Stand. Com. Rep. No. 667 (S.B. No. 776, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 667 be adopted and S.B. No. 776, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Gabbard requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Gabbard's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 776, S.D. 2.

"Colleagues, all our districts are somehow or other dealing with the negative impacts of invasive species. Whether it's Little Fire Ants, Rapid 'Ōhi'a Death, Coconut Rhinoceros Beetles, Miconia, Coqui frogs, and the list goes on...

"Just last week, I was over on Moloka'i on a farm tour and learned that there are 60,000 invasive deer on that island. Because of the deer problem, I was told over and over that it's impossible to farm at this point without fencing.

"Governor Ige launched the 2017-2027 Hawai'i Interagency Biosecurity Plan at the World Conservation Congress last September. S.B. 776, S.D. 2 is a key component of that plan and very important in our fight against invasive species. The bill

would create the Hawai'i Invasive Species Authority as an attached agency to the Department of Agriculture and would increase the state's coordination efforts in reducing the threat of invasive species in our islands. The establishment of the Authority would expand upon the existing Hawai'i Invasive Species Council by adding additional expertise to the interagency Board of Directors, authorizing the Board to hire staff as necessary, and mandating new duties relating to the coordination of interagency invasive species and biosecurity efforts. The bill would also fund positions and operational expenses for the Authority and provide funding for interagency projects and research

"Please join me in supporting this important bill. Mahalo."

The Chair having so ordered, Senator Gabbard's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 773, S.D. 2.

"Colleagues, as you know last session, we worked for the passage of S.B. 2659 which became Act 228, establishing a 5-year industrial hemp pilot program under the Department of Agriculture to allow the cultivation of industrial hemp for agricultural and academic research. So, you may be asking, what's the status of the hemp program? DOA is currently working on the Admin Rules which will be in place on July 1st and the RFP for the seed development will be out by next week. The plan is for hemp growers to begin applying for licenses by January 2018.

"S.B. 773, S.D. 2 would provide funding for the pilot program for the upcoming biennium, create a special fund where the licensing fees could be deposited, and make other needed adjustments to the program to ensure its success.

"As I travel across the state visiting farms, I can assure you that many farmers are chomping at the bit to get that hemp seed in the ground. I'm hopeful we'll soon be seeing some of that \$620 million in annual U.S. hemp sales staying in Hawai'i, where local residents can benefit from this incredible plant. As I've said many times before in this chamber, Hawaiian-grown hemp and its value added products will become a huge boon to our economy.

"Mahalo and Hemp, hemp, hooray!"

Senator Tokuda moved that Stand. Com. Rep. No. 812 be adopted and S.B. No. 778, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Gabbard requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Gabbard's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 778, S.D. 1.

"For the last several years, public concerns about pesticide use in our state has been a big topic. There has been county legislative action, public events and marches, and a lot of questions about potential negative health effects of exposure to pesticides. As you'll recall, on November 18, 2016, federal Judge Consuelo Callahan ruled that Kaua'i, Maui, and Hawai'i counties can't enact their own bans or regulations on genetically modified crops and pesticides. This court decision upheld a lower court's decision saying Hawai'i law prohibits counties from regulating ag matters. The federal court also made it clear that pesticide regulation was the responsibility of the state.

"It's clear to me that this issue isn't going to go away and we need to act. Going into the session, I was looking for a win-win on the pesticide issue. The Pesticide Use Joint Fact Finding Study Group Report, 'Pesticide Use by Large Agribusinesses on Kauai' came out last year and I thought their recommendations were something that we should strongly consider. The study group was led by Peter Adler and included nine Kaua'i residents with science backgrounds and was funded by the Department of Ag and Kaua'i County with \$175,000. The report calls on Governor Ige to ensure that state agencies have enough staff and resources to fulfill their responsibilities regarding pesticides. It called for \$3 million to implement the study's recommendations which focus on efforts to:

- 1) increase human and environmental safety;
- 2) further determine the presence of pesticides in people, plants, and animals;
- 3) achieve the greatest possible transparency and public access to data while respecting information that must legally remain confidential; and
- 4) advance public understanding of agricultural pesticides.

"S.B. 778 follows this path and would appropriate funding to the DOA to implement the findings and recommendations of the Joint Fact Finding Study Group's report on pesticide use by large agribusinesses on Kaua'i. Please join me in supporting this important bill."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 812 was adopted and S.B. No. 778, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PESTICIDES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

MATTER DEFERRED FROM FRIDAY, MARCH 3, 2017

S.B. No. 380:

Senator Baker moved that S.B. No. 380, having been read throughout, pass Third Reading, seconded by Senator Nishihara.

Senator Baker rose to speak in support of the measure as follows:

"In some of the conversations I've had with some of my colleagues, there seems to be some misunderstanding about this

bill. I wanted to try to provide an explanation for the bill and regret that I was not able to thoroughly explain when we had some earlier conversations about what a hygienist can do with regard to administering anesthesia. First, let me say that hygienists are licensed professionals: They have a course of study that they must go through in order to obtain their license. No dental hygienist is licensed or permitted by statute or rule to administer sedation – that means putting somebody under for which they have to be brought out of that sedative state. Only a licensed dentist is allowed to do that kind of sedation. And the unfortunate and horrible situation that happened about a year ago in Kailua involved an untrained, unlicensed dental assistant when it was the dentist who should have been administering those sedatives. The only way a dentist can delegate to another professional is with board approval and it can only be to a nurse, anesthetist, or a physician, and that delegation has to be approved by the Board of Dental Examiners. So, in that case, both the dentist and dental assistant were wrong, and both of them are under criminal indictment; and, as a result, the Board of Dental Examiners has improved their rules and regulations for dentists administering such sedation. The dentist now has to have a particular certification. It is not just any dentist who can perform those procedures.

“But I know there was a question of me about the language of the bill because it talks about hygienists being able to do intra-oral infiltration local anesthesia and intra-oral block anesthesia. Well, what do those terms mean? So I asked specifically the Board of Dental Examiners to give me the layman’s terms. In simplest terms it means numbing. Specifically, intra-oral infiltration local anesthesia numbs a specific spot or a specific tooth; intra-oral block anesthesia is a procedure that numbs an area of teeth. So, sometimes it’s done with a spray or a gel; sometimes it’s done with an injection – but it’s a specific area in your mouth; it’s not intravenous; it’s not ‘put a mask on,’ and you don’t go under. A patient is not sedated with intra-oral or intra-oral block anesthesia. It is a numbing action and, for that, hygienists have a specific certification in order to do those procedures.

“So the language in Senate Bill 380 is consistent with what hygienists are trained to do. They would be doing it in a dental office with the dentist in the area, and they would not be sedating – putting somebody out – with an intra-oral infiltration local anesthesia or a block anesthesia. I also have copies of the Hawai’i Revised Statutes that say a licensed dental assistant may administer these two items in supervision of a dentist after being certified by the Board, and for those categories of intra-oral infiltration local anesthesia and intra-oral block anesthesia for which the licensed dental hygienist has been certified through a course of study meeting the requirements of this chapter. So the only thing that we’re changing is from ‘direct supervision’ to ‘general supervision,’ and general supervision is exactly what hygienists working in public settings are under with their dentist-employer. I think the rules that we have are very specific with both the HAR and HRS; and, Mr. President, I’d like permission to submit both the copies of the relevant sections of the Hawai’i Administrative Rules for this as well as the Hawai’i Revised Statutes that explains specifically what these items are. It seems to me that we allow it in a public setting. This is consistent practice; it is a licensed activity – that’s why dental assistants don’t do these things: they’re not licensed; they’re untrained. And perhaps what we should be looking at next year is to make sure that all of the folks who work in the dental office have some certification or licensure to make sure that we don’t have untrained, unlicensed people making bad decisions and, ultimately, hurting somebody or taking a life. So with those remarks, I ask my colleagues to join me in supporting Senate Bill 380. Mahalo.”

The Chair having so ordered, the excerpts are identified as “**ATTACHMENT A**” to the Journal of this day.

Senator Thielen rose to speak in support of the measure as follows:

“I want to thank the committee chair for the homework that she’s done and her responding to the concern raised by myself, because of that traumatic event in my community. I’m going to withdraw my reservations based on the information that she gave, so I’m rising in support of the measure. Thank you.”

The motion was put by the Chair and carried, S.B. No. 380, entitled: “A BILL FOR AN ACT RELATING TO DENTAL HYGIENISTS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

THIRD READING

S.B. No. 513, S.D. 1:

Senator Baker moved that S.B. No. 513, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Nishihara.

Senator Riviere rose to speak in opposition to the measure as follows:

“I’m rising in opposition and the reason is – and I may be misreading this, and I spoke with the chair, so if I’m misreading this, an apology is in order. But at this point, to my reading – and I’ve read the bill several times – I believe it is silent on whether or not minors can go to a pharmacy and receive their contraceptives. I know this is a hot subject for many reasons. I’m always falling on the side of parental responsibility and parental control, so, to my reading of the bill, I don’t see that there is any parental authority required for minors. If it clearly stated that it was adults only or with consent of a parent, then I would support it, but with my reading, I cannot support it in this form. Thank you.”

Senator Baker rose to speak in strong support of the measure as follows:

“This is a Women’s Legislative Caucus measure, and the idea is to make contraceptive supplies more available to adult women. Pharmacists cannot provide anything to someone less than an adult unless there is an age specifically written in. It’s clear from the reading of the bill that it is for adult women, which means somebody over the age of 18. Pharmacists have to have some additional requirements in order to be able to prescribe contraceptive supplies, and it really is designed – initially started out looking at college women, how they sometimes have to go off and they needed a 12-month supply, so we did that, and now we’ve also tried to make it available without having to go to see a physician or a nurse practitioner just to get your supplies. And this is clearly in their statute: It’s adults. All of the other areas where we’ve asked pharmacists to do vaccines, we’ve put a specific age requirement in there, and so their statute reads, I think, fairly clearly if you look at the totality of what we ask pharmacists and enable pharmacists to do, and so I ask my colleagues to join me in voting in support of this measure. Mahalo.”

The motion was put by the Chair and carried, S.B. No. 513, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO CONTRACEPTIVE SUPPLIES,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Riviere).

S.B. No. 514, S.D. 1:

On motion by Senator Baker, seconded by Senator Nishihara and carried, S.B. No. 514, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO HEALTH,” having been read throughout,

passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 865, S.D. 1:

On motion by Senator Baker, seconded by Senator Nishihara and carried, S.B. No. 865, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CONTRACTORS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Riviere). Noes, none.

S.B. No. 859, S.D. 1:

On motion by Senator Keith-Agaran, seconded by Senator Rhoads and carried, S.B. No. 859, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO WORKERS' COMPENSATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Thielen). Noes, none.

S.B. No. 389, S.D. 1:

Senator Inouye moved that S.B. No. 389, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Kim rose to speak in opposition to the measure as follows:

"I understand the concerns over this highway; I just think that it's a slippery slope when we start to do speed limits, and if this bill passes ultimately, I'm going to be introducing one for H-1 because I think those speed limits are off. Thank you."

Senator Harimoto rose to speak in opposition to the measure as follows:

"The Department of Transportation establishes the highway speed limits based on engineers looking at the design standards of the roads and taking other factors into consideration, so I really believe that it's not a good policy for us to set the speed limit via law. If something happens and DOT needs to change the speed limit, they can't. Thank you."

Senator Baker rose to speak in support of the measure as follows:

"Thank you, Mr. President. Colleagues, I rise in support of this measure and want to thank the chair of the Transportation and Energy Committee for moving this measure forward to address the concerns of many of us on the west side of Maui, and believe that it's important to have a measure like this to move forward to make sure that DOT, in fact, comes back and looks at our highways and looks at appropriate speed levels. When you have a significant grade and the speed limit is 10 miles, there's no way that a tractor-trailer, a bus, a vehicle of any weight can get up that, and that's what's on some of our roads, particularly the Lahaina Bypass. So I appreciate the opportunity of my colleagues to let this go forward so that DOT gets the message and will work with us to provide more appropriate limits."

The motion was put by the Chair and carried, S.B. No. 389, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO TRANSPORTATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21; Ayes with Reservations (Riviere, Ruderman). Noes, 4 (Green, Harimoto, Kim, Thielen).

S.B. No. 376, S.D. 1:

On motion by Senator Baker, seconded by Senator Inouye and carried, S.B. No. 376, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE INTERISLAND TRANSMISSION SYSTEM," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Gabbard).

