of laws pertaining to the promotion of prostitution by means of coercion to more appropriately title these unlawful acts as “sex trafficking”.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that:
 - (A) Removes the statute of limitations for the offense of sex trafficking; and
 - (B) Establishes a class C felony under the offense of prostitution if a person who paid, agreed to pay, or offered to pay a fee to engage in sexual conduct with another person did so in reckless disregard of the fact that the other person was or is a victim of sex trafficking;

- (2) Amending section 712-1202(1), Hawaii Revised Statutes, to:
- (A) Reinstate language that requires that the advancement of prostitution be compelled or induced by force, threat, fraud, or intimidation in order to constitute sex trafficking and defines the terms fraud and threat; and
 - (B) Delete threat and intimidation from the list of certain coercive means by which a person may knowingly advance prostitution in order to constitute sex trafficking; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 265, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 265, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Espero, Shimabukuro, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, San Buenaventura and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 41 on S.B. No. 181

The purpose of this measure is to authorize the Department of Education to continue, until June 30, 2020, awarding high school diplomas to qualified veterans who did not receive a high school diploma as a result of compulsory induction into active service in the Armed Services of the United States or to any person whose high school education was interrupted due to wartime practices such as internment during World War II.

Your Committee on Conference finds that individuals often had to defer their educational goals as a result of compulsory induction into active service in the Armed Services of the United States or due to wartime practices such as internment during World War II. Implementation of this measure recognizes veterans for their commendable service and sacrifices to our country.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of June 29, 2015; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 181, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 181, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kidani, Kouchi, Harimoto and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Ito, Takumi, Tokioka, Ohno and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 42 on H.B. No. 26

The purpose of this measure is to clarify the method of calculating the compensation of trustees. This measure, among other things:

- (1) Specifies that banks, trust companies, and individuals who in the ordinary course of business serve as fiduciaries shall, when serving as trustee, be entitled to reasonable compensation;
- (2) Clarifies that advanced written notice of any amendment of trustee bank and trust company fee schedules shall be provided to beneficiaries who are vested at the time of the notice;
- (3) Amends and specifies for clarity the method of calculating compensation for individual co-trustees;
- (4) Specifies that trustees shall be paid not more than once per quarter and are not required to be paid upon the trust's receipt of income; and
- (5) Repeals the cost of living adjustment of the asset value ranges upon which trustee compensation is calculated.

Your Committee on Conference has amended this measure to:

- (1) Take effect upon its approval; and
- (2) Make technical, nonsubstantive amendments for clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 26, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 26, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Luke, Johanson and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 43 on H.B. No. 1491

The purpose of this measure is to assure meaningful disclosure of the source of campaign funding by requiring noncandidate committees that make only independent expenditures to report, for contributions from other than an individual, for-profit business entity, or labor union that are in excess of \$10,000 in any election period or in excess of \$5,000 in the period covered by a late contribution report:

- (1) The internet address where the contributing entity's disclosure report can be publicly accessed;
- (2) The name, address, occupation, and employer of each funding source of \$100 or more in the aggregate in an election period to that contributing entity; or
- (3) An acknowledgement that the contributing entity is not subject to any state or federal disclosure requirements regarding the source of the contributing entity's funds.

Your Committee on Conference has amended this measure to make technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1491, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1491, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro, Espero, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Rhoads, DeCoite, Lee and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 44 on H.B. No. 896

The purpose of this measure is to satisfy claims against the State, its officers, or its employees, including claims for legislative relief, judgments against the State, settlements, and miscellaneous claims by appropriating funds.

Your Committee on Conference has amended this measure to:

- (1) Include six additional claims that have been resolved for an additional \$1,580,000. Four claims increase the general fund appropriation request by \$660,000 and two claims increase appropriation requests from departmental funds by \$920,000;
- (2) Reclassify one claim in the amount of \$2,804.56 as an appropriation from departmental funds rather than general funds; and
- (3) Take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 896, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 896, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda, Espero, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Rhoads, Luke, Brower and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 45 on H.B. No. 775

The purpose of this measure is to increase the economic benefits realized from international student enrollment at Hawaii's institutions of higher learning by appropriating funds to the Department of Business, Economic Development, and Tourism for:

- (1) Marketing Hawaii and Hawaii's institutions of higher learning to attract international students; and
- (2) Travel and other recruitment expenses related to the marketing of Hawaii as an international education destination.

Hawaii's unique history, optimal geographic placement between the United States and Asia, and globally ranked programs of higher education have all served as factors in establishing Hawaii as a major destination of choice for international students seeking to further

their education. Over the past several years, however, Hawaii has been losing ground to other states in the attraction of international students, particularly students from Asia. According to the Chamber of Commerce of Hawaii, while the rest of the United States has experienced an approximately 13 percent growth in international student enrollment over the past three years, Hawaii has experienced an 11 percent decline over the same period.

While the Department of Business, Economic Development, and Tourism markets Hawaii as an educational location for overseas study, the breadth of this marketing strategy has been diminished from a lack of appropriate funding. As it is estimated by the Department that an increase of 10 percent in the number of international students studying in Hawaii would result in a concomitant increase in state tax revenues of approximately \$16,000,000, your Committee on Conference finds that it is prudent to appropriate funds to market Hawaii to international students as an educational destination.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$250,000 for Fiscal Year 2015-2016 to the Department of Business, Economic Development, and Tourism to market Hawaii and Hawaii's institutions of higher education to international students; and
- (2) Changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 775, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 775, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, English, Galuteria, Wakai and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Slom).

Representatives Kawakami, Choy, Nishimoto, Ichiyama, Kong and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Ichiyama, Ward).

Conf. Com. Rep. 46 on H.B. No. 582

The purpose of this measure is to:

- (1) Continue the Nursing Facility Sustainability Program by extending the program for an additional year; and
- (2) Appropriate funds out of the Nursing Facility Sustainability Program Special Fund for fiscal year 2015-2016.

Your Committee on Conference has amended this measure by:

- (1) Amending the manner in which the Nursing Facility Sustainability Fee is calculated and paid, including specifying a \$5.85 or a \$13.46 per resident daily fee, depending on the type of facility;
- (2) Making the use of revenues from the Nursing Facility Sustainability Fee and federal matching funds to enhance the capitated rates paid to Medicaid managed care health plans applicable only to state fiscal year 2015-2016;
- (3) Changing its effective date to July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 582, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 582, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green, Riviere, Inouye and Slom.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 47 on H.B. No. 631

The purpose of this measure is to amend the requirements for the issuance of a new birth certificate to accurately reflect an individual's gender identity and, if applicable, name change, following a gender transition by:

- (1) Deleting requirements that an individual complete a sex change operation as a prerequisite for amending the sex designation on a birth certificate;
- (2) Requiring, instead, an affidavit from a licensed medical or mental health provider attesting that the current sex designation on the birth certificate does not align with the individual's gender identity and a court order pursuant to Hawaii Supreme Court rules granting the individual's petition for an amended birth certificate;
- (3) Providing for confidentiality of the original birth certificate and the record of its amendment;
- (4) Providing for amendments to the birth certificate to reflect a legal name change associated with the gender transition; and

- (5) Prohibiting the Department of Health from requiring documentation or medical records beyond the affidavit and order specified.

Upon consideration, your Committee on Conference has amended this measure by:

- (1) Amending the affidavit requirements to specify that the affiant shall be a licensed physician with a bona fide physician-patient relationship with the birth registrant;
- (2) Specifying that the affidavit shall state that the physician has reviewed the birth registrant's medical records and determined that the birth registrant has received appropriate clinical treatment resulting in a completed gender transition so that the sex designation on the birth registrant's current birth certificate is not aligned with the registrant's actual gender;
- (3) Deleting the requirements for a petition and court order authorizing the issuance of a new birth certificate;
- (4) Changing its effective date to July 1, 2015; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 631, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 631, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Keith-Agaran and Baker.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Rhoads, Lee and Fukumoto Chang.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Fukumoto Chang).

Conf. Com. Rep. 48 on S.B. No. 1113

The purpose of this measure is to expand the scope of background checks conducted by the Department of Health on operators, employees, applicants, and volunteers in health care facilities and other persons providing health care on behalf of the Department of Health to include criminal history record checks, sex offender registry record checks, adult abuse perpetrator and child abuse and neglect record checks, and certified nurse aide registry record checks.

Your Committee on Conference finds that individuals with developmental disabilities, as well as children and the elderly populations, are considered vulnerable to potential abuse, neglect, and mistreatment by family members, caregivers, and others who have direct access to them. This measure provides protection to the public when they seek health care services at licensed or certified health care facilities.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that for purposes of immunity from civil liability for the Department of Health, the presumption of good faith in obtaining and relying upon background check information may be rebutted upon showing of proof that the Department or its designee relied upon information or opinion that it knew was false or misleading or that the reliance was unreasonable;
- (2) Clarifying that for purposes of immunity from civil liability, any applicant or operator who receives information relating to a background check from the Department of Health or its designee shall be presumed to be acting in good faith for reasonably taking or recommending action based upon the Department's recommendation or direction; and
- (3) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1113, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1113, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Green, Chun Oakland, Keith-Agaran, Espero and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Nakashima, Creagan, Hashem and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 49 on S.B. No. 1291

The purpose of this measure is to prohibit discrimination against medical marijuana patients and caregivers by schools, landlords, courts with regard to medical care or parental rights, employers, planned community associations, condominium property regimes, and condominiums.

Your Committee on Conference finds that some civil protections are necessary to protect registered medical marijuana patients from certain ramifications based solely upon a positive test for marijuana use. Because the State has endorsed marijuana as a legitimate

medical treatment, it follows that the State would also provide protection for those who require such treatment, not only from criminal consequences, but from civil consequences as well.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have prohibited an employer from taking disciplinary measures or discriminating against an employee solely on the basis of a positive test for marijuana, under certain conditions;
- (2) Clarifying that provisions related to prohibiting discrimination by planned community associations, condominium property regimes, and condominiums against persons who have a valid certificate for the medical use of marijuana shall not be construed to diminish the obligation of planned community associations, condominium property regimes, and condominiums to provide reasonable accommodations for persons with disabilities;
- (3) Making this measure effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1291, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1291, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Keith-Agaran, Espero, Gabbard and Ihara.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ihara).

Representatives Belatti, Rhoads, Creagan, Takayama and Thielen.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 50 on S.B. No. 1117

The purpose of this measure is to make an emergency appropriation to the Hawaii Health Systems Corporation.

Your Committee on Conference finds that during fiscal year 2015, the Hawaii Health Systems Corporation has been forced to absorb approximately \$48,000,000 in unfunded collective bargaining raises that were negotiated by the Administration on the Corporation's behalf. To deal with this deficit, the Hawaii Health Systems Corporation began implementing its contingency plans, including elimination of 109 vacant positions and 33 filled positions, closure of Maui Memorial's adolescent psychiatry unit, hiring freezes, and aggressive pursuit of attrition savings.

Your Committee on Conference further finds that an emergency appropriation for the Hawaii Health Systems Corporation is necessary to maintain a stable statewide health care system that is relied upon by residents and visitors of the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$15,000,000 for supporting the functions of the Hawaii Health Systems Corporation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1117, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1117, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Tokuda, Baker, Kouchi and Slom.
Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Kouchi).

Representatives Belatti, Luke, Nishimoto and Fukumoto Chang.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Nishimoto).

Conf. Com. Rep. 51 on H.B. No. 482

The purpose of this measure is to support the Pesticide Subsidy Program in the Department of Agriculture by:

- (1) Establishing a full-time temporary program manager position for the Program;
- (2) Establishing an unspecified maximum salary for the program manager position; and
- (3) Appropriating unspecified sums from the Pesticide Use Revolving Fund for fiscal biennium 2015-2017 for the program manager position.

Your Committee on Conference has amended this measure by:

- (1) Establishing the maximum salary of the program manager position at \$50,000 per year;
- (2) Appropriating \$75,000 for each year of fiscal biennium 2015-2017 for the program manager position; and
- (3) Changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 482, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 482, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Inouye, Kouchi, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Tsuji, Lowen, DeCoite, Onishi and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 52 on H.B. No. 573

The purpose of this measure is to help preserve and protect the agricultural resources of Hawaii and help the State achieve its goals of food security, sustainability, and self-sufficiency by:

- (1) Establishing a permanent Hawaii Good Agricultural Practices Program within the Department of Agriculture; and
- (2) Appropriating unspecified sums for fiscal biennium 2015-2017 for the implementation of the Program.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$300,000 for fiscal year 2015-2016 to implement the Hawaii Good Agricultural Practices Program;
- (2) Changing its effective date to July 1, 2015; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 573, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 573, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Dela Cruz and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tsuji, Onishi, Cachola, DeCoite and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 53 on H.B. No. 850

The purpose of this measure is to address the budgetary shortfalls experienced by the University of Hawaii College of Tropical Agriculture and Human Resources' (CTAHR) Cooperative Extension Service by appropriating funds for critical specified unfunded positions for specified counties.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provisions specifying the extension agent positions and the distribution of the agents to specific counties;
- (2) Appropriating \$350,000 for four positions for the Cooperative Extension Service Program deemed critical by CTAHR in accomplishing the purpose of the Program, with one position for each county;
- (3) Changing its effective date to July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 850, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 850, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Ruderman, Riviere, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Riviere, Slom).

Representatives Tsuji, Choy, Onishi, Cachola, Ichiyama and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 54 on H.B. No. 1332

The purpose of this measure is to ensure that agricultural crops on the island of Kauai receive a steady and dependable supply of water and are better protected from the effects of drought conditions by appropriating unspecified sums for fiscal biennium 2015-2017 for the maintenance and improvements to the Peekauai Ditch Irrigation System, also known as Menehune Ditch on Kauai.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$10,000 for fiscal year 2015-2016 for the maintenance and improvements to the Peekauai Ditch; and
- (2) Changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1332, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1332, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tsuji, Onishi, Kong and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 55 on H.B. No. 10

The purpose of this measure is to support student health by, among other things:

- (1) Authorizing Department of Education (DOE) employees and agents to volunteer to administer:
 - (A) Insulin, or assist a student in administering insulin via the insulin delivery system that the student uses;
 - (B) Glucagon in an emergency situation to students with diabetes; or
 - (C) Auto-injectable epinephrine in an emergency situation to students with anaphylaxis;
- (2) Allowing students to perform required diabetes self-monitoring and self-treatment activities; and
- (3) Allowing advanced practice registered nurses to provide certain written certifications regarding the administration of medication to students by themselves or by others.

Your Committee on Conference has amended the measure by changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 10, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 10, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Harimoto, Kouchi, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Thielen, Slom).

Representatives Takumi, Belatti, Nishimoto, Kobayashi, Kong and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 56 on H.B. No. 11

The purpose of this measure is to improve public education in Hawaii by authorizing an additional per year bonus for teachers who maintain current National Board certification under the National Board Certification Incentive Program and teach at a school in a focus, priority, or Superintendent's Zone, as determined by the Department of Education.

Your Committee on Conference has amended the measure by:

- (1) Applying it retroactively to bonuses for the 2014 calendar year; provided that payment of such 2014 bonuses will be made during the 2015 calendar year, in addition to any other bonuses for which the teacher is eligible for the 2015 calendar year;
- (2) Changing its effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 11, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 11, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Harimoto and Riviere.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Nishimoto, Kong, Ohno and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 57 on H.B. No. 831

The purpose of this measure is to provide for an orderly process to close down a public charter school in the event it becomes financially insolvent.

Your Committee on Conference has amended the measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 831, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 831, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Harimoto, Kouchi, Ruderman and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ruderman, Slom).

Representatives Takumi, Nishimoto, Kong, LoPresti and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 58 on H.B. No. 820

The purpose of this measure is to establish the Executive Office on Early Learning Prekindergarten Program to provide high-quality early childhood education to Hawaii's children.

Your Committee on Conference has amended the measure by:

- (1) Renaming the Executive Office on Early Learning Prekindergarten Program the Executive Office on Early Learning Public Prekindergarten Program;
- (2) Requiring the Executive Office on Early Learning to report on the plans and costs for program expansion in fiscal years 2017, 2018, and 2019; and
- (3) Changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 820, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 820, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kouchi, Harimoto, Riviere and Thielen.

Managers on the part of the Senate.

Representatives Takumi, Luke, Kong, Ohno and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 59 on H.B. No. 1140

The purpose and intent of this measure is to establish a temporary cesspool upgrade, conversion, or connection income tax credit for cesspool owners who:

- (1) Upgrade or convert a qualified cesspool into a septic system or an aerobic treatment unit system; or
- (2) Connect a qualified cesspool to a sewer system.

Your Committee on Conference finds that cesspools constitute a nonpoint contamination source for the State's streams, groundwater, and ocean. Your Committee on Conference believes that, by providing financial assistance to cesspool owners who upgrade, convert, or connect their cesspools, this measure will help facilitate the reduction of cesspool pollution in the State.

Your Committee on Conference has amended this measure by:

- (1) Providing that, in the case of a qualified cesspool that is a residential large capacity cesspool, the amount of the credit shall be equal to the qualified expenses of the taxpayer, up to a maximum of \$10,000 per residential dwelling connected to the cesspool, as certified by the Department of Health;
- (2) Providing that the Department of Health, as a pilot program, may certify no more than two residential large capacity cesspools as qualified cesspools;
- (3) Inserting a dollar amount of \$5,000,000 as the maximum amount of tax credits allowed for all taxpayers in any taxable year;
- (4) Including residential large capacity cesspools within the definition of "qualified cesspool";
- (5) Defining "residential large capacity cesspool" as a cesspool that is connected to more than one residential dwelling;
- (6) Making a conforming amendment to the purpose section to reflect the inclusion of residential large capacity cesspools in the measure;

- (7) Changing the effective date to July 1, 2015; and
- (8) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1140, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1140, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 60 on H.B. No. 1513

The purpose of this measure is to support local companies in Hawaii that conduct renewable energy research and development through existing contracts with the principal research division of the United States Department of Defense, Office of Naval Research, by establishing a matching grant program.

Specifically, the measure:

- (1) Establishes a two-year Alternative Energy Research and Development Pilot Program under the Department of Business, Economic Development, and Tourism to provide grants to qualified businesses that conduct research and development on alternative energy;
- (2) Establishes the Alternative Energy Research and Development Revolving Fund; and
- (3) Appropriates unspecified sums from the general fund to the Alternative Energy Research and Development Revolving Fund in fiscal years 2015-2016 and 2016-2017 to be used for providing grants during the two-year pilot program.

Your Committee on Conference has amended the measure by:

- (1) Providing that a business is ineligible to receive a grant under the Alternative Energy Research and Development Pilot Program if the business has obtained any other state grant for the same research;
- (2) Appropriating \$1,000,000 from the general fund to the Alternative Energy Research and Development Revolving Fund in fiscal years 2015-2016 and 2016-2017 to be used for providing grants during the two-year pilot program; and
- (3) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1513, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1513, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Tokuda, Dela Cruz, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Kouchi).

Representatives Lee, Lowen, Yamane and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Yamane).

Conf. Com. Rep. 61 on H.B. No. 1394

The purpose of this measure is to explore the sustainability and conservation potential of water scalping in Hawaii by conducting a feasibility study on the use of water scalping technology in state facilities.

Specifically, the measure:

- (1) Requires the Department of Transportation to conduct a feasibility study on the use of water scalping technology in state facilities;
- (2) Specifies the contents of the feasibility study; and
- (3) Requires the Department to submit a report to the Legislature, no later than November 30, 2016, on the Department's findings and recommendations regarding water scalping.

Your Committee on Conference finds that Hawaii has limited access to natural fresh water supplies. Your Committee on Conference believes that sustainable access to fresh water is essential to the State's future, and the State should support the discovery of new and innovative options for water conservation. Water scalping is one method that may help Hawaii achieve fresh water sustainability. The process of water scalping involves the extraction of valuable, usable water from a sewerage network. Water scalping may allow for unused and wasted water to be reclaimed and put to beneficial use, such as outdoor irrigation. Your Committee

on Conference further finds that a feasibility study focused on the use of water scalping technology in state airport facilities may serve as a model to assist the State in achieving water sustainability and reducing reliance on conventional water supplies.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the feasibility study on the use of water scalping technology shall be conducted in state airport facilities, rather than in state facilities, including specifying that the Airports Division of the Department of Transportation, rather than the Department of Transportation, shall conduct the feasibility study;
- (2) Authorizing the Airports Division of the Department of Transportation to develop a process design for the processing portion of the implementation of water scalping technology, if funds are available;
- (3) Requiring the Airports Division of the Department of Transportation to submit its report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016, rather than November 30, 2016;
- (4) Directing the Airports Division of the Department of Transportation to apply for a Federal Aviation Administration grant to fund the implementation of a water scalping technology pilot project;
- (5) Making an appropriation from the airport special fund for airports administration (TRN195), as provided for in the General Appropriations Act of 2015, to support the purposes of this measure;
- (6) Clarifying that if Federal Aviation Administration funds are available, the Department of Transportation may expend the federal funds for the purposes of this measure, and if Federal Aviation Administration funds are not available, authorizing the Department of Transportation to expend up to the amount of airport special fund moneys appropriated in this measure; and
- (7) Changing the effective date from July 1, 2053, to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1394, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1394, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Dela Cruz, Tokuda, Galuteria and Slom.
Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Representatives Lee, Yamane, Cullen, Evans, Lowen and Thielen.
Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Yamane).

Conf. Com. Rep. 62 on H.B. No. 1214

The purpose of this measure is to appropriate moneys from the general fund to the Office of the Auditor to support the state-county functions working group established by Act 174, Session Laws of Hawaii 2014.

Your Committee on Conference finds that the state-county functions working group was established by Act 174, Session Laws of Hawaii 2014, to evaluate the division of duties and responsibilities between the State and counties relating to the provision of public services. Your Committee on Conference further finds that Act 174, Session Laws of Hawaii 2014, provided that reimbursements would be made to the working group members by the Auditor, based upon the Auditor's request to the Legislature in 2015 and 2016 for an appropriation equal to the reimbursements made and expected to be made. Reimbursements for travel and report production costs for fiscal year 2014-2015 were \$150,000, and it is estimated that the fiscal year 2015-2016 costs for consultant services, meetings, and final report production will increase to \$165,000. Your Committee on Conference believes that implementation of this measure will help the state-county functions working group to fulfill its duties and responsibilities.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the funds appropriated shall come from the transient accommodations tax revenues allocated to the counties pursuant to section 237D-6.5(b)(3), Hawaii Revised Statutes, instead of from the general revenues of the State;
- (2) Changing the appropriation amount from an unspecified sum to \$165,000, and allocating \$15,000 to pay for the actual expenses incurred and expected to be made by the working group and \$150,000 to procure consultant services to assist the working group; and
- (3) Changing the effective date from July 1, 2050, to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1214, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1214, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 63 on H.B. No. 1432

The purpose of this bill is to provide moneys for state-funded assistance programs by establishing the Interim Assistance Reimbursement Special Fund to allow the Department of Human Services to retain from one fiscal year to the next any interim assistance reimbursements received from the federal government for general assistance recipients who have been retroactively approved for supplemental security income benefits.

Your Committee on Conference has amended this bill by:

- (1) Removing the section that would have appropriated moneys out of the general fund for deposit into the Interim Assistance Reimbursement Special Fund;
- (2) Changing the amount appropriated out of the Interim Assistance Reimbursement Special Fund from an unspecified amount to \$3,000,000; and
- (3) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1432, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1432, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 64 on H.B. No. 1180

The purpose of this measure is to improve transparency and efficiency in the State procurement process by, among other things:

- (1) Requiring the Administrator of the State Procurement Office to establish a contractor performance database;
- (2) Requiring the Chief Procurement Officers of the various state jurisdictions to coordinate with the Administrator regarding procurement policies, innovations, and concerns;
- (3) Transferring the authority for the Compliance Audit Unit to the State Procurement Office;
- (4) Requiring the Compliance Audit Unit to establish a meaningful statewide procurement contract database; and
- (5) Establishing a procurement task force to examine the cost impacts of the procurement process for public works construction projects and to examine and recommend past performance standards and procedures.

Your Committee on Conference has amended the contents of this measure to encompass only the provisions requiring the Chief Procurement Officer of each jurisdiction to:

- (1) Coordinate with the Administrator regarding procurement policies, innovations, and concerns; and
- (2) Report procurement contract data to the Administrator.

Additionally, your Committee has changed the effective date of this measure to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1180, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1180, H.D. 1, S.D. 2, C.D. 1.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 65 on H.B. No. 318

The purpose of this measure is to exempt the right to place names on public buildings from the bidding requirements and 15-year limitations governing public contracts for concessions.

Your Committee has amended this measure by changing its effective date to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 318, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 318, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Harimoto, Ihara, Riviere and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Lowen, DeCoite, Johanson and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 66 on H.B. No. 1153

The purpose of this measure is to recognize the sacrifices made by members of the United States armed forces by exempting qualifying veterans who are totally and permanently disabled from paying the annual vehicle registration fee for motor vehicles registered after an unspecified date.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the annual vehicle registration fee exemption applies to motor vehicle registrations issued or renewed after January 1, 2016; and
- (2) Making a technical, nonsubstantive amendment for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1153, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1153, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Nishihara, Inouye, Kidani and Slom.
Managers on the part of the Senate.

Representatives Ito, Aquino, Cullen, Tokioka and Tupola.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 67 on H.B. No. 206

The purpose of this measure is to amend the Hawaii Public Procurement Code to require that all publicly-funded landscaping projects include a specified minimum percentage of Hawaiian plants in order to contribute to a Hawaiian sense of place, reduce the use of non-native and invasive plant species, and preserve Hawaii's ecological and cultural heritage.

Your Committee has amended this measure by:

- (1) Clarifying the procedure for determining allowable exemptions from the required minimum percentage of Hawaiian plants by specifying that the Procurement Policy Board may establish procedures, standards, or guidelines without regard to chapter 91, Hawaii Revised Statutes, for determining exclusions from total plant footprint calculations at the time that invitations for bids, requests for proposals, or other solicitations for each landscaping project are issued;
- (2) Specifying that Hawaiian plants that satisfy the minimum percentage requirement include both indigenous and endemic plant species; and
- (3) Making the measure effective upon approval and making the statutory section establishing the required minimum percentages of Hawaiian plants effective on June 30, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 206, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 206, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Galuteria, English, Ruderman and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Ruderman, Slom).

Representatives Ing, Lowen, Keohokalole and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 68 on H.B. No. 207

The purpose of this measure is to support Hawaii's statutory and constitutional mandate to protect native Hawaiian and Hawaiian traditional and customary rights by ensuring that members of government agencies that make decisions or formulate policy that affect or concern these rights are fully informed of their relevant duties and obligations.

This measure requires the Office of Hawaiian Affairs to develop a training course on native Hawaiian and Hawaiian traditional and customary rights, natural resource protection and access rights, and the public trust. It further requires members of certain state boards and commissions to complete this training course and permits any officer, representative, or employee of the State or a county to enroll in the training course.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the training course shall include natural resource protection and access rights;
- (2) Making it effective on July 1, 2015; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 207, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 207, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Dela Cruz, Galuteria, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Representatives Ing, Lowen, Keohokalole and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 69 on H.B. No. 1489

The purpose of this measure is to acknowledge and observe the importance of national parks in Hawaii. More specifically, this measure, among other things:

- (1) Requires the Director of Finance of each county to issue special number plates recognizing Haleakala National Park, Hawaii Volcanoes National Park, or both, to a registered owner of a motor vehicle who completes an application and pays required fees;
- (2) Requires the Director of Finance of the City and County of Honolulu, in consultation with the Directors of Finance of the Counties of Kauai, Maui, and Hawaii, the Chiefs of Police of the City and County of Honolulu, and the Counties of Kauai, Maui, and Hawaii, and the Superintendents of Haleakala National Park and Hawaii Volcanoes National Park, to establish the design of the special number plates;
- (3) Authorizes the Director of Finance of the City and County of Honolulu to establish a special number plate design that either jointly or separately recognizes Haleakala National Park and Hawaii Volcanoes National Park;
- (4) Establishes design restrictions on the special number plates;
- (5) Authorizes the Director of Finance of each county to determine the most efficient means of directing the revenue generated by the special number plate fees to the respective national park, or its partner nonprofit organization, as appropriate; and
- (6) Authorizes the Directors of Finance of each county to revoke all special number plates issued to commemorate Hawaii's national parks if the total number of registered vehicles that obtain the special number plates is less than 150 within three years of issuance of the first special number plate.

Hawaii is fortunate to have two national parks that preserve the unique environments of the Haleakala, Mauna Loa, and Kilauea volcanoes and their surroundings: Haleakala National Park and Hawaii Volcanoes National Park. Through the work of the National Park Service, millions of visitors from around the world have the opportunity to enjoy these parks and learn about the special natural resources and important cultural history of these places. As 2016 marks the 100th anniversary of the establishment of these national parks in Hawaii, your Committee on Conference finds that authorizing the issuance of special license plates recognizing Haleakala National Park and Hawaii Volcanoes National Park would be a fitting tribute to these parks.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2015; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1489, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1489, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, English and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, Yamashita, Har, Onishi and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Har, Tupola).

Conf. Com. Rep. 70 on H.B. No. 1010

The purpose of this measure is to reduce the negative impacts inherent to widespread use of motor vehicles including traffic congestion, greenhouse gas emissions, air pollution, and a reliance on fossil fuels in the transportation sector. Specifically, this measure promotes the use of commuter benefits programs by allowing counties to adopt ordinances requiring employers to offer

employees specified commuter benefits options to encourage the use of alternative modes of transportation to commute to and from work.

Your Committee on Conference finds that the use of commuter benefits programs will promote alternative forms of transportation, resulting in the reduction of traffic congestion, greenhouse gas emissions, air pollution, and the State's reliance on imported fossil fuel, and lead to an enhanced quality of life for the State's commuters.

Your Committee on Conference has amended this measure by:

- (1) Including transportation furnished by an employer at no cost or low cost, as determined by the designated authority, to employees in a vanpool, bus, or similar multi-passenger vehicle operated by or for the employer as one of the specified commuter benefits options;
- (2) Changing its effective date to July 1, 2015; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1010, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1010, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Nishihara, Keith-Agaran, Harimoto and Ruderman.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Aquino, Rhoads, Cullen, Har, LoPresti and Tupola.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 71 on H.B. No. 252

The purpose of this measure is to:

- (1) Establish requirements for a pharmacy benefit manager that reimburses a contracting pharmacy for a drug on a maximum allowable cost basis; and
- (2) Require pharmacy benefit managers to have a clearly defined process for a contracting pharmacy to appeal the maximum allowable cost for a drug on a maximum allowable cost list and establish requirements for that process.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2015; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee on Conference recognizes that there is a concern because the measure does not specify the maximum length of time afforded to file an appeal with the pharmacy benefit manager. Your Committee on Conference understands that the applicable deadlines for filing an appeal are provided for in the Pharmacy Benefit Manager's Manual.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 252, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 252, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Kouchi, Wakai and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Slom).

Representatives McKelvey, Belatti, Nishimoto, Oshiro and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Oshiro).

Conf. Com. Rep. 72 on H.B. No. 142

The purpose of this bill is to amend the requirements for issuing affordable housing credits for housing units developed by the Department of Hawaiian Home Lands by:

- (1) Authorizing the issuance of additional credits for eligible housing units as provided by adopted county ordinances, rules, or memoranda of agreement;
- (2) Requiring that twenty-five percent of the revenue from any credits transferred by the Department be used by the Department to develop rental properties;
- (3) Permitting the Department to enter into a memorandum of agreement with each issuing county to establish, modify, or clarify the conditions for the issuance, transfer, and redemption of affordable housing credits in accordance with county affordable housing ordinances or rules;

- (4) Requiring at least half of the affordable housing credits issued by the City and County of Honolulu to the Department to be subject to a memorandum of agreement; and
- (5) Making permanent Act 141, Session Laws of Hawaii 2009, and Act 98, Session Laws of Hawaii 2012, that established the counties' authority to issue affordable housing credits for housing developed by the Department of Hawaiian Home Lands.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that twenty-five percent of any monetary proceeds from credits transferred by the Department shall be used to develop units for rental properties;
- (2) Specifying that only the County of Kauai and the City and County of Honolulu may enter into memoranda of agreement with the Department;
- (3) Extending the sunset dates for Act 141, Session Laws of Hawaii 2009, and Act 98, Session Laws of Hawaii 2012, to July 1, 2019, instead of repealing the sunset dates; and
- (4) Changing the effective date to June 29, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 142, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 142, H.D. 1, S.D. 2, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 73 on H.B. No. 277

The purpose of this measure is to encourage the development of affordable housing by providing the counties with a financing option to support infrastructure for affordable housing projects. Specifically, this measure:

- (1) Permits the Hawaii Housing Finance and Development Corporation to issue and sell revenue bonds to provide funding for county improvements, upon request by a county; and
- (2) Allows counties the option to use community facilities districts as a method for repayment of infrastructure development loans administered by the Hawaii Housing Finance and Development Corporation.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 277, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 277, H.D. 1, S.D. 1, C.D. 1.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 74 on H.B. No. 1251

The purpose of this measure is to provide assistance to public charter schools and early learning programs by, among other things:

- (1) Establishing a framework for public charter schools and early learning programs to use and occupy vacant state facilities;
- (2) Requiring the Board of Education to include information on facility and project funding in its annual report on public charter schools;
- (3) Requiring the Legislature, starting with the 2016-2017 fiscal year, to consider appropriations and bond authorizations for charter school facilities;
- (4) Establishing a Charter School Facilities Funding Working Group to advise the State Public Charter School Commission on prioritizing general fund appropriations and bond proceeds for public charter schools; and
- (5) Appropriating funds and authorizing the issuance of general obligation bonds for charter school facilities and improvements.

Your Committee on Conference has amended the measure by:

- (1) Specifying that only public charter schools and early learning programs affiliated with a public charter school are eligible to use and occupy vacant state facilities;

- (2) Removing the Executive Office on Early Learning from the framework for public charter schools and early learning programs to use and occupy vacant state facilities;
- (3) Deleting the appropriations and the authorization to issue general obligation bonds;
- (4) Changing its effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1251, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1251, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Tokuda, Dela Cruz, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Takumi, Luke, Ing, Kong and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 75 on H.B. No. 169

The purpose of this measure is to promote fairness in the imposition of tax on different transient accommodation business models by amending the definition of “fair market rental value” applicable to the transient accommodations tax and gradually increasing the transient accommodations tax rate imposed on resort time share vacation units by 1 percent each year until the amount of the tax rate is increased from the current 7.25 percent to 9.25 percent.

Your Committee on Conference finds that a change to the definition of “fair market rental value” is in order because the Department of Taxation has not exercised its discretion to take into account comparable transient accommodation rentals or other appraisal methods. However, the Department of Taxation believes that the scope of the gross daily maintenance fees should be clarified so that there is little question as to what is included and what is not included. The tax is based on the maintenance fees of the time share plan and does not include charges for optional goods or services such as food and beverage service. The purpose of this change is not intended to expand or reduce the scope of fees included in the gross daily maintenance fees, and as such, fees such as food and beverage, or other recreational rentals, as well as time share units’ condominium association assessments should not be included.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of fair market value to:
 - (A) Clarify its application to time share units located in Hawaii;
 - (B) Specify that gross daily maintenance fees also include resort fees; and
 - (C) Exclude amounts paid for optional goods and services, such as food and beverage service;
- (2) Changing the effective dates of each tax rate as follows:
 - (A) The current 7.25 percent until December 31, 2015;
 - (B) 8.25 percent from January 1, 2016, to December 31, 2016; and
 - (C) 9.25 percent from January 1, 2017, and thereafter; and
- (3) Changing its effective date to January 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 169, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 169, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Tokuda and Kouchi.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Kouchi).

Representatives Brower, Luke, Ohno and Ward.

Managers on the part of the House.

Ayes, 2. Noes, 1 (Ward). Excused, 1 (Ohno).

Conf. Com. Rep. 76 on S.B. No. 1361

The purpose of this measure is to increase transparency in the state budgeting process by:

- (1) Requiring the inclusion of program position ceilings and identification of permanent and temporary positions in the Executive and Judiciary budgets and related documents; and
- (2) Prohibiting the expenditure of funds on positions exceeding the applicable ceiling, subject to certain exceptions.

Your Committee on Conference finds that this measure will assist the Legislature in preparing more fiscally responsible budgets by ensuring that it receives accurate information. Further, this measure is intended to allow the Governor the flexibility to react quickly to pressing needs of the State by establishing civil service exempt positions in certain circumstances.

Your Committee on Conference has amended this measure by:

- (1) Inserting a new section within chapter 76, Hawaii Revised Statutes, providing that, with the approval of the Governor, the head of a department may establish and abolish any subordinate position for an employee engaged in a special, research, or demonstration project that is approved by the Governor, subject to the limitations of available appropriations, and making this section effective upon approval;
- (2) Inserting an effective date of July 1, 2016, for the rest of the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1361, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1361, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda, Gabbard, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kouchi).

Ayes, 3. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 77 on S.B. No. 996

The purpose of this measure is to appropriate an unspecified amount for fiscal year 2015-2016 to the State Ethics Commission to design and develop a system that allows filers to electronically file required statements and reports with the Commission.

Your Committee on Conference finds that this measure will enable the State Ethics Commission to allow filers to electronically file their required statements and reports by appropriating funds for a new electronic filing system.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$130,000 to the State Ethics Commission to design and develop an electronic filing system; and
- (2) Inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 996, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 996, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Riviere, Ihara, Shimabukuro and Slom.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 78 on S.B. No. 1345

The purpose of this measure is to transition public schools away from the multi-track schedule and give overpopulated schools priority for capital improvement projects in order to develop facilities to accommodate the student population.

Your Committee on Conference finds that public school multi-track schedules are not driven by educational outcomes, but by economic considerations. Generally, schools on multi-track schedules have enrollment numbers that exceed school capacity. The school population is served by grouping students on various tracks and staggering their school break schedules. This allows smaller school facilities to meet the demands of larger populations by being in constant use, but serving only a portion of the total student population at any given time. Transitioning away from this model will require a number of interventions, but will be a positive change for students, teachers, and families. Establishing a traditional school schedule in every school will also provide a time period when facilities are not in use and regular school maintenance and upgrades may be completed without disrupting instructional time.

Your Committee on Conference has amended this measure by:

- (1) Deleting language requiring the Department of Education to give priority to overpopulated schools, including multi-track schools, for capital improvement project requests made as part of its annual budget request and authorizing the Legislature to make appropriations to the Department of Education accordingly;
- (2) Inserting an appropriation of \$200,000 to the Department of Education for the development of a transition plan to end the use of multi-track schedules in public schools;

- (3) Inserting an effective date of July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1345, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1345, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Tokuda, Dela Cruz, Harimoto and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 79 on S.B. No. 374

The purpose of this measure is to expand opportunities for high school students to earn high school and college credits simultaneously by:

- (1) Broadening current law to include all dual credit programs;
- (2) Broadening eligibility to participate in the program;
- (3) Allowing for multiple measures of assessment to determine eligibility; and
- (4) Appropriating funds for the instruction, courses, and administration of college credits, thus allowing broader participation by various types of students.

Your Committee on Conference finds that students who participate in dual credit programs are more likely to attend college and are more likely to earn a degree. The dual credit initiative will alleviate some financial obstacles associated with earning college credits, and may help high school students understand that college is a possibility for them.

Your Committee on Conference has amended this measure by:

- (1) Deleting language making home-schooled high school students eligible for the dual credit program established under the Department of Education;
- (2) Deleting language mandating that student qualifications be uniform across all campuses that offer qualified courses;
- (3) Deleting language appropriating funds to provide the Department of Education with staff and resources to administer the dual credit program;
- (4) Deleting language appropriating funds to provide the University of Hawaii with staff and resources to administer the dual credit program;
- (5) Making this measure effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 374, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 374, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Taniguchi, Dela Cruz, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 80 on S.B. No. 92

The purpose and intent of this measure is to update the Department of Taxation's requirement to publish reports.

Specifically, this measure:

- (1) Specifies that the Department report on the Hawaii income patterns of businesses, rather than corporations, proprietorships, and partnerships;
- (2) Requires the Department to report on specific general excise tax exemptions;
- (3) Provides specific timelines for the Department to publish reports;
- (4) Requires the Department, by December 31, 2015, to report to the Legislature on the status of upgrading its forms and reporting capabilities per the implementation of the Department of Taxation's tax system modernization; and

- (5) Repeals obsolete annual reporting requirements.

Your Committee on Conference finds that pursuant to section 231-3.4, Hawaii Revised Statutes, the Department of Taxation publishes reports on tax credits and Hawaii income patterns. Your Committee on Conference believes that a reporting requirement regarding general excise tax exemptions would provide useful information to determine the effectiveness of such exemptions. Your Committee on Conference further finds that a progress report on the Department's upgrades to its forms and reporting capabilities would be valuable because the Department is in the process of modernizing its systems.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 92, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 92, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Jordan, Johanson and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 81 on S.B. No. 104

The purpose of this measure is establish a pilot project for the development of and data collection for efficiency measures intended to be included with budget documents submitted to the Legislature.

More specifically, this measure:

- (1) Requires the Director of Finance to select one state department to participate in the pilot project;
- (2) Requires the selected state department to submit at least three proposed efficiency measures to the Director of Finance;
- (3) Requires the Director of Finance to approve the efficiency measures to be used by the selected state department;
- (4) Requires the Director of Finance to submit to the Legislature a report of its findings and recommendations concerning the pilot project and efficiency measures used;
- (5) Requires the Auditor to submit to the Legislature a report evaluating the pilot project; and
- (6) Appropriates moneys to the Department of Budget and Finance for the pilot project.

Your Committee on Conference finds that the identification and use of efficiency measures can assist the State in determining realistic department functionality and can ensure that the planned investment of funds is thoroughly considered against anticipated outcomes. Your Committee on Conference believes that the establishment of a single-department based efficiency measure pilot project will provide the State with the information it needs to implement efficiency measures across all state departments in the future.

Your Committee on Conference has amended this measure by:

- (1) Inserting a \$100,000 appropriation for fiscal year 2015-2016;
- (2) Deleting the appropriation for fiscal year 2016-2017;
- (3) Adding language that specifies that any unexpended or unencumbered moneys appropriated by section 8 of this measure lapse on June 30, 2017; and
- (4) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 104, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 104, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, DeCoite and Pouha.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (DeCoite).

Conf. Com. Rep. 82 on S.B. No. 105

The purpose of this measure is to require that information regarding the projected annual debt service for bonds issued to finance capital improvement projects be included in the six-year program and financial plan and budget documents submitted to the Legislature.

Your Committee on Conference finds that balancing the state budget is an intricate and time-consuming process for the Legislature. Forward-looking financial planning, including the identification and consideration of known or potential costs, is a matter of best practices in budgeting. Your Committee on Conference further finds that having additional information relating to anticipated debt service costs will allow the Legislature to make the best decisions regarding the funding of proposed capital improvement projects, agree on a balanced budget that more accurately and comprehensively reflects state costs, and better prepare for the State's fiscal future.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 105, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 105, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Kouchi).

Representatives Luke, Yamashita and Pouha.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 83 on S.B. No. 118

The purpose of this measure is to clarify the law regarding the dividends paid income tax deduction for real estate investment trusts.

More specifically, this measure:

- (1) Requires a real estate investment trust to make an affirmative election to be taxed as a real estate investment trust and provide certain information required by the Department of Business, Economic Development, and Tourism for the purposes of producing any report mandated by the Legislature; and
- (2) Requires and appropriates moneys for the Department of Business, Economic Development, and Tourism to study the impact of real estate investment trusts in Hawaii and the possible effect of repealing the dividends paid deduction for real estate investment trusts.

Your Committee on Conference finds that the tax treatment of income generated by real estate investment trusts is controversial. Your Committee on Conference presently lacks sufficient information on the economic impact of real estate investment trusts in Hawaii or tax revenues generated or avoided by these trusts to determine whether and how to amend the tax laws that apply to them. Accordingly, your Committee on Conference believes that a comprehensive study on the impact of real estate investment trusts in Hawaii is necessary before taking action on a measure that may have substantial impacts on Hawaii's economy.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that a real estate investment trust make an affirmative election to be taxed as a real estate investment trust and provide certain information required by the Department of Business, Economic Development, and Tourism for the purposes of producing any report mandated by the Legislature;
- (2) Changing the appropriation amount from an unspecified sum to \$100,000; and
- (3) Changing the effective date from July 1, 2030, to effective upon approval, except for the appropriation section, which takes effect on July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 118, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 118, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, San Buenaventura, Johanson, Hashem and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, McDermott).

Conf. Com. Rep. 84 on S.B. No. 250

The purpose of this measure is to clarify the state expenditure of federal funds.

More specifically, this measure:

- (1) Subjects the disbursement of federal-aid moneys to legislative appropriation or other law authorizing expenditure;
- (2) Amends the definitions of "federal aid interstate", "federal aid primary", "federal aid secondary", and "federal aid urban" in the Executive Budget Act to include funds reasonably anticipated to be received from the federal government;

- (3) Changes the definition of “federal receipts” to “federal funds” in the Executive Budget Act and includes within that definition financial aid reasonably anticipated to be received from the federal government;
- (4) Defines “unanticipated federal moneys” and allows their expenditure without an appropriation when authorized by proviso in the Budget or Supplemental Budget Act; and
- (5) Clarifies the intent that this measure applies to the Judiciary by operation of section 601-2, Hawaii Revised Statutes, and clarifies the Judiciary’s budgetary reporting requirements under that section.

Your Committee on Conference finds that this measure will promote transparency in budgeting, enhance the Legislature’s appropriation authority, and increase current and potential beneficiaries’ awareness of the availability of federal funds to improve their future budget planning efforts. Your Committee on Conference believes that the clarifications made by this measure will assist the Legislature in gaining a more accurate understanding of federal funding amounts received by state agencies. This additional information will allow the Legislature to make better assessments of agency budgets, further facilitating fiscal accountability.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 250, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 250, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Dela Cruz).

Representatives Luke, Johanson and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 85 on S.B. No. 253

The purpose of this measure is to address state debt.

Specifically, the measure:

- (1) Requires the Director of Finance to submit to the Legislature:
 - (A) A state debt management policy prior to the convening of the Regular Session of 2017; and
 - (B) A debt affordability study prior to the convening of the regular session of each odd-numbered year; and
- (2) Appropriates moneys for the preparation of the state debt management policy and the debt affordability study.

Your Committee on Conference believes that a formalized debt management policy and debt affordability study will promote both transparency in budget-making and more informed decision-making with respect to authorizations for capital improvement projects and debt issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 in section 3 of the measure; and
- (2) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 253, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 253, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kouchi and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 86 on S.B. No. 254

The purpose of this measure is to require the Director of Finance to include the estimated operational costs of proposed capital improvement projects, and deferred maintenance costs for state-owned buildings, facilities, and other improvements, within the multi-year program and financial plan and each annual budget submitted to the Legislature.

This measure is also intended to apply to the annual budget information submitted by the Judiciary by operation of section 601-2, Hawaii Revised Statutes.

Your Committee on Conference finds that state ownership of buildings, facilities, and other improvements necessitates careful planning and prudent expenditures for operations and maintenance. Requiring the Director of Finance to provide cost estimates for the

operation of proposed capital improvements and for expenditures related to the maintenance of state-owned properties will help policy-makers better understand the financial implications of capital improvement and operational cost-saving investments.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 254, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 254, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Keith-Agaran, Chun Oakland, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

Representatives Luke, Tokioka and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 87 on S.B. No. 854

The purpose of this measure is to:

- (1) Authorize the Department of Education to enter into leaseback agreements; and
- (2) Require that public school lands be leased to lessees who shall be required to modify, construct, or utilize facilities to benefit public educational purposes.

Your Committee on Conference finds that it is important to leverage state resources when appropriate to obtain the best results for the people of Hawaii. Leaseback agreements provide opportunities for improvements to state facilities without the State losing ownership of land or facilities. Such agreements allow for flexibility in the lease process and provide the Department of Education with more options for facility construction, renovation, and expansion.

Your Committee on Conference has amended this measure by:

- (1) Making this measure effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 854, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 854, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Tokuda, Dela Cruz, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Representatives Takumi, Yamane, Yamashita, Ohno and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 88 on S.B. No. 376

The purpose and intent of this measure is to create a farm to school program in the Department of Agriculture and to provide funding for a farm to school coordinator position to oversee the State's farm to school program.

Your Committee on Conference finds that farm to school activities support a nutritious school food environment and that more than eighty-five percent of the youth in Hawaii attend public schools. Students who participate in farm to school activities are more likely to be familiar with, have a preference for, and consume more fruits and vegetables at school and at home, thereby establishing healthy behaviors at an early age that may prevent the onset of chronic diseases and other health conditions later in life.

Your Committee on Conference also finds that Act 55, Session Laws of Hawaii 2013, encourages the purchase and use of Hawaii grown food and food products by residents, businesses, and governmental bodies. Your Committee on Conference supports increasing the procurement of local agricultural products for schools, which has the added benefit of supporting the State's local farmers and agricultural economy.

Your Committee on Conference has amended this measure by:

- (1) Inserting one full-time equivalent (1.0 FTE) farm to school coordinator position;
- (2) Inserting an appropriation amount of \$75,000 for the farm to school coordinator position;
- (3) Changing the source of the appropriation to the agricultural development and food security special fund; and
- (4) Inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 376, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 376, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Kidani, Riviere, Chun Oakland and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Representatives Tsuji, Takumi, Onishi, Ohno and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 89 on S.B. No. 387

The purpose of this measure is to establish a task force to review and make recommendations on the University of Hawaii's executive policy on domestic violence, dating violence, sexual assault, and stalking.

Your Committee on Conference finds that affirmative consent policies adopted by hundreds of colleges and universities throughout the nation have contributed to supportive campus dialogues regarding healthy relationships and the necessity of consent in sexual activities by all parties. Your Committee on Conference further finds that these policies demonstrate a trend of growing commitment within institutions of higher education to provide safe and respectful campus environments.

Your Committee on Conference further finds that the University of Hawaii Board of Regents recently adopted a new executive policy concerning sexual harassment, sexual assault, domestic violence, dating violence, and stalking. This executive policy requires the various University of Hawaii campuses to implement a variety of comprehensive education and prevention programs and provide information and assistance for individuals who report alleged sexual harassment and sexual violence, as well as prompt and equitable complaint procedures and corrective actions capable of preventing future incidents of harassment and sexual violence.

Your Committee on Conference additionally finds that the University's new executive policy contains a definition of "affirmative consent" that is substantively similar to the definition contained in prior versions of this measure. Accordingly, language in this measure requiring the University to implement an affirmative consent policy is no longer necessary.

As such, this measure establishes an affirmative consent task force charged with reviewing and evaluating the current executive policy with particular focus on the current infrastructure, resources, and practices of the University of Hawaii. Your Committee on Conference notes that the diverse membership of this task force will help to ensure the development, adoption, and maintenance of a viable affirmative consent policy.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2015; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 387, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 387, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Shimabukuro, English, Thielen and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Ichiyama, San Buenaventura, Tokioka, Morikawa and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Tokioka).

Conf. Com. Rep. 90 on S.B. No. 40

The purpose of this measure is to:

- (1) Establish the behavior analyst program within the Department of Commerce and Consumer Affairs;
- (2) Require the licensing of behavior analysts for the practice of behavior analysis; and
- (3) Appropriate funds out of the compliance resolution fund to implement the behavior analyst program.

Your Committee on Conference finds that behavior analysts engaged in the practice of behavior analysis typically treat individuals with autism spectrum disorders. Your Committee on Conference further finds that behavior analysts are currently credentialed through the Behavior Analyst Certification Board. However, there is growing interest in licensure at the state level to protect the rights of behavior analysts to practice their discipline and increase consumer protection. Furthermore, federal requirements specify providers of services must be licensed in their profession in order to participate in Medicaid.

Accordingly, this measure addresses the urgent need for a licensing process for behavior analysts in Hawaii, thereby ensuring that these professionals can provide an appropriate level of care and be appropriately reimbursed for their services. Your Committee on Conference notes that it is imperative that the licensing of behavior analysts begin concurrently with any mandated insurance coverage for the diagnosis and treatment of autism.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the license and renewal surcharge to be paid by each behavior analyst shall be \$100;

- (2) Specifying that the registration system for behavior analysts established by this measure shall be repealed on June 30, 2021;
- (3) Inserting an appropriation amount of \$40,000 from the compliance resolution fund; and
- (4) Inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 40, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 40, S.D. 3, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, McKelvey, Luke, Har and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 91 on S.B. No. 158

The purpose of this measure is to require that information on the State's pension and other post-employment benefit liabilities be included in the six-year program and financial plan and budget documents submitted to the Legislature.

Your Committee on Conference finds that identifying and considering both known and potential costs is part of budgeting best practices. Your Committee on Conference also finds that including pension and other-post employment benefit information in the fiscal documents submitted to the Legislature promotes transparency in state budgeting. Furthermore, the inclusion of this information in fiscal documents will allow the Legislature to develop more comprehensive, responsible, and detailed six-year financial plans and budgets.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 158, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 158, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda, Kouchi, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Kouchi).

Representatives Nakashima, Luke, Ichiyama and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ichiyama).

Conf. Com. Rep. 92 on S.B. No. 1080

The purpose of this measure is to appropriate funds for collective bargaining unit cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee on Conference finds that the Governor's office has informed the Legislature that negotiations for collective bargaining unit (5) have been completed and have resulted in a supplemental agreement being executed regarding collective bargaining unit (5).

Your Committee on Conference has amended this measure to reflect the terms of the supplemental agreement entered into with regard to collective bargaining unit (5).

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1080, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1080, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke, Nishimoto and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 93 on S.B. No. 1081

The purpose of this measure is to appropriate funds for collective bargaining unit cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (10) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee on Conference finds that the Governor's office has informed the Legislature that negotiations for collective bargaining unit (10) have been completed and have resulted in a memorandum of agreement being executed regarding employer union health benefits trust fund contributions for collective bargaining unit (10). The Governor's office further has informed the Legislature that the State has also reached a supplemental agreement regarding employer union health benefits trust fund contributions for collective bargaining unit (1).

Your Committee on Conference has amended this measure by:

- (1) Reflecting the terms of the memorandum of agreement entered into with regard to collective bargaining unit (10) and the supplemental agreement entered into with regard to collective bargaining unit (1); and
- (2) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1081, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1081, S.D. 1, H.D. 1, C.D. 1.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 95 on S.B. No. 544

The purpose of this measure is to rejuvenate areas that have become dilapidated, obsolete, or deteriorated in the Kanoiehua industrial area on the Island of Hawaii by defining management policies and establishing within the Department of Land and Natural Resources, a four-year redevelopment pilot project for the Kanoiehua industrial area and adjacent public lands in south Hilo, Hawaii.

Your Committee on Conference finds that the Department of Land and Natural Resources has the responsibility of planning for the disposition of commercial, industrial, hotel, and resort classes of public lands to determine: specific use or uses; minimum size of parcels; required building construction or improvements; and lease terms and requirements.

Your Committee on Conference further finds that one of the consequences of the state law requiring that public land leases be issued pursuant to public bidding is that an existing lessee may have little incentive to make major repairs or improvements to their leasehold properties during the last five to fifteen years of the lease, which sometimes results in the deterioration of infrastructure and facilities.

Your Committee on Conference further finds that the rejuvenation of areas of public lands that have become dilapidated, obsolete, or have deteriorated over time is in the public interest and constitutes a valid public purpose.

Your Committee on Conference has amended this measure by deleting its contents and inserting provisions to:

- (1) Require the Legislative Reference Bureau to study how other select states manage end-of-term commercial leases involving public lands and to identify best practices in commercial leasing of public lands. Specifically, the Bureau will conduct a study on how other select states administer, renegotiate, re-open, extend, or otherwise dispose of long-term leases of public lands that are about to expire to determine how the respective government lessors manage, handle, or deal with leases that terminate within ten years and have lessees or tenants who are unwilling or unable to secure financing to invest capital into improvements that they cannot recoup due to the limited remaining term of the lease;

- (2) Require the Bureau to report to the Legislature prior to the Regular Session of 2016 its findings and recommendations, including proposed legislation;
- (3) Appropriate \$100,000 to the Legislative Reference Bureau to conduct the study; and
- (4) Insert an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 544, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 544, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Thielen, Gabbard, Tokuda, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Lee, Yamane, Luke, Lowen and Pouha.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 96 on S.B. No. 1090

The purpose and intent of this measure to require, rather than permit, the Employees' Retirement System to collect information from state and county departments and agencies in a required format and to penalize departments and agencies for failure to provide the required information.

The measure also requires the Employees' Retirement System to submit reports to the Legislature prior to the convening of the Regular Sessions of 2016 to 2020 on the progress of state and county departments and agencies in their efforts to comply with section 88-103.7, Hawaii Revised Statutes, as amended by this measure.

Your Committee on Conference finds that this measure will facilitate the Employees' Retirement System's efforts to more expediently collect and process member information, thereby facilitating the prompt payment of retirement benefits to government retirees and their beneficiaries.

Your Committee on Conference amended this measure by intentionally delaying the effective date until July 1, 2020, given agency concerns over compliance; provided that section 2 of the measure, which requires the Employees' Retirement System to submit progress reports to the Legislature, will remain effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1090, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1090, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda, Ruderman, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Nakashima, Keohokalole, LoPresti and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 97 on S.B. No. 661

The purpose of this measure is to:

- (1) Establish the Hawaii unmanned aerial systems test site Chief Operating Officer position to, among other things, serve on the Pan-Pacific Unmanned Aerial Systems Test Range Complex management team;
- (2) Establish an advisory board to oversee and manage unmanned aerial systems test site operations; and
- (3) Appropriate funds to staff and operate Hawaii's unmanned aerial systems test site activities.

Your Committee on Conference finds that unmanned aerial systems are an emerging technology with significant capability for commercial and national security applications. The integration of unmanned aerial systems into the national air space will generate a technological asset that is estimated to be worth more than \$13,600,000,000 during the first three years of integration and more than \$82,000,000,000 during the next ten years, and create approximately 103,776 new jobs by 2025. Implementation of this measure will provide Hawaii, a member of the Pan-Pacific Aerial Systems Test Range Complex, with an opportunity to support the development of technology that can have a substantial positive impact on the State's economy.

Your Committee on Conference has amended this measure by:

- (1) Inserting the purpose section of the S.D. 2 version;
- (2) Requiring the Department of Business, Economic Development, and Tourism to hire, rather than establishing within the Department, a Hawaii unmanned aerial systems test site Chief Operating Officer;
- (3) Deleting language that requires the chief operating officer to be subject to chapter 84, Hawaii Revised Statutes;

- (4) Clarifying that the Chief Operating Officer may employ one administrative assistant, rather than one administrative assistant on a full-time basis;
- (5) Inserting an appropriation amount of \$150,000 for fiscal year 2015-2016 for the purpose of staffing and operating Hawaii's unmanned aerial systems test site activities;
- (6) Deleting language appropriating funds for fiscal year 2016-2017;
- (7) Inserting an effective date of July 1, 2015; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 661, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 661, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Taniguchi, English, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Representatives Kawakami, Johanson, Kong and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 98 on S.B. No. 1158

The purpose of this measure is to establish a special fund for the operation, maintenance, and management of the Pacific International Space Center for Exploration Systems' projects, facilities, services, and publications and for the design and construction of facilities and renovation of or addition to existing facilities.

Your Committee on Conference finds that the Pacific International Space Center for Exploration Systems was established to attract and retain aerospace investment in the State and to bridge the gap between the public and private sector in aerospace-related activities. Your Committee on Conference further finds that the Pacific International Space Center for Exploration Systems only has the ability to receive and expend funds allocated within the state budget and does not have a mechanism to receive or expend funds from any other source. Additional sources of funding would allow the organization to initiate and engage in more activities, accelerate the rate of progress on existing initiatives, and better prepare for future project needs by adding appropriate facilities.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1158, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1158, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Harimoto and Inouye.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Kawakami, Johanson, DeCoite and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 99 on S.B. No. 1211

The purpose of this measure is to:

- (1) Increase the expenditure ceiling on major disaster fund monies for immediate relief as a result of any single emergency or disaster;
- (2) Increase additional funds available for the purpose of matching federal disaster relief funds when these funds become available to the State following a presidential disaster declaration; and
- (3) Require the Adjutant General to report to the Legislature the purpose of any allotment or expenditure of fund monies within one month of the allotment or expenditure.

Your Committee on Conference finds that the State is vulnerable to a wide range of natural and man-made hazards that may result in emergencies or disasters that are extremely costly. The major disaster fund is used to provide immediate relief in response to an emergency or disaster in any part of the State. However, existing law provides that the Governor may expend no more than \$2,000,000 for immediate relief as a result of any single emergency or disaster and no more than \$2,000,000 to match federal disaster relief funds following a presidential disaster declaration. Implementation of this measure will authorize the Governor to expend a higher amount if required by a future emergency or disaster.

Your Committee on Conference has amended this measure by:

- (1) Increasing the expenditure ceiling on major disaster fund monies to \$5,000,000 for immediate relief as a result of any single emergency or disaster;

- (2) Increasing additional funds available for the purpose of matching federal disaster relief funds when these funds become available to the State following a presidential disaster declaration to \$5,000,000;
- (3) Appropriating \$1,500,000 for fiscal year 2015-2016 for deposit into the major disaster fund;
- (4) Inserting an effective date of July 1, 2015; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1211, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1211, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Takayama, Nishimoto, Tokioka and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 100 on S.B. No. 791

The purpose of this measure is to require accident and health or sickness insurers, mutual benefit societies, and health maintenance organizations to provide coverage for autism diagnosis and treatment.

Your Committee on Conference finds that autism spectrum disorder treatments, including applied behavior analysis, are essential and have the potential to change the lives of children with autism. Your Committee on Conference further finds that no child with autism in Hawaii should be denied proper treatment due solely to the cost of the treatment. Requiring this benefit to apply to certain qualified health plans may trigger an obligation to the State to defray the cost of such coverage in these plans. However, the largest health plan under chapter 432, Hawaii Revised Statutes, and the largest health maintenance organization under chapter 432D, Hawaii Revised Statutes, have agreed that they will not seek reimbursement from the State for providing this coverage. This will ensure that there is coverage for the benefit across all markets without a cost to the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that cites this measure as “Luke’s Law”;
- (2) Specifying that the coverage required by this measure applies to policies issued or renewed after January 1, 2016, and covers the insured and individuals fourteen years of age and under;
- (3) Deleting language that would have allowed the Insurance Commissioner to determine maximum benefits for applied behavioral analysis coverage;
- (4) Specifying that coverage for applied behavioral analysis shall be subject to a maximum benefit of \$25,000 per year for services for children ages thirteen years and under;
- (5) Clarifying that coverage for autism diagnosis and treatment may be subject to copayment, deductible, and coinsurance provisions of a policy that are no less favorable than the copayment, deductible, and coinsurance provisions for substantially all medical services covered by the policy;
- (6) Deleting language that would have required an insurer who requests a review of the medical necessity of a patient’s treatment for autism, except for inpatient services, to pay for the review;
- (7) Deleting language that would have required all qualified health plans to provide specific benefits even if the benefits may exceed the essential health benefits specified under section 1302(b) of the Patient Protection and Affordable Care Act of 2010 (P.L. 111-148);
- (8) Clarifying that an individual may be required to undergo repeat evaluation to remain eligible for coverage if a more recent edition of the Diagnostic and Statistical Manual of Mental Disorders is published after diagnosis;
- (9) Clarifying the definition of “autism” to mean the same as “autism spectrum disorder” as defined by the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders;
- (10) Substituting the term “habilitative services” with the term “behavioral health treatment” throughout the measure;
- (11) Inserting a savings clause;
- (12) Inserting an effective date of July 1, 2015; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 791, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 791, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Tokuda, Gabbard and Wakai.

Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Representatives Belatti, McKelvey, Luke, Creagan and Fukumoto Chang.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 101 on H.B. No. 500

PART I. OVERVIEW

Your Committee on Conference has formulated an executive budget that is fiscally responsible.

Your Committee on Conference has approved a Conference Draft of the executive budget that reduces the operating budget request submitted by the Administration. The Conference Draft appropriates an additional \$727,178,791 in all funds, inclusive of \$395,540,582 in general funds, for fiscal year 2015-2016 and \$1,149,257,629 in all funds, inclusive of \$645,050,581 in general funds, for fiscal year 2016-2017.

The following table displays the net change to the Administration's budget request as a result of the Conference Draft amendments.

	Fiscal Year 2015-2016		Fiscal Year 2016-2017	
	All Funds	Gen. Funds	All Funds	Gen. Funds
Executive Request (Including Governor's Messages #1 & #2)	\$827,028,644	\$406,705,343	\$1,338,143,919	\$731,301,168
Conference Draft Change To Executive Request	(\$99,849,853)	(\$11,164,761)	(\$188,886,290)	(\$86,250,587)
Net Change	\$727,178,791	\$395,540,582	\$1,149,257,629	\$645,050,581

The net change of the Conference Draft results in an executive budget for fiscal biennium 2015-2017 as follows:

	Fiscal Year 2015-2016		Fiscal Year 2016-2017	
	All Funds	Gen. Funds	All Funds	Gen. Funds
Executive Budget Act 134, SLH 2013, As Amended By Act 122, SLH 2014	\$12,147,239,877	\$6,189,204,272	\$12,147,239,877	\$6,189,204,272
Net Change Of Conference Draft	\$727,178,791	\$395,540,582	\$1,149,257,629	\$645,050,581
Total Appropriation	\$12,874,418,668	\$6,584,744,854	\$13,296,497,506	\$6,834,254,853

PART II. OPERATING BUDGET

Agriculture

The Conference Draft of the executive budget adjusts the Department of Agriculture's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$612,255 in general funds and \$2,106,930 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$417,761 in general funds and \$1,753,866 in non-general funds.

The Administration's request was to add \$148,638 in general funds and \$1,556,930 in non-general funds for fiscal year 2015-2016 and \$471,444 in general funds and \$1,803,866 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$500,000 in revolving funds for fiscal year 2015-2016 for a central Oahu land swap study;
- (2) Adding \$250,000 in special funds for fiscal year 2015-2016 for prevention and treatment of macadamia felted coccid; and
- (3) Adding 4.00 positions and \$43,812 in general funds and \$66,594 in revolving funds for fiscal year 2015-2016 and \$87,624 in general funds and \$133,188 in revolving funds for fiscal year 2016-2017 for pesticide use and surveillance activities.

Accounting and General Services

The Conference Draft of the executive budget adjusts the Department of Accounting and General Services' appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$12,962,148 in general funds and \$442,441 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$12,683,704 in general funds and \$10,925,364 in non-general funds.

The Administration's request was to add \$7,250,618 in general funds and reduce \$9,757,559 in non-general funds for fiscal year 2015-2016 and add \$8,464,174 in general funds and reduce \$5,954,636 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding the following for executive branch information technology and business system improvements or modernization: \$6,100,000 in general funds and \$10,200,000 in non-general funds for fiscal year 2015-2016 and \$5,500,000 in general funds and \$16,880,000 in non-general funds for fiscal year 2016-2017;
- (2) Adding \$3,900,000 for fiscal year 2015-2016 and \$3,975,000 for fiscal year 2016-2017 in general funds for collocation and carrier circuit costs for redundant connectivity; and
- (3) Adding \$545,600 in general funds for each fiscal year for replacement of motor vehicles.

Attorney General

The Conference Draft of the executive budget adjusts the Department of the Attorney General's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$2,865,842 in general funds and \$6,233,459 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$2,895,759 in general funds and \$6,877,160 in non-general funds.

The Administration's request was to add \$2,749,842 in general funds and \$6,934,091 in non-general funds for fiscal year 2015-2016 and \$2,995,759 in general funds and \$6,927,792 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$380,000 in general funds for fiscal year 2015-2016 for statewide sexual assault services;
- (2) Adding \$700,000 in revolving funds for each fiscal year for the criminal history record improvement program; and
- (3) Adding \$500,000 in general funds for each fiscal year for vacancy savings reductions.

Business, Economic Development, and Tourism

The Conference Draft of the executive budget adjusts the Department of Business, Economic Development, and Tourism's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$927,101 in general funds and \$52,800,594 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$385,932 in general funds and \$52,510,038 in non-general funds.

The Administration's request was to add \$1,195,891 in general funds and \$96,877,317 in non-general funds for fiscal year 2015-2016 and \$904,988 in general funds and \$96,662,436 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$50,000,000 in trust funds for each fiscal year for the rental housing trust fund;
- (2) Adding \$1,000,000 in special funds for each fiscal year for the Hawaii Green Infrastructure Authority; and
- (3) Adding \$250,000 in general funds for fiscal year 2015-2016 for the Beijing and Taipei state offices.

Budget and Finance

The Conference Draft of the executive budget adjusts the Department of Budget and Finance's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$171,941,167 in general funds and reducing \$13,898,198 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$406,944,063 in general funds and reducing \$11,472,825 in non-general funds.

The Administration's request was to add \$171,965,779 in general funds and reduce \$13,853,279 in non-general funds for fiscal year 2015-2016 and to add \$406,945,887 in general funds and reduce \$11,388,326 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Making payments of \$163,615,000 in general funds for fiscal year 2015-2016 and \$245,812,000 in general funds for fiscal year 2016-2017 to pre-fund other post-employment benefit obligations of the State;
- (2) Adding \$18,790,387 in general funds and \$2,134,819 in non-general funds for fiscal year 2015-2016 and \$36,045,294 in general funds and \$3,921,267 in non-general funds for fiscal year 2016-2017 for collective bargaining increases for University of Hawaii Professional Assembly members; and
- (3) Adding \$4,642,426 for fiscal year 2015-2016 and \$58,766,586 for fiscal year 2016-2017 in general funds for debt service payments for the State, Department of Education, and University of Hawaii.

Commerce and Consumer Affairs

The Conference Draft of the executive budget adjusts the Department of Commerce and Consumer Affairs' appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$23,288,883 in special funds and reducing \$1,965,318 in trust funds; and
- (2) For fiscal year 2016-2017, by adding \$22,158,824 in special funds and reducing \$1,949,263 in trust funds.

The Administration's request was to add \$24,866,981 in special funds and reduce \$1,965,318 in trust funds for fiscal year 2015-2016 and to add \$22,993,713 in special funds and reduce \$1,949,263 in trust funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$3,562,861 for fiscal year 2015-2016 and \$731,721 for fiscal year 2016-2017 in special funds for the Public Utilities Commission's office expansion and renovation;
- (2) Adding \$258,211 for fiscal year 2015-2016 and \$516,940 for fiscal year 2016-2017 in special funds for mortgage loan originator and service regulation support; and
- (3) Adding \$110,000 in trust funds for both fiscal years for mortgage loan claims and miscellaneous contingency expenses.

Department of Defense

The Conference Draft of the executive budget adjusts the Department of Defense's appropriation as follows:

- (1) For fiscal year 2015-2016, by reducing \$109,134 in general funds and reducing \$180,896 in non-general funds; and
- (2) For fiscal year 2016-2017, by reducing \$1,087,732 in general funds and reducing \$1,333,181 in non-general funds.

The Administration's request was to reduce \$659,561 in general funds and \$160,207 in non-general funds for fiscal year 2015-2016 and \$1,074,642 in general funds and \$1,250,855 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$778,000 in general funds and \$1,636,720 in other federal funds for fiscal year 2015-2016 for the Veteran's Cemetery;
- (2) Adding \$216,184 in general funds and \$588,973 in other federal funds for fiscal year 2015-2016 and \$338,715 in general funds and \$935,480 in other federal funds for fiscal year 2016-2017 for the Hawaii Air National Guard Campus; and
- (3) Adding \$49,190 for fiscal year 2015-2016 and \$95,000 for fiscal year 2016-2017 in general funds for the Office of Homeland Security.

Department of Education

The Conference Draft of the executive budget adjusts the Department of Education's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$137,093,408 in general funds and adding \$2,158,605 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$142,768,946 in general funds and reducing \$837,744 in non-general funds.

The Administration's request was to add \$124,172,455 in general funds and reduce \$8,342,023 in non-general funds for fiscal year 2015-2016 and to add \$151,716,321 in general funds and reduce \$11,338,372 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$2,401,808 in general funds for fiscal year 2015-2016 and \$5,000,000 in general funds for fiscal year 2016-2017 for the weighted student formula;
- (2) Adding \$3,600,000 in general funds for each fiscal year for teacher recruitment and retention for hard-to-fill incentive;
- (3) Adding \$2,000,000 in general funds for fiscal year 2015-2016 for skilled nursing services to students;
- (4) Adding \$7,403,261 in general funds for fiscal year 2015-2016 for school bus contracts; and
- (5) Adding \$5,123,726 in general funds for fiscal year 2015-2016 for school food service programs.

Hawaii State Public Library System

The Conference Draft of the executive budget adjusts the Hawaii State Public Library System's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$2,515,306 in general funds and adding \$375,000 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$2,795,689 in general funds and adding \$375,000 in non-general funds.

The Administration's request was to add \$3,054,586 in general funds and \$375,000 in non-general funds for fiscal year 2015-2016 and to add \$3,293,211 in general funds and \$375,000 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$647,400 in general funds for fiscal year 2015-2016 and \$319,048 in general funds for fiscal year 2016-2017 for the new Nanakuli library; and
- (2) Adding \$21,906 in general funds for fiscal year 2015-2016 and \$43,812 in general funds for fiscal year 2016-2017 for a librarian for the new bookmobile at Wailuku library.

Charter Schools

The Conference Draft of the executive budget adjusts the Charter Schools' appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$10,067,055 in general funds; and
- (2) For fiscal year 2016-2017, by adding \$10,044,949 in general funds.

The Administration's request was to add \$5,693,796 in general funds for fiscal year 2015-2016 and add \$6,615,134 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$7,203,312 in general funds for fiscal year 2015-2016 and \$6,049,313 in general funds for fiscal year 2016-2017 for the per pupil adjustment; and
- (2) Adding \$1,400,000 in general funds and \$415,700 in federal funds for each fiscal year for the Charter School Commission's new program ID.

Early Learning Program

The Conference Draft of the executive budget adjusts the Early Learning Program's appropriation as follows:

- (1) For fiscal year 2015-2016, by reducing \$378,970 in general funds and adding \$125,628 in non-general funds; and
- (2) For fiscal year 2016-2017, by reducing \$377,134 in general funds and adding \$125,628 in non-general funds.

The Administration's request was to reduce \$153,720 in general funds and add \$125,628 in non-general funds for fiscal year 2015-2016 and to reduce \$148,360 in general funds and add \$125,628 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding forty-nine permanent positions for the Early Learning program; and
- (2) Transferring in from the Governor's Office a temporary Director for Early Learning.

Office of the Governor

The Conference Draft of the executive budget adjusts the Office of the Governor's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$384,047 in general funds and reducing \$122,502 in non-general funds; and
- (2) For fiscal year 2016-2017, by reducing \$68,394 in general funds and reducing \$122,502 in non-general funds.

The Administration's request was to add \$482,737 in general funds and reduce \$122,502 in federal funds for fiscal year 2015-2016 and to add \$602,155 in general funds and reduce \$122,502 in federal funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$300,000 in general funds for fiscal year 2015-2016 for the Office of Military Affairs and Grant Maximization; and
- (2) Adding \$200,000 in general funds for fiscal year 2015-2016 for computer equipment, National Governor's Association fees, and subscriptions.

Health

The Conference Draft of the executive budget adjusts the Department of Health's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$31,099,415 in general funds and adding \$47,237,331 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$35,445,585 in general funds and adding \$56,434,971 in non-general funds.

The Administration's request was to add \$33,425,787 in general funds and \$63,211,668 in non-general funds for fiscal year 2015-2016 and \$41,556,898 in general funds and \$68,661,239 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$1,752,000 for each fiscal year in general funds for security guard services for the Hawaii State Hospital;
- (2) Adding \$1,419,099 for each fiscal year in general funds for the state match for the home and community-based services waiver; and
- (3) Adding 4.00 positions and \$40,812 in general funds and \$62,034 in interdepartmental transfer funds for fiscal year 2015-2016 and \$84,912 in general funds and \$129,066 in interdepartmental transfer funds for fiscal year 2016-2017 for increased vector control surveillance at state ports.

Your Committee on Conference also notes that this measure changes the means of financing for thirty-one currently filled positions from the Environmental Response Revolving Fund to the general fund. Your Committee on Conference finds that the Environmental Response Revolving Fund generates insufficient revenues to pay for its personal services and other expenses, including responses to hazardous waste and pollutant or contaminant releases into the environment. Thus, your Committee on Conference has chosen to support the program by providing general funds for currently filled positions and allowing revolving funds to be used for removal, remediation, and other emergency actions necessary to protect the public health and environment. Your Committee on Conference intends that hereafter no positions shall be financed from the Environmental Response Revolving Fund.

Your Committee on Conference has eliminated ten vacant positions that are currently financed from the Environmental Response Revolving Fund. Your Committee on Conference requests the Administration to determine whether any of those positions should be financed with general funds and, if so, to propose in the 2016 supplemental budget the inclusion of general fund appropriations for the positions for fiscal year 2016-2017. If submitted, your Committee on Conference intends to evaluate the request to determine if any of the positions should be re-established and financed with general funds.

Your Committee on Conference notes that S.B. No. 101, S.D. 1, H.D. 1, C.D. 1, repeals the allocation of thirty-five percent of the moneys in the Hawaii Tobacco Settlement Special Fund to certain programs of the Department of Health. To complement that action,

your Committee on Conference in this measure has changed the means of financing for programs and positions currently funded by moneys from the special fund. S.B. No. 101, S.D. 1, H.D. 1, C.D. 1, appropriates general funds to replace the moneys that no longer will be allocated from the Hawaii Tobacco Settlement Special Fund. Your Committee on Conference emphasizes its intent that the general fund appropriation in S.B. No. 101, S.D. 1, H.D. 1, C.D. 1, be used to fund the programs and positions, the means of financing for which has been changed from special funds to general funds. In particular, your Committee on Conference intends that the positions continue to be funded seamlessly when the change of means of financing takes effect.

Hawaii Health Systems Corporation

The Conference Draft of the executive budget adjusts the Hawaii Health Systems Corporation's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$16,000,000 in general funds and \$33,043,636 in non-general funds; and
- (2) For fiscal year 2016-2017, by reducing \$5,000,000 in general funds and by adding \$38,986,574 in non-general funds.

This appropriation is in addition to the \$15,000,000 emergency appropriation approved in S.B. No. 1117, S.D. 2, H.D. 1, C.D. 1, for the current fiscal year 2014-2015 for the Hawaii Health Systems Corporation.

Department of Human Resources Development

The Conference Draft of the executive budget adjusts the Department of Human Resources Development's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$882,077 in general funds; and
- (2) For fiscal year 2016-2017, by adding \$1,091,425 in general funds.

The Administration's request was to add \$682,077 in general funds for fiscal year 2015-2016 and \$891,425 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget also adds \$200,000 in general funds for each fiscal year for the in-service training and program effectiveness project for state employees.

Human Services

The Conference Draft of the executive budget adjusts the Department of Human Services' appropriation as follows:

- (1) For fiscal year 2015-2016, by reducing \$23,954,695 in general funds and adding \$290,107,131 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$1,278,888 in general funds and adding \$361,383,513 in non-general funds.

The Administration's request was to reduce \$7,160,050 in general funds and to add \$308,889,132 in non-general funds for fiscal year 2015-2016 and to add \$37,529,998 in general funds and \$401,135,623 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$2,600,000 in general funds for each fiscal year for general assistance payments;
- (2) Adding \$3,000,000 in general funds for fiscal year 2015-2016 for Hawaii Public Housing Authority state family and state elderly housing facilities; and
- (3) Adding \$2,485,080 in general funds and \$2,914,902 in federal funds for fiscal year 2015-2016 for Medicaid recipients through the age of six with an autism spectrum disorder.

Labor and Industrial Relations

The Conference Draft of the executive budget adjusts the Department of Labor and Industrial Relations' appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$2,976,818 in general funds and adding \$2,572,992 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$807,272 in general funds and adding \$3,515,962 in non-general funds.

The Administration's request was to add \$363,126 in general funds and add \$2,617,992 in non-general funds for fiscal year 2015-2016 and add \$817,200 in general funds and add \$3,565,962 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$905,000 in general funds for fiscal year 2015-2016 for the business optimization and modernization project;
- (2) Adding 1.00 position and \$450,000 in general funds for both fiscal years for implementation of the federal Workforce Innovation and Opportunity Act; and
- (3) Adding 1.00 position and \$30,295 for fiscal year 2015-2016 and adding \$51,289 for fiscal year 2016-2017 in general funds for prepaid health care plan and temporary disability plan reviews.

Land and Natural Resources

The Conference Draft of the executive budget adjusts the Department of Land and Natural Resources' appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$1,456,137 in general funds and reducing \$16,802,456 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$1,002,491 in general funds and reducing \$24,143,911 in non-general funds.

The Administration's request was to add \$6,974,346 in general funds and \$6,206,976 in non-general funds for fiscal year 2015-2016 and to add \$6,765,415 in general funds and reduce \$1,051,853 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$1,000,000 in special funds for both fiscal years for the State Parks Division;
- (2) Adding \$250,000 for fiscal year 2015-2016 and \$500,000 for fiscal year 2016-2017 in special funds for the digitization of microfilm archives for the Bureau of Conveyances; and
- (3) Adding 2.00 positions and \$217,033 for fiscal year 2015-2016 and \$270,747 for fiscal year 2016-2017 in special funds for the Historic Preservation Division.

Your Committee notes that S.B. No. 1299, H.D. 1, C.D. 1, repeals the distribution of the conveyance tax to the Natural Area Reserve Fund. To complement that action, your Committee on Conference in this measure has reduced the ceiling for that special fund and changed the method of financing for positions currently funded by the Natural Area Reserve Fund. S.B. No. 1299, H.D. 1, C.D. 1, appropriates general funds to replace the conveyance tax revenues that no longer will be distributed to the Natural Area Reserve Fund.

Your Committee on Conference emphasizes its intent that the general fund appropriation in S.B. No. 1299, H.D. 1, C.D. 1, be used to fund the positions, the means of financing for which has been changed from special funds to general funds. Your Committee on Conference requests the Administration to propose in the 2016 supplemental budget the inclusion of general fund appropriations for the positions for fiscal year 2016-2017. Upon receipt of the budget proposal, your Committee on Conference intends that the Legislature then re-commence funding those positions, as well as other programs formerly funded with conveyance tax revenues, in that supplemental appropriations act and subsequent general and supplemental appropriations acts.

Office of the Lieutenant Governor

The Conference Draft of the executive budget adjusts the Office of the Lieutenant Governor's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$50,676 in general funds; and
- (2) For fiscal year 2016-2017, by adding \$80,793 in general funds.

The Administration's request was to add \$142,676 in general funds for fiscal year 2015-2016 and \$172,793 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$100,000 in general funds for each fiscal year for the Open Data program; and
- (2) Adding \$50,000 in general funds for each fiscal year for travel and protocol expenses.

Public Safety

The Conference Draft of the executive budget adjusts the Department of Public Safety's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$20,704,097 in general funds and \$2,317,761 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$24,837,344 in general funds and \$2,365,344 in non-general funds.

The Administration's request was to add \$20,572,097 in general funds and \$2,386,184 in non-general funds for fiscal year 2015-2016 and \$26,214,624 in general funds and \$2,433,767 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$3,164,155 for fiscal year 2015-2016 and \$2,741,454 for fiscal year 2016-2017 in general funds for inmate relocation costs associated with the Halawa Correctional Facility repair and improvement project;
- (2) Adding \$1,969,338 for fiscal year 2015-2016 and \$2,133,699 for fiscal year 2016-2017 in general funds for food supply replacement and religious food requests; and
- (3) Adding \$1,117,474 in general funds for each fiscal year for full year's salaries for positions in various programs.

Taxation

The Conference Draft of the executive budget adjusts the Department of Taxation's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$1,730,785 in general funds and \$15,229 in special funds; and
- (2) For fiscal year 2016-2017, by adding \$1,929,658 in general funds and \$21,222 in special funds.

The Administration's request was to add \$1,885,785 in general funds and \$15,229 in special funds for fiscal year 2015-2016 and \$1,929,658 in general funds and \$21,222 in special funds for fiscal year 2016-2017.

Transportation

The Conference Draft of the executive budget adjusts the Department of Transportation's appropriation as follows:

- (1) For fiscal year 2015-2016, by reducing \$48,081,836 in special funds and adding \$1,020,566 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$36,517,353 in special funds and adding \$924,977 in non-general funds.

The Administration's request was to reduce \$42,946,998 in special funds and add \$1,020,566 in non-general funds for fiscal year 2015-2016 and to add \$45,589,453 in special funds and \$924,977 in all federal funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$921,000 in each fiscal year in special funds for the Oahu zipper lane;
- (2) Adding 7.00 positions and \$1,093,783 for fiscal year 2015-2016 and \$497,206 for fiscal year 2016-2017 in special funds for the Daniel K. Inouye Highway Baseyard;
- (3) Adding 7.00 positions and \$1,283,648 for fiscal year 2015-2016 and \$1,582,430 for fiscal year 2016-2017 in special funds for an environmental section for the Maui Highways District Office; and
- (4) Adding \$256,000 for fiscal year 2015-2016 and \$203,000 for fiscal year 2016-2017 in special funds for motor vehicle replacement at Lihue Airport.

University of Hawaii

The Conference Draft of the executive budget adjusts the University of Hawaii's appropriation as follows:

- (1) For fiscal year 2015-2016, by adding \$17,918,438 in general funds and reducing \$51,423,736 in non-general funds; and
- (2) For fiscal year 2016-2017, by adding \$18,637,086 in general funds and reducing \$51,340,397 in non-general funds.

The Administration's request was to add \$17,918,438 in general funds and reduce \$51,423,736 in non-general funds for fiscal year 2015-2016 and to add \$18,637,086 in general funds and reduce \$51,340,397 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$1,139,182 in general funds for each fiscal year for the Violence Against Women Act and Title IX costs; and
- (2) Adding \$6,360,818 in general funds for each fiscal year as a lump sum to the University of Hawaii for systemwide support.

PART III. CAPITAL IMPROVEMENTS PROGRAM BUDGET

Your Committee on Conference finds that capital improvement projects play a vital role in rebuilding our economy and strengthening our social infrastructure.

After carefully considering the many needs facing the State, your Committee on Conference has provided a total of \$640,617,000 for fiscal year 2015-2016 and \$188,504,000 for fiscal year 2016-2017 for projects funded by general obligation bonds and \$1,566,234,000 for fiscal biennium 2015-2017 for projects funded by all other means of financing.

Included in this measure are projects for the following:

- (1) Health, safety, and code requirements for the Department of Agriculture, totaling \$1,900,000 in general obligation bond funds for the 2015-2017 fiscal biennium;
- (2) Lump sum maintenance for existing facilities for the Department of Accounting and General Services, totaling \$24,000,000 in general obligation bond funds for the 2015-2017 fiscal biennium;
- (3) Rental Housing Trust Fund capital infusion to expand affordable housing statewide, totaling \$40,000,000 in general obligation bond funds for fiscal year 2015-2016;
- (4) Funding to support the construction of a long-term care facility for veterans, totaling \$25,384,000 in general obligation bond funds that will provide the state match for an additional \$37,429,000 in federal funds;
- (5) Lump sum condition, capacity, equity, program support, and project positions for the Department of Education schools, totaling \$258,768,000 in general obligation bond funds for the 2015-2017 fiscal biennium;
- (6) Funding to support repair and maintenance for Hawaii public housing, totaling \$10,000,000 in general obligation bond funds for the 2015-2017 fiscal biennium;
- (7) Lump sum repair and maintenance for the Department of Public Safety, totaling \$21,000,000 in general obligation bond funds for the 2015-2017 fiscal biennium; and
- (8) Support for repair and maintenance at University of Hawaii campuses, including \$10,000,000 in general obligation bond funds for community colleges and \$44,430,000 in general obligation bond funds for University of Hawaii systemwide support.

Your Committee on Conference has also provided funding for dozens of other projects for deferred maintenance and health and safety, including appropriations to the Department of Defense; Department of Hawaiian Home Lands; Department of Land and Natural Resources; and Department of Business, Economic Development, and Tourism, among others.

Additionally, your Committee on Conference believes that investment in airports, harbors, and highways is necessary to address the continued influx of visitors, the efficient transport of goods within and without the State, and the day-to-day needs of our residents. Your Committee on Conference has demonstrated its commitment to transportation projects by appropriating, for fiscal biennium 2013-2015, \$1,408,319,000 for the Department of Transportation, including \$376,965,000 for state highways on every island.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 500, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 500, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kouchi, Chun Oakland, Dela Cruz, English, Galuteria, Harimoto, Inouye, Riviere and Ruderman.

Managers on the part of the Senate.

Ayes, 8. Noes, none. Excused, 2 (Riviere, Ruderman).

Representatives Luke, Cachola, Cullen, DeCoite, Johanson, Jordan, Keohokalole, Kobayashi, Lowen, Nishimoto, Onishi, Tokioka, Yamashita, Pouha and Ward.

Managers on the part of the House.

Ayes, 15. Noes, none. Excused, none.

Conf. Com. Rep. 102 on H.B. No. 290

The purpose of this measure is to appropriate funds for the operating budget and capital improvement program budget of the Judiciary for the 2015-2017 fiscal biennium.

Your Committee on Conference approves \$341,556 in general funds in fiscal year 2015-2016 and \$701,052 in general funds in fiscal year 2016-2017 for the scheduled pay increase to judges as recommended by the 2013 Commission on Salaries.

Your Committee on Conference has provided positions and funding that support the specialty courts of the Judiciary, including:

- (1) 9.00 positions and \$50,934 in general funds in fiscal year 2015-2016 and \$96,168 in general funds in fiscal year 2016-2017 for Hale Ho'omalulu Juvenile Detention Facility to provide continued support for our youth;
- (2) 1.00 position and \$67,323 in general funds in fiscal year 2015-2016 and \$106,116 in general funds in fiscal year 2016-2017 for the Veterans Court to supplant expiring federal grant money; and
- (3) \$600,000 in fiscal year 2015-2016 for purchase of service contracts for civil legal services.

Your Committee on Conference provided \$55,000,000 in fiscal year 2015-2016 for the new judiciary complex in Kona.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 290, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 290, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Luke, San Buenaventura and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 103 on H.B. No. 73

The purpose of this measure is to:

- (1) Authorize the issuance of general obligation bonds to finance capital improvement projects authorized in appropriation measures of the Executive Branch and the Judiciary; and
- (2) Make a declaration of findings with respect to the authorizations for the bonds as required under the Hawaii State Constitution.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating dates cited in the measure;
- (3) Changing its effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 73, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 73, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 104 on H.B. No. 209

The purpose of this measure is to appropriate funds for the operating costs of the Office of Hawaiian Affairs (OHA) for fiscal biennium 2015-2017.

Your Committee on Conference recognizes the significance of the services and advocacy that OHA provides its beneficiaries and acknowledges the need to ensure that OHA has sufficient resources to continue these services.

Your Committee on Conference has provided \$500,000 in general funds and \$500,000 in trust funds in each fiscal year.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 209, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 209, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Tokuda, Galuteria, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Ing, Luke, Keohokalole and Pouha.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 105 on H.B. No. 1069

The purpose of this measure is to move Hawaii towards a more diversified economy, assist small businesses conducting innovative research with their efforts toward commercialization, and promote manufacturing in Hawaii by, among other things:

- (1) Adding the receipt of Phase II or III Small Business Innovation Research awards or contracts from any participating federal agency to the qualifying criteria for businesses to receive grants from the High Technology Development Corporation;
- (2) Appropriating funds for the Department of Business, Economic Development, and Tourism to provide grants and loans through the High Technology Development Corporation;
- (3) Establishing the Hawaii Manufacturing Capital Grant Program to provide grants to manufacturers for expenses relating to equipment, planning for new facilities, and training programs; and
- (4) Appropriating funds to the High Technology Development Corporation for the Hawaii Manufacturing Capital Grant Program.

Since 1989, the High Technology Development Corporation has been assisting Phase I Small Business Innovation Research award recipients to reach their commercial potential through the provision of grants. This has proven to be successful for both the businesses awarded a grant and the State: every dollar invested through this grant program has been leveraged to attract approximately \$20 in federal funds as well as additional commercialization funding. Your Committee on Conference finds that expanding the scope of the grant program will allow for more companies to achieve commercialization and increase the beneficial economic impacts of this program to the State.

Additionally, your Committee on Conference finds that there is a great need for Hawaii to develop and support manufacturing in the State. The lack of available resources and the overuse of obsolete equipment have had a detrimental effect on the market competitiveness of Hawaii businesses. Your Committee on Conference believes that it is incumbent upon the State to ease the financial burdens facing particular businesses that will work to ensure the long-term financial and economic sustainability of the State. However, your Committee on Conference notes that another measure currently moving through the conference process will assist manufacturing businesses and accomplish this goal.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$2,000,000 for Fiscal Year 2015-2016 to provide grants and loans for phase II and III awardees;
- (2) Deleting language that would have established the Hawaii Manufacturing Capital Grant Program and appropriated funds for the Program;
- (3) Changing its effective date to July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1069, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1069, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kouchi, Dela Cruz, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Representatives Kawakami, Luke, Kong and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 106 on H.B. No. 241

The purpose of this measure is to support the development of a renewable and efficient energy system in the state by extending, from June 30, 2015, to June 30, 2020, the authorization to issue special purpose revenue bonds to assist Honolulu Seawater Air Conditioning LLC in financing the design and construction of a seawater air conditioning district cooling system on Oahu.

Your Committee on Conference notes that, over the years, the Legislature has authorized the issuance of millions of dollars in special purpose revenue bonds for the downtown Honolulu seawater air conditioning project. However, disruptions in the financial markets and permitting and regulatory reviews that took longer than expected have delayed the sale of these special purpose revenue bonds. Your Committee on Conference finds that extending the authorization to issue special purpose revenue bonds for this project is in the best environmental and economic interest of the state and is an important element in providing economically feasible project financing for Honolulu Seawater Air Conditioning.

However, your Committee on Conference notes that, as currently drafted, the time period authorizing the issuance of special purpose revenue bonds for Honolulu Seawater Air Conditioning LLC exceeds the five-year statutory limitation on the issuance of such bonds. Accordingly, your Committee on Conference has amended this measure by amending the date by which the authorization to issue the special purpose revenue bonds will lapse from June 30, 2020, to June 26, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 241, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 241, S.D. 1, C.D. 1.

Signed by the Chairs and Senate Majority Leader on behalf of the Committee.

Senators Gabbard, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Kawakami, Lowen, Kong and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 107 on H.B. No. 242

The purpose of this measure is to support the development of a renewable and efficient energy system in the State by extending, from June 30, 2015, to June 30, 2020, the authorization to issue special purpose revenue bonds to assist Honolulu Seawater Air Conditioning LLC, in financing the design and construction of a seawater air conditioning district cooling system on Oahu.

Your Committee on Conference notes that, over the years, the Legislature has authorized the issuance of millions of dollars in special purpose revenue bonds for the downtown Honolulu seawater air conditioning project. However, disruptions in the financial markets and longer than expected permitting and regulatory reviews have delayed the sale of these special purpose revenue bonds. Your Committee on Conference finds that extending the authorization to issue special purpose revenue bonds for this project is in the best environmental and economic interest of the State and is an important element in providing economically feasible project financing for Honolulu Seawater Air Conditioning LLC.

However, your Committee on Conference notes that, as currently drafted, the authorized time period for the issuance of special purpose revenue bonds exceeds the five-year statutory limitation on the issuance of such bonds. Accordingly, your Committee on Conference has amended this measure by amending the date by which the authorization to issue the special purpose revenue bonds will lapse from June 30, 2020, to June 27, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 242, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 242, S.D. 1, C.D. 1.

Signed by the Chairs and Senate Majority Leader on behalf of the Committee.

Senators Gabbard, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Kawakami, Lowen, Kong and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 108 on H.B. No. 1343

The purpose of this measure is to improve economic recovery in Hawaii after a natural disaster, particularly for businesses, by appropriating funds to meet the matching requirement for federal funds awarded to establish a Business Recovery Center within the Department of Defense.

A business recovery center is an online website where businesses and government agencies collaborate before, during, and after a natural disaster. Some of the activities of a business recovery center include distributing federal disaster program information, establishing information channels to allow the private sector to access information including the status of utilities and roads, allowing the private sector to post information about operating hours during and after disasters, and acting as a portal to post requests for proposals so local businesses can bid on contracts during and after disasters.

Your Committee on Conference finds that the establishment of a business recovery center in Hawaii would help businesses, their employees, and the overall economy of Hawaii recover after a natural disaster.

Your Committee on Conference also notes that the appropriation authorized by this measure for the establishment of a business recovery center within the Department of Defense is necessary to receive a federal match of \$1,159,000 for this initiative.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$328,000 for fiscal year 2015-2016 for the establishment of a business recovery center within the Department of Defense; and
- (2) Changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1343, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1343, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Espero, Harimoto, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Kawakami, Takayama, Keohokalole, Kong, San Buenaventura and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Kong, Ward).

Conf. Com. Rep. 109 on H.B. No. 1292

The purpose of this measure is to increase transparency and accountability in state contracts by continuing the work of the Procurement Task Force to study the cost impacts that the procurement process has had for public works construction projects and examine and recommend past performance standards and statewide processes in order to promote economy, efficiency, effectiveness, and impartiality in procurement for state and county governments.

Your Committee on Conference finds that directing the Procurement Task Force to study the cost impacts that the procurement process has had on public works construction projects as well as to examine the issue of past performance and establish the factors that should be considered as part of due diligence when evaluating a contractor's past performance for the purpose of awarding a contract will promote efficiency, effectiveness, and impartiality in the procurement of public works contracts.

Your Committee on Conference has amended this measure by:

- (1) Correcting a reference to a member of the task force, the Hawaii Building and Construction Trades Council, to reflect the Council's affiliation with the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO);
- (2) Deleting reference to the AFL-CIO as a separate member of the task force;
- (3) Deleting the provision allowing for the Comptroller to appoint all other persons as applicable to the task force;
- (4) Changing its effective date to July 1, 2015; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1292, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1292, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Tokuda, Ihara, Riviere and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Riviere, Slom).

Representatives Kawakami, Jordan, Kobayashi, Kong and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Kobayashi, Ward).

Conf. Com. Rep. 110 on H.B. No. 174

The purpose of this measure is to promote accessibility to quality health care procedures in the State by requiring health insurance coverage for medically necessary orthodontic treatment of orofacial anomalies.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that coverage of medically necessary orthodontic services for the treatment of orofacial anomalies resulting from birth defects or birth defect syndromes shall be paid for by medical insurance;
- (2) Changing the effective date to July 1, 2015; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 174, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 174, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, McKelvey, Kobayashi, Takayama and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 111 on H.B. No. 448

The purpose of this measure is to:

- (1) Amend the multidisciplinary and multiagency review process for domestic violence fatalities to also require the review of near-deaths and suicides;
- (2) Authorize the Department of Health to enter into Memoranda of Understanding with relevant government agencies and branches to obtain information relating to near-deaths resulting from intimate partner violence;
- (3) Require that the information collected and recommendations derived from the review process be compiled for use in system reform efforts relating to the reduction of preventable deaths, near-deaths, and suicides resulting from domestic violence;
- (4) Establish the Address Confidentiality Program within the Department of the Attorney General to, among other things, keep the actual address of a relocated victim of domestic violence, a sexual offense, or stalking confidential and prevent the victim's assailants or potential assailants from finding the victim through public records; and
- (5) Appropriate funds to implement the Address Confidentiality Program and to establish one full-time position to assist in implementing the program.

Your Committee on Conference has amended this measure by:

- (1) Deleting the Address Confidentiality Program and the appropriation of funds to implement the program;
- (2) Changing the effective date to July 1, 2015; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 448, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 448, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Keith-Agaran, Tokuda, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Representatives Belatti, San Buenaventura, DeCoite, Morikawa and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 112 on H.B. No. 581

The purpose of this measure is to:

- (1) Continue the Hospital Sustainability Program by extending the program for an additional year;
- (2) Update and clarify language regarding payments and reimbursements from the Hospital Sustainability Program Special Fund (Special Fund) and liability for the Hospital Sustainability Fee;
- (3) Reduce the inpatient Hospital Sustainability Fee to be 1.892 percent of net inpatient hospital service revenue;
- (4) Increase the amount of direct payments from the Special Fund to \$88,000,000 for private hospitals to cover uncompensated care costs and specify an upper payment limit payment amount of \$3,975,442 for designated Level II trauma centers;
- (5) Specify that eligible hospitals shall receive payments from the Special Fund based on their Medicaid utilization; and
- (6) Appropriate \$50,000,000 from the Special Fund to the Hospital Sustainability Program for fiscal year 2015-2016.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2015; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 581, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 581, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland, English, Harimoto and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Kobayashi, Creagan and Fukumoto Chang.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 113 on H.B. No. 943

The purpose of this measure is to:

- (1) Establish the Civil Monetary Penalty Special Fund (Special Fund) for the deposit of federal civil monetary penalties collected by the United States Department of Health and Human Services Centers for Medicare and Medicaid Services (CMS) when Medicaid-certified health care facilities or agencies do not meet Medicare certification requirements;
- (2) Require the Department of Health (Department) to submit a report to the Legislature prior to the convening of each regular session regarding the status of the Special Fund; and
- (3) Appropriate funds to the Department for purposes approved by CMS.

Your Committee on Conference has amended this measure by appropriating \$30,000 for fiscal year 2015-2016 and \$15,000 for fiscal year 2016-2017 out of the Special Fund for purposes approved by CMS.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 943, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 943, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Green, Chun Oakland and Inouye.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Kobayashi, Jordan and Fukumoto Chang.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Fukumoto Chang).

Conf. Com. Rep. 114 on H.B. No. 782

The purpose of this measure is to raise awareness of the cytomegalovirus, which causes birth defects and childhood disability, by:

- (1) Requiring the Department of Health to establish a working group to develop a Public Education Program to inform and educate pregnant women and women who may become pregnant about cytomegalovirus, and to inform and educate health care providers who may be responsible for screening, testing, diagnosing, and treating pregnant mothers or newborns with cytomegalovirus;
- (2) Requiring the working group to submit a report on the development, implementation, and funding of the public education program; and
- (3) Making an appropriation to support the working group.

Your Committee has amended this measure by:

- (1) Deleting the establishment of the working group and instead statutorily requiring the Department of Health to provide a public education program containing information on certain, specified aspects of cytomegalovirus, including transmission and prevention to:
 - (A) Pregnant women and women who may become pregnant; and
 - (B) Hospitals, health care providers, and child, infant, and toddler care facilities, including organizations offering children's programs as part of a worship service;
- (2) Deleting the appropriation to support the working group;
- (3) Changing its effective date to July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 782, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 782, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Green, Inouye, Baker, Galuteria and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Representatives Belatti, Rhoads, Kobayashi, Woodson and Fukumoto Chang.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Conf. Com. Rep. 115 on H.B. No. 1440

The purpose of this measure is to improve access to and the quality of health services available to schoolchildren by appropriating funds for the Hawaii Keiki: Healthy and Ready to Learn program.

Your Committee on Conference has amended this measure by:

- (1) Making the appropriation for the amount of \$1,000,000 for each year of fiscal biennium 2015-2017;
- (2) Specifying that the appropriation for fiscal year 2016-2017 shall be expended only if the Department of Education receives and expends non-State funds of at least \$500,000 for the program during the fiscal year; and
- (3) Changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1440, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1440, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Green, Harimoto, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

Representatives Belatti, Nishimoto, Morikawa and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 116 on H.B. No. 576

The purpose of this measure is to enable Hawaii to obtain a state innovation waiver from the Federal Patient Protection and Affordable Care Act of 2010 (ACA), as amended, by:

- (1) Narrowing the focus of the State Innovation Waiver Task Force (Task Force) to developing a plan for applying for a state innovation waiver that complies with section 1332 of the ACA and all applicable public notice requirements;
- (2) Providing that the Task Force's interim reports to the Legislature do not have to recommend allocations of existing moneys available for health reform and innovation; and
- (3) Making an appropriation for expenses related to developing the state innovation waiver.

Your Committee has amended this measure by:

- (1) Requiring the Task Force to examine the feasibility of providing affordable insurance coverage for uninsured and underinsured individuals that include innovations to the State's existing Medicaid program;
- (2) Deleting the appropriation; and
- (3) Changing the effective to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 576, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 576, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda, Harimoto, Taniguchi and Wakai.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, McKelvey, Luke, Creagan and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Luke, McDermott).

Conf. Com. Rep. 117 on H.B. No. 1168

The purpose of this measure is to authorize use of the boating special fund to pay for planning, developing, managing, operating, or maintaining lands and improvements under the control and management of the Board of Land and Natural Resources, including the hiring of permanent or temporary civil service exempt staff.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1168, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1168, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Thielen, Riviere, Galuteria, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Cullen, Evans, Lowen and Pouha.

Managers on the part of the House.

Conf. Com. Rep. 118 on H.B. No. 1366

The purpose of this measure is to identify and acquire or build additional office space in urban Honolulu to accommodate state governmental agencies and offices.

Specifically, the measure appropriates moneys for:

- (1) The Department of Land and Natural Resources to plan for and acquire the leasehold interest in TMK (1) 2-1-017-008-0000, 2-1-017-008-0001, and 2-1-017-008-0002, and acquire the building thereon, known as Alii Place; and
- (2) The Department of Accounting and General Services to pay the first two years of debt service if and when the acquisition is accomplished.

Your Committee on Conference has amended this measure by:

- (1) Making clarifying amendments to its purpose section;
- (2) Rather than directing the Department of Land and Natural Resources to engage in acquiring Ali'i Place, instead authorizing the Governor's Office, Department of the Attorney General, Department of Land and Natural Resources, Department of Accounting and General Services, and Department of Budget and Finance to enter into negotiations for the purchase of Ali'i Place;
- (3) Deleting language regarding the Department of Accounting and General Services' management of the property;
- (4) Removing the appropriation for payment of debt service by the Department of Accounting and General Services;
- (5) Authorizing the Department of Accounting and General Services to perform due diligence in connection with the transaction;
- (6) Requiring a joint progress report from the Department of Land and Natural Resources and the Department of Accounting and General Services prior to the Regular Session of 2016;
- (7) Changing its effective date to July 1, 2015; and
- (8) Making technical, nonsubstantive amendments for the purpose of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1366, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1366, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Tokuda, English, Ihara and Kouchi.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Luke, Hashem, Yamashita and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 119 on H.B. No. 158

The purpose of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the County of Maui for the prosecution of cases under the Drug Court and Mental Health Court Programs.

Your Committee on Conference has amended this measure to:

- (1) Appropriate \$150,000 as a grant-in-aid to the Department of the Prosecuting Attorney of the County of Maui to prosecute cases in both the Drug Court and Mental Health Court for fiscal year 2015-2016;
- (2) Take effect on July 1, 2015; and
- (3) Make technical, nonsubstantive amendments for the purposes of clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 158, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 158, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran, English, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

Representatives San Buenaventura, Luke, Yamashita and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 120 on H.B. No. 832

The purpose of this measure is to allow the University Laboratory School to conform its student enrollment profile to the standard prescribed by the University of Hawaii College of Education in order to meet the College of Education's research requirements.

Your Committee on Conference has amended this measure to:

- (1) Require the State Public Charter School Commission to submit a report to the Legislature that reviews the University Laboratory School's actual admissions data to ensure conformity with the school's admissions policy;
- (2) Require the University Laboratory School to conduct a study, and report to the Legislature prior to the 2016 legislative session, on whether the school should be a private school instead of a public charter school to determine whether an exemption from Chapter 302D, Hawaii Revised Statutes, is necessary; and
- (3) Make the measure drop dead on July 1, 2020.

Your Committee respectfully requests that the State Public Charter School Commission monitor the admissions policy and practices of the University Laboratory School.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 832, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 832, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Takumi, Choy, Nishimoto, Ichiyama, Kong, LoPresti and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, 1 (Kong).

Conf. Com. Rep. 121 on S.B. No. 1124

The purpose of this measure is to clarify that in order to obtain a permit or permit renewal to moor a vessel in a state small boat harbor, the vessel owner shall:

- (1) Provide a marine surveyor's inspection or a vessel inspection by the Department of Land and Natural Resources, no more than two years old, certifying that the vessel has been inspected and fulfills the requirements set by the Department of Land and Natural Resources; and
- (2) Provide satisfactory proof that the person is at least eighteen years of age prior to obtaining a use permit or being placed on a waitlist for a use permit.

Your Committee on Conference finds that a person should be at least eighteen years of age in order to be placed on the waitlist for a permit. Your Committee on Conference further finds that a vessel inspection by the Department of Land and Natural Resources is sufficient in lieu of a marine surveyor's vessel inspection.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1124, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1124, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Thielen, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Cullen, Evans and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 122 on S.B. No. 1060

The purpose and intent of this measure is to establish a low interest biosecurity loan program to assist the livestock industry.

Your Committee on Conference finds that Hawaii's livestock industry is economically and culturally significant and livestock operations are susceptible to the introduction of pests and diseases that can affect the health and welfare of the animals, and in some cases may affect the health and well-being of people who come in contact with the animals or farm products. Biosecurity measures serve to protect the health of poultry and livestock and are increasingly being required by federal programs to ensure a safe food supply. While these measures help protect the farm and consumers, they often do not result in additional profits for the operation; therefore low interest loans will assist livestock operations to ensure the sustainability of Hawaii's livestock industry.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1060, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1060, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Riviere, Harimoto, Taniguchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

Representatives Tsuji, Onishi, Tokioka and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 123 on S.B. No. 273

The purpose of this measure is to:

- (1) Require the examiner of drivers to accept a sworn statement from a victim services organization, an attorney, a member of the clergy, correctional institution staff, a medical or other health professional, or a verification letter from a homeless service provider as documentary evidence of a homeless person's address;
- (2) Require the Director of Transportation's rules to direct the examiner of drivers to waive all fees for the issuance of an identification card for homeless individuals; and
- (3) Establish a working group to develop a plan to enable homeless individuals to obtain necessary documentary evidence to obtain a state civil identification card.

Your Committee on Conference finds that legal identification is necessary to obtain and maintain certain financial and nonfinancial benefits, housing, employment, medication, and other life essentials. Your Committee on Conference further finds that houseless citizens in Hawaii often face overwhelming barriers to obtaining valid identification, and that allowing qualified individuals to provide documentation verifying a homeless individual's address would assist homeless individuals in obtaining critical services and becoming more self-sufficient.

Your Committee on Conference has amended this measure by:

- (1) Expanding the working group to include a representative from the United States Citizenship and Immigration Services, Social Security Administration, Department of Labor and Industrial Relations, and Partners in Development Foundation's We Are Oceania Project;
- (2) Removing the Director of Transportation or the Director's designee from the working group;
- (3) Deleting replacement identification card from the types of identification cards for which the fee must be waived when issued to qualified homeless individuals; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 273, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 273, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Keith-Agaran, Espero, Harimoto and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Morikawa, Rhoads, Luke, Hashem and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Luke).

Conf. Com. Rep. 124 on S.B. No. 1009

The purpose and intent of this measure is to ensure that hotels either distribute portorage service charges to employees in full or notify customers that service charges are being used for other purposes.

Your Committee on Conference finds that consumers should know whether or not, and to what extent, the money they pay hotels in portorage service charges is being paid to employees. When a hotel charges service charges to customers, customers may believe that those charges are being paid to employees as tip income; however, this is not necessarily the case, and this information could influence whether or not a consumer chooses to use portorage services. Therefore, your Committee on Conference finds that it should be transparent to consumers how hotels distribute portorage service charges.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1009, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1009, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Keith-Agaran and Taniguchi.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives Brower, Nakashima, Tokioka, LoPresti and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 125 on S.B. No. 1324

The purpose of this measure is to require the Employees' Retirement System to directly pay a portion of a member's pension or related benefit to a former spouse of the member, pursuant to an award in a divorce action. This measure further requires the Employees' Retirement System to adopt rules and prepare forms to effectuate this measure.

Your Committee on Conference finds that this measure will ensure that a member's pension or related benefits are properly divided pursuant to an award ordered in a divorce action and that court ordered payments are made in a prompt manner.

Your Committee on Conference has amended this measure by:

- (1) Amending section 1;
- (2) Replacing section 2 with a provision creating a new section in chapter 88, part II, subpart C, Hawaii Revised Statutes, that, among other things:
 - (A) Provides authority for the direct payment of a member's or retirant's pension or a related benefit to a spouse or former spouse pursuant to a qualifying divorce decree;
 - (B) Provides terms for the commencement and termination of such direct payments;
 - (C) Sets forth circumstances where divorce decree need not be complied with; and
 - (D) Requires the Employees' Retirement System to adopt rules and produce forms necessary to implement the new section, including establishing a schedule for filing, service, and administrative fees;
- (3) Replacing section 3 of this measure with a provision amending section 88-91, Hawaii Revised Statutes; and
- (4) Inserting an effective date of January 1, 2018, to allow the Employees' Retirement System sufficient time to implement a system to comply with this measure; provided that the authority of the Employees' Retirement System to adopt rules and prepare forms shall take effect upon approval.

With regard to the administrative fee permitted under the new section in chapter 88, Hawaii Revised Statutes, as established by section 2 of this measure, it is the intent of your Committee on Conference that the total of the administrative fees collected shall not exceed the actual cost of implementing the program, and shall not be based solely on the cost of each individual transaction.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1324, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1324, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Kouchi, Espero, Inouye and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Rhoads, Keohokalole, San Buenaventura and Pouha.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 126 on S.B. No. 1028

The purpose of this Act is to:

- (1) Require all group health issuers to offer to contract with any federally-qualified health centers in the relevant service area to provide all covered ambulatory services offered by the federally-qualified health centers in accordance with network adequacy standards of the Hawaii Health Connector (Connector);
- (2) Amend the purposes of the Connector to include providing enrollment, implementation, and benefit administration services for health plans not offered through the Connector;
- (3) Authorize the Connector to generate revenue through the provision of enrollment, implementation, and benefit administration services for health plans not offered through the Connector or other ancillary products and services; and
- (4) Require that the network adequacy standards of the Connector adhere to the requirements for contracts with federally-qualified health centers in conformance with the requirements of federal implementing regulations.

Your Committee on Conference finds that the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) required state-based exchanges to be self-sustaining as of January 1, 2015. However, due to Hawaii's small population of uninsured individuals, Hawaii's state-based exchange, known as the Hawaii Health Connector (Connector), has faced challenges in its goal of financial sustainability. The State's low number of uninsured individuals is primarily due to the success of the Hawaii Prepaid Health Care Act, which has enabled Hawaii residents to secure employer-sponsored health insurance for over forty years and resulted in an

uninsured resident rate of less than ten percent. Your Committee on Conference further finds that the Connector has been working with the State and the private sector to ensure that the requirements of the Affordable Care Act work in tandem with the Prepaid Health Care Act to preserve the Prepaid Health Care Act's existing benefits for Hawaii residents.

Your Committee on Conference notes that although the Affordable Care Act funded the development and initial operation of the Connector, the federal government did not provide the start-up capital necessary to support operations until the Connector enrolled a sufficient number of individuals to help pay for the Connector's operating expenses. Your Committee on Conference also notes that the federal Centers for Medicare and Medicaid Services is requiring the submission of a Corrective Action Plan that will address details of the State's plan to ensure compliance with all Affordable Care Act requirements, including financial sustainability of the Connector.

Your Committee on Conference also finds that although this measure proposes to amend the purpose of the Connector and make certain changes associated with network adequacy, this measure is intended to be a vehicle for a general fund appropriation for the continued operations of the Connector. Amendments to this measure are therefore necessary to insert a general fund appropriation for the operations of the Connector, which will assist in the implementation of the required sustainability plan.

Finally, your Committee on Conference notes that the Legislature is committed to keeping the Connector as a state-based health exchange. Your Committee on Conference additionally finds that it is imperative that the Board of Directors of the Connector continue to work closely with the Legislature, the Administration, and other state agencies on the continued operation of the Connector as a state-based health exchange to ensure compliance with the Affordable Care Act and the continued success of the State's visionary Prepaid Health Care Act.

Your Committee on Conference has amended this measure by:

- (1) Deleting the definition for "qualified health plan";
- (2) Deleting language that would have required all group health issuers to offer to contract with any federally-qualified health centers in the relevant service area to provide all covered ambulatory services offered by the federally-qualified health centers in accordance with network adequacy standards of the Connector;
- (3) Deleting language that would have amended the purpose of the Connector to include providing enrollment, implementation, and benefit administration services for health plans not offered through the Connector;
- (4) Deleting language that would have authorized the Connector to generate revenue through the provision of enrollment, implementation, and benefit administration services for health plans not offered through the Connector or other ancillary products and services;
- (5) Deleting language that would have required that the network adequacy standards of the Connector adhere to the requirements for contracts with federally-qualified health centers in conformance with the requirements of federal implementing regulations;
- (6) Inserting a general fund appropriation of \$2,000,000 for fiscal year 2015-2016 for the operations of the Connector, to be expended by the Department of Commerce and Consumer Affairs;
- (7) Updating the purpose section;
- (8) Inserting an effective date of July 1, 2015; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1028, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1028, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda, Harimoto, Taniguchi and Wakai.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Representatives Belatti, McKelvey, Luke, Creagan and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 127 on S.B. No. 1297

The purpose of this measure is to address the disposition of tax revenues collected under the cigarette tax and tobacco tax law.

More specifically, this measure:

- (1) Specifies that tax revenues that are currently distributed to the trauma system special fund, community health centers special fund, and emergency medical services special fund shall be realizations of the general fund after June 30, 2015; and
- (2) Appropriates general fund moneys to programs currently funded by cigarette tax and tobacco tax distributions.

Your Committee on Conference finds that continuing to distribute cigarette tax revenues to the trauma system special fund, community health centers special fund, and emergency medical services special fund will provide a more reliable funding source for the programs supported by those special funds. However, your Committee also finds that having no limit on the amount of tax revenues that may be deposited into these special funds is not fiscally responsible. Your Committee on Conference further finds that

placing a cap on the amount of cigarette tax revenues received by these special funds will promote budgetary planning and transparency by:

- (1) Making forecasts of general fund revenues more reliable;
- (2) Increasing legislative oversight of the agencies and programs supported by those special funds; and
- (3) Increasing competition for limited public funds among agencies and programs.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Retaining the distribution of tax revenues to the trauma system special fund, community health centers special fund, and emergency medical services special fund;
- (2) Establishing, effective after June 30, 2015, maximum dollar amounts that shall be distributed to those special funds;
- (3) Reducing, effective after June 30, 2015, the distribution to the trauma system special fund from 1.5 cents per cigarette to 1.125 cents per cigarette;
- (4) Providing for the transfer of moneys from the trauma system special fund into the general fund if the ending balance exceeds a certain amount at the end of a fiscal year;
- (5) Deleting the general fund appropriation sections;
- (6) Changing the effective date to July 1, 2015; and
- (7) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1297, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1297, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Johanson and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 128 on S.B. No. 519

The purpose and intent of this measure is to:

- (1) Extend for one additional year the changes adopted by Act 326, Session Laws of Hawaii 2012, which, among other things, established local contact and informational requirements for transient accommodations;
- (2) Require the Department of Taxation to submit an annual report to the Legislature on the implementation of Act 326, Session Laws of Hawaii 2012;
- (3) Authorize the Department of Taxation to enforce civil penalties for operators and plan managers who fail to display certificates of registration and registration identification numbers as required by section 237D-4, Hawaii Revised Statutes; and
- (4) Authorize the deposit of monetary fines into the tax administration special fund.

Your Committee on Conference finds that many residents of Hawaii believe that home-based vacation rentals should be subject to the same transient accommodations tax levied on hotel rooms and time shares. Although many home-based vacation rentals are subject to the same transient accommodations tax levied on hotel rooms and time shares, many operators of transient accommodations and plan managers of resort time share vacation plans have been circumventing the law, creating an unfair advantage over their law-abiding counterparts. In line with public sentiment on this issue, your Committee on Conference finds that action is necessary to correct this situation.

Your Committee on Conference has amended this measure by:

- (1) Deleting the contents of section 1 and inserting legislative findings relating to transient accommodation local contacts;
- (2) Deleting the definition of "transient" and inserting a definition of "local contact";
- (3) Including resort time share vacation interests, units, and plans in the definition of "transient accommodations broker";
- (4) Increasing the balance that may be retained in the tax administration special fund in each fiscal year from \$500,000 to \$700,000;
- (5) Deleting disclosure requirements regarding the transient accommodations tax law;
- (6) Specifying notice requirements relating to local contact information;
- (7) Imposing fines for a violation of the registration and local contact information display or notice requirements, including for advertisements, per transient accommodation or resort time share vacation unit and staggering the fine amounts to increase for subsequent violations;

- (8) Authorizing conspicuous provision of an electronic link to the registration identification number of an operator or plan manager, in lieu of the actual registration identification number, in an advertisement for a transient accommodation or resort time share vacation interest, plan, or unit;
- (9) Deleting amendments to Act 326, Session Laws of Hawaii 2012;
- (10) Inserting a severability clause;
- (11) Inserting an effective date of January 1, 2016; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 519, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 519, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Baker, Keith-Agaran, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Representatives Brower, McKelvey, Rhoads, Nishimoto, Ohno and Ward.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 129 on S.B. No. 892

The purpose of this measure is to make various appropriations for the Hawaii resilience and sustainability strategy in the areas of broadband and joint emergency management, energy efficiency and smart grid, and water and sewer infrastructure.

Your Committee on Conference finds that Hawaii needs a new way of thinking about how the State addresses critical infrastructure needs. Your Committee on Conference further finds that increasing broadband capacity is critical to businesses and the continued growth of Hawaii's economy. Broadband internet provides various benefits, including increased access to information, facilitation of healthcare delivery and services, economic opportunities and accelerated business development, and the enhanced capacity for smart grid technology and increased energy conservation.

Your Committee on Conference notes that this measure will facilitate the development of public-private partnerships to provide more secure, reliable, and resilient internet and data capacity.

Your Committee on Conference has amended this measure by:

- (1) Updating the purpose section;
- (2) Inserting an appropriation amount of \$500,000 for fiscal year 2015-2016 only for the Hawaii broadband initiative;
- (3) Deleting language that would have appropriated general funds for the necessary expenses incurred to design broadband cable landing sites and prepare seven environmental impact statements;
- (4) Deleting language that would have appropriated general funds necessary for planning and constructing a joint emergency management center;
- (5) Inserting an appropriation amount of \$250,000 for fiscal year 2015-2016 only for the energy efficiency and grid operations research;
- (6) Inserting an appropriation amount of \$250,000 for fiscal year 2015-2016 only for the county water improvement and sewer distribution systems project;
- (7) Inserting an appropriation amount of \$25,000,000 for fiscal year 2015-2016 only for the Hawaii resilience and sustainability strategy;
- (8) Inserting an effective date of July 1, 2015; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 892, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 892, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Nishimoto, Ward).

Conf. Com. Rep. 130 on S.B. No. 423

The purpose of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit and Victim Witness Assistance Program.

Your Committee on Conference finds that the Career Criminal Prosecution Program addresses the issue of career criminals, and the Victim Witness Assistance Program provides information, assistance, and support services to the victims of and witnesses to crimes. These programs provide worthy services to the citizens of the City and County of Honolulu. However, funding for the programs has been significantly reduced in recent years. Implementation of this measure provides the necessary resources to protect the public from career criminals and further assures that victims and witnesses are supported through the judicial process.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for fiscal year 2015-2016 as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit and Victim Witness Assistance Program, including the hiring of necessary staff;
- (2) Deleting the appropriations for fiscal year 2016-2017;
- (3) Inserting an effective date of July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 423, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 423, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 131 on S.B. No. 524

The purpose of this measure is to appropriate funds as a grant-in-aid to the Office of the Prosecuting Attorney of the County of Hawaii for the Career Criminal Prosecution Unit and Victim Witness Assistance Program.

Your Committee on Conference finds that the Career Criminal Prosecution Program addresses the issue of career criminals, and the Victim Witness Assistance Program provides information, assistance, and support services to the victims of and witnesses to crimes. These programs provide worthy services to the citizens of the County of Hawaii. However, funding for the programs has been significantly reduced in recent years. Implementation of this measure provides the necessary resources to protect the public from career criminals and further assures that victims and witnesses are supported through the judicial process.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for fiscal year 2015-2016 as a grant-in-aid for the County of Hawaii Office of the Prosecuting Attorney Career Criminal Prosecution Unit and Victim Witness Assistance Program, including the hiring of necessary staff;
- (2) Deleting the appropriations for fiscal year 2016-2017;
- (3) Inserting an effective date of July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 524, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 524, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 132 on S.B. No. 1305

The purpose of this measure is to appropriate funds as a grant-in-aid to the Office of the Prosecuting Attorney of the County of Kauai for the Career Criminal Prosecution Unit and Victim Witness Assistance Program.

Your Committee on Conference finds that the Career Criminal Prosecution Program addresses the issue of career criminals, and the Victim Witness Assistance Program provides information, assistance, and support services to the victims of and witnesses to crimes. These programs provide worthy services to the citizens of the County of Kauai. However, funding for the programs has been

significantly reduced in recent years. Implementation of this measure provides the necessary resources to protect the public from career criminals and further assures that victims and witnesses are supported through the judicial process.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$50,000 for fiscal year 2015-2016 as a grant-in-aid to the Office of the Prosecuting Attorney of the County of Kauai for the Career Criminal Prosecution Unit and Victim Witness Assistance Program, including for the hiring of necessary staff;
- (2) Deleting the appropriations for fiscal year 2016-2017;
- (3) Inserting an effective date of July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1305, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1305, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran, Kouchi, Galuteria and Slom.

Conf. Com. Rep. 133 on S.B. No. 1214

The purpose of this measure is to:

- (1) Require an electric utility to unbundle customer rates and charges in order to be eligible to receive financing assistance through special purpose revenue bonds; and
- (2) Authorize the Department of Budget and Finance to issue special purpose revenue bonds to assist Hawaiian Electric Company, Inc.; Maui Electric Company, Limited; and Hawaii Electric Light Company, Inc.

Your Committee on Conference finds that multi-project capital improvement projects and programs to provide electric energy are in the public interest. Implementation of this measure authorizes the issuance of special purpose revenue bonds to assist Hawaiian Electric Company, Inc.; Maui Electric Company, Limited; and Hawaii Electric Light Company, Inc.; in financing multi-project capital improvement projects and programs that will benefit public health, safety, and welfare.

Your Committee on Conference has amended this measure by:

- (1) Deleting language requiring an electric utility to unbundle customer rates and charges in order to be eligible to receive financing assistance through special purpose revenue bonds;
- (2) Authorizing the Department of Budget and Finance to issue up to \$80,000,000 in special purpose revenue bonds in the following distribution: up to \$70,000,000 for Hawaiian Electric Company, Inc.; up to \$7,500,000 for Maui Electric Company, Limited; and up to \$2,500,000 for Hawaii Electric Light Company, Inc.;
- (3) Inserting a lapsing date of June 30, 2020; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1214, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1214, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Tokuda, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 134 on S.B. No. 1050

The purpose of this measure is to:

- (1) Require each electric utility in the State to file a proposed community-based renewable energy tariff or tariffs with the Public Utilities Commission by October 1, 2015;
- (2) Require the Public Utilities Commission to establish a community-based renewable energy tariff or tariffs if the tariff or tariffs are in the public interest; and

- (3) Authorize ratepayer participation in eligible community-based renewable energy projects.

Your Committee on Conference finds that localized renewable energy generation has become increasingly attainable for all types of customers over the past several years. However, despite the rise in statewide residential solar energy use, many individuals and businesses are currently unable to directly participate in renewable energy because of various impediments. Implementation of this measure will create a community-based renewable energy tariff structure that will increase access to renewable energy generation.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the requirement that the Public Utilities Commission establish a community-based renewable energy tariff or tariffs pursuant to section 269-16, Hawaii Revised Statutes;
- (2) Inserting an effective date of upon approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1050, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1050, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Gabbard, Baker, Tokuda, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Lee, Woodson, Nishimoto, Lowen and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 135 on S.B. No. 349

The purpose of this measure is to:

- (1) Establish a renewable fuels production tax credit;
- (2) Repeal the ethanol facility tax credit; and
- (3) Require the Department of Business, Economic Development, and Tourism to certify all tax credits and submit a report regarding the production and sale of renewable fuels to the Governor and Legislature each year.

Your Committee on Conference finds that the State is vulnerable to soaring energy prices and disruptions of its energy imports, which can hinder, cripple, or even devastate the State's economy and the well-being of its residents. The State imports nearly ninety percent of its energy needs and almost one hundred percent of its transportation needs. It is critical that the State becomes more self-sufficient to ensure greater energy security. The establishment of a renewable fuels production tax credit will advance the State's clean energy initiatives and assist the State in achieving greater energy security.

Your Committee on Conference has amended this measure by:

- (1) Making the renewable fuels production tax credit refundable;
- (2) Authorizing taxpayers to claim a refundable renewable fuels production tax credit equal to 20 cents per seventy-six thousand British thermal units of qualifying renewable fuel;
- (3) Limiting the renewable fuels production tax credit claimable by a taxpayer to \$3,000,000 per taxable year;
- (4) Limiting the renewable fuels production tax credit to \$3,000,000 per year in the aggregate; and
- (5) Inserting a sunset date for the tax credit of June 30, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 349, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 349, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Tokuda and Ihara.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Luke, Lowen and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 136 on S.B. No. 359

The purpose of this measure is to:

- (1) Specify that allocations of environmental response, energy, and food security tax revenues to the environmental response revolving fund shall cease after June 30, 2015;

- (2) Make permanent the agricultural development and food security special fund and repealing the June 30, 2030, lapse date of unexpended or unencumbered monies in the fund;
- (3) Make permanent the amendments made under Act 73, Session Laws of Hawaii 2010, to the environmental response revolving fund; the energy security special fund; and the environmental response, energy, and food security tax; and
- (4) Appropriate funds for environmental programs and natural resource programs formerly supported by the allocation of environmental response, energy, and food security tax revenues to the environmental response revolving fund.

