

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1-16 on H.B. No. 2362

The purpose of this measure is to conform the membership and duties of the Hawaii Workforce Development Council to the requirements of the federal Workforce Innovation and Opportunity Act of 2014.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2362, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2362, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kahele and Kim.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, San Buenaventura, Brower and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 2-16 on S.B. No. 2121

The purpose of this measure is to:

- (1) Make permanent Act 221, Session Laws of Hawaii 2014, which enables county council members to attend public meetings of a different board or community group while remaining in compliance with the State's Sunshine Law requirements for open public meetings and records; and
- (2) Require each county council to submit an annual report, including any recommendations or proposed legislation, to the Legislature prior to the convening of each regular session on the effectiveness and application of procedural requirements for compliance with Act 221, Session Laws of Hawaii 2014.

Your Committee on Conference finds that county council members must sometimes attend public board and community group meetings to fulfill their duty to the public to stay informed on developing policy issues throughout their respective counties. Act 221, Session Laws of Hawaii 2014 (Act 221), provides county council members with the ability to attend such meetings that are open to the public by holding a limited meeting that may have less than a quorum of the council members. Your Committee on Conference further finds that Act 221 will be repealed on June 30, 2016. This measure will make Act 221 permanent and preserve the ability of county council members to attend public board and community meetings and hear issues of importance to the community. This measure also requires each county council to submit an annual report to the Legislature that details the council's use of this limited meeting provision.

Your Committee on Conference has amended this measure by changing the effective date to June 29, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2121, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2121, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, San Buenaventura and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 3-16 on H.B. No. 2350

The purpose of this measure is to:

- (1) Update certain statutory references for "foster boarding home" to "resource family home" and "foster parents" to "resource caregivers";
- (2) Establish qualified immunity from liability for resource caregivers and child caring institutions that authorize a child's participation in activities pursuant to the reasonable and prudent parent standard;
- (3) Add the requirement that resource caregivers and child care institutions use the reasonable and prudent parent standard when authorizing children in foster care to participate in extracurricular, enrichment, cultural, and social activities; and
- (4) Require courts, in proceedings for children aged fourteen years or older, to make findings and include in the permanent plan the services needed to assist the child to transition from foster care to independent living.

Your Committee on Conference has amended this measure by:

- (1) Amending the purpose section to clarify the intent of the measure;
- (2) Changing its effective date to July 1, 2016; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2350, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2350, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Keith-Agaran and Ruderman.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Morikawa, Rhoads, Kobayashi and Pouha.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 4-16 on H.B. No. 2343

The purpose of this measure is to bring state law into alignment with changes to the federal Child Care and Development Block Grant, Public Law 113-186 to ensure the health, safety, and well-being of children under the grant, including by requiring the Department of Human Services to conduct background checks, including sex offender registry checks, on household members and all employees of child care facilities and providers that are licensed or registered by or receive child care subsidies from the State.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2016; and
- (2) Making a technical, nonsubstantive amendment for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2343, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2343, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Baker, Keith-Agaran and Riviere.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Morikawa, Belatti, Rhoads and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 5-16 on S.B. No. 2395

The purpose of this measure is to enhance access to care via telehealth, including:

- (1) Requiring Medicaid managed care and fee-for-service programs to provide reimbursement for services provided by telehealth in the same manner as those provided in person;
- (2) Ensuring that services provided by telehealth are consistent with privacy, security, and confidentiality laws;
- (3) Specifying medical professional liability insurance policy requirements for telehealth coverage;
- (4) Requiring written disclosure of coverage and benefits associated with telehealth;
- (5) Lifting restrictions and limitations on patient setting and applicable telehealth technology;
- (6) Clarifying relationship requirements between patients, insurers, and providers; and
- (7) Clarifying other reimbursement requirements for telehealth, including reimbursement requirements for Hawaii Employer-Union Health Benefits Trust Fund health benefits plans.

Your Committee on Conference finds that telehealth is a proven, efficient, and effective way to facilitate timely access to quality health care, improve health outcomes, reduce the incidence of avoidable urgent and emergent care, and ensure equitable distribution of health care providers. The use of telehealth allows health care providers to treat patients in settings that are more convenient and comfortable for the patient, which facilitates a patient-centered approach for delivery of health care services.

Your Committee on Conference further finds that telehealth is used extensively throughout the country and can be particularly effective in states like Hawaii, where many segments of the population, particularly in rural and medically underserved areas, experience challenges in accessing quality health care. This measure removes artificial barriers to telehealth that have contributed to poor adoption and utilization of telehealth by health care providers, in order to improve the quality and accessibility of health care for patients throughout the State.

Your Committee on Conference has amended this measure by changing its effective date to January 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2395, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2395, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland, English, Kidani and Ruderman.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Morikawa, McKelvey, Kobayashi, Creagan and Tupola.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 6-16 on S.B. No. 2583

The purpose of this measure is to mandate the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems.

Your Committee on Conference finds that Act 187, Session Laws of Hawaii 2015, authorized the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems. Composting toilets have been proposed as a means to bring toilet facilities to populations without adequate access to sanitation facilities, such as individuals living in areas where geological features or the limits of existing infrastructure make the use of conventional toilets and septic systems impracticable, or homeless individuals living in encampments. This measure requires counties to approve the installation of composting toilets.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2583, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2583, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Gabbard, English and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Morikawa, Kobayashi, Creagan and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 7-16 on H.B. No. 2501

The purpose of this measure is to allow the Board of Land and Natural Resources to authorize the holdover of a previously authorized water rights lease during the pendency of an application to renew the lease.

Your Committee finds that as the State undergoes economic and environmental changes, it will be a challenge to achieve the goal of a sustainable, well-managed community in which food is grown locally and fresh water sources remain available for reasonable, beneficial uses. Your Committee believes that without continued access to a water source, there may be significant economic and social impacts on Hawaii's agricultural community and sustainability goals.

Your Committee notes that the Judge's decision in *Carmichael, et al. v. Board of Land and Natural Resources* (Civ. No. 15-1-0650-04), has created a very serious situation for agriculture in the State and brought into question the validity of water and land revocable permits. This uncertainty clouds the future not only of the lands used to grow sugar on Maui but for permit holders across the State.

Your Committee finds that there are currently nine holders of long-standing revocable water permits other than the one currently being litigated. Two of the nine holders are the local electric companies on Kauai and the Big Island, who use state water to generate hydropower. The other seven are ranchers, farmers and small businesses on Kauai and the Big Island, who use state waters to support their businesses. Many other users of agricultural lands have testified in support of a solution, worried that their operations too may also be in jeopardy.

The situation on Maui, though, is emblematic of the challenges that the State faces when one era ends and a new future is contemplated. Your Committee finds that it is in the State's interest to respond to the closure of the sugar industry and to facilitate the revitalization of Maui's economy.

This change has had a very real impact on peoples' lives as 650 people have lost their jobs. The abrupt termination of water rights on Maui could have even more serious consequences for the community as the Attorney General's Office worried that:

"[N]ot continuing the permit could result in people being left with no drinking water, farmers being left with no water for their fields, and schools and hospitals being forced to shut down."

This is water that is delivered to the County of Maui's upcountry Maui water treatment plant, serving the water needs of 36,000 upcountry residents and farmers, and to support the transition to diversified agriculture. Recently announced efforts to transition to diversified agriculture may be in jeopardy without an adequate supply of reliable, cost-efficient water.

Embracing this transition is in line with the State's constitutional duty to conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency and assure the availability of agriculturally suitable lands. Currently, there are 27,000 acres of Important Agricultural Lands whose status may be threatened if water rights were terminated. According to section

205-50, Hawaii Revised Statutes, "if a sufficient supply of water is no longer available to allow profitable farming of the land" a landowner may petition to remove the Important Agricultural Lands designation. It is estimated that any less than 3,500 gallons of water per acre per day would put that status of those 27,000 acres in jeopardy.

Your Committee also notes that along with this measure, two positions were provided for in the budget to expedite the applications to continue previously-authorized dispositions of water rights. In addition \$1.5 million will be spent on a United States Geological Survey study on streams statewide.

Your Committee finds that the provision of drinking water; the generation of clean, renewable energy; and the support of agriculture and agricultural lands has a clear value to the public. The intent of this measure is to provide for a three year window to resolve applications to continue a previously authorized water use by the Department of Land and Natural Resources in order to prevent their abrupt cessation and the resulting negative social and economic impacts that would threaten our communities.

Your Committee on Conference amended this measure by:

- (1) Deleting the appropriation for the Department of Land and Natural Resources to hire for two positions to expedite applications to continue previously-authorized dispositions of water rights;
- (2) Clarifying that this measure is applicable to applications for the disposition of water rights that are pending before the Board of Land and Natural Resources on its effective date or filed prior to June 30, 2019; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2501, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2501, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Tokuda, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Yamane, Rhoads, Luke, Cullen and Fukumoto Chang.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 8-16 on S.B. No. 2540

The purpose of this measure is to expedite the development or expansion of a forensic facility at the Hawaii State Hospital by authorizing the Governor to negotiate directly with any person to construct the facility. This measure also provides for an extended review and comment period for an environmental assessment or environmental impact statement.

Your Committee on Conference finds that the Department of Health is proposing to undertake the construction of a new building at the Hawaii State Hospital. The new building is of high priority because of census and health and safety issues at the hospital. To expedite the development, the Department of Health and Department of Accounting and General Services intend to use the design-build process. However, the Department of Health and Department of Accounting and General Services may need more flexibility, such as the mechanism proposed by this measure, to allow the Governor to expedite the development of a critically needed building.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2540, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2540, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Luke, Kobayashi and Fukumoto Chang.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 9-16 on S.B. No. 2861

The purpose of this measure is to repeal the Joint Formulary Advisory Committee.

Your Committee on Conference finds that the Joint Formulary Advisory Committee's sole function is to determine the formulary for advanced practice registered nurses with prescriptive authority. However, the Board of Nursing, as the authority that oversees the practice of nursing in Hawaii, including advanced practice registered nurses with prescriptive authority, ultimately makes the final determination on the exclusionary formulary. This measure repeals the Joint Formulary Advisory Committee, as it is obsolete and unnecessary, and permits the Board of Nursing to be the sole authority that determines the exclusionary formulary for qualified advanced practice registered nurses with prescriptive authority.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2861, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2861, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Belatti, McKelvey, Nishimoto, Creagan and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 10-16 on H.B. No. 1585

The purpose of this measure is to amend the law relating to guardianships of incapacitated adults by prohibiting appointed guardians of an incapacitated adult ward from restricting the personal communication rights of the ward, including the right to receive visitors, telephone calls, and personal mail, unless it is deemed to pose a risk to the safety or well-being of the ward.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1585, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1585, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kahele and Shimabukuro.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Morikawa, Rhoads, Brower and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 11-16 on S.B. No. 2886

The purpose of this measure is to reduce barriers to accessing mental health services for minors by lowering the age of consent to receive treatment and services, other than prescription medication or out-of-home or residential treatment, from eighteen years of age to fourteen years.

Your Committee on Conference finds that requiring parental consent for minors to receive substance abuse treatment and family planning services may pose a barrier to health care. Minors may find desired mental health services inaccessible due to the discomfort and even opposition caused by obtaining parental consent. By allowing access to mental health services for consenting minors of a certain age, individuals seeking improved emotional and mental well-being may be served in a timely manner.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2886, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2886, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Rhoads, Luke, Morikawa and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 12-16 on S.B. No. 2788

The purpose of this measure is to amend the eligibility requirements for membership on the Molokai Irrigation System Water Users Advisory Board.

Specifically, this measure:

- (1) Authorizes agents, officers, or employees of Molokai irrigation system users to be Molokai Irrigation System Water Users Advisory Board members; and
- (2) Removes the requirement that Molokai Irrigation System Water Users Advisory Board members be active general excise tax licensees.

Your Committee on Conference finds that the Molokai Irrigation System is the only agricultural water source on Molokai and therefore sustains agriculture on Molokai. The Molokai Irrigation System Water Users Advisory Board advises the Department of Agriculture on matters concerning use of the system; therefore, it is necessary that the Board be able to establish a quorum and hold

official meetings frequently. Passage of this measure will facilitate the Board in conducting its duties in an efficient and effective manner.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2788, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2788, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English, Ruderman and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Yamane, DeCoite and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 13-16 on H.B. No. 1517

The purpose of this measure is to provide that the commission of certain offenses of assault, sexual assault, and abuse of a family or household member in the presence of a minor is an aggravating factor to be considered in the sentencing of the defendant convicted of the offense.

Your Committee finds that several states, including Arkansas, Idaho, Minnesota, Montana, New Jersey, Oregon, and Utah, elevate the offense or sentencing for various crimes that are committed in the presence of minors.

Your Committee also finds that research has shown that children who witness assault or domestic violence can suffer severe emotional and developmental difficulties that are similar to those of children who are victims of direct physical and mental abuse. By broadening the application of the aggravating factor considered by the courts when sentencing defendants convicted of committing certain crimes in the presence of a minor pursuant to section 706-606.4, Hawaii Revised Statutes, to include the commission of assault and sexual assault offenses regardless of the pre-existing legal relationship between the defendant and the victim or the child, this measure recognizes the impact that witnessing an assault has on a child. The use of the aggravating factor for sentencing does not elevate the seriousness of the offense charged.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1517, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1517, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Hashem, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Hashem).

Conf. Com. Rep. 14-16 on H.B. No. 1668

The purpose of this measure is to facilitate the testimony of a vulnerable witness by authorizing the court to permit the use of a trained and credentialed facility dog that provides the witness with emotional support without causing a distraction during the court proceedings.

Your Committee on Conference has amended this measure by:

- (1) Specifying that an assistance dog organization for facility dog purposes be accredited by Assistance Dogs International or a similar internationally recognized organization; and
- (2) Making this measure take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1668, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1668, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Thielen.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Thielen).

Representatives Rhoads, Brower, Creagan and McDermott.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 15-16 on S.B. No. 2317

The purpose of this measure is to:

- (1) Require the Director of Health to submit annual reports to the Legislature relating to child and maternal deaths and death reviews in the State;
- (2) Allow the Department of Health to conduct multidisciplinary and multiagency reviews of maternal deaths;
- (3) Require, upon written request from the Director of Health, all providers of health care or social services and county and state agencies to disclose child death review information and to provide information or other materials relating to the condition and treatment of any person to the Department of Health, or its designee, for studies to reduce morbidity or mortality;
- (4) Allow the Department of Health to request certain information stored in electronic format or in paper copies, or gathered through interviews; and
- (5) Appropriate funds to the Department of Health to conduct child death reviews and implement a program to perform maternal death reviews.

Your Committee on Conference finds that comprehensive multidisciplinary reviews of child deaths are needed to understand risk factors, prevent future child deaths, and keep children in the State safe and healthy. Child death reviews provide in-depth, accurate, and timely information to assist with the administration of child health and protection programs and provide appropriate data reporting to federal and state agencies.

Your Committee on Conference further finds that comprehensive multidisciplinary reviews of maternal deaths are needed to understand risk factors for and prevent the deaths of mothers during pregnancy, labor, and the year following the birth of a child. This information would benefit policymakers and facilitate the establishment and administration of relevant programs.

Your Committee on Conference further finds that because comprehensive reviews of child and maternal deaths are a matter of ongoing concern and the program of reviews must be sustainable, funding to conduct child and maternal death reviews is necessary not only in the current biennium, but in subsequent biennia as well.

Your Committee on Conference has amended this measure by:

- (1) Repealing section 321-345, Hawaii Revised Statutes (HRS), and inserting similar contents related to the use of child death review information into section 321-343, HRS;
- (2) Further amending section 321-343, HRS, by adding provisions related to compliance with state and federal privacy statutes and regulations, use of child death review information, and liability protections and safeguards to privacy and confidentiality;
- (3) Specifying that the Department of Health may conduct multidisciplinary and multiagency reviews of maternal deaths to reduce the incidence of preventable maternal deaths;
- (4) Amending section 324-1, HRS, to add provisions regarding the disclosure of information or other data or material to the Department of Health, or its designee, for reducing maternal morbidity or mortality; access to medical records and interviews with hospital employees; compliance with state and federal privacy statutes and regulations; and liability protections and safeguards to privacy and confidentiality;
- (5) Inserting an appropriation amount of \$150,000 for the Department of Health to conduct child death reviews and implement a program for the performance of maternal death reviews;
- (6) Changing the effective date to July 1, 2016; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2317, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2317, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Johanson, Creagan and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 16-16 on S.B. No. 2330

The purpose of this measure is to provide funding for and to extend the hospital sustainability program for one year. This measure also amends provisions related to:

- (1) The use of revenues derived from the hospital sustainability fee to enhance reimbursement rates and the drawdown of matched federal funds;

- (2) Hospital sustainability fee schedules, payment dates, and rates; and
- (3) The applicability of the hospital sustainability program to various types of hospitals, including certain children's, rehabilitation, and psychiatric hospitals.

Recognizing that Medicaid payments to hospitals were far below the actual costs of care, the Legislature created the hospital sustainability program by enacting Act 217, Session Laws of Hawaii 2012, which increases Medicaid payments to hospitals. The program achieves this increase by assessing a fee on hospitals, using the revenue to obtain matching federal Medicaid funds, and returning a majority of the combined amount directly to hospitals. Because of this program, Medicaid payments are now closer to the actual costs of care, thereby reducing losses and improving the financial stability of hospital systems. The program has made it possible for hospitals to cover eighty-six percent of their costs related to Medicaid patients, up from seventy-five percent without the program. Your Committee on Conference finds that the hospital sustainability program helps to ensure that Medicaid patients will maintain access to needed hospital care.

Your Committee on Conference has amended this measure by:

- (1) Specifying that payments made by Medicaid managed care health plans shall be made within thirty business days upon receipt of monthly capitation rates from the Department of Human Services;
- (2) Inserting an appropriation amount of \$65,000,000 out of the hospital sustainability program special fund for fiscal year 2016-2017 for the purposes of the hospital sustainability program special fund;
- (3) Changing the effective date to June 29, 2016; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2330, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2330, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland, Tokuda, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Morikawa, Kobayashi, Creagan and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 17-16 on S.B. No. 2560

The purpose of this measure is to:

- (1) Require the Department of Health to provide treatment and care for homeless individuals with serious and persistent mental health challenges to enable them to reside in a permanent dwelling unit or homeless facility and appropriate funds to provide such treatment and care;
- (2) Authorize the Director of Health to contract with any person for outreach services, with priority given to outreach services for homeless individuals with serious and persistent mental health challenges; and
- (3) Amend program elements of the community residential treatment system to include the provision of services for persons who are at risk of becoming homeless by reason of serious and persistent mental illness.

Your Committee on Conference finds that the issue of homelessness is complex, as there are many reasons why individuals become homeless, such as issues related to housing, poverty, access to health care, and mental health. A continuum of comprehensive services is needed to assist individuals with serious and persistent mental health issues in the State. Reaching out to these individuals and providing them with effective mental health treatment and care will help break the cycle of homelessness for many individuals with serious and persistent mental health challenges.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 to provide treatment and care for homeless individuals with serious and persistent mental health challenges to enable them to reside in a permanent dwelling unit or homeless facility; and
- (2) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2560, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2560, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland, Tokuda, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Morikawa, Luke, Oshiro and Fukumoto Chang.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Oshiro).

Conf. Com. Rep. 18-16 on S.B. No. 2671

The purpose of this measure is to:

- (1) Beginning on July 1, 2018, establish requirements for the regulation of veterinary technicians and the practice of veterinary technology;
- (2) Establish registration requirements and limitations on use of titles for veterinary technicians; and
- (3) Appropriate funds to implement the registration of veterinary technicians.

Your Committee on Conference finds that veterinary technicians are essential members of a veterinary health care team. Your Committee on Conference further finds that graduates from veterinary technician programs in Hawaii must travel out of the State to receive the title of “registered veterinary technician”, as that title is not currently recognized in Hawaii. Accordingly, this measure provides title protection for veterinary technicians and registered technicians, establishes criteria for registration, and makes clear that a licensed veterinarian is not precluded from utilizing support or auxiliary personnel.

Your Committee on Conference notes that since this measure provides title protection and registration for veterinary technicians, rather than full licensure, a reduction in the registration surcharge amount is appropriate.

Your Committee on Conference has amended this measure by:

- (1) Reducing the surcharge each veterinary technician must pay in addition to each new registration and registration renewal from \$100 to \$50;
- (2) Inserting an appropriation amount of \$30,000 from the compliance resolution fund to implement the registration of veterinary technicians; and
- (3) Changing its effective date from July 1, 2030, to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2671, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2671, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Riviere, Kidani and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Johanson, Hashem and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 19-16 on S.B. No. 2213

The purpose of this measure is to:

- (1) Continue the nursing facility sustainability program for an additional year; and
- (2) Appropriate funds for fiscal year 2016-2017 from the nursing facility sustainability program special fund for uses consistent with the fund.

Your Committee on Conference finds that ensuring that nursing facilities remain financially viable is crucial for Hawaii residents to continue to have access to long term care resources. Your Committee on Conference notes that Medicaid patients make up the majority of nursing facilities’ patient population, and Medicaid payments are less than the actual costs of care. Your Committee on Conference recognizes that the nursing facility sustainability program increases Medicaid payments to Hawaii’s nursing facilities and has successfully helped these facilities to offset some of the losses that they incur while caring for the most underserved patients. Accordingly, your Committee on Conference finds that this measure will enable the nursing facility sustainability program to continue supporting the crucial services provided by nursing facilities.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$14,000,000 from the nursing facility sustainability program special fund for uses consistent with the nursing facility sustainability program special fund; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2213, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2213, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Baker and Tokuda.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Morikawa, Kobayashi, Creagan and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 20-16 on S.B. No. 2910

The purpose of this measure is to:

- (1) Clarify the Lieutenant Governor's rulemaking authority relating to Commissioners of Deeds;
- (2) Authorize the Lieutenant Governor to assess and collect fees and administrative fines relating to Commissioners of Deeds;
- (3) Clarify that the Lieutenant Governor is responsible for the Commissioners of Deeds program;
- (4) Increase the surety bond requirement for Commissioners of Deeds; and
- (5) Appropriate funds for the establishment and administration of the Commissioners of Deeds program.

Your Committee on Conference finds that Act 277, Session Laws of Hawaii 2013 (Act 277), established the Commissioners of Deeds program within the Office of the Lieutenant Governor. The program includes a process for the Governor to appoint individuals to serve as Commissioners of Deeds to administer oaths, take acknowledgments, and take proofs of execution outside of the United States in connection with the execution of conveyance documents relating to a time share interest, any property subject to a time share plan, or the operation of a time share plan covering any property located within Hawaii.

Your Committee on Conference further finds that a working group, convened to discuss and analyze the implementation of Act 277, has determined that additional legislation and authorization are necessary to fully implement the Commissioners of Deeds program. This measure addresses the issues identified by the working group and provides the Office of the Lieutenant Governor with the authority and clarification needed to properly implement Act 277.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$60,000 for a Commissioner of Deeds specialist and the establishment and administration of the Commissioners of Deeds program; and
- (2) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2910, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2910, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Johanson and Fukumoto Chang.
Managers on the part of the House.

Conf. Com. Rep. 21-16 on S.B. No. 3110

The purpose of this measure is to continue efforts to diversify Hawaii's economy, assist small businesses conducting innovative research with their efforts toward commercialization, and promote manufacturing by:

- (1) Extending, by one year, the lapse date for the appropriation of funds in Act 216, Session Laws of Hawaii 2015, for the Department of Business, Economic Development, and Tourism to provide grants and loans through the High Technology Development Corporation for federal Small Business Innovation Research Phase II and Phase III awards; and
- (2) Appropriating funds for fiscal year 2016-2017 for providing grants and loans for Phases II and III awards.

Your Committee on Conference finds that since 1989, the High Technology Development Corporation has been assisting Phase I Small Business Innovation Research award recipients to reach their commercial potential through the provision of grants. This has proven to be successful for the businesses awarded a grant and the State. Your Committee on Conference finds that this measure will ensure the continuation of the grant program for Phase II and Phase III awards and allow for more companies to achieve commercialization and increase the beneficial economic impacts of this program to the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$2,000,000 for fiscal year 2016-2017 for the purposes of providing grants and loans for Phases II and III awards; and
- (2) Changing the effective date for the fiscal year 2016-2017 appropriation to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3110, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3110, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Galuteria, Espero and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Kawakami, Johanson, Kong and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 22-16 on S.B. No. 3109

The purpose of this measure is to increase economic development in the State through the promotion of manufacturing by:

- (1) Extending, for one year, the lapse date for the appropriation of funds in Act 215, Session Laws of Hawaii 2015, for the continuation of the manufacturing grant program in the High Technology Development Corporation; and
- (2) Appropriating funds for the manufacturing development program for the 2016-2017 fiscal year.

Your Committee on Conference finds that, recognizing the potential economic benefits provided by the manufacturing industry, the Legislature appropriated \$2,000,000 in the Regular Session of 2015 to establish a manufacturing grant program within the High Technology Development Corporation to assist companies with qualified manufacturing expenses. However, delays in establishing this program have occurred as the process for the adoption of rules has taken longer than expected. While the High Technology Development Corporation has prepared rules for this program, distribution of grant monies cannot occur until these rules are adopted. As the initial appropriation for this program lapses at the end of the current fiscal year, your Committee on Conference finds that extending the lapse date for funds appropriated in 2015 by one year will allow for the implementation of the manufacturing grant program, thereby strengthening Hawaii's manufacturing economy.

Your Committee on Conference has amended this measure by inserting an appropriation amount of \$1,000,000 for fiscal year 2016-2017 for the manufacturing grant program, including operational expenses.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3109, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3109, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 23-16 on S.B. No. 2476

The purpose of this measure is to:

- (1) Enhance early language services for children from birth to age five years who are deaf, hard of hearing, or deaf-blind within the Department of Health to support age-appropriate language development; and
- (2) Establish a working group for the purposes of investigating issues related to resources and tools for parents of children who are deaf, hard of hearing, or deaf-blind and improvements to the statewide system of services that support age-appropriate language development for children from birth to age five who are deaf, hard of hearing or deaf-blind.

Your Committee on Conference finds that early language acquisition is a key component in a child's social and educational development. Most children who are deaf, hard of hearing, or deaf-blind do not develop language in the same way that hearing children do, because most have had hearing parents who do not know how to communicate with a child who does not hear. Children who are deaf, hard of hearing, or deaf-blind often begin kindergarten without the necessary language skills to acquire the knowledge and academic competencies that will allow them to be successful in school and life, therefore it is imperative that a child who is deaf, hard of hearing, or deaf-blind develop language, in some form, as soon as possible.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2476, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2476, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 24-16 on S.B. No. 2672

The purpose of this measure is to amend various statutes to clarify the role of advanced practice registered nurses with regard to their authority and participation in the health care system.

Your Committee on Conference finds that advanced practice registered nurses provide a wide variety of health care services to people in Hawaii. Section 323-3, Hawaii Revised Statutes, requires each hospital within the State to allow advanced practice registered nurses to practice within the full scope of their practice, including as primary care providers. Advanced practice registered nurses are also recognized as participating primary health care providers for insurance purposes under the State's insurance code.

Your Committee on Conference further finds that certain sections within state law omit advanced practice registered nurses from the definitions or designations of health care entities who may provide health care, prescribe drugs, or sign forms. The outdated statutes must be amended to authorize increased participation by advanced practice registered nurses and recognize appropriately trained advanced practice registered nurses as primary care providers. Authorizing increased participation by advanced practice registered nurses in certain circumstances, especially with regard to global signature authority, will enable improved access to health care services, expedite the processing of paperwork, and provide optimal care at the initial point of access for Hawaii patients, especially in rural and underserved areas.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2672, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2672, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 26-16 on H.B. No. 1943

The purpose of this measure is to preserve access to health care for Medicaid recipients by:

- (1) Providing an inflationary adjustment to the long-term care reimbursement methodology used to reimburse facilities for Medicaid recipients for fiscal year 2016-2017; and
- (2) Appropriating funds for the inflationary adjustment.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$1,553,559 to provide an inflationary adjustment to long-term care facilities' provider specific prospective payment rates; and
- (2) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1943, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1943, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 27-16 on H.B. No. 900

The purpose of this measure is to:

- (1) Provide that a person commits medical assistance fraud if the person knowingly makes or causes to be made a false statement or representation of a material fact relative to any medical assistance benefit;
- (2) Clarify that fraudulently applying for or renewing medical assistance benefits is a class C felony;
- (3) Clarify that an individual charged with the offense relating to an application for or renewal of a medical assistance benefit shall pay restitution equivalent to the amount of medical assistance benefits received; and
- (4) Extend the statute of limitations for prosecution of medical assistance fraud.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 900, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 900, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 28-16 on S.B. No. 2566

The purpose of this measure is to provide capital for the development of affordable rental housing by transferring excess monies from the rental assistance revolving fund to the rental housing revolving fund.

Your Committee on Conference finds that more affordable rental housing is needed by the people of Hawaii. The rental housing revolving fund should be provided with additional funds to facilitate the development of more affordable rental housing projects. Additionally, the rental assistance revolving fund has a balance in excess of the immediate needs of the fund and, therefore, the excess monies should be transferred to the rental housing revolving fund to spur affordable rental housing projects.

Your Committee on Conference has amended this measure by:

- (1) Inserting an amount of \$9,500,000 to be transferred from the rental assistance revolving fund to the rental housing revolving fund on July 1, 2016;
- (2) Changing the effective date to July 1, 2016; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2566, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2566, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 29-16 on S.B. No. 911

The purpose of this measure is to prohibit the use of latex gloves:

- (1) By personnel working in food establishments; and
- (2) With limited exceptions, by personnel working in dental health facilities or health care facilities, or by personnel providing ambulance services or emergency medical services.

Your Committee on Conference finds that latex allergy is a serious concern because it causes reactions ranging from mild rashes to difficulty breathing and deadly anaphylaxis. Approximately 3,000,000 people in the general population of the United States have an allergy to latex. Individuals with this allergy must be vigilant about latex exposure since there is currently no medically approved treatment except strict avoidance.

Your Committee on Conference has amended this measure by:

- (1) Removing exceptions for the use of latex gloves by personnel providing ambulance services or emergency medical services;
- (2) Changing the effective date to upon approval; provided that the provisions related to the prohibitions of the use of latex gloves shall take effect on January 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 911, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 911, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 33-16 on H.B. No. 1684

The purpose of this measure is to assist the Natural Energy Laboratory of Hawaii Authority (NELHA) in the development of lands under its control by exempting the operations of NELHA from the 15-year lease term limit on concessions or concession space on public property.

NELHA is a self-sufficient agency attached to the Department of Business, Economic Development, and Tourism. Currently, the lease of concessions or concession space on public land may not exceed a term of 15 years. NELHA operates the Hawaii Ocean Science and Technology Park on approximately 80 acres of public land in Kailua-Kona on the island of Hawaii. The plans for this park are to develop a large commercial and industrial complex or mall. However, a significant portion of this land is underdeveloped, as it is on barren lava, which requires an investment of over \$50,000 to grade a single acre, and the imposition of a 15-year lease term limit hinders NELHA's ability to find a developer willing to develop this area at such a significant cost.

While your Committee on Conference believes that simply exempting NELHA from the 15-year lease term limit would facilitate the ability of NELHA to find developers for its underdeveloped lands, your Committee on Conference finds that exempting the operations of NELHA from all bidding requirements for concessions or concession space on public property would be a more efficient and effective means of developing NELHA lands.

Accordingly, your Committee has amended this measure by exempting instead the operations of NELHA from bidding requirements for concessions or space on public property.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1684, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1684, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kim and Inouye.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Kawakami, Lowen, Keohokalole and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Keohokalole).

Conf. Com. Rep. 34-16 on S.B. No. 2392

The purpose of this measure is to promote the responsible use of opioid antagonists to treat drug overdoses by, among other things:

- (1) Providing immunity for health care professionals and pharmacists who prescribe, dispense, or distribute, and any persons who administer, an opioid antagonist such as naloxone hydrochloride to persons experiencing or at risk of experiencing an opioid-related drug overdose;
- (2) Beginning on January 1, 2017, authorizing emergency personnel and first responders to administer opioid antagonists to a person believed to be suffering from opioid-related drug overdose;
- (3) Requiring Medicaid coverage for opioid antagonists;
- (4) Allowing harm reduction organizations to store and distribute opioid antagonists under certain circumstances; and
- (5) Requiring the Department of Health to provide education and training related to opioid-related drug overdose prevention, recognition, and response, including opioid antagonist administration.

Your Committee on Conference finds that according to the Centers for Disease Control and Prevention, overdoses involving prescription painkillers are at epidemic levels. However, deaths caused by opioids are often preventable via timely administration of an opioid antagonist. As a result, over half of the states in the country have enacted some form of a 911 drug immunity law or have implemented a law or developed a pilot program to allow administration of medication, like naloxone hydrochloride, to reverse the effects of an opioid-related overdose. Studies have found that providing opioid overdose training and naloxone kits can help people identify signs of an opioid-related drug overdose and can help reduce opioid-related overdose mortality.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Department of Health to monitor adverse drug reaction to opioid antagonist use by requiring hospital emergency departments to report to the Department all adverse drug reactions occurring after administration of an opioid antagonist; and

- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2392, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2392, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Chun Oakland and Kidani.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Belatti, McKelvey, Rhoads, Luke, Creagan and Fukumoto Chang.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 35-16 on H.B. No. 2233

The purpose of this measure is to:

- (1) Require every physician, osteopathic physician, physician assistant, advanced practice registered nurse, and naturopathic physician applying for licensure or renewing a license to provide the licensing authority with a current electronic mail address as prescribed by the licensing authority;
- (2) Authorize licensing authorities to share the electronic mail address only with other state or federal agencies, upon request, for public health and safety purposes and for use by the licensing authority for any purpose related to the license; and
- (3) Require that laboratory data reported to the Department of Health regarding any individual affected by or suspected of being affected by a communicable or dangerous disease or condition include the individual's complete demographic information.

Your Committee recognizes the comments of the Department of Commerce and Consumer Affairs that full implementation of this measure with respect to the collection and sharing of email addresses of health care licensees will require approximately one-and-a-half to two years. In the meantime, the Department has committed to begin this process through the immediate collection of affected licensee information following this measure's enactment while long-term steps to implement this measure, including the revision of license applications and the adjustment of its licensing databases, are being taken.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2016; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2233, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2233, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland and Kidani.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Woodson, Lowen, Creagan and Tupola.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 36-16 on H.B. No. 1852

The purpose of this measure is to clarify that nonprofit organizations may receive loans from the Water Pollution Control Revolving Fund to engage in activities that are consistent with the Federal Water Pollution Control Act, including the planning, design, and construction of wastewater treatment works. To achieve this purpose, this measure also permits use of the Revolving Fund for all purposes authorized under federal law and clarifies loan conditions.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2016; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1852, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1852, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English and Kidani.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Cullen, Creagan and Tupola.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Creagan).

Conf. Com. Rep. 37-16 on H.B. No. 1111

The purpose of this measure is to:

- (1) Authorize the Hawaii Health Systems Corporation (HHSC) to set rates for copies of records protected from the disclosure requirements of Chapter 92F, Hawaii Revised Statutes, the Uniform Information Practices Act; and
- (2) Establish minimum and maximum rates for copies of medical records subpoenaed from any of HHSC's regional system facilities and require that rates charged be based on the facility's actual cost of preparation.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1111, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1111, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Chun Oakland.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Rhoads, Cullen and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 38-16 on H.B. No. 1561

The purpose of this measure is to remedy the situation of an unlawful occupation of real property by amending the nuisance abatement law to authorize civil lawsuits that seek, among other things, an order of abatement that permanently prohibits the trespassers from residing on or entering onto the subject real property.

Your Committee on Conference finds that "squatting," to settle on land without title, right, or payment of rent, has become common in certain areas of this State and is a serious nuisance to the owners of the property, adjoining landowners, and neighboring residents. Squatting presents significant legal issues for land owners because the legal process to evict a squatter is costly and time consuming. The problems multiply when the squatter locates on property that has been abandoned by the owner. Because neighboring landowners and residents do not have a property interest in the abandoned parcel, they usually do not have effective legal tools to remove the squatter. There is a lack of effective remedies to protect against noise, drug use, unsanitary conditions, and other illegal activities in their neighborhoods.

This measure is intended to provide the landowners and the affected communities with a means to obtain relief from the nuisance created by squatters.

Your Committee on Conference has amended this measure by making it effective on July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1561, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1561, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kahele and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 39-16 on H.B. No. 1807

The purpose of this measure is to support members of the National Guard or Reserve of the Armed Forces who are also officers or employees of the State or the counties by allowing them to include inactive-duty training days in their 15 working days of annual paid military leave.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1807, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1807, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 40-16 on H.B. No. 1756

The purpose of this measure is to protect public safety by ensuring that licensed nurses are safe to practice and care for patients by:

- (1) Requiring the Board of Nursing to conduct, as it deems appropriate, investigations of the background, character, competency, and integrity of qualified applicants for renewing, reinstating, reactivating, or restoring an applicant's license;
- (2) Beginning with the July 1, 2017, licensing biennium, requiring applicants for a license to practice nursing as a registered nurse, practical nurse, or advanced practice registered nurse, and beginning with the July 1, 2019, licensing biennium, requiring applicants for renewal or reactivation of their licenses, to submit a full set of electronic fingerprints for obtaining federal and state criminal history record checks to the Hawaii Criminal Justice Data Center for processing with the Federal Bureau of Investigation;
- (3) Requiring the Hawaii Criminal Justice Data Center to provide information on request to the Department of Commerce and Consumer Affairs (DCCA); and
- (4) Authorizing DCCA to conduct criminal history record checks on applicants for nurse licensure or license renewal, reactivation, or restoration.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2016; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1756, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1756, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 41-16 on S.B. No. 2630

The purpose of this measure is to:

- (1) Authorize Hawaii Correctional Industries to sell inmate-made products and services on the open market to the general public;
- (2) Authorize portions of the proceeds from the sales to first be credited as restitution to victims, then to the State, and lastly, if any balance is remaining, to the inmate; and
- (3) Require the Department of Business, Economic Development, and Tourism to conduct a feasibility study on establishing a reentry academy for training and entrepreneurial resources.

Your Committee on Conference finds that the correctional industries program provides opportunities for committed persons to acquire marketable skills, prosocial behaviors, and positive work ethic while incarcerated, as well as reducing rates of recidivism after incarceration. Establishing a training and mentoring program to assist the reentry of incarcerated persons will also promote the acquisition of valuable skills and reduce the risk of recidivism. Your Committee on Conference further finds that the distribution of proceeds from the sale of inmate-made products and services is already provided for under existing law and that the inclusion of such language in this measure is redundant.

Your Committee on Conference has amended this measure by:

- (1) Removing language specifying the distribution of proceeds from the sale of inmate-made products and services; and
- (2) Inserting an appropriation amount of \$150,000 for the study to determine the feasibility of establishing the reentry academy for training and entrepreneurial resources.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2630, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2630, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Galuteria and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 42-16 on S.B. No. 2319

The purpose of this measure is to require health insurers in the State, including health benefits plans under the Hawaii Employer-Union Health Benefits Trust Fund and Medicaid managed care programs, to cover reimbursement for prescription contraceptive supplies intended to last for up to a twelve-month period for an insured.

Your Committee on Conference finds that insurance companies typically cover a thirty- or ninety-day supply of prescription contraceptives. However, these coverage requirements may act as a barrier for women, especially those who live in rural areas, frequently travel, are unable to schedule regular visits to health care providers, or are unable to readily pick up their prescriptions. Your Committee on Conference further finds that providing a greater number of prescription contraceptive supplies at one time is associated with higher continuation rates, fewer pregnancy tests, fewer unplanned pregnancies, and decreased health care costs per woman. This measure expands access to prescription contraceptives by requiring insurers to cover up to a twelve-month period of prescription contraceptive supplies for an insured.

Your Committee on Conference has amended this measure by:

- (1) Deleting references to “certified nurse midwife-delivered” medical services, as this is an arcane phrase no longer used by the health care industry;
- (2) Changing its effective date to July 1, 2016; provided that the required reimbursement for prescription contraceptive supplies shall apply to policies, contracts, plans, or agreements, including health benefits plans, issued or renewed on or after January 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2319, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2319, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 43-16 on S.B. No. 2387

The purpose of this measure is to require the provision of written documentation of a physical examination performed within twelve months prior to attending seventh grade at a public school.

Your Committee on Conference finds that school physical examinations are currently only conducted upon entry into the public school system, usually in kindergarten. Expansion of physical examination requirements for students promotes a culture of wellness and preventative healthcare. This measure will require students entering seventh grade to complete a physical examination and provide a legal framework for the Department of Health to follow-up with the families of students who do not complete the physical examination.

Your Committee on Conference has amended this measure by:

- (1) Removing the requirement that the Department of Education’s annual list to the Department of Health of students who have not submitted appropriate written documentation be in an electronic format;
- (2) Removing the definition of “physical examination”;
- (3) Removing the appropriation to the Department of Health;
- (4) Changing the effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2387, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2387, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Baker and Dela Cruz.
Managers on the part of the Senate.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 44-16 on S.B. No. 2896

The purpose of this measure is to:

- (1) Require the Hawaii Labor Relations Board to serve complaints or require complainants to serve complaints by first class mail or electronic mail;
- (2) Require the Board to provide written notice of a hearing by first class mail; and
- (3) Authorize the Board to provide additional written notice of a hearing by electronic service through a company designated by the Board at least fifteen days before the scheduled date of the hearing.

Your Committee on Conference finds that under existing law, the Hawaii Labor Relations Board may serve complaints and notices of hearings on a party by delivery to the person, by mail, or by telegram. However, the electronic service of complaints and notices is a faster and less expensive method of service. Implementation of this measure will reduce costs and provide a more efficient process to accommodate all parties.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Hawaii Labor Relations Board to provide written notice of a hearing either by first class mail or electronic service rather than only allowing electronic service to be in addition to notice by mail; and
- (2) Making it effective upon its approval;

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2896, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2896, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Fukumoto Chang).

Conf. Com. Rep. 45-16 on S.B. No. 2673

The purpose of this measure is to require a travel agency that sells activities individually or as part of a tour package to register with the Director of Commerce and Consumer Affairs as an activity desk.

Your Committee on Conference finds that travel agencies may also function as activity desks when the travel agencies sell or arrange activities furnished by an activity provider for travelers. However, these travel agencies are not currently required to register as an activity desk. Accordingly, this measure requires travel agencies that sell activities individually or as part of a tour package to register as an activity desk, which will ensure better protection for those consumers who purchase activities from travel agencies.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2673, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2673, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Baker and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Ayes, 3. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 46-16 on S.B. No. 2408

The purpose of this measure is to adopt the Uniform Partition of Heirs Property Act, which establishes procedures and remedies applicable to actions for partition of real property that is deemed heirs property.

Your Committee on Conference finds that in 2010, the Uniform Law Commission promulgated the Uniform Partition of Heirs Property Act to provide a fair solution to the risks posed to those who own heirs property, which is real property held in tenancy in common that meets certain requirements. This measure adopts language that closely mirrors the Uniform Partition of Heirs Property Act, which establishes a hierarchy of remedies designed to protect a family's property holdings and real property wealth and is intended to provide cotenants with many of the protections and rights commonly found in private agreements governing the partition of tenancy in common property. Your Committee on Conference further finds that family members in a partition action may be unfamiliar with their rights under the partition action or may not be able to afford counsel. This measure addresses these concerns by requiring the court to determine, as a jurisdiction matter, whether the property in question is heirs property and also specifies that the court is responsible for appointing a special master to fulfill the notice requirements associated with an action for partition.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to January 1, 2017; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2408, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2408, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Conf. Com. Rep. 47-16 on S.B. No. 2375

The purpose of this measure is to establish speed limits along certain portions of the Daniel K. Inouye Highway.

Your Committee on Conference finds that Route 200 on the Island of Hawaii, known locally as Saddle Road and recently renamed the Daniel K. Inouye Highway, traverses the width of the Island of Hawaii. Saddle Road stretches from downtown Hilo to the junction with Hawaii Route 190, near the town of Waimea, and often serves as a shorter route for people traveling from Kona to Hilo. While once known as one of the most dangerous roads in the State because of numerous one-lane bridges and areas of marginally maintained pavement, most of the road has now been repaved and major parts have new re-alignments constructed to modern standards.

Your Committee on Conference has amended this measure by:

- (1) Inserting a speed limit of sixty miles-per-hour beginning at mile marker 12;
- (2) Inserting a speed limit of forty-five miles-per-hour or any other speed limit as determined by the Department of Transportation along the highway beginning at Pohakuloa training area and ending one-half mile east of the Mauna Kea county park entrance; and
- (3) Changing the effective date to January 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2375, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2375, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kidani, English and Slom.

Conf. Com. Rep. 49-16 on H.B. No. 2277

The purpose of this measure is to assist the King Kamehameha Celebration Commission in performing its duties by amending its membership and appointment process, clarifying the Commission's purpose and mission, and authorizing the appointment of an advisory committee and an Executive Director.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Commission is not required to have a specified number of members;
- (2) Restoring the Kapahulu Music Club as an organization which shall be represented in the Commission's membership;
- (3) Changing its effective date to July 1, 2016; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2277, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2277, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Galuteria and Inouye.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ing, Ito, Lowen, Tokioka and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 50-16 on H.B. No. 2077

The purpose of this measure is to permit the construction of small hydropower facilities in agricultural districts.

Specifically this measure:

- (1) Repeals the maximum five hundred kilowatt generating capacity for hydroelectric facilities in an agricultural district;
- (2) Authorizes, within agricultural districts, the construction of small hydropower facilities that meet the United States Department of Energy definition of small hydropower facility, including impoundment, diversion, run-of-river, and pumped storage facilities; and
- (3) Requires the approval of the Commission on Water Resource Management, including the establishment of new in stream flow standards, for the construction, within an agricultural district, of any hydroelectric facility that has a capacity of more than five hundred kilowatts.

Your Committee on Conference finds that permitting the construction, in an agricultural district, of hydroelectric facilities that have a generating capacity of more than five hundred kilowatts will provide the economies of scale necessary to make construction of hydroelectric infrastructure more economically viable. Your Committee on Conference believes that permitting construction of facilities that meet the federal definition of a small hydropower facility will promote the development of clean, renewable, and secure energy; contribute to a more efficient electricity grid; and lower the cost of energy in the State.

Your Committee on Conference has amended this measure by:

- (1) Limiting the requirement for the Commission on Water Resource Management to approve a hydroelectric facility to only new hydroelectric facilities that have the capacity to generate over five hundred kilowatts, rather than when such a facility requires a new or expanded diversion of water; and
- (2) Making technical nonsubstantive amendments for purposes of consistency and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2077, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2077, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Baker and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Lee, Yamane, Tsuji, McKelvey and Pouha.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 51-16 on H.B. No. 2231

The purpose of this measure is to expand the financing mechanisms available to Hawaii's energy sector by clarifying that special purpose revenue bonds can be used to finance publicly owned energy cooperatives.

Your Committee on Conference amended this measure by changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2231, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2231, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Baker, Riviere and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Lee, Lowen, Evans and Pouha.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 52-16 on H.B. No. 32

The purpose of this measure is to reduce pedestrian confusion when using a crosswalk equipped with a countdown timer by clarifying that a pedestrian shall complete the pedestrian's crossing while the countdown time is operating.

Numerous crosswalks throughout Hawaii are now equipped with countdown timers which indicate how many seconds a pedestrian has to finish crossing the street before the pedestrian signal changes from a flashing "Don't Walk" or upraised palm signal to a steady "Don't Walk" or upraised palm signal. However, there is confusion among many pedestrians as to when they are allowed to cross the street at a location equipped with a countdown timer. Updating the statutory specifications of what pedestrian control signals mean, which were last amended in 1981, to address signalized crosswalks where countdown timers are used will reduce this confusion.

However, your Committee on Conference notes that confusion also exists as to when a driver is required to stop and yield to a pedestrian crossing the roadway which can lead to pedestrian injuries or even fatalities. Clarifying a driver's duty to stop and yield the right of way for a pedestrian by specifying when a pedestrian is considered to be crossing a roadway will help reduce confusion, allow for better enforcement of pedestrian safety laws, and will make Hawaii's streets safer for everyone.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting language clarifying that a pedestrian is considered to be within an intersection or adjacent crosswalk when any part or extension of the pedestrian, including the pedestrian's body, wheelchair, cane, crutch, or bicycle, is beyond the curb or the edge of the roadway while the pedestrian is intending to proceed across the intersection or roadway; and
- (2) Clarifying that a pedestrian may not start to cross a roadway equipped with a countdown timer once the countdown timer has begun operating.

Your Committee on Conference has also amended this measure by:

- (1) Changing its effective date from January 7, 2059, to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 32, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 32, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keith-Agaran and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, Rhoads, Brower and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 53-16 on H.B. No. 901

The purpose of this measure is to assist the Harbors Division of the Department of Transportation (Harbors Division) in enforcing the laws of this State by:

- (1) Allowing the use of blue and red lamps, reflectors, or illumination devices on approved law enforcement vehicles of the Harbors Division; and
- (2) Amending the definition of "authorized emergency vehicle" to include Harbors Division law enforcement vehicles.

Under current law, appointed enforcement officers of the Harbors Division are conferred the powers of police officers and are tasked with enforcing the laws and regulations for harbors in the State. Despite this law enforcement responsibility and authority, the Harbors Division does not have the official and explicit authority to use law enforcement vehicles with emergency response lights. This measure will explicitly allow the use of emergency response lights on approved law enforcement vehicles of the Harbors Division and assist them in enforcing the laws of the State.

Your Committee on Conference has amended this measure by changing its effective date from July 1, 2030, to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 901, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 901, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keith-Agaran and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, Rhoads, LoPresti and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 54-16 on H.B. No. 1011

The purpose of this measure is to ensure highway safety by prohibiting the use of certain types of motor vehicle wheels that are considered dangerous. Specifically, this measure:

- (1) Defines the term “dangerous wheels” to mean any wheel, wheel cover, hubcap, lug nut cover or cap, prong, or any ornamentation affixed to any of the aforementioned items that extends at least four inches beyond the portion of the wheel rim that extends furthest away from the vehicle and that may cause injury or property damage by minimal contact with a person or object; and
- (2) Prohibits any person from operating a vehicle, trailer, or semi-trailer equipped with dangerous wheels.

An increasing number of motor vehicles operating on Hawaii’s roadways are reportedly using wheels with a propensity to cause severe injury and property damage. By design, most of these wheels have parts that extend past their rim, and include items such as gorilla pokes, superpoke elbows, and giraffe necks. However, others not designed as such are just as dangerous due to the addition of aftermarket parts, such as lug nuts and wheel covers that bear sharp pointed projections. Your Committee on Conference finds that existing law does not address the inherent dangers associated with the use of this type of motor vehicle wheel and that prohibiting their use will improve public safety on Hawaii’s highways.

Your Committee on Conference has amended this measure by changing its effective date from January 7, 2059, to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1011, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1011, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keith-Agaran and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Aquino, Woodson, McKelvey and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 55-16 on H.B. No. 1747

The purpose of this measure is to:

- (1) Allow a police officer to have a motor vehicle towed and impounded if the operator of the motor vehicle is arrested or cited for various traffic offenses, including driving under the influence of an intoxicant, with certain exceptions; and
- (2) Provide notice and administrative hearing requirements for the lien holder or registered owner to recover possession of the impounded motor vehicle or demand an administrative hearing to contest the basis given for the impoundment of the motor vehicle.

Your Committee on Conference finds that numerous drivers are cited each year for offenses such as operating a vehicle without a license, operating a vehicle with a suspended or revoked license, and operating a vehicle under the influence of an intoxicant. Unfortunately, many of these drivers continue to operate their motor vehicles immediately after receiving these citations. While allowing police officers to tow and impound a motor vehicle if the operator of that motor vehicle is arrested or cited for certain traffic offenses may act as a deterrent to this type of activity and make Hawaii’s roadways safer, your Committee on Conference finds that this action should be limited to serious traffic offenses.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Limiting the traffic violations for which a police officer may have a motor vehicle towed and impounded to when the driver of the vehicle is cited or arrested for operating a vehicle under the influence of an intoxicant and operating a vehicle after consuming a measurable amount of alcohol when the driver is under the age of 21;
- (2) Providing that the arresting officer must have reason to believe the arrested person is likely to return to the vehicle and continue to drive under the influence after being released from custody; and
- (3) Changing its effective date from July 1, 2030, to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1747, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1747, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 56-16 on H.B. No. 2305

The purpose of this measure is to provide assistance with financing to state agencies, counties, and private developers to increase the capacity of infrastructure facilities by authorizing the Hawaii Housing Finance and Development Corporation to:

- (1) Upon request by a county, establish and operate a regional state infrastructure subaccount within the Dwelling Unit Revolving Fund to be used for the benefit of housing and mixed-use transit-oriented development projects within the requesting county;
- (2) Expend funds within the subaccounts to repay private investors on their investments made into the subaccounts to finance capacity-increasing infrastructure improvements; and
- (3) Accept improved lands as repayment of loans made from a regional state infrastructure subaccount.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2305, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2305, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 57-16 on H.B. No. 2017

The purpose of this measure is to:

- (1) Authorize physicians to submit workers' compensation treatment plans to employers by mail or facsimile;
- (2) Beginning January 1, 2021, require employers to allow physicians to submit workers' compensation treatment plans to employers by mail or facsimile; and
- (3) Specify requirements for receipt and acceptance of treatment plans, including requiring an employer to file with the Director of Labor and Industrial Relations by mail or facsimile an objection to the treatment plan, evidence supporting the denial, and a copy of the denied treatment plan within ten business days after receipt.

Your Committee on Conference has amended this measure by:

- (1) Requiring, beginning January 1, 2021, an employer to allow a physician to submit a workers' compensation treatment plan to an employer by mail, facsimile, or secure electronic means;
- (2) Clarifying that a treatment plan will be deemed accepted if an employer fails to file with the Director of Labor and Industrial Relations an objection to the treatment plan, evidence supporting the denial, and a copy of the denied treatment plan, copying the physician and the injured employee;
- (3) Clarifying that after acceptance of the treatment plan, an employer may file an objection to the plan if new documentary evidence supporting the denial is received;
- (4) Changing its effective date from July 1, 2050, to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2017, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2017, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 58-16 on H.B. No. 2018

The purpose of this measure is to:

- (1) Establish guidelines for the management of capital improvement projects; and
- (2) Require the Department of Accounting and General Services to submit a status report on the implementation of practices required by this measure no later than twenty days prior to the Regular Session of 2017.

Your Committee on Conference believes that this measure is necessary in light of the Office of the Auditor's Report No. 15-13, Study of State Departmental Engineering Sections That Manage Capital Improvement Projects, which found inconsistent adherence to best practices in the execution and application of capital improvement projects throughout state government. Anecdotal information suggests that work is completed with a "get the job done" attitude rather than with the goal of meeting program needs, project goals and objectives, and providing customer service.

While the Administration indicated an interest in pursuing these goals, your Committee on Conference believes that it is important to provide legislative guidance for the execution of this effort. This measure will require:

- (1) Using timelines that include a comprehensive list of all activities required on a project, including all phases in the project's life cycle, namely, the initiation, planning, design, bid, construction, and post-construction phases;
- (2) Tracking payments and deliverables in accordance with state procurement guidelines; and
- (3) Identifying and involving stakeholders throughout a capital improvement project's execution and closing to help ensure end-user satisfaction with the project.

Creating these uniform expectations will assist the Legislature in executing oversight on capital improvement project expenditures and provide a basis for future project authorizations.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2018, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2018, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Dela Cruz and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Keohokalole, Yamashita and Ward.

Conf. Com. Rep. 59-16 on H.B. No. 1739

The purpose of this measure is to:

- (1) Prohibit, subject to certain exemptions, employers from:
 - (A) Requiring, requesting, or coercing employees or potential employees to disclose the username, password, or any other information for the purpose of accessing the employee's or potential employee's personal account;
 - (B) Requiring, requesting, or coercing employees or potential employees to provide access to the employee's or potential employee's personal account in the presence of the employer; and
 - (C) Coercing or compelling employees or potential employees to add anyone, including the employer, to the employee's or potential employee's list of contacts associated with a personal account;
- (2) Limit the liability of employers who inadvertently receive the username, password, or any other information that would enable the employer to gain access to the employee or potential employee's personal account through the use of a lawful technology that monitors the employer's network or employer-provided devices for network security or data confidentiality, except in certain situations; and
- (3) Establish a fine of not less than \$25 and not more than \$100, to be collected by the Director of Labor and Industrial Relations for a violation by the employer.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that employers may request or require an employee to share content regarding a personal account necessary to ensure compliance with applicable laws, regulatory requirements, or prohibitions against work-related employee misconduct; and
- (2) Removing the provision that an employer is not liable for deleting information received inadvertently.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1739, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1739, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 60-16 on H.B. No. 1578

The purpose of this measure is to prevent the theft of cremation urns by:

- (1) Establishing the offense of theft of an urn, which includes obtaining an urn through any means described under the offense of theft under section 708-830, Hawaii Revised Statutes (HRS); intentionally desecrating a columbarium or an urn under section 711-1107, HRS; or violating the statement requirements of scrap dealers under section 445-233, HRS, as a class C felony; provided that the penalty imposed for the intentional desecration of an urn shall be pursuant to section 711-1107(3), HRS;
- (2) Requiring scrap dealers and persons who sell to scrap dealers to follow the same regulations and provide the same receipts, declarations, and verifications for the purchase of an urn that are required for the purchase of copper or a beer keg; and
- (3) Making the intentional desecration of a columbarium or urn an offense of desecration.

Your Committee on Conference has amended this measure by:

- (1) Removing from the elements of a theft of urn the intentional desecration of a columbarium or an urn under section 711-1107, HRS, and its corresponding penalty;
- (2) Deleting the section that makes it an offense of desecration to intentionally desecrate a columbarium or an urn; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1578, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1578, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 61-16 on H.B. No. 2030

The purpose of this measure is to prohibit the discharge of treated or raw sewage into state waters after December 31, 2049, except when used to create clean energy.

Your Committee on Conference has amended this measure by:

- (1) Changing to December 31, 2026, the date upon which the discharge of treated or raw sewage into state waters shall be prohibited; and
- (2) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2030, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2030, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 64-16 on H.B. No. 2604

The purpose of this measure is to clarify that acceptance by the Territorial Legislature or the Legislature of a dedication of land in the Kakaako Community Development District by a private owner is sufficient to convey title to the State.

Your Committee on Conference has amended this measure by:

- (1) Moving the proposed language from a new section in chapter 206E, Hawaii Revised Statutes, relating to the Hawaii Community Development Authority, to section 171-30, Hawaii Revised Statutes, relating to acquisition of real property by the Department of Land and Natural Resources;
- (2) Removing language related to deeds of conveyance for transportation infrastructure under the jurisdiction of the Department of Transportation; and
- (3) Making the measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2604, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2604, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 66-16 on H.B. No. 2279

The purpose of this measure is to appropriate funds to satisfy claims against the State, its officers, or its employees, including claims for legislative relief, judgments against the State, settlements, and miscellaneous claims.

Your Committee on Conference has amended this measure based on the recommendation of the Attorney General to add four new claims that have been recently resolved for an additional general fund appropriation request of \$204,442.96.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2279, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2279, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Luke, Yamashita and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 67-16 on H.B. No. 1581

The purpose of this measure is to provide for the expedited judicial review of certain contested case proceedings.

Specifically, this measure:

- (1) Requires that appeals of contested case proceedings conducted by the Commission on Water Resource Management, the Land Use Commission, the Public Utilities Commission, the Hawaii Community Development Authority, and those involving conservation districts be taken directly to the Supreme Court;
- (2) Requires a court conducting judicial review to give appeals in contested cases of statewide importance priority over all other civil or administrative appeals;
- (3) Permits, rather than requires, a court conducting judicial review in contested case proceedings to hear oral arguments;
- (4) Provides that, for contested case proceedings of the Commission on Water Resource Management, Land Use Commission, and those involving conservation districts, only a person aggrieved in the contested case proceeding may appeal; and
- (5) Requires the Judiciary to submit a report to the Legislature regarding the change in judicial proceedings made by this measure.

Your Committee on Conference finds that this measure is intended to expedite the judicial review of contested case proceedings conducted by the Commission on Water Resource Management, the Land Use Commission, the Public Utilities Commission, the Hawaii Community Development Authority, and those involving conservation districts because of their importance to Hawaii's future. Your Committee on Conference believes that this measure will substantially reduce the time required to resolve disputes regarding the actions of these agencies by making these disputes subject to review only by the State's highest court.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the contested case appeals that are subject to this measure shall be taken from a final decision and order or from certain preliminary rulings;
- (2) Clarifying that, for contested case proceedings of the Public Utilities Commission and the Hawaii Community Development Authority, appeals may only be taken by a person aggrieved in the contested case proceeding;
- (3) Authorizing a court to reserve jurisdiction to appoint a master or monitor to ensure compliance with the court's orders, when remanding a matter to an agency for the purpose of conducting a contested case hearing;
- (4) Changing the effective date to August 1, 2016; and
- (5) Making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1581, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1581, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Keith-Agaran and Slom.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Yamane, Cullen and Pouha.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 68-16 on H.B. No. 254

The purpose of this measure is to ensure patient safety and access to medicines at lower prices by allowing for and regulating interchangeable biological products, or biological products that are biosimilar to and interchangeable with the biological product identified in a prescription and to which there are no clinically significant differences in terms of safety or effectiveness.

This measure also:

- (1) Requires a pharmacist or authorized agent to offer to the consumer, an equivalent generic drug product or interchangeable biological product from the Hawaii list of equivalent generic drug products and interchangeable biological products (Hawaii list), and inform the consumer of the differences between the brand name drug and equivalent generic drug product or interchangeable biological product, when the pharmacist fills a prescription for a brand name drug;
- (2) Requires a pharmacist to substitute an interchangeable biological product when consented to by the practitioner and consumer or when the substitute results in savings;
- (3) Specifies the conditions in which a pharmacist is prohibited from substituting an interchangeable biological product;
- (4) Requires that within 24 hours of dispensing a biological product, the dispensing pharmacist or designee must communicate to the provider, the specific product provided to the patient;
- (5) Authorizes the Director of Health, rather than the Drug Production Selection Board (Board), to adopt rules for drug production selection;
- (6) Specifies that the Hawaii list serves as the state list of approved therapeutically equivalent generic drug products; and
- (7) Repeals the Board and transfers the Board's duties of creating the list of substitutable generic drug products and biological products to the Department of Health.

Upon consideration, your Committee on Conference has amended this measure by:

- (1) Amending the definitions of "equivalent generic drug product", "Hawaii list of equivalent generic drug products and interchangeable biological products", and "interchangeable biological product";
- (2) Deleting the requirement that pharmacists or authorized agents inform consumers of the differences between the brand name drug and equivalent generic drug product or interchangeable biological product when filling a prescription order for a brand name drug;
- (3) Amending the conditions in which a pharmacist can substitute an equivalent generic drug product or an interchangeable biological product;
- (4) Requiring that within two business days, rather than within 24 hours, following the dispensing of a biological product, a dispensing pharmacist or designee must communicate to the practitioner, the specific product provided to the patient;
- (5) Making the adoption of rules by the Director of Health subject to the Administrative Procedure Law;
- (6) Changing the specifications and means by which pharmacies shall be notified of the Hawaii list;
- (7) Deleting the provision prohibiting the Director of Health from approving as substitutable, any biological products that the United States Food and Drug Administration has neither licensed nor determined as meeting standards for interchangeability;
- (8) Deleting requirements relating to the distribution, publishing, notice, and establishment of fees to persons who request copies of the Hawaii list by the Department of Health with respect to distribution of the Hawaii list;
- (9) Changing its effective date to July 1, 2016; and
- (10) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 254, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 254, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 69-16 on H.B. No. 2632

The purpose of this measure is to require a person who has been disqualified from legal gun ownership due to mental illness or emotional disorder, substance abuse, or involuntary or emergency psychiatric hospitalization to surrender all of the person's firearms and ammunition to the Chief of Police immediately upon notice of disqualification. This measure also authorizes seizure of firearms and ammunition by the Chief of Police if the person does not voluntarily surrender them.

Your Committee on Conference has amended this measure by:

- (1) Permitting, rather than requiring, the Chief of Police to seize firearms and ammunition if the disqualified person does not immediately surrender them; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2632, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2632, H.D. 2, S.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 70-16 on H.B. No. 2391

The purpose of this measure is to prevent overcrowding at community correctional centers by authorizing the Director of Public Safety to release detainees or inmates charged on or after July 1, 2016, with petty misdemeanor or misdemeanor offenses; provided that the detainee or inmate is not disqualified based on present charges or past arrest or conviction of certain serious or violent offenses. This measure also requires the Director of Public Safety to report to the Legislature on the effects of this measure and sunsets on July 1, 2020.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that no person who has previously been convicted of any offense that involves injury or threat of injury to the person of another, including offenses related to sexual harassment, harassment by stalking, and violation of an order of protection or temporary restraining order, shall be eligible for early release; and
- (2) Clarifying that the appropriate court and prosecuting attorney shall receive notice of a misdemeanant's release from custody not later than forty-eight hours before the actual release.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2391, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2391, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran and Espero.

Managers on the part of the Senate.

Representatives Takayama, Rhoads, San Buenaventura and Pouha.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 71-16 on S.B. No. 2217

The purpose of this measure is to appropriate funds for operation, repair, maintenance, and improvement costs for the East Kauai Irrigation System by the East Kauai Water Users' Cooperative.

Your Committee on Conference finds that reliable irrigation systems are the lifelines of the State's agricultural community and that the East Kauai Irrigation System should be repaired, properly maintained, and improved to ensure that agricultural crops receive a steady and dependable supply of water.

Your Committee on Conference has amended this measure by:

- (1) Inserting the purpose section of the S.D. 2 version;
- (2) Inserting an appropriation amount of \$75,000 for fiscal year 2016-2017 for operation, repair, maintenance, and improvement costs for the East Kauai Irrigation System by the East Kauai Water Users' Cooperative;
- (3) Changing the effective date to July 1, 2016; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2217, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2217, S.D. 2, H.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 72-16 on S.B. No. 2904

The purpose of this measure is to authorize the Department of Land and Natural Resources to establish and operate aquatic mitigation banks to restore, create, enhance, or preserve aquatic habitats or resources as compensatory mitigation, where a person is required to provide compensatory mitigation prospectively and the use of banked mitigation is approved by the agency requiring mitigation, or for past damages to aquatic habitats or resources.

Your Committee on Conference finds that aquatic mitigation banks help to restore, create, enhance, or preserve aquatic habitats or resources to recover the ecological functions, services, and value of aquatic resources lost by adverse impacts to other similar aquatic habitats. Mitigation banks serve as a mechanism to restore or replace aquatic resources and ecological functions of aquatic habitats either prospectively or after they have been damaged; therefore, your Committee on Conference finds that mitigation banks are a first step in the process of creating innovative mechanisms for aquatic resource conservation in the State.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2904, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2904, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Galuteria, Shimabukuro and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Ing, Lowen, Cullen and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 73-16 on S.B. No. 2854

The purpose of this measure is to make various amendments in the Insurance Code relating to: property insurance; market conduct; insurance premium taxes; insurance contracts; accident and health or sickness insurance; claim filing; captive insurance companies; duty to respond; mental health and alcohol and drug abuse treatment insurance benefits; the Hawaii Hurricane Relief Fund; covered services; mutual benefit societies; and health maintenance organizations.

Your Committee on Conference finds that this measure makes numerous amendments to update and improve the State's Insurance Code, including: conforming to model legislation; updating terminology; amending health care provider provisions for consistency; adding flexibility to captive insurance laws; and adding certain consumer protections. Your Committee further finds that certain language in this measure regarding monthly and annual premium tax statements and payments may have unintended consequences that could create delays or increase administrative costs. Amendments to this measure are therefore needed to address these concerns.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Insurance Commissioner has the authority to approve or disapprove written requests from insurers seeking to provide multi-peril coverage for residential property after July 1, 2016, and making associated amendments regarding multi-peril coverage available from the Hawaii Hurricane Relief Fund for consistency and to conform with current insurance industry terminology;
- (2) Requiring each authorized insurer to file their monthly and annual statement and premium tax statements and pay their premium taxes electronically, rather than limiting this electronic filing and payment requirement to insurers with a tax liability in excess of \$100,000;
- (3) Requiring payment of monthly and annual taxes via Automated Clearing House debit or credit for authorized insurers to coincide with the authorized insurers' annual and monthly tax statement filing requirements;
- (4) Clarifying that in cases of contested or denied claims, an entity is required to notify a health care provider, insurer, or member filing a claim from a non-contracted provider;
- (5) Amending the definition of "contraceptive services", as applied to mutual benefit societies, to maintain uniformity with the definition of "contraceptive services", as applied to accident and health or sickness insurers and health maintenance organizations;
- (6) Changing the effective date to July 1, 2016; provided that the provisions in this measure that require insurers to file their premium tax statements and pay their premium taxes electronically shall take effect on January 1, 2017; and

- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2854, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2854, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Conf. Com. Rep. 74-16 on S.B. No. 2853

The purpose of this measure is to:

- (1) Adopt the National Association of Insurance Commissioners' Risk Management and Own Risk and Solvency Assessment Model Act;
- (2) Apply certain requirements for risk-based capital and severability and notice provisions to risk retention captive insurance companies; and
- (3) Adopt the National Association of Insurance Commissioners' Model Risk Retention Act.

Your Committee on Conference finds that the National Association of Insurance Commissioners requires all states to adopt its Risk Management and Own Risk and Solvency Assessment Model Act by January 1, 2018, to maintain accreditation. The National Association of Insurance Commissioners also requires Hawaii to adopt the Association's Model Risk Retention Act by January 1, 2017, and amend state insurance law relating to risk retention captive insurance companies to maintain accreditation. Accordingly, this measure makes necessary amendments to the Insurance Code, which will enable the Department of Commerce and Consumer Affairs to maintain its accreditation with the National Association of Insurance Commissioners.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2853, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2853, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Cachola, Woodson and Fukumoto Chang.
Managers on the part of the House.

Conf. Com. Rep. 75-16 on S.B. No. 1311

The purpose of this measure is to:

- (1) Exempt licensed or credentialed practitioners practicing within their recognized scope of practice from behavior analyst licensure and certification requirements;
- (2) Temporarily exempt from behavior analyst licensing requirements, direct support workers who provide autism treatment services pursuant to an Individualized Education Plan; and
- (3) Require the Department of Education to report to the Legislature on implementing measures to comply with the licensure and certification requirements.

Your Committee on Conference finds that licensure of behavior analysts is necessary for client protection and access to services. While ensuring the provision of quality services by properly trained providers is of the utmost importance, your Committee on Conference finds that the State's current credentialed workforce is inadequate to meet present needs. This measure will ensure that behavioral services continue to be available for clients who depend on them while facilitating the long-term development of an adequate professional and paraprofessional workforce.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2016; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1311, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1311, S.D. 2, H.D. 1, C.D. 1.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Belatti, McKelvey, Nishimoto and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 76-16 on S.B. No. 2987

The purpose of this measure is to amend the annual allocation of transient accommodations tax revenues to the counties.

Specifically, this measure:

- (1) Changes the annual aggregate cap on the transient accommodations tax revenues allocation to the counties from \$93,000,000 after fiscal year 2015-2016 to an unspecified amount;
- (2) Amends the annual percentage of transient accommodations tax revenues allocated to each county as follows:
 - (A) From 14.5 to 20 per cent for the County of Kauai;
 - (B) From 18.6 to 25 per cent for the County of Hawaii;
 - (C) From 44.1 to 30 per cent for the City and County of Honolulu; and
 - (D) From 22.8 to 25 per cent for the County of Maui; and
- (3) Deletes language concerning the transient accommodations tax revenues allocation to the counties for fiscal years 2014-2015 and 2015-2016.

Your Committee on Conference recognizes that Act 174, Session Laws of Hawaii 2014, temporarily increased the \$93,000,000 annual aggregate cap on the transient accommodations tax revenues allocation to the counties to \$103,000,000 for fiscal years 2014-2015 and 2015-2016. Given that the several counties often request stability in funding, your Committee on Conference finds that it would be appropriate to extend the \$103,000,000 cap for one additional fiscal year while also maintaining each county's existing share of transient accommodations tax revenues.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Extending the \$103,000,000 annual aggregate cap on the transient accommodations tax revenues allocation to the counties into fiscal year 2016-2017, and restoring existing statutory language that lowers the cap to \$93,000,000 for each fiscal year thereafter;
- (2) Deleting amendments that would have changed the annual percentage of transient accommodations tax revenues allocated to each county;
- (3) Restoring existing statutory language concerning the transient accommodations tax revenues allocation to the counties for fiscal years 2014-2015 and 2015-2016; and
- (4) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2987, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2987, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Nishihara, Tokuda and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Brower, Luke, Nishimoto and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 77-16 on S.B. No. 2453

The purpose of this measure is to:

- (1) Repeal the prohibition on suspension or waiver of fines for violations of certain aquatic resource laws;
- (2) Authorize the court to require a person who violates certain laws pertaining to aquatic resources to complete an aquatic resources educational class administered by the Department of Land and Natural Resources in lieu of or in addition to paying a monetary fine; and

- (3) Authorize the court to require a person who violates certain laws pertaining to aquatic resources to perform community service administered by the Department of Land and Natural Resources in lieu of paying a monetary fine.

Your Committee on Conference finds that educational programs and community service opportunities are effective sentencing alternatives to specifically address resource offenses and violators. Educational programs and community service opportunities deter future violations, enhance public knowledge about Hawaii's resources, and ensure that punishment for resource violations is appropriate. Your Committee on Conference further finds that an educational curriculum that provides a broad overview of aquatic resource statutes, rules, and regulations, as well as information about closed seasons, restricted areas, and methods of extraction, already exists and would be easily implemented.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2453, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2453, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keith-Agaran, Riviere and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Ing, Rhoads, Lowen and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 78-16 on S.B. No. 3084

The purpose of this measure is to provide targeted incentives for the upgrade or conversion of cesspools.

Specifically, this measure:

- (1) Disallows the income tax credit for cesspool upgrade, conversion, or connection for taxpayers whose federal adjusted gross income exceeds certain amounts;
- (2) Authorizes the Department of Health to establish a cesspool upgrade, conversion, or connection tax credit or rebate program to offset qualified expenses incurred by low-income households;
- (3) Authorizes the use of the credit for large-capacity cesspools connected to residential units;
- (4) Provides that cesspools located within two hundred feet of an existing sewer system may be certified by the county; and
- (5) Requires the Department of Health to report to the Legislature prior to the Regular Session of 2017 on further recommendations to compel or incentivize cesspool conversion.

Your Committee on Conference finds that, in order to reduce the contamination of groundwater, drinking water sources, streams, and the ocean caused by cesspool pollution, Act 120, Session Laws of Hawaii 2015, established a temporary income tax credit for taxpayers who upgrade or convert a qualified cesspool into a septic system or an aerobic treatment unit system, or who connect a qualified cesspool to a sewer system. Your Committee on Conference also finds that, as currently written, the income tax credit statute is ambiguous regarding the availability of the tax credit for cesspools that are connected to multiple residential units.

Your Committee on Conference has amended this measure by:

- (1) Deleting all of its provisions, except for the provision that clarifies the availability of the income tax credit for cesspool upgrade, conversion, or connection for cesspools connected to multiple residential units; and
- (2) Clarifying that the residential large-capacity cesspools must be connected to more than one residence in order to be eligible for the tax credit.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3084, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3084, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Inouye and Riviere.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Riviere).

Representatives Lee, Belatti, Lowen, Creagan and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 79-16 on S.B. No. 2850

The purpose of this measure is to make various amendments to the mortgage loan originators law, chapter 454F, Hawaii Revised Statutes, and the mortgage servicers law, chapter 454M, Hawaii Revised Statutes, by:

- (1) Increasing the clarity and consistency of the two chapters, including adding definitions, updating references to federal regulations, and applying the same confidentiality requirements to mortgage servicers that currently apply to mortgage loan originators;
- (2) Moving mortgage servicer provisions that currently appear in chapter 454F, Hawaii Revised Statutes, to chapter 454M, Hawaii Revised Statutes; and
- (3) Deleting the mortgage loan servicer loan modification license under chapter 454F, Hawaii Revised Statutes.

Your Committee on Conference finds that there is a degree of overlap between mortgage loan origination industry regulation governed by chapter 454F, Hawaii Revised Statutes, and mortgage servicer industry regulation governed by chapter 454M, Hawaii Revised Statutes. This measure makes various amendments to these chapters for clarity and consistency and migrates mortgage servicer provisions under chapter 454F, Hawaii Revised Statutes, into the mortgage servicer law, which will help eliminate confusion for mortgage servicers. Your Committee on Conference further finds that the amendments proposed by this measure will ensure clearer requirements within the mortgage loan origination and mortgage servicer industries, which will support licensee compliance.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the information sharing provisions added by the new confidentiality section under chapter 454M, Hawaii Revised Statutes, apply to regulatory officials with mortgage servicer industry oversight, rather than mortgage industry oversight;
- (2) Removing a reference to mortgage loan originators and mortgage loan originator companies in the new confidentiality section added to chapter 454M, Hawaii Revised Statutes, as these entities are governed by a confidentiality section in a different chapter;
- (3) Clarifying that the presumption of control provision for mortgage loan originator companies applies to voting securities of licensees or applicants;
- (4) Clarifying that the exemption under the mortgage servicer law for time share plans applies to a developer of a time share plan, or an affiliated entity of a developer of a time share plan, that services a specific type of loan and adding definitions associated with this exemption;
- (5) Changing its effective date to July 1, 2016; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2850, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2850, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Riviere, Kidani, Nishihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Slom).

Representatives McKelvey, Cachola, Woodson and Fukumoto Chang.

Managers on the part of the House.

Conf. Com. Rep. 80-16 on S.B. No. 2731

The purpose of this measure is to help address the need for school infrastructure amid the construction of new housing units by:

- (1) Clarifying that if a new residential development within a designated school impact district requires a county subdivision approval, county building permit, or condominium property regime approval, then the developer must also fulfill certain impact fee requirements of the Department of Education, even if the projects are processed pursuant to section 201H-38, Hawaii Revised Statutes, or section 46-15.1, Hawaii Revised Statutes, with the involvement of the Hawaii Housing Finance and Development Corporation or a corresponding county agency respectively; and
- (2) Providing that, in urban Honolulu, fee in lieu funds may be used to purchase completed construction, construct new school facilities, improve or renovate existing structures for school use, or lease land or facilities for school use.

Your Committee on Conference finds that Act 245, Session Laws of Hawaii 2007, established the law regarding school impact fees, including new methods of financing the development of new educational facilities and the expansion of existing facilities. Since 2007, land use planning, development patterns, and preferences have changed significantly. This measure will clarify the responsibilities of developers of residential property within designated school impact districts.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2731, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2731, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Tokuda and Riviere.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Luke, Ichiyama and Matsumoto.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 81-16 on S.B. No. 2670

The purpose of this measure is to:

- (1) Reduce the surcharge on the license fee and renewal fee for behavior analysts from \$100 to \$50; and
- (2) Temporarily exempt from the licensing requirements for the practice of behavior analysis direct support workers who provide Medicaid home and community-based services pursuant to the Social Security Act through January 1, 2019.

Your Committee on Conference finds that the initial costs for behavior analyst licensure and the annual fees to maintain this license can total over \$1,000, which can be significant to behavior analysts, many of whom are paid hourly with minimal benefits. This measure reduces the surcharge on the license and renewal fee for behavior analysts, which will ease the financial burden of behavior analyst licensing, encourage the licensure of behavior analysts, and increase the number of licensed behavior analysts available to the public.

Your Committee on Conference further finds that this measure temporarily exempts direct support workers who provide necessary behavioral interventions for individuals in the Medicaid Home and Community Based Services waiver program. This exemption prevents a disruption in services for individuals currently receiving behavioral services while also facilitating efforts to build an adequate workforce of credentialed paraprofessionals and licensed professionals in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Amending its effective date to upon approval, with the exemption for direct support workers applicable from January 1, 2016; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2670, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2670, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, McKelvey, Tokioka, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 82-16 on S.B. No. 2542

The purpose of this measure is to:

- (1) Require each state executive agency that manages a state-owned building, facility, or other improvement to submit to the Legislature an annual report on the funds and positions deemed necessary by the agency to perform routine repair and maintenance on the state-owned building, facility, or other improvement during the fiscal year covered by the report;
- (2) Require Judiciary to submit a similar report for Judiciary-owned buildings, facilities, and other improvements; and
- (3) Require every capital improvement project for the construction of a new state-owned building, facility, or other improvement to include a recommended plan for the routine repair and maintenance of the building, facility, or other improvement.

Your Committee on Conference finds that the deferred maintenance of state-owned buildings, facilities, and other improvements leads to more expensive capital replacement or renewal costs in the future. Implementation of this measure will promote transparency and preserve the condition of state-owned buildings, facilities, and other improvements for public use or benefit in a cost efficient manner, now and into the future.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that every capital improvement project for the construction of a new state-owned building, facility, or other improvement include a recommended plan for the routine repair and maintenance of the building, facility, or other improvement;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2542, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2542, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran, Tokuda, Ihara and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

Representatives Luke, Nishimoto, Yamashita and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 83-16 on S.B. No. 3077

The purpose of this measure is to:

- (1) Establish the Hawaii Interagency Council for Transit-Oriented Development within the Department of Business, Economic Development, and Tourism (DBEDT) to coordinate effective and efficient transit-oriented development planning on a statewide level;
- (2) Designate the Office of Planning as the lead state agency for transit-oriented development coordination;
- (3) Allow the Department of Education to use school impact fees for schools statewide; and
- (4) Appropriate funds to DBEDT for coordinating transit-oriented development planning on a statewide level.

Your Committee on Conference finds that state participation is essential to developing mixed-use, mixed-income projects on state lands in close proximity to rail transit stations. The State is able to provide land and funding to develop more affordable housing and workforce housing, provide required infrastructure to support development of state-owned parcels, and contribute to increasing the regional capacity of major infrastructure systems to accelerate development. Therefore, it is critical to establish the Hawaii Interagency Council for Transit-Oriented Development to promote effective and efficient transit-oriented development planning and coordination in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting references to mixed use and affordable and rental housing projects for consideration by the Hawaii Interagency Council for Transit-Oriented Development when performing its duties related to transit-oriented development projects, programs, or plans;
- (2) Changing the composition of the Hawaii Interagency Council for Transit-Oriented Development to add the Chief of Staff of the Office of the Governor, replace the Chairperson of the Board of Trustees of the Office of Hawaiian Affairs with the Chairperson of the Stadium Authority, add a representative of the community with experience in housing and real estate development, and redesignate the representative of the Honolulu Field Office of the United States Department of Housing and Urban Development to serve on a non-voting ex-officio basis;
- (3) Inserting a definition for "development plans" into section 225M-2(b), Hawaii Revised Statutes;
- (4) Specifying that school impact fees from projects within a county-designated transit-oriented development zone may be used for various purposes, including construction of new school facilities in new or existing school sites or leasing land or facilities for school use within a county-designated transit oriented development zone;
- (5) Inserting an appropriation amount of \$50,000 for DBEDT for the purposes of this measure;
- (6) Changing the effective date to July 1, 2016; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3077, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3077, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Harimoto, Wakai, Inouye, Tokuda and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Galuteria).

Representatives Aquino, Yamane, Cullen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 84-16 on S.B. No. 2981

The purpose of this measure is to:

- (1) Recognize American Sign Language as a world language; and
- (2) Allow students who pass courses in American Sign Language to receive credit for those courses toward satisfaction of graduation requirements for world language.

Your Committee on Conference finds that American Sign Language is a vital part of the linguistic heritage of the State. Familiarity and proficiency in American Sign Language benefits hearing impaired and non-impaired individuals by allowing easier, more efficient communication and exchange of ideas. Additionally, research indicates that individuals with disabilities other than hearing impairment learn and gain proficiency in American Sign Language more quickly than in other languages such as Chinese or Spanish.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2981, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2981, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Riviere and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Yamashita, Tokioka and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 85-16 on S.B. No. 2557

The purpose of this measure is to:

- (1) Expand the scope of the concussion educational program under Act 197, Session Laws of Hawaii 2012, to include youth athletics;
- (2) Incorporate additional requirements into the concussion educational program; and
- (3) Appropriate monies to the Department of Kinesiology and Rehabilitation Science of the University of Hawaii and Department of Education for the purpose of funding the program.

Your Committee on Conference finds that the intent of Act 197, Session Laws of Hawaii 2012, was to provide a statewide concussion educational program to ensure that public and private high school students, school personnel, and parents are provided with consistent and up-to-date information on the management of symptoms and injuries related to a concussion. This measure will expand Act 197 to include youth athletics and refine the requirements of the concussion educational program.

Your Committee on Conference has amended this measure by:

- (1) Changing the definition of “school athletics” to apply to grades nine to twelve;
- (2) Specifying the types of health care providers who can provide clearance to a concussed student prior to the student’s return to academics and athletics;
- (3) Requiring that returning students be monitored by a State of Hawaii registered athletic trainer;
- (4) Clarifying the cognitive testing and neuropsychological test requirements of the concussion management educational program;
- (5) Removing the exemption for out of state athletics trainers who have served their respective teams for less than one month from the concussion management educational program;
- (6) Inserting an appropriation amount of \$450,000 for the concussion educational program;
- (7) Removing the appropriation to the Department of Education and placing the concussion and awareness program for youth athletics under the Department of Kinesiology and Rehabilitation Science of the University of Hawaii;
- (8) Changing the effective date to July 1, 2016; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2557, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2557, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Baker and Tokuda.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Takumi, Nishimoto, Johanson and Fukumoto Chang.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 86-16 on S.B. No. 2645

The purpose of this measure is to require the Commission on Water Resource Management to establish and implement a program to conduct standardized water audits of public water systems in accordance with the method adopted by the American Water Works Association’s Water Audits and Loss Control Programs, Manual of Water Supply Practices - M36, as amended, and to appropriate funds for this purpose.

Your Committee on Conference finds that the efficient use of the State's limited water resources is of paramount importance to the continued growth and security of the State. Audits can provide valuable information to help utilities manage their operational and financial resources in a more effective manner.

Your Committee on Conference has amended this measure by:

- (1) Inserting the purpose section of the S.D. 2 version;
- (2) Deleting the appropriation of general funds;
- (3) Authorizing \$600,000 of other federal funds for fiscal year 2016-2017 to conduct standardized water audits of public water systems if private matching funds of \$100,000 are provided;
- (4) Appropriating \$700,000 of the authorized revenues for fiscal year 2016-2017 to establish and implement the program to conduct standardized water audits of public water systems;
- (5) Changing the effective date to July 1, 2016; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2645, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2645, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 87-16 on S.B. No. 2561

The purpose of this measure is to establish a rental housing strategy for the State by:

- (1) Establishing a goal of developing or committing to the development of at least 22,500 affordable rental housing units for occupancy by the end of 2026;
- (2) Establishing a temporary special action team on affordable rental housing, within the Office of Planning for administrative purposes, to make recommendations to achieve the affordable rental housing goal, including by proposing an update to the State Planning Act to include the state housing plan;
- (3) Requiring the special action team on affordable rental housing to develop a ten-year plan, to be incorporated into the state housing plan, that identifies state, county, and private parcels of land suitable for affordable housing units; and
- (4) Appropriating funds for the special action team on affordable rental housing.

Your Committee on Conference finds that for the period from 2015 to 2025, Hawaii will require an additional 64,700 housing units to meet projected long-term housing demands. Of this amount, 22,247 households of all income levels will require rental units. The lack of supply leads to higher rents for households of all income levels, leaving all tenants with less disposable income, increasing the personal stress of tenants, reducing tenant quality of life, and exacerbating overcrowding and homelessness. Given these consequences, the lack of affordable rental housing requires the concentrated attention of state government at the highest level and the establishment of specific goals related to affordable rental housing. Therefore, it is necessary to establish a special action team that consists of those who are knowledgeable about affordable housing and prepared not only to identify benchmarks for progress, but also the barriers to progress and the possible solutions to overcome them, to ensure that the State achieves its housing goal.

Your Committee on Conference has amended this measure by:

- (1) Changing the composition of the special action team on affordable rental housing to specify that the public member will represent affordable housing advocacy groups, add a member of the public to represent non-profit developers with expertise in housing development, and add a member of the public to represent for-profit developers with expertise in housing development;
- (2) Clarifying that members who represent affordable housing advocacy groups, non-profit developers, or for-profit developers also may designate an officer or employee of the respective group to attend meetings;
- (3) Inserting an appropriation amount of \$100,000 for the administration and operation of the special action team on rental housing, including staff, and to propose an update to the State Planning Act to include the state housing plan;
- (4) Changing the effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2561, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2561, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Harimoto, Tokuda and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Luke, Jordan and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 88-16 on S.B. No. 2659

The purpose of this measure is to establish an industrial hemp pilot program within the Department of Agriculture to allow the cultivation of industrial hemp and distribution of its seed in the State through limited agricultural or academic research activities, and appropriate funds for one full-time equivalent position to effectuate the pilot program.

Your Committee on Conference finds that industrial hemp is well suited to Hawaii's climate and soil and can grow to over ten feet in a short period of time with little water and no pesticides. According to estimates by the Hemp Industries Association, retail sales of industrial hemp products grew to over \$620,000,000 annually in 2014. Industrial hemp has over 25,000 uses, including food, fiber, and fuel products, and has high potential to contribute to the future viability of the State's agricultural industry.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$425,000 for the Department of Agriculture to effectuate the industrial hemp pilot program, to be allocated as follows:
 - (A) \$100,000 for a Program Coordinator position;
 - (B) \$75,000 for an Inspector position; and
 - (C) \$250,000 for the administrative costs of the program;
- (2) Changing the effective date to July 1, 2016, and the sunset date to June 30, 2021; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2659, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2659, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keith-Agaran, English and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Rhoads, Onishi, Belatti and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Rhoads, Belatti).

Conf. Com. Rep. 89-16 on S.B. No. 2849

The purpose of this measure is to clarify the State's escrow depositories law by: adding definitions; authorizing the Commissioner of Financial Institutions to use NMLS for its escrow depositories program; adding criminal history record check and disclosure requirements to licensure and change in control applications; updating the escrow depository license renewal date for consistency with NMLS; clarifying sale or transfer of license or change in control requirements; and updating certain fees.

Your Committee on Conference finds that this measure streamlines the escrow depository licensing process by authorizing the Commissioner of Financial Institutions to use NMLS, a nationwide online licensing and registration system for state-licensed providers of financial services. This measure also requires litigation disclosure and criminal history record checks for initial escrow depository license applicants, which will enhance protection of consumer funds and transactions involving escrow depositories, and makes other amendments to the escrow depositories law for clarity and to support licensee compliance.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2849, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2849, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Riviere, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Riviere, Slom).

Representatives McKelvey, Rhoads, Nishimoto and Pouha.

Managers on the part of the House.

Conf. Com. Rep. 90-16 on H.B. No. 1878

The purpose of this measure is to:

- (1) Appropriate funds for the Kupuna Care Program, aging and disability resource centers (ADRCs), fall prevention and early detection services for the elderly, the Healthy Aging Partnership Program, an Alzheimer's disease and related dementia services coordinator position, and an Alzheimer's disease and related dementia public awareness campaign; and
- (2) Require the Executive Office on Aging to develop a system of evaluation to determine the effectiveness of ADRCs in each county and to submit its evaluation findings to the Legislature no later than 60 days prior to the 2017 Regular Session (evaluation findings).

Your Committee on Conference has amended this measure by:

- (1) Deleting appropriations for the Kupuna Care Program, the Healthy Aging Partnership Program, an Alzheimer's disease and related dementia services coordinator position, and an Alzheimer's disease and related dementia public awareness campaign;
- (2) Appropriating \$1,700,000 for fiscal year 2016-2017 for ADRCs and \$32,000 for fiscal year 2016-2017 for fall prevention and early detection services for the elderly;
- (3) Requiring the Executive Office on Aging to submit the evaluation findings to the Legislature no later than 60 days prior to the 2018 Regular Session, in addition to the report to be submitted before the 2017 Regular Session;
- (4) Requiring the Executive Office on Aging to submit a report to the Legislature no later than 60 days prior to the 2017 and 2018 Regular Sessions on its implementation of the federal No Wrong Door/Aging and Disability Resource Center network implementation grant it received in 2015;
- (5) Changing its effective date to July 1, 2016; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1878, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1878, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 91-16 on H.B. No. 1897

The purpose of this measure is to ensure that annual screenings for sexually transmitted diseases, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome, are covered by health benefit plans in the State.

Your Committee on Conference has amended this measure to take effect on July 1, 2016, and to clarify that it apply to policies, contracts, and plans of health insurance issued or renewed after January 1, 2018. Your Committee on Conference has also amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1897, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1897, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 92-16 on H.B. No. 2252

The purpose of this measure is to require hospitals to adopt and maintain written discharge policies consistent with recent updates to federal regulations by which:

- (1) Each patient can designate a caregiver;
- (2) Each patient and the patient's designated caregiver can participate in the discharge planning and can receive instruction, prior to discharge, related to the patient's after-care needs; and

- (3) Each patient's caregiver is notified of the patient's discharge or transfer.

Your Committee on Conference recognizes that Hawaii's population of older adults continues to increase. In 2012, Hawaii had the highest percentage of residents over the age of 85 in the United States. This population is projected to grow to 65 percent over the next 20 years. These individuals are the most likely to need long-term supports and services and will likely rely on family and friends as their caregivers due to financial and resource constraints.

While strong home- and community-based resources, such as respite, non-medical transportation services, and home-delivered meals, are important to help caregivers and their loved ones, medical supports are also important. Coordination among primary care providers, along with preventive care, will enable many seniors and other individuals with chronic or debilitating conditions to stay in their homes longer. However, in the event of an acute episode, hospitals must provide assistance to patients and their caregivers to prepare them for discharge and help them transition back to home.

All hospitals must comply with comprehensive guidelines mandated by the federal government related to discharge planning and transitions of care. Among other things, hospitals must assess and consider the unique preferences and needs of patients and their caregivers when developing a discharge plan. For a successful transition from hospital to home setting, the patient requires collaboration on the part of inpatient health care professionals and at-home caregivers.

This measure supports families by ensuring that all patients in inpatient hospitals have an opportunity to designate a caregiver who must be notified prior to the discharge or transfer of the patient to ensure that the patient and the designated caregiver are involved in the discharge planning process, and that the patient and caregiver are provided a consistent level of instructional support, both written and oral, prior to discharge to facilitate the patient's transition to the home setting regardless of which facility the patient is in.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2252, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2252, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 93-16 on H.B. No. 2559

The purpose of this measure is to promote assisted community treatment as an alternative to involuntary hospitalization. Specifically, this measure:

- (1) Defines "imminently dangerous to self or others";
- (2) Repeals the authority of law enforcement officers to take a person subject to an assisted community treatment order into custody and transport them to a designated mental health program without a court order to do so;
- (3) Changes the maximum period of court-ordered assisted community treatment from one hundred eighty days to one year;
- (4) Amends the circumstances under which a person subject to an assisted community treatment order may be physically forced to take medication or otherwise compelled to comply with prescribed treatment; and
- (5) Repeals the sunset date of statutory language authorizing and setting requirements for assisted community treatment.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the definition of "imminently dangerous to self or others" to mean "that, without intervention, the person will likely become dangerous to self or dangerous to others within the next forty-five days"; and
- (2) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2559, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2559, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English, Keith-Agaran, Kidani and Nishihara.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Representatives Belatti, Rhoads, Cachola and Fukumoto Chang.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 94-16 on H.B. No. 1997

The purpose of this measure is to promote the expansion and development of the State's agricultural industry by:

- (1) Establishing the K-12 Agriculture Workforce Development Pipeline Initiative Program (Program) in the Department of Labor and Industrial Relations to conduct training sessions in agricultural self-sufficiency for teachers and school administrators on the islands of Oahu, Hawaii, Maui, Molokai, Lanai, and Kauai; and
- (2) Appropriating funds to develop, operate, and implement the Program, including hiring a full-time coordinator and a workforce development specialist.

Your Committee on Conference has amended this measure by

- (1) Specifying the appropriation amount of \$200,000 to be used to hire only one full-time equivalent coordinator for the Program; and
- (2) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1997, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1997, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kidani, Keith-Agaran, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Kidani, Slom).

Representatives Tsuji, Nakashima, Onishi and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 95-16 on H.B. No. 1999

The purpose of this measure is to address the high cost of feed and the lack of local feed mills in Hawaii by:

- (1) Establishing and funding a grant program within the existing Livestock Revitalization Program for Qualified Feed Developers to cover a percentage of the development cost of feed sold to Qualified Producers;
- (2) Appropriating funds to reimburse Qualified Producers of specified livestock, fish, and crustaceans to offset feed costs; and
- (3) Requiring and appropriating funds for the Department of Agriculture to conduct a survey to identify, assess, and validate locally sourced feed ingredients that are available to Qualified Feed Developers.

Your Committee on Conference has amended this measure by:

- (1) Specifying the appropriation amount of:
 - (A) \$1,000,000 to reimburse Qualified Producers; and
 - (B) \$1,000,000 to reimburse Qualified Feed Developers;
- (2) Deleting the requirement and funding for the Department of Agriculture to conduct a survey of locally sourced feed ingredients;
- (3) Changing its effective date to July 1, 2016; and
- (4) Making technical, nonsubstantive amendments for consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1999, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1999, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Onishi and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 96-16 on H.B. No. 2657

The purpose of this measure is to financially assist Molokai farmers and ranchers in complying with federal and state food safety laws by:

- (1) Converting the Molokai Diversified Agricultural Revolving Loan Program, established by Act 387, Session Laws of Hawaii 1988, to a cost reimbursement program that provides reimbursements to Molokai farmers and ranchers for mandated food safety compliance audits and other related costs; and

- (2) Appropriating funds to the Maui Office of Economic Development to review and approve cost reimbursement applications.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation for the Maui Office of Economic Development to review and approve cost reimbursement applications;
- (2) Changing its effective date to July 1, 2016; and
- (3) Making technical, nonsubstantive amendments for consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2657, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2657, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, Kawakami, Onishi, DeCoite and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 97-16 on H.B. No. 2317

The purpose of this measure is to appropriate funds for fiscal year 2016-2017 to be deposited into the Emergency and Budget Reserve Fund.

Your Committee on Conference amended this measure by:

- (1) Inserting an appropriation amount of \$150,000,000 to be deposited into the Emergency and Budget Reserve Fund; and
- (2) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2317, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2317, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto and Pouha.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 98-16 on H.B. No. 1907

The purpose of this measure is to:

- (1) Require all law enforcement agencies and departments charged with maintenance, storage, and preservation of sexual assault evidence collection kits to conduct an inventory of all kits they store and transmit a report of the number of untested sexual assault evidence collection kits they possess to the Department of the Attorney General by September 30, 2016;
- (2) Require the Department of the Attorney General to report the number of untested sexual assault evidence collection kits being stored and various information related to those kits by December 1, 2016; and
- (3) Appropriate an unspecified amount of funds to the Department of the Attorney General to initiate the testing of at least five hundred untested sexual assault evidence collection kits by December 31, 2016, and require the Department to distribute the funds among the Counties of Hawaii and Maui, and the City and County of Honolulu based on each county's pro rata share of untested kits as of July 1, 2016.

Your Committee on Conference appreciates the work of national organizations, like the Joyful Heart Foundation, to reduce the number of untested sexual assault evidence collection kits across the country. They have many helpful resources on how other communities are addressing this issue, including expertise on best practices for victim notification. Your Committee on Conference intends that the Department of the Attorney General will work with community stakeholders such as the Joyful Heart Foundation, Commission on the Status of Women, and others, to prepare the report to the Legislature.

Your Committee on Conference strongly supports a victim centered approach to addressing sexual assault crimes in the community and has revised the appropriation in this measure to include victim support services. The Department of the Attorney General should work with community organizations and non-profits to assist victims who may need counseling and other services after learning about the results of their sexual assault evidence collection kits.

Your Committee on Conference has amended this measure by:

- (1) Changing from September 30, 2016, to September 1, 2016, the due date for law enforcement agencies and departments responsible for sexual assault evidence collection kits to conduct an inventory of all kits and submit a report to the Department of the Attorney General;
- (2) Requiring all law enforcement agencies and departments to submit new sexual assault evidence collection kits for testing in accordance with the criteria and policies established by the Department of the Attorney General pursuant to this measure beginning July 1, 2017, and to complete testing of all untested kits by July 1, 2018;
- (3) Clarifying that the Department of the Attorney General shall involve community stakeholders, including representatives from each county, in drafting its report and shall include the criteria and processes for testing untested and new kits in its report;
- (4) Inserting an appropriation amount of \$500,000 to the Department of the Attorney General to initiate the testing of at least 500 untested kits in accordance with specified criteria, report results to the FBI Combined DNA Index System, and provide associated support services to victims affected by the testing; and
- (5) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1907, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1907, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran, Tokuda, Baker and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Morikawa, Rhoads, Ichiyama, Yamashita, Belatti, San Buenaventura and Ward.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 99-16 on H.B. No. 2121

The purpose of this measure is to appropriate funds to the Judiciary to purchase civil legal services for low- and moderate-income persons.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$750,000 for the Judiciary to purchase civil legal services for low- and moderate-income persons;
- (2) Requiring the appropriation to be used pursuant to section 7 of Act 138, Session Laws of Hawaii 2015; and
- (3) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2121, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2121, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Gabbard.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Morikawa, Rhoads, Kobayashi, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 100-16 on H.B. No. 2205

The purpose and intent of this measure is to refine the governance of charter schools.

Specifically, this measure:

- (1) Prohibits charter school authorizers from providing technical support to prospective charter school applicants or their governing boards when that technical support will impact a decision to approve or deny a charter application;
- (2) Establishes meeting minutes requirements for charter schools and their governing boards;
- (3) Provides nonprofit organizations acting in the role of a conversion charter school governing board with the same protections afforded to all other governing boards;
- (4) Authorizes charter schools to assess and collect special fees and charges from students for co-curricular activities; and
- (5) Allows a conversion charter school to establish its own enrollment procedures and apply certain enrollment preferences.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments.

Your Committee on Conference finds that the Legislature did not intend the charter school law to include provisions for a contested case hearing between a charter school and its authorizer when Act 130 was enacted in 2012. The State Public Charter School

Commission, as an authorizer of charter schools, is expected to oversee and regulate charter schools to ensure that they are providing a high-quality education and that they are being responsibly managed. For that reason, the Commission should have the authority to revoke or choose not to renew contracts with charter schools that fail to meet the State's expectations on how public funds are spent.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2205, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2205, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Dela Cruz and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Rhoads, Johanson and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Conf. Com. Rep. 101-16 on H.B. No. 801

The purpose of this measure is to support the growth of renewable energy and the reduction of fossil fuel use in Hawaii by authorizing the issuance of not more than \$50,000,000 in special purpose revenue bonds to assist SunStrong LLC in providing renewable energy projects in the state.

After careful consideration, your Committee on Conference has amended this measure by clarifying that SunStrong LLC is an industrial enterprise, rather than a utility serving the general public in providing electric energy, gas, or telecommunications.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 801, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 801, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Riviere and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, Lowen and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 102-16 on H.B. No. 1689

The purpose of this measure is to foster greater energy security for Hawaii.

Specifically, this measure:

- (1) Amends the existing ethanol facility income tax credit to include facilities that produce other renewable fuels;
- (2) Clarifies that one gallon of renewable fuels shall be equal to 76,330 British thermal units; and
- (3) Provides that a renewable fuels production facility must be in production on or before January 1, 2020, to qualify for the tax credit.

Your Committee on Conference finds that providing additional support to Hawaii's agriculture industry could help to reduce reliance on agricultural imports and to foster job growth in the State. Your Committee on Conference believes that reducing the burden on the emerging number of small farmers seeking costly, but necessary, certifications and inspections will help to promote the production of locally-grown food.

Your Committee on Conference has amended this measure by deleting its contents and inserting provisions to establish a temporary, nonrefundable organic foods production income tax credit to offset the costs incurred by qualified taxpayers in obtaining organic certification and producing organically produced agricultural products.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1689, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1689, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Tokuda and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Lee, Luke, Cullen and Pouha.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 103-16 on H.B. No. 1608

The purpose of this measure is to appropriate funds to the University of Hawaii for the Graduation Pathway System for fiscal year 2016-2017.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$750,000; and
- (2) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1608, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1608, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Dela Cruz, Gabbard and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Choy, Nishimoto, Ichiyama and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 104-16 on H.B. No. 2582

The purpose of this measure is to assist farmers and ranchers in complying with state and federal food safety requirements by:

- (1) Establishing within the Department of Agriculture (DOA) an Agricultural Food Safety Certification Program (Program) that:
 - (A) Has a certification system which at a minimum complies with the requirements of the FDA Food Safety Modernization Act and concurrently satisfies the requirements of the FDA Food Safety Modernization Act and DOA;
 - (B) Researches less burdensome alternatives to satisfying the requirements of the FDA Food Safety Modernization Act;
 - (C) Establishes food safety compliance education programs; and
 - (D) Acts as an information clearinghouse for food safety laws; and
- (2) Appropriating funds for the development and implementation of the Program and staff positions within the Program.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation for the development and implementation of the Program;
- (2) Specifying an appropriation amount of \$200,000 for a full-time equivalent program manager, one full-time equivalent clerical staff, and one full-time equivalent specialist; and
- (3) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2582, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2582, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, McKelvey, Onishi, DeCoite and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 105-16 on H.B. No. 1814

The purpose of this measure is to provide a safe learning environment for students by:

- (1) Requiring the Department of Education to report to the Legislature no later than 20 days prior to the convening of the Regular Session of 2018 regarding:
 - (A) The Department's progress toward implementing sections 302A-1141 (limited punishment of pupils), 302A-1141.3 (prohibition on the use of seclusion, chemical restraint, or mechanical restraint), and 302A-1141.4 (limited use of physical restraint), Hawaii Revised Statutes; and
 - (B) The expenditure of appropriated funds, including details of the training provided and the data accountability to assist with the implementation of sections 302A-1141, 302A-1141.3, and 302A-1141.4, Hawaii Revised Statutes; and
- (2) Appropriating \$460,000 for fiscal year 2016-2017 to fund a full-time equivalent position (1.0 FTE) to provide training and data accountability to assist with the effective implementation of sections 302A-1141, 302A-1141.3, and 302A-1141.4, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1814, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1814, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Galuteria and Kahele.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Ohno, Johanson, Ichiyama and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 106-16 on H.B. No. 2267

The purpose of this measure is to support digital learning and the use of technology in public schools by:

- (1) Authorizing the expenditure of moneys allocated for printed curricular materials for the purchase of digital formats of the curricular materials;
- (2) Defining “curricular materials” to include instructional material in both printed and digital formats and replacing references to “school textbooks, instructional materials, library books, equipment, or supplies” with references to “curricular materials”;
- (3) Appropriating funds for digital devices for use in Department of Education school classrooms; and
- (4) Appropriating funds for the professional development of educators.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriations for:
 - (A) Digital devices for use in Department of Education school classrooms; and
 - (B) The professional development of educators;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2267, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2267, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Wakai and Kahele.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Johanson, Ito and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 107-16 on H.B. No. 1050

The purpose of this measure is to address the spread of invasive species throughout the State that harms agriculture, native biota, public health, and the economic well-being of the State. More specifically, this measure:

- (1) Requires the Department of Agriculture (DOA) through existing contracts and appropriated funds for invasive species activities to undertake invasive species management related to agricultural lands and agricultural and non-agricultural commodities, including:
 - (A) Developing an interisland and export tracking database;
 - (B) Providing pest-specific risk level assessments for the interisland transport of non-agricultural commodities;
 - (C) Increasing the priority of inspecting the interisland transport of agricultural commodities;
 - (D) Developing quarantine treatments for high-risk commodities moving between islands;
 - (E) Coordinating with the Department of Transportation the planning of interisland quarantine activities at ports of entry;
 - (F) Implementing statewide pest management programs for potted plant, cut-flower, and cut-foliage production; and
 - (G) Providing chemicals and equipment to assist growers in reducing infestation in agricultural areas, statewide, as a result of interisland movement of invasive species; and
- (2) Requires the DOA to submit annual reports to the Legislature relating to the status of its mandated activities including projections of future expenditures and future acreage to be under pest management by crop; and

- (3) Appropriates funds from the Pest Inspection, Quarantine, and Eradication Fund for tasks described in paragraphs (1)(A) to (E) above (Tracking Database and other tasks);
- (4) Appropriates funds from the Agricultural Development and Food Security Special Fund for tasks described in paragraphs (1)(F) and (G) above (Plants and Chemicals and Equipment); and
- (5) Appropriates general funds for the purposes of this measure.

Your Committee on Conference has amended this measure by:

- (1) Specifying in its findings and purpose section that:
 - (A) DOA's Plant Quarantine Branch is a critical component in meeting the threat of invasive species entering and spreading throughout the State; and
 - (B) DOA should focus on preventing the introduction of invasive species into the State, in addition to reducing its presence in agricultural production areas and performing other specified tasks;
- (2) With respect to the interisland and export tracking database, providing that all proprietary information be kept confidential by DOA;
- (3) Deleting the requirement that DOA undertake pest-specific risk level assessment of non-agricultural commodities being transported interisland;
- (4) Requiring DOA to increase detection, response, and control programs to address agricultural pests statewide and deleting the requirements that DOA implement pest management programs for potted plants and other specified plants and provide chemicals and equipment to assist growers;
- (5) With respect to DOA's annual reports required by this measure, deleting the required inclusion of information relating to the number of acres in pest management in total and by crop and further requiring that the report be made part of the annual report that DOA is currently required to submit to the Legislature;
- (7) Changing all references to funding sources to general funds of the State and specifying the general fund appropriation amount of:
 - (A) \$100,000 for Tracking Database and other tasks;
 - (B) \$800,000 to increase detection, response, and control programs to address agricultural pests statewide, rather than for Plants and Chemicals and Equipment; and
 - (C) \$1,000,000 for planning, site selection, environmental documentation, and preliminary design for a facility for edible agricultural crops and another facility for non-edible crops for marshalling and treating exports from Hawaii Island, rather than for the purposes of this measure;
- (8) Adding a general fund appropriation of \$100,000 for the Auditor to conduct a financial and performance audit of DOA's Plant Quarantine Branch;
- (9) Changing its effective date to July 1, 2016; and
- (10) Making technical, nonsubstantive amendments for consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1050, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1050, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Gabbard, Riviere, Thielen and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

Representatives Tsuji, Onishi and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 108-16 on H.B. No. 2489

The purpose of this measure is to acknowledge the service and sacrifice of members and veterans of the United States Armed Forces by:

- (1) Addressing the various problems and needs of all veterans, with a primary focus on female veterans who served on active duty for the full period they were activated, by appropriating funds to establish one full-time equivalent permanent Veterans Services Counselor IV position in the Office of Veterans' Services; and
- (2) Appropriating funds for military and veterans commemoration events.

Your Committee on Conference has amended this measure by:

- (1) Appropriating the amount of \$50,772 to establish one full-time equivalent permanent Veterans Services Counselor IV position in the Office of Veterans' Services;

- (2) Appropriating the amount of \$200,000 for the Vietnam veterans fiftieth anniversary commemoration;
- (3) Changing its effective date to July 1, 2016; and
- (4) Making technical, nonsubstantive amendments for consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2489, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2489, S.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Nishihara, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Ito, Nakashima, Tokioka and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 109-16 on S.B. No. 2289

The purpose of this measure is to require employers, including those using professional employer organizations or third-party administrators, to keep a record of the former physical addresses and current physical address of the employer and the North American Industry Classification System code applicable to the employer.

Your Committee on Conference finds federal funding levels for the Department of Labor and Industrial Relations are in jeopardy because the federal Bureau of Labor Statistics ties funding to the number of employing units reported and an increasing number of employers are not responding to surveys unless required to do so. Implementation of this measure will allow the Department of Labor and Industrial Relations to gather accurate data regarding employers and protect federal funding levels.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2289, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2289, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kaele and Shimabukuro.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Nakashima, Keohokalole, Ichiyama and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 110-16 on S.B. No. 2076

The purpose of this measure is to:

- (1) Establish a durable medical equipment supplier license program for suppliers of durable medical equipment, prosthetics, orthotics, and related supplies through the Office of Health Care Assurance;
- (2) Allow license fees to be deposited into the office of health care assurance special fund;
- (3) Amend the cap on amounts of the office of health care assurance special fund that may be used per fiscal year; and
- (4) Amend the balance of the office of health care assurance special fund above which monies shall be deposited into the general fund.

Your Committee on Conference finds that in 2013, the federal government established the durable medical equipment competitive bidding program in one hundred metropolitan areas across the nation. The City and County of Honolulu was included as one of those areas and is the only Hawaii locality that was required to participate. In the years since the competitive bidding program was established, the program has reduced reimbursements drastically for local providers, compromised the quality of care for residents, disrupted health status, and increased costs for seniors and their families.

Your Committee on Conference further finds that the federal government plans to roll out a form of the competitive bidding program into the neighbor islands in 2016, which will create greater challenges for rural beneficiaries when trying to access needed services, resulting in reductions in their health and quality of life. Establishing a licensing program will help to ensure that patients receive a minimum level of access to durable medical devices without increasing the costs or reducing availability of durable medical devices.

Your Committee on Conference has amended this measure by:

- (1) Inserting \$327,000 as the cap on the amount of the office of health care assurance special fund that may be used per fiscal year;
- (2) Inserting \$387,500 as the balance of the office of health care assurance special above which monies shall be deposited into the general fund; and

- (3) Changing the effective date to January 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2076, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2076, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Belatti, McKelvey, Nishimoto, Creagan and Fukumoto Chang.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Creagan).

Conf. Com. Rep. 111-16 on S.B. No. 2680

The purpose of this measure is to make certain housekeeping amendments within chapter 412, Hawaii Revised Statutes, including:

- (1) Clarifying and addressing inconsistencies within the fee schedule for financial institutions; and
- (2) Repealing the Credit Union Advisory Board.

Your Committee on Conference finds that this measure adds consistency within the fee schedule for financial institutions under chapter 412, Hawaii Revised Statutes. Your Committee on Conference notes that this measure does not add any new fees, but rather corrects and clarifies references to existing fees. This measure also repeals the Credit Union Advisory Board, as this board has been inactive since 2010 and there are currently no state-chartered credit unions in the State. Your Committee on Conference further finds that this measure makes chapter 412, Hawaii Revised Statutes, easier to understand, reduces questions about fees, and enhances the Division of Financial Institutions' ability to collect fees consistent with the fee schedule.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2680, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2680, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Riviere and Kidani.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives McKelvey, Nishimoto, Woodson and Fukumoto Chang.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Woodson).

Conf. Com. Rep. 112-16 on S.B. No. 2863

The purpose of this measure is to:

- (1) Authorize the issuance of a citation for certain technical violations of massage therapy laws by licensees;
- (2) Establish a process for licensees to contest a citation; and
- (3) Authorize an order of abatement and assessment of fines for each violation.

Your Committee on Conference finds that this measure expedites the Regulated Industries Complaints Office's enforcement of certain technical violations of the massage therapy laws and promotes swift compliance by licensees. Your Committee on Conference further finds that the citation process established by this measure also enables the Regulated Industries Complaints Office's staff to concentrate their efforts and resources on more serious violations.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2016; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2863, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2863, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Galuteria and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, San Buenaventura, Nishimoto, Oshiro and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Oshiro, Tupola).

Conf. Com. Rep. 113-16 on S.B. No. 2812

The purpose of this measure is to amend Hawaii's charitable registration and solicitation law, including:

- (1) Requiring affirmative disclosures to donors by professional solicitors;
- (2) Clarifying registration requirements and exemptions from registration;
- (3) Providing for electronic submission of certain forms and financial reports;
- (4) Authorizing the Attorney General to issue cease and desist orders and impose administrative fines;
- (5) Clarifying certain reporting requirements for charitable organizations; and
- (6) Making other technical amendments.

Your Committee on Conference finds that this measure makes various amendments to Hawaii's charitable registration and solicitation law, including requiring an affirmative disclosure in the course of solicitation, which will require professional solicitors to be more transparent and will prevent donor confusion and deceptive practices. This measure also provides for electronic submission of certain financial reports that professional solicitors are required to submit to the Attorney General and makes other amendments that simplify the filing process for charitable organizations. Your Committee on Conference further finds that this measure improves and clarifies Hawaii's charitable registration and solicitation law in a manner that better reflects the realities of the nonprofit fundraising environment, promotes transparency for donors, and encourages ease of compliance for charitable nonprofits.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2812, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2812, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Galuteria, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, San Buenaventura, Nishimoto, Morikawa and Fukumoto Chang.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 114-16 on S.B. No. 2298

The purpose of this measure is to adopt a revised version of the Uniform Fiduciary Access to Digital Assets Act, which provides authority to plan for the management and disposition of digital assets.

Your Committee on Conference finds that the Uniform Law Commission has worked to address concerns raised by Internet service providers and privacy advocates over the original Uniform Fiduciary Access to Digital Assets Act, which the Uniform Law Commission first adopted in 2014. As a result of those efforts, the Uniform Law Commission has adopted a revised version of the Uniform Fiduciary Access to Digital Assets Act. Your Committee on Conference further finds that the Revised Uniform Fiduciary Access to Digital Assets Act, which this measure proposes to adopt, is intended to modernize fiduciary law for the Internet Age by providing Internet users with the ability and authority to plan for the management and disposition of their digital assets in a manner similar to the process for management and disposition of tangible property.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2016; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2298, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2298, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Galuteria, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Rhoads, Nishimoto and Fukumoto Chang.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 115-16 on S.B. No. 2652

The purpose of measure bill is to:

- (1) Establish a five-year renewable fuels production tax credit;
- (2) Require the Department of Business, Economic Development, and Tourism to certify all renewable fuels production tax credits and submit a report regarding the production and sale of renewable fuels to the Governor and Legislature each year;
- (3) Repeal the existing ethanol facility tax credit;
- (4) Establish an organic foods production tax credit; and
- (5) Require the Department of Agriculture to certify all organic foods production tax credits.

Your Committee on Conference finds that Hawaii is vulnerable to soaring prices or disruptions of its energy imports, which can hinder, cripple, or even devastate the State's economy and the well-being of its inhabitants. Your Committee also finds that, as the most isolated populated land mass on Earth, Hawaii imports nearly ninety percent of its energy and almost one hundred percent of its transportation resources. Your Committee further finds that it is critical for Hawaii to ensure greater energy security by becoming more self-sufficient in its energy supply.

Your Committee on Conference has amended this measure by:

- (1) Deleting the organic foods production tax credit;
- (2) Making the annual dollar amount of the tax credit equal to twenty cents per seventy-six thousand British thermal units of renewable fuels;
- (3) Capping the amount of the tax credit an individual taxpayer may claim at \$3,000,000 per taxable year;
- (4) Capping the amount of credits the Department of Business, Economic Development, and Tourism may certify at \$3,000,000 in the aggregate; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2652, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2652, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Tokuda and Gabbard.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Lowen, Onishi and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 116-16 on S.B. No. 3126

The purpose of this measure is to accelerate the goals of the Department of Education to cool Hawaii's schools, reduce energy costs, meet the State's clean energy goals, and authorize the issuance of general obligation bonds and the use of funds from the green infrastructure loan program to implement cooling measures in public schools to provide students with a better learning environment. Among other things, this measure:

- (1) Requires the Department of Education to establish the sustainable schools initiative with a goal of becoming net-zero with respect to energy use by January 1, 2035;
- (2) Requires the Department of Education to establish in each county at least one microgrid pilot project at public schools that also serves as emergency shelters to allow for continued operations even during the failure of the larger electric grid during a natural disaster;
- (3) Requires the Department of Education to expedite the cooling of all public school classrooms to a temperature acceptable for student learning, and to submit a report to the Legislature about the implementation of measures taken to cool public school classrooms;
- (4) Appropriates funds from the Hawaii green infrastructure special fund to the Department of Business, Economic Development, and Tourism for maximizing the energy efficiency of all schools;
- (5) Authorizes the Department of Education and Department of Budget and Finance, with the approval of the Governor, to borrow funds from the green infrastructure loan program for capital improvement program equipment and installation costs for air conditioning and other energy efficiency measures related to heat abatement in public schools; and
- (6) Appropriates general obligation bond funds to fund capital improvement program equipment and installation costs for air conditioning and other energy efficiency measures related to heat abatement in public schools.

Your Committee on Conference finds that there is an urgent need to implement air conditioning and other heat abatement measures in public school classrooms to preserve and promote the health and safety of students and teachers and to foster a more productive learning environment. In his 2016 State of the State address, the Governor challenged the Department of Education to cool one thousand classrooms by the end of the year, and while your Committee may not agree on the proposed method of financing, it views this measure as a vehicle and an opportunity to quickly bring relief to students and teachers statewide.

Your Committee on Conference has amended this measure by:

- (1) Removing language in the purpose section relating to cooling one thousand classrooms by the end of 2016;
- (2) Deleting language establishing a sustainable schools initiative within the Department of Education;
- (3) Deleting language requiring the Department of Education to establish a minimum of one microgrid pilot project;
- (4) Deleting language requiring the Department of Education to expedite cooling measures in all public school classrooms;
- (5) Deleting appropriations from the Hawaii green infrastructure special fund and general obligation bonds;
- (6) Deleting authorization for the Department of Education and Department of Budget and Finance to borrow funds from the green infrastructure loan program;
- (7) Appropriating \$100,000,000 in general funds to the Department of Education for capital improvement program equipment and installation costs for air conditioning, heat abatement, energy efficient lighting, and other energy efficiency measures at public schools;
- (8) Making this measure effective upon its approval; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3126, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3126, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Inouye and Tokuda.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Inouye).

Representatives Lee, Takumi, Luke, Yamashita and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Yamashita, Tupola).

Conf. Com. Rep. 117-16 on S.B. No. 2512

The purpose of this measure is to increase penalties and establish fines for animal desertion, except where the animal is released as part of a game management program.

Your Committee on Conference finds that thousands of animals, primarily dogs and cats, are abandoned across Hawaii every year, contributing to increased animal control costs, animal suffering and overpopulation, increased euthanasia rates at local animal shelters, and possible harm to native wildlife. Your Committee on Conference further finds that stronger penalties for animal desertion would encourage pet owners to work with local shelters and animal control contractors when a pet must be re-homed, strengthen pet retention and the human-animal bond, and protect pet owners and the animals themselves.

Your Committee on Conference emphasizes that this measure is not intended to apply to the release of animals as part of a designated population management program.

Your Committee on Conference has amended this measure by:

- (1) Moving language that would have amended section 143-2.6, Hawaii Revised Statutes, relating to animal desertion, to a new section under chapter 711, Hawaii Revised Statutes, relating to offenses against the public order, to establish the offense of pet animal or equine animal desertion;
- (2) Deleting language that would have exempted the release of an animal as part of a population management program from the offense of animal desertion;
- (3) Replacing the term "animal" with "pet animal", which is defined in section 711-1100, Hawaii Revised Statutes, as "a dog, cat, domesticated rabbit, guinea pig, domesticated pig, or caged birds (passeriformes, piciformes, and psittaciformes only) so long as not bred for consumption";
- (4) Including the term "equine animal", which is defined in section 711-1100, Hawaii Revised Statutes, as "an animal of or belonging to the family Equidae, including horses, ponies, mules, donkeys, asses, burros, and zebras";
- (5) Clarifying that desertion of a pet animal or equine animal is a petty misdemeanor subject to a fine not exceeding \$1,000 and recklessly causing the death of or substantial bodily harm to a pet animal or equine animal as a result of desertion is a misdemeanor subject to a fine not exceeding \$2,000;
- (6) Clarifying that each pet animal or equine animal that is deserted or suffers death or substantial bodily injury as a result of desertion constitutes a separate offense;
- (7) Inserting a definition of the term "desert" to mean to leave without the intent to return;
- (8) Making it effective upon its approval; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2512, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2512, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keith-Agaran, Riviere and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 118-16 on S.B. No. 2550

The purpose of this measure is to require the Office of the Governor to prepare a federal funding policy study for the State.

Your Committee on Conference finds that various state government programs and projects receive federal funding. However, federal funds may not always be available to support the various state government programs and projects that rely on this funding. Accordingly, your Committee finds that a comprehensive analysis of the possible consequences of a reduction in federal funding for state government programs and projects will assist policymakers in the development of responsible financial strategies.

Your Committee on Conference has amended this measure by:

- (1) Inserting a \$100,000 appropriation for fiscal year 2016-2017; and
- (2) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2550, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2550, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Cullen, Jordan and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Jordan).

Conf. Com. Rep. 119-16 on S.B. No. 2922

The purpose of this measure is to require the Tax Review Commission that was appointed on or before July 1, 2015, or its successor commission intended to function prior to the appointment of a new commission on or before July 1, 2020, to submit its evaluation of the State's tax structure and its recommendations of revenue and tax policy to the Legislature prior to the Regular Session of 2018.

Additionally, this measure appropriates an unspecified amount of general funds to the Department of Taxation for use by the Tax Review Commission in its evaluation and recommendations.

Your Committee on Conference has amended this measure by specifying the appropriation amount as \$250,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2922, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2922, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto, Onishi and Pouha.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 120-16 on S.B. No. 2559

The purpose of this measure is to address homelessness by providing more emergency and transitional shelter space funded in a cost-effective manner.

Specifically, this measure:

- (1) Establishes minimum requirements regarding sanitation facilities, partitioned space, and storage for personal possessions in emergency shelters that receive stipends from or are owned by the Department of Human Services;
- (2) Authorizes the Department of Human Services to establish additional requirements for emergency shelters;
- (3) Requires provider agencies that provide homeless shelter or assistance to submit financial audits annually, instead of triennially;
- (4) Requires that homeless shelter stipends be made based upon performance measures actually achieved;

- (5) Repeals statutory automatic annual adjustments of homeless stipend amounts and authorizes the Department of Human Services to contract with the provider agency for automatic adjustments;
- (6) Requires that shelter and service payments amounts collected from homeless families and individuals be based upon ability to pay or other criteria established by contract with the Department of Human Services;
- (7) Establishes positions and appropriates funds to assist in the operation of the homeless program;
- (8) Appropriates funds for the establishment or improvement of emergency and transitional shelters for the homeless and for non-recurring costs for projects or programs to assist homeless families and individuals; and
- (9) Requires the Department of Human Services to submit interim and final reports on the expenditure of funds in 2017 and 2018, respectively, for the establishment or improvement of emergency and transitional shelters for the homeless and for non-recurring costs for projects or programs to assist homeless families and individuals.

Your Committee on Conference believes that requiring, rather than authorizing, emergency shelters to provide partitioned space for each homeless family or individual will help to make emergency shelters more appealing to homeless families and individuals. Further, your Committee notes that the funds appropriated and positions established by this measure are more suitable for inclusion within House Bill No. 1700, the Supplemental Appropriations Act of 2016.

Your Committee has amended this measure by:

- (1) Requiring, rather than authorizing, shelters to provide partitioned space for each homeless family or individual;
- (2) Deleting the provisions establishing and appropriating an unspecified amount of general funds for 2.0 permanent full-time equivalent (2.0 FTE) program specialist IV positions to assist in the operation of the homeless program;
- (3) Deleting the provision appropriating an unspecified amount of general funds for the establishment or improvement of emergency and transitional shelters for the homeless and funding of other non-recurring costs for projects or programs to assist homeless families and individuals;
- (4) Deleting the provisions requiring the Department of Human Services to submit reports to the Legislature and Governor on the expenditure of funds for the establishment or improvement of emergency transitional shelters after June 30, 2017;
- (5) Making section 6, which requires any contract executed after June 30, 2017, between the Department of Human Services and a provider of emergency or transitional shelter, to comply with the requirements of the measure, effective July 1, 2016; and
- (6) Making the effective date for sections 1 through 5, 7, and 8 of the measure July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2559, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2559, S.D. 1, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Tokuda, Harimoto, Chun Oakland, Galuteria and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Morikawa, Luke, Jordan and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, 1 (Jordan). Excused, 1 (McDermott).

Conf. Com. Rep. 121-16 on S.B. No. 2547

The purpose of this measure is to require the Department of Taxation to periodically review certain exemptions, exclusions, and credits under the general excise and use taxes, public service company tax, and insurance premium tax.

The measure also requires the Department of Taxation to make recommendations on whether the reviewed exemptions, exclusions, or credits should be retained, amended, or repealed.

Your Committee on Conference has amended this measure by requiring the Auditor, rather than the Department of Taxation, to conduct the reviews.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2547, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2547, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cachola, DeCoite and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Cachola).

Conf. Com. Rep. 122-16 on S.B. No. 2845

The purpose of this measure is to appropriate general funds for fiscal year 2016-2017 to repay prior general fund cash advances for:

- (1) The purchase of lands of the former Kapalama Military Reservation; and
- (2) The Hawaii Health Systems Corporation for its employer contributions to the Employees' Retirement System and the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee on Conference finds that that the State's general fund balance currently reflects repayments for two cash advances totaling \$103,200,000 that have not been repaid: An \$89,900,000 cash advance authorized in 1989 for the purchase of lands of the former Kapalama Military Reservation; and a \$13,300,000 cash advance made in fiscal year 2002-2003 for Hawaii Health Systems Corporation contributions to the Employees' Retirement System and to the Hawaii Employer-Union Health Benefits Trust Fund.

Thus, the assets and liabilities of the general fund are currently overstated by \$103,200,000, and it appears unlikely that these cash advances will be repaid.

Your Committee on Conference further finds that appropriating moneys to formally reconcile these general fund cash advances will more accurately reflect the general fund balance and actual resources available to finance state programs and expenses.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation amount for the purchase of lands of the former Kapalama Military Reservation from an unspecified amount to \$89,900,000; and
- (2) Changing the appropriation amount for the Hawaii Health Systems Corporation from an unspecified amount to \$13,300,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2845, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2845, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Kobayashi, Nishimoto and Pouha.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 123-16 on S.B. No. 2555

The purpose of this measure is to appropriate moneys to be deposited into the emergency and budget reserve fund to comply with the constitutional mandate to provide a tax refund or credit or make such a deposit.

Your Committee on Conference finds that when certain economic conditions occur, article VII, section 6, of the Hawaii Constitution requires the Legislature to either provide a tax refund or tax credit to state taxpayers or make a deposit into one or more funds to serve as a reserve for the State. These constitutionally established conditions were met at the end of fiscal years 2013-2014 and 2014-2015. However, your Committee on Conference notes that pursuant to section 328L-3(a)(3), Hawaii Revised Statutes, general funds may only be deposited into the emergency budget and reserve fund when state general fund revenues for each of the two successive fiscal years exceeds revenues for each of the preceding fiscal years by five percent. While the general fund revenues for fiscal year 2014-2015 exceeded fiscal year 2013-2014's revenues by more than five percent, the general fund revenues for fiscal year 2013-2014 did not exceed the revenues for fiscal year 2012-2013 by more than five percent. Therefore, although the constitutionally established economic conditions have been met, the statutorily established economic conditions to make a deposit of general funds into the emergency budget and reserve fund were not met.

Your Committee on Conference finds that notwithstanding the statutory provisions, it is prudent to make a deposit into the emergency and budget reserve fund rather than provide a tax refund or tax credit. Increasing the reserve fund balance is in the public's best interest, as it will better enable the State to address possible emergencies and contingencies that may occur in the future when state revenues decline.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$1,000,000 from the general revenues to be deposited into the emergency and budget reserve fund; and
- (2) Changing the effective date so that the measure becomes effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2555, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2555, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Johanson, Nishimoto and Pouha.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 124-16 on S.B. No. 2551

The purpose of this measure is to require the Judiciary to annually report to the Legislature on all non-general funds managed by the Judiciary, including administratively established accounts and funds.

Your Committee on Conference finds that it is necessary to be informed of the total fiscal situation of the State to make sound budgetary decisions. The Auditor's Report No. 15-16, "Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the Judiciary", reported that "[a]ccording to [j]udiciary personnel, sections 37-47(9), (10), and (11), Hawaii Revised Statutes, do not apply to its special funds." As a result, the Auditor found that several trust funds and accounts of the Judiciary were not reported to the Legislature. This measure imposes on the Judiciary the same non-general fund reporting requirements imposed on executive branch departments.

Your Committee on Conference has amended this measure by:

- (1) Amending the purpose section to appropriately reflect the findings of Auditor's Report No. 15-16 and make conforming amendments;
- (2) Inserting language from S.B. No. 2551, as introduced, that inserts a new section in chapter 601, Hawaii Revised Statutes, to require the Judiciary to annually report to the Legislature certain information regarding each non-general fund account; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2551, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2551, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Jordan, Kawakami and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 125-16 on S.B. No. 2108

The purpose of this measure is to authorize the Attorney General and county prosecuting attorneys to use administrative subpoenas to obtain records in criminal investigations, regardless of whether the recipient or the records are physically located within the State.

Your Committee on Conference finds that during all phases of a criminal case, the Attorney General and county prosecutors frequently need to obtain records from an entity located outside of the State. However, existing law pertaining to criminal records process only authorizes the use of grand jury subpoenas and trial subpoenas to obtain records held by entities located outside of the State. As a result, the Attorney General and county prosecutors have no authority to use administrative subpoenas to obtain records that are held by entities located outside of the State during the investigative phase of a criminal case. Implementation of this measure will facilitate criminal investigations and properly enable the use of subpoenas during all phases of a criminal case.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2108, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2108, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kahele and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, DeCoite, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 126-16 on S.B. No. 2106

The purpose of this measure is to:

- (1) Increase the per diem payments for an out-of-state witness in criminal cases from \$145 to an unspecified amount; and
- (2) Increase the per diem payment supplement from \$90 to an unspecified amount for a witness from any island other than the island on which the court is located when that witness is required to stay overnight.