Stand. Com. Rep. No. 634 (S.B. No. 134, S.D. 1):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 634 be adopted and S.B. No. 134, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Thielen rose to speak in support of the measure with reservations as follows:

"I just think the University of Hawai'i has the authority to do this, so I would encourage them to move forward and I'm not sure why we need to do this at the legislative level. Thank you."

Senator Baker rose to speak in support of the measure as follows:

"Thank you, Mr. President. I have some remarks in support of this measure I'd like to have inserted, but I would just like to note for my colleagues that this measure is in line with previous legislative action to provide no smoking on our DOE campuses and on our HHSC hospital premises. Mahalo."

The Chair having so ordered, Senator Baker's additional remarks read as follows:

"Mr. President, I stand in support of S.B. 134, S.D. 1, Relating to prohibiting smoking on University of Hawai'i premises.

"The purpose of this measure is to promote positive health practices and protect University of Hawai'i students, employees, and visitors from the exposure of secondhand smoke by prohibiting smoking, including the use of electronic smoking devices, and tobacco use on University of Hawai'i premises.

"Tobacco use continues to be the single most preventable cause of death and disability in Hawai'i as well in the United States. Cigarette smoking alone is responsible for more deaths than HIV/AIDS, alcohol, motor vehicle crashes, homicide, suicide, and illegal drugs combined. The growing popularity of electronic smoking devices is a public health concern. Sales have doubled each year since 2008.

"Tobacco-free college and university campuses present an opportunity to protect over 20,000,000 people across the country from the effects of smoking. As of January 2017, nearly 1,500 colleges and universities nationwide have adopted a completely tobacco-free policy and many colleges and universities are also including electronic smoking devices in their campus-wide bans. Smoke-free campuses also increase productivity and decrease sick time, decrease employee health care costs, and decrease the risk of fire. University of Hawai'i at Mānoa has asked us to help establish a smoke-free policy at their campuses.

"This measure will also demonstrate Hawaii's continued commitment to health. It is in line with previous legislation enacted to restrict smoking at Department of Education schools and facilities as well as hospitals of the Hawaii Health Systems Corporation.

"I ask my colleagues to join me in supporting S.B. 134."

Senator Riviere rose to speak in support of the measure with reservations as follows:

“Thank you; in support with a reservation and a brief comment: I’m supportive of this to the extent that it’s a public place and of the public health policies and such; as you will see later, I oppose when we go into private places and mandate these things. My reservation is that I do think it would be appropriate to have designated areas for people who would like to smoke. So I’m a little concerned it’s a little over-sweeping but support it with reservations. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 634 was adopted and S.B. No. 134, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Gabbard, Kim, Riviere, Taniguchi, Thielen). Noes, none.

Stand. Com. Rep. No. 636 (S.B. No. 332, S.D. 1):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 636 be adopted and S.B. No. 332, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Baker requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker’s remarks read as follows:

“Mr. President, I stand in strong support of S.B. 332, S.D. 1, Relating to Notaries Public.

“Currently, Hawai‘i notaries are required to accept Limited Purpose Drivers Licenses (LPDL). This type of identification does not comply with the REAL ID Act, meaning it does not meet the federal standards to board a plane. Without a REAL ID for verification, unscrupulous individuals can more easily commit fraud

“Notaries act in an official capacity to verify the identity of an individual through their ID. It is important that our laws help them to carry out their duties.

“Notaries need to know the identification they are reviewing meets the same federal standards of the REAL ID Act. Subsequently using a REAL ID compliant driver’s license will lessen the possibility of fraudulent documentation and thus help to create a more trustworthy transaction.

“I urge my colleagues to join me in supporting S.B. 332, S.D. 1. Mahalo.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 636 was adopted and S.B. No. 332, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO NOTARIES PUBLIC,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Thielen). Noes, none.

Stand. Com. Rep. No. 638 (S.B. No. 849, S.D. 2):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 638 be adopted and S.B. No. 849, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Thielen rose to speak in support of the measure with reservations as follows:

“I understand the need for taking a look at this, and I think the amendments that were made in the Senate do improve the bill. I guess I have reservations on a couple of issues. One, as I pointed out to the Department of Hawaiian Home Lands, I

would feel much more comfortable about passing this measure if they were providing more homesteads to people, because we have such a huge number of people on the waitlist. But the other is, I’m concerned about the timing of bringing this matter to Congress were it to pass, because we would have to have congressional approval since it’s related to the federal law. And given what’s going on in the United States Congress, I’m not sure that this is a good time to be bringing this measure forward. Thank you.”

Senator Kahele requested that remarks in strong support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Kahele’s remarks read as follows:

“This bill will address a longstanding issue in our Native Hawaiian community that addresses successorship and one’s ability to pass on land leased by Native Hawaiians to their children, grandchildren or great-grandchildren that have less than the required one-fourth blood quantum for successorship. If this bill becomes law, it will convey to the United States Congress, Hawai‘i’s commitment to prevent the ejection of families from Hawaiian Homesteads that they have occupied for generations. This issue is an indigenous rights issue that must be resolved as it has become apparent that under the current law, it has become increasingly difficult for Native Hawaiians to inherit land access. The Hawaiian Homes Commission Act was a step in the right direction, however the inclusion of blood quantum as a requirement for qualification as well as succession, set into motion the issues that we are dealing with today. For these reasons, I urge my colleagues to support this bill and to send a message to the United States Congress that the State of Hawai‘i is committed to working with Native Hawaiians and their families to return them, as well as keep them, on the land that was legally theirs to begin with.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 638 was adopted and S.B. No. 849, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO THE HAWAIIAN HOMES COMMISSION ACT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Thielen). Noes, none.

Stand. Com. Rep. No. 672 (S.B. No. 898, S.D. 2):

On motion by Senator Keith-Agaran, seconded by Senator Rhoads and carried, Stand. Com. Rep. No. 672 was adopted and S.B. No. 898, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO FIREARMS OWNED, POSSESSED, OR CONTROLLED BY PERSONS WHO POSE A SERIOUS RISK OF VIOLENCE OR HARM TO PUBLIC SAFETY,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Gabbard, Harimoto, Riviere). Noes, none.

Stand. Com. Rep. No. 676 (S.B. No. 419, S.D. 2):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 676 be adopted and S.B. No. 419, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Espero rose to speak in opposition to the measure as follows:

“I’m a supporter of the military; my son’s a captain in the Marine Corps. But we shouldn’t be connecting Military Selective Service to a person’s education and a person’s career and a person’s future, and that’s what this bill does. If someone is a pacifist, if someone is a conscientious objector, and if they

do not participate in the Military Selective Service, we're telling them, 'We're not going to let you have an education in our state institutions, our community colleges.' I think – the way I read this – too, school for adults, and I believe I would like to ask that you reject this measure. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 676 was adopted and S.B. No. 419, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO SELECTIVE SERVICE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 3 (Espero, Taniguchi, Thielen).

Stand. Com. Rep. No. 685 (S.B. No. 1105, S.D. 2):

On motion by Senator Keith-Agaran, seconded by Senator Tokuda and carried, Stand. Com. Rep. No. 685 was adopted and S.B. No. 1105, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Thielen). Noes, none.

Stand. Com. Rep. No. 692 (S.B. No. 663):

On motion by Senator Tokuda, seconded by Senator Dela Cruz and carried, Stand. Com. Rep. No. 692 was adopted and S.B. No. 663, entitled: "A BILL FOR AN ACT RELATING TO HIGHWAY SAFETY," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Riviere).

S.B. No. 151, S.D. 1:

Senator Baker moved that S.B. No. 151, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Nishihara.

Senator Riviere rose to speak in opposition to the measure as follows:

"My opposition relates to the part where we're going in and telling people what can or cannot be allowed in their private residence, so thank you."

Senator Baker rose to speak in strong support of the measure as follows:

"This measure clarifies that condominium associations may prohibit smoking inside a unit as part of a rental lease agreement. This also allows the condo associations to prohibit smoking on the lanai of a condo unit and in all common areas. This is really designed to mitigate secondhand smoke. As we know, any of our buildings are not a hundred percent airtight, and if you are actually renting out a unit and allowing smoking, you have much less control over the tenant than owners when they have taken part in banning these things in their own areas.

"Secondhand smoke, I would remind my colleagues, is linked to many adverse health effects, including heart disease, stroke, and lung cancer. Children can suffer even more health problems when exposed to secondhand smoke. Our public housing in Hawai'i already benefits from smoke-free multi-housing policies, but these protections do not extend to the private sector. This measure provides protections against secondhand smoke to residents of affordable and market-rate housing, the condominiums. It is essential that we ensure the health and safety of nonsmokers who live in these multi-unit residences; I am one of them. I urge my colleagues to join me in supporting this measure. Mahalo."

Senator Rhoads rose to speak in support of the measure as follows:

"Just a quick note to point out that more people die from secondhand cigarette smoke every year than die from traffic accidents. This is not a minor public health issue, and it's certainly a problem in condos where you share air handling systems. Mahalo."

The motion was put by the Chair and carried, S.B. No. 151, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CONDOMINIUMS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Kim). Noes, 1 (Riviere).

S.B. No. 337, S.D. 1:

On motion by Senator Keith-Agaran, seconded by Senator Rhoads and carried, S.B. No. 337, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Ihara, Thielen). Noes, 1 (Gabbard).

S.B. No. 492, S.D. 1:

On motion by Senator Keith-Agaran, seconded by Senator Rhoads and carried, S.B. No. 492, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL TRESPASS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 895, S.D. 1:

Senator Keith-Agaran moved that S.B. No. 895, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Thielen rose to speak in support of the measure with reservations as follows:

"I understand and am sympathetic to the challenges of managing state land. I just think we need to work on this bill as it moves forward because, as we've seen more and more development around our islands, our oceans and shores are cut off from public access. Our mountain areas are cut off from public access as a lot of land is gated. And what we've found is, by default, a lot of the state lands are often the only access that people have to these areas. So I think we need to improve and tailor this measure. The way it reads right now, it looks like a state agency can create a criminal trespass simply by posting a sign, so there really is no public notice, no public discussion. I think we need to have those discussions to make sure that we can craft no trespass areas in a way that people can still access these important resources. Thank you."

The motion was put by the Chair and carried, S.B. No. 895, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL TRESPASS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Ihara, Thielen). Noes, 1 (Ruderman).

S.B. No. 1282, S.D. 1:

On motion by Senator Keith-Agaran, seconded by Senator Rhoads and carried, S.B. No. 1282, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE OFFENSE OF ABUSE OF FAMILY OR HOUSEHOLD MEMBERS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 731 (S.B. No. 510, S.D. 2):

Senator Baker moved that Stand. Com. Rep. No. 731 be adopted and S.B. No. 510, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Baker rose to speak in strong support of the measure as follows:

“This measure will formally establish the Hawai‘i Keiki: Healthy and Ready to Learn program by providing funding as well as set up formalized coordination between the Department of Health and Department of Human Services to increase communication and success of comprehensive school-based health services.

“You know, education does not start in the classroom: Education begins with an individual who is able and ready to learn. Study after study shows that healthy students perform better across the curriculum. Healthy students are overall happier, attend school regularly, have fewer absences and discipline referrals, and have higher test scores, according to the Alliance for a Healthier Generation.

“The Hawai‘i Keiki program will formally be established through this piece of legislation. Partially in progress by way of Act 139, there is a successful partnership between the DOE and the UH Mānoa School of Nursing and Dental Hygiene, which has helped to establish community organization partnerships that have matched state funding. DOE has implemented software to report in real time on health services through complex areas. School wellness programs have been expanded; sports physicals are provided as needed; vision screenings and glasses have been provided to those in need. Nationally-certified school nurses are now in Hawai‘i schools, and UH Mānoa nursing students are in schools to assist, increasing the activities and information available to school health academics.

“Now, that list, I think, is certainly noteworthy, but you may ask, what about the education component? More importantly, there are increased attendance rates and decreased early dismissal rates. That means that students are staying in school, where they’re learning, growing, and thriving.

“With this type of success, we should continue to support our keiki, and this measure will help to expand these services by implementing the Hawai‘i Keiki program statewide in 15 DOE complex areas and pilot it in 2 charter schools. It will build school-based oral hygiene services and sealant programs, which is another way that we can address the poor dental health of the keiki in our State, and ensuring eye assessment software is forever in place in all of our schools. Now, it’s kind of hit-and-miss, depending on whether there is a Lions Club or a Rotary Club that has taken this up. It also establishes coordinator positions between the Department of Health, Department of Human Services to work with the DOE and UH Mānoa School of Nursing and Dental Hygiene.