Your Committee on Conference finds that the State is precariously dependent on imported food and energy. The environmental response, energy, and food security tax, also known as the barrel tax, is a vital revenue source that supports critical investments and initiatives in clean energy, local agricultural production, and environmental response. The implementation of this measure will ensure ongoing funding for environmental projects, reduce the State's dependence on imported fossil fuels, and further the State's goals of food and energy self-reliance.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to amend the definition of "distributor" as used in the fuel tax law to include fossil fuel;
- (2) Deleting language specifying that allocations of environmental response, energy, and food security tax revenues to the environmental response revolving fund shall cease after June 30, 2015;
- (3) Requiring the environmental response, energy, and food security tax to be additionally imposed on fossil fuels sold by a distributor to any retail dealer or end user, other than a refiner, of fossil fuel, to be paid by the distributor of the fossil fuel;
- (4) Specifying various allocations of environmental response, energy, and food security tax revenues from fossil fuel distributors to be deposited into the environmental response revolving fund, energy security special fund, energy systems development special fund, and agricultural development and food security special fund;
- (5) Specifying that the environmental response, energy, and food security tax on fossil fuels does not apply to coal in certain situations;
- (6) Authorizing gas utilities to recover the cost of the environmental response, energy, and food security tax imposed on fossil fuels as part of its fuel cost in its fuel adjustment charge without further approval by the Public Utilities Commission;
- (7) Making conforming amendments related to the environmental response, energy, and food security tax imposed on fossil fuels;
- (8) Defining "barrel" and "fossil fuel";
- (9) Deleting the appropriations;
- (10) Clarifying the purposes for which the environmental response revolving fund may be used;
- (11) Requiring monies in the environmental response revolving fund in excess of \$1,250,000 on June 30 of each fiscal year be transferred into the general fund;
- (12) Repealing the requirement that certain positions be funded by the environmental response revolving fund;
- (13) Requiring the Director of Health to report to the Legislature actual and planned expenditures from, amounts in, revenues into, unexpended encumbrances reserve of, and transfers from the environmental response revolving fund;
- (14) Amending the purpose of this measure accordingly; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 359, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 359, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Ruderman, Tokuda, Kouchi and Thielen.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Kouchi).

Representatives Lee, Luke, Tsuji and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 137 on S.B. No. 964

The purpose of this measure is to appropriate monies to support Hawaii's elderly population.

More specifically, this measure:

- (1) Appropriates funds for the kupuna care program and the aging and disability resource center;
- (2) Requires that the Alzheimer's Disease and Related Dementia Services Coordinator be appointed in accordance with chapters 76 and 89, Hawaii Revised Statutes, no later than July 1, 2017, and appropriates funds for the Coordinator position;
- (3) Appropriates funds for elderly fall prevention and early detection services;

- (4) Appropriates funds to support the healthy aging partnership program; and
- (5) Establishes and appropriates funds for an Alzheimer's Disease and Related Dementia Public Awareness Campaign.

Your Committee on Conference finds that Hawaii's kupuna need the State to prioritize their health and well-being. Census projections indicate that Hawaii's senior population will almost double between 2010 and 2020, with the highest percentage increase occurring in kupuna over the age of 85. Minimizing the potential financial strain of the aging population on the State and addressing the elderly population's needs require significant proactive efforts.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$3,000,000 for the kupuna care program for fiscal year 2015-2016 only;
- (2) Deleting the appropriation for the aging and disability resource center;
- (3) Deleting the provision appointing an Alzheimer's Disease and Related Dementia Services Coordinator and the appropriation for the Coordinator position;
- (4) Deleting the appropriation for fall prevention and early detection services;
- (5) Deleting the appropriation for the healthy aging partnership program;
- (6) Deleting the appropriation for the Alzheimer's Disease and Related Dementia Public Awareness Campaign;
- (7) Inserting an effective date of July 1, 2015; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 964, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 964, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Chun Oakland, Green, Tokuda, Riviere and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Riviere, Slom).

Representatives Belatti, Morikawa, Luke, Takayama and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 138 on S.B. No. 64

The purpose of this measure is to make appropriations for subsidies, three positions, and contract services for the continued implementation of the preschool open doors program.

Your Committee on Conference finds that the preschool open doors program is Hawaii's school readiness program that provides critical subsidies for low to moderate income families sending their children to a licensed preschool to prepare them for kindergarten. Your Committee on Conference further finds that the preschool open doors program allows approximately 1,300 of Hawaii's children to attend licensed preschools, which has short-term and long-term benefits for children, individuals, and society as a whole.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation for three positions and contract services for the continued implementation of the preschool open doors program;
- (2) Inserting an appropriation amount of \$6,000,000 for subsidies for the preschool open doors program for fiscal year 2015-2016 only;
- (3) Inserting an effective date of July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 64, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 64, S.D. 3, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Kidani, Tokuda, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Morikawa, Takumi, Kobayashi, Keohokalole and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 139 on S.B. No. 1001

The purpose of this measure is to establish an income tax credit for taxpayers who incur certain expenses for manufacturing-related activities in Hawaii.

Your Committee on Conference finds that manufacturers in Hawaii produce goods that are in demand across the United States and around the world. Thus, developing and supporting manufacturing in Hawaii could reduce Hawaii's need to import consumer products and lead to greater economic development. Your Committee on Conference further finds that, according to The Chamber of Commerce Hawaii, Hawaii has more than one thousand active manufacturers that currently employ approximately seventeen thousand workers.

Your Committee on Conference believes that establishing a manufacturing development tax credit would provide financial benefits to manufacturers, thereby increasing their growth and encouraging other manufacturers to begin operations in Hawaii, to strengthen Hawaii's economy.

Your Committee on Conference has amended this measure by reverting to the S.D. 2 version, which establishes a manufacturing development program, rather than a manufacturing income tax credit, through which the High Technology Development Corporation may provide grants to manufacturers in the State for the purchase of and training of employees to use manufacturing equipment and improvement in energy efficiency of manufacturing equipment, and further amending the measure by:

- (1) Additionally authorizing grants for studying or planning the implementation of a new manufacturing facility;
- (2) Increasing the maximum grant amount that a company may receive in any given year from \$20,000 to \$100,000;
- (3) Inserting an appropriation amount of \$2,000,000 for fiscal year 2015-2016 only to the High Technology Development Corporation to facilitate the provision of grants;
- (4) Inserting an effective date of July 1, 2015; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1001, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1001, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Tokuda, Dela Cruz, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Kawakami, Johanson, Brower and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Brower).

Conf. Com. Rep. 140 on S.B. No. 504

The purpose of this measure is to:

- (1) Require the State Historic Preservation Division (SHPD) of the Department of Land and Natural Resources (DLNR) to conduct a survey on properties eligible for listing on the Hawaii register of historic places and to submit a report to the Legislature; and
- (2) Appropriate funds to DLNR to conduct the survey.

Your Committee on Conference finds that the appropriate surveying and recording of historic districts and single-family residences possibly eligible for listing on the Hawaii register of historic places is crucial for their appropriate management and preservation. Your Committee on Conference further finds that this measure would enable SHPD to conduct a survey of potentially eligible districts and residences and facilitate timely review of permit applications submitted to DLNR.

Your Committee on Conference further finds that a data management plan for the digitization of historic preservation records is crucial to the protection and management of the State's historic places and the facilitation of critically needed infrastructure, housing, and economic development projects. The data management plan includes digitization of over 3,600,000 pages of documents, as well as the creation of several databases, a geographic information system, and integration of all these items into a single functioning system.

Your Committee on Conference has amended this measure by:

- (1) Deleting its purpose section;
- (2) Appropriating \$100,000 to DLNR for fiscal years 2016 and 2017 to conduct a survey identifying potential historic districts and single-family residences that may be eligible for listing on the Hawaii register of historic places;
- (3) Appropriating \$150,000 to DLNR for fiscal years 2016 and 2017 to implement a data management plan for the digitization of historic preservation records;
- (4) Inserting an effective date of July 1, 2015; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 504, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 504, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Thielen, Tokuda, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Representatives Yamane, Cullen, Evans and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Evans).

Conf. Com. Rep. 141 on H.B. No. 126

The purpose of this measure is to fund Hawaii Employer-Union Health Benefits Trust Fund costs and other cost adjustments for officers and employees of specified legislative agencies who are excluded from collective bargaining.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate appropriation amounts in this measure;
- (2) Clarifying that appropriation amounts are for fiscal biennium 2015-2017; and
- (3) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 126, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 126, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Keith-Agaran, Galuteria, Harimoto and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Conf. Com. Rep. 142 on H.B. No. 553

The purpose of this measure is to allow graduate student assistants employed by the University of Hawaii to collectively bargain by:

- (1) Establishing collective bargaining unit (15) to consist of graduate student assistants employed by the University of Hawaii;
- (2) Specifying that graduate student assistants employed by the University of Hawaii and working less than twenty hours per week shall not be excluded from an appropriate bargaining unit; and
- (3) Requiring the Chief Negotiator of the Office of Collective Bargaining to convene the prospective collective bargaining unit working group to make recommendation to the Legislature regarding collective bargaining unit (15).

Your Committee on Conference has amended this measure by:

- (1) Removing the provisions that would have established collective bargaining unit (15) for graduate student assistants employed by the University of Hawaii;
- (2) Removing the provisions that would have required the Chief Negotiator of the Office of Collective Bargaining to convene the prospective collective bargaining unit working group;
- (3) Requiring the University of Hawaii and the relevant exclusive representatives to meet and report to the Legislature;
- (4) Changing the effective date to upon approval; provided that any negotiated collective bargaining agreement shall not take effect until July 1, 2016; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 553, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 553, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Tokuda.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Tokuda).

Representatives Nakashima, Choy, Keohokalole, Ichiyama, LoPresti and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 143 on H.B. No. 696

The purpose of this measure is to help increase and strengthen the workforce in the State by:

- (1) Establishing the Hawaii Healthcare Workforce Advisory Board; and
- (2) Allowing the Director of Labor and Industrial Relations to establish workforce advisory boards with specific duties and responsibilities.

Your Committee on Conference has amended this measure by:

- (1) Changing the membership of the Hawaii Healthcare Workforce Advisory Board to include the Director of the Hawaii/Pacific Basin Area Health Education Center and one member representing a nurse training program;
- (2) Clarifying that the workforce advisory boards shall develop goals with a particular attention to efforts in pre-service programs and opportunities;
- (3) Changing the effective date to July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 696, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 696, H.D. 1, S.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Nakashima, Belatti, Keohokalole, Har and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 144 on H.B. No. 697

The purpose of this measure is to:

- (1) Require the Department of Accounting and General Services (DAGS) to:
 - (A) Undertake lease buyback processing under the program of centralized engineering and office leasing services;
 - (B) Facilitate facility agreements between the State and private investors for the sale of facilities to private investors; and
 - (C) Conduct an inventory of all leases of property between state agencies and private entities and submit a report to the Legislature; and
- (2) Require the Auditor to conduct a study that reviews the process, efficiencies, and accountability of various departmental engineering sections that manage general fund capital improvement projects.

Your Committee on Conference has amended this measure by:

- (1) Excluding the facilities managed or controlled by the Department of Transportation (DOT) from the DAGS program to facilitate facility agreements between the State and private investors for the sale of facilities;
- (2) Clarifying that DAGS shall establish, coordinate, and manage a program to facilitate facility agreements between the State and private investors for the sale of facilities to private investors;
- (3) Excluding DOT from the auditor's study to review the process, efficiencies, and accountability of various departmental engineering sections that manage general fund capital improvement projects;
- (4) Inserting an appropriation amount of \$250,000;
- (5) Changing the effective date to July 1, 2015; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 697, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 697, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Tokuda, Ihara, Riviere and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Keohokalole, Ichiyama and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 145 on H.B. No. 547

The purpose of this measure is to ensure that University of Hawaii students receive guidance toward graduation by:

- (1) Requiring the University of Hawaii to explore administrative measures to provide guidance to students to increase the rate of on-time graduation, and to include specific elements if a Graduation Pathway System is developed;
- (2) Requiring the University of Hawaii to submit a report to the Legislature if the University elects to develop a Graduation Pathway System; and
- (3) Appropriating funds to establish the Graduation Pathway System and fund full-time equivalent positions.

This measure also appropriates funds for renovations, repairs, and improvements to the John A. Burns School of Medicine.

Your Committee on Conference finds that elements of a Graduation Pathway System should include:

- (1) Structured, default pathways where, upon choosing a major course of study, students are defaulted into the required classes they need to complete to graduate with a baccalaureate degree in that course of study;
- (2) Academic maps, including a sequential, prescriptive schedule of classes for each meta-major and major course of study;
- (3) An intrusive advising model that includes the use of high school performance and other measures to recommend broad academic pathways and present default pathways for students; and
- (4) Data on the dynamics of the local employment market, including employment availability.

Such a course of study will provide students with guidance to increase the rate of on-time graduation, thereby strengthening educational outcomes for higher education students across the state.

Your Committee on Conference has amended this measure by:

- (1) Specifically requiring the University of Hawaii to provide guidance to students to increase the rate of on-time graduation through the development of a Graduation Pathway System and include specific elements in developing such a system, rather than simply requiring the University to explore administrative measures to achieve these goals;
- (2) Requiring the University of Hawaii to submit a report to the Legislature on its efforts to explore administrative measures to provide guidance to students within the University of Hawaii system to increase the rate of on-time graduation, including updates on progress toward the development of the Graduation Pathway System, rather than requiring a report only if the University of Hawaii elects to develop a Graduation Pathway System;
- (3) Removing the appropriations to fund full-time equivalent positions;
- (4) Appropriating \$500,000 for fiscal year 2015-2016 for the development of the Graduation Pathway System;
- (5) Changing its effective date to July 1, 2015; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 547, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 547, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Choy, Yamashita, Aquino, Ichiyama and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 146 on H.B. No. 541

The purpose of this measure is to:

- (1) Require each University of Hawaii (UH) campus to prepare a plan for the operation of each program the campus is responsible for administering for each fiscal year;
- (2) Authorize the UH Vice President for Budget and Finance and the Chief Financial Officer (CFO) to establish the form and content of the operations plan;
- (3) Require the UH President and CFO to review and approve the operations plan for each campus, and modify or withhold the planned expenditures of any campus during the appropriations period upon determination by the CFO that the expenditures are in excess of actual need or the funds will be insufficient to meet expenditure levels; and
- (4) Specify that moneys in the University of Hawaii Tuition and Fees Special Fund for each campus shall lapse to the credit of Program ID No. UOH900 (University of Hawaii, System Wide Support).

Your Committee on Conference has amended this measure by:

- (1) Authorizing, rather than requiring, the UH President and CFO to modify or withhold the planned expenditures of any campus during the appropriations period, and not contingent upon any determination by the CFO;
- (2) Changing its effective date to July 1, 2015; and

- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 541, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 541, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Tokuda and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Choy, Yamashita, Aquino, Ichiyama and Tupola.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 147 on H.B. No. 540

The purpose of this bill is to extend the authority of the University of Hawaii to maintain a separate accounting and financial management system that is compatible with State accounting and financial systems.

Your Committee on Conference has amended this bill by:

- (1) Adding statutory language that requires the University to expend legislative appropriations in accordance with the Legislature's intent as expressed in the relevant appropriation vehicles, report to the Legislature to account for funds spent otherwise or left unexpended, and return an amount equal to the funds contained in the report plus related recurring appropriations to the general fund;
- (2) Extending the sunset provisions to June 30, 2018, instead of June 30, 2019;
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency; and
- (4) Changing the effective date to June 29, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 540, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 540, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs and Senate Majority Leader on behalf of the Committee.

Senators Taniguchi, Inouye, Harimoto, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Slom).

Representatives Choy, Yamashita, Ichiyama, Kong and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 148 on H.B. No. 1296

The purpose of this measure is to promote the expansion of hydrogen-based energy in Hawaii by:

- (1) Designating the Director of the Hawaii Center for Advanced Transportation Technologies of the High Technology Development Corporation as the State Hydrogen Implementation Coordinator to facilitate the establishment of hydrogen energy infrastructure and policies; and
- (2) Establishing a Hydrogen Implementation Working Group to be convened by the State Hydrogen Implementation Coordinator and submit a report of the working group's findings and recommendations to the Legislature.

Your Committee on Conference has amended the measure by changing its effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1296, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1296, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Gabbard, English, Green and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Lee, Keohokalole, Cullen, Ing and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Ing, Ward).

Conf. Com. Rep. 149 on H.B. No. 1471

The purpose of this measure is to address the funding of government programs by:

- (1) Providing for the transfer of moneys from the Environmental Response Revolving Fund into the General Fund if the ending balance exceeds a certain amount at the end of a fiscal year, and deleting provisions requiring certain positions to be funded by the Environmental Response Revolving Fund;
- (2) Making an appropriation to the Legislative Reference Bureau to update its 2002 invasive species study;
- (3) Repealing or forcing the lapse of certain appropriations for fiscal year 2014-2015 that are not expected to be expended; and
- (4) Re-appropriating some of the lapsed appropriations.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provisions related to the transfer of moneys from the Environmental Response Revolving Fund into the General Fund and the funding of certain positions by that Fund;
- (2) Deleting the appropriations for the Hawaii Strategic Development Corporation Revolving Fund for use for the HI-Growth Initiative;
- (3) Deleting the appropriation for the repair and maintenance of facilities of the Department of Education;
- (4) Deleting the appropriation for the repair and maintenance of facilities of the University of Hawaii;
- (5) Deleting the fiscal year 2016-2017 appropriation for the Agricultural Loan Revolving Fund;
- (6) Deleting the appropriation and the authorization to use funds saved from the lapsing of funds from health care payments for the repair and maintenance of state housing facilities of the Hawaii Public Housing Authority; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1471, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1471, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Tokuda, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Kouchi).

Representatives Lee, Luke, Cullen and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 150 on H.B. No. 1509

The purpose of this measure is to reduce energy costs for public facilities in Hawaii by, among other things:

- (1) Requiring the University of Hawaii to establish a collective goal of becoming net-zero with respect to energy use by January 1, 2035;
- (2) Requiring the University of Hawaii to submit to the Legislature an annual report on the debt service for capital improvement projects funded through a subaccount of the Green Infrastructure Special Fund, the current value of energy saved, the status of pending projects, recommendations for future projects, and overall progress toward the net-zero energy goal; and
- (3) Appropriating funds for capital improvement and energy efficiency projects in furtherance of the net-zero energy goal.

Your Committee on Conference has amended the measure by:

- (1) No longer specifying the manner by which capital improvement projects that advance the University of Hawaii's net-zero energy goal must be funded;
- (2) Decreasing the amount of required information that the University of Hawaii's annual report to the Legislature must contain;
- (3) Requiring the University of Hawaii to make improvements that advance its net-zero energy goal a priority;
- (4) Deleting the appropriations, including for the retrofit of Klum Gym at the University of Hawaii at Manoa;
- (5) Changing the effective date to July 1, 2015; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1509, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1509, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Gabbard, Tokuda, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Representatives Lee, Choy, Luke, Ichiyama, Lowen and Matsumoto.

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 151 on H.B. No. 444

The purpose of this measure is to support visitor industry-related programs and projects, such as beach restoration and conservation.

More specifically, this measure:

- (1) Allocates transient accommodations tax revenues to the special land and development fund to finance beach restoration and conservation and other activities authorized under section 237D-6.5(b)(5), Hawaii Revised Statutes;
- (2) Enables the effective development and implementation of plans to slow the degradation of Hawaii beaches by including language that provides for the conservation of beaches in pertinent beach restoration statutes; and
- (3) Requires the Department of Land and Natural Resources to coordinate, where appropriate, with the counties and private-public partnerships to restore and conserve beaches.

Your Committee on Conference finds that Hawaii's beaches are an important component of Hawaii's landscape that make the State a unique place for residents and visitors. However, University of Hawaii researchers have recently determined that Hawaii's beaches are disappearing at an alarming rate. Your Committee on Conference believes that the State needs to reinvest in its beaches to conserve one of its most valuable natural resources.

Your Committee on Conference notes that the Legislature has provided funding for the protection, preservation, and enhancement of natural resources in fiscal year 2014-2015. However, for technical reasons, the \$3,000,000 in general funds set aside from the transient accommodations tax revenues under section 237D-6.5(b)(5), Hawaii Revised Statutes, for fiscal year 2014-2015 could not be expended. Your Committee on Conference believes that these moneys should be expended to implement the Legislature's policy decision to support visitor industry-related projects, such as beach conservation and restoration.

Your Committee on Conference has amended this measure by:

- (1) Making the amendments to section 237D-6.5(b), Hawaii Revised Statutes, and other pertinent beach restoration statutes to expand the uses for which transient accommodations tax revenues allocated to the special land and development fund may be used to include beach conservation (Part I), effective July 1, 2016;
- (2) Deleting amendments that would have added language regarding conservation to pertinent beach restoration statutes;
- (3) Deleting the requirement that the Department of Land and Natural Resources coordinate, where appropriate, with counties and private-public partnerships to restore and conserve beaches;
- (4) Appropriating moneys from the general fund to be expended for fiscal years 2014-2015 and 2015-2016 in accordance with section 237D-6.5(b)(5), Hawaii Revised Statutes, for visitor-industry related programs and projects, such as the protection, preservation, maintenance, and enhancement of natural resources, including beaches; and
- (5) Changing the effective date from July 1, 2050, to upon approval, except for the allocation of transient accommodations tax revenues to the special land and development fund, which shall take effect on July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 444, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 444, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Thielen, Kouchi, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Brower, Cullen, Evans, Lee and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Lee, Ward).

Conf. Com. Rep. 152 on H.B. No. 830

The purpose of this measure is to create an exemption from the historic review requirements of section 6E-42, Hawaii Revised Statutes, for proposed projects on privately-owned single-family detached dwelling units that are not designated on or nominated for the Hawaii or National Register of Historic Places, or located in a historic district.

Your Committee on Conference finds that current application of historic preservation law requires review by the State Historic Preservation Division of the Department of Land and Natural Resources prior to the granting of permits for proposed projects on historic properties. However, in certain instances, this requirement has delayed the granting of permits for a period of many months, which has had an adverse effect on the construction industry. Your Committee on Conference believes that, by exempting certain private residences from the review process, this measure will support the economy by allowing projects on those residences to move forward without unnecessary delays.

Your Committee on Conference has amended this measure by:

- (1) Including townhouses in the proposed exemption and defining the term by reference to its definition in section 502C-1, Hawaii Revised Statutes;

- (2) Clarifying that an application for a proposed project on an existing privately-owned single-family detached dwelling unit or townhouse shall be subject to the requirements of section 6E-42, Hawaii Revised Statutes, only if the single-family detached dwelling unit or townhouse is over fifty years old and:
 - (A) Is listed on the Hawaii or National Register of Historic Places, or both;
 - (B) Is nominated for inclusion on the Hawaii or National Register of Historic Places, or both; or
 - (C) Is located in a historic district;
- (3) Making a conforming amendment to the purpose section of the measure and the title of the proposed statute to reflect the inclusion of townhouses in the exemption;
- (4) Changing the effective date to July 1, 2015; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 830, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 830, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Thielen, Tokuda, Galuteria and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Representatives Yamane, Cullen, Evans and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Evans).

Conf. Com. Rep. 153 on H.B. No. 461

The purpose of this measure is to transfer administrative responsibility for the Office of Information Practices (Office) from the Office of the Lieutenant Governor to the Department of Accounting and General Services, including:

- (1) Establishing the Office as a permanent agency; and
- (2) Clarifying the independence of the Office pursuant to the transfer, including the employment status of the Office's personnel.

Your Committee on Conference has amended this measure by changing the effective date of all sections except section 5 to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 461, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 461, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Dela Cruz, Gabbard, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 154 on S.B. No. 101

The purpose and intent of this measure is to enhance budgetary stability and transparency in the appropriation of state funds and to maximize financial resources for tobacco prevention and control.

Specifically, the measure:

- (1) Amends the distribution amounts allocated from the Hawaii tobacco settlement special fund; and
- (2) Appropriates general fund revenues to fund programs and items that were formerly supported by the Hawaii tobacco settlement special fund.

Your Committee on Conference finds that the revenue stream flowing into the Hawaii tobacco settlement special fund has fluctuated over time and that the changing needs of tobacco prevention and control programs have led to significant variations in the allocations from the special fund from year to year. Your Committee on Conference believes that this measure will create greater stability in the State's management of tobacco settlement moneys and will further the State's efforts relating to tobacco prevention and control.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation amounts in section 6 of the measure to \$6,424,410 and \$6,507,305, respectively, and clarifying that the moneys are to be used to fund positions and other operating expenditures in HTH590, chronic disease prevention and health promotion, for the purposes of this measure;

- (2) Providing that funds appropriated in this measure may be transferred with the approval of the Governor to HTH590, chronic disease prevention and health promotion, in the General Appropriations Act of 2015 (H.B. No. 500, H.D. 1, S.D. 1, C.D. 1), for expenditure; and
- (3) Requiring the Department of Health to submit a report to the Legislature on the expenditure of moneys appropriated under section 6 of the measure to fund positions and other operating expenditures in HTH590, chronic disease prevention and health promotion.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 101, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 101, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Johanson and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 155 on S.B. No. 1312

The purpose of this measure is to appropriate moneys to be deposited into:

- (1) The emergency and budget reserve fund to comply with the constitutional mandate to provide a tax refund or credit or make such a deposit; and
- (2) The other post-employment benefits trust fund for the prefunding of health and other benefits plan costs for retirees and their beneficiaries.

Your Committee on Conference finds that when certain economic conditions are met, article VII, section 6, of the Hawaii Constitution requires the Legislature to either provide a tax refund or tax credit to state taxpayers, or to make a deposit into one or more funds to serve as a reserve for the State. This requirement is prompted when the state general fund balances at the end of two successive fiscal years exceed five percent of the state general revenues for those fiscal years. These conditions were met at the end of fiscal years 2012-2013 and 2013-2014. However, your Committee on Conference notes that pursuant to section 328L-3(a)(3), Hawaii Revised Statutes, general funds may only be deposited into the emergency budget and reserve fund when state general fund revenues for each of the two successive fiscal years exceeds revenues for each of the preceding fiscal years by five percent. While the general fund revenues for fiscal year 2012-2013 exceeded the previous year's revenues by more than five percent, the general fund revenues for fiscal year 2013-2014 did not exceed the revenues for fiscal year 2012-2013 by more than five percent. Therefore, although the constitutional provisions have been met, the statutory requirement to make a deposit of general funds into the emergency budget and reserve fund has not.

Your Committee on Conference believes that it is preferable to make a deposit into the emergency and budget reserve fund rather than providing a tax refund or credit. By increasing the reserve fund, the State will be better able to address possible emergencies and contingencies that may occur in the future when state revenues slow down. Your Committee on Conference also finds that compliance with article VII, section 6, of the Hawaii Constitution may still be achieved via a deposit, rather than a tax credit or tax refund, through the enactment of a session law that would have the effect of amending section 328L-3(a)(3), Hawaii Revised Statutes, only for fiscal year 2014-2015.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$10,000,000 from the general revenues to be deposited into the emergency and budget reserve fund;
- (2) Deleting the appropriation to be deposited into the other post-employment benefits trust fund for the prefunding of health and other benefits plan costs for retirees and their beneficiaries; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1312, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1312, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English, Galuteria, Riviere and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Luke, DeCoite and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 156 on S.B. No. 1299

The purpose and intent of this measure is to address budgetary planning and transparency in the disposition of conveyance tax revenues.

Specifically, the measure:

- (1) Establishes maximum amounts to be distributed to various non-general funds from the conveyance tax;
- (2) Amends the list of non-general funds that receive distributions from the conveyance tax; and
- (3) Appropriates moneys to programs that were formerly supported by the conveyance tax.

Your Committee on Conference finds that budgetary planning and transparency are key components to ensuring the ongoing fiscal health of the State. Your Committee on Conference believes that, by establishing maximum amounts to be distributed to various non-general funds from the conveyance tax, this measure will make forecasts of general fund revenues more reliable, will increase legislative oversight of agencies and programs supported by the non-general funds, and will subject those agencies and programs to competition for limited public funds if the agencies or programs want more than the amount automatically distributed to their non-general funds.

Your Committee on Conference has amended this measure by:

- (1) Replacing or changing and clarifying the measure's appropriation amounts and authorizations to provide funding as follows:
 - (A) Authorizing the Governor to transfer funds appropriated in this measure to the same program ID in the Executive Budget for natural area reserves and watershed management (LNR407);
 - (B) Deleting appropriations for the Humpback Whale Sanctuary co-manager position and ecosystem protection and restoration;
 - (C) Deleting funding for the operations of the Kure Atoll Field Station;
 - (D) Deleting funding for community fisheries enforcement units;
 - (E) Deleting funding for historic preservation positions and equipment;
 - (F) Deleting funding for the digitization of historic preservation records;
 - (G) \$2,832,996 for FY 2015-2016 and the same sum for FY 2016-2017 to fund positions and other operating expenditures in forestry - resource management and development (LNR172) for forest reserve management, natural area partnership, and forest stewardship programs, after joint consultation with the Forest Stewardship Committee and the Natural Area Reserves System Commission, and authorizing the Governor to transfer these funds to the same program ID in the Executive Budget;
 - (H) \$3,405,749 for FY 2015-2016 and the same sum for FY 2016-2017 to fund positions and other operating expenditures in the native resources and fire protection program (LNR402) for endangered species, watershed, and fire protection and authorizing the Governor to transfer these funds to the same program ID in the Executive Budget;
 - (I) \$1,500,000 for FY 2015-2016 and the same sum for FY 2016-2017 for the native resources and fire protection program (LNR402) for fire, natural disaster, and emergency response equipment and other current expenses of the native resources and fire protection program;
 - (J) \$4,000,000 for FY 2015-2016 and the same sum for FY 2016-2017 for the native resources and fire protection program (LNR402) to be expended as directed by the Hawaii Invasive Species Council for invasive species programs statewide and authorizing the Hawaii Invasive Species Council to transfer these funds to other state departments to implement the Council's directions;
 - (K) \$1,000,000 for FY 2015-2016 and the same sum for FY 2016-2017 for LNR - natural and physical environment (LNR906) for the Kahoolawe Island Reserve Commission;
 - (L) \$101,715 for FY 2015-2016 and the same sum for FY 2016-2017 to fund positions and other expenditures in LNR - natural and physical environment (LNR906) for administrative operating expenses and authorizing the Governor to transfer these funds to the same program ID in the Executive Budget;
 - (M) \$350,000 for FY 2015-2016 and the same sum for FY 2016-2017 for the funding of soil and water conservation districts in water and land development (LNR141); and
 - (N) \$76,260 for FY 2015-2016 and \$152,520 for FY 2016-2017 to fund positions to support the implementation of the Hawaii ocean resources management plan in ecosystem protection and restoration (LNR401); and
- (2) Changing the effective date to July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1299, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1299, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Kouchi.

Managers on the part of the Senate.

Conf. Com. Rep. 157 on S.B. No. 1180

The purpose of this measure is to ensure that metropolitan planning organizations in Hawaii are in compliance with federal laws by, among other things:

- (1) Creating a new chapter to govern metropolitan planning organizations and repealing chapter 279E, Hawaii Revised Statutes, entitled "Metropolitan Planning Organization";
- (2) Requiring metropolitan planning organizations to submit annual reports to the Legislature;
- (3) Appropriating funds from the state highway fund into the metropolitan planning organization revolving fund; and
- (4) Appropriating funds from the metropolitan planning organization revolving fund to be expended by the Department of Transportation for the purposes of this measure.

Your Committee on Conference finds that federal laws require that metropolitan planning organizations be designated based on a minimum population threshold as defined in federal law to act as a decision-making agency and to receive certain funds for the purpose of carrying out a continuing, cooperative, and comprehensive transportation planning process.

Your Committee on Conference further finds that existing state law conflicts with current federal transportation regulations. This conflict needs to be rectified in order for the Oahu Metropolitan Planning Organization to maintain its federal Transportation Management Area certification. In urban areas containing more than 200,000 residents, the Federal Highway Administration and Federal Transit Administration jointly review and certify metropolitan planning organization operations at least every four years. In 2014, a joint certification review of the Oahu Metropolitan Planning Organization found that portions of the Hawaii Revised Statutes governing metropolitan planning organizations were in conflict with federal regulations and suggested corrective action, including amending state law.

Your Committee on Conference notes that, a failure to address conflicts between state law and federal regulations will result in the decertification of the Oahu Metropolitan Planning Organization which has the immediate effect of the withholding of up to twenty percent of the federal surface transportation funds normally attributable to Oahu, an amount calculated to be around \$12,000,000 annually, which impacts roadway and transit funding.

Your Committee on Conference has amended this measure by:

- (1) Renaming the transportation management area metropolitan planning organization revolving funds to the Oahu transportation area metropolitan planning organization revolving fund;
- (2) Clarifying that the Oahu transportation management area metropolitan planning organization revolving fund shall be administered by the Department of Transportation;
- (3) Adding language to clarify that except as otherwise provided by federal law, expenditures from the Oahu transportation management area metropolitan planning organization revolving fund may be made; provided that no expenditure shall be made from and no obligation shall be incurred against the revolving fund in excess of the amount standing in the revolving fund or for any purpose for which the revolving fund may not lawfully be expended;
- (4) Clarifying that nothing shall require the proceeds of Oahu transportation management area metropolitan planning organization revolving fund to be reappropriated annually;
- (5) Clarifying that the annual reports to the Legislature are due twenty days prior to the convening of each regular session starting with the regular session of 2016;
- (6) Adding language to transfer, upon repeal of chapter 279E, Hawaii Revised Statutes, the balance of monies remaining in the Oahu metropolitan planning organization revolving fund to the Oahu transportation management area metropolitan planning organization revolving fund, and transferring any expenses and liabilities of the Oahu metropolitan planning organization revolving fund to the Oahu transportation management area metropolitan planning organization revolving fund;
- (7) Inserting an appropriation amount of \$500,000 for fiscal year 2015-2016, to be deposited into the Oahu transportation management area metropolitan planning organization revolving fund for expenditure by the Oahu metropolitan planning organization;
- (8) Deleting the appropriation out of the metropolitan planning organization revolving fund;
- (9) Changing the effective date to July 1, 2015; and
- (10) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1180, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1180, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 158 on S.B. No. 213

The purpose of this measure is to require the Department of Public Safety (Department), no later than six months of the effective date of this measure, to send written notice to those defendants who had terms of imprisonment imposed prior to June 18, 2008:

- (1) Notice that the Department may recalculate the multiple terms of imprisonment imposed on the defendant; and
- (2) Notice of the defendant's right to have the court review the defendant's sentence.

Your Committee on Conference finds that prior to 2008, section 706-668.5, Hawaii Revised Statutes, relating to imposition of multiple terms of imprisonment, provided that the terms run consecutively unless the court specifically ordered that the terms run concurrently. Act 193, Session Laws of Hawaii 2008, amended section 706-668.5, Hawaii Revised Statutes, and provided that multiple terms of imprisonment run concurrently unless the court specifically orders that the terms run consecutively. This measure attempts to bring parity to the treatment of defendants sentenced to multiple terms prior to the effective date of Act 193, which is June 18, 2008, and those sentenced to multiple terms after that date while providing defendants with adequate notice regarding the possibility of their multiple terms of imprisonment being recalculated by the Department and their rights to have the court review their sentences.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department to post written notice in all inmate housing units and the facility library at each correctional facility for a period of two months;
- (2) Requiring the Department to send written notice no later than January 1, 2016, rather than within six months of the effective date of this measure, to defendants with terms of imprisonment imposed prior to June 18, 2008; and
- (3) Inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 213, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 213, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Espero, Harimoto, Dela Cruz and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Espero).

Representatives Takayama, Rhoads, Johanson, Woodson and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Woodson).

Conf. Com. Rep. 159 on S.B. No. 1083

The purpose of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost adjustments for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee on Conference finds that the Hawaii Government Employees Association and the public employers executed a supplemental agreement concerning collective bargaining unit (8). This measure provides costs item amounts for appropriation.

Your Committee on Conference has amended this measure by adopting language submitted by the Governor that:

- (1) Deletes language that appropriates unspecified amounts for salary adjustments and other cost adjustments for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2015-2017;
- (2) Inserts language that appropriates specific amounts for health premium payments for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2015-2017; and
- (3) Makes technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1083, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1083, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke, Nishimoto and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 160 on S.B. No. 654

The purpose of this measure is to amend the provisions relating to anonymous contributions by reducing the threshold amount a candidate may receive from ten or more persons at the same political function from \$500 to \$100.

Your Committee on Conference finds that this measure impacts the threshold amount of anonymous contributions from ten or more persons at a fundraiser, which is a limited exception to the rule that generally prohibits anonymous contributions. A reduction in the threshold amount will result in such contributions being listed in disclosure reports for monetary and non-monetary contributions of less than \$100 rather than the Schedule A reports.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 654, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 654, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Cachola, Tokioka and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 161 on S.B. No. 1072

The purpose of this measure is to make an emergency appropriation of an unspecified amount for fiscal year 2014-2015 to the Department of the Attorney General for expenses related to major litigation involving the State.

Your Committee on Conference finds that the Department of the Attorney General anticipates incurring several major litigation expenses for the retention of expert witnesses and specialized legal counsel. This measure will supplement the normal annual litigation budget used by the Department of the Attorney General to fund litigation expenses.

Your Committee on Conference has amended this measure by inserting an amount of \$1,000,000 as an emergency appropriation to the Department of the Attorney General for expenses related to major litigation involving the State.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1072, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1072, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda, Ihara, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Representatives Rhoads, Luke, San Buenaventura and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 162 on S.B. No. 1077

The purpose of this measure is to appropriate funds for collective bargaining unit cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (2) for fiscal biennium 2015-2017 and their excluded counterparts.

Your Committee on Conference finds that negotiations for collective bargaining unit (2) have been completed and have resulted in a tentative agreement, expected to be ratified, regarding collective bargaining unit (2).

Your Committee on Conference has amended this measure to reflect the terms of the tentative agreement, expected to be ratified, with regard to collective bargaining unit (2). Your Committee on Conference has further amended this measure by inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1077, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1077, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Shimabukuro.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Nakashima, Luke, Nishimoto and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 163 on S.B. No. 1084

The purpose of this measure is to appropriate funds for collective bargaining unit cost items, salary increases, and other items for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee on Conference finds that the Governor's office has informed the Legislature that negotiations for collective bargaining unit (9) have been completed and that the State received notice of ratification by collective bargaining unit (9) on April 17, 2015.

Your Committee on Conference has amended this measure by:

- (1) Reflecting the terms of the agreement ratified by collective bargaining unit (9); and
- (2) Making this measure effective on July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1084, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1084, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Shimabukuro.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Nakashima, Luke, Nishimoto and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 164 on S.B. No. 555

The purpose of this measure is to relieve the tax burden on low-income individuals and families by amending the refundable food/excise tax credit.

Specifically, this measure separately sets forth the amount of the tax credit available to taxpayers filing as heads of households or as married couples filing separate or joint returns, and provides unspecified credit per exemption amounts.

Your Committee on Conference finds that Hawaii has the nation's highest cost of living and that the refundable food/excise tax credit was originally devised to alleviate that financial burden. Your Committee on Conference further finds that the refundable food/excise tax credit should be updated to retain value for low-income individuals and working families.

Your Committee on Conference has amended this measure by:

- (1) Inserting credit per exemption dollar amounts;
- (2) Repealing the residency requirement for qualifying for the tax credit; and
- (3) Providing for the repeal of this measure on December 31, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 555, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 555, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Espero, Riviere, Ruderman and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ruderman, Slom).

Representatives Johanson, Kobayashi and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 165 on S.B. No. 160

The purpose of this measure is to:

- (1) Establish the University of Hawaii Quasi-endowment Trust Fund;
- (2) Repeal various non-general funds and accounts that no longer serve their intended purpose and transfer the unencumbered balances to the general fund; and
- (3) Reclassify certain special funds as revolving funds that still serve their intended purpose but function as and meet the criteria as revolving funds.

Your Committee on Conference finds that a recent Auditor's report recommended that the University of Hawaii's quasi-endowment income and scholarship revolving fund be terminated because it did not meet certain statutory criteria. This measure statutorily establishes the fund as a trust fund, thereby meeting the necessary statutory requirements and allowing the University of Hawaii to continue funding the services supported by the University of Hawaii-established quasi-endowment income and scholarship revolving fund.

Your Committee on Conference further finds that timely review and consideration of the University of Hawaii's special funds facilitates the efficient and effective use of State funds and ensures that each non-general fund continues to serve the purpose for which it was created. Accordingly, this measure also reclassifies special funds that are essential to their respective program areas while repealing those found to be no longer necessary or not meeting the criteria for continuance under law.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have reclassified the community colleges special fund as a revolving fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 160, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 160, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs and Senate Majority Leader on behalf of the Committee.

Senators Taniguchi, Inouye and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Choy, Jordan, Ichiyama, Yamashita and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 166 on H.B. No. 134

The purpose of this measure is to extend the county surcharge on state general excise and use taxes, which was enacted by Act 247, Session Laws of Hawaii 2005 (Surcharge). Among other things, this measure:

- (1) Caps the maximum authorized Surcharge rate at one-half percent and amends the purposes for which Surcharge revenues may be used;
- (2) Authorizes the extension of the Surcharge by a county that has already adopted an ordinance from January 1, 2023, until December 31, 2027, while limiting the use of Surcharge revenues to capital costs;
- (3) Authorizes counties that have not yet established a Surcharge to do so, subject to certain requirements; and
- (4) Requires certain actions by the board of the transit agency that is constructing the locally preferred alternative for a mass transit project funded by the Surcharge.

After careful deliberation, your Committee on Conference has amended this measure by:

- (1) Delaying the date when an adopted Surcharge may be collected by an additional year to January 1, 2018;
- (2) Clarifying that “public lands” include the air rights over county mass transit projects in the State;
- (3) Removing the requirement that the board of directors of a transit agency constructing a locally preferred alternative for a mass transit project conduct annual audits and submit reports;
- (4) Requiring that the Surcharge cannot be levied prior to:
 - (A) January 1, 2007, if the Surcharge was established by an ordinance adopted prior to December 31, 2005; or
 - (B) January 1, 2018, if the Surcharge was established by an ordinance adopted after June 30, 2015, but prior to July 1, 2016; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 134, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 134, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Espero, Tokuda, Harimoto and Kouchi.

Managers on the part of the Senate.

Representatives Luke, Aquino, Onishi and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 167 on S.B. No. 284

The purpose of this measure is to protect and preserve important natural resources in the State by:

- (1) Assisting in the acquisition of a conservation easement in Turtle Bay, Oahu; provided that there is a contract to acquire the Turtle Bay conservation easement by December 31, 2015. Among other things, this measure:
 - (A) Allocates transient accommodations tax (TAT) revenues to the Turtle Bay Conservation Easement Special Fund;
 - (B) Authorizes the Department of Budget and Finance to issue reimbursable general obligation bonds used to acquire the conservation easement;
 - (C) Requires the Department of Budget and Finance to transfer the conservation easement to the Department of Land and Natural Resources; and

- (D) Annually allocates TAT revenues to the Department of Budget and Finance to reimburse the general fund regarding the reimbursable general obligation bonds; and
- (2) Requiring the Office of Planning to investigate the possible acquisition or exchange of lands owned by Dole Food Company, Inc. for agricultural production.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Department of Budget and Finance to issue \$35,000,000 in reimbursable general obligation bonds and to deposit the proceeds into the Turtle Bay Conservation Easement Special Fund;
- (2) Appropriating \$35,000,000 out of the Turtle Bay Conservation Easement Special Fund to finance the acquisition of the conservation easement and other real property interests at Turtle Bay, Oahu (Turtle Bay Easement);
- (3) Allocating TAT revenues of \$1,500,000 annually to the Turtle Bay Conservation Easement Special Fund;
- (4) Providing that a nonprofit land conservation organization file an application annually with the Board of Land and Natural Resources requesting \$1,500,000 from the Land Conservation Fund to be used for the reimbursement of debt service on the Turtle Bay reimbursable general obligation bonds;
- (5) Appropriating \$3,000,000 out of the Turtle Bay Conservation Easement Special Fund to reimburse the state general fund for payment of debt service on the reimbursable general obligation bonds;
- (6) Appropriating \$500,000 from TAT revenues to the Department of Land and Natural Resources to pay for appraisal, due diligence, and closing costs relating to the acquisition of the Turtle Bay Easement;
- (7) Removing the provision requiring the Office of Planning to investigate the possible acquisition or exchange of lands owned by Dole Food Company, Inc. for agricultural production;
- (8) Making the provision exempting the Turtle Bay Conservation Easement Special Fund from sections 36-27 and 36-30, Hawaii Revised Statutes, take effect on July 1, 2015; and
- (9) Making other technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee on Conference notes that this measure requires a nonprofit land conservation organization to file an application annually with the Board of Land and Natural Resources requesting a \$1,500,000 grant from the Land Conservation Fund to be used for the reimbursement of debt service on the Turtle Bay reimbursable general obligation bonds until such bonds are fully amortized. Your Committee on Conference understands that the Trust for Public Land will be the nonprofit land conservation organization filing such applications. While one Legislature cannot bind another Legislature, your Committee on Conference respectfully requests that future legislators monitor the diligence and efforts of the Trust for Public Land to secure such grants.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 284, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 284, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 168 on S.B. No. 1078

The purpose of this measure is to appropriate funds for collective bargaining unit cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (3) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee on Conference finds that negotiations for collective bargaining units (3) and (4) have been completed and have resulted in a tentative agreement, expected to be ratified, regarding collective bargaining units (3) and (4). Your Committee on Conference further finds that although a tentative agreement has not been reached for bargaining unit (14), by law, bargaining unit (14) is entitled to the same terms as bargaining units (3) and (4) until a contract is negotiated.

Your Committee on Conference has amended this measure to reflect the terms of the tentative agreement, expected to be ratified, with regard to collective bargaining units (3) and (4) and applied to bargaining unit (14). Your Committee on Conference has further amended this measure by inserting an effective date of July 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1078, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1078, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 170 on H.B. No. 321

The purpose of this measure is to establish a system of medical marijuana dispensaries and cultivation and manufacturing sites in the State.

More specifically, this measure:

- (1) Establishes licensing and regulatory schemes for the operation of dispensaries;
- (2) Requires that an applicant for a dispensary license be a health care provider organized in the State;
- (3) Establishes the following fees:
 - (a) A non-refundable \$25,000 dispensary license application fee;
 - (b) An additional \$75,000 fee for each license approved; and
 - (c) A \$25,000 fee for each retail dispensing location allowed under each approved license;
- (4) Allows qualifying patients from other states to purchase medical marijuana from licensed dispensaries in this State;
- (5) Requires the Department of Health to engage in public education and training regarding medical marijuana;
- (6) Allows the manufacture of certain medical marijuana products;
- (7) Requires the Department of Health to establish standards regarding the advertising and packaging of medical marijuana products;
- (8) Requires the Department of Health to adopt interim rules regarding:
 - (a) Annual audits and reports pertaining to each licensed dispensary;
 - (b) Security requirements for the operation of dispensaries;
 - (c) Standards and criminal background checks for operators and employees of dispensaries;
 - (d) Training and certification of operators and employees of dispensaries;
 - (e) Types of medical marijuana products that dispensaries shall be authorized to grow, manufacture, sell, or provide;
 - (f) Standards and methodologies related to testing medical marijuana products for content, contamination, and consistency;
 - (g) Quantities of manufactured marijuana products that a dispensary may dispense to a qualifying patient or primary caregiver;
 - (h) Inventory controls to prevent the unauthorized diversion of marijuana or the dispensing of quantities that exceed established limits;
 - (i) Destruction or disposal of any marijuana products; and
 - (j) Limitations to the size or format of any signs placed outside a dispensary;

-
- (9) Requires the Department of Health to adopt rules to implement dispensary licensure and establish standards;
 - (10) Prohibits a qualifying patient or primary caregiver from:
 - (a) Withholding information regarding prior dispensary visits for the purpose of obtaining quantities of medical marijuana or manufactured marijuana products that exceed established limits; or
 - (b) Obtaining or attempting to procure any medical marijuana or marijuana product from a dispensary by fraud, deceit, embezzlement, forgery, furnishing false information, or altering or unlawfully distributing, possessing, or selling a state-issued medical use of marijuana card;
 - (11) Prohibits the use of flammable solvents to extract tetrahydrocannabinol by a dispensary, qualifying patient, or primary caregiver;
 - (12) Provides for the revocation and suspension of dispensary licenses for violations;
 - (13) Requires dispensaries to comply with all county zoning ordinances, rules, or regulations; specifies that dispensaries shall be permitted in areas where agricultural production is permitted and shall not be permitted within seven hundred fifty feet of a playground, public housing project, or school;
 - (14) Requires dispensaries to allow inspections and have annual financial audits conducted;
 - (15) Requires the Department of Health to annually report to the Governor and the Legislature on the establishment and regulation of dispensaries;
 - (16) Specifies that qualifying patients and primary caregivers shall retain the authority to grow and manufacture an adequate supply of medical marijuana;
 - (17) Requires the Department of Health to initiate dialogue with federal and state agencies to identify processes and policies to ensure the privacy of patients and compliance with state laws and regulations;
 - (18) Prohibits:
 - (a) An unauthorized person to enter or remain at a dispensary;
 - (b) Distribution of marijuana and marijuana products to an unauthorized minor;
 - (c) Failure to securely store marijuana, marijuana products, or marijuana concentrate;
 - (d) Unauthorized diversion of marijuana from a dispensary; and
 - (e) Alteration or falsification of dispensary records;
 - (19) Provides law enforcement agencies with access to dispensary records;
 - (20) Prohibits any law, county ordinance, or rule from prohibiting the use of land for dispensaries; provided that the land is otherwise zoned for agriculture, manufacturing, or retail purposes;
 - (21) Provides that the medical marijuana registry special fund shall include sub-accounts for the deposit of licensing fees collected from dispensaries and production centers, and re-names the special fund the medical marijuana registry and regulation special fund;
 - (22) Establishes affirmative defense protections for an owner or employee of a licensed dispensary to a prosecution involving marijuana;
 - (23) Provides that an adequate supply of marijuana may include manufactured marijuana products containing the equivalent of four ounces of usable marijuana;
 - (24) Clarifies that qualifying medical marijuana patients and primary caregivers may transport medical marijuana in any public place;
 - (25) Allows any licensed physician with a bona fide physician-patient relationship with a qualifying patient, rather than only the qualifying patient's primary care physician, to issue a written certification for the use of medical marijuana;
 - (26) Establishes a fifteen percent special general excise tax on marijuana sales by a dispensary;
 - (27) Establishes a ten percent retail marijuana special sales tax on the gross proceeds of sales by a dispensary;
 - (28) Appropriates \$750,000 of general revenues into the medical marijuana registry and regulation special fund;
 - (29) Appropriates an unspecified amount from the medical marijuana registry and regulation special fund to implement this measure, including the hiring of full time personnel;
 - (30) Provides that by no later than July 1, 2016, the Department of Health is required to establish and commence a repayment plan for the general funds deposited into the medical marijuana registry and regulation special fund; and
 - (31) Requires the Director of Health to report and provide an informational briefing no later than March 15, 2016, to the Legislature regarding the implementation of medical marijuana dispensaries.

Your Committee on Conference finds that Hawaii's medical use of marijuana law was enacted on June 14, 2000, as Act 228, Session Laws of Hawaii 2000, to provide medical relief for seriously ill individuals in the State but did not provide a legal way for

those individuals to obtain medical marijuana. Many patients who are qualified to use medical marijuana lack the ability to grow their own supply.

Your Committee on Conference also finds that in April of 2014, the Legislature approved House Concurrent Resolution No. 48, House Draft 1, Senate Draft 1, requesting the convening of a task force to develop recommendations for the establishment of a regulated statewide dispensary system for medical marijuana. A medical marijuana dispensary task force that included health officials, qualifying medical marijuana patients, law enforcement leaders, legislators, and other stakeholders was duly convened and met from June of 2014 to January of 2015 to engage in extensive discussions, examine medical marijuana laws and policies from other states, gather input from experts, and review comprehensive and updated reports by the Legislative Reference Bureau and the State Auditor. The task force voted on and approved thirty-eight recommendations related to the establishment of a regulated statewide dispensary system for medical marijuana.

Your Committee on Conference also finds that the medical marijuana dispensary task force recommendations provided crucial guidance for the formulation of this measure, which also takes into account many suggestions, concerns, and criticisms from other stakeholders.

Your Committee on Conference further finds that licensed medical marijuana dispensaries should be authorized under a vertical integration licensing scheme to cultivate marijuana and manufacture specified medical marijuana products in addition to dispensing medical marijuana and medical marijuana products. Licensing regulations should ensure that licenses are granted to Hawaii residents and to entities that have adequate access to capital, that are organized under the laws of the State, and in which a majority of Hawaii residents exercise control.

Your Committee on Conference has amended this measure by:

- (1) Providing that eight dispensary licenses shall be issued in the State; provided that three shall be issued for the City and County of Honolulu, two shall be issued for the County of Hawaii, two shall be issued for the County of Maui, one shall be issued for the County of Kauai, and none shall be issued for the County of Kalawao;
- (2) Authorizing dispensary licensees to own, operate, or subcontract up to two production centers and up to two retail dispensing locations;
- (3) Deleting the requirement that a licensee be a health care provider;
- (4) Prohibiting any single person from obtaining a dispensary license in more than one county;
- (5) Authorizing the operation of up to two production centers per dispensary license, with a total of not more than three thousand marijuana plants per production center, under each dispensary license;
- (6) Authorizing each dispensary licensee to operate up to two retail dispensing locations under the licensee's license;
- (7) Authorizing each licensee to commence dispensing medical marijuana and manufactured marijuana products on July 15, 2016;
- (8) Prohibiting a dispensary from being located at the same place as a licensee's production center;
- (9) Authorizing the Department of Health to determine, based on qualifying patient need, whether additional licenses shall be offered after October 1, 2017;
- (10) Requiring that each application for a license include both an individual applicant and an applying entity;
- (11) Establishing criteria for license applications to require that an individual applicant:
 - (a) Be a legal resident of the State for not less than five years preceding the date of applicant;
 - (b) Be not less than twenty-one years of age; and
 - (c) Have no felony convictions;
- (12) Establishing criteria for license applications to require that an entity applicant:
 - (a) Be organized under the laws of the State;
 - (b) Have a Hawaii tax identification number;
 - (c) Have a Department of Commerce and Consumer Affairs Business Registration Division number and suffix;
 - (d) Have a federal employer identification number;
 - (e) Be not less than fifty-one percent held by Hawaii legal residents or entities wholly controlled by Hawaii legal residents who have been Hawaii legal residents for at least the five years immediately preceding years;
 - (f) Have at least \$1,000,000 under its control for each license applied for, plus at least \$100,000 available for each retail dispensing location allowed under the license applied for; and
 - (g) Be comprised of principals or members who have no felony convictions;
- (13) Changing the non-refundable application fee from \$25,000 to \$5,000;
- (14) Deleting the \$25,000 fee for each retail dispensing location allowed under each approved license;
- (15) Further specifying license application requirements and verification procedures;

- (16) Providing that an application that has been verified to meet minimal licensing requirements shall be placed in an application pool for further review by the Department of Health and selection based on merit;
- (17) Limiting dispensary operating hours;
- (18) Prohibiting a dispensary from:
 - (a) Providing written certification for the use of medical marijuana;
 - (b) Employing any person under the age of twenty-one;
 - (c) Providing free samples of marijuana or manufactured marijuana products;
 - (d) Allowing the consumption of marijuana or manufactured marijuana products on dispensary premises;
 - (e) Transporting marijuana or manufactured marijuana products to another county or island;
 - (f) Providing off-premises delivery of marijuana or manufactured marijuana products to caregivers or patients; and
 - (g) Displaying marijuana or manufactured marijuana products in public view;
- (19) Establishing certain minimum standards for rules to be adopted by the Department of Health regarding dispensary licensure;
- (20) Establishing certain restrictions for the packaging of manufactured marijuana products;
- (21) Prohibiting the transportation of any medical marijuana or medical marijuana products to, from, or within any federal fort or arsenal, national park or forest, any other federal enclave, or any other property possessed or occupied by the federal government;
- (22) Establishing limits on the size and contents of any signage posted by a dispensary; provided that any law or ordinance that is more restrictive shall govern;
- (23) Deleting the fifteen percent special general excise tax on marijuana sales by a dispensary;
- (24) Deleting the ten percent retail marijuana special sales tax on the gross proceeds of sales by a dispensary;
- (25) Changing the prohibition on the use of flammable solvents to extract tetrahydrocannabinol to instead prohibit the use of butane for that purpose;
- (26) Prohibiting a qualifying patient from obtaining medical marijuana or manufactured marijuana products after December 31, 2018, from any source other than a licensed dispensary or by personally cultivating the marijuana; provided that a primary caregiver may cultivate marijuana after December 31, 2018, for a qualifying patient:
 - (a) Who is a minor or an adult lacking legal capacity and the primary caregiver is the parent, guardian, or person having legal custody over that minor or person; or
 - (b) Who is located on any island on which there is no licensed medical marijuana dispensary;
- (27) Expanding the definition of "debilitating medical condition" for purposes of authorizing medical marijuana use to include post-traumatic stress disorder;
- (28) Deleting the prohibition on the failure to securely store marijuana, marijuana products, or marijuana concentrate;
- (29) Prohibiting unauthorized access to production center premises;
- (30) Expanding the Department of Health's authority to conduct criminal background checks;
- (31) Inserting \$750,000 as the amount appropriated from the medical marijuana registry and regulation special fund to implement this measure, including the hiring of full time personnel; and
- (32) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 321, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 321, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran, Tokuda, Gabbard and Ihara.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Rhoads, Luke, San Buenaventura, Takayama and Fukumoto Chang.

Managers on the part of the House.

Ayes, 6; Ayes with Reservations (Fukumoto Chang). Noes, none. Excused, none.

STANDING COMMITTEE REPORTS

SCRep. 1 Judiciary and Labor on S.B. No. 100

The purpose and intent of this measure is to correct a statement in part VI of Act 134, Session Laws of Hawaii 2014, relating to the appropriation for a study on joint investment information and service sharing by the Employees' Retirement System and Hawaii employer-union health benefit trust fund.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 100, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2 Judiciary and Labor on S.B. No. 133

The purpose and intent of this measure is to allow the courts to decree a forfeiture of benefits by an Employees' Retirement System member, former member, or retirant upon a conviction of a felony and finding that the felony is related to the member, former member, or retirant's employment by the State or any county.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 133, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 3 Transportation on S.B. No. 16

The purpose and intent of this measure is to:

- (1) Provide a definition of "vehicle owner", "hooked up", and "scene" for purposes of recovering a towed motor vehicle;
- (2) Allow a towing charge of \$30 for difficult hookups; and
- (3) Require a date and time stamped photograph of the hooked up vehicle, showing the license plate of the vehicle, when the owner appears on the scene, as evidence that the vehicle is hooked up.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and Honolulu Police Department. Your Committee received testimony in opposition to this measure from Solid Towing LLC. Your Committee received comments on this measure from Ace Towing Services, Waialae Towing, and one individual.

Your Committee finds that current law is in need of clarification with regard to when a "hookup" occurs, what constitutes the "scene" from which a tow is initiated, and who is the "vehicle owner" that is entitled to have the vehicle released from the towing company.

Testimony from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs indicates that it receives numerous complaints from consumers concerning tow company practices. The Honolulu Police Department testified that it often has to settle disputes at a scene between tow companies and consumers.

Your Committee has amended this measure by amending the definition of "scene" to clarify that the term refers to the following when a vehicle is being towed:

- (1) A parking stall on a public street or in a public or private parking lot;
- (2) A particular spot on any property; or
- (3) A spot that is curbside on a street in the case of a vehicle blocking a driveway, including partially.

Your Committee further clarified that the "scene" includes a radius of four feet around the vehicle being towed, unless the vehicle is on a public street or blocking a driveway.

Your Committee believes that the measure, as amended, clarifies the rights of consumers and the duties of tow companies, and that consumer complaints should significantly diminish as a result. The amendment received the support of the stakeholders, including the Office of Consumer Protection of the Department of Commerce and Consumer Affairs. However, your Committee cautions that while other issues with this measure were raised, your Committee believes those issues are under the purview of the Committee on Commerce and Consumer Protection.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 16, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 16, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 4 Transportation on S.B. No. 98

The purpose and intent of this measure is to establish the offense of endangering public transportation as a class C felony when a person tampers with a public highway or a facility of public transportation, with intent to cause any damage, malfunction, nonfunction, theft, or unauthorized removal of material which would result in the creation of a substantial risk of death or serious bodily injury to anyone.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Transportation Services of the City and County of Honolulu, and Honolulu Police Department.

Your Committee finds that this measure is intended in part, to address the theft of copper wiring along highways. Your Committee further finds that the theft of copper wiring and vandalism of conduits along the highways creates dangerous conditions for motorists while the highway lights are out. In addition, stolen copper is costly to replace. This measure provides another tool for the prosecution of persons who intentionally remove such material without authorization.

Your Committee notes that a similar statute exists that establishes the offense of theft of copper as a class C felony; however your Committee defers to your Committee on Judiciary and Labor to address this potential issue if it chooses to hear this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 5 Transportation on S.B. No. 150

The purpose and intent of this measure is to require any person who is eligible to vote and applies for a motor vehicle driver's license, provisional license, instruction permit, or civil identification card to be automatically registered to vote if that person is not already registered to vote.

Your Committee received testimony in support of this measure from the Office of Elections, Elections Division of the Office of the County Clerk for the County of Kauai, The Center for Popular Democracy, League of Women Voters, and one individual.

Your Committee finds that voter registration, as a percentage of eligible voters, is dismally low in Hawaii compared to other states. Automatic voter registration upon application for a motor vehicle driver's license, provisional license, instruction permit, or civil identification card is an ideal way to register more voters.

Your Committee has amended this measure on the recommendation of the Office of Elections by deleting the requirement for automatic registration and inserting language that conforms with the National Voter Registration Act by specifying that an affidavit on application for voter registration shall be part of the application associated with the issuance of a driver's license and civil identification card.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 150, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 6 Judiciary and Labor on S.B. No. 249

The purpose and intent of this measure is to require, beginning with fiscal year 2016-2017, reimbursements from a non-general or federal fund to the general fund for the annual required contribution made for state employees or retirees whose compensation is or was paid from the non-general or federal fund.

Your Committee received comments on this measure from the Department of Budget and Finance and the University of Hawaii System.

Your Committee notes that upon questioning from the Chair, the Director of Finance expressed concern that this measure may hamper the timeliness of reimbursements that is currently done on a monthly basis. Further, the State has obtained approval for a fringe benefit rate for calculating other post-employment benefit reimbursements from the federal government, so requiring the Director to establish a formula for reimbursements may actually hamper that process. Your Committee encourages your Committee on Ways and Means to give consideration to whether this measure would hamper the process for reimbursement currently in place if it chooses to schedule this measure for a hearing.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 249, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 7 Judiciary and Labor on S.B. No. 158

The purpose and intent of this measure is to require the six-year program and financial plan and budget to include information on pension liability and other post-employment benefits liability.

Your Committee received comments on this measure from the Department of Budget and Finance.

Given the substantial balances of the pension and other post-employment benefits liabilities, your Committee finds it prudent to include information on these liabilities in the State's budget documents. However, the Employees' Retirement System testified that due to timing issues, it may not be able to provide the information for the most recently completed fiscal year.

Your Committee has amended this measure consistent with the commentary from the Department of Budget and Finance by:

- (1) Amending the description of the information on pension and other post-employment benefit liabilities required to be included in the program and financial plan and budget;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 158, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 8 Judiciary and Labor on S.B. No. 139

The purpose and intent of this measure is to:

- (1) Require each director of a central personnel agency for a jurisdiction to review positions exempt from the requirements of chapter 76, Hawaii Revised Statutes, between June 30, 2002, and July 1, 2014, to determine whether the position should remain exempt;
- (2) Remove the requirement that a person holding an exempt position for at least one year prior to that position being replaced by a civil service position be appointed to that civil service position after meeting certain qualifications; and
- (3) Require that the Director of Human Resources Development submit to the Legislature a report of findings based on the review of exempt positions required by section 76-16(g), Hawaii Revised Statutes.

Your Committee received comments on this measure from the Office of the Auditor and Department of Human Resources Development.

Your Committee finds that although the civil service system is intended to implement a fair system of selection for public employees, state law has also accommodated thousands of civil service exemptions. This measure is part of a continuing effort by the State to curb the use of exempt positions and better utilize the civil service system.

Your Committee has amended this measure, consistent with the commentary from the Department of Human Resources Development, by:

- (1) Extending the deadline for the Director of Human Resources Development to file the report to the Legislature to twenty days prior to the 2017 Regular Session;
- (2) Extending the repeal date of the required conversion of certain exempt positions to civil service appointments to July 1, 2017, to provide an additional year to assess the impact of the amendment to section 76-16, Hawaii Revised Statutes; and
- (3) Inserting an effective date of January 7, 2059 to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 139, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 9 Education on S.B. No. 857

The purpose and intent of this measure is to continue to allow the Department of Education to preaudit payments of \$10,000 or more and a sampling of at least five percent of payments of less than \$10,000 to determine the propriety of expenditures and ensure compliance with executive orders and rules until June 30, 2020.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that the Department of Education's personnel resources would be overburdened if tasked with preauditing every transaction processed by the Department of Education, and that the existing practice of preauditing payments over \$10,000 and a sampling of at least five percent of payments under \$10,000 has been a manageable alternative for the Department of Education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 857 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 10 Human Services and Housing on S.B. No. 970

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation to issue revenue bonds to finance the rental housing trust fund; and
- (2) Allow up to \$5,000,000 of conveyance tax revenues to be deposited into the rental housing trust fund to be used to repay revenue bonds and refunding revenue bonds issued to finance the rental housing trust fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Catholic Charities Hawai'i, Chamber of Commerce Hawaii, Partners in Care, PHOCUSED, Building Industry Association of Hawaii, and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that rental units are the greatest demand for low-income households; however, the market does not normally build for this population. The rental housing trust fund is critical because it is the only financing mechanism for households at thirty percent of the area median income or below. With nearly seventy-eight percent of extremely low-income households paying more than half of their income in rent, there is a need to timely create thousands of units of affordable rentals.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 11 Human Services and Housing on S.B. No. 971

The purpose and intent of this measure is to:

- (1) Require each rental housing project with a general excise tax exemption to enter into a regulatory agreement with the Hawaii Housing Finance and Development Corporation to ensure the project's continued eligibility for the tax exemption; and
- (2) Establish minimum terms for the agreements depending on the type of project.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that encouraging private sector investment and construction of rental housing for Hawaii's families is critical. According to the Hawaii Housing Planning Study in 2011, there is an estimated need for over 13,000 rental units by 2016 for households at or below eighty percent of the area median income. Of those needed rental units, nearly seventy-five percent are needed by households at or below fifty percent of the area median income.

Your Committee has amended this measure by deleting its contents and replacing them with the contents of S.B. No. 1075, Regular Session of 2015, which ensures that certain eligible housing projects will remain affordable for certain minimum periods in order to be certified for exemption from general excise taxes.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 971, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 12 Human Services and Housing on S.B. No. 975

The purpose and intent of this measure is to add, beginning on January 1, 2016, a secondary preference for rental housing trust fund project applicants that receive federal low-income housing tax credits.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that affordable rental projects that have been allocated volume cap low-income housing tax credits have first priority for rental housing trust fund awards. All other eligible projects compete for any remaining available rental housing trust fund awards. This measure will provide additional incentives for the development of rental projects serving lower income households.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 975 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 13 Human Services and Housing on S.B. No. 1014

The purpose and intent of this measure is to define specific rights granted to a person who is houseless, including equal access to housing, jobs, and shelters, equal treatment by government agencies, and access to life-sustaining activities and essential services.

Your Committee received testimony in support of this measure from the GLBT Caucus of the Democratic Party of Hawaii, Hawaii Youth Services Network, Pacific Alliance to Stop Slavery, IMUAlliance, Amnesty International Honolulu Chapter, and thirteen individuals.

Your Committee finds that no person's rights, privileges, or access to public services should be denied solely because a person is houseless, and a houseless individual should be granted the same rights as any other person. Because houseless persons often experience discrimination based on their appearance or lack of permanent address, there is a need for protecting the basic human rights of the houseless.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1014 and recommends that it pass Second Reading and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Green, Slom).

SCRep. 14 Human Services and Housing on S.B. No. 120

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds and the appropriation of funds for deposit into the rental housing trust fund and the dwelling unit revolving fund to finance affordable rental housing development and infrastructure development;
- (2) Appropriate funds for the construction of micro apartment housing units; and
- (3) Appropriate funds to the Department of Human Services to continue to administer housing first programs for chronically homeless.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Housing Finance and Development Corporation, Chamber of Commerce Hawaii, Catholic Charities Hawaii, Faith Action for Community Equity, Hawai'i Association of REALTORS, Hawaii Catholic Conference, Hawaii Primary Care Association, Partners in Care, The CHOW Project, PHOCUSED, Building Industry Association of Hawaii, Hawai'i Appleseed Center for Law and Economic Justice, and nine individuals. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that affordable housing is a serious concern for many Hawaii residents. According to the 2011 Hawaii Housing Planning Study, up to 50,000 new housing units will need to be built by 2016 to meet the new demand generated by changing demographics and economic conditions. Failure to produce sufficient units for low- and moderate-income households will cause pent-up demand in these market segments.

Your Committee has amended this measure by:

- (1) Increasing the amount of general obligation bonds authorized for issuance, the proceeds of which are for deposit into the rental housing trust fund, from \$60,000,000 to \$100,000,000;
- (2) Increasing the amount of funds appropriated out of the rental housing trust fund from \$60,000,000 to \$100,000,000 for the purposes set forth in section 201H-202, Hawaii Revised Statutes; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 120, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 15 Human Services and Housing on S.B. No. 121

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the redevelopment, design, and construction of the Hawaii Public Housing Authority's Kuhio Homes and Kuhio Park Terrace low-rise properties.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that affordable housing is a serious concern for many Hawaii residents. According to the 2011 Hawaii Housing Planning Study, up to 50,000 new housing units will need to be built by 2016 to meet the new demand generated by changing demographics and economic conditions. Failure to produce sufficient units for low- and moderate-income households will cause pent-up demand in these market segments. Furthermore, deferring maintenance of existing public housing stock may exacerbate the severe shortage of low-income rental housing. This measure provides needed funds for the redevelopment of Kuhio Park Terrace and the Kuhio Homes properties, which were built in 1965 and 1953, respectively.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 121 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 16 Human Services and Housing on S.B. No. 155

The purpose and intent of this measure is to make an appropriation for the construction of micro apartment housing units.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Department of Human Services, Catholic Charities Hawai'i, GLBT Caucus of the Democratic Party of Hawaii, Hawai'i Association of REALTORS, Hawaii Primary Care Association, Pacific Alliance to Stop Slavery, Partners in Care, PHOCUSED, Building Industry Association of Hawaii, and six individuals.

Your Committee finds that affordable housing is a serious concern for many Hawaii residents. According to the 2011 Hawaii Housing Planning Study, up to 50,000 new housing units will need to be built by 2016 to meet the new demand generated by changing demographics and economic conditions. Failure to produce sufficient units for low- and moderate-income households will cause pent-up demand in these market segments.

Cities with high or increasing rental costs, such as Hong Kong, New York, San Francisco, and Seattle, have developed micro apartment units to provide an innovative and affordable housing option. Your Committee finds that the development of micro apartment units could improve the availability of affordable housing in Hawaii, where rent and property prices are also high.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 155 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 17 Human Services and Housing on S.B. No. 156

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the rental housing trust fund and new public housing redevelopment.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, Catholic Charities Hawai'i, Hawai'i Association of REALTORS, Hawaii Primary Care Association, Partners in Care, and PHOCUSED. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that according to the Hawaii Housing Planning Study in 2011, there is an estimated need for over 13,000 rental units by 2016 for households at or below eighty percent of the area median income. Of those needed rental units, nearly seventy-five percent are needed by households at or below fifty percent of the area median income. Your Committee therefore finds that the financial support offered by this measure will greatly assist many of Hawaii's struggling families to achieve financial stability by expanding affordable housing opportunities.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 156 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 18 Human Services and Housing on S.B. No. 267

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds to the Hawaii Public Housing Authority to leverage funds for the redevelopment of the Mayor Wright Homes property.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that affordable housing is a serious concern for many Hawaii residents. According to the 2011 Hawaii Housing Planning Study, up to 50,000 new housing units will need to be built by 2016 to meet the new demand generated by changing demographics and economic conditions. Failure to produce sufficient units for low- and moderate-income households will cause pent-up demand in these market segments. Currently, there are only 364 units for use. However, with additional funds, the State will be able to increase the total number of available units to at least 1,500.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 267 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 19 Human Services and Housing on S.B. No. 392

The purpose and intent of this measure is to amend the income tax credit for low-income household renters to adjust for inflation.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawaii State Commission on the Status of Women; Americans for Democratic Action Hawaii; Catholic Charities Hawai'i; Democratic Party of Hawai'i; Hawai'i Applesseed Center for Law and Economic Justice; National Association of Social Workers, Hawaii Chapter; Partners in Care; Progressive Democrats of Hawai'i; PHOCUSED; Hawaii Women's Coalition; ILWU Local 142; GLBT Caucus, Democratic Party of Hawai'i; Hawaii State Coalition Against Domestic Violence; IMUAlliance; and ten individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the low-income household renters tax credit was established in 1977 to mitigate the high cost of housing in Hawaii. Adjusted in 1981 and 1989, the credit provides a \$50 tax credit per exemption for those taxpayers with adjusted gross incomes of less than \$30,000 who paid more than \$1,000 in rent during the tax year. This measure would adjust the credit and its income and rent thresholds for inflation, providing meaningful relief for renter households that struggle to pay rent.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Sлом).

SCRep. 20 Agriculture on S.B. No. 1060

The purpose and intent of this measure is to establish a low interest biosecurity loan program to assist the livestock industry.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, and Hawaii Farmers Union United.

Your Committee finds that Hawaii's livestock industry is economically and culturally significant with its long paniolo history as well as providing whole hog carcasses for imus and Chinatown markets. Livestock operations are susceptible to the introduction of pests and diseases that can affect the health and welfare of the animals, and in some cases may affect the health and well-being of people who come in contact with the animals or farm products. Installing biosecurity measures serves to protect the health of poultry and livestock by reducing the introduction of diseases, pests, and pathogens into farm operations as well as reducing the spread of the diseases or pathogens to other farms. Biosecurity measures are increasingly being required by federal programs to ensure a safe food supply. While these measures help protect the farm and consumers, they often do not result in additional profits for the operation; therefore low interest loans will assist livestock operations to insure the sustainability of Hawaii's livestock industry.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1060, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1060, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Sлом).

SCRep. 21 Agriculture on S.B. No. 521

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds up to \$45,000,000 to Waimea Nui Community Development Corporation, a private not-for-profit corporation, for the planning, acquisition, and construction of agriculture, renewable energy, and educational facilities.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of Hawaiian Affairs, Waimea Nui Community Development Corporation, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Waimea Nui Community Development Corporation is a Native Hawaiian non-profit organization operating in the South Kohala district of the island of Hawaii and has developed a comprehensive agriculture and renewable energy enterprise, open to the entire Kohala region, that directly contributes to the State's economy and security through local food and energy production. Therefore, your Committee finds that the issuance of special purpose revenue bonds to the Waimea Nui Community Development Corporation is in the public interest and for the public health, safety, and general welfare.

Your Committee has amended this measure by designating that the authorization to issue special purpose revenue bonds to Waimea Nui Community Development Corporation is pursuant to part X, chapter 39A, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 521, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 521, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Sлом).

SCRep. 22 Human Services and Housing on S.B. No. 980

The purpose and intent of this measure is to provide a standardized framework and funding for afterschool programs in public middle and intermediate schools by establishing the resources for enrichment, athletics, culture, and health (or R.E.A.C.H.) program within the Office of Youth Services.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, Office of Youth Services, Reach Out Hawaii, Hawaii Youth Services Network, Molokai Middle School, and twenty-three individuals.

Your Committee finds that quality afterschool programs are important to the future of Hawaii's adolescents. More than fifty-four thousand children in Hawaii are left alone and unsupervised after school, and data indicates that juvenile violence peaks in the afterschool hours on school days. In addition, Hawaii's dropout rate has reached over fifteen percent, and nearly half of high school drop outs report feeling that they started high school ill-prepared.

Your Committee finds that afterschool programs are an effective way to reduce undesirable behaviors among adolescents. Ninety-three percent of parents support public funding of afterschool programs. During a pivotal time in life, high-quality afterschool programs can lead to improved school attendance and academic performance, better behavior, and more community involvement for middle and intermediate school students. It is important to keep children engaged in positive afterschool activities because disconnected youth are more likely to become part of the juvenile justice system, and research indicates that each disconnected youth costs taxpayers nearly \$14,000 per year. In contrast, afterschool programs keep children engaged in positive activities and on a path toward graduation and productive futures.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 980 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 23 Human Services and Housing on S.B. No. 478

The purpose and intent of this measure is to appropriate funds for thirty permanent full-time equivalent multi-skilled worker civil service positions to assist the Hawaii Public Housing Authority in repair and maintenance of low-income housing properties.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from United Public Workers.

Your Committee finds that a flexible, multi-skilled workforce will allow the Hawaii Public Housing Authority to schedule and arrange staff in multiple areas of repair and maintenance that require increased manpower at any time and for any duration at low-income public housing properties. This flexibility allows the Hawaii Public Housing Authority to schedule and arrange work in accordance with the needs of the agency, maintain multiple low-income housing properties at a high level that would otherwise leave repair and maintenance idle, and focus on the living environment and safety needs of the residents at low-income public housing properties.

Your Committee has amended this measure by:

- (1) Clarifying that the thirty multi-skilled worker civil service positions requested by the Hawaii Public Housing Authority are non-exempt;
- (2) Deleting language that would have appropriated funds to establish multi-skilled worker civil service positions in the Hawaii Public Housing Authority;
- (3) Inserting language to establish thirty full-time equivalent permanent multi-skilled worker civil service positions in the Hawaii Public Housing Authority to assist and support public housing operations statewide; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 478, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 478, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 24 Human Services and Housing on S.B. No. 477

The purpose and intent of this measure is to appropriate funds to improve the quality of existing public housing stock in the State.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Hawaii Primary Care Association.

Your Committee finds that the Hawaii Public Housing Authority is the sole statewide public housing agency of the State. The Hawaii Public Housing Authority's portfolio of 85 properties comprises 6,195 units that serve over 6,100 families or more than 18,500 individuals. The Hawaii Public Housing Authority's aging housing stock continues to have an extensive capital need that is underfunded by the United States Department of Housing and Urban Development. Additional funding is needed to modernize units to correct life, health, and safety issues and invest in accessibility and accommodation improvements.

Your Committee has amended this measure by specifying that the appropriated funds shall be used for the plans, design, construction, and equipment to develop, upgrade, or renovate public housing facilities in the State.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 477, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 477, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 25 Human Services and Housing on S.B. No. 269

The purpose and intent of this measure is to establish the process and grounds for a person to petition the court to vacate a conviction for obstructing a public place on grounds that the person was homeless at the time of committing the offense.

Your Committee received testimony in support of this measure from the GLBT Caucus of the Democratic Party of Hawaii; Hawaii Youth Services Network; Honolulu Pride; IMUAlliance; Pacific Alliance to Stop Slavery; Rainbow Family 808; Amnesty International, Honolulu Chapter; National Association of Social Workers, Hawaii Chapter; and eighteen individuals.

Your Committee finds that many homeless individuals and families are having their possessions, including important identification materials and medication, confiscated by police officers and do not have a means to pay the fine in order to claim their belongings. Furthermore, a criminal record creates barriers for homeless persons in obtaining employment, housing, or other opportunities.

Your Committee has amended this measure by:

- (1) Specifying that any person convicted of any state or county law relating to occupying a public place may also petition the court on the grounds that the person was homeless at the time of committing the offense; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 269, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 269, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Green, Slom).

SCRep. 26 Human Services and Housing on S.B. No. 973

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the redevelopment, design, and construction of the Hawaii Public Housing Authority administrative offices, the creation of public housing and affordable rental housing, and the development of a small commercial space at the Hawaii Public Housing Authority's North School Street location.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Hawaii Primary Care Association. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that development of the Hawaii Public Housing Authority's North School Street location will help meet the need for additional public housing and administrative services. The development would increase public housing inventory by producing approximately 300 housing units and include a new administrative building and a small commercial space.

Your Committee has amended this measure by:

- (1) Specifying that the Hawaii Public Housing Authority is the expending agency for the general obligation bond proceeds in this measure; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 973, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 27 Judiciary and Labor on S.B. No. 1209

The purpose and intent of this measure is to harmonize age and service requirements for judges who are members of the Employees' Retirement System with requirements for other contributory plan members.

Your Committee received testimony in support of this measure from the Employees' Retirement System and the Judiciary.

Your Committee finds that this measure will bring consistency of age and service requirements between judges who are members of the Employees' Retirement System and other contributory plan members.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1209 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 28 Judiciary and Labor on S.B. No. 696

The purpose and intent of this measure is to create an income tax credit for employers who allow their employees to telecommute.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that providing a tax credit would encourage employers to allow employees to work via telecommuting.

Your Committee has amended this measure by:

- (1) Removing section 1;
- (2) Amending section 2 by:
 - (A) Deleting the proposed paragraphs 235- (a)(1) and (a)(3), Hawaii Revised Statutes;
 - (B) Deleting references to “attainment areas” and “non-attainment areas”;
 - (C) Deleting language that would have capped the aggregate amounts of tax credits to be approved and references thereto; and
 - (D) Leaving a blank percentage for the tax credit to encourage consideration by the Committee on Ways and Means should they schedule this measure for further hearing;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 696, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 29 (Majority) Judiciary and Labor on S.B. No. 1011

The purpose and intent of this measure is to repeal the prohibition on arbitration to resolve disputes regarding contributions to the Hawaii employer-union health benefits trust fund.

Your Committee received testimony in support of this measure from the Hawaii Fire Fighters Association, Hawaii Government Employees Association, and Hawaii State Teachers Association. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance. Your Committee received comments on this measure from the Office of Collective Bargaining.

Your Committee finds that this measure would enable impasses or disputes relating to contributions to the Hawaii employer-union health benefits trust fund to be decided, along with other collective bargaining items, through binding arbitration.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1011, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1011, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen). Noes, 1 (Slom). Excused, 2 (Espero, Ihara).

SCRep. 30 Transportation on S.B. No. 225

The purpose and intent of this measure is to amend the offense of habitually operating a vehicle under the influence of an intoxicant to include operating a vehicle under the influence of an intoxicant after at least one conviction within the previous ten years for habitually operating a motor vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; Maui Police Department; Department of the Prosecuting Attorney, County of Maui; County of Kaua'i, Office of the Prosecuting Attorney; Office of the Prosecuting Attorney, County of Hawai'i; and Hawaii Chapter of Mothers Against Drunk Driving.

Your Committee finds that this measure clarifies and strengthens existing law which is intended to address repeat offenders. According to testimony, a study by the National Highway Traffic Safety Administration found that a person with prior convictions for driving under the influence is 4.1 times more likely to be involved in a fatal motor vehicle collision. Another study has shown that the chances of being involved in a fatal motor vehicle collision increase with every additional driving under the influence arrest.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 225, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 225, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Kidani).

SCRep. 31 Transportation on S.B. No. 321

The purpose and intent of this measure is to:

- (1) Increase the penalty for the offense of operating a vehicle under the influence of an intoxicant to a class C felony if the defendant operated a vehicle with a passenger who was fifteen years of age or younger; and
- (2) Establish a minimum breath and blood alcohol levels for defendants who are between eighteen and twenty-one years of age and convicted of operating a vehicle under the influence of an intoxicant with a passenger who was fifteen years of age or younger.

Your Committee received testimony in support of this measure from the Department of Transportation; County of Kaua'i, Office of the Prosecuting Attorney; Office of the Prosecuting Attorney, County of Hawai'i; and Hawaii Chapter of Mothers Against Drunk Driving. Your Committee received testimony in opposition to this measure from the Honolulu Police Department.

Your Committee finds that driving under the influence of alcohol with young passengers in the vehicle is a serious offense. Traffic fatalities involving impaired drivers who have young individuals as passengers always results in serious consequences to the individuals and their families. This measure will make drivers more aware of the severe consequences and serve as a deterrent to opting to drive under the influence of alcohol.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 321 and recommends that it pass Second Reading and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Kidani).

SCRep. 32 Transportation on S.B. No. 611

The purpose and intent of this measure is to:

- (1) Allow an ignition interlock permit holder to take necessary tests to apply for relicensing during the final thirty days of the revocation period;
- (2) Prohibit the operation of a vehicle with an ignition interlock permit without a state identification card; and
- (3) Prohibit the operation of a vehicle once a notice of administrative record has expired unless the driver has a valid driver's license.

Your Committee received testimony in support of this measure from Department of Transportation; Honolulu Police Department; County of Kaua'i, Office of the Prosecuting Attorney; and Hawaii Chapter of Mothers Against Drunk Driving.

Your Committee finds that currently, a driver whose license is revoked for operating a vehicle under the influence of an intoxicant cannot begin the relicensing process until the end of the revocation period. In order to be relicensed, drivers must take the written examination, obtain an instructional permit, and schedule a road test, all of which may take several months. As such, a person may have to wait a significant amount of time before being fully licensed.

In the interim, drivers with an ignition interlock device who may drive unsupervised during their revocation period must then have a licensed driver with them while they wait for full licensure. Allowing drivers with a valid ignition interlock permit the opportunity to complete their written and road tests prior to the end of their revocation period would create an additional incentive to install an ignition interlock device, leading to safer roadways. In addition, allowing responsible drivers to be fully relicensed immediately following their revocation period provides them with the opportunity to continue driving legally.

Your Committee further finds that currently, drivers who have a valid ignition interlock permit are not required to show any form of photo identification when stopped by law enforcement. Requiring drivers to have a valid State of Hawaii identification card gives law enforcement officers the ability to positively identify drivers with ignition interlock permits and verify the driver's license and permit status.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 611 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Kidani).

SCRep. 33 Transportation on S.B. No. 613

The purpose and intent of this measure is to enhance the penalties for a conviction of operating a vehicle after license and privilege have been suspended or revoked for operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; County of Kaua'i, Office of the Prosecuting Attorney; Hawaii Chapter of Mothers Against Drunk Driving; and one individual.

Your Committee finds that many drivers continue to drive after conviction of operating a vehicle after license and privilege have been suspended or revoked for operating a vehicle under the influence of an intoxicant. The National Highway Traffic Safety Administration estimates that more than half of drivers whose licenses have been revoked for operating a vehicle under the influence of an intoxicant continue to drive illegally. This represents a substantial and unjustifiable risk to everyone on our roadways.

Increasing the penalties will create a stronger deterrent to discourage these violators from driving after their license has been suspended or revoked.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 613 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Kidani).

SCRep. 34 Judiciary and Labor on S.B. No. 142

The purpose and intent of this measure is to:

- (1) Require the Department of Accounting and General Services to develop a Wailuku state office master plan to address the shortage of space in the Wailuku state office building and the old courthouse building;
- (2) Require the Department of Accounting and General Services to submit the Wailuku state office master plan to the Legislature prior to the Regular Session of 2016; and
- (3) Appropriate a specified sum to the Department of Accounting and General Services for the Wailuku state office master plan.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and three individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that this measure will assist in addressing the shortage of space in Wailuku and funding efforts to revamp the Wailuku state office building and old courthouse building to reduce the shortage of space.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 142 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 35 Judiciary and Labor on S.B. No. 1027

The purpose and intent of this measure is to appropriate an unspecified sum of money to the Judiciary for one judge and three support staff positions for the Family Court of the First Judicial Circuit.

Your Committee received testimony in support of this measure from the Judiciary, Family Law Section of the Hawaii State Bar Association, and four individuals.

Your Committee finds that the Legislature created a judicial position and three support staff positions six years ago for the Family Court of the First Judicial Circuit. This measure will assist the Family Court in providing critical judicial services to the community by appropriating funds to fill these positions.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1027, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 36 (Majority) Energy and Environment on S.B. No. 715

The purpose and intent of this measure is to:

- (1) Increase the renewable portfolio standards for electric utilities to seventy percent by 2035 and one hundred percent by 2040; and
- (2) Establish renewable energy standards for new large self-generators.

Your Committee received testimony in support of this measure from Hawaii Renewable Energy Alliance; Blue Planet Foundation; Hawaii Solar Energy Association; SunEdison; Mehta Tech, Inc.; and eighty-five individuals. Your Committee received testimony in opposition to this measure from Starwood Hawaii and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs Division of Consumer Advocacy; Public Utilities Commission; Hawaiian Electric; and Life of the Land.

Your Committee finds that Hawaii's dependency on imported fuel hinders the State's economy. A stronger local economy depends on a transition away from imported fuels and toward renewable local resources that provide a source of affordable energy. Updating and extending Hawaii's clean energy initiative and renewable standards will benefit Hawaii's economy by ensuring that Hawaii moves beyond its dependence on imported fuels and continues to grow a local renewable energy industry.

Your Committee has amended this measure by:

- (1) Amending the definition of "large self-generator" to only include persons or entities that begin ownership or operation after July 1, 2015; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 715, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 715, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Galuteria, Green).

SCRep. 37 Agriculture on S.B. No. 598

The purpose and intent of this measure is to establish and appropriate monies to fund a full-time temporary program manager position in the Department of Agriculture for the pesticide subsidy program.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, and Maui Chamber of Commerce.

Your Committee finds that Act 105, Session Laws of Hawaii 2014, established a pesticide subsidy program within the Department of Agriculture effective from July 1, 2014, through June 30, 2019, with the purpose of providing subsidies to coffee farmers for the purchase of pesticides containing the fungus *Beauveria bassiana* to control infestation of the coffee berry borer. Although Act 105 appropriated funds to be used to hire one temporary program specialist for the pesticide subsidy program, the Act did not create a program manager position; this measure seeks to establish and appropriate funds to enable the Department of Agriculture to hire a program manager.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 598 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Slom).

SCRep. 38 Agriculture on S.B. No. 1149

The purpose and intent of this measure is to appropriate funds as a grant for the operation, repair, maintenance, and improvement of the East Kauai Water Users' Cooperative irrigation systems.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawaii Farm Bureau.

Your Committee finds that reliable irrigation systems are the lifelines of Hawaii's agricultural community. To ensure that Hawaii's agricultural crops receive a steady and dependable supply of water, irrigation systems need to be repaired, properly maintained, and improved to meet agricultural water requirements and to address extended water droughts.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1149 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Slom).

SCRep. 39 Commerce and Consumer Protection on S.B. No. 1093

The purpose and intent of this measure is to clarify mortgage servicer requirements, including loss mitigation options, licensing requirements, duties to borrowers, bonding requirements, and prohibited activities.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Mortgage Bankers Association of Hawaii, Hawaii Bankers Association, Hawaii Credit Union League, and one individual.

Your Committee finds that mortgage servicers administer mortgage loans after the loans have closed, including collecting and recording payments from borrowers and handling delinquent borrowers. In 2012, the National Mortgage Settlement agreement was reached by the federal government and forty-nine state attorneys general with the country's five largest mortgage servicers to address mortgage servicing, foreclosure, and bankruptcy abuses. Since that time, many mortgage servicer companies have addressed concerns previously found by state examiners during examinations. Although there are no national requirements in place for mortgage servicers, the Conference of State Bank Supervisors has formed a work group to suggest prudential standards for mortgage servicers. The federal Consumer Financial Protection Bureau has also issued rules relating to mortgage servicing standards that pertain to bank and nonbank mortgage servicers.

Your Committee further finds that over the past few years, there has been a dramatic rise of nonbank servicers in the mortgage service industry. However, your Committee finds that nonbank servicers are subject to far less stringent regulatory and financial requirements than banks. Consequently, the rise of nonbank servicers has been accompanied by an increasing number of consumer complaints, lawsuits, and other regulatory actions. For example, in the twenty-five month period ending January 31, 2015, Hawaii consumers lodged 516 mortgage complaints on the Consumer Financial Protection Bureau database. Most of these complaints were concerned with mortgage servicing issues.

Your Committee additionally finds that this measure provides specific standards for mortgage servicers, which the Division of Financial Institutions of the Department of Commerce and Consumer Affairs needs to enhance its examinations, better regulate the industry, and protect Hawaii consumers. This measure requires nonbank mortgage servicers to meet the same mortgage servicing standards as regulated bank mortgage servicers, thus enabling borrowers to have equivalent protections in place for their mortgages, regardless of whether the mortgage servicer is a bank or nonbank.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1093, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1093, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 40 Agriculture on S.B. No. 530

The purpose and intent of this measure is to make an appropriation for phase II of the renovations to the Kamuela Vacuum Cooling Plant.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Kamuela Vacuum Cooling Plant is located in the Waimea area of the island of Hawaii, a major producer of Hawaii-grown leafy green vegetables and peppers, and is in need of improvements. Your Committee further finds that the plant is decades old, and the cooling equipment requires replacement to enable the continued production and consolidation of agricultural commodities from the Waimea region.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 530 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Slom).

SCRep. 41 Energy and Environment on S.B. No. 705

The purpose and intent of this measure is to establish a general excise tax exemption on gross proceeds arising from the construction, sale, installation, service, repair, modification, improvement, or lease of clean alternative fuel vehicles, electric vehicle batteries, and electric vehicle infrastructure.

Your Committee received testimony in support of this measure from the Renewable Energy Action Coalition of Hawaii, Blue Planet Foundation, and EV Structure. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that transportation fuels, most of which are imported, account for approximately two-thirds of all the energy consumed in Hawaii. A general excise tax exemption on gross proceeds arising from the construction, sale, installation, service, repair, modification, improvement, or lease of clean alternative fuel vehicles, electric vehicle batteries, and electric vehicle infrastructure will provide a financial incentive to use clean alternative fuel vehicles and further the State's clean energy initiative goals.

Your Committee has amended this measure by:

- (1) Amending the definition of "electric vehicle infrastructure" to mean battery charging stations, rapid charging stations, and battery exchange stations; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 705, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 705, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 42 Commerce and Consumer Protection on S.B. No. 758

The purpose and intent of this measure is to specify that the method of service of process for all civil cases under chapter 634, Hawaii Revised Statutes, when personal service is unsuccessful, includes publication in a newspaper of general circulation three times or publication on a state website together with publication in a newspaper of general circulation at least once.

Your Committee received testimony in support of this measure from the Collection Law Section of the Hawaii State Bar Association and Hawaii Bankers Association. Your Committee received testimony in opposition to this measure from the Honolulu Star-Advertiser. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Office of Consumer Protection.

Your Committee finds that under existing law, service of process, when personal service is unsuccessful, requires service by publication in a newspaper of general circulation. According to testimony received by your Committee, the cost for publication of summons in a newspaper in connection with a collection action typically exceeds \$2,000 - a cost that is passed on to the debtor-consumer. In comparison, electronic publication of foreclosure notices of public sale costs \$300 per notice on the Department of Commerce and Consumer Affairs' website. Your Committee further finds that this measure would permit electronic publication in all civil actions, consistent with existing provisions related to publication of foreclosure notices.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 758, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 758, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 43 Energy and Environment on S.B. No. 698

The purpose and intent of this measure is to prohibit the Public Utilities Commission from approving power purchase agreements that prohibit the sale of energy to third parties or require utility consent to sell energy to third parties.

Your Committee received testimony in support of this measure from the Hawaii Solar Energy Association and Blue Planet Foundation. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy.

Your Committee finds that power purchase agreements, entered into by electric utilities and approved by the Public Utilities Commission, frequently prohibit power producers from selling energy to third parties, even if that energy is being curtailed or not used on the grid by the utility. These power purchase agreements promote the waste of energy to the detriment of the people of Hawaii. This measure enables energy producers to make use of energy that would otherwise be wasted.

Your Committee has amended this measure by:

- (1) Adding language to clarify that the Public Utilities Commission is prohibited from approving purchase agreements that prohibit the sale of renewable energy to third parties or require utility consent to sell renewable energy to third parties to the extent that the renewable energy will be converted from electrical energy to another form of energy or will be stored for later distribution to an electric utility; and
- (2) Amending section 1 to reflect the amended purpose of this measure.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 698, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 44 Energy and Environment on S.B. No. 890

The purpose and intent of this measure is to appropriate funds to the Pacific-Asia Institute for Resilience and Sustainability.

Your Committee received testimony in support of this measure from Enterprise Honolulu and two individuals.

Your Committee finds that the Pacific-Asia Institute for Resilience and Sustainability, in collaboration with various agencies and organizations, is making efforts to improve energy efficiency, reliability, security, and grid operations in Hawaii. This includes a study of the potential enhancement of the security, reliability, and dependability of the electric grid on Oahu and ways to apply analytics to better predict potential risks and issues, including natural disasters. While this initial study is focused on Oahu, it is evident from recent power outages that the electric grid on the island of Hawaii and other neighbor islands should also be studied. This measure will fund the Pacific-Asia Institute for Resilience and Sustainability's research efforts in exploring methods to improve energy efficiency and support the development of a statewide smart grid.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 890 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 45 Public Safety, Intergovernmental and Military Affairs on S.B. No. 184

The purpose and intent of this measure is to:

- (1) Appropriate funds to the State Department of Defense for the Adjutant General to assemble twenty-five civilian community teams; and
- (2) Hire a coordinator to help establish and provide administrative oversight of and train the civilian community teams.

Your Committee received testimony in support of this measure from the State Department of Defense Emergency Management Agency and one individual.

Your Committee finds that trained community citizens are imperative to any civil defense plan. Community civilians are a great asset in assisting in disaster response, as they live in their communities and can quickly provide needed response and recovery support. With proper training and knowledge, community civilians can provide first response support to local, state, and federal civil defense staff and help prepare their communities for emergency situations.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 184 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 46 (Majority) Public Safety, Intergovernmental and Military Affairs on S.B. No. 566

The purpose and intent of this measure is to:

- (1) Establish twelve-month pilot visitation programs at the Oahu Community Correctional Center and the Halawa Correctional Facility to promote inmate visitation at the facilities; and
- (2) Appropriate funds to the Department of Public Safety for the creation of the pilot programs.

Your Committee received testimony in support of this measure from Community Alliance on Prisons and three individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety.

Your Committee finds that there has been a pattern of visitation within the Hawaii correctional system that has been problematic. Weekend family visits are often canceled due to an insufficient number of Department of Public Safety personnel necessary to oversee and monitor visitation. These last minute cancellations are detrimental to the psyche and well-being of inmates, as strong family and community relationships increase the likelihood of inmate success after release. The establishment of twelve-month pilot visitation programs at the Oahu Community Correctional Center and the Halawa Correctional Facility will address the ongoing problem of canceled visitations and ensure continued family and community contact.

Your Committee has amended this measure by:

- (1) Inserting language permitting, rather than requiring, the hiring of part-time staff for weekend family visits;
- (2) Inserting language permitting, rather than requiring, the Director of Public Safety to provide for weekday visits at certain times and the hiring of part-time staff for weekday family visits at the Oahu Community Correctional Center and the Halawa Correctional Facility; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 566, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 566, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 47 Public Safety, Intergovernmental and Military Affairs on S.B. No. 572

The purpose and intent of this measure is to:

- (1) Require independent civil process servers to meet additional requirements in order to be placed on the Director of Public Safety's list of qualified civil process servers; and
- (2) Make permanent Act 116, Session Laws of Hawaii 2013, relating to persons authorized to serve legal process.

Your Committee received testimony in support of this measure from the Department of Public Safety and one individual. Your Committee received comments on this measure from AAA Legal Process.

Your Committee finds that an independent civil process server may submit the server's name to the Director of Public Safety to be placed on the Director of Public Safety's list of qualified civil process servers. Additional independent civil process server requirements improve the quality of civil process servers without placing an undue burden on individuals who seek to be included on the Director of Public Safety's list of qualified civil process servers.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 48 Public Safety, Intergovernmental and Military Affairs on S.B. No. 955

The purpose and intent of this measure is to provide liability protection to individuals who operate or use a sport shooting range by:

- (1) Prohibiting a person who uses or operates a sport shooting range from being subject to civil liability or criminal prosecution in a matter relating to nuisance or noise pollution that is the result of using or operating a sport shooting range in compliance with applicable laws or ordinances established after the date of initial construction or operation of the range;
- (2) Prohibiting a person who uses or operates a sport shooting range from being subject to noise decibel-limiting rules adopted by a state department or agency after the date of initial construction or operation of the range;

- (3) Exempting a sport shooting range that is operated pursuant to existing law from compliance with a new ordinance or amended ordinance; and
- (4) Establishing that a person who participates in sport shooting accepts obvious and inherent risks associated with the participation in the sport.

Your Committee received testimony in support of this measure from the Institute for Rational and Evidence-based Legislation, Hawaii Rifle Association, Hawaii Hunting Association, North Pacific Firearms, The Society for Hawaii Heritage Animals, and thirty-one individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from one individual.

Your Committee finds that sport shooting ranges are a valuable resource for target shooting and firearm safety training. Sport shooting ranges are important public recreation resources and provide law enforcement agencies and personnel with the opportunity to maintain necessary firearms skills training at a minimal cost. However, burdensome retroactive regulation and lawsuits threaten this vital resource that benefits law enforcement, hunters, and the public. This measure will ensure that sport shooting ranges are available and afford users and operators of sport shooting ranges with necessary liability protections.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 955, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 955, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 49 Public Safety, Intergovernmental and Military Affairs on S.B. No. 665

The purpose and intent of this measure is to:

- (1) Create an independent Prison Oversight Committee to monitor and report on the conditions of state correctional facilities;
- (2) Expand visitation access to correctional facilities to include Prison Oversight Committee members; and
- (3) Authorize Prison Oversight Committee members to privately interview an inmate confined in any state correctional facility.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons and two individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety.

Your Committee finds that there is growing concern regarding the operation of the State's correctional facilities. Over the past several years, there has been an increase in the State's incarcerated population despite a decrease in crime. Despite the massive expenditure of taxes and the Department of Public Safety's mandate to operate humane and safe correctional facilities, there is little oversight of these facilities. Implementation of this measure will provide better assurance that the State's correctional facilities comply with federal and state laws and achieve transparency and accountability in the operation of safe and humane correctional facilities by establishing an independent Prison Oversight Committee and expanding correctional facility visitation access and authority to interview inmates to Prison Oversight Committee members.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 665, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 50 Public Safety, Intergovernmental and Military Affairs on S.B. No. 664

The purpose and intent of this measure is to establish a minimum educational requirement for adult corrections officers that are hired for the first time in the State.

Your Committee received testimony in support of this measure from the Department of Public Safety and two individuals.

Your Committee finds that adult corrections officers are responsible for maintaining security and preventing violence in the State's jails and prisons. The work of an adult corrections officer can be demanding, and it is imperative that adult corrections officers possess critical thinking and interpersonal skills. The requirement that newly hired adult corrections officers have a high school diploma, at minimum, will provide better assurances that adult corrections officers have the skills needed to maintain security and communicate efficiently.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 51 Public Safety, Intergovernmental and Military Affairs on S.B. No. 562

The purpose and intent of this measure is to appropriate funds for the establishment and implementation of a residential re-entry facility and day reporting program for criminal offenders, including offenders in the work furlough program.

Your Committee received testimony in support of this measure from the Hawaii Substance Abuse Coalition and two individuals. Your Committee received comments on this measure from the Department of Public Safety and Community Alliance on Prisons.

Your Committee finds that the State has an extensive problem with recidivism and prison capacity. Re-entry programs house offenders in transitional environments while they learn to reengage with the community and learn how to confront the many obstacles in their path to successful reintegration. To alleviate the State's problems with recidivism and to meet the needs of adult offenders, this measure appropriates funds for the Department of Public Safety to establish and implement a residential re-entry facility and day reporting program for criminal offenders, including offenders in the work furlough program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 562 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 52 Public Safety, Intergovernmental and Military Affairs on S.B. No. 7

The purpose and intent of this measure is to:

- (1) Establish intentionally causing bodily injury to a process server in the performance of duty, with the intent to obstruct the process server's performance of duty or retaliate against the process server for performing service, as assault in the second degree;
- (2) Exempt process servers who enter or remain in or upon the premises of another for the purpose of making a good faith attempt to serve process upon certain individuals from the offense of criminal trespass in the first degree; and
- (3) Exempt process servers who enter or remain in or upon the land or premises of another for the purpose of making a good faith attempt to serve process upon certain individuals from the offense of criminal trespass in the second degree.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that similar to other public safety individuals, process servers often work in environments where there is a risk of assault. As process servers frequently work alone, your Committee finds it necessary to include process servers who are performing their job duties in the class of persons protected from the offense of assault in the second degree. Your Committee further finds that given the need for process servers to enter or remain in or upon the premises of another in order to perform their job duties, process servers should be exempt from the offenses of criminal trespass in the first and second degrees while in the performance of their duties.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 7, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 7, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 53 Commerce and Consumer Protection on S.B. No. 1096

The purpose and intent of this measure is to exempt electric utilities serving as billing and collections agents for an on-bill program from certain state taxes and state laws regulating financial institutions, escrow depositories, or collection agencies.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Public Utilities Commission; and Hawaiian Electric Company, Inc. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that an on-bill program administered by an electric utility allows customers of the utility to purchase a renewable energy system, while the electric utility serves as a billing and collection agent for the on-bill program in a pass-through capacity for any and all monies collected and remitted while participating in the on-bill program. Electric utilities who serve as billing and collection agents and function in a pass-through capacity are therefore not raising revenue from monies collected and remitted while participating in an on-bill program.

Your Committee further finds that levying of revenue-related taxes or requiring other financial regulations on an electric utility participating in a pass-through capacity in an on-bill program would create additional costs for the utility, which could be passed on to ratepayers. This measure would eliminate these additional costs but would not have an impact on other fees or taxes imposed on other amounts received in the normal course of operations by an electric utility.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2020, to encourage further discussion; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1096, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1096, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 54 Tourism and International Affairs on S.B. No. 283

The purpose and intent of this measure is to clarify the qualification and term limit requirements for the Board of Directors of the Hawaii Tourism Authority.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that this measure clarifies ambiguities in section 201B-2, Hawaii Revised Statutes, with regard to the qualification and term limit requirements for the Board of Directors of the Hawaii Tourism Authority. Your Committee further finds that the term “accommodations”, as used in the tourism industry, embraces the management, promotion, and marketing of facilities and that the use of this term in the statute is more appropriate.

As affirmed by the record of votes of the members of your Committee on Tourism and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 283 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 55 Tourism and International Affairs on S.B. No. 536

The purpose and intent of this measure is to provide an income tax credit for hotel construction and renovation for taxable years beginning after December 31, 2014, and ending on December 31, 2019.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, Hawaii Lodging and Tourism Association, Wyndham Vacation Ownership, and Outrigger Hotels Hawaii. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii’s travel and tourism industry must continue to refresh its product offering to support and attract new and repeat travelers, compete with other global destinations, and distinguish Hawaii as a unique travel and tourist destination; Hawaii cannot continue to rely on aging hotel and resort infrastructure and hope for the best. Traditional financing has failed to generate new construction and renovation work, and jobs are lacking. Therefore, your Committee finds that a hotel construction and renovation tax credit will provide an economic stimulus to benefit Hawaii’s tourism industry.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 536, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 56 Tourism and International Affairs on S.B. No. 1009

The purpose and intent of this measure is to ensure that hotels either distribute portorage service charges to employees in full or notify customers that service charges are being used for other purposes.

Your Committee received testimony in support of this measure from UNITE HERE Local 5 and the International Longshore and Warehouse Union Local 142.

Your Committee finds that consumers should know whether or not, and to what extent, the money they pay hotels in portorage service charges is being paid to employees. When a hotel charges service charges to customers, customers may believe that those charges are being paid to employees as tip income; however, this is not necessarily the case, and this information could influence whether or not a consumer chooses to use portorage services. Therefore, your Committee finds that it should be transparent to consumers how hotels distribute portorage service charges.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1009, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 57 Tourism and International Affairs on S.B. No. 754

The purpose and intent of this measure is to:

- (1) Provide cancellation rights to persons who contract to buy a short-term product in Hawaii; and
- (2) Allow disbursement of purchasers' funds to a developer; provided that the developer first posts a bond, letter of credit, or other financial assurance.

Your Committee received testimony in support of this measure from the American Resort Development Association, the American Resort Development Association Hawaii, Wyndham Vacation Ownership, Marriott Vacations Worldwide Corporation, and Starwood Vacation Ownership. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Professional and Vocational Licensing Division and the Department of Commerce and Consumer Affairs Regulated Industries Complaints Office.

Your Committee finds that many time share developers offer short-term products that allow prospective time share buyers to explore the time share experience on a trial basis. Some other states have adopted laws providing a seven-day right of cancellation to short-term product buyers. Your Committee finds that under current law, a developer who constructs a time share project must hold a time share buyer's funds in escrow after the seven-day cancellation period has passed, the project is completed, and closing has occurred, and the developer may remove the funds from escrow in only one limited circumstance. This places significant amounts of money, potentially tens of millions of dollars, in escrow for months at a time. Your Committee finds that protection of a time share buyer's funds with third party assurance gives the consumer ample protection if a project is not completed, while granting the developer access to funds to cover construction costs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has heard the concerns of the Department of Commerce and Consumer Affairs regarding levels of consumer protection and believes that these concerns merit further discussion by your Committee on Commerce and Consumer Protection if it chooses to hear this measure.

As affirmed by the record of votes of the members of your Committee on Tourism and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 754, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 754, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 58 Energy and Environment on S.B. No. 1150

The purpose and intent of this measure is to make permanent the fuel license tax on naphtha fuels sold for use in a power generating facility.

Your Committee received testimony in support of this measure from the Kauai Island Utility Cooperative and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Act 103, Session Laws of Hawaii 2007, as amended by Act 198, Session Laws of Hawaii 2009, as amended by Act 188, Session Laws of Hawaii 2012, imposes a special fuel license tax rate of 2 cents per gallon for naphtha fuels used in a power generating facility and this fuel license tax rate will sunset on December 31, 2015. If the special fuel license tax rate sunsets, the rate of the fuel tax on naphtha fuels will revert to the default tax rate for liquid fuel of 17 cents per gallon. This measure will make permanent the tax rate on naphtha fuels sold for use in a power generating facility and eliminate the financial burden that would occur if the naphtha fuel license tax rate sunsets.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 59 (Majority) Energy and Environment on S.B. No. 646

The purpose and intent of this measure is to:

- (1) Permit the installation of clotheslines in any residential dwelling, apartment, condominium, or townhouse, under certain conditions; and
- (2) Define a reasonable restriction on the placement and use of clotheslines as any restriction that is necessary to protect public health and safety, buildings from damage, historic or aesthetic values, or shorelines under certain circumstances.

Your Committee received testimony in support of this measure from the Blue Planet Foundation.

Your Committee finds that because of Hawaii's climate, Hawaii homeowners often have the choice to save money and save energy by using a clothesline to dry their clothes. Electric clothes dryers can cost a consumer upward of ten percent of their household's energy demand. However, many homeowner, condominium, and planned community associations have restrictions on the use of clotheslines that do not allow many homeowners the option of saving money and energy by drying their clothes on a clothesline. Allowing the installation of clotheslines will provide homeowners with the choice to save money and energy and decrease the amount of fossil fuel electricity that Hawaii's households require.

Your Committee has amended this measure by deleting a private entity's authority to implement a height restriction on the placement and use of clotheslines on a balcony or lanai of a multi-story apartment or condominium structure.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 646, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Galuteria, Green).

SCRep. 60 Energy and Environment on S.B. No. 488

The purpose and intent of this measure is to require the installation of meters to measure electricity utility use by individual units in condominiums.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy.

Your Committee finds that the cost of the total electric consumption for most master-metered buildings is divided among units, not taking into account a resident's individual consumption. This often leads to master-metered building residents consuming more electricity than residents with individual apartment metering because master-metered building residents do not bear electricity costs in proportion to individual consumption levels. Installing meters to measure electricity use by individual units in condominiums will require each resident to be financially responsible for the resident's own energy consumption and thereby improve energy conservation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 488, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 488, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 61 (Joint) Health and Human Services and Housing on S.B. No. 806

The purpose and intent of this measure is to:

- (1) Continue the hospital sustainability program by extending its sunset date to June 30, 2016, updating the referral dates in the statute, and revising the funding amount for the hospital sustainability program for fiscal year 2015-2016; and
- (2) Appropriate funds out of the hospital sustainability program special fund for the purposes of the fund.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation, Chamber of Commerce Hawaii, Hawaii Primary Care Association, Healthcare Association of Hawaii, The Queen's Health Systems, and Hilo Medical Center Foundation. Your Committees received comments on this measure from the Department of the Attorney General and Department of Human Services.

Your Committees find that the Legislature created the hospital sustainability program by enacting Act 217, Session Laws of Hawaii 2012, to increase Medicaid payments to hospitals in recognition that Medicaid payments to hospitals were below the actual costs of care. Because of the hospital sustainability program, Medicaid payments to many facilities in the State are closer to the actual costs of care, which helps to ensure that Medicaid patients have access to the hospital care that they need.

Your Committees have amended this measure by:

- (1) Inserting language to ensure that the hospital sustainability program special fund retains its exemptions from the central service expenses and administrative expenses assessments through December 31, 2016; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 806, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 806, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 3 (Baker, Gabbard, Slom).

Human Services and Housing

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 62 (Joint) Health and Human Services and Housing on S.B. No. 925

The purpose and intent of this measure is to establish and appropriate funds for one permanent full-time equivalent fetal alcohol spectrum disorder coordinator position in the Family Services Division of the Department of Health.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities; March of Dimes, Hawaii Chapter; FASD Communities; Hawaii Public Health Association; and twenty-two individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that fetal alcohol spectrum disorder is the most underdiagnosed and preventable developmental disability in Hawaii and across the United States. The effects of prenatal alcohol exposure are lifelong, yet fetal alcohol spectrum disorder is completely preventable. The effects of fetal alcohol exposure can be ameliorated through early intervention and effective systems of care and service. The devastating effects of prenatal alcohol exposure are manifested in youth, and without the effective care and services of a qualified practitioner, continue for the duration of the individual's lifetime.

Your Committees further find that there is an urgent need to establish a fetal alcohol spectrum disorder coordinator position in the interest of serving current and future populations affected by this disorder.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 925 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 3 (Baker, Gabbard, Slom).

Human Services and Housing

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 63 Commerce and Consumer Protection on S.B. No. 134

The purpose and intent of this measure is to adopt the Uniform Partition of Heirs Property Act, which establishes procedures and remedies for use in actions for partition of real property involving heirs property.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that in 2010, the Uniform Law Commission promulgated the Uniform Partition of Heirs Property Act to provide a fair solution to the risks posed to those who own heirs property, which is real property held in tenancy in common that meets certain requirements. This measure adopts the Uniform Partition of Heirs Property Act and establishes a hierarchy of remedies designed to protect a family's property holdings and real property wealth for partition actions involving heirs property.

Your Committee has amended this measure by:

- (1) Clarifying that the movant for determination that property is heirs property shall send notice to the parties, rather than the court, for purposes of cotenant buyouts;
- (2) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 134, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 64 Health on S.B. No. 528

The purpose and intent of this measure is to require the State Auditor to conduct a management audit of the Hawaii Health Systems Corporation.

Your Committee received testimony in support of this measure from the United Public Workers, Local 646; and Hawaii Government Employees Association.

Your Committee finds that an audit of the Hawaii Health Systems Corporation is practical and necessary in an effort to save money, bring greater accountability, and standardize practices. As Hawaii struggles with difficult budget decisions about funding public services, this audit will provide the Legislature with important information to achieve greater accountability, transparency, and efficiency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 528 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Baker). Noes, none. Excused, none.

SCRep. 65 (Majority) Health on S.B. No. 926

The purpose and intent of this measure is to establish three positions within the Office of Language Access to assist state agencies and state-funded agencies in implementing Hawaii's language access law.

Your Committee received testimony in support of this measure from the Office of Language Access, Inter-Agency Council for Immigrant and Refugee Services, and one individual.

Your Committee finds that the Office of Language Access was established to provide oversight, central coordination, and technical assistance to twenty-six state agencies and approximately one hundred fifty state-funded agencies in implementing Hawaii's language access law. The Office of Language Access provides technical assistance to agencies in the form of needs assessments, assistance with language access plans, training of agency staff, work with interpreters and translators, and data collection and reporting.

Your Committee further finds that the Office's staff was cut to a single position in 2009 due to the State's reduction in force. Although two of the six positions were restored in 2013, critical staff positions remain unfilled.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 926 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 66 Health on S.B. No. 805

The purpose and intent of this measure is to remove the sunset provision from Act 255, Session Laws of Hawaii 2012, relating to the definitions of "the practice of nursing as a licensed practical nurse" and "the practice of nursing as a registered nurse".

Your Committee received testimony in support of this measure from the Hawaii Academy of Physician Assistants. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that Act 255, Session Laws of Hawaii 2012, amended the definitions of "the practice of nursing as a licensed practical nurse" and "the practice of nursing as a registered nurse" to include carrying out the orders of a licensed physician assistant practicing with physician supervision as required by chapter 453, Hawaii Revised Statutes, and acting as an agent of the supervising physician. The Act included a sunset provision to repeal the amended versions of the definitions on July 1, 2017.

Your Committee further finds that there has been ample time to evaluate the law and its effect on public health, and there has been no harm. The change made by Act 255, Session Laws of Hawaii 2012, has provided clarity and improved communication for all health care providers and patients impacted by the change.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 805 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 67 Health on S.B. No. 792

The purpose and intent of this measure is to appropriate funds to the Department of Health in support of the state dental health initiative.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; The Queen's Health Systems; Capitol Consultants of Hawaii, LLP; Center for Oral Health; Hawaii Dental Hygienists' Association; and four individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Hawaii is in a position to develop a groundbreaking process to address the unmet dental health care needs of its most vulnerable citizens. Significant adverse health and socio-economic conditions exist as a result of untreated oral diseases among the State's most vulnerable populations, especially underserved children, pregnant women, seniors, adults with chronic conditions, people with special care needs, and ethnic minorities, including native Hawaiians, Pacific islanders, and Filipinos. Furthermore, poor understanding of the dental health status prevents the development of effective and cost-efficient strategies and public policies to address the dental health care needs of the most vulnerable residents of the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 68 Health on S.B. No. 298

The purpose and intent of this measure is to make an appropriation for one advanced life support ambulance to be based in Makalei on the island of Hawaii, to be used from 8:00 a.m. to 10:00 p.m., and to include a vehicle, equipment, and personnel costs.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawaii; Hawai'i Fire Department; Daniel Sayre Memorial Foundation; Hawaii Fire Fighters Association, Local 1463; and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that residents of the island of Hawaii would greatly benefit from the addition of an advanced life support ambulance to augment the Hawaii County Emergency Medical Services System for residents of the Makalei area. The population of this area has significantly increased over the years, which has corresponded with a steady increase in calls for emergency medical services. Access to primary health care in Makalei is challenging for the community. For many residents, primary care services are as

many as thirty miles away. Coupled with economic and transportation challenges, emergency medical services have become the access point for health care to many residents.

Your Committee further finds that a new advanced life support ambulance will help reduce death and disability among residents and visitors on the island of Hawaii. A timely response to a 911 call is critical to increase the likelihood of successful outcomes for injured or sick individuals. Given the island's significant growth and aging population, an advanced life support ambulance is needed and will be cost-effective.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 298 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 69 Energy and Environment on S.B. No. 717

The purpose and intent of this measure is to repeal the requirement that gasoline for motor vehicles sold in the State include ten percent ethanol.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Hawaii Independent Energy, LLC.

Your Committee finds that since 2006, Hawaii has required that gasoline sold in the State include ten percent ethanol. However, despite dozens of biomass, biodiesel, and ethanol facilities that have been proposed for Hawaii, no ethanol plants currently exist in the State. The requirement of blending ethanol into Hawaii's gasoline does not produce any economic benefit for the State, and the import of ethanol creates an economic burden for state residents. The repeal of the ethanol gasoline requirement will ensure that any added costs associated with ethanol blending will not affect gasoline price and supply.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 717, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 70 Energy and Environment on S.B. No. 349

The purpose and intent of this measure is to:

- (1) Establish a renewable fuels production tax credit allowing qualifying taxpayers to claim a refundable income tax credit equal to 20 cents per seventy-six thousand British thermal units of renewable fuel;
- (2) Repeal the ethanol facility tax credit; and
- (3) Require the Department of Business, Economic Development, and Tourism to certify all tax credits and submit a report regarding the production and sale of renewable fuels to the Governor and Legislature each year.

Your Committee received testimony in support of this measure from the Renewable Energy Action Coalition of Hawaii, Blue Planet Foundation, Hawaii Renewable Energy Alliance, Pacific Biodiesel Technologies, and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that the State is vulnerable to soaring energy prices and disruptions of its energy imports, which can hinder, cripple, or even devastate the State's economy and the well-being of its residents. As the most isolated land mass on Earth, the State imports nearly ninety percent of its energy needs and almost one hundred per cent of its transportation needs. It is critical that the State becomes more self-sufficient to ensure greater energy security. The establishment of a renewable fuels production tax credit will advance the State's clean energy initiatives and assist the State in achieving greater energy security.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 349, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 71 (Majority) Transportation on S.B. No. 683

The purpose and intent of this measure is to create a limited purpose driver's license, limited purpose provisional driver's license, and limited purpose instruction permit.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii State Commission on the Status of Women; Protecting Hawaii's Ohana, Children, Under Served, Elderly and Disabled (PHOCUSED); Aloha Dream

Team; Nursing Advocates and Mentors Inc.; Hawaii Friends for Civil Rights; National Federation of Filipino American Associations Region 12; Filipino American Citizens League; Hawaii Conference United Church of Christ; Catholic Charities Hawaii; Hawaii Coalition for Immigration Reform; Filipino Coalition for Solidarity; Hawaii Coalition of Immigration Rights; American Civil Liberties Union of Hawaii; American Immigration Lawyers Association, Hawaii Chapter; Hawaii Appleseed Center for Law and Economic Justice; and four individuals. Your Committee received comments on this measure from Hawaii Insurers Council.

Your Committee finds that the federal REAL ID Act of 2005, Pub. L. No. 109-13, requires states to comply with federally mandated eligibility criteria in issuing driver's licenses, including the requirement of proof of lawful presence in the United States. Accordingly, a person who does not submit satisfactory proof of the person's legal presence in the United States, as authorized by federal law, cannot legally operate a motor vehicle. The REAL ID Act, however, specifically allows states to issue driver's licenses that do not comply with the minimum federal use requirements and standards of the REAL ID Act, a critical exception.

Your Committee further finds that since 2010 when the State implemented the restrictive identification requirements for driver's licenses, a significant number of residents are now unable to carry out necessary daily activities unless they operate motor vehicles without a license, and therefore, without insurance.

In recent years, there has been a significant increase in state efforts to expand access to driver's licenses for persons who cannot provide proof of authorized presence in the United States. Several states now grant access to a driver's license regardless of immigration status and only require that the applicant establish evidence of current residency in the respective state.

Your Committee further finds that Hawaii's population consists of a high percentage of immigrants, many of whom cannot obtain a Hawaii driver's license for lack of proof of legal presence in the United States.

The State of Connecticut enacted a measure that became effective on January 15, 2015, after four years of analysis and debate in the Connecticut legislature. Your Committee believes that Connecticut has the experience in drafting a measure to pass federal muster. The Connecticut statute is very similar to the unamended version of this measure.

Your Committee has amended this measure by replacing the contents of this measure with contents that are substantially similar to Connecticut's General Statutes, section 14-36m, which allows the issuance of operators' licenses to applicants unable to establish legal presence in the United States and applicants without Social Security numbers and making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 683, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 683, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, 2 (English, Kidani).

SCRep. 72 (Joint) Human Services and Housing and Health on S.B. No. 981

The purpose and intent of this measure is to support early intervention efforts proven to enhance health and safety outcomes and prevent child maltreatment by maintaining funding for the Hawaii home visiting initiative and ensuring continuation of home visiting services in priority high-risk neighborhoods and areas.

Your Committees received testimony in support of this measure from the Department of Health, Catholic Charities Hawaii, Child and Family Service, Hawaii Association for Infant Mental Health, Hawaii Family Support Institute, INPEACE, March of Dimes Foundation Hawaii Chapter, Parents and Children Together, Keiki O Ka Aina Family Learning Centers, and Family Support Hawaii.

Your Committees find that early intervention services for disadvantaged families with infants and toddlers are critical to preventing child abuse and neglect and improving developmental and educational outcomes. Your Committees further find that home visitation is an evidence-based model demonstrated to improve parent-child attachment, access to preventive medical care, parental functioning, and early identification of developmental delays. Home visitation services provided to families of children under three years of age have proven to reduce child maltreatment, emergency room visits, hospitalizations, and unintended pregnancies, as well as improve child development and reduce the need for more costly interventions.

Your Committees find that the Hawaii home visiting program provides valuable services to families of newborns who are at risk for adverse health, safety, and developmental outcomes. In 2014, the program served six hundred twenty-one families in Hawaii, with over eighty percent of the children receiving developmental and emotional screens, over ninety percent becoming up to date on immunizations, and one hundred percent of the families demonstrating no abuse. Your Committees recognize that the Hawaii home visiting program is supported by federal funds under the Patient Protection Affordable Care Act of 2010 but requires state money to meet the \$3,000,000 state maintenance of effort requirement, to draw down federal funds, and most importantly to continue providing home visitation services in priority high-risk neighborhoods and areas around the State.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 981 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 4. Noes, none. Excused, 1 (Slom).

Health

Ayes, 4. Noes, none. Excused, 3 (Baker, Gabbard, Slom).

SCRep. 73 Public Safety, Intergovernmental and Military Affairs on S.B. No. 559

The purpose and intent of this measure is to:

- (1) Expand the Office of Veterans' Services to include military affairs; and
- (2) Appropriate funds to expand the Office of Veterans' Services to include military affairs.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Office of Veterans Services, Chamber of Commerce Hawaii, and four individuals.

Your Committee finds that the United States military presence in the State is critical to the State's economy. Military spending in the State is approximately \$8,800,000,000 each year and generates approximately 102,000 local jobs. The military's influence on the State's economy is second to only tourism. The Office of Military Affairs and Veterans' Services will address the needs of the expanded and appreciated military and veteran population in the State.

Your Committee has amended this measure by:

- (1) Expanding the duties of the Office of Military Affairs and Veterans' Services to include interacting and working with the Armed Services in the State to address any issues; collecting and maintaining information pertaining to the military's economic impact in the State; serving as a liaison between the State's Executive Branch and the State's Armed Services; and researching federal funding opportunities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 559, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 559, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 74 Public Safety, Intergovernmental and Military Affairs on S.B. No. 533

The purpose and intent of this measure is to allow the news media to access areas that are closed pursuant to emergency management powers of the Governor or Mayor.

Your Committee received testimony in support of this measure from the Society of Professional Journalists Hawaii Chapter and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Emergency Management Agency; Department of Transportation; Department of Emergency Management, City and County of Honolulu; Police Department of the City and County of Honolulu; and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that there are often significant events in the State that greatly affect the State's residents. The recent lava flow on Hawaii island impacted many residents, but the news media was restricted from accessing areas that were closed pursuant to emergency management powers. As a result, the news media was unable to disseminate complete information to residents. The implementation of this measure will allow for public safety while also safely providing the news media with access to closed areas.

Your Committee has amended this measure by:

- (1) Adding language to require news media to be under the supervision of Emergency Management Agency personnel in order to access areas that are closed pursuant to emergency management powers of the Governor or Mayor;
- (2) Adding language that indemnifies the State and counties from any damage or injury to a person or property as a result of any news media entering an area closed pursuant to emergency management powers of the Governor or Mayor;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 533, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 533, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 75 Public Safety, Intergovernmental and Military Affairs on S.B. No. 686

The purpose and intent of this measure is to appropriate funds for the planning, design, and construction of a memorial honoring the veterans of the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation Enduring Freedom, Operation New Dawn, Global War on Terrorism, Homeland Defense, and Operation Noble Eagle, and those who have protected our borders by land, sea, and air and for replicas to be placed on each neighbor island.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency and State Office of Veterans Services.