Your Committee on Conference finds that the criminal case witness per diem stipend amounts have not kept pace with Hawaii's cost of living. Given the increases in costs for lodging and food, the existing per diem stipend amounts are insufficient to cover personal expenses and, as a result, may prevent victims of crimes from pursuing charges against criminal offenders. This measure

increases the per diem stipend amounts for out-of-state witnesses and witnesses who require an overnight stay on another island in the State to support and encourage victims and other witnesses to report criminal offenses and pursue criminal charges.

Your Committee on Conference has amended this measure by:

- (1) Inserting a per diem amount of \$200 for an out-of-state witness in a criminal case;
- (2) Inserting a per diem amount of \$145 for a witness from any island other than the island on which the court is located when that witness is required to stay overnight; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2106, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2106, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Galuteria and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, LoPresti, Cullen and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 127-16 on S.B. No. 2077

The purpose of this measure is to:

- (1) Authorize a severance benefit or special retirement benefit to an employee who is separated from service due to the transfer of management and operations of the Hawaii Health Systems Corporation Maui Regional System and who elects to separate from service when the employee's position is identified for abolishment or when the employee is directly affected by a reduction-in-force or workforce restructuring plan; provided certain requirements are satisfied; and
- (2) Require the State to pay, on behalf of certain Hawaii Health Systems Corporation retirees, a percentage of the base Medicare or non-Medicare monthly contribution to the Hawaii Employer-Union Health Benefits Trust Fund and one-half of the monthly contributions for the employee-beneficiary with dependent beneficiaries upon the death of the employee.

Your Committee on Conference finds that public employees who are displaced through privatization or the closure of a state or county facility frequently face excessive economic hardship. Displaced employees may have only a few years of creditable service or be close to retirement but still need additional years of service. Implementation of this measure addresses the complexity of employees who are at different life stages and will decrease economic hardship associated with layoffs due to the transfer of management and operations of the Maui Regional System.

Your Committee on Conference has amended this measure by making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2077, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2077, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Kahele.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke, Yamashita and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 128-16 on S.B. No. 2723

The purpose of this measure is to increase the maximum penalties for government contractors who violate the State's wages and hours of employees on public works law to:

- (1) A penalty that is equal to ten percent of the amount of back wages due or an unspecified amount per offense, whichever is greater, for the first offense;
- (2) A penalty equal to an unspecified amount per offense for a second violation occurring within two years of the first notification of violation; and
- (3) A penalty that is equal to an unspecified amount per offense for a third violation occurring within three years of the second notification of violation.

Your Committee on Conference finds that the existing penalties for government contractors who violate the State's wages and hours of employees on public works law, codified as chapter 104, Hawaii Revised Statutes, are insufficient in deterring certain contractors from underpaying employees. When contractors comply with chapter 104, Hawaii Revised Statutes, there is a level playing field for

bidding on state and county projects. Implementation of this measure assists the Department of Labor and Industrial Relations in enforcing chapter 104, Hawaii Revised Statutes, and encourages government contractors to comply with the law.

Your Committee on Conference has amended this measure by:

- (1) Amending the penalty for the first violation to twenty-five percent of the amount of back wages found due or \$250 per offense, up to \$2,500, whichever is greater;
- (2) Amending the penalty for the second violation to the amount of back wages found due or \$500 per offense, up to \$5,000, whichever is greater;
- (3) Amending the penalty for the third violation to two times the amount of back wages found due or \$1,000 per offense, up to \$10,000, whichever is greater; and
- (4) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2723, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2723, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Taniguchi and Kahele.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Rhoads, Keohokalole, Yamashita and Fukumoto Chang.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Rhoads, Yamashita).

Conf. Com. Rep. 129-16 on S.B. No. 2439

The purpose of this measure is to establish exceptions to the offense of obstructing government operations and the offense of violation of privacy in the second degree for a person making a video or audio recording or photograph of a law enforcement officer while the officer is in the performance of duties in a public place or under circumstances in which the officer has no reasonable expectation of privacy; provided that the officer may take reasonable action to maintain safety and control, secure crime scenes and accident sites, protect the integrity and confidentiality of investigations, and protect the public safety and order.

Your Committee on Conference finds that due to the popularity and widespread use of smartphones with video or audio recording and photographing capabilities, such as videos, recordings, and photos of law enforcement officers who are exercising their duties have been used as evidence in police conduct matters or widely disseminated via social media. However, such recordings and photographs may be seen as obstructing government operations or an invasion of privacy. This measure establishes an exception under certain circumstances to enable a person to record or photograph a law enforcement officer exercising the officer's duties without violating the law.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2439, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2439, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kahele and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 130-16 on H.B. No. 1041

The purpose of this measure is to enhance the management and protection of resources pertaining to hunting. Specifically, this measure:

- (1) Establishes the Game Management Advisory Commission to serve in an advisory capacity to the Board of Land and Natural Resources for policies and criteria regarding public hunting;
- (2) Establishes the composition and powers of the Game Management Advisory Commission;
- (3) Requires the Game Management Advisory Commission to submit annual reports to the Legislature; and
- (4) Appropriates funds for the establishment of the Game Management Advisory Commission.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$40,000 for the establishment of the Game Management Advisory Commission;
- (2) Changing its effective date to July 1, 2016; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1041, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1041, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 131-16 on H.B. No. 1749

The purpose of this measure is to amend the goals of the Hawaii water plan to include increased utilization of reclaimed water in all state facilities, where feasible.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the goal shall be to achieve utilization of reclaimed water for uses other than drinking and for potable water needs in one hundred percent of state and county facilities by December 31, 2045; and
- (2) Making the measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1749, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1749, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 132-16 on H.B. No. 2029

The purpose of this measure is to establish the Water Infrastructure Loan Program to enable private entities to purchase or install water infrastructure equipment for water distribution systems.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation amounts to \$800,000;
- (2) Deleting the appropriation for the implementation of the Hawaii Water Infrastructure Loan Program; and
- (3) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2029, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2029, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai, English and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Yamane, Cullen, Evans and Matsumoto.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 133-16 on H.B. No. 2037

The purpose of this measure is to appropriate funds to the Department of Land and Natural Resources to host the International Union for Conservation of Nature World Conservation Congress meeting at the Hawaii Convention Center on September 1 to 10, 2016.

Your Committee on Conference hopes that in response to the support offered that the State of Hawaii will be given a prominent role at the meeting, and that its local vendors will be highlighted. Your Committee on Conference also expects that the Department of Land and Natural Resources will seek matching funds from other sources to accomplish the goals of this measure.

Your Committee on Conference has amended this measure by:

- (1) Deleting language from the preamble;
- (2) Changing the appropriation amount to \$4,000,000;
- (3) Changing the appropriation to fiscal year 2015-2016 and extending its lapse date to June 30, 2017;
- (4) Removing the provisions that required matching private funds; and
- (5) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2037, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2037, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 134-16 on H.B. No. 2040

The purpose of this measure is to increase the State's water security. Specifically, this measure:

- (1) Establishes a two-year pilot program on developing public-private partnerships that increase water security;
- (2) Establishes a water security advisory group to advise the Department of Land and Natural Resources on water security proposals; and
- (3) Authorizes the Department of Land and Natural Resources, upon the advice of the advisory group, to provide matching state funds for projects and programs that:
 - (A) Increase the recharge of groundwater resources;
 - (B) Encourage the reuse of water and reduce the use of potable water for landscaping irrigation; and
 - (C) Improve the efficiency of potable and agricultural water use.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a designee of the Manager and Chief Engineer of the county Boards of Water Supply may be a member of the water security advisory group;
- (2) Changing the appropriation amount to \$750,000; and
- (3) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2040, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2040, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Conf. Com. Rep. 136-16 on H.B. No. 2247

The purpose of this measure is to authorize the State and counties to pay the approved travel costs incurred by their officers and employees for official State or county business, either directly to the vendor or by cash advance to the officer or employee, unless otherwise provided by a collective bargaining agreement.

Your Committee on Conference is addressing the problem faced by many public employees when they are required to pay for official business out of their own funds and wait to be reimbursed. While waiting to be reimbursed, government employees face financial difficulties.

Your Committee on Conference has amended the bill by:

- (1) Permitting the State or county to make payment directly to the officer or employee unless the officer or employee affirmatively consents to loan the State or county the money for the travel costs and be reimbursed after the officer or employee pays for the travel costs; provided that the employer shall not take adverse employment action against an officer or employee who does not affirmatively consent to the arrangement; and
- (2) Making this measure effective on July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2247, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2247, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Taniguchi.
Managers on the part of the Senate.

Conf. Com. Rep. 137-16 on H.B. No. 2671

The purpose of this measure is to assist the Attorney General in the gathering and reporting of critical criminal justice data by:

- (1) Requiring the county chiefs of police and state and county agencies with arrest powers to provide crime incident reports and other related crime information to the Attorney General to operate a statewide crime reporting program and to cooperate with the Federal Bureau of Investigation's Uniform Crime Reporting Program; and
- (2) Establishing a fine for state agency, county agency, and county chief of police noncompliance with the requirements of this measure.

Your Committee on Conference finds that accurate, timely, and comprehensive reporting of crime data is vital to the administration of justice and enables law enforcement agencies to better monitor the allocation of agencies' scarce resources and keeps the public informed.

Your Committee on Conference has amended this measure by:

- (1) Deleting the establishment of a fine for not complying with the requirements of this measure;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2671, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2671, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 138-16 on H.B. No. 2561

The purpose of this measure is to implement recommendations made by the Penal Code Review Committee. Specifically, this measure amends various chapters of the Hawaii Penal Code and makes conforming amendments to several related statutes outside of the Hawaii Penal Code.

Your Committee on Conference wishes to strongly emphasize that the value of this measure in reforming the Hawaii Penal Code and related other statutes must be considered in its entirety. The measure reflects the majority consensus recommendations of the Penal Code Review Committee established pursuant to House Concurrent Resolution No. 155, S.D.1 (2015), which was composed of judges, prosecutors, public defenders, members of the defense bar, crime victims' advocates, legislators, law enforcement officials, the director of the Department of Public Safety, a representative from the Office of Hawaiian Affairs, and community advocates from a variety of backgrounds. The Review Committee also solicited input from relevant stakeholders. As the executive summary of the Penal Code Review Committee report notes, its work "drew on the collective experience of its diverse membership and, at the same time, attempted to see what current criminal justice research could teach."

The work of the Penal Code Review Committee ultimately recommended changes to fifty existing statutes and adoption of four new statutes, culminating in a total of eighty-four proposals. Key proposals included amendments aimed at making forensic examinations of defendants more efficient and timely, and ensuring that, regardless of whether a pre-sentence diagnosis is performed, reasonable efforts are made to inform victims and their families of the right to be present and heard at sentencing, particularly in felony cases. The measure also includes a new section clearly establishing the priority for payments that a defendant is ordered to make, including restitution, crime victims compensation fee, probation services fee, human trafficking victims services fees, DNA analysis monetary assessment, and fines. This measure additionally affords new statutory authority for a court to add, as a condition for probation under certain circumstances, that a defendant submit to searches by a probation officer of his or her person, residence, vehicle, or other sites and property under the person's control, and to sign a waiver of extradition and pay extradition costs as the court may determine.

Your Committee on Conference has concluded that it is necessary to further strengthen the habitual property crime statute, section 708-803, Hawaii Revised Statutes (HRS). While it is not desirable to incarcerate an individual for stealing items worth \$300, the current felony theft threshold, especially when reminded of the fact that each day of incarceration costs Hawaii taxpayers \$137 per incarcerated individual, it is important to properly penalize those individuals who have made a career of thievery. Accordingly, the required number of prior convictions needed in order for an individual to be charged as a habitual property crime perpetrator has been reduced by one conviction, to either two felonies, two misdemeanors, a felony and a misdemeanor, a felony and a petty misdemeanor, a misdemeanor and a petty misdemeanor, or three petty misdemeanors. For the first time, petty misdemeanor theft will be included under the habitual threat statute. Along with the amendment based on the Penal Code Review Committee's recommendation to double the length of time from five years to ten years that a conviction can qualify one for habitual theft status, these amendments will hold habitual thieves more accountable.

Your Committee believes that the amendments to the habitual property crime statute address concerns of business owners that by raising the threshold value of items stolen, criminal activity will be encouraged. To the contrary, as concluded in a recent Pew Charitable Trusts issue brief that analyzed the possible relationship between increased felony theft thresholds and property crime rates in thirty states between 2001 and 2011, raising felony theft thresholds has had no impact on overall property crime. Further, states that have increased their thresholds have reported roughly the same average decrease in crime as states that did not and the amount of a state's felony theft threshold has not correlated with its property crime and theft rates.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the prohibition against suspending the right to bail when the defendant raises a mental health defense or unfitness to proceed does not apply to defendants who are under an order of commitment to a hospital for mental health purposes;
- (2) Reducing by one the number of qualifying convictions required to meet the habitual property crime perpetrator status and allowing any offense committed under chapter 708, HRS, to qualify;
- (3) Referencing the definition of an offense "committed in the presence of a minor" from section 706-606.4, HRS, in the abuse of a family or household member statute;
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style; and
- (5) Making this measure take effect on July 1, 2016.

Finally, your Committee on Conference wishes to emphasize that it is the Legislature's duty to review and propose statutory revisions and that, as a whole, this measure represents the Legislature's current comprehensive policy position on revision to the Hawaii Penal Code and ancillary related statutes in other chapters of the HRS. While your Committee is aware and expects that further revisions will be debated and considered in future years, your Committee strongly urges that this measure be enacted to provide broad-ranging substantive reform, fairness, and efficiency to the administration of justice in our State.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2561, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2561, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kahele and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, LoPresti, San Buenaventura and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 139-16 on H.B. No. 1543

The purpose of this measure is to:

- (1) Authorize the issuance of general obligation bonds to finance project appropriations contained in Acts of the Legislature for which the means of funding are designated as general obligation bond funds or reimbursable general obligation bond funds; and
- (2) Make a declaration of findings regarding the authorizations as required by the Constitution of the State of Hawaii.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating dates cited in the measure;
- (3) Changing its effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1543, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1543, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Luke, Nishimoto and Pouha.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 140-16 on H.B. No. 1700

PART I. OVERVIEW

Your Committee on Conference has approved a Conference Draft of the executive budget that reduces the operating budget request submitted by the Administration. The Conference Draft reduces \$14,210,046 in all funds, inclusive of reducing \$13,761,322 in general funds, for fiscal year 2015-2016 and appropriates an additional \$405,792,059 in all funds, inclusive of \$202,317,436 in general funds, for fiscal year 2016-2017.

The following table displays the net change to the Administration’s budget request as a result of the Conference Draft amendments.

	Fiscal Year 2015-2016		Fiscal Year 2016-2017	
	All Funds	Gen. Funds	All Funds	Gen. Funds
Executive Request	\$6,832,489	\$7,281,213	\$507,796,893	\$336,576,420
Conference Draft Change To Executive Request	(\$21,042,535)	(\$21,042,535)	(\$102,004,834)	(\$134,258,984)

The net change of the Conference Draft results in an executive budget for fiscal biennium 2015-2017 as follows:

	Fiscal Year 2015-2016		Fiscal Year 2016-2017	
	All Funds	Gen. Funds	All Funds	Gen. Funds
Executive Budget Act 119, SLH 2015	\$12,874,418,668	\$6,584,744,854	\$13,296,497,506	\$6,834,254,853
Net Change Of Conference Draft	(\$14,210,046)	(\$13,761,322)	\$405,792,059	\$202,317,436
Total Appropriation	\$12,860,208,622	\$6,570,983,532	\$13,702,289,565	\$7,036,572,289

PART II. OPERATING BUDGET

Agriculture

The Administration’s request was to add \$85,118 in general funds and \$476,345 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Agriculture’s appropriation for fiscal year 2016-2017 by adding \$1,091,987 in general funds and \$1,407,500 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$500,000 in general funds for pesticide regulation expenses;
- (2) Adding \$500,000 in special funds for a Kauai Nene Pilot Project to protect against crop damage from Nene geese; and

- (3) Adding \$500,000 in special funds for agricultural development and research in coordination with agricultural commodity organizations.

Accounting and General Services

The Administration's request was to add \$5,504,894 in general funds and \$1,568,859 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Accounting and General Services' appropriation for fiscal year 2016-2017 by adding \$2,292,749 in general funds and \$1,568,859 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 8.00 positions and \$319,190 in general funds for the implementation of a centralized system for payroll, and time and attendance;
- (2) Adding \$1,200,000 in special funds for system enhancements to the Maui Police Department 911 Call Center in the interest of public safety;
- (3) Adding 3.00 positions and \$132,486 in general funds for cyber security; and
- (4) Adding 4.00 positions and \$525,387 in general funds for custodial and utility costs for the re-occupancy of the Kamamalu Building.

Attorney General

The Administration's request was to add \$2,359,461 in general funds and \$12,086,606 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of the Attorney General's appropriation for fiscal year 2016-2017 by adding \$2,647,735 in general funds and \$12,024,075 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$380,000 in general funds for Statewide Sexual Assault Services;
- (2) Adding \$2,500,000 in interdepartmental transfer funds for interdepartmental reimbursements for legal services;
- (3) Adding \$1,063,000 in general funds, \$83,000 in special funds, \$105,000 in federal funds, and \$689,000 in interdepartmental transfer funds for deputy attorneys general salary increases;
- (4) Adding \$700,000 in general funds for Career Criminal Prosecution Statewide units; and
- (5) Adding \$800,339 to the other federal funds ceiling.

Business, Economic Development, and Tourism

The Administration's request was to add \$6,134,165 in general funds and \$35,331,555 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Business, Economic Development, and Tourism's appropriation for fiscal year 2016-2017 by adding \$4,030,266 in general funds and reducing \$14,014,881 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$150,000 in general funds for an unmanned aerial systems test site for the Office of Aerospace Development;
- (2) Adding \$100,000 in general funds for the Creative Lab program;
- (3) Adding \$100,000 in general funds for the Hawaii Broadband Initiative; and
- (4) Adding 1.00 position and \$92,386 in revolving funds for a Transit-Oriented Coordinator for the Hawaii Housing Finance and Development Corporation.

Budget and Finance

The Administration's request was to add \$130,084,811 in general funds and \$11,494,559 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Budget and Finance's appropriation for fiscal year 2016-2017 by adding \$47,887,320 in general funds and \$17,349,226 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Making additional payments of \$81,937,500 in general funds to pre-fund other post-employment benefit obligations of the State;
- (2) Adding \$600,000 in general funds for a new budget report writing system for the Departmental Administration and Budget Division; and
- (3) Adding 2.00 positions and \$60,716 in general funds for the Budget, Program Planning, and Management Division.

Commerce and Consumer Affairs

The Administration's request was to add \$1,669,991 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Commerce and Consumer Affairs' appropriation for fiscal year 2016-2017 by adding \$1,504,991 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$304,889 for fiscal year 2016-2017 in special funds for the Public Utilities Commission's administration expenses assessment; and
- (2) Adding \$500,000 for fiscal year 2016-2017 in special funds for the upgrade of the Financial Institutions Management System.

Defense

The Administration's request was to add \$3,610,068 in general funds and to reduce \$1,183,171 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Defense's appropriation for fiscal year 2016-2017 by adding \$4,590,901 in general funds and \$15,662,061 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 10.00 temporary positions and \$437,740 in general funds for Hawaii Emergency Management Agency staffing for new disaster projects;
- (2) Adding \$669,000 in general funds for repair and maintenance of the department's state buildings and structures;
- (3) Adding \$541,980 in general funds to reduce the department's negative adjustment;
- (4) Adding 7.00 positions and \$502,036 in general funds for a multi-skilled burial team and equipment for the Hawaii State Veterans' Cemetery; and
- (5) Adding \$758,000 in general funds and \$1,636,720 in other federal funds for veterans' assistance burial services and cemetery repair and maintenance.

Education

Regular Education

The Administration's request was to add \$45,586,668 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Education's appropriation for fiscal year 2016-2017 by adding \$31,488,109 in general funds and reducing \$2,782,947 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$16,537,791 in general funds for the Weighted Student Formula;
- (2) Adding \$5,215,919 in general funds for electricity costs;
- (3) Adding \$6,984,689 in general funds for public school transportation services;
- (4) Adding \$670,000 in general funds for Alternative Teacher Route Programs; and
- (5) Adding \$650,000 in general funds for tree trimming, foliage control, and pest control.

Hawaii State Public Library System

The Administration's request was to add \$771,454 in general funds and \$500,000 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Hawaii State Public Library System's appropriation for fiscal year 2016-2017 by adding \$820,727 in general funds and \$500,000 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$370,727 in general funds for security services statewide;
- (2) Adding \$250,000 in general funds and \$500,000 in special funds for library books and materials; and
- (3) Adding \$200,000 in general funds to reduce the repair and maintenance backlog for public libraries statewide.

Charter Schools

The Administration's request was to reduce \$2,610,602 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Charter Schools' appropriation for fiscal year 2016-2017 by reducing \$3,436,840 in general funds.

Early Learning Program

The Administration's request was to add \$98,108 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Early Learning Program's appropriation for fiscal year 2016-2017 by adding \$117,854 in general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$41,000 in general funds for mileage, transportation, and computer equipment for the Pre-kindergarten Program; and
- (2) Adding 2.00 temporary positions and \$76,854 in general funds for the Executive Office on Early Learning.

Governor

The Administration's request was to add \$578,974 in general funds and reduce \$311,348 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Office of the Governor's appropriation for fiscal year 2016-2017 by adding \$520,000 in general funds and reducing \$311,348 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 2.00 temporary positions and \$300,000 in general funds for Office of Military Affairs and Federal Grants Maximization; and
- (2) Adding \$150,000 in general funds for personal services.

Hawaiian Home Lands

The Administration's request was to add \$7,512,374 in general funds for fiscal year 2015-2016, and to add \$8,192,157 in general funds and reduce \$23,036,859 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Hawaiian Home Lands' appropriation by adding \$7,512,374 in general funds for fiscal year 2015-2016, and by adding \$14,293,340 in general funds and reducing \$10,508,882 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$17,144,374 in general funds for administrative and operating expenses for fiscal year 2015-2016;
- (2) Adding 28.00 positions and \$1,484,364 in general funds for additional staffing for administrative and operating support; and
- (3) Changing the means of financing for 163.00 permanent and 9.00 temporary positions from special and trust funds to general funds.

Health

The Administration's request was to add \$22,722,386 in general funds and \$4,413,670 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Health's appropriation for fiscal year 2016-2017 by adding \$17,310,754 in general funds and \$4,544,018 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$6,000,000 in general funds for Hawaii State Hospital deficit;
- (2) Adding \$3,000,000 in general funds for Kupuna Care; and
- (3) Adding 20.00 positions and \$1,270,120 in general funds for the management of the Dengue fever outbreak and newly emerging public health threats.

Hawaii Health Systems Corporation

The Administration's request was to add \$31,000,000 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Hawaii Health Systems Corporation's appropriation for fiscal year 2016-2017 by adding \$31,000,000 in general funds.

Your Committee on Conference notes that this measure allocates portions of the general, special, and capital improvement appropriations for the Hawaii Health Systems Corporation's Regions to implement Act 103, Session Laws of Hawaii 2015, for disbursement to the Maui Health System, a Kaiser Foundation Hospitals LLC ("MHSKFH"), if the operations of the Maui Regional System's three hospital facilities are discontinued and the facilities are leased to MHSKFH as authorized by that Act. By the Transfer Agreement dated as of January 14, 2016, MHSKFH requested, and the State of Hawaii agreed to take, reasonable steps to secure legislative appropriations for operating support, including initial working capital, and capital improvement support to complete the implementation of Act 103. The Governor conveyed the State's request for these appropriations to the Legislature by Budget Message #7 dated January 29, 2016. By a letter (which included nineteen attachments) dated April 20, 2016, MHSKFH conveyed its request directly to the President, the Speaker, and the Chairs of your Committee on Conference. Your Committee on Conference subjected MHSKFH's request for funding to the standards and conditions for the receipt of operating and capital support set out in sections 323F-58(b) and 323F-59(c), Hawaii Revised Statutes, and considered the assertions MHSKFH made, and the supporting documents it included in its April 20, 2016 letter. Your Committee on Conference confirms that MHSKFH satisfies all the standards and conditions set out in sections 323F-58(b) and 323F-59(c).

Human Resources Development

The Administration's request was to add \$940,262 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Human Resources Development's appropriation for fiscal year 2016-2017 by adding \$1,193,495 in general funds.

The Conference Draft of the executive budget includes adding \$666,000 in general funds for fiscal year 2016-2017 for workers' compensation claims.

Human Services

The Administration's request was to add \$56,488,864 in general funds and \$80,098,991 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Human Services' appropriation for fiscal year 2016-2017 by adding \$29,331,042 in general funds and adding \$146,526,440 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$12,000,000 in general funds for fiscal year 2016-2017 for homeless programs;
- (2) Adding \$3,000,000 in general funds for fiscal year 2016-2017 for Hawaii Public Housing Authority state family and state elderly housing facilities;
- (3) Adding \$10,000,000 in general funds for fiscal year 2016-2017 for Preschool Open Doors; and
- (4) Changing the means of financing for 16.00 positions and \$1,125,584 from federal funds to general funds for rental assistance services housing vouchers.

Labor and Industrial Relations

The Administration's request was to add \$954,876 in general funds and \$2,588,105 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Labor and Industrial Relations' appropriation for fiscal year 2016-2017 by adding \$3,149,546 in general funds and \$2,588,105 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$750,000 in general funds to support Workforce Advisory Councils;
- (2) Adding \$572,857 in general funds for the Community Services Block Grant Program;
- (3) Adding 1.00 position and \$25,386 in general funds for enforcement of workers' compensation, temporary disability insurance, and prepaid health care laws; and
- (4) Adding \$5,000 in special funds for human trafficking victim services.

Land and Natural Resources

The Administration's request was to add \$6,686,866 in general funds and \$15,878,876 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Land and Natural Resources' appropriation for fiscal year 2016-2017 by adding \$3,611,824 in general funds and \$9,324,293 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$1,500,000 in general funds for a United States Geographical Survey study on Hawaii streams;
- (2) Adding 10.00 positions and \$344,256 in general funds for the operation of harbor facilities six days a week;
- (3) Adding \$400,000 in general funds for the wildfire contingency fund;
- (4) Adding \$250,000 in general funds for endangered species management; and
- (5) Adding \$250,000 in general funds for marine debris removal.

Public Safety

The Administration's request was to add \$6,120,295 in general funds and \$300,000 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Public Safety's appropriation by reducing \$3,164,155 in general funds for fiscal year 2015-2016 and by adding \$2,768,393 in general funds and \$300,000 in non-general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$438,560 in general funds for basic utilities costs for the Maui Community Correctional Center;
- (2) Adding \$284,228 in general funds for physician malpractice insurance costs for the Healthcare Division;
- (3) Adding \$50,000 in general funds for motor vehicle fuel and oil for the Sheriff Division; and
- (4) Adding \$869,165 in general funds for lease rent for the Department of Public Safety Administration building and State Narcotics Enforcement Division offices.

Taxation

The Administration's request was to reduce \$528,223 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Taxation's appropriation for fiscal year 2016-2017 by reducing \$1,134,777 in general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 2.00 tax examiner positions and \$40,980 in general funds for the neighbor islands; and
- (2) Transferring 12.00 positions and \$664,668 in general funds from the Director's Office to the Information Technology Services Office for administrative support.

Your Committee on Conference would like to note that the tax examiner positions are not to be used to create an Investigation Branch.

Transportation

The Administration's request was to add \$25,449,794 in special funds and \$3,894,500 in federal funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the Department of Transportation's appropriation for fiscal year 2016-2017 by adding \$1,500,000 in general funds and \$17,793,113 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$580,000 in special funds for Hilo International Airport seating replacement;
- (2) Adding \$613,500 in special funds for Lihue Airport routine maintenance contracts;
- (3) Adding \$1,000,000 in special funds for pier and wharf insurance;
- (4) Adding \$1,500,000 in special funds for albizia mitigation on Hawaii Island; and
- (5) Adding \$800,000 in special funds for replacement of Kauai Highways bridge inspection equipment.

University of Hawaii

The Administration's request was to add \$12,368,302 in general funds for fiscal year 2016-2017.

The Conference Draft of the executive budget adjusts the University of Hawaii's appropriation for fiscal year 2016-2017 by adding \$5,287,604 in general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$3,000,000 in general funds for University of Hawaii Athletics;
- (2) Adding \$1,250,000 in general funds for equipment for community colleges;
- (3) Adding 4.00 positions and \$330,000 in general funds for the College of Tropical Agriculture and Human Resources' Cooperative Extension Service;
- (4) Adding 27.00 positions for the University of Hawaii at Hilo to establish a security and safety patrol force; and
- (5) Adding 6.00 positions and \$357,604 in general funds for the University of Hawaii, West Oahu campus.

Subsidies

The Conference Draft of the executive budget adjusts the subsidies' appropriation for fiscal year 2016-2017 by adding \$2,500,000 in general funds.

The Conference Draft of the executive budget added the \$2,500,000 in general funds to support Wahiawa General Hospital in Private Hospitals and Medical Services (SUB601).

PART III. CAPITAL IMPROVEMENT PROJECTS BUDGET

Your Committee on Conference finds that capital improvement projects play a vital role in rebuilding our economy and strengthening our social infrastructure.

Act 119, Session Laws of Hawaii 2015, provided \$640,617,000 in fiscal year 2015-2016 and \$188,504,000 in fiscal year 2016-2017 for projects funded by general obligation bonds. Your Committee on Conference has reduced funds in fiscal year 2015-2016 for a total appropriation of \$636,767,000 and added funds in fiscal year 2016-2017 for a total appropriation of \$1,159,637,000 for projects funded by general obligation bonds, and provided \$2,517,960 for fiscal biennium 2015-2017 for projects funded by all other means of financing.

Highlights of the capital improvements program budget for the biennium include:

- (1) Water irrigation systems repairs for the Department of Agriculture, totaling \$26,000,000 in general obligation bond funds for fiscal year 2016-2017;
- (2) Government financial system upgrades for the Department of Accounting and General Services, totaling \$15,000,000 in general obligation bond funds for fiscal year 2016-2017, \$10,000,000 for health and safety at Aloha Stadium for fiscal year 2016-2017, and adding \$11,200,000 in general obligation bond funds in fiscal year 2016-2017 for lump sum health and safety, totaling \$23,200,000 for the 2015-2017 fiscal biennium;

- (3) A rental housing revolving fund capital infusion of \$36,600,000 in general obligation bond funds and a dwelling unit revolving fund capital infusion of \$25,000,000 in general obligation bond funds for fiscal year 2016-2017 to expand affordable housing statewide;
- (4) Lump sum condition, capacity, equity, and program support for Department of Education schools, adding \$50,000,000 in general obligation bond funds in fiscal year 2016-2017 for a total of \$295,768,000 for the 2015-2017 fiscal biennium;
- (5) Funding for construction for the Hawaii State Hospital totaling \$160,500,000 in general obligation bond funds in fiscal year 2016-2017;
- (6) Funding to support repair and maintenance for Hawaii public housing, totaling \$35,150,000 in general obligation bond funds for fiscal year 2016-2017;
- (7) Lump sum repair and maintenance for the Department of Public Safety, adding \$64,400,000 in general obligation bond funds in fiscal year 2016-2017 for a total of \$76,900,000 for the 2015-2017 fiscal biennium; and
- (8) Support for repair and maintenance at University of Hawaii campuses, including \$25,000,000 in general obligation bond funds for community colleges and \$48,625,000 in general obligation bond funds for University of Hawaii systemwide support in fiscal year 2016-2017.

Your Committee on Conference has also provided funding for deferred maintenance and health and safety, including appropriations to, among others, the Department of Defense; Department of Hawaiian Home Lands; Department of Land and Natural Resources; and Department of Business, Economic Development, and Tourism.

Additionally, your Committee on Conference believes that investment in airports, harbors, and highways is necessary to address the continued influx of visitors, the efficient transport of goods within and without the State, and the day-to-day needs of our residents. Your Committee on Conference has demonstrated its commitment to transportation projects by appropriating \$2,262,849,000 for fiscal biennium 2015-2017 for the Department of Transportation, including \$469,997,000 for highways statewide.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1700, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1700, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.

Ayes, 15. Noes, none. Excused, none.

Conf. Com. Rep. 141-16 on H.B. No. 2626

The purpose of this measure is to place restrictions on permits for underground storage tanks.

Specifically, this measure:

- (1) Beginning July 1, 2016, prohibits the Department of Health from issuing a permit for any new underground storage tank within one hundred yards of the shoreline;
- (2) Beginning January 1, 2020, requires the Department of Health to work with and assist owners of permitted underground storage tanks within one hundred yards of the shoreline to relocate or phase out their use of the underground storage tanks by January 1, 2045; and
- (3) Beginning January 1, 2045:
 - (A) Prohibits any person from operating an underground storage tank within one hundred yards of the shoreline; and
 - (B) Prohibits the renewal of any permit for an underground storage tank within one hundred yards of the shoreline.

Your Committee on Conference finds that climate change is real and that rising sea levels threaten the quality of life in Hawaii. Based on this finding, your Committee on Conference believes that the inundation of underground storage tanks poses risks to the aquifer as well as coastal water quality and marine ecosystems. Therefore, the phasing out of underground storage tanks within one hundred yards of the shoreline is in the best interest of the public's health, safety, and welfare.

Your Committee has amended this measure by:

- (1) Removing the requirement that the Department of Health work with and assist owners of permitted underground storage tanks within one hundred yards of the shoreline to relocate or phase out their use of the underground storage tanks by January 1, 2045;
- (2) Specifying that this measure applies to underground fuel storage tanks; and
- (3) Making technical amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2626, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2626, H.D. 1, S.D. 2, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Wakai, Gabbard and Baker.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Yamane, Rhoads, Luke and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Conf. Com. Rep. 142-16 on H.B. No. 2646

The purpose of this measure is to establish a fuel tank advisory committee to study issues related to leaks of certain fuel storage tanks throughout the State.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation for the fuel tank advisory committee;
- (2) Changing its effective date to July 1, 2016; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2646, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2646, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Inouye and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Lee, Yamane, Lowen, Johanson and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 143-16 on H.B. No. 2569

The purpose of this measure is to appropriate general funds and the proceeds of general obligation bonds to the Department of Education for air conditioning, heat abatement, energy efficient lighting, and related energy efficiency measures at public schools.

Your Committee on Conference finds that the temperatures in many Hawaii public school classrooms often exceed levels that are optimal for learning and, in certain classrooms, may jeopardize the safety of students and teachers. While your Committee on Conference believes that air conditioning and heat abatement are necessary to improve the learning environment in the State's public schools, your Committee on Conference believes that the State's students and teachers will be best served if the contents of this measure were included in another measure. Your Committee on Conference also believes that this measure can still serve as a vehicle to require the Department of Education to cool Hawaii's public school classrooms, provide students and teachers with a better environment for learning, reduce the Department of Education's energy costs, and achieve progress toward the State's renewable energy goals.

Accordingly, your Committee on Conference has amended this measure by deleting its contents and inserting language from Senate Bill No. 3126, H.D. 2. More specifically, the amended measure requires the Department of Education to:

- (1) Establish a goal of becoming net-zero with respect to energy use by January 1, 2035;
- (2) Expedite the cooling of all public school classrooms; and
- (3) Submit an annual report to the Legislature containing information about its progress toward the net-zero energy goal and the cooling of all public school classrooms.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2569, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2569, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Inouye and Tokuda.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Inouye).

Representatives Lee, Takumi, Luke, Lowen, Yamashita and Pouha.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 144-16 on H.B. No. 2772

The purpose of this measure is to promote a safe environment free from sexual harassment, sexual assault, domestic violence, dating violence, and stalking at the University of Hawaii. More specifically, this measure:

- (1) Requires the University of Hawaii to:
 - (A) Train all employees and students on sexual harassment, sexual assault, domestic violence, dating violence, and stalking laws and policies;
 - (B) Designate a confidential advocate for students at each of its campuses and provide certain contact information of confidential advocates on the website of each respective campus;
 - (C) Make available to students and employees written and electronic materials and training programs concerning Title IX of the Higher Education Amendments of 1972; the Violence Against Women Act of 1994; and University of Hawaii policies concerning sexual harassment, sexual assault, domestic violence, dating violence, and stalking;
 - (D) Inform victims in writing of the right to file a police report with the appropriate county police department for investigation and assist victims in submitting the police report; and
 - (E) Conduct a campus climate survey of all students every two years, beginning no later than December 31, 2016;
- (2) Designates all faculty members as "responsible employees" required to report any violations of University of Hawaii executive policies regarding sexual harassment, sexual assault, domestic violence, dating violence, and stalking to the Title IX Coordinator;
- (3) Requires the confidential advocate to annually provide general statistics to the Title IX Coordinator on the number and type of incidents received by the confidential advocate;
- (4) Provides that any student who reports an incident of sexual assault, including incidents in which the student making the report is under the age of 21 and has consumed alcohol, will not be subject to disciplinary action by the University of Hawaii for acts evidenced by information provided by the student or information obtained based upon information provided by the student;
- (5) Requires the University of Hawaii to revise executive policies that conflict with policies that are the subject of required training and reporting under this measure and to enter into memoranda of understanding with police departments regarding sexual assault; and
- (6) Makes an appropriation in an unspecified amount.

Your Committee on Conference has amended this measure by:

- (1) Modifying the deadline by which all existing University of Hawaii employees must be provided with training on sexual harassment, sexual assault, domestic violence, dating violence, and stalking laws and policies;
- (2) Removing the provision that any student who reports an incident of sexual assault, including incidents in which the student making the report is under the age of 21 and has consumed alcohol, will not be subject to disciplinary action by the University of Hawaii for acts evidenced by information provided by the student or information obtained based upon information provided by the student;
- (3) Requiring all University of Hawaii employees and students to complete required training on sexual harassment, sexual assault, domestic violence, dating violence, and stalking laws and policies, or possibly be subject to fines, sanctions, or other discipline, as deemed appropriate by the University of Hawaii;
- (4) Modifying the deadline by which the University of Hawaii must begin conducting the campus climate survey of all students;
- (5) To ensure compliance with Title IX of the federal Education Amendments of 1972, as amended, and the Violence Against Women Act of 1994, as amended:
 - (A) Appropriating \$250,000 for fiscal year 2016-2017 to the University of Hawaii at Manoa;
 - (B) Appropriating \$160,000 for fiscal year 2016-2017 to the University of Hawaii at Hilo; and
 - (C) Appropriating \$150,000 for fiscal year 2016-2017 to the University of Hawaii Community Colleges;
- (6) Changing its effective date to July 1, 2016; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2772, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2772, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 145-16 on H.B. No. 2363

The purpose of this measure is to amend Hawaii's laws on workers' compensation (WC) and temporary disability insurance (TDI) to:

- (1) Exclude the following from providing TDI coverage for services they provide for themselves: sole proprietors, an individual partner of a partnership, a partner of a limited liability partnership with an interest of at least 50 percent, an individual member of a limited liability company with a distributional interest of at least 50 percent, or individual owning at least 50 percent of a corporation;
- (2) Allow the Director of Labor and Industrial Relations to receive electronic copies of injury and other reports;
- (3) Increase the penalty for employers who do not have TDI coverage for employees from not less than \$25 or \$1 per employee per day, to not less than \$500 or \$100 per employee per day;
- (4) Increase the penalty from not more than \$2,500 to not more than \$5,000 against an employer or insurance carrier for failure to make correct or timely benefit payments or to terminate such benefits without approval or statutory cause;
- (5) Increase the maximum penalty for a physician's failure to file medical reports from \$250 to \$500, and for an employer's failure to provide copies of requested medical reports from \$1,000 to \$5,000;
- (6) Increase the penalty for employers who do not have WC coverage for employees from not less than \$250 or \$10 per employee per day, to not less than \$500 or \$100 per employee per day; and
- (7) Increase the penalty from not more than \$2,500 to \$5,000 against an employer for the deduction of premium payments from an employee's wages in violation of chapter 386, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2363, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2363, H.D. 1, S.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (Aquino).

Conf. Com. Rep. 146-16 on H.B. No. 1046

The purpose of this measure is to provide compensation and expungement of conviction to persons who can demonstrate they were wrongfully convicted and imprisoned when actually innocent.

Your Committee on Conference finds that this measure will help wrongfully convicted persons by providing compensation and expungement of conviction to persons who can demonstrate that they were wrongfully convicted and imprisoned when actually innocent. Your Committee on Conference notes that the language in this measure is substantially similar to the draft legislation proposed by the Hawaii Chapter of the American Judicature Society Special Committee on Redress for Unlawful Imprisonment. The Special Committee reviewed statutes from other states and proposed language that balances the interests of an allegedly wrongfully imprisoned petitioner with the State's limited resources.

Innocent persons who have been wrongly convicted of crimes and subsequently imprisoned have been uniquely victimized, have distinct challenges re-entering society, and have difficulty achieving legal redress due to a variety of substantive and technical obstacles in the law. These persons face distinct challenges upon re-entering society and have difficulty achieving legal redress due to a variety of substantive and technical obstacles in the law. Your Committee on Conference finds that these individuals deserve a process of redress over and above the existing tort remedies to seek compensation for damages from the jurisdiction that wrongly convicted and imprisoned them.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1046, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1046, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 147-16 on H.B. No. 1902

The purpose of this measure is to establish a victim and survivor-centered approach to comprehensive anti-sex trafficking laws by:

- (1) Replacing the offense of Promoting Prostitution in the First Degree with Sex Trafficking, a class A felony and violent crime;
- (2) Establishing a class C felony for the act of paying for sex in reckless disregard of the fact that the other person is a victim of sex trafficking;
- (3) Specifying that the offense of Sex Trafficking requires proof of negligence with respect to the victim's age when the victim of sex trafficking is under 18 years of age;
- (4) Specifying that when a minor under the age of 18 commits the act of engaging in or offering to engage in sexual conduct with another person for a fee, it is not a criminal offense, but rather a violation that subjects the minor to the jurisdiction of the family court;
- (5) Making amendments to strengthen the enforcement of laws and increase penalties against the sex trafficker;
- (6) Expanding the Department of the Attorney General's Statewide Witness Program to include sex trafficking;
- (7) Providing victims with access to criminal injury compensation; and
- (8) Amending laws relating to civil liability for cases of coercion into prostitution.

Your Committee on Conference has amended this measure by specifying that a minor may be taken into custody by a police officer without an order of a judge when there is reasonable grounds to believe that the minor received a fee to engage in prostitution.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1902, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1902, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 148-16 on H.B. No. 2156

The purpose of this measure is to reform the campaign finance laws relating to the use of campaign funds and the financing of the Campaign Spending Commission's operations. Specifically, the measure:

- (1) Increases the options available to candidate committees and noncandidate committees in their use and disposition of campaign funds;
- (2) Repeals the use of the Hawaii election campaign fund for the operating expenses of the Campaign Spending Commission; and
- (3) Appropriates general funds to the Campaign Spending Commission for operating expenses.

Your Committee on Conference has amended this measure by:

- (1) Deleting the amendment that allowed a candidate, treasurer, or candidate committee to make donations from campaign funds to private schools;
- (2) Deleting the provisions that allowed a deceased candidate's committee to use campaign funds to make donations to certain types of organizations, return the residual funds to the contributors, or both;
- (3) Deleting the amendment that would have repealed the use of Hawaii election campaign funds for Campaign Spending Commission operating expenses;
- (4) Deleting the appropriation for the Campaign Spending Commission's operating expenses; and
- (5) Making it take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2156, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2156, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 149-16 on H.B. No. 260

The purpose of this measure is to close insurance gaps associated with transportation network companies by establishing motor vehicle insurance requirements for transportation network companies and transportation network company drivers.

Your Committee on Conference has amended this measure by:

- (1) Specifying that solely for the purposes of the required motor vehicle insurance, neither a transportation network company nor a transportation network company driver shall be deemed to be a common carrier by motor vehicle, a contract carrier by motor vehicle, a motor carrier as defined in section 271-4, Hawaii Revised Statutes, a taxicab, or a for-hire vehicle service;
- (2) Clarifying the motor vehicle insurance requirements for a transportation network company driver or transportation network company on the transportation network company driver's behalf, including:
 - (A) Specifying that the insurance requirements contained in this measure shall take effect on September 1, 2016;
 - (B) Specifying that any named insured may accept or reject the optional coverages required to be offered by insurers pursuant to this measure;
 - (C) Adding additional disclosure requirements that the insurer or transportation network company must disclose to a driver where the transportation network company is the only named insured under the motor vehicle insurance policy;
 - (D) Clarifying that passengers and pedestrians continue to be entitled to their own motor vehicle insurance benefits, subject to the limitations in the transportation network company driver's or the vehicle owner's personal motor vehicle policy;
 - (E) Clarifying the records requirements for transportation network companies;
- (3) Requiring the Insurance Commissioner to conduct an annual study on the impact of this measure on personal motor vehicle insurance rates in the State and submit a report to the Legislature prior to the convening of the Regular Sessions of 2017, 2018, 2019, 2020, and 2021;
- (4) Specifying that this measure shall take effect upon its approval and be repealed on September 1, 2021; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 260, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 260, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda, Espero and Kidani.

Ayes, 3. Noes, none. Excused, 1 (Kidani).

Representatives McKelvey, Aquino, Luke and Fukumoto Chang.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Aquino).

Conf. Com. Rep. 150-16 on S.B. No. 3102

The purpose of this measure is to:

- (1) Authorize the Department of Business, Economic Development, and Tourism to develop, and any state agency to enter into, and implement inter-agency agreements without entering into a memorandum of agreement or memorandum of understanding;
- (2) Establish the high-growth grant program and high-growth grant special fund to assist qualified businesses through the provision of grants for specific business development purposes; and
- (3) Appropriate funds to be deposited into and appropriated out of the high-growth grant special fund for the high-growth grant program.

Your Committee on Conference finds that duplicate agency programs result in an ineffective use of resources. Inter-agency agreements provide agencies with an opportunity to coordinate resources and eliminate unnecessary duplication without having to enter into a memorandum of agreement or memorandum of understanding. Implementation of this measure will streamline and expedite agreements between state agencies.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the high-grant program may not provide grants to qualified businesses greater than thirty percent of the amount that is privately invested in a business; provided that the program provides no more than \$250,000 to any qualified business in one calendar year, rather than forty percent of the amount that is privately invested and an annual limit of \$400,000;
- (2) Inserting an appropriation amount of \$1,000,000 to be deposited into and appropriated out of the high-growth grant special fund for the high-growth grant program; and
- (3) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3102, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3102, S.D. 1, H.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran, Tokuda and Dela Cruz.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Kawakami, Yamashita, Kong and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 151-16 on S.B. No. 2833

The purpose of this measure is to amend the calculation of the low-income housing tax credit, including the applicable period over which the credit may be claimed from ten to five years and the establishment of different credit amounts for buildings financed by tax-exempt bonds, for the purpose of increasing available funding for affordable rental housing development.

Your Committee on Conference finds that the development of low-income affordable housing is necessary to address the issue of homelessness and respond to the critical shortage of housing inventory in the community. Increasing the investment attractiveness of state low-income housing tax credits would generate more equity to finance the development of affordable rental housing projects.

Your Committee on Conference has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2833, as introduced, which makes the state low-income housing tax credits more valuable by reducing the state tax credit period from ten to five years and specifying the amount of low-income housing tax credits that may be claimed by a taxpayer for any qualified low-income building that receives an allocation prior to January 1, 2017, and after December 31, 2016; and
- (2) Inserting a sunset date of December 31, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2833, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2833, S.D. 2, H.D. 2, C.D. 1.

Signed by the Senate President, Speaker of the House of Representatives, and Chairs on behalf of the Committee.

Senators Galuteria, Harimoto and Dela Cruz.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Harimoto).

Representatives Hashem, Jordan, Oshiro and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 152-16 on S.B. No. 2384

The purpose of this measure is to require the Department of Health to conduct unannounced visits and inspections, including inspections for relicensing and recertification, for certain state-licensed or state-certified care facilities and unannounced inspections for license renewals for medical marijuana dispensaries.

Your Committee on Conference finds that the Department of Health (Department) is responsible for licensing, certifying, and monitoring several types of facilities, including care facilities and medical marijuana production centers and dispensaries, to ensure a standard of quality. This measure requires the Department to conduct unannounced visits and inspections for state-licensed care facilities and medical marijuana production centers and dispensaries. The Department prefers that relicensing or recertification surveys be unannounced in order to maximize the effectiveness of these visits and inspections for care facilities, production centers, and dispensaries, and to ensure improved safeguards for the public.

Your Committee on Conference further finds that it would be beneficial to have a better understanding of the number of visits and inspections conducted by the Department on certain state-licensed or state-certified care facilities, prior to implementing the unannounced visit and inspection requirements for these facilities.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Requiring the Department to submit reports to the Legislature, no later than twenty days prior to the convening of the Regular Sessions of 2017, 2018, and 2019, regarding:
 - (A) The annual aggregate numbers of announced and unannounced visits conducted by the Department on state-licensed or state-certified care facilities;
 - (B) The annual aggregate numbers of unannounced inspections conducted by the Department on state-licensed or state-certified care facilities as follow-up visits, visits to confirm corrections or deficiencies, or visits to investigate complaints or suspicions of abuse or neglect; and
 - (C) The general outcomes and corrective actions taken by the Department as a result of the visits and investigations;
- (2) Changing its effective date to July 1, 2016, and specifying that the provisions in this measure that apply to unannounced visits and inspections of state-licensed or state-certified care facilities shall take effect on July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2384, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2384, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Rhoads, Nishimoto, Cachola, McKelvey and Pouha.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 153-16 on S.B. No. 2888

The purpose of this measure is to decrease the time defendants spend in state custody waiting for forensic mental health examinations and to shorten the time to reach a ruling on fitness to proceed and penal responsibility by:

- (1) Separating examination for fitness to proceed of a defendant with respect to physical or mental disease, disorder, or defect, from examination for penal responsibility of the defendant with respect to physical or mental disease, disorder, or defect, with certain exceptions, in criminal prosecutions where the defendant's capacity is at issue; and
- (2) Specifying procedures after a finding of unfitness to proceed and regained fitness to proceed.

Your Committee on Conference finds that under section 704-404, Hawaii Revised Statutes, when a defendant's fitness to proceed comes into question, the criminal proceedings are stopped, and the court must order a physical or mental examination of the defendant to determine the defendant's fitness to proceed and whether the defendant was penally responsible for the alleged crime. It is in the best interest of the defendants for the examination process to proceed in a timely, expedient manner by separating the fitness to stand trial and the penal responsibility components of examinations and codifying procedures for appointing examiners for reevaluation of fitness.

Your Committee on Conference has amended this measure by:

- (1) Deleting redundant language related to excluding the time of completion of an examination from counting toward the time for trial commencement;
- (2) Specifying that the court may order an examination for penal responsibility to occur no sooner than one hundred twenty days, rather than within thirty days, of a finding of unfit to proceed under section 704-404, Hawaii Revised Statutes, upon a showing of good cause; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2888, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2888, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Tokuda.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 154-16 on S.B. No. 2915

The purpose of this measure is to update the Uniform Controlled Substances Act for consistency with amendments in federal law, as required by section 329-11, Hawaii Revised Statutes.

Your Committee on Conference finds that drug scheduling in Hawaii is generally kept in accordance with federal standards. Federal standards change as new chemical compounds are developed and cataloged by law enforcement. Additionally, Hawaii has unique needs stemming from state initiatives and programs such as the electronic prescription accountability system and the medical marijuana program. Developments on the federal and state level require an update to the drug scheduling statutes in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Adding a Code of Federal Regulations reference that relates to controlled substance registration to the definition of "reverse distributor" in section 329-1, Hawaii Revised Statutes;
- (2) Reinstating a provision in section 329-33(c), Hawaii Revised Statutes, that allows federally registered practitioners to conduct research with schedule I substances within this State upon furnishing evidence of registration;
- (3) Adding exceptions to the prohibition on the prescription or dispensing of a schedule II narcotic controlled substance for more than thirty days under certain circumstances;
- (4) Deleting language that would have required administrative fines collected for violations of chapter 329, Hawaii Revised Statutes, to be deposited into the controlled substance registration revolving fund rather than the general fund;

- (5) Deleting language that would have repealed section 329-31.5, Hawaii Revised Statutes, which requires qualifying clinics to register under chapter 329, Hawaii Revised Statutes;
- (6) Changing the effective date to July 1, 2016; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2915, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2915, S.D. 2, H.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Nishihara, Baker, Galuteria, Keith-Agaran and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Belatti, Rhoads, Tokioka, Hashem and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 155-16 on S.B. No. 2196

The purpose of this measure is to:

- (1) Promote law enforcement transparency and accountability by establishing a Law Enforcement Officer Independent Review Board (Board) within the Department of the Attorney General to review criminal investigations of incidents of officer-involved death conducted by law enforcement agencies and make recommendations to the respective county prosecuting attorney; and
- (2) Appropriate funds to establish the Board and for Board-related expenses.

Your Committee on Conference finds that this measure will promote greater transparency of law enforcement operations and more accountability for law enforcement actions taken by law enforcement officers. The establishment of an independent review board will provide an additional layer of independent review of those law enforcement actions.

Your Committee on Conference has amended this measure by:

- (1) Adding two community members with no law enforcement or criminal justice experience to the Board, one of whom to be appointed by the Governor and the other by the Attorney General;
- (2) Clarifying that the confidentiality protections for information submitted by a law enforcement agency to the Board for review shall not extend to records, documents, or information in the possession of another government agency;
- (3) Inserting language to require the Board to review its activities pursuant to this measure and submit a report to the Legislature of its findings and recommendations prior to the Regular Session of 2022;
- (4) Inserting an appropriation amount of \$100,000 in general revenues for the Board and Board-related expenses;
- (5) Deleting the appropriation from the criminal forfeiture fund;
- (6) Changing the effective date to July 1, 2017, with the appropriation effective on July 1, 2016;
- (7) Inserting a sunset date of June 30, 2022; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2196, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2196, S.D. 2, H.D. 1, C.D. 1.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Slom).

Representatives Rhoads, Keohokalole, San Buenaventura and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 156-16 on S.B. No. 2618

The purpose of this measure is to require the Department of Transportation to conduct a study on the feasibility of establishing an interisland and intra-island ferry system and to make an appropriation for expenses accordingly.

Your Committee on Conference finds as the only island state in the nation, Hawaii does not enjoy the benefit of being linked to other states via the federal interstate highway system or a network of interconnected state and local highways. This presents unique challenges for residents and visitors alike who may wish to travel between the islands of the State since air transportation, which can be costly, is currently the only available means of travel between the islands. While other states, such as the State of Washington, use ferry systems as a transportation alternative, Hawaii has no such system in place. Your Committee finds that an interisland ferry

system can serve as an efficient alternative for transporting passengers, cargo, farm produce, and motor vehicles between islands and that the feasibility of establishing such a system should be explored.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Transportation to report to the Legislature before the convening of the 2018 Regular Session rather than the 2017 Regular Session;
- (2) Inserting an appropriation of \$50,000 for the Department of Transportation's study; and
- (3) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2618, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2618, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, English and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Ayes, 3. Noes, none. Excused, 1 (Pouha).

Conf. Com. Rep. 157-16 on S.B. No. 2131

The purpose of this measure is to:

- (1) Establish a state fuel license tax of two cents for each gallon of naphtha sold for use in a power-generating facility;
- (2) Require deposits into the high technology special fund of monies from appropriations or other funds that are required by law to be deposited into the fund;
- (3) Authorize the Director of Finance to issue general obligation bonds in an unspecified sum for the development of an electrolysis process hydrogen production, storage, and dispensing facility;
- (4) Appropriate general funds for deposit into the high technology special fund; provided that the total amount of monies in the fund shall not exceed \$4,800,000 at the end of fiscal year 2016-2017;
- (5) Appropriate funds out of the high technology special fund for operating costs for an electrolysis process hydrogen production, storage, and dispensing facility; provided that matching funds on a dollar-for-dollar basis are provided by private enterprise; and
- (6) Require the High Technology Development Corporation to adopt administrative rules to enable the establishment, collection, and deposit into the high technology special fund of fees imposed on the sale of hydrogen made commercially available at facilities that are funded in whole or in part by this measure.

Your Committee on Conference finds that in 2007, the Legislature enacted a fuel license tax on naphtha fuels sold to a power generating facility. Prior to its repeal, the tax was set at two cents per gallon. However the tax was repealed on December 31, 2015. This measure restores the fuel license tax of two cents per gallon for naphtha fuels sold to a power generating facility.

This measure also requires that any appropriations or other funds required by law to be deposited into the high technology special fund be deposited into the fund. Your Committee on Conference finds that such deposits are standard procedure for special funds.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriations and general obligation bond authorizations;
- (2) Deleting the requirement for administrative rules;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2131, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2131, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 158-16 on H.B. No. 1753

The purpose of this measure is to improve public safety by strengthening regulations regarding mopeds. Among other things, this measure:

- (1) Requires the issuance of a moped number plate and tag or emblem upon payment of fees;
- (2) Prohibits the unauthorized transfer of current number plates, tags, and emblems for mopeds;
- (3) Requires an owner of a moped to affix the number plates and tag or emblem to the owner's moped;
- (4) Prohibits a person from operating a moped that is not in good working order on any highway;
- (5) Extends to mopeds certain police powers regarding the inspection of vehicles believed to be unsafe or without required equipment;
- (6) Prohibits a person from operating or parking any moped on a public highway, without a current official certificate of inspection; and
- (7) Subjects mopeds to annual certificate of inspection requirements.

Mopeds provide a cheaper alternative mode of transportation to driving a motor vehicle, and moped use continues to grow in popularity. According to the City and County of Honolulu, the number of registered mopeds in Honolulu increased every year between 2006 and 2012. With the increase in the use of mopeds, traffic safety concerns grow regarding this type of vehicle. Your Committee on Conference finds that public safety on Hawaii's roadways is paramount and that establishing safety inspections and registration requirements for mopeds, as well as the issuance and use of number plates for mopeds, thereby increasing roadway safety in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Making the requirements for registration and the issuance of a moped number plate and tag or emblem to chapter 249 (County Vehicular Taxes), Hawaii Revised Statutes (HRS), as this Chapter is more appropriate and already includes provisions regarding mopeds and moped fees;
- (2) Making numerous conforming amendments to various sections of chapter 249, HRS, to address the newly established moped number plate and tag or emblem requirements and fees;
- (3) Stipulating that the registration of mopeds shall occur on a staggered basis as agreed upon by the counties' director of finance;
- (4) Establishing the registration fee for mopeds at \$27;
- (5) Increasing the penalty for seizure of a bicycle or moped due to liability for the payment of required fees or the lack of a license plate, emblem, tag, or decal affixed as required by law from \$1 to \$25;
- (6) Allowing the director of finance of a county to establish the fee for a duplicate moped license plate;
- (7) Clarifying that mopeds are exempt from producing and displaying a motor vehicle insurance card for the purposes of annual inspection requirements;
- (8) Changing its effective date to January 1, 2017;
- (9) Specifying that the staggering of the registration and issuance of license plates for current permanent registered mopeds be completed by December 31, 2017: and
- (10) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1753, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1753, H.D. 3, S.D. 2, C.D. 1.

Conf. Com. Rep. 159-16 on H.B. No. 2049

The purpose of this measure is to address responsibility for the repair and maintenance of privately owned highways. Among other things, this measure:

- (1) Exempts the State and counties that condemn a privately owned highway, road, alley, street, way, lane, bikeway, bridge, or trail from laws or rules that would require construction, reconstruction, preservation, resurfacing, restoration, or rehabilitation upon it for an unspecified number of years;

- (2) Exempts highways, roads, alleys, streets, ways, lanes, bikeways, bridges, or trails constructed and completed in accordance with construction code requirements in effect at the time of construction and completion from meeting construction standards in place at the time of transfer to the county;
- (3) Establishes a Commission on Remnant Private Roads to identify all roads by street address and tax map key number located in the State and in each county that are deemed to be remnant private roads;
- (4) Authorizes the Commission on Remnant Private Roads to assign ownership of identified remnant private roads to the State or county and requires the Commission to report to the Legislature prior to the convening of the Regular Session of 2018 identifying the remnant private roads; and
- (5) Appropriates unspecified funds for the Commission on Remnant Private Roads to identify all roads by street address and tax map key number located in the State and in each county that are deemed to be remnant private roads.

While federal, state, and county agencies maintain jurisdiction over, and are responsible for, the repair and maintenance of the majority of roads throughout Hawaii, there are numerous roads throughout the State that are privately owned. A number of these roads are termed remnant roads, or roads that abut or are sandwiched between sections of county-owned roads, that should have been dedicated to the county by developers, but were not for unknown reasons. Over the decades, these roads have remained open to the public with unrestricted access, including access for cars, buses, and refuse trucks. However, questions still remain as to who is responsible for the repair and maintenance of such roads.

After deliberating on this measure, your Committee on Conference finds that this measure, as amended, offers solutions that are acceptable to all concerned parties.

Your Committee on Conference has amended this measure by:

- (1) Renaming the Commission on Remnant Private Roads as the Roads Commission;
- (2) Changing the composition of, as well as the number of members on, the Roads Commission;
- (3) Providing procedures for the filling of vacancies on the Roads Commission and the election of a chair and vice chair of the Roads Commission;
- (4) Establishing quorum requirements of the Roads Commission;
- (5) Stipulating that Roads Commission members serve without compensation but may be reimbursed for certain necessary expenses;
- (6) Changing and limiting the scope of the work of the Roads Commission to include, among other things: review studies on disputes regarding private roads, provide an opinion on the ownership of certain private roads, advise the appropriate legislative body of the determination of ownership of the private roads, and recommend of action to the appropriate legislative body regarding the private road, including the initiation of condemnation proceedings as appropriate;
- (7) Clarifying the powers and duties of the Roads Commission;
- (8) Stipulating that members of the Roads Commission shall not be subject to the Ethics Code solely because of the members participation on the Roads Commission;
- (9) Expanding the State and counties' authority to condemn highways, roads, alleys, streets, ways, lanes, bikeways, bridges, or trails;
- (10) Allowing any private owner of a highway, road, alley, street, way, lane, bikeway, bridge, or trail to petition the Mayor of the county in which the highway, road, alley, street, way, lane, bikeway, bridge, or county trail is located to initiate condemnation proceedings if certain conditions are met;
- (11) Exempting the State and counties from requirements to maintain or improve highways, roads, alleys, streets, ways, lanes, bikeways, bridges, or trails taken by condemnation for a period of three years;
- (12) Clarifying that highways, roads, alleys, streets, ways, lanes, bikeways, bridges, or trails constructed and completed in accordance with the requirements of any ordinance, rule, or regulation in effect at the time of construction and completion are exempt from meeting construction standards in place at the time of condemnation by the State or county, rather than at the time of transfer;
- (13) Appropriating \$2,000,000 for positions and other operating expenditures of the Roads Commission and for road repair work, including resurfacing, flood mitigation, and installation of drainage infrastructure for certain specific roads, provided that certain stipulations of acceptance of ownership by the City and County of Honolulu are met;
- (14) Inserting a severability clause;
- (15) Changing its effective date to July 1, 2016; and
- (16) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2049, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2049, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 160-16 on H.B. No. 1752

The purpose of this measure is to appropriate funds for a grant administrative support personnel position in the Office of Community Services of the Department of Labor and Industrial Relations.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the appropriation is for two full-time equivalent grant administrative support personnel positions, rather than a single position;
- (2) Appropriating the sum of \$110,000 for the purposes of funding the specified positions; and
- (3) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1752, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1752, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 161-16 on H.B. No. 2016

The purpose of this measure is to require that public retiree contributions to the Employer-Union Health Benefits Trust Fund (EUTF) be paid through withholding of retirement benefit amounts from the Employees' Retirement System (ERS); provided that beginning January 1, 2017, the EUTF shall authorize automatic electronic payments in lieu of withholdings.

Your Committee on Conference has amended this measure by:

- (1) Deleting all references to section 87A-33.5, Hawaii Revised Statutes, concerning reimbursements made by the EUTF to retirees who relocated outside of Hawaii;
- (2) Requiring the EUTF Board of Trustees to submit a report to the Legislature by January 15, 2017, on the status of the automatic electronic deductions instead of requiring an annual report;
- (3) Deleting the provision allowing a retiree or beneficiary to make a final and irrevocable one-time election to opt-out of the withholding requirement;
- (4) Changing the effective date from July 1, 2076 to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2016, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2016, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 162-16 on H.B. No. 2722

The purpose of this measure is to address unemployment insurance benefits.

More specifically, this measure:

- (1) Creates a temporary program, in counties with a population of less than 200,000, to provide additional benefits to unemployed individuals by extending their unemployment insurance benefits under certain conditions, including enrollment by the unemployed individual in an approved training or retraining course; and
- (2) Appropriates funds to the Department of Labor and Industrial Relations to implement the measure.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the program is limited to Maui County;
- (2) Adding a definition for "base period";
- (3) Clarifying that the benefit year for the most recent initial claim filed by an individual begins on or after March 1, 2015;
- (4) Clarifying the requirements for an individual to be eligible to receive a payment of state additional benefits with respect to a week of unemployment in accordance with this measure;
- (5) Clarifying that state additional benefits paid to an individual be consistent with employment security law concerning charges and noncharges for benefits;
- (6) Changing the appropriation amount from an unspecified amount to \$650,000;
- (7) Changing the effective date from July 1, 2050 to upon its approval;
- (8) Changing the repeal date from an unspecified date to October 28, 2017; and
- (9) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2722, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2722, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 163-16 on H.B. No. 2605

The purpose of this measure is to appropriate funds to establish, administer, and support job training and supportive services for individuals who are unemployed and dislocated due to the closure of Hawaiian Commercial & Sugar Company and the Makena Beach and Golf Resort on Maui.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to \$850,000;
- (2) Changing the effective date from January 7, 2059 to July 1, 2016; and
- (3) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2605, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2605, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 164-16 on H.B. No. 2008

The purpose of this measure is to ensure compliance with state public employment requirements by prohibiting state departments and agencies from temporarily employing the same person in the same position for more than two 89-day terms. This measure provides exemptions for:

- (1) Employment of the same person in the same position for eight 89-day terms within a consecutive 24-month period, subject to approval of the Governor;
- (2) Positions that are temporarily vacant due to specified circumstances; and
- (3) The counties.

Your Committee on Conference has amended this measure by clarifying that the prohibition on serial temporary employment applies to positions that are wholly funded by state general funds.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2008, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2008, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim, Tokuda, Kahele and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Nakashima, Luke, Ichiyama and Ward.
Managers on the part of the House.
Ayes, 3; Ayes with Reservations (Ward). Noes, none. Excused, 1 (Ichiyama).

Conf. Com. Rep. 165-16 on H.B. No. 2715

The purpose of this measure is to require the Department of Labor and Industrial Relations to contract with an experienced actuarial firm to perform a study on closed claims in the State's workers' compensation system.

Your Committee on Conference amended this measure by:

- (1) Requiring the Auditor, rather than the Department of Labor and Industrial Relations, to contract with an experienced actuarial firm to perform the study;
- (2) Requiring the Auditor, prior to contracting with the actuarial firm, to consult and confer with two members of the Legislature, who are selected by the Speaker of the House of Representatives and the President of the Senate, respectively, and who shall ensure that the firm selected and the parameters of the study are not biased toward the various stakeholders;
- (3) Inserting an appropriation amount of \$150,000 for the Auditor to contract with the actuarial firm to be matched by assessments from insurers and self-insureds;
- (4) Changing the effective date to July 1, 2016; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2715, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2715, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Galuteria and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, McKelvey, Keohokalole, Aquino and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 166-16 on H.B. No. 1370

The purpose of this measure is to allow the Employees' Retirement System (ERS) to make direct payments of a member or retirant's benefits to the member or retirant's spouse or former spouse pursuant to a Hawaii domestic relations order.

Your Committee on Conference amended this measure by:

- (1) Changing the effective date to July 1, 2018; and
- (2) Removing the appropriation to the Employees' Retirement System.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1370, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1370, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Taniguchi and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, San Buenaventura, Keohokalole and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 167-16 on H.B. No. 2353

The purpose of this measure is to exempt certain positions from civil service requirements. Specifically, this measure:

- (1) Restores one additional civil service-exempt deputy director position in charge of welfare for the Department of Human Services;

- (2) Authorizes the Department of Health to establish 18 forensic psychologist positions and two Hawaii State Hospital primary care physician positions, which shall be civil service-exempt for three years; and
- (3) Provides three-year civil service exemptions for various positions in the Department of Human Services, Department of Public Safety, Department of Health, Department of Labor and Industrial Relations, and the State Energy Office.

Your Committee on Conference amended this measure by:

- (1) Removing the second civil service-exempt deputy director position in charge of welfare for the Department of Human Services;
- (2) Removing the three-year civil service exemption for the various positions within the Department of Labor and Industrial Relations;
- (3) Making all energy program managers, energy program specialists, energy program assistants, and energy analysts in the State Energy Office permanently exempt rather than temporarily exempt from civil service requirements; and
- (4) Changing its effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2353, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2353, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Kahele.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke, Aquino and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Aquino).

Conf. Com. Rep. 168-16 on H.B. No. 2009

The purpose of this measure is to require the Hoisting Machine Operators Advisory Board (Board) to submit a comprehensive report to the Legislature on regulatory requirements, certification procedures, and fees relating to hoisting machine operators.

Your Committee on Conference amended this measure by:

- (1) Repealing the executive director position of the Board;
- (2) Allowing for the Board to employ a 0.5 full-time equivalent office assistant;
- (3) Amending the Hoisting Machine Operators' Certification Revolving Fund to be used to include the hiring of consultants as necessary;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2009, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2009, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Taniguchi, Kahele and Kim.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Ayes, 3; Ayes with Reservations (Tupola). Noes, none. Excused, 1 (Aquino).

Conf. Com. Rep. 169-16 on H.B. No. 1527

The purpose of this measure is to require the Department of Taxation to evaluate and make recommendations regarding the repeal of certain enumerated tax credits and tax exemptions and to report to the Legislature before the Regular Session of 2018. This measure also requires, beginning on July 1, 2018 and every five years thereafter, the Department to evaluate and make recommendations regarding new tax credits and exemptions.

Your Committee on Conference has amended this measure by:

- (1) Requiring review of enumerated, existing credits, exclusions, and deductions under state income and financial institutions taxes rather than newly enacted tax credits and exemptions;
- (2) Establishing new evaluation guidelines for the review, including determinations of tax expenditure costs over previous fiscal years, whether or not the objectives of each tax credit, exclusion, or deduction have been met and will continue to be met, and the effects of each tax credit, exclusion, or deduction on tax equity and the low-income residents of the State;

- (3) Specifying that the evaluations shall begin in 2019 and setting a schedule for evaluation of specified credits pursuant to a five-year cycle;
- (4) Specifying that the Office of the Auditor, rather than the Department of Taxation, shall perform the review;
- (5) Amending the list of specific tax credits, exclusions, or deductions to be reviewed and the years in which the review of certain credits, exclusions, or deductions is set to begin;
- (6) Removing funding provisions for the review;
- (7) Changing its effective date to July 1, 2018; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1527, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1527, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Wakai.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Wakai).

Representatives Jordan, Kobayashi, LoPresti and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 170-16 on H.B. No. 1850

The purpose of this measure is to establish a framework allowing transient accommodations brokers to register as tax collection agents for the collection and remittance of general excise and transient accommodations taxes owed by transient accommodations operators and plan managers using the broker's services.

Your Committee on Conference finds that the State should make more effort to ensure that operators of alternative accommodations, such as those potentially covered by this measure, pay their fair share of applicable transient accommodations taxes and general excise taxes.

Specifically, this measure is intended to increase compliance by operators of alternative accommodations with their obligation to pay transient accommodations taxes and general excise taxes by allowing a transient accommodations broker to collect and remit these taxes on behalf of their operators and plan managers. This measure is not intended to preempt or affect the authority of or exercise by the counties of their land use regulatory powers.

Your Committee on Conference also finds that it is incumbent upon the Department of Taxation to diligently monitor and review the implementation of this measure to ensure that all transient accommodations taxes and general excise taxes are properly paid and to appropriately exercise the Department of Taxation's authority to review and examine the payments and information provided under this measure, so that, prior to the expiration of this measure in five years, the Department of Taxation is able to provide the Legislature with a clear and comprehensive understanding of the effectiveness of this measure.

Your Committee on Conference has amended this measure by:

- (1) Specifying that a registered transient accommodations broker tax collection agent must include, with their filing of monthly or other periodic returns as required by section 237-30, Hawaii Revised Statutes, taxable income, gross transient accommodations rentals, and other information regarding the agent's business activity;
- (2) Clarifying the licensure procedure for a registered transient accommodations broker tax collection agent's represented operators and plan managers;
- (3) Establishing notification and disclosure procedures for transient accommodations broker tax collection agents regarding their notification duties to both operators and plan managers using their services and to the Director of Taxation;
- (4) Amending land use compliance provisions to require operators or plan managers to attest, rather than verify by written certification, verification, or permit issued by an appropriate county agency, that the subject property complies with applicable land use laws;
- (5) Specifying that the provisions of this measure do not compromise the authority of the Department of Taxation to conduct audits, investigations, hearings, or issue subpoenas under section 231-7, Hawaii Revised Statutes;
- (6) Requiring each transient accommodations broker tax collection agent to submit an annual report to the Director of Taxation regarding aggregate data for the total number of operators and plan managers represented by the agent and the total amount of taxes remitted by the agent on a county-by-county basis;
- (7) Establishing a five-year sunset that specifies that the provisions of the measure shall be repealed on December 31, 2021, and shall not apply to taxable years beginning after December 31, 2021; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1850, H.D. 1, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1850, H.D. 1, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Baker and Tokuda.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Jordan, Onishi, Yamashita and Fukumoto Chang.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 171-16 on H.B. No. 2482

The purpose and intent of this measure is to create greater transparency in health care by broadening the scope of health care information that is submitted to the State Health Planning and Development Agency.

Specifically, this measure:

- (1) Requires health care providers and all payers of claims for health care services to submit data and information related to health and health care to the State Health Planning and Development Agency, consistent with all state and federal data use and disclosure, privacy, security, and confidentiality laws;
- (2) Specifies that information to be submitted to the State Health Planning and Development Agency includes health care services claims and payment data, including information about the nature of reimbursement and any fees, discounts, incentives, or performance payments affecting the rate of reimbursement;
- (3) Specifies that the State Health Planning and Development Agency shall not disclose any individual patient's personal health information in violation of state or federal law;
- (4) Requires the State Health Planning and Development Agency to submit the acquired data to a University of Hawaii data center; and
- (5) Requires the entity accepting health care services claims and payment data to enter into a negotiated data sharing agreement with any payer or insurer before data is submitted.

Your Committee on Conference finds that reporting health care services claims and payment information to the State Health Planning and Development Agency would support the collection and analysis of medical treatment claims and payment information. This, in turn, would promote transparency in the health care sector and support public policy decision making.

Your Committee on Conference further finds that the rising health care costs borne by the State for its public employees, public sector retirees, Medicaid recipients, and others necessitates a thorough and thoughtful analysis of health care, dental care, and prescription drug claims made under insurance plans that are funded with state moneys. Your Committee on Conference believes that the collection and analysis of claims data and other information from providers of health insurance that provide health benefits funded by the Hawaii Employer-Union Health Benefits Trust Fund and the state Medicaid agency would offer policymakers additional tools to understand the drivers of medical care costs. Your Committee on Conference intends for this measure to facilitate the collection and analysis of information relating to the provision of health, dental, and prescription drug benefits, enrollment data, claims reimbursements, and any other information required by the State Health Planning and Development Agency to determine health benefit costs. Your Committee on Conference further notes that in gathering and analyzing health information and claims data, it will be of critical importance to preserve patient privacy and maintain the security of patient information, patient identifiers, and other protected information.

Your Committee on Conference has amended this measure by:

- (1) Beginning November 1, 2016, requiring providers of health insurance that provide health benefit plans funded by the Hawaii Employer-Union Health Benefits Trust Fund or the state Medicaid agency to provide the State Health Planning and Development Agency with administrative data required by the agency to determine health benefits costs;
- (2) Authorizing, but not requiring, providers of health insurance not included in paragraph (1) to provide similar administrative data to the State Health Planning and Development Agency;
- (3) Requiring the State Health Planning and Development Agency to submit collected data to the College of Social Sciences, Social Sciences Research Institute, Pacific Health Informatics and Data Center at the University of Hawaii for processing and assignment of encrypted identifiers;
- (4) After July 1, 2018, authorizing the State Health Planning and Development Agency to designate another data center to receive collected data;
- (5) Authorizing the State Health Planning and Development Agency to contract with entities to analyze collected data for the purpose of benefitting Medicare and Medicaid recipients, public employees, and public sector retirees and for other public purposes;
- (6) Requiring the State Health Planning and Development Agency to develop and update an annual plan for the analysis, maintenance, and publication of collected data, and requiring the agency to seek approval for the annual plan from the Director of Health, the Administrator of the MedQuest Division of the Department of Human Services, and the Chief Information Officer of the State;
- (7) Directing the State Health Planning and Development Agency to adopt administrative rules for the provision of data, including rules for data security and privacy protection;
- (8) Inserting multiple provisions to provide for the protection of private patient health information;

- (9) Authorizing the State Health Planning and Development Agency to acquire federal Medicare data sets specific to Hawaii and directing any public agency that possesses such data to share it with the State Health Planning and Development Agency at no additional cost;
- (10) Requiring the State Health Planning and Development Agency to submit an annual report to the Legislature on the submission, maintenance, and use of data submitted to the agency;
- (11) Defining the term “provider of health insurance” to include providers of medical, hospital, surgical, prescription drug, vision, or dental insurance benefits, including third party administrators;
- (12) Defining the term “administrative data” and specifying the types of data to be submitted to the State Health Planning and Development Agency;
- (13) Directing the State Health Planning and Development Agency to adopt, without regard to the notice and hearing requirements of Chapter 91, Hawaii Revised Statutes, interim rules for the provision of data, which remain effective until June 30, 2017, or until the adoption of permanent administrative rules;
- (14) Directing the State Health Planning and Development Agency to submit a report to the Legislature in 2017 and 2018 on:
 - (A) The progress of establishing procedures for submitting data to the agency;
 - (B) The means of financing, use, and status of any state or federal moneys received for the purposes of establishing or contracting the services of a data center to collect and process data; and
 - (C) The means of financing, use, and status of any state or federal moneys received for the purposes of contracting the services of private entities to analyze data; and
- (15) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2482, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2482, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tokuda, Kidani and Nishihara.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Belatti, McKelvey, Luke, Choy and Fukumoto Chang.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Luke, Choy).

Conf. Com. Rep. 172-16 on H.B. No. 1072

The purpose of this measure is to authorize the Board of Psychology to grant prescriptive authority privilege to prescribing psychologists who meet specific education, training, and registration requirements.

Your Committee on Conference notes that the mental health needs of the State continue to outweigh present capacity. According to the National Alliance on Mental Illness and the federal Substance Abuse and Mental Health Services Administration, approximately 32,000 adults in Hawaii, representing more than three percent of the population, live with serious mental illness. However, this figure may not completely reflect the scope of need, as it does not include individuals with other clinical diagnoses such as unipolar depression, anxiety disorders, adjustment disorders, substance abuse, or post-traumatic stress disorder. Furthermore, the United States Department of Health and Human Services states that in 2014, one in five American adults experienced a mental health issue and one in twenty-five Americans lived with a serious mental illness, such as schizophrenia, bipolar disorder, or major depression. Authorizing prescriptive authority to prescribing psychologists will improve access to safe, high quality health care in the State, particularly in the State’s rural and underserved communities.

According to a Report on Findings from the Hawaii Physician Workforce Assessment Project (December 2014), physician shortages, including psychiatry, are highest in Hawaii’s rural areas. Across the different counties, the greatest shortage of psychiatrists is found in Maui County, which has a 41.2 percent shortage, followed by Hawaii County, with a 39.2 percent shortage, and Kauai County, which has a 29.5 percent shortage. The report reflects no shortage of psychiatrists in the City and County of Honolulu.

Your Committee on Conference has amended this measure by:

- (1) Specifying that prescriptive authority shall be granted only to qualified psychologists practicing in a county with a population of less than 500,000;
- (2) Specifying that the patient’s primary care provider with whom a prescribing psychologist is required to consult and collaborate must be a licensed physician or osteopathic physician;
- (3) Specifying that the Board shall begin accepting applications for prescriptive authority privilege on July 1, 2017;
- (4) Adding a severability clause;
- (5) Making it effective on July 1, 2016, and adding a sunset date of August 31, 2024; and
- (6) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1072, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1072, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Tokuda, Kidani and Ruderman.

Managers on the part of the Senate.

Representatives Belatti, McKelvey, Nishimoto and San Buenaventura.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 173-16 on H.B. No. 2707

The purpose of this measure is to improve the operation and oversight of the State's medical marijuana program.

More specifically, this measure, among other things:

- (1) Requires the Department of Health and licensed medical marijuana dispensaries to provide aggregated de-identified data to the Department of Business, Economic Development, and Tourism upon request;
- (2) Amends various definitions and provisions establishing procedures and restrictions regarding medical marijuana dispensary operations, products, paraphernalia, data collection, transportation, and testing;
- (3) Provides that advanced practice registered nurses may certify patients for medical marijuana use;
- (4) Clarifies business procedures for dispensaries, including excluding dispensaries from enterprise zone tax exemptions and setting restrictions for dispensaries in the utilization of subcontracting operators and service contractors;
- (5) Specifies the application and non-application of certain provisions of the Internal Revenue Code to expenses related to the production and sale of medical marijuana and manufactured marijuana products for state income tax purposes;
- (6) Clarifies that amounts received for the sale of marijuana or manufactured marijuana products are not exempt from the state general excise tax;
- (7) Authorizes certain University of Hawaii branches to establish medical marijuana testing and research programs that qualify as commercial enterprises to provide testing services for medical marijuana dispensaries; and
- (8) Establishes a legislative oversight working group to develop and recommend legislation to improve the medical marijuana dispensary system.

Your Committee on Conference notes that Act 241, Session Laws of Hawaii 2015, established a licensing scheme for a statewide system of medical marijuana dispensaries to ensure access to medical marijuana for qualifying patients.

Your Committee on Conference finds that it is necessary to clarify and amend certain statutes pertaining to the State's medical marijuana program consistent with guidance provided in the August 29, 2013, memorandum to all United States Attorneys from Deputy Attorney General James M. Cole regarding the exercise of federal prosecutorial discretion in states with laws authorizing marijuana cultivation and distribution for medical use. The memorandum emphasized that jurisdictions that have enacted laws legalizing marijuana in some form and that have also implemented strong and effective regulatory and enforcement systems to control the cultivation, distribution, sale, and possession of marijuana in compliance with the jurisdiction's laws and regulations are less likely to implicate the federal government's priorities regarding the prohibition of marijuana and criminal activities that may be associated with marijuana, and thus are less likely to experience federal enforcement activities.

Your Committee on Conference further finds that ensuring safe access to medical marijuana for qualifying patients through a regulated and monitored system of safe, efficient, and responsibly operated medical marijuana dispensaries is in the best interest of the State.

Your Committee on Conference has amended this measure by:

- (1) Providing that certain prohibitions related to drug paraphernalia shall not apply to persons authorized to use, facilitate the use of, or dispense medical marijuana;
- (2) Deleting certain unnecessary definitions and establishing a definition of "plant" for purposes of tracking a licensed dispensary's inventory of medical marijuana;
- (3) Providing that a dispensary, licensed pursuant to a license application or license renewal application submitted after January 29, 2016, may operate a production center that includes a transparent or translucent roof, in compliance with applicable building codes and regulations, after notice to the Department of Health;
- (4) Clarifying that authorized state employees and law enforcement officials acting in their official capacity may touch or handle marijuana or manufactured marijuana products in dispensary facilities;
- (5) Reformatting, for ease of reference, statutory language regarding background checks;
- (6) Clarifying that after January 1, 2017, all members of a limited liability company dispensary applicant or licensee, pursuant to a license application or license renewal application submitted after January 29, 2016, shall be subject to criminal history record checks;

- (7) Changing the effective date from July 1, 2050, to July 1, 2016; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2707, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2707, H.D. 1, S.D. 2, C.D. 1.

STANDING COMMITTEE REPORTS

SCRep. 2001 Judiciary and Labor on H.B. No. 813

The purpose and intent of this measure is to clearly establish:

- (1) That in accordance with Article III, section 7, of the Hawaii State Constitution, legislators are exempt from the fair treatment law when exercising legislative functions; and
- (2) That the fair treatment law exemption, the financial disclosure statements, and the phrase "official action" as applied to task force members, are distinct and separate from similar provisions, and the phrase "official action" as applied to legislators.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and League of Woman Voters of Hawaii.

Your Committee finds that during the Regular Session of 2012, the Legislature amended the Code of Ethics to exempt task force members from the fair treatment law. The amendment sought to duplicate the constitutionally based fair treatment exemption for legislators by including task force members, but with additional language to maintain a distinction between legislators and task force members. The State Ethics Commission testified that the amendment created some confusion as to the application of the amendment to legislators, and that prior to the amendments made in 2012, the exemption from the fair treatment law for legislators who exercised their legislative functions was consistent with the Hawaii State Constitution.

Your Committee finds that the distinction between legislators and task force members in the application of the fair treatment exemption of the Code of Ethics must be clear. Accordingly this measure reinstates the fair treatment exemption for legislators as it existed prior to 2012 and adds a separate paragraph to address the fair treatment law exemption and financial disclosure statement requirement for task force members.

Your Committee has amended this measure by inserting an effective date of January 1, 2017.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 813, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 813, H.D. 3, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kahele, Kim).

SCRep. 2002 Judiciary and Labor on S.B. No. 2032

The purpose and intent of this measure is to:

- (1) Clarify the filing due dates of preliminary reports before certain types of elections; and
- (2) Specify that a candidate and treasurer of the candidate committee are required to file a supplemental report on January 31 every year, regardless of whether it is an election or nonelection year.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing law regarding the filing due dates of preliminary, final, and supplemental reports may be confusing, especially to new political candidates. This measure clarifies these important reporting deadlines to ensure better compliance with campaign expenditure reporting requirements. Your Committee further finds that the current practice for candidates is to file supplemental reports on January 31 of every year; not only on January 31 after an election year. This measure aligns the law with present practice.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2032, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2032, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kahele).

SCRep. 2003 Judiciary and Labor on S.B. No. 2030

The purpose and intent of this measure is to specify that the dissemination, distribution, republication, or use of campaign material, financed by any person, is not considered a contribution to a candidate if the campaign material is:

- (1) Prepared and used by candidates for governor or lieutenant governor, or their candidate committees, supporting a co-candidate in the general election;
- (2) Disseminated, distributed, or republished by the candidate or the candidate committee that prepared the material;
- (3) Incorporated into an advertisement or electioneering communication advocating the defeat of the candidate that prepared that material; or
- (4) Incorporated into a news story or editorial disseminated by any independent broadcast station or publisher of periodicals or newspapers.

Your Committee received testimony in support of this measure from the Campaign Spending Commission. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing law requires that the financing by any person of the dissemination, distribution, or republication of campaign materials is considered a contribution to the respective candidate, with an exception for candidates for governor or lieutenant governor supporting a co-candidate in the general election. However, under federal regulations, there are several types of campaign materials that are exempt from constituting a contribution for the purposes of contribution limitations and reporting requirements. Modeled after federal regulations, this measure specifies that the dissemination, distribution, republication, or use of certain campaign material, financed by any person, is not considered a contribution to a candidate.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2030, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2030, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kim, Slom). Noes, none. Excused, 1 (Kahele).

SCRep. 2004 Judiciary and Labor on S.B. No. 2114

The purpose and intent of this measure is to increase the penalty from \$1,000 to \$10,000 for a person providing false information on a voter registration application during the late registration period or at an absentee polling place.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the County Clerk, County of Maui; Common Cause Hawaii; and League of Women Voters of Hawaii.

Your Committee finds that providing false information on a voter registration application during the late registration period or at an absentee polling place is a class C felony with a penalty of \$1,000. Existing law provides that a person convicted of a class C felony may be sentenced to pay a fine not to exceed \$10,000. This measure increases the penalty for providing false information to be consistent with the maximum penalty for a class C felony.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2114, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2114, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Kahele).

SCRep. 2005 Judiciary and Labor on S.B. No. 2029

The purpose and intent of this measure is to:

- (1) Increase the amounts of fines that may be assessed against any person other than an individual, rather than only a corporation, organization, association, or labor union, for campaign spending violations;
- (2) Allow the Campaign Spending Commission to recover costs incurred from violators including but not limited to the cost of investigative services; and
- (3) Direct monies collected for costs recovered by the Campaign Spending Commission to be deposited in the Hawaii election campaign fund.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, and League of Women Voters. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Campaign Spending Commission, funded by various sources including but not limited to the depleted Hawaii election campaign fund, enforces the State's campaign finance laws, including the assessment of fines for campaign spending violations. Increasing campaign spending violation fines and allowing the Campaign Spending Commission to recover costs incurred from violators enables the Commission to maintain adequate funding and continue to deter potential violators, including political action committees that make only independent expenditures. Implementation of this measure promotes the integrity and transparency of the campaign finance process and ensures the continued enforcement of the State's campaign finance laws.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2029 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kim, Slom). Noes, none. Excused, 1 (Kahele).

SCRep. 2006 Judiciary and Labor on S.B. No. 2031

The purpose and intent of this measure is to clarify that increased fines may apply if a noncandidate committee fails to timely file a second preliminary general report.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that noncandidate committees are required to file a second preliminary general report on October 1 of each general election year, in addition to a preliminary general report that is required to be filed ten days prior to a general election. However, under existing law, a noncandidate committee that fails to timely file a preliminary general report, rather than a second preliminary general report, is subject to increased fines. Implementation of this measure clarifies that increased fines are applicable if a noncandidate committee fails to timely file a second preliminary general report, rather than a preliminary general report, in alignment with the increased fines for a candidate committee's failure to timely file a second preliminary primary report.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2031 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kahele).

SCRep. 2007 Judiciary and Labor on S.B. No. 2108

The purpose and intent of this measure is to authorize the attorney general and county prosecuting attorneys to use administrative subpoenas to obtain records in criminal investigations, regardless of whether the recipient or the records are physically located within the State.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kauai, and Department of the Prosecuting Attorney of the County of Maui.

Your Committee finds that during all phases of a criminal case, the Attorney General and county prosecutors frequently need to obtain records from an entity located outside of the State. However, existing law pertaining to criminal records process only authorizes the use of grand jury subpoenas and trial subpoenas to obtain records held by entities located outside of the State. As a result, the Attorney General and county prosecutors have no authority to use administrative subpoenas to obtain records that are held by entities located outside of the State during the investigative phase of a criminal case. Implementation of this measure will facilitate criminal investigations and properly enable the use of subpoenas during all phases of a criminal case.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2108 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 2008 Transportation and Energy on S.B. No. 2021

The purpose and intent of this measure is to extend the special purpose revenue bond authorization under Act 89, Session Laws of Hawaii 2011, to BioEnergy Hawaii, LLC, for the purpose of establishing a cogeneration facility and related energy production facilities to June 30, 2021.

Your Committee received testimony in support of this measure from the Department Of Transportation; BioEnergy Hawaii, LLC; Ulupono Initiative; and Pacific Waste, Inc. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that it is in the public interest to encourage the development of cogeneration facilities that make energy available to members of the general public by the sale of electric energy or biofuels, or both, to an electric utility or refinery, or both, serving the area.

Your Committee further finds that the benefits of the development of cogeneration facilities include:

- (1) Reduced greenhouse gas emissions;
- (2) Reduced landfill waste streams;
- (3) Reduced transportation and disposal costs;
- (4) Creation of local technical and semi-technical jobs;
- (5) Renewable energy for local communities through distributed generations; and
- (6) Reduced dependence on imported fossil fuels for local transportation and energy needs.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2021 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 2009 (Majority) Transportation and Energy on S.B. No. 2083

The purpose and intent of this measure is to prohibit smoking in a motor vehicle when a minor is present.

Your Committee received testimony in support of this measure from the Department of Health, County of Hawaii Police Department, County of Kauai Office of the Prosecuting Attorney, Coalition for Tobacco-Free Hawaii, Hawaii COPD Coalition, Hawaii Public Health Association, Global Advisors on Smokefree Policy, Coalition For A Tobacco Free Hawaii, University of Hawaii Student Health Advisor Council, and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance and six individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that secondhand smoke is a dangerous class A carcinogen in the same class as asbestos and benzene. Secondhand smoke typically contains at least seven thousand identifiable chemicals, around seventy of which are known or probable carcinogens. The Fiftieth Anniversary United States Surgeon General Report, released on January 17, 2014, states that any level of exposure to secondhand smoke is dangerous and over two and a half million nonsmokers have died from health problems caused by secondhand smoke since 1964.

Your Committee further finds that children generally breathe in more air than adults because their lungs are still developing. Children also have little or no control over their environments and cannot leave if secondhand smoke bothers them. As a result, children exposed to secondhand smoke run a greater risk of suffering from the damaging health effects.

According to testimony, extensive scientific literature shows that passive smoke exposure in a confined space, such as inside a car, is particularly harmful. Further studies demonstrate the concentration of toxins in a smoke-filled car is twenty-three times greater than that of a smoky bar. Children are especially vulnerable to the contaminants of secondhand smoke because their bodies are still developing. Children breathe more rapidly than adults, and therefore inhale more harmful chemicals per pound of their weight than do adults in the same amount of time.

As of June 2015, over twenty jurisdictions within the United States have enacted smoke-free vehicle laws to protect minors, including California, Oregon, and the County of Hawaii. Specifically, section 14-21, Hawaii County Code, prohibits smoking "in any vehicle, whenever occupied by a person less than eighteen years of age."

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2083 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kidani). Noes, 2 (Nishihara, Slom). Excused, 1 (Chun Oakland).

SCRep. 2010 Judiciary and Labor on S.B. No. 2187

The purpose and intent of this measure is to:

- (1) Decrease the distance that a person must live from the court to be exempt from jury service from seventy miles to fifty-five miles; and
- (2) Increase the mileage fee paid to jurors and prospective jurors from 33 cents to 45 cents.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that this measure proposes to make amendments to jury service laws. The Judiciary raised concerns in its written testimony that decreasing the distance a person must live from a court in order to be exempt from jury service will significantly impact the Third Circuit's ability to obtain an adequate number of potential jurors on the island of Hawaii. If the required distance is lowered, the Judiciary testified that there will be pockets of jurors who may be exempt from jury service in both Hilo and Kona because a person may live more than fifty-five miles from the two circuit court forums.

Your Committee also has questions regarding the method by which mileage fees are paid to jurors and prospective jurors if there are different routes, each with different distances, that jurors and prospective jurors could take to report to the court house for jury service.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an unspecified number of miles a person must live from the court to be exempt from jury service; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2187, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Thielen).

SCRep. 2011 Judiciary and Labor on S.B. No. 2106

The purpose and intent of this measure is to:

- (1) Increase the per diem payments for out-of-state witnesses in criminal cases from \$145 to \$200; and
- (2) Increase the per diem payment supplement from \$90 to \$145 for witnesses from any island other than the island on which is the court is located when that witness is required to stay overnight.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Hawaii; Office of the Prosecuting Attorney, County of Kauai; and Department of the Prosecuting Attorney, County of Maui.

Your Committee finds that the criminal case witness per diem stipend amounts have not kept pace with Hawaii's cost of living. Given the increases in costs for lodging and food, the existing per diem stipend amounts are insufficient to cover personal expenses and, as a result, may prevent victims of crimes from pursuing charges against criminal offenders. This measure increases the per diem stipend amounts for out-of-state witnesses and witnesses who require an overnight stay on another island in the State, in order to support and encourage victims and other witnesses to report criminal offenses and pursue criminal charges.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2106 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Thielen).

SCRep. 2012 (Majority) Judiciary and Labor on S.B. No. 2117

The purpose and intent of this measure is to:

- (1) Authorize a permanent absentee voter to request and receive a ballot at an alternate address for elections within an election cycle; provided that the request does not serve as a cancellation of the voter's permanent absentee status or as a change to the voter's permanent absentee mailing address;
- (2) Clarify that certain conditions that normally lead to a termination of permanent absentee voter status do not apply if the voter resides in an absentee ballot only area;
- (3) Replace references to facsimile ballots with references to electronic ballots; and
- (4) Authorize a voter to receive a permanent absentee ballot by electronic transmission if the voter has not received the ballot within five days of an election, requires a replacement ballot within five days of an election, or would otherwise not be able to return a properly issued ballot by the close of polls.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the City Clerk, City and County of Honolulu; Office of the County Clerk, County of Maui; Office of the County Clerk, County of Kauai; League of Women Voters; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that as the number of permanent absentee mail voters rises, so does the potential need to send a ballot to an alternate address or replace a voter's ballot for various reasons including but not limited to spoilage and postal non-delivery. While voters that are covered under the Uniform Military and Overseas Voters Act may receive a replacement ballot by facsimile transmission or electronic mail delivery, all other absentee mail voters are limited to receiving a replacement ballot by postal mail. Authorizing voters to receive a permanent absentee ballot by electronic transmission, under certain conditions, will benefit voters who, due to a variety of circumstances, are unable to receive and return a ballot by mail by the closing of polls. Implementation of this measure provides a practical and expeditious means for absentee mail voters to cast a ballot and is consistent with efforts to maximize voter participation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2117, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2117, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Thielen).

SCRep. 2013 (Majority) Judiciary and Labor on S.B. No. 2215

The purpose and intent of this measure is to appropriate funds to the Department of Labor and Industrial Relations for the hiring of six hearing officer positions and support staff within the Department's Disability Compensation Division and to provide the officers and staff with legal and medical training.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Department of Human Resources of the City and County of Honolulu, Hawaii Injured Workers Association, ILWU Local 142, Pacific Resource Partnership, and one individual. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Implementation of this measure will enable the Department of Labor and Industrial Relations' Disability Compensation Division to be more efficient and effective, benefiting all stakeholders.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2215, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2215, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Thielen).

SCRep. 2014 Commerce, Consumer Protection, and Health on S.B. No. 2660

The purpose and intent of this measure is to make permanent the voluntary deregistration process for fee non-time share interests by removing the sunset date of Act 119, Session Laws of Hawaii 2013, as amended by Act 47, Session Laws of Hawaii 2014.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and American Resort Development Association Hawai'i.

Your Committee finds that Act 120, Session Laws of Hawaii 2009, deregistered fee simple time share transactions from the Land Court system and established a procedure to move these transactions to the regular system in the Bureau of Conveyances. This process was intended to ease the backlog of recordings at the Land Court.

Your Committee further finds that Act 119, Session Laws of Hawaii 2013, separated the voluntary deregistration of fee non-time share interests from the voluntary deregistration of time share interests under Part II of Chapter 501, Hawaii Revised Statutes, pursuant to Act 120, Session Laws of Hawaii 2009, and made the deregistration mandatory and permanent. Act 119, Session Laws of Hawaii 2013, also preserved a sunset date of December 31, 2014, for the deregistration of fee non-time share interests. However, prior to December 31, 2014, Act 47, Session Laws of Hawaii 2014, was enacted to extend the sunset for voluntary deregistration and transfer of fee non-time share interests to December 31, 2015. Your Committee finds that repealing the sunset provision of Act 119, Session Laws of Hawaii 2013, as amended by Act 47, Session Laws of Hawaii 2014, as provided by this measure, will permanently establish the streamlined process for deregistration and transfer of fee non-time share interests.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2660 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2015 Transportation and Energy on S.B. No. 2131

The purpose and intent of this measure is to restore:

- (1) The definition of "power-generating facility" in section 243-1, Hawaii Revised Statutes; and
- (2) The fuel tax on naphtha, as used in a power-generating facility, at a rate of two cents per gallon.

Your Committee received testimony in support of this measure from the Department of Taxation and Kaua'i Island Utility Cooperative. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the fuel tax on naphtha was enacted in 2007 but was repealed on December 31, 2015, by Act 188, Session Laws of Hawaii 2012. Naphtha is a source of alternative fuel that should be taxed to enhance state revenues. This measure will restore the tax retroactive to January 1, 2016.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2131, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2131, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2016 Judiciary and Labor on S.B. No. 2310

The purpose and intent of this measure is to prohibit the court from granting mutual protective orders unless separate petitions are filed and reasonable notice is provided.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Domestic Violence Action Center, Hawaii State Coalition Against Domestic Violence, American Association of University Women of Hawaii, and Hawaii Women's Coalition.

Your Committee finds that mutual orders of protection are protective orders issued against both parties to a dispute and are usually issued after one of the parties petitions for a protective order. While protective orders are intended to protect a victim of abuse from imminent threat of abuse or further domestic abuse, mutual protective orders can present a variety of problems that may be contrary to the purpose of a protective order. This measure ensures due process rights of both parties while strengthening the court's response to victims of abuse.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2310 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2017 (Majority) Judiciary and Labor on S.B. No. 2289

The purpose and intent of this measure is to require employers to keep a record of the former physical addresses and current physical address of the employer and the North American Industry Classification System code applicable to the employer.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Altres, Inc.

Your Committee finds that federal funding levels for the Department of Labor and Industrial Relations are in jeopardy because the federal Bureau of Labor Statistics ties funding to the number of employing units reported and an increasing number of employers are not responding to surveys unless required to do so. Implementation of this measure will allow the Department of Labor and Industrial Relations to gather accurate data regarding employers, protecting federal funding levels.

Your Committee further finds that even though existing law requires the Department of Labor and Industrial Relations to collect, assemble, and furnish information pertaining to insurance plans, many of these requirements are now regulated by the Department of Commerce and Consumer Affairs' Insurance Division. An amendment to this measure is therefore necessary to reflect the existing organizational structure pertaining to insurance plans.

Accordingly, your Committee has amended this measure by:

- (1) Deleting paragraph (4) of section 371-11, Hawaii Revised Statutes, pertaining to insurance plan information; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2289, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2289, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Shimabukuro).

SCRep. 2018 Hawaiian Affairs on S.B. No. 2124

The purpose and intent of this measure is to:

- (1) Require agencies that collect receipts for any disposition of the public land trust to transfer to the Office of Hawaiian Affairs twenty per cent of each receipt from a disposition each fiscal quarter;
- (2) Return to the Office of Hawaiian Affairs certain monies previously claimed as public land trust overpayments to the office; and
- (3) Establish a public land trust revenues negotiating committee to determine the amount of income and proceeds from the public land trust that the Office of Hawaiian Affairs should receive annually.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, the Native Hawaiian Chamber of Commerce, Chaminade University of Honolulu, the Makaha Hawaiian Civic Club, the Association of Hawaii Civic Clubs, and sixteen individuals. Your Committee received testimony in opposition to this measure from Ho'omana Pono, LLC; and the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General, the University of Hawai'i System, and one individual.

Your Committee has heard the testimony of the Department of the Attorney General expressing concerns that an increase of the Office of Hawaiian Affairs' share of the receipts from the use of public land trust lands should be determined through negotiation with the State.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has also heard concerns about transparency and about the difficulty of having an even number of members on the negotiating committee. Your Committee finds that these issues raise concerns that merit further consideration and requests that your Committee on Ways and Means further examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2124, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2124, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (English).

SCRep. 2019 Commerce, Consumer Protection, and Health on S.B. No. 2848

The purpose and intent of this measure is to amend requirements under the money transmitters law for money transmitter licensee change in control applications and update a reference to federal Regulation E.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that under the existing money transmitters statute, only a money transmitter licensee may submit an application to the Commissioner of Financial Institutions requesting approval for a proposed change in control of the money transmitter licensee. This is impracticable in hostile takeover situations in which a licensee may be uncooperative. Accordingly, this measure expands the class of persons who may apply for the Commissioner's approval of a change in control. This measure also enhances consumer protection by enabling the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to conduct criminal history record checks on persons assuming control of the money transmitter licensee, which will enable the

Commissioner to determine whether the persons requesting approval of the change in control possess the requisite character and general fitness to properly and lawfully control the licensee without jeopardizing the interests of the public.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2848 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2020 Commerce, Consumer Protection, and Health on S.B. No. 2850

The purpose and intent of this measure is to make various amendments to the mortgage loan originators law, chapter 454F, Hawaii Revised Statutes, and the mortgage servicers law, chapter 454M, Hawaii Revised Statutes, including:

- (1) Increasing the clarity and consistency of the two chapters, which regulate related industries;
- (2) Moving mortgage servicer provisions that currently appear in chapter 454F, Hawaii Revised Statutes, to chapter 454M, Hawaii Revised Statutes; and
- (3) Deleting the mortgage loan servicer loan modification license under chapter 454F, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that there is a certain amount of overlap between the mortgage loan origination industry governed by chapter 454F, Hawaii Revised Statutes, and the mortgage servicer industry governed by chapter 454M, Hawaii Revised Statutes. This measure makes various amendments to these chapters for clarity and consistency and migrates mortgage servicer provisions under chapter 454F, Hawaii Revised Statutes, into the mortgage servicer law, which will help eliminate confusion for mortgage servicers. This measure also deletes a special mortgage loan servicer loan modification license under chapter 454F, Hawaii Revised Statutes, as the need for this license has been eliminated by amendments to the mortgage servicer law. Your Committee further finds that the amendments proposed by this measure will ensure clearer requirements within the mortgage loan origination and mortgage servicer industries, which will support licensee compliance.

Your Committee has amended this measure by:

- (1) Clarifying that if an aggregate administrative fine imposed for a violation of the mortgage servicers law exceeds \$7,000, \$1,000 of the fine shall be deposited into the mortgage foreclosure dispute resolution fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2850, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2850, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2021 (Joint) Hawaiian Affairs and Water, Land, and Agriculture on S.B. No. 2161

The purpose and intent of this measure is to appropriate funds for the administration and operation of the Aha Moku Advisory Committee and for community outreach.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, the Aha Moku Advisory Committee, Hookipa Network Kauai, Aha Moku Kauai, Poo Moku Koolau, the Koolaupoko Hawaiian Civic Club, the Association of Hawaiian Civic Clubs, and twenty-one individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees have amended this measure by:

- (1) Adding community outreach as a permissible use of the appropriated funds in section 2 and removing the appropriation in section 3 for community outreach; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2161, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2161, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Slom).
Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Wakai, Slom).

SCRep. 2022 (Joint) Hawaiian Affairs and Judiciary and Labor on S.B. No. 2162

The purpose and intent of this measure is to appropriate funds for the Judiciary to establish long-term Hawaiian language resources and capacity building to train experts in the Hawaiian language field.

Your Committees received testimony in support of this measure from the Judiciary, the University of Hawai'i System, the Institute of Hawaiian Language Research and Translation at the University of Hawaii, the College of Hawaiian Language at the University of Hawaii at Hilo, Kamehameha Schools, Aha Punana Leo, the Kalihi Palama Hawaiian Civic Club, the Association of Hawaiian Civic Clubs, and seventeen individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees have amended this measure by:

- (1) Adding a Hawaiian language translation of the measure contents;
- (2) Inserting an effective date of July 1, 2016; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2162, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2162, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Slom).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2023 Judiciary and Labor on S.B. No. 2836

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (14) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. According to the Department of Budget and Finance, an arbitration award for collective bargaining unit (14) is expected before the end of February 2016. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2836, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2836, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2024 Judiciary and Labor on S.B. No. 2835

The purpose and intent of this measure is to appropriate and authorize funds for the collective bargaining agreement for employees in collective bargaining unit (8) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, University of Hawai'i System, and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that in November 2015, the arbitration panel issued an award for public employees in collective bargaining unit (8), and this measure provides a legislative vehicle to effectuate the terms and conditions of the arbitrated award for public employees in collective bargaining unit (8).

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2835, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2835, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2025 Transportation and Energy on S.B. No. 2502

The purpose and intent of this measure is to:

- (1) Exempt personal income tax income and general excise and use taxes in an amount up to an unspecified percentage of the costs of construction and operation of projects entered into under a public-private partnership with the Employees' Retirement System to improve water infrastructure or water supply, or to promote clean energy; and
- (2) Authorize the Employees' Retirement System to make investments in such public-private partnerships.

Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Employees' Retirement System.

Your Committee finds that this measure creates a general excise tax exemption for income received from certain public-private partnership contracts entered into with the Employees' Retirement System. This measure also creates similar incentives under the income tax law and use tax law.

Your Committee believes that the formation of public-private partnerships should be encouraged in order to stimulate the state economy, allow state departments and agencies to obtain expertise from the private sector, and provide infrastructure support and more clean energy services to the public.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2026 Water, Land, and Agriculture on S.B. No. 2156

The purpose and intent of this measure is to allow the Department of Land and Natural Resources to become a member of the Interstate Wildlife Violator Compact or similar agreement.

Your Committee received testimony in support of this measure from Interstate Wildlife Violator Compact Board of Wildlife Violator Compact Administrators, Humane Society of the United States, International Association of Fish and Wildlife Agencies, Babooze Bowstrings, and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Interstate Wildlife Violator Compact is a multistate agreement that promotes enforcement of hunting, fishing, trapping, and other wildlife related regulations across jurisdictions and could prevent wildlife violators who have lost their hunting, fishing, trapping, or other wildlife related privileges in other member states from obtaining a hunting license in Hawaii. Your Committee further finds that the Interstate Wildlife Violator Compact is a common sense way for states to share information on violators who have lost their hunting, fishing, trapping, or other wildlife related privileges and that Hawaii should be participating in this agreement.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2156 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2027 Water, Land, and Agriculture on S.B. No. 2163

The purpose and intent of this measure is to allow notice of a land use violation to be given via a posting on a searchable government website when attempts to serve the notice in person and by mail have been unsuccessful.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Planning and Permitting and Conservation Council for Hawaii. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that personal service of notices of violation are not always successful and publication of notices in daily newspapers can be costly; therefore, the ability for public notices to be posted on a searchable government website can be beneficial to agencies issuing notices. Your Committee further finds that given that the impetus for this measure was a situation where a homeowner was polluting a stream, it is appropriate to amend this measure to ensure that it addresses the problem in question and similar violations that arise in the future.

Your Committee has amended this measure by:

- (1) Deleting section 1;
- (2) Inserting new language to amend section 342D-9, Hawaii Revised Statutes, to allow notice of a water pollution violation to be given via a posting on a searchable government website when attempts to serve the notice in person and by mail have been unsuccessful;
- (3) Inserting new language to amend section 342H-7, Hawaii Revised Statutes, to allow an order assessing an administrative penalty for a solid waste pollution violation to be given via a posting on a searchable government website when attempts to serve the notice in person and by mail have been unsuccessful; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2163, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2028 Water, Land, and Agriculture on S.B. No. 2139

The purpose and intent of this measure is to establish a community-based marine resources grant program and make key positions permanent within the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, Humane Society of the United States, Kua'āina Ulu 'Auamo, the Nature Conservancy, Conservation Council for Hawaii, Hawaii Fishing & Boating Association, and seven individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Aha Moku Advisory Committee and the Association of Hawaiian Civic Clubs.

Your Committee finds that Hawaii's people have a long tradition of resource stewardship and strong stewardship values that are essential to reversing resource declines. Community-based co-management of near shore marine areas, that is, communities working with government, is recognized as an effective tool to increase opportunities for stakeholder involvement, re-invigorate Hawaii's history and culture of mālama 'āina, increase voluntary compliance with regulations, and ultimately improve resource conditions and availability for future generations. Your Committee further finds that efforts need to be devised to bring users and other interests together, rather than further divide them, and to promote tradition and culture not as artifacts to be preserved in books and museums, but as solutions to be practiced as keys to a sustainable future.

Your Committee has amended this measure by:

- (1) Deleting sections 2 and 3, which would have established and funded the community-based marine resources grant program;
- (2) Amending section 1 to reflect the amended purpose of this measure;
- (3) Deleting the word "subsistence" from the appropriation in section 4 to establish a community-based fishing area planner to clarify that the planner would support all community-based fishery management programs; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2139, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2029 Water, Land, and Agriculture on S.B. No. 2356

The purpose and intent of this measure is to:

- (1) Require ten percent or \$7,600,000, whichever is less, of conveyance taxes collected be paid into the land conservation fund;
- (2) Require twenty-five percent or \$19,000,000, whichever is less, of conveyance taxes collected to be paid into the natural area reserve fund, with specified allocations for forest stewardship, watershed management, and youth conservation corps; and
- (3) Allow the Department of Land and Natural Resources to use conveyance tax revenue deposited in the forest stewardship fund as authorized under the specified allocations of section 247-7, Hawaii Revised Statutes, to administer the forest stewardship program and manage the forest reserve system.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Oahu Invasive Species Committee, the Trust for Public Land, Conservation Council for Hawaii, The Nature Conservancy, Sierra Club of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from Chamber of Commerce Hawaii and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the natural area reserve fund was a dedicated funding mechanism created for the natural area partnership program, the natural area reserves, the watershed partnerships program, and the youth conservation corps through taxes paid on conveyances of land. Your Committee further finds that the legacy land conservation program provides funding from the land conservation fund for the acquisition of lands, including easements, for the protection of the land. Grants from the land conservation fund are available through the legacy land conservation program to state agencies, counties, and non-profit land conservation organizations seeking funding to acquire property that has value as a resource to Hawaii.

Your Committee has amended this measure by:

- (1) Deleting language that would have allocated a portion of conveyance tax revenues to the natural area reserve fund for forest stewardship, watershed management, and youth conservation corps; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2356, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2356, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2030 Water, Land, and Agriculture on S.B. No. 2802

The purpose and intent of this measure is to require persons who wish to access private land for hunting to first obtain written permission from the land owner.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, and Babooze Bowstrings. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs and one individual.

Your Committee finds that existing law is inadequate to deter persons with firearms or other weapons from trespassing on lands and potentially causing bodily injury to others, or damage to property, livestock, and crops; these trespassing occurrences have been especially egregious on farms and ranches. Your Committee therefore finds that a requirement that hunters receive written permission from private landowners prior to entering private lands will help to mitigate safety and vandalism concerns.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2802 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2031 Water, Land, and Agriculture on S.B. No. 2382

The purpose and intent of this measure is to make an appropriation for pier improvements at Maalaea small boat harbor, Maui.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Ocean Tourism Coalition.

Your Committee finds that the heavily-used Maalaea small boat harbor on Maui serves as a vital connection to recreational and commercial ocean activities and must be kept in good working condition.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2382 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2032 Water, Land, and Agriculture on S.B. No. 2788

The purpose and intent of this measure is to authorize Molokai Irrigation System Water Users Advisory Board members to designate an agent, officer, or employee and remove the requirement that members be active general excise tax licensees.

Your Committee received testimony in support of this measure from Pūlama Lāna‘i and ten individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Molokai Irrigation System is the only agricultural water source on Molokai and therefore sustains agriculture on Molokai. Your Committee further finds that it is important to have a functioning Molokai Irrigation System Water Users Advisory Board to advise the Department of Agriculture on matters concerning use of the system. Therefore, your Committee finds that it is necessary that the Board be able to establish a quorum and hold official meetings frequently. Passage of this measure will facilitate the Board in conducting its duties in an efficient and effective manner.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2788 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2033 Water, Land, and Agriculture on S.B. No. 2645

The purpose and intent of this measure is to establish a program to implement standardized water audits of public water systems in accordance with the method adopted by the American Water Works Association's Water Audits and Loss Control Programs, Manual of Water Supply Practices - M36, as amended.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Fresh Water Initiative, and Sierra Club of Hawaii.

Your Committee finds that water conservation is among the least expensive and most efficient ways to increase the available supply of fresh water. Water conservation requires improving the efficiency of water delivery and identifying losses to the system. Your Committee further finds that a water audit helps a utility understand how much water is lost from a distribution system through the detailed analysis of data, which the utility can use to make informed decisions to reduce real or apparent losses. Your Committee acknowledges the testimony of the Department of Land and Natural Resources and supports the suggestion that the water audits required by this measure be conducted by the counties.

Your Committee has amended this measure by:

- (1) Amending language to require the Commission on Water Resource Management to establish a program to provide technical assistance to public water systems and require the counties, rather than the commission, to conduct standardized water audits of public water systems;
- (2) Amending language to require the commission to utilize the American Water Works Association's Free Water Audit Software, Version 5.0 or subsequent versions;
- (3) Inserting language to clarify that validation of water audits shall be level 1 validation;

- (4) Moving language requiring the commission to establish a process for validation of water loss audit reports following the principles and terminology in the American Water Works Association's Water Audits and Loss Control Programs, Manual of Water Supply Practices - M36, as amended;
- (5) Amending language to require the counties to submit an annual report to the commission, rather than requiring the commission to submit an annual report to the legislature, and beginning on July 1, 2020, require all remaining large capacity public water systems and public water systems in water management areas to also submit an annual report;
- (6) Inserting a definition of "level 1 validation"; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2645, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2645, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2034 Water, Land, and Agriculture on S.B. No. 2462

The purpose and intent of this measure is to:

- (1) Authorize the Board of Land and Natural Resources to transfer the operation, administration, management, and maintenance of the Honokohau small boat harbor to a community-based board of Hawaii county, a public-private partnership, or a private organization; and
- (2) Appropriate funds for the repair and maintenance of Honokohau small boat harbor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Aha Moku Advisory Committee; Hawaii Fishing and Boating Association; Kids of Hawaii Nei; Blue Ocean Mariculture; Big island Jeep Tours; Ihu Nui Sportfishing; Westwind Sailing Charters, Inc.; and thirteen individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that Honokohau small boat harbor is an important source of economic activity in the Kona area on the island of Hawaii and is in need of maintenance and repair. Your Committee further finds that the management of the boat harbor by a community-based board, as proposed by this measure, has the potential to be cumbersome and ineffective for the operation of the facility and therefore should not be one of the options authorized by this measure.

Your Committee has amended this measure by:

- (1) Removing the authorization of the Board of Land and Natural Resources to transfer the operation, administration, management, and maintenance of the Honokohau small boat harbor to a community-based board of Hawaii county; and
- (2) Inserting an effective date of July 1, 2016, for the appropriation.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2462, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2462, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2035 Water, Land, and Agriculture on S.B. No. 2644

The purpose and intent of this measure is to establish a refundable residential water conservation system cost income tax credit for newly constructed systems beginning January 1, 2017.

Your Committee received testimony in support of this measure from Hawaii Fresh Water Initiative, the Nature Conservancy, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that water conservation is a high priority within the State and a residential water conservation system cost income tax credit may encourage taxpayers to take advantage of water conservation systems. Your Committee has heard the Department of Taxation's concerns regarding the language in this measure and finds the amendments suggested in the Department's testimony to be appropriate.

Your Committee has amended this measure by:

- (1) Amending language to make the tax credit non-refundable;
- (2) Deleting language to remove the aggregate tax credit cap;
- (3) Inserting language to require residential water conservation systems be approved by the Department of Health;
- (4) Amending the term "residential water conservation system" to mean a system that captures and reuses rain water or a system that collects and reuses gray water or recycled water;
- (5) Inserting language to amend the definition of "recycled water" under section 342D-1, Hawaii Revised Statutes, to include rain water or storm water;

- (6) Making the tax credit applicable to new systems constructed after December 31, 2017, and taxable years beginning after December 31, 2017; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2644, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2644, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2036 Water, Land, and Agriculture on S.B. No. 2640

The purpose and intent of this measure is to establish a two-year pilot program for a water security advisory group to enable public-private partnerships that increase water security by providing matching state funds for projects and programs that:

- (1) Increase the recharge of groundwater resources;
- (2) Encourage the reuse of water and reduce the use of potable water for landscaping irrigation; and
- (3) Improve the efficiency of potable and agricultural water use.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Community Foundation, Hawaii Fresh Water Initiative, Conservation Council for Hawaii, and the Nature Conservancy.

Your Committee finds that new and innovative partnerships are needed to catalyze large-scale investment in Hawaii's sustainable development, such as the Aloha+ Natural Capital Investment Partnership, which is a joint public-private conservation commitment that will demonstrate Hawaii's commitment to natural resources management with a special focus on climate resilience at the World Conservation Congress and beyond. Reliable, long-term funding is also needed to meet the State's Aloha+ Challenge conservation targets by 2030, which will require partners from multiple sectors, including county, state, and federal governments as well as private philanthropic and corporate entities, to work together to leverage funds and provide matching opportunities.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2640 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Wakai).

SCRep. 2037 Ways and Means on S.B. No. 3071

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources, in consultation with The Trust for Public Land, to engage in negotiations to acquire lands located at Kapua, on the Island of Hawaii;
- (2) Authorize the purchase of the makai lands of Kapua to be funded wholly or in part by transient accommodations tax revenues; and
- (3) Make an appropriation for any additional amounts necessary for the acquisition.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, Pa'a Pono Miloli'i, The Trust for Public Land, The Nature Conservancy, and nine individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the makai lands of Kapua in South Kona on the Island of Hawaii are a scenic wonder with breathtaking shoreline views. The makai lands comprise at least 6,000 acres in South Kona that are classified as agricultural or conservation land and are privately owned.

The makai lands contain significant historical, archaeological, and cultural resources, including a hōlua slide, ancient coastal trail, village sites, and superb biological resources including native dryland forests and native Hawaiian plants. As such, the State should seek to acquire the makai lands in the interests of preserving the area's pristine condition for future generations while ensuring the preservation of agricultural and conservation lands in the area.

Your Committee notes that concerns have been raised that there may be numerous unexploded ordnances in the area of the makai lands. It is your Committee's intent that the Department of Land and Natural Resources take this safety issue under consideration. At the hearing, the Department of Land and Natural Resources assured your Committee that as part of its due diligence, it will take any action and precautions necessary to address this potential issue.

Your Committee has amended this measure by:

- (1) Removing specific references to The Resort Group and directing the Department of Land and Natural Resources to negotiate with the current owners of the makai lands;
- (2) Clarifying that the term "acquire" or "acquisition" means to secure an interest in real property in fee simple or otherwise through means of purchase, sale, or exchange of other real property;
- (3) Identifying the appropriate tax map key numbers of the makai lands;

- (4) Adding language to require the Department of Land and Natural Resources to report to the Legislature beginning on July 1, 2016, and every three months thereafter on the status of the negotiations; provided that certain confidential information or information detrimental to the State's negotiating position shall not be disclosed;
- (5) Adding language directing the Department of Land and Natural Resources to attempt to reach an agreement for the acquisition of the makai lands by December 31, 2016, to notify the Governor and Legislature immediately after an agreement is reached, and provide proposed legislation, with an appropriation, if applicable, to effectuate the agreement;
- (6) Adding language to authorize the Department of Land and Natural Resources to continue negotiations after December 31, 2016, if necessary, and to continue to report to the Legislature quarterly until an agreement is reached or negotiations are terminated;
- (7) Inserting an appropriation in the amount of \$500,000 to the Department of Land and Natural Resources for the purpose of conducting due diligence on the makai lands, to include but not be limited to a determination of the likelihood that unexploded ordnances exist on any of the parcels of land;
- (8) Removing the allocation of transient accommodations tax revenues for the purchase of the makai lands and the mandate to fund the acquisition of the makai lands wholly or in part by transient accommodations tax revenues;
- (9) Removing the appropriation of additional funds for the acquisition of the makai lands; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3071, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3071, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Riviere).

SCRep. 2038 Economic Development, Environment, and Technology on S.B. No. 75

The purpose and intent of this measure is to amend the law relating to the environment.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to regulate behind-the-meter battery recycling.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 75, as amended herein, and recommends that it be recommitted to your Committee on Economic Development, Environment, and Technology, in the form attached hereto as S.B. No. 75, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 1 (Baker).

SCRep. 2039 Water, Land, and Agriculture on S.B. No. 2026

The purpose and intent of this measure is to establish a Hawaii apprentice hunting license program to allow persons age ten and older to experience hunting with a licensed adult mentor without first obtaining a hunting license.

Your Committee received testimony in support of this measure from the County of Hawaii Game Management Advisory Commission; Hawaii Hunting Association; Hunting, Farming, and Fishing Association; the Society for Hawaii Heritage Animals; National Wild Turkey Federation; Babooze Bowstrings; GMAC; and five individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that an apprentice hunting license program would provide an opportunity to those persons who may be interested in hunting but are unwilling or unable to commit to the requirements of a hunting license to experience hunting. Your Committee further finds that such apprentice hunting experience may lead to a greater number of persons eventually obtaining hunting licenses.

Your Committee requested the Hawaii Hunting Association and Department of Land and Natural Resources to reach agreement on this measure; however, an agreement has not yet been met regarding the age eligibility requirement. Your Committee recommends passage of this measure on Second Reading to facilitate further discussion on the issue of age eligibility.

Your Committee has amended this measure by:

- (1) Amending language to make an apprentice hunting license valid for twelve months, from July 1 until June 30, rather than twelve months from the date of issuance; and
- (2) Inserting language to cap the age eligibility for an apprentice hunting license at age seventeen.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2026, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2026, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2040 Water, Land, and Agriculture on S.B. No. 2138

The purpose and intent of this measure is to make an appropriation for a nutrient cycling center pilot project on Maui and require reporting on the efficacy of the pilot project.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Hawaii Farmers Union United, Maui Farmers Union United, Hawaii Food Policy Council, and six individuals.

Your Committee finds that nutrient cycling fosters agricultural production by preventing nutrients from flowing from farmland into aquifers and shorelines. Nutrient cycling puts end products back into the land-based food chain instead of generating waste or causing pollution, as with food waste. Your Committee further finds that nutrient cycling lowers agricultural production costs, increases yields, reduces waste in streams, and leaves the soil in revitalized condition. Your Committee also finds that a regional nutrient cycling center in Hawaii, particularly on Maui, would promote environmental, economic, and social benefits for the State along with food and energy security, while minimizing the interisland transfer of waste streams and reducing the likelihood of transporting invasive species.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2138 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2041 Transportation and Energy on S.B. No. 2652

The purpose and intent of this Act is to:

- (1) Establish a five-year renewable fuels production tax credit, to be repealed on December 31, 2021;
- (2) Repeal the ethanol facility tax credit;
- (3) Allow qualifying taxpayers to claim a refundable income tax credit equal to 20 cents per seventy-six thousand British thermal units of renewable fuel, capped at \$3,000,000 per taxable year, with a limit of \$3,000,000 per year in aggregate;
- (4) Require the Department of Business, Economic Development, and Tourism to certify all tax credits and submit a report regarding the production and sale of renewable fuels to the Governor and Legislature each year; and
- (5) Require the Department of Taxation to create forms for the tax credit.

Your Committee received testimony in support of this measure from Hawai'i Gas. Your Committee received comments on this measure from the Department of Taxation; Department of Business, Economic Development and Tourism; Department of the Attorney General; and Tax Foundation of Hawaii.

Your Committee finds that renewable fuels are cleaner, lower cost alternative fuels for residential, commercial, and industrial customers. Renewable fuels are the most efficient source of heat energy and is cleaner burning, making it the perfect bridge to Hawaii's clean energy future. This measure encourages the production of renewable fuels, as a diversified fuel mix to achieve the State's renewable energy goals.

Your Committee has amended this measure upon the recommendation of the Department of the Attorney General to:

- (1) Amend the definition of "renewable fuels" to delete the requirement that the fuels be produced from renewable feedstocks having its point of origin within the State; and
- (2) Delete the requirement that the renewable fuels be produced in the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2652, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2652, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2042 Commerce, Consumer Protection, and Health on S.B. No. 2408

The purpose and intent of this measure is to adopt the Uniform Partition of Heirs Property Act, which establishes procedures and remedies applicable to actions for partition of real property that is deemed heirs property.

Your Committee received comments on this measure from the Commission to Promote Uniform Legislation.

Your Committee finds that in 2010, the Uniform Law Commission promulgated the Uniform Partition of Heirs Property Act to provide a fair solution to the risks posed to those who own heirs property, which is real property held in tenancy in common that meets certain requirements. This measure adopts language that closely mirrors the Uniform Partition of Heirs Property Act, which establishes a hierarchy of remedies designed to protect a family's property holdings and real property wealth and is intended to provide cotenants with many of the protections and rights commonly found in private agreements governing the partition of tenancy in common property.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2408 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2043 (Majority) Commerce, Consumer Protection, and Health on S.B. No. 2446

The purpose and intent of this measure is to increase the fees every notary public is entitled to demand and receive.

Your Committee did not receive any testimony on this measure.

Your Committee finds that notary public fees have not been amended since 1995. Accordingly, this measure increases the fees notaries public are entitled to demand and receive.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2446 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Ruderman).

SCRep. 2044 Commerce, Consumer Protection, and Health on S.B. No. 2853

The purpose and intent of this measure is to:

- (1) Adopt the National Association of Insurance Commissioners' Risk Management and Own Risk and Solvency Assessment Model Act;
- (2) Apply certain requirements for risk-based capital and severability and notice provisions to risk retention captive insurance companies; and
- (3) Adopt the National Association of Insurance Commissioners Model Risk Retention Act.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, American Council of Life Insurers, National Association of Mutual Insurance Companies, Property Casualty Insurers Association of America, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the National Association of Insurance Commissioners has required all states to adopt its Risk Management and Own Risk and Solvency Assessment Model Act by January 1, 2018, to maintain accreditation with the National Association of Insurance Commissioners. The Risk Management and Own Risk and Solvency Assessment Model Act has been adopted in thirty-five states and reflects a reasoned approach that enhances insurer solvency and risk management, while also protecting consumers and market competition. Accordingly, this measure adopts the Risk Management and Own Risk and Solvency Assessment Model Act, which will enable the Insurance Division of the Department of Commerce and Consumer Affairs to retain its accreditation and adopt updated rules prior to the 2018 deadline.

Your Committee further finds that this measure makes other amendments to the insurance code for purposes of maintaining National Association of Insurance Commissioners accreditation, including applying supplemental provisions, rules, and exceptions for risk-based capital and severability and notice provisions to risk retention captive insurance companies and adopting the National Association of Insurance Commissioners' Model Risk Retention Act.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2853, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2853, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2045 Commerce, Consumer Protection, and Health on S.B. No. 2329

The purpose and intent of this measure is to:

- (1) Require a mortgagee or record assignee to provide to a mortgagor or borrower, upon full satisfaction of a mortgage and discharge of the secured debt, a reassignment or release of security interests in leases and rents that served as additional security for the mortgage;
- (2) Authorize title insurers or underwritten title companies to reassign or release mortgagees' security interests in leases and rents on behalf of the mortgagee or record assignee under certain conditions; and
- (3) Authorize certain entities to institute an action in any circuit court to obtain the release or reassignment instrument in the absence of compliance of a mortgagee or record assignee.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that lenders may secure loans to a borrower through a mortgage and through an assignment of the borrower's rights in leases and rents. These security interests are generally recorded in the Bureau of Conveyances and the Office of the Assistant Registrar of the Land Court as separate documents with separate document numbers. Once a loan is paid in full and satisfied, the parties to the loan may record a release of the mortgage but may fail to record a release or reassignment of the security interest in leases and rents. As a result, many of these recorded assignments of leases and rents remain on the public record and continue to be found in subsequent title searches involving a property, even though these assignments are no longer enforceable.

Your Committee further finds that title insurers and underwritten title companies are authorized to execute the release of a satisfied mortgage in certain circumstances; however, there is no corresponding mechanism for clearing the public record of the assignments of leases and rents. Accordingly, this measure amends the procedure for clearing titles to included reassignments or releases of leases and rents. This will enable title companies to better facilitate the clearing of extraneous security interests on titles to real property from the public record.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2329, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2046 Commerce, Consumer Protection, and Health on S.B. No. 2540

The purpose and intent of this measure is to authorize the Governor to negotiate with any person for the development or expansion of a forensic facility of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health and Office of Environmental Quality Control. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the Department of Health is proposing to undertake the construction of a new building at the Hawaii State Hospital. The new building is of high priority because of census and health and safety issues at the hospital. To expedite the development, the Department of Health and Department of Accounting and General Services intend to use the design-build process. However, the Department of Health and Department of Accounting and General Services may need more flexibility to move quickly, such as the mechanism proposed by this measure, to allow the Governor to expedite the development of a critically needed building.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2540 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2047 (Majority) Commerce, Consumer Protection, and Health on S.B. No. 2666

The purpose and intent of this measure is to prohibit health insurers, mutual benefit societies, and health maintenance organizations from discriminating against a person with respect to participation and coverage under a policy, contract, plan, or agreement on the basis of the person's actual gender identity or perceived gender identity.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Equality Hawai'i, American Civil Liberties Union of Hawai'i, LGBT Caucus of the Democratic Party of Hawai'i, Planned Parenthood Votes Northwest and Hawaii, Hawaii Medical Service Association, and sixteen individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that many health insurance plans and policies include some form of transgender-specific exclusions. As a result, transgender individuals are excluded from health care coverage based on actual gender identity or perceived gender identity, rather than because of lack of medical necessity of treatment. Your Committee further finds that transgender individuals who are prevented from obtaining health care to aid in transition face high rates of suicide. Furthermore, while discriminatory exclusions in health insurance policies can impact transition-related services, these exclusions may also prevent transgender individuals from obtaining common wellness care treatment. The consequences of discrimination against the transgender community can have profound effects on the health care system as a whole, including increased emergency room visits, hospital admissions, and long term care needs that result from delayed or denied treatment for transgender individuals.

Your Committee additionally finds that ten jurisdictions, including the District of Columbia, have laws and policies protecting against discriminatory exclusions and denials of treatment based on gender identity, in at least some circumstances. The federal government is also currently acting to address the issue of discriminatory exclusions in health insurance plans. The amendments proposed by this measure will therefore enable Hawaii to follow this important national trend by prohibiting discrimination in health care coverage, services, and treatment on the basis of actual gender identity or perceived gender identity.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "gender transition";
- (2) Specifying that the non-discrimination provisions proposed by this measure shall apply to all health benefits plans under chapter 87A, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2666, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2666, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 2048 Commerce, Consumer Protection, and Health on S.B. No. 2680

The purpose and intent of this measure is to make certain housekeeping amendments within chapter 412, Hawaii Revised Statutes, including:

- (1) Clarifying and addressing inconsistencies within the fee schedule for financial institutions; and
- (2) Repealing the credit union advisory board.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Hawaii Bankers Association.