“You know, student success really demands a healthy mind and a healthy body. They need to be able to focus on academics, not hunger. Fifty percent of public school students receive free or reduced-price meals. They don’t need to focus on tooth pain – we all know that Hawai‘i’s children rank worst in the nation in dental health. Students need to be able to see in order to learn the alphabet, the building blocks of reading and writing. Students need to be immunized in order to prevent communicable diseases that can have long-term effects on health and education. By creating this permanent structure and long-term means for success, we are ensuring that our children will be more successful in school, which is where they build the tools they need for a successful life.

“The more affluent a child’s family and community, in general, the greater likelihood that child will succeed academically. Through this bill, we’re ensuring that **all** students are healthy and **all** students are ready to learn from the moment they come to school, no matter what their socioeconomic background, because learning can’t take place unless body health is addressed. This measure, I believe, will have long-term positive effects, not only for our keiki and their families, but our communities, where students will one day live and work. I urge all of my colleagues to join me in showing our keiki how important their health and their education is to us and our State by voting ‘yes’ on Senate Bill 510 and supporting the Hawai‘i Keiki: Healthy and Ready to Learn program. Mahalo.”

Senator Kidani rose in strong support of the measure and requested that the remarks of the previous speaker be entered into the Journal as her own, and the Chair so ordered (by reference only).

The motion was put by the Chair and carried, Stand. Com. Rep. No. 731 was adopted and S.B. No. 510, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO SCHOOL-BASED HEALTH SERVICES,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Dela Cruz).

Stand. Com. Rep. No. 762 (S.B. No. 403, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 762 be adopted and S.B. No. 403, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Baker requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker’s remarks read as follows:

“Mr. President, I rise in support of S.B. 403, S.D. 2, Relating to Health Insurance.

“This bill ensures certain benefits under the Affordable Care Act (ACA) are preserved under Hawai‘i law.

“The Affordable Care Act of 2010 resulted in an estimated 20,000,000 Americans gaining health insurance coverage. The federal Department of Health and Human Services reported that since the enactment of the Affordable Care Act, 54,000 residents of Hawai‘i have gained health insurance coverage. In addition to those residents who would otherwise be uninsured, hundreds of thousands of Hawai‘i residents with employer, Medicaid, individual market, or Medicare coverage have also benefited from new protections under the Affordable Care Act.

“If ACA were to be repealed, it would have detrimental effects on people in Hawai‘i. According to recent data from the Urban Institute, by 2019, 86,000 fewer people in Hawai‘i would have health insurance. Hawai‘i would suffer a loss of \$47,000,000 in federal marketplace spending, with a loss a potential loss of if \$532,000,000 between 2019 and 2028. Without an adequate replacement for ACA, the welfare of many people in Hawai‘i will suffer.

“This measure helps to protect the healthcare of those who will be affected by a repeal of the Affordable Care Act by:

- Requiring all health insurers to include ten essential health care benefits, plus coverage of contraception and breastfeeding necessities;
- Preserving the individual health insurance mandate for taxpayers;
- Extending dependent coverage through age 26;
- Prohibiting exclusions for preexisting conditions (which could include pregnancy); and

- Prohibiting premium or contribution rates based on gender.

"If we allow people to lose health care coverage, it is not just their own well-being that will be affected. We will place further strain on our state health systems and rob our communities of healthy, productive, contributing residents.

"I urge my colleagues to join me in supporting S.B. 403, S.D. 2."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 762 was adopted and S.B. No. 403, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH INSURANCE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 1 (Riviere). Excused, 1 (Dela Cruz).

Stand. Com. Rep. No. 764 (S.B. No. 1074, S.D. 1):

On motion by Senator Tokuda, seconded by Senator Dela Cruz and carried, Stand. Com. Rep. No. 764 was adopted and S.B. No. 1074, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE FIFTIETH ANNIVERSARY OF THE HAWAII STATE CAPITOL," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Espero, Kim). Noes, none.

Stand. Com. Rep. No. 766 (S.B. No. 261, S.D. 1):

Senator Tokuda moved that Stand. Com. Rep. No. 766 be adopted and S.B. No. 261, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Riviere rose to speak in opposition to the measure as follows:

"This one is a little harder to go after because I understand the situation of children in a car with their parents. But my principles dictate that I have to stand strong for people's rights and parents' rights in their private places, so for those reasons I must oppose this bill. Thank you."

Senator Thielen rose to speak in support of the measure as follows:

"I sympathize with my colleague from Hale'iwa's feelings, and I think a lot of times I would vote either 'with reservations' or 'no' for the individual rights. But I think, in this situation, what's interesting is this measure has been a top choice for the youth conference for many years, and what they're asking for is an ability to say to their parents in the car, you know, 'Stop smoking.' Youth are at such a disadvantage to the parents. We also want to make sure that they participate in the political system, and so I think for us to be able to pass one of their top priorities, to put them in a situation – being in the driver's seat for a change and being able to tell the parents what their preference is for their health – but also to help them participate in government and governance issues. I'd like to see the measure pass for those reasons. Thank you."

Senator Baker rose to speak in strong support of the measure as follows:

"I have some written remarks that I would like to have inserted into the Journal, but I'd also ask that the Clerk incorporate the remarks of the senator from Kailua and Waimānalo into the Journal as if they were my own as well." (The Chair so ordered, by reference only.)

The Chair having so ordered, Senator Baker's additional remarks read as follows:

"Mr. President, I rise in strong support of S.B. 261, S.D. 1, relating to the statewide traffic code.

"S.B. 261, S.D. 1 prohibits smoking in a vehicle in which a person under the age of 18 is present. This bill also requires the Department of Health to report on the enforceability and coordination of data collection efforts of the respective law enforcement agencies.

"Secondhand smoke can cause heart disease, lung cancer, and stroke in people of all ages. In children, it can also cause ear infections, more frequent and severe asthma attacks, respiratory infections, and a greater risk for sudden infant death syndrome.

"Exposure to secondhand smoke is more concentrated in vehicles due to the confined, enclosed space. Even with the windows down, secondhand smoke in a car causes the air to be many times more toxic than what the Environmental Protection Agency considers to be hazardous air quality.

"Smoke-free vehicle policies ensure that clean air is maintained in the vehicle while children are inside. We need to ensure the health and safety of our children.

"I urge my colleagues to join me in supporting this legislation and ask for a yes vote on S.B. 261, S.D. 1. Mahalo."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 766 was adopted and S.B. No. 261, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATEWIDE TRAFFIC CODE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Stand. Com. Rep. No. 813 (S.B. No. 1312, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 813 be adopted and S.B. No. 1312, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Baker rose to speak in support of the measure as follows:

"Thank you. I have some remarks in support of this measure, which we consider a work in progress, and I'd like to have them inserted into the Journal."

The Chair having so ordered, Senator Baker's additional remarks read as follows:

"Mr. President, I rise in support of S.B. 1312, S.D. 1, Relating to Licensure of Midwives.

"The purpose of this measure is to establish mandatory licensing for certified midwives and certified professional midwives in Hawai'i and establish the board of midwifery within the Department of Commerce and Consumer Affairs to regulate the practice of midwifery by certified midwives and certified professional midwives. Midwives play a vital role in the home childbirth process through their maternity and prenatal services. Although their services can directly affect the health and safety of women and newborns, this is a profession that is not adequately regulated. It is a work in progress.

"In recognition of that impact, the State Auditor recently recommended that every person who provides maternity and prenatal service as a midwife be subject to licensing requirements to protect the health and safety of women and newborns and to ensure that certain minimum standards and qualifications are met. To address the Auditor's concerns, this measure seeks to establish a licensing, regulatory framework for certified midwives and certified professional midwives, based on standards and best practices adopted by the United States Midwifery Education, Regulation and Association coalition. This measure exempts Native Hawaiian healers who are recognized as such by a council convened by Papa Ola Lokahi.

"This measure also establishes a board of midwifery within the Department of Commerce and Consumer Affairs. The board enables representatives of the midwifery community to establish a scope of practice and standards for the practice of midwifery in our state. Members of the Board of Midwifery will include one certified nurse midwife, two licensed certified midwives, two licensed certified professional midwives, one traditional Native Hawaiian healer and one public member.

"Public health and safety concerns far outweigh any negative effects arising from regulation, including the resulting restriction on individuals entering the profession of midwifery and any increase in the cost of midwifery services caused by regulation of the profession. Licensure will ensure the necessary health and safety protections for women and their newborns when seeking services for childbirth at home.

"I urge my colleagues to join me in supporting this measure for further consideration by our colleagues in the House."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 813 was adopted and S.B. No. 1312, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE LICENSURE OF MIDWIVES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23; Ayes with Reservations (Chang, Harimoto, Riviere, Ruderman, Thielen). Noes, 2 (Gabbard, Green).

Stand. Com. Rep. No. 814 (S.B. No. 382, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 814 be adopted and S.B. No. 382, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Baker requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 382, S.D. 2, Relating to the Public Utilities Commission.

"S.B. 382, S.D. 2 makes various updates to the structure and operations of the Public Utilities Commission to increase efficiency, effectiveness, and to restore a more open and democratic process within the PUC. This bill will increase the number of PUC commissioners from three to five members, require at least one commissioner to reside on one of the neighbor islands, and ensure diverse backgrounds are represented on the PUC, especially with respect to educational background. This bill will also update the commission's guiding principles, provide for teleconferencing capabilities, promote diverse training opportunities for members, clarify staffing issues, require a management audit, and provide important transparency via public financial disclosures from key staff members. Finally, this bill will clarify the procedure for replacing a commissioner who has not completed a full term of service, which preserves the Senate's proper role to advise and give consent to the governor's nominations.

"The Public Utilities Commission's primary purpose is to provide effective, proactive, and informed oversight of all regulated companies to ensure these companies efficiently and safely provide their customers with adequate and reliable services at just and reasonable rates, while providing regulated companies with a fair opportunity to earn a reasonable rate of return. Additionally, the Public Utilities Commission is facing increased work complexity and program responsibilities, which go beyond the commission's traditional regulatory role, including in the area of energy regulation. With the advent of new and emerging technology, the market, and other forces, the regulatory landscape throughout the country is rapidly changing. However, the commission's current structure and operations have prevented it from quickly adapting to these changes. It is essential that the structure and operations of the Public Utilities Commission be updated to enable the commission to operate more efficiently and effectively, consistent with best practices. For example, updating the operations of the commission by adopting best practices ensures that the commission functions in a more inclusive and collaborative manner. Updating the structure of the commission

will also be beneficial. Increasing the number of commissioners from three to five promotes diversity and is in line with the number of commissioners in many other jurisdictions. Requiring the commission to be composed of at least one member from a neighbor island and members from fields other than just the legal profession will enable the commission to consider a wider variety of backgrounds, perspectives, and expertise in its deliberations to better serve Hawaii's geographic and demographic diversity.

"Commissions throughout the country are impaneled to provide for collective deliberation, as well as diversified perspective across geopolitical, demographic, professional, and other criteria. A diverse commission and staff can provide a stronger, more robust foundation for decision-making. A commission made up of individuals with diverse educational and geographic backgrounds will have a broader range of knowledge, skills, and abilities than a homogeneous commission.

"As it has been 13 years since the last management audit in 2004, another audit is appropriate. This will ensure that any previously identified issues have been addressed and will also aid in the transition to a more efficient and effective commission.

"The changes to the structure and operation of the PUC in S.B. 382, S.D. 2 are necessary to preserve an effective and democratic body, which will better represent the diverse populations and interests which it is meant to serve. I urge my colleagues to join me in supporting these beneficial updates to the Public Utilities Commission and ask for a yes vote on S.B. 382, S.D. 2. Mahalo."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 814 was adopted and S.B. No. 382, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE PUBLIC UTILITIES COMMISSION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22; Ayes with Reservations (Chang, Thielen). Noes, 3 (Harimoto, Kim, Riviere).

Stand. Com. Rep. No. 834 (S.B. No. 1306, S.D. 1):

On motion by Senator Tokuda, seconded by Senator Dela Cruz and carried, Stand. Com. Rep. No. 834 was adopted and S.B. No. 1306, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Chang, Espero, Harimoto, Kim, Ruderman). Noes, 1 (Taniguchi).