Your Committee finds that the Legislature enacted Act 139, Session Laws of Hawaii 2013, directing the development of a plan to establish a war memorial. Accordingly, this measure appropriates the funds to build and establish a memorial and replica memorials on each neighbor island, as recommended by the Gulf War Memorial task force.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 686 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 76 Public Safety, Intergovernmental and Military Affairs on S.B. No. 73

The purpose and intent of this measure is to amend the law relating to public safety.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Allow committed persons to create approved products and crafts that may be sold through the correctional industries program; and
- (2) Require that all monies collected from the sale of products and crafts be deposited into the correctional industries revolving fund and the committed person's account.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 73, as amended herein, and recommends that it be recommitted to the Committee on Public Safety, Intergovernmental and Military Affairs, in the form attached hereto as S.B. No. 73, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 77 Transportation on S.B. No. 612

The purpose and intent of this measure is to require a period of probation for any person convicted of the offense of operating a vehicle under the influence of an intoxicant and operating a vehicle after license and privilege have been suspended or revoked for operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; County of Kaua'i, Office of the Prosecuting Attorney; Hawaii Chapter of Mothers Against Drunk Driving; and three individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments from the Judiciary.

Your Committee finds that probation is necessary to enhance the monitoring of those convicted of operating a vehicle while under the influence of an intoxicant. This measure provides a better method of monitoring the driver to ensure compliance of conditions set forth by probation. With the imposition of probation and the installation of an ignition interlock, offenders will be better monitored.

Your Committee also finds that as Hawaii's ignition interlock laws have developed, a gap has been identified concerning second time and subsequent offenders. Since there is no possibility to sentence repeat offenders to probation, the requirement to install and comply with ignition interlock requirements has gone unchecked. In addition, after completion of a sentence for the offense of operating a vehicle under the influence of an intoxicant, drivers no longer fall under the supervision of the jurisdiction of the District Court. Therefore, presently convicted drunk drivers are not required to abstain from alcohol consumption as a consequence of a condition of probation.

Your Committee is concerned that this measure would drastically increase the expenses to the Judiciary in the way of hiring more probation officers. Your Committee believes that making probation optional in some instances and reducing the period of probation would decrease the number of probationers. As amended, this measure serves that purpose while preserving mandatory probation and probation periods in instances where the repetitiveness of the offenses indicates that the offender needs such supervision.

Your Committee has amended this measure by:

- (1) Making probation an option in sentencing for the first conviction of operating a vehicle under the influence of an intoxicant for a period of not less than one year nor more than two years;
- (2) Making probation an option in sentencing for a second conviction of operating a vehicle under the influence of an intoxicant occurring within five years of the first conviction and reducing the sentence of probation from a period of not less than two years nor more than four years to a period of not less than one year nor more than two years; and
- (3) Reducing the mandatory sentencing for a third conviction occurring within five years of two prior convictions for operating a vehicle under the influence of an intoxicant to probation from a period of not less than three years nor more than five years to a period of not less than two years nor more than three years.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 612, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (English, Kidani).

SCRep. 76 Human Services and Housing on S.B. No. 1106

The purpose and intent of this measure is to replace specific program references in the Hawaii Revised Statutes to QUEST and QUEST Expanded Access with “medicaid managed care” due to program changes within the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Human Services. Your Committee received testimony in opposition to this measure from the Hawaii Community Pharmacists Association and Pharmaceutical Research and Manufacturers of America.

Your Committee finds that on January 1, 2015, the QUEST and QUEST Expanded Access programs within the Department of Human Services were combined into one program called QUEST Integration. Your Committee further finds that the Hawaii Revised Statutes need to be amended to remove references to the programs that no longer exist.

Your Committee heard testimony expressing concern that one of the proposed amendments in this measure authorizes Medicaid managed care health plans to subject all prescription drugs to prior authorization procedures. This change would include drugs for conditions such as HIV, AIDS, and Hepatitis C, which previously were not subject to preauthorization for individuals covered by the QUEST Expanded Access program.

Subsequent to the hearing and at the request of your Committee, the Department of Human Services submitted additional comments to your Committee for inclusion in this Committee Report, but not for inclusion in this measure. The additional comments of the Department concluded that the prescription preauthorization procedures in this measure will reduce the risk and exposure to the State presented by skyrocketing costs of new drugs. Specifically, this measure will align with the State’s goals to provide access to quality care that follow national best practice guidelines and include a responsibility to contain costs by focusing on efficacy and sound policy. The Department indicates that actuaries are calculating the costs of providing such drugs to individuals currently not requiring preauthorization (non-aged, non-blind, and non-disabled QUEST Integration beneficiaries) over the next fiscal biennium, and that the projected estimates are \$24,000,000 in addition to what was requested in the Department’s budget.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1106, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 79 Human Services and Housing on S.B. No. 1107

The purpose and intent of this measure is to appropriate \$2,514,822 in general funds as an emergency appropriation to the Department of Human Services for general assistance payments to address the budget shortfall for the general support of the general assistance program.

Your Committee received testimony in support of this measure from the Department of Human Services, PHOCUSED, and Bridge to Hope.

Your Committee finds that a critical funding emergency exists that threatens the general assistance program, which provides cash benefits for food, clothing, shelter, and other essentials to approximately 5,752 adults who are temporarily disabled and do not qualify for federal benefits through the Social Security Administration. The program will expend all appropriated funds before the end of the current fiscal year and will then be unable to maintain the current monthly benefit, which is already barely enough to cover living expenses for eligible individuals. Your Committee further finds that the general assistance program is a block grant, and the Department of Human Services is unable to cover the current shortfall with funding from other programs.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1107 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 80 (Majority) Commerce and Consumer Protection on S.B. No. 1220

The purpose and intent of this measure is to:

- (1) Expand the definition of “tobacco products” to include any product containing nicotine, but not containing tobacco;
- (2) Impose an excise tax equal to eighty per cent of the wholesale price of any tobacco product, other than large cigars, sold by a wholesaler or dealer on and after January 1, 2016, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (3) Require any subsequent increase in the excise tax rate imposed on cigarettes or little cigars on or after January 1, 2016, to trigger an automatic excise tax increase on other tobacco products, other than large cigars, on or after January 1, 2016; and
- (4) Require the additional monies collected under the excise tax to be deposited to the credit of the Hawaii cancer research special fund.

Your Committee received testimony in support of this measure from the Department of Health, Coalition for a Tobacco-Free Hawai'i, American Cancer Society Cancer Action Network, American Lung Association of the Mountain Pacific, Hawaii COPD Coalition, Hawai'i Public Health Association, and thirty-eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance, VOLCANO Fine Electronic Cigarettes, PC Gamerz, and thirty individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Vape Hawaii, and one individual.

Your Committee finds that under existing law, the tax on other tobacco products is lower than the tax on cigarettes, despite these products being similarly addictive and dangerous. Other tobacco products present significant health risks, which can lead to cancer, heart disease, respiratory illness, and other serious diseases.

Your Committee further finds that according to the federal Centers for Disease Control and Prevention, increasing the price of tobacco products is the most effective way to prevent initiation among nonsmokers and reduce consumption. Furthermore, consumers may be more likely to purchase other tobacco products as the price of cigarettes increases, if there is not a comparable increase in the price of other tobacco products. Accordingly, this measure increases the excise tax equal to eighty percent of the wholesale price of any tobacco product, other than large cigars. This increased amount in the excise tax will provide parity with the current tax on cigarettes.

Your Committee has amended this measure by:

- (1) Clarifying that the amended definition of "tobacco product" does not include any product specifically approved by the United States Food and Drug Administration for legal sale as a tobacco cessation product that is being marketed and sold solely for that approved purpose; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1220, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 81 Commerce and Consumer Protection on S.B. No. 752

The purpose and intent of this measure is to require telecommunications carriers to release individuals from shared or family wireless plans, without charge, upon written request in documented instances of domestic violence.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawai'i; Office of the Prosecuting Attorney, County of Kaua'i; Hawaii State Commission on the Status of Women; Hawaii State Coalition Against Domestic Violence; Domestic Violence Action Center; PHOCUSED; and one individual. Your Committee received testimony in opposition to this measure from CTIA – The Wireless Association.

Your Committee finds that victims of domestic violence often find themselves struggling to escape their abusive situations. Being forced to share a continued wireless service plan with an abuser makes it even more difficult for a victim of domestic violence to leave. Abusers will often manipulate their partners through cellular phones in ways that have significant safety and financial implications for victims.

Your Committee further finds that although wireless service providers do permit cancellation or removal of phone numbers or phones from a shared wireless plan, such cancellation or removal may come with substantial fees and charges that act as a barrier to leaving a violent situation. This measure eases a domestic violence victim's financial burden, reduces the potential for negative marks on a credit score, and increases safety by permitting victims of domestic violence to opt out of wireless contractual obligations.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 752 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 82 (Majority) Commerce and Consumer Protection on S.B. No. 1032

The purpose and intent of this measure is to:

- (1) Expand the definition of "tobacco products" to include any product containing nicotine, but not containing tobacco;
- (2) Increase the license fee for persons engaged as a wholesaler or dealer of cigarettes or tobacco products;
- (3) Increase the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products; and
- (4) Specify that revenue from the license and permit fees shall be used to support smoking cessation programs in the State.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i Cancer Center, Coalition for a Tobacco-Free Hawai'i, Hawaii COPD Coalition, American Cancer Society Cancer Action Network, and one individual. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance, Hawaii Food Industry Association, Hawaii Smokers Alliance, VOLCANO Fine Electronic Cigarettes, Island Vaporz, and nine individuals. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that, when compared to other states that charge a wholesale and dealer license fee, Hawaii's license fee is the lowest in the nation. This fee has also remained unchanged since 1995, despite high tobacco taxes and ever-increasing tobacco industry expenditures in marketing and advertising. Hawaii's retail tobacco permit fee is also one of the lowest in the nation among those states that charge a retail tobacco permit fee.

Your Committee further finds that tobacco licensing is an effective tool for limiting the negative public health consequences of tobacco use by ensuring that wholesalers, dealers, and retailers comply with responsible sales practices. Wholesaler, dealer, and retail licenses with adequate annual fees provide the necessary resources for administrative costs and enforcement of tax laws.

Your Committee has heard the concerns raised by the Department of Budget and Finance regarding the dedication of general fund revenues for a specific purpose and understands that this may impede the State's ability to fund other programs included in the Executive Budget.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the requirement that revenue from the license and permit fees shall be used to support smoking cessation programs in the State;
- (2) Inserting an effective date of January 1, 2016, to allow the Department of Taxation sufficient time to amend its forms and instructions; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1032, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1032, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 83 Energy and Environment on S.B. No. 710

The purpose and intent of this measure is to appropriate funds to the Department of Health to support the revision of the state integrated solid waste management plan.

Your Committee received testimony in support of this measure from the Office of the State Auditor, Hawaii Green Growth, Zero Waste Kauai, and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the State's integrated solid waste management goals are to reduce the solid waste stream prior to disposal through source reduction, recycling, and bioconversion. The state integrated solid waste management plan furthers the State's waste management goals and ensures progress toward managing the State's waste. The Office of Solid Waste Management is required to prepare revisions to the state integrated solid waste management plan following the approval and review of each revised county-specific plan. While each county has completed its plan revision, the revision process has been delayed due to a lack of funds. The implementation of this measure will support the timely revision of the state integrated solid waste management plan.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 710 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 84 (Joint) Energy and Environment and Water and Land on S.B. No. 591

The purpose and intent of this measure is to appropriate funds to the Hawaii Invasive Species Council for the coordinated management and removal of the albizia trees on Hawaii island and throughout the State.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Emergency Management Agency, Office of Environmental Quality Control, Maui Invasive Species Committee, Oahu Invasive Species Committee, Hawaii Farm Bureau, Nature Conservancy, Hawaiian Shores Community Association, Hawaiian Electric Company, and nine individuals. Your Committees received comments on this measure from one individual.

Your Committees find that albizia trees are an invasive species that present an increasingly costly threat to the economy, critical infrastructure, and public safety. The pre-planned removal of each albizia tree costs significantly less than the combined direct and indirect costs of removal if and when it falls into a road, power line, or building. The Hawaii Invasive Species Council and the Big Island Invasive Species Committee have demonstrated the effectiveness and necessity of a coordinated approach to controlling the growth and spread of albizia trees. The implementation of this measure will allow the Hawaii Invasive Species Council to continue working toward the management and removal of albizia trees that pose a critical threat to the State.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 591 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 85 Energy and Environment on S.B. No. 353

The purpose and intent of this measure is to:

- (1) Amend the advance disposal fee for glass containers to a tiered structure based on the interior volume of the glass container; and
- (2) Require the State Auditor to audit the advance disposal fee program at the earliest opportunity and again five years later and submit the results to the Legislature.

Your Committee received testimony in support of this measure from the County of Hawaii Department of Environmental Management. Your Committee received testimony in opposition to this measure from the Wine Institute. Your Committee received comments on this measure from the State Office of the Auditor, Department of Health, Tax Foundation of Hawaii, and Hawaii Food Industry Association.

Your Committee finds that the cost of recycling glass containers far exceeds the revenue that the State receives through the advance disposal fee, which is imposed on sealed glass containers that are not glass deposit beverage containers. The result is a shortfall in payment for glass recycling or stoppages in the recycling of glass containers.

Your Committee further finds that the advance disposal fee of 1.5 cents per glass container has not been increased since it was established on September 1, 1994. Also, there is a huge disparity in weight between small glass containers and larger glass containers, which cost more to recycle. This measure revises the advance disposal fee for glass containers to a fairer, more reasonable tiered structure based on the interior volume of the glass container.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 353 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 86 Energy and Environment on S.B. No. 350

The purpose and intent of this measure is to:

- (1) Require the Department of Taxation, in collaboration with the Department of Business, Economic Development, and Tourism, to submit a joint report to the Legislature each year that is related to tax credits for renewable energy technology properties, the total cost of the renewable energy tax credits to the State, and the estimated economic benefit of the renewable energy tax credits for each of the previous four taxable years; and
- (2) Appropriate funds to the Department of Taxation and Department of Business, Economic Development, and Tourism for necessary costs in preparing and submitting the joint report.

Your Committee received comments on this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; and Tax Foundation of Hawaii.

Your Committee finds that the Legislature requires factual information and economic data on the fiscal impact of tax credits in past years in order to evaluate the effectiveness of the tax credits and to properly compare projections for future years resulting from proposed changes to the tax credits. The implementation of this measure provides the Legislature with critical information pertaining to renewable energy tax credits.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that the annual joint report to the Legislature shall include information and data from each of the previous four taxable years for which information or data is available;
- (2) Authorizing the Department of Taxation to request and collect any additional information or data from a taxpayer that is needed to satisfy the reporting requirements of this measure; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 350, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

SCRep. 87 (Joint) Education and Health on S.B. No. 977

The purpose and intent of this measure is to provide funds to the Department of Education for the purpose of raising awareness of mental health issues; providing training to public school administrators, teachers, and other school personnel so they may more effectively support students; and creating additional public school counselor positions.

Your Committees received testimony in support of this measure from the Department of Education, Helping Hands Hawaii, Hawaii Youth Services Network, and Halau Ku Mana. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that mental health training for school administrators, teachers, and other personnel will increase their capacity to identify, respond, and support students who may be experiencing mental health challenges. Arming school personnel with knowledge about mental health concerns may help to identify students in need of mental health services and work to alleviate stigmas surrounding mental illness.

Your Committees further find that school counselor positions are created at the school level through weighted student formula funds, and an appropriation for additional positions may not result in additional counselors.

As such your Committees have amended this measure by removing the appropriation for additional school counselor positions.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 977, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 977, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

Health

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 88 (Joint) Education and Health on S.B. No. 841

The purpose and intent of this measure is to improve the delivery of school health services by establishing an interagency working group to create a comprehensive school health program.

Your Committees received testimony in support of this measure from the Department of Education, Department of Health, and Hawaii Primary Care Association. Your Committees received comments on this measure from one individual.

Your Committees find that the health and well-being of Hawaii's school children is important to their success in school and in life. Collaboration between the Department of Education and Department of Health to address various issues related to school health is important to meet student needs and support student success.

Your Committees have amended this measure by expanding the scope of the working group to include topics regarding the administration of auto-injectable epinephrine, care of students with diabetes, and the need for mental health counselors, nurses, and health aides.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 841, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 841, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

Health

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 89 (Joint) Education and Health on S.B. No. 1221

The purpose and intent of this measure is to require the Department of Education to provide care at the public schools to students with diabetes according to their medical management plans.

Your Committees received testimony in support of this measure from the Department of Health, American Diabetes Association, and forty-eight individuals. Your Committees received comments on this measure from the Department of Education and State Public Charter School Commission.

Your Committees find that diabetes management is a constant concern for students with diabetes. Testing, injections, medication, and measures to raise or lower blood sugar are all daily tasks for anyone with diabetes. The school environment and rules can make diabetes management even more onerous for students.

Your Committees further find that trained staff in every school that has at least one student with diabetes enrolled is necessary to assist students with diabetes to carry out their medical management plans. Requiring schools to be prepared to help students with diabetes will make school safer for those students and enable them to more fully participate in school functions.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1221, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1221, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

Health

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 90 (Joint) Education and Health on S.B. No. 846

The purpose and intent of this measure is to authorize Department of Education employees and agents to volunteer to administer auto-injectable epinephrine to a student experiencing anaphylaxis in an emergency situation and to allow the Department of Education to make arrangements to receive auto-injectable epinephrine supplies from manufacturers or suppliers.

Your Committees received testimony in support of this measure from the Department of Education, Department of Health, Special Education Advisory Council, Community Children's Council of Hawaii, Walgreens Co., American Diabetes Association, and one individual. Your Committee received comments on this measure from the Hawaii Association for Justice.

Your Committees find that anaphylaxis is a life threatening condition, and students exposed to allergens at school that cause the onset of anaphylaxis would be aided by the availability of a school staff person to administer auto-injectable epinephrine. While many older children are able to manage treatment on their own, young children and students with certain disabilities benefit from having trained volunteers available in the event of an emergency. Allowing Department of Education employees and agents to volunteer to administer auto-injectable epinephrine in emergency situations will make schools safer for students with anaphylaxis.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 846 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

Health

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 91 (Joint) Education and Health on S.B. No. 394

The purpose and intent of this measure is to provide accurate, educational information to sixth graders on human papillomavirus, its connection to cervical cancer and other cancers, and the availability of a vaccine against human papillomavirus through the collaborative efforts of the Department of Education and Department of Health.

Your Committees received testimony in support of this measure from the Department of Education; Hawaii State Commission on the Status of Women; Planned Parenthood Hawaii; Hawaii Youth Services Network; Hawaii Women's Coalition; Hawaii State Democratic Women's Caucus; League of Women Voters; American Association of University Women of Hawaii; National Coalition of STD Directors; Democratic Party of Hawaii Gay, Lesbian, Bisexual, and Transgender Caucus, Rainbow Family 808; and four individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that the human papillomavirus vaccine may prevent certain cancers, thereby saving lives. The prevention of infectious disease is paramount to a safe and healthy society. Sharing accurate, educational information on diseases and vaccinations and presenting it to families whose children are of an appropriate age to receive the vaccine is appropriate and necessary to better educate the community and promote public health.

Your Committees have amended this measure by broadening its scope to include development and dissemination of information about diphtheria, tetanus, pertussis, meningococcal disease, influenza, and the availability of vaccines for each disease, along with information on any other preteen vaccinations and the diseases they prevent consistent with current medical practice and national recommendations by the Centers for Disease Control and Prevention.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 394, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 394, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

Health

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 92 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1211

The purpose and intent of this measure is to:

- (1) Increase the expenditure ceiling on major disaster fund monies; and
- (2) Require the Adjutant General to report to the Legislature the purpose of any allotment of fund monies or any expenditure of fund monies within one month of the allotment or expenditure.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency.

Your Committee finds that the State is vulnerable to a wide range of natural and man-made hazards that may result in emergencies or disasters that are extremely costly. The major disaster fund is used to provide immediate relief in response to an emergency or disaster in any part of the State. However, existing law provides that the Governor may expend no more than \$2,000,000 for

immediate relief as a result of any single emergency or disaster. Implementation of this measure will authorize the Governor to expend a higher amount if required by a future emergency or disaster.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1211 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 93 Public Safety, Intergovernmental and Military Affairs on S.B. No. 889

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds to the Department of Defense to support the development of the Joint Emergency Management Center, including planning, land acquisition, and the initial appraisal scope.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency and two individuals.

Your Committee finds that various public safety and emergency management agencies have expressed an interest in developing the Joint Emergency Management Center to increase their collaboration and communication before, during, and after disasters. The addition of the Joint Emergency Management Center at a central location will bring together several essential agencies and organizations. The implementation of this measure will lead to enhanced emergency response capabilities and better protect the people of Hawaii.

Your Committee has amended this measure by amending section 1 to, among other things, clarify that the Joint Emergency Management Center will be at an undetermined, central location rather than a specific location.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 889, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 889, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 94 Public Safety, Intergovernmental and Military Affairs on S.B. No. 669

The purpose and intent of this measure is to appropriate funds to the State Department of Defense for programs, ceremonies, and activities commemorating the fiftieth anniversary of the Vietnam War.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, State Office of Veterans Services, The Military Order of Foreign Wars Hawaii Commandery, and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association and one individual.

Your Committee finds that the Vietnam War is a chapter in American's history that must never be forgotten. During the Vietnam War, more than 58,000 members of the United States Armed Forces were killed, over 153,000 were wounded, and as of 2014, there remain 1,638 Americans who are unaccounted for. It is important that the State honor the sacrifices of the men and women who served and to remember the suffering and loss of life of all who were involved.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 669 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 95 (Majority) Public Safety, Intergovernmental and Military Affairs on S.B. No. 663

The purpose and intent of this measure is to increase the fireworks display permit fee, which authorizes licensed pyrotechnicians to conduct aerial fireworks and indoor fireworks displays for theatrical purposes, from \$110 to \$300.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Kauai Fire Department, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the process to approve a fireworks display permit is important to ensure public safety and property protection. The fireworks display permit fee has remained the same for thirteen years, yet the administrative costs to process, review, and approve permit applications have increased. This measure will address the rise in processing costs by raising the fireworks display permit fee from \$110 to \$300.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Galuteria).

SCRep. 96 (Joint/Majority) Public Safety, Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.B. No. 193

The purpose and intent of this measure is to:

- (1) Require a prepaid wireless E911 surcharge on each retail prepaid transaction at the point of sale;
- (2) Allow sellers to deduct and retain three percent of the prepaid wireless E911 surcharges that are collected and requires the seller to remit all remaining surcharges collected to eHawaii.gov; and
- (3) Allow eHawaii.gov to retain up to two percent of the remitted prepaid wireless E911 surcharges collected to cover the costs of administering the prepaid wireless E911 charges and require eHawaii.gov to transfer all remaining remitted surcharges to the enhanced E911 fund.

Your Committees received testimony in support of this measure from the Enhanced 911 Board, Police Department of the City and County of Honolulu, Police Department of the County of Hawaii, Police Department of the County of Maui, Verizon, and CTIA - The Wireless Association. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association. Your Committees received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committees find that prepaid wireless consumers have the same access to emergency 911 services from their wireless devices as wireless consumers on term contracts. Yet, prepaid wireless consumers receive this benefit without having to pay the enhanced 911 surcharge that is imposed on wireless consumers with term contracts. This measure ensures equitable contributions to the funding of 911 systems from consumers of prepaid wireless telecommunications services.

Your Committees have amended this measure by:

- (1) Prohibiting a seller from applying a prepaid wireless E911 surcharge on a transaction for a minimal amount of prepaid wireless telecommunications service that is sold with a prepaid wireless device for a single, non-itemized price;
- (2) Eliminating the requirement that audit and appeal procedures applicable to retailers, pursuant to chapter 237, Hawaii Revised Statutes, apply to prepaid wireless E911 surcharges;
- (3) Substituting references to "department" with references to the Enhanced E911 Board;
- (4) Deleting the Enhanced 911 Board's authority to retain a portion of remitted surcharges;
- (5) Amending the requirement that the Enhanced E911 Board establish procedures for sellers regarding documenting a sale that is not a retail transaction by eliminating the requirement that the procedures be in accordance with the procedures for documenting sale for resale transactions pursuant to chapter 237, Hawaii Revised Statutes;
- (6) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 193, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 193, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Keith-Agaran).

Commerce and Consumer Protection
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 97 (Joint) Education and Human Services and Housing on S.B. No. 865

The purpose and intent of this measure is to require all youth-serving agencies, public schools, charter schools, and educational institutions that receive state funding to establish, maintain, monitor, and enforce policies and procedures related to all forms of bullying, including cyberbullying, to protect youth in the State.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities; Honolulu Police Department; Hawaii Youth Services Network; Rainbow Family 808; Democratic Party of Hawaii Gay, Lesbian, Bisexual, and Transgender Caucus; Hawaii State Democratic Women's Caucus; IMUAlliance; Hawaii State Teachers Association; and four individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Education, State Public Charter School Commission, and American Civil Liberties Union of Hawaii.

Your Committees find that bullying takes an emotional toll on children and interferes with their education. Bullying causes children to fear going to school and results in increased absenteeism. It is a distraction in the classroom and often carries over into online harassment. As many as twenty-five percent of middle school students have reported being victims of cyberbullying. In some cases, the harassment endured by bullied children even leads to suicide.

Your Committees further find that stronger policies against bullying and stronger enforcement of those policies are necessary to reduce the prevalence of bullying and youth suicide in Hawaii.

Your Committees have amended this measure by:

- (1) Codifying sections 3 through 9 as a new chapter in the Hawaii Revised Statutes rather than as session law;
- (2) Adding an appropriation to the Department of Education for anti-bullying and suicide prevention efforts in public schools; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 865, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 865, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Harimoto, Thielen, Slom).

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 98 (Joint) Education and Human Services and Housing on S.B. No. 858

The purpose and intent of this measure is to establish and fund an evidence-based physical activity and nutrition education pilot program within the Department of Education's After-school Plus Program.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Island School Garden Network, Hawai'i Primary Care Association, Moiliili Community Center, YMCA of Honolulu, Hawai'i Afterschool Alliance, and Kahoomiki. Your Committees received comments on this measure from the Department of Education, Department of Human Services, and one individual.

Your Committees find that childhood obesity is a great concern in Hawaii. Increased physical activity and nutrition education work to decrease instances of obesity. The Fun 5 program has operated successfully within the Department of Education's After-school Plus Program and has provided nutrition education and structured physical activity for after school plus program participants. Evidence has shown that among Fun 5 participants, the childhood obesity rate does not rise. Implementing an evidence-based physical activity and nutrition education pilot program that gets children moving five days a week could help Hawaii's childhood obesity rate decline.

As affirmed by the records of votes of the members of your Committees on Education and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 858 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Harimoto, Thielen, Slom).

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 99 Health on S.B. No. 1016

The purpose and intent of this measure is to appropriate funds to establish an advanced life support ambulance to be based in Puna on the island of Hawaii, including the acquisition of a vehicle and equipment and personnel costs for state-certified emergency medical services personnel.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawai'i; Hawai'i Fire Department; Honolulu Emergency Services Department, Emergency Medical Services Division; Hawaii Fire Fighters Association, Local 1463; United Public Workers; and three individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Puna community residents on the island of Hawaii are in great need of an additional advanced life support ambulance to augment the current Hawaii County Fire Department's Emergency Medical Services System. Puna has become the fastest growing district in the State, with a current population of more than 45,000 individuals and a projected population to surge to approximately 75,000 individuals within the next 15 years.

Your Committee further finds that the ongoing lava flow has exacerbated the need to serve the nearly 10,000 residents within the projected impact area. Critical transportation infrastructure continues to be affected, which will result in delayed emergency medical care for the residents of Puna if additional resources are not provided. The travel time to Hilo, once the flow crosses Highway 130, is expected to increase from the current average of thirty minutes to two hours.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 100 Health on S.B. No. 576

The purpose and intent of this measure is to appropriate funds as a grant to the Bay Clinic, Inc., for a mobile health unit to service the Puna district due to the threat of inaccessibility from the lava flow.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawai'i; Goodwill Industries of Hawaii, Inc.; Hawaii Primary Care Association; Bay Clinic, Inc.; United Public Workers, Local 646; and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that about 8,200 Puna residents are living on the south side of the June 27, 2014 lava flow and will be cut off from the rest of the Puna district when the lava crosses Highway 130. Although Bay Clinic, Inc., will continue operations out of its two Pahoehoe-based health centers, certain services, such as dental care, will not be readily available without a mobile health unit capable of such services. In light of this natural disaster, the availability of a mobile health unit is the most economical option to ensuring access to comprehensive primary medical care and dental care.

Your Committee has amended this measure by:

- (1) Inserting the contents of S.B. No. 580, Regular Session of 2015, which appropriates funds to the Puna Community Medical Center for a mobile health unit and an annex medical clinic to service South Pahoehoe due to the threat of inaccessibility from the lava flow; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 576, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 101 Commerce and Consumer Protection on S.B. No. 1151

The purpose and intent of this measure is to authorize:

- (1) Restaurants and retail dealers with a liquor license to sell beer, malt beverages, wine, or cider for off-premises consumption, under certain conditions; and
- (2) Brewpubs and small craft producer pubs with a liquor license to sell malt beverages purchased from another liquor licensee for off-premises consumption.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association, Hawaiian Craft Brewers Guild, Whole Foods Market, Maui Brewing Co., Maui Growlers LLC, and three individuals. Your Committee received testimony in opposition to this measure from the Wine Institute and Hawaii Liquor Wholesalers Association. Your Committee received comments on this measure from the Liquor Commission of the City and County of Honolulu and one individual.

Your Committee finds that this measure permits the sale of growlers at all liquor retail establishments and restaurants and allows brew pubs and small craft producer pubs to sell different brands of beer in growlers. This measure enables consumers to try an expanded selection of draft beer and also provides the opportunity for growth and expansion of the local craft beer industry.

Your Committee has heard testimony that wineries must be able to make a business decision as to the packaging of their wine sold to consumers and also need the ability to ensure that their wine is not adulterated. Your Committee understands the concern that allowing growlers to be used for wine, as proposed by this measure, may cause labeling and sanitation issues. Your Committee notes that this measure was intended to focus on the promotion of craft beer and local breweries, rather than the wine industry.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that permitted restaurants and retail dealers with a liquor license to sell wine for off-premises consumption, under certain conditions; and
- (2) Inserting an effective date of July 1, 2020, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1151, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1151, S.D. 1, and be referred to the Committee on Public Safety, Intergovernmental and Military Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 102 Commerce and Consumer Protection on S.B. No. 1178

The purpose and intent of this measure is to increase the authorized per visit treatment cost for acupuncture treatments allowed under personal injury protection benefits provided through motor vehicle insurance.

Your Committee received testimony in support of this measure from the Kailua Acupuncture Clinic, Institute of Clinical Acupuncture and Oriental Medicine, Hawaii Oriental Medicine and Acupuncture Association, and seven individuals. Your Committee received testimony in opposition to this measure from the Government Employees Insurance Company (GEICO). Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii Insurers Council.

Your Committee finds that the reimbursement rate for licensed acupuncturists has not increased in almost twenty years, resulting in a reimbursement rate that has not kept up with inflation or the increased costs of providing care. Tying the cap on acupuncture treatments to the Medicare Economic Index will enable acupuncturists to receive reimbursement rates like other health care providers in the State. Your Committee notes that associating acupuncture reimbursement rates with the Medicare Economic Index will result in

a lower fee schedule than those already approved for acupuncture under federal workers' compensation and the federal Veterans' Administration.

Your Committee has amended this measure by:

- (1) Specifying that the authorized benefit for acupuncture treatments allowed under personal injury protection benefits shall be a maximum of \$105.70 per visit and be changed in December of each year to include the percentage, if any, by which the Medicare Economic Index for that calendar year exceeds the Medicare Economic Index for the prior calendar year;
- (2) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1178, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 103 Health on S.B. No. 1006

The purpose and intent of this measure is to appropriate funds for the purchase of one ambulance unit and operational costs for one ambulance unit to service the area of Kakaako.

Your Committee received testimony in support of this measure from the United Public Workers, Local 646. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the population of the area of Kakaako in the City and County of Honolulu has recently undergone a dramatic increase in population. There has been the development of numerous residential condominiums and an increase in businesses serving the residents. Correspondingly, there has been a steady and marked increase of calls for emergency medical services in the Kakaako area.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1006 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 104 Health on S.B. No. 266

The purpose and intent of this measure is to:

- (1) Appropriate funds to further develop the language access resource center and multilingual website pilot project; and
- (2) Authorize the hiring of necessary personnel to staff the resource center and administer the multilingual website.

Your Committee received testimony in support of this measure from the Office of Language Access, Hawaii Interpreter Action Network, and one individual.

Your Committee finds that according to the United States Census Bureau, American Community Survey of 2009-2011, twenty-four percent of Hawaii's population speak a language other than English at home. This includes nearly 281,607 persons who speak an Asian or Pacific Island language. According to the same studies, out of those who speak a language other than English at home, forty-six percent are limited English proficient.

Your Committee therefore recognizes that English is not the primary language for a significant portion of Hawaii's residents. These people have only a limited ability to read, write, speak, or understand English. Language barriers often prohibit many residents from fully participating in the community. Despite personal, family, community, and government efforts to make those with limited English proficiency more self-sufficient and productive, these efforts are often undermined by lack of access to essential government and government-funded services due to the language restrictions of Hawaii's limited English proficient population.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 266 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 105 Health on S.B. No. 385

The purpose and intent of this measure is to appropriate funds to the Department of Health for the breast and cervical cancer control program.

Your Committee received testimony in support of this measure from Planned Parenthood of Hawaii. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that after Congress passed the Breast and Cervical Cancer Mortality Act in 1990, the State established the breast and cervical cancer treatment program, administered by the Department of Human Services Med-QUEST Division. The Department of Health's breast and cervical cancer control program is the safety net for the most vulnerable women in the State.

Eligible women for the program face numerous barriers in their efforts to receive proper care, including socioeconomic status, language, literacy, and affordability of adequate health insurance.

Your Committee further finds that since 1997, the Department of Health's breast and cervical cancer control program has provided critical screening and early detection services to more than 9,500 women and diagnosed 263 invasive breast cancers and 148 cervical cancers and precancerous lesions. While progress is being made, breast and cervical cancers continue to take the lives of nearly 200 women in the State each year.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 385 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 106 Health on S.B. No. 300

The purpose and intent of this measure is to:

- (1) Amend the offense of assault in the second degree as it applies to medical professionals by expanding the types of medical services providers protected under this offense; and
- (2) Clarify that the offense of assault in the second degree does not apply to patients located outside of emergency rooms receiving medical services at the time injury to a medical services provider occurs.

Your Committee received testimony in support of this measure from The Queen's Health Systems, Healthcare Association of Hawaii, Hawaii Government Employees Association, Kaiser Permanente Hawaii, Hawaii Primary Care Association, and one individual.

Your Committee finds that health care workers are over four times more likely to be victims of workplace violence than other private sector workers. Health care workers are hit, kicked, scratched, bitten, spat on, threatened, and harassed by patients with surprising regularity, negatively impacting medical personnel by reinforcing that this type of violence is part of the job. Increased penalties for assaults against health care workers will help to protect these workers by providing them with legal recourse should any assault occur.

Your Committee has amended this measure by amending language to expand the scope of protection for patients to include assaults against all medical service personnel who are treating the patient, not only those occurring within the emergency room.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 300, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 107 Health on S.B. No. 790

The purpose and intent of this measure is to increase access to provider orders for life-sustaining treatment by expanding health care provider signatory authority to include physician assistants.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association, Hawaii Academy of Physician Assistants, and one individual. Your Committee received comments on this measure from Hospice Hawaii.

Your Committee finds that Act 154, Session Laws of Hawaii 2014, codified as chapter 327K, Hawaii Revised Statutes, enables patients or their surrogates to create provider orders for life-sustaining treatment. Provider orders for life-sustaining treatment, also referred to as POLST, is a holistic method of planning for end-of-life care and a specific set of medical orders that ensure patients' wishes are honored. Completing a POLST form encourages communication and conversations between patients and health care providers.

Your Committee further finds that the national standard for authorized health care provider signatories includes licensed physicians, physician assistants, and advanced practice registered nurses. However, chapter 327K, Hawaii Revised Statutes, limits POLST to licensed physicians and advanced practice registered nurses. This creates a barrier to timely completion of POLST, especially in rural areas or on the neighbor islands.

Your Committee has amended this measure by inserting language to rename "physician orders for life-sustaining treatment" to "provider orders for life-sustaining treatment" to reflect Act 154, Session Laws of Hawaii 2014, and making similar technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 790, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 790, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Baker, Slom). Noes, none. Excused, none.

SCRep. 108 (Majority) Health on S.B. No. 1117

The purpose and intent of this measure is to make an emergency appropriation to the Hawaii Health Systems Corporation.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Hawaii Health Systems Corporation Kauai Region Board of Directors, United Public Workers, and three individuals.

Your Committee finds that during fiscal year 2015, the Hawaii Health Systems Corporation has been forced to absorb approximately \$48,000,000 in unfunded collective bargaining raises that were negotiated by the Administration on the Corporation's behalf. To deal with this deficit, the Hawaii Health Systems Corporation began implementing its contingency plans, including an elimination of 109 vacant positions and 33 filled positions, the closure of Maui Memorial's adolescent psychiatry unit, hiring freezes, and aggressive pursuit of attrition savings. An emergency appropriation is necessary to avoid jeopardizing health care operations for residents and visitors of the State.

Your Committee further finds that the Administration has recently provided notice recommending the emergency appropriation provided in this measure in the amount of \$24,000,000.

Your Committee has amended this measure by:

- (1) Amending the appropriation amount to \$24,000,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1117, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1117, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Riviere). Noes, 1 (Slom). Excused, none.

SCRep. 109 Health on S.B. No. 406

The purpose and intent of this measure is to appropriate funds for the Hawaii Health Systems Corporation primary care training program at Hilo Medical Center.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Hawaii State Association of Counties, Hawaii Island Chamber of Commerce, The Queen's Health Systems, Hawaii Medical Association, Zonta Club of Hilo, Japanese Chamber of Commerce and Industry of Hawaii, Hilo Medical Center Foundation Board of Directors, and fifty-five individuals.

Your Committee finds that the Hawaii Health Systems Corporation primary care training program is an effective way to reduce the impact of the shortage of primary care providers and improve access to health care throughout the State, especially on the neighbor islands. Administered by Hilo Medical Center, this interdisciplinary program is centered at the Hawaii Island Family Health Center, which serves as a training site for family medicine physicians and medical students through the Hawaii island family medicine residency; advanced practice nurses from the school of nursing and dental hygiene at the University of Hawaii at Manoa and the University of Hawaii at Hilo; registered nursing students from the University of Hawaii at Hilo; pharmacy students in clinical pharmacy practice from the University of Hawaii at Hilo's Daniel K. Inouye College of Pharmacy; health psychologists from I Ola Lahui, an organization that trains psychologists to meet the needs of residents of Hawaii's rural areas; and baccalaureate nursing students from the School of Nursing at the University of Hawaii at Hilo.

Your Committee further finds that this interdisciplinary training model can be expanded to other neighbor island health facilities to generate interdisciplinary teams capable of caring for four times as many patients as independent practicing physicians could care for alone. Hawaii will benefit greatly as the Hawaii Health Systems Corporation program contributes to training primary care providers in the emerging model of primary care and patient-centered medical homes, and attracts health care providers to practice in rural Hawaii, including the neighbor islands.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 406 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 110 Education on S.B. No. 850

The purpose and intent of this measure is to fund the State Public Charter School Commission facilities pilot project.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii Public Charter Schools Network, Malama Honua Charter School, Hawaii Academy of Arts and Sciences, Kamehameha Schools, Maui Cattlemen's Association, Hawaii State Teachers Association, and three individuals.

Your Committee finds that facilities funding is one of the greatest concerns for public charter schools. Some schools lack adequate food service facilities, and must provide school meals through vendors. Operational funds are stretched to cover the cost of facilities, in many cases. Additional funding is necessary to alleviate the overwhelming financial burden of operating facilities that is imposed on public charter schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 850 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 111 Education on S.B. No. 252

The purpose and intent of this measure is to establish a special fund for the operation of the state public charter school commission and charter schools.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and Hawaii State Teachers Association. Your Committee received comments on this measure from the State Public Charter Schools Commission and Department of Budget and Finance.

Your Committee finds that this measure may facilitate greater economic efficiency and transparency in the public charter school system by creating a more distinct separation between the State Public Charter School Commission and State public charter schools funding.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 252, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 252, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 112 Education on S.B. No. 833

The purpose and intent of this measure is to:

- (1) Expedite the process of school closure when a public charter school becomes financially insolvent by deeming the school to have voluntarily surrendered its charter contract;
- (2) Require an authorizer to determine whether health and safety concerns require school closure;
- (3) Require an authorizer to adopt a closure protocol any time a school is subject to closure; and
- (4) Require an authorizer to determine whether to provide for a transition period in the event of a school closure.

Your Committee received testimony in support of this measure from the State Public Charter School Commission and the Hawaii State Teachers Association. Your Committee received testimony in opposition to this measure from the Hawaii Academy of Arts and Sciences and four individuals.

Your Committee finds that the lengthy process for revocation of a school's charter is not an appropriate procedure to initiate when a school is already insolvent or insists on operating despite insolvency. A more efficient approach is needed when circumstances are such that a school no longer has funds to operate or pay staff. School children, families, and communities require time to transition from one school to the next, and requiring an authorizer to step in, implement a closure protocol, and a transition period, if necessary, could ease the difficult transition that occurs when a school closes.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 833 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 113 Education on S.B. No. 832

The purpose and intent of this measure is to allow a student who is enrolled at a public charter school that has been notified of the prospect of revocation, nonrenewal, or closure, to enroll in a Department of Education school outside the student's service area.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Hawaii Public Charter Schools Network, Hawaii State Teachers Association, and one individual.

Your Committee finds that families are heavily impacted by the closure of a child's school. To ease the hardship and stress of enrolling in a new school, sometimes in the middle of a school year, a geographic exception to allow a student to attend a Department of Education school outside the student's service area is appropriate. The availability of a geographic exception may assist families in maintaining or obtaining child care, and make the transition to a new school a smooth one.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 832 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 114 Education on S.B. No. 831

The purpose and intent of this measure is to align the requirements for applying for start-up and conversion charter schools, and to make housekeeping amendments to chapter 302D, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the State Public Charter School Commission and Hawaii State Teachers Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that certain amendments are necessary to make incremental but important improvements to chapter 302D, Hawaii Revised Statutes, relating to charter schools. Among other things, the changes contained in this measure afford the State Public Charter School Commission some flexibility in filing reports to the Legislature, gives students of charter schools that are closing priority for admission to other charter schools, allows an enrollment preference to be given to educationally disadvantaged students, and requires the Department of Education to notify the Board of Education of potential closure of any Department school so the Board can consider the disposition of the facility.

Your Committee has amended this measure by:

- (1) Giving authorizers the choice of whether to require a public charter school it oversees to submit an annual report to the authorizer; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 831, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 831, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 115 Education on S.B. No. 1347

The purpose and intent of this measure is to allow public schools, upon approval, to use school resources to distribute to students and their families third party promotional materials that contain information about a community event or are produced by or offer services from a nonprofit organization.

Your Committee received testimony in support of this measure from the Department of Education and one individual. Your Committee received testimony in opposition to this measure from the Democratic Party of Hawaii Gay, Lesbian, Bisexual, and Transgender Caucus.

Your Committee finds that it is important for public schools to engage with community nonprofit organizations. This measure gives principals the authority to review and, if approved by the complex area superintendent, distribute promotional materials regarding community events that have a clear benefit for students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1347 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 116 Education on S.B. No. 820

The purpose and intent of this measure is to increase the number of public school student representatives from one to two representatives.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that increasing the number of public school student representatives to the Board of Education will give more students an opportunity to serve. It will also enhance the students' experience by providing opportunities for peer collaboration for problem solving and reporting to the Board.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 820 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 117 Education on S.B. No. 1345

The purpose and intent of this measure is to transition public schools away from the multi-track schedule and give overpopulated schools priority for capital improvement projects in order to develop facilities to accommodate the student population.

Your Committee received testimony in support of this measure from the Department of Education and Hawaii State Teachers Association.

Your Committee finds that the use of a multi-track school schedule is economically-motivated. The multi-track schedule is not driven by educational outcomes, but is simply a strategy for accommodating a larger number of students by always having one track of students on break, and utilizing facilities year-round.

Your Committee further finds that decoupling schools from a multi-track schedule will likely require a number of actions which may include but not be limited to, redistricting, construction of new classroom buildings on existing campuses, and building additional schools. Cafeterias, gymnasiums, and auditoriums will also need to be evaluated to determine whether modifications would be necessary to accommodate a greater population of students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1345 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 118 Education on S.B. No. 1376

The purpose and intent of this measure is to fund the expansion of the Ike Piliolo School Behavioral Health Program in the Leilehua-Mililani-Waialua complex area.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, and The Queen's Health Systems.

Your Committee finds that the Ike Piliolo Program provides students with psychiatric care in the school setting with direct input from teachers, counselors, and administrators. The program is delivered through a collaboration of providers from The Queen's Medical Center, Tripler Army Medical Center, and the Department of Education, and serves military dependents and the civilian population seamlessly. The program alleviates major hurdles between families and mental health services including cost, stigma, time, and distance.

Your Committee further finds that behavioral reports and suspensions have dropped off significantly since implementing the program. Not only does it have an immediate impact, but because children benefit from early identification of mental health concerns, interventions are more effective, and the child is more likely to effectively address ongoing or future mental health challenges.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1376 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 119 Education on S.B. No. 600

The purpose and intent of this measure is to provide emergency funds to Kua o Ka La Public Charter School and the Hawaii Academy of Arts and Science Public Charter School for costs associated with the threat of lava flow on the Island of Hawaii.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Hawaii Public Charter Schools Network, Office of Hawaiian Affairs, Kua o Ka La Public Charter School, Hawaii Academy of Arts and Science Public Charter School, Hawaii Island School Garden Network, Kamehameha Schools, Hawaii State Teachers Association, and one hundred fifty individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Kua o Ka La Public Charter School and the Hawaii Academy of Arts and Sciences Public Charter School have expended funds to prepare for the lava flow on the Island of Hawaii. Hawaii Academy of Arts and Sciences Public Charter School is in the direct path of the flow, but has not been subject to mandatory evacuation. As such, it must continue to operate in its current location due to rent commitments. Should the lava continue on its path, the campus could be bisected with lava flow, some facilities could be lost, and access could become restricted. Kua o Ka La Public Charter School has expended funds to expand its location in Hilo to accommodate students whose access to the main campus could be cut off by lava flow. It is also preparing for additional enrollment depending on the lava flow's impact on transportation.

Your Committee further finds that because public charter schools have no emergency funds, and because federal aid only exists in the form of reimbursements, these schools require state aid to prepare for and recover from the effects of the lava flow on the Island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 600 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 120 Education on S.B. No. 126

The purpose and intent of this measure is to change the composition of the Board of Education to ensure that the Board returns to acting as the local school board and reconnects to communities and to hold the Governor accountable for the Governor's nominations.

Your Committee received testimony in support of this measure from the Special Education Advisory Council, Community Children's Council of Hawaii, and Hawaii State Teachers Association. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the Board of Education requires restructuring to address concerns of accountability, experience, and transition. In the absence of an elected board, the Governor must be held accountable for the Governor's appointments to the Board of Education. At least some board members must have experience in the field of education with the specific knowledge that only comes from having experience at the school level. The ability to transition the Board is also important to ensure continuity for unfinished business.

Your Committee has amended this measure by:

- (1) Requiring that at least one at-large member be a resident of the County of Kauai, County of Maui, or County of Hawaii;

- (2) Expanding the scope with which board members possess experience in educational leadership by requiring one member to have experience either as a principal or vice principal;
- (3) Removing the requirement that the members, rather than the Governor, choose the board chair;
- (4) Staggering board members' terms to ensure that board members' terms run more closely with the terms of their appointing Governors by:
 - (A) Terminating the terms of four existing members, to be chosen by the Governor, on June 30, 2015;
 - (B) Requiring the Governor to appoint successor members to those terminated pursuant to subparagraph (A), the newly established at-large member, and the newly established City and County of Honolulu member, whose terms shall commence on July 1, 2015, and terminate on December 31, 2018;
 - (C) Requiring the terms of the five existing members who were not terminated pursuant to subparagraph (A) to terminate on June 30, 2016; and
 - (D) Requiring the Governor to appoint successor members to those members terminated pursuant to subparagraph (C), whose terms shall commence on July 1, 2016, and terminate on December 31, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 126, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 3 (Dela Cruz, Kouchi, Nishihara).

SCRep. 121 Health on S.B. No. 749

The purpose and intent of this measure is to establish and appropriate funds for a two-year Hawaii colorectal cancer screening and awareness pilot program using the Hawaii comprehensive breast and cervical cancer control program as a model.

Your Committee received testimony in support of this measure from The Queen's Health Systems. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that of cancers affecting men and women, cancer of the colon and rectum, also known as colorectal cancer, is the second-leading cause of cancer-related deaths in the United States. In 2011, the United States Centers for Disease Control and Prevention reported that 135,260 people in the United States were diagnosed with colorectal cancer, including 70,099 men and 65,161 women. That same year, 51,783 people in the United States died from colorectal cancer, including 26,804 men and 24,979 women. Because colorectal cancer almost always develops from precancerous polyps in the colon or rectum, screening tests are an easy and effective method to find precancerous polyps and detect colorectal cancer in its early stages.

Your Committee further finds that a screening program will increase detections of any cancer at an early stage, improving chances for survival and decreasing mortality rates. Your Committee finds that the Hawaii comprehensive breast and cervical cancer control program, established by the Legislature in 1997 to provide breast and cervical cancer screening, is a model of an effective approach to increasing the number of screenings and early detection of colorectal cancer.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 749 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 122 Human Services and Housing on S.B. No. 915

The purpose and intent of this measure is to appropriate \$5,000,000 in general funds to assist and support the Hawaii Public Housing Authority's state low-income public housing program.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Hawaii Primary Care Association.

Your Committee finds that section 356D-43, Hawaii Revised Statutes, mandates that the state low-income public housing program must be self-supporting. However, the rental income at the state housing facilities is insufficient. As a consequence, many of the expenses of day-to-day operations are currently subsidized using the small general fund appropriation the Hawaii Public Housing Authority receives for annual repair and maintenance and the Housing Authority's revolving funds.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 915 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 123 Human Services and Housing on S.B. No. 276

The purpose and intent of this measure is to strengthen elder and vulnerable adult care and plan for the future needs of the State's kupuna by creating the Hawaii kupuna trust fund.

Your Committee received testimony in support of this measure from the Department of Human Services, Maui County Office on Aging, and AARP Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that establishing a Hawaii kupuna trust fund would support Hawaii's kupuna by utilizing public and private funding to meet overdue needs and prepare for future responsibilities to protect the State's elder and vulnerable adults. As examples, grants awarded from the trust fund would help prevent elder abuse and neglect, avoid financial exploitation of kupuna, and assist residents in elderly housing facilities.

Your Committee has amended this measure by:

- (1) Changing the oversight authority for the Hawaii kupuna trust fund from the Department of Budget and Finance to the Department of Health; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 276, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 276, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 124 Human Services and Housing on S.B. No. 1023

The purpose and intent of this measure is to appropriate \$250,000 for the restoration of the Hawaii Child Welfare Education Collaboration between the Child Welfare Services Branch of the Department of Human Services and the University of Hawaii Myron B. Thompson School of Social Work.

Your Committee received testimony in support of this measure from the University of Hawaii System, Department of Human Services, Blueprint for Change, Family Programs Hawaii, and two individuals.

Your Committee finds that in upcoming years, the Department of Human Services will face a serious shortage of experienced child welfare services workers and leaders. Your Committee further finds that the University of Hawaii Myron B. Thompson School of Social Work and Department of Human Services have a history of collaboration and partnership in successfully recruiting and training social work students to work in the child welfare field in Hawaii. Between 1998 and 2008, the Hawaii Child Welfare Education Collaboration was successful and produced one hundred graduates, twenty-five of whom are still employed at the Department in child welfare services positions. Your Committee believes that restoring the Hawaii Child Welfare Education Collaboration will help build a workforce of highly qualified social workers who will increase the level of child welfare services for families in Hawaii.

Your Committee has amended this measure by:

- (1) Appropriating the funds for the Hawaii Child Welfare Education Collaboration to the Department of Human Services instead of the University of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1023, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1023, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 125 Human Services and Housing on S.B. No. 979

The purpose and intent of this measure is to establish a network of safe places where youth can access safety and obtain advice, guidance, programs, and services by:

- (1) Requiring the Department of Human Services to coordinate a five-year safe places for youth pilot program for youth who are at least 14 years old and under the age of 21;
- (2) Establishing the position of Safe Places for Youth Program Coordinator;
- (3) Establishing a framework to allow youth under the age of 18 to consent to receive services; and
- (4) Appropriating funds for the Safe Places for Youth Pilot Program Coordinator position and housing options for youth in crisis.

Your Committee received testimony in support of this measure from the Office of Youth Services, Hawaii Youth Services Network, Planned Parenthood of Hawaii, Hale Kipa, Hawaii Primary Care Association, Blueprint for Change, Family Programs Hawaii, and four individuals. Your Committee received testimony in opposition to this measure from fourteen individuals.

Your Committee finds that Hawaii's youth are not immune to daily threats to their health and safety. Youth run away from homes where abuse, neglect, and domestic violence are commonplace, and from schools where bullying becomes intolerable and a barrier to educational achievement. Without access to safe places, youth in these situations are vulnerable and may be victimized by predatory adults or turn to delinquent behaviors and become entangled with the juvenile justice system.

Your Committee further finds that at the 2012 Children and Youth Summit, youth expressed that one of their highest priorities is to address the lack of safe places where they can have fun and seek help without the fear of being harassed, bullied, pressured by other youth or adults, or arrested by law enforcement. The youth expressed interest in being able to access youth-specific guidance and services, including counseling for suicide prevention, teen pregnancy prevention, tobacco cessation, and alcohol and substance abuse support.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 979, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 979, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

SRep. 126 Agriculture on S.B. No. 584

The purpose and intent of this measure is to provide additional funding needed for improvements to irrigation systems throughout the State.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, Hawaii Cattlemen's Council, and Hawaii Farmers Union United. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that a reliable irrigation system is the lifeline of Hawaii's agricultural industry. To ensure that Hawaii's crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve Hawaii's irrigation systems. Your Committee further finds that the Department of Agriculture and the Hawaii Farm Bureau have identified and proposed eleven irrigation projects throughout the State that are in need of capital improvements.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$4,150,000 for fiscal year 2015-2016;
- (2) Adding an authorization for issuance of general obligation bonds and appropriation of \$3,800,000 for fiscal year 2016-2017;
- (3) Adding an additional authorization for issuance of general obligation bonds and appropriation of \$12,935,000 for fiscal year 2015-2016;
- (4) Designating eleven irrigation projects and funding allocations for capital improvements; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 584, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 584, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Slom).

SRep. 127 Agriculture on S.B. No. 1040

The purpose and intent of this measure is to require that all agricultural products sold at farmers' markets are displayed with a sign or label declaring the products' geographic origin.

Your Committee received comments on this measure from the Department of Agriculture and Hawaii Farm Bureau.

Your Committee finds that farmers' markets play an important role in Hawaii's communities by establishing and maintaining connections between consumers and local farms. Moreover, the consumption of locally produced agricultural products, when practicable, contributes significantly toward the goal set forth by the Hawaii 2050 Sustainability Plan to "increase production and consumption of local foods and products, particularly agricultural products." However, some outdoor markets purporting to be local farmers' markets sell imported agricultural products or agricultural products purchased from wholesalers. Furthermore, vendors are not required to disclose a product's geographic source of origin, thereby potentially misleading unassuming consumers.

Your Committee also finds that while it may be highly difficult for value-added products to contain all local ingredients because some ingredients cannot be sourced in Hawaii, consumers expect that all fresh produce sold at a local farmers' market is of local origin. Additionally, as raised in testimony, your Committee finds that the current definition of "geographic origin" in this measure may conflict with the federal Country of Origin Labeling (COOL) program requirements.

Accordingly, your Committee has amended this measure by:

- (1) Applying the labeling requirement only to fresh produce;
- (2) Amending the definition of "geographic origin" to only include the location where the fresh produce is grown; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1040, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 128 Agriculture on S.B. No. 1307

The purpose and intent of this measure is to provide tax relief for taxpayers engaged in kalo production.

Your Committee received testimony in support of this measure from Hawaii Farmers Union United Kona Chapter, Koolaupoko Hawaiian Civic Club, Hawaii Farmers Union United, Ai Pohaku, and thirty individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that kalo is an important historical and cultural crop and a wonderful food source for the people of Hawaii. Kalo production has declined in recent decades, and many kalo farmers are struggling to remain in production. Your Committee finds that a tax benefit would help to increase kalo production.

Your Committee also finds that the provisions of this measure that exempt kalo products from general excise and use taxes may be unnecessary. As raised in testimony, the provisions may be impossible to enforce based on Constitutional issues and may grant only a de minimis benefit to taxpayers.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 2, thereby removing the general excise tax exemption for kalo products;
- (2) Deleting section 3, thereby removing the use tax exemption for kalo products; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1307, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 129 Agriculture on S.B. No. 380

The purpose and intent of this measure is to improve food security and self-sufficiency in the State by encouraging the development and implementation of a whole system approach to agriculture in Hawaii through the establishment of an on-farm mentoring program within the Department of Agriculture.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association, Hawaii Farmers Union United, and three individuals. Your Committee received comments on this measure from the Department of Agriculture and Hawaii Farm Bureau.

Your Committee finds that the development of a whole system approach to agriculture in Hawaii that pays close attention to soil health, specifically increasing mineral availability and improving soil structure, water-holding capacity, crop health, and food nutrition levels, will lower water usage through deployment of green manure, compost, and cover crops; reduce crop loss from pest damage; and decrease weed pressure. This whole system approach to agriculture can improve food security and benefit the local economy through reducing production costs by promoting locally sourced inputs and the manufacturing thereof. Teaching a new generation of farmers to use this whole system approach will create an alternative method of farming that appeals to many young farmers across the State. Your Committee finds that currently there is a shortage of qualified teachers for these farm methods; therefore an on-farm mentoring program will fulfill this need by bringing the students to the farm and providing qualified farm mentors with funding.

Your Committee also finds that consideration should be given to whether the Department of Agriculture's role should be amended from housing the on-farm mentoring program to overseeing current mentoring programs. As raised in testimony, Go Farms may be an alternative to the on-farm mentoring program; however, Go Farms requires participants to enroll in college courses and is not present on the islands of Maui and Hawaii. Your Committee finds that although Go Farms is a great program, it benefits a different farmer than those who might benefit from the on-farm mentoring program. Therefore, your Committee encourages the Department of Agriculture to consult with Go Farms and all other relevant resources in order to support the on-farm mentoring program.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 380 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Slom).

SCRep. 130 Government Operations on S.B. No. 830

The purpose and intent of this measure is to require the Department of Human Resources Development, Department of Education, University of Hawaii System, Hawaii Health Systems Corporation, and Judiciary to report annually to the Legislature regarding personnel vacancies that existed in the previous year.

Your Committee did not receive any testimony on this measure.

Your Committee finds that it is important for the Legislature to be aware of personnel vacancies in certain state departments and agencies in order to assist the Legislature in understanding staffing and funding concerns.

Your Committee has amended this measure by:

- (1) Inserting language to ensure that each report captures vacancies that existed in a twelve-month period; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 830, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 830, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 131 Government Operations on S.B. No. 360

The purpose and intent of this measure is to promote familiarity with and utilization of the metric system by requiring its eventual use on all state or county signs that express a measurement of distance or speed.

Your Committee received testimony in opposition to this measure from the Department of Transportation; Centerscale Automation Hawaii, Inc.; and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that most countries use the metric system of measurements. Although there are a number of hardships associated with displaying both the United States customary system and the metric system, it is important to post measurements through both systems to better communicate measurements to users of both systems of measurement.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 360 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 132 Government Operations on S.B. No. 435

The purpose and intent of this measure is to require all publicly funded landscaping projects to include a minimum percentage of Hawaiian plants, in order to contribute to a Hawaiian sense of place, reduce the use of non-native invasive plant species, and support the preservation of Hawaii's cultural and ecological heritage.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Transportation, Judiciary, Office of Hawaiian Affairs, Association of Hawaiian Civic Clubs, Uhane Pohaku Na Moku O Hawaii, Kuaaina Ulu Auamo, Hawaii Farmers Union United, The Nature Conservancy, Hawaii Alliance for Community-Based Economic Development, Hawaii Green Growth, Alii Pauahi Hawaiian Civic Club, Coordinating Group on Alien Pest Species, Island STAR, Big Island Plants, Hookipa Network-Kauai, and thirty individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and State Procurement Office.

Your Committee finds that the use of native Hawaiian plants promotes a Hawaiian sense of place and works to preserve Hawaii's cultural and ecological heritage. The use of Hawaiian plants in public landscaping will help to reverse the rapid decline of ecologically important species and other native life that may depend upon them. The increased use of Hawaiian plants will also drive demand for such plants, benefitting local Hawaiian plant growers. For these reasons, it is important that the State make the use of Hawaiian plants in public landscaping a priority.

Your Committee has amended this measure by:

- (1) Deleting language that referenced the Hawai'i-Pacific weed risk assessment system;
- (2) Deleting language that provided exclusions from the total plant footprint for the purposes of calculating the required minimum percentages of the total plant footprint;
- (3) Deleting language that exempted landscaping associated with significant historical properties;
- (4) Inserting language to allow the head of the purchasing agency to determine exceptions to the required use of Hawaiian plants using procedures, standards, or guidelines established by the Procurement Policy Board; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 435, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 435, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 133 (Joint) Energy and Environment and Water and Land and Agriculture on S.B. No. 1046

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Land and Natural Resources to support invasive species prevention, control, research, outreach, and planning;
- (2) Appropriate funds to the Department of Agriculture to prevent the introduction of new pests to the State and to prevent the spread of pests between the islands; and
- (3) Appropriate funds to the Legislative Reference Bureau and require the Legislative Reference Bureau to update the economic and environmental components of its 2002 study on invasive species.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, Oahu Invasive Species Committee, Maui Invasive Species Committee, University of Hawaii, Hawaii Farm Bureau, Land Use Research Foundation of Hawaii, Nature Conservancy, Hawaii Green Growth, Hanalei Watershed Hui, Conservation Council for Hawaii, Hawaii Farmers Union United, Malama O Puna, and twenty-eight individuals. Your Committees received testimony in opposition to this measure from the State Procurement Office. Your Committees received comments on this measure from the Legislative Reference Bureau.

Your Committees find that the invasion of insects, disease-bearing organisms, snakes, weeds, and other pests is a major threat to the State's economy, natural environment, and health. A continued commitment to having the best possible understanding, science, plans, and capacity is necessary to maintain and enhance invasive species prevention and mitigation in Hawaii to effectively protect the State's natural resources and economy and the health and lifestyle of its people.

Your Committees have amended this measure by:

- (1) Limiting the Legislative Reference Bureau's required updates of its 2002 study on invasive species to the economic and other costs and health and safety components of the 2002 study; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment, Water and Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1046, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1046, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Water and Land

Ayes, 6. Noes, none. Excused, 1 (Slom).

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 134 Energy and Environment on S.B. No. 1227

The purpose and intent of this measure is to:

- (1) Prohibit generators of commercial organic material from disposing of, incinerating, or transferring solid waste to landfills, waste-to-energy facilities; and
- (2) Require all generators of commercial organic material to use alternative means of disposal.

Your Committee received testimony in support of this measure from Maui EKO Systems, Zero Waste Kauai, and five individuals. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from Pacific Biodiesel Technologies, Hawaii Food Industry Association, and Animal Rights Hawaii.

Your Committee finds that waste disposal is an issue of critical importance throughout the State. Even with current statewide policies, recycling efforts reduce only a fraction of the solid and liquid waste generated. Landfills are approaching or have already reached their maximum capacity, and the expansion of current landfills and relocation efforts are meeting widespread community opposition. The implementation of this measure will reduce the amount of waste entering the State's landfills and encourage alternative means of disposal.

Your Committee has amended this measure by:

- (1) Eliminating the prohibition on the transfer of solid waste to landfills, waste-to-energy facilities, or by incineration, in the State;
- (2) Replacing "solid waste" with commercial organic waste in section 342G- (a), Hawaii Revised Statutes;
- (3) Expanding means of disposal or transfer of waste to include biofuel production and thermal combustion of organic materials;
- (4) Amending section 1 to reflect the amended purpose of this measure;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1227, as amended herein, and recommends that it pass Second

Reading in the form attached hereto as S.B. No. 1227, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 135 Energy and Environment on S.B. No. 1272

The purpose and intent of this measure is to establish a temporary income tax credit for the cost of converting a cesspool to a septic system or an aerobic treatment unit system or connecting a cesspool to a sewer system.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Farm Bureau, The Nature Conservancy, and Hawaii Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Land Use Research Foundation of Hawaii.

Your Committee finds that contamination from cesspools poses a risk to the water quality in ocean water, surface water, and groundwater. Converting cesspools to septic systems or aerobic treatment unit systems or connecting cesspools to sewer systems will protect the quality of the State's nearshore waters and drinking water supplies. However, there are significant costs associated with cesspool conversion. Implementation of this measure will ease the financial burden associated with cesspool conversions and incentivize cesspool owners to convert their cesspool systems.

Your Committee has amended this measure by:

- (1) Requiring a taxpayer, to be eligible for a cesspool conversion tax credit, to obtain verification from the county agency responsible for issuing installation permits and approval from that county agency that the installation meets the requirements for the cesspool conversion tax credit;
- (2) Authorizing the Director of Taxation to require evidence of county verification and approval from a taxpayer to ascertain the validity of the claim for a cesspool conversion tax credit; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1272, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1272, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 136 (Joint) Energy and Environment and Agriculture on S.B. No. 359

The purpose and intent of this measure is to:

- (1) Increase the amount of the environmental response, energy, and food security tax collections to be deposited into the environmental response revolving fund, energy security special fund, and agricultural development and food security special fund; and
- (2) Make permanent the renaming of the environmental response tax to the environmental response, energy, and food security tax; the establishment of the agricultural development and food security special fund; amendments to the environmental response revolving fund and energy security special fund; and allocations of the environmental response, energy, and food security tax to the environmental response revolving fund, energy security special fund, energy systems development special fund, and agricultural development and food security special fund.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Health, University of Hawaii - Hawaii Natural Energy Institute, Board of Water Supply, Hawaii Farm Bureau, Renewable Energy Action Coalition of Hawaii, Ulupono Initiative, Nature Conservancy, and Blue Planet Foundation. Your Committees received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that the State is precariously dependent on imported food and energy. The environmental response, energy, and food security tax, also known as the barrel tax, is a vital revenue source that supports critical investments and initiatives in clean energy, local agricultural production, and environmental response. The implementation of this measure will reduce the State's dependence on imported fossil fuels and further the State's goals of food and energy self-reliance.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 359 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 137 (Joint) Energy and Environment and Agriculture on S.B. No. 583

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to research and develop methods for the prevention and treatment of macadamia felted coccid.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawaii; Hawaii Farmers Union United; Maui County Farm Bureau; Hawaii Farmers Union United, Kona Chapter; Hawaii Farm Bureau; Land Use Research Foundation of Hawaii; Hawaii Macadamia Nut Association; and twenty individuals. Your Committees received comments on this measure from Royal Hawaiian Orchards.

Your Committees find that macadamia nuts are among the top five grossing agricultural commodities in Hawaii. The State harvested an estimated forty-four million pounds in macadamia nut crop for the 2012-2013 crop year. The estimated farm value of macadamia nuts for that same year is \$35,200,000. In March 2005, the macadamia felted coccid was discovered on macadamia nut trees in south Kona, and infestations of macadamia felted coccid have now spread from south Kona to as far north as Honokaa. This insect can cause severe damage to macadamia nut trees when uncontrolled, and the macadamia felted coccid will continue to spread to other regions and counties of Hawaii if uncontrolled and devastate the macadamia nut industry. The implementation of this measure will assist in combating this insidious pest and protecting the health of the macadamia nut industry that is vital to the State.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 583 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 138 Energy and Environment on S.B. No. 1169

The purpose and intent of this measure is to:

- (1) Create a working group to review and discuss the findings and recommendations contained in the 2014 audit report of the Department of Health's glass advance disposal fee program; and
- (2) Require the working group to submit a written report to the Legislature prior to the Regular Session of 2016.

Your Committee received testimony in support of this measure from the Wine Institute, Hawaii Food Industry Association, and Hawaii Liquor Wholesalers Association. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that the findings and recommendations contained in the December 2014 audit report of the Department of Health's glass advance disposal fee program (Report No. 14-16) and the December 2014 study to identify local alternatives to shipping non-deposit glass out of the State (Report No. 14-17) can provide valuable guidance regarding the glass advance disposal fee program and non-deposit glass recycling. The implementation of this measure will facilitate discussion on how to effectively, economically, and efficiently handle glass recycling in the State.

Your Committee has amended this measure by:

- (1) Amending the composition of the working group by removing the State Auditor and adding one representative from Hawaii's food and beverage industry, one representative with non-deposit glass importation experience, and one representative with glass recycling experience;
- (2) Amending the duties of the working group to include developing solutions to address the findings and recommendations contained in the December 2014 study to identify local alternatives to shipping non-deposit glass out of the State (Report No. 14-17) and considering any other issues the working group deems appropriate, based on the findings and recommendations contained in the study; and
- (3) Amending the purpose section accordingly.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1169, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1169, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 139 Commerce and Consumer Protection on S.B. No. 40

The purpose and intent of this measure is to amend the law relating to licensing.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language which establishes the behavior analyst program within the Department of Commerce and Consumer Affairs and establishes licensing requirements for behavior analysts and assistant behavior analysts.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40, as amended herein, and recommends that it be recommitted to the Committee on Commerce and Consumer Protection, in the form attached hereto as S.B. No. 40, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Slom).

SCRep. 140 Education on S.B. No. 849

The purpose and intent of this measure is to provide funding for public charter schools facilities.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii Public Charter Schools Network, Malama Honua Charter School, Kamehameha Schools, Hawaii State Teachers Association, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General and the Department of Budget and Finance.

Your Committee finds that operational costs of facilities is one of the greatest challenges facing public charter schools in Hawaii. Operational funds have proven insufficient to cover all the costs associated with facilities acquisition, repair, and maintenance in addition to operational costs. Additional funding is needed to help meet the needs of start-up charter schools.

Your Committee has amended this measure by:

- (1) Adopting amendments proposed by the Department of the Attorney General to remove:
 - (A) Language authorizing the allocation of general obligation bonds irrespective of whether a specific project or purpose has been provided for in a legislative act; and
 - (B) Language requiring that monies appropriated for capital improvements for facilities for public charter schools be considered expended upon distribution to the State Public Charter School Commission;
- (2) Clarifying that the charter school facilities working group's role is in an advisory capacity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 849, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 849, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 141 Education on S.B. No. 1056

The purpose and intent of this measure is to attract qualified teachers to teach in schools in high need areas by establishing an incentive program that provides incremental loan repayment for teachers serving in high need areas of Hawaii for up to ten years and a scholarship grant program for individuals in graduate education programs who commit to teach in a high need area of Hawaii.

Your Committee received testimony in support of this measure from the Department of Education and Hawaii State Teachers Association.

Your Committee finds that it is particularly difficult to recruit and retain teachers to staff schools in high need areas. Due to the long term nature of student loans, the loan repayment program may attract a wide range of educators, from brand new graduates to teachers with several years of experience. The scholarship grant program may attract individuals new to the field of education, but may also attract seasoned teachers who have dreamed of pursuing an advanced degree, but felt that the financial burden put it out of reach. These incentives will staff high need schools with skilled and committed teachers.

Your Committee has amended this measure by:

- (1) Changing the scholarship grant amount from an amount up to \$5,000 to an amount up to fifty percent of tuition costs;
- (2) Removing the requirement for annual reports to be published by September 1, 2016, and every year thereafter; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1056, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1056, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 142 Education on S.B. No. 1278

The purpose and intent of this measure is to appropriate funds to the Board of Education to establish and maintain makerspaces and for the equipment, materials, and personnel necessary for the operation of makerspaces in public libraries statewide.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System, Hawaii Tech Exchange, and twelve individuals.

Your Committee finds that Hawaii's public libraries are community gathering places where learning happens, ideas are shared, and concepts are developed. Makerspaces fit within Hawaii's libraries as places where users can fabricate their designs and bring their concepts to life.

Your Committee further finds that the makerspace concept may inspire students to take an interest and gain confidence in the areas of science, technology, engineering, and mathematics which are all areas with vast opportunities for growth. The makerspace may create opportunities to bring together engineering and technology experts to work with students and provide hands on learning experiences in the community. Not only would the experience itself be valuable, but the possibilities for mentorship and networking could be equally important.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1278 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 143 Education on S.B. No. 821

The purpose and intent of this measure is to authorize a state income tax credit for certain expenses paid or incurred by school teachers, special education teachers, school librarians, and counselors for supplementary materials used in the classroom.

Your Committee received testimony in support of this measure from the Department of Education and IMUAlliance. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that public school teachers often spend substantial sums of their own income purchasing supplementary supplies and instructional materials for their classrooms. Whether purchasing art supplies, books, or supplies for students who come to school without any, school teachers make ends meet in their classrooms using their own resources. Establishing a tax credit for these expenses helps compensate teachers for the expenditures they make for the benefit of their classrooms and students.

Your Committee has amended this measure by changing the date for which the tax credit applies from taxable years beginning after December 31, 2014, to taxable years beginning after December 31, 2015.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 821, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 144 (Joint) Water and Land and Agriculture and Hawaiian Affairs on S.B. No. 774

The purpose and intent of this measure is to improve the protections for wetland taro lands (lo'i kalo) and traditional taro lands that retain historic structural evidence of lo'i kalo on undeveloped state-owned or -acquired conservation lands for Hawaii's long-term food security and well-being by:

- (1) Creating a classification of agricultural public lands entitled "taro lands"; and
- (2) Making an appropriation to the Board of Land and Natural Resources to create an inventory of lands classified as taro lands.

Your Committees received testimony in support of this measure from the Taro Security and Purity Task Force; Association of Hawaiian Civic Clubs; 'Ai Pohaku; E Kupaku Ka Aina; Hawaii Farmers Union United; Ho'okipa Network – Kauai; Hydroponics Alternatives LLC; Kipahulu Ohana, Inc.; Lyon Arboretum; PAN of North America; Hawaiian Land Restoration Institute; Koolau Hawaiian Civic Club; Aha Moku Advisory Committee; and eighteen individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources; Department of Agriculture; Voyaging Foods; and one individual.

This measure is a product of the Taro Security and Purity Task Force, established by Act 211, Session Laws of Hawaii 2008, to guide policy and research related to taro and taro farming, as well as to support the vitality, economic viability, and perpetuation of taro and taro farming in the State.

Your Committees find that access to affordable taro lands remains a major challenge for young taro growers striving for success, greater family food self-sufficiency, and community well-being. In 2009, the Taro Security and Purity Task Force found "no logical reason why we should continue to import any type of taro to meet local needs" and provided a series of recommendations for improving taro and taro farmer success.

In its 2010 and 2014 reports to the Legislature, the Taro Security and Purity Task Force recommended greater protections for wetland taro lands (lo'i), including their structural elements, such as terraces, kuauna or paepae pohaku (stone walls), and 'auwai (irrigation ditches) within the boundaries of the State's public conservation districts to help meet food security needs and to support community and cultural resilience in the face of the rising costs of imported food for local families. The Task Force also found that these key agricultural structures for wetland taro production are frequently destroyed, severed, and built upon due to gaps in land use designations, historic preservation records, planning, laws, and agency policies, making the need for improved taro land protections more urgent.

Your Committees further find that there is a compelling interest in preserving wetland taro lands and their supporting structures on public conservation lands under the jurisdiction of the Department of Land and Natural Resources for these purposes.

Your Committees note that two questions were raised during the hearing: whether to apply this measure to lands other than the conservation district and whether this measure should include dryland taro, as that species can be grown in a variety of areas, whereas wetland taro requires specific soils and conditions. Your Committees note that the Taro Security and Purity Task Force recommended that the focus be on conservation district lands rather than agricultural lands, and further recommended that this measure focus on preserving the fewer, more specific areas required for wetland taro cultivation.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 774 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 7. Noes, none. Excused, none.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Wakai).

Hawaiian Affairs

Ayes, 5. Noes, none. Excused, none.

SCRep. 145 Water and Land on S.B. No. 545

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for:

- (1) Watershed management projects;
- (2) Fire, natural disaster, and emergency response equipment; and
- (3) Forest and outdoor recreation improvements.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Oahu Invasive Species Committee; Big Island Invasive Species Committee; Department of Water, Kauai County; Coordinating Group on Alien Pest Species; The Nature Conservancy; Nu'u Mauka Ranch; Hawai'i Green Growth; Conservation Council for Hawai'i; Princeville Utilities Company, Inc.; Hi'ipaka LLC; Kaupō Ranch; Grove Farm Company; Lihue Land Company; Haleakalā Ranch; Ulupalakua Ranch; McBryde Sugar Company, LLC; The Kauai Watershed Alliance; Leeward Haleakalā Watershed Restoration Partnership; Ben Dyre Family Limited Partnership; Leeward Haleakalā Watershed Restoration Partnership; and fifteen individuals. Your Committee received testimony in opposition to this measure from The Society for Hawaii Heritage Animals and Hawaii Hunting Association.

Your Committee finds that forests help to increase resilience to drought conditions and natural disasters. The islands have experienced decades of reduced rainfall, changes in trade wind patterns, and higher temperatures. The quality, quantity, and sustainability of Hawaii's water supply depends upon healthy forested watersheds. Protecting forested watersheds is one of the Department of Land and Natural Resources' top priorities and an ongoing effort. With climate change accelerating a long-term decline in rainfall, forest protection has never been more urgent.

Your Committee further finds that additional resources are necessary for emergency response and preparedness for natural disasters. Events such as flooding, hurricanes, and wildfires are expected to increase in frequency and severity as climate change accelerates.

The Department of Land and Natural Resources, Division of Forestry and Wildlife is responsible for wildfire preparedness and response as well as assisting federal, state, and county agencies in emergencies and natural disasters. Hawaii's responders need access to new technologies to increase efficiency and effectiveness of detection and response to these types of natural disasters that affect natural environments as well as public safety.

Your Committee further finds that outdoor recreation, including use of trails and beaches, is central to Hawaii's visitor industry and valuable to Hawaii's residents. Statewide improvements are needed to address deteriorating conditions on trails, particularly high-use trails frequented by visitors. Development, particularly in rural areas, can restrict access to public lands for hiking, gathering, and hunting. Infrastructure improvements are necessary to improve access to allow people to connect with Hawaii's natural environment.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 545 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Riviere, Ruderman, Slom).

SCRep. 146 Water and Land on S.B. No. 629

The purpose and intent of this measure is to:

- (1) Establish a four-year irrigation water conservation best management practices pilot program, under which the Department of Accounting and General Services shall implement irrigation water conservation best management practices as established by the Landscape Industry Council of Hawaii;
- (2) Require the Department of Accounting and General Services to report to the Legislature regarding the pilot program; and
- (3) Make an appropriation to the Department of Accounting and General Services for the implementation of the pilot program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services. Your Committee received comments from Irrigation Hawaii Limited.

Your Committee finds that the pilot program under this measure will assist the State with water conservation and improve the efficiency of landscape irrigation installments at state facilities through low cost, practical measures.

Your Committee further finds that the best management practices established by the Landscape Industry Council of Hawaii were developed in close consultation with landscape professionals across the State and are recognized nationally as landscape industry

standards. Your Committee believes that by implementing best management practices, this measure will help reduce wasted drinking water, reduce run-off, and optimize plant health by applying the correct amount of water.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 629 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Riviere, Ruderman, Slom).

SCRep. 147 (Joint) Energy and Environment and Agriculture on S.B. No. 358

The purpose and intent of this measure is to:

- (1) Increase the amount of the environmental response, energy, and food security tax collections to be deposited into the environmental response revolving fund, energy security special fund, and agricultural development and food security special fund; and
- (2) Apply the environmental response, energy, and food security tax to all fossil fuels.

Your Committees received testimony in support of this measure from the Department of Health, Department of Agriculture, Hawaii Natural Energy Institute, Board of Water Supply, Hawaii Farm Bureau, Renewable Energy Action Coalition of Hawaii, Ulupono Initiative, Nature Conservancy, and Blue Planet Foundation. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; Tax Foundation of Hawaii; and Alexander & Baldwin, Inc.

Your Committees find that the State is precariously dependent on imported food and energy. The environmental response, energy, and food security tax, also known as the barrel tax, is a vital revenue source that supports critical investments and initiatives in clean energy, local agricultural production, and environmental response. The implementation of this measure will reduce the State's dependence on imported fossil fuels and further the State's goal of self-reliance.

Your Committees have amended this measure by:

- (1) Amending the definition of "distributor" by replacing "liquid fuel" with "fossil fuel";
- (2) Increasing the environmental response, energy, and food security tax to 17.5 cents per one thousand cubic feet or fractional part of a thousand cubic feet of natural gas or other gaseous fossil fuel and \$3.40 per short ton or fractional part of a short ton of coal or other solid fossil fuel;
- (3) Amending the environmental response, energy, and food security tax collected and deposited into the designated special and revolving funds to apply to units rather than barrels;
- (4) Amending the allocations of the environmental response, energy, and food security tax collected into the designated special and revolving funds to percentages, rather than fixed amounts, of the tax per unit;
- (5) Clarifying that if fossil fuel is distributed and resold one or more times, the initial distributor of the fossil fuel shall pay the environmental response, energy, and food security tax; and
- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 358, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 358, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 148 Education on S.B. No. 1098

The purpose and intent of this measure is to make amendments to the Hawaii Revised Statutes to accurately reflect long-standing Board of Education and Hawaii State Public Library System practice.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System.

Your Committee finds that, although chapter 312, Hawaii Revised Statutes, assigns various duties and responsibilities regarding state public libraries to the Board of Education, in practice, the State Librarian has carried out those duties and responsibilities. It is appropriate to amend statute to accurately place library-related duties within the purview of the State Librarian.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1098, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1098, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Kouchi, Nishihara).

SCRep. 149 Commerce and Consumer Protection on Gov. Msg. No. 506

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS

G.M. No. 506 CATHERINE AWAKUNI COLON, for a term to expire 12-3-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Catherine Awakuni Colón to possess the requisite qualifications to be nominated as the Director of Commerce and Consumer Affairs.

Your Committee received testimony in support of the nomination of Catherine Awakuni Colón from the Office of the Governor; Department of Transportation; Young Brothers, Limited; Hawaiian Telcom; Building Industry Association of Hawaii; Hawaii Pest Control Association; Locations LLC; Kaua'i Island Utility Cooperative; 'Ōlelo Community Media; Hō'ike Kaua'i Community Television, Inc.; Akakū Maui Community Media; and twenty-five individuals.

Upon review of the testimony, your Committee finds that Ms. Awakuni Colón's background, experience, and commitment to public service qualify her for appointment as the Director of Commerce and Consumer Affairs. Your Committee notes that for the last thirteen years, Ms. Awakuni Colón has served in various government roles affecting the area of commerce and consumer affairs. Ms. Awakuni Colón was a staff attorney for the Public Utilities Commission for over four years and later served more than two years as Chief Legal Counsel for the Commission. Through her work at the Public Utilities Commission, Ms. Awakuni Colón gained a thorough understanding of the regulatory process and complex energy issues faced by the Commission and the effect regulation and competition have on businesses and consumers.

Your Committee further finds that Ms. Awakuni Colón previously served as the Executive Director for the Division of Consumer Advocacy in the Department of Commerce and Consumer Affairs. In her role as Consumer Advocate, Ms. Awakuni Colón represented Hawaii consumers on a number of rapidly evolving regulatory issues in matters before the Public Utilities Commission and other agencies. Ms. Awakuni Colón also negotiated and executed the Hawaii Clean Energy Initiative, which has served as the foundation for the State's long-term efforts to reach energy independence.

Most recently, Ms. Awakuni Colón served as the Administrator of the Cable Television Division within the Department of Commerce and Consumer Affairs. In that role, Ms. Awakuni Colón and the Division partnered with public and private agencies to expedite broadband development and began work on a master plan for statewide Institutional Network development. Ms. Awakuni Colón's prior experience as the Consumer Advocate and Cable Television Division Administrator have enabled her to gain an intimate understanding of the operations of the Department of Commerce and Consumer Affairs and the Department's mission. Furthermore, Ms. Awakuni Colón's familiarity with the Public Utilities Commission has given her insight into the unique needs of the Commission. This will enable her to better support the Public Utilities Commission once the Commission's transition from the Department of Budget and Finance to the Department of Commerce and Consumer Affairs is complete during the summer of 2015.

Your Committee notes that Ms. Awakuni Colón's familiarity with the Department of Commerce and Consumer Affairs; the Department's diverse jurisdictional purview, administrative requirements, funding mechanisms; and the legislative process make her exceptionally prepared to serve as Director of the Department of Commerce and Consumer Affairs. Accordingly, your Committee recommends that Ms. Awakuni Colón be appointed as Director of Commerce and Consumer Affairs based on her extensive knowledge, background, and dedication to serving the public.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 150 (Majority) Health on S.B. No. 1036

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Health to improve the treatment of substance abuse and co-occurring mental health disorders by establishing a comprehensive and coordinated continuum of treatment services; and
- (2) Establish within the Department of Health a task force for addressing health care and payment reform to improve substance use disorder and co-occurring disorder treatment.

Your Committee received testimony in support of this measure from the Hawaii Substance Abuse Coalition, The Drug Policy Forum of Hawaii, Salvation Army Addiction Treatment Services and Family Treatment Services, Kū Aloha Ola Mau, CHOW Project, New Horizons, Action with Aloha, and seven individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that studies indicate that a small percentage of patients in the United States consume a disproportionate share of health care resources. Known as "super users", this one percent of the population consumes twenty-one percent of the nearly \$1,300,000,000,000 spent each year on health care nationwide, according to a 2013 report from the Agency for Healthcare Research and Quality. In Hawaii, it has been reported that about five percent of the Medicaid population accounts for about forty-nine percent of the State's annual health care costs. Considering the 2015 MedQuest budget, this means about 16,000 people on MedQuest cost over \$1,000,000,000.

Your Committee further finds that many super users do not have a regular physician, so whenever medical care is necessary they turn to the community hospital, which is often the most expensive and least efficient type of care for their needs. While the costly cycle of substance abuse is currently a financial burden on the State's health care system, it is also a treatable disease worthy of more attention and resources. Recent discoveries in the science of addiction have led to significant advances in drug abuse treatment that help people successfully manage their addiction and resume productive lives. Research shows that about seventy percent of addiction and mental health costs can be averted by effectively providing relevant treatment before the onset of more serious chronic conditions.

Furthermore, your Committee finds that according to 2004 data, about 84,000, or ten percent, of adults in the State need basic services for substance abuse. It is estimated that basic services for substance abuse average about \$4,000 per client, which totals \$336,000,000 in costs that is needed for the State to fund substance abuse services.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to \$336,000,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1036, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1036, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard, Riviere). Noes, 1 (Slom). Excused, 1 (Baker).

SCRep. 151 (Joint) Water and Land and Energy and Environment on S.B. No. 544

The purpose and intent of this measure is to authorize appropriations for watershed management; invasive species prevention, control, outreach, research, and planning; equipment for fire, natural disaster, and emergency response; and forest and outdoor recreation improvements.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Environmental Quality Control; Hawaii Farm Bureau; Land Use Research Foundation of Hawaii; Hawai'i Green Growth; Conservation Council for Hawai'i; The Nature Conservancy; Oahu Invasive Species Committee; Maui Invasive Species Committee; Big Island Invasive Species Committee; and six individuals.

Your Committees find that the Governor, Mayors of all the Counties, and the Chair of the Board of Trustees of the Office of Hawaiian Affairs have expressed their interest in accepting the Aloha+ Challenge. This measure provides funding to implement the natural resource management goals as stated in this measure. These items are essential to meet the Aloha+ Challenge and to keep Hawaii unique, improve the quality of life, health, and safety for Hawaii's residents and visitors, and maintain Hawaii's economy.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 544 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 1 (Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 152 (Joint) Water and Land and Energy and Environment on S.B. No. 1165

The purpose and intent of this measure is to:

- (1) Establish the Hawaiian Islands Humpback Whale National Marine Sanctuary program within the Department of Land and Natural Resources;
- (2) Establish the Papahānaumokuākea Marine National Monument program within the Department of Land and Natural Resources;
- (3) Establish the co-managed marine area special fund within the state treasury; and
- (4) Appropriate funds to the co-managed marine area special fund to initially support the programs to provide sufficient time for monies to be deposited into the special fund for the administration and management of the programs.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Environmental Quality Control; Office of Planning; Hawaii Pacific University Marine Mammal Stranding Program; Malama Maunaloa; Ocean Tourism Coalition; Marine Management Solutions LLC; Kua'aina Ulu 'Auamo; Hawaii National Marine Sanctuary Foundation; Hanalei Watershed Hui; Conservation Council for Hawai'i; The Nature Conservancy; Hawaiian National Communications Corporation; Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve Advisory Council; and sixteen individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the State has historically relied on the federal government to pay for state personnel performing duties relating to the State's co-management of the Hawaiian Islands Humpback Whale National Marine Sanctuary and the Papahānaumokuākea Marine National Monument. This situation has created a perception that a conflict of interest may prevent the federally funded state co-managers from adequately representing the interests of the State. Furthermore, for the past several years the

federal government has reduced funding for the state co-manager positions, and federal funding will be eliminated for the upcoming fiscal year.

Your Committees have amended this measure by clarifying the definition of “sanctuary program” to mean the state program that manages the sanctuary.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1165, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1165, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Sлом).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Sлом).

SCRep. 153 (Joint/Majority) Government Operations and Judiciary and Labor on S.B. No. 728

The purpose and intent of this measure is to encourage improvements in pay equity between men and women by:

- (1) Prohibiting public contractors from retaliating against employees for inquiring about, discussing, or disclosing wage information; and
- (2) Requiring public contractors and subcontractors who are awarded certain contracts to pay men and women equally for similar work and to report wages paid to employees by gender.

Your Committees received testimony in support of this measure from the Hawaii Civil Rights Commission. Your Committees received testimony in opposition to this measure from the Department of Accounting and General Services. Your Committees received comments on this measure from the Chamber of Commerce Hawaii and General Contractors Association of Hawaii.

Your Committees find that this measure creates a mode of enforcing law against discriminatory wage practices under certain public contracts. This measure is similar to the federal model implemented to combat wage discrimination under federal government contracts. The reporting requirements coupled with sanctions available under this measure will work to ensure pay equality under public contracts subject to this measure.

Your Committees have amended this measure by:

- (1) Removing language that provides an exception from mandated equal pay for similar work where such payment is made pursuant to a differential based on any factor other than gender; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 728, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 728, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations

Ayes, 3. Noes, 1 (Sлом). Excused, 1 (Tokuda).

Judiciary and Labor

Ayes, 4. Noes, 2 (Thielen, Sлом). Excused, 1 (Gabbard).

SCRep. 154 Education on S.B. No. 984

The purpose and intent of this measure is to reestablish an interagency working group based on Act 51, Session Laws of Hawaii 2004, with the overall goal of ensuring a standard level of service statewide.

Your Committee received testimony in support of this measure from the Department of Education and IMUAlliance. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services and one individual.

Your Committee finds that revisiting the requirements of Act 51, Session Laws of Hawaii 2004, is necessary to work out solutions to a backlog of facilities repair and maintenance concerns in neighbor island schools. Resources and geography make servicing neighbor island schools unique, but the Department of Education and Department of Accounting and General Services agree that dialogue is necessary to evaluate the outcomes of the Act 51 transfer of resources, identify current issues, and develop solutions.

Your Committee has amended this measure by:

- (1) Removing the requirement that the interagency working group submit a report in 2017; and
- (2) Changing the date the interagency working group will dissolve from June 30, 2017, to June 30, 2016.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 984, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 984, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Kouchi, Nishihara).

SCRep. 155 Education on S.B. No. 1215

The purpose and intent of this measure is to create a charter schools food service special fund and appropriate funds to meet the food service needs of the State's public charter schools.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii Public Charter Schools Network, Kamehameha Schools, and the Hawaii State Teachers Association. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that operational costs for facilities is one of the greatest challenges facing Hawaii public charter schools. Food service facilities, in particular, are lacking in many public charter schools. Additional support is necessary to develop adequate food service facilities to deliver school meals to public charter school students.

Your Committee has amended this measure by:

- (1) Adopting amendments proposed by the Department of the Attorney General to remove:
 - (A) Language authorizing the allocation of general obligation bonds irrespective of whether a specific project or purpose has been provided for in a legislative act;
 - (B) Language requiring that monies appropriated for capital improvements for facilities for public charter schools be considered expended upon deposit into the charter schools food service special fund; and
 - (C) Language requiring the deposit of proceeds of any general obligation bonds to be deposited into the food service special fund;
- (2) Allowing, rather than mandating, the State Public Charter School Commission to allocate funds based on the working group's recommendations and clarifying that the working group's role is advisory; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1215, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1215, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 156 (Joint) Human Services and Housing and Health on S.B. No. 964

The purpose and intent of this measure is to:

- (1) Appropriate funds for the kupuna care program and the aging and disability resource center;
- (2) Remove the requirement that the Alzheimer's Disease and Related Dementia Services Coordinator be appointed in accordance with chapters 76 and 89, Hawaii Revised Statutes, and appropriate funds for the Coordinator position;
- (3) Appropriate funds for elderly fall prevention and early detection services;
- (4) Appropriate funds for various senior centers so that kupuna can participate in activities to help them remain active, healthy, and independent in their community;
- (5) Appropriate funds to support the healthy aging partnership program; and
- (6) Establish and appropriate funds for an Alzheimer's Disease and Related Dementia Public Awareness Campaign.

Your Committees received testimony in support of this measure from the Executive Office on Aging, State Council on Developmental Disabilities, Department of Community Services, Maui County Office on Aging, Agency on Elderly Affairs, AARP Hawaii, Caring Transitions of Honolulu, Catholic Charities Hawaii, Hawaii Family Caregiver Coalition, Healthcare Association of Hawaii, Kaiser Permanente, Moiliili Community Center, Project Dana, The Queen's Health Systems, Zonta Club of Hilo, Prime Care Services Hawaii, Alzheimer's Association Aloha Chapter, International Longshore and Warehouse Union Local 142 Hawaii, PHOCUSED, Hawaii Primary Care Association, and thirty individuals.

Your Committees find that it is imperative that the State prioritize the health and well-being of Hawaii's kupuna and demonstrate significant efforts to support their needs. Census projections indicate that Hawaii's senior population will almost double between 2010 and 2020, with the highest percentage increase occurring in kupuna over the age of 85. To support the State's elderly population and minimize the potential financial strain of the aging population on the State, proactive efforts including education on fall prevention and Alzheimer's disease and dementia services, funding senior centers, and supporting the aging and disability resource center are necessary.

Your Committees have amended this measure by:

- (1) Changing the appropriation amount for the kupuna care program from \$5,100,000 to \$4,145,696;
- (2) Changing the appropriation amount for the aging and disability resource center from \$1,710,000 for fiscal year 2015-2016 and \$1,651,300 for fiscal year 2016-2017 to \$1,052,600 for each fiscal year; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 964, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 964, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 4. Noes, none. Excused, 1 (Slom).

Health

Ayes, 4. Noes, none. Excused, 3 (Baker, Gabbard, Slom).

SCRep. 157 Judiciary and Labor on S.B. No. 472

The purpose and intent of this measure is to:

- (1) Transfer the Office of Information Practices as an administratively attached agency of the Office of the Lieutenant Governor to the Department of Accounting and General Services;
- (2) Exempt the Office of Information Practices from certain laws requiring oversight by the Comptroller over the office, as an administratively attached agency, and authorize the Office of Information Practices to make direct communications with the Governor and Legislature and make all decisions regarding employment and purchase all supplies, equipment, and furniture without the approval of the Comptroller;
- (3) Clarify the employment status of attorneys employed by the Office of Information Practices and the civil service exemption for Office of Information Practices personnel; and
- (4) Appropriate an unspecified sum to the Department of Accounting and General Services for two additional positions to provide administrative support for the Office of Information Practices and other agencies administratively attached to the Department.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, Office of Information Practices, Common Cause Hawaii, Animal Rights Hawaii, and two individuals. Your Committee received comments on this measure from the Department of Accounting and General Services and Department of Human Resources Development.

Your Committee finds that existing law administratively attaches the Office of Information Practices to the Office of the Lieutenant Governor as a temporary office for a special purpose. This measure recognizes the Office of Information Practices as a permanent office by administratively attaching the Office to the Department of Accounting and General Services, thereby better complying with the constitutional requirement for permanent offices to be housed in one of the principal executive branch departments.

Your Committee notes and concurs with the supplemental oral testimony from the Office of Information Practices that in the event that this measure becomes law, the Comptroller should also not have the power to supervise or control the Office of Information Practices in the exercise of its functions, duties, and powers pursuant to section 26-35(a)(8), Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Deleting the exemptions that would allow the Office of Information Practices to make all decisions regarding employment and purchase all supplies, equipment, and furniture without the approval of the Comptroller;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 472, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 472, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 158 Judiciary and Labor on S.B. No. 364

The purpose and intent of this measure is to:

- (1) Establish a process for the recounting of ballots in an election that is decided by less than one thousand votes or one-half of one percent of all votes cast for the office, whichever is less; and
- (2) Repeal overages and underages and include other unlawful activity and force majeure as a basis for a contest for cause complaint that challenges an election result.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that existing law allows a complaint to be filed in the Hawaii Supreme Court to challenge an election result for cause. The complaint is required to set forth any cause, including but not limited to provable fraud, or overages or underages that

could cause a difference in the election results. This measure establishes a separate process for the recounting of ballots in the event of a close election result that requires the petitioning candidate to file a petition for a recount with the appropriate elections officer and have the petitioning candidate bear the cost of the recount depending upon the result of the recount.

Your Committee has amended this measure by:

- (1) Adding language that requires the petitioning candidate to file a petition for recount of the result of a primary election within three calendar days of that election;
- (2) Inserting an effective date of January 7, 2059; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 364, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 364, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 159 Judiciary and Labor on S.B. No. 243

The purpose and intent of this measure is to clarify the law regarding elections in the event of a natural disaster by:

- (1) Clarifying that the Chief Election Officer or County Clerk in the case of county elections prior to the day of election has the authority to determine whether to postpone an election affected by the natural disaster or require voters of an affected precinct to vote by absentee ballot; and
- (2) Authorizing the Governor on the day of election and thereafter to determine whether to postpone an election affected by the natural disaster or require voters of an affected precinct to vote by absentee ballot unless the Governor is a candidate for office in that election.

Your Committee received testimony in support of this measure from Common Cause Hawaii, American Civil Liberties Union of Hawaii, League of Women Voters of Hawaii, and one individual.

Your Committee finds that existing law authorizes the Chief Election Officer or County Clerk in the case of county elections to consolidate precincts in the event of a natural disaster and, if the natural disaster causes damage that substantially impairs voters' ability to vote, to require registered voters to vote by absentee ballot or postpone the conducting of an election in the affected area for no more than twenty-one days. This authorization was recently exercised in the County of Hawaii during the 2014 primary election. The decision by the Chief Election Officer to postpone the primary election in the polling places affected by Tropical Storm Iselle resulted in litigation and raised concerns regarding the Chief Election Officer's authority under law to postpone elections. This measure clarifies how elections are to be handled in the event of a natural disaster.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 243, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 160 (Majority) Judiciary and Labor on S.B. No. 248

The purpose and intent of this measure is to make the expenditure of trust funds for the compensation of public employees and contracts for services subject to appropriation and allotment.

Your Committee received comments on this measure from the Department of Budget and Finance and the University of Hawaii System.

Your Committee finds that testifiers expressed concern over how the provisions of this measure would be practically applied. Further, your Committee expressed concern over the lack of testimony from other agencies tasked with administering trust funds. Should your Committee on Ways and Means schedule this matter for further hearing, your Committee encourages other agencies to take that opportunity to offer comments or testimony on this measure.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 248, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 248, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 161 Judiciary and Labor on S.B. No. 147

The purpose and intent of this measure is to:

- (1) Establish procedural and administrative requirements for law enforcement to conduct eyewitness identifications, including photo and live lineups and showups, of suspects in criminal investigations;

- (2) Grant a defendant the right to challenge an eyewitness identification to be used at trial in a pretrial evidentiary hearing;
- (3) Establish factors for the court to consider when determining eyewitness identification contamination and the admissibility of such evidence;
- (4) Establish jury instructions when the court determines that the eyewitness identification is admissible; and
- (5) Require county police departments to develop and administer and require law enforcement officers and recruits to attend training programs regarding eyewitness identification practices and procedures.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Community Alliance on Prisons, American Civil Liberties Union of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; and Office of the Prosecuting Attorney, County of Hawaii. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that this measure establishes uniform procedures under which eyewitnesses to crimes are asked to identify suspects. The Office of the Public Defender testified that the current procedures used by law enforcement agencies, including those used by the Honolulu Police Department, are in need of reform to reduce the chances of erroneous eyewitness identifications.

Your Committee notes the concerns raised by the Department of the Prosecuting Attorney of the City and County of Honolulu that codifying eyewitness identification standards may prevent eyewitness identifications from being reviewed under a totality of the circumstances. Furthermore, the Department indicated that Hawaii case law addresses when specific jury instructions pertaining to eyewitness identification are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Adopting minimum procedural and administrative requirements for law enforcement to conduct eyewitness identifications, including:
 - (A) Information that law enforcement is required to provide to an eyewitness;
 - (B) Requirements to prevent law enforcement from contaminating eyewitness identifications;
 - (C) Requirements for law enforcement to use fillers for any photo or live lineup; and
 - (D) Requirements for law enforcement to conduct showups;
- (2) Deleting language that grants a defendant the right to challenge an eyewitness identification to be used at trial, and factors for the court to consider when determining eyewitness identification contamination and the admissibility of such evidence;
- (3) Deleting language that requires county police departments to develop and administer training programs regarding eyewitness identification procedures and inserting language that requires the Attorney General to establish uniform statewide witness identification procedures;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 147, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 147, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 162 Judiciary and Labor on S.B. No. 1072

The purpose and intent of this measure is to provide an emergency appropriation of \$1,100,000 in general revenues to the Department of the Attorney General for fiscal year 2014-2015 to fund contracts to retain expert counsel, expert witnesses, and other legal services.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that the Department of the Attorney General anticipates incurring several major litigation expenses for the retention of expert witnesses and specialized legal counsel. These expenses include expenses to defend the State against claims for money damages in several large, one-time only class action lawsuits and investigating and prepare for filing a suit to recover funds to repair and restore damage in and around Honolulu Harbor resulting from the September 2013 molasses spill. This measure will supplement the normal annual litigation budget used by the Department of the Attorney General to fund litigation expenses.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1072 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 163 (Joint) Tourism and International Affairs and Economic Development and Technology on S.B. No. 1288

The purpose and intent of this measure is to establish the Hawaii Pacific Small Business Consortium to help small businesses obtain government contracts and to develop business opportunities for small businesses by combining their resources to offer services and solutions to the federal, state, and county governments and the commercial sector.

Your Committees received comments on this measure from the Department of Budget and Finance; Department of Business, Economic Development, and Tourism; and Hawaii Procurement Technical Assistance Center.

Your Committees find that a vibrant small business environment is essential to a healthy economy, and your Committees support efforts to provide greater resources and business opportunities to Hawaii's small businesses.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1288, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1288, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and International Affairs

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Economic Development and Technology

Ayes, 6. Noes, none. Excused, 1 (Espero).

SCRep. 164 (Joint) Tourism and International Affairs and Economic Development and Technology on S.B. No. 721

The purpose and intent of this measure is to promote economic development. More specifically, this Act:

- (1) Establishes an innovative business interaction program under the Department of Business, Economic Development, and Tourism to increase the opportunity for interaction between innovative business investors and innovative business talent from out-of-state and in-state; and
- (2) Increases the transient accommodations tax revenues deposited into the tourism special fund to provide funds for the program.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; and Hawaii Tourism Authority. Your Committees received testimony in opposition to this measure from the State Procurement Office. Your Committees received comments on this measure from the Tax Foundation of Hawaii and Department of Budget and Finance.

Your Committees find that innovative business growth in Hawaii requires relationships to be established between investors and innovative talent through opportunities that allow for capital and talent to interact. Opportunities need not occur at trade, scientific, commercial, or technology-focused events, and Hawaii has hosted events that may serve as the foundation for innovative business interaction. Your Committees further find that the State should contract with the organizer of an annual event in Hawaii to add a component that encourages the interaction of innovative business investors and talent.

Your Committees also find that, as raised in testimony, some of the proposed statutory language in section 2 of this measure may be unnecessarily restrictive of competition and contrary to the Hawaii Administrative Rules.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language in section 2 that established minimum qualification criteria for the event organizer, and thereby requiring the contract to be awarded in accordance with chapter 103D, Hawaii Revised Statutes, without further restrictions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 721, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 721, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and International Affairs

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Economic Development and Technology

Ayes, 6. Noes, none. Excused, 1 (Espero).

SCRep. 165 Transportation on S.B. No. 935

The purpose and intent of this measure is to require that a driver's license issued to a person who is seventy-one years of age or older expire on the licensee's seventy-ninth birthday or two years from the date of the issuance of the license, whichever is later.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that older drivers vary greatly in their ability to drive. This measure is intended to level the playing field while preserving public safety.

Your Committee has amended this measure by:

- (1) Blanking out the specified age at which the expiration requirements shall apply;
- (2) Changing the effective date to July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 935, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Kouchi, Slom).

SCRep. 166 Transportation on S.B. No. 769

The purpose and intent of this measure is to:

- (1) Require the Director of Transportation to conduct a study examining the feasibility of establishing a fifth lane of travel on the ocean side of Farrington Highway in Nanakuli from Kahe Point to Mohihi Street, to be used for contraflow during rush hour and requiring relocation of the existing railroad;
- (2) Require the Director of Transportation to report to the Legislature prior to the 2016 Regular Session on findings and recommendations of the feasibility study; and
- (3) Make an appropriation to the Department of Transportation to conduct the study.

Your Committee received testimony in support of this measure from the Department of Transportation, Hydroponics Alternatives LLC, and four individuals. Your Committee received testimony in opposition to this measure from the Hawaiian Railway Society, Historic Hawaii Foundation, and one individual. Your Committee received comments on this measure from two individuals.

Your Committee finds that the ocean side of Farrington Highway in Nanakuli from Kahe Point to Mohihi Street is congested at most times of the day and at rush hour can result in gridlock, which poses a public safety hazard as well as an inconvenience to commuters.

Your Committee has amended this measure by:

- (1) Adding language to require the Director of Transportation to include in conducting the feasibility study alternatives to establishing a fifth lane of travel in Nanakuli from Kahe Point to Mohihi Street;
- (2) Increasing the appropriation amount to \$500,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 769, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 769, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 3 (Espero, Kouchi, Slom).

SCRep. 167 Transportation on S.B. No. 1041

The purpose and intent of this measure is to authorize the issuance of Haleakala National Park special license plates to any owner of a passenger motor vehicle, who is a resident of the State, for the owner's passenger motor vehicle to observe the importance of Haleakala National Park in Hawaii.

Your Committee received testimony in support of this measure from the office of the Mayor of the County Of Maui, Hawai'i Pacific Parks Association, Hawai'i Volcanoes National Park, and five individuals. Your Committee received comments on this measure from the National Park Service.

Your Committee finds that Haleakala National Park preserves the natural and cultural resources and values of Haleakala and its surrounding areas for the enjoyment, education, and inspiration of current and future generations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1041, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1041, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 3 (Espero, Kouchi, Slom).

SCRep. 168 Transportation on S.B. No. 1254

The purpose and intent of this measure is to authorize issuance of general obligation bonds for relocation of the Clear Channel broadcast antenna, including design and construction, equipment and appurtenances, and ground and site improvements near the Honolulu Harbor.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that to enhance the safety and operations of the Department of Transportation, it is vitally important to relocate the Clear Channel broadcast antenna in order to provide a safe flight plan in the case of a "one engine inoperable" scenario. This measure would also allow for additional capacity at Honolulu Harbor by increasing harbor traffic as a result of limiting obstructions to flight paths.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1254 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Espero, Kouchi, Slom).

SCRep. 169 Transportation on S.B. No. 1233

The purpose and intent of this measure is to make an appropriation for a federal inspection station at Kona International Airport.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Tourism Authority; Office of the Mayor, County of Hawai'i; ILWU Local 142; Hawaiian Airlines; Airlines Committee of Hawaii; and two individuals.

Your Committee finds that a new building, to serve as a federal inspection station at Kona International Airport, will replace a structure that no longer meets United States Customs and Border Protection technical standards, and will provide the State with a second international port of entry. Another port of entry will significantly increase the State's ability to respond to growth in international arrivals.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1233 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Espero, Kouchi, Slom).

SCRep. 170 Transportation on S.B. No. 345

The purpose and intent of this measure is to:

- (1) Raise the age from twelve to eighteen for passengers permitted to ride in the bed of a pickup truck under certain conditions; and
- (2) Deem passengers in the bed of a pickup truck to have assumed the risk of injury or death from an accident or injury occurring while the vehicle is in operation.

Your Committee received testimony in support of this measure from the Department of Health, Honolulu Police Department, Safe Community of Maui, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that the most effective means for preventing truck bed injuries and fatalities is to prohibit any passengers, and especially minors, from riding in the cargo area of pickup trucks. Pickup truck beds are not designed or equipped with safety devices for carrying passengers. The passage of this measure would prohibit those eighteen years of age and under from riding in the bed of a pickup truck, helping to ensure their safety.

According to testimony of the Department of Health, there are no national safety standards that support securing passengers in the bed of pickup trucks. As a result, passengers riding in the bed of pickup trucks are at an increased risk of death and serious injury.

Your Committee has amended this measure by changing the age of persons prohibited from riding in the bed of pickup trucks to persons under the age of eighteen rather than persons age eighteen or under.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 345, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 345, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (English). Noes, none. Excused, 4 (Dela Cruz, Kidani, Kouchi, Slom).

SCRep. 171 (Joint) Agriculture and Energy and Environment on S.B. No. 312

The purpose and intent of this measure is to provide funding for the Department of Agriculture to complete the implementation and continue the operation of its biosecurity programs.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Land Use Research Foundation of Hawaii, Hawaii Farmers Union United, Hawaii Farm Bureau, Maui County Farm Bureau, Coordinating Group on Alien Pest Species, Nature Conservancy, Hawaii Farmers Union United Kona Chapter, Hawaii

Agriculture Resource Center, Hawaii Floriculture and Nursery Association, Conservation Council for Hawaii, Hawaii Farmers Union United HTF, and twenty-two individuals.

Your Committees find that despite the State's ongoing efforts to detect and eradicate invasive species, our fragile island ecosystems are constantly at risk from insects, disease-bearing organisms, snakes, weeds, and other invasive pests. Your Committees further find that the Department of Agriculture has created a biosecurity program to fight invasive species on several fronts by:

- (1) Administering pre-entry measures to minimize the risk of invasive species entering the State;
- (2) Conducting port-of-entry inspections to detect and quarantine or destroy pests upon arrival; and
- (3) Administering post-entry measures to mitigate the establishment of invasive species within the State.

To encourage continued efforts to fight invasive species, your Committees find that it is necessary to provide funding to support biosecurity programs.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 312, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 312, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 172 Energy and Environment on S.B. No. 1047

The purpose and intent of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds to assist Pelatron Q, LLC, with the development of waste-to-energy power plants that use its patented plasma gasification and vitrification process for waste management and energy production in Hawaii.

Your Committee received testimony in support of this measure from Hawaii Construction Alliance; Pelatron Q, LLC; and PVT Land Company. Your Committee received testimony in opposition to this measure from Zero Waste Kauai. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Pelatron Q, LLC, offers sustainable solutions for the generation of renewable energy and waste management through the development of waste-to-energy power plants. Pelatron Q, LLC's power plants use a patented plasma gasification and vitrification process that produces clean renewable energy by taking locally produced municipal solid waste and other material that was previously disposed of in the State's landfills and converting the waste into a synthetic gas used to generate electricity that can be exported to the grid. Implementation of this measure will reduce the State's carbon footprint, reduce the environmental impact of landfilling waste, and add living-wage jobs to the State's economy.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1047, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1047, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 173 Energy and Environment on S.B. No. 1042

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist SunStrong LLC, a renewable energy developer, in the provision of electric energy and installation of renewable energy projects in Hawaii.

Your Committee received testimony in support of this measure from SunStrong LLC. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that there is an increasing focus on acquiring renewable sources of energy due to global fossil fuel prices and concerns regarding the State's energy security. The State is extremely well-situated to harness strong trade winds and abundant sunlight to provide renewable energy, and SunStrong LLC has considerable experience in installing renewable energy projects. The implementation of this measure will further the State's clean energy goals by increasing renewable energy and supporting the installation of renewable energy projects in the State.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 174 Energy and Environment on S.B. No. 619

The purpose and intent of this measure is to extend the lapsing date to issue special purpose revenue bonds to Honolulu Seawater Air Conditioning, LLC, from June 28, 2015, to June 30, 2020.

Your Committee received testimony in support of this measure from Ulu pono Initiative, Blue Planet Foundation, and Honolulu Seawater Air Conditioning, LLC.

Your Committee finds that traditional air conditioning systems consume massive amounts of electricity. Seawater air conditioning uses cool seawater, rather than electricity, to cool buildings. Throughout the world, seawater air conditioning technology has replaced the energy-intensive central refrigeration system of a traditional air-conditioning system. Implementation of this measure will improve energy and fresh water conservation, which is critical to the State's economy and sustainability.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 619 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 175 Energy and Environment on S.B. No. 750

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Anaergia Incorporated with the development of facilities for renewable nonfossil fuel energy production in Maui.

Your Committee received testimony in support of this measure from Ulu pono Initiative; Anaergia Services, LLC; and eleven individuals. Your Committee received testimony in opposition to this measure from Zero Waste Kauai and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that Anaergia Incorporated, a global leader in renewable energy and waste-to-energy conversion, proposes to build, own, and operate a project located in central Maui that is designed to process up to seven hundred tons per day of municipal solid waste, green waste, and sewage sludge. The development of renewable, efficient, and secure energy systems in the State, which is geographically isolated from sources of oil, continues to be in the public interest. Implementation of this measure will create new jobs and reduce waste and transportation costs while furthering the State's renewable energy goals.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 750 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 176 Energy and Environment on S.B. No. 618

The purpose and intent of this measure is to extend the lapsing date to issue special purpose revenue bonds to assist Honolulu Seawater Air Conditioning, LLC, in building seawater air conditioning projects on Oahu from June 30, 2015, to June 30, 2020.

Your Committee received testimony in support of this measure from Ulu pono Initiative, Blue Planet Foundation, and Honolulu Seawater Air Conditioning, LLC.

Your Committee finds that traditional air conditioning systems consume massive amounts of electricity. Seawater air conditioning uses cool seawater, rather than electricity, to cool buildings. Throughout the world, seawater air conditioning technology has replaced the energy-intensive central refrigeration system of a traditional air-conditioning system. Implementation of this measure will improve energy and fresh water conservation, which is critical to the State's economy and sustainability.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 618 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 177 (Joint) Energy and Environment and Government Operations on S.B. No. 711

The purpose and intent of this measure is to prohibit the expenditure of state funds by state agencies for the purchase of single-serving bottled water, except under certain circumstances.

Your Committees received testimony in opposition to this measure from the Department of Education and International Bottled Water Association. Your Committees received comments on this measure from the Department of Health.

Your Committees find that there is a need to reduce the use of disposable plastics in the State. However, state agencies need to be able to purchase bottled water in certain circumstances, including emergency or natural disaster situations. The implementation of this measure will prohibit the expenditure of state funds by state agencies for the purchase of single-serving bottled water, except under certain circumstances.

Your Committees have amended this measure by expanding the exception to the prohibition on the expenditure of state funds to purchase single-serving bottled water to allow for the purchase of single-serving bottled water in circumstances pertaining to public health and safety preparedness.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 711, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 711, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 178 Commerce and Consumer Protection on S.B. No. 1094

The purpose and intent of this measure is to update title 24 of the Hawaii Revised Statutes, relating to insurance.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure makes fees under title 24, Hawaii Revised Statutes, consistent for applications and services provided by the Insurance Division of the Department of Commerce and Consumer Affairs to purchasing groups, foreign risk retention groups, insurers subject to chapter 431, Hawaii Revised Statutes, fraternal benefit societies, mutual benefit societies, health maintenance organizations, and dental insurers. This measure also enables the Insurance Division to recover certain administrative costs associated with the applications process and services provided by the Division and makes other technical amendments within title 24, Hawaii Revised Statutes, for clarity and consistency.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1094, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Slom).

SCRep. 179 Commerce and Consumer Protection on S.B. No. 1338

The purpose and intent of this measure is to:

- (1) Enable the Hawaii Health Connector (Connector) to offer large group coverage to insurers;
- (2) Require insurer participation in the Connector if an insurer has a share of the small group market in the State that exceeds twenty percent;
- (3) Expand the potential small businesses market in the Connector by amending the current definition of "small employer" under section 431:2-201.5, Hawaii Revised Statutes;
- (4) End transitional renewal policies, beginning January 1, 2016; and
- (5) Require health insurers to provide notice to group health plans offering continuation coverage about options to secure affordable coverage under the Connector.

Your Committee received testimony in support of this measure from the Hawai'i Health Connector and Hawai'i Primary Care Association. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure offers a number of options to strengthen the Connector, including enabling the Connector to offer large group coverage to insurers and changing the definition of "small employers" in Hawaii from fifty employees to the nationally accepted threshold of one hundred employees. These options will encompass a greater number of businesses in the State, which will provide for a stronger Connector and a better marketplace for consumers.

Your Committee further finds that transitional renewal policies, also known as grandmothers health plans, do not provide all of the features and protections of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act). Ending transitional renewal policies on January 1, 2016, as proposed by this measure, will simplify health plan choices for individuals and small businesses and will ensure that all plans offered in Hawaii are fully compliant with the Affordable Care Act.

Your Committee additionally finds that it is important that individuals on unemployment be made aware of potential savings through programs that provide tax credits and other cost-sharing reductions that may lower the overall price of health care. Accordingly, this measure requires health insurers to provide notice to group health plans offering continuation coverage about options to secure affordable coverage under the Connector.

Your Committee has heard the concerns that requiring an insurer who has over twenty percent of the small group market to participate in the Connector's small business health options program (SHOP) may place that insurer at a competitive disadvantage against other insurers who are not subject to the twenty percent market share threshold. Your Committee has also heard testimony that required participation in SHOP may raise certain constitutional concerns. Your Committee therefore concludes that amendments to the required participation provisions in this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required insurer participation in the Hawaii Health Connector if an insurer has a share of the small group market in the State that exceeds twenty percent;
- (2) Inserting an effective date of July 1, 2020, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1338, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1338, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Slom).

SCRep. 180 Commerce and Consumer Protection on S.B. No. 1341

The purpose and intent of this measure is to provide resources to develop a waiver from certain provisions of the federal Patient Protection and Affordable Care Act of 2010.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Human Resources Development, Hawai'i Primary Care Association, Healthcare Association of Hawaii, The Queen's Health Systems, Hawaii Medical Service Association, League of Women Voters of Hawaii, and Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that this measure amends the scope of the State Innovation Waiver Task Force, established by Act 158, Session Laws of Hawaii 2014, to conform with the requirements of section 1332 of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act), relating to state innovation waivers. The Affordable Care Act waiver is an important tool that allows states to amend provisions of the Affordable Care Act to better support unique circumstances that exist in each state's health care market.

Your Committee further finds that a state innovation waiver is particularly important for Hawaii, which has already benefited from the success of the Prepaid Health Care Act. Supporting the State Innovation Waiver Task Force will enable Hawaii to remain at the forefront of health policy innovation, comply with the Affordable Care Act, ensure the Prepaid Health Care Act coexists and complements the Affordable Care Act, and improve the overall functioning of the State's health care system.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1341, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1341, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Slom).

SCRep. 181 Economic Development and Technology on S.B. No. 1157

The purpose and intent of this measure is to change the Starlight Reserve Advisory Committee from a temporary committee to a permanent committee.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; University of Hawaii System; and Starlight Reserve Advisory Committee. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs.

Your Committee finds that the original purpose of establishing the Starlight Reserve Advisory Committee was to develop and help implement a statewide strategy that would reduce nighttime light pollution with the long-term goals of preserving Hawaii's night sky for astronomical studies, protecting endangered species, and reducing nighttime energy consumption. Achievement of these goals requires the ongoing and coordinated efforts of the institutions represented on the Starlight Reserve Advisory Committee.

Your Committee has amended this measure by:

- (1) Amending the Starlight Reserve Advisory Committee's membership to include the Administrator of the Office of Hawaiian Affairs or the Administrator's designee, rather than the Chairperson of the Office of Hawaiian Affairs or the Chairperson's designee; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1157, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1157, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Dela Cruz, Harimoto).

SCRep. 182 Economic Development and Technology on S.B. No. 12

The purpose and intent of this measure is to entitle a separate line item to the Small Business Regulatory Review Board within the budget of the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Building Industry Association of Hawaii; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; and Hawaii Business League. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and the Office of Information Practices.

Your Committee finds that the Small Business Regulatory Review Board provides practical feedback on certain administrative rules that may affect small businesses and their employees. Your Committee further finds that small businesses account for the majority of all employers in the State and currently employ more than half of the State's private sector workforce. Since 1998, the Small Business Regulatory Review Board has reviewed approximately six hundred thirty state rules. A budget line item for operational expenses may provide board members the opportunity to more carefully and systematically plan future board activities.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 12 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 183 Economic Development and Technology on S.B. No. 634

The purpose and intent of this measure is to renew support of commercial high technology growth and development in Hawaii by reestablishing the High Technology Innovation Corporation.

Your Committee received testimony in support of this measure from the High Technology Development Corporation. Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that the Legislature created the High Technology Innovation Corporation in 2005 to facilitate state-based growth and development of commercial high technology. The High Technology Innovation Corporation's duties included managing the assets and resources of the High Technology Development Corporation as well as planning, creating, and implementing any programs and projects assigned by the High Technology Development Corporation. The High Technology Innovation Corporation's duties further included identifying and obtaining funding and other resources in support of the High Technology Innovation Corporation and the High Technology Development Corporation from agencies not able to provide resources directly to the High Technology Development Corporation; and assisting the High Technology Development Corporation strategically and operationally in support of the State's technology-based economic development activities. In 2013, the High Technology Innovation Corporation was not extended by the Legislature, and the program accordingly ended.

Your Committee finds that balancing the competing interests of applicants for state government contracts is essential to the effective and sustainable reestablishment of the High Technology Innovation Corporation. Your Committee finds that this balance is attained by amending the composition of the High Technology Innovation Corporation Board of Directors to include the Administrator of the Hawaii State Procurement Office.

Your Committee has amended this measure by:

- (1) Amending the composition of the High Technology Innovation Corporation Board of Directors to include the Administrator of the Hawaii State Procurement Office; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 634, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 634, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 184 Economic Development and Technology on S.B. No. 1003

The purpose and intent of this measure is to provide matching funds for Phase II and Phase III grants of the federal Small Business Innovation Research Program to encourage and enable small companies to commercialize new technologies more effectively.

Your Committee received testimony in support of this measure from the High Technology Development Corporation; Makai Ocean Engineering, Inc.; Oceanit Laboratories, Inc.; and Ibis Networks.

Your Committee finds that the Hawaii small business innovation research program has been instrumental in supporting Hawaii businesses who win coveted federal research and development funding through the federal Small Business Innovation Research Program. The Hawaii program has also assisted Hawaii businesses in efforts to further develop their intellectual property. However, the program is currently limited to providing matching funds for Phase I awards, which in turn means that local businesses are limited from fully commercializing and translating their research into economic gains and job opportunities. This measure would enable the Hawaii small business innovation research program to supplement federal funding for companies who are awarded federal grants to develop new technologies through prototyping, customer interface modeling, and innovational production.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1003 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 185 Water and Land on S.B. No. 1200

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the design and construction of a small boat harbor in South Puna.

Your Committee received testimony in support of this measure from the Laakea Community LLC and six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Puna is the fastest growing district in the county of Hawaii, with a population of 45,326, according to the 2010 United States census, and is expected to grow to approximately 75,000 by 2030. Puna is also becoming increasingly popular as a tourist attraction as it is near Hawaii Volcanoes National Park and is a world renowned destination for ecotourism and personal development opportunities.

Your Committee further finds that the district of Puna needs a new small boat harbor to service residents, particularly those living south of the anticipated lava flows. Lava flow is incredibly unpredictable, leaving Puna residents in constant fear of their community being cut off from supplies and services. Currently, the Puna coast has only one option, Pohoiki Boat Ramp, which is too small for commerce. The closest commercial harbor to Puna is Hilo Harbor, a trip that takes approximately six to eight hours round trip from South Puna and requires a great amount of fuel.

Your Committee has amended this measure by:

- (1) Amending the purpose of the authorization for the issuance of general obligation bonds to the conducting of a feasibility study for a small boat harbor in South Puna; and
- (2) Removing language in the purpose section relating to how long the construction of a harbor would take.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1200, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1200, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 186 Water and Land on S.B. No. 313

The purpose and intent of this measure is to make an appropriation for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Waiakea Soil and Water Conservation District; Hawaii Farm Bureau; Maui County Farm Bureau; Larry Jeffs Farms, LLC; Ponoholo Ranch, Ltd; Hawaii Crop Improvement Association; Hydroponics Alternatives LLC; 'Ohulehule Forest Conservancy, LLC; Hawaii Cattlemen's Council; Monsanto Hawaii; Island Princess Macadamia Nut Company; South Oahu Soil and Water Conservation District; Hawaii Association of Conservation Districts; and nine individuals. Your Committee did not receive any testimony in opposition to this measure.

Your Committee finds that soil and water conservation districts have worked to improve Hawaii's environment and economy through major projects over the past sixty years, such as improving farm practices, reducing erosion, augmenting ocean water quality, improving drinking water quality, and fighting invasive species. In addition, the districts assist with reviewing each county's grading permits and conservation plans that are critical to proper county grading permit reviews, preserving the environment, stimulating the economy, and maintaining individual livelihoods. Soil and water conservation districts also provide educational and community support for conservation awareness, including introducing elementary school students to conservation principles and participating in high school resource conservation and development projects.

Your Committee further finds that the demand and accompanying workload of the conservation districts have increased dramatically with population growth and land use changes. The districts receive hundreds of requests for conservation plans and county grading permit reviews each year. As a result, districts are currently struggling to keep pace with the demand, and adequate funding for the work of the Hawaii Association of Conservation Districts is in serious jeopardy at a time of critical demand for its services.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 313 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Riviere, Ruderman, Slom).

SCRep. 187 (Joint) Water and Land and Higher Education and the Arts on S.B. No. 204

The purpose and intent of this measure is to appropriate funds to the University of Hawaii sea grant college program to create a North Shore beach management plan for the north shore of Oahu stretching from the Kawailoa to Waiale'e ahupua'a.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i Sea Grant College Program, Hawaii Shore and Beach Preservation Association, and one individual.

Your Committees find that it is necessary for the State to improve the understanding and management of beach resources along the fifteen-mile stretch of coastline from Haleiwa through Sunset Beach, which is of primary importance to state residents and visitors from around the world for its beautiful beaches, world class surf breaks, and marine resources.

A recent study by researchers from the University of Hawaii and the United States Geological Survey finds the 73 percent of beaches along the north shore of Oahu are undergoing a long-term trend of beach erosion and shoreline retreat. The threat of seasonal erosion and inundation during large waves may be an even greater hazard along many north shore beaches. Management and conservation of north shore beaches is further challenged by a legacy of concentrated development too close to hazard-prone shorelines, as well as impacts from intensive public use. Frequency and severity of coastal erosion and coastal flooding events will only increase with increasing rates of sea level rise in the coming decades.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussions.

As affirmed by the records of votes of the members of your Committees on Water and Land and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 204, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 204, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Ruderman, Slom).

Higher Education and the Arts

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 188 (Joint) Transportation and Energy and Environment on S.B. No. 704

The purpose and intent of this measure is to clarify the electric vehicle parking fee exemption for metered and non-metered state or county parking stalls.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development and Tourism and Ulupono Initiative. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that developing an electric vehicle infrastructure is a first and essential step toward the transformation of transportation in Hawaii. With developing technology, along with a push by national and international automakers to expedite the production and supply of electric vehicles, Hawaii must be ready to embrace a new generation of highway transportation.

Your Committees have amended this measure by:

- (1) Requiring a ratio of one electric vehicle parking stall to be reserved per one hundred stalls in places of public accommodations;
- (2) Designating the appropriate county authority having jurisdiction over planning and permitting to enforce electric vehicle parking requirements at places of public accommodations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 704, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 704, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Kidani, Kouchi, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 189 (Joint) Hawaiian Affairs and Agriculture on S.B. No. 434

The purpose and intent of this measure is to amend the objectives for the planning of the State's economy by adding:

- (1) Perpetuation, promotion, and increasing of the use of traditional Hawaiian farming systems; and
- (2) Increasing and developing small-scale farms.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, University of Hawaii System, Association of Hawaii Civic Clubs, Waimea Homesteaders Association, Land Use Research Foundation of Hawaii, Hawaii Alliance for Community-Based Economic Development, Haku Aina Permaculture Initiative, Kuaiaina Ulu Auamo, Hawaiian Green Growth, Hawaii Farm to School and School Garden Hui, Hawaii Farmers Union – Kona Chapter, The Trust for Public Land, Malama O Puna, Hawaii Farmers Union United, Hookipa Network Kauai, and forty-four individuals. Your Committees received comments on this measure from three individuals.