Your Committee finds that this measure adds consistency within the fee schedule for financial institutions under chapter 412, Hawaii Revised Statutes. This measure also repeals the credit union advisory board, as this board has been inactive since 2010 and there are currently no state-chartered credit unions in the State. Your Committee notes that this measure does not add any new fees, but rather corrects and clarifies references to existing fees within chapter 412, Hawaii Revised Statutes.

Your Committee further finds that this measure will make chapter 412, Hawaii Revised Statutes, easier to understand, reduce questions about fees, and enhance the Division of Financial Institutions' ability to collect fees consistent with the fee schedule for financial institutions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2680, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2680, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2049 Human Services on S.B. No. 532

The purpose and intent of this measure is to appropriate funds to Mo'okini Luakini, Inc., for hosting of Children's Day in Kohala.

Your Committee received testimony in support of this measure from five individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure supports a vital piece of Hawaii's history by providing children with an educational and cultural experience during the annual Children's Day. Children's Day has been hosted by Mo'okini Luakini, Inc., for approximately 35 years. In any year, there have been between 600 and 1,300 children who visit the historical site. Funding assistance for this cultural event helps to ensure it will remain an educational and cultural experience for children.

Your Committee has amended this measure by:

- (1) Changing the date of the appropriation to reflect fiscal year 2016-2017;
- (2) Inserting an 'okina to reflect Mo'okini Luakini, Inc.'s actual business name; and
- (3) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 532, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 532, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2050 Human Services on S.B. No. 2873

The purpose and intent of this measure is to address an inconsistency in statutory requirements regarding orders for immediate protection by allowing the Department of Human Services discretion when determining whether to seek an order for immediate protection of vulnerable adults.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that section 346-228, Hawaii Revised Statutes, allows but does not require the Department of Human Services to seek an order for immediate protection to prevent abuse. In fiscal year 2015, the Department of Human Services investigated 980 vulnerable adult abuse cases statewide. Of those 980 investigations, orders for immediate protection were sought in approximately 25 cases. The immediate court intervention was necessary because the adults in those cases lacked the capacity to consent to the provision of services, and the action was necessary to ensure their health and safety. In all other cases, the vulnerable adults or their legal representatives were able to give consent for the provision of services, and court intervention was not necessary. This measure will align the language in sections 346-228 and 346-231(a), Hawaii Revised Statutes, thereby clarifying the Department of Human Services authority to use other remedies where court intervention would not be appropriate or necessary.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2873 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2051 Human Services on S.B. No. 2340

The purpose and intent of this measure is to appropriate funds to the Department of Human Services, including the Office of Youth Services, to provide outreach services to the homeless.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Human Services, Office of Youth Services, Catholic Charities of Hawaii, Rainbow Family 808, Community Health Outreach Work Project, Hale Kipa, Waikiki Health, Hawaii Youth Services Network, LGBT Caucus Democratic Party of Hawaii, PHOCUSED, Family Support Services of West Hawaii, Hawaii Children's Action Network, Hawaii Appleseed Center for Law and Economic Justice, Family Programs Hawaii, and three individuals.

Your Committee finds that Hawaii has the highest per capita rate of homelessness of any state in the nation. Outreach is a critical part of the coordinated efforts to provide services to this sector of the population, and more strategic outreach is needed to serve the growing percentages of homeless people who are not living in shelter programs. Your Committee finds that unaccompanied homeless youth are among the most vulnerable of the homeless population. National statistics show that 33 percent of teens will be lured into prostitution within 48 hours of leaving home. Your Committee heard and concurs with testimony emphasizing the importance of outreach to the unaccompanied youth who struggle to get the services they need because of circumstances beyond their control.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2340 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2052 Human Services on S.B. No. 2811

The purpose and intent of this measure is to:

- (1) Allow the family court to terminate parental rights if the court determines by clear and convincing evidence that the child was conceived during an act of rape or sexual assault perpetrated by the parent whose rights are sought to be terminated; and
- (2) Create a presumption that termination of parental rights is in the best interest of the child if the child was conceived as a result of the rape or sexual assault.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawaii State Commission on the Status of Women, The Sex Abuse Treatment Center, Planned Parenthood Votes of Northwest and Hawaii, Hawaii State Coalition Against Domestic Violence, National Association of Social Workers Hawaii Chapter, Hawaii Women's Coalition, and one individual.

Your Committee finds that there are approximately 32,000 rape-related pregnancies each year in the United States. Rape is one of the most under-prosecuted serious crimes, and rapists may use the threat of pursuing custody or parental rights to coerce the survivors into not prosecuting rape. The clear and convincing evidence standard is the most common for terminating parental rights among the fifty states. Your Committee finds that changing the standard for termination of parental rights from beyond a reasonable doubt to a clear and convincing evidence standard satisfies due process while also allowing victims of rape or sexual assault to petition for termination of the perpetrator's parental rights without requiring a criminal conviction.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2811, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2811, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2053 Human Services on S.B. No. 2869

The purpose and intent of this measure is to allow the Department of Human Services to conduct criminal history record checks, with or without the consent, of the alleged perpetrators of harm or threatened harm to a child and all adults living in the family home, to ensure the safety of the child.

Your Committee received testimony in support of this measure from the Department of Human Services and Family Programs Hawaii.

Your Committee finds that conducting criminal history record checks on individuals, without their consent, is important to protecting children after there has been an allegation of alleged harm or threat of harm. Conducting the record checks on all adults in the family home ensure the child's continued safety. Criminal history information assists Child Welfare Services in identifying potential factors that may place the children in imminent harm. The criminal history record checks are also a critical factor in allowing

a child victim to remain in the home with a safety plan in place and when returning a child victim to the family home from foster care. The State has a compelling interest in keeping children safe and protecting them from potential harm.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2869, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2054 Human Services on S.B. No. 2385

The purpose and intent of this measure is to establish restrictions on sugar-sweetened beverages and certain other beverages served in child care facilities.

Your Committee received testimony in support of this measure from the American Heart Association, Hawaii Primary Care Association, Hawaii Public Health Institute, Family Programs Hawaii, American Diabetes Association, Hawaii Children's Action Network, and twenty-two individuals. Your Committee received comments on this measure from the Department of Human Services and the Department of Health.

Your Committee finds that children derive 10 to 15 percent of their total calories from sugary beverages. Drinking one 12-ounce soda every day increases a child's odds of becoming obese by 60 percent and doubles the risk of dental caries. Childhood obesity has more than tripled in the past 30 years, and one in three children entering kindergarten in Hawaii is overweight or obese. In Hawaii, close to 65,000 children attend some form of non-parental child care. By limiting the type of drinks that are served, an enormous number of calories and related health risks can be avoided.

Your Committee has amended this measure by:

- (1) Inserting language to exempt from the prohibitions proposed by this measure beverages provided by a parent or legal guardian for consumption by the child at the child care facility; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2385, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2055 Education on S.B. No. 2698

The purpose and intent of this measure is to require public schools to offer students educational alternatives to the dissection and vivisection of animals.

Your Committee received testimony in support of this measure from the Humane Society of the United States, Good Shepherd Foundation, Animalearn, and six individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that dissections and vivisections are a well-established part of many biology class curricula, but that some students have ethical, moral, or religious objections to those practices. Advancements in computer software and other technologies have made it possible for schools to achieve the educational objectives met by dissections and vivisections while still respecting the positions and convictions of students regarding the humane treatment of animals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2698, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2698, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Harimoto).

SCRep. 2056 Education on S.B. No. 2606

The purpose and intent of this measure is to ensure that students in public schools will have access to digital format versions of printed curricular materials.

Your Committee received testimony in support of this measure from TechNet and six individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that digital information technologies become more and more integrated into public school classrooms as time goes on. Hawaii's students are growing up in a world where such technologies are increasingly prevalent, and many students have learning styles which are accustomed to taking advantage of those technologies when they are available.

Your Committee has amended this measure by:

- (1) Clarifying that digital versions are required only when such digital versions are available; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2606, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Harimoto).

SCRep. 2057 Education on S.B. No. 2426

The purpose and intent of this measure is to ensure that financially disadvantaged students will not be denied school meals solely because of an inability to pay under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Education; Hawaii State Teachers Association; United Public Workers, AFSCME Local 646, AFL-CIO; LGBT Caucus of the Democratic Party of Hawaii; Rainbow Family 808; and five individuals.

Your Committee finds that hungry students are under a dramatic disadvantage in regard to learning. Those students who are unable to pay for school meals frequently come from financially disadvantaged families, who may already struggle to provide nutritious meals for their children. The parents of such students often live paycheck-to-paycheck, and may occasionally not have sufficient funds to pay for school meals. Your Committee further finds that students should not be forced to compound financial hardship with hunger at school, and that such hunger places unnecessary obstacles in the path of the students' academic success.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2426 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Harimoto).

SCRep. 2058 Education on S.B. No. 2797

The purpose and intent of this measure is to provide funding for start-up grants to assist newly approved pre-opening charter schools and allow those schools to meet the often prohibitive start-up costs associated with opening a school.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Hawaii Public Charter Schools Network, Kamehameha Schools, and one individual. Your Committee received testimony in opposition to this measure from IMUAlliance. Your Committee received comments on this measure from the Hawaii State Teachers Association.

Your Committee finds that certain Department of Education schools operate at full or near-full capacity, and struggle with severe overcrowding on campuses. These conditions make it difficult for such schools to provide an effective learning environment for their students. Newly approved pre-opening charter schools that meet the rigorous standards of the State Public Charter School Commission could help alleviate the overcrowding in certain non-charter public schools, but the start-up costs associated with opening a school are often prohibitively high. Start-up grants would facilitate approved pre-opening schools absorb those high start-up costs and consequently benefit all of Hawaii's public school students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2797 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Harimoto).

SCRep. 2059 Education on S.B. No. 2866

The purpose and intent of this measure is to increase the cap on the State Librarian's salary from \$120,000 per year to \$200,000 per year.

Your Committee received testimony in support of this measure from one individual.

Your committee finds that the current salary cap for the State Librarian is not consistent with the duties and responsibilities of the position, and not in alignment with national salary norms. Salaries of similar positions in other states with comparable budgets, population sizes, and number of employees are significantly greater than the salary cap of Hawaii's State Librarian. The statute governing the State Librarian's salary cap has not been amended since 2001, and the salary cap should be revised as a matter of equity, to at least account for cost of living increases.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2866 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Dela Cruz, Harimoto).

SCRep. 2060 Judiciary and Labor on S.B. No. 2312

The purpose and intent of this measure is to redefine “sexual conduct” as that term is used in the offenses of promoting child abuse in the first, second, and third degrees.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Police Department, City and County of Honolulu; The Sex Abuse Treatment Center; Women’s Caucus, Democratic Party of Hawai‘i; Hawaii Women’s Coalition; and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu and Office of the Prosecuting Attorney, County of Kauai. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure amends the definition of “sexual conduct” under the offenses of promoting child abuse in the first, second, and third degrees to reflect similar terminology under federal law. This measure repeals references to “sexual penetration” under the definition of “sexual conduct” in sections 707-750, 707-751, and 707-752, Hawaii Revised Statutes (HRS). The Department of the Attorney General testified that the term “sexual penetration” as defined in section 707-700, HRS, has been used in local prosecutions and cited by state courts for many years. Although “sexual penetration” under section 707-700, HRS, substantively encompasses the federally derived statutory language proposed in this measure, it is your Committee’s intent that the language proposed by this measure add to and clarify the statutory tools available to law enforcement in combatting child abuse rather than create confusion or give rise to specious motions or dilatory procedural tactics in adjudication.

Based on testimony provided by the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu, your Committee further finds that substituting the words “any person” for “a minor” in the definition of “sexual conduct” under sections 707-750, 707-751, and 707-752, HRS, may lead to unintended consequences. Lastly, your Committee agrees that use of the terms “homosexuality” and “lesbianism” is unnecessary in the current gender-neutral scheme of the Penal Code, and that their continued use may unfairly stigmatize certain relationships.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the suggestions made by the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu that reinstates “sexual penetration” and references to “a minor” rather than “any person” in the definition of “sexual conduct” under the offenses of promoting child abuse in the first, second, and third degrees;
- (2) Adopting the language suggested by the Department of the Prosecuting Attorney of the City and County of Honolulu that amends the definition of “sexual conduct” as applied to obscenity offenses to repeal references to homosexuality and lesbianism;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2312, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2061 Judiciary and Labor on S.B. No. 2723

The purpose and intent of this measure is to increase the maximum penalties for government contractors who violate the State’s wages and hours of employees on public works law to:

- (1) A penalty of not more than \$1,000 for a first offense; and
- (2) A penalty of ten percent of the contract amount for the second offense.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Pacific Resource Partnership, Hawaii Construction Alliance, Hawaii Regional Council of Carpenters, and one individual. Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii and Subcontractors Association of Hawaii. Your Committee received comments on this measure from the Chamber of Commerce Hawaii.

Your Committee finds that the existing penalties for government contractors who violate the State’s wages and hours of employees on public works law, codified as chapter 104, Hawaii Revised Statutes, are insufficient in deterring certain contractors from underpaying employees. When contractors comply with chapter 104, Hawaii Revised Statutes, there is a level playing field for bidding on state and county projects. Implementation of this measure assists the Department of Labor and Industrial Relations in enforcing chapter 104, Hawaii Revised Statutes, and encourages government contractors to comply with the law.

Your Committee has amended this measure by:

- (1) Requiring a government contractor who violates chapter 104, Hawaii Revised Statutes, to pay a penalty that is equal to ten percent of the amount of back wages due or \$1,000 per offense, whichever is greater, for the first offense, rather than a penalty of not more than \$1,000;
- (2) Requiring a government contractor who violates chapter 104, Hawaii Revised Statutes, to pay a penalty equal to the amount of back wages due or \$10,000 for each offense, whichever is greater, for the second offense, rather than ten percent of the contract amount; and
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2723, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2723, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2062 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2152

The purpose and intent of this measure is to appropriate funds to support community resilience and preparedness programs.

Your Committee received testimony in support of this measure from the Department of Defense, Police Department of the City and County of Honolulu, Kailua Community Emergency Response Team, and four individuals.

Your Committee finds that emergency preparedness is an extremely important issue in Hawaii, particularly in light of the State's physical isolation. Emergency management personnel and other first responders could potentially be overwhelmed in the event of a large-scale disaster. Community resilience and preparedness programs provide a way for the public to coordinate with emergency service providers in preparing for, responding to, and recovering from disasters in the future.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2152 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2063 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2480

The purpose and intent of this measure is to direct the Auditor to conduct an audit of certain correctional facility commissaries in the State.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons; The CHOW Project; Ho'omana Pono, LLC; and two individuals. Your Committee received comments on this measure from the Department of Public Safety and Office of the Auditor.

Your Committee finds that high prices at correctional facility commissaries are an ongoing issue in Hawaii. Incarcerated persons and their families frequently pay prices at commissaries that are much higher than prices for the same goods at retail stores. Your Committee further finds that an audit of correctional facility commissaries will help identify and eliminate instances of overcharging.

Your Committee has amended this measure by:

- (1) Changing the source of the appropriations to the general revenues of the State; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2480, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2480, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2064 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2628

The purpose and intent of this measure is to establish a task force to consider long-term funding for the State Building Code Council and to appropriate funds to the Council for administrative staff and rulemaking expenses.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, State Building Code Council, Subcontractors Association of Hawaii, American Institute of Architects, and American Council of Engineering Companies of Hawaii. Your Committee received testimony in opposition to this measure from Building Industry Association – Hawaii.

Your Committee finds that the State Building Code Council was created to review and adopt the latest editions of nationally recognized building codes and standards for the State of Hawaii. The Council is made up of well qualified experts, but the work of the Council is hindered by the fact that its operating expenses have never been funded by the State. Your Committee further finds that timely updated building codes are in the public interest, and that providing support to the Council would further that interest.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2628 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2065 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2629

The purpose and intent of this measure is to:

- (1) Create a Puuhonua Commission within the Department of Public Safety to assist formerly incarcerated persons to transition back into society in a beneficial way; and
- (2) Create a Puuhonua Commission Advisory Committee in each county to inform the Puuhonua Commission of the needs of probationers, parolees, and post-incarcerated persons within the county.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons; The Chow Project; Ho‘omana Pono, LLC; Blueprint for Change; and three individuals. Your Committee received comments on this measure from the Department of Public Safety and the Department of Budget and Finance.

Your Committee finds that the ancient Hawaiian concept of puuhonua, a place of refuge and healing, is applicable to formerly incarcerated persons re-integrating into society. Formerly incarcerated persons often face significant challenges, and lack of support can increase the likelihood of recidivism. The purpose of the Puuhonua Commission is to assist formerly incarcerated persons in transitioning into society in a healthy, responsible manner.

Your Committee has amended this measure by:

- (1) Changing the appointing authority of some members of the county Puuhonua Commission Advisory Committees from the Governor to the mayor of the appropriate county; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2629, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2629, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2066 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2630

The purpose and intent of this measure is to:

- (1) Repeal the prohibition on the sale or offering of sale of goods produced pursuant to the Department of Public Safety’s correctional industries program;
- (2) Ensure that the correctional industries program is operated for employment training of inmates in the production of products and crafts for sale to the public and in providing labor services for the construction, repair, or maintenance of state, county, or federal equipment or real property;
- (3) Allow the Administrator of the correctional industries program to assess a reasonable charge for labor services provided by inmates; and
- (4) Require that the monies collected from the sale of products and crafts be deposited partially into the correctional industries revolving fund and partially into the committed person’s account.

Your Committee received testimony in support of this measure from the Department of Public Safety; the Community Alliance on Prisons; Ho‘omana Pono, LLC; and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the correctional industries program can provide inmates with the opportunity to develop valuable skills, support an attitude of responsibility, and, under this measure, enable inmates to repay personal debt incurred through incarceration. These opportunities are beneficial for committed persons during and after their incarceration. The ability to offer products and crafts for sale to the public will allow the program to foster those valuable skills and attitudes even more effectively.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2630 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2067 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2631

The purpose and intent of this measure is to appropriate funds to the Department of Public Safety for the expansion of work furlough programs.

Your Committee received testimony in support of this measure from the Department of Public Safety; Community Alliance on Prisons; The CHOW Project; Ho‘omana Pono, LLC; and four individuals.

Your Committee finds that gradual re-entry into the community provides inmates with the best opportunity for success. Work furlough programs are extremely valuable for teaching inmates critical decision making and self-sufficiency skills, as well as helping former inmates find employment opportunities. Work furlough programs additionally reduce recidivism by preparing inmates for reintegration into the community and fostering in participants a sense of pride and responsibility. For these reasons, your Committee finds that supporting work furlough programs is in the public interest.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2631 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2068 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2704

The purpose and intent of this measure is to provide an income tax exclusion for resident taxpayers who are on active military duty who are serving outside the State pursuant to orders.

Your Committee received testimony in support of this measure from the Department of Defense. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that military personnel on active duty frequently face financial hardships arising from obligations arising in the State while they are deployed outside the State, including the possibility of owing state income tax in multiple states simultaneously. This places an unnecessary burden on individuals who are already called upon to make significant sacrifices in service to the nation. Your Committee further finds that this measure will help to alleviate that unnecessary burden.

Your Committee has amended this measure by:

- (1) Incorporating language suggested by the Hawaii Department of Taxation; and
- (2) Making technical amendments to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2704, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2704, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2069 Human Services on S.B. No. 2879

The purpose and intent of this measure is to:

- (1) Update the statutory wording from “foster boarding home” to “resource family home” and from “foster parents” to “resource caregivers” in certain statutes;
- (2) Establish qualified immunity for resource caregivers and child caring institutions;
- (3) Add the requirement that resource caregivers and child care institutions use the reasonable and prudent parent standard when authorizing children in foster care to participate in activities; and
- (4) Change from sixteen to fourteen years the minimum age at which children in foster care are to be involved in their foster care plans.

Your Committee received testimony in support of this measure from the Department of Human Services; Effective Planning and Innovative Communication ‘Ohana, Inc.; Family Programs Hawaii; Hawai‘i Helping Our People Envision Success; and nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that requiring resource caregivers to follow the reasonable and prudent parent standard ensures caregivers will make sound parental decisions that maintain the health, safety, and best interest of the child while at the same time allowing and encouraging growth and development. By providing qualified immunity from liability, resource caregivers will be more likely to allow children, under the reasonable and prudent parent standard, to participate in appropriate extracurricular, enrichment, cultural, and social activities. However, it is also important to maintain accountability and liability for caregivers whose actions are not protected by the qualified immunity. Your Committee finds that lowering the minimum age at which the foster child can be included in planning their care plan includes children earlier in the process of case planning and being informed of the rights and options available to them, which promotes a sense of control over their lives, strengthens their self-sufficiency, and better prepares them for a successful transition from foster care to independent living.

Your Committee has amended this measure by:

- (1) Inserting language to exempt unreasonable, negligent, grossly negligent, and intentional acts or omissions from the immunity of liability provided in this measure, so as to protect foster children from such conduct;
- (2) In sections 587A-31(c) and 587A-32(a), Hawaii Revised Statutes, deleting the term “successful adulthood” and reverting back to “independent living”, as “independent living” is a legal term of art consistently used by federal and state entities; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2879, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2879, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2070 Human Services on S.B. No. 2227

The purpose and intent of this measure is to appropriate funds for subsidies for the preschool open doors program.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Family Programs Hawaii, Family Support Hawaii, and Hawaii Children's Action Network. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that preschool open doors program subsidies enable children without adequate financial means to attend preschool. For the 2015-2016 year, the preschool open doors program received 2,123 applications, and 1,158 children were enrolled at 256 preschools throughout the State. Early childhood education is important because it has been shown to improve school performance, raise math and language abilities, sharpen thinking and attention skills, reduce special education placement, and lower school dropout rates. Investing in children's futures is of the utmost importance.

Your Committee supports the Governor's supplemental budget request of \$6,000,000 for preschool open doors program child care subsidies and \$198,773 for administrative costs that includes one full-time equivalent position and related costs in administering the program.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$6,000,000 for subsidies for the preschool open doors program; and
- (2) Inserting an additional appropriation of \$198,773 to establish one new position in the Department of Human Services and for related costs in administering the preschool open doors program.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2227, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2071 Commerce, Consumer Protection, and Health on S.B. No. 2678

The purpose and intent of this measure is to establish a Board of Dental Hygienist Examiners to oversee the licensing and regulation of dental hygienists in the State, independent from the Board of Dental Examiners.

Your Committee received testimony in support of this measure from the School of Nursing and Dental Hygiene, University of Hawai'i at Manoa; Hawaii Dental Hygienists' Association; and twenty-seven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Dental Association and one individual. Your Committee received comments on this measure from the Board of Dental Examiners.

Your Committee finds that dental hygienists are preventative oral health professionals, licensed in the practice of dental hygiene, who provide educational, clinical, and therapeutic services and play an integral role in meeting consumers' oral health care needs. Furthermore, the dental hygienist profession continues to evolve due to integration of oral health into overall health, technological advances, health care reform strategies, and a continuing commitment to serving the health needs of the public. Dental hygienists, as educated, licensed professionals, are great assets to the community with a keen interest in promoting public health.

Your Committee further finds that the unique and valuable perspective of dental hygienists is currently underrepresented on the Board of Dental Examiners, with the current ratio being eight dentists to two dental hygienists. Accordingly, this measure proposes the establishment of a separate board to regulate and oversee dental hygienists in the State. A separate board would allow licensed dental hygienists to protect the health, safety, and welfare of the public by ensuring only dental hygienists who are licensed and qualified are permitted to treat patients in Hawaii.

Your Committee has amended this measure by:

- (1) Amending the name of the new board proposed by this measure to the Board of Dental Hygiene, to more accurately reflect the intent of the proposed board;
- (2) Clarifying that the composition of the Board of Dental Hygiene shall include, in addition to four dental hygienists, one dentist and two public members;
- (3) Specifying that no person shall employ, direct, or otherwise order a dental assistant or other person to perform services or procedures within the scope of practice of dental hygiene, unless the person who performs the services or procedures is a licensed dental hygienist;
- (4) Removing language that inadvertently gave the Board of Dental Hygiene the authority to revoke a dentist's license in certain circumstances, as the authority over dentists' licenses should remain with the Board of Dental Examiners;
- (5) Inserting an effective date of July 1, 2016, and providing that the initial appointments to the Board of Dental Hygiene shall be made by October 1, 2016, with the first meeting of the Board to be held in November 2016; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2678, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 2678, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2072 Commerce, Consumer Protection, and Health on S.B. No. 2315

The purpose and intent of this measure is to exempt from jury duty mothers who breastfeed or express breast milk; provided that this exemption shall end when a mother is no longer breastfeeding or expressing breast milk.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Breastfeeding Hawaii; Planned Parenthood Votes Northwest and Hawaii; American Association of University Women-Hawaii; Hawaii State Coalition Against Domestic Violence; Healthy Mothers, Healthy Babies; and two individuals.

Your Committee finds that breastfeeding has been shown to be beneficial for mothers and their infants. However, for many mothers, breastfeeding can be difficult to begin and hard to maintain. Multiple barriers also exist for women who wish to continue breastfeeding. Your Committee further finds that jury duty can be burdensome to breastfeeding mothers, as mother-child separation creates a serious challenge to continued breastfeeding. Women who serve on a jury may also lack access to a clean, private space to express breast milk. Your Committee additionally finds that supportive policies can help women continue breastfeeding. The jury duty exemption for breastfeeding mothers, as proposed by this measure, is one such policy that can support and benefit breastfeeding mothers and their children.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2315, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2315, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2073 Water, Land, and Agriculture on S.B. No. 2217

The purpose and intent of this measure is to appropriate funds for the operation, repair, maintenance, and improvement of the East Kauai irrigation system by the East Kauai Water Users' Cooperative.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; East Kauai Water Users' Cooperative; Saiva Siddhanta Church; Kalepa Coalition; Hawai'i Farm Bureau; Larry Jeffs Farms, LLC; Hawaii Cattlemens Council; and three individuals.

Your Committee finds that reliable irrigation systems are the lifelines of Hawai'i's agricultural community. Irrigation systems need to be repaired, properly maintained, and improved to meet agricultural water requirements and to address extended water droughts.

Your Committee has amended this measure by inserting an appropriation amount of \$75,000.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2217, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2217, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2074 (Majority) Water, Land, and Agriculture on S.B. No. 2440

The purpose and intent of this measure is to create an exclusion from income tax for the first \$50,000 of income earned by farmers whose annual gross income is \$200,000 or less.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau, Hawaii Cattlemens Council, and one individual. Your Committee received comments on this measure from the Department of Agriculture, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the growth of small, diversified farming businesses adds to and diversifies Hawai'i's economy. Your Committee finds that the creation of an exclusion from income tax for the first \$50,000 of income earned for such businesses will encourage the growth of new, small, and diversified farming businesses, will not significantly affect tax collections by the State, and will improve the long-term economic well-being of the State.

Your Committee has amended this measure by:

- (1) Deleting the word "annual" from the term "annual gross income";
- (2) Amending the term "farmer" to include gross income from the sale of farm products to customers in any location; and
- (3) Defining the term "farm products" as production from agricultural activities described in section 205-4.5(a)(1), (2), and (3), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2440, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Thielen). Noes, 1 (Wakai). Excused, 2 (Dela Cruz, Slom).

SCRep. 2075 Water, Land, and Agriculture on S.B. No. 2137

The purpose and intent of this measure is to establish an on-farm mentoring program within the Department of Agriculture to encourage the development and implementation of a whole farm system approach to agriculture, to improve food security and self-sufficiency in the State.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaii Farmers Union United, Hawai'i Farm Bureau, Maui Farmers Union United, Hawaii Tropical Fruit Growers, Farm Lovers Farmers Markets, and seven individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that a whole farm system approach to agriculture can improve food security and benefit the local economy through the reduction of production costs and promotion and manufacture of locally sourced inputs. Teaching a new generation of farmers to use a whole farm system approach will create an alternative method of farming that appeals to many young farmers across the State. Your Committee further finds that the farming community of Hawaii contains institutional knowledge of great value to new and future generations of farmers; however, Hawaii's farmers are aging and if opportunities are not created for experienced farmers to pass on their knowledge to new farmers, much knowledge will be lost. Your Committee therefore finds that on-farm mentoring programs benefit the State and the farming community by creating opportunities for experienced farmers to work with and educate new farmers working directly on the farm.

Your Committee has amended this measure by:

- (1) Deleting language to remove the grant provision portion of the on-farm mentoring program;
- (2) Amending the appropriation to be an appropriation of general funds to the Department of Agriculture to support existing on-farm mentoring programs and for a pilot program in Maui, rather than a grant to existing on-farm mentoring programs; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2137, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2137, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2076 Water, Land, and Agriculture on S.B. No. 2803

The purpose and intent of this measure is to provide additional funding to the state agricultural loan program in order to meet the demand of a growing agricultural sector.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, and Hawaii Cattlemens Council.

Your Committee finds that increased funding to the state agricultural loan program will allow for additional farming operations due to the recent purchase of the Galbraith lands and other state projects statewide. With additional resources, the State will be able to continue its growth of import replacement and food sustainability.

Your Committee has amended this measure by:

- (1) Inserting a new section to appropriate funds out of the agricultural loan revolving fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2803, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2803, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2077 Judiciary and Labor on S.B. No. 2314

The purpose and intent of this measure is to make a person ineligible for a deferred acceptance of guilty plea or nolo contendere plea in cases where the person was originally charged with the offense of abuse of a family or household member and the charge is subsequently reduced to a lesser included offense.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, County of Maui; Hawaii State Coalition Against Domestic Violence; Domestic Violence Action Center; League of Women Voters of Hawaii; and Hawaii Women's Coalition. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Department of the Prosecuting Attorney, City and County of Honolulu; and Office of the Prosecuting Attorney, County of Kauai. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that defendants charged with the offense of abuse of a family or household member are not eligible for a deferred acceptance of guilty plea or deferred acceptance of nolo contendere plea. However, defendants originally charged with this offense have the option of pleading to a lesser included offense, such as assault or harassment that does not involve a family or household member. As a result, defendants are eligible for a deferred acceptance of guilty plea or deferred acceptance of nolo contendere plea. This measure prohibits defendants from pleading to a lesser included offense of the offense of abuse of a family or household member to ensure that perpetrators of domestic abuse are held accountable for their actions.

Your Committee notes the concerns raised by the Department of the Prosecuting Attorney of the City and County of Honolulu that this measure may strain existing judicial resources to maintain an adequate domestic abuse jury trial docket. Your Committee further notes that the Judiciary, which currently provides only two courtrooms capable of handling a maximum of two jury trials per week, would require additional resources if this measure is enacted. Accordingly, your Committee has requested information from the Department of the Prosecuting Attorney of the City and County of Honolulu regarding the number of instances in which the original charge of abuse of a family or household member was pled to a lesser included offense and granted a deferred acceptance plea.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2314, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2078 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2324

The purpose and intent of this measure is to amend the composition of county police commissions to require that there are commissioners on each commission who have experience or backgrounds in women's issues, civil rights, and law enforcement.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii State Coalition Against Domestic Violence, Remington College Criminal Justice, and sixteen individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that certain high-profile incidents involving law enforcement officers in Hawaii have generated concern about the way police departments in the State handle domestic violence cases. The conduct of police officers is overseen by the county police commissions. Amending the composition of police commissions to include commissioners with backgrounds in women's issues, civil rights, and law enforcement will improve the manner in which the commissions respond to domestic violence concerns within the police departments. Although your Committee recognizes that this issue is important and a matter of public concern, this measure requires further discussion and consideration.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2324, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2079 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2364

The purpose and intent of this measure is to specify that citizen complaints against a police officer that involve allegations of domestic abuse against a family or household member on the part of the police officer shall not be required to be in writing or sworn to by the complainant.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii State Coalition Against Domestic Violence, Hawaii Women's Coalition, Hawaii State Democratic Women's Caucus, and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that high-profile incidents involving law enforcement officers in the State highlight the need to ensure that a citizen who has experienced abuse by a police officer who has a certain relationship with the citizen is able to report that abuse in a safe and secure manner. This need is especially prevalent in incidents of domestic violence involving law enforcement officers. Although the issue of risk or apprehension on the part of individuals bringing domestic violence complaints against law enforcement officers is serious and urgent, this measure requires further discussion and consideration.

Your Committee has therefore amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2364, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2364, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2080 Hawaiian Affairs on S.B. No. 2125

The purpose and intent of this measure is to provide the Office of Hawaiian Affairs with the right of first refusal for any disposition of public lands classified as remnants.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Transportation, Aha Moku Advisory Council, The Trust for Public Land, Association of Hawaiian Civic Clubs, Sierra Club of Hawaii, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee has heard the testimony of the Department of Land and Natural Resources expressing concerns that the content in section 1 of this measure is inflammatory.

Accordingly, your Committee has amended this measure by:

- (1) Removing the content in the purpose section that the Department of Land and Natural Resources has objected to; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has also heard the testimony of the Department of Land and Natural Resources expressing concern about the language in section 2 of this measure relating to the reasonable purchase price of easements. Your Committee finds that this issue raises a concern that merits further consideration and requests that your Committee on Ways and Means further examine this issue if it chooses to hear this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2125, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2125, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2081 Transportation and Energy on S.B. No. 2381

The purpose and intent of this measure is to make an appropriation for design, permitting, and maintenance dredging for the Kihei Boat Harbor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Aha Moku Advisory Committee.

Your Committee finds that small boat harbors in Hawaii play an important role in the ocean recreational experiences of residents and visitors. Such experiences include yacht racing, canoe regattas, board sailing, ocean swimming, fishing, and surfing. The quality of ocean recreation experiences may be diminished by the inadequate upkeep of the State's boating facilities.

Your Committee further finds that despite the State's efforts to dredge the channel entrance and turning basin of Kihei Boat Harbor in 2007, launching and vessel retrieval problems continue to persist, creating unsafe conditions during certain ocean conditions.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2381 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2082 Transportation and Energy on S.B. No. 2246

The purpose and intent of this measure is to repeal the provision regarding refusal to submit to a breath, blood, or urine test for those arrested for the use of intoxicants while operating a vehicle.

Your Committee received testimony in support of this measure from the Department of Transportation, City and County of Honolulu Police Department, and County of Maui Department of the Prosecuting Attorney.

Your Committee finds that this measure brings Hawaii law into compliance with the Hawaii Supreme Court ruling in *State v. Yong Shik Won*, 136 Hawaii 292 (2015). In that case, the Court ruled that section 291E-68, Hawaii Revised Statutes, is unconstitutional because it prescribes a petty misdemeanor penalty for refusal to submit to a breath, blood, or urine test. The criminal penalty of a petty misdemeanor tends to negate any voluntary choice by the driver because there is an element of coercion. In the *Yong Shik Won* case, the Court ruled that, [h]ere, "because voluntary consent has not been demonstrated and no other exception to the warrant requirement is applicable, the result of Won's breath test, the product of the warrantless search, is not admissible into evidence."

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2246 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2083 Transportation and Energy on S.B. No. 2618

The purpose and intent of this measure is to require the Department of Transportation to conduct a feasibility study of establishing an interisland ferry system and make an appropriation for the study.

Your Committee received testimony in support of this measure from the Department of Transportation and two individuals. Your Committee received testimony in opposition to this measure from Aloha Analytics and one individual.

Your Committee finds that Hawaii does not enjoy the benefit of being linked to other states, cities, or towns via the federal interstate highway system or a network of interconnected state and local highways. Air transportation is currently the only efficient means of travel between Hawaii's major islands. An interisland ferry system can serve as an efficient alternative for transporting passengers, cargo, farm produce, and motor vehicles.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2618 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2084 Transportation and Energy on S.B. No. 3048

The purpose and intent of this measure is to make an appropriation for a grant-in-aid to W.H. Shipman, Ltd., for traffic plans and traffic lights in the Shipman Business Park.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the Department of Transportation, Highways Division will assist W.H. Shipman, Ltd., with technical support during the design and construction processes, including overseeing the project construction where it encroaches into or impacts operations of the state highway right-of-way in accordance with approved documents. According to testimony, the grantee will be responsible for all permitting, contracting, expenditures, accounting, and reconciliation of state funds.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2085 Transportation and Energy on S.B. No. 2931

The purpose and intent of this measure is to:

- (1) Expand the authority of the Director of Transportation over required motor vehicle and motor carrier vehicle inspections in the State; and
- (2) Reduce the amount of insurance information required on an inspection certificate.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure provides the Director of Transportation greater authority over the motor vehicle inspection program so that the cost to a vehicle owner for an inspection, the fees collected from inspection stations, and the administration of the program can be changed by amending administrative rules rather than amending statutes. The current system of state motor vehicle inspections is inefficient in that legislation needs to be passed each time an inspection fee is changed.

The measure also deletes all of the insurance information required to be placed on an inspection certificate except the insurance expiration date. With the implementation of an electronic inspection form program, digital images of insurance cards can be made and stored by inspection stations. The image is easily retrievable if an inspector is suspected of not checking the card or accepting a fraudulent card. Placing only the expiration date on the inspection certificate minimizes the data entry required by inspectors while providing the most important data on the certificate.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2931, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2931, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2086 Ways and Means on S.B. No. 2922

The purpose and intent of this measure is to enable the Tax Review Commission to carry out its mandate of evaluating the State's tax structure and recommending revenue and tax policy.

Specifically, this measure:

- (1) Extends the reporting date of the 2015-2017 Tax Review Commission to thirty days prior to the convening of the regular legislative session of 2018; and

- (2) Appropriates \$250,000 for the Tax Review Commission for fiscal year 2016-2017.

Your Committee received written testimony in support of this measure from the Department of Taxation. The Tax Foundation of Hawaii submitted written comments on this measure.

Your Committee finds that a Tax Review Commission is appointed every five years to review the State's tax structure and make related recommendations to the Legislature thirty days prior to the second regular legislative session following the appointment of the Commission. The most recent Tax Review Commission was required to have been appointed by July 1, 2015, and to submit its report to the Legislature in December 2016, pursuant to section 232E-3, Hawaii Revised Statutes. However, as of December 31, 2015, none of the Tax Review Commission members had been appointed.

Your Committee finds that this bill effectively permits the appointment of a Tax Review Commission in 2016 instead of 2015. Your Committee further finds that the date by which the Tax Review Commission shall submit its report to the Legislature should be extended to thirty days prior to the convening of the Regular Session of 2018. Your Committee further finds that an appropriation of \$250,000 should be made for the Tax Review Commission to carry out its mandate of evaluating the State's tax structure and recommending revenue and tax policy.

Your Committee intends that this bill be passed by the Legislature and enacted into law as soon as possible. Concurrent with the movement of this bill through the legislative process during the 2016 Regular Session, your Committee urges the Governor to submit nominees to the Senate in anticipation of enactment of this bill. Your Committee intends that the Senate consider the nominees for advice and consent while this bill moves through the legislative process. This concurrent process, your Committee hopes, will result in the appointment of commission members before the adjournment sine die of the 2016 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2922 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Riviere).

SCRep. 2087 Water, Land, and Agriculture on S.B. No. 2271

The purpose and intent of this measure is to make an appropriation for research and mitigation efforts to address rapid ohia death disease in the State and require the Department of Agriculture to report on the nature of the disease and actions taken and resources needed to mitigate the disease.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, O'ahu Invasive Species Committee, Council District 8 of the Hawai'i County Council, Kaua'i Watershed Alliance, West Maui Mountains Watershed Partnership, Conservation Council for Hawai'i, The Nature Conservancy, Hawaii Farm Bureau, Big Island Invasive Species Committee, University of Hawai'i System, Hawaii Crop Improvement Association, Sierra Club of Hawai'i, and eighty-one individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that ohia makes up about fifty per cent of the State's native forest and is a keystone species in native watershed areas. Rapid ohia death disease is devastating thousands of acres of native forest on the island of Hawaii. Your Committee further finds that rapid ohia death disease is a critical threat to the State's native forests, it is crucial that funds are directed to address this issue.

Your Committee has noted the testimonies of the Department of Agriculture and Department of Land and Natural Resources and finds that the Department of Land and Natural Resources is better suited to carry out the requirements of this measure.

Your Committee has therefore amended this measure by:

- (1) Replacing the Department of Agriculture with the Department of Land and Natural Resources as the responsible agency for the report required by this measure and as the recipient and expending agency for the appropriation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2271, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2088 Water, Land, and Agriculture on S.B. No. 2800

The purpose and intent of this measure is to establish in the Agribusiness Development Corporation a grant program to provide financial support for agriculture-related improvements to existing and emerging farms and agribusiness operations.

Your Committee received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Hawai'i Farm Bureau, and one individual.

Your Committee finds that the ability for the Agribusiness Development Corporation to issue grants will provide the means to assist local farming operations, make investments to strengthen and diversify Hawaii's agriculture, attract and retain businesses, and streamline the Corporation's operations. Your Committee further finds that a grant program may help foster partnerships to facilitate agribusiness projects and help grow Hawaii's agriculture industry.

Your Committee has amended this measure by;

- (1) Deleting language that would have set a limit on the dollar amount of the grant awarded per qualified person per year;
- (2) Inserting language to require the Agribusiness Development Corporation to prioritize grants relating to food production;
- (3) Inserting language to require the Agribusiness Development Corporation to submit an annual report on the grant program to the Legislature; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2800, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2800, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Ruderman, Wakai).

SCRep. 2089 Water, Land, and Agriculture on S.B. No. 2804

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Big Island Dairy LLC as an agricultural enterprise.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Farm Bureau; Hawaii Foodservice Alliance LLC; Big Island Dairy LLC; Ulupono Initiative; Hawaii Cattlemen's Council, Inc.; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by Big Island Dairy LLC to finance, refinance, and reimburse costs related to the planning, design, and construction of a new milk processing facility in the State. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2804, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2804, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2090 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2193

The purpose and intent of this measure is to define "person in custody" as used in the offenses of sexual assault in the second degree and third degree to explicitly prohibit certain persons from knowingly subjecting a person who is stopped by or under the control of a law enforcement officer to sexual penetration or sexual contact, respectively.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of the Prosecuting Attorney for the City and County of Honolulu, Sex Abuse Treatment Center, and one individual. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the County of Maui.

Your Committee finds that a recent, well-publicized case in which a law enforcement officer initiated inappropriate sexual contact on a motorist during a traffic stop highlights the need for clarity in the definition of the term "person in custody". The proposed new definition would broaden the definition of the term and clarify the range of its potential interpretations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2193, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2091 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2195

The purpose and intent of this measure is to:

- (1) Require the Director of Public Safety to annually submit to the Legislature and post on its public website reports on misconduct incidents that resulted in suspension or discharge of a sheriff or deputy sheriff; and
- (2) Require county police chiefs' annual reports regarding misconduct incidents that resulted in suspension or discharge of a police officer to be posted on the respective county police department's public website.

Your Committee received testimony in support of this measure from the Department of Public Safety; Ho'omana Pono, LLC; American Civil Liberties Union of Hawaii; Civil Beat Law Center for the Public Interest; Hawaii State Coalition Against Domestic Violence; and five individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the County of Maui.

Your Committee finds that the mission of law enforcement to serve and protect the public would benefit from timely, consistent exposure and correction of misconduct and that this measure would increase transparency and accountability of state and county law enforcement agencies.

Your Committee has amended this measure by:

- (1) Replacing references to the individuals whose misconduct triggers the reporting requirements under this measure with references to employees having police powers; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2195, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2195, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2092 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2321

The purpose and intent of this measure is to require training on domestic violence intervention for state and county employees who act as interveners in domestic violence situations.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Family Support Hawaii, Hawaii State Coalition Against Domestic Violence, American Association of University Women Hawaii, Domestic Violence Action Center, Hawaii Women's Coalition, Hawai'i State Democratic Women's Caucus, Parents and Children Together, and four individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Department of the Prosecuting Attorney of the County of Maui. Your Committee received comments on this measure from the State Fire Council, Fire Department of the County of Kaua'i, and Honolulu Emergency Services Department.

Your Committee finds that domestic violence is a serious social issue in Hawaii. State and county employees, including law enforcement officers, emergency medical services personnel, firefighters, and judges, can encounter domestic violence situations in the course of their duties. Domestic violence situations are often complex, sensitive, and difficult to handle effectively. It is appropriate and in the public interest to require state and county employees who may encounter domestic violence situations in the course of carrying out their regular duties to receive training on how to properly intervene in such situations.

Your Committee has amended this measure by:

- (1) Changing the required number of hours of training from fifteen to eight;
- (2) Adding a new section appropriating funds to be expended by the Department of Public Safety for the purpose of providing domestic violence intervention training; and
- (3) Changing the effective date to July 1, 2016.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2321, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2321, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2093 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2912

The purpose and intent of this measure is to amend chapter 353E, Hawaii Revised Statutes, to reflect nationally recognized best practices in the statewide integrated program for sex offenders, exempt the program from Sunshine requirements, and to identify the coordinating body for the sex offender treatment program as the "sex offender management team".

Your Committee received testimony in support of this measure from the Department of Public Safety and Judiciary. Your Committee received comments on this measure from the Civil Beat Law Center of the Public Interest.

Your Committee finds that the complex nature of sexual offending and the harm it has on victims necessitate implementation of nationally recognized best practices for sex offender management. Implementation of these practices will help ensure the safety of the community while facilitating treatment of offenders. The clarifying language of this measure will empower the State to enact that implementation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2912, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2094 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3016

The purpose and intent of this measure is to repeal the confidentiality protection afforded under the Uniform Information Practices Act for certain information regarding misconduct of police officers that results in suspension.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Office of Information Practices, Hawaii State Coalition Against Domestic Violence, The Civil Beat Law Center for Public Interest, and ten individuals. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that full and fair public disclosure of police misconduct is beneficial to law enforcement agencies and departments in their service to the public. For that reason, exemptions to disclosure must be carefully scrutinized to ensure that the interests that they further are not outweighed by the public interest in transparency. Although your Committee recognizes the importance of this issue, further discussion and examination are required.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3016, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3016, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2095 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2366

The purpose and intent of this measure is to require certain law enforcement agencies and departments to compile information on untested sexual assault collection kits and transmit that information to the Department of the Attorney General.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Honolulu Police Department, Hawaii Women's Coalition, Planned Parenthood Votes Northwest and Hawaii, and Hawai'i State Democratic Women's Caucus. Your Committee received comments on this measure from one individual.

Your Committee finds that there exists a nationwide problem of sexual assault collection kits going untested. Thorough, timely, and accurate testing of sexual assault collection kits is vital to successful apprehension and conviction of offenders. To facilitate more universal testing of such kits, the Attorney General should be kept apprised of the number of untested kits in the possession of law enforcement agencies and departments.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2366 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2096 Commerce, Consumer Protection, and Health on S.B. No. 2864

The purpose and intent of this measure is to:

- (1) Permit the Hawaii Medical Board to impose the same disciplinary action against a physician licensed in Hawaii as was taken by another state or federal agency;
- (2) Establish conditions for the disciplinary action; and
- (3) Prohibit a licensee from practicing in Hawaii until a final order of discipline is issued, if the licensee has been prohibited from practicing in another state.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Hawaii Medical Board, Hawaii Medical Service Association, and Hawaii Medical Association.

Your Committee finds that under existing law, the reasons for which the Hawaii Medical Board can impose reciprocal discipline on a Hawaii licensee are limited. Accordingly, this measure will expedite the disciplinary process when a Hawaii licensee is disciplined by another state or a federal agency. This measure will also protect Hawaii consumers during the disciplinary process by prohibiting a licensee who has been banned from practicing in another jurisdiction from practicing in Hawaii until the Hawaii Medical Board issues a final order. This protection ensures that Hawaii patients will not be at risk of receiving medical treatment from a licensee who was the subject of serious discipline elsewhere.

Your Committee further finds that according to the Federation of State Medical Boards, the number of reciprocal disciplinary actions imposed by state medical boards against physicians licensed in another state has increased measurably within the last several years. This measure will enable the Hawaii Medical Board to keep pace with its counterparts nationwide and enable the Board to timely and appropriately respond to disciplinary actions taken elsewhere against Hawaii licensees.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2864 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2097 Commerce, Consumer Protection, and Health on S.B. No. 2670

The purpose and intent of this measure is to reduce the surcharge on the license and renewal fee for behavior analysts from \$100 to \$50.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and one individual.

Your Committee finds that the initial costs for behavior analyst licensure and the annual fees to maintain this license can total over \$1,000; these amounts can be significant to behavior analysts, many of whom are paid hourly with minimal benefits. Accordingly, your Committee finds that reducing the surcharge on the license and renewal fee for behavior analysts, as proposed by this measure, will ease the financial burden of behavior analyst licensing, encourage the licensure of behavior analysts, and increase the number of licensed behavior analysts available to the public.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2670 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2098 Commerce, Consumer Protection, and Health on S.B. No. 2240

The purpose and intent of this measure is to make an appropriation to the Department of Health to hire more vector control employees and reestablish a vector control branch.

Your Committee received testimony in support of this measure from the Department of Health; Department of Defense; Hawaii Emergency Management Agency; Department of Emergency Management, City and County of Honolulu; Big Island Invasive Species Committee; Kauai Invasive Species Committee; Oahu Invasive Species Committee; Hawaii Farm Bureau; and nine individuals.

Your Committee finds that vector control is necessary to control the spread of animals that have the potential to carry disease, from rodents to insects, including mosquitoes. However, the Department of Health currently has no vector control branch, and its vector control unit suffered severe funding cuts several years ago.

Your Committee further finds that the current outbreak of dengue fever and growing global concern over the spread of zika virus necessitate an appropriation to the Department of Health to hire more vector control employees and reestablish a vector control branch. By fully reestablishing the vector control branch, the State will be able to more effectively manage virus outbreaks and other newly emerging public health threats.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2240 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2099 Commerce, Consumer Protection, and Health on S.B. No. 2285

The purpose and intent of this measure is to appropriate funds to continue the operations of the Statewide Language Access Resource Center and multilingual website pilot project within the Office of Language Access.

Your Committee received testimony in support of this measure from the Office of Language Access, Hawaii Filipino Lawyers Association, and two individuals.

Your Committee finds that the Statewide Language Access Resource Center and the multilingual website pilot project, established pursuant to Act 217, Session Laws of Hawaii 2013, provide meaningful access to important state and state-funded benefits and services to persons who have a limited ability to read, write, speak, or understand English. While the establishment of the Statewide Language Access Resource Center and the multilingual website pilot project was undertaken by the Office of Language Access with advance preparation, the implementation of the pilot project was delayed due to unforeseen challenges associated with the transfer of the Office of Language Access from the Department of Labor and Industrial Relations to the Department of Health pursuant to Act 201, Session Laws of Hawaii 2012.

Your Committee further finds that more funding is necessary to maintain and continue the services for limited English proficient individuals through the Statewide Language Access Resource Center and the multilingual website pilot project.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2285 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Nishihara).

SCRep. 2100 Commerce, Consumer Protection, and Health on S.B. No. 2775

The purpose and intent of this measure is to authorize the State to submit and implement a waiver from certain provisions of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act).

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Commerce and Consumer Affairs, Department of Labor and Industrial Relations, Hawaii Medical Service Association, The Queen's Health Systems, Healthcare Association of Hawaii, Chamber of Commerce Hawaii, Planned Parenthood Votes Northwest and Hawaii, and International Longshore and Warehouse Union Local 142.

Your Committee finds that section 1332 of the Affordable Care Act authorizes states to apply for a state innovation waiver, which will allow a state to implement innovative ways to provide access to quality health care. Hawaii has a long and successful history of health care coverage for the State's residents, due in large part to the Prepaid Health Care Act of 1974 (Prepaid Health Care). However, the benefits and coverage under Prepaid Health Care are more generous than the employer-sponsored benefits available under the Affordable Care Act. Your Committee further finds that the misalignment of provisions under the Affordable Care Act and Prepaid Health Care jeopardizes the robust insurance coverage that thousands of employees across the State have depended on for over forty years. A waiver from certain provisions of the Affordable Care Act, to align Affordable Care Act provisions with Prepaid Health Care's long-standing insurance requirements and processes, is therefore of crucial importance to Hawaii.

Your Committee additionally finds that the Legislature created a task force in 2014 to develop an Affordable Care Act State Innovation Waiver. The task force recommends waiving seven provisions of the Affordable Care Act, which will result in maintaining employer-sponsored benefits that conform to Prepaid Health Care and allowing Hawaii to forego either developing and maintaining a Small Business Health Insurance Options Program or participating in such an exchange hosted by the federal government.

Finally, your Committee notes that section 1332 of the Affordable Care Act requires state legislatures to sanction the application and implementation of a state innovation waiver. Accordingly, this measure authorizes the State to submit a state innovation waiver proposal to the United States Secretaries of Health and Human Services and the Treasury and implement the waiver upon approval by the Secretaries.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2775 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2101 Commerce, Consumer Protection, and Health on S.B. No. 2858

The purpose and intent of this measure is to clarify that the State is not subject to a statute of limitations period for claims pursuant to chapter 480, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and the Hawaii Association for Justice.

Your Committee finds that Hawaii common law has long recognized that statutory limitations do not apply to actions initiated by the State. The Legislature codified this longstanding common law rule in 1991. Although section 480-24(b), Hawaii Revised Statutes, contains a tolling provision for claims brought by the State, the codification of the common law rule that the State is not subject to statutes of limitations made the pre-existing tolling language in this section superfluous. Your Committee further finds that the Legislature has made it clear that unless there is a specific designation in statute stating that a statute of limitations applies to actions initiated by the State, none exists. Since no specific designation appears in section 480-24(b), Hawaii Revised Statutes, the repeal of the tolling language in this section is appropriate and necessary.

Finally, your Committee notes that chapter 480, Hawaii Revised Statutes, relating to monopolies and restraints of trade, is one of the most important statutory tools given to the State to protect the people of Hawaii. This measure preserves the right of the State to seek redress for harm done and deter future bad conduct by persons who would seek to take unfair advantage of Hawaii consumers.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2858 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2102 Commerce, Consumer Protection, and Health on S.B. No. 2856

The purpose and intent of this measure is to clarify the scope of powers of the Office of Consumer Protection investigators.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that when section 487-10, Hawaii Revised Statutes, was originally enacted in 1969, only police officers or sheriffs were legally authorized to serve legal documents in Hawaii. As a result, the Legislature decided to explicitly provide police powers to Office of Consumer Protection investigators, so they could also serve subpoenas and service of process. However, as service of these documents is no longer restricted to police officers and sheriffs, it is no longer appropriate or necessary to extend such broad authority to Office of Consumer Protection investigators. This measure therefore clarifies that the power and authority of Office of Consumer Protection investigators under section 487-10, Hawaii Revised Statutes, pertains to the service of process and service of subpoenas.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2856 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2103 Commerce, Consumer Protection, and Health on S.B. No. 2859

The purpose and intent of this measure is to increase the minimum balance that shall be retained in the public utilities commission special fund at the end of each fiscal year from \$1,000,000 to \$3,000,000.

Your Committee received testimony in support of this measure from the Public Utilities Commission.

Your Committee finds that the public utilities commission special fund is the sole source of funding for the operations of the Public Utilities Commission (Commission) and the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs. On each June 30, the end of the fiscal year, all monies in excess of \$1,000,000 remaining in the public utilities commission special fund lapse to the credit of the general fund.

Your Committee further finds that the public utilities commission special fund carryover balance was established more than twenty years ago. However, because the complexity and size of the Commission's workload have drastically increased over time, the carryover balance is now insufficient to meet the Commission's current start-of-year financial obligations. For example, from June 30, the end of the fiscal year, to July 31, when the first public utility fee deposit is due, the Public Utilities Commission may only have access to \$1,000,000 of its total statutory appropriations. However, according to testimony from the Commission, in 2015, the Commission's start-of-year financial obligations included statutorily required transfers of \$1,039,785 to the Division of Consumer Advocacy, \$189,761 to the Department of Commerce and Consumer Affairs, and \$888,539 for the Commission's payroll and other operating expenses.

This measure increases the public utilities commission special fund carryover balance to \$3,000,000, which will ensure that the Commission is able to meet its financial obligations in a timely manner and effectively fulfill its statutory duties at the beginning of each fiscal year. Finally, your Committee notes that Commission expenditures are set through legislative appropriation, meaning this change should not affect the general fund after the initial increased carryover balance is established.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2859 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2104 Commerce, Consumer Protection, and Health on S.B. No. 2334

The purpose and intent of this measure is to appropriate funds for one full-time equivalent position within the Department of Health to implement a systematic vision and hearing program and other operating expenses of the program.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association, Hawaii Optometric Association, Project Vision Hawaii, Kaiser Permanente Hawaii, Kokua Kalihi Valley Comprehensive Family Services, and five individuals. Your Committee received comments on this measure from the Department of Health and Department of Education.

Your Committee finds that vision and hearing are critical to speech and language development, communication, and learning, especially during early childhood. To ensure the health of the children of Hawaii, the Legislature enacted Act 312, Session Laws of Hawaii 1992, which established a systematic hearing and vision program for children to detect and identify hearing and vision deficiencies in school children and recommend to parents or guardians the need for appropriate evaluation. The Department of Health successfully implemented the program, but a lack of funding for the program caused the program to become and remain inactive for quite some time.

Your Committee further finds that while there are some isolated community screening programs offered by local nonprofits in some areas of the State, not all children have access to these screenings, which inhibits accurate statewide data collection and assurance for the quality of the screening.

To assist the Committee on Ways and Means with its deliberation on this measure, your Committee notes that the Department of Health indicated that the one full-time equivalent position to implement the systematic vision and hearing program proposed by this measure would require an appropriation of \$80,000.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2334, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2105 Commerce, Consumer Protection, and Health on S.B. No. 2471

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the design and construction of a new state mental health hospital to replace the Hawaii State Hospital.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Department of Health; Department of the Prosecuting Attorney of the City and County of Honolulu; United Public Workers, AFSCME, Local 646; and one individual.

Your Committee finds that the number of individuals and the severity of their needs have exceeded the available physical space available under the current configuration of the Hawaii State Hospital, which has not seen an increase in available bed capacity since 1992. The construction of a new and secure facility to replace the Hawaii State Hospital will effectively address the needs of Hawaii residents, improve operations of the Hawaii State Hospital, and provide an effective continuum of mental health supports.

Your Committee further finds that the Hawaii State Hospital master plan, which was originally completed in 2005 and updated in 2015, calls for the design and construction of a facility that will serve one hundred forty-four patients. This new facility will have treatment, activity, and dining facilities within its perimeter, as well as security and design features that will improve patient and hospital staff safety.

Your Committee has amended this measure by:

- (1) Amending the maximum amount of general obligation bonds to be issued to \$160,500,000;
- (2) Amending the appropriation amounts specified for design to \$20,000,000 and for construction to \$140,500,000;
- (3) Inserting language that designates the Department of Health as the expending agency of the appropriation; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2471, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2471, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2106 Commerce, Consumer Protection, and Health on S.B. No. 2181

The purpose and intent of this measure is to, beginning January 1, 2017, allow manufacturers of investigational drugs, biological products, or devices to make available such drugs, products, or devices to terminally ill patients under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice and two individuals. Your Committee received comments on this measure from the Department of Health and Department of the Attorney General.

Your Committee finds that the process of approval for investigational drugs, biological products, and devices in the United States protects future patients from premature, ineffective, and unsafe medications and treatments over the long run, but the process often takes many years. Patients who have a terminal illness do not have the luxury of waiting until an investigational drug, biological product, or device receives final approval from the United States Food and Drug Administration.

Your Committee further finds that patients who have a terminal illness have a fundamental right to pursue the preservation of their own lives by accessing available investigational drugs, biological products, and devices. Several states, such as Arizona, Colorado, Louisiana, Michigan, and Missouri, have passed so-called "right-to-try" legislation that makes available experimental drugs without Food and Drug Administration approval to terminally ill patients with no other medication or treatment options.

To assist the Committee on Judiciary and Labor with its deliberation on this measure, your Committee notes the comments and concerns raised by the Department of the Attorney General in its testimony regarding possible inconsistencies between provisions in this measure and federal and state law.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2181, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2107 Commerce, Consumer Protection, and Health on S.B. No. 2928

The purpose and intent of this measure is to:

- (1) Require operators of special events to file reports with the Department of Taxation that provide information about the vendors participating in special events; and
- (2) Permit the Department of Taxation to issue citations to special event operators for failure to file a report.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received testimony in opposition of this measure from one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii and Chamber of Commerce Hawaii.

Your Committee finds that special events present a unique challenge to tax law enforcement, as these events involve primarily cash-based businesses that may or may not be properly licensed. This measure is intended to assist the Department of Taxation in finding businesses not currently in compliance with their general excise tax obligations and bringing those businesses into compliance.

Your Committee does have some concerns over the creation of an additional paper form and whether the Department of Taxation will be able to appropriately proceed with enforcement once the Department begins to collect all the information proposed by this measure. Your Committee believes an online form that would notify the Department of Taxation and permit the reporting of required information may be a more efficient starting point for the Department.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Taxation to develop an online form to be published on the Department's website and filled out by special event operators that shall include relevant information about vendors at all special events for which a person is a special event operator; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2928, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2928, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2108 Commerce, Consumer Protection, and Health on S.B. No. 2861

The purpose and intent of this measure is to:

- (1) Repeal the Joint Formulary Advisory Committee established by the Department of Commerce and Consumer Affairs; and
- (2) Allow the Board of Nursing to be the sole authority that determines the exclusionary formulary for qualified advanced practice registered nurses with prescriptive authority.

Your Committee received testimony in support of this measure from the Board of Nursing.

Your Committee finds that the Joint Formulary Advisory Committee's sole function is to determine the formulary for advanced practice registered nurses with prescriptive authority. However, the Board of Nursing, as the authority that oversees the practice of nursing in Hawaii, including advanced practice registered nurses with prescriptive authority, ultimately makes the final determination on the exclusionary formulary. Accordingly, this measure repeals the Joint Formulary Advisory Committee, as it is obsolete and unnecessary, and permits the Board of Nursing to be the sole authority that determines the exclusionary formulary for qualified advanced practice registered nurses with prescriptive authority.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2861, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2861, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2109 (Majority) Commerce, Consumer Protection, and Health on S.B. No. 2910

The purpose and intent of this measure is to:

- (1) Clarify the Lieutenant Governor's rulemaking authority relating to Commissioners of Deeds;
- (2) Authorize the Lieutenant Governor to assess and collect fees and administrative fines relating to Commissioners of Deeds;
- (3) Clarify that the Lieutenant Governor is responsible for the Commissioners of Deeds program;
- (4) Increase the surety bond requirement for Commissioners of Deeds from \$1,000 to \$10,000; and
- (5) Appropriate funds for the establishment and administration of the Commissioners of Deeds program.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, American Resort Development Association – Hawai'i, and Wyndham Vacation Ownership.

Your Committee finds that Act 277, Session Laws of Hawaii 2013 (Act 277), established the Commissioners of Deeds program within the Office of the Lieutenant Governor. The program includes a process for the Governor to appoint individuals to serve as Commissioners of Deeds to administer oaths, take acknowledgments, and take proofs of execution outside of the United States in connection with the execution of conveyance documents relating to a time share interest, any property subject to a time share plan, or the operation of a time share plan covering any property located within Hawaii and includes protections for consumers wishing to purchase a time share property in Hawaii.

Your Committee further finds that a working group, convened to discuss and analyze the implementation of Act 277, has determined that additional legislation and authorization are necessary to fully implement the Commissioners of Deeds program. Accordingly, this

measure addresses the issues identified by the working group and will provide the Office of the Lieutenant Governor with the authority and clarification needed to properly implement Act 277.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2910, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2910, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 2 (Nishihara, Ruderman).

SCRep. 2110 Commerce, Consumer Protection, and Health on S.B. No. 2677

The purpose and intent of this measure is to:

- (1) Establish criminal history record check requirements for all nurse licensure applicants and license renewal applicants; and
- (2) Authorize the Board of Nursing to develop rules necessary to implement the required criminal history record checks for nurses.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii State Center for Nursing, University of Hawai'i at Manoa School of Nursing and Dental Hygiene, Hawai'i Pacific Health, and five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Nursing.

Your Committee finds that it is in the best interest of the nursing workforce in Hawaii to ensure safe and quality nursing services are provided to patients in the State. Establishing criminal history record checks for nurses is one way to protect consumers and enhance public safety. Your Committee further finds that the National Council of State Boards of Nursing has proposed a standard, for all states to adopt, that requires a biometrics-based state and federal criminal background check for all nursing applicants, consistent with Public Law No. 92-544. The American Nurses Association and the Council of State Governments also support the use of criminal background checks as part of the nursing licensure process.

Your Committee additionally finds that, according to testimony by the Board of Nursing, the number of active licensed nurses, as of the latest geographic report, was 25,865. Your Committee has heard the concerns of the Board of Nursing regarding the workload and implementation issues that will arise if all current and new licensees are expected to meet the record check requirements by the next licensing biennium, which begins July 1, 2017. Your Committee understands these concerns and believes a delayed implementation date for licensure renewal applicants is appropriate.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the fingerprints required to be submitted for purposes of criminal history record checks shall be electronic fingerprints;
- (2) Clarifying that the criminal history record check requirements proposed by this measure shall begin with the July 1, 2017, licensing biennium for all new nurse licensure applicants;
- (3) Clarifying that the criminal history record check requirements proposed by this measure shall begin with the July 1, 2019, licensing biennium for all nurse licensure renewal applicants; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2677, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2111 Commerce, Consumer Protection, and Health on S.B. No. 2539

The purpose and intent of this measure is to establish and appropriate funds for a temporary special action team for the Hawaii State Hospital to address the capacity and census issues at the hospital and the development there of a new forensic facility ready for occupancy by June 30, 2019.

Your Committee received testimony in support of this measure from the Department of Health; Office of Environmental Quality Control; United Public Workers, AFSCME, Local 646; and Hawaii Health Systems Corporation.

Your Committee finds that the Governor established, pursuant to executive memorandum, a special action team in June 2012 to address capacity and census issues at the Hawaii State Hospital. Members of the team included representatives from various state and county entities. In its October 2012 report to the Governor, the special action team provided expertise and insight in various aspects of the mental health system, which provided valuable input to the Governor, Director of Health, and Legislature. The establishment of a special action team is again necessary due to remaining capacity and census issues at the Hawaii State Hospital.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2539, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2539, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2112 Commerce, Consumer Protection, and Health on S.B. No. 2323

The purpose and intent of this measure is to ensure insurance coverage for sexually transmitted disease screenings, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome, during a female insured's annual gynecological examination.

Your Committee received testimony in support of this measure from the Department of Health; The American Congress of Obstetricians and Gynecologists, Hawaii Section; Hawaii Medical Association; Hawaii Medical Service Association; Hawaii State Coalition Against Domestic Violence; Healthy Mothers, Healthy Babies; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund Board of Directors, and American Council of Life Insurers.

Your Committee finds that despite clear national recommendations for sexually transmitted disease testing, rates of testing in young women are troublingly low. This is of particular concern in Hawaii, which has the fifteenth highest rate of chlamydial infection in the country, with significant disparities across age and racial and ethnic groups in disease prevalence. Unrecognized and untreated sexually transmitted infections can result in pelvic inflammatory disease, ectopic pregnancy, infertility, and chronic pelvic pain. Your Committee further finds that research has shown that preventive health services can save lives and improve health by identifying illnesses earlier, managing illnesses more effectively, and treating illnesses before they develop into more complicated, debilitating conditions. Furthermore, under the federal Patient Protection and Affordable Care Act, private health plans are required to cover recommended preventive health services without any patient cost sharing.

Your Committee additionally finds that this measure proposes to ensure insurance coverage for sexually transmitted disease screenings, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome, during a female insured's annual gynecologic examination. However, according to testimony received by your Committee, sexually transmitted disease testing may be medically indicated more often than annually and is often indicated outside of an annual gynecologic examination.

Finally, your Committee notes that after further discussion with the Insurance Division of the Department of Commerce and Consumer Affairs, it appears that the insurance coverage proposed by this measure would not trigger a new mandate for health insurance coverage for grandfathered and transitional health care plans.

Your Committee has amended this measure by:

- (1) Clarifying that the insurance coverage proposed by this measure shall cover sexually transmitted disease testing in accordance with national professional guidelines, such as those of the United States Preventive Services Task Force and the federal Centers for Disease Control and Prevention;
- (2) Clarifying that the insurance coverage proposed by this measure shall not apply to limited benefit health insurance coverage as described in section 431:10A-102.5, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2323, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2113 Transportation and Energy on S.B. No. 2933

The purpose and intent of this measure is to make an appropriation for a federal inspection station at Kona International Airport at Keahole.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Defense, Hawaiian Airlines, Mauna Kea Resort, The Fairmont Orchid, Kohala Coast Resort Association, Airport Concessionaires Committee, Airlines Committee of Hawaii, and one individual.

This measure is intended to establish a secondary federal inspection station in the State of Hawaii that provides added resilience during a civil defense emergency, while providing direct air freight for Hawaii island exports.

Your Committee finds that the United States Department of Homeland Security, Customs and Borders Protection, requires a federal inspection station for all certificated United States of America airports designed as the first point of entry into the United States of America for all international arriving visitors.

Your Committee further finds that Customs and Borders Protection requires that each federal inspection station meet its standards for design and construction under their airport technical design standards. A second federal inspection section also allows for additional international flights and reduced congestion at Honolulu International Airport.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2933, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2933, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2114 Transportation and Energy on S.B. No. 2996

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Bikeshare Hawaii develop a bikeshare system in the State.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Honolulu Department of Transportation Services; Blue Planet; Ulupono Initiative, Bikeshare Hawaii; PATH – Peoples Advocacy for Trails Hawaii; Hawaii Bicycling League; and five individuals. Your Committee received comments on this measure from the Department of Health, Department of Budget and Finance, and Department of the Attorney General.

Your Committee finds that the State suffers from serious traffic congestion, limited road and parking resources, and over-reliance on imported fuel for transportation, and needs flexible and affordable transportation options. Thus, the development of a bikeshare system in the State is in the public interest.

In May 2012, the Hawaii Clean Energy Initiative's Transportation Vehicle Miles Traveled Reduction Working Group and the Department of Health identified the development of bikeshare as a key strategy for reducing vehicle miles traveled and achieving healthy outcomes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

Your Committee notes the concerns of the Attorney General regarding whether Bikeshare Hawaii constitutes an industrial enterprise for purposes of eligibility to receive a special purpose revenue bond. Your Committee defers to the Committee on Ways and Means on this issue.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2996, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2996, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2115 Transportation and Energy on S.B. No. 2934

The purpose and intent of this measure is to ensure driver license procedures are compliant with the federal REAL ID Act.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that existing law does not require that a renewed driver's license contain a photograph of the licensee. This violates the REAL ID Act which requires "[a] digital photograph of the person", among other things. Your Committee further finds that the REAL ID Act also requires an applicant to appear in person to renew their license if sixteen years have passed since the applicant last appeared in person.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2934, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2934, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2116 Judiciary and Labor on S.B. No. 2428

The purpose and intent of this measure is to:

- (1) Require public retiree contributions to the Hawaii Employer-Union Health Benefits Trust Fund to be paid through withholdings of retirement benefit amounts from the Employees' Retirement System;
- (2) Require the Board of Trustees of the Employees' Retirement System to submit an annual report to the Legislature on the contribution amounts paid to the Hawaii Employer-Union Health Benefits Trust Fund; and
- (3) Authorize a retiree or beneficiary to make a one-time election to opt out of the public retiree contribution requirement.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Employees' Retirement System and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds health insurance premiums are automatically deducted for state and county employees. However, typically once an employee retires, the employer does not pay a portion of the health insurance premium, and the payment of insurance

premiums becomes an added burden for retirees. If the retiree fails to make the required payment, due to various reasons including but limited to illness, vacation, or a delay in postal service, the retiree is at risk of losing health insurance coverage. Implementation of this measure will streamline public retiree contributions to the Hawaii Employer-Union Health Benefits Trust Fund and provide better assurance that public retirees maintain health insurance coverage.

Your Committee has amended this measure by:

- (1) Requiring the Hawaii Employer-Union Health Benefits Trust Fund to authorize automatic electronic payments in lieu of withholdings beginning after June 30, 2016; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2428, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2428, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2117 Judiciary and Labor on S.B. No. 2839

The purpose and intent of this measure is to amend the definition of “dependent-beneficiary” contained in chapter 87A, Hawaii Revised Statutes, by:

- (1) Excluding from the definition an employee-beneficiary’s child born more than ten months after the death of an employee killed in the performance of duty, after the death of an active employee who was eligible to retire on the date of death, or after the date of death of a retired employee-beneficiary; and
- (2) Repealing the requirement that an employee-beneficiary’s child must be unmarried, in conformance with the federal Patient Protection and Affordable Care Act of 2010, in order to be a dependent-beneficiary.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the Hawaii Employer-Union Health Benefits Trust Fund offers health benefits to the children of state and county employees and retirees. However, under existing law, a child born or legally adopted by an employee’s or retiree’s surviving spouse after a state or county employee’s or retiree’s death who is not the natural child of the deceased employee or retiree is also eligible to participate in fund benefit plans. Implementation of this measure will clarify eligibility of children for participation in fund benefit plans and bring the definition of “dependent-beneficiary” into conformance with the federal Patient Protection and Affordable Care Act of 2010.

Your Committee has amended this measure by:

- (1) Additionally, excluding from the definition of “dependent-beneficiary” children legally adopted more than ten months after a state or county employee’s or retiree’s death; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2839, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2839, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2118 Judiciary and Labor on S.B. No. 2346

The purpose and intent of this measure is to:

- (1) Authorize the Board of Trustees of the Employees’ Retirement System to appoint investment support staff and other investment professionals, in addition to investment officers;
- (2) Require the Employees’ Retirement System to make direct payments to a spouse or former spouse of a system member or retiree pursuant to a qualified domestic relations order beginning on January 1, 2018; and
- (3) Appropriate funds to the Employees’ Retirement System to implement this measure and hire one full-time equivalent claims examiner position.

Your Committee received testimony in support of this measure from the Family Law Section of the Hawaii State Bar Association and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Employees’ Retirement System.

Your Committee finds that the successful investment of the Employees’ Retirement System’s (“System”) funds is essential to the stability and sustainability of the System. Although the Board of Trustees’ members are responsible for the general management of the System’s assets and implementation of the System’s investment policy, internal and external investment experts are heavily depended upon for advice. Authorizing the Board of Trustees to appoint investment support staff and other investment professionals will address the System’s long-term staffing needs, resulting from the complexity of the System’s portfolio and dynamics of the modern financial markets.

Your Committee further finds that under existing law, only private employers are required to abide by the federal Employee Retirement Income Security Act, authorizing non-member former spouses to receive retirement benefits directly from the retirement plan's administrator pursuant to a qualified domestic relations order. Authorizing the System to make direct payments to a spouse or former spouse of a System member will decrease litigation and ensure compliance with Hawaii domestic relations orders.

Your Committee has amended this measure by:

- (1) Replacing "qualified domestic relations order" with "Hawaii domestic relations order" for the purpose of clarity; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2346, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 2119 Judiciary and Labor on S.B. No. 2838

The purpose and intent of this measure is to authorize the Hawaii Employer-Union Health Benefits Trust Fund to invest in the same asset classes as the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the Other Post-Employment Benefits Trust Fund ("OPEB Trust Fund") was established to receive employer contributions to prefund retirees' post-employment health and benefit plan costs. The OPEB Trust Fund, required to be prefunded, has increased from \$314,800,000 on June 30, 2013, to \$1,000,000,000 on December 31, 2015, and is expected to increase to \$7,400,000,000 within the next ten years. Implementation of this measure will allow the Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees to take advantage of investment opportunities in certain types of assets in order to maximize returns on investments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2838 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 2120 Economic Development, Environment, and Technology on S.B. No. 2657

The purpose and intent of this measure is to appropriate funds to support the revision of the state Integrated Solid Waste Management Plan, thus furthering the State's waste management goals and ensuring progress toward managing the State's waste.

Your Committee received testimony in support of this measure from the Department of Health and the Office of the Auditor.

Your Committee finds that the State's integrated solid waste management goals are to reduce the solid waste stream prior to disposal through source reduction, recycling, and bioconversion. State law requires the Office of Solid Waste Management to prepare revisions to the state Integrated Solid Waste Management Plan following the approval and review of each revised county-specific plan. Although each county has completed its plan revisions, the revision process has been delayed due to a lack of funds; therefore, your Committee finds it necessary to appropriate funds to complete the revision process.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2657 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Baker, Ihara, Keith-Agaran, Ruderman).

SCRep. 2121 Economic Development, Environment, and Technology on S.B. No. 2791

The purpose and intent of this measure is to appropriate funds to promote, regulate, and administer the Made in Hawaii brand program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; High Technology Development Corporation; 3D Innovations; Chamber of Commerce Hawaii; Hawai'i Fashion Incubator; KYD, Inc. dba: K. Yamada Distributors; Meadow Gold Dairies; and Hawai'i Farm Bureau.

Your Committee finds that the Made in Hawaii brand and the products made in the State are well-known and have a positive image. Managing and promoting the Made in Hawaii brand is therefore important to Hawaii's manufacturing industry, consumer awareness of which products are truly made in Hawaii, and the State's image locally and abroad.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2791 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Baker, Ihara, Keith-Agaran, Ruderman).

SCRep. 2122 Commerce, Consumer Protection, and Health on S.B. No. 2855

The purpose and intent of this measure is to make numerous amendments to Hawaii's Mortgage Rescue Fraud Prevention Act, for consistency with the federal Mortgage Assistance Relief Services Rule.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that there was no federal counterpart to Hawaii's Mortgage Rescue Fraud Prevention Act, which protects consumers from mortgage rescue scams, until 2010, when the Federal Trade Commission adopted the Mortgage Assistance Relief Services Rule. Your Committee further finds that although the state law and federal regulation are designed to protect consumers from abusive mortgage relief practices, they take different approaches to identify consumers who may be in need of protection. For example, Hawaii's law focuses on properties already in distress, while the federal regulation focuses more broadly on the nature of mortgage assistance rescue services being offered.

Your Committee additionally finds that this measure reformulates state law to resolve existing conflicts and inconsistencies between the state law and federal regulations and will enable enforcement agencies to provide increased protection for vulnerable Hawaii homeowners who may be targeted by mortgage rescue scams.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2855, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2855, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2123 Commerce, Consumer Protection, and Health on S.B. No. 3033

The purpose and intent of this measure is to:

- (1) Allow owners of self-service storage facilities to send notices by electronic mail, publish notices of sales in any commercially reasonable manner, conduct sales online, and charge late fees; and
- (2) Authorize limits in rental agreements on the liability of the owner of self-service storage facilities based on the monetary value of the stored property.

Your Committee received testimony in support of this measure from the National Self Storage Association.

Your Committee finds that the State's self-storage facilities lien law has remained virtually unchanged since its enactment in 1984. Accordingly, this measure updates and clarifies Hawaii's self-storage facilities law by: permitting notification by electronic mail as an option for occupants; allowing public notice of a sale in a commercially reasonable manner; and permitting the lease contract for a self-service storage facility to contain value limitation and late fee provisions.

Your Committee has amended this measure by:

- (1) Authorizing self-service storage facility owners to have a motor vehicle or boat towed from a leased space, if the occupant is in default for sixty days or more; provided that notice is provided to the occupant prior to the motor vehicle or boat being towed;
- (2) Requiring owners to notify occupants regarding delinquency via two of the following three methods: telephone, electronic mail, or postal address; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3033, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3033, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2124 Commerce, Consumer Protection, and Health on S.B. No. 2298

The purpose and intent of this measure is to adopt a revised version of the Uniform Fiduciary Access to Digital Assets Act, which provides authority to plan for the management and disposition of digital assets.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation and State Privacy and Security Coalition, Inc.

Your Committee finds that since last year, the Uniform Law Commission has worked to address concerns raised by internet service providers and privacy advocates over the original Uniform Fiduciary Access to Digital Assets Act, which the Uniform Law Commission first adopted in 2014. As a result of those efforts, the Uniform Law Commission has since adopted a revised version of the Uniform Fiduciary Access to Digital Assets Act.

Your Committee further finds that the Revised Uniform Fiduciary Access to Digital Assets Act is intended to modernize fiduciary law for the Internet Age. Access to a person's digital property and electronic communications, also known as digital assets, is usually governed by a terms-of-service agreement rather than by property law. Issues may arise when Internet users die or otherwise lose the ability to manage their own digital assets. Accordingly, the Revised Uniform Fiduciary Access to Digital Assets Act, which this measure proposes to adopt, provides Internet users with the ability and authority to plan for the management and disposition of their digital assets, in a manner similar to the process for management and disposition of tangible property.

Your Committee additionally finds that the Uniform Law Commission's Executive Committee has recently adopted certain technical amendments to the Revised Uniform Fiduciary Access to Digital Assets Act. Amendments to this measure are therefore necessary to incorporate these suggested amendments.

Your Committee has amended this measure by incorporating amendments suggested by the Commission to Promote Uniform Legislation, which:

- (1) Clarify that designated recipients and fiduciaries are obligated to follow copyright law; and
- (2) Corrects an internal reference.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2298, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2125 Commerce, Consumer Protection, and Health on S.B. No. 2674

The purpose and intent of this measure is to:

- (1) Require the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs to establish a division that specializes in medical cases involving regulated professions and occupations; and
- (2) Appropriate funds for five full-time equivalent (5.0 FTE) field investigators who specialize in medical cases.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that the Regulated Industries Complaints Office investigates allegations of professional misconduct by licensees and any possible unlicensed activity that may be occurring in Hawaii. When professions and occupations involve complex medical issues and scopes of practice that are widely varied, the enforcement of these professional and occupational regulations can be especially challenging. Your Committee further finds that despite the Regulated Industries Complaints Office's critical role in protecting consumers, the Office lacks investigators with specialized experience or expertise in medical issues. The additional positions proposed by this measure would assist the Regulated Industries Complaints Office in its investigation of medical complaints and allow the Office's existing staff more time to investigate complaints involving the other professions overseen by the Regulated Industries Complaints Office.

Your Committee has heard testimony from the Regulated Industries Complaints Office that the Office currently employs nine attorneys to handle licensed and unlicensed activity prosecutions for all forty-nine professions the Office oversees. Accordingly, the Regulated Industries Complaints Office would be better served by the addition of two full-time equivalent staff attorneys and four full-time equivalent field investigators devoted to the investigation of medical complaints. The Regulated Industries Complaints Office has expressed concerns about adding additional staff on the neighbor islands and has noted that the Office must rent office space, as space in the government buildings on the neighbor islands is extremely limited. Your Committee finds that because many medical complaint cases can be investigated remotely, housing new medical investigation staff on Oahu may be more economically feasible at this time.

Finally, your Committee has requested the Regulated Industries Complaints Office to provide an estimated cost breakdown for the proposed positions established by this measure, as this measure will next be considered by your Committee on Ways and Means. According to information received from the Regulated Industries Complaints Office, the ongoing direct personnel costs for a new Investigator IV are estimated at \$81,733, including fringe benefits. An additional \$5,830 in other operating costs are estimated for each investigator, for a total ongoing direct cost of \$87,563 per investigator. The Regulated Industries Complaints Office estimates a one-time direct cost expense for each investigator at \$4,850. The Regulated Industries Complaints Office has also estimated the following costs per staff attorney: ongoing direct personnel costs at \$110,960, including fringe benefits, in addition to \$2,850 in other operating costs, for a total ongoing direct cost of \$113,810 per staff attorney.

Your Committee has amended this measure by:

- (1) Amending the proposed positions established by this measure to four full-time equivalent (4.0 FTE) field investigators and two full-time (2.0 FTE) staff attorneys;
- (2) Removing language that would have specified the counties for which the new field investigator positions established by this measure would be designated; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2674, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2674, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2126 Commerce, Consumer Protection, and Health on S.B. No. 2840

The purpose and intent of this measure is to authorize the Department of Health to continue to disclose, including through electronic means, lists of names of persons whose deaths have been recorded by the Department to state agencies that maintain official lists of persons and are prohibited by federal law from sharing information for the lists.

Your Committee received testimony in support of this measure from the Department of Human Services and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that although the Department of Health is allowed to verify information contained in vital statistics records by employing a process that matches its vital statistics information with information provided by agencies, that process cannot be used by state agencies whose lists are confidential under federal law.

Your Committee further finds that some governmental agencies within the State that keep official lists of persons need to know when members on their lists have died. Such notification of death is important in maintaining the integrity of certain programs, such as Medicaid, by stopping unnecessary payments to contracted managed care health plans on behalf of deceased individuals. Allowing the Department of Health to report deaths to state agencies that maintain official lists that are confidential under federal law would assist state agencies to maximize the accuracy of their official lists and avoid overpaying benefits and wasting public funds.

Your Committee has amended this measure by:

- (1) Inserting an effective date of June 30, 2016; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2840, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2840, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2127 Commerce, Consumer Protection, and Health on S.B. No. 2863

The purpose and intent of this measure is to:

- (1) Authorize the issuance of a citation for certain technical violations of massage therapy laws by licensees;
- (2) Establish a process for licensees to contest a citation; and
- (3) Provide for the assessment of fines for each violation.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Board of Massage Therapy.

Your Committee finds that this measure authorizes the Regulated Industries Complaints Office to issue citations to massage therapy licensees for specific violations of the massage therapy laws, affords licensees an opportunity to request a hearing to contest a citation, and specifies that failure to pay an assessed fine within thirty days may subject a licensee to further disciplinary action. Your Committee further finds that this measure will expedite the Regulated Industries Complaints Office's enforcement of certain technical violations of the massage therapy laws, promote swift compliance by licensees, and enable the Office's staff to concentrate their efforts and resources on more serious violations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2863, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2863, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2128 Commerce, Consumer Protection, and Health on S.B. No. 3105

The purpose and intent of this measure is to:

- (1) Require a health care provider who refers patients to facilities in which the health care provider has a financial interest to disclose the financial interest to the patient; and
- (2) Specify that failure to disclose a financial interest to a patient is an unfair and deceptive trade act or practice.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association and Pacific Radiation Oncology LLC.

Your Committee finds that self-referrals, which occur when a health care provider refers a patient for services or treatments at facilities in which the health care provider has a financial interest, raise questions about financial and medical conflicts of interest. Self-referrals may lead to overutilization of expensive treatments and services, which may therefore increase the cost of insurance. Your Committee further finds that this measure provides important safeguards for Hawaii patients when they are referred for services or treatments at facilities in which a health care provider has a financial interest and will enable patients to make better informed choices about their health care.

Your Committee additionally finds that, according to testimony from the Insurance Division, except for the limited provision in the motor vehicle insurance code that regulates health care provider referral conduct, the Insurance Division does not regulate the activities of health care providers. Your Committee therefore concludes that the prohibition on self-referral practices proposed by this measure may be better placed in a chapter of the Hawaii Revised Statutes outside of the insurance code.

Accordingly, your Committee has amended this measure by:

- (1) Moving language on prohibited health care provider self-referral practices from the insurance code to chapter 451D, Hawaii Revised Statutes, relating to health care professionals;
- (2) Removing the provision that would have made this measure apply retroactively to January 1, 2008;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3105, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2129 Commerce, Consumer Protection, and Health on S.B. No. 2687

The purpose and intent of this measure is to create and appropriate funds for the colorectal cancer screening and awareness program within the Department of Health.

Your Committee received testimony in support of this measure from the University of Hawaii Cancer Center, The Queen's Health Systems, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that according to United States Centers for Disease Control and Prevention data, Hawaii's current screening rate for colorectal cancer is sixty-four percent, which, when compared to all states, ranks in the bottom half. This indicates that there is more work to be done to increase colorectal cancer screening rates in the State, which will help detect and prevent death from late stage colorectal cancer.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2687 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2130 Commerce, Consumer Protection, and Health on S.B. No. 2692

The purpose and intent of this measure is to:

- (1) Impose an excise tax equal to eighty percent of the wholesale price of any tobacco product, other than large cigars, sold by a wholesaler or dealer on and after January 1, 2017, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer; and
- (2) Require the additional monies collected under the excise tax to be deposited to the credit of the Hawaii cancer research special fund.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawaii Cancer Center, Coalition for a Tobacco-Free Hawaii, American Cancer Society Cancer Action Network, American Lung Association in Hawaii, Weinman Foundation, and thirty-five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance and eighteen individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has a substantial interest in reducing the number of individuals of all ages who use tobacco products. Tobacco use in Hawaii causes approximately 1,400 deaths per year among adults and poses a heavy burden on Hawaii's health care system. Research has shown that either a tax on cigarettes or cigarette price increases have the propensity to reduce the rate of smoking by adult and youth smokers. However, as the price of cigarettes increases, smokers may turn to less expensive tobacco products, including loose or roll-your-own tobacco.

Your Committee further finds that there should not be a lower-priced tobacco alternative to cigarettes in the State. Higher tobacco product prices will encourage tobacco users to quit or sustain cessation, prevent youth initiation, and reduce consumption among those who continue to use tobacco.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2692 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2131 Commerce, Consumer Protection, and Health on S.B. No. 2883

The purpose and intent of this measure is to clarify that the Department of Health may amend birth certificates to establish or change parenthood only pursuant to a court order or other legal establishment of parenthood and that the amendment shall not be considered a correction of a personal record under the Uniform Information Practices Act.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Health, and Office of Information Practices.

Your Committee finds that births are required to be registered in the State, and birth certificates are used as prima facie evidence to prove important factors such as identity, citizenship, parenthood, age, sex, and race. There are legal presumptions regarding parenthood that are established by law, and the rights of parents, which are protected by the federal and state constitutions, can be significantly impacted by birth certificate amendments regarding parenthood. Existing law allows persons to file late birth certificates or amend birth certificates upon submitting proof required by the Department of Health. However, because the Department of Health is not qualified to evaluate anecdotal or genetic evidence of parenthood and has no means to afford due process to existing parents whose rights would effectively be terminated by an amendment that changes a parent on a birth certificate, individuals have sued the Department and been awarded attorney's fees and other costs. This measure would assure that changes to parental rights arising from birth certificate amendments would be subject to judicial determination and existing legal presumptions regarding parenthood, support the Department of Health's longstanding interpretation of its own law and rules, maintain the accuracy of vital records in Hawaii, and protect the State from significant unnecessary costs and attorney's fees.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2883 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2132 (Joint) Water, Land, and Agriculture and Commerce, Consumer Protection, and Health on S.B. No. 2516

The purpose and intent of this measure is to appropriate funds to the University of Hawaii at Hilo, Department of Health, and Department of Land and Natural Resources for programs, studies, and activities related to the prevention and eradication of rat lungworm disease.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Department of Health, Big Island Invasive Species Committee, University of Hawai'i System, Hawaii Farmers Union United, Kua O Ka Lā, GMO Free Maui, Life of the Land, We Are One, Evening Rain Farm, Maui Venture Consulting LLC, Hawaii Island School Garden Network, Puna Community Medical Center, and one hundred thirty individuals.

Your Committees find that the Department of Health has reported over seventy cases of rat lungworm disease since 2001. The disease has claimed lives and caused crippling chronic disability to residents and visitors of Hawaii. The Hawaii Island Rat Lungworm Disease Working Group at the Daniel K. Inouye College of Pharmacy at the University of Hawaii at Hilo has been conducting research and educational outreach on the disease for the past four years; however, there remains much more to learn about this devastating disease. Your Committees therefore find it necessary to provide resources to assist in the prevention and eradication of rat lungworm disease.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2516 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 7. Noes, none. Excused, 2 (Ruderman, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2133 (Joint) Water, Land, and Agriculture and Commerce, Consumer Protection, and Health on S.B. No. 2787

The purpose and intent of this measure is to:

- (1) Legalize industrial hemp as an agricultural product; and
- (2) Promote research and development of markets for industrial hemp.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Hawai'i Farm Bureau, Kihei Community Association, Hawai'i Center for Food Safety, The Optimum Living Alliance, We Are One, Wear on Earth-Hawaii, Drug Policy Forum of Hawaii, Maui Venture Consulting LLC, and eighty-three individuals. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Police Department and one individual.

Your Committees find that industrial hemp is well suited to Hawaii's climate and soil and can grow to over ten feet in a short period of time with little water and no pesticides. According to estimates by the Hemp Industries Association, retail sales of industrial hemp products grew to over \$620,000,000 annually in 2014. Industrial hemp has over 25,000 uses, including food, fiber, and fuel products, and has high potential to contribute to the future viability of the State's agricultural industry.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion, and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2787, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2787, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 7. Noes, none. Excused, 2 (Ruderman, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2134 Water, Land, and Agriculture on S.B. No. 2903

The purpose and intent of this measure is to allow a holder of a mooring permit for mooring within state small boat harbors to transfer the mooring permit to the new vessel owner under certain terms and conditions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from Hawaii Fishing and Boating Association, Fair Wind Cruises, Quicksilver Charters, and five individuals. Your Committee received comments on this measure from Ocean Tourism Coalition and one individual.

Your Committee finds that there is no existing law to authorize the transfer of presently issued mooring permits by order of seniority from a waitlist. This measure remedies the lack of transfer authority, which limits the ability of vessel owners to sell their vessels when a potential buyer does not already have a place to berth the vessel.

Your Committee further finds that it is necessary to allow appraisals to be completed by all licensed surveyors, not just state licensed ones.

Your Committee has thereby amended this measure by:

- (1) Amending language to allow the sale price of the vessel to be established by an appraisal from any licensed surveyor, rather than from only a state licensed surveyor; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2903, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2903, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2135 Water, Land, and Agriculture on S.B. No. 3067

The purpose and intent of this measure is to require an oceanfront purchaser statement with the sale or transfer of oceanfront real estate to ensure that new oceanfront property owners understand the special hazards, permitting requirements, and limitations that may affect the oceanfront property.

Your Committee received comments on this measure from the Department of Land and Natural Resources and Hawai'i Association of REALTORS.

Your Committee finds that oceanfront property is often vulnerable to hazards, such as coastal erosion and flooding, which can be exacerbated by sea level rise and man-made interruptions to natural sand supply. Privately owned oceanfront land is lost when shorelines undergo landward retreat and oceanfront properties become smaller, which can adversely affect building setbacks, property values, and insurance availability. Additionally, obtaining a permit to repair or install shoreline protection structures can be challenging due to Hawaii's coastal zone management policies, which are intended to protect the State's coastal resources and shoreline public access. Your Committee therefore finds it is important that new oceanfront property owners understand the special hazards, permitting requirements, and limitations that may affect the oceanfront property via an oceanfront purchaser statement form.

Given the impact of the changes proposed by this measure on the real estate industry, your Committee finds that the effective date of this measure should allow adequate time for the Hawaii Association of REALTORS to prepare and educate its members. Your Committee also concurs with the Department of Land and Natural Resource's opinion that it is unnecessary for the Department to develop a form for the oceanfront purchaser statement or adopt rules regarding the form.

Your Committee has amended this measure by:

- (1) Clarifying language in the purpose section to explain the intent of coastal zone management policies;
- (2) Inserting language to be consistent with the definition of "shoreline" in section 205A-1, Hawaii Revised Statutes;
- (3) Replacing the term "coastal inundation hazard maps" with "historical coastal erosion rate maps";
- (4) Deleting language that would have required the Department of Land and Natural Resources to develop and make available online an oceanfront purchaser statement form and would have authorized the Department to adopt rules to effectuate this measure;

- (5) Inserting an effective date of November 1, 2016; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3067, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3067, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2136 Water, Land, and Agriculture on S.B. No. 3065

The purpose and intent of this measure is to permanently increase and strengthen the presence of enforcement officers and on-site educational staff as well as remote monitoring for Ka'ena Point State Park and Ka'ena Point Natural Area Reserve by:

- (1) Authorizing the Department of Land and Natural Resources to establish a system of user fees and a log-in system for visitors and users of Ka'ena Point State Park and Ka'ena Point Natural Area Reserve; and
- (2) Appropriating funds for additional enforcement officers and on-site educational staff for Ka'ena Point State Park and Ka'ena Point Natural Area Reserve for full-time, around the clock coverage, and remote monitoring to document usage in other areas.

Your Committee received testimony in support of this measure from the Aha Moku Advisory Committee, Pacific Rim Conservation, Mālama Pūpūkea-Waimea, Humane Society of the United States, Conservation Council for Hawai'i, Friends of Ka'ena, and thirteen individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Ka'ena Point State Park and Ka'ena Point Natural Area Reserve are spectacular protected coastal areas with rich cultural, natural, historic, and recreational resources, including rare and endangered species. Due to their very remote location, the park and natural area reserve are not adequately staffed by the Department of Land and Natural Resources to ensure the safety of users and to ensure that users of the park and reserve respect and protect the precious natural resources of the area.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Department of Land and Natural Resources to establish user fees for Ka'ena Point State Park and Ka'ena Point Natural Area Reserve;
- (2) Deleting language that would have required full-time, around the clock coverage of Ka'ena Point State Park and Ka'ena Point Natural Area Reserve by an officer or educational ambassador; and
- (3) Inserting an appropriation amount of \$696,104 to be allocated for a Division of State Parks Interpretive Technician and five Division of Conservation and Resources Enforcement officers, ancillary equipment, and vehicle needs.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3065, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3065, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2137 (Majority) Transportation and Energy on S.B. No. 2013

The purpose and intent of this measure is to effectuate its title.

Prior to a hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language creating the University of Hawaii green special fund.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2013, as amended herein, and recommends that it be recommitted to your Committee on Transportation and Energy, in the form attached hereto as S.B. No. 2013, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Nishihara).

SCRep. 2138 Education on S.B. No. 2232

The purpose and intent of this measure is to establish age appropriate curricula within the department of education to educate public school students on sexual abuse prevention.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; American Association of University Women, Hawaii; Planned Parenthood Votes Northwest and Hawaii; Hawaii Youth Services Network; The Sex Abuse Treatment Center; Healthy Mothers Healthy Babies Coalition of Hawaii; Parents and Children Together; and four individuals. Your Committee received comments on this measure from the Department of Education, Hawaii State Public Charter School Commission, and Executive Office on Early Learning.

Your Committee finds that sexual abuse is a serious and ongoing threat to the safety, health, and wellbeing of children and young people in the State of Hawaii. Sexual abuse is often a difficult subject to discuss and many school teachers and staff do not receive

sufficient training on talking to students about child sexual abuse prevention or how to handle disclosures of sexual abuse. As a result, there is no age appropriate curriculum to educate students on how to prevent sexual abuse or the importance of reporting it.

Your Committee has amended this measure by:

- (1) Incorporating provisions of S.B. No. 2235 establishing a task force within the Department of Education to guide the creation of age appropriate curricula;
- (2) Amending the composition of the task force, and requiring the Department of Education to implement the recommendations of the task force in the 2017-2018 school year; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2232, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2232, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2139 Education on S.B. No. 2613

The purpose and intent of this measure is to expand the national board certification incentives to public school counselors and school psychologists, and to authorize continuing bonuses for teachers, counselors, and school psychologists in designated high-need schools that improve and are no longer designated as such.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Association of School Psychologists, Community Children's Council Legislative Committee, Hawaii School Counselor Association, Hawaii State Teachers Association, and six individuals.

Your Committee finds that having highly qualified mental health providers in schools is important for the wellbeing and success of students. The certification process for school counselors and school psychologists is similarly rigorous to that of teachers. Providing incentives for mental health providers similar to the incentives for teachers is likely to attract highly qualified counselors and school psychologists to public schools in the State, to the benefit of Hawaii's students.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2613, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2613, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2140 Education on S.B. No. 2867

The purpose and intent of this measure is to repeal the statutory provision for salary step increases for teachers.

Your Committee received testimony in support of this measure from the Department of Education, Office of the Attorney General, State Office of Collective Bargaining, Department of Budget and Finance, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the statutory provision for step increases for teachers was originally enacted in 1953. Since then, step increases have entered the purview of collective bargaining. As a result, the statutory provision for step increases for teachers is obsolete and no longer necessary.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2867 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2141 Education on S.B. No. 2975

The purpose and intent of this measure is to allow Department of Education employees to administer or assist students in administering blood glucose monitoring tests.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, American Diabetes Association, Diabetes Education and Support Consulting Services, and eleven individuals.

Your Committee finds that blood glucose monitoring is vitally important to students with diabetes. Under certain circumstances, some students may require immediate assistance administering blood glucose tests. Allowing Department of Education employees to assist students with diabetes in administering such tests will help keep those students medically safe at school.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2975 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2142 Education on S.B. No. 2603

The purpose and intent of this measure is to make an appropriation to the Executive Office on Early Learning and the Early Learning Advisory Board for staffing, travel, and attendance at conferences.

Your Committee received testimony in support of this measure from the Hawaii State Public Charter School Commission, Executive Office on Early Learning, Early Learning Advisory Board, Community Children's Councils Legislative Committee, and Kamehameha Schools. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that adequate staffing and funds are important to support the Executive Office on Early Learning in fulfilling its obligations to Hawaii's children. Currently, the office is understaffed and requires additional resources to ensure that its members can travel throughout the State to perform their duties.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2603 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2143 Education on S.B. No. 2608

The purpose and intent of this measure is to require the Board of Education to conduct annual self-evaluations, report a summary of its findings to the Legislature, and post the summary on its public website.

Your Committee received testimony in support of this measure from the Community Children's Councils Legislative Committee, Democratic Party of Hawaii Education Caucus, and one individual.

Your Committee finds that transparent self-evaluation is in the interests of the Board of Education, as well as the public interest. Regular self-evaluation will allow the Board to diagnose developing issues before they become serious problems, and to correct any concerns that currently exist in the Board's operations.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2608 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2144 (Joint/Majority) Human Services and Education on S.B. No. 2231

The purpose and intent of this measure is to provide a standardized framework and funding for after-school programs in public middle and intermediate schools, more specifically, this measure:

- (1) Establishes the R.E.A.C.H. program within the Office of Youth Services; and
- (2) Authorizes individual schools participating in the R.E.A.C.H. program to receive fees and other monies to supplement the costs of administering and operating the program.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor, State Public Charter School Commission, Office of Youth Services, Family Programs Hawaii, Hawaii Youth Services Network, and five individuals.

Your Committees find that in Hawaii over 54,000 children are left alone unsupervised until their parents return home from work each day, and most violent crimes committed by juveniles occur on school days. After-school programs are an investment in Hawaii's youth. State-funded programs and increased availability of programs have led to higher participation rates in after-school programs. Middle school years are an important, formative time in a child's life. Once a child disconnects, it is much more difficult to recruit the child back and retain the child in school. More persistent outreach and long-term participation in after-school programs foster a connection between children and school, and thus graduation from high school, college, and establishment of a career all ultimately lead to a better quality of life.

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2231 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 3. Noes, 1 (Slom). Excused, 3 (Green, Harimoto, Ruderman).
Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2145 (Joint/Majority) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2894

The purpose and intent of this measure is to:

- (1) Authorize the Department of Human Services to develop and administer outreach as required by the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act); and
- (2) Create the Hawaii health insurance programs within the Department of Labor and Industrial Relations, which will conform state law to the Affordable Care Act and enable the State to: preserve the benefits of the Prepaid Health Care Act; ensure a

smooth transition to a state-based marketplace using the federal platform for individuals and families; and develop a system to allow small businesses to continue to take advantage of Affordable Care Act tax credits.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Labor and Industrial Relations, Department of Human Services, Hawaii Medical Service Association, and International Warehouse and Longshore Union Local 142. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that Hawaii's state-based health insurance exchange, the private nonprofit Hawaii Health Connector, ceased operations on December 4, 2015. The State has since enlisted the assistance of six state departments to comply with federal requirements and ensure a smooth transition for enrollees from the state-based exchange to a state-based marketplace that utilizes the federal platform.

Your Committees further find that outreach and consumer assistance for health insurance, including Medicaid, continue to be needed during the transition. These functions will be provided by the Department of Human Services and require the continued development of communication materials, supplies, travel, and other administrative support. The Department of Human Services has estimated a need for additional staff to perform these outreach and consumer assistance functions, as these are not functions that have been previously provided by the Department.

Your Committees additionally find that during the transition, the Department of Labor and Industrial Relations is responsible for overseeing employers who have the option of providing health plans to their employees through Hawaii's Prepaid Health Care Act or the federal exchange, and managing the federal Affordable Care Act grant. The Department of Labor and Industrial Relations has requested transfer of the federal grant to the Department but has been informed that the State will be unable to receive federal grant monies until a new state exchange is named.

This measure establishes a new state health insurance exchange in the Department of Labor and Industrial Relations and authorizes the Department to operate a small business health options program under federal requirements. However, successful operation of the small business health options program is dependent on receiving approval of a federal waiver. Your Committees echo the frustration felt by many, that though the State continues to meet every objective set by the federal government, including low numbers of uninsured residents, generous coverage and benefits, and a program that did not increase costs to the federal government, there are no guarantees or assurances that a federal waiver will be granted. Despite these federal uncertainties, your Committees acknowledge that this measure is a necessary next step that can better assist the State during the transition to a state-based marketplace that utilizes the federal platform.

Your Committees have amended this measure by:

- (1) Removing language that would have exempted the Department of Labor and Industrial Relations from the Hawaii Public Procurement Code for purposes of the Hawaii health insurance programs;
- (2) Clarifying the Insurance Commissioner's regulatory authority over insurers and qualified plans and dental plans included in the state health insurance exchange;
- (3) Removing language that would have repealed chapter 435H, Hawaii Revised Statutes, relating to the Hawaii Health Connector, as the repeal of the Connector is being considered in another vehicle currently moving through the legislative process; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2894, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2894, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 3. Noes, 1 (Slom). Excused, 3 (Espero, Nishihara, Ruderman).
Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

SCRep. 2146 Commerce, Consumer Protection, and Health on S.B. No. 2690

The purpose and intent of this measure is to:

- (1) Increase the excise tax on cigarettes and little cigars sold on or after July 1, 2016, to 20 cents per cigarette or little cigar sold; and
- (2) Beginning on July 1, 2016, allocate the taxes collected per cigarette or little cigar to various funds, including 3 cents to the Hawaii cancer research special fund; 1 cent to the department of health chronic disease prevention and health promotion division, for smoking cessation programs and education in Hawaii; and 2 cents to the general fund.

Your Committee received testimony in support of this measure from the Department of Health, Coalition for a Tobacco-Free Hawai'i, American Cancer Society Cancer Action Network, American Heart Association, American Lung Association in Hawaii, and forty-one individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance and eight individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that tobacco products, which are addictive and inherently dangerous, produce a complex chemical mixture of more than 7,000 compounds when burned, causing a wide range of diseases, including cancer, heart disease, and other serious illnesses, and premature death. Hawaii has a substantial interest in reducing the number of individuals of all ages who use tobacco products, as tobacco use in Hawaii causes approximately 1,400 deaths per year among adults and poses a heavy burden on Hawaii's health care system.

Your Committee further finds that research has shown that either a tax on cigarettes or cigarette price increases have the propensity to reduce the rate of smoking by adult and youth smokers. Raising the excise tax on cigarettes and little cigars sold in the State and allocating the increased taxes collected to research and smoking cessation programs and education in the State will protect individuals of all ages, especially adolescents, from tobacco dependency and the illnesses and premature death associated with smoking.

Your Committee has amended this measure by:

- (1) Increasing the amount allocated to the Hawaii cancer research special fund from 3 cents per cigarette to 4 cents per cigarette;
- (2) Increasing the amount allocated to the credit of the Department of Health Chronic Disease Prevention and Health Promotion Division, for smoking cessation programs and education in Hawaii, from 1 cent to 2 cents;
- (3) Deleting unnecessary language that would have allocated 2 cents per cigarette to be deposited to the credit of the general fund, as any unallocated portion of cigarette and tobacco tax revenue is already credited to the general fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2690, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2690, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2147 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2330

The purpose and intent of this measure is to:

- (1) Continue the hospital sustainability program for one year;
- (2) Appropriate funds out of the hospital sustainability program special fund for fiscal year 2016-2017; and
- (3) Amend various reimbursement rates under the program to certain private hospitals through Medicaid managed care health plans, and uncompensated care and disproportionate share hospital payments.

Your Committees received testimony in support of this measure from the Healthcare Association of Hawaii; Chamber of Commerce Hawaii; Hawaii Primary Care Association; United Public Workers, AFSCME, Local 646; and The Queen's Health Systems. Your Committees received comments on this measure from the Department of Human Services and Hawaii Medical Association.

Recognizing that Medicaid payments to hospitals were far below the actual costs of care, the Legislature created the hospital sustainability program by enacting Act 217, Session Laws of Hawaii 2012, which increases Medicaid payments to hospitals. Your Committees find that the program achieves this by assessing a fee on hospitals, using the revenue to obtain matching federal Medicaid funds, and returning a majority of the combined amount directly to hospitals. This measure will provide increased access to medical care and create more sustainable hospitals in Hawaii.

Your Committees have amended this measure by:

- (1) Updating findings to specify that provider fees exist in forty-nine states and the District of Columbia as a means of drawing down federal funds to sustain their Medicaid programs;
- (2) Amending the definition of "private hospital" to include hospitals that became a private hospital in calendar year 2016 and are currently operating;
- (3) Deleting language that would have repealed the hospital sustainability program special fund and related amendments made to section 36-30(a), Hawaii Revised Statutes, on December 31, 2017;
- (4) Deleting section 6 of this measure, which would have repealed certain amendments made to sections 36-27(a) and 36-30(a), Hawaii Revised Statutes, on December 31, 2017; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2330, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2330, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

SCRep. 2148 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2085

The purpose and intent of this measure is to appropriate funds for fiscal year 2016-2017 for:

- (1) The kupuna care program;
- (2) The aging and disability resource center;
- (3) Fall prevention and early detection services for the elderly;

- (4) The healthy aging partnership program;
- (5) An Alzheimer's disease and related dementia services coordinator; and
- (6) An Alzheimer's disease and related dementia public awareness campaign.

Your Committees received testimony in support of this measure from the Executive Office on Aging; State Council on Developmental Disabilities; Maui County Office on Aging; Hawaii Family Caregiver Coalition; Healthcare Association of Hawaii; Alzheimer's Association, Aloha Chapter; Child & Family Service; Hawaii Government Employees Association, AFSCME Local 152; Lanakila Pacific; Zonta Club of Hilo; Catholic Charities Hawaii; ILWU Local 142; and two individuals.

Your Committees find that according to census projections, Hawaii's senior population will almost double between 2010 and 2020, with the highest percentage increase occurring in kupuna over the age of 85. Minimizing the potential financial strain of the aging population on the State and addressing the elderly population's needs require significant proactive efforts.

While your Committees support all of the appropriations in this measure, your Committees prefer that the appropriations be included in the executive supplemental budget rather than in this measure; provided that for appropriations not included in the executive supplemental budget, your Committee on Ways and Means is requested to consider retaining those appropriations in this measure for further consideration.

Your Committees have amended this measure by:

- (1) Clarifying that the State's aging and disability resource center is a person-centered process intended to navigate and streamline access to long-term services and supports for older adults, individuals with disabilities, and family caregivers;
- (2) Updating findings related to the costs associated with falls among the elderly; and
- (3) Updating findings related to the number of Hawaii residents that are forecast to be affected by Alzheimer's disease in Hawaii.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2085, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2085, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

SCRep. 2149 Economic Development, Environment, and Technology on S.B. No. 2277

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds for Goodwill Industries of Hawaii, Inc.

Your Committee received testimony in support of this measure from Goodwill Industries of Hawaii, Inc. and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by Goodwill Industries of Hawaii, Inc., to finance capital improvements at the Beretania Street property, which requires enclosure of much of the area from the outdoors and updates to create efficiencies in processing operations, and to provide a better environment for its employees and clients. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2277 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Baker).

SCRep. 2150 Economic Development, Environment, and Technology on S.B. No. 2301

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Keahole Management Group LLC as a processing enterprise.

Your Committee received testimony in support of this measure from Keahole Management Group LLC, Hawaii Tropical Fruit Growers, Koa Kane Limited Liability Company, Hongli Tea Kona LLC, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by Keahole Management Group LLC to assist with planning, designing, constructing, and equipping facilities for the manufacturing and processing of products, including the production of value-added agricultural products, in the State. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2301 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Baker).

SCRep. 2151 Economic Development, Environment, and Technology on S.B. No. 2302

The purpose and intent of this measure is to establish a Dark Skies Protection Advisory Committee to assist the Department of Business, Economic Development, and Tourism in developing a dark skies protection strategy.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and one individual.

Your Committee finds that dark night skies hold important cultural, scientific, astronomical, natural, landscape, and tourism-related value. Your Committee further finds that light pollution, caused by inappropriate use of lighting at night, including over-illumination, excessive use of artificial light, use of fixtures that directs light upward causing glare and sky glow, and use of fixtures that have excessive amounts of blue light, which is scattered by the atmosphere to cause sky glow, interferes with dark night sky activities and the nighttime activities of certain animal and insect species. Your Committee also finds that nighttime illumination of state highways, harbors, airports, and other facilities is costly and consumes large amounts of energy, and that application of new lighting technologies could produce substantial energy and cost savings. This measure is an important step toward better protection of Hawaii's dark night skies.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2302 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Baker).

SCRep. 2152 Economic Development, Environment, and Technology on S.B. No. 2506

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist TruTag Technologies, Inc., as a manufacturing enterprise.

Your Committee received testimony in support of this measure from the Chamber of Commerce of Hawaii; TruTag Technologies, Inc.; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by TruTag Technologies, Inc., to finance or refinance the planning, construction, improvement, and equipping of its manufacturing facilities in the State to produce silica microtags for identification, tracking, authentication, brand protection, and quality assurance of high-volume, high-value items, such as electronics and industrial parts. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2506 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Baker).

SCRep. 2153 Economic Development, Environment, and Technology on S.B. No. 2511

The purpose and intent of this measure is to:

- (1) Make the Director of Business, Economic Development, and Tourism a member of the Broadband Assistance Advisory Council;
- (2) Ensure that each of the counties are represented on the Broadband Assistance Advisory Council; and
- (3) Authorize the Chairperson of the Broadband Assistance Advisory Council to include representatives of other interested public or private sector organizations on an ad hoc basis as members of the advisory council or the work groups of the advisory council.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Cable Television Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that the need for broadband services has continued to grow and that broadband service has become an essential infrastructure for society in the twenty-first century. The Broadband Assistance Advisory Council advises the Department of Commerce and Consumer Affairs on policy and funding priorities to promote and encourage the use of telework alternatives for public and private employees and to expedite the development of affordable and accessible broadband services in Hawaii. Your Committee further finds that the membership of the Broadband Assistance Advisory Council does not include representation from the Department of Business, Economic Development, and Tourism, every county, or other interested public or private sector organizations and that inclusion of these other parties would enhance the advisory council in its ability to advise on broadband-related policy for the entire State.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Baker).

SCRep. 2154 Education on S.B. No. 2433

The purpose and intent of this measure is to prioritize other options apart from formal court proceedings to address student truancy.

Your Committee did not receive any testimony on this measure.

Your Committee finds that instances of student truancy are frequently resolved through court proceedings when non-judicial alternatives are available. Non-judicial alternatives are generally less costly, more flexible, and less disruptive to a student and student's family than court proceedings. This measure prioritizes those non-judicial alternatives in situations in which such alternatives are applicable.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2433 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Harimoto).

SCRep. 2155 Education on S.B. No. 2731

The purpose and intent of this measure is to establish a school impact fee review task force to review the law regarding school impact fees and recommend necessary amendments.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from the Department of Education.

Your Committee finds that Act 245, Session Laws of Hawaii 2007, established the law regarding school impact fees, including new methods of financing the development of new educational facilities and the expansion of existing facilities. Since 2007, land use planning, development patterns, and preferences have changed significantly. School impact fee laws were amended in 2010, but it is possible that further substantive amendments are needed.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2731 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Harimoto).

SCRep. 2156 (Majority) Education on S.B. No. 3099

The purpose and intent of this measure is to:

- (1) Establish the Hawaii three to six out-of-school program;
- (2) Create the Hawaii three to six out-of-school program revolving fund;
- (3) Provide a single funding source to fund after school programs included in the Hawaii three to six out-of-school program; and
- (4) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Office of Youth Services, Hawaii Island School Garden Network, Micronesians United Big Island, Hawaii Youth Services Network, Hawaii Afterschool Alliance, Parents and Children Together, High Tech Youth Network, Pioneering Healthier Communities Honolulu, Kaho'omiki, and fifteen individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that out-of-school, extracurricular programs are valuable to the development and success of Hawaii's students. Out-of-school activities reinforce lessons learned in the classroom and expose students to the arts, culture, literacy, fitness, math, science, character development, and community service. Participation in out-of-school programs lowers a student's risk of engaging in risky behaviors such as tobacco, alcohol, or drug use. Hawaii has been recognized as one of the top ten states for providing out-of-school programs, but these programs are not available to students at all schools. Your Committee finds that a uniform out-of-school program would help to ensure that all students can enjoy the benefits of these activities.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3099 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2157 Education on S.B. No. 2624

The purpose and intent of this measure is to authorize a state income tax credit for certain expenses paid or incurred by school teachers, special education teachers, school librarians, and counselors for supplementary materials used in the classroom.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Hawaii State Teachers Association, IMUAlliance, and fifteen individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that teachers have historically incurred expenses while trying to create an optimal learning environment for students. These expenses include books in classroom libraries, wall charts, basic classroom supplies for students who do not have their own, and other supplemental materials. In addition, teachers, in trying to provide greater educational opportunities for their students, often incur out-of-pocket expenses associated with student educational travel. Expenses incurred to facilitate student educational travel directly furthers the State's interest in providing a high-quality learning experience for students.

Your Committee has amended this measure by adding travel expenses incurred while supporting students on an educational trip to the types of expenses that are eligible for the tax credit.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2624, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2624, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Harimoto).

SCRep. 2158 Education on S.B. No. 3103

The purpose and intent of this measure is to appropriate funds to assist the Department of Education with its student travel program.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, and two individuals.

Your Committee finds that educational travel provides an important benefit to Hawaii's students. For some students, educational trips are the only opportunity that they have to experience the world outside of their home island. In past years, teachers have researched and organized educational travel on their own time and paid for their own travel expenses so that they can accompany, supervise, chaperone, and guide their students. Due to the beneficial effect that educational travel has on students, the Department of Education should be provided with resources to support teachers in making educational travel available.

Your Committee has amended this measure by inserting an appropriation amount of \$405,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3103, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Harimoto).

SCRep. 2159 Judiciary and Labor on S.B. No. 2438

The purpose and intent of this measure is to:

- (1) Change the source of funding for the operating expenses of the Campaign Spending Commission from the Hawaii election campaign fund to the general revenues of the State; and
- (2) Appropriate an unspecified amount to the Campaign Spending Commission for operating expenses, including staff salaries and fringe benefits.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Americans for Democratic Action Hawaii, Common Cause Hawaii, League of Women Voters of Hawaii, and two individuals.

Your Committee finds that the Hawaii election campaign fund is the source of funding for the State's partial public funding program. According to the Campaign Spending Commission, for the past seven fiscal years, the Commission has operated at an average net deficit of approximately \$524,000. If this trend continues, the Commission projects that the funds in the Hawaii election campaign fund will be close to depletion as early as August 2017, which may result in the Commission running a limited public funding program. Furthermore, by December 2017, the funds are projected to be near depletion, which will result in the Commission being unable to run the partial public funding program for the 2018 election. This measure restores the original purpose of the Hawaii election campaign fund to fund the partial public funding program while maintaining a consistent funding source for the operating expenses for the Campaign Spending Commission to maintain the partial public funding program.

Your Committee has amended this measure by inserting the appropriation amount suggested by the Campaign Spending Commission to cover the Commission's operating expenses, including salaries and fringe benefits for fiscal year 2017.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2438, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2438, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2160 Judiciary and Labor on S.B. No. 2437

The purpose and intent of this measure is to change the name of the Hawaii election campaign fund to the Hawaii citizens' election fund.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Campaign Spending Commission and one individual.

Your Committee finds that the name of the Hawaii election campaign fund may be misleading. This measure changes the name of the Hawaii election campaign fund to better reflect the purpose of the fund, which is to fund the State's partial public funding program, and promote public awareness and understanding of the fund in hopes of increasing revenue derived from contributions from taxpayers' income tax returns. Your Committee notes that this measure should be contingent upon the passage of S.B. No. 2438, Regular Session of 2016, as amended, which replaces the Hawaii election campaign fund with the general revenues of the State as the funding source for the operating expenses of the Campaign Spending Commission.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2437 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2161 Judiciary and Labor on S.B. No. 2409

The purpose and intent of this measure is to:

- (1) Delete duplicative language awarding grandparents reasonable visitation rights from section 571-46, Hawaii Revised Statutes, relating to the criteria and procedure in awarding custody and visitation; and
- (2) Add language to section 571-46.3, Hawaii Revised Statutes, regarding grandparents' visitation rights that:
 - (A) Requires the courts to make a finding that awarding grandparent visitation is in the best interest of the child and denial of grandparent visitation would cause actual or potential harm to the child;
 - (B) Establishes a rebuttable presumption that a parent's decision regarding visitation is in the best interest of the child, which may be rebutted by a preponderance of the evidence; and
 - (C) Clarifies the court shall be guided by all standards, considerations, and procedures for parent visitation under section 571-46, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from two individuals.

Your Committee finds that grandparents today are taking on increasing responsibilities in helping to raise their grandchildren, especially when the children's own parents are unable or unwilling to do so themselves as a result of a lack of financial self-sufficiency, abandonment, mental disorder, minor status, substance abuse, or incarceration. Grandparents may help foster a child's healthy emotional and psychological development, further a child's education, and positively influence a child's well-being.

However, your Committee notes that grandparents may also present an added obstacle in determining whether reasonable visitation rights of grandparents are in the best interest of the child. Your Committee is concerned that in cases of family violence, grandparents may violate the terms and conditions of the court's order without consequence, which may result in assisting family violence perpetrators and enabling perpetuation of family violence. Your Committee further notes that violating the terms and conditions of reasonable visitation is contrary to the best interest of the child, and that court-ordered sanctions are necessary to ensure compliance.

Accordingly, your Committee has amended this measure by:

- (1) Adding language that clarifies that if a grandparent or grandparents of a child violate the terms and conditions of an order awarding reasonable visitation rights, the grandparent or grandparents shall be subject to sanctions or contempt of court;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2409, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2409, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2162 Judiciary and Labor on S.B. No. 2242

The purpose and intent of this measure is to:

- (1) Prohibit any person, other than the voter, from wilfully exhibiting the voter's ballot or the voter's unvoted ballot in a special primary or primary election after the ballot has been marked, except under certain circumstances; and
- (2) Preserves the right for any voter to exhibit the voter's own marked ballot electronically or digitally to other persons, subject to certain conditions.

Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that the prevalence of electronic mobile devices and social media applications and platforms increases the opportunities for people to display their marked ballot via social media. This measure clarifies that voters may disseminate images of their own ballots electronically or digitally.

Your Committee notes the comments from the Office of Elections that it may not be appropriate to amend section 11-137, Hawaii Revised Statutes (HRS), because this section relates to the operation of a polling place. This measure would exempt a voter from the

prohibitions against wilfully exhibiting the voter's own ballot in the polling place and leaving the polling place with the voter's own ballot before casting the ballot. The Office of Elections testified that these prohibitions are meant to prevent voters from declaring at the polling place how they voted and encouraging others in the polling place to vote in the same way.

Accordingly, your Committee has amended this measure by adopting the language suggested by the Office of Elections that deletes the language amending section 11-137, HRS, and inserts language that adds a new section to chapter 11, HRS, to:

- (1) Allow a voter to distribute or share an electronic or digital image of the voter's own marked ballot via social media or other means;
- (2) Establish that distributing or sharing the image of a voter's own marked ballot is not a defense for any election offense; and
- (3) Make a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2242, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2242, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2163 Ways and Means on H.B. No. 2720

The purpose and intent of this measure is to appropriate funds for the expenses of the Legislature, the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, and the Hawaii State Ethics Commission.

Your Committee received testimony in support of this measure from the Office of the Auditor, the Office of the Ombudsman, and the Hawaii State Ethics Commission.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that this measure appropriates sufficient funds to defray necessary expenses of the Senate, the House of Representatives, the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, and the Hawaii State Ethics Commission for fiscal year 2016-2017. The measure includes a general fund appropriation of \$32,976,505 to defray the following necessary expenses:

- (1) \$8,878,376 to the Senate;
- (2) \$12,130,374 to the House of Representatives;
- (3) \$2,978,549 to the Office of the Auditor;
- (4) \$2,800,000 to the Audit Revolving Fund;
- (5) \$3,463,419 to the Legislative Reference Bureau;
- (6) \$1,216,970 to the Office of the Ombudsman; and
- (7) \$1,009,695 to the Hawaii State Ethics Commission.

The measure also provides funding to the respective houses of the Legislature and legislative service agencies to defray accrued vacation and vacation transfer costs and requires that these moneys be used as the primary funding source to pay for such costs when an employee separates from service with the respective house of the Legislature or legislative service agency. The measure appropriates the following amounts to defray accrued vacation and vacation transfer costs:

- (1) \$150,000 to the Senate;
- (2) \$224,524 to the House of Representatives;
- (3) \$45,825 to the Office of the Auditor;
- (4) \$50,153 to the Legislative Reference Bureau;
- (5) \$11,662 to the Office of the Ombudsman; and
- (6) \$16,958 to the Hawaii State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2720, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Taniguchi).

SCRep. 2164 (Joint) Water, Land, and Agriculture and Transportation and Energy on S.B. No. 2377

The purpose and intent of this measure is to support the farming and ranching industries in South Kohala on the island of Hawaii by appropriating funds for planning and engineering studies and designs for construction of:

- (1) Water source development;
- (2) Renewable energy sources for agricultural development and delivery; and

(3) A reservoir to service the agricultural lands surrounding Waimea on the island of Hawaii.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Hawaiian Home Lands, Hawaii Cattlemen's Council, Hawai'i Farm Bureau, and one individual.

Your Committees find that the development of non-potable water resources for farms and ranches in South Kohala on the island of Hawaii is critically necessary to meet the demand for food self-sufficiency, address food security, expand the agricultural economy, and address drought migration. Your Committees further find that a regional agriculture water development plan will identify the storage and distribution improvements necessary to increase capacity, which will lead to increases in diversified agriculture, the establishment of new and larger crop fields for produce and livestock feed, and new opportunities to assist the economy in the region and throughout the State.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2377 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Wakai).

Transportation and Energy: Ayes, 7. Noes, none. Excused, none.

SCRep. 2165 Water, Land, and Agriculture on S.B. No. 3037

The purpose and intent of this measure is to require the Department of Land and Natural Resources to implement a management plan developed by the Hawaiian Islands Land Trust for Lipoa Point on Maui.

Your Committee received testimony in support of this measure from the Aha Moku Advisory Committee, Hawaiian Islands Land Trust, Plantation Estates Lot Owners Association, Makana Aloha Foundation, and fourteen individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and three individuals. Your Committee received comments on this measure from the Save Honolulu Coalition and one individual.

Your Committee finds that Lipoa Point on Maui is an area rich in history and resources, including agricultural terraces, marine resources, and near shore fisheries, and is a place where traditional practitioners continue to gather resources for subsistence. Your Committee further finds that it is necessary for this area to be properly managed to ensure protection of its resources while maintaining access for traditional practitioners, residents, and visitors.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3037 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2166 Water, Land, and Agriculture on S.B. No. 2992

The purpose and intent of this measure is to make an appropriation to the Department of Land and Natural Resources to conduct an inventory survey of Hawaiian sandalwood on the island of Hawaii to determine the abundance, health, and distribution of Hawaiian sandalwood that is currently subject to commercial harvest.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, Conservation Council for Hawai'i, and nine individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaiian sandalwood, 'iliahī, is critically important to Native Hawaiians as part of the symbiotic relationship between the 'iliahī plant, the 'iliahī bird, and the 'iliahī fish and shows the nature connection between the wao akua, the land of the gods, the wao kele, coastal areas, and the po wale, the deep ocean. Your Committee further finds that although this measure addresses only one species of Hawaiian sandalwood, *Santalum paniculatum*, consideration should be given to establishing protections for all six species of Hawaiian sandalwood.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2992 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2167 Water, Land, and Agriculture on S.B. No. 2906

The purpose and intent of this measure is to remove the sunset date of Act 380, Session Laws of Hawaii 1997, as amended, to permanently allow the use of new safe harbor agreements, habitat conservation plans, and incidental take licenses as recovery options for conserving and protecting the State's threatened and endangered species.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Cattlemen's Council, and Sempra U.S. Gas & Power.

Your Committee finds that, as the endangered species capital of the world, Hawaii needs flexibility in its laws to ensure state and federal agencies and private landowners can work cooperatively to protect and conserve endangered species while allowing for responsible development activities and economic growth. Your Committee further finds that safe harbor agreements, habitat

conservation plans, and incidental take licenses have proven to be invaluable tools in the process of recovering the State's endangered species and that it is therefore imperative that these tools remain available options.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2906 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2168 Water, Land, and Agriculture on S.B. No. 2904

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to establish and operate aquatic mitigation banks to restore, create, enhance, or preserve aquatic habitats or resources as compensatory mitigation, where a person is required to provide compensatory mitigation prospectively and the use of banked mitigation is approved by the agency requiring mitigation, or for past damages to aquatic habitats or resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and three individuals.

Your Committee finds that aquatic mitigation banks restore, create, enhance, or preserve aquatic habitats or resources to recover the ecological functions, services, and value of aquatic resources lost by adverse impacts to other similar aquatic habitats. Mitigation banks serve as a mechanism to restore or replace aquatic resources and ecological functions of aquatic habitats either prospectively or after they have been damaged; therefore, your Committee finds that mitigation banks are a first step in the process of creating innovative mechanisms for aquatic resource conservation in the State.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2904 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2169 Water, Land, and Agriculture on S.B. No. 2900

The purpose and intent of this measure is to:

- (1) Clarify that the Board of Land and Natural Resources may lease all fast lands and submerged lands within any existing state boating facility without prior authorization of the Legislature by concurrent resolution as existing law requires pursuant to section 171-53, Hawaii Revised Statutes; and
- (2) Repeal a reference to section 200-2.6, Hawaii Revised Statutes, within section 200-2.5, Hawaii Revised Statutes, to clarify the means by which the Board of Land and Natural Resources may lease fast lands and submerged lands within an existing boat facility.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from Ocean Tourism Coalition, Lahaina Divers, Quiksilver Charters, and one individual.

Your Committee finds that the Department of Land and Natural Resources operates and manages twenty-one harbors, which include underdeveloped areas and facilities in need of maintenance and repair. Your Committee acknowledges the opposition to this measure, but because this is an important administrative measure to the Department of Land and Natural Resources, your Committee recommends passage of this measure on Second Reading to facilitate further discussion.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2900, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2900, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2170 Water, Land, and Agriculture on S.B. No. 2902

The purpose and intent of this measure is to increase the current rate of the liveaboard fee for state small boat harbors and clarify that the liveaboard fee may be increased or decreased by rules adopted by the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that the State has one hundred sixty-four liveaboard slips located in the Ala Wai and Keehi Lagoon small boat harbors. Liveaboard permittees pay a fee to reside on their vessels, to offset increased costs for facilities and security, and that fee has not been increased since 1991. Your Committee further finds that increasing the liveaboard fee is necessary to cover increased costs and that authorizing the Department of Land and Natural Resources to adjust liveaboard fees by rule is consistent with other mooring and commercial maritime fees that are similarly adjusted by rule.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2902, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2902, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2171 Water, Land, and Agriculture on S.B. No. 2990

The purpose and intent of this measure is to appropriate monies to the Hawaii Association of Conservation Districts to assist with its staffing and operating costs while providing time for the districts to develop sustainable funding mechanisms.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Association of Conservation Districts; Central Maui Soil and Water Conservation District; South Oahu Soil and Water Conservation District; Hawaii Cattlemen's Council; Maui County Farm Bureau; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; and eighteen individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Hana Soil and Water Conservation District.

Your Committee finds that the Hawaii Association of Conservation Districts assists government agencies in identifying and implementing culturally sensitive projects and practices to ensure the protection of Hawaii's environment. These efforts have brought millions of dollars to Hawaii to improve farm practices, reduce erosion, improve ocean and drinking water quality, fight invasive species, improve public safety, protect property, conserve water, and strengthen the economy. Your Committee further finds that county grading permit reviews and conservation plans are critical to preserve the environment, stimulate the economy, and maintain individual livelihoods; however, as increased demand and accompanying workload for this service and others have caused conservation districts to struggle to keep pace with the demand, increased resources are needed.

Your Committee has amended this measure by inserting an appropriation amount of \$100,000.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2990, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2990, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2172 (Joint) Hawaiian Affairs and Water, Land, and Agriculture on S.B. No. 2973

The purpose and intent of this measure is to establish a general excise tax at the wholesale rate of one-half of one percent for the gross proceeds or income from the sale of all products produced by Hawaiian loko i'a.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Pacific American Foundation, and four individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committees note the testimony of the Department of Taxation expressing concerns that the Department of Taxation does not have the expertise to differentiate the products produced by Hawaiian loko i'a from other similar products that may be produced and sold by other aquaculture systems.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2973, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2973, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Slom).

Water, Land, and Agriculture: Ayes, 7. Noes, none. Excused, 2 (Ruderman, Wakai).

SCRep. 2173 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 2197

The purpose and intent of this measure is to:

- (1) Require the Attorney General to ensure that all state agencies and departments who employ law enforcement officers report annually to the Legislature on specified information concerning firings, forced resignations, alleged criminal activity, grievances, and incidents of a sexual nature; and
- (2) Require the Department of Transportation, Department of Land and Natural Resources, Department of Public Safety, and county police departments to submit those annual reports.

Your Committees received testimony in support of this measure from the Department of Public Safety; Department of Land and Natural Resources; Department of Transportation; Ho‘omana Pono, LLC; American Civil Liberties Union of Hawaii; Hawaii State Coalition Against Domestic Violence; and three individuals.

Your Committees find that transparency and accountability in law enforcement agencies create greater public trust in these agencies. This measure proposes a mechanism for mandatory reporting of information regarding misconduct by law enforcement officers with the intent that timely, consistent exposure of any misconduct by law enforcement officers will provide opportunities for correction of that misconduct and improved law enforcement.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2197, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2197, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Inouye, Slom).