Stand. Com. Rep. No. 850 (S.B. No. 664):

On motion by Senator Tokuda, seconded by Senator Dela Cruz and carried, Stand. Com. Rep. No. 850 was adopted and S.B. No. 664, entitled: "A BILL FOR AN ACT RELATING TO HIGHWAY SAFETY," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Riviere, Ruderman).

Stand. Com. Rep. No. 853 (S.B. No. 1016, S.D. 1):

Senator Tokuda moved that Stand. Com. Rep. No. 853 be adopted and S.B. No. 1016, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Riviere rose to speak in opposition to the measure as follows:

"About five years ago, we had a rousing debate when I was in the House on this measure. We're talking about exemptions that, at that time, there was a lot of talk about exemptions for a lot of things for government projects. I would note that most of the projects that have been exempted in that bill five years ago still haven't moved. The Department of Transportation always complains that the rules are so onerous, yet when you ask them how that environmental study is coming, and five, six, seven years later, the environmental study is still under work. I don't think they're working as hard as they can to actually follow the environmental laws, so I'm in opposition to this. Thank you."

Senator Inouye rose to speak in support of the measure as follows:

"The purpose and the intent of this measure is to continue the DOT's efforts to expeditiously rehabilitate bridges under its jurisdiction and, specifically, the measure extends DOT's exemption from certain statutory requirements for specified bridge rehabilitation programs by specifically extending the sunset date of Act 218 to June 2022. The committee finds that this measure will allow DOT to continue accelerating the design and construction of bridges listed in the Act, Session Laws of 2012. And the committee also noted that these projects must continue to comply with all applicable federal laws as this measure does not exempt the bridge projects from these requirements that the committee noted as well. I urge my colleagues to support this measure. Thank you, Mr. President."

Senator English rose to speak in support of the measure as follows:

"You know, where I live, members, there's more than 60-some odd bridges going out to that side. Eight of them are in imminent threat of failure; that means that it could collapse at any moment. Many of the items that are exempted in this bill are actually covered under federal guidelines, and what we tried to do is eliminate the reduplicative efforts that were put into this and created a longer time for the permitting process to go through. But I have to say this, that when we looked at bridges – at least during my time as Transportation chair – that the bridges throughout the State, as a whole, are failing. And if you want a bridge to collapse, kill this bill because this will help the department to speed up, get the bridges fixed, get them moving. If we didn't do the bridge survey and the inventory at the time that we did – this body did this about four years, five years ago – we wouldn't have known this information, and I want to commend the Department of Transportation for looking at all of the bridges, for doing the engineering studies and all of them, and for prioritizing which ones need to be fixed so that we can begin funding them properly. So, members, I ask for your continued support of this measure for all of the bridges in your districts. Thank you."

Senator Thielen rose to speak in opposition to the measure as follows:

"I wasn't going to comment, but feel compelled to because of that last comment, that a vote against this measure is a vote to support our bridges collapsing. We have emergency rules; we have things in place that would allow the Department of Transportation to move forward expeditiously. I don't support continuing the exemption because I don't think these rules that are in place for ordinary, non-emergency repairs are what's slowing them down. For those reasons, I oppose the extension. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 853 was adopted and S.B. No. 1016, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO

TRANSPORTATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22; Ayes with Reservations (Ruderman). Noes, 3 (Harimoto, Riviere, Thielen).

Stand. Com. Rep. No. 861 (S.B. No. 1150, S.D. 2):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 861 be adopted and S.B. No. 1150, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Espero rose to speak in support of the measure as follows:

“Any time we can protect our ocean environment and our marine life, we should do so, and this measure is a good first step in making certain that oxybenzone does not enter our oceans. However, whether it’s this year or next year, I do hope that we may take up the issue of banning the sale of sunscreen which has oxybenzone in the future. Thank you very much.”

Senator Ruderman rose to speak in support of the measure as follows:

“I also hope we’ll proceed to a ban on the sale of such sunscreens, but meanwhile, I think the objections that have been raised to this bill is it’ll be difficult to enforce, but I believe it’s very valuable nevertheless because even without extreme enforcement measures, most people will obey the law. It’s an opportunity to protect our reefs and to educate each other on which products are appropriate with the ocean. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 861 was adopted and S.B. No. 1150, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO PRESERVING CORAL REEFS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Kim, Taniguchi). Noes, none.

Stand. Com. Rep. No. 864 (S.B. No. 223, S.D. 2):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 864 be adopted and S.B. No. 223, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Green rose to speak in strong opposition to the measure as follows:

“So this bill is about allowing, on the surface, something fairly innocuous, and I’m sure this is going to hit home, Senate President, to you and me. It’s about prescribing testosterone from naturopathic physicians – physicians who have good training but different training than allopathic physicians or healthcare providers like nurse practitioners or PAs. People think, ‘Oh, it’s just testosterone; how big a deal can that be?’ Well, I don’t know if other people are very studied in this area, but the pathophysiology of testosterone is complicated. Specifically, if you use just testosterone – if you’re a naturopath and you don’t have a full understanding of the issue because you haven’t had pathophysiology training and know that you have to use Arimidex with that medication more often than not, you have a big problem because if you give testosterone to somebody and you haven’t had the training, it does something. If I may, Mr. President: It shrinks your testicles. Now, we are going to pass the ultimate in wedge-issue bills here. If you vote ‘yes’ on this bill, you are voting in support, potentially, of shrinking the testicles of half of your constituents, because the individuals who are asking to prescribe this medication do not know how to use Arimidex. They also don’t know that you need to use growth hormone. I do respect naturopaths, but they have a different scope of practice. This will be dangerous for people; this will mess up their hormones, and people’s testicles will shrink if we pass this bill. I urge you to vote ‘no.’”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 864 was adopted and S.B. No. 223, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO NATUROPATHIC MEDICINE,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23; Ayes with Reservations (Espero, Nishihara, Rhoads, Riviere, Thielen). Noes, 2 (Green, Harimoto).

Stand. Com. Rep. No. 866 (S.B. No. 384, S.D. 2):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 866 be adopted and S.B. No. 384, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Tokuda.

Senator Green rose to speak in opposition to the measure as follows:

“Let me first say that I have a great deal of respect for the psychology community and the psychiatry community. I understand that this is a tough call for people because we do have need to provide psychological care, in especially the rural areas.

“I’m standing in opposition to this bill for a different reason. I do feel that the training is not the same for psychiatrists, and that could be debated at great length and has been, so people will vote their conscience, of course, on that. But I’m going to invoke a different story and metaphor on this bill, and I think this hasn’t been adequately discussed, and this comes from a beloved writer, Dr. Seuss. Now, I don’t know how many people are familiar and recall the story about the Star-Belly Sneetches. The Star-Belly Sneetches is a story about social inequities and people trying to one-up one another. In that story, he expressed very eloquently for children and adults across the world, ultimately, that people who try to distinguish themselves within a single community ultimately have two classes, and I feel very strongly that we are going to do great, great damage to the psychology community when we pass this bill.

“When we pass this bill, a small number of psychologists will be able to prescribe pretty significant medications and, like I said earlier, we can debate whether they have adequate training or not. Some of my best friends are psychologists; they are more than talented and very well-trained to do this. Others might not be. I can tell you that I, as a physician, do not prescribe the medications for the most part without getting a psychiatrist to help me, so that’s why I’m voting ‘no.’ I don’t think it’s safe. But I do think, courtesy of Dr. Seuss and his metaphor, we will create this class of people in psychology who think they are better than the other psychologists. We will destroy the reputations, unfairly, of those who choose not to go down the road of getting extra training. We’re making a very large mistake; I don’t think that has often been discussed. I think it’s interesting that this bill has been around for so many years. I would rather see my psychology friends pursue additional medical training if this were going to be the focus of their practice. That’s just my personal feeling, so I’ll vote ‘no’ and I’ll leave it to the rest of you to decide what you think is adequate as far as training for these significant medications.”

Senator Baker rose to speak in strong support of the measure as follows:

“Like some of the other measures we’re discussing, this has some significant safeguards in it as well as a track record. Psychologists have been prescribing with additional training in the Department of Defense for decades. There have been no concerns about their practice; there have been no harms noted. We also have it in a number of other states, but more importantly, this measure is easing us into the prescribing-by-psychologist by making sure that they have a collaborative relationship with a physician or primary care provider who has the expertise to assist them.

“We don’t have enough psychologists in this state; we don’t have enough psychiatrists in this state. This is a way to try to make sure that, at least in our rural areas, we have choices for people. I have had so many people come up to me and say, ‘I can’t get a psychiatrist to work with my child,’ or ‘My child doesn’t feel the empathy from a psychiatrist that they do from their psychologist.’ Psychologists are trained in slightly different ways in terms of relationship-building and working with their clients, but more importantly, with the provisions in this measure, they will be trained to handle a limited class of psychotropic drugs that can be helpful, but more importantly, if they need to wean somebody off of those medications, they’ll have the knowledge to do it safely.

“I see this as a great opportunity for collaboration and partnership and not the wedge that my colleague from Kona talked about. This is a measure, yes, that has been around. We passed it last year; save for one person in the body behind us, this measure would be law now and we would be seeing great results from more mental health services in many critical areas. I ask my colleagues to join me in voting up on this measure. Mahalo.”

Senator Ruderman rose to speak in support of the measure as follows:

“While I share some of the concerns of the opponents to this bill, I want to emphasize that psychologists would have to go through a specific training for a specific formulary; and the bigger issue for me is, in a community like mine, you cannot get an appointment with a psychiatrist. When I said this in a committee last year, one of the advocates gave me a list of 14 psychiatrists who apparently say they’re practicing on the Big Island. I called them – none of them are taking new patients. Most of them live on O’ahu. So we have a situation where you literally cannot get an appointment with a psychiatrist unless you check yourself in to the emergency room, and so the risks of a trained psychologist mis-prescribing are to me much less than the risks of no treatment whatsoever.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 866 was adopted and S.B. No. 384, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO PRESCRIPTIVE AUTHORITY FOR CERTAIN CLINICAL PSYCHOLOGISTS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23. Noes, 2 (Green, Kim).

Stand. Com. Rep. No. 869 (S.B. No. 1183, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 869 be adopted and S.B. No. 1183, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Espero rose to speak in support of the measure as follows:

“I’d like to rise in support of this measure, and in support of rail. Thank you. I’d like to, first of all, assume we’re going to pass this and thank you all in advance for passing this measure. I see this, though, as a work in progress. This is about one of the most important issues that we’re going to be taking up in the next few years: transportation and, ultimately, mobility, and tied to the rail is the issue of housing. How we’re going to pay for it, obviously, has been a controversial issue for the last couple years, and I’m hoping that we will be able to – working with our House colleagues – come up with a reasonable plan. I, like many of you, am angry and very unhappy at the overruns in rail, and it is certainly an issue that we need to look at now and in the future. But when you look at our projected population growth being an additional 500,000 residents on O’ahu in the next 50 years, and that figure will double to 2,000,000 residents

on O’ahu, this is about how we’re going to move around people, goods, and services on O’ahu and continue to create a strong, vibrant economy. So, please support this measure and, hopefully, we will have more discussion with the House. Thank you very much.”

Senator Thielen rose to speak in support of the measure as follows:

“I rise in support of Senate Draft 2 of this bill. Colleagues, as you know, I voted against the extension of the rail tax two years ago and I voted against the prior versions of this bill, but I want to commend the chair of the Ways and Means committee for the fiscally prudent approach she has taken in this version of the bill. And I wanted to address the comments that were made by the *Honolulu Star-Advertiser* criticizing Senate Draft 2. I think the City had initially talked to residents of O’ahu about a public transportation project that was going to cost something around \$3.8 billion. The current estimates for rail is more like \$10 billion, and that is before we get into the most complicated construction portion of the rail. We’ve seen huge cost overruns in the past on contracts, and I think we can anticipate even greater cost overruns on the contracts for the last portion of rail.