Your Committees find that traditional Hawaiian farming systems, including small-scale farms, and traditional Hawaiian crops continue to play a critical role in Hawaii. Their perpetuation, promotion, and development should be recognized as an objective of the Hawaii State Plan for the economy with regard to agriculture.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 434, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 434, S.D. 1, and be referred to the Committee on Water and Land.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 190 Hawaiian Affairs on S.B. No. 44

The purpose and intent of this measure is to amend the law relating to Hawaiian affairs.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Establish the Memorial Mall; and
- (2) Establish the Ho‘onoho pono working group.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 44, as amended herein, and recommends that it be recommitted to the Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 44, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 191 Human Services and Housing on S.B. No. 722

The purpose and intent of this measure is to help Hawaii’s kupuna prevent lapses or terminations of their long-term care insurance policies by:

- (1) Requiring the termination notice to be sent by certified mail or commercial delivery service instead of first-class mail; and
- (2) Requiring a 60-day grace period to reinstate coverage under a lapsed policy where cognitive impairment or loss of functional capacity is proven.

Your Committee received testimony in support of this measure from AARP Hawaii and two individuals. Your Committee received testimony in opposition to this measure from the American Council of Life Insurers. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that one significant way in which the State can support its kupuna is to help seniors avoid inadvertent lapses or terminations of their long-term care insurance, which plays an important role in financing long-term care. Furthermore, your Committee finds that the health and cognitive challenges that the aging population face make it especially important to have strong consumer protection standards in this area. Your Committee learned through testimony that the language in this measure pertaining to reinstatement of lapsed policies is duplicative of existing language in the Hawaii Revised Statutes.

Therefore, your Committee has amended this measure by:

- (1) Eliminating the provisions that address reinstatement of long-term care insurance policies or certificates after unintentional policy lapses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 722, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 722, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 192 Human Services and Housing on S.B. No. 920

The purpose and intent of this measure is to increase the Medicaid reimbursement rate paid by the State to equal the Medicare services payment rate for primary and acute care.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Hawaii Medical Association, The Queen's Health Systems, and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that inadequate Medicaid reimbursement rates put a financial strain on healthcare providers and decrease the probability that Medicaid enrollees will be accepted as patients by healthcare providers. Enhanced Medicaid reimbursement rates have been successful in helping millions of people nationwide gain access to necessary health services.

Your Committee supports the Governor's budget request of \$37,000,000, of which approximately \$17,500,000 are general funds, for Medicaid reimbursements at 83.7 percent of Medicare. Your Committee notes that this percentage includes behavioral health and prenatal care but does not include obstetric care.

Your Committee has amended this measure by inserting language to include obstetric care among the types of services for which the increased Medicaid reimbursement rate shall apply.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 920, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 920, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 193 Human Services and Housing on S.B. No. 912

The purpose and intent of this measure is to provide an inflationary adjustment to long-term care facility prospective payment rates.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, The Queen's Health Systems, and Hawaii Health Systems Corporation. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that about seventy percent of patients in long-term care facilities are Medicaid enrollees, and that payments for Medicaid enrollees do not cover the actual costs of care, which creates a financial challenge for facilities trying to provide quality healthcare. Your Committee further finds that long-term care facilities have not received an inflationary update to their reimbursement rates for many years, and the gap between costs and reimbursements has widened considerably.

Your Committee received testimony from the Department of Human Services expressing concern that increasing the long-term care facility prospective payment rate would create cost implications that could adversely impact priorities in the executive budget and limit the Department's ability to adjust the Medicaid budget in response to fiscal down turns and other fluctuations. While recognizing the important role that long-term care facilities play in the State, your Committee also acknowledges the Department's position and determines that more information is needed to illustrate the financial challenges facing long-term care facilities as well as the effects of an increase to the reimbursement rate.

Therefore, your Committee has amended this measure by:

- (1) Deleting the language that would have increased the long-term care facility prospective payment rate and replacing it with language requiring the Department of Human Services to submit a report to the Legislature every three years that demonstrates long-term care facilities' annual fiscal year costs and reimbursements for Medicaid enrollees as well as the potential impact of increasing the prospective payment rate; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 912, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 194 Education on S.B. No. 866

The purpose and intent of this measure is to fund the Department of Education's After-school Plus Program to:

- (1) Enhance oversight and administration of the After-school Plus Program by developing and implementing professional training for program staff and an evaluation system;
- (2) Enhance and improve the content of the After-school Plus Program; and
- (3) Alleviate the tuition burden on families of children participating in the After-school Plus Program.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Public Charter Schools Network, Moiliili Community Center, Kahoomiki, YMCA of Honolulu, Hawaii Afterschool Alliance, Kamaaina Kids, and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Department of Education's After-school Plus Program has met a substantial need in the community for after-school childcare for the past twenty-five years. The program provides safe and structured after-school care for thousands of Hawaii families. Currently, the program is supported by user fees and Department of Human Services subsidies for income eligible families. Because operating costs continue to climb, an infusion of funds is necessary to keep user fees reasonable while providing high quality programming.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 866 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Slom).

SCRep. 195 (Joint) Energy and Environment and Transportation and Government Operations on S.B. No. 1051

The purpose and intent of this measure is to:

- (1) Amend the definition of “electric vehicle” to include fuel cell electric vehicles for purposes of parking exemptions, HOV lane use, registration, and designated parking spaces in places of public accommodation;
- (2) Grant procurement priority for fuel cell electric vehicles for state and county purchases; and
- (3) Amend the definition of “electric vehicle charging system” in section 291-71, Hawaii Revised Statutes, to exclude a facility or system for refueling the hydrogen storage tank of a fuel cell electric vehicle.

Your Committees received testimony in support of this measure from the Hawaii Energy Policy Forum, Blue Planet Foundation, Hawaii Automobile Dealers Association, and Alliance of Automobile Manufacturers. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that fuel cell vehicles convert hydrogen and oxygen into electricity to charge the onboard battery and power the vehicle. Fuel cell vehicles can use fuel generated from local clean energy and, unlike fossil fuel vehicles, create no dangerous emissions. Implementation of this measure will reduce gasoline consumption and further the State’s clean energy goals.

Your Committees have amended this measure by:

- (1) Eliminating the “fuel cell electric vehicle” definition”; incorporating language that includes fuel cell electric vehicles under the definition of “electric vehicle” for purposes of parking exemptions, HOV lane use, registration, and designated parking spaces in places of public accommodation; and making conforming amendments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment, Transportation, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1051, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1051, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Transportation

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Kidani, Kouchi, Slom).

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 196 Ways and Means on H.B. No. 1465

The purpose and intent of this measure is to appropriate funds for the expenses of the legislative branch.

Specifically, this measure appropriates:

- (1) \$8,776,876 to the Senate;
- (2) \$12,022,144 to the House of Representatives;
- (3) \$2,947,349 to the Office the Auditor;
- (4) \$2,800,000 to be deposited into the Audit Revolving Fund;
- (5) \$6,300,000 from the Audit Revolving Fund to the Office of the Auditor to conduct or complete audit functions;
- (6) \$3,440,969 to the Legislative Reference Bureau;
- (7) \$1,216,170 to the Office of the Ombudsman; and
- (8) \$1,008,895 to the Office of the State Ethics Commission.

Your Committee received testimony in support of this measure from the State Ethics Commission, the Office of the Ombudsman, and the Office of the Auditor. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that this measure appropriates sufficient funds to defray the necessary expenses in fiscal year 2015-2016 of the Senate, the House of Representatives, the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, and the State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1465, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Slom).

SCRep. 197 Ways and Means on H.B. No. 930

The purpose and intent of this measure is to provide the Office of the Governor with moneys to meet payroll shortfalls caused by the gubernatorial transition.

Your Committee received testimony in support of this measure from the Office of the Governor.

Your Committee finds that the gubernatorial transition required the expenditure of unbudgeted funds for vacation payout to departing employees and transfers of revenues to those employees' successor state or county employers. The change in administration also necessitated payroll costs for staff who supported the current Governor's transition by screening resumes, scheduling interviews and establishing essential office operations. Your Committee finds that this appropriation will cover these payroll shortfalls as well as support ongoing equipment leases, professional organization dues, travel expenses, and protocol expenses.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 930, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Slom).

SCRep. 198 Ways and Means on S.B. No. 103

The purpose and intent of this measure is to adjust the amount of an appropriation in the Supplemental Appropriations Act of 2014 to the Department of Labor and Industrial Relations for fiscal year 2014-2015.

Your Committee received testimony in support of this measure from the Office of the Governor.

Your Committee notes that the Governor's testimony also included a request to add an amendment in the measure to correct a technical error in an appropriation that was made in the Supplemental Appropriations Act of 2014 as a grant to the National Kidney Foundation of Hawaii in support of a capital improvement project.

In response to the Governor's request and prior to the hearing on S.B. No. 103, your Committee distributed a proposed Senate Draft 1 that included a provision to adjust the authorized uses for the appropriation made in the Supplemental Appropriations Act of 2014 as a grant to the National Kidney Foundation of Hawaii.

Your Committee received testimony in support of the proposed Senate Draft 1 from the Department of Labor and Industrial Relations.

Your Committee finds that this measure corrects a technical error in Act 122, Session Laws of Hawaii 2014, to accurately reflect the projected costs for accrued vacation payments by the Department of Labor and Industrial Relations.

Your Committee has amended this measure by adopting the proposed Senate Draft 1 to accommodate the Governor's request. However, your Committee emphasizes that this amendment should not serve as a precedent in the future for amending grants that were made by previous Legislatures.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 103, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 199 Agriculture on S.B. No. 1008

The purpose and intent of this measure is to:

- (1) Establish a formal statewide Food Resiliency Initiative that is recognized and supported by the Legislature and will achieve measurable goals of food self-sufficiency in a reasonable timeframe;
- (2) Establish a task force to set forth the specific benchmarks for the Food Resiliency Initiative and a timeline to achieve those benchmarks; and
- (3) Provide adequate resources to support the Food Resiliency Initiative.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau, Hawaii Farmers Union United, and one individual. Your Committee received comments on this measure from the Department of Agriculture and University of Hawaii System.

Your Committee finds that as the most geographically isolated state in the country, Hawaii is dangerously dependent on imported food. Increasing local production will ensure that Hawaii has food sources that will be more stable when faced with global supply disruptions, increasing global demand and shortages of commodities, and potential global food scarcities while providing jobs and economic growth. Your Committee further finds that the Office of Planning, in cooperation with the Department of Agriculture, issued a report in October 2012 entitled "Increased Food Security and Food Self-Sufficiency Strategy: A State Strategic/Functional Plan

Prepared in Accordance with HRS Chapter 226 Hawaii State Plan and the Hawaii Comprehensive Economic Development Strategy.” S.B. No. 584 was introduced during the Regular Session of 2013 to implement the recommendations of the October 2012 report, but was not enacted. Rather than duplicate efforts, your Committee finds that in lieu of the Food Resiliency Initiative and task force, the State would be best served by establishing the agricultural development and food resiliency program and providing resources to implement the existing increased food security and food self-sufficiency strategy.

Your Committee has amended this measure by:

- (1) Deleting contents that duplicate previous efforts and inserting language from S.B. No. 524, S.D. 1, H.D. 1 (Regular Session of 2013), which:
 - (A) Establishes the agricultural development and food resiliency program; and
 - (B) Appropriates funds to implement the increased food security and food self-sufficiency strategy; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1008, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 200 (Joint) Health and Commerce and Consumer Protection on S.B. No. 725

The purpose and intent of this measure is to grant the Board of Dental Examiners the power to issue cease and desist orders for the unlicensed practice of dentistry and for any other act or practice in violation of the dental licensing laws.

Your Committees received testimony in support of this measure from the Hawaii Dental Association and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and Board of Dental Examiners.

Your Committees find that there is a clear and present danger to the health and welfare of the public when violations of Hawaii dental laws occur in the State. The State Board of Dental Examiners needs the ability to address these situations quickly, as the current length of time it takes to suspend or revoke a license puts the public in danger while that individual continues to provide dental services, sometimes even after arrest and indictment. With the ability to act quickly in these cases, the Board can better protect the public and pressure a licensee to come into compliance.

Your Committees have amended this measure by:

- (1) Deleting language that would have allowed the Board of Dental Examiners to issue cease and desist orders for the unlicensed practice of dentistry and for any other act or practice in violation of the dental licensing laws; and
- (2) Upon the recommendation of the Department of Commerce and Consumer Affairs, inserting language to allow the Board of Dental Examiners to establish procedures for an order of summary suspension of a license and to summarily suspend a license.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 725, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 725, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Kahele).

SCRep. 201 (Joint) Health and Commerce and Consumer Protection on S.B. No. 117

The purpose and intent of this measure is to appropriate funds for direct health care, including primary medical, dental, and behavioral services, for uninsured and underinsured residents of the State.

Your Committees received testimony in support of this measure from Ho‘ōla Lāhui Hawai‘i, Waianae Coast Comprehensive Health Center, The Queen’s Health Systems, Hawaii Primary Care Association, Hawaii Substance Abuse Coalition, and one individual. Your Committees received comments on this measure from the Department of Health.

Your Committees find that community health centers serve uninsured, underinsured, low-income patient populations with demographic complexities and co-morbidities, in addition to one-fourth of the State’s Medicaid members, and many of the State’s homeless individuals and families.

Your Committees further find that community health centers save the health care system \$1,263 per patient per year due to timely, effective care and care management that reduce unnecessary emergency room, in-patient, and specialty utilization, which translated to savings of more than \$90,000,000 for Hawaii’s Medicaid program in 2013. Community health centers are a smart investment that result in healthier communities while saving the State money.

Your Committees have amended this measure by:

- (1) Clarifying that the appropriation in this measure is for direct health care for the uninsured and underinsured patients at community health centers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 117, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 117, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Kahele).

SCRep. 202 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 337

The purpose and intent of this measure is to require birthing facilities to perform a pulse oximetry test or other medically accepted test on newborns to screen for critical congenital heart defects.

Your Committees received testimony in support of this measure from the March of Dimes, Hawaii Chapter; Kapiolani Medical Center; Family Voices of Hawai'i; American Heart Association; and two individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that pulse oximetry is a non-invasive test that estimates the percentage of hemoglobin in blood that is saturated with oxygen. When performed on newborns in birthing facilities, pulse oximetry is effective at detecting critical, life-threatening congenital heart defects, which otherwise may go undetected by current screening methods. Many newborn lives could be saved by earlier detection and treatment of congenital heart defects if birthing facilities in the State were required to perform this screening in conjunction with current congenital heart disease screening methods.

Your Committees have amended this measure by:

- (1) Inserting language to require birthing facilities to report a minimum data set to the Department of Health for quality improvement activities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 337, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 337, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Kahele).

SCRep. 203 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 768

The purpose and intent of this measure is to provide insurance coverage equality for women who are diagnosed with infertility by making available to them expanded treatment options, ensuring adequate and affordable health care services.

Your Committees received testimony in support of this measure from Kaiser Permanente Hawaii, Hawaii State Democratic Women's Caucus, and two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Catholic Conference and Chamber of Commerce Hawaii. Your Committees received comments on this measure from the Department of Human Services, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committees find that infertility is a disease of the reproductive system that impairs and substantially limits an individual's major life activity of reproduction. In the United States, infertility affects approximately seven million women and their partners, and approximately twelve percent of women of childbearing age have used an infertility service. Since 1987, Hawaii has required insurance coverage for the treatment of infertility through in vitro fertilization. However, existing law provides for only a one-time benefit; applies only to the insured or insured's spouse; requires fertilization with the sperm from the patient's spouse; requires a history of infertility for at least five years; requires previous attempts at pregnancy through other applicable infertility treatments for which coverage is available; and applies only to a limited number of medical conditions associated with infertility.

Your Committees have amended this measure by:

- (1) Amending the definition of "infertility" to be consistent with the American College of Obstetricians and Gynecologists and American Society for Reproductive Medicine; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 768, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 768, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Kahele).

SCRep. 204 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 791

The purpose and intent of this measure is to require health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for autism diagnosis and treatment.

Your Committees received testimony in support of this measure from State Council on Developmental Disabilities; Autism Speaks; Autism Behavior Consulting Group, Inc.; Community Children's Council of Hawaii; Easter Seals Hawaii; Special Education Advisory Council; Kaiser Permanente Hawaii; Family Voices of Hawai'i; and several individuals. Your Committees received comments on this measure from the Department of Health, Department of Commerce and Consumer Affairs, Autism Society of Hawaii, Hawaii Disability Rights Center, American Council of Life Insurers, Hawaii Medical Service Association, and Chamber of Commerce Hawaii.

Your Committees find that autism spectrum disorder treatments, including applied behavior analysis, are essential and have the potential to change the lives of children with autism. Your Committees further find that no child with autism in Hawaii should be denied proper treatment due solely to the cost of the treatment.

Your Committees have heard the testimony from several parties and individuals expressing concerns relating to age and cost coverage limitations and licensure procedures; therefore, your Committees request that your Committee on Ways and Means further examine these issues if it chooses to hear this measure.

Your Committees express their gratitude to the testifiers who shared their heartfelt testimonies on this measure and to the individuals and organizations who worked on this measure.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 791 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Riviere).

Commerce and Consumer Protection

Ayes, 3. Noes, 1 (Slom). Excused, 3 (Kahele, Kidani, Nishihara).

SCRep. 205 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 306

The purpose and intent of this measure is to require health insurance coverage of orthodontic treatment for orofacial anomalies.

Your Committees received testimony in support of this measure from the Office of the Auditor, State Council on Developmental Disabilities, Hawaii Dental Association, Kapi'olani Medical Center Cleft and Craniofacial Center, Hawaii Chapter of the American Academy of Pediatrics, Family Voices of Hawai'i, and seventeen individuals. Your Committees received comments on this measure from the Department of Health, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committees find that it is estimated that one in five hundred children in the State is born with orofacial anomalies such as cleft lip or cleft palate. Orthodontic services for the treatment of orofacial anomalies are not included as a benefit of commercial health plans. Without orthodontic treatment, appropriate care and reconstructive surgical outcomes are compromised and result in functional deficiencies in chewing, swallowing, respiration, speech, unstable or malpositioned oral structures, premature tooth loss, and other health problems.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 306 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Kahele).

SCRep. 206 Health on S.B. No. 1174

The purpose and intent of this measure is to:

- (1) Provide that an independent medical examination and permanent impairment rating examination shall be conducted by a qualified physician selected by the mutual agreement of the parties; and
- (2) Provide a process for appointment in the event that there is no mutual agreement.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, American Chiropractic Association, ILWU Local 142, and two individuals. Your Committee received testimony in opposition to this measure

from the City and County of Honolulu; Hawaii Insurers Council; Mechanical Contractors Workers' Compensation Self-Insurance Group; PVT Land Company Ltd.; S&M Sakamoto, Inc.; JS International, Inc.; LYZ, Inc.; Economy Plumbing and Air Conditioning; Rons Construction Corporation; Property Casualty Insurers Association of America; Robert M. Kaya Builders, Inc.; Dorvin D. Leis Co., Inc.; Jayar Construction, Inc.; Swinerton Builders; JBL HAWAII, LIMITED; Society for Human Resource Management, Hawaii Chapter; Healy Tibbitts Builders, Inc.; Chamber of Commerce Hawaii; and one individual. Your Committee received comments on this measure from the Department of Human Resources Development and one individual.

Your Committee finds that the workers' compensation system is often adversarial in nature as both employee and employer choose doctors that are highly partisan to each respective side. Mutual agreement regarding the selection of the independent medical examination or permanent impairment rating examination physician will serve to minimize or even eliminate negative perceptions about the examiner, providing reassurance to the injured worker that the examination will be conducted fairly.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1174, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1174, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 207 Health on S.B. No. 116

The purpose and intent of this measure is to establish a rule of evidence to exclude the admissibility of medical apologies to prove liability.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Hawaii Medical Association, The Queen's Health Systems, and Healthcare Association of Hawaii. Your Committee received testimony in opposition to this measure from the Judiciary and Hawaii Association for Justice.

Your Committee finds that a healthy doctor-patient relationship facilitates the transfer of information in both directions, enhancing accuracy of diagnosis and increasing the patient's knowledge about the disease. Patients must have confidence in the competence of their physicians and must feel that they can confide in their physicians. Physicians must be able to reassure and comfort their patients while remaining honest. A healthy relationship ensures that doctors and patients can fulfill their roles and meet the expectations of each other. Medical apology laws are designed to encourage communication between patients and health care providers.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 116, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 208 Health on S.B. No. 50

The purpose and intent of this measure is to amend the law relating to health.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to clarify that medical health professionals who are employed by the State receive a qualified immunity from personal liability when exercising their governmental discretion as employees of the State while acting in the course and scope of their state employment.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 50, as amended herein, and recommends that it be recommitted to the Committee on Health, in the form attached hereto as S.B. No. 50, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Riviere, Wakai, Slom).

SCRep. 209 Health on S.B. No. 51

The purpose and intent of this measure is to amend the law relating to health.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to establish a stroke coalition and a stroke database in the Department of Health.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 51, as amended herein, and recommends that it be recommitted to the Committee on Health, in the form attached hereto as S.B. No. 51, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Riviere, Wakai, Slom).

SCRep. 210 Health on S.B. No. 1281

The purpose and intent of this measure is to appropriate monies for additional emergency medical services in the Moanalua, Aliamanu, Red Hill, Salt Lake, and Foster Village areas.

Your Committee received testimony in support of this measure from the United Public Workers. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that more emergency services are needed in the Moanalua, Aliamanu, Red Hill, Salt Lake, and Foster Village areas on the island of Oahu. As calls for emergency response services increase, a greater burden is placed on the City and County of Honolulu Emergency Medical Services Division to respond to emergency calls in these areas. This increased workload threatens the ability of the Division to provide acceptable levels of emergency medical services.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1281 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 211 Health on S.B. No. 114

The purpose and intent of this measure is to require, after January 1, 2016, the continuing education program for dentists to include three hours of ethics training per year.

Your Committee received testimony in support of this measure from the Hawaii Dental Association. Your Committee received comments on this measure from the Board of Dental Examiners.

Your Committee finds that Hawaii's licensed dentists are required to maintain their professional licensure with continuing education classes in order to keep up with current professional standards and procedures. Ethics is an area that is often overlooked in education. This training will maintain the integrity of the profession and assure the public that their interests are protected.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 114 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 212 Health on S.B. No. 1277

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to various Paradise Ohana entities for development of health care facilities in West Oahu.

Your Committee received testimony in support of this measure from Paradise Ohana, LLC. Your Committee received testimony in opposition to this measure from the Property Casualty Insurers Association of America. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is a need for health care facilities in West Oahu, as the shortage of doctors and nurses is hurting all areas of the State. Paradise Ohana, LLC, is looking to partner with local health care providers in West Oahu and other health care providers to develop the much needed health care facilities for West Oahu.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1277, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 213 Health on S.B. No. 735

The purpose and intent of this measure is to, beginning on July 1, 2017, require licensed registered nurses and licensed practical nurses to submit evidence of completed continuing competency requirements prior to the renewal of the license.

Your Committee received testimony in support of this measure from Hawai'i Pacific Health, American Organization of Nurse Executives Hawai'i, Pali Momi Medical Center, Straub Clinic and Hospital, Kapi'olani Medical Center for Women and Children, Wilcox Memorial Hospital, Hawai'i State Center for Nursing, Board of Nursing, Hawaii Government Employees Association, and eleven individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the requirement of all candidates for an initial nurse license to pass a national examination has resulted in the consistent practice of quality health care services administered to the public. This examination safeguards the quality of health care practices by ensuring that each candidate possesses the minimum competencies necessary for newly licensed, entry-level registered and practical nurses to perform their jobs safely and effectively. Despite the clear benefits of this safeguard, continuing

competency requirements are not currently instituted for nurse licensure renewal applications in the State. This measure enhances patient safety by requiring Hawaii-licensed nurses to complete continuing competency requirements prior to any application for license renewal, restoration, or reinstatement.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 735, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 735, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 214 Health on S.B. No. 904

The purpose and intent of this measure is to:

- (1) Establish a health care interpreter qualification or certification system within the Department of Health;
- (2) Establish and appropriate funds for the Hawaii Board of Health Care Interpreters; and
- (3) Authorize the Board to qualify or certify a person as a health care interpreter.

Your Committee received testimony in support of this measure from the Hawaii Interpreter Action Network, Hawai'i Civil Rights Commission, and one individual. Your Committee received comments on this measure from the Office of Language Access, Pacific Gateway Center, and one individual.

Your Committee finds that the lack of competent health care interpreters in the provision of health care services impedes the free flow of communication between the health care provider and patient, preventing clear and accurate communication and the development of empathy, confidence, and mutual trust that is essential for an effective relationship between a health care provider and patient.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 904 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 215 Health on S.B. No. 766

The purpose and intent of this measure is to:

- (1) Require that a physician selected and paid for by an employer to conduct a medical examination for workers' compensation purposes shall be actively treating at least ten patients in any one-month period, be actively treating at least fifty percent of the physician's total patient load in a one-month period, and possess medical malpractice insurance; and
- (2) Define "actively treating".

Your Committee received testimony in support of this measure from the International Association of Rehabilitation Professionals; International Longshore and Warehouse Union, Local 142; and three individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu; National Association of Mutual Insurance Companies; Hawaii Insurers Council; Society for Human Resource Management, Hawaii Chapter; and Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Human Resources Development and Department of Labor and Industrial Relations.

Your Committee finds that an independent medical examination conducted by a physician of an employer's choice is the primary tool that is available to an employer to help overcome the statutory presumption that a claim is for a covered work injury, to show that ongoing medical treatment may be unreasonable or unnecessary, and to determine whether a requested medical treatment is reasonable and related to the work injury. Therefore, it is critical to make sure that injured workers are evaluated and treated by competent, actively treating medical professionals.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 766 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 216 (Joint) Energy and Environment and Government Operations on S.B. No. 1225

The purpose and intent of this measure is to require the Department of Accounting and General Services to:

- (1) Conduct a feasibility study on the use of water scalping technology in state facilities; and
- (2) Create a water scalping pilot project to implement water scalping technology in new and existing state facilities.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Mele Associates, Inc.; and one individual. Your Committees received testimony in opposition to this measure from the Department of Accounting and General Services. Your Committees received comments on this measure from the Department of Health.

Your Committees find that as an island state, Hawaii has limited access to natural fresh water supplies. The increase in development, population growth, and climate change will threaten fresh water access, and innovative water conservation options need to be explored. Water scalping is a decentralized method of water treatment and conservation that involves the extraction of valuable, usable water from a sewerage network. By treating this extracted water to achieve varying degrees of water safety and quality, otherwise unused and wasted water is able to be reclaimed and put to beneficial uses. The implementation of this measure will reduce the State's reliance on conventional water supplies and further the State's goal of sustainability.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1225, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1225, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Government Operations

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 217 (Joint) Agriculture and Water and Land on S.B. No. 512

The purpose and intent of this measure is to appropriate funds for the implementation and operation of the Hawaii one program to provide conservation plans online.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau, Hawaii Cattlemen's Council, Ulupono Initiative, Hydroponics Alternatives LLC, Oahu Resource Conservation and Development Council, Hawaii Association of Conservation Districts, and five individuals. Your Committees received comments on this measure from the Department of Agriculture and one individual.

Your Committees find that state coastal zone management law requires farmers who plow land or stockpile compost to obtain grading and stockpiling permits each time they conduct these activities, unless they have a soil and water conservation plan. Such plans are detailed documents requiring data such as rainfall averages and topography. Assistance formerly available to farmers via the federal Natural Resources Conservation Service were cut years ago. Farmers are currently waiting years for technical assistance, which is impeding the ability of the State to increase agricultural production.

Your Committees further find that the State of Idaho developed an online program for conservation plans called the Idaho One Plan, which is a model for a tool to assist Hawaii farmers in complying with government regulations and will increase productivity on the farm, while saving time and money for all parties involved. The Idaho program uses existing data to allow farmers to access property-specific rainfall data and other information, enter their proposed farming activities, and then identify the soil and water conservation best management practices for their property.

Your Committees find that conservation plans are an important tool for farmers to use in order to maximize soil retention by implementing best management practices regarding erosion and sediment control. The Ulupono Initiative granted money in 2013 to partially fund the Hawaii One Program buildout; therefore, an appropriation of \$70,000 is required for only one fiscal year to pay for the remaining expenditures.

Your Committees have amended this measure by:

- (1) Inserting language to establish the Hawaii One Plan Steering Committee, similar in nature to the committee established by Idaho in statute, and directing the steering committee to work with the Department of Agriculture on the development and implementation of the Hawaii One Plan;
- (2) Inserting language to deem information provided by a user to the Hawaii One Plan as confidential and exempt from disclosure;
- (3) Amending the purpose section to include the Hawaii One Plan Steering Committee;
- (4) Appropriating funds for only fiscal year 2015-2016; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

In inserting the language to deem information provided by users to the Hawaii One Plan as confidential and exempt from disclosure, your Committees note their intent that farmers' property-specific information and farm plans be deemed confidential and exempt from disclosure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 512, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 512, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 7. Noes, none. Excused, none.

Water and Land

Ayes, 7. Noes, none. Excused, none.

SCRep. 218 Public Safety, Intergovernmental and Military Affairs on S.B. No. 109

The purpose and intent of this measure is to require county police commissions to establish procedures regarding the suspension, removal from a specified duty for disciplinary reasons, or termination of any police officer.

Your Committee received testimony in support of this measure from the Remington College Honolulu Criminal Justice Student Coalition, Hawaii State Coalition Against Domestic Violence, and fourteen individuals.

Your Committee finds that there is great concern regarding the oversight of the Honolulu Police Department following a recent domestic violence incident involving a police officer and his former girlfriend. Allowing a police officer involved in a domestic violence incident to retain the officer's position sends the wrong message to the citizens of Hawaii. Implementation of this measure will increase the credibility of the county police departments and restore confidence in advocates and victims of domestic violence.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 109, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 219 Public Safety, Intergovernmental and Military Affairs on S.B. No. 389

The purpose and intent of this measure is to amend the composition of the county police commissions to require three commissioners on each police commission to include the Executive Director of the State Commission on the Status of Women, or a designated commissioner; Executive Director of the Hawaii Civil Rights Commission, or a designated commissioner; and an individual with prior experience in law enforcement.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Domestic Violence Action Center, League of Women Voters, Hawaii State Coalition Against Domestic Violence, and thirteen individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee has heard the testimony from the Department of the Attorney General expressing certain constitutional concerns regarding this measure. Your Committee finds that this issue merits further consideration and requests that your Committee on Judiciary and Labor further examine the concerns raised by the Department of the Attorney General.

Your Committee finds that the county police commissions are charged with overseeing conduct of the county police departments or officers. In the wake of a September 2014 high-profile domestic violence incident involving an off-duty Honolulu Police Department sergeant, it is clear that residents in the State should have confidence that the county police departments are being held accountable for the actions of county police officers. The inclusion of commissioners with experience or backgrounds pertaining to women's issues, civil rights, and law enforcement on the county police commissions will greatly benefit the general public. Implementation of this measure will improve transparency, accountability, and efficiency in dealing with police misconduct.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the police commissions include the specified individuals and instead requiring that there are commissioners on each police commission that have experience or backgrounds pertaining to women's issues, civil rights, and law enforcement;
- (2) Amending the purpose section accordingly;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 389, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 389, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 220 Public Safety, Intergovernmental and Military Affairs on S.B. No. 396

The purpose and intent of this measure is to establish that citizen complaints against a police officer that involve allegations of domestic abuse against a family or household member on the part of the police officer are not required to be in writing or sworn to by the complainant.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Domestic Violence Action Center, Hawaii State Democratic Women's Caucus, and Hawaii State Coalition Against Domestic Violence.

Your Committee finds that as part of the police union's collective bargaining agreement, all external complaints against a police officer, including domestic violence complaints, must be in writing and sworn to by the complainant. This requirement may discourage individuals involved in a domestic dispute with a police officer from reporting the abuse and re-victimizes a complainant by forcing the complainant to swear to something in writing. Domestic violence victims should not have to go through a stringent process with little anonymity to make a complaint. Implementation of this measure provides domestic violence victims with a mechanism to make a domestic violence complaint and avoid re-victimization.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 396, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 396, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 221 Public Safety, Intergovernmental and Military Affairs on S.B. No. 497

The purpose and intent of this measure is to repeal the privacy exemption within the Uniform Information Practices Act for county police department officers.

Your Committee received testimony in support of this measure from the Office of Information Practices, Hawaii State Commission on the Status of Women, League of Women Voters, Domestic Violence Action Center, Civil Beat Law Center for the Public Interest, Society of Professional Journalists, Hawaii State Democratic Women's Caucus, Hawaii State Coalition Against Domestic Violence, Common Cause Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that the Honolulu Police Department has been heavily criticized by lawmakers and the public in the wake of a recent high-profile domestic violence incident involving an off-duty Honolulu Police Department sergeant and his then-girlfriend. The sergeant's actions sparked concern about the way the police departments handle domestic violence cases and public accountability for police officers. While other government employees' misconduct information becomes accessible by the public if the misconduct results in the employee's suspension or discharge, existing law provides a privacy exemption within the Uniform Information Practices Act for county police officers. Implementation of this measure will increase accountability of police officers whose misconduct results in suspension or discharge and ensure that police officers are held to the same standards as other government employees.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 497, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 222 (Joint) Public Safety, Intergovernmental and Military Affairs and Health on S.B. No. 563

The purpose and intent of this measure is to require the Department of Public Safety to establish a mental health first aid training program that includes mandatory eight-hour sessions triennially for law enforcement personnel, correctional officers, and other public safety officials to teach skills used for identifying and assisting individuals with mental health disorders and crises.

Your Committees received testimony in support of this measure from the Community Alliance on Prisons, Remington College Honolulu Criminal Justice Student Coalition, and ten individuals. Your Committees received testimony in opposition to this measure from the Department of Public Safety.

Your Committees find that there has been a rise in the number of inmates with mental health disorders. This escalation requires Department of Public Safety staff to be properly trained to handle incidents involving inmates with mental health disorders. Increasing awareness of, promotion of education on, and knowledge of mental health problems will provide a safer workplace for law enforcement personnel, correctional officers, and other public safety officials and ensure the safety of inmates with mental health disorders.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 563 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Health
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 223 Commerce and Consumer Protection on S.B. No. 234

The purpose and intent of this measure is to:

- (1) Require a retail employer to pay a retail employee who works on a state holiday at a wage rate of three times the retail employee's regular wage rate; and
- (2) Prohibit a retail employer from taking retaliatory personnel action against a retail employee for electing not to work on a state holiday.

Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii; Hawaii Food Industry Association; Retail Merchants of Hawaii; ABC Stores; Society for Human Resource Management, Hawaii Chapter; National Federation of Independent Business - Hawaii; Times Supermarket; and five individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that there has been a growing trend of some establishments beginning the holiday shopping season, which traditionally began the day after Thanksgiving, on Thanksgiving Day. Employees who are expected to work these extended hours on holidays must do so while sacrificing time away from family and friends or other interests.

Your Committee has heard testimony that the wage rate requirement proposed by this measure would create an administrative burden for employers and employees. Your Committee understands these concerns and recognizes that businesses should be able to create schedules and policies that work for individual employees and specific businesses. However, your Committee also concludes that employees who elect not to work on a holiday traditionally reserved for family gatherings should not be subject to retaliatory personnel action by their employer. Amendments to this measure are therefore necessary.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established a new section under chapter 387, Hawaii Revised Statutes, relating to wages paid by retail employers to retail employees on state holidays and a retaliatory personnel action prohibition;
- (2) Specifying that it shall be unlawful for any employer to suspend, discharge, or discriminate against any of the employer's employees because an employee refused to work on a holiday that is traditionally reserved for family gatherings, such as Thanksgiving or Christmas, if scheduled to do so by the employer;
- (3) Updating the purpose section;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 234, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 234, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 224 Commerce and Consumer Protection on S.B. No. 736

The purpose and intent of this measure is to:

- (1) Require an entity to send written notice to a health care provider at least thirty calendar days prior to initiating any insurance recoupment or offset demand efforts; and
- (2) Prohibit an entity from initiating any recoupment or offset efforts more than twelve months after an initial claim payment was received by a health care provider, with certain exceptions.

Your Committee received testimony in support of this measure from the Hawai'i Psychological Association, Hawaii Medical Association, and Hawai'i Primary Care Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii Medical Service Association.

Your Committee finds that insurance recoupment occurs when a health insurance plan pays benefits to providers and later seeks reimbursement for the benefits, after the health insurance plan determines that the benefits were paid out in error. Although health care providers in Hawaii generally have twelve months to submit claims to health insurance plans, there is no similar time limit that prevents health insurance plans from attempting to recoup funds previously paid to health care providers.

Your Committee further finds that this measure proposes a twelve-month standard time frame for insurance recoupment or offset demand efforts. Your Committee has heard testimony that twelve to eighteen months is a common time frame for recoupment or offset demand efforts by health insurance plans in Hawaii. Your Committee also notes that federal law does not place specific time limits on recoupment recovery. Amendments to this measure are therefore necessary to clarify that recoupment or offset efforts under state law do not apply to Medicaid, Medicare, or other federally financed plans. Amendments to this measure are also necessary to address a time limit on recoupment or offset efforts in cases of fraud or material misrepresentation.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the reimbursement for accident and health or sickness insurance benefits applies to accident and health or sickness insurers issuing comprehensive medical plans under specific portions of the State Insurance Code;
- (2) Specifying that an entity is prohibited from initiating any recoupment or offset efforts more than eighteen months after an initial claim payment was received by a health care provider or health care entity;

- (3) Clarifying that the time limit on recoupment or offset efforts shall not apply to claims for self-insured employer groups; for services rendered to individuals associated with a health care entity through a national participating provider network; or for claims for Medicaid, Medicare, Medigap, or other federally financed plan;
- (4) Specifying that in cases of fraud or material misrepresentation, an entity is prohibited from initiating any recoupment or offset efforts more than seventy-two months after the initial claim payment was received by a health care provider or health care entity;
- (5) Adding definitions for “acute care hospital” and “fraud” and clarifying the definitions of “clean claim” and “health care facility”;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 736, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 736, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 225 Commerce and Consumer Protection on S.B. No. 1262

The purpose and intent of this measure is to amend the Secure and Fair Enforcement for Mortgage Licensing Act by:

- (1) Amending the definition of “sole proprietorship”;
- (2) Clarifying that mortgage loan originator companies may post language specifying that members of the public may be seen by appointment during posted business hours; and
- (3) Raising the target balance of the mortgage loan recovery fund and requiring the Insurance Commissioner to adjust the assessed mortgage loan recovery fund fee once the target balance is reached.

Your Committee received testimony in support of this measure from the Hawaii Association of Mortgage Brokers and one individual. Your Committee received comments on this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs and Business Registration Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure was intended to update certain provisions in chapter 454F, Hawaii Revised Statutes, to conform to certain standards within the mortgage loan origination industry. However, your Committee has heard testimony that this measure as written may have unintended consequences.

Your Committee has heard the concerns that amending the definition of “sole proprietorship” within chapter 454F, Hawaii Revised Statutes, may cause unnecessary ambiguity and confusion in the interpretation of this chapter. Your Committee notes that the existing definition of “sole proprietorship” makes it clear that a single owner/operator legal entity, such as a corporation or limited liability company, is not eligible for the “sole proprietorship” category of mortgage loan originator fees. This existing definition is also consistent with definitions used by the Internal Revenue Service and the United States Small Business Administration.

Your Committee has also heard the concerns that the public would be disserved by relaxing mortgage loan originator company office hour requirements. Your Committee notes that, in response to consumer complaints, chapter 454F, Hawaii Revised Statutes, was amended in 2014 to require mortgage loan originator company locations to be open for business to the public during regular posted business hours. According to the Division of Financial Institutions, even after passage of the 2014 amendments, the Division received twenty-two complaints related to consumers being unable to reach their mortgage loan originators. Your Committee concludes that in view of the risk to consumers who cannot contact their mortgage loan originator, it is not appropriate to amend mortgage loan originator company office hour requirements.

Finally, your Committee has heard testimony that this measure proposes a \$750,000 floor and a \$1,000,000 ceiling on the balance of the mortgage loan recovery fund. Your Committee understands the concerns that this does not provide flexibility in the event that the circuit court orders payouts from the fund. However, your Committee notes that the Department of the Attorney General is currently reviewing a rule drafted by the Department of Commerce and Consumer Affairs that would enable the Commissioner of Financial Institutions to exercise the authority to adjust or cease collection of fees generated by renewals when the fund reaches \$750,000. Your Committee finds that enabling the Commissioner of Financial Institutions to make a finding to adjust the assessed mortgage loan recovery fund fee is more appropriate than setting floor and ceiling requirements on the balance of this fund.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have amended the definition of “sole proprietorship”;
- (2) Deleting language that would have enabled mortgage loan originator companies to post language specifying that members of the public may be seen by appointment during posted business hours;
- (3) Permitting the Commissioner of Financial Institutions to make a finding to adjust the assessed mortgage loan recovery fund fee once the mortgage loan recovery fund reaches its target balance, rather than requiring the Insurance Commissioner to cease collection of fees once the mortgage loan recovery fund attains a specific funding level;
- (4) Updating the purpose section of this measure to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1262, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 226 Commerce and Consumer Protection on S.B. No. 745

The purpose and intent of this measure is to require any health insurer with at least a twenty percent share of the health insurance market to submit its qualified plans and qualified dental plans for inclusion in the Hawaii Health Connector.

Your Committee received testimony in support of this measure from the Hawai'i Health Connector and Hawai'i Primary Care Association. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure requires any health insurer who services more than twenty percent of the health insurance marketplace to offer coverage on the Hawaii Health Connector. Sometimes referred to as a tying provision, this requirement, allowable under federal law, is intended to give equal access to Hawaii's major insurance providers. Your Committee notes that although there may be differences on how the policy is implemented in each state, a majority of states have already adopted a tying provision similar to the one proposed by this measure.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 745, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 745, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 227 Commerce and Consumer Protection on S.B. No. 1028

The purpose and intent of this measure is to:

- (1) Retain current financial and service benefits of the Hawaii Health Connector (Connector);
- (2) Enhance the availability of services through the Connector; and
- (3) Support the self-sustainability of the Connector by 2023 by enabling the Connector to issue debentures issued in the name of the Connector.

Your Committee received testimony in support of this measure from the Hawai'i Health Connector and Hawai'i Primary Care Association. Your Committee received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and Department of Commerce and Consumer Affairs.

Your Committee finds that the Connector has been working with the State and the private sector to ensure that the requirements of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) work in tandem with the highly successful Hawaii Prepaid Health Care Act to preserve the Prepaid Health Care Act's existing benefits for Hawaii residents. According to testimony received from the Connector, daily enrollments in the Connector have been increasing as more citizens experience an enrollment process supported by improved technology, better-trained staff, and faster access to affordable health insurance plans.

Your Committee further finds that the State recently decided to remove 7,500 Compact of Free Association Migrants from the Medicaid program and enroll these individuals in health insurance through the Connector. To preserve provider-patient relationships and protect continuity of care, amendments to this measure, which mirror Affordable Care Act language and relate to qualified health plans in the Connector and federally-qualified health centers, are necessary.

Your Committee notes that although the Affordable Care Act funded the development and initial operation of the Connector, the federal government did not provide the start-up capital necessary to support operations until the Connector enrolled a sufficient number of individuals to help pay for the Connector's operating expenses. This measure supports the continued self-sustainability of the Connector through a variety of changes to the Connector's authority.

However, your Committee has heard the concerns that this measure deletes the mandate that the Connector meet the requirements of chapter 42F, Hawaii Revised Statutes, to qualify for receipt of state funds. Your Committee notes that the Hawaii State Constitution requires chapter 42F, Hawaii Revised Statutes, to be followed or alternative standards must be developed and provided by law in order for the Connector to receive state funds. In the absence of alternative standards, your Committee concludes that the chapter 42F, Hawaii Revised Statutes, mandate should remain in statute.

Your Committee additionally finds that this measure authorizes the Connector to issue debentures guaranteed by the State but issued in the name of the Connector. Your Committee has heard the testimony from the Department of the Attorney General relating to the issuance of debentures proposed by this measure and concludes that certain amendments are necessary, including a statement of public purpose and identification of the state agency authorized to guarantee, approve, and oversee the issuance of debentures.

Finally, your Committee notes that pursuant to the Hawaii State Constitution, where the State incurs a contingent liability on a debt, a reasonable reserve must be established. Although this measure authorizes the State to incur a contingent liability, it does not require or establish the constitutionally required reserve. Amendments to this measure are therefore necessary to effectuate the reasonable reserve requirement under the state constitution.

Accordingly, your Committee has amended this measure by:

- (1) Requiring qualified health plans in the Connector to offer to contract with federally-qualified health centers providing services in areas served by the qualified health plan and utilize payment methodology as specified in the federal Social Security Act;
- (2) Removing language that would have deleted the mandate that the Connector meet the requirements of chapter 42F, Hawaii Revised Statutes;
- (3) Clarifying that to achieve continued self-sustainability, the Connector may charge assessments or user fees to participating carriers or may otherwise generate non-insurer based funding to support its operations;
- (4) Specifying that all plans to generate revenue for the Connector shall be in compliance with federal and state laws, rules, and regulations;
- (5) Specifying that the State of Hawaii shall approve the terms of the debentures before the debentures are issued by the Connector;
- (6) Identifying the Hawaii Hurricane Relief Fund as the state agency authorized to guarantee, approve, and oversee the issuance of debentures by the Connector;
- (7) Effectuating the Hawaii State Constitution reasonable reserve requirement by:
 - (A) Establishing a trust fund in the state treasury, known as the Hawaii Health Connector debenture guarantee trust fund, to serve as the reserve for all debentures guaranteed under this measure; and
 - (B) Inserting an unspecified appropriation out of the general fund, to be deposited into the Hawaii Health Connector debenture guarantee trust fund and specifying that this sum, when and if necessary, shall be expended by the Hawaii Hurricane Relief Fund for the purposes of this measure;
- (8) Amending the purpose section to include a statement of public purpose regarding the sale of debentures by the Connector and to reflect the updated purpose of this measure;
- (9) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1028, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1028, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 228 Hawaiian Affairs on S.B. No. 897

The purpose and intent of this measure is to appropriate funds to the Kaho'olawe Island Reserve Commission for the management, restoration, and preservation of the Kaho'olawe Island Reserve.

Your Committee received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, Mayor of the County of Maui, County of Maui Department of Planning, Protect Kaho'olawe 'Ohana, Historic Hawai'i Foundation, Conservation Council for Hawai'i, Four Seasons Resort Maui, and twenty individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from two individuals.

Your Committee finds the need to support the financial viability of the Kaho'olawe Island Reserve Commission. In addition to appropriating funds, it is the Committee's hope that the Kaho'olawe Island Reserve Commission be able to emulate the models for areas such as the Northwestern Hawaiian islands, Hawaiian Islands Humpback Whale Marine National Sanctuary, Marae of New Zealand, and other similar models which utilize limited commercial activities to help the achieve financial sustainability.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language enabling the Kaho'olawe Island Reserve to be used for limited commercial activity for the purpose of generating revenue to support the rehabilitation and environmental restoration of the Kaho'olawe Island Reserve, and other purposes consistent with chapter 6K, Hawaii Revised Statutes;
- (2) Making the appropriation effective for the 2015-2016 fiscal year;
- (3) Amending the effective date to July 1, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 897, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 897, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Slom).

SCRep. 229 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 483

The purpose and intent of this measure is to provide that the Department of Hawaiian Home Lands may utilize Hawaiian home lands for the forestry of koa or native trees. This measure further allows the Department of Hawaiian Home Lands to enter into public-private partnerships with regard to implementing a forestry plan.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Department of Land and Natural Resources, and one individual. Your Committees received testimony in opposition to this measure from the Council for Native Hawaiian Advancement and three individuals.

Your Committees find that this measure would clarify that the Department of Hawaiian Home Lands can utilize Hawaiian home lands for forestry, something that it has in the past allowed through issuance of a license. Your Committees note the opposition to this measure by the Council for Native Hawaiian Advancement on the grounds that forestry is not a purpose enumerated in the Hawaiian Homes Commission Act. However, your Committees further note the testimony of the Department of Hawaiian Home Lands that the lands that would be used for forestry are lands that are not planned for residential usage.

Your Committees have amended this measure by:

- (1) Deleting section 1, which would have established a new section in chapter 183, part II, Hawaii Revised Statutes; and
- (2) Adding language to allow for forestry of koa and other native trees to section 204.5 of the Hawaiian Homes Commission Act, 1920, as amended.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 483, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 483, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 230 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 786

The purpose and intent of this measure is to appropriate funds for the administration and operation of the Aha Moku Advisory Committee and for the Aha Moku Advisory Committee to do community outreach.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Association of Hawaii Civic Clubs, Ko'olau Foundation, Ko'olaupoko Hawaiian Civic Club, and seventeen individuals. Your Committees received testimony in opposition to this measure from Hui Ho'omalua i ka 'Aina and three individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs and three individuals.

Your Committees find that the Aha Moku Advisory Committee is the result of the tremendous effort and the political will of the Legislature. Since the inception of the Aha Moku Advisory Committee, funding has come from the Office of Hawaiian Affairs. Your Committees believe that the State must also provide funding for the administration and operation of the Aha Moku Advisory Committee.

Your Committees note that this measure requests \$120,000 for administration and operations and \$30,000 for community outreach; however, your Committees believe that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Accordingly, your Committees have amended this measure by:

- (1) Making the amounts of the appropriations blank; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 786, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 786, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 231 Human Services and Housing on S.B. No. 64

The purpose and intent of this measure is to amend the law relating to human services.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to appropriate monies for positions and the continued implementation of the preschool open doors program and for subsidies for the program.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 64, as amended herein, and recommends that it be recommitted to the Committee on Human Services and Housing, in the form attached hereto as S.B. No. 64, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

SCRep. 232 (Joint) Education and Higher Education and the Arts on S.B. No. 1348

The purpose and intent of this measure is to allow the University Laboratory School to conform its student enrollment profile to the standard prescribed by the University of Hawaii College of Education in order to meet the University of Hawaii College of Education's research requirements.

Your Committees received testimony in support of this measure from the University of Hawaii College of Education, University Laboratory School, Hawaii Public Charter Schools Network, and eighteen individuals. Your Committees received comments on this measure from the State Public Charter School Commission.

Your Committees find that the University Laboratory School admissions policy is implemented to provide an inclusive student population reflective of Hawaii's population by gender, family income, ethnicity, and school achievement, including English language learners and special needs students. The student population is chosen to reflect Hawaii's demographic makeup to enable research and development and to ensure generalizability of the innovations created within the University Laboratory School to Hawaii's public schools.

Your Committees further find that this measure is necessary to clarify that a public charter school enrollment preference for research and development purposes is acceptable.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1348 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Thielen, Slom).

Higher Education and the Arts

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 233 (Joint) Education and Higher Education and the Arts on S.B. No. 374

The purpose and intent of this measure is to:

- (1) Broaden current law to include all dual credit programs;
- (2) Expand the pool of eligible students to include ninth and tenth graders;
- (3) Allow for multiple assessments to be used to determine student eligibility; and
- (4) Appropriate funds to implement the dual credit program.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawaii System, University of Hawaii Office of the State Director for Career and Technical Education, Department of Education Office of District Superintendent Nanakuli-Waianae Complex Area, Kailua High School, Kohala High School, Waipahu High School, Kamehameha Schools, Hui for Excellence in Education, and fifty-six individuals. Your Committees received comments on this measure from two individuals.

Your Committees find that students who participate in dual credit programs are more likely to attend college and are more likely to earn a degree. The dual credit initiative may help Hawaii reach its goal to have fifty-five percent of working age adults hold a two- or four-year college degree by the year 2025. Dual credit programs help high school students understand that college is a possibility for them. The psychological blocks associated with being the first in a family to attend college, or rooted in a lack of encouragement or confidence can be alleviated through success in such a program. Even simply witnessing peers take college courses on a high school campus can give some students the confidence to follow suit.

Your Committees further find that expanding the pool of eligible participants to include private and home-schooled students provides desired services to those families who have not otherwise accessed the public school system.

Your Committees have amended this measure by:

- (1) Including students who are home-schooled or attend private schools among those eligible to participate in the dual credit program;
- (2) Requiring that qualifications for enrollment in the dual credit program be uniform across all campuses offering dual credit program courses; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 374, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 374, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Thielen, Slom).

Higher Education and the Arts

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 234 (Joint) Education and Judiciary and Labor on S.B. No. 1346

The purpose and intent of this measure is to amend the probationary period required of licensed charter school teachers, who are not tenured in the Department of Education, upon entering or returning to the Department of Education.

Your Committees received testimony in support of this measure from the Department of Education. Your Committees received comments on this measure from the State Public Charter School Commission, Hawaii State Teachers Association, and Hawaii Public Charter Schools Network.

Your Committees find that this measure provides necessary revisions to allow the Department of Education to align probationary requirements for all incoming teachers. It corrects the existing inequity that allows a licensed charter school teacher to enter or return to the Department of Education and gain tenure after only one year, whereas licensed Department of Education teachers must serve three years of probation. The three-year probationary period is necessary to provide sufficient time for principals to observe and support probationary teachers before awarding tenure.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1346 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Shimabukuro, Slom).

SCRep. 235 (Joint) Education and Judiciary and Labor on S.B. No. 822

The purpose and intent of this measure is to:

- (1) Require all public schools, excluding charter schools and multi-track public schools, to implement a school year that includes nine hundred ninety student hours in the 2015-2016 school year and all years thereafter;
- (2) Repeal the requirement that all public schools, excluding charter schools and multi-track public schools, implement a school year that includes one thousand eighty student instructional hours and one hundred eighty school days in the 2016-2018 school years; and
- (3) Clarify that the definition of "student instructional hours" shall be determined by the Board of Education in consultation with the exclusive representatives of the appropriate bargaining units.

Your Committees received testimony in support of this measure from the Hawaii Public Charter Schools Network, Hui for Excellence in Education, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association, UNITE HERE Local 5, IMUAlliance, and forty-six individuals. Your Committees received comments on this measure from the Department of Education and three individuals.

Your Committees find that a defined number of required school days and hours is necessary to ensure that students across the state are receiving similar service throughout the public schools. Prior to the institution of a mandatory number of school days, it was found that schools held varying numbers of school days. The differences were substantial; with the difference between the school with the fewest number of days and the school with the greatest number of days being thirty-six school days.

Your Committees further find that absent a mandatory number of school days, it was possible to institute a furlough upon school personnel. The furlough, which resulted in the loss of seventeen school days, left many parents without childcare for their children and shortchanged students' instructional time. Mandating a number of school days also works to prevent another round of similar furloughs in the future.

Your Committees further find that schools are struggling to meet the student instructional hours required under section 302A-251, Hawaii Revised Statutes, within the framework of the current unit (5) collective bargaining agreement. Schools need flexibility, which can be found by relaxing the definition of "student instructional hours" and counting the entire school day toward the one thousand eighty hours required annually.

Your Committees have amended this measure by:

- (1) Reinstating the requirement of implementing a school year that includes one thousand eighty student instructional hours and one hundred eighty school days in the 2016-2018 school years;
- (2) Replacing all references to "student instructional hours" with "student hours"; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 822, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 822, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7; Ayes with Reservations (Chun Oakland). Noes, none. Excused, 2 (Dela Cruz, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Shimabukuro, Slom).

SCRep. 236 (Joint) Education and Judiciary and Labor on S.B. No. 819

The purpose and intent of this measure is to bar prohibition of student or class participation in a fundraiser or charitable activity in conjunction with a nonprofit organization as part of a school project when participation benefits student learning.

Your Committees received testimony in support of this measure from the Department of Education, IMUAlliance, and the Hawaii Public Charter Schools Network. Your Committees received testimony in opposition to this measure from the Democratic Party of Hawaii Gay, Lesbian, Bisexual, and Transgender Caucus; Rainbow Family 808; and one individual. Your Committees received comments on this measure from the Hawaii State Ethics Committee and American Civil Liberties Union of Hawaii.

Your Committees find that it is important for students and schools to partner with nonprofit community organizations to foster civic engagement and service learning. Student participation in fundraising or charitable activities promotes character education pursuant to Board of Education Policy 2109. Provided that the educational value of the endeavor is defined and carried out, and no student is pressured to participate, fundraising and charitable activities that are conducted in conjunction with nonprofit organizations give students opportunities to connect with the greater community while engaging in hands on learning experiences.

Your Committees have amended this measure by:

- (1) Adding language that requires the Department of Education to adopt reasonable, objective criteria pursuant to chapter 91, Hawaii Revised Statutes, for the selection of fundraising or charitable activities to ensure that such activities benefit student learning; and
- (2) Requiring that the criteria adopted by the Department of Education prohibits coercing or pressuring students or their families to participate in fundraising activities.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 819, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 819, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Shimabukuro, Slom).

SCRep. 237 Education on S.B. No. 1320

The purpose and intent of this measure is to establish a Hawaii Public Schools Financial Literacy Task Force.

Your Committee received testimony in support of this measure from the Hawaii Credit Union League and five individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that financial literacy is essential for economic success. Arming students with information about interest, credit, loans, budgets, bills, and other facets of personal finance will help students understand how to prioritize and meet financial goals. Many individuals don't learn about finances and managing money until they join the workforce, which often results in having to learn from their financial mistakes through trial and error which can be costly and time-consuming. Proactively educating students about finances may encourage them to get a head-start on savings, avoid financial pitfalls, and achieve financial success.

Your Committee has amended this measure by:

- (1) Adding clarifying language specifying that the Department of Education shall convene the initial meeting of the task force, at which time the chairperson shall be selected;
- (2) Reducing the number of task force members from eighteen to eleven;
- (3) Changing the composition of the task force to include one representative from the Department of Education; one representative from the Hawaii State Teachers Association; three individuals with experience as a teacher, vice-principal, or principal; three individuals from financial institutions; and three individuals to serve as at-large members;
- (4) Deleting the appropriation of funds to the Department of Education; and
- (5) Making the measure effective upon approval rather than on July 1, 2015.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1320, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Thielen, Sлом).

SCRep. 238 Education on S.B. No. 900

The purpose and intent of this measure is to establish a State Seal of Biliteracy to be affixed to certificates of recognition awarded to graduating students who attain proficiency in English and at least one other language.

Your Committee received testimony in support of this measure from the Department of Health Office of Language Access; University of Hawaii System; University of Hawaii Office of the State Director for Career and Technical Education; University of Hawaii at Manoa Department of Indo-Pacific Languages and Literatures; University of Hawaii at Manoa Department of Second Language Studies; Kapiolani Community College Department of Languages, Linguistics, and Literature; Chamber of Commerce Hawaii; Enterprise Honolulu; Hawaii Educational Policy Center; Hawaii TESOL; Hawaii Association of Teachers of Japanese; Hawaii Association of Language Teachers; Alliance Francaise of Hawaii; Little Ambassadors; American Association of Teachers of French Hawaii Chapter; Aloha State Association of the Deaf; Gallaudet University Alumni Association of Hawaii; Hawaii Deaf Surfriders Association; American Council on the Teaching of Foreign Languages; Hawaii School for the Deaf and the Blind Alumni Club; Chinese Language Education Association of Hawaii; and thirty-four individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that proficiency in a foreign language is a valuable and marketable skill. It is also a skill that enables greater cultural awareness and understanding. The State Seal of Biliteracy will recognize the value of language proficiency whether the language was acquired in the home prior to learning English, through cultural immersion, or in the classroom. The State Seal of Biliteracy will recognize proficiency in world languages including American Sign Language.

Your Committee further finds that the State Seal of Biliteracy will recognize the value of first languages and encourage children of families who speak a language other than English in the home to be proud of their language skills, and to encourage further development of the first language and English. Such skills should be recognized as a personal achievement and as a marketable skill. State government, business, the tourism industry, and higher education all need multi-lingual speakers to meet the needs of their clients. Over time, the State Seal of Biliteracy will be a recognizable standard of language proficiency.

Your Committee further finds that establishing the State Seal of Biliteracy program would be complemented by the institution of a credit-by-exam initiative. Credit-by exam programs give students an opportunity to receive course credit by demonstrating proficiency in a subject area. Since the State Seal of Biliteracy would require such proof by means other than earning course credit, the Department of Education may consider a policy to award foreign language credit to those who earn the State Seal of Biliteracy.

Your Committee has amended this measure by:

- (1) Specifically including American Sign Language among the world languages for which the State Seal of Biliteracy may be awarded;
- (2) Adding language recognizing the importance of the world language resources that immigrant English language learner students bring to Department of Education schools;
- (3) Adding language to recognize and promote the continual development of the first languages of immigrant students as a means of achieving biliteracy;
- (4) Adding language to permit demonstration of a high level of proficiency in one or more languages other than English by demonstrating first language proficiency in speaking, listening, reading, and writing, in a language other than English, as certified by the student's high school to the superintendent; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 900, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Keith-Agaran, Kouchi, Thielen, Sлом).

SCRep. 239 Education on S.B. No. 843

The purpose and intent of this measure is to:

- (1) Amend or repeal various provisions of chapter 302A, Hawaii Revised Statutes, as related to early childhood education, that fall under the purview of the Executive Office on Early Learning or are covered by another section of the Hawaii Revised Statutes; and
- (2) Amend various provisions of chapter 302L, Hawaii Revised Statutes, for housekeeping purposes.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Chamber of Commerce Hawaii, PHOCUSED, Hui for Excellence in Education, and three individuals.

Your Committee finds that amendments to the Hawaii Revised Statutes are necessary to relieve statutory requirements placed upon the Department of Education, and appropriately assign certain responsibilities to the Executive Office on Early Learning. This measure also authorizes the Executive Office on Early Learning to expend federal funds, and makes necessary clarifying amendments.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 843 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Keith-Agaran, Thielen, Slom).

SCRep. 240 Education on S.B. No. 847

The purpose and intent of this measure is to attract national board certified teachers to teach in Title I schools, as designated under the federal Elementary and Secondary Education Act of 1965, as amended, or schools in a focus, priority, or Superintendent's zone, or other similar designation, as determined by the Department of Education through the Teacher National Board Certification Incentive Program.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hui for Excellence in Education Coalition, and IMUAlliance.

Your Committee finds that national board certified teachers are among the most highly trained and committed educators. Obtaining national board certification is a rigorous process that requires ongoing professional reflection. The State recognizes all public school teachers with national board certification with a yearly \$5,000 bonus.

Your Committee further finds that recruiting teachers for struggling schools is difficult, but often, such schools are the ones that benefit the most from an infusion of highly skilled teachers. Incentivizing national board certified teachers who teach in Title I schools or schools in a focus, priority, or Superintendent's zone, or other similar designation will encourage national board certified teachers to work in those schools. Such high quality teachers will likely work to help raise schools out of a low performing or at risk status. When this occurs, teachers should be rewarded with a continued bonus for the remainder of their certification period to recognize the teacher's contributions and to encourage the teacher to remain at the school for some time to continue the practices that helped raise school performance.

Your Committee has amended this measure by:

- (1) Specifying that all components of the certification program of the National Board for Professional Teaching Standards must be complete to qualify for the national board certification incentive program's \$1,500 incentive;
- (2) Adding Title I schools to the list of schools where a national board certified teacher may work to receive an additional yearly \$5,000 bonus; and
- (3) Adding an additional \$5,000 bonus per year for any public school teacher who received a yearly bonus for teaching at a school in a focus, priority, or Superintendent's zone, or other similar designation as determined by the Department of Education; a school with a high turnover rate, as determined by the Department; a Title I school; or a hard-to-fill school, as determined by the Department, maintains national board certification, and continues teaching at that school after it is no longer so designated; and specifying that this bonus continues until the end date of the teacher's national board certification in effect at the time the school lost its designation, or until the teacher is no longer employed at the school, whichever occurs first.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 847, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 847, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Dela Cruz).

SCRep. 241 (Joint) Government Operations and Economic Development and Technology and Energy and Environment on S.B. No. 1295

The purpose and intent of this measure is to:

- (1) Encourage efficiency by authorizing the Natural Energy Laboratory of Hawaii Authority and Department of Business, Economic Development, and Tourism to enter into inter-agency agreements for the purposes of coordinating resources, eliminating unnecessary duplication, and effectuating the purposes of chapters 201 and 227D, Hawaii Revised Statutes; and
- (2) Incentivize the research, development, and commercialization of renewable energy technology in Hawaii by allowing these business activities to qualify a business for incentives under the state enterprise zones program.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Natural Energy Laboratory of Hawaii Authority.

Your Committees find that it is important to promote efficiency in government. Providing state agencies with a framework for coordinating resources and eliminating waste is an important step toward saving money that can be more productively used elsewhere.

Your Committees further find that research, development, and commercialization of renewable energy technology in Hawaii should be incentivized. Renewable energy technology is important for Hawaii's economy as it generates demand for jobs in science and engineering and promises to produce clean energy that will help Hawaii gain greater independence from oil for energy production.

As affirmed by the records of votes of the members of your Committees on Government Operations, Economic Development and Technology, and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1295 and recommend that it pass Second Reading and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Ayes, 4. Noes, none. Excused, 3 (Baker, Espero, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 242 (Joint) Government Operations and Economic Development and Technology on S.B. No. 523

The purpose and intent of this measure is to:

- (1) Authorize the Governor to establish a Statewide Fair Access Commission;
- (2) Require the Statewide Fair Access Commission and the Joint Legislative Access Committee to review, evaluate, and make recommendations for improving the level of access by neighbor island and rural Oahu residents to proceedings, information, and services of government; and
- (3) Appropriate funds to carry out the work of the Statewide Fair Access Commission.

Your Committees received testimony in support of this measure from the Office of Information Management and Technology. Your Committees received comments on this measure from the League of Women Voters of Hawaii.

Your Committees find that public access to government is fundamental to the democratic process. Due to the State's geography and the fact that most government functions are clustered in the urban core of Honolulu, it is necessary to go to additional lengths to ensure access to state government by residents of Kauai, Maui, and Hawaii Counties.

Your Committees have amended this measure by:

- (1) Clarifying that the Governor is responsible for fair access to the Executive Branch of government;
- (2) Clarifying that the Statewide Fair Access Commission would address public access to the Executive Branch of government;
- (3) Replacing the terms "audio and video broadcasts" with the terms "electronic broadcasts and on-demand electronic recordings";
- (4) Deleting the proviso concerning Judiciary determination of which Judiciary records are not subject to public disclosure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 523, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 523, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Economic Development and Technology

Ayes, 4. Noes, none. Excused, 3 (Baker, Espero, Slom).

SCRep. 243 Government Operations on S.B. No. 165

The purpose and intent of this measure is to establish the Department of Accounting and General Services as the department responsible for negotiating and processing leases for state departments.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii and Building Industry Association Hawaii. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services, Department of Land and Natural Resources, Department of Transportation, and University of Hawaii System.

Your Committee finds that leadership among state departments is necessary to effectuate proper planning, development, and use of state property. A broad perspective that takes into account state properties controlled by various departments and agencies is vital to thoughtful and effective development. Such planning is especially needed in the area of transit-oriented development, as the State is the largest owner of land along the rail line. With its experience in certain lease negotiations, the Department of Accounting and General Services is an appropriate agency to take the lead in coordinating leases of state property controlled by all state agencies and departments.

Your Committee further finds that the intent of this measure is that no state land upon which a facility rests be sold to a private investor.

Your Committee has amended this measure by:

- (1) Deleting the words "private real property" from language requiring the Department of Accounting and General Services to be responsible for leases for departments and agencies of the State;

- (2) Adding language requiring the Department of Accounting and General Services to facilitate facility agreements between the State and private investors, and further requiring that the agreements include the following requirements:
 - (A) The State shall sell the facility to the private investor, who shall renovate, improve, or construct a facility for the State, maintain the facility, and lease the facility to the State, pursuant to a building lease; and
 - (B) The State shall have the option of purchasing the facility from the private investor for the remaining balance of the debt service costs incurred by the private investor at any time;
- (3) Adding necessary definitions;
- (4) Authorizing the Department of Accounting and General Services to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, for the implementation of facility agreements;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 165, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 165, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 244 (Joint) Government Operations and Commerce and Consumer Protection on S.B. No. 1186

The purpose and intent of this measure is to:

- (1) Expand the definition of “personal information” as used in chapter 487N, Hawaii Revised Statutes; and
- (2) Impose additional notice requirements upon businesses that own or license personal information of residents of Hawaii, businesses that conduct business in Hawaii that own or license personal information in any form, and any government agency that collects personal information for specific purposes regarding notification of any security breach to affected persons.

Your Committees received testimony in support of this measure from the Judiciary. Your Committees received testimony in opposition to this measure from the Hawaii Information Consortium. Your Committees received comments on this measure from the Office of Information Management and Technology, Office of Information Practices, Consumer Data Industry Association, American Council of Life Insurers, and State Privacy and Security Coalition, Inc.

Your Committees find that information security is a growing concern as personal information is increasingly available through various modes of technology. Laws related to security breaches of personal information require some flexibility to provide for police investigation of the breach and to require adequate notice to affected persons. They must also be tailored in a way that does not inhibit businesses and government entities from using efficient means of doing business, while protecting consumers in the event of a breach.

Your Committees have amended this measure by:

- (1) Clarifying the definition of “personal information” relative to health insurance information;
- (2) Clarifying the definition of “personal information” relative to an online user name, electronic mail address, or social media user name or account;
- (3) Deleting the requirement that notification be made no later than forty-five days following the determination of the breach;
- (4) Deleting the prohibition against providing affected persons notice of a security breach through electronic mail in the event that the security breach involved personal information including the login credential of an electronic mail account; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1186, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1186, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 245 Public Safety, Intergovernmental and Military Affairs on S.B. No. 677

The purpose and intent of this measure is to provide the Mayor of each county with the authority to remove the respective county Chief of Police for good and just cause.

Your Committee received testimony in support of this measure from the Hawaii State Coalition Against Domestic Violence, IMUAlliance, and three individuals. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that the public's trust in the county police departments must be restored. Implementation of this measure will encourage greater accountability within each of the county police departments and strengthen the public's trust in law enforcement.

Your Committee has amended this measure by requiring the Mayor of each county to have the approval of the Police Commission in order to remove the respective county Chief of Police for good and just cause.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 677, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 677, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 246 Public Safety, Intergovernmental and Military Affairs on S.B. No. 771

The purpose and intent of this measure is to:

- (1) Require law enforcement officers and officers of justice to request and obtain a person's voluntary and informed consent prior to conducting a search of the person, the person's belongings, the person's residence, or the person's vehicle when conducting the search without a search warrant; and
- (2) Provide an exception for law enforcement officers or officers of justice who have probable cause to believe that a person is armed and presents a danger to the officer's safety.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons and Hawaii Association of Criminal Defense Lawyers. Your Committee received testimony in opposition to this measure from the Department of Public Safety, Honolulu Police Department, County of Hawaii Police Department, Hawaii Innocence Project, and two individuals.

Your Committee finds that many people in the State are unaware of their rights when interacting with law enforcement officers. A specific area of concern is a law enforcement officer's power to search a person without a search warrant. The legal validity of purported consents to search is an often litigated issue in criminal cases. Implementation of this measure will protect law enforcement officers from false claims of wrongdoing and ensure the efficiency and effectiveness of the State's criminal justice system.

Your Committee has amended this measure by:

- (1) Expanding the exception for law enforcement officers or officers of justice to include a search that is constitutionally justified by another precise, well-established and judicially approved exception to the search warrant requirement; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 771, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 771, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 247 (Joint) Public Safety, Intergovernmental and Military Affairs and Health on S.B. No. 1130

The purpose and intent of this measure is to:

- (1) Amend involuntary medical treatment criteria to include an inmate or detainee who poses a danger of physical harm to others;
- (2) Define "danger of physical harm to others" and "danger of physical harm to self";
- (3) Allow for a declaration to be filed with the petition as an alternative to an affidavit for the initiation of a proceeding for involuntary medical treatment;
- (4) Authorize the court to appoint a guardian ad litem or a temporary guardian to represent a person, if the person is unable to participate, at any point during the proceedings and after the filing of the petition;
- (5) Amend the time requirement for filing a court order for medical treatment from a period of within two days of an examination of the person to within five days;
- (6) Amend the list of persons who must be notified of the hearing on petition for involuntary medical treatment to either the person's legal guardian or emergency contact listed;
- (7) Clarify the effective expiration date of the order for persons who return to custody after release; and
- (8) Authorize the extension of an existing involuntary treatment order if certain criteria are met.

Your Committees received testimony in support of this measure from the Department of the Attorney General and Department of Public Safety.

Your Committees find that an efficient and responsive court process enables medical staff at correctional facilities to provide critical and necessary medical treatment. Timely medical treatment results in the improved mental and physical condition of inmates and

detainees. Implementation of this measure addresses necessary modifications to the process of petitioning for involuntary medical treatment orders for inmates and detainees in the custody of the Department of Public Safety.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1130 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 248 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1335

The purpose and intent of this measure is to define “custody”, as used in the offense of sexual assault in the third degree, to mean a person who is stopped by or under the control of a law enforcement officer for official purposes, including but not limited to a law enforcement officer making a traffic stop and requesting any identification, license, or registration.

Your Committee received testimony in support of this measure from the Department of Public Safety, IMUAlliance, Remington College Criminal Justice Student Coalition, and three individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that there was a recent incident in which a Honolulu police officer was indicted on a third-degree sexual assault charge for knowingly subjecting a teenage girl in custody, as a result of a traffic stop, to sexual contact. However, the indictment against the officer was dismissed with prejudice due to the court’s interpretation of “custody” in section 707-732, Hawaii Revised Statutes. This measure seeks to provide the courts with clarification on how “custody” is to be interpreted under section 707-732, Hawaii Revised Statutes. Implementation of this measure will further public safety by prohibiting law enforcement officers from knowingly subjecting to sexual contact a person in custody, including during traffic stops.

Your Committee has amended this measure by:

- (1) Inserting a purpose section to provide the intent and purpose of the measure;
- (2) Amending the definition of “custody” to “person in custody” and clarifying the definition; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1335, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1335, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 249 Water and Land on S.B. No. 263

The purpose and intent of this measure is to appropriate funds for the replenishment of the beach at Ke‘ehi Lagoon Beach Park.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Na Opio Canoe Racing Association, Na Ohana O Na Hui Wa‘a, and three individuals.

Your Committee finds that the beach at Ke‘ehi Lagoon Beach Park has deteriorated. Over time, the sand has disappeared and jagged rocks and asphalt now protrude, creating dangerous conditions for the children and youth who come for canoe racing practices and competitions. This community attraction is no longer safe for people to enjoy or engage in recreational activities.

Your Committee further finds that Ke‘ehi Lagoon Beach Park is an urban beach park managed by the City and County of Honolulu that has been a popular place for canoe racing and boating for many years. Although the man-made beach is not suitable for swimming, it is an extremely valuable location to the canoe racing and boating community. As the home to countless practice sessions and many outrigger canoe regattas, the Ke‘ehi Lagoon has touched the lives of thousands of Hawaii’s children and youth throughout the years and is a community resource that should be cherished and maintained for many years to come.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 263 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 250 Water and Land on S.B. No. 886

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for a capital improvement project to design and construct a new small boat harbor in Puko‘o, Moloka‘i.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from Ka ‘Aha Kiole o Moloka‘i and ten individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the island of Moloka'i continues to have discussions on whether a new small boat harbor and/or boat ramp is needed. The construction of such resources would be beneficial for residents of that island, particularly those living on the populated east end of Moloka'i. Due to shallow mud flats and fringing reefs, there are few areas with sufficiently deep channels for safe and easy marine access.

Your Committee further finds that most families on the east end of Moloka'i rely on the sea for their daily source of food. Today, with fewer edible food resources close to shore, fishermen are forced to travel farther out to sea to catch fish.

Your Committee further finds that some of the testifiers expressed the need for more community input into the process of developing a new harbor.

Your Committee has amended this measure by:

- (1) Amending the purpose of the authorization for the issuance of general obligation bonds to the planning, design, and construction of a new boat ramp on Moloka'i and conducting of a feasibility study for a new small boat harbor to be located in Puko'o, Moloka'i; and
- (2) Amending the purpose section accordingly.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 886, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 886, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 251 Water and Land on S.B. No. 718

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and to appropriate funds for the Lahaina flood control project as a match to an appropriation by the County of Maui of not less than \$2,540,000 or twenty percent of the estimated cost of the project.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that public safety continues to be a major priority for the State and that the completion of the final stage of the Lahaina flood control project will help prevent stormwater from inundating major portions of Lahaina town. The final stage of the project consists of constructing a mile-long diversion channel, incorporating four sediment basins, and a debris basin. The flood control project will reduce the amount of sediment discharged into the ocean and on coral reefs, protecting these fragile ecosystems and preserving Hawaii's reputation as a top tourist destination.

The intent of your Committee is to reduce the repetitive flooding of residents and businesses in Lahaina and to reduce the constant drain on city, state, and federal resources whenever a flood occurs by securing funds, as a match to an appropriation by the County of Maui, to finish the Lahaina flood control project in its last and most critical stage.

Your Committee has amended this measure by:

- (1) Clarifying that the Lahaina flood control project shall be owned and managed by the County of Maui;
- (2) Changing the expending agency to the county of Maui, as they are funding a portion of the project but will be responsible for the complete design and construction of the entire project;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 718, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 718, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 252 Water and Land on S.B. No. 525

The purpose and intent of this measure is to require the Commission on Water Resource Management to consist of at least one member representing each county who is a resident of that county.

Your Committee received testimony in support of this measure from the Hawaii Hunting Association; The Society for Hawaii Heritage Animals; Kona-Kohala Chamber of Commerce; and three individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee notes that the Department of Land and Natural Resources testimony in opposition was based on the concern that the requirement concerning geographical representation in this measure would come at the expense of the requirement that all Commissioners have substantial experience in water management. The Department of Land and Natural Resources' representative at the hearing, who has been employed by the Commission on Water Resource Management since 1989, acknowledged that a number of Commissioners have lived on the neighbor islands and served with distinction.

Your Committee agrees that it is critical for members of the Commission on Water Resource Management to have substantial experience in the area of water resource management, but felt that it is possible to find such members on each of the various islands of the State.

Your Committee has amended this measure by:

- (1) Requiring the Commission on Water Resource Management to consist of at least one member representing each county who is a resident of that county and who also has substantial experience in the area of water resource management;
- (2) Clarifying that geographic appointments to the Commission on Water Resource Management shall be phased in as vacancies occur; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 525, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 525, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Riviere, Ruderman, Slom).

SCRep. 253 Water and Land on S.B. No. 502

The purpose and intent of this measure is to make an appropriation to the Division of Conservation and Resources Enforcement for personnel services, current expenses, equipment, and motor vehicles.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy of Hawai'i, Hawaii Hunting Association, Kua'aina Ulu 'Auamo, Humane Society of the United States, and ten individuals. Your Committee did not receive any testimony in opposition to this measure.

Your Committee finds that the Division of Conservation and Resources Enforcement's budget was significantly cut during the economic recession. The Division has not yet restored the non-personnel operating funds that are essential to properly train, equip, and protect law enforcement officers. Consequently, the Division has been unable to fill vacant officer positions due to a lack of ability to fund start-up costs to support enforcement personnel, including in-service training expenses, operating supplies, office furniture, utility expenses, broadband capabilities, and computers and printers.

Your Committee further finds that the lack of sufficient non-personnel operational funding has left the Department unable to safeguard officers and enable them to effectively and efficiently enforce laws and regulations, including through the provision of uniforms, body armor, duty gear, telecommunications, training and travel, mobile and portable radios, laptop computers, miscellaneous equipment, rifles and shotguns, emergency lights and sirens, night vision goggles, and vehicle and vessel fuel, oil, maintenance, and repair.

Your Committee further finds that the vastness of the geography and diversity of the terrain on each island make it very challenging for the Department of Land and Natural Resources to perform its responsibilities and obligations to each island. Compounding the challenges is the fact that over the years the Department of Land and Natural Resources has acquired thousands of acres of new land and numerous statutory and regulatory responsibilities to police, without a commensurate increase in the size of enforcement abilities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 502, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Riviere, Ruderman, Slom).

SCRep. 254 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1021

The purpose and intent of this measure is to remove the public funds restriction and appropriates general funds for construction of the state law enforcement memorial.

Your Committees received testimony in support of this measure from the Department of Public Safety and Honolulu Police Department.

Your Committees find that Act 14, Session Laws of Hawaii 2011, requires that a state law enforcement memorial be constructed in the Capitol district. This memorial will honor law enforcement officers from city, county, state, military, and federal agencies who have died in the line of duty, while serving the people of Hawaii. The Hawaii Law Enforcement Memorial Foundation has raised \$500,000 toward construction of the memorial and has selected a design for the memorial. This measure will enable construction to commence.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1021 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 255 (Joint) Water and Land and Transportation on S.B. No. 1251

The purpose and intent of this measure is to:

- (1) Establish a Transit Oriented Development Coordinator position within the Office of Planning; and
- (2) Make an appropriation to establish the Transit Oriented Development Coordinator position.

Your Committees received testimony in support of this measure from the Office of Planning and one individual.

Your Committees find that the State owns a number of parcels of land along the Oahu rail route and would greatly benefit from having a specialized planner to work with various state agencies who manage lands to coordinate with the Office of Planning. Your Committees further find that the Office of Planning is the appropriate agency to house a planner with specialized expertise in transit oriented development projects to coordinate and develop the State's transit oriented development strategy.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1251 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land
Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

Transportation
Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Kidani, Kouchi, Slom).

SCRep. 256 Agriculture on S.B. No. 224

The purpose and intent of this measure is to create an exclusion from income tax for the first \$50,000 of income earned by new, small, and diversified farming businesses.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, and one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that the two largest trade imbalances in the State are in the areas of energy and agriculture. Over the past few years, Hawaii has been addressing its over-reliance on imported fossil fuel and now needs to address the imbalance in agricultural trade by significantly expanding local food production. Your Committee further finds that the growth of small, diversified farming businesses will add to and diversify Hawaii's economy and help redress the imbalance in agricultural trade.

Your Committee also finds, as raised in testimony, that many farmers in Hawaii receive income from non-food production and therefore a large number may not qualify for the tax credit in this measure under the current definitions.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the terms "family farm", "family farm community", and "family farm cooperative" with the term "farmer";
- (2) Defining "farmer" as an individual with seventy-five per cent of annual gross income earned from farm products sold within the State;
- (3) Requiring a farmer to have an annual gross income of \$200,000 or less to qualify for the tax credit; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 224, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 224, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 257 (Joint) Agriculture and Judiciary and Labor on S.B. No. 375

The purpose and intent of this measure is to authorize industrial hemp to be grown for purposes of research conducted under an agricultural pilot program or other agricultural or academic research by an institution of higher education or by others acting under specific agreement with and under the authority of the Hawaii Department of Agriculture.

Your Committees received testimony in support of this measure from the University of Hawaii System, Hawaii Farm Bureau, Hawaii Farmers Union United HTFG, Maui Cattlemen's Association, Maui Farmers Union United, Green Futures, Hawaii Farmers Union United, CannaCure LLC, and eighty-one individuals. Your Committees received testimony in opposition to this measure from the Honolulu Police Department. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that modern production methods have utilized hemp oilseed to make high-grade food and beauty products and the hemp stalk fiber and cellulose to make everything from automotive parts and fine clothing to building materials and fuel. According to estimates by the Hemp Industries Association, retail sales of industrial hemp products in the United States have grown steadily since 1990 to more than \$580,000,000 annually in 2013. Additionally, the intermediate processing of hemp seed, oil, food

ingredients, and fiber could create jobs in close proximity to the fields of cultivation. As raised in testimony, cultivation of hemp could lead to a renaissance of activity in Hawaii.

Your Committees further find that support for industrial hemp farming is occurring at the national level. California, Colorado, Delaware, Hawaii, Illinois, Indiana, Kentucky, Maine, Montana, Nebraska, North Dakota, Oregon, South Carolina, Tennessee, Utah, Vermont, Washington, and West Virginia have defined industrial hemp as a distinct agricultural crop and removed barriers to its production. Furthermore, President Obama signed the 2014 Farm Bill into law, which authorizes industrial hemp research and pilot programs in states that regulate hemp farming under the authority of the state department of agriculture. Farmers and universities in Colorado, Kentucky, and Vermont have already planted hemp crops to conduct pilot programs after registering with their state department of agriculture.

Your Committees have amended this measure by amending the definition of “industrial hemp”.

As affirmed by the records of votes of the members of your Committees on Agriculture and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 375, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 375, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 258 Higher Education and the Arts on S.B. No. 1144

The purpose and intent of this measure is to clarify the application of the State Ethics Code to allow technology transfer activities sponsored by the University of Hawaii so long as the activities are likely to create specific benefits to the State or the public, notwithstanding the simultaneous creation of a commercial benefit or individual personal benefit.

Your Committee received testimony in support of this measure from the University of Hawaii System. Your Committee received testimony in opposition to this measure from Hawaii State Ethics Commission

Your Committee finds that it is a matter of statewide concern to support the contributions by the University of Hawaii to the economic health and diversification of the State. The legislature further finds that the timely and efficient commercialization of intellectual property created by basic and applied research at the University of Hawaii benefits the public. Efficient and effective technology transfer, however, may be hampered by overly broad interpretation of general conflict of interest, fair treatment, and employment restrictions contained in the State Ethics Code.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1144, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 259 Higher Education and the Arts on S.B. No. 194

The purpose and intent of this measure is to establish the Hawaii Commission on African American History and Culture to recognize the contributions of the African American people in Hawaii and educate residents and visitors to the State about these contributions.

Your Committee received testimony in support of this measure from the Hawaii State Foundation on Culture and the Arts and one individual.

Your Committee finds that since the arrival of the first African Americans in Hawaii between 1778 and 1850, the African American people have contributed significantly to all phases of Hawaii’s development. The rich culture and proud heritage of the African American people have been and continue to be positive influences upon life in Hawaii. However, little is known or preserved due to a lack of understanding and racial divides. Recognition of the contributions of the African American people and their culture is important to the promotion and awareness of Hawaii’s diverse and multicultural society.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 194, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 260 Higher Education and the Arts on S.B. No. 160

The purpose and intent of this measure is to address particular recommendations concerning non-general funds of the University of Hawaii as set forth in Auditor Report No. 14-18, dated December 2014.

Your Committee received testimony in support of this measure from the Office of the Auditor and University of Hawaii System. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that timely review and consideration of the University of Hawaii's special funds facilitates the efficient and effective use of State funds, and that each non-general fund continues to serve the purpose for which it was created. This measure reclassifies special funds that are essential to their respective program areas while repealing those found to be no longer necessary or not meeting the criteria for continuance under law.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 160, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 261 Higher Education and the Arts on S.B. No. 1177

The purpose and intent of this measure is to appropriate funds for the establishment of four full-time equivalent (4.0 FTE) positions at the State Foundation on Culture and the Arts.

Your Committee received testimony in support of this measure from the Hawaii Arts Alliance and one individual. Your Committee received comments on this measure from the State Office of the Auditor and the State Foundation on Culture and the Arts.

Your Committee finds that the State Foundation on Culture and The Arts currently lacks an adequate number of staff personnel to promptly and thoroughly respond to and complete requested services relating to works of art projects in new State construction. This measure will resolve this issue by appropriating funds to hire additional staff.

Your Committee has amended this measure by changing the source of funds for the appropriation from general funds to the Works of Art Special Fund.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1177, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1177, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 262 (Joint/Majority) Higher Education and the Arts and Judiciary and Labor on S.B. No. 638

The purpose and intent of this measure is to allow graduate students of the University of Hawaii to engage in collective bargaining.

Your Committees received testimony in support of this measure from the University of Hawaii Professional Assembly, University of Hawaii Graduate Student Organization, University of Hawaii Student Caucus, Hawaii State AFL-CIO, UNITE HERE Local 5, and twenty-six individuals. Your Committees received testimony in opposition to this measure from the Office of Collective Bargaining, University of Hawaii System, and one individual.

Your Committees find that graduate students provide invaluable service in their employed positions of research and instruction. This service is critical to the continued success of the University of Hawaii. Despite the valued nature of their work, these students are often paid inadequate wages and are statutorily barred from engaging in collective bargaining as a means by which to improve their wages and standard of living.

Your Committees further find that graduate students earn an annual wage that is in the lowest ten percent of the nation, which is particularly significant when this low wage is considered in conjunction with the higher costs of living in Hawaii than elsewhere in the nation.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 638 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Kidani, Wakai).

Judiciary and Labor

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Espero).

SCRep. 263 (Joint) Higher Education and the Arts and Agriculture on S.B. No. 377

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and to appropriate funds for a food innovation center that shall be operated by Kapiolani Community College for the purpose of utilizing processing-grade, locally grown farm products to manufacture prepared meals in a large-scale kitchen.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawaii System, High Technology Development Corporation, Kauai Chamber of Commerce, Hawaii Farm Bureau Federation, Hawaii Farmers Union United, Pioneering Healthier Communities-Honolulu, 'Ai Pohaku, Hawaii Island School Garden Network, Maui Cattlemen's Association, Laakea Community LLC, and twenty-five individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that agriculture is one of the three major state industries due to the fertile land statewide that is capable of producing high-quality farm products. Due to the absence of a large-scale food manufacturing industry in Hawaii, between ten percent and thirty percent of second-grade or processing-grade farm products are not ultimately sold commercially or otherwise exchanged for profit. This loss of revenue has the potential to deeply impact the state economy currently and in the future. Accordingly, the innovative pilot kitchen to be installed at Kapiolani Community College for the preparation, analysis, and processing of food would provide a solid foundation of projected industry trends, food hubs, and the increased demand in the future for food and food-related jobs.

Your Committees have amended this measure to make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 377, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 377, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Thielen, Slom).

SCRep. 264 Higher Education and the Arts on S.B. No. 369

The purpose and intent of this measure is to exempt adoption of selected regulations by the University of Hawaii Board of Regents from chapter 91, Hawaii Revised Statutes, and require adoption of selected regulations to be subject to chapter 92, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the University of Hawaii System. Your Committee received testimony in opposition to this measure from the League of Women Voters.

Your Committee finds that, under current law, the University of Hawaii must adopt rules pursuant to chapter 91, Hawaii Revised Statutes for particular programs and operations, such as the operation and management of equipment and inventory, and the administration of named scholarships. The University of Hawaii Board of Regents is also required, under current law, to comply with the requirements of chapter 92, Hawaii Revised Statutes, to conduct open public meetings and provide opportunity for testimony and comment on matters listed on a meeting agenda prior to decision making by the Board of Regents.

Your Committee also finds the complex and numerous requirements of the University set forth in chapters 91 and 92, Hawaii Revised Statutes, are often duplicative and pose a significant obstacle to the University's ability to efficiently and promptly respond and resolve issues for which the University is responsible.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 369, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 369, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kidani, Wakai).

SCRep. 265 (Joint) Higher Education and the Arts and Agriculture on S.B. No. 314

The purpose and intent of this measure is to appropriate monies for critical staff positions in the University of Hawaii College of Tropical Agriculture and Human Resources Cooperative Extension Service.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawaii System; Kauai County Council; Hawaii Farm Bureau; Hawaii Farmers Union United; Kauai Chamber of Commerce; Kauai County Farm Bureau; Kauai Kunana Dairy; Hawaii Island School Garden Network; Maui Cattlemen's Association; Laakea Community LLC; 'Ai Pohaku; DuPont Pioneer; Hawaii Floriculture and Nursery Association; Hawaii Cattlemen's Council, Inc.; and thirty-five individuals.

Your Committees find that the University of Hawaii College of Tropical Agriculture and Human Resources is in critical need of personnel for its cooperative extension service to improve and strengthen Hawaii's sustainability in agriculture through educational programs. The College houses a cooperative extension service that partners with federal, state, and county governments, with the responsibility to provide science-based information and education programs in agriculture, natural resources, and human resources.

The extension offices are located throughout the State, with roughly twenty-five extension agents statewide. The cooperative extension service provides valuable tools that the public can use to strengthen communities and sustain Hawaii's agricultural economy. Extension personnel provide various services to the communities within each county, ranging from individual consultations,

educational workshops, and short courses on relevant subjects, including agriculture, home economics, family living, 4-H and other youth activities, nutrition, and health.

Your Committees further find that over the past twenty years the College of Tropical Agriculture and Human Resources Cooperative Extension Service has experienced a forty-three percent decrease in extension agents who service the various counties, including a twenty-seven percent decrease since 2008. The College requires an infusion of personnel and support to maintain a viable academic program and strong infrastructure for the University System.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 314 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Thielen, Slom).

SCRep. 266 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 1214

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaiian Electric Company, Inc.; Maui Electric Company, Limited; and Hawaii Electric Light Company, Inc.

Your Committees received testimony in support of this measure from Hawaiian Electric Company, Inc.; Maui Electric Company, Limited; and Hawaii Electric Light Company, Inc. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that multi-project capital improvement projects and programs to provide electric energy are in the public interest. Implementation of this measure authorizes the issuance of special purpose revenue bonds to assist Hawaiian Electric Company, Inc.; Maui Electric Company, Limited; and Hawaii Electric Light Company, Inc., in financing multi-project capital improvement projects and programs that will benefit public health, safety, and welfare.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1214 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Wakai, Slom).

SCRep. 267 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 1050

The purpose and intent of this measure is to establish the Hawaii community-based renewable energy program to make the benefits of renewable energy more accessible to a greater number of Hawaii residents.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy, Public Utilities Commission, Hawaii Green Growth, Ulu pono Initiative, Environmental Caucus of the Democratic Party of Hawaii, Blue Planet Foundation, Americans for Democratic Action, Hawaii Energy Renewable Alliance, Hawaii Solar Energy Association, Clean Energy Collective, and twenty-one individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Office of Hawaiian Affairs; and Hawaiian Electric Company, Inc.

Your Committees find that localized renewable energy generation has become increasingly attainable for all types of customers over the past several years. However, despite the rise in statewide residential solar energy use, many individuals and households are currently unable to directly participate in renewable energy because of their location, building type, access to the electric utility grid, and other impediments. Implementation of this measure will create a community-based renewable energy tariff structure that will increase access to renewable generation.

Your Committees have amended this measure by:

- (1) Clarifying that only an electric utility or the Public Utilities Commission may propose a community-based renewable energy tariff or tariffs;
- (2) Requiring the Public Utilities Commission, in establishing the community-based renewable energy tariff or tariffs, to consider various mechanisms to achieve an appropriate cost and benefit balance for participating and nonparticipating ratepayers;
- (3) Requiring a project equal to or less than one megawatt in size to be subject to streamlined and standardized interconnection approval processes established by the Public Utilities Commission;
- (4) Clarifying that all electric utility customers, irrespective of rate class, receive compensation equal to their pro rata share of interest in a portion or portions of an eligible renewable energy project that is providing electricity to the electric utility;

- (5) Eliminating the provision that nothing in the language proposing to establish the tariff system shall be construed to permit wheeling;
- (6) Eliminating the definition of “wheeling”; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1050, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1050, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Wakai, Slom).

SCRep. 268 (Joint) Energy and Environment and Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 500

The purpose and intent of this measure is to require that any environmental assessments and environmental impact statements for any major infrastructure improvement project or major construction project in any coastal lands include an analysis of the environmental impact of projected sea level rise over the anticipated lifespan of the project.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Office of Environmental Quality Control, Office of Planning, University of Hawaii System, Conservation Council for Hawaii, and four individuals. Your Committees received testimony in opposition to this measure from the Department of Design and Construction of the City and County of Honolulu, Building Industry Association of Hawaii, Chamber of Commerce Hawaii, and three individuals.

Your Committees find that state construction projects in special management areas are environmentally precarious. It is essential to take impacts related to projected sea level rise into account during the planning stage in order to protect current infrastructure investments over time. Implementation of this measure will reduce hazards and minimize costly adaption measures.

Your Committees have amended this measure by:

- (1) Replacing “sea level change” with “sea level rise”, “coastal lands” with “special management area”, and “projected sea level rise or fall” with “projected sea level rise”;
- (2) Clarifying that beginning July, 1, 2016, an environmental assessment or environmental impact statement may include an analysis of the environmental impact of projected sea level rise over the anticipated lifespan of the project;
- (3) Requiring the Office of Environmental Quality Control to work with the Hawaii Coastal Zone Management Program and relevant state agencies to provide guidance documents concerning ecological and environmental problems related to the development of the coastal zone management area;
- (4) Amending the definition of “major” to mean any project having an anticipated estimated value exceeding \$3,000,000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment, Water and Land, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 500, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 500, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 269 Public Safety, Intergovernmental and Military Affairs on S.B. No. 473

The purpose and intent of this measure is to:

- (1) Codify federal law to allow active and retired law enforcement officers to carry a concealed firearm in Hawaii pursuant to the federal Law Enforcement Officers Safety Act; and
- (2) Make conforming amendments to state firearm laws.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Institute for Rational and Evidence-based Legislation, Society for Hawaii Heritage Animals, Hawaii Hunting Association, North Pacific Firearms, Hawaii

Rifle Association, Lessons in Firearms Education, and fifty-eight individuals. Your Committee received testimony in opposition to this measure from the Domestic Violence Action Center. Your Committee received comments on this measure from the Department of the Prosecuting Attorney County of Maui, Maui Police Department, and one individual.

Your Committee finds that the Law Enforcement Officers Safety Act of 2004 (LEOSA), amended in 2010 and 2013, affords active and retired law enforcement officers the privilege of carrying a concealed firearm across state lines, including former officers who have separated after serving as law enforcement officers for ten years or more and certain military employees. However, varying state approaches to implementation have hindered the consistent and effective operation of the federal law, especially with respect to qualified retired law enforcement officers. Currently, Hawaii has not established firearm qualification standards for qualified retired law enforcement officers residing in the State or a statutory framework to uniformly permit active and qualified retired law enforcement officers to carry a concealed weapon in Hawaii. Implementation of this measure allows the Department of the Attorney General to develop and establish a consistent and effective operation of the LEOSA.

Your Committee notes that it is likely that Congress will amend the LEOSA in the future. Thus, codifying the entire Act in state law would result in the inconsistent application of federal and state laws resulting in a lack of notice and confusion for applicants until existing state law can be updated.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language proposed by the Department of the Attorney General to:

- (1) Authorize the Department of the Attorney General to develop and implement a state program and adopt rules to allow active and retired law enforcement officers to carry a concealed firearm in Hawaii pursuant to the LEOSA; and
- (2) Make a conforming amendment to state firearms laws.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 473, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 473, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 270 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1018

The purpose and intent of this measure is to appropriate funds for the Department of Public Safety, in collaboration with the Department of Transportation and Examiner of Drivers in each county, to provide civil identification cards to inmates who request the cards prior to the inmates' release.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Human Services, Hawaii Paroling Authority, Community Alliance on Prisons, and four individuals.

Your Committee finds that when Hawaii inmates are released from prison, the absence of a valid picture identification card poses many significant challenges that make their transition from incarceration to freedom more difficult. One reason why the lack of an identification card is a problem is because verifiable identification is often needed for housing, employment, and services. Implementation of this measure will facilitate successful transitions for inmates from correctional facilities to community life.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 271 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1268

The purpose and intent of this measure is to:

- (1) Require the Department of Public Safety to construct a multi-story correctional facility at the Halawa Correctional Facility to replace the existing Oahu Community Correctional Center; and
- (2) Authorize the issuance of general obligation bonds and appropriate funds for the planning, design, and construction of the multi-story correctional facility.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Community Alliance on Prisons.

Your Committee finds that the State's correctional facilities are extremely old and are in need of significant repair and maintenance. The Oahu Community Correctional Center is a critical facility that is in need of repairs and upgrades. Moving the Oahu Community Correctional Center's inmates and provided services to a new facility at the Halawa Correctional Facility, a location that is capable of accommodating a new multi-story Oahu Community Correctional Center if several older portions of the prison are torn down and replaced, furthers public safety and provides the State with a much needed modern correctional facility. Implementation of this measure is a cost-efficient way to provide the State with an improved and modern correctional facility.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1268 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 272 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1332

The purpose and intent of this measure is to:

- (1) Establish an additional sanction available to the Judiciary prior to full parole revocation; and
- (2) Define “absconded” to mean the failure of a parolee to report to the parole officer when required; and surrender within seven days following the issuance of a warrant for apprehension of the parolee.

Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Office of the Prosecuting Attorney of the County of Kauai.

Your Committee finds that Hawaii’s justice reinvestment efforts in 2012 culminated in the passage of Act 139, Session Laws of Hawaii 2012, to “reduce recidivism by using swift and certain, yet less costly and severe, responses to parole condition violations”. However, a far lower than expected rate of parolees received sanctions in lieu of revocation of parole. Implementation of this measure provides for greater eligibility of parolees for sanctions by limiting the definition of “absconded” and establishing an additional sanction available prior to full revocation of parole.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1332, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1332, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 273 Judiciary and Labor on S.B. No. 1298

The purpose and intent of this measure is to appropriate unspecified funds to the Office of Elections, Senate, and House of Representatives for duties necessary to enable registered voters to vote at the 2016 general election on state constitutional amendments proposed by the Legislature during the Regular Session of 2015 and 2016.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee finds that this measure facilitates the electorate to vote on proposed amendments to the Hawaii State Constitution.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1298, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 274 Judiciary and Labor on S.B. No. 1129

The purpose and intent of this measure is to amend the laws relating to the time share commissioner of deeds program by:

- (1) Clarifying the Lieutenant Governor’s rulemaking authority to implement chapter 503B, Hawaii Revised Statutes (HRS);
- (2) Authorizing the Lieutenant Governor to assess fees and impose administrative fines;
- (3) Establishing the commissioner of deeds revolving fund into which fees and administrative fines, appropriations made by the Legislature, and earned interest are to be deposited and making conforming amendments to reflect the establishment of this fund;
- (4) Granting immunity from liability to the Lieutenant Governor and employees of the office for good faith conduct in carrying out the duties of chapter 503B, HRS;
- (5) Authorizing the Lieutenant Governor to appoint and remove commissioners of deeds; and
- (6) Increasing the surety bond requirement from \$1,000 to \$10,000.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor and American Resort Development Association-Hawaii.

Your Committee finds that Act 277, Session Laws of Hawaii 2013, established the commissioners of deeds program within the Office of the Lieutenant Governor. The program includes a process for the Governor to appoint individuals to serve as Commissioners of Deeds to administer oaths, take acknowledgements, and take proofs of execution outside of the United States in connection with the execution of conveyance documents relating to a time share interest, any property subject to a time share plan, or the operation of a

time share plan covering any property located within Hawaii. This measure addresses issues raised by a working group established to assist in implementing the program and provides the Office of the Lieutenant Governor the necessary authority and clarification to effectively implement the law.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the American Resort Development Association-Hawaii that:
 - (A) Adds a fee for the reinstatement of a suspended commission;
 - (B) Adds an administrative fine for the theft of the commissioner's seal or record book, or both, and establishes reporting requirements regarding the theft; and
 - (C) Clarifies the location from which a commissioner may administer oaths and take acknowledgements and the location in which an instrument or writing may be executed;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1129, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 275 Judiciary and Labor on S.B. No. 577

The purpose and intent of this measure is to:

- (1) Require various campaign spending fines to be deposited into the Hawaii election campaign fund;
- (2) Require the Campaign Spending Commission's operating expenses to be paid from the general fund; and
- (3) Authorize the Campaign Spending Commission to use monies from the Hawaii election campaign fund for investigation expenses rather than operating expenses.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, League of Women Voters of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Accounting and General Services and one individual.

Your Committee finds that the Hawaii election campaign fund is the source of funding for the State's partial public funding program. The fund has been significantly depleted since 2009, when state law was changed to divert various campaign spending fines to the general fund, rather than the Hawaii election campaign fund, and to make the Hawaii election campaign fund the source of funding for the Campaign Spending Commission's operating expenses. This measure replenishes and establishes a consistent source of funding for the partial public funding program.

Your Committee notes the written testimony submitted by the Campaign Spending Commission indicating that the Commission has been operating at a deficit of approximately \$500,000 for the past six fiscal years. Given this trend, the Commission is concerned that its revenue is insufficient to sustain its operations and programs in the long term. Your Committee requests your Committee on Ways and Means to, if it chooses to hear this measure, explore various sustainable funding mechanisms for the Campaign Spending Commission.

Your Committee has amended this measure by:

- (1) Deleting the purpose section;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 577, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 577, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 276 (Majority) Judiciary and Labor on S.B. No. 363

The purpose and intent of this measure is to:

- (1) Amend the maximum amount of public funds available in each election to a candidate participating in the partial public funding program for the Office of Governor, Lieutenant Governor, or Mayor to not exceed fifty percent of the established expenditure limit for each election;
- (2) Increase the matching contribution amount from the State from \$1 for each \$1 of qualifying contributions to \$2 for each \$1 of qualifying contributions in excess of the minimum qualifying contribution amounts; and
- (3) Make an appropriation to increase funds available to candidates participating in the partial public funding program.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, League of Women Voters of Hawaii, Libertarian Party of Hawaii, and three individuals.

Your Committee finds that existing law provides a partial public funding program to allow candidates running for elective office to be awarded monies from the State for a campaign. To qualify, a candidate is required to raise a set minimal amount, which the State will match. However, the program has a low participation rate because it fails to provide sufficient financial incentives for candidates to adequately compete against candidates who receive campaign contributions from private sources and because the amount of money awarded to each qualifying candidate fails to reflect inflation and the rising cost of living. This measure assists in increasing partial public financing program participation by increasing the maximum amount of public funds available and the matching contribution amounts from the State.

Your Committee has amended this measure by:

- (1) Deleting the purpose section (section 1);
- (2) Deleting amendments to section 11-425(a), Hawaii Revised Statutes (HRS), and replacing them with amendments to section 11-425(b), HRS, to amend the maximum amount of public funds available in each election to a candidate for the office of state senator, state representative, or prosecuting attorney to not exceed fifty percent of the established expenditure limit for each election;
- (3) Amending the matching contribution amount from the State to an unspecified amount for each \$1 of qualifying contributions in excess of the minimum qualifying contribution amounts;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 363, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 363, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Gabbard).

SCRep. 277 Judiciary and Labor on S.B. No. 290

The purpose and intent of this measure is to:

- (1) Add a definition of “ethics training”;
- (2) Require the State Ethics Commission to offer a more comprehensive ethics training course that is to be completed by persons subject to section 84-41, Hawaii Revised Statutes (HRS), within thirty days of taking office or starting employment and once every four years thereafter;
- (3) Require all persons who are required to file a financial disclosure statement pursuant to section 84-17(d), HRS, to attend an in-person ethics course;
- (4) Require all members of a board, as defined under section 92-2, HRS, and not included in section 84-17(d), HRS, and state employees who are responsible for procurement, administer state contracts, or regulate or inspect private organizations to complete an online ethics training course;
- (5) Require that the ethics training course include additional information and clarification regarding specified areas;
- (6) Clarify the timing for the State Ethics Commission to administer ethics training courses; and
- (7) Require each state agency to provide each person enumerated in section 84-41, HRS, with sufficient time to complete ethics training.

Your Committee received testimony in support of this measure from the State Procurement Office, Hawaii State Ethics Commission, and League of Women Voters of Hawaii.

Your Committee finds that existing law requires legislators, members of the Board of Education, trustees of the Office of Hawaiian Affairs, the Governor, the Lieutenant Governor, and executive department heads and deputies to complete a course in ethics training that includes training in ethics and lobbying laws. All other officers or employees of the State are not required to attend ethics training despite the fact that many of these officers and employees, including board or commission members, could greatly benefit from taking ethics courses to ensure compliance with the State Code of Ethics. This measure establishes a more comprehensive ethics training program for a broader spectrum of state employees and officers.

Your Committee has amended this measure by:

- (1) Requiring persons subject to section 84-41, HRS, to complete an ethics training course administered by the State Ethics Commission at the next available ethics training course rather than within thirty days of taking office or starting employment;
- (2) Requiring the State Ethics Commission to develop and implement an online ethics training course;
- (3) Adding an appropriation for an unspecified sum for fiscal year 2015-2016 to enable the State Ethics Commission to develop and implement an online ethics training program;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 290, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 278 (Majority) Judiciary and Labor on S.B. No. 287

The purpose and intent of this measure is to:

- (1) Require the Office of Elections to implement elections by mail in a county with a population of less than 100,000 beginning with the 2016 primary election, and by 2018, require all federal, state, and county primary, special primary, general, special general, and special elections to be conducted by mail;
- (2) Maintain absentee voting by clarifying that a registered voter may request an absentee ballot or permanent absentee ballot in lieu of receiving an election-by-mail ballot;
- (3) Establish an elections by mail program, including procedures and requirements for conducting elections by mail, ballots, and counting of ballots;
- (4) Make conforming amendments to existing laws relating to elections to reflect and implement an elections-by-mail program;
- (5) Enable absentee walk-in voting to continue prior to election day;
- (6) Ensure limited polling sites in each county remain open on election day for absentee walk-in voting and to receive mail-in ballots; and
- (7) Appropriate funds for the implementation and administration of the election-by-mail program.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the County Clerk, County of Maui; Office of the County Clerk, County of Kauai; Office of the County Clerk, County of Hawaii; League of Women Voters of Hawaii; Common Cause Hawaii; and two individuals.

Your Committee finds that the trend in Hawaii has been toward increased mail-in voting and that shifting to elections-by-mail would significantly reduce the logistical issues related to conducting elections. This measure implements an election-by-mail voting system in increments to allow the State to gradually transition to conducting elections-by-mail through a phased-in approach.

Your Committee notes that S.B. No. 219 (Regular Session of 2015) also implements an elections-by-mail program. S.B. No. 219 establishes a limited number of voter service centers to provide a place of deposit for mail-in ballots and provide facilities and equipment that are compliant with the federal Americans with Disabilities Act (ADA). Your Committee believes that a limited number of voter service centers should be made available and open to registered voters, especially for registered voters with disabilities requiring ADA-compliant voting machines, prior to and on the day of election in place of traditional polling places and precincts.

Your Committee further notes the constitutional requirement to maintain an absentee voting system. As such, your Committee encourages further discussion as this measure moves through the legislative process regarding merging permanent absentee voting with an election-by-mail system while retaining a seasonal absentee voting system for persons temporarily away from their registered addresses.

Your Committee notes that Act 166, Session Laws of Hawaii 2014, codified under section 11-15.2, Hawaii Revised Statutes (HRS), allows for a person who is eligible to vote but not registered to vote to register by appearing in person prior to the day of election at an absentee polling place or on the day of election at the polling place in the precinct associated with the person's address. Establishing an election-by-mail system encourages voters to vote early, and your Committee believes that providing late voter registration may discourage early voting. Furthermore, voter service centers, which take the place of traditional polling places, are intended to be places of deposit for ballots and provide assistance for registered voters with disabilities to vote. Requiring voter service centers to also allow eligible voters to register to vote may result in increased costs and staffing needs. Your Committee further notes that section 11-15.3, HRS, authorizes the County Clerk to permit a person with a valid government-issued identification that is capable of electronic confirmation to submit a voter registration application electronically in lieu of a traditional, signed application by mail or in-person. The counties are expected to implement and make available to the public an electronic application process by the 2016 election season. Your Committee believes that this will encourage more people to register to vote in a timely manner. As such, repealing late voter registration is a prudent policy decision to facilitate mail-in voting.

Finally, your Committee notes the suggested language submitted by the Office of Elections that amends the cost apportionment formula between the counties and State for election expenses. Your Committee encourages the Committee on Ways and Means to examine the optimally feasible method of apportioning costs of elections by mail in the future.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of Elections to require the County Clerk to mail a ballot package to each registered voter between fourteen and eighteen days before the date of the election to the extent practicable;
- (2) Deleting language that requires the County Clerk to mail ballots to registered voters who do not receive daily mail, have mailing addresses outside of the State, or request ballots to be delivered or made available for pick-up;
- (3) Requiring the Chief Election Officer to determine and provide places of deposit and voter service centers;

- (4) Clarifying that to cast a valid vote, voters may mail their ballots to the Office of the Clerk, personally deliver their ballots to any place of deposit preceding the date of election, or personally deliver their ballots to any voter service center on the date of election;
- (5) Allowing the counting of votes to begin prior to election day, but no sooner than seven days prior to election day, provided that no results are disclosed until after the voter service centers have closed on election day;
- (6) Adding a definition of “voter service center”;
- (7) Requiring the Chief Election Officer to issue a proclamation listing all places of deposit and voter service centers;
- (8) Establishing that there shall be no minimum number of places of deposit in any county and authorizing the Chief Election Officer to provide places of deposit only if the locations and apparatuses can be securely maintained throughout the period of use for each election;
- (9) Requiring the Chief Election Officer to provide at least one voter service center on each inhabited island;
- (10) Providing for alternative places of deposit or voter service centers in the event of a natural disaster;
- (11) Deleting amendments to section 15-7, HRS;
- (12) Repealing late voter registration under Act 166, Session Laws of Hawaii 2014, codified under section 11-15.2, HRS;
- (13) Inserting an effective date of January 7, 2059, to encourage further discussion, and inserting staggered effective dates for counties with populations of less than 100,000 and counties with populations of more than 100,000; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 287, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Gabbard).

SCRep. 279 Judiciary and Labor on S.B. No. 286

The purpose and intent of this measure is to:

- (1) Establish the Office of the State Inspector General that is headed by the State Inspector General and administratively attached to the Office of the Auditor;
- (2) Establish powers and duties of the Inspector General, including but not limited to investigating complaints alleging fraud, waste, abuse, or corruption by a state agency or quasi-public agency, or the officers or employees of a state agency or quasi-public agency, and investigating the management and operations of state agencies, quasi-public agencies, and independent contractors;
- (3) Require the Inspector General to refer a complaint alleging fraud, waste, abuse, or corruption by the University of Hawaii or any of its officers or employees to the internal audit department of the University of Hawaii for investigation unless the complaint concerns the University of Hawaii President, members of the Board of Regents, or the internal audit department of the University of Hawaii;
- (4) Require state agencies, quasi-public agencies, and officers and employees to report any allegations of criminal acts or acts of fraud, waste, abuse, or corruption to and cooperate with the Inspector General;
- (5) Confer the Inspector General with police powers, including the power to arrest, and subpoena powers; and
- (6) Appropriate unspecified funds to the Office of the Auditor for administrative costs associated with the establishment of the Office of the State Inspector General.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General, Office of the Auditor, and one individual.

Your Committee finds that accountability is necessary to maintaining public trust in government. This measure establishes an Office of the State Inspector General to promote integrity and accountability, maximize the efficiency and effectiveness of state agencies through the conduct of independent investigations, performance reviews, and other services, and provide information to state officials and the public.

Your Committee has amended this measure by:

- (1) Attaching the Office of the State Inspector General to the Department of the Attorney General rather than the Office of the Auditor for administrative purposes only;
- (2) Clarifying that a quasi-public agency includes an entity that receives grants pursuant to chapter 42F, Hawaii Revised Statutes;
- (3) Establishing that the State Inspector General will serve a term of five rather than four years;
- (4) Preventing the Governor, Attorney General, Judiciary, and Legislature from impairing the Inspector General from initiating, carrying out, or completing any audit, investigation, or review;

- (5) Allowing the Inspector General to investigate complaints of alleged fraud, waste, abuse, or corruption upon the Inspector General's own initiative, and referring any complaints to any other appropriate authority;
- (6) Requiring the Inspector General to adopt rules that include standards for conducting investigations and procedural safeguards for officers and employees;
- (7) Deleting language that requires the Inspector General to refer a complaint alleging fraud, waste, abuse, or corruption by the University of Hawaii or any of its officers or employees to the internal audit department of the University of Hawaii for investigation;
- (8) Deleting language that confers the Inspector General with police powers, including the power to arrest;
- (9) Identifying the Department of the Attorney General as the expending agency;
- (10) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 286, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 286, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Espero). Noes, none. Excused, 1 (Gabbard).

SCRep. 280 (Joint) Judiciary and Labor and Commerce and Consumer Protection on S.B. No. 1067

The purpose and intent of this measure is to amend the laws relating to the solicitation of funds from the public by:

- (1) Permitting the Attorney General to require a professional solicitor to electronically submit a financial report after a solicitation campaign;
- (2) Assessing a fine for the late filing of a financial report by a professional solicitor;
- (3) Requiring the professional solicitor to provide a copy of a financial report to the charitable organization to which the financial report pertains within ten days of submitting the financial report to the Attorney General;
- (4) Permitting the Attorney General to require a charitable organization to submit its application for an exemption from registration and financial disclosure requirements electronically with the use of electronic signatures; and
- (5) Recognizing the Northwest Accreditation Commission for primary and secondary schools as an authorized accrediting agency for educational institutions under exempt charitable organizations.

Your Committees received testimony in support of this measure from the Department of the Attorney General and Hawaii Alliance of Nonprofit Organizations. Your Committees received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committees find that the Department of the Attorney General will soon deploy an internet-based filing system for professional solicitors and professional fundraising counsels. This measure will facilitate the electronic submissions of financial reports and registration documents and facilitate public access to information about registered professional solicitors and exempt charitable organizations. Furthermore, by imposing late fees for the late filing of financial reports, this measure creates a financial incentive for professional solicitors to file in a timely manner.

Your Committees have amended this measure by:

- (1) Adopting suggested language from the Department of the Attorney General that incorporates certain provisions from S.B. No. 2250, S.D. 2, H.D. 1 (Regular Session of 2014) to:
 - (A) Allow a central or parent organization that has received a group exemption letter from the Internal Revenue Service to submit to the Department of the Attorney General a consolidated application for registration for itself and any or all of the subordinate organizations covered under the group exemption;
 - (B) Clarify the terms and requirements of the written consent obtained by a commercial co-venturer and permit the Attorney General to require the written consent to be submitted electronically with the use of electronic signatures;
 - (C) Authorize the Attorney General to issue a cease and desist order when a commercial co-venturer engages in an act or practice that is in violation of chapter 467B, Hawaii Revised Statutes, and impose a fine for each violation;
 - (D) Clarify the requirements for the filing of annual financial reports and require these reports to be submitted electronically to the Department of the Attorney General; and
 - (E) Amend the filing fee from \$10 to \$0 for charitable organizations that have a total gross revenue of less than \$25,000 during the time covered by the financial report at the close of the calendar or fiscal year adopted by that charitable organization;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1067, as amended

herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1067, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Commerce and Consumer Protection

Ayes, 5. Noes, none. Excused, 2 (Kidani, Slom).

SCRep. 281 (Joint) Judiciary and Labor and Public Safety, Intergovernmental and Military Affairs on S.B. No. 213

The purpose and intent of this measure is to:

- (1) Require multiple terms of imprisonment imposed on a defendant prior to June 18, 2008, to run concurrently unless the court orders or statute mandates that the terms run consecutively; and
- (2) Authorize multiple terms of imprisonment imposed on or after the effective date of this measure to run concurrently unless the terms are mandated by the court or statute to run consecutively.

Your Committees received testimony in support of this measure from the Office of the Public Defender, Hawaii Association of Criminal Defense Lawyers, Hawaii Innocence Project, Community Alliance on Prisons, and three individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General; Office of the Prosecuting Attorney, County of Kauai; and Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committees find that from 1986 through 2008, section 706-668.5, Hawaii Revised Statutes (HRS), provided multiple terms of imprisonment imposed at different times to run consecutively unless the court specifically ordered that the terms run concurrently. On June 18, 2008, Act 193, Session Laws of Hawaii 2008 (Act 193), was enacted, and section 706-668.5, HRS, was amended to provide multiple terms of imprisonment to run concurrently unless the court orders or the statute mandates that the terms run consecutively. Accordingly, for multiple terms of imprisonment, the default sentencing changed from the terms running consecutively to running concurrently unless the court or statute specifically mandated otherwise. Due to concerns regarding inconsistencies in determining whether multiple imprisonment sentences were to be served concurrently or consecutively, this measure attempts to treat defendants sentenced to multiple terms of imprisonment prior to June 18, 2008, the same as those defendants sentenced on and after June 18, 2008.

Your Committees note the oral testimony that indicated that a recalculation by the Department of Public Safety of a defendant's multiple imprisonment sentence running concurrently to running consecutively could result in a defendant serving time beyond the defendant's original release date. Your Committees believe that if a defendant's multiple terms of imprisonment are recalculated, notice should be provided to the defendant regarding the possibility of recalculation and the defendant's right to have the court review the defendant's sentence.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the amendments made to subsection (1) of section 706-668.5, HRS, and instead adding language to that section that:
 - (A) Requires the Department of Public Safety to send written notice to a defendant with multiple terms of imprisonment imposed prior to June 18, 2008, no later than six months prior to the defendant's scheduled release date; and
 - (B) Requires the written notice to include notice that the Department of Public Safety may recalculate the multiple terms of imprisonment imposed on the defendant and the defendant's right to have the court review the defendant's sentence;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 213, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 213, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 282 (Joint) Judiciary and Labor and Public Safety, Intergovernmental and Military Affairs on S.B. No. 230

The purpose and intent of this measure is to clarify that reimbursement to crime victims includes lost wages and mental health treatment, counseling, and therapy.

Your Committees received testimony in support of this measure from the Crime Victim Compensation Commission; Department of the Prosecuting Attorney, County of Maui; Victim/Witness Assistance Division of the Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Hawaii; The Sex Abuse Treatment Center; and one individual. Your Committees received comments on this measure from the Department of Public Safety.

Your Committees find that in *State v. DeMello*, 310 P.3d 1033 (Haw. Ct. App. 2013), the court held that section 706-646, Hawaii Revised Statutes (HRS), does not explicitly provide for an award of lost wages as part of restitution. As a result, crime victims who miss work due to injuries or impairment suffered as a result of a defendant's offense are being denied restitution of lost earnings. Furthermore, based on the *DeMello* analysis and holding, it appears that courts would similarly deny expenses for mental health treatment. This measure clarifies the intent of section 706-646, HRS, to reimburse crime victims fully for all reasonable and verified losses resulting from a defendant's offense, including but not limited to lost wages and mental health treatment, counseling, and therapy.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 230 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 283 (Majority) Judiciary and Labor on S.B. No. 368

The purpose and intent of this measure is to appropriate and authorize funds for Hawaii employer-union health benefits trust fund costs and other cost adjustments for employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Office of Collective Bargaining.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (5) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 368, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 368, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 284 (Majority) Judiciary and Labor on S.B. No. 1077

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (2) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (2) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1077, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 285 (Majority) Judiciary and Labor on S.B. No. 1078

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (3) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained for terms reached with regard to collective bargaining unit (3) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1078, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 286 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 560

The purpose and intent of this measure is to require the State Auditor to audit the use of state and federal family leave benefits by adult corrections officers of the Department of Public Safety and submit a report of findings and recommendations to the Legislature.

Your Committees received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, American Civil Liberties Union, and four individuals.

Your Committees find that cancellation of scheduled family visitation at the State's correctional facilities has been a persistent problem. An audit will address the ongoing problem of cancelled visitation and determine ways in which the Legislature and the Department of Public Safety can address the issue.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 560 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 287 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 1020

The purpose and intent of this measure is to appropriate funds to the Department of Public Safety and the Judiciary for electronic monitoring of released inmates.

Your Committees received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, and four individuals. Your Committees received comments on this measure from the Judiciary.

Your Committees find that electronic monitoring is one way to track and monitor inmates who are on probation, parole, or work furlough. Technology is able to provide continuous electronic monitoring, as needed, and saves tax dollars as electronic monitoring costs less than incarcerating an individual. While not all released inmates need electronic monitoring, there are some offenders, including sexual offenders and habitual criminals, who are ideal candidates for electronic monitoring. Implementation of this measure will enable the state to retain control of individuals under its custody at the least restrictive level of supervision required.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1020 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 288 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 1305

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Office of the Prosecuting Attorney of the County of Kauai for the Career Criminal Prosecution Unit and Victim Witness Assistance Program.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Crime Victim Compensation Commission, Department of the Prosecuting Attorney City and County of Honolulu, Office of the Prosecuting Attorney County of Kauai, Department of the Prosecuting Attorney County of Maui, Office of the Prosecuting Attorney County of Hawaii, and Kauai Police Department.

Your Committees find that the Career Criminal Prosecution Program addresses the issue of career criminals, and the Victim-Witness Assistance Program provides information, assistance, and support services to the victims of and witnesses to crimes. These programs provide worthy services to the citizens of the County of Kauai. However, funding for the programs has been significantly

reduced in recent years. Implementation of this measure provides the necessary resources to protect the public from career criminals and further assures that victims and witnesses are supported through the judicial process.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1305 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 289 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1331

The purpose and intent of this measure is to:

- (1) Require pretrial risk assessments, pretrial bail reports, and arraignments to be completed within five working days after an arrest;
- (2) Require intake service centers to interview lay sponsors within seven working days of their identification and allows the court to order defendants released on bail, recognizance, or supervised release to report to lay sponsors for supervision;
- (3) Prohibit judicial officers from denying bail absent a pretrial risk assessment score that reflects a high risk of flight or commission of a new criminal offense; and
- (4) Prohibit judicial officers from relying on a bail schedule or bail amount that would have been necessary to prevent release of a defendant during jail overcrowding.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons. Your Committee received testimony in opposition to this measure from the Office of the Prosecuting Attorney of the County of Kauai.

Your Committee finds that despite the advancement in pretrial assessment since 2012, pretrial lengths of stay for those who are ultimately released before trial have increased, averaging almost seventy days. Pretrial length of stay in Hawaii remains approximately four times as long as the national average. Reentry intake service centers have conducted more timely assessments, but this alone has not produced more timely processing of cases or affected release decisions. The result, incarcerating defendants before they are ultimately released on bail, recognizance, or supervision, and before they plead or are found guilty, is costly for the State. Implementation of this measure will require timely processing and quality information for appropriate pretrial release decisions.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1331, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1331, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 290 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1159

The purpose and intent of this measure is to:

- (1) Exempt federal veterans' disability benefits from claims of creditors and attachment, levy, and seizure to enforce a court judgment; and
- (2) Provide an exception for service-connected disability benefits that are subject to child and spousal support enforcement under title 42 United States Code section 659(h)(1)(A)(ii)(V).

Your Committee received testimony in support of this measure from the State Office of Veterans Services, National Association for Uniformed Services Hawaii Chapter, Veterans Advisory Board, and one individual.

Your Committee finds that disabled veterans have sacrificed in the name of duty, honor, and country. The federal benefits that a disabled veteran receives need to be protected from creditors and third parties. Implementation of this measure safeguards federal veterans' disability benefits, except for in certain child and spousal support cases.

Your Committee has amended this measure by adding language to encourage courts to follow federal disability compensation apportionment policy under title 42 United States Code section 659(h)(1)(A)(ii)(V), regarding portions of service-connected disability benefits that are subject to child and spousal support enforcement.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1159, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 291 (Joint) Public Safety, Intergovernmental and Military Affairs and Transportation on S.B. No. 662

The purpose and intent of this measure is to:

- (1) Require shippers to notify the fire chief from where and to where fireworks shipments imported into the State or between counties are to be distributed;
- (2) Define the term “redistribution” to clarify shipment notification requirements;
- (3) Create two exceptions to the fireworks prohibitions for film or movie productions and for those authorized to dispose of or test consumer fireworks; and
- (4) Clarify that labels on certain fireworks shall be at least nine square inches.

Your Committees received testimony in support of this measure from the State Fire Council, Honolulu Police Department, Hawaii County Fire Department, Maui County Fire Department, and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that transporting fireworks to, from, and within the State requires the use of multiple methods of interstate and intrastate transportation. It is essential to the health and safety of the community and the State’s first responders that the importation of fireworks shipments be thoroughly accounted for and reported. Under the existing law, there are no notification requirements for those transporting fireworks. This measure is necessary to clarify shippers’ responsibilities and notification requirements and authorize the use of fireworks in certain circumstances.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 662 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Transportation
Ayes, 7. Noes, none. Excused, 2 (Kidani, Slom).

SCRep. 292 (Joint) Public Safety, Intergovernmental and Military Affairs and Transportation on S.B. No. 343

The purpose and intent of this measure is to:

- (1) Exempt qualifying totally and permanently disabled veterans from paying the state motor vehicle registration fee for registrations occurring on or after September 1, 2015; and
- (2) Require the Director of the Office of Veterans Services, in consultation with the Policy Advisory Board on Veterans Services, to report to the Legislature and Department of Taxation the total number of disabled veterans that qualify for the exemption from the annual motor vehicle registration fees.

Your Committees received testimony in support of this measure from the State Office of Veterans Services, Veterans Advisory Board, and one individual. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that disabled veterans deserve to be rewarded for their sacrifices in the name of duty, honor, and country. The exemption provided by this measure would be a small recognition of those veterans who incurred military-related injuries and are now rated as one hundred percent disabled.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 343 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Transportation
Ayes, 7. Noes, none. Excused, 2 (Kidani, Slom).

SCRep. 293 Public Safety, Intergovernmental and Military Affairs on S.B. No. 226

The purpose and intent of this measure is to:

- (1) Provide protection to family or household members from abuse by specifying that the period of separation that a police officer can order under suspicion of physical abuse or harm is two business days from the day the order is issued; and
- (2) Define “business day” as any calendar day, except Saturday, Sunday, or any state holiday.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Department of the Prosecuting Attorney of the County of Kauai, Honolulu Police Department; and one individual.