Government Operations: Ayes, 4. Noes, none. Excused, 3 (Shimabukuro, Tokuda, Slom).

SCRep. 2174 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 2194

The purpose and intent of this measure is to:

- (1) Require each county police department and all state departments and agencies having law enforcement functions to submit their respective crime statistics to the Attorney General; and
- (2) Require the Attorney General to transmit that data to the Federal Bureau of Investigation for its Uniform Crime Reporting Program.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Department of the Attorney General, The Humane Society of the United States, Hawaii State Coalition Against Domestic Violence, Remington College Criminal Justice, and sixteen individuals.

Your Committees find that crime statistics are an important tool used by law enforcement agencies to determine the most effective allocation of resources. Sharing of information between law enforcement agencies at the state and county levels helps agencies to coordinate their enforcement efforts and better serve and protect the public. Sharing of information at the national level allows agencies to coordinate and assist one another on a large scale. Your Committees find that this measure will allow law enforcement agencies in Hawaii to more effectively stay informed and carry out their duties.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2194, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2194, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Inouye, Slom).

Government Operations: Ayes, 4. Noes, none. Excused, 3 (Shimabukuro, Tokuda, Slom).

SCRep. 2175 Education on S.B. No. 2425

The purpose and intent of this measure is to ensure that Hawaii’s students will be able to benefit from opportunities for educational travel by exempting acceptance of free travel for teachers that plan, organize, and serve as chaperones on certain types of student educational trips from certain provisions of the State Ethics Code.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, IMUAlliance, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission.

Your Committee finds that educational trips to neighbor islands, the continental United States, and international destinations expand the horizons of Hawaii’s students and provide opportunities for students to engage in real life experience that promote critical thinking and collaborative problem-solving. Such trips are a great benefit to students not only in their academic careers, but throughout their lives.

Your Committee further finds that teachers often spend months planning these trips, ensuring that these educational opportunities are aligned with classroom lessons and the Department of Education’s general learner outcomes. Much of the planning is done outside of the classroom, on teachers’ own time. Once on these trips, which usually occur when teachers would otherwise be on vacation, the teachers are chaperoning students twenty-four hours a day, essentially volunteering their time so that students can benefit from these educational opportunities.

Teacher travel is sometimes, but not always, subsidized by tour companies. It should be noted that tour companies usually offer subsidized trips to many others who book large groups. For many teachers, without this assistance they would not be able to afford to provide these educational opportunities to Hawaii’s students. However, while this has been common practice for nearly thirty years, the Hawaii State Ethics Commission issued Advisory Opinion No. 2015-1 finding that acceptance of any free travel was a violation of

the State Ethics Code. This broad application ultimately resulted in the cancellation of trips that teachers, parents, and students had planned and fundraised for months, and sometimes years, in advance. Going forward, this Advisory Opinion has the unfortunate consequence of limiting opportunities for Hawaii's students to have educational experiences that bring classroom content to life.

Your Committee believes that it is imperative that Hawaii's students continue to have these educational opportunities. Coming from an island state, Hawaii's students cannot travel with the same ease and affordability as students on the mainland. Educational trips organized by teachers may be the only opportunity some students will ever have to see the world outside of Hawaii or even outside of their own island.

Your Committee notes that the Attorney General has issued AG Op. No. 15-2, which clarifies that the Legislature determines the scope of the State Ethics Code and that while specific conduct may be exempted from the State Ethics Code, specific classes of employees may not.

Accordingly, your Committee has amended this measure by:

- (1) Adding language allowing, under certain circumstances, a state employee to engage in extracurricular service without violating part II of the State Ethics Code;
- (2) Adding language to clarify that a state employee may receive detached remuneration for the performance of extracurricular services; provided that certain criteria are met;
- (3) Adding definitions for "detached remuneration" and "extracurricular service";
- (4) Removing language exempting teachers who plan, organize, or serve as chaperones on student educational trips who receive a travel benefit, incentive, or gift from a tour or travel company from the gifts, fair treatment, and conflicts of interest provisions of the State Ethics Code; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2425, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2425, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Harimoto).

SCRep. 2176 (Joint) Education and Human Services on S.B. No. 2386

The purpose and intent of this measure is to require that public schools post signs that include the child abuse or neglect hotline in high traffic locations to encourage students who are victims of abuse or neglect to seek help and let those students know that resources exist to help them.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Education and Department of Human Services.

Your Committees find that students who are victims of abuse or neglect often do not seek help or report their situations. Teachers are not always able to recognize when students are being abused or neglected. Children are a particularly vulnerable group, and victims of abuse or neglect are sometimes unaware that support networks and resources exist to help them. Greater visibility of these resources could encourage students who are victims of abuse or neglect to report their situations and receive help.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2386 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).
Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Harimoto, Ruderman).

SCRep. 2177 Housing on S.B. No. 2093

The purpose and intent of this measure is to restore the allocation of conveyance tax collections to the rental housing revolving fund to fifty percent, without a \$38,000,000 cap.

Your Committee received testimony in support of this measure from the Coordinator on Homelessness under the Office of the Governor, Hawaii Housing Finance and Development Corporation, Catholic Charities Hawai'i, Ali'i Pauahi Hawaiian Civic Club, The CHOW Project, Hawai'i Association of REALTORS, Partners in Care, Hawaii Appleseed Center for Law and Economic Justice, and one individual. Your Committee received comments on this measure from FACE and Tax Foundation of Hawaii.

Your Committee finds that there is a serious need to develop affordable rental housing in Hawaii to meet the needs of individuals and families who are homeless or at risk of becoming homeless. In fiscal year 2015, the rental housing revolving fund received \$39,500,000 in conveyance tax revenues to support projects that set aside rental units that are affordable to extremely and very low-income families. This measure will help to expand the much needed affordable rental housing opportunities for Hawaii residents and address the unique challenges related to affordable rentals.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2093 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Slom).

SCRep. 2178 Housing on S.B. No. 2998

The purpose and intent of this measure is to appropriate funds for the repair and maintenance of existing public housing stock in the State.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and United Public Workers, AFSCME, Local 646. Your Committee received comments on this measure from the Coordinator on Homelessness under the Office of the Governor.

Your Committee finds that the Hawaii Public Housing Authority is the sole statewide public housing agency of the State. The Authority's portfolio of eighty-five properties comprises 6,195 units that serve over 6,100 families or more than 20,000 individuals. The Authority's aging housing stock continues to have an extensive capital need that is underfunded by the United States Department of Housing and Urban Development. Additional funding is needed to modernize, repair, and maintain many of the State's public housing units.

Your Committee has amended this measure by specifying that the appropriation to the Hawaii Public Housing Authority be a lump sum appropriation to be used for plans, design, construction, equipment, and development for the renovation, improvement, upgrade, and development of the Hawaii Public Housing Authority's facilities statewide.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2998, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2998, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Slom).

SCRep. 2179 Transportation and Energy on S.B. No. 2738

The purpose and intent of this measure is to replace the current renewable energy technology systems tax credit with tax credits for solar energy property, wind energy property, and energy storage property and require the Department of Taxation and Department of Business, Economic Development, and Tourism to report tax credits claimed and make recommendations to the Legislature.

Your Committee received testimony in support of this measure from the Distributed Energy Resources Council, Hawaii Solar Energy Association, Renewable Energy Action Coalition of Hawaii, and Inter-Island Solar Supply. Your Committee received comments on this measure from the Department of Taxation; Department of Business, Economic Development and Tourism; and Tax Foundation of Hawaii.

Your Committee finds that tax incentives for solar and wind energy should be adopted by the State to advance the growth of renewable energy and, at a state level, accelerate progress toward a one hundred per cent renewable energy goal by 2045. Your Committee believes that allowing tax credits to incentivize traditional grid connected solar systems and energy storage systems will bolster renewable energy in Hawaii. With recent changes in solar policy there will be a greater emphasis within the market for energy storage systems. These tax incentives will accelerate the innovation and adoption of energy storage and benefit customers, the utility, and the State.

Your Committee has amended this measure by deleting its contents and inserting the contents of H.B. No. 2236. Your Committee further amended this measure by:

- (1) Limiting the qualifying income tax credit for each storage property that is installed and first placed in service by a taxpayer during the taxable year, if the cost of the energy storage property is not also included in the basis of solar or wind energy property, to disallow double credits;
- (2) Clarifying the definition of "basis" to include solar energy, wind energy, or energy storage property;
- (3) Clarifying the definition of "energy storage property" to include batteries, grid-interactive water heaters, and ice storage air-conditioners that store electricity as electrical, chemical, thermal, or mechanical energy and deliver the energy back to an electric utility at a later time;
- (4) Extending the period in which the tax credit applies for each applicable cap amount; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2738, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2738, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Nishihara, Slom).

SCRep. 2180 (Joint) Water, Land, and Agriculture and Transportation and Energy on S.B. No. 2641

The purpose and intent of this measure is to establish preferential rates for the purchase of energy for agricultural activities and to require electric and gas utilities to provide incentives for agricultural customers to acquire energy storage technology to support the viability of agricultural activities in the State.

Your Committees received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Ulupono Initiative; and one individual.

Your Committees find that reductions to the cost of energy used for agricultural production are beneficial to the State.

Your Committees have heard the Public Utilities Commission's testimony and believes that the Commission should have the flexibility and discretion to select the most efficient and appropriate method to establish preferential rates without going through the formal rulemaking process. Your Committees also find the Ulupono Initiative's suggested amendments appropriate to help stabilize energy consumption demand and to ensure a fair, transparent, and non-discriminatory process in the Public Utilities Commission's approval of preferential rates.

Your Committees have therefore amended this measure by:

- (1) Deleting language that would have required the Public Utilities Commission to adopt rules pursuant to chapter 91, Hawaii Revised Statutes;
- (2) Replacing the term "preferential rates" with "preferential off-peak rates";
- (3) Inserting language to require the Public Utilities Commission to notify the public of a request for a preferential off-peak rate, consider public comments, and approve the request only if the Public Utilities Commission determines that the requested preferential off-peak rate will provide benefit to ratepayers through improved system operations or other impacts; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2641, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2641, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Wakai).

Transportation and Energy: Ayes, 7; Ayes with Reservations (Kidani). Noes, none. Excused, none.

SCRep. 2181 Commerce, Consumer Protection, and Health on S.B. No. 2284

The purpose and intent of this measure is to appropriate funds for three full-time equivalent permanent positions within the Office of Language Access.

Your Committee received testimony in support of this measure from the Office of Language Access, Office of Language Access Advisory Council, Hawaii Filipino Lawyers Association, and three individuals.

Your Committee finds that the Office of Language Access is charged with providing oversight, central coordination, and technical assistance to state and state-funded agencies in their implementation of language access compliance, which is a civil right under federal and state law. While the Office of Language Access was initially able to provide much needed services and guidance to agencies as the agencies worked toward compliance with federal and state law, a reduction in staff has made it difficult for the Office of Language Access to provide adequate technical assistance and compliance monitoring that meet agencies' needs.

Your Committee further finds that in the last few years, there has been an increase in legal action and compliance monitoring from civil rights divisions of various federal agencies. Because there have been instances where state departments and county agencies have been subject to legal action for lack of compliance, your Committee finds that the services of the Office of Language Access in assisting state and state-funded agencies in understanding and meeting certain civil rights obligations to provide language access are critical in avoiding costly penalties and expenses or the loss of federal funding.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2284 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2182 Commerce, Consumer Protection, and Health on S.B. No. 2064

The purpose and intent of this measure is to appropriate funds to restore staff and long-term care services at Leahi and Maluhia hospitals within the Hawaii Health Systems Corporation.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Oahu Region; United Public Workers, AFSCME, Local 646; and nineteen individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that Leahi and Maluhia hospitals, two state-run long-term care facilities within the Oahu Region of the Hawaii Health Systems Corporation, have served for many years as a safety net for working class families. Both hospitals serve the highest number of individuals on Medicare and Medicaid, while reimbursements for care provided continue to decline. It is nearly impossible for Leahi and Maluhia hospitals to recover the actual costs of providing quality care without the support of government funding, as the current cost of care per person is \$400 per day and the reimbursement per person is \$200 per day.

Your Committee further finds that Leahi and Maluhia hospitals were forced to cut sixty-four staff positions and temporarily halt new admissions to remain operational due to an estimated \$3,700,000 deficit in fiscal year 2016. Furthermore, some residents experienced displacement to other facilities because of reduced services and a loss of seventy-six resident beds. It is critical to restore these staff positions and long-term care services for Hawaii's working class families in order to provide quality care for the State's kupuna population.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2064 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2183 (Majority) Government Operations on S.B. No. 2158

The purpose and intent of this measure is to prohibit the expenditure of state funds by state agencies for the purchase of single-serving bottled water, except under certain circumstances.

Your Committee received testimony in opposition to this measure from the International Bottled Water Association.

Your Committee finds that the prohibition of the expenditure of state funds by state agencies for the purchase of single-serving bottled water, except in emergency or natural disaster situations, will reduce the use of plastic water bottles in the State. Your Committee recognizes that the prohibition does not include the procurement of five-gallon water bottles or coolers that are often seen in dispensers. The implementation of this measure will reduce the production of waste and decrease the use of disposable plastics in the State.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2158 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Dela Cruz).

SCRep. 2184 Government Operations on S.B. No. 2638

The purpose and intent of this measure is to appropriate funds to the Department of Accounting and General Services for the operations of the State Building Code Council.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, State Building Code Council, Hawaii State Fire Council, Honolulu Fire Department, Kauai Fire Department, Building Industry Association of Hawaii, Subcontractors Association of Hawaii, Laborers' International Union of North America Local 368, and American Council of Engineering Companies of Hawaii.

Your Committee finds that the State Building Code Council has the authority to adopt, amend, or update the Hawaii state building codes, applicable to all building construction in the State. However, the Council has not received any funding since the Council's inception in 2007, and the existing state building codes are not in compliance with national standards. Implementation of this measure will provide the State Building Code Council with the funds necessary to modernize the State's building codes, safeguarding life, property, and the general welfare of the citizens of Hawaii.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2638 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2185 Government Operations on S.B. No. 2655

The purpose and intent of this measure is to require the filing of monthly, quarterly, and semiannual general excise tax returns on the last day of the respective applicable month, rather than the twentieth day of the month, applicable to returns and payments due on or after January 1, 2017.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and The Hawaii Business League.

Your Committee finds that since the inception of the general excise tax, the periodic returns required by the tax system had been due on the last day of the month following the end of the tax period. However, Act 196, Session Laws of Hawaii of 2009, accelerated the filing and payment of general excise taxes and thus currently requires general excise tax returns to be filed on the twentieth day of the applicable month. Taxpayers do not always have all the information necessary to file an accurate general excise tax return by the twentieth day of the month and often need additional information that is typically available by the last day of the month. Implementation of this measure will return the due date for general excise tax returns to the last day of the applicable month and provided better assurance that taxpayers have sufficient time to gather the information necessary to file accurate general excise tax returns.

Your Committee has amended this measure by:

- (1) Inserting language to require the filing of annual general excise tax returns on the last day of the respective applicable month, rather than the twentieth day of the month, applicable to returns and payments due on or after January 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2655, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2655, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Tokuda).

SCRep. 2186 (Majority) Judiciary and Labor on S.B. No. 2155

The purpose and intent of this measure is to:

- (1) Require the Employees' Retirement System (ERS) to identify fossil fuel companies in which the ERS has direct or indirect holdings and create a list of fossil fuel companies in which the ERS has direct holdings by January 1, 2017; provided that the list is updated on a quarterly basis;
- (2) Require the ERS to divest of all direct and indirect holdings in fossil fuel companies over a period of five years; provided that the ERS is not required to divest indirect holdings in actively managed investment funds and may reinvest in fossil fuel companies under certain conditions;
- (3) Prohibit the ERS from investing in fossil fuel companies; and
- (4) Require the ERS to report to the Legislature the list of fossil fuel companies in which the ERS has direct holdings within ninety days of creation of the list and annually thereafter report to the Legislature divestments, prohibited investments, and progress made.

Your Committee received testimony in support of this measure from Americans for Democratic Action; 350Hawaii.org; Sierra Club of Hawai'i, Oahu Group; Sierra Club of Hawai'i; Surfrider Foundation; Hawaii Center for Food Safety; Trees to Seas; and twenty-seven individuals. Your Committee received testimony in opposition to this measure from the Employees' Retirement System and Hawaii Government Employees Association. Your Committee received comments on this measure from one individual.

Your Committee finds that in the last five years, the energy sector has lost more than three percent of its value on the Standard & Poor's 500, while the rest of the market has grown more than ten percent. Various cities across the country have divested public pension funds of all holdings in fossil fuel companies, and no damage to these investment portfolios has been reported. Implementation of this measure will help assure that the State's largest public sector investment fund is financially solvent to benefit the fund's beneficiaries in the long term.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2155, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2155, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Kim). Noes, 1 (Slom). Excused, 1 (Thielen).

SCRep. 2187 Judiciary and Labor on S.B. No. 2244

The purpose and intent of this measure is to:

- (1) Establish that a member of the Employees' Retirement System who first earned credited service as a judge after June 30, 2016, and has at least twelve years of credited service and attained the normal retirement age, or has at least twenty-five years of credited service and has attained age fifty-five is eligible to receive a pension after retirement;
- (2) Reduce the retirement allowance for a member who first earned credited service as a judge after June 30, 2016, to two percent of the member's average final compensation, reduced for each month the member's age at the date of retirement is below the normal retirement age; and
- (3) Define "normal retirement age" as age sixty-five.

Your Committee received testimony in opposition to this measure from the Judiciary. Your Committee received comments on this measure from the Employees' Retirement System and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that there have been various revisions to the Employees' Retirement System, and implementation of this measure is necessary to maintain reasonable and fair benefits under the Employees' Retirement System.

Your Committee has amended this measure by:

- (1) Replacing any reference to "normal retirement age" in the amendments proposed by this measure with "age sixty" and deleting the definition for the term "normal retirement age";
- (2) Making conforming amendments; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2244, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2244, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2188 Judiciary and Labor on S.B. No. 2443

The purpose and intent of this measure is to:

- (1) Require the recount of all votes cast for any office at any election, at no cost to any candidate, when the margin of victory is less than two hundred fifty votes or less than one percent of the votes cast, whichever is less;
- (2) Require that the mandatory recount of votes be completed and results announced no later than the fifteenth day following the election;
- (3) Require the Chief Election Officer to adopt rules to implement a mandatory recount of votes; and
- (4) Amend the laws relating to the certification of election results and contests for cause in primary elections to reflect the establishment of a mandatory recount of votes system.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that there have been a number of close election races in Hawaii in the past. This measure establishes a process for the automatic recounting of votes cast in the event of a close election result at no cost to the candidates.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Office of Elections to:
 - (A) Require that the mandatory recount of votes be completed and the results announced no later than nine days, rather than fifteen days, after the election;
 - (B) Clarify that a mandatory recount of votes applies to votes counted pursuant to section 11-151, Hawaii Revised Statutes; and
 - (C) Require that a complaint pertaining to votes subject to a mandatory recount be filed with the Supreme Court no later than thirteen days following the election rather than the fifth day after the public announcement of the results of the mandatory recount;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2443, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2443, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2189 Judiciary and Labor on S.B. No. 2444

The purpose and intent of this measure is to:

- (1) Require the Office of Elections to join the Electronic Registration Information Center and share information with the counties pursuant to the terms of the membership agreement;
- (2) Require the Office of Elections and the county offices that administer elections to verify their respective voter registration rolls; and
- (3) Appropriate funds to the Office of Elections to join the Electronic Registration Information Center and require the Office of Elections to request, as part of its annual budget, an appropriation from the Legislature to cover annual membership dues.

Your Committee received testimony in support of this measure from the Office of Elections, Common Cause Hawaii, and one individual. Your Committee received comments on this measure from the Office of the County Clerk, County of Kaua'i; Office of the County Clerk, County of Hawai'i; and League of Women Voters of Hawaii.

Your Committee finds that the Electronic Registration Information Center is a nonprofit organization that helps states improve the accuracy of voter registration rolls by using secure data-matching tools. States who are members of the Electronic Registration Information Center have reported an increase in voter registration through improved access to the registration process, reduction in provisional ballots and shorter lines at polling places due to clarity in registration status and accuracy of registration data, and improvements in record keeping for election administration offices. By requiring the Office of Elections to join the Electronic Registration Information Center, this measure will help the State to realize the same benefits reported by states that are already members.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Office of Elections to authorize the electronic transmission of databases containing driver's license and civil identification card information to election officials and the statewide voter registration system;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2444, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2444, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2190 Judiciary and Labor on S.B. No. 2551

The purpose and intent of this measure is to require the Judiciary to submit an annual report to the Legislature regarding certain information of each non-general fund account of the Judiciary.

Your Committee received testimony in support of this measure from the Judiciary and Office of the Auditor.

Your Committee finds that existing law requires executive branch departments to submit annual reports to the Legislature regarding each department's management of non-general funds. This measure applies the same requirement to the Judiciary to enable the Legislature to make better state budgetary decisions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2551 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2191 (Majority) Judiciary and Labor on S.B. No. 2445

The purpose and intent of this measure is to exempt candidates who are already declared elected to office after running unopposed in an election from the prohibition on using election campaign funds to make charitable donations and to award scholarships until the general election.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that candidates are prohibited from using campaign funds for certain purposes, such as making charitable donations and awarding scholarships, from the filing of nomination papers to the general election, presumably because these uses may be interpreted as attempts to buy votes. This measure provides candidates who become elected to office prior to a general election the opportunity to use campaign funds for purposes of making charitable donations or awarding scholarships, as they no longer need to acquire votes to prevail in the election.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2445 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Thielen). Excused, 1 (Slom).

SCRep. 2192 Human Services on S.B. No. 2018

The purpose and intent of this measure is to amend the law relating to human services.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to establish a program within the Department of Human Services to assist homeless individuals who suffer from multiple chronic diseases find housing opportunities in the community and to obtain federal moneys to implement and carry out the program.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2018, as amended herein, and recommends that it be recommitted to your Committee on Human Services, in the form attached hereto as S.B. No. 2018, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2193 Ways and Means on S.B. No. 2553

The purpose and intent of this measure is to repeal and abolish certain non-general funds and accounts of the Department of Human Services, as recommended by the Auditor in Report No. 15-19.

Specifically, this measure repeals or abolishes the:

- (1) Child Care Licensing and Registration Special Fund;
- (2) Housing Project Bond Special Funds;
- (3) Blueprint for Change Program Special Fund;
- (4) Costs Related to Homeless Assistance Special Fund;

- (5) Hale Mahaolu Special Fund;
- (6) Hawaii Immigrant Health Initiative Program Special Fund;
- (7) Outreach Services Special Fund;
- (8) Outreach Services to Locate Uninsured Children Special Fund;
- (9) Outstationed Eligibility Worker Services Special Fund;
- (10) Shelter Plus Care Program Special Fund;
- (11) Support Domestic Violence Shelters Statewide Special Fund;
- (12) Financial Assistance for Housing Special Fund;
- (13) Department of Human Services Homeless Trust Fund;
- (14) Geist Foundation Trust Account;
- (15) Kahikolu Ohana O Waianae Project Trust Fund; and
- (16) Recruitment of Foster Parents Trust Account.

Your Committee received testimony in support of this measure from the Office of the Auditor. Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, in 2015, the Auditor reviewed various non-general funds and accounts, including an evaluation of the original purpose of each fund and account and the degree to which each fund and account continues to serve its intended purpose. Your Committee further finds that the Auditor concluded that the funds and accounts repealed and abolished by this measure no longer serve their intended purpose or meet statutorily-established criteria. Accordingly, your Committee believes that it is appropriate to repeal and abolish these non-general funds and accounts and to transfer any remaining unencumbered balances to the emergency and budget reserve fund or general fund, as specified in the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2553 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Riviere).

SCRep. 2194 (Joint) Hawaiian Affairs and Judiciary and Labor on S.B. No. 2868

The purpose and intent of this measure is to lower to one-thirty-second Hawaiian the blood quantum required by a homestead lessee's husband, wife, children, grandchildren, brothers, or sisters in order to succeed to the lessee's lease.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; KA Farmers; Pana'ewa Hawaiian Home Lands Community Association; Association of Hawaiian Civic Clubs; and eighteen individuals. Your Committees also received a petition of support signed by numerous individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from one individual.

Your Committees find that as Hawaiian homestead communities age, lessees who are one-quarter Hawaiian may lose leases that have been in their family for several generations because their descendants lack the minimum blood quantum. The Department of Hawaiian Home Lands testified that it receives requests from beneficiaries to reduce the blood quantum requirement for successors. This measure would help these families retain homestead leases within their families as the amount of Hawaiian blood quantum within the family may diminish over time.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2868, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2868, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Slom).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Thielen).

SCRep. 2195 Ways and Means on S.B. No. 2552

The purpose and intent of this measure is to repeal and abolish certain non-general funds of the Department of Health, as recommended by the Auditor in Report No. 15-17.

Specifically, this measure repeals or abolishes the:

- (1) Early Intervention Trust Fund;
- (2) Early Childhood Obesity Special Fund;

- (3) Grant for Catholic Charities-Lanakila Senior Center Special Fund;
- (4) Grant for Emergency Room Subsidy at Waianae Coast Clinic Special Fund;
- (5) Grant for Hawaii Primary Care Association Dental Special Fund;
- (6) Hospital-Based Poison Center Special Fund;
- (7) Program for All Inclusive Care for Elderly Special Fund;
- (8) Resources to Nonprofit, Community-Based Health Care Special Fund;
- (9) Subsidy for St. Francis Medical Center-Bone Marrow Special Fund;
- (10) Funding for Grant Pursuant to Chapter 42F, Hawaii Revised Statutes, Special Fund;
- (11) Healthy Aging Partnerships Program Special Fund;
- (12) Partnership in Community Living Program Special Fund; and
- (13) Hilo Shippers' Wharf Committee Charitable Trust Fund.

Your Committee received testimony in support of this measure from the Office of the Auditor. Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, in 2015, the Auditor reviewed the non-general funds and accounts of the Department of Health to determine whether each fund or account continues to serve its intended purpose and meet statutory criteria. Your Committee further finds that the Auditor concluded that the funds repealed and abolished by this measure no longer serve their intended purpose or meet statutorily-established criteria. Accordingly, your Committee believes that it is appropriate to repeal and abolish these non-general funds and to transfer any remaining unencumbered balances to the general fund, emergency and budget reserve fund, or county of Hawaii, as specified in the measure.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2552, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2552, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Riviere).

SCRep. 2196 Economic Development, Environment, and Technology on S.B. No. 3012

The purpose and intent of this measure is to:

- (1) Reduce the corporate income tax rate by fifty percent; and
- (2) Beginning on January 1, 2017, allocate fifty percent of corporate income tax revenues to the operating budget of the Department of Business, Economic Development, and Tourism and fifty percent to the general fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development and Tourism and Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from Americans for Democratic Action and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that a reduction in corporate income tax will alleviate some of the costs of doing business in the State and spark economic growth. Your Committee has heard the Department of Business, Economic Development, and Tourism's testimony and finds the HI Growth Initiative to be a project that should be supported by corporate income tax revenue.

Your Committee has amended this measure by:

- (1) Reducing the corporate income tax rate by twenty-five percent, rather than fifty percent;
- (2) Deleting language that would have allocated fifty percent of corporate income tax revenues to the Department of Business, Economic Development, and Tourism; and
- (3) Inserting language to allocate \$5,000,000 of corporate income tax revenues to the HI Growth Initiative until January 1, 2022, with the remaining revenues to be deposited in the general fund.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3012, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3012, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Baker, Ihara, Keith-Agaran, Ruderman).

SCRep. 2197 Economic Development, Environment, and Technology on S.B. No. 2504

The purpose and intent of this measure is to establish a commercialization loan program, known as the Hawaii high impact loan program for commercialization (HI-impact), to support Hawaii-based small businesses in the fields of dual-use technologies, tourism-

technology, agriculture-technology, manufacturing-technology, sports-technology, finance-technology, building and construction-technology, and other cross-industry collaborations, excluding energy generation technology, within Hawaii's technology sector.

Your Committee received testimony in support of this measure from the High Technology Development Corporation; Hawaii Strategic Development Corporation; Chamber of Commerce Hawaii; Oceanit; Makai Ocean Engineering, Inc.; mbloom Ventures, LLC; and two individuals.

Your Committee finds that to be successful in the twenty-first century global economy, Hawaii must position itself as a leader in technology development, transfer, and commercialization. Although significant progress has been made by federal and state initiatives and programs administered by the High Technology Development Corporation, Hawaii Strategic Development Corporation, and Hawaii Technology Development Venture, more is required for Hawaii's technology industry to achieve local technology commercialization and success in the global marketplace.

Your Committee further finds that under the HI-impact program proposed by this measure, funding for a first investment of up to \$100,000 is adequate and funding for a second investment is unnecessary. Your Committee also notes that this measure refers to program requirements specified and parameters set by the Department of Business, Economic Development, and Tourism, although the HI-impact program is established within the Hawaii Technology Development Corporation. Your Committee recommends that your Committee on Ways and Means consider whether the High Technology Development Corporation should be the only agency developing program requirements under this measure.

Your Committee has amended this measure by:

- (1) Deleting language that would have allowed funding for a second investment;
- (2) Amending language to require the hiring of an administrator, as is consistent with the requirements of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2504, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Baker, Ihara, Keith-Agaran, Ruderman).

SCRep. 2198 Economic Development, Environment, and Technology on S.B. No. 2793

The purpose and intent of this measure is to:

- (1) Extend, until June 30, 2023, the provisions of Act 264, Session Laws of Hawaii 2013 (Act 264), which establishes deadlines for certain actions of the State and the counties relating to broadband-related permits, facilities, and weight load for utility poles; and
- (2) Extend, until January 1, 2022, exemptions from certain state and county requirements for actions relating to the installation, improvement, construction, or development of infrastructure relating to broadband service or broadband technology.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development and Tourism; Department of Commerce and Consumer Affairs Cable Television Division; Hawaiian Telcom; Hawaiian Electric Companies; Chamber of Commerce Hawaii; and Oceanic Time Warner Cable. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that improvement in the efficiencies of the broadband-related permitting process allows for greater private sector participation and increased competition in Hawaii's broadband sector. Increased broadband capacity is necessary for the State to enable rapid access to information, accelerate business development, connect first responders more efficiently, create telehealth opportunities for the healthcare industry, enhance educational resources, improve telecommunications and telecommuting, and enable smart grid technology.

Your Committee has amended this measure by removing the extension of the exemption provisions for certain actions relating to broadband infrastructure.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2793, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2793, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Baker, Ihara, Keith-Agaran, Ruderman).

SCRep. 2199 Economic Development, Environment, and Technology on S.B. No. 3011

The purpose and intent of this measure is to make an appropriation to the High Technology Development Corporation for the provision of technology internship grants and development of programs to support the local talent pipeline for the technology industry.

Your Committee received testimony in support of this measure from the High Technology Development Corporation, Chamber of Commerce Hawaii, and one individual.

Your Committee finds that the High Technology Development Corporation is a key agency in developing the technology industry in the State. Your Committee further finds that internships have proven to be an effective way to introduce talent to careers in the

technology industry and provide startup companies with resources to help them grow to the next level. Support of local talent is imperative to achieve the High Technology Development Corporation's goal of creating eighty thousand new technology and innovation jobs earning more than \$80,000 per year by 2030.

Your Committee has amended this measure by:

- (1) Reducing the internship grant cap to \$1,250 per intern and \$2,500 per company per year; and
- (2) Reducing the appropriation amount to \$125,000.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3011, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3011, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Baker, Ihara, Keith-Agaran, Ruderman).

SCRep. 2200 Ways and Means on S.B. No. 2117

The purpose and intent of this measure is to facilitate the absentee voting process by allowing:

- (1) A permanent absentee voter to temporarily receive a ballot at an alternate address within an election cycle; and
- (2) A voter to receive and return an absentee ballot by electronic transmission, if the voter requires a ballot within five days of an election or would otherwise not be able to return a ballot by the close of polls.

Your Committee received written comments in support of this measure from the Office of Elections, the County of Maui Office of the County Clerk, and the County of Kauai Office of the County Clerk.

Your Committee finds that this measure will benefit absentee voters who need to replace a spoiled ballot near the date of an election or who may have been called away, such as for a family emergency, and are unable to receive or return a ballot by mail by the close of polls on election day.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2117, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2201 Ways and Means on S.B. No. 2106

The purpose and intent of this measure is to reduce the economic obstacle that discourages or prevents victims and other witnesses in criminal cases from pursuing charges against offenders due to economic considerations.

Specifically, for criminal cases, this measure increases:

- (1) The per diem stipend amount for out-of-state witnesses, from \$145 to \$200; and
- (2) The supplemental per diem stipend amount available for a witness who must travel to another island and stay overnight, from \$90 to \$145.

Your Committee received written comments in support of this measure from the City and County of Honolulu Department of the Prosecuting Attorney.

Your Committee finds that an economic barrier has emerged that discourages victims and other witnesses from pursuing charges against offenders because the per diem stipend amount for out-of-state witnesses and witnesses required to travel to a different island and stay overnight has not been adjusted to Hawaii's present cost of living. For example, many out-of-state witnesses must pay out of pocket for their necessary expenses such as food or lodging when subpoenaed to return to the State in state court proceedings. Your Committee further finds that increasing these per diem stipends will reduce this economic barrier and encourage victims and other witnesses to pursue charges against offenders.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2106 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2202 Ways and Means on S.B. No. 2540

The purpose and intent of this measure is to expedite the development or expansion of a forensic facility at the Hawaii State Hospital by authorizing the Governor to negotiate directly with any person to construct the facility.

This measure also provides for an extended review and comment period for an environmental assessment or environmental impact statement.

Your Committee received written comments in support of this measure from the Department of Health. The Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO submitted written comments on the measure.

Your Committee finds that the Hawaii State Hospital has experienced overcrowding for many years, and the Department of Health expects the continued increase of high-risk forensic patient admissions for the foreseeable future. The Hawaii State Hospital master

plan, which was originally completed in 2005 and updated in 2015, includes the construction of a one hundred forty-four bed forensic facility to address these overcrowding issues. However, under the current timeline, the design and construction of the new facility is expected to take five to eight years, due in large part to the lengthy process of procuring services and obtaining the necessary permits. Your Committee further finds that it is in the public interest to expedite the development and construction of a new facility in view of the present census and health and safety issues at the hospital. Your Committee believes that this measure will significantly speed up the construction process to allow completion of the proposed facility considerably sooner than under the present timeline.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2540 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2203 Ways and Means on S.B. No. 2114

The purpose and intent of this measure is to increase from \$1,000 to \$10,000 the fine for providing false information when registering to vote prior to election day at an absentee polling place or on the day of an election at the individual's polling place.

Your Committee received written comments in support of this measure from the Office of Elections and Common Cause Hawaii.

Your Committee finds that increasing the fine for providing false information when registering to vote at an absentee polling place or on the day of an election will further deter individuals from providing false information on a voter registration affidavit and help protect the integrity of elections in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2114, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2204 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 2872

The purpose and intent of this measure is to require the Department of Human Services to establish minimum health and safety requirements for child care providers, including authorization of background checks on applicants, household members, employees, and prospective employees of licensed and registered child care homes and facilities.

Your Committees received testimony in support of this measure from the Department of Human Services and Hawaii Children's Action Network. Your Committees received comments on this measure from the Civil Beat Law Center for the Public Interest.

Your Committees find that this measure will align state law with the requirements of Public Law 113-186, enacted in November 2014, which makes significant changes to Child Care and Development Block Grant requirements to better protect children served under the grant. The Department of Human Services' Child Care Connect Hawaii child care subsidy program is federally funded through the grant, and Hawaii received a grant allocation of over \$20,000,000 in fiscal year 2015. Failure to pass this measure would jeopardize the grant award, as the Department of Human Services will lack the authority to implement the requirements of Public Law 113-186.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2872, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2872, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2205 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 2213

The purpose and intent of this measure is to continue the nursing facility sustainability program for fiscal year 2016-2017.

Your Committees received testimony in support of this measure from the Department of Human Services, Chamber of Commerce Hawaii, Hawaii Primary Care Association, Healthcare Association of Hawaii, and The Queen's Health Systems.

Your Committees find that Medicaid patients comprise the majority of nursing facilities' patient population. In recognition of the fact that Medicaid reimbursements are below the actual costs of care, the Legislature enacted the nursing facility sustainability program in 2012 to supplement Medicaid reimbursements to long-term care facilities by assessing a fee on certain long-term care facilities, using funds from the fees to obtain additional federal monies, then distributing those monies to the long-term care facilities based on utilization of services by Medicaid patients. The nursing facility sustainability program has successfully helped Hawaii's nursing facilities offset losses, and this measure will enable the program to continue supporting the crucial services provided by these facilities.

Your Committees find that sustaining nursing facilities statewide is crucial for continued access to resources needed by the residents of Hawaii. A sustainable hospital network and health care industry is vital to the health of Hawaii's residents. Your Committees also find that Medicaid payments are below the actual costs of care and the nursing facility sustainability program increases Medicaid payments to nursing facilities. The nursing facility sustainability program has helped Hawaii nursing facilities to offset some of the losses they incur taking care of the most underserved.

Your Committees have amended this measure by:

(1) Deleting an amendment to Act 156, Session Laws of Hawaii 2012, section 5, as amended, that would have changed the repeal date of certain amendments to section 36-30(a), Hawaii Revised Statutes, to December 31, 2017; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2213, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2213, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2206 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 2396

The purpose and intent of this measure is to provide an inflationary adjustment to the methodology used to reimburse facilities for the long-term care of Medicaid recipients for fiscal year 2016-2017.

Your Committees received testimony in support of this measure from the Oahu Region Hawaii Health Systems Corporation; Oahu Nursing Rehab Center; Hale Makua Health Services; Healthcare Association of Hawaii; Nuuanu Hale; Ohana Pacific Management Company, Inc.; Palolo Chinese Home; The Arc in Hawaii; and four individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that long-term care facilities face major financial challenges in providing quality health care for Hawaii residents. In many long-term care facilities in Hawaii, Medicaid patients comprise 70 to 80 percent of the facilities' patients, and Medicaid reimbursements do not cover the actual costs of care for these patients. Since Hawaii has the fastest-aging population in the nation, funding for long-term care facilities is crucial to help seniors maintain access to services they desperately need.

Your Committees have amended this measure by:

- (1) Removing language stating that the cost increase shall only apply for fiscal year 2016-2017;
- (2) Inserting an appropriation to the Department of Health for \$1,900,000 to reimburse facilities for the long-term care of Medicaid patients;
- (3) Inserting a repeal date of June 30, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2396, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2396, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2207 (Joint) Transportation and Energy and Water, Land, and Agriculture on S.B. No. 3088

The purpose and intent of this measure is to authorize construction of small hydropower facilities as defined by the United States Department of Energy in a manner that combines clean energy infrastructure and irrigation for agricultural lands.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation, Ulupono Initiative, Hawai'i Farm Bureau Federation, and Hawaii Cattlemens Council. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the development of hydroelectric energy-generating facilities in Hawaii is vital to the energy security and energy independence of the State. Increased use of renewable energy resources will achieve broad societal benefits, including resistance to oil price increases, environmental sustainability, economic development, and job creation.

Your Committees further find that while Hawaii's agricultural land is a fundamentally important and diminishing resource that is pivotal to the State's initiatives in food security, hydroelectric facilities may be located on agricultural lands in a manner that promotes food and energy security.

Your Committees have amended this measure by:

- (1) Clarifying that hydroelectric facilities shall be required to be an accessory to agricultural activity on agricultural land for agricultural use; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3088, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3088, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 7. Noes, none. Excused, none.

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Wakai).

SCRep. 2208 (Joint/Majority) Transportation and Energy and Water, Land, and Agriculture on S.B. No. 2653

The purpose and intent of this measure is to increase the amount of the environmental response, energy, and food security tax revenues that are to be deposited into the energy security special fund and the agricultural development and food security special fund.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawaii Natural Energy Institute, Hawaii Farm Bureau Federation, Hawaii Energy Policy Forum, Sierra Club of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; and Tax Foundation of Hawaii. Your Committees received testimony in opposition to this measure from the Chamber of Commerce of Hawaii and Building Industry Association of Hawaii.

Your Committees find that there is a growing public sentiment that as an island state, Hawaii is precariously dependent on imported food and energy. This measure will help create a greater funding base to foster increased energy and food independence.

Your Committee has amended this measure by:

- (1) Changing the amount to be deposited into the energy security special fund to an unspecified amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2653, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2653, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 6. Noes, 1 (Slom). Excused, none.

Water, Land, and Agriculture: Ayes, 4. Noes, 1 (Slom). Excused, 4 (Dela Cruz, Riviere, Ruderman, Wakai).

SCRep. 2209 (Joint) Transportation and Energy and Water, Land, and Agriculture on S.B. No. 2367

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds for Hawaii Renewable Resources, LLC, to own, design, build, and operate a project located on agricultural lands on central Oahu for a material reprocessing facility to recover organic materials, food manufacturing waste, green crop waste, and farm crop harvest waste and to process that waste into renewable energy for agricultural purposes.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation; Renewable Energy Action Coalition of Hawaii; and Hawaii Renewable Resources, LLC. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the development of local sustainable food production and the use and production of renewable energy systems continues to be in the public interest. Hawaii Renewable Resources, LLC, is a Hawaii company offering sustainable solutions for the production of food and renewable energy from the conversion of recovered food and green agricultural crop resources.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2367 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 7. Noes, none. Excused, none.

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Wakai).

SCRep. 2210 (Joint) Water, Land, and Agriculture and Commerce, Consumer Protection, and Health on S.B. No. 2513

The purpose and intent of this measure is to appropriate funds to support three additional inspector positions on the island of Oahu within the Department of Agriculture's Pesticides Branch.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Hawai'i Center for Food Safety, and nine individuals.

Your Committees find that many Hawaii residents are concerned that there is insufficient oversight of restricted use pesticides, particularly on the island of Oahu. Your Committees find that to address public concerns, and in the interest of public health, safety, and welfare, it is of utmost importance that the Department of Agriculture has the proper funding to ensure there are a sufficient number of pesticide inspectors to properly administer and regulate restricted use pesticides in accordance with the Hawaii Pesticides Law. Your Committees further find that additional pesticide inspectors on Oahu will help bolster the enforcement capacity to respond to pesticide odor complaints, conduct investigations in a timely manner, and regulate the use of restricted use pesticides and the sale, transport, and use of general use pesticides.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2513 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 7. Noes, none. Excused, 2 (Ruderman, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2211 Judiciary and Labor on S.B. No. 3038

The purpose and intent of this measure is to:

- (1) Create a temporary program to provide additional benefits to unemployed workers by extending their unemployment insurance benefits under certain conditions; and
- (2) Appropriate funds to the Department of Labor and Industrial Relations for the purposes of this measure.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii State AFL-CIO; and United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committee finds that public employees who are displaced through privatization or the closure of a state or county facility frequently face excessive economic hardship. Displaced employees may have only a few years of creditable service or be close to retirement but still need additional years of service. Your Committee recognizes the need to address the complexity of displaced employees who are at different life stages and the associated economic hardship. As raised in testimony, economic trends are unpredictable, and limiting the applicability of the temporary program will allow the Department of Labor and Industrial Relations to implement the temporary program to provide additional benefits to unemployed workers.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to require unemployed individuals to enroll in an approved training or retraining course to be eligible for additional unemployment insurance benefits under the temporary program;
- (2) Inserting language to limit the applicability of the temporary program to counties with a population less than 200,000;
- (3) Inserting language to eliminate the temporary program if the balance of the unemployment compensation trust fund is below the adequate reserve fund;
- (4) Amending section 1 to reflect the amended purposes of this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3038, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3038, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Slom).

SCRep. 2212 Judiciary and Labor on S.B. No. 3000

The purpose and intent of this measure is to establish a retirement benefit incentive for public employees, otherwise eligible to retire, whose positions are subject to layoff due to the consolidation or abolition of functions, or the privatization of the functions of the position.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and two individuals. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that public employees whose positions are subject to layoff due to the consolidation or abolition of functions, or the privatization of the functions of the position, frequently face excessive economic hardship. Implementation of this measure will provide meaningful financial support to public employees who lose their jobs out of no fault of their own.

Your Committee has amended this measure by:

- (1) Inserting a sunset date of July 1, 2018;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee recognizes that public employees who are just a few years away from being eligible for retirement also face economic hardship when there are layoffs. Your Committee finds that if this measure is considered for passage by your Committee on Ways and Means, that the committee further examine the issue of service and age eligibility as it pertains to this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3000, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3000, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2213 Housing on S.B. No. 2509

The purpose and intent of this measure is to:

- (1) Establish a seven-year limit on tenants in state low-income housing projects;
- (2) Prohibit state low-income housing units from being passed along from one tenant to another; and

- (3) Require unemployed tenants of state low-income housing to perform community service or enroll in classes in order to remain eligible for tenancy.

Your Committee received comments on this measure from the Coordinator on Homelessness under the Office of the Governor and Hawaii Public Housing Authority.

Your Committee finds that there are over 13,000 individuals on the statewide public housing waitlist. Because the turnover rate in public housing in the State is about four percent annually, it may take up to five years for individuals to move in to public housing. By addressing the issue of multigenerational public housing, this measure encourages individuals to move out of public housing to make room for other individuals, including people experiencing homelessness.

Your Committee has amended this measure by:

- (1) Deleting language that would have established a seven-year limit on tenants in state low-income housing projects;
- (2) Amending language to allow the Hawaii Public Housing Authority to require tenants of state low-income housing projects who are unemployed or not enrolled in at least ten hours of classes per month to perform at least twenty hours of community service per month in order to remain eligible for tenancy;
- (3) Inserting language to exempt elders and individuals with a disability from community service and class enrollment requirements in order to remain eligible for tenancy in state low-income housing projects; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2509, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Green). Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 2214 Government Operations on S.B. No. 3092

The purpose and intent of this measure is to authorize procurement officers to permit, after bid opening, clarification of a listed subcontractor's scope of work and consider a previously licensed and listed subcontractor's license as valid; provided that certain conditions are satisfied.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii; Alan Shintani, Inc.; Genba Hawaii, Inc.; Healy Tibbitts Builders, Inc.; Jayar Construction, Inc.; Ralph S. Inouye Co., Ltd.; Robert M. Kaya Builders, Inc.; S & M Sakamoto, Inc.; and TOMCO CORP. Your Committee received testimony in opposition to this measure from the State Procurement Office, Board of Water Supply of the City and County of Honolulu, Subcontractors Association of Hawaii, Electrical Contractors Association of Hawaii, Hawaii Electricians Market Enhancement Program Fund, International Brotherhood of Electrical Workers Local Union 1186, and Plumbing and Mechanical Contractors Association of Hawaii.

Your Committee finds that the delivery and award of public works construction projects can be hindered by bid challenges pertaining to subcontractor-related issues. As a result, major delays can occur and costs increase.

Your Committee further finds that there is often very limited time between the receipt of subcontractor bids and the bid deadline, creating challenges for prime contractors to complete the forms required for a public works bid proposal.

Accordingly, your Committee has amended this measure by:

- (1) Eliminating language authorizing procurement officers to permit, after bid opening, clarification of a listed subcontractor's scope of work;
- (2) Inserting language to require subcontractors to submit a time stamped offer to a contractor two hours before the established bid deadline; provided that a subcontractor that does not comply with the two hour requirement is disqualified from consideration; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3092, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

SCRep. 2215 Government Operations on S.B. No. 2501

The purpose and intent of this measure is to:

- (1) Require a bidder's past performance on projects of similar scope for public agencies, including delays, number of contract change orders, contract extensions, cost overruns, corrective actions, responses to notices of deficiencies, and assessments of the bidder's prior work, to be factored into future bid selection of a contractor;
- (2) Define "past performance" to mean available recent and relevant performance of a contractor on government contracts to be considered as a responsibility determination relevant to a current solicitation;
- (3) Require past performance to be considered in sole source procurement; and

- (4) Appropriate funds to the State Procurement Office for the purposes of this measure.

Your Committee received testimony in support of this measure from the Department of Transportation and State Procurement Office. Your Committee received testimony in opposition to this measure from American Institute of Architects. Your Committee received comments on this measure from the General Contractors Association of Hawaii, Electrical Contractor's Association of Hawaii, Subcontractors Association of Hawaii, and American Council of Engineering Companies.

Your Committee finds that a contractor can potentially expose the State to liability for faulty work and cost the State more money due to the need for corrective work. State contracts may be awarded to the lowest bidder through the invitation for bid process without regard to poor past performance, which may result in repeated inefficient or substandard work. Implementation of this measure will develop a record of responsible contractors and increase accountability in the performance of the State's procurement contracts.

Your Committee has amended this measure by:

- (1) Amending the definition of "past performance" to include legal action;
- (2) Amending bid evaluation criteria to be considered by deleting delays, number of contract change orders, contract extensions, cost overruns, corrective actions, and responses to notices of deficiencies; and inserting notices of deficiencies, legal actions, failure to complete a procurement contract, and assessments of the bidder's prior work;
- (3) Deleting section 5 relating to using prior performance in the selection criteria for the procurement of professional services;
- (4) Inserting language requiring a department that issues a request for proposal to evaluate the work and performance of the respective contractors upon the completion of the procurement contract and maintain the evaluations in the department's files; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2501, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2501, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

SCRep. 2216 Government Operations on S.B. No. 2293

The purpose and intent of this measure is to:

- (1) Require a board to file the board packet in the board's office for public inspection at the time the agenda is filed or when the board packet is distributed, whichever is earlier, and provide copies of the board packet to persons requesting notification pursuant to section 92-7(e), Hawaii Revised Statutes;
- (2) Amend the declaration of policy and intent of chapter 92, Hawaii Revised Statutes, to include the facilitation of public participation and input;
- (3) Require boards to afford all interested persons an opportunity to view, either electronically or in hard copy, documents, reports, and proposals under consideration at the meeting at the time the agenda is made available to the public;
- (4) Require the posting of a notice on the state or appropriate county websites, within six calendar days before the meeting; provided that a printout of the electronic time-stamped agenda shall be conclusive evidence of the electronic posting date;
- (5) Exempt emergency meetings held by a board from the six calendar day filing and electronic posting requirement;
- (6) Authorize the electronic mailing and posting of meeting notices; and
- (7) Require that board minutes, including video or sound recording, to be publicly posted on the board's website, or if the board does not have a website, a designated website maintained by the State or appropriate county and shall be available within thirty days after the meeting, regardless of whether the board has formally reviewed or approved the minutes.

Your Committee received testimony in support of this measure from the Land Use Commission, Common Cause Hawaii, League of Women Voters, Civil Beat Law Center for the Public Interest, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission. Your Committee received comments on this measure from the Office of the Lieutenant Governor, Department of Land and Natural Resources, Office of Information Practices, Employees' Retirement System, Hawaii Association of the Blind, Hawaii Employer-Union Health Benefits Trust Fund, and one individual.

Your Committee finds that this measure updates the open meetings law by recognizing and incorporating modern communication technologies, including the Internet and electronic mail. Implementation of this measure will improve efficiency and promote government transparency by increasing public access to information regarding public meetings and hearings.

Your Committee has amended this measure by:

- (1) Requiring a board to file the board packet in the board's office for public inspection only when the board packet is distributed to board members, rather than at the time the agenda is filed;
- (2) Deleting section 2, amending the declaration of policy and intent of chapter 92, Hawaii Revised Statutes;
- (3) Inserting language to clarify that a board shall provide access to either an electronic or a hard copy of a board packet to persons requesting notification;

- (4) Requiring boards to afford all persons an opportunity to view, either electronically or in hard copy, documents, reports, and proposals under consideration at the meeting at the time the board packet is made available to the board members, rather than at the time agenda is made available to the public;
- (5) Eliminating the requirement that video or sound recordings of meetings made by the board be publicly posted;
- (6) Requiring that if the minutes are not publicly posted and available for access within thirty days of the meeting, the board shall be prohibited from meeting again until the minutes are posted and a new meeting notice is posted within six calendar days prior to a subsequently scheduled meeting; provided that if there is a dispute as to whether minutes were timely posted, a printout of the electronic time-stamped minutes shall be conclusive evidence of the electronic posting date; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2293, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2293, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2217 Government Operations on S.B. No. 2249

The purpose and intent of this measure is to:

- (1) Require the Department of Accounting and General Services to consult with appropriate stakeholders and develop a comprehensive Wailuku state office master plan to address the shortage of space in the Wailuku state office building and old courthouse building;
- (2) Appropriate funds to the Department of Accounting and General Services for the Wailuku state office master plan; and
- (3) Appropriate funds to the Department of Accounting and General Services for the purchase of certain other properties in or near Wailuku.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that there is a shortage of state managed office space. The Department of Accounting and General Services is currently exploring solutions and has a three-phase program, which includes the Wailuku district in Maui, to develop a statewide master plan. Implementation of this measure will assist in addressing the shortage of space in Wailuku and funding efforts to revamp the Wailuku state office building and old courthouse building to reduce the shortage of space.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2249, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2218 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2149

The purpose and intent of this measure is to establish a working group to review and discuss Hawaii's forfeiture laws and make recommendations to improve those laws to better fit their intended purpose.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney for the City and County of Honolulu, Department of the Prosecuting Attorney for the County of Maui, Office of the Prosecuting Attorney for the County of Hawaii, Honolulu Police Department, and one individual. Your Committee received testimony in opposition to this measure from the Drug Policy Forum of Hawaii.

Your Committee finds that asset forfeiture is a highly specialized mechanism that is grounded in civil law, but closely related to criminal law. The intent of asset forfeiture laws are to remove the products or proceeds of crime from the community, while also depriving the owners of those products or proceeds if the owners knew that the property was connected to criminal activity. News stories concerning abuses of asset forfeiture have recently brought this issue to the attention of the public. Your Committee finds that a working group representing a broad spectrum of parties who are experienced in or impacted by asset forfeiture or asset forfeiture laws is the best way to examine asset forfeiture laws in Hawaii and make recommendations on how those laws could better suit their intended purpose.

Your Committee has amended this measure by:

- (1) Adding representatives from the American Civil Liberties Union, Drug Policy Forum of Hawaii, and Office of the Public Defender to the working group; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2149, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as S.B. No. 2149, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2219 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2813

The purpose and intent of this measure is to allow for the information from adult guardianship appointment orders to be reported to the National Instant Criminal Background Check System.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that there is a need to ensure that those who are mentally incapacitated do not have the opportunity to possess a firearm. Under existing laws, neither firearms sellers nor police have any way to know if a person has been appointed a guardian as an adult. This measure will allow guardianship appointment information to be shared with the National Instant Criminal Background Check System and disclosed to local law enforcement for the purposes of firearms permitting and registration.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2813, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2813, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2220 Commerce, Consumer Protection, and Health on S.B. No. 2887

The purpose and intent of this measure is to amend the definition of “developmental disabilities” in section 333F-1, Hawaii Revised Statutes, to include children from birth to age nine who have a substantial developmental delay or specific congenital or acquired condition and without services and supports, have a high probability of meeting criteria for developmental disabilities later in life.

Your Committee received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, Hawaii Children’s Action Network, and one individual.

Your Committee finds that pursuant to House Concurrent Resolution No. 14 adopted in 2014, the Department of Health established a task force to review Hawaii’s statutory definition of “developmental disabilities”. The task force found that the federal definition of “developmental disabilities” was revised in 2000 to include infants and young children with substantial developmental delays or specific congenital or acquired conditions, where due to their age, functional criteria that are used for adolescents and adults could not be reliably applied to infants and young children. Because Hawaii’s current statutory definition of “developmental disabilities” requires that an individual have three or more functional limitations in major life activities, the definition can exclude infants and young children from receiving necessary services. This measure aligns the state definition with the federal definition and enables the Department of Health to serve infants and young children through early intervention and supports.

Your Committee has amended this measure by:

- (1) Changing the format of the amendment to the definition of “developmental disabilities” to ensure that the amendment applies to the entire definition; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2887, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2887, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2221 Commerce, Consumer Protection, and Health on S.B. No. 2619

The purpose and intent of this measure is to require a holder of unclaimed property to:

- (1) Provide documentation in its report to the Director of Finance that the holder exhausted all known last contact information, including postal or electronic mailing address and telephone number, of the apparent owner; and
- (2) Contact the apparent owner via mail, electronic mail, or telephone no more than six months prior to the holder submitting a report to the Director of Finance.

Your Committee received testimony in support of this measure from the Department of Budget and Finance. Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association and Hawaii Credit Union League.

Your Committee finds that this measure proposes to enhance the steps a holder of unclaimed property must take before such property is reported to the State. However, your Committee has heard the concerns that the proposed requirement for holders of unclaimed property to provide specific documentation to the Director of Finance that the holder exhausted all known last contact information for apparent owners may be overly burdensome on financial institutions. According to testimony from the Hawaii Bankers

Association, financial institution customers may not provide electronic mail addresses or telephone numbers or may not update this information when there is a change. Your Committee understands these concerns and believes that a statement to the Department of Budget and Finance that a holder has complied with contact requirements may be less onerous than specific documentation.

Your Committee further finds that according to testimony heard by your Committee, each financial institution has its own process for escheating unclaimed property to the State. Your Committee concludes that a standard process for contacting apparent owners, which requires holders of unclaimed property to attempt to contact apparent owners in various ways prior to escheating this property to the State, would be beneficial to consumers in Hawaii. Your Committee notes that once unclaimed property has escheated to the State, it is very difficult for consumers to have their property returned.

Accordingly, your Committee has amended this measure by:

- (1) Requiring a holder of unclaimed property to submit a statement to the Director of Finance that the holder has complied with requirements for contacting an apparent owner, rather than requiring a holder to submit documentation about exhausting all known last contact information of an apparent owner;
- (2) Clarifying that the holder of property valued at \$50 or more and presumed abandoned shall provide notice to an apparent owner by postal address, last known electronic mail address, if known, or last known telephone number, if known; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2619, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2619, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2222 Commerce, Consumer Protection, and Health on S.B. No. 2544

The purpose and intent of this measure is to establish a sliding scale based upon the average annual count of covered employees for the biennial renewal fees for professional employer organizations.

Your Committee received testimony in support of this measure from ALTRES, Inc. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that the Department of Labor and Industrial Relations, which administers the State's professional employer organization law, has stated that there are forty-nine registered professional employer organizations in Hawaii. However, with the exception of two \$13,000 appropriations in fiscal years 2014 and 2015, the Department receives no funding to administer the professional employer organization program. According to testimony from the Department, the biennial cost to establish and administer this program is conservatively estimated at \$300,322. This measure seeks to set the fees imposed upon professional employer organizations at amounts sufficient to entirely fund the cost to regulate professional employer organizations in the State.

Your Committee has heard the concerns that the Department of Labor and Industrial Relations is unable to set an annual biennial renewal fee for professional employer organizations based on an average annual count of covered employees per professional employer organization, as proposed by this measure. The professional employer organization law does not require, nor does the Department possess, employee counts from professional employer organizations. Your Committee finds that a biennial renewal fee based on a count of covered employees reported to the Department is more appropriate than requiring the Department to estimate the per employee fee charged to a professional employer organization.

Accordingly, your Committee has amended this measure by:

- (1) Requiring every professional employer organization to report to the Department of Labor and Industrial Relations the total number of covered employees who worked any hours during a one year period, no later than June 1 of every year;
- (2) Specifying that the biennial renewal fee shall be based upon the count of covered employees as follows:
 - (A) \$6.00 per employee, for professional employer organizations with less than 50 covered employees;
 - (B) \$7.00 per employee, for professional employer organizations with 50 to 250 covered employees;
 - (C) \$8.00 per employee, for professional employer organizations with 251 to 500 covered employees; and
 - (D) \$9.00 per employee, for professional employer organizations with 501 or more covered employees; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2544, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2544, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2223 Commerce, Consumer Protection, and Health on S.B. No. 2176

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2017, establish the Hawaii Medical Marijuana Oversight Committee to monitor, evaluate, and make recommendations regarding the implementation of the use, cultivation, and dispensing of medical marijuana and the overall Hawaii medical marijuana program; and
- (2) Require the committee to submit a report of its findings to the Senate Committee on Commerce, Consumer Protection, and Health and House of Representatives Committee on Health at least twenty days prior to the convening of each regular session until the committee ceases to exist on July 1, 2022.

Your Committee received testimony in support of this measure from the Department of Transportation; Drug Policy Forum of Hawai'i; Drug Policy Action Group; Effective Change, LLC; The CHOW Project; and eighteen individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Department of Health and two individuals.

Your Committee finds that chapter 329, part IX, Hawaii Revised Statutes, was enacted to create a state medical use of marijuana law and exemption from criminal sanctions. Furthermore, chapter 329D, Hawaii Revised Statutes, was enacted to establish medical marijuana dispensaries that may begin operations in July 2016. As Hawaii expands its medical marijuana program through the use of highly regulated and monitored dispensaries and more patients are anticipated to consider medical marijuana as a viable treatment, a collaborative commission that brings together numerous stakeholders will create a forum for input to improve the medical marijuana system in the State.

Your Committee has amended this measure by:

- (1) Changing references from the "Hawaii medical marijuana oversight committee" to the "Hawaii medical marijuana oversight commission";
- (2) Amending the composition of the commission by:
 - (A) Removing the Director of Public Safety or the Director's designee and one physician from the commission;
 - (B) Adding the Executive Director of the Drug Policy Forum of Hawaii, or the director's designee;
 - (C) Adding a representative from University of Hawaii College of Tropical Agriculture and Human Resources;
 - (D) Adding a representative from the Medical Cannabis Coalition of Hawaii; and
 - (E) Adding a representative from the American Civil Liberties Union;
- (3) Inserting language to allow the chairperson of the commission to add additional members with expertise under certain conditions; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2176, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2176, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2224 Commerce, Consumer Protection, and Health on S.B. No. 2865

The purpose and intent of this measure is to remove statutory language that imposes a moratorium on the collection of real estate license renewal fees if the balance in the real estate education fund exceeds \$1,200,000 at the end of any fiscal biennium.

Your Committee received testimony in support of this measure from the Real Estate Commission.

Your Committee finds that the Real Estate Commission (Commission) has a statutory mandate to protect the general public in its real estate transactions. Toward this end, the real estate education fund was established in 1967 to sustain the Commission's operations and advance real estate education and research in the State. The Commission administers and expends monies in the real estate education fund to support comprehensive educational and research programs for the benefit of the public and those licensed under chapter 467, Hawaii Revised Statutes, relating to real estate brokers and salespersons.

Your Committee further finds that the vast majority of the Commission's real estate education fund operating budget is received at the beginning of the year following a license renewal year. Renewal years occur every even-numbered year, and the renewal fees collected must sustain operations for two years, until the next license renewal cycle. If the statutory ceiling on the real estate education fund is reached and a moratorium is imposed, the real estate education fund operational budget must continue to fund programs for four years, rather than the typical two year period.

According to testimony from the Commission, although the Commission has over \$700,000 currently in the real estate education fund, the Commission projects the fund may hit its cap in 2018. After further discussion with the Commission, your Committee is persuaded that the Commission needs the flexibility and means to carry out its educational purposes without the statutory limitation attached to the real estate education fund. Failure to remove the statutory limitation now may prevent the Commission from being able to collect fees and fund programs in furtherance of its statutory mandate.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2865 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Baker, Espero, Kidani, Nishihara). Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2225 Commerce, Consumer Protection, and Health on S.B. No. 2394

The purpose and intent of this measure is to:

- (1) Require annual influenza vaccinations for hospital health care workers whose work involves contact with patients or contaminated materials; and
- (2) Establish exemptions for influenza vaccination requirements under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation; Hawai'i State Center for Nursing; Hawaii Immunization Coalition; Healthcare Association of Hawaii; Hawaii Pacific Health; Chamber of Commerce Hawaii; Walgreen Co.; Ohana Pacific Management Company, Inc.; Wilcox Memorial Hospital; American Academy of Pediatrics; Straub Clinic & Hospital; Pali Momi Medical Center; Kapi'olani Medical Specialists; and two individuals. Your Committee received testimony in opposition to this measure from the National Vaccine Information Center; Hawaii Nurses Association, OPEIU Local 50; and sixty-nine individuals. Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that as influenza season is associated with high census in hospitals, it is critical for health care workers in hospitals who have contact with patients or contaminated materials to stay healthy. Vaccination programs help health care personnel carry out their professional duty to provide care to all patients without causing harm through influenza transmission.

Your Committee further finds that since 1981, the Centers for Disease Control and Prevention has recommended that all health care workers receive an annual influenza vaccination. Because health care professionals are looked to for guidance on good health practices, increasing the number of health care personnel in hospitals that receive the influenza vaccine sets a positive example that will encourage the community to proactively protect themselves from the flu.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2394 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2226 Judiciary and Labor on S.B. No. 2077

The purpose and intent of this measure is to:

- (1) Authorize an employee who is entitled to reduction-in-force rights under chapter 76 or 89, Hawaii Revised Statutes, and receives official notification that the employee's position is being abolished or who is directly affected by a reduction-in-force or workforce restructuring plan, including privatization, to elect to receive a voluntary severance benefit, in lieu of receiving other applicable rights; provided that the payment of voluntary severance benefits are prohibited from being paid to an employee discharged for lawful disciplinary reasons;
- (2) Authorize a vested member of the Employees' Retirement System who meets certain criteria and receives official notification that the employee's position is being abolished or who is directly affected by a reduction-in-force or workforce restructuring plan, including privatization, to elect to receive a special retirement benefit, in lieu of receiving other applicable rights; provided that the payment of special retirement benefits are prohibited from being paid to an employee discharged for lawful disciplinary reasons;
- (3) Require an employee who has received either a voluntary severance benefit or a special retirement benefit and returns to public service within two years as an employee or contractor to repay the voluntary severance benefit or the special retirement benefit;
- (4) Require department heads that provide voluntary severance benefits or special retirement benefits to transmit a report of abolished and vacated positions to the Directors of Finance and Human Resources Development;
- (5) Require the Governor to submit a report of abolished and vacated positions to the Legislature no later than twenty days prior to the convening of each regular session beginning with the Regular Session of 2017;
- (6) Require the Department of Human Resources Development and Department of Budget and Finance to develop and administer guidelines and time frames with the affected public employee unions to implement voluntary separation benefits and special retirement benefits;
- (7) Require the Department of Human Resources Development and Department of Budget and Finance to report to the Legislature on any restructuring activities initiated because of this measure no later than twenty days prior to the convening of each regular session beginning with the Regular Session of 2017; and
- (8) Authorize the Governor to provide funds to obtain matching federal monies to retrain state employees of the Executive branch who are separated from service under this measure.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and three individuals. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that public employees who are displaced through privatization or the closure of a state or county facility frequently face excessive economic hardship. Displaced employees may have only a few years of creditable service or be close to

retirement but still need additional years of service. Implementation of this measure addresses the complexity of displaced employees who are at different life stages and will decrease economic hardship associated with layoffs.

Your Committee has amended this measure by:

- (1) Defining “actuarial present value”;
- (2) Eliminating any waiver from the requirement that an employee repay the voluntary severance benefit or the special retirement benefit;
- (3) Inserting a sunset date of July 1, 2018;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2077, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2227 Education on S.B. No. 2780

The purpose and intent of this measure is to, among other things:

- (1) Authorize the State Public Charter School Commission to adopt interim rules;
- (2) Establish requirements for meeting minutes; and
- (3) Authorize charter schools to assess fees and charges for co-curricular activities.

Your Committee received testimony in support of this measure from the State Public Charter Schools Commission. Your Committee received testimony in opposition to this measure from Kamehameha Schools, Connections Public Charter School, Hawaii Academy of Arts and Science Public Charter School, Council for Hawaiian Advancement, Kua o ka La Public Charter School, and sixteen individuals. Your Committee received comments on this measure from the Hawaii Public Charter Schools Network and Office of Hawaiian Affairs.

Your Committee finds that incremental but important refinements to the statutory framework governing Hawaii’s public charter school sector are necessary. The Legislature did not intend the charter school law to include provisions for a contested case hearing between a school and its authorizer when Act 130 was enacted in 2012. The State Public Charter School Commission, as an authorizer of charter schools, is expected to oversee and regulate charter schools to ensure that they are providing a quality education and that they are being responsibly managed. For that reason, the Commission should have the authority to revoke or not renew contracts with charter schools who fail to meet the State’s expectations on how public funds are spent.

Your Committee has amended this measure by:

- (1) Removing section 1 of the measure authorizing the State Public Charter School Commission to adopt interim rules;
- (2) Clarifying that the calculation of when governing boards must post their meeting minutes shall be in calendar days;
- (3) Clarifying that revocation and nonrenewal proceedings shall be governed by section 302D-18, Hawaii Revised Statutes, and not additionally subject to chapter 91, Hawaii Revised Statutes;
- (4) Clarifying that the exemption to part I of chapter 92, Hawaii Revised Statutes, shall only apply to matters in which the State Public Charter School Commission has already rendered a decision in a public meeting; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2780, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2780, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2228 Education on S.B. No. 2595

The purpose and intent of this measure is to:

- (1) Make the early learning public prekindergarten program available to all eligible children by the 2020-2021 school year; and
- (2) Appropriate funds for the program.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Children’s Action Network, and four individuals. Your Committee received comments on this measure from the Department of Education and Executive Office on Early Learning.

Your Committee finds that prekindergarten programs are a valuable investment in Hawaii’s children which encourages student development and lays the foundation for future success. Early childhood education is particularly vital for at-risk students. Research

indicates that participation in early learning programs dramatically raises a student's likelihood of graduating high school and being employed after graduation, and reduces a student's likelihood of being incarcerated.

Your Committee has amended this measure by:

- (1) Removing the section appropriating funds for the program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2595, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2229 Education on S.B. No. 2594

The purpose and intent of this measure is to:

- (1) Establish the student loan subsidy program for teachers who teach in special education, vocational education, technical education, or career pathway programs;
- (2) Establish a student loan subsidy program special fund; and
- (3) Appropriate funds to the program.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and two individuals. Your Committee received comments on this measure from the Department of Education and Department of Budget and Finance.

Your Committee finds that recruiting and retaining teachers in Hawaii's public schools is a challenge due to the high cost of living in the State. High rates of turnover among teachers frequently forces schools to rely on long-term substitute teachers, emergency hires, or other stopgap measures. Special education and vocational education teachers are two of the highest priority areas of shortage. Your Committee further finds that teachers in Hawaii often owe considerable amounts of debt from student loans. The proposed loan subsidy program proposed in this measure could provide an incentive for teachers to remain in Hawaii's public schools.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2594, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2230 Education on S.B. No. 2593

The purpose and intent of this measure is to establish a debit card system for teachers to purchase curriculum and classroom supplies.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, IMUAlliance, and one individual. Your Committee received comments on this measure from the Department of Education and State Procurement Office.

Your Committee finds that teachers in Hawaii frequently purchase supplies and curriculum materials for their classes at their own expense. A recent study performed by the Hawaii State Teachers Association showed that forty-seven percent of teachers spent between \$250 and \$500 annually on classroom expenses. Such expenses directly benefit students and should be borne by the Department of Education, however your Committee notes that the State Procurement Code should apply to purchases made under the proposed program.

Your Committee has amended this measure by:

- (1) Replacing all references to "debit cards" with "declining balance debit cards";
- (2) Requiring that declining debit card purchases comply with the State Procurement Code; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2593, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2593, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2231 Education on S.B. No. 2592

The purpose and intent of this measure is to minimize the negative effects of standardized testing by:

- (1) Limiting student participation in standardized tests;
- (2) Prohibiting the use of standardized test scores for evaluation purposes;

- (3) Authorizing standardized testing exemptions; and
- (4) Requiring the Department of Education to provide notice of the right to opt-out of standardized testing.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, IMUAlliance, and six individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the enactment of the No Child Left Behind Act of 2001 and Race to the Top program in 2009 have forced teachers to shift their focus from teaching to testing. In a 2014 study by the National Education Association, a clear majority of teachers surveyed reported feeling considerable pressure to improve test scores. Although your Committee also notes that federal standards require a certain minimum percentage of testing, your Committee finds that such a heavy emphasis on teaching to the test has a detrimental effect on the overall effectiveness of student learning.

Your Committee has amended this measure by removing language requiring the Department of Education to provide notice of the right to opt-out of standardized testing.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2592, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2592, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2232 Education on S.B. No. 2589

The purpose and intent of this measure is to expand vocational, technical, and career pathway programs and ensure that secondary school students have the opportunity to participate in these types of programs.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, IMUAlliance, Hawaii State Teachers Association, and nine individuals. Your Committee received comments on this measure from the Department of Education and Office of the State Director for Career and Technical Education of the University of Hawai'i System.

Your Committee finds that vocational, technical, and career pathway programs can be very beneficial for students. Such programs can equip students with skills necessary for in-demand jobs within the labor market. These programs promote career readiness and decrease the risk of students dropping out of high school. Vocational, technical, and career pathway programs are historically under-emphasized in Hawaii's schools. This measure would provide the resources for those programs to expand and be more accessible to students.

Your Committee further finds that the Department of Education testified that it currently maintains career and technical education programs in forty-six public high schools and that during the 2014-2015 school year, 29,346 students were registered in at least one career and technical education course. Your Committee notes that the Department expressed its commitment to providing students with career and technical education opportunities and as such, a statutory requirement for such opportunities was unnecessary.

Accordingly, your Committee has amended this measure by:

- (1) Removing language statutorily requiring the Department of Education to implement vocational, technical, and career pathway programs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2589, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2589, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2233 (Majority) Education on S.B. No. 2586

The purpose and intent of this measure is, among other things, to:

- (1) Require the Department of Education to provide public school students with a whole child education curriculum;
- (2) Provide air conditioning in over-heated classrooms;
- (3) Decrease class size;
- (4) Provide special education teachers with additional preparation time and funding;
- (5) Establish the student loan subsidy program and special fund;
- (6) Expand vocational, technical, and career pathway programs;
- (7) Amend the factors considered by the Committee on Weights when developing the weighted student formula;
- (8) Allow remote schools and other designate schools to be allocated funds by categorical allotments rather than using the weighted student formula and allow for minimum staff at such schools;
- (9) Limit participation in standardized tests;
- (10) Prohibit the use of standardized test scores for evaluation purposes;

- (11) Authorize standardized testing exemptions;
- (12) Require the Board of Education to provide notice of the right to opt-out of standardized testing;
- (13) Require the public prekindergarten program to be available to all eligible children by the 2020-2021 school year;
- (14) Amend evaluation programs for teachers and educational officers;
- (15) Increase the general excise tax by one percent to support education; and
- (16) Make appropriations.

Your Committee received testimony in support of this measure from the University of Hawai'i at Manoa College of Education, Hawai'i Educational Policy Center, Americans for Democratic Action, Hawaii State Teachers Association, Kamehameha Schools, Hawaii Children's Action Network, Hawaii Association for the Education of Young Children, Parents for Public Schools of Hawai'i, and over one hundred ninety individuals. Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii, Hawai'i Association of REALTORS, and one individual. Your Committee received comments on this measure from the Department of Education, State Public Charter School Commission, Executive Office on Early Learning, Department of Budget and Finance, Department of Taxation, State Procurement Office, Tax Foundation of Hawaii, and Hawaii Government Employees Association.

Your Committee finds that Hawaii faces an urgent need to improve the public schools in the State. In 2015, Hawaii scored last in the nation on ACT scores, forty-eighth on the eighth grade National Assessment of Education Process reading test, and forty-sixth on the fourth grade National Assessment of Education Process reading test.

Your Committee further finds that Hawaii's schools rank last in the nation in education funding. When adjusted for cost of living, both per-pupil spending and teacher pay are the lowest in the nation. Educational facilities and staffing in Hawaii fall far below the national average. Many schools are in desperate need of air conditioning and other heat abatement measures, and numerous schools make do without filling basic staff positions, such as school librarians and school counselors. These conditions have a direct and dramatic negative impact on the present well-being of Hawaii's students and on their prospects for future success. Immediate action is required to correct the present situation.

Your Committee additionally finds that this measure will take steps to improve the situation in Hawaii's public schools for both students and teachers. In essence, this measure constitutes an investment in Hawaii's educational future and preparedness of its keiki, which will be impactful to all people of the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2586, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2586, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Dela Cruz). Noes, 1 (Riviere). Excused, 2 (Harimoto, Slom).

SCRep. 2234 (Joint) Education and Transportation and Energy on S.B. No. 3126

The purpose and intent of this measure is to:

- (1) Provide for air conditioning, heat abatement, and related energy efficiency measures at public schools by authorizing a loan from the green infrastructure loan program to the Department of Education and the Department of Budget and Finance; and
- (2) Make appropriations for expenditure of the borrowed funds, additional capital improvements, and the initial loan repayment.

Your Committees received testimony in support of this measure from the Department of Education; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Renewable Energy Action Coalition of Hawaii; Hawaii Green Infrastructure Authority; Blue Planet Foundation; and Hawaii State Teachers Association. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that overheating in school classrooms causes serious health risks to teachers and students. Air conditioning and other heat abatement measures are necessary in public school classrooms throughout the State not only to minimize health risks, but also to provide an appropriate learning environment. In order to mitigate the costs of air conditioning and heat abatement, energy efficient lighting and other energy efficiency measures will also be necessary.

Your Committees further find that, in order to have as many effective heat abatement measures as possible in place before the hottest months, this project must proceed quickly. A source of immediate funding exists in the green infrastructure loan program. Through that program, funds can be loaned to the Department of Education and the Department of Budget and Finance at affordable rates. Your Committees note that issues exist concerning repayment of the monies loaned, and also that if your Committee on Ways and Means considers this measure for passage, it is better equipped to address those issues.

Your Committees have amended this measure by:

- (1) Inserting language suggested by the Department of Business, Economic Development, and Tourism to ensure consistency with the statutorily approved uses of the green infrastructure loan program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3126, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3126, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

Transportation and Energy: Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (English, Nishihara).

SCRep. 2235 (Joint) Transportation and Energy and Water, Land, and Agriculture on S.B. No. 2369

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds for Hawaii Renewable Resources, LLC, to own, design, build, and operate a natural gas production facility on Maui that will grow energy crops to produce renewable natural gas, carbon dioxide, recovered organic composts, and recovered irrigation water.

Your Committees received testimony in support of this measure from Renewable Energy Action Coalition of Hawaii and Hawaii Renewable Resources, LLC. Your Committees received comments from the Department of Budget and Finance.

Your Committees find that the development of local sustainable food production and the use and production of renewable energy systems continues to be in the best public interest. Hawaii Renewable Resources, LLC, is a Hawaii company offering sustainable solutions for the production of food and renewable energy from the conversion of recovered food and green agricultural crop resources.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2369 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 7. Noes, none. Excused, none.

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Wakai).

SCRep. 2236 (Joint) Transportation and Energy and Judiciary and Labor on S.B. No. 2348

The purpose and intent of this measure is to clarify the content requirements for traffic abstracts.

Your Committees did not receive any testimony on this measure.

Your Committees find that this measure attempts to conform state law with federal law concerning required information in records for commercial driver licensing. Your Committees are concerned that this measure may actually require more information than is required under title 49 Code of Federal Regulations Section 384.225. Your Committees defer to your Committee on Ways and Means on this issue, should it consider this measure for passage.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2348 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 2237 Transportation and Energy on S.B. No. 80

The purpose and intent of this measure is to amend the law relating to transportation.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting language to authorize the issuance of general obligation bonds and to appropriate funds for planning and design for various improvements on Renton Road on Oahu.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80, as amended herein, and recommends that it be recommitted to your Committee on Transportation and Energy, in the form attached hereto as S.B. No. 80, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 2238 (Joint) Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3107

The purpose and intent of this measure is to appropriate funds to conduct an economic assessment on the establishment and economic viability of a small satellite launch and processing facility on the island of Hawaii.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development and Tourism; Pacific International Space Center for Exploration Systems; Honeybee Robotics; and two individuals.

Your Committees find that Hawaii has long been recognized as an ideal location for the launching of spacecraft due to its geographic location. Your Committees further find that the development of a small satellite launch and processing facility on Hawaii island has tremendous economic potential for the island of Hawaii as well as the State; however, an assessment is necessary to first determine the economic viability of such an endeavor.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3107 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 6. Noes, none. Excused, 3 (Baker, Ihara, Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

SCRep. 2239 (Joint) Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2097

The purpose and intent of this measure is to require the Department of Public Safety, Corrections Division, to conduct a water scalping feasibility study for Halawa Correctional Facility and, if funds are available, authorize development of a process design for the processing portion of the implementation of water scalping technology.

Your Committees received testimony in support of this measure from Ho'omana Pono, LLC.

Your Committees find that water scalping is a method in which wastewater is withdrawn from a trunk sewer to produce reclaimed water and return biosolids and non-reclaimable wastewater, such as brine, to the trunk sewer. Water scalping allows for wastewater to be used for secondary purposes, thereby conserving clean potable water. Your Committees further find that water scalping technology is one way the State can conserve its valuable water resources.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2097 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 6. Noes, none. Excused, 3 (Baker, Ihara, Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

SCRep. 2240 (Joint) Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2358

The purpose and intent of this measure is to require that for all state and county agency contracts that include disposal of liquid or solid waste, the statement of services performed shall include a receipt that the waste was received and disposed of at a licensed waste facility before full or partial payment is made for those contractual services.

Your Committees received testimony in support of this measure from the Department of Health; Larry Jests Farms, LLC; Kailua Neighborhood Board; and one individual. Your Committees received testimony in opposition to this measure from the Department of Accounting and General Services and General Contractors Association of Hawaii.

Your Committees find that contracted waste disposal companies are not currently required to disclose the location where liquid and solid waste is disposed. It is in the best interest of the State that solid and liquid waste be properly disposed of and not dumped where it may be a threat to health, safety, or the environment.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2358, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2358, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 6. Noes, none. Excused, 3 (Baker, Ihara, Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

SCRep. 2241 Commerce, Consumer Protection, and Health on S.B. No. 2008

The purpose and intent of this measure is to amend statutory provisions relating to quorum and voting requirements for service area boards on mental health and substance abuse.

Your Committee received testimony in support of this measure from the Department of Health and State Council on Mental Health. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that based on the attendance of service area boards on mental health and substance abuse in fiscal year 2015, many of the boards were unable to meet due to a lack of quorum, resulting in only two of the four boards holding official meetings. Redefining quorum for service area boards on mental health and substance abuse will allow the boards to deliberate and make decisions on issues affecting each county.

Your Committee has amended this measure by:

- (1) Specifying that service area boards shall be established within the Department of Health for administrative purposes; and
- (2) Inserting a reference to part I of chapter 92, Hawaii Revised Statutes, as an exception to the general rule that an affirmative vote of a majority of members present is sufficient for a service area board to act.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2008, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2242 Commerce, Consumer Protection, and Health on S.B. No. 2007

The purpose and intent of this measure is to amend the membership and quorum and voting requirements of the State Council on Mental Health.

Your Committee received testimony in support of this measure from the Department of Health; Department of Health, Adult Mental Health Division; and State Council on Mental Health.

Your Committee finds that the State Council on Mental Health has had a difficult time in meeting quorum requirements. When the State Council on Mental Health does have quorum, however, members are often rushed to approve business that has been on the agenda for several months and are unable to respond to mental health concerns in a timely manner. This measure would ensure that assigned duties of members could be completed in a timely manner and that the Council may better serve and advocate for the children and adults living with mental illness.

Your Committee has amended this measure by:

- (1) Specifying that the State Council on Mental Health shall be established within the Department of Health for administrative purposes; and
- (2) Inserting a reference to part I of chapter 92, Hawaii Revised Statutes, as an exception to the general rule that an affirmative vote by a majority of members present is sufficient for the State Council on Mental Health to act.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2007, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2007, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2243 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2412

The purpose and intent of this measure is to require each police commission to ensure that all full-time police officers receive crisis intervention training related to interaction with persons with mental disabilities.

Your Committees received testimony in support of this measure from the Department of Health; Ho'omana Pono, LLC; and three individuals. Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that the duties of police officers sometimes bring them into contact with persons with mental disabilities and homeless persons during crises or emergency situations. Such interactions require specialized techniques and approaches, and certain procedures employed by officers can exacerbate the situation and create risks to the safety of the officer and the public. Your Committees find that policies and training programs should be established to prepare officers for these situations.

Your Committees have amended this measure by adding language to require each police commission to also establish policies relating to interactions between officers and persons with mental disabilities or homeless persons and for the mandatory crisis intervention training to be consistent with the policies.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2412, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2412, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Inouye).
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2244 (Joint/Majority) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2805

The purpose and intent of this measure is to impose an E911 surcharge on prepaid wireless telecommunications service.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Department of Commerce and Consumer Affairs, Enhanced 911 Board, Hawaii State Fire Council, Maui County Police Department, Hawaii County Police Department, City and County of Honolulu Police Department, Kauai Fire Department, Oceanic Time Warner, Verizon, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association and Ho'omana Pono, LLC.

Your Committees find that the enhanced 911 fund ensures adequate funding to deploy and sustain enhanced 911 services. Currently, a monthly surcharge of 66 cents is imposed upon each communications service connection except prepaid wireless mobile phone

service. Your Committees find that prepaid mobile phone users benefit from the enhanced 911 system and should participate equally in the support of that system.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2805, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2805, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, 1 (Slom). Excused, 1 (Inouye).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, 1 (Slom). Excused, 2 (Ihara, Ruderman).

SCRep. 2245 Housing on S.B. No. 2036

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate the bond proceeds to the County of Kauai to ensure the availability of affordable rental housing on the east side of the island of Kauai.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that affordable housing is desperately needed on Kauai, especially on its east side, where the bulk of Kauai's population lives. Courtyards at Waipouli was built to satisfy an affordable housing zoning requirement to offset the impacts of the Kauai Lagoons development, now known as Hokuala. The County of Kauai has the right of first refusal to purchase the workforce units, which enables the units to be affordable to qualified families. However, if the County of Kauai does not purchase the units, and the units are allowed to be sold or rented at market rates, the County of Kauai will have eighty-two fewer units in its workforce housing inventory.

Your Committee further finds that the County of Kauai and its people will benefit if the county achieves its goal of an ever-increasing inventory of workforce housing that is affordable in perpetuity.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2036 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2246 Housing on S.B. No. 2565

The purpose and intent of this measure is to repeal the state housing sales program of the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that state public housing units should not be sold, but should remain under Hawaii Public Housing Authority ownership for rental to low-income tenants, which is a major immediate public need in Hawaii today. For at least the previous ten years, the Authority has not utilized the state housing sales program, which allows the Authority to sell units in its projects under certain conditions, and has no current plans to use the program in the future. The repeal of the housing sales program may eliminate any diversion of the Authority's attention or resources from its core mission, which is providing affordable rental housing to low-income tenants.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2565 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2247 Housing on S.B. No. 2734

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and the appropriation of funds for deposit into and expenditure from the dwelling unit revolving fund for the development of infrastructure and improvements of on-site and off-site development.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committee finds that the dwelling unit revolving fund was established pursuant to Act 105, Session Laws of Hawaii 1970, for the acquisition of real property; development and construction of residential, commercial, and industrial properties; interim and permanent loans to developers; and for the general purposes of the housing development program. Because there is a serious need to develop affordable housing in Hawaii to meet the needs of individuals and families, it is critical to fund the dwelling unit revolving fund to allow for infrastructure improvements that are needed to develop new affordable housing statewide.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2734 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2248 Housing on S.B. No. 2823

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation Board of Directors to set the salary of the Hawaii Housing Finance and Development Corporation Executive Director in an amount not to exceed the salary of the Director of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Executive Director of the Hawaii Housing Finance and Development Corporation oversees several key affordable housing programs, including the low-income housing tax credit, rental housing revolving fund, and Hula Mae single and multi-family revenue bond programs. Allowing the Hawaii Housing Finance and Development Corporation Board of Directors to adequately compensate the Executive Director will enable the Hawaii Housing Finance and Development Corporation to attract and retain an individual that will lead agency staff toward fulfilling the mission of increasing and preserving the supply of workforce and affordable housing statewide.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2823 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Slom).

SCRep. 2249 Housing on S.B. No. 2300

The purpose and intent of this measure is to:

- (1) Increase the maximum value of the low-income household renter's income tax credit to \$150 per qualified exemption for households;
- (2) Adjust the income threshold to allow households with an adjusted gross income of less than \$60,000 to claim the credit; and
- (3) For each taxable year beginning after December 31, 2016, increase the amount of the credit, income threshold amount, and minimum amount paid in rent to qualify for the credit by doubling and adjusting each amount for inflation.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Americans for Democratic Action Hawaii; PHOCUSED; Hawaii Appleseed Center for Law and Economic Justice; League of Women Voters; American Association of University Women, Hawaii; Hawaii Women's Coalition; The CHOW Project; Hawaii Children's Action Network; and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the low income-household renters credit is designed to assist many of Hawaii's low- and moderate-income families with the high cost of rent in the State. However, the credit has not been updated to address today's costs. This measure would adjust the credit and its income and rent thresholds for inflation, providing meaningful relief for renter households that struggle to pay rent.

Your Committee has amended this measure by:

- (1) Deleting the definition of "consumer price index";
- (2) Deleting language that, for each taxable year beginning after December 31, 2016, would have allowed inflationary adjustments to the low income-household renters credit, income threshold amount, and minimum amount paid in rent; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2300, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 2250 Housing on S.B. No. 2561

The purpose and intent of this measure is to:

- (1) Establish an affordable rental housing goal;
- (2) Establish a temporary special action team on rental housing to recommend actions to the Governor, Legislature, and other parties to achieve the goal; and
- (3) Appropriate funds for the special action team.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, Land Use Commission, Chamber of Commerce Hawaii, Building Industry Association of Hawaii, and one individual. Your Committee received comments on this measure from the Coordinator on Homelessness under the Office of the Governor and one individual.

Your Committee finds that for the period from 2015 to 2025, Hawaii will require an additional 64,700 housing units to meet projected long-term housing demands. Of this amount, 22,247 households of all income levels will require rental units. The lack of supply leads to higher rents for households of all income levels, leaving all tenants with less disposable income, increasing the personal stress of tenants, reducing tenant quality of life, and exacerbating the population overcrowding and homelessness problems. Given these consequences, the lack of affordable rental housing requires the concentrated attention of state government at the highest level and the establishment of specific goals related to affordable rental housing.

Your Committee has amended this measure by:

- (1) Replacing the Executive Officer of the Land Use Commission with the Director of the Office of Planning on the special action team;
- (2) Expanding the persons that the chair of the special action team shall invite to become members of the special action team to include:
 - (A) One officer or employee of each county with primary responsibilities relating to transit-oriented development, if any;
 - (B) Representatives of the for-profit housing development community;
 - (C) Representatives of the non-profit housing development community;
 - (D) The chair of the senate committee on housing as an ex officio member; and
 - (E) The chair of the house of representatives committee on housing as an ex officio member;
- (3) Adding language that requires the special action team to recommend short- and long-term actions to target rental housing development in transit-oriented development areas as a top priority; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2561, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2561, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2251 Housing on S.B. No. 2570

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2017, require the Department of Human Services to establish a rapid re-housing assistance program to move homeless families or individuals into permanent housing as quickly as possible and achieve stability in that housing;
- (2) Require the program to be designed and operated to qualify for federal emergency shelter grants; and
- (3) Appropriate funds for the establishment and operation of the rapid re-housing assistance program.

Your Committee received comments on this measure from the Coordinator on Homelessness under the Office of the Governor and Department of Human Services.

Your Committee finds that rapid re-housing initiatives help communities decrease the number of people experiencing homelessness and the amount of time households spend homeless. Rapid re-housing places an emphasis on moving individuals or families experiencing homelessness into permanent housing as quickly as possible. This measure will help individuals and families experiencing homelessness solve the practical and immediate challenges to obtaining permanent housing, while reducing the amount of time they experience homelessness.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2570, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2570, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2252 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2822

The purpose and intent of this measure is to enable the Hawaii Housing Finance and Development Corporation to develop mixed-use developments in partnership with state and county departments and agencies to create communities with housing, jobs, shops, and government services located in close proximity.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; Hawaii Housing Finance and Development Corporation; Land Use Research Foundation of Hawaii; Chamber of Commerce Hawaii; Hawaii Association of REALTORS; Building Industry Association of Hawaii; and one individual.

Your Committees find that traditional zoning and land use designations are no longer adequate to meet current development trends. Mixed-use zoning encourages smart growth and the development of compact, higher-density communities consisting of walkable areas with housing, jobs, shops, and services located within close proximity. Mixed-use developments are especially beneficial for low- and

moderate-income households because they reduce transportation costs, traffic congestion, and the number of vehicle miles traveled by community residents.

Your Committees further find that the Hawaii Housing Finance and Development Corporation is authorized to develop certain types of facilities in partnership with the Department of Education and the Department of Accounting and General Services. Expansion of this authority to other state and county governmental agencies would enable the Corporation to use its development powers in partnership with any governmental agency that holds developable land.

Your Committees have amended this measure by:

- (1) Clarifying that the Hawaii Housing Finance and Development Corporation, on its own behalf or on behalf of any federal, state, or county agency, may plan, develop, construct, and finance housing projects, including mixed-use developments in which housing is a significant component; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2822, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2822, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, 2 (Green, Taniguchi).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

SCRep. 2253 Housing on S.B. No. 2833

The purpose and intent of this measure is to increase funding for affordable rental housing development by making state low-income housing tax credits more valuable by accelerating the period during which tax credits may be claimed from ten to five years.

Your Committee received testimony in support of this measure from the Coordinator on Homelessness under the Office of the Governor; Department of Business, Economic Development and Tourism; Hawaii Housing Finance and Development Corporation; Department of Human Services; Hawaii Habitat for Humanity; Hawai'i Association of REALTORS; Catholic Charities Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the development of low-income affordable housing is necessary to address the issue of homelessness and respond to the critical shortage of housing inventory in the community. Increasing the investment attractiveness of the state low-income housing tax credits would generate more equity to finance the development of affordable rental housing projects.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2833, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2833, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Slom).

SCRep. 2254 Housing on S.B. No. 2834

The purpose and intent of this measure is to authorize the creation of regional state infrastructure improvement subaccounts within the dwelling unit revolving fund and the use of the dwelling unit revolving fund to provide loans and grants to finance regional state infrastructure improvements in areas of planned growth.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; Hawai'i Association of REALTORS; Chamber of Commerce Hawaii; and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that orderly and planned infrastructure construction is the foundation for planned population growth and desirable communities. Infrastructure construction should be coordinated and timed or phased with planned development. Adequate infrastructure to accommodate future growth would provide livable communities with a desirable quality of life, make possible strategically situated affordable housing near jobs, and allow necessary infrastructure capacity to support development.

Your Committee further finds that infrastructure capacity must be increased to accommodate higher densities in and around the transit corridor. While this problem is most evident on Oahu, the neighbor islands also suffer from lack of infrastructure capacity to accommodate future growth. It is necessary to assist all counties, in accordance with an orderly and predictable plan for increasing infrastructure capacity, to better utilize existing areas for planned growth and mitigate impacts to areas that are appropriate for growth.

Your Committee has amended this measure by:

- (1) Inserting language to include the facilitation of complete streets and smart growth improvements as infrastructure improvements for which the Hawaii Housing Finance and Development Corporation shall make grants or loans to state agencies, counties, or private developers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2834, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2834, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2255 Judiciary and Labor on S.B. No. 2294

The purpose and intent of this measure is to require agencies to exercise reasonable care in the maintenance of all government records under their control that are required to be made available for public inspection.

Your Committee received testimony in support of this measure from the 'Āina Haina Community Association. Your Committee received testimony in opposition to this measure from the Office of Information Practices.

Your Committee finds that in Molfino v. Yuen, Civ. No. 07-1-0378, 2014 (Haw. Sup. Ct. Nov. 13, 2014), the Supreme Court upheld a Circuit Court ruling that, absent a statutory requirement, a government agency does not have a duty of reasonable care with respect to maintaining government records for the purpose of public inspection. This measure amends section 92F-18, Hawaii Revised Statutes (HRS), to create a statutory requirement that government agencies exercise reasonable care in maintaining those government records open to public inspection.

Your Committee notes the concerns raised by the Office of Information Practices regarding the broad definition of a government record, liability issues when a government record is temporarily removed from its file, the standards in maintaining records, and the enforcement of this duty.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 2 and inserting the language suggested by the Office of Information Practices that proposed amendments to S.B. No. 140, H.D. 2 (Regular Session of 2015) to amend part V of chapter 92, HRS, to:
 - (A) Require each unit of government in the State and its political subdivisions to exercise reasonable care in the maintenance of all government records under its control that are required to be available for public inspection pursuant to chapter 92F, HRS;
 - (B) Create a rebuttable presumption that a unit of government in the State and its political subdivisions exercised reasonable care in its maintenance of its government records by adhering to a duly adopted records retention and destruction policy; and
 - (C) Establish damages for breaching a duty of exercising reasonable care in the maintenance of government records;
- (2) Changing the effective date from July 1, 2016, to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2294, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2294, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2256 Judiciary and Labor on S.B. No. 2837

The purpose and intent of this measure is to authorize funds for collective bargaining cost items in the agreement negotiated for employees in collective bargaining unit (11).

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Fire Fighters Association.

Your Committee finds that in December 2015, a memorandum of agreement was entered into to provide meal reimbursements for employees in collective bargaining unit (11) and their excluded counterparts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee has amended this measure by:

- (1) Inserting language that appropriates funds for the collective bargaining agreement for state officers and employees who are excluded from collective bargaining and belong to the same compensation plans as officers and employees in unit (11); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2837, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2257 Judiciary and Labor on S.B. No. 3024

The purpose and intent of this measure is to:

- (1) Reduce the appropriation under Act 151, Session Laws of Hawaii 2015, from \$130,000 to \$50,000 for the Hawaii State Ethics Commission to design and develop an electronic filing system; and
- (2) Reappropriate the savings from the electronic filing system for fiscal year 2015-2016 for vacation payouts for retiring employees of the Hawaii State Ethics Commission and a task force that may be established by the Legislature to assist and advise the Commission.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission. Your Committee received comments on this measure from the League of Women Voters of Hawaii.

Your Committee finds that the Hawaii State Ethics Commission (Commission) is working with the Office of Enterprise Technology Services (ETS) in designing and developing an electronic filing system to allow financial disclosure statements, gifts disclosure statements, travel authorization forms, lobbyist registration forms, and lobbyist expenditure reports to be filed through the Commission's website. As a result of this partnership with ETS, the Commission is realizing a savings of \$80,000 from its original appropriation of \$130,000. This measure reappropriates the savings to provide funds for other costs expected to be incurred by the Commission.

Your Committee notes the Commission's testimony that while it has recently paid approximately \$44,000 of accrued vacation to two employees who retired from state service on December 30, 2015, the Commission has budgeted for vacation payout expenses in its budgetary request under H.B. No. 2720 (Regular Session of 2016). Accordingly, the Commission testified that it does not believe that redirecting the savings from the electronic filing system for this purpose is necessary.

Your Committee further notes that the Commission supports the re-direction of funds for a task force to assist and advise the Commission. In particular, the Commission supports the establishment of a task force to examine the lobbyist laws and recommend amendments to the law. The Commission testified that the lobbyist laws under chapter 97, Hawaii Revised Statutes, are outdated and the Legislature should consider a comprehensive overhaul of the statutes.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language suggested by the Hawaii State Ethics Commission that:
 - (A) Removes language that reappropriates the savings from the electronic filing system to provide funds for vacation payouts for retiring employees; and
 - (B) Establishes the lobbyist law task force to examine the State's lobbyist laws and make recommendations to the Legislature to amend these laws, if necessary, and identifies the members of the task force; and
- (2) Inserting a blank appropriation amount to cover the expenses incurred for administering and operating the lobbyist law task force;
- (3) Inserting an effective date of January 7, 2019, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3024, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3024, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2258 Judiciary and Labor on S.B. No. 2556

The purpose and intent of this measure is to appropriate funds to the Department of Budget and Finance for the payment of the annual required contribution for the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and University of Hawaii Professional Assembly. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the Hawaii Employer-Union Health Benefits Trust Fund provides benefits to active and retired beneficiaries of the fund. Implementation of this measure will reduce the unfunded actuarial accrued liability of the fund and help ensure that fund benefits continue to be available to all beneficiaries.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2259 Commerce, Consumer Protection, and Health on S.B. No. 2854

The purpose and intent of this measure is to make numerous updates throughout the State's insurance code, including amendments relating to catastrophe reserves, coverage requirements, electronic filing and payment of premium taxes, disclosure requirements, notice for claim filers, sponsored captive insurance companies, required mental health benefits coverage, duty to respond during an examination of the Insurance Commissioner, and other housekeeping and conforming amendments.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual. Your Committee received testimony in opposition to this measure from the American Insurance Association, Property Casualty Insurers Association of America, National Association of Mutual Insurance Companies, and State Farm Insurance. Your Committee received comments on this measure from the Hawaii Insurers Council and Hawaii Medical Service Association.

Your Committee finds that this measure establishes the Hawaii Mandatory Catastrophe Reserve Act, which requires authorized insurers to establish reserve funds to pay for losses arising out of catastrophes occurring in Hawaii. However, your Committee has heard the concerns that establishing the Hawaii Mandatory Catastrophe Reserve Act could have adverse unintended consequences on the marketplace, possibly resulting in higher insurance premiums for property and hurricane insurance. According to testimony received by your Committee, no other state has adopted a similar proposal for a mandatory catastrophe reserve. Your Committee understands these concerns and believes the establishment of a mandatory catastrophe reserve may be more appropriate at another time.

Your Committee further finds that, among other things, this measure also requires insurers to file their annual statement and premium tax statements and pay their premium taxes electronically, which will streamline the collection of data and taxes. Your Committee believes a delayed implementation date for these requirements is appropriate, to allow insurers reasonable time to update their systems for compliance with these new filing and payment requirements.

Your Committee additionally finds that this measure amends several health care provider provisions within the insurance code, to make the law more consistent and expand the types of health care providers covered by insurance. However, your Committee has heard the concerns that the requirement to recognize licensed dietitians as providers of mental health services may be overly broad. Amendments to this measure that clarify the scope of covered licensed dietitians who provide mental health services and treatment plans are therefore necessary.

Your Committee has amended this measure by:

- (1) Deleting language that would have established the Hawaii Mandatory Catastrophe Reserve Act and deleting an associated reference to the proposed mandatory catastrophe reserve;
- (2) Updating references in sections 431:10A-116.6 and 431:10A-116.7, Hawaii Revised Statutes, from “nurse practitioner-delivered” and “certified midwife-delivered” to “advanced practice registered nurse-delivered” to reflect proper updated terminology;
- (3) Clarifying that notification must be provided to a health care provider, insured, or member filing a claim from a non-contracted provider, if an insurer requires more time to review a claim;
- (4) Inserting a definition of “licensed dietitian” and clarifying that mental health services and treatment plans provided and approved by a licensed dietitian are limited to licensed dietitians treating eating disorders;
- (5) Inserting an effective date of January 1, 2017, for the sections of this measure that require insurers to file and pay their premium taxes electronically; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2854, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2854, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ruderman).

SCRep. 2260 Commerce, Consumer Protection, and Health on S.B. No. 2689

The purpose and intent of this measure is to:

- (1) Establish definitions for “disposable electronic smoking device”, “electronic smoking device”, “e-liquid”, and “reusable electronic smoking device”;
- (2) Amend the definitions of “dealer”, “retailer”, “sale” or “sold”, “wholesale price”, and “wholesaler” to include electronic smoking devices and e-liquid;
- (3) Increase the license fee for wholesalers and dealers of cigarettes, tobacco products, electronic smoking devices, and e-liquid; and
- (4) Increase the retail tobacco permit fee for retailers of cigarettes, tobacco products, electronic smoking devices, and e-liquid.

Your Committee received testimony in support of this measure from the American Cancer Society Cancer Action Network and Coalition for a Tobacco-Free Hawai‘i. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Hawaii Smokers Alliance, VOLCANO Fine Electronic Cigarettes, PC Gamerz, and twelve individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the public health rationale for the regulation of cigarettes and tobacco products is well developed, as tobacco use is the single most preventable cause of disease, disability, and death in the United States. In addition to substantive state laws governing specific aspects of tobacco production, sales, and use, Hawaii law requires retailers, wholesalers, and dealers of cigarettes or tobacco products to obtain a special license or permit. These licenses and permits facilitate the enforcement of the cigarette tax and tobacco tax law under chapter 245, Hawaii Revised Statutes. However, the current license fee for wholesalers and

dealers is only \$2.50 a year, while retail tobacco permit fees cost only \$20 a year. These fees should be increased and the law updated to include electronic smoking devices and e-liquid.

Your Committee has amended this measure by:

- (1) Allowing electronic smoking devices, packages of electronic smoking devices, containers of electronic smoking devices, e-liquid, packages of e-liquid, and containers of e-liquid to be seized and forfeited if unlawfully sold, possessed, kept, stored, acquired, distributed, or transported; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2689, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2689, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2261 Commerce, Consumer Protection, and Health on S.B. No. 2888

The purpose and intent of this measure is to:

- (1) Ensure the timely administration of mental health examinations by establishing separate evaluations for fitness to proceed and for penal responsibility, with certain exceptions;
- (2) Support the process of expedient administration of justice; and
- (3) Clarify the procedure for reevaluation of fitness to proceed after a finding of unfitness and attempts at restoration.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Psychological Association, and one individual. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Hawaii Disability Rights Center.

Your Committee finds that under section 704-404, Hawaii Revised Statutes, when a defendant's fitness to proceed comes into question, the criminal proceedings are stopped, and the court must order a physical or mental examination of the defendant to determine the defendant's fitness to proceed and whether the defendant was penally responsible for the alleged crime. During this period of time, a pretrial defendant, who may have a serious mental disease or defect, may be held in state custody for more than thirty days awaiting the evaluation due to the complexity of conducting an evaluation that examines both fitness to proceed and penal responsibility. It is in the best interest of the defendants for the examination process to proceed in a timely, expedient manner by separating the fitness to stand trial and the penal responsibility components of examinations and codifying procedures for appointing examiners for reevaluation of fitness.

Your Committee has amended this measure by:

- (1) Inserting language that clarifies that when a court orders an examination related to a defendant's physical or mental condition at the time of the conduct, all proceedings in the prosecution shall be suspended pending the completion of the examination;
- (2) Clarifying that examinations for fitness to proceed and penal responsibility shall be conducted separately unless a combined examination has been ordered by the court upon a request by the defendant or upon a showing of good cause to combine the examinations; provided that if the examinations are separate, the examination for penal responsibility shall not be ordered after thirty days of a finding of fitness to proceed;
- (3) Clarifying that after obtaining all existing medical, mental health, social, police, and juvenile records of a defendant under examination with respect to physical or mental disease, disorder, or defect excluding penal responsibility, the court shall make the records available to the examiners in hard copy or digital format; provided that the court may order that the records be made available to the prosecuting attorney and counsel for the defendant in either format;
- (4) Amending language to clarify that examiners for fitness to proceed report upon the defendant's fitness to proceed, rather than the physical and mental condition of the defendant;
- (5) Amending language that requires examiners of an examination of a defendant alleged to be affected by a physical or mental disease, disorder, or defect to form and render an opinion on the defendant's fitness to proceed independently from other examiners;
- (6) Clarifying that the examinations for fitness to proceed and penal responsibility shall be conducted separately unless a combined examination has been ordered by the court upon a request by the defendant or upon showing of good cause to combine the evaluations;
- (7) Clarifying that any examiner shall be permitted to make a separate explanation reasonably serving to clarify the examiner's opinion;
- (8) Clarifying that after obtaining all existing medical, mental health, social, police, and juvenile records of a defendant under examination with respect to physical or mental disease, disorder, or defect excluding fitness to proceed, the court shall make the records available to the examiners in hard copy or digital format; provided that the court may order that the records be made available to the prosecuting attorney and counsel for the defendant in either format;

- (9) Clarifying that if a court is satisfied that a defendant may be released on conditions without risk of substantial danger to the defendant or to the person or property of others, the court shall order the defendant's release on conditions the court determines necessary;
- (10) Clarifying that for a defendant charged with offenses other than murder in the first or second degree, attempted murder in the first or second degree, or a class A felony, the court may appoint one qualified examiner to examine and report upon the physical and mental condition of the defendant;
- (11) Amending language that allows the court to order that a defendant remain in the custody of the Director of Health subject to bail or until a judgment on the verdict or a finding of guilt after a plea of guilty or nolo contendere; provided that the court may consider a request from the Director of Health to rescind its order for maintaining the defendant in the Director's custody;
- (12) Inserting conforming amendments in sections 704-411 and 704-414, Hawaii Revised Statutes; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2888, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2888, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2262 (Majority) Commerce, Consumer Protection, and Health on S.B. No. 2076

The purpose and intent of this measure is to:

- (1) Establish a durable medical equipment supplier license program for suppliers of durable medical equipment, prosthetics, orthotics, and related supplies through the Office of Health Care Assurance;
- (2) Allow license fees to be deposited into the office of health care assurance special fund;
- (3) Amend the cap on amounts of the health care assurance special fund that may be used per fiscal year for the Office of Health Care Assurance's activities; and
- (4) Amend the balance of the office of health care assurance special fund above which monies are deposited into the general fund.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Hawai'i Primary Care Association, Hawaii COPD Coalition, and Healthcare Association of Hawaii. Your Committee received comments on this measure from the Department of Health and Hawaii Medical Service Association.

Your Committee finds that in 2013, the federal government established the durable medical equipment competitive bidding program in one hundred metropolitan areas across the nation. The City and County of Honolulu was included as one of those areas and is the only Hawaii locality that was required to participate. In the years since the competitive bidding program was established, the program has reduced reimbursements drastically for local providers, compromised the quality of care for residents, disrupted health status, and increased costs for seniors and their families.

Your Committee further finds that there is also a unique problem in Hawaii of contacting vendors, since many are based on the mainland with no special phone or service hours to account for the time difference. To make matters worse, the federal government plans to roll out a form of the competitive bidding program into the neighbor islands in 2016, which will create greater challenges for rural beneficiaries when trying to access needed services, resulting in reductions in their health and quality of life.

Your Committee notes that the revenues collected from the licensing fee for durable medical equipment suppliers should cover the part-time position that the Department of Health would need to administer the licensing program.

Your Committee has amended this measure by:

- (1) Increasing the maximum licensing fee that the Department of Health may assess from \$150 to \$350 on each durable medical equipment supplier who receives a license;
- (2) Clarifying that the monies in the office of health care assurance special fund be used for administering and supporting the durable medical equipment supplier license program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2076, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2076, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Slom). Excused, 1 (Ruderman).

SCRep. 2263 Commerce, Consumer Protection, and Health on S.B. No. 2675

The purpose and intent of this measure is to require:

- (1) Dentist, physician, osteopathic physician, physician assistant, nurse, and pharmacist license applicants who have had a license, permit, or ability to practice suspended in another jurisdiction to undergo a hearing and investigation to determine competency prior to being issued a license to practice in Hawaii;
- (2) The Board of Dental Examiners, Hawaii Medical Board, Board of Nursing, and Board of Pharmacy to summarily suspend a Hawaii license upon a determination that a licensee has had a license, registration, or ability to practice suspended or revoked in any other jurisdiction, pending a hearing to prove competency; and
- (3) An order of summary suspension or any disciplinary action taken to be public record.

Your Committee received testimony in support of this measure from the Hawaii Medical Association and Hawaii Dental Association. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Board of Dental Examiners, Board of Nursing, Board of Pharmacy, and Hawaii Medical Board.

Your Committee finds that timely action in reciprocal discipline cases is a vital aspect of consumer protection. Furthermore, delayed action in reciprocal discipline cases, particularly in emergency situations, can put patients unnecessarily at risk. This measure attempts to ensure timely reciprocal discipline of health care professionals by requiring a competency hearing and investigation if an applicant has had a license revoked or suspended in another jurisdiction and requires the summary suspension of a licensee upon a determination that the licensee's license, registration, or ability to practice has been suspended or revoked in any other jurisdiction.

Your Committee has heard testimony that a similar bill, Senate Bill No. 2864 (Regular Session of 2016), which previously passed out of your Committee, creates a simpler, more expedient mechanism for reciprocal discipline, although the process in Senate Bill No. 2864 only applies to licensees regulated by the Hawaii Medical Board. More importantly, Senate Bill No. 2864 also protects Hawaii consumers during the disciplinary process by prohibiting a licensee who has been banned from practicing in another jurisdiction from practicing in the State until the Hawaii Medical Board issues a final order. This protection ensures that Hawaii patients will not be at risk of receiving medical treatment from a licensee who was the subject of serious discipline elsewhere.

After a discussion with interested stakeholders, your Committee concludes that adopting the reciprocal discipline mechanisms of Senate Bill No. 2864, but expanding this process to cover dentist, physician, osteopathic physician, physician assistant, nurse, and pharmacist licensees, is in the best interest of consumers, licensing boards, and licensees in Hawaii. Your Committee notes that the requirement for any final order of discipline taken to be public record, as proposed by this original measure, will remain in the amended measure.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that required dentist, physician, osteopathic physician, physician assistant, nurse, and pharmacist license applicants who had a license, permit, or ability to practice suspended in another jurisdiction to undergo a hearing and investigation to determine competency prior to being issued a license to practice in Hawaii;
- (2) Removing language that required the Board of Dental Examiners, Hawaii Medical Board, Board of Nursing, and Board of Pharmacy to summarily suspend a Hawaii license upon a determination that a licensee had a license, registration, or ability to practice suspended or revoked in any other jurisdiction, pending a hearing to prove competency;
- (3) Authorizing the Board of Dental Examiners, Hawaii Medical Board, and Board of Pharmacy to deny a license to an applicant who has been disciplined by another state or federal agency and authorizing the Board of Nursing to deny a license to an applicant who has been disciplined by another state agency;
- (4) Authorizing the Board of Dental Examiners, Hawaii Medical Board, Board of Nursing, and Board of Pharmacy to impose the same disciplinary action against a licensee as was taken by another state or federal agency;
- (5) Establishing conditions for the disciplinary action;
- (6) Prohibiting a licensee from practicing until a final order of discipline is issued if disciplinary action taken by another state prohibited the licensee from practicing in that state;
- (7) Clarifying that any final order of discipline taken shall be public record;
- (8) Inserting an effective date of July 1, 2016; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2675, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2675, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2264 (Joint/Majority) Education and Commerce, Consumer Protection, and Health on S.B. No. 1311

The purpose and intent of this measure is to support the Hawaii Keiki: Healthy and Ready to Learn program by appropriating funds for the program.

Prior to the hearing on this measure, your Committees made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 deleted the contents of this measure and inserted provisions allowing an individual of a school-based profession to engage in the practice of behavior analysis without being licensed as a behavior analyst; provided that the unlicensed individual does not use the title or description to state or imply that the individual is a licensed behavior analyst.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Education. Your Committees received testimony in opposition to the proposed S.D. 1 from the State Council on Developmental Disabilities; Hawaii Association for Behavior Analysis; Hawaii Association of School Psychologists; Wolff Behavioral Services, LLC; Hawaii School Counselor Association; Autism Behavior Consulting Group, Inc.; Hawaii State Teachers Association; Autism Society of Hawaii; Keiki Educational Consultants; and numerous individuals.

Your Committees find that teachers and other Department of Education personnel must employ a wide range of strategies in the course of their regular duties to effectively instruct students and create an environment conducive to learning. Some of these strategies employ principles and techniques that fall inside the practice of behavior analysis. If teachers are required to be licensed as behavior analysts before they employ these techniques, they will be hindered in their ability to provide educational services to their students. However, your Committees note that teachers who are not licensed as behavior analysts are not equipped to provide the same services as a licensed behavior analyst, especially with regard to students with special needs. For that reason, the use of behavior analysis techniques by teachers who are not licensed as behavior analysts should be limited to the course of their recognized scopes of practice.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending it by:

- (1) Inserting language to clarify that the licensing of behavior analysts is not intended to restrict the practice of other licensed or credentialed educational practitioners practicing within their own recognized scopes of practice, rather than specifically exempting school-based professionals from required behavior analyst licensing; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1311, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1311, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, 1 (Slom). Excused, 1 (Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, 1 (Slom). Excused, 2 (Nishihara, Ruderman).

SCRep. 2265 (Joint/Majority) Education and Transportation and Energy on S.B. No. 2604

The purpose and intent of this measure is to require the Department of Education to implement an off-grid, microgrid pilot project at a school of the Department's choosing through its Ka Hei program.

Your Committees received testimony in support of this measure from the Department of Education, Opterra Energy Services, Blue Planet Foundation, and one individual.

Your Committees find that electricity usage at Department of Education schools causes high utility costs to the Department. The need to install heat abatement equipment in some schools is likely to increase the demand for electricity at Department schools.

Your Committees further find that schools may be viable locations for the establishment of off-grid microgrid systems. Microgrid systems in schools would reduce the Department's electricity costs and reduce load on the municipal power grid. A school with a microgrid system could serve as a disaster response center and shelter in the event of a hurricane or other civic emergency.

As affirmed by the records of votes of the members of your Committees on Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2604 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

Transportation and Energy: Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Slom). Excused, 2 (English, Nishihara).

SCRep. 2266 Education on S.B. No. 2598

The purpose and intent of this measure is to appropriate funds to the Department of Education for the purpose of hiring teachers in the areas of fine arts, Hawaiian and Polynesian studies and language, vocational education, and mentoring.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Kamehameha Schools, and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that a teacher shortage exists in many areas of education, including fine arts, Hawaiian and Polynesian studies and language, vocational education, and mentoring. These areas of education are vital to the development of Hawaii's students, yet they are often de-emphasized in favor of other educational priorities. This measure would provide resources for the Department of Education to hire teachers to provide greater educational opportunities to students in these areas of study.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2598 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2267 Human Services on S.B. No. 2070

The purpose and intent of this measure is to establish a full-time program specialist position for Maui County within the Adult Protective and Community Services Branch of the Department of Human Services to oversee the foster grandparent program and senior companion programs for the islands of Maui, Molokai, and Lanai.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the prior creation of a program specialist on the island of Kauai resulted in a significant increase in the number of active senior volunteers on Kauai, and that the same is needed in Maui County. In 2014, a federal compliance monitoring of the senior companion program in Hawaii identified the lack of adequate staffing as an area of concern. The program specialist position created by this measure will provide program support to the foster parent program and the senior companion program, including developing senior volunteers and recruiting and supporting volunteer stations to coordinate assignments in school settings and for home-bound seniors.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2268 (Majority) Human Services on S.B. No. 2898

The purpose and intent of this measure is to make an emergency appropriation for fiscal year 2015-2016 to reimburse the Department of Labor and Industrial Relations and the Department of Human Services for costs incurred to comply with the Patient Protection and Affordable Care Act of 2010.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Labor and Industrial Relations, Office of Enterprise Technology Services, Chamber of Commerce Hawaii, and International Longshore and Warehouse Union Local 142.

Your Committee finds that the Department of Labor and Industrial Relations and the Department of Human Services used fiscal year 2015-2016 operating funds to cover expenses for the maintenance of the Medicaid eligibility application of the Department of Human Services enterprise system and for the transition of the functions of the Hawaii Health Connector to the State to enable Hawaii to be compliant with the Patient Protection and Affordable Care Act of 2010. The Departments need to be reimbursed for the funds used to be able to perform their mandated responsibilities and functions during fiscal year 2015-2016 and to continue to make health care payments for Medicaid recipients.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2898 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 3 (Harimoto, Ruderman, Thielen).

SCRep. 2269 Human Services on S.B. No. 2218

The purpose and intent of this measure is to provide an employer who hires an elderly individual a nonrefundable tax credit for fifty percent of the wages of the elderly individual for the six-month period after the individual is initially hired by the taxpayer.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that elderly individuals often have a wealth of work and life experiences that allow them to make significant contributions to employers. Providing tax incentives to employers to hire elderly individuals will help to increase employment of Hawaii's aging population.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2218, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2218, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2270 Human Services on S.B. No. 2066

The purpose and intent of this measure is to provide funding for senior centers, which will enable seniors to participate in activities to help them remain active, healthy, and independent in their communities.

Your Committee received testimony in support of this measure from Catholic Charities Hawai'i; Moiliili Community Center Senior Center; National Active and Retired Federal Employees Association, Hawaii State Federation of Chapters; and twenty-seven individuals.

Your Committee finds that supportive relationships, interactions with the environment, and engaging in social activities are positively correlated with the well-being of older adults. Senior centers provide vital health education and screening, fitness, recreation, case management, and other services that enable thousands of seniors to maintain wellness, support independence, and avoid expensive institutional care.

Your Committee strongly urges the Department of Health to consider including the senior center funding in its base budget request as this appropriation has been a consistent annual request.

Your Committee has amended this measure by changing the appropriation amount to Catholic Charities Hawaii for the Lanakila Multi-purpose Senior Center to \$150,000.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2066, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2066, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2271 Human Services on S.B. No. 2344

The purpose and intent of this measure is to exempt the subsidies received directly by the applicant or recipient or payments made on behalf of or directly to the applicant or recipient from the section 8 housing voucher program of the United States Department of Housing and Urban Development for purposes of qualifying for the Supplemental Nutrition Assistance Program (SNAP).

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Human Services. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that an individual who has section 8 housing voucher program payments made directly to a landlord or mortgagee on behalf of the individual should not lose eligibility to participate in SNAP merely because the individual fails to meet the income requirement due to the inclusion of the section 8 benefit. The Department of the Attorney General testified that under federal regulations, United States Department of Housing and Urban Development vendor payments, which would include the housing payments made directly to the landlord or mortgagee on behalf of the recipient, would be excluded from a household's income calculation for SNAP eligibility purposes, while subsidies received directly by the applicant or recipient are not excluded from an applicant's or recipient's income for SNAP eligibility purposes.

Your Committee has therefore amended this measure by deleting language exempting from income subsidies that are received directly by the applicant or recipient.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2344, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2272 Human Services on S.B. No. 3039

The purpose and intent of this measure is to authorize health care providers under Medicaid to place on the Medicaid certification and re-certification form a question to ask clients about participation in the Supplemental Nutrition Assistance Program (SNAP) and report aggregate responses to the Legislature.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that individuals that receive assistance through the state Medicaid program are likely to be eligible to participate in SNAP, commonly known as the food stamp program, as eligibility for both programs is based on income. In October 2015, 182,226 people in Hawaii participated in SNAP, but 341,829 people in Hawaii were enrolled in Medicaid, which left 159,603 people who were enrolled in Medicaid but not in SNAP. If these additional, eligible, 159,603 individuals participated in SNAP, the State could receive more federal funding, an estimated \$247,000,000, which would ultimately be injected into the economy in Hawaii with no negative impact on the state budget. Authorizing health care providers to question those currently receiving Medicaid benefits about their participation in SNAP can help to educate clients about the benefits available to them based on their qualifications.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3039, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3039, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2273 Human Services on S.B. No. 2311

The purpose and intent of this measure is to repeal section 586-10.5, Hawaii Revised Statutes, which requires, among other things:

- (1) Family courts to report to the Department of Human Services in each case where a temporary restraining order is sought for the alleged abuse of a family or household member who is a minor or incapacitated person; and
- (2) The Department of Human Services to investigate each allegation of domestic violence and submit a written report to the family courts in advance of the hearing on the temporary restraining order.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii State Commission on the Status of Women, Hawaii State Coalition Against Domestic Violence, Domestic Violence Action Center, and two individuals. Your Committee received testimony in opposition to this measure from the Judiciary of the State of Hawaii.

Your Committee finds that under section 350-1.1 Hawaii Revised Statutes (HRS), employees or officers of any law enforcement agency, including the courts, must report immediately to the Department of Human Services all cases where they have reason to believe that child abuse or neglect has occurred or that there exists a substantial risk that child abuse or neglect may occur in the reasonably foreseeable future. Pursuant to section 346-224, HRS, they must also report to the Department of Human Services if they have reason to believe that a vulnerable adult has incurred abuse or is in danger. Your Committee finds that families experiencing domestic violence should have access to protective orders and other domestic services, and that referral from the family courts to the Department of Human Services is one expedient way to access those much needed services.

Your Committee also finds that amendments are necessary to align this measure with reporting requirements already in statute and to clarify that the reporting will not be automatic, but done after the employee or officer of the law enforcement agency has evaluated each case on an individual basis.

Your Committee has therefore amended this measure by:

- (1) Amending section 586-10.5, HRS, rather than repealing it entirely, to clarify circumstances in which the family courts report to the Department of Human Services and align the language in section 586-10.5, HRS, to conform to the reporting requirements in chapters 350 and 587A and section 346-224, HRS, which the family courts currently follow; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2311, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2311, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2274 Human Services on S.B. No. 3008

The purpose and intent of this measure is to promote the health of Hawaii's homeless population by establishing a system to securely gather data regarding homeless individuals' usage of publicly funded medical assistance programs.

Your Committee received testimony in support of this measure from Hawai'i Pacific Health and one individual. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness under the Office of the Governor, Department of Human Services, and Healthcare Association of Hawaii.

Your Committee finds that in order to provide important health care to the homeless, the State needs pertinent data regarding the treatments and services administered to the homeless. Information on the usage of health care can assist policy makers in making informed decisions about allocation of resources and services necessary to assist the homeless. One way to access data on housing status is on the application for Medicaid.

Your Committee has amended this measure by:

- (1) Deleting the language that proposed a mandatory system of data collection and reporting;
- (2) Inserting language that allows Medicaid providers to place on Medicaid certification and recertification forms a question composed by the Department of Human Services to determine the housing status of an individual; and
- (3) Inserting language that allows Medicaid providers to collect and release aggregate housing status data to the Legislature.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3008, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Harimoto, Ruderman, Thielen).

SCRep. 2275 (Joint) Human Services and Housing on S.B. No. 2335

The purpose and intent of this measure is to appropriate funds for the emergency rent and utility assistance program within the state Homeless Programs Office.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness under the Office of the Governor and Department of Human Services.

Your Committees find that data collected by homeless service providers estimates that 26 percent of homeless persons are homeless primarily due to economic factors that may be resolved by a one-time or short-term rent and utility assistance payment. This measure appropriates funds to homeless households who may require this type of assistance.

Your Committees support the Governor's budget request with regard to the rapid re-housing and the housing first initiative requests. Your Committees intend to keep those provisions intact while adding to the emergency rent and utility assistance program with this measure.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2335 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).
Housing: Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2276 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2035

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to finance construction of an adolescent treatment and healing center, plans for a centralized auto maintenance facility, construction of a hangar for the Kauai Fire Department's helicopter, development of a Salt Pond master plan, and improvements to the Kauai Veterans Cemetery.

Your Committees received testimony in support of this measure from the Department of Defense, Emergency Management Agency; Department of Defense, Office of Veterans Services; Office of the Mayor, County of Kaua'i; Kaua'i County Council; Kaua'i Fire Department; Hawaii Substance Abuse Coalition; and Ho'omana Pono, LLC. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the projects proposed to be funded through this measure have various beneficiaries but ultimately improve the County of Kauai's ability to serve the needs of the county – the adolescent treatment and healing center is a top priority in the County of Kauai's Holo Holo 2020 Vision and is already underway; the centralized auto maintenance facility is necessary to consolidate the County of Kauai's equipment fleet and maintenance needs into one facility with adequate space and resources to maintain the fleet; the hangar for the Kauai Fire Department's helicopter will provide a permanent site to house the helicopter, eliminating the need to rent a hangar at Lihue Airport; the Salt Pond master plan is needed to integrate the various uses and infrastructure of the Salt Pond area into a regional center that preserves the area's cultural, social, and recreational components; and the Kauai Veterans Cemetery, which has already undergone assessments and planning for repairs and upgrades, is read to proceed with construction on those repairs and upgrades.

Your Committees note that should funds be appropriated for the construction of the adolescent treatment and healing center, additional funding would be necessary for any associated operational costs.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2035 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2277 (Majority) Government Operations on S.B. No. 2896

The purpose and intent of this measure is to authorize the Hawaii Labor Relations Board to serve complaints and notices of hearings by first class mail and electronic mail.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board and one individual.

Your Committee finds that under existing law, the Hawaii Labor Relations Board may serve complaints and notices of hearings on a party by delivery to the person, mail, or telegram. However, the electronic service of complaints and notices is a faster and less expensive method of service. Implementation of this measure will save costs and provide a more efficient process to accommodate all parties.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2896, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2896, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

SCRep. 2278 Government Operations on S.B. No. 3070

The purpose and intent of this measure is to establish legislative policies to:

- (1) Make appropriations for grants during the Regular Session of each odd-numbered year for the ensuing fiscal biennium; provided that the Legislature may add new appropriations or amend, or repeal existing grant appropriations during the Regular Session of an even-numbered year or a Special Session;
- (2) Appropriate funds for not more than one grant for each grant recipient during a fiscal biennium; and
- (3) Place a low priority on requests to fund the general and administrative expenses of a grant applicant.

Your Committee received testimony in support of this measure from Hawaii Youth Services Network. Your Committee received testimony in opposition to this measure from the Pana'ewa Hawaiian Home Lands Community Association. Your Committee received comments on this measure from Hawai'i Alliance of Nonprofit Organizations, Catholic Charities Hawai'i, West Hawai'i Mediation Center, and one individual.

Your Committee finds that it is necessary to improve the grant application and approval process established under chapter 42F, Hawaii Revised Statutes, spread grant appropriations among more recipients, and fund direct services, rather than overhead costs, of grant recipients. Implementation of this measure will increase transparency in the grant process and increase the opportunity for more applicants to receive grants.

Your Committee has amended this measure by:

- (1) Clarifying its purposes in section 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3070, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

SCRep. 2279 Government Operations on S.B. No. 2719

The purpose and intent of this measure is to:

- (1) Require a fiscal impact statement for any proposed legislation that calls for an appropriation or results in significant fiscal changes for the State;
- (2) Require the Legislative Analyst to obtain the information necessary to prepare fiscal impact statements; and
- (3) Prohibit any legislative committee from holding a hearing on a measure that calls for an appropriation or results in a significant fiscal change for the State without a fiscal impact statement prepared by the Legislative Analyst.

Your Committee received testimony in support of this measure from Common Cause Hawaii and seven individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Tax Foundation of Hawaii, Grassroot Institute of Hawaii, and one individual.

Your Committee finds that according to the National Conference of State Legislatures, there are more than twenty states that require fiscal notes for every bill that is introduced in the respective state's legislature and additional states that require fiscal notes upon request or when a bill is expected to have a direct impact on revenues or spending. However, in Hawaii, there is limited and varying information available regarding the estimated revenue impact of measures that are introduced and go through the legislative process. Implementation of this measure will embolden the public's faith in government by increasing the transparency of the legislative process and encouraging fiscal accountability.

Your Committee has amended this measure by:

- (1) Requiring the Legislative Auditor to obtain the information necessary to prepare fiscal impact statements, rather than the Legislative Analyst; provided that the Office of the Legislative Analyst shall prepare all fiscal impact statements once the office is fully funded;
- (2) Replacing "Legislative Analyst" with "Legislative Auditor" where appropriate throughout the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee recognizes that requiring a fiscal impact statement for the State budget bill may pose various challenges. Furthermore, the Legislative Auditor may need additional time to properly implement this measure. Your Committee finds that if this measure is considered for passage by your Committee on Ways and Means, that the committee further examine these issues.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2719, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2719, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Tokuda).

SCRep. 2280 Government Operations on S.B. No. 2494

The purpose and intent of this measure is to:

- (1) Require the State Procurement Office to establish and maintain a database of all government procurement contract data, accessible to each governmental body;
- (2) Require each governmental body to provide all data relating to any procurement contract of the governmental body to the State Procurement Office; and
- (3) Appropriate funds to the Department of Accounting and General Services for the State Procurement Office to establish the statewide database.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that there is very little consistency with the way government procurements are solicited and with expectations pertaining to vendor proposals. The inconsistencies increase procurement processing time and reduce efficiency. The establishment of a statewide database of all government procurement contract data will lead to a better standardization of contracting practices across the State. Implementation of this measure will further the transparency and accountability of government contracting.

Your Committee has amended this measure by:

- (1) Requiring the chief procurement officer of each jurisdiction to be responsible for the collection and transmittal of data to the State Procurement Office; and

- (2) Inserting an appropriation amount of \$100,000.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2494, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

SCRep. 2281 Government Operations on S.B. No. 2493

The purpose and intent of this measure is to require the State Procurement Policy Board to:

- (1) Audit and monitor the implementation of its rules and requirements of chapter 103D, Hawaii Revised Statutes;
- (2) Annually conduct a minimum of two audits of government purchasing agencies based on a pattern of noncompliance or upon circumstances of a particular procurement that indicate an intent to circumvent chapter 103D, Hawaii Revised Statutes; provided that there are follow-up audits;
- (3) Conduct random compliance audits of government purchasing agencies; and
- (4) Report the results of all compliance audits to the Legislature.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that it is prudent for the State Procurement Policy Board to examine whether the procurement policies that the Board develops and adopts are being complied with by government agencies and if the policies are working as intended by the Board. Implementation of this measure will promote transparency and effectiveness in the procurement process and provide better assurance that government agencies are in compliance with the State's procurement laws.

Your Committee has amended this measure by:

- (1) Reinserting language to authorize, rather than require, the State Procurement Policy Board to audit and monitor the implementation of its rules and requirements of chapter 103D, Hawaii Revised Statutes;
- (2) Requiring the State Procurement Policy Board to annually review and examine, rather than audit, procurement contracts that are over \$50,000 of a minimum of two government purchasing agencies based on a pattern of noncompliance or upon circumstances of a particular procurement that indicate an intent to circumvent chapter 103D, Hawaii Revised Statutes; provided that there are follow-up examinations;
- (3) Requiring the State Procurement Policy Board to conduct random compliance examinations, rather than audits, of government purchasing agencies to ensure compliance with chapter 103D, Hawaii Revised Statutes;
- (4) Requiring the State Procurement Policy Board to report the results of all compliance examinations, rather than audit results, to the Legislature no later than twenty days before the convening of each Regular Session; and
- (5) Amending section 1 to reflect the amended purpose of the measure.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2493, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

SCRep. 2282 (Majority) Transportation and Energy on S.B. No. 2715

The purpose and intent of this measure is to require that motor vehicles safety inspections be conducted every two years rather than annually.