“I think it’s prudent for us to stop, reevaluate the project, determine what needs to be done to keep the costs actually under control, and there’s a lot of pressure from people saying, ‘No, no, no, we can’t stop. We have to keep moving forward.’ When I’ve talked to people about why don’t we take a look at the cost of moving rail to grade level, and they say we can’t do that because it’s going to cost \$100 million to do an EIS. Well, a billion dollars is a thousand hundred millions. So, if it costs you a hundred million dollars to go back and do an evaluation that saves you a billion dollars, that is more than worth it. And I think we need to go back to the City at this point and say, ‘Reevaluate,’ because if we push through, what’s to stop the rail cost from ballooning now to \$15 billion, \$20 billion? And then isn’t the *Honolulu Star-Advertiser* editorial board going to criticize the Legislature for not asking for us to stop and take a look at it? How are we going to afford to upgrade the water lines and the waste lines and sewers around the rail route to build the housing that we need if we’re going to spend fifteen to twenty billion dollars on rail? We won’t be able to afford both, which is ridiculous. So we do need to take a breather now; we do need to go back and reevaluate the project. I agree, at this point, we need to complete some form of public transportation there, but the question is, how much money are we willing to spend for it? Because if we want to have housing **and** rail, the path we’re on now is not sustainable. So I support Senate Draft 2 and I hope that we do not go back to one of the prior versions. Thank you.”

Senator Inouye rose to speak in support of the measure as follows:

“May I have the comments from our colleague from ‘Ewa be included as my comments into the Journal, please?” (The Chair so ordered, by reference only.)

“And I urge my colleagues to support this measure as it is a work in progress, and we need to continue the vetting in the House, so I urge the support of my colleagues. Thank you.”

Senator Kim rose to speak in support of the measure with reservations as follows:

“Mr. President, for me, this is not about whether or not you’re for rail or against rail. I’ve always supported rail, voted for it on the City Council. Unfortunately, back then, when the federal government was going to pay for 90 percent of it, we were one vote short. However, this measure is how we’re going to fund rail and whether or not the State is obligated to fund rail. We have already given an extension to the City based on what they told us they needed, and now they’re coming in for more

money. The mayor made it seem as though we are obligated to support this and if we don't, then shame on us – then they're going to raise the property taxes and it's going to be all our fault. But if you recall correctly, when the City decided to pass rail, they didn't come to us and ask us whether or not we agreed. They didn't come to us and say whether or not we were going to support rail. They passed rail on their own based on their budget, based on the fact that they could fund and pay for rail. And so why should we feel that we are responsible for whatever shortfalls that they have now?

“In addition, back when I was Ways and Means chair, we offered the City that, if they would let us borrow the bond money – because we had a very bad economy going on at that time – that we would give them back one-and-a-half times whatever we borrowed via bonds and we would extend the rail tax, and at that time, Managing Director Caldwell said, ‘We don't need money. We have enough money, so we don't need for you to do that.’ And he could not guarantee that future councils were going to, in fact, vote to extend the tax for the counties. And so they turned it down.

“So, for those reasons, Mr. President, I support the rail, but I don't necessarily support the funding – **more funding** – of the rail. Thank you.”

Senator Rhoads rose to speak in support of the measure as follows:

“Obviously, this is a topic that's been discussed for years at this stage, and there are a number of problems associated with the project that I'm very unhappy with, having been involved with it from quite a ways back now. I do think that, in the end, there really isn't much of an alternative if the City doesn't manage to finish this project in a way that actually does some good, and if they stop it at Middle Street or at the stadium, it really doesn't do anybody any good – it's a train from nowhere to nowhere which will have cost us \$5 billion and the ridership numbers will be horrible.

“The argument's been made that we should put it at grade; there are a couple problems with that. One is that the federal government hasn't agreed to that. Another problem is that it makes the iwi issue much more salient because you have to put down track on the ground all the way through, whereas if it's elevated, you only have to plop down a column every a hundred feet or a hundred yards – I forget what the distance is, but you can adjust that around the bones of the ancestors. The other problem is, if you put it at grade, it goes much slower: You have to cross traffic; you have to have pedestrians walking out in front of the train, and that slows it down and makes it more dangerous because every time a train hits a car, the train wins. Every time a train hits a person, the train wins. And the other problem is, of course, that this system was going to be cutting-edge in the sense that it was going to be driverless – that's the plan. If you put it back on grade, I don't think a driverless system is really in the offing at that point and that raises the operational costs significantly.

“Finally, I would say that if the city project doesn't work, there's every reason to believe that the State is going to be the entity that people expect to deal with the west side traffic problem; it's not like it's going to go away and right now, of course, the H-1, which is a state highway, is the main artery, and there's just not very many good options for us to go forward as a State to pick up the pieces if the city rail project fails. Mahalo.”

Senator Riviere rose to speak in support of the measure as follows:

“I'm in support of this current version, S.D. 2. I think it is the responsible way to go forward. The members will remember two years ago, we were assured by the City that all they needed

was \$910 million and they would have all the contracts let by the following year, and it was all going to be wine and roses – they were going to finally be done. At that time, I was terribly concerned about that commitment to ‘just give us the money and we'll make sure we happen to make it.’ I was one of those who voted against the rail tax two years ago. I cannot support continuous extensions of the rail tax. I would note that the ink wasn't dry, basically, on the City's authorization of the tax extension when, all of a sudden, it mushroomed from \$900 million to \$1.8 billion or whatever it's at now, because it's a moving target. I would note that the mayor casually said, ‘Well, I don't know, \$9.6 billion is the current estimate, but let's just round that up to 10.’ I was at that hearing when he said that, and that alarmed me to no end, that cavalier, ‘Well, let's just round it up \$400 million because I don't know where this is going to stop.’ I would note that the actual cost to the O'ahu residents – if you just do the simple math by the number of residents and the revenues collected thus far – we're on the hook for somewhere in the range of \$32,000 per family if we get out of this at \$10 billion.

“So what I like about this measure is it's holding the County and the mayor and HART accountable; it's making them come forward with a plan that is spelled out. We will remember that the feds have been asking for a recovery plan for a couple years, and every time the recovery plan is, ‘Well, let's just wait six more months,’ ‘Let's wait six more months.’ The recovery plan is due April 30th, which is an interesting and probably not-so-coincidental date. So I like this bill; it takes away the skim, which I always thought was unfair to the County: If the tax is being collected in the county, the money should go to the county. So it solves that problem, and it holds their feet to the fire, and I am in support of this measure as it presently is. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 869 was adopted and S.B. No. 1183, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO TAXATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Kim). Noes, none.

Stand. Com. Rep. No. 872 (S.B. No. 249, S.D. 2):

On motion by Senator Tokuda, seconded by Senator Dela Cruz and carried, Stand. Com. Rep. No. 872 was adopted and S.B. No. 249, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO RETIREMENT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 19; Ayes with Reservations (Espero, Ihara, Rhoads). Noes, 5 (Gabbard, Harimoto, Riviere, Taniguchi, Thielen). Excused, 1 (English).

Stand. Com. Rep. No. 875 (S.B. No. 658, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 875 be adopted and S.B. No. 658, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Kim rose to speak in opposition to the measure as follows:

“First of all, just to go on record that this bill creates a new governing entity and, in its original form, it was exempt from procurement, which should have been referred to my committee and was not. I certainly appreciate that Ways and Means took out the exemption for procurement.

“However, Mr. President, this measure is troubling because, while I understand some of the issues and concerns raised why we should have an airport authority, the airport has decades of history of problematic operations, lack of transparency, lack of

accountability, questionable procurement practices. We have many projects that have been in litigation; currently, we have the FAST project for \$17 million, \$92 million for the Hawaiian maintenance facility that is currently ongoing and not completed. We have vendors and subcontractors who did not get paid. We had an entity that had to be fired, and so forth and so forth. So, while this measure talks about having this airport authority that would be accountable via board appointments, public meetings, and full transparency, any of you who have had problems with any of our boards and commissions – be it Hawai‘i Tourism Authority, be it Board of Regents, be it the police commission – any boards and commissions where it was difficult to get information, difficult to have accountability by appointees, this would be even worse. There would be no oversight by the State.

“Now, I know some of the other arguments are that many, if not most, of the airports around the country have an independent board. I’d like to remind this body that many of those airports are municipality airports; they’re not state-run, like our school system and our airports. Also, people have a choice: They can drive to another airport; they can take a bus; they can take a train; they can drive; there’s other ways. We are an island; we have one statewide airport, and I think that this is a mistake. It’s going to cost a lot more money; there’s going to be less transparency and less accountability if we move forward on this. Thank you.”

Senator Inouye rose to speak in support of the measure as follows:

“With regards to creating an airport corporation or authority, all the more reasons we should do that with regards to the comments offered by our colleague of Kalihi. As we moved to hear this measure, we found that the development, management, and the operation of our state airport system is distributed among several state departments, and some of which have conflicting goals and priorities, and this has resulted in delayed decision-making, inefficient control, and airports that require extensive renovation to become world-class facilities. We also found that consolidating the management of the operations of the state airport system into a singular and independent state entity will certainly help maximize the airports’ contribution to the State, improve global access to Hawai‘i, and simplify the process for making improvements to airport infrastructure. I urge my colleagues to please support this measure as we move this measure in the House for continued vetting. Thank you, Mr. President.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 875 was adopted and S.B. No. 658, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO AN AIRPORT CORPORATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22; Ayes with Reservations (Chang, Ihara, Riviere). Noes, 3 (Harimoto, Kim, Taniguchi).

Stand. Com. Rep. No. 879 (S.B. No. 1290, S.D. 2):

On motion by Senator Tokuda, seconded by Senator Dela Cruz and carried, Stand. Com. Rep. No. 879 was adopted and S.B. No. 1290, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO THE TRANSIENT ACCOMMODATIONS TAX,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Baker, Thielen). Noes, none.

Stand. Com. Rep. No. 881 (S.B. No. 686, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 881 be adopted and S.B. No. 686, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Kidani rose to speak in strong support of the measure as follows:

“Thank you, Mr. President. May I also request permission to speak on Senate Bill 683 at the same time?”

The Chair invited Senator Kidani to proceed with her remarks.

Senator Kidani continued:

“Mr. President and colleagues, I rise in strong support of Senate Bills 683 and 686.

“Senate Bill 683 proposes an amendment to the Hawai‘i State Constitution to allow the State to enact a property tax surcharge on certain residential investment properties and certain visitor accommodations. Assuming approval of the amendment by the voters, Senate Bill 686 **creates** the surcharge. Proceeds would be channeled to our public schools, which are desperately underfunded for the enormity of the responsibility they shoulder.

“Hawai‘i is the only school district in the United States that does not fund education through property taxes and, believe it or not, the property taxes levied by our counties are among the lowest in the country. The surcharge would be levied on residential investment properties, **not** the homes in which we live and for which we receive a homeowner’s exemption, and **not** on the *first additional* residential property a family might own and rent out. This bill was amended by Ways and Means to include only those properties now valued at over \$2 million.

“We have attempted to put the issue of a dedicated source of funding for schools on the table in the past, but without success. The governor tells us his first priority is public education, and in the revised budget he sent us a couple of weeks ago, the biggest cuts he proposed were to the education budget. The cuts are deep; the wounds are lasting.

“For those of you who have voted ‘no’ in committee and will vote ‘no’ again today, I simply ask, if not this measure, then what other measures do YOU propose. If not now, then when? How much longer will we put our keiki’s futures on hold?”

“Finally, colleagues, let me remind you that since this is a constitutional amendment, once the bill becomes law, it goes onto the ballot for the **voters** to decide.

“We need more money for public education. This is a means to that end. I ask for your support for our schools, for our students, and for our teachers. Mahalo.”

Senator Ruderman rose to speak in support of the measure as follows:

“I also would like to speak to both of these measures at once, if I may. I applaud the outside-the-box thinking that has brought this measure before us today because, certainly, that’s what’s needed in this issue. Teachers are a special case in our society; they’re not like every other union or every other function. They play an important and, in fact, crucial role and, without getting into a lot of statistics, when you consider the cost of living in our state, we have the most poorly paid teachers in the nation. And that results in a loss of teachers and a loss of good teachers who have better options or who cannot afford their lives in our state on a public education salary. Our keiki deserve a good education, and to get that, they require good teachers. I also appreciate that this puts the issue before the voters; and finally, if this measure does not succeed, I hope we’ll take this issue as seriously as it deserves and find some other solution for one of the biggest crises facing our state.”

Senator Riviere rose to speak in opposition to the measure as follows:

“In opposition on these two measures: I think it’s a bad policy decision. I think we’re stomping on the counties’ source of revenue. I worry about mission creep – we say this year we’ll tax only the \$2 million houses and then, once we get going, then next year it’s the \$1 million and then we come down. And I would point out that in the proposal originally submitted, the original version, the median-price home on O’ahu would see an additional – for an investment property – it would see an additional property tax increase of about \$4,300, I believe, which was about \$360 a month to the owner. Now, the owner of an investment property isn’t paying the taxes: The renter is paying the taxes, the person living in the house. And we have a high amount of renters in this state, so the renters are going to be paying this tax. Now, who are these renters? They’re the guys who can’t afford to buy a house; they’re the ones who are working two or three jobs. I know the teachers are working two jobs many times, and I know the teachers are underpaid, and I’ve said this before. My wife is a teacher; my sister’s a teacher, and I have great empathy for the predicament. I believe in supporting our teachers with more pay, but this is a bad policy because it crosses over into an authority.