Your Committee finds that the intent of the forty-eight hour period of separation in cases of actual or probable family or household abuse is to keep the abuser or potential abuser away from the victim and give the victim time to get a restraining order and find a safe shelter. However, under existing law, when the abuse occurs at certain times or on certain days, the victim does not receive the benefit of the forty-eight hour separation period or does not have sufficient time to obtain a restraining order or shelter because government agencies and many private organizations are closed on weekends and holidays. This measure will give abuse victims additional time to get help and legal protection by extending the period of separation that a law enforcement officer shall order under specified circumstances.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 226, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 294 Public Safety, Intergovernmental and Military Affairs on S.B. No. 197

The purpose and intent of this measure is to:

- (1) Prohibit certain state and county employees and officers who are authorized to carry firearms from carrying a firearm while consuming alcohol or within an unspecified number of hours of consuming alcohol;
- (2) Prohibit certain state and county employees and officers who are authorized to carry firearms from carrying a firearm after ingesting prescription medications that would impair the judgment or physical response of the employee or officer while carrying a firearm; and
- (3) Create an exemption for certain state and county employees who are taking part in an official criminal surveillance or undercover operation.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Hawaii Rifle Association and one individual.

Your Committee finds that the consumption of alcohol or certain prescription medications can impair the judgment and physical response of state or county employees and officers who are authorized to carry a firearm, thereby decreasing public safety. However, there are occasions where state or county employees and officers may be compelled to consume small amounts of alcohol or drugs in the course of obtaining intelligence or evidence. Implementation of this measure will increase public safety by establishing a high standard regarding the consumption of alcohol and certain prescription medications by select state and county employees and officers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 197, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 295 (Joint) Public Safety, Intergovernmental and Military Affairs and Transportation on S.B. No. 186

The purpose and intent of this measure is to:

- (1) Establish the offense of resisting an order to stop a motor vehicle in the first degree as a class C felony; and
- (2) Reclassify the existing offense of resisting an order to stop a motor vehicle, which is a misdemeanor, to resisting an order to stop a motor vehicle in the second degree.

Your Committees received testimony in support of this measure from the Honolulu Police Department.

Your Committees find that an offender, while fleeing in a vehicle from a law enforcement officer, often places another person in danger of being injured or damages property. Existing law does not adequately address these situations. The offender may be arrested for the offense of attempted murder, assault in the second degree, or terroristic threatening in the first degree. However, the alleged conduct does not fulfill the elements of those offenses, as the offender's intent is not to commit murder, assault, or terroristic threatening or to damage the property of another, which causes the charges to be changed or dropped. Implementation of this measure will provide prosecutors with an additional offense with which to charge an offender who is resisting an order to stop while fleeing in a motor vehicle.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 186, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 186, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Transportation

Ayes, 7; Ayes with Reservations (English). Noes, none. Excused, 2 (Kidani, Slom).

SCRep. 296 (Majority) Judiciary and Labor on S.B. No. 1079

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (4) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (4) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1079, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 297 (Majority) Judiciary and Labor on S.B. No. 1080

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Office of Collective Bargaining.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (5) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1080, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1080, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 298 (Majority) Judiciary and Labor on S.B. No. 1081

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (10) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and United Public Workers.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (10) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1081, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 299 (Majority) Judiciary and Labor on S.B. No. 1082

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (11) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, and Hawaii Fire Fighters Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (11) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1082, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 300 (Majority) Judiciary and Labor on S.B. No. 1083

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (8) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (8) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1083, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1083, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 301 (Majority) Judiciary and Labor on S.B. No. 1084

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (9) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (9) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1084, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1084, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 302 (Majority) Judiciary and Labor on S.B. No. 1152

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (14) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (14) and its excluded counterparts. Your Committee believes that it is more appropriate for the Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1152, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1152, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 303 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 198

The purpose and intent of this measure is to:

- (1) Establish a permanent weed and seed strategy within the Department of Labor and Industrial Relations; and
- (2) Appropriate funds to maintain and expand the weed and seed strategy; provided that any appropriation is conditioned on obtaining federal funding.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Weed and Seed Hawaii, and eleven individuals.

Your Committees find that the weed and seed strategy is a collaborative effort among law enforcement agencies at the federal, state, and county levels, social service agencies, private businesses, nonprofit organizations, and residents to reclaim, restore, and rebuild communities. Through weed and seed activities, law enforcement officers and residents have become partners in working together to keep communities clean and safe. Implementation of this measure will provide the State with an innovative and comprehensive approach to law enforcement and community revitalization.

Your Committees have amended this measure by:

- (1) Eliminating the provision that any appropriation is conditioned on obtaining federal funding; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 198, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 198, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 304 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 199

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to each county for the purchase of body-worn video cameras and law enforcement vehicle cameras to be used by each county police department; provided that no funds appropriated to a county shall be expended unless matched dollar-for-dollar by the county.

Your Committees received testimony in support of this measure from American for Democratic Action, Hawaii State Coalition Against Domestic Violence, American Civil Liberties Union of Hawaii, Remington College Honolulu Criminal Justice Student Coalition, and fourteen individuals. Your Committees received comments on this measure from one individual.

Your Committees find that with the recent incidents involving law enforcement officers and public perception that unnecessary force was used, the use of body-mounted video cameras and law enforcement vehicle cameras provide law enforcement officers and civilians with added security in their actions. Law enforcement officers and civilians who are aware that they are being videotaped are more likely to behave in a calm manner, and body-worn video cameras and law enforcement vehicle cameras help ensure the safety of the public and increase law enforcement effectiveness and transparency. Implementation of this measure promotes transparency, accountability, and protection for law enforcement officers and civilians.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 199 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 305 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 227

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the County of Maui for the Drug Court and Mental Health Court programs.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney City and County of Honolulu, Office of the Prosecuting Attorney County of Kauai, Department of the Prosecuting Attorney County of Maui, and Office of the Prosecuting Attorney County of Hawaii.

Your Committees find that the Drug Court program helps offenders turn their lives around and costs the State significantly less money per day compared to incarceration. The Mental Health Court program, another critical program, helps offenders receive appropriate mental health treatment. These programs provide worthy services to the citizens of the County of Maui. Implementation of this measure decreases criminal activity and provides the necessary resources to assist offenders in receiving appropriate guidance and treatment.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 227 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 306 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 423

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit and Victim Witness Assistance Program.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Crime Victim Compensation Commission, Department of the Prosecuting Attorney City and County of Honolulu, Office of the Prosecuting Attorney County of Kauai, Department of the Prosecuting Attorney County of Maui, Office of the Prosecuting Attorney County of Hawaii, and one individual.

Your Committees find that the Career Criminal Prosecution Program addresses the issue of career criminals, and the Victim-Witness Assistance Program provides information, assistance, and support services to the victims of and witnesses to crimes. These programs provide worthy services to the citizens of the City and County of Honolulu. However, funding for the programs has been significantly reduced in recent years. Implementation of this measure provides the necessary resources to protect the public from career criminals and further assures that victims and witnesses are supported through the judicial process.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 423 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 307 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 424

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Honolulu Family Justice Center.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney City and County of Honolulu, Office of the Prosecuting Attorney County of Kauai, Ala Kuola, and three individuals.

Your Committees find that the Honolulu Family Justice Center provides victims of domestic violence, sexual assault, and human trafficking with a safe environment during some of their most vulnerable stages of separation from their abuser. Implementation of this measure will provide comprehensive services to victims, facilitate prosecution of domestic violence, sexual assault, and human trafficking offenses, and ultimately provide better assurance that more offenders are held accountable for their actions.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 424 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 308 (Joint) Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 524

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Office of the Prosecuting Attorney of the County of Hawaii for the Career Criminal Prosecution Unit and Victim Witness Assistance Program.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Crime Victim Compensation Commission, Department of the Prosecuting Attorney City and County of Honolulu, Office of the Prosecuting Attorney County of Kauai, Department of the Prosecuting Attorney County of Maui, and Office of the Prosecuting Attorney County of Hawaii.

Your Committees find that the Career Criminal Prosecution Program addresses the issue of career criminals, and the Victim-Witness Assistance Program provides information, assistance, and support services to the victims of and witnesses to crimes. These programs provide worthy services to the citizens of the County of Hawaii. However, funding for the programs has been significantly reduced in recent years. Implementation of this measure provides the necessary resources to protect the public from career criminals and further assures that victims and witnesses are supported through the judicial process.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 524, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 524, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Judiciary and Labor
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 309 (Joint) Energy and Environment and Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 499

The purpose and intent of this measure is to require major infrastructure improvement projects or construction projects of the State or a county that are within coastal lands to include in the environmental assessments and environmental impact statements an analysis of the environmental impact of projected sea level rise and fall over the anticipated lifespan of the project.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Office of Environmental Quality Control, Office of Planning, University of Hawaii System, Conservation Council for Hawaii, Hawaii Alliance, Surfrider Foundation, Americans for Democratic Action, and eleven individuals. Your Committees received testimony in opposition to this measure from the Department of Design and Construction of the City and County of Honolulu, Building Industry Association of Hawaii, and Chamber of Commerce Hawaii.

Your Committees find that state or county construction projects in coastal areas are environmentally precarious. It is essential to take impacts related to projected sea level rise into account during the planning stage in order to protect current infrastructure investments over time. Implementation of this measure will reduce hazards and minimize costly adaption measures.

Your Committees have amended this measure by:

- (1) Replacing "sea level change" with "sea level rise", "coastal lands" with "special management area", and "projected sea level rise or fall" with "projected sea level rise";
- (2) Clarifying that beginning July, 1, 2016, an environmental assessment or environmental impact statement may include an analysis of the environmental impact of projected sea level rise over the anticipated lifespan of the project;
- (3) Requiring the Office of Environmental Quality Control to work with the Hawaii Coastal Zone Management Program and relevant state agencies to provide guidance documents concerning ecological and environmental problems related to the development of the coastal zone management area;
- (4) Amending the definition of "major" to mean any project having an anticipated estimated value equal to or exceeding \$3,000,000; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment, Water and Land, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 499, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 499, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 310 Human Services and Housing on S.B. No. 262

The purpose and intent of this measure is to continue the nursing facility sustainability program by extending the sunset date to June 30, 2016, and appropriating funds out of the nursing facility sustainability program special fund.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Hawaii Primary Care Association, The Queen's Health Systems, and Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Legislature created the nursing facility sustainability program to increase Medicaid payments to nursing facilities in recognition that Medicaid payments to nursing facilities were below the actual costs of care. Your Committee further finds that the majority of residents in Hawaii's nursing facilities are Medicaid enrollees, and the nursing facility sustainability program ensures that they have access to quality care.

Your Committee has amended this measure by:

- (1) Inserting language to preserve the exemptions of the nursing facility sustainability program from the central service expenses and administrative expenses assessments through December 31, 2016; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 262, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 311 Human Services and Housing on S.B. No. 916

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Community Development Authority to rent reserved housing only to renters qualifying for reserved housing and to rent workforce housing only to renters qualifying for workforce housing;
- (2) Require the Hawaii Community Development Authority to establish rules to require reserved and workforce rental housing in developments; and
- (3) Amend the definition of "reserved housing" in section 206E-101, Hawaii Revised Statutes, and create definitions for "low income", "moderate income", and "workforce housing".

Your Committee received testimony in support of this measure from the FREE ACCESS COALITION and ten individuals. Your Committee received comments on this measure from the Executive Director of the Hawaii Community Development Authority.

Your Committee finds that the affordable housing crisis in Hawaii calls for the development of various types of rental housing for a range of income brackets. Your Committee further finds that multi-generational households are common in this State, and that there is a need for mixed use rental housing developments that limit sprawl and reduce transportation-related energy costs.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 916 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

SCRep. 312 Human Services and Housing on S.B. No. 192

The purpose and intent of this measure is to assist homeless persons with obtaining an identification card by requiring administrative rules adopted by the Director of Transportation to authorize the examiner of drivers to waive the fee for the issuance of a civil identification card in certain cases for a person who is homeless, provided the person's homeless status is verified with a letter from a homeless services provider.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Interagency Council on Homelessness, Institute for Human Services, Catholic Charities Hawaii, Hawaii Appleseed Center for Law and Economic Justice, IMUAlliance, PHOCUSED, Gregory House Programs, Community Health Outreach Work to Prevent AIDS Project, Waikiki Health, Pacific Alliance to Stop Slavery, Hawaii State Coalition Against Domestic Violence, and seven individuals.

Your Committee finds that Hawaii has the highest rate of homelessness in the country, and a lack of identification can prolong the amount of time an individual or family is without shelter. Your Committee further finds that waiving the fee for homeless individuals to obtain an identification card will help expedite their access to housing and employment by removing at least one barrier that stands in the way of receiving services and moving forward with their lives.

Your Committee has amended this measure by:

- (1) Amending language to clarify that the rules shall direct the examiner of drivers to waive the fee for a new or renewal identification card for homeless persons who provide a verified letter from a homeless services provider;
- (2) Inserting language to require that homeless services providers who submit official letters verifying an individual's homeless status for the purpose of obtaining an identification card shall allow the homeless individual to use the homeless service provider's address to the extent required by federal law;
- (3) Inserting a provision mandating the collection of data that pertains to instances in which the identification card fee is waived due to a person's homeless status;
- (4) Inserting an effective date of January 5, 2016, to allow for implementation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 192, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 313 Human Services and Housing on S.B. No. 273

The purpose and intent of this measure is to assist homeless persons with obtaining an identification card by allowing the examiner of drivers to accept a sworn statement from a victim services organization, attorney, member of the clergy, or medical or health professional as documentary evidence of a homeless person's address, date and place of birth, occupation, or social security number.

Your Committee received testimony in support of this measure from the County of Kauai Office of the Prosecuting Attorney, Pacific Alliance to Stop Slavery, IMUAlliance, Hawaii Youth Services Network, Hawaiian Hope, Hawaii State Coalition Against Domestic Violence, Children's Law Center, and twenty-four individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from one individual.

Your Committee finds that houseless citizens in Hawaii face daunting and sometimes insurmountable barriers to obtaining valid identification. Valid identification is necessary to obtain and maintain certain financial and nonfinancial benefits, housing, employment, medication, and other life essentials. Your Committee further finds that while individuals may find themselves without proper identification due to fleeing domestic violence, losing personal belongings, or their identification being expired, the homeless population in Honolulu routinely lose their identification documents as the result of city-run sweeps on homeless encampments in which documents such as social security cards, birth certificates, state identification cards, driver's licenses, and marriage licenses are confiscated and destroyed.

Your Committee has heard the testimony of the Department of Transportation expressing concern that it will violate the federal REAL ID Act of 2005 and jeopardize Hawaii's compliance certification issued by the Department of Homeland Security if the examiner of drivers were to accept sworn statements from the proposed professionals in this measure as documentation of identifying information. Your Committee finds that while this issue merits further consideration, a solution needs to be found that allows individuals to obtain identification in a realistic and reasonable manner.

Your Committee has amended this measure by:

- (1) Inserting language to include correctional institution staff in the group of professionals from whom a sworn statement may be accepted to verify a person's address, date and place of birth, occupation, or social security number for the purposes of obtaining an identification card; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 273, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 273, S.D. 1, and be referred to the Committee on Transportation.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 314 (Joint) Human Services and Housing and Health on S.B. No. 908

The purpose and intent of this measure is to appropriate funds to restore basic adult dental benefits to Medicaid enrollees, provide outreach and eligibility services at federally qualified health centers, and establish health care homes.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, The Queen's Health Systems, Waianae Coast Comprehensive Health Center, Hoola Lahui Hawaii, Hana Health, Hawaii Primary Care Association, Kokua Kalihi Valley Comprehensive Family Services, and Lanai Community Health Center. Your Committees received comments on this measure from the Department of the Attorney General, Department of Human Services, and Department of Health.

Your Committees find that it is in the best interest of the State to ensure access to primary, behavioral, dental, and preventive healthcare for Hawaii's residents. Your Committees note the critical importance of restoring adult dental benefits for Medicaid enrollees and for funding community health centers, which serve uninsured, underinsured, and low-income populations. In addition to providing a patient-centered delivery system of medical, behavioral, and dental health services, community health centers are a smart investment that save the State money. Community health centers save the health care system \$1,263 per patient per year due to timely, effective care, and care management.

Your Committees have amended this measure by:

- (1) Replacing the term “health care homes” with “health homes” to be consistent with section 2703 of the Patient Protection and Affordable Care Act of 2010;
- (2) Changing the expending agency of the community health centers special fund monies to the Department of Health to comply with section 321-1.65, Hawaii Revised Statutes;
- (3) Inserting a general revenue appropriation of \$1,000,000 for the administrative support of the health homes program; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 908, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 908, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 4. Noes, none. Excused, 1 (Slom).

Health

Ayes, 4. Noes, none. Excused, 3 (Baker, Gabbard, Slom).

SCRep. 315 Human Services and Housing on S.B. No. 962

The purpose and intent of this measure is to appropriate funds for an interpreter referral service for public and private entities serving individuals who are not participants of the Department of Human Services’ vocational rehabilitation program.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Isle Interpret, and five individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Americans with Disabilities Act of 1990 requires public and private entities to provide individuals with disabilities a means of effective communication, such as auxiliary aids and services, that is as effective as communication with individuals without disabilities. Your Committee further finds that the Department of Human Services has provided interpreter referral services for the community for many years, including individuals who are not vocational rehabilitation program participants, and supplemental funding is necessary to continue providing services for individuals who are not participants of the Department’s vocational rehabilitation program so that the Department can maximize matching federal funds.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 962 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 316 (Joint) Human Services and Housing and Commerce and Consumer Protection on S.B. No. 963

The purpose and intent of this measure is to require health insurance coverage for hearing aids for people with all types of hearing loss and specify a minimum amount of coverage and frequency for replacement of hearing aids under coverage.

Your Committees received testimony in support of this measure from the Disability and Communications Access Board; Aloha State Association of the Deaf; American Speech Language Hearing Association; Hands and Voices Hawaii; National Active and Retired Federal Employees Association, Hawaii State Federation of Chapters; Isle Interpret; and sixteen individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, Office of the Auditor, and Hawaii Medical Service Association.

Your Committees find that the high cost of hearing aids often deters individuals and families who suffer from hearing loss from getting hearing aid devices when they are needed. Hearing aid prices begin around \$2,000 and can cost as much as \$3,000 or higher per ear or hearing aid. Your Committees further find that while most health insurance plans in Hawaii cover the purchase of hearing aids, the plans do not contain important provisions about limits on coverage, frequency for replacing hearing aids, or costs covered by insurers.

Your Committees have amended this measure by:

- (1) Changing the required insurance coverage for hearing aids from a maximum benefit of \$1,500 per hearing-impaired ear every thirty-six months to a minimum benefit of \$1,500 per hearing-impaired ear every thirty-six months;
- (2) Removing the provision that exempts qualified health plans offered by health carriers through the Hawaii Health Connector from the coverage mandate so that the coverage requirements apply to all health insurance policies; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 963, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 963, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Commerce and Consumer Protection
Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 317 (Joint) Human Services and Housing and Commerce and Consumer Protection on S.B. No. 1318

The purpose and intent of this measure is to amend the definition of “qualified community rehabilitation program” so that it no longer requires qualified community rehabilitation centers to pay employees who are persons with disabilities less than minimum wage.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that currently a qualified community rehabilitation center wanting to employ persons with disabilities must pay the employees less than minimum wage in order to obtain the required United States Department of Labor certificate. Your Committees further find that there are organizations that want to pay workers with disabilities more than minimum wage but would be precluded from or lose designation as a qualified community rehabilitation program if they did so.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1318, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1318, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Commerce and Consumer Protection
Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 318 (Joint) Human Services and Housing and Commerce and Consumer Protection on S.B. No. 727

The purpose and intent of this measure is to establish a long-term care surcharge on state tax as a dedicated source of funding to pay for claims for defined benefits under the long-term care financing program.

Your Committees received testimony in support of this measure from the Maui County Office on Aging, Policy Advisory Board for Elderly Affairs, and three individuals. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii, National Association of Insurance and Financial Advisors Hawaii, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Taxation, Office of Information Practices, Tax Foundation of Hawaii, and Grassroot Institute of Hawaii.

Your Committees find that Hawaii’s population age sixty-five and older is increasing drastically, and the demand for home-based long-term care services is quickly outpacing affordability of caring for the State’s kupuna. Considering Hawaii’s long-term care costs are among the highest in the country and the majority of older adults want to age in place, your Committees find that the State must help ease the financial burden placed on families to provide long-term care to their family members.

Your Committees have amended this measure by:

- (1) Merging two sections to consolidate the Department of Taxation’s data collection requirements for the purposes of clarity and consistency;
- (2) Extending the deadline for the Department of Taxation to transmit annual taxpayer data to the Board of Trustees to December 31 of each year instead of three months after income tax returns are due;
- (3) Inserting language specifying that the actuarial report on the long-term care financing program and any work product, papers, documents, and data used to prepare the report are not subject to the disclosure exceptions under section 92F-13, Hawaii Revised Statutes, to ensure the information is available to the public;
- (4) Inserting language to clarify that the ten years of filing tax returns that is required before a person is fully vested and eligible to receive the defined benefit means the most recent ten years of income tax filings;
- (5) Substituting references to paying taxes with references to filing tax returns to clarify that qualifying for the defined benefit only requires the filing of tax returns even if no payment of taxes is owed;
- (6) Inserting language requiring the Director of Taxation to provide tax return information to the qualified entity contracted to administer the long-term care financing program;
- (7) Inserting an effective date of January 1, 2017; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 727, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 727, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 3; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Green, Slom).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 319 (Joint) Human Services and Housing and Energy and Environment on S.B. No. 179

The purpose and intent of this measure is to clarify that the Hawaii Public Housing Authority is authorized to contract with private businesses to remove food and green wastes from public housing projects.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committees find that the State should lead by example while moving toward a more environmentally sustainable future. An effective way to increase environmental sustainability is to diminish the necessity of landfills by diverting food waste and green waste from landfills to composting and energy generation.

Your Committees further find that the Hawaii Public Housing Authority currently recycles its green waste in a variety of ways, including using mulch and wood chips to soak up old paint that needs to be removed and creating compost gardens. This measure ensures that if the burden for these environmental sustainability activities becomes too burdensome for the Authority, the Authority will be authorized to seek help by contracting with private businesses.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 179 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Energy and Environment

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 320 (Joint) Human Services and Housing and Judiciary and Labor on S.B. No. 1101

The purpose and intent of this measure is to extend the state civil service exemption for persons hired or contracted by the Hawaii Public Housing Authority to repair and maintain vacant state housing units.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committees received testimony in opposition to this measure from United Public Workers.

Your Committees find that with the passage of Act 159, Session Laws of Hawaii 2012, the Hawaii Public Housing Authority was able to hire twenty-six exempt and professionally licensed staff members to significantly improve turnaround time for repair and maintenance work on vacant units. Currently, the turnaround time is seven days.

Your Committees have amended this measure by:

- (1) Inserting an effective date of June 29, 2015; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1101, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1101, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 321 (Joint) Education and Government Operations on S.B. No. 854

The purpose and intent of this measure is to:

- (1) Authorize the Department of Education to enter into leaseback agreements; and
- (2) Require that public school lands be leased to lessees who shall be required to modify, construct, or utilize facilities to benefit public educational purposes.

Your Committees received testimony in support of this measure from the Department of Education, Chamber of Commerce Hawaii, Building Industry Association-Hawaii, and Land Use Research Foundation of Hawaii.

Your Committees find that it is important to leverage state resources to obtain the best results for the people of Hawaii. Leaseback agreements provide opportunities for improvements of state facilities without the State losing ownership of land or facilities. Such

agreements allow for flexibility in the lease process and provide the Department of Education with more options for facility construction, renovation, and expansion.

Your Committees have amended this measure by:

- (1) Requiring the Department of Accounting and General Services to negotiate and process all leases entered into pursuant to this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 854, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 854, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 6. Noes, none. Excused, 3 (Keith-Agaran, Kouchi, Slom).

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 322 (Joint) Education and Government Operations on S.B. No. 836

The purpose and intent of this measure is to provide a framework for funding and support of public charter schools facilities through adequate prioritization.

Your Committees received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii Public Charter Schools Network, and Hawaii Island School Garden Network. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that facilities funding is the greatest concern for Hawaii public charter schools, and a major hurdle for programs that offer before- and after- school child care, also known as pre-plus programs. Due to the high cost of facilities in the State, an innovative approach is necessary to provide facilities at a reasonable cost to public charter schools and pre-plus programs. Utilizing vacant state facilities is one way to meet the facilities needs of public charter schools and pre-plus programs while making productive use of vacant state facilities.

Your Committees further find that vacant state facilities may yield to redevelopment for mixed-use facilities. One building could house not only a charter school or a pre-plus program, but could also include commercial space, social services, or a cultural attraction within the same facility. This concept aligns with Act 155, Session Laws of Hawaii (2013), which envisions twenty-first century schools as community hubs that are centrally-located with access to other services.

Your Committees have amended this measure by:

- (1) Clarifying that each state department shall notify the Department of Education, State Public Charter School Commission, and Executive Office of Early Learning of unused facilities, and adding the development of twenty-first century schools and mixed-use facilities to the types of appropriate uses of unused facilities;
- (2) Clarifying that the State Public Charter School Commission and Executive Office on Early Learning shall each solicit applications from public charter schools and pre-plus programs, respectively, and the State Public Charter School Commission and Executive Office on Early Learning shall each submit prioritized lists of interested schools and programs to the Department of Education which shall determine which schools or programs, if any, shall be authorized to use and occupy the facilities;
- (3) Deleting all sections related to charter school funding through general bond authorization, including amendments to annual reporting requirements, facilities funding, and all appropriations; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 836, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 836, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 6. Noes, none. Excused, 3 (Keith-Agaran, Kouchi, Slom).

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 323 Higher Education and the Arts on S.B. No. 4

The purpose and intent of this measure is to authorize the issuance of \$25,000,000 in special purpose revenue bonds to assist Chaminade University of Honolulu.

Your Committee received testimony in support of this measure from Chaminade University of Honolulu. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that student enrollment has increased steadily at Chaminade University to the current figure of two thousand five hundred students, the majority of whom are financial aid recipients. Issuance of the special purpose revenue bonds in this measure would enable Chaminade University to expand and enhance competitive programs, renovate aging facilities to attract an increased number of students, and conduct structural renovation of the faculty and administrative offices.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 324 Higher Education and the Arts on S.B. No. 327

The purpose and intent of this measure is to appropriate \$225,000 in general funds for four full-time equivalent (4.0 FTE) positions to the University of Hawaii Pamantasan Council to help the State and the University of Hawaii meet strategic goals for access and diversity in higher education.

Your Committee received testimony in support of this measure from the University of Hawaii System, University of Hawaii Pamantasan Council, University of Hawaii Pamantasan Executive Council, Filipino American Citizens League, Nursing Advocates & Mentors Inc., Kabataang maka-Bayan/Pro-People Youth (KmB), Filipinos for Affirmative Action, and twelve individuals.

Your Committee finds that despite their high representation in the general population and schools within the Department of Education, students of Filipino ancestry are underrepresented in the University of Hawaii System. Filipino students comprise only twelve percent of the entire University of Hawaii System student population. Six percent of the community colleges faculty and two and one half percent of the University of Hawaii at Manoa faculty are of Filipino ancestry. The fifteen percent postsecondary degree rate held by Filipinos is the lowest among all ethnic groups in Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 327 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 325 (Joint) Higher Education and the Arts and Economic Development and Technology on S.B. No. 627

The purpose and intent of this measure is to require the University of Hawaii to extend the current land lease agreement with the High Technology Development Corporation for no less than ten years upon expiration of the current agreement and to maintain identical terms.

Your Committees received testimony in support of this measure from the High Technology Development Corporation; Hawaii TechWorks; Hawaii Tech Exchange; The Cut Collective; 3D Innovations; Ikayzo, Inc.; Hyperspective; Tow Choice; Hawaii Open Data; and two individuals. Your Committees received testimony in opposition to this measure from the University of Hawaii System.

Your Committees find that the High Technology Development Corporation is home to twenty-six tenant companies and sixteen companies that are part of the virtual office system. The incubator program provides special leasing rates for startup companies to help offset the high costs of company creation. The program also provides flexible month-to-month leases with minimal security deposits which significantly reduce the typical risks associated with starting a business.

Your Committees further find that the High Technology Development Corporation mentors companies through major growth hurdles and helps them to become resilient and sustainable businesses that contribute to the State's tax base. Rent revenues generated by the incubator provide the funding for the program. Without the revenues and incubator programs, the High Technology Development Corporation could no longer function and would have to shut down.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 627 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Ayes, 7. Noes, none. Excused, none.

Economic Development and Technology

Ayes, 6. Noes, none. Excused, 1 (Baker).

SCRep. 326 Higher Education and the Arts on S.B. No. 707

The purpose and intent of this measure is to establish an Office of Sustainability on the system level for the University of Hawaii and to provide funding for key staff to coordinate the implementation of the Board of Regents' sustainability policy across all ten campuses of the University of Hawaii System.

Your Committee received testimony in support of this measure from the University of Hawaii System and seventeen individuals.

Your Committee finds that the establishment of an Office of Sustainability would permit the University to aggressively and efficiently pursue numerous multi-faceted priorities relating to sustainability, the reinvestment of funds to better manage project energy consumption and costs, and to convene the annual Sustainability in Higher Education Summit.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 707 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 327 Higher Education and the Arts on S.B. No. 987

The purpose and intent of this measure is to clarify that a post-secondary educational institution may request an administrative hearing following receipt of notification of denial or of intent to suspend or terminate any authorization.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing law permits a post-secondary educational institution to request an administrative hearing pursuant to chapter 91, Hawaii Revised Statutes, if that institution is placed on probation. However, existing law does not set forth the administrative remedies available to an institution when it receives notice of denial, intent to suspend, or terminate any authorization. Your Committee further finds that this measure would clarify that in these instances, the institution may request an administrative hearing for review as well.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 987 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 328 Higher Education and the Arts on S.B. No. 1147

The purpose and intent of this measure is to appropriate monies out of the University of Hawaii revenue bond fund for renovations, repairs, and improvements to the John A. Burns School of Medicine.

Your Committee received testimony in support of this measure from the University of Hawaii System. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the current facilities of the John A. Burns School of Medicine complex are aging and currently lacking in the maintenance and equipment upgrades that are required by the accrediting body of the John A. Burns School of Medicine. There has also been one recorded injury due to these aging facilities. The appropriated funds in this measure would assist the School of Medicine in bringing the facilities up to date and help ensure the future accreditation of the only accredited school of medicine in the State.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1147 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 329 Higher Education and the Arts on S.B. No. 1239

The purpose and intent of this measure is to reestablish the Governor's authority to nominate and, with the advice and consent of the Senate, appoint members of the University of Hawaii Board of Regents by repealing the Candidate Advisory Council, which currently identifies suitable candidates to serve on the University's Board of Regents.

Your Committee received testimony in support of this measure from the University of Hawaii System, University of Hawaii Professional Assembly, and two individuals.

Your Committee finds that the Governor's selection and appointment of Board of Regents members is restricted to only those candidates recommended by the Candidate Advisory Council.

Your Committee further finds that the pool of qualified candidates would most effectively and promptly occur through the ratification of a constitutional amendment to Article X, Section 6, of the Hawaii State Constitution. This constitutional amendment would remove provisions related to the Candidate Advisory Council which would subsequently provide the Governor with more flexibility and choice in identifying and appointing the strongest possible Regents for the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1239 and recommends that it pass Second Reading and be referred to the Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kidani, Wakai).

SCRep. 330 Higher Education and the Arts on S.B. No. 1240

The purpose and intent of this measure is to enact a constitutional amendment to Article X, Section 6, of the Constitution of the State of Hawaii to modify the University of Hawaii Board of Regents' appointment process.

Your Committee received testimony in support of this measure from the University of Hawaii System, University of Hawaii Professional Assembly, and two individuals.

Your Committee finds that the constitutional provision relating to the appointment of members to the University of Hawaii Board of Regents requires that appointment of members be selected from a pool of qualified candidates previously presented to the Governor by the Candidate Advisory Council for the Board of Regents of the University of Hawaii. This current process does not provide the Governor with the most effective means of appointing the strongest possible candidates.

Your Committee further finds that enactment of this constitutional amendment would repeal the requirement that the Candidate Advisory Council provide the Governor with a pool of qualified candidates and would give the Governor greater flexibility in choosing the best possible candidates to serve on the Board of Regents.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1240 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kidani, Wakai).

SCRep. 331 Higher Education and the Arts on S.B. No. 1146

The purpose and intent of this measure is to extend the authority of the University of Hawaii System to maintain a separate accounting and financial management system that is compatible with the State of Hawaii's accounting and financial systems.

Your Committee received testimony in support of this measure from the University of Hawaii System.

Your Committee finds that the University of Hawaii has maintained a separate accounting system since 1986, which has been compatible with both State accounting system requirements and generally accepted accounting principles. Your Committee further finds that the University of Hawaii has recently upgraded its accounting system through its participation in the Kualii Financial System consortium, a university-based financial management software that better meets the unique needs of university systems throughout the United States.

Since the implementation of the Kualii Financial System, the University of Hawaii continues to provide bi-monthly payroll feeds to the Department of Accounting and General Services, in addition to routine and annual financial reports that are included in the State of Hawaii's Annual Consolidated Financial Statements.

Your Committee further finds that if this measure is considered for passage by your Committee on Ways and Means, then your Committee would note that this measure contains citations to session laws from 1923 and 1925 which may require further verification.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1146 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 332 (Joint) Hawaiian Affairs and Education on S.B. No. 778

The purpose and intent of this measure is to require the Department of Education to establish procedures to develop an assessment of statewide performance standards for students in the Kaiapuni program.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Education, Hawaiian Affairs Caucus – Democratic Party of Hawaii, King Kamehameha Hawaiian Civic Club, Kalihi Kalama Hawaiian Civic Club, Keaukaha Community Association, and fourteen individuals. Your Committees received comments on this measure from four individuals.

Your Committees find that this measure will provide for a fairer and more reasonable assessment of students in the Kaiapuni program. In a counterpart to this measure, the House of Representatives adopted language developed and proposed by the Office of Hawaiian Affairs and the Department of Education.

Your Committees have amended this measure by:

- (1) Making the changes proposed by the Office of Hawaiian Affairs and adopted by the House Committee on Ocean, Marine Resources, and Hawaiian Affairs in H.B. No. 874, H.D. 1, which:
 - (A) Requires the Department of Education to develop and implement the annual assessments in the Hawaiian language; and
 - (B) Requires the Department of Education, with the assistance of specified entities, to establish procedures for the development of annual assessments in the Hawaiian language; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and conformity.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 778, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 778, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Education

Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Keith-Agaran, Slom).

SCRep. 333 (Joint) Hawaiian Affairs and Human Services and Housing on S.B. No. 992

The purpose and intent of this measure is to:

- (1) Create the Native Hawaiian Welfare Act, which establishes the Na Kupuna Tribunal;
- (2) Create a pilot program for the Native Hawaiian Welfare Act; and
- (3) Create a working group to oversee the Na Kupuna Tribunal.

Your Committees received testimony in support of this measure from the Na Kupuna Tribunal, Na Kupuna O Keokaha, Na Kupuna O Waianae, Legacy Coalition, and four individuals. Your Committees received testimony in opposition to this measure from Hookipa Network Kauai, American Academy of Adoption Attorneys, Center for Hawaiian Sovereignty Studies, and three individuals. Your Committees received comments on this measure from the Office of Information Practices.

Your Committees find that there is a need for services regarding the placement of Hawaiian children who have been displaced by their families. In the past, the Na Kupuna Tribunal has been successful in placing Hawaiian children with families by using the hanai and lawe hanai systems. While the Na Kupuna Tribunal had worked together with the courts and Child Protective Services in the past, the relationship deteriorated over the years. Nevertheless, your Committees believe that the Na Kupuna Tribunal can serve as an invaluable tool for the courts, Child Protective Services, and native Hawaiian children. As such, your Committees find that it is worthwhile for a working group to be formed by the Department of Human Services to determine how the Na Kupuna Tribunal can best assist in child custody matters involving Hawaiian children.

Your Committees have amended this measure by:

- (1) Deleting parts I, II, and III;
- (2) Amending part IV by adding parties to be included in the working group and amending the objectives of the working group; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 992, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 992, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 334 (Joint) Hawaiian Affairs and Public Safety, Intergovernmental and Military Affairs and Human Services and Housing on S.B. No. 785

The purpose and intent of this measure is to make permanent provisions allowing for affordable housing credits to be requested by the Department of Hawaiian Home Lands and received from each county for units developed on Hawaiian home lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Sovereign Councils of Hawaiian Homelands Assembly, and one individual. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting; Kauai County Housing Agency, and Center for Hawaiian Sovereignty Studies.

Your Committees find that affordable housing credits have allowed the Department of Hawaiian Home Lands to gain resources to develop Hawaiian home lands consistent with its mission to return native Hawaiians to their trust lands. Your Committees note the concern raised by the City and County of Honolulu and Kauai County that the unintended effect of this measure may be to reduce their total overall inventory of affordable housing.

Your Committees have amended this measure by:

- (1) Removing language that would have provided a two-for-one credit for affordable housing developed for rental purposes;
- (2) Inserting language that requires the Department of Hawaiian Home Lands to expend twenty-five percent of revenues from the transfer of affordable housing credits for the development of rental units; and
- (3) Inserting an effective date of June 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Public Safety, Intergovernmental and Military Affairs, and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 785, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 785, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Human Services and Housing
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 335 (Joint) Hawaiian Affairs and Human Services and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1100

The purpose and intent of this measure is to make permanent provisions allowing for affordable housing credits to be requested by the Department of Hawaiian Home Lands and received from each county for units developed on Hawaiian home lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting, and Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from one individual.

Your Committees find that affordable housing credits have allowed the Department of Hawaiian Home Lands to gain resources to develop Hawaiian home lands consistent with its mission to return native Hawaiians to their trust lands.

Your Committees have amended this measure by:

- (1) Inserting an effective date of June 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Human Services and Housing, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1100, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1100, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

SCRep. 336 (Joint) Tourism and International Affairs and Water and Land on S.B. No. 617

The purpose and intent of this measure is to:

- (1) Allocate transient accommodations tax revenues to the special land and development fund and the beach restoration and conservation special fund;
- (2) Effectively develop and implement plans to slow the degradation of Hawaii beaches; and
- (3) Restore beaches through the coordination of activities involving the counties and the formation of public-private partnerships.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawaii System, Hawaii Tourism Authority, Hawaii Lodging & Tourism Association, Hawaii Shore and Beach Preservation Association, and Nature Conservancy. Your Committees received comments on this measure from the Department of Budget and Finance, State-County Functions Working Group, and Tax Foundation of Hawaii.

Your Committees find that Hawaii's beaches are important and unique components of the array of natural resources that make our islands a special place for Hawaii residents and an attractive destination for visitors. Recent studies by researchers at the University of Hawaii indicate that Hawaii beaches are disappearing at an alarming rate, with seventy percent of beaches undergoing chronic erosion, over thirteen miles of beach completely lost to erosion, and inappropriate shoreline development over the past century. Because of the growing demand for the use of beaches, your Committees support efficiently distributing limited financial resources to reinvest in Hawaii beaches as important and valuable natural resources and to conserve and restore these important assets.

Your Committees have amended this measure by:

- (1) Specifying that the allocation of transient accommodations tax revenues to the special land and development fund is to be expended pursuant to title 12, Hawaii Revised Statutes, and in accordance with the long-range strategic plan of the Hawaii Tourism Authority and removing the requirement that the expenditure be in accordance with a mutual agreement of the Board of Land and Natural Resources and Board of Directors of the Hawaii Tourism Authority;
- (2) Amending the language authorizing use of the transient accommodations tax revenues allocated to the special land and development fund for certain operation and maintenance costs of public lands to instead be for certain operation and maintenance costs of state parks, beaches, and trails, and costs associated with improving enforcement of ancillary regulations;
- (3) Changing the effective date to be upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 617, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 617, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 337 (Joint) Tourism and International Affairs and Water and Land on S.B. No. 284

The purpose and intent of this measure is to allocate transient accommodations tax revenues to the special land and development fund to be expended in accordance with the long-range strategic plan for tourism developed by the Hawaii Tourism Authority.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Tourism Authority, Hawaii Lodging & Tourism Association, and Nature Conservancy. Your Committees received comments on this measure from the State-County Functions Working Group and Tax Foundation of Hawaii.

Your Committees find that Act 161, Session Laws of Hawaii 2013, in part, allocated \$3,000,000 of transient accommodations tax revenues subject to the mutual agreement of the Board of Land and Natural Resources and the Board of Directors of the Hawaii Tourism Authority in accordance with the Hawaii Tourism Authority strategic plan. Act 161 specified an amount "of the excess revenue deposited into the general fund" but did not provide authority to expend the funds; therefore, to date, the Department of Land and Natural Resources has not received any of the funding intended for it by Act 161 for the 2013-2014 fiscal year or the current fiscal year. Your Committees find that this measure solves the issue of authority to expend the funds.

Your Committees also find that, as recommended in testimony by the Department of Land and Natural Resources, the language of this measure should be further clarified and an effective date of upon approval will allow for access to funds intended to be used during the current fiscal year.

Accordingly, your Committees have amended this measure by:

- (1) Specifying that the allocation of transient accommodations tax revenues to the special land and development fund is to be expended pursuant to title 12, Hawaii Revised Statutes, and in accordance with the long-range strategic plan of the Hawaii Tourism Authority and removing the requirement that the expenditure be in accordance with a mutual agreement of the Board of Land and Natural Resources and Board of Directors of the Hawaii Tourism Authority;
- (2) Amending the language authorizing use of the transient accommodations tax revenues allocated to the special land and development fund for certain operation and maintenance costs of public lands to instead be for certain operation and maintenance costs of state parks, beaches, and trails, and costs associated with improving enforcement of ancillary regulations;
- (3) Changing the effective date to be upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 284, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 284, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 338 (Joint) Tourism and International Affairs and Higher Education and the Arts on S.B. No. 825

The purpose and intent of this measure is to establish a temporary Puerto Rican Exchange Commission to coordinate a cultural exchange program between Hawaii and Puerto Rico, honor and recognize the contributions of the Puerto Rican people, and commemorate the arrival of the Puerto Ricans to Hawaii.

Your Committees received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committees find that since the arrival of the first Puerto Ricans in Hawaii on December 23, 1900, the Puerto Rican people have contributed significantly to all phases of Hawaii's development. The rich culture and proud heritage of the Puerto Rican people have been and continue to be positive influences upon life in Hawaii. Your Committees further find that recognition of the contributions of the Puerto Rican people and their culture is important to promotion and awareness of Hawaii's diverse and multicultural society.

Your Committees have amended this measure by:

- (1) Changing the commission termination date from January 1, 2017, to June 30, 2017; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 825, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 825, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and International Affairs

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Higher Education and the Arts

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 339 Hawaiian Affairs on S.B. No. 1166

The purpose and intent of this measure is to amend the penal code to allow for the treatment of a corpse consistent with traditional Hawaiian cultural customs and practices.

Your Committee received testimony in support of this measure from the Ko'olaupoko Hawaiian Civic Club, Ko'olau Foundation, and three individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs and the Center for Hawaiian Sovereignty Studies.

Your Committee finds that this measure is necessary to clarify confusion about whether the use of traditional Hawaiian customs and practices to prepare human remains for burial or cremation and the burial or cremation of a corpse prepared consistent with those customs and practices violate the law.

Your Committee has amended this measure by inserting language to clarify that:

- (1) The preparation of a corpse consistent with traditional Hawaiian customs and practices; and
- (2) The burial or cremation of a corpse prepared in a manner consistent with traditional Hawaiian customs and practices,

are not a violation of section 711-1108, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1166, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 340 Hawaiian Affairs on S.B. No. 438

The purpose and intent of this measure is to appropriate funds for the Office of Hawaiian Affairs for the 2015-2017 biennial budget.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Ko'olaupoko Hawaiian Civic Club, and four individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee recognizes the importance of funding the programs of the Office of Hawaiian Affairs, which provide assistance to all Native Hawaiians, regardless of blood quantum. Your Committee commends the Office of Hawaiian Affairs for its fiscal and investment practices, which have resulted in the current levels of its trust corpus; however, your Committee requests that the Office of Hawaiian Affairs consider its policies regarding the amount of the corpus used to fund programs, especially in times where the corpus is at healthy financial levels.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 341 (Joint) Transportation and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1334

The purpose and intent of this measure is to allow law enforcement officers to seize and tow a motor vehicle if the operator is arrested or cited for various alcohol-related traffic offenses.

Your Committees received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, County of Kauai Office of the Prosecuting Attorney, State Highway Safety Council, and Mothers Against Drunk Driving Hawaii.

Your Committees find that this measure is a strong deterrent to drivers who drive while intoxicated. Towing and impoundment are penalties generically referred to as vehicle sanctions. According to testimony, these types of sanctions are favored by many impaired driving researchers, safety organizations, and the National Highway Safety Traffic Administration. The threat of surrendering a vehicle, even temporarily, can deter people from driving while intoxicated.

Your Committees have amended this measure by:

- (1) Deleting references to the term "seizure" since police officers do not actually seize a vehicle;

- (2) Making the towing and storage of the vehicle at the owner's expense; and
- (3) Adding an exemption for community caretaking, which is defined as a situation in which a police officer uses the vehicle for a consensual police-citizen encounter that is unrelated to the investigation or detection of any criminal activity.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1334, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1334, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation

Ayes, 7; Ayes with Reservations (English). Noes, none. Excused, 2 (Kidani, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 342 (Joint) Transportation and Public Safety, Intergovernmental and Military Affairs on S.B. No. 233

The purpose and intent of this measure is to allow the respective county directors of finance to enter into contracts with car dealerships and motor vehicle rental companies to register used cars.

Your Committees received testimony in support of this measure from the Hawaii Automobile Dealers Association.

Your Committees find that currently, the registration of used cars or previously owned vehicles is the responsibility of the individual buyer, whereas the registration of new cars is commonly undertaken by the dealership under contracts with the respective county directors of finance.

Your Committees further find that used car dealerships and rental car companies are increasing their sales of used cars in response to growing consumer demand. Car dealers and rental car companies should be able to register used cars when the cars are sold in the same manner as new cars.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 233 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Transportation

Ayes, 8. Noes, none. Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 343 (Joint/Majority) Transportation and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1160

The purpose and intent of this measure is to establish a three-year pilot photo red light imaging detector system program to improve enforcement of the traffic signal laws in all counties and make other amendments relating to highway safety.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaii Bicycling League, Mothers Against Drunk Driving Hawaii, and six individuals. Your Committees received testimony in opposition to this measure from five individuals.

Your Committees find that the prevalence of drivers violating Hawaii's traffic laws, especially on the Island of Oahu, has become intolerable, particularly drivers who run red lights. These violations endanger the lives of motorists and pedestrians and compound the already hazardous conditions on Hawaii's roads and highways. It has become increasingly common to hear reports of hit-and-run drivers who have run over children or the elderly. Disregarding traffic signals has also been the common denominator in recent highly-publicized motor vehicle crashes that have claimed lives.

Your Committees further find that in other jurisdictions in the United States, Canada, Europe, and other countries throughout the world, the photo red light imaging detector system has already demonstrated its reliability, efficiency, and effectiveness in identifying and deterring those who run red lights.

Your Committees have amended this measure by:

- (1) Requiring that the photo red light imaging detector system program begin at three locations to be selected by the Department of Transportation based on data relating to violations and accidents;
- (2) Inserting an effective date of July 30, 2022, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1160, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1160, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation

Ayes, 6; Ayes with Reservations (Dela Cruz). Noes, 2 (English, Kouchi). Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 344 (Joint) Transportation and Public Safety, Intergovernmental and Military Affairs on S.B. No. 551

The purpose and intent of this measure is to require all minors under the age of eighteen years to wear a safety helmet while operating or riding as a passenger on a motorcycle, all-terrain vehicle, and any other off-road vehicle.

Your Committees received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; The Queen's Health Systems; State Highway Safety Council; Mothers Against Drunk Driving Hawaii; and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that if higher rates of individuals wore helmets, there would be very positive safety outcomes. According to testimony, a number of rigorous studies have shown that states with high rates of helmet use have lower rates of head injury than states with low helmet use. In addition, studies have shown that when states repeal helmet laws a dramatic rise in loss of life from head injuries among motorcyclists ensues. The requirement of helmets by minors is particularly important where minors are operators or passengers on motorcycles, all-terrain vehicles, and other off-road vehicles.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 551 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 345 (Joint) Transportation and Public Safety, Intergovernmental and Military Affairs on S.B. No. 19

The purpose and intent of this measure is to make permanent the county surcharge on state tax.

Your Committees received testimony in support of this measure from the Office of the Mayor, City and County of Honolulu; Honolulu Authority for Rapid Transportation; International Brotherhood of Electrical Workers Local Union 1186; Hawaii State AFL-CIO; Hawaii Laborers-Employers Cooperation and Education Trust; Faith Action for Community Equity; Hawai'i Construction Alliance; Castle & Cooke Hawai'i; Pacific Resource Partnership; Hawaii Regional Council of Carpenters; Hawaii Masons' Union Local #1; Hawaii Operating Engineers Stabilization Fund; and two individuals. Your Committees received testimony in opposition to this measure from twenty-four individuals. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Act 247, Session Laws of Hawaii 2005, enacted a county surcharge on state tax in the amount of one-half percent on excise taxes. The surcharge is for operating or capital costs of a locally preferred alternative for a mass transit project in Honolulu and for public transportation in the other counties, as well as expenses in complying with the Americans with Disabilities Act.

Your Committees find that the rail transit project of the Honolulu Authority for Rapid Transportation is in serious financial jeopardy which threatens the likelihood of completion of the project by 2022, when the surcharge is set to expire. The financial difficulties are attributable to:

- (1) Lawsuits that have caused planning and construction delays;
- (2) Declining general excise tax revenues;
- (3) Higher construction bids than were forecasted in the construction budget several years ago; and
- (4) Escalating material and labor costs for construction in Hawaii.

According to testimony of the Honolulu Authority for Rapid Transportation, the construction costs next year alone will be ten to fifteen percent over budget. The Honolulu Authority for Rapid Transportation must prove to bidders that it has sufficient money to pay the selected contractors five to seven years from now, since major construction projects such as the rail project typically have long horizons.

Your Committees further find that if the rail project is not completed, then the City will have to pay back federal grant monies of \$1,550,000,000. The federal Full Funding Grant Agreement provided the City with that amount in new starts funding. The agreement states that the City has an obligation to complete this project under the time frame specified in the agreement, regardless of any financial challenges the City might encounter. If the City defaults on this agreement, then the City will face even greater fiscal challenges, including repayment of these federal funds.

Your Committees further find that traffic on Oahu is continually getting worse. Each year, there are thousands of new vehicles on the road creating additional gridlock, increased frustration, and more time spent in a vehicle instead of at home with loved ones or engaging in other preferred activities. Increasingly, commuters from West Oahu face the daunting reality that traveling to Honolulu and back to West Oahu can take upwards of three to four hours.

Your Committees further find that rail transit construction, as well as eventual operation, provides jobs, efficient transportation, more quality time for families by avoiding traffic congestion while also saving families the costs of wear and tear on their vehicles, helps control urban sprawl, and enhances the creation of affordable housing through transit oriented development.

Your Committees have amended this measure by:

- (1) Adding a purpose section;
- (2) Diverting half of the ten percent administrative fee collected by the State to transit oriented development projects;
- (3) Extending the opportunity for other counties to adopt an ordinance to levy a county surcharge on state tax to an unspecified date;
- (4) Extending the sunset date of the county surcharge on state tax to December 31, 2047;
- (5) Requiring the Honolulu Authority for Rapid Transportation to complete the entire rail transit project by December 31, 2047, including extensions of the project to Ala Moana Center, the University of Hawaii at Manoa, and downtown Kapolei;
- (6) Requiring that buildings comprising each rail transit station be integrated so that all buildings are physically connected, except at Honolulu International Airport and Pearl Harbor rail stations;
- (7) Requiring the City and County of Honolulu to plan transient oriented development to accommodate the anticipated growth in population;
- (8) Requiring the Auditor to conduct a financial and management audit of the Honolulu Authority for Rapid Transportation and its rail transit project;
- (9) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 19, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 19, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 346 (Joint) Water and Land and Tourism and International Affairs on S.B. No. 1173

The purpose and intent of this measure is to require the Department of Land and Natural Resources to engage in negotiations to acquire certain lands of Kapua with excess revenues derived from the transient accommodations tax.

Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Budget and Finance, Tax Foundation of Hawaii, and State-County Functions Working Group.

Your Committees find that the lands of Kapua in Miloli'i on the island of Hawaii are a scenic wonder with breathtaking shoreline views that are slated for resort development by its owner, The Resort Group. The lands of Kapua comprise at least 6,000 acres in South Kona that are classified as agricultural or conservation land. The Resort Group acquired the land from the Kamehameha Schools/Bishop Estate.

Your Committees further find that the State should seek to acquire Kapua in the interests of preserving the area's diminishing pristine condition for future generations while ensuring the preservation of agriculture and the prudent economic development of the area.

Your Committees are in the process of obtaining the tax map key numbers of the subject property and will advise your Committee on Ways and Means accordingly.

Your Committees have amended this measure by:

- (1) Qualifying the references to "lands of Kapua" by adding "commonly known as Miloli'i";
- (2) Requiring the Department of Land and Natural Resources to consult with The Trust for Public Lands, rather than the Hawaiian Islands Land Trust; and
- (3) Changing the effective date to July 1, 2015.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1173, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1173, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

Tourism and International Affairs

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 347 Water and Land on S.B. No. 1126

The purpose and intent of this measure is to:

- (1) Increase the reimbursement rate to help program participants cover the cost of developing an approved forest stewardship management plan;
- (2) Clarify that program applicants must enter into a program implementation agreement with the Board of Land and Natural Resources upon approval of the forest stewardship management plan to receive program funding;
- (3) Clarify that long-term leaseholders are eligible to participate in the program; and
- (4) Add a definition of “program implementation agreement” for clarity.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy.

Your Committee finds that the forest stewardship program provides technical and financial assistance to private landowners or long-term leaseholders of forests in managing, protecting, and restoring important natural resources in Hawaii’s forested and formerly forested lands. Over one-half of Hawaii’s forested areas are privately managed. The program enables participants to responsibly manage important forest resources that provide vital public and private socioeconomic and environmental benefits.

Your Committee further finds that with the withdrawal of much of Hawaii’s agricultural industries, the forest stewardship program encourages the restoration, forest production, and conservation of degraded agricultural areas with native forest systems. The program also stimulates investment in forestry as an economically viable land-use alternative that supplies Hawaii’s rural communities with a source of revenue, provides locally grown products and energy to reduce Hawaii’s dependence on imported goods, and contributes environmental benefits, such as clean water and habitat for Hawaii’s native wildlife.

The forest stewardship program allows landowners to access natural resource experts to help program participants responsibly and sustainably manage forest resources. This knowledge transfer improves the management of privately managed forest lands, which benefits the public by increasing freshwater resources, providing habitat for native wildlife, reducing soil erosion and sedimentation on coral reefs, identifying and controlling invasive species, and creating smart sustainable communities.

Your Committee has amended this measure by:

- (1) Restoring language that limits forest product development to forests where native vegetation was removed prior to January 1, 1991;
- (2) Reinstating the requirement in section 195F-5, Hawaii Revised Statutes, that a forest stewardship program applicant prepare and submit a forest stewardship management plan to the Board of Land and Natural Resources; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1126, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 348 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 470

The purpose and intent of this measure is to clarify that any equipment, article, instrument, aircraft, vehicle, vessel, business record, or natural resource used or taken in violation of the rules applicable to the Kaho’olawe Island Reserve may be seized and subject to forfeiture.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Kaho’olawe Island Reserve Commission, and fourteen individuals. Your Committees received testimony in opposition to this measure from the Ocean Tourism Coalition, Windward Sea Yacht Charters, and Aqua Lung Pacific. Your Committees received comments on this measure from the Department of the Attorney General and three individuals.

Your Committees find that Kaho’olawe, a kinolau of Kanaloa, remains a piko of Hawaiian culture yet still retains visible scars from decades of previous mismanagement. Kaho’olawe was critical to the Hawaiian cultural renaissance and continues to serve as an integral education center for traditional navigation, hula, natural resource management, and other cultural traditions and disciplines.

Your Committees further find that while numerous laws and rules have been adopted to respect, restore, and protect Kaho’olawe and its natural and cultural resources, the relative isolation of the island substantially inhibits the enforcement of these laws and rules. Asset forfeiture, as a civil enforcement mechanism, may therefore be a critical tool to address and deter violations of these important laws and rules.

Your Committees, upon consultation with the Department of the Attorney General, have amended this measure by:

- (1) Clarifying that property or natural resources used or taken in violation of chapter 6K, Hawaii Revised Statutes, or rules adopted by the Department of Land and Natural Resources or the Kaho’olawe Island Reserve Commission may be subject to seizure and disposal in accordance with the procedures under current law if the offense occurs within the fast lands of the

Reserve or by persons or on vessels located in the area extending seaward one nautical mile of the shoreline of Kaho‘olawe Island;

- (2) Directing the Department of Land and Natural Resources to adopt administrative rules identifying the types of rule violations that may warrant asset forfeiture;
- (3) Deleting the unnecessary enumeration of the offenses, subject to forfeiture since offenses can be set out in administrative rules;
- (4) Deleting the unnecessary amendment to section 6K-6, Hawaii Revised Statutes, relating to rulemaking authority of the Kaho‘olawe Island Reserve Commission, since it is duplicative of other provisions in the measure;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 470, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 470, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Ihara, Slom).

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Inouye, Slom).

SCRep. 349 (Joint) Water and Land and Human Services and Housing on S.B. No. 763

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources, in consultation with the Department of Human Services, to establish mobile home parks throughout the State for persons whose family income is no more than 250 percent of the federal poverty level; and
- (2) Allow the private sector to develop mobile home parks, which could help solve the homeless crisis in the State at no cost to taxpayers.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources; Department of Health; Hawaii Public Housing Authority; Office of Hawaiian Affairs; and one individual.

Your Committees find that the lack of affordable housing and rentals has forced some residents to live or sleep on sidewalks or in cars, business entrances, underpasses, and other public and private locations not meant for habitation.

H.C.R. No. 202, H.D. 1, S.D. 1, Regular Session of 2006, directed the Housing and Community Development Corporation of Hawaii to study the potential of mobile home parks as a solution to Hawaii’s affordable housing crisis and submit a report of its findings and recommendations to the Legislature. The report discussed the development costs, construction, infrastructure, land use, and zoning issues related to the potential of manufactured housing communities in the State.

Your Committees believe that mobile home parks would be a viable solution to the affordable housing crisis.

Your Committees have amended this measure by:

- (1) Authorizing the Hawaii Public Housing Authority, instead of the Department of Land and Natural Resources, to establish mobile home parks, consult and coordinate with appropriate county agencies and nonprofit organizations, and adopt rules;
- (2) Changing the expending agency to the Department of Human Services;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 763, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 763, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 1 (Slom).

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 350 Government Operations on S.B. No. 1358

The purpose and intent of this measure is to require the State Procurement Office to establish a database of all government procurement contract data, accessible to each governmental body.

Your Committee received testimony in support of this measure from the Ulupono Initiative and Hawaii Operating Engineers Industry Stabilization Fund. Your Committee received comments on this measure from the State Procurement Office and City and County of Honolulu Department of Budget and Fiscal Services.

Your Committee finds that the establishment of a statewide procurement database is consistent with transparency and accountability in government contracting. The database may lead to better standardization of contracting practices across the State. A meaningful database requires thoughtful organization, adequate training for database users, and inclusion of important information.

Your Committee has amended this measure by specifying the data that each governmental body shall provide to the State Procurement Office for inclusion in the procurement contract database.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1358, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1358, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 351 Government Operations on S.B. No. 1115

The purpose and intent of this measure is to amend the definition of “public buildings, facilities, and sites” under section 103-50, Hawaii Revised Statutes, to exempt certain construction projects constructed on state or county lands that would not ordinarily be open to public access from mandatory review by the Disability and Communications Access Board.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board.

Your Committee finds that section 103-50, Hawaii Revised Statutes, is not intended to require certain private entities operating upon state or county lands to be held to the compliance standards of the Americans with Disabilities Act or to submit building plans for review by the Disability and Communication Access Board. Farm buildings constructed upon state agricultural land and private homes constructed upon a Hawaiian homestead plot are examples of buildings that were not intended to be regulated under section 103-50, Hawaii Revised Statutes, but could arguably fall under the Disability and Communication Access Board’s purview according to existing statutory language. This measure seeks to align statutory language with intent and practice.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1115, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1115, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 352 (Joint) Human Services and Housing and Water and Land on S.B. No. 976

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and the appropriation of funds for the planning, design, and construction of the Juvenile Services Center portion of the mixed-use project at 902 Alder Street, Honolulu, Oahu.

Your Committees received testimony in support of this measure from the Judiciary, Hawaii Housing Finance and Development Corporation, and Catholic Charities Hawai‘i. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that there are underutilized parcels of state land in the urban core of Honolulu that could be developed into mixed-use residential projects, providing space for government offices, social services, and affordable housing. 902 Alder Street, Honolulu, Oahu, currently set aside by Executive Order to the Juvenile Court of the First Circuit, is one such parcel.

Your Committees further find that the Judiciary and Hawaii Housing Finance and Development Corporation have entered into a memorandum of agreement to develop a mixed-use residential project that includes a Juvenile Services Center that would be integrated with an affordable rental housing project for working families at 902 Alder Street. The workforce housing component of the mixed-use project will provide approximately one hundred eighty units for lower income families.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 976 and recommend that it pass Second Reading and be referred to the Committees on Ways and Means and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 353 (Joint) Human Services and Housing and Water and Land on S.B. No. 974

The purpose and intent of this measure is to:

- (1) Authorize the rental housing trust fund to be used for spaces for public uses within mixed-use residential developments in which the residential component consists of rental housing units;
- (2) Establish a separate mixed-use residential development subaccount within the rental housing trust fund to make loans or grants for the development, pre-development, construction, acquisition, preservation, and substantial rehabilitation of spaces for public uses within mixed-use residential developments in which the residential component consists of rental housing units;
- (3) Clarify that assistance from the rental housing trust fund may be made for new construction, rehabilitation, or preservation of spaces for public uses in mixed-use residential developments; and
- (4) Make an appropriation for deposit into the mixed use residential development account.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Catholic Charities Hawai'i, Chamber of Commerce Hawaii, Building Industry of Hawaii, and PHOCUSED.

Your Committees find that the State needs to add creative ways to create more affordable housing. This measure allows different state departments to work together in developing housing. It's possible that such partnerships could provide a legacy of affordable housing for the current and future residents of Hawaii.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 974 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 354 (Joint) Human Services and Housing and Water and Land on S.B. No. 741

The purpose and intent of this measure is to require the Hawaii Housing Finance and Development Corporation to establish a community land trust for the purpose of selling homes to low- and moderate-income homebuyers.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that the Office of Housing and Community Development in Hawaii County has previously committed to developing its Waialoa workforce housing project under a community land trust model by selecting a developer and creating a non-profit entity to serve as the community land trust. Under this model, the project is providing fee simple homeownership at prices that are substantially lower than those originally proposed under a community land trust.

Your Committees have amended this measure by specifying that the Hawaii Housing Finance and Development Corporation is authorized, not required, to establish a community land trust.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 741, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 741, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 355 (Joint) Tourism and International Affairs and Agriculture on S.B. No. 1073

The purpose and intent of this measure is to:

- (1) Provide that agricultural tourism uses or activities, including overnight accommodations for stays of less than thirty consecutive days, conducted in conjunction with a bona fide farming operation, are permissible in an agricultural district; and
- (2) Ensure that bona fide farming operations that meet the statutory criteria would not be required to obtain a special permit pursuant to section 205-6, Hawaii Revised Statutes, for accessory agricultural tourism uses and activities.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Land Use Commission; Office of Planning; Hawaii Crop Improvement Association; and Hawaii Farm Bureau. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from one individual.

Your Committees find that supporting agricultural tourism and offering overnight accommodations support economic development and contribute to the State's goals of increased food security and food self-sufficiency. Your Committees also find that, as raised in testimony, a concise definition of "bona fide farming operations" ensures that agricultural tourism activities are properly established and that abuse is reduced.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1073, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1073, S.D. 1, and be referred to the Committee on Water and Land.

Signed by the Chairs on behalf of the Committees.

Tourism and International Affairs

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Agriculture

Ayes, 5; Ayes with Reservations (Riviere, Thielen). Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 356 (Joint) Hawaiian Affairs and Government Operations on S.B. No. 1236

The purpose and intent of this measure is to require state agencies to award not less than twenty percent of the total value of their procurement contracts to native Hawaiian organizations.

Your Committees received testimony in support of this measure from Ko'olaupoko Hawaiian Civic Club, Ko'olau Foundation, and Native Hawaiian Chamber of Commerce. Your Committees received testimony in opposition to this measure from the State Procurement Office, Honolulu Department of Budget and Fiscal Services, and Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees finds that it should be a goal of the State to support programs that promote and support native Hawaiian businesses and organizations. In its testimony, this sentiment is shared by the State Procurement Office; however, the State Procurement Office has represented to your Committees that while it supports the intent of this measure, it nevertheless must oppose its passage. According to the State Procurement Office, the State already has a small business set-aside law; however, to date, that program has been ineffective due to the inability to adopt rules for its implementation. Under the new state administration, there is a renewed effort by the State Procurement Office to implement the small business set-aside law. To that end, the current State Procurement Office administration has been engaging stakeholders for their input so that the problems that caused past failures can be avoided. The State Procurement Office has requested that rather than passing the current version of this measure, that your Committees support their efforts to effectuate the existing small business set-aside law. Once done, the small business set-aside law would serve as an appropriate platform to support individual programs for specific groups of small business such as native Hawaiians, women, veterans, and the disabled. Upon further discussion, your Committees find that they should support the State Procurement Office's efforts to effectuate the small business set-aside law so that ultimately, programs for native Hawaiian organizations and other groups can be developed and successfully implemented.

Your Committees have amended this measure by:

- (1) Deleting the contents of the original measure;
- (2) Inserting language submitted by the State Procurement Office calling for the Small Business Regulatory Review Board to issue rules to define a "small business" under chapters 103D and 201M, Hawaii Revised Statutes, including rules to promote the growth and development of small business and set asides for small businesses in appropriate classifications, including Native Hawaiian organizations and veteran-owned organizations;
- (3) Inserting language to establish the Small Business Office and state small business program within the Department of Business, Economic Development, and Tourism; and
- (4) Amending the effective date to be upon approval.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1236, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1236, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 357 (Joint) Hawaiian Affairs and Government Operations on S.B. No. 436

The purpose and intent of this measure is to require the Office of Hawaiian Affairs to administer a training course on native Hawaiian and Hawaiian rights for appropriate agencies and employees and to require members of certain state councils, boards, and commissions to complete the training.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Land and Natural Resources, Land Use Commission, Association of Hawaiian Civic Clubs, King Kamehameha Hawaiian Civic Club, Koolaupoko Hawaiian Civic Club, Society for Hawaiian Archaeology, Hawaiian Green Growth, Kalihi Palama Hawaiian Civic Club, Kuaaina Ulu Aumao, Koolau Foundation, and nine individuals. Your Committees received testimony in opposition to this measure

from the Center for Hawaiian Sovereignty Studies and Land Use Research Foundation. Your Committees received comments on this measure from one individual.

Your Committees find that the program developed pursuant to this measure would provide an opportunity to ensure that key government policymakers understand their fiduciary obligation to the native Hawaiian people and culture. In recognition that this measure is recommended to be referred for consideration by your Committee and Ways and Means, your Committees note that the Office of Hawaiian Affairs is willing to develop and provide this training program to benefit government agencies and employees without any fiscal impact to the state budget.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 436 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 358 (Joint) Hawaiian Affairs and Government Operations on S.B. No. 895

The purpose and intent of this measure is to require that all newly created, replaced, or reprinted state and county documents, letterheads, symbols, and emblems contain accurate, appropriate, and authentic Hawaiian names and language.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and three individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that in recent decades, great strides have been made to bring about a renaissance of the Hawaiian language. In order to continue that momentum and perpetuate the Hawaiian language, its usage must become normalized. This measure would be one more step to normalize the usage of the Hawaiian language.

Your Committees have amended this measure by:

- (1) Adding language proposed by the Department of the Attorney General providing that any error of punctuation or diacritical marking in a document shall not render that document unenforceable; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

Your Committees notes that the amendment identified in paragraph (1) was not incorporated into the Hawaiian language portion of this measure. Therefore, if your Committee on Ways and Means chooses to hear this measure and vote to pass this measure out while retaining the amending language in paragraph (1), your Committee on Ways and Means may want to consider inserting identical Hawaiian language in the appropriate section of this measure.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 895, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 895, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 359 (Majority) Agriculture on S.B. No. 594

The purpose and intent of this measure is to require coffee blends to contain a specific listing of the geographic origins of Hawaii-grown coffees and various coffees not grown in Hawaii included in the blend on the front panel of the label and requires coffee blends labeled or advertised from a specific geographic origin to contain at least eighty percent of coffee from that geographic origin.

Your Committee received testimony in support of this measure from the Kona View Coffee; Kona Coffee Farmers Association; Lyman Kona Coffee Farms; Athena of Hawaii Coffee LLC; Hale Kai Lana, Inc.; Kawanui Farm; Hawaii Farmers Union United; Kona Sunset Farmers Market; Aikane Kona Coffee; Blue Corner Coffee; Lavarock Farm; Cyanotech Corporation; and nineteen individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association; Hawaii Food Manufacturers Association; Hawaiian Isles Kona Coffee; Heavenly Hawaiian Farms; Hawaii Lodging & Tourism Association; Hawaii Coffee Growers Association; Hawaiian Paradise Coffee; Hawaii Coffee Association; Harold L. King Co., Inc.; Mainland Ventures; Kau Coffee Mill; Paradise Beverages, Inc.; Kona Horizons; Retail Merchants of Hawaii; Hawaii Restaurant Association; McDonald's of Hawaii; Intelligent Blends; Honolulu Coffee; and twenty-eight individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii is home to diverse climates, soils, traditions, practices, and people that produce a wide variety of high-quality and high-value agricultural products unique to specific geographic origins. Coffee is one such product with a given quality, reputation, or characteristic attributable to its geographic origin. Your Committee finds that it is imperative to protect the quality and brand-name of Hawaii-grown coffee by ensuring that consumers understand how much Hawaii-grown coffee is contained in a coffee blend.

Your Committee has amended this measure by:

- (1) Inserting language to allow coffee blend labels to list “imported coffee” with the percentage by weight of the imported coffees contained in the blend in the aggregate;
- (2) Inserting language to explicitly require all type used for the list of coffee blend contents to be of the same size;
- (3) Deleting language amending the threshold percentage of coffee by weight from a geographic origin that is required in a coffee blend labeled or advertised from that specific geographic origin; thereby retaining in statute the current threshold amount of ten percent; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 594, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Taniguchi). Excused, 2 (Wakai, Slom).

SCRep. 360 (Joint) Agriculture and Water and Land on S.B. No. 1162

The purpose and intent of this measure is to prevent the loss of large-scale agricultural parcels and to ensure that future use of agricultural lands is for bona fide agricultural operations.

Your Committees received testimony in support of this measure from the Office of Planning, Hawaii Farmers Union United, and one individual. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Building Industry Association of Hawaii, and Hawaii Farm Bureau. Your Committees received comments on this measure from the Department of Agriculture and the Agribusiness Development Corporation.

Your Committees find that the Hawaii State Plan goal of a strong, viable economy can be accomplished through expanded agriculture throughout the islands, which requires preservation of large parcels of agricultural lands. Commercially viable agriculture requires large contiguous parcels for operation. Your Committees further find that the subdivision of agricultural lands and approval of condominium property regimes must be scrutinized.

Your Committees also find that it is important to address the concerns raised by the Department of Agriculture and the Agribusiness Development Corporation regarding the need to subdivide parcels, particularly in respect to the agricultural parks program, and the concerns voiced by the Hawaii Farm Bureau regarding the need for smaller parcels to be used as smaller farms; however, it is also necessary to retain the few remaining tracts of undivided agricultural land with good soil and take action to prevent the fractionalization of agricultural land by entities other than bona fide commercial farmers.

Accordingly, your Committees have amended this measure by:

- (1) Exempting a landowner applicant who is the Department of Agriculture, the Agribusiness Development Corporation, or a bona fide commercial farmer from the subdivision prohibition;
- (2) Defining “bona fide commercial farmer”;
- (3) Defining “subdivision”; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1162, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1162, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 361 (Joint) Commerce and Consumer Protection and Transportation on S.B. No. 1280

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission to regulate transportation network companies; and
- (2) Establish requirements for persons who operate or serve as drivers for transportation network companies.

Your Committees received testimony in support of this measure from Uber Technologies, Inc. Your Committees received testimony in opposition to this measure from the Hawaii Insurers Council; Hawaii Transportation Association; Property Casualty Insurers Association of America; GEICO Insurance Agency, Inc.; and EcoCab Hawaii. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; National Association of Mutual Insurance Companies; USAA; and State Farm Mutual Automobile Insurance Company.

Your Committees find that transportation network companies are entities that use a digital network or software application service to connect passengers with a transportation network company driver who is offering services using the driver's personal vehicle. Transportation network companies have become increasingly popular throughout the country, including in Hawaii, and have expanded transportation options for the benefit of the public. However, your Committees note that transportation network companies are not currently regulated in the State. Since transportation network companies are engaged in a new form of commercial transportation, it is appropriate for these companies to be required by state law to be responsible for commercial transportation liability issues created by their business activities.

Your Committees further find that the transportation network company model requires transportation network company drivers to transport passengers for hire in the transportation network company driver's private vehicle. As these activities are commercial in nature, the transportation network company driver's personal automobile insurance policy may not provide a duty to defend or any insurance coverage for the commercial transportation use of the transportation network company driver's personal automobile.

Your Committees conclude that amendments to this measure are necessary to provide a level playing field for commercial motor carriers in Hawaii; ensure transparency between transportation network companies and their drivers and adequate consumer protection for passengers; diminish potential disputes between insurers related to transportation network company services; and ensure that the services provided by transportation network companies do not affect the rates of all purchasers of personal automobile insurance policies.

Accordingly, your Committees have amended this measure by:

- (1) Inserting a definition for "transportation network company activity";
- (2) Requiring transportation network companies to disclose to transportation network company drivers:
 - (A) The insurance coverage and limits of liability that the transportation network company provides; and
 - (B) That the transportation network company driver's personal automobile insurance policy will not provide required or optional coverage during transportation network company activity;
- (3) Specifying certain requirements for the amount of primary commercial motor vehicle insurance that must be in effect during transportation network company activity;
- (4) Clarifying the limits of personal automobile insurance policies during transportation network company activity;
- (5) Requiring a transportation network company driver to carry proof of commercial motor vehicle insurance while the driver's vehicle is being used in connection with transportation network company service or activity;
- (6) Requiring an individual to submit evidence of a physical examination to determine the individual's health and fitness to act as a transportation network company driver;
- (7) Specifying that conviction of any domestic violence offense will disqualify a person from acting as a transportation network company driver;
- (8) Requiring individuals to be at least twenty-one years of age prior to becoming a transportation network company driver;
- (9) Requiring a transportation network company to maintain global positioning system records and electronic records of transportation network company activity for each individual trip provided by a transportation network company driver, for purposes of claims coverage investigations or resolving other disputes related to transportation network company activity; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1280, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1280, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection

Ayes, 6; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Slom).

Transportation

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Espero, Slom).

SCRep. 362 (Joint) Human Services and Housing and Health and Tourism and International Affairs on S.B. No. 1327

The purpose and intent of this measure is to ensure that Compact of Free Association (COFA) residents and other lawfully present legal permanent residents have access to affordable health care by:

- (1) Requiring the State to pay costs assessed on low-income COFA and other lawfully present legal permanent residents who receive health care through the Hawaii Health Connector and would otherwise be eligible for Medicaid except for their citizenship status;
- (2) Requiring the Department of Human Services to engage in community outreach to noncitizen resident communities to provide assistance with transfer and enrollment in health insurance plans through the Hawaii Health Connector; and
- (3) Appropriating funds to the Department of Human Services for health insurance costs addressed in this measure and community outreach.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association; Kokua Kalihi Valley Health Center; Queen's Health Systems; PHOCUSED; Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Economic Justice; Niu Health Chiropractic; Pacific Alliance to Stop Slavery; HealthyPacific.org; Filipino Law Students Association, University of Hawaii at Manoa; SHIP-HOOPS; Hawaii Coalition for Immigrant Reform; and twenty-one individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Human Services, Department of the Attorney General, Hawaii Medical Service Association, and two individuals.

Your Committees find that certain noncitizens who are lawfully present in the United States, including Hawaii COFA residents, are ineligible for Medicaid. Your Committees further find that this measure seeks to advance the Patient Protection and Affordable Care Act's goal of increased health care access by assisting noncitizen residents, who must now access health insurance through the Hawaii Health Connector, with premium costs, co-payments, and deductibles. Specifically, this measure will help make health insurance affordable for approximately seven thousand five hundred non-pregnant, non-aged, non-blind, and non-disabled adult COFA noncitizen residents in Hawaii.

Your Committees heard testimony from the Hawaii Medical Service Association and others expressing concern that it will be operationally challenging for the Department of Human Services to pay the health providers directly for individuals' co-payments and deductibles because there is no system in place to accommodate this function, and that creating a suitable system would require additional resources. Your Committees find that this issue raises concerns that merit further consideration.

Your Committees have amended this measure by:

- (1) Broadening the group of eligible noncitizens covered to ensure compliance with equal protection laws;
- (2) Inserting blank appropriation amounts; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing, Health, and Tourism and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1327, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1327, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Tourism and International Affairs

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Sлом).

SCRep. 363 (Joint) Higher Education and the Arts and Water and Land on S.B. No. 504

The purpose and intent of this measure is to:

- (1) Include only buildings, structures, objects, districts, areas, or sites that are significant in Hawaiian history, architecture, archaeology, engineering, or culture in the definition of "historic property";
- (2) Require the State Historic Preservation Division of the Department of Land and Natural Resources (SHPD) to initiate a pilot reconnaissance architectural survey project to inventory the historic buildings in the State;
- (3) Require SHPD to develop a list of types of projects that have no potential to affect a historic property and to provide the list to the public and the counties;
- (4) Require SHPD to develop lists of properties likely to be ineligible for inclusion on the Hawaii Register of Historic Places and to provide those lists to the counties; and
- (5) Require SHPD to identify properties that are likely to be eligible for inclusion on the Hawaii Register of Historic Places and notify the property owner of the property's likely eligibility.

Your Committees received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu, Hawaii Association of REALTORS, Land Use Research Foundation, and one individual. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Building Industry Association of Hawaii, Society for Hawaiian Archaeology, Native Hawaiian Legal Corporation, Complete Construction Services Corp., and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources, County of Hawaii Planning Department, County of Maui Planning Department, Chamber of Commerce Hawaii, Historic Hawaii Foundation, Building Industry Association of Hawaii, Hawaii Geophysical Services, National Utility Locating Association, and one individual.

Your Committees find that there is a need to recognize the importance of historic preservation, the aging housing stock and rising housing prices, and the inefficiency of using limited State Historic Preservation Division funds to attempt to preserve single-family residences through a reactive building permit review instead of a proactive survey of historic properties.

Your Committees further find that thorough documentation of Hawaii properties eligible for historic preservation status is critical for the appropriate distribution of State resources and will provide a more accurate listing of historic properties on the Hawaii Register of Historic Places.

Your Committees have amended this measure by:

- (1) Amending the purpose section to more clearly articulate its purpose and intent;
- (2) Amending the definition of “historic property” by deleting the requirement that the property be significant in Hawaiian history, architecture, archaeology, engineering, or culture, and possess integrity of location, design, setting, materials, workmanship, feeling, or association, as well as meet other criteria;
- (3) Further amending the definition of “historic property” by adding language to clarify that privately owned single-family residences fifty years or older shall only be considered historic properties if the residence is listed on the Hawaii Register of Historic Places, is nominated for listing on the Hawaii Register of Historic Places, or is located in a historic district;
- (4) Deleting the requirements that SHPD:
 - (A) Initiate a pilot reconnaissance architectural survey project to inventory the historic buildings in the State;
 - (B) Develop a list of the types of projects that have no potential to affect a historic property and to post the list on the Department of Land and Natural Resource’s website and provide the counties with the list no later than October 1, 2015; and
 - (C) Develop a list of properties that are not eligible for inclusion on the Hawaii Register of Historic Places and provide the list to the counties no later than January 2, 2016;
- (5) Inserting language requiring SHPD to conduct a survey, rather than develop a list, to identify potential historic districts and single-family residences, rather than all types of properties, that may be eligible for inclusion on the Hawaii Register of Historic Places;
- (6) Deleting the January 2, 2016, deadline for the requirement that SHPD notify property owners of likely eligibility of their properties for potential inclusion on the Hawaii Register of Historic Places;
- (7) Inserting language to require SHPD to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018;
- (8) Inserting blank appropriation amounts to the Department of Land and Natural Resources to carry out the purposes of this measure;
- (9) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (10) Repealing this measure on December 31, 2018; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 504, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 504, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Water and Land

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 364 Human Services and Housing on S.B. No. 352

The purpose and intent of this measure is to provide adoptees who have attained eighteen years of age unfettered access to the adoptee’s adoption records.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that it is difficult for adoptees to obtain access to their adoption records because Hawaii’s adoption record law conditions access to adoption records on birthparent approval. Historically, adoptees’ access to adoption records was limited due to the prevailing idea that adopted children were better off if they were unaware of their adoption. Your Committee finds, however, that current research indicates that the secrecy surrounding adoption actually has detrimental effects on adoptees and that adoptees have a significant interest in learning their familial history for various reasons, including for purposes related to health care diagnosis and treatment.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 352, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 352, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 365 Human Services and Housing on S.B. No. 899

The purpose and intent of this measure is to fund the kids’ savings project so that it can continue delivering hands-on money management learning opportunities to Hawaii students.

Your Committee received testimony in support of this measure from the Hawaii Alliance for Community-Based Economic Development and one individual.

Your Committee finds that teaching financial literacy in the K-12 setting benefits children, families, and the State. Recent research demonstrates numerous positive implications of teaching children and parents the fundamentals of early savings and financial education. For example, research shows that even modest savings for college are associated with higher college aspirations, enrollment, and graduation.

Your Committee recognizes that Hawaii parents want their children to learn about finances, with ninety-six percent of 1,764 surveyed parents expressing interest in a school-based savings program for their children. Your Committee finds that by partnering with local financial institutions to establish savings accounts for students, the kids' savings project has helped Hawaii students save over \$450,000 since the 2008-2009 school year. Moreover, the program furthers the Consumer Financial Protection Bureau's recommendation for financial education to provide opportunities for students to practice money management with hands-on exercises.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 899, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 899, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 366 Human Services and Housing on S.B. No. 938

The purpose and intent of this measure is to establish penalties for caregivers who fail to report the death or disappearance of a child to law enforcement or who provide false information to law enforcement authorities.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Hawaii Police Department, Kauai Police Department, Hawaii Catholic Conference, Hawaii Family Forum, and Hawaii State Coalition Against Domestic Violence.

Your Committee finds that time is of the essence in the initial search for a missing child and the beginning of an investigation of the death of a child. Your Committee further finds that caregivers should be held accountable to report truthful information to law enforcement immediately, yet current state law does not address the situation where a parent, legal guardian, or other person legally charged with the care or custody of a child fails to report the death or disappearance of a child or actively conceals a child's death or disappearance.

Your Committee has amended this measure by:

- (1) Inserting a savings clause; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 938, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 938, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 367 Human Services and Housing on S.B. No. 1362

The purpose and intent of this measure is to restrict the ability of the Hawaii Housing Finance and Development Corporation (HHFDC) to use the rental assistance revolving fund for projects relating to affordable rental housing.

Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the health and general welfare of the people of this State necessitates the availability of safe and sanitary rental housing accommodations at affordable rental rates. It is essential that owners of rental housing accommodations be provided with appropriate additional means to assist in reducing the cost of rental housing accommodations.

Your Committee has amended this measure by:

- (1) Inserting amendments to section 201H-121, Hawaii Revised Statutes, to repeal as a purpose of chapter 201H, part III, subpart C, Hawaii Revised Statutes, the use of the rental assistance revolving fund for interim construction financing for affordable rental housing;
- (2) Repealing the requirement that HHFDC use up to \$25,000,000 and any bond proceeds to provide interim construction financing to certain qualified sponsors and to HHFDC for affordable rental housing development; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1362, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1362, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

SCRep. 368 (Joint) Health and Judiciary and Labor and Public Safety, Intergovernmental and Military Affairs on S.B. No. 675

The purpose and intent of this measure is to:

- (1) Provide firefighters with comprehensive medical coverage through workers' compensation benefits by establishing a rebuttable presumption that a firefighter who suffers from cancer, blood-borne infectious disease, or exposure to biochemical substances contracted the condition in the course of employment; and
- (2) Require the Hawaii State Fire Council to develop standards and procedures to ensure health and safety of firefighters who may be exposed to hazardous materials in the course of their duties.

Your Committees received testimony in support of this measure from the Hawaii State Fire Council, Hawai'i Fire Department of the County of Hawai'i, Maui Fire Department, State of Hawaii Organization of Police Officers, Hawaii Fire Fighters Association, and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Insurers Council. Your Committees received comments on this measure from the Department of Human Resources Development, Department of Labor and Industrial Relations, and Department of Human Resources of the City and County of Honolulu.

Your Committees find that the risk of being diagnosed with cancer is significantly higher among firefighters than the general population. In a three-year study completed in 2005 by the University of Cincinnati, researchers concluded that firefighters face a higher risk of cancer than the general population. Firefighters also face a greater risk of contracting infectious diseases and illnesses associated with exposure to patient care and biochemical substances due to bioterrorism.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health, Judiciary and Labor, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 675, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 675, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 369 (Joint) Health and Human Services and Housing on S.B. No. 1113

The purpose and intent of this measure is to expand the authority of the Department of Health to conduct background checks to include criminal history record checks, adult abuse perpetrator and child abuse record checks, and certified nurse aide registry record checks for persons seeking employment with the State or its contractors where the work involves direct client care, and applicants and operators of health care facilities.

Your Committees received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, and one individual.

Your Committees find that individuals with developmental disabilities, as well as children and the elderly populations, are considered vulnerable to potential abuse, neglect, and mistreatment by family members, caregivers, and others who have direct access to them. This measure provides protection to the public when they seek health care services at licensed or certified health care facilities.

Your Committees have amended this measure by:

- (1) Clarifying the definitions of "applicant" in section 321-15.2, Hawaii Revised Statutes; and "provider" and "subcontractor" in section 321-171.5, Hawaii Revised Statutes;
- (2) Deleting language that would have required the Department of Health or its designee to make a name inquiry into the criminal history records or conduct criminal history checks on specified individuals other than clients;
- (3) Amending language to prohibit the Department of Health or its designee from securing background checks on persons who have been employed continuously on a salary basis since July 1, 2015;
- (4) Repealing section 333F-22, Hawaii Revised Statutes, related to criminal history records; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1113, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1113, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 370 (Joint) Health and Agriculture on S.B. No. 379

The purpose and intent of this measure is to expand and create new categories for homemade food processing for sale to the public.

Your Committees received testimony in support of this measure from the Hawaii Farmers Union United; Hawaii Farmers Union United, Kona Chapter; Koa'e Community Association; Steelgrass Farm; Kolo Kai Organic Farm; The Kohala Center; Sustainable Economics Law Center; Farmer's Marketeers; Local Food Coalition; Hawaii Farm Bureau; and twenty-three individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from one individual.

Your Committees find that there are many talented, industrious food entrepreneurs in the State. Local value-added food businesses provide a market for local produce, offer locally made alternatives to national brands, create employment opportunities, and hold the potential to keep more dollars circulating within Hawaii's economy and increase tax revenue.

Your Committees have amended this measure by:

- (1) Deleting language related to the consideration of cottage food operations as a permitted use in residential areas for zoning purposes;
- (2) Deleting provisions related to Class C cottage food operations, including operation, posting, permit, and inspection requirements; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 379, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 379, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Slom).

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Thielen, Slom).

SCRep. 371 (Joint) Health and Energy and Environment on S.B. No. 801

The purpose and intent of this measure is to establish notice and reporting requirements for any entity or person that uses restricted use pesticides under certain conditions.

Your Committees received testimony in support of this measure from the American Academy of Pediatrics, Planned Parenthood, IMUAlliance, and thirteen individuals. Your Committees received testimony in opposition to this measure from the Maui County Farm Bureau; Hawaii Crop Improvement Association; CropLife America; Dow Agrosiences; Alexander & Baldwin, Inc.; Western Plant Health Association; Hawaii Cattlemen's Council; DuPont Pioneer; Syngenta Hawaii; Chamber of Commerce Hawaii; and three individuals. Your Committees received comments on this measure from the Department of Health, Department of Agriculture, Hawaii Pest Control Association, Monsanto Hawaii, and one individual.

Your Committees find that it is of the utmost importance to protect communities that could be potentially impacted by pesticide drift. In Hawaii, there have been at least six episodes of pesticide-induced illness at schools since 2006. Exposure to pesticide drift causes numerous short-term impacts, such as headaches, dizziness, difficulty breathing, nausea, vomiting, weakness, chest pain, fatigue, rashes, and eye ailments.

Your Committees have amended this measure by:

- (1) Deleting its contents and replacing them with the contents of S.B. No. 797, Regular Session of 2015, which establishes notice, reporting, and use requirements for any entity or person that uses pesticides under certain circumstances; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 801, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 801, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Baker, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 372 (Joint) Health and Education on S.B. No. 115

The purpose and intent of this measure is to require a child to undergo a physical examination prior to attending seventh grade, beginning with the 2016-2017 school year.

Your Committees received testimony in support of this measure from the Department of Health, Department of Education, University of Hawaii John A. Burns School of Medicine, Hawaii Community Pharmacy Association, Waianae Coast Comprehensive Health Center, Hawaii Public Health Institute, and Hawaii Primary Care Association. Your Committees received comments on this measure from the Hawaii Island School Garden Network and Hawaii Academy of Physician Assistants.

Your Committees find that in Hawaii, more than one in two adults and over one in four high school students are overweight or obese. Without effective intervention, these numbers are projected to increase over the next two decades. This measure stimulates family and community engagement, while bringing together physicians and health care providers with parents and adolescents to address physical and mental health issues.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 115 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 3 (Baker, Ruderman, Slom).

Education

Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Keith-Agaran, Thielen, Slom).

SCRep. 373 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 1030

The purpose and intent of this measure is to:

- (1) Increase the minimum age for persons who may purchase tobacco products or electronic smoking devices from eighteen to twenty-one years of age;
- (2) Amend the definition of “electronic smoking device” as used in section 709-908, Hawaii Revised Statutes; and
- (3) Define “tobacco products” as used in section 709-908, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Health, Honolulu Police Department, American Cancer Society Cancer Action Network, Coalition for a Tobacco Free Hawaii, Hawaii Public Health Association, University of Hawaii Student Health Advisory Council, and forty-nine individuals. Your Committees received testimony in opposition to this measure from Volcano Fine Electronic Cigarettes, PC Gamerz, and twelve individuals.

Your Committees find that the use of e-cigarettes is prevalent among adolescents in Hawaii. According to recent figures from six Hawaii high schools, among the ninth and tenth grade students, twenty-nine percent have used e-cigarettes at least once and eighteen percent use them regularly. This sample’s rate of e-cigarette use is considerably higher than rates in current studies of adolescents in other areas of the United States.

Your Committees have amended this measure by:

- (1) Inserting findings that discuss the high rate of e-cigarette use in Hawaii and other concerns;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1030, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1030, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Kidani).

SCRep. 374 (Joint) Health and Commerce and Consumer Protection on S.B. No. 924

The purpose and intent of this measure is to require certain insurance contracts and plans to provide coverage beginning January 1, 2016, for treatment of brain injuries, including cognitive and neurocognitive therapy, neurobehavioral and neuropsychological testing or treatment, and necessary post-acute transition services or community reintegration activities for a period of at least twenty years from the date the injury occurred and up to a lifetime cap per person of \$300,000.

Your Committees received testimony in support of this measure from Family Voices of Hawai‘i and one individual. Your Committees received testimony in opposition to this measure from Kaiser Permanente Hawaii. Your Committees received comments on this measure from the Department of Human Services, Department of Commerce and Consumer Affairs, Hawaii Disability Rights Center, and Hawaii Medical Service Association.

Your Committees find that traumatic brain injury is a leading cause of death and disability among children and young adults. While survivors of traumatic brain injury can lead full lives due to lifesaving medical techniques and rehabilitation services, they face a long rehabilitation process that may not be covered by certain health benefit plans.

Your Committees have amended this measure by:

- (1) Inserting a definition for “cognitive rehabilitation therapy”; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 924, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 924, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Wakai, Slom).

SCRep. 375 (Joint) Health and Commerce and Consumer Protection on S.B. No. 911

The purpose and intent of this measure is to prohibit the use of latex gloves in dental health facilities and health care facilities, by personnel providing ambulance services or emergency medical services pursuant to the state comprehensive emergency medical services system, and in food establishments.

Your Committees received testimony in support of this measure from the Hawaii Dental Hygienists’ Association, American Latex Allergy Association, and fifteen individuals. Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees find that latex allergy is a serious concern because it causes reactions ranging from mild rashes to difficulty breathing and deadly anaphylaxis. Approximately 3,000,000 people in the general population of the United States have this allergy. Individuals with this allergy must be vigilant about latex exposure. This measure will help protect Hawaii residents and visitors who suffer from latex allergies.

Your Committees have amended this measure by:

- (1) Inserting findings related to latex allergy in the general population of the United States;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 911, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 911, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 376 (Joint) Health and Commerce and Consumer Protection on S.B. No. 729

The purpose and intent of this measure is to clarify the role of advanced practice registered nurses relating to emergency hospital admission and involuntary hospitalization.

Your Committees received testimony in support of this measure from the Board of Nursing, The Queen’s Health Systems, and one individual.

Your Committees find that in Hawaii, advanced practice registered nurses are recognized as primary care providers and should be permitted to practice to the full extent of their education and training. In recognition of this, Act 232, Session Laws of Hawaii 2013, added advanced practice registered nurses to the list of mental health professionals qualified to diagnose mental illness under section 334-59, Hawaii Revised Statutes, relating to emergency hospitalization. However, additional amendments relating to advanced practice registered nurses under section 334-59, Hawaii Revised Statutes, are necessary for consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 729 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection
Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 377 (Joint) Health and Commerce and Consumer Protection on S.B. No. 391

The purpose and intent of this measure is to amend the continuing education requirement for psychologists to include at least three credit hours of ethics training and at least two credit hours of domestic violence training.

Your Committees received testimony in support of this measure from the Hawaii State Coalition Against Domestic Violence and two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Psychological Association and one individual. Your Committees received comments on this measure from the Board of Psychology.

Your Committees find that there is a core of basic theory, principles, and accumulated behavior that all psychologists should possess, and that psychologists have an ethical obligation to undertake ongoing efforts to develop and maintain their competence. The American Psychological Association, recognized by Hawaii for providing licensure guidelines, has adopted policies to ensure that psychologists keep pace with emerging issues and increase competencies. Continuing education ensures that there are ongoing processes to improve training, enhance treatment, and maintain awareness of emerging issues and technologies, and your Committees find that continuing education in ethics and domestic violence, in particular, should be mandatory given the issues that arise in the practice of psychology.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 391 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection
Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 378 (Joint) Health and Commerce and Consumer Protection on S.B. No. 307

The purpose and intent of this measure is to:

- (1) Establish a licensure requirement for suppliers of durable medical equipment, prosthetics, orthotics, and related equipment (DMEPOS) participating in the nationwide competitive bidding program through an annual inspection by the Office of Health Care Assurance; and
- (2) Appropriate funds from the Office of Health Care Assurance special fund to administer the durable medical equipment licensing program.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation, Healthcare Association of Hawaii, and Hawaii Primary Care Association. Your Committees received testimony in opposition to this measure from the Executive Office on Aging. Your Committees received comments on this measure from the Department of Health, Department of the Attorney General, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committees find that Medicare beneficiaries in Hawaii are experiencing a reduction in access to quality care as a result of the change in the way Medicare purchases its DMEPOS. Because only thirteen of the ninety-seven vendors selected are located within the State, the minimum shipping time is two to four days, and the typical wait time for physician-ordered wheelchairs and hospital beds is four to eight weeks.

Your Committees further find that without access to timely, local services, Medicare beneficiaries in Hawaii have been forced to forego necessary durable medical equipment devices. This restricted access to care has led to reductions in health, increases in preventable admissions and readmissions, and increases in costs to beneficiaries and the Medicare system.

Your Committees have amended this measure by:

- (1) Amending the definition of "supplier" and other references to apply licensure requirement to any supplier of DMEPOS, not just those participating in the national bidding program;
- (2) Changing the licensing agency from the Executive Office on Aging to the Office of Health Care Assurance;
- (3) Clarifying that a licensed supplier of DMEPOS must provide proof of business registration law compliance, including required tax identification numbers;
- (4) Adopting the Department of Health's recommendation to authorize, rather than require, the Office of Health Care Assurance to establish rules for the purposes of implementing the licensure program;
- (5) Clarifying that a supplier must provide proof of business registration law compliance and tax identification numbers to the Office of Health Care Assurance in order to be licensed and for annual inspections;
- (6) Expanding the purpose of the appropriations to fill two permanent full-time equivalent positions to establish the durable medical equipment licensing program as well as help support other current licensure programs;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 307, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 307, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 379 (Joint) Health and Commerce and Consumer Protection on S.B. No. 301

The purpose and intent of this measure is to require entities that offer or renew health plans on or after January 1, 2017, to make available a complete and updated formulary to enrollees, potential enrollees, and providers.

Your Committees received testimony in support of this measure from the Hawaii Medical Association, American Cancer Society Cancer Action Network, National Kidney Foundation of Hawaii, Neuropathy Action Foundation, Hawaii Community Pharmacists Association, Arthritis Foundation, GBS/CIDP Foundation International, Epilepsy Foundation of Hawaii, Leukemia and Lymphoma Society, and Pharmaceutical Research and Manufacturers of America. Your Committees received testimony in opposition to this measure from the Hawaii Medical Service Association. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that drug formularies are increasingly complex but are vitally important for patients with chronic conditions to understand. Persons living with chronic conditions currently have difficulty obtaining information needed to confirm which drugs are covered, unavailable, or difficult to access. This measure provides transparency and helps patients obtain insurance that fits their needs.

Your Committees have amended this measure by:

- (1) Specifying that the formulary requirements apply to accident and health or sickness insurance plans for comprehensive medical plans issued or renewed on or after January 1, 2017;
- (2) Increasing the time in which insurers must update the formulary on the insurer's website after making a change from twenty-four hours to seventy-two hours;
- (3) Amending language to require a standard formulary template be used for formularies for each product offered by the insurer's plan;
- (4) Specifying the information that must be included in the standard formulary template for insurers;
- (5) Inserting language to allow the Insurance Commissioner to develop a standard formulary template for insurers; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 301, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 301, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 380 (Joint) Health and Judiciary and Labor on S.B. No. 812

The purpose and intent of this measure is to authorize the Department of Health to establish a behavior support review process to conduct multidisciplinary reviews of the use of restraints or seclusion of persons with developmental or intellectual disabilities and exempt those who participate in the reviews from liability.

Your Committees received testimony in support of this measure from the Department of Health and State Council on Developmental Disabilities.

Your Committees find that it is important to ensure that behavior interventions are implemented appropriately to assist and support individuals receiving services and those providing support to them. Restraints or seclusion should be used only when there is imminent danger to self or others, and use of such interventions needs oversight and review.

Your Committees have amended this measure by:

- (1) Specifying that a behavior support review committee should be convened before and after cases in which use of restraint or seclusion are administered or recommended; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 812, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 812, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Ihara, Thielen, Slom).

SCRep. 381 (Joint) Health and Judiciary and Labor on S.B. No. 302

The purpose and intent of this measure is to:

- (1) Create immunity for individuals who prescribe, possess, or administer an opioid antagonist such as naloxone hydrochloride during an opioid-related drug overdose;
- (2) Authorize emergency personnel to administer opioid antagonist;
- (3) Require Medicaid coverage for naloxone hydrochloride;
- (4) Exempt pharmacists and pharmacies from licensure and permitting requirements, except for drug storage requirements, for storing and distributing opioid antagonists; and
- (5) Make an appropriation for drug overdose recognition, prevention, and response, including the distribution and administration of naloxone hydrochloride.

Your Committees received testimony in support of this measure from the Hawaii Substance Abuse Coalition, Hawaii Community Pharmacists Association, Walgreen Co., Drug Policy Forum of Hawaii, Hawaii Medical Association, The CHOW Project, Drug Policy Action Group, and ten individuals. Your Committees received comments on this measure from the Department of Human Services, Department of Health, and Hawaii Association for Justice.

Your Committees find that Good Samaritan policies, also known as medical amnesty, are life-saving measures that are in the best interest of the public's health, safety, and welfare. These policies facilitate responsible decision-making by shielding individuals from punishment when they seek medical attention during an emergency involving alcohol and controlled substances.

Your Committees further find that if criminal punishment is intended to deter drug abuse, it clearly is too late to deter abuse when a person is already suffering from an overdose. Good Samaritan policies should not be perceived as a "get out of jail free card" or a reward for illegal drug use. Rather, they enable individuals to make potentially life-saving decisions promptly and without hesitation.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 302, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 302, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 382 (Joint) Health and Judiciary and Labor on S.B. No. 809

The purpose and intent of this measure is to:

- (1) Allow physicians to submit workers' compensation treatment plans to employers by facsimile, the Internet, and other electronic media; and
- (2) Require employers to accept electronically submitted treatment plans and provide an electronic receipt of the submission.

Your Committees received testimony in support of this measure from the Work Injury Medical Association of Hawaii and four individuals. Your Committees received testimony in opposition to this measure from the City and County of Honolulu and Hawaii Insurers Council. Your Committees received comments on this measure from the Department of Labor and Industrial Relations and one individual.

Your Committees find that Hawaii's current system for physicians to submit treatment plans in workers' compensation claims is in need of modernization given the advancement of technology. Allowing treatment plans to be faxed and electronically mailed will greatly improve the efficiency of Hawaii's workers' compensation system.

Your Committees note that it is imperative for state departments and counties to acquire the technology for automated responses as it relates to this measure.

Your Committees have amended this measure by clarifying that a physician may send a treatment plan to the employer by means of facsimile, the Internet, or secure electronic mail.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 809, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 809, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 383 (Joint) Health and Judiciary and Labor on S.B. No. 1175

The purpose and intent of this measure is to:

- (1) Require the Department of Health and Hawaii State Hospital to implement certain recommendations made by the Senate Special Investigative Committee on the Hawaii State Hospital and submit a written report to the Legislature of its status of implementing certain recommendations prior to the Regular Sessions of 2016 and 2017; and
- (2) Appropriate funds to the Department of Health for the planning and design of a new state forensic mental health hospital.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association. Your Committees received comments on this measure from the Department of Health and Hawaii Disability Rights Center.

Your Committees find that the Senate Special Investigative Committee on the Hawaii State Hospital was established pursuant to S.R. No. 3, Regular Session of 2014. The purpose of the Special Investigative Committee was to investigate the workplace safety of all Hawaii State Hospital psychiatric workers and alleged improprieties concerning administrative and employment matters at the Hawaii State Hospital, and submit written findings and recommendations to the Legislature. The Special Investigative Committee found that the main challenges facing the Hawaii State Hospital are maintaining a safe work environment, meeting the needs of patients and staff, and providing efficient and effective human resources practices.

Your Committees note that it is a priority to improve patient mental health services that focus on acute cases.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Health and Hawaii State Hospital shall consider the recommendations made by the Special Investigative Committee, rather than mandating implementation of the recommendations; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1175, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1175, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

Judiciary and Labor

Ayes, 4. Noes, none. Excused, 3 (Ihara, Thielen, Slom).

SCRep. 384 (Joint) Health and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 275

The purpose and intent of this measure is to establish and appropriate funds for the statewide sexual assault response system, sexual assault response teams in each county, and sexual assault victim examination protocols, including time frames pertaining to the collection, submittal, and analysis of forensic medical evidence.

Your Committees received testimony in support of this measure from the Honolulu Police Department, American Association of University Women, Rainbow Family 808, and two individuals. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney, County of Maui. Your Committees received comments on this measure from the Office of the Prosecuting Attorney, County of Hawaii.

Your Committees find that health care personnel use a sexual assault evidence collection kit, commonly referred to as a rape kit, to collect and preserve physical evidence, including DNA, after an alleged sexual assault to help identify an assailant or eliminate a suspect. Unlike Hawaii, twenty-seven states already have laws regarding sexual assault victims, forensic medical examinations, and the collection of forensic evidence using a rape kit. Implementation of these laws vary from requiring training of medical staff conducting forensic medical examinations of sexual assault victims to establishing rape kit evidence collection and analysis timelines.

Your Committees note that investigating sexual assault cases should be a top priority for all police departments throughout the State.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health, Public Safety, Intergovernmental and Military Affairs, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 275, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 275, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 385 Energy and Environment on S.B. No. 1316

The purpose and intent of this measure is to require the board of directors of an association of apartment owners, condominium association, cooperative housing corporation, or planned community association, upon receipt of a request for the installation of an electric vehicle charging system, to make a decision to approve or deny the request within sixty days.

Your Committee received testimony in support of this measure from Ulupono Initiative and EV Structure. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Associa.

Your Committee finds that electric vehicles reduce fossil fuel consumption and are gradually becoming more popular in the State. As the demand for electric vehicles grows, so does the demand for electric vehicle charging systems. Timely decisions regarding the installation of electric vehicle charging systems will become increasingly important to homeowners. Implementation of this measure will facilitate the right to choose more efficient transportation solutions and further the State's clean energy goals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1316, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1316, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 386 (Joint) Agriculture and Energy and Environment and Transportation on S.B. No. 1062

The purpose and intent of this measure is to establish the biosecurity program as the responsibility of the Department of Agriculture, rather than a branch of the Department of Agriculture, to enable the program to address biosecurity issues across the entire department.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, Nature Conservancy, Hawaii Farm Bureau, and one individual.

Your Committees find that biosecurity is an overarching issue that requires cooperation and collaboration by numerous parties in order to be addressed properly and to ensure the protection of our environment, community, and local agriculture. The Department of Agriculture has multiple duties and activities that address the issue of biosecurity; however, initiatives to improve Hawaii biosecurity go beyond the confines of any one branch within the department, often including other groups inside and outside of state government. Your Committees further find that the Hawaii Invasive Species Council, Department of Land and Natural Resources, United States Department of Agriculture, Coordinating Group on Alien Pest Species, and private companies that utilize best management practices when transporting products and equipment throughout the State, as well as many other groups, all positively contribute to Hawaii's biosecurity efforts.

Your Committees have amended this measure by:

- (1) Inserting a definition section into the new part in section 2; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture, Energy and Environment, and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1062, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1062, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Thielen, Wakai).

Energy and Environment

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Transportation

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kidani).

SCRep. 387 (Joint) Agriculture and Health on S.B. No. 588

The purpose and intent of this measure is to permit the acquisition of raw milk and raw milk products by consumers if certain conditions are met.

Your Committees received testimony in support of this measure from Hawaii Farmers Union United Kona Chapter, Maui Cattlemen's Association, and thirty-one individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the sale of raw milk from farmers to consumers can benefit local agriculture while providing consumers with more dairy options and allowing consumers to make their own health decisions.

Your Committees have amended this measure by:

- (1) Inserting language to allow the Department of Health to adopt rules to regulate the production and distribution of raw milk and raw milk products; provided that the rules are consistent with rules in states that authorize the production, distribution, and resale of raw milk and raw milk products; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 588, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 588, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5; Ayes with Reservations (Chun Oakland, Thielen). Noes, none. Excused, 2 (Taniguchi, Slom).

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 388 (Joint) Agriculture and Water and Land on S.B. No. 593

The purpose and intent of this measure is to ensure that the Agribusiness Development Corporation makes the support of sustainable agriculture and food security its top priority and develops and implements a plan to accomplish this goal.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation, Progressive Democrats of Hawaii, Pesticide Action Network North America, Hawaii Center for Food Safety, Hawaii Farmers Union United, Hawaii Primary Care Association, and ninety-nine individuals. Your Committees received comments on this measure from the Hawaii Alliance for Progressive Action, Hawaii Farm Bureau, and two individuals.

Your Committees find that the Agribusiness Development Corporation manages over 20,000 acres of public agricultural lands and has significant potential to shape the State's agricultural public policy toward the goal of food self-sufficiency.

Your Committees find that the challenge of providing affordable leases of agricultural land to medium and small food farmers has prompted the Legislature to act. As raised in testimony, requiring agricultural land leases to support local food production for not only the Agribusiness Development Corporation but also the Department of Agriculture will benefit the public interest. Your Committees further find that providing more transparency and accountability through reporting on leased and non-leased agricultural lands will encourage better leasing practices.

Your Committees also find that it is necessary to lease agricultural land in a variety of farm sizes, provide protocols to enable farming of specialty products, and generally support diversified agriculture to achieve this goal; therefore, your Committees find that the contents of S.B. No. 510 (Regular Session of 2015) are necessary to incorporate into this measure to carry out such tasks and accomplish the above goals.

Accordingly, your Committees have amended this measure by:

- (1) Inserting the provisions of S.B. No. 510 (Regular Session of 2015), which require the Department of Agriculture and Agribusiness Development Corporation to take greater steps to lease and dispose of lands in a way that promotes diversified agriculture;
- (2) Codifying provisions requiring the Agribusiness Development Corporation to make local food production part of its mission;
- (3) Requiring the Department of Agriculture to lease each year at least fifty percent of the land it manages to operations whose primary business is local food production, beginning January 1, 2016;
- (4) Requiring the Agribusiness Development Corporation to lease each year at least fifty percent of the land it manages to operations whose primary business is local food production, beginning January 1, 2016;
- (5) Inserting a definition of "local food production";
- (6) Amending the purpose section to reflect other amendments; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 593, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 593, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 389 (Joint) Health and Judiciary and Labor on S.B. No. 206

The purpose and intent of this measure is to increase the general fund appropriation funds for fiscal year 2014-2015 for the Hawaii Health Systems Corporation for collective bargaining cost items.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation, East Hawaii Region; Hawaii Health Systems Corporation Board of Directors; Hawaii Health Systems Corporation, Kauai Regional Board; and sixty-six individuals.

Your Committees find that hospitals across the country are having to deal with declining payments from Medicare and Medicaid. For hospitals in Hawaii, this situation is exacerbated by having increases in payroll due to recent collective bargaining. This measure assists in funding mandated employment costs so that Hawaii communities continue to receive exceptional, quality health care.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 206 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 390 (Joint) Health and Judiciary and Labor on S.B. No. 309

The purpose and intent of this measure is to establish nine permanent full-time equivalent forensic psychologist positions and one permanent full-time equivalent manager position within the courts and corrections branch of the Department of Health for timely and proper administration of court ordered examinations.

Your Committees received testimony in support of this measure from the Department of Health, Judiciary, Department of Public Safety, Hawaii Government Employees Association, Hawaii Psychological Association, and two individuals.

Your Committees find that specialty training and expertise are required for the proper administration of a court ordered mental health examination. Where court ordered examinations involve forensic analysis, post-doctoral or commensurate experience and appropriate training become crucial factors in the quality of mental health reports and administration of justice.

Your Committees note that currently 1.5 full-time equivalent forensic psychologist positions are not filled and that it is critical to provide resources in this area.

Your Committees have amended this measure by:

- (1) Blanking out the number of positions within the courts and corrections branch of the Department of Health to be established; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 309, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 309, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 391 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 982

The purpose and intent of this measure is to establish limited immunity for individuals who seek medical assistance for themselves or others experiencing a drug or alcohol overdose or other medical emergency.

Your Committees received testimony in support of this measure from the Hawaii Substance Abuse Coalition, Drug Policy Forum of Hawaii, Medical Amnesty Initiative, and five individuals.

Your Committees find that Good Samaritan policies, also known as medical amnesty, are life-saving measures that are in the best interest of the public's health, safety, and welfare. These policies facilitate responsible decision-making by shielding individuals from punishment when they seek medical attention during an emergency involving alcohol and controlled substances.

Your Committees further find that if criminal punishment is intended to deter drug abuse, it clearly is too late to deter abuse when a person is already suffering from an overdose. Good Samaritan policies should not be perceived as a "get out of jail free card" or a reward for illegal drug use. Rather, they enable individuals to make potentially life-saving decisions promptly and without hesitation.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 982 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 392 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 807

The purpose and intent of this measure is to:

- (1) Establish the Narcotics Advisory Committee to recommend acceptable topics and curriculum for the continuing medical education program; and
- (2) Establish requirements for a mandatory continuing medical education program for prescribing practitioners that prescribe narcotic drugs.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Substance Abuse Coalition, Hawaii Association of Professional Nurses, and Work Injury Medical Association of Hawaii. Your Committees received comments on this measure from the Department of Health.

Your Committees find that drug poisoning is a serious public health problem in Hawaii and the nation. Fatal drug poisoning among Hawaii residents has increased significantly over the last twenty years, making it the lead mechanism of fatal injuries. Education for practitioners is a critical component to reducing incidents of prescription drug abuse and misuse.

Your Committees have amended this measure by:

- (1) Increasing the membership of the Narcotics Advisory Committee to include two advanced practice registered nurses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 807, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 807, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 393 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 798

The purpose and intent of this measure is to:

- (1) Require a pain medication agreement to be executed between a patient and any prescriber of a narcotic drug within the State for use as pain medication under certain conditions; and
- (2) Require the Administrator of the Narcotics Enforcement Division to develop and make available a template of a pain medication agreement for use in the State.

Your Committees received testimony in support of this measure from Walgreen Co., Hawaii Community Pharmacists Association, and Work Injury Medical Association of Hawaii. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association. Your Committees received comments on this measure from the Hawaii College of Emergency Physicians.

Your Committees find that pain management agreements create an understanding between patient and provider regarding the management of pain and the medications used. Pharmacists are enabled to work better with physicians and other providers to provide pain medications through clearer guidelines and expectations.

Your Committees note that the issue of urine drug testing as a mandate for the pain management agreement raises concerns that merit further consideration and requests that your Committee on Commerce and Consumer Protection further examine this issue if it chooses to hear this measure.

Your Committees have amended this measure by:

- (1) Inserting language to exempt emergency room and urgent care providers from executing a pain medication agreement when prescribing a narcotic drug in the patient's first encounter;
- (2) Deleting language related to urine drug testing consent and urine drug testing coverage from the pain management agreement template; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 798, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 798, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 394 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 303

The purpose and intent of this measure is to establish the Hawaii Drug Take-Back and Education Initiative to coordinate and increase the safe return and disposal of drugs and the Narcotics Enforcement and Prescription Drug Monitoring Advisory Committee to advise the Department of Public Safety Narcotics Enforcement Division.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Substance Abuse Coalition, Hawaii Community Pharmacists Association, Walgreen Co., Work Injury Medical Association of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Health.

Your Committees find that the Narcotics Enforcement Division within the Department of Public Safety has run a pharmaceutical controlled substance practitioner take-back program for over three decades and in 2010, started an unfunded program of scheduled events, allowing the public to turn in their unwanted prescription drugs for disposal. This measure will allow greater management of medications utilized for pain control.

Your Committees note that the issue of urine drug testing as a mandate for a drug take-back program raises concerns that merit further consideration and requests that your Committee on Ways and Means further examine this issue if it chooses to hear this measure.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 303, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 303, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 395 (Joint) Health and Agriculture on S.B. No. 692

The purpose and intent of this measure is to:

- (1) Remove the warning notice for first violations of the Hawaii pesticides law; and
- (2) Make it a class C felony for any person who causes physical harm to another person through the negligent application of a pesticide.

Your Committees received testimony in support of this measure from the American Academy of Pediatrics, Hawaii Chapter; IMUAlliance; and six individuals. Your Committees received testimony in opposition to this measure from the Hawaii Pest Control Association, Dow Agrosciences, Maui County Farm Bureau, Hawaii Cattlemen's Council, Syngenta Hawaii, Western Plant Health Association, and two individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that it is of the utmost importance to protect communities who could be potentially impacted by pesticides. In Hawaii, there have been at least six episodes of pesticide-induced illness at schools since 2006. Exposure to pesticides cause numerous short-term impacts, such as headaches, dizziness, difficulty breathing, nausea, vomiting, weakness, chest pain, fatigue, rashes, and eye ailments.

Your Committees have amended this measure by:

- (1) Retaining the requirement under existing law for the Department of Agriculture to issue a warning notice before prosecution proceedings related to the Hawaii pesticides law are initiated; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 692, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 692, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5; Ayes with Reservations (Wakai). Noes, none. Excused, 2 (Baker, Slom).

Agriculture

Ayes, 5; Ayes with Reservations (Thielen, Wakai). Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 396 (Joint) Health and Agriculture on S.B. No. 592

The purpose and intent of this measure is to:

- (1) Require farmers market vendors that direct-market potentially hazardous value added products to obtain a permit from the Department of Health;
- (2) Exempt non-potentially hazardous value added products from Department of Health permitting or inspection; and
- (3) Establish labeling requirements for value added products sold at farmers markets.

Your Committees received testimony in support of this measure from Laakea Community, LLC; Farmer's Marketeers; Hawaii Farm Bureau; and eight individuals. Your Committees received testimony in opposition to this measure from the Department of Health and one individual.

Your Committees find that with the recent growth in farmers markets and the demand for local, fresh foods, there has been interest in allowing farmers to direct-market their produce without Department of Health regulation. Farmers markets allow consumers an opportunity to communicate with those who grow or create the foods they are purchasing and consuming.

Your Committees has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 592, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 592, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Slom).

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Thielen, Slom).

SCRep. 397 (Joint) Health and Human Services and Housing on S.B. No. 1245

The purpose and intent of this measure is to appropriate funds to:

- (1) Continue administration of the Hawaii home visiting program, a hospital-based early identification program designed to enhance health and safety outcomes and prevent child abuse and neglect; and
- (2) Ensure continuation of home visiting services in certain priority high-risk neighborhoods and areas.

Your Committees received testimony in support of this measure from the Hawaii Family Support Institute, Good Beginnings Alliance, Institute for Native Pacific Education and Culture, Catholic Charities Hawai'i, Child & Family Service, PHOCUSED, and one individual. Your Committees received comments on this measure from the Department of Health.

Your Committees find that home visiting is a prevention strategy used by states and communities to improve the health and well-being of vulnerable families of newborns who are at risk for adverse health, safety, and developmental outcomes. Over recent decades, research on early brain development, including the impact of trauma on the developing brain, has pointed to the need for early intervention and prevention to avert trauma and promote positive early brain development and learning. In 2013, the Legislature established the Hawaii home visiting program. The program is responsible for statewide hospital-based screening and home visiting services to identify families with newborns that may have health or safety concerns. High risk families are referred to home visiting service providers who deliver evidence-based services to address the family's needs.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1245 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 398 (Joint) Health and Human Services and Housing on S.B. No. 961

The purpose and intent of this measure is to:

- (1) Remove the ten-day time limit for setting a hearing date on a petition for assisted community treatment;
- (2) Allow for notice of continuation hearings to the subject to be served via the public defender;

- (3) Require the court to appoint a guardian ad litem when the subject of a petition for assisted community treatment fails to appear at a hearing;
- (4) Remove provisions governing the appointment of a public defender; and
- (5) Remove provisions allowing the court to order a subject to be examined by a licensed psychiatrist.

Your Committees received testimony in support of this measure from the Department of Health; Hawaii Disability Legal Services, LLC; Mental Health America of Hawaii; Hawaii Association of Professional Nurses; The Institute for Human Services, Inc.; PHOCUSED; and National Association of Social Workers, Hawaii Chapter. Your Committees received comments on this measure from the Judiciary and Hawaii Disability Rights Center.

Your Committees find that Hawaii's mental health system is difficult to navigate, resulting in individuals with serious mental illness often getting arrested for petty crimes, utilizing emergency services at higher rates, or becoming homeless as a result of their mental illness. This measure strengthens Hawaii's assisted community treatment law to reduce hospitalization and incarceration rates of persons with mental illness.

Your Committees have amended this measure by:

- (1) Amending language to allow a court to proceed with a hearing at its discretion in the event a subject of a petition has been served and does not appear at the hearing, instead of appointing a guardian ad litem to represent the subject;
- (2) Inserting language that specifies representation provisions by a public defender or other court-appointed counsel for a subject of a petition;
- (3) Amending Act 221, Session Laws of Hawaii 2013, to require treating providers to provide the Department of Health information related to MH-1s and hospitalization of persons who are under an order to treat by September 30 of each year; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 961, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 961, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Sлом).

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Sлом).

SCRep. 399 (Joint) Health and Human Services and Housing on S.B. No. 1367

The purpose and intent of this measure is to continue funding for Project Kealahou within the Department of Health Child and Adolescent Mental Health Division.

Your Committees received testimony in support of this measure from the Judiciary, Office of Youth Services, Hawaii Youth Services, Community Alliance on Prisons, Hawaii Public Policy Advocates, and thirty individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that Project Kealahou was developed in response to broad recognition by leaders and workers in the State's public youth service system that adolescent girls face challenges that established treatment programs do not adequately address. This six-year, federally funded program, housed in the Department of Health Child and Adolescent Mental Health Division, promotes community-based, individualized, culturally and linguistically competent, family-driven, youth-guided, and evidence-based services.

Your Committees further find that federal funding of Project Kealahou will phase out in October 2015 and that state funding is needed to continue and expand this cost-effective array of services to at-risk female youth and their families who would otherwise not have access to these services.

Your Committees note that the annual cost for Project Kealahou is \$900,000 and request that your Committee on Ways and Means take this amount into consideration if it chooses to hear this measure.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1367 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ruderman, Sлом).

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Sлом).

SCRep. 400 Health on S.B. No. 757

The purpose and intent of this measure is to:

- (1) Prohibit the use of electronic smoking devices in places where smoking is prohibited; and
- (2) Update signage requirements.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawaii Cancer Center, American Cancer Society Cancer Action Network, Coalition for a Tobacco Free Hawaii, Hawaii Community Pharmacy Association, and one individual. Your Committee received testimony in opposition to this measure from VOLCANO Fine Electronic Cigarettes, PC Gamerz, Hawaii Smokers Alliance, and sixteen individuals. Your Committee received comments on this measure from Outrigger Hotels and one individual.

Your Committee finds that the unregulated use of electronic smoking devices is potentially hazardous to health and is disruptive to an orderly and productive work environment. Using a noncombustible electronic smoking device closely resembles and purposefully mimics the act of smoking by having a user inhale vaporized liquid nicotine created by heat through an electronic ignition system. Prohibiting the use of electronic smoking devices in enclosed or partially enclosed places where smoking is prohibited will reduce the likelihood that employees and the public will associate the use of electronic smoking devices in enclosed or partially enclosed areas with healthful behavior, reduce the likelihood of nonuser exposure to exhaled toxicants of potential harm, reduce the likelihood of workplace disturbances, enhance employee productivity, and help ensure compliance with existing smoking regulations.

Your Committee has amended this measure by inserting language that allows owners of establishments, facilities, or outdoor areas who exercised the right to prohibit smoking prior to September 15, 2015, and installed no smoking signs in those areas to retain previously installed signs and not have to install new signage that includes a symbol of an electronic smoking device.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 757, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 401 Health on S.B. No. 113

The purpose and intent of this measure is to appropriate funds for the implementation and administration of the Hawaii state loan repayment program.

Your Committee received testimony in support of this measure from the University of Hawaii John A. Burns School of Medicine, The Queen's Health Systems, Hawaii Primary Care Association, and fourteen individuals.

Your Committee finds that many residents of Hawaii are increasingly unable to obtain timely and appropriate health care due to shortages of primary care and behavioral health providers. Such shortages threaten the health of Hawaii's residents and affect state health care costs. These shortages have pushed the federal government to designate a number of areas in the State, particularly rural areas, as medically underserved areas, health professional shortage areas, or having medically underserved populations.

Your Committee further finds that the increasingly high cost of health care professional education requires individuals to seek out the higher incomes that allow them to repay their student loans. However, these higher incomes are usually in specialty care in urban areas, not in the areas of greatest need in Hawaii. Since September 1, 2012, a total of sixteen physicians and nurse practitioners have received loan repayment to work in health professional shortage areas in Hawaii and are still serving these communities through a loan repayment program started by the John A. Burns School of Medicine of the University of Hawaii.

Your Committee has amended this measure by amending the appropriation amount from \$450,000 to \$311,875.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 113, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Gabbard, Slom).

SCRep. 402 Health on S.B. No. 802

The purpose and intent of this measure is to allow cooperative housing corporations and condominium associations to adopt rules to prohibit smoking, including the use of electronic smoking devices, in certain areas of their respective facilities.

Your Committee received testimony in support of this measure from the Department of Health, Coalition for a Tobacco Free Hawaii, and Hawaii Community Pharmacy Association. Your Committee received testimony in opposition to this measure from VOLCANO Fine Electronic Cigarettes and twelve individuals.

Your Committee finds that 38 percent of housing in Hawaii is represented by multi-unit structures, compared to the national average of 26 percent. Of the people who live in multi-unit housing structures, many smoke in those structures, including on their own lanai or outside their own unit. However, in each of those cases, the smoke easily travels to other units within the structures. By prohibiting smoking, including the use of electronic smoking devices, in condominiums and other multi-unit housing structures, this measure will reduce the likelihood of nonuser exposure to exhaled toxicants and carcinogens.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 802, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 802, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 403 Health on S.B. No. 304

The purpose and intent of this measure is to establish the Hawaii Maternal Mortality Review Panel within the Department of Health to conduct a comprehensive review of maternal deaths that have occurred in the State.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, American Congress of Obstetricians and Gynecologists, and two individuals. Your Committee received comments on this measure from the Department of Health and Office of Information Practices.

Your Committee finds that Hawaii is one of only fourteen states in the nation that does not have a maternal mortality review committee. From 2001 to 2011, there were an average of nine maternal deaths per year. However, many experts suggest that these figures reflect under-reporting of maternal deaths. Establishing a maternal mortality review committee will go a long way toward improving women's services and saving lives.

Your Committee notes that the expected costs for the implementation and operation of the Hawaii Maternal Mortality Review Panel is \$10,000.

Your Committee has amended this measure by:

- (1) Renaming the "maternal mortality review panel" to "maternal morbidity and mortality review panel";
- (2) Inserting conforming amendments that incorporate maternal morbidity into references to "maternal mortality", "maternal mortality events", and "maternal mortality review information"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 304, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 404 Health on S.B. No. 311

The purpose and intent of this measure is to:

- (1) Establish a process to enable the Hawaii Health Systems Corporation, a regional system, or a combined regional system of two or more regional systems or a facility or service to transition to a new healthcare management system organized under the laws of the State as a nonprofit corporation or public benefit corporation registered to do business in the State; and
- (2) Establish a transition committee to assist the Governor in reviewing and monitoring the transitioning of the corporation, a regional system, or a combined regional system to a new healthcare management system.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, and one individual. Your Committee received testimony in opposition to this measure from sixty-three individuals. Your Committee received comments on this measure from the Department of the Attorney General; Hawaii Health Systems Corporation, Kauai Regional Board; and Hawaii Government Employees Association.

Your Committee finds that health care is a very specialized, complex, and rapidly changing business. Operators of health care facilities often face constant pressure to provide higher quality care and customer satisfaction at a lower cost. Hawaii Health Systems Corporation facilities can benefit greatly from partners who can accelerate access to investments, such as health information technology, physician networks, quality improvement, supply chain management, and expertise in revenue cycle maximization.

Your Committee notes that notwithstanding any other law to the contrary, including but not limited to section 27-1 and chapters 76, 78, 89, and 171, Hawaii Revised Statutes, the Maui Regional Health Care System is hereby authorized to enter into an agreement with a private entity to transition one or more of its facilities, including Maui Memorial Medical Center, Kula Hospital, and Lanai Community Hospital, into a new private Hawaii nonprofit corporation, to be operated and managed by the private entity as the facility's or facilities' sole member and operator.

Your Committee has amended this measure by:

- (1) Deleting language that would have required approval of two-thirds of the members of each house of the Legislature prior to the Governor commencing the partnering process with a healthcare management system;
- (2) Deleting provisions related to a transition committee, including membership composition, powers, and responsibilities;
- (3) Establishing provisions related to an advisory committee, including membership composition, appointment, and responsibilities;
- (4) Inserting language that requires the Chief Executive Officer of the Hawaii Health Systems Corporation to invite healthcare management systems to submit a transition plan;
- (5) Deleting the requirement for a transition plan to include provisions to establish a personnel system comprised exclusively of public employees;
- (6) Clarifying that the agreement executed by the State and any healthcare management system selected to implement its transition plan shall include provisions that assure that the selected healthcare management system pursues general fund

support from the State that does not exceed its current level of support and permits the State, upon a recommendation of the advisory committee and approval of the Governor, to accept the written offer to purchase submitted by the healthcare management system; and

- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 311, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 311, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Baker, Ruderman). Noes, none. Excused, 3 (Riviere, Wakai, Slom).