Your Committee received testimony in opposition to this measure from the Department of Transportation and Aloha Shell Service.

Your Committee finds that data from a report released in August of 2015 by the United States Government Accountability Office (GAO) found that only sixteen states currently require periodic motor vehicle safety inspections. Of those sixteen states, Hawaii is one of eleven that requires inspections to be conducted on an annual basis, while five states require inspections to be conducted on either a biennial or other basis. The results of the GAO study reveal that the existence of annual motor vehicle inspection programs does not produce conclusive evidence of improving vehicle safety conditions. Crash rates before and after the elimination of motor vehicles safety inspection programs varied little from year to year following the elimination of inspection programs.

Your Committee further finds that the current annual inspection program is an undue hardship to many of Hawaii's residents, especially those in rural areas. The recent decrease in availability of safety inspectors and limited business hours of inspection operators favors a shift from annual to biennial inspections. However, it is not the intent of your Committee to increase the fees collected for inspection services performed on a biennial schedule.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2715, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Chun Oakland). Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2283 Transportation and Energy on S.B. No. 2736

The purpose and intent of this measure is to:

- (1) Require a certificate of inspection for mopeds;
- (2) Require a moped driver, regardless of age, to wear a safety helmet securely fastened with a chin strap, closed-toe footwear, protective long pants, and a protective moped or motorcycle jacket; and
- (3) Define closed-toe footwear, protective long pants, and protective moped or motorcycle jacket.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that mopeds provide an inexpensive, reliable, and convenient means of transportation. However, your Committee finds that mopeds are almost entirely unregulated. The only requirement is that mopeds be registered and subject to a registration fee, in the same manner as bicycles under section 249-14, Hawaii Revised Statutes.

Your Committee further finds that the prevalence of mopeds and the likelihood of accidents involving mopeds require that mopeds be subject to registration and safety inspections, and have number plates.

Your Committee has amended this measure by:

- (1) Requiring that mopeds be subject to registration and safety inspections, and have number plates;
- (2) Deleting the requirement that moped drivers wear protective clothing and shoes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2736, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2736, S.D. 1, and be referred to your Committees on Judiciary and Labor and Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 2284 Transportation and Energy on S.B. No. 3075

The purpose and intent of this measure is to require an owner of a trailer bought out-of-state and subsequently brought into the State to provide proof of payment of the use tax with the application for registration unless otherwise exempt.

Your Committee received testimony in support of this measure from Hawaii Specialty Vehicles LLC. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that there is an inconsistency in the collection of taxes for trailers being registered in the State. Businesses and individuals who buy trailers out-of-state and then import the trailers to Hawaii are often not assessed the use tax. This measure will ensure that the use tax shall be applied to all trailers, regardless of the origin of sale.

Your Committee has amended this measure on the recommendation of the Department of Taxation by:

- (1) Eliminating redundant language in the measure; and
- (2) Changing the effective date to January 1, 2017, to give the Department additional time to implement the new requirements.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3075, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3075, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2285 Transportation and Energy on S.B. No. 2585

The purpose and intent of this measure is to clarify when pedestrians may enter a crosswalk equipped with a countdown timer.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that section 291C-33, Hawaii Revised Statutes, relating to pedestrian-control signals, was last amended in 1981. This section needs to be updated to include countdown timers and to clarify when a pedestrian is allowed to cross when the countdown timer is operating. Countdown timers show pedestrians how many seconds are left to cross the street before the pedestrian signal changes from a flashing "Don't Walk" to a steady "Don't Walk" or upraised palm indication.

This measure clarifies that if a pedestrian-control signal is equipped with a countdown timer, any pedestrian who has partially completed the pedestrian's crossing while the countdown timer is operating shall complete the crossing to a sidewalk or safety island while the countdown timer is operating.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2585, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2585, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2286 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2560

The purpose and intent of this measure is to:

- (1) Require the Department of Health to provide treatment and care for homeless individuals with serious and persistent mental health challenges as a part of its comprehensive mental health system; and
- (2) Appropriate monies for mental health care and treatment for homeless individuals.

Your Committees received testimony in support of this measure from the Coordinator on Homelessness under the Office of the Governor, Department of Health, and Hawaii Substance Abuse Coalition.

Your Committees find that the issue of homelessness is complex, as there are many reasons why individuals become homeless, such as issues related to housing, poverty, access to health care, and mental health. A continuum of comprehensive services is needed to assist individuals with serious and persistent mental health issues in the State. This measure assists in providing effective, appropriate, and accessible treatment for homeless individuals suffering from mental health challenges.

Your Committees have amended this measure by:

- (1) Deleting language in the findings that references the tobacco master settlement agreement and expending requirements on certain programs by the Department of Health as it relates to the appropriation in this measure;
- (2) Amending the definition of “homeless individual” to mean an individual who is homeless as defined under section 346-361, Hawaii Revised Statutes, and who has a serious and persistent mental illness or is otherwise eligible for services;
- (3) Amending the program element of the community residential treatment system relating to a semisupervised, independent, but structured living arrangement by specifying that the arrangement is for certain persons who are at risk of becoming homeless by reason of serious and persistent mental illness; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2560, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2560, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).
Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

SCRep. 2287 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2395

The purpose and intent of this measure is to enhance access to care via telehealth, including:

- (1) Requiring the State’s Medicaid managed care and fee-for-service programs to cover services provided through telehealth;
- (2) Specifying medical professional liability insurance policy requirements for telehealth coverage;
- (3) Clarifying reimbursement requirements for telehealth;
- (4) Requiring written disclosure of coverage and benefits associated with telehealth;
- (5) Lifting restrictions and limitations on patient setting and applicable telehealth technology;
- (6) Clarifying requirements for physicians and out-of-state physicians to establish a physician-patient relationship via telehealth; and
- (7) Ensuring reimbursement requirements for telehealth services apply to all Hawaii Employer-Union Health Benefits Trust Fund health benefits plans.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, University of Hawai‘i, The Queen’s Health Systems, Hawaii Medical Service Association, Healthcare Association of Hawaii, Planned Parenthood Votes Northwest and Hawaii, and DentaQuest. Your Committees received comments on this measure from the Department of Human Services, Department of the Attorney General, and Hawaii Medical Board.

Your Committees find that telehealth is a proven, efficient, and effective way to facilitate timely access to quality health care, improve health outcomes, reduce the incidence of avoidable urgent and emergent care, and ensure equitable distribution of health care providers. The use of telehealth allows health care providers to treat patients in settings that are more convenient and comfortable for the patient, which facilitates a patient-centered approach for delivery of health care services. Your Committees further find that telehealth is used extensively throughout the country and can be particularly effective in states like Hawaii, where many segments of the population, particularly in rural and medically underserved areas, may experience challenges in accessing quality health care.

However, your Committees additionally find that there are several significant barriers to telehealth in Hawaii that have contributed to poor adoption and utilization of telehealth by health care providers. Some of these major barriers include geographical limitations on service, limitations on patient setting, and restrictions on applicable technology. This measure removes these artificial barriers to telehealth to help health care providers and patients in the State realize the full benefits of telehealth.

Your Committees have heard the concerns that certain aspects of this measure, including patient-provider relationships, reimbursement, privacy issues, and telehealth for purposes of prescribing a controlled substance, may need to be clarified. Your Committees agree with these concerns and conclude certain amendments to this measure are necessary.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that specified no reimbursement would be provided for telehealth consultations unless a health care provider-patient relationship existed between the patient and one of the health care providers and exempted this provider-patient prerequisite from emergency department services, as this language did not meet current standards of clinical practice and such consultations are not currently reimbursable;
- (2) Requiring services provided by telehealth to be consistent with all federal and state privacy, security, and confidentiality laws;
- (3) To avoid potential confusion, removing language that required the combined amount of reimbursement for a distant site health care provider and originating site health care provider to be not less than the total amount permitted for reimbursement for the same services provided via face-to-face contact between a health care provider and a patient, as telehealth reimbursement is already required to be equivalent to in-person reimbursement for the same services;
- (4) Deleting the requirement that for purposes of prescribing a controlled substance, a physician-patient relationship shall be established pursuant to chapter 329, Hawaii Revised Statutes, and specifying that for purposes of prescribing opiates or medical marijuana, a physician-patient relationship shall only be established after an in-person consultation between the prescribing physician and the patient;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2395, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2395, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

SCRep. 2288 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2886

The purpose and intent of this measure is to reduce barriers in accessing mental health care for adolescents by lowering the age of consent to receive treatment from eighteen years old to twelve years old.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Youth Services Network, and two individuals. Your Committees received comments on this measure from the Hawaii Medical Service Association.

Your Committees find that requiring parental consent for minors to receive substance abuse treatment and family planning services may pose a barrier to health care. Minors may find desired mental health services inaccessible due to the discomfort and even opposition caused by obtaining parental consent. By allowing access to mental health services for consenting minors, individuals seeking improved emotional well-being may be served in a timely manner.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2886, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2886, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

SCRep. 2289 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2372

The purpose and intent of this measure is to:

- (1) Require the counties to accept the surrender of a private road in cases where there has been an absence of any act of private ownership over the road for five years;
- (2) Exempt the State and counties from performing any maintenance on a surrendered road and from liability arising from use of the road until the State or county performs maintenance work on the road; and

- (3) Deem a highway, road, alley, street, way, lane, bikeway, bridge, or trail that has been commonly used by residents of a particular area for emergency access purposes or for health and safety reasons to be publicly accessible for those reasons, without regard to actual ownership or responsibility for maintenance.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Association of REALTORS, Bank of Hawaii, and Chamber of Commerce of Hawaii. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that there are numerous roads throughout the State that are privately owned or whose ownership has been called into question. In many cases, these private roads are remnants of a road, or a small portion of a larger public road, whose ownership is disputed for various reasons. This has resulted in questions regarding who is responsible for the repair and maintenance of these roads, many of which are regularly used for vehicular traffic.

Your Committees further find that since these private roads are not owned by a governmental entity, or their ownership is being disputed, they often do not receive proper repair and maintenance.

Your Committees have amended this measure by:

- (1) Limiting the period of state or county immunity from liability for personal injury, death, or property damage in any accident arising out of the use of a surrendered highway, road, alley, street, way, lane, bikeway, bridge, or trail for a period of two years following performance of construction, reconstruction, preservation, resurfacing, restoration, or rehabilitation; and
- (2) Immunizing the State or county from any liability for the negligent acts or omissions of others that the State or county did not already benefit from before the surrender of the highway, road, street, way, lane, bikeway, bridge, or trail, solely by reason of the surrender.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2372, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2372, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (Gabbard, English, Slom).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2290 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2416

The purpose and intent of this measure is to make it a criminal offense to intentionally or knowingly direct the beam from a laser device at an occupied aircraft under certain circumstances.

Your Committees received testimony in support of this measure from the Department of Transportation and Honolulu Police Department.

Your Committees find that this measure is needed due to the recent incidents in which aircraft have become targets of green laser lights while flying or landing at an airport. Hawaii's existing penal code does not adequately address situations in which an offender injures or causes delays in flight schedules. Although pointing a laser at an aircraft is not yet a pervasive problem in Hawaii, it is a problem across the country and its frequency in the State is increasing. During the last ten years, 21,500 incidents involving laser devices and aircraft have been reported by pilots to the Federal Aviation Administration.

Your Committees have amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2416, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2416, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (Gabbard, English, Slom).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2291 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2695

The purpose and intent of this measure is to repeal the law relating to the disposition of proceeds from the county surcharge on state tax.

Your Committees received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committees find that the ten percent deduction for administrative expenses from the proceeds of the county surcharge on state tax is speculated to be far in excess of the actual costs to the State in collecting the tax on behalf of the counties. Your Committees further find that measures to ascertain the actual cost incurred by the Department of Taxation to assess, collect, and dispose of the surcharge revenues should be undertaken so that a revenue neutral impact to the Department can be implemented.

Your Committees have amended this measure by:

- (1) Deleting its purpose section;

- (2) Reinstating provisions relating to the disposition of the proceeds on the county surcharge but clarifying that the State's administrative share shall be the costs of assessment, collection, and disposition rather than ten percent of the proceeds; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2695, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2695, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (Gabbard, English, Slom).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2292 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3115

The purpose and intent of this measure is to authorize the counties to:

- (1) Conduct background checks for criminal history for applicants for taxicab drivers' certificates; and
- (2) Require applicants to submit fingerprints to governmental agencies for background checks of the applicant.

Your Committees received testimony in support of this measure from the Department of Customer Services of the City and County of Honolulu and one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that section 46-16.5, Hawaii Revised Statutes, authorizes the counties to protect the public health, safety, and welfare by licensing, controlling, and regulating public passenger vehicle services, including the picking up and discharging of passengers from various unrelated locations by taxicabs. In accordance with this authority, the counties have adopted ordinances and administrative rules addressing the supervision, regulation, and control of the transporting of passengers or property for hire in a taxicab, including criminal background checks for applicants of taxicab drivers' certificates and are used in determining whether an applicant may pose a danger to the health, safety, or welfare of the traveling public.

Your Committees further find that there is uncertainty as to whether the counties have the authority to access the database of the Federal Bureau of Investigation's or other agencies databases in order to conduct nationwide criminal background checks on applicants for taxicabs drivers' certificates.

Your Committees have amended this measure on the recommendation of the Attorney General by:

- (1) Conforming the authorization for every county to conduct criminal history record checks on taxicab drivers and applicants for taxicab drivers' certificates to the preferred protocol of the Hawaii Criminal Justice Data Center; and
- (2) Deleting the requirement for submission of fingerprints from applicants.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3115, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3115, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (Gabbard, English, Slom).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2293 (Joint) Hawaiian Affairs and Judiciary and Labor on S.B. No. 2994

The purpose and intent of this measure is to:

- (1) Allow the Hawaiian Homes Commission and Department of Hawaiian Home Lands to retain independent legal counsel as needed;
- (2) Authorize the Hawaiian Homes Commission and Department of Hawaiian Home Lands to use the services of the Attorney General as needed and when the interests of the State, Hawaiian Homes Commission, and Department of Hawaiian Home Lands are aligned; and
- (3) Provide that funds owed to independent legal counsel shall be paid by the State.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Association of Hawaiian Civic Clubs, Villages of Laiopua Association, Moku o Keawe Homestead Alliance, Kailapa Community Association, and ten individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General.

Your Committees note the testimony of the Department of Hawaiian Home Lands that twenty-one other state agencies currently have the autonomy that this measure would provide to the Hawaiian Homes Commission and Department of Hawaiian Home Lands. Your Committees also note its concern that there are currently no limits to the cost of independent legal counsel for the state agencies that retain such counsel.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2994, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2994, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Slom).

Judiciary and Labor: Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Thielen).

SCRep. 2294 Hawaiian Affairs on S.B. No. 3029

The purpose and intent of this measure is to appropriate funds for the administrative and operating expenses of the Department of Hawaiian Home Lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Association of Hawaiian Civic Clubs; Ka Lāhui Hawai'i Political Action Committee; Paukukalo Hawaiian Homes Community Association; Waimānalo Hawaiian Homes Association; Keaukaha Community Association; Kalama'ula Mauka Homestead Association; Pana'ewa Hawaiian Home Lands Community Association; Kailapa Community Association; Kapaakea Hawaiian Homestead Association; Moku O Keawe Homestead Alliance; KAFarmers Hui; Ho'omana Pono, LLC; Auamo I Na Alaka'i; Papakolea Community Development Corporation; and forty-six individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that the Hawaii State Constitution requires the Legislature to fund the administration and operating budget of the Department of Hawaiian Home Lands. Your Committee also finds that the appropriation to the Department of Hawaiian Home Lands for fiscal year 2015-2016 does not fully fund the administrative and operating expenses of the Department.

Accordingly, your Committee has amended this measure by:

- (1) Adding a blank appropriation for the Department of Hawaiian Home Lands for fiscal year 2015-2016;
- (2) Removing the amount of the appropriation for fiscal year 2016-2017;
- (3) Changing the effective date of the measure to be upon approval; provided that the appropriation for fiscal year 2016-2017 shall be effective on July 1, 2016; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee has heard the testimony of the Department of Hawaiian Home Lands and others asserting that the funds appropriated to the Department have been insufficient. Accordingly, your Committee requests that if your Committee on Ways and Means chooses to hear this measure that it appropriate funds to bring the total appropriation for the Department for fiscal year 2015-2016 to \$28,000,000, and also appropriate \$28,000,000 for the Department for fiscal year 2016-2017.

Your Committee also affirms that by law, the total appropriation of funds to any department or establishment in the State is and shall be set by the Legislature. This measure may not in any way be interpreted as a concession of this authority.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3029, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2295 Hawaiian Affairs on S.B. No. 2730

The purpose and intent of this measure is to appropriate funds for the planning, design, construction, and materials and equipment for the Anahola Hawaiian Homes Association.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Paukukalo Hawaiian Homes Community Association, and five individuals. Your Committee received testimony in opposition to this measure from Ho'omana Pono, LLC, and the Center for Hawaiian Sovereignty Studies.

This measure proposes to appropriate funds for an East Kauai Community Recreation Center and Anahola Pilot Agriculture Park. Your Committee finds that both facilities will enhance opportunities for the Anahola Hawaiian Homes community, including the opportunity to grow its own food.

Your Committee notes its concern about testimony stating that the Anahola Hawaiian Homes Association's Kumu camp has reportedly lost funding from the Department of Hawaiian Home Lands, is not properly managed, and has failed to comply with the terms of a contract with the State. Your Committee finds that this issue raises a concern that merits further consideration and requests that your Committee on Ways and Means further examine this issue if it chooses to hear this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2730 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2296 Hawaiian Affairs on S.B. No. 2946

The purpose and intent of this measure is to require each county to adopt ordinances to authorize indigenous native Hawaiian architectural practices and materials in the county's building code for agricultural lands that are to be used for farm operations, including farm worker housing.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC; and one individual. Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu and Department of Agriculture.

Your Committee finds that utilizing indigenous native Hawaiian architecture for housing will help to preserve the Hawaiian culture and provide communities with low-cost housing alternatives using available local resources.

Your Committee has amended this measure by:

- (1) Adding a reference to Act 222, Session Laws of Hawaii 2007, to section 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2946, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2946, S.D. 1, and be referred to your Committee on Water, Land, and Agriculture.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2297 Hawaiian Affairs on S.B. No. 3059

The purpose and intent of this measure is to allow any state or county agency to designate public and private lands for the construction of indigenous architecture, exempt from state and county laws and rules but under the supervision of experts in indigenous architecture and construction.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Department of Planning and Permitting of the City and County of Honolulu, and Department of Agriculture. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that allowing indigenous architecture to be built on more land in the State will increase the utility and value of indigenous Hawaiian architectural knowledge and encourage the preservation and application of Hawaiian culture in the community.

Your Committee has amended this measure by:

- (1) Clarifying that the lands that a state or county agency may designate for the construction of indigenous architecture must be under the agency's stewardship or control;
- (2) Requiring the supervision of a certified hale builder for the construction of any indigenous architecture;
- (3) Adding definitions of "certified hale builder" and "indigenous architecture"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3059, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3059, S.D. 1, and be referred to your Committee on Water, Land, and Agriculture.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2298 Hawaiian Affairs on S.B. No. 2806

The purpose and intent of this measure is to:

- (1) Amend the membership of the King Kamehameha Celebration Commission;
- (2) Authorize the chairperson of the commission to establish an advisory committee composed of past commission members to advise the chairperson on the historical and archival background of the commission;
- (3) Amend the personnel and support staff of the commission; and
- (4) Establish an executive director for the commission.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Royal Order of Kamehameha I, Association of Hawaiian Civic Clubs, and two individuals.

Your Committee finds that this measure provides necessary updates to the membership of the King Kamehameha Celebration Commission, clarifies the role and functions of the commission and its chairperson, and provides the commission's chairperson with formal access to an advisory committee.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2806, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2806, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2299 Hawaiian Affairs on S.B. No. 2762

The purpose and intent of this measure is to require the Auditor to conduct a financial and management audit of the King Kamehameha Celebration Commission and submit a report of any findings or recommendations to the Legislature.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs and one individual.

Your Committee finds that a financial and management audit of the King Kamehameha Celebration Commission will help to confirm the best practices of the Commission and identify areas where the Commission can improve its operations.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2762 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2300 Hawaiian Affairs on S.B. No. 2763

The purpose and intent of this measure is to authorize the use of general fund monies to fund salaries for certain employees of the King Kamehameha Celebration Commission.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs, Waimanalo Hawaiian Homes Association, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the King Kamehameha Celebration Commission is composed of volunteer commissioners who arrange annual celebrations to commemorate King Kamehameha I. Under existing law, the commission is authorized to appoint an arts program specialist and part-time clerk typist, whose salaries are provided through fees, public contributions, and private donations. Your Committee supports this measure, as it would expand the funding sources for salaries for these positions and facilitate the work of the commission.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2763 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2301 (Joint) Transportation and Energy and Tourism and International Affairs on S.B. No. 3072

The purpose and intent of this measures is to establish the Hawaii Airport Authority under the Department of Transportation and to transfer the aeronautics function of the Department to the Hawaii Airport Authority beginning July 1, 2017.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaiian Airlines, Airlines Committee of Hawaii, and Airport Concessionaires Committee.

Your Committees find that Hawaii's air transportation planning, management, marketing, and development functions are currently spread out among a number of agencies, including the Department of Transportation's Airports Division, Hawaii Tourism Authority, Department of Health with respect to environmental concerns, and Office of Hawaiian Affairs when ceded lands issues arise. This multijurisdictional situation has resulted in inefficiencies and conflicts that are difficult to resolve between agencies. In addition, this situation sometimes leads to conflicting plans of action among the different agencies seeking to implement differing goals.

This measure establishes the Hawaii Airport Authority, a single entity with overall jurisdiction, to ensure the State makes efficient use of all of its air transportation resources, which will enhance and complement other state efforts to revitalize and sustain Hawaii's economy.

Your Committees have amended this measure on the recommendation of the Department of Transportation by:

- (1) Clarifying the powers and duties of the Hawaii Airport Authority;
- (2) Clarifying the qualifications, selection, and duties of the Administrator and the Board of Directors of the Hawaii Airport Authority;
- (3) Inserting provisions to enable the efficient transfer of functions, duties, and personnel from the Department of Transportation to the Hawaii Airport Authority, including the authorization for the Department of Transportation to hire consultants;
- (4) Making the transfer effective on July 1, 2018; and
- (5) Inserting an appropriation to assist the transfer.

Your Committees have further amended this measure by:

- (1) Inserting an effective date of June 22, 2022, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Tourism and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3072, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3072, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

Tourism and International Affairs: Ayes, 4. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2302 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2123

The purpose and intent of this measure is to clarify county zoning authority by:

- (1) Distinguishing single-family residential use from single-family vacation rental use; and
- (2) Allowing a zoning ordinance to amortize nonconforming single-family transient vacation rentals over a reasonable period.

Your Committee received testimony in support of this measure from the Hawaii Association of Counties, Kauai County Council, Maui County Council, Hawaii County Council, and Office of Hawaiian Affairs. Your Committee received testimony in opposition to this measure from the Rentals by Owner Awareness Association, Hawaii Association of REALTORS, and one individual.

Your Committee finds that the proliferation of vacation rentals in areas zoned for single-family residential use has created planning-related challenges for counties and highlights the need for clarity in state law governing this issue. Increased demand for single-family vacation rentals contributes to a diminishing supply of housing in Hawaii, which ultimately has an adverse effect on lower-income residents of the State. This measure would empower the counties to gradually phase out nonconforming single-family transient vacation rentals; however, your Committee also finds that this measure could have significant unintended consequences for home and property owners in Hawaii, and that further discussion and consideration are required.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2123, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Espero, Inouye). Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2303 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2461

The purpose and intent of this measure is to:

- (1) Require practitioners who administer, prescribe, or dispense a controlled substance under schedules II through IV to register with the electronic prescription accountability system as part of the renewal process for controlled substance registration; and
- (2) Expand access to investigative information in the electronic prescription accountability system to certain individuals and for certain purposes.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Medical Association, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Veterinary Medical Association, Maui Humane Society, and two individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that the electronic prescription accountability program is an important mechanism for minimizing the abuse of prescription drugs. Mandatory registration in the program for practitioners who administer, prescribe, or dispense controlled substances will result in an expansion of the program's reach, and is in the public interest. However, your Committee notes that the electronic prescription accountability program is not relevant to veterinary practitioners due to the nature of their practice, clients, and patients.

Your Committee has amended this measure by:

- (1) Exempting veterinarians from mandatory registration with the electronic prescription accountability system as part of the renewal process for controlled substance registration; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2461, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2304 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 2483

The purpose and intent of this measure is to:

- (1) Add a new section to delineate the responsibilities of a person or entity defined as a “shipper”;
- (2) Allow fireworks to be used in movie productions and by those authorized to destroy or test fireworks; and
- (3) Make amendments regarding the dimensions of required labels on certain kinds of fireworks.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; State Fire Council; Maui Fire Department; and Kauai Fire Department. Your Committees received comments on this measure from the Department of Transportation and Young Brothers Ltd.

Your Committees find that the importation and sale of fireworks in Hawaii involves multiple modes of transport, including interstate trucking or rail, interstate maritime transportation, intrastate maritime transportation, and intrastate trucking. If misused, fireworks can cause considerable property damage and personal injury. Given the wide variety of transportation processes and the potential for risk, it is in the best interests of the health and safety of residents of the State to perform a thorough accounting and reporting on the importation of fireworks shipments.

Your Committees have amended this measure by:

- (1) Adopting the suggested amendment of the Department of Business, Economic Development, and Tourism to clarify that one of the exceptions to the firework prohibitions is for movie or television production, not just film or movie productions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2483, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2483, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Slom).

SCRep. 2305 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2484

The purpose and intent of this measure is to raise the fireworks display permit fee from \$110 to \$300.

Your Committee received testimony in support of this measure from the State Fire Council, Kauai Fire Department, and Hawaii Fire Department. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that licensed pyrotechnicians must obtain a permit before conducting fireworks displays in the State. For thirteen years, the fee has remained the same. In that same period, administrative costs to process, review, and approve permits have increased. Your Committee finds that it is appropriate to raise the permit fee to correspond to the increased administrative costs.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2484 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2306 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2755

The purpose and intent of this measure is to establish a law enforcement employment standards and training board responsible for developing statewide standards for employment and training for certain county and state law enforcement officers.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, and fifteen individuals. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the County of Maui; City and County of Honolulu Police Department; and Ho‘omana Pono, LLC. Your Committees received comments on this measure from the Department of Transportation and Department of Budget and Finance.

Your Committees find that Hawaii is the only state in the nation without a statewide law enforcement board for employment standards or training. Given the considerable power and authority given by the State and counties to police, sheriffs, and other law enforcement officers, it is important to establish statewide standards for these officers. Such standards would provide a common core of knowledge and training for state and county law enforcement officers.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2755 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2307 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2914

The purpose and intent of this measure is to adjust the petition process for court orders to provide medical treatment to:

- (1) Allow a declaration to be filed as an alternative to an affidavit;
- (2) Expand the court's ability to continue the hearing on the petition for good cause;
- (3) Give the court more flexibility in deciding when a guardian ad litem is necessary;
- (4) Relax the time requirement for filing a court order for medical treatment;
- (5) Redefine the persons who must be notified of the petition;
- (6) Clarify the effective expiration date of the order; and
- (7) Provide the ability for the Department of Public Safety to seek an extension of an order to treat if necessary.

Your Committees received testimony in support of this measure from the Department of the Attorney General and Ho'omana Pono, LLC.

Your Committees find that existing statutes provide a procedure for involuntary medical treatment for inmates in the custody of the Department of Public Safety when the inmate poses a danger of harm to self or others. These procedures place unnecessary and arbitrary restrictions on doctors and correctional facility staff that reduce efficiency and generate avoidable risk. This measure proposes amendments to clarify issues to improve the operational efficiency of the petition process.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2914 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2308 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2915

The purpose and intent of this measure is to update the Uniform Controlled Substances Act for consistency with amendments in federal controlled substances law.

Your Committees received testimony in support of this measure from Ho'omana Pono, LLC, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Veterinary Medical Association; Kindred Spirit Kindred Care, LLC; and five individuals. Your Committees received comments on this measure from one individual.

Your Committees find that drug scheduling in Hawaii is generally kept in accordance with federal standards. Federal standards change as new chemical compounds are developed and cataloged by law enforcement. Additionally, Hawaii has unique needs stemming from state initiatives and programs such as the electronic prescription accountability system and the medical marijuana program. Developments on the federal and state level require an update to the drug scheduling statutes in Hawaii.

Your Committees further find that since the electronic prescription accountability system is geared toward doctors treating human patients and is not applicable to veterinarians, amendments to this measure are necessary to clarify who must register to use the system.

Your Committees have amended this measure by:

- (1) Adding language to exclude veterinarians from mandatory registration with the Department of Public Safety to use the electronic prescription accountability system; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2915, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2915, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Inouye).

Commerce, Consumer Protection, and Health: Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2309 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2916

The purpose and intent of this measure is to include misdemeanor offenses under chapter 134, Hawaii Revised Statutes, involving firearms, ammunition, and dangerous weapons, in the list of offenses that disqualify parolees from the maximum six-month parole revocation period provided for in Act 139, Session Laws of Hawaii 2012.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, Hawaii Rifle Association, and one individual.

Your Committee finds that under existing law, certain parole violators will be limited to a six-month revocation period of incarceration. Some parolees are excluded from this provision, including those charged with new felonies and certain misdemeanors. The currently identified misdemeanors do not include firearms and dangerous weapons offenses, which are considered serious

violations of parole. Your Committee finds that it is in the public interest to include firearms and weapons offenses in the list of misdemeanors that disqualify parolees from the maximum six-month parole revocation period.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2916 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2310 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2954

The purpose and intent of this measure is to authorize the Hawaii criminal justice data center to access firearm registration data.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Honolulu Police Department, Hawaii Rifle Association, and three individuals. Your Committee received testimony in opposition to this measure from the County of Maui Department of the Prosecuting Attorney and seven individuals.

Your Committee finds that the accurate and timely sharing of firearms registration information between counties is critical to ensure the safety of the community. Although each county currently maintains its own firearms registration information, there is no active mechanism to share this data. The development and implementation of a system to facilitate firearms registration data would enable law enforcement agencies to access critical information more quickly when they are checking on individuals involved in an incident to which they are responding.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2954, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2954, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2311 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2956

The purpose and intent of this measure is to require firearm owners who have been disqualified from owning a firearm due to mental illness to immediately surrender their firearms and to authorize the chief of police to seize the firearms if the owner fails to comply.

Your Committee received testimony in support of this measure from the Honolulu Police Department and four individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the County of Maui, Hawaii Rifle Association, National Rifle Association, and twenty-one individuals.

Your Committee finds that currently, county police officers are prohibited, even in the most volatile situations, from seizing a firearm from an owner who is suffering from mental illness and is disqualified from ownership, possession, or control of firearms or ammunition. Before a firearm can be seized from such an owner, the owner must be notified of the requirement to surrender the firearm via registered mail, at which point the owner has thirty days to voluntarily surrender or transfer the firearm. Your Committee finds that the potential for harm to the owner or to the public during that window of time presents an unnecessary risk. This measure will allow police officers to seize firearms immediately upon notification by the owner's treating physician or upon an emergency mental health hospitalization. This measure will not change the required standard for seizure of a firearm.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2956 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2312 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2960

The purpose and intent of this measure is to allow county police departments to enroll firearms applicants who were granted a permit to be included in the federal rap back program, which will provide a mechanism to alert the county police department when the owner of a firearm is arrested for a criminal offense anywhere in the country.

Your Committee received testimony in support of this measure from the Honolulu Police Department. Your Committee received testimony in opposition to this measure from the Hawaii Rifle Association, National Rifle Association, and four individuals.

Your Committee finds that criminal history record checks for applicants to acquire firearms are critical to ensure the safety of the community. Under existing law, a thorough background check is conducted on all applicants to acquire a firearm. Once a permit has been issued, no further checks are conducted on the firearm owner. As a result, county police departments have no way to know if a current Hawaii firearm owner has been convicted of a crime in another state that would prohibit that person from owning a firearm.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2960 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2313 (Majority) Education on S.B. No. 2599

The purpose and intent of this measure is to raise the general excise tax rate by one percent and deposit all additional revenue collected from the increase into a special account for Department of Education operations, including salaries and maintenance costs.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, IMUAlliance, and one individual. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Meadow Gold Dairies, Times Supermarkets, Hawaii Food Industry Association, Hawai'i Association of REALTORS, Hawaii Crop Improvement Association, National Federation of Independent Business, and Hawaii Restaurant Association. Your Committee received comments on this measure from the Department of Taxation, Grassroot Institute of Hawaii, Tax Foundation of Hawaii, and Hawaii Appleseed Center for Law and Economic Justice.

Your Committee finds that Hawaii's public schools are critically underfunded. Many schools in the State require extensive upgrades or renovations, including the installation of air conditioning and other heat abatement measures. Teacher compensation and per-pupil spending are far below the national average. Expansions of prekindergarten, fine arts and humanities, and vocational education programs are required to better serve public school students. An increase in the general excise tax will provide the additional revenues necessary to meet these goals. Your Committee also notes that the general excise tax is inextricably linked to the use tax, and that it is necessary to increase them together.

Your Committee has amended this measure by:

- (1) Including the following amendments suggested by the Department of Taxation:
 - (A) Amending section 237-16.5(f), Hawaii Revised Statutes, to correct an omitted increase;
 - (B) Increasing the use tax to correspond with the increase in the general excise tax; and
 - (C) Adding language to clarify the distribution of increased tax revenue; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2599, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2599, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Dela Cruz). Noes, 1 (Riviere). Excused, 2 (Harimoto, Slom).

SCRep. 2314 Education on S.B. No. 2591

The purpose and intent of this measure is to:

- (1) Require principals to consult with teachers and school community councils when expending funds provided to their schools;
- (2) Require the weighted student formula to include a superintendent's reserve to address needs at unique and remote schools; and
- (3) Grant the Department of Education discretion in allocating reserve funds to specific schools; provided that the Committee on Weights recommends the amount of the reserve and the criteria for its use.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, IMUAlliance, and two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that Hawaii has experimented with a weighted student formula for over ten years. The purpose of the formula is to make public education more equitable, transparent, and decentralized. Since its inception, the weighted student formula has had the unintended consequence of limiting programming for students in some small or rural schools. Your Committee further finds that a superintendent's reserve in the weighted student formula will give the Committee and principals greater flexibility in addressing the needs of students throughout the State. However, your Committee notes that the term "unique and remote schools" as used in this measure is unnecessary if the intent is to allow the Committee on Weights to determine the criteria for the reserve's use. Your Committee further notes testimony by the Department of Education pointing out that teachers are already included in school community councils, and that language specifying that principals shall expend monies "in consultation with teachers and school community councils" is redundant.

Your Committee has amended this measure by:

- (1) Removing language referencing unique and remote schools; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2591, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2591, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2315 (Joint/Majority) Education and Commerce, Consumer Protection, and Health on S.B. No. 2615

The purpose and intent of this measure is to protect the physical and psychological well-being of minors, including lesbian, gay, bisexual, and transgender youth, against exposure to serious harms caused by sexual orientation change efforts.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii State Teachers Association, IMUAlliance, Hawai'i Psychological Association, National Association of Social Workers, Rainbow Family 808, Honolulu Council of MoveOn.org, Pacific Alliance to Stop Slavery, LGBT Caucus of the Democratic Party of Hawai'i, and twenty-five individuals. Your Committees received testimony in opposition to this measure from Hawaii Family Advocates, Hawaii Family Forum, Christian Counseling and Research Centers of America, Hawaii Catholic Conference, and four individuals. Your Committees received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committees find that most professional associations of mental health practitioners and researchers in the United States recognize that being lesbian, gay, bisexual, or transgender is not a disease, disorder, illness, deficiency, or shortcoming. According to the American Psychological Association, there is not sufficient evidence to demonstrate that sexual orientation change efforts have any efficacy. Instead, the American Psychological Association found that sexual orientation change efforts are more often harmful, especially when they are directed toward children or adolescents. Such therapies confuse children and adolescents with inaccurate scientific information regarding sexual orientation, and frequently employ fear-based techniques. Participants often report severe and prolonged psychological and social disturbances as a result of sexual orientation change efforts. These practices are contrary to current clinical and professional standards.

Your Committees have amended this measure by:

- (1) Removing language specifically prohibiting teachers from engaging in or advertising sexual orientation change efforts and subjecting such teachers to appropriate disciplinary action; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2615, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2615, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Slom). Excused, 1 (Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, 1 (Slom). Excused, 2 (Nishihara, Ruderman).

SCRep. 2316 (Joint) Housing and Human Services on S.B. No. 2733

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to support the housing first programs and shallow rent subsidy program.

Your Committees received testimony in support of this measure from the Department of Human Services, Americans for Democratic Action Hawaii, Catholic Charities Hawai'i, The CHOW Project, Hawaii Appleseed Center for Law and Economic Justice, Helping Hands Hawai'i, and two individuals. Your Committees received comments on this measure from the Coordinator on Homelessness under the Office of the Governor.

Your Committees find that Hawaii has the highest per capita rate of homelessness of any state in the nation, as an estimated 7,620 people are living on the streets and in shelters in Hawaii. Addressing homelessness requires a multi-faceted approach using interventions targeted to the particular characteristics of the population being served.

Your Committees further find that two programs critically necessary to address homelessness in Hawaii are the housing first and shallow rent subsidy programs. Housing first programs are proven to be effective in addressing homelessness for chronically homeless individuals, including those who have an addiction or mental illness, or both, while shallow rent subsidy programs are proven to be effective in securing and maintaining housing for working individuals and families who are homeless.

Your Committees have amended this measure by:

- (1) Clarifying that the maximum rent supplement under the shallow rent subsidy program shall be \$500 per month per household; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2733, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2733, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

SCRep. 2317 (Joint) Housing and Water, Land, and Agriculture on S.B. No. 2876

The purpose and intent of this measure is to exempt lands to which the Hawaii Public Housing Authority holds title from the definition of "public lands" in section 171-2, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committees find that the Hawaii Public Housing Authority is authorized to acquire, own, and hold real property; therefore, its titled lands do not fall under the catchall jurisdiction of state “public lands” under the Department of Land and Natural Resources’ jurisdiction. The Hawaii Housing Finance and Development Corporation lands have been exempted from the definition of “public lands” under section 171-2, Hawaii Revised Statutes. Accordingly, the Hawaii Public Housing Authority lands should also be exempted from “public lands” as this exemption will clarify the ability of the Authority to take certain actions on its lands.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2876, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2876, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 3 (Green, Taniguchi, Slom).

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2318 (Joint) Housing and Economic Development, Environment, and Technology on S.B. No. 3076

The purpose and intent of this measure is to:

- (1) Designate the Office of Planning as the lead agency to coordinate and advance transit-oriented development planning in the State; and
- (2) Require that the Office of Planning approve all state agencies’ development plans for parcels along the rail transit corridor, including any properties that the State may obtain in the future.

Your Committees received testimony in support of this measure from the Office of Planning, Chamber of Commerce Hawaii, and Building Industry Association of Hawaii.

Your Committees find that with Honolulu’s construction of an elevated rail transit system, the State has an opportunity to enhance Oahu’s urban environment and increase the quality of life for residents by utilizing sound smart growth and transit-oriented development principles to revitalize neighborhoods and increase affordable housing inventory, among other public benefits. As the largest landowner of properties along the transit line, with approximately two thousand acres under the jurisdiction of various departments, the State must be proactive and place a priority on planning with a statewide policy perspective, rather than a departmental mission perspective, to maximize the benefits of state lands available for redevelopment.

Your Committees have amended this measure by:

- (1) Clarifying that the Office of Planning is intended to coordinate and advance smart growth and transit-oriented development planning within the State;
- (2) Clarifying that a responsibility of the Office of Planning is to act as the lead agency to coordinate and advance smart growth and transit-oriented development planning within the State;
- (3) Expanding the responsibility of the Office of Planning in transit-oriented development to include targeting transit-oriented development areas for significant increase in affordable housing and rental units;
- (4) Inserting an appropriation for an unspecified amount for one full-time equivalent (1.0 FTE) branch chief position within the Office of Planning; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3076, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3076, S.D. 1, and be referred to your Committees on Transportation and Energy and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

Economic Development, Environment, and Technology: Ayes, 5. Noes, none. Excused, 4 (Baker, Keith-Agaran, Ruderman, Slom).

SCRep. 2319 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 2857

The purpose and intent of this measure is to clarify the law on towing of unattended vehicles on private and public property.

Your Committees received testimony in support of this measure from the Office of Consumer Protection and City and County of Honolulu Police Department. Your Committees received testimony in opposition to this measure from Ace Towing Service, Kuni’s Enterprises, Waialae Towing, and Solid Towing LLC. Your Committees received comments on this measure from one individual.

Your Committees find that existing law is in need of clarification with regard to when a “hookup” occurs, what constitutes the “scene” from which a tow is initiated, and who is the “vehicle owner” that is entitled to have the vehicle released from the towing company.

Your Committees have amended this measure by:

- (1) Inserting an effective date of June 22, 2022, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2857, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2857, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 6. Noes, none. Excused, 1 (Gabbard).

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Espero, Kidani, Slom). Noes, none. Excused, 1 (Ruderman).

SCRep. 2320 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 2950

The purpose and intent of this measure is to temporarily authorize the use of the public benefits fee revenues for the installation and upgrade of electric power infrastructure to facilitate the use of electric vehicles by increasing the number of available electric vehicle charging stations, including home- and work-based charging stations.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development and Tourism; Hawaiian Electric Company; and Blue Planet Foundation. Your Committees received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that increasing the number of electric vehicles in Hawaii will help the State reach its clean energy initiatives and renewable energy portfolio standards goal of one hundred percent renewable by 2045. Your Committees further find that the lack of electric vehicle charging stations in the State constitutes a significant barrier to the public's use of electric vehicles. Your Committees believe that increasing the number of electric vehicle charging stations in the State, including home- and work-based charging stations, will encourage more consumers to purchase electric vehicles.

Your Committees have amended this measure by:

- (1) Clarifying that in no case may the public benefits fee administrator fund one hundred percent of any project;
- (2) Requiring that the Department of Business, Economic Development, and Tourism to establish a fee for use of electric power stations to partially offset the costs of installation; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2950, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2950, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 6. Noes, none. Excused, 1 (Gabbard).

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Kidani, Slom). Noes, none. Excused, 1 (Ruderman).

SCRep. 2321 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 2820

The purpose and intent of this measure is to amend the definition of renewable portfolio standard to more accurately reflect the percentage of renewable energy penetration in the State.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Business, Economic Development and Tourism; Distributed Energy Resources; Blue Planet Foundation; and Hawaii Solar Energy Association. Your Committees received comments on this measure from the Public Utilities Commission and Hawaiian Electric Company.

Your Committees find that to fully meet the objectives of Act 97, Session Laws of Hawaii (SLH) 2015, establishing the one hundred percent renewable portfolio standard (RPS) by 2045, and Act 38, SLH 2015, aspiring for greater energy security and self-sufficiency through the reduction and ultimate elimination of Hawaii's dependence on imported fuels for electrical generation, an accurate method for calculating RPS must be used to accurately represent the percentage of renewable energy penetration in Hawaii.

Your Committees have amended this measure upon the recommendation of the Hawaii State Energy Office by:

- (1) Amending the purpose section to more accurately reflect the purpose and intent of this measure;
- (2) Adding a definition of "grid-connected" to chapter 269, Hawaii Revised Statutes;
- (3) Amending the definition of "renewable portfolio standard" by amending the renewable portfolio standard calculation and properly account for customer-sided, grid-connected resources, and making conforming amendments to section 269-92, Hawaii Revised Statutes; and
- (4) Requiring that all electric grid-connected energy systems be one hundred percent renewable energy systems by December 31, 2045.

Your Committees have also made technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2820, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2820, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 6. Noes, none. Excused, 1 (Gabbard).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2322 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water, Land, and Agriculture on S.B. No. 2583

The purpose and intent of this measure is to mandate the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal water systems.

Your Committees received testimony in support of this measure from Hawaii Farmers Union United.

Your Committees find that Act 187, Session Laws of Hawaii 2015, authorizes, but does not require, the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems. In certain areas of Hawaii, geological features or the limits of existing infrastructure have made the use of conventional flush and septic systems impracticable. The costs associated with installing septic systems is a particular burden on farms and other new rural developments. Homeless individuals living in encampments also frequently suffer from a lack of adequate toilet facilities. Composting toilets use no water and produce compost that can be used to enrich the soil. Your Committees find that such toilets are an effective way to provide toilet facilities to underserved or remote populations.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2583 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Shimabukuro).

SCRep. 2323 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2250

The purpose and intent of this measure is to:

- (1) Allow counties to make short term investments with similar authority as the state Director of Finance; and
- (2) Require counties' investments in bonds of any improvement district to be of investment grade or supported by the general obligation pledge of the county in which the improvement district is located.

Your Committee received testimony in support of this measure from the Maui County Department of Finance, Maui County Council, Hawaii County Treasurer, and Hawaii County Council.

Your Committee finds that this measure will give the counties the same capabilities to make investments as the State, which will allow the counties to more effectively manage investment opportunities while also providing safeguards on the counties' investment decisions.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2250 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2324 (Joint/Majority) Judiciary and Labor and Higher Education and the Arts on S.B. No. 2398

The purpose and intent of this measure is to establish a collective bargaining unit for graduate student assistants employed by the University of Hawaii.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, Hawaii State AFL-CIO, University of Hawai'i at Mānoa Graduate Student Organization, University of Hawaii Professional Assembly, and thirteen individuals. Your Committees received testimony in opposition to this measure from the Department of Budget and Finance, Office of Collective Bargaining under the Office of the Governor, and University of Hawai'i System.

Your Committees find that graduate student assistants employed by the University of Hawaii encounter numerous work-related issues including but not limited to budget reductions and increases in class size and workload. However, under existing law, graduate student assistants are not authorized to collectively bargain.

Your Committees note that in the meantime, the University of Hawai'i System and University of Hawai'i at Mānoa Graduate Student Organization (GSO) have recently been in discussion regarding GSO's work-related concerns, and revised policies are currently under review. Implementation of this measure will further higher education in the State and provide graduate student assistants employed at the University of Hawaii with a unified voice to discuss working conditions, wages, and benefits.

Your Committees have amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2398, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2398, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 4. Noes, 1 (Slom). Excused, 1 (Thielen).

Higher Education and the Arts: Ayes, 3; Ayes with Reservations (Kidani). Noes, 1 (Slom). Excused, none.

SCRep. 2325 Commerce, Consumer Protection, and Health on S.B. No. 2383

The purpose and intent of this measure is to repeal the Hawaii Health Connector and associated references in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Hawaii's health insurance exchange, the Hawaii Health Connector (Connector), was established in 2011 and charged with implementing applicable parts of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act). However, due to Hawaii's small population, the highly successful Prepaid Health Care Act of 1974, and expanded Medicaid coverage that resulted in lower numbers of uninsured residents in the State, and despite substantial federal investment in technology and assistance, the efforts of the board of directors and the staff of the Connector, work contributed by public sector employees, and the support of the Legislature, the Connector was unable to meet the financial sustainability requirements imposed by the federal government.

Your Committee further finds that the Connector ceased operations on December 4, 2015. The State has since enlisted the assistance of six state departments to comply with federal requirements and ensure a smooth transition for enrollees from the Connector to a state-based marketplace that utilizes the federal platform. Accordingly, this measure repeals the Connector as part of the transition to a federally supported, state-based exchange.

Your Committee additionally finds that the State has been working with the federal government to provide a new framework for marketplace enrollment that will comply with federal requirements. However, although the Department of Labor and Industrial Relations has requested transfer of federal grant monies to the Department, the Department has been informed that the State will be unable to receive the federal grant until a new state exchange is named. Your Committee notes that another measure, Senate Bill No. 2894, S.D. 1 (Regular Session of 2016), which previously passed out of your Committees on Commerce, Consumer Protection, and Health and Human Services, establishes this successor program, known as the Hawaii health insurance programs, within the Department of Labor and Industrial Relations.

Finally, your Committee notes that this measure and Senate Bill No. 2894, S.D. 1, will help ensure compliance with the exchange requirements of the Affordable Care Act and better assist Hawaii during the transition away from the Connector to a state-based marketplace that utilizes the federal platform.

Your Committee has amended this measure by:

- (1) Updating a reference to network adequacy requirements as applied to the Affordable Care Act, to ensure that Hawaii retains its ability to determine network adequacy for Affordable Care Act plans;
- (2) Moving specific language from the repealed chapter 435H, Hawaii Revised Statutes, which specified that any debts and liabilities pertaining to the Connector that were incurred prior to the Connector's repeal shall not constitute a debt or liability of the State, into session law; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2383, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 2326 Commerce, Consumer Protection, and Health on S.B. No. 2320

The purpose and intent of this measure is to:

- (1) Authorize pharmacists to prescribe and dispense contraceptive supplies to persons eighteen years of age or older;
- (2) Specify requirements pharmacists must meet prior to prescribing and dispensing contraceptive supplies; and
- (3) Require all insurers in the State, including health benefits plans under chapter 87A, Hawaii Revised Statutes, and Medicaid managed care programs, to reimburse pharmacists who prescribe and dispense contraceptive supplies.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii State Coalition Against Domestic Violence; Planned Parenthood Votes Northwest and Hawaii; American Congress of Obstetricians and Gynecologists – Hawaii Section; LGBT Caucus of the Democratic Party of Hawai'i; Hawai'i Public Health Association; Hawaii Medical Association; CVS Health; Healthy Mothers, Healthy Babies; and three individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Human Services; Board of Pharmacy; Daniel K. Inouye College of Pharmacy, University of Hawai'i at Hilo; and Hawaii Medical Service Association.

Your Committee finds that many reproductive health experts have long sought to make prescription contraceptives more readily accessible. Research indicates women are more likely to use prescription contraceptives and less likely to have unintended pregnancies when barriers are lifted to contraceptive access. According to the American Congress of Obstetricians and Gynecologists,

studies have also indicated that women can accurately identify conditions that make it appropriate to use certain contraceptives by using a simple checklist.

Your Committee further finds that under the federal Patient Protection and Affordable Care Act of 2010, contraceptives are required to be covered at a \$0 copayment, thus removing financial barriers for patients and ensuring that patients have better opportunities to receive contraceptive care. This measure supports the movement toward expanded access to prescription contraceptives by authorizing pharmacists to prescribe and dispense contraceptive supplies to persons eighteen years of age and older.

Your Committee has heard the concerns that this measure authorizes pharmacists to prescribe and dispense all contraceptive supplies, including oral and injectable forms of contraception, which may be overly broad. Your Committee has also heard the concerns regarding the scope of practice of pharmacists and the Board of Pharmacy's ability to develop and implement a continuing education program for pharmacists who prescribe and dispense contraceptive supplies. Your Committee understands these concerns. Accordingly, your Committee notes that interested stakeholders have been in discussions regarding certain aspects of this measure and have reached an agreement on consensus language. Amendments to this measure are therefore necessary to incorporate consensus language from interested stakeholders.

Your Committee has amended this measure by:

- (1) Clarifying that pharmacists who prescribe contraceptive supplies must complete an Accreditation Council for Pharmacy Education program approved by the Board of Pharmacy, as this will be less burdensome than requiring the Board to develop its own continuing education program;
- (2) Clarifying that the type of contraceptive supplies pharmacists are authorized to prescribe and dispense are limited to United States Food and Drug Administration-approved self-administered hormonal contraceptives;
- (3) Amending the definition of "practice of pharmacy" to include a separate provision specifically for the prescribing and dispensing of contraceptive supplies to persons eighteen years of age and older, rather than requiring the prescribing and dispensing of contraceptive supplies to be done pursuant to a collaborative written agreement with a licensed physician;
- (4) Clarifying that pharmacists who prescribe and dispense contraceptive supplies must complete an Accreditation Council for Pharmacy Education program approved by the Board of Pharmacy within every other biennial licensing renewal period, rather than requiring the Board to develop a separate continuing education program; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2320, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ruderman).

SCRep. 2327 (Majority) Commerce, Consumer Protection, and Health on S.B. No. 2319

The purpose and intent of this measure is to require all insurers in the State, including health benefits plans under chapter 87A, Hawaii Revised Statutes, and Medicaid managed care programs, to cover a:

- (1) Three-month period for the first dispensing of prescription contraceptive supplies to an insured; and
- (2) Twelve-month period for the subsequent dispensing of the same contraceptive supply to the insured.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii State Commission on the Status of Women; Hawaii State Coalition Against Domestic Violence; American Congress of Obstetricians and Gynecologists – Hawaii Section; American Association of University Women – Hawaii; Hawai'i Public Health Association; Women's Caucus of the Democratic Party of Hawai'i; Planned Parenthood Votes Northwest and Hawaii; Hawaii Medical Association; Hawaii Women's Coalition; Healthy Mothers, Healthy Babies; and six individuals. Your Committee received testimony in opposition to this measure from CVS Health. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees, Chamber of Commerce Hawaii, Hawaii Medical Service Association, League of Women Voters, and one individual.

Your Committee finds that insurance companies typically cover a thirty- or ninety-day supply of prescription contraceptives. However, these coverage requirements may act as a barrier for women, especially those who live in rural areas, frequently travel, are unable to schedule regular visits to health care providers, or are unable to readily pick up their prescriptions. Your Committee further finds that providing a greater number of prescription contraceptive supplies at one time is associated with higher continuation rates, fewer pregnancy tests, fewer unplanned pregnancies, and decreased health care costs per woman.

Your Committee has heard the concerns regarding the required dispensing of an initial three-month supply followed by a twelve-month supply of prescription contraceptives, as proposed by this measure. According to testimony received by your Committee, there is a potential for waste with a mandatory three-month or twelve-month supply of contraceptive supplies, including if a patient experiences side effects or a medication is found to be less effective than previously thought. Your Committee understands these concerns and notes that the American Congress of Obstetricians and Gynecologists and the federal Centers for Disease Control and Prevention recommend prescribing or supplying up to one year of oral contraceptive supplies, based on a woman's preferences and anticipated use.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have required insurers to cover a three-month period for the first dispensing of prescription contraceptive supplies to an insured;
- (2) Clarifying that insurers are required to cover up to a twelve-month period of prescriptive contraceptive supplies for an insured; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2319, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2319, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Ruderman).

SCRep. 2328 Higher Education and the Arts on S.B. No. 2040

The purpose and intent of this measure is to clarify that under the Hawaii Post-Secondary Education Authorization Program, when an institution ceases to operate, the student transcripts shall be kept permanently in a form prescribed by the Director of Commerce and Consumer Affairs and that other records requested and obtained by the Department of Commerce and Consumer Affairs may be disposed of at the Director's discretion.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that state statute currently imposes onerous demands on the Department of Commerce and Consumer Affairs by requiring the permanent retention of student transcripts and a ten year retention of other records obtained from an institution that ceases to operate. Your Committee recognizes that when an institution is closing and deposits its records in paper format to the Department, space and funding limitations may prohibit the Department from receiving and retaining all of the documents in the manner currently required by law. Allowing the Department to use its discretion regarding the retention of records, except for transcripts, will allow the Hawaii Post-Secondary Education Authorization Program to carry out its responsibilities more effectively.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2040, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, none.

SCRep. 2329 (Majority) Higher Education and the Arts on S.B. No. 2473

The purpose and intent of this measure is to appropriate funds for the University of Hawaii at Manoa to establish and operate a dispersion modeling center within the School of Ocean and Earth Science and Technology in order to improve vog forecasts for the State.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawaii Vog Measurement and Prediction Project, University of Hawaii System, Hawaii Institute of Geophysics and Planetology, University of Hawaii Department of Atmospheric Sciences, International Volcanic Health Hazard Network, American Lung Association of Hawaii, and seventeen individuals.

Your Committee finds that vog presents a significant health hazard in Hawaii and has been shown to negatively impact the State's agricultural industry. Vog is primarily caused by the fine particulate matter emitted by Kilauea volcano. Your Committee finds that the only source of information about many of Kilauea volcano's emissions is the vog model operated by the School of Ocean and Earth Science and Technology at the University of Hawaii at Manoa.

Your Committee further finds that the State and National Weather Service rely on the University's vog model for guidance when issuing vog forecasts. Additionally, the Department of Health utilizes information from the University's vog model to alert residents about vog levels and predict air quality conditions to make no-burn decisions. For people who suffer from allergies, emphysema, or asthma, the vog model helps them plan their activities to minimize exposure to the emissions in the air. Your Committee notes that the amount of \$150,000 being requested to support and enhance the University of Hawaii's Vog Measurement and Prediction Project model will be used to continue program operations and oversight so that Hawaii residents, meteorologists, health care providers, emergency management personnel, and the agricultural industry all have access to beneficial and accurate information about vog levels and air quality.

Your Committee has amended this measure by changing the appropriation to an unspecified amount.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2473, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2473, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, none.

SCRep. 2330 Higher Education and the Arts on S.B. No. 2765

The purpose and intent of this measure is to appropriate \$250,000 as a grant to the Honolulu Biennial Foundation to fund an international arts exhibition.

Your Committee received testimony in support of this measure from the Honolulu Biennial Foundation, galerie 103, Summit, Na Mea Hawaii, and twenty-three individuals.

Your Committee finds that the Honolulu Biennial 2017 is an international arts exhibition created to engage the rich cultural diversity of Hawaii and celebrate contemporary visual art from the Pacific, United States, and Asia. Your Committee recognizes that there are very few exhibition opportunities for local artists, and that local artists deserve greater exposure and opportunities to broaden their market reach.

The Honolulu Biennial is modeled after biennial arts festivals held around the world that have profound artistic, cultural, community-building, and economic impacts on the cities that host the festivals. Such festivals have transformed host cities into thriving art hubs and attracted an influx of cultural tourists. Strengthening the potential economic impact that the \$250,000 grant in this measure can have, it was demonstrated to your Committee through testimony that the Honolulu Biennial that launches in 2017 is projected to welcome 42,500 visitors to the State and have an economic impact of over \$49,700,000 on the local economy.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2765 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, none.

SCRep. 2331 Higher Education and the Arts on S.B. No. 2766

The purpose and intent of this measure is to appropriate funds for the Hawaii State Foundation on Culture and the Arts to establish an arts in the military program.

Your Committee received testimony in support of this measure from the State Office of Veterans Services, Hawai'i State Foundation on Culture and the Arts, Chamber of Commerce Hawaii, Soundtable Entertainment Inc., Hawai'i Arts Alliance, and one individual.

Your Committee finds that Hawaii's military community has a diverse range of experience and interests, including the arts. Your Committee further finds that it is important to provide greater access to the arts for active duty military members, veterans, and their families. The arts have proven to be an effective tool for bolstering the resilience of this population as well as accelerating the ability of military personnel to heal and carry out their commitment to this country. Your Committee finds that it is important to support programs in the arts, culture, and the humanities so that all branches of the military have access to such programs.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2766 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, none.

SCRep. 2332 Higher Education and the Arts on S.B. No. 2939

The purpose and intent of this measure is to authorize the University of Hawaii to continue to maintain a separate accounting and financial management system that is compatible with the State accounting and financial management system.

Your Committee received testimony in support of this measure from the University of Hawaii System and Department of Accounting and General Services.

Your Committee finds that the University of Hawaii has maintained a separate accounting system since 1986 that has been compatible with State accounting system requirements and generally accepted accounting principles. Your Committee further finds that the University recently upgraded its accounting system and is now using a university-based financial management software that was developed and is supported by a consortium of universities throughout the country. The current financial system serves the unique needs of the University's reporting, regulatory, and accreditation requirements and allows for compatibility with external partners such as the Department of Accounting and General Services. Your Committee finds that if the University's authority to implement its own accounting system is allowed to sunset, the University will have to return to an older financial management system that is designed for more traditional state government entities rather than university systems. The language in this measure would prevent that process from taking place.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2939 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, none.

SCRep. 2333 (Majority) Higher Education and the Arts on S.B. No. 2971

The purpose and intent of this measure is to repeal the requirement that the University of Hawaii prepare an annual report on the development of the Construction Academy program.

Your Committee received testimony in support of this measure from the University of Hawai'i Community Colleges.

Your Committee finds that the Construction Academy began in 2004 with a grant from the United States Department of Labor that funded a pilot program between the University of Hawaii Community Colleges and certain Oahu high schools. The pilot program provided students with the skills needed to pursue careers in the construction industry. In 2006, the Legislature appropriated funds to institutionalize and expand the program to high schools throughout the State. Your Committee finds that the Construction Academy program has established itself as an integral part of the pathway for construction-related education in Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2971 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, none.

SCRep. 2334 Higher Education and the Arts on S.B. No. 3073

The purpose and intent of this measure is to establish a school of aviation at the University of Hawaii at Hilo to offer a bachelor of science degree in aeronautical science and to appropriate the funds necessary for implementation of the degree program.

Your Committee received testimony in support of this measure from the University of Hawaii at Hilo, Department of Transportation, and one individual. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that strong support exists throughout the State for Hawaii to establish an aviation program to provide Hawaii's youth with the opportunity to pursue professional aviation careers within the State. Aviation is essential to this island state and its economy, and creating a local aviation program will strengthen the State's aviation capabilities and attract students from throughout the country and the Pacific region. A collegiate flight program will also help address a severe pilot shortage that is pending nationwide and provide Hawaii with a reputation in the aviation field.

Your Committee notes that the introducer of this measure, the late Senator Gilbert Kahele, was a strong supporter of creating an aviation school at the University of Hawaii at Hilo and had devoted time and effort to the initiative over the final few years of his life. Your Committee heard testimony, however, expressing concerns about the location of the school of aviation and which island would be the most appropriate to house the program.

Multiple testifiers indicated that the most successful and economical aviation program would be a four-year bachelor's degree program at the University of Hawaii's West Oahu campus for the following reasons: the weather on Oahu is more conducive to flight training than the weather in Hilo; Hilo airport lacks the infrastructure for an aviation program whereas the University of Hawaii already has a hangar at Kalaeloa airport on Oahu with classrooms and facilities that the University only pays one dollar per year to lease. In addition, the majority of flight school students are financially-constrained and a program in Hilo would create the extra cost of room and board for many students. It may also be more challenging for students to find jobs in Hilo to support themselves while enrolled in school. Your Committee also received testimony that the Honolulu Community College flight program that was recently terminated had many interested students but the program could not succeed financially as a two-year program and did not produce employable pilots because modern day airlines require a four-year college degree.

Your Committee has considered all of the testimony as well as the history of this measure and wishes of the late Senator Kahele. Your Committee recommends that the University of Hawaii establish a school of aviation in Hilo but consider moving the program to the University's West Oahu campus in the future where the program could operate more cost effectively for the State and for enrolled students.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3073, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3073, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Gabbard, Slom). Noes, none. Excused, none.

SCRep. 2335 (Joint) Education and Commerce, Consumer Protection, and Health on S.B. No. 2782

The purpose and intent of this measure is to:

- (1) Establish the Educational Assistant Certification Incentive Program to enable educational assistants who have been working in hard-to-fill schools to attain teacher certification and then commit to return to those schools for a certain period of time; and
- (2) Appropriate funds for alternate teacher route contracts for teachers whose degrees are not in the field of education.

Your Committees received testimony in support of this measure from the Department of Education, State Public Charter School Commission, University of Hawai'i System, University of Hawai'i College of Education, Hawai'i Teacher Standards Board, Hawaii State Teachers Association, and two individuals.

Your Committees find that the Department of Education has struggled to place teachers in schools having high turnover rates or determined as hard-to-fill. One potential option is to help current educational assistants achieve the necessary certification to be classified as teachers. The cost of enrollment in certification programs is a substantial obstacle for educational assistants seeking teacher licensure. This measure will provide educational assistants with greater opportunities to become licensed.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2782 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, 1 (Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2336 (Joint) Education and Judiciary and Labor on S.B. No. 2611

The purpose and intent of this measure is to appropriate funds to provide training and track data on public school pupil punishment and use of restraints restrictions.

Your Committees received testimony in support of this measure from the Department of Education; Special Education Advisory Council; and Ho‘omana Pono, LLC.

Your Committees find that it is in the public interest for school personnel to be well trained in the proper use of physical restraints as well as non-violent crisis intervention. Effective data collection and oversight is also critical to detecting and eliminating instances of improper punishments used against students.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2611 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

Judiciary and Labor: Ayes, 6. Noes, none. Excused, none.

SCRep. 2337 (Joint) Education and Judiciary and Labor on S.B. No. 2781

The purpose and intent of this measure is to:

- (1) Clarify that funds for bonuses required by statute or collective bargaining shall not be paid out of a charter school’s facilities funding or out of per-pupil funds; and
- (2) Appropriate funds for teacher bonuses for hard-to-fill placement incentives and National Board certified teacher incentives for charter school teachers.

Your Committees received testimony in support of this measure from the Hawaii State Public Charter School Commission; Hawaii Public Charter Schools Network; Office of Hawaiian Affairs; Kualapu‘u Public Conversion Charter School; Ho‘okako‘o Corporation; KanuOKa‘Aina Public Charter School; Ho‘omana Pono, LLC; and nine individuals. Your Committees received testimony in opposition to this measure from the Department of Budget and Finance.

Your Committees find that public charter schools are important education providers for Hawaii’s students. Administrators, staff, and teachers each have vital roles to play in creating an environment of educational excellence. Teachers at public charter schools who have earned National Board certification or who have committed to work at hard-to-fill schools are entitled to receive incentive bonuses. Unlike Department of Education schools, charter schools do not currently receive funding for these bonuses.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2781 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

Judiciary and Labor: Ayes, 6. Noes, none. Excused, none.

SCRep. 2338 (Joint) Education and Judiciary and Labor on S.B. No. 3104

The purpose and intent of this measure is to:

- (1) Simplify the process for an entity to become an authorizer of charter schools;
- (2) Establish a shortened timeline for the release of charter school funds; and
- (3) Authorize charter schools to retain attorneys for certain proceedings relating to their charters.

Your Committees received testimony in support of this measure from Hakipu‘u; Kanu O Ka Aina Learning Ohana New Century Public Charter School; Kualapu‘u Public Conversion Charter School; Ho‘omana Pono, LLC; Hawaii Academy of Arts and Science Public Charter School; Kua o ka La Public Charter School; and eight individuals. Your Committees received testimony in opposition to this measure from the Hawaii State Public Charter School Commission, National Association of Charter School Authorizers, and Center of Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of the Attorney General and Hawaii Public Charter Schools Network.

Your Committees find that the Charter School Governance, Accountability, and Authority Task Force established by Act 130, Session Laws of Hawaii 2011, made a recommendation that the State allow for multiple entities, known as “authorizers”, to approve or deny organizations seeking to become a charter school and existing charter schools seeking to continue operating. Hawaii currently has only one authorizer. Simplification in the process of becoming an authorizer will lead to greater diversity in authorizers. However, your Committees also find that certain sections of the measure relating to charter schools hiring attorneys conflicts with the legal

obligations of the Department of the Attorney General. Your Committees further find that this measure requires additional discussion and consideration.

Your Committees have amended this measure by:

- (1) Removing parts III and IV of the measure relating to distribution of funds and hiring of attorneys;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3104, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3104, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

Judiciary and Labor: Ayes, 6. Noes, none. Excused, none.

SCRep. 2339 Commerce, Consumer Protection, and Health on S.B. No. 2397

The purpose and intent of this measure is to require hospitals to adopt and maintain discharge policies, consistent with recent updates to federal regulations, to ensure that patients continue to receive necessary care after leaving the hospital.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation, State Council on Developmental Disabilities, Maui County Office on Aging, Healthcare Association of Hawaii, Hawai'i Pacific Health, The Queen's Health Systems, AARP Hawaii, Hawaii Family Caregiver Coalition, Faith Action for Community Equity Hawaii, and sixteen individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Policy Advisory Board for Elder Affairs; Hawaii Government Employees Association; Faith Action for Community Equity, Oahu Chapter; Hawaii Pacific Gerontological Society; Concerned American Veterans; ILWU, Local 142; and twenty-three individuals.

Your Committee finds that Hawaii's population of older adults continues to increase. In 2012, Hawaii had the highest percentage of residents over the age of eighty-five in the United States, and this population is projected to grow to sixty-five percent over the next twenty years. These individuals are the most likely to need long-term supports and services and will likely rely on family and friends as their caregivers due to financial and resource constraints.

Your Committee further finds that while strong home- and community-based resources, such as respite, non-medical transportation services, and home-delivered meals, are important to help caregivers and their loved ones, medical supports are also important. Coordination among primary care providers along with preventive care will enable many seniors and other individuals with chronic or debilitating conditions to stay in their homes longer. However, in the event of an acute episode, hospitals must provide assistance to patients and their caregivers in order to prepare them for discharge and help them transition back to their home.

Your Committee has amended this measure by:

- (1) Amending findings to emphasize Hawaii's increase of older adults in the population, the importance of hospitals assisting patients and their caregivers with transitioning back to a home setting, and the responsibilities that hospitals have related to discharge planning and transitions of care;
- (2) Amending the definition of "patient" to mean an individual admitted to a hospital for inpatient treatment;
- (3) Deleting language that would have required discharge policies to incorporate established, evidence-based practices; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2397, S.D. 1, and be referred to your Committees on Judiciary and Labor and Human Services.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2340 (Joint) Water, Land, and Agriculture and Economic Development, Environment, and Technology on S.B. No. 2801

The purpose and intent of this measure is to establish the biosecurity program as the responsibility of the Department of Agriculture rather than a branch of the Department to enable the program to address biosecurity issues across the entire Department.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Hawaii Invasive Species Council, The Nature Conservancy, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Floriculture and Nursery Association.

Your Committees find that biosecurity is an overarching issue that requires cooperation and collaboration by numerous parties, including but not limited to the Hawaii Invasive Species Council, Department of Land and Natural Resources, United States Department of Agriculture, Coordinating Group on Alien Pest Species, and private companies. Your Committees further find that the Department of Agriculture has multiple duties and activities that address the issue of biosecurity and that initiatives to improve Hawaii biosecurity go beyond the confines of any one branch within the Department; therefore, this measure is a common sense way to improve the effectiveness and efficiency of the biosecurity program.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2801 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Shimabukuro, Thielen).

Economic Development, Environment, and Technology: Ayes, 5. Noes, none. Excused, 4 (Ihara, Keith-Agaran, Ruderman, Thielen).

SCRep. 2341 (Joint) Water, Land, and Agriculture and Economic Development, Environment, and Technology on S.B. No. 2639

The purpose and intent of this measure is to require a ninety day extension of the deadline for the Department of Land and Natural Resources' decision on a conservation district use application beyond the time necessary to complete an environmental impact statement or contested case hearing.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Chamber of Commerce Hawaii, and three individuals.

Your Committees find that this measure ensures that adequate time will be automatically granted if a contested case hearing or environmental impact statement is required, in order to avoid an automatic default approval of a conservation district use application.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2639 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Shimabukuro, Thielen).

Economic Development, Environment, and Technology: Ayes, 5. Noes, none. Excused, 4 (Ihara, Keith-Agaran, Ruderman, Thielen).

SCRep. 2342 (Joint) Water, Land, and Agriculture and Housing on S.B. No. 2350

The purpose and intent of this measure is to prevent the loss of large-scale agricultural parcels and to ensure that future uses of agricultural lands are for bona fide agricultural operations.

Your Committees received testimony in support of this measure from the Department of Agriculture; Kailua Neighborhood Board; Save Oahu's Neighborhoods; Carbon Drawdown Solutions, Inc.; Malama O Puna; and thirteen individuals. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Land Use Research Foundation of Hawaii, and two individuals. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that gentleman farms are a major concern in the State. Thorough and stringent measures such as this measure are needed to protect agricultural lands from subdivision, prevent the fractionalization of agricultural parcels, and promote the conservation of large agricultural tracts.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2350 and recommend that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

Housing: Ayes, 4. Noes, none. Excused, 3 (Green, Taniguchi, Slom).

SCRep. 2343 (Joint) Water, Land, and Agriculture and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2129

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to provide assistance and funding to the National Wildlife Research Center of the United States Department of Agriculture to:

- (1) Complete the research assessment of the negative impacts of the rose-ringed parakeet on the island of Kauai initiated by the Center in 2011; and
- (2) Develop and implement an effective control plan to reduce the negative impacts of the rose-ringed parakeet on the island of Kauai.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Farm Bureau. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that the rose-ringed parakeet, *Psittacula krameri*, native to Africa and India, is considered to be one of the most significant agricultural pests of important food crops. The National Wildlife Research Center of the United States Department of Agriculture estimated there were more than two thousand rose-ringed parakeets on Kauai as of 2011 and concluded that these birds are probably dispersing invasive plant species, including lilikoi and strawberry and yellow guava; possibly destroying native seeds, including koa; and potentially competing with native birds for fruits, seeds, and nesting sites. Additionally, the parakeets are damaging and reducing the yield of many crops, including lychee, longan, and rambutan. Your Committees find that there is a strong need for a more cost-effective means to control the damage created by rose-ringed parakeets on Kauai that will benefit economically important crops, reduce the potential for damage to natural resources, and avoid any negative effects on the health and safety of Kauai residents and visitors.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2129 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

SCRep. 2344 (Joint) Water, Land, and Agriculture and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2353

The purpose and intent of this measure is to exempt a county from establishing a shoreline setback line based on a long-term annual shoreline erosion rate until the time when erosion rate data is available.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, University of Hawai'i System, Conservation Council for Hawai'i, and four individuals. Your Committees received comments on this measure from the Building Industry Association of Hawaii and Chamber of Commerce Hawaii.

Your Committees find that sea level rise must be considered as the State looks to future coastal development. Your Committees appreciate the Office of Planning's recommendations on how to improve this measure to make it more balanced in its approach to coastal zone management (CZM).

Your Committees have therefore amended this measure by:

- (1) Inserting a definition for the term "coastal hazards", which includes tsunami, hurricanes, wind, storm waves, flooding, erosion, sea level rise, subsidence, and point and nonpoint source pollution, into section 205A-2, Hawaii Revised Statutes;
- (2) Moving language regarding the protection of coastal dunes from beach protection objectives to coastal ecosystems objectives and policies and deleting language referring to the protection of beaches and coastal dunes for environmental services and as natural barriers to coastal hazards;
- (3) Deleting language that would have included transportation infrastructure and residential and commercial development under economic use objectives of the CZM program;
- (4) Removing language that would have made avoidance of grading of and damage to coastal dunes a coastal hazard policy of the CZM program;
- (5) Inserting language to include preservation of coastal dunes as an objective of the CZM program;
- (6) Inserting language to prohibit developments on certain subdivided parcels if the parcels will be significantly affected by sea level rise over the period of at least fifty years from the subdivision date;
- (7) Reinserting the term "substantial", rather than "significant", relating to a development's adverse environmental or ecological affect, for purposes of approval of the development in a special management area;
- (8) Inserting language to require a development in a special management area, in order to be approved, to have adequate mitigation, including location and adaptive or resilient design, to reduce the risk of coastal hazards;
- (9) Amending language relating to alternative methods for establishing the shoreline setback line when shoreline erosion rate data is available and reinstating the existing shoreline setback requirement of twenty to forty feet;
- (10) Deleting language that would have required any exemption or waiver to the shoreline setback line to include a covenant prohibiting future improvements to the shoreline that interfere with the natural coastal process; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2353, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2353, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 4 (Dela Cruz, Riviere, Ruderman, Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3; Ayes with Reservations (Slom). Noes, none. Excused, 2 (Baker, Inouye).

SCRep. 2345 (Joint) Water, Land, and Agriculture and Judiciary and Labor on S.B. No. 2620

The purpose and intent of this measure is to extend the conclusive presumption of signage as legally adequate warning of dangerous conditions to "non-natural" conditions on unimproved public land.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of the Attorney General, Ko'olaupoko Hawaiian Civic Club, and four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committees find that in response to increased public demand for outdoor recreation on public lands and a commensurate increase in liability of the State and counties arising from risks on public lands, the Legislature established a conclusive presumption of signage as legally adequate warning of dangerous natural conditions on improved public lands, which are lands that are part of the state

or county park system or Hawaii statewide trail and access system, state parks, and state parkways. Your Committees find that while non-natural, dangerous conditions may also exist on unimproved public land, the existing conclusive presumption of signage as legally adequate warning does not cover those conditions.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2620, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2620, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2346 (Joint) Water, Land, and Agriculture and Judiciary and Labor on S.B. No. 2642

The purpose and intent of this measure is to:

- (1) Establish fines and penalties for knowingly capturing, killing, or taking a shark within state waters; and
- (3) Expand the existing prohibition on knowingly capturing or killing a manta ray to all rays.

Your Committees received testimony in support of this measure from the Humane Society of the United States, Animal Rights Hawaii, West Hawaii Humane Society, Conservation Council for Hawai'i, Defenders of Wildlife, and thirty-seven individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that sharks and rays are extremely important to ocean ecosystems because they keep the ecosystem balanced, regulate populations of other marine life, and ensure healthy fish stock and reefs. Your Committees further find that in 2010, Hawaii became the first state in the nation to enact a prohibition on the sale of shark fins and fin products; however, the law does not prohibit the taking of whole live sharks in state waters. Your Committees find that this loophole must be closed and manta ray protections must be expanded to include all rays.

Your Committees have amended this measure by:

- (1) Amending the term "shark" to mean any species of shark within the subclass *Elasmobranchii*;
- (2) Amending the term "ray" to mean any species of ray within the subclass *Elasmobranchii*;
- (3) Inserting a severability clause; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2642, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2642, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2347 (Joint) Water, Land, and Agriculture and Judiciary and Labor on S.B. No. 2512

The purpose and intent of this measure is to increase penalties and establish a fine for animal desertion.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Humane Society of the United States, Animal Rights Hawaii, Hawaii Island Humane Society, Conservation Council for Hawaii, Hawaiian Humane Society, Kauai Community Cat Project, Pele Lani Farm LLC, and forty-two individuals. Your Committees received comments on this measure from one individual.

Your Committees find that thousands of animals, primarily dogs and cats, are abandoned across Hawaii every year, contributing to increased animal control costs, animal suffering and overpopulation, increased euthanasia rates at local animal shelters, and possible harm to native wildlife. Your Committees further find that stronger penalties for animal desertion would encourage pet owners to work with local shelters and animal control contractors when a pet must be re-homed, strengthen pet retention and the human-animal bond, and protect pet owners and the animals themselves.

Your Committees have amended this measure by:

- (1) Clarifying that each violation per animal is a separate offense; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2512, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2512, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).
 Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2348 Water, Land, and Agriculture on S.B. No. 2967

The purpose and intent of this measure is to establish a community food forest program and to make an appropriation for this program.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Center for Food Safety, and thirty-eight individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

The concept of community food forests is to identify public lands, particularly those near community gathering places such as parks and community centers, that may be suitable for edible landscaping or growing edible plants. Your Committee finds that the State should be exploring community food forests as a food source alternative given the State's need for greater sustainability. Community and urban gardens may provide additional sources of low- or no-cost food to residents, while also utilizing developed land for community sustainability purposes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2967 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).

SCRep. 2349 Water, Land, and Agriculture on S.B. No. 3068

The purpose and intent of this measure is to appropriate funds for the purchase of five parcels of the Dole lands.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Farmers Union United; Waialua Farmers Cooperative; West Oahu County Farm Bureau; Farm Lovers Farmers Markets; Larry Jefts Farms, LLC; and two individuals.

Your Committee finds that viable agricultural land is limited within the State. Your Committee notes the Department of Agriculture's testimony that four of the five parcels included in this measure are viable agricultural land that will fit in the Department's non-agricultural parks program and agrees that the purchase intended by this measure is of interest to the State.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3068 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, 4 (Ruderman, Shimabukuro, Wakai, Slom).

SCRep. 2350 (Joint) Water, Land, and Agriculture and Economic Development, Environment, and Technology on S.B. No. 2773

The purpose and intent of this measure is to provide funding to directly implement three of the six goals outlined in the Aloha+ Challenge: natural resource management, clean energy, and green workforce development.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Invasive Species Council; Coordinating Group on Alien Pest Species; O'ahu Invasive Species Committee; Maui County Department of Water Supply; West Maui Mountains Watershed Partnership; Kaua'i Watershed Alliance; Hawai'i Center for Food Safety; The Nature Conservancy; Conservation Council for Hawai'i; 'Ai Pohaku; Mauigrown Coffee, Inc.; and twenty-one individuals.

Your Committees find that through the adoption of Senate Concurrent Resolution No. 69, S.D. 1 (2014), the Legislature endorsed and supported a shared statewide commitment to sustainability through the integrated approach and targets of the Aloha+ Challenge to be achieved by 2030. Given the important work that the Department of Land and Natural Resources does for the protection of the State's land and water, your Committees find that it is necessary to support the Department so that it can fulfill its natural resource management goals.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2773, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2773, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Water, Land, and Agriculture: Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Ruderman, Shimabukuro, Thielen).
 Economic Development, Environment, and Technology: Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 4 (Ihara, Keith-Agaran, Ruderman, Thielen).

SCRep. 2351 (Joint) Water, Land, and Agriculture and Economic Development, Environment, and Technology on S.B. No. 2245

The purpose and intent of this measure is to exclude certain locally sourced beach sand from the definition of “water pollutant” to allow the use of the sand for erosion mitigation on Hawaii’s beaches.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai‘i Sea Grant College Program, and one individual.

Your Committees find that Hawaii is losing its beaches at an alarming rate due to chronic shoreline retreat and shoreline armoring and that beach erosion is expected to accelerate in the future. Efforts to mitigate beach erosion have been frustrated because sand is currently defined as a water pollutant, despite the fact that sand is a natural occurrence along beaches, stream mouths, and channels. Your Committees therefore find that naturally sourced beach sand should not be considered a pollutant and should be permissible to use when appropriate to help conserve the State’s beaches.

Your Committees have amended this measure by clarifying that sand shall not be considered a water pollutant if it is utilized on the adjoining, rather than adjacent, beach or littoral cell for the purposes of beach erosion mitigation, sediment management, beach restoration, erosion control, or dune restoration.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2245, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2245, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Shimabukuro, Thielen).

Economic Development, Environment, and Technology: Ayes, 5. Noes, none. Excused, 4 (Ihara, Keith-Agaran, Ruderman, Thielen).

SCRep. 2352 (Joint) Water, Land, and Agriculture and Economic Development, Environment, and Technology on S.B. No. 2771

The purpose and intent of this measure is to:

- (1) Authorize the Department of Agriculture to establish or participate in public-private partnerships to enhance the biosecurity program and quarantine inspection process; provided that Department employees perform the actual inspections;
- (2) Require the Department of Agriculture to adopt rules to establish requirements for biosecurity facilities; and
- (3) Appropriate funds to enable the Department of Agriculture to complete the implementation of the biosecurity program to include an integrated computer manifest system.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Coordinating Group on Alien Pest Species, Conservation Council for Hawai‘i, Hawai‘i Farm Bureau, and Hawai‘i Floriculture and Nursery Association.

Your Committees find that the unchecked spread of invasive species is one of the greatest threats to Hawaii’s economy, natural environment, and the health and lifestyle of Hawaii’s people. Your Committees further find that the Department of Agriculture’s biosecurity program is vital to the public’s health and welfare. While inspections are critical, building local capacity through public-private partnerships to increase the State’s ability to stop the entry of high-risk products would enhance the State’s ability to mitigate and manage invasive species, not only to protect the fragile environment, but to grow the local agricultural industries and increase levels of self-sufficiency and sustainability.

Your Committees also find that it is necessary to ensure that confidential business information is protected during the quarantine inspection process.

Your Committees have therefore amended this measure by:

- (1) Inserting language to require that actual access to shipping documents is limited to shipping companies and Department of Agriculture personnel; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2771, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2771, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Shimabukuro, Thielen).

Economic Development, Environment, and Technology: Ayes, 5. Noes, none. Excused, 4 (Ihara, Keith-Agaran, Ruderman, Thielen).

SCRep. 2353 (Joint/Majority) Water, Land, and Agriculture and Commerce, Consumer Protection, and Health on S.B. No. 2743

The purpose and intent of this measure is to:

- (1) Exempt kalo farm cooperatives from any state or county laws regulating kalo marketing sites;

- (2) Designate the protection of kalo farming as a cultural activity as a state objective;
- (3) Exempt from income tax up to \$75,000 of income derived from kalo products, kalo farming, and activities directly related to kalo; and
- (4) Exempt from the general excise tax amounts received from kalo products, kalo farming, and activities directly related to kalo.

Your Committees received testimony in support of this measure from the Department of Agriculture, Aha Moku Advisory Committee, Life of the Land, Hawaii Farmers Union United, Farm Lovers Farmers Markets, Ho'okipa Network – Kauai and Aha Moku Kauai, Maui Venture Consulting LLC, Hawaii Island School Garden Network, and thirty-two individuals. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that kalo, also known as the taro plant, is a culturally significant plant to the State. One of the agricultural objectives of the Hawaii State Plan is to perpetuate, promote, and increase use of traditional Hawaiian farming systems and growth of traditional Hawaiian crops, such as kalo. Therefore, your Committees find that steps should be taken by the State to ensure not only that kalo farming is protected but also that kalo production is increased and assistance is provided to those who depend on kalo farming as a livelihood.

Your Committees have amended this measure by:

- (1) Moving language that establishes the protection of kalo farming as a cultural activity from section 226-7(a), Hawaii Revised Statutes, objectives and policies for the economy, to section 226-25(b), Hawaii Revised Statutes, objectives and policies for socio-cultural advancement culture;
- (2) Deleting language that would have allowed a kalo marketing site established by a kalo farm cooperative for zoning purposes without requiring a conditional use permit, variance, or special exception;
- (3) Amending language to apply the income tax and general excise tax exemptions to income derived and amounts received, respectively, from the direct sale of kalo products, land used for kalo farming, or any activity directly related to kalo farming;
- (4) Amending section 1 to reflect the amended purpose of this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2743, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2743, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 5. Noes, 2 (Nishihara, Slom). Excused, 2 (Ruderman, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Espero). Noes, 2 (Nishihara, Slom). Excused, 1 (Ruderman).

SCRep. 2354 (Joint/Majority) Water, Land, and Agriculture and Commerce, Consumer Protection, and Health on S.B. No. 2901

The purpose and intent of this measure is to amend the definition of “commercial activity” within section 200-4(a), Hawaii Revised Statutes, as it relates to the Chairperson of the Board of Land and Natural Resources’ authority to adopt rules necessary to regulate commercial activities in state waters.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources. Your Committees received testimony in opposition to this measure from Ocean Tourism Coalition, Hawaiian Style Beach Activities, Fair Wind Cruises, and eleven individuals. Your Committees received comments on this measure from two individuals.

Your Committees find that the current definition of “commercial activity” within section 200-4(a), Hawaii Revised Statutes, has been found to be too broad and vague by enforcement officials for the purposes of identifying and regulating the activity. Your Committees further find that it is necessary to clarify that commercial activity in the context of this measure applies only to vessels engaged in commercial activity.

Your Committees have amended this measure by:

- (1) Amending the term “commercial activity” to be limited to activity from the gross revenues derived from the use of the vessel; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2901, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2901, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, 1 (Slom). Excused, 2 (Ruderman, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, 1 (Slom). Excused, 1 (Ruderman).

SCRep. 2355 Water, Land, and Agriculture on S.B. No. 3031

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to finance improvements to irrigation systems throughout the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Maui County Farm Bureau; Land Use Research Foundation of Hawaii; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Cattlemen's Council; PonoHolo Ranch, Limited; Larry Jeffs Farms, LLC; and thirteen individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Hawaii Farmers Union United, and one individual.

Your Committee finds that a reliable irrigation system is the lifeline of Hawaii's agricultural industry. To ensure that Hawaii's crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve Hawaii's irrigation systems.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$12,700,000;
- (2) Inserting specific irrigation system improvement projects and funding allocations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3031, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3031, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).

SCRep. 2356 Water, Land, and Agriculture on S.B. No. 3030

The purpose and intent of this measure is to require the Department of Land and Natural Resources to research, monitor, survey, and analyze the status of the Hawaiian coot, Hawaiian moorhen, Hawaiian nene goose, Hawaiian stilt, and Hawaiian duck with respect to their interaction with agricultural practice and publish the results annually on the department's website.

Your Committee received testimony in support of this measure from the Department of Agriculture; Land Use Research Foundation of Hawaii; Hawaii Crop Improvement Association; Maui County Farm Bureau; Hawai'i Farm Bureau; Hunting, Farming, and Fishing Association; Hawaii Hunting Association; and five individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Animal Rights Hawai'i, and Conservation Council for Hawai'i.

Your Committee finds that damage to agricultural crops by the Hawaiian coot, Hawaiian moorhen, Hawaiian nene goose, Hawaiian stilt, and Hawaiian duck has increased in certain locations in the State and has harmed the livelihood of farmers. Balancing agricultural productivity and the preservation of Hawaii's wildlife is critical to the economic and environmental well-being of the State, and your Committee finds that the research and analysis proposed by this measure are essential to strike the appropriate economic and environmental balance.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050 to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3030, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3030, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).

SCRep. 2357 Water, Land, and Agriculture on S.B. No. 2983

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to provide financing to assist West Maui Investors, LLC, with permits, testing, construction, and post-construction management of two Ukumehame reservoirs.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that Ukumehame Reservoir numbers 2 and 3 are earthen embankment dams constructed side-by-side along the bottom of the western slope of the Ukumehame Gulch on the island of Maui that receive water from a small diversion off of the stream in the Ukumehame Gulch, which has historically been utilized for agricultural water in the nearby area. Your Committee further finds that following the discovery of a major leak from Ukumehame Reservoir number 3 in 2008, the water level in both Reservoir numbers 2 and 3 were drawn down to minimize the risk of failure; however, the owner modified portions of the water system to bypass Ukumehame Reservoir numbers 2 and 3 and has yet to implement any remediation work that would address public safety.

Your Committee has amended this measure by clarifying that the issuance of special purpose revenue bonds requested by this measure would finance Ukumehame Reservoir numbers 2 and 3 Kehalani offsite retention basin.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2983, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2983, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).

SCRep. 2358 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 2671

The purpose and intent of this measure is to:

- (1) Establish requirements for the regulation of veterinary technicians and the practice of veterinary technology, including registration and educational requirements; limitations on use of titles; grounds for refusal to grant, revoke, or suspend registration; and criminal penalties; and
- (2) Require the Board of Veterinary Examiners to issue certificates of registration to veterinary technician applicants beginning on July 1, 2018.

Your Committees received testimony in support of this measure from the University of Hawai'i Windward Community College Veterinary Technology Program, Hawaii Veterinary Medical Association, Hawaii Veterinary Technician Association, and seven individuals. Your Committees received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Office of the Auditor, and Board of Veterinary Examiners.

Your Committees find that the importance of veterinary technicians in the veterinary medicine industry is undeniable. Your Committees further find that the veterinary technology program at Windward Community College has been accredited by the American Veterinary Medical Association since 2013. The program enjoys ongoing popularity and outstanding success and has expanded to Maui, with plans to further expand to Hawaii island in the next year. However, graduates from the program must travel out of the State to receive the title of "registered veterinary technician", as that title is not currently recognized in Hawaii.

According to testimony received by your Committees, the primary concern of the veterinary technician industry is to ensure that individuals who use the designation "registered veterinary technician" are registered with the Department of Commerce and Consumer Affairs and that all others may continue to work under the supervision of licensed veterinarians, as permitted under existing law. This type of regulation is commonly referred to as "title protection" because it is designed to allow only authorized individuals to refer to themselves by certain titles. Your Committees conclude that since title protection is the underlying intent behind the registration of veterinary technicians, a different registration structure than the one originally contemplated by this measure may be more appropriate.

After a discussion with interested stakeholders, your Committees conclude that amendments to this measure are necessary to establish a model for a veterinary technician registration program within the Department of Commerce and Consumer Affairs that provides for title protection, establishes criteria for registration, and makes clear that nothing in the new chapter proposed by this measure precludes a licensed veterinarian from utilizing support or auxiliary personnel.

Accordingly, your Committees have amended this measure by:

- (1) Updating the definitions associated with the new chapter for veterinary technology practice;
- (2) Establishing title protection for veterinary technicians and registered veterinary technicians, including prohibitions on use of titles, requiring veterinary technicians to meet qualification requirements and register with the Department of Commerce and Consumer Affairs, and requiring the Department of Commerce and Consumer Affairs to maintain a list of the names and business addresses of registered veterinary technicians;
- (3) Deleting language that would have required the Board of Veterinary Examiners to issue certificates of registration to persons engaged in the practice of veterinary technology as a veterinary technician;
- (4) Removing certain registration requirements for veterinary technicians, including biennial license renewal and continuing education requirements;
- (5) Specifying that an applicant shall file an application in a form prescribed by the Department of Commerce and Consumer Affairs, rather than the Board of Veterinary Examiners;
- (6) Deleting language that would have established requirements for the refusal to grant, revocation, or suspension of a veterinary technician registration;
- (7) Deleting language that would have established hearing requirements associated with the refusal to grant, renew, reinstate, or restore a registration or revoke or suspend the exercise of a registration;
- (8) Deleting language that would have established criminal penalties for violations of veterinary technician registration requirements;
- (9) Deleting language that would have required one member of the Board of Veterinary Examiners to be a veterinary technician and one member, rather than two, to be a public member;
- (10) Appropriating \$95,000 out of the compliance resolution fund to implement the registration of veterinary technicians;
- (11) Requiring each veterinary technician to pay a surcharge in addition to registration or renewal fees, to be maintained in a separate account within the compliance resolution fund and noting that the surcharges shall be transferred to the compliance resolution fund until sums transferred equal the sum appropriated;
- (12) Inserting an effective date of July 1, 2016; provided that the registration of veterinary technicians shall take effect July 1, 2018; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2671, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2671, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2359 Commerce, Consumer Protection, and Health on S.B. No. 2662

The purpose and intent of this measure is to ensure that any surplus proceeds from an association foreclosure be paid to junior creditors and the former owner of the condominium instead of first being paid to the first mortgage holder.

Prior to the hearing on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 deleted the contents of this measure and inserted provisions that clarify that a director elected by a specific group of unit owners may be removed only by that group and clarify the voting requirement for certain nonresidential units in a mixed-use condominium project.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawai'i State Association of Parliamentarians, Community Associations Institute, Associa, Hawaii Council of Association of Apartment Owners, and one individual.

Your Committee finds that existing condominium law permits different classes of directors in mixed-use projects. Existing law also provides for the removal of directors by a majority of the unit owners. The proposed S.D. 1 clarifies that the removal or replacement of a director elected by a class of unit owners shall only be by a majority of the members of that class. Your Committee notes that this clarification is similar to language regarding removal of directors in the Hawaii Business Corporations Act and Hawaii Nonprofit Corporations Act.

Your Committee further finds that existing law specifies that no votes allocated to a unit owned by a condominium association may be cast for the election or reelection of directors. However, this prohibition may be an issue for mixed-use condominium projects where directors are elected by different classes of owners. For example, in a mixed-use project that contains residential and commercial units, the board of directors may be comprised of directors elected by residential unit owners and directors elected by commercial unit owners. A condominium association who owns the single commercial unit in a mixed-use project would therefore be unable to elect or reelect the directors needed to represent that commercial unit. Accordingly, this proposed measure makes an exception for votes cast for nonresidential units owned by an association to ensure that elections may be held and directors may be elected.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that notwithstanding section 514B-106(b), Hawaii Revised Statutes, or any provision in an association's declaration or bylaws to the contrary, the votes allocated to any nonresidential unit owned by an association in a mixed-use project may be cast for the election or reelection of directors by an association; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2662, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 2360 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 668

The purpose and intent of this measure is to provide immunity from liability to the Department of Health and its employees, agents, and volunteers for operating the clean and sober homes registry in good faith.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Paroling Authority, Hawaii Substance Abuse Coalition, The Salvation Army Addiction Treatment Services and Family Treatment Services, The CHOW Project, and Ku Aloha Ola Mau. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice and Ho'omana Pono, LLC.

Your Committees find that stable housing is a critical component in the continuum of substance abuse treatment and recovery. Act 193, Session Laws of Hawaii 2014, was enacted to help residents of clean and sober group homes to access a stable, alcohol- and drug-free home-like living environment that provides a means for persons to return to the community without the rigid structure of a licensed therapeutic living program.

Your Committees further find that the voluntary registry of clean and sober homes will provide a more formalized means for agencies to refer clients. However, exposure to liability is possible if information made available in good faith by registry staff results in adverse consequences or if the public attempts to hold the registry liable for incidents that occur in a particular clean and sober home.

Your Committees acknowledge that clean and sober homes are not licensed by the Department of Health and that the Department is performing non-regulatory responsibilities in the registry of these homes. This measure reduces the State's exposure to liability for operating the registry for clean and sober homes in good faith.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 668, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 668, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2361 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 2392

The purpose and intent of this measure is to:

- (1) Create immunity for certain individuals who prescribe, possess, dispense, or administer an opioid antagonist such as naloxone hydrochloride during an opioid-related drug overdose;
- (2) Authorize emergency personnel to administer opioid antagonists as clinically indicated;
- (3) Require Medicaid coverage for naloxone hydrochloride;
- (4) Exempt pharmacists and pharmacies from licensure and permitting requirements, except for drug storage requirements, for storing and distributing opioid antagonists; and
- (5) Make an appropriation for drug overdose recognition, prevention, and response, including the distribution and administration of naloxone hydrochloride.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii College of Emergency Physicians, Hawaii Community Pharmacists Association, Hawaii Medical Association, Hawaii Substance Abuse Coalition, The Drug Policy Forum of Hawai'i, Hawaii Medical Association (HMSA), The CHOW Project, The Salvation Army Addiction Treatment Services and Family Treatment Services, Kū Aloha Ola Mau, The Drug Policy Action Group, State Narcotic Policy Steering Working Group, and twenty-four individuals. Your Committees received comments on this measure from the Department of Human Services; Department of the Attorney General; Honolulu Emergency Services Department, Emergency Medical Services Division; and Board of Pharmacy.

Your Committees find that according to the Centers for Disease Control and Prevention, overdoses involving prescription painkillers are at epidemic levels. However, deaths caused by opioids are often preventable via timely administration of an opioid antagonist, such as naloxone hydrochloride. Studies have found that providing opioid overdose training and naloxone kits can help people identify signs of an opioid-related drug overdose and can help reduce opioid overdose mortality.

Your Committees further find that over half of the states in the country have enacted some form of a 911 drug immunity law or have implemented a law or developed a pilot program to allow administration of medication, like naloxone hydrochloride, to reverse the effects of an opiate-related overdose. Numerous state and national organizations also support increased access to naloxone.

Your Committees have amended this measure by:

- (1) Substituting references to "naloxone hydrochloride" with "opioid antagonist";
- (2) Inserting definitions for "harm reduction organization", "pharmacist", and "standing order";
- (3) Amending the definition of "opioid antagonist";
- (4) Amending language that allows a health care professional authorized to prescribe an opioid antagonist to prescribe, dispense, and distribute an opioid antagonist to a harm reduction organization;
- (5) Inserting language to allow a pharmacist who prescribes, dispenses, or distributes an opioid antagonist in good faith to not be subject to any criminal or civil liability or any professional disciplinary action;
- (6) Inserting language that authorizes all law enforcement officers, firefighters, and lifeguards to administer an opioid antagonist as clinically indicated and under certain circumstances;
- (7) Inserting language that provides immunity for emergency medical technicians, law enforcement officers, firefighters, and lifeguards who, acting in good faith and with reasonable care, administer an opioid antagonist to another person under certain conditions from criminal prosecution, professional licensing sanctions, and civil liability;
- (8) Deleting language that would have provided exemptions for prescription orders of naloxone hydrochloride from certain license requirements and permit requirements;
- (9) Clarifying that certain persons and harm reduction organizations acting under a standing order may store an opioid antagonist and may distribute an opioid antagonist; provided that the distribution is without charge or compensation;
- (10) Requiring the Department of Health to work with community partners on drug overdose recognition, prevention, and response;
- (11) Including volunteer firefighters and lifeguards under emergency services and law enforcement personnel who shall receive education and training on drug overdose response and treatment;

- (12) Deleting language that would have appropriated an unspecified amount for drug overdose recognition, prevention, and response;
- (13) Amending the definition of “practice of pharmacy” to include dispensing an opioid antagonist under certain conditions; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2392, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2392, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Ruderman).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2362 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 2776

The purpose and intent of this measure is to:

- (1) Allow a commissioner to attend by teleconference or videoconference a public hearing of the Public Utilities Commission in certain circumstances; and
- (2) Require at least one of the three members of the Public Utilities Commission to be a resident of a county other than the City and County of Honolulu and receive per diem compensation.

Your Committees received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Young Brothers, Limited; and one individual. Your Committees received comments on this measure from the Public Utilities Commission and one individual.

Your Committees find that the Public Utilities Commission (Commission) is responsible for protecting the interests of consumers and regulated utilities throughout the State. This measure provides the Commission with additional options for attendance at its public hearings through the use of teleconference and videoconference technology by Public Utilities Commissioners. However, according to testimony by the Public Utilities Commission, there are certain hearings, such as contested case hearings, where all three commissioners should be physically present.

Your Committees further find that the decisions of the Commission, especially in the area of energy regulation, will have a profound effect on Hawaii for many years. It is therefore essential to have the most qualified individuals serve as Public Utilities Commissioners. Although this measure proposes to require one of the three commissioners to reside on a neighbor island, your Committees have heard the concerns that this requirement may have unintended consequences, including eliminating from consideration a highly qualified individual that would otherwise be best suited for appointment to the Commission.

Accordingly, your Committees have amended this measure by:

- (1) Permitting commissioners to attend public hearings of the Commission by teleconference or videoconference in certain circumstances, except for contested case hearings;
- (2) Enabling a person’s island of residence to be used as a criterion when determining the person’s qualification to serve as a commissioner, rather than requiring at least one of the three members of the Commission to be a resident of a county other than the City and County of Honolulu;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2776, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2776, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Nishihara). Noes, none. Excused, 1 (Ruderman).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2363 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 2812

The purpose and intent of this measure is to amend Hawaii’s charitable solicitation law to: require affirmative disclosures to donors by professional solicitors; clarify exemptions from registration; and make other technical amendments.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Association of Fundraising Professionals – Aloha Chapter, and Hawai’i Alliance of Nonprofit Organizations.

Your Committees find that Hawaii does not currently require professional solicitors to inform donors at the outset of any solicitation that the person or entity is a professional solicitor and is being paid to make contact with the donor. This measure requires an affirmative disclosure in the course of solicitation, which will require professional solicitors to be more transparent and will prevent donor confusion and possible deceptive practices.

Your Committees further find that this measure also provides for the electronic submission of financial reports that professional solicitors are required to submit to the Attorney General at the end of a solicitation campaign conducted on behalf of a charity, which will provide more robust public access to information that is submitted by registered fundraisers.

Finally, your Committees appreciate the considerable input provided by the Department of the Attorney General in testimony before your Committees and note that this measure will improve and clarify Hawaii's charitable solicitation law in a manner that better reflects the realities of the nonprofit fundraising environment, promotes transparency for donors, and encourages ease of compliance for charitable nonprofits.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2812, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2812, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2364 Judiciary and Labor on S.B. No. 2434

The purpose and intent of this measure is to:

- (1) Exempt certain procurements of the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) from the procurement code;
- (2) Specify the fiduciary duties of EUTF trustees;
- (3) Amend the composition, appointing authorities, vacancy-filling procedure, and quorum requirements of the EUTF board of trustees;
- (4) Authorize the establishment of a sub-board of the EUTF Board of Trustees to administer contributions and benefits of a particular bargaining unit if the exclusive bargaining representative negotiates a specific contribution to apply to only that bargaining unit;
- (5) Authorize the EUTF board to appoint attorneys independent of the Attorney General; and
- (6) Amend the administration of EUTF monies and transfer control of EUTF from the Department of Budget and Finance to the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; University of Hawaii Professional Assembly; and Hawaii Fire Fighters Association. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of Budget and Finance, and State Procurement Office. Your Committee received comments on this measure from the Department of Human Resources Development and Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee finds that there is concern regarding the operation of the EUTF and reforms are necessary to control costs, encourage preventive care, implement wellness programs, and provide information on provider performance and efficiency. Implementation of this measure will help reduce some of the concerns associated with the operation of the EUTF.

Your Committee has amended this measure by:

- (1) Deleting section 1, relating to the procurement exemption and fiduciary duties; sections 2 and 5, relating to the hiring of independent attorneys by the EUTF; section 4, relating to vacancy-filling procedure; section 7, relating to administration of EUTF monies; and section 8, relating to the transfer of the EUTF from the Department of Budget and Finance to the Department of Human Resources Development;
- (2) Eliminating the authorization to establish a sub-board of the EUTF Board of Trustees to administer contributions and benefits negotiated for only a particular bargaining unit;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2434, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2434, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2365 Judiciary and Labor on S.B. No. 2844

The purpose and intent of this measure is to reauthorize \$10,000,000 in general revenues to be deposited into the emergency and budget reserve fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the Legislature authorized the appropriation of \$10,000,000 in general revenues to be deposited into the emergency and budget reserve fund under Act 202, Session Laws of Hawaii 2015. However, Act 202 was signed by the Governor on July 2, 2015, two days after the end of fiscal year 2014-2015, and the monies appropriated could not be deposited. This measure corrects inadvertent errors in the approval processing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2844, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2844, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2366 Judiciary and Labor on S.B. No. 2724

The purpose and intent of this measure is to:

- (1) Expand the types of projects that must comply with wage and hour requirements under chapter 104, Hawaii Revised Statutes, including construction projects on public lands regardless of whether the work is paid from public funds, and projects for which public lands are used as security for financing;
- (2) Exempt certain projects from chapter 104, Hawaii Revised Statutes;
- (3) Establish requirements that apply in situations involving private lessees of public land who contract for certain projects on public land; and
- (4) Require every lease issued by the Board of Land and Natural Resources to contain a provision requiring that all contracts for construction on the land be subject to the requirements of chapter 104, Hawaii Revised Statutes, imposed on public work projects.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO; Hawai'i Construction Alliance; Pacific Resource Partnership; Operating Engineers, Local Union No. 3; Hawaii Regional Council of Carpenters; International Union of Bricklayers and Allied Craftworkers, Local #1 of Hawaii; Hawai'i Coalition for Immigrant Rights; and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and General Contractors Association of Hawaii. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that prevailing wages ensure that workers are paid appropriate wages. However, chapter 104, Hawaii Revised Statutes, pertaining to wages and hours worked on public works, is not applicable to state lands that are leased to private developers. As a result, the workers on these projects often receive less than what they are due for their skills and labor. Implementation of this measure will ensure that workers on public lands are paid prevailing wages and encourage a more productive workforce, resulting in projects that are constructed efficiently, safely, and with quality craftsmanship.

Your Committee has amended this measure by:

- (1) Amending the definition of "governmental contracting agency" to include any public-private partnership;
- (2) For public work projects subject to chapter 104, Hawaii Revised Statutes, but not directly caused by a governmental contracting agency, retaining the authority of the Director of Labor and Industrial Relations, rather than other entities, to enforce chapter 104, Hawaii Revised Statutes;
- (3) Deleting the requirement that every lease issued by the Board of Land and Natural Resources contain a provision requiring that all contracts for construction on the land be subject to the requirements of chapter 104, Hawaii Revised Statutes, imposed on public work projects;
- (4) Inserting language to clarify that the Director of Labor and Industrial Relations has authority to terminate a contractor's or subcontractor's right to proceed with work for failure to pay agreed wages;
- (5) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2724, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2724, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Slom).

SCRep. 2367 Judiciary and Labor on S.B. No. 2104

The purpose and intent of this measure is to:

- (1) Create standards and procedures for income withholding, similar to those used for outstanding child support payments, for purposes of enforcing restitution orders;
- (2) Amend the definition of "debt" relating to the recovery of money owed to the State to include court-ordered restitution subject to civil enforcement;

- (3) Provide priority of income withholding orders;
- (4) Require that any bail posted by a defendant be applied toward payment of any court-ordered restitution in the same case;
- (5) Extend victims' access to adult probation records to include access to payment compliance records;
- (6) Make permanent Act 119, Session Law of Hawaii 2011, which allows certain adult probation records to be provided to certain case management, assessment, or treatment service providers upon the screening for admission, acceptance, or admittance of the defendant into a treatment program; and
- (7) Appropriate funds to enhance restitution collection, including the hiring of necessary staff.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission; Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kauai; and one individual. Your Committee received comments on this measure from the Judiciary, Department of the Attorney General, and Department of Taxation.

Your Committee finds that victim restitution is a paramount victim's right that addresses a wide range of effects of crime, including physical, emotional, psychological, financial, and social impacts. This measure offers a comprehensive approach to restitution collection so that victims of crimes will not be provided hollow promises when the court orders restitution.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Attorney General to add references to chapters 580 and 584, Hawaii Revised Statutes, as having priority over an income withholding order for court-ordered restitution;
- (2) Adding a severability clause;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2104, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2104, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2368 Judiciary and Labor on H.B. No. 401

The purpose and intent of this measure is to:

- (1) Require that an affidavit on an application for voter registration be part of the application associated with the issuance of a motor vehicle driver's license or identification card;
- (2) Allow applicants for a new or renewed motor vehicle driver's license, provisional license, or instruction permit, or new, renewed, or duplicate identification card to be automatically registered to vote if that person is not already registered to vote and opts to be registered to vote;
- (3) Require the examiner of drivers to collect and transmit the necessary personal information required for voter registration and transmit the information to the clerk of the county in which the applicant resides;
- (4) Require the clerk of the county in which the applicant resides to review the application and register the name of the voter in the general county register if the application is approved; and
- (5) Make various conforming amendments to reflect the requirement of automatic voter registration on an application for a motor vehicle driver's license or identification card.

Your Committee received testimony in support of this measure from the Office of Elections; Office of Hawaiian Affairs; Office of the County Clerk, County of Kaua'i; League of Women Voters of Hawaii; and two individuals. Your Committee received comments on this measure from Common Cause Hawaii and one individual.

Your Committee finds that Hawaii has one of the lowest voter registration rolls and participation rates in the country. This measure will assist in increasing voter registration by providing the option for individuals when applying for driver's licenses and state identification cards to register to vote. However, your Committee notes the concerns raised in testimony regarding potential conflicts with the federal National Voter Registration Act and whether providing an opt-in system is problematic, especially when opt-out systems in other states have proven successful. Your Committee believes that any conflicts with the federal law should be addressed as this measure continues through the legislative process.

Your Committee has amended this measure by:

- (1) Allowing applicants for motor vehicle driver's licenses or identification cards to be automatically registered to vote unless the applicant affirmatively declines to register to vote;
- (2) Requiring the examiner of drivers to electronically transmit the necessary information to election officials and the statewide voter registration system, in addition to the appropriate county clerk;
- (3) Authorizing access to and electronic transmission of databases maintained or operated by the counties or the Department of Transportation containing driver's license or identification card information to election officials and the statewide voter registration system;

- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 401, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 401, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2369 Commerce, Consumer Protection, and Health on S.B. No. 2815

The purpose and intent of this measure is to afford the same privileges and immunities to professionally licensed or certified state employees that are afforded to other state employees.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Public Safety; Department of Taxation; City and County of Honolulu, Department of Human Resources; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that state employees are generally afforded qualified immunity for torts as a result of actions taken while in the course and scope of their state employment, which affords these employees protection from individual liability. However, in the recent case of *Slingluff v. State*, 317 P.3d 683 (Haw. Ct. App. 2013), the Intermediate Court of Appeals held that prison physicians were not entitled to qualified immunity for the exercise of their professional medical judgment. According to testimony received by your Committee, the *Slingluff* court created a distinction between medical judgment and governmental judgment, effectively nullifying qualified immunity for the same types of government officials to whom Hawaii's appellate courts have long granted immunity. Your Committee further finds that the potential for personal liability can have a negative impact on hiring and retention of well-qualified professionals who are interested in working for the State.

Your Committee has heard the concerns regarding the use of professional discretion and governmental discretion in this measure and whether this measure may give immunity beyond what was provided to state employees prior to the *Slingluff* decision. Your Committee understands these concerns and notes the importance of holding professionally licensed or certified state employees to appropriate professional standards of care.

In response to these concerns, your Committee requested that interested stakeholders work together to seek a balanced procedure that would address the liability of state employees in tort claims. Your Committee notes that the interested stakeholders have almost reached a consensus on this procedure to address liability of state employees. Amendments to this measure are therefore necessary to incorporate language agreed to by interested stakeholders.

Your Committee has amended this measure by:

- (1) Removing language that stated a person exercising professional discretion while in the course and scope of state employment shall be deemed to be exercising governmental discretion and therefore afforded the same privileges and immunities that are afforded to other state employees;
- (2) Clarifying that the State waives its immunity from liability and shall be exclusively liable for all tort actions on claims for money damages for injury or loss of property, or personal injury or death caused by the negligent or wrongful act or omission of any professionally licensed or certified employees of the State while acting within the scope of the employee's office or employment;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure remains a work in progress and additional consideration may be warranted by your Committees on Judiciary and Labor and Ways and Means.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2815, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2815, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2370 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 2849

The purpose and intent of this measure is to clarify the State's escrow depositories law, by: adding definitions; authorizing the Commissioner of Financial Institutions to use NMLS for its escrow depositories program; adding criminal history record check and disclosure requirements to licensure and change in control applications; updating the escrow depository license renewal date for consistency with NMLS; clarifying sale or transfer of license or change in control requirements; and updating certain fees.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and First American Title Company.

Your Committees find that criminal history record checks are not currently required for escrow depository principals, officers, and controlling parties. This measure improves the Commissioner of Financial Institutions' ability to determine the suitability of new applicants for escrow depository licenses by requiring litigation disclosure and criminal history record checks, which will enhance

protection of consumer funds and transactions involving escrow depositories. This measure also requires the Commissioner to approve a license transfer through a change in control event, which will ensure that any entity entering into the business of an escrow depository meets the same criteria as a new applicant. Your Committees further find that this measure streamlines the escrow depository licensing process by authorizing the Commissioner to use NMLS, a nationwide online licensing and registration system for state-licensed providers of financial services, and makes other amendments to the escrow depositories law for clarity and to support licensee compliance.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2849, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2849, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2371 (Joint) Tourism and International Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2693

The purpose and intent of this measure is to allow transient accommodations brokers to register as tax collection agents to collect and remit general excise and transient accommodations taxes on behalf of operators and plan managers using their services.

Your Committees received testimony in support of this measure from the Department of Taxation, Airbnb, Hawaii Lodging & Tourism Association, Rental By Owner Awareness Association, and numerous individuals. Your Committees received testimony in opposition to this measure from Unite Here Local 5. Your Committees received comments on this measure from the County of Kauai Office of the Prosecuting Attorney, County of Kauai Department of Planning, 17 Palms Kauai, and Tax Foundation of Hawaii.

Your Committees find that allowing a private person to act as a tax collection agent is likely to ease the burden of collecting taxes. As an example, section 237-9, Hawaii Revised Statutes, allows a person engaged in network marketing, multi-level marketing, or other similar business to enter into an agreement with the Department of Taxation to act as a tax collection agent on behalf of its direct sellers. Your Committees find that similarly allowing a transient accommodations broker to act as a tax collection agent on behalf of providers of transient accommodations that utilize the services of the transient accommodations broker may facilitate the collection of transient accommodations taxes and general excise taxes.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2693, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2693, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Majority Leader and Chair on behalf of the Committees.

Tourism and International Affairs: Ayes, 4. Noes, none. Excused, 2 (Tokuda, Slom).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2372 (Joint) Tourism and International Affairs and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2987

The purpose and intent of this measure is to:

- (1) Make permanent the annual \$103,000,000 allocation of transient accommodations tax revenues to the counties; and
- (2) Establish a state-county functions working group in 2022 to recommend the allocation of transient accommodations tax revenues between the State and counties based upon the division of duties and responsibilities for the provision of public services.

Your Committees received testimony in support of this measure from the Department of Budget and Finance and one individual. Your Committees received testimony in opposition to this measure from the Office of the Mayor of the County of Kaua'i, Office of the Mayor of the City and County of Honolulu, Office of the Mayor of the County of Maui, Maui County Council, Kaua'i County Council, Hawai'i State Association of Counties, and one individual. Your Committees received comments from the County of Hawaii Office of the Mayor, Hawaii Council of Mayors, and Tax Foundation of Hawaii.

Your Committees find that Act 174, Session Laws of Hawaii 2014, established the current cap on the distribution to the counties at \$103,000,000 for fiscal years 2014-2015 and 2015-2016, and \$93,000,000 for each fiscal year thereafter. The \$93,000,000 cap is the cap prior to Act 174. The legislative history of this provision does not reveal the reasons for raising the cap and then lowering it. Conference Committee Report No. 145-14 on H.B. No. 1671, H.D. 1, S.D. 1, C.D. 1 (Regular Session of 2014), states: "Your Committee on Conference finds that the Legislature, in enacting Act 161, Session Laws of Hawaii 2013, established a cap of \$93,000,000 on the amount of transient accommodations tax revenues allocated to the counties. Your Committee on Conference believes that increasing the maximum amount of transient accommodations tax revenues allocated to the counties will allow the counties to better provide for public safety, parks, road maintenance, and visitor-related services."

Your Committees further find that the counties continue to struggle financially with the costs of providing basic public services. Therefore, making the \$103,000,000 cap permanent is in the best interests of the State and the counties.

Your Committees have amended this measure by:

- (1) Inserting an effective date of June 22, 2026; and
- (2) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Tourism and International Affairs and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2987, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2987, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Majority Leader and Chair on behalf of the Committees.

Tourism and International Affairs: Ayes, 4. Noes, none. Excused, 2 (Kim, Slom).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2373 Tourism and International Affairs on S.B. No. 2673

The purpose and intent of this measure is to require a travel agency that sells activities individually or as part of a tour package to register as an activity desk.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that a travel agency is required by law to register prior to selling or advertising travel services and an activity desk is required to register prior to selling, contracting for, arranging, or advertising activities that are furnished by an activity provider. Travel agencies may sometimes act as activity desks when they sell or arrange activities furnished by an activity provider for travelers either as individual activities or as part of a tour package.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2673, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Majority Leader on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Tokuda, Slom).

SCRep. 2374 (Joint) Higher Education and the Arts and Commerce, Consumer Protection, and Health on S.B. No. 2767

The purpose and intent of this measure is to improve students' mental health treatment and services at the University of Hawaii at Manoa by appropriating funds for the University to hire three psychologists and one case manager.

Your Committees received testimony in support of this measure from the University of Hawaii System, University of Hawaii at Manoa Graduate Student Organization, and twenty-three individuals.

Your Committees find that poor mental health among college students is a growing concern nationwide. A 2011 report by the American Psychological Association indicates that in addition to college counseling centers becoming increasingly understaffed, there is a rise in the number of students struggling with eating disorders, substance abuse, and self-inflicted injury, as well as an increase in the number of students seeking help for serious mental health problems. A 2010 survey by the American College Health Association found that over forty-five percent of students reported feeling hopeless and over thirty percent reported feeling so depressed that it was difficult to function.

Your Committees also find that the University of Hawaii at Manoa has a need for more staff to adequately address students' mental health needs. While national guidelines call for one licensed psychologist for every one thousand to one thousand five hundred students, the University of Hawaii at Manoa has an average enrollment of twenty thousand students and only seven and one-half tenured track psychologist positions. During the 2014-2015 academic year, the University serviced approximately 1,300 students and provided almost 8,000 hours of therapy. As of February 2016, the wait time for mental health services at the University for non-urgent clients was sixteen days. Your Committees recognize a need to improve mental health services at the University by reducing the amount of time students are on the waitlist for individual psychotherapy services, providing consistent follow-up for student mental health clients, and retaining staff at the counseling and student development center that are currently leaving to work in private practice as the result of uncompetitive pay.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2767, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2767, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 4. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2375 (Joint) Higher Education and the Arts and Commerce, Consumer Protection, and Health on S.B. No. 3017

The purpose and intent of this measure is to address the shortage of family medicine primary care physicians for rural Oahu and neighbor island communities by making an appropriation to support and expand the medical residency education programs at the John A. Burns School of Medicine.

Your Committees received testimony in support of this measure from the University of Hawaii System, Hawaii Pacific Health, Hawaii Medical Service Association, Hawaii Academy of Family Practice, The Queen's Health Systems, and two individuals.

Your Committees find that studies of the physician workforce in Hawaii indicate a shortage of seven hundred physicians, with the greatest shortages existing in primary care specialties and rural areas. Increasing demands on the State's health care system due to population growth, aging, and the prevalence of chronic diseases require an increase in the existing physician base. Access to a personal physician decreases morbidity and mortality, promotes early detection and careful management of chronic diseases, and controls health care costs by deferring unnecessary hospital admissions and unnecessary emergency department visits.

Your Committees also find that considerable educational debt deters medical students from primary care specialties and rural employment because other specialties in urban areas often offer higher compensation.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3017 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 4. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2376 (Joint) Higher Education and the Arts and Commerce, Consumer Protection, and Health on S.B. No. 2388

The purpose and intent of this measure is to:

- (1) Permit monies in the John A. Burns School of Medicine special fund to be used for loan repayment for certain health care professionals;
- (2) Remove the cap on expenditures from the John A. Burns School of Medicine special fund; and
- (3) Make permanent the physician workforce assessment fee and related requirements for use of monies in the John A. Burns School of Medicine special fund.

Your Committees received testimony in support of this measure from the University of Hawaii System, The Queen's Health Systems, Hawaii State Rural Health Association, Lanai Community Health Center, and four individuals.

Your Committees find that a shortage of primary health care providers affects healthcare costs and threatens the health of Hawaii's residents, particularly in rural communities and on the neighbor islands. Your Committees further find that the University of Hawaii John A. Burns School of Medicine's physician workforce assessment is a valuable tool that provides ongoing assessment and planning for Hawaii's physician workforce. The workforce assessment program has successfully identified the unmet need for physicians across the State and implemented efforts to recruit and retain healthcare providers.

Your Committees additionally find that it is important to accept and disburse funds toward healthcare student loan repayment to encourage healthcare professionals to work in lower paying geographic areas and specialties such as primary care. The rising cost of education for healthcare professionals deters many healthcare professionals from working in rural areas or primary care, which limits access to needed healthcare. The Hawaii state loan repayment program gives primary healthcare providers an incentive to provide care at designated health professional shortage areas in Hawaii in order to receive assistance with repayment of educational loan debt.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2388 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 4. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2377 (Joint) Higher Education and the Arts and Water, Land, and Agriculture on S.B. No. 2141

The purpose and intent of this measure is to support the growth and sustainability of Hawaii's agriculture industry by appropriating funds for the sustainable and organic agriculture program at the University of Hawaii College of Tropical Agriculture and Human Resources.

Your Committees received testimony in support of this measure from the University of Hawaii College of Tropical Agriculture and Human Resources, Department of Agriculture, Hawaii Farm Bureau Federation, Hawaii Farmers Union United, Hawaii Island School Garden Network, Kānalani Ohana Farm, and twenty-four individuals. Your Committees received testimony in opposition to this measure from Ho'omana Pono, LLC.

Your Committees find that across the State farmers are experimenting with different ways of producing agricultural products in ways that are sustainable and beneficial to the social, economic, and environmental well-being of farm families and rural communities. Your Committees further find that the sustainable and organic agriculture program at the University of Hawaii College of Tropical Agriculture and Human Resources is committed to increasing awareness and adoption of sustainable and organic practices across the State while addressing the challenges of creating more profitable farm incomes, environmental stewardship, and stable and prosperous

farm communities. Your Committees find that supporting the growth of the sustainable and organic agriculture program will strengthen the organic industry in Hawaii which will help the State's agricultural industry and reduce the volume of imported organic products and invasive species that are commonly found on imported organic produce.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2141 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 3. Noes, none. Excused, 1 (Kidani).

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Ruderman, Wakai, Slom).

SCRep. 2378 Housing on S.B. No. 2092

The purpose and intent of this measure is to appropriate funds to and out of the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, EAH Housing, PHOCUSED, FACE, Catholic Charities Hawaii, Ali'i Pauahi Hawaiian Civic Club, The CHOW Project, Hawaii Association of REALTORS, Partners in Care, Hawaii Appleseed Center for Law and Economic Justice, and one individual. Your Committee received comments on this measure from the Coordinator on Homelessness under the Office of the Governor.

Your Committee finds that there is a serious need to develop affordable rental housing in Hawaii to meet the needs of individuals and families who are homeless or at risk of becoming homeless. The rental housing revolving fund provides loans to fill financing gaps to enable the development, preservation, or rehabilitation of affordable rental housing projects. According to the Hawaii Housing Finance and Development Corporation, a bond-financed appropriation was requested in the supplemental budget to infuse \$75,000,000 into the rental housing revolving fund, which would help finance the development of six hundred affordable rental units.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2092 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Slom).

SCRep. 2379 Housing on S.B. No. 2563

The purpose and intent of this measure is to:

- (1) Make the projects of the Hawaii Public Housing Authority eligible for grants from the rental housing revolving fund;
- (2) Make the Hawaii Public Housing Authority eligible for the lease of land from the Hawaii Housing Finance and Development Corporation at token lease rent; and
- (3) Revise the preferences and priorities for the funding of projects from the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that projects of the Hawaii Public Housing Authority are operated for low-income family and elderly renters and, consequently, provide affordable rental housing for the class of people who most need state assistance. Therefore, the Authority should have the opportunity to compete for funds from the rental housing revolving fund. This measure would also assist the Authority with its redevelopment projects within the transit-oriented development zones on Oahu, which are anticipated to increase the number of affordable housing units.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2563 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2380 Housing on S.B. No. 2566

The purpose and intent of this measure is to transfer excess monies from the dwelling unit revolving fund and rental assistance revolving fund to the rental housing revolving fund.

Your Committee received comments on this measure from the Coordinator on Homelessness under the Office of the Governor. Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that more affordable rental housing is needed by the people of Hawaii. Because the rental housing revolving fund is the main source of capital from the State for affordable rental housing projects, the rental housing revolving fund should be augmented to enable the development of more affordable rental housing projects.

Your Committee further finds that the rental assistance revolving fund is not particularly robust and that excess amounts in that fund should be transferred to the rental housing revolving fund to continue to finance rental housing for lower income households.

Your Committee has amended this measure by:

- (1) Deleting findings related to the dwelling unit revolving fund;

- (2) Deleting section 2, which would have transferred \$20,000,000 from the dwelling unit revolving fund to the rental housing revolving fund; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2566, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2566, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2381 Human Services on S.B. No. 2878

The purpose and intent of this measure is to:

- (1) Extend the deadline for former foster youth to apply for financial assistance for higher education costs;
- (2) Clarify that financial assistance available to former foster youth is for related higher education costs and not specifically limited to room and board costs; and
- (3) Clarify eligibility and program requirements for the ongoing implementation of the young adult voluntary foster care program.

Your Committee received testimony in support of this measure from Effective Planning and Innovative Communication Ohana, Inc.; Family Programs Hawaii; Hawaii Youth Services Network; Hawai'i Helping Our People Envision Success; and eleven individuals.

Your Committee finds that improving the transition of foster youth and former foster youth to the challenges of adulthood requires a supportive safety net and system that include an opportunity for higher education. Extending the deadline to apply for financial assistance for higher education costs from age twenty-two to twenty-six allows foster youth and former foster youth more time to access higher education. The young adult voluntary foster care program also assists with the transition to adulthood. Allowing the financial assistance to cover related costs of higher education and not just room and board give the foster youth and former foster youth more flexibility in pursuit of higher education.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2878, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2878, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2382 (Joint) Housing and Economic Development, Environment, and Technology on S.B. No. 3077

The purpose and intent of this measure is to establish a transit-oriented development advisory group to develop, in collaboration with the Office of Planning, a unified action plan for the implementation of transit-oriented development on a state level.

Your Committees received testimony in support of this measure from the Office of Planning, Hawaii Public Housing Authority, Chamber of Commerce Hawaii, and Building Industry Association of Hawaii. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that in 2015, the ad-hoc state transit-oriented development task force was convened to identify and determine priority sites and projects that should be considered for transit-oriented development master planning and development. Task force members included state and city and county agencies, elected officials, and numerous private individuals and entities. In December 2015, the task force submitted a report to the Legislature, which included various recommendations such as formally constituting the state transit-oriented development task force to promote effective and efficient transit-oriented development planning and coordination in developing a unified action plan for transit-oriented development on state transit-oriented development projects. This measure attempts to adopt the task force's recommendation in order to continue collaborative efforts on transit-oriented development in the State.

As affirmed by the records of votes of the members of your Committees on Housing and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3077 and recommend that it pass Second Reading and be referred to your Committees on Transportation and Energy and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 5. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2383 (Joint) Housing and Judiciary and Labor on S.B. No. 2090

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to support the continued implementation of the State's Housing First program and expansion of the program outside of Oahu to assist residents who are chronically homeless.

Your Committees received testimony in support of this measure from the Coordinator on Homelessness under the Office of the Governor, Department of Human Services, Catholic Charities Hawai'i, Mental Health America of Hawai'i, The CHOW Project, Hawaii Children's Action Network, PHOCUSED, and three individuals.

Your Committees find that the Housing First program is a collaborative effort between the Department of Human Services and the United States Department of Housing and Urban Development that provides housing and support services for chronically homeless individuals, including those who have an addiction or mental illness, or both. Housing First is a nationally recognized best practice and has been proven to be an effective approach to helping people experiencing chronic homelessness get off of the streets in several cities such as Portland, Oregon; Los Angeles, California; Denver, Colorado; Quincy, Massachusetts; and Portland, Maine. Currently, the Housing First program only serves the island of Oahu, despite the needs of individuals on the neighbor islands. This measure ensures that all individuals in the State who are chronically homeless are served.

As affirmed by the records of votes of the members of your Committees on Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2090 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 3 (Green, Taniguchi, Slom).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2384 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2667

The purpose and intent of this measure is to:

- (1) Require health insurers to promptly pay clean claims for services; and
- (2) Repeal the exemption of Medicaid claims from the clean claims definition.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Healthcare Association of Hawaii, and The Queen's Health Systems. Your Committees received comments on this measure from the Department of Human Services and 'Ohana Health Plan.

Your Committees find that a claim is "clean" when a provider has submitted complete and undisputed information for an insurer to make a payment for a service provided on a covered benefit. Your Committees further find that prompt payment of claims is vital to the operations of health care providers who rely on timely reimbursement. Delays in cash flow can jeopardize operations for all health care providers, but are especially problematic for smaller providers and those that care for a disproportionately high share of Medicaid patients.

Your Committees additionally find that under existing law, insurers must pay non-Medicaid clean claims within fifteen days of receipt of an electronic claim and within thirty days of receipt of a paper claim. However, Medicaid insurers do not have to follow these guidelines. Accordingly, this measure creates parity under the State's clean claims law and requires Medicaid insurers to promptly pay providers caring for Medicaid enrollees.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2667 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

Human Services: Ayes, 7. Noes, none. Excused, none.

SCRep. 2385 (Joint/Majority) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2478

The purpose and intent of this measure is to establish a long-term care surcharge on state general excise tax and use tax as a dedicated source of funding under the long-term care financing program.

Your Committees received testimony in support of this measure from the Policy Advisory Board for Elder Affairs; Maui County Office on Aging; Long Term Services and Supports Feasibility Study; Paraprofessional Healthcare Institute; Faith Action for Community Equity; Caring Across Generations; National Domestic Workers Alliance; Jobs with Justice, Service Employees International Union; Center for Medicare Advocacy, Inc.; National Respite Coalition; Justice in Aging; LeadingAge; Older Women's League; Pilipino Workers Center – Southern California; Advance CLASS, Inc.; Make It Work; Hand in Hand: The Domestic Employers Network; International Longshore & Warehouse Union Local 142; and over fifty individuals. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association, Chamber of Commerce Hawaii, Hawaii Association of REALTORS, Meadow Gold Dairies, National Federation of Independent Business, and two individuals. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, Executive Office on Aging, Office of Information Practices, Tax Foundation of Hawaii, Grassroot Institute of Hawaii, and AARP Hawaii.

Your Committees find that Hawaii is experiencing a rapid demographic change. Over the next two decades, the number of adults over the age of sixty-five is expected to grow by more than sixty percent. This shift in demographics is putting increased stress on families, who provide the vast majority of care for elders in Hawaii. As the population ages, more people need assistance to manage their daily needs. According to testimony received by your Committees, among people over the age of sixty-five, fifty percent have multiple chronic health conditions. For individuals over the age of eighty, one in three will develop functional limitations that will require assistance with activities of daily living, such as bathing, dressing, managing medications, and preparing meals. Your Committees further find that providing at-home support can strain the emotional, physical, and financial well-being of family caregivers. According to the AARP, when caregivers leave the workforce, they lose on average over \$300,000 in lifetime income.

Your Committees additionally find that the Long-Term Care Commission, established by the Legislature, has concluded that a mandatory limited public insurance program is the only feasible means of providing nearly all Hawaii residents with the financial support needed to access long-term care services. The Legislature has previously funded a feasibility study and a technical actuarial study for a public insurance fund with limited benefits. This measure reflects the results from that research.

According to testimony from the Long Term Services and Supports Feasibility Study, several funding options to finance the long-term care program were explored, including an income tax, payroll tax, and general excise tax surcharge. This measure proposes to establish a long-term care surcharge on state general excise tax and use tax. According to testimony, a surcharge will ensure that the program remains sustainable. This is due in part to small but not insignificant contributions from visitors to Hawaii who will likely never use the benefits from the program, but who will pay up to one-third of the fund.

Your Committees also find that this measure provides an innovative solution to helping Hawaii's families cope with the many costs of caregiving. By providing a limited benefit of \$70 per day for 365 days, this measure provides a care floor that ensures a family can hire paid support to supplement the care the family is able to provide. Your Committees further find that the program proposed by this measure is intended to provide assistance in the early months of the need for care. With a 365 service day benefit, families will be able to hire part-time caregivers for a few hours each day. Families will also be able to spread benefits out, using services as the family schedule requires. According to testimony received by your Committees, most people who need some long-term care may not use benefits for very long. Your Committees note that the program benefits established by this measure exceed the average and median length of care found in the Centers for Disease Control and Prevention National Home and Hospice Care Surveys.