“And I would remind the members that there is no sacred fund here. We have special funds for this; we have special funds for that; we have a conveyance tax to solve this; we have a barrel tax for that – those monies get sloshed around all over the place. And so, if we were to even go for it and start collecting money from the property tax, I would predict that probably would ease up on funds from somewhere else to use for another purpose. So, the net result – as we’ve seen in other states such as California, which has adopted a lottery to pay for schools – is they use the money from the lottery to pay for the schools, but then they stop funding it in the original sources. So, ultimately, the responsibility is on we, the Legislature, to make the tough calls and prioritize our funds. A more equitable solution would be general excise tax – that’s a hot potato, too; we don’t want to touch that. But the property taxes is the wrong way to go for this, so I’m in opposition. Thank you.”

Senator Kim rose to speak in support of the measure with reservations as follows:

“You know, I feel I need to stand and speak and say why I am voting with reservations, and it’s not because I don’t support our teachers. It’s not because I don’t feel that our teachers should be paid more. I think they do, and it’s our responsibility to do it – from the general fund. Why aren’t we giving our teachers more? Why do they have to resort to out-of-the-box thinking? Why do we have to look at a slippery slope of going down a constitutional amendment, because where does it end? There are so many other entities that will come and say we started this, that they feel that the elderly and the needy and the homeless and so forth all should have these kinds of dedicated funding or amendments made to the constitution. And so I don’t think that this is the way to go.

“I also believe in home rule, and I don’t believe that we should be taking property taxes. The reason why we’re the only state in the nation that doesn’t give property taxes to education is because we have a state-run education system. Unlike every other state in the country, it’s municipalities, and that’s why they get theirs from property taxes. And so I think we need to support the teachers; we need to be able to pay them more, and we should be doing that, but we shouldn’t be using these kinds of methods to do so. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 881 was adopted and S.B. No. 686, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO EDUCATION

FUNDING,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Kim, Nishihara, Taniguchi, Thielen, Wakai). Noes, 1 (Riviere).

At 11:53 a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:57 a.m.

Stand. Com. Rep. No. 882 (S.B. No. 683, S.D. 2):

On motion by Senator Tokuda, seconded by Senator Keith-Agaran and carried, Stand. Com. Rep. No. 882 was adopted and S.B. No. 683, S.D. 2, entitled: “A BILL FOR AN ACT PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23; Ayes with Reservations (Taniguchi, Thielen, Wakai). Noes, 2 (Kim, Riviere).

Stand. Com. Rep. No. 889 (S.B. No. 518, S.D. 2):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 889 be adopted and S.B. No. 518, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Baker requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker’s remarks read as follows:

“Mr. President, I rise in strong support of S.B. 518, S.D. 1, relating to intimate partner violence. This measure requires individuals licensed under the Board of Barbering and Cosmetology to complete a one-time, one-hour training program on intimate partner violence awareness and education.

“Intimate partner violence affects people in every community, regardless of age, socioeconomic status, sexual orientation, gender, race, religion, or nationality. It can be difficult, even for family and friends, to recognize the signs of abuse. Professionals working in the grooming and beauty industry have a unique opportunity to recognize signs of abuse in their clients, as the profession requires close physical proximity and often creates an atmosphere of trust.

“Requiring a one-time, three-hour training program on intimate partner violence will give these professionals the tools to recognize the signs of intimate partner violence and potentially direct their clients to much-needed resources for help. The course will help licensees understand the dynamics of abuse and the barriers faced by survivors, which will help to cultivate empathy and compassion.

“I ask my colleagues to join me in supporting S.B. 518, S.D. 1. Mahalo.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 889 was adopted and S.B. No. 518, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO INTIMATE PARTNER VIOLENCE,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Harimoto, Ihara, Riviere). Noes, 1 (Kim).

Stand. Com. Rep. No. 893 (S.B. No. 1129, S.D. 2):

Senator Keith-Agaran moved that Stand. Com. Rep. No. 893 be adopted and S.B. No. 1129, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Green rose to speak in support of the measure with strong reservations as follows:

“Mr. President, this is landmark legislation. I commend the chairs of Consumer Protection and Judiciary and their teams for doing a ton of hard work. It is a great lift; I’ve been there twice. A couple points: I think that this is a law where safety will ultimately be critical, and we see some states across the country embracing death with dignity as the right thing to do for their citizens, and I think we all have very strong philosophical opinions about that one way or another. I can tell you, for one, that I have been a part of the care of dozens of people who have been very near death, and I’ve actually been their provider in a hospice capacity. Hospice is relevant; it is not part of this bill, but it is critically important that we continue to have hospice and palliative care, no matter what we ultimately decide as both the Senate and House. But I have seen people suffer and I’ve seen people get very good services there.

“Going the next step, to death with dignity, is a place that we do have to soul-search. One consideration and concern I have about this measure, and I’m going to take this in two parts, is who the providers will be, ultimately – whether they’ll be a physician like myself or a nurse practitioner. We passed very important legislation over the past several years to allow nurse practitioners to serve as primary care providers, and I think that was smart, I really do. I think that they provide extraordinary care. But many nurse practitioners are only out of practice one or two years and they’ll have the capacity to be a part of an end-of-life decision. I think we should be cautious about that. There are 13,500 providers in that space, and this is the ultimate decision. And by the same token, some of my physician colleagues – say, pathologists, for example, or radiologists – may have never presided over end-of-life questions, and I think they would be no more qualified than a nurse practitioner who hadn’t had training or another physician who had not spent time in end-of-life spaces. So I think that is a great concern; I hope that will be taken up going forward.

“A couple of the recommendations that I would make would be the following, should this bill have further discussion in the House or in conference committee: One, I think that, as we look at who the providers should be for this most important legislation to make sure no one suffers, I think we should make sure that after they’ve seen their primary care provider – whether that’s a nurse practitioner, who are excellent, or a primary care physician like a family practice doctor – I think that the second provider should definitely be a licensed physician who practices in a relevant specialty to that person who has terminal disease. I think we have a little bit of language work to do right there, and I do appreciate the Judiciary chair, who has been thinking very hard about that language. That is something I think we should clarify.

“A second change I think that we really need to make, and I will hearken back to another controversial issue, which is the prescription medical marijuana for pain management. In that case, in a space for prescribing or delivering what was a controversial substance, a controlled substance, we had the NED, our Narcotics Enforcement Division, spend some focus on our narcotics enforcement licenses. Here’s one of my old ones [*holds up license*]; you can see that there’s a space down here – if you want to be a part of the medical marijuana program, you just designate that. You say that I will be a prescriber of medical marijuana certificates, and the reason I say that is, I think we would be wise to do the same thing for people who want to participate as providers for death with

dignity. It’s obviously more significant – people we’ve prescribed 75 Seconal pills, or pentobarbital, which will absolutely kill you. So I think that makes sense.

“And, finally, I think that there should be some further discussion on how we hold providers accountable for the end-of-life decision that occurs. I think that it would be wise for us over time to find the effort, the additional effort – though much great effort has been put into this measure – to make sure that, notwithstanding any other consideration, we’re very intellectually honest as healthcare professionals about why people die. If people die of a medication overdose, intentional, or medically assisted death, I think we should be brave. I think we should take that issue head-on; I think we should be honest about how we describe a person’s death. I think that should be part of the public health question; I think it should be part of people’s medical record. I know that it’s controversial and scary for a lot of people, but if we’re going to be brave and pass death with dignity, I think we should be brave on behalf of all of our patients, all of our providers, and all of our constituents. I hope we’ll make some of these necessary changes in the months to come. Thank you, Mr. President.”

Senator Baker rose to speak in support of the measure as follows:

“Colleagues, this is really about individual choice. That’s really what it comes down to, because it’s an individual with a terminal illness, giving them the ability to take control of a part of their life that is as important to them as the growing-up, maturing, and aging. It really is about choice. It’s the ultimate choice. While it does create a regulatory process for adult residents in Hawai‘i who have medically confirmed terminal illnesses to obtain prescriptions for medication to end that patient’s life, it puts that control in the hands of that patient. If they want to be surrounded by loved ones, celebrating those last breaths, that’s their choice. If they don’t want to be in a hospice facility, medicated and without control, that’s their choice as well. We’re not saying that hospice is wrong – I think hospice does a wonderful job, but it may not be right for everyone. I know, when my time comes, I want to have that choice. Would I be like some who say, ‘I have that control, but maybe I’m not going to use it.’? That’s their choice as well, and we have provisions in this measure to actually allow those drugs to be taken back. But that’s the ultimate choice: How are we going to meet our maker? How are we going to go forward with that next phase of our existence? But if we can do it with assistance and with loving care, we’re going to be much more at peace with ourselves, I believe, and clearly that was the testimony that our committee heard.

“This measure is indeed modeled after Oregon’s Death with Dignity Act, which has been in effect for over 20 years. It was enacted during a time when no other state authorized the medical practice of aid in dying. It’s really not about the physician; it’s about the patient. During the two decades in which the law has been in place, there have been no cases of abuse. Six other states plus the District of Columbia have recently passed a similar law, indicating the growing support for aid in dying across the country. The public opinion of aid in dying in Hawai‘i reflects this national trend. A poll in December of 2016 indicated that 80 percent of Hawai‘i voters support aid in dying. Support for aid in dying is strong in all categories of age, gender, ethnicity, religion, and island of residence; it’s not an isolated support. Currently, our statutes lack any kind of regulated process for medical aid in dying, leaving terminally ill patients without complete and consistent access to end of life resources. Medical aid-in-dying laws, such as those in Oregon, California, Colorado, Vermont, and Washington, are based on the concept that the terminally ill should have the ability to make reasoned end-of-life decisions and choose to end life in a peaceful and humane manner, not starving to death and unable

to care for themselves. Remember, this is only for competent, able-minded individuals, and that is one of the safeguards that's in here.

"We received lots of support from all sectors of the State from all kinds of individuals, from the LGBT Caucus of the Democratic Party to the Chamber of Commerce for Persons with Disabilities to the Hawai'i Death with Dignity Society and many, many others. Over 200 individuals and more came to the Capitol to weigh in, and all of these testimony reinforced – even the ones who didn't support the measure – it reinforced, to us, the importance of autonomy, control, and choice for terminally ill patients in deciding just how much pain and suffering they're willing to endure.

"As I said, Senate Bill 1129, Senate Draft 2 – and I want to thank my colleagues on the Judiciary and Labor committee for their contributions to this measure because it includes the same strict safeguards and reporting requirements as the Oregon law, requiring the attending provider to inform terminally ill adults about other end-of-life options, including comfort care, hospice care, pain control; requiring a second provider to confirm the terminal prognosis and mental capacity; and requiring the terminally ill adult to make two verbal and one written request signed by two witnesses. In keeping with the overarching theme of choice, this measure clearly states that a qualified patient may rescind a request at any time and in any manner. Furthermore, providers may not write a prescription for medication under this measure without offering a qualified patient the opportunity to rescind.

"The terminally ill person's end of life choices are, colleagues, very deeply personal and private matters that should be left to the patient, the patient's family, the patient's attending provider. Accordingly, this measure permits mentally capable, terminally ill adults in Hawai'i to have the choice and the autonomy to make informed decisions regarding their end-of-life care. And with regard to advanced practice registered nurses, they are already part of our end-of-life care by being able to certify orders not to resuscitate, our POLST orders. So I urge my colleagues to join me in supporting this very compassionate bill, medical aid in dying, allowing their death certificate to note what the underlying illness was and not to create a legal cloud by saying that it was physician- or provider-assisted suicide. I believe that providing these medical death and dying options for terminally ill individuals is the most compassionate choice we can provide to them, and I ask my colleagues to join me in voting 'yes' on this measure. Mahalo."

Senator Nishihara rose in support of the measure, requesting that the remarks of the previous speaker be entered into the Journal as his own, and the Chair so ordered (by reference only).