SCRep. 405 Health on S.B. No. 1033

The purpose and intent of this measure is to establish the Hawaii Maternal Mortality Review Panel within the Department of Health to conduct a comprehensive review of maternal deaths that have occurred in the State.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, American Congress of Obstetricians and Gynecologists, and two individuals. Your Committee received comments on this measure from the Department of Health and Office of Information Practices.

Your Committee finds that Hawaii is one of only fourteen states in the nation that does not have a maternal mortality review committee. From 2001 to 2011, there were an average of nine maternal deaths per year. However, many experts suggest that these figures reflect under-reporting of maternal deaths. Establishing a maternal mortality review committee will go a long way toward improving women's services and saving lives.

Your Committee further finds that there are no fiscal implications in this measure for the implementation and operation of the Hawaii Maternal Mortality Review Panel.

Your Committee has amended this measure by:

- (1) Renaming the "maternal mortality review panel" to "maternal morbidity and mortality review panel";
- (2) Inserting conforming amendments that incorporate maternal morbidity into references to "maternal mortality", "maternal mortality events", and "maternal mortality review information"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1033, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 406 Public Safety, Intergovernmental and Military Affairs on S.B. No. 419

The purpose and intent of this measure is to allow neighborhood board members to attend meetings or presentations without violating the Sunshine Law, under certain conditions.

Your Committee received testimony in support of this measure from the Neighborhood Commission Office of the City and County of Honolulu, Waikiki Neighborhood Board, and four individuals. Your Committee received testimony in opposition to this measure from the Society of Professional Journalists, League of Women Voters, and three individuals. Your Committee received comments on this measure from the Office of Information Practices and Civil Beat Law Center for Public Interest.

Your Committee finds that there have been widespread complaints regarding the inability of neighborhood board members to attend informational events due to the Sunshine Law. Under section 92-82, Hawaii Revised Statutes, if at least a number that constitutes a quorum of neighborhood board members attends any meetings or presentations open to the public, those members in attendance may be in violation of the Sunshine Law. Implementation of this measure will allow neighborhood board members to attend meetings or presentations without violating the Sunshine Law, under certain conditions, and increase communication between neighborhood board members and constituents.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 419, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 419, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 407 Public Safety, Intergovernmental and Military Affairs on S.B. No. 433

The purpose and intent of this measure is to require the Department of Public Safety intake service centers to coordinate the collection of data regarding incarcerated parents and children with incarcerated parents.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Land and Natural Resources, Office of Hawaiian Affairs, Community Alliance on Prisons, Association of Hawaiian Civic Clubs, Kalihi Palama Hawaiian Civic Club, Hawaii Appleseed Center for Law and Economic Justice, Blueprint for Change, King Kamehameha HCC and nine individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that children whose parents are incarcerated may experience symptoms of trauma as a result of their parents' incarceration, such as poor academic performance, aggressive behavior, and developmental challenges. Moreover, these children may also be much more likely to enter the criminal justice system themselves.

Your Committee further finds that there is an absence of reliable and comprehensive data on children or incarcerated parents in Hawaii, limiting the state and service providers' ability to support these children and their families. Appropriate services and resources are essential to breaking the cycle of intergenerational incarceration and to help these children overcome the hardships associated with an incarcerated parent.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 433 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 408 Public Safety, Intergovernmental and Military Affairs on S.B. No. 441

The purpose and intent of this measure is to allow the county clerk to electronically transmit absentee ballots if mailed absentee ballots are not received by the voter within five days of an election.

Your Committee received testimony in support of this measure from the State Office of Elections and the Maui Office of the County Clerk. Your Committee received comments on this measure from the League of Women Voters.

Your Committee finds that under existing law, voters covered by the State's Uniform Military and Overseas Voters Act are permitted to receive blank delivery by facsimile, electronic mail, or internet delivery if offered by the voter's jurisdiction. However, for voters that are not covered by this law, there are no other available options if there is insufficient time to receive a new ballot by mail or if it is impracticable to pick up the ballot from the county clerk's office. Prior to the enactment of this existing law, all voters were authorized to be forwarded a ballot by facsimile transmission if they did not receive a ballot in the mail within five days of an election.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 441 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 409 (Joint/Majority) Public Safety, Intergovernmental and Military Affairs and Transportation and Water and Land on S.B. No. 568

The purpose and intent of this measure is to:

- (1) Establish a Law Enforcement Standards Board for the certification of county police officers, state public safety officers employed by the Department of Public Safety, and employees at the Departments of Transportation and Land and Natural Resources with police powers;
- (2) Prohibit appointment or hiring of these officers unless certified by the Law Enforcement Standards Board beginning on January 1, 2018; and
- (3) Establish the law enforcement standards board special fund.

Your Committees received testimony in support of this measure from the Remington College Honolulu Criminal Justice Student Coalition and fifteen individuals. Your Committees received testimony in opposition to this measure from the Honolulu Police Department and County of Hawaii Police Department. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Transportation, Department of Budget and Finance, and Department of the Attorney General.

Your Committees find that it is the role of the State to oversee and regulate professions and occupations that have a significant impact on society. Law enforcement is an area where more should be done by the State to provide standards and uniformity statewide. The State and counties grant to police, sheriffs, and other law enforcement officers an immense amount of authority including the power to search, arrest, and use deadly force. The implementation of this measure ensures that law enforcement is held to the highest standards of professionalism and promotes uniformity of standards throughout the State.

Your Committees have amended this measure by:

- (1) Requiring certain members of the Law Enforcement Standards Board ("Board") to have experience rather than significant experience and not be currently employed as law enforcement officers or employed by a law enforcement agency;

- (2) Requiring the Board to consult with state and county agencies and other stakeholders to establish minimum standards for employment as a law enforcement officer;
- (3) Eliminating the Board's power to investigate any allegations of criminal activity and authorizing the board to investigate allegations of misconduct;
- (4) Authorizing, rather than requiring, the Board to establish law enforcement training programs;
- (5) Requiring the Board to establish minimum training requirements for law enforcement officers;
- (6) Requiring each government agency or department to be responsible for training its staff to meet standards and qualifications;
- (7) Requiring law enforcement officers under contract by the State to meet the minimum qualifications established by the Board;
- (8) Amending the date by which existing law enforcement officers must obtain a valid certificate;
- (9) Deleting all transfer of powers language in sections 5, 6, and 7; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs, Transportation, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 568, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 568, S.D. 1, and be referred to the Committees on Ways and Means and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 4. Noes, 1 (Slom). Excused, none.

Transportation
Ayes, 8; Ayes with Reservations (Dela Cruz, English, Inouye, Kidani, Kouchi, Nishihara). Noes, none. Excused, 1 (Slom).

Water and Land
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 410 (Joint) Public Safety, Intergovernmental and Military Affairs and Transportation on S.B. No. 579

The purpose and intent of this measure is to:

- (1) Prohibit the use of unmanned aircrafts, except by law enforcement agencies under certain circumstances, to conduct surveillance and establish certain conditions under which law enforcement agencies may use an unmanned aircraft to obtain information;
- (2) Exempt the use of model aircrafts for commercial, hobby, or recreational purposes from the prohibition;
- (3) Require all law enforcement agencies using unmanned aircrafts to report to the Legislature on their activities relating to unmanned aircrafts; and
- (4) Require all courts that issued a search warrant permitting the use of an unmanned aircraft to report certain information to the Judiciary in January of each year.

Your Committees received testimony in support of this measure from Laakea Community, LLC.; Koa'e Community Association; and ten individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and two individuals.

Your Committees find that unmanned aircraft technology is rapidly developing and has the potential to provide manufacturing, operation, and other high quality job opportunities. Unmanned aircraft systems offer efficient and cost saving methods to gather information, but this new and innovative technology may also provide opportunities for abuse. Implementation of this measure enables the State to benefit from unmanned aircraft systems technology while ensuring that the technology will not be used in a manner that will impede the right to privacy.

Your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Authorize the use of unmanned aircraft systems by private, commercial, and law enforcement agencies to conduct surveillance with a warrant;
- (2) Prohibit tracking of individuals without their consent by any privately owned or operated unmanned aircraft system;
- (3) Prohibit data derived from an unmanned aircraft system to be used by a law enforcement agency to look for wrongdoing unless a warrant authorizes the use of the data;
- (4) Prohibit unmanned aircraft systems weapon use by private, commercial, or law enforcement agencies;
- (5) Establish remedies for violations;
- (6) Encourage law enforcement agencies to develop written policies for unmanned aircraft systems use; and
- (7) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 579, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 579, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 5. Noes, none. Excused, none.

Transportation

Ayes, 6. Noes, none. Excused, 3 (English, Kouchi, Slom).

SCRep. 411 Public Safety, Intergovernmental and Military Affairs on S.B. No. 723

The purpose and intent of this measure is to promote transparency and accessibility in county government by permitting county council members to jointly attend and speak at certain community meetings or presentations; provided that the meetings or presentations are events open to the public.

Your Committee received testimony in opposition to this measure from the Office of Information Practices; League of Women Voters of Hawaii; Society of Professional Journalists, Hawaii Chapter; Civil Beat Law Center for the Public Interest; Common Cause Hawaii; and one individual.

Your Committee finds that county council members are expected to determine how community members feel about policy issues and enact legislation addressing issues when advisable, yet compliance with state law has required council members to leave community meetings or decline invitations to attend community meetings. Your Committee further finds that permitting council members to attend these public meetings will not jeopardize openness in government because council members do not have control over agendas, discussions, or outcomes of meetings conducted by non-council members.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 723, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 723, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 412 (Joint) Public Safety, Intergovernmental and Military Affairs and Health on S.B. No. 878

The purpose and intent of this measure is to:

- (1) Require the counties to authorize the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems; and
- (2) Define "composting toilet".

Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that the existing flush and septic systems in certain areas of the State are ill-suited due to geographic challenges and scarce water supplies. These areas present formidable engineering challenges including proximity to the ocean, hard volcanic rock, and groundwater just two feet below the surface. Composting toilets are a viable alternative in areas that are inaccessible to municipal water systems. Implementation of this measure improves the health and welfare of the State.

Your Committees have amended this measure by:

- (1) Authorizing, rather than requiring, the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 878, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 878, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 413 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1131

The purpose and intent of this measure is to:

- (1) Update the Uniform Controlled Substances Act, chapter 329, Hawaii Revised Statutes, for consistency with amendments in federal law on controlled substances; and
- (2) Amend section 329-20, Hawaii Revised Statutes, to add new controlled substances that have been federally scheduled, as required under section 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety and Honolulu Police Department.

Your Committee finds that this measure amends Hawaii's Uniform Controlled Substances Act, codified as chapter 329, Hawaii Revised Statutes, to be consistent with changes in federal law and any emergency scheduling actions taken by the Narcotics Enforcement Division Administrator, as required by section 329-11, Hawaii Revised Statutes.

Your Committee further finds that there is a growing problem in the State of new synthetic hallucinogenic substances being offered for sale to the public as herbal incense, bath salts, plant food, or legal highs. Numerous adverse effects have been reported from these new synthetic cathinones and synthetic cannabinoids, including seizures, coma, agitation, convulsions, and in some cases, death.

Your Committee additionally finds that the Narcotics Enforcement Division Administrator has emergency scheduled some of these substances into Schedule I of the Uniform Controlled Substances Act to avoid an imminent hazard to public safety. However, this control is temporary. Your Committee notes that the continued uncontrolled manufacture, distribution, importation, exportation, and abuse of certain identified synthetic cathinones and cannabinoids pose an imminent hazard to the public's safety. Amendments to this measure are therefore necessary to permanently add these synthetic cathinones and cannabinoids to Schedule I of the Uniform Controlled Substances Act.

Accordingly, your Committee has amended this measure by:

- (1) Adding a new synthetic cathinone and eight new synthetic cannabinoids to section 329-14, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1131, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 414 (Majority) Public Safety, Intergovernmental and Military Affairs on S.B. No. 1158

The purpose and intent of this measure is to establish a special fund for the operation, maintenance, and management of the Pacific International Space Center for Exploration Systems' projects, facilities, services, and publications and for the design and construction of facilities and renovation of or addition to existing facilities.

Your Committee received testimony in support of this measure from the Hawaii County Council, Near Earth LLC, and two individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; and one individual.

Your Committee finds that the Pacific International Space Center for Exploration Systems was established to attract and retain aerospace investment in the State and to bridge the gap between the public and private sector in aerospace-related activities. Your Committee further finds that currently the Pacific International Space Center for Exploration Systems only has the ability to receive and expend funds allocated within the state budget and does not have a mechanism to receive or expend funds from any other source. Additional sources of funding would allow the organization to initiate and engage in more activities, accelerate the rate of progress on existing initiatives, and better prepare for future project needs by adding appropriate facilities.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Galuteria).

SCRep. 415 (Joint) Public Safety, Intergovernmental and Military Affairs and Health on S.B. No. 1190

The purpose and intent of this measure is to:

- (1) Require the Director of Public Safety to contract for the planning and preliminary design for a secure correctional facility designed to provide intensive rehabilitation programs for mental health and chemical dependency treatment;
- (2) Require the Director of Public Safety to submit a progress report to the Legislature by February 1, 2016; and
- (3) Appropriate funds to the Department of Public Safety for the contract for the planning and preliminary design for the correctional facility.

Your Committees received testimony in support of this measure from the Department of Public Safety; United Public Workers AFSCME, Local 646, AFL-CIO; and two individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the State Procurement Office and Community Alliance on Prisons.

Your Committees find that the State has been exporting inmates to privately operated prisons on the mainland since 1995 instead of building a new prison in Hawaii. Fifty-four percent of Hawaii's prisoners are incarcerated in private prisons on the mainland, the highest percentage among all other states. State officials have continued to pursue various plans for adding prison space in Hawaii; however, the State has not built a new prison in nearly three decades. Implementation of this measure lowers costs, reduces recidivism, and provides a solution to overcrowding in the State's correctional facilities.

Your Committees have amended this measure by:

- (1) Inserting language to specify that the new correctional facility is to be a priority correctional facility, which may include a reentry facility, jail, or prison; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1190, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1190, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Health
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 416 (Majority) Public Safety, Intergovernmental and Military Affairs on S.B. No. 1310

The purpose and intent of this measure is to encourage the protection of water resources in the State by authorizing counties to charge user fees to create and maintain stormwater management systems or infrastructure.

Your Committee received testimony in support of this measure from the Surfrider Foundation, Oahu Chapter; Rise Above Plastics Coalition; League of Women Voters of Hawaii; Kokua Council; and six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that rising development pressure, population growth, and climate change will likely create increased demand for water and compromise Hawaii's fresh water supplies in the coming decades. Your Committee further finds that it is important to encourage best practices and infrastructure investment by the counties to capture and retain rainfall for potable water before it becomes stormwater run-off. Beneficial reuse of stormwater preserves our limited natural water resources, reserves higher quality water for higher quality uses, and reduces the amount of polluted run-off that fouls inland waterways and near-shore waters.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1310, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1310, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 417 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1354

The purpose and intent of this measure is to authorize the governing body of each county to adopt the most recent internationally and nationally recognized codes and standards if the State Building Code Council has not adopted new model building codes and standards as required in section 107-24, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, and State Building Code Council.

Your Committee finds that the State Building Code Council was created in 2007 to review and adopt current, nationally recognized building codes and standards for Hawaii. The council is required to review and adopt, as appropriate, new model building codes within eighteen months of the official publication date of various codes and standards, including the International Building Code, which establishes minimum regulations for building systems and is promulgated every three years. However, Hawaii, unlike at least twenty other states, has not adopted the current regulations established and promulgated in the 2012 International Building Code publication. The failure to adopt current International Building Code regulations poses a serious safety issue for Hawaii's residents, due to the State's unique geographic location and vulnerability related to natural disasters. Implementation of this measure will safeguard the health and safety of Hawaii's residents and visitors.

Your Committee has amended this measure by authorizing the governing body of each county to review and adopt the more current, rather than most recent, codes and standards identified in section 107-25, Hawaii Revised Statutes, if the State Building Code Council fails to update and adopt new model building codes and standards as required.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1354, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as S.B. No. 1354, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 418 Transportation on S.B. No. 128

The purpose and intent of this measure is to prohibit a motor vehicle from being operated within one meter of a moving bicycle.

Your Committee received testimony in support of this measure from the Hawaii Bicycling League. Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association and two individuals.

Prior to the hearing on this measure, your Committee posted for public review a proposed S.D. 1 which made an appropriation for a grant-in-aid to the City and County of Honolulu to operate a van pool program on Oahu; subject to certain reporting requirements.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Transportation; VRide; Enterprise Holdings, LLC; and one individual.

Your Committee finds that bicycling should be encouraged as an alternative form of transportation. Making sure that bicyclists are safe will encourage more people to choose bicycles over other forms of transportation.

Your Committee further finds that van pools receive federal funding and providing a grant-in-aid to the City and County of Honolulu to operate a van pool program will preserve federal funding and enhance this vital service to the commuters of Oahu.

Your Committee has amended this measure by:

- (1) Inserting the contents of the proposed S.D. 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 128, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 128, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Slom).

SCRep. 419 Transportation on S.B. No. 1044

The purpose and intent of this measure is to:

- (1) Require the Director of Transportation to submit to the Legislature an annual report detailing compliance with the complete streets policy and principles during the prior fiscal year, including certain specified information;
- (2) Require the Department of Transportation to establish and publish performance standards with measurable benchmarks reflecting the capacity for all users to travel with appropriate safety and convenience along roadways under the jurisdiction of the State;
- (3) Require that complete streets policies of the State apply to new construction, reconstruction, repaving, operations, and maintenance activities, and accordingly require the Department of Transportation to create a checklist of certain specified information; and
- (4) Require the Director of Transportation to provide training for the Department of Transportation's design, operations, and maintenance staff in complete streets policies, principles, and implementation procedures that may be applicable to the performance of their duties.

Your Committee received testimony in support of this measure from the Department of Transportation; Kauai Path, Inc.; Blue Planet Foundation; Maui Electric Bikes; Maui Bicycling League; Cycle Manoa; AARP Hawaii; Peoples Advocacy for Trails for Hawaii; Hawaii Bicycling League; and thirty-nine individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs and three individuals.

Act 54, Session Laws of Hawaii 2009, enacted the complete streets law, codified as section 264-20.5, Hawaii Revised Statutes, to require the State Department of Transportation and the county transportation departments to adopt a complete streets policy that seeks to reasonably accommodate convenient access and mobility for all users of the public highways within their respective jurisdictions, including pedestrians, bicyclists, transit users, motorists, and persons of all ages and abilities.

Your Committee finds that clarification of the complete streets policy is necessary to assure its proper implementation and ensure its effectiveness as intended.

Your Committee has amended this measure by:

- (1) Requiring the Department of Transportation's initial report to the Legislature to be submitted by December 31, 2016;
- (2) Clarifying that the measurable performance standards and benchmarks to be included in the Department of Transportation's report are as established in conjunction with the MAP-21 process applicable to each project;
- (3) Requiring the Department of Transportation to post on its website the preliminary complete streets checklist and accompanying documentation within sixty days of completion of the checklist rather than within thirty days;
- (4) Deleting the requirement that the Department of Transportation's complete streets checklist receive public comment;

- (5) Requiring counties to consider the complete streets law when adopting or amending county land use ordinances; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1044, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Slom).

SCRep. 420 (Joint) Transportation and Commerce and Consumer Protection on S.B. No. 2

The purpose and intent of this measure is to:

- (1) Limit the liability of port pilots to a specified monetary limit of damages or loss occasioned by a pilot's errors, omissions, fault, or negligence in the performance of pilotage or in the training of pilots, except for acts or omissions of the pilot in the performance of pilotage or in the training of pilots that constitute wilful, intentional, or reckless misconduct;
- (2) Impose continuing education requirements on licensed port pilots;
- (3) Require investigations to determine whether persons applying for renewal of full port pilot or deputy port pilot licenses are qualified;
- (4) Require that every vessel, not just those involved in trade or commerce, entering or departing from any port in the State or traversing the waters of the State designated as pilotage waters to employ a licensed pilot unless otherwise exempt; and
- (5) Exempt vessels under three hundred gross tons from pilotage regulation.

Your Committees received testimony in support of this measure from the Hawaii Pilots Association; Hawaii Ports Maritime Council; and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that port pilots have the responsibility of ensuring the safe movement of all types of vessels in Hawaii's commercial harbors, including cruise ships, oil tankers, and container ships. Port pilots go aboard ships before they enter or depart from a harbor. For arriving vessels, the pilot usually goes aboard the ship from a pilot boat at a distance of about two to three miles from shore. Once on board a ship, the pilot directs the movement of the vessel as it moves throughout the harbor. The pilot accomplishes this by giving specific engine and steering commands to the ship's crew, as well as directing the movements of the assisting tug boats.

Your Committees further find that each time a state-licensed compulsory pilot boards a ship, that pilot knows that a moment's inattention, complacency, wrong decision, or simple mistake could lead to a potentially catastrophic vessel casualty with hundreds of millions of dollars in damages or loss of life, the end of the pilot's career, and financial ruin for the pilot and the pilot's family. Coupled with the physical dangers involved in piloting no other occupation or profession presents such risks to its practitioners in the normal course of work. Unbridled exposure to this enormous liability risk could serve as a hindrance to efforts to attract and maintain sufficient numbers of qualified pilots and could therefore threaten the State's ability to maintain effective compulsory pilotage systems.

Your Committees have amended this measure by:

- (1) Deleting the continuing education requirements and the requirement for investigations to determine whether persons applying for renewal of a full port pilot license or deputy port pilot license are qualified;
- (2) Inserting language requiring the Department of Commerce and Consumer Affairs, in consultation with the Hawaii Pilots Association, to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016 on its findings and recommendations, including any proposed legislation, relating to:
 - (A) Continuing education requirements for port pilots;
 - (B) Investigations of port pilots who are renewing their licenses to determine their qualifications; and
 - (C) Any other matters relevant to the professional competencies and education of port pilots when applying for a license or renewing a license; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation

Ayes, 8. Noes, none. Excused, 1 (Kidani).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Kahele, Kidani, Taniguchi).

SCRep. 421 (Joint) Transportation and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1180

The purpose and intent of this measure is to repeal chapter 279E, Hawaii Revised Statutes, and create a new chapter in the Hawaii Revised Statutes with revised requirements for metropolitan planning organizations to ensure compliance with federal law.

Your Committees received testimony in support of this measure from the Department of Transportation Services of the City and County of Honolulu, Department of Planning and Permitting of the City and County of Honolulu, Citizens Advisory Committee of the Oahu Metropolitan Planning Organization, and one individual. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Budget and Finance and Office of Information Practices.

Your Committees find that federal laws require that metropolitan planning organizations be designated based on a minimum population threshold as defined in federal law to act as a decision-making agency and to receive certain funds for the purpose of carrying out a continuing, cooperative, and comprehensive transportation planning process.

Your Committees further find that it is the responsibility of the policy board of the Metropolitan Planning Organization to make decisions that are the result of the continuing, cooperative, and comprehensive transportation planning process, and the organization's staff support and provide technical resources to the policy board. The continuing, cooperative, and comprehensive planning process is designed to provide orderly and reasoned metropolitan transportation planning within the framework of federal law, and adequate and informed representation from state and county governments.

Your Committees further find that existing state law conflicts with current federal transportation regulations. This conflict needs to be rectified in order for the Oahu Metropolitan Planning Organization to maintain its federal Transportation Management Area certification. According to testimony, the consequences of a de-certification by the federal government would be a withholding of up to twenty percent of federal surface transportation funds normally distributed to Oahu, or about \$12,000,000 annually.

Your Committees have amended this measure by:

- (1) Deleting the Oahu metropolitan planning organization special fund and creating a metropolitan planning organization revolving fund for each metropolitan planning organization to accurately reflect the nature of the fund as continuously receiving and expending monies;
- (2) Clarifying that:
 - (A) The metropolitan planning organization revolving fund may receive federal funds or grants;
 - (B) Funds in the metropolitan planning organization revolving fund for each county shall be expended by the applicable county for purposes of transportation planning in accordance with federal law;
 - (C) The metropolitan planning organization for a particular county may expend funds from their respective revolving fund without necessity of an appropriation; and
 - (D) Each metropolitan planning organization having a revolving fund shall report annually to the Legislature on a detailed accounting of the activities of their respective revolving fund for the previous year;
- (3) Deleting the exemption for special fund reimbursements for departmental administrative expenses since the metropolitan planning organization revolving fund is no longer a special fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1180, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1180, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation

Ayes, 8. Noes, none. Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 5. Noes, none. Excused, none.

SCRep. 422 (Joint) Hawaiian Affairs and Higher Education and the Arts on S.B. No. 1248

The purpose and intent of this measure is to expand the scope of the Hawaiian language revolving fund at the University of Hawaii at Hilo to allow funds generated by the College of Hawaiian Language, Hawaiian Language Support Center, and the indigenous outreach program to be deposited and used at the discretion of the College of Hawaiian Language.

Your Committees received testimony in support of this measure from Kulanui O Hawaii Ma Hilo, Aha Punana Leo, and four individuals. Your Committees received testimony in opposition to this measure from the University of Hawaii System.

Your Committees find that allowing funds from various sources to be deposited in the Hawaiian language revolving fund will allow the College of Hawaiian Language the opportunity to utilize the single source of funds to support its mission. Of note, projects such as the publication of educational materials for the Hawaiian language program will be made easier. Your Committees note the concerns raised by the University of Hawaii System over allowing fees from services to be deposited into the revolving fund. However, in moving this measure forward for consideration by your Committee on Ways and Means, your Committees have encouraged the University of Hawaii at Hilo and the College of Hawaiian Language to work together to develop proposed language that would be acceptable to the stakeholders.

Your Committees have amended this measure by:

- (1) Replacing “sale of all products” with “sale of language-related materials” as those terms pertain to income generating activities;
- (2) Deleting the language that specified monies deposited into the revolving fund shall be expended at the discretion of the Hawaiian language college;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1248, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1248, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

Higher Education and the Arts

Ayes, 4. Noes, none. Excused, 3 (Kidani, Wakai, Slom).

SCRep. 423 (Joint) Hawaiian Affairs and Health and Water and Land on S.B. No. 537

The purpose and intent of this measure is to provide that a project possessing a notice to proceed on a statewide programmatic general permit to reconstruct, restore, repair, or reuse a Hawaiian fishpond shall be exempt from the requirement to obtain a permit or water quality certification pursuant to chapter 342D, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Land Use Research Foundation of Hawaii, Ko‘olaupoko Civic Club, and seven individuals. Your Committees received testimony in opposition to this measure from Loko Ia Consulting and Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Health, Office of Hawaiian Affairs, and Kua‘aina Ulu ‘Auamo.

Your Committees find that by requiring the Department of Health to waive the requirement of a water quality certification under certain circumstances, this measure would promote the streamlining of the permitting process for persons seeking to restore, repair, or reuse Hawaiian fishponds.

Your Committees have amended this measure by:

- (1) Amending the purpose section;
- (2) Inserting a definition for “loko i‘a” in section 342D-6.5, Hawaii Revised Statutes, and replacing the term “fishpond” with “loko i‘a” throughout that section;
- (3) Specifying that the waiver applies to the water quality certification and shall be granted for the restoration, repair, maintenance, and operation of loko i‘a;
- (4) Clarifying that notice of authorization to proceed is from the Office of Conservation and Coastal Lands; and
- (5) Amending the definition of “water quality certification”.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Health, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 537, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 537, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Health

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

Water and Land

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 424 (Joint/Majority) Higher Education and the Arts and Judiciary and Labor on S.B. No. 637

The purpose and intent of this measure is to propose an amendment to Article X, Section 6, of the Constitution of the State of Hawaii to divest exclusive jurisdiction of the Board of Regents of the University of Hawaii over the internal structure, management, and operation of the University of Hawaii.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the University of Hawaii System, University of Hawaii Professional Assembly, and one individual.

Your Committees find that over the last several years, there have been concerns raised about the management and governance of the University of Hawaii System. As the only public institution of higher learning in the State, it is important to ensure proper oversight and transparency of the University's fiscal and operational administration. This measure opens the conversation on whether the University of Hawaii System should maintain its autonomy.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 637 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Kidani, Wakai).

Judiciary and Labor

SCRep. 425 (Joint/Majority) Higher Education and the Arts and Judiciary and Labor on S.B. No. 387

The purpose and intent of this measure is to require the University of Hawaii System to establish and enforce an affirmative consent standard for all policies and protocols relating to sexual assault, domestic violence, dating violence, and stalking as a condition for receiving state funds for student financial assistance.

Your Committees received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii Youth Services Network, Hawaii Women's Coalition, American Association of University Women, Sex Abuse Treatment Center, IMUAlliance, Planned Parenthood of Hawaii, Hawaii State Democratic Women's Caucus, Hawaii State Coalition Against Domestic Violence, National Association of Social Workers Hawaii Chapter, and seven individuals. Your Committees received testimony in opposition to this measure from the University of Hawaii System.

Your Committees find that more than eight hundred colleges and universities across the nation have already adopted affirmative consent policies, and nine other states are also considering affirmative consent legislation. These universities have since reported the positive impact resulting from such policies and the change in campus dialogue about healthy relationships and consent.

Your Committees have amended this measure by:

- (1) Clarifying the legislative intent to explicitly require the University of Hawaii System and the Board of Regents to act jointly to establish and enforce an affirmative consent standard for all policies and protocols relating to sexual assault, domestic violence, dating violence, and stalking;
- (2) Deleting the requirement that the governing board of each community college, trustees of the University of Hawaii, and Board of Regents adopt certain policies and protocols as a condition of receiving state funds for student financial assistance; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 387, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 387, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Kidani, Wakai).

Judiciary and Labor

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Espero).

SCRep. 426 (Majority) Judiciary and Labor on S.B. No. 457

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, Hawaii Health Systems Corporation, and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (9) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2015 Regular Session.

Your Committee has amended this measure by inserting an effective date of January 7, 2019, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 457, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 457, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 427 (Majority) Judiciary and Labor on S.B. No. 384

The purpose and intent of this measure is to:

- (1) Establish the address confidentiality program to help victims of domestic violence and sexual assault to relocate and keep their addresses confidential; and
- (2) Create the address confidentiality program surcharge fund.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, Hawaii State Commission on the Status of Women, PHOCUSED, Domestic Violence Action Center, The Sex Abuse Treatment Center, Women's Caucus of the Democratic Party of Hawaii, American Association of University Women of Hawaii, Hawaii Women's Coalition, League of Women Voters of Hawaii, and six individuals. Your Committee received comments on this measure from the Department of Accounting and General Services and Department of Budget and Finance.

Your Committee finds that address confidentiality programs are necessary in light of modern technology that makes information easily accessible through the Internet and in public records. According to the written testimony submitted by the Hawaii State Commission on the Status of Women, thirty-six states have enacted and implemented address confidentiality programs. This measure helps to keep victims of domestic violence and sexual assault safe by protecting their actual addresses while providing a substitute address to enable them to be legally served, receive child support payments, register to vote, and apply for a driver's license.

Your Committee has amended this measure by:

- (1) Deleting language requiring that an applicant provide any documentation from a religious, medical, or other professional from whom the applicant has sought assistance in dealing with the alleged domestic violence, sexual offense, or stalking from the types of evidence an applicant may include in the application;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 384, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 428 Judiciary and Labor on S.B. No. 144

The purpose and intent of this measure is to increase the threshold value in controversy requirement for jury trials in civil cases at common law from \$5,000 to \$10,000.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that this measure may assist in lessening the burden on Circuit Courts with matters not involving large sums of money. Your Committee further finds that increasing the threshold value may lessen costs to the parties involved because a jury trial in Circuit Court can be more expensive than a bench trial in District Court.

Your Committee has amended this measure by deleting language that requires this measure to become effective upon ratification of a constitutional amendment to increase the threshold value in controversy requirement and inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 144, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 429 (Majority) Judiciary and Labor on S.B. No. 129

The purpose and intent of this measure is to require certain employers to provide sick leave to service workers for specified purposes under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Americans for Democratic Action Hawaii, Hawaii State AFL-CIO, ILWU Local 142, Hawaii Government Employees Association, and one individual. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii, First Hawaiian Bank, National Federation of Independent Business, ABC Stores, Society for Human Resource Management Hawaii Chapter, Times Supermarket, Hawaii Food Industry Association, and one individual. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that this measure would provide paid sick leave for many workers who currently are not entitled to sick leave. Upon consideration of testimony, your Committee finds that employers that already have a paid leave policy more generous than required by this measure should be exempted from the provisions of this measure.

Your Committee has amended this measure by:

- (1) Deleting the definition of "retaliatory personnel action";

- (2) Amending the definition of “service worker” to specifically include employees of food establishments and adding a definition for “food establishment”;
- (3) Providing an exemption for employers who:
 - (A) Offers paid leave that may be used at a rate greater than required by this measure; and
 - (B) Have a sick leave policy approved by the Director of Labor and Industrial Relations;
- (4) Applying “earned” sick leave as opposed to “accrued” sick leave;
- (5) Deleting language relating to notice of intention to use leave and documentation of the purpose for which leave is taken;
- (6) Adding the new language to chapter 388, Hawaii Revised Statutes, as opposed to 386, Hawaii Revised Statutes;
- (7) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 129, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Thielen). Noes, 1 (Slom). Excused, none.

SCRep. 430 (Joint) Energy and Environment and Health on S.B. No. 1118

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health to support public health and environmental hazard evaluation and emergency response preparedness.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that the Department of Health provides public health and environmental hazard evaluation and emergency response services twenty-four hours a day, seven days a week. Services are funded by the environmental response revolving fund, which is capitalized primarily by the state environmental response, energy, and food security tax. However, the environmental response revolving fund balance is dangerously low due to reduced consumption of crude oil in the State, while demand for public health and environmental hazard evaluation and emergency response has increased. Without adequate capitalization, the Department of Health will be forced to begin the process of laying off program staff before the end of fiscal year 2015. Implementation of this measure will preserve public health by continuing environmental hazard evaluation and emergency response preparedness.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1118 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Ruderman).

SCRep. 431 (Joint) Energy and Environment and Health on S.B. No. 1260

The purpose and intent of this measure is to:

- (1) Require the Department of Health to implement the recommendations made by the Office of the Auditor in its December 2014 Report No. 14-17 regarding advance disposal fee glass containers and glass recycling; and
- (2) Require the Department of Health to report on its implementation of the recommendations to the Legislature.

Your Committees received testimony in support of this measure from the Office of the Auditor, Koa'e Community Association, Recycle Hawaii, Laakea Community LLC, Reynolds Recycling, and eight individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from one individual.

Your Committees find that the Office of the Auditor conducted an audit of the Department of Health's advance disposal fee program and released Report No. 14-17 in December of 2014. The report recommends that the Department of Health combine the advance disposal fee and deposit beverage container glass processing streams to increase efficiency and decrease costs while increasing the supply of glass available for down-cycling, update and finalize the 2008 Policy Glass Recycling Draft, work with stakeholders to make practical policies and rules governing the stockpiling of processed glass, and increase the recovery rate for advance disposal fee glass containers to seventy-five percent. Implementation of this measure will encourage the State to address the obstacles to local down-cycling of advance disposal fee glass and implement local uses of advance disposal fee glass.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1260 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Ruderman).

SCRep. 432 (Joint) Energy and Environment and Agriculture and Transportation on S.B. No. 1059

The purpose and intent of this measure is to:

- (1) Authorize the inspection and treatment of regulated goods moving between islands;
- (2) Prohibit transportation of infested material between islands;
- (3) Authorize the designation of quarantine areas to isolate infested areas;
- (4) Authorize the interisland or intransland transportation of articles from a quarantined area if the consignor and consignee of the articles are participants in the Department of Agriculture's compliance agreement program; and
- (5) Establish penalties for violations of intrastate transportation and quarantine laws and rules.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Coordinating Group on Alien Pest Species, University of Hawaii System, Nature Conservancy, and one individual.

Your Committees find that the State has attempted to control certain invasive species but that control efforts are often too late to stop the spread of certain invasive species across the State. As a result, invasive species now infest hundreds of thousands of acres and affect Hawaii's export industry, tourism revenues, property values, residents' quality of life, and the environment. It is necessary to identify pathways and areas infested with priority pests and mitigate the chances that pests will enter transportation networks. Implementation of this measure will enhance biosecurity and protect the State's environment.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment, Agriculture, and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1059, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1059, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Thielen, Wakai).

Transportation

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kidani).

SCRep. 433 (Joint) Energy and Environment and Health on S.B. No. 1170

The purpose and intent of this measure is to:

- (1) Require the Department of Health to adopt a standard specification for compostable plastics and that plastic products labeled as "compostable" meet the adopted standard specification;
- (2) Prohibit a person from selling plastic products labeled as "biodegradable" or implying that a plastic product will break down, fragment, biodegrade, or decompose in a landfill or other environment;
- (3) Exempt the sale of plastic products labeled as "compostable" if certain criteria are met; and
- (4) Establish fines for violators.

Your Committees received testimony in support of this measure from the Surfrider Foundation Oahu Chapter, Rise Above Plastics Coalition, Beach Environmental Awareness Campaign Hawaii, and six individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that people often use biodegradable items in their efforts to eliminate the wide use of plastics that present environmental and health hazards. However, biodegradable plastics are actually more damaging to the environment than regular plastics. Biodegradable food service items contain plastic and are designed to break down into microplastics, which create a great threat to marine life. The marketing of products as "biodegradable", "degradable", and "decomposable" misleads the public and is dangerous to the environment. Implementation of this measure will reduce the consumption of single use plastic products and move the State toward a more sustainable future.

Your Committees have amended this measure by:

- (1) Defining "degradable" and "decomposable";
- (2) Prohibiting a person from selling a plastic product labeled with the term "degradable" or "decomposable", in addition to "biodegradable";
- (3) Amending the purpose section to reflect the additional prohibitions; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1170, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1170, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Health

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Baker, Ruderman).

SCRep. 434 (Joint) Energy and Environment and Health on S.B. No. 1111

The purpose and intent of this measure is to authorize the Department of Health to transfer federal capitalization grant funds between the water pollution control revolving fund and the drinking water treatment revolving loan fund, in accordance with title 40 Code of Federal Regulations section 35.3530(c).

Your Committees received testimony in support of this measure from the Department of Health and Board of Water Supply of the City and County of Honolulu.

Your Committees find that there is a need to replace aging drinking water and wastewater system infrastructure in the State, the delay of which could pose a short-term and long-term health hazard for consumers. The drinking water treatment revolving loan fund and the water pollution control revolving fund have not been administered in a way that manages yearly capitalization grants received from the United States Environmental Protection Agency to the maximum extent allowed under the Safe Drinking Water Act. This has prevented the construction of health-protective infrastructure projects in Hawaii. Implementation of this measure will ensure the efficient disbursement of annual federal capitalization grant monies, benefiting public health and the environment.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1111, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1111, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Ruderman).

SCRep. 435 (Joint/Majority) Energy and Environment and Health on S.B. No. 689

The purpose and intent of this measure is to:

- (1) Prohibit the sale of personal care products that contain plastic microbeads beginning on January 1, 2016; and
- (2) Require violators to pay a fine.

Your Committees received testimony in support of this measure from the Department of Health, Animal Rights Hawaii, Rise Above Plastics Coalition, Surfrider Foundation Oahu Chapter, Consumer Healthcare Products Association, Beach Environmental Awareness Campaign Hawaii, and eight individuals.

Your Committees find that microbeads are gentle scrubbers that are added to numerous personal care products, including shampoos, soaps, and toothpastes. Research has indicated that wastewater treatment plants are unable to filter out microbeads, and as a result microbeads pass through sewage systems and eventually enter into waterways. Once microbeads enter the marine environment, they are impossible to remove and are a significant source of environmental degradation. Implementation of this measure will reduce the State's production of waste and its negative impact on the environment.

Your Committees have amended this measure by:

- (1) Replacing the phrase "synthetic plastic microbeads" with "plastic microbeads" throughout the measure;
- (2) Replacing the definition of "synthetic plastic microbead" with "plastic microbead", which is defined as any intentionally added solid plastic particle measuring five millimeters or less that is used in personal care products;
- (3) Delaying to December 31, 2017, the start date for the prohibition on the sale of personal care products that contain plastic microbeads; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 689, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 689, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Health

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Baker, Ruderman).

SCRep. 436 Health on S.B. No. 682

The purpose and intent of this measure is to prohibit discrimination against medical marijuana patients and caregivers by schools, landlords, employers, courts, and licensing boards, or with regard to medical care or parental rights.

Your Committee received testimony in support of this measure from Green Futures; Drug Policy Action Group; Alternative Pain Management Pu'uhonua, LLC; Drug Policy Forum of Hawaii; Hawaii Cannabis Care; Sacred Truth Mission; Community Alliance on Prisons; Americans for Safe Access, Big Island Chapter; and thirty-three individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu and one individual. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, Hawaii Catholic Conference, Hawaii Family Forum, and one individual.

Your Committee finds that support for the medical use of marijuana in the State is strong, but existing protections for patients are very weak regarding civil penalties. Patients within the medical marijuana program should not be less secure in their housing, school enrollment, employment, or supplemental medical care than patients who have made different private decisions with their doctors concerning medication.

Your Committee has heard the testimony of the Department of the Attorney General expressing concerns related to the federal restrictions of marijuana and certain occupations, such as medical first responders or those who are required to carry a firearm. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Judiciary and Labor further examine those issues and concerns if it chooses to hear this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 682, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 682, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 437 (Joint) Health and Agriculture and Energy and Environment on S.B. No. 793

The purpose and intent of this measure is to establish mandatory notice, reporting, and use requirements when pesticides are applied outdoors near sensitive areas.

Your Committees received testimony in support of this measure from Hawaii County Council, Hawaii Farmers Union United, American Congress of Obstetricians and Gynecologists, Hawaii Center for Food Safety, American Academy of Pediatrics, BluSea Foundation Global Mana, Ho'okipa Network, 'Ai Pohaku, Planned Parenthood, Good Beginnings Alliance, Association of Hawaiian Civic Clubs, Environmental Caucus of the Democratic Party of Hawaii, Surfrider Foundation, Hawaii State Commission on the Status of Women, Hawaii Alliance, UNITE HERE Local 5, and numerous individuals. Your Committees received testimony in opposition to this measure from the Hawaii Crop Improvement Association; Hunting, Farming, and Fishing Association; Maui County Farm Bureau; Hawaii Cattlemen's Council; CropLife America; Hawaii Farmers & Ranchers United; Monsanto Hawaii; Dow Agrosiences; Alexander & Baldwin; Hawaii Farm Bureau; DuPont Pioneer; Syngenta Hawaii; Chamber of Commerce Hawaii; and thirteen individuals. Your Committees received comments on this measure from the Department of Agriculture, Hawaii Pest Control Association, Hawaii Alliance for Progressive Action, and a few individuals.

Your Committees find that it is of the utmost importance to protect communities that could be potentially impacted by pesticide drift. In Hawaii, there have been at least six episodes of pesticide-induced illness at schools since 2006. Exposure to pesticide drift causes numerous short-term impacts, such as headaches, dizziness, difficulty breathing, nausea, vomiting, weakness, chest pain, fatigue, rashes, and eye ailments.

Your Committees have heard the testimony of several concerned entities and individuals about several key issues and request that your Committees on Commerce and Consumer Protection and Ways and Means consider the following as it relates to this measure and pesticide use in general:

- (1) An improved definition for "watershed";
- (2) The importance of pesticide use disclosure to the public;
- (3) There is great concern about the combination of pesticides when used together, the effects of which have not been thoroughly researched;
- (4) An exclusion for termite treatment as it relates to this measure;
- (5) Establishing integrated pesticide management plans for schools; and

- (6) In establishing buffer zone boundaries, vapor drift and pesticide-laden dust should be taken into consideration.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health, Agriculture, and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 793, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 793, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5; Ayes with Reservations (Riviere, Wakai). Noes, none. Excused, 2 (Taniguchi, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 438 (Joint) Health and Agriculture and Energy and Environment on S.B. No. 1037

The purpose and intent of this measure is to require the Department of Health to establish a mandatory disclosure program for pesticide use by all persons or entities under certain circumstances.

Your Committees received testimony in support of this measure from the American Congress of Obstetricians and Gynecologists; American Academy of Pediatrics, Hawaii Chapter; Good Beginnings Alliance; CropLife America; Planned Parenthood; Life of the Land; BluSea Foundation; Environmental Caucus of the Democratic Party of Hawaii; IMUAlliance; and sixteen individuals. Your Committees received testimony in opposition to this measure from Western Plant Health Association, Syngenta Hawaii, Hawaii Farm Bureau, Dow Agrosiences, Hawaii Farmers and Ranchers United, Hawaii Cattlemen's Council, Hawaii Crop Improvement Association, Maui County Farm Bureau, Chamber of Commerce Hawaii, and six individuals. Your Committees received comments on this measure from the Department of Health; Department of Agriculture; Alexander & Baldwin, Inc.; and Hawaii Pest Control Association.

Your Committees find that it is of the utmost importance to protect communities that could be potentially impacted by pesticide drift. In Hawaii, there have been at least six episodes of pesticide-induced illness at schools since 2006. Exposure to pesticide drift causes numerous short-term impacts, such as headaches, dizziness, difficulty breathing, nausea, vomiting, weakness, chest pain, fatigue, rashes, and eye ailments.

Your Committees have heard testimony from several individuals related to the unknown effects of combinations of pesticide use and request that your Committee on Ways and Means examine this issue if it chooses to hear this measure.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health, Agriculture, and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1037, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1037, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 439 Human Services and Housing on S.B. No. 271

The purpose and intent of this measure is to add to the Child Protective Act circumstances where a biological family shall be considered an unsafe placement by expanding the definition of "aggravated circumstances" as used in chapter 587A, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii Friends of Civil Rights, Olomea Inc., and six individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services, Farrell and Associates, Hawaii Appleseed Center for Law and Economic Justice, Pacific Alliance to Stop Slavery, Women Helping Women, and fourteen individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the ultimate concern in child welfare practice and policy is the safety and security of children. Currently, Hawaii statute defines specific "aggravated circumstances" that, when present, preclude the State from having to provide reasonable efforts to preserve or reunify children with their biological parents. The existence of aggravated circumstances expedites the process of terminating biological parents' parental rights by taking some of the discretion away from child welfare professionals involved in the case and making an immediate determination that the biological family is no longer a safe placement for the child due

to grave circumstances such as a parent committing specific crimes, torturing or abandoning a child, or having parental rights terminated on a sibling of the child.

Your Committee has heard testimony expressing concern about expanding the definition of “aggravated circumstances” in the Child Protective Act. Your Committee recognizes the testimony expressing that the current statute sufficiently protects children, and that inserting additional aggravated circumstances could have unintentional consequences such as deterring struggling families from seeking help and creating obstacles to the child welfare goals of family engagement, collaboration, and reunification. Your Committee finds that these concerns merit further consideration.

Your Committee has amended this measure by:

- (1) Removing all references in the list of aggravated circumstances to a parent providing unstable housing;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 271, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 440 Human Services and Housing on S.B. No. 1202

The purpose and intent of this measure is to establish the homeownership revolving fund to assist households whose income does not exceed eighty percent of the area median income by paying the debt service on the purchase of a dwelling for the first sixty months.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committee finds that there is a growing shortage of housing units in Hawaii resulting in low vacancy rates and rising rents, causing many families to struggle to achieve homeownership. Therefore, your Committee finds that certain families and individuals seeking homeownership are in need of assistance.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1202, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 441 Agriculture on S.B. No. 382

The purpose and intent of this measure is to establish within the livestock revitalization program a grant program for qualified feed developers.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, Hawaii Cattlemen’s Council, and Ulupono Initiative.

Your Committee finds that Hawaii’s livestock industry faces numerous challenges, with one of the biggest being the rising cost of feed for livestock production. Having the taxpayers of Hawaii subsidize a feed development program is a good investment to meet Hawaii’s sustainability goals; however, a long-term plan to subsidize imported feed, especially for export products, is not in the public interest.

Your Committee has amended this measure by:

- (1) Removing language throughout that refers to the sale or cultivation of feed or feed crops to or for qualified producers;
- (2) Including transportation costs from Hawaii to be included in the calculation of feed development costs;
- (3) Inserting language to require the Department of Agriculture to disburse funds on a prorated basis;
- (4) Inserting language to cap each grant to \$200,000 per qualified feed producer per year;
- (5) Deleting the proviso in the appropriation relating to the qualified feed developer grant program;
- (6) Inserting an appropriation for the Department of Agriculture to identify, assess, and validate locally sourced feed ingredients; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 382, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 442 (Joint) Agriculture and Education on S.B. No. 376

The purpose and intent of this measure is to create a farm to school program in the Department of Agriculture and to provide funding for two farm to school coordinator positions to oversee the State's farm to school program.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawaii PALS Program, University of Hawaii System, Hawaii Farm Bureau, Local Food Coalition, Hawaii Farm to School and School Garden Hui, Kokua Hawaii Foundation, Kua o ka La Charter School, Hawaii Island School Garden Network, and thirty-six individuals. Your Committees received comments on this measure from the Department of Agriculture and Office of Hawaiian Affairs.

Your Committees find that Oregon, a national leader in the farm to school movement, has full-time farm to school coordinators in Oregon's department of agriculture and department of education that work together to increase educational opportunities and the procurement of locally grown foods for schools and encourage the students' consumption of locally grown foods. Your Committees further find that farm to school activities support a nutritious school food environment and that more than eighty-five percent of the youth in Hawaii attend public schools. Students who participate in farm to school activities are more likely to be familiar with, have a preference for, and consume more fruits and vegetables at school and at home, thereby establishing healthy behaviors at an early age that may prevent the onset of chronic diseases and other health conditions later in life. Therefore, your Committees believe that Hawaii students could greatly benefit from a program similar to Oregon's program.

Your Committees also find that Act 55, Session Laws of Hawaii 2013, encourages the purchase and use of Hawaii grown food and food products by residents, businesses, and governmental bodies. Your Committees support increasing the procurement of local agricultural products for schools, which has the added benefit of supporting the State's agricultural economy by providing an additional revenue source for local farmers.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 376, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 376, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Thielen, Slom).

Education

Ayes, 7. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 443 Higher Education and the Arts on S.B. No. 325

The purpose and intent of this measure is to provide funds for the University of Hawaii to pay student employee salaries at new or expanded worksites on each campus.

Your Committee received testimony in support of this measure from the University of Hawaii System, University of Hawaii at Manoa, and nineteen individuals.

Your Committee finds that hiring students at universities benefits both the student and the university. Hired students have the ability to earn income as they are learning from their jobs, and on-campus employment helps to promote access, retention, diversity, and progress toward graduation of the student employees. Further, the Legislature has previously provided funding from the general revenues of the State of Hawaii for the University of Hawaii to pay student employee salaries at new or expanded worksites on each campus through Act 237, Session Laws of Hawaii 2013.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 325 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 444 Water and Land on S.B. No. 893

The purpose and intent of this measure is to appropriate funds to the Pacific-Asia Institute for Resilience and Sustainability for research on water and sewer distribution systems on each island and a pilot study for advanced monitoring of water systems.

Your Committee received testimony in support of this measure from Enterprise Honolulu, Pacific-Asia Institute for Resilience and Sustainability, and two individuals.

Your Committee finds that the United States Environmental Protection Agency has identified Hawaii as the focus for improving how funding is used to support water systems and infrastructure. There is approximately \$100,000,000 in unused funds from the United States Environmental Protection Agency's drinking water state revolving fund. The fund is used to make grants and low

interest loans for county water improvement projects that have had difficulty obtaining necessary permits from the state Department of Health.

Your Committee further finds that the water and sewer distribution systems in our State are important for any future economic growth. Furthermore, as the United States Environmental Protection Agency identified, there is a need to appropriately evaluate and improve water systems and infrastructure. This measure will assist in using available funding resources in an efficient and fiscally responsible manner.

Your Committee requests the Pacific-Asia Institute for Resilience and Sustainability to provide more information about its presence in Hawaii as this measure moves through the legislative process, including information on its ability to accomplish their research and pilot study locally.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 893, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 893, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 445 (Joint) Water and Land and Economic Development and Technology on S.B. No. 1074

The purpose and intent of this measure is to:

- (1) Require the Office of Planning to review and propose updates to the Hawaii State Planning Act and to submit a written report to the Legislature accordingly; and
- (2) Make an appropriation to the Office of Planning for reviewing and proposing the updates.

Your Committees received testimony in support of this measure from the Office of Planning.

Your Committees find that the Hawaii State Planning Act was enacted in 1978 to improve the planning process and guide future development of the State. The Hawaii State Planning Act sets forth the Hawaii State Plan, which articulates goals and policies to guide the development of the State and establishes an integrated planning and implementation system regarding those goals and policies. The last review of the Hawaii State Planning Act was initiated in 1983 and completed in 1985 and resulted in several amendments to the Hawaii State Planning Act. Since then, there have been significant changes in Hawaii's economic, physical, and social conditions; technology; and the global marketplace.

Accordingly, your Committee further finds that a comprehensive review of the Hawaii State Planning Act, chapter 226, Hawaii Revised Statutes, is now warranted.

As affirmed by the records of votes of the members of your Committees on Water and Land and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1074 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

Economic Development and Technology

Ayes, 7. Noes, none. Excused, none.

SCRep. 446 (Joint) Water and Land and Transportation and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1127

The purpose and intent of this measure is to provide alternative civil enforcement options that may be utilized by the Board of Land and Natural Resources (Board) in the processing of natural and cultural resource violation cases.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, The Nature Conservancy, and one individual. Your Committees received testimony in opposition to this measure from the Near Shore Fishermen of Hawaii.

Your Committees find that Hawaii's fragile environment may be improved through improved compliance, enforcement, and prosecution of violations of our state natural resource laws.

Your Committees further find that the Department of Land and Natural Resources is lacking in adequate enforcement powers under current law. Currently, the Board may levy administrative fines and order encroachment removal and damage restoration for violations of natural and cultural resource laws and rules. However, in many cases, the use of these means may not be feasible or optimal. This measure is intended to provide greater flexibility to the Board in taking enforcement actions.

Your Committees further find that in many resource violation cases, it is unfair to continue to allow a party to reap economic benefits from the holding of a license or permit issued by the Department of Land and Natural Resources while delinquent in complying with a law or rule administered by the Department. Oftentimes, the violation is so interrelated to the license or permit, even if not directly related, that a withholding of the license or permit is not only a justifiable but also a responsible action that should be taken by the Board.

Your Committees have amended this measure by:

- (1) Inserting language to authorize the Board to suspend, revoke, or deny any application for a license or permit issued under the authority of the Board or Department of Land and Natural Resources if the Board finds that the licensee, permittee, or applicant has failed to comply with a final order of the Board issued under title 12 or chapter 6D or 6E, Hawaii Revised Statutes, or any rule adopted thereunder, until satisfactory compliance is certified by the Board or its designated agent;
- (2) Clarifying that the Director of Finance of the appropriate county shall deny any application for registration of a motor vehicle if the Director of Finance has received from the Board notification of failure to pay a fine due under a final decision and order by the Board; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Furthermore, your Committees request the Department of the Attorney General to review this measure and provide further amendments as warranted as the measure moves forward this session.

As affirmed by the records of votes of the members of your Committees on Water and Land, Transportation, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1127, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1127, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

Transportation

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Kidani, Kouchi, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 447 (Joint/Majority) Water and Land and Judiciary and Labor on S.B. No. 761

The purpose and intent of this measure is to:

- (1) Require the Board of Land and Natural Resources and an opposing party to mutually agree to resolve disputes regarding the fair market value or fair market rental of public lands through binding mediation or binding arbitration;
- (2) Specify that if either party in a dispute cannot agree on binding mediation or binding arbitration, the dispute shall be determined by binding arbitration; and
- (3) Require the Board and an opposing party, when reopening a rental, to resolve disputes through binding mediation or as provided in the lease.

Your Committees received testimony in support of this measure from the Hawaii Chapter of the Appraisal Institute. Your Committees received testimony in opposition to this measure from the Hawaii Farm Bureau, HPM Building Supply, Hawaii Cattlemen's Council, and four individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that Act 168, Session Laws of Hawaii 2014 (Act 168), has caused some confusion regarding situations where a tenant may prefer to proceed directly to arbitration. Your Committees find that amendments to this measure are necessary to authorize tenants to opt out of mediation and proceed directly to arbitration.

Your Committees have amended this measure by:

- (1) Deleting the proposed amendments to section 171-17, Hawaii Revised Statutes;
- (2) Inserting language to require that in cases of determining the fair market value or fair rental value of public land in sale, lease, or repurchase transactions involving the Board of Land and Natural Resources, the parties shall proceed by mandatory mediation, unless the tenant opts out of mediation and prefers to proceed directly to arbitration;
- (3) Amending the purpose section accordingly;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 761, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 761, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 3. Noes, 1 (Ruderman). Excused, 3 (Galuteria, Ihara, Slom).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 448 Human Services and Housing on S.B. No. 481

The purpose and intent of this measure is to encourage individuals with disabilities to gain employment and improve their employment opportunities through expanding their access to Medicaid by:

- (1) Establishing a Medicaid buy-in program within the Department of Human Services that will be implemented by July 1, 2018;
- (2) Establishing and appropriating funds for a Medicaid buy-in pilot program within the Department of Health that will be implemented by July 1, 2016, and terminated on June 30, 2018; and
- (3) Appropriating funds to the University of Hawaii Center on Disability Studies to prepare and conduct outreach and training relating to the Medicaid buy-in program for workers with disabilities.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association and Ohana Health Plan. Your Committee received comments on this measure from the Department of Human Services and Easter Seals Hawaii.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Removing provisions that established the Medicaid buy-in program and the Medicaid buy-in pilot program as well as the appropriation for the pilot program;
- (2) Removing the appropriation for the University of Hawaii Center on Disability Studies for outreach and training related to the Medicaid buy-in program;
- (3) Inserting language that establishes the working disabled adults eligibility group within the Department of Human Services, for the purpose of supporting employment of individuals with disabilities by expanding their access to Medicaid, and establishing eligibility criteria for the group which will be implemented by July 1, 2015;
- (4) Inserting an appropriation for the working disabled adults eligibility group;
- (5) Making the measure effective upon its approval and the appropriation effective on July 1, 2015; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Health, State Council on Developmental Disabilities, and Lanakila Pacific. Your Committee received comments on the proposed S.D. 1 from the Hawaii Disability Rights Center.

Your Committee finds that current state programs and policies, including state-designed Medicaid waiver programs, create disincentives for persons with disabilities to become employed, maintain employment, or increase their employment income. In 2012, a joint legislative task force was formed to explore the possibility of implementing a Medicaid buy-in program for individuals with disabilities who are not working or would like to earn more income, based upon Hawaii's Medicaid income and asset limits. Your Committee further finds that encouraging individuals to gain employment and improve their employment promotes the idea of having a fulfilling life for individuals with disabilities and also promotes economic development in the State.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 481, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 481, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 449 Human Services and Housing on S.B. No. 922

The purpose and intent of this measure is to ensure that family courts terminate the parental rights of natural parents convicted of rape or sexual assault with respect to children who were conceived as a result of the rape or sexual assault.

Your Committee received testimony in support of this measure from the American Association of University Women Hawaii and four individuals.

Your Committee finds that currently family court is permitted, but not mandated, to terminate the parental rights to a child of a natural parent if the natural parent is convicted of rape or sexual assault and that crime results in the conception of the child. Your Committee further finds that sexual assault victims who have children as a result of the crime perpetrated against them face additional struggles and should not have to face the possibility of their assaulter remaining in their life because the assaulter retained parental rights to the child.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 922 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 450 (Joint) Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology on S.B. No. 746

The purpose and intent of this measure is to:

- (1) Eliminate civil service restrictions on the hiring and employment of the Hawaii Cybersecurity, Economic, Education, and Infrastructure Security Coordinator;
- (2) Authorize the coordinator to hire a secretary, exempt from civil service; and
- (3) Appropriate funds for the coordinator and secretary positions.

Your Committees received testimony in support of this measure from the Hawaii Emergency Management Agency. Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that the economic viability of Hawaii rests upon the State's ability to monitor, detect, and defend its critical infrastructure from cyber attacks. The quantity and sophistication of cyber events, as well as the variety of attacks, will continue to evolve and grow exponentially in the years to come. Implementation of this measure will enable the State to assess and synchronize all efforts to develop and prioritize the resources necessary to build the State's cybersecurity.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 746, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 746, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Economic Development and Technology
Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 451 (Joint) Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology on S.B. No. 672

The purpose and intent of this measure is to:

- (1) Authorize the Director of Finance to issue general obligation bonds to the Pacific International Space Center for Exploration Systems to purchase its headquarters and test facility; and
- (2) Appropriate funds to the Pacific International Space Center for Exploration Systems to execute its five strategic initiatives.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and four individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the Pacific International Space Center for Exploration Systems promotes the establishment and growth of new sustainable and green industries, associated jobs, workforce development, internships, and science, technology, engineering, and mathematics education programs. Furthermore, the Pacific International Space Center for Exploration Systems has demonstrated significant progress toward advancing planetary surface systems technologies and the State's leadership in aerospace through five strategic initiatives. Implementation of this measure will advance the State's leadership in aerospace and foster the development of technologies to expand and diversify the State's economic and workforce development opportunities.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 672 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Economic Development and Technology
Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 452 (Joint) Public Safety, Intergovernmental and Military Affairs and Higher Education and the Arts on S.B. No. 661

The purpose and intent of this measure is to:

- (1) Establish the Hawaii unmanned aerial systems test site Chief Operating Officer position to, among other things, serve on the Pan-Pacific Unmanned Aerial Systems Test Range Complex management team;
- (2) Establish an advisory board to oversee and manage unmanned aerial systems test site operations; and
- (3) Appropriate funds to staff and operate Hawaii's unmanned aerial systems test site activities.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; University of Hawaii System; Hawaii Emergency Management Agency; Hawaii Aerospace Advisory Commission; and two individuals.

Your Committees find that there is a national need to safely integrate unmanned aerial systems into the national air space. The integration of unmanned aerial systems flights into the national air space will generate a technological asset that is estimated to be worth more than \$13,600,000,000 during the first three years of integration and more than \$82,000,000,000 during the next ten years, and create approximately 103,776 new jobs by 2025.

Your Committees further find that Hawaii offers many unique qualities to support unmanned aerial systems operations including expansive over-water areas unencumbered by other aviation uses; proximity to the United States Pacific Command, which is projected to be a significant user of future unmanned aerial systems; and opportunities for long-range point-to-point tests with partner ranges in Alaska and Oregon.

Your Committees further find that there are many existing and potential civilian uses of unmanned aerial systems, including emergency search and rescue operations; wildfire detection and management; agricultural management; tsunami damage surveys and assessment; air quality monitoring; and disaster management and damage assessment.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 661, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 661, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Higher Education and the Arts
Ayes, 4. Noes, none. Excused, 3 (Kidani, Wakai, Slom).

SCRep. 453 (Joint) Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology on S.B. No. 628

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds for the plans, design, and construction of facilities for the state information technology and cyber security operations, Sheriff Division, Honolulu Fire Department, and Honolulu Police Department as part of the central Oahu First Responders Technology Campus and Cyber Security Command Center.

Your Committees received testimony in support of this measure from the Department of Public Safety.

Your Committees find that the First Responders Technology Campus and Cyber Security Command Center will centralize first responders and state information technology and cyber security facilities in a central location that is less prone to natural disasters to enable the sharing of resources and support services. Implementation of this measure will expedite the exchange of critical information among first responders and increase public safety.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 628 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Economic Development and Technology
Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 454 (Joint) Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology on S.B. No. 257

The purpose and intent of this measure is to amend the definition of “eligible business activity” relating to enterprise zones to include research and development activities occurring at an aerospace facility.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that the Department of Business, Economic Development, and Tourism’s enterprise zone program encourages the development of long-term, full-time jobs for residents in the State’s economically disadvantaged areas. Implementation of this measure will advance the State’s aerospace industry and create additional skilled jobs for residents.

Your Committees have amended this measure by clarifying the definition of “aerospace facility”.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 257, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 257, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Economic Development and Technology
Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 455 (Joint/Majority) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 550

The purpose and intent of this measure is to prohibit the possession or consumption of tobacco products, including electronic smoking devices, by persons under eighteen in public places.

Your Committees received testimony in support of this measure from the Honolulu Police Department, Hawaii Community Pharmacy Association, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Health, Hawaii Youth Services Network, American Civil Liberties Union of Hawai'i, American Heart Association, Coalition for a Tobacco-Free Hawai'i, VOLCANO Fine Electronic Cigarettes, and four individuals.

Your Committees find that smoking and tobacco use remain the leading cause of preventable illness and death in Hawaii. Each year, smoking and tobacco use cause over 1,200 deaths and result in over \$526,000,000 in economic losses in the State. Nationally, the tobacco industry spends over \$8,500,000,000 annually on advertising and promotions — \$27,000,000 of which is spent in Hawaii. The tobacco industry continues to market their products with images and messages that strongly resonate among children and is aggressively increasing electronic smoking device advertising to youth.

Your Committees further find that this measure prohibits the possession or consumption of tobacco products, including electronic smoking devices, by minors in public places. Prohibiting minors' access to tobacco products will prevent early addictions to tobacco products and the health consequences of tobacco use.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 550, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 550, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Public Safety, Intergovernmental and Military Affairs
Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 456 Commerce and Consumer Protection on S.B. No. 589

The purpose and intent of this measure is to require the renewal of property insurance but permit insurers to deny renewal for nonpayment of an undisputed premium by a policyholder.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the June 27, 2014, lava flow from the Kilauea volcano has had a significant impact on residents and businesses in the Puna district of Hawaii Island. Part of this impact is due to the imposition of a moratorium on the sale of new insurance policies in certain areas of the Puna district. This moratorium has made it difficult for homeowners wishing to sell their homes to obtain continued insurance coverage and has caused difficulties for interested buyers who wish to purchase insured property. The moratorium has also affected communities in the Puna district not directly threatened by the lava flow. This measure attempts to address these concerns by requiring the renewal of property insurance, with certain exceptions.

However, your Committee has heard testimony that this measure, as written, applies to all property insurers. Your Committee understands that this requirement may discourage certain insurers from writing property insurance or may affect property insurance throughout the State. Amendments to this measure are therefore necessary to address the issues faced by homeowners in areas threatened by a lava flow.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required every insurer who issues a policy for property insurance to provide for the renewal of property insurance, with specific exceptions;
- (2) Inserting a definition of "lava zone";
- (3) Specifying the total number of property insurance policies that an insurer may non-renew in a lava zone during a state of emergency due to lava flow in that lava zone, with specific exceptions;
- (4) Specifying that if residential property insurance is unavailable due to a moratorium on insurance policies in a lava zone during a state of emergency due to lava flow, the Hawaii Property Insurance Association shall remove its moratorium and permitting the association to issue new policies and provide a six-month waiting period for the policy coverage to take effect after the moratorium is removed;

- (5) Inserting a purpose section; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure is the result of an agreement with interested stakeholders. Your Committee also notes that once this measure is enacted, the Hawaii Property Insurance Association will lift the moratorium currently in place for the Puna district on Hawaii Island.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 589, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 589, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Slom).

SCRep. 457 Commerce and Consumer Protection on S.B. No. 1217

The purpose and intent of this measure is to align state law with the requirements of section 2706 of the federal Public Health Service Act by prohibiting insurers from discriminating against any health care provider who is acting within the scope of that provider's license or certification.

Your Committee received testimony in support of this measure from the Hawaii Society of Naturopathic Physicians; American Chiropractic Association; American Association of Nurse Practitioners; Hui Hun Health, LLC; and nine individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii Medical Service Association.

Your Committee finds that section 2706 of the federal Public Health Service Act, as added by section 1201 of the federal Patient Protection and Affordable Care Act of 2010, prohibits insurers from discriminating against any health care provider who is acting within the scope of that provider's license or certification. According to testimony received by your Committee, health plans and insurance companies in Hawaii have limited the types of health care providers permitted to provide services to their members by excluding certain non-medical doctor licensed providers. In particular, naturopathic physicians are often excluded from insurance contracts in Hawaii, which forces patients who choose a naturopathic physician as their primary care provider to pay out of pocket for their primary care needs.

Your Committee concludes that clarity within the State's insurance code is needed to ensure that naturopathic physicians are compensated appropriately, similar to other licensed providers and without discrimination, per the requirements of section 2706 of the federal Public Health Service Act.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have prohibited insurers from discriminating against any health care provider acting within the scope of that provider's license or certification, with specific exceptions;
- (2) Clarifying that insurers who provide health care coverage are required to provide coverage for medically necessary health care services covered by a health insurance policy when provided by a licensed naturopathic physician acting within that naturopathic physician's scope of practice;
- (3) Specifying that health care services provided by naturopathic physicians may be subject to certain limitations;
- (4) Specifying that limitations shall not function to direct treatment in a manner that unfairly discriminates against the practice of naturopathic medicine;
- (5) Permitting insurers to require naturopathic physician services to be provided by a naturopathic physician under contract or covered in a manner consistent with out-of-network provider reimbursement practices;
- (6) Updating the purpose section accordingly;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1217, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1217, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 458 Higher Education and the Arts on S.B. No. 326

The purpose and intent of this measure is to fund the Office of Student Equity, Excellence, and Diversity at the University of Hawaii at Manoa to fund faculty, graduate student assistant, and student employee positions to conduct and disseminate research relating to Asian American and Pacific Islander students in higher education, and to provide direct services to undergraduate and graduate students interested in diversity careers in student affairs and higher education.

Your Committee received testimony in support of this measure from the University of Hawaii System, University of Hawaii at Manoa, Ilocos Surian Association of Hawaii, Filipino American Citizens League, Nursing Advocates & Mentors Inc., National Federation of Filipino American Associations Region 12, and twelve individuals.

Your Committee finds that there is a need for research to address the underrepresentation of Asian Americans and Pacific Islanders in higher education institutions. To address this underrepresentation, sufficient funding is necessary to fund faculty, graduate assistant, and student employee positions to conduct and disseminate research relating to Asian American and Pacific Islander students in higher education, and to provide direct services to undergraduate and graduate students interested in diversity careers relating to student affairs and higher education.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 326 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 459 (Joint) Higher Education and the Arts and Judiciary and Labor on S.B. No. 397

The purpose and intent of this measure is to appropriate funds to the University of Hawaii for positions and materials to comply with Title IX of the Education Amendments of 1972 and the Violence Against Women Reauthorization Act of 2013.

Your Committees received testimony in support of this measure from the University of Hawaii System; Hawaii Women's Coalition; Planned Parenthood of Hawaii; and six individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that ending sexual violence on college campuses will need comprehensive and sustained efforts to provide awareness and prevention education and training to change attitudes and behaviors of students, faculty, and staff. Also required are effective response, intervention, investigation, and access to justice when sexual violence offenses occur. This measure seeks to provide resources to the University of Hawaii to ensure compliance with federal mandates to address sexual violence on campus.

Your Committees further find that more discussion on the allocation of funds is necessary to assure ongoing support is provided to university students and for higher education programs providing sexual violence prevention education.

Your Committees have amended this measure by:

- (1) Deleting the specific dollar amount of the appropriation to the University of Hawaii;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 397, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 397, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 460 (Joint) Public Safety, Intergovernmental and Military Affairs and Education on S.B. No. 181

The purpose and intent of this measure is to authorize the Department of Education to continue, until June 30, 2020, awarding high school diplomas to qualified veterans who did not receive a high school diploma as a result of compulsory induction into active service in the Armed Services of the United States or to any person whose high school education was interrupted due to wartime practices such as internment during World War II.

Your Committees received testimony in support of this measure from the State Office of Veterans Services, Department of Education, Hawaii State Teachers Association, and Veterans Advisory Board.

Your Committees find that individuals often had to defer their educational goals as a result of compulsory induction into active service in the Armed Services of the United States or due to wartime practices such as internment during World War II. Implementation of this measure recognizes veterans for their commendable service and sacrifices to our country.

Your Committees have amended this measure by:

- (1) Inserting a purpose section to clarify that the measure authorizes the Department of Education to also continue awarding high school diplomas to any person whose high school education was interrupted due to wartime practices such as internment during World War II; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 181, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 181, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Education
Ayes, 7. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 461 Judiciary and Labor on S.B. No. 1361

The purpose and intent of this measure is to require position ceilings to be included in the executive budget and related documents.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of Education, Department of Human Resources Development, and University of Hawaii System.

Your Committee finds that this measure would require the inclusion of position ceiling information in various budget documents and prohibit the expenditure of funds for filling positions in excess of those ceilings. Your Committee notes testimony expressing concern that this measure may have the unintended effect of limiting a program's ability to apply for and accept federal funding as such funding may require the authorization for funded positions while the Legislature is out of session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1361, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 462 Judiciary and Labor on S.B. No. 1324

The purpose and intent of this measure is to provide statutory authority for the Employees' Retirement System to make direct payment of benefits to a former spouse of a member upon the issuance of a court order.

Your Committee received testimony in support of this measure from the Commission on the Status of Women; Kleintop, Luria, and Medeiros; and two individuals. Your Committee received testimony in opposition to this measure from the Employees' Retirement System.

Your Committee finds that direct payments of retirement benefits to a former spouse will provide fairness in the enforcement of the property division in a divorce ordered by a court. Your Committee notes that several other states have already adopted similar laws.

Your Committee has amended this measure by:

- (1) Amending its purpose section;
- (2) Deleting sections 2 through 6;
- (3) Adding a new section to chapter 88, Hawaii Revised Statutes, that, among other things:
 - (A) Specifies the conditions upon which the court may issue an order to award a former spouse a portion of retirement benefits;
 - (B) Includes safeguards for the Employees' Retirement System;
 - (C) Specifies when payments commence and terminate;
 - (D) Stipulates what court orders will not bind the Employees' Retirement System; and
 - (E) Addresses certain scenarios regarding inadvertent payments to a party;
- (4) Allowing the Employees' Retirement System to adopt a schedule of fees and charges;
- (5) Adding a blank appropriation for its implementation;
- (6) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1324, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 463 (Majority) Judiciary and Labor on S.B. No. 1076

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (14) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (14) and its excluded counterparts. Your Committee believes that it is more appropriate for your Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1076, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 464 Judiciary and Labor on S.B. No. 760

The purpose and intent of this measure is to establish a misdemeanor for knowingly and fraudulently representing oneself as the owner or trainer of a service dog.

Your Committee received testimony in support of this measure from the Community Associations Institute, Associa Hawaii, Hawaii Fi-Do Service Dogs, and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Civil Rights Commission. Your Committee received comments on this measure from the Department of the Attorney General; Disability and Communication Access Board, Department of Health; Hawaii Disability Rights Center; Pacific Pet Alliance; and one individual.

Your Committee finds that the abuse of privileges and allowances intended only for the benefit of persons with disabilities to use trained service dogs has become apparent and pervasive in many contexts. The result of this situation is that public health may be compromised, and legitimate, trained service dogs may experience unnecessary distraction while persons with disabilities may experience unnecessary inconvenience and distress.

Your Committee notes that this measure is limited to the context of service dogs as defined in section 347-2.5, Hawaii Revised Statutes (HRS), and does not explicitly extend to so-called "emotional support animals" or other assistance animals that may serve lawful purposes in certain contexts, for example under the federal Fair Housing Act. It is not the intention of your Committee that this measure be construed in any way to abridge the rights of any person under any existing federal or state law. However, your Committee further notes that section 11-50-74(o)(1), Hawaii Administrative Rules, does generally prohibit any live animals other than service animals (as similarly defined in section 347-2.5, HRS) in food establishments.

Your Committee acknowledges the concerns raised in written testimony that enforcement of this measure may be difficult. Nonetheless, your Committee notes that a similar statutory prohibition in California was upheld in federal court. Accordingly, similar to the situation in which persons who willfully misuse disability parking privileges are subject to punishment, this measure establishes a statutory means to deter pervasive detrimental misrepresentations.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "owner" to mean any person who owns an alleged service dog or who is authorized by the dog's owner to use the dog;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 760, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 760, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 465 (Majority) Judiciary and Labor on S.B. No. 461

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (4) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2015 Regular Session. Your Committee believes that it is more appropriate for your Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 461, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 466 (Majority) Judiciary and Labor on S.B. No. 460

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (2) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (2) and its excluded counterparts. Your Committee believes that it is more appropriate for your Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 460, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 460, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 467 (Majority) Judiciary and Labor on S.B. No. 459

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (3) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that this measure provides a necessary vehicle for the funding of the collective bargained terms reached with regard to collective bargaining unit (3) and its excluded counterparts. Your Committee believes that it is more appropriate for your Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 459, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 459, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 468 (Majority) Judiciary and Labor on S.B. No. 458

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2015-2017.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (8) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2015 Regular Session. Your Committee believes that it is more appropriate for your Committee on Ways and Means to determine the amounts of funding to be included in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 458, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 458, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 469 Judiciary and Labor on S.B. No. 1089

The purpose and intent of this measure is to:

- (1) Amend section 78-25, Hawaii Revised Statutes, to require employees receiving workers' compensation benefits to deduct retirement contributions from benefits received; and
- (2) Provide for actuarially neutral cost for the acquisition by members of the Employees' Retirement System of membership service credit for previous service and for previous military service and to establish deadlines for:
 - (A) New members of the Contributory and Hybrid plans of the Employees' Retirement System to claim membership services credit for previous service and for previous military service; and
 - (B) Members to initiate payment for previous service, previous military service, and unpaid leave.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and the Employees' Retirement System.

Your Committee finds that this Administration-sponsored measure helps to reduce the Employees' Retirement System's unfunded actuarial accrued liability; however, your Committee expresses concern over the potential negative impact this measure may have on the rehabilitative efforts of the workers' compensation system.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1089, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1089, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 470 Judiciary and Labor on S.B. No. 1088

The purpose and intent of this measure is to change the formula used to credit unused sick leave toward retirement benefits for certain employees.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Employees' Retirement System. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association and Hawaii Fire Fighters Association.

Your Committee finds that this measure addresses a situation where certain employees, upon retirement, receive additional benefits due to the additional service credit without making additional contributions. Your Committee notes the concerns raised in testimony over creating a tiered system of benefits for employees within the Employees' Retirement System. It has been asserted that this measure has the potential of creating a system under which employees holding equivalent positions and performing equivalent duties could nevertheless receive different benefits based solely on their date of hire.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059 to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1088, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1088, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 471 Judiciary and Labor on S.B. No. 1087

The purpose and intent of this measure is to:

- (1) Extend the deadline for former employees not eligible for retirement benefits from the Employees' Retirement System to take a refund of their accumulated contributions; and
- (2) Make the calculation of the lump sum death benefit for survivors of former members of the Employees' Retirement System hybrid plan consistent with the lump sum payable to a former hybrid plan member who elects not to take a retirement benefit.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that this measure provides for equity between various classes of persons claiming benefits from the Employees' Retirement System.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1087, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 472 Judiciary and Labor on S.B. No. 996

The purpose and intent of this measure is to appropriate \$60,000 for each of fiscal years 2015-2016 and 2016-2017 to the State Ethics Commission to design and develop a system that allows filers to electronically file required statements and reports with the Commission.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and one individual.

Your Committee finds that this measure will enable the State Ethics Commission to allow filers to electronically file their required statements and reports by appropriating funds for a new electronic filing system. Your Committee urges the State Ethics Commission to ensure that any new electronic filing system procured by the Commission complies with the federal Americans with Disabilities Act.

Your Committee has amended this measure by:

- (1) Replacing the specified sum of \$60,000 with a blank amount; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 996, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 996, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 473 Judiciary and Labor on S.B. No. 163

The purpose and intent of this measure is to:

- (1) Provide the Chair of the State Public Charter School Commission with a vote for collective bargaining for units (5) and (6); and
- (2) Establish that for collective bargaining for unit (9), there shall be three votes for the Governor, two for the Hawaii Health Systems Corporation Board, and one for each mayor.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining and Hawaii Government Employees Association. Your Committee received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and Public Charter School Commission.

Your Committee finds that this measure would allow the public charter schools a vote on collective bargaining matters involving their employees within units (5) and (6). With regard to collective bargaining unit (9), your Committee finds that the Judiciary should have a vote, as employees of the Judiciary are included in that unit.

Your Committee has amended this measure by:

- (1) Providing the public charter schools with a vote on negotiations regarding collective bargaining units (5) and (6) and requiring the representative of the public charter schools to be selected by the Public Charter School Commission;
- (2) Removing the allocation of votes to the mayors for bargaining unit (9) and instead allocating one vote to the Chief Justice; and
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 163, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 474 Judiciary and Labor on S.B. No. 1219

The purpose and intent of this measure is to allow the Department of Labor and Industrial Relations to establish criteria for independent contractor status.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Maui; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawaii Island Chamber of Commerce; Envisions Entertainment & Productions, Inc.; Whalers Realty Management Company Inc.; Star Gaze Hawaii; Feed My Sheep; Wailea Golf LLC; Kika, Inc.; Melanie Turner

Landscape Maintenance LLC; Maui Closet Company; The Wright Company, LLC; National Federation of Independent Businesses; Human Resource Management – Hawaii Chapter; Ulupono Enterprises; and twenty-one individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations, ILWU Local 142, and three individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that this measure allows the Department of Labor and Industrial Relations to establish criteria for an independent contractor. This measure also requires the Department of Labor and Industrial Relations to certify independent contractors.

Your Committee has amended this measure by:

- (1) Deleting its purpose section;
- (2) Deleting the requirement of registering with the Department of Commerce and Consumers Affairs to be assumed an independent contractor;
- (3) Clarifying one of the conditions for presumption of independent contractor status by requiring an individual to have entered into a formalized agreement of limited duration with a customer;
- (4) Incorporating by reference the Internal Revenue Service's three-prong test for non-employment;
- (5) Creating an optional process for application to the Department of Labor and Industrial Relations for certification as an independent contractor;
- (6) Clarifying that the burden is on an independent contractor to prove an employer-employee relationship exists in order to claim unemployment insurance;
- (7) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1219, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1219, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 475 Judiciary and Labor on S.B. No. 1194

The purpose and intent of this measure is to:

- (1) Require all lobbyist disclosure statements to be electronically transmitted to the State Ethics Commission;
- (2) Require the State Ethics Commission to post and make available all lobbyist disclosure statements on the Commission's website;
- (3) Require that the lobbyist disclosure statements on the State Ethics Commission website be text searchable and the information on each statement be available for download in a spreadsheet format; and
- (4) Clarify that lobbyist disclosure statements on the State Ethics Commission website are government records.

Your Committee received testimony in support of this measure from Common Cause Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that this measure facilitates the text search of and access to lobbyist disclosure statements by requiring these statements to be transmitted electronically to the State Ethics Commission and providing a searchable format of these statements.

Your Committee has amended this measure by:

- (1) Reinstating language stating that lobbyist disclosure statements are public, rather than government, records;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1194, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 476 (Majority) Judiciary and Labor on S.B. No. 1122

The purpose and intent of this measure is to increase the amount of guaranteed monthly compensation required for an employee to be exempt from minimum wage, overtime, and record keeping requirements.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii and Hawaii Food Industry Association.

Your Committee finds that this is a housekeeping measure that corrects the inequity of guaranteed compensation remaining at the same level, while the minimum wage increases as scheduled over the next three years.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 477 Judiciary and Labor on S.B. No. 1090

The purpose and intent of this measure is to require the State and counties to provide the Employees' Retirement System with payroll and personnel transaction records in a format required by the System and require certain payments from State and county agencies that fail to do so.

Your Committee received testimony in support of this measure from the Employees' Retirement System. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that this measure strengthens the authority of the Employees' Retirement System to obtain accurate payroll and personnel transaction records.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1090, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1090, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 478 (Joint) Tourism and International Affairs and Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 201

The purpose and intent of this measure is to:

- (1) Clarify that a single family dwelling used as a vacation rental is a transient accommodation subject to all applicable laws;
- (2) Require the Department of Taxation to manage a public database of all registered transient accommodation operators and resort time share vacation plan managers;
- (3) Make failure to register as a business furnishing transient accommodations a class C felony, rather than a misdemeanor; and
- (4) Require filers of transient accommodations tax returns to include the amount of transient accommodations tax revenues collected by zip code for each periodic tax return filed and the certificate of registration number on annual tax returns.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; North Shore Neighbors; Maui Hotel & Lodging Association; Hawaii Appleseed Center for Law and Economic Justice; and seven individuals. Your Committees received testimony in opposition to this measure from the Hawaii Tourism Authority; Rental By Owner Awareness Association; and eighteen individuals. Your Committees received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and three individuals.

Your Committees find that although many operators of transient accommodations are in compliance with applicable state and county laws, there are a sizeable number of operators, especially those operating single family homes as vacation rentals, who are not. Failure to comply denies the State and counties of the transient accommodations taxes and general excises taxes they are due, while also burdening residential communities with increased traffic, unknown individuals, and potential nuisances.

Your Committees further find that it is necessary for persons who furnish a single family dwelling as a transient accommodation to fully understand that that they are subject to the transient accommodations tax, general excises tax, registration with the Department of Taxation, and all applicable laws requiring an on-island contact and inclusion of the registration number on any advertising, including on the Internet.

Your Committees have amended this measure by:

- (1) Deleting section 2, which requires the Department of Taxation to create and manage an online database of all registered operators and plan managers and increases the penalty for failure to register a business furnishing a transient accommodation from a misdemeanor to a class C felony;
- (2) Deleting sections 3 and 4, which require filers of transient accommodations tax returns to include the amount of transient accommodations tax revenues collected by zip code for each periodic tax return filed and include the certificate of registration number on annual tax returns; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs, Commerce and Consumer Protection, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 201, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 201, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and International Affairs

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Slom).

Judiciary and Labor

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 479 (Joint) Tourism and International Affairs and Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 519

The purpose and intent of this measure is to require operators of transient accommodations and plan managers of resort time share vacation plans to indicate compliance with registration requirements in advertisements and to increase penalties for operators and plan managers who fail to comply with the law, with escalating penalties for repeat violators.

Your Committees received testimony in support of this measure from the Kailua Neighborhood Board, Maui Hotel & Lodging Association, Hawaii Appleseed Center for Law and Economic Justice, and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Tourism Authority and thirteen individuals. Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and three individuals.

Your Committees find that many residents of Hawaii believe that home-based vacation rentals should be subject to the same transient accommodations tax levied on hotel rooms and time shares. Although many home-based vacation rentals are subject to the same transient accommodations tax levied on hotel rooms and time shares, many operators of transient accommodations and plan managers of resort time share vacation plans have been circumventing the law, creating an unfair advantage over their law-abiding counterparts. In line with public sentiment on this issue, your Committees find that action is necessary to correct this situation.

Your Committees further find that Act 326, Session Laws of Hawaii 2012, accomplishes many of the goals of this measure, specifically requiring registration numbers on all internet advertisements; however, Act 326 is set to be repealed on December 31, 2015. Your Committees also find that the Department of Taxation enforces civil penalties under the Cash Economy Enforcement Act, and similar civil penalties are suited for operators and plan managers who fail to conspicuously post their transient accommodations certificate of registration.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 2, which adds single family dwelling to the definition of “transient accommodations”;
- (2) Deleting language that requires operators and plan managers to conspicuously display the registration number and address on all internet advertisements for that transient accommodation;
- (3) Deleting language that establishes criminal penalties and escalating fines for violation of the registration posting requirement for internet advertisements;
- (4) Inserting language that authorizes the Department of Taxation to issue cease and desist citations to an operator or plan manager who fails to conspicuously post the transient accommodations certificate of registration;
- (5) Amending Act 326, Session Laws of Hawaii 2012, to remove the repeal date and thereby make it permanent;
- (6) Amending the purpose statement; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs, Commerce and Consumer Protection, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 519, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 519, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Tourism and International Affairs

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Slom).

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Slom).

Judiciary and Labor

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 480 Tourism and International Affairs on S.B. No. 1306

The purpose and intent of this measure is to permit a taxpayer who provides transient accommodations on real property leased from a related entity to claim a general excise tax deduction from the amount of gross proceeds or gross income received from its sublease of the real property.

Your Committee received testimony in support of this measure from Host Hotels & Resorts, L.P. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that fairness in taxation is key to good tax policy. As raised in testimony, the parties involved in this measure are best suited to work out potential issues with this measure.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Tourism and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1306, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1306, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 481 (Joint) Water and Land and Agriculture on S.B. No. 511

The purpose and intent of this measure is to provide the Land Use Commission with the authority to amend, modify, or vacate conditions of a boundary amendment and special permit conditions granted pursuant to chapter 205, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Land Use Commission, Office of Planning, and Hawaii Farmers Union. Your Committees received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii.

Your Committees find that the Land Use Commission currently has only the remedy of reversion if there is a violation of a Commission decision and order. Reversion of land back to its original classification is an extreme measure and often not in the best interest of the community. Under a recent Supreme Court decision, even if a developer fails to perform according to conditions imposed and representations made to the Commission in obtaining a district reclassification, reversion may not be immediately available if, by the time the Commission issues an order to show cause, the developer has substantially commenced use of the land in accordance with representations made in seeking the boundary amendment.

Your Committees further find that currently the Land Use Commission must rely on the county planning departments to enforce conditions contained in its orders. This has proven problematic in that counties do not often have the motivation or resources to enforce conditions. Further, many conditions in a Land Use Commission order relate to improvements required by state agencies to affected state facilities, such as highways and schools, which the counties may not have the expertise or knowledge to enforce. The county process does not allow interested parties, either communities who relied upon specific community benefits in supporting a project or state agencies that depend on developer improvements, to contest a failure to enforce a condition. The Commission allows an aggrieved party, including members of the public at large, to bring a request for an order to show cause before the Commission and to have its grievance heard and present evidence to support its claim. This measure would allow the Commission the ability to fairly and beneficially deal with violations as they arise.

Your Committees have amended this measure by:

- (1) Allowing the Land Use Commission to vacate, void, modify, or amend district boundaries without repeating the district boundary amendment procedures;
- (2) Allowing the Land Use Commission to vacate, void, modify, or amend any special permit issued by the Commission without repeating a hearing by a county planning commission; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 511, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 511, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 1 (Ihara).

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Taniguchi, Wakai).

SCRep. 482 Higher Education and the Arts on S.B. No. 324

The purpose and intent of this measure is to appropriate monies from the general fund to provide a grant for the Honolulu Museum of Art to fund an architecturally significant building project that will include studio classrooms, an art education knowledge center, and expanded parking availability.

Your Committee received testimony in support of this measure from the Honolulu Museum of Art; Hawaii Handweavers' Hui; Outrigger Enterprises Group; and sixty-one individuals. Your Committee received comments on this measure from the State Foundation on Culture and the Arts and three individuals.

Your Committee finds that funds from public sources provide less than five percent of the total budget of the Honolulu Museum of Art. This lack of reliance on public funds is due in part to a number of past successful fund-matching agreements entered into between the Museum and private sources.

Your Committee further finds that the Museum is highly regarded statewide for providing patrons with stimulating and diverse exhibits and experiences. The Museum is also highly regarded for operating programs for community members of all ages that relate to art creation and appreciation, ranging from traditional academic-based classes on art theory to hands-on workshops on artistic methods.

Your Committee further finds that the Honolulu Museum of Art School is currently lacking the space within its structures to adequately meet community demand and participation in the Museum programs and classes. The development of an additional art education facility adjacent to the present Honolulu Museum of Art School, housed in the historic Linekona School building adjacent to Thomas Square, would provide classroom, studio, and gallery space, creation of a knowledge center with an art library and expand partnering opportunities with the community and art educators statewide.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 324 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kidani). Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 483 Human Services and Housing on S.B. No. 494

The purpose and intent of this measure is to provide primary caregivers with child visitation rights by:

- (1) Authorizing the family court to award reasonable visitation to a primary caregiver under certain circumstances, regardless of whether the child has been formally adopted by the caregiver;
- (2) Establishing the presumption that a parent's decision regarding visitation is in the best interests of the child, which may be rebutted by evidence that denial would cause harm to the child;
- (3) Identifying factors a court may consider in awarding visitation; and
- (4) Granting the court discretion to place reasonable restrictions on visitation.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from Farrell and Associates; Family Law Section of the Hawaii State Bar Association; Kleintop, Luria and Medeiros; and one individual. Your Committee received comments on this measure from the Department of the Attorney General and the Judiciary.

Your Committee finds that hanai relationships in which caregivers who have no biological relationship with a child undertake duties of a parental nature are very common in Hawaii. Hanai relationships have been acknowledged by the Hawaii Supreme Court as a strong custom in the State. Your Committee further finds that children have the right to maintain strong relationships with caregivers with whom they have created a special, parent-like bond.

Your Committee has received testimony expressing concern that the term "primary caregiver" is vague and undefined, and that this measure is unnecessary because current statute provides the family court with the discretion to award visitation to nonparents interested in the welfare of a child unless it is shown that visitation would be detrimental to the best interests of the child. Your Committee also recognizes the concern expressed about the constitutionality of language in this measure and, accordingly, has amended the measure to include language that follows established case law.

Your Committee has amended this measure by:

- (1) Amending the criteria for reasonable visitation to require that denial of reasonable visitation rights would cause significant harm to the child instead of just harm to the child;
- (2) Establishing clear and convincing evidence as the standard of proof required to rebut the presumption that a parent's decision regarding visitation is in the child's best interests; and
- (3) Amending the requirement for rebuttal of the presumption that a parent's decision regarding visitation is in the child's best interest to require proof that denial of reasonable visitation rights would cause significant harm to the child instead of just harm to the child.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 494, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 484 Human Services and Housing on S.B. No. 492

The purpose and intent of this measure is to provide a means for unaccompanied minors to petition the family court for emancipation.

Your Committee received testimony in support of this measure from Farrell and Associates; Hawaii Youth Services Network; and Kleintop, Luria, and Medeiros. Your Committee received testimony in opposition to this measure from the Department of Human Services. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that while emancipation of a minor should not be used as a method to resolve intrafamilial disputes, unemancipated and independent youth face significant challenges due to a complex legal status that maintains their dependency on adults for privilege and access to resources. Your Committee further finds that emancipation of a minor should be a very case-specific determination that involves the minor, the minor's parents or legal guardians, the courts, and state support services to ensure that the minor is capable of taking on all of the responsibilities of adult living.

Your Committee has amended this measure by:

- (1) Deleting the word “unaccompanied” from the section title so that the new statutory section applies to all youth;
- (2) Making the appointment of a guardian ad litem mandatory instead of discretionary for youth seeking emancipation;
- (3) Inserting a provision that gives the court discretionary authority to order a youth seeking emancipation to receive a mental health evaluation;
- (4) Deleting language that requires the State to pay for client-directed counsel to represent a minor throughout emancipation proceedings;
- (5) Amending the notice requirement to mandate service of the petition and notice of hearing to the minor’s parents or legal guardians and require the court appointed counsel to assist the minor in locating the parents or legal guardians;
- (6) Establishing clear and convincing evidence as the standard of proof required for a court to declare a minor emancipated;
- (7) Inserting a provision that allows the court to declare a minor emancipated if the court finds that a minor’s parents are unable or unwilling to provide basic material support to the minor in the form of food, shelter, clothing, and medical care, or the parents have deserted or abandoned the minor;
- (8) Inserting language to establish that a minor emancipated by court order is considered emancipated for the purposes of making a will and other estate planning documents, including trust documents, durable power of attorney, and an advance health care directive;
- (9) Deleting the provision that obligates parents jointly and severally to support their minor child once the minor has been emancipated by court order;
- (10) Inserting a provision that authorizes the court to require parents or legal guardians to pay for court ordered services for the minor, including service of the petition, the guardian ad litem, counsel, and mental health providers;
- (11) Deleting the definition of “emancipated youth” to prevent confusion;
- (12) Including the term “youth” with the defined term “minor” to clarify that the terms are used interchangeably in the new statutory section; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 492, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 492, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 485 (Joint) Education and Energy and Environment on S.B. No. 258

The purpose and intent of this measure is to:

- (1) Require the Department of Education and Department of Accounting and General Services, in consultation with the Hawaii State Energy Office of the Department of Business, Economic Development, and Tourism and the Hawaii Natural Energy Institute of the University of Hawaii, to conduct a comprehensive study and develop a master strategy for the cooling of all public schools;
- (2) Require the findings of the study to be reported to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016;
- (3) Appropriate funds to complete the comprehensive study and develop the master strategy for cooling all public schools; and
- (4) Authorize the issuance of general obligation bonds and appropriate funds for projects that demonstrate efficient methods of cooling classrooms.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, IMUAlliance, and eighty-three individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism and Department of Accounting and General Services.

Your Committees find that students learn best in a comfortable environment. Many of Hawaii’s public schools are not equipped with air conditioning. Some schools experience extreme classroom temperatures on a regular basis. Students and teachers report that the heat is a distraction and an obstacle to learning.

Your Committees further find that the costs of installing, maintaining, and supplying electricity for air conditioning in all public schools are very high. Therefore, planning and creative solutions are necessary to ensure that each facility’s unique circumstances are accommodated. It is important that the comprehensive study considers all factors that contribute to classroom temperatures including but not limited to, landscaping, painting, and architectural features. Various forms of heat abatement should be incorporated into the master strategy for cooling all public school facilities.

Your Committees have amended this measure by:

- (1) Removing all references to the Department of Accounting and General Services;

- (2) Clarifying that the study shall look at applicable electrical and environmental standards governing the use of equipment to facilitate ideal room temperatures and other factors relevant to the Legislature's consideration of the Department of Education's proposals for funding the master strategy for cooling all public school facilities;
- (3) Adding language permitting the comprehensive study to be conducted in coordination with other infrastructure studies to avoid duplication and ensure that plans for cooling are made in conjunction with plans for energy-efficiency projects, deferred maintenance, and facilities upgrades;
- (4) Clarifying that the issuance of general obligation bonds is for the purpose of funding projects that demonstrate efficient methods of cooling classrooms rather than only for air conditioning; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 258, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 258, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Keith-Agaran, Thielen, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 486 (Joint) Education and Agriculture on S.B. No. 1303

The purpose and intent of this measure is to appropriate funds for new positions within the Department of Education, Agribusiness Development Corporation, and College of Tropical Agriculture and Human Resources at the University of Hawaii at Manoa.

Your Committees received testimony in support of this measure from the University of Hawaii System, Agribusiness Development Corporation, Hawaii Farm Bureau, and two individuals.

Your Committees find that investment in education and agriculture are essential to meet Hawaii's sustainability and higher education goals. Investment within the Department of Education, College of Tropical Agriculture and Human Resources, and Agribusiness Development Corporation represent an investment in a range of education and outreach programs that may lead to improved and expanded agricultural practices in Hawaii.

Your Committees further find that this measure supplements the efforts of S.B. 376, Regular Session 2015, to establish and implement a farm to school program that supports school gardens, health and nutrition education, agriculture, and the procurement of locally grown foods for school meals and snacks.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1303 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education

Ayes, 7. Noes, none. Excused, 2 (Keith-Agaran, Slom).

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Wakai, Slom).

SCRep. 487 Education on S.B. No. 1196

The purpose and intent of this measure is to appropriate funds for the establishment and maintenance of a bookmobile to serve the rural areas of the island of Hawaii.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that there are rural communities on the island of Hawaii where the availability of educational resources is limited. Bookmobiles serve as a vehicle for outreach services provided by the library beyond the walls of the library. With proper funding for maintenance, staff, and materials, bookmobiles are an effective way to provide library patrons access to resources otherwise denied to them due to their geographic isolation or limited financial means.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Keith-Agaran, Slom).

SCRep. 488 Education on S.B. No. 844

The purpose and intent of this measure is to establish the Executive Office on Early Learning Pre-kindergarten Program to provide high-quality early childhood education to the children of Hawaii.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Special Education Advisory Council, Hawaii State Teachers Association, Aloha United Way, Hui for Excellence in Education, Community Children's Council of Hawaii, PHOCUSED, Hawaii State AFL-CIO, Hookakoo Corporation, League of Women Voters of Hawaii, Chamber of Commerce Hawaii, Good Beginnings Alliance, Kamehameha Schools, and eight individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Education, Department of Human Services, and two individuals.

Your Committee finds that high-quality early childhood education prepares children for success in school and in life. The high cost of preschool education in Hawaii is a substantial hurdle for many families. A state-funded pre-kindergarten program would provide families better access to early childhood education.

Your Committee further finds that state funded pre-kindergarten programs will provide early interventions that may prevent the need for a child to receive remediation or more expensive and intensive special education or behavioral services in the future. Some studies have shown that investment in early childhood education yields future savings through reduced incarceration rates and reduced demand for welfare assistance and other social services.

Your Committee has amended this measure by:

- (1) Clarifying that the Executive Office on Early Learning Pre-kindergarten Program shall be provided through the Executive Office on Early Learning which may partner with the Department of Education;
- (2) Changing the definition of "underserved children" to children who have no access to, or are not qualified to attend, other early education programs and whose family income is no more than two hundred fifty percent of the federal poverty level;
- (3) Adding language to permit the Department of Education to grant a geographic exception, allowing a child to attend a pre-kindergarten in another service area as the Department of Education deems appropriate; provided that such a request shall be granted if the request is based on the employment location of the parent or guardian of the student;
- (4) Adding an appropriation to the Department of Education to establish the Executive Office on Early Learning Pre-kindergarten Program, and specifying that the appropriation be in addition to any appropriations made in the Appropriations Act of 2015;
- (5) Making the measure effective on July 1, 2015, rather than upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 844, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Keith-Agaran, Thielen, Slom).

SCRep. 489 (Joint) Judiciary and Labor and Health on S.B. No. 803

The purpose and intent of this measure is to require the workers' compensation examination pursuant to section 386-80, Hawaii Revised Statutes, to be conducted by an impartial physician in the appropriate specialty area.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, ILWU Local 142, Work Injury Medical Association of Hawaii, and five individuals. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Human Resources; Hawaiian Electric Company, Inc.; and Property Casualty Insurers.

Testimony was received expressing a concern that currently, an examination may be done by a physician that does not have expertise in the area of a worker's injury. Your Committees believe that the Department of Labor and Industrial Relations should implement the program and that the program should require that the examination be done by a physician with special expertise for the injury being examined. Your Committees note that the Department of Labor and Industrial Relations testified that this program has never been implemented due to a lack of funding. Upon questioning, the Department of Labor and Industrial Relations estimated that \$25,000 would be sufficient for it to begin the implementation of impartial examinations pursuant to section 386-80, Hawaii Revised Statutes.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 803, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 803, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.

Judiciary and Labor

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Gabbard, Ihara, Thielen).

Health

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Gabbard, Riviere, Wakai).

SCRep. 490 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 1172

The purpose and intent of this measure is to:

- (1) Establish an energy storage tax credit for energy storage properties that primarily supply utility customers with electricity for site-specific needs or serve the entire electric system; provided that the energy storage properties are advanced, grid-interactive systems capable of and actively participating in utility demand response programs, providing ancillary services, and serving as a resource to the electric system;
- (2) Require a taxpayer to obtain certification from the Department of Business, Economic Development, and Tourism to qualify for the energy storage tax credit; and
- (3) Require the Department of Business, Economic Development, and Tourism to conduct a study pertaining to the energy storage tax credit and submit a joint report, in collaboration with the Department of Taxation, to the Legislature.

Your Committees received testimony in support of this measure from the Hawaii Renewable Energy Alliance; Hawaii Solar Energy Association; Ulupono Initiative; Blue Planet Foundation; Environmental Caucus of the Democratic Party of Hawaii; Stem, Inc.; Hawaiian Electric Companies; and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Department of Commerce and Consumer Affairs Division of Consumer Advocacy; and Tax Foundation of Hawaii.

Your Committees find that excess energy generated from renewable resources is often wasted and as a result, the State continues to rely upon fossil fuels. Energy storage is a key component of a modern, smart electrical grid and can help to maximize the use of indigenous renewable energy. Implementation of this measure will foster a sustainable local renewable energy industry responsible for creating jobs, catalyzing statewide energy savings, improving our environment, and reducing greenhouse gas emissions.

Your Committees have amended this measure by:

- (1) Amending the deadline by which an energy storage property must be installed and first placed in service for a taxpayer to be eligible for an energy storage tax credit from after December 31, 2015, to anytime in 2015;
- (2) Amending the deadline by which an energy storage property must first be placed in service for a taxpayer to be eligible for a thirty percent tax credit from after December 31, 2015, to anytime in 2015;
- (3) Eliminating the tax credit for battery storage projects providing significant energy storage capacity;
- (4) Eliminating the requirement that a taxpayer provide written evidence that the energy storage project continues to directly support the ability of the electric system to accept and use renewable energy and the requirement that the Department of Business, Economic Development, and Tourism rescind the certification of a taxpayer who fails to provide such written evidence;
- (5) Inserting language to provide electric utilities with flexibility pertaining to the timing and amount of stored energy that is used for demand response, ancillary services, advanced energy storage, and grid supportive functions in order to maintain grid reliability;
- (6) Inserting a defective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1172, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1172, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Ihara).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Kahele, Kidani, Nishihara).

SCRep. 491 (Joint) Energy and Environment and Economic Development and Technology on S.B. No. 706

The purpose and intent of this measure is to:

- (1) Authorize the Director of Finance to issue general obligation bonds for the development of an electrolysis process hydrogen production, storage, and dispensing facility; and
- (2) Appropriate funds for the operation of the facility.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Strategic Development Corporation; Hawaii Energy Policy Forum; Hawaii Automobile Dealers Association; and Servco Pacific Inc.

Your Committees find that hydrogen fuel cell vehicles provide zero vehicle emissions and require very little compromise or lifestyle change. Increasing the use of hydrogen fuel for transportation will reduce the State's importation of fossil fuels and generate hydrogen production and distribution job opportunities. Implementation of this measure encourages the renewable production of hydrogen and is a critical step toward achieving a clean energy future.

Your Committees have amended this measure by:

- (1) Changing the expending agency for all monies from the Hawaii Strategic Development Corporation to the High Technology Development Corporation; and
- (2) Replacing the hydrogen investment capital special fund with the high technology special fund throughout the measure.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 706, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 706, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Green).

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Chun Oakland, Dela Cruz, Harimoto).

SCRep. 492 Government Operations on S.B. No. 1228

The purpose and intent of this measure is to provide the State greater flexibility in procurement by establishing a process for special innovative procurement and generating a framework for public-private partnerships in Hawaii.

Your Committee received testimony in support of this measure from the State Procurement Office, American Council of Engineering Companies of Hawaii, Ulupono Initiative, and Community Alliance on Prisons. Your Committee received comments on this measure from the Hawaii Government Employees Association.

Your Committee finds that special innovative procurements, like public-private partnerships, allow the State to procure when unusual or unique circumstances exist that require other than full competition and standard procurement procedures would be contrary to the public interest. Rather than provide an exemption in cases where there are unusual or unique circumstances, this measure provides a framework for an alternative process within the procurement code. Establishing such a process works to avoid costly and embarrassing missteps that can occur with exemptions.

Your Committee further finds that while this measure provides a method of procuring professional services, it is not intended to replace section 103D-304, Hawaii Revised Statutes, the qualification-based selection process established for procurement of professional services.

Your Committee has amended this measure by:

- (1) Adding a new section to chapter 103D, Hawaii Revised Statutes, establishing special innovative procurement, requiring the Procurement Policy Board to adopt rules for its implementation, and providing basic guidelines for procurement plan approval, notice of the invitation for bids, and annual reports;
- (2) Amending section 103D-301, Hawaii Revised Statutes, to include special innovative procurement among other methods of source selection;
- (3) Changing the entity responsible for drafting and reporting rules for public-private partnerships from the State Procurement Office to the Procurement Policy Board;
- (4) Deleting language that specified how small businesses may compete pursuant to rules drafted by the Procurement Policy Board;
- (5) Adding language to appropriate \$65,000 in fiscal years 2015-2016 and 2016-2017 for a temporary position within the Department of Accounting and General Services with duties to include but not be limited to assisting the Procurement Policy Board in the research and development of public-private partnership rules;
- (6) Inserting a savings clause; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1228, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 493 Government Operations on S.B. No. 1357

The purpose and intent of this measure is to require the procurement officer of every governmental body to attend initial training by the State Procurement Office and regular follow-up training as determined by the State Procurement Office.

Your Committee received testimony in support of this measure from the State Procurement Office, Department of Transportation, Building Industry Association of Hawaii, Ulupono Initiative, and Hawaii Operating Engineers Industry Stabilization Fund.

Your Committee finds that procurement training is essential to ensure that all procuring agencies apply and interpret the procurement code with consistency. Hundreds of personnel conduct or participate in procurements each year. To be effective,

procurement training must be provided to all personnel conducting or participating in procurement, including Deputy Attorneys General who are responsible for providing legal advice on procurement-related issues.

Your Committee further finds that the State Procurement Office's current training database reflects the number of individuals who have attended trainings since 2006 but does not provide information regarding those who are active or who have conducted procurement. To efficiently provide training to the hundreds of individuals involved in the procurement process, a learning management system may be necessary to target particular roles, provide prompt feedback to users, and report attendance, test results, and progress to supervisors and the State Procurement Office. To comply with mandatory training requirements, an additional position within the State Procurement Office is needed to develop and implement a training program.

Your Committee has amended this measure by:

- (1) Changing the timeframe during which initial training is mandated from "within sixty days of being appointed or named to the position of procurement officer of any governmental body" to "prior to authorizing any procurement";
- (2) Deleting language that allows a procurement officer to be granted permission from the State Procurement Office to be excused from follow-up training;
- (3) Inserting language appropriating funds to the State Procurement Office for the purpose of acquiring a learning management system and providing one full-time equivalent position to develop and implement a procurement training program;
- (4) Making the appropriation effective on July 1, 2015; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1357, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1357, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 494 (Joint) Government Operations and Judiciary and Labor on S.B. No. 235

The purpose and intent of this measure is to require:

- (1) State agencies to hold public hearings in the county or counties that are primarily impacted by the proposed adoption, amendment, or repeal of any administrative rule; and
- (2) At least one public hearing with thirty days' notice on each island with residents or communities on which the proposed rule will likely have a significant monetary impact.

Your Committees received testimony in support of this measure from the County of Hawaii Department of Environmental Management and County of Hawaii Planning Department. Your Committees received testimony in opposition to this measure from the League of Women Voters of Hawaii. Your Committees received comments on this measure from the Department of Human Services and Office of Information Practices.

Your Committees find that administrative rule changes may have a significant financial impact on residents, and it is important to give residents an opportunity to provide public comment. Public input assists in the vetting process for rules and helps rule makers avoid unintended consequences. Especially when rules stand to impact certain islands more than others, public, in-person hearings are vital to uphold transparency and accountability in the rulemaking process.

Your Committees have amended this measure by:

- (1) Adding language to clarify that if electronic communications are used to supplement an in-person hearing, and the electronic communications between locations are interrupted or terminated, the in-person public hearing may continue and the interruption or failure of electronic communications shall not be a basis for challenging the rulemaking process; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 235, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 235, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations
Ayes, 4. Noes, none. Excused, 1 (Ihara).

Judiciary and Labor
Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 495 (Joint/Majority) Government Operations and Judiciary and Labor on S.B. No. 216

The purpose and intent of this measure is to make overtime compensation one and one-half times the laborer's or mechanic's basic hourly rate plus fringe benefits on government public works construction contracts greater than \$2,000; provided that if the Department of Labor and Industrial Relations determines that the prevailing wage is determined by a group represented by collective bargaining, then the overtime compensation and any other premium shall be at the same rates set by the collective bargaining agreement.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawaii Construction Alliance. Your Committees received comments on this measure from the General Contractors Association of Hawaii.

Your Committees find that unionized contractors currently pay a premium for overtime that is more than one and one-half times the prevailing rate. This measure will level the playing field by requiring the non-union contractors to pay the same higher rates for overtime as union contractors do for public works projects.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 216, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 216, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader and Chair on behalf of the Committees.

Government Operations

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Tokuda).

Judiciary and Labor

Ayes, 4. Noes, 2 (Thielen, Slom). Excused, 1 (Gabbard).

SCRep. 496 (Joint) Human Services and Housing and Agriculture on S.B. No. 969

The purpose and intent of this measure is to:

- (1) Allow one or more employee dwellings to be built on an agricultural park lot or non-agricultural park lot that is leased by a long-term lessee with lease terms of at least thirty-five years and a lot size of at least five acres, with restrictions; and
- (2) Appropriate an unspecified amount from the general fund to be expended by the Department of Agriculture to develop farm worker housing.

Your Committees received testimony in support of this measure from the Hawaii Interagency Council on Homelessness; Hawaii Farm Bureau; Hawaii Farmers Union United; 'Ai Pohaku; Hawaii Farmers Union United, Kona Chapter; and twenty-six individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that it is difficult for farmers in Hawaii who operate small farms to make their farms sustainable for a myriad of reasons, including but not limited to disease and pest control, bad weather, available and reliable markets, and the availability of good farm laborers. Farm labor housing, like affordable rental housing, is scarce in Hawaii primarily because of the cost of land and construction. Generally, farmers that have long-term agricultural land leases of privately owned land in Hawaii have provisions in the leases that allow them to build farm labor housing in addition to an owner-occupied residential dwelling. That is not the case for farmers who have long-term leases to farm agricultural and non-agricultural parks because the lease agreements with the Department of Agriculture limit the lessee to one farm or employee dwelling per lot, upon demonstration of need and approval of the Board of Agriculture, which lot must serve as the principal residence of the lessee.

Your Committees have amended this measure by:

- (1) Deleting language that would have allowed one or more employee dwellings to be built on an agricultural park lot that is leased by a long-term lessee with lease terms of at least thirty-five years and a lot size of at least five acres, with restrictions;
- (2) Requiring the Department of Agriculture to examine issues related to the implementation of rental housing on non-agricultural park lands;
- (3) Requiring the Department of Agriculture to submit a report of its findings, recommendations, and proposed legislation related to rental housing on non-agricultural park lands;
- (4) Specifying that the appropriation shall be used for rental housing enforcement on non-agricultural park lands;
- (5) Inserting a sunset date of June 29, 2018, for the allowance of rental housing on non-agricultural park lands; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 969, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 969, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 497 (Joint) Human Services and Housing and Education on S.B. No. 64

The purpose and intent of this measure is to make appropriations for the preschool open doors program to fund three positions, for continued implementation of the program, and for subsidies for the program.

Your Committees received testimony in support of this measure from the Department of Human Services, Aloha United Way, Seagull Schools, Hawaii Association for the Education of Young Children, Olivet Baptist Preschool, PHOCUSED, State Early Learning Advisory Board, People Attentive to Children, YMCA of Honolulu, Family Programs Hawaii, Good Beginnings Alliance, Waianae Coast Early Childhood Services, and seven individuals.

Your Committees find that the preschool open doors program is Hawaii's school readiness program and serves low to moderate income families whose children will be eligible for kindergarten in the following school year. The program provides critical subsidies for income-eligible families sending their children to a licensed preschool during the year prior to kindergarten entry.

Your Committees further find that the Department of Human Services expanded the preschool open doors program this fiscal year to cover nearly 1,300 of Hawaii's children. Your Committees recognize that funding the program has short-term and long-term benefits for children, individuals, and society as a whole. Your Committees note that the preschool open doors program is different than the Executive Office on Early Learning prekindergarten program that is proposed in S.B. No. 844 (Regular Session of 2015).

Your Committees have amended this measure by inserting an appropriation amount of \$440,000 for three positions and the continued implementation of the preschool open doors program.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 64, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 64, S.D. 2, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services and Housing

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Education

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Slom).

SCRep. 498 Human Services and Housing on S.B. No. 906

The purpose and intent of this measure is to:

- (1) Add a definition for "contested case";
- (2) Amend the deadline to intervene in a proceeding to accept a developer's proposal to thirty days after the first public hearing on a developer's proposal;
- (3) Require the Hawaii Community Development Authority (HCDA) to make certain findings on the proposed project and its negative impacts, including a finding that the proposed project addresses concerns expressed by community residents and stakeholders, in order to approve the proposed development; and
- (4) Require developers to abide by all representations and commitments made in the permit application process.

Your Committee received testimony in support of this measure from Kaka'ako United, Hawaii's Thousand Friends, FREE ACCESS COALITION, and twelve individuals. Your Committee received testimony in opposition to this measure from the Howard Hughes Corporation and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Office of Hawaiian Affairs; Executive Director of the Hawaii Community Development Authority; Alexander & Baldwin, Inc.; and one individual.

Your Committee finds that HCDA was established to fulfill unmet community needs, including the lack of suitable affordable housing. Some community members have found it difficult to provide input on modifications and variances for developer projects that will adversely impact Kaka'ako. This measure seeks to provide more openness and transparency in decision-making by HCDA and allows community residents more time in obtaining and processing information to participate in HCDA's decision-making process.

Your Committee has amended this measure by:

- (1) Inserting language to require HCDA to schedule a public information meeting for the presentation of the developer's project proposal and requests for modifications or variances and reasons therefor;
- (2) Deleting the definition for "contested case";
- (3) Adding requirements related to community and public notice procedures, including the convening of pre-application meetings, evidence that the developer has met with affected residents and stakeholders to identify certain concerns and issues, mandatory posting of relevant information on HCDA's website for transparency, and notification to boards of associations of apartment owners and condominium boards within the relevant community development district;
- (4) Amending language that requires HCDA to issue a public notice on its website within five business days after issuance of a certificate of completeness of a developer's application;
- (5) Specifying the contents of a public notice issued by HCDA on the acceptance of a developer's application;
- (6) Specifying that the deadline to intervene in a proceeding to accept a developer's proposal is twenty days after the public informational meeting on a developer's proposal;
- (7) Amending language to require HCDA to make certain findings regarding the proposed project and its impacts in order for HCDA to approve the proposed development; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 906, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 906, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

SCRep. 499 Human Services and Housing on S.B. No. 1201

The purpose and intent of this measure is to establish a tax incentive for landlords who provide rental units for persons earning below eighty percent of the area median income.

Your Committee received testimony in support of this measure from the Hawaii Women's Coalition and four individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and two individuals.

Your Committee finds that Hawaii faces a historical and growing shortage of housing units and rapidly rising rents, presenting a serious problem for a substantial portion of Hawaii residents who live in residential housing. Moreover, rent increases are exacerbated by speculation in the purchase and sale of existing residential housing units by local and foreign real estate and development investors. The housing shortage and speculative nature of the real estate industry present a clear and imminent threat to the public health and welfare of Hawaii's residents, especially the poor, minorities, students, young families, and senior citizens.

Your Committee has amended this measure by:

- (1) Deleting language from section 2, which exempts and excludes from general excise taxation all gross proceeds received by an owner or lessor from the leasing of real property to persons earning below eighty percent of the area median income;
- (2) Inserting language that exempts from general excise taxation gross income received by a qualified owner or lessor who leases a residential dwelling unit to an eligible low-income household earning at or below eighty percent of the area median income;
- (3) Inserting language that requires the Director of Taxation and the Hawaii Public Housing Authority to adopt rules;
- (4) Inserting language that allows the Hawaii Public Housing Authority to approve and certify exemptions;
- (5) Inserting language requiring all claims for exemption to be filed with and certified by the Hawaii Public Housing Authority;
- (6) Inserting language that allows the Hawaii Public Housing Authority to establish, revise, charge, and collect reasonable fees for approving and certifying exemptions; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1201, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Green).

SCRep. 500 Human Services and Housing on S.B. No. 968

The purpose and intent of this measure is to appropriate funds for eleven full-time equivalent permanent positions within the Adult Protective and Community Services Branch of the Department of Human Services.

Your Committee received testimony in support of this measure from the Maui County Office on Aging. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that in 2009, the Adult Protective and Community Services Branch of the Department of Human Services suffered a reduction in staff due to the economic crisis and an expansion of their client population due to a change in statute. Your Committee further finds that the Adult Protective and Community Services Branch requires additional staff to effectively serve and protect Hawaii's vulnerable adults who are in danger of being abused, neglected, or financially exploited.

Your Committee has amended this measure by:

- (1) Inserting language that authorizes the department of human services to extend the federal ceiling and increase the federal funds available for the positions within the Adult Protective and Community Services Branch; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 968, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 968, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 501 Economic Development and Technology on S.B. No. 676

The purpose and intent of this measure is to:

- (1) Increase the maximum amount of capital infrastructure tax credits that may be issued to a qualified infrastructure tenant in any taxable year; and

- (2) Allow any capital infrastructure tax credit in excess of the maximum amount to be applied to subsequent tax years.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii, Pacific Shipyards International/Navatek Ltd., Pacific Shipyards International, Navatek Ltd., and twenty-six individuals. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that Pacific Shipyards International has operated a commercial ship repair facility in Honolulu Harbor since 1920. Your Committee further finds that the Kapalama Container Terminal project is critical to modernizing its commercial harbors and that the completion of this project will ensure the adequate infrastructure of the harbor and the supported economic industries. The most effective means by which to support the tenants displaced by this project is a capital infrastructure credit that would offset costs after a certain amount has been expended for capital infrastructure.

Your Committee has amended this measure by:

- (1) Setting the maximum amount of capital infrastructure tax credits that may be issued to a qualified infrastructure tenant in any taxable year at \$2,500,000;
- (2) Inserting language requiring a qualified infrastructure tenant to expend \$40,000,000 within a taxable year before the release of any capital infrastructure tax credits; and
- (3) Making a technical, nonsubstantive amendment for the purposes of the clarity of consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 676, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 502 Economic Development and Technology on S.B. No. 887

The purpose and intent of this measure is to:

- (1) Establish the Offshore High Technology Park Review Board within the High Technology Development Corporation; and
- (2) Authorize the issuance of special purpose revenue bonds to develop and implement cable landing sites throughout the State.

Your Committee received testimony in support of this measure from the High Technology Development Corporation, Enterprise Honolulu, Hawaii Emergency Management Agency, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the development of an offshore high technology park is needed to promote research, education, and technological innovation. The park is also necessary to strengthen state critical infrastructure and to develop a knowledge-based workforce capable of leading new opportunities in several different sectors of the economy.

Your Committee further finds that the implementation of a trans-Pacific broadband cable provides the necessary broadband connectivity to support an offshore high technology park. The State may facilitate the research and development opportunity for the deployment of a trans-Pacific cable through a partnership with multiple sectors in private industry that have a real interest in demonstrating the commercial applicability of new sensor technology and edge-processing analytics.

Your Committee has amended this measure by:

- (1) Changing references from “an offshore high technology park” to “high technology parks” throughout the measure;
- (2) Establishing an Advisory Board of High Technology Parks Review for each high technology park established pursuant to this measure, in lieu of the Offshore High Technology Park Review Board, and amending the composition and appointment of members of the board;
- (3) Adding language to require the Advisory Board to adopt development rules for each high technology park;
- (4) Deleting the authorization for the issuance of special purpose revenue bonds to develop and implement cable landing sites; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 887, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 887, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 503 (Joint) Economic Development and Technology and Public Safety, Intergovernmental and Military Affairs and Energy and Environment on S.B. No. 892

The purpose and intent of this measure is to make various appropriations for the Hawaii resilience and sustainability strategy.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Enterprise Honolulu; and three individuals. Your Committees received comments on this measure from the High Technology Development Corporation.

Your Committees find that Hawaii needs a new way of thinking about how the State addresses critical infrastructure needs through the development of public-private partnerships that are specifically focused on research and development. It is necessary that the State cultivates an environment for attracting partners with resources, technical expertise, and the willingness to develop an offshore high technology park that integrates state-of-the-art communications platforms, big data analytics, and unmanned aerial vehicles.

Your Committees find that benefits of broadband internet access include the uncomplicated access to all types of information; economic development to accelerate business development and new opportunities for innovation, expansion, and e-commerce; enhancement of existing public safety measures connecting first responders to residents; and the facilitation of state healthcare delivery systems.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology, Public Safety, Intergovernmental and Military Affairs, and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 892, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 892, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 504 Economic Development and Technology on S.B. No. 1001

The purpose and intent of this measure is to establish and appropriate funds for the manufacturing development program, through which the High Technology Development Corporation shall distribute grants to Hawaii manufacturers for various activities.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii; High Technology Development Corporation; Hawaii Food Industry Association; K. Yamada Distributors, Inc.; and one individual.

Your Committee finds that there is a disparity between Oahu and the neighbor islands concerning opportunities that exist for business expansion, energy efficiency training and development, and general maintenance of highly complex manufacturing equipment. The lack of available resources and overuse of obsolete equipment have contributed to significantly barring market competitiveness of Hawaii businesses and foreign investment interest in the State.

Your Committee further finds that it is incumbent on the State to ease the financial burdens facing particular businesses and to ensure the long-term financial and economic sustainability of the State.

Your Committee has amended this measure by:

- (1) Deleting all language referencing the establishment of a grant program and appropriations therefor;
- (2) Establishing the Hawaii manufacturing capital program, which provides loans to Hawaii-based companies that encourage certain manufacturing-related activities, including studying or planning the implementation of a new manufacturing facility;
- (3) Capping each loan that may be received by a company under the program at twenty percent of costs, up to \$100,000 in any given year;
- (4) Establishing the Hawaii manufacturing revolving fund, to be funded by repayments of loans and interest and to be used to administer the Hawaii manufacturing capital program;
- (5) Requiring the High Technology Development Corporation to report to the Legislature businesses receiving loans under the program, types of business sectors provided with loans, the amount of each loan provided, and information relating to the economic and labor impact of the businesses provided with loans;
- (6) Establishing terms and conditions under which loans shall be made under the program; and
- (7) Appropriating funds for the establishment and operation of the program.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1001, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1001, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 505 (Joint/Majority) Economic Development and Technology and Tourism and International Affairs on S.B. No. 1155

The purpose and intent of this measure is to:

- (1) Assign to the Hawaii Tourism Authority the responsibilities for film, television, digital, and new media development;

- (2) Repeal the film industry activities within the Department of Business, Economic Development, and Tourism and make conforming amendments; and
- (3) Appropriate funds from the film, television, digital, and new media development special fund to the Hawaii Tourism Authority for implementation of the film, television, digital, and new media development activities.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Tourism Authority. Your Committees received testimony in opposition to this measure from the Department of Budget and Finance. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that the film industry in Hawaii currently generates approximately \$220,000,000 per year in direct spending to the state economy, providing \$385,000,000 in economic impact and supporting two thousand film industry-related jobs.

Your Committees further find that the absence of any representative of the Department of Business, Economic Development, and Tourism on the Hawaii Tourism Authority Board of Directors highlights the absence of a meaningful relationship between these two entities. Reservations expressed regarding this measure focused largely on the financial obstacles that would face the film industry should this measure be enacted, as funding for film activities originates from the Department of Business, Economic Development, and Tourism.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Tourism and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1155, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1155, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development and Technology

Ayes, 5; Ayes with Reservations (Chun Oakland, Espero). Noes, 2 (Baker, Dela Cruz). Excused, none.

Tourism and International Affairs

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (English, Tokuda).

SCRep. 506 (Joint) Economic Development and Technology and Commerce and Consumer Protection on S.B. No. 1279

The purpose and intent of this measure is to prohibit noncompete agreements and restrictive covenants that forbid post-employment competition of employees of a technology business.

Your Committees received testimony in support of this measure from the Department of Education; Hawaiian Telcom; Techmana LLC; and four individuals. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii. Your Committees received comments on this measure from the High Technology Development Corporation.

Your Committees find that noncompete clauses are designed to protect employers by prohibiting former employees from freely sharing with competitors the confidential information of a former employer's operations, customer or client lists, business practices, upcoming products, and market plans. Inclusion of these clauses encourages companies to hire more employees because employers are provided protection to hire, contract, and otherwise operate a business without the fear that confidential business information and knowledge will be passed on to a competitor without any limits or consequences. Protecting intellectual property is vital to the continued growth of Hawaii's innovation economy.

Your Committees have amended this measure by:

- (1) Restricting the duration of noncompete agreements and restrictive covenants that forbid post-employment competition of employees of a technology business to no longer than one year;
- (2) Amending the definition of "technology business" to exclude broadcast industry businesses; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1279, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1279, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Economic Development and Technology

Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 507 (Joint) Economic Development and Technology and Energy and Environment on S.B. No. 891

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism to establish seven broadband cable landing sites and for the performance of island-specific environmental impact studies.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Chamber of Commerce Hawaii; High Technology Development Corporation; Pacific-Asia Institute for Resilience and

Sustainability; Enterprise Honolulu; Hawaiian Telcom; and two individuals. Your Committees received comments on this measure from the Natural Energy Laboratory of Hawaii Authority.

Your Committees find that advanced broadband services are essential in creating an infrastructure that can support an innovative economy and a knowledgeable and competitive society in the twenty-first century. Specifically, high-speed broadband services at affordable prices are essential for the advancement of education, health, public safety, research and innovation, civic participation, e-government, economic development and diversification, and public safety and services.

Your Committees further find that supporting and encouraging public-private partnerships are the most effective vehicles for moving forward and completing the Hawaii broadband initiative. The collaborative efforts of the private sector and the State, especially efforts focused on research and development, are also the most effective way to address the infrastructure needs of the State.

Your Committees have amended this measure by:

- (1) Deleting the specific number of cable landing sites to be established;
- (2) Amending the purpose of the appropriation to be for completion of any necessary environmental impact statements, in addition to establishment of the cable landing sites;
- (3) Changing the means of financing of the appropriation from general revenues to general obligation bonds and making the appropriation for only fiscal year 2015-2016;
- (4) Requiring the appropriated funds to be expended by the Department of Business, Economic Development, and Tourism and delegated through the High Technology Development Corporation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 891, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 891, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development and Technology

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 508 Economic Development and Technology on S.B. No. 1189

The purpose and intent of this measure is to:

- (1) Repeal particular special and revolving funds that have become dormant or unnecessary; and
- (2) Transfer the unencumbered balances in those funds into the high technology revolving loan fund.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Authority. Your Committee received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Office of the Auditor; Office of Planning; Hawaii Community Development Authority; High Technology Development Corporation; Hawaii Strategic Development Corporation; Natural Energy Laboratory of Hawaii Authority; and Hawaii Automobile Dealer's Association.