Finally, your Committees note that the Department of Taxation and the Office of Consumer Protection have suggested amendments that will help the long-term care surcharge program work more efficiently under state law. Amendments to this measure incorporating these suggested improvements are therefore necessary.

Your Committees have amended this measure by:

- (1) Clarifying that the long-term care surcharge on state tax shall not apply to gross income or gross proceeds from binding written contracts entered into prior to July 1, 2015, that do not permit the passing on of increased rates of taxes;
- (2) Deleting language that provided for an additional penalty of ten percent for failure to file an additional schedule, as the long-term care surcharge applies regardless of what county in the State a person's income is sourced;
- (3) Clarifying that no long-term care surcharge on state tax shall be imposed on any use taxable under the State's use tax law at the one-half percent tax rate or upon any use that is not subject to taxation or that is exempt from the State's use tax law;
- (4) Deleting language that would have required the Director of Taxation to annually compile and provide the name, address, social security number, filing status, taxable year, and date of filing of all resident taxpayers to the board of trustees of the long-term care financing program, as this would have required the Director to disclose certain confidential taxpayer information to the board of trustees;
- (5) Clarifying that the actuarial report and the work product, papers, documents, and data used or prepared by the actuary in preparing the actuarial report shall be public records disclosable pursuant to chapter 92F, Hawaii Revised Statutes;
- (6) Requiring individuals to present to the board of trustees of the long-term care financing program a tax clearance certificate signed by the Director of Taxation for purposes of qualifying for benefit payments for long-term care services under the program;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2478, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2478, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

Human Services: Ayes, 5; Ayes with Reservations (Ruderman, Thielen). Noes, 2 (Riviere, Slom). Excused, none.

SCRep. 2386 (Joint) Judiciary and Labor and Commerce, Consumer Protection, and Health on S.B. No. 2664

The purpose and intent of this measure is to require health benefits plans under the Hawaii Employer-Union Health Benefits Trust Fund to include all benefits required under article 10A of chapter 431, Hawaii Revised Statutes, article 1 of chapter 432, Hawaii Revised Statutes, and chapter 432D, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Hawaii Medical Association and one individual. Your Committees received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committees find that health benefits plans established by the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) are exempt from new covered benefits requirements applicable to the State's insurance code. Implementation of this measure will provide equity in the State's healthcare system by ensuring that EUTF's members and their dependents have access to the same healthcare services and treatment required under state law for other contracts and plans for health care coverage.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2664 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 2387 (Joint) Judiciary and Labor and Economic Development, Environment, and Technology on S.B. No. 2103

The purpose and intent of this measure is to:

- (1) Allow a judge or magistrate to authorize a person or entity to assist a law enforcement officer or deputy of a sheriff or chief of police with the execution of a search warrant; and
- (2) Allow the court to authorize a law enforcement officer to obtain technical assistance in the execution of a search warrant from individuals or entities who are located within or outside of the State in the examination of an electronic device or storage media.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kaua'i; and Police Department, City and County of Honolulu.

Your Committees find that existing law requires that a search warrant be executed by a law enforcement officer. However, there are many cases involving electronic evidence that law enforcement officers are unable to execute without specialized assistance from non-law enforcement personnel. Thus, this measure facilitates more efficient and effective investigations and searches while allowing the judge to set limitations on the manner in which the assistance is provided.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2103 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 2 (Thielen, Slom).

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Espero, Keith-Agaran).

SCRep. 2388 (Joint) Judiciary and Labor and Economic Development, Environment, and Technology on S.B. No. 2107

The purpose and intent of this measure is to amend the definition of "pen register" as used in electronic eavesdropping laws to include cell phones and other communications devices among those that the numbers transmitted to and from may be recorded.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kauai; and Police Department, City and County of Honolulu.

Your Committees find that the existing definition of "pen register" uses dated references to devices attached to telephone lines or impulses transmitted through telephone lines. While telephone lines are still used, a far greater number of cellular devices are being used. This measure makes the definition technology neutral by updating the definition to include devices that do not use a landline but still make phone calls, such as cellular telephones, and electronic devices that make phone calls via the Internet or software applications, such as Skype, Google Voice, and iCall.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2107 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 2 (Thielen, Slom).

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Espero, Keith-Agaran).

SCRep. 2389 (Joint) Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2758

The purpose and intent of this measure is to make various changes regarding the organization, membership, and duties of the Pacific International Space Center for Exploration Systems (PISCES) to:

- (1) Allow, subject to funding, the Office of Aerospace Development to hire various positions;
- (2) Establish PISCES as a division of the Office of Aerospace Development that is to be located on the island of Hawaii;
- (3) Direct the PISCES staff to promote and market Hawaii as a research and development destination and allow PISCES to hire various positions, subject to funding;
- (4) Rename the Board of Directors of PISCES as the Advisory Board of Directors of PISCES, reduce the membership to seven members, amend the advisory board's powers and duties, and transfer various duties of the PISCES Executive Director to PISCES staff; and
- (5) Simplify PISCES' annual report contents to just a summary of PISCES' significant accomplishments and activities and the status of the development of partnerships.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Honeybee Robotics. Your Committees received testimony in opposition to this measure from the Pacific International Space Center for Exploration Systems.

Your Committees find that PISCES, located in Hilo, conducts environmentally-safe field tests on Hawaii's volcanic terrain to experiment and validate advanced space technologies, helps diversify industries in the State, and spurs development of technical jobs and high-tech job opportunities for local students. Your Committees further find that combining PISCES into one organization as an agency attached to the Office of Aerospace Development will help to continue the economic development of aerospace in the State.

Your Committees agree with the Department of Business, Economic Development, and Tourism's testimony that having both a director and executive director of the Office of Aerospace Development is redundant and unnecessary.

Your Committees have therefore amended this measure by:

- (1) Repealing the director position of the Office of Aerospace Development;
- (2) Changing the effective date to July 1, 2017;
- (3) Inserting an effective date of July 1, 2016, for the appropriation; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2758, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2758, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 6. Noes, none. Excused, 3 (Baker, Ihara, Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

SCRep. 2390 (Joint/Majority) Economic Development, Environment, and Technology and Transportation and Energy on S.B. No. 2995

The purpose and intent of this measure is to establish a business mitigation relief pilot program to assist businesses along the Honolulu rail transit project alignment that have been negatively impacted by the construction of the rail.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii, Katsumi Kazama Family Partners, and eighteen individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Honolulu rail transit project represents the largest capital project in the history of the City and County of Honolulu. Local businesses along the rail project alignment are currently being economically impacted by the construction of the rail project. While the Honolulu Authority for Rapid Transportation is adhering to federal and state laws that require the relocation of and advisory assistance to all businesses affected by the construction, this assistance may not be adequate.

Your Committees have concerns regarding the funding mechanism of this measure and recommend that if your Committee on Ways and Means chooses to pass this measure, that it consider requiring a portion of the surcharge on the general excise tax and use tax be designated to support business mitigation relief.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2995, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2995, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 6; Ayes with Reservations (Baker, Ruderman, Thielen).

Noes, 1 (Slom). Excused, 2 (Galuteria, Keith-Agaran).

Transportation and Energy: Ayes, 3. Noes, 2 (Kidani, Slom). Excused, 2 (English, Nishihara).

SCRep. 2391 (Joint) Judiciary and Labor and Commerce, Consumer Protection, and Health on S.B. No. 2101

The purpose and intent of this measure is to:

- (1) Amend section 633-27, Hawaii Revised Statutes (HRS), relating to the powers of the District Courts, to:
 - (A) Establish exclusive jurisdiction of the Small Claims Division of the District Court over cases in which the amount claimed is \$1,000 or less; and
 - (B) Expand the jurisdiction of the Small Claims Division over personal property cases to include the return of any personal property, rather than leased or rented personal property, worth \$5,000 or less;
- (2) Allow a plaintiff to request removal of a small claims case to be heard in the ordinary procedures of the District Court when a counterclaim is filed; and
- (3) Make conforming amendments to reflect the amendments made to section 633-27, HRS.

Your Committees received testimony in support of this measure from the Judiciary and one individual. Your Committees received testimony in opposition to this measure from the Collection Law Section of the Hawaii State Bar Association, Hawaii Financial Services Association, Hawaii Bankers Association, Hawaii Credit Union League, and two individuals.

Your Committees find that existing law allows plaintiffs to file their claims in the Small Claims Division or Regular Claims Division of the District Court. This measure will allow plaintiffs to file in the Small Claims Division when the amount in controversy is \$1,000 or less, which is more efficient and less costly for the plaintiff.

Your Committees note the concerns raised in testimony that this measure does not account for plaintiffs who are represented by attorneys. Many plaintiffs who retain an attorney prefer filing their cases in Regular Claims for various reasons. However, this measure would mandate all cases in which the amount claimed is \$1,000 or less to be heard in the Small Claims Division, which the testimony cautions could have a costly financial impact to the Judiciary and organizations that receive funds to serve the indigent.

Accordingly, your Committees have amended this measure by:

- (1) Adopting the language suggested by the Hawaii Financial Services Association to allow a plaintiff to file cases in either the Small Claims Division or Regular Claims Division of the District Court if the plaintiff is represented by an attorney;
- (2) Amending section 607-14.7, HRS, to prohibit the award of attorney's fees in cases for recovery amounts of \$1,000 or less exclusive of interest and costs if the plaintiff is represented by an attorney and the District Court has concurrent jurisdiction with the Small Claims Division of the District Court;
- (3) Amending section 633-34, HRS, to correct a statutory reference; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2101, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2101, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

Commerce, Consumer Protection, and Health: Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 2392 (Joint) Judiciary and Labor and Commerce, Consumer Protection, and Health on S.B. No. 2219

The purpose and intent of this measure is to provide a taxpayer who hires an individual with a disability with a nonrefundable tax credit for fifty percent of the wages of the individual earned during the six-month period after the individual is initially hired by the taxpayer.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Hawai'i Restaurant Association, and one individual. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that employment of a person who is disabled provides the individual with economic self-sufficiency and allows the person to contribute to the community. Implementation of this measure will increase the employment opportunities for persons who are disabled and support the workforce demands of the private and public sectors.

Your Committees have amended this measure by:

- (1) Clarifying that for wages paid by an employer to a person whose certification as a person totally disabled is incorrect because it was based on false information provided by the person, the employer shall not treat those wages as qualified wages even without receiving notice that the certification has been revoked;
- (2) Inserting language to prohibit a tax deduction for the portion of wages or salaries paid or incurred for the taxable year that is equal to the amount of this proposed tax credit;
- (3) Replacing "individual with a disability" with "person totally disabled", as defined in section 235-1, Hawaii Revised Statutes;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees have heard the testimony of the Department of Taxation expressing concerns that the income tax credit proposed by this measure is similar to an existing credit in section 235-55.91, Hawaii Revised Statutes, and that the measure does not address whether the tax credit can be claimed by succeeding employers of the person who is disabled or by subsidiaries of the original employer. Your Committees find these issues raise concerns that merit further consideration and request that your Committee on Ways and Means further examine the issues and concerns raised by the Department of Taxation.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2219, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2219, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Shimabukuro).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 2393 Judiciary and Labor on S.B. No. 2113

The purpose and intent of this measure is to:

- (1) Establish that the preparation of absentee ballots for counting may include opening the return envelope in which the ballot is enclosed and the validation of signatures, but shall not include opening the ballot envelope;

- (2) Establish that the period for opening return envelopes and validating signatures begins from the day immediately after absentee ballots are transmitted to voters and ends on election day;
- (3) Allow official election observers to be present during the period for opening return envelopes and validating signatures;
- (4) Exclude from the period for opening return envelopes and validating signatures any absentee ballots cast at absentee polling place established at the clerk's office prior to or on election day;
- (5) Provide that the counting of absentee ballots may begin no earlier than the fifteenth day prior to an election and establish stages of absentee ballot counting;
- (6) Prohibit persons present during the counting of absentee ballots from disclosing the results;
- (7) Allow, rather than require, observation of ballot handling by an official, except for handling of absentee ballots pursuant to sections 15-9 and 15-10, Hawaii Revised Statutes (HRS);
- (8) Allow the replacing of defective ballots with new ballots to be conducted without the presence of at least two official observers; and
- (9) Repeal section 16-47, HRS, relating to the preparation of absentee ballots.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the County Clerk, County of Maui; Office of the County Clerk, County of Kaua'i; Office of the County Clerk, County of Hawai'i; League of Women Voters of Hawaii; and one individual.

Your Committee finds that in recent years, the number of ballots cast by mail or at an absentee polling place has increased to over half of the total ballots cast in an election. Currently, all of the processing and counting of absentee ballots cast by mail occur on election day. This measure reflects the processing and counting procedures from other jurisdictions that conduct their elections by mail in order to address the increase in the number of absentee ballots received by mail in Hawaii.

Your Committee notes that while any person present during the counting of absentee ballots is prohibited from disclosing the results, this measure does not provide an enforcement mechanism. Your Committee is concerned that the integrity of the elections process may be jeopardized without a means of enforcement.

Accordingly, your Committee has amended this measure by:

- (1) Adding language that amends section 19-6, HRS, to create a misdemeanor for any person who wilfully causes the results of any absentee ballot count to become publicly known before the polls have officially closed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2113, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2394 (Joint/Majority) Higher Education and the Arts and Economic Development, Environment, and Technology and Judiciary and Labor on S.B. No. 2943

The purpose and intent of this measure is to provide the University of Hawaii with express authority to create, promote, and participate in new economic enterprises and for the commercialization of university-generated research.

Your Committees received testimony in support of this measure from the University of Hawai'i System; XLR8UH; Chamber of Commerce Hawaii; Pacific Asian Center for Entrepreneurship; Hawaii Business and Entrepreneur Acceleration Mentors; Compendio Inc.; RealGreen Power Inc.; Startup Capital Ventures; Hawaii Business Roundtable; Aloha Startups; Startup Weekend Honolulu; Hobnob; Blue Planet Software, Inc.; Hawaii Venture Capital Association; and two individuals. Your Committees received testimony in opposition to this measure from The Civil Beat Law Center for the Public Interest and one individual. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that the commercialization of innovative research conducted at the University of Hawaii holds great potential to contribute to Hawaii's economic health and workforce diversification. The University has demonstrated strengths in ocean sciences, energy research, sustainable agriculture, and astronomy, and is growing in the areas of cybersecurity and health science.

The Legislature has historically authorized public funds to support efforts by state agencies to promote entrepreneurial development, research commercialization, and access to startup investment capital. Your Committees find that one of the core functions of the University of Hawaii is conducting basic and applied research, and it would be beneficial to the State to transform university-generated research into viable economic enterprises. Currently, the lack of express legal authority for the University creates business uncertainty and deters private interests from engaging in promising concepts developed at the University.

Your Committees have amended this measure by:

- (1) Inserting language to make the confidentiality and trade secrets provision compatible with existing frameworks of the Uniform Information Practices Act and Sunshine Law while recognizing that trade secrets and confidential commercial or financial information, including confidential information regarding qualified securities purchased by the University of Hawaii, need not be publicly disclosed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts, Economic Development, Environment, and Technology, and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2943, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2943, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 2. Noes, 1 (Slom). Excused, 1 (Gabbard).

Economic Development, Environment, and Technology: Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Slom). Excused, 4 (Baker, Espero, Ruderman, Thielen).

Judiciary and Labor: Ayes, 3; Ayes with Reservations (Kim). Noes, 1 (Slom). Excused, 2 (Gabbard, Thielen).

SCRep. 2395 (Joint) Higher Education and the Arts and Economic Development, Environment, and Technology on S.B. No. 2940

The purpose and intent of this measure is to clarify and modernize the application of state ethics principles that are set forth in the State Ethics Code to technology transfer activities sponsored by the University of Hawaii.

Your Committees received testimony in support of this measure from the University of Hawaii System, University of Hawaii Professional Assembly, High Technology Development Corporation, Chamber of Commerce Hawaii, and Hawaii Business Roundtable. Your Committees received testimony in opposition to this measure from the Hawaii State Ethics Commission and one individual.

Your Committees find that the timely and efficient commercialization of intellectual property created by the University of Hawaii's basic and applied research has valuable contributions to the economic health and diversification of the State. The Legislature has historically funded efforts by state agencies to promote entrepreneurial development, research commercialization, and access to startup investment capital. Your Committees find that the Board of Regents of the University of Hawaii has established a regulatory framework and compliance program to balance the unique benefits and ethical issues specific to university research and technology transfer, and that the program incorporates long-standing ethical research principles and technology transfer regulations currently used by the federal government. Your Committees find that clarifying sections of the State Ethics Code to exempt technology transfer activities will facilitate technology transfer at the University and benefit the State's economy.

Your Committees have amended this measure by:

- (1) Upon the recommendation of the State Ethics Commission, removing the provision exempting technology transfer activities sponsored by the University from certain sections of the State Ethics Code and replacing it with language exempting University employees who are directly involved in the research or development of technology sponsored and approved by the University from the State Ethics Code when performing technology transfer activities;
- (2) Moving the University's reporting requirement related to technology transfer activities from the State Ethics Code and inserting the requirement into the Hawaii Revised Statutes chapter relating to the University; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2940, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2940, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Economic Development, Environment, and Technology: Ayes, 5. Noes, none. Excused, 4 (Baker, Espero, Ruderman, Thielen).

SCRep. 2396 (Joint) Higher Education and the Arts and Judiciary and Labor on S.B. No. 2543

The purpose and intent of this measure is to:

- (1) Make explicit the responsibility of the University of Hawaii Community Colleges to provide short-term and rapid response occupational and certification programs designed to qualify individuals to fill new and hard-to-fill positions that require technical training; and
- (2) Appropriate funds to the University of Hawaii for occupational training and certification programs designed to rapidly qualify persons to fill new and hard-to-fill positions.

Your Committees received testimony in support of this measure from the University of Hawaii System, United Public Workers, and Chamber of Commerce Hawaii.

Your Committees find that it is important for colleges to react quickly to the modern economy by meeting the technical workforce needs of the public and private sectors. This includes filling emerging job opportunities as well as upgrading the skills of existing workers to meet the requirements of their positions that may change with advances in technology. Your Committees find that responding to workforce needs requires the development of training that is delivered rapidly and in a format other than a formal degree program.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2543 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 4. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Thielen).

SCRep. 2397 (Joint) Higher Education and the Arts and Human Services on S.B. No. 3042

The purpose and intent of this measure is to appropriate funds to the University of Hawaii's Center on Aging to establish a long-term care training program to expand the State's workforce capacity for home- and community-based care.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Policy Advisory Board for Elder Affairs, Hawai'i Family Caregiver Coalition, and two individuals.

Your Committees find that Hawaii's rapidly growing elderly population requires an expansion of the State's infrastructure to accommodate a broader range of home- and community-based long-term care options. Your Committees further find that a critical element for the expansion of this type of care is the development of an adequate long-term care workforce. In 2006, the Legislature appropriated funds for Kapiolani Community College to develop a long-term care program to meet the demand for long-term healthcare workers. The program was developed and run through 2014, but currently is not in operation. Your Committees received testimony indicating that the University of Hawaii Center on Aging is training numerous healthcare professionals at all levels and is equipped to expand the quality and quantity of home- and community-based long-term care workers, improve the support and training of family caregivers, and promote active aging.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3042 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 4. Noes, none. Excused, none.

Human Services: Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2398 (Joint) Higher Education and the Arts and Human Services on H.B. No. 493

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to fund a permanent director and faculty specialist position within the University's Center on Aging.

Your Committees received testimony in support of this measure from the University of Hawai'i System, AARP Hawaii, Policy Advisory Board for Elder Affairs, Alzheimer's Association - Aloha Chapter, Hawai'i Family Caregiver Coalition, Hawaii Pacific Gerontological Society, Project Dana, and five individuals.

Your Committees find that the University of Hawaii's Center on Aging strives to improve the quality of life of older adults in Hawaii and has the potential to be recognized locally and nationally for its research and education endeavors. Your Committees further find that the needs of the Center on Aging have changed and the current priority is to add two faculty positions, an associate/full professor position and an assistant/associate specialist position. Your Committees find that an associate/full professor position would enhance the Center on Aging's capacity to develop and teach innovative gerontological education programs, and that an assistant/associate specialist position would allow the center to develop and implement continuing education and training programs in gerontology.

Your Committees have amended this measure by:

- (1) Updating its purpose section;
- (2) Deleting the appropriations for one full-time equivalent director and one full-time equivalent faculty specialist positions within the University of Hawaii Center on Aging;
- (3) Inserting an appropriation of \$86,532 for fiscal year 2016-2017 to fund one full-time equivalent associate/full professor position within the University of Hawaii Center on Aging;
- (4) Inserting an appropriation of \$75,924 for fiscal year 2016-2017 to fund one full-time equivalent assistant/associate specialist position within the University of Hawaii Center on Aging;
- (5) Inserting an effective date of July 1, 2016; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

If this measure is considered for passage by your Committee on Ways and Means, it is recommended that the appropriation for the assistant/associate specialist position be changed to \$88,596 to meet the needs of the Center on Aging.

As affirmed by the records of votes of the members of your Committees on Higher Education and the Arts and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 493, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 493, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education and the Arts: Ayes, 4. Noes, none. Excused, none.

Human Services: Ayes, 7. Noes, none. Excused, none.

SCRep. 2399 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2824

The purpose and intent of this measure is to:

- (1) Reduce the number of members of the Aerospace Advisory Committee from fifteen to thirteen; and
- (2) Allow members of the committee to elect their committee chair from among the committee members.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that certain membership positions within the Aerospace Advisory Committee are difficult to fill. This difficulty often results in vacancies on the committee, which makes it a challenge to achieve quorum during meetings. Additionally, the current procedure for selecting the chairperson of the committee is cumbersome and inefficient. Your Committee finds that this measure would expedite the ability of the Aerospace Advisory Committee to conduct business.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2824 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2400 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3061

The purpose and intent of this measure is to:

- (1) Authorize the Director of the Hawaii Emergency Management Agency to assemble civilian community teams to assist communities during emergencies and disasters; and
- (2) Appropriate funds to support the civilian community teams program and hire a coordinator to help establish, train, and assist the teams.

Your Committee received testimony in support of this measure from the State Department of Defense, State Fire Council, and one individual.

Your Committee finds that the Federal Emergency Management Agency and emergency management organizations nationwide have moved toward the whole community approach of disaster response. This approach involves collaboration among government, military, commercial, and community organizations, including volunteers from the community. In the event of a natural disaster or other civic emergency, first responders and government agencies may be taxed to their limits. Your Committee finds that establishing trained civilian teams is a proactive measure to help communities receive the training and resource they need to help themselves during such disasters and emergencies.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3061 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2401 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3112

The purpose and intent of this measure is to appropriate funds for programs, ceremonies, and activities commemorating the fiftieth anniversary of the Vietnam War.

Your Committee received testimony in support of this measure from the Department of Defense, Department of Defense Office of Veterans' Services, State Veterans Advisory Board, Hawaii 50th Anniversary of the Vietnam War Commemoration Committee, Chamber of Commerce Hawaii, Oahu Veterans Council, and eight individuals.

Your Committee finds that many individuals who served honorably in the United States Armed Services during the Vietnam War came home to a divided nation. Some of these individuals served voluntarily and some were drafted into service, but in many cases they were not welcomed home in a manner befitting their service and sacrifice. Your Committee finds that honorable and respectful commemoration of the Vietnam War's fiftieth anniversary is especially appropriate in Hawaii because during the Vietnam War Hawaii served as a rest and recuperation location for deployed troops to meet their spouses, families, and friends.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3112 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2402 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3113

The purpose and intent of this measure is to appropriate funds for the establishment of a veterans services counselor IV position within the Office of Veterans' Services to assist all veterans, with a primary focus on female veterans, who served on active duty.

Your Committee received testimony in support of this measure from the Department of Defense; Department of Defense Office of Veterans' Services; Office of Veterans' Services, Hawaii Women Veterans Subcommittee; Governor's Advisory Board on Veteran Services; State Veterans Advisory Board; The Sex Abuse Treatment Center; Planned Parenthood Votes Northwest and Hawaii; Hawaii State Commission on the Status of Women; Hawaii State Democratic Women's Caucus; Hawaii Women's Military Task Force Committee; and five individuals.

Your Committee finds that women have served honorably and courageously in the armed services of the United States since the American Revolution. At present, almost fifteen percent of the United States armed services consists of women, and female veterans are increasing exponentially in number. The needs of female veterans and the challenges that they face in getting services are often

different from those experienced by male veterans. Your Committee finds that the existing support network for veterans is not sufficient to meet the needs of female veterans. This measure will take steps to address that shortfall.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3113 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2403 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 3100

The purpose and intent of this measure is to:

- (1) Authorize the Director of Finance to issue general obligation bonds to the counties for infrastructure construction related to urban renewal projects;
- (2) Allow each county to have more than one local redevelopment agency;
- (3) Repeal the specific naming requirement for local redevelopment agencies;
- (4) Require all five members of a local redevelopment agency to reside within the boundaries of an area defined by the appropriate county via resolution; and
- (5) Clarify that redevelopment projects carried out by local redevelopment agencies are public works.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii, Building Industry Association Hawaii, and Hawai'i Construction Alliance. Your Committees received comments on this measure from the Department of Budget and Finance and Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that the rail transit project presents unique opportunities for transit-oriented development, including planning for much-needed affordable and workforce housing. This measure proposes to grant counties with increased authority and access to bond financing to undertake infrastructure projects for urban renewal and redevelop blighted areas. Throughout the State, many communities could benefit from urban redevelopment efforts; however, your Committees note that concerns exist that this measure as written will create unnecessary competition between state and county projects for limited resources. Further discussion and consideration are required to address this concern.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3100, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3100, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Inouye, Slom).
Housing: Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

SCRep. 2404 (Joint) Economic Development, Environment, and Technology and Government Operations on S.B. No. 2807

The purpose and intent of this measure is to:

- (1) Clearly establish the Chief Information Officer as the State's information technology leader;
- (2) Delete statutory references to the Information and Communication Services Division of the Department of Accounting and General Services; and
- (3) Consolidate the Office of Information Management and Technology and the Information and Communication Services Division of the Department of Accounting and General Services, including all related information technology functions, in the Office of Enterprise Technology Services under the direction of the Chief Information Officer.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services and Office of Enterprise Technology Services.

Your Committees find that the State's management of information technology requires an effective chief information officer and clearly defined roles, duties, and responsibilities to ensure that its information technology investments are cost effective, are well utilized, are adequately planned for future growth, and have the ability to adapt to changing requirements.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2807, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2807, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Economic Development, Environment, and Technology: Ayes, 5. Noes, none. Excused, 4 (Baker, Keith-Agaran, Ruderman, Thielen).
Government Operations: Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

SCRep. 2405 (Joint) Human Services and Government Operations on S.B. No. 2442

The purpose and intent of this measure is to recognize celebrations of Children and Youth Day as an official state event.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Hawai'i Afterschool Alliance, Hawaii Youth Services Network, Parents and Children Together, Planned Parenthood Votes Northwest and Hawaii, Hawaii Children's Action Network, Self-Advocacy Advisory Council, Kalihi Community Youth Violence and Gang Prevention and Intervention Task Force, and fifteen individuals. Your Committees received comments on this measure from the Hawaii State Ethics Commission.

Your Committees find that the first Sunday in October is designated as "Children and Youth Day", and the month of October is designated as "Children and Youth Month". Though they are not state holidays, they are important state celebrations. Activities of Children and Youth Day provide a unique opportunity for children, youth, and families to learn and play together. In past celebrations of Children and Youth Day on the Capitol grounds there have been two hundred or more interactive exhibits, tables, and games to educate people about nutrition, exercise, parenting, the environment, safety, employment, education, disaster preparedness, culture, and many other topics that lead to healthy lifestyles and a sustainable Hawaii. The annual event was regularly attended by 40,000 or more people each year. Celebration of our keiki is a special community gathering that encourages children and youth to learn about the joys of community service as they work side by side with kupuna. Investing in Hawaii's keiki is an investment in Hawaii's future leaders.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2442, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2442, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Harimoto, Slom).

Government Operations: Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2406 Judiciary and Labor on S.B. No. 2100

The purpose and intent of this measure is to increase the number of District Court judges in the Second Judicial Circuit from three to four judges.

Your Committee received testimony in support of this measure from the Judiciary and Department of the Prosecuting Attorney, County of Maui.

Your Committee finds that 1982 was the last time the number of presiding judges in the Second Judicial Circuit was increased. Since that time, the population of the County of Maui has more than doubled. An increase in population results in an increase in caseload, particularly in the District Courts where traffic, criminal cases of misdemeanor and lesser graded offenses, small claims, and smaller civil cases are tried. District Court judges also routinely review search warrants at all hours, handle weekend review of probable cause matters, and review criminal information to determine probable cause. This measure authorizes one additional District Court judge in the Second Judicial Circuit to handle the increased caseload and enable judges to attend to other judicial responsibilities of the District Court.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of \$329,496 for fiscal year 2016-2017 for one full-time equivalent District Court judge and three full-time equivalent staff positions, including related non-recurring costs, for the District Court of the Second Judicial Circuit;
- (2) Changing the effective date to July 1, 2016; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2100, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2407 Judiciary and Labor on S.B. No. 3081

The purpose and intent of this measure is to appropriate funds to establish, administer, and support on-the-job training for individuals who are dislocated due to the closure of Hawaiian Commercial & Sugar Company on Maui.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; United Public Workers, AFSCME Local 646, AFL-CIO; Chamber of Commerce Hawaii; Alexander & Baldwin, Inc.; Hawaii State AFL-CIO; Hawai'i Farm Bureau; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; International Longshore and Warehouse Union, Local 142; Maui Hotel & Lodging Association; Maui County Farm Bureau; and two individuals.

Your Committee finds that the closure of Hawaiian Commercial & Sugar Company will result in the termination of about six hundred seventy workers from March to December 2016. According to the Department of Labor and Industrial Relations, available federal funds are projected to be insufficient to serve the number of workers scheduled for layoff. This measure will supplement the limited federal funds to ensure that workers can access necessary services, including on-the-job training, when they lose their jobs.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3081 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2408 Transportation and Energy on S.B. No. 3023

The purpose and intent of this measure is to establish an infrastructure development loan revolving fund to be administered by the Director of Finance.

Your Committee received testimony in support of this measure from the Office of Planning and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that transit-oriented development often requires significant capacity upgrades of existing infrastructure. Your Committee recognizes that it has a role in supporting transit-oriented development and recognizes the need to provide another financing resource without unduly draining the state budget. A no-interest loan revolving fund to provide loans for infrastructure improvements will help support transit-oriented development.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3023 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 2409 (Joint/Majority) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 2961

The purpose and intent of this measure is to:

- (1) Establish a family leave insurance program, which requires employees to make contributions into a trust fund to be used to provide employees with family leave insurance benefits in order to care for a designated person; and
- (2) Expand the reach of employees that are subject to the family leave law and children and parents who may be cared for using family leave.

Your Committees received testimony in support of this measure from Hawaii State Commission on the Status of Women, Policy Advisory Board for Elder Affairs, Americans for Democratic Action Hawaii, Breastfeeding Hawaii, Family Programs Hawaii, Hawaii Family Caregiver Coalition, Hawai'i Public Health Institute, Hawaii State Coalition Against Domestic Violence, Hawaii Women's Coalition, Healthy Mothers Healthy Babies Coalition of Hawaii, Planned Parenthood Votes Northwest and Hawaii, Hawaii Children's Action Network, Hawai'i Coalition for Immigrants Rights, Women's Caucus Democratic Party of Hawai'i, and nineteen individuals. Your Committees received testimony in opposition to this measure from the Department of Public Safety, Chamber of Commerce Hawaii, National Federation for Independent Business, Society for Human Resource Management Hawaii Chapter, and International Longshore and Warehouse Union Local 142. Your Committees received comments on this measure from the Department of Labor and Industrial Relations, Democratic Party of Hawai'i, and one individual.

Your Committees find that Hawaii's working families are not adequately supported during times of caregiving and illness. The majority of Hawaii's workforce cannot afford to take unpaid leave when needing to provide care to a newborn, bond with a new child, or care for a family member with a serious health condition. Currently, the federal Family Leave Act allows for unpaid leave with job protection for up to twelve weeks for employers with fifty or more employees; however, this leaves out forty percent of the workforce in the United States. The Hawaii Family Leave Act only applies to employers with one hundred or more employees and only allows for four weeks of unpaid leave with job protection. Your Committees heard testimony on the importance of mother-baby bonding and of allowing working mothers the time necessary to recover and bond with their newborn and testimony regarding other states that have implemented paid family leave policies with no economic disadvantages to businesses. Your Committees heard testimony concerned with the large leave allowed and the adverse effect on businesses that need to cover the employee on leave.

However, your Committees also received testimony about how paid family leave has been shown to benefit businesses in California, a state that has implemented paid family leave laws. Specifically, the paid family leave laws have resulted in reduced absenteeism, increase in business revenue, retention of a better workforce, and reduction in turnover costs based on retention. Paid family leave also contributes to stronger employer-employee relations by building the bonds of trust and understanding during a time of work-life crisis or significant financial crossroads where most people in Hawaii now have to choose between losing wages or losing a job and taking care of an ill family member or tending to a newborn.

Your Committees note the concerns raised in testimony by the Department of Labor and Industrial Relations, including the burden this measure would impose on employees in the form of required contributions to the family leave trust fund, the administrative burden this measure would impose on the Department, and conflicts between this measure and existing statute. Your Committees encourage the Department of Labor and Industrial Relations to provide the information regarding temporary disability insurance and additional concerns raised in its testimony to your Committees on Judiciary and Labor and Ways and Means.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2961, as amended

herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2961, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 3 (Green, Ruderman, Slom).

Commerce, Consumer Protection, and Health: Ayes, 3. Noes, 1 (Slom). Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2410 (Joint) Education and Economic Development, Environment, and Technology on S.B. No. 2607

The purpose and intent of this measure is to limit the ways in which the operator of a website, online service, or mobile application working with the Department of Education can use student data.

Your Committees received testimony in support of this measure from the Department of Education and Microsoft.

Your Committees find that students in Hawaii's schools are growing up in a world that is increasingly interconnected through the Internet, mobile phones, tablets, and other applications of information technology. Improper handling of information technology can cause a user's personal information to become available to other parties who may misuse that data for a wide range of purposes. Students have a reasonable expectation that software, applications, and other information services provided by their school or the Department of Education will be responsibly regulated and free of unnecessary risk. However, your Committees also note the existence of concerns that this measure as proposed is overly broad and requires revision.

Your Committees have amended this measure by:

- (1) Adding language clarifying that content, software, application, and service providers have a duty to make a good faith effort to protect covered student information; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2607, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2607, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 2 (Harimoto, Slom).

Economic Development, Environment, and Technology: Ayes, 6. Noes, none. Excused, 3 (Espero, Keith-Agaran, Ruderman).

SCRep. 2411 Water, Land, and Agriculture on S.B. No. 1125

The purpose and intent of this measure is to provide the Board of Land and Natural Resources with the discretion to grant easements for less than fair market value for encroaching structures that were authorized by an appropriate regulatory agency and originally constructed landward of the shoreline and within the record boundary of an oceanfront property but are now, due to the dynamic nature of the location of the shoreline, located within the shoreline area.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that any structures located seaward of the shoreline location, as determined by the Department of Land and Natural Resources, are considered encroachments upon public land. When an encroachment is discovered, it may be resolved by either removal or obtaining an easement from the Department of Land and Natural Resources, even if the structure was located within the record boundary of the landward property at the time of construction. Additionally, pursuant to sections 171-13 and 171-17(b), Hawaii Revised Statutes, easements granted by the Board of Land and Natural Resources under these circumstances require compensation at fair market value. This reading of the law has caused the Department of Land and Natural Resources to be named as a party in claims regarding structures, improvements, and debris in the shoreline area that was once private property, which has led to an increased strain on the Department's resources.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1125, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1125, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 2412 (Joint) Transportation and Energy and Economic Development, Environment, and Technology on S.B. No. 2947

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and make an appropriation for the development of an electrolysis process hydrogen production, storage, and dispensing facility and appropriate funds for the operation of the facility.

Your Committees received testimony in support of this measure from the Department of Transportation, High Technology Development Corporation, Blue Planet Foundation, Servco Pacific Inc., and two individuals. Your Committees received comments on

this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; and The Alliance of Automobile Manufacturers.

Your Committees find that this measure supports the development of hydrogen infrastructure. Hydrogen transportation supports both the decarbonization of the transportation sector as well as being an enabler of increased penetration of intermittent renewable energy. This measure provides funding to initiate hydrogen production and dispensing, which are critical infrastructure required to support the fleet vehicle upgrades planned by the Department of Transportation's Airports Division.

Your Committees have amended this measure by:

- (1) Authorizing the high technology special fund to receive appropriations and other funds required to be deposited by statute;
- (2) Requiring that appropriations made out of the high technology special fund for the development of an electrolysis process hydrogen facility be matched dollar-for-dollar by private enterprise or private entities; and
- (3) Requiring the High Technology Development Corporation to adopt administrative rules for the establishment, collection, and deposit into the high technology special fund of fees for the sale of certain commercially available hydrogen.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2947, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2947, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, 2 (English, Nishihara).

Economic Development, Environment, and Technology: Ayes, 7; Ayes with Reservations (Baker, Ihara, Ruderman, Thielen, Slom). Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 2413 (Joint) Transportation and Energy and Economic Development, Environment, and Technology on S.B. No. 2828

The purpose and intent of this measure is to provide enterprise zone incentives for qualified renewable energy technology business activity on real property owned by the Natural Energy Laboratory of Hawaii Authority.

Your Committees received testimony in support of this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; and Natural Energy Laboratory of Hawaii Authority.

Your Committees find that this measure will assist businesses in the renewable energy sector and increase the potential for job growth in West Hawaii. The enterprise zone program will see an increase in applications for enterprise zone status, thus attracting new businesses to the State.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2828 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, 2 (English, Nishihara).

Economic Development, Environment, and Technology: Ayes, 6. Noes, none. Excused, 3 (Galuteria, Keith-Agaran, Thielen).

SCRep. 2414 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 2683

The purpose and intent of this measure is to allow lessors of rental motor vehicles to pass on to lessees a vehicle license recovery fee.

Your Committees received testimony in support of this measure from The Hertz Corporation, Enterprise Holdings LLC, and Avis Budget Group. Your Committees received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that existing law permits rental car companies to recover from rental car customers certain mandatory government fees, for the purpose of making a vehicle road-ready. However, the prorated formula is calculated over a period of three hundred sixty-five days, which results in a significant portion of the fees going unrecovered. This is partially because rental cars are rented significantly less than one hundred percent of the time.

Your Committees further find that other states, including California, have enacted laws that allow rental car companies to pass on to consumers an amount closer to the full recovery of mandatory government fees.

Your Committees have amended this measure by:

- (1) Removing language expanding the category of fees that can be recovered;
- (2) Removing the addition of a definition of "vehicle license recovery fee" from statute;
- (3) Reducing the pro rata apportionment of the vehicle license and registration fee and weight taxes that may be passed on from 1/365th to 1/300th of the annual fees and taxes;
- (4) Requiring the motor vehicle rental industry to report to the Legislature prior to the 2019 Regular Session concerning the effect of this measure on the average vehicle license recovery fee charged to each customer on each motor vehicle rental, the profit margin of each motor vehicle rental, and the actual time in service of each motor vehicle rental;
- (5) Inserting an effective date of July 22, 2022, to encourage further discussion; and

- (6) Inserting a three-year sunset.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2683, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2683, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2415 (Joint) Hawaiian Affairs and Water, Land, and Agriculture on S.B. No. 2582

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Kaho'olawe Island Reserve Commission for projects such as the restoration and preservation of the natural, cultural, and historic resources of the Kaho'olawe island reserve and its meaningful and safe use by the people of Hawaii; and
- (2) Require the Kaho'olawe Island Reserve Commission to submit a financial self-sufficiency and sustainability plan to the Legislature no later than twenty days prior to the convening of the Regular Session of 2017.

Your Committees received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, Department of Planning for the County of Maui, Aha Moku Advisory Committee of the Department of Land and Natural Resources, Conservation Council for Hawai'i, Pacific American Foundation, Maui Planning Department, and twenty-seven individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from two individuals.

Your Committees find that the Kaho'olawe Island Reserve Commission is integral to the restoration and preservation of the natural, cultural, and historic resources of the Kaho'olawe island reserve, which itself is of significant cultural and historic importance to the native people of Hawaii. Your Committees therefore find that funding and ensuring the financial stability of the Kaho'olawe Island Reserve Commission are essential to the restoration and preservation of the Kaho'olawe island reserve.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2582 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Kim, Slom).

Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Thielen, Wakai, Slom).

SCRep. 2416 (Joint) Economic Development, Environment, and Technology and Water, Land, and Agriculture on S.B. No. 3108

The purpose and intent of this measure is to:

- (1) Ban, as of July 1, 2016, permitting for new underground storage tanks within one hundred yards of the shoreline; and
- (2) Prohibit, as of January 1, 2030, operation of and renewal of a permit for an underground storage tank within one hundred yards of the shoreline.

Your Committees received testimony in support of this measure from the Department of Health and Board of Water Supply of the City and County of Honolulu. Your Committees received testimony in opposition to this measure from Aloha Petroleum, Ltd.; Hawaii Petroleum Marketers Association; and Par Hawaii.

Your Committees find that climate change is real and that sea level rise poses a threat to Hawaii's quality of life. Immediate preparation for sea level rise will protect natural resources and save money in the long term. Your Committees further find that the inundation of underground storage tanks poses risks to the aquifer as well as coastal water quality and marine ecosystems.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3108 and recommend that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Baker, Keith-Agaran).

Water, Land, and Agriculture: Ayes, 8. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2417 (Joint) Economic Development, Environment, and Technology and Water, Land, and Agriculture on S.B. No. 2448

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Invasive Species Council to adopt rules to change its invasive species list; and
- (2) Authorize an agent of the Hawaii Invasive Species Council to enter affected premises of private property, under specific conditions, to control or eradicate invasive species.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, The Nature Conservancy, O'ahu Invasive Species Committee, American Bird Conservancy, and one individual. Your Committees received testimony in opposition to this measure from five individuals. Your Committees received comments on this measure from the Landscape Industry Council of Hawai'i and one individual.

Your Committees find that the invasion of insects, disease bearing organisms, snakes, weeds, and other pests is a major threat to the State's economy, natural environment, and health. A continued commitment to having the best possible understanding, science, plans, and capacity is necessary to maintain and enhance invasive species prevention and mitigation in Hawaii to effectively protect the State's natural resources and economy and the health and lifestyle of its people.

Your Committees further find that albizia, *Falcataria moluccana*, is an invasive species that presents a costly threat to the economy, critical infrastructure, and public safety on the island of Hawaii due to the likelihood of albizia trees falling. The pre-planned removal of each albizia tree costs significantly less than the combined direct and indirect costs of removal if and when it falls into a road, power line, or building; therefore, proactive efforts should continue to manage albizia trees to ensure safety in a cost-effective manner.

Your Committees have amended this measure by:

- (1) Inserting language to prohibit the inclusion of domesticated pet species on the invasive species list;
- (2) Inserting an appropriation to the Department of Land and Natural Resources Division of Forestry and Wildlife for use by the Big Island Invasive Species Committee for the immediate coordinated management of albizia trees on the island of Hawaii;
- (3) Inserting an effective date of July 1, 2016, for the appropriation; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2448, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2448, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Baker, Keith-Agaran).

Water, Land, and Agriculture: Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Shimabukuro).

SCRep. 2418 (Joint) Economic Development, Environment, and Technology and Water, Land, and Agriculture on S.B. No. 2988

The purpose and intent of this measure is to appropriate funds to research and develop new methods of preventing and treating macadamia felted coccid infestations.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, University of Hawai'i System, Land Use Research Foundation of Hawaii, Hawai'i Farm Bureau, Hawaii Macadamia Nut Association, Royal Hawaiian Orchards, and six individuals.

Your Committees find that macadamia nuts are among the top five grossing agricultural commodities in Hawaii. The State harvested an estimated forty-four million pounds in macadamia nut crop for the 2012-2013 crop year. The estimated farm value of macadamia nuts for that same year is \$35,200,000. In March 2005, the macadamia felted coccid was discovered on macadamia nut trees in South Kona, and infestations of macadamia felted coccid have now spread from South Kona to as far north as Honokaa. This insect can cause severe damage to macadamia nut trees when uncontrolled, and the macadamia felted coccid will continue to spread to other regions and counties of Hawaii if uncontrolled and devastate the macadamia nut industry. The implementation of this measure will assist in combating this insidious pest and protecting the health of the vital macadamia nut industry.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2988 and recommend that it pass Second Reading and be referred to your Committees on Higher Education and the Arts and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Baker, Keith-Agaran).

Water, Land, and Agriculture: Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Shimabukuro).

SCRep. 2419 (Joint) Economic Development, Environment, and Technology and Water, Land, and Agriculture on S.B. No. 2379

The purpose and intent of this measure is to establish and appropriate funds for a pilot pesticide treatment coupon project, within the existing little fire ant program, and a little fire ant site map.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, University of Hawai'i System, Hawai'i Farm Bureau, Hawai'i Association of REALTORS, and one individual.

Your Committees find that the little fire ant, *Wasmannia auropunctata*, threatens native biodiversity, alters tropical ecosystems, impairs human health, impedes tourism, diminishes agricultural productivity, mars horticulture sales, and accordingly ranks among the world's worst invasive species. The County of Hawaii has been affected most by the little fire ant. The University of Hawaii, the County of Hawaii, and the Department of Agriculture must collaborate to develop and implement effective measures to address the impacts of the little fire ant in the County of Hawaii. Your Committees therefore find that the Department of Agriculture needs resources to be more proactive and aggressive in implementing its current little fire ant program.

Your Committees have amended this measure by:

- (1) Amending section 1 to better reflect the purpose of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2379, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2379, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Baker, Keith-Agaran).

Water, Land, and Agriculture: Ayes, 8. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2420 (Joint/Majority) Economic Development, Environment, and Technology and Water, Land, and Agriculture on S.B. No. 2799

The purpose and intent of this measure is to restructure the Hawaii Invasive Species Council into a new entity, the Hawaii Invasive Species Authority, to be administratively attached to the Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Department of Agriculture, Hawaii Invasive Species Council, Conservation Council for Hawai'i, Coordinating Group on Alien Pest Species, O'ahu Invasive Species Committee, Kaua'i Invasive Species Committee, The Nature Conservancy, and two individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committees find that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is the single greatest threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. In 2003, the Legislature created the Hawaii Invasive Species Council, an interagency board mandated to provide policy-level direction and coordination on invasive species issues, co-chaired by the Chairpersons of the Board of Land and Natural Resources and the Board of Agriculture. The authorizing legislation for the council did not create staff positions or a revenue source. Your Committees further find that despite many successes, mitigation of invasive species threats and impacts often remains fragmented between agencies and is insufficiently supported through interagency data collection and management, public pest reporting, interagency response coordination, and statewide public outreach.

Your Committees have amended this measure by:

- (1) Inserting language to require the Hawaii Invasive Species Authority to adopt a list of invasive species by rule pursuant to chapter 91; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2799, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2799, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 6. Noes, 1 (Slom). Excused, 2 (Baker, Keith-Agaran).

Water, Land, and Agriculture: Ayes, 6. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Shimabukuro).

SCRep. 2421 Commerce, Consumer Protection, and Health on S.B. No. 2661

The purpose and intent of this measure is to:

- (1) Clarify that when a unit owner and association reach a payment plan to cure a nonjudicial foreclosure, completion of the payment plan is required to cure the default;
- (2) Prohibit an association from converting unpaid fines into fees that may cause a unit owner to default; and
- (3) Require mediation by a unit owner and association over disputed fines before a foreclosure can be commenced.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from Associa. Your Committee received comments on this measure from the Community Associations Institute.

Your Committee finds that under existing law, if an association of apartment owners starts a nonjudicial foreclosure against a unit owner and the owner pays off the delinquency or proposes a payment plan that the association accepts, the association is supposed to rescind the notice of foreclosure and not proceed. However, proposing a payment plan is not sufficient on its own to cure a default. This measure clarifies that if an owner merely proposes a payment plan, the notice of nonjudicial foreclosure is not rescinded, but rather put on hold until the owner completes the payment plan.

Your Committee has heard the concerns regarding language in this measure that requires any dispute over fines owed by a unit owner to an association to be resolved through mediation before foreclosure proceedings are commenced. Your Committee understands that this requirement may conflict with the pay first, dispute later provision in Hawaii's condominium laws, which prohibits unit owners from withholding any assessment claimed by an association. Therefore, your Committee concludes that clarifying the pay first, dispute later provision is appropriate at this time.

Your Committee notes that existing law states that an association cannot pursue nonjudicial foreclosure against any unit solely due to fines, penalties, legal fees, or late fees. Encouraging mediation when association assessments other than common expense assessments are in dispute, and prior to any foreclosure process being initiated, would be beneficial to associations and condominium owners.

Your Committee also notes that interested stakeholders have been in discussions and have come to an agreement on consensus language for this measure. The consensus language is intended to assist condominium owners and associations when there are issues regarding nonpayment or disputes regarding penalties or fines, late fees, late filing fees, or other charges in an assessment, including common expense assessments. Your Committee further finds that the consensus language is intended to amend Hawaii's pay first, dispute later provisions within the State's condominium code, to make it clear that common area maintenance fees, also known as common expense assessments, are the only fees that must be paid prior to initiating a dispute. All other penalties or fines, late fees, lien filing fees, or other charges in an assessment can be submitted to mediation prior to payment.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that if a unit owner and an association have agreed on a payment plan to prevent a nonjudicial foreclosure from proceeding, any fines the association imposes on the unit owner while the payment plan is in effect shall not be deemed a default under the payment plan;
- (2) Clarifying the obligations of a unit owner and an association while a unit owner is not otherwise in default under a payment plan;
- (3) Clarifying that a condominium owner who receives a demand for payment from an association may request a written statement about the assessment from the association, which shall include certain information, including the amount of any penalty or fine, late fee, lien filing fee, or other charge included in the assessment that is not imposed on all apartment owners as a common expense;
- (4) Clarifying that the pay first, dispute later provisions in Hawaii's condominium law apply only to common expense assessments claimed by an association of apartment owners;
- (5) Clarifying that a unit or apartment owner who receives a demand for payment from an association and disputes the amount of an assessment may request a written statement about the assessment from the association, which shall include certain information, including that a unit or apartment owner:
 - (A) Has no right to withhold common expense assessments for any reason;
 - (B) May demand mediation or arbitration regarding common expense assessments; provided that the common expense assessment is paid in full; and provided further that payment in full of a common expense assessment shall not prevent an owner from contesting the common expense assessment or receiving a refund of amounts not owed; and
 - (C) Who contests any penalty or fine, late fee, lien filing fee, or other charges in an assessment, except for a common expense assessment, may demand mediation prior to paying those charges;
- (6) Specifying that a unit or apartment owner may file in small claims court or require mediation to resolve disputes concerning the amount or validity of an association's common expense claim, if certain conditions are met;
- (7) Specifying the time frame in which a demand for mediation on contested charges, except for common expense assessments, must be brought and completed and prohibiting an association from attempting to collect disputed charges until the association has participated in the mediation;
- (8) Repealing language that allowed associations to convert delinquent fines and late fees into delinquent common expense assessments, if certain conditions were met;
- (9) Making conforming amendments; and
- (10) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2661, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2422 Commerce, Consumer Protection, and Health on S.B. No. 2317

The purpose and intent of this measure is to:

- (1) Establish the Hawaii maternal mortality review panel within the Department of Health to conduct a comprehensive review of maternal deaths that have occurred in the State; and
- (2) Make an appropriation for the Department of Health to implement and operate the Hawaii maternal mortality review panel.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, American Congress of Obstetricians and Gynecologists, Hawaii Medical Association, Hawai'i Public Health Association, Planned Parenthood Votes Northwest and Hawaii, Hawaii State Coalition Against Domestic Violence, and Healthy Mothers Healthy Babies. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Hawaii is one of only thirteen states without a multi-disciplinary professional panel to review pregnancy-related deaths. Comprehensive multidisciplinary reviews of maternal deaths are needed to understand risk factors for and prevent the deaths of mothers during pregnancy, labor, and the year following the birth of a child, and to inform policy makers and the establishment and administration of relevant programs. It is estimated that up to fifty percent of all maternal deaths are preventable, thus maternal mortality review panels are integral to saving the lives of women who are pregnant or within one year after a pregnancy. Findings from review panels guide the creation of treatment protocols, education campaigns, and standardization of pregnancy care, leading to more lives saved.

Your Committee further finds that comprehensive multidisciplinary reviews of child deaths, as performed in the past by the Hawaii child death review system that was established by Act 369, Session Laws of Hawaii 1997, are needed to understand risk factors for and prevent future child deaths and keep children in the State of Hawaii safe and healthy. The Hawaii child death review system was intended to produce in-depth, accurate, and timely administration of child health and protection programs and appropriate data reporting to federal and state agencies. However, the system has been inactive since 2011 and consequently, these important child death reviews are not currently being conducted in the State.

Your Committee has amended this measure by:

- (1) Inserting findings that outline the importance of comprehensive multidisciplinary reviews of child and maternal deaths;
- (2) Deleting language that would have established the maternal mortality review panel, including provisions related to members, duties, access to information, and confidentiality of information;
- (3) Inserting language to require the Director of Health to submit an annual report to the Legislature on the status of child death reviews by the Department;
- (4) Inserting language to require the Director of Health to submit an annual report to the Legislature on the status of maternal death reviews by the Department;
- (5) Requiring any person, hospital, sanitorium, nursing or rest home, or other similar medical facility to provide information or other materials relating to the condition and treatment of any person to the maternal and perinatal mortality study committee of the Hawaii Medical Association, any in-hospital staff committee, or the Department of Health for studies to reduce morbidity or mortality;
- (6) Deleting an appropriation for \$10,000 for the implementation and operation of the Hawaii maternal mortality review panel;
- (7) Inserting an appropriation for \$150,000 for the Department of Health to conduct child death reviews and to implement a program for the performance of maternal death reviews; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2317, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2423 Water, Land, and Agriculture on S.B. No. 2351

The purpose and intent of this measure is to:

- (1) Prohibit the creation of a condominium property regime on agricultural land twenty-five acres or greater; and
- (2) Prohibit the subdivision of agricultural land twenty-five acres or greater for the purpose of creating a condominium property regime.

Your Committee received testimony in support of this measure from the Land Use Commission, Waimanalo Agricultural Association, Farm Link Hawai'i, and twenty-three individuals. Your Committee received testimony in opposition to this measure from McCandless Ranch; Larry Jefts Farms, LLC; Associa Hawaii; Hawai'i Association of REALTORS; Hawaii Cattlemen's Council, Inc.; Ponoholo Ranch Limited; Mahukona Ranch LLC; and three individuals. Your Committee received comments on this measure from the Department of Agriculture, Office of Planning, and GoFarm Hawaii.

Your Committee finds that agricultural lands are a limited resource within the State that should be used for agricultural purposes. Currently, the condominium property regime process may be used to subdivide large agricultural lots into parcels that are too small for agricultural purposes, thus leading to the development of "gentleman farms", which are low density, large subdivisions. Your Committee further finds that this use of the condominium property regime process allows for significant abuse and costs to the State and counties, and limits the public's right to have impacts reviewed and mitigated; therefore, your Committee supports limitations on the use of the condominium property regime process.

Your Committee has amended this measure by:

- (1) Inserting language to prohibit a condominium property regime on any parcel of agricultural land from being later amended to allow for residential dwellings;
- (2) Inserting language to amend section 205-4.5, Hawaii Revised Statutes, to prohibit the creation of any residential project as a condominium or planned community association on class A or B agricultural lands; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2351, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2424 Water, Land, and Agriculture on S.B. No. 2451

The purpose and intent of this measure is to:

- (1) Clarify that any person who violates:
 - (A) Section 183-17, Hawaii Revised Statutes, timber trespass in forest reserves, shall be guilty of a misdemeanor; or
 - (B) A provision of part II of chapter 183, Hawaii Revised Statutes, forest reserves, or any rule adopted pursuant thereto, other than section 183-17, Hawaii Revised Statutes, shall be guilty of a petty misdemeanor; and
- (2) Repeal the general penalty provision in section 183-4, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that Hawaii's forest resources are precious and limited resources worthy of the State's protection. Currently, forest resource thefts are occurring on state lands. Your Committee further finds, as noted in the Department of Land and Natural Resources' testimony, that current statutory fines for the harvesting of koa trees and other trees and plants do not discourage theft because the current value of such forest products far exceeds the dollar amount of the fines.

Your Committee has therefore amended this measure by:

- (1) Inserting language to amend the administrative fines for destroying or harvesting koa trees and other trees and plants under section 183-5(c), Hawaii Revised Statutes, to be an amount less than or equal to the current market value of the koa tree or other tree or plant destroyed or harvested; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2451, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2451, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 2425 Water, Land, and Agriculture on S.B. No. 2795

The purpose and intent of this measure is to align the environmental response, energy, and food security tax with its original intent by reallocating a portion of the tax from the general fund to the Agribusiness Development Corporation to fund the acquisition of agricultural land.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Agriculture, Department of Budget and Finance, Agribusiness Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that the Agribusiness Development Corporation is an agency administratively attached to the Department of Agriculture and tasked with transitioning fallow plantation land into cropland to provide economic opportunities for diversified agriculture operations. Your Committee further finds that there is no fund or entity dedicated to conserve and protect agricultural lands pursuant to Article XI, section 3, of the Constitution of the State of Hawaii. Your Committee has heard the Agribusiness Development Corporation's testimony and agrees that the funds appropriated by this measure would be best administered by the Department of Agriculture, which has a broader perspective on agriculture in the State and is therefore better suited to administer the program set forth in this measure.

Your Committee has amended this measure by:

- (1) Deleting references to the Agribusiness Development Corporation;
- (2) Deleting the amendments to section 163D-17, Hawaii Revised Statutes, which establishes the Hawaii agricultural development revolving fund;
- (3) Establishing an agricultural land acquisition fund under chapter 141, Hawaii Revised Statutes;
- (4) Designating 10 cents of the environmental response, energy, and food security tax per barrel under section 243-3.5, Hawaii Revised Statutes, to the agricultural land acquisition fund, rather than the Hawaii agricultural development revolving fund;
- (5) Requiring that any monies deposited into the agricultural land acquisition fund shall be expended at the sole discretion of the Chairperson of the Board of Agriculture for the acquisition, administration, maintenance, and management of agricultural lands; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2795, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2795, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 2426 Water, Land, and Agriculture on S.B. No. 2453

The purpose and intent of this measure is to:

- (1) Repeal the prohibition on suspension or waiver of fines for violations of certain aquatic resource laws;
- (2) Authorize the court to require a person who violates certain laws pertaining to aquatic resources to complete an aquatic resources educational class administered by the Department of Land and Natural Resources in lieu of or in addition to paying a monetary fine; and
- (3) Authorize the court to require a person who violates certain laws pertaining to aquatic resources to perform community service administered by the Department of Land and Natural Resources in lieu of paying a monetary fine.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Judiciary, Office of Hawaiian Affairs, Hawaii's Thousand Friends, Conservation Council for Hawai'i, The Nature Conservancy of Hawai'i, Mālama Pūpūkea-Waimea, and five individuals. Your Committee received testimony in opposition to this measure from The Snorkel Bob Foundation and one individual.

Your Committee finds that educational programs and community service opportunities are effective sentencing alternatives to specifically address resource offenses and violators. Educational programs and community service opportunities deter future violations, enhance public knowledge about Hawaii's resources, and ensure that punishment for resource violations is appropriate. Your Committee further finds that an educational curriculum that provides a broad overview of aquatic resource statutes and regulations as well as information about closed seasons, restricted areas, and methods of extraction, already exists and would be easily implemented.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2453 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 2427 (Joint/Majority) Government Operations and Higher Education and the Arts on S.B. No. 2399

The purpose and intent of this measure is to require, for purposes of an exemption from civil service laws, all state agencies to obtain the Governor's written approval on a request for, amendment to, or supplement to the Research Corporation of the University of Hawaii's services for a project.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and Hawaii Government Employees Association, AFSCME, Unit 8 Board. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, University of Hawaii Professional Assembly, Auwahi Forest Restoration Project, and seventy-eight individuals. Your Committees received comments on this measure from the University of Hawai'i System, Chamber of Commerce Hawaii, and one individual.

Your Committees find that in the June 2015, Office of the Auditor's Report No. 15-07, the Auditor found that the Research Corporation of the University of Hawaii (RCUH) allows state agencies to secure services without the approval of the Governor, as required by the Master Agreement between the State and RCUH. Implementation of this measure codifies what currently is in the Master Agreement and will improve oversight of projects to ensure the integrity of the services provided by RCUH.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Higher Education and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2399, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2399, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 3 (Ihara, Keith-Agaran, Tokuda).
Higher Education and the Arts: Ayes, 3. Noes, 1 (Kidani). Excused, none.

SCRep. 2428 (Joint) Government Operations and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2495

The purpose and intent of this measure is to require:

- (1) Every government procurement officer to attend initial training by the State Procurement Office within sixty days of being appointed or named to the position of procurement officer;

- (2) Every government procurement officer or the officer's designee to attend follow-up training and development sessions, as determined by the State Procurement Office; provided that a procurement officer who is unable to attend a follow-up or development session may be excused by the State Procurement Office; and
- (3) The State Procurement Office to conduct mandatory follow-up training and development sessions at regular intervals of at least once every twelve months.

Your Committees received testimony in support of this measure from the State Procurement Office. Your Committees received comments on this measure from the Department of Human Resources Development.

Your Committees find that a strong training program for the State's procurement officers is an essential component in the delivery of procurement knowledge and skills. Implementation of this measure will ensure more effective and efficient procurements and allow the State to develop a more proficient workforce of procurement professionals who expend public funds in a manner that is compliant with applicable statutes, rules, and policies.

Your Committees have amended this measure by:

- (1) Requiring the chief procurement officer, or the officer's designee, of each jurisdiction to annually submit, in the form and manner prescribed by the State Procurement Office, a list of the jurisdiction's procurement officers and which procurement officers, if any, have failed to comply with training requirements; and
- (2) Prohibiting procurement by a procurement officer who fails to submit their name and evidence of training compliance to the State Procurement Office.

As affirmed by the records of votes of the members of your Committees on Government Operations and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2495, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2495, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Keith-Agaran, Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2429 (Joint) Government Operations and Judiciary and Labor on S.B. No. 2542

The purpose and intent of this measure is to:

- (1) Require each state executive agency that manages a state-owned building, facility, or other improvement to submit to the Legislature an annual report on the funds and positions deemed necessary by the agency to perform routine repair and maintenance on the state-owned building, facility, or other improvement during the fiscal year covered by the report;
- (2) Authorize an executive budget act or supplemental budget act to provide that the unexpended or unencumbered balance of an appropriation for routine repair and maintenance for a fiscal year shall not lapse at the end of that fiscal year; and
- (3) Require every capital improvement project for the construction of a new state-owned building, facility, or other improvement to include a recommended plan for the routine repair and maintenance of the building, facility, or other improvement prepared by the project contractor.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; United Public Workers, AFSCME, Local 646, AFL-CIO; and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance and Department of Human Resources Development.

Your Committees find that the deferred maintenance of state-owned buildings, facilities, and other improvements leads to more expensive capital replacement or renewal costs in the future. Implementation of this measure will promote transparency and preserve the condition of state-owned buildings, facilities, and other improvements for public use or benefit, now and into the future.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2542, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2542, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2430 (Joint) Government Operations and Judiciary and Labor on S.B. No. 3102

The purpose and intent of this measure is to authorize the Department of Business, Economic Development, and Tourism to develop, and any state agency to enter into, and implement inter-agency agreements without entering into a memorandum of agreement or memorandum of understanding.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and one individual.

Your Committees find that duplicate agency programs result in an ineffective use of resources. Inter-agency agreements provide agencies with an opportunity to coordinate resources and eliminate unnecessary duplication without having to enter into a

memorandum of agreement or memorandum of understanding. Implementation of this measure will streamline and expedite agreements between state agencies.

Your Committees have amended this measure by:

- (1) Inserting a purpose section to reflect its purpose;
- (2) Requiring, rather than authorizing, the Department of Business, Economic Development, and Tourism to develop, and any state agency to enter into, and implement inter-agency agreements without entering into a memorandum of agreement or memorandum of understanding;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3102, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3102, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

Judiciary and Labor: Ayes, 6. Noes, none. Excused, none.

SCRep. 2431 Commerce, Consumer Protection, and Health on S.B. No. 2688

The purpose and intent of this measure is to prohibit, beginning January 1, 2017, the sale or offering for sale of certain e-liquid containers for electronic smoking devices unless the container is child-resistant and, if the container is for an e-liquid product containing nicotine, is labeled with warning language.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i Cancer Center, Coalition for a Tobacco-Free Hawai'i, VOLCANO Fine Electronic Cigarettes, and Black Lava Vape. Your Committee received testimony in opposition to this measure from eight individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that according to the Centers for Disease Control and Prevention, calls to poison control centers across the country related to exposure to nicotine in cigarettes have grown considerably since 2010. Poison experts warn that concentrated nicotine in liquid form is significantly toxic, even in small doses, as poisonings related to e-liquid containers can occur when nicotine is inhaled or absorbed through the skin or eyes.

Your Committee further finds that the packaging and use of electronic smoking devices are potentially hazardous to the health of Hawaii residents, including Hawaii's children, yet many liquids for electronic smoking devices are offered in flavors and scents that are appealing to children. There are currently no packaging requirements for the sale of e-liquid containers. Stringent packaging and labeling requirements for e-liquid containers will protect young children from inadvertent exposure to the contents of electronic smoking device cartridges and also inform consumers whether an e-liquid product contains nicotine, a highly addictive substance.

Your Committee has amended this measure by:

- (1) Inserting additional labeling requirements for e-liquid product packaging;
- (2) Inserting language that establishes e-liquid packaging standards in the Hawaii Poison Prevention Packaging Act pursuant to chapter 330C, Hawaii Revised Statutes;
- (3) Expanding the definition of "hazardous substance" as used in the Hawaii Poison Prevention Packaging Act to include e-liquid; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2688, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2688, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2432 (Joint/Majority) Water, Land, and Agriculture and Transportation and Energy on S.B. No. 2936

The purpose and intent of this measure is to allow the Department of Transportation to negotiate the disposition of lands under its jurisdiction and control for aeronautical, airport-related, maritime, and maritime related operations without the approval of the Board of Land and Natural Resources and under certain conditions.

Your Committees received testimony in support of this measure from the Department of Transportation, Airlines Committee of Hawaii, Airport Concessionaires Committee, and Hawaiian Airlines. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Ka Lāhui Hawai'i Political Action Committee, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources and Hawai'i Farm Bureau.

Your Committees find that numerous parcels of public lands have been set aside specifically for airport and harbor use and placed under the jurisdiction of the Department of Transportation, which is required to obtain approval from the Board of Land and Natural

Resources prior to leasing any facilities located on such lands. Your Committees note that this approval process may cause delays; however, there are concerns that public input and comment currently afforded through the Board of Land and Natural Resources' public hearing process would be bypassed if the Department of Transportation were to negotiate the disposition of these public lands under its control without prior Board approval.

Your Committees have therefore amended this measure by:

- (1) Inserting a sunset date of July 1, 2021;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2936, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2936, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 4; Ayes with Reservations (Shimabukuro). Noes, 1 (Riviere). Excused, 4 (Dela Cruz, Ruderman, Wakai, Slom).

Transportation and Energy: Ayes, 4; Ayes with Reservations (Chun Oakland). Noes, none. Excused, 3 (English, Kidani, Slom).

SCRep. 2433 (Joint/Majority) Water, Land, and Agriculture and Transportation and Energy on S.B. No. 2937

The purpose and intent of this measure is to authorize the Department of Transportation to issue revocable permits for public land set aside to the Department of Transportation without prior approval of the Board of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Transportation, Airlines Committee of Hawaii, and Airport Concessionaires Committee. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Ka Lāhui Hawai'i Political Action Committee, and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Hawai'i Farm Bureau.

Your Committees find that numerous parcels of public lands have been set aside specifically for airport and harbor use and placed under the jurisdiction of the Department of Transportation, which is required to obtain approval from the Board of Land and Natural Resources prior to issuing revocable permits for any facilities located within airports and harbors. Your Committees note that this approval process may cause delays and potential revenue loss; however, there are concerns that public input and comment currently afforded through the Board of Land and Natural Resources' public hearing process would be bypassed if the Department of Transportation were to issue revocable permits without prior Board approval.

Your Committees have amended this measure by:

- (1) Clarifying the authority the Board of Land and Natural Resources has over issuing permits when such permits pertain to revocable permits for public land set aside to the Department of Transportation;
- (2) Inserting a sunset date of July 1, 2021;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2937, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2937, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 4; Ayes with Reservations (Shimabukuro, Thielen). Noes, 1 (Riviere). Excused, 4 (Dela Cruz, Ruderman, Wakai, Slom).

Transportation and Energy: Ayes, 4; Ayes with Reservations (Chun Oakland). Noes, none. Excused, 3 (English, Kidani, Slom).

SCRep. 2434 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2343

The purpose and intent of this measure is to:

- (1) Prohibit any county and the Hawaii Public Housing Authority from limiting the number of tenants in the section 8 housing choice voucher program that may occupy a single tax map key property, regardless of the number of units comprising the tax map key; and
- (2) Clarify that in a tax map key comprised of three units each unit may have one section 8 tenant.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the City and County of Honolulu, Department of Community Services. Your Committees received comments on this measure from the Hawaii Public Housing Authority.

Your Committees find that obtaining affordable rental housing is a challenge for many families. The federal subsidy program known as the housing choice voucher program, or section 8 housing program, assists families struggling with rent payments by

covering seventy percent of a tenant's rent. While this program has enabled some residents to find housing opportunities at an affordable cost, there have been issues concerning renting out multiple units on a single tax map key property to multiple section 8 tenants. This measure clarifies these issues in hopes of freeing up more housing units to those who are struggling to afford rental housing.

Your Committees have amended this measure by:

- (1) Deleting the proposed statutory amendments to chapter 46 and section 356D-31, Hawaii Revised Statutes;
- (2) Specifying that no county shall disqualify a legal nonconforming dwelling unit from the housing choice voucher program if the unit meets zoning and building code requirements and other program standards for health and safety; and
- (3) Specifying that the Hawaii Public Housing Authority shall not disqualify a legal nonconforming dwelling unit from the housing choice voucher program if the unit meets zoning and building code requirements and other program standards for health and safety.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2343, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2343, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 3 (Taniguchi, Wakai, Slom).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2435 (Joint) Economic Development, Environment, and Technology and Water, Land, and Agriculture on S.B. No. 2174

The purpose and intent of this measure is to limit the number of sea urchins that may be harvested without a permit, and to authorize the Department of Land and Natural Resources to issue permits for harvesting of sea urchins above that limit.

Your Committees received testimony in support of this measure from the Aha Moku Advisory Committee, Conservation Council for Hawai'i, and Animal Rights Hawai'i. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that sea urchins are an important component of the marine ecosystem of Hawaii. Sea urchins are considered a delicacy in many areas of the world, and large scale commercial harvesting could have a similar devastating effect on populations of sea urchins as it has had on populations of sea cucumbers, which have recently been overharvested prompting the adoption of emergency rules by the Department of Land and Natural Resources. Your Committees therefore find that protections for sea urchins should be established proactively, rather than reactively.

Your Committees have amended this measure by:

- (1) Inserting language to exempt native Hawaiian gathering rights and cultural practices from the prohibitions proposed by this measure; and
- (2) Amending language to restrict any person from taking, collecting, or harvesting three or more sea urchins within a one-day period, rather than a seven-day period.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2174, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2174, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Baker, Keith-Agaran).

Water, Land, and Agriculture: Ayes, 7. Noes, none. Excused, 2 (Dela Cruz, Shimabukuro).

SCRep. 2436 Human Services on S.B. No. 907

The purpose and intent of this measure is to establish a universal children's savings account program in the Department of Budget and Finance to promote financial education and assist children with purchasing a home or starting a business later in life.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which modified the measure by:

- (1) Clarifying the purpose of the program, which is to give children in Hawaii invested funds to assist them with purchasing a home, starting a business, or obtaining higher education;
- (2) Allowing families participating in the universal children's savings account program to establish accounts that can accumulate savings and interest or dividends from various investments;
- (3) Requiring the Department of Budget and Finance to adopt rules to determine appropriate types of investment portfolios used by the program;
- (4) Applying the appropriation to fiscal year 2016-2017, rather than fiscal year 2015-2016, and making the appropriation effective on July 1, 2016;
- (5) Changing the effective date to July 1, 2017; and

- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee received comments on the proposed S.D. 1 from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that universal children's savings and investment accounts, which facilitate the compounding of interest and growth of investments, would help families to start saving at birth for their child's future. Your Committee also finds that 34 percent of Hawaii's middle class families are asset poor, which means they lack the resources to subsist at the poverty level for three months if they lose their source of income. Further, students with savings are significantly more likely to pursue a higher education than those without. Children's savings and investment accounts increase expectations for the future, provide children and families with opportunities for economic mobility, serve as an educational tool in regard to learning about investing, and allow for the building of meaningful savings while learning about money and finance. Educating and encouraging families to create savings accounts, which may include a diverse investment portfolio of stocks, bonds, or mutual funds, for children accordingly contribute to the economic viability of Hawaii's citizens.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that the universal children's savings account program also includes investment accounts, from which interest and dividends can be used for any purpose that assists in building a positive financial future, including but not limited to starting a business, purchasing a home, or obtaining higher education;
- (2) Removing the requirement for the Department of Budget and Finance to adopt rules to determine the minimum amount of state matching funds to deposit into each qualifying account;
- (3) Requiring the Department of Budget and Finance to adopt rules to determine procedures and criteria for depositing funds into the investment fund;
- (4) Deleting the appropriation of general revenues into the universal children's savings account trust fund;
- (5) Requiring the Department of Budget and Finance to include in its next biennium budget request an appropriation for the amount necessary to administer the program; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 907, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 907, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2437 Water, Land, and Agriculture on S.B. No. 2355

The purpose and intent of this measure is to:

- (1) Authorize the Land Use Commission to amend, modify, or vacate boundary amendment approvals, special permit approvals, and conditions of direct state concern granted pursuant to chapter 205, Hawaii Revised Statutes, if the commission finds a failure to substantially meet conditions of direct state concern, to be specified by the commission at the time it approves, denies, or modifies a boundary amendment or special permit; and
- (2) Allow the Land Use Commission to fine parties who fail to comply with conditions of direct state concern after they have been notified of violations of the conditions.

Your Committee received testimony in support of this measure from the Office of Planning; Land Use Commission; Hawaii's Thousand Friends; Conservation Council for Hawaii'i; Ho'omana Pono, LLC; Sierra Club of Hawaii'i; and nine individuals. Your Committee received comments on this measure from the Building Industry Association of Hawaii and Chamber of Commerce Hawaii'i.

Your Committee finds that currently the only remedy available to the Land Use Commission when a petitioner fails to perform according to the conditions and requirements of a land use district boundary amendment or special permit is to grant an order to show cause pursuant to section 15-15-93, Hawaii Administrative Rules. Your Committee finds that additional tools are necessary for the Land Use Commission to enforce conditions and requirements of land use district boundary amendments and special permits in a manner that ensures that the interests of the State, counties, and public are protected.

Your Committee has amended this measure by:

- (1) Inserting a definition for the term "substantial commencement" in section 205-4(g), Hawaii Revised Statutes, to mean completion of all public improvements and infrastructure required by conditions imposed, both within and outside the project area, and completed construction of twenty percent of the physical private improvements such that they are usable or habitable;
- (2) Deleting language that would have authorized the Land Use Commission to amend, modify, or vacate boundary amendment approvals and conditions of direct state concern under certain conditions;
- (3) Inserting language to allow the Land Use Commission on its own motion or on the motion of any interested party to vacate, void, modify, or amend boundary amendment approvals and conditions of direct state concern granted pursuant to chapter 205, Hawaii Revised Statutes;
- (4) Deleting language that would have authorized the Land Use Commission to amend, modify, or vacate special permit approvals and conditions of direct state concern under certain conditions;

- (5) Inserting language to allow the Land Use Commission on its own motion or on the motion of any interested party to vacate, void, modify, or amend any special permit and conditions of direct state concern granted pursuant to chapter 205, Hawaii Revised Statutes;
- (6) Requiring conditions of direct state concern relating to boundary amendments and special permits to include conditions that protect the state marine and terrestrial environment and protect archaeological features and burial grounds, and conditions relating to the public trust doctrine;
- (7) Increasing the maximum fine for failure to substantially meet the conditions of direct state concern relating to boundary amendments and special permits from \$10,000 to \$50,000 per day; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2355, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2355, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 2438 Water, Land, and Agriculture on S.B. No. 2659

The purpose and intent of this measure is to establish an industrial hemp pilot program to allow the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by the Board of Agriculture for purposes of agricultural or academic research.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Maui Farmers Union United; Kihei Community Association; Laakea Community LLC; The Drug Policy Forum of Hawai'i; Hawaii Advocates for Consumer Rights; Life of the Land; The Haiku Aina Permaculture Initiative; Maui Farmers Union United; Ho'omana Pono, LLC; Hawai'i Farm Bureau; Maui Coffee Association; 'Ai Pohaku; Sanctuary of Mana Ke'a Gardens; We Are One; Soul Role; The Spirit of Aloha Botanical Gardens; Nellie's Rentals; National Hemp Association; and one hundred one individuals.

Your Committee finds that industrial hemp is well suited to Hawaii's climate and soil and can grow to over ten feet in a short period of time with little water and no pesticides. According to estimates by the Hemp Industries Association, retail sales of industrial hemp products grew to over \$620,000,000 annually in 2014. Industrial hemp has over 25,000 uses, including food, fiber, and fuel products, and has high potential to contribute to the future viability of the State's agricultural industry.

Your Committee has amended this measure by:

- (1) Requiring the Board of Agriculture to adopt rules concerning industrial hemp production no later than July 1, 2017, rather than November 1, 2016; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2659, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2659, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 3 (Dela Cruz, Wakai, Slom).

SCRep. 2439 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2917

The purpose and intent of this measure is to:

- (1) Create an exemption from the requirement for an environmental assessment for a jail facility to be built adjacent to Halawa Correctional Facility;
- (2) Reduce the public comment period for certain projects to develop or expand certain in-state correctional facilities to reduce prison or jail overcrowding; and
- (3) Appropriate funds for the purchase of jail facilities to relocate the Oahu Community Correction Center adjacent to the Halawa Correctional Facility.

Your Committee received testimony in support of this measure from the Department of Public Safety, Building Industry Association Hawaii, and Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from Ho'omana Pono, LLC; Community Alliance on Prisons; Life of the Land; Sierra Club of Hawaii; and four individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the existing Oahu Community Correctional Center facility is deteriorating, outmoded, and inefficient. The facility is severely overcrowded and not sufficient for the correctional needs of the State. Additionally, the facility's close proximity to residential neighborhoods, commercial enterprises, and industrial areas makes the location better suited for other uses. For these reasons, your Committee finds that a new community correctional center facility should be constructed. Your Committee also finds that the development of a new community correctional center facility should not be exempt from the required environmental assessment or have a shortened period of public comment.

Your Committee has amended this measure by:

- (1) Providing additional flexibility in the Department of Public Safety's procurement methods for development or expansion of in-state correctional facilities;
- (2) Removing language exempting the proposed development of a new community correctional facility from the requirement for an environmental assessment;
- (3) Removing language reducing the period of public comment before expansion or construction;
- (4) Increasing the capacity of the proposed facility from 1,000 to 1,250 beds;
- (5) Expanding the use of the appropriated funds to the construction, development, leasing, and otherwise providing for jail facilities; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2917, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2917, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2440 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2411

The purpose and intent of this measure is to:

- (1) Establish requirements for body-worn cameras and vehicle cameras for county police departments; and
- (2) Appropriate funds as a grant-in-aid to each county for the purchase of body-worn video cameras and law enforcement vehicle cameras; provided that no funds appropriated to a county shall be expended unless they are matched dollar-for-dollar by the county.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers. Your Committee received comments on this measure from the Office of Information Practices and the American Civil Liberties Union of Hawaii.

Your Committee finds that an increasing number of jurisdictions are addressing the issue of body-worn cameras and vehicle cameras being used by law enforcement officers. Body-worn cameras and vehicle cameras are useful for collecting evidence by police officers for use in court, as well as resolving incidents of alleged misconduct by officers. Your Committee finds that the public and law enforcement agencies are likely to benefit from the use of body-worn cameras and vehicle cameras by officers, but your Committee also notes testimony on this measure expressing concern that the measure as proposed does not provide sufficient policy guidelines for the use of body-worn cameras or vehicle cameras by police officers.

Your Committee has amended this measure by:

- (1) Replacing language requiring police departments to adopt policies for the use of body-worn cameras with language from H.B. No. 1738 (Regular Session of 2016) setting out procedures for the use and discontinuation of use of body-worn cameras by law enforcement officers and adding a related definition;
- (2) Inserting language from H.B. No. 1738 to add further prohibitions on the use of body-worn cameras by on-duty police officers, add retention and deletion requirements for body-worn camera footage, prohibit certain uses of body-worn camera video footage, and establish violations of recording and retention requirements; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2411, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2441 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2304

The purpose and intent of this measure is to require the Department of the Attorney General to maintain a publicly accessible database of all state and county law enforcement officers who are terminated or forced to resign due to criminal activity, improper behavior, or misconduct.

Your Committee received testimony in support of this measure from the Department of Public Safety; Department of Human Resources Development; Department of Land and Natural Resources; Ho'omana Pono, LLC; American Civil Liberties Union Hawai'i; Hawaii State Coalition Against Domestic Violence; and sixteen individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that effective applicant screening of prospective officers is vital to the compelling duty of state and county law enforcement agencies to protect the public. If the screening process fails and untrustworthy individuals become law enforcement officers, the public can be harmed and public trust in law enforcement can deteriorate. A public database of officers who have been terminated or forced to resign due to misconduct will give law enforcement agencies valuable information for screening applicants.

Your Committee notes that this measure, as proposed, is in conflict with existing law. Information regarding officers whose termination is still pending under appeal is protected by the privacy exception of the Uniform Information Practices Act. While this information should be timely available to law enforcement agencies considering an applicant, it should not be made publicly available until the appeals process is concluded.

Your Committee has amended this measure by:

- (1) Adding language to provide that information relating to officers whose termination is pending under appeal will not be made public until the appeals process is concluded; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2304, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2442 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2147

The purpose and intent of this measure is to establish an alternative incarceration pilot program, which will use electronic monitoring for selected persons to be released into the community in lieu of incarceration.

Your Committees received testimony in support of this measure from Ho‘omana Pono, LLC; Community Alliance on Prisons; and six individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Public Safety, Judiciary, and Hawaii Paroling Authority.

Your Committees find that prison overcrowding is a chronic problem in Hawaii. With the exception of inmates serving mandatory sentences, many persons could be released from incarceration into the community if they are required to wear electronic monitoring devices. Additionally, many nonviolent offenders could be sentenced to probation if electronic monitoring programs were expanded. The cost to monitor a person is much less than the cost required for incarceration, and existing law permits the use of electronic monitoring in intermediate sentencing as an alternative to incarceration. If remote monitoring is expanded, the overcrowding of Hawaii’s correctional facilities could be mitigated. Additionally, your Committees find that global positioning system monitoring devices offer significant cost benefits over traditional electronic monitoring devices.

Your Committees have therefore amended this measure by:

- (1) Changing the proposed pilot program to use global positioning system monitoring devices instead of electronic monitoring devices; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2147, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2147, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2443 (Joint) Water, Land, and Agriculture and Judiciary and Labor on S.B. No. 2647

The purpose and intent of this measure is to improve coordination between state and other government authorities as encouraged in section 183D-8, Hawaii Revised Statutes, and to remove any potential conflicts of law that unintentionally make Hawaii an attractive market for illegal wildlife trafficking by:

- (1) Prohibiting the sale, offering to sell, purchase, trade, or barter of any part or product from various animal and marine species;
- (2) Imposing penalties for violations of the prohibition on trafficking animal parts and products; and
- (3) Authorizing the Board of Land and Natural Resources to impose specific administrative fines for wildlife law violations.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Humane Society of the United States, Vulcan Inc., West Hawaii Humane Society, Humane Society International, Global March for Elephants and Rhinos, Action for Elephants UK, Hawaiian Humane Society, Conservation Council for Hawai‘i, Animal Welfare Institute, Nsefu Wildlife Conservation Foundation, and fifty-seven individuals. Your Committees received testimony in opposition to this measure from Hawaii Rifle Association, Elephant Protection Association, Whaler’s Locker’ Inc., and four individuals.

Your Committees find that the trafficking of animals threatened with extinction continues to grow at an alarming pace and ranks as the fourth most lucrative criminal activity behind narcotics, counterfeiting, and human trafficking. According to a 2008 study, Hawaii was the nation’s third largest market for ivory, after New York and California, which have both recently passed legislation to shut down their in-state markets for ivory, which means that without passage of this measure Hawaii may soon be the largest ivory market in the United States. Your Committees further find that the International Fund for Animal Welfare partnered with the Wildlife Conservation Society, Vulcan Inc., Natural Resources Defense Council, and Humane Society International to conduct a six-day investigation. The investigation of Hawaii’s online ivory trade found approximately \$1,200,000 worth of ivory and related wildlife products for sale in Hawaii, with the vast majority of retailers failing to provide documentation that would indicate these sales are legal under federal law.

Your Committees find that it is important to demonstrate Hawaii's continuing leadership in global conservation challenges, such as international wildlife trafficking and endangered species protection, and prohibit the market for threatened animal species parts and products with few exceptions.

Your Committees have amended this measure to mirror the changes in H.B. No. 2502, H.D. 1 (Regular Session of 2016), a substantially similar measure, by:

- (1) Deleting the term "evidencing provenance" from the antique and musical instrument exemption provisions;
- (2) Increasing the allowable amount of a covered animal species part or product in an antique or musical instrument from ten percent to twenty percent;
- (3) Inserting language to exempt a covered animal species part or product that is less than twenty percent of a legally purchased and possessed firearm or knife;
- (4) Inserting language to exempt a covered animal species part or product that is a fixed component or components of a larger manufactured item and is not, in its current form, the primary source of value of the item;
- (5) Deleting language that would have authorized the Board of Land and Natural Resources to impose specific administrative fines for wildlife law violations, as that language was stated in S.B. No. 2647, since it is unnecessary as section 183D-12, Hawaii Revised Statutes, already allows for administrative fines;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2647, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2647, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water, Land, and Agriculture: Ayes, 6. Noes, none. Excused, 3 (Ruderman, Wakai, Slom).

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2444 (Joint) Education and Commerce, Consumer Protection, and Health on S.B. No. 2976

The purpose and intent of this measure is to transfer the licensing and regulation program for private trade, vocational, and technical schools from the Department of Education to the Department of Commerce and Consumer Affairs.

Your Committees received testimony in support of this measure from the Department of Education and Office of the Auditor. Your Committees received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Travel Institute of the Pacific, Hawaii Institute of Hair Design, Pacific Center for Awareness and Bodywork, and twelve individuals.

Your Committees find that the Department of Education currently has the responsibility to license and regulate trade, vocational, and technical schools. Section 302A-425, Hawaii Revised Statutes (HRS), prohibits any such school from operating prior to being licensed by the Department of Education. Act 57, Session Laws of Hawaii 1998, amended section 302A-425, HRS, to change its purpose from ensuring educational and instruction quality to also include consumer protection. Protecting the public from such harmful practices is often in the purview of the Department of Commerce and Consumer Affairs. For that reason, licensure and regulation of trade, vocational, and technical schools should be transferred to the Department of Commerce and Consumer Affairs. However, your Committees note that significant work remains to be done before the Department of Commerce and Consumer Affairs is ready to assume the responsibility of licensing and regulating these types of schools. Your Committees expect that the Department of Education and Department of Commerce and Consumer Affairs will cooperate to ensure that when the transfer occurs in 2018, it will proceed smoothly and without disruption to the public.

Your Committees have amended this measure by:

- (1) Making the transfer effective as of July 1, 2018; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2976, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2976, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, 1 (Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2445 (Joint) Education and Commerce, Consumer Protection, and Health on S.B. No. 2557

The purpose and intent of this measure is to:

- (1) Expand the concussion educational program to include youth athletic activities for participants aged four to eighteen and incorporate additional program requirements; and
- (2) Appropriate funds to develop and implement the educational program and to administer concussion testing to high school athletes.

Your Committees received testimony in support of this measure from the Chancellor of the University of Hawaii System, University of Hawaii College of Education, American Physical Therapy Association, Hawaii High School Athletic Association, Hawaii Athletic Trainers' Association, and Positive Coaching Alliance. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the Department of Education.

Your Committees find that concussions are a common athletic injury that can have severe repercussions on the health and future of student athletes. Act 197, Session Laws of Hawaii 2012, required the Department of Education and the Hawaii High School Athletic Association to develop a concussion educational program for high school students. This program would also be beneficial for athletes in Hawaii's middle schools. Additionally, your Committees note that the source of monies in the neurotrauma special fund is limited.

Your Committees have amended this measure by:

- (1) Changing the grade and age range of the activities covered by the measure to grades six to twelve and ages eleven to eighteen;
- (2) Changing the source of the appropriation for the concussion education program to general funds rather than the neurotrauma special fund; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2557, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2557, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, 1 (Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2446 (Joint) Education and Commerce, Consumer Protection, and Health on S.B. No. 2387

The purpose and intent of this measure is to require a child to provide written documentation of a physical examination performed within twelve months prior to attending seventh grade at a public school.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawaii System, University of Hawaii College of Education, Hawaii Primary Care Association, Hawaii Public Health Institute, American Academy of Pediatrics, and one individual. Your Committees received comments on this measure from the Department of Health.

Your Committees find that school physical examinations are currently only conducted upon entry into the public school system. This usually occurs in kindergarten. As a child grows and begins to mature, latent health issues may arise or become more serious. Encouraging regular physical examinations promotes a culture of wellness and preventative health care, and is in the public interest. Additionally, physical examinations are appropriate at the seventh grade because that grade level also corresponds to immunization requirements.

Your Committees have amended this measure by:

- (1) Replacing the requirement for written documentation from a medical professional that a child is undergoing a physical examination with certification by a child's parents or guardians that the child has an appointment for an examination;
- (2) Adding language requiring the Department of Education to notify the parents or guardians of a child of the required physical examination as soon as practicable once the child leaves sixth grade; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2387, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2387, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, 1 (Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2447 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2111

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu for the career criminal prosecution unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney for the County of Maui, Department of the Prosecuting Attorney for the City and County of Honolulu, and Office of the Prosecuting Attorney for the County of Hawaii.

Your Committees find that a substantial and disproportionate amount of serious crime is caused by a relatively small number of multiple and repeat felony offenders. Such individuals are commonly known as career criminals. The career criminal prosecution program was established to support efforts by prosecuting attorneys to pursue such individuals, but funding for the program has declined since its inception. Your Committees find that funding the career criminal prosecution program is in the public interest.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2111 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2448 Judiciary and Labor on S.B. No. 3034

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution that:

- (1) Affords certain constitutional rights to victims of crimes and their surviving family members beginning at the time of their victimization;
- (2) Allows crime victims to assert and enforce crime victims' rights in any trial or appellate court;
- (3) Authorizes the Legislature to enact laws to further define, implement, and preserve the proposed constitutional rights of crime victims; and
- (4) Adds the definitions of "surviving family members" and "victim".

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kaua'i; American Association of University Women in Hawaii; Catholic Charities Hawai'i; Child & Family Service; The Children's Alliance of Hawaii; Domestic Violence Action Center; Marsy's Law Hawaii; The Pacific Alliance to Stop Slavery; Parents And Children Together; The Sex Abuse Treatment Center; Visitor Aloha Society of Hawaii; Mothers Against Drunk Driving; YWCA of Hawai'i Island; and forty-seven individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety, Office of the Public Defender, American Civil Liberties Union of Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the basic bill of rights for victims and witnesses under chapter 801D, Hawaii Revised Statutes, ensures that all victims and witnesses of crimes are treated with dignity, respect, courtesy, and sensitivity and that these rights are honored and protected by law enforcement agencies, prosecutors, and judges in a manner no less vigorous than the protections afforded criminal defendants. However, Hawaii is one of eighteen states without constitutional protections for crime victims. By elevating these statutory rights to constitutionally protected rights, this measure assures victims of crimes will be honored and protected without diminishing the rights of those accused.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Prosecuting Attorney of the City and County of Honolulu that:
 - (A) Affords certain rights to a crime victim or a deceased victim's surviving immediate family members, which the Department believes are essential, including the right to restitution; to be notified of major developments in a case; to be present at all public court proceedings, except when the court determines that the crime victim's testimony will be materially affected; to be consulted regarding proposed plea agreements; to be heard at all criminal justice proceedings that involve sentencing, incarceration, or release of the offender; and to be treated with courtesy, fairness, and respect for their dignity and privacy throughout the criminal justice process;
 - (B) Specifies that the court ensure that the crime victims or their surviving family members are afforded their rights in any court proceedings involving an offense against a crime victim;
 - (C) Specifies that a crime victim's exercise of constitutional rights shall not be grounds for dismissing any criminal proceeding or setting aside any conviction or sentence;
 - (D) Establishes that the proposed constitutional rights do not create any cause of action for compensation or damages against the State or any of its political subdivisions, or any employees of the State or any of its political subdivisions;
 - (E) Extends the Legislature's authority to enact laws to further implement proposed constitutional rights of crime victims to juvenile proceedings;
 - (F) Clarifies that none of the proposed constitutional rights of crime victims shall be construed to supersede the constitutional rights of any accused person or offender;
 - (G) Replaces the term "surviving family members" with the term "surviving immediate family members" and specifies that the term "major developments" may be defined by law; and
 - (H) Makes conforming amendments to the constitutional question to reflect the proposed constitutional rights granted to a crime victim or a deceased victim's surviving immediate family members; and
- (2) Amending further the proposed language suggested by the Department of the Prosecuting Attorney of the City and County of Honolulu by:
 - (A) Condensing the preamble under section 1;
 - (B) Specifically, clarifying that surviving immediate family members of a deceased crime victim are those persons who are defined by law;
 - (C) Replacing the term "offender" with "accused person" for persons who are pre-adjudicated and "defendant" for persons who are adjudicated, as applicable, and reserving the term "offender" for persons who are post-adjudicated;
 - (D) Broadening the requirement that the court afford a fair opportunity to the crime victim to be heard on the issue of the defendant's disposition before sentencing to all court cases rather than only circuit court cases;

- (E) Limiting other opportunities for the crime victim to be involved in sentencing to be provided by law;
- (F) Including deceased victim's surviving immediate family members as those who are allowed to assert and have their constitutional rights enforced;
- (G) Specifying that the terms "victims", "surviving immediate family members", "major developments", and "involuntarily hospitalized" may be defined by law;
- (H) Making conforming amendments to the constitutional questions to reflect these further amendments; and
- (I) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3034, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2449 Judiciary and Labor on S.B. No. 2924

The purpose and intent of this measure is to:

- (1) Amend section 231-18, Hawaii Revised Statutes (HRS), to allow disclosure of tax return information to the Department of the Attorney General, federal, state, or local officials, and other persons in specified situations; and
- (2) Amend section 235-116, HRS, to clarify that all information filed under chapter 235, HRS, with any state agency is confidential.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Department of Taxation is authorized to disclose tax return information to duly accredited federal, state, and local tax officials. This measure clarifies some of the common, specific instances where the Department of Taxation may disclose tax return information. However, your Committee has concerns regarding the types of federal, state, or local agencies and personnel that are authorized to receive tax return information and the purposes for which these agencies and personnel are authorized to use the information.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2924, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2924, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2450 Judiciary and Labor on S.B. No. 2880

The purpose and intent of this measure is to appropriate funds to the Department of Public Safety, Department of Land and Natural Resources, Department of Defense, and Department of Accounting and General Services to establish civil service positions.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Department of Public Safety; Department of Human Resources Development; Department of Land and Natural Resources; and United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committee finds that in *Konno v. Hawaii County*, 937 P. 2d 397 (1997), the Hawaii Supreme Court held that state civil service laws allow only civil service employees to perform work historically and customarily done by civil service employees. In June 2015, following years of litigation related to the *Konno* ruling, the United Public Workers and the State's executive branch entered into a letter of understanding that includes the requirement that departments identify positions and resources needed to enable contracted work to be performed by civil service employees. Implementation of this measure will support state agency operations as part of a mediated process to address the objections of the United Public Workers.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2880, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2880, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2451 Judiciary and Labor on S.B. No. 2841

The purpose and intent of this measure is to require the State and counties to make their required contributions to the Employees' Retirement System (ERS) on a monthly basis or in advance in an amount greater than the amount payable for the current fiscal quarter.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that under existing law, employer contributions to the ERS are required to be made on a monthly basis. While advance payment is not prohibited, existing law may be interpreted to require an employer who makes an advance contribution to the ERS to also make monthly payments even if the advance payment covered the required monthly payment amount. Implementation of this measure provides clarity regarding state and county contributions to the ERS and provides the ERS with the opportunity to invest funds sooner for greater investment returns by removing any disincentives to employers for making advance payments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2841 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2452 Judiciary and Labor on S.B. No. 2527

The purpose and intent of this measure is to:

- (1) Establish the Hawaii employment advancement right now (EARN Hawaii) program to administer grants to strategic industry partnerships for job skills training;
- (2) Require the Department of Labor and Industrial Relations to:
 - (A) Develop and implement a state employment advancement strategy and a uniform and easily accessible statewide "Train Hawaii" website to promote available training programs, including those under the EARN Hawaii program;
 - (B) Submit an annual report to the Legislature regarding the EARN Hawaii program; and
 - (C) Convene a working group of stakeholders to advise on the initial development and implementation of the EARN Hawaii program; and
- (3) Appropriate funds for the EARN Hawaii program.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and one individual.

Your Committee finds that a strategy is needed to help businesses cultivate the skilled workforce necessary for competition and to ensure Hawaii employers have the talent they need to compete and grow. By establishing the EARN Hawaii program, this measure addresses the demands of businesses by focusing on the workforce needs of a specific industry sector over a sustained period; addresses the needs of workers by creating formal career paths to good jobs, reducing employment barriers, and sustaining or increasing middle class jobs; and encourages mobility for Hawaii's hard-to-serve populations through career readiness training.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2527 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2453 Judiciary and Labor on S.B. No. 2496

The purpose and intent of this measure is to:

- (1) Require the Office of Elections to implement elections by mail in a county with a population of less than 100,000, beginning with the 2018 primary election, to additionally implement elections by mail in each county with a population of less than 500,000, beginning with the 2022 primary election, and, beginning in 2022, to conduct all federal, state, and county primary, special primary, general, special general, and special elections by mail;
- (2) Allow a registered voter to request an absentee ballot or permanent absentee ballot in lieu of receiving an election by mail ballot package;
- (3) Establish an elections by mail system, including procedures for conducting elections by mail and counting of mail-in ballots;
- (4) Provide places of deposit for personal delivery of mail-in ballots and a limited number of voter service centers in each county that would remain open on the day of election to receive personal delivery of absentee, permanent absentee, and mail-in ballots, accommodate voters with special needs, and provide other services;
- (5) Establish procedures for postponed elections and prohibit the disclosure of election results within a precinct where an election has been postponed until voting for the postponed election has concluded;
- (6) Make conforming amendments to existing laws relating to elections to reflect and implement an elections by mail program;
- (7) Allocate and designate the expenses and responsibilities for elections by mail;

- (8) Appropriate funds out of general revenues for the Office of Elections to implement and administer an election by mail program; and
- (9) Require the Office of Elections to submit a report to the Legislature prior to the convening of each Regular Session from 2017 until 2023, regarding the implementation and administration of the election by mail program.

Your Committee received testimony in support of this measure from the Office of Elections. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii. Your Committee received comments on this measure from the Office of the City Clerk, City and County of Honolulu.

Your Committee finds that the trend in Hawaii has been toward increased mail-in voting and that shifting to elections by mail would significantly reduce the logistical issues related to conducting elections. This measure implements an election by mail voting system in increments to allow the State to transition to conducting elections by mail through a phased-in approach.

Your Committee notes the suggestions made via testimony of the Office of Elections and the Office of the City Clerk of the City and County of Honolulu regarding implementation of an election by mail system, voter service centers, absentee ballots, and electronic transmission of ballots. Your Committee further notes other elections-related measures currently moving through the legislative process that could impact and strengthen this measure.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the suggestion made by the Office of Elections and Office of the City Clerk of the City and County of Honolulu to establish a two-phase, rather than three-phase election by mail system with the Office of Elections implementing elections by mail in a county with a population of less than 100,000, beginning with the 2018 primary election, and implementing elections by mail in each of the other counties for all elections, beginning with the 2020 primary election;
- (2) Clarifying that a registered voter may request an absentee ballot or permanent absentee ballot in lieu of receiving an election by mail ballot if the registered voter is in a county that has not yet implemented elections by mail and establishing that an absentee ballot-only election may continue to be conducted;
- (3) Changing the time period for the county clerk to mail ballot packages to registered voters from no earlier than thirty days before the date of the election to no earlier than eighteen days and not later than fourteen days before the date of election, and establishing that this timeframe does not affect the responsibilities of the Chief Election Officer with respect to uniform military and overseas voters;
- (4) Establishing that a voter may cast a mail-in ballot by mail, personal delivery to any place of deposit no later than 6:00 p.m. on the day preceding the date of the election, or personal delivery to any voter service center no later than the closing time provided by law on the date of the election;
- (5) Adding language that:
 - (A) Specifies duties for the county clerk to perform upon receipt of a replacement ballot;
 - (B) Specifies procedures for a voter to cast a mail-in ballot and replacement ballot;
 - (C) Establishes procedures regarding the deficient return of identification envelopes, including providing a five-day correction period beyond the date of the election for envelopes with deficient signatures; and
 - (D) Provides for the electronic transmission of ballots under certain circumstances;
- (6) Changing the time period in which the counting of mail-in ballots may begin from seven days to ten days before the election;
- (7) Establishing that each county clerk, after consultation with the Chief Election Officer, shall designate at least one location in the county to serve as a voter service center and allowing the office of the clerk of each respective county or any other locations that the clerk deems necessary to serve as a voter service center;
- (8) Authorizing the Chief Election Officer and county clerks to designate and provide for places of deposit if locations and apparatus can be securely maintained throughout the period of use for each election;
- (9) Allocating the expenses and responsibilities of the Office of Elections and the counties based on the various types of election contests under the election by mail program;
- (10) Amending the definitions under section 11-1, Hawaii Revised Statutes (HRS), to:
 - (A) Delete the definition of "election by mail ballot package";
 - (B) Add the definition of "electronic transmission"; and
 - (C) Amend the definition of "voter service center" to include the purposes that voter service centers are required to serve;
- (11) Amending section 11-173.5, HRS, relating to election contests for cause, to allow a complaint to be filed no later than the thirteenth, rather than the sixth, day after a primary or special primary election;
- (12) Amending chapter 15, HRS, to allow an absentee ballot to be forwarded to a one-time temporary address and provide for the electronic transmission of absentee ballots;
- (13) Scheduling section 11-91.5, HRS, relating to elections by mail for special elections, to sunset on the date of the 2020 primary election;

- (14) Specifying that the appropriation of funds for the election by mail program includes the purposes of funding voter education and public awareness programs;
- (15) Adding areas of study to the annual reports that the Office of Elections is required to submit to the Legislature from the Regular Sessions of 2017 to 2023;
- (16) Adding a severability clause; and
- (17) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2496, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2496, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2454 (Majority) Judiciary and Labor on S.B. No. 2435

The purpose and intent of this measure is to:

- (1) Repeal the exclusion of benefits of the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) from the subjects of collective bargaining negotiation;
- (2) Repeal the prohibition of using arbitration to resolve impasses or disputes relating to the amounts the State and counties must contribute to the EUTF; and
- (3) Clarify that a decision of an arbitration panel is final by repealing the Legislature's role in recommending employer contributions to the EUTF if the negotiating parties are unable to agree on contribution amounts.

Your Committee received testimony in support of this measure from the Hawaii Government Employees' Association, AFSCME Local 152, AFL-CIO; University of Hawaii Professional Assembly; Hawaii Fire Fighters Association; and one individual. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance and Department of Human Resources of the City and County of Honolulu. Your Committee received comments on this measure from the Office of Collective Bargaining of the Executive Office of the Governor, Department of the Attorney General, and University of Hawai'i System.

Your Committee finds that efforts are necessary to implement reforms to the EUTF to address various concerns. However, as raised in testimony, allowing each bargaining unit to negotiate its own benefits and use arbitration to decide EUTF disputes or impasses creates uncertainty and may have a negative financial impact on public employers and employees.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 1, relating to the exclusion of benefits of the EUTF from negotiation and use of arbitration to resolve impasses or disputes relating to the amounts the State and counties must contribute to the EUTF;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2435, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, 1 (Slom). Excused, none.

SCRep. 2455 Judiciary and Labor on S.B. No. 2318

The purpose and intent of this measure is to:

- (1) Establish the address confidentiality program to help survivors of domestic violence, sexual assault, and stalking to relocate and keep their actual addresses confidential by using a substitute address; and
- (2) Make an appropriation for the implementation and operation of the address confidentiality program.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission; Hawaii State Commission on the Status of Women; Department of the Prosecuting Attorney, City and County of Honolulu; American Association of University Women of Hawaii; Domestic Violence Action Center; The Sex Abuse Treatment Center; Parents And Children Together; Planned Parenthood Votes Northwest and Hawaii; Women's Caucus of the Democratic Party of Hawai'i; Hawaii Women's Coalition; and four individuals. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that address confidentiality programs are necessary in light of modern technology that makes information easily accessible through the Internet and in public records. According to the written testimony submitted by the Hawaii State Commission on the Status of Women, more than thirty states have enacted and implemented address confidentiality programs. This measure helps to keep victims of domestic violence, sexual assault, and stalking safe by protecting their actual addresses while providing a substitute address to enable them to be legally served, receive child support payments, register to vote, and apply for a driver's license.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Hawaii State Commission on the Status of Women that:
 - (A) Adds the definition of “agency” to include state and county agencies;
 - (B) Deletes the definition of “resident” and clarifies that a minor who resides with a parent or guardian does not need to be a resident of Hawaii to become a program participant;
 - (C) Deletes the definition of “state agency” or “agency” and makes conforming amendments accordingly;
 - (D) Clarifies the program director is required to designate, rather than hire, applicant assistants because applicant assistants are not employees of the address confidentiality program;
 - (E) Clarifies that a secondary program participant may have the secondary program participant’s certification cancelled if the program participant’s certification is cancelled for any reason; and
 - (F) Establishes that disclosure of the actual address of a program participant is prohibited unless required by chapter 92F, Hawaii Revised Statutes, or the court makes certain findings by clear and convincing evidence; and disclosure of a program participant’s actual address is a misdemeanor;
- (2) Changing the administrative placement and expending agency of the address confidentiality program from the Department of Accounting and General Services to the Department of the Attorney General and making conforming amendments accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2318, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 2456 (Majority) Judiciary and Labor on S.B. No. 2313

The purpose and intent of this measure is to:

- (1) Prohibit an employer from using a system that measures earnings by quantity or quality of production as an affirmative defense to pay differential;
- (2) Clarify that an employer may use a bona fide seniority system, bona fide merit system, or bona fide occupational qualifications as an affirmative defense to pay differential;
- (3) Clarify that an employer is prohibited from discriminating between employees because of sex by paying wages to employees at a rate less than the rate at which the employer pays wages to employees of the opposite sex for substantially similar work and under similar working conditions, with certain exceptions; and
- (4) Prohibit employers from restricting wage disclosure.

Your Committee received testimony in support of this measure from the Hawai‘i Civil Rights Commission, Hawaii State Commission on the Status of Women, Hawaii Women’s Coalition, Hawai‘i State Democratic Women’s Caucus, Planned Parenthood Votes Northwest and Hawaii, and five individuals. Your Committee received testimony in opposition to this measure from the National Federation of Independent Business and one individual.

Your Committee finds that pay disparity persists between men and women who do similar work. The persistent disparity in earnings has a significant impact on the economic security and welfare of thousands of working women and their families.

Your Committee further finds that pay secrecy inhibits workers from pursuing claims of pay discrimination because women cannot challenge wage discrimination that they do not know exists. Implementation of this measure improves the State’s laws pertaining to equal pay and wage disclosures and will encourage greater gender equality in the workplace.

Your Committee has amended this measure by:

- (1) Reinserting language to authorize an employer to use a system that measures earnings by quantity or quality of production as an affirmative defense to pay differential;
- (2) Inserting language to authorize an employer to use a bona fide factor other than sex as an affirmative defense to pay differential; provided that the factor is not based on or derived from a sex-based differential in compensation, is job-related to the position in question, and is consistent with a legitimate business necessity;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2313, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2313, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Slom). Excused, none.

SCRep. 2457 Commerce, Consumer Protection, and Health on S.B. No. 2691

The purpose and intent of this measure is to:

- (1) Define “disposable electronic smoking device”, “electronic smoking device”, “e-liquid”, and “reusable electronic smoking device” in the State’s cigarette tax and tobacco tax law;
- (2) Impose an excise tax on an e-liquid sold by a wholesaler or dealer on or after January 1, 2017, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (3) Require any increase in the excise tax rate imposed on cigarettes or little cigars on or after January 1, 2017, to trigger an automatic excise tax increase on e-liquid on or after January 1, 2017; and
- (4) Impose an excise tax on the wholesale price of disposable electronic smoking devices and reusable electronic smoking devices sold by a wholesaler or dealer on or after January 1, 2017, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai‘i Cancer Center, Coalition for a Tobacco-Free Hawai‘i, American Heart Association, and fifty-three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance, VOLCANO Fine Electronic Cigarettes, PC Gamerz Hawaii, and thirteen individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has a substantial interest in reducing the number of individuals of all ages who use tobacco products. Tobacco use in Hawaii causes approximately 1,400 deaths per year among adults and poses a heavy burden on Hawaii’s health care system. Research has shown that either a tax on cigarettes or cigarette price increases have the propensity to reduce the rate of smoking by adult and youth smokers. However, as the price of cigarettes increases, smokers may turn to less expensive tobacco products, including electronic smoking devices.

Your Committee further finds that the use of electronic smoking devices is on the rise, while the electronic smoking device industry, along with the production of e-liquid, are growing rapidly. This growth of the electronic smoking device industry, including retail businesses selling electronic smoking devices or e-liquid, necessitates further regulations to protect consumers, such as requiring retailers of electronic smoking devices or e-liquid to obtain a retail tobacco permit. In addition, toxicologists warn that e-liquids pose significant risks to public health, particularly to children.

Your Committee further finds that taxes on e-liquid should be similar to the tax rates already imposed on cigarettes. E-liquid and tobacco products other than cigarettes are currently taxed at a lower rate than cigarettes, even though their use carries similar health risks. There should not be a lower-priced tobacco alternative to cigarettes in Hawaii; therefore a similar tax rate for cigarettes and e-liquids that acts as a deterrent for all forms of tobacco and nicotine use is needed. Higher prices on e-liquids and electronic smoking devices will encourage users of electronic smoking devices to quit, sustain cessation, prevent youth initiation, and reduce consumption among those who continue to use.

To assist your Committee on Ways and Means with its deliberation on this measure, your Committee recommends an excise tax equal to eighty percent of the wholesale price of each disposable electronic smoking device sold, used, or possessed by a wholesaler or dealer on and after January 1, 2017, and an excise tax equal to 55 cents per milliliter of e-liquid sold, used, or possessed by a wholesaler or dealer on and after January 1, 2017.

Your Committee has amended this measure by:

- (1) Requiring every retailer engaged in the retail sale of cigarettes, tobacco products, electronic smoking devices, or e-liquid to obtain a retail tobacco permit in order to sell, possess, keep, acquire, distribute, or transport cigarettes, tobacco products, electronic smoking devices, or e-liquid for retail sale;
- (2) Specifying that any entity that operates as a dealer or wholesaler and also sells cigarettes, tobacco products, electronic smoking devices, or e-liquid to consumers at retail is required to acquire a separate retail tobacco permit;
- (3) Inserting language related to the sales of cigarettes, tobacco products, electronic smoking devices, or e-liquid made through vending machines;
- (4) Specifying that a vehicle from which cigarettes, tobacco products, electronic smoking devices, or e-liquid are sold is considered a place of business and requires a retail tobacco permit;
- (5) Inserting language related to the keeping of complete and accurate records of a permittee’s cigarette, tobacco product, electronic smoking device, and e-liquid inventory;
- (6) Allowing electronic smoking devices, packages of electronic smoking devices, containers of electronic smoking devices, e-liquid, packages of e-liquid, and containers of e-liquid to be seized and forfeited if unlawfully sold, possessed, kept, stored, acquired, distributed, or transported;
- (7) Deleting language that would have required any increase in the excise tax rate imposed on cigarettes or little cigars on or after January 1, 2017, to trigger an automatic excise tax increase on e-liquid on or after January 1, 2017;
- (8) Deleting language that would have established an excise tax on each reusable electronic smoking device sold, used, or possessed by a wholesaler or dealer on and after January 1, 2017;
- (9) Requiring and specifying information that every wholesaler or dealer of electronic smoking devices and e-liquid shall file with the Department of Taxation on a monthly basis;

- (10) Requiring every wholesaler or dealer to keep a record of every sale of electronic smoking devices and e-liquid; the wholesale price of electronic smoking devices sold, possessed, or used; the milliliters of e-liquid sold, possessed, or used; and the taxes payable on electronic smoking devices and e-liquid sold, possessed, or used;
- (11) Authorizing the Department of Taxation and Attorney General to examine certain records and operations of any person engaged in the business of wholesaling electronic smoking devices and e-liquid;
- (12) Specifying monthly reporting requirements for licensees of electronic smoking devices and e-liquid;
- (13) Requiring the Department of Taxation to adopt rules for licensees who pay a tobacco tax on the distribution of electronic smoking devices or e-liquid;
- (14) Amending the effective date to January 1, 2017; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2691, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2691, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Slom).

SCRep. 2458 (Joint) Commerce, Consumer Protection, and Health and Education on S.B. No. 2476

The purpose and intent of this measure is to:

- (1) Establish within the Department of Health, Family Health Services Division, an early language acquisition program to assess and track language development for children who are deaf, hard of hearing, and deaf-blind;
- (2) Require the Family Health Services Division to:
 - (A) Select language development milestones used to meet federal requirements for the assessment of children from birth to age five, inclusive;
 - (B) Use the language development milestones to develop a resource for use by parents to monitor and track deaf, heard of hearing, and deaf-blind children's receptive and expressive language acquisition and developmental stages related to English literacy and appropriate communication skills; and
 - (C) Select educator tools or assessments that can be used to assess the language and literacy development of child who are deaf, hard of hearing, and deaf-blind;
- (3) Starting on or before July 1, 2018, require the Family Health Services Division in conjunction with the Department of Education to produce a report that is specific to language and literacy development of deaf, hard of hearing, and deaf-blind children from birth to five years of age;
- (4) Establish an early language acquisition advisory committee to obtain input from experts on the selection of language development milestones for children who are deaf, hard of hearing, and deaf-blind;
- (5) If a deaf, hard of hearing, or deaf-blind child does not demonstrate progress in expressive or receptive language skills, require individualized family services plans or individualized education plans to explain why a child is not meeting language developmental milestones and make recommendations to assist the child's success toward English literacy; and
- (6) Make an appropriation to the Department of Health for the establishment of language development milestones and the corresponding parent resource and educator tools and assessments.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board; School Community Council of the Hawaii School for the Deaf and the Blind; Hawaii Deaf Surfriders Association; Aloha State Association of the Deaf; Isle Interpret, LLC; and thirty-two individuals. Your Committees received comments on this measure from the Department of Education, Department of Health, Executive Office on Early Learning, and one individual.

Your Committees find that children who are deaf, hard of hearing, or deaf-blind have the same ability and capability to learn language as their peers who do not have a similar disability. The ability and right to develop language are central to the human experience and necessary prerequisites to literacy as well as cognitive, emotional, linguistic, academic, and social growth and the chance for children to evolve into healthy and productive members of society. Without communication through language, formal education is not possible.

Your Committees further find that current statistics show many children who are deaf, hard of hearing, or deaf-blind arrive at kindergarten with severe language delays and, in many cases, language deprivation. Children who are deaf, hard of hearing, or deaf-blind often begin kindergarten without the necessary language skills to acquire the knowledge and academic competencies that will allow them to be successful in school and life.

Your Committees have amended this measure by deleting its contents and inserting language that:

- (1) Establishes an early learning acquisition program with various services for children who are deaf, hard of hearing, or deaf-blind within the Department of Health to support age-appropriate language development for children from birth to age three years who are deaf, hard of hearing, or deaf-blind;

- (2) Establishes a working group for the purposes of investigating issues related to resources and tools for parents of children who are deaf, hard of hearing, or deaf-blind and improvements to the statewide system of services that support age-appropriate language development for children from birth to age five who are deaf, hard of hearing, or deaf-blind and reporting findings and recommendations to the Legislature prior to the Regular Sessions of 2017 and 2018;
- (3) Appropriates funds for three permanent full-time equivalent (3.0 FTE) positions to establish and operate the early language acquisition program; and
- (4) Appropriates funds for one-full time equivalent (1.0 FTE) position to teach American Sign Language for children from birth to age five who are deaf, hard of hearing, or deaf-blind.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2476, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2476, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

Education: Ayes, 5. Noes, none. Excused, 1 (Harimoto).

SCRep. 2459 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2777

The purpose and intent of this measure is to:

- (1) Require the counties to regulate transportation network companies and transportation network company drivers and issue permits to transportation network companies;
- (2) Require transportation network companies to pay an annual airport permit to the Department of Transportation, for purposes of authorizing transportation network drivers to pick up and discharge riders at airports in the State;
- (3) Establish insurance, qualifications, and other requirements for transportation network company drivers; and
- (4) Establish minimum standards for driver qualifications, drug and alcohol policies, and antidiscrimination and accessibility policies for taxicab companies and taxicab drivers operating within each county.

Your Committees received testimony in support of this measure from USAA, National Association of Mutual Insurance Companies, Hawaii Insurers Council, and Government Employees Insurance Company. Your Committees received testimony in opposition to this measure from UBER Technologies, Lyft, Hawaii Association for Justice, and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Property Casualty Insurers Association of America.

Your Committees find that transportation network companies are entities that use a digital network to connect riders with a transportation network company driver who is offering services using the driver's personal vehicle. Transportation network companies have become increasingly popular throughout the country, including in Hawaii, and have expanded transportation options for the benefit of the public. Although the public has been receptive to this innovation in transportation services, transportation network companies are not currently regulated in Hawaii and therefore, there are no consumer protections in place for members of the public who use the services of transportation network companies. In addition, there are concerns about potential gaps in motor vehicle insurance coverage associated with transportation network companies.

Your Committees have amended this measure upon the recommendation of the Department of Commerce and Consumer Affairs' Insurance Division by:

- (1) Clarifying that the primary insurance requirements for uninsured and underinsured motorist coverage shall meet the requirements of section 431:10C-301, Hawaii Revised Statutes; provided that the stacking of uninsured and underinsured motorist coverages may be rejected in writing; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Public Safety, Intergovernmental, and Military Affairs, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2777, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2777, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 7. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Espero).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 2460 (Joint/Majority) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs and Water, Land, and Agriculture on S.B. No. 2535

The purpose and intent of this measure is to:

- (1) Allow counties to adopt ordinances to regulate geothermal resources exploration conducted less than one mile from a residence if the ordinance is not inconsistent with state law;
- (2) Prohibit counties from adopting ordinances to regulate geothermal resources exploration conducted one mile or more from a residence;

- (3) Clarify that the regulation of geothermal resources development and geothermal resources exploration is reserved to the State unless delegated to the counties by statute;
- (4) Require the lessee of a mining lease to comply with all water and air pollution control laws, relating to building, grading, and flood control codes; and
- (5) Require the rules of the Board of Land and Natural Resources regarding mining operations, geothermal resource development, and geothermal resource exploration, including drilling conditions and restrictions, to be uniform throughout the State.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Association of REALTORS, Hawaii Laborers-Employers Cooperation Education Trust, and four individuals. Your Committees received testimony in opposition to this measure from the Life of the Land; Puna Pono Alliance; We Are One, Inc.; Laakea Community LLC; Pele Lani Farm, LLC; and numerous individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Office of Hawaiian Affairs; and two individuals.

Your Committees find that the cost of electricity in the State of Hawaii exceeds the costs of electricity in every other state. Reducing electricity costs depends in part on diversifying the energy sources within the State. Geothermal energy is a firm source of indigenous, renewable energy that could be made available at low costs.

Your Committees further find that the development and regulation of geothermal energy development and production is a matter of statewide concern. Your Committees believe that regulations concerning the development of geothermal energy, geothermal energy exploration, and geothermal mining operations should be uniform throughout the State, and not subject to restrictions imposed by the counties that are inconsistent with or contrary to state laws and regulations.

Your Committees have amended this measure by:

- (1) Deleting language authorizing the counties to adopt ordinances to regulate geothermal resources exploration conducted less than one mile from a residence;
- (2) Deleting language prohibiting the counties from adopting ordinances to regulate geothermal resources development conducted one mile or more from a residence;
- (3) Adding a purpose section; and
- (4) Inserting an effective date of June 22, 2022, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Public Safety, Intergovernmental, and Military Affairs, and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2535, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2535, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, 2 (Chun Oakland, Slom). Excused, 1 (Gabbard).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, 1 (Slom). Excused, none.

Water, Land, and Agriculture: Ayes, 5; Ayes with Reservations (Shimabukuro, Wakai). Noes, 4 (Riviere, Ruderman, Thielen, Slom). Excused, none.

SCRep. 2461 (Majority) Transportation and Energy on S.B. No. 2938

The purpose and intent of this measure is to:

- (1) Increase the state fuel tax to generate additional revenues for the state highway fund;
- (2) Increase the state motor vehicle registration fee and the amount of the fee to be deposited into the state highway fund;
- (3) Increase the state motor vehicle weight tax; and
- (4) Make an appropriation to the Department of Transportation for the operations and maintenance of the state highways program.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Energy Policy Forum, and Blue Planet Foundation. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, Tax Foundation of Hawaii, Chamber of Commerce Hawaii, Hawaii Transportation Association, and one individual.

Your Committee finds that the state fuel tax, state motor vehicle registration fee, and state motor vehicle weight tax are the major revenue sources for the state highway fund. They are also the major sources of pledged revenues for the highway revenue bonds. The additional revenue provided by this measure will positively impact the highway revenue bonds ratings. A higher bond rating decreases the cost of borrowing.

Your Committee further finds that appropriations from the state highway fund are used for the construction, operations, and maintenance of the state highway system. Any increase in this primary source of revenues for the state highway fund will enhance the Department of Transportation's ability to construct, operate, and maintain the state highway system. This would enable an increase in the highways capital improvement program and special maintenance programs. The failure of the State to properly maintain the state highway system may result in sanctions by the Federal Highway Administration, including the loss of federal funds.

The increase in revenues provided by this measure will provide safer infrastructure enhancements for all users including motorists, pedestrians, bicyclists, and transit users and will positively impact the Department of Transportation's ability to qualify state matching funds for the highways federal-aid program. In addition, the availability of state matching funds may result in attracting additional

federal funds. The normal federal share for projects on the interstate system is ninety percent and for other eligible roadways it is eighty percent.

Your Committee has amended this measure by:

- (1) Blanking out the amounts of the increases for fuel taxes, motor vehicle registration fee, and motor vehicle weight tax; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2938, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2938, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Chun Oakland). Noes, 1 (Slom). Excused, 1 (Gabbard).

SCRep. 2462 Transportation and Energy on S.B. No. 2142

The purpose and intent of this measure is to create the class C offense of endangering public transportation for tampering with a public highway or a facility of public transportation with intent to cause any damage, malfunction, nonfunction, theft, or unauthorized removal of material which would result in the creation of a substantial risk of death or serious bodily injury.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the vandalism and theft of copper wiring from street lights and traffic control devices have endangered public safety. The intent of your Committee is provide another tool to discourage acts of vandalism and destruction of public property, and to protect the traveling public.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2142, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2463 Transportation and Energy on S.B. No. 3121

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist PQ Energy LLC, through special purpose entities to be formed, with the development and construction of renewable energy plants within the State of Hawaii.

Your Committee received testimony in support of this measure from PVT Land Company and PQ Energy LLC. Your Committee received testimony in opposition to this measure from the Life of the Land. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that support for the development of renewable and efficient energy systems in the State, which is geographically isolated from fossil fuels, continues to be in the public interest. PQ Energy LLC offers sustainable solutions for the generation of renewable energy and waste management through the development of renewable energy plants. PQ Energy LLC's plants will use a proven gasification solution and other renewable energy applications to convert bio matter and other renewable energy resources into clean and renewable baseload and on-demand energy.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3121, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 2464 Transportation and Energy on S.B. No. 2685

The purpose and intent of this measure is to allow proof of motor vehicle insurance to be displayed in electronic format on a mobile electronic device.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Property and Casualty Insurers Association of America, National Association of Mutual Insurance Companies, United States Automobile Association, and Hawaii Insurers Council. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company.

Your Committee finds that many motor vehicle insurance companies offer insurance documents through applications on mobile electronic devices. This electronic proof of coverage gives drivers a convenient, paperless way to display up-to-date insurance information.

Your Committee has amended this measure by clarifying that the motor vehicle identification card of proof of insurance card must be authenticated in order to deter fraud.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2685, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2465 Transportation and Energy on S.B. No. 2515

The purpose and intent of this measure is to impose penalties for an owner of a place of public accommodation with at least one hundred parking spaces available for use by the general public who fails to provide at least one parking space exclusively for electric vehicles and equipped with an electric vehicle charging system.

Your Committee received testimony in support of this measure from Ulupono Initiative. Your Committee received comments on this measure from the Department of Transportation Services of the City and County of Honolulu.

Your Committee finds that in Hawaii, the transportation sector requires more energy than the electricity sector. About twenty percent of the State's primary energy usage is due to ground transportation, such as cars and trucks, which rely almost exclusively on imported fossil fuels for energy. This measure would create greater demand for electric vehicle charging infrastructure, which makes electric vehicle ownership more appealing by reducing range anxiety, as well as potentially adding battery storage capacity or demand response capacity to the electric grid, or both.

Your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 2774, a substantially similar measure that:

- (1) Requires, in places of public accommodations, a ratio of one electric vehicle parking stall per one hundred stalls by July 1, 2017, and a ratio of two electric vehicle parking stalls per one hundred stalls by July 1, 2022; and
- (2) Designates the appropriate county authority having jurisdiction over planning and permitting to enforce these requirements.

Your Committee has further amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2515, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2515, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2466 Transportation and Energy on S.B. No. 2686

The purpose and intent of this measure is to require information on organ and tissue donation to be included in the curriculum for the statewide driver education program and behind-the-wheel driver training program.

Your Committee received testimony in support of this measure from Legacy of Life Hawaii and six individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that this measure could save lives. The license application includes the question, "Do you wish to be an organ donor?" This bill ensures students can make an informed choice in answering that question. By integrating information regarding organ and tissue donation into the driver education curriculum, students are provided with accurate facts early on in life which not only prepares them to make an informed choice when applying for their driver's permit or license, but it also brings the conversation home so that family members' wishes are better understood.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2686 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Nishihara, Slom).

SCRep. 2467 (Majority) Transportation and Energy on S.B. No. 2013

The purpose and intent of this measure is to create the University of Hawaii green special fund to support energy efficiency, renewable energy, and sustainability projects and services, including personnel, equipment costs, project costs, and other expenses, as well as planning, design, and implementation of sustainability projects for the benefit of the University.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that green funds are an innovative and proven mechanism for universities and other large institutions to reduce operating cost and environmental impacts while promoting education and engaging stakeholders. The green special fund is an internal fund that will provide a direct source of capital to all ten University of Hawaii campuses to implement energy efficiency, renewable energy, and other sustainability projects that generate cost savings. These savings are tracked and used to replenish the fund for the next round of green investments, thus establishing a sustainable funding cycle while reducing operating costs and environmental impact.

Your Committee further finds that the University of Hawaii needs a mechanism to track and reinvest savings realized from energy efficiency and renewable energy projects into additional cost-saving measures that reduce energy consumption to support this long term goal.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2013, S.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Higher Education and the Arts and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Gabbard).

SCRep. 2468 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 2668

The purpose and intent of this measure is to:

- (1) Establish a dispute resolution process by which a dispute for a bill for emergency services or a surprise bill may be resolved;
- (2) Specify disclosure requirements for health care professionals and health care facilities, including estimated costs for health care services and information on participating provider networks;
- (3) Specify that an insured shall not be liable to a health care provider for any sums owed by an insurer;
- (4) Specify that an insurer who receives emergency services from a nonparticipating provider shall not incur greater out-of-pocket costs for the emergency services than the insured would have incurred with a participating provider;
- (5) Specify additional disclosure requirements for health insurance plans, including payment methodologies and updated participating provider directories; and
- (6) Require health insurance plans to provide at least one option for coverage of at least the usual and customary cost of each out-of-network health care service in inadequate network situations.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Kaiser Permanente Hawaii. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association; Hawaii Medical Service Association; American Council of Life Insurers; American College of Emergency Physicians, Hawaii Chapter; and one individual. Your Committees received comments on this measure from the Healthcare Association of Hawaii and Hawai'i Pacific Health.

Your Committees find that consumers with health insurance who receive treatment from an out-of-network provider may receive a bill for the difference between an insurer's payments to a health care provider and the out-of-network provider's charges. These bills, known as balance bills or surprise bills, occur most often when consumers receive medical services from out-of-network providers. Out-of-network providers may not have a contracted rate with an insurer for services and therefore, the prices these providers could charge may be much greater than the price charged by in-network providers for similar services. Accordingly, this measure attempts to address concerns associated with balance billing.

According to testimony received by your Committees, consumers should not be subjected to balance billing by out-of-network providers, as the onus should be on health care providers and health care facilities to know which providers are covered under what insurance plan. Your Committees further find that insurer notification and disclosure about health care plans and services provided will help address some concerns associated with balance billing.

Your Committees have heard the concerns that certain components in this measure may be inconsistent with or duplicative to existing regulatory requirements and that the proposed language in this measure that requires health plans to accept assignment of benefits may impair a health plan's ability to create and maintain networks, which may have an inadvertent negative impact on consumers. Your Committees have also heard the concerns that the independent resolution process established by this measure may be overly cumbersome for health care providers and health care plans.

Your Committees understand these concerns and note that interested stakeholders have been engaged in discussions regarding this measure and have come to a consensus with regard to specifying notice requirements, ensuring individual consumers are held harmless for any sums owed by an insurer, and requiring providers and facilities to be held to certain reimbursement rates. Amendments to this measure are therefore necessary to incorporate language agreed upon by interested stakeholders.

Accordingly, your Committees have amended this measure by:

- (1) Removing language that would have established a dispute resolution process for emergency service bills or surprise bills;
- (2) Clarifying the information a health care provider, health care facility, or hospital shall disclose in writing to a patient or prospective patient, prior to the provision of nonemergency services that are not authorized by a patient's health care plan, and updating associated definitions;
- (3) Removing language that required additional disclosure requirements for health care providers who are physicians;
- (4) Removing language that required certain information to be posted on a hospital's website and provided in registration or admission materials;
- (5) Specifying that the amount a nonparticipating provider may bill for services performed without prior or subsequent authorization from a patient's health care plan shall be no more than one hundred twenty percent of the amount Medicare would pay for the service;
- (6) Specifying that an insured who receives emergency services from a nonparticipating provider shall not incur greater out-of-pocket costs for the emergency services than the insured would have incurred with a participating provider and updating associated definitions;
- (7) Removing language that required health insurance plans to provide at least one option for coverage of at least the usual and customary cost of each out-of-network health care service in inadequate network situations;

- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2668, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2668, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

Judiciary and Labor: Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2469 (Joint) Human Services and Housing on S.B. No. 2018

The purpose and intent of this measure is to establish a program within the Department of Human Services to assist homeless individuals who suffer from multiple chronic diseases find housing opportunities in the community and to obtain federal monies to implement and carry out the program.

Your Committees received testimony in support of this measure from NuWayve Unlimited and four individuals. Your Committees received testimony in opposition to this measure from Hawaii Association for Justice. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness under the Office of the Governor, Department of Health, and Department of Human Services.

Your Committees find that homeless persons are often in poor health and found to be suffering from several chronic diseases. This program requires the Department of Human Services and the Coordinator on Homelessness under the Office of the Governor to collaborate to identify qualified individuals for participation in the program. Health and homelessness are intertwined, and assisting homeless persons with multiple chronic diseases to find affordable housing assists one of the most vulnerable sectors of the population. Further, homelessness exacerbates already ill individuals, so by identifying the chronically ill persons and providing them with housing, the State can help end the cycle that reinforces poverty and illness. Most significantly, the Medicaid program can realize significant savings by reducing high utilization of health services among homeless persons with chronic illnesses.

Your Committees have amended this measure by:

- (1) Deleting the language concerning the limitations on liability;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2018, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2018, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 6. Noes, none. Excused, 1 (Slom).

Housing: Ayes, 4. Noes, none. Excused, 3 (Ihara, Wakai, Slom).