Senator Keith-Agaran requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Keith-Agaran's remarks read as follows:

"Mr. President, in support of the measure. I appreciate the comments and work on this measure by the chair of the Committee on Consumer Protection and Health, and the thoughtful concerns expressed this morning by the chair of the Human Services Committee, and the heartfelt and profound concerns presented by my other colleagues. The Senate Draft 2 builds on the work of the prior committee and discussion and debates in prior session. For all of us, this bill implicates intimate personal issues and calls on all of us to consider our personal views and beliefs about life and faith and suffering, and this was reflected in many pieces of testimony submitted to the two committees considering this measure.

"Mr. President, this is a measure that we have considered in a very serious fashion. It includes important safeguards against misuse, coercion, or collusion. In reviewing and working on this measure, my aim was to ensure that it is consistent and clear when it comes to setting out procedures and safeguards.

"This bill applies only to persons with a terminal disease and a prognosis of no longer than six months to live. That medical prognosis must be confirmed separately by at least two medical professionals who are qualified to treat the patient's particular terminal disease.

"In order to address concerns expressed by committee members that the two medical professionals—again, who would both be qualified and trained to treat the patient's particular terminal illness—might be acting in concert or otherwise exerting undue influence over each other, the Senate Draft 2 added the important safeguard that they have no previously practiced together with respect to the same patient (Section -1, p. 3, lines 16-18).

"Further, the bill includes safeguards to ensure that the patient is mentally and psychologically able to make an informed decision. If either the attending provider or the consulting provider believe the patient may be suffering from a psychiatric or psychological disorder, or a depression causing impaired judgement, then the patient must be referred to counseling and is explicitly prohibited from receiving life-ending medication with the disorder or depression continues to exist. (Section -6, p. 11, SD2)

"This measure also requires the attending provider to ensure that the patient is making an informed decision, including a requirement that the attending provider explain to the patient that alternatives such as palliative care, hospice care and pain control may be feasible. (Section -4, p. 8 SD2)

"The attending provider is also required by this statute to recommend that a patient notify next of kin of the patient's decision to request life-ending medication. (Section -8, p. 12, SD2)

"Your Committee on Judiciary and Labor also strengthened and updated the safeguards in this measure by further limiting one of the persons who may serve as a witness to a person with no interest in the patient's estate under any trust document, in addition to no interest under a will or by operation of Hawai'i's inheritance law.

"Finally, the bill includes two waiting periods in the statute, that the patient may rescind a request at any time, and that the patient is of course under no obligation to take the medication. The bill provides that the attending provider must explicitly remind the patient that he or she always has an opportunity to rescind the request.

"In sum, this statute presents a valuable legal option to persons of sound mind who wish to deal personally with the final stage of their terminal illness in a manner that affords them comfort and dignity. It is a bill that requires all of us to vote based on our own conception of the value of life and suffering and even our ultimate ends."

Senator Green rose to speak in rebuttal as follows:

"Thank you, Mr. President; just a couple of follow-up comments. So, I understand that we often seek all the input we can on passing bills. In this particular case, though, I have to say I have some umbrage with citing a poll about what we should do on a life-and-death issue. I think we should always represent all of our people and the majority; this is an interesting issue, though. To say we've polled it and therefore suggest, 'Vote for it because large numbers of people are in favor of it, and fear your re-election,' or I don't know what, I

think is a grave mistake because, in this particular issue, there is no going back. Now, I'm, as I said earlier, going to vote in favor with reservations, but I should point out a couple things. We represent not only the 70 or 80 percent of people, I guess, as it was spoken about, who may support this issue – depending on how the question was raised – in the State of Hawai'i or across the country. We also represent the 25 or more percent people who have concerns about this.

“There is no perfect safeguard on this measure, and let me tell you why. Controlled substances get into the community. We know already that 50 percent of all the narcotics that result in overdose in our State of Hawai'i come off of the shelves of people who had them legitimately prescribed to them by nurse practitioners and doctors. We see abuse because of that. We see overdose, as we've spoken about over and over and over again on this floor. Let me give you some facts: 36 percent of people who have been prescribed death-with-dignity medications, barbiturates – which will kill you straight out – 36 percent will not take those medications. They will be sitting on people's shelves indefinitely if they haven't taken them. And I take to heart the peace of mind in case someone's suffering and they have not yet chosen to end their life. Those pills will end up in the hands of some teens and other family members and stolen and be on the black market – where they cost as much as \$5,000 – where they will be sold for profit. We already also have another fact to consider, which is, we have twice the national rate of suicide. You want to commit suicide, this is the way to do it. Taking 35 to 40 Seconals will kill you, with alcohol. Taking 75 by prescription will absolutely kill you.

“Now, I support people's right to die, should they choose it. I say we should put every possible safeguard for the 2 or 22 or 32 percent of people who are worried; or the people who are worried about their teen children; or worried about their loved one who, after they've died, may be depressed and take the other half of the pills. This is a very serious issue that cannot be polled, that cannot be pushed down a policy road without every last precaution. Please – as you go forward with this very progressive piece of legislation – please exercise the greatest caution, take the most time you possibly can in these hundred days to do all that we can to protect not only the rights of the individuals who choose death with dignity, but also their loved ones around them and our society around all of us. Thank you, members.”

Senator Gabbard rose to speak in opposition to the measure as follows:

“Mr. President, colleagues, while I realize many of you have made up your mind on this issue, I feel compelled to share with you a chance encounter I had yesterday after caucus, in Kapolei, at all places, Costco. I was in the parking lot, getting ready to leave, and I heard a voice from someone parked next to me that said, ‘Senator Gabbard, could I have a few minutes of your time?’ And I said, ‘Yeah, sure,’ and it was a guy, who introduced himself as Louie; and in the course of our conversation, he told me that he has pancreatic cancer, stage IV, and had been given a year to live. And he had been following S.B. 1129 ever since it came on the public square and the public scene. And one of the things that he said right off the bat was that the thing that he was pissed off about was this whole idea of choice, the ultimate choice – that he feels like he's got the ultimate choice. When he decided to do some research, he went online and he googled, ‘What is the easiest way, the fastest way I can commit suicide?’ And he made a choice, talked it over with his family, and the family is actually, if that time comes, if he makes that choice, the family decided they were going to have a big going-away party and then he was going to go into the room by himself and ... leave his body. So that was the thing that he was really angry about, that somehow, he was being denied this choice. The second thing he said was, he

could not even consider going to his family doctor, who he considers part of his family, and asking him to be a part of him committing suicide. So he said, ‘That's not even on the table.’ So I would ask that you – you may not have thought of that point of view – but I would ask that you take that into consideration as you deliberate on this very important bill. Mahalo.”

Senator Thielen rose to speak in support of the measure as follows:

“I think many of us here do support having the choice to end a life with dignity as opposed to some other means that may leave a very traumatic situation for your family to clean up. So to have the ability to go to a doctor is something that I think a lot of us do support. But I think many of us felt concerned about the bill that was initially introduced by some of the advocates and the claim that we didn't need safeguards because in Oregon, there'd been 20 years of history. And I know I was not comfortable with taking the bill without safeguards. So the introducer of this measure followed what was done in Oregon, but after some public discussion and public hearing, the first committee did amend the bill to strengthen those safeguards and address some of those concerns. And there was continued discussion and email. I sat on the second committee, and it was one of the better discussions I've heard at the committee level between the chair and the members to really address some of the concerns that some of the members had and to further strengthen the bill. I think we should be open as the bill continues, if it passes today and goes through the House, to continue to address and strengthen the bill. And I think it's important that we listen with an open mind when these issues are raised.

“One of the things I liked about the states where they do have this option is that when the public is surveyed, they have a deeper understanding of end-of-life choices, including hospice, including palliative care, so that many of them who don't take advantage of the death with dignity do take advantage of these other options, so they don't have to suffer needlessly. These are conversations that many families avoid because they're very difficult conversations. We shouldn't stunt the conversation in the Legislature because that's part of the process of the general public understanding that it's important to talk about these end-of-life situations with your family – what are your preferences? In many cases, family members who may want to exercise this option won't have it available to them because, at the end of their life, they're not conscious, and it's going to leave the rest of us to understand what it was they wanted and to make those decisions.

“It's important that we foster and support the conversations, and so while I don't agree with many of the amendments or ideas that are raised by the senator to my right, I support his right to raise them, and I think we need to treat those concerns with dignity ourselves and to consider them. I encourage House members to move this measure forward, to engage in that discussion and conversation at the House level. While I don't think it's just a popular vote, I do think it's important that so many people do want to have this option available to them, and I think it's important that we continue this conversation in our state and have our residents prepared for end of life, because the one thing that is certain is every single one of us is going to die. Every single one of our family members and loved ones is going to die. And we need to appreciate each other and respect each other while we're alive, but also to be prepared, so that we can meet the end in a way that we each would prefer. Thank you.”

Senator Kim rose to speak in support of the measure with reservations as follows:

“I just want to thank the Judiciary chair for considering amendments and safeguards that I requested, and because of that, I can vote for it with reservations. Thank you.”

Senator Harimoto rose to speak in opposition to the measure as follows:

“So, Mr. President, I have strong opposition to this bill, and I won’t go through the many reasons why I oppose it, but I just would like to explain what’s in my heart, because this is such an emotional and personal issue.

“First, there’s the foundation of my personal belief that life is a precious gift. No matter how bad things may seem to be, that sense of hope in our hearts keeps us all going, and unexplainable miracles happen. Second, we have already-legal compassionate choice to discontinue life-prolonging measures such as medication, ventilators, dialysis, feeding tubes, chemo – you know, the list goes on and on. Third, people today already have the choice to end their own lives and, sadly, this happens far too often. But they make that choice on their own and they do it by themselves; no doctor is involved. I cannot, in good conscience, vote to allow physicians to become complicit in their patient’s suicide. It is a misplaced sense of compassion to allow doctors to become agents of death.

“But most importantly, I’d like to relate my personal experience that makes me so strongly opposed to this bill. Mr. President, I don’t know how many of us sitting here today in this chamber have stared death in the face; I have. In June of 2015, I was diagnosed with pancreatic cancer. I thought my life was over. I knew that pancreatic cancer is one of the most deadly forms of cancer, with a very low survival rate. I knew people who died within a few months or just a few weeks after being diagnosed, and they suffered so much. And I knew that once pancreatic cancer spreads, it’s terminal. So a month later, in July, further tests confirmed that my cancer had spread to my right lung. I was devastated, and I broke down and cried, thinking that I would die soon.

“I’m sure that if I chose to not suffer through the surgeries and treatments, I would have been given just a few months to live. But after much prayer, my wife and I decided to have faith; I chose to fight for my life with every ounce of energy I had. I chose to have surgery to remove the cancerous part of my lung to prevent further growth and spread of that mass. After the surgery, the pathology report on the removed part of my lung showed that the tissue was not cancer, after all. Doctors had no explanation, but I know that it was the miracle that we had been praying for: Miracles do happen.

“I then chose to undergo major surgery to cut out everything that could possibly be cut out from my abdomen in an attempt to remove all the cancer. My surgeon said that this is one of the most complicated surgeries there is. It would be a six-hour surgery if all goes well. She said that cutting everything out is the easy part; reconnecting the remaining parts together so everything works properly is the hard part. The mortality rate of this surgery is high, and there is a large risk of major complications. I was wheeled into the operating room not knowing if I would die on the operating table. If I survived, I didn’t know what condition I would be in, but I chose to live. When I woke up, I gave thanks to God. My recovery in the hospital was slow and painful. I was suffering so much that at one point, when I couldn’t take it anymore, I just cried out to God to take me home. I just wanted it all to end. But with my wife at my side, reading scriptures of healing and faith, I eventually came to my senses. I wanted to live.

“Thinking back on this experience, I wonder what anyone who is given six months or less to live would do with those

pills. It would be too easy and tempting in a moment of weakness and despair to reach for those pills to end it all. I’m just glad I didn’t have those pills when I was suffering so much.

“The surgeon cut out half my pancreas; a third of my stomach; the first section of my intestines; removed my gall bladder, bile duct, and some lymph nodes. Recovery was slow and painful. I had a feeding tube sticking out of my abdomen that remained in me for more than a year that I used for nutrition because my digestive system was not working. Some cancer near an artery could not be removed, and the cancer would grow back without further treatment. After recovering sufficiently from the surgery, I endured six months of weekly chemo followed by two months of daily radiation and chemo. It made me so sick and weak and with extreme fatigue, and sometimes my mind was in such a fog that I had difficulty comprehending what was going on. This was eight months of suffering and pure torture, but I chose to live. It is a miracle that I am still alive today.