Your Committee finds that among the many special and revolving funds currently administered by the Department of Business, Economic Development, and Tourism, three funds have become either dormant or unnecessary. Your Committee further finds that the remaining balances in these funds would be more effectively used if transferred to the high technology special fund.

Your Committee has amended this measure by:

- (1) Amending the list of special or revolving funds to be repealed;
- (2) Amending the fund receiving the remaining unencumbered balance of the repealed funds from the high technology revolving loan fund to the high technology special fund;
- (3) Changing the effective date to June 30, 2015; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1189, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 509 (Joint) Health and Public Safety, Intergovernmental and Military Affairs on S.B. No. 189

The purpose and intent of this measure is to remove marijuana and its intrinsic cannabinoids from schedule I and requires the Department of Public Safety, in consultation with the Department of Health, to issue a recommendation for the rescheduling of marijuana.

Your Committees received testimony in support of this measure from the Department of Health; Alternative Pain Management Pu‘uhonua, LLC; Hawaii Medical Association; Green Futures; The Hawaii Cannabis Ministry; Americans for Safe Access, Big Island Chapter; Drug Policy Action Group; and twenty-four individuals. Your Committees received testimony in opposition to this measure from the Department of Public Safety; Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; Maui Police Department; Coalition for a Drug-Free Hawaii; and three individuals.

Your Committees find that the medical use of marijuana has existed in the State since 2000 when Hawaii became the first state to accept the medical use of marijuana by the legislative process. However, despite fourteen years of medical use by thousands of patients in the State, marijuana still remains in schedule I, while coca and poppy, plants that contain substances far more dangerous than any substance found in marijuana, are listed in schedule II.

Your Committees note that the intent of this measure is to reschedule only marijuana and no other drugs or controlled substances.

Your Committees have amended this measure by:

- (1) Deleting findings related to the involvement of the Department of Health in the process of making recommendations to the Legislature on the scheduling of controlled substances;
- (2) Deleting language related to the Department of Health being required to work in consultation with the Department of Public Safety in recommending or rescheduling the schedule of a substance, including the rescheduling of marijuana;
- (3) Inserting language that reschedules marijuana as a schedule II controlled substance;
- (4) Inserting a savings clause;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 189, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 189, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Wakai).

Public Safety, Intergovernmental and Military Affairs

Ayes, 5. Noes, none. Excused, none.

SCRep. 510 (Joint) Health and Public Safety, Intergovernmental and Military Affairs and Judiciary and Labor on S.B. No. 1302

The purpose and intent of this measure is to:

- (1) Establish a system of medical marijuana dispensaries and production centers;
- (2) Prohibit counties from enacting zoning regulations that discriminate against licensed dispensaries and production centers;
- (3) Rename “medical marijuana registry special fund” to “medical marijuana registry and regulation special fund” and expand expending options;
- (4) Establish protections for an owner or qualified employee of a licensed production center or dispensary;
- (5) Clarify the right of qualifying patients and primary caregivers to transport medical marijuana;
- (6) Appropriate funds in an unspecified amount to hire an unspecified number of positions to carry out the medical marijuana dispensary program; and
- (7) Repeal the requirement that the physician who issues a written certification for a qualifying patient be the patient’s primary care physician.

Your Committees received testimony in support of this measure from Green Futures; Drug Policy Forum of Hawaii; American Civil Liberties Union of Hawaii; The Hawaii Cannabis Ministry; Americans for Safe Access, Big Island Chapter; and twenty-one individuals. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Honolulu Police Department; Hawaii Police Department; Maui Police Department; Hawaii Cannabis Care; Alternative Pain Management Pu‘uhonua, LLC; Coalition for a Drug-Free Hawaii; and five individuals. Your Committees received comments on this measure from the Office of the Auditor, Department of Health, Department of the Attorney General, Hawaii Substance Abuse Coalition, Hawaii Catholic Conference, Hawaii Family Forum, Hawaii Family Advocates, Drug Policy Action Group, and five individuals.

Your Committees find that Hawaii’s medical use of marijuana law was enacted on June 14, 2000, as Act 228, Session Laws of Hawaii 2000, to provide medical relief for seriously ill individuals in the State. While existing law recognizes the beneficial use of marijuana in treating or alleviating pain or other symptoms associated with certain debilitating illnesses, it is silent on how patients can obtain medical marijuana if they or their caregivers are unable to grow their own supply of medical marijuana.

Your Committees further find that many of the State's nearly thirteen thousand qualifying patients lack the ability to grow their own supply of medical marijuana due to a number of factors, including disability and limited space to grow medical marijuana. As a result, a regulated statewide dispensary system for medical marijuana is urgently needed by qualifying patients in the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees have heard the testimony of concerned entities and individuals about several key issues and request your Committees on Commerce and Consumer Protection and Ways and Means to consider the following as it relates to this measure and medical marijuana dispensaries in general:

- (1) Consideration of interim rules before the Department of Health establishes rules for the implementation of medical marijuana dispensaries;
- (2) Concern for interstate commerce as it relates to the sales of medical marijuana;
- (3) Bill title issues at it relates to sections 6 and 7 of this measure and whether the contents of these sections can be inserted into another measure;
- (4) Consideration of whether the rules establishing and implementing medical marijuana dispensaries should be codified in the Hawaii Revised Statutes;
- (5) Consideration for how much medical marijuana a qualifying patient can possess and purchase from a dispensary;
- (6) Edibles and other means of consuming medical marijuana; and
- (7) Other legal issues.

As affirmed by the records of votes of the members of your Committees on Health, Public Safety, Intergovernmental and Military Affairs, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1302, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1302, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

SCRep. 511 Health on S.B. No. 596

The purpose and intent of this measure is to:

- (1) Establish a civil violation for possession by a person eighteen years of age or older of one ounce or less of marijuana that is subject to a fine of not more than \$100, and establish an adjudicatory structure for its enforcement;
- (2) Delete reporting requirements of the Board of Education for students possessing one ounce or less of marijuana;
- (3) Clarify that medical marijuana patients and primary caregivers may assert an affirmative defense to prosecution, criminal or civil, involving possession of one ounce or less of marijuana;
- (4) Exclude possession of one ounce or less of marijuana from the authority of the Hawaii Paroling Authority to require paroled prisoners to undergo and complete substance abuse treatment;
- (5) Exclude possession of more than one ounce of marijuana from the authority of courts to require a defendant to undergo and complete substance abuse treatment for a probation violation;
- (6) Clarify the definition of "detrimental drug" to exclude one ounce or less of marijuana;
- (7) Exclude possession of one ounce or less of marijuana from offenses of promoting a detrimental drug in the second degree and third degree; and
- (8) Clarify that a civil violation for possession of marijuana does not constitute a prior offense for purposes of the conditional discharge law.

Your Committee received testimony in support of this measure from IMUAlliance; Drug Policy Action Group; Green Futures; Progressive Democrats of Hawaii; Alternative Pain Management Pu'uhoehoe, LLC; Drug Policy Forum of Hawaii; Community Alliance on Prisons; NuWayve Unlimited; and sixteen individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety; Department of the Prosecuting Attorney, City and County of Honolulu; Hawaii Police Department; Maui Police Department; Hawaii Catholic Conference; Hawaii Family Forum; Hawaii Family Advocates; and six individuals. Your Committee received comments on this measure from the Judiciary and one individual.

Your Committee finds that the benefits of establishing a civil violation for the possession of small amounts of marijuana outweigh the benefits of the current criminal treatment of this offense. Some states have passed laws decriminalizing marijuana. Typically, decriminalization means no prison time or criminal record for first-time possession of a small amount for personal consumption, and the conduct is treated like a minor traffic violation. According to the National Organization for the Reform of Marijuana Laws, the following jurisdictions have decriminalized possession of a small amount for personal consumption: Alaska, California, Connecticut, District of Columbia, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Nebraska, Nevada, New York, North Carolina, Ohio, Oregon, Rhode Island, and Vermont. Two states, Colorado and Washington, have legalized the recreational use of cannabis following the approval of state referenda in the 2012 elections.

Your Committee notes that the technology related to breathalyzers is rapidly changing and hopes that the Department of Health will begin to review the use of newer breathalyzers by other states.

Your Committee has amended this measure by:

- (1) Inserting language that prohibits a qualifying patient or primary caregiver from asserting the medical use of marijuana as an affirmative defense to any prosecution involving marijuana if the qualifying patient or primary caregiver engages in the use of medical marijuana in or within one thousand feet of the grounds of a school, recreation center, or youth center, unless the medical use occurs within a residence;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 596, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 596, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 512 (Joint) Health and Commerce and Consumer Protection on S.B. No. 810

The purpose and intent of this measure is to:

- (1) Require practitioners to register to use the electronic prescription accountability system in order to administer, prescribe, or dispense a controlled substance;
- (2) Require all practitioners prescribing or dispensing a controlled substance in schedules II through IV to use the electronic prescription accountability system beginning January 1, 2016;
- (3) Require, beginning January 1, 2017, all practitioners and practitioner delegates to request patient information from the central repository prior to prescribing or dispensing a controlled substance to a new patient and for any patient that is receiving chronic pain therapy;
- (4) Provide pharmacist delegates and practitioner delegates with access to the electronic prescription accountability system; and
- (5) In certain situations, expand access to investigative information in the electronic prescription accountability system to include law enforcement officers and investigative agents of regulatory agencies and various individuals.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Substance Abuse Coalition, Hawaii College of Emergency Physicians, Walgreen Co., and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Veterinary Medical Association and eleven individuals. Your Committees received comments on this measure from the Hawaii Medication Association.

Your Committees find that prescription drug monitoring programs have been established in most states to track prescriptions of opioid analgesics, sedatives, and amphetamine-type stimulants. By improving the utilization of prescription drug monitoring programs, health care providers can improve patient safety and quality of care.

Your Committees have amended this measure by:

- (1) Deleting the definition of “practitioner”;
- (2) Clarifying that practitioners administering, prescribing, or dispensing a controlled substance in schedules II through IV shall register with the electronic prescription accountability system with renewal of the controlled substance registration;
- (3) Inserting language to exclude a practitioner or practitioner delegate from the central repository request requirement if the request is for a new patient to whom the practitioner administers, prescribes, or dispenses a supply of seven days or less of a controlled substance in an emergency room or department; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 810, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 810, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection
Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 513 (Joint) Health and Agriculture on S.B. No. 131

The purpose and intent of this measure is to:

- (1) Establish, beginning January 1, 2016, labeling requirements for any food or raw agricultural commodity sold in the State that contains a genetically engineered material or was produced with a genetically engineered material;
- (2) Establish exceptions related to labeling requirements;
- (3) Establish violations related to labeling requirements; and
- (4) Require the Director of Health to adopt rules related to labeling requirements.

Your Committees received testimony in support of this measure from the Hawaii Center for Food Safety; Pacific Agricultural Land Management Systems; Hawaii Sustainable Farms, LLC; Americans for Democratic Action; Babes Against Biotech; and four hundred ninety-four individuals. Your Committees received testimony in opposition to this measure from the Department of Health; Department of Agriculture; University of Hawaii System; Chamber of Commerce Hawaii; Hawaii Crop Improvement Association; Hawaii Food Industry Association; DuPont Pioneer; Western Plant Health Association; Biotechnology Industry Organization; Kamiya Gold, Inc.; Building Industry Association of Hawaii; Hawaii's Agricultural Partnerships; Omao Ranch Lands; Wine Institute; Agrium; Monsanto Hawaii; Hawaii Aquaculture & Aquaponics Association; Maui Chamber of Commerce; Hawaii Farm Bureau; Island Princess; Hawaii Farmers and Ranchers United; and one hundred thirty-eight individuals. Your Committees received comments on this measure from eight individuals.

Your Committees find that there are growing concerns that genetically engineered material is harmful to public health and the environment. Your Committees further find that a large percentage of the population supports the right to know which food products contain genetically engineered material and prefers to make informed decisions when purchasing food.

Your Committees note the concerns relating to the consideration of a food as having been produced with a genetically engineered material if the animal from which the food is derived has been fed genetically engineered material and requests that your Committees on Commerce and Consumer Protection and Ways and Means further examine this issue if they choose to hear this measure.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 131 and recommend that it pass Second Reading and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5; Ayes with Reservations (Wakai). Noes, none. Excused, 2 (Baker, Slom).

Agriculture

Ayes, 5; Ayes with Reservations (Wakai). Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 514 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1244

The purpose and intent of this measure is to establish procedures for audits of pharmacies conducted by a health care provider, insurance company, third-party payor, Department of Health, or any entity that represents such companies, groups, or Department.

Your Committees received testimony in support of this measure from the Hawaii Community Pharmacists Association and two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Medical Service Association. Your Committees received comments on this measure from the Board of Pharmacy and Academy of Managed Care Pharmacy.

Your Committees find that there are currently no regulations governing pharmacy audits by pharmacy benefit managers or insurance providers. Implementing regulations will prevent abusive audits aimed at reducing consumer access to pharmacy benefits and protect consumer access and consumer choice.

Your Committees have amended this measure by:

- (1) Specifying that the contents of this measure create a new section in chapter 431R, Hawaii Revised Statutes, rather than chapter 461, Hawaii Revised Statutes;
- (2) Specifying that pharmacy audit procedures established by this measure apply to on-site audits of the records of a pharmacy related to claims submitted under a prescription drug benefit plan;
- (3) Referring to an "audit report" as "audit findings";
- (4) Clarifying that the agency or entity conducting the audit is prohibited from using the accounting practice of extrapolation in calculating recoupments or penalties for audits unless allowed by law;
- (5) Amending language to allow a pharmacy at least fourteen days following the receipt of the preliminary audit findings to produce documentation to address any discrepancy unless a shorter time is required in the case of a governmental audit request;
- (6) Deleting language that specified that a pharmacy audit could not occur during the first seven calendar days of any month;
- (7) Specifying that the period covered by a recoupment of any disputed funds shall not exceed eighteen months;

- (8) Amending language to, upon finding on appeal unfavorable audit findings or unsubstantiated findings, require each agency or entity conducting an audit to reverse or issue a correction of the findings;
- (9) Clarifying that each agency or entity conducting an audit shall provide a copy of the final audit findings to the respective agency that entity represents upon request;
- (10) Excluding from pharmacy audit procedures under this measure investigative audits that involve wilful misconduct or health or safety issues;
- (11) Amending the definition of "agency" to not include the Department of Health and include sickness insurance providers, mutual benefit societies, dental service corporations, and health maintenance organizations; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1244, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1244, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Ruderman).

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 515 Health on S.B. No. 695

The purpose and intent of this measure is to require the Hawaii Medical Board to convene a working group to discuss nutrition and lifestyle behavior for the prevention and treatment of chronic disease.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Board and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that approximately seventy-five percent of national health expenditures are spent regarding preventable chronic disease. Your Committee finds that the Legislature would benefit from information reported by a working group tasked to consider the effect of nutrition and lifestyle behavior on the prevention and treatment of chronic disease.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 695 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 516 (Majority) Health on S.B. No. 1291

The purpose and intent of this measure is to prohibit an employer from disciplining, suspending, discharging, or discriminating against an employee who is a patient qualified to use medical marijuana solely because the employee tested positive for marijuana use in a substance abuse test.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission; Drug Policy Forum of Hawaii; Drug Policy Action Group; Alternative Pain Management Pu'uhonua, LLC; Hawaii Cannabis Care; Green Futures; NuWayve Unlimited; and twenty-three individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Human Resources, Honolulu Police Department, County of Hawaii Police Department, Chamber of Commerce Hawaii, Society for Human Resource Management Hawaii, Hawaiian Electric Company, and one individual. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, Hawaii Family Forum, Hawaii Catholic Conference, and one individual.

Your Committee finds that some civil protections are necessary to protect registered medical marijuana patients from employment ramifications based solely upon a positive test for marijuana use. Because the State has endorsed marijuana as a legitimate medical treatment, it follows that the State would also provide protection for those who require such treatment, not only from criminal consequences, but from civil consequences as well. This measure does not prohibit an employer from taking disciplinary action against an employee who is a registered medical marijuana patient and whose work suffers, who is intoxicated on the job, or who fails to fulfill employment duties.

Your Committee further finds that there are concerns regarding registered medical marijuana patients who are federal employees or are working on federal contracts with drug-free workplace policies. The obvious conflict between the federal law's strict prohibitions against marijuana and Hawaii's law authorizing the use of medical marijuana, as enhanced by this measure, may leave federal employees who are registered medical marijuana patients in a precarious situation.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1291, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1291, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Baker). Noes, 1 (Slom). Excused, 2 (Gabbard, Wakai).

SCRep. 517 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs on S.B. No. 501

The purpose and intent of this measure is to amend the coastal zone management program's objectives and policies to account for projected sea level rise and to exempt a county from establishing a shoreline setback line based on a long-term annual shoreline erosion rate until the time when erosion rate data is available.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Planning and Permitting of the City and County of Honolulu; Environmental Caucus of the Democratic Party of Hawaii; Hawaii's Thousand Friends; Surfrider Foundation Oahu Chapter; Surfrider Foundation; University of Hawai'i at Mānoa; and fifteen individuals. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii and Building Industry Association of Hawaii. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that as an island state, land use and development in Hawaii are concentrated on our low-lying coastal plains. In many communities, the densest development is right up against the shoreline. This pattern of coastal development is resulting in major impacts to our public beaches and marine resources and increasing community exposure to hazards of beach erosion and coastal flooding. The science is clear that rates of sea-level rise will increase in the coming decades. This will result in increasing severity and frequency of coastal erosion and flooding events. Therefore, moving new development back from the shoreline by requiring increased setbacks and planning for sea-level rise is vital.

According to testimony, the latest published research concludes that projected future heights of sea level for Honolulu will reach a mean of one foot by 2050 and 2.8 feet by 2100, and potentially over 4.5 feet by the end of the century.

Your Committees further find that a minimum 60-foot setback and updated erosion rate based setback policy for new development was successfully adopted by Kauai County in 2014 (County of Kauai Ordinance No. 979). Erosion rate based setbacks are also required by Maui County (shoreline rules for the Maui Planning Commission, §12-203) as well as in state conservation district lands (chapter 13-5, Hawaii Administrative Rules). Minimum shoreline setbacks of 60 feet and erosion rate based setbacks statewide will provide improved buffer space between new development and highly dynamic beach environments, reducing exposure to coastal hazards and improving the State's ability to protect beaches and coastal environments.

Your Committees have amended this measure by:

- (1) Adding a definition for "coastal hazards" to section 205A-1, Hawaii Revised Statutes (HRS), to include tsunamis, hurricanes, wind, storm waves, erosion, impacts related to sea level rise, subsidence, and point and nonpoint source pollution;
- (2) Amending section 205A-2(b)(6)(A), HRS, to use the term "coastal hazards" to cover all coastal hazards and striking references to specific coastal hazards;
- (3) Reverting section 205-2(b)(9)(A), HRS, back to its original language;
- (4) Adding "coral" and "and coastal dunes" to section 205A-(c)(4)(C), HRS, to improve protection of these critical resources;
- (5) Amending section 205A-2(c)(5)(B), HRS, to remove reference to the terms "transportation", "infrastructure", and "residential and commercial development", but including reference to "coastal hazards" to improve climate adaptation and resiliency;
- (6) Amending section 205A-2(c)(6)(A), HRS, to use the term "coastal hazards" to cover all coastal hazards and striking references to specific coastal hazards;
- (7) Amending section 205A-2(c)(6)(B), HRS, by reverting to the original term "control development" and incorporating the term "coastal hazards";
- (8) Deleting the proposed section 205-2(c)(6)(E), HRS;
- (9) Amending paragraph (13) of the definition of "development" in section 205A-22, HRS, by deleting the word "projected" as it relates to sea level rise;
- (10) Amending the definitions of "special management area emergency permit", "special management area minor permit", and "special management area use permit" in section 205A-22, HRS, to change references from "substantial" harm or adverse effect to "significant" harm or adverse effect;
- (11) Amending section 205A-26(2)(D), HRS, at the request of the City and County of Honolulu to provide for "adequate mitigation" rather than "minimize development" for development located in areas subject to coastal hazards;
- (12) Amending section 205A-43(a), HRS, related to shoreline setbacks by re-inserting twenty feet as the absolute minimum shoreline setback;
- (13) Ensuring and clarifying that the Department of Land and Natural Resources prescribe the methods by which the erosion rate date is used and clarifying that the counties may rely on a sixty-foot minimum setback rather than requiring a sixty-foot setback;
- (14) Deleting the proposed section 205A-43(c), HRS, since there is no exemption or waiver provision in the shoreline setback law;
- (15) Amending the definitions of shoreline management minor permit shoreline area use permit to revert to the original language;

- (16) Deleting the amendment to section 205A-2(c)(6)(E), HRS, avoiding grading of and damage to coastal dunes;
- (17) Amending the purpose section to reflect the amended purpose of the measure;
- (18) Changing the effective date from July 1, 2015, to upon approval; and
- (19) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 501, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 501, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6. Noes, none. Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 518 (Joint) Water and Land and Public Safety, Intergovernmental and Military Affairs and Agriculture on S.B. No. 1374

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Budget and Finance, in coordination with the Department of Accounting and General Services and Department of Land and Natural Resources, to investigate the possibility of exchanging state land for certain parcels of land currently owned by Dole Food Company, Inc., that are located between central Oahu and the north shore area, and to pay for costs of executing the exchange if appropriate state land is found, taking into consideration the market value of the state lands to be exchanged; and
- (2) Appropriate funds to the Department of Public Safety and the Department of Agriculture to investigate the possibility of a land exchange of certain state lands between the Department of Public Safety and the Department of Agriculture, and how that exchange could be further utilized in acquiring certain parcels of land by Dole Food Company, Inc., and Castle and Cooke, Inc., for agricultural purposes.

Your Committees received testimony in support of this measure from the Department of Agriculture; Office of Planning; Agribusiness Development Corporation; Dole Food Co. Hawaii; Land Use Research Foundation of Hawaii; Chamber of Commerce Hawaii; Hawaii Farm Bureau; Larry Jefts Farms, LLC; Hawaii Cattlemen's Council; Hawaii Aquaculture & Aquaponics Association; Hawaii Agriculture Research Center; and thirteen individuals. Your Committees received testimony in opposition to this measure from the Conservation Council for Hawai'i and eleven individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Land and Natural Resources, Office of Hawaiian Affairs, The Trust for Public Land, Hawaiian Islands Land Trust, and Community Alliance on Prisons.

Your Committees find that agriculture was the economic mainstay of the central Oahu plains not too long ago. This industry, specifically sugar cane and pineapple, had a greater stake in how and where communities grew. However, in 1996, the Waialua Sugar Mill closed, and in 2008, Del Monte fresh produce ended operations. What remains are several thousand acres of agricultural lands that is in diversified agricultural production on short-term leases or left fallow. Dole Food Company, Inc., has listed over fifteen thousand acres of these lands, including lands designated as conservation and watershed lands, for sale on Oahu between the area of central Oahu and the north shore.

Your Committees further find that among the possible methods of acquiring these lands is a land exchange. Over the past few years, the State has made it a priority to shift toward sustainability in agriculture and decreasing our food imports.

Your Committees further find that Hawaii's prison system is overcrowded and outdated, as nearly 1,400 Hawaii prisoners were in mainland facilities as of 2014. The current facilities in Hawaii are deteriorated, over-capacity, and poorly designed. Over the years, the Department of Public Safety has been exploring options to alleviate overcrowding in the State's prisons. Options include replacing the State's largest jail facility, the Oahu Community Correctional Center in Honolulu, or expanding the State's largest prison, the Halawa medium security facility. There is an opportunity, through a land exchange, for the State to relocate the Oahu Community Correctional Center to Halawa in addition to expanding the Halawa medium security facility.

Your Committees have amended this measure by:

- (1) Removing the Department of Budget and Finance and the Department of Accounting and General Services as expending agencies, and placing responsibility to conduct due diligence of the properties upon the Department of Land and Natural Resources for conservation lands and upon the Agribusiness Development Corporation for the agricultural lands;
- (2) Limiting the expenditures from the land conservation fund to \$200,000 for one year for the purpose of investigating the possibility of acquiring certain Dole lands that are in conservation district and suitable for watershed protection and to identify which of the Dole lands are in the conservation district;
- (3) Appropriating general funds for one year in an amount of \$400,000 for the Agribusiness Development Corporation to investigate the possibility of acquiring certain Dole lands that are suitable for diversified agriculture and to identify which of the Dole lands are in the agricultural district;
- (4) Appropriating an unspecified amount of general funds to the Department of Public Safety and Department of Agriculture to investigate a land exchange and deleting the second year of the appropriation;

- (5) Requiring the Department of Land and Natural Resources, Department of Public Safety, Department of Agriculture, and Agribusiness Development Corporation to submit a consolidated report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2016 on:
 - (A) The feasibility of a land exchange of parcels of high interest to the State; and
 - (B) Any appropriations, proposed legislation, or administrative action necessary to accomplish the goals of this measure;
- (6) Changing the preamble to reflect the amendments; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Public Safety, Intergovernmental and Military Affairs, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1374, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1374, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land

Ayes, 6; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Agriculture

Ayes, 5; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 519 (Joint/Majority) Energy and Environment and Public Safety, Intergovernmental and Military Affairs on S.B. No. 703

The purpose and intent of this measure is to:

- (1) Increase the solid waste management surcharge to \$1.25 per ton of solid waste disposed of in landfills or shipped out-of-state;
- (2) Establish a solid waste management surcharge of 60 cents per ton of solid waste disposed of at waste-to-energy facilities that accept 150,000 tons or more of solid waste annually;
- (3) Establish a surcharge exception for solid waste disposed of within the State at permitted or unpermitted waste-to-energy facilities that accept less than 150,000 tons of solid waste annually;
- (4) Exempt ash disposed of in landfills that originates from a waste-to-energy facility from the solid waste management surcharge; and
- (5) Define “waste-to-energy” facility.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the General Contractors Association of Hawaii. Your Committees received comments on this measure from the Department of Health.

Your Committees find that the solid waste management surcharge, last increased in 1997, is the primary funding mechanism for the Department of Health’s solid waste regulatory program. The surcharge also supports mandated solid waste activities including solid waste planning, waste minimization and diversion, lead-acid battery and tire recycling outreach, environmentally preferable purchasing tracking, and leaf blower enforcement. However, these services have been eliminated due to a decrease in revenue and an increase in program costs. Implementation of this measure will assist with solid waste program costs and allow the return of several mandated but eliminated services.

Your Committees have amended this measure by:

- (1) Changing the solid waste management surcharges to unspecified amounts; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 703, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 703, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Green, Ihara).

Public Safety, Intergovernmental and Military Affairs

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Baker, Keith-Agaran).

SCRep. 520 (Joint) Energy and Environment and Government Operations and Public Safety, Intergovernmental and Military Affairs on S.B. No. 498

The purpose and intent of this measure is to require that beginning July 1, 2015, for all state and county agency contracts that include the disposal of liquid or solid waste, the statement for services performed shall include a receipt that the waste was received and disposed of at a licensed facility before full or partial payment is made.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Health, Kailua Neighborhood Board, Zero Waste Kauai, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Accounting and General Services.

Your Committees find that the illegal disposal of liquid or solid waste is a problem for the State's natural resources and the environment. Implementation of this measure will encourage the proper disposal of liquid or solid waste.

Your Committees have amended this measure by:

- (1) Replacing "licensed waste management facility" and "licensed waste facility" throughout the measure with "permitted waste facility";
- (2) Clarifying that the contract requirement applies to waste that requires disposal in a permitted waste facility;
- (3) Inserting language to require that all contracts between private entities that include the disposal of liquid or solid waste that require disposal in a permitted waste facility include a provision that payment will only be made upon receipt of a statement for services performed that includes proof from a permitted waste facility showing that the waste was properly received and lawfully disposed of in an appropriate, permitted waste facility; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment, Government Operations, and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 498, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 498, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs and Vice President on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

Government Operations

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

Public Safety, Intergovernmental and Military Affairs

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 521 (Joint) Tourism and International Affairs and Public Safety, Intergovernmental and Military Affairs on S.B. No. 1071

The purpose and intent of this measure is to clarify that the police may grant applications to acquire firearms to lawful permanent resident aliens.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Honolulu Police Department, National Rifle Association, Hawaii Rifle Association, and twenty-six individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from one individual.

Your Committees find that in the recent United States District Court decision of *Fotoudis v. City and County of Honolulu et al.* Judge Michael Seabright ruled the denial of a permit application to acquire firearms to a lawful permanent resident alien was in violation of the equal protection clause of the United States Constitution. Therefore, your Committees find it prudent to amend the firearm permit application statute in accordance with the ruling.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1071 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Tourism and International Affairs

Ayes, 3. Noes, none. Excused, 2 (English, Tokuda).

Public Safety, Intergovernmental and Military Affairs

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 522 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1368

The purpose and intent of this measure is to prohibit the sale of liquor at street closure events, except under certain conditions.

Your Committee received testimony in support of this measure from the Liquor Commission of the City and County of Honolulu and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Bar Owners Association and two individuals. Your Committee received comments on this measure from the Chinatown Business and Community Association and one individual.

Your Committee finds that street closure events, often funded by the sale of liquor, have increased in size and popularity, greatly affecting residents and businesses. While the events bring in more visitors and revenue, there is concern over the disruptions caused by noise and crowd behavior. Implementation of this measure will further public safety and provide a community-friendly solution to the issues associated with street closure events.

Your Committee has amended this measure by:

- (1) Eliminating the prohibition on liquor sales sold pursuant to a special license;
- (2) Eliminating the requirement that vendors use licensed servers;
- (3) Eliminating the requirement that the Liquor Commission monitor an event with a sufficient number of inspectors and only requiring the Liquor Commission to monitor an event; and
- (4) Inserting an effective date of July 1, 2020, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1368, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1368, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 523 Water and Land on S.B. No. 877

The purpose and intent of this measure is to:

- (1) Amend the definition of “historic property” for purposes of historic preservation;
- (2) Require the Department of Land and Natural Resources to develop a list of the types of projects that have no potential to affect a historic property and a list of the types of properties likely to be eligible for inclusion in the Hawaii Register of Historic Places; and
- (3) Require the Department of Land and Natural Resources to develop a plan for completing a comprehensive inventory of historic buildings in the State and to report to the Legislature accordingly.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu, Historic Hawaii Foundation, and Hawai'i Association of REALTORS. Your Committee received testimony in opposition to this measure from the Society for Hawaiian Archaeology, Building Industry Association of Hawaii, Complete Construction Services, and Office of Hawaiian Affairs. Your Committee received comments on this measure from the Department of Land and Natural Resources and the Chamber of Commerce Hawaii.

Hawaii law provides that any building, structure, object, district, area, or site over fifty years old is considered historic property. Your Committee finds that in certain instances, this law has delayed the granting of permits, which has had a negative impact on development. Application of existing historic preservation law requires review by the State Historic Preservation Division of the Department of Land and Natural Resources prior to the granting of permits for proposed projects on historic properties.

Concerns have been raised especially due to the increasing number of private residences that are or will soon be fifty years old. Beginning around 1950, and particularly after 1960, was a period of growth in construction of housing to accommodate the State's rapidly growing population. Some of these residences are of historic or cultural value, while others are not.

Your Committee has amended this measure by:

- (1) Amending the purpose section to state that the current issues concerning historic properties narrowly focus on the review of privately owned single family residences;
- (2) Changing the definition of “historic property” to add a proviso that privately owned single-family residences fifty years or older shall only be considered historic properties for the purposes of chapter 6E, Hawaii Revised Statutes, if the residence is listed on the Hawaii Register of Historic Places, is nominated for listing on the Hawaii Register of Historic Places, or is located in a historic district;
- (3) Clarifying that properties not included or eligible for inclusion in the Hawaii Register of Historic Places shall not be subject to historic preservation review and that the counties shall not submit projects affecting such properties to the Department of Land and Natural Resources for review;
- (4) Deleting the requirement that the Department of Land and Natural Resources develop a list of types of projects that have no potential to affect a historic property and provide the list to the counties;
- (5) Deleting the requirement that the Department of Land and Natural Resources develop a list of the types of properties likely to be eligible for inclusion in the Hawaii Register of Historic Places and provide the list to the counties;
- (6) Deleting the requirement that the Department of Land and Natural Resources report to the Legislature the plan for completing a comprehensive inventory of historic buildings;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 877, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 877, S.D. 1, and be referred to the Committee on Higher Education and the Arts.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 524 Commerce and Consumer Protection on S.B. No. 40

The purpose and intent of this measure is to:

- (1) Establish the behavior analyst program within the Department of Commerce and Consumer Affairs; and
- (2) Establish licensing requirements for behavior analysts and assistant behavior analysts.

Your Committee received testimony in support of this measure from the Department of Human Services; State Council on Developmental Disabilities; Community Children's Councils of Hawaii; Hawai'i Association for Behavior Analysis; Autism Speaks; Easter Seals Hawaii; Horizons Academy of Maui, Inc.; Family Voices Hawaii; and seven individuals. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs; Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs; Hawaii Disability Rights Center; and Hawaii Medical Service Association.

Your Committee finds that behavior analysts engaged in the practice of behavior analysis typically treat individuals with autism spectrum disorders. Many consumers of applied behavior analysis are children, and some consumers of applied behavior analysis may be nonverbal. It is therefore appropriate for the practice of behavior analysis to be subject to regulation and control by the State.

Your Committee further finds that there are certain measures currently moving through the legislative process, including Senate Bill No. 791, that provide mandated insurance coverage for the diagnosis and treatment of autism. Should such legislation ultimately be enacted, it is critical that behavior analysts, who engage in the practice of behavior analysis with individuals with autism, be fully licensed. Your Committee notes that the licensure requirements proposed by this measure are needed because federal requirements specify providers of services must be licensed in their profession in order to participate in Medicaid. Furthermore, health insurance plans in Hawaii will not provide reimbursement for services provided by behavior analysts unless those individuals are licensed in the State.

Accordingly, this measure addresses the urgent need for a licensing process for behavior analysts. Your Committee notes that it is imperative that the licensing of behavior analysts begin concurrently with any mandated insurance coverage for the diagnosis and treatment of autism.

Your Committee has amended this measure by:

- (1) Deleting language that would have established licensing requirements for assistant behavior analysts and deleting other language referring to assistant behavior analysts;
- (2) Specifying that notwithstanding any other law, the behavior analyst program is established within the Department of Commerce and Consumer Affairs;
- (3) Enabling the Department of Commerce and Consumer Affairs to employ necessary personnel without regard to chapter 76, Hawaii Revised Statutes, to assist with the implementation and functions of the behavior analyst program;
- (4) Specifying that beginning on January 1, 2016, persons must have a license to practice behavior analysis in Hawaii;
- (5) Clarifying that the fine for violating the licensure requirements for behavior analysts and the practice of behavior analysis shall be \$1,000 for each separate offense;
- (6) Clarifying that the Director of Commerce and Consumer Affairs has the power to discipline a behavior analyst, including for violations of the Behavior Analyst Certification Board's ethical guidelines for responsible conduct;
- (7) Requiring each behavior analyst to pay a surcharge in addition to license or renewal fees, to be maintained in a separate account within the compliance resolution fund and noting that the surcharges shall be transferred to the compliance resolution fund until sums transferred equal the sums appropriated by this measure;
- (8) Clarifying the persons exempted from the behavior analyst licensure requirements established by this measure;
- (9) Specifying that behavior analyst licenses shall be valid for two years;
- (10) Clarifying the grounds for refusal to renew, reinstate, or restore a license and for denial, revocation, suspension, or condition of a license;
- (11) Specifying that the fine for violating certain acts or conditions on the part of a licensee or licensee applicant shall be not more than \$1,000 per violation;
- (12) Inserting an unspecified repeal date for the behavior analyst program under section 26H-4, Hawaii Revised Statutes;
- (13) Appropriating an unspecified sum out of the compliance resolution fund to implement the behavior analyst program;
- (14) Updating the purpose section accordingly;
- (15) Inserting an effective date of July 1, 2015; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 40, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Slom).

SCRep. 525 Human Services and Housing on Gov. Msg. Nos. 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, and 535

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII COMMUNITY DEVELOPMENT AUTHORITY

- G.M. No. 525 JOHN WHALEN, for a term to expire 6-30-2019;
- G.M. No. 526 TOM MCLAUGHLIN, for a term to expire 6-30-2018;
- G.M. No. 527 AMY S. LUERSEN, for a term to expire 6-30-2019;
- G.M. No. 528 DONNA CAMVEL, for a term to expire 6-30-2017;
- G.M. No. 529 BRETT N. PREJEAN, for a term to expire 6-30-2018;
- G.M. No. 530 MICHAEL J. GOLOJUCH, SR., for a term to expire 6-30-2018;
- G.M. No. 531 SHIRLEY S. SWINNEY, for a term to expire 6-30-2018;
- G.M. No. 532 DEAN K. CAPELOUTO, for a term to expire 6-30-2017;
- G.M. No. 533 JASON T. OKUHAMA, for a term to expire 6-30-2017;
- G.M. No. 534 WILLIAM OH, for a term to expire 6-30-2019; and
- G.M. No. 535 STEVEN J. SCOTT, for a term to expire 6-30-2017

Your Committee has reviewed the personal histories and statements submitted by the nominees and finds John Whalen; Tom McLaughlin; Amy S. Luersen; Donna Camvel; Brett N. Prejean; Michael J. Golojuch, Sr.; Shirley S. Swinney; Dean K. Capelouto; Jason T. Okuhama; William Oh; and Steven J. Scott to possess the requisite qualifications to be nominated to the Hawaii Community Development Authority (HCDA).

JOHN WHALEN

Your Committee received testimony in support of John Whalen from Kaka'ako United, Civilian Personnel Advisory Center, Wallace Theaters Management Corporation, and six individuals.

Mr. Whalen is an urban and regional planner whose professional career spans more than four decades and includes substantial administrative roles in government and private practice. Prior to forming his consulting firm, he served as Director of Land Utilization for the City and County of Honolulu. One of Mr. Whalen's higher profile public projects was the revision of the Kaka'ako Mauka Area Plan for HCDA in 2006. He holds a Master of Arts in Public Law and Government and Master of Science in Urban Planning from Columbia University and a Bachelor of Arts in Political Science and Pre-Architecture from Rutgers University.

Mr. Whalen indicated in his personal statement that he hopes to bring his years of experience in community planning to HCDA to help guide the future of Kaka'ako.

Your Committee finds that Mr. Whalen's past experiences with community planning, as well as his continuing commitment to issues relating to urban planning and community needs, will be great assets to HCDA.

TOM MCLAUGHLIN

Your Committee received testimony in support of Tom McLaughlin from Hokua and eight individuals.

Mr. McLaughlin is currently transitioning from private sector consulting work to greater community involvement and mentoring and advisory assistance to emerging Hawaii-based companies. Previously, he served as Director of Business Development for Kualoa Ranch and Senior Partner for Ventures, LLC. Mr. McLaughlin earned degrees in General Business Studies at Chaminade University and Business Administration Studies at the University of Hawaii.

Mr. McLaughlin indicated in his personal statement that he believes that what is done in Kaka'ako now will have profound impact on people living in the urban core of Honolulu for the next fifty to one hundred years. Furthermore, he believes that the decisions of HCDA need to be explained better to the public, even if it means having some uncomfortable discussions.

Your Committee finds that Mr. McLaughlin's past experiences with business development, as well as his continuing commitment to issues relating to community involvement and transparency, will be great assets to HCDA.

AMY S. LUERSEN

Your Committee received testimony in support of Amy S. Luersen from the Hawaii Community Development Authority, Ko'olaupoko Hawaiian Civic Club, and five individuals.

Ms. Luersen is currently the Director of Philanthropic Services at the Hawaii Community Foundation. There, she leads a team responsible for providing efficient and effective client services for donors, private foundation grants management services, and scholarships and funds. In the past, Ms. Luersen was a community planning consultant, providing services for various community

development organizations. She holds a Masters of Regional Planning from Cornell University and a Bachelor of Arts in Sociology and Urban Studies from Denison University.

Ms. Luersen indicated in her personal statement that she supports the development of a Heeiea district master plan that is developed with broad community and support. She also indicated that she feels she can serve as a liaison between the community and planning for this critical ahupua'a.

Your Committee finds that Ms. Luersen's past experiences with city and regional planning, as well as her continuing commitment to the mission of the Heeiea district to facilitate culturally appropriate agriculture, education, and natural resource restoration and management of the Heeiea wetlands, will be great assets to HCDA.

DONNA CAMVEL

Your Committee received testimony in support of Donna Camvel from the Ko'olaupoko Hawaiian Civic Club.

Ms. Camvel is currently a doctoral candidate in the Political Science Department at the University of Hawaii at Manoa, specializing in Indigenous Politics. Ms. Camvel has experience in community organizing and event planning for He'e'ia Historical Society. She has also traveled for the past eight years to the United Nations Permanent Forum on Indigenous Issues in New York as a student representative for the University of Hawaii to talk about Native Hawaiian and indigenous issues. She received a Master's degree in Hawaiian Studies and Bachelor of Arts degrees in Women's Studies and Hawaiian Studies from the University of Hawaii.

Ms. Camvel indicated in her personal statement that she can provide HCDA with valuable cultural expertise and community knowledge of the He'e'ia ahupua'a.

Your Committee finds that Ms. Camvel's past experiences with indigenous issues, as well as her continuing commitment to natural resource management, will be great assets to HCDA.

BRETT N. PREJEAN

Your Committee received testimony in support of Brett N. Prejean from Honua Consulting, Ko'olaupoko Hawaiian Civic Club, Salem Media of Hawaii, and one individual.

Mr. Prejean currently owns and operates Hawaiian Ocean Adventures, LLC, an authentic Hawaiian sailing canoe tour business at the Disney Aulani Resort. He has also recently opened a second business location at Heeiea State Park in partnership with Kama'aina Kids. As a means of perpetuating the Hawaiian culture, Mr. Prejean began learning the art of canoe building from master canoe builder Kirk Clarke over twenty years ago. He currently holds a United States Coast Guard license and has logged over 26,000 blue water sailing miles.

Your Committee finds that Mr. Prejean's past experiences within the sport of canoe sailing, as well as his continuing commitment to preserving the Hawaiian culture, will be great assets to HCDA.

MICHAEL J. GOLOJUCH, SR.

Your Committee received testimony in support of Michael J. Golojuch, Sr., from thirty-four individuals.

Mr. Golojuch recently served as Administrative Services Officer for the Department of Budget and Fiscal Services at the City and County of Honolulu. There, he managed all human resource management actions for the Department, including training, performance evaluations, labor relations, and employee assistance. Mr. Golojuch was previously the Labor Relations Officer for the Department of Facility Maintenance at the City and County of Honolulu and is currently an adjunct faculty for the University of Phoenix, teaching undergraduate and graduate courses in business and management at the Hawaii campus and online. He holds a Master's degree in Public Administration from the University of Hawaii, Master of Science in Business Administration from the University of Northern Colorado, and a Bachelor of Arts in Business Management from San Diego State University.

Mr. Golojuch indicated in his personal statement that his background in the military, experience with the State and City and County of Honolulu, and awareness of community needs will be valuable as HCDA looks to the overall development of the Kalaeloa lands.

Your Committee finds that Mr. Golojuch's past experiences in the public sector, as well as his continuing commitment to understanding the myriad needs and considerations in the development process, will be great assets to HCDA.

SHIRLEY S. SWINNEY

Your Committee received testimony in support of Shirley S. Swinney from the Department of Hawaiian Home Lands; Hawaii Community Development Authority; PBR Hawaii & Associates, Inc.; Resort Holdings, LLC; and seven individuals.

Ms. Swinney is currently the President and founder of Kapolei Community Development Corporation, which plans, designs, and implements initiatives by and for the Kapolei homestead beneficiaries. Previously, she was a Circuit Court Clerk II at the Hawaii State Judiciary, coordinating facilities and personnel for court proceedings among other duties. Ms. Swinney is also highly involved in several organizations throughout the community, such as the Malama Learning Center, Special Olympics Hawaii, and Ho'opili Task Force. She holds an Associate of Arts Degree from Leeward Community College and a Business Certificate from Honolulu Business College.

Ms. Swinney indicated in her personal statement that she recognizes how the community is vital in developing Kalaeloa's cultural, economic, and social resources for a sustainable future.

Your Committee finds that Ms. Swinney's past experiences with homestead initiatives, as well as her continuing commitment to the community of Kalaeloa, will be great assets to HCDA.

DEAN K. CAPELOUTO

Your Committee received testimony in support of Dean K. Capelouto from Kanehili Cultural Hui and three individuals.

Mr. Capelouto is currently the General Manager, Information Technology Manager, and Operations Manager for Oahu Express, Ltd., where his responsibilities range from managing day to day scheduling operations to ensuring conformity to federal and state regulations and requirements. He is also a member of the Kapolei-Makakilo Neighborhood Board and serves as Chair of Transportation of the Board. He holds a Master's degree in Information Systems from the University of Phoenix and a Bachelor's degree in Business Administration from Wayland Baptist University.

Mr. Capelouto indicated in his personal statement that he wants to find ways to develop the area of Kalaeloa in a way that leverages public and private partnerships for the benefit of all, while being respectful of the need to preserve cultural, historic, and open spaces for future generations.

Your Committee finds that Mr. Capelouto's past managerial experience in information technology and operations, as well as his continuing commitment to transparency and open communication to foster community involvement, will be great assets to HCDA.

JASON T. OKUHAMA

Your Committee received testimony in support of Jason T. Okuhama from the Hawaii Alliance for Community-Based Economic Development; Marcus & Associates, Inc.; Kaka'ako United; Yamamoto Caliboso, LLC; AOA Century Square; and six individuals.

Mr. Okuhama is currently Managing Partner for Hawaii Lending Specialists, LLC, which provides services for loan origination, sales, marketing, and underwriting. He is also involved in many community organizations, serving as Board President for One Waterfront Towers, Board Treasurer for Century Square AOA, and Board President for Hawaii Alliance for Community-Based Economic Development.

Mr. Okuhama indicated in his personal statement that he has always felt it was his civic duty to participate in and support his community, especially by utilizing his experience in the banking and lending industry.

Your Committee finds that Mr. Okuhama's past experiences with the banking and lending industry, as well as his continuing commitment to issues relating to the housing needs of middle, moderate, and lower income individuals, will be great assets to HCDA.

WILLIAM OH

Your Committee received testimony in support of William Oh from CBRE, Inc.; Hawaii Kyocharo Publishing; D&D Communications; and nine individuals.

Mr. Oh is an accomplished professional with proven experience in strategic planning, mergers and acquisitions, real estate and corporate valuation, and consumer finance and lending. He is the founder of Standard Financial, Inc., where he secured an exclusive leading partnership with Hana Financial, Inc., to commence small business administration lending operations as a non-bank lender for the small business community in Hawaii. He was also a Project Manager at SK Corporation, Inc., in Seoul, Korea.

Mr. Oh indicated in his personal statement that he believes that gentrification can be done in the State that assimilates with local residents and creates opportunities for more affordable housing.

Your Committee finds that Mr. Oh's past experiences with real estate finance and mortgages, as well as his continuing commitment to address affordable housing for local residents of Hawaii, will be great assets to HCDA.

STEVEN J. SCOTT

Your Committee received testimony in support of Steven J. Scott from Honolulu Emergency Services Department, City and County of Honolulu; U. Okada & Co., Ltd.; Kaka'ako United; Hawaii Receivables Management, LLC; and eight individuals.

Mr. Scott is owner, President, and Chief Executive Officer for Scott Shoe Co., Ltd., a family-owned business in central Kaka'ako since 1955. He has also served in community organizations, such as the Kaka'ako Business and Landowners Association and the Kaka'ako Improvement Association. Mr. Scott has first-hand knowledge on the plans, infrastructure, and small business needs of the community.

Your Committee finds that Mr. Scott's past experiences in the small business community of Kaka'ako, as well as his continuing commitment to developing a thriving small business community, will be great assets to HCDA.

As affirmed by the records of votes of the members of your Committee on Human Services and Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Riviere).

SCRep. 526 Commerce and Consumer Protection on Gov. Msg. No. 524

Recommending that the Senate advise and consent to the nomination of the following:

CHAIRPERSON OF THE PUBLIC UTILITIES COMMISSION

G.M. No. 524 RANDALL IWASE, for a term to expire 6-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Randall Iwase to possess the requisite qualifications to be nominated to the Public Utilities Commission.

Your Committee received testimony in support of the nomination of Randall Iwase from the Office of the Governor; Department of Budget and Finance; Department of Transportation; Ironworkers Stabilization Fund; International Longshore and Warehouse Union,

Local 142; Hawaii Laborers-Employers Cooperation and Education Trust; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Ulupono Initiative; Blue Planet Foundation; Young Brothers, Limited; Capitol Consultants of Hawaii, LLP; and seventeen individuals.

Upon review of the testimony, your Committee finds that Mr. Iwase's background, experience, and commitment to public service qualify him for appointment as the Chairperson of the Public Utilities Commission. Your Committee notes that Mr. Iwase has extensive experience in the public sector. Mr. Iwase began his career in the Department of the Attorney General where his division provided legal counsel to various state agencies, including the Public Utilities Commission. Mr. Iwase served three years on the Honolulu City Council, where he served as Chair of the Budget and Finance Committee, and later served ten years in the Hawaii State Senate. While in the Senate, Mr. Iwase was the Chair of the Senate Committee on Planning, Land, and Water Use Management and a Majority Whip. More recently, Mr. Iwase served as the Chair of the Hawaii Labor and Industrial Relations Appeals Board from 2000 through 2006 and Chair of the Hawaii State Tax Review Commission from 2011 through 2012.

Your Committee further finds that Mr. Iwase recognizes and supports the State's energy policies and goals and acknowledges the regulatory responsibilities that the Public Utilities Commission must fulfill in support of those goals. Through his years of public service, Mr. Iwase has gained a thorough understanding of public policy and acknowledges the historical importance of the decisions that the Public Utilities Commission must make in upcoming years. This insight will be critical in light of the major dockets currently before the Public Utilities Commission, including the merger application recently filed by Hawaiian Electric Industries, Inc., and NextEra Energy, Inc.

Your Committee notes that Mr. Iwase's varied legal and political experience will be an invaluable complement to the policy and technical expertise of the other Public Utilities Commissioners and therefore recommends that Mr. Iwase be appointed as Chairperson of the Public Utilities Commission based on his knowledge, background, and dedication to serving the public.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 527 Public Safety, Intergovernmental and Military Affairs on S.B. No. 564

The purpose and intent of this measure is to extend the sunset date of Act 24, Special Session Laws of Hawaii 2009, as amended, to allow the Reentry Commission to continue its work.

Your Committee received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, and three individuals.

Your Committee finds that Act 24, Special Session Laws of Hawaii 2009, as amended (Act 24), established the Reentry Commission to work with the Department of Public Safety in monitoring and reviewing the comprehensive offender reentry program, including facility educational and treatment programs, rehabilitative services, work furloughs, and the Hawaii Paroling Authority's oversight of parolees. However, Act 24 sunsets on December 1, 2015. Extending the sunset date is critical to continuing the valuable work of the Reentry Commission in ensuring the successful transition of offenders into the community.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 564, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 564, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 528 Ways and Means on Gov. Msg. No. 519

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF BUDGET AND FINANCE

G.M. No. 519 WESLEY MACHIDA, for a term to expire 12-3-2018

Your Committee has reviewed the personal statement and resume submitted by Wesley Machida and had the opportunity to discuss with Mr. Machida his professional and educational background and goals for leading the Department of Budget and Finance.

Your Committee received testimony in support of the nomination of Mr. Machida as the Director of Finance from representatives of the Office of the Governor, the Department of Budget and Finance, the University of Hawaii, the Department of Transportation, the Employees' Retirement System, the Hawaii State Public Library System, Capitol Consultants of Hawaii LLP, Accuity LLP, and nine individuals.

Wesley Machida is a familiar and trusted face before your Committee as a result of his longstanding service with the Employees' Retirement System (ERS). He most recently served as the Executive Director of the ERS from 2010 to 2014, a period which encompassed the Great Recession and many governmental accounting rule changes.

As a result of Mr. Machida's leadership and expertise, our State has been able to take on meaningful reforms of the ERS and address the unfunded pension liability of our public employees. He deserves much credit for the difficult, but wise, policy decisions

that were made by the Legislature and Administration to restrain pension cost and liability, especially as we look to make continued commitments and budget for annual required contributions.

Mr. Machida also has had over thirty years of financial experience as a certified public accountant. He has served as the ERS Associate Administrator and in various auditor positions in both the public and private sectors. His thoughtful approach to challenging situations and his depth of understanding and knowledge of the issues at hand gained him the confidence and trust of his colleagues and the public employees that have been the ERS's beneficiaries. It is evident in speaking to Mr. Machida that he values these relationships and the importance of public service, and will approach his new position with the same humility, perseverance, and respect that he has in his previous roles.

While revenue collections have been improving, our State government is facing many budgetary challenges in the near term. We have significant obligations and commitments, as Mr. Machida is all too well aware from his previous role at the ERS, and he has made it clear in his presentations of the Administration's financial plan that the State must be prudent in its expenditures in order to preserve adequate ending balances and reserves.

Your Committee finds that Wesley Machida is well qualified and committed to working with the Governor and the Legislature to maintain the fiscal and budgetary health of the State while providing services necessary for the public health, safety, and general welfare and investing in programs and projects for the benefit of citizens in the future. Your Committee is confident that Mr. Machida will provide sound and objective advice to the Governor and Legislature. Consequently, your Committee supports his confirmation as the Director of Finance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 529 Ways and Means on Gov. Msg. No. 520

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY DIRECTOR OF THE DEPARTMENT OF BUDGET AND FINANCE

G.M. No. 520 RODERICK BECKER, for a term to expire 12-3-2018

Your Committee has reviewed the personal statement and resume submitted by Roderick Becker and had the opportunity to discuss with Mr. Becker his professional and educational background and goals for helping lead the Department of Budget and Finance.

Your Committee received testimony in support of the nomination of Mr. Becker as the Deputy Director of Finance from representatives of the Office of the Governor, Department of Budget and Finance, University of Hawaii, Department of Transportation, Department of Land and Natural Resources, Department of Health, the Hawaii State Public Library System, the Honolulu City Council, and seventeen individuals.

It is to be noted that your Committee takes special pride in supporting the nomination of Roderick Becker. He served as this Committee's Budget Chief from 2008-2014, and as a budget analyst for many years before that. He was a professional and diligent worker, objective in his recommendations to past Chairs of your Committee, and extremely knowledgeable about State budget and revenue issues. Mr. Becker was an asset who assisted the Legislature greatly in crafting budgets that helped us through the Great Recession, and these skills and experiences will be invaluable as we face the fiscal challenges and opportunities that lie ahead.

Your Committee is confident that Mr. Becker will serve the Governor and Director of Finance as well as he previously served the Senate and your Committee. Your Committee also is confident that Mr. Becker will provide sound and objective advice to the Legislature. Consequently, your Committee supports his confirmation as the Deputy Director of Finance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 530 Ways and Means on Gov. Msg. No. 521

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF TAXATION

G.M. No. 521 MARIA ZIELINSKI, for a term to expire 12-3-2018

Your Committee has reviewed the personal statement and resume submitted by Maria Zielinski and had the opportunity to discuss with Ms. Zielinski her professional and educational background and plans for leading the Department of Taxation.

Your Committee received testimony in support of the nomination of Ms. Zielinski as the Director of Taxation from representatives of the Office of the Governor, the University of Hawaii, the Department of Transportation, the Campaign Spending Commission, Capitol Consultants of Hawaii LLP, Accuity LLP, and twelve individuals.

Maria Zielinski is a certified public accountant with over twenty-five years of experience in senior financial management positions in the public, private, and non-profit sectors. Most recently, Ms. Zielinski served as the Deputy Comptroller for the State and the Accounting Systems Administrator for the County of Maui. During her tenure in those positions, she led the effort to produce those

jurisdictions' comprehensive annual financial reports (CAFR) in a timely manner, which was critical for both the State and the County's credit rating. As a result of her leadership, the State's CAFR and Schedule of Expenditures of Financial Awards (SEFA) were completed on time for the first time in over ten years. Similarly in Maui, Ms. Zielinski was able to complete the county's CAFR and SEFA on time, an accomplishment that had not been achieved in over thirty years and resulted in annual Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting Awards.

Before her governmental service, Ms. Zielinski was a financial officer for the California School Employees Association, Haleakala Ranch Company Inc., and Baldwin Pacific Corporation/Haleakala Dairy.

The Department of Taxation is facing many challenges, particularly in the implementation of the tax system modernization project, imposition of state taxes on on-line travel companies, and improvement of the tax compliance, collection, and customer service operations.

In discussions with Ms. Zielinski, it is clear that she is committed to implementing the tax modernization system with fidelity, while also working with the individuals in her department to develop a culture and practice that is responsive to the needs of the various constituencies with which they work.

Your Committee finds that Maria Zielinski is qualified and able to lead the Department to effectively and efficiently perform its duties. Consequently, your Committee supports her confirmation as the Director of Taxation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 531 Ways and Means on S.B. No. 92

The purpose and intent of this measure is to amend the law regarding taxation.

Your Committee has amended this measure by inserting language that:

- (1) Requires the Department of Taxation to publish reports on certain general excise tax exemptions; and
- (2) Repeals specific annual reporting deadlines.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 92, as amended herein, and recommends that it be recommitted to the Committee on Ways and Means, in the form attached hereto as S.B. No. 92, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (English, Harimoto, Slom).

SCRep. 532 Commerce and Consumer Protection on S.B. No. 13

The purpose and intent of this measure is to expand doctoral degree requirements for licensing of psychologists to include additional doctoral programs accredited by the American Psychological Association.

Your Committee received testimony in support of this measure from the Board of Psychology and Hawai'i Psychological Association.

Your Committee finds that this measure expands the doctoral degree requirement for psychologist licensure to include additional doctoral programs accredited by the American Psychological Association. This will expand the scope of doctoral level education, internship training, and post-doctoral specialty training and allow for greater opportunities for licensure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 13 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 533 Judiciary and Labor on S.B. No. 143

The purpose and intent of this measure is to propose a constitutional amendment to article I, section 13, of the Hawaii State Constitution to increase the threshold value in controversy requirement for jury trials in civil cases at common law from \$5,000 to \$10,000.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company.

Your Committee finds that this measure may assist in lessening the burden on Circuit Courts with matters not involving large sums of money. Your Committee further finds that increasing the threshold value may lessen costs to the parties involved because a jury trial in Circuit Court can be more expensive than a bench trial in District Court.

Your Committee has amended this measure by deleting the ratification language pursuant to article XVII, section 3, of the Hawaii State Constitution and inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 143, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 534 Judiciary and Labor on S.B. No. 209

The purpose and intent of this measure is to expand the offense of promoting a dangerous drug in the first degree to include possession of one or more preparations, compounds, mixtures, or substances of an aggregate weight of fifty or more capsules, tablets, ampules, dosage units, or syrettes containing one or more dangerous drugs.

Your Committee received testimony in support of this measure from the Department of Public Safety; Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; Honolulu Police Department, City and County of Honolulu; and Maui Police Department, County of Maui. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that under existing law, for a person to be charged with promoting a dangerous drug in the first degree for possession of a pharmaceutical controlled substance, the suspect must possess one ounce or more of a Schedule II pharmaceutical controlled substance. However, Schedule II pharmaceutical controlled substances are in various forms, including pills, capsules, and syringes. This measure recognizes these various forms by expanding the offense of promoting a dangerous drug in the first degree to include possession of fifty or more capsules, tablets, ampules, dosage units, or syrettes containing one or more dangerous drugs.

Your Committee has amended this measure by:

- (1) Clarifying that the offense includes possession of fifty or more capsules, tablets, ampules, dosage units, or syrettes containing one or more dangerous drugs rather than the aggregate weight of fifty or more capsules, ampules, dosage units, or syrettes;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 209, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 209, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 535 Judiciary and Labor on S.B. No. 214

The purpose and intent of this measure is to:

- (1) Establish exclusive jurisdiction of the Small Claims Division of the District Court over cases in which the amount claimed is \$1,000 or less; and
- (2) Expand the jurisdiction of the Small Claims Division over personal property cases to include the return of any personal property worth \$5,000 or less.

Your Committee received testimony in support of this measure from the Judiciary. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing law allows plaintiffs to file their claims in the Small Claims Division or Regular Claims Division of the District Court. This measure will allow plaintiffs to file in the Small Claims Division when the amount in controversy is \$1,000 or less, which is more efficient and less costly for the plaintiff.

Your Committee has amended this measure by:

- (1) Making conforming amendments to section 633-28, Hawaii Revised Statutes, to reflect the amendments made to section 633-27, Hawaii Revised Statutes; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 214, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 536 (Majority) Judiciary and Labor on S.B. No. 218

The purpose and intent of this measure is to clarify the order of succession to the Office of the Lieutenant Governor when that office becomes vacant by:

- (1) Requiring that the President of the Senate or the Speaker of the House of Representatives in the order of succession be in the same political party as the Governor;

- (2) Deleting the Attorney General, Director of Finance, Comptroller, Director of Taxation, and Director of Human Resources Development from the order of succession; and
- (3) Adding to the order of succession after the Speaker of the House of Representatives a person appointed by the Governor who is a member of the same political party as the Governor and qualified to hold that office pursuant to the Hawaii State Constitution.

Your Committee received testimony in opposition to this measure from the Department of Budget and Finance.

Your Committee finds that the requirement that the successor to the Office of the Lieutenant Governor be of the same political party as the Governor allows for an expeditious transition of the powers and duties to the successor. This measure will provide for a more efficient execution of government services as well as ensure that policies and initiatives are not compromised upon the change in the Office of the Lieutenant Governor.

Your Committee has amended this measure by:

- (1) Reinstating the Director of Finance in the order of succession to the Office of Lieutenant Governor;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 218, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 218, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Espero, Ihara).

SCRep. 537 Judiciary and Labor on S.B. No. 223

The purpose and intent of this measure is to:

- (1) Prohibit the Office of the Public Guardian from petitioning for its own appointment as guardian of the person for an incapacitated person; and
- (2) Authorize the court to allow the Office of the Public Guardian to manage a ward's financial assets where no conservatorship is in effect.

Your Committee received testimony in support of this measure from the Office of the Public Guardian of the Judiciary. Your Committee received comments on this measure from one individual.

Your Committee finds that for the past ten years, the Office of the Public Guardian has declined to petition the court for its own appointment due to the potential for conflicts of interest. This measure codifies this practice by prohibiting the Office of the Public Guardian from petitioning for its own appointment while allowing private and public entities and the Department of Human Services to petition for the Office of the Public Guardian's appointment as guardian pursuant to section 560:5-304, Hawaii Revised Statutes.

Your Committee further finds that in situations where a ward of the Office of the Public Guardian has assets that should be protected in a conservatorship but no conservatorship is in place, this measure authorizes the Office to manage and oversee the financial assets of that ward.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Office of the Public Guardian that adds "emergency guardian" and substitutes "temporary guardian" with "temporary substitute guardian" under the types of guardian the public guardian is authorized to serve as; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 538 Judiciary and Labor on S.B. No. 442

The purpose and intent of this measure is to:

- (1) Establish the forwarding address for receiving absentee ballots permanently as the mailing address in a voter's registration record; and
- (2) Require voters seeking to have permanent absentee ballots forwarded to another address to reapply for an absentee ballot.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the City Clerk, City and County of Honolulu; Office of the County Clerk, County of Maui; Office of the County Clerk, County of Kauai; Office of the County Clerk, County of Hawaii; and League of Women Voters of Hawaii. Your Committee received comments on this measure from one individual.

Your Committee finds that a permanent absentee voter is required to maintain current information in two separate records: a voter registration record and a permanent absentee record. Permanent absentee ballots are mailed to the mailing address on the permanent

absentee record. However, some permanent absentee voters update their voter registration record, but not their permanent absentee record. As a result, the absentee ballots are returned to the respective county clerk's office as undeliverable by the United States Postal Service. This measure will increase efficiency by automatically updating the permanent absentee record when the voter registration record is updated.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of the City Clerk that inserts a conforming amendment to the requirements for the voter registration affidavit to clarify that the mailing address required to be included in the residence information be within the county of the applicant;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 442, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 539 Judiciary and Labor on S.B. No. 452

The purpose and intent of this measure is to require that supplemental campaign spending reports be filed annually on January 31 rather than after an election year.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii. Your Committee received comments on this measure from one individual.

Your Committee finds that existing law requires every candidate to file a supplemental report by January 31 after an election year and July 31 after an election year. This measure will align the law with the present practice of candidates annually filing with the Campaign Spending Commission supplemental reports by January 31.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 452, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 452, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 540 Judiciary and Labor on S.B. No. 622

The purpose and intent of this measure is to require the Elections Commission to conduct a performance evaluation of the Chief Election Officer after each election and submit a written report regarding the evaluation to the Legislature.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, and one individual.

Your Committee finds that during the 2012 and 2014 elections, concerns were raised about the performance of the Chief Election Officer. This measure requires a performance evaluation of the Chief Election Officer after each election to assist in maintaining the integrity and efficiency of elections.

Your Committee notes the concerns raised in the written testimony submitted by the League of Women Voters of Hawaii that requiring a performance evaluation to be conducted after each election may be problematic due to the relatively short period of time between a primary election and general election.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that the Elections Commission conduct a performance evaluation of the Chief Election Officer after each general election rather than each election and report on other evaluation after the general election results; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 622, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 622, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 541 Judiciary and Labor on S.B. No. 643

The purpose and intent of this measure is to:

- (1) Remove duplicative provisions in awarding grandparents reasonable visitation rights;
- (2) Add to the prerequisites for awarding reasonable visitation rights to a grandparent when the court finds that awarding visitation is in the best interest of the child and that denial of reasonable visitation rights would cause actual or potential harm to the child; and
- (3) Clarify procedures in awarding reasonable grandparent visitation rights.

Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that this measure addresses the concerns raised by the Hawaii Supreme Court by clarifying that parents have a fundamental privacy right in making childrearing decisions and that there is a presumption that their decisions regarding visitation are in their child's best interest and requiring that if a grandparent challenges the visitation decisions made by a parent, the court must find that the denial of visitation would cause actual or potential harm to the child. However, the Department of the Attorney General indicated in written testimony that the Hawaii Supreme Court held that the standard is not a showing of actual or potential harm, but that the denial of visitation would cause significant harm to the child.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Attorney General that replaces a showing of actual or potential harm with a showing of significant harm to the child;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 643, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 643, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 542 (Joint) Energy and Environment and Health on S.B. No. 1049

The purpose and intent of this measure is to prohibit, beginning on January 1, 2016, an electronic device manufacturer's recycling plan from providing an electronic device owner with only a mail-back option to return a covered electronic device to the electronic manufacturer for recycling.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Green Growth, Ulupono Initiative, and Consumer Electronics Association. Your Committees received comments on this measure from Sims Recycling Solutions.

Your Committees find that electronic waste is one of the fastest growing waste streams in the State. As technology advances and more electronic products are produced and consumed by the public, the generation of electronic waste is expected to increase. Providing only a mail-back option to return a covered electronic device to the electronic manufacturer for recycling is prohibitively expensive and time consuming for consumers and businesses. Implementation of this measure will increase electronic waste recycling and further the State's goal of waste reduction.

Your Committees have amended this measure by:

- (1) Clarifying that an electronic device manufacturer's recycling plan that provides only a mail-back option for the collection, transportation, and recycling of a manufacturer's covered electronic devices sold in the State shall not be approved by the Department of Health;
- (2) Inserting language to authorize the submission to the Department of Health of the recycling plan of an electronic device manufacturer of exclusively mobile covered electronic devices whose products are voluntarily accepted at no charge by at least fifty retail locations in the State if the recycling plan documents these locations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1049, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1049, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Health

Ayes, 5. Noes, none. Excused, 2 (Baker, Ruderman).

SCRep. 543 (Joint) Agriculture and Energy and Environment on S.B. No. 320

The purpose and intent of this measure is to allow composting on all lands with soil classified by the Land Study Bureau's detailed land classification as overall (master) productivity rating class A or B.

Your Committees received testimony in support of this measure from the Department of Planning and Permitting; Maui EKO Systems, Inc.; Zero Waste Campaign Maui; Malama O Puna; Pacific Biodiesel Technologies; Hawaii County Council District 9; the

Kona Chapter of Hawaii Farmers Union United; and seventeen individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Agriculture, Department of Health, and one individual.

Your Committees find that composting helps to achieve several environmental goals, including diversion of waste from landfills, prevention of the release of methane, improved soil quality, and overall waste reduction. However, composting must occur at appropriate locations and in an appropriate manner to avoid potential environmental problems to land surface, ground water, and air quality.

Your Committees have amended this measure by:

- (1) Inserting language to similarly amend section 205-2(d), Hawaii Revised Statutes, thereby allowing composting operations on all agricultural district lands, soil classifications A through E;
- (2) Deleting language that referenced recycling activity and approved solid waste management activity;
- (3) Requiring a special use permit for composting to ensure compliance with the Department of Agriculture pest management plan and any other land use concerns;
- (4) Adding language to restrict composting on A and B classified soil to on-site uses on the lesser of one acre or ten percent of the land; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 320, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 320, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture

Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

Energy and Environment

Ayes, 3. Noes, none. Excused, 2 (Green, Slom).

SCRep. 544 (Joint) Public Safety, Intergovernmental and Military Affairs and Tourism and International Affairs on S.B. No. 409

The purpose and intent of this measure is to authorize a zoning ordinance to provide for the amortization or phasing out of nonconforming single-family transient vacation rentals over a reasonable period of time in an area of any zoning classification.

Your Committees received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu and Hawaii State Association of Counties.

Your Committees find that the number of single-family transient vacation rentals in the State has grown throughout the years. However, due to ambiguity surrounding county zoning authority, the counties often have to resolve claims from owners that claim their property is primarily used for residential purposes and not commercial purposes. This allows property owners to circumvent various regulations. Implementation of this measure will reduce county enforcement issues and enable counties to bring non-conforming vacation rentals into compliance.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental and Military Affairs and Tourism and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 409, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 409, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental and Military Affairs

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Keith-Agaran).

Tourism and International Affairs

Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (English, Tokuda).

SCRep. 545 Public Safety, Intergovernmental and Military Affairs on S.B. No. 673

The purpose and intent of this measure is to increase the number of Pacific International Space Center for Exploration Systems' Board of Directors members to eleven by adding the Director of the Office of Aerospace Development.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the Pacific International Space Center for Exploration Systems' collaborative technology efforts present the State with a valuable opportunity to leverage the State's unique geography and resources. Implementation of this measure will ensure that the appropriate stakeholders are leading the maturation and utilization of these pioneering technologies.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 673 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 546 Public Safety, Intergovernmental and Military Affairs on S.B. No. 388

The purpose and intent of this measure is to require each county police department to post its policies relating to domestic violence, officer-involved domestic violence, and standards of conduct on its official website.

Your Committee received testimony in support of this measure from the Domestic Violence Action Center, League of Women Voters, Hawaii State Democratic Women's Caucus, Hawaii State Coalition Against Domestic Violence, and one individual.

Your Committee finds that as public servants charged with the critical role of responding to domestic violence, it is critical that law enforcement officers are well-trained, well-supervised, and accountable for their work. Clear policies relating to domestic violence, officer-involved domestic violence, and standards of conduct provide law enforcement officers and the public with expectations regarding conduct. Implementation of this measure will provide accountability and transparency and increase the public's confidence in the police departments.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 388 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 547 Commerce and Consumer Protection on S.B. No. 17

The purpose and intent of this measure is to clarify that the required disclosure of documents by a seller for a residential real property that is subject to restrictions or conditions on use applies to documents that are within a seller's knowledge or control.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS.

Your Committee finds that various sections in chapter 508D, Hawaii Revised Statutes, were amended in 2013 to, among other things, establish a uniform standard of disclosure for consumers and real estate licensees involved in planned community association, condominium project, and cooperative housing corporation transactions. However, concerns have been raised that the amended disclosure requirements under chapter 508D, Hawaii Revised Statutes, created a burden upon sellers who may not have knowledge or control of unrecorded rules or guidelines.

Your Committee further finds that buyers are protected by an existing statutory duty that requires sellers to act in good faith and disclose all material facts. This measure does not affect that existing duty but rather clarifies that the requirement to disclose documents applies to those documents within a seller's knowledge or control.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 17 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 548 Ways and Means on S.B. No. 1106

The purpose and intent of this measure is to reflect program changes within the Department of Human Services by substituting specific references in the Hawaii Revised Statutes to "QUEST" and "QUEST Expanded Access" with "medicaid managed care" or "medicaid managed care program", as appropriate.

Your Committee finds that on January 1, 2015, the QUEST and QUEST Expanded Access programs were combined and replaced by the QUEST Integration program which is provided through a managed care delivery system. Your Committee finds that it is necessary to replace all references to QUEST and QUEST Expanded Access in the Hawaii Revised Statutes to accurately reflect the change to the State's medicaid program.

Your Committee further finds that a conforming amendment should be made to section 103F-402, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by inserting an amendment to section 103F-402, Hawaii Revised Statutes, to change the reference to "QUEST" in that statute to "medicaid managed care".

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1106, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1106, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 549 Judiciary and Labor on Gov. Msg. No. 512

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF HUMAN RESOURCES DEVELOPMENT

G.M. No. 512 JAMES NISHIMOTO, for a term to expire 12-3-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds James Nishimoto to possess the requisite qualifications to be nominated as the Director of Human Resources Development.

Your Committee received testimony in support of the nomination of Mr. Nishimoto from the Governor; Department of Human Resources Development; Department of Transportation; Department of Budget and Finance; Department of Human Resources, City and County of Honolulu; sixteen individuals of the Department of Human Resources Development senior management team and program managers; and nine individuals.

Mr. Nishimoto earned his Bachelor of Science degree in Zoology from the University of Kentucky. Upon graduation, he served in the United States Army for three years. He also received his Master in Arts in Business Personnel Administration and Public Administration from Central Michigan University and his Doctorate of Education from the University of Southern California.

Mr. Nishimoto has over thirty years of work experience with the State, including serving as Labor Relations Specialist, Employee Benefits Specialist, Budget Specialist, and Administrator of Collective Bargaining and Negotiations for the Department of Education; Deputy Negotiator for the Office of Collective Bargaining; Special Assistant to the Governor; and Deputy Director of the Department of Human Resources Development. For the past fifteen years, he has served in various roles for the University of Hawaii System, including Associate Director of Human Resources (2000-2003), Executive Assistant to the President of the University of Hawaii (2003-2008), Director of Academic Personnel Administration for the Office of the Vice President for Academic Affairs (2008-2009), and Director of Administrative Support Service for the University of Hawaii National Disaster Preparedness Training Center (2010-2011). Since 2011, Mr. Nishimoto has served as the Executive Assistant to the Vice President for Budget and Finance/Chief Financial Officer for the University of Hawaii System.

Mr. Nishimoto is certified in numerous fields, including mediation, conflict resolution, discrimination investigations, and internal investigations.

Testifiers in support of the nominee indicate that Mr. Nishimoto's years of service to the State are an indication of his dedication to public service. Known as "Nish" among his colleagues and friends, he is described by them as one who has developed a deep understanding of public employment laws in Hawaii and built a strong network of relationships with public agencies and employee unions. Written testimony further indicates that he uses a collaborative approach when working with parties with varying viewpoints to resolve issues in a timely and respectful manner and has a keen understanding of each situation before him to anticipate and address multiple factors that may have an impact.

Your Committee notes the testimony submitted in support from a number of employees of the Department of Human Resources Development. These employees testified that in the two months since his nomination as Director of Human Resources Development, they have observed him as an energetic, passionate, and fully committed department head who strives to ensure that the Department provides high quality services to state employees and the public. Furthermore, employees testified that as a result of implementing a collaborative, team-oriented approach, the Department has moved forward with improvements, including simplifying and streamlining the recruitment and classification processes and revamping and expanding training opportunities to assist state employees in performing more efficiently.

Your Committee finds that Mr. Nishimoto is exceptionally qualified to serve as the Director of Human Resources Development. He possesses the intelligence, knowledge, experience, and personality to be an outstanding Director.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 550 (Joint) Hawaiian Affairs and Water and Land on S.C.R. No. 7

The purpose and intent of this measure is to request that the Executive branch provide an accurate and complete accounting of public land trust revenues as required by section 5 of Act 178, Session Laws of Hawaii 2006.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Association of Hawaii Civic Clubs, and five individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that a financial review of revenue from the public lands trust for fiscal year 2012 found that a significant amount of public lands trust receipts was unreported. In order to ensure the accurate and complete accounting of the revenue from the public lands trust, the Legislature encourages the Governor to order each state agency to accurately report the revenues generated from public lands within its jurisdiction.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 7 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs

Ayes, 3. Noes, none. Excused, 2 (Inouye, Slom).

Water and Land

Ayes, 5. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 551 Water and Land on S.C.R. No. 2

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement to Kahaluu Pond, Inc., for the use, repair, and maintenance of the seawall located at Kahaluu, Koolaupoko, Oahu, TMK: (1) 4-7-011: seaward of 0001, for a term of fifty-five years, as approved by the Board of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the Kahaluu Fish Pond is on the State and National Registers of Historic Sites. State and federal officials have supported the restoration and maintenance of Hawaiian fishponds. Your Committee further finds that it is critical for Kahaluu Pond, Inc., to be able to repair, replace, and maintain the existing seawall of this historic property.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 2 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 552 Water and Land on S.C.R. No. 14

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands fronting the property identified as Tax Map Key: (1) 4-7-011: seaward of 001, Kahaluu, Koolaupoko, Oahu, for the use, maintenance, and repair of the existing seawall constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that around March 16, 1966, the Department worked with the owner Kahaluu Pond, Inc., to resolve the encroachment of a seawall on state submerged lands fronting the property identified as Tax Map Key: (1) 4-7-011: seaward of 001, Kahaluu, Koolaupoko, Oahu. On July 24, 1981, the Department's Office of Conservation and Coastal Lands indicated its support to the issuance of an easement to resolve the encroachment and had issued conservation district use permits in 1981.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 14 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 553 Water and Land on S.C.R. No. 15

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands fronting the property identified as Tax Map Key: (1) 5-6-003: seaward of 010, Kahuku, Koolauloa, Oahu, for the use, maintenance, and repair of the existing drainage structure constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that around August 2013, the Department was working with the owner, Makai Ranch, LLC, to resolve the encroachment of an abandoned drainage structure on state submerged lands, fronting the property identified as Tax Map Key: (1) 5-6-003: seaward of 010, Kahuku, Koolauloa, Oahu. On November 1, 2013, the Department's Office of Conservation and Coastal Lands indicated its support to the issuance of an easement to resolve the encroachment.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 15 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 554 Water and Land on S.C.R. No. 16

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands fronting the property identified as Tax Map Key: (1) 5-4-010: seaward of 009, Hauula, Koolauloa, Oahu, for the use, maintenance, and repair of a portion of the existing family residence, foundation, and lanai constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Around August 2013, the Department was working with the owners, Scott and Beverly Miyasaki, and Tracy Lindo, to resolve the encroachments of a family residence, its foundation, and lanai on state submerged lands fronting the property identified as Tax Map Key: (1) 5-4-010: seaward of 009, Hauula, Koolauloa, Oahu.

At its meeting of August 22, 2014, under agenda item D-20, the Board approved a grant of a 55-year non-exclusive easement to resolve the encroachments.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 16 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 555 Water and Land on S.C.R. No. 17

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands fronting the property identified as Tax Map Key: (1) 4-4-022: seaward of 007, Kaneohe, Koolaupoko, Oahu, for the use, maintenance, and repair of the existing CRM wall, landscaping area, floating dock, and concrete pier purposes constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that around April 2014, the Department was working with the owners, Clifford and Renee Tillotson, to resolve the encroachments of a CRM wall, landscaping area, floating dock, and concrete pier on state submerged lands fronting the property identified as Tax Map Key: (1) 4-4-022: seaward of 007, Kaneohe, Koolaupoko, Oahu. On May 12, 2014, the Department's Office of Conservation and Coastal Lands indicated its support for the issuance of an easement to resolve the encroachments in view of evidence indicating that the encroachments have been in existence since 1963.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 17 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 556 Water and Land on S.B. No. 1377

The purpose and intent of this measure is to prohibit spearfishing at all hours of the day within the Waikiki-Diamond Head shoreline fisheries management area until such time as the Department of Land and Natural Resources determines through research that the damage existing as of January 1, 2016, to the coral reefs has abated and the reefs are restored.

Your Committee received testimony in support of this measure from Animal Rights Hawai'i and Outrigger Hotels. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources; Hawaii Sportsmen's Alliance; Hawaii Nearshore Fishermen; and twenty-nine individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the Waikiki-Diamond Head shoreline has been a historic and also iconic area of urban Honolulu for decades. This area has also experienced a sharp increase in fishing. As the population in urban Honolulu has grown so has the interest in recreational spearfishing, which has resulted in a negative impact on the fish population. Your Committee is concerned that unless spearfishing is curbed, the area will not be sustainable for other forms of fishing.

Your Committee has amended this measure by:

- (1) Deleting references to coral reefs and damaged coral;
- (2) Deleting language that would end the spearfishing prohibition at the time the Department of Land and Natural Resources determines through research that damage existing as of January 1, 2016, to the coral reefs has abated and the reefs have been fully restored;
- (3) Clarifying the purpose section to accurately reflect the amendments and concerns regarding the impact of population growth in urban Honolulu on the sustainability of fishing in the area; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1377, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1377, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 557 Ways and Means on S.B. No. 105

The purpose and intent of this measure is to require budget documents submitted to the Legislature, including those submitted by the Judiciary, to include the estimated future debt service of proposed capital improvement projects.

Your Committee received comments on this measure from the Department of Budget and Finance and the University of Hawaii.

Your Committee finds that the Legislature's task of balancing the budget is complicated. Including anticipated costs in a budget should be a standard budgetary procedure. The use of forward-looking financial plans are valuable for identifying known or potential cost items and is a matter of best practices in budgeting. Your Committee finds that the additional information on debt service costs to be submitted to the Legislature in each six-year program and financial plan and budget will result in a comprehensive budget that more accurately reflects costs to the State over the following six-year period.

Your Committee has amended this measure by simplifying it to require a summary of debt service for the following:

- (1) Capital improvement projects for which the appropriations are proposed in the six-year financial plan period; and
- (2) Capital improvement projects for which the appropriations were approved before the six-year financial plan period.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 105, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Slom).

SCRep. 558 Ways and Means on S.B. No. 253

The purpose and intent of this measure is to require the Director of Finance to submit to the Legislature a state debt management policy prior to the 2016 Regular Session and a debt affordability study prior to every Regular Session in an odd-numbered year thereafter.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Budget and Finance is currently evaluating the establishment and adoption of a debt management policy and debt affordability study to provide established guidelines and policies in the issuance and administration of the State's general obligation bonds. However, your Committee believes that a formalized debt management policy and debt affordability study, as proposed under this measure, will promote transparency in budget-making and more informed decision-making with respect to authorizations for capital improvement projects and debt issuance.

Your Committee notes that, if the appropriations made under this measure are insufficient to cover the costs of preparing the state debt management policy and the debt affordability study, the Director of Finance is encouraged to submit to the Legislature a cost estimate to prepare the state debt management policy and debt affordability study and a request for an appropriation for this purpose.

Your Committee has amended this measure by extending the deadline for the submission of the state debt management policy from the Regular Session of 2016 to the Regular Session of 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 253, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 253, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Ruderman).

SCRep. 559 Ways and Means on S.B. No. 101

The purpose and intent of this measure is to correct technical errors in Act 122, Session Laws of Hawaii 2014, known as the Supplemental Appropriations Act of 2014.

Specifically, the measure corrects references to the amounts of revenue bond funds and federal funds that were originally appropriated in 1993, subsequently amended in 1994, and determined to be lapsed as part of the Supplemental Appropriations Act of 2014.

Your Committee finds that it is important to correct erroneous amounts in the Supplemental Appropriations Act of 2014 so that the appropriate amounts of funds are lapsed.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purpose of clarity and to conform to recommended drafting conventions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 101, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 101, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Dela Cruz, Galuteria).

SCRep. 560 Ways and Means on S.B. No. 1312

The purpose and intent of this measure is to address state funds.

Specifically, this measure provides for a deposit of general revenues into the emergency and budget reserve fund to comply with the constitutional mandate to provide a tax refund or credit or make such a deposit.

Your Committee received comments on this measure from the Department of the Attorney General and the Department of Budget and Finance.

Your Committee finds that when certain economic conditions are met, article VII, section 6, of the Hawaii Constitution requires the Legislature to provide a tax refund or tax credit to state taxpayers or make a deposit into one or more funds, as provided by law, to serve as a reserve for the State. Specifically, this requirement is triggered when the state general fund balances at the end of two successive fiscal years exceed five percent of the state general revenues for those fiscal years. Your Committee also finds that, at the end of fiscal years 2012-2013 and 2013-2014, these conditions were met.

Your Committee believes that it is preferable to make a deposit into the emergency and budget reserve fund instead of providing a tax refund or credit. By increasing the reserve fund, the State will be better able to address possible emergencies and contingencies that may occur in the future when state revenues slow down. However, pursuant to section 328L-3(a)(3), Hawaii Revised Statutes

(HRS), general funds may only be deposited into the emergency budget and reserve fund when state general fund revenues for each of two successive fiscal years exceeds revenues for each of the preceding fiscal years by five percent. While the general fund revenues for fiscal year 2012-2013 exceeded the previous year's revenues by more than five percent, the general fund revenues for fiscal year 2013-2014 did not exceed the revenues for fiscal year 2012-2013 by more than five percent. Therefore, although the conditions specified in article VII, section 6, of the Hawaii Constitution have been met, the statutory requirements for a deposit of general funds into the emergency budget and reserve fund have not.

Nevertheless, your Committee finds that compliance with article VII, section 6, of the Hawaii Constitution may still be achieved via a deposit, rather than a tax credit or tax refund, through the enactment of a session law that would have the effect of amending section 328L-3(a)(3), HRS, only for fiscal year 2014-2015.

Accordingly, your Committee has amended this measure by:

- (1) Providing that, notwithstanding any law to the contrary, including section 328L-3(a)(3), HRS, the total sum of the tax credit or tax refund otherwise mandated by article VII, section 6, of the Hawaii Constitution shall be transferred to the emergency and budget reserve fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1312, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Dela Cruz, Galuteria).

SCRep. 561 Ways and Means on S.B. No. 1136

The purpose and intent of this measure is to update references to the Internal Revenue Code in section 235-55.91(e), Hawaii Revised Statutes, relating to credit for employment of vocational rehabilitation referrals.

Your Committee received testimony in support of this measure from the Department of Taxation. The Tax Foundation of Hawaii provided comments on the measure.

Your Committee finds that the Working Families Tax Relief Act of 2004, Public Law No. 108-311, relocated certain references to dependents within the Internal Revenue Code. Your Committee further finds that this measure corrects the references to the redesignated sections in the Internal Revenue Code within section 235-55.91(e), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 562 Ways and Means on S.B. No. 1134

The purpose and intent of this measure is to conform the state estate and generation-skipping transfer tax to the Internal Revenue Code.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, according to section 236E-5, Hawaii Revised Statutes, the intent of the state estate and generation-skipping transfer tax law is to conform as closely as possible to the Internal Revenue Code. Your Committee further finds that this measure is the annual tax conformity bill submitted by the Department of Taxation pursuant to section 236E-4, Hawaii Revised Statutes, to conform the state estate and generation-skipping transfer tax with the federal Internal Revenue Code by adopting changes made to the Internal Revenue Code during the previous year that are appropriate for Hawaii law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1134 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 563 Ways and Means on S.B. No. 1133

The purpose and intent of this measure is to conform the state income tax to the Internal Revenue Code.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, according to section 235-3, Hawaii Revised Statutes, the intent of the state income tax law is to conform as closely as possible to the Internal Revenue Code. Your Committee further finds that this measure is the annual tax conformity bill submitted by the Department of Taxation pursuant to section 235-2.5, Hawaii Revised Statutes, to conform the state income tax law with the federal Internal Revenue Code by adopting changes made during the previous year that are appropriate for Hawaii law.

Your Committee has amended this measure by:

- (1) Adding a new section to the bill that amends section 235-2.4, Hawaii Revised Statutes, to make section 529A of the Internal Revenue Code operative; and
- (2) Making a correction to accurately reflect the text of section 235-2.3, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1133, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Dela Cruz).

SCRep. 564 Ways and Means on S.B. No. 159

The purpose and intent of this measure is to repeal various non-general funds and accounts.

Specifically, this measure repeals the following:

- (1) The Captain Cook Memorial Fund;
- (2) The statewide geospatial information and data integration special fund;
- (3) The food distribution program revolving fund;
- (4) The career and technical training projects revolving fund;
- (5) The University of Hawaii alumni special fund;
- (6) The animal research farm, Waialeale, Oahu special fund;
- (7) The public health nursing services special fund;
- (8) The blind shop revolving and handicraft fund;
- (9) The donations for voter registration drive trust account;
- (10) The Hawaii FYI - ICSD trust account administratively established in 1996;
- (11) The parking control revolving fund escrow account;
- (12) The returned ACH tax refunds trust account administratively established in 2004;
- (13) The HDOA biocontrol foreign exploration special fund created in 2010;
- (14) The Hawaii EUTF self-directed investments trust account created in 2007; and
- (15) An account controlled by the state commission on fatherhood.

The measure also transfers the balance of the fee simple residential revolving fund into the general fund.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of Budget and Finance, Department of Accounting and General Services, University of Hawaii, Hawaii Housing Finance and Development Corporation; and one individual. The Office of the Auditor and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that this measure implements some of the recommendations made by the Auditor in Auditor Report Nos. 14-01, 14-13, and 14-18. Repealing funds that no longer serve their intended purpose or no longer have activity makes government finances more transparent, increases budgetary flexibility, improves government efficiency, and raises government accountability.

Your Committee has amended this measure by repealing the fee simple residential revolving fund and references to that revolving fund that are contained in other sections in the Hawaii Revised Statutes, rather than only transferring the balance in the fund to the general fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 159, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 565 Commerce and Consumer Protection on S.B. No. 543

The purpose and intent of this measure is to:

- (1) Create a practice privilege for certain certified public accountants licensed in another state whose out-of-state license meets certain requirements; and
- (2) Establish a limited privilege to practice in Hawaii for out-of-state accountancy firms that meet certain requirements.

Your Committee received testimony in support of this measure from C&Y CPAs, LLC and over five hundred pages of testimony from individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of Public Accountants; Niwao & Roberts, CPAs, a P.C.; and twelve individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Board of Public Accountancy.

Your Committee finds that practice mobility is the ability of a certified public accountant to gain a temporary practice privilege outside of that accountant's home state without getting an additional license. However, Hawaii is currently the only state without individual mobility. Your Committee further finds that many certified public accountants in Hawaii serve business clients who have operations in multiple states and compliance responsibilities that may cover multiple jurisdictions. Permitting individual mobility for certified public accountants will enable Hawaii certified public accountants to offer their services to clients throughout the country.

Your Committee has heard the testimony regarding accountancy firm mobility proposed by this measure. Your Committee notes that Hawaii has a unique peer review law for accountancy firms. Hawaii also has a unique firm ownership requirement that differs from the vast majority of states and the Uniform Accountancy Act. Your Committee has also heard the concerns of the Board of Public Accountancy regarding the ability to enforce the compliance of out-of-state accountancy firms with Hawaii's unique accountancy firm laws. Your Committee understands these concerns and concludes that amendments to this measure are necessary to remove references to accountancy firm mobility. However, your Committee also concludes that additional amendments are necessary to ensure additional consumer protection and compliance with the State's general excise tax requirements.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established a limited privilege to practice in Hawaii for out-of-state accountancy firms and deleting other language referring to accountancy firm mobility;
- (2) Clarifying the requirements that an out-of-state certified public accountant must meet prior to engaging in a limited privilege to practice public accountancy in Hawaii, including requiring the individual to register with the Board of Public Accountancy and provide the Board with the individual's Hawaii general excise tax number;
- (3) Specifying additional requirements for an out-of-state certified public accountant who holds a limited privilege to practice in Hawaii, including:
 - (A) Subjecting the individual to the jurisdiction and disciplinary authority of the Board of Public Accountancy and state courts;
 - (B) Requiring compliance with any laws, rules, and regulations applicable to individuals engaging in practicing privileges in the State;
 - (C) Specifying service of process requirements;
 - (D) Requiring cooperation with Board of Public Accountancy investigations, inquiries, or requests;
 - (E) Specifying situations or actions that would require an individual to cease exercising the practice privilege in Hawaii, including a requirement to notify the Board within fifteen calendar days of ceasing practice; and
 - (F) Requiring the individual's certificate, license, or permit number on which the privilege to practice in Hawaii is based and the individual's Hawaii general excise tax number to be included on any invoice for services;
- (4) Specifying that an individual who engages in the practice of public accountancy without obtaining a privilege to practice shall be deemed to have engaged in unlicensed activity and subject to civil and criminal prosecution;
- (5) Clarifying that the individual privilege to practice does not allow an out-of-state accountancy firm to practice in Hawaii without first obtaining a Hawaii license and firm permit to practice;
- (6) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 543, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 543, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Slom).

SCRep. 566 Commerce and Consumer Protection on S.B. No. 1095

The purpose and intent of this measure is to make various updates to title 24, Hawaii Revised Statutes, relating to insurance.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure makes various updates to title 24, Hawaii Revised Statutes, relating to insurance, including: specifying that rating of rates approved by the Insurance Commissioner is prohibited; permitting the suspension, revocation, or denial of a mutual benefit society's certificate of authority under certain conditions; and making other conforming amendments.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1095, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1095, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Taniguchi).

SCRep. 567 Commerce and Consumer Protection on S.B. No. 1265

The purpose and intent of this measure is to make technical amendments to the insurance holding company system law.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure makes certain technical amendments to clarify provisions of article 11 of the Insurance Code, relating to the insurance holding company system.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1265 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Taniguchi).

SCRep. 568 Commerce and Consumer Protection on S.B. No. 1097

The purpose and intent of this measure is to clarify that the Public Utilities Commission may order the Consumer Advocate, rather than the Director of Commerce and Consumer Affairs, to appear in regulatory proceedings initiated by the Commission.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and Public Utilities Commission.

Your Committee finds that Act 108, Session Laws of Hawaii 2014 (Act 108), expressly designated the Executive Director of the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs as the Consumer Advocate. Prior to Act 108, the Director of Commerce and Consumer Affairs had been statutorily designated as the Consumer Advocate. Under Act 108, a number of updates were made to chapter 269, Hawaii Revised Statutes, to reflect this redesignation. This measure amends section 269-15(a), Hawaii Revised Statutes, to change the reference in this section from the Director of Commerce and Consumer Affairs to the Consumer Advocate, for consistency with changes made to chapter 269, Hawaii Revised Statutes, by Act 108.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1097 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Taniguchi).

SCRep. 569 Higher Education and the Arts on S.B. No. 332

The purpose and intent of this measure is to designate October 2 of each year as Mohandas Karamchand Gandhi Day in Hawaii.

Your Committee received testimony in support of this measure from the Gandhi International Institute for Peace, Center for Global Nonkilling, Honpa Hongwanji Mission of Hawaii, The Interfaith Alliance Hawaii, International Society for Krishna Consciousness, and nineteen individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Mohandas Karamchand Gandhi, also known as "Mahatma", was born on October 2, 1869. He was the leader of Indian nationalism in British-ruled India and led India to independence through the use of non-violent civil disobedience, inspiring various political leaders and civil rights movements across the world. Gandhi is internationally admired for his nonviolent philosophy of passive resistance. He is commemorated on October 2 with a national holiday in India and world-wide with the International Day of Nonviolence. This measure honors Gandhi for his inspiration, tolerance, and enduring legacy.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 332 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kidani, Slom).

SCRep. 570 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1154

The purpose and intent of this measure is to require that for counties with a population of five hundred thousand or more, a notice of a public hearing on an application for a liquor license before a county liquor commission be mailed at least thirty days prior to the date set for the hearing.

Your Committee received testimony in support of this measure from the Liquor Commission of the City and County of Honolulu.

Your Committee finds that starting a liquor licensed business requires a considerable amount of time and a significant financial investment, and obtaining an approved liquor license is a critical step in commencing operations and generating revenue to offset costs. The time between a notice of a public hearing on a liquor license application and the actual hearing allows individuals to determine the impact of a liquor license on the community. Implementation of this measure will enable approved liquor license applicants to commence operations sooner, while still providing ample time for individuals to evaluate and comment on a liquor license application.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1154 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 571 Public Safety, Intergovernmental and Military Affairs on S.B. No. 868

The purpose and intent of this measure is to:

- (1) Authorize each county liquor commission to regulate dancing on licensed premises; and
- (2) Require each county liquor commission that chooses to regulate dancing to adopt or amend rules regarding limitations on dancing in premises licensed to sell liquor for consumption thereon and define the term “dancing”, no later than October 1, 2015.

Your Committee received testimony in support of this measure from the Department of Liquor Control of the County of Kauai and Maui Dance Advocates. Your Committee received testimony in opposition to this measure from the Department of Liquor Control of the County of Maui.

Your Committee finds that this measure will provide each county liquor commission with the authority to regulate dancing in licensed premises and require each county liquor commission that chooses to regulate dancing to adopt or amend rules regarding limitations on dancing and define the term “dancing”. Implementation of this measure will enable county liquor commissions to provide patrons with an understanding of and guidelines regarding any implemented dancing regulations.

Your Committee has amended this measure by:

- (1) Clarifying that a liquor commission has the sole jurisdiction, power, authority, and discretion to prescribe limitations on licensed premises regarding dancing therein if the liquor commission chooses to regulate dancing; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 868, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 868, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 572 Public Safety, Intergovernmental and Military Affairs on S.B. No. 1151

The purpose and intent of this measure is to authorize:

- (1) Restaurants and retail dealers with a liquor license to sell beer, malt beverages, or cider for off-premises consumption, under certain conditions; and
- (2) Brewpubs and small craft producer pubs with a liquor license to sell malt beverages manufactured on the licensee’s premises or purchased from another liquor licensee in growlers for off-premises consumption.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association. Your Committee received testimony in opposition to this measure from the Hawaii Liquor Wholesalers Association. Your Committee received comments on this measure from the Liquor Commission of the City and County of Honolulu.

Your Committee finds that this measure permits the sale of growlers at all liquor retail establishments and restaurants and allows brew pubs and small craft producer pubs to sell different brands of beer in growlers. Implementation of this measure will enable consumers to try an expanded selection of draft beer and also provide the opportunity for growth and expansion of the local craft beer industry.

Your Committee has amended this measure by replacing “for off-premises consumption” with “in non-original packages” to clarify that a retail dealer with a class 4 liquor license is authorized to sell beer, malt beverages, or cider in non-original packages, under certain conditions.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1151, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1151, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 573 Commerce and Consumer Protection on S.B. No. 1316

The purpose and intent of this measure is to require the board of directors of an association of apartment owners, condominium association, cooperative housing corporation, or planned community association, upon receipt of a request for the installation of an electric vehicle charging system, to make a decision to approve or deny the request within sixty days.

Your Committee received testimony in support of this measure from EV Structure, Ulupono Initiative, and two individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds electric vehicles provide a more efficient transportation method that reduces fossil fuel consumption. Your Committee further finds that as the demand for electric vehicles grows, so does the demand for electric vehicle charging systems. This measure facilitates the right to choose a more efficient transportation solution in a timely manner.

Your Committee has heard the concerns that because section 196-7.5, Hawaii Revised Statutes, prohibits multifamily dwellings from denying the installation of an electric vehicle charging system, the language proposed by this measure may contradict that

section. Your Committee notes that section 196-7.5, Hawaii Revised Statutes, does permit private entities to adopt rules that reasonably restrict the installation of electric vehicle charging systems.

According to testimony received by your Committee, transformers in typical multifamily dwellings across the country have a transformer load capacity that allows for the installation of approximately six level II electric vehicle chargers. Subsequent requests for additional charging systems could require a transformer upgrade, which can cost approximately \$35,000. Your Committee additionally finds that a board of directors and requesting shareholders, members, or unit owners should understand the capacity of a transformer before approval is given to install an electric vehicle charging system. Together with energy audit data, this data will give the board and shareholders, members, or unit owners a more accurate and comprehensive idea of the cost of installing an electric vehicle charging station.

Your Committee has amended this measure by:

- (1) Requiring the board of directors of an association of apartment owners, condominium association, cooperative housing corporation, or planned community association, upon receipt of a request for the installation of an electric vehicle charging system, to make a decision to approve, or approve with reasonable restrictions, the request within sixty days;
- (2) Requiring receipt of documentation on transformer load capacity and an energy audit prior to the board of directors' approval or approval with reasonable restrictions of a request to install an electric vehicle charging system; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1316, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1316, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Slom).

SCRep. 574 Commerce and Consumer Protection on S.B. No. 717

The purpose and intent of this measure is to repeal the requirement that gasoline sold in the State for use in motor vehicles be composed of ten percent ethanol.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from Bioenergy Associates LLC. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that since 1997, Hawaii has required that gasoline sold in the State include ten percent ethanol. Your Committee notes that although ethanol has reduced the consumption of petroleum products in the transportation sector, the ethanol has been imported and has not been produced locally despite the availability of production tax credits. Your Committee further finds that the requirement of blending ethanol into Hawaii's gasoline does not produce an economic benefit for the State, while the import of ethanol creates an economic burden for state residents. Repealing the ethanol gasoline requirement will ensure that any added costs associated with ethanol blending will not affect gasoline price and supply.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 717, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 575 Commerce and Consumer Protection on S.B. No. 1162

The purpose and intent of this measure is to:

- (1) Prohibit the subdivision of, or creation of a condominium property regime on, parcels of agricultural lands one hundred acres or greater in size if at least fifty percent of the land in the parcel is rated class A or B by the Land Study Bureau's overall productivity rating; and
- (2) Exempt a landowner applicant who is the Department of Agriculture, the Agribusiness Development Corporation, or a bona fide commercial farmer from the prohibition against subdivision.

Your Committee received testimony in support of this measure from the Land Use Commission, Hawaii's Thousand Friends, and one individual. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that subdivisions of, and community property regimes on, agricultural land without controls, monitoring, and enforcement can result in harm to agriculture by allowing increases in the value of agricultural land unrelated to agricultural productivity. This increase in value makes agricultural land unaffordable to farmers who are unable to purchase agricultural land for commercial farming. Your Committee further finds that it is important for certain large areas of agricultural lands to remain contiguous in order to accommodate certain agricultural uses; therefore, the subdivision of agricultural lands, including through condominium property regimes, must be scrutinized.

Your Committee understands that concerns have been raised regarding the definition of "bona fide commercial farmer" as proposed by this measure and whether this definition may be too narrow. Therefore, further discussions regarding the definition of "bona fide

commercial farmer” and whether it should be amended to be more inclusive may be warranted as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1162, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1162, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kidani, Wakai). Noes, none. Excused, 1 (Slom).

SCRep. 576 Commerce and Consumer Protection on S.B. No. 646

The purpose and intent of this measure is to:

- (1) Permit the installation of clotheslines in any residential dwelling, apartment, condominium, or townhouse, under certain conditions; and
- (2) Specify the reasonable restrictions that may be adopted by rule on the placement and use of clotheslines in any residential dwelling, apartment, condominium, or townhouse.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Wailea Community Association.

Your Committee finds that because of Hawaii’s climate, Hawaii homeowners often have the choice to save money and energy by using a clothesline to dry their clothes. However, many homeowner, condominium, and planned community associations have restrictions on the use of clotheslines. This measure permits the installation of clotheslines in any residential dwelling, apartment, condominium, or townhouse, while also specifying the reasonable restrictions an association may adopt by rule regarding the placement and use of clotheslines.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 646, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 577 Commerce and Consumer Protection on S.B. No. 488

The purpose and intent of this measure is to require separate electricity utility metering of nonresidential and residential condominium units in all mixed-use condominium projects.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs.

Your Committee finds that the cost of the total electric consumption for most master-metered buildings is divided among units without taking into account a resident’s individual consumption. This measure mandates individual electricity meters in condominiums, thereby requiring the consumer of the electricity used in each condominium unit to be financially responsible for that resident’s own energy consumption. Your Committee notes that this measure also requires the cost of installing separate meters to be borne by condominium associations, rather than the electric utility. This ensures that all electric utility ratepayers will not subsidize these costs.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 488, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 488, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 578 Commerce and Consumer Protection on S.B. No. 464

The purpose and intent of this measure is to prohibit agreements that include introductory free trial periods for the purchase of periodic delivery of merchandise, services, or internet access unless the consumer explicitly and affirmatively consents to being billed for automatic renewal, continuous delivery, or service beyond the last date of the free trial period.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that introductory free trial offers are used to incentivize consumers to agree to accept a purchase of periodic delivery of merchandise or services. According to testimony received by your Committee from the Office of Consumer Protection, the means to cancel free trial offers associated with automatic renewal clauses should be clearly and conspicuously disclosed and require the consumer to provide an explicit acknowledgment and affirmative consent to any agreement. The underlying policy behind this is to help ensure that Hawaii consumers are made fully aware of all of the terms and conditions of the agreement.

This measure adds a new section to chapter 481B, Hawaii Revised Statutes, relating to unfair and deceptive practices. However, your Committee finds that the most appropriate way to protect Hawaii consumers from the problems associated with free trial offers is to amend section 481-9.5, Hawaii Revised Statutes, relating to automatic renewal clauses. Amendments to this measure are therefore necessary.

Your Committee further finds that additional amendments to section 481-9.5, Hawaii Revised Statutes, are necessary to ensure adequate safeguards for consumers subject to automatic renewal clauses. These safeguards will help protect Hawaii consumers from abuses associated with automatic renewal clauses involving disclosures relating to acknowledgment and affirmative consent, use of credit and debit cards, and cancellation rights.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have added a new section on free trial offers in chapter 481B, Hawaii Revised Statutes, relating to unfair and deceptive practices;
- (2) Amending section 481-9.5, Hawaii Revised Statutes, relating to automatic renewal clauses, by requiring:
 - (A) Persons charging a consumer's credit or debit card or account with a third party for automatic renewal or continuous service to first obtain the consumer's acknowledgment and affirmative consent;
 - (B) An acknowledgment regarding automatic renewal or continuous service offer terms, the cancellation policy, and information on how to cancel to be provided in a manner capable of being retained by the consumer;
 - (C) Free trial offers to clearly and conspicuously disclose how to cancel the agreement prior to the consumer being charged for goods and services;
 - (D) Clear and conspicuous disclosure of a timely and easy-to-use mechanism for cancellation; and
 - (E) Clear and conspicuous notice of material changes in the terms of an automatic renewal or continuous service offer that has been accepted by a consumer in Hawaii and information on how to cancel service in a manner that can be retained by the consumer;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 464, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 464, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 579 (Majority) Commerce and Consumer Protection on S.B. No. 737

The purpose and intent of this measure is to:

- (1) Include interest charged on a deferred deposit transaction to be included in the written agreement; and
- (2) Limit the allowable annual percentage rate of a deferred deposit transaction to thirty-six percent per annum.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs; Office of Hawaiian Affairs; PHOCUSED; Hawai'i Appleseed Center for Law and Economic Justice; Hawaiian Community Assets; Catholic Charities Hawai'i; Goodwill Industries of Hawaii, Inc.; Hawai'i Alliance for Community-Based Economic Development; Progressive Democrats of Hawai'i; Community Alliance on Prisons; Faith Action for Community Equity; International Longshore and Warehouse Union, Local 142; UNITE HERE, Local 5; and two individuals. Your Committee received testimony in opposition to this measure from Money Service Centers of Hawaii, Inc.; Dollar Financial Group, Inc.; Community Financial Services Association of America; Cash in Advance, Inc.; Maui Loan Inc.; and three individuals. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that deferred deposit agreements, commonly referred to as payday loans, are small, short term, unsecured loans that borrowers promise to repay from their next paycheck or regular income payment. Existing state law permits check cashers to charge a fee of fifteen percent of the face value of a check and lend up to a maximum of \$600. This fee cap amounts to an annual percentage rate of four hundred sixty-five percent, which can trap borrowers in a cycle of high interest loans. Your Committee further finds that the high fees associated with deferred deposit agreements make it difficult for individuals to timely repay these loans. According to testimony received by your Committee, only two percent of deferred deposit agreements go to borrowers who can afford to pay off the loan the first time. Furthermore, four out of five payday borrowers either default or renew a payday loan over the course of a year.

Your Committee additionally finds that this measure proposes to adopt a thirty-six percent cap on deferred deposit agreements. Your Committee notes that this cap would be consistent with the growing trend around the country to provide more consumer protections for these loans. According to the Consumer Federation of America, eighteen states plus the District of Columbia have either capped deferred deposit agreements at thirty-six percent or banned these types of loans completely. The thirty-six percent cap

also follows precedent established by the federal government, who in 2006 made it illegal to charge more than a thirty-six percent annual percentage rate on payday loans to active-duty service members and their families.

Finally, your Committee has heard testimony that although this measure amends section 480F-4(b), Hawaii Revised Statutes, there is still a reference to the current fifteen percent fee that may be charged on a deferred deposit agreement under section 480F-4(c), Hawaii Revised Statutes. If this reference is not repealed, language regarding the fifteen percent fee will conflict with language imposing a thirty-six percent annual percentage rate cap, as the fifteen percent fee, when annualized, equals an annual percentage rate of four hundred fifty-nine percent. Your Committee concludes that amendments clarifying the thirty-six percent cap on deferred deposit transactions would be more appropriate within section 480F-4(c), Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Deleting an amendment to section 480F-4(b), Hawaii Revised Statutes, that would have required interest charged on a deferred deposit transaction to be included in the written agreement and limited the allowable annual percentage rate of a deferred deposit transaction to thirty-six percent per annum;
- (2) Clarifying the thirty-six percent annual percentage rate cap on deferred deposit transactions by amending section 480F-4(c), Hawaii Revised Statutes, to:
 - (A) Repeal language that permitted check cashers to charge a fee for deferred deposit of a personal check not to exceed fifteen percent; and
 - (B) Specify that the total amount of fees for the deferred deposit of a personal check shall not exceed a thirty-six percent annual percentage rate; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 737, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 737, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Nishihara, Taniguchi).

SCRep. 580 Transportation on Gov. Msg. No. 522

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 522 FORD FUCHIGAMI, for a term to expire 12-3-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Ford Fuchigami to possess the requisite qualifications to be nominated to be Director of the Department of Transportation.

Your Committee received testimony in support of the nomination of Ford Fuchigami from the Office of the Governor; Department of Budget And Finance; Department of Taxation; Department of Human Resources Development; Department of Hawaiian Home Lands; County of Hawai'i Office of the Mayor; Mayor of the County of Maui; Department of Transportation Services, City and County of Honolulu; Oahu Metropolitan Planning Organization; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Transportation Association; Capitol Consultants of Hawaii, LLP; Kapolei Properties LLC; International Brotherhood of Electrical Workers Local Union 1186; Airlines Committee of Hawaii; Hawai'i Lodging & Tourism Association; Pacific Division, Matson, Inc.; Starwood Hotels and Resorts; Hawaii Carpenters Apprenticeship and Training Fund; Young Brothers, Limited; Laborers' International Union of North America Local 368; Hawaii Laborers-Employers Cooperation and Education Trust; Hawaii Pilots Association; Hawaii Regional Council of Carpenters; Hawaii Operating Engineers Industry Stabilization Fund; General Contractors Association of Hawaii; Outrigger Enterprises Group; Building Industry Association of Hawaii (BIA-Hawaii); KYA Design Group, Inc.; Filipino American Citizens League; National Federation of Filipino American Associations Region 12; Nursing Advocates & Mentors, Inc.; Ironworkers Stabilization Fund; and thirty-six individuals.

Your Committee finds that Ford Fuchigami received a Bachelor of Arts in Journalism, with a minor in Communications, from the University of Hawaii at Manoa.

Mr. Fuchigami currently serves as the Interim Director of Transportation. Previously, Mr. Fuchigami served as Acting Director of the Department of Enterprise Services of the City and County of Honolulu; Interim Director of the Department of Transportation; and Deputy Director, Airports Division, of the Department of Transportation. He also has extensive experience in the private sector in marketing, sales, and information technology.

Your Committee further finds that in response to your Committee's questionnaire, Mr. Fuchigami noted that his strengths include an extensive background in management and team-building. His facilitation and listening skills have allowed him to have very positive collaborations throughout his career. He feels his non-engineering background actually serves as a positive since he brings a different perspective to the "business as usual" mindset that can sometimes be deeply rooted in certain professional fields. Mr. Fuchigami's experience in the private sector has also given him an idea of how quickly projects can be accomplished which will help him to improve the Department of Transportation's project development processes to be more efficient with timely results.

Mr. Fuchigami testified that in the next few years, he will focus on keeping airports and harbors modernization projects on-schedule and within budget. He will also work to eliminate delays in highway improvement projects while keeping the public informed along the way.

Your Committee notes the common thread in the testimony received in support of Mr. Fuchigami is that he has the ability to work collaboratively to identify and resolve complex issues, all the while keeping in mind his service to the public. He is honest, transparent, accountable, and responsive. He exemplifies competence, courtesy, and professionalism. Most importantly, he gets the job done. For example, when Mr. Fuchigami oversaw commercial and general aviation airports, he was facilitative and collaborative in the construction of Kona International Airport and other critical transportation projects on the Island of Hawaii.

Your Committee believes that the Department of Transportation will benefit greatly from Mr. Fuchigami's leadership.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kidani).

SCRep. 581 Transportation on Gov. Msg. No. 523

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 523 JADE BUTAY, for a term to expire 12-3-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Jade Butay to possess the requisite qualifications to be nominated to be Deputy Director of the Department of Transportation.

Your Committee received testimony in support of the nomination of Jade Butay from the Office of the Governor; Department of Budget and Finance; Department of Taxation; Department of Hawaiian Home Lands; Department of Transportation Services, City and County Of Honolulu; United Public Workers, AFSCME, Local 646, AFL-CIO; Capitol Consultants of Hawaii, LLP; Young Brothers, Limited; Laborers' International Union of North America Local 368; Nursing Advocates & Mentors, Inc.; National Association of Filipino American Associations, Region 12; Hawaii Laborers-Employers Cooperation and Education Trust; Filipino Coalition for Solidarity; Filipino Coalition for Solidarity; Filipino American Citizens League; General Contractors Association of Hawaii; Filipinos for Affirmative Action; Building Industry Association of Hawaii (BIA-Hawaii); GA Morris, Inc.; Hawaii Green Infrastructure Authority; and twenty-five individuals.

Your Committee finds that Mr. Butay received a Master of Business Administration from Babson College and a Bachelor of Business Administration with Distinction, majoring in Finance and Accounting, from the University of Hawaii at Manoa. He speaks Ilocano, Tagalog, and Spanish.

Prior to being nominated to serve as the Deputy Director of the Department of Transportation, Mr. Butay served as the Deputy Director of the Department of Labor and Industrial Relations. He also served as the Deputy Director for Administration for the Department of Transportation; Congressional Aide to United States Congressman Neil Abercrombie; and Budget Analysis and Legislative Coordinator at the Department of Business, Economic Development, and Tourism. He also has extensive experience in the construction industry, consulting, and management.

Your Committee notes that in response to your Committee's questionnaire, Mr. Butay stated that his greatest strength is that he can mobilize a team to set high expectations and meet its goals and objectives, and he does so with efficiency, flexibility, and good humor. He is a good listener and will take into consideration input from others. He is not hesitant to make difficult and sometimes unpopular decisions after he has weighed all the factors. Mr. Butay believes the Department of Transportation needs to correct weaknesses that impede its progress to improve the way it delivers the benefits of transportation in the State. Mr. Butay testified that this can be done by promoting a culture of openness, improving communication, and encouraging collaboration among the Department's divisions. His vision for the Department of Transportation is to keep the traveling public safe and secure while increasing their mobility, as well as to contribute to the State's economic growth. The modernization of the airports and harbors and the maintenance and preservation of existing highway systems is the top budget priority.

Your Committee notes the testimony of one department director who worked with Mr. Butay, that Mr. Butay ensured that all required financial statements, work papers, and documentation relating to the State's Comprehensive Annual Financial Report were provided to the auditors and the Department of Accounting and General Services in accordance with the State's required deliverables schedule. According to this director, "Jade has always been responsive and professional to these critical requests in his capacity at the Department of Transportation and Department of Labor and Industrial Relations".

Your Committee believes that the Department of Transportation will benefit greatly from Mr. Butay's extensive experience and knowledge.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kidani).

SCRep. 582 Commerce and Consumer Protection on S.B. No. 805

The purpose and intent of this measure is to remove the sunset provision from Act 255, Session Laws of Hawaii 2012, relating to definitions of "the practice of nursing as a licensed practical nurse" and "the practice of nursing as a registered nurse."

Your Committee received testimony in support of this measure from the Board of Nursing, The Queen's Health Systems, and Hawaii Academy of Physician Assistants.

Your Committee finds that Act 255, Session Laws of Hawaii 2012 (Act 255), amended the definitions of “the practice of nursing as a licensed practical nurse” and “the practice of nursing as a registered nurse” to include carrying out the orders of a licensed physician assistant practicing with physician supervision as required by chapter 453, Hawaii Revised Statutes, and acting as an agent of the supervising physician. Act 255 included a sunset provision to repeal the amended versions of the definitions on July 1, 2017. Your Committee further finds that there has been ample time to evaluate Act 255 and its effect on public health, and there has been no harm. Rather, the changes made by Act 255 have provided clarity and improved communications for health care providers and patients.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 805 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 583 Judiciary and Labor on S.B. No. 225

The purpose and intent of this measure is to amend the offense of habitually operating a vehicle under the influence of an intoxicant to include operating a vehicle under the influence of an intoxicant after at least one conviction within the previous ten years for habitually operating a motor vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawaii; Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; and Hawaii Chapter of Mothers Against Drunk Driving.

Your Committee finds that under existing law, a prior felony conviction for habitually operating a vehicle under the influence of an intoxicant (HOVUII) under section 291E-61.5, Hawaii Revised Statutes, is treated the same as a prior petty misdemeanor conviction for operating a vehicle under the influence of an intoxicant (OVUII) under section 291E-61, Hawaii Revised Statutes, for the purposes of triggering a subsequent HOVUII charge. As a result, a loophole exists when an individual committing the offense of OVUII after being convicted of the offense of HOVUII, within ten years of the current offense, may not have the same status as a habitual operator of a vehicle while under the influence of an intoxicant unless there were at least two more convictions of HOVUII, OVUII, or a combination of both within the applicable ten year period. Accordingly, this measure assists in the appropriate enforcement and oversight of these offenses and ensures that the definition of “habitual operator of a vehicle while under the influence of an intoxicant” accurately reflects the intent of the law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 225, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 584 Commerce and Consumer Protection on S.B. No. 722

The purpose and intent of this measure is to:

- (1) Require the thirty-day lapse or termination notices for long-term care policies or certificates to be sent by certified mail or commercial delivery service instead of first-class mail; and
- (2) Prohibit a long-term care policy or certificate from lapsing or being terminated earlier than sixty days after the date of mailing of the notice.

Your Committee received testimony in support of this measure from AARP Hawaii and two individuals. Your Committee received testimony in opposition to this measure from America’s Health Insurance Plans and American Council of Life Insurers.

Your Committee finds that long-term care insurance plays an important role in financing long-term care in Hawaii and individuals may faithfully maintain a long-term care insurance policy for many years before an unintentional lapse in payment occurs. It is therefore important to have strong consumer protection standards in this area, including the requirement for lapse or termination notices to be sent by certified mail or commercial delivery service as proposed by this measure.

Your Committee has heard the concerns that this measure proposes to prohibit the lapse or termination of a policy no earlier than sixty days after the date of mailing of the lapse or termination notice. Your Committee notes that under existing Hawaii law, the earliest date an insurer may terminate a policy is sixty-five days, which is consistent with the requirements under the National Association of Insurance Commissioners’ long-term care insurance model. According to testimony received by your Committee, the language proposed in this measure requires an insured to provide the insured an additional twenty-five days of coverage without premium payment, which would essentially result in a ninety-day grace period of coverage. Your Committee concludes that amendments to this measure are necessary to keep the lapsing or termination of a policy consistent with the National Association of Insurance Commissioners’ requirement of sixty-five days.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have prohibited a long-term care policy or certificate from lapsing or being terminated earlier than sixty days after the date of mailing of the notice; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 722, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 722, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 585 Commerce and Consumer Protection on S.B. No. 1040

The purpose and intent of this measure is to require all fresh produce sold at farmers' markets to be displayed with a label or sign containing an identity statement declaring the produce's geographic origin.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that local farmers' markets are an excellent way to showcase and promote local farms and their products and provide consumers with a venue to purchase local foods. However, your Committee has heard the concerns that this measure requires vendors to label or display a sign with the geographic origin for every product they sell. Your Committee understands the concerns that this requirement may be burdensome for vendors who sell multiple products or whose produce varies by crop and season. Your Committee has also heard the concerns that the federal Country of Origin Labeling program requires fresh produce to be displayed with the country, but not the actual state, of origin. According to testimony received from the Department of Agriculture, farmers' market vendors may have difficulty obtaining the exact state of origin for imported produce.

Your Committee further finds that this measure is intended to inform consumers whether the produce they purchase at farmers' markets is from Hawaii. Amendments to this measure are therefore necessary to narrow the label or sign requirements proposed by this measure and ensure that consumers interested in purchasing Hawaii produce at farmer's markets are aware of their options.

Accordingly, your Committee has amended this measure by:

- (1) Requiring Hawaii fresh produce or items made with Hawaii grown produce sold at farmers' markets to be displayed with a label or sign containing an identity statement declaring the Hawaii produce's county of geographic origin;
- (2) Requiring non-Hawaii produce sold at farmers' markets to be displayed with a label or sign containing an identity statement declaring the non-Hawaii produce "imported";
- (3) Amending the definition of "geographic origin";
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1040, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 586 Commerce and Consumer Protection on S.B. No. 802

The purpose and intent of this measure is to allow condominiums and cooperative housing corporations to adopt rules prohibiting smoking in units, common elements, or limited common elements.

Your Committee received testimony in support of this measure from the Department of Health, Coalition for a Tobacco-Free Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from ten individuals.

Your Committee finds that secondhand smoke incursions in multiunit housing, such as condominiums and apartments, are a common and pervasive problem in Hawaii and the United States. According to testimony from the Department of Health, approximately forty percent of the complaint calls regarding secondhand smoke exposure received by the Department relate to infiltration in multiunit housing. According to the Center for Energy and the Environment, approximately sixty-five percent of the air is shared between units in apartment buildings, meaning that one person smoking can potentially affect all other units in the building. This is particularly concerning for residents of multiunit housing in Hawaii, as the State has an above average number of multiunit dwellers and dwellings compared to the rest of the nation. Accordingly, this measure enables condominiums and cooperative housing corporations to adopt smoke-free policies by rule, which will provide health and safety protections for owners and tenants in those multiunit dwellings and reduce the likelihood of nonuser exposure to the carcinogens found in secondhand smoke.

Your Committee has amended this measure by:

- (1) Replacing references to the term "electronic cigarettes" with the term "electronic smoking devices";
- (2) Defining "electronic smoking device"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 802, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 802, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 587 Judiciary and Labor on S.B. No. 226

The purpose and intent of this measure is to:

- (1) Add the definition of “business day” to the offense of abuse of family or household members; and
- (2) Repeal the forty-eight hour no contact provision and specify that the period of separation that a police officer shall order for the person whom the police officer reasonably believes to have inflicted the abuse of a family or household member commences when the order is issued and expires at 6:00 p.m. on the second business day following the day the order was issued.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, County of Maui and three individuals.

Your Committee finds that the intent of the forty-eight hour period of separation in cases of actual or probable family or household abuse is to keep the abuser or potential abuser away from the victim and give the victim time to get a restraining order and find a safe shelter. However, under existing law, when the abuse occurs at certain times or on certain days, the victim does not receive the benefit of the forty-eight hour separation period or does not have sufficient time to obtain a restraining order or shelter because government agencies and many private organizations are closed on weekends and holidays. This measure will give abuse victims additional time to get help and legal protection by extending the period of separation that a police officer shall order under specified circumstances.

Your Committee has amended this measure by:

- (1) Adding language to clarify that the day the no contact order is issued by the police officer shall not be included in the computation of the two business days during which the period of separation is effective; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 226, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 226, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 588 Judiciary and Labor on S.B. No. 269

The purpose and intent of this measure is to establish the process and grounds for a person to petition the court to vacate a conviction of violating a state or county law relating to obstructing or occupying a public place on grounds that the person was homeless at the time of committing the offense.

Your Committee received testimony in support of this measure from The Pacific Alliance to Stop Slavery, IMUAlliance, and eighteen individuals.

Your Committee finds that this measure allows homeless persons to vacate their convictions of violating a state or county law relating to obstructing or occupying a public place to prevent their criminal records from becoming barriers to employment, housing, or other opportunities.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 269, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 269, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 589 Judiciary and Labor on S.B. No. 283

The purpose and intent of this measure is to clarify the qualification and term limit requirements for the Board of Directors of the Hawaii Tourism Authority. Specifically, this measure:

- (1) Repeals the at-large appointment of members to the board;
- (2) Replaces the qualifications of knowledge, experience, and expertise in visitor industry management, marketing, and promotion with knowledge, experience, and expertise in accommodations for at least six members;
- (3) Clarifies that only one, rather than at least one, member who is appointed by the Governor to have knowledge, experience, and expertise in the area of Hawaiian cultural practices;
- (4) Requires the Governor to notify the President of the Senate and Speaker of the House of Representatives of any unfulfilled member qualification requirements and requires the President of the Senate and Speaker of the House of Representatives to submit nominees who fulfill those requirements;
- (5) Clarifies that membership on the board shall not exceed eight consecutive years;
- (6) Exempts from section 26-34, Hawaii Revised Statutes (HRS), the requirement that each member hold office until the member’s successor is appointed and qualified; and

- (7) Repeals the applicability of section 26-34, HRS, as it relates to the number of terms and consecutive number of years a member may serve on the board.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority.

Your Committee finds that this measure clarifies ambiguities in section 201B-2, HRS, with regard to the qualification and term limit requirements for the Board of Directors of the Hawaii Tourism Authority. Your Committee further finds that the term “accommodations”, as used in the tourism industry, embraces the management, promotion, and marketing of facilities and that the use of this term in the statute is more appropriate.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 283, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 283, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 590 Judiciary and Labor on S.B. No. 473

The purpose and intent of this measure is to:

- (1) Authorize the Department of the Attorney General to develop and implement a state program to allow active and retired law enforcement officers to carry a concealed firearm in Hawaii pursuant to the federal Law Enforcement Officers Safety Act of 2004, as amended (LEOSA); and
- (2) Make a conforming amendment to the state license to carry law.

Your Committee received testimony in support of this measure from the Department of the Attorney General and seven individuals. Your Committee received testimony in opposition to this measure from the Institute for Rational and Evidence-based Legislation and twenty individuals. Your Committee received comments on this measure from the Hawaii Rifle Association and six individuals.

Your Committee finds that the LEOSA affords active and retired law enforcement officers, including former officers who have separated after serving as law enforcement officers for ten years or more and certain military employees, the privilege of carrying a concealed firearm across state lines. However, varying state approaches to implementation have hindered the consistent and effective operation of the federal law, especially with respect to qualified retired law enforcement officers. Currently, Hawaii has not established firearm qualification standards for qualified retired law enforcement officers residing in the State or a statutory framework to uniformly permit active and qualified retired law enforcement officers to carry a concealed weapon in Hawaii. Implementation of this measure allows the Department of the Attorney General to develop and establish a consistent and effective operation of the LEOSA.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 473, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 473, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 591 Water and Land on S.B. No. 434

The purpose and intent of this measure is to update the State’s agricultural planning statute to add the growth and development of traditional Hawaiian farming systems and traditional Hawaiian crops, as well as the growth and development of small-scale farms, as agricultural objectives of the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Hawaiian Affairs; Taro Security and Purity Task Force; College of Tropical Agriculture and Human Resources of the University of Hawai‘i at Mānoa; Hawai‘i Green Growth; King Kamehameha Hawaiian Civic Clubs; Association of Hawaiian Civic Clubs; Kua‘aina Ulu ‘Auamo; Kalihi Palama Hawaiian Civic Club; Hawaii Farm to School and School Garden Hui; Land Use Research Foundation of Hawaii; and twenty-eight individuals. Your Committee received comments on this measure from two individuals.

Article XI, section 3, of the Constitution of the State of Hawai‘i requires the Legislature to provide standards and criteria to increase Hawai‘i’s agricultural self-sufficiency.

Your Committee finds that prioritizing traditional agricultural techniques such as traditional Hawaiian farming is increasingly viewed as good policy. The United Nations Commission on Trade and Development urges nation states to support the development of sustainable small-scale farms and traditional farming systems to achieve food security, particularly in light of climate change. Supporting traditional farming is also consistent with the recommendations of the Taro Security and Purity Task Force’s 2010 legislative report *E ola hou ke kalo; ho‘i hou ka ‘āina lē‘ia: The taro lives; abundance returns to the land*. The report emphasizes the need to invest in traditional farming and crops to perpetuate culture and to support disaster preparedness and food security in our islands.