SCRep. 2470 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2182

The purpose and intent of this measure is to appropriate funds for grants to maintain and expand the weed and seed strategy.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney for the County of Maui; Weed and Seed Steering Committee; Weed and Seed; Gentry Homes, Ltd.; Louis Pohl Gallery; Waipahu Community Coalition; McDonald's of Ewa Beach; Parent Community Networking Center; Meadow Gold Dairies; First Hawaiian Bank; Haseko Development, Inc.; and forty individuals. Your Committees received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committees find that the weed and seed strategy is a collaborative effort among federal, state, and county law enforcement agencies, social service agencies, private businesses, nonprofit organizations, and residents to reclaim, restore, and rebuild communities. The program has proven to be an effective tool for law enforcement in Hawaii, with great benefits to the community in general. This measure will help to maintain and support the weed and seed strategy in the future. However, your Committees note that the appropriation of funds in this measure must be more finely tailored so as to not interfere with existing items on the executive budget for the Department of the Attorney General.

Your Committees have amended this measure by clarifying that the appropriation shall be made as a grant to Empower O'ahu.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2182, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2182, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2471 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2196

The purpose and intent of this measure is to establish the law enforcement officer independent review board within the Department of the Attorney General to investigate deaths while in law enforcement custody and shootings involving a law enforcement officer where an individual is injured.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Libertarian Party of Hawaii, Common Cause Hawaii, and eleven individuals. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the County of Maui. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that news coverage of recent events have caused significant public outcry for increased oversight of law enforcement in Hawaii. This measure would allow for greater transparency of law enforcement operations and accountability for law enforcement actions taken by officers. The establishment of an independent review board for law enforcement officers is in the public interest and will benefit law enforcement agencies with an additional layer of independent review.

Your Committees note the concerns expressed by the Department of the Attorney General regarding this measure and finds that amendments are necessary to incorporate language proposed by the Department.

Your Committees have amended this measure by:

- (1) Adopting the language proposed by the Department of the Attorney General, which:
 - (A) Adds a definition for “officer-involved death or serious bodily injury”;
 - (B) Changes the composition of the board;
 - (C) Amends the scope of the board’s duties and investigation and reporting procedures of the board; and
 - (D) Allows the expenditure of monies in the criminal forfeiture fund for the payment of expenses arising in connection with the law enforcement officer independent review board, excluding independent review board investigators; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2196, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2196, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2472 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2198

The purpose and intent of this measure is to extend the reentry pilot project for nonviolent, low-risk drug offenders.

Your Committees received testimony in support of this measure from the Department of Public Safety; Ho‘omana Pono, LLC; Hawaii Substance Abuse Coalition; Community Alliance on Prisons; and six individuals. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the County of Maui.

Your Committees find that nonviolent, low-risk offenders, particularly those convicted of drug offenses, can be effectively and safely transitioned from jail or prison into the community through a comprehensive and coordinated continuum of evidence-based treatment services. Individuals addicted to drugs can easily be caught in a cycle of incarceration from which they cannot easily escape. Allowing such individuals access to treatment in the community benefits the individuals and serves the public interest. Your Committees note that some low-risk offenders struggle with drug problems but were not convicted of drug-related offenses, and that such individuals should also be included in the pilot program.

Your Committees have amended this measure by:

- (1) Replacing references to “low-risk drug offenders” with “low-risk offenders”; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2198, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2198, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2473 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2256

The purpose and intent of this measure is to authorize issuance of a driver’s license with the notation of “veteran” for persons who are veterans of the Korean conflict.

Your Committee received testimony in support of this measure from the Department of Defense Office of Veterans Services, City and County of Honolulu City Council, and Korean War Veterans Association Aloha Chapter.

Your Committee finds that existing provisions of the Hawaii Revised Statutes allow individuals who have served in the United States armed services and are veterans of the Korean conflict to have "Korea Veteran" imprinted on their Hawaii license plates. Although the Hawaii Revised Statutes also provides for annotation of veteran status on driver's licenses, existing language makes it difficult for veterans of the Korean conflict to qualify for the veteran's annotation provision. Your Committee finds that these veterans should have access to full documentation of their veteran status.

Your Committee also recognizes that numerous individuals served in the armed forces of the Republic of Korea and fought in the Korean conflict under the command of the United Nations led by the United States, and that many of these individuals are now citizens of the United States. Your Committee finds that such individuals should be acknowledged as veterans.

Your Committee has amended this measure by:

- (1) Adding language to the definition of "veteran" and a conforming amendment to include individuals who served in the armed forces of the Republic of Korea, who fought under the command of the United Nations led by the United States during the Korean conflict and are currently United States citizens; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee also notes that numerous individuals served in the armed forces of the Republic of Vietnam and fought in the Vietnam conflict alongside United States armed services personnel, and that many of these individuals are now citizens of the United States. Your Committee respectfully requests your Committee on Transportation and Energy to consider amending the definition of "veteran" to include such individuals if your Committee on Transportation and Energy hears this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2256, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2256, S.D. 1, and be referred to your Committee on Transportation and Energy.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2474 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2309

The purpose and intent of this measure is to:

- (1) Require the Honolulu Police Department to establish the sexual assault kit tracking program;
- (2) Require law enforcement agencies to submit sexual assault kits obtained in connection with a criminal investigation to a laboratory within ten business days;
- (3) Require each law enforcement agency that obtains a sexual assault kit in connection with a criminal investigation to report to the Department of the Attorney General annually on the number of untested kits in the custody of the Honolulu Police Department; and
- (4) Require the police department of each county, the Department of Public Safety, and the Division of Conservation and Resources Enforcement to report to the Legislature on the number of untested kits and any progress on the backlog, and to make that report available to the public.

Your Committees received testimony in support of this measure from the Honolulu Police Department, Hawaii State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, and three individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that, according to supplemental testimony by the Honolulu Police Department, the number of untested sexual assault kits in the department's custody is approximately 1,500. Once tested, an offender's DNA from a sexual assault kit can be matched with other offender samples in the Federal Bureau of Investigation's national database. Analysis of previously untested kits in other jurisdictions have resulted in the capture of serial rapists, so thorough and timely testing of all outstanding kits in Hawaii is vitally important.

Your Committees further recognize that sexual assault kits are only analyzed by forensic laboratories at the request of a prosecuting attorney, so the sexual assault kit tracking program would be more appropriately administered by the department of the prosecuting attorney for each county.

Your Committees have amended this measure by:

- (1) Placing the sexual assault kit tracking program under the department of the prosecuting attorney of each county and making conforming amendments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2309, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2309, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2475 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2374

The purpose and intent of this measure is to appropriate funds to the Office of the Prosecuting Attorney of the County of Hawaii for the career criminal prosecution unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Office of the Prosecuting Attorney for the County of Hawaii, and Department of the Prosecuting Attorney for the County of Maui.

Your Committees find that a substantial and disproportionate amount of serious crime is caused by a relatively small number of multiple and repeat felony offenders. Such individuals are commonly known as career criminals. The career criminal prosecution program was established to support efforts by prosecuting attorneys to pursue such individuals, but funding for the program has declined since its inception. Your Committees find that funding the career criminal prosecution program is in the public interest.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2374 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2476 (Joint) Transportation and Energy and Economic Development, Environment, and Technology on S.B. No. 2948

The purpose and intent of this measure is to establish the ship repair industry grant program and to make an appropriation for the program.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii, Pacific Shipyards International, and six individuals.

Your Committees find that ship repair is a critical industry in our maritime dependent state. Ship repair capability insures the safe and timely operation of ships and barges supplying the Hawaiian Islands. Without this capability, many ships will go to the mainland for repair and dry docking.

Your Committees further find that ship repair provides well-paying industrial and technical job opportunities for citizens of Hawaii and critical industrial services to our community, such as repair of engines and generators, welding and metal fabrication, ventilation and air conditioning, and critical service to oil product transfer buoys. However, ship repair companies in Hawaii have a significant cost competitive disadvantage with mainland and foreign ship repair entities due to higher wages and material shipping costs.

Your Committees have amended this measure by changing the program from a grant program to a loan program to provide eligible recipients with funds for capital and related improvement projects, training projects to foster employee skills and enhance productivity, and purchase of machinery and equipment used in ship repair, ship construction, and reconfiguration.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2948, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2948, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, 2 (English, Nishihara).

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 2477 (Joint) Transportation and Energy and Economic Development, Environment, and Technology on S.B. No. 3044

The purpose and intent of this measure is to:

- (1) Reduce Hawaii's dependence on imported fossil fuels for electrical generation and ground transportation by 2045; and
- (2) Create goals and targets in Hawaii's Clean Energy Initiative and State Planning Act.

Your Committees received testimony in support of this measure from the Blue Planet Foundation, Pacific Biodiesel Technologies, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Petroleum Marketers Association; Hawaii Petroleum, Inc.; PAR Hawaii; The Alliance of Automobile Manufacturers; and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Office of Economic Development of the County of Kaua'i; and Hawaii Transportation Association.

Your Committees find that Hawaii's dependency on imported fossil fuels drains the State's economy of billions of dollars each year. A stronger local economy depends on a transition away from imported fossil fuel powered ground transportation and toward multi-modal transportation systems powered by renewable local energy resources.

Your Committees further find that climate change caused by greenhouse gas emissions from burning fossil fuels poses a serious threat to the economic well-being, public health, natural resources, and the environment of Hawaii.

Your Committees have amended this measure by:

- (1) Removing language updating Hawaii's Clean Energy Initiative and State Planning Act;

- (2) Establishing the transitional energy working group within the Department of Business, Economic Development, and Tourism to lay the foundation for future renewable energy development that transitions the State away from fossil fuels and to one hundred percent clean electricity in general, beginning with the transportation sector;
- (3) Requiring the transitional energy working group to report its findings and recommendations to the Legislature; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3044, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3044, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, 2 (English, Nishihara).

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 2478 Economic Development, Environment, and Technology on S.B. No. 2829

The purpose and intent of this measure is to provide for the review and update of the Hawaii State Planning Act and continue efforts to develop goals and policies to guide the development of the State. Specifically, this measure:

- (1) Requires and provides funding for the Office of Planning to, among other things, review the Hawaii State Planning Act;
- (2) Requires the Office of Planning to report to the Legislature its recommendations for updating the Hawaii State Planning Act to appropriately address the needs of the State; and
- (3) Appropriates funds to review and update the Hawaii State Planning Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; Office of Planning; and Sierra Club of Hawai'i.

Your Committee finds that the Hawaii State Planning Act was enacted in 1978 to improve the planning process and guide future development of the State by setting forth the Hawaii state plan, which articulates goals and policies to guide the development of the State and establishes an integrated planning and implementation system regarding those goals and policies. Your Committee further finds that the last review of the Hawaii State Planning Act was initiated in 1983 and completed in 1985 and resulted in several amendments to the Hawaii State Planning Act. Since then, there have been significant changes in Hawaii's economic, physical, and social conditions; technology; and the global marketplace. The State also faces new constraints and opportunities as it plans for the future. Thus, your Committee finds that a comprehensive review of the Hawaii State Planning Act, chapter 226, Hawaii Revised Statutes, is now warranted.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2829 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Espero, Keith-Agaran, Ruderman).

SCRep. 2479 Economic Development, Environment, and Technology on S.B. No. 3101

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to conduct a study on the feasibility of establishing a public-private partnership resource agency within the Department of Business, Economic Development, and Tourism, for all state departments, divisions, and agencies to utilize.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the State needs creative mechanisms to generate revenues to address increased spending on public services, repairs, facility maintenance, and backlogged projects. Partnerships with the private sector bring enhanced efficiencies to funding, faster and less expensive project implementation, economic development and investment opportunities, and access to private sector expertise, thus enabling the sustainable management and maintenance of facilities; however, the State lacks a comprehensive process for all agencies to engage in public-private partnerships. This measure requires the Department of Business, Economic Development, and Tourism to lead an effort to determine the feasibility of one option to facilitate partnership efforts.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3101 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Espero, Keith-Agaran).

SCRep. 2480 (Majority) Economic Development, Environment, and Technology on S.B. No. 2827

The purpose and intent of this measure is to:

- (1) Rename the Hawaii television and film development special fund as the creative media and film infrastructure special fund;
- (2) Broaden the sources of revenue for the creative media and film infrastructure special fund;
- (3) Repeal the Hawaii Television and Film Development Board, which has been inactive for nearly ten years, along with the grant and venture capital programs to be implemented by the Board; and

- (4) Amend the purposes for which the creative media and film infrastructure special fund may be used in order to enable the Department of Business, Economic Development, and Tourism to fulfill its statutory duties regarding the film program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; County of Kaua'i Office of Economic Development; and Maui County Film Office.

Your Committee finds that Hawaii's film industry brings in an estimated \$250,000,000 in production revenues per year, providing the State with an estimated economic impact of over \$400,000,000 annually. The Hawaii Film Office in the Creative Industries Division of the Department of Business, Economic Development, and Tourism is involved in all aspects of this industry, including fulfilling its statutory duties for film permitting, tax incentive management, and studio operations and management. Your Committee further finds that increased demands on the Hawaii Film Office have stretched already limited staff and resources to capacity, and additional funding and resources are necessary to continue the State's involvement in this high-revenue industry.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2827, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2827, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, 2 (Espero, Keith-Agaran).

SCRep. 2481 Judiciary and Labor on S.B. No. 2238

The purpose and intent of this measure is to:

- (1) Make conforming amendments to implement a constitutional amendment proposing the establishment of judicial elections; and
- (2) Require the Judiciary, Office of Elections, and Campaign Spending Commission to study appropriate methods of implementing a judicial election system in the State and submit a written report, including proposed legislation, to the Legislature.

Your Committee did not receive any testimony in support of this measure. Your Committee received testimony in opposition to this measure from the Judiciary; Judicial Selection Commission; Office of the Public Offender; Hawaii State Bar Association; Family Law Section of the Hawaii State Bar Association; West Hawai'i Bar Association; Kauai Bar Association; Hawai'i County Bar Association; Hawai'i Women Lawyers; American College of Trial Lawyers; Justice at Stake; American Judicature Society; Common Cause Hawaii; League of Women Voters of Hawaii; American Civil Liberties Union of Hawaii; Hawaii Filipino Lawyers Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and fifty individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that while Hawaii has a judicial merit selection system, approximately twenty-two states select their state judges through partisan or nonpartisan elections rather than merit selection. Proponents of judicial elections believe that the public should have the opportunity to select judicial candidates in open, contested elections; merit selection does not eliminate politics from the selection process, but instead transfers popular politics to behind-the-scene political control; and that merit selection may exclude minorities from the bench or diminish their chances of filling judicial seats. An amendment to the Hawaii State Constitution would be necessary to implement a judicial election system. Your Committee notes that S.B. No. 2239 (Regular Session of 2016) proposes a constitutional amendment to require judges to be elected to serve six-year terms. This measure makes conforming amendments to the Hawaii Revised Statutes to carry out the requirements of S.B. No. 2239, if that measure is ratified.

However, before considering an amendment to the Hawaii State Constitution to repeal the State's merit selection system and adopting an election process for state justices and judges, your Committee further finds that discussion and planning are necessary. This measure requires a study to ensure that the implementation of a judicial election system would be carried out efficiently and effectively without compromising the integrity of the election process or the State's judicial system.

Your Committee notes the concerns raised in testimony submitted regarding campaign finance issues related to the judicial elections. While much of the testimony, including the Judiciary's comments, refers to the impact of Citizens United v. Federal Election Comm'n, 558 U.S. 310 (2010) in support of the existing Missouri Plan scheme of judicial selection, your Committee further notes that a few bring to your Committee's attention the more recent and relevant discussion regarding the funding of judicial elections in Williams-Yulee v. The Florida Bar, 575 U.S. ___ (2015).

Your Committee recognizes that Hawaii does not have a history of electing its judges, but notes that "[i]n 39 [s]tates, voters elect trial or appellate judges at the polls." Williams-Yulee, 575 U.S. at ___. The United States Supreme Court observed:

Judges are not politicians, even when they come to the bench by way of the ballot. And a [s]tate's decision to elect its judiciary does not compel it to treat judicial candidates like campaigners for political office. A [s]tate may assure its people that judges will apply the law without fear or favor and without having personally asked anyone for money. Williams-Yulee, 575 U.S. at ___ (Roberts, C.J., Plurality Op.).

Your Committee further notes the importance of public confidence in the integrity of judges stems from the place of the Judicial branch in government. Unlike the Executive or Legislative branches, the Judicial branch "has no influence over either the sword or the purse ... neither force nor will but merely judgment." The Federalist No. 78, p. 465 (C. Rossiter ed. 1961) (A. Hamilton) (capitalization altered). The Judiciary's authority therefore depends in large measure on the public's willingness to respect and follow the Judiciary's decisions. As Justice Frankfurter once put it for the Court, "justice must satisfy the appearance of justice." Offutt v.

United States, 348 U.S. 11, 14 (1954); Williams-Yulee, 575 U.S. at _____. Of particular note, Chief Justice Roberts observed: “States may regulate judicial elections differently than they regulate political elections, because the role of judges differs from the role of politicians.” Williams-Yulee, 575 U.S. at _____.

The Judiciary in its testimony refers to “Justice at Risk”, an empirical study by Professor Joanna Shepherd of Emory University, which used sophisticated empirical research techniques to analyze 2,345 business-related state supreme court opinions from all fifty states and over 200,000 contributions to sitting justices. While mentioning one of the conclusions, the Judiciary fails to include in its testimony the conclusion that “[t]he empirical relationship between business contributions and justices’ voting for business interests exist only in partisan and nonpartisan election systems; there is no statistically significant relationship between money and voting in retention elections.” ACS Press Release (June 11, 2013).

Therefore, your Committee believes that further discussion is necessary regarding a constitutional amendment proposing a judicial election system before conforming amendments are made to the Hawaii Revised Statutes. However, further discussion can result from the Judiciary, Office of Elections, and Campaign Spending Commission studying appropriate methods of implementing a judicial election system.

Accordingly, your Committee has amended this measure by:

- (1) Deleting part I, which proposes conforming amendments to the Hawaii Revised Statutes to implement the requirements of S.B. No. 2239 (Regular Session of 2016);
- (2) Making conforming amendments to reflect the deletion of part I;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2238, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard, Shimabukuro, Thielen). Noes, none. Excused, 1 (Slom).

SCRep. 2482 Judiciary and Labor on S.B. No. 2926

The purpose and intent of this measure is to amend section 231-7.5, Hawaii Revised Statutes, to:

- (1) Change the title of the appeals officer from independent to administrative appeals officer;
- (2) Make a taxpayer or return preparer eligible to petition to participate in the administrative appeals and dispute resolution program and establishing conditions, procedures, and deadlines whereby the taxpayer or return preparer may petition to do so; and
- (3) Establish that the decisions of the administrative appeals officer may not be appealed to the Board of Review or any court.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from Chamber of Commerce Hawaii and Tax Foundation of Hawaii.

Your Committee finds that the Department of Taxation recently launched the administrative appeals and dispute resolution program to provide taxpayers a streamlined method to quickly and fairly resolve tax disputes over proposed or final assessments. This program works with the Department’s Compliance Division and the taxpayer to settle disputes within six to twelve months, thereby providing a quick and cost effective alternative to litigation. This measure makes amendments to the law relating to the administrative appeals and dispute resolution program to clarify procedural requirements and conform to the appeal programs offered by the Internal Revenue Service.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Taxation that:
 - (A) Reinstates language that requires, rather than allows, an appeals officer to be authorized to compromise or settle any dispute;
 - (B) Deletes language that disallows decisions of the administrative appeals officer from being appealed to the Board of Review or any court; and
 - (C) Deletes language that requires a taxpayer to withdraw the taxpayer’s appeal to the Board of Review prior to the administrative appeals officer commencing any substantive work toward the resolution of the dispute if the taxpayer has filed an appeal with the Board of Review;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2926, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2926, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Kim).

SCRep. 2483 Judiciary and Labor on S.B. No. 2694

The purpose and intent of this measure is to:

- (1) Clarify Hawaii's employment security law for independent contractors by:
 - (A) Establishing twenty factors to be used as guidelines for the Department of Labor and Industrial Relations when determining by a preponderance whether an individual could be an independent contractor;
 - (B) Retaining the ability of the Department of Labor and Industrial Relations to determine if an individual is an independent contractor and clarifying that the degree of importance of each factor may vary on a case-by-case basis; and
 - (C) Adding the definitions of "client" and "independent contractor";
- (2) Require the Director of Labor and Industrial Relations to submit a report to the Legislature prior to the convening of the Regular Session of 2017 on the guidelines developed by the unemployment insurance coverage committee to assist auditors during investigations; and
- (3) Require the Director of Labor and Industrial Relations to submit an annual report to the Legislature regarding covered employment determinations prior to the convening of every regular session.

Your Committee received testimony in support of this measure from Chamber of Commerce Hawaii; Maui Chamber of Commerce; and Envisions Entertainment & Productions, Inc. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations; Hawaii State AFL-CIO; Hawaii Bar Owners Association; and International Longshore and Warehouse Union, Local 142. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that independent contractors are an important part of Hawaii's business community and economy. However, many individuals may not be aware of the criteria used by the Department of Labor and Industrial Relations when making determinations as to whether an individual is in an employment relationship or is a bona fide independent contractor. This measure clarifies the law that determines who qualifies as an independent contractor in order to offer proper protections to legitimate independent contractors and the businesses with which they contract.

Your Committee has amended this measure by:

- (1) Deleting preponderance as a standard by which the Department of Labor and Industrial Relations is to make its determination of whether an individual could be an independent contractor;
- (2) Clarifying under the definition of "independent contractor" that an independent contractor is an individual engaged, rather than customarily engaged, in an independently established trade, occupation, profession, or business, among other requirements, and making a conforming amendment to reflect the deletion of "customarily"; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2694, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2694, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2484 (Joint) Commerce, Consumer Protection, and Health and Economic Development, Environment, and Technology on S.B. No. 75

The purpose and intent of this measure is to establish regulations for behind-the-meter battery recycling under the Department of Health.

Your Committees received testimony in opposition to this measure from the Distributed Energy Resources Council of Hawaii. Your Committees received comments on this measure from the Department of Health and Life of the Land.

Your Committees find that energy storage is a key step in the State's progress toward its renewable energy goals and the elimination of the State's dependence on imported fossil fuels. New and emerging technologies, such as behind-the-meter batteries, may provide a means to achieve the State's renewable energy goals, as commercial and residential customers begin seeking more economical solutions. However, the complexities of these technologies, such as behind-the-meter batteries, and anticipated need to appropriately dispose of devices used in renewable energy production and storage require diligent planning to establish proper recycling procedures of such materials.

Your Committees have amended this measure by deleting its contents and inserting language that:

- (1) Requires the Department of Health to establish the Hawaii battery storage recycling task force to make recommendations for a workable recycling program for battery storage devices in Hawaii;
- (2) Specifies the members of the task force;
- (3) Requires the task force to submit an interim report and final report to the Legislature; and
- (4) Terminates the task force on July 1, 2018.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Economic Development, Environment, and Technology that are attached to this report, your Committees are in accord with the intent

and purpose of S.B. No. 75, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 75, S.D. 2, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 2485 Economic Development, Environment, and Technology on S.B. No. 2790

The purpose and intent of this measure is to extend the motion picture, digital media, and film production income tax credit for an additional five years to provide stability and economic incentive predictability for the film industry, allow Hawaii to remain competitive in attracting qualified productions, and generate additional revenue, jobs, and tourism marketing exposure.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development and Tourism; Department of Taxation; NBC Universal Media, LLC; CBS Corporation; SAG-AFTRA Hawaii Local; I.A.T.S.E. Local 665; American Federation of Musicians' Local 677; and Hawaii Teamsters & Allied Workers Local 996. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the film industry in Hawaii is an important component of a diversified economy and that the motion picture, digital media, and film production income tax credit has been effective in stimulating the economy and creating quality jobs in a clean industry while promoting Hawaii as a visitor destination. Your Committee further finds that the film production process can extend over several years due to extensive planning and development in the preproduction stage; therefore, the motion picture, digital media, and film production income tax credit's current sunset date of January 1, 2019, should be extended well in advance of the sunset date to prevent the discouragement of new productions that may be in the development and preproduction phases at that point in time.

Your Committee has amended this measure by:

- (1) Inserting language to require the Department of Business, Economic Development, and Tourism to submit an annual report to the Legislature on the activities and expenditures of the motion picture, digital media, and film production income tax credit; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2790, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Baker, Ihara, Keith-Agaran, Ruderman).

SCRep. 2486 Ways and Means on S.B. No. 83

The purpose of this short form bill is to amend the law relating to appropriations.

Prior to the hearing on this measure, a proposed S.D. 1 was prepared and made available for public review. Your Committee has adopted the proposed S.D. 1, which amends this measure by:

- (1) Appropriating funds from the tourism special fund for the 2016-2017 fiscal year for the payment of travel expenses and travel subsidies incurred by the University of Hawaii Intercollegiate Athletic Program; and
- (2) Requiring the Governor to determine whether similar funding should continue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 83, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 83, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Slom). Noes, none. Excused, 5 (Dela Cruz, Inouye, Riviere, Taniguchi, Wakai).

SCRep. 2487 Commerce, Consumer Protection, and Health on S.B. No. 2860

The purpose and intent of this measure is to amend terms for board members of the Board of Nursing and Board of Speech Pathology and Audiology from three to four years.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs; Hawai'i State Center for Nursing; University of Hawai'i at Manoa School of Nursing and Dental Hygiene; Hawai'i Pacific Health; Prime Care Services Hawaii, Incorporated; American Organization of Nurse Executives, Hawaii Chapter; Bradley Kuo, LLC; and four individuals.

Your Committee finds that this measure aligns the terms of board members on the Board of Nursing and Board of Speech Pathology and Audiology with the terms of members serving on the other twenty-three boards and commissions under the Professional and Vocational Licensing Division. Your Committee further finds that these consistent term limits will encourage longevity, continuity, and effectiveness among board members and ensure board members have ample time to adapt to their roles.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2860 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2488 Commerce, Consumer Protection, and Health on S.B. No. 2341

The purpose and intent of this measure is to make permanent the regulation of respiratory therapists under chapter 466D, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Office of the Auditor, Hawaii Society for Respiratory Care, Hawaii COPD Coalition, and thirty-one individuals.

Your Committee finds that respiratory therapists provide assessment, therapy, rehabilitation, evaluation, and care for patients with conditions that affect the respiratory system. Respiratory therapists also work and come into contact with patients in a variety of health care settings, including hospitals, skilled nursing facilities, and rehabilitation facilities.

Your Committee further finds that the Auditor is required to evaluate newly enacted regulatory programs prior to each program's repeal date. The regulation of respiratory therapists is scheduled to repeal on June 30, 2016. However, based on the Auditor's report from June 2015, continued regulation of respiratory therapists is warranted to protect the health and safety of consumers, due to the nature of services offered by respiratory therapists. Accordingly, this measure makes permanent the regulation of respiratory therapists in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2341, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2341, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2489 (Majority) Judiciary and Labor on S.B. No. 2418

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to provide that the Attorney General be elected to office from among nonpartisan candidates in a general election.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Crime Victim Compensation Committee, and four individuals.

Your Committee finds that the Attorney General is nominated and, by and with the advice and consent of the Senate, appointed by the Governor. However, there are concerns that an appointed Attorney General creates the perception that the Attorney General is solely the Governor's counsel. Furthermore, there have been numerous prior instances where the Attorney General has a conflict of interest, especially on issues between the executive branch and Legislature. This measure provides for an independent Attorney General who is accountable to the public.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2418 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Gabbard, Shimabukuro). Noes, 1 (Thielen). Excused, 1 (Slom).

SCRep. 2490 Commerce, Consumer Protection, and Health on S.B. No. 2862

The purpose and intent of this measure is to allow the Board of Nursing to more fully participate in Nursys, a national nurse licensee database, by sharing license and disciplinary action information.

Your Committee received testimony in support of this measure from the Board of Nursing; University of Hawai'i at Manoa School of Nursing and Dental Hygiene; Hawai'i State Center for Nursing; Hawai'i Pacific Health; Prime Care Services Hawaii, Incorporated; American Organization of Nurse Executives, Hawaii Chapter; Bradley Kuo, LLC; and five individuals.

Your Committee finds that Nursys is a national nurse license database operated by the National Council of State Boards of Nursing. Hawaii is one of four states that do not fully participate in Nursys. Currently, the Board of Nursing submits disciplinary action to Nursys. If a Hawaii-licensed nurse is also licensed in another state, the other state is immediately notified of that disciplinary action. Your Committee further finds that Hawaii's inability to fully participate in Nursys makes it difficult for other states to verify a nurse's license status and may jeopardize consumer protection if the Board of Nursing does not receive timely notices of disciplinary actions taken in other states. Accordingly, this measure allows the Board to fully participate in Nursys by sharing license information, which will enable Hawaii to be timely notified of disciplinary actions taken in another state against a Hawaii licensee. This measure will also enable individual nurses to have their Hawaii nurse licenses verified almost immediately, thus streamlining the verification process and alleviating some of the workload for Board of Nursing staff.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2862 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2491 Commerce, Consumer Protection, and Health on S.B. No. 2874

The purpose and intent of this measure is to delete statutory references to the Department of Human Services:

- (1) Licensing or certifying health care settings; and
- (2) Investigating and disciplining certified nurse aides employed in health care settings.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Department of Human Services.

Your Committee finds that Act 93, Session Laws of Hawaii 2012, consolidated the licensing and certifying of various health care settings under the Department of Health Office of Health Care Assurance, rather than the Departments of Health and Human Services. Since the Department of Human Services no longer licenses or certifies programs related to home and community-based case management, community care foster family homes, and adult day care centers, statutory references to the Department performing these functions and disciplining certified nurse aides employed in these programs are obsolete. Accordingly, this measure deletes these obsolete statutory provisions.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2874 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2492 Commerce, Consumer Protection, and Health on S.B. No. 2333

The purpose and intent of this measure is to add the word "licensed" before the term "marriage and family therapist" in the Hawaii Revised Statutes for clarity.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and nine individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure aligns the legal title for Hawaii-licensed marriage and family therapists with the same distinction used for "licensed marriage and family therapist" in forty-eight other states. This change is intended to reduce confusion among the public regarding marriage and family therapists in Hawaii who have met the same standards as individuals with the official title of "licensed marriage and family therapist". According to testimony received by your Committee, without this legal title alignment, Hawaii-licensed marriage and family therapists may be at a disadvantage when they compete against licensed marriage and family therapists from other states for job opportunities.

However, your Committee has heard the concerns of the Regulated Industries Complaints Office that this measure as drafted would narrow the Office's enforcement authority. According to the Regulated Industries Complaints Office, the Office would only be able to enforce chapter 451J, Hawaii Revised Statutes, in situations where a person used the title "licensed marriage and family therapist" without having the appropriate license. However, the Regulated Industries Complaints Office would be unable to take action against a person who used the title "marriage and family therapist" when that person did not possess a license. Amendments to this measure are therefore necessary to address the Regulated Industries Complaints Office's enforcement concerns.

Accordingly, your Committee has amended this measure by adding "or licensed marriage and family therapist" after specific existing references to "marriage and family therapist" within chapter 451J, Hawaii Revised Statutes, rather than merely adding the term "licensed" before these references.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2333, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2493 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2825

The purpose and intent of this measure is to eliminate the ex officio nonvoting National Aeronautics and Space Administration representative from the Pacific International Space Center for Exploration Systems Board of Directors.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the ex officio, nonvoting representative of the National Aeronautics and Space Administration (NASA) on the Board of Directors of the Pacific International Space Center for Exploration Systems (PISCES) is counted as a member of the board for purposes of achieving quorum. Historically, the NASA representative has not participated in PISCES board meetings, which often makes it difficult for the board to establish a quorum to conduct business and adopt decisions. For this reason, your Committee finds that the ex officio, nonvoting NASA representative should be eliminated from the board, reducing the number of board members from ten to nine.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2825, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2825, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2494 Ways and Means on S.B. No. 2775

The purpose and intent of this measure is to authorize the State to submit and implement a waiver from certain provisions of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act).

Your Committee received written comments in support of this measure from the Office of the Governor, Department of Labor and Industrial Relations, Office of Enterprise Technology Services, Hawaii Primary Care Association, Healthcare Association of Hawaii, and the Queen's Health Systems.

Your Committee finds that section 1332 of the Affordable Care Act authorizes states to apply for a state innovation waiver, which will allow a state to implement innovative ways to provide access to quality health care. However, the benefits and coverage under Prepaid Health Care do not mirror the employer-sponsored benefits available under the Affordable Care Act. Your Committee further finds that this misalignment between the Affordable Care Act and Prepaid Health Care jeopardizes the robust insurance coverage that thousands of employees across the State have depended on for over forty years. As such, a waiver from certain provisions of the Affordable Care Act, to align Affordable Care Act provisions with Prepaid Health Care's long-standing insurance requirements and processes, is necessary.

Furthermore, your Committee finds that section 1332 of the Affordable Care Act requires state legislatures to sanction the application and implementation of a state innovation waiver. Accordingly, this measure authorizes the State to submit a state innovation waiver proposal to the United States Secretaries of Health and Human Services and the Treasury and implement the waiver upon approval by the Secretaries.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2775 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2495 Ways and Means on S.B. No. 2383

The purpose and intent of this measure is to repeal the Hawaii Health Connector and associated references in the Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations and Office of Enterprise Technology Services. The Attorney General provided written comments on the measure.

Your Committee finds that Hawaii's health insurance exchange, the Hawaii Health Connector (Connector), was established in 2011 and charged with implementing applicable parts of the federal Patient Protection and Affordable Care Act of 2010. However, due to Hawaii's small population, the highly successful Prepaid Health Care Act of 1974, and expanded Medicaid coverage that resulted in lower numbers of uninsured residents in the State, the Connector was unable to meet the financial sustainability requirements imposed by the federal government.

Your Committee also finds that the Connector ceased operations on December 4, 2015. The State has since enlisted the assistance of six state departments to comply with federal requirements and ensure a smooth transition for enrollees from the Connector to a state-based marketplace that utilizes the federal platform. Accordingly, this measure repeals the Connector as part of the transition to a federally supported, state-based exchange.

Your Committee has amended the measure by:

- (1) Amending the language contained in section 4 of the measure to more clearly state that the debts and liabilities of the Connector remain the debts and liabilities of the Connector and are not the responsibility of the State; and
- (2) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2383, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Slom).

SCRep. 2496 Economic Development, Environment, and Technology on S.B. No. 2819

The purpose and intent of this measure is to change the name of the High Technology Development Corporation to the Hawaii Technology Development Corporation to more accurately describe its mission.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and High Technology Development Corporation.

Your Committee finds that the High Technology Development Corporation, established by the Legislature in 1983, is tasked with the mission to grow the technology and innovation economy. High technology is an important driver in the diversification of Hawaii's

economy and provides quality, high-paying jobs for Hawaii residents. With rapid advancements in telecommunication, the Internet, and automation, “high technology” is now simply referred to as “technology” and has become an integral component of leading business across all industries. Your Committee therefore finds that it is necessary to update the name of the High Technology Development Corporation to better fit its mission and to remove the outdated term “high technology”.

As affirmed by the record of votes of the members of your Committee on Economic Development, Environment, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 2497 Commerce, Consumer Protection, and Health on S.B. No. 2328

The purpose and intent of this measure is to:

- (1) Provide definitions of “advertising” and “solicitation materials” as they apply to the regulation of real estate brokers and salespersons; and
- (2) Specify information that must be included on advertising and solicitation materials.

Your Committee received testimony in support of this measure from the Hawai‘i Association of REALTORS. Your Committee received testimony in opposition to this measure from the Real Estate Commission.

Your Committee finds that traditional advertising and marketing materials include physical media, such as business cards, brochures, and flyers, and electronic media, such as electronic mail messages and websites. However, there is a difference between marketing materials that are intended to solicit business and other branded items that are not intended to do so.

Your Committee further finds that a clear definition regarding advertising materials and how these materials may be used do not currently exist in statute or in proposed Hawaii Administrative Rules. This measure defines “advertising” and “solicitation materials” and clarifies what information must be included on advertising and solicitation materials, including the legal or trade name of a brokerage firm and the license number of the brokerage. These requirements benefit consumers, who will have access to important identifying information for brokerage firms, and licensees, who may otherwise be at risk for citation of licensing violations despite best efforts to comply with the law.

Finally, your Committee appreciates the concerns raised in testimony by the Real Estate Commission. However, your Committee believes this measure represents an immediate, practical approach to real estate advertising and solicitation requirements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2328, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2498 Commerce, Consumer Protection, and Health on S.B. No. 2669

The purpose and intent of this measure is to clarify the supervision requirements for licensure of clinical social workers, including permitting the supervision requirements to be met through face-to-face supervision or via a Health Insurance Portability and Accountability Act-compliant video conferencing service.

Your Committee received testimony in support of this measure from the National Association of Social Workers, Hawai‘i Chapter and sixteen individuals. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that social workers in Hawaii who are working to complete their licensed clinical social worker requirements must complete three thousand hours of supervised work experience, one hundred hours of which must be by direct face-to-face supervision. Your Committee further finds that certain social workers, particularly those living on the neighbor islands or in rural areas, and those employed by the United States Department of Veterans Affairs, may experience difficulty meeting the direct face-to-face supervision requirement. This is especially true for social workers in rural areas, as there are a limited number of rural social workers who are qualified to provide supervision for applicants for licensure as clinical social workers. Your Committee further finds that this measure is intended to reduce barriers for social workers seeking to complete their licensed clinical social worker supervision requirements.

Your Committee has heard the concern that the deletion of the requirement for individualized supervision for licensed clinical social workers makes it unclear what type of supervision must occur to meet certain supervision requirements. Your Committee has also heard the concern over what constitutes a Health Insurance Portability and Accountability Act-compliant video conference service.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that at least sixty of the one hundred hours of supervision required for licensure as a clinical social worker:
 - (A) Shall have been individualized supervision; and
 - (B) May have been face-to-face or via a video conference service that is compliant with all federal and state privacy, security, and confidentiality laws, including the Health Insurance Portability and Accountability Act of 1996;

- (2) Clarifying that supervision required for licensure as a clinical social worker included review of assessment, clinical diagnosis, and psychotherapy; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2669, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2669, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2499 Commerce, Consumer Protection, and Health on S.B. No. 2672

The purpose and intent of this measure is to amend various statutes to clarify the role of advanced practice registered nurses with regard to their authority and participation in the health care system.

Your Committee received testimony in support of this measure from the Board of Nursing; Hawai'i State Center for Nursing; Hawai'i Pacific Health; Prime Care Services Hawaii, Inc.; American Organization of Nurse Executives, Hawaii Chapter; Bradley Kuo, LLC; and five individuals.

Your Committee finds that advanced practice registered nurses provide a wide variety of health care services to people in Hawaii. Section 323-3, Hawaii Revised Statutes, requires each hospital within the State to allow advanced practice registered nurses to practice within the full scope of their practice, including as primary care providers. Advanced practice registered nurses are also recognized as participating primary health care providers for insurance purposes under the State's insurance code.

Your Committee further finds that certain sections within state law omit advanced practice registered nurses from the definitions or designations of health care entities who may provide health care, prescribe drugs, or sign forms. The outdated statutes must be amended to authorize increased participation by advanced practice registered nurses and recognize appropriately trained advanced practice registered nurses as primary care providers. Authorizing increased participation by advanced practice registered nurses in certain circumstances, especially with regard to global signature authority, will enable improved access to health care services, expedite the processing of paperwork, and provide optimal care at the initial point of access for Hawaii patients, especially in rural and underserved areas.

Your Committee has amended this measure by inserting a provision to preserve the amendments made to section 334-59(b), Hawaii Revised Statutes, when that section is reenacted on July 1, 2020, pursuant to section 24 of Act 221, Session Laws of Hawaii 2013.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2672, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2672, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2500 Commerce, Consumer Protection, and Health on S.B. No. 2851

The purpose and intent of this measure is to require the Insurance Commissioner to determine whether residential property insurance is unavailable due to a moratorium on insurance policies in a lava zone during a state of emergency due to lava flow.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 32, Session Laws of Hawaii 2015 (Act 32), assisted current and future homeowners who reside in lava zone areas in Hawaii County by, among other things, lifting the moratorium on issuing new property insurance policies in these same areas, if residential property insurance was unavailable. However, after the passage of Act 32, a question was raised about how to determine the availability of residential property insurance due to a moratorium. This measure clarifies this question by designating the Insurance Commissioner to make the determination.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2851, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2501 Commerce, Consumer Protection, and Health on S.B. No. 2852

The purpose and intent of this measure is to amend the Insurance Holding Company Regulatory Act to maintain compliance and accreditation with the National Association of Insurance Commissioners.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and American Council of Life Insurers.

Your Committee finds that during the Insurance Division of the Department of Commerce and Consumer Affairs' accreditation review in August 2014, the National Association of Insurance Commissioners (NAIC) stated that Hawaii's Insurance Holding Company System Regulatory Act needed to be revised, as changes made to the Act during the Regular Session of 2014 had made

Hawaii noncompliant with NAIC standards. Accordingly, this measure amends Hawaii's Insurance Holding Company Regulatory Act to comply with the NAIC Insurance Holding Company System Regulatory Model Act and maintain the Insurance Division's accreditation with NAIC.

Your Committee has amended this measure by:

- (1) Inserting an effective date of upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2852, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2852, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2502 Commerce, Consumer Protection, and Health on S.B. No. 2885

The purpose and intent of this measure is to authorize the use of birth defects data for education of health care providers to reduce morbidity or mortality and to increase physicians' knowledge of resources available for families of persons with birth defects.

Your Committee received testimony in support of this measure from the Department of Health; American Congress of Obstetricians and Gynecologists, Hawaii Section; and one individual.

Your Committee finds that current state law prohibits the Department of Health from using the information collected on birth defects through its birth defects program for purposes other than advancing medical and public health research, medical education, or public education; provided that approval is given by an institutional review board. This measure will improve health care services in the State through the facilitation of data collection and aid in research, while better assisting primary care physicians in serving high-needs children and their families.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2885, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2885, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2503 Ways and Means on S.B. No. 2550

The purpose and intent of this measure is to require the Office of the Governor to conduct a study of federal funding of state government programs and projects.

Your Committee received testimony in support of this measure from the Office of the Governor and the Department of Budget and Finance.

Your Committee finds that many state government programs and projects receive federal funding. Given the federal budget deficit, your Committee believes that the State should take a cautious approach to budgeting by identifying the dependence of state programs and projects on federal funds and then recommending a policy on the use of federal funds for state programs and projects, especially from non-recurring federal awards.

Your Committee acknowledges the testimony of the Office of the Governor and Department of Budget and Finance that the appropriation in this measure may not be sufficient to perform the study. Thus, your Committee requests that the Office of the Governor set forth its concerns regarding the scope of and funds for the study in the interim report due before the convening of the 2017 Regular Session. By then, your Committee believes that the Office of the Governor will have a clearer picture of the situation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2550 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2504 Commerce, Consumer Protection, and Health on S.B. No. 2390

The purpose and intent of this measure is to authorize a pharmacy to provide a customized patient medication package to any patient of an institutional facility or any member of the general public, subject to certain conditions.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that the administration of medication can be a complicated process, especially when it involves multiple solid oral dosage forms. Currently, only individuals residing in an institution may receive medications that are in customized packaging for a single dose, which decreases the chance of an unintentional medication overdose. By allowing a pharmacist to prepare customized patient medication packaging that contains one or more prescribed solid oral dosage forms for a specific patient, individuals with a

developmental disability who require personal assistance in taking their medication will be able to take their medication independently with less risk of over dosage.

Your Committee has amended this measure by:

- (1) Clarifying one of the conditions under which a pharmacy may provide a customized patient medication package to a patient, which includes the pharmacy obtaining the verbal consent of the patient, patient's caregiver, patient's guardian, or prescribing practitioner; and
- (2) Amending the definition of "pharmacist" to have the same meaning as "registered pharmacist" in section 461-1, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2390, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2390, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2505 Commerce, Consumer Protection, and Health on S.B. No. 2523

The purpose and intent of this measure is to allow medical marijuana production centers to be greenhouses, shade houses, and open-air growing operations; provided that they are always secured and not visible from any thoroughfare.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons, The Drug Policy Forum of Hawai'i, Hawai'i Dispensary Alliance, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, and one individual.

Your Committee finds that chapter 329D, Hawaii Revised Statutes, establishes a medical marijuana dispensary program in the State. In order to grow and manufacture medical marijuana for patients, licensees permitted to operate dispensaries will be allowed up to two production centers.

Your Committee further finds that the Department of Health established interim rules that exclude greenhouses and shade houses as acceptable indoor growing facilities, even though existing state law does allow a greenhouse to be utilized to grow medical marijuana if the greenhouse fits the criteria described in chapter 329D, Hawaii Revised Statutes. There are also concerns related to the high electricity costs associated with an enclosed indoor facility as defined by the Department's administrative rules. Medical marijuana growing operations that exclusively utilize artificial light are incredibly energy intensive, which drives up the costs for patients and creates a significant carbon footprint. Greenhouse growing takes advantage of the sun's energy during the daytime, which cuts energy consumption dramatically for production centers. Furthermore, there is a national movement toward secured, solid-wall greenhouses rather than warehouse facilities for the growing of medical marijuana to reduce production costs and carbon footprint impact.

Your Committee has amended this measure by:

- (1) Deleting language that would have allowed production centers to be open-air growing operations;
- (2) Specifying that the contents of greenhouses or shade houses serving as production centers shall not be visible from any street or road used by the public nor visible to adjoining landowners;
- (3) Inserting language to specify that this measure does not affect the medical marijuana dispensary selection process pursuant to section 329D-5, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2523, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2523, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2506 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 2732

The purpose and intent of this measure is to:

- (1) Require the interest earned on the balance of the hurricane reserve trust fund to be retained in the trust fund;
- (2) Require the Board of Directors of the Hawaii Hurricane Relief Fund to conduct a study of the acquisition of a catastrophic hurricane loss financing arrangement with all or a portion of the interest earned in the hurricane reserve trust fund; and
- (3) Appropriate monies from the hurricane reserve trust fund for the study.

Your Committees received testimony in support of this measure from the Department of Defense; Hawaii Emergency Management Agency; Hawai'i Association of REALTORS; Ho'omana Pono, LLC; and one individual. Your Committees received comments on this measure from the Board of Directors of the Hawaii Hurricane Relief Fund.

Your Committees find that since 2002, the interest earned on the balance of the hurricane reserve trust fund has been transferred and deposited into the general fund. This transfer to the general fund helped mitigate the revenue shortfalls that affected the State during

the Great Recession. However, now that the economy of Hawaii has improved and general fund revenues from tax sources have and are projected to increase at fairly healthy annual rates, your Committees further find that the general fund no longer needs the interest transferred from the hurricane reserve trust fund. Accordingly, this measure requires the interest earned on the balance of the hurricane reserve trust fund to be retained in the trust fund.

Your Committees note that the Board of Directors has previously indicated that the acquisition of a hurricane loss financing arrangement would be a valuable option for the Board to consider. However, your Committees also note that whether this type of financing arrangement would be feasible, practical, affordable, and in the public interest cannot be determined without some kind of exploration. Accordingly, this measure requires the Board of Directors to conduct a study of the acquisition of a catastrophic hurricane loss financing arrangement with all or a portion of the interest earned in the hurricane reserve trust fund. Your Committees additionally find that this study could lead to other avenues to fund the State's overall recovery after a devastating hurricane.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2732 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2507 (Majority Ways and Means on S.B. No. 2836)

The purpose and intent of this measure is to make appropriations for collective bargaining and related cost items for state law enforcement officers and state and county ocean safety and water safety officers who comprise collective bargaining unit (14), and their excluded counterparts.

Specifically, this measure provides a vehicle to appropriate funds for:

- (1) Collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (14); and
- (2) Salary adjustments and other cost adjustments for state officers and employees excluded from collective bargaining and who belong to the same compensation plans as those officers and employees within collective bargaining unit (14).

Your Committee received written comments in support of this measure from the Department of Budget and Finance and the Hawaii Government Employees Association.

Your Committee finds that the Department of Budget and Finance and the Hawaii Government Employees Association expect the arbitration panel to issue a decision in late February regarding salary and other cost adjustments for employees within collective bargaining unit (14). Your Committee further finds that this measure provides a vehicle to appropriate funds if an arbitration decision is issued during the 2016 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2836, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, none.

SCRep. 2508 Ways and Means on S.B. No. 2670

The purpose and intent of this measure is to reduce the surcharge on behavior analyst license and renewal fees from \$100 to \$50.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that having licensed behavior analysts is crucial for the well-being of the State. Behavior analysts can spend upwards of \$1,000 to obtain and maintain their licenses. Many licensed behavior analysts are only paid hourly and receive minimal benefits. Your Committee believes that reducing the surcharge on behavior analyst license and renewal fees will lessen the financial burden faced by licensed behavior analysts and encourage behavior analysts to become licensed, thereby increasing the number of licensed behavior analysts available in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2670 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2509 Ways and Means on S.B. No. 2030

The purpose and intent of this measure is to specify that the financing of certain types of dissemination, distribution, republication, and use of election campaign material prepared by a candidate is not considered a contribution to the candidate.

Specifically, this measure provides that contributions to candidates exclude financing for the use of campaign material:

- (1) By the candidate that prepared the material;
- (2) In communications opposing the candidate who prepared the material; or
- (3) In a news story or editorial by an independent broadcast station or publisher of periodicals or newspapers,

in addition to the existing exemption for the use of campaign material by candidates for Governor or Lieutenant Governor to support co-candidates in the general election.

Your Committee received written comments in support of this measure from the Campaign Spending Commission.

Your Committee finds that state law and federal regulations differ in regard to whether the financing of certain types of dissemination, distribution, or republication of campaign materials constitutes a contribution to a candidate. This measure promotes clarity and consistency in the democratic process by amending the state law regarding those activities to more closely align with federal regulations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2030, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2510 Ways and Means on S.B. No. 2029

The purpose and intent of this measure is to strengthen the enforcement of state campaign finance laws.

More specifically, this measure amends the campaign finance law regarding administrative fines to:

- (1) Clarify that the fines that the Campaign Spending Commission may assess against corporations, organizations, associations, labor unions, and their respective directors, officers, and agents may also be assessed against all persons who are not individuals and their directors, officers, and agents;
- (2) Increase the maximum fine that the Commission may assess against a violator who is a person other than an individual from \$1,000 to \$5,000, or an amount equivalent to three times the amount of an unlawful contribution or expenditure;
- (3) Authorize the Commission, in addition to the assessment of an administrative fine, to order a violator of state campaign finance laws to pay for costs incurred by the Commission due to the violation, including but not limited to the cost of investigative services; and
- (4) Require that costs recovered by the Commission be deposited in the Hawaii election campaign fund.

Your Committee received written comments in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, and the League of Women Voters.

Your Committee finds that increased fines against persons who are not individuals are necessary in the Campaign Spending Commission's enforcement cases against independent expenditure committees and other entities. In addition, as three times the amount of an unlawful contribution or expenditure may be imposed against violators who are individuals, it is equitable to extend this penalty to other violators. Your Committee further finds that the recovery of costs from violators and the deposit of those recovered costs into the Hawaii election campaign fund will decrease the fiscal burden that thorough investigations impose on the fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2029 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Taniguchi, Slom). Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2511 Ways and Means on S.B. No. 2861

The purpose and intent of this measure is to repeal the Joint Formulary Advisory Committee.

Your Committee received written comments in support of this measure from the Board of Nursing and the Hawaii State Center for Nursing.

Your Committee finds that the Joint Formulary Advisory Committee was established with the sole purpose of recommending to the Board of Nursing an applicable formulary for advanced practice registered nurses. While the Board of Nursing considers the recommendations of the Joint Formulary Advisory Committee, it ultimately makes the final determination of the applicable formulary for advanced practice registered nurses. Accordingly, your Committee believes that the Joint Formulary Advisory Committee is unnecessary and should be repealed as the Board of Nursing has sufficient expertise, resources, and authority to solely determine the applicable formulary.

Your Committee has amended this measure by making a technical non-substantive amendment to accurately reflect the printed version of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2861, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2861, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2512 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 2121

The purpose and intent of this measure is to permit two or more members of a county council to jointly attend and speak at a community, educational, or informational meeting or presentation; provided the meeting or presentation is open to the public.

Your Committees received testimony in support of this measure from the Hawaii State Association of Counties, Hawaii County Council, and four individuals. Your Committees received testimony in opposition to this measure from the Office of Information Practices, League of Women Voters, Civil Beat Law Center for the Public Interest, Common Cause Hawaii, and four individuals.

Your Committees find that members of county councils have a duty to stay informed on developing policy issues throughout their respective counties. Attending public board and community group meetings helps county council members to fulfill that duty and better serve the public. However, your Committees recognize that Act 221, Session Laws of Hawaii 2014 (Act 221), already provides county council members the ability to attend such meetings; that Act 221 will be repealed on June 30, 2016; and that the intent of this measure would be better served by extending Act 221.

Your Committees have therefore amended this measure by:

- (1) Removing proposed new language in section 92-2.5, Hawaii Revised Statutes;
- (2) Amending Act 221 to remove the sunset date;
- (3) Adding language to section 92-3.1, Hawaii Revised Statutes, requiring the county councils to submit annual reports to the Legislature on the effectiveness of the procedures provided in Act 221;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2121, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2121, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

Judiciary and Labor: Ayes, 6. Noes, none. Excused, 1 (Gabbard).

SCRep. 2513 Commerce, Consumer Protection, and Health on S.B. No. 2384

The purpose and intent of this measure is to require the Department of Health to conduct unannounced visits and relicensing inspections for state-licensed care facilities and medical marijuana dispensaries.

Your Committee received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, International Longshore and Warehouse Union Local 142, and one individual. Your Committee received testimony in opposition to this measure from fourteen individuals.

Your Committee finds that the Department of Health is responsible for licensing, certifying, and monitoring several types of facilities, including care facilities and medical marijuana dispensary facilities, to ensure a standard of quality. This measure requires the Department to conduct unannounced visits and relicensing inspections for state-licensed care facilities and medical marijuana dispensaries. According to testimony from the Department of Health, the Department prefers that relicensing or recertification surveys be unannounced in order to maximize the effectiveness of the inspections for these care homes or dispensaries. These unannounced visits will be consistent with all other relicensing inspections of health care facilities under the regulatory responsibility of the Office of Health Care Assurance and are an important safeguard for the public.

Your Committee has heard the testimony from some care home operators expressing concern that the care home operators may be negatively impacted by the unannounced inspections or visits, especially if the care home operators are not at home when the Department of Health arrives to conduct a survey. Your Committee notes these concerns but, after speaking with the Department, concludes that many of these concerns are unfounded. According to the Department, the Department recognizes and understands that care home operators have many responsibilities and cannot always remain in the home. However, if the Department stops by for an inspection or visit and the primary caregiver or homeowner is not home, any patients in the care home must be left in the care of a secondary caregiver. This secondary caregiver will be able to answer any of the questions that the Department may pose, and the primary caregiver's or homeowner's unavailability will not otherwise negatively impact the results of the Department's survey.

The Department indicated to your Committee that if the Department encounters something during a survey that may be out of compliance, the health care facility operator has the ability to respond to and dispute any Department findings. In general, health care facility operators and the Department agree on a plan of correction. The Department testified that it has never closed a facility due to the inability of a health care facility operator to fix a deficiency. Your Committee was reassured after the testimony and discussion with the Department and finds unannounced inspections and visits are an important aspect of consumer protection for patients in the State's care facilities.

Finally, your Committee notes that according to the Department of Health, certain care facilities under the responsibility of the Department are certified, rather than licensed. Amendments to this measure are therefore necessary to reflect this distinction.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Health shall conduct unannounced visits and relicensing or recertification inspections for state-licensed care facilities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2384, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Espero, Nishihara). Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2514 Commerce, Consumer Protection, and Health on S.B. No. 3085

The purpose and intent of this measure is to:

- (1) Clarify the requirements for an individual to become a dental hygienist;
- (2) Repeal the authority of the Board of Dental Examiners to adopt rules to delineate duties of dental assistants and regulatory directives; and
- (3) Prohibit dental assistants from performing certain intra-oral functions and related activities.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association and thirty-one individuals. Your Committee received testimony in opposition to this measure from the Hawaii Dental Association and four individuals. Your Committee received comments on this measure from the Board of Dental Examiners and Hawai'i Primary Care Association.

Your Committee finds that since the implementation of the dental anesthesia law in the 1990s, Hawaii's licensed dental hygienists have been held to the highest standards of patient safety and care, including a requirement that all new applicants for dental hygienist licensure be certified in local infiltration anesthesia and block anesthesia. According to testimony received by your Committee, this stringent certification requirement was enforced until recently, when some dental hygienist applicants started to become licensed without a block anesthesia certification. Accordingly, this measure clarifies the original intent behind the requirements for licensure as a dental hygienist by specifying that an applicant must be officially certified in the administration of intra-oral infiltration local anesthesia and officially certified in the administration of intra-oral block anesthesia prior to being licensed in Hawaii as a dental hygienist.

Your Committee further finds that existing law permits duly licensed and registered dentists to employ auxiliary personnel, known as dental assistants, to assist a dentist in the dentist's practice. Like dental hygienists, dental assistants are a valuable part of a dental team. However, dental assistants are not currently licensed or certified in Hawaii and are not required to meet the same stringent standards of training and care as licensed dental hygienists. According to testimony received by your Committee, concerns have been raised over proposed expansion by rule of the duties of a dental assistant, and whether those duties would overlap with duties currently within the scope of practice for licensed dental hygienists.

Your Committee notes that it is important for those in the field of dentistry to be aware of and adhere to legislatively determined parameters regarding duty and scope of practice for licensed dental hygienists. It is also important that unlicensed persons do not infringe upon a particular licensed profession's scope of practice. Your Committee additionally finds that while training and education for dental assistants are important, it is inappropriate for unlicensed auxiliary personnel to be expected or required to perform the very duties, activities, or functions that, if performed by a dental hygienist, would require licensure.

Finally, your Committee concludes that placing language from current and proposed rules into statute will ensure that the duties and training of dental assistants remain clear and do not overlap with the duties and scope of practice for licensed dental hygienists.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that additional duties of dental assistants and regulatory directives may be delineated under rules adopted by the Board of Dental Examiners; provided that these rules shall not infringe upon or overlap or conflict with existing law, including the duties and scope of practice for licensed dental hygienists, rather than repealing the authority of the Board to adopt rules to delineate duties of dental assistants and regulatory directives;
- (2) Specifying the supportive dental procedures a dental assistant may perform under the direct supervision, direction, evaluation, and responsibility of a licensed dentist;
- (3) Requiring dental assistants to be appropriately trained in proper sterilization and disinfection procedures, ethics, proper recordkeeping and patient confidentiality, and cardiopulmonary resuscitation; provided that the training may be provided by:
 - (A) Programs approved or accredited by the Board of Dental Examiners; or
 - (B) A licensed dentist; provided further that a dentist who trains the dentist's auxiliary personnel must first complete a continuing education program on how to train auxiliary personnel;
- (4) Clarifying the activities that dental assistants are prohibited from performing;
- (5) Clarifying that any person licensed under chapter 448, Hawaii Revised Statutes, who instructs or assigns an unlicensed person to perform duties or actions outside the allowable parameters for auxiliary personnel shall be subject to penalties;
- (6) Updating the purpose section;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3085, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3085, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2515 Commerce, Consumer Protection, and Health on S.B. No. 2376

The purpose and intent of this measure is to authorize a beneficiary of a prescription drug benefit plan to obtain a prescription without penalty from a non-network retail community pharmacy located within ten miles of the beneficiary's residence, if the nearest network retail community pharmacy is located ten or more miles away.

Your Committee received testimony in support of this measure from The Queen's Health Systems and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association, Hawai'i Association of Health Plans, and Express Scripts. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees, and CVS Health.

Your Committee finds that consumers in rural areas may have limited access to network pharmacies. This measure would provide greater access to pharmaceutical care for beneficiaries who lack sufficient access to a network pharmacy by permitting these beneficiaries to obtain a prescription without penalty from a non-network retail community pharmacy within ten miles of the beneficiary's residence, if the nearest network pharmacy is ten or more miles away.

According to testimony received by your Committee, smaller retail community pharmacies have continued to struggle with reimbursement rates, which affects these pharmacies' ability to remain in business. Independent retail community pharmacies in rural areas are a trusted part of their communities and may be a patient's primary source of information regarding the patient's prescription medications, especially in areas where access to other health care services is extremely limited. Although your Committee notes that legislation passed during the Regular Session of 2015 established guidelines for the reimbursement of prescription medication on a maximum allowable cost basis, your Committee finds that the law has not adequately addressed this reimbursement issue. Your Committee therefore concludes that requiring a dispensing fee to be paid to certain non-network retail community pharmacies is appropriate.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that if a beneficiary utilizes a non-network retail community pharmacy located within ten miles of the beneficiary's residence, the non-network retail community pharmacy shall be reimbursed a \$15 dispensing fee plus the product cost at the higher rate of reimbursement;
- (2) Inserting an effective date of July 1, 2016; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2376, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2376, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2516 (Joint) Water, Land, and Agriculture and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2257

The purpose and intent of this measure is to expand the candidate pool for membership on a county arborist advisory committee by making the following, in addition to persons actively employed in landscape architecture, eligible: certified arborists, horticulturalists with specialization in trees, and persons who have received a master's degree in botany.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, Malama O Puna, and one individual. Your Committees received testimony in opposition to this measure from Ho'omana Pono, LLC.

Your Committees find that the Exceptional Tree Act, Act 105, Session Laws of Hawaii 1975, recognizes the value of trees for their beauty and ecological functions and requires each county to establish a county arborist advisory committee to enact regulations to protect trees of exceptional stature. Your Committees also find that section 58-2, Hawaii Revised Statutes, requires one member of the county arborist advisory committee to be actively employed in the practice of landscape architecture. The County of Hawaii currently has only three landscape architects working within the county, thereby severely limiting the pool of candidates, and, as a result, the County of Hawaii has not had a functioning county arborist advisory committee since 2008. Your Committees therefore find that this is a common sense measure to assist the neighbor islands with the protection of exceptional trees.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2257, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2257, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Water, Land, and Agriculture: Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Ruderman, Shimabukuro, Wakai).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 2517 Ways and Means on S.B. No. 2660

The purpose and intent of this measure is to repeal the sunset date of section 501-261.5, Hawaii Revised Statutes, which authorizes owners of registered non-time share interests to deregister those interests from the Land Court System.

Specifically, this measure repeals the sunset date of December 31, 2016, set forth in section 2 of Act 119, Session Laws of Hawaii 2013, as amended by Act 47, Session Laws of Hawaii 2014.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, American Resort Development Association Hawaii, and the legislative counsel for the American Resort Development Association Hawaii.

Your Committee finds that in 2013, the Legislature required that all time share interests be deregistered from recordation in the Land Court System and be recorded in the Bureau of Conveyances System. In addition, the Legislature allowed for the voluntary deregistration of non-time share interests from recordation in the Land Court System, which has been codified as section 501-261.5, Hawaii Revised Statutes. However, the Legislature established a sunset date for section 501-261.5, Hawaii Revised Statutes, which has been subsequently extended to December 31, 2016.

Your Committee further finds that if section 501-261.5, Hawaii Revised Statutes, is allowed to sunset, recordation of the units within a new building that contains both time share and non-time share units could be split with some units recorded in the Land Court System and other units recorded in the Bureau of Conveyances System. Repealing the sunset date of section 501-261.5, Hawaii Revised Statutes, will permanently allow developers to withdraw entire projects from the Land Court System and record the ownership of each unit in the Bureau of Conveyances System, which will help to avoid needless complexity in legal documentation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2660 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2518 Commerce, Consumer Protection, and Health on S.B. No. 2793

The purpose and intent of this measure is to extend, until June 30, 2023, the provisions of Act 264, Session Laws of Hawaii 2013 (Act 264), which requires the State and the counties to take action within sixty days for broadband-related permit applications, requires the State to take action within one hundred forty-five days for use applications for broadband facilities within the conservation district, establishes other requirements regarding broadband-related permits, and subjects weight load for utility poles to capacities established by the Federal Communications Commission and Public Utilities Commission.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Cable Television Division of the Department of Commerce and Consumer Affairs; Hawaiian Electric Company, Inc.; Oceanic Time Warner Cable; and Hawaiian Telcom.

Your Committee finds that streamlining broadband permits can facilitate statewide access to affordable, high-speed broadband services. Improvements in the permitting process will allow for more private sector participants, which can lead to increased competition in the State's broadband sector. Your Committee further finds that increasing Hawaii's broadband capacity will have numerous benefits across the State, such as: enabling rapid access to information; accelerating business development; creating telehealth opportunities for the health care industry; enhancing education resources; and improving communications networks. Accordingly, this measure extends the provisions of Act 264, which will enable greater efficiency in the broadband-related permitting process.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2793, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2519 Commerce, Consumer Protection, and Health on S.B. No. 2123

The purpose and intent of this measure is to clarify county zoning authority by:

- (1) Distinguishing single-family residential use from single-family vacation rental use; and
- (2) Allowing a zoning ordinance to amortize nonconforming single-family transient vacation rentals over a reasonable period.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawai'i State Association of Counties; City and County of Honolulu, Department of Planning and Permitting; County of Kauai, Planning Department; Kailua Neighborhood Board; and five individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS, Rentals by Owner Awareness Association, and seven individuals.

Your Committee finds that the proliferation of vacation rentals in areas zoned for single-family residential use has created planning-related challenges for counties and highlights the need for clarity in state law governing this issue. Ambiguity in existing law has enabled vacation rental operators to argue their use is residential, despite these operators' obligations to pay transient accommodation taxes and general excise taxes, similar to the taxation obligations of resort-use entities like hotels.

Your Committee further finds that this measure recognizes the counties' home rule authority to treat single-family transient vacation rental use distinctly from single-family residential use and enables the counties to gradually phase out nonconforming single-family transient vacation rentals. Finally, your Committee notes that this measure is intended to clarify the counties' zoning authority. Any effort by the counties to amortize non-conforming vacation rentals would still need to be implemented fully by ordinance.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2123, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Espero). Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2520 Commerce, Consumer Protection, and Health on S.B. No. 2040

The purpose and intent of this measure is to clarify that under the Hawaii post-secondary education authorization program, when an institution ceases to operate, the student transcripts shall be kept permanently in a form prescribed by the Director of Commerce and Consumer Affairs and that other records requested and obtained by the Department of Commerce and Consumer Affairs may be disposed of at the Director's discretion.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing law requires the Department of Commerce and Consumer Affairs to permanently retain any student transcripts received from an institution that has ceased to operate. Other records obtained from such an institution must be retained for ten years. Your Committee further finds that if a closing institution deposits its records in paper format, the Department may be constrained by space and funding limitations and may be unable to receive and retain these records. The Department recognizes the importance of retaining student transcripts and other student records, but it has concerns that an institution may indiscriminately transfer large quantities of records into the Department's possession during the closure process. Accordingly, this measure authorizes the Department to use its discretion in how student transcripts will be retained and for the Director of the Department to determine how long other student records will be retained. The discretion allowed to the Department and its Director under this measure will enable the Hawaii post-secondary education authorization program to carry out its responsibilities more effectively.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2040, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2521 Commerce, Consumer Protection, and Health on S.B. No. 2975

The purpose and intent of this measure is to allow Department of Education employees to administer or assist students in administering blood glucose monitoring tests.

Your Committee received testimony in support of this measure from the Department of Health and eleven individuals.

Your Committee finds that blood glucose monitoring is vitally important to students with diabetes. Under certain circumstances, some students may require immediate assistance administering blood glucose tests. Allowing Department of Education employees to assist students with diabetes in administering such tests will help keep those students medically safe at school, while ensuring that volunteers who provide diabetes care or assistance will receive instruction in blood glucose monitoring from a qualified health professional and will be fully protected from liability.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2975 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2522 Commerce, Consumer Protection, and Health on S.B. No. 2385

The purpose and intent of this measure is to establish restrictions on sugar-sweetened beverages and certain other beverages served in child care facilities.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, American Heart Association, Hawaii Children's Action Network, Hawai'i Primary Care Association, Hawai'i Public Health Institute, and forty-four individuals. Your Committee received comments on this measure from the Department of Health and Department of Human Services.

Your Committee finds that children derive 10 to 15 percent of their total calories from sugary beverages. Drinking one 12-ounce soda every day increases a child's odds of becoming obese by 60 percent and doubles the risk of dental caries. Childhood obesity has more than tripled in the past 30 years, and one in three children entering kindergarten in Hawaii is overweight or obese. In Hawaii, close to 65,000 children attend some form of non-parental child care. By limiting the type of drinks that are served in child care facilities, an enormous number of calories and related health risks can be avoided.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2385, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2523 Commerce, Consumer Protection, and Health on S.B. No. 2245

The purpose and intent of this measure is to exclude certain locally sourced beach sand from the definition of "water pollutant" as used in chapter 342D, Hawaii Revised Statutes, to allow the use of the sand for erosion mitigation on Hawaii's beaches.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii Shore and Beach Preservation Association. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that Hawaii is losing its beaches at an alarming rate due to chronic shoreline retreat and shoreline armoring and that beach erosion is expected to accelerate in the future. Efforts to mitigate beach erosion have been frustrated because sand is currently defined as a water pollutant, despite the fact that sand is a natural occurrence along beaches, stream mouths, and channels. Naturally sourced beach sand should not be considered a pollutant and should be permissible for use when appropriate to help conserve the State's beaches.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2524 Judiciary and Labor on S.B. No. 2429

The purpose and intent of this measure is to:

- (1) Establish the offense of promoting fantasy competition as a violation and create an affirmative defense to the offense under limited situations; and
- (2) Add a definition of "fantasy competition" to section 712-1220, Hawaii Revised Statutes.

Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Police Department, City and County of Honolulu; Hawai'i Coalition Against Legalized Gambling; Hawaii Family Forum; and League of Women Voters of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that a fantasy competition is a contest in which individuals create fictitious sports teams within a particular professional or collegiate sport and serve as the owner, coach, or manager of their own fictitious team. These fictitious teams compete against each other using real world statistics for each athlete. The Department of the Prosecuting Attorney of the City and County of Honolulu testified that although fantasy sports competitions are based on statistical performances of real athletes in real sporting events, fantasy sports competitions are a form of gambling. Accordingly, this measure makes the offense of promoting fantasy competition a violation.

Your Committee notes the testimony from the Department of the Prosecuting Attorney of the City and County of Honolulu and Department of the Attorney General that this measure is unnecessary because existing state gambling laws include similar charges to the proposed offense of promoting fantasy competition. Your Committee further notes the testimony from the Department of the Prosecuting Attorney of the City and County of Honolulu that the definition of "contest of chance" includes fantasy competitions because there is a material degree of chance involved when the fantasy competition is based on the future performance of real world athletes.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established the offense of promoting fantasy competition as a violation and would have created an affirmative defense under limited situations;
- (2) Including fantasy competitions in the definition of "contest of chance" in section 712-1220, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2429, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2429, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Slom).

SCRep. 2525 Judiciary and Labor on S.B. No. 2439

The purpose and intent of this measure is to:

- (1) Establish exceptions to the offense of obstructing government operations and the offense of violation of privacy in the second degree for a person making a video or audio recording or photograph of a law enforcement officer while the officer is in the performance of duties in a public place or under circumstances in which the officer has no reasonable expectation of privacy; provided that the officer may take reasonable action to maintain safety and control, secure crime scenes and accident sites, protect the integrity and confidentiality of investigations, and protect the public safety and order; and
- (2) Establish a one-party consent exception for a person who intercepts a wire, oral, or electronic communication that involves a law enforcement officer when the person is not a party to the communication, under certain circumstances.

Your Committee received testimony in support of this measure from The Libertarian Party of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kauai; Police Department, City and County of Honolulu; and one individual.

Your Committee finds that with the popularity and widespread use of smart phones with video or audio recording and photographing capabilities, recordings and photos of law enforcement officers who are exercising their duties have been used as evidence in police conduct matters or widely disseminated via social media. However, such recordings and photographs may be seen as obstructing government operations or an invasion of privacy. This measure establishes an exception under certain circumstances to enable a person to record or photograph a law enforcement officer exercising the officer's duties without violating the law.

Your Committee notes the concerns raised in testimony in opposition to the provisions in this measure that establish an exception for a person to intercept a wire, oral, or electronic communication involving a law enforcement officer when the person is not a party to the communication. This exception may have unintended consequences, especially because "law enforcement officer" is broadly defined under section 803-41, Hawaii Revised Statutes, to include any officer in the State or political subdivision who is empowered by law to conduct investigations or make arrests for certain offenses. Accordingly, deputy prosecutors are law enforcement officers under this definition and the exception could have a chilling effect on law enforcement communications, hinder effective investigation and prosecution of criminal activity, and jeopardize the safety of crime victims, the public, and individuals who are in law enforcement custody.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the language under section 3, which would have established a one-party consent exception to intercept communications that involve a law enforcement officer;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2439, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2439, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2526 Education on S.B. No. 814

The purpose and intent of this measure is to require the Board of Education to name the new high school in Kihei, Maui, in honor of the late United States Representative Patsy Takemoto Mink.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Patsy T. Mink Political Action Committee, YWCA O'ahu, United Public Workers, Hawai'i Friends of Civil Rights, and five individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that the late United States Representative Patsy Takemoto Mink was a strong and unwavering supporter of women's rights. She was born and raised on Maui, and went on to serve the people of Hawaii in various capacities over a political career that spanned more than three decades. The legacy of her leadership includes the Title IX amendment to the Higher Education Act, which prohibits gender discrimination in federally funded institutions. Your Committee finds that, in light of Representative Mink's profound impact on the educational futures of countless young women, naming a school in her honor is an especially appropriate monument to her legacy.

Your Committee has amended this measure by changing the proposed name of the school to the "Patsy Takemoto Mink Kihei High School".

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 814, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 814, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Dela Cruz, Harimoto, Slom).

SCRep. 2527 Commerce, Consumer Protection, and Health on S.B. No. 2684

The purpose and intent of this measure is to establish motor vehicle insurance requirements for transportation network companies and transportation network company drivers.

Your Committee received testimony in support of this measure from USAA, Hawaii Insurers Council, National Association of Mutual Insurance Companies, and Property Casualty Insurers Association of America. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice; Uber Technologies, Inc.; and Lyft. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that transportation network companies are entities that use a digital network or software application service to connect passengers with transportation network company drivers. Your Committee further finds that concerns have been raised about potential gaps in motor vehicle insurance coverage associated with transportation network companies. In response, by the end of 2015, twenty-nine states had enacted legislation to establish insurance requirements covering transportation network company activity. This measure protects transportation network company drivers, their passengers, and the public by establishing responsible insurance requirements for the transportation network company industry in Hawaii, including requiring transportation network companies to have primary insurance coverage that specifically covers transportation network company activity; providing clear guidelines for transportation network company activity; and requiring claims cooperation by transportation network companies.

Although your Committee has heard testimony requesting the adoption of the National Conference of Insurance Legislators' Transportation Network Company Model Act, rather than the insurance requirements proposed by this measure, your Committee notes

that Hawaii was not a party to the discussion surrounding the development of the national model. Your Committee concludes that motor vehicle insurance requirements for the transportation network company industry that are tailored to Hawaii's unique market are more appropriate at this time.

Your Committee notes that interested stakeholders have been engaged in discussions regarding this measure, including discussions regarding Hawaii's mandated motor vehicle insurance coverages and concerns related to a possible waiver of rights for passengers who take prearranged rides with a transportation network company driver. After discussions, the interested stakeholders reached an agreement on some language. Your Committee therefore finds that amendments to this measure are necessary to incorporate that language.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the duration of transportation network company fare, including specifying that the fare concludes when a passenger exits a transportation network company driver's vehicle; provided that when the transportation network company driver is still available for application-generated rides, the driver shall continue to be covered by the transportation network company's motor vehicle insurance;
- (2) Clarifying the motor vehicle insurance requirements that shall be in effect during transportation network company activity, including:
 - (A) Uninsured and underinsured motorist coverage offers and uninsured and underinsured motorist coverage stacking options;
 - (B) Personal injury protection coverage; and
 - (C) Offers of required optional insurance coverages;
- (3) Clarifying the motor vehicle insurance policy requirements applicable during transportation network company activity;
- (4) Requiring a transportation network company insurance carrier to be licensed to do business as a motor vehicle insurance company in Hawaii;
- (5) Specifying that agreements between a transportation network company or transportation network company driver and a passenger that purport to disclaim liability, waive any claim or right to file a lawsuit, or require a passenger to defend, indemnify, or hold harmless a transportation network company or transportation network company driver shall not be valid or enforceable in Hawaii;
- (6) Specifying that this measure shall not limit or affect any motor vehicle insurance policy applicable to a passenger, pedestrian, or person other than a transportation network company driver, while the driver is engaged in transportation network company activity;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2684, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2684, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2528 Commerce, Consumer Protection, and Health on S.B. No. 2483

The purpose and intent of this measure is to:

- (1) Impose additional requirements upon shippers of fireworks;
- (2) Expand the available exceptions to the general prohibition against using fireworks without a permit; and
- (3) Amend labeling requirements for certain fireworks.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; State Fire Council; Honolulu Fire Department; Hawaii County Fire Department; Kauai Fire Department; and Maui Fire Department.

Your Committee finds that existing law specifies certain requirements for licensed individuals or entities defined as "shippers" who import fireworks into the State. This measure protects the health and safety of the community and the State's first responders by imposing additional requirements on shippers of fireworks, which will ensure a more comprehensive tracking of all shipments of fireworks imported into the State. This measure also amends the labeling size for display fireworks, articles pyrotechnic, and aerial devices, for consistency with nationally recognized standards.

Your Committee further finds that film and television production companies in Hawaii often employ pyrotechnics, which are used under the control of licensed pyrotechnic professionals who can execute these operations precisely and carefully. The exemption from the general prohibition on fireworks contained in this measure will ensure that movie and television production companies with a valid permit can continue to use fireworks, aerial devices, or articles pyrotechnic in a safe manner.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2483, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2483, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2529 Commerce, Consumer Protection, and Health on S.B. No. 2673

The purpose and intent of this measure is to require a travel agency that sells activities individually or as part of a tour package to register as an activity desk.

Your Committee received testimony in support of this measure from the Activities & Attractions Association of Hawaii, Holo Holo Charters, and Quicksilver Charters. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that travel agencies may sometimes act as activity desks when the travel agencies sell or arrange activities furnished by an activity provider for travelers. However, these travel agencies are not currently required to register as an activity desk. Accordingly, this measure requires travel agencies that sell activities individually or as part of a tour package to register as an activity desk, which will ensure better protection for those consumers who purchase activities from travel agencies.

Your Committee has heard the concerns raised by the Department of Commerce and Consumer Affairs in testimony. Although the Department agreed that a travel agency that sells activities separately should register as an activity desk, the Department expressed concerns regarding whether travel agencies that sell activities as part of a tour package need to register for two licenses. According to the Department, requiring two licenses may constitute overregulation and may replicate the consumer protections already afforded under chapter 468L, Hawaii Revised Statutes, relating to travel agencies. Furthermore, the Department noted that legislative history indicates that the definition of travel services within chapter 468L, Hawaii Revised Statutes, was expanded in the 1990s to include those who sell visitors' activities. Your Committee notes the Department's concerns and believes this issue merits further discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2673, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2673, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2530 Ways and Means on S.B. No. 2804

The purpose and intent of this measure is to authorize the Department of Budget and Finance to issue up to \$10,000,000 in special purpose revenue bonds on behalf of Big Island Dairy, LLC, for the planning, design, and construction of a new milk processing facility and related appurtenances and costs.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, and the Ulupono Initiative. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee notes that there is only one milk processor in the State. The situation places an undue burden on the State's two remaining local dairies, which have to accept the price of milk from the processor or risk discarding their unsold milk. Your Committee finds that Big Island Dairy, LLC's proposed processing facility will provide local dairies the opportunity to choose where to sell their milk, thus creating a more competitive market. Your Committee further finds that the issuance of special purpose revenue bonds for these purposes is in the public interest and for the public health, safety, and general welfare.

Your Committee has amended this measure by:

- (1) Clarifying that Big Island Dairy, LLC, is a limited liability company; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2804, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2804, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2531 Ways and Means on S.B. No. 2839

The purpose and intent of this measure is to amend the definition of the term "dependent-beneficiary" to clarify the eligibility of children for participation in the Hawaii Employer-Union Health Benefits Trust Fund and to bring the definition of that term in conformance with the federal Patient Protection and Affordable Care Act of 2010.

Your Committee received written comments in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the birth or adoption of a child by a surviving spouse more than ten months after the death of an employee or retiree was not a situation the Legislature contemplated when establishing the benefits of the Hawaii Employer-Union Health Benefits Trust Fund. However, under the current definition of “dependent-beneficiary,” such a child would be entitled to medical, drug, dental, and vision insurance funded by the State. Your Committee finds that excluding children born or adopted by a surviving spouse more than ten months after the death of an employee or retiree would more closely align with the purpose for which the Hawaii Employer-Union Health Benefits Trust Fund is intended.

Your Committee further finds that the housekeeping amendments made to sections 87A-34(a) and 87A-36(c), Hawaii Revised Statutes, by Senate Bill No. 2838, entitled “Relating to Investments of the Hawaii Employer-Union Health Benefits Trust Fund,” arguably do not fit within the scope of the title of that measure. Your Committee believes that the title of this measure is sufficiently broad to include those housekeeping amendments in this measure.

Your Committee has amended this measure by inserting language from Senate Bill No. 2838, that makes technical nonsubstantive amendments to sections 87A-34(a) and 87A-36(c), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2839, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2839, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2532 Commerce, Consumer Protection, and Health on S.B. No. 3108

The purpose and intent of this measure is to:

- (1) Ban, as of July 1, 2016, new underground storage tanks within one hundred yards of the shoreline; and
- (2) Prohibit, as of January 1, 2030, operation of and renewal of a permit for an underground storage tank within one hundred yards of the shoreline.

Your Committee received testimony in support of this measure from the Department of Health, Board of Water Supply, Conservation Council for Hawai‘i, and two individuals. Your Committee received testimony in opposition to this measure from Hawaii Petroleum, Inc.; Hawaii Petroleum Marketers Association; Par Hawaii; and one individual.

Your Committee finds that climate change is real and that sea level rise poses a threat to Hawaii’s quality of life. Immediate preparation for sea level rise will protect natural resources and save money in the long term. The inundation of underground storage tanks poses risks to the aquifer as well as coastal water quality and marine ecosystems.

Your Committee further finds that Act 97, Session Laws of Hawaii 2015, updates and extends Hawaii’s Clean Energy Initiative by, among other things, establishing benchmarks for renewable portfolio standards for electric utilities, including establishing a benchmark of 100 percent by December 31, 2045. By prohibiting the operation of underground storage tanks within one hundred yards of the shoreline beginning January 1, 2045, this measure may complement the renewable portfolio standards set forth in Act 97, Session Laws of Hawaii 2015, and assure that Hawaii moves beyond its dependence on imported fuels and continues to grow a local renewable energy industry.

Your Committee has amended this measure by:

- (1) Specifying that beginning January 1, 2045, no person shall operate an underground storage tank within one hundred yards of the shoreline;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3108, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3108, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2533 Judiciary and Labor on S.B. No. 2193

The purpose and intent of this measure is to define “person in custody” as used in the offenses of sexual assault in the second degree and third degree to explicitly prohibit certain persons from knowingly subjecting a person who is stopped by or under the control of a law enforcement officer to sexual penetration or sexual contact, respectively.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Hawaii Women’s Coalition; The Sex Abuse Treatment Center; American Association of University Women of Hawaii; and six individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that a recent, well-publicized case in which a law enforcement officer initiated inappropriate sexual contact on a motorist during a traffic stop highlights the need for clarity in the definition of the term “person in custody”. This measure proposes a new definition to broaden the meaning of the term and clarify the range of its potential interpretations.

Your Committee has amended this measure by:

- (1) Adding a savings clause; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2193, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2193, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Shimabukuro, Slom).

SCRep. 2534 Ways and Means on S.B. No. 2910

The purpose and intent of this measure is to assist in the implementation of the Commissioners of Deeds program.

Specifically, this measure:

- (1) Clarifies the Lieutenant Governor's rulemaking authority relating to Commissioners of Deeds;
- (2) Authorizes the Lieutenant Governor to assess and collect fees and administrative fines relating to Commissioners of Deeds;
- (3) Clarifies that the Lieutenant Governor is responsible for the Commissioners of Deeds program;
- (4) Increases the surety bond requirement for Commissioners of Deeds from \$1,000 to \$10,000; and
- (5) Appropriates funds for the establishment and administration of the Commissioners of Deeds program.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor, American Resort Development Association, Starwood Vacation Ownership, and Wyndham Vacation Ownership.

Your Committee finds that Act 277, Session Laws of Hawaii 2013, established the Commissioners of Deeds program within the Office of the Lieutenant Governor. This program includes a process for the Governor to appoint individuals to serve as Commissioners of Deeds to administer oaths, take acknowledgements, and take proofs of execution outside of the United States in connection with the execution of conveyance documents relating to a time share interest, any property subject to a time share plan, or the operation of a time share plan covering any property located within Hawaii.

Your Committee also finds that a working group was convened in 2014 to assist in implementing the Commissioners of Deeds program. The working group determined that additional legislation and authorization would assist with the effective implementation of the Commissioners of Deeds program and ensure the protection of consumers who wish to purchase a time share property located in the State. Your Committee further finds that this measure addresses the issues identified by the working group.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2910, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2910, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2535 Ways and Means on S.B. No. 2812

The purpose and intent of this measure is to amend the charitable solicitation and registration law.

Specifically, this measure:

- (1) Exempts individuals who prepare grant or subsidy applications from the charitable solicitation and registration requirements;
- (2) Requires professional solicitors to make various disclosures at the start of any contribution solicitation;
- (3) Authorizes the Attorney General to require that professional solicitors submit their end of solicitation campaign financial reports electronically;
- (4) Imposes fees for reports not filed in a timely manner;
- (5) Amends late filing penalties labeled as "fines" to "late filing fees"; and
- (6) Expands the charitable organizations that are exempt from registration and financial disclosure requirements.

Your Committee received written comments in support of this measure from the Department of the Attorney General and Aloha United Way.

Your Committee finds that an investigation related to the Hawaii Police Athletic Federation charitable organization found that a professional solicitor led donors to believe that the charitable organization had contacted the prospective donors, instead of a solicitor paid to obtain donations. This led to donor confusion, while in fact, the professional solicitor had retained eighty percent of the donations. Your Committee believes that the amendments made by this measure will require greater transparency by professional solicitors and help to reduce donor confusion and deception.

Your Committee has amended this measure by:

- (1) Adding a savings clause to ensure that the changes made by the measure do not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date; and

- (2) Changing the effective date to January 1, 2017, to provide professional solicitors, charitable organizations, and other individuals and organizations with adequate notice of the amendments made by this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2812, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2812, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2536 Ways and Means on S.B. No. 2863

The purpose and intent of this measure is to improve the regulation of massage therapy establishments, massage therapists, and massage therapist apprentices.

More specifically, this measure:

- (1) Authorizes the Department of Commerce and Consumer Affairs to issue a citation to any person who holds a license issued by the Board of Massage Therapy and who:
 - (A) Fails to conspicuously display a current massage therapy establishment license and the current licenses and permits of all persons employed by the establishment;
 - (B) Fails to ensure a massage therapist apprentice wears a conspicuously placed name tag stating the apprentice's name and the word "apprentice";
 - (C) Operates a massage therapy establishment without a licensed principal massage therapist in attendance at all times; or
 - (D) Fails to include a massage therapist's or massage therapy establishment's current license number in any advertisement;
- (2) Establishes a format and procedure for serving citations;
- (3) Provides that a citation may contain an order of abatement and assessment of a fine in the amount of \$250 for each violation; and
- (4) Establishes a process for a licensee to contest a citation.

Your Committee received written comments in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and the Board of Massage Therapy.

Your Committee finds that this measure would promote compliance by Board of Massage Therapy licensees with applicable laws and rules by providing a mechanism to expedite enforcement actions by the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs. Your Committee further finds that this measure would also enable the Regulated Industries Complaints Office to concentrate its enforcement efforts and resources on more serious violations.

Your Committee has amended this measure by:

- (1) Specifying that violations of pertinent administrative rules relating to licensees, in addition to violations of chapter 452, Hawaii Revised Statutes, shall be subject to citations;
- (2) Clarifying to which licensees under chapter 452, Hawaii Revised Statutes, the new provisions apply;
- (3) Adding a definition of "principal massage therapist";
- (4) Providing that the measure does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2863, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2863, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Riviere, Taniguchi).

SCRep. 2537 Ways and Means on S.B. No. 2446

The purpose and intent of this measure is to increase fees that notaries may charge to their clients.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that notaries are currently entitled to demand and receive \$5 for many actions including noting protests, administering oaths, taking acknowledgments, and for depositions and official certificates. Your Committee further finds that increasing the notary public fees will generate revenues commensurate with the service notaries provide.

Your Committee has amended this measure by changing the effective date to January 1, 2017, to provide adequate notice of fee increases to notaries and their clients.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2446, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2446, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2538 Judiciary and Labor on S.B. No. 2811

The purpose and intent of this measure is to:

- (1) Allow the family court to terminate parental rights if the court determines by clear and convincing evidence that a child was conceived during an act of rape or sexual assault perpetrated by the parent whose rights are sought to be terminated; and
- (2) Create a presumption that termination of parental rights is in the best interest of the child if the child was conceived as a result of the rape or sexual assault.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawaii State Commission on the Status of Women, The Sex Abuse Treatment Center, Women's Caucus of the Democratic Party of Hawai'i, Planned Parenthood Votes Northwest and Hawaii, and two individuals.

Your Committee finds that there are approximately 32,000 rape-related pregnancies each year in the United States. Rape is one of the most under-prosecuted serious crimes, and rapists may use the threat of pursuing custody or parental rights to coerce the survivors into not prosecuting rape. The clear and convincing evidence standard is the most common for terminating parental rights among the fifty states. By changing the standard for termination of parental rights from beyond a reasonable doubt to a clear and convincing evidence standard in cases where a victim of rape or sexual assault became pregnant, this measure satisfies due process while also allowing victims of rape or sexual assault to petition for termination of the perpetrator's parental rights without requiring a criminal conviction.

Your Committee has amended this measure by:

- (1) Inserting an effective of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2811, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2811, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kim, Thielen).

SCRep. 2539 Judiciary and Labor on S.B. No. 2787

The purpose and intent of this measure is to:

- (1) Provide the authority, procedures, and licensing requirements related to the production of industrial hemp as an agricultural product;
- (2) Require the Department of Agriculture to promote industrial hemp research and development of markets for industrial hemp; and
- (3) Exempt the possession, use, sale, or transfer of industrial hemp for research and development purposes from certain criminal offenses involving a detrimental drug.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Farm Bureau; International Longshore and Warehouse Union, Local 142; and four individuals.

Your Committee finds that industrial hemp is well suited to Hawaii's climate and soil and can grow to over ten feet in a short period of time with little water and no pesticides. According to estimates by the Hemp Industries Association, retail sales of industrial hemp products grew to over \$620,000,000 annually in 2014. Industrial hemp has over 25,000 uses, including food, fiber, and fuel products. This measure contributes to the future potential viability of the State's agricultural industry.

Your Committee has amended this measure by:

- (1) Clarifying that the possession, use, sale, or transfer of industrial hemp for research and development does not constitute an offense under part IV of chapter 712, Hawaii Revised Statutes, rather than specifying certain offenses, to conform to the language in S.B. No. 2659, S.D. 1 (Regular Session of 2016); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2787, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2787, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kim, Thielen).

SCRep. 2540 Judiciary and Labor on S.B. No. 2689

The purpose and intent of this measure is to:

- (1) Establish definitions for "disposable electronic smoking device", "electronic smoking device", "e-liquid", and "reusable electronic smoking device";

- (2) Amend the definitions of “dealer”, “retailer”, “sale” or “sold”, “wholesale price”, and “wholesaler” to include electronic smoking devices and e-liquid;
- (3) Allow electronic smoking devices, packages of electronic smoking devices, containers of electronic smoking devices, e-liquid, packages of e-liquid, and containers of e-liquid to be seized and forfeited if unlawfully sold, possessed, kept, stored, acquired, distributed, or transported;
- (4) Increase the license fee for wholesalers and dealers of cigarettes, tobacco products, electronic smoking devices, and e-liquid; and
- (5) Increase the retail tobacco permit fee for retailers of cigarettes, tobacco products, electronic smoking devices, and e-liquid.

Your Committee received testimony in support of this measure from the Department of Health, American Heart Association, Hawai'i Public Health Institute, and American Cancer Society Cancer Action Network. Your Committee received testimony in opposition to this measure from VOLCANO Fine Electronic Cigarettes, Hawaii Vapers United, Smokeless Hawaii, and six individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that the public health rationale for the regulation of cigarettes and tobacco products is well developed, as tobacco use is the most preventable cause of disease, disability, and death in the United States. In addition to governing specific aspects of tobacco production, sales, and use, Hawaii law also requires retailers, wholesalers, and dealers of cigarettes or tobacco products to obtain a special license or permit. These licenses and permits facilitate the enforcement of the cigarette tax and tobacco tax law under chapter 245, Hawaii Revised Statutes. However, the current license fee for wholesalers and dealers is only \$2.50 a year, while retail tobacco permit fees cost only \$20 a year. These fees should be increased and the law updated to include electronic smoking devices and e-liquid.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2019, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2689, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2689, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2541 Judiciary and Labor on S.B. No. 2688

The purpose and intent of this measure is to:

- (1) Prohibit, beginning January 1, 2017, the sale or offering for sale of certain e-liquid containers for electronic smoking devices unless the container is child-resistant and, if the container is for an e-liquid product containing nicotine, is labeled with warning language;
- (2) Establish that the sale or offer for sale of certain e-liquid containers is a misdemeanor;
- (3) Establish that any person or business that violates the prohibition on the sale or offer for sale of certain e-liquid containers is liable to any person injured as a result of the violation;
- (4) Establish e-liquid packaging standards in the Hawaii Poison Prevention Packaging Act pursuant to chapter 330C, Hawaii Revised Statutes; and
- (5) Expand the definition of “hazardous substance” as used in the Hawaii Poison Prevention Packaging Act to include e-liquid.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i Cancer Center, University of Hawai'i Student Health Advisory Council, Coalition for a Tobacco-Free Hawai'i, and VOLCANO Fine Electronic Cigarettes. Your Committee received testimony in opposition to this measure from Hawaii Smokers Alliance, 808 Smokes, Smokeless Hawaii, and six individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the packaging and use of electronic smoking devices are potentially hazardous to the health of Hawaii residents, including Hawaii's children, yet many liquids for electronic smoking devices are offered in flavors and scents that are appealing to children. There are currently no packaging requirements for the sale of e-liquid containers. Stringent packaging and labeling requirements for e-liquid containers will protect young children from inadvertent exposure to the contents of electronic smoking device cartridges and also inform consumers whether an e-liquid product contains nicotine, a highly addictive substance.

Your Committee has amended this measure by:

- (1) Establishing that the sale of certain e-liquid containers is a penalty, rather than a misdemeanor;
- (2) Deleting language establishing that any person or business that violates the prohibition on the sale or offer for sale of certain e-liquid containers is liable to any person injured as a result of the violation;
- (3) Inserting an effecting date of January 7, 2019, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2688, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2688, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2542 Judiciary and Labor on S.B. No. 2677

The purpose and intent of this measure is to:

- (1) Authorize the state Board of Nursing to develop rules necessary to implement mandatory criminal history record checks;
- (2) Beginning with the July 1, 2017, licensing biennium, require all new nurse licensure applicants to submit electronic fingerprints for criminal history record check purposes; and
- (3) Beginning with the July 1, 2019, licensing biennium, require all nurse licensure renewal applicants to submit electronic fingerprints for criminal history record check purposes.

Your Committee received testimony in support of this measure from the University of Hawai'i at Mānoa School of Nursing and Dental Hygiene; Hawai'i Pacific Health; Hawai'i State Center for Nursing; The American Organization of Nurse Executives, Hawaii Chapter; and five individuals. Your Committee received comments on this measure from the Board of Nursing.

Your Committee finds that it is in the best interest of the nursing workforce in Hawaii to ensure safe and quality nursing services are provided to patients in the State. Establishing criminal history record checks for nurses is one way to protect consumers and enhance public safety. Your Committee further finds that the National Council of State Boards of Nursing has proposed a standard, for all states to adopt, that requires a biometrics-based state and federal criminal background check for all nursing applicants, consistent with Public Law No. 92-544. The American Nurses Association and the Council of State Governments also support the use of criminal background checks as part of the nursing licensure process. This measure provides compliance with professional and government standards.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Board of Nursing that:
 - (A) Adds reactivation of licenses as a Board of Nursing duty;
 - (B) Requires the Board of Nursing to request, beginning July 1, 2017, criminal history records of qualified applicants and request, no later than July 1, 2023, criminal history records required for licensees who were issued licenses by the Board prior to July 1, 2017; and
 - (C) Requires the Hawaii Criminal Justice Data Center to provide to the Director of Commerce and Consumer Affairs requested information;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2677, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2543 (Majority) Judiciary and Labor on S.B. No. 2615

The purpose and intent of this measure is to:

- (1) Prohibit persons licensed to provide professional counseling from engaging in sexual orientation change efforts on a person under eighteen years of age or advertising the offering of sexual orientation change efforts on a person under eighteen years of age;
- (2) Establish that a person who is licensed to provide professional counseling who attempts to engage in sexual orientation change efforts or advertise the offering of sexual orientation change efforts on a person under eighteen years of age is subject to disciplinary action by the appropriate professional licensing authority; and
- (3) Establish that advertising the offering of sexual orientation change efforts on a person under eighteen years of age by a person licensed to provide professional counseling is an unfair or deceptive act or practice under section 480-2, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Child and Adolescent Mental Health Division of the Department of Health, Hawai'i Association for Behavior Analysis, Honolulu Council of MoveOn.org., Human Rights Campaign, LGBT Caucus of the Democratic Party of Hawai'i, National Center for Lesbian Rights, Rainbow Family 808, and twenty-three individuals. Your Committee received testimony in opposition to this measure from Hawaii Family Advocates, Hawaii Family Forum, Hawaii Catholic Conference, and ten individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, and one individual.

Your Committee finds that an American Psychological Association task force conducted a systematic review of peer-reviewed journal literature on sexual orientation change efforts. The task force concluded that sexual orientation change efforts can pose critical health risks to lesbian, gay, and bisexual individuals, including confusion, depression, guilt, helplessness, shame, social withdrawal, suicide, substance abuse, and other negative feelings and behaviors. Implementation of this measure will better protect the physical and psychological well-being of minors, including lesbian, gay, bisexual, and transgender youth, against exposure to serious harms caused by sexual orientation change efforts.

Your Committee encourages the Department of Commerce and Consumer Affairs and practitioner stakeholders to have further discussions and reach a consensus regarding the appropriate licensed professions to be covered by this measure, so that this measure in its final form will itemize an exclusive list of licensed professions, cross-referenced to the relevant chapter in title 25, Hawaii Revised Statutes, or other chapters of the Hawaii Revised Statutes as necessary.

Accordingly, your Committee has amended this measure by:

- (1) Changing the placement of the statutory language proposed by this measure from chapter 436B, Hawaii Revised Statutes, to title 25, Hawaii Revised Statutes;
- (2) Inserting language to clarify that any person who is licensed to provide professional counseling who engages in, in addition to attempts to engage in, sexual orientation change efforts on a person under eighteen years of age is subject to disciplinary action by the appropriate professional licensing authority;
- (3) Deleting language establishing that advertising the offering of sexual orientation change efforts on a person under eighteen years of age by a person licensed to provide professional counseling is an unfair or deceptive act or practice under section 480-2, Hawaii Revised Statutes;
- (4) Revising the purpose section for conciseness;
- (5) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2615, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2615, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Gabbard). Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2544 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2451

The purpose and intent of this measure is to:

- (1) Require the administrative fines for destroying or harvesting koa trees and other trees and plants under section 183-5(c), Hawaii Revised Statutes, to be an amount not to exceed the current market value of the koa tree or other tree or plant destroyed or harvested;
- (2) Clarify that any person who violates a provision of part II of chapter 183, Hawaii Revised Statutes, forest reserves, or any rule adopted pursuant thereto, other than section 183-17, Hawaii Revised Statutes, shall be guilty of a petty misdemeanor; and
- (3) Repeal the general penalty provision in section 183-4, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that forest resource thefts are occurring on state lands. The State's forest resources are precious and limited resources worthy of the State's protection. Implementation of this measure will deter unauthorized use of public resources and provide better protection of the State's forest resources.

Your Committees have amended this measure by:

- (1) Inserting language to clarify that the current market value of the koa tree or other tree or plant destroyed or harvested is the current market value at that location; and
- (2) Requiring the maximum administrative fine for destroying or harvesting koa trees and other trees and plants to include the cost of restoration and replacement of the habitat, in addition to a fine to the offender for an amount not to exceed the current market value of the koa tree or other tree or plant destroyed or harvested at that location.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2451, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2451, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.
Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2545 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2495

The purpose and intent of this measure is to:

- (1) Require every government procurement officer to attend initial training by the State Procurement Office within sixty days of being appointed or named to the position of procurement officer;
- (2) Require every government procurement officer or the officer's designee to attend follow-up training and development sessions, as determined by the State Procurement Office and, if unable to attend a follow-up or development session, receive written permission from the State Procurement Office in order to be excused from a session;
- (3) Require the State Procurement Office to conduct mandatory follow-up training and development sessions at regular intervals of at least once every twelve months;
- (4) Require the chief procurement officer, or the officer's designee, of each jurisdiction to annually submit, in the form and manner prescribed by the State Procurement Office, a list of the jurisdiction's procurement officers and which procurement officers, if any, have failed to comply with training requirements; and
- (5) Prohibit procurement by a procurement officer who fails to submit the officer's name and evidence of training compliance to the State Procurement Office.

Your Committees received testimony in support of this measure from the State Procurement Office.

Your Committees find that a strong training program for the State's procurement officers is an essential component in the delivery of procurement knowledge and skills. Effective and efficient procurements will allow the State to develop a more proficient workforce of procurement professionals who expend public funds in a manner that is compliant with applicable statutes, rules, and policies.

Your Committees have heard testimony of the State Procurement Office that it will cost \$150,000 per annum to implement a full training program or \$25,600 per annum to implement a Learning Management System, which is a training database to assist the office in assessing the training needs of procurement officers, and it may be necessary to amend these estimates after collaborating with the Department of Human Resources Development.

Your Committees have amended this measure by:

- (1) Requiring every government procurement officer to attend initial training by the State Procurement Office prior to participating in or authorizing any procurement, rather than within sixty days of being appointed or named to the position of procurement officer;
- (2) Requiring the procurement workforce of any governmental body to attend follow-up training and development sessions, rather than just government procurement officers or their designees;
- (3) Making an appropriation to the State Procurement Office, effective July 1, 2016; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2495, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2495, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2546 (Majority Ways and Means on S.B. No. 3038

The purpose and intent of this measure is to establish a temporary program, in counties with a population of less than 200,000, to extend unemployment insurance benefits to qualifying individuals.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations and Hawaii State AFL-CIO. Your Committee received written comments in opposition to this measure from the Building Industry Association of Hawaii.

Your Committee finds that the Hawaiian Commercial and Sugar Company expects to close its operations on Maui later this year. The closure will leave hundreds of current employees without jobs and will force most of them to find employment in different industries. Your Committee believes that this measure will provide additional financial assistance to those and other unemployed workers who may find it difficult to find gainful employment.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3038, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3038, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2547 Ways and Means on S.B. No. 2294

The purpose and intent of this measure is to require state and county agencies to exercise reasonable care in the maintenance of government records that are subject to public inspection.

Your Committee received written comments in support of this measure from the Office of Information Practices and the Aina Haina Community Association.

Your Committee received written comments in opposition to this measure from the Department of the Corporation Counsel of the City and County of Honolulu.

Your Committee finds that this measure will permit tort claims of negligence against state and county agencies for failing to adhere to a duly adopted records and retention and destruction policy. Your Committee further finds that existing retention and destruction policies may need to be revised to meet the statutory duty imposed under this measure.

Accordingly, your Committee has amended this measure by changing the effective date from upon approval to July 1, 2017, to allow affected agencies sufficient time for compliance with the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2294, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2294, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2548 (Majority Ways and Means on S.B. No. 2319)

The purpose and intent of this measure is to require health insurers, including health benefits plans under the Employer-Union Health Benefits Trust Fund and Medicaid managed care programs, to cover reimbursement for contraceptive supplies that are intended to last for up to a twelve-month period for an insured.

Your Committee received written comments in support of this measure from the American Association of University Women, Hawaii; Hawaii Public Health Association; Hawaii Women's Coalition; Hawaii State Coalition Against Domestic Violence; Hawaii State Commission on the Status of Women; Planned Parenthood Votes Northwest and Hawaii; Hawaii Medical Association; CVS Health; and three individuals.

Your Committee received written comments on this measure from the Department of Human Services and the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that statewide efforts to expand women's access to prescription contraceptives, including long-acting reproductive contraceptives, have been shown to help decrease unplanned pregnancies.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2319, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, 1 (Slom). Excused, 2 (English, Harimoto).

SCRep. 2549 Ways and Means on S.B. No. 2680

The purpose and intent of this measure is to clarify the fee payment process of the Department of Commerce and Consumer Affairs for financial institutions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure will clarify statutory provisions in the Code of Financial Institutions, especially with regard to the fee payment process, and thereby enhance the Division of Financial Institution's ability to collect fees consistent with the fee schedule.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2680, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Riviere, Taniguchi, Wakai).

SCRep. 2550 Ways and Means on S.B. No. 2008

The purpose and intent of this measure is to revise certain provisions pertaining to Service Area Boards on Mental Health and Substance Abuse.

More specifically, this measure:

- (1) Provides that Service Areas Boards on Mental Health and Substance Abuse shall be established within the Department of Health for administrative purposes; and
- (2) Provides quorum and voting specifications for meetings of Service Area Boards on Mental Health and Substance Abuse.

Your Committee received written comments in support of this measure from the Department of Health. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that statutorily establishing the administrative attachment of Service Area Boards on Mental Health and Substance Abuse with the Department of Health and specifying quorum and voting requirements for board meetings will facilitate administration of the boards and ensure their compliance with requirements for public meetings under chapter 92, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2008, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2551 Ways and Means on S.B. No. 2007

The purpose and intent of this measure is to amend the law that establishes and sets the operating and voting requirements of the State Council on Mental Health.

Specifically, the measure:

- (1) Requires that the principal state agency regarding Medicaid be represented on the State Council on Mental Health;
- (2) Clarifies the council's administrative placement within the Department of Health; and
- (3) Adjusts the council's quorum and voting requirements.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee finds that this measure will allow the council to gain the Medicaid agency's knowledge and expertise on issues and trends that influence the direction in which the mental health field, as it relates to adults in particular, is headed in this State.

Your Committee notes that if this measure crosses over to the next body of the Legislature, the measure should be reviewed to ensure that it in fact improves, and does not negatively impact, the council's quorum issues.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2007, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2552 Ways and Means on S.B. No. 2887

The purpose and intent of this measure is to amend the definition of "developmental disabilities" in section 333F-1, Hawaii Revised Statutes, to recognize other conditions not currently covered under the existing definition.

Your Committee received written comments in support of this measure from the Department of Health, Disability and Communication Access Board, State Council on Developmental Disabilities, and Special Education Advisory Council.

Your Committee finds that a task force was established in 2014 to review Hawaii's statutory definition of "developmental disabilities." For an individual to be considered to have a developmental disability under the current statutory definition of "developmental disabilities," the individual among other things, must have substantial functional limitations in three or more areas of major life activity. However, infants and young children are unlikely to exhibit the functional limitations required by the current statutory definition, as some of the limitations may not manifest or become observable until later in life.

The task force recommended that the definition of "developmental disabilities" in section 333F-1, Hawaii Revised Statutes, be amended to clarify that a child may be considered to have a developmental disability without meeting three or more of the criteria described in the definition if the child has a high probability of meeting those criteria later in life. Accordingly, your Committee believes that making this amendment will allow more children with developmental disabilities to receive necessary services and will align the State statutory definition of "developmental disabilities" with the federal definition.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2887, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2553 Ways and Means on S.B. No. 2849

The purpose and intent of this measure is to strengthen and clarify the escrow depositories law under Chapter 449, Hawaii Revised Statutes.

Specifically, the measure:

- (1) Authorizes the Commissioner of Financial Institutions to enter into agreements with NMLS to collect and maintain records and process transaction fees related to licensees;
- (2) Requires applicants for licensure and applicants for approval of a proposed change in control of the licensee to provide information and authorizations necessary for the Department of Commerce and Consumer Affairs to conduct a criminal history record check on the applicant's controlling persons and other personnel; and
- (3) Imposes new fees.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, Division of Financial Institutions.

Your Committee finds that this administration measure will enable the Division of Financial Institutions to operate more efficiently and provide greater consumer protection of funds and transactions involving escrow depositories.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2849, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2554 Ways and Means on S.B. No. 3102

The purpose and intent of this measure is to require that state agencies implement inter-agency agreements without entering into a memorandum of agreement or memorandum of understanding.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that inter-agency agreements provide agencies with an opportunity to coordinate resources and eliminate duplication, without entering into a memorandum of agreement or memorandum of understanding. Your Committee further finds that this measure will provide for a uniform and expedited agreement process between state agencies.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3102, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2555 Transportation and Energy on S.B. No. 2256

The purpose and intent of this measure is to authorize the issuance of driver's licenses with the notation of "veteran" for persons who are veterans of the Korean conflict, including persons who served in the armed forces of the Republic of Korea, who fought under the command of the United Nations led by the United States, during the Korean conflict and are currently United States citizens.

Your Committee received testimony in support of this measure from the Department of Defense Office of Veterans Services, Korean War Veterans Association Aloha Chapter, and one individual.

Your Committee finds that existing law authorizes the imprinting of the term "veteran" on driver's licenses. Existing law further allows veterans of the Korean conflict to have the term "Korea Veteran" imprinted on their motor vehicle license plates.

Your Committee further finds that these brave individuals risked their lives in the Korean conflict in pursuit of freedom for their fellow man and they continue to contribute to our community, our State, and our Country. This measure ensures that veterans of the Korean conflict are given special recognition in statute to honor their service and dedication to American ideals and grant them access to documentation of their veteran status.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2256, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, English, Gabbard).

SCRep. 2556 Judiciary and Labor on S.B. No. 2675

The purpose and intent of this measure is to:

- (1) Authorize the Board of Dental Examiners, Hawaii Medical Board, and Board of Pharmacy to deny a license to an applicant who has been disciplined by another state or federal agency and the Board of Nursing to deny a license to an applicant who has been disciplined by another state agency;
- (2) Authorize the Board of Dental Examiners, Hawaii Medical Board, Board of Nursing, and Board of Pharmacy to impose the same disciplinary action against a licensee as was taken by another state or federal agency;
- (3) Establish conditions for the disciplinary action;
- (4) Prohibit a licensee from practicing until a final order of discipline is issued if the licensee has been prohibited from practicing in another state; and
- (5) Require any final order of discipline taken to be a public record.

Your Committee received testimony in support of this measure from the Hawaii Dental Association, Hawaii Medical Board, and one individual. Your Committee received comments on this measure from the Regulated Industries Complaints Office, Department of Commerce and Consumer Affairs.

Your Committee finds that timely action in reciprocal discipline cases is a vital aspect of consumer protection. Furthermore, delayed action in reciprocal discipline cases, particularly in emergency situations, can put patients unnecessarily at risk. This measure attempts to ensure timely reciprocal discipline of health care professionals by authorizing certain health care professional licensing agencies to deny a license to an applicant who has been disciplined by another state or federal agency and impose the same disciplinary action against a licensee as was taken by another state or federal agency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2675, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2557 Judiciary and Labor on S.B. No. 2320

The purpose and intent of this measure is to:

- (1) Authorize pharmacists to prescribe and dispense United States Food and Drug Administration-approved self-administered hormonal contraceptives to persons eighteen years of age or older;
- (2) Specify requirements pharmacists must meet prior to prescribing and dispensing contraceptive supplies, including completion of an Accreditation Council for Pharmacy Education program approved by the Board of Pharmacy within every other biennial licensing renewal period;
- (3) Require all insurers in the State, including health benefits plans under chapter 87A, Hawaii Revised Statutes, and Medicaid managed care programs, to reimburse pharmacists who prescribe and dispense contraceptive supplies; and
- (4) Amend the definition of “practice of pharmacy” to include a separate provision for the prescribing and dispensing of contraceptive supplies to persons eighteen years of age and older.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association; Hawaii Medical Association; Hawai'i Public Health Association; CVS Health; Hawaii State Coalition Against Domestic Violence; American Congress of Obstetricians and Gynecologists, Hawaii Section; LGBT Caucus of the Democratic Party of Hawai'i; Planned Parenthood Votes Northwest and Hawaii; and two individuals. Your Committee received testimony in opposition to this measure from the American Council of Life Insurers.

Your Committee finds that many reproductive health experts have long sought to make prescription contraceptives more readily accessible. Under the federal Patient Protection and Affordable Care Act of 2010, contraceptives are required to be covered at a \$0 copayment, thus removing financial barriers for patients and ensuring that patients have better opportunities to receive contraceptive care. This measure supports the movement toward expanded access to prescription contraceptives by authorizing pharmacists to prescribe and dispense contraceptive supplies to persons eighteen years of age and older.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2320, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2558 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2298

The purpose and intent of this measure is to adopt a revised version of the Uniform Fiduciary Access to Digital Assets Act, which provides authority to plan for the management and disposition of digital assets.

Your Committees received testimony in support of this measure from the Commission to Promote Uniform Legislation and State Privacy and Security Coalition, Inc. Your Committees received comments on this measure from Google and Facebook, Inc.

Your Committees find that since last year, the Uniform Law Commission has worked to address concerns raised by internet service providers and privacy advocates over the original Uniform Fiduciary Access to Digital Assets Act, which the Uniform Law Commission first adopted in 2014. As a result of those efforts, the Uniform Law Commission has since adopted a revised version of the Uniform Fiduciary Access to Digital Assets Act.

Your Committees further find that the Revised Uniform Fiduciary Access to Digital Assets Act is intended to modernize fiduciary law for the Internet Age. Access to a person's digital property and electronic communications, also known as digital assets, is usually governed by a terms-of-service agreement rather than by property law. Issues may arise when Internet users die or otherwise lose the ability to manage their own digital assets. Accordingly, the Revised Uniform Fiduciary Access to Digital Assets Act, which this measure proposes to adopt, provides Internet users with the ability and authority to plan for the management and disposition of their digital assets, in a manner similar to the process for management and disposition of tangible property.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2298, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2559 (Majority) Ways and Means on S.B. No. 2484

The purpose and intent of this measure is to raise the fireworks display permit fee from \$110 to \$300.

Your Committee received written comments in support of this measure from the fire departments of the County of Hawaii, the County of Maui, the City and County of Honolulu, and the County of Kauai.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee notes that the administrative costs to process, review, and approve the permits have increased. Your Committee finds that this measure will enable the counties to recapture their administrative costs relating to issuing fireworks display permits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2484 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Slom). Excused, 1 (Galuteria).

SCRep. 2560 (Majority Ways and Means on S.B. No. 2835)

The purpose and intent of this measure is to appropriate funds for collective bargaining unit (8) cost items and related expenses for public employees in collective bargaining unit (8) and their excluded counterparts.

Specifically, this measure appropriates funds for:

- (1) Cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (8); and
- (2) Salary increases and other cost adjustments for state officers and employees excluded from collective bargaining and who belong to the same compensation plans as those officers and employees within collective bargaining unit (8).

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, University of Hawaii System, and one individual.

Your Committee finds that in November 2015, an arbitration award was issued for cost adjustments for public employees in collective bargaining unit (8). Your Committee further finds that this measure will appropriate funds for that arbitration award and for state officers and employees excluded from collective bargaining and who belong to the same compensation plans as those officers and employees within collective bargaining unit (8).

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2835, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2561 (Majority Ways and Means on S.B. No. 2837)

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items for public employees belonging to collective bargaining unit (11) and their excluded counterparts.

Specifically, this measure appropriates:

- (1) \$8,447 in fiscal year 2015-2016 and \$33,786 in fiscal year 2016-2017 for cost items negotiated with the exclusive bargaining representative of collective bargaining unit (11); and
- (2) Unspecified sums for state officers and employees excluded from collective bargaining and who belong to the same compensation plans as those officers and employees within collective bargaining unit (11).

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Office of Collective Bargaining, and the Hawaii Fire Fighters Association.

Your Committee finds that the Unit (11) Collective Bargaining Agreement for the period of 2011-2017, authorized the parties to reopen negotiations, by February 27, 2015, for employee meal allowances. Pursuant to those reopened negotiations, the parties executed a memorandum of agreement in December 2015 for an increase in the meal allowance. Your Committee further finds that this measure will fund those additional meal-related cost items expected to be incurred during this and the next fiscal year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2562 Ways and Means on S.B. No. 2367

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaii Renewable Resources, LLC, with the development of facilities to process, produce, or recover renewable natural gas, animal feed, soil amendment compost, carbon dioxide, water, and solar electricity on Oahu.

Your Committee received written comments in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Renewable Energy Action Coalition of Hawaii, and Hawaii Farm Bureau.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii Renewable Resources, LLC, offers sustainable solutions for the production of food and renewable energy from the conversion of recovered food and green agricultural crop resources. Hawaii Renewable Resources, LLC, proposes to own, design, build, and operate a project on central Oahu's agricultural lands that would produce natural gas and animal feed and recover products such as water and carbon dioxide for farming operations. Your Committee further finds that the issuance of special purpose revenue bonds for Hawaii Renewable Resources, LLC, will benefit the public without investment or operational risk to the State or counties.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2367 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2563 Ways and Means on S.B. No. 2250

The purpose and intent of this measure is to authorize the counties to make the same short-term investments as that of the state Director of Finance.

Your Committee received written comments in support of this measure from the County of Hawaii and the Department of Finance of the County of Maui.

Your Committee finds that the current law specifies allowable county short-term investments that are no longer in existence. This measure will update the law to bring the counties up to date with available investment markets.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2250 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Galuteria).

SCRep. 2564 Ways and Means on S.B. No. 2551

The purpose and intent of this measure is to require the Judiciary to submit annual reports to the Legislature on the Judiciary's management of non-general funds.

Your Committee received written comments in support of this measure from the Hawaii Civil Rights Commission and the Office of Hawaiian Affairs.

Your Committee finds that Auditor's report no. 15-16, "Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the Judiciary," indicated that section 37-47, Hawaii Revised Statutes, which requires executive branch departments to submit annual reports to the Legislature on their management of non-general funds, does not apply to the Judiciary.

Your Committee further finds that the Judiciary should be required to submit information on all non-general funds under its management to the Legislature. Your Committee believes that this information is necessary for a complete understanding of the State's fiscal situation, and this, in turn, will allow the Legislature to make sound budgetary decisions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2551 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2565 Judiciary and Labor on S.B. No. 2840

The purpose and intent of this measure is to authorize the Department of Health to continue to disclose, including through electronic means, lists of names of persons whose deaths have been recorded by the Department to state agencies that maintain official lists of persons and are prohibited by federal law from sharing information for the lists.

Your Committee received testimony in support of this measure from the Department of Human Services and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that although the Department of Health is allowed to verify information contained in vital statistics records by employing a process that matches its vital statistics information with information provided by agencies, that process cannot be used by state agencies whose lists are confidential under federal law. Your Committee further finds that some governmental agencies within the State that keep official lists of persons need to know when members on their lists have died. Such notification of death is important in maintaining the integrity of certain programs, such as Medicaid, by stopping unnecessary payments to contracted managed care health plans on behalf of deceased individuals. By allowing the Department of Health to report deaths to state agencies that maintain official lists that are confidential under federal law, this measure assists state agencies in maximizing the accuracy of their official lists and avoiding the overpayment of benefits and waste of public funds.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2840, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2566 Tourism and International Affairs on Gov. Msg. Nos. 534 and 535

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DIRECTORS OF THE HAWAII TOURISM AUTHORITY

G.M. No. 534 KUIIPO KUMUKAHI, for a term to expire 06-30-2016.; and

G.M. No. 535 KUIIPO KUMUKAHI, for a term to expire 06-30-2020

Your Committee has reviewed the statements and experiences that were submitted and explained to your Committee by the nominee and find that Kuuipo Kumukahi possesses the requisite qualifications to be nominated for appointment and reappointment to the Board of Directors of the Hawaii Tourism Authority.

Your Committee received testimony in support of Kuuipo Kumukahi from the Hawaii Tourism Authority, Association of Hawaiian Civic Clubs, Pacific Links International Hawaii Division, Tropical Music Inc., Hawaiian Music Hall of Fame, Pearl Harbor Hawaiian

Civic Club, Tidal Wave Entertainment, and thirteen individuals. Your Committee received comments on the nominee from one individual.

Kuuipo Kumukahi is a self-taught musician of Hawaiian music and song. Her family is deeply rooted in Hawaiian traditions, knowledge, and values. Ms. Kumukahi is known throughout Hawaii and the continental United States and abroad as the “the Sweetheart of Hawaiian music.” She has dedicated her life to producing, preserving, perpetuating, and promoting quality in Hawaiian music as well as the performance of the music of Hawaii in the Hawaiian language.

Ms. Kumukahi served as President of the Hawai‘i Academy of Recording Artists. She is a Co-founder and past President of the Na Lani Eha Hawaiian Civic Club. Besides being a student and performer of Hawaiian music, Ms. Kumukahi conducts lectures for administrators in the Department of Education on topics such as the values of a Hawaiian family. She also has served as a guest lecturer for the Kamehameha Schools focusing on the value of ho‘omakaukau, which is “to be prepared”.

According to testimony of the Hawaii Tourism Authority, Ms. Kumukahi brings insight, intelligence, diplomacy, positivity, and energetic commitment to the Authority. She understands the importance of infusing the aloha spirit into the Authority’s responsibilities of promoting Hawaii as a premier visitor destination. Her talents as an educator and as a cultural practitioner and advisor are invaluable to the mission of the Authority. Her excellent organizational, management, and supervisory skills have served her well and make her an ideal candidate to serve on the Board of Directors of the Hawaii Tourism Authority.

Your Committee takes particular note of Ms. Kumukahi’s oral testimony that she sees the importance of integrating Hawaiian cultural values into Western thought. For example, the Transportation Security Administration (TSA), which is the first and last contact at airports that visitors have with Hawaii, disappointingly turned down an offer from the Hawaii Tourism Authority to instruct TSA personnel on Hawaiian culture. In other words, marketing of Hawaiian culture needs to be more than commercials and advertising - it needs to be integrated on an international level into the fabric of cultural and social interaction between Hawaii and the world.

As affirmed by the record of votes of the members of your Committee on Tourism and International Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Majority Leader on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Kim, Tokuda).

SCRep. 2567 Ways and Means on S.B. No. 2395

The purpose and intent of this measure is to support the use of telehealth services within the State.

Specifically, this measure requires:

- (1) Medicaid managed care and fee-for-service programs to provide reimbursement for services provided by telehealth in the same manner as those provided in person;
- (2) That services provided by telehealth be consistent with privacy, security, and confidentiality laws;
- (3) Professional liability coverage for services provided by telehealth to the same extent as coverage for services provided in person; and
- (4) Insurers to provide enrollees and subscribers with disclosures related to services provided by telehealth.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities, The Queen’s Health Systems, Healthcare Association of Hawaii, Hawaii Pacific Health, Planned Parenthood Votes Northwest and Hawaii, and two individuals. Your Committee received written comments on this measure from Department of Human Services.

Your Committee finds that due to a shortage of physicians and remoteness of locations, many rural and underserved communities lack access to specialized physicians. Your Committee further finds that these communities would benefit from the use of telehealth. However, artificial barriers such as a lack of health insurance coverage and professional liability insurance coverage limitations discourage qualified physicians from using telehealth to provide medical services to individuals in these communities. Your Committee believes that this measure will assist in reducing barriers to implementing telehealth and will improve the quality of health care in the State.

Your Committee requests that the Department of Human Services work with the next committee that hears this measure to establish an appropriate timeframe for implementing the amendments made by this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2395, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2568 Ways and Means on S.B. No. 2021

The purpose and intent of this measure is to extend the special purpose revenue bonds authorization pursuant to Act 89, Session Laws of Hawaii 2011, to assist BioEnergy Hawaii, LLC, with establishing a cogeneration facility and related energy production facilities from June 30, 2016, to June 30, 2021.

Your Committee received written comments in support of this measure from Pacific Waste, Inc.; BioEnergy Hawaii, LLC; and Ulupono Initiative.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that BioEnergy Hawaii, LLC, proposes the development and operation of a bioconversion facility that will sort, separate, and process municipal solid waste into usable materials and feedstock. Your Committee further finds that extending the authorization to issue special purpose revenue bonds for five years will enable BioEnergy Hawaii, LLC, to secure moneys to establish this bioconversion facility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2021 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2569 Ways and Means on S.B. No. 2845

The purpose of this measure is to formally reconcile general fund cash advances that have not been repaid and to more accurately reflect the State's general fund balance.

Specifically, this measure appropriates from the general revenues of the State:

- (1) \$89,900,000 to repay general fund cash advances to the capital projects fund for the purchase of lands of the former Kapalama Military Reservation; and
- (2) \$13,300,000 to repay general fund cash advances to the Hawaii Health Systems Corporation for its employer contributions to the Employees' Retirement System and to the Employer-Union Health Benefits Trust Fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and the Hawaii Health Systems Corporation.

Your Committee finds that the State's general fund balance currently reflects repayments for an \$89,900,000 cash advance authorized in 1989 for the purchase of lands of the former Kapalama Military Reservation and for a \$13,300,000 cash advance made in fiscal year 2002-2003 for Hawaii Health Systems Corporation contributions to the Employees' Retirement System and to the Employer-Union Health Benefits Trust Fund. However, these cash advances totaling \$103,200,000 have not been repaid and it appears unlikely that they will be repaid. Consequently, the assets and liabilities of the general fund are currently overstated by \$103,200,000.

Your Committee further finds that making the necessary appropriations and formally reconciling these general fund cash advances will more accurately reflect the general fund balance and actual resources available to finance state programs and expenses.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2570 (Joint) Economic Development, Environment, and Technology and Ways and Means on S.B. No. 2541

The purpose and intent of this measure is to authorize the Chief Information Officer of the State to transfer or expend general funds, subject to the approval of the Governor, for projects approved by the Office of Enterprise Technology Services.

Your Committees received written comments in support of this measure from the Department of Education, Department of the Attorney General, and Office of Enterprise Technology Services.

Your Committees find that no clear mechanism exists for the Office of Enterprise Technology Services to transfer general funds to another agency or department for information technology-related contracts of that agency or department. Consequently, once a contract to implement a project has been approved, to comply with existing law, the Office of Enterprise Technology Services must either initiate the technology contract itself or add itself as a third party to the contract. Your Committees also find that authorizing the Office of Enterprise Technology Services to transfer general funds to the agencies and departments to implement technology-related contracts will increase government efficiency and remove unnecessary obstacles to improving the State's information technology.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2541 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Economic Development, Environment, and Technology: Ayes, 9. Noes, none. Excused, none.
Ways and Means: Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Riviere, Taniguchi).

SCRep. 2571 Transportation and Energy on S.B. No. 2375

The purpose and intent of this measure is to establish a speed limit of sixty-five miles per hour for the Daniel K. Inouye highway.

Your Committee received testimony in support of this measure from the County of Hawaii Game Management Advisory Commission, Hawaii Hunting Association, and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii County Police Department and one individual. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that Route 200, known locally as Saddle Road, traverses the width of the Island of Hawai'i, from downtown Hilo to the junction with Hawaii Route 190, near Waimea. The road was considered one of the most dangerous paved roads in the State, with many one-lane bridges and areas of marginally maintained pavement. Most of the road has now been repaved, and major

parts have new re-alignments to modern standards. Saddle Road is now known as the Daniel K. Inouye Highway in honor of the late Senator Daniel K. Inouye.

Your Committee finds that the current speed limit of forty-five miles per hour may not be suitable for the Daniel K. Inouye Highway in certain places, and yet suitable in others.

Your Committee has amended this measure by:

- (1) Raising the speed limit to sixty miles-per-hour beginning at mile marker 19; and
- (2) Clarifying that the speed limit shall be forty-five miles-per-hour or any other speed limit as determined by the department of transportation, beginning at the Pohakuloa training area and ending one-half mile east of the Mauna Kea county park entrance.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2375, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2375, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, English, Gabbard).

SCRep. 2572 Commerce, Consumer Protection, and Health on S.B. No. 2681

The purpose and intent of this measure is to:

- (1) Require a consumer credit reporting agency to create a protective record for protected consumers, including individuals not older than eighteen years old and incapacitated persons, who do not have an existing credit report; and
- (2) Permit a representative of a protected consumer to place a security freeze on a protected consumer's credit report or protective record.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and the Consumer Data Industry Association.

Your Committee finds that identity theft impacts millions of people in the country each year, with children remaining particularly vulnerable. According to the Identity Theft Assistance Center, one in forty families with children under the age of eighteen had at least one child whose personal information was compromised. Your Committee further finds that identity theft involving minors is especially concerning, as it often goes unchecked and unnoticed for years. This measure safeguards protected consumers by offering these individuals the same protections as other consumers.

However, your Committee has heard the concerns that this measure requires credit files to be created for protected consumers only for the purpose of freezing such files. Stakeholders from the credit industry oppose this, as it could ultimately lead to additional fraud issues. Your Committee notes that Maryland was the first state in the country to pass a law specifically to protect minors from credit fraud, and since that time, a total of twenty-one states have enacted similar laws based on the Maryland model. The Maryland model establishes a new term of art, known as a "record", and then requires consumer credit reporting agencies, on request of a parent or guardian, to freeze the record of a protected consumer, which prevents the creation of credit files for minors and incapacitated persons.

Your Committee additionally finds that interested stakeholders and the Office of Consumer Protection have held discussions regarding whether to adopt a form of the Maryland model, and how to do so in a manner that is in the best interests of Hawaii consumers. Ultimately, the interested stakeholders and the Office of Consumer Protection were able to agree on the majority of the language under discussion. Amendments to this measure are therefore necessary to incorporate the consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Adopting consensus language from industry stakeholders and the Office of Consumer Protection, which:
 - (A) Requires a consumer credit reporting agency to create a record for protected consumers, including minors under the age of sixteen and incapacitated persons, who do not have an existing credit file;
 - (B) Permits a representative of a protected consumer to request a security freeze on the protected consumer's credit report or any record created for the protected consumer;
 - (C) Requires a consumer credit reporting agency to place a security freeze within thirty days after receiving a request;
 - (D) Prohibits the release of a protected consumer's credit report, information, or any record while the security freeze is in place;
 - (E) Specifies the length of time a security freeze for a protected consumer shall remain in effect and the requirements for requesting removal of a security freeze;
 - (F) Specifies that consumer credit reporting agencies may charge a reasonable fee not to exceed \$5 for each placement or removal of a security freeze, but specifying that no fee shall be charged if a protected consumer has been the victim of identity theft or if the protected consumer is under the age of sixteen and already has a credit report;
 - (G) Specifies that a consumer credit reporting agency may remove a security freeze or delete a record for a protected customer if the security freeze was placed or the record was created based on material misrepresentation of fact;
 - (H) Specifies exceptions to the security freeze and record requirements;
 - (I) Clarifies penalties for violations; and

- (J) Inserts definitions;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2681, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2681, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ruderman, Slom).

SCRep. 2573 Commerce, Consumer Protection, and Health on S.B. No. 2389

The purpose and intent of this measure is to require:

- (1) All payers of claims for payment for health care services delivered to any person, including providers of public or private health insurance, to submit data and other information to the State Health Planning and Development Agency;
- (2) Health care services claims and payment data to be submitted by health care providers and payers of health care services claims; and
- (3) The State Health Planning and Development Agency to submit acquired data to a University of Hawaii data center.

Your Committee received testimony in support of this measure from the State Health Planning and Development Agency, Office of Enterprise Technology Services, University of Hawai'i System, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association and Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of the Attorney General, Department of Human Services, and Healthcare Association of Hawaii.

Your Committee finds that health care payers collect and analyze health care services claims and payment information for federal regulatory compliance and business accounting purposes. Reporting health care services claims and payment information to the State Health Planning and Development Agency, who is tasked with promoting accessibility to quality health care services for all people of the State at a reasonable cost, would support collection analysis, dissemination of medical treatment claims and payment information, transparency in the health care sector, and public policy decision making. This measure also provides access to health care claims payment data and analytics to consumers of health care and state decision makers who regulate health care and insurance.

Your Committee has amended this measure by:

- (1) Requiring that the submittal of data, statistics, and other information be consistent with state and federal laws pertaining to data use and disclosure, privacy, security, and confidentiality laws;
- (2) Requiring that health care providers and payers of health care services claims submit information about the nature of reimbursements and any fees, discounts, incentives, or performance payments affecting the rate of reimbursement from any insurer;
- (3) Specifying that the State Health Planning and Development Agency shall not disclose any individual patient's personal health information in violation of state or federal law;
- (4) Requiring the State Health Planning and Development Agency to initially submit data to the College of Social Sciences, Social Sciences Research Institute, Pacific Health Informatics and Data Center at the University of Hawaii; provided that the University of Hawaii Data Center may opt out of providing data services upon written notification;
- (5) Requiring the entity accepting health care services claims and payment data to enter into a negotiated data sharing agreement with any payer or insurer before data is submitted;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2389, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2389, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2574 Judiciary and Labor on S.B. No. 2522

The purpose and intent of this measure is to amend the offense of sexual assault in the fourth degree to include a person who knowingly engages in or causes sexual contact with a person who is at least sixteen years old but less than eighteen years old and the person holds a position of trust, power, authority, or supervision over that minor with certain exceptions.

Your Committee received testimony in support of this measure from the Police Department, City and County of Honolulu, Ho'omana Pono, LLC; and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that this measure is aimed at persons, such as teachers or employers, who abuse their position of trust, power, authority, or supervision to engage in sexual contact with a teenager who is sixteen or seventeen years old. However, the Department of the Prosecuting Attorney of the City and County of Honolulu and Office of the Public Defender raised concerns in written testimony that the phrase "position of trust, power, authority, or supervision" is vague and could apply to a number of relationships that the law might not intend to criminalize.

Accordingly, your Committee has amended this measure by:

- (1) Replacing language referring to a position of trust, power, authority, or supervision with language that specifies that a person is contemporaneously acting in a professional capacity to instruct, advise, or supervise the minor;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2522, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2522, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Shimabukuro, Slom).

SCRep. 2575 Judiciary and Labor on S.B. No. 2247

The purpose and intent of this measure is to provide that the commission of certain offenses of assault and sexual assault in the presence of the victim's minor child is an aggravating factor that the court is required to consider in the sentencing of the defendant convicted of the offense along with other factors under section 706-606, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; and Ho'omana Pono, LLC. Your Committee received comments on this measure from the Office of the Public Defender.

Your Committee finds that research has shown that children who witness assault or domestic violence can suffer severe emotional and developmental difficulties that are similar to those of children who are victims of direct physical and mental abuse. By creating an aggravating factor for the court to consider when sentencing a defendant convicted of certain assault and sex assault offenses committed in the presence of a child, this measure recognizes the impact that witnessing an assault has on a child.

Your Committee notes the testimony submitted by the Department of the Prosecuting Attorney that this measure is substantially similar to section 706-606.4, Hawaii Revised Statutes (HRS), relating to the sentencing of offenses involving abuse of family or household member committed in the presence of a minor. The Department raised concerns that duplicative sentencing statutes may cause unnecessary confusion.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the contents of section 1 with the language suggested by the Department of the Prosecuting Attorney of the City and County of Honolulu that amends section 706-606.4, HRS, to:
 - (A) Delete references to an offense involving the abuse of a family or household member;
 - (B) Delete the requirement that a defendant is or has been a family or household member of either the minor or victim of the offense; and
 - (C) Delete the definition of "family or household member";
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2247, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Shimabukuro, Slom).

SCRep. 2576 Judiciary and Labor on S.B. No. 2816

The purpose and intent of this measure is to:

- (1) Establish the offense of criminal trespass onto state lands and make the offense a petty misdemeanor; and
- (2) Amend the offense of criminal trespass in the second degree to include and apply to agricultural property owned by the government that is not fenced, enclosed, or otherwise secured in a manner designed to exclude intruders, but has appropriate signage giving notice that the property is government property and that trespassing is prohibited.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Land and Natural Resources, and Department of Transportation. Your Committee received testimony in opposition to this measure from the Americans for Democratic Action Hawai'i, American Civil Liberties Union of Hawai'i, and two individuals.

Your Committee finds that it is not clear whether existing criminal trespass laws apply to improved state lands, state land on or under any highway, or unfenced, unenclosed, or unsecured agricultural lands owned by the State. This measure addresses the application of criminal trespass laws with respect to state lands to provide a stronger and clearer deterrent to illegal activity.

Your Committee has amended this measure by:

- (1) Deleting references to the “functional equivalent” with respect to signs that provide reasonable notice that the land is government property and that trespassing is prohibited;
- (2) Specifying that for purposes of criminal trespass onto state lands, land is not “improved state land” solely due to state maintenance activities;
- (3) Requiring the Department of the Attorney General to submit a written report to the Legislature prior to the Regular Session of 2018, regarding the extent to which the criminal trespassing laws in this measure have been utilized;
- (4) Inserting a savings clause;
- (5) Inserting a sunset date of January 1, 2021;
- (6) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2816, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2577 Ways and Means on S.B. No. 2131

The purpose and intent of this measure is to restore the fuel license tax on naphtha fuels sold for use in a power generating facility.

Your Committee received written comments in support of this measure from the Kauai Island Utility Cooperative.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that, in 2007, the Legislature enacted a fuel license tax on naphtha fuels sold to a power generating facility. Prior to its repeal, the tax was set at two cents per gallon. However, pursuant to Act 103, Session Laws of Hawaii 2007, as amended by Act 198, Session Laws of Hawaii 2009, as amended by Act 188, Session Laws of Hawaii 2012, the tax was repealed on December 31, 2015. Your Committee further finds that it is the intent of this measure to restore the fuel license tax of two cents per gallon for naphtha fuels sold to a power generating facility. This measure has the effect of lowering the tax on such naphtha fuel.

Your Committee has amended this measure by:

- (1) Making corrections to accurately reflect the text of section 243-4(a), Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2131, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2131, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Galuteria, Harimoto).

SCRep. 2578 Judiciary and Labor on S.B. No. 2886

The purpose and intent of this measure is to reduce barriers in accessing mental health care for adolescents by lowering the age of consent to receive treatment from eighteen years old to twelve years old.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, Hawaii Youth Services Network, and six individuals. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that requiring parental consent for minors to receive substance abuse treatment and family planning services may pose a barrier to health care. Minors may find desired mental health services inaccessible due to the discomfort and even opposition caused by obtaining parental consent. By allowing access to mental health services for consenting minors, this measure enables individuals who seek improved emotional well-being to be served in a timely manner.

Your Committee notes that other statutes relating to the ability of minors to consent to services without previous parental consent, including chapter 577D, Hawaii Revised Statutes, relating to primary care services, fix the minimum age at fourteen years old. Your Committee encourages stakeholders to discuss this minimum age issue as the measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2886, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2886, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Gabbard, Kahele, Thielen). Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2579 Judiciary and Labor on S.B. No. 2802

The purpose and intent of this measure is to require persons who wish to access private land for hunting to first obtain written permission from the land owner or occupier.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai'i Farm Bureau. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs and three individuals. Your Committee received comments on this measure from the Hawaii Hunting Association.

Your Committee finds that existing law is inadequate to deter persons with firearms or other weapons from trespassing on lands and potentially causing bodily injury to others, or damage to property, livestock, and crops. These trespassing occurrences have been especially egregious on farms and ranches. This measure will help to mitigate safety and vandalism concerns.

Your Committee notes the concerns raised in testimony submitted by the Office of Hawaiian Affairs that this measure may prevent Native Hawaiians from engaging in their protected traditional and customary gathering constitutional rights.

Accordingly, your Committee has amended this measure by:

- (1) Revising the purpose section for conciseness;
- (2) Allowing written permission to include an expression of permission conveyed and stored by electronic means;
- (3) Adopting the language suggested by the Office of Hawaiian Affairs to require that nothing in this measure shall be construed to infringe on the traditional and customary rights set forth in article XII, section 7, of the Hawaii State Constitution;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2802, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2802, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kim, Thielen).

SCRep. 2580 Judiciary and Labor on S.B. No. 2607

The purpose and intent of this measure is to limit the ways in which the operator of a website, online service, or mobile application working with the Department of Education can use student data.

Your Committee received testimony in support of this measure from the Department of Education, Microsoft, and two individuals.

Your Committee finds that students in Hawaii's schools are growing up in a world that is increasingly interconnected through the Internet, mobile phones, tablets, and other applications of information technology. Improper handling of information technology can cause a user's personal information to become available to other parties who may misuse that data for a wide range of purposes. Students have a reasonable expectation that software, applications, and other information services provided by their school or the Department of Education will be responsibly regulated and free of unnecessary risk. This measure will address privacy concerns and strengthen trust in educational technologies while enabling innovation.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by Microsoft that deletes language that would unintentionally weaken the responsibility of third party content providers, applications, and software companies to comply with this measure and protect the privacy of student data; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2607, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2607, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kim, Thielen).

SCRep. 2581 Judiciary and Labor on S.B. No. 2181

The purpose and intent of this measure is to allow, beginning January 1, 2017, manufacturers of investigational drugs, biological products, or devices to make available such drugs, products, or devices to terminally ill patients under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice.

Your Committee finds that the process of approval for investigational drugs and biological products in the United States protects future patients from premature, ineffective, and unsafe medications and treatments over the long run, but the process often takes many

years. Patients who have a terminal illness do not have the luxury of waiting until an investigational drug or biological product receives final approval from the United States Food and Drug Administration.

Your Committee further finds that patients who have a terminal illness have a fundamental right to pursue the preservation of their own lives by accessing available investigational drugs or biological products. Several states have passed “right-to-try” legislation that makes available experimental drugs without Food and Drug Administration approval to terminally ill patients with no other medication or treatment options.

As this measure moves forward in the legislative process, your Committee encourages further discussion among stakeholders concerning any issues related to the enforcement of restrictions on the use of controlled substances potentially implicated by its scope.

Your Committee has amended this measure by:

- (1) Deleting all references to “devices” and “device”;
- (2) Inserting language to clarify the authorization of manufacturers to make available drugs and products to terminally ill patients under certain conditions notwithstanding section 328-17, Hawaii Revised Statutes;
- (3) Amending the definition of “terminal illness” to remove the word “soon” as it pertains to when a death or state of permanent unconsciousness will occur; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2181, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2181, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2582 Ways and Means on S.B. No. 2317

The purpose and intent of this measure is to improve the State’s knowledge of risk factors for child and maternal deaths.

Specifically, the measure:

- (1) Requires the Director of Health to submit annual reports to the Legislature on child death and maternal death reviews;
- (2) Requires medical facilities to provide information relating to maternal and perinatal deaths to the Department of Health, Hawaii Medical Association, or in-hospital staff committees, and to immunize them from liability for providing the information; and
- (3) Appropriates funds for the Department of Health to conduct child death reviews and to implement a program for the performance of maternal death reviews.

Your Committee received written comments in support of this measure from the Department of Human Services, the Department of Health, the American Congress of Obstetricians and Gynecologists, March of Dimes, The Kapiolani Child Protection Center, Hawaii Pacific Health, Kapiolani Medical Center, Planned Parenthood Votes Northwest and Hawaii, Healthy Mothers Healthy Babies, Hawaii State Commission on the Status of Women, and two individuals.

Your Committee finds that as a vital public health component in the State, comprehensive multidisciplinary child death and maternal death reviews are needed to improve systems of care and prevent child and maternal deaths.

Your Committee notes that, as received by your Committee, the measure appropriates \$150,000 to the Department of Health to conduct child death reviews and to implement a maternal death review program. To ensure sufficient funding in subsequent years, your Committee requests that the department identify the annual recurring costs of the child and maternal death review programs.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2317, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2317, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2583 Ways and Means on S.B. No. 2076

The purpose and intent of this measure is to establish a licensing program for persons who sell, dispense, or deliver durable medical equipment to, or service that equipment for, consumers in the State.

Your Committee received written comments in support of this measure from The Queen’s Health Systems, Hawaii Medical Service Association, Hawaii Pacific Health, Healthcare Association of Hawaii, and Hawaii Primary Care Association.

Your Committee finds that in 2013, the United States government established the durable medical equipment competitive bidding program, which sought to lower medical equipment costs for Medicare recipients on the island of Oahu and other metropolitan areas. However, the program has caused significant problems for Oahu patients, including delays in discharge due to extended waiting times

for equipment shipped from the mainland and problems contacting mainland durable medical equipment suppliers. Your Committee also finds that establishing a licensing program will help to ensure that patients receive a minimum level of access to durable medical devices without increasing the costs or reducing availability of durable medical devices.

Your Committee has amended this measure by:

- (1) Clarifying the definition of durable medical equipment supplier; and
- (2) Changing the effective date to January 21, 2017, to provide the Department of Health with time to implement the durable medical equipment supplier license program.

Your Committee requests that the next committee to hear this measure consider providing additional time to the Department of Health to implement the program established by this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2076, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2076, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Slom). Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2584 Ways and Means on S.B. No. 2687

The purpose and intent of this measure is to establish a colorectal cancer screening and awareness program within the Department of Health.

This measure also appropriates \$100,000 in general funds to establish the colorectal cancer screening and awareness program.

Your Committee received written comments in support of this measure from the University of Hawaii Cancer Center, American Cancer Society Cancer Action Network, The Queen's Health Systems, and three individuals.

Your Committee finds that colorectal cancer is the second leading cause of cancer deaths in the United States, killing nearly sixty thousand people each year. Regular colorectal cancer screening in those over the age of fifty can reduce these deaths by more than forty percent, which could save one hundred lives in Hawaii annually. Your Committee also finds that Hawaii's colorectal cancer screening rate is in the bottom half of all states and lower than the national average. The establishment of a colorectal cancer screening and awareness program that educates the public about the risks associated with colorectal cancer and the benefits of colorectal cancer screening can help reduce the State's colorectal cancer mortality rate, thus improving the overall well-being of the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$100,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2687, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2687, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2585 Ways and Means on S.B. No. 2240

The purpose and intent of this measure is to appropriate moneys for the Department of Health to reestablish a Vector Control Branch and hire more full-time employees for vector control.

Your Committee received written comments in support of this measure from the Department of Health, State of Hawaii Department of Defense, Hawaii Emergency Management Agency, Kohala Coast Resort Association, and Hawaii Farm Bureau.

Your Committee finds that, in 2009, cost-cutting measures eliminated the Department of Health's Vector Control Branch and various positions that were responsible for controlling disease vectors such as mosquitoes and rats. Your Committee further finds that the current outbreak of dengue fever on the Island of Hawaii necessitates an appropriation to the Department of Health to reestablish the Vector Control Branch and hire vector control employees to combat this threat.

In its testimony, the Department of Health has indicated that reestablishing the Department of Health Vector Control Branch would require the hiring of thirty-four full-time employees at a cost of \$2,600,000. Your Committee will consider appropriating funds for these purposes in the state budget. However, your Committee notes that the hiring of thirty-four full-time employees at one time may prove problematic. Accordingly, your Committee recommends that the Department of Health consider a more realistic implementation plan that establishes employee positions within the Vector Control Branch in phases.

Your Committee has amended this measure by providing for the hiring of an unspecified number of full-time equivalent vector control positions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2240, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2240, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2586 Ways and Means on S.B. No. 2853

The purpose and intent of this measure is to adopt the National Association of Insurance Commissioners' model language related to insurer solvency, risk management, and risk retention in order to maintain the State's accreditation.

More specifically, this measure:

- (1) Adopts the National Association of Insurance Commissioners' Risk Management and Own Risk and Solvency Assessment Model Act;
- (2) Applies supplemental provisions, rules, and exceptions for risk-based capital, and related provisions regarding severability and notices of regulatory action, to risk retention captive insurance companies; and
- (3) Adopts the National Association of Insurance Commissioners' Model Risk Retention Act.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs' Insurance Division, Office of Information Practices, American Council of Life Insurers, and the National Association of Mutual Insurance Companies.

Your Committee finds that the National Association of Insurance Commissioners requires that all states adopt its Risk Management and Own Risk and Solvency Assessment Model Act by January 1, 2018, to maintain accreditation. The National Association of Insurance Commissioners also requires Hawaii to amend Hawaii insurance law related to risk retention captive insurance companies and to adopt the Association's Model Risk Retention Act to maintain accreditation. Your Committee therefore finds that this measure is necessary to enable the Department of Commerce and Consumer Affairs to maintain its accreditation with the National Association of Insurance Commissioners.

Your Committee has amended this measure by:

- (1) In the new section 431: -108(c)(1)(B) and (c)(2) added by this measure, specifying that the term "supervisory college" is "referred to" rather than "defined" in section 431:11-107.5, Hawaii Revised Statutes; and
- (2) Clarifying the definition of "material service provider" in the new subsection (d) of section 431K-2, Hawaii Revised Statutes, by conforming separate references to the same fees threshold specified for defense counsel and other qualifying material service providers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2853, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2853, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Riviere, Taniguchi, Wakai).

SCRep. 2587 Ways and Means on S.B. No. 2854

The purpose and intent of this measure is to make various amendments throughout the Insurance Code to improve clarity and efficiency.

Specifically, the measure amends various provisions in the Insurance Code relating to:

- (1) Property insurance;
- (2) Market conduct;
- (3) Insurance premium taxes;
- (4) Insurance contracts;
- (5) Accident and health insurance;
- (6) Unfair methods of competition;
- (7) Captive insurance companies;
- (8) Mental health and alcohol and drug abuse treatment insurance benefits;
- (9) Hawaii hurricane relief fund;
- (10) Prescription drug benefits;
- (11) Mutual benefit societies; and
- (12) Health maintenance organizations.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, Insurance Division.

Your Committee received written comments on this measure from the Property Casualty Insurers Association of America and the Tax Foundation of Hawaii.

Your Committee finds that this administration measure will update and improve the Insurance Code in a number of different areas.

Your Committee has amended this measure by changing the effective date of most of the measure to July 1, 2050, and the effective date of sections 3 and 4 to January 1, 2051, in order to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2854, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2854, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2588 Ways and Means on S.B. No. 2392

The purpose and intent of this measure is to promote the responsible use of opioid antagonists to treat drug overdoses.

Specifically, the measure:

- (1) Creates immunity for health care professionals and pharmacists who prescribe, dispense, or administer an opioid antagonist such as naloxone hydrochloride during an opioid-related drug overdose;
- (2) Creates immunity for emergency personnel, first responders, and other individuals who possess, furnish, or administer an opioid antagonist during an opioid-related drug overdose;
- (3) Authorizes emergency personnel to administer opioid antagonists;
- (4) Requires Medicaid coverage for opioid antagonists;
- (5) Exempts harm reduction organizations from pharmacy licensure and permitting requirements for opioid antagonists; and
- (6) Requires the Department of Health to provide education and training related to drug overdose recognition, prevention, and response, including opioid antagonist administration.

Your Committee received written comments in support of this measure from the Department of Health, Injury Prevention Advisory Committee, CHOW Project, Hawaii Substance Abuse Coalition, Ku Aloha Ola Mau, Salvation Army Addiction Treatment Services and Family Treatment Services, Drug Policy Forum of Hawaii, and eleven individuals. Your Committee received written comments on this measure from the Department of Human Services, Board of Pharmacy, Board of Nursing, and Hawaii Association for Justice.

Your Committee finds that this measure promotes the public health, safety, and welfare by shielding certain persons from criminal punishment, civil liability, and professional discipline when they administer or distribute opioid antagonists to persons who are suffering from opioid-related drug overdoses.

Your Committee has amended this measure by clarifying that the definition of “health care professional” includes advanced practice registered nurses with prescriptive authority.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2392, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2392, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2589 Ways and Means on S.B. No. 2668

The purpose and intent of this measure is to limit a patient’s out-of-pocket medical costs when services are not covered by the patient’s health plan or are provided by a nonparticipating provider.

Specifically, the measure:

- (1) Requires providers to make certain disclosures to patients about nonemergency services that are not authorized under the patient’s health care plan, prior to providing the services;
- (2) Requires nonparticipating providers to make certain cost disclosures to patients about nonemergency services, prior to providing the services;
- (3) Places a cap on the amount that a nonparticipating provider may charge a patient for services performed without the approval of the patient’s health care plan;
- (4) Protects a patient from being liable to a participating provider for any sums that the patient’s insurer fails to pay; and
- (5) Limits a patient’s out-of-pocket costs for emergency services that are performed by a nonparticipating provider to the out-of-pocket costs that would have been incurred if the services were performed by a participating provider.

Your Committee received written comments in support of this measure from the Hawaii Medical Service Association.

Your Committee received written comments on this measure from the Healthcare Association of Hawaii and Hawaii Pacific Health.

Your Committee finds that balance or “surprise” billings are generally minimized when medical services are covered under a patient’s health care plan and provided by a participating provider. This measure will serve to further promote transparency in the healthcare system by minimizing opportunities for balance billings when medical services are not covered under a patient’s health plan or are not provided by a participating provider.

Your Committee has amended this measure by:

- (1) Clarifying that nonparticipating health care providers, health care facilities, and hospitals must all give prior notice to patients or prospective patients of the amount or estimated amount of a bill for non-emergency health care services; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2668, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2668, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2590 Water, Land, and Agriculture on S.B. No. 2946

The purpose and intent of this measure is to authorize indigenous Hawaiian architecture on agricultural lands to be used for farm worker housing.

Your Committee received testimony in support of this measure from Ho‘omana Pono, LLC; and six individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture and City and County of Honolulu Department of Planning and Permitting.

Your Committee finds that indigenous Hawaiian architecture is significant to Hawaiian history and culture. Your Committee finds that utilizing indigenous native Hawaiian architecture for housing will help to preserve the Hawaiian culture and provide communities with low-cost housing alternatives using available local resources. However, your Committee notes the concerns of the Department of Agriculture regarding the safety, potential for abuse, and unintended consequences of this measure and believes this measure should, at this time, apply only to Hawaiian home lands with the intent to ensure that indigenous native Hawaiian architecture be permitted for agricultural purposes, including farmer housing.

Your Committee has therefore amended this measure by:

- (1) Deleting language that would have required each county to adopt ordinances to allow indigenous native Hawaiian architectural practices, styles, customs, techniques, and materials in the county’s building code on land that is used for farming operations as defined in section 165-2, Hawaii Revised Statutes;
- (2) Deleting language that would have allowed in agricultural districts indigenous Hawaiian architecture to be constructed and used to support agricultural activities or indigenous Hawaiian architecture used for farm worker housing;
- (3) Inserting language to require the Department of Hawaiian Home Lands to adopt rules to allow for indigenous native Hawaiian architectural practices on subsistence agricultural lots to be used for agricultural purposes, including for use as farmer housing;
- (4) Amending section 1 to reflect the amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2946, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2946, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Dela Cruz, Ruderman, Wakai, Slom).

SCRep. 2591 (Majority) Ways and Means on S.B. No. 2323

The purpose and intent of this measure is to ensure that insurance policies issued in the State cover testing for sexually transmitted diseases.

Your Committee received written comments in support of this measure from Planned Parenthood Votes Northwest and Hawaii and Hawaii Medical Service Association. The Department of Commerce and Consumer Affairs and the Hawaii Employer-Union Health Benefits Trust Fund submitted written comments on the measure.

Your Committee finds that testing for sexually transmitted diseases often results in the early detection and treatment of a disease. The early detection of sexually transmitted diseases, such as the human immunodeficiency virus, is paramount to proper health care as it can reduce mortality rates and the spread of sexually transmitted diseases. However, testing rates for sexually transmitted diseases are troublingly low. One of the obstacles to testing for sexually transmitted diseases is the cost. Your Committee believes that requiring insurance providers to cover testing for sexually transmitted diseases will increase early detection and prompt treatment for a larger number of individuals, which will result in a healthier populace.

Your Committee notes that, if this measure does not pass during this legislative session, a resolution will be introduced to request the Auditor to assess the social and financial aspects of requiring insurance providers to cover testing for sexually transmitted diseases.

Your Committee has amended this measure by:

- (1) Inserting language that exempts the measure from section 23-51, Hawaii Revised Statutes; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2323, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2323, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, 1 (Slom). Excused, 2 (English, Harimoto).

SCRep. 2592 Ways and Means on S.B. No. 2928

The purpose and intent of this measure is to strengthen enforcement of general excise tax collection laws.

More specifically, this measure:

- (1) Requires the Department of Taxation to develop an online form, to be filled out by each special event operator, regarding sellers engaging in business at the operator's special events;
- (2) Requires each special event operator to submit the completed form to the Department of Taxation whenever the operator files the operator's periodic general excise tax returns with the department; and
- (3) Authorizes the Department of Taxation to issue citations that include fines to special event operators that fail to comply with the reporting requirements.

Your Committee received written comments in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that special events represent a special challenge to tax law enforcement, since such events often involve primarily cash-based businesses that may or may not be properly licensed. Your Committee recognizes that the Department of Taxation cannot have representatives present at all special events taking place within the State. Your Committee believes that the periodic information required by this measure will help the Department of Taxation identify businesses not currently in compliance with their general excise tax obligations and bring those businesses into compliance.

Your Committee has amended this measure by changing its effective date to January 1, 2017, to give special event operators notice of the measure's requirements before the requirements take effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2928, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2928, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2593 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 3011

The purpose and intent of this measure is to make an appropriation to the High Technology Development Corporation for the provision of technology internship grants and development of programs to support the local talent pipeline for the technology industry.

Your Committees received testimony in support of this measure from the High Technology Development Corporation.

Your Committees find the High Technology Development Corporation is a key agency in developing the technology industry in the State. Internships have proven to be an effective way to introduce talent to careers in the technology industry and provide startup companies with resources to help them grow to the next level. This measure will help to support local talent and the High Technology Development Corporation's goal of creating eighty thousand new technology and innovation jobs earning more than \$80,000 per year by 2030.

Your Committees have amended this measure by:

- (1) Adopting language suggested by the High Technology Development Corporation to clarify that the appropriation is to fund technology internships, rather than internship grants, and that the cap of \$1,250 per year applies to the amount each intern may receive, rather than the amount of each grant per intern;
- (2) Deleting the specific appropriation amount to the High Technology Development Corporation;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

However, your Committees note that the High Technology Development Corporation will need an appropriation of \$125,000 to provide technology internship grants.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3011, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3011, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.
Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2594 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2149

The purpose and intent of this measure is to establish a working group to review and discuss the State's forfeiture laws and make recommendations to improve those laws to better fit their intended purpose.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney for the City and County of Honolulu, Department of the Prosecuting Attorney for the County of Maui, Office of

the Prosecuting Attorney for the County of Hawaii, and Office of the Prosecuting Attorney for the County of Kauai. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Drug Policy Forum of Hawai'i.

Your Committees find that the intent of asset forfeiture laws is to remove the products or proceeds of crime from the community, while also depriving the owners of those products or proceeds if the owners knew that the property was connected to criminal activity. News stories concerning asset forfeiture abuse have recently brought this issue to the attention of the public. Implementation of this measure will allow a working group, representing a broad spectrum of parties who are experienced in or impacted by asset forfeiture or asset forfeiture laws, to examine the State's asset forfeiture laws and make recommendations on how those laws could better suit their intended purpose.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2149, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2149, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2595 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2355

The purpose and intent of this measure is to:

- (1) Define "substantial commencement" as that term is used in section 205-4(g), Hawaii Revised Statutes;
- (2) Authorize the Land Use Commission to amend, modify, or vacate boundary amendment approvals, special permit approvals, and conditions of direct state concern granted pursuant to section 205-4, Hawaii Revised Statutes, by the motion of the Commission or of any interested party;
- (3) Require conditions of direct state concern relating to boundary amendments and special permits to include but not be limited to conditions that relate to or require the installation of state infrastructure, promote or protect specific state policies, and relate to the public trust doctrine; and
- (4) Authorize the Land Use Commission to fine parties who fail to comply with conditions of direct state concern after they have been notified of violations of the conditions.

Your Committees received testimony in support of this measure from the Office of Planning, Land Use Commission, Conservation Council for Hawai'i, and three individuals. Your Committees received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii and Building Industry Association of Hawaii. Your Committees received comments on this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that the only remedy currently available to the Land Use Commission when a petitioner fails to perform according to the conditions and requirements of a land use district boundary amendment is to grant an order to show cause pursuant to section 15-15-93, Hawaii Administrative Rules, and potential reversion to the original land use classification or change to a more appropriate classification; however, these remedies are not always effective or practical. Your Committees find that additional tools are necessary for the Land Use Commission to enforce conditions and requirements of land use district boundary amendments and special permits in a manner that ensures that the interests of the State, counties, and public are protected.

Your Committees have amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2355, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2355, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2596 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2232

The purpose and intent of this measure is to:

- (1) Create and appropriate funds for the Erin's Law task force to guide the establishment of a program to educate public school students on sexual abuse prevention through the use of age appropriate curricula; and
- (2) Provide relevant training to school teachers and staff, and inform parents about important child sexual abuse topics.

Your Committees received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Hawaii State Commission on the Status of Women, State Public Charter School Commission, Hawaii Women's Coalition, American Association of University Women of Hawaii, Hawaii Youth Services Network, Parents and Children Together, Planned Parenthood Votes Northwest and Hawaii, The Sex Abuse Treatment Center, and Hawaii Children's Action Network.

Your Committees find sexual abuse is a serious and ongoing threat to the safety, health, and wellbeing of children and young people in the State of Hawaii. Sexual abuse is often a difficult subject to discuss, and many school teachers and staff do not receive sufficient training on talking to students about child sexual abuse prevention or how to handle disclosures of sexual abuse. As a result, there is no age appropriate curriculum to educate students on how to prevent sexual abuse or the importance of reporting it. This measure provides an additional tool in preventing child sexual abuse.

Your Committees note that the Department of Education estimates that \$50,000 is necessary to operate the Erin's law task force.

Your Committees have amended this measure by:

- (1) Adding the Director of the Executive Office on Early Learning, or the director's designee, as a member of the Erin's law task force;
- (2) Clarifying references to legislative committees as committees with primary jurisdiction over a specified subject matter, to which the Erin's law task force is required to submit its report and to whom the Department of Education must provide notice in the event that it is unable to implement the recommendations of the task force;
- (3) Inserting an effective date of January 7, 2019, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2232, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2232, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2597 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2366

The purpose and intent of this measure is to require certain law enforcement agencies and departments to compile information on untested sexual assault collection kits and transmit that information to the Department of the Attorney General.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Department of the Prosecuting Attorney, County of Maui; Police Department, City and County of Honolulu; Hawaii State Commission on the Status of Women; Hawaii Women's Coalition; Planned Parenthood Votes Northwest and Hawaii; Hawai'i State Democratic Women's Caucus; American Association of University Women; Sex Abuse Treatment Center; and Parents and Children Together.

Your Committees find that there exists a nationwide problem of sexual assault collection kits going untested. Thorough, timely, and accurate testing of sexual assault collection kits is vital to successful apprehension and conviction of offenders. An accurate status of untested sexual assault collection kits in the State will ensure that the Attorney General is aware of the number of untested kits in the possession of law enforcement agencies and departments.

Your Committees have heard the testimony of the Department of the Prosecuting Attorney, City and County of Honolulu, expressing concerns regarding the type of information that this measure requires to be collected and transmitted to the Department of the Attorney General. Your Committees find that this issue raises concerns that merit further consideration as this measure moves through the legislative process.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2366, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2366, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2598 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2372

The purpose and intent of this measure is to:

- (1) Require the counties to accept the surrender of a highway, road, alley, street, way, lane, bikeway, bridge, or trail if there has been an absence of any act of private ownership over the highway, road, alley, street, way, lane, bikeway, bridge, or trail for five years;
- (2) Deem a highway, road, alley, street, way, lane, bikeway, bridge, or trail that has been commonly used by residents of a particular area for emergency access purposes or for health and safety reasons to be publicly accessible for those reasons, without regard to actual ownership or responsibility for maintenance;
- (3) Exempt the State and counties from performing any construction, reconstruction, preservation, resurfacing, restoration, or rehabilitation on a surrendered highway, road, alley, street, way, lane, bikeway, bridge, or trail;
- (4) Exempt the State and counties from liability arising from use of a surrendered highway, road, alley, street, way, lane, bikeway, bridge, or trail for a period of two years following the performance of construction, reconstruction, preservation, resurfacing, restoration, or rehabilitation; and

- (5) Exempt the State and counties from liability due to the negligent acts or omissions of others that the State or county did not already benefit from before the surrender of the highway, road, alley, street, way, lane, bikeway, bridge, or trail, solely by reason of the surrender.

Your Committees received testimony in support of this measure from the Hawai'i Association of REALTORS and Bank of Hawaii. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources; Department of the Attorney General; Department of Facility Maintenance, City and County of Honolulu; Department of Public Works, County of Hawaii; Office of the Mayor, County of Maui; and Hawaii Association for Justice.

Your Committees find that there are numerous roads throughout the State that are privately owned or whose ownership has been called into question. In many cases, these private roads are remnants of a road, or a small portion of a larger public road, whose ownership is disputed for various reasons. This has resulted in questions regarding who is responsible for the repair and maintenance of these roads, many of which are regularly used for vehicular traffic. Your Committees further find that since these private roads are not owned by a governmental entity, or their ownership is being disputed, they often do not receive proper repair and maintenance.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2016; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2372, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2372, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2599 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2659

The purpose and intent of this measure is to:

- (1) Establish an industrial hemp pilot program to allow the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by the Board of Agriculture for purposes of agricultural or academic research;
- (2) Exempt the possession, cultivation, sale, receipt, or transfer of industrial hemp for the purposes of agricultural or academic research from constituting an offense under part IV of chapter 712, Hawaii Revised Statutes; and
- (3) Appropriate funds for Department of Agriculture staff to assist in registration of industrial hemp licensees.

Your Committees received testimony in support of this measure from the Department of Agriculture; Aha Moku Advisory Committee; Drug Policy Forum of Hawaii; Hawai'i Center for Food Safety; Hawaii Farm Bureau; Hawaii Farmers Union United; Maui Coffee Association; Maui Venture Consulting, LLC; International Longshore and Warehouse Union, Local 142; and sixty-seven individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that industrial hemp is well suited to Hawaii's climate and soil and can grow to over ten feet in a short period of time with little water and no pesticides. According to estimates by the Hemp Industries Association, retail sales of industrial hemp products grew to over \$620,000,000 annually in 2014. Industrial hemp has over 25,000 uses, including food, fiber, and fuel products, and has high potential to contribute to the future viability of the State's agricultural industry. This measure will allow Hawaii to acquire a potentially lucrative and sustainable economic driver in addition to tourism.

Your Committees have amended this measure by:

- (1) Deleting the appropriation amount to the Department of Agriculture for the hiring of staff;
- (2) Inserting a sunset date of July 1, 2021;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2659, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2659, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2600 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2815

The purpose and intent of this measure is to:

- (1) Clarify that the State is exclusively liable for claims for injury or loss of property, or personal injury or death, resulting from the negligent or wrongful act or omission of any professionally licensed or certified employee of the State while acting within the scope of the employee's office or employment;
- (2) Establish that any civil action or proceeding for money damages arising out of or related to the same subject matter against the employee is precluded; and

- (3) Authorize the State to notify all parties in a tort action or proceeding that names an employee in an individual capacity that the State is invoking exclusive liability and the action or proceeding will proceed thereafter against the State alone.

Your Committees received testimony in support of this measure from the Department of Taxation; Department of Accounting and General Services; Department of Public Safety; Department of the Attorney General; and Department of Human Resources, City and County of Honolulu. Your Committees received comments on this measure from the Hawaii Association for Justice.

Your Committees find that state employees are generally afforded qualified immunity for torts as a result of actions taken while in the course and scope of their state employment, which affords these employees protection from individual liability. However, in the recent case of Slingsluff v. State, 317 P.3d 683 (Haw. Ct. App. 2013), the Intermediate Court of Appeals held that prison physicians were not entitled to qualified immunity for the exercise of their professional medical judgment. According to testimony received by your Committees, the Slingsluff court created a distinction between medical judgment and governmental judgment, effectively nullifying qualified immunity for the same types of government officials to whom Hawaii's appellate courts have long granted immunity. Your Committees further find that the potential for personal liability can have a negative impact on hiring and retention of well-qualified professionals who are interested in working for the State.

Your Committees note the concerns raised regarding the scope of the term "wrongful act or omission" as used in this measure and the resulting exposure to the State. Your Committees will seek an opinion from the Attorney General to interpret this term and opine on any possible ramifications.

Your Committees have amended this measure by:

- (1) Deleting conflicting language to clarify that the State is exclusively liable;
- (2) Adding a savings clause; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2815, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2815, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7; Ayes with Reservations (Thielen). Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2601 (Joint/Majority) Judiciary and Labor and Ways and Means on S.B. No. 2894

The purpose and intent of this measure is to:

- (1) Authorize the Department of Human Services to develop and administer outreach as required by the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act);
- (2) Create the Hawaii health insurance programs within the Department of Labor and Industrial Relations, which will conform state law to the Affordable Care Act and enable the State to:
 - (A) Preserve the benefits of the Prepaid Health Care Act;
 - (B) Ensure a smooth transition to a state-based marketplace using the federal platform for individuals and families; and
 - (C) Develop a system to allow small businesses to continue to take advantage of Affordable Care Act tax credits; and
- (3) Appropriate funds to the Department of Labor and Industrial Relations and Department of Human Services.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Labor and Industrial Relations, and Department of Human Services.

Your Committees find that Hawaii's state-based health insurance exchange, the private nonprofit Hawaii Health Connector, ceased operations on December 4, 2015. The State has since enlisted the assistance of six state departments to comply with federal requirements and ensure a smooth transition for enrollees from the state-based exchange to a state-based marketplace that utilizes the federal platform.

Your Committees further find that outreach and consumer assistance for health insurance, including Medicaid, continue to be needed during the transition. Also, during the transition, the Department of Labor and Industrial Relations is responsible for overseeing employers who have the option of providing health plans to their employees through Hawaii's Prepaid Health Care Act or the federal exchange, and managing the federal Affordable Care Act grant. The Department of Labor and Industrial Relations has requested transfer of the federal grant to the Department but has been informed that the State will be unable to receive federal grant monies until a new state exchange is named. This measure establishes a new state health insurance exchange in the Department of Labor and Industrial Relations and authorizes the Department to operate a small business health options program under federal requirements.

Your Committees have amended this measure by:

- (1) Clarifying that the chairs of the legislative standing committees named to the Affordable Care Act legislative oversight committee are committees having primary jurisdiction over a specified subject matter;
- (2) Inserting an effective date of January 7, 2019, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2894, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2894, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 6; Ayes with Reservations (Kim). Noes, 1 (Slom). Excused, none.

Ways and Means: Ayes, 9. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2602 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2888

The purpose and intent of this measure is to:

- (1) Amend section 704-404, Hawaii Revised Statutes (HRS), to bifurcate the examination for penal responsibility from the examination for fitness to proceed and establish procedures for the determination of a defendant's penal responsibility and fitness to proceed;
- (2) Establish procedures for the determination of a defendant's regained fitness to proceed pursuant to section 704-406, HRS; and
- (3) Make conforming amendments to reflect the amendments made to section 704-404, HRS.

Your Committees received testimony in support of this measure from the Department of Health. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu. Your Committees received comments on this measure from the Hawaii Disability Rights Center and two individuals.

Your Committees find that under section 704-404, HRS, when a defendant's fitness to proceed comes into question, the criminal proceedings are stopped, and the court must order a physical or mental examination of the defendant to determine the defendant's fitness to proceed and whether the defendant possesses the penal responsibility for the alleged crime. During this period of time, a pretrial defendant, who may have a serious mental disease or defect, may be held in state custody for more than thirty days awaiting the evaluation due to the complexity of conducting an evaluation that examines fitness to proceed and penal responsibility. Your Committees further find that it is in the best interest of the defendants for the examination process to proceed in a timely, expedient manner by separating the fitness to stand trial and the penal responsibility components of examinations and codifying procedures for appointing examiners for reevaluation of fitness.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that a court is required to order the examination for penal responsibility no later than thirty days after a finding of a defendant's fitness to proceed, if the examinations are separate;
- (2) Clarifying that only the relevant records of a defendant shall be made available to examiners and no further disclosure of these records shall be made except as permitted by law;
- (3) Adopting the language suggested by the Department of Health that clarifies that a defendant may be released on conditions if the court is satisfied that the defendant may be released on conditions without danger to the defendant or another or risk of substantial danger to property, rather than without risk of danger to the defendant or the person or property of others;
- (4) To address the concerns raised by the Department of the Prosecuting Attorney of the City and County of Honolulu, adding a felony for which charging by written permission is not permitted by section 806-83, HRS, to the list of offenses with which a defendant must be charged in order for the three-panel examination to determine whether the defendant has regained fitness to proceed pursuant to procedures proposed by this measure to apply;
- (5) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2888, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2888, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2603 (Joint/Majority) Judiciary and Labor and Ways and Means on S.B. No. 2898

The purpose and intent of this measure is to make emergency appropriations for fiscal year 2015-2016 for the Department of Labor and Industrial Relations and Department of Human Services to cover the short-term costs required to comply with the federal Patient Protection and Affordable Care Act of 2010.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Labor and Industrial Relations, Office of Enterprise Technology Services, and Hawaii Primary Care Association.

Your Committees find that the Department of Labor and Industrial Relations and the Department of Human Services used fiscal year 2015-2016 operating funds to cover expenses for the maintenance of the Medicaid eligibility application of the Department of Human Services enterprise system and for the transition of the functions of the Hawaii Health Connector to the State to enable Hawaii to be compliant with the Patient Protection and Affordable Care Act of 2010. The Departments need to be reimbursed for the funds used to be able to perform their mandated responsibilities and functions during fiscal year 2015-2016 and to continue to make health care payments for Medicaid recipients.

Your Committees have amended this measure by:

- (1) Deleting section 2; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2898, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2898, S.D. 1.

Signed by the Chairs on behalf of the Committees.
 Judiciary and Labor: Ayes, 6. Noes, 1 (Slom). Excused, none.
 Ways and Means: Ayes, 9. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2604 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2914

The purpose and intent of this measure is to adjust the petition process for court orders to provide medical treatment to:

- (1) Allow a declaration to be filed as an alternative to an affidavit;
- (2) Expand the court's ability to continue the hearing on the petition for good cause;
- (3) Give the court more flexibility in deciding when a guardian ad litem is necessary;
- (4) Relax the time requirement for filing a court order for medical treatment;
- (5) Redefine the persons who must be notified of the petition;
- (6) Clarify the effective expiration date of the order; and
- (7) Provide the ability for the Department of Public Safety to seek an extension of an order to treat if necessary.

Your Committees received testimony in support of this measure from the Department of Public Safety.

Your Committees find that existing statutes provide a procedure for involuntary medical treatment for inmates in the custody of the Department of Public Safety when the inmate poses a danger of harm to self or others. These procedures place unnecessary and arbitrary restrictions on doctors and correctional facility staff that reduce efficiency and generate avoidable risk. This measure proposes amendments to clarify issues to improve the operational efficiency of the petition process.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2914, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2914, S.D. 1.

Signed by the Chairs on behalf of the Committees.
 Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.
 Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2605 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2915

The purpose and intent of this measure is to update the Uniform Controlled Substances Act for consistency with amendments in federal controlled substances law.

Your Committees received testimony in support of this measure from the Department of Public Safety, Injury Prevention Advisory Committee, and one individual.

Your Committees find that drug scheduling in Hawaii is generally kept in accordance with federal standards. Federal standards change as new chemical compounds are developed and cataloged by law enforcement. Additionally, Hawaii has unique needs stemming from state initiatives and programs such as the electronic prescription accountability system and the medical marijuana program. This measure allows the State's drug scheduling laws to be up to date with the developments at the federal and state levels.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2915, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2915, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.
 Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2606 Ways and Means on S.B. No. 2249

The purpose and intent of this measure is to address the shortage of space in the Wailuku state office building and old courthouse building on the island of Maui.

More specifically, this measure:

- (1) Requires the Department of Accounting and General Services to develop a comprehensive Wailuku state office master plan to address the shortage of space in the Wailuku state office building and the old courthouse building;
- (2) Makes an appropriation for the Department of Accounting and General Services to develop the master plan; and
- (3) Makes an appropriation for the purpose of purchasing certain properties in or near Wailuku.

Your Committee received written testimony in support of this measure from the Department of Accounting and General Services, County of Maui Office of the Mayor, County of Maui Department of Management, Maui Redevelopment Agency, Wailuku Community Association, Kamaaina Loan and Cash for Gold, and four individuals.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that there is a shortage of office space in the Wailuku state office building and old courthouse building. Your Committee further finds that developing a master plan to analyze the existing uses of the facilities and office space, identify issues or problems due to the lack of space, and identify and evaluate all adjacent land and buildings for a determination of whether the land or buildings could reduce the shortage is the first step to address this issue.

Your Committee has amended this measure by changing the:

- (1) Appropriation amounts to unspecified sums; and
- (2) Effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2249, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2249, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, English, Galuteria, Harimoto, Taniguchi).

SCRep. 2607 Ways and Means on S.B. No. 2501

The purpose and intent of this measure is to require public agencies to consider the past performance of contractors before awarding contracts.

Specifically, this measure:

- (1) Requires public agencies to consider a contractor's previous work on similar projects before awarding a contract;
- (2) Requires each public agency that issues a request for proposals to evaluate a contractor's performance upon completion of a procurement contract and to maintain those evaluations in the public agency's files; and
- (3) Appropriates funds to the State Procurement Office to implement this measure.

Your Committee received written comments in support of this measure from the State Procurement Office and the Department of Transportation.

Your Committee received written comments in opposition to this measure from the City and County of Honolulu Department of Budget and Fiscal Services, the Subcontractors Association of Hawaii, and one individual.

The General Contractors Association of Hawaii and the City and County of Honolulu Department of Design and Construction submitted comments on this measure.

Your Committee finds that while the state procurement code presently authorizes procurement officers to consider a potential awardee's past performance, many procurement officers do not adequately weigh the historical performances of bidders and award contracts only based upon the lowest bid. Your Committee believes that this measure will provide better guidance to procurement officers when considering the performance history of bidders. Your Committee notes that the measure provides for an appropriation of \$500,000 for the State Procurement Office to implement the measure's requirements.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2501, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2501, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, English, Galuteria, Harimoto, Taniguchi).

SCRep. 2608 Commerce, Consumer Protection, and Health on S.B. No. 2685

The purpose and intent of this measure is to allow proof of motor vehicle insurance to be displayed in authenticated electronic format on a mobile electronic device.

Your Committee received testimony in support of this measure from GEICO, Hawaii Insurers Council, State Farm Mutual Automobile Insurance Company, USAA, National Association of Mutual Insurance Companies, Property Casualty Insurers Association

of America, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that more states are recognizing the widespread use of mobile technology and updating motor vehicle insurance laws accordingly. According to testimony received by your Committee, more than forty states now permit drivers to use an electronic copy of their insurance card as valid proof of insurance. The acceptance of this technology has grown rapidly since March 2012, when Idaho became the first state in the country to accept electronic motor vehicle insurance cards.

Your Committee further finds that customers increasingly use mobile electronic devices to keep track of and maintain important personal information. Accordingly, this measure authorizes owners and drivers of motor vehicles in Hawaii to display proof of motor vehicle insurance in authenticated electronic format on a mobile electronic device and offers the option of electronic cards to be used as proof of motor vehicle insurance in the same situations where paper cards are currently accepted.

Your Committee has heard the concerns that this measure requires the electronic proof of motor vehicle insurance to be "authenticated", but does not otherwise define this term. After discussions with the Insurance Division of the Department of Commerce and Consumer Affairs, your Committee concludes that, rather than determine how electronic proof of motor vehicle insurance could be authenticated, a more straightforward solution is to amend existing law relating to verification of motor vehicle insurance and permit insurers to issue paper or electronic insurance identification cards that can be used as proof of insurance. Your Committee notes that the relevant statutes relating to verification of insurance already specify what must be included in a motor vehicle insurance identification card. Amending these sections to include electronic insurance identification cards will ensure that all information that must be included in paper insurance identification cards, such as the name of the insured, policy number, and effective dates of coverage, must be included in electronic insurance identification cards as well.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that every insurer shall issue to its insureds a paper or electronic motor vehicle insurance card for each insured motor vehicle and a paper or electronic proof of insurance card for each insured motorcycle or motor scooter;
- (2) Requiring the electronic motor vehicle insurance identification card or the electronic proof of insurance card for motorcycles and motor scooters to be accessed directly through the licensed insurer's website in current time on a mobile electronic device;
- (3) Clarifying that the proof of insurance card shall be in the insured motor vehicle or carried on the person operating the insured motorcycle or motor scooter or accessible on a mobile electronic device at all times and shall be exhibited to a law enforcement officer upon demand;
- (4) Removing references to an authenticated motor vehicle or liability insurance identification card;
- (5) Removing unnecessary language in certain sections of chapter 286, Hawaii Revised Statutes, that would have required an authenticated electronic card for purposes of state inspections or driver's application examinations, as language in this amended measure permits electronic cards to be used as proof of motor vehicle insurance in the same situations where paper cards are currently accepted, including state inspections and driver's application examinations; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2685, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Slom).

SCRep. 2609 Ways and Means on S.B. No. 2494

The purpose and intent of this measure is to improve the efficiency and transparency of government contracting.

More specifically, this measure:

- (1) Requires the State Procurement Office to establish a statewide database containing government procurement contract data;
- (2) Requires each governmental body to submit data relating to any procurement contract of the governmental body to the State Procurement Office; and
- (3) Appropriates moneys to establish the statewide database.

Your Committee received written comments on this measure from the City and County of Honolulu Department of Budget and Fiscal Services.

Your Committee finds that government procurements are inconsistently solicited and that there is a wide range of expectations pertaining to vendor proposals, both of which contribute to increased procurement processing time and decreased efficiency. Your Committee further finds that establishing a statewide database of all government procurement contracts will reduce inconsistencies for contracting practices and improve the efficiency, transparency, and accountability of government contracting.

Your Committee notes that \$100,000 is needed for the State Procurement Office to establish the statewide procurement database. Your Committee also notes that as this measure moves through the legislative process, consideration should be given to the resources and time that will be necessary for governmental bodies to comply with the requirements established in this measure.

Your Committee has amended this measure by changing the:

- (1) Appropriation amount to an unspecified sum; and

- (2) Effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2494, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, English, Galuteria, Harimoto, Taniguchi).

SCRep. 2610 Ways and Means on S.B. No. 2542

The purpose and intent of this measure is to establish a full funding policy and budgetary procedures for routine repair and maintenance of state facilities, including judiciary-owned facilities.

Specifically, this measure:

- (1) Requires annual reports to the Legislature regarding routine repair and maintenance funding needs;
- (2) Authorizes extended lapse dates for appropriations for routine repair and maintenance; and
- (3) Requires that capital improvement projects include a recommended plan for routine repair and maintenance.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and the Department of Accounting and General Services.

Your Committee received written comments on this measure from the Department of Human Resources Development.

Your Committee finds that this measure is necessary to ensure that the Legislature is provided with accurate and timely repair and maintenance costs of state-owned buildings and facilities so that it may appropriately budget for these costs.

Your Committee has amended this measure by removing language that would authorize an extended lapse date for an appropriation for routine repair and maintenance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2542, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2542, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, English, Galuteria, Harimoto, Taniguchi).

SCRep. 2611 Ways and Means on S.B. No. 2560

The purpose and intent of this measure is to address the mental health of homeless persons.

More specifically, the measure:

- (1) Requires the Department of Health to provide treatment and care for homeless individuals with serious and persistent mental health challenges that prevent them from obtaining housing and residing successfully in the community; and
- (2) Appropriates \$1,000,000 in general funds to the Department of Health for the provision of mental health care and treatment for homeless individuals.

Your Committee received written comments in support of this measure from the Department of Health, Governor's Coordinator on Homelessness, Department of Community Services of the City and County of Honolulu, and Hawaii Substance Abuse Coalition.

Your Committee finds that many homeless individuals suffer from serious and persistent mental health challenges that prevent them from accessing and maintaining permanent housing. Reaching out to these individuals and providing them with effective mental health treatment and care will help break the cycle of homelessness for many individuals with serious and persistent mental health challenges.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$1,000,000 to an unspecified amount to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2560, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2560, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Taniguchi).

SCRep. 2612 Judiciary and Labor on S.B. No. 2163

The purpose and intent of this measure is to allow the Director of Health to give notice of water pollution and solid waste pollution violations via a posting on a searchable government website when attempts to serve written notice in person and by mail have been unsuccessful.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Planning and Permitting, City and County of Honolulu; Conservation Council for Hawai'i; Sierra Club of Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that personal service of notices of violation are not always successful and publication of notices in daily newspapers can be costly. By authorizing public notices to be posted on a searchable government website, this measure allows for such notices to be available to the public for an indeterminate time and without cost.

Your Committee has amended this measure by:

- (1) Authorizing the Director of Health to provide notice by conspicuously posting a sign on the property, if appropriate; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2163, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2163, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2613 Judiciary and Labor on S.B. No. 2408

The purpose and intent of this measure is to adopt the Uniform Partition of Heirs Property Act, which establishes procedures and remedies applicable to actions for partition of real property that is deemed heirs property.

Your Committee received comments on this measure from the Commission to Promote Uniform Legislation.

Your Committee finds that in 2010, the Uniform Law Commission promulgated the Uniform Partition of Heirs Property Act to provide a fair solution to the risks posed to those who own heirs property, which is real property held in tenancy in common that meets certain requirements. This measure adopts language that closely mirrors the Uniform Partition of Heirs Property Act, which establishes a hierarchy of remedies designed to protect a family's property holdings and real property wealth and is intended to provide cotenants with many of the protections and rights commonly found in private agreements governing the partition of tenancy in common property. Your Committee notes that the stakeholders are continuing discussion and working on the language of this measure.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2408, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2408, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2614 (Majority) Judiciary and Labor on S.B. No. 2425

The purpose and intent of this measure is to:

- (1) Exempt extracurricular service of employees from the State Ethics Code if certain conditions are met;
- (2) Define detached remuneration and extracurricular service; and
- (3) Require the review of any existing policy, procedure, or rule previously adopted by any department or other state agency for consistency and compliance with the exemption for extracurricular service of employees from the State Ethics Code.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, IMUAlliance, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, League of Women Voters of Hawaii, and one individual.

Your Committee finds that in State Ethics Commission Advisory Opinion No. 2015-1, the Commission found ethical violations in the longstanding practice of public school teachers receiving free travel and other benefits from tour companies when chaperoning students on out-of-state educational trips. The Commission determined that the dual role as teacher and tour company representative places public school teachers in a conflict of interest under the State Ethics Code and also raises concerns under the gifts law and the fair treatment law. Some believe that this Advisory Opinion may have an unintended effect of depriving students of valuable learning opportunities outside of the classroom, by making it difficult for teachers to afford activities that are largely contingent upon their participation and may be based on a subjective and overly broad application of the State Ethics Code. By specifying certain conduct that may be exempt from the State Ethics Code, this measure prevents important opportunities, such as educational trips, from being lost.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2425, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2425, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 2 (Thielen, Slom). Excused, 1 (Kim).

SCRep. 2615 Judiciary and Labor on S.B. No. 2858

The purpose and intent of this measure is to clarify that the State is not subject to a statute of limitations period for claims pursuant to chapter 480, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and Hawaii Association for Justice.

Your Committee finds that Hawaii common law has long recognized that statutes of limitations do not apply to actions initiated by the State. The Legislature codified this longstanding common law rule in 1991. Although section 480-24(b), Hawaii Revised Statutes, contains a tolling provision for claims brought by the State, the codification of the common law rule that the State is not subject to statutes of limitations made the pre-existing tolling language in this section superfluous. Your Committee further finds that the Legislature has made it clear that unless there is a specific designation in statute stating that a statute of limitations applies to actions initiated by the State, none exists. Since no specific designation appears in section 480-24(b), Hawaii Revised Statutes, the repeal of the tolling language in this section is appropriate and necessary.

Finally, your Committee notes that chapter 480, Hawaii Revised Statutes, relating to monopolies and restraints of trade, is one of the most important statutory tools given to the State to protect the people of Hawaii. This measure preserves the right of the State to seek redress for harm done and deter future bad conduct by persons who would seek to take unfair advantage of Hawaii consumers.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2858, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2858, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2616 Judiciary and Labor on S.B. No. 2934

The purpose and intent of this measure is to ensure driver license procedures are compliant with the federal REAL ID Act of 2005.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that existing law does not require that a renewed driver's license contain a photograph of the licensee. This violates the REAL ID Act, which requires "[a] digital photograph of the person", among other things. Your Committee further finds that the REAL ID Act also requires an applicant to appear in person to renew the applicant's license if sixteen years have passed since the applicant last appeared in person. Accordingly, this measure ensures that the State's driver licensing laws comply with federal laws.

Your Committee has amended this measure by:

- (1) Inserting language suggested by the Department of Transportation that amends section 286-108(c), Hawaii Revised Statutes, to clarify that the examiner of drivers may waive written or oral examinations in certain circumstances; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2934, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2934, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Slom). Noes, none. Excused, 3 (Gabbard, Kim, Thielen).

SCRep. 2617 (Majority) Judiciary and Labor on S.B. No. 2940

The purpose and intent of this measure is to:

- (1) Clarify that the State Ethics Code does not apply to University of Hawaii employees who are directly involved in the research or development of technology sponsored and approved by the University when performing technology transfer activities; and
- (2) Require the Board of Regents to submit a written status report to the Legislature every two years.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Chamber of Commerce Hawaii, Hawaii Venture Capital Association, Sultan Ventures, and XLR8UH. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii State Ethics Commission.

Your Committee finds that the timely and efficient commercialization of intellectual property created by the University of Hawaii's basic and applied research can make valuable contributions to the economic health and diversification of the State. The Board of Regents of the University of Hawaii has established a regulatory framework and compliance program to balance the unique benefits and ethical issues specific to university research and technology transfer, and that program incorporates long-standing ethical research principles and technology transfer regulations currently used by the federal government. By clarifying sections of the State Ethics Code to exempt technology transfer activities, this measure will facilitate technology transfer at the University and benefit the State's economy.

Your Committee has amended this measure by:

- (1) Addressing the concerns raised by the Department of the Attorney General, and thus adopted in part the language from S.B. No. 2940 (Regular Session of 2016), as originally introduced, to clarify that certain sections of the State Ethics Code shall not apply to technology transfers sponsored by the University of Hawaii, rather than exempting University of Hawaii employees who perform technology transfer activities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2940, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2940, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 2 (Thielen, Slom). Excused, 1 (Kim).

SCRep. 2618 Judiciary and Labor on S.B. No. 2864

The purpose and intent of this measure is to:

- (1) Permit the Hawaii Medical Board to impose the same disciplinary action against a physician licensed in Hawaii as was taken by another state or federal agency;
- (2) Establish conditions for the disciplinary action; and
- (3) Prohibit a licensee from practicing in Hawaii until a final order of discipline is issued, if the licensee has been prohibited from practicing in another state.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Hawaii Medical Board, Hawaii Medical Association, Hawaii Medical Service Association, and The Queen's Health Systems.

Your Committee finds that under existing law, the reasons for which the Hawaii Medical Board can impose reciprocal discipline on a Hawaii licensee are limited. This measure will expedite the disciplinary process when a Hawaii licensee is disciplined by another state or a federal agency. This measure will also protect Hawaii consumers during the disciplinary process by prohibiting a licensee who has been banned from practicing in another jurisdiction from practicing in Hawaii until the Hawaii Medical Board issues a final order. This protection ensures that Hawaii patients will not be at risk of receiving medical treatment from a licensee who was the subject of serious discipline elsewhere.

Your Committee further finds that according to the Federation of State Medical Boards, the number of reciprocal disciplinary actions imposed by state medical boards against physicians licensed in another state has increased measurably within the last several years. This measure will enable the Hawaii Medical Board to keep pace with its counterparts nationwide and enable the Board to timely and appropriately respond to disciplinary actions taken elsewhere against Hawaii licensees.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2864, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2864, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2619 Ways and Means on S.B. No. 2829

The purpose and intent of this measure is to require the Office of Planning to review and propose updates to the Hawaii State Planning Act.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism, Office of Planning, and Department of Agriculture.

Your Committee finds that the Hawaii State Planning Act was enacted in 1978 for the purpose of improving the State's planning process and guiding future development. It has been over thirty years since the Hawaii State Planning Act was reviewed. The world has undergone significant economic, technological, and social changes since the last review. Accordingly, your Committee believes that it is necessary to revisit and review the Hawaii State Planning Act so the State can best prepare for further development in the twenty-first century.

Your Committee notes that this measure appropriates \$150,000, as requested by the Office of Planning, for reviewing, analyzing, reporting, and proposing updates to the Hawaii State Planning Act.

Your Committee has amended this measure by:

- (1) Deleting the appropriation for fiscal year 2017-2018;
- (2) Changing the appropriation from \$150,000 to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2829, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2829, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2620 Ways and Means on S.B. No. 2504

The purpose and intent of this measure is to establish a loan program in the High Technology Development Corporation to support small businesses in dual-use high-technology fields.

Your Committee received written comments in support of this measure from High Technology Development Corporation, Oceanit Laboratories, Inc., and one individual. The Department of Budget and Finance submitted written comments on the measure.

Your Committee finds that success in the twenty-first century global economy requires the development, transfer, use, and commercialization of technology. Your Committee believes that for Hawaii to succeed in the burgeoning high-technology field, small businesses should be encouraged to enter the field. Many Hawaii small businesses desire to develop, transfer, use, or commercialize high-technology, but are faced with significant costs that may prevent them from entering the high-technology field. A loan program for small businesses in dual-use high-technology fields would allow these businesses to meaningfully compete in the high-technology fields.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2504, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2621 Ways and Means on S.B. No. 2301

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Keahole Management Group, LLC, in its processing enterprise.

Your Committee received written comments in support of this measure from Keahole Management Group LLC, Hawaii Tropical Fruit Growers, Aeronigma Solutions, Inc., and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Keahole Management Group, LLC, will use the proceeds of the sale of special purpose revenue bonds issued pursuant to this measure for planning, designing, constructing, and equipping facilities for the manufacturing and processing of products, including the production of value-added agricultural products, in the State. Your Committee therefore finds that the issuance of special purpose revenue bonds for the purposes within the measure is in the public interest and will benefit the public health, safety, and general welfare.

Your Committee has amended this measure by clarifying that Keahole Management Group is a limited liability company.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2301, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2301, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2622 Ways and Means on S.B. No. 2791

The purpose and intent of this measure is to appropriate \$150,000 in fiscal year 2016-2017 to promote, regulate, and administer the Made in Hawaii Brand Program.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; K. Yamada Distributors; Meadow Gold Dairies; and Hawaii Farm Bureau.

Your Committee finds that managing and promoting the Made in Hawaii brand is important to Hawaii's manufacturing industry. Your Committee also finds that enforcing the Made in Hawaii brand and accurately informing residents and visitors of products that are made in Hawaii contribute to the success of Hawaii's manufacturing industry. Accordingly, your Committee finds that appropriating moneys to support the Made in Hawaii Brand Program will benefit Hawaii's manufacturing industry.

Your Committee has amended this measure by changing the:

- (1) Appropriation amount from \$150,000 to an unspecified sum; and
- (2) Effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2791, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2791, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2623 Ways and Means on S.B. No. 2444

The purpose and intent of this measure is to improve the accuracy and integrity of Hawaii's voter registration rolls.

More specifically, this measure requires:

- (1) The Office of Elections to join the Electronic Registration Information Center;
- (2) The State and the counties to use the Electronic Registration Information Center to verify voter rolls; and
- (3) The Department of Transportation and the counties to electronically share databases containing driver's license and civil identification card information with election officials and the statewide voter registration system.

Your Committee received written comments in support of this measure from the Office of Elections and Common Cause Hawaii.

Your Committee received written comments in opposition to this measure from the Office of the County Clerk, County of Kauai.

Your Committee finds that the Electronic Registration Information Center uses the voter registration rolls of member states and other databases to compare voting lists to enhance voter registration accuracy. Members of the Electronic Registration Information Center receive reports that identify voters who have moved out of their state, passed away, and those who may be eligible to vote but are not yet registered. Your Committee further finds that Hawaii's voter registration rolls may be inaccurate due to the large population of persons who reside in Hawaii on a part-time basis. Accordingly, your Committee finds that modernizing Hawaii's system of verifying voter registration data may ensure the integrity of Hawaii's voter registration rolls.

Your Committee has amended this measure by providing for the codification, in Chapter 11, Hawaii Revised Statutes, of the requirement that the Department of Transportation and the counties electronically provide their databases that include driver's license and civil identification card information to election officials and the statewide voter registration system.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2444, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2444, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2624 Ways and Means on S.B. No. 2838

The purpose and intent of this measure is to authorize the Board of Trustees of the Employer-Union Health Benefits Trust Fund to invest moneys in the same manner as the Board of Trustees of the Employees' Retirement System and to make certain housekeeping amendments.

Your Committee received testimony in support of this measure from Hawaii Union-Employer Health Benefits Trust Fund.

Your Committee finds that current law allows the Employer-Union Health Benefits Trust Fund to invest in only some of the obligations that may be invested in by the Employees' Retirement System. Your Committee further finds that it is appropriate to allow the Employer-Union Health Benefits Fund to invest in the same asset classes as those permitted to the Employees' Retirement System, because it is expected that, over time, the asset allocation of the Employer-Union Health Benefits Trust Fund will begin to resemble that of the Employees' Retirement System.

Your Committee has amended this measure by:

- (1) Deleting the housekeeping amendments for which the subject matter falls outside the scope of the measure's title; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2838, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2838, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2625 (Majority) Ways and Means on S.B. No. 2535

The purpose and intent of this measure is to provide uniformity throughout the State relating to geothermal energy.

More specifically, this measure:

- (1) Clarifies that regulation of geothermal resources development and geothermal resources exploration is reserved to the State unless specifically delegated to the counties by statute;
- (2) Requires the lessee of a mining lease to comply with state and county laws relating to building, grading, and flood control codes; and
- (3) Requires the rules of the Board of Land and Natural Resources regarding mining operations, geothermal resources development, and geothermal resources exploration, including drilling conditions and restrictions, to be uniform throughout the State.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Hawaii Leeward Planning Conference; Hawaii Association of Realtors; Kapoho Management Company, Inc.; and forty-six individuals.

Your Committee received written comments in opposition to this measure from the Sierra Club of Hawaii; Birth Sovereignty; We Are One, Inc.; Puna Pono Alliance; Pele Lani Farm, LLC; and fifty-six individuals.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs and three individuals.

Your Committee finds that geothermal energy development in Hawaii reduces Hawaii's reliance on fossil fuels and contributes to Hawaii's energy diversification. Your Committee further finds that county regulation of geothermal energy activities may conflict with state regulation, thus impeding the ability of geothermal energy producers to safely and efficiently conduct exploration or production activities. Ensuring a uniform system of geothermal energy regulation promotes efficient geothermal energy development in the State.

Your Committee has amended this measure by changing the effective date to January 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2535, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2535, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Harimoto). Noes, 2 (Riviere, Slom). Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2626 Ways and Means on S.B. No. 2603

The purpose and intent of this measure is to make appropriations to the Executive Office on Early Learning and Early Learning Advisory Board for staffing and travel.

Your Committee received written comments in support of this measure from the Early Learning Advisory Board, Executive Office on Early Learning, Hawaii Children's Action Network, and two individuals.

Your Committee finds that the Executive Office on Early Learning's mission is to coordinate efforts to help ensure a solid foundation for Hawaii's young children, by working with partners, families, and communities and connecting policies, programs, and funding related to health, safety, early childhood education, and school readiness and success. Your Committee further finds that the Executive Office on Early Learning needs additional staff and resources to adequately fulfill its mission. Accordingly, your Committee finds that this measure will support the Executive Office on Early Learning for the hiring of staff and travel expenses so that it may fulfill its statutory responsibilities.

Your Committee has amended this measure by adopting the amendments proposed by the Executive Office on Early Learning, specifically:

- (1) Clarifying that the appropriation of \$28,800 is solely for travel for the Early Learning Advisory Board; and
- (2) Changing the appropriation sum of \$59,736 to \$57,168 and the corresponding position from a data processing systems analyst VI to a research statistician IV.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2603, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2603, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Galuteria, Harimoto).

SCRep. 2627 Ways and Means on S.B. No. 3073

The purpose and intent of this measure is to establish a school of aviation at the University of Hawaii at Hilo, to offer a bachelor of science degree in aeronautical science.

Your Committee received written comments in support of this measure from the University of Hawaii at Hilo, Department of Transportation, Hawaiian Airlines, and one individual.

Your Committee finds that aviation is essential to Hawaii's economy. Your Committee further finds that establishing a school of aviation at the University of Hawaii at Hilo will support degree programs in aeronautics and provide opportunities for Hawaii's youth to pursue professional aviation careers within the State as well as attract students from outside of the State.

Your Committee has amended this measure by making the allotment and expenditure of the appropriation contingent on the University of Hawaii Board of Regents first establishing the school of aviation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3073, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3073, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Galuteria, Harimoto).

SCRep. 2628 Ways and Means on S.B. No. 2309

The purpose and intent of this measure is to address the management of sexual assault kits.

More specifically, the measure:

- (1) Establishes the Sexual Assault Kit Tracking Program;
- (2) Requires a law enforcement agency that receives a sexual assault kit in connection with a criminal investigation to submit the kit to a laboratory for analysis within ten business days;
- (3) Requires a laboratory that receives a sexual assault kit from a law enforcement agency for analysis to complete the analysis within six months if sufficient staffing and resources are available;
- (4) Requires the results of sexual assault kit analyses to be uploaded to certain databases;
- (5) Requires a law enforcement agency that receives a sexual assault kit in connection with a criminal investigation to provide annual written notice to the Department of the Attorney General regarding the number of kits so received that have not been submitted to a laboratory for analysis;
- (6) Requires the Department of the Attorney General to make arrangements for the analysis of all sexual assault kits utilized prior to July 1, 2016, and to ensure that analysis results are uploaded to certain databases;
- (7) Provides that the failure of a law enforcement agency to timely submit for analysis a sexual assault kit utilized on or after July 1, 2016, shall not alter the authority of the agency to submit the kit for analysis or render evidence derived from the kit inadmissible in court;
- (8) Requires that a certification be included with sexual assault kit evidence submitted for analysis;
- (9) Requires the expungement from certain databases of records not connected to a criminal investigation; and
- (10) Requires a report to the Legislature prior to the Regular Session of 2017 regarding the sexual assault kit tracking program, including the number of unprocessed sexual assault kits collected before July 1, 2016, and the status of any backlog.

Your Committee received written comments in support of this measure from the Hawaii State Commission on the Status of Women, Department of the Prosecuting Attorney of the City and County of Honolulu, Kauai Police Department, and Planned Parenthood Votes Northwest and Hawaii.

Your Committee received comments on the measure from the Department of the Attorney General and the Hawaii Police Department Forensic Laboratory.

Your Committee finds that evidence collected utilizing sexual assault kits should be analyzed and recorded within a reasonable time to ensure that the evidence is available to identify and prosecute perpetrators of sexual assaults, establish or eliminate possible connections between perpetrators and other crimes, and exonerate innocent defendants who are wrongfully accused.

Your Committee has amended this measure by adding an unspecified appropriation for the Department of the Attorney General to facilitate the processing of sexual assault kits utilized as part of a criminal investigation prior to July 1, 2016.

Your Committee respectfully requests that, as this measure moves through the legislative process, future committees consider reconciling the content of this measure with the content of Senate Bill No. 2366, which requires law enforcement agencies and certain departments to compile information on untested sexual assault collection kits and transmit that information to the Attorney General, and deciding which of these measures is the appropriate vehicle to advance the initiatives proposed by them.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2309, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2309, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2629 Ways and Means on S.B. No. 3112

The purpose and intent of this measure is to appropriate moneys for programs, ceremonies, and activities commemorating the fiftieth anniversary of the Vietnam War.

Your Committee received written comments in support of this measure from the Department of Defense, Office of Veterans' Services, 50th Anniversary of the Vietnam War Commemoration Committee, Veterans of Foreign Wars of the United States, and one individual.

Your Committee finds that the Vietnam War must never be forgotten. It is important to honor the sacrifices of the men and women who served, as well as remember the suffering and loss of life of all persons who were involved.

Your Committee notes that it is considering consolidating the funding for anniversary events such as the anniversaries of the Vietnam War and Pearl Harbor Attack under the Department of Defense's allocation in the state budget. There is also a grant-in-aid request before the Legislature for \$437,000. Your Committee requests that the Administration indicate its preference for a funding mechanism for these events.

Your Committee has amended this measure by changing the amount appropriated to an unspecified sum to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3112, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3112, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2630 Judiciary and Labor on S.B. No. 2856

The purpose and intent of this measure is to clarify the scope of powers of the Office of Consumer Protection investigators.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that prior to 1969, only police officers or sheriffs were legally authorized to serve legal documents in Hawaii. Thus, the Legislature established section 487-10, Hawaii Revised Statutes, which became enacted through Act 175, Session Laws of Hawaii 1969, to explicitly provide police powers to Office of Consumer Protection investigators, so they could also serve subpoenas and process. However, as service of these documents is no longer restricted to police officers and sheriffs, it is no longer appropriate or necessary to extend such broad powers and authority to Office of Consumer Protection investigators. This measure therefore clarifies that the power and authority of Office of Consumer Protection investigators under section 487-10, Hawaii Revised Statutes, pertains to the service of process and service of subpoenas.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2856 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2631 Judiciary and Labor on S.B. No. 2883

The purpose and intent of this measure is to clarify that the Department of Health may amend birth certificates to establish or change parenthood only pursuant to a court order or other legal establishment of parenthood and that the amendment shall not be considered a correction of a personal record under the Uniform Information Practices Act.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Health. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that births are required to be registered in the State, and birth certificates are used as prima facie evidence to prove important factors such as identity, citizenship, parenthood, age, sex, and race. There are legal presumptions regarding parenthood that are established by law, and the rights of parents, which are protected by the federal and state constitutions, can be significantly impacted by birth certificate amendments regarding parenthood. Existing law allows persons to file late birth certificates or amend birth certificates upon submitting proof required by the Department of Health. However, because the Department of Health is not qualified to evaluate anecdotal or genetic evidence of parenthood and has no means to afford due process to existing parents whose rights would effectively be terminated by an amendment that changes a parent on a birth certificate, individuals have sued the Department and been awarded attorney's fees and other costs. This measure would assure that changes to parental rights arising from birth certificate amendments would be subject to judicial determination and existing legal presumptions regarding parenthood, support the Department of Health's longstanding interpretation of its own law and rules, maintain the accuracy of vital records in Hawaii, and protect the State from significant unnecessary costs and attorney's fees.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2883 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kim, Shimabukuro, Slom).

SCRep. 2632 Ways and Means on S.B. No. 2619

The purpose and intent of this measure is to improve the management and oversight of unclaimed property.

More specifically, the measure requires a holder of unclaimed property to provide:

- (1) A statement in its report to the Director of Finance that the holder has complied with certain requirements, including providing notice to the apparent owner of the unclaimed property; and
- (2) Notice to the apparent owner of the unclaimed property valued at \$50 or more via mail, electronic mail, or telephone, no more than six months prior to the holder submitting the report to the Director of Finance.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and the Department of Commerce and Consumer Affairs.

Your Committee received written comments on this measure from the Hawaii Bankers Association.

Your Committee finds that establishing standardized procedures for contacting the apparent owners of unclaimed property, prior to the property escheating to the State, would benefit both consumers and holders of unclaimed property.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2619, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, English, Galuteria, Harimoto, Taniguchi).

SCRep. 2633 Ways and Means on S.B. No. 2671

The purpose and intent of this measure is to provide for the regulation of individuals practicing veterinary technology.

Specifically, this measure:

- (1) Requires individuals who practice veterinary technology to register with the Department of Commerce and Consumer Affairs;
- (2) Establishes minimum qualifications of veterinary technicians; and
- (3) Appropriates funds out of the compliance resolution fund to the Department of Commerce and Consumer Affairs to implement registration of veterinary technicians.

Your Committee received written comments in support of this measure from Windward Community College Veterinary Technology Program, Pacific Pet Alliance, Hawaii Veterinary Medical Association, Hawaii Veterinary Technician Association, and five individuals. Your Committee received written comments on this measure from the Office of the Auditor, Department of Commerce and Consumer Affairs Regulated Industries Complaints Office, and the Board of Veterinary Examiners.

Your Committee finds that veterinary technicians perform a variety of functions, including interacting with clients, recording information of the patient, putting the patient under anesthesia, performing dental cleanings, assisting the veterinarian in surgery, placing catheters, and monitoring intravenous fluids. Your Committee further finds that this measure establishes reasonable requirements to ensure that individuals who use the designation "registered veterinary technician" are qualified to perform various tasks necessary for the proper caring of animals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2671, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2634 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 75

The purpose and intent of this measure is to establish the Hawaii Battery Storage Recycling Task Force.

Your Committees received written comments in support of this measure from the Department of Health.

Your Committees find that this measure promotes the public health, safety, and welfare by establishing a task force to submit findings and recommendations to the Legislature for a workable Hawaii recycling program for battery storage devices.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 75, S.D. 2, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

SCRep. 2635 Ways and Means on S.B. No. 2566

The purpose and intent of this measure is to provide capital for the development of affordable rental housing by transferring excess moneys from the rental assistance revolving fund to the rental housing revolving fund.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness and one individual.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee recognizes that Hawaii needs more affordable rental housing. Your Committee finds that the rental housing revolving fund should be provided with additional funds to facilitate the development of more affordable rental housing projects. Additionally, your Committee finds that the rental assistance revolving fund has a balance in excess of the immediate needs of the fund and, therefore, its proceeds should be transferred to the rental housing revolving fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2566, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Taniguchi).

SCRep. 2636 Ways and Means on S.B. No. 2823

The purpose and intent of this measure is to provide flexibility in determining the salary of the Hawaii Housing Finance and Development Corporation's Executive Director.

More specifically, this measure:

- (1) Repeals the requirement that the salary of the Hawaii Housing Finance and Development Corporation's Executive Director be not more than eighty-five per cent of the salary of the Director of Human Resources Development;
- (2) Provides that the salary of the Hawaii Housing Finance and Development Corporation Executive Director shall not exceed the salary of the Director of Business, Economic Development, and Tourism; and
- (3) Requires the Hawaii Housing Finance and Development Corporation Board of Directors to submit a report to the Legislature regarding the salary of the Executive Director prior to each regular session immediately following each adjustment to the salary.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and the Hawaii Housing Finance and Development Corporation.

Your Committee finds that section 201H-2, Hawaii Revised Statutes, currently limits the Hawaii Housing Finance and Development Corporation Executive Director's salary at not more than eighty-five per cent of the salary of the Director of Human Resources Development. Providing instead that the Hawaii Housing Finance and Development Corporation Executive Director's salary shall not exceed the salary of the Director of Business, Economic Development, and Tourism will authorize payment of a higher salary to the Hawaii Housing Finance and Development Corporation Executive Director and will thereby help the corporation attract and retain a qualified individual who will lead the corporation toward fulfilling its mission of increasing and preserving the supply of workforce and affordable housing in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2823 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Taniguchi).

SCRep. 2637 Ways and Means on S.B. No. 2543

The purpose and intent of this measure is to clarify the responsibilities of the University of Hawaii Community Colleges.

More specifically, this measure specifies the responsibility of the University of Hawaii Community Colleges to provide short-term and rapid response occupational and certification programs designed to qualify individuals to fill new and hard-to-fill positions that require technical training in the State.

Your Committee received written comments in support of this measure from the University of Hawaii Community Colleges and the Department of Human Resources Development.

Your Committee finds that the current economy requires colleges to quickly react in order to provide the technical workforce needed by the public and private sectors. This type of short-term, rapid response training is a function of the University of Hawaii Community Colleges. Codifying the function provides formal recognition of the Community Colleges' important role in preparing a properly trained workforce.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2543 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Galuteria, Harimoto).

SCRep. 2638 Ways and Means on S.B. No. 2343

The purpose and intent of this measure is to prohibit the Hawaii Public Housing Authority and the counties from disqualifying a legal nonconforming dwelling unit from the housing choice voucher program if the unit meets zoning and building code requirements and other program standards for health and safety.

Your Committee received written comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that many families face challenges as they seek to obtain affordable rental housing. The federal housing choice voucher program assists families by covering a portion of tenants' rent. Your Committee finds that while this program has enabled some Hawaii residents to find housing at an affordable cost, this measure is necessary to clarify that a legal nonconforming dwelling unit shall not be disqualified from the housing choice voucher program if the unit meets zoning and building code requirements and other program standards for health and safety.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2343, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Taniguchi).

SCRep. 2639 Ways and Means on S.B. No. 2971

The purpose and intent of this measure is to repeal the requirement that the Office of the Vice President for the University of Hawaii Community Colleges prepare an annual report relating to the Construction Academy.

Your Committee received written comments in support of this measure from the University of Hawaii Community Colleges.

Your Committee finds that the Construction Academy began in 2004 with a grant provided by the United States Department of Labor. This grant funded a pilot program between the University of Hawaii Community Colleges and specific Oahu high schools to prepare students for construction industry jobs. The Legislature appropriated moneys in 2006 to institutionalize and expand the program throughout the State. Your Committee also finds that the Construction Academy has since established itself as an integral program of construction-related education for the State and thus, there is no longer a need for a separate annual report on the Construction Academy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2971 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Galuteria, Harimoto).

SCRep. 2640 Ways and Means on S.B. No. 2277

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist in an industrial enterprise of Goodwill Industries of Hawaii, Inc.

Your Committee received written comments in support of this measure from Goodwill Industries of Hawaii, Inc., and one individual. Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that Goodwill Industries of Hawaii, Inc. and their nonprofit affiliates will use the proceeds of the sale of special purpose revenue bonds issued pursuant to this measure to finance capital improvements at Goodwill Industries' Beretania Street property. Your Committee therefore finds that the issuance of special purpose revenue bonds for the industrial enterprise within this measure is in the public interest and will benefit the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2277 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2641 Ways and Means on S.B. No. 2939

The purpose and intent of this measure is to permanently authorize the University of Hawaii to maintain its separate accounting and financial management system.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services and the University of Hawaii System.

Your Committee finds that the University of Hawaii has maintained a separate accounting system since 1986, which has been compatible with state accounting system requirements and generally accepted accounting principles. Your Committee further finds that the University's most recent update of its financial system is the Kualii Financial System, which is a comprehensive financial software package that was developed and is supported by a consortium of universities throughout the country that use an open source and partner-enhanced process. Your Committee further finds that the Kualii Financial System serves the unique needs of the University's reporting, regulatory, and accreditation requirements, while also allowing for compatibility with external partners such as the Department of Accounting and General Services.

Your Committee notes that if the University's authority to implement its own accounting system is allowed to sunset as required under current law, the University will be legally required to revert to an older financial management system that is designed for more traditional state government entities instead of university systems. Accordingly, your Committee believes that permanently authorizing the use of a tailor-made accounting and financial management system is sound fiscal policy for the University of Hawaii and the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2939 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Galuteria, Harimoto).

SCRep. 2642 Ways and Means on S.B. No. 2511

The purpose and intent of this measure is to address the membership of the Broadband Assistance Advisory Council.

More specifically, this measure:

- (1) Includes the Director of Business, Economic Development, and Tourism as a permanent member of the Broadband Assistance Advisory Council;
- (2) Ensures that each county is represented by at least one member on the Broadband Assistance Advisory Council; and
- (3) Authorizes the chair of the Broadband Assistance Advisory Council to designate ad hoc members of the Council.

Your Committee received written comments in support of this measure from the Cable Television Division of the Department of Commerce and Consumer Affairs and the Department of Business, Economic Development, and Tourism.

Your Committee finds that the Broadband Assistance Advisory Council was established by the Legislature in 2010. The Council is tasked with advising the Director of Commerce and Consumer Affairs on policy and funding priorities to promote and encourage the use of telework alternatives for public and private employees and to expedite the development of affordable and accessible broadband services in the State.

The Department of Business, Economic Development, and Tourism has a significant interest in expanding broadband access and use across the State. Additionally, the Department of Business, Economic Development, and Tourism regularly communicates with the Department of Commerce and Consumer Affairs about broadband development activities and how to facilitate broadband access and use. Your Committee believes that including the Director of Business, Economic Development, and Tourism on the Broadband Assistance Advisory Council will provide the Council with an additional crucial and knowledgeable perspective.

Your Committee also finds that expanding broadband access and use must be encouraged in each county. Requiring each county to be represented on the Broadband Assistance Advisory Council ensures that an advocate for each county's broadband needs is included in the Council's discussions. Additionally, allowing the chair of the Broadband Assistance Advisory Council to designate certain persons as ad hoc members encourages community involvement and will provide the Council with supplementary expertise.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2643 Ways and Means on S.B. No. 2876

The purpose and intent of this measure is to clarify that lands to which the Hawaii Public Housing Authority holds title are not "public lands" that fall under the management, administration, and control of the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee recognizes that pursuant to section 356D-8, Hawaii Revised Statutes, the Hawaii Public Housing Authority may acquire, own, and hold real property, and therefore, its titled lands should not be considered state "public lands" under the jurisdiction of the Department of Land and Natural Resources. Accordingly, your Committee finds that by expressly exempting Hawaii Public Housing Authority lands from the definition of "public lands" in section 171-2, Hawaii Revised Statutes, this measure will clarify that the Authority has the power to take certain actions regarding its own lands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2876, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Taniguchi).

SCRep. 2644 Ways and Means on S.B. No. 2506

The purpose and intent of this measure is to authorize the Department of Budget and Finance to issue up to \$15,000,000 in special purpose revenue bonds to assist TruTag Technologies, Inc., with financing of a manufacturing enterprise.

Your Committee received written comments in support of this measure from TruTag Technologies, Inc., and three individuals. Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that TruTag Technologies, Inc., will use the proceeds of the sale of special purpose revenue bonds to finance or refinance the planning, construction, improvement, and equipping of its manufacturing facilities in Hawaii. Your Committee further finds that the issuance of special purpose revenue bonds for these purposes is in the public interest and for the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2506 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2645 Ways and Means on S.B. No. 2867

The purpose and intent of this measure is to repeal an obsolete statutory provision that provides teachers and educational officers with annual increments or other longevity step increases.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Department of Budget and Finance, Department of Education, and Office of Collective Bargaining.

Your Committee finds that salary and step increases are negotiated with teachers and educational officers pursuant to section 89-9, Hawaii Revised Statutes. Therefore, older statutory provisions relating to annual increments and step increases are now obsolete and unnecessary, and the provisions should be repealed to avoid potential confusion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2867 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Taniguchi). Noes, none. Excused, 4 (Dela Cruz, English, Galuteria, Harimoto).

SCRep. 2646 Ways and Means on S.B. No. 2565

The purpose and intent of this measure is to repeal the authority of the Hawaii Public Housing Authority to sell rental units.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that public housing units should not be sold to its tenants or any other persons but should remain under the ownership of the Hawaii Public Housing Authority for rental to low-income tenants, which is a major immediate public need in Hawaii today. Your Committee further finds that for at least the last ten years, the authority has not exercised its ability to sell units, and has no plans to do so in the future.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2565 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Taniguchi).

SCRep. 2647 Ways and Means on S.B. No. 2244

The purpose and intent of this measure is to amend the retirement benefits of Employees' Retirement System members who first earn credited service as a judge after June 30, 2016.

Specifically, the measure:

- (1) Provides that a member of the Employees' Retirement System who first earned credited service as a judge after June 30, 2016, and has at least twelve years of credited service and attained age sixty, or has at least twenty-five years of credited service and has attained age fifty-five, is eligible to receive a pension after retirement; and
- (2) Reduces the retirement allowance for a member who first earns credited service as a judge after June 30, 2016, to two per cent of the member's average final compensation, reduced for each month the member's age at the date of retirement is below age sixty.

Your Committee received written comments in opposition to this measure from the Judiciary. Your Committee received written comments on this measure from the Employees' Retirement System and the Hawaii Government Employees Association.

Your Committee finds that this measure brings the retirement benefits of prospective judges more in line with the retirement benefits of other public employees who are members of the Employees' Retirement System.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2244, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Harimoto).

SCRep. 2648 Ways and Means on S.B. No. 3024

The purpose and intent of this measure is to address the administration of state laws relating to ethics and lobbying.

More specifically, the measure:

- (1) Reduces a fiscal year 2015-2016 appropriation to the Hawaii State Ethics Commission for the design and development of an electronic filing system from \$130,000 to \$50,000;
- (2) Establishes a task force to review the State's lobbying laws and report its findings and recommendations to the Legislature; and
- (3) Appropriates moneys to the Hawaii State Ethics Commission to establish the task force.

Your Committee received written comments in support of this measure from the Hawaii State Ethics Commission.

Your Committee finds that Act 151, Session Laws of Hawaii 2015, appropriated \$130,000 to the Hawaii State Ethics Commission for the design and development of an electronic filing system. However, the Hawaii State Ethics Commission was unable to contract with a vendor as it had originally planned. Instead, the commission is now receiving assistance from the Office of Enterprise Technology Services to implement the filing system at a lower anticipated cost.

Your Committee further finds that reducing the appropriation from \$130,000 to \$50,000 and redirecting the cost savings to establish a task force to examine and make recommendations regarding laws related to lobbying will produce information that the Legislature may use to strengthen the State's lobbying laws.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3024, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Galuteria, Harimoto).

SCRep. 2649 Ways and Means on S.B. No. 2369

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaii Renewable Resources, LLC, with the establishment of a renewable natural gas production facility on Maui.

Your Committee received written comments in support of this measure from Renewable Energy Action Coalition of Hawaii and Hawaii Farm Bureau.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii Renewable Resources, LLC, offers sustainable solutions for the production of food and renewable energy from the conversion of recovered food and green agricultural crop resources. Hawaii Renewable Resources, LLC, proposes to own, design, build, and operate a renewable natural gas production facility on Maui to produce renewable natural gas, carbon dioxide, recovered organic composts, and recovered irrigation water. Accordingly, your Committee finds that the issuance of special purpose revenue bonds for Hawaii Renewable Resources, LLC, will benefit the public by providing alternative energy without investment or operational risk to the State or counties.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2369 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Taniguchi, Wakai).

SCRep. 2650 (Majority) Ways and Means on S.B. No. 2723

The purpose and intent of this measure is to increase the minimum fines for contractors and subcontractors who violate the wage and hour requirements of employees on public works projects.

Specifically, this measure increases the minimum monetary penalties as follows:

- (1) For a first violation, from \$25 to \$1,000; and
- (2) For a second violation within two years of the first notice of violation, from \$100 to \$10,000.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Hawaii Construction Alliance, and Pacific Industrial Coatings. Your Committee received written comments in opposition to this measure from the General Contractors Association of Hawaii; Raynor Overhead Doors and Gates Inc; Building Industry Association of Hawaii; Nordic PCL Construction, Inc; Healy Tibbitts Builders, Inc; LYZ, Inc; Royal Contracting Company; and S&M Sakamoto, Inc.

Your Committee finds that currently, a contractor or subcontractor could be fined as little as \$25 for the first offense and \$100 for a second offense for violations of Chapter 104, Hawaii Revised Statutes, the wages and hours law for public works construction. Your Committee further finds that these low amounts are not sufficient deterrents for compliance with Chapter 104, Hawaii Revised Statutes. Your Committee believes that the increased fines will help deter violations of the State's public works wage and hour laws.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2723, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2651 Ways and Means on S.B. No. 2101

The purpose and intent of this measure is to amend various statutory provisions relating to cases filed in the small claims division of the district court.

More specifically, this measure:

- (1) Establishes that the small claims division has exclusive jurisdiction in cases for the recovery of money where the amount claimed is \$1,000 or less before interest and costs;
- (2) Makes an exception to the foregoing exclusive jurisdiction by establishing concurrent jurisdiction with the district court in cases where the plaintiff is represented by an attorney; provided that removal to the district court is at the plaintiff's option;
- (3) Prohibits awards of attorney's fees and commissions in all of the foregoing cases;
- (4) Removes service by registered mail and certified mail as options in small claims division cases for the recovery of money where the amount claimed is more than \$1,000 but does not exceed \$5,000;
- (5) Establishes that the small claims division has concurrent jurisdiction with the district court in all cases for the return of personal property worth \$5,000 or less;
- (6) Clarifies that when an action is filed in the small claims division, and the amount sought in any counterclaim exceeds the jurisdictional limit of the small claims division but does not exceed the jurisdictional limit of the district court, the action shall remain in the small claims division, except when the plaintiff requests removal to the district court; and
- (7) Clarifies that in all civil actions involving a residential landlord-tenant relationship, the district court shall have concurrent jurisdiction with the small claims division over any security deposit dispute.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that this measure establishes certain jurisdictional and procedural provisions for the small claims division of the district court, thus allowing the court to better serve the public.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2101, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2652 Ways and Means on S.B. No. 2113

The purpose and intent of this measure is to expedite the processes for the handling and counting of election ballots.

More specifically, this measure:

- (1) Establishes that the preparation of absentee ballots for counting may include opening the return envelope in which the ballot envelope is enclosed and the validation of signatures, but shall not include opening the ballot envelope;
- (2) Establishes that, unless otherwise stated by election officials, the period for opening return envelopes and validating signatures begins from the day immediately after absentee ballots are transmitted to voters and ends on election day;
- (3) Provides that the foregoing procedures do not apply to any ballot cast at an absentee polling place established at a county clerk's office before or on election day;

- (4) Provides that the counting of absentee ballots may begin no earlier than the fifteenth day before an election and establishes stages for counting ballots, including a stage that allows for the duplication of a damaged ballot so that it may be counted by vote counting equipment;
- (5) In the case of absentee polling places, clarifies that the foregoing stages for counting ballots do not apply when voters directly utilize an electronic voting system or voting machine that counts their ballot;
- (6) Authorizes election officials to duplicate the votes of a voter onto a traditional ballot to be counted by the vote counting equipment, to the extent the voter has voted absentee by fax, electronic mail, or any other means authorized by law;
- (7) Authorizes official observers to observe the foregoing handling and counting activities;
- (8) Authorizes poll watchers to observe the operations of absentee polling places;
- (9) Prohibits persons present during the counting of absentee ballots from disclosing the results;
- (10) Replaces a statutory mandate for the presence of at least two official observers over election ballots for each precinct with a statutory authorization for the presence of one official observer;
- (11) Authorizes counting center employees to replace defective ballots with new ballots without official observers present; and
- (12) Establishes that any person who willfully causes the results of any absentee ballot count to become publicly known before the polls have officially closed is guilty of a misdemeanor.

Your Committee received written comments in support of this measure from the Office of Elections and the Office of the County Clerk, County of Kauai. Your Committee received written comments in opposition to this measure from Ho'omana Pono, LLC, and one individual.

Your Committee finds that current procedures for handling and counting ballots, particularly absentee ballots, place significant strain on volunteers and election personnel, and the State will soon approach a point where it will no longer be possible to count all absentee mail ballots in a single day. Your Committee therefore finds that this measure advances the public interest by streamlining the handling and counting of absentee ballots submitted by mail, absentee ballots completed at absentee polling places, and ballots submitted to traditional polling places at local precincts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2113, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2653 Ways and Means on S.B. No. 2926

The purpose and intent of this measure is to address the Department of Taxation's expedited appeals and dispute resolution program. Specifically, this measure amends section 231-7.5, Hawaii Revised Statutes, by:

- (1) Changing the name of the program to the administrative appeals and dispute resolution program;
- (2) Changing the title of the appeals officer from independent appeals officer to administrative appeals officer;
- (3) Making both taxpayers and return preparers eligible to petition to participate in the administrative appeals and dispute resolution program; and
- (4) Establishing conditions, procedures, and deadlines for submitting a petition to participate in the administrative appeals and dispute resolution program.

Your Committee received written comments in support of this measure from the Department of Taxation.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the expedited appeals and dispute resolution program of the Department of Taxation was established by Act 166, Session Laws of Hawaii 2009, to provide taxpayers a streamlined method to quickly and fairly resolve tax disputes over proposed or final assessments. The program was intended to be similar to the Appeals Office of the Internal Revenue Service. Your Committee further finds that this measure will clarify procedural requirements and conform the program more closely to appeals programs offered by the Internal Revenue Service.

Your Committee notes that concerns have been raised that the measure is unclear with regard to the address to which a notice of proposed assessment must be sent. Your Committee respectfully requests that, should this measure be heard by other standing committees, there be further discussion regarding these concerns.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2926, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2654 Ways and Means on S.B. No. 2715

The purpose and intent of this measure is to require that motor vehicle safety inspections be conducted every two years rather than annually.

Your Committee received written comments in support of this measure from one individual. Your Committee received written comments in opposition to this measure from the Department of Transportation, Alik's Automotive Repair and Service LLC, and Patao Gas & Go.

Your Committee finds that a report released in August 2015 by the United States Government Accountability Office found no conclusive evidence that annual motor vehicle inspection programs improve vehicle safety conditions. Your Committee further finds that the current annual inspection requirement imposes an undue hardship to many residents, especially those in rural areas. Your Committee believes that a biennial schedule of vehicle inspections may reduce the burden on residents, but still protects the public health, safety, and welfare.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2655 Ways and Means on S.B. No. 2539

The purpose and intent of this measure is to establish a temporary special action team to address issues relating to the Hawaii State Hospital.

More specifically, the special action team shall:

- (1) Address capacity and census issues; and
- (2) Assist and advise the Department of Health in the development of a new forensic facility;

at the Hawaii State Hospital.

Your Committee received written comments in support of this measure from the Department of Health. Your Committee received written comments on this measure from the Hawaii Government Employees Association.

Your Committee finds that a special action team was established in 2012 to address capacity and census issues at the Hawaii State Hospital. While the special action team's report was valuable to the Governor and the Legislature, more information and action are needed to fully address remaining capacity and census issues at the Hospital. Your Committee believes that the establishment of a new special action team is necessary to overcome bureaucratic hurdles, resolve the hospital's capacity and census issues, and develop a new forensic facility at the hospital.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2539, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2656 (Joint/Majority) Judiciary and Labor and Ways and Means on S.B. No. 2388

The purpose and intent of this measure is to:

- (1) Permit monies in the John A. Burns school of medicine special fund to be used for loan repayment for certain health care professionals;
- (2) Remove the cap on expenditures from the John A. Burns school of medicine special fund; and
- (3) Make permanent the physician workforce assessment fee and related requirements for use of monies in the John A. Burns school of medicine special fund.

Your Committees received testimony in support of this measure from the University of Hawai'i System, The Queen's Health Systems, Hawai'i State Center for Nursing, Hawaii Primary Care Association, Sex Abuse Treatment Center, Hawaii Medical Board, Bank of Hawaii, Hawaii State Rural Health Association, Lanai Community Health Center, and ten individuals. Your Committees received comments on this measure from one individual.

Your Committees find that the University of Hawaii John A. Burns School of Medicine's physician workforce assessment program has successfully identified the unmet need for physicians across the State and implemented efforts to recruit and retain health care providers. A shortage of primary health care providers affects health care costs and threatens the health of Hawaii's residents, particularly in rural communities and on the neighbor islands.

Your Committees further find that it is important to accept and disburse funds toward health care student loan repayment to encourage health care professionals to work in lower paying geographic areas and specialties such as primary care. The rising cost of education for health care professionals deters many health care professionals from working in rural areas or primary care, which limits access to needed health care. The Hawaii state loan repayment program gives primary health care providers an incentive to provide care at designated health professional shortage areas in Hawaii in order to receive assistance with repayment of educational loan debt.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2388 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 6. Noes, 1 (Slom). Excused, none.
Ways and Means: Ayes, 9. Noes, 1 (Slom). Excused, 1 (Harimoto).

SCRep. 2657 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2453

The purpose and intent of this measure is to:

- (1) Repeal the prohibition on suspension or waiver of fines for violations of certain aquatic resource laws;
- (2) Authorize the court to require a person who violates certain laws pertaining to aquatic resources to complete an aquatic resources educational class administered by the Department of Land and Natural Resources in lieu of or in addition to paying a monetary fine; and
- (3) Authorize the court to require a person who violates certain laws pertaining to aquatic resources to perform community service administered by the Department of Land and Natural Resources in lieu of paying a monetary fine.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Judiciary, Office of Hawaiian Affairs, Aha Moku Advisory Committee of the Department of Land and Natural Resources, Conservation Council for Hawai'i, and two individuals.

Your Committees find that educational programs and community service opportunities are effective sentencing alternatives to address resource offenses and violators. The Department of Land and Natural Resources has already developed and uses an educational curriculum that provides a broad overview of information pertaining to aquatic resource statutes and regulations. Implementation of this measure will deter future aquatic resources violations, enhance public knowledge about the State's resources, and ensure appropriate punishment.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2453 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2658 Ways and Means on S.B. No. 2841

The purpose and intent of this measure is to facilitate a public employer's payment of contributions to the Employees' Retirement System.

Specifically, the measure:

- (1) Authorizes the State and the counties to make advance payments to the system in lieu of monthly payments;
- (2) Provides that the Employees' Retirement System's determination of the actual amounts owed by the State and counties for a fiscal quarter take into account any excess contributions, as well as amounts paid, in the previous quarter; and
- (3) Requires that these payment procedures commence on July 1, 2016.

Your Committee received written comments in support of this measure from the Employees' Retirement System.

Your Committee finds that this measure clarifies that public employers may make contributions to the system in advance and are therefore not required to make the otherwise required monthly payments if the previous advance payments are sufficient to cover the required contributions for the month. Your Committee further finds that this measure also clarifies the manner in which quarterly reconciliations will be made.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2841 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Harimoto).

SCRep. 2659 Ways and Means on S.B. No. 2655

The purpose and intent of this measure is to change the filing deadline for monthly, quarterly, semiannual, and annual general excise tax returns from the twentieth day of the respective applicable month to the last day of the month.

Your Committee received written comments in support of this measure from the Hawaii Business League.

Your Committee received written comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that general excise tax returns were originally due on the last day of the month following the end of the tax period. However, Act 196, Session Laws of Hawaii 2009, accelerated the filing and payment of general excise taxes to the twentieth day of the month. Your Committee further finds that the current deadline is burdensome for small business owners and contractors. Accordingly, your Committee finds that extending the general excise tax return date to the last day of the month will benefit taxpayers and the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2655, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Chun Oakland, Galuteria).

SCRep. 2660 Commerce, Consumer Protection, and Health on S.B. No. 2694

The purpose and intent of this measure is to:

- (1) Clarify Hawaii's employment security law for independent contractors by:
 - (A) Including twenty factors to be used as guidelines for the Department of Labor and Industrial Relations when determining whether an individual could be an independent contractor;
 - (B) Retaining the Department of Labor and Industrial Relations' ability to determine if an individual is an independent contractor; and
 - (C) Defining "client" and "independent contractor";
- (2) Require the Director of Labor and Industrial Relations to submit a report to the Legislature prior to the convening of the Regular Session of 2017 on the guidelines developed by the Unemployment Insurance Coverage Committee to assist auditors during investigations; and
- (3) Require the Director of Labor and Industrial Relations to submit an annual report to the Legislature regarding independent contractor and covered employment determinations.

Your Committee received testimony in support of this measure from Envisions Entertainment & Productions, Inc.; Maui Chamber of Commerce; Whalers Realty, Inc.; and three individuals. Your Committee received testimony in opposition to this measure from the International Longshore and Warehouse Union, Local 142. Your Committee received comments on this measure from the Department of Labor and Industrial Relations and Department of the Attorney General.

Your Committee finds that independent contractors are an important part of Hawaii's business community and economy. Furthermore, increasing numbers of entrepreneurs are choosing to go into business for themselves as independent contractors. However, many of these individuals may not be aware of the criteria used by the Department of Labor and Industrial Relations when making determinations as to whether an individual is in an employment relationship or is a bona fide independent contractor. This measure clarifies the law that determines who qualifies as an independent contractor, thereby protecting legitimate independent contractors and the businesses with which they contract.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2694, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 2661 (Majority) Ways and Means on S.B. No. 2135

The purpose and intent of this measure is to amend the excise tax rate on the sale of large cigars.

Specifically, this measure amends the tax rate on sales of large cigars that occur on or after July 1, 2016, to the lesser of 50 cents for each large cigar or fifty percent of the wholesale price of each large cigar.

Your Committee received testimony in support of this measure from the Cigar Association of America, Inc.; Hawaii Cigar Association; Hawaii Food Industry Association; Hawaii Smokers Alliance; Mokuleia Cigar Company; Kauai Cigar Company; and sixteen individuals.

Your Committee received testimony in opposition to this measure from the Department of Health; American Cancer Society Cancer Action Network; American Heart Association; American Lung Association of the Mountain Pacific; Coalition for a Tobacco-Free Hawaii; and fifty-six individuals.

Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and one individual.

Your Committee finds that the excise tax rate imposed on the sale of large cigars makes it difficult for local producers of cigars to compete with mail-order suppliers that sell cigars in Hawaii without paying state taxes and whose customers do not file their tax liability under the State's use tax law. Your Committee further finds that this measure addresses this issue by setting a cap on the excise tax imposed on the sale of large cigars, thereby limiting the burden caused by the tax.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2135 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Taniguchi). Noes, 1 (Harimoto). Excused, none.

SCRep. 2662 Ways and Means on S.B. No. 2555

The purpose and intent of this measure is to appropriate moneys to be deposited into the emergency and budget reserve fund for fiscal year 2015-2016 to comply with the constitutional mandate to provide a tax credit or refund or make such a deposit.

Your Committee received written testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that when certain economic conditions are met, article VII, section 6, of the Hawaii Constitution requires the Legislature either to provide a tax credit or tax refund to state taxpayers, or to make a deposit into one or more funds that serve as temporary supplemental sources of funding for the State in times of an emergency, economic downturn, or unforeseen reduction in

revenue. This requirement is prompted when the state general fund balances at the end of two successive fiscal years exceed five percent of the state general revenues for those fiscal years. These conditions were met at the end of fiscal years 2013-2014 and 2014-2015. However, your Committee notes that pursuant to section 328L-3(a)(3), Hawaii Revised Statutes, general funds may only be deposited into the emergency budget and reserve fund when state general fund revenues for each of the two successive fiscal years exceeds revenues for each of the preceding fiscal years by five percent. While the general fund revenues for fiscal year 2014-2015 exceeded the revenues for fiscal year 2013-2014 by more than five percent, the general fund revenues for fiscal year 2013-2014 did not exceed the revenues for fiscal year 2012-2013 by more than five percent. Therefore, although the constitutional provisions have been met, the statutory requirement to make a deposit of general funds into the emergency budget and reserve fund has not been met.

Nevertheless, your Committee believes that in view of the pursuant economic climate, it is in the public's best interest to make a deposit into the emergency and budget reserve fund rather than provide a tax refund or credit. Your Committee finds that by increasing the reserve fund, the State will be in a better fiscal position to address possible emergencies and contingencies that may occur in the future when state revenues decline.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2555 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Riviere).

SCRep. 2663 Ways and Means on S.B. No. 2921

The purpose and intent of this measure is to conform Hawaii's income and estate and generation-skipping transfer taxes to the Internal Revenue Code as of December 31, 2015.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this annual conformity measure is submitted by the Department of Taxation in compliance with section 235-2.5, Hawaii Revised Statutes, which requires the department to annually submit a measure to maintain state income tax conformity with the federal Internal Revenue Code. This measure is also intended to comply with section 236E-4, Hawaii Revised Statutes, which requires the department to annually submit a measure to maintain state estate and generation-skipping tax conformity with the federal Internal Revenue Code. The purpose of conformity is to update the state tax laws with those changes made to the federal Internal Revenue Code during the past year and to adopt those changes that are appropriate for Hawaii law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2921 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2664 Judiciary and Labor on S.B. No. 2419

The purpose and intent of this measure is to propose a constitutional amendment to require the gubernatorial nominee from each political party to appoint a person from the same political party as a running mate for lieutenant governor in the general election.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this proposed constitutional amendment will help to support a more unified, productive, and constructive elected administration for the State.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2419 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2665 Judiciary and Labor on S.B. No. 2498

The purpose and intent of this measure is to propose a constitutional amendment to:

- (1) Require written notice to the Senate for consent to a judicial appointment concurrent with the Governor's, Chief Justice's, or Judicial Selection Commission's appointment of the justice or judge; and
- (2) Clarify that the Senate's thirty-day period to reject a judicial appointment begins on the Senate's receipt of written notice of the Governor's, Chief Justice's, or Judicial Selection Commission's appointment.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that this measure would clarify responsibilities and procedures with regard to judicial appointments pursuant to article VI, section 3, of the Constitution of the State of Hawaii. Specifically, this measure would seek to avoid the situation that occurred in 2012 with regard to the appointment of a Supreme Court justice by the Governor. In that situation, the Governor informed the Senate of the appointment thirty-two days after being presented with a list of nominees from the Judicial Selection Commission, which was two days after the expiration of the constitutionally mandated thirty-day time period. However, the appointment was

deemed valid by the Attorney General under the reasoning that the Governor's initial press conference to announce the nomination occurred five days prior to the expiration of the thirty-day period and was thus determined to be an open and unequivocal act of providing notice to the Senate. Consequently, the Attorney General's determination of the date of the Governor's appointment effectively shortened the Senate's constitutionally authorized thirty days to consider the appointment.

Thus, your Committee further finds that it would be beneficial for the state constitution to be amended to clarify that written notice of a nomination must be given to the Legislature to ensure that the Senate is provided its full thirty-day period to confirm or reject a judicial nominee. Your Committee also notes that it engaged in discussions regarding whether the Senate's constitutionally mandated thirty-day period to reject a judicial appointment is sufficient for the Senate to appropriately make its decision.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2498 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard). Noes, none. Excused, 1 (Slom).

SCRep. 2666 Ways and Means on S.B. No. 2972

The purpose and intent of this measure is to require, and appropriate moneys for, the University of Hawaii Sea Grant College Program to create a North Shore beach management plan for the island of Oahu.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawaii System, Department of Design and Construction of the City and County of Honolulu, Hawaii Shore and Beach Preservation Association, Keep the North Shore Country, Land Use Research Foundation, and five individuals.

Your Committee finds that several important beaches on the North Shore of Oahu are at increasing risk of erosion and deterioration due to high energy waves, heavy winter surf, tsunami events, sea level rise and climate change, and intensive use by people who access the shoreline. Therefore, the creation of a comprehensive assessment and modern management plan for the North Shore's northwest-facing coastline would provide important guidance for establishing specific beach management policies and practices to benefit this important area.

Your Committee notes that, during its deliberations on the state budget, this Committee will consider appropriating moneys for the North Shore beach management plan from the beach restoration special fund rather than the general revenues of the State.

Your Committee has amended this measure by requiring that the University of Hawaii Sea Grant College Program submit the North Shore beach management plan to the Governor and the Legislature no later than twenty days prior to the convening of the Regular Session of 2019.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2972, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2972, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Taniguchi).

SCRep. 2667 Ways and Means on S.B. No. 3084

The purpose and intent of this measure is to disallow the tax credit for cesspool upgrade, conversion, or connection for taxpayers whose adjusted gross income exceeds certain amounts.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council, Hawaii Farm Bureau, and Ponoholo Ranch Limited.

Your Committee received comments on this measure from the Department of Health, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that, in order to reduce the contamination of groundwater, drinking water sources, streams, and the ocean caused by cesspool pollution, Act 120, Session Laws of Hawaii 2015, established a temporary income tax credit for taxpayers who upgrade or convert a qualified cesspool into a septic system or an aerobic treatment unit system, or connect a qualified cesspool to a sewer system. The tax credit has an aggregate cap of \$5,000,000 per taxable year. Your Committee further finds that the intent of this measure is to ensure that taxpayers who are most in need of tax relief will be able to claim this credit.

Your Committee believes that, as this measure moves forward, the Department of Taxation, in consultation with the Department of Health, should consider and make recommendations on how to mitigate the impact on taxpayers whose adjusted gross income levels are close enough to the disallowance threshold that their eligibility to claim the tax credit becomes uncertain. Your Committee further believes that the counties should also offer incentives for the upgrade, conversion, or connection of cesspools.

Your Committee has amended this measure by:

- (1) Clarifying that eligibility to claim the tax credit is based on a taxpayer's federal adjusted gross income, rather than state adjusted gross income; and
- (2) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3084, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3084, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Riviere, Slom). Noes, none. Excused, 2 (Chun Oakland, Taniguchi).

SCRep. 2668 (Joint) Economic Development, Environment, and Technology and Commerce, Consumer Protection, and Health on S.B. No. 1000

The purpose and intent of this measure is to establish within the Department of Accounting and General Services an Office of Information Technology, which consolidates the functions of the Chief Information Officer, Office of Information Management and Technology, and Department of Accounting and General Services' Information and Communication Services Division.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language to require cable operators to disclose to customers and prospective customers the minimum bandwidth that shall be provided and maximum bandwidth available, for cable communication services.

Your Committees received testimony in support of the proposed S.D. 1 from two individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from Oceanic Time Warner Cable and Hawaiian Telcom. Your Committees received comments on the proposed S.D. 1 from the Cable Television Division of the Department of Commerce and Consumer Affairs.

Your Committees find that cable communication services are often offered at varying bandwidth capacities, or internet speeds, with higher maximum speeds resulting in higher costs of the service. However, a customer paying for such services will not always experience the highest internet speed due to a variety of conditions, which include the performance of a customer's computer, the type of connection between a customer's computer and modem, the distance packets travel between a customer's computer and its final destination, the congestion or high-usage levels at the website or destination, and the capacity, speeds, or access limited by the website or destination. Your Committees find that a cable communication services provider should disclose bandwidth information so that customers are fully aware of the range of internet speeds the customer is likely to experience and to allow for better informed consumer decisions when choosing cable communication services.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by requiring cable operators to disclose to customers and prospective customers a statement that outside factors may affect the actual bandwidth received, rather than the minimum bandwidth that shall be provided.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1000, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1000, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 7. Noes, none. Excused, 2 (Galuteria, Ruderman).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2669 Commerce, Consumer Protection, and Health on S.B. No. 2679

The purpose and intent of this measure is to increase certain consumer protection aspects of the deferred deposit loan industry, including:

- (1) Specifying that a customer has the right to rescind a deferred deposit if certain conditions are met;
- (2) Permitting a customer to convert a deferred deposit into a loan installment plan under certain circumstances;
- (3) Protecting against harmful collection practices;
- (4) Defining annual percentage rate;
- (5) Improving loan disclosure requirements;
- (6) Capping the annual percentage rate for deferred deposit of a personal check at no more than thirty-six percent; and
- (7) Permitting prepayment of deferred deposit agreements with no additional fees.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Office of the Auditor, Office of Hawaiian Affairs, The CHOW Project, Community Alliance on Prisons, Catholic Charities Hawai'i, Hawai'i Appleseed Center for Law and Economic Justice, Faith Action for Community Equity, and six individuals. Your Committee received testimony in opposition to this measure from Dollar Financial Group, Inc.; Money Service Centers of Hawaii, Inc.; and Maui Loan Inc. Your Committee received comments on this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs and one individual.

Your Committee finds that deferred deposit agreements, commonly referred to as payday loans, are small, short term, unsecured loans that borrowers commit to repay from their next paycheck or a regular income payment. A study by the Pew Charitable Trusts found that the majority of borrowers use deferred deposit agreements for recurring expenses, rather than unexpected expenses or emergencies, because they live paycheck to paycheck. According to testimony received by your Committee, only two percent of borrowers can afford to pay off a deferred deposit the first time. As a result, four out of five deferred deposit borrowers either default or renew a deferred deposit loan over the course of a year. Furthermore, according to the Pew Charitable Trusts, the average deferred deposit loan borrower is in debt for almost six months a year and pays an average of \$520 in fees for \$375 in credit.

Your Committee further finds that this measure offers several protections for borrowers who take out deferred deposit loans, including capping the annual percentage rate of these types of loans at thirty-six percent. Existing state law permits check cashers to charge a fee of fifteen percent of the face value of a check for each transaction, which can amount to an annual percentage rate of four hundred sixty-five percent. Your Committee notes that the thirty-six percent cap proposed by this measure would be consistent with

the growing trend around the country to provide more consumer protections for these loans. According to testimony received by your Committee, sixteen jurisdictions have either capped deferred deposit agreements at thirty-six percent or banned these types of loans completely. The thirty-six percent cap also follows precedent established by the federal government, who in 2006 made it illegal to charge more than a thirty-six percent annual percentage rate on payday loans to active-duty service members and their families.

Your Committee additionally finds that the Division of Financial Institutions has offered suggestions that will help clarify certain aspects of this measure. Amendments to this measure incorporating these suggested clarifications are therefore necessary, although your Committee notes that additional clarification may be needed as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that a check casher shall return to a customer who exercises the right to rescind any postdated check taken as collateral;
- (2) Clarifying that if a customer notifies a check casher in writing regarding the customer's inability to repay a deferred deposit prior to the maturity of the loan term, then the check casher shall inform the customer about the ability to convert the deferred deposit to a loan installment plan;
- (3) Clarifying that a loan installment plan agreement shall provide payment terms for the total amount due on a deferred deposit; provided that the loan term shall be no longer than six months;
- (4) Specifying that payments for a loan installment plan shall not exceed five percent of a customer's monthly gross income, calculated at the time of conversion from a deferred deposit to a loan installment plan, and requiring the loan installment plan to provide for equal installment payments with the exception of the final loan installment payment;
- (5) Requiring a customer to provide proof of income at the time of conversion from a deferred deposit to a loan installment plan and specifying that if the customer fails to provide proof of income or does not have income, the deferred deposit shall become due and payable;
- (6) Specifying that all allowable outstanding principal, costs, and fees associated with a deferred deposit converted to a loan installment plan shall be amortized over the life of the loan installment plan;
- (7) Clarifying that a customer may pay the balance of a loan installment plan at any time;
- (8) Specifying that a customer who prepays a loan installment shall be refunded a prorated portion of unearned cost and fees, based on the ratio of time left before maturity to the loan installment term;
- (9) Specifying that a check casher's violation of any of the requirements for loan installment plans shall be a violation of the chapter relating to check cashing;
- (10) Clarifying that the restrictions on collection by check cashers or third parties apply to any employee, agent, or third party assignee of a check casher;
- (11) Clarifying the definition of "annual percentage rate";
- (12) Clarifying that the written agreement for deferred deposit shall not permit a check casher to accept collateral, except for the customer's postdated personal check;
- (13) Clarifying that any fees, costs, and interest charged for deferred deposit of a personal check in compliance with the check cashing law shall be exempt from the usury law;
- (14) Specifying that a customer who prepays a deferred deposit shall be refunded a prorated portion of unearned cost and fees, based on the ratio of time left before maturity to the loan term; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2679, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2679, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2670 Judiciary and Labor on S.B. No. 2112

The purpose and intent of this measure is to authorize the court to use a facility dog in a judicial proceeding if the court determines that there is a compelling necessity to facilitate the testimony of a vulnerable witness.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Hawai'i; Office of the Prosecuting Attorney, County of Kaua'i; Hawaii Youth Services Network; Hawaiian Humane Society; The Children's Alliance; and one individual.

Your Committee finds that testifying in court can be an unsettling and sometimes terrifying ordeal and the presence of a well-trained dog can aid in witness testimony by providing the witness with emotional support and comfort in the witness room and courtroom. The Department of the Prosecuting Attorney of the City and County of Honolulu testified that since 2011, the Department's facility dog, Pono, has assisted children and other traumatized crime victims during interviews, in witness waiting rooms, and occasionally in courtrooms. Although Pono has been allowed to be present and accompany children during actual court proceedings, there are no clear and specific criteria for permitting the use of facility dogs in Hawaii's courtrooms. This measure provides authorization and procedures for the use of facility dogs to facilitate the testimony of a vulnerable witness.

However, your Committee has concerns regarding the portion of the definition of "facility dog" that specifies an assistance dog accreditation organization. Your Committee believes that language in the definition needs further discussion in order to use generic terminology to refer to the accreditation organization.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2112, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2112, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2671 Judiciary and Labor on S.B. No. 2600

The purpose and intent of this measure is to:

- (1) Repeal the standards that:
 - (A) Require a liberal interpretation of the State Ethics Code; and
 - (B) Allow the determinations of gift law violations under the State Ethics Code to be based upon an inference of impropriety, to instead require a finding of actual intent to influence the recipient of the gift;
- (2) Require State Ethics Commission advisory opinions to be approved and signed by a majority of the commission members; and
- (3) Require that two of the five members of the State Ethics Commission be appointed by the Legislature, with each house appointing one member.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, and IMUAlliance. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, League of Women Voters of Hawaii, Open Law Alliance, and eight individuals.

Your Committee finds that the State Ethics Commission, upon request, issues advisory opinions on whether the facts and circumstances of a particular case constitute or will constitute a violation of the State Ethics Code. In Advisory Opinion No. 2015-1, the Commission found ethical violations in the longstanding practice of public school teachers receiving free travel and other benefits from tour companies when chaperoning students on out-of-state educational trips. The Commission determined that the dual role as teacher and tour company representative places public school teachers in a conflict of interest under the State Ethics Code and also raises concerns under the gifts law and the fair treatment law. Some believe that this advisory opinion may have an unintended effect of depriving students of valuable learning opportunities outside of the classroom, by making it difficult for teachers to afford activities that are largely contingent upon their participation and may be based on a subjective and overly broad application of the State Ethics Code. This measure creates a more narrow interpretation and application of the State Ethics Code and gifts law.

Your Committee notes the concerns raised by the State Ethics Commission that this measure will significantly lower the minimum standards of conduct required of state employees and will erode public confidence in state government. The Commission stated in its written testimony that its advisory opinion was intended to help teachers and the Department of Education understand how the State Ethics Code applied to a school's Spring Break trip and the Commission's concerns were based on the way the trips were structured. The Commission has explained that the issues with the State Ethics Code under its advisory opinion can be addressed if the trips are organized differently, such as if the teachers are not directly involved in selecting the company and soliciting the student and their parents. While noting that changing the ways school trips are organized may add extra time and work for teachers and schools, the Executive Director of the State Ethics Commission testified that public confidence in government will be upheld because the established process will be followed without the appearance of impropriety.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the purpose section;
- (2) Deleting language that would have amended the laws relating to gifts, the composition and appointing authorities of the members of the State Ethics Commission, and the interpretation of the State Ethics Code;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2600, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2600, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2672 Judiciary and Labor on S.B. No. 3080

The purpose and intent of this measure is to establish the offense of theft of urn as a class C felony.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that this measure will help to prevent persons from stealing urns from cemeteries. Your Committee notes the testimony that indicates that a person may steal an urn for the urn's metal redemption value and suggests adding language to prohibit

the sale of urns to metal recyclers and establish penalties against the metal recyclers who accept and pay for urns. However, your Committee has concerns that amending this measure to add metal recycling prohibitions may not fit within its title, relating to theft.

Accordingly, your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3080, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3080, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2673 Judiciary and Labor on S.B. No. 3036

The purpose and intent of this measure is to clarify that under the State's anti-discrimination law, as set forth in part I of chapter 378, Hawaii Revised Statutes, an employer, employment agency, or labor organization may refuse to hire or refer, or discharge any individual for reasons unrelated to discriminatory practices, equal pay, criminal conviction records, or credit history.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii and Society for Human Resource Management, Hawaii Chapter. Your Committee received testimony in opposition to this measure from the Hawai'i Civil Rights Commission, ILWU Local 142, and two individuals.

Your Committee finds that the State's employment practices laws relating to discriminatory practices, equal pay, criminal conviction records, and credit history were enacted to prohibit employment discrimination against individuals based upon protected categories, but were not intended to prevent employers from taking employment action for other unrelated reasons. Implementation of this measure clarifies that an employer, employment agency, or labor organization may refuse to hire or refer, or discharge any individual for reasons unrelated to discriminatory practices, equal pay, criminal conviction records, or credit history.

Your Committee has amended this measure by:

- (1) Reinserting language to clarify that an employer may refuse to hire or refer, or discharge an individual for reasons relating to the ability of the individual to perform the work in question; provided that the employment policy is applied in a nondiscriminatory manner and unrelated to discriminatory practices, equal pay, criminal conviction records, or credit history;
- (2) Amending section 1 to reflect the amended purpose;
- (3) Inserting an effective date of January 7, 2059, for the purposes of clarity and consistency; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3036, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3036, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2674 Judiciary and Labor on S.B. No. 2964

The purpose of this measure is to implement recommendations made by the Penal Code Review Committee pursuant to House Concurrent Resolution No. 155, S.D. 1 (2015).

Specifically, this measure amends various chapters of the Hawaii Penal Code and makes conforming amendments to several related sections of the Hawaii Revised Statutes outside the penal code.

The Department of Health, Ho'omana Pono, LLC, and one individual submitted testimony in support of this measure.

The Department of the Attorney General, the Crime Victim Compensation Commission, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Office of the Prosecuting Attorney of the County of Kauai, and the Sex Abuse Treatment Center submitted testimony in support of this measure with amendments.

The White Collar Crime Unit of the Department of the Prosecuting Attorney of the City and County of Honolulu submitted testimony in opposition to a portion of this measure.

Your Committee finds that this measure reflects the significant and thorough work of the Penal Code Review Committee, which was established pursuant to House Concurrent Resolution No. 155, S.D. 1 (2015). After evaluating the Hawaii Penal Code, as well as other related statutes, the Penal Code Review Committee made eighty-four recommendations that were adapted into the current measure, which is composed of more than seventy sections.

The Report of the Penal Code Review Committee was submitted to the Legislature on December 31, 2015, and contains analysis and rationale for each recommendation. It is your Committee's intent that the Report of the Penal Code Review Committee should be considered as an attachment to this committee report. A copy of the Report of the Penal Code Review Committee is available at: http://www.courts.state.hi.us/docs/news_and_reports_docs/2015_PENAL_CODE_REVIEW_REPORT-FINAL-12-30-15.pdf.

Your Committee notes that the Penal Code Review Committee, as appointed by the Chief Justice, consisted of a diverse and balanced body of members representing different agencies from the law enforcement community, the defense bar, trial and appellate court judges, one Supreme Court justice, crime victims' rights organizations, the Department of Public Safety, and the Office of Hawaiian Affairs, among others. Although robust discussion on certain proposed changes to the Hawaii Penal Code did occasionally

result in minority opinions, your Committee wishes to emphasize that in many instances counter-balancing proposals were explored and incorporated into the final report to the Legislature. Thus, the recommendations of the Penal Code Review Committee, as reflected in this measure, collectively represent the majority consensus view expressed by this diverse panel, taking into account the experiences of the members who work in or interact with the criminal justice system.

Your Committee also notes concerns expressed by the Department of the Prosecuting Attorney, City and County of Honolulu, with regard to the repeal of section 708-893(1)(a), Hawaii Revised Statutes, concerning intentional use of a computer to obtain control over the property of a victim to commit theft. Your Committee wishes to note, however, that the Penal Code Review Committee carefully considered the issues presented, and decided that the felony penalties for first and second degree theft are sufficient without the enhancement provided by this section of the statute, and that, without repeal, the prevalence of smartphones in today's society may result in a rash of unduly harsh class A felony charges.

Your Committee further notes concerns expressed by various law enforcement stakeholders that raising the felony threshold amounts for theft in sections 708-831, 708-832, and 708-833, Hawaii Revised Statutes, may not be prudent. Your Committee finds, however, that the Legislature passed S.B. No. 569, C.D. 1 (2015), amending section 708-831, Hawaii Revised Statutes, in the same manner as proposed in this measure, that the felony theft threshold amount has not been revised in the past three decades, and that the other amendments proposed to other statutes in this measure reflect proportional or conforming increased thresholds. Moreover, the Penal Code Review Committee noted that the increased threshold amounts for theft in this measure are counter-balanced by an amendment to the habitual property crime statute that broadens the retrospective time frame for multiple offenses from five years to ten years, thereby providing law enforcement with greater opportunity to charge repeat property crime offenders with a class C felony.

Your Committee also notes the concern expressed by the Department of the Prosecuting Attorney, City and County of Honolulu, that habitual property crime does not pertain to lower level petty misdemeanor offenses, but to the extent that neither the Penal Code Review Committee nor this measure addresses petty misdemeanor property crime, that topic might be more suitable for a separate discussion and future legislation.

Finally, your Committee expresses concern that the revised penalties resulting from amendments to the statutes covering methamphetamine trafficking may be applied anomalously. In some instances, persons still in the course of prosecution at the time of enactment of this measure would be subject to the harsher penalties in effect at the time of the first charging of the offense. Your Committee notes the possibility of confusion or litigation arising from this situation, and will continue to seek input from interested stakeholders concerning a revision to the effective date of this measure so as to not result in disproportionate or unjust penalties for such persons.

Your Committee has amended this measure by:

- (1) Providing that sections 54, 55, and 56 of this Act shall apply to offenses committed before the effective date of this Act, under certain conditions;
- (2) Changing the effective date to January 7, 2059, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2964, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2964, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 3 (Gabbard, Shimabukuro, Slom).

SCRep. 2675 Judiciary and Labor on S.B. No. 2580

The purpose and intent of this measure is to add deer to the list of animals included in the offense of theft of livestock.

Your Committee received testimony in support of this measure from Molokai Wildlife Management, LLC; and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the types of livestock covered under the offense of theft of livestock does not include deer. As a result, farmers and ranchers who raise and sell deer in the commercial market are not protected under the law from poachers who encroach on their private lands to hunt deer. This measure provides a stronger deterrent against poaching of deer.

Your Committee has amended this measure by:

- (1) Requiring the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources to submit a report to the Legislature regarding the Division's enforcement activities with respect to poaching on private lands;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2580, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2580, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kahele, Kim).

SCRep. 2676 Judiciary and Labor on S.B. No. 2955

The purpose and intent of this measure is to:

- (1) Authorize the chief of police of the respective counties to issue permits to acquire firearms to permanent resident aliens age twenty-one years or more;
- (2) Repeal the authority of the chief of police of the respective counties to issue firearm permits to acquire firearms to aliens who are state law enforcement officers, aliens with a hunting license age eighteen years or more for use of rifles and shotguns, aliens age twenty-one years or more for a specific organized sport-shooting contest, and spouses jointly;
- (3) Require the issuing authority for firearm permits to perform an inquiry on an applicant using the Criminal Justice Information System, National Law Enforcement Telecommunications System including the United States Immigration and Customs Enforcement query therein, National Crime Information Center, and National Instant Criminal Background Check System; and
- (4) Authorize a county issuing a firearm permit to charge a single fee chargeable by and payable to the issuing county, for individuals applying for their first permit, in an amount equal to the fee charged by the Hawaii Criminal Justice Data Center.

Your Committee received testimony in support of this measure from the Police Department, City and County of Honolulu; and twenty-nine individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association and five individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that criminal background checks of firearm applicants are critical to ensure the safety of the community. Implementation of this measure will further public safety by clarifying the background check process and allowing county police departments to enroll firearm applicants into the rap back program, which will provide a mechanism to alert a county police department when the owner of a firearm is arrested for a criminal offense anywhere in the country. This notification will allow the county police departments to evaluate whether the firearm owner may continue to legally possess and own firearms.

Your Committee has amended this measure by:

- (1) Replacing “rap back system” with “rap back program”;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2955, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2955, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gabbard, Kahele, Kim).

SCRep. 2677 Ways and Means on S.B. No. 2925

The purpose and intent of this measure is to specify that taxpayers who file an amended return under section 235-101, Hawaii Revised Statutes, may not claim a refund unless the refund is claimed within the time limits established by section 235-111, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Chamber of Commerce Hawaii and Tax Foundation of Hawaii.

Your Committee finds that this measure is intended to address the possibility that a taxpayer who has failed to file a refund claim within the time limits established by section 235-111, Hawaii Revised Statutes, may seek to extend the statute of limitations by merely submitting an amended federal tax return, even if no substantive changes are made to the return and irrespective of whether the return is actually accepted by the Internal Revenue Service.

However, your Committee has received testimony raising concerns that the measure, as currently drafted, is confusing and could lead to unfair treatment of taxpayers. In order to address these concerns, the Department of Taxation provided proposed language that replaces the measure’s current amendments to section 235-101, Hawaii Revised Statutes, with amendments to specify that the untimely filing of an amended federal income tax return does not reopen Hawaii’s statute of limitations for claiming a tax refund. Your Committee notes that the proposed language is similar to recommendations made by the Tax Foundation of Hawaii.

Your Committee has amended this measure by deleting the original amendments to section 235-101, Hawaii Revised Statutes, and replacing them with the amendments recommended by the Department of Taxation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2925, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2925, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2678 (Joint) Economic Development, Environment, and Technology and Ways and Means on S.B. No. 3110

The purpose and intent of this measure is to extend the appropriation to the Department of Business, Economic Development, and Technology for the High Technology Development Corporation to provide grants to businesses with a federal Phase II or III Small Business Innovation Research award through fiscal year 2016-2017.

Your Committees received testimony in support of this measure from the High Technology Development Corporation, Chamber of Commerce Hawaii, and Hawaii Aquaculture and Aquaponics Association.

Your Committees find that since 1989, the High Technology Development Corporation has been assisting Phase I Small Business Innovation Research award recipients to reach their commercial potential through the provision of grants. This has proven to be successful for both the businesses awarded a grant and the State: every dollar invested through this grant program has been leveraged to attract approximately \$20 in federal funds as well as additional commercialization funding. Your Committees find that expanding the scope of the grant program for Phase II and Phase III awards will allow for more companies to achieve commercialization and increase the beneficial economic impacts of this program to the State.

Your Committees have amended this measure by retaining the fiscal year 2015-2016 appropriation but providing that the sum appropriated shall not lapse at the end of fiscal year 2015-2016 and that all monies that are unencumbered as of June 30, 2017, shall lapse as of that date.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3110, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3110, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 9. Noes, none. Excused, none.

Ways and Means: Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Riviere, Taniguchi).

SCRep. 2679 (Joint) Economic Development, Environment, and Technology and Ways and Means on S.B. No. 3109

The purpose and intent of this measure is to extend the appropriation to the High Technology Development Corporation for the manufacturing development program through fiscal year 2016-2017.

Your Committees received testimony in support of this measure from the High Technology Development Corporation; Chamber of Commerce Hawaii; Hawaii Aquaculture and Aquaponics Association; Meadow Gold Dairies; and KYD, Inc. dba K. Yamada Distributors.

Your Committees find that manufacturers in Hawaii produce goods that are in demand across the United States and around the world. Thus, there is a great need for Hawaii to develop and support manufacturing in the State to reduce Hawaii's need to import consumer products and to achieve greater economic development. The lack of available resources and the overuse of obsolete equipment have had a detrimental effect on the market competitiveness of Hawaii businesses. Your Committees further find that it is incumbent upon the State to ease the financial burdens facing particular businesses that will work to ensure the long-term financial and economic sustainability of the State. Your Committees believe that, through the provision of grants, the manufacturing development program provides financial benefits to manufacturers, thereby increasing their growth and encouraging other manufacturers to begin operations in Hawaii, to strengthen Hawaii's economy.

Your Committees have amended this measure by retaining the fiscal year 2015-2016 appropriation but providing that the sum appropriated shall not lapse at the end of fiscal year 2015-2016 and that all monies that are unencumbered as of June 30, 2017, shall lapse as of that date.

As affirmed by the records of votes of the members of your Committees on Economic Development, Environment, and Technology and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3109, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3109, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Economic Development, Environment, and Technology: Ayes, 9. Noes, none. Excused, none.

Ways and Means: Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Riviere, Taniguchi).

SCRep. 2680 (Joint) Judiciary and Labor and Human Services on S.B. No. 2397

The purpose and intent of this measure is to require hospitals to adopt and maintain discharge policies to ensure that patients continue to receive necessary care after leaving the hospital.