“After nearly two years of suffering so much in the hospital and with many trips to the ER and stays in the hospital, I’m now in remission and feeling good again. However, my doctors warn me that pancreatic cancer is aggressive and tends to recur. If the cancer returns, I will continue to fight with all I have and never give up, but my faith and my doctors will keep me going. Physicians must not be allowed to assist in causing their patient’s death.

“And I’d like to end by telling you about Charlie Wedemeyer, a sports legend from Hawai‘i. Charlie was diagnosed with ALS and given just one year to live. As his condition deteriorated to a point where he was kept alive through machines, he continued to have faith and chose life. This past Sunday, coincidentally, his wife, Lucy, told us in church that when things got really bad, Charlie continued to keep on going. Lucy recalled that one of the times when it appeared that he was near death, the doctors put a ‘Do not resuscitate’ on him, thinking that it was best to just let him go. But Charlie and Lucy chose life. Originally given one year to live, Charlie persevered and endured the pain and suffering with ALS for 34 years, finally passing away in 2010. During those 34 years, Charlie touched thousands of lives, and his story of choosing life and enduring pain and suffering continues to give hope and inspiration to millions.

“How sad it would have been if Charlie chose to take those pills to end his life when he was suffering so much and appeared to be at death’s door 34 years ago. And I would not be standing here today if, in my moment of despair, suffering so much and with the grim prognosis of pancreatic cancer, that I took those pills. Because I stared death in the face two years ago, and I still face the prospect of the cancer returning, I see very clearly that life is so precious. We should be making laws to give people a sense of hope, not making laws that allow physicians to assist in death. So, Mr. President, I will be voting ‘no.’ Thank you.”

The Chair stated:

“Before calling the vote, I think each one of you sitting in your chairs saw exactly what I saw standing up here, and the emotion on the face of each one of the members, and it is clear to me from where I stand that there isn’t a single member here who is taking this decision lightly and has searched their souls in how they’re going to cast their vote. And of that much, I am assured, as we’re going to call for the vote.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 893 was adopted and S.B. No. 1129, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO HEALTH,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22; Ayes with Reservations (Green, Kim). Noes, 3 (Gabbard, Harimoto, Riviere).

Stand. Com. Rep. No. 905 (S.B. No. 221, S.D. 2):

Senator Tokuda moved that Stand. Com. Rep. No. 905 be adopted and S.B. No. 221, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Baker requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I stand in support of S.B. 221, S.D. 2, Relating to Highway Safety.

"The purpose of this measure is to establish a photo red light imaging detector systems program to improve public safety and enforcement of the traffic signal laws. This bill will allow counties to implement the program, establish a red light running committee to review this act and make recommendations on how to improve it, prior to its implementation. The measure also authorizes that the fines collected under a county's program to be deposited into a general fund account. These funds can then be expended by the county in which the fine was collected for the operation, management and maintenance of the photo red light imaging detector systems program.

"There is a growing prevalence of violations of Hawaii's traffic laws, particularly drivers who run red lights. It has become increasingly common to hear reports of hit-and-run drivers who have run over children or the elderly. These violations endanger the lives of motorists and pedestrians and compound the already hazardous conditions on Hawaii's roads and highways.

"Photo red light imaging detector systems have proven to be effective in identifying and deterring motorists running a red light in other jurisdictions in the United States, in Canada and in countries in Europe and elsewhere. In a 2011 study by the Insurance Institute for Highway Safety, large cities with long standing red-light camera programs found that the cameras reduced by 24 percent the number of fatal crashes caused by running a red light.

"The photo speed imaging detector system, created in 1998 and implemented in January 2002, generated intense public opposition; however, the majority of the opposition to this program resulted from the method by which the program was implemented. This measure establishes a red light running committee under the Department of Transportation to review this Act to provide the necessary amendments that may be considered during the 2018 legislative session prior to implementation. Through the establishment of this committee, the program can be improved to better protect citizens and allay concerns raised. The committee will include county police, county prosecutors and county officials.

"Photo red light imaging detectors systems provide protections against negligent drivers who pose dangers to pedestrians and motorists. Safer streets could lead to a decreased need for traffic enforcement, fewer violators in court due to the color photograph violation, and lower insurance costs for safe drivers due to an overall reduction in crashes and injuries.

"There is support for this measure from the Department of Transportation, the Honolulu Police Department, the Mayor of the County of Hawaii and Mothers Against Drunk Driving.

"I urge my colleagues to join me in supporting S.B. 221, S.D. 2."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 905 was adopted and S.B. No. 221, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HIGHWAY SAFETY," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22; Ayes with Reservations (English, Kim, Taniguchi). Noes, 3 (Green, Riviere, Ruderman).

Stand. Com. Rep. No. 907 (S.B. No. 501, S.D. 1):

Senator Tokuda moved that Stand. Com. Rep. No. 907 be adopted and S.B. No. 501, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Baker requested that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 501, S.D. 1, Relating to Health. The purpose of this bill is to ensure that women in Hawaii are able to make personal reproductive health decisions with full and accurate information regarding their rights to access available reproductive healthcare services in the State.

"S.B. 501, S.D. 1 will require limited service pregnancy centers to disclose in writing to potential patients that they do not offer a full range of family planning services. It also specifies that these centers provide information on where a patient may access a full range of care; and it establishes necessary privacy and disclosure requirements for individual records and information, and for civil remedies.

"All women in the State, regardless of income, should easily be able to access comprehensive reproductive health services. The Patient Protection and Affordable Care Act recognize that all women should have 'immediate access to free or low-cost comprehensive family planning services and pregnancy-related care.'

"Limited service pregnancy centers, also known as crisis pregnancy centers, do not provide comprehensive family planning services. Limited service pregnancy centers advertise free pregnancy tests and offer other services, leading a consumer to believe they are full-service women's health clinics. However, these centers are not what they seem. They aim to discourage and prevent women from seeking abortions, by delaying access to true family planning services, and by reproaching vulnerable women on religious grounds through mandatory 'counseling' sessions.

"Your committee received testimony that these centers have used patients' personal information and email addresses without authorization; during the hearing on 2/27/17, a representative of a limited service pregnancy center attempted to offer, publicly and without consent, information about another testifier present, which was obtained during her visit to the limited service pregnancy center. This irresponsible action highlights the need for the privacy protections present in this bill.

"Your CPH committee has heard, but lends little credence to opponents' spurious complaints regarding a violation of first amendment freedoms. Your committee also notes with irony that the complaints come from parties who would attempt to impose their own religious views on vulnerable persons. These women come seeking unbiased information and access to a full range of care. However, based on the false way in which the clinics promote themselves, these vulnerable women do not receive the unbiased, appropriate information and care they need. Despite opponents claims to the contrary, a similar California law has overcome a constitutional challenge in the 9th Circuit Court of Appeals in 2016.

"I urge my colleagues to join me in supporting S.B. 501, S.D. 1. Let's help protect woman's constitutionally protected rights. Mahalo."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 907 was adopted and S.B. No. 501, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22; Ayes with Reservations (Ihara, Kim). Noes, 3 (Gabbard, Harimoto, Riviere).

Stand. Com. Rep. No. 908 (S.B. No. 1084, S.D. 2):

On motion by Senator Tokuda, seconded by Senator Keith-Agaran and carried, Stand. Com. Rep. No. 908 was adopted and S.B. No. 1084, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII TOURISM AUTHORITY," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25; Ayes with Reservations (Kim). Noes, none.

At this time, Senator Kim rose to remind the members that the Committee on Government Operations would be holding a hearing that afternoon at 2:45 p.m. in Conference Room 224 to consider the nomination of the director of the Department of Accounting and General Services.

The Chair remarked, in good humor:

"Senator Green, I don't know why you referenced you and me on the discussion of testosterone. I pointed out there was no HIPAA violation by what you were disclosing – I am not your patient; you have not examined me. And I don't know why brought me into that whole conversation, but I wanted that into the Journal and clarified for history's purposes."

ADJOURNMENT

At 12:37 p.m., on motion by Senator Espero, seconded by Senator English and carried, the Senate adjourned until 11:30 a.m., Thursday, March 9, 2017.

§447-3 Employment of and practice by dental hygienists. (a) Any licensed dentist, legally incorporated eleemosynary dental dispensary or infirmary, private school, welfare center, hospital, nursing home, adult day care center or assisted living facility, mental institution, nonprofit health clinic, or the State or any county, may employ licensed dental hygienists.

(b) Clinical dental hygiene may be practiced by a licensed dental hygienist. The practice of clinical dental hygiene is defined as the removal of hard and soft deposits and stains from the portion of the crown and root surfaces to the depth of the gingival sulcus, polishing natural and restored surfaces of teeth, the application of preventive chemical agents to the coronal surfaces of teeth, which chemical agents have been approved by the board of dental examiners, and the use of mouth washes approved by the board, but shall not include the performing of any repair work or the preparation thereof, or any other operation on the teeth or tissues of the mouth; provided that nothing in this subsection shall prohibit a dental hygienist from using or applying topically any chemical agent which has been approved in writing by the department of health for any of the purposes set forth in part V of chapter 321, and other procedures delegated by a dentist in accordance with the rules of the board of dental examiners.

In addition, a licensed dental hygienist may administer intra-oral infiltration local anesthesia and intra-oral block anesthesia under the direct supervision of a dentist after being certified by the board, and for those categories of intra-oral infiltration local anesthesia and intra-oral block anesthesia for which the licensed dental hygienist has been certified through a course of study meeting the requirements of this chapter.

(c) A licensed dental hygienist may operate in the office of any licensed dentist, or legally incorporated eleemosynary dental dispensary or infirmary, private school, welfare center, hospital, nursing home, adult day care center or assisted living facility, mental institution, nonprofit health clinic, or in any building owned or occupied by the State or any county, but only under the aforesaid employment and under the direct or general supervision of a licensed dentist; provided that in the private practice of dentistry, the hygienist shall be under the direct supervision of a licensed dentist. No dental hygienist may establish or operate any separate care facility which exclusively renders dental hygiene services.

(d) A licensed dental hygienist may operate under the general or direct supervision of any licensed dentist providing dental services in a public health setting. As used in this subsection, "public health setting" includes dental services in a legally incorporated eleemosynary dental dispensary or infirmary, private school, welfare center, hospital, nursing home, adult day care center or assisted living facility, mental institution, nonprofit health clinic, or the State or any county. A licensed dental hygienist employed in a public health setting may perform dental education, dental screenings, and fluoride applications. Other permissible duties shall be pre-screened and authorized by a supervising licensed dentist, subject to the dentist's determination that the equipment and facilities are appropriate and satisfactory to carry out the recommended treatment plan. No direct reimbursements shall be provided to licensed dental hygienists. [\$447-3.5] Educational requirements for intra-oral block anesthesia.

(a) The applicant for certification to administer intra-oral block anesthesia shall show proof that the applicant successfully completed a course of study that shall include the following categories of intra-oral infiltration local anesthesia and intra-oral block anesthesia:

- (1) Maxillary mandibular infiltration anesthesia;
- (2) Long buccal nerve block anesthesia;
- (3) Mental nerve block;
- (4) Inferior alveolar/lingual nerve block;
- (5) Incisive nerve block;
- (6) Posterior superior alveolar nerve block;
- (7) Middle superior alveolar nerve block;
- (8) Anterior superior alveolar nerve block;
- (9) Nasopalatine (incisive canal) nerve block; and
- (10) Greater (anterior) palatine nerve block.

(b) A course of study shall also include didactic studies and clinical experience, and for intra-oral block anesthesia categories in subsection (a) (1) to (10), at least thirty-nine hours, and a minimum of fifty successful injections of which ten shall be in intra-oral block in subsection (a) (4) and five in intra-oral block in subsection (a) (6).

(c) The curriculum of the course of study shall include as follows:

- (1) Cardiopulmonary resuscitation certification;
- (2) Medical history evaluation procedures;
- (3) Physical evaluation procedures;
- (4) Anatomy of head, neck, and oral cavity as it relates to administering local anesthetic agents;
- (5) Pharmacology of local anesthetics and vasoconstrictors;
- (6) Indications and contraindications for administration of local anesthetics;
- (7) Prevention, diagnosis, and management of medical emergency;
- (8) Recognition and management of post-injection complications and management of reactions to injections;
- (9) Medical and legal management complications;
- (10) Selection and preparation of the armamentaria and recordkeeping for administering various local anesthetics;
- (11) Methods of administering local anesthetics with emphasis on technique, which includes aspiration and slow injection, in addition to minimum effective dosage; and