Your Committee supports the practice of traditional Hawaiian farming as a means to promote Hawaii's agricultural self-sufficiency. Your Committee also finds that traditional Hawaiian farming systems still play a critical role in Hawai'i and should be encouraged in order to promote greater self-sufficiency, crop diversity, and food security. Moreover, traditional Hawaiian crops like kalo, 'uala (sweet potato), limu (various seaweeds), 'awa, hō'i'o (large native fern), and 'olena (turmeric) that were cultivated using these traditional Hawaiian farming techniques continue to be important agricultural products for food, medicine, and cultural practices today.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 434, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 434, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 592 Judiciary and Labor on S.B. No. 533

The purpose and intent of this measure is to:

- (1) Provide the news media, under the supervision of emergency management personnel, reasonable access to areas that are closed pursuant to emergency management powers of the Governor or Mayor;
- (2) Indemnify the State and counties from any damage or injury to a person or property as a result of any news media entering an area closed pursuant to emergency management powers of the Governor or Mayor; and
- (3) Designate a pool writer, pool photographer, and pool videographer to gather and disseminate information when full access to the area closed pursuant to emergency management powers of the Governor or Mayor cannot be reasonably granted.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the Department of Defense and Hawaii Emergency Management Agency of the Department of Defense.

Your Committee finds that there have been significant events in the State that have affected the State's residents. The recent lava flow on the Big Island impacted many residents, but the news media was restricted from accessing areas that were closed pursuant to emergency management powers. As a result, the news media was unable to disseminate complete information to affected residents. This measure will allow for public safety while safely providing the news media with access to closed areas.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 533, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 593 Judiciary and Labor on S.B. No. 1009

The purpose and intent of this measure is to require that hotels notify customers that portage service charges are being used for other purposes unless they are distributed in full to employees as tip income.

Prior to voting on this measure, your Committee reviewed and considered testimony in support of S.B. No. 1009 that was submitted on time to your Committee on Tourism and International Affairs by UNITE HERE Local 5 and ILWU Local 142.

Your Committee finds that there should be transparency to consumers with regard to whether the money they pay to hotels as portage service charges are being paid to employees. Such transparency will allow the consumer to know whether the portage service charges they are paying are actually being paid to employees as tip income, or whether the hotel is keeping the money for itself to use for other purposes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1009, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Thielen).

SCRep. 594 Commerce and Consumer Protection on S.B. No. 743

The purpose and intent of this measure is to require an activity desk to designate a fiduciary when the activity desk terminates its business, notify the Department of Commerce and Consumer Affairs of the designation, and file monthly reports with the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Activities & Attractions Association of Hawaii; Lahaina Cruise Company, Inc.; Valley Isle Excursions, Inc.; Skyline Eco-Adventures, LLC; Ocean Tourism Coalition; and four individuals. Your Committee received testimony in opposition to this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that activity desks are intermediaries, such as concierges, wholesalers, or resellers, who sell activities offered by an activity provider. Although existing law imposes criminal penalties for individuals who violate certain provisions of chapter 468M, Hawaii Revised Statutes, relating to activity providers and activity desks, the law does not require an activity desk to designate a fiduciary to be in charge of the client trust account. This lack of a fiduciary tether has enabled some activity desks to use shell

corporations as a means of avoiding required client trust funding requirements. Later, these same activity desks close their doors, empty their client trust accounts, and leave behind customers with worthless tickets and activity providers with services rendered and no means to collect. This measure proposes to make a corporate officer of an activity desk the fiduciary in charge when the activity desk terminates its business.

Your Committee has heard the concerns that the amendment to the definition of "activity desk", as proposed by this measure, is inconsistent with the unamended language in the definition. Your Committee has also heard the concerns regarding requiring a corporate officer to be the fiduciary.

In response to these concerns, your Committee notes that the Regulated Industries Complaints Office and the Activities and Attractions Association of Hawaii compromised on language to protect activity providers and consumers, by creating a fiduciary requirement for activity desks and ensuring that existing criminal penalties under chapter 468M, Hawaii Revised Statutes, would be applicable. Amendments to this measure are therefore necessary to reflect this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required an activity desk to designate a fiduciary when the activity desk terminates its business, notify the Department of Commerce and Consumer Affairs of the designation, and file monthly reports with the Department of Commerce and Consumer Affairs;
- (2) Requiring an activity desk to designate an individual, officer, director, member, or manager who shall be a signatory on and fully responsible for the client trust account;
- (3) Specifying responsibilities of the designated signatory and requiring the activity desk to notify the Director of Commerce and Consumer Affairs in writing within ten days of any change in the designated signatory;
- (4) Amending existing criminal penalties under chapter 468M, Hawaii Revised Statutes, to include violations of the signatory requirements for activity desks; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 743, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 743, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 595 (Joint) Human Services and Housing and Public Safety, Intergovernmental and Military Affairs on S.B. No. 913

The purpose and intent of this measure is to require the Department of Public Safety to collect data on the number of incoming offenders into the state correctional system who are parents and the number of children they have that are under the age of eighteen.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Blueprint for Change, Adult Friends for Youth, Aha Moku Advisory Committee, Association of Hawaiian Civic Clubs, Community Alliance on Prisons, Family Programs Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Youth Services Network, Kalihi Palama Hawaiian Civic Club, King Kamehameha Hawaiian Civic Club, Interfaith Alliance Hawaii, Alii Pauahi Hawaiian Civic Club, Keiki O Ka Aina, and thirteen individuals. Your Committees received comments on this measure from the Department of Public Safety and Department of Education.

Your Committees find that there is a gap in services for children in Hawaii who have an incarcerated parent. Nationwide, it is estimated that 2,700,000 children have at least one parent that is incarcerated. Studies show that children with incarcerated parents suffer from emotional distress, developmental challenges, poor academic performance, aggressive behavior, and truancy. Even more troublesome is the evidence that children with incarcerated parents are much more likely to continue the cycle of incarceration and enter the criminal justice system themselves. Your Committees further find that funding is needed to provide services for children with incarcerated parents, but that first the State needs the data to justify the extent of the problem in Hawaii so that service providers can access federal funding.

Your Committees have amended this measure by:

- (1) Inserting language to expand the scope of information that the Department of Public Safety shall collect from incarcerated parents in order to facilitate services for incarcerated parents and their children; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing and Public Safety, Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 913, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 913, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Human Services and Housing
Ayes, 3. Noes, none. Excused, 2 (Green, Slom).
Public Safety, Intergovernmental and Military Affairs
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

SCRep. 596 Judiciary and Labor on S.B. No. 148

The purpose and intent of this measure is to include gambling among the types of offenses that are subject to the nuisance abatement laws.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawaii; and Police Department, City and County of Honolulu.

Your Committee finds that illegal gambling establishments can generate a large volume of cash and lead to neighborhood and community nuisances by becoming a haven for organized crime. This measure will supplement existing police efforts by providing an additional tool to remedy illegal activity at specific buildings, premises, or places within the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 148, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 148, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 597 Judiciary and Labor on S.B. No. 202

The purpose and intent of this measure is to amend the reporting requirements of noncandidate committees to include an identification of a ballot issue being advocated for or against.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the Department of the Attorney General and Campaign Spending Commission.

Your Committee finds that this measure adds an additional level of disclosure to the campaign finance laws to assist voters to “follow the money” and allow voters to determine the individuals, organizations, or businesses seeking to influence their votes.

Your Committee notes the recent heightened public interest in various ballot issues and the organizations that expend substantial sums of money in active support of or opposition to these ballot issues. It is the intent of your Committee to strengthen public confidence in the elections process with respect to ballot issues by creating the explicit additional level of disclosure proposed in this measure.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of the Attorney General that amends the definition of “electioneering communications” to include that such communications refer to a clearly identifiable ballot issue;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 202, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 598 Judiciary and Labor on S.B. No. 440

The purpose and intent of this measure is to amend the procedures for nominating and electing a United States senator to complete an unexpired term when a vacancy occurs to comply with the Uniform Military and Overseas Voters Act.

Your Committee received testimony in support of this measure from the Office of Elections. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that existing law provides that when a vacancy occurs in the Office of United States Senator, the vacancy is required to be filled for the unexpired term at the following state general election, provided that the vacancy occurs no later than the sixtieth day prior to the primary election. However, if a vacancy occurs on or after the sixtieth day prior to a primary election, the printing of ballots containing the names of the candidates cannot be completed for a statewide contest prior to the forty-five day deadline for overseas and military voters in accordance with state and federal law. This measure amends the date of the vacancy to no later than the fifteenth working day prior to the closing date for the filing of nomination papers for the primary election, which is 4:30 p.m. on the first Tuesday of June, to comply with the deadline for mailing the overseas and military ballots.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Attorney General to change the language from the fifteenth working day to the twenty-first day prior to the closing date for the filing of nomination papers for the primary election; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 440, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 599 Judiciary and Labor on S.B. No. 465

The purpose and intent of this measure is to amend the Sunshine Law to expressly allow certain government records to be shared among public board members where no commitment relating to a vote on the matter is made or sought.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii. Your Committee received comments on this measure from the Office of Information Practices, The Civil Beat Law Center for the Public Interest, and one individual.

Your Committee finds that the Hawaii Supreme Court held in Kanahale v. Maui County Council, 130 Hawaii 228 (2013), that memoranda circulated among members of a public board subject to the Sunshine Law were not permitted interactions under section 92-2.5, Hawaii Revised Statutes. As a result, public board members are prevented from transmitting government records to each other related to board business. This measure includes such memoranda as a permitted interaction between public board members as long as the memoranda do not include a commitment to vote on a matter to be considered by the board or request for a commitment.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of Information Practices to require that the transmittal does not include any additional discussion other than a statement describing the government record and the issue related to the government record being circulated among public board members;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 465, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 465, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 600 Judiciary and Labor on S.B. No. 475

The purpose and intent of this measure is to:

- (1) Add emergency meetings to the public meeting notice requirements;
- (2) Require a board to file the notice in the Office of the Lieutenant Governor and post notice on the electronic calendar on the State's or appropriate county's internet website no less than six calendar days before the meeting;
- (3) Require that if there is a dispute as to whether a notice was timely posted on an electronic calendar maintained by the State or county, a printout of the electronic time-stamped agenda shall be conclusive evidence of the electronic posting date; and
- (4) Require that a board maintain a list of names and postal or electronic mail addresses of persons who request notification of meetings and mail or electronically mail a copy of the notice to such persons.

Your Committee received testimony in support of this measure from the Office of Information Practices; The Civil Beat Law Center for the Public Trust; Common Cause Hawaii; League of Women Voters of Hawaii; Society of Professional Journalists, Hawaii Chapter; Animal Rights Hawaii; and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure updates the open meetings law by recognizing and incorporating modern communication technologies, including the Internet and electronic mail. However, your Committee notes the concerns raised in written testimony that modern forms of communication technologies may reduce transparency for individuals with disabilities and a class of people who do not have access to the Internet.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of Information Practices to reinstate language that requires the notice to be posted at the site of the meeting whenever feasible;
- (2) Inserting language to allow a person, upon request, to continue to receive a copy of the notice via postal mail rather than electronic mail;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 475, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 475, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 601 Government Operations on S.B. No. 1183

The purpose and intent of this measure is to recognize the importance of the ʻōpeʻapeʻa to the State of Hawaii and raise awareness of the ʻōpeʻapeʻa as an endangered species and uniquely Hawaiian land mammal by designating the ʻōpeʻapeʻa as the official land mammal of the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Humane Society of the United States-Hawaii, The Nature Conservancy, and five individuals. Your Committee received comments on this measure from Bat Conservation International and one individual.

Your Committee finds that the ʻōpeʻapeʻa is the only land mammal native to the Hawaiian Islands. The ʻōpeʻapeʻa is a unique and resilient animal that is well-suited to represent Hawaii. Recognizing the ʻōpeʻapeʻa, which roosts in trees, will do much to remind us of our reliance upon, and responsibility toward, our environment and natural and cultural resources.

Your Committee has amended this measure by:

- (1) Clarifying that the ʻōpeʻapeʻa was listed as endangered under the Federal Endangered Species Act and the State of Hawaii's Endangered Species List on October 13, 1970; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1183, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1183, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Tokuda).

SCRep. 602 Government Operations on S.B. No. 1064

The purpose and intent of this measure is to provide an effective procurement process for situations where a review committee is unable to send three or more qualified persons' submittals to provide professional services to the head of the purchasing agency pursuant to section 103D-304, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the State Procurement Office, Department of Budget and Fiscal Services of the City and County of Honolulu, and Finance Department of the County of Hawaii. Your Committee received testimony in opposition to this measure from the American Institute of Architects Hawaii State Council; Nanea Studios Inc.; Miyashiro and Associates, Inc.; American Council of Engineering Companies of Hawaii; Fukunaga & Associates, Inc.; The Limtiaco Consulting Group, Inc.; Bow Engineering & Development, Inc.; Shigemura, Lau, Sakanashi, Higuchi, and Associates, Inc.; Gray, Hong, Nojima, & Associates, Inc.; WSP Hawaii, Inc.; Thermal Engineering Corporation; Pacific Geotechnical Engineers, Inc.; Kukulu, LLC; Henniger & Henniger, Inc.; Fung Associates, Inc.; Maunakai and Associates; and four individuals.

Your Committee finds that this measure is necessary to provide a process for a procurement to proceed where fewer than three qualified persons are available to be sent to the head of the purchasing agency for contract negotiations. Prior to the February 2014 Hawaii Supreme Court ruling in *Asato v. Procurement Policy Board*, No. SCAP-12-0000789 (Haw. Feb. 14, 2014), administrative rules established by the Procurement Policy Board governed the procurement process where fewer than three qualified persons are available to be sent to the head of the purchasing agency for contract negotiations. The *Asato* decision struck down the administrative rules because they were less restrictive than the statute. This measure addresses that problem by specifically authorizing the Procurement Policy Board to establish administrative rules to guide procurements where fewer than three qualified persons are available to proceed to the head of the purchasing agency for contract negotiations.

Your Committee has amended this measure by:

- (1) Removing the authorization for the head of the purchasing agency to proceed with fewer than three qualified persons in accordance with administrative rules adopted by the Procurement Policy Board;
- (2) Reinstating the requirement to rank persons based on selection criteria;
- (3) Specifying that in cases where fewer than three qualified persons can be sent to the head of the purchasing agency, a request for an alternative procurement may be made to the chief procurement officer in accordance with administrative rules adopted by the Procurement Policy Board; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1064, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1064, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Tokuda).

SCRep. 603 Judiciary and Labor on S.B. No. 652

The purpose and intent of this measure is to require a public board to report any final action taken during an executive meeting, provided that such disclosure is not inconsistent with the purpose of convening the executive meeting and confidentiality is maintained.

Your Committee received testimony in support of this measure from the Office of Information Practices. Your Committee received comments on this measure from The Civil Beat Law Center for the Public Interest.

Your Committee finds that Sunshine Law does not require a public board to publicly announce a vote or elaborate on any discussion deliberated upon in executive session. However, while some boards voluntarily choose to publicly announce the action taken in executive session, other boards are reluctant to divulge any information about executive sessions. This measure provides an opportunity for members of the public to learn of a board's discussion or final action taken in an executive session within the parameters of chapter 92, Hawaii Revised Statutes, while also adhering to issues of confidentiality.

Your Committee has amended this measure by:

- (1) Inserting board discussion in addition to final action taken by the board in an executive session; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 652, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 604 Judiciary and Labor on S.B. No. 654

The purpose and intent of this measure is to amend the provisions relating to anonymous contributions by reducing the threshold amount a candidate may receive from ten or more persons at the same political function from \$500 to \$100.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that this measure impacts the threshold amount of anonymous contributions from ten or more persons at a fundraiser, which is a limited exception to the rule that generally prohibits anonymous contributions. A reduction in the threshold amount will result in such contributions being listed in disclosure reports for monetary and non-monetary contributions of \$100 or less rather than the Schedule A reports.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 654, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 654, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 605 Judiciary and Labor on S.B. No. 1116

The purpose and intent of this measure is to create consistency within the Hawaii Revised Statutes to ensure that the Hawaii State Hospital receives copies of court ordered examination reports upon commitment to the hospital.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that court ordered examination reports provide treatment teams at the Hawaii State Hospital with specific information for treatment focus, planning, and assessment, and management of risk. Under the existing unfit to proceed law, the Department of Health is required to receive the order of commitment accompanied by copies of the court ordered examination papers regarding the physical and mental condition of the defendant. However, under the existing acquit and commitment law, the Department is required to receive only the court order, but not copies of the court examination papers. This measure creates consistency between the laws pertaining to unfit to proceed and acquit and commitment so that the Hawaii State Hospital receives the court order examination reports.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1116, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Thielen).

SCRep. 606 Judiciary and Labor on S.B. No. 508

The purpose and intent of this measure is to require noncandidate committee preliminary reports to be filed on October 1 of a general election year rather than ten days prior to the general election.

Your Committee received testimony in support of this measure from Common Cause Hawaii and two individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that existing law requires noncandidate committees to file preliminary reports ten days prior to the general election. However, with the increased use of absentee voting, including mail-in absentee ballots that are cast well before the ten day filing deadline, voters do not have access to the amount of money noncandidate committees spend on ballot initiatives or opposing or

supporting candidates. This measure educates voters by requiring an earlier filing deadline for preliminary reports that disclose noncandidate committee expenditures.

Your Committee notes the written testimony received by Common Cause Hawaii that campaign spending by noncandidate committees increases just days prior to the general election. Thus, without retaining the filing deadline of ten calendar days prior to the general election, no public disclosure of campaign spending by noncandidate committees will be available between October 1 and a date well after the general election. As such, your Committee believes that adding the October 1 filing deadline date to section 11-336, Hawaii Revised Statutes, as a new reporting requirement rather than as a replacement to the filing deadline of ten calendar days prior to the general election will provide better transparency regarding noncandidate committee campaign spending.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by Common Cause Hawaii to reinstate the preliminary report filing deadline of ten calendar days prior to the general election, so that the October 1 filing deadline will be in addition to the filing deadline of ten calendar days prior to the general election;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 508, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 508, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 607 Judiciary and Labor on S.B. No. 509

The purpose and intent of this measure is to:

- (1) Require the Attorney General to prepare a statement for each proposed constitutional amendment in plain English that indicates the purpose, limitations, and effects of the proposed amendment;
- (2) Require the Attorney General to distribute each statement to the Office of Elections and all county clerks for further distribution; and
- (3) Require the Office of Elections and county clerks to make each statement available to the public in all physical or online sites where they make proposed constitutional amendment questions available to the public.

Your Committee received testimony in support of this measure from the League of Women Voters, Common Cause Hawaii, and three individuals.

Your Committee finds that there are voters who fail to vote on proposed constitutional amendments because they are unaware of the proposed constitutional amendments or do not understand the meaning, purpose, or impact of the proposed constitutional amendments. This measure will assist in voter education efforts and help voters better understand the proposed constitutional amendments and gain a higher comfort level when voting on those ballot questions.

Your Committee has amended this measure by inserting an effective date of January 7, 2059.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 509, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 608 Judiciary and Labor on S.B. No. 514

The purpose and intent of this measure is to establish a class C felony for theft of personal electronic devices that has the capability to store or retrieve personal information.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from one individual.

Your Committee finds that personal electronic devices store personal and sensitive information and data that exceed the monetary value of the devices. Furthermore, the monetary valuation of personal electronic devices can be problematic because these devices rapidly lose their monetary value as new technology is released. This measure eliminates the difficulty of setting a monetary value for personal electronic devices by establishing a class C felony for the theft of any personal electronic device.

Your Committee notes the concerns raised by the Departments of the Prosecuting Attorney of the City and County of Honolulu and County of Maui in their respective testimony.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Attorney General which:

(A) Clarifies that the offense of theft in the second degree includes theft of any personal electronic device rather than any computer capable of storing or retrieving personal information; and

(B) Adds a definition of “personal electronic device”; and

(2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 514, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 609 (Majority) Judiciary and Labor on S.B. No. 569

The purpose and intent of this measure is to increase the threshold value of property or services from \$300 to \$400 under the offense of theft in the second degree.

Your Committee received testimony in support of this measure from the Office of the Public Defender and Community Alliance on Prisons. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Hawaii Food Industry Association; and one individual.

Your Committee finds that the last time the threshold value of property or services under the offense of theft in the second degree was increased was 1986, and the prices of consumer items have steadily increased since then. This measure updates the threshold value of property under the offense of theft in the second degree to better reflect the rise in prices of consumer items.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 569, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 569, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 610 Judiciary and Labor on S.B. No. 779

The purpose and intent of this measure is to raise the District Court’s jurisdictional limit for civil actions involving specific performance.

Your Committee received testimony in support of this measure from the Collection Law Section of the Hawaii State Bar Association.

Your Committee finds that this measure corrects an inconsistency under section 604-5, Hawaii Revised Statutes, to align the District Court’s jurisdictional limit for civil actions involving specific performance with the District Court’s overall jurisdictional limit of \$40,000 for civil actions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 779 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ihara).

SCRep. 611 Government Operations on S.B. No. 1363

The purpose and intent of this measure is to designate the official ‘auana and kahiko musical instruments of the State in accordance with the results of the November 2014 WeVoteHawaii election in an effort to enthusiastically support Hawaii’s keiki in voting and the democratic process.

Your Committee received testimony in support of this measure from the Center for Hawaiian Sovereignty Studies and three individuals.

Your Committee finds that the ‘ukulele and pahu are vibrant components of Hawaiian culture. The music of Hawaii, as expressed through these instruments, is readily recognizable around the world. The kahiko (traditional) pahu and the ‘auana (modern) ‘ukulele are well-suited to serve as Hawaii’s state instruments.

Your Committee further finds that Hawaii’s students recognized the ‘ukulele and pahu as representative of Hawaiian culture by voting for them in the WeVoteHawaii online election. WeVoteHawaii is a hands-on civic education opportunity that teaches students about voting and democracy. The movement of this measure, born from the WeVoteHawaii election results, will further instruct students on democracy and the legislative process.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1363 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Tokuda).

SCRep. 612 Water and Land on S.C.R. No. 19

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands fronting the property identified as Tax Map Key Number (1)4-1-002:007, Waimanalo, Koolauapoko, Oahu, for the use, maintenance, and repair of a seawall and steps, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that on September 3, 2014, the Office of Conservation and Coastal Lands of the Department of Land and Natural Resources determined that the seawall was constructed prior to the establishment of the Conservation District in 1964 and indicated its support of an issuance of an easement to resolve the encroachments. On November 14, 2014, under agenda item D-21, the Board of Land and Natural Resources approved a grant of a 55-year non-exclusive easement to resolve the encroachments.

Your Committee has amended this measure by:

- (1) Inserting the correct total area of the encumbrance of state submerged lands as 4,539 square feet, according to the Department of Accounting and General Services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 19, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 19, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 613 Water and Land on S.B. No. 1124

The purpose and intent of this measure is to clarify that a person at least eighteen years of age need not obtain a marine surveyor's inspection nor provide documentation that the person is the owner of a vessel in order to be placed on a waitlist for a use permit to moor a vessel in a state small boat harbor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Act 10, Session Laws of Hawaii 2014, amended section 200-10(b), Hawaii Revised Statutes, to require that a person must be at least eighteen years of age prior to obtaining a use permit or being placed on a waitlist for a use permit. Your Committee finds that Act 10 amendments have the unintended consequence of requiring that a person at least eighteen years of age obtain a marine surveyor's inspection and provide documentation that the person is the owner of a vessel prior to being placed on the waitlist for a use permit.

Your Committee further finds that the majority of people requesting to be placed on the waitlist do not own a vessel at the time they apply to be placed on a waitlist, since they do not yet have a place to moor the vessel. The fact that the person may not yet have a place to moor the vessel should not impair the ability to be placed on the waitlist.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1124 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 614 Commerce and Consumer Protection on S.B. No. 826

The purpose and intent of this measure is to:

- (1) Establish provisions for condominium association annual meetings and quorum requirements;
- (2) Permit the board of an association to employ and discharge the managing agent of an association, subject to a vote of a majority of the unit owners at an association meeting; and
- (3) Provide an exemption for a condominium project in which a majority of the units have been submitted to one or more vacation plans, or in which one or more units has been submitted to a vacation plan established by the developer of the project or by an affiliate of the developers.

Your Committee received testimony in support of this measure from the Hawaii Community Associations Institute Legislative Action Committee and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and thirteen individuals.

Your Committee finds that the bylaws of a condominium provide for an annual meeting. At this meeting, certain required business must be attended to, including adopting a mandatory tax resolution to file the association's income tax and electing or reelecting members to the board of directors. Obtaining quorum may be difficult in certain situations, which can cause problems including failure to file the mandatory tax resolution or holdover board members. Your Committee has heard the concerns about the quorum requirement, as proposed by this measure. Your Committee has also heard the concerns regarding the managing agent provisions of this measure. Your Committee understands these concerns and concludes that amendments to this measure are necessary to address some of the challenges to condominium living that were brought up during testimony before your Committee.

Your Committee further finds that after the public hearing on this measure, interested stakeholders met to discuss consensus language to enhance the effectiveness and efficiency of the self-governance necessary in condominium living. Your Committee notes that, as part of the discussion, the Real Estate Commission and Regulated Industries Complaints Office will be developing a standardized form for written requests for association documents that are required to be provided under certain sections of chapter 514B, Hawaii Revised Statutes. This standardized form will clearly specify the documents condominium owners are entitled to receive and the parameters for receiving them and must be responded to within a set period of time. The form will also assist the Regulated Industries Complaints Office respond to complaints or questions regarding access to or receipt of association documents.

Your Committee is encouraged by discussions among the interested stakeholders and believes the amendments proposed by the stakeholders represent a balanced approach that will benefit condominium owners, boards, and associations. Amendments to this measure are therefore necessary to incorporate the language agreed upon by the interested stakeholders.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the annual meeting held by an association shall conduct business that includes but is not limited to filing applicable Internal Revenue Service forms and adopting a tax resolution and electing unit owners to the board of directors to fill any position that is expiring or has expired;
- (2) Clarifying that an association may allow two subsequent duly noticed adjourned annual meetings if there is no quorum present at the initial annual meeting and restricting the time between the originally-noticed adjourned annual meeting and the subsequent adjourned annual meeting to no longer than ninety days;
- (3) Permitting a reduced quorum requirement if quorum is not met at the third attempt to obtain quorum at a duly noticed adjourned annual meeting, and specifying the association business to be conducted at this meeting;
- (4) Clarifying the ability of a majority of unit owners to terminate a managing agent's contract at an association meeting;
- (5) Clarifying other circumstances in which a managing agent's contract may be terminated;
- (6) Clarifying exemptions to the managing agent contract provisions established by this measure;
- (7) Requiring association meetings to be held at a location convenient and easily accessible to a majority of condominium unit owners;
- (8) Requiring a condominium association with fifty or more units to prepare its budget on an accrual basis in accordance with generally accepted accounting principles;
- (9) Requiring the use of standardized forms prescribed or approved by the Real Estate Commission for the condominium unit owner's request for records and the association's response to the request for records;
- (10) Inserting a purpose section, savings clause, and severability clause;
- (11) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 826, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kahele, Slom).

SCRep. 615 Commerce and Consumer Protection on S.B. No. 14

The purpose and intent of this measure is to amend the residential landlord-tenant code to allow the security deposit to be used for unpaid charges, penalties, and fees that were agreed to by the landlord and tenant pursuant to the rental agreement.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS. Your Committee received testimony in opposition to this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that security deposits can help ensure tenants will timely pay their rent and maintain their rental property in an appropriate manner. This measure enables a landlord to use a security deposit for unpaid charges, penalties, and fees that were agreed to by the landlord and tenant pursuant to the rental agreement.

However, your Committee has heard the concerns that this measure as written is vague and could potentially lead to abuses of tenants' rights. According to testimony from the Office of Consumer Protection, the policy behind the security deposit provision in the State's landlord-tenant code is to provide all parties to a rental agreement clear guidance as to what the law requires, including the right for a landlord to receive compensation from a tenant for specific reasons. Your Committee understands that amending the security deposit provisions of the landlord-tenant code to include any charges, penalties, or fees owed could result in detrimental unequal bargaining positions between landlords and tenants during the execution of a rental agreement.

Your Committee has also heard the testimony that the intent behind this measure was to offer a solution to landlords who rent their property to tenants who then take on obligations, such as sewer, water, and electricity expenses, that, if unpaid, could affect the property.

In response to these concerns, your Committee notes that the Office of Consumer Protection and the Hawai'i Association of REALTORS worked together on compromise language to narrow the focus of this measure and allow a security deposit to be used for

specific unpaid charges when a tenant moves out, including unpaid utilities that were the obligation of the tenant but were paid by the landlord. Amendments to this measure are therefore necessary to reflect this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Adding a definition for “utility service”;
- (2) Deleting language that would have allowed the security deposit to be used for unpaid charges, penalties, and fees that were agreed to by the landlord and tenant pursuant to the rental agreement;
- (3) Permitting the security deposit to be used for replacing keys, including key fobs, parking cards, garage door openers, and mail box keys;
- (4) Permitting the security deposit to be used to pay for utility service provided by the landlord under the rental agreement but not included in the rent;
- (5) Updating the purpose section to reflect the amended purpose of this measure; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 14, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 14, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 616 Commerce and Consumer Protection on S.B. No. 662

The purpose and intent of this measure is to:

- (1) Require shippers to notify the county fire chief as to where fireworks shipments imported into the State or between counties are to be distributed;
- (2) Define the term “redistribution” to clarify shipment notification requirements;
- (3) Create two exceptions to the fireworks prohibitions for film or movie productions and for those authorized to dispose of or test consumer fireworks; and
- (4) Clarify that labels on certain fireworks shall be at least nine square inches.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Maui County Fire Department, Hawaii County Fire Department, and two individuals.

Your Committee finds that transporting fireworks to, from, and within the State requires the use of multiple methods of interstate and intrastate transportation. To ensure the health and safety of the community and the State’s first responders, the importation of fireworks shipments must be thoroughly accounted for and reported. However, under the existing law, there are no notification requirements for those transporting fireworks. This measure is therefore necessary to clarify shippers’ responsibilities and notification requirements and authorize the use of fireworks in certain circumstances.

Your Committee has amended this measure by:

- (1) Clarifying that shippers are required to notify the fire chief of a destination county prior to shipment as to where fireworks shipments imported into the State or between counties are to be distributed and from where they are to be distributed;
- (2) Clarifying that one of the exceptions to the fireworks prohibitions is for film or movie productions with a valid permit issued by a county fire department; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 662, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kahale, Kidani, Taniguchi).

SCRep. 617 Commerce and Consumer Protection on S.B. No. 757

The purpose and intent of this measure is to prohibit the use of electronic smoking devices in places where smoking is already prohibited and update signage requirements to reflect the new prohibition.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation, American Heart Association, American Lung Association of the Mountain Pacific, American Cancer Society Action Network, Coalition for a Tobacco-Free Hawai‘i, University of Hawai‘i Cancer Center, University of Hawai‘i at Manoa Student Health Advisory Council, and forty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance, PC Gamerz, 808 Smokes, and ten individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that electronic smoking devices have become increasingly prevalent and widely available since their introduction into the United States market. However, since electronic smoking devices are a relatively new product, their health effects

have yet to be thoroughly researched. Serious questions also remain about the safety of inhaling substances in an electronic smoking device. Your Committee further finds that electronic smoking devices produce an aerosol that is not merely water vapor. According to testimony received by your Committee, studies have found that the aerosol produced by electronic smoking devices may contain carcinogens, such as formaldehyde, acetaldehyde, lead, nickel, chromium, and other hazardous substances cited by the Agency for Toxic Substances and Disease Registry, which are associated with a wide range of negative health effects.

Your Committee additionally finds that the use of electronic smoking devices in traditionally smoke-free areas causes confusion in the enforcement of smoke-free laws, creates distractions in work environments, and renormalizes smoking behavior. This measure prohibits the use of electronic smoking devices in enclosed or partially enclosed places where smoking is prohibited, which will reduce the likelihood of nonuser exposure to potentially harmful chemicals in electronic smoking devices and help ensure compliance with existing smoking regulations.

Your Committee notes the concerns raised by the Department of the Attorney General in testimony. Your Committee concludes that amendments to this measure are therefore necessary to incorporate definitions suggested by the Department of Health that have been approved by the Attorney General and to delete the definition of “tobacco product”, thereby addressing the constitutional title concerns raised by the Department of the Attorney General.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the definitions of “electronic smoking device” and “smoke” or “smoking”;
- (2) Deleting the definition of “tobacco product”; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 757, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 618 Commerce and Consumer Protection on S.B. No. 233

The purpose and intent of this measure is to authorize the respective county directors of finance to enter into contracts with car dealerships and motor vehicle rental companies to register used motor vehicles.

Your Committee received testimony in support of this measure from the Hawaii Automobile Dealers Association.

Your Committee finds that currently, the registration of used motor vehicles or previously owned vehicles is the responsibility of the individual buyer, whereas the registration of new motor vehicles is commonly undertaken by the dealership under contracts with the respective county directors of finance. This measure enables the county directors of finance to enter into contracts with car dealerships and motor vehicle rental companies to register used motor vehicles, which will help modernize the motor vehicle registration process throughout the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 233, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 233, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kahele, Kidani, Taniguchi).

SCRep. 619 Commerce and Consumer Protection on S.B. No. 16

The purpose and intent of this measure is to:

- (1) Provide definitions of “hooked up”, “scene”, and “vehicle owner” to clarify when a vehicle must be released by a towing company;
- (2) Permit a towing charge of \$30 for difficult hookups; and
- (3) Require a date and time stamped photograph of the hooked up vehicle, showing the license plate of the vehicle, when the owner appears on the scene, as evidence that the vehicle is hooked up.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Honolulu Police Department, and two individuals. Your Committee received testimony in opposition to this measure from Honolulu Towing, Inc. Your Committee received comments on this measure from Waialae Towing and one individual.

Your Committee finds that existing law is in need of clarification regarding when a “hookup” of a vehicle by a towing company occurs, what constitutes the “scene” from which a tow is initiated, and who is the “vehicle owner” entitled to have the vehicle released from the towing company. The definitions proposed by this measure are intended to clarify the rights of vehicle owners and the duties of tow companies, which should diminish the number of disputes related to towing practices under section 290-11, Hawaii Revised Statutes.

However, your Committee notes the concern raised by the Office of Consumer Protection that the proposed definition of “scene” is ambiguous and overly restrictive. The Office of Consumer Protection noted in testimony that “scene” includes a radius of four feet

from where the vehicle is parked, which would mean that a person standing less than a car length away from a vehicle would be unable to request that a tow operator drop the tow. Amendments are therefore necessary to incorporate the suggestions offered by the Office of Consumer Protection, which will help prevent future disputes regarding the application of the requirement to drop a vehicle without a fee when a vehicle owner arrives on the scene.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the definition of “scene” includes a radius of fifty feet around the vehicle in certain circumstances, for purposes of a tow truck hooking up a vehicle;
- (2) Specifying that if a vehicle is hooked up, outside of the scene, and the tow operator is in motion, there is no obligation on the part of the towing company to drop the tow and release the vehicle to the vehicle owner; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 16, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 16, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Kahele, Kidani, Taniguchi).

SCRep. 620 Commerce and Consumer Protection on S.B. No. 1368

The purpose and intent of this measure is to prohibit the sale of liquor at street closure events, except under certain conditions.

Your Committee received testimony in support of this measure from the Chinatown Gateway Plaza Tenant Association and one individual. Your Committee received testimony in opposition to this measure from the Arts District Merchants Association; O’ahu Fringe Festival; Young’s Market Company; The Arts at Marks Garage; Paradise Beverages, Inc.; Kim Taylor Reece Gallery; 4th World Film; T-RX Entertainment, LLC; Mendonca Building; Pearl Wedding Photography; and numerous individuals. Your Committee received comments on this measure from the Liquor Commission of the City and County of Honolulu.

Your Committee finds that street closure events, often funded by the sale of liquor, have increased in size and popularity. Although these events have brought in visitors and revenue, concerns have been raised about noise and other impacts on area residents. This measure attempts to address some of the community conflicts that result from sales and consumption of alcohol on public streets and sidewalks during street closure events such as arts and entertainment street festivals by prohibiting the sale of liquor during these events, except under certain conditions. However, your Committee notes that amendments to this measure are necessary to ensure a better balance between the statewide regulation of alcohol sales and street festivals.

Accordingly, your Committee has amended this measure by:

- (1) Requiring liquor sales for street closure events as allowed by this measure to be subject to the same requirements as those applicable to vendors with Class 2 restaurant and Class 5 dispenser licenses; and
- (2) Clarifying the definition of “beer garden”.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1368, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1368, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Kahele, Kidani, Taniguchi).

SCRep. 621 Commerce and Consumer Protection on S.B. No. 735

The purpose and intent of this measure is to, beginning with the July 1, 2017, licensing biennium, require licensed registered nurses and licensed practical nurses to submit evidence of completed continuing competency requirements prior to the renewal of the license.

Your Committee received testimony in support of this measure from the Board of Nursing; Hawai’i State Center for Nursing; Hawaii Medical Association; University of Hawai’i at Manoa, School of Nursing and Dental Hygiene; Straub Clinic and Hospital; Wilcox Memorial Hospital; Pali Momi Medical Center; Kapi’olani Medical Center; Hawai’i Pacific Health; and five individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that nurses are critical to the successful implementation of health care reform in Hawaii. Continuing competency plays a significant role in nursing professionals’ ongoing development and for the betterment of the patients they serve. Your Committee further finds that the Hawai’i State Center for Nursing’s Continuing Education Joint Advisory Committee determined that a continuing competency program, including self-assessment, implementation of a personal learning plan, continuing education, and subsequent reassessment, was preferable to a simple continuing education program. This measure benefits licensed registered nurses, licensed practical nurses, and their patients by requiring completion of continuing competency requirements prior to any application for license renewal, restoration, or reinstatement.

Your Committee notes that certain amendments are necessary to ensure that the Board of Nursing is able to fully implement the continuing competency program proposed by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that each registered nurse and practical nurse licensee shall complete one of the learning activity options for continuing competency purposes, rather than thirty contact hours, which only pertain to the continuing education learning activity;

- (2) Clarifying that licensed practical nurses, in addition to registered nurses, who maintain current national certification may be exempt from the continuing competency requirements;
- (3) Clarifying the modified learning activity options a new nursing program graduate may complete in order to meet the continuing competency requirements;
- (4) Clarifying that a nurse licensee shall complete one of the nursing activity options, rather than a combination of learning activity options, for continued competency purposes;
- (5) Clarifying certain learning activity options, including participation as a preceptor, completion of a nursing research project that is an institution review board project, completion of an evidence-based practice project that has been preapproved by the Board of Nursing, and development and conducting of a nursing education presentation for contact hours of actual organized instruction that qualifies as continuing education; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 735, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 735, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 622 Commerce and Consumer Protection on S.B. No. 114

The purpose and intent of this measure is to require, after January 1, 2016, the continuing education program for dentists to include three hours of ethics training per year.

Your Committee received testimony in support of this measure from the Hawaii Dental Association. Your Committee received comments on this measure from the Board of Dental Examiners.

Your Committee finds that Hawaii's licensed dentists are required to maintain their professional licensure with continuing education classes in order to keep up with current professional standards and procedures. Ethics is an area that is often overlooked in education. Requiring three hours of ethics training each year will maintain the integrity of the dental profession and assure the public that their interests are protected.

Your Committee further finds that chapter 448, Hawaii Revised Statutes, relating to dentistry, does not reference a specific code of ethics for dentists. Including a specific reference to a code of ethics will clarify licensees' obligations and will complement the continuing education ethics training requirements proposed by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the Board of Dental Examiners may suspend or revoke any license issued under chapter 448, Hawaii Revised Statutes, for conduct or practice contrary to recognized standards of ethics of the profession, as adopted by the American Dental Association or the Hawaii Dental Association; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 114, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 114, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 623 Ways and Means on S.B. No. 511

The purpose and intent of this measure is to authorize the Land Use Commission to vacate, void, modify, or amend a land use district boundary amendment or special permit under chapter 205, Hawaii Revised Statutes, if the Land Use Commission reasonably finds that there has been a failure to substantially conform with the conditions or requirements of the boundary amendment or special permit.

Your Committee received written comments in support of this measure from the Office of Planning, Office of Hawaiian Affairs, and Land Use Commission. Your Committee received written comments in opposition to this measure from the Land Use Research Foundation of Hawaii, the Building Industry Association of Hawaii, and one individual.

Your Committee finds that the Land Use Commission currently lacks the power necessary to enforce conditions and requirements of boundary amendments and special permits. Your Committee believes that this measure affords the Land Use Commission greater authority to ensure that the interests of the State, the counties, and the public are protected.

Your Committee has amended this measure by:

- (1) Changing the effective date from upon approval to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 511, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 511, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 624 Ways and Means on S.B. No. 375

The purpose and intent of this measure is to authorize the growing of industrial hemp and to appropriate funds to the Department of Agriculture to implement the measure.

Specifically, this measure:

- (1) Decriminalizes activities related to industrial hemp;
- (2) Requires growers of industrial hemp to register with the Board of Agriculture to grow only industrial hemp that is on a list of approved seed cultivars; and
- (3) Excludes institutions of higher education and registered seed breeders from the registration requirement.

Your Committee received written comments in support of this measure from the University of Hawaii, ILWU Local 142, Hawaii Farmers Union United, Ai Pohaku, Ilio Lani Farm LLC, Laakea Community LLC, One Island Sustainable Living, Flavor of Hawaii Farms, Green Futures, Waihuena Farm, and one hundred and five individuals. Your Committee received written comments on this measure from the Department of Agriculture and one individual.

Your Committee finds that industrial hemp is a crop that is worthy of consideration for its economic potential.

Your Committee has amended this measure by:

- (1) Correcting the name of an entity to “the Organization for Economic Cooperation and Development”;
- (2) Designating sections 141-1 to 141-10, Hawaii Revised Statutes, as “Part I. General Provisions”;
- (3) Changing the appropriation to an unspecified amount;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 375, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 375, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 625 Judiciary and Labor on S.B. No. 758

The purpose and intent of this measure is to specify means for effecting service of process when personal service is unsuccessful, by:

- (1) Publication three times in a newspaper of general circulation; or
- (2) Publication on a state website together with publication once in a newspaper.

Your Committee received testimony in support of this measure from the Department of the Attorney General and the Collection Law Section of the Hawaii State Bar Association. Your Committee received testimony in opposition to this measure from the Honolulu Star Advertiser. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that with the development of electronic technology, the law should be updated to allow for service of process by publication on the website of the Department of the Attorney General.

Your Committee has amended this measure by:

- (1) Amending the criteria for a newspaper being of general circulation by:
 - (A) Providing that the newspaper has been distributed for a minimum of one year as of the date of first publication of the notice under certain circumstances; and
 - (B) Deleting the requirement that the newspaper be distributed to three percent of the residents of the circuit in which the civil action is filed;
- (2) Providing that service by publication on a state website be on the website of the Department of the Attorney General; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 758, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 758, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Thielen).

SCRep. 626 Judiciary and Labor on S.B. No. 134

The purpose and intent of this measure is to adopt the Uniform Partition of Heirs Property Act, which establishes procedures and remedies applicable to actions for partition of real property that is heirs property.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation.

Your Committee finds that this Uniform Partition of Heirs Property Act is intended to provide procedures and remedies in partition actions involving real property held in tenancy in common for which there is no binding agreement among the cotenants to govern the partition of the property. Your Committee notes the testimony of the Commission to Promote Uniform Legislation that this measure is intended to provide cotenants with many of the protections and rights commonly found in private agreements governing the partition of real property held by tenants-in-common and that this measure is not intended to replace existing law on partitioning property that is not heirs property.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 134, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 134, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 627 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 1295

The purpose and intent of this measure is to:

- (1) Allow the Department of Business, Economic Development, and Tourism to enter into inter-agency agreements with the Natural Energy Laboratory of Hawaii Authority (NELHA) without entering into a memorandum of agreement or memorandum of understanding; and
- (2) Incentivize the research, development, and commercialization of renewable energy technology in Hawaii by allowing these business activities to qualify a business for incentives under the state enterprise zone program.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Natural Energy Laboratory of Hawaii Authority. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that this measure makes businesses operating within research and technology parks established by NELHA eligible for the State's enterprise zone program. This measure also broadens the scope of businesses eligible for enterprise zone benefits within NELHA's research and technology park, which will enable NELHA to expand its economic development project and increase the amount of annual state tax revenue generated by the research and technology park.

Your Committees have amended this measure by:

- (1) Amending the definitions of "renewable energy" and "renewable energy technology" to clarify that the special enterprise zone incentives are limited to business activities relating to energy produced by ocean thermal energy conversion, solar, or hydrogen and to business activities relating to technologies including hydrogen research and development;
- (2) Clarifying that a tax credit for renewable energy technology may not be claimed under chapter 235, Hawaii Revised Statutes, if a tax credit is also claimed pursuant to the new section in chapter 227D, Hawaii Revised Statutes, as proposed by this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1295, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1295, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Kaele, Nishihara, Taniguchi).

Ways and Means

Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, English, Inouye, Ruderman).

SCRep. 628 (Majority) Ways and Means on S.B. No. 1177

The purpose and intent of this measure is to appropriate moneys from the works of art special fund to the Hawaii State Foundation on Culture and the Arts to establish four full-time positions.

Your Committee received written comments in support of this measure from the Hui Noeau Visual Arts Center and eight individuals. Your Committee received written comments on this measure from the Office of the Auditor, Department of Accounting and General Services, State Foundation on Culture and the Arts, and two individuals.

Your Committee finds that the Hawaii State Foundation on Culture and the Arts is responsible for a collection of nearly six thousand three hundred pieces of art and about \$3,000,000 per year in works of art special fund revenues. Your Committee further finds that a recent audit of the Hawaii State Foundation on Culture and the Arts found that it needs to improve its management to

ensure the accountability, accessibility, and protection of these important resources. Accordingly, your Committee finds that this measure will allow the Hawaii State Foundation on Culture and the Arts to address the audit's findings by appropriating moneys to hire four additional staff to help carry out the foundation's mission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1177, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Slom). Excused, 2 (Galuteria, Riviere).

SCRep. 629 Judiciary and Labor on S.B. No. 1115

The purpose and intent of this measure is to amend the definition of "public buildings, facilities, and sites" under section 103-50, Hawaii Revised Statutes (HRS), to, among other things, exempt from mandatory review by the Disability and Communication Access Board certain construction projects constructed on state or county lands that would not ordinarily be open to public access.

Your Committee did not receive testimony on this measure.

Your Committee finds that section 103-50, HRS, is not intended to require certain private entities operating upon state or county lands to be held to the compliance standards of the Americans with Disabilities Act or to submit building plans for review by the Disability and Communication Access Board. Farm buildings constructed upon state agricultural land and private homes constructed upon a Hawaiian homestead plot are examples of buildings that were not intended to be regulated under section 103-50, HRS, but could arguably fall under the Disability and Communication Access Board's purview according to existing statutory language. This measure intends to align statutory language with the actual procedures and practices that the Disability and Communication Access Board implements in carrying out its responsibilities over building plan reviews.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1115, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 630 Hawaiian Affairs on Gov. Msg. No. 509

Recommending that the Senate advise and consent to the nomination of the following:

CHAIRPERSON OF THE DEPARTMENT OF HAWAIIAN HOME LANDS

G.M. No. 509 JOBIE MASAGATANI, for a term to expire 12-31-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Jobie Masagatani to possess the requisite qualifications to be nominated as the Chairperson of the Hawaiian Homes Commission.

Your Committee received testimony in support of the nomination of Ms. Masagatani from the Governor; Office of Hawaiian Affairs; Department of Land and Natural Resources; Department of Transportation; Department of Budget and Finance; Hawaii Housing Finance and Development Corporation; University of Hawaii System; Aha Moku Advisory Committee; Ko'olaupoko Hawaiian Civic Club; Queen Lili'uokalani Children's Center; Building Industry Association of Hawaii; City Square Management Services, Inc.; Waiohuli Hawaiian Homesteaders Association, Inc.; ValueRock Realty Partners; Democratic Party of Hawaii; Hawaiian Affairs Caucus; Hawaii Laborers-Employers Cooperation and Education Trust; Ashford & Wriston, A Limited Liability Law Partnership LLP; United Public Workers, AFSCME Local 646 AFL-CIO; Ho'omana Pono, LLC; Chun Kerr LLP; Kapolei Community Development Corporation; Colliers International; Anahola Farmers and Ranchers Association; Hawaii Regional Council of Carpenters; Pelatron; General Growth Properties/Prince Kuhio Plaza LLC; Ko'olau Foundation; King Kamehameha Hawaiian Civic Club; Native Hawaiian Chamber of Commerce; PBR Hawaii & Associates, Inc.; Special Olympics Hawaii; Operating Engineers Local Union No. 3; Auamo I Na Alaka'i; Pana'ewa Hawaiian Home Lands Community Association; DeBartolo Development LLC; Chamber of Commerce Hawaii; Princess Kaiulani Hawaiian Civic Club; Kanu o ka 'Aina Learning 'Ohana; Pearl Harbor Hawaiian Civic Club; Honua Consulting; and fifty-one individuals. Your Committee also received a petition in support signed by twenty-four individuals and a petition in support signed by one hundred twenty-two individuals. Your Committee received testimony in opposition to the nomination of Ms. Masagatani from the Sovereign Councils of Hawaiian Homelands Assembly; Hawaiian Community Assets; Council for Native Hawaiian Advancement; and five individuals. Your Committee received comments regarding Ms. Masagatani's nomination from one individual.

Ms. Masagatani is a graduate of the Kamehameha Schools, Kapalama campus. She received her Bachelor of Science degree in Education from Northwestern University. She received her Master's Degree in Public Affairs/Urban and Regional Planning from Princeton University, Woodrow Wilson School of Public and International Affairs.

From 2012 to present, Ms. Masagatani has served as Chairperson of the Hawaiian Homes Commission. Immediately prior to that, she served as the Special Assistant to the Chief Executive Officer and also the Public Policy Program Manager at the Office of Hawaiian Affairs. In 2005, Ms. Masagatani founded Clarity Organizational Services. Prior to that, she served as Assistant to the President and Chief Executive Officer at The Queen's Health Systems. From 1995-2002, Ms. Masagatani served as the Deputy to the Chairman of the Hawaiian Homes Commission. Ms. Masagatani has also served as a Project Manager for the Hawaii Real Estate Research and Education Center – Research Corporation of the University of Hawaii, as a Land Investment Analyst with the Kamehameha Schools/Bishop Estate, and a Budget Examiner at the Office of Management and Budget, Executive Office of the President, United States Government.

Ms. Masagatani is affiliated with numerous community organizations, including the Hui Hanai Board, Queen Lili'uokalani Trust, Native Hawaiian Educational Council, Kamehameha Schools Board of Advisors, University of Hawaii John A. Burns School of

Medicine Department of Native Hawaiian Health Community Advisory Board, United States Census Advisory Committee on Native Hawaiian and Other Pacific Islanders Population, and Affordable Housing Advisory Council Federal Home Loan Bank of Seattle.

Testimony in support of the nominee indicated that Ms. Masagatani has a history of serving the native Hawaiian community and specifically the Department of Hawaiian Home Lands. Ms. Masagatani expressed her recognition that, in this time of budgetary constraints, the Department of Hawaiian Home Lands must generate income through its commercial properties so that it can ultimately serve its beneficiaries on homestead lands and on the waiting list to receive homestead lands. Upon questioning, Ms. Masagatani explained that the issue of people being on the wait list is a multi-faceted problem. While the Department of Hawaiian Home Lands is continuing to make lots available, many beneficiaries are unable to afford the cost. To address this situation, the Department is developing various programs to ultimately get beneficiaries onto homestead lands. Your Committee notes that testimony was received complaining that Ms. Masagatani had not reached out to all groups of beneficiaries. Your Committee further notes that Ms. Masagatani herself identified communication as an area where she could improve and that she was not objectionable to meeting with any beneficiaries if they requested.

Your Committee finds that Ms. Masagatani is qualified to serve as the Chairperson of the Hawaiian Homes Commission and is optimistic that she will serve the Department of Hawaiian Home Lands and its beneficiaries well.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 631 Hawaiian Affairs on Gov. Msg. No. 510

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY TO THE CHAIRPERSON OF THE DEPARTMENT OF HAWAIIAN HOME LANDS

G.M. No. 510 WILLIAM AILA JR., for a term to expire 12-3-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds William Aila, Jr., to possess the requisite qualifications to be nominated as the Deputy to the Chairperson of the Hawaiian Homes Commission.

Your Committee received testimony in support of the nomination of Mr. Aila from the Governor; National Oceanic and Atmospheric Administration; Office of Hawaiian Affairs; Department of Hawaiian Home Lands; Department of Land and Natural Resources; Department of Transportation; Department of Budget and Finance; Hawaii Housing Finance and Development Corporation; University of Hawaii System; Aha Moku Advisory Committee; Ko'olaupoko Hawaiian Civic Club; Queen Lili'uokalani Childrens Center; ValueRock Realty Partners; Hawaii Laborers-Employers Cooperation and Education Trust; Democratic Party of Hawaii – Hawaiian Affairs Caucus; United Public Workers, AFSCME, Local 646, AFL-CIO; Ho'omana Pono LLC; Building Industry Association of Hawaii; Ocean Tourism Coalition; Kapolei Community Development Corporation; Anahola Farmers and Ranchers Association; Hawaii Regional Council of Carpenters; Sovereign Councils of the Hawaiian Homelands Assembly; Pelatron; Ko'olau Foundation; The Nature Conservancy; Ashford & Wriston, a Limited Law Partnership LLP; Council for Native Hawaiian Advancement; Native Hawaiian Chamber of Commerce; Special Olympics Hawaii; Auamo I Na Alaka'i; Chamber of Commerce Hawaii; Princess Kaiulani Hawaiian Civic Club; Honua Consulting; Oka's Auto Body and Paint; and forty-two individuals. Your Committee also received a petition in support of the nomination signed by twenty-four individuals. Your Committee received testimony in opposition to the nomination from one individual.

Mr. Aila is a graduate of Wai'anae High School. He received a Bachelor of Science degree in General Tropical Agriculture from the University of Hawaii at Manoa.

Mr. Aila served as the Chairperson of the Board of Land and Natural Resources from 2010-2014. He spent the previous twenty-three years as the harbor agent for the Wai'anae Boat Harbor.

Mr. Aila's community service includes membership in the National Marine Protected Areas Advisory Council, Ka'ena Point Advisory Group, Advisory Group to US Army Garrison Hawai'i, US Army Ordnance Reef Advisory Committee, Leeward Community College Wai'anae Campus Advisory Board, Hui Malama I Na Kupuna O Hawaii Nei, Ka Papa O Kakuhihewa, Hawaii Community Development Authority, Wai'anae Weed and Seed Task Force, Mohala I Ka Wai, and numerous other groups.

Your Committee received overwhelming testimony in support of Mr. Aila's nomination. Various testifiers spoke to his ability to work together with groups of people and bring them together. Your Committee also heard testimony of Mr. Aila's work ethic and hands on approach to problem solving while serving as the Chairperson of the Board of Land and Natural Resources. Mr. Aila expressed that he is personally aware of the struggles facing beneficiaries as they seek to obtain home land leases. He and his wife spent over twenty years working through the Hawaiian home lands processes to obtain their homestead parcel.

Your Committee believes that Mr. Aila's work ethic, professional background, and personal experience make him qualified to serve as the Deputy to the Chairperson of the Hawaiian Homes Commission.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 632 Judiciary and Labor on S.B. No. 140

The purpose and intent of this measure is to require agencies to exercise reasonable care in the maintenance of all government records under their control that are required to be made available for public inspection.

Your Committee received testimony in support of this measure from the Kokua Council and 'Āina Haina Community Association. Your Committee received testimony in opposition to this measure from the Office of Information Practices and Police Department, City and County of Honolulu.

Your Committee finds that in Molfino v. Yuen, Civ. No. 07-1-0378, 2014 (Haw. Sup. Ct. Nov. 13, 2014), the Supreme Court upheld a Circuit Court ruling that, absent a statutory requirement, a government agency does not have a duty of reasonable care with respect to maintaining government records for the purpose of public inspection. This measure amends chapter 92F, Hawaii Revised Statutes, to create a statutory requirement that government agencies exercise reasonable care in maintaining those government records open to public inspection.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 140 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 633 Transportation on S.B. No. 415

The purpose and intent of this measure is to allow bicyclists to signal a right turn by using their right hand and arm extended horizontally from the right side of the bicycle.

Your Committee received testimony in support of this measure from the Department of Transportation Services, City and County of Honolulu; Hawaii Bicycling League; and one individual.

Your Committee finds that this measure enhances traffic safety by giving motor vehicle drivers advanced indication of the intent of a bicyclist to make a right turn. Your Committee supports measures like this that help to make bicycling safer.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 415 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Inouye, Kidani).

SCRep. 634 Transportation on S.B. No. 1141

The purpose and intent of this measure is to clarify that the Department of Transportation can enforce its administrative rules at Kawaihapai Airfield, formerly known as Dillingham Airfield.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that current law exempts airports or air navigation facilities owned or operated by the United States from administrative regulation by the Department of Transportation. This measure would remove that exemption and allow the Department of Transportation, who leases Kawaihapai Airfield from the United States, to better manage Kawaihapai Airfield as a general aviation airport.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Kidani).

SCRep. 635 Health on S.B. No. 305

The purpose and intent of this measure is to prohibit the use of tobacco products and e-cigarettes on all of the Hawaii Health Systems Corporation's premises.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation; Healthcare Association of Hawaii; The Queen's Health Systems; Coalition for a Tobacco-Free Hawaii; and Foodland Supermarkets, Ltd. Your Committee received testimony in opposition to this measure from VOLCANO Fine Electronic Cigarettes, Hawaii Smokers Alliance, and ten individuals.

Your Committee finds that facilities within the Hawaii Health Systems Corporation are committed to providing quality healthcare for the people of Hawaii and taking steps to reduce the occurrence of preventable disease. Consistent with this commitment, the Corporation must not permit the use of tobacco and other potentially dangerous substances on the campuses of its health facilities. Allowing such use would not only expose vulnerable patients, employees, and visitors to the perils of harmful substances, but would also demonstrate a shortcoming in the Corporation's goal of reducing the occurrence of preventable disease.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 305, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 305, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 636 Health on S.B. No. 818

The purpose and intent of this measure is to:

- (1) Require the Department of Health to accept tuberculosis blood tests in addition to the tuberculosis skin test for the purpose of obtaining a certificate of tuberculosis examination;
- (2) Amend the law requiring tuberculosis clearance prior to public school entry to be in accordance with law rather than with Department of Health rules; and
- (3) Clarify that the Department of Health's administrative rules regarding the use of the Mantoux tuberculin skin test or chest x-rays in obtaining a certificate of tuberculosis examination shall remain in effect until amended to include the addition of tuberculosis blood tests as an acceptable tuberculosis diagnostic.

Your Committee received testimony in support of this measure from the Department of Health and Department of Education.

Your Committee finds that many people are required to be tested for tuberculosis: children entering school, school personnel, personnel working with higher-risk populations, students enrolling in higher education, and others. The addition of Food and Drug Administration-approved, Centers for Communicable Disease and Prevention-recommended tests for tuberculosis infection as an approved tuberculosis diagnostic is necessary because it is a more appropriate test for those who have received the bacille Calmette-Guerin tuberculosis vaccine, individuals opposed to the tuberculin injection, and people for whom returning for a second appointment to check for a skin reaction is a hardship.

Your Committee has amended this measure by:

- (1) Replacing references to interferon-gamma release assay tuberculosis blood tests with "Food and Drug Administration-approved, Centers for Communicable Disease and Prevention-recommended tests for tuberculosis infection" as acceptable tests for the purpose of obtaining a certificate of tuberculosis examination;
- (2) Amending language to require tuberculosis clearance prior to public school entry to be in accordance with both Department of Health rules and state law; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 818, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Baker).

SCRep. 637 (Joint) Health and Commerce and Consumer Protection on S.B. No. 356

The purpose and intent of this measure is to enable patients to obtain their medical records free of charge from medical facilities that have declared bankruptcy.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that individuals having responsibility for decisions respecting their own health care possess a concomitant right of access to complete information respecting their condition and care provided. Allowing patients access to their medical records will not only educate patients about their medical conditions and possible treatments, it will help ensure that records are available to new care providers when patients relocate or change doctors, or when a health care provider no longer provides services.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 356, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 356, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Health

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Ruderman).

Commerce and Consumer Protection

Ayes, 6. Noes, none. Excused, 1 (Kahele).

SCRep. 638 Commerce and Consumer Protection on S.B. No. 756

The purpose and intent of this measure is to establish a mortgage license exemption for sellers of real property who offer or negotiate terms of a mortgage loan secured by the seller's own real property; provided that the seller does not engage in more than three mortgage loans in one calendar year.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS, REALTORS Association of Maui, and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Act 198, Session Laws of Hawaii 2014, made various amendments to chapter 454F, Hawaii Revised Statutes, the Secure and Fair Enforcement for Mortgage Licensing Act, including removing exemptions that allowed ordinary, non-licensed property owners to provide financing for their own properties. Your Committee further finds that owner financing is a useful tool in the credit market, as it expands the pool of potential buyers for owners and gives buyers an opportunity to make a purchase that may otherwise have been out of reach, particularly if the buyers are unable to qualify for a traditional mortgage loan.

Your Committee has heard the testimony regarding whether the owner financing exemption should have been removed last year as part of the overall amendments to the Secure and Fair Enforcement for Mortgage Licensing Act. Your Committee notes that Hawaii has met the minimum model state legislation that is required to comply with the federal Secure and Fair Enforcement for Mortgage Licensing Act. Your Committee also notes that the Consumer Financial Protection Bureau's implementing regulations for the Secure and Fair Enforcement for Mortgage Licensing Act exclude some sellers who provide seller financing from the definition of loan originator.

Finally, your Committee notes that interested stakeholders have collaborated on consensus language to clarify the mortgage license exemption proposed by this measure and ensure that buyers in an owner-financed transaction understand the terms of the transaction. Amendments to this measure are therefore necessary to reflect this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the mortgage license exemption proposed by this measure is for a seller of real property who offers or negotiates terms of a residential mortgage loan secured by the seller's own real property and for which the seller is the mortgagee; provided that the seller is an individual who provides three or fewer residential mortgage loans per calendar year and the interest rate for the loan is not above the State's usury limit;
- (2) Requiring the seller in an owner-financed transaction to provide the buyer a disclosure with the terms of the transaction; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 756, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 756, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 639 Judiciary and Labor on S.B. No. 1066

The purpose and intent of this measure is to:

- (1) Update the Uniform Interstate Family Support Act to comply with the requirements of the Hague Convention of the International Recovery of Child Support and Other Forms of Family Maintenance; and
- (2) Establish procedures for registration, recognition, enforcement, and modifications of support orders from countries that are parties to the Hague Convention.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Commission to Promote Uniform Legislation.

Your Committee finds that since 1998, the Uniform Interstate Family Support Act (UIFSA) has been adopted by all fifty states. UIFSA provides uniform rules for the enforcement of family support orders in the United States and serves as the basis for interstate establishment and enforcement of support obligations. By updating and adopting the subsequent amendments made to UIFSA, this measure assists in improving the enforcement of American child support orders abroad.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2015; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1066, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Thielen).

SCRep. 640 Judiciary and Labor on S.B. No. 657

The purpose and intent of this measure is to require legislators to file a supplemental report within ten days of the conclusion of a special session of the Legislature that covers the period from the last required reporting date to the conclusion of that special session.

Your Committee received comments on this measure from the Department of the Attorney General and Campaign Spending Commission.

Your Committee finds that heightened public interest in campaign spending issues may arise in the event of a special session of the Legislature other than a special session convened by the Senate only for the purpose of judicial confirmations pursuant to article VI, section 3, of the Hawaii State Constitution. This measure assists in increasing transparency of candidate committee contributions by requiring legislators to file an additional supplemental report to the Campaign Spending Commission at the conclusion of a special session of the Legislature.

Your Committee has incorporated suggestions from the Department of the Attorney General to only amend section 11-334(a)(4), Hawaii Revised Statutes (HRS). Accordingly, this measure proposes an additional supplementary report to be filed by candidate committees within thirty calendar days after the conclusion of a special session of the full Legislature, but only if the date of conclusion of the special session is more than ninety calendar days before the next supplementary report is otherwise due under current law.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of the Attorney General that:
 - (A) Inserts a purpose section to explain the justification of adding an additional reporting requirement for legislators at the conclusion of a special session;
 - (B) Clarifies that the additional supplemental reports required of legislators under this measure apply to special sessions conducted by both houses of the Legislature;
 - (C) Deletes the new section added to chapter 11, Hawaii Revised Statutes (HRS), and amendments to section 11-333, HRS; and
 - (D) Retains and amends section 11-334(a), HRS, to require legislators to file a supplemental report within thirty days of the conclusion of a special session of the full Legislature if the next regularly scheduled report is due more than ninety calendar days after conclusion of that special session;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 657, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 657, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 641 Ways and Means on S.B. No. 104

The purpose and intent of this measure is to include efficiency measures in the state budgeting process.

Your Committee received comments on this measure from the Department of Budget and Finance and the University of Hawaii.

Your Committee finds that, as a matter of best practices in budgeting, cost-benefit metrics such as efficiency measures help ensure that the planned investment of funds is thoroughly considered against anticipated outcomes. From an operating standpoint, identifying efficiency measures can also assist agencies and the Legislature to determine realistic expectations for service levels.

Your Committee notes that during the hearing on this measure, the University of Hawaii indicated its willingness to work with the Department of Budget and Finance on a pilot project on efficiency measures.

Your Committee has amended this measure by deleting its contents and replacing it with provisions that:

- (1) Require the Director of Finance to select one state department to participate in a pilot project for the establishment of, and data collection for, efficiency measures intended to be included with budget documents to be submitted to the Legislature after the fiscal biennium of 2015-2017;
- (2) Require the selected state department to submit at least three proposed efficiency measures to the Director of Finance;
- (3) Require the Director of Finance to submit to the Legislature, prior to the Regular Session of 2017, a report on:
 - (A) The Director's findings and recommendations resulting from the pilot project;
 - (B) Whether to require all executive departments to include efficiency measures, commencing with the budget documents for fiscal biennium 2019-2021; and
 - (C) The costs incurred by the Department of Budget and Finance and the selected state department in conducting the pilot project;
- (4) Require the Auditor to submit an evaluation report to the Legislature no later than March 1, 2017, on the pilot project;
- (5) Appropriate funds to the Department of Budget and Finance for the pilot project; and
- (6) Change the effective date to July 1, 2015.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 104, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 104, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Ruderman).

SCRep. 642 Ways and Means on S.B. No. 106

The purpose and intent of this measure is to recalibrate the formula for computing the general fund expenditure ceiling, beginning from the fiscal year 2019-2020, by requiring that it be based on the previous fiscal year's general fund appropriation, rather than the previous fiscal year's general fund expenditure ceiling.

Your Committee received comments on this measure from the Department of Budget and Finance and the Tax Foundation of Hawaii.

Your Committee finds that article VII, section 9, of the Hawaii Constitution requires the establishment of a general fund expenditure ceiling that may be exceeded only upon two-thirds vote of each house of the Legislature. Your Committee also finds that, under the current method of computation, the ceiling historically far exceeds actual general fund appropriations and does not accurately forecast or encourage prudent spending levels. Your Committee believes that basing the computation of the general fund expenditure ceiling on the previous fiscal year's general fund appropriation, rather than the previous fiscal year's general fund expenditure ceiling, would establish the ceiling at a more reasonable level.

Your Committee notes that the method of computation proposed by this measure would not be implemented until fiscal year 2019-2020, after the State's annual required contributions for public employees' post-employment benefits under Act 268, Session Laws of Hawaii 2013, have reached one hundred per cent. This will avoid any distortion that may be caused by the gradually increasing schedule of annual contributions under Act 268 that commenced from fiscal year 2014-2015.

Your Committee also notes that, commencing with fiscal year 2019-2020, should the Legislature, upon a two-thirds vote of each house, choose to exceed the general fund expenditure ceiling, the ongoing fiscal year's general fund appropriation would become the new base year for computing the general fund expenditure ceiling.

Your Committee further finds that, pursuant to article VII, section 3, of the Hawaii Constitution, the Tax Review Commission is required to conduct an evaluation of the State's tax structure. Your Committee believes that it would be appropriate for the Tax Review Commission, as part of its evaluation, to review this measure and consider what effect changing how the general fund expenditure ceiling is calculated might have. Your Committee intends that the Tax Review Commission submit its findings and recommendations to the Legislature concurrently with its report on the State's tax structure.

Your Committee has amended this measure by:

- (1) Requiring that the Tax Review Commission, as part of its evaluation of the State's tax structure, review this measure to determine if it is consistent with the revenue and tax policy of the State; and
- (2) Making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 106, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ruderman).

SCRep. 643 Ways and Means on S.B. No. 250

The purpose and intent of this measure is to clarify how federal funds received by the State are to be expended.

Specifically, this measure:

- (1) Expressly states that the disbursement of federal-aid moneys is subject to legislative appropriation or other law authorizing expenditure;
- (2) Amends the definition of "federal funds" in the executive budget act to include financial aid reasonably anticipated to be received from the federal government or financial aid for which an agency's application is pending before the federal government;
- (3) Allows the expenditure of unanticipated or excess federal moneys when authorized by proviso in the budget or supplemental budget act; and
- (4) States the intent that this Act shall apply to the Judiciary by operation of section 601-2, Hawaii Revised Statutes.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Health, and University of Hawaii.

Your Committee finds that the clarifications made by this measure will assist the Legislature in gaining a more accurate understanding of the amounts and types of federal funding that are being received by state agencies. This added information and budgetary control will enable the Legislature to make better assessments of agency budgets, thereby facilitating fiscal accountability.

Your Committee has amended this measure by:

- (1) Amending the definition of “federal funds” to delete a reference to financial aid for which an agency’s application is pending before the federal government;
- (2) Changing the defined term “unanticipated or excess federal moneys” to “unanticipated federal moneys” and further clarifying that term’s definition to include federal financial aid that is not appropriated in the budget or supplemental budget act; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 250, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 250, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (English, Harimoto, Slom).

SCRep. 644 (Majority) Ways and Means on S.B. No. 118

The purpose and intent of this measure is to disallow the dividends paid income tax deduction for real estate investment trusts.

Your Committee received testimony in support of this measure from the Bojim Investments, Commercial Properties of Maui, Hawaii Government Employees Association, Hawaii State AFL-CIO, Long Services Inc., Matt Levi Investigations, St. Francis of Neumann Communities, Savio Associates LLC, The Savio Group, Sofos Realty Corporation, TMC General Contracting, UNITE HERE Local 5, and sixty-nine individuals. Your Committee received testimony in opposition to this measure from Albert C. Kobayashi Inc., CNL Lifestyle Properties Inc., General Growth Properties, Hawaii Association of Realtors, Kobayashi Group LLC, Land Use Research Foundation of Hawaii, The MacNaughton Group, National Association of Real Estate Investment Trusts Inc., Public Storage, The Shidler Group, Taubman Centers, and one individual. Your Committee received comments on this measure from Department of Taxation, Tax Foundation of Hawaii, and two individuals.

Your Committee finds that the issue of real estate investment trusts is very controversial.

Supporters of this measure contend that the dividends paid by real estate investment trusts should not be deductible, effectively taxing those amounts before distribution. They feel that repealing the deduction will promote fairness in the treatment of similar, but differently organized, business entities and generate revenues for state programs. Supporters also feel that the dividends should be taxed by the State before distribution outside Hawaii, where the State’s taxing authority does not extend.

Opponents contend that this measure will discourage the operation of real estate investment trusts in Hawaii. They contend that this measure will hurt the local economy, serve as a barrier to capital flow into the State, and reduce opportunities for small investors to pool with others to participate in real estate development opportunities. Opponents also contend that the State may lose revenues because of the possible abandonment of the Hawaii market by real estate investment trusts or engagement in tax avoidance strategies, such as relocation to low-taxing jurisdictions.

Unfortunately, your Committee’s diligent effort to obtain data on the economic impact of real estate investment trusts in Hawaii or tax revenues generated or avoided by such trusts has been unsuccessful. Without the data, your Committee is hesitant to act favorably on this measure. Thus, your Committee has amended this measure to require a comprehensive study on the impact of real estate investment trusts. The study is intended to provide data on and evaluate the contentions and arguments of supporters and opponents of this measure. Your Committee finds that such a study is necessary before taking action on a measure that may or may not have substantial impacts on the economy of the State.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language requiring the Department of Business, Economic Development, and Tourism, with the assistance of the Department of Taxation, to study the impact of real estate investment trusts in Hawaii and the possible effect of repealing the dividends paid income tax deduction for real estate investment trusts;
- (2) Appropriating an unspecified amount of funds to the Department of Business, Economic Development, and Tourism to perform the study; and
- (3) Providing for a July 1, 2015, effective date of the appropriation section.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 118, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Galuteria).

SCRep. 645 Ways and Means on S.B. No. 555

The purpose and intent of this measure is to:

- (1) Increase the refundable food/excise tax credit by a fixed amount; and
- (2) Commencing with taxable years beginning after December 31, 2016, tie the tax credit to increases in the consumer price index.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Americans for Democratic Action, Catholic Charities, Hawaii Alliance for Community-Based Economic Development, Hawaii Appleseed Center for Law and Economic Justice, PHOCUSED, Hawaii Primary Care Association, and UNITE HERE Local 5. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that Hawaii has the second highest tax burden in the country for the bottom twenty percent of income earners. Your Committee believes that amending the refundable food/excise tax credit would provide a measure of tax relief to the lowest earners in the State. However, your Committee finds that the requirement for a taxpayer to be a resident in order to claim the credit may present a constitutional problem. Your Committee further finds that tying the tax credit to the consumer price index may be difficult for the Department of Taxation to administer and confusing for taxpayers.

Your Committee has amended this measure by:

- (1) Increasing the amount of the refundable food/excise tax credit for low-income tax filers, particularly heads of households and married joint filers;
- (2) Deleting the provision requiring an annual adjustment to the refundable food/excise tax credit corresponding to increases in the consumer price index;
- (3) Repealing the refundable food/excise tax credit for taxpayers who file single returns with adjusted gross incomes of \$30,000 or above; and
- (4) Repealing the residency requirement for the refundable food/excise tax credit.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 555, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 555, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 646 Ways and Means on S.B. No. 1212

The purpose and intent of this measure is to repeal obsolete provisions in the general excise tax and public service company tax laws.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that sections of the general excise tax and public service company tax laws contain provisions that were to phase-in the effect of certain amendments over several years. Your Committee further finds that the phase-in periods for those provisions have long since ended, making those provisions obsolete.

Your Committee has amended this measure by:

- (1) Amending section 238-2.3, Hawaii Revised Statutes, to delete a reference to section 237-13.3, Hawaii Revised Statutes, which is repealed by this measure;
- (2) Deleting the section of the measure that would have repealed section 239-6(e), Hawaii Revised Statutes, which exempts certain transportation service providers from the public service company tax, provided that they are subject to the general excise tax; and
- (3) Making technical nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1212, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Harimoto, Slom).

SCRep. 647 (Majority) Ways and Means on S.B. No. 1297

The purpose and intent of this measure is to place ceilings on the total amounts of cigarette tax revenues that are presently deposited into certain special funds.

Your Committee received testimony in opposition to this measure from the University of Hawaii, Friends of the Medical School, and three individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that under the present tax structure, certain special funds receive a specified number of cents per cigarette with no limit to the total amount of tax revenue that may be received per fiscal year. Your Committee further finds that placing a cap on the amount of cigarette tax revenues received by these special funds will promote budgetary planning and transparency by:

- (1) Making forecasts of general fund revenues more reliable;
- (2) Increasing legislative oversight of the agencies and programs supported by those special funds; and
- (3) Increasing competition for limited public funds among agencies and programs seeking funds additional to those automatically distributed to their special funds.

Your Committee further finds that the practice of automatically earmarking funds that fluctuate over time to not be in the best interest of either the State or the recipient program. Without legislative involvement in the distribution of funds, determinations as to whether or not programs are receiving too little or too much resources are often not made in a timely manner. This has resulted in some programs requiring additional funds and other programs building up large reserves that could have been better utilized for other programs and services.

Your Committee has amended this measure by setting out the new tax structure as a new paragraph to the existing statutory section on the disposition of the cigarette tax revenues, rather than as amendments to the presently applicable paragraph of that section. This is consistent with recent legislative practice regarding this statute and preserves the record of cigarette taxation amounts and disposition.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1297, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1297, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Chun Oakland). Excused, 1 (Dela Cruz).

SCRep. 648 Ways and Means on S.B. No. 325

The purpose and intent of this measure is to appropriate \$2,000,000 out of general revenues to the University of Hawaii to fund student employees at new or expanded worksites on each University of Hawaii campus.

Your Committee received written comments in support of this measure from the University of Hawaii, University of Hawaii Office of Student Affairs, and fourteen individuals.

Your Committee finds that on-campus employment benefits both students and universities. Students gain critical workforce skills and are able to cover rising college costs while campuses benefit from students' performance of a myriad of critical university functions. Your Committee believes that students who work on campus often perform better academically and have higher graduation rates than those who work off campus.

Your Committee has amended this measure by changing the appropriation amount to an unspecified sum to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 325, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 325, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Galuteria, Riviere).

SCRep. 649 Ways and Means on S.B. No. 435

The purpose and intent of this measure is to require that all publicly funded landscaping projects include a minimum percentage of Hawaiian plants, in order to contribute to a Hawaiian sense of place, reduce the use of non-native invasive plant species, and support the preservation of Hawaii's cultural and ecological heritage.

Your Committee received written comments in support of this measure from the Judiciary, Department of Transportation, Department of Land and Natural Resources, Office of Hawaiian Affairs, State Procurement Office, a Councilmember from the Kauai County Council, Association of Hawaiian Civic Clubs, Hawaii Green Growth, The Nature Conservancy, Kua'aina Ulu 'Auamo, King Kamehameha HCC, and twelve individuals. Your Committee received written comments in opposition to this measure from the Department of Accounting and General Services.

Your Committee finds that the use of Hawaiian plants in landscaping on public works is essential to preserving a Hawaiian sense of place. Greater use of native plants is also important for cultural preservation, biodiversity, biosecurity, and ecosystem management. Your Committee believes that publicly funded landscaping should embody Hawaii's cultural and ecological heritage through the use of Hawaiian plants.

Your Committee recognizes that there may be concerns about the complexities of complying with this measure during the procurement process. However, your Committee believes that any remaining issues concerning procurement may be addressed and resolved as the measure advances through the legislative process.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 435, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 435, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Ruderman).

SCRep. 650 Ways and Means on S.B. No. 1341

The purpose and intent of this measure is to provide the State Innovation Waiver Task Force with a more focused purpose and the resources necessary to develop a waiver to certain provisions of the Patient Protection and Affordable Care Act (Affordable Care Act) in a timely manner.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, the Chamber of Commerce of Hawaii, and one individual.

Your Committee finds that the State Innovation Waiver Task Force was established by the Legislature in 2014 for the purpose of developing a plan that meets the requirements for obtaining a state innovation waiver that complies with the Affordable Care Act. The task force is scheduled to be dissolved on June 30, 2017, and has yet to develop a compliant waiver plan.

Your Committee finds that the state innovation waiver is a crucial mechanism that will allow the State and its health insurers better address the challenges that are distinct to Hawaii's unique healthcare market and more successfully implement the Affordable Care Act in conjunction with Hawaii's Prepaid Health Care Act. Currently, the task force does not have all of the resources that it needs to continue its work to develop an innovation waiver proposal. Narrowing the scope of the task force's purpose and providing the task force with the resources it needs to develop an innovation waiver proposal will complete an important step toward improving the effectiveness of insurance and healthcare delivery in Hawaii under the new requirements of the Affordable Care Act.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1341, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Chun Oakland, Ruderman, Slom).

SCRep. 651 Ways and Means on S.B. No. 1262

The purpose and intent of this measure is to amend the Secure and Fair Enforcement for Mortgage Licensing Act by authorizing the Insurance Commissioner to make a finding to adjust the assessed mortgage loan recovery fund fee once the mortgage loan recovery fund reaches its target balance.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs and Hawaii Association of Mortgage Brokers.

Your Committee finds that authorizing the Commissioner of Financial Institutions to make a finding to adjust the assessed mortgage loan recovery fund fee provides appropriate flexibility to manage the fund so that it reaches and maintains its target balance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1262, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Chun Oakland, Dela Cruz, Ruderman).

SCRep. 652 Ways and Means on S.B. No. 1157

The purpose and intent of this measure is to make the temporary Starlight Reserve Advisory Committee permanent.

The measure also makes a technical amendment to specify that the administrator, rather than the chairperson, of the Office of Hawaiian Affairs shall be a member of the advisory committee.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism, Department of Transportation, Office of Hawaiian Affairs, University of Hawaii, and Starlight Reserve Committee.

Your Committee finds that it is necessary to continue the coordinated efforts of the institutions represented on the Starlight Reserve Advisory Committee to fully develop and implement a statewide strategy to reduce nighttime light pollution, with the long-term goals of preserving Hawaii's night sky for astronomical studies, protecting endangered species, and reducing nighttime energy consumption.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1157, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1157, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 653 Transportation on S.B. No. 416

The purpose and intent of this measure is to:

- (1) Authorize the use of the State highway fund for the establishment of cycle tracks;
- (2) Define cycle track; and
- (3) Clarify permitted uses on cycle tracks under the Statewide Traffic Code.

Your Committee received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; Department of Transportation Services, City and County of Honolulu; Hawaii Bicycling League; Blue Planet Foundation; and one individual.

Your Committee finds that this measure is intended to immediately address a new cycle track established by the City and County of Honolulu on South King Street, although the measure applies to all cycle tracks. The King Street cycle track officially opened as a one-way cycle track on Saturday, December 6, 2014. Bicyclists heading in the East-bound direction are permitted to use the cycle track.

Your Committee supports bicycling as an ideal alternative to motorized vehicle travel since it reduces traffic, is environmentally friendly, and promotes good health.

Cycle tracks also fulfill the intent of the Complete Streets Policy established under section 264-20.5, Hawaii Revised Statutes (HRS), "that seeks to reasonably accommodate convenient access and mobility for all users of the public highways within their

respective jurisdictions as described under section 264-1, [HRS,] including pedestrians, bicyclists, transit users, motorists, and persons of all ages and abilities”.

Your Committee applauds the efforts of the City and County of Honolulu to ease traffic congestion, but is especially concerned about the safety aspects of a cycle track that allows for two-way travel since motorists and pedestrians must be extra vigilant for bicyclists heading in both directions. Your Committee notes that the cycle track on South King Street is adjacent to street parking stalls, making travel by bicyclists and motorists somewhat dangerous. Your Committee notes further that there is moderate to heavy pedestrian traffic on South King Street which could further complicate matters. Therefore, your Committee urges the City and County of Honolulu to exercise due caution if it allows the cycle track on South King Street to accommodate two-way travel on the same track.

Your Committee has amended this measure by:

- (1) Amending section 264-18(c), HRS, to authorize, by rule of the Department of Transportation or counties through the adoption of an ordinance, lanes, paths, routes, ways, and cycle tracks to be used by pedestrians and non-motorized vehicles;
- (2) Clarifying that two bicycle riders may ride next to each other on a bicycle lane, cycle track, and bicycle path under certain circumstances unless otherwise prohibited by rule or ordinance adopted by the Department of Transportation or the counties respectively;
- (3) Specifically authorizing the Director of Transportation by rule and the counties through the adoption of an ordinance to allow mopeds to use bicycle lanes, cycle tracks, and bicycle paths, rather than restricting or prohibiting such uses through the postage of signs; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 416, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 416, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Inouye, Kidani).

SCRep. 654 Ways and Means on S.B. No. 92

The purpose and intent of this measure is to augment accessibility to general excise tax exemption information collected and provided by the Department of Taxation.

More specifically, this measure:

- (1) Requires the Department of Taxation to publish reports on certain general excise tax exemptions; and
- (2) Repeals specific annual reporting deadlines.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that, pursuant to section 231-3.4, Hawaii Revised Statutes, the Department of Taxation is required to publish reports on Hawaii income patterns and tax credits. This measure amends section 231-3.4, Hawaii Revised Statutes, by also requiring the Department of Taxation to publish reports on certain general excise tax exemptions. Your Committee believes that this measure will provide information that will be useful in determining the effectiveness of state tax incentives.

Your Committee has amended this measure by:

- (1) Making clarifying amendments to the descriptions of reports currently required under section 231-3.4, Hawaii Revised Statutes, regarding the income patterns of Hawaii businesses;
- (2) Amending section 231-3.4, Hawaii Revised Statutes, to retain the Department of Taxation's annual reporting requirement, while repealing an obsolete reporting deadline; and
- (3) Making technical nonsubstantive amendments for the purposes of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 92, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 92, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 655 (Majority) Ways and Means on S.B. No. 401

The purpose and intent of this measure is to amend the excise tax rate on the sale of large cigars.

More specifically, this measure amends the excise tax rate on sales of large cigars that occur on or after July 1, 2015, to the lesser of:

- (1) Fifty cents for each large cigar; or
- (2) Fifty percent of the wholesale price of each large cigar.

Your Committee received testimony in support of this measure from the Cigar Association of America, Inc., Cigar Rights of America, Hawaii Cigar Association, Hawaii Farm Bureau, Hawaii Food Industry Association, Kauai Cigar Company, and seventeen individuals. Your Committee received a petition in support of this measure with the signatures of four hundred fifty individuals. Your

Committee received testimony in opposition to this measure from the Department of Health, American Cancer Society, American Heart Association, American Lung Association in Hawaii, Coalition for a Tobacco-Free Hawaii, and twenty individuals. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

This measure adjusts the excise tax on large cigars by amending paragraph (13) of section 245-3(a), Hawaii Revised Statutes, which sets the current excise tax rate on large cigars. Your Committee notes that by amending the paragraph that sets the existing tax rate, rather than setting out the amended tax rate in a new paragraph, this measure may retroactively repeal the excise tax on large cigars sold, used, or possessed prior to July 1, 2015. Your Committee finds that such a retroactive repeal is not the intent of this measure.

Accordingly, your Committee has amended this measure by:

- (1) Setting out the amended excise tax rate as a new paragraph of section 245-3(a), Hawaii Revised Statutes;
- (2) Applying the amended excise tax rate to sales of large cigars that occur on or after December 31, 2015; and
- (3) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 401, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 401, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Dela Cruz, Riviere, Ruderman). Noes, 1 (Inouye). Excused, 1 (Harimoto).

SCRep. 656 Ways and Means on S.B. No. 1092

The purpose and intent of this measure is to repeal various non-general funds and accounts.

Specifically, this measure repeals the following:

- (1) The Captain Cook Memorial Fund;
- (2) The infrastructure development fund;
- (3) The pineapple workers and retirees housing assistance fund;
- (4) The statewide geospatial information and data integration special fund;
- (5) The transportation use special fund;
- (6) The food distribution program revolving fund;
- (7) The career and technical training projects revolving fund;
- (8) The University of Hawaii alumni special fund;
- (9) The animal research farm, Waialeale, Oahu special fund;
- (10) The public health nursing services special fund;
- (11) The blind shop revolving and handicraft fund;
- (12) The donations for voter registration drive trust account established in 1984 and administered by the department of accounting and general services;
- (13) The Hawaii FY1 - ICSD trust account administratively established in 1996 and administered by the department of accounting and general services;
- (14) The parking control revolving fund escrow account administered by the department of accounting and general services;
- (15) The returned ACH tax refunds trust account administratively established in 2004 and administered by the department of accounting and general services;
- (16) The HDOA biocontrol foreign exploration special fund created in 2010 and administered by the department of agriculture;
- (17) The Hawaii EUTF self-directed investments trust account created in 2007 and administered by the department of budget and finance; and
- (18) An account controlled by the state commission on fatherhood.

The measure also transfers the balance of the fee simple residential revolving fund into the general fund.

For purposes of a public hearing, your Committee circulated a proposed S.D. 1 (Proposed Draft) of the measure, and notified the public that your Committee would be accepting testimony on the Proposed Draft, which repeals only the:

- (1) Pineapple workers and retirees housing assistance fund;
- (2) State disaster revolving loan fund; and
- (3) Transportation use special fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and the Hawaii Housing Finance and Development Corporation. The Department of Business, Economic Development, and Tourism submitted

testimony in opposition. Your Committee received comments from the Department of Accounting and General Services, University of Hawaii, Office of the Auditor, and Tax Foundation of Hawaii.

Your Committee finds that this measure implements some of the recommendations made by the Auditor. Repealing funds that no longer serve their intended purpose or no longer have activity promotes transparency in government finances, increases budgetary flexibility, improves government efficiency, and enhances government accountability.

Your Committee has amended this measure by adopting the Proposed Draft with the following additional amendments:

- (1) Deleting sections 4 and 5, which would have repealed the state disaster revolving fund; and
- (2) Adding a conforming amendment to repeal section 261D-3, Hawaii Revised Statutes, relating to exemption of the transportation use special fund from its pro rata share of administrative expenses pursuant to section 36-30, Hawaii Revised Statutes; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1092, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 657 Ways and Means on S.B. No. 119

The purpose and intent of this measure is to appropriate funds for public employment cost items and cost adjustments for employees of the legislative branch.

Specifically, this measure appropriates unspecified amounts to the:

- (1) State Ethics Commission;
- (2) Office the Auditor;
- (3) Office of the Legislative Reference Bureau;
- (4) Office of the Ombudsman;
- (5) Senate; and
- (6) House of Representatives.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau, Office of the Auditor, Office of the Ombudsman, and State Ethics Commission.

Your Committee finds that the staff of the Legislature and the legislative service agencies are excluded from collective bargaining. This measure provides a legislative vehicle to appropriate sufficient funds for the public employment cost items of and cost adjustments for those officers and employees.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 119 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 658 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 254

The purpose and intent of this measure is to require the Director of Finance to include a summary of operational costs for proposed capital improvement projects within each annual budget submitted to the Legislature.

Your Committees find that the costs of state facilities include not only initial construction cost, but also the cost to operate the facility once constructed. Requiring the Director of Finance to disclose estimated operational costs will help to present a more complete picture of the actual cost of a capital improvement project and will help to provide guidance on whether expenditures of operational cost-saving investments are justified.

Your Committees have amended this measure by:

- (1) Requiring each agency responsible for operating or maintaining a state-owned building, facility, or other improvement to furnish an estimate of the deferred maintenance costs of that building, facility, or improvement to the Department of Budget and Finance;
- (2) Requiring that the Director of Finance also include a summary of the deferred maintenance costs of state buildings, facilities, and improvements within each annual budget submitted to the Legislature; and
- (3) Defining what costs are considered as deferred maintenance.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 254, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 254, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

Judiciary and Labor

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 659 (Joint) Judiciary and Labor and Commerce and Consumer Protection on S.B. No. 1287

The purpose and intent of this measure is to:

- (1) Protect sound recordings fixed prior to February 15, 1972, against unauthorized public performance; and
- (2) Repeal chapter 482C, Hawaii Revised Statutes (HRS), relating to copyrights in sound recordings.

Your Committees received testimony in support of this measure from six individuals.

Your Committees find that prior to the Copyright Act of 1976, the federal copyright laws did not protect sound recordings. However, omitted from this federal copyright protection was the right of public performance of a sound recording for profit. In its 2014 decision of *Flo & Eddie, Inc. v. Sirius XM Radio, Inc. et al.*, Case No. CV 13-5693 PSG (RZx) (Sept. 22, 2014), the United States District Court for the Central District of California recognized that the Copyright Act of 1976 explicitly allows states to regulate rights and interests arising from sound recordings fixed prior to February 15, 1972. Furthermore, the court held that California Civil Code, section 980(a)(2), recognizes a comprehensive ownership interest in sound recordings fixed prior to February 15, 1972. Accordingly, this measure allows recording artists and their record labels to enjoy a public performance right in their sound recordings.

Your Committees have amended this measure by:

- (1) Condensing the purpose section under section 1;
- (2) Extending the exclusive ownership interest in original work until February 15, 2067, instead of February 15, 2047, to reflect the federal law rather than the California law;
- (3) Reinstating chapter 482C, HRS, rather than repealing the chapter;
- (4) Amending the penalty provision under section 482C-5, HRS, to establish that a person who violates the copyrights in sound recordings law shall pay a fine not to exceed \$1,000 or be guilty of a misdemeanor, or both;
- (5) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1287, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1287, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Kidani, Taniguchi, Slom).

SCRep. 660 Judiciary and Labor on S.B. No. 871

The purpose and intent of this measure is to:

- (1) Establish driver's license reciprocity privileges between Hawaii and foreign countries, which would allow a nonresident operator of a motor vehicle who holds a license to operate a motor vehicle in another country to obtain a Hawaii driver's license to operate a car or truck under certain conditions; and
- (2) Repeal the Driver's License Reciprocity Committee established under section 286-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that the ability to drive adds to a person's quality of life in Hawaii and in many other countries. This measure facilitates the ability to drive by providing driver's license reciprocity with other countries under specified conditions. Your Committee further finds that the existing Driver's License Reciprocity Committee is cumbersome, costly, and complicated to administer. As a result, it has never been used since its enactment by Act 314, Session Laws of Hawaii 2012, despite public interest in driver's license reciprocity.

Your Committee notes the written testimony submitted by the Department of Transportation regarding requiring a nonresident operator of a motor vehicle to be a holder of an international driving permit to qualify for reciprocity. Your Committee has concerns regarding the feasibility of a nonresident obtaining an international driving permit and encourages further discussion on this matter as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Transportation that clarifies that the nonresident operator of a motor vehicle who seeks reciprocal licensing privileges shall be a holder of a current and valid license and international driving permit to operate a motor vehicle in the country in which the nonresident operator resides;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 871, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 871, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Ihara, Slom).

SCRep. 661 Judiciary and Labor on S.B. No. 879

The purpose and intent of this measure is to establish a civil violation subject to a fine of \$100 for intentional or knowing possession of one ounce or less of marijuana.

Your Committee received testimony in support of this measure from the Progressive Democrats of Hawaii, Libertarian Party of Hawaii, The Drug Policy Action Group, The Drug Policy Forum of Hawaii, Alternative Pain Management Puuhonua LLC, Green Futures, Hawaii Substance Abuse Coalition, American Civil Liberties Union of Hawaii, and four individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Police Department, County of Maui; Police Department, City and County of Honolulu; Police Department, County of Hawaii; Coalition for a Drug-Free Hawaii; Hawaii Family Advocates; and seven individuals. Your Committee received comments on this measure from the Judiciary, Waihuena Farm, and one individual.

Your Committee finds that the costs to enforce criminal marijuana possession statutes are substantial. According to a report entitled *Update to: Budgetary Implications of Marijuana Decriminalization and Legalization for Hawai'i*, dated January 2013, by David C. Nixon, an associate professor at the University of Hawaii Public Policy Center, the enforcement costs for misdemeanor marijuana costs have skyrocketed in the State, and the cost of arrest in Hawaii for simple marijuana possession is now approximately \$9,300,000 a year, with marijuana distribution enforcement costing the State an additional \$3,100,000 a year. By establishing a civil violation subject to a fine of \$100 for intentional or knowing possession of one ounce or less of marijuana, your Committee does not intend to imply that such possession is acceptable and notes that possession of one ounce or less of marijuana is still prohibited conduct under state law.

Your Committee has amended this measure by:

- (1) Inserting language from section 11 of S.B. No. 666 (Regular Session of 2015) that amends the offense of promoting a detrimental drug in the third degree to clarify that the offense applies to the knowing possession of more than one ounce of marijuana;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 879, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 879, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 662 Judiciary and Labor on S.B. No. 211

The purpose and intent of this measure is to:

- (1) Specify the requirements of DNA sample collection from criminal offenders that are released on parole, probation, or other release; and
- (2) Establish a class C felony for intentionally or knowingly refusing or failing to provide DNA samples for forensic identification and clarify that it is a misdemeanor for the negligent or reckless failure to comply.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; Office of the Prosecuting Attorney, County of Hawaii; Police Department, City and County of Honolulu; and Police Department, County of Maui. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and two individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that all individuals convicted of a felony offense are required to submit DNA buccal swab samples for the purpose of establishing a DNA database that can be used to solve crimes and exonerate the innocent. Under existing law, if a felon refuses to comply with the law, the only mechanism to obtain compliance is the threat of a misdemeanor prosecution for a negligent or reckless violation, which is not likely to deter actions or induce compliance with the law. This measure creates a felony level offense for refusal or failure to provide DNA samples to increase compliance with the law.

Your Committee has amended this measure by:

- (1) Deleting section 1 because the clarification under section 844D-35, Hawaii Revised Statutes (HRS), is not necessary;
- (2) Adopting the language suggested by the Department of the Attorney General that separates the misdemeanor and felony penalties under section 844D-111(b), HRS, for further clarity and less chances of confusion when charging and tracking the offenses through the criminal justice and criminal history systems;
- (3) Clarifying that “intentionally”, “knowingly”, “recklessly”, and “negligently” have the same meanings as in section 702-206, HRS;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 211, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 211, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 663 Judiciary and Labor on S.B. No. 1208

The purpose and intent of this measure is to authorize the Employees’ Retirement System Board of Trustees to hold a meeting closed to the public to have discussions or make decisions relating to:

- (1) Investments or prospective investments by the System that require consideration of information or records that are exempt from disclosure under chapter 92F, Hawaii Revised Statutes (HRS);
- (2) Procurements that are exempt from chapter 103D, HRS, to the same extent as if the decision would be confidential if the procurement were subject to chapter 103D, HRS;
- (3) The authority of persons to negotiate investments or the sale of property held by or for the benefit of the Employees’ Retirement System; and
- (4) Draft reports, memoranda, and preliminary recommendations from staff, consultants, actuaries, and other agencies.

Your Committee received testimony in support of this measure from the Employees’ Retirement System. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Office of Information Practices and Civil Beat Law Center for the Public Interest.

Your Committee finds that the Board of Trustees of the Employees’ Retirement System have a fiduciary duty to invest funds for the benefit of the System and its members. On many occasions, this may require that the Board of Trustees review and consider confidential or proprietary information relating to investments. Your Committee finds that in appropriate situations, it would be beneficial for the Board to be able to review and consider such information in executive session.

Your Committee has amended this measure by:

- (1) Removing the description of the privilege in subsection (a)(4) of the new section to be inserted in chapter 88, HRS, as a deliberate process privilege;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1208, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 664 Judiciary and Labor on S.B. No. 1121

The purpose and intent of this measure is to limit the time for filing a prevailing wage claim with the Department of Labor and Industrial Relations and to provide that the name of complainants and witnesses shall not be disclosed to the employer.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and General Contractors Association of Hawaii.

Your Committee finds that there is an estimated two to three year backlog of investigation of cases filed with the Department of Labor and Industrial Relations. This measure would limit the time for filing a claim as well as establish the scope of the investigation regarding a claim. This measure also aims to protect employees by prohibiting the release of certain information to an employer.

Your Committee has amended this measure by:

- (1) Prohibiting only the name of a complainant from being disclosed to an employer in the course of an investigation;
- (2) Increasing the time to file a written request for an investigation to three years from the date that wages and overtime compensation are due and payable;
- (3) Increasing the scope of an investigation to three years prior to the filing of a written request for an investigation;

- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and conformity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1121, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ihara).

SCRep. 665 Judiciary and Labor on S.B. No. 1120

The purpose and intent of this measure is to allow the Labor and Industrial Relations Appeals Board the option to provide notice of a hearing by posting on its webpage when service by first class mail has been unsuccessful.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and the Labor and Industrial Relations Appeals Board.

Your Committee finds that under existing law, if the Labor and Industrial Relations Appeals Board is unable to effect service of a hearing notice by first class mail, it may effect notice by publication in a newspaper. The Labor and Industrial Relations Appeals Board has testified that this measure would provide it with an effective and cost-saving alternative to effecting notice of a hearing.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1120 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 666 (Majority) Judiciary and Labor on S.B. No. 1022

The purpose and intent of this measure is to propose a constitutional amendment to repeal the one-year minimum Hawaii residency requirement to qualify for appointment as an officer of a department pursuant to article V, section 6, of the Constitution of the State of Hawaii.

Your Committee received testimony in support of this measure from the Governor of the State of Hawaii.

Your Committee finds that the leaders of the State's principal departments should be selected from among the best and brightest candidates. Removing the one-year minimum Hawaii residency requirement will provide greater flexibility to future administrations to recruit individuals with the best qualifications, including former Hawaii residents that wish to return to Hawaii to serve in state government.

Your Committee has amended this measure by amending the question to be placed on the ballot to refer to "officers of a principal department" rather than "executive of a principal department".

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1022, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 667 (Majority) Ways and Means on S.B. No. 1299

The purpose and intent of this measure is to establish maximum dollar amounts to be distributed among certain non-general funds from the conveyance tax.

Specifically, this measure provides that:

- (1) Ten percent or \$7,600,000, whichever is less, of the conveyance tax shall be paid into the land conservation fund;
- (2) Fifty percent or \$38,000,000, whichever is less, of the conveyance tax shall be paid into the rental housing trust fund; and
- (3) Twenty-five percent, or \$19,000,000, whichever is less, shall be paid into the natural area reserve fund.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, the Hawaii Housing Finance and Development Corporation, Catholic Charities Hawaii, the Hawaii Appleseed Center for Law and Economic Justice, The Trust for Public Land, The Nature Conservancy, and PHOCUSED. The Tax Foundation of Hawaii provided comments on the measure.

Your Committee finds that under the present tax structure, certain non-general funds receive a specified percentage of conveyance tax revenues, with no limit on the total amount of tax revenue that may be received each fiscal year. Your Committee further finds that placing a cap on the amount of conveyance tax revenues received by these non-general funds will promote budgetary planning and transparency by:

- (1) Making forecasts of general fund revenues more reliable;
- (2) Increasing legislative oversight of the agencies and programs supported by those non-general funds; and

- (3) Increasing competition for limited public funds among agencies and programs seeking funds additional to those automatically distributed to their non-general funds.

Your Committee further finds that the practice of automatically earmarking funds that fluctuate over time is not in the best interest of either the State or the recipient program. Without legislative involvement in the distribution of funds, determinations as to whether or not programs are receiving too little or too much resources are often not made in a timely manner. This has resulted in some programs requiring additional funds and other programs building up large reserves that could have been better utilized for other programs and services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1299 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Chun Oakland, Riviere). Noes, 1 (Ruderman). Excused, 3 (Dela Cruz, Harimoto, Slom).

SCRep. 668 Judiciary and Labor on S.B. No. 1213

The purpose and intent of this measure is to allow an employer to seek a temporary restraining order and injunction against harassment of an employee or invitee who may be harassed at the employer's worksite.

Your Committee received comments on this measure from the Judiciary and Hawaii Government Employees' Association.

Your Committee finds that this measure would assist in reducing instances of workplace violence by allowing employers to seek protective orders and injunctive relief on behalf of employees and invitees while they are at the workplace.

Your Committee has amended this measure by:

- (1) Amending the definitions of "employee" and "employer" and adding a definition for "invitee";
- (2) Removing a provision requiring that an employer pay the defendant's attorney's fees and costs if the petition is denied or set aside on appeal;
- (3) Providing that an employee or witness shall not have immunity from liability for an action taken with malicious intent, rather than malice;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1213, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 669 Judiciary and Labor on S.B. No. 1156

The purpose and intent of this measure is to amend or repeal various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, and deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All amendments proposed by this measure are of a technical nature to correct errors, omissions, or obsolete law. Prior to submission of this measure, it was reviewed by the Attorney General, and a memorandum explaining each proposed amendment was submitted to the Chair of your Committee.

Your Committee has amended this measure by:

- (1) In section 29, amending the offense described in section 712-1209.6(1)(b), Hawaii Revised Statutes, to "trafficking in persons" and amending the statutory reference from "section 7102(14)" to "section 7102(9)(A)"; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1156, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 670 Judiciary and Labor on S.B. No. 937

The purpose and intent of this measure is to change the disclosure deadline for financial interests to be filed with the Hawaii State Ethics Commission from between January 1 and May 31 to between January 1 and January 15 of each year.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that this measure amends the filing period for certain individuals to file a financial disclosure statement to the State Ethics Commission. However, your Committee notes that the language under section 84-17(b), Hawaii Revised Statutes (HRS), was amended under Act 125, Session Laws of Hawaii 2013, to require members of the Legislature to file their annual financial disclosure statements between January 1 and January 31 of each year and state employees and certain boards members to file their financial disclosure statements between January 1 and May 31 of each year.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the language of section 84-17(b), HRS, with language that recites the existing law of that section and further amends the language to change the disclosure statement deadline for financial interests for legislators from between January 1 and January 31 to between January 1 and January 15 of each year; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 937, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 937, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Thielen, Slom).

SCRep. 671 Judiciary and Labor on S.B. No. 476

The purpose and intent of this measure is to:

- (1) Require the State Ethics Commission to provide a confidential copy of board and commission members' most recent financial disclosures to the Governor, all other members of the filer's board or commission, and executive director of the applicable agency; and
- (2) Require the recipients of the disclosures to maintain the confidentiality of the disclosures.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission and Hawaii Strategic Development Corporation.

Your Committee finds that existing law requires annual financial disclosure statements to be filed with the Hawaii State Ethics Commission by members of every state board or commission whose original terms of office are for periods exceeding one year and whose functions are not solely advisory. These financial disclosure statements help inform the public of whether a board or commission member may have a potential conflict of interest. This measure enables the Governor, other members, and executive director of the applicable agency of each respective board or commission to determine if any member may have a conflict of interest in voting on any particular matter before the respective board or commission.

Your Committee has amended this measure by:

- (1) Deleting the purpose section in section 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 476, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 476, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Thielen, Slom).

SCRep. 672 Judiciary and Labor on S.B. No. 152

The purpose and intent of this measure is to:

- (1) Specify the criminal offenses for which biological evidence must be retained for a certain period following a conviction and the standards for uses of retained evidence; and
- (2) Establish a process for the disposal of biological evidence earlier than the prescribed period for retention.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Office of the Prosecuting Attorney, County of Kauai; Police Department, City and County of Honolulu; Police Department, County of Maui; and Police Department, County of Hawaii. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Community Alliance on Prisons. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the existing requirements for the retention of biological evidence are broad and require the police to retain all evidence that may contain biological evidence in any case in which there has been a conviction. The requirements apply to all felony, misdemeanor, and petty misdemeanor cases that resulted in convictions regardless of whether the identity of the perpetrator was an issue. This measure establishes reasonable and manageable requirements for the retention of biological evidence while providing convicted defendants the opportunity to object to the disposal of the biological evidence that are related to their case.

Your Committee has amended this measure by:

- (1) Deleting the public defender as a recipient of the filed notification of proposed disposal of the evidence if the defendant's attorney of record is unavailable to be served;

- (2) Authorizing the court to order that service of the filed notification of proposed disposal of the evidence be made by publication of the notice under certain conditions;
- (3) Authorizing the court to allow the evidence custodian to dispose of portions of evidence under certain conditions;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 152, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 152, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 673 (Joint) Judiciary and Labor and Commerce and Consumer Protection on S.B. No. 1010

The purpose and intent of this measure is to:

- (1) Establish that an attorney who is not licensed or authorized to practice law in the State commits the unauthorized practice of law when the attorney provides legal services to or for a person in the State;
- (2) Add a definition of “legal services”; and
- (3) Clarify that the unauthorized practice of law does not apply to an attorney providing legal services to an organization in another jurisdiction as in-house counsel or to an affiliated entity or employee of that organization in the State.

Your Committees received testimony in support of this measure from two individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General. Your Committees received comments on this measure from the Judiciary.

Your Committees find that the Hawaii Supreme Court is authorized to regulate the examination, licensure, and discipline of attorneys licensed to practice law in Hawaii. Despite the rules in place to regulate licensed attorneys in Hawaii, issues have arisen concerning the oversight of attorneys who conduct legal services in Hawaii, but are not licensed to practice law in this State. By establishing an offense of unauthorized practice of law, this measure assists in protecting consumers in such situations.

Your Committees recognize the efforts of the stakeholders developing language subsequent to the public hearing on this measure.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the new section added to chapter 605, Hawaii Revised Statutes (HRS), and replacing it with language that amends section 605-14, HRS, that:
 - (A) Allows a person who is not licensed or authorized to practice law in the State to provide legal services on a temporary basis in this State if the attorney provides services in association with or assists a Hawaii licensed attorney or as in-house counsel to an organization in another jurisdiction or to an affiliated entity or employee of that organization in the State; and
 - (B) Requires the Clerk of the Supreme Court to maintain a registry of all attorneys who are not licensed or authorized to practice law in the State, but provide services for a matter that is not being litigated in any court of the State;
- (2) Making conforming amendments to the attorney licensure requirements under section 605-2, HRS;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1010, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1010, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

Commerce and Consumer Protection

Ayes, 4. Noes, none. Excused, 3 (Kidani, Taniguchi, Slom).

SCRep. 674 Judiciary and Labor on S.B. No. 615

The purpose and intent of this measure is to propose an amendment to the Constitution of the State of Hawaii to clarify the responsibilities and procedures for judicial appointments pursuant to article VI, section 3.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure would clarify responsibilities and procedures with regard to judicial appointments pursuant to article VI, section 3, of the Constitution of the State of Hawaii. Specifically, this measure would seek to avoid the situation that

occurred in 2012 with regard to the nomination of a Supreme Court justice by the Governor. In that situation, the Governor informed the Senate of the appointment thirty-two days after being presented with a list of nominees from the Judicial Selection Commission, which was two days after the expiration of the constitutionally mandated thirty-day time period. However, the appointment was deemed valid by the Attorney General under the reasoning that the Governor's initial press conference to announce the nomination occurred five days prior to the expiration of the thirty-day period and was thus determined to be an open and unequivocal act of providing notice to the Senate. Consequently, the Attorney General's determination of the date of the Governor's appointment effectively shortened the Senate's constitutionally authorized thirty days to consider the appointment.

Your Committee finds that it would be beneficial for the state constitution to be amended to clarify that written notice of a nomination must be given to the Legislature by the Governor.

Your Committee has amended this measure by clarifying the question to be placed on the ballot to reference that the Senate has thirty days from receipt of written notice to take action on a judicial nomination.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 615, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 675 (Majority) Judiciary and Labor on S.B. No. 1012

The purpose and intent of this measure is to allow an employee who has suffered a tangible adverse employment action resulting from a supervisor's discriminatory action to sue the employer, subject to an affirmative defense provided to the employer.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Society for Human Resource Management Hawaii, Chamber of Commerce Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Commission on the Status of Women, Hawaii Civil Rights Commission, Democratic Party of Hawaii Women's Caucus, ILWU Local 142, American Civil Liberties Union of Hawaii, and three individuals.

Your Committee finds that this measure helps to create a fair balance between the rights of an employee who has suffered a tangible discriminatory action by a supervisor and an employer who has provided programs and training to avoid situations of harassment by a supervisor. Your Committee notes that proponents of this measure have indicated a willingness to work with opponents to this measure for the purpose of developing language that may be more agreeable to both parties.

Your Committee has amended this measure by:

- (1) Removing section 1, which would have created a new section in chapter 378, Hawaii Revised Statutes;
- (2) Inserting a new section 1 that adds to the exemptions from liability in section 378-3, Hawaii Revised Statutes, by providing that chapter 378, Hawaii Revised Statutes, shall not impose liability on an employer for harassment by a supervisor unless the supervisor's agency status is proven to have been used to effect the harassment;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1012, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1012, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Gabbard, Ihara).

SCRep. 676 Judiciary and Labor on S.B. No. 451

The purpose and intent of this measure is to prohibit state employees who are subject to the State Ethics Code from taking any official action directly affecting a business or other undertaking in which a parent, sibling, or emancipated child has a substantial financial interest.

Your Committee received testimony in support of this measure from the State Ethics Commission, Common Cause Hawaii, League of Women Voters of Hawaii, and one individual.

Your Committee finds that under existing law, a state employee must abstain from taking official action affecting a business in which the employee, the employee's spouse, or a dependent child of the employee has a financial interest. However, a state employee is not required under existing law to abstain from taking official action affecting a business in which a parent, sibling, or an adult child of the state employee holds financial interest. This measure reduces the appearance of a conflict of interest.

Your Committee has amended this measure by:

- (1) Inserting clarifying language proposed by the Hawaii State Ethics Commission to indicate that a "financial interest" for the purpose of this new limitation does not further apply to a spouse or minor child of the specified persons despite the definition of "financial interest" in section 84-3, Hawaii Revised Statutes (HRS);
- (2) Adopting clarifying language suggested by the State Ethics Commission, which applies to only paragraph (1) of section 84-14(a), HRS, the prohibition of a board or commission member with a particular qualification from taking official action that directly or specifically affects a business in which the board or commission member has a substantial interest only if the substantial interest is related to the board or commission member's particular qualification;

- (3) Changing the reference to “emancipated child” to “adult child” to conform with more precise family law terminology; and
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 451, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 451, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Thielen, Slom).

SCRep. 677 Judiciary and Labor on S.B. No. 265

The purpose and intent of this measure is to:

- (1) Replace “promoting prostitution” with “sex trafficking” by:
 - (A) Amending the offense of promoting prostitution in the first degree to be “sex trafficking in the first degree” and establishing a fine not to exceed \$50,000;
 - (B) Amending the offense of promoting prostitution in the second degree to be “sex trafficking in the second degree”, including paying or offering to pay a person for sexual conduct with reckless disregard of the fact that the person may be a victim of sex trafficking in the first degree, and establishing a fine not to exceed \$25,000; and
 - (C) Making conforming amendments to reflect the change from “promoting prostitution” to “sex trafficking”;
- (2) Include the offense of sex trafficking in the Department of the Attorney General’s statewide witness program;
- (3) Include the offenses of labor trafficking in the first and second degrees and sex trafficking in the first and second degrees in the list of violent crimes for which victims may be eligible for criminal injury compensation;
- (4) Remove the statute of limitations for the offenses of sex trafficking in the first and second degrees;
- (5) Increase the penalty for the offense of solicitation of a minor for prostitution from a class C felony to a class B felony;
- (6) Add the offenses of sex trafficking in the first and second degrees to the list of crimes for which an order to intercept wire, oral, or electronic communications is permitted; and
- (7) Include the offenses of sex trafficking in the first and second degrees to the list of offenses in which deferred acceptance of guilty plea or nolo contendere plea does not apply.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission; Office of the Prosecuting Attorney, County of Kauai; Hawaii Catholic Conference; Hawaii Family Forum; The Pacific Alliance to Stop Slavery; Americans for Democratic Action – Hawaii; IMUAlliance; Ho’ōla Nā Pua; Family Programs Hawaii; Shared Hope International; and fifty-nine individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Department of the Prosecuting Attorney, City and County of Honolulu; and Police Department, City and County of Honolulu.

Your Committee acknowledges that the existing laws relating to prostitution and promoting prostitution may not be suitable to address certain circumstances in which coercion or other inability to consent are present. In those situations, the person who engages in sexual services should not be characterized as a “prostitute”, as is the case, for example, in section 712-1201, Hawaii Revised Statutes (HRS). However, your Committee recognizes that there may be situations in which a person may presumably consent to engage in sexual conduct in return for monetary consideration. To the extent that there appears to be little social consensus at this time to repeal laws prohibiting acts of “prostitution”, your Committee finds that those laws should remain largely as codified at this time.

Therefore, your Committee finds it more appropriate to create a new section in chapter 712, HRS, to address a new offense of “sex trafficking”. This new section should rely on certain elements not found in part I of chapter 712, HRS, relating to prostitution. Rather, this new section should incorporate elements similar to those specified in the prohibitions on labor trafficking found in part VIII of chapter 707, HRS, and apply those elements to the context of “sexual services”, which is defined by reference to various existing statutes dealing with sexual conduct with the additional context that the services be under the supervision or at the direction of the offender for the offender’s benefit or that of a third person.

Because, as a matter of law, consent by a minor is not enforceable in a commercial transaction, your Committee also finds that section 712-1202(1)(b), HRS, relating to promoting prostitution in the first degree in the case of a minor, should be repealed. Your Committee believes that language substantially similar to section 712-1202(1)(b), HRS, should be inserted into the new offense of sex trafficking to serve as “per se” sex trafficking, i.e. causing a person to engage in sexual services without any additional necessary elements of coercion.

Accordingly, your Committee has amended this measure by:

- (1) Creating the new offense of sex trafficking in chapter 712, HRS, to:
 - (A) Require that the offender intentionally or knowingly procure, provide, or obtain another person for the purpose of causing the other person to engage in sexual services;
 - (B) Require no additional coercive circumstances if the person subjected to sex trafficking is less than eighteen years old;
 - (C) Enumerate coercive circumstances required to be present in the case of a person subjected to sex trafficking who is eighteen years old or older;

- (D) Define “sexual services” as “sexual conduct” by referencing existing statute with the additional requirement that the services be performed at the direction or under the supervision of the offender for the benefit of the offender or any third person; and
- (E) Provide immunity from criminal prostitution charges and liability for a person subjected to sex trafficking;
- (2) Reinstating statutory references to “promoting prostitution,” as that offense will remain, but deleting the reference to victims under the age of eighteen under the offense of promoting prostitution in the first degree;
- (3) Removing sections that:
 - (A) Amend portions of certain sections, subsections, and a definition in chapter 663J, HRS, relating to civil liability in specific cases of coercion into prostitution;
 - (B) Modify the statute of limitations for the offenses of sex trafficking in the first and second degrees because the existing six-year statute of limitations for class A felonies would apply as a matter of law to the new proposed offense of sex trafficking;
 - (C) Alter the language that increases the penalty for the offense of solicitation of a minor for prostitution from a class C felony to a class B felony; and
 - (D) Delete various conforming amendments that replaces “promoting prostitution” with “sex trafficking”; and
- (4) Making various conforming amendments to reflect the changes in establishing the offense of sex trafficking instead of the offenses of sex trafficking in the first and second degrees;
- (5) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 265, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 265, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 678 Judiciary and Labor on S.B. No. 1344

The purpose and intent of this measure is to require noncandidate committees making only independent expenditures to report whether its contributors and recipients are subject to disclosure reporting requirements and provide access to the contributor's and recipient's reportable funding information.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that this measure adds an additional level of disclosure to several sections of Hawaii's campaign finance laws to further assist voters to “follow the money” and determine the individuals, organizations, or businesses seeking to influence their vote. Existing law requires political action committees that make only independent expenditures (more commonly known as SuperPACs) to disclose the names of the organizations or individuals that have contributed money to them. This measure requires SuperPACs to disclose additional information to aid voters in determining the sources of funding behind those contributors to the SuperPACs.

Your Committee notes the concerns raised in the written testimony submitted by the Department of the Attorney General regarding how this measure may withstand a constitutional challenge. As a result, your Committee sought assistance from the Department to develop language to further clarify and strengthen this measure.

Your Committee further notes that this measure addresses the political spending of “dark money” groups that include section 501(c)(4) and 501(c)(6) nonprofit organizations. The Campaign Spending Commission submitted written testimony that during the 2014 election, the top twenty-five SuperPAC contributors received a total of \$7,825,793.45 and independent expenditure committees spent \$2,221,733.33 on advertising and \$1,037,750.44 on printing, postage, and mailing with the largest expenditure of \$2,690,024.36 under the category of “Other”.

Accordingly, your Committee has amended this measure by:

- (1) Adopting language developed by the Department of the Attorney General that:
 - (A) Requires additional reports from noncandidate committees making only independent expenditures if a contribution of more than \$10,000 in the aggregate or a late contribution of more than \$5,000 in the aggregate is received from an entity;
 - (B) Requires noncandidate committees making only independent expenditures to report the identities of the contributing entity that is subject to disclosure reporting requirements regarding the source of the contributions; and
 - (C) Requires noncandidate committees making only independent expenditures to acknowledge, if applicable, that the contributing entity is not subject to disclosure reporting requirements regarding the source of the contributions;
- (2) Deleting section 1 and renumbering the sections accordingly; and
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1344, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 679 Higher Education and the Arts on S.B. No. 877

The purpose and intent of this measure is to:

- (1) Require that fifty-year-old privately owned single-family residences be considered historic properties for purposes of chapter 6E, Hawaii Revised Statutes, only if they are listed or nominated for listing on the Hawaii Register of Historic Places or located in a historic district; and
- (2) Exempt properties not included or eligible for listing on the Hawaii Register of Historic Places from review under section 6E-42, Hawaii Revised Statutes, and direct the counties to not submit projects affecting such properties for historic review.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii, Land Use Research Foundation of Hawaii, Building Industry Association-Hawaii, Complete Construction Services Corp., Hawaii Association of REALTORS, and one individual. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs, Society for Hawaiian Archaeology, and Historic Hawaii Foundation. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the intent of this measure is to categorically exclude certain single-family residences from the definition of historic property for purposes of historic preservation consideration. Additionally, this measure is intended to address the longstanding issue of extended delays during permit review of projects involving single-family residences that fall under the existing statutory language of section 6E-2, Hawaii Revised Statutes.

Your Committee finds that the State Historic Preservation Division (SHPD) of the Department of Land and Natural Resources has recently enacted internal administrative reforms that have effectively resolved the issue of permit review delays. More specifically, these reforms have resulted in a laudable turnaround time of five days in which SHPD now reviews a residential permit. Accordingly, it appears the issue has been resolved and no longer requires legislative action.

Your Committee further finds that the provisions of this measure, which excludes properties not included or eligible for listing on the Hawaii Register of Historic Places, are not narrow enough to reflect the measure's intent to focus on exempting only single-family residences. This measure as currently written would weaken existing protections for historic sites by providing a blanket exemption for unintended properties. More specifically, the criteria for an exemption would apply to all private properties not included or eligible for listing on the Hawaii Register of Historic Places. This far-reaching exemption extends far beyond this measure's intended purpose to provide an exemption only to single-family residences.

Your Committee further finds that this broad exemption language would additionally alter the existing review process in which SHPD initially determines whether or not an affected property satisfies the criteria required to be listed on the Hawaii Register of Historic Places.

If enacted as currently written, this measure would replace SHPD's role in the initial review process with the permitting agency of each county. The current process should not be altered because SHPD's in-house expertise provides a clear benefit for all involved parties. Notably, such expertise may be lacking in the county permitting agencies. Your Committee finds that SHPD's in-house expertise is particularly necessary at the stage of initial review to ensure minimal delay-causing obstacles during subsequent construction. Accordingly, it is crucial that the initial decision of eligibility for a review exemption remain with SHPD.

Your Committee accordingly finds that, if enacted as currently written, this measure would produce two significant results affecting historic properties. The first result would be an unintended and wide-reaching exemption for properties that are not single-family residences and are not included or eligible for inclusion on the Hawaii Register of Historic Places. The second result would be the alteration of an existing SHPD practice of determining initial eligibility which has helped SHPD address the problem of delay in permit reviews.

Your Committee has amended this measure by:

- (1) Amending the purpose section to state the cultural value in historic preservation and more clearly articulate the purpose and intent;
- (2) Inserting language to require SHPD to temporarily direct its resources to initiate a survey project to identify potential historic districts and single-family residences in the State that may be eligible for inclusion on the Hawaii Register of Historic Places;
- (3) Inserting language to require SHPD to notify the owner of property that may be eligible for inclusion on the Hawaii Register of Historic Places;
- (4) Inserting language to further require SHPD to submit a report on its compliance with this measure to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018;
- (5) Deleting language exempting properties not included or eligible for listing on the Hawaii Register of Historic Places from review under section 6E-42, Hawaii Revised Statutes, and prohibiting counties from submitting projects affecting such properties to the Department of Land and Natural Resources for review;
- (6) Repealing this measure on December 31, 2018; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 877, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 877, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kahele, Kidani).

SCRep. 680 Ways and Means on S.B. No. 40

The purpose and intent of this measure is to require the licensing of behavior analysts.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities, the Special Education Advisory Council, the Hawaii Association for Behavior Analysis, the Autism Behavior Consulting Group, and nine individuals. Written comments on the measure were received from the Office of the Director, the Regulated Industries Complaints Office, and the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that behavior analysts are currently credentialed through the Behavior Analyst Certification Board. However, there is growing interest in licensure at the state level to protect the rights of behavior analysts to practice their discipline and increase consumer protection. More importantly, it is imperative that the licensing of behavior analysts begin concurrently with any mandated coverage for the diagnosis and treatment of autism. Federal law requires providers to be licensed in order to participate in Medicaid.

Your Committee has amended this measure by:

- (1) Exempting the licensing program for behavior analysts established in the measure from the requirement for a sunrise analysis by the Auditor; and
- (2) Changing the effective date to July 1, 2053, in order to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 40, S.D. 3.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Chun Oakland, Ruderman, Slom).

SCRep. 681 (Majority) Ways and Means on S.B. No. 1032

The purpose and intent of this measure is to strengthen the cigarette tax and tobacco tax law.

Specifically, the measure:

- (1) Expands the definition of "tobacco products" to include products that do not contain tobacco, but contain nicotine;
- (2) Increases the license fees of cigarette and tobacco product wholesalers and dealers; and
- (3) Increases the retail tobacco permit fees of retailers.

Your Committee received written comments in support of this measure from the Department of Health, the University of Hawaii Cancer Center, the American Cancer Society Cancer Action Network, the American Heart Association, the Coalition for a Tobacco Free Hawaii, and one individual. Written comments in opposition to this measure were received from the Hawaii Cigar Association, the Hawaii Food Industry Association, Kauai Cigar Company, PC Gamerz, Volcano Fine Electronic Cigarettes, and eight individuals. Written comments on the measure were received from the Department of Taxation.

Your Committee finds that the license and retail tobacco permit fees have remained unchanged since 1995, despite high tobacco taxes and ever-increasing tobacco industry expenditures in marketing and advertising. Tobacco licensing is an effective tool for limiting the negative public health consequences of tobacco use and for ensuring that wholesalers and retailers follow responsible sales practices.

Your Committee has amended this measure by:

- (1) Changing the license and permit fees to unspecified amounts; and
- (2) Changing the effective date to July 1, 2053, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1032, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1032, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Inouye). Noes, 1 (Slom). Excused, 2 (Chun Oakland, Ruderman).

SCRep. 682 Judiciary and Labor on S.B. No. 470

The purpose and intent of this measure is to clarify that property or natural resources used or taken in violation of laws or rules pertaining to the Kaho'olawe Island Reserve may be subject to seizure, disposal, and forfeiture in accordance with existing law if the offense occurs within the fast lands of the reserve or by persons or on vessels located in the area extending seaward one nautical mile of the shoreline of the Kaho'olawe Island Reserve.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and thirteen individuals. Your Committee received testimony in opposition to this measure from the Activities & Attractions Association of Hawaii; Kahikolu Ltd., d/b/a Quiksilver; Ocean Tourism Coalition; and Maui Chamber of Commerce.

Your Committee finds that the Hawaii Supreme Court, in Carlisle v. One (1) Boat, overturned an Intermediate Court of Appeals decision that allowed non-natural resource forfeiture in cases of natural resource destruction or degradation. According to the decision, the penalty provisions for violations of laws or administrative rules relating to resource protection, which would include those of the Kaho'olawe Island Reserve Commission, must specifically authorize forfeiture. By providing the civil enforcement mechanism of asset forfeiture, this measure provides a critical tool to address and deter violations of laws and rules with respect to the restoration and protection of the Kaho'olawe Island Reserve and its natural and cultural resources.

Your Committee has amended this measure by:

- (1) Clarifying that civil asset forfeiture is subject to limitations on excessive forfeitures under section 712A-5.5, Hawaii Revised Statutes;
- (2) Requiring the Kaho'olawe Island Reserve Commission to adopt rules with the Department of Land and Natural Resources to implement the forfeiture penalties; and
- (3) Making a conforming amendment to the purpose section.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 470, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 683 Judiciary and Labor on S.B. No. 1144

The purpose and intent of this measure is to clarify the application of the State Ethics Code to allow technology transfer activities sponsored by the University of Hawaii so long as the activities are likely to create specific benefits to the State or the public, notwithstanding the simultaneous creation of a commercial benefit or individual personal benefit.

Your Committee received testimony in support of this measure from the University of Hawaii System, Chamber of Commerce Hawaii, and two individuals.

Your Committee finds that chapter 84, Hawaii Revised Statutes (HRS), relating to the State Ethics Code, is of utmost importance to government. However, your Committee notes that public-private partnerships undertaken by certain persons at the University of Hawaii in critical fields of technology research result in great public benefit that would be substantially constricted or become impossible to achieve without qualifying language under the State Ethics Code.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1 to reflect the legislative finding that the University of Hawaii has established a regulatory framework and research compliance program and that the University periodically updates its policies and procedures to reflect best practices currently in place at peer institutions;
- (2) Deleting section 2 and inserting language that:
 - (A) Creates a new section under chapter 84, HRS, to clarify that persons involved in technology transfer activities are exempt from the State Ethics Code with the qualification that these persons comply with a regulatory framework and research compliance program approved by the Board of Regents of the University of Hawaii; and
 - (B) Adds a definition of "technology transfer activities";
- (3) Requiring the Board of Regents of the University of Hawaii to submit a written report to the Legislature regarding the development and implementation of its regulatory framework and research compliance program no later than twenty days prior to the convening of the Regular Session of 2016; and
- (4) Changing the effective date from July 1, 2050, to January 7, 2059, to encourage further discussion and establishing a sunset date of June 30, 2020.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1144, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1144, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 684 Judiciary and Labor on S.B. No. 2

The purpose and intent of this measure is to:
